(d) AIRCRAFT OF ARMED FORCES OF FOREIGN COUNTRIES.—Aircraft of the armed forces of a foreign country may be navigated in the United States only when authorized by the Secretary of State.

(e) NO EXCLUSIVE RIGHTS AT CERTAIN FACILITIES.—A person does not have an exclusive right to use an air navigation facility on which Government money has been expended. However, providing services at an airport by only one fixed-based operator is not an exclusive right if—

(1) it is unreasonably costly, burdensome, or impractical for more than one fixed-based operator to provide the services; and

(2) allowing more than one fixed-based operator to provide the services requires a reduction in space leased under an agreement existing on September 3, 1982, between the operator and the airport.

CONVENTION FOR THE UNIFICATION OF CERTAIN
RULES RELATING TO INTERNATIONAL TRANSPORTATION BY AIR

THE PRESIDENT OF THE GERMAN REICH, THE FEDERAL PRESIDENT OF THE REPUBLIC OF AUSTRIA, HIS MAJESTY THE KING OF THE BELGIANS, THE PRESIDENT OF THE UNITED STATES OF BRAZIL, HIS MAJESTY THE KING OF THE BULGARIANS, THE PRESIDENT OF THE NATIONALIST GOVERNMENT OF CHINA, HIS MAJESTY THE KING OF DENMARK AND ICELAND, HIS MAJESTY THE KING OF EGYPT, HIS MAJESTY THE KING OF SPAIN, THE CHIEF OF STATE OF THE REPUBLIC OF ESTONIA, THE PRESIDENT OF THE REPUBLIC OF FINLAND, THE PRESIDENT OF THE FRENCH REPUBLIC, HIS MAJESTY THE KING OF GREAT BRITAIN, IRELAND, AND THE BRITISH DOMINIONS BEYOND THE SEAS, EMPEROR OF INDIA, THE PRESIDENT OF THE HELLENIC REPUBLIC, HIS MOST SERENE HIGHNESS THE REGENT OF THE KINGDOM OF HUNGARY, HIS MAJESTY THE KING OF ITALY, HIS MAJESTY THE EMPEROR OF JAPAN, THE PRESIDENT OF THE REPUBLIC OF LATVIA, HER ROYAL HIGHNESS THE GRAND DUCHESS OF LUXEMBURG, THE PRESIDENT OF THE UNITED MEXICAN STATES, HIS MAJESTY THE KING OF NORWAY, HER MAJESTY THE QUEEN OF THE NETHERLANDS, THE PRESIDENT OF THE REPUBLIC OF POLAND, HIS MAJESTY THE KING OF RUMANIA, HIS MAJESTY THE KING OF SWEDEN, THE SWISS FEDERAL COUNCIL, THE PRESIDENT OF THE CZECHOSLOVAK REPUBLIC, THE CENTRAL EXECUTIVE COMMITTEE OF THE UNION OF SOVIET SOCIALIST REPUBLICS, THE PRESIDENT OF THE UNITED STATES OF VENEZUELA, HIS MAJESTY THE KING OF YUGOSLAVIA:

Having recognized the advantage of regulating in a uniform manner the conditions of international transportation by air in respect of the documents used for such transportation and of the liability of the carrier,

Have nominated to this end their respective Plenipotentiaries, who being thereto duly authorized, have concluded and signed the following convention:

CHAPTER I—SCOPE—DEFINITIONS

Article 1

(1) This convention shall apply to all international transportation of persons, baggage, or goods performed by aircraft for hire. It shall apply equally to gratuitous transportation by aircraft performed by an air transportation enterprise.

(2) For the purpose of this convention the expression “international transportation” shall mean any transportation in which, according to the contract made by the parties, the place of departure and the place of destination, whether or not there be a break in the transportation or a transshipment, are situated either within the territories of two High Contracting Parties, or within the territory of a single High Contracting Party, if there is an agreed stopping place within a territory subject to the sovereignty, suzerainty, mandate or authority of another power, even though that power is not a party to this convention. Transportation without such an agreed stopping place between territories subject to the sovereignty, suzerainty, mandate, or authority of the same High Contracting Party shall not be deemed to be international for the purposes of this convention.

(3) Transportation to be performed by several successive air carriers shall be deemed, for the purposes of this convention, to be one undivided transportation, if it has been regarded by the parties as a single operation, whether it has been agreed upon under the form of a single contract or of a series of contracts, and it shall not lose its international character merely because one contract or series of contracts is to be performed entirely within a territory subject to the sovereignty, suzerainty, mandate, or authority of the same High Contracting Party.

Article 2

(1) This convention shall apply to transportation performed by the state or by legal entities constituted under public law provided it falls within the conditions laid down in article 1.

(2) This convention shall not apply to transportation performed under the terms of any international postal convention.

CHAPTER II—TRANSPORTATION DOCUMENTS

SECTION I—PASSENGER TICKET

Article 3

(1) For the transportation of passengers the carrier must deliver a passenger ticket which shall contain the following particulars:

(a) The place and date of issue;

(b) The place of departure and of destination;

(c) The agreed stopping places, provided that the carrier may reserve the right to alter the stopping places in case of necessity, and that if he exercises that right, the alteration shall not have the effect of depriving the transportation of its international character;

(d) The name and address of the carrier or carriers;

(e) A statement that the transportation is subject to the rules relating to liability established by this convention.

(2) The absence, irregularity, or loss of the passenger ticket shall not affect the existence or the validity of the contract of transportation, which shall none the less be subject to the rules of this convention. Nevertheless, if the carrier accepts a passenger without a passenger ticket having been delivered he shall not be entitled to avail himself of those provisions of this convention which exclude or limit his liability.

SECTION II—BAGGAGE CHECK

Article 4

(1) For the transportation of baggage, other than small personal objects of which the passenger takes charge himself, the carrier must deliver a baggage check.

(2) The baggage check shall be made out in duplicate, one part for the passenger and the other part for the carrier.

(3) The baggage check shall contain the following particulars:

(a) The place and date of issue;

(b) The place of departure and of destination;

(c) The name and address of the carrier or carriers;

(d) The number of the passenger ticket;

(e) A statement that delivery of the baggage will be made to the bearer of the baggage check;

(f) The number and weight of the packages;

(g) The amount of the value declared in accordance with article 22(2);

(h) A statement that the transportation is subject to the rules relating to liability established by this convention.

(4) The absence, irregularity, or loss of the baggage check shall not affect the existence or the validity of the contract of transportation which shall none the less be subject to the rules of this convention. Nevertheless, if the carrier accepts baggage without a baggage check having been delivered, or if the baggage check does not contain the particulars set out at (d), (f), and (h) above, the carrier shall not be entitled to avail himself of those provisions of the convention which exclude or limit his liability.

SECTION III—AIR WAYBILL

Article 5

(1) Every carrier of goods has the right to require the consignor to make out and hand over to him a document called an “air waybill”: every consignor has the right to require the carrier to accept this document.

(2) The absence, irregularity, or loss of this document shall not affect the existence or the validity of the con-

tract of transportation which shall, subject to the provisions of article 9, be none the less governed by the rules of this convention.

Article 6

(1) The air waybill shall be made out by the consignor in three original parts and be handed over with the goods.

(2) The first part shall be marked "for the carrier", and shall be signed by the consignor. The second part shall be marked "for the consignee"; it shall be signed by the consignor and by the carrier and shall accompany the goods. The third part shall be signed by the carrier and handed by him to the consignor after the goods have been accepted.

(3) The carrier shall sign on acceptance of the goods.

(4) The signature of the carrier may be stamped; that of the consignor may be printed or stamped.

(5) If, at the request of the consignor, the carrier makes out the air waybill, he shall be deemed, subject to proof to the contrary, to have done so on behalf of the consignor.

Article 7

The carrier of goods has the right to require the consignor to make out separate waybills when there is more than package.

Article 8

The air waybill shall contain the following particulars:

- (a) The place and date of its execution;
- (b) The place of departure and of destination;
- (c) The agreed stopping places, provided that the carrier may reserve the right to alter the stopping places in case of necessity, and that if he exercises that right the alteration shall not have the effect of depriving the transportation of its international character;
- (d) The name and address of the consignor;
- (e) The name and address of the first carrier;
- (f) The name and address of the consignee, if the case so requires;
- (g) The nature of the goods;
- (h) The number of packages, the method of packing, and the particular marks or numbers upon them;
- (i) The weight, the quantity, the volume, or dimensions of the goods;
- (j) The apparent condition of the goods and of the packing;
- (k) The freight, if it has been agreed upon, the date and place of payment, and the person who is to pay it;
- (l) If the goods are sent for payment on delivery, the price of the goods, and, if the case so requires, the amount of the expenses incurred;
- (m) The amount of the value declared in accordance with article 22(2);
- (n) The number of parts of the air waybill;
- (o) The documents handed to the carrier to accompany the air waybill;
- (p) The time fixed for the completion of the transportation and a brief note of the route to be followed, of these matters have been agreed upon;
- (q) A statement that the transportation is subject to the rules relating to liability established by this convention.

Article 9

If the carrier accepts goods without an air waybill having been made out, or if the air waybill does not contain all the particulars set out in article 8(a) to (i), inclusive, and (q), the carrier shall not be entitled to avail himself of the provisions of this convention which exclude or limit his liability.

Article 10

(1) The consignor shall be responsible for the correctness of the particulars and statements relating to the goods which he inserts in the air waybill.

(2) The consignor shall be liable for all damages suffered by the carrier or any other person by reason of

the irregularity, incorrectness or incompleteness of the said particulars and statements.

Article 11

(1) The air waybill shall be *prima facie* evidence of the conclusion of the contract, of the receipt of the goods and of the conditions of transportation.

(2) The statements in the air waybill relating to the weight, dimensions, and packing of the goods, as well as those relating to the number of packages, shall be *prima facie* evidence of the facts stated; those relating to the quantity, volume, and condition of the goods shall not constitute evidence against the carrier except so far as they both have been, and are stated in the air waybill to have been, checked by him in the presence of the consignor, or relate to the apparent condition of the goods.

Article 12

(1) Subject to his liability to carry out all his obligations under the contract of transportation, the consignor shall have the right to dispose of the goods by withdrawing them at the airport of departure or destination, or by stopping them in the course of the journey on any landing, or by calling for them to be delivered at the place of destination, or in the course of the journey to a person other than the consignee named in the air waybill, or by requiring them to be returned to the airport of departure. He must not exercise this right of disposition in such a way as to prejudice the carrier or other consignors, and he must repay any expenses occasioned by the exercise of this right.

(2) If it is impossible to carry out the orders of the consignor the carrier must so inform him forthwith.

(3) If the carrier obeys the orders of the consignor for the disposition of the goods without requiring the production of the part of the air waybill delivered to the latter, he will be liable, without prejudice to his right of recovery from the consignor, for any damage which may be caused thereby to any person who is lawfully in possession of that part of the air waybill.

(4) The right conferred on the consignor shall cease at the moment when that of the consignee begins in accordance with article 13, below. Nevertheless, if the consignee declines to accept the waybill or the goods, or if he cannot be communicated with, the consignor shall resume his right of disposition.

Article 13

(1) Except in the circumstances set out in the preceding article, the consignee shall be entitled, on arrival of the goods at the place of destination, to require the carrier to hand over to him the air waybill and to deliver the goods to him, on payment of the charges due and on complying with the conditions of transportation set out in the air waybill.

(2) Unless it is otherwise agreed, it shall be the duty of the carrier to give notice to the consignee as soon as the goods arrive.

(3) If the carrier admits the loss of the goods, or if the goods have not arrived at the expiration of seven days after the date on which they ought to have arrived, the consignee shall be entitled to put into force against the carrier the rights which flow from the contract of transportation.

Article 14

The consignor and the consignee can respectively enforce all the rights given them by articles 12 and 13, each in his own name, whether he is acting in his own interest or in the interest of another, provided that he carries out the obligations imposed by the contract.

Article 15

(1) Articles 12, 13, and 14 shall not affect either the relations of the consignor and the consignee with each other or the relations of third parties whose rights are derived either from the consignor or from the consignee.

(2) The provisions of articles 12, 13, and 14 can only be varied by express provision in the air waybill.

Article 16

(1) The consignor must furnish such information and attach to the air waybill such documents as are necessary to meet the formalities of customs, octroi, or police before the goods can be delivered to the consignee. The consignor shall be liable to the carrier for any damage occasioned by the absence, insufficiency, or irregularity of any such information or documents, unless the damage is due to the fault of the carrier or his agents.

(2) The carrier is under no obligation to enquire into the correctness or sufficiency of such information or documents.

CHAPTER III—LIABILITY OF THE CARRIER

Article 17

The carrier shall be liable for damage sustained in the event of the death or wounding of a passenger or any other bodily injury suffered by a passenger, if the accident which caused the damage so sustained took place on board the aircraft or in the course of any of the operations of embarking or disembarking.

Article 18

(1) The carrier shall be liable for damage sustained in the event of the destruction or loss of, or of damage to, any checked baggage or any goods, if the occurrence which caused the damage so sustained took place during the transportation by air.

(2) The transportation by air within the meaning of the preceding paragraph shall comprise the period during which the baggage or goods are in charge of the carrier, whether in an airport or on board an aircraft, or in the case of a landing outside an airport, in any place whatsoever.

(3) The period of the transportation by air shall not extend to any transportation by land, by sea, or by river performed outside an airport. If, however, such transportation takes place in the performance of a contract for transportation by air, for the purpose of loading, delivery or transshipment, any damage is presumed, subject to proof to the contrary, to have been the result of an event which took place during the transportation by air.

Article 19

The carrier shall be liable for damage occasioned by delay in the transportation by air of passengers, baggage, or goods.

Article 20

(1) The carrier shall not be liable if he proves that he and his agents have taken all necessary measures to avoid the damage or that it was impossible for him or them to take such measures.

(2) In the transportation of goods and baggage the carrier shall not be liable if he proves that the damage was occasioned by an error in piloting, in the handling of the aircraft, or in navigation and that, in all other respects, he and his agents have taken all necessary measures to avoid the damage.

Article 21

If the carrier proves that the damage was caused by or contributed to by the negligence of the injured person the court may, in accordance with the provisions of its own law, exonerate the carrier wholly or partly from his liability.

Article 22

(1) In the transportation of passengers the liability of the carrier for each passenger shall be limited to the sum of 125,000 francs. Where, in accordance with the law of the court to which the case is submitted, damages may be awarded in the form of periodical pay-

ments, the equivalent capital value of the said payments shall not exceed 125,000 francs. Nevertheless, by special contract, the carrier and the passenger may agree to a higher limit of liability.

(2) In the transportation of checked baggage and of goods, the liability of the carrier shall be limited to a sum of 250 francs per kilogram, unless the consignor has made, at the time when the package was handed over to the carrier, a special declaration of the value at delivery and has paid a supplementary sum if the case so requires. In that case the carrier will be liable to pay a sum not exceeding the declared sum, unless he proves that that sum is greater than the actual value to the consignor at delivery.

(3) As regards objects of which the passenger takes charge himself the liability of the carrier shall be limited to 5,000 francs per passenger.

(4) The sums mentioned above shall be deemed to refer to the French franc consisting of 65½ milligrams of gold at the standard of fineness of nine hundred thousandths. These sums may be converted into any national currency in round figures.

Article 23

Any provision tending to relieve the carrier of liability or to fix a lower limit than that which is laid down in this convention shall be null and void, but the nullity of any such provision shall not involve the nullity of the whole contract, which shall remain subject to the provisions of this convention.

Article 24

(1) In the cases covered by articles 18 and 19 any action for damages, however founded, can only be brought subject to the conditions and limits set out in this convention.

(2) In the cases covered by article 17 the provisions of the preceding paragraph shall also apply, without prejudice to the questions as to who are the persons who have the right to bring suit and what are their respective rights.

Article 25

(1) The carrier shall not be entitled to avail himself of the provisions of this convention which exclude or limit his liability, if the damage is caused by his willful misconduct or by such default on his part as, in accordance with the law of the court to which the case is submitted, is considered to be equivalent to wilful misconduct.

(2) Similarly the carrier shall not be entitled to avail himself of the said provisions, if the damage is caused under the same circumstances by any agent of the carrier acting within the scope of his employment.

Article 26

(1) Receipt by the person entitled to the delivery of baggage or goods without complaint shall be *prima facie* evidence that the same have been delivered in good condition and in accordance with the document of transportation.

(2) In case of damage, the person entitled to delivery must complain to the carrier forthwith after the discovery of the damage, and, at the latest, within 3 days from the date of receipt in the case of baggage and 7 days from the date of receipt in the case of goods. In case of delay the complaint must be made at the latest within 14 days from the date on which the baggage or goods have been placed at his disposal.

(3) Every complaint must be made in writing upon the document of transportation or by separate notice in writing dispatched within the times aforesaid.

(4) Failing complaint within the times aforesaid, no action shall lie against the carrier, save in the case of fraud on his part.

Article 27

In the case of the death of the person liable, an action for damages lies in accordance with the terms of this

convention against those legally representing his estate.

Article 28

(1) An action for damages must be brought, at the option of the plaintiff, in the territory of one of the High Contracting Parties, either before the court of the domicile of the carrier or of his principal place of business, or where he has a place of business through which the contract has been made, or before the court at the place of destination.

(2) Questions of procedure shall be governed by the law of the court to which the case is submitted.

Article 29

(1) The right to damages shall be extinguished if an action is not brought within 2 years, reckoned from the date of arrival at the destination, or from the date on which the aircraft ought to have arrived, or from the date on which the transportation stopped.

(2) The method of calculating the period of limitation shall be determined by the law of the court to which the case is submitted.

Article 30

(1) In the case of transportation to be performed by various successive carriers and falling within the definition set out in the third paragraph of article 1, each carrier who accepts passengers, baggage or goods shall be subject to the rules set out in this convention, and shall be deemed to be one of the contracting parties to the contract of transportation insofar as the contract deals with that part of the transportation which is performed under his supervision.

(2) In the case of transportation of this nature, the passenger or his representative can take action only against the carrier who performed the transportation during which the accident or the delay occurred, save in the case where, by express agreement, the first carrier has assumed liability for the whole journey.

(3) As regards baggage or goods, the passenger or consignor shall have a right of action against the first carrier, and the passenger or consignee who is entitled to delivery shall have a right of action against the last carrier, and further, each may take action against the carrier who performed the transportation during which the destruction, loss, damage, or delay took place. These carriers shall be jointly and severally liable to the passenger or to the consignor or consignee.

CHAPTER IV—PROVISIONS RELATING TO COMBINED
TRANSPORTATION

Article 31

(1) In the case of combined transportation performed partly by air and partly by any other mode of transportation, the provisions of this convention shall apply only to the transportation by air, provided that the transportation by air falls within the terms of article 1.

(2) Nothing in this convention shall prevent the parties in the case of combined transportation from inserting in the document of air transportation conditions relating to other modes of transportation, provided that the provisions of this convention are observed as regards the transportation by air.

CHAPTER V—GENERAL AND FINAL PROVISIONS

Article 32

Any clause contained in the contract and all special agreements entered into before the damage occurred by which the parties purport to infringe the rules laid down by this convention, whether by deciding the law to be applied, or by altering the rules as to jurisdiction, shall be null and void. Nevertheless for the transportation of goods arbitration clauses shall be allowed, subject to this convention, if the arbitration is to take place within one of the jurisdictions referred to in the first paragraph of article 28.

Article 33

Nothing contained in this convention shall prevent the carrier either from refusing to enter into any contract of transportation or from making regulations which do not conflict with the provisions of this convention.

Article 34

This convention shall not apply to international transportation by air performed by way of experimental trial by air navigation enterprises with the view to the establishment of regular lines of air navigation, nor shall it apply to transportation performed in extraordinary circumstances outside the normal scope of an air carrier's business.

Article 35

The expression "days" when used in this convention means current days, not working days.

Article 36

This convention is drawn up in French in a single copy which shall remain deposited in the archives of the Ministry for Foreign Affairs of Poland and of which one duly certified copy shall be sent by the Polish Government to the Government of each of the High Contracting Parties.

Article 37

(1) This convention shall be ratified. The instruments of ratification shall be deposited in the archives of the Ministry for Foreign Affairs of Poland, which shall give notice of the deposit to the Government of each of the High Contracting Parties.

(2) As soon as this convention shall have been ratified by five of the High Contracting Parties it shall come into force as between them on the nineteenth day after the deposit of the fifth ratification. Thereafter it shall come into force between the High Contracting Parties which shall have ratified and the High Contracting Party which deposits its instrument of ratification on the ninetieth day after the deposit.

(3) It shall be the duty of the Government of the Republic of Poland to notify the Government of each of the High Contracting Parties of the date on which this convention comes into force as well as the date of the deposit of each ratification.

Article 38

(1) This convention shall, after it has come into force, remain open for adherence by any state.

(2) The adherence shall be effected by a notification addressed to the Government of the Republic of Poland, which shall inform the Government of each of the High Contracting Parties thereof.

(3) The adherence shall take effect as from the ninth day after the notification made to the Government of the Republic of Poland.

Article 39

(1) Any one of the High Contracting Parties may denounce this convention by a notification addressed to the Government of the Republic of Poland, which shall at once inform the Government of each of the High Contracting Parties.

(2) Denunciation shall take effect six months after the notification of denunciation, and shall operate only as regards the party which shall have proceeded to denunciation.

Article 40

(1) Any High Contracting Party may, at the time of signature or of deposit of ratification or of adherence, declare that the acceptance which it gives to this convention does not apply to all or any of its colonies, protectorates, territories under mandate, or any other territory subject to its sovereignty or its authority, or any other territory under its suzerainty.

(2) Accordingly any High Contracting Party may subsequently adhere separately in the name of all or any of its colonies, protectorates, territories under mandate, or any other territory subject to its sovereignty or to its authority or any other territory under its suzerainty which have been thus excluded by its original declaration.

(3) Any High Contracting Party may denounce this convention, in accordance with its provisions, separately or for all or any of its colonies, protectorates, territories under mandate, or any other territory subject to its sovereignty or to its authority, or any other territory under its suzerainty.

Article 41

Any High Contracting Party shall be entitled not earlier than two years after the coming into force of this convention to call for the assembling of a new international conference in order to consider any improvements which may be made in this convention. To this end it will communicate with the Government of the French Republic which will take the necessary measures to make preparations for such conference.

This convention, done at Warsaw on October 12, 1929, shall remain open for signature until January 31, 1930.

ORDER OF CIVIL AERONAUTICS BOARD APPROVING INCREASES IN LIABILITY LIMITATIONS OF WARSAW CONVENTION AND HAGUE PROTOCOL

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 13th day of May 1966.

The Convention for the Unification of Certain Rules Relating to International Transportation by Air, generally known as the Warsaw Convention, creates a uniform body of law with respect to the rights and responsibilities of passengers, shippers, and air carriers in international air transportation. The United States became a party to the Convention in 1934, and eventually over 90 countries likewise became parties to the Convention.¹ On November 15, 1965, the U.S. Government gave notice of denunciation of the Convention, emphasizing that such action was solely because of the Convention's low limits of liability for personal injury or death to passengers. Pursuant to Article 39 of the Convention this notice would become effective upon 6 months' notice, in this case, May 15, 1966. Subsequently, the International Air Transport Association (IATA) made efforts to effect an arrangement among air carriers, foreign air carriers, and other carriers (including carriers not members of IATA) providing the major portions of international air carriage to and from the United States to increase the limitations of liability now applicable to claims for personal injury and death under the Convention and the Protocol. The purpose of such action is to provide a basis upon which the United States could withdraw its notice of denunciation.

The arrangement proposed has been embodied in an agreement (Agreement CAB 18900) between various air carriers, foreign air carriers, and other carriers which has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 and Part 261 of the Board's economic regulations and assigned the above-designated CAB number.

By this agreement, the parties thereto bind themselves to include in their tariffs, effective May 16, 1966, a special contract in accordance with Article 22(1) of the Convention or the Protocol providing for a limit of liability for each passenger for death, wounding, or other bodily injury of \$75,000 inclusive of legal fees, and, in case of a claim brought in a State where provision is made for separate award of legal fees and costs,

a limit of \$58,000 exclusive of legal fees and costs. These limitations shall be applicable to international transportation by the carrier as defined in the Convention or Protocol which includes a point in the United States as a point of origin, point of destination, or agreed stopping place. The parties further agree to provide in their tariffs that the Carrier shall not, with respect to any claim arising out of the death, wounding, or other bodily injury of a passenger, avail itself of any defense under Article 20(1) of the Convention or the Convention as amended by the Protocol. The tariff provisions would stipulate, however, that nothing therein shall be deemed to affect the rights and liabilities of the Carrier with regard to any claim brought by, on behalf of, or in respect of any person who has willfully caused damage which results in death, wounding, or other bodily injury of a passenger.

The carriers by the agreement further stipulate that they will, at time of delivery of the tickets, furnish to each passenger governed by the Convention or the Protocol and by the special contract described above, a notice in 10 point type advising international passengers of the limitations of liability established by the Convention or the Protocol, or the higher liability agreed to by the special contracts pursuant to the Convention or Protocol as described above. The agreement is to become effective upon arrival by this Board, and any carrier may become a party to it by signing a counterpart thereof and depositing it with the Board. Withdrawal from the agreement may be effected by giving 12 months' written notice to the Board and the other Carrier parties thereto.

As indicated, the decision of the U.S. Government to serve notice to denounce the Convention was predicated upon the low liability limits therein for personal injury and death. The Government announced, however, that it would be prepared to withdraw the Notice of Denunciation if, prior to its effective date, there is a reasonable prospect for international agreement on limits of liability for international transportation in the area of \$100,000 per passenger or on uniform rules without any limit of liability, and if pending such international agreement there is a provisional arrangement among the principal international air carriers providing for liability up to \$75,000 per passenger.

Steps, have been taken by the signing carriers to have tariffs become effective May 16, 1966, upon approval of this agreement, which will increase by special contract their liability for personal injury or death as described herein. The signatory carriers provide by far the greater portion of international transportation to, from, and within the United States. The agreement will result in a salutary [sic] increase in the protection given to passengers from the increased liability amounts and the waiver of defenses under Article 20(1) of the Convention or Protocol. The U.S. Government has concluded that such arrangements warrant withdrawal of the Notice of Denunciation of the Warsaw Convention. Implementation of the agreement will permit continued adherence to the Convention with the benefits to be derived therefrom, but without the imposition of the low liability limits therein contained upon most international travel involving travel to or from the United States. The stipulation that no tariff provision shall be deemed to affect the rights and liabilities of the carrier with regard to any claim brought by, on behalf of, or in respect of any person who has willfully caused damage which results in death, wounding or other bodily injury of a passenger operates to diminish any incentive for sabotage.

Upon consideration of the agreement, and of matters relating thereto of which the Board takes notice, the Board does not find that the agreement is adverse to the public interest or in violation of the Act and it will be approved.

Accordingly, pursuant to the provisions of the Federal Aviation Act of 1958, and particularly sections 102, 204(a), and 412 thereof:

It is ordered, That: 1. Agreement CAB 18900 is approved.

¹The Convention was amended by the Protocol signed at Hague in 1955 which has never been ratified by the United States. The Convention (subject to certain provisions) limits carriers' liability for death or injury to passengers in international transportation to 125,000 gold francs, or approximately \$8,300. The Protocol, subject to certain provisions, provides for liability limitations of approximately \$16,600.

§ 40106. Emergency powers

(a) DEVIATIONS FROM REGULATIONS.—Appropriate military authority may authorize aircraft of the armed forces of the United States to deviate from air traffic regulations prescribed under section 40103(b)(1) and (2) of this title when the authority decides the deviation is essential to the national defense because of a military emergency or urgent military necessity. The authority shall—

- (1) give the Administrator of the Federal Aviation Administration prior notice of the deviation at the earliest practicable time; and
- (2) to the extent time and circumstances allow, make every reasonable effort to consult with the Administrator and arrange for the deviation in advance on a mutually agreeable basis.

(b) SUSPENSION OF AUTHORITY.—(1) When the President decides that the government of a foreign country is acting inconsistently with the Convention for the Suppression of Unlawful Seizure of Aircraft or that the government of a foreign country allows territory under its jurisdiction to be used as a base of operations or training of, or as a sanctuary for, or arms, aids, or abets, a terrorist organization that knowingly uses the unlawful seizure, or the threat of an unlawful seizure, of an aircraft as an instrument of policy, the President may suspend the authority of—

- (A) an air carrier or foreign air carrier to provide foreign air transportation to and from that foreign country;
- (B) a person to operate aircraft in foreign air commerce to and from that foreign country;
- (C) a foreign air carrier to provide foreign air transportation between the United States and another country that maintains air service with the foreign country; and
- (D) a foreign person to operate aircraft in foreign air commerce between the United States and another country that maintains air service with the foreign country.

(2) The President may act under this subsection without notice or a hearing. The suspension remains in effect for as long as the President decides is necessary to ensure the security of aircraft against unlawful seizure. Notwithstanding section 40105(b) of this title, the authority of the President to suspend rights under this subsection is a condition to a certificate of public convenience and necessity, air carrier operating certificate, foreign air carrier or foreign aircraft permit, or foreign air carrier operating specification issued by the Secretary of Transportation under this part.

(3) An air carrier or foreign air carrier may not provide foreign air transportation, and a person may not operate aircraft in foreign air commerce, in violation of a suspension of authority under this subsection.

WHEREAS Section 302(e) of the Federal Aviation Act of 1958 [see 49 U.S.C. 40107(b)] provides, in part, that in the event of war the President by Executive order may transfer to the Department of Defense any functions (including powers, duties, activities, facilities, and parts of functions) of the Federal Aviation Administration; and

WHEREAS it appears that the defense of the United States would require the transfer of the Federal Aviation Administration to the Department of Defense in the event of war; and

WHEREAS if any such transfer were to be made it would be essential to the defense of the United States that the transition be accomplished promptly and with maximum ease and effectiveness; and

WHEREAS these objectives require that the relationships that would obtain in the event of such a transfer as between the Federal Aviation Administration and the Department of Defense be understood in advance by the two agencies concerned and be developed in necessary detail by them in advance of transfer:

NOW, THEREFORE, by virtue of the authority vested in me by Section 302(e) (72 Stat. 746; 49 U.S.C. 1343(c)) [see 49 U.S.C. 40107(b)], and as President of the United States and Commander in Chief of the Armed Forces of the United States, it is hereby ordered as follows:

(B) To the extent deemed by the Secretary of Defense to be necessary for the accomplishment of the military mission, he will be empowered to direct the Administrator to place operational elements of the Federal Aviation Administration under the direct operational control of appropriate military commanders.

(C) While functioning as an adjunct of the Department of Defense, the Federal Aviation Administration will remain organizationally intact and the Administrator thereof will retain responsibility for administration of his statutory functions, subject to the authority, direction, and control of the Secretary of Defense to the extent deemed by the Secretary to be necessary for the discharge of his responsibilities as Secretary of Defense.

SEC. 2. In furtherance of the objectives of the foregoing provisions of this order, the Secretary of Defense and the Secretary of Transportation shall, to the extent permitted by law, make such arrangements and take such actions as they deem necessary to assure—

(A) That the functions of the Federal Aviation Administration are performed during any period of national emergency short of war in a manner that will assure that essential national defense requirements will be satisfied during any such period of national emergency.

(B) Consistent with the provisions of paragraphs (A), (B), and (C) of Section 1 of this order, that any transfer of the Federal Aviation Administration to the Department of Defense, in the event of war, will be accomplished smoothly and rapidly and effective operation of the agencies and functions affected by the transfer will be achieved after the transfer.

§ 40108. Training schools

(a) AUTHORITY TO OPERATE.—The Administrator of the Federal Aviation Administration may operate schools to train officers and employees of the Administration to carry out duties, powers, and activities of the Administrator.

(b) ATTENDANCE.—The Administrator may authorize officers and employees of other departments, agencies, or instrumentalities of the United States Government, officers and employees of governments of foreign countries, and individuals from the aeronautics industry to attend those schools. In this section, the word “Administrator” in section 313(d) of the Federal Aviation Act of 1958 (Public Law 85–726, 72 Stat. 753) is retained on authority of 49:106(g). The words “school or” are omitted because of 1:1.

In subsection (a), the words “officers and” are added for clarity and consistency in the revised title and with other titles of the United States Code. The words “to carry out duties, powers, and activities of the Administrator” are substituted for “in those subjects necessary for the proper performance of all authorized functions of the Administration” for clarity and consistency in the revised title.

In subsection (b), the words “officers and employees” are substituted for “personnel”, the words “departments, agencies, or instrumentalities of the United States Government” are substituted for “governmental”, and the words “governments of foreign countries” are substituted for “foreign governments”, for consistency in the revised title and with other titles of the Code. The words “courses given in”, “sufficient”, and “appropriate” are omitted as surplus. The text of 49 App.:1354(d) (3d sentence) is omitted as unnecessary because chapter 41 of title 5, United States Code, applies to all training of employees. The words “or both” are substituted for “(3) in part as provided under clause (1) and in part as provided under clause (2)” to eliminate unnecessary words.

§ 40109. Authority to exempt

(a) AIR CARRIERS AND FOREIGN AIR CARRIERS NOT ENGAGED DIRECTLY IN OPERATING AIRCRAFT.—(1) The Secretary of Transportation may exempt from subpart II of this part—

(A) an air carrier not engaged directly in operating aircraft in air transportation; or

(B) a foreign air carrier not engaged directly in operating aircraft in foreign air transportation.

(2) The exemption is effective to the extent and for periods that the Secretary decides are in the public interest.

(b) SAFETY REGULATION.—The Administrator of the Federal Aviation Administration may grant an exemption from a regulation prescribed in carrying out sections 40103(b)(1) and (2), 40119, 44901, 44903, 44906, and 44935–44937 of this title when the Administrator decides the exemption is in the public interest.

(c) OTHER ECONOMIC REGULATION.—Except as provided in this section, the Secretary may exempt to the extent the Secretary considers necessary a person or class of persons from a provision of chapter 411, chapter 413 (except sections 41307 and 41310(b)–(f)), chapter 415 (except sections 41502, 41505, and 41507–41509), chapter 417 (except sections 41703, 41704, 41710, 41713, and 41714), chapter 419, subchapter II of chapter 421, and sections 44909 and 46301(b) of this title, or a regulation or term prescribed under any of those provisions, when the Secretary decides that the exemption is consistent with the public interest.

(d) LABOR REQUIREMENTS.—The Secretary may not exempt an air carrier from section 42112 of this title. However, the Secretary may exempt from section 42112(b)(1) and (2) an air carrier not providing scheduled air transportation, and the operations conducted during daylight hours by an air carrier providing scheduled air transportation, when the Secretary decides that—

(1) because of the limited extent of, or unusual circumstances affecting, the operation of the air carrier, the enforcement of section 42112(b)(1) and (2) of this title is or would be an unreasonable burden on the air carrier that would obstruct its development and prevent it from beginning or continuing operations; and

(2) the exemption would not affect adversely the public interest.

(e) MAXIMUM FLYING HOURS.—The Secretary may not exempt an air carrier under this section from a provision referred to in subsection (c) of this section, or a regulation or term prescribed under any of those provisions, that sets maximum flying hours for pilots or copilots.

(f) SMALLER AIRCRAFT.—(1) An air carrier is exempt from section 41101(a)(1) of this title, and the Secretary may exempt an air carrier from another provision of subpart II of this part, if the air carrier—

(A)(i) provides passenger transportation only with aircraft having a maximum capacity of 55 passengers; or

(ii) provides the transportation of cargo only with aircraft having a maximum payload of less than 18,000 pounds; and

(B) complies with liability insurance requirements and other regulations the Secretary prescribes.

(2) The Secretary may increase the passenger or payload capacities when the public interest requires.

(3)(A) An exemption under this subsection applies to an air carrier providing air transportation between 2 places in Alaska, or between Alaska and Canada, only if the carrier is authorized by Alaska to provide the transportation.

(B) The Secretary may limit the number or location of places that may be served by an air carrier providing transportation only in Alaska under an exemption from section 41101(a)(1) of this title, or the frequency with which the transportation may be provided, only when the Secretary decides that providing the transportation substantially impairs the ability of an air carrier holding a certificate issued by the Secretary to provide its authorized transportation, including the minimum transportation requirement for Alaska specified under section 41732(b)(1)(B) of this title.

(g) EMERGENCY AIR TRANSPORTATION BY FOREIGN AIR CARRIERS.—(1) To the extent that the Secretary decides an exemption is in the public interest, the Secretary may exempt by order a foreign air carrier from the requirements and limitations of this part for not more than 30 days to allow the foreign air carrier to carry passengers or cargo in interstate air transportation in certain markets if the Secretary finds that—

(A) because of an emergency created by unusual circumstances not arising in the normal course of business, air carriers holding certificates under section 41102 of this title cannot accommodate traffic in those markets;

(B) all possible efforts have been made to accommodate the traffic by using the resources of the air carriers, including the use of—

(i) foreign aircraft, or sections of foreign aircraft, under lease or charter to the air carriers; and

(ii) the air carriers' reservations systems to the extent practicable;

(C) the exemption is necessary to avoid unreasonable hardship for the traffic in the markets that cannot be accommodated by the air carriers; and

(D) granting the exemption will not result in an unreasonable advantage to any party in a labor dispute where the inability to accommodate traffic in a market is a result of the dispute.

(2) When the Secretary grants an exemption to a foreign air carrier under this subsection, the Secretary shall—

(A) ensure that air transportation that the foreign air carrier provides under the exemption is made available on reasonable terms;

(B) monitor continuously the passenger load factor of air carriers in the market that hold certificates under section 41102 of this title; and

(C) review the exemption at least every 30 days to ensure that the unusual circumstances that established the need for the exemption still exist.

(3) The Secretary may renew an exemption (including renewals) under this subsection for not more than 30 days. An exemption may continue for not more than 5 days after the unusual circumstances that established the need for the exemption cease.

(h) NOTICE AND OPPORTUNITY FOR HEARING.—The Secretary may act under subsections (d) and (f)(3)(B) of this section only after giving the air carrier notice and an opportunity for a hearing.

In this section, the word "Administrator" in section 303(a)-(d) of the Federal Aviation Act of 1958 (Public Law 85-726, 72 Stat. 747) is retained on authority of 49:106(g).

In subsection (a), before clause (1), the words "In carrying out this part" are added for clarity. The words "on behalf of the United States . . . where appropriate" are omitted as surplus. In clause (1), the words "made by the Congress", "by purchase, condemnation . . . or otherwise", and "easements through or other" are omitted as surplus. In clause (2), the words "by sale, lease, or otherwise" and "real or personal" are omitted as surplus. In clause (3), the word "renovate" is omitted as surplus. The words "and to purchase or otherwise acquire real property required therefor" are omitted as surplus because of the authority of the Administrator to acquire real property under clause (1) of this subsection.

In subsection (b)(1), the words "procedures other than competitive procedures" are substituted for "non-competitive procedures" for consistency with subsection (b)(2)(D) of this section and 41:253(f).

In subsection (b)(2)(B), the text of 49 App.:1344(b)(1) (words before semicolon) and the words "easements through or other" are omitted as surplus.

In subsection (b)(2)(C), the words "by purchase, condemnation, or lease" are omitted as surplus.

Subsection (b)(2)(E) is substituted for 49 App.:1344(g) to eliminate the cross-references to other laws and for clarity and is based on the text of 10:2304(c)(1).

(2) operation, maintenance, and modification of aircraft, vehicles, and other highly complex equipment.

(3) specialized training requiring high quality instructor skills, including training of pilots and aircrew members and foreign language training.

(4) base services, including ground maintenance, aircraft refueling, bus transportation, and refuse collection and disposal.

(b) REQUIRED FINDINGS.—The Administrator may make a contract under this section only if the Administrator finds that—

(1) there will be a continuing requirement for the service consistent with current plans for the proposed contract period;

(2) providing the service will require a substantial initial investment in plant or equipment, or will incur a substantial contingent liability for assembling, training, or transporting a specialized workforce; and

(3) the contract will promote the best interests of the United States by encouraging effective competition and promoting economies in operation.

(c) CONSIDERATIONS.—When making a contract under this section, the Administrator shall be guided by the following:

(1) The part of the cost of a plant or equipment amortized as a cost of contract performance may not be more than the ratio between the period of contract performance and the anticipated useful commercial life (instead of physical life) of the plant or equipment, considering the location and specialized nature of the plant or equipment, obsolescence, and other similar factors.

(2) The Administrator shall consider the desirability of—

(A) obtaining an option to renew the contract for a reasonable period of not more than 3 years, at a price that does not include charges for nonrecurring costs already amortized; and

(B) reserving in the Administrator the right, on payment of the unamortized part of the cost of the plant or equipment, to take title to the plant or equipment under appropriate circumstances.

(d) ENDING CONTRACTS.—A contract made under this section shall be ended if amounts are not made available to continue the contract

into a subsequent fiscal year. The cost of ending the contract may be paid from—

- (1) an appropriation originally available for carrying out the contract;
- (2) an appropriation currently available for procuring the type of service concerned and not otherwise obligated; or
- (3) amounts appropriated for payments to end the contract.

In subsection (a), before clause (1), the words “periods of” are omitted as surplus. In clause (3), the words “training of” are added for clarity. In clause (4), the word “aircraft” is substituted for “in-plane” for clarity.

In subsection (c)(2)(A), the words “plant, equipment, and other” are omitted as surplus.

In subsection (d), the words “canceled or” and “cancellation or” are omitted as being included in “ended” and “ending”, respectively.

§ 40112. Multiyear procurement contracts for property

(a) GENERAL AUTHORITY.—Notwithstanding section 1341(a)(1)(B) of title 31 and to the extent that amounts otherwise are available for obligation, the Administrator of the Federal Aviation Administration may make a contract of more than one but not more than 5 fiscal years to purchase property, except a contract to construct, alter, or make a major repair or improvement to real property.

(b) REQUIRED FINDINGS.—The Administrator may make a contract under this section if the Administrator finds that—

- (1) the contract will promote the safety or efficiency of the national airspace system and will result in reduced total contract costs;
- (2) the minimum need for the property to be purchased is expected to remain substantially unchanged during the proposed contract period in terms of production rate, procurement rate, and total quantities;
- (3) there is a reasonable expectation that throughout the proposed contract period the Administrator will request appropriations for the contract at the level required to avoid cancellation;
- (4) there is a stable design for the property to be acquired and the technical risks associated with the property are not excessive; and

(5) the estimates of the contract costs and the anticipated savings from the contract are realistic.

(c) REGULATIONS.—The Administrator shall prescribe regulations for acquiring property under this section to promote the use of contracts under this section in a way that will allow the most efficient use of those contracts. The regulations may provide for a cancellation provision in the contract to the extent the provision is necessary and in the best interest of the United States. The provision may include consideration of recurring and nonrecurring costs of the contractor associated with producing the item to be delivered under the contract. The regulations shall provide that, to the extent practicable—

- (1) to broaden the aviation industrial base—
 - (A) a contract under this section shall be used to seek, retain, and promote the use under that contract of subcontractors, vendors, or suppliers; and
 - (B) on accrual of a payment or other benefit accruing on a contract under this section to a subcontractor, vendor, or supplier participating in the contract, the payment or benefit shall be delivered in the most expeditious way practicable; and
- (2) this section and regulations prescribed under this section may not be carried out in a way that precludes or curtails the existing ability of the Administrator to provide for—
 - (A) competition in producing items to be delivered under a contract under this section; or
 - (B) ending a prime contract when performance is deficient with respect to cost, quality, or schedule.

(d) CONTRACT PROVISIONS.—(1) A contract under this section may—

- (A) be used for the advance procurement of components, parts, and material necessary to manufacture equipment to be used in the national airspace system;
- (B) provide that performance under the contract after the first year is subject to amounts being appropriated; and
- (C) contain a negotiated priced option for varying the number of end items to be procured over the period of the contract.

(2) If feasible and practicable, an advance procurement contract may be made to achieve economic-lot purchases and more efficient production rates.

(e) CANCELLATION PAYMENT AND NOTICE OF CANCELLATION CEILING.—(1) If a contract under this section provides that performance is subject to an appropriation being made, it also may provide for a cancellation payment to be made to the contractor if the appropriation is not made.

(2) Before awarding a contract under this section containing a cancellation ceiling of more than \$100,000,000, the Administrator shall give written notice of the proposed contract and cancellation ceiling to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives. The contract may not be awarded until the end

of the 30-day period beginning on the date of the notice.

(f) ENDING CONTRACTS.—A contract made under this section shall be ended if amounts are not made available to continue the contract into a subsequent fiscal year. The cost of ending the contract may be paid from—

- (1) an appropriation originally available for carrying out the contract;
- (2) an appropriation currently available for procuring the type of property concerned and not otherwise obligated; or
- (3) amounts appropriated for payments to end the contract.

AMENDMENTS

1996—Subsec. (a). Pub. L. 104-106 struck out “or a contract to purchase property to which section 111 of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 759) applies” after “improvement to real property”.

Subsec. (e)(2). Pub. L. 104-287 substituted “Transportation and Infrastructure” for “Public Works and Transportation”.

EFFECTIVE DATE OF 1996 AMENDMENT

Amendment by Pub. L. 104-106 effective 180 days after Feb. 10, 1996, see section 5701 of Pub. L. 104-106, Feb. 10, 1996, 110 Stat. 702.

§ 40113. Administrative

(a) GENERAL AUTHORITY.—The Secretary of Transportation (or the Under Secretary of Transportation for Security with respect to security duties and powers designated to be carried out by the Under Secretary or the Administrator of the Federal Aviation Administration with respect to aviation safety duties and powers designated to be carried out by the Administrator) may take action the Secretary, Under Secretary, or Administrator, as appropriate, considers necessary to carry out this part, including conducting investigations, prescribing regulations, standards, and procedures, and issuing orders.

(b) HAZARDOUS MATERIAL.—In carrying out this part, the Secretary has the same authority to regulate the transportation of hazardous material by air that the Secretary has under section 5103 of this title. However, this subsection does not prohibit or regulate the transportation of a firearm (as defined in section 232 of title 18) or ammunition for a firearm, when transported by an individual for personal use.

(c) GOVERNMENTAL ASSISTANCE.—The Secretary (or the Administrator of the Federal Aviation Administration with respect to aviation safety duties and powers designated to be carried out by the Administrator) may use the assistance of the Administrator of the National Aeronautics and Space Administration and any research or technical department, agency, or instrumentality of the United States Government on matters related to aircraft fuel and oil, and to the design, material, workmanship, construction, performance, maintenance, and operation of aircraft, aircraft engines, propellers, appliances, and air navigation facilities. Each department, agency, and instrumentality may conduct scientific and technical research, investigations, and tests necessary to assist the Secretary or Administrator of the Federal Aviation Administration in carrying out this part. This part does not authorize duplicating laboratory research activities of a department, agency, or instrumentality.

(d) INDEMNIFICATION.—The Under Secretary of Transportation for Security or the Administrator of the Federal Aviation Administration may indemnify an officer or employee of the Transportation Security Administration or Federal Aviation Administration, as the case may be, against a claim or judgment arising out of an act that the Under Secretary or Administrator, as the case may be, decides was committed within the scope of the official duties of the officer or employee.

(e) ASSISTANCE TO FOREIGN AVIATION AUTHORITIES.—

(1) SAFETY-RELATED TRAINING AND OPERATIONAL SERVICES.—The Administrator may provide safety-related training and operational services to foreign aviation authorities with or without reimbursement, if the Administrator determines that providing such services promotes aviation safety. To the extent practicable, air travel reimbursed under this subsection shall be conducted on United States air carriers.

(2) REIMBURSEMENT SOUGHT.—The Administrator shall actively seek reimbursement for services provided under this subsection from foreign aviation authorities capable of providing such reimbursement.

(3) CREDITING APPROPRIATIONS.—Funds received by the Administrator pursuant to this section shall be credited to the appropriation from which the expenses were incurred in providing such services.

(4) REPORTING.—Not later than December 31, 1995, and annually thereafter, the Administrator shall transmit to Congress a list of the foreign aviation authorities to which the Administrator provided services under this subsection in the preceding fiscal year. Such list shall specify the dollar value of such services and any reimbursement received for such services.

(f) APPLICATION OF CERTAIN REGULATIONS TO ALASKA.—In amending title 14, Code of Federal Regulations, in a manner affecting intrastate aviation in Alaska, the Administrator of the Federal Aviation Administration shall consider the extent to which Alaska is not served by transportation modes other than aviation, and shall establish such regulatory distinctions as the Administrator considers appropriate.

In subsection (a)(2), the word “rules” is omitted as being synonymous with “regulations”. The word “prescribes” is added for consistency in the revised title and with other titles of the United States Code. The words “under this chapter” and “information and” are omitted as surplus. The words “A publication of the Secretary or Administrator is competent evidence of its contents” is substituted for 49 App.:1324(d) (last sentence) to eliminate unnecessary words and for consistency.

In subsection (b), the words “otherwise”, “all contracts, agreements, understandings, and”, “annual or other”, “of air carriers and other persons”, and “preserved as” are omitted as surplus. The last sentence is substituted for 49 App.:1503 (words after 7th comma) to eliminate unnecessary words and for consistency.

§ 40115. Withholding information

(a) OBJECTIONS TO DISCLOSURE.—(1) A person may object to the public disclosure of information—

- (A) in a record filed under this part; or
- (B) obtained under this part by the Secretary of Transportation or State or the United States Postal Service.

(2) An objection must be in writing and must state the reasons for the objection. The Secretary of Transportation or State or the Postal Service shall order the information withheld from public disclosure when the appropriate Secretary or the Postal Service decides that disclosure of the information would—

- (A) prejudice the United States Government in preparing and presenting its position in international negotiations; or

(B) have an adverse effect on the competitive position of an air carrier in foreign air transportation.

(b) WITHHOLDING INFORMATION FROM CONGRESS.—This section does not authorize information to be withheld from a committee of Congress authorized to have the information.

In subsection (a)(2), the words “shall order the information withheld from public disclosure when the appropriate Secretary or the Postal Service decides that disclosure of the information” are substituted for “shall be withheld from public disclosure by the Board, the Secretary of State or the Secretary of Transportation” for clarity and because of the restatement.

In subsection (b), the words “The Board, the Secretary of State, or the Secretary of Transportation, as the case may be, shall be responsible for classified information in accordance with appropriate law” are omitted as surplus.

§ 40116. State taxation

(a) DEFINITION.—In this section, “State” includes the District of Columbia, a territory or possession of the United States, and a political authority of at least 2 States.

(b) PROHIBITIONS.—Except as provided in subsection (c) of this section and section 40117 of this title, a State, a political subdivision of a State, and any person that has purchased or leased an airport under section 47134 of this title may not levy or collect a tax, fee, head charge, or other charge on—

- (1) an individual traveling in air commerce;
- (2) the transportation of an individual traveling in air commerce;
- (3) the sale of air transportation; or
- (4) the gross receipts from that air commerce or transportation.

(c) AIRCRAFT TAKING OFF OR LANDING IN STATE.—A State or political subdivision of a State may levy or collect a tax on or related to a flight of a commercial aircraft or an activity or service on the aircraft only if the aircraft takes off or lands in the State or political subdivision as part of the flight.

(d) UNREASONABLE BURDENS AND DISCRIMINATION AGAINST INTERSTATE COMMERCE.—(1) In this subsection—

(A) “air carrier transportation property” means property (as defined by the Secretary of Transportation) that an air carrier providing air transportation owns or uses.

(B) “assessment” means valuation for a property tax levied by a taxing district.

(C) “assessment jurisdiction” means a geographical area in a State used in determining the assessed value of property for ad valorem taxation.

(D) “commercial and industrial property” means property (except transportation property and land used primarily for agriculture or timber growing) devoted to a commercial or industrial use and subject to a property tax levy.

(2)(A) A State, political subdivision of a State, or authority acting for a State or political subdivision may not do any of the following acts because those acts unreasonably burden and discriminate against interstate commerce:

(i) assess air carrier transportation property at a value that has a higher ratio to the true market value of the property than the ratio that the assessed value of other commercial and industrial property of the same type in the same assessment jurisdiction has to the true market value of the other commercial and industrial property.

(ii) levy or collect a tax on an assessment that may not be made under clause (i) of this subparagraph.

(iii) levy or collect an ad valorem property tax on air carrier transportation property at a tax rate greater than the tax rate applicable to commercial and industrial property in the same assessment jurisdiction.

(iv) levy or collect a tax, fee, or charge, first taking effect after August 23, 1994, exclusively upon any business located at a commercial service airport or operating as a permittee of such an airport other than a tax, fee, or charge wholly utilized for airport or aeronautical purposes.

(B) Subparagraph (A) of this paragraph does not apply to an in lieu tax completely used for airport and aeronautical purposes.

(e) OTHER ALLOWABLE TAXES AND CHARGES.—Except as provided in subsection (d) of this section, a State or political subdivision of a State may levy or collect—

(1) taxes (except those taxes enumerated in subsection (b) of this section), including property taxes, net income taxes, franchise taxes, and sales or use taxes on the sale of goods or services; and

(2) reasonable rental charges, landing fees, and other service charges from aircraft operators for using airport facilities of an airport owned or operated by that State or subdivision.

(f) PAY OF AIR CARRIER EMPLOYEES.—(1) In this subsection—

(A) “pay” means money received by an employee for services.

(B) “State” means a State of the United States, the District of Columbia, and a territory or possession of the United States.

(C) an employee is deemed to have earned 50 percent of the employee’s pay in a State or political subdivision of a State in which the scheduled flight time of the employee in the State or subdivision is more than 50 percent of the total scheduled flight time of the employee when employed during the calendar year.

(2) The pay of an employee of an air carrier having regularly assigned duties on aircraft in at least 2 States is subject to the income tax laws of only the following:

(A) the State or political subdivision of the State that is the residence of the employee.

(B) the State or political subdivision of the State in which the employee earns more than 50 percent of the pay received by the employee from the carrier.

(3) Compensation paid by an air carrier to an employee described in subsection (a) in connection with such employee's authorized leave or other authorized absence from regular duties on the carrier's aircraft in order to perform services on behalf of the employee's airline union shall be subject to the income tax laws of only the following:

(A) The State or political subdivision of the State that is the residence of the employee.

(B) The State or political subdivision of the State in which the employee's scheduled flight time would have been more than 50 percent of the employee's total scheduled flight time for the calendar year had the employee been engaged full time in the performance of regularly assigned duties on the carrier's aircraft.

In subsection (a), the words "Commonwealth of Puerto Rico, the Virgin Islands, Guam" are omitted as surplus because of the definition of "territory or possession of the United States" in section 40102(a) of the revised title. The word "authority" is substituted for "agencies" for consistency in the re-

vised title and with other titles of the United States Code.

In subsection (b), before clause (1), reference to 49 App.:1513(f), restated as subsection (c) of this section, is added for clarity. The words "directly or indirectly" are omitted as surplus. The text of 49 App.:1513(a) (words after "subsection (e) and") is omitted as surplus.

In subsections (d)(2)(A), before clause (i), and (f)(1)(C) and (2), the word "political" is added for consistency in the revised title and with other titles of the Code.

In subsection (f)(1)(A), the word "pay" is substituted for "compensation" for consistency in the revised title and with chapter 55 of title 5, United States Code. The words "rendered by the employee in the performance of his duties and shall include wages and salary" are omitted as surplus.

In subsection (f)(1)(B), the words "means a State of the United States" are substituted for "also means" for clarity.

AMENDMENTS

1996—Subsec. (b). Pub. L. 104-264, in introductory provisions, substituted "a State, a" for "a State or" and inserted ", and any person that has purchased or leased an airport under section 47134 of this title" after "of a State".

Subsec. (d)(2)(A)(iv). Pub. L. 104-287, which directed substitution of "August 23, 1994" for "the date of enactment of this clause", was executed by making the substitution for "the date of the enactment of this clause" to reflect the probable intent of Congress.

Pub. L. 104-287 substituted "levy" for "Levy".

1994—Subsec. (d)(2)(A)(iv). Pub. L. 103-305, §112(e), added cl. (iv).

L. 104-264 applicable only to fiscal years beginning after Sept. 30, 1996, and not to be construed as affecting funds made available for a fiscal year ending before Oct. 1, 1996, see section 3 of Pub. L. 104-264, set out as a note under section 106 of this title.

§ 40117. Passenger facility fees

(a) DEFINITIONS.—In this section, the following definitions apply:

(1) AIRPORT, COMMERCIAL SERVICE AIRPORT, AND PUBLIC AGENCY.—The terms "airport", "commercial service airport", and "public agency" have the meaning those terms have under section 47102.

(2) ELIGIBLE AGENCY.—The term "eligible agency" means a public agency that controls a commercial service airport.

(3) ELIGIBLE AIRPORT-RELATED PROJECT.—The term "eligible airport-related project" means any of the following projects:

(A) A project for airport development or airport planning under subchapter I of chapter 471.

(B) A project for terminal development described in section 47110(d).

(C) A project for costs of terminal development referred to in subparagraph (B) incurred after August 1, 1986, at an airport

that did not have more than .25 percent of the total annual passenger boardings in the United States in the most recent calendar year for which data is available and at which total passenger boardings declined by at least 16 percent between calendar year 1989 and calendar year 1997.

(D) A project for airport noise capability planning under section 47505.

(E) A project to carry out noise compatibility measures eligible for assistance under section 47504, whether or not a program for those measures has been approved under section 47504.

(F) A project for constructing gates and related areas at which passengers board or exit aircraft. In the case of a project required to enable additional air service by an air carrier with less than 50 percent of the annual passenger boardings at an airport, the project for constructing gates and related areas may include structural foundations and floor systems, exterior building walls and load-bearing interior columns or walls, windows, door and roof systems, building utilities (including heating, air conditioning, ventilation, plumbing, and electrical service), and aircraft fueling facilities adjacent to the gate.

(G) A project for converting vehicles and ground support equipment used at a commercial service airport to low-emission technology (as defined in section 47102) or to use cleaner burning conventional fuels, retrofitting of any such vehicles or equipment that are powered by a diesel or gasoline engine with emission control technologies certified or verified by the Environmental Protection Agency to reduce emissions, or acquiring for use at a commercial service airport vehicles and ground support equipment that include low-emission technology or use cleaner burning fuels if the airport is located in an air quality nonattainment area (as defined in section 171(2) of the Clean Air Act (42 U.S.C. 7501(2))) or a maintenance area referred to in section 175A of such Act (42 U.S.C. 7505a) and if such project will result in an airport receiving appropriate emission credits as described in section 47139.

(4) GROUND SUPPORT EQUIPMENT.—The term “ground support equipment” means service and maintenance equipment used at an airport to support aeronautical operations and related activities.

(5) PASSENGER FACILITY FEE.—The term “passenger facility fee” means a fee imposed under this section.

(6) PASSENGER FACILITY REVENUE.—The term “passenger facility revenue” means revenue derived from a passenger facility fee.

(b) GENERAL AUTHORITY.—(1) The Secretary of Transportation may authorize under this section an eligible agency to impose a passenger facility fee of \$1, \$2, or \$3 on each paying passenger of an air carrier or foreign air carrier boarding an aircraft at an airport the agency controls to finance an eligible airport-related project, including making payments for debt service on indebtedness incurred to carry out

the project, to be carried out in connection with the airport or any other airport the agency controls.

(2) A State, political subdivision of a State, or authority of a State or political subdivision that is not the eligible agency may not regulate or prohibit the imposition or collection of a passenger facility fee or the use of the passenger facility revenue.

(3) A passenger facility fee may be imposed on a passenger of an air carrier or foreign air carrier originating or connecting at the commercial service airport that the agency controls.

(4) In lieu of authorizing a fee under paragraph (1), the Secretary may authorize under this section an eligible agency to impose a passenger facility fee of \$4.00 or \$4.50 on each paying passenger of an air carrier or foreign air carrier boarding an aircraft at an airport the agency controls to finance an eligible airport-related project, including making payments for debt service on indebtedness incurred to carry out the project, if the Secretary finds—

(A) in the case of an airport that has more than .25 percent of the total number of annual boardings in the United States, that the project will make a significant contribution to improving air safety and security, increasing competition among air carriers, reducing current or anticipated congestion, or reducing the impact of aviation noise on people living near the airport; and

(B) that the project cannot be paid for from funds reasonably expected to be available for the programs referred to in section 48103.

(5) MAXIMUM COST FOR CERTAIN LOW-EMISSION TECHNOLOGY PROJECTS.—The maximum cost that may be financed by imposition of a passenger facility fee under this section for a project described in subsection (a)(3)(G) with respect to a vehicle or ground support equipment may not exceed the incremental amount of the project cost that is greater than the cost of acquiring a vehicle or equipment that is not low-emission and would be used for the same purpose, or the cost of low-emission retrofitting, as determined by the Secretary.

(6) DEBT SERVICE FOR CERTAIN PROJECTS.—In addition to the uses specified in paragraphs (1) and (4), the Secretary may authorize a passenger facility fee imposed under paragraph (1) or (4) to be used for making payments for debt service on indebtedness incurred to carry out at the airport a project that is not an eligible airport-related project if the Secretary determines that such use is necessary due to the financial need of the airport.

(c) APPLICATIONS.—(1) An eligible agency must submit to the Secretary an application for authority to impose a passenger facility fee. The application shall contain information and be in the form that the Secretary may require by regulation.

(2) Before submitting an application, the eligible agency must provide reasonable notice to, and an opportunity for consultation with, air carriers and foreign air carriers operating at the airport. The Secretary shall prescribe regulations that define reasonable notice and contain at least the following requirements:

(A) The agency must provide written notice of individual projects being considered for financing by a passenger facility fee and the date and location of a meeting to present the projects to air carriers and foreign air carriers operating at the airport.

(B) Not later than 30 days after written notice is provided under subparagraph (A) of this paragraph, each air carrier and foreign air carrier operating at the airport must provide to the agency written notice of receipt of the notice. Failure of a carrier to provide the notice may be deemed certification of agreement with the project by the carrier under subparagraph (D) of this paragraph.

(C) Not later than 45 days after written notice is provided under subparagraph (A) of this paragraph, the agency must conduct a meeting to provide air carriers and foreign air carriers with descriptions of projects and justifications and a detailed financial plan for projects.

(D) Not later than 30 days after the meeting, each air carrier and foreign air carrier must provide to the agency certification of agreement or disagreement with projects (or total plan for the projects). Failure to provide the certification is deemed certification of agreement with the project by the carrier. A certification of disagreement is void if it does not contain the reasons for the disagreement.

(E) The agency must include in its application or notice submitted under subparagraph (A) copies of all certifications of agreement or disagreement received under subparagraph (D).

(F) For the purpose of this section, an eligible agency providing notice and an opportunity for consultation to an air carrier or foreign air carrier is deemed to have satisfied the requirements of this paragraph if the eligible agency limits such notices and consultations to air carriers and foreign air carriers that have a significant business interest at the airport. In the subparagraph, the term "significant business interest" means an air carrier or foreign air carrier that had no less than 1.0 percent of passenger boardings at the airport in the prior calendar year, had at least 25,000 passenger boardings at the airport in the prior calendar year, or provides scheduled service at the airport.

(3) Before submitting an application, the eligible agency must provide reasonable notice and an opportunity for public comment. The Secretary shall prescribe regulations that define reasonable notice and provide for at least the following under this paragraph:

(A) A requirement that the eligible agency provide public notice of intent to collect a passenger facility fee so as to inform those interested persons and agencies that may be affected. The public notice may include—

- (i) publication in local newspapers of general circulation;
- (ii) publication in other local media; and
- (iii) posting the notice on the agency's Internet website.

(B) A requirement for submission of public comments no sooner than 30 days, and no later

than 45 days, after the date of the publication of the notice.

(C) A requirement that the agency include in its application or notice submitted under subparagraph (A) copies of all comments received under subparagraph (B).

(4) After receiving an application, the Secretary may provide notice and an opportunity to air carriers, foreign air carriers, and other interested persons to comment on the application. The Secretary shall make a final decision on the application not later than 120 days after receiving it.

(d) LIMITATIONS ON APPROVING APPLICATIONS.—The Secretary may approve an application that an eligible agency has submitted under subsection (c) of this section to finance a specific project only if the Secretary finds, based on the application, that—

(1) the amount and duration of the proposed passenger facility fee will result in revenue (including interest and other returns on the revenue) that is not more than the amount necessary to finance the specific project;

(2) each project is an eligible airport-related project that will—

(A) preserve or enhance capacity, safety, or security of the national air transportation system;

(B) reduce noise resulting from an airport that is part of the system; or

(C) provide an opportunity for enhanced competition between or among air carriers and foreign air carriers;

(3) the application includes adequate justification for each of the specific projects; and

(4) in the case of an application to impose a fee of more than \$3.00 for an eligible surface transportation or terminal project, the agency has made adequate provision for financing the airside needs of the airport, including runways, taxiways, aprons, and aircraft gates.

(e) LIMITATIONS ON IMPOSING FEES.—(1) An eligible agency may impose a passenger facility fee only—

(A) if the Secretary approves an application that the agency has submitted under subsection (c) of this section; and

(B) subject to terms the Secretary may prescribe to carry out the objectives of this section.

(2) A passenger facility fee may not be collected from a passenger—

(A) for more than 2 boardings on a one-way trip or a trip in each direction of a round trip;

(B) for the boarding to an eligible place under subchapter II of chapter 417 of this title for which essential air service compensation is paid under subchapter II;

(C) enplaning at an airport if the passenger did not pay for the air transportation which resulted in such enplanement, including any case in which the passenger obtained the ticket for the air transportation with a frequent flier award coupon without monetary payment;

(D) on flights, including flight segments, between 2 or more points in Hawaii;

(E) in Alaska aboard an aircraft having a seating capacity of less than 60 passengers; and

(F) enplaning at an airport if the passenger did not pay for the air transportation which resulted in such enplanement due to charter arrangements and payment by the Department of Defense.

(f) LIMITATIONS ON CONTRACTS, LEASES, AND USE AGREEMENTS.—(1) A contract between an air carrier or foreign air carrier and an eligible agency made at any time may not impair the authority of the agency to impose a passenger facility fee or to use the passenger facility revenue as provided in this section.

(2) A project financed with a passenger facility fee may not be subject to an exclusive long-term lease or use agreement of an air carrier or foreign air carrier, as defined by regulations of the Secretary.

(3) A lease or use agreement of an air carrier or foreign air carrier related to a project whose construction or expansion was financed with a passenger facility fee may not restrict the eligible agency from financing, developing, or assigning new capacity at the airport with passenger facility revenue.

(g) TREATMENT OF REVENUE.—(1) Passenger facility revenue is not airport revenue for purposes of establishing a price under a contract between an eligible agency and an air carrier or foreign air carrier.

(2) An eligible agency may not include in its price base the part of the capital costs of a project paid for by using passenger facility revenue to establish a price under a contract between the agency and an air carrier or foreign air carrier.

(3) For a project for terminal development, gates and related areas, or a facility occupied or used by at least one air carrier or foreign air carrier on an exclusive or preferential basis, a price payable by an air carrier or foreign air carrier using the facilities must at least equal the price paid by an air carrier or foreign air carrier using a similar facility at the airport that was not financed with passenger facility revenue.

(4) Passenger facility revenues that are held by an air carrier or an agent of the carrier after collection of a passenger facility fee constitute a trust fund that is held by the air carrier or agent for the beneficial interest of the eligible agency imposing the fee. Such carrier or agent holds neither legal nor equitable interest in the passenger facility revenues except for any handling fee or retention of interest collected on unremitted proceeds as may be allowed by the Secretary.

(h) COMPLIANCE.—(1) As necessary to ensure compliance with this section, the Secretary shall prescribe regulations requiring record-keeping and auditing of accounts maintained by an air carrier or foreign air carrier and its agent collecting a passenger facility fee and by the eligible agency imposing the fee.

(2) The Secretary periodically shall audit and review the use by an eligible agency of passenger facility revenue. After review and a public hearing, the Secretary may end any part of the authority of the agency to impose a passenger facility fee to the extent the Secretary decides that the revenue is not being used as provided in this section.

(3) The Secretary may set off amounts necessary to ensure compliance with this section

against amounts otherwise payable to an eligible agency under subchapter I of chapter 471 of this title if the Secretary decides a passenger facility fee is excessive or that passenger facility revenue is not being used as provided in this section.

(i) REGULATIONS.—The Secretary shall prescribe regulations necessary to carry out this section. The regulations—

(1) may prescribe the time and form by which a passenger facility fee takes effect;

(2) shall—

(A) require an air carrier or foreign air carrier and its agent to collect a passenger facility fee that an eligible agency imposes under this section;

(B) establish procedures for handling and remitting money collected;

(C) ensure that the money, less a uniform amount the Secretary determines reflects the average necessary and reasonable expenses (net of interest accruing to the carrier and agent after collection and before remittance) incurred in collecting and handling the fee, is paid promptly to the eligible agency for which they are collected; and

(D) require that the amount collected for any air transportation be noted on the ticket for that air transportation; and

(3) may permit an eligible agency to request that collection of a passenger facility fee be waived for—

(A) passengers enplaned by any class of air carrier or foreign air carrier if the number of passengers enplaned by the carriers in the class constitutes not more than one percent of the total number of passengers enplaned annually at the airport at which the fee is imposed; or

(B) passengers enplaned on a flight to an airport—

(i) that has fewer than 2,500 passenger boardings each year and receives scheduled passenger service; or

(ii) in a community which has a population of less than 10,000 and is not connected by a land highway or vehicular way to the land-connected National Highway System within a State.

(j) LIMITATION ON CERTAIN ACTIONS.—A State, political subdivision of a State, or authority of a State or political subdivision that is not the eligible agency may not tax, regulate, or prohibit or otherwise attempt to control in any manner, the imposition or collection of a passenger facility fee or the use of the revenue from the passenger facility fee.

(k) COMPETITION PLANS.—

(1) IN GENERAL.—Beginning in fiscal year 2001, no eligible agency may impose a passenger facility fee under this section with respect to a covered airport (as such term is defined in section 47106(f)) unless the agency has submitted to the Secretary a written competition plan in accordance with such section. This subsection does not apply to passenger facility fees in effect before the date of the enactment of this subsection.

(2) SECRETARY SHALL ENSURE IMPLEMENTATION AND COMPLIANCE.—The Secretary shall re-

view any plan submitted under paragraph (1) to ensure that it meets the requirements of this section, and shall review its implementation from time-to-time to ensure that each covered airport successfully implements its plan.

(I) PILOT PROGRAM FOR PASSENGER FACILITY FEE AUTHORIZATIONS AT NONHUB AIRPORTS.—

(1) IN GENERAL.—The Secretary shall establish a pilot program to test alternative procedures for authorizing eligible agencies for nonhub airports to impose passenger facility fees. An eligible agency may impose in accordance with the provisions of this subsection a passenger facility fee under this section. For purposes of the pilot program, the procedures in this subsection shall apply instead of the procedures otherwise provided in this section.

(2) NOTICE AND OPPORTUNITY FOR CONSULTATION.—The eligible agency must provide reasonable notice and an opportunity for consultation to air carriers and foreign air carriers in accordance with subsection (c)(2) and must provide reasonable notice and opportunity for public comment in accordance with subsection (c)(3).

(3) NOTICE OF INTENTION.—The eligible agency must submit to the Secretary a notice of intention to impose a passenger facility fee under this subsection. The notice shall include—

(A) information that the Secretary may require by regulation on each project for which authority to impose a passenger facility fee is sought;

(B) the amount of revenue from passenger facility fees that is proposed to be collected for each project; and

(C) the level of the passenger facility fee that is proposed.

In subsection (a), before clause (1), the text of 49 App.:1513(e)(15)(A) is omitted for clarity and because the terms “air carrier” and “foreign air carrier” are used the first time they appear in each subsection. The text of 49 App.:1513(e)(15)(D) is omitted because the complete name of the Secretary of Transportation is used the first time the term appears in this section. Clauses (2), (4), and (5) are added to avoid repeating the source provisions throughout this section. In clause (3)(D), the words “without regard to” are omitted as surplus.

In subsection (b)(2), the word “limit” is omitted as being included in “regulate”.

In subsection (d), before clause (1), the text of 49 App.:1513(e)(5) is omitted as executed. The words “approve an application that an eligible agency has submitted under subsection (c) of this section” are substituted for “grant a public agency which controls a commercial service airport authority to impose a fee under this subsection” for clarity.

In subsection (e)(1)(B), the words “and conditions” are omitted as being included in “terms”.

Subsection (e)(2)(A) is substituted for 49 App.:1513(e)(6) (last sentence) to eliminate unnecessary words.

In subsection (e)(2)(B), the words “a public agency which controls any other airport”, “If a passenger of an air carrier is being provided air service”, and “with respect to such air service” are omitted as surplus.

In subsection (f)(3), the words “financed with” are substituted for “carried out through the use of” for consistency in this section and to eliminate unnecessary words.

In subsection (g)(2), the words “Except as provided by subparagraph (C)” and “by means of depreciation, amortization, or any other method” are omitted as surplus.

In subsection (h)(1), the word “agent” is substituted for “agency” to correct an error in the source provisions.

In subsection (i), before clause (1), the words “Not later than May 4, 1991” are omitted as obsolete.

§ 40128. Overflights of national parks

(a) IN GENERAL.—

(1) GENERAL REQUIREMENTS.—A commercial air tour operator may not conduct commercial air tour operations over a national park or tribal lands, as defined by this section, except—

(A) in accordance with this section;

(B) in accordance with conditions and limitations prescribed for that operator by the Administrator; and

(C) in accordance with any applicable air tour management plan for the park or tribal lands.

(2) APPLICATION FOR OPERATING AUTHORITY.—

(A) APPLICATION REQUIRED.—Before commencing commercial air tour operations over a national park or tribal lands, a commercial air tour operator shall apply to the Administrator for authority to conduct the operations over the park or tribal lands.

(B) COMPETITIVE BIDDING FOR LIMITED CAPACITY PARKS.—Whenever an air tour management plan limits the number of commercial air tour operations over a national park during a specified time frame, the Administrator, in cooperation with the Director, shall issue operation specifications to commercial air tour operators that conduct such operations. The operation specifications shall include such terms and conditions as

the Administrator and the Director find necessary for management of commercial air tour operations over the park. The Administrator, in cooperation with the Director, shall develop an open competitive process for evaluating proposals from persons interested in providing commercial air tour operations over the park. In making a selection from among various proposals submitted, the Administrator, in cooperation with the Director, shall consider relevant factors, including—

(i) the safety record of the person submitting the proposal or pilots employed by the person;

(ii) any quiet aircraft technology proposed to be used by the person submitting the proposal;

(iii) the experience of the person submitting the proposal with commercial air tour operations over other national parks or scenic areas;

(iv) the financial capability of the person submitting the proposal;

(v) any training programs for pilots provided by the person submitting the proposal; and

(vi) responsiveness of the person submitting the proposal to any relevant criteria developed by the National Park Service for the affected park.

(C) NUMBER OF OPERATIONS AUTHORIZED.—

In determining the number of authorizations to issue to provide commercial air tour operations over a national park, the Administrator, in cooperation with the Director, shall take into consideration the provisions of the air tour management plan, the number of existing commercial air tour operators and current level of service and equipment provided by any such operators, and the financial viability of each commercial air tour operation.

(D) COOPERATION WITH NPS.—Before granting an application under this paragraph, the Administrator, in cooperation with the Director, shall develop an air tour management plan in accordance with subsection (b) and implement such plan.

(E) TIME LIMIT ON RESPONSE TO ATMP APPLICATIONS.—The Administrator shall make every effort to act on any application under this paragraph and issue a decision on the application not later than 24 months after it is received or amended.

(F) PRIORITY.—In acting on applications under this paragraph to provide commercial air tour operations over a national park, the Administrator shall give priority to an application under this paragraph in any case in which a new entrant commercial air tour operator is seeking operating authority with respect to that national park.

(3) EXCEPTION.—Notwithstanding paragraph (1), commercial air tour operators may conduct commercial air tour operations over a national park under part 91 of the title 14, Code of Federal Regulations if—

(A) such activity is permitted under part 119 of such title;

(B) the operator secures a letter of agreement from the Administrator and the national park superintendent for that national park describing the conditions under which the operations will be conducted; and

(C) the total number of operations under this exception is limited to not more than five flights in any 30-day period over a particular park.

(4) SPECIAL RULE FOR SAFETY REQUIREMENTS.—Notwithstanding subsection (c), an existing commercial air tour operator shall apply, not later than 90 days after the date of the enactment of this section, for operating authority under part 119, 121, or 135 of title 14, Code of Federal Regulations. A new entrant commercial air tour operator shall apply for such authority before conducting commercial air tour operations over a national park or tribal lands. The Administrator shall make every effort to act on any such application for a new entrant and issue a decision on the application not later than 24 months after it is received or amended.

(b) AIR TOUR MANAGEMENT PLANS.—

(1) ESTABLISHMENT.—

(A) IN GENERAL.—The Administrator, in cooperation with the Director, shall establish an air tour management plan for any national park or tribal land for which such a plan is not in effect whenever a person applies for authority to conduct a commercial air tour operation over the park. The air tour management plan shall be developed by means of a public process in accordance with paragraph (4).

(B) OBJECTIVE.—The objective of any air tour management plan shall be to develop acceptable and effective measures to mitigate or prevent the significant adverse impacts, if any, of commercial air tour operations upon the natural and cultural resources, visitor experiences, and tribal lands.

(2) ENVIRONMENTAL DETERMINATION.—In establishing an air tour management plan under this subsection, the Administrator and the Director shall each sign the environmental decision document required by section 102 of the National Environmental Policy Act of 1969 (42 U.S.C. 4332) which may include a finding of no significant impact, an environmental assessment, or an environmental impact statement and the record of decision for the air tour management plan.

(3) CONTENTS.—An air tour management plan for a national park—

(A) may prohibit commercial air tour operations over a national park in whole or in part;

(B) may establish conditions for the conduct of commercial air tour operations over a national park, including commercial air tour routes, maximum or minimum altitudes, time-of-day restrictions, restrictions for particular events, maximum number of flights per unit of time, intrusions on privacy on tribal lands, and mitigation of noise, visual, or other impacts;

(C) shall apply to all commercial air tour operations over a national park that are also

within ½ mile outside the boundary of a national park;

(D) shall include incentives (such as preferred commercial air tour routes and altitudes, relief from caps and curfews) for the adoption of quiet aircraft technology by commercial air tour operators conducting commercial air tour operations over a national park;

(E) shall provide for the initial allocation of opportunities to conduct commercial air tour operations over a national park if the plan includes a limitation on the number of commercial air tour operations for any time period; and

(F) shall justify and document the need for measures taken pursuant to subparagraphs (A) through (E) and include such justifications in the record of decision.

(4) PROCEDURE.—In establishing an air tour management plan for a national park or tribal lands, the Administrator and the Director shall—

(A) hold at least one public meeting with interested parties to develop the air tour management plan;

(B) publish the proposed plan in the Federal Register for notice and comment and make copies of the proposed plan available to the public;

(C) comply with the regulations set forth in sections 1501.3 and 1501.5 through 1501.8 of title 40, Code of Federal Regulations (for purposes of complying with the regulations, the Federal Aviation Administration shall be the lead agency and the National Park Service is a cooperating agency); and

(D) solicit the participation of any Indian tribe whose tribal lands are, or may be, overflowed by aircraft involved in a commercial air tour operation over the park or tribal lands to which the plan applies, as a cooperating agency under the regulations referred to in subparagraph (C).

(5) JUDICIAL REVIEW.—An air tour management plan developed under this subsection shall be subject to judicial review.

(6) AMENDMENTS.—The Administrator, in cooperation with the Director, may make amendments to an air tour management plan. Any such amendments shall be published in the Federal Register for notice and comment. A request for amendment of an air tour management plan shall be made in such form and manner as the Administrator may prescribe.

(c) INTERIM OPERATING AUTHORITY.—

(1) IN GENERAL.—Upon application for operating authority, the Administrator shall grant interim operating authority under this subsection to a commercial air tour operator for commercial air tour operations over a national park or tribal lands for which the operator is an existing commercial air tour operator.

(2) REQUIREMENTS AND LIMITATIONS.—Interim operating authority granted under this subsection—

(A) shall provide annual authorization only for the greater of—

(i) the number of flights used by the operator to provide the commercial air tour

operations over a national park within the 12-month period prior to the date of the enactment of this section; or

(ii) the average number of flights per 12-month period used by the operator to provide such operations within the 36-month period prior to such date of enactment, and, for seasonal operations, the number of flights so used during the season or seasons covered by that 12-month period;

(B) may not provide for an increase in the number of commercial air tour operations over a national park conducted during any time period by the commercial air tour operator above the number that the air tour operator was originally granted unless such an increase is agreed to by the Administrator and the Director;

(C) shall be published in the Federal Register to provide notice and opportunity for comment;

(D) may be revoked by the Administrator for cause;

(E) shall terminate 180 days after the date on which an air tour management plan is established for the park or tribal lands;

(F) shall promote protection of national park resources, visitor experiences, and tribal lands;

(G) shall promote safe commercial air tour operations;

(H) shall promote the adoption of quiet technology, as appropriate; and

(I) shall allow for modifications of the interim operating authority based on experience if the modification improves protection of national park resources and values and of tribal lands.

(3) NEW ENTRANT AIR TOUR OPERATORS.—

(A) IN GENERAL.—The Administrator, in cooperation with the Director, may grant interim operating authority under this paragraph to an air tour operator for a national park or tribal lands for which that operator is a new entrant air tour operator if the Administrator determines the authority is necessary to ensure competition in the provision of commercial air tour operations over the park or tribal lands.

(B) SAFETY LIMITATION.—The Administrator may not grant interim operating authority under subparagraph (A) if the Administrator determines that it would create a safety problem at the park or on the tribal lands, or the Director determines that it would create a noise problem at the park or on the tribal lands.

(C) ATMP LIMITATION.—The Administrator may grant interim operating authority under subparagraph (A) of this paragraph only if the air tour management plan for the park or tribal lands to which the application relates has not been developed within 24 months after the date of the enactment of this section.

(d) EXEMPTIONS.—This section shall not apply to—

- (1) the Grand Canyon National Park; or
- (2) tribal lands within or abutting the Grand Canyon National Park.

(e) LAKE MEAD.—This section shall not apply to any air tour operator while flying over or near the Lake Mead National Recreation Area, solely as a transportation route, to conduct an air tour over the Grand Canyon National Park. For purposes of this subsection, an air tour operator flying over the Hoover Dam in the Lake Mead National Recreation Area en route to the Grand Canyon National Park shall be deemed to be flying solely as a transportation route.

(i) below a minimum altitude, determined by the Administrator in cooperation with the Director, above ground level (except solely for purposes of takeoff or landing, or necessary for safe operation of an aircraft as determined under the rules and regulations of the Federal Aviation Administration requiring the pilot-in-command to take action to ensure the safe operation of the aircraft); or

(ii) less than 1 mile laterally from any geographic feature within the park (unless more than ½ mile outside the boundary).

(B) FACTORS TO CONSIDER.—In making a determination of whether a flight is a commercial air tour operation over a national park for purposes of this section, the Administrator may consider—

(i) whether there was a holding out to the public of willingness to conduct a sightseeing flight for compensation or hire;

- (ii) whether a narrative that referred to areas or points of interest on the surface below the route of the flight was provided by the person offering the flight;

(C) prescribe the methods of communication to be implemented among carriers during such an event.

(2) VIEWS.—The Administrator may obtain the views of interested parties in issuing the guidelines.

(d) EFFECT OF DETERMINATION OF EXISTENCE OF CAPACITY REDUCTION EVENT.—Upon a determination by the Administrator that a capacity reduction event exists, the Administrator may authorize air carriers and foreign air carriers operating at an airport participating in the pilot program to communicate for a period of time not to exceed 24 hours with each other concerning changes in their respective flight schedules in order to use air traffic capacity most effectively. The Administration shall facilitate and monitor such communication. The Attorney General, or the Attorney General's designee, may monitor such communication.

(e) SELECTION OF PARTICIPATING AIRPORTS.—Not later than 30 days after the date on which the Administrator establishes the pilot program, the Administrator shall select 2 airports to participate in the pilot program from among the most capacity-constrained airports in the Nation based on the Administration's Airport Capacity Benchmark Report 2001 or more recent data on airport capacity that is available to the Administrator. The Administrator shall select an airport for participation in the pilot program if the Administrator determines that collaborative decisionmaking among air carriers and foreign air carriers would reduce delays at the airport and have beneficial effects on reducing delays in the national airspace system as a whole.

(f) ELIGIBILITY OF AIR CARRIERS.—An air carrier or foreign air carrier operating at an airport selected to participate in the pilot program is eligible to participate in the pilot program if the Administrator determines that the carrier has the operational and communications capability to participate in the pilot program.

(g) MODIFICATION OR TERMINATION OF PILOT PROGRAM AT AN AIRPORT.—The Administrator, with the concurrence of the Attorney General, may modify or end the pilot program at an airport before the term of the pilot program has expired, or may ban an air carrier or foreign air carrier from participating in the program, if the Administrator determines that the purpose of the pilot program is not being furthered by participation of the airport or air carrier or if the Secretary of Transportation, with the concurrence of the Attorney General, finds that the pilot program or the participation of an air carrier or foreign air carrier in the pilot program has had, or is having, an adverse effect on competition among carriers.

(h) ANTITRUST IMMUNITY.—

(1) IN GENERAL.—Unless, within 5 days after receiving notice from the Secretary of the Secretary's intention to exercise authority under this subsection, the Attorney General submits to the Secretary a written objection to such action, including reasons for such objection, the Secretary may exempt an air carrier's or foreign air carrier's activities that are necessary to participate in the pilot program under this section from the antitrust laws for the sole purpose of participating in the pilot program. Such exemption shall not extend to any discussions, agreements, or activities outside the scope of the pilot program.

(2) ANTITRUST LAWS DEFINED.—In this section, the term “antitrust laws” has the meaning given that term in the first section of the Clayton Act (15 U.S.C. 12).

(i) CONSULTATION WITH ATTORNEY GENERAL.—The Secretary shall consult with the Attorney General regarding the design and implementation of the pilot program, including determining whether a limit should be set on the number of occasions collaborative decisionmaking could be employed during the initial 2-year period of the pilot program.

(j) EVALUATION.—

(1) IN GENERAL.—Before the expiration of the 2-year period for which the pilot program is authorized under subsection (b), the Adminis-

trator shall determine whether the pilot program has facilitated more effective use of air traffic capacity and the Secretary, with the concurrence of the Attorney General, shall determine whether the pilot program has had an adverse effect on airline competition or the availability of air services to communities. The Administrator shall also examine whether capacity benefits resulting from the participation in the pilot program of an airport resulted in capacity benefits to other parts of the national airspace system.

(2) OBTAINING NECESSARY DATA.—The Administrator may require participating air carriers and airports to provide data necessary to evaluate the pilot program's impact.

(k) EXTENSION OF PILOT PROGRAM.—At the end of the 2-year period for which the pilot program is authorized, the Administrator, with the concurrence of the Attorney General, may continue the pilot program for an additional 2 years and expand participation in the program to up to 7 additional airports if the Administrator determines pursuant to subsection (j) that the pilot program has facilitated more effective use of air traffic capacity and if the Secretary, with the concurrence of the Attorney General, determines that the pilot program has had no adverse effect on airline competition or the availability of air services to communities. The Administrator shall select the additional airports to participate in the extended pilot program in the same manner in which airports were initially selected to participate.

In subsections (a)(2) and (c), the words “issued under this chapter” are added for clarity.

In subsection (a), the word “provide” is substituted for “engage in” for consistency in the revised title. The words before clause (1) are added to inform the reader that other provisions of the chapter and other laws qualify the requirement of being licensed by the Secretary of Transportation. In clause (1), the word

“holds” is substituted for “there is in force” to eliminate unnecessary words. The words “under this chapter” are substituted for “by the Board” for clarity. In clause (2), the words “of public convenience and necessity” are omitted as surplus. Clause (3) is included to inform the reader at the beginning of this chapter about all of the types of certificates and permits that the Secretary may issue under this subchapter.

In subsection (b), the word “passengers” is substituted for “persons” for consistency in the revised title. Before clause (1), the words “Notwithstanding any other provision of this chapter” are omitted as surplus. The words “providing transportation” are substituted for “undertakes . . . the carriage of” for consistency in the revised title. The words “or hire” are omitted as surplus and for consistency. The words “for such carriage within such State” are omitted as surplus. In clause (1), the words “through service” are substituted for “transportation” the first time it appears for clarity. In clause (2), the words “the requirements of” and “for such through services” are omitted as surplus.

In subsection (c), the word “property” is omitted as surplus. The words “landing area” are omitted because they are included in the definition of “air navigation facility” in section 40102(a) of the revised title.

§ 41102. General, temporary, and charter air transportation certificates of air carriers

(a) ISSUANCE.—The Secretary of Transportation may issue a certificate of public convenience and necessity to a citizen of the United States authorizing the citizen to provide any part of the following air transportation the citizen has applied for under section 41108 of this title:

- (1) air transportation as an air carrier.
- (2) temporary air transportation as an air carrier for a limited period.
- (3) charter air transportation as a charter air carrier.

(b) FINDINGS REQUIRED FOR ISSUANCE.—(1) Before issuing a certificate under subsection (a) of this section, the Secretary must find that the citizen is fit, willing, and able to provide the transportation to be authorized by the certificate and to comply with this part and regulations of the Secretary.

(2) In addition to the findings under paragraph (1) of this subsection, the Secretary, before issuing a certificate under subsection (a) of this section for foreign air transportation, must find that the transportation is consistent with the public convenience and necessity.

(c) TEMPORARY CERTIFICATES.—The Secretary may issue a certificate under subsection (a) of this section for interstate air transportation (except the transportation of passengers) or foreign air transportation for a temporary period of time (whether the application is for permanent or temporary authority) when the Secretary decides that a test period is desirable—

- (1) to decide if the projected services, efficiencies, methods, and prices and the projected results will materialize and remain for a sustained period of time; or
- (2) to evaluate the new transportation.

(d) FOREIGN AIR TRANSPORTATION.—The Secretary shall submit each decision authorizing the provision of foreign air transportation to the President under section 41307 of this title.

In this section, the words “citizen of the United States” and “citizen” are substituted for “applicant” for clarity and consistency because only a citizen of the United States may be an “air carrier” as defined in section 40102(a) of the revised title, and only an air carrier may be a “charter air carrier” as defined in section 40102(a). The word “provide” is substituted for “perform” for consistency in the revised title.

In subsection (a), before clause (1), the words “of public convenience and necessity” are added for clarity. The words “any part of” are substituted for “the whole or any part of” to eliminate unnecessary words. In clauses (2) and (3), the words “In the case of” are omitted as surplus. In clause (3), the words “for such periods” are omitted as surplus.

In subsection (b)(1), the word “comply” is substituted for “conform” for consistency in the revised title. The words “properly” and “requirements” are omitted as surplus. The word “rules” is omitted as being synonymous with “regulations”.

In subsection (b)(2), the words “foreign air transportation” are added because 49 App.:1551(a)(1)(A) provides that 49 App.:1371(d)(1)-(3) no longer applies to interstate or overseas transportation of persons. After January 1, 1985, other interstate and overseas air transportation and the domestic air transportation of mail do not require a certificate of public convenience and necessity. See H. Rept. 98-793, 98th Cong., 2d Sess., p.10 (1984).

In subsection (c), before clause (1), the words “issue a certificate” are substituted for “grant an application” for consistency in this chapter. The words “for interstate air transportation (except the transportation of passengers) or foreign air transportation” are added for clarity and consistency. The word “only” is omitted as surplus. In clause (1), the word “prices” is substituted for “rates, fares, charges” because of the definition of “price” in section 40102(a) of the revised title. The words “in fact” are omitted as surplus. In clause (2), the words “to assess the impact of the new

services on the national air route structure, or otherwise” are omitted as surplus.

Subsection (d) is added for clarity.

§ 41103. All-cargo air transportation certificates of air carriers

(a) APPLICATIONS.—A citizen of the United States may apply to the Secretary of Transportation for a certificate authorizing the citizen to provide all-cargo air transportation. The application must contain information and be in the form the Secretary by regulation requires.

(b) ISSUANCE.—Not later than 180 days after an application for a certificate is filed under this section, the Secretary shall issue the certificate to a citizen of the United States authorizing the citizen, as an air carrier, to provide any part of the all-cargo air transportation applied for unless the Secretary finds that the citizen is not fit, willing, and able to provide the all-cargo air transportation to be authorized by the certificate and to comply with regulations of the Secretary.

(c) TERMS.—The Secretary may impose terms the Secretary considers necessary when issuing a certificate under this section. However, the Secretary may not impose terms that restrict the places served or prices charged by the holder of the certificate.

(d) EXEMPTIONS AND STATUS.—A citizen issued a certificate under this section—

(1) is exempt in providing the transportation under the certificate from the requirements of—

(A) section 41101(a)(1) of this title and regulations or procedures prescribed under section 41101(a)(1); and

(B) other provisions of this part and regulations or procedures prescribed under those provisions when the Secretary finds under regulations of the Secretary that the exemption is appropriate; and

(2) is an air carrier under this part except to the extent the carrier is exempt under this section from a requirement of this part.

AMENDMENTS

1994—Subsec. (a). Pub. L. 103-429 substituted “all-cargo” for “all-property”.

EFFECTIVE DATE OF 1994 AMENDMENT

Amendment by Pub. L. 103-429 effective July 5, 1994, see section 9 of Pub. L. 103-429, set out as a note under section 321 of this title.

§ 41104. Additional limitations and requirements of charter air carriers

(a) RESTRICTIONS.—The Secretary of Transportation may prescribe a regulation or issue an order restricting the marketability, flexibility, accessibility, or variety of charter air transportation provided under a certificate issued under section 41102 of this title only to the extent required by the public interest. A regulation prescribed or order issued under this subsection may not be more restrictive than a regulation related to charter air transportation that was in effect on October 1, 1978.

(b) SCHEDULED OPERATIONS.—

(1) IN GENERAL.—Except as provided in paragraphs (3) and (4), an air carrier, including an indirect air carrier, may not provide, in aircraft designed for more than 9 passenger seats, regularly scheduled charter air transportation, for which the public is provided in advance a schedule containing the departure location, departure time, and arrival location of the flight, to or from an airport that—

(A) does not have an airport operating certificate issued under part 139 of title 14, Code of Federal Regulations (or any subsequent similar regulation); or

(B) has an airport operating certificate issued under part 139 of title 14, Code of Federal Regulations (or any subsequent similar regulation) if the airport—

(i) is a reliever airport (as defined in section 47102) and is designated as such in the

national plan of integrated airports maintained under section 47103; and

(ii) is located within 20 nautical miles (22 statute miles) of 3 or more airports that each annually account for at least 1 percent of the total United States passenger enplanements and at least 2 of which are operated by the sponsor of the reliever airport.

(2) DEFINITION.—In this paragraph, the term “regularly scheduled charter air transportation” does not include operations for which the departure time, departure location, and arrival location are specifically negotiated with the customer or the customer’s representative.

(3) EXCEPTION.—This subsection does not apply to any airport in the State of Alaska or to any airport outside the United States.

(4) WAIVERS.—The Secretary may waive the application of paragraph (1)(B) in cases in which the Secretary determines that the public interest so requires.

(c) ALASKA.—An air carrier holding a certificate issued under section 41102 of this title may provide charter air transportation between places in Alaska only to the extent the Secretary decides the transportation is required by public convenience and necessity. The Secretary may make that decision when issuing, amending, or modifying the certificate. This subsection does not apply to a certificate issued under section 41102 to a citizen of the United States who, before July 1, 1977—

(1) maintained a principal place of business in Alaska; and

(2) conducted air transport operations between places in Alaska with aircraft with a certificate for gross takeoff weight of more than 40,000 pounds.

(d) SUSPENSIONS.—(1) The Secretary shall suspend for not more than 30 days any part of the certificate of a charter air carrier if the Secretary decides that the failure of the carrier to comply with the requirements described in sections 41110(e) and 41112 of this title, or a regulation or order of the Secretary under section 41110(e) or 41112, requires immediate suspension in the interest of the rights, welfare, or safety of the public. The Secretary may act under this paragraph without notice or a hearing.

(2) The Secretary shall begin immediately a hearing to decide if the certificate referred to in paragraph (1) of this subsection should be amended, modified, suspended, or revoked. Until the hearing is completed, the Secretary may suspend the certificate for additional periods totaling not more than 60 days. If the Secretary decides that the carrier is complying with the requirements described in sections 41110(e) and 41112 of this title and regulations and orders under sections 41110(e) and 41112, the Secretary immediately may end the suspension period and proceeding begun under this subsection. However, the Secretary is not prevented from imposing a civil penalty on the carrier for violating the requirements described in section 41110(e) or 41112 or a regulation or order under section 41110(e) or 41112.

The text of 49 App.:1371(n)(4) and 1551(n)(1)(E) (related to 49 App.:1371(n)(4)) is omitted because inclusive tour charters have been abolished and charter air carriers have received authority to sell public charter flights directly to the public.

The words “State of” are omitted as surplus. The word “modifying” is added for consistency in the revised title. The words “citizen of the United States” are substituted for “person” for clarity and consistency because only a citizen of the United States may be an “air carrier” as defined in section 40102(a) of the revised title.

In subsection (c)(1), the text of 49 App.:1371(n)(6) is omitted as surplus because of 49:322(a).

In subsection (c)(2), the word “amended” is added for consistency in the revised title.

The words "from time to time" are omitted as surplus. The words "United States Postal Service" and "Postal Service" are substituted for "Postmaster General" in section 401(m) of the Federal Aviation Act of 1958 (Public Law 85-726, 72 Stat. 757) because of sections 4(a) and 6(o) of the Postal Reorganization Act (Public Law 91-375, 84 Stat. 773, 783). The words "in foreign air transportation or between places in Alaska" are substituted for "between any points within the United States or between the United States and foreign countries" for consistency in the revised title and because 49 App.:1551(a)(4)(A) provides that 49 App.:1371(m) no longer applies to interstate or overseas air transportation (except transportation of mail between 2 places in Alaska). In addition, Congress did not intend to maintain the regulation of domestic air transportation of mail. See section 40102(a) of the revised title defining "air transportation" to mean interstate or foreign air transportation or the transportation of mail by aircraft. The word "currently" is omitted as surplus. The words "opportunity for a" are added for consistency in the revised title and with other titles of the United States Code. The words "or certificates" are omitted as surplus because of 1:1. The word "modify" is added for consistency in the revised title.

In subsection (a)(2), the words before clause (A) are added for clarity. Clause (A) is substituted for 49 App.:1371(e)(1) (words after semicolon) for clarity and consistency and to eliminate unnecessary words. In clause (B), the words “may not prescribe a term preventing” are substituted for “No term, condition, or limitation of a certificate shall restrict the right” for clarity and consistency. The word “providing” is substituted for “performing” for consistency in the revised title.

In subsection (a)(3) and (4), the word “places” is substituted for “points”, and the word “provide” is substituted for “engage in”, for consistency in the revised title. PUB. L. 104-287

This amends 49:41109(a) to clarify the restatement of 49 App.:1371(e) by section 1 of the Act of July 5, 1994 (Public Law 103-272, 108 Stat. 1123).

AMENDMENTS

1996—Subsec. (a)(5). Pub. L. 104-287 added par. (5).

EFFECTIVE DATE OF 1996 AMENDMENT

Amendment by Pub. L. 104-287 effective July 5, 1994, see section 8(1) of Pub. L. 104-287, set out as a note under section 5303 of this title.

§ 41110. Effective periods and amendments, modifications, suspensions, and revocations of certificates

(a) GENERAL.—(1) Each certificate issued under section 41102 of this title is effective from the date specified in it and remains in effect until—

(A) the Secretary of Transportation suspends or revokes the certificate under this section;

(B) the end of the period the Secretary specifies for an air carrier having a certificate of temporary authority issued under section 41102(a)(2) of this title; or

(C) the Secretary certifies that transportation is no longer being provided under a certificate.

(2) On application or on the initiative of the Secretary and after notice and an opportunity for a hearing or, except as provided in paragraph (4) of this subsection, under section 41111 of this title, the Secretary may—

(A) amend, modify, or suspend any part of a certificate if the Secretary finds the public convenience and necessity require amendment, modification, or suspension; and

(B) revoke any part of a certificate if the Secretary finds that the holder of the certificate intentionally does not comply with this chapter, sections 41308–41310(a), 41501, 41503, 41504, 41506, 41510, 41511, 41701, 41702, 41705–41709, 41711, 41712, and 41731–41742, chapter 419, subchapter II of chapter 421, and section 46301(b) of this title, a regulation or order of the Secretary under any of those provisions, or a term of its certificate.

(3) The Secretary may revoke a certificate under paragraph (2)(B) of this subsection only if the holder of the certificate does not comply, within a reasonable time the Secretary specifies, with an order to the holder requiring compliance.

(4) A certificate to provide foreign air transportation may not be amended, modified, suspended, or revoked under section 41111 of this title if the holder of the certificate requests an oral evidentiary hearing or the Secretary finds, under all the facts and circumstances, that the hearing is required in the public interest.

(b) ALL-CARGO AIR TRANSPORTATION.—The Secretary may order that a certificate issued under section 41103 of this title authorizing all-cargo air transportation is ineffective if, after notice and an opportunity for a hearing, the Secretary finds that the transportation is not provided to the minimum extent specified by the Secretary.

(c) FOREIGN AIR TRANSPORTATION.—(1) Notwithstanding subsection (a)(2)–(4) of this section, after notice and a reasonable opportunity for the affected air carrier to present its views, but without a hearing, the Secretary may suspend or revoke the authority of an air carrier to provide foreign air transportation to a place under a certificate issued under section 41102 of this title if the carrier—

(A) notifies the Secretary, under section 41734(a) of this title or a regulation of the Secretary, that it intends to suspend all transportation to that place; or

(B) does not provide regularly scheduled transportation to the place for 90 days imme-

diately before the date the Secretary notifies the carrier of the action the Secretary proposes.

(2) Paragraph (1)(B) of this subsection does not apply to a place provided seasonal transportation comparable to the transportation provided during the prior year.

(d) TEMPORARY CERTIFICATES.—On application or on the initiative of the Secretary, the Secretary may—

(1) review the performance of an air carrier issued a certificate under section 41102(c) of this title on the basis that the air carrier will provide innovative or low-priced air transportation under the certificate; and

(2) amend, modify, suspend, or revoke the certificate or authority under subsection (a)(2) or (c) of this section if the air carrier has not provided, or is not providing, the transportation.

(e) CONTINUING REQUIREMENTS.—(1) To hold a certificate issued under section 41102 of this title, an air carrier must continue to be fit, willing, and able to provide the transportation authorized by the certificate and to comply with this part and regulations of the Secretary.

(2) After notice and an opportunity for a hearing, the Secretary shall amend, modify, suspend, or revoke any part of a certificate issued under section 41102 of this title if the Secretary finds that the air carrier—

(A) is not fit, willing, and able to provide the transportation authorized by the certificate and to comply with this part and regulations of the Secretary; or

(B) does not file reports necessary for the Secretary to decide if the carrier is complying with the requirements of clause (A) of this paragraph.

(f) ILLEGAL IMPORTATION OF CONTROLLED SUBSTANCES.—The Secretary—

(1) in consultation with appropriate departments, agencies, and instrumentalities of the United States Government, shall reexamine immediately the fitness of an air carrier that—

(A) violates the laws and regulations of the United States related to the illegal importation of a controlled substance; or

(B) does not adopt available measures to prevent the illegal importation of a controlled substance into the United States on its aircraft; and

(2) when appropriate, shall amend, modify, suspend, or revoke the certificate of the carrier issued under this chapter.

(g) RESPONSES.—An interested person may file a response with the Secretary opposing or supporting the amendment, modification, suspension, or revocation of a certificate under subsection (a) of this section.

The word “rule” is omitted as being synonymous with “regulation”. The words “condition, or limitation” are omitted as surplus.

In subsection (a)(3), the words “to the provision, or to the order (other than an order issued in accordance with this sentence), rule, regulation, term, condition, or limitation found by the Board to have been violated” are omitted as surplus.

the revised title for clarity because 49 App.:1371(j) is obsolete. The comparable provision is 49 App.:1389(b)(2), restated as section 41734(a). The words “provided by that carrier” are omitted as surplus. In clause (B), the word “immediately” is added for clarity.

(a) LIABILITY INSURANCE.—The Secretary of Transportation may issue a certificate to a citizen of the United States to provide air transportation

as an air carrier under section 41102 of this title only if the citizen complies with regulations and orders of the Secretary governing the filing of an insurance policy or self-insurance plan approved by the Secretary. The policy or plan must be sufficient to pay, not more than the amount of the insurance, for bodily injury to, or death of, an individual or for loss of, or damage to, property of others, resulting from the operation or maintenance of the aircraft under the certificate. A certificate does not remain in effect unless the carrier complies with this subsection.

(b) FINANCIAL RESPONSIBILITY.—To protect passengers and shippers using an aircraft operated by an air carrier issued a certificate under section 41102 of this title, the Secretary may require the carrier to file a performance bond or equivalent security in the amount and on terms the Secretary prescribes. The bond or security must be sufficient to ensure the carrier adequately will pay the passengers and shippers when the transportation the carrier agrees to provide is not provided. The Secretary shall prescribe the amounts to be paid under this subsection.

(11) An assurance that the air carrier will provide reasonable compensation to any organization designated under section 1136(a)(2) of this title for services provided by the organization.

(12) An assurance that the air carrier will assist the family of a passenger in traveling to

the location of the accident and provide for the physical care of the family while the family is staying at such location.

(13) An assurance that the air carrier will commit sufficient resources to carry out the plan.

(c) The DOT shall, as soon as practical after the deadlines specified in section 5(b) of this Order: (1) if no recommendations for disapproval or for a statement of reasons are received from the departments and agencies specified in section 3(c) of this Order, issue its decision to become effective according to its terms; or (2) if recommendations for disapproval or for a statement of reasons are received, transmit them to the Assistant to the President for National Security Affairs, who, upon review, shall transmit a memorandum to the President with a recommendation as to whether or not the President should disapprove the proposed decision.

SEC. 6. (a) In advising the President with respect to his review of a decision pursuant to Section 801, departments and agencies outside of the Executive Office of the President shall identify with particularity the defense or foreign policy implications of the DOT decision that are deemed appropriate for consideration.

(b) If any department or agency that made recommendations to the President pursuant to Section 801 believes that, if the President decides not to disapprove a decision, the letter so advising the DOT should include a statement that the decision not to disapprove was based on national defense or foreign relations reasons, it should so indicate separately and explain why.

SEC. 7. Individuals within the Executive Office of the President shall follow a policy of: (a) refusing to discuss matters relating to the disposition of a case subject to the review of the President under Section 801 with any interested private party, or an attorney or agent for any such party, prior to the decision by the President or his designee; and (b) referring any written communication from an interested private party, or an attorney or agent for any such party, to the appropriate department or agency outside of the Executive Office of the President. Exceptions to this policy may be made only when the head of an appropriate department or agency outside of the Executive Office of the President personally finds, on a nondelegable basis, that direct written or oral communication between a private party and a person within the Executive Office of the President is needed for reasons of defense or foreign policy.

SEC. 8. Departments and agencies outside of the Executive Office of the President that regularly make recommendations in connection with the presidential review pursuant to Section 801 shall, consistent with applicable law, including the provisions of Chapter 5 of Title 5 of the United States Code:

(a) establish public dockets for all written communications (other than those requiring confidential treatment for defense or foreign policy reasons) between their officers and employees and private parties in connection with the preparation of such recommendations; and

(b) prescribe such other procedures governing oral and written communications as they deem appropriate.

SEC. 9. This Order is intended solely for the internal guidance of the departments and agencies in order to facilitate the presidential review process. This Order does not confer rights on any private parties.

SEC. 10. None of the time deadlines specified in this Order shall be construed as a limitation on expedited presidential review of any decision under Section 801.

SEC. 11. The provisions of this Order shall become effective upon publication in the Federal Register and shall govern the review of any proposed decisions of the DOT that have not become final prior to that date under Executive Order No. 12547.

SEC. 12. References in any Executive order to any provision in Executive Order No. 12547 shall be deemed to refer to the corresponding provision in this Order.

Subsection (a) is substituted for “the ‘anti-trust laws’ set forth in subsection (a) of section 12 of title 15” for consistency in the revised title and with other titles of the United States Code.

In subsection (b), reference to 49 App.:1378 and 1379 is omitted as obsolete.

§ 41309. Cooperative agreements and requests

(a) FILING.—An air carrier or foreign air carrier may file with the Secretary of Transportation a true copy of or, if oral, a true and complete memorandum of, an agreement (except an agreement related to interstate air transportation), or a request for authority to discuss cooperative arrangements (except arrangements related to interstate air transportation), and any modification or cancellation of an agreement, between the air carrier or foreign air carrier and another air carrier, a foreign carrier, or another carrier.

(b) APPROVAL.—The Secretary of Transportation shall approve an agreement, request, modification, or cancellation referred to in subsection (a) of this section when the Secretary finds it is not adverse to the public interest and is not in violation of this part. However, the Secretary shall disapprove—

(1) or, after periodic review, end approval of, an agreement, request, modification, or cancellation, that substantially reduces or eliminates competition unless the Secretary finds that—

(A) the agreement, request, modification, or cancellation is necessary to meet a serious transportation need or to achieve important public benefits (including international comity and foreign policy considerations); and

(B) the transportation need cannot be met or those benefits cannot be achieved by rea-

sonably available alternatives that are materially less anticompetitive; or

(2) an agreement that—

(A) is between an air carrier not directly operating aircraft in foreign air transportation and a carrier subject to subtitle IV of this title; and

(B) governs the compensation the carrier may receive for the transportation.

(c) NOTICE AND OPPORTUNITY TO RESPOND OR FOR HEARING.—(1) When an agreement, request, modification, or cancellation is filed, the Secretary of Transportation shall give the Attorney General and the Secretary of State written notice of, and an opportunity to submit written comments about, the filing. On the initiative of the Secretary of Transportation or on request of the Attorney General or Secretary of State, the Secretary of Transportation may conduct a hearing to decide whether an agreement, request, modification, or cancellation is consistent with this part whether or not it was approved previously.

(2) In a proceeding before the Secretary of Transportation applying standards under subsection (b)(1) of this section, a party opposing an agreement, request, modification, or cancellation has the burden of proving that it substantially reduces or eliminates competition and that less anticompetitive alternatives are available. The party defending the agreement, request, modification, or cancellation has the burden of proving the transportation need or public benefits.

(3) The Secretary of Transportation shall include the findings required by subsection (b)(1) of this section in an order of the Secretary approving or disapproving an agreement, request, modification, or cancellation.

In this section, the word “contract” is omitted as being included in “agreement”.

In subsection (a), the words “(whether enforceable by provisions for liquidated damages, penalties, bonds, or otherwise)” are omitted as surplus. The words “(except an agreement related to interstate air transportation)” and “(except arrangements related to interstate air transportation)” are added because of 49 App.:1551(a)(6) (related to 49 App.:1382). The word “working” is omitted as surplus. The words “in force on October 24, 1978, or thereafter entered into” are omitted as executed. The words “and any modification or cancellation of an agreement” are substituted for “or any modification or cancellation thereof” for clarity and consistency.

In subsection (b), before clause (1), the words “The Board shall by order disapprove any contract, agreement, or request . . . that it finds to be adverse to the public interest or in violation of this chapter” are omitted as surplus because of the language restated in this subsection that sets out the requirements for approval by the Secretary of Transportation before the antitrust exemption is effective. The words “whether or not previously approved by it” are omitted as surplus because of the language in clause (1) requiring periodic review and continuing approval. The words “by order” are omitted as unnecessary because of 5:ch. 5, subch. II. The text of 49 App.:1382(a)(2)(A)(iii) is omitted as obsolete because of 49 App.:1551(a)(6) (related to 49 App.:1382).

In subsection (c)(1), the words “in accordance with regulations which it prescribes” are omitted as surplus. The words “in accordance with regulations prescribed by the Board” are omitted as surplus.

PUB. L. 104-287

This amends 49:41309(b)(2)(B) for consistency in the subsection.

AMENDMENTS

1996—Subsec. (b)(2)(B). Pub. L. 104-287 substituted “carrier” for “common carrier”.

1995—Subsec. (b)(2)(A). Pub. L. 104-88 substituted “a carrier” for “a common carrier”.

EFFECTIVE DATE OF 1995 AMENDMENT

Amendment by Pub. L. 104-88 effective Jan. 1, 1996, see section 2 of Pub. L. 104-88, set out as an Effective Date note under section 701 of this title.

AIR TRANSPORTATION ARRANGEMENTS IN CERTAIN STATES

Pub. L. 107-71, title I, § 116, Nov. 19, 2001, 115 Stat. 624, which related to air transportation arrangements for flights that both originate and terminate at points within the same State, was repealed by Pub. L. 107-273, div. C, title IV, § 14102(g), Nov. 2, 2002, 116 Stat. 1922.

§ 41310. Discriminatory practices

(a) PROHIBITION.—An air carrier or foreign air carrier may not subject a person, place, port, or type of traffic in foreign air transportation to unreasonable discrimination.

(b) REVIEW AND NEGOTIATION OF DISCRIMINATORY FOREIGN CHARGES.—(1) The Secretary of Transportation shall survey charges imposed on an air carrier by the government of a foreign

country or another foreign entity for the use of airport property or airway property in foreign air transportation. If the Secretary of Transportation decides that a charge is discriminatory, the Secretary promptly shall report the decision to the Secretary of State. The Secretaries of State and Transportation promptly shall begin negotiations with the appropriate government to end the discrimination. If the discrimination is not ended in a reasonable time through negotiation, the Secretary of Transportation shall establish a compensating charge equal to the discriminatory charge. With the approval of the Secretary of State, the Secretary of the Treasury shall impose the compensating charge on a foreign air carrier of that country as a condition to accepting the general declaration of the aircraft of the foreign air carrier when it lands or takes off.

(2) The Secretary of the Treasury shall maintain an account to credit money collected under paragraph (1) of this subsection. An air carrier shall be paid from the account an amount certified by the Secretary of Transportation to compensate the air carrier for the discriminatory charge paid to the government.

(c) ACTIONS AGAINST DISCRIMINATORY ACTIVITY.—(1) The Secretary of Transportation may take actions the Secretary considers are in the public interest to eliminate an activity of a government of a foreign country or another foreign entity, including a foreign air carrier, when the Secretary, on the initiative of the Secretary or on complaint, decides that the activity—

(A) is an unjustifiable or unreasonable discriminatory, predatory, or anticompetitive practice against an air carrier; or

(B) imposes an unjustifiable or unreasonable restriction on access of an air carrier to a foreign market.

(2) The Secretary of Transportation may deny, amend, modify, suspend, revoke, or transfer under paragraph (1) of this subsection a foreign air carrier permit or tariff under section 41302, 41303, 41304(a), 41504(c), 41507, or 41509 of this title.

(d) FILING OF, AND ACTING ON, COMPLAINTS.—(1) An air carrier, computer reservations system firm, or a department, agency, or instrumentality of the United States Government may file a complaint under subsection (c) or (g) of this section with the Secretary of Transportation. The Secretary shall approve, deny, or dismiss the complaint, set the complaint for a hearing or investigation, or begin another proceeding proposing remedial action not later than 60 days after receiving the complaint. The Secretary may extend the period for acting for additional periods totaling not more than 30 days if the Secretary decides that with additional time it is likely that a complaint can be resolved satisfactorily through negotiations with the government of the foreign country or foreign entity. The Secretary must act not later than 90 days after receiving the complaint. However, the Secretary may extend this 90-day period for not more than an additional 90 days if, on the last day of the initial 90-day period, the Secretary finds that—

(A) negotiations with the government have progressed to a point that a satisfactory resolution of the complaint appears imminent;

(B) an air carrier or computer reservations system firm has not been subjected to economic injury by the government or entity as a result of filing the complaint; and
 (C) the public interest requires additional time before the Secretary acts on the complaint.

(2) In carrying out paragraph (1) of this subsection and subsection (c) of this section, the Secretary of Transportation shall—

(A) solicit the views of the Secretaries of Commerce and State and the United States Trade Representative;

(B) give an affected air carrier or foreign air carrier reasonable notice and an opportunity to submit written evidence and arguments within the time limits of this subsection; and

(C) submit to the President under section 41307 or 41509(f) of this title actions proposed by the Secretary of Transportation.

(e) REVIEW.—(1) The Secretaries of State, the Treasury, and Transportation and the heads of other departments, agencies, and instrumentalities of the Government shall keep under review, to the extent of each of their jurisdictions, each form of discrimination or unfair competitive practice to which an air carrier is subject when providing foreign air transportation or a computer reservations system firm is subject when providing services with respect to airline service. Each Secretary and head shall—

(A) take appropriate action to eliminate any discrimination or unfair competitive practice found to exist; and

(B) request Congress to enact legislation when the authority to eliminate the discrimination or unfair practice is inadequate.

(2) The Secretary of Transportation shall report to Congress annually on each action taken under paragraph (1) of this subsection and on the continuing program to eliminate discrimination and unfair competitive practices. The Secretaries of State and the Treasury each shall give the Secretary of Transportation information necessary to prepare the report.

(f) REPORTS.—Not later than 30 days after acting on a complaint under this section, the Secretary of Transportation shall report to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate on action taken under this section on the complaint.

(g) ACTIONS AGAINST DISCRIMINATORY ACTIVITY BY FOREIGN CRS SYSTEMS.—The Secretary of Transportation may take such actions as the Secretary considers are in the public interest to eliminate an activity of a foreign air carrier that owns or markets a computer reservations system, or of a computer reservations system firm whose principal offices are located outside the United States, when the Secretary, on the initiative of the Secretary or on complaint, decides that the activity, with respect to airline service—

(1) is an unjustifiable or unreasonable discriminatory, predatory, or anticompetitive practice against a computer reservations system firm whose principal offices are located inside the United States; or

(2) imposes an unjustifiable or unreasonable restriction on access of such a computer reservations system to a foreign market.

In subsection (a), the words “may not subject . . . to unreasonable discrimination” are substituted for “No . . . shall make, give, or cause any undue or unreasonable preference or advantage . . . in any respect whatsoever or subject . . . to any unjust discrimination or any undue or unreasonable prejudice or disadvantage in any respect whatsoever” to eliminate unnecessary words. The words “foreign air transportation” are substituted for “air transportation” because 49 App.:1551(a)(4)(C) provides that 49 App.:1374 no longer applies to interstate or overseas air transportation except insofar as 49 App.:1374 requires air carriers to provide safe and adequate service.

In subsection (b)(1), the words “at any time”, “unreasonably exceed comparable charges for furnishing such airport property or airway property in the United States or are otherwise” and “reduce such charges or” are omitted as surplus. The words “the Secretary of State shall promptly report such instances to” are omitted as surplus because the Secretary of Transportation is involved in the negotiations and aware of the failure to end the discrimination. The words “excessive or” are omitted as surplus. The words “or carriers” are omitted because of 1:1.

In subsection (b)(2), the words “in accordance with such regulations as he shall adopt” are omitted as surplus because of 49:322(a). The words “by them” are omitted as surplus.

In subsections (c)–(e), the words “United States” before “air carriers” and “air carrier” are omitted as surplus and for consistency because only a citizen of the United States may be an “air carrier” as defined in sec-

tion 40102(a) of the revised title and because 49 App.:1301 applies to this section.

In subsections (c)(1) and (d)(1), before each clause (A), the words “foreign entity” and “entity” are substituted for “instrumentality” for consistency in the revised title and with other titles of the United States Code.

In subsection (c)(2), the words “alteration”, “cancellation”, “limitation”, and “pursuant to the powers of the Secretary” are omitted as surplus.

In subsection (d)(1), before clause (A), the words “department, agency, or instrumentality of the United States Government” are substituted for “agency of the Government of the United States” for consistency in the revised title and with other titles of the Code. The words “additional periods totaling not more than 30 days” are substituted for “an additional period or periods of up to 30 days each” for clarity because the amendment made by section 10111 of the Omnibus Trade and Competitiveness Act of 1988 (Public Law 100-418, 102 Stat. 1573) changed the additional period within which the Secretary had to act to only 30 days. The word “initial” is added for clarity.

In subsection (d)(2)(A), the words “the Secretaries of Commerce and State and the United States Trade Representative” are substituted for “the Department of State, the Department of Commerce, and the Office of the United States Trade Representative” because of 15:1501, 22:2651, and 19:2171, respectively.

In subsection (d)(2)(B), the words “as is consistent with acting on the complaint” are omitted as surplus.

In subsection (e)(1), before clause (A), the text of 49 App.:1159b(a) (1st, 2d sentences) is omitted as executed. The words “The Secretaries of State, the Treasury, and Transportation” are substituted for “The Department of State, the Department of the Treasury, the Department of Transportation” because of 22:2651, 31:301(b), and 49:102(b), respectively. The words “the heads of” and “instrumentalities of the Government” are added for consistency in the revised title and with other titles of the Code. The word “jurisdictions” is substituted for “respective functions” for clarity and consistency. In clause (A), the words “within its jurisdiction . . . such forms of” are omitted as surplus. Clause (B) is substituted for 49 App.:1159b(c) to eliminate unnecessary words.

In subsection (e)(2), the words “faced by United States carriers in foreign air transportation”, “as may be”, and “required by this subsection” are omitted as surplus.

AMENDMENTS

2000—Subsec. (d)(1). Pub. L. 106-181, §741(b)(1)(A), (B), in first sentence of introductory provisions, substituted “air carrier, computer reservations system firm,” for “air carrier” and “subsection (c) or (g)” for “subsection (c)”.

(17) NOTICE CONCERNING LIABILITY FOR MAN-MADE STRUCTURES.—

(A) IN GENERAL.—An assurance that, in the case of an accident that results in signifi-

cant damage to a manmade structure or other property on the ground that is not government-owned, the foreign air carrier will promptly provide notice, in writing, to the extent practicable, directly to the owner of the structure or other property about liability for any property damage and means for obtaining compensation.

In this chapter, the word “regulation” is omitted in restating the phrase “classifications, rules, regulations, and practices” because it is covered by the word “rules” and to distinguish the rules of an air carrier or foreign air carrier from the regulations of the United States Government. The word “reasonable” is substituted for “just and reasonable” and “just, reasonable, and equitable” for consistency in the revised title and to eliminate unnecessary words. See the revision notes following 49:10101. The word “prices” is substituted for “fares” and “rates, fares, and charges” because of the definition of “price” in section 40102(a) of the revised title.

In this section, before clause (1), the words “comply with” are substituted for “observe” for consistency in the revised title and with other titles of the United States Code. In clause (1), the words “individual and joint” are omitted as surplus. In clause (2), the words “unreasonably discriminating” are substituted for “unduly prefer or prejudice” for consistency in the revised title and to eliminate unnecessary words. See the revision notes following 49:10101.

§ 41502. Establishing joint prices for through routes with other carriers

(a) JOINT PRICES.—An air carrier may establish reasonable joint prices and through service with another carrier. However, an air carrier not directly operating aircraft in air transportation (except an air express company) may not establish under this section a joint price for the transportation of property with a carrier subject to subtitle IV of this title.

(b) PRICES, CLASSIFICATIONS, RULES, AND PRACTICES AND DIVISIONS OF JOINT PRICES.—For through service by an air carrier and a carrier subject to subtitle IV of this title, the participating carriers shall establish—

- (1) reasonable prices and reasonable classifications, rules, and practices affecting those prices or the value of the transportation provided under those prices; and
- (2) for joint prices established for the through service, reasonable divisions of those joint prices among the participating carriers.

(c) STATEMENTS INCLUDED IN TARIFFS.—An air carrier and a carrier subject to subtitle IV of this title that are participating in through service and joint prices shall include in their tariffs, filed with the Secretary of Transportation, a statement showing the through service and joint prices.

In subsection (a), the words “(except an air express company)” are substituted for “(other than companies engaged in the air express business)” to eliminate unnecessary words.

In subsection (b), before clause (1), the words “participating carriers” are substituted for “carriers parties thereto” and “carriers participating therein” for consistency in this chapter.

In subsection (c), the words “or the Interstate Commerce Commission, as the case may be” are omitted because of 49:10526(a)(8)(B).

(1) the sum of the applicable prices for—

(A) the part of the transportation provided in the State and approved by the appropriate State authority; and

(B) the part of the transportation provided by the air carrier or foreign air carrier;

(2) a joint price established and filed under section 41504 of this title; or

(3) a joint price prescribed by the Secretary of Transportation under section 41507 of this title.

The words “a citizen of the United States providing transportation under section 41101(b) of this title” are substituted for “any citizen of the United States who undertakes, within any State, the carriage of persons or property as a common carrier for compensation or hire with aircraft capable of carrying thirty or more persons pursuant to authority for such carriage within such State granted by the appropriate State agency” for clarity and because of the restatement of 49 App.:1371(d)(4)(A)(i) and (ii) (related to joint services) in section 41101(b) of the revised title. The words “the establishment of” are omitted as surplus.

§ 41504. Tariffs for foreign air transportation

(a) FILING AND CONTENTS.—In the way prescribed by regulation by the Secretary of Transportation, every air carrier and foreign air carrier shall file with the Secretary, publish, and keep open to public inspection, tariffs showing the prices for the foreign air transportation provided between places served by the carrier and provided between places served by the carrier and places served by another air carrier or foreign air carrier with which through service and joint prices have been established. A tariff—

(1) shall contain—

(A) to the extent the Secretary requires by regulation, a description of the classifications, rules, and practices related to the foreign air transportation;

(B) a statement of the prices in money of the United States; and

(C) other information the Secretary requires by regulation; and

(2) may contain—

(A) a statement of the prices in money that is not money of the United States; and

(B) information that is required under the laws of a foreign country in or to which the air carrier or foreign air carrier is authorized to operate.

(b) CHANGES.—(1) Except as provided in paragraph (2) of this subsection, an air carrier or foreign air carrier may change a price or a classification, rule, or practice affecting that price or the value of the transportation provided under that price, specified in a tariff of the carrier for foreign air transportation only after 30 days after the carrier has filed, published, and posted notice of the proposed change in the same way as required for a tariff under subsection (a) of this section. However, the Secretary may prescribe an alternative notice requirement, of at least 25 days, to allow an air carrier or foreign air carrier to match a proposed change in a passenger fare or a charge of another air carrier or foreign air carrier. A notice under this para-

graph must state plainly the change proposed and when the change will take effect.

(2) If the effect of a proposed change would be to begin a passenger fare that is outside of, or not covered by, the range of passenger fares specified under section 41509(e)(2) and (3) of this title, the proposed change may be put into effect only on the expiration of 60 days after the notice is filed under regulations prescribed by the Secretary.

(c) REJECTION OF CHANGES.—The Secretary may reject a tariff or tariff change that is not consistent with this section and regulations prescribed by the Secretary. A tariff or change that is rejected is void.

In this section, the words “foreign air transportation” are substituted for “air transportation” because 49 App.:1551(a)(4)(B) provides that 49 App.:1373 no longer applies to interstate or overseas air transportation and 49 App.:1376(a)–(e), restated in section 41901 of the revised title, governs rates for the transportation of mail by aircraft. See section 40102(a) of the revised title defining “air transportation” to mean interstate or foreign air transportation or the transportation of mail by aircraft. The words “passenger fare” are substituted for “fare” for consistency in the revised title.

In subsection (a), before clause (1), the word “print” is omitted as being included in “publish”. The word “places” is substituted for “points” for consistency in the revised title and with other titles of the United States Code. In clause (1)(A), the word “services” is omitted as being included in “practices”. In clauses (1)(B) and (2)(A), the word “lawful” is omitted as surplus.

In subsection (b)(1), the words “for foreign air transportation” are added because of 49 App.:1551(a)(4)(B). See the revision notes for subsection (a) of this section. The words “in the same way as required for a tariff under” are substituted for “in accordance with” for clarity. The words “proposed change in a passenger fare

or a charge of another air carrier or foreign air carrier” are substituted for “fares or charges specified in another air carrier’s or foreign air carrier’s proposed tariff” for clarity and consistency in this section.

In subsection (b)(2), the words “not covered by” are substituted for “to which such range of fares does not apply” to eliminate unnecessary words. The words “subparagraphs (A) and (B) of section 1482(d)(4) of this Appendix . . . section 1482(d)(7) of this Appendix” are omitted because those sections related to interstate and overseas air transportation and the source provisions restated in this section relate to foreign air transportation. In addition, the text of 49 App.:1551(a)(5)(D) provides that 49 App.:1482(d) ceased to be in effect on January 1, 1985, except as related to foreign air transportation. The reference in the source provisions to “section 1482(j)(9) of this Appendix” has been restated as though it were a reference to 49 App.:1482(j)(10) to correct an apparent error in the International Air Transportation Competition Act of 1979 (Public Law 96-192, 94 Stat. 35). Section 24(b) of S. 1300 of the 96th Congress (the derivative source for the International Air Transportation Competition Act of 1979), as originally passed by both the Senate and the House of Representatives, restated section 403(c)(2) of the Federal Aviation Act of 1958 (Public Law 85-726, 72 Stat. 759) to read as it now does with a cross-reference to section 1002(j)(9) of the Federal Aviation Act of 1958. Also contained in those versions of S. 1300 in section 24(a) was an amendment to section 1002(j) of the Federal Aviation Act of 1958 to add a paragraph (9) that contained language identical to what is now section 1002(j)(10) of the Federal Aviation Act of 1958. When S. 1300 was reported by the conference committee and enacted into law as the International Air Transportation Competition Act of 1979, section 24(a) had been changed so that a different paragraph (9) was added and what had been paragraph (9) was now designated as a new paragraph (10) to be added. Apparently, when the conference committee redesignated section 1002(j)(9) as 1002(j)(10) it did not make a corresponding change in the cross-reference in section 403(c)(2). See 125 Cong. Rec. 26936, 32147, 36939.

§41505. Uniform methods for establishing joint prices, and divisions of joint prices, applicable to commuter air carriers

(a) DEFINITION.—In this section, “commuter air carrier” means an air carrier providing transportation under section 40109(f) of this title that provides at least 5 scheduled roundtrips a week between the same 2 places.

(b) GENERAL.—Except as provided in subsection (c) of this section, when the Secretary of Transportation prescribes under section 41508 or 41509 of this title a uniform method generally applicable to establishing joint prices and divisions of joint prices for and between air carriers holding certificates issued under section 41102 of this title, the Secretary shall make that uniform method apply to establishing joint prices and divisions of joint prices for and between air carriers and commuter air carriers.

(c) NOTICE REQUIRED BEFORE MODIFYING, SUSPENDING, OR ENDING TRANSPORTATION.—A commuter air carrier that has an agreement with an air carrier to provide transportation for passengers and property that includes through service by the commuter air carrier over the commuter air carrier’s routes and air transportation provided by the air carrier shall give the air carrier and the Secretary at least 90 days’ notice before modifying, suspending, or ending the transportation. If the commuter air carrier does not give that notice, the uniform method of es-

tablishing joint prices and divisions of joint prices referred to in subsection (b) of this section does not apply to the commuter air carrier. (Pub. L. 103-272, §1(e), July 5, 1994, 108 Stat. 1134.)

HISTORICAL AND REVISION NOTES

Table with 3 columns: Revised Section, Source (U.S. Code), Source (Statutes at Large). Rows include 41505(a), 41505(b), and 41505(c).

In subsection (a), the text of 49 App.:1482a(2)(A) is omitted as unnecessary because the definition of "air carrier" in 49 App.:1301(3) is restated in section 40102(a) of the revised title and applies to this section and because the functions of the Civil Aeronautics Board under 49 App.:1482a were transferred to the Secretary of Transportation by 49 App.:1551(b)(1)(E) and the complete name of the Secretary is used the first time the term appears in a section. The text of 49 App.:1482a(3) is omitted as executed. The reference in the source provisions to "section 416(b)(3) of the Federal Aviation Act of 1958 [49 App. U.S.C. 1386(b)(3)]" has been restated as though it were a reference to section 416(b)(4) to correct an apparent error in the Airline Deregulation Act of 1978 (Public Law 95-504, 92 Stat. 1705). Section 24 of H.R. 12611 of the 95th Congress (the derivative source for 416(b)(4)), added section 416(b)(3) to the Federal Aviation Act. Section 29(c) added provisions that eventually were classified as 49 App.:1482a. Those provisions contained a reference to section 416(b)(3). When S. 2493 (passed in lieu of the House bill after being amended to contain much of the text of the House bill) was reported by the conference committee and enacted into law, section 32 added what had been a new 416(b)(3) as a new 416(b)(4). However, the conference committee did not make a corresponding change in the cross-reference in section 37(c), that added 49 App.:1482a. See 124 Cong. Rec. 30714, 30716, 36521, 36524. The word "scheduled" is substituted for "pursuant to flight schedules" to eliminate unnecessary words. The words "the same 2 places" are substituted for "one pair of points" for consistency in the revised title and with other titles of the United States Code.

In subsection (b), the words "Except as provided in subsection (c) of this section" are added for clarity. The words "pursuant to its authority" are omitted as surplus.

In subsection (c), the word "passengers" is substituted for "persons" for consistency in the revised title and with other titles of the Code. The words "through service by the commuter air carrier over the commuter air carrier's routes" are substituted for "transportation over its routes" for clarity. The words "between air carriers and commuter air carriers" are omitted as surplus.

§ 41506. Price division filing requirements for foreign air transportation

Every air carrier and foreign air carrier shall keep currently on file with the Secretary of Transportation, if the Secretary requires, the established divisions of all joint prices for foreign air transportation in which the carrier participates.

HISTORICAL AND REVISION NOTES

Table with 3 columns: Revised Section, Source (U.S. Code), Source (Statutes at Large). Row includes 41506.

The words "foreign air transportation" are substituted for "air transportation" because 49 App.:1551(a)(4)(B) provides that 49 App.:1373 no longer applies to interstate or overseas air transportation and 49 App.:1376(a)-(e), restated in section 41901 of the revised title, governs rates for the transportation of mail by aircraft. See section 40102(a) of the revised title defining "air transportation" to mean interstate or foreign air transportation or the transportation of mail by aircraft.

§ 41507. Authority of the Secretary of Transportation to change prices, classifications, rules, and practices for foreign air transportation

(a) GENERAL.—When the Secretary of Transportation decides that a price charged or received by an air carrier or foreign air carrier for foreign air transportation, or a classification, rule, or practice affecting that price or the value of the transportation provided under that price, is or will be unreasonably discriminatory, the Secretary may—

(1) change the price, classification, rule, or practice as necessary to correct the discrimination; and

(2) order the air carrier or foreign air carrier to stop charging or collecting the discriminatory price or carrying out the discriminatory classification, rule, or practice.

(b) WHEN SECRETARY MAY ACT.—The Secretary may act under this section on the Secretary's own initiative or on a complaint filed with the Secretary and only after notice and an opportunity for a hearing.

In subsection (a), before clause (1), the words "individual or joint" are omitted as surplus. The words "charged or received" are substituted for "demanded, charged, collected, or received" to eliminate unnecessary words. The words "unreasonably discriminatory" are substituted for "unjustly discriminatory, or unduly preferential, or unduly prejudicial" for consistency in the revised title and to eliminate unnecessary words. See the revision notes following 49:10101. In clause (2), the words "carrying out" are substituted for "enforcing" for clarity.

In subsection (b), the words "opportunity for a" are added for consistency in the revised title and with other titles of the United States Code.

§ 41508. Authority of the Secretary of Transportation to adjust divisions of joint prices for foreign air transportation

(a) GENERAL.—When the Secretary of Transportation decides that a division between air carriers, foreign air carriers, or both, of a joint price for foreign air transportation is or will be unreasonable or unreasonably discriminatory against any of those carriers, the Secretary shall prescribe a reasonable division of the joint price among those carriers. The Secretary may order the adjustment in the division of the joint price to be made retroactively to the date the complaint was filed, the date the order for an investigation was made, or a later date the Secretary decides is reasonable.

(b) WHEN SECRETARY MAY ACT.—The Secretary may act under this section on the Secretary's own initiative or on a complaint filed with the Secretary and only after notice and an opportunity for a hearing.

The words “unreasonable or unreasonably discriminatory” are substituted for “unjust, unreasonable, inequitable, or unduly preferential or prejudicial” for consistency in the revised title and to eliminate unnecessary words. See the revision notes following 49:10101. The words “against any of those carriers” are substituted for “as between the air carriers or foreign air carriers parties thereto” to eliminate unnecessary words. The word “retroactively” is added for clarity.

In subsection (b), the words “an opportunity for a” are added for consistency in the revised title and with other titles of the United States Code.

§ 41509. Authority of the Secretary of Transportation to suspend, cancel, and reject tariffs for foreign air transportation

(a) CANCELLATION AND REJECTION.—(1) On the initiative of the Secretary of Transportation or on a complaint filed with the Secretary, the Secretary may conduct a hearing to decide whether a price for foreign air transportation contained in an existing or newly filed tariff of an air carrier or foreign air carrier, a classification, rule, or practice affecting that price, or the value of the transportation provided under that price, is lawful. The Secretary may begin the

hearing at once and without an answer or another formal pleading by the air carrier or foreign air carrier, but only after reasonable notice. If, after the hearing, the Secretary decides that the price, classification, rule, or practice is or will be unreasonable or unreasonably discriminatory, the Secretary may cancel or reject the tariff and prevent the use of the price, classification, rule, or practice.

(2) With or without a hearing, the Secretary may cancel or reject an existing or newly filed tariff of a foreign air carrier and prevent the use of a price, classification, rule, or practice when the Secretary decides that the cancellation or rejection is in the public interest.

(3) In deciding whether to cancel or reject a tariff of an air carrier or foreign air carrier under this subsection, the Secretary shall consider—

(A) the effect of the price on the movement of traffic;

(B) the need in the public interest of adequate and efficient transportation by air carriers and foreign air carriers at the lowest cost consistent with providing the transportation;

(C) the standards prescribed under law related to the character and quality of transportation to be provided by air carriers and foreign air carriers;

(D) the inherent advantages of transportation by aircraft;

(E) the need of the air carrier and foreign air carrier for revenue sufficient to enable the air carrier and foreign air carrier, under honest, economical, and efficient management, to provide adequate and efficient air carrier and foreign air carrier transportation;

(F) whether the price will be predatory or tend to monopolize competition among air carriers and foreign air carriers in foreign air transportation;

(G) reasonably estimated or foreseeable future costs and revenues for the air carrier or foreign air carrier for a reasonably limited future period during which the price would be in effect; and

(H) other factors.

(b) SUSPENSION.—(1)(A) Pending a decision under subsection (a)(1) of this section, the Secretary may suspend a tariff and the use of a price contained in the tariff or a classification, rule, or practice affecting that price.

(B) The Secretary may suspend a tariff of a foreign air carrier and the use of a price, classification, rule, or practice when the suspension is in the public interest.

(2) A suspension becomes effective when the Secretary files with the tariff and delivers to the air carrier or foreign air carrier affected by the suspension a written statement of the reasons for the suspension. To suspend a tariff, reasonable notice of the suspension must be given to the affected carrier.

(3) The suspension of a newly filed tariff may be for periods totaling not more than 365 days after the date the tariff otherwise would go into effect. The suspension of an existing tariff may be for periods totaling not more than 365 days after the effective date of the suspension. The Secretary may rescind at any time the suspension of a newly filed tariff and allow the price, classification, rule, or practice to go into effect.

(c) EFFECTIVE TARIFFS AND PRICES WHEN TARIFF IS SUSPENDED, CANCELED, OR REJECTED.—(1) If a tariff is suspended pending the outcome of a proceeding under subsection (a) of this section and the Secretary does not take final action in the proceeding during the suspension period, the tariff goes into effect at the end of that period subject to cancellation when the proceeding is concluded.

(2)(A) During the period of suspension, or after the cancellation or rejection, of a newly filed tariff (including a tariff that has gone into effect provisionally), the affected air carrier or foreign air carrier shall maintain in effect and use—

(i) the corresponding seasonal prices, or the classifications, rules, and practices affecting those prices or the value of transportation provided under those prices, that were in effect for the carrier immediately before the new tariff was filed; or

(ii) another price provided for under an applicable intergovernmental agreement or understanding.

(B) If the suspended, canceled, or rejected tariff is the first tariff of the carrier for the covered transportation, the carrier, for the purpose of operations during the period of suspension or pending effectiveness of a new tariff, may file another tariff containing a price or another classification, rule, or practice affecting the price, or the value of the transportation provided under the price, that is in effect (and not subject to a suspension order) for any air carrier providing the same transportation.

(3) If an existing tariff is suspended or canceled, the affected air carrier or foreign air carrier, for the purpose of operations during the period of suspension or pending effectiveness of a new tariff, may file another tariff containing a price or another classification, rule, or practice affecting the price, or the value of the transportation provided under the price, that is in effect (and not subject to a suspension order) for any air carrier providing the same transportation.

(d) RESPONSE TO REFUSAL OF FOREIGN COUNTRY TO ALLOW AIR CARRIER TO CHARGE A PRICE.—When the Secretary finds that the government or an aeronautical authority of a foreign country has refused to allow an air carrier to charge a price contained in a tariff filed and published under section 41504 of this title for foreign air transportation to the foreign country—

(1) the Secretary, without a hearing—

(A) may suspend any existing tariff of a foreign air carrier providing transportation between the United States and the foreign country for periods totaling not more than 365 days after the date of the suspension; and

(B) may order the foreign air carrier to charge, during the suspension periods, prices that are the same as those contained in a tariff (designated by the Secretary) of an air carrier filed and published under section 41504 of this title for foreign air transportation to the foreign country; and

(2) a foreign air carrier may continue to provide foreign air transportation to the foreign country only if the government or aeronautical authority of the foreign country allows an

air carrier to start or continue foreign air transportation to the foreign country at the prices designated by the Secretary.

(e) STANDARD FOREIGN FARE LEVEL.—(1)(A) In this subsection, “standard foreign fare level” means—

(i) for a class of fares existing on October 1, 1979, the fare between 2 places (as adjusted under subparagraph (B) of this paragraph) filed for and allowed by the Civil Aeronautics Board to go into effect after September 30, 1979, and before August 13, 1980 (with seasonal fares adjusted by the percentage difference that prevailed between seasons in 1978), or the fare established under section 1002(j)(8) of the Federal Aviation Act of 1958 (Public Law 85-726, 72 Stat. 731), as added by section 24(a) of the International Air Transportation Competition Act of 1979 (Public Law 96-192, 94 Stat. 46); or

(ii) for a class of fares established after October 1, 1979, the fare between 2 places in effect on the effective date of the establishment of the new class.

(B) At least once every 60 days for fuel costs, and at least once every 180 days for other costs, the Secretary shall adjust the standard foreign fare level for the particular foreign air transportation to which the standard foreign fare level applies by increasing or decreasing that level by the percentage change from the last previous period in the actual operating cost for each available seat-mile. In adjusting a standard foreign fare level, the Secretary may not make an adjustment to costs actually incurred. In establishing a standard foreign fare level and making adjustments in the level under this paragraph, the Secretary may use all relevant or appropriate information reasonably available to the Secretary.

(2) The Secretary may not decide that a proposed fare for foreign air transportation is unreasonable on the basis that the fare is too low or too high if the proposed fare is neither more than 5 percent higher nor 50 percent lower than the standard foreign fare level for the same or essentially similar class of transportation. The Secretary by regulation may increase the 50 percent specified in this paragraph.

(3) Paragraph (2) of this subsection does not apply to a proposed fare that is not more than—

(A) 5 percent higher than the standard foreign fare level when the Secretary decides that the proposed fare may be unreasonably discriminatory or that suspension of the fare is in the public interest because of an unreasonable regulatory action by the government of a foreign country that is related to a fare proposal of an air carrier; or

(B) 50 percent lower than the standard foreign fare level when the Secretary decides that the proposed fare may be predatory or discriminatory or that suspension of the fare is required because of an unreasonable regulatory action by the government of a foreign country that is related to a fare proposal of an air carrier.

(f) SUBMISSION OF ORDERS TO PRESIDENT.—The Secretary shall submit to the President an order made under this section suspending, canceling,

or rejecting a price for foreign air transportation, and an order rescinding the effectiveness of such an order, before publishing the order. Not later than 10 days after its submission, the President may disapprove the order on finding disapproval is necessary for United States foreign policy or national defense reasons.

(g) COMPLIANCE AS CONDITION OF CERTIFICATE OR PERMIT.—This section and compliance with an order of the Secretary under this section are conditions to any certificate or permit held by an air carrier or foreign air carrier. An air carrier or foreign air carrier may provide foreign air transportation only as long as the carrier maintains prices for that transportation that comply with this section and orders of the Secretary under this section.

In subsection (b)(1), the words “contained in the tariff” are added for clarity.

In subsection (b)(1)(A), the words “such hearing and” are omitted as surplus.

In subsection (b)(1)(B), the words “or in the case of” are omitted as surplus.

In subsection (b)(2), the text of 49 App.:1373(c)(3) is omitted as obsolete. Reference to 49 App.:1482(g) is omitted because 49 App.:1482(g) does not relate to foreign air transportation and 49 App.:1551(a)(5)(D) provides that 49 App.:1482(g) ceased to be in effect on January 1, 1985, except insofar as it related to foreign air transportation. Reference to 49 App.:1482(j) is omitted because it consistently has been interpreted that the minimum notice requirement does not apply to foreign air transportation.

In subsection (b)(3), the words “for periods totaling not more than 365 days after” are substituted for “a period or periods not exceeding 365 days in the aggregate beyond the time when” and “a period or periods not exceeding 365 days in the aggregate from” to eliminate unnecessary words.

In subsection (c)(1), the words “a tariff is suspended pending the outcome of a proceeding under subsection (a) of this section” are added for clarity. The words “and the Secretary does not take final action in the proceeding during the suspension period” are substituted for “the proceeding has not been concluded and an order made within the period of suspension or suspensions” and “the proceeding has not been concluded within the period of suspension or suspensions” to eliminate unnecessary words. The words “or if the Board shall otherwise so direct” are omitted as surplus because under subsection (b)(3) of this section the Secretary may rescind a suspension at any time.

In subsection (c)(2)(A), before clause (i), the words “or suspensions” are omitted because of 1:1. In clause (i), the words “corresponding seasonal” are added for clarity.

In subsection (c)(2)(B) and (3), the words “providing the same transportation” are substituted for “engaged in the same foreign air transportation” for consistency in this chapter and to eliminate unnecessary words.

In subsection (c)(2)(B), the words “of the carrier for the covered transportation” and “during the period of suspension or” are added for clarity.

In subsection (c)(3), the words “If an existing tariff is suspended or canceled” are added for clarity. The words “following cancellation of an existing tariff” are omitted as surplus.

In subsection (d), the word “properly” is omitted as surplus. In clause (1)(A), the words “the operation of” are omitted as surplus. The words “periods totaling not more than 365 days after the date of the suspension” are substituted for “for a period or periods not exceeding three hundred and sixty-five days in the aggregate from the date of such suspension” for clarity and to eliminate unnecessary words. In subclause (B), the words “or suspensions” are omitted because of 1:1. In clause (2), the words “by the Secretary” are added for clarity.

In subsection (e)(1)(B), the words “within 30 days after February 15, 1980” are omitted as executed. The words “as the case may be” are omitted as surplus.

In subsection (e)(2), the text of 49 App.:1482(j)(6)(A) is omitted as expired. The words “with respect to any proposed increase filed with the Board after the 180th day after February 15, 1980” and “with respect to any proposed decrease filed after February 15, 1980” are omitted as obsolete. The words “of persons” are omitted as surplus because a “fare” is only for passengers. The words “The Secretary by regulation may increase the 50 percent specified in this paragraph” are substituted for 49 App.:1482(j)(10) for clarity.

In subsection (e)(3)(A), the words “unreasonably discriminatory” are substituted for “unduly preferential, unduly prejudicial, or unjustly discriminatory” to eliminate unnecessary words and for consistency in the revised title. See the revision notes following 49:10101.

In subsection (g), the words “express” and “now . . . or hereafter issued” are omitted as surplus. The words “may provide foreign air transportation only as long as” are substituted for “shall be a condition to the continuation of the affected service” for clarity.

In this section, the words “greater or less” are omitted as being included in “different”. The words “foreign air transportation” are substituted for “air transportation” because 49 App.:1551(a)(4)(B) provides that 49 App.:1373 no longer applies to interstate or overseas air transportation and 49 App.:1376(a)–(e), restated in section 41901 of the revised title, governs prices for the transportation of mail by aircraft. See section 40102(a) of the revised title defining “air transportation” to mean interstate or foreign air transportation or the transportation of mail by aircraft. The words “for any service in connection therewith” are omitted as surplus because the word “transportation” includes any services related to the transportation.

In subsection (a), before clause (1), the words “may not” are substituted for “no . . . shall” and “no . . . shall, in any manner or by any device, directly or indirectly, or through any agent or broker, or otherwise” for clarity and to eliminate unnecessary words. In clause (1), the words “demand or collect” are omitted as being included in “charge or receive”. The words “then currently” are omitted as surplus. In clause (3), the words “tariff for foreign air transportation” are substituted for “such tariffs” for clarity.

In subsection (b), before clause (1), the words “shipper, consignor, consignee, forwarder, broker, or other . . . or any director, officer, agent, or employee thereof” are omitted as surplus. In clause (1), the words “directly or indirectly, by any device or means” and “currently” are omitted as surplus. In clause (2), before subclause (A), the words “in any manner or by any device, directly or indirectly, through any agent or broker, or otherwise” are omitted as surplus. In subclause (B), the word “favor” is omitted as surplus.

§ 41511. Special prices for foreign air transportation

(a) FREE AND REDUCED PRICING.—This chapter does not prohibit an air carrier or foreign air carrier, under terms the Secretary of Transportation prescribes, from issuing or interchanging tickets or passes for free or reduced-price foreign air transportation to or for the following:

(1) a director, officer, or employee of the carrier (including a retired director, officer, or employee who is receiving retirement benefits from an air carrier or foreign air carrier).

(2) a parent or the immediate family of such an officer or employee or the immediate family of such a director.

(3) a widow, widower, or minor child of an employee of the carrier who died as a direct result of a personal injury sustained when performing a duty in the service of the carrier.

(4) a witness or attorney attending a legal investigation in which the air carrier is interested.

(5) an individual injured in an aircraft accident and a physician or nurse attending the individual.

(6) a parent or the immediate family of an individual injured or killed in an aircraft accident when the transportation is related to the accident.

(7) an individual or property to provide relief in a general epidemic, pestilence, or other emergency.

(8) other individuals under other circumstances the Secretary prescribes by regulation.

(b) **SPACE-AVAILABLE BASIS.**—Under terms the Secretary prescribes, an air carrier or foreign air carrier may grant reduced-price foreign air transportation on a space-available basis to the following:

(1) a minister of religion.

(2) an individual who is at least 60 years of age and no longer gainfully employed.

(3) an individual who is at least 65 years of age.

(4) an individual who has severely impaired vision or hearing or another physical or mental handicap and an accompanying attendant needed by that individual.

In this section, the words “foreign air transportation” are substituted for “transportation” and “in the case of overseas or foreign air transportation” because 49 App.:1551(a)(4)(B) provides that 49 App.:1373 no longer applies to interstate or overseas air transportation and 49 App.:1376(a)-(e), restated in section 41901 of the revised title, governs rates for the transportation of mail by aircraft. See section 40102(a) of the revised title defining “air transportation” to mean interstate or foreign air transportation or the transportation of mail by aircraft. The word “conditions” is omitted as being included in “terms”.

In subsection (a)(7), the words “or other emergency” are substituted for “other calamitous visitation” for consistency.

In subsection (b)(2), the words “no longer gainfully employed” are substituted for “retired” and “For pur-

poses of this subsection, the term ‘retired’ means no longer gainfully employed as defined by the Board” to eliminate unnecessary words.

In subsection (b)(4), the words “an individual who has severely impaired vision or hearing or another physical or mental handicap” are substituted for “handicapped person” and “For the purposes of this subsection, the term ‘handicapped person’ means any person who has severely impaired vision or hearing, and any other physically or mentally handicapped person, as defined by the Board” to eliminate unnecessary words.

This section is substituted for 49 App.:1374(a)(1) because 49 App.:1551(a)(4)(C) provides that 49 App.:1374 no longer applies to interstate or overseas air transportation except insofar as 49 App.:1374 requires air carriers to provide safe and adequate service.

§ 41703. Navigation of foreign civil aircraft

(a) PERMITTED NAVIGATION.—A foreign aircraft, not part of the armed forces of a foreign country, may be navigated in the United States only—

- (1) if the country of registry grants a similar privilege to aircraft of the United States;
- (2) by an airman holding a certificate or license issued or made valid by the United States Government or the country of registry;
- (3) if the Secretary of Transportation authorizes the navigation; and
- (4) if the navigation is consistent with terms the Secretary may prescribe.

(b) REQUIREMENTS FOR AUTHORIZING NAVIGATION.—The Secretary may authorize navigation under this section only if the Secretary decides the authorization is—

- (1) in the public interest; and
- (2) consistent with any agreement between the Government and the government of a foreign country.

(c) PROVIDING AIR COMMERCE.—The Secretary may authorize an aircraft permitted to navigate in the United States under this section to provide air commerce in the United States. However, the aircraft may take on for compensation, at a place in the United States, passengers or cargo destined for another place in the United States only if—

- (1) specifically authorized under section 40109(g) of this title; or
- (2) under regulations the Secretary prescribes authorizing air carriers to provide otherwise authorized air transportation with foreign registered aircraft under lease or charter to them without crew.

(d) PERMIT REQUIREMENTS NOT AFFECTED.—This section does not affect section 41301 or 41302 of this title. However, a foreign air carrier holding a permit under section 41302 does not need to obtain additional authorization under this section for an operation authorized by the permit.

(e) CARGO IN ALASKA.—

- (1) IN GENERAL.—For the purposes of subsection (c), eligible cargo taken on or off any aircraft at a place in Alaska in the course of transportation of that cargo by any combination of 2 or more air carriers or foreign air carriers in either direction between a place in the United States and a place outside the United States shall not be deemed to have bro-

ken its international journey in, be taken on in, or be destined for Alaska.

(2) ELIGIBLE CARGO.—For purposes of paragraph (1), the term “eligible cargo” means cargo transported between Alaska and any other place in the United States on a foreign air carrier (having been transported from, or thereafter being transported to, a place outside the United States on a different air carrier or foreign air carrier) that is carried—

(A) under the code of a United States air carrier providing air transportation to Alaska;

(b) PREEMPTION.—(1) Except as provided in this subsection, a State, political subdivision of a State, or political authority of at least 2 States may not enact or enforce a law, regulation, or other provision having the force and effect of law related to a price, route, or service of an air carrier that may provide air transportation under this subpart.

EFFECTIVE DATE OF 1994 AMENDMENT

Amendment by Pub. L. 103-305 effective Jan. 1, 1995, see section 601(d) of Pub. L. 103-305, set out as a note under section 10521 of this title.

§ 41714. Availability of slots

(a) MAKING SLOTS AVAILABLE FOR ESSENTIAL AIR SERVICE.—

(1) OPERATIONAL AUTHORITY.—If basic essential air service under subchapter II of this chapter is to be provided from an eligible point to a high density airport (other than Ronald Reagan Washington National Airport), the Secretary of Transportation shall ensure that the air carrier providing or selected to

provide such service has sufficient operational authority at the high density airport to provide such service. The operational authority shall allow flights at reasonable times taking into account the needs of passengers with connecting flights.

(2) EXEMPTIONS.—If necessary to carry out the objectives of paragraph (1), the Secretary shall by order grant exemptions from the requirements of subparts K and S of part 93 of title 14, Code of Federal Regulations (pertaining to slots at high density airports), to air carriers using Stage 3 aircraft or to commuter air carriers, unless such an exemption would significantly increase operational delays.

(3) ASSURANCE OF ACCESS.—If the Secretary finds that an exemption under paragraph (2) would significantly increase operational delays, the Secretary shall take such action as may be necessary to ensure that an air carrier providing or selected to provide basic essential air service is able to obtain access to a high density airport.

(4) ACTION BY THE SECRETARY.—The Secretary shall issue a final order under this subsection on or before the 60th day after receiving a request from an air carrier for operational authority under this subsection.

(b) SLOTS FOR FOREIGN AIR TRANSPORTATION.—

(1) EXEMPTIONS.—If the Secretary finds it to be in the public interest at a high density airport (other than Ronald Reagan Washington National Airport), the Secretary may grant by order exemptions from the requirements of subparts K and S of part 93 of title 14, Code of Federal Regulations (pertaining to slots at high density airports), to enable air carriers and foreign air carriers to provide foreign air transportation using Stage 3 aircraft.

(2) SLOT WITHDRAWALS.—The Secretary may not withdraw a slot at Chicago O'Hare International Airport from an air carrier in order to allocate that slot to a carrier to provide foreign air transportation.

(3) EQUIVALENT RIGHTS OF ACCESS.—The Secretary shall not take a slot at a high density airport from an air carrier and award such slot to a foreign air carrier if the Secretary determines that air carriers are not provided equivalent rights of access to airports in the country of which such foreign air carrier is a citizen.

(4) CONVERSIONS OF SLOTS.—Effective May 1, 2000, slots at Chicago O'Hare International Airport allocated to an air carrier as of November 1, 1999, to provide foreign air transportation shall be made available to such carrier to provide interstate or intrastate air transportation.

(c) SLOTS FOR NEW ENTRANTS.—If the Secretary finds it to be in the public interest, the Secretary may by order grant exemptions from the requirements under subparts K and S of part 93 of title 14, Code of Federal Regulations (pertaining to slots at high density airports), to enable new entrant air carriers to provide air transportation at high density airports (other than Ronald Reagan Washington National Airport).

(d) SPECIAL RULES FOR RONALD REAGAN WASHINGTON NATIONAL AIRPORT.—

(1) IN GENERAL.—Notwithstanding sections 49104(a)(5) and 49111(e) of this title, or any provision of this section, the Secretary may, only under circumstances determined by the Secretary to be exceptional, grant by order to an air carrier currently holding or operating a slot at Ronald Reagan Washington National Airport an exemption from requirements under subparts K and S of part 93 of title 14, Code of Federal Regulations (pertaining to slots at Ronald Reagan Washington National Airport), to enable that carrier to provide air transportation with Stage 3 aircraft at Ronald Reagan Washington National Airport; except that such exemption shall not—

(A) result in an increase in the total number of slots per day at Ronald Reagan Washington National Airport;

(B) result in an increase in the total number of slots at Ronald Reagan Washington National Airport from 7:00 ante meridiem to 9:59 post meridiem;

(C) increase the number of operations at Ronald Reagan Washington National Airport in any 1-hour period by more than 2 operations;

(D) result in the withdrawal or reduction of slots operated by an air carrier;

(E) result in a net increase in noise impact on surrounding communities resulting from changes in timing of operations permitted under this subsection; and

(F) continue in effect on or after the date on which the final rules issued under subsection (f) become effective.

(2) LIMITATION ON APPLICABILITY.—Nothing in this subsection shall adversely affect Exemption No. 5133, as from time-to-time amended and extended.

(e) STUDY.—

(1) MATTERS TO BE CONSIDERED.—The Secretary shall continue the Secretary's current examination of slot regulations and shall ensure that the examination includes consideration of—

(A) whether improvements in technology and procedures of the air traffic control system and the use of quieter aircraft make it possible to eliminate the limitations on hourly operations imposed by the high density rule contained in part 93 of title 14 of the Code of Federal Regulations or to increase the number of operations permitted under such rule;

(B) the effects of the elimination of limitations or an increase in the number of operations allowed on each of the following:

(i) congestion and delay in any part of the national aviation system;

(ii) the impact of noise on persons living near the airport;

(iii) competition in the air transportation system;

(iv) the profitability of operations of airlines serving the airport; and

(v) aviation safety;

(C) the impact of the current slot allocation process upon the ability of air carriers to provide essential air service under subchapter II of this chapter;

(D) the impact of such allocation process upon the ability of new entrant air carriers to obtain slots in time periods that enable them to provide service;

(E) the impact of such allocation process on the ability of foreign air carriers to obtain slots;

(F) the fairness of such process to air carriers and the extent to which air carriers are provided equivalent rights of access to the air transportation market in the countries of which foreign air carriers holding slots are citizens;

(G) the impact, on the ability of air carriers to provide domestic and international air service, of the withdrawal of slots from air carriers in order to provide slots for foreign air carriers; and

(H) the impact of the prohibition on slot withdrawals in subsections (b)(2) and (b)(3) of this section on the aviation relationship between the United States Government and foreign governments, including whether the prohibition in such subsections will require the withdrawal of slots from general and military aviation in order to meet the needs of air carriers and foreign air carriers providing foreign air transportation (and the impact of such withdrawal on general aviation and military aviation) and whether slots will become available to meet the needs of air carriers and foreign air carriers to provide foreign air transportation as a result of the planned relocation of Air Force Reserve units and the Air National Guard at O'Hare International Airport.

(2) REPORT.—Not later than January 31, 1995, the Secretary shall complete the current examination of slot regulations and shall transmit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report containing the results of such examination.

(f) RULEMAKING.—The Secretary shall conduct a rulemaking proceeding based on the results of the study described in subsection (e). In the course of such proceeding, the Secretary shall issue a notice of proposed rulemaking not later than August 1, 1995, and shall issue a final rule not later than 90 days after public comments are due on the notice of proposed rulemaking.

(g) WEEKEND OPERATIONS.—The Secretary shall consider the advisability of revising section 93.227 of title 14, Code of Federal Regulations, so as to eliminate weekend schedules from the determination of whether the 80 percent standard of subsection (a)(1) of that section has been met.

(h) DEFINITIONS.—In this section and sections 41715–41718 and 41734(h), the following definitions apply:

(1) COMMUTER AIR CARRIER.—The term “commuter air carrier” means a commuter operator as defined or applied in subpart K or S of part 93 of title 14, Code of Federal Regulations.

(4) SLOT.—The term “slot” means a reservation for an instrument flight rule takeoff or landing by an air carrier of an aircraft in air transportation.

(5) LIMITED INCUMBENT AIR CARRIER.—The term “limited incumbent air carrier” has the meaning given that term in subpart S of part 93 of title 14, Code of Federal Regulations; except that—

(A) “20” shall be substituted for “12” in sections 93.213(a)(5), 93.223(c)(3), and 93.225(h);

(B) for purposes of such sections, the term “slot” shall include “slot exemptions”; and

(C) for Ronald Reagan Washington National Airport, the Administrator shall not count, for the purposes of section 93.213(a)(5), slots currently held by an air carrier but leased out on a long-term basis by that carrier for use in foreign air transportation and renounced by the carrier for return to the Department of Transportation or the Federal Aviation Administration.

(6) REGIONAL JET.—The term “regional jet” means a passenger, turboprop-powered aircraft with a certificated maximum passenger seating capacity of less than 71.

(7) NONHUB AIRPORT.—The term “nonhub airport” means an airport that had less than .05 percent of the total annual boardings in the United States as determined under the Federal Aviation Administration's Primary Airport Enplanement Activity Summary for Calendar Year 1997.

(8) SMALL HUB AIRPORT.—The term “small hub airport” means an airport that had at least .05 percent, but less than .25 percent, of the total annual boardings in the United States as determined under the summary referred to in paragraph (7).

(B) return the request to the applicant for additional information relating to the request to provide air transportation; or

(C) deny the request and state the reasons for its denial.

(3) 60-DAY PERIOD TOLLED FOR TIMELY REQUEST FOR MORE INFORMATION.—If the Secretary returns under paragraph (2)(B) the request for additional information during the first 20 days after the request is filed, then the 60-day period under paragraph (2) shall be tolled until the date on which the additional information is filed with the Secretary.

(4) FAILURE TO DETERMINE DEEMED APPROVAL.—If the Secretary neither approves the request under paragraph (2)(A) nor denies the request under paragraph (2)(C) within the 60-day period beginning on the date the request is received, excepting any days during which the 60-day period is tolled under paragraph (3), then the request is deemed to have been approved on the 61st day, after the request was filed with the Secretary.

L. 106-181, title II, §231(d)(5), Apr. 5, 2000, 114 Stat. 112, provided that: “The Secretary [of Transportation] shall return any slot withdrawn from an air carrier under section 41714(b) of title 49, United States Code, before the date of the enactment of this Act [Apr. 5, 2000], to that carrier on April 30, 2000.”

(c) FACTORS TO CONSIDER.—

(1) IN GENERAL.—Before the award of slot exemptions under sections 41714 and 41716–41718, the Secretary of Transportation may consider, among other determining factors, whether the petitioning air carrier's proposal provides the maximum benefit to the United States economy, including the number of United States jobs created by the air carrier, its suppliers, and related activities. The Secretary should give equal consideration to the consumer benefits associated with the award of such exemptions.

(2) APPLICABILITY.—Paragraph (1) does not apply in any case in which the air carrier requesting the slot exemption is proposing to use under the exemption a type of aircraft for which there is not a competing United States manufacturer.

Kennedy International Airport and a small hub airport or nonhub airport—

(1) if the air carrier was not providing such air transportation during the week of November 1, 1999;

(2) if the number of flights to be provided between such airports by the air carrier during any week will exceed the number of flights provided by the air carrier between such airports during the week of November 1, 1999; or

(1) before October 1, 1999, the Secretary received a written air service termination notice for that route; or

(2) after September 30, 1999, the air carrier submits an air service termination notice under section 41719 for that route and the Secretary determines that the carrier suffered excessive losses, including substantial losses on operations on that route during any three quarters of the year immediately preceding the date of submission of the notice.

(1) before October 1, 1999, the Secretary received a written air service termination notice for that route; or

(2) after September 30, 1999, the air carrier submits an air service termination notice under section 41719 for that route and the Secretary determines that the carrier suffered excessive losses, including substantial losses on operations on that route during the calendar quarters immediately preceding submission of the notice.

- (1) provide air transportation with domestic network benefits in areas beyond the perimeter described in that section;
- (2) increase competition by new entrant air carriers or in multiple markets;
- (3) not reduce travel options for communities served by small hub airports and medium hub airports within the perimeter described in section 49109; and

(3) **ALLOCATION OF WITHIN-PERIMETER EXEMPTIONS.**—Of the exemptions granted under subsection (b)—

- (A) without regard to the criteria contained in subsection (b)(1), six shall be for air transportation to small hub airports and nonhub airports;
- (B) ten shall be for air transportation to medium hub and smaller airports; and
- (C) four shall be for air transportation to airports without regard to their size.

(4) **APPLICABILITY TO EXEMPTION NO. 5133.**—Nothing in this section affects Exemption No. 5133, as from time-to-time amended and extended.

(d) **APPLICATION PROCEDURES.**—The Secretary shall establish procedures to ensure that all requests for exemptions under this section are granted or denied within 90 days after the date on which the request is made.

L. 106-69] (49 U.S.C. 41731 note), section 205 of the Wendell H. Ford Aviation Investment and Reform Act for the 21st Century [Pub. L. 106-181] (49 U.S.C. 41731 note), or any prior law of similar effect based on the highway mileage of such place from the nearest hub airport (as defined in section 40102 of such title), may request the Secretary to review such action.

“(b) DETERMINATION OF MILEAGE.—In reviewing an action under subsection (a), the highway mileage between an eligible place and the nearest medium hub airport or large hub airport is the highway mileage of the most commonly used route between the place and the medium hub airport or large hub airport. In identifying such route, the Secretary shall identify the most commonly used route for a community by—

“(1) consulting with the Governor of a State or the Governor’s designee; and

“(2) considering the certification of the Governor of a State or the Governor’s designee as to the most commonly used route.

“(c) ELIGIBILITY DETERMINATION.—Not later than 60 days after receiving a request under subsection (a), the Secretary shall—

“(1) determine whether the eligible place would have been subject to an elimination of compensation eligibility for essential air service, or termination of the eligibility of such place for essential air service, under the provisions of law referred to in subsection (a) based on the determination of the highway mileage of such place from the nearest medium hub airport or large hub airport under subsection (b); and

“(2) issue a final order with respect to the eligibility of such place for essential air service compensation under subchapter II of chapter 417 of title 49, United States Code.

“(a) REVIEW OF MARKETING PRACTICES THAT ADVERSELY AFFECT SERVICE TO SMALL OR MEDIUM COMMUNITIES.—Not later than 180 days after the date of the enactment of this Act [Apr. 5, 2000], the Secretary [of Transportation] shall review the marketing practices of air carriers that may inhibit the availability of quality, affordable air transportation services to small- and medium-sized communities, including—

“(1) marketing arrangements between airlines and travel agents;

“(2) code-sharing partnerships;

“(3) computer reservation system displays;

“(4) gate arrangements at airports;

“(5) exclusive dealing arrangements; and

“(6) any other marketing practice that may have the same effect.

“(b) REGULATIONS.—If the Secretary finds, after conducting the review, that marketing practices inhibit the availability of affordable air transportation services to small- and medium-sized communities, then, after public notice and an opportunity for comment, the Secretary may issue regulations that address the problem or take other appropriate action.

“(c) STATUTORY CONSTRUCTION.—Nothing in this section expands the authority or jurisdiction of the Secretary to issue regulations under chapter 417 of title 49, United States Code, or under any other law.”

RESTRICTIONS ON ESSENTIAL AIR SERVICE SUBSIDIES

Pub. L. 106-69, title III, §332, Oct. 9, 1999, 113 Stat. 1022, provided that: “Hereafter, notwithstanding 49 U.S.C. 41742, no essential air service subsidies shall be provided to communities in the 48 contiguous States that are located fewer than 70 highway miles from the nearest large or medium hub airport, or that require a rate of subsidy per passenger in excess of \$200 unless such point is greater than 210 miles from the nearest large or medium hub airport.”

Similar provisions were contained in the following prior appropriation act:

§ 41732. Basic essential air service

(a) GENERAL.—Basic essential air service provided under section 41733 of this title is scheduled air transportation of passengers and cargo—

(1) to a hub airport that has convenient connecting or single-plane air service to a substantial number of destinations beyond that airport; or

(2) to a small hub or nonhub airport, when in Alaska or when the nearest hub airport is more than 400 miles from an eligible place.

(b) MINIMUM REQUIREMENTS.—Basic essential air service shall include at least the following:

(1)(A) for a place not in Alaska, 2 daily round trips 6 days a week, with not more than one intermediate stop on each flight; or

(B) for a place in Alaska, a level of service at least equal to that provided in 1976 or 2 round trips a week, whichever is greater, except that the Secretary of Transportation and the appropriate State authority of Alaska may agree to a different level of service after consulting with the affected community.

(2) flights at reasonable times considering the needs of passengers with connecting flights at the airport and at prices that are not excessive compared to the generally prevailing prices of other air carriers for like service between similar places.

(3) for a place not in Alaska, service provided in an aircraft with an effective capacity of at least 15 passengers if the average daily boardings at the place in any calendar year from 1976-1986 were more than 11 passengers unless—

(A) that level-of-service requirement would require paying compensation in a fis-

cal year under section 41733(d) or 41734(d) or (e) of this title for the place when compensation otherwise would not have been paid for that place in that year; or

(B) the affected community agrees with the Secretary in writing to the use of small-aircraft to provide service to the place.

(4) service accommodating the estimated passenger and property traffic at an average load factor, for each class of traffic considering seasonal demands for the service, of not more than—

(A) 50 percent; or

(B) 60 percent when service is provided by aircraft with more than 14 passenger seats.

(5) service provided in aircraft with at least 2 engines and using 2 pilots, unless scheduled air transportation has not been provided to the place in aircraft with at least 2 engines and using 2 pilots for at least 60 consecutive operating days at any time since October 31, 1978.

(6) service provided by pressurized aircraft when the service is provided by aircraft that regularly fly above 8,000 feet in altitude.

The words “agree to a different level of service” are substituted for “otherwise specified under an agreement” for clarity. In clause (2), the word “prices” is substituted for “rates, fares, and charges” and “fares” because of the definition of “price” in section 40102(a) of the revised title. In clause (3), before subclause (A), the word “boardings” is substituted for “enplanements” for clarity and consistency in the revised title. § 41733. Level of basic essential air service

(a) DECISIONS MADE BEFORE OCTOBER 1, 1988.—For each eligible place for which a decision was made before October 1, 1988, under section 419 of the Federal Aviation Act of 1958, establishing the level of essential air transportation, the level of basic essential air service for that place shall be the level established by the Secretary of Transportation for that place by not later than December 29, 1988.

(b) DECISIONS NOT MADE BEFORE OCTOBER 1, 1988.—(1) The Secretary shall decide on the level of basic essential air service for each eligible place for which a decision was not made before October 1, 1988, establishing the level of essential air transportation, when the Secretary receives notice that service to that place will be provided by only one air carrier. The Secretary shall make the decision by the last day of the 6-month period beginning on the date the Secretary receives the notice. The Secretary may impose notice requirements necessary to carry out this subsection. Before making a decision, the Secretary shall consider the views of any interested community and the appropriate State authority of the State in which the community is located.

(2) Until the Secretary has made a decision on a level of basic essential air service for an eligible place under this subsection, the Secretary, on petition by an appropriate representative of the place, shall prohibit an air carrier from ending, suspending, or reducing air transportation to that place that appears to deprive the place of basic essential air service.

(c) AVAILABILITY OF COMPENSATION.—(1) If the Secretary decides that basic essential air service will not be provided to an eligible place without compensation, the Secretary shall provide notice that an air carrier may apply to provide basic essential air service to the place for compensation under this section. In selecting an applicant, the Secretary shall consider, among other factors—

(A) the demonstrated reliability of the applicant in providing scheduled air service;

(B) the contractual and marketing arrangements the applicant has made with a larger carrier to ensure service beyond the hub airport;

(C) the interline arrangements that the applicant has made with a larger carrier to allow passengers and cargo of the applicant at the hub airport to be transported by the larger carrier through one reservation, ticket, and baggage check-in;

(D) the preferences of the actual and potential users of air transportation at the eligible place, giving substantial weight to the views of the elected officials representing the users; and

(E) for an eligible place in Alaska, the experience of the applicant in providing, in Alaska, scheduled air service, or significant patterns of non-scheduled air service under an exemption granted under section 40109(a) and (c)–(h) of this title.

(2) Under guidelines prescribed under section 41737(a) of this title, the Secretary shall pay the rate of compensation for providing basic essen-

tial air service under this section and section 41734 of this title.

(d) COMPENSATION PAYMENTS.—The Secretary shall pay compensation under this section at times and in the way the Secretary decides is appropriate. The Secretary shall end payment of compensation to an air carrier for providing basic essential air service to an eligible place when the Secretary decides the compensation is no longer necessary to maintain basic essential air service to the place.

(e) REVIEW.—The Secretary shall review periodically the level of basic essential air service for each eligible place. Based on the review and consultations with an interested community and the appropriate State authority of the State in which the community is located, the Secretary may make appropriate adjustments in the level of service, to the extent such adjustments are to a level not less than the basic essential air service level established under subsection (a) for the airport that serves the community.

AMENDMENTS

2000—Subsec. (e). Pub. L. 106-181 inserted before period at end “, to the extent such adjustments are to a level not less than the basic essential air service level established under subsection (a) for the airport that serves the community”.

EFFECTIVE DATE OF 2000 AMENDMENT

Amendment by Pub. L. 106-181 applicable only to fiscal years beginning after Sept. 30, 1999, see section 3 of Pub. L. 106-181, set out as a note under section 106 of this title.

EFFECT ON CERTAIN ORDERS

Pub. L. 106-181, title II, §209(c), Apr. 5, 2000, 114 Stat. 95, provided that: “All orders issued by the Secretary [of Transportation] after September 30, 1999, and before the date of the enactment of this Act [Apr. 5, 2000] establishing, modifying, or revoking essential air service levels shall be null and void beginning on the 90th day following such date of enactment. During the 90-day period, the Secretary shall reconsider such orders and shall issue new orders consistent with the amendments made by this section [amending this section and section 41742 of this title].”

§ 41734. Ending, suspending, and reducing basic essential air service

(a) NOTICE REQUIRED.—An air carrier may end, suspend, or reduce air transportation to an eligible place below the level of basic essential air service established for that place under section 41733 of this title only after giving the Secretary of Transportation, the appropriate State authority, and the affected communities at least 90 days' notice before ending, suspending, or reducing that transportation.

(b) CONTINUATION OF SERVICE FOR 30 DAYS AFTER NOTICE PERIOD.—If at the end of the notice period under subsection (a) of this section the Secretary has not found another air carrier to provide basic essential air service to the eligible place, the Secretary shall require the carrier providing notice to continue to provide basic essential air service to the place for an additional 30-day period or until another carrier begins to provide basic essential air service to the place, whichever occurs first.

(c) CONTINUATION OF SERVICE FOR ADDITIONAL 30-DAY PERIODS.—If at the end of the 30-day period under subsection (b) of this section the Secretary decides another air carrier will not provide basic essential air service to the place on a continuing basis, the Secretary shall require the carrier providing service to continue to provide service for additional 30-day periods until another carrier begins providing service on a continuing basis. At the end of each 30-day period, the Secretary shall decide if another carrier will provide service on a continuing basis.

(d) CONTINUATION OF COMPENSATION AFTER NOTICE PERIOD.—If an air carrier receiving compensation under section 41733 of this title for providing basic essential air service to an eligible place is required to continue to provide service to the place under this section after the 90-day notice period under subsection (a) of this section, the Secretary shall continue to pay that

compensation after the last day of that period. The Secretary shall pay the compensation until the Secretary finds another carrier to provide the service to the place or the 90th day after the end of that notice period, whichever is earlier. If, after the 90th day after the end of the 90-day notice period, the Secretary has not found another carrier to provide the service, the carrier required to continue to provide that service shall receive compensation sufficient—

(1) to pay for the fully allocated actual cost to the carrier of performing the basic essential air service that was being provided when the 90-day notice was given under subsection (a) of this section plus a reasonable return on investment that is at least 5 percent of operating costs; and

(2) to provide the carrier an additional return that recognizes the demonstrated additional lost profits from opportunities foregone and the likelihood that those lost profits increase as the period during which the carrier is required to provide the service continues.

(e) COMPENSATION TO AIR CARRIERS ORIGINALLY PROVIDING SERVICE WITHOUT COMPENSATION.—If the Secretary requires an air carrier providing basic essential air service to an eligible place without compensation under section 41733 of this title to continue providing that service after the 90-day notice period required by subsection (a) of this section, the Secretary shall provide the carrier with compensation after the end of the 90-day notice period that is sufficient—

(1) to pay for the fully allocated actual cost to the carrier of performing the basic essential air service that was being provided when the 90-day notice was given under subsection (a) of this section plus a reasonable return on investment that is at least 5 percent of operating costs; and

(2) to provide the carrier an additional return that recognizes the demonstrated additional lost profits from opportunities foregone and the likelihood that those lost profits increase as the period during which the carrier is required to provide the service continues.

(f) FINDING REPLACEMENT CARRIERS.—When the Secretary requires an air carrier to continue to provide basic essential air service to an eligible place, the Secretary shall continue to make every effort to find another carrier to provide at least that basic essential air service to the place on a continuing basis.

(g) TRANSFER OF AUTHORITY.—If an air carrier, providing basic essential air service under section 41733 of this title between an eligible place and an airport at which the Administrator of the Federal Aviation Administration limits the number of instrument flight rule takeoffs and landings of aircraft, provides notice under subsection (a) of this section of an intention to end, suspend, or reduce that service and another carrier is found to provide the service, the Secretary shall require the carrier providing notice to transfer any operational authority the carrier has to land or take off at that airport related to the service to the eligible place to the carrier that will provide the service, if—

(1) the carrier that will provide the service needs the authority; and

(2) the authority to be transferred is being used to provide air service to another eligible place.

(h) NONCONSIDERATION OF SLOT AVAILABILITY.— In determining what is basic essential air service and in selecting an air carrier to provide such service, the Secretary shall not consider as a factor whether slots at a high density airport are available for providing such service.

(i) EXEMPTION FROM HOLD-IN REQUIREMENTS.— If, after the date of enactment of this subsection, an air carrier commences air transportation to an eligible place that is not receiving scheduled passenger air service as a result of the failure of the eligible place to meet requirements contained in an appropriations Act, the air carrier shall not be subject to the requirements of subsections (b) and (c) with respect to such air transportation.

§ 41735. Enhanced essential air service

(a) PROPOSALS.—(1) A State or local government may submit a proposal to the Secretary of Transportation for enhanced essential air service to an eligible place for which basic essential air service is being provided under section 41733 of this title. The proposal shall—

(A) specify the level and type of enhanced essential air service the State or local government considers appropriate; and

(B) include an agreement related to compensation required for the proposed service.

(2) The agreement submitted under paragraph (1)(B) of this subsection shall provide that—

(A) the State or local government or a person pay 50 percent of the compensation required for the proposed service and the United States Government pay the remaining 50 percent; or

(B)(i) the Government pay 100 percent of the compensation; and

(ii) if the proposed service is not successful for at least a 2-year period under the criteria prescribed by the Secretary under paragraph (3) of this subsection, the eligible place is not

eligible for air service or air transportation for which compensation is paid by the Secretary under this subchapter.

(3) The Secretary shall prescribe by regulation objective criteria for deciding whether enhanced essential air service to an eligible place under this section is successful in terms of—

(A) increasing passenger usage of the airport facilities at the place; and

(B) reducing the amount of compensation provided by the Secretary under this subchapter for that service.

(b) DECISIONS.—Not later than 90 days after receiving a proposal under subsection (a) of this section, the Secretary shall—

(1) approve the proposal if the Secretary decides the proposal is reasonable; or

(2) if the Secretary decides the proposal is not reasonable, disapprove the proposal and notify the State or local government of the disapproval and the reasons for the disapproval.

(c) COMPENSATION PAYMENTS.—(1) The Secretary shall pay compensation under this section when and in the way the Secretary decides is appropriate. Compensation for enhanced essential air service under this section may be paid only for the costs incurred in providing air service to an eligible place that are in addition to the costs incurred in providing basic essential air service to the place under section 41733 of this title. The Secretary shall continue to pay compensation under this section only as long as—

(A) the air carrier maintains the level of enhanced essential air service;

(B) the State or local government or person agreeing to pay compensation under this section continues to pay the compensation; and

(C) the Secretary decides the compensation is necessary to maintain the service to the place.

(2) The Secretary may require the State or local government or person agreeing to pay compensation under this section to make advance payments or provide other security to ensure that timely payments are made.

(d) REVIEW.—(1) The Secretary shall review periodically the enhanced essential air service provided to each eligible place under this section.

(2) For service for which the Government pays 50 percent of the compensation, based on the review and consultation with the affected community and the State or local government or person paying the remaining 50 percent of the compensation, the Secretary shall make appropriate adjustments in the type and level of service to the place.

(3) For service for which the Government pays 100 percent of the compensation, based on the review and consultation with the State or local government submitting the proposal, the Secretary shall decide whether the service has succeeded for at least a 2-year period under the criteria prescribed under subsection (a)(3) of this section. If unsuccessful, the place is not eligible for air service or air transportation for which compensation is paid by the Secretary under this subchapter.

(e) ENDING, SUSPENDING, AND REDUCING AIR TRANSPORTATION.—An air carrier may end, suspend, or reduce air transportation to an eligible place below the level of enhanced essential air service established for that place by the Secretary under this section only after giving the Secretary, the affected community, and the State or local government or person paying compensation for that service at least 30 days' notice before ending, suspending, or reducing the service. This subsection does not relieve the carrier of an obligation under section 41734 of this title.

§ 41736. Air transportation to noneligible places

(a) PROPOSALS AND DECISIONS.—(1) A State or local government may propose to the Secretary of Transportation that the Secretary provide compensation to an air carrier to provide air transportation to a place that is not an eligible place under this subchapter. Not later than 90 days after receiving a proposal under this section, the Secretary shall—

(A) decide whether to designate the place as eligible to receive compensation under this section; and

(B)(i) approve the proposal if the State or local government or a person is willing and able to pay 50 percent of the compensation for providing the transportation, and notify the State or local government of the approval; or

(ii) disapprove the proposal if the Secretary decides the proposal is not reasonable under paragraph (2) of this subsection, and notify the State or local government of the disapproval and the reasons for the disapproval.

(2) In deciding whether a proposal is reasonable, the Secretary shall consider, among other factors—

(A) the traffic-generating potential of the place;

(B) the cost to the United States Government of providing the proposed transportation; and

(C) the distance of the place from the closest hub airport.

(b) APPROVAL FOR CERTAIN AIR TRANSPORTATION.—Notwithstanding subsection (a)(1)(B) of this section, the Secretary shall approve a proposal under this section to compensate an air carrier for providing air transportation to a place in the 48 contiguous States or the District of Columbia and designate the place as eligible for compensation under this section if—

(1) at any time before October 23, 1978, the place was served by a carrier holding a certificate under section 401 of the Federal Aviation Act of 1958;

(2) the place is more than 50 miles from the nearest small hub airport or an eligible place;

(3) the place is more than 150 miles from the nearest hub airport; and

(4) the State or local government submitting the proposal or a person is willing and able to pay 25 percent of the cost of providing the compensated transportation.

Paragraph (4) does not apply to any community approved for service under this section during the period beginning October 1, 1991, and ending December 31, 1997.

(c) LEVEL OF AIR TRANSPORTATION.—(1) If the Secretary designates a place under subsection (a)(1) of this section as eligible for compensation under this section, the Secretary shall decide, not later than 6 months after the date of the designation, on the level of air transportation to be provided under this section. Before making a decision, the Secretary shall consider the views of any interested community, the appropriate State authority of the State in which the place is located, and the State or local government or person agreeing to pay compensation for the transportation under subsection (b)(4) of this section.

(2) After making the decision under paragraph (1) of this subsection, the Secretary shall provide notice that any air carrier that is willing to provide the level of air transportation established under paragraph (1) for a place may submit an application to provide the transportation. In selecting an applicant, the Secretary shall consider, among other factors—

(A) the factors listed in section 41733(c)(1) of this title; and

(B) the views of the State or local government or person agreeing to pay compensation for the transportation.

(d) COMPENSATION PAYMENTS.—(1) The Secretary shall pay compensation under this section when and in the way the Secretary decides is appropriate. The Secretary shall continue to pay compensation under this section only as long as—

(A) the air carrier maintains the level of air transportation established by the Secretary under subsection (c)(1) of this section;

(B) the State or local government or person agreeing to pay compensation for transportation under this section continues to pay that compensation; and

(C) the Secretary decides the compensation is necessary to maintain the transportation to the place.

(2) The Secretary may require the State or local government or person agreeing to pay compensation under this section to make advance payments or provide other security to ensure that timely payments are made.

(e) REVIEW.—The Secretary shall review periodically the level of air transportation provided under this section. Based on the review and consultation with any interested community, the appropriate State authority of the State in which the community is located, and the State or local government or person paying compensation under this section, the Secretary may make appropriate adjustments in the level of transportation.

(f) WITHDRAWAL OF ELIGIBILITY DESIGNATIONS.—After providing notice and an opportunity for interested persons to comment, the Secretary may withdraw the designation of a place under subsection (a)(1) of this section as eligible to receive compensation under this section if the place has received air transportation under this section for at least 2 years and the Secretary decides the withdrawal would be in the public interest. The Secretary by regulation shall prescribe standards for deciding whether the withdrawal of a designation under this subsection is in the public interest. The standards shall include the factors listed in subsection (a)(2) of this section.

(g) ENDING, SUSPENDING, AND REDUCING AIR TRANSPORTATION.—An air carrier providing air transportation for compensation under this section may end, suspend, or reduce that transportation below the level of transportation established by the Secretary under this section only after giving the Secretary, the affected community, and the State or local government or person paying compensation under this section at least 30 days' notice before ending, suspending, or reducing the transportation.

AMENDMENTS

2000—Subsec. (b). Pub. L. 106-181 inserted concluding provisions.

EFFECTIVE DATE OF 2000 AMENDMENT

Amendment by Pub. L. 106-181 applicable only to fiscal years beginning after Sept. 30, 1999, see section 3 of Pub. L. 106-181, set out as a note under section 106 of this title.

§ 41737. Compensation guidelines, limitations, and claims

(a) COMPENSATION GUIDELINES.—(1) The Secretary of Transportation shall prescribe guidelines governing the rate of compensation payable under this subchapter. The guidelines shall be used to determine the reasonable amount of compensation required to ensure the continuation of air service or air transportation under this subchapter. The guidelines shall—

(A) provide for a reduction in compensation when an air carrier does not provide service or transportation agreed to be provided;

(B) consider amounts needed by an air carrier to promote public use of the service or

transportation for which compensation is being paid; and

(C) include expense elements based on representative costs of air carriers providing scheduled air transportation of passengers, property, and mail on aircraft of the type the Secretary decides is appropriate for providing the service or transportation for which compensation is being provided.

(2) Promotional amounts described in paragraph (1)(B) of this subsection shall be a special, segregated element of the compensation provided to a carrier under this subchapter.

(b) REQUIRED FINDING.—The Secretary may pay compensation to an air carrier for providing air service or air transportation under this subchapter only if the Secretary finds the carrier is able to provide the service or transportation in a reliable way.

(c) CLAIMS.—Not later than 15 days after receiving a written claim from an air carrier for compensation under this subchapter, the Secretary shall—

(1) pay or deny the United States Government’s share of a claim; and

(2) if denying the claim, notify the carrier of the denial and the reasons for the denial.

(d) AUTHORITY TO MAKE AGREEMENTS AND INCUR OBLIGATIONS.—(1) The Secretary may make agreements and incur obligations from the Airport and Airway Trust Fund established under section 9502 of the Internal Revenue Code of 1986 (26 U.S.C. 9502) to pay compensation under this subchapter. An agreement by the Secretary under this subsection is a contractual obligation of the Government to pay the Government’s share of the compensation.

(2) Not more than \$38,600,000 is available to the Secretary out of the Fund for each of the fiscal years ending September 30, 1993-1998, to incur obligations under this section. Amounts made available under this section remain available until expended.

(e) ADJUSTMENTS TO ACCOUNT FOR SIGNIFICANTLY INCREASED COSTS.—

(1) IN GENERAL.—If the Secretary determines that air carriers are experiencing significantly increased costs in providing air service or air transportation for which compensation is being paid under this subchapter, the Secretary may increase the rates of compensation payable under this subchapter without regard to any agreement or requirement relating to the renegotiation of contracts or any notice requirement under section 41734.

(2) READJUSTMENT IF COSTS SUBSEQUENTLY DECLINE.—If an adjustment is made under paragraph (1), and total unit costs subsequently decrease to at least the total unit cost reflected in the compensation rate, then the Secretary may reverse the adjustment previously made under paragraph (1) without regard to any agreement or requirement relating to the renegotiation of contracts or any notice requirement under section 41734.

(3) SIGNIFICANTLY INCREASED COSTS DEFINED.—In this subsection, the term “significantly increased costs” means a total unit cost increase (but not increases in individual unit costs) of 10 percent or more in relation to

the total unit cost reflected in the compensation rate, based on the carrier's internal audit of its financial statements if such cost increase is incurred for a period of at least 2 consecutive months.

Notwithstanding section 47114(g)¹ of this title, any amounts from those fees that are not obligated or expended at the end of the fiscal year for the purpose of funding the essential air service program under this subchapter shall be made available to the Administration for use in improving rural air safety under subchapter I of chapter 471 of this title and shall be used exclusively for projects at rural airports under this subchapter.

FINDINGS

Section 278(b) of Pub. L. 104-264 provided that: “Congress finds that—

“(1) air service in rural areas is essential to a national and international transportation network;

“(2) the rural air service infrastructure supports the safe operation of all air travel;

“(3) rural air service creates economic benefits for all air carriers by making the national aviation system available to passengers from rural areas;

“(4) rural air service has suffered since deregulation;

“(5) the essential air service program under the Department of Transportation—

“(A) provides essential airline access to rural and isolated rural communities throughout the Nation;

“(B) is necessary for the economic growth and development of rural communities;

“(C) is a critical component of the national and international transportation system of the United States; and

“(D) has endured serious funding cuts in recent years; and

“(6) a reliable source of funding must be established to maintain air service in rural areas and the essential air service program.”

§ 41743. Airports not receiving sufficient service

(a) **SMALL COMMUNITY AIR SERVICE DEVELOPMENT PROGRAM.**—The Secretary of Transportation shall establish a program that meets the requirements of this section for improving air carrier service to airports not receiving sufficient air carrier service.

(b) **APPLICATION REQUIRED.**—In order to participate in the program established under subsection (a), a community or consortium of communities shall submit an application to the Secretary in such form, at such time, and containing such information as the Secretary may require, including—

(1) an assessment of the need of the community or consortium for access, or improved ac-

cess, to the national air transportation system; and

(2) an analysis of the application of the criteria in subsection (c) to that community or consortium.

(c) **CRITERIA FOR PARTICIPATION.**—In selecting communities, or consortia of communities, for participation in the program established under subsection (a), the Secretary shall apply the following criteria:

(1) **SIZE.**—For calendar year 1997, the airport serving the community or consortium was not larger than a small hub airport, and—

(A) had insufficient air carrier service; or
(B) had unreasonably high air fares.

(2) **CHARACTERISTICS.**—The airport presents characteristics, such as geographic diversity or unique circumstances, that will demonstrate the need for, and feasibility of, the program established under subsection (a).

(3) **STATE LIMIT.**—Not more than 4 communities or consortia of communities, or a combination thereof, from the same State may be selected to participate in the program in any fiscal year.

(4) **OVERALL LIMIT.**—No more than 40 communities or consortia of communities, or a combination thereof, may be selected to participate in the program in each year for which funds are appropriated for the program. No community, consortia of communities, nor combination thereof may participate in the program in support of the same project more than once, but any community, consortia of communities, or combination thereof may apply, subsequent to such participation, to participate in the program in support of a different project.

(5) **PRIORITIES.**—The Secretary shall give priority to communities or consortia of communities where—

(A) air fares are higher than the average air fares for all communities;

(B) the community or consortium will provide a portion of the cost of the activity to be assisted under the program from local sources other than airport revenues;

(C) the community or consortium has established, or will establish, a public-private partnership to facilitate air carrier service to the public;

(D) the assistance will provide material benefits to a broad segment of the travelling public, including business, educational institutions, and other enterprises, whose access to the national air transportation system is limited; and

(E) the assistance will be used in a timely fashion.

(d) **TYPES OF ASSISTANCE.**—The Secretary may use amounts made available under this section—

(1) to provide assistance to an air carrier to subsidize service to and from an underserved airport for a period not to exceed 3 years;

(2) to provide assistance to an underserved airport to obtain service to and from the underserved airport; and

(3) to provide assistance to an underserved airport to implement such other measures as the Secretary, in consultation with such air-

port, considers appropriate to improve air service both in terms of the cost of such service to consumers and the availability of such service, including improving air service through marketing and promotion of air service and enhanced utilization of airport facilities.

(e) **AUTHORITY TO MAKE AGREEMENTS.**—

(1) **IN GENERAL.**—The Secretary may make agreements to provide assistance under this section.

(2) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to the Secretary \$20,000,000 for fiscal year 2001, \$27,500,000 for each of fiscal years 2002 and 2003, and \$35,000,000 for each of fiscal years 2004 through 2008 to carry out this section. Such sums shall remain available until expended.

(f) **ADDITIONAL ACTION.**—Under the program established under subsection (a), the Secretary shall work with air carriers providing service to participating communities and major air carriers (as defined in section 41716(a)(2)) serving large hub airports to facilitate joint-fare arrangements consistent with normal industry practice.

(g) **DESIGNATION OF RESPONSIBLE OFFICIAL.**—The Secretary shall designate an employee of the Department of Transportation—

(1) to function as a facilitator between small communities and air carriers;

(2) to carry out this section;

(3) to ensure that the Bureau of Transportation Statistics collects data on passenger information to assess the service needs of small communities;

(4) to work with and coordinate efforts with other Federal, State, and local agencies to increase the viability of service to small communities and the creation of aviation development zones; and

(5) to provide policy recommendations to the Secretary and Congress that will ensure that small communities have access to quality, affordable air transportation services.

(h) **AIR SERVICE DEVELOPMENT ZONE.**—The Secretary shall designate an airport in the program as an Air Service Development Zone and work with the community or consortium on means to attract business to the area surrounding the airport, to develop land use options for the area, and provide data, working with the Department of Commerce and other agencies.

§ 41744. Preservation of basic essential air service at single carrier dominated hub airports

(a) **IN GENERAL.**—If the Secretary of Transportation determines that extraordinary circumstances jeopardize the reliable performance of essential air service under this subchapter from a subsidized essential air service community to and from an essential airport facility, the Secretary may require an air carrier that has more than 60 percent of the total annual enplanements at the essential airport facility to take action to enable another air carrier to provide reliable essential air service to that community. Actions required by the Secretary under this subsection may include interline agreements, ground services, subleasing of gates, and the provision of any other service or facility necessary for the performance of satisfactory essential air service to that community.

(b) **ESSENTIAL AIRPORT FACILITY DEFINED.**—In this section, the term “essential airport facility” means a large hub airport in the contiguous 48 States at which one air carrier has more than 60 percent of the total annual enplanements at that airport.

(Added Pub. L. 106-181, title II, §204(a), Apr. 5, 2000, 114 Stat. 93; amended Pub. L. 108-176, title II, §225(b)(4), Dec. 12, 2003, 117 Stat. 2529.)

§ 41745. Community and regional choice programs

(a) ALTERNATE ESSENTIAL AIR SERVICE PILOT PROGRAM.—

(1) ESTABLISHMENT.—The Secretary of Transportation shall establish an alternate essential air service pilot program in accordance with the requirements of this section.

(2) ASSISTANCE TO ELIGIBLE PLACES.—In carrying out the program, the Secretary, instead of paying compensation to an air carrier to provide essential air service to an eligible place, may provide assistance directly to a unit of local government having jurisdiction over the eligible place or a State within the boundaries of which the eligible place is located.

(3) USE OF ASSISTANCE.—A unit of local government or State receiving assistance for an eligible place under the program may use the assistance for any of the following purposes:

(A) To provide assistance to air carriers that will use smaller equipment to provide the service and to consider increasing the frequency of service using such smaller equipment if the Secretary determines that passenger safety would not be compromised by the use of such smaller equipment and if the State or unit of local government waives the minimum service requirements under section 41732(b).

(B) To provide assistance to an air carrier to provide on-demand air taxi service to and from the eligible place.

(C) To provide assistance to a person to provide scheduled or on-demand surface transportation to and from the eligible place and an airport in another place.

(D) In combination with other units of local government in the same region, to provide transportation services to and from all the eligible places in that region at an airport or other transportation center that can serve all the eligible places in that region.

(E) To purchase aircraft to provide transportation to and from the eligible place or to purchase a fractional share in an aircraft to provide such transportation after the effective date of a rule the Secretary issues relating to fractional ownership.

(F) To pay for other transportation or related services that the Secretary may permit.

(b) COMMUNITY FLEXIBILITY PILOT PROGRAM.—

(1) IN GENERAL.—The Secretary shall establish a pilot program for not more than 10 eligible places or consortia of units of local government.

(2) ELECTION.—Under the program, the sponsor of an airport serving an eligible place may elect to forego any essential air service for which compensation is being provided under this subchapter for a 10-year period in exchange for a grant from the Secretary equal in value to twice the compensation paid to provide such service in the most recent 12-month period.

(3) GRANT.—Notwithstanding any other provision of law, the Secretary shall make a grant to each airport sponsor participating in the program for use on any project that—

(A) is eligible for assistance under chapter 471 and complies with the requirements of that chapter;

(B) is located on the airport property; or

(C) will improve airport facilities in a way that would make such facilities more usable for general aviation.

(c) FRACTIONALLY OWNED AIRCRAFT.—After the effective date of the rule referred to in subsection (a)(3)(E), only those operating rules that relate to an aircraft that is fractionally owned apply when an aircraft described in subsection (a)(3)(E) is used to provide transportation described in subsection (a)(3)(E).

(d) APPLICATIONS.—

(1) IN GENERAL.—An entity seeking to participate in a program under this section shall submit to the Secretary an application in such form and containing such information as the Secretary may require.

(2) REQUIRED INFORMATION.—At a minimum, the application shall include—

(A) a statement of the amount of compensation or assistance required; and

(B) a description of how the compensation or assistance will be used.

(e) PARTICIPATION REQUIREMENTS.—An eligible place for which compensation or assistance is provided under this section in a fiscal year shall not be eligible in that fiscal year for the essential air service that it would otherwise be entitled to under this subchapter.

(f) SUBSEQUENT PARTICIPATION.—A unit of local government participating in the program under this subsection (a) in a fiscal year shall not be prohibited from participating in the basic essential air service program under this subchapter in a subsequent fiscal year if such unit is otherwise eligible to participate in such program.

(g) FUNDING.—Amounts appropriated or otherwise made available to carry out the essential air service program under this subchapter shall be available to carry out this section.

(Added Pub. L. 108-176, title IV, §405, Dec. 12, 2003, 117 Stat. 2544.)

EFFECTIVE DATE

Section applicable only to fiscal years beginning after Sept. 30, 2003, except as otherwise specifically provided, see section 3 of Pub. L. 108-176, set out as an Effective Date of 2003 Amendment note under section 106 of this title.

§ 41746. Tracking service

The Secretary of Transportation shall require a carrier that provides essential air service to an eligible place and that receives compensation for such service under this subchapter to report not less than semiannually—

(1) the percentage of flights to and from the place that arrive on time as defined by the Secretary; and

(2) such other information as the Secretary considers necessary to evaluate service provided to passengers traveling to and from such place.

(Added Pub. L. 108-176, title IV, §407, Dec. 12, 2003, 117 Stat. 2545.)

EFFECTIVE DATE

§ 41747. EAS local participation program

(a) IN GENERAL.—The Secretary of Transportation shall establish a pilot program under which not more than 10 designated essential air service communities located in proximity to hub airports are required to assume 10 percent of their essential air service subsidy costs for a 4-year period.

(b) DESIGNATION OF COMMUNITIES.—

(1) IN GENERAL.—The Secretary may not designate any community under this section unless it is located within 100 miles by road of a hub airport and is not located in a noncontiguous State. In making the designation, the Secretary may take into consideration the total traveltime between a community and the nearest hub airport, taking into account terrain, traffic, weather, road conditions, and other relevant factors.

(2) ONE COMMUNITY PER STATE.—The Secretary may not designate—

(A) more than 1 community per State under this section; or

(B) a community in a State in which another community that is eligible to participate in the essential air service program has elected not to participate in the essential air service program as part of a pilot program under section 41745.

(c) APPEAL OF DESIGNATION.—A community may appeal its designation under this section. The Secretary may withdraw the designation of a community under this section based on—

(1) the airport sponsor's ability to pay; or

(2) the relative lack of financial resources in a community, based on a comparison of the median income of the community with other communities in the State.

(d) NON-FEDERAL SHARE.—

(1) NON-FEDERAL AMOUNTS.—For purposes of this section, the non-Federal portion of the essential air service subsidy may be derived from contributions in kind, or through reduction in the amount of the essential air service subsidy through reduction of air carrier costs, increased ridership, prepurchase of tickets, or other means. The Secretary shall provide assistance to designated communities in identifying potential means of reducing the amount of the subsidy without adversely affecting air transportation service to the community.

(2) APPLICATION WITH OTHER MATCHING REQUIREMENTS.—This section shall apply to the Federal share of essential air service provided this subchapter, after the application of any other non-Federal share matching requirements imposed by law.

(e) ELIGIBILITY FOR OTHER PROGRAMS NOT AFFECTED.—Nothing in this section affects the eligibility of a community or consortium of com-

munities, an airport sponsor, or any other person to participate in any program authorized by this subchapter. A community designated under this section may participate in any program (including pilot programs) authorized by this subchapter for which it is otherwise eligible—

(1) without regard to any limitation on the number of communities that may participate in that program; and

(2) without reducing the number of other communities that may participate in that program.

(f) SECRETARY TO REPORT TO CONGRESS ON IMPACT.—The Secretary shall transmit a report to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives on—

(1) the economic condition of communities designated under this section before their designation;

(2) the impact of designation under this section on such communities at the end of each of the 3 years following their designation; and

(3) the impact of designation on air traffic patterns affecting air transportation to and from communities designated under this section.

(Added Pub. L. 108-176, title IV, §408(a), Dec. 12, 2003, 117 Stat. 2546.)

EFFECTIVE DATE

Section applicable only to fiscal years beginning after Sept. 30, 2003, except as otherwise specifically provided, see section 3 of Pub. L. 108-176, set out as an Effective Date of 2003 Amendment note under section 106 of this title.

§ 41748. Marketing program

(a) IN GENERAL.—The Secretary of Transportation shall establish a marketing incentive program for eligible places that receive subsidized service by an air carrier under section 41733. Under the program, the sponsor of the airport serving such an eligible place may receive a grant of not more than \$50,000 in a fiscal year to develop and implement a marketing plan to increase passenger boardings and the level of passenger usage of its airport facilities.

(b) MATCHING REQUIREMENT; SUCCESS BONUSES—

(1) IN GENERAL.—Except as provided in paragraphs (2) and (3), not less than 25 percent of the publicly financed costs associated with a marketing plan to be developed and implemented under this section shall come from non-Federal sources. For purposes of this section—

(A) the non-Federal portion of the publicly financed costs may be derived from contributions in kind; and

(B) matching contributions from a State or unit of local government may not be derived, directly or indirectly, from Federal funds, but the use by the State or unit of local government of proceeds from the sale of bonds to provide the matching contribution is not considered to be a contribution derived directly or indirectly from Federal funds, without regard to the Federal income

tax treatment of interest paid on those bonds or the Federal income tax treatment of those bonds.

(2) **BONUS FOR 25-PERCENT INCREASE IN USAGE.**—Except as provided in paragraph (3), if, after any 12-month period during which a marketing plan has been in effect under this section with respect to an eligible place, the Secretary determines that the marketing plan has increased average monthly boardings, or the level of passenger usage, at the airport serving the eligible place, by 25 percent or more, then only 10 percent of the publicly financed costs associated with the marketing plan shall be required to come from non-Federal sources under this subsection for the following 12-month period.

(3) **BONUS FOR 50-PERCENT INCREASE IN USAGE.**—If, after any 12-month period during which a marketing plan has been in effect under this section with respect to an eligible place, the Secretary determines that the marketing plan has increased average monthly boardings, or the level of passenger usage, at the airport serving the eligible place, by 50 percent or more, then no portion of the publicly financed costs associated with the marketing plan shall be required to come from non-Federal sources under this subsection for the following 12-month period.

(B) MAXIMUM AMOUNT.—No secured loan may be made under this section—

(i) that extends to more than 50 percent of the purchase price (including the value of any manufacturer credits, post-purchase options, or other discounts) of the aircraft, including spare parts, to be purchased; or

(ii) that, when added to the remaining balance on any other Federal credit instruments made under this subchapter, provides more than \$100,000,000 of outstanding credit to any single obligor.

(C) FINAL PAYMENT DATE.—The final payment on the secured loan shall not be due later than 18 years after the date of execution of the loan agreement.

(D) SUBORDINATION.—The secured loan may be subordinate to claims of other holders of obligations in the event of bankruptcy, insolvency, or liquidation of the obligor as determined appropriate by the Secretary.

(1) IN GENERAL.—A loan guarantee under this section with respect to a loan made for an aircraft purchase shall be made in such form and on such terms and conditions and contain such covenants, representatives, warranties, and requirements (including requirements for audits) as the Secretary determines appropriate.

(2) MAXIMUM AMOUNT.—No loan guarantee shall be made under this section—

(A) that extends to more than the unpaid interest and 50 percent of the unpaid principal on any loan;

(B) that, for any loan or combination of loans, extends to more than 50 percent of the purchase price (including the value of any manufacturer credits, post-purchase options, or other discounts) of the aircraft, including spare parts, to be purchased with the loan or loan combination;

(C) on any loan with respect to which terms permit repayment more than 15 years after the date of execution of the loan; or

(3) FEES.—The Secretary, subject to appropriations, may establish fees at a level sufficient to cover all or a portion of the administrative costs to the United States Government of making a loan guarantee under this section. The proceeds of such fees shall be deposited in an account to be used by the Secretary for the purpose of administering the program established under this subchapter and shall be available upon deposit until expended.

(d) LINES OF CREDIT.—

(1) IN GENERAL.—Subject to the requirements of this subsection, the Secretary may enter into agreements to make available lines of credit to one or more obligors in the form of direct loans to be made by the Secretary at future dates on the occurrence of certain events for any aircraft purchase selected under this section.

(2) TERMS AND LIMITATIONS.—

(A) IN GENERAL.—A line of credit under this subsection with respect to an aircraft purchase shall be on such terms and conditions and contain such covenants, representatives, warranties, and requirements (including requirements for audits) as the Secretary determines appropriate.

(B) MAXIMUM AMOUNT.—

(i) TOTAL AMOUNT.—The amount of any line of credit shall not exceed 50 percent of the purchase price (including the value of any manufacturer credits, post-purchase options, or other discounts) of the aircraft, including spare parts.

(ii) 1-YEAR DRAWS.—The amount drawn in any year shall not exceed 20 percent of the total amount of the line of credit.

(C) DRAWS.—Any draw on the line of credit shall represent a direct loan.

(D) PERIOD OF AVAILABILITY.—The line of credit shall be available not more than 5 years after the aircraft purchase date.

(E) RIGHTS OF THIRD-PARTY CREDITORS.—

(i) AGAINST UNITED STATES GOVERNMENT.—A third-party creditor of the obligor shall not have any right against the United States Government with respect to any draw on the line of credit.

(ii) ASSIGNMENT.—An obligor may assign the line of credit to one or more lenders or to a trustee on the lender's behalf.

(F) SUBORDINATION.—A direct loan under this subsection may be subordinate to claims of other holders of obligations in the event of bankruptcy, insolvency, or liquidation of the obligor as determined appropriate by the Secretary.

(G) FEES.—The Secretary, subject to appropriations, may establish fees at a level sufficient to cover all of a portion of the administrative costs to the United States Government of providing a line of credit under this subsection. The proceeds of such fees shall be deposited in an account to be used by the Secretary for the purpose of administering the program established under this subchapter and shall be available upon deposit until expended.

(3) REPAYMENT.—

(A) SCHEDULE.—The Secretary shall establish a repayment schedule for each direct loan under this subsection.

(B) COMMENCEMENT.—Scheduled loan repayments of principal or interest on a direct loan under this subsection shall commence no later than 3 years after the date of the first draw on the line of credit and shall be repaid, with interest, not later than 18 years after the date of the first draw.

(e) RISK ASSESSMENT.—Before entering into an agreement under this section to make available a Federal credit instrument, the Secretary, in consultation with the Director of the Office of Management and Budget, shall determine an appropriate capital reserve subsidy amount for the Federal credit instrument based on such credit evaluations as the Secretary deems necessary.

(f) CONDITIONS.—Subject to subsection (h), the Secretary may only make a Federal credit instrument available under this section if the Secretary finds that—

(1) the aircraft to be purchased with the Federal credit instrument is a regional jet aircraft needed to improve the service and efficiency of operation of a commuter air carrier or new entrant air carrier;

(2) the commuter air carrier or new entrant air carrier enters into a legally binding agreement that requires the carrier to use the aircraft to provide service to underserved markets; and

(3) the prospective earning power of the commuter air carrier or new entrant air carrier, together with the character and value of the security pledged, including the collateral value of the aircraft being acquired and any other assets or pledges used to secure the Federal credit instrument, furnish—

(A) reasonable assurances of the air carrier's ability and intention to repay the Fed-

eral credit instrument within the terms established by the Secretary—

(i) to continue its operations as an air carrier; and

(ii) to the extent that the Secretary determines to be necessary, to continue its operations as an air carrier between the same route or routes being operated by the air carrier at the time of the issuance of the Federal credit instrument; and

(B) reasonable protection to the United States.

(g) **LIMITATION ON COMBINED AMOUNT OF FEDERAL CREDIT INSTRUMENTS.**—The Secretary shall not allow the combined amount of Federal credit instruments available for any aircraft purchase under this section to exceed—

(1) 50 percent of the cost of the aircraft purchase; or

(2) \$100,000,000 for any single obligor.

(h) **REQUIREMENT.**—Subject to subsection (i), no Federal credit instrument may be made under this section for the purchase of any regional jet aircraft that does not comply with the stage 3 noise levels of part 36 of title 14 of the Code of Federal Regulations, as in effect on January 1, 1999.

(i) **OTHER LIMITATIONS.**—No Federal credit instrument shall be made by the Secretary under this section for the purchase of a regional jet aircraft unless the commuter air carrier or new entrant air carrier enters into a legally binding agreement that requires the carrier to provide scheduled passenger air transportation to the underserved market for which the aircraft is purchased for a period of not less than 36 consecutive months after the date that aircraft is placed in service.

(Added Pub. L. 106–181, title II, §210(a), Apr. 5, 2000, 114 Stat. 97.)

§ 41764. Use of Federal facilities and assistance

(a) **USE OF FEDERAL FACILITIES.**—To permit the Secretary of Transportation to make use of such expert advice and services as the Secretary may require in carrying out this subchapter, the Secretary may use available services and facilities of other agencies and instrumentalities of the United States Government—

(1) with the consent of the appropriate Federal officials; and

(2) on a reimbursable basis.

(b) **ASSISTANCE.**—The head of each appropriate department or agency of the United States Government shall exercise the duties and powers of that head in such manner as to assist in carrying out the policy specified in section 41761.

(c) **OVERSIGHT.**—The Secretary shall make available to the Comptroller General of the United States such information with respect to any Federal credit instrument made under this subchapter as the Comptroller General may require to carry out the duties of the Comptroller General under chapter 7 of title 31, United States Code.

In this section, the word “prescribe” is substituted for “fix and determine” and “fixing and determining” for consistency in the revised title and with other titles of the United States Code. The word “reasonable” is substituted for “fair and reasonable” for consistency in the revised title and to eliminate an unnecessary word. See the revision notes following 49:10101.

Subsection (a) is substituted for 49 App.:1551(b)(1)(D) to make clear that the United States Postal Service derives its authority to provide for the transportation of mail by aircraft in interstate transportation from 39:5402(d) and (f). The text of 49 App.:1376(a) (1st sentence related to non-Alaska interstate and overseas air transportation less words between parentheses) is omitted as superseded by 39:5402(d).

In subsection (b), before clause (1), the words “Except as provided in section 5402 of title 39” are added for clarity. The words “from time to time” in 49 App.:1376(a) are omitted as surplus. The text of 49 App.:1376(a) (2d, last sentences) is omitted as executed. In clauses (1) and (2), the word “prices” is substituted

for “rates of compensation” for consistency in this part. In clause (1), the words “an opportunity for a hearing on the record” are substituted for “hearing” for clarity and consistency with subsection (f) of this section. The words “to be paid by the Postal Service” are substituted for “The United States Postal Service shall make payments . . . of so much of the total compensation as is fixed and determined by the Board under this section without regard to clause (3) of subsection (b) of this section” in 49 App.:1376(c) to eliminate unnecessary words because the text of 49 App.:1376(b) (2d sentence words after 2d semicolon) is being omitted. See the revision notes for subsection (d) of this section. The words “out of appropriations for the transportation of mail by aircraft” are omitted as being superseded by chapters 20 and 24 of title 39, United States Code. The text of 49 App.:1376(c) (2d sentence) is omitted as expired because of 49 App.:1376(c) (last sentence). The text of 49 App.:1376(c) (last sentence) is omitted as executed. The words “and to make such rates effective from such date as it shall determine to be proper” in 49 App.:1376(a) are omitted because the power to determine when rates go into effect is included in the power to prescribe rates. The words “transportation of mail by aircraft in foreign air transportation or between places in Alaska” are substituted for “transportation of mail by aircraft” because 49 App.:1551(b)(1)(D) and (E) provides that transportation of mail in interstate or overseas air transportation (except transportation of mail between 2 places in Alaska) is transferred to the jurisdiction of the United States Postal Service leaving the balance of authority under 49 App.:1376(a) with the Secretary of Transportation.

In subsections (c), (d), and (f), reference to service provided by the Postal Service is omitted as obsolete because of 39:5402(d).

In subsection (b), the words “In prescribing prices under subsection (c) of this section, the Secretary” are added for clarity.

In subsection (d), the text of 49 App.:1376(b) (2d sentence words after 2d semicolon, 5th–7th sentences) and (d) is omitted as obsolete because under 49 App.:1376(c) and 1376a, payments by the Board under 49 App.:1376 were terminated. The text of 49 App.:1376(b) (3d, 4th sentences) is omitted as obsolete because it applies only to rates paid for service performed between October 24, 1978, and January 1, 1983. The text of 49 App.:1376(b) (last sentence) is omitted as executed.

Subsection (g) is substituted for 49 App.:1551(b)(3) and 1553(c) because the date on which the authority of the Secretary of Transportation to provide for the transportation of mail by aircraft expires is set out in 39:5402(f). The source provisions of 49 App.:1551(b)(3) providing for the transfer of that authority from the Secretary to the Postal Service are restated in section 5(k) of this bill.

Section 1601(a)(8) provides that the authority under 49 App.:1371(l) and (m) and 1375(b)–(d) as those sections relate to transportation of mail by aircraft between places in Alaska (restated in sections 41107 and 41901–41903 of the revised title) ceases on January 1, 1999. Section 1601(b)(3) transfers the authority for prescribing rates for transportation of mail between places in Alaska from the Secretary of Transportation to the Postal Service effective January 1, 1999.

AMENDMENTS

Subsec. (g). Pub. L. 103–272, §4(k)(2), which directed the amendment of this section by striking out subsec. (g), effective Jan. 1, 1999, was repealed by Pub. L. 106–31, §6003, effective Dec. 31, 1998.

EFFECTIVE DATE OF 1999 AMENDMENT

Pub. L. 106–31, title VI, §6003, May 21, 1999, 113 Stat. 113, provided that the amendment made by section 6003 is effective Dec. 31, 1998.

§ 41902. Schedules for certain transportation of mail

(a) REQUIREMENT.—Except as provided in section 41906 of this title and section 5402 of title 39, an air carrier may transport mail by aircraft in foreign air transportation or between places in Alaska only under a schedule designated or required to be established under subsection (c) of this section for the transportation of mail.

(b) STATEMENTS ON PLACES AND SCHEDULES.—Every air carrier shall file with the Secretary of Transportation and the United States Postal Service a statement showing—

(1) the places between which the carrier is authorized to provide foreign air transportation;

(2) the places between which the carrier is authorized to transport mail in Alaska;

(3) every schedule of aircraft regularly operated by the carrier between places described in clauses (1) and (2) of this subsection and every change in each schedule; and

(4) for each schedule, the places served by the carrier and the time of arrival at, and departure from, each place.

(c) DESIGNATING AND ADDITIONAL SCHEDULES.—The Postal Service may—

(1) designate any schedule of an air carrier filed under subsection (b)(3) of this section for the transportation of mail between the places between which the carrier is authorized by its certificate to transport mail; and

(2) require the carrier to establish additional schedules for the transportation of mail between those places.

(d) CHANGING SCHEDULES.—A schedule designated or required to be established for the transportation of mail under subsection (c) of this section may be changed only after 10 days' notice of the change is filed as provided in subsection (b)(3) of this section. The Postal Service may disapprove a proposed change in a schedule or amend or modify the schedule or proposed change.

(e) ORDERS.—An order of the Postal Service under this section may become effective only after 10 days after the order is issued. A person adversely affected by the order may appeal the order to the Secretary before the end of the 10-day period under regulations the Secretary prescribes. If the public convenience and necessity require, the Secretary may amend, modify, suspend, or cancel the order. Pending a decision about the order, the Secretary may postpone the effective date of the order.

(f) PROCEEDINGS PREFERENCES.—The Secretary shall give preference to a proceeding under this section over all other proceedings before the Secretary under this subpart.

In this chapter, the word "places" is substituted for "points" for consistency in the revised title. The words "United States Postal Service" and "Postal Service" are substituted for "Postmaster General" in sections 401, 405, and 406 of the Federal Aviation Act of 1958 (Public Law 85-726, 72 Stat. 754, 760) because of sections 4(a) and 6(o) of the Postal Reorganization Act (Public Law 91-375, 84 Stat. 773, 783).

In subsection (a), the words "Except as provided in section 41906 of this title and section 5402 of title 39" are added because section 41906 of the revised title and 39:5402 contain exceptions to the provisions restated in this subsection. The words "transport mail by aircraft in foreign air transportation or between places in Alaska" are substituted for "transport mail" because 49 App.:1551(a)(4)(A) provides that 49 App.:1375(b) no longer applies to interstate or overseas air transportation (ex-

cept transportation of mail between 2 places in Alaska).

In subsection (b), before clause (1), the words "from time to time" are omitted as surplus. Clauses (1) and (2) are substituted for "to engage in air transportation" because 49 App.:1551(a)(4)(A) provides that 49 App.:1375(b) no longer applies to interstate or overseas air transportation (except transportation of mail between 2 places in Alaska). In clause (4), the words "between places described in clauses (1) and (2) of this subsection and every change in each schedule" are substituted for "between such points" for clarity.

In subsection (c)(1), the words "any schedule of an air carrier filed under subsection (b)(3) of this section" are substituted for "any such schedule" for clarity.

In subsection (c)(2), the words "by order" are omitted as surplus.

In subsection (d), the word "alter" is omitted as being included in "amend, or modify".

In subsection (e), the words "adversely affected" are substituted for "aggrieved" for consistency in the revised title. The words "appeal the order" are substituted for "apply . . . for a review of such order" for consistency in the revised title and with other titles of the United States Code. The words "The Board may review, and" are omitted as surplus. The words "amend, modify" are substituted for "amend, revise" for consistency in the revised title.

Subsection (f) is substituted for 49 App.:1375(b) (8th sentence) to reflect the transfer of functions of the Civil Aeronautics Board to the Secretary of Transportation.

Section 4(k) reflects amendments to the restatement required by section 1601(a)(8) of the Federal Aviation Act of 1958 (Public Law 85-726, 72 Stat. 731), as added by section 3(c) of the Civil Aeronautics Board Sunset Act of 1984 (Public Law 98-443, 98 Stat. 1704), and section 1601(b)(3) of the Federal Aviation Act of 1958 (Public Law 85-726, 72 Stat. 731), as added by section 3(f) of the Civil Aeronautics Board Sunset Act of 1984 (Public Law 98-443, 98 Stat. 1704). Section 1601(a)(8) provides that the authority under 49 App.:1371(l) and (m) and 1375(b)-(d) as those sections relate to transportation of mail by aircraft between places in Alaska (restated in sections 41107 and 41901-41903 of the revised title) ceases on January 1, 1999. Section 1601(b)(3) transfers the authority for prescribing rates for transportation of mail between places in Alaska from the Secretary of Transportation to the Postal Service effective January 1, 1999.

AMENDMENTS

1999—Subsecs. (a), (b)(2) to (4). Pub. L. 106-31 repealed Pub. L. 103-272, §4(k). See 1994 Amendment notes below.

1994—Subsec. (a). Pub. L. 103-272, §4(k)(1), which directed the amendment of this section by substituting "foreign air transportation" for "foreign air transportation or between places in Alaska", effective Jan. 1, 1999, was repealed by Pub. L. 106-31, §6003, effective Dec. 31, 1998.

Subsec. (b)(2) to (4). Pub. L. 103-272, §4(k)(3), as amended by Pub. L. 103-429, which directed the amend-

ment of subsec. (b) by redesignating par. (3) as (2) and substituting “clause (1)” for “clauses (1) and (2)”, striking out former par. (2) which read as follows: “the places between which the carrier is authorized to transport mail in Alaska;”, and redesignating par. (4) as (3), effective Jan. 1, 1999, was repealed by Pub. L. 106-31, § 6003, effective Dec. 31, 1998.

EFFECTIVE DATE OF 1999 AMENDMENT

Pub. L. 106-31, title VI, § 6003, May 21, 1999, 113 Stat. 113, provided that the amendment made by section 6003 is effective Dec. 31, 1998.

EFFECTIVE DATE OF 1994 AMENDMENT

Section 7(a) of Pub. L. 103-429 provided in part that the amendment made by that section is effective July 5, 1994.

§ 41903. Duty to provide certain transportation of mail

(a) AIR CARRIERS.—Subject to subsection (b) of this section, an air carrier authorized by its certificate to transport mail by aircraft in foreign air transportation or between places in Alaska shall—

(1) provide facilities and services necessary and adequate to provide that transportation; and

(2) transport mail between the places authorized in the certificate for transportation of mail when required, and under regulations prescribed, by the United States Postal Service.

(b) MAXIMUM MAIL LOAD.—The Secretary of Transportation may prescribe the maximum mail load for a schedule or for an aircraft or type of aircraft for the transportation of mail by aircraft in foreign air transportation or between places in Alaska. If the Postal Service tenders to an air carrier mail exceeding the maximum load for transportation by the carrier under a schedule designated or required to be established for the transportation of mail under section 41902(c) of this title, the carrier, as nearly in accordance with the schedule as the Secretary decides is possible, shall—

(1) provide facilities sufficient to transport the mail to the extent the Secretary decides the carrier reasonably is able to do so; and

(2) transport that mail.

In subsection (a), before clause (1), the words “Subject to subsection (b) of this section” are added for clarity because subsection (b) limits the effect of this section. The words “transport mail by aircraft in foreign air transportation or between places in Alaska” are substituted for “the transportation of mail” in 49 App.:1371(l) and “the transportation of mail by aircraft” in 49 App.:1375(d) because 49 App.:1551(a)(4)(A) provides that 49 App.:1371(l) and 1375(d) no longer apply to interstate or overseas air transportation (except transportation of mail between 2 places in Alaska). Clause (2) is substituted for “shall transport mail whenever required by the United States Postal Service” in 49 App.:1371(l) and the text of 49 App.:1375(d) for clarity and to eliminate unnecessary words. The text of 49 App.:1371(l) (last sentence) is omitted as surplus because section 41901 of the revised title specifies how the rates of compensation are determined.

In subsection (b), before clause (1), the words “transportation of mail by aircraft in foreign air transportation or between places in Alaska” are added because 49 App.:1551(a)(4)(A) provides that 49 App.:1375(c) no longer applies to interstate or overseas air transportation of mail (except transportation of mail between 2 places in Alaska).

Section 4(k) reflects amendments to the restatement required by section 1601(a)(8) of the Federal Aviation Act of 1958 (Public Law 85-726, 72 Stat. 731), as added by section 3(c) of the Civil Aeronautics Board Sunset Act of 1984 (Public Law 98-443, 98 Stat. 1704), and section 1601(b)(3) of the Federal Aviation Act of 1958 (Public Law 85-726, 72 Stat. 731), as added by section 3(f) of the Civil Aeronautics Board Sunset Act of 1984 (Public Law 98-443, 98 Stat. 1704). Section 1601(a)(8) provides that the authority under 49 App.:1371(l) and (m) and 1375(b)-(d) as those sections relate to transportation of mail by aircraft between places in Alaska (restated in sections 41107 and 41901-41903 of the revised title) ceases on January 1, 1999. AMENDMENTS

1999—Pub. L. 106-31 repealed Pub. L. 103-272, §4(k). See 1994 Amendment note below.

1994—Pub. L. 103-272, §4(k)(1), which directed the amendment of this section by substituting “foreign air transportation” for “foreign air transportation or between places in Alaska” in introductory provisions of subsecs. (a) and (b), effective Jan. 1, 1999, was repealed by Pub. L. 106-31, § 6003, effective Dec. 31, 1998.

EFFECTIVE DATE OF 1999 AMENDMENT

§ 41904. Noncitizens transporting mail to or in foreign countries

The words "any or all classes of" and "of compensation" are omitted as surplus. The words "from appropriations for the transportation of mail by the means normally used for transporting the mail transported under such contracts" are omitted as superseded by 39:chs. 20 and 24. § 41907. Prices for foreign transportation of mail

(a) LIMITATIONS.—When air transportation is provided between the United States and a foreign country both by aircraft owned or operated by an air carrier holding a certificate under chapter 411 of this title and by aircraft owned or operated by a foreign air carrier, the United States Postal Service may not pay to or for the account of the foreign air carrier a price for transporting mail by aircraft between the United States and the foreign country that the Postal Service believes will result (over a reasonable period determined by the Postal Service considering exchange fluctuations and other factors) in the foreign air carrier receiving a price for transporting the mail that is higher than the price—

(1) the government of a foreign country or foreign postal administration pays to air carriers for transporting mail of the foreign country by aircraft between the foreign country and the United States; or

(2) determined by the Postal Service to be comparable to the price the government of a foreign country or foreign postal administration pays to air carriers for transporting mail of the foreign country by aircraft between the foreign country and an intermediate country on the route of the air carrier between the foreign country and the United States.

(b) CHANGES.—The Secretary of Transportation shall act expeditiously on proposed changes in prices for transporting mail by aircraft in foreign air transportation. When prescribing those prices, the Secretary shall consider—

(1) the prices paid for transportation of mail under the Universal Postal Union Convention as ratified by the United States Government;

(2) the price-making elements used by the Universal Postal Union in prescribing its air-mail prices; and

(3) the competitive disadvantage to United States flag air carriers resulting from foreign air carriers receiving Universal Postal Union prices for transporting United States mail and national origin mail of their own countries.

SUBCHAPTER III—WHISTLEBLOWER PROTECTION PROGRAM

§ 42121. Protection of employees providing air safety information

(a) DISCRIMINATION AGAINST AIRLINE EMPLOYEES.—No air carrier or contractor or subcontractor of an air carrier may discharge an employee or otherwise discriminate against an employee with respect to compensation, terms, condi-

tions, or privileges of employment because the employee (or any person acting pursuant to a request of the employee)—

(1) provided, caused to be provided, or is about to provide (with any knowledge of the employer) or cause to be provided to the employer or Federal Government information relating to any violation or alleged violation of any order, regulation, or standard of the Federal Aviation Administration or any other provision of Federal law relating to air carrier safety under this subtitle or any other law of the United States;

(2) has filed, caused to be filed, or is about to file (with any knowledge of the employer) or cause to be filed a proceeding relating to any violation or alleged violation of any order, regulation, or standard of the Federal Aviation Administration or any other provision of Federal law relating to air carrier safety under this subtitle or any other law of the United States;

(3) testified or is about to testify in such a proceeding; or

(4) assisted or participated or is about to assist or participate in such a proceeding.

(b) DEPARTMENT OF LABOR COMPLAINT PROCEDURE.—

(1) FILING AND NOTIFICATION.—A person who believes that he or she has been discharged or otherwise discriminated against by any person in violation of subsection (a) may, not later than 90 days after the date on which such violation occurs, file (or have any person file on his or her behalf) a complaint with the Secretary of Labor alleging such discharge or discrimination. Upon receipt of such a complaint, the Secretary of Labor shall notify, in writing, the person named in the complaint and the Administrator of the Federal Aviation Administration of the filing of the complaint, of the allegations contained in the complaint, of the substance of evidence supporting the complaint, and of the opportunities that will be afforded to such person under paragraph (2).

(2) INVESTIGATION; PRELIMINARY ORDER.—

(A) IN GENERAL.—Not later than 60 days after the date of receipt of a complaint filed under paragraph (1) and after affording the person named in the complaint an opportunity to submit to the Secretary of Labor a written response to the complaint and an opportunity to meet with a representative of the Secretary to present statements from witnesses, the Secretary of Labor shall conduct an investigation and determine whether there is reasonable cause to believe that the complaint has merit and notify, in writing, the complainant and the person alleged to have committed a violation of subsection (a) of the Secretary's findings. If the Secretary of Labor concludes that there is a reasonable cause to believe that a violation of subsection (a) has occurred, the Secretary shall accompany the Secretary's findings with a preliminary order providing the relief prescribed by paragraph (3)(B). Not later than 30 days after the date of notification of findings under this paragraph, either the person alleged to have committed the violation or the complainant may file objections

to the findings or preliminary order, or both, and request a hearing on the record. The filing of such objections shall not operate to stay any reinstatement remedy contained in the preliminary order. Such hearings shall be conducted expeditiously. If a hearing is not requested in such 30-day period, the preliminary order shall be deemed a final order that is not subject to judicial review.

(B) REQUIREMENTS.—

(i) REQUIRED SHOWING BY COMPLAINANT.—The Secretary of Labor shall dismiss a complaint filed under this subsection and shall not conduct an investigation otherwise required under subparagraph (A) unless the complainant makes a prima facie showing that any behavior described in paragraphs (1) through (4) of subsection (a) was a contributing factor in the unfavorable personnel action alleged in the complaint.

(ii) SHOWING BY EMPLOYER.—Notwithstanding a finding by the Secretary that the complainant has made the showing required under clause (i), no investigation otherwise required under subparagraph (A) shall be conducted if the employer demonstrates, by clear and convincing evidence, that the employer would have taken the same unfavorable personnel action in the absence of that behavior.

(iii) CRITERIA FOR DETERMINATION BY SECRETARY.—The Secretary may determine that a violation of subsection (a) has occurred only if the complainant demonstrates that any behavior described in paragraphs (1) through (4) of subsection (a) was a contributing factor in the unfavorable personnel action alleged in the complaint.

(iv) PROHIBITION.—Relief may not be ordered under subparagraph (A) if the employer demonstrates by clear and convincing evidence that the employer would have taken the same unfavorable personnel action in the absence of that behavior.

(3) FINAL ORDER.—

(A) DEADLINE FOR ISSUANCE; SETTLEMENT AGREEMENTS.—Not later than 120 days after the date of conclusion of a hearing under paragraph (2), the Secretary of Labor shall issue a final order providing the relief prescribed by this paragraph or denying the complaint. At any time before issuance of a final order, a proceeding under this subsection may be terminated on the basis of a settlement agreement entered into by the Secretary of Labor, the complainant, and the person alleged to have committed the violation.

(B) REMEDY.—If, in response to a complaint filed under paragraph (1), the Secretary of Labor determines that a violation of subsection (a) has occurred, the Secretary of Labor shall order the person who committed such violation to—

(i) take affirmative action to abate the violation;

(ii) reinstate the complainant to his or her former position together with the compensation (including back pay) and restore

the terms, conditions, and privileges associated with his or her employment; and
 (iii) provide compensatory damages to the complainant.

If such an order is issued under this paragraph, the Secretary of Labor, at the request of the complainant, shall assess against the person against whom the order is issued a sum equal to the aggregate amount of all costs and expenses (including attorneys' and expert witness fees) reasonably incurred, as determined by the Secretary of Labor, by the complainant for, or in connection with, the bringing the complaint upon which the order was issued.

(C) FRIVOLOUS COMPLAINTS.—If the Secretary of Labor finds that a complaint under paragraph (1) is frivolous or has been brought in bad faith, the Secretary of Labor may award to the prevailing employer a reasonable attorney's fee not exceeding \$1,000.

(4) REVIEW.—

(A) APPEAL TO COURT OF APPEALS.—Any person adversely affected or aggrieved by an order issued under paragraph (3) may obtain review of the order in the United States Court of Appeals for the circuit in which the violation, with respect to which the order was issued, allegedly occurred or the circuit in which the complainant resided on the date of such violation. The petition for review must be filed not later than 60 days after the date of the issuance of the final order of the Secretary of Labor. Review shall conform to chapter 7 of title 5, United States Code. The commencement of proceedings under this subparagraph shall not, unless ordered by the court, operate as a stay of the order.

(B) LIMITATION ON COLLATERAL ATTACK.—An order of the Secretary of Labor with respect to which review could have been obtained under subparagraph (A) shall not be subject to judicial review in any criminal or other civil proceeding.

(5) ENFORCEMENT OF ORDER BY SECRETARY OF LABOR.—Whenever any person has failed to comply with an order issued under paragraph (3), the Secretary of Labor may file a civil action in the United States district court for the district in which the violation was found to occur to enforce such order. In actions brought under this paragraph, the district courts shall have jurisdiction to grant all appropriate relief including, but not limited to, injunctive relief and compensatory damages.

(6) ENFORCEMENT OF ORDER BY PARTIES.—

(A) COMMENCEMENT OF ACTION.—A person on whose behalf an order was issued under paragraph (3) may commence a civil action against the person to whom such order was issued to require compliance with such order. The appropriate United States district court shall have jurisdiction, without regard to the amount in controversy or the citizenship of the parties, to enforce such order.

(B) ATTORNEY FEES.—The court, in issuing any final order under this paragraph, may award costs of litigation (including reason-

able attorney and expert witness fees) to any party whenever the court determines such award is appropriate.

(c) MANDAMUS.—Any nondiscretionary duty imposed by this section shall be enforceable in a mandamus proceeding brought under section 1361 of title 28, United States Code.

(d) NONAPPLICABILITY TO DELIBERATE VIOLATIONS.—Subsection (a) shall not apply with respect to an employee of an air carrier, contractor, or subcontractor who, acting without direction from such air carrier, contractor, or subcontractor (or such person's agent), deliberately causes a violation of any requirement relating to air carrier safety under this subtitle or any other law of the United States.

(e) CONTRACTOR DEFINED.—In this section, the term "contractor" means a company that performs safety-sensitive functions by contract for an air carrier.

In subsection (b), before clause (1), the words “A person may operate an aircraft in the United States that is not registered” are substituted for “may be operated and navigated without being so registered” and “may . . . permit the operation and navigation of aircraft without registration” for clarity. In clause (2), the words “identified in a way” are substituted for “identified, by the agency having jurisdiction over them, in a manner” to eliminate unnecessary words.

See 71 F.R. 8457.]

REGULATIONS

Pub. L. 108-297, §4, Aug. 9, 2004, 118 Stat. 1096, provided that:

“(a) IN GENERAL.—The Administrator of the Federal Aviation Administration shall issue regulations necessary to carry out this Act [see Short Title of 2004 Amendment note set out under section 40101 of this title], including any amendments made by this Act.

“(b) CONTENTS OF REGULATIONS.—Regulations to be issued under this Act shall specify, at a minimum, the requirements for—

“(1) the registration of aircraft previously registered in a country in which the Cape Town Treaty is in effect; and

“(2) the cancellation of registration of a civil aircraft of the United States based on a request made in accordance with the Cape Town Treaty.

“(c) EXPEDITED RULEMAKING PROCESS.—

“(1) FINAL RULE.—The Administrator shall issue regulations under this section by publishing a final rule by December 31, 2004.

“(2) EFFECTIVE DATE.—The final rule shall not be effective before the date the Cape Town Treaty enters into force with respect to the United States [Mar. 1, 2006, see Effective Date of 2004 Amendment note above].

CAPE TOWN TREATY; FINDINGS AND PURPOSE

Pub. L. 108-297, §2, Aug. 9, 2004, 118 Stat. 1095, provided that:

“(a) FINDINGS.—Congress finds the following:

“(1) The Cape Town Treaty (as defined in section 44113 of title 49, United States Code) extends modern commercial laws for the sale, finance, and lease of aircraft and aircraft engines to the international arena in a manner consistent with United States law and practice.

“(2) The Cape Town Treaty provides for internationally established and recognized financing and leasing rights that will provide greater security and commercial predictability in connection with the financing and leasing of highly mobile assets, such as aircraft and aircraft engines.

“(3) The legal and financing framework of the Cape Town Treaty will provide substantial economic benefits to the aviation and aerospace sectors, including the promotion of exports, and will facilitate the acquisition of newer, safer aircraft around the world.

“(4) Only technical changes to United States law and regulations are required since the asset-based financing and leasing concepts embodied in the Cape Town Treaty are already reflected in the United States in the Uniform Commercial Code.

“(5) The new electronic registry system established under the Cape Town Treaty will work in tandem with current aircraft document recordation systems of the Federal Aviation Administration, which have served United States industry well.

“(6) The United States Government was a leader in the development of the Cape Town Treaty.

“(b) PURPOSE.—Accordingly, the purpose of this Act [see Short Title of 2004 Amendment note set out under section 40101 of this title] is to provide for the implementation of the Cape Town Treaty in the United States by making certain technical amendments to the provisions of chapter 441 of title 49, United States Code, directing the Federal Aviation Administration to complete the necessary rulemaking processes as expeditiously as possible, and clarifying the applicability of the Treaty during the rulemaking process.”

§ 44102. Registration requirements

(a) ELIGIBILITY.—An aircraft may be registered under section 44103 of this title only when the aircraft is—

(1) not registered under the laws of a foreign country and is owned by—

(A) a citizen of the United States;

(B) an individual citizen of a foreign country lawfully admitted for permanent residence in the United States; or

(C) a corporation not a citizen of the United States when the corporation is organized and doing business under the laws of

the United States or a State, and the aircraft is based and primarily used in the United States; or

(2) an aircraft of—

(A) the United States Government; or

(B) a State, the District of Columbia, a territory or possession of the United States, or a political subdivision of a State, territory, or possession.

(b) DUTY TO DEFINE CERTAIN TERM.—In carrying out subsection (a)(1)(C) of this section, the Secretary of Transportation shall define “based and primarily used in the United States”.

In subsection (a), before clause (1), the words “may be registered” are substituted for “shall be eligible for registration”, and the words “under section 44103 of this title” are added, for clarity. The words “only when” are substituted for “if, but only if” for consistency. In subclause (C), the words “not a citizen of the United States” are substituted for “(other than a corporation which is a citizen of the United States)” to eliminate unnecessary words. The word “lawfully” is omitted as surplus.

In subsection (b), the words “In carrying out subsection (a)(1)(C) of this section” are added because of the restatement. The words “by regulation” are omitted as unnecessary because of 49:322(a).

§ 44103. Registration of aircraft

(a) GENERAL.—(1) On application of the owner of an aircraft that meets the requirements of section 44102 of this title, the Administrator of the Federal Aviation Administration shall—

(A) register the aircraft; and

(B) issue a certificate of registration to its owner.

(2) The Administrator may prescribe the extent to which an aircraft owned by the holder of a dealer’s certificate of registration issued under section 44104(2) of this title also is registered under this section.

(b) CONTROLLED SUBSTANCE VIOLATIONS.—(1) The Administrator may not issue an owner’s certificate of registration under subsection (a)(1) of this section to a person whose certificate is revoked under section 44106 of this title during the 5-year period beginning on the date of the revocation, except—

(A) as provided in section 44106(e)(2) of this title; or

(B) that the Administrator may issue the certificate to the person after the one-year period beginning on the date of the revocation if the Administrator decides that the aircraft otherwise meets the requirements of section 44102 of this title and that denial of a certificate for the 5-year period—

(i) would be excessive considering the nature of the offense or the act committed and the burden the denial places on the person; or

(ii) would not be in the public interest.

(2) A decision of the Administrator under paragraph (1)(B)(i) or (ii) of this subsection is within the discretion of the Administrator. That decision or failure to make a decision is not subject to administrative or judicial review.

(c) CERTIFICATES AS EVIDENCE.—A certificate of registration issued under this section is—

(1) conclusive evidence of the nationality of an aircraft for international purposes, but not conclusive evidence in a proceeding under the laws of the United States; and

(2) not evidence of ownership of an aircraft in a proceeding in which ownership is or may be in issue.

(d) CERTIFICATES AVAILABLE FOR INSPECTION.—An operator of an aircraft shall make available for inspection a certificate of registration for the aircraft when requested by a United States Government, State, or local law enforcement officer.

“(a) IN GENERAL.—A memorandum of agreement between the Administrator [of the Federal Aviation Ad-

ministration] and any person that directly obtains aircraft situational display data from the Federal Aviation Administration shall require that—

“(2) the person agree to block selectively the aircraft registration numbers of any aircraft owner or operator upon the Administrator’s request.

“(b) EXISTING MEMORANDA TO BE CONFORMED.—Not later than 30 days after the date of the enactment of this Act [Apr. 5, 2000], the Administrator shall conform any memoranda of agreement, in effect on such date of enactment, between the Federal Aviation Administration and a person under which that person obtains aircraft situational display data to incorporate the requirements of subsection (a).”

§ 44104. Registration of aircraft components and dealers’ certificates of registration

The Administrator of the Federal Aviation Administration may prescribe regulations—

(1) in the interest of safety for registering and identifying an aircraft engine, propeller, or appliance; and

§ 44106. Revocation of aircraft certificates for controlled substance violations

(a) DEFINITION.—In this section, “controlled substance” has the same meaning given that term in section 102 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 802).

(b) REVOCATIONS.—(1) The Administrator of the Federal Aviation Administration shall issue an order revoking the certificate of registration for an aircraft issued to an owner under section 44103 of this title and any other certificate of registration that the owner of the aircraft holds under section 44103, if the Administrator finds that—

(A) the aircraft was used to carry out, or facilitate, an activity that is punishable by death or imprisonment for more than one year under a law of the United States or a State related to a controlled substance (except a law related to simple possession of a controlled substance); and

(B) the owner of the aircraft permitted the use of the aircraft knowing that the aircraft was to be used for the activity described in clause (A) of this paragraph.

(2) An aircraft owner that is not an individual is deemed to have permitted the use of the aircraft knowing that the aircraft was to be used for the activity described in paragraph (1)(A) of this subsection only if a majority of the individuals who control the owner of the aircraft or who are involved in forming the major policy of the owner permitted the use of the aircraft knowing that the aircraft was to be used for the activity described in paragraph (1)(A).

(c) ADVICE TO HOLDERS AND OPPORTUNITY TO ANSWER.—Before the Administrator revokes a certificate under subsection (b) of this section, the Administrator shall—

(1) advise the holder of the certificate of the charges or reasons on which the Administrator bases the proposed action; and

(2) provide the holder of the certificate an opportunity to answer the charges and state why the certificate should not be revoked.

(d) APPEALS.—(1) A person whose certificate is revoked by the Administrator under subsection (b) of this section may appeal the revocation order to the National Transportation Safety Board. The Board shall affirm or reverse the order after providing notice and a hearing on the record. In conducting the hearing, the Board is not bound by the findings of fact of the Administrator.

(2) When a person files an appeal with the Board under this subsection, the order of the Administrator revoking the certificate is stayed. However, if the Administrator advises the Board

that safety in air transportation or air commerce requires the immediate effectiveness of the order—

(A) the order remains effective; and

(B) the Board shall dispose of the appeal not later than 60 days after notification by the Administrator under this paragraph.

(3) A person substantially affected by an order of the Board under this subsection may seek judicial review of the order under section 46110 of this title. The Administrator shall be made a party to that judicial proceeding.

(e) ACQUITTAL.—(1) The Administrator may not revoke, and the Board may not affirm a revocation of, a certificate of registration under this section on the basis of an activity described in subsection (b)(1)(A) of this section if the holder of the certificate is acquitted of all charges related to a controlled substance in an indictment or information arising from the activity.

(2) If the Administrator has revoked a certificate of registration of a person under this section because of an activity described in subsection (b)(1)(A) of this section, the Administrator shall reissue a certificate to the person if the person—

(A) subsequently is acquitted of all charges related to a controlled substance in an indictment or information arising from the activity; and

(B) otherwise meets the requirements of section 44102 of this title.

(b) GENERAL DESCRIPTION REQUIRED.—A lease or instrument recorded under subsection (a)(2)(C) or (D) of this section only has to describe generally the engine, propeller, appliance, or spare part by type and designate its location.

(C) aircraft engines.

(2) SYSTEM FOR FILING NOTICE OF PROSPECTIVE INTERESTS.—

(A) ESTABLISHMENT.—*The Administrator shall establish a system for filing notices of prospective assignments and prospective international interests in, and prospective sales of, aircraft or aircraft engines described in paragraph (1) under the Cape Town Treaty.*

(B) MAINTENANCE OF VALIDITY.—*A filing of a notice of prospective assignment, interest, or sale under this paragraph and the registration with the International Registry relating to such assignment, interest, or sale shall not be valid after the 60th day following the date of the filing unless documents eligible for recording under subsection (a) relating to such notice are filed for recordation on or before such 60th day.*

(3) AUTHORIZATION FOR REGISTRATION OF AIRCRAFT.—*A registration with the International Registry relating to an aircraft described in paragraph (1) (other than subparagraph (C)) is valid only if (A) the person seeking the registration first files documents eligible for recording under subsection (a) and relating to the registration with the United States Entry Point, and (B) the United States Entry Point authorizes the registration.*

§ 44302. General authority

(a) INSURANCE AND REINSURANCE.—(1) Subject to subsection (c) of this section and section 44305(a) of this title, the Secretary of Transportation may provide insurance and reinsurance against loss or damage arising out of any risk from the operation of an American aircraft or foreign-flag aircraft.

(2) An aircraft may be insured or reinsured for not more than its reasonable value as determined by the Secretary in accordance with reasonable business practices in the commercial aviation insurance industry. Insurance or reinsurance may be provided only when the Secretary decides that the insurance cannot be obtained on reasonable terms from an insurance carrier.

(b) REIMBURSEMENT OF INSURANCE COST INCREASES.—

(1) IN GENERAL.—The Secretary may reimburse an air carrier for the increase in the cost of insurance, with respect to a premium for coverage ending before October 1, 2002, against loss or damage arising out of any risk from the operation of an American aircraft over the insurance premium that was in effect for a comparable operation during the period beginning September 4, 2001, and ending September 10, 2001, as the Secretary may determine. Such reimbursement is subject to subsections (a)(2), (c), and (d) of this section and to section 44303.

(2) PAYMENT FROM REVOLVING FUND.—A reimbursement under this subsection shall be paid from the revolving fund established by section 44307.

(3) FURTHER CONDITIONS.—The Secretary may impose such further conditions on insurance for which the increase in premium is subject to reimbursement under this subsection as the Secretary may deem appropriate in the interest of air commerce.

(4) TERMINATION OF AUTHORITY.—The authority to reimburse air carriers under this subsection shall expire 180 days after the date of enactment of this paragraph.

(c) PRESIDENTIAL APPROVAL.—The Secretary may provide insurance or reinsurance under subsection (a) of this section, or reimburse an air carrier under subsection (b) of this section, only with the approval of the President. The President may approve the insurance or reinsurance or the reimbursement only after deciding that the continued operation of the American aircraft or foreign-flag aircraft to be insured or reinsured is necessary in the interest of air commerce or national security or to carry out the foreign policy of the United States Government.

(d) CONSULTATION.—The President may require the Secretary to consult with interested departments, agencies, and instrumentalities of the Government before providing insurance or reinsurance or reimbursing an air carrier under this chapter.

(e) ADDITIONAL INSURANCE.—With the approval of the Secretary, a person having an insurable interest in an aircraft may insure with other underwriters in an amount that is more than the amount insured with the Secretary. However, the Secretary may not benefit from the additional insurance. This subsection does not pre-

vent the Secretary from making contracts of co-insurance.

(f) EXTENSION OF POLICIES.—

(2) SPECIAL RULES.—Notwithstanding paragraph (1)—

In this section, before clause (1), the words “persons, property, or interest” are omitted as unnecessary. In clause (2), the word “property” is substituted for “Car-goes” and “air cargoes” for consistency in the revised

title. In clause (2)(B) and (C), the words “its territories, or possessions” are omitted as unnecessary because of the definition of “United States” in section 40102(a) of the revised title. In clause (2)(C)(ii), the word “contract” is substituted for “contracts of sale or purchase”, and the words “putting . . . on” are substituted for “is assumed by or falls upon”, to eliminate unnecessary words. In clause (2)(D), the word “place” is substituted for “point” for consistency in the revised title. In subclause (i), the words “a State or the District of Columbia” are substituted for “the United States” for clarity and consistency because the definition of “United States” in section 40102(a) of the revised title is too broad for the context of the clause. The definition in section 40102(a) includes territories and possession and would therefore overlap with subclauses (ii) and (iii). In subclause (iii), the words “2 places in the same territory or possession of the United States” are substituted for “any point in any such territory or possession and any other point in the same territory or possession” for clarity. In clauses (3) and (4), the word “individuals” is substituted for “persons” as being more appropriate. The words “captains” and “pilots” are omitted as being included in “officers and members of the crew”.

In subsection (a), the words "may reinsure any part of the insurance provided by an insurance carrier" are substituted for "may reinsure, in whole or in part, any company authorized to do an insurance business" for clarity and consistency with source provisions restated in this subchapter and the definition of "insurance carrier" in section 44301 of the revised title. "(b) PREMIUM LEVELS.—The Secretary may provide reinsurance at premiums not less than, or obtain reinsurance at premiums not higher than, the premiums the Secretary establishes on similar risks or the premiums the insurance carrier charges for the insurance to be reinsured by the Secretary, whichever is most advantageous to the Secretary. § 44306. Premiums and limitations on coverage and claims

(a) **PREMIUMS BASED ON RISK.**—To the extent practical, the premium charged for insurance or reinsurance under this chapter shall be based on consideration of the risk involved.

(b) **ALLOWANCES IN SETTING PREMIUM RATES FOR REINSURANCE.**—In setting premium rates for reinsurance, the Secretary may make allowances to the insurance carrier for expenses incurred in providing services and facilities that the Secretary considers good business practices, except for payments by the insurance carrier for the stimulation or solicitation of insurance business.

and use of the navigable airspace, and the orderly development and location of air navigation facilities, that will best meet the needs of, and serve the interests of, civil aeronautics and the national defense, except for needs of the armed forces that are peculiar to air warfare and primarily of military concern.

(b) **AIRWAY CAPITAL INVESTMENT PLAN.**—The Administrator of the Federal Aviation Administration shall review, revise, and publish a national airways system plan, known as the Airway Capital Investment Plan, before the beginning of each fiscal year. The plan shall set forth—

(1) for a 10-year period, the research, engineering, and development programs and the facilities and equipment that the Administrator considers necessary for a system of airways, air traffic services, and navigation aids that will—

(A) meet the forecasted needs of civil aeronautics;

(B) meet the requirements that the Secretary of Defense establishes for the support of the national defense; and

(C) provide the highest degree of safety in air commerce;

(2) for the first and 2d years of the plan, detailed annual estimates of—

(A) the number, type, location, and cost of acquiring, operating, and maintaining required facilities and services;

(B) the cost of research, engineering, and development required to improve safety, system capacity, and efficiency; and

(C) personnel levels required for the activities described in subclauses (A) and (B) of this clause;

(3) for the 3d, 4th, and 5th years of the plan, estimates of the total cost of each major program for the 3-year period, and additional major research programs, acquisition of systems and facilities, and changes in personnel levels that may be required to meet long range objectives and that may have significant impact on future funding requirements; and

(4) a 10-year investment plan that considers long range objectives that the Administrator considers necessary to—

(A) ensure that safety is given the highest priority in providing for a safe and efficient airway system; and

(B) meet the current and projected growth of aviation and the requirements of interstate commerce, the United States Postal Service, and the national defense.

(c) **NATIONAL AVIATION RESEARCH PLAN.**—(1) The Administrator of the Federal Aviation Administration shall prepare and publish annually a national aviation research plan and submit the plan to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science of the House of Representatives. The plan shall be submitted not later than the date of submission of the President's budget to Congress.

(2)(A) The plan shall describe, for a 5-year period, the research, engineering, and development that the Administrator of the Federal Aviation Administration considers necessary—

(i) to ensure the continued capacity, safety, and efficiency of aviation in the United States, considering emerging technologies and forecasted needs of civil aeronautics; and
 (ii) to provide the highest degree of safety in air travel.

(B) The plan shall—

(i) provide estimates by year of the schedule, cost, and work force levels for each active and planned major research and development project under sections 40119, 44504, 44505, 44507, 44509, 44511–44513, and 44912 of this title, including activities carried out under cooperative agreements with other Federal departments and agencies;

(ii) specify the goals and the priorities for allocation of resources among the major categories of research and development activities, including the rationale for the priorities identified;

(iii) identify the allocation of resources among long-term research, near-term research, and development activities;

(iv) identify the individual research and development projects in each funding category that are described in the annual budget request;

(v) highlight the research and development activities that address specific recommendations of the research advisory committee established under section 44508 of this title, and document the recommendations of the committee that are not accepted, specifying the reasons for nonacceptance; and

(vi) highlight the research and development technology transfer activities that promote technology sharing among government, industry, and academia through the Stevenson-Wydler Technology Innovation Act of 1980.

(3) Subject to section 40119(b) of this title and regulations prescribed under section 40119(b), the Administrator of the Federal Aviation Administration shall submit to the committees named in paragraph (1) of this subsection an annual report on the accomplishments of the research completed during the prior fiscal year, including a description of the dissemination to the private sector of research results and a description of any new technologies developed. The report shall be submitted with the plan required under paragraph (1) and be organized to allow comparison with the plan in effect for the prior fiscal year. The report shall be prepared in accordance with requirements of section 1116 of title 31.

§ 44502. General facilities and personnel authority

(a) GENERAL AUTHORITY.—(1) The Administrator of the Federal Aviation Administration may—

(A) acquire, establish, improve, operate, and maintain air navigation facilities; and

(B) provide facilities and personnel to regulate and protect air traffic.

(2) The cost of site preparation work associated with acquiring, establishing, or improving an air navigation facility under paragraph (1)(A) of this subsection shall be charged to amounts available for that purpose appropriated under section 48101(a) of this title. The Secretary of Transportation may make an agreement with an airport owner or sponsor (as defined in section 47102 of this title) so that the owner or sponsor will provide the work and be paid or reimbursed by the Secretary from the appropriated amounts.

(3) The Secretary of Transportation may authorize a department, agency, or instrumentality of the United States Government to carry out any duty or power under this subsection with the consent of the head of the department, agency, or instrumentality.

(4) PURCHASE OF INSTRUMENT LANDING SYSTEM.—

(A) ESTABLISHMENT OF PROGRAM.—The Secretary shall purchase precision approach instrument landing system equipment for installation at airports on an expedited basis.

(B) AUTHORIZATION.—No less than \$30,000,000 of the amounts appropriated under section 48101(a) for each of fiscal years 2000 through 2002 shall be used for the purpose of carrying out this paragraph, including acquisition under new or existing contracts, site preparation work, installation, and related expenditures.

(5) IMPROVEMENTS ON LEASED PROPERTIES.—The Administrator may make improvements to real property leased for no or nominal consideration for an air navigation facility, regardless of whether the cost of making the improvements exceeds the cost of leasing the real property, if—

(A) the improvements primarily benefit the Government;

(B) the improvements are essential for accomplishment of the mission of the Federal Aviation Administration; and

(C) the interest of the United States Government in the improvements is protected.

(b) CERTIFICATION OF NECESSITY.—Except for Government money expended under this part or

for a military purpose, Government money may be expended to acquire, establish, construct, operate, repair, alter, or maintain an air navigation facility only if the Administrator of the Federal Aviation Administration certifies in writing that the facility is reasonably necessary for use in air commerce or for the national defense. An interested person may apply for a certificate for a facility to be acquired, established, constructed, operated, repaired, altered, or maintained by or for the person.

(c) ENSURING CONFORMITY WITH PLANS AND POLICIES.—(1) To ensure conformity with plans and policies for, and allocation of, airspace by the Administrator of the Federal Aviation Administration under section 40103(b)(1) of this title, a military airport, military landing area, or missile or rocket site may be acquired, established, or constructed, or a runway may be altered substantially, only if the Administrator of the Federal Aviation Administration is given reasonable prior notice so that the Administrator of the Federal Aviation Administration may advise the appropriate committees of Congress and interested departments, agencies, and instrumentalities of the Government on the effect of the acquisition, establishment, construction, or alteration on the use of airspace by aircraft. A disagreement between the Administrator of the Federal Aviation Administration and the Secretary of Defense or the Administrator of the National Aeronautics and Space Administration may be appealed to the President for a final decision.

(2) To ensure conformity, an airport or landing area not involving the expenditure of Government money may be established or constructed, or a runway may be altered substantially, only if the Administrator of the Federal Aviation Administration is given reasonable prior notice so that the Administrator may provide advice on the effects of the establishment, construction, or alteration on the use of airspace by aircraft.

(d) PUBLIC USE AND EMERGENCY ASSISTANCE.—

(1) The head of a department, agency, or instrumentality of the Government having jurisdiction over an air navigation facility owned or operated by the Government may provide, under regulations the head of the department, agency, or instrumentality prescribes, for public use of the facility.

(2) The head of a department, agency, or instrumentality of the Government having jurisdiction over an airport or emergency landing field owned or operated by the Government may provide, under regulations the head of the department, agency, or instrumentality prescribes, for assistance, and the sale of fuel, oil, equipment, and supplies, to an aircraft, but only when necessary, because of an emergency, to allow the aircraft to continue to the nearest airport operated by private enterprise. The head of the department, agency, or instrumentality shall provide for the assistance and sale at the prevailing local fair market value as determined by the head of the department, agency, or instrumentality. An amount that the head decides is equal to the cost of the assistance provided and the fuel, oil, equipment, and supplies sold shall be credited to the appropriation from which the cost was paid. The balance shall be credited to miscellaneous receipts.

(e) TRANSFERS OF INSTRUMENT LANDING SYSTEMS.—An airport may transfer, without consideration, to the Administrator of the Federal Aviation Administration an instrument landing system (and associated approach lighting equipment and runway visual range equipment) that conforms to performance specifications of the Administrator if a Government airport aid program, airport development aid program, or airport improvement project grant was used to assist in purchasing the system. The Administrator shall accept the system and operate and maintain it under criteria of the Administrator. (Pub. L. 103-272, §1(e), July 5, 1994, 108 Stat. 1175; Pub. Pub. L. 108-176, title I, §182, Dec. 12, 2003, 117 Stat. 2515, provided that:

“(a) IN GENERAL.—In order to test the cost effectiveness and feasibility of long-term financing of modernization of major air traffic control systems, the Administrator of the Federal Aviation Administration may establish a pilot program to test innovative financing techniques through amending, subject to section 1341 of title 31, United States Code, a contract for more than one, but not more than 20, fiscal years to purchase and install air traffic control equipment for the Administration. Such amendments may be for more than one, but not more than 10, fiscal years.

“(b) CANCELLATION.—A contract described in subsection (a) may include a cancellation provision if the Administrator determines that such a provision is necessary and in the best interest of the United States. Any such provision shall include a cancellation liability schedule that covers reasonable and allocable costs incurred by the contractor through the date of cancellation plus reasonable profit, if any, on those costs. Any such provision shall not apply if the contract is terminated by default of the contractor.

“(c) CONTRACT PROVISIONS.—If feasible and practicable for the pilot program, the Administrator may make an advance contract provision to achieve economic-lot purchases and more efficient production rates.

“(b) FORM OF DECISION.—A decision under this section shall be in the form of a notice of proposed rulemaking requiring automatic external defibrillators in airports or on passenger aircraft operated by air carriers, or both, or a recommendation to Congress for legislation requiring such defibrillators or a notice in the Federal Register that such defibrillators should not be required in airports or on such aircraft. If a decision under this section is in the form of a notice of proposed rulemaking, the Administrator shall make a final decision not later than the 120th day following the date on which comments are due on the notice of proposed rulemaking.

“(b) LIABILITY OF INDIVIDUALS.—An individual shall not be liable for damages in any action brought in a Federal or State court arising out of the acts or omissions of the individual in providing or attempting to provide assistance in the case of an in-flight medical emergency unless the individual, while rendering such assistance, is guilty of gross negligence or willful misconduct.

DEVELOPMENT OF ANALYTICAL TOOLS AND CERTIFICATION METHODS

Pub. L. 108–176, title VII, §706, Dec. 12, 2003, 117 Stat. 2582, provided that: “The Federal Aviation Administra-

tion shall conduct research to promote the development of analytical tools to improve existing certification methods and to reduce the overall costs for the certification of new products.”

§ 44703. Airman certificates

(a) GENERAL.—The Administrator of the Federal Aviation Administration shall issue an airman certificate to an individual when the Administrator finds, after investigation, that the individual is qualified for, and physically able to perform the duties related to, the position to be authorized by the certificate.

(b) CONTENTS.—(1) An airman certificate shall—

(A) be numbered and recorded by the Administrator of the Federal Aviation Administration;

(B) contain the name, address, and description of the individual to whom the certificate is issued;

(C) contain terms the Administrator decides are necessary to ensure safety in air commerce, including terms on the duration of the certificate, periodic or special examinations, and tests of physical fitness;

(D) specify the capacity in which the holder of the certificate may serve as an airman with respect to an aircraft; and

(E) designate the class the certificate covers.

(2) A certificate issued to a pilot serving in scheduled air transportation shall have the designation “airline transport pilot” of the appropriate class.

(c) PUBLIC INFORMATION.—

(1) IN GENERAL.—Subject to paragraph (2) and notwithstanding any other provision of law, the information contained in the records of contents of any airman certificate issued under this section that is limited to an airman’s name, address, and ratings held shall be made available to the public after the 120th day following the date of the enactment of the Wendell H. Ford Aviation Investment and Reform Act for the 21st Century.

(2) OPPORTUNITY TO WITHHOLD INFORMATION.—Before making any information concerning an airman available to the public under paragraph (1), the airman shall be given an opportunity to elect that the information not be made available to the public.

(3) DEVELOPMENT AND IMPLEMENTATION OF PROGRAM.—Not later than 60 days after the date of the enactment of the Wendell H. Ford Aviation Investment and Reform Act for the 21st Century, the Administrator shall develop and implement, in cooperation with representatives of the aviation industry, a one-time written notification to airmen to set forth the implications of making information concerning an airman available to the public under paragraph (1) and to carry out paragraph (2). The Administrator shall also provide such written notification to each individual who becomes an airman after such date of enactment.

(d) APPEALS.—(1) An individual whose application for the issuance or renewal of an airman certificate has been denied may appeal the denial to the National Transportation Safety

Board, except if the individual holds a certificate that—

(A) is suspended at the time of denial; or

(B) was revoked within one year from the date of the denial.

(2) The Board shall conduct a hearing on the appeal at a place convenient to the place of residence or employment of the applicant. The Board is not bound by findings of fact of the Administrator of the Federal Aviation Administration but is bound by all validly adopted interpretations of laws and regulations the Administrator carries out unless the Board finds an interpretation is arbitrary, capricious, or otherwise not according to law. At the end of the hearing, the Board shall decide whether the individual meets the applicable regulations and standards. The Administrator is bound by that decision.

(e) RESTRICTIONS AND PROHIBITIONS.—The Administrator of the Federal Aviation Administration may—

(1) restrict or prohibit issuing an airman certificate to an alien; or

(2) make issuing the certificate to an alien dependent on a reciprocal agreement with the government of a foreign country.

(f) CONTROLLED SUBSTANCE VIOLATIONS.—The Administrator of the Federal Aviation Administration may not issue an airman certificate to an individual whose certificate is revoked under section 44710 of this title except—

(1) when the Administrator decides that issuing the certificate will facilitate law enforcement efforts; and

(2) as provided in section 44710(e)(2) of this title.

(g) MODIFICATIONS IN SYSTEM.—(1) The Administrator of the Federal Aviation Administration shall make modifications in the system for issuing airman certificates necessary to make the system more effective in serving the needs of airmen and officials responsible for enforcing laws related to the regulation of controlled substances (as defined in section 102 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 802)) and related to combating acts of terrorism. The modifications shall ensure positive and verifiable identification of each individual applying for or holding a certificate and shall address at least each of the following deficiencies in, and abuses of, the existing system:

(A) the use of fictitious names and addresses by applicants for those certificates.

(B) the use of stolen or fraudulent identification in applying for those certificates.

(C) the use by an applicant of a post office box or “mail drop” as a return address to evade identification of the applicant’s address.

(D) the use of counterfeit and stolen airman certificates by pilots.

(E) the absence of information about physical characteristics of holders of those certificates.

(2) The Administrator of the Federal Aviation Administration shall prescribe regulations to carry out paragraph (1) of this subsection and provide a written explanation of how the regula-

tions address each of the deficiencies and abuses described in paragraph (1). In prescribing the regulations, the Administrator of the Federal Aviation Administration shall consult with the Administrator of Drug Enforcement, the Commissioner of Customs, other law enforcement officials of the United States Government, representatives of State and local law enforcement officials, representatives of the general aviation aircraft industry, representatives of users of general aviation aircraft, and other interested persons.

(3) For purposes of this section, the term “acts of terrorism” means an activity that involves a violent act or an act dangerous to human life that is a violation of the criminal laws of the United States or of any State, or that would be a criminal violation if committed within the jurisdiction of the United States or of any State, and appears to be intended to intimidate or coerce a civilian population to influence the policy of a government by intimidation or coercion or to affect the conduct of a government by assassination or kidnaping.

(4) The Administrator is authorized and directed to work with State and local authorities, and other Federal agencies, to assist in the identification of individuals applying for or holding airmen certificates.

(h) RECORDS OF EMPLOYMENT OF PILOT APPLICANTS.—

(1) IN GENERAL.—Subject to paragraph (14), before allowing an individual to begin service as a pilot, an air carrier shall request and receive the following information:

(A) FAA RECORDS.—From the Administrator of the Federal Aviation Administration, records pertaining to the individual that are maintained by the Administrator concerning—

(i) current airman certificates (including airman medical certificates) and associated type ratings, including any limitations to those certificates and ratings; and

(II) any disciplinary action taken with respect to the individual that was not subsequently overturned; and

(III) any release from employment or resignation, termination, or disqualification with respect to employment.

(C) NATIONAL DRIVER REGISTER RECORDS.—In accordance with section 30305(b)(8) of this title, from the chief driver licensing official of a State, information concerning the motor vehicle driving record of the individual.

(2) WRITTEN CONSENT; RELEASE FROM LIABILITY.—An air carrier making a request for records under paragraph (1)—

(A) shall be required to obtain written consent to the release of those records from the individual that is the subject of the records requested; and

(B) may, notwithstanding any other provision of law or agreement to the contrary, require the individual who is the subject of the records to request to execute a release from liability for any claim arising from the furnishing of such records to or the use of such records by such air carrier (other than a claim arising from furnishing information known to be false and maintained in violation of a criminal statute).

(3) 5-YEAR REPORTING PERIOD.—A person shall not furnish a record in response to a request made under paragraph (1) if the record was entered more than 5 years before the date of the request, unless the information concerns a revocation or suspension of an airman certificate or motor vehicle license that is in effect on the date of the request.

(4) REQUIREMENT TO MAINTAIN RECORDS.—The Administrator and air carriers shall maintain pilot records described in paragraphs (1)(A) and (1)(B) for a period of at least 5 years.

(5) RECEIPT OF CONSENT; PROVISION OF INFORMATION.—A person shall not furnish a record in response to a request made under paragraph (1) without first obtaining a copy of the written consent of the individual who is the subject of the records requested; except that, for purposes of paragraph (15), the Administrator may allow an individual designated by the Administrator to accept and maintain written consent on behalf of the Administrator for records requested under paragraph (1)(A). A person who receives a request for records under this subsection shall furnish a copy of all of such requested records maintained by the person not later than 30 days after receiving the request.

(6) **RIGHT TO RECEIVE NOTICE AND COPY OF ANY RECORD FURNISHED.**—A person who receives a request for records under paragraph (1) shall provide to the individual who is the subject of the records—

(A) on or before the 20th day following the date of receipt of the request, written notice of the request and of the individual's right to receive a copy of such records; and

(B) in accordance with paragraph (10), a copy of such records, if requested by the individual.

(7) **REASONABLE CHARGES FOR PROCESSING REQUESTS AND FURNISHING COPIES.**—A person who receives a request under paragraph (1) or (6) may establish a reasonable charge for the cost of processing the request and furnishing copies of the requested records.

(8) **STANDARD FORMS.**—The Administrator shall promulgate—

(A) standard forms that may be used by an air carrier to request records under paragraph (1); and

(B) standard forms that may be used by an air carrier to—

(i) obtain the written consent of the individual who is the subject of a request under paragraph (1); and

(ii) inform the individual of—

(I) the request; and

(II) the individual right of that individual to receive a copy of any records furnished in response to the request.

(9) **RIGHT TO CORRECT INACCURACIES.**—An air carrier that maintains or requests and receives the records of an individual under paragraph (1) shall provide the individual with a reasonable opportunity to submit written comments to correct any inaccuracies contained in the records before making a final hiring decision with respect to the individual.

(10) **RIGHT OF PILOT TO REVIEW CERTAIN RECORDS.**—Notwithstanding any other provision of law or agreement, an air carrier shall, upon written request from a pilot who is or has been employed by such carrier, make available, within a reasonable time, but not later than 30 days after the date of the request, to the pilot for review, any and all employment records referred to in paragraph (1)(B)(i) or (ii) pertaining to the employment of the pilot.

(11) **PRIVACY PROTECTIONS.**—An air carrier that receives the records of an individual under paragraph (1) may use such records only to assess the qualifications of the individual in deciding whether or not to hire the individual as a pilot. The air carrier shall take such actions as may be necessary to protect the privacy of the pilot and the confidentiality of the records, including ensuring that information contained in the records is not divulged to any individual that is not directly involved in the hiring decision.

(12) **PERIODIC REVIEW.**—Not later than 18 months after the date of the enactment of the Pilot Records Improvement Act of 1996, and at least once every 3 years thereafter, the Administrator shall transmit to Congress a statement that contains, taking into account

recent developments in the aviation industry—

(A) recommendations by the Administrator concerning proposed changes to Federal Aviation Administration records, air carrier records, and other records required to be furnished under subparagraphs (A) and (B) of paragraph (1); or

(B) reasons why the Administrator does not recommend any proposed changes to the records referred to in subparagraph (A).

(13) **REGULATIONS.**—The Administrator shall prescribe such regulations as may be necessary—

(A) to protect—

(i) the personal privacy of any individual whose records are requested under paragraph (1) and disseminated under paragraph (15); and

(ii) the confidentiality of those records;

(B) to preclude the further dissemination of records received under paragraph (1) by the person who requested those records; and

(C) to ensure prompt compliance with any request made under paragraph (1).

(14) **SPECIAL RULES WITH RESPECT TO CERTAIN PILOTS.**—

(A) **PILOTS OF CERTAIN SMALL AIRCRAFT.**—Notwithstanding paragraph (1), an air carrier, before receiving information requested about an individual under paragraph (1), may allow the individual to begin service for a period not to exceed 90 days as a pilot of an aircraft with a maximum payload capacity (as defined in section 119.3 of title 14, Code of Federal Regulations) of 7,500 pounds or less, or a helicopter, on a flight that is not a scheduled operation (as defined in such section). Before the end of the 90-day period, the air carrier shall obtain and evaluate such information. The contract between the carrier and the individual shall contain a term that provides that the continuation of the individual's employment, after the last day of the 90-day period, depends on a satisfactory evaluation.

(B) **GOOD FAITH EXCEPTION.**—Notwithstanding paragraph (1), an air carrier, without obtaining information about an individual under paragraph (1)(B) from an air carrier or other person that no longer exists or from a foreign government or entity that employed the individual, may allow the individual to begin service as a pilot if the air carrier required to request the information has made a documented good faith attempt to obtain such information.

(15) **ELECTRONIC ACCESS TO FAA RECORDS.**—For the purpose of increasing timely and efficient access to Federal Aviation Administration records described in paragraph (1), the Administrator may allow, under terms established by the Administrator, an individual designated by the air carrier to have electronic access to a specified database containing information about such records. The terms shall limit such access to instances in which information in the database is required by the designated individual in making a hiring decision

concerning a pilot applicant and shall require that the designated individual provide assurances satisfactory to the Administrator that information obtained using such access will not be used for any purpose other than making the hiring decision.

(i) LIMITATION ON LIABILITY; PREEMPTION OF STATE LAW.—

(D) an agent or employee of a person described in subparagraph (A) or (B);

in the nature of an action for defamation, invasion of privacy, negligence, interference with contract, or otherwise, or under any Federal or State law with respect to the furnishing or use of such records in accordance with subsection (h).

(2) PREEMPTION.—No State or political subdivision thereof may enact, prescribe, issue, continue in effect, or enforce any law (including any regulation, standard, or other provision having the force and effect of law) that prohibits, penalizes, or imposes liability for furnishing or using records in accordance with subsection (h).

(3) PROVISION OF KNOWINGLY FALSE INFORMATION.—Paragraphs (1) and (2) shall not apply with respect to a person who furnishes information in response to a request made under subsection (h)(1), that—

(A) the person knows is false; and

(B) was maintained in violation of a criminal statute of the United States.

In subsection (b)(1)(E), the word “designate” is substituted for “be entitled with the designation of” to eliminate unnecessary words.

In subsection (d), before clause (1), the words “in his discretion” are omitted as surplus. In clause (2), the words “the terms of” and “entered into” are omitted as surplus. The words “government of a foreign country” are substituted for “foreign governments” for consistency in the revised title and with other titles of the United States Code.

Pub. L. 106-424, §14, Nov. 1, 2000, 114 Stat. 1888, provided that: “In determining whether an individual meets the aeronautical experience requirements imposed under section 44703 of title 49, United States Code, for an airman certificate or rating, the Secretary of Transportation shall take into account any time spent by that individual operating a public aircraft as defined in section 40102 of title 49, United States Code, if that aircraft is—

“(1) identifiable by category and class; and

“(2) used in law enforcement activities.”

§ 44704. Type certificates, production certificates, airworthiness certificates, and design organization certificates

(a) TYPE CERTIFICATES.—

(1) ISSUANCE, INVESTIGATIONS, AND TESTS.—The Administrator of the Federal Aviation Administration shall issue a type certificate for an aircraft, aircraft engine, or propeller, or for an appliance specified under paragraph (2)(A) of this subsection when the Administrator finds that the aircraft, aircraft engine, propeller, or appliance is properly designed and manufactured, performs properly, and meets the regulations and minimum standards prescribed under section 44701(a) of this title. On receiving an application for a type certificate, the Administrator shall investigate the application and may conduct a hearing. The Administrator shall make, or require the applicant to make, tests the Administrator considers necessary in the interest of safety.

(2) SPECIFICATIONS.—The Administrator may—

(A) specify in regulations those appliances that reasonably require a type certificate in the interest of safety;

(B) include in a type certificate terms required in the interest of safety; and

(C) record on the certificate a numerical specification of the essential factors related to the performance of the aircraft, aircraft engine, or propeller for which the certificate is issued.

(3) SPECIAL RULES FOR NEW AIRCRAFT AND APPLIANCES.—Except as provided in paragraph (4), if the holder of a type certificate agrees to permit another person to use the certificate to manufacture a new aircraft, aircraft engine, propeller, or appliance, the holder shall provide the other person with written evidence, in a form acceptable to the Administrator, of that agreement. Such other person may manufacture a new aircraft, aircraft engine, propeller, or appliance based on a type certificate only if such other person is the holder of the type certificate or has permission from the holder.

(4) LIMITATION FOR AIRCRAFT MANUFACTURED BEFORE AUGUST 5, 2004.—Paragraph (3) shall not apply to a person who began the manufacture of an aircraft before August 5, 2004, and who demonstrates to the satisfaction of the Administrator that such manufacture began be-

fore August 5, 2004, if the name of the holder of the type certificate for the aircraft does not appear on the airworthiness certificate or identification plate of the aircraft. The holder of the type certificate for the aircraft shall not be responsible for the continued airworthiness of the aircraft. A person may invoke the exception provided by this paragraph with regard to the manufacture of only one aircraft.

(b) SUPPLEMENTAL TYPE CERTIFICATES.—

(1) ISSUANCE.—The Administrator may issue a type certificate designated as a supplemental type certificate for a change to an aircraft, aircraft engine, propeller, or appliance.

(2) CONTENTS.—A supplemental type certificate issued under paragraph (1) shall consist of the change to the aircraft, aircraft engine, propeller, or appliance with respect to the previously issued type certificate for the aircraft, aircraft engine, propeller, or appliance.

(3) REQUIREMENT.—If the holder of a supplemental type certificate agrees to permit another person to use the certificate to modify an aircraft, aircraft engine, propeller, or appliance, the holder shall provide the other person with written evidence, in a form acceptable to the Administrator, of that agreement. A person may change an aircraft, aircraft engine, propeller, or appliance based on a supplemental type certificate only if the person requesting the change is the holder of the supplemental type certificate or has permission from the holder to make the change.

(c) PRODUCTION CERTIFICATES.—The Administrator shall issue a production certificate authorizing the production of a duplicate of an aircraft, aircraft engine, propeller, or appliance for which a type certificate has been issued when the Administrator finds the duplicate will conform to the certificate. On receiving an application, the Administrator shall inspect, and may require testing of, a duplicate to ensure that it conforms to the requirements of the certificate. The Administrator may include in a production certificate terms required in the interest of safety.

(d) AIRWORTHINESS CERTIFICATES.—(1) The registered owner of an aircraft may apply to the Administrator for an airworthiness certificate for the aircraft. The Administrator shall issue an airworthiness certificate when the Administrator finds that the aircraft conforms to its type certificate and, after inspection, is in condition for safe operation. The Administrator shall register each airworthiness certificate and may include appropriate information in the certificate. The certificate number or other individual designation the Administrator requires shall be displayed on the aircraft. The Administrator may include in an airworthiness certificate terms required in the interest of safety.

(2) A person applying for the issuance or renewal of an airworthiness certificate for an aircraft for which ownership has not been recorded under section 44107 or 44110 of this title must submit with the application information related to the ownership of the aircraft the Administrator decides is necessary to identify each person having a property interest in the aircraft and the kind and extent of the interest.

(e) DESIGN ORGANIZATION CERTIFICATES.—

(1) ISSUANCE.—Beginning 7 years after the date of enactment of this subsection, the Administrator may issue a design organization certificate to a design organization to authorize the organization to certify compliance with the requirements and minimum standards prescribed under section 44701(a) for the type certification of aircraft, aircraft engines, propellers, or appliances.

(2) APPLICATIONS.—On receiving an application for a design organization certificate, the Administrator shall examine and rate the design organization submitting the application, in accordance with regulations to be prescribed by the Administrator, to determine whether the design organization has adequate engineering, design, and testing capabilities, standards, and safeguards to ensure that the product being certificated is properly designed and manufactured, performs properly, and meets the regulations and minimum standards prescribed under section 44701(a).

(3) ISSUANCE OF TYPE CERTIFICATES BASED ON DESIGN ORGANIZATION CERTIFICATION.—The Administrator may rely on certifications of compliance by a design organization when making a finding under subsection (a).

(4) PUBLIC SAFETY.—The Administrator shall include in a design organization certificate issued under this subsection terms required in the interest of safety.

(5) NO EFFECT ON POWER OF REVOCATION.—Nothing in this subsection affects the authority of the Secretary of Transportation to revoke a certificate.

- (1) that serves an air carrier operating aircraft designed for at least 31 passenger seats;
- (2) that is not located in the State of Alaska and serves any scheduled passenger operation of an air carrier operating aircraft designed for more than 9 passenger seats but less than 31 passenger seats; and

(3) that the Administrator requires to have a certificate;

if the Administrator finds, after investigation, that the person properly and adequately is equipped and able to operate safely under this part and regulations and standards prescribed under this part.

(b) **TERMS.**—An airport operating certificate issued under this section shall contain terms necessary to ensure safety in air transportation. Unless the Administrator decides that it is not in the public interest, the terms shall include conditions related to—

(1) operating and maintaining adequate safety equipment, including firefighting and rescue equipment capable of rapid access to any part of the airport used for landing, takeoff, or surface maneuvering of an aircraft; and

(2) friction treatment for primary and secondary runways that the Secretary of Transportation decides is necessary.

(c) **EXEMPTIONS.**—The Administrator may exempt from the requirements of this section, related to firefighting and rescue equipment, an operator of an airport described in subsection (a) of this section having less than .25 percent of the total number of passenger boardings each year at all airports described in subsection (a) when the Administrator decides that the requirements are or would be unreasonably costly, burdensome, or impractical.

(d) **COMMUTER AIRPORTS.**—In developing the terms required by subsection (b) for airports covered by subsection (a)(2), the Administrator shall identify and consider a reasonable number of regulatory alternatives and select from such alternatives the least costly, most cost-effective or the least burdensome alternative that will provide comparable safety at airports described in subsections (a)(1) and (a)(2).

(e) **EFFECTIVE DATE.**—Any regulation establishing the terms required by subsection (b) for airports covered by subsection (a)(2) shall not take effect until such regulation, and a report on the economic impact of the regulation on air service to the airports covered by the rule, has been submitted to Congress and 120 days have elapsed following the date of such submission.

(f) **LIMITATION ON STATUTORY CONSTRUCTION.**—Nothing in this title may be construed as requiring a person to obtain an airport operating certificate if such person does not desire to operate an airport described in subsection (a).

The word "Administrator" in section 606 (1st sentence) of the Federal Aviation Act of 1958 (Public Law 85-726, 72 Stat. 779) is retained on authority of 49:106(g).

§ 44709. Amendments, modifications, suspensions, and revocations of certificates

(a) REINSPECTION AND REEXAMINATION.—The Administrator of the Federal Aviation Administration may reinspect at any time a civil aircraft, aircraft engine, propeller, appliance, design organization, production certificate holder,

air navigation facility, or air agency, or reexamine an airman holding a certificate issued under section 44703 of this title.

(b) ACTIONS OF THE ADMINISTRATOR.—The Administrator may issue an order amending, modifying, suspending, or revoking—

(1) any part of a certificate issued under this chapter if—

(A) the Administrator decides after conducting a reinspection, reexamination, or other investigation that safety in air commerce or air transportation and the public interest require that action; or

(B) the holder of the certificate has violated an aircraft noise or sonic boom standard or regulation prescribed under section 44715(a) of this title; and

(2) an airman certificate when the holder of the certificate is convicted of violating section 13(a) of the Fish and Wildlife Act of 1956 (16 U.S.C. 742j-1(a)).

(c) ADVICE TO CERTIFICATE HOLDERS AND OPPORTUNITY TO ANSWER.—Before acting under subsection (b) of this section, the Administrator shall advise the holder of the certificate of the charges or other reasons on which the Administrator relies for the proposed action. Except in an emergency, the Administrator shall provide the holder an opportunity to answer the charges and be heard why the certificate should not be amended, modified, suspended, or revoked.

(d) APPEALS.—(1) A person adversely affected by an order of the Administrator under this section may appeal the order to the National Transportation Safety Board. After notice and an opportunity for a hearing, the Board may amend, modify, or reverse the order when the Board finds—

(A) if the order was issued under subsection (b)(1)(A) of this section, that safety in air commerce or air transportation and the public interest do not require affirmation of the order; or

(B) if the order was issued under subsection (b)(1)(B) of this section—

(i) that control or abatement of aircraft noise or sonic boom and the public health and welfare do not require affirmation of the order; or

(ii) the order, as it is related to a violation of aircraft noise or sonic boom standards and regulations, is not consistent with safety in air commerce or air transportation.

(2) The Board may modify a suspension or revocation of a certificate to imposition of a civil penalty.

(3) When conducting a hearing under this subsection, the Board is not bound by findings of fact of the Administrator but is bound by all validly adopted interpretations of laws and regulations the Administrator carries out and of written agency policy guidance available to the public related to sanctions to be imposed under this section unless the Board finds an interpretation is arbitrary, capricious, or otherwise not according to law.

(e) EFFECTIVENESS OF ORDERS PENDING APPEAL.—

(1) IN GENERAL.—When a person files an appeal with the Board under subsection (d), the order of the Administrator is stayed.

(2) EXCEPTION.—Notwithstanding paragraph (1), the order of the Administrator is effective immediately if the Administrator advises the Board that an emergency exists and safety in air commerce or air transportation requires the order to be effective immediately.

(3) REVIEW OF EMERGENCY ORDER.—A person affected by the immediate effectiveness of the Administrator's order under paragraph (2) may petition for a review by the Board, under procedures promulgated by the Board, of the Administrator's determination that an emergency exists. Any such review shall be requested not later than 48 hours after the order is received by the person. If the Board finds that an emergency does not exist that requires the immediate application of the order in the interest of safety in air commerce or air transportation, the order shall be stayed, notwithstanding paragraph (2). The Board shall dispose of a review request under this paragraph not later than 5 days after the date on which the request is filed.

(4) FINAL DISPOSITION.—The Board shall make a final disposition of an appeal under subsection (d) not later than 60 days after the date on which the appeal is filed.

(f) JUDICIAL REVIEW.—A person substantially affected by an order of the Board under this section, or the Administrator when the Administrator decides that an order of the Board under this section will have a significant adverse impact on carrying out this part, may obtain judicial review of the order under section 46110 of this title. The Administrator shall be made a party to the judicial review proceedings. Findings of fact of the Board are conclusive if supported by substantial evidence.

In subsection (a), the words “airman holding a certificate issued under section 44703 of this title” are substituted for “civil airman” for clarity.

In subsection (b)(1), before subclause (A), the words “certificate issued under this chapter” are substituted for “type certificate, production certificate, airworthiness certificate, airman certificate, air carrier operating certificate, air navigation facility certificate (including airport operating certificate), or air agency certificate” to eliminate unnecessary words.

In subsection (b)(2), the words “in his discretion” and “regarding the use or operation of an aircraft” in 49 App.:1429(b) are omitted as surplus.

In subsection (c), the words “cases of” in 49 App.:1429(a) are omitted as surplus.

“(1) the order is effective; and

“(2) the Board shall make a final disposition of the appeal not later than 60 days after the Administrator so advises the Board.”

§ 44710. Revocations of airman certificates for controlled substance violations

(a) DEFINITION.—In this section, “controlled substance” has the same meaning given that term in section 102 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 802).

(b) REVOCATION.—(1) The Administrator of the Federal Aviation Administration shall issue an order revoking an airman certificate issued an individual under section 44703 of this title after the individual is convicted, under a law of the United States or a State related to a controlled substance (except a law related to simple possession of a controlled substance), of an offense punishable by death or imprisonment for more than one year if the Administrator finds that—

(A) an aircraft was used to commit, or facilitate the commission of, the offense; and

(B) the individual served as an airman, or was on the aircraft, in connection with committing, or facilitating the commission of, the offense.

(2) The Administrator shall issue an order revoking an airman certificate issued an individual under section 44703 of this title if the Administrator finds that—

(A) the individual knowingly carried out an activity punishable, under a law of the United States or a State related to a controlled substance (except a law related to simple possession of a controlled substance), by death or imprisonment for more than one year;

(B) an aircraft was used to carry out or facilitate the activity; and

(C) the individual served as an airman, or was on the aircraft, in connection with carrying out, or facilitating the carrying out of, the activity.

(3) The Administrator has no authority under paragraph (1) of this subsection to review whether an airman violated a law of the United States or a State related to a controlled substance.

(c) ADVICE TO HOLDERS AND OPPORTUNITY TO ANSWER.—Before the Administrator revokes a certificate under subsection (b) of this section, the Administrator must—

(1) advise the holder of the certificate of the charges or reasons on which the Administrator relies for the proposed revocation; and

(2) provide the holder of the certificate an opportunity to answer the charges and be heard why the certificate should not be revoked.

(d) APPEALS.—(1) An individual whose certificate is revoked by the Administrator under subsection (b) of this section may appeal the revocation order to the National Transportation Safety Board. The Board shall affirm or reverse the order after providing notice and an opportunity for a hearing on the record. When conducting the hearing, the Board is not bound by findings of fact of the Administrator but shall be bound by all validly adopted interpretations of laws and regulations the Administrator carries out and of written agency policy guidance available to the public related to sanctions to be

imposed under this section unless the Board finds an interpretation is arbitrary, capricious, or otherwise not according to law.

(2) When an individual files an appeal with the Board under this subsection, the order of the Administrator revoking the certificate is stayed. However, if the Administrator advises the Board that safety in air transportation or air commerce requires the immediate effectiveness of the order—

(A) the order remains effective; and

(B) the Board shall make a final disposition of the appeal not later than 60 days after the Administrator so advises the Board.

(3) An individual substantially affected by an order of the Board under this subsection, or the Administrator when the Administrator decides that an order of the Board will have a significant adverse effect on carrying out this part, may obtain judicial review of the order under section 46110 of this title. The Administrator shall be made a party to the judicial review proceedings. Findings of fact of the Board are conclusive if supported by substantial evidence.

(e) ACQUITTAL.—(1) The Administrator may not revoke, and the Board may not affirm a revocation of, an airman certificate under subsection (b)(2) of this section on the basis of an activity described in subsection (b)(2)(A) if the holder of the certificate is acquitted of all charges related to a controlled substance in an indictment or information arising from the activity.

(2) If the Administrator has revoked an airman certificate under this section because of an activity described in subsection (b)(2)(A) of this section, the Administrator shall reissue a certificate to the individual if—

(A) the individual otherwise satisfies the requirements for a certificate under section 44703 of this title; and

(B)(i) the individual subsequently is acquitted of all charges related to a controlled substance in an indictment or information arising from the activity; or

(ii) the conviction on which a revocation under subsection (b)(1) of this section is based is reversed.

(f) WAIVERS.—The Administrator may waive the requirement of subsection (b) of this section that an airman certificate of an individual be revoked if—

(1) a law enforcement official of the United States Government or of a State requests a waiver; and

(2) the Administrator decides that the waiver will facilitate law enforcement efforts.

§ 44713. Inspection and maintenance

(a) GENERAL EQUIPMENT REQUIREMENTS.—An air carrier shall make, or cause to be made, any inspection, repair, or maintenance of equipment used in air transportation as required by this part or regulations prescribed or orders issued by the Administrator of the Federal Aviation Administration under this part. A person operating, inspecting, repairing, or maintaining the equipment shall comply with those requirements, regulations, and orders.

(b) DUTIES OF INSPECTORS.—The Administrator of the Federal Aviation Administration shall employ inspectors who shall—

(1) inspect aircraft, aircraft engines, propellers, and appliances designed for use in air transportation, during manufacture and when in use by an air carrier in air transportation, to enable the Administrator to decide whether the aircraft, aircraft engines, propellers, or appliances are in safe condition and maintained properly; and

(2) advise and cooperate with the air carrier during that inspection and maintenance.

(c) UNSAFE AIRCRAFT, ENGINES, PROPELLERS, AND APPLIANCES.—When an inspector decides that an aircraft, aircraft engine, propeller, or appliance is not in condition for safe operation, the inspector shall notify the air carrier in the form and way prescribed by the Administrator of the Federal Aviation Administration. For 5 days after the carrier is notified, the aircraft, engine, propeller, or appliance may not be used in air transportation or in a way that endangers air transportation unless the Administrator or the inspector decides the aircraft, engine, propeller, or appliance is in condition for safe operation.

(d) MODIFICATIONS IN SYSTEM.—(1) The Administrator of the Federal Aviation Administration shall make modifications in the system for processing forms for major repairs or alterations to fuel tanks and fuel systems of aircraft not used to provide air transportation that are necessary to make the system more effective in serving the needs of users of the system, including officials responsible for enforcing laws related to the regulation of controlled substances (as defined in section 102 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 802)). The modifications shall address at least each of the following deficiencies in, and abuses of, the existing system:

(A) the lack of a special identification feature to allow the forms to be distinguished easily from other major repair and alteration forms.

(B) the excessive period of time required to receive the forms at the Airmen and Aircraft Registry of the Administration.

(C) the backlog of forms waiting for processing at the Registry.

(D) the lack of ready access by law enforcement officials to information contained on the forms.

(2) The Administrator of the Federal Aviation Administration shall prescribe regulations to carry out paragraph (1) of this subsection and provide a written explanation of how the regulations address each of the deficiencies and abuses

described in paragraph (1). In prescribing the regulations, the Administrator of the Federal Aviation Administration shall consult with the Administrator of Drug Enforcement, the Commissioner of Customs, other law enforcement officials of the United States Government, representatives of State and local law enforcement officials, representatives of the general aviation aircraft industry, representatives of users of general aviation aircraft, and other interested persons.

(e) AUTOMATED SURVEILLANCE TARGETING SYSTEMS.—

(2) DEADLINES FOR DEPLOYMENT.—

(A) INITIAL PHASE.—The initial phase of the operational deployment of the system developed under this subsection shall begin not later than December 31, 1997.

(B) FINAL PHASE.—The final phase of field deployment of the system developed under this subsection shall begin not later than December 31, 1999. By that date, all principal operations and maintenance inspectors of the Administration, and appropriate supervisors and analysts of the Administration shall have been provided access to the necessary information and resources to carry out the system.

(3) INTEGRATION OF INFORMATION.—In developing the system under this section, the Administration shall consider the near-term integration of accident and incident data into the safety performance analysis system under this subsection.

Not later than 90 days after the hearing is completed and after consulting with the Administrator of the Environmental Protection Agency, the Administrator of the Federal Aviation Administration shall—

(1) prescribe regulations as provided by this section—

(A) substantially the same as the proposed regulations submitted by the Administrator of the Environmental Protection Agency; or

(B) that amend the proposed regulations; or

(2) publish in the Federal Register—

(A) a notice that no regulation is being prescribed in response to the proposed regulations of the Administrator of the Environmental Protection Agency;

(B) a detailed analysis of, and response to, all information the Administrator of the Environmental Protection Agency submitted with the proposed regulations; and

(C) a detailed explanation of why no regulation is being prescribed.

(d) CONSULTATION AND REPORTS.—(1) If the Administrator of the Environmental Protection Agency believes that the action of the Administrator of the Federal Aviation Administration under subsection (c)(1)(B) or (2) of this section does not protect the public health and welfare from aircraft noise or sonic boom, consistent with the considerations in subsection (b) of this section, the Administrator of the Environmental Protection Agency shall consult with the Administrator of the Federal Aviation Administration and may request a report on the advisability of prescribing the regulation as originally proposed. The request, including a detailed statement of the information on which the request is based, shall be published in the Federal Register.

(2) The Administrator of the Federal Aviation Administration shall report to the Administrator of the Environmental Protection Agency within the time, if any, specified in the request. However, the time specified must be at least 90 days after the date of the request. The report shall—

(A) be accompanied by a detailed statement of the findings of the Administrator of the Federal Aviation Administration and the reasons for the findings;

(B) identify any statement related to an action under subsection (c) of this section filed under section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C));

(C) specify whether and where that statement is available for public inspection; and

(D) be published in the Federal Register unless the request proposes specific action by the Administrator of the Federal Aviation Administration and the report indicates that action will be taken.

(e) SUPPLEMENTAL REPORTS.—The Administrator of the Environmental Protection Agency may request the Administrator of the Federal Aviation Administration to file a supplemental report if the report under subsection (d) of this section indicates that the proposed regulations under subsection (c) of this section, for which a statement under section 102(2)(C) of the Act (42 U.S.C. 4332(2)(C)) is not required, should not be prescribed. The supplemental report shall be published in the Federal Register within the time the Administrator of the Environmental Protection Agency specifies. However, the time specified must be at least 90 days after the date of the request. The supplemental report shall contain a comparison of the environmental effects, including those that cannot be avoided, of the action of the Administrator of the Federal Aviation Administration and the proposed regulations of the Administrator of the Environmental Protection Agency.

(f) EXEMPTIONS.—An exemption from a standard or regulation prescribed under this section may be granted only if, before granting the exemption, the Administrator of the Federal Aviation Administration consults with the Administrator of the Environmental Protection Agency. However, if the Administrator of the Federal Aviation Administration finds that safety in air transportation or air commerce requires an exemption before the Administrator of the Environmental Protection Agency can be consulted, the exemption may be granted. The Administrator of the Federal Aviation Administration shall consult with the Administrator of the Environmental Protection Agency as soon as practicable after the exemption is granted.

AMENDMENTS

1996—Subsec. (a)(1). Pub. L. 104-264, which in directing the general amendment of par. (1) inserted an additional subsec. (a) designation and heading identical to the existing subsec. heading as well as restating the text of par. (1), was executed by restating the text only to reflect the probable intent of Congress. Prior to amendment, par. (1) read as follows: “To relieve and protect the public health and welfare from aircraft noise and sonic boom, the Administrator of the Federal Aviation Administration shall prescribe—

“(A) standards to measure aircraft noise and sonic boom; and

“(B) regulations to control and abate aircraft noise and sonic boom.”

EFFECTIVE DATE OF 1996 AMENDMENT

Except as otherwise specifically provided, amendment by Pub. L. 104-264 applicable only to fiscal years beginning after Sept. 30, 1996, and not to be construed as affecting funds made available for a fiscal year ending before Oct. 1, 1996, see section 3 of Pub. L. 104-264, set out as a note under section 106 of this title.

§ 44716. Collision avoidance systems

(a) DEVELOPMENT AND CERTIFICATION.—The Administrator of the Federal Aviation Administration shall—

(1) complete the development of the collision avoidance system known as TCAS-II so that TCAS-II can operate under visual and instrument flight rules and can be upgraded to the performance standards applicable to the collision avoidance system known as TCAS-III;

(2) develop and carry out a schedule for developing and certifying TCAS-II that will result in certification not later than June 30, 1989; and

(3) submit to Congress monthly reports on the progress being made in developing and certifying TCAS-II.

(b) INSTALLATION AND OPERATION.—The Administrator shall require by regulation that, not later than 30 months after the date certification is made under subsection (a)(2) of this section, TCAS-II be installed and operated on each civil aircraft that has a maximum passenger capacity of at least 31 seats and is used to provide air transportation of passengers, including intrastate air transportation of passengers. The Administrator may extend the deadline in this subsection for not more than 2 years if the Administrator finds the extension is necessary to promote—

(1) a safe and orderly transition to the operation of a fleet of civil aircraft described in this subsection equipped with TCAS-II; or

(2) other safety objectives.

(c) OPERATIONAL EVALUATION.—Not later than December 30, 1990, the Administrator shall establish a one-year program to collect and assess safety and operational information from civil aircraft equipped with TCAS-II for the operational evaluation of TCAS-II. The Administrator shall encourage foreign air carriers that operate civil aircraft equipped with TCAS-II to participate in the program.

(d) AMENDING SCHEDULE FOR WINDSHEAR EQUIPMENT.—The Administrator shall consider the feasibility and desirability of amending the schedule for installing airborne low-altitude windshear equipment to make the schedule compatible with the schedule for installing TCAS-II.

(e) DEADLINE FOR DEVELOPMENT AND CERTIFICATION.—(1) The Administrator shall complete developing and certifying TCAS-III as soon as possible.

(2) Necessary amounts may be appropriated from the Airport and Airway Trust Fund established under section 9502 of the Internal Revenue Code of 1986 (26 U.S.C. 9502) to carry out this subsection.

(f) INSTALLING AND USING TRANSPONDERS.—The Administrator shall prescribe regulations requiring that, not later than December 30, 1990, operating transponders with automatic altitude reporting capability be installed and used for aircraft operating in designated terminal airspace where radar service is provided for separation of aircraft. The Administrator may provide for access to that airspace (except terminal control areas and airport radar service areas) by nonequipped aircraft if the Administrator finds the access will not interfere with the normal traffic flow.

(g) CARGO COLLISION AVOIDANCE SYSTEMS.—

(1) IN GENERAL.—The Administrator shall require by regulation that, no later than Decem-

ber 31, 2002, collision avoidance equipment be installed on each cargo aircraft with a maximum certificated takeoff weight in excess of 15,000 kilograms.

(2) EXTENSION OF DEADLINE.—The Administrator may extend the deadline established by paragraph (1) by not more than 2 years if the Administrator finds that the extension is needed to promote—

(A) a safe and orderly transition to the operation of a fleet of cargo aircraft equipped with collision avoidance equipment; or

(B) other safety or public interest objectives.

(3) COLLISION AVOIDANCE EQUIPMENT DEFINED.—In this subsection, the term “collision avoidance equipment” means equipment that provides protection from mid-air collisions using technology that provides—

(A) cockpit-based collision detection and conflict resolution guidance, including display of traffic; and

(B) a margin of safety of at least the same level as provided by the collision avoidance system known as TCAS-II.

AMENDMENTS

2000—Subsec. (g). Pub. L. 106–181 added subsec. (g).

EFFECTIVE DATE OF 2000 AMENDMENT

Amendment by Pub. L. 106–181 applicable only to fiscal years beginning after Sept. 30, 1999, see section 3 of Pub. L. 106–181, set out as a note under section 106 of this title.

TERMINATION OF REPORTING REQUIREMENTS

§ 44717. Aging aircraft

(a) INSPECTIONS AND REVIEWS.—The Administrator of the Federal Aviation Administration

shall prescribe regulations that ensure the continuing airworthiness of aging aircraft. The regulations prescribed under subsection (a) of this section—

(1) at least shall require the Administrator to make inspections, and review the maintenance and other records, of each aircraft an air carrier uses to provide air transportation that the Administrator decides may be necessary to enable the Administrator to decide whether the aircraft is in safe condition and maintained properly for operation in air transportation;

(2) at least shall require an air carrier to demonstrate to the Administrator, as part of the inspection, that maintenance of the aircraft’s age-sensitive parts and components has been adequate and timely enough to ensure the highest degree of safety;

(3) shall require the air carrier to make available to the Administrator the aircraft and any records about the aircraft that the Administrator requires to carry out a review; and

(4) shall establish procedures to be followed in carrying out an inspection.

(b) WHEN AND HOW INSPECTIONS AND REVIEWS SHALL BE CARRIED OUT.—(1) Inspections and reviews required under subsection (a)(1) of this section shall be carried out as part of each heavy maintenance check of the aircraft conducted after the 14th year in which the aircraft has been in service.

(2) Inspections under subsection (a)(1) of this section shall be carried out as provided under section 44701(a)(2)(B) and (C) of this title.

(c) AIRCRAFT MAINTENANCE SAFETY PROGRAMS.—The Administrator shall establish—

(1) a program to verify that air carriers are maintaining their aircraft according to maintenance programs approved by the Administrator;

(2) a program—

(A) to provide inspectors and engineers of the Administration with training necessary to conduct auditing inspections of aircraft operated by air carriers for corrosion and metal fatigue; and

(B) to enhance participation of those inspectors and engineers in those inspections; and

(3) a program to ensure that air carriers demonstrate to the Administrator their commitment and technical competence to ensure the airworthiness of aircraft that the carriers operate.

(d) FOREIGN AIR TRANSPORTATION.—(1) The Administrator shall take all possible steps to encourage governments of foreign countries and relevant international organizations to develop standards and requirements for inspections and reviews that—

(A) will ensure the continuing airworthiness of aging aircraft used by foreign air carriers to provide foreign air transportation to and from the United States; and

(B) will provide passengers of those foreign air carriers with the same level of safety that will be provided passengers of air carriers by carrying out this section.

(2) Not later than September 30, 1994, the Administrator shall report to Congress on carrying out this subsection.

§ 44718. Structures interfering with air commerce

(a) NOTICE.—By regulation or by order when necessary, the Secretary of Transportation shall require a person to give adequate public notice, in the form and way the Secretary prescribes, of the construction, alteration, establishment, or expansion, or the proposed construction, alteration, establishment, or expansion, of a structure or sanitary landfill when the notice will promote—

- (1) safety in air commerce; and
- (2) the efficient use and preservation of the navigable airspace and of airport traffic capacity at public-use airports.

(b) STUDIES.—(1) Under regulations prescribed by the Secretary, if the Secretary decides that constructing or altering a structure may result in an obstruction of the navigable airspace or an interference with air navigation facilities and equipment or the navigable airspace, the Secretary shall conduct an aeronautical study to decide the extent of any adverse impact on the safe and efficient use of the airspace, facilities, or equipment. In conducting the study, the Secretary shall consider factors relevant to the efficient and effective use of the navigable airspace, including—

(A) the impact on arrival, departure, and en route procedures for aircraft operating under visual flight rules;

(B) the impact on arrival, departure, and en route procedures for aircraft operating under instrument flight rules;

(C) the impact on existing public-use airports and aeronautical facilities;

(D) the impact on planned public-use airports and aeronautical facilities; and

(E) the cumulative impact resulting from the proposed construction or alteration of a structure when combined with the impact of other existing or proposed structures.

(2) On completing the study, the Secretary shall issue a report disclosing completely the extent of the adverse impact on the safe and efficient use of the navigable airspace that the Secretary finds will result from constructing or altering the structure.

(c) BROADCAST APPLICATIONS AND TOWER STUDIES.—In carrying out laws related to a broadcast application and conducting an aeronautical study related to broadcast towers, the Administrator of the Federal Aviation Administration and the Federal Communications Commission shall take action necessary to coordinate efficiently—

(1) the receipt and consideration of, and action on, the application; and

(2) the completion of any associated aeronautical study.

(d) LIMITATION ON CONSTRUCTION OF LANDFILLS.—

(1) IN GENERAL.—No person shall construct or establish a municipal solid waste landfill (as defined in section 258.2 of title 40, Code of Federal Regulations, as in effect on the date of the enactment of this subsection) that receives putrescible waste (as defined in section 257.3-8 of such title) within 6 miles of a public airport that has received grants under chapter 471 and is primarily served by general aviation aircraft and regularly scheduled flights of aircraft designed for 60 passengers or less unless the State aviation agency of the State in which the airport is located requests that the Administrator of the Federal Aviation Administration exempt the landfill from the application of this subsection and the Administrator determines that such exemption would have no adverse impact on aviation safety.

(2) LIMITATION ON APPLICABILITY.—Paragraph (1) shall not apply in the State of Alaska and shall not apply to the construction, establishment, expansion, or modification of, or to any other activity undertaken with respect to, a municipal solid waste landfill if the construction or establishment of the landfill was commenced on or before the date of the enactment of this subsection.

REFERENCES IN TEXT

The date of the enactment of this subsection, referred to in subsec. (d), probably means the date of enactment of Pub. L. 106-181, which amended subsec. (d) generally, and which was approved Apr. 5, 2000.

AMENDMENTS

2000—Subsec. (d). Pub. L. 106-181 amended heading and text of subsec. (d) generally. Prior to amendment, text read as follows: “For the purposes of enhancing aviation safety, in a case in which 2 landfills have been proposed to be constructed or established within 6 miles of a commercial service airport with fewer than 50,000 enplanements per year, no person shall construct or establish either landfill if an official of the Federal Aviation Administration has stated in writing within the 3-year period ending on the date of the enactment of this subsection that 1 of the landfills would be incompatible with aircraft operations at the airport, unless the landfill is already active on such date of enactment or the airport operator agrees to the construction or establishment of the landfill.”

1996—Subsec. (d). Pub. L. 104-264 added subsec. (d).

EFFECTIVE DATE OF 2000 AMENDMENT

Amendment by Pub. L. 106-181 applicable only to fiscal years beginning after Sept. 30, 1999, see section 3 of Pub. L. 106-181, set out as a note under section 106 of this title.

EFFECTIVE DATE OF 1996 AMENDMENT

Except as otherwise specifically provided, amendment by Pub. L. 104-264 applicable only to fiscal years beginning after Sept. 30, 1996, and not to be construed as affecting funds made available for a fiscal year ending before Oct. 1, 1996, see section 3 of Pub. L. 104-264, set out as a note under section 106 of this title.

LANDFILLS INTERFERING WITH AIR COMMERCE

Pub. L. 106-181, title V, §503(a), Apr. 5, 2000, 114 Stat. 133, provided that: “Congress finds that—

- “(1) collisions between aircraft and birds have resulted in fatal accidents;
- “(2) bird strikes pose a special danger to smaller aircraft;
- “(3) landfills near airports pose a potential hazard to aircraft operating there because they attract birds;
- “(4) even if the landfill is not located in the approach path of the airport’s runway, it still poses a hazard because of the birds’ ability to fly away from the landfill and into the path of oncoming planes;
- “(5) while certain mileage limits have the potential to be arbitrary, keeping landfills at least 6 miles away from an airport, especially an airport served by small planes, is an appropriate minimum requirement for aviation safety; and
- “(6) closure of existing landfills (due to concerns about aviation safety) should be avoided because of the likely disruption to those who use and depend on such landfills.”

§ 44719. Standards for navigational aids

The Secretary of Transportation shall prescribe regulations on standards for installing

navigational aids, including airport control towers. For each type of facility, the regulations shall consider at a minimum traffic density (number of aircraft operations without consideration of aircraft size), terrain and other obstacles to navigation, weather characteristics, passengers served, and potential aircraft operating efficiencies.

§ 44720. Meteorological services

(a) RECOMMENDATIONS.—The Administrator of the Federal Aviation Administration shall make recommendations to the Secretary of Commerce on providing meteorological services necessary for the safe and efficient movement of aircraft in air commerce. In providing the services, the Secretary shall cooperate with the Administrator and give complete consideration to those recommendations.

(b) PROMOTING SAFETY AND EFFICIENCY.—To promote safety and efficiency in air navigation to the highest possible degree, the Secretary shall—

- (1) observe, measure, investigate, and study atmospheric phenomena, and maintain meteorological stations and offices, that are necessary or best suited for finding out in advance information about probable weather conditions;
- (2) provide reports to the Administrator to persons engaged in civil aeronautics that are designated by the Administrator and to other persons designated by the Secretary in a way and with a frequency that best will result in safety in, and facilitating, air navigation;
- (3) cooperate with persons engaged in air commerce in meteorological services, maintain reciprocal arrangements with those persons in carrying out this clause, and collect and distribute weather reports available from aircraft in flight;
- (4) maintain and coordinate international exchanges of meteorological information required for the safety and efficiency of air navigation;
- (5) in cooperation with other departments, agencies, and instrumentalities of the United States Government, meteorological services of foreign countries, and persons engaged in air commerce, participate in developing an international basic meteorological reporting network, including the establishment, operation, and maintenance of reporting stations on the high seas, in polar regions, and in foreign countries;
- (6) coordinate meteorological requirements in the United States to maintain standard observations, to promote efficient use of facilities, and to avoid duplication of services unless the duplication tends to promote the safety and efficiency of air navigation; and

(7) promote and develop meteorological science and foster and support research projects in meteorology through the use of private and governmental research facilities and provide for publishing the results of the projects unless publication would not be in the public interest.

§ 44721. Aeronautical charts and related products and services

(a) PUBLICATION.—

(1) IN GENERAL.—The Administrator of the Federal Aviation Administration may arrange for the publication of aeronautical maps and charts necessary for the safe and efficient movement of aircraft in air navigation, using the facilities and assistance of departments, agencies, and instrumentalities of the United States Government as far as practicable.

(2) NAVIGATION ROUTES.—In carrying out paragraph (1), the Administrator shall update and arrange for the publication of clearly defined routes for navigating through a complex terminal airspace area and to and from an airport located in such an area, if the Administrator decides that publication of the routes would promote safety in air navigation. The routes shall be developed in consultation with pilots and other users of affected airports and shall be for the optional use of pilots operating under visual flight rules.

(b) INDEMNIFICATION.—The Government shall make an agreement to indemnify any person that publishes a map or chart for use in aeronautics from any part of a claim arising out of the depiction by the person on the map or chart of a defective or deficient flight procedure or airway if the flight procedure or airway was—

(1) prescribed by the Administrator;

(2) depicted accurately on the map or chart; and

(3) not obviously defective or deficient.

(c) AUTHORITY OF OFFICE OF AERONAUTICAL CHARTING AND CARTOGRAPHY.—Effective October 1, 2000, the Administrator is vested with and shall exercise the functions, powers, and duties of the Secretary of Commerce and other officers of the Department of Commerce that relate to the Office of Aeronautical Charting and Cartography to provide aeronautical charts and related products and services for the safe and efficient navigation of air commerce, under the following authorities:

(1) Sections 1 through 9 of the Act entitled “An Act to define the functions and duties of the Coast and Geodetic Survey, and for other purposes”, approved August 6, 1947,¹ (33 U.S.C. 883a-883h).

(2) Section 6082 of the Consolidated Omnibus Budget Reconciliation Act of 1985 (33 U.S.C. 883j).

(d) AUTHORITY.—In order that full public benefit may be derived from the dissemination of data resulting from activities under this section and of related data from other sources, the Administrator may—

(1) develop, process, disseminate and publish digital and analog data, information, compilations, and reports;

(2) compile, print, and disseminate aeronautical charts and related products and services of the United States and its territories and possessions;

(3) compile, print, and disseminate aeronautical charts and related products and services covering international airspace as are required primarily by United States civil aviation; and

(4) compile, print, and disseminate nonaeronautical navigational, transportation or public-safety-related products and services when in the best interests of the Government.

(e) CONTRACTS, COOPERATIVE AGREEMENTS, GRANTS, AND OTHER AGREEMENTS.—

(1) CONTRACTS.—The Administrator is authorized to contract with qualified organizations for the performance of any part of the authorized functions of the Office of Aeronautical Charting and Cartography when the Administrator deems such procedure to be in the public interest and will not compromise public safety.

(2) COOPERATIVE AGREEMENTS, GRANTS, AND OTHER AGREEMENTS.—The Administrator is authorized to enter into cooperative agreements, grants, reimbursable agreements, memoranda of understanding and other agreements, with a State, subdivision of a State, Federal agency, public or private organization, or individual, to carry out the purposes of this section.

¹ So in original. The comma probably should not appear.

(f) SPECIAL SERVICES AND PRODUCTS.—

(1) IN GENERAL.—The Administrator is authorized, at the request of a State, subdivision of a State, Federal agency, public or private organization, or individual, to conduct special services, including making special studies, or developing special publications or products on matters relating to navigation, transportation, or public safety.

(2) FEES.—The Administrator shall assess a fee for any special service provided under paragraph (1). A fee shall be not more than the actual or estimated full cost of the service. A fee may be reduced or waived for research organizations, educational organizations, or non-profit organizations, when the Administrator determines that reduction or waiver of the fee is in the best interest of the Government by furthering public safety.

(g) SALE AND DISSEMINATION OF AERONAUTICAL PRODUCTS.—

(1) IN GENERAL.—Aeronautical products created or maintained under the authority of this section shall be sold at prices established annually by the Administrator consistent with the following:

(A) MAXIMUM PRICE.—Subject to subparagraph (B), the price of an aeronautical product sold to the public shall be not more than necessary to recover all costs attributable to: (i) data base management and processing; (ii) compilation; (iii) printing or other types of reproduction; and (iv) dissemination of the product.

(B) ADJUSTMENT OF PRICE.—The Administrator shall adjust the price of an aeronautical product and service sold to the public as necessary to avoid any adverse impact on aviation safety attributable to the price specified under this paragraph.

(C) COSTS ATTRIBUTABLE TO ACQUISITION OF AERONAUTICAL DATA.—A price established under this paragraph may not include costs attributable to the acquisition of aeronautical data.

(D) CONTINUATION OF PRICES.—The price of any product created under subsection (d) may correspond to the price of a comparable product produced by a department of the United States Government as that price was in effect on September 30, 2000, and may remain in effect until modified by regulation under section 9701 of title 31, United States Code.

(2) PUBLICATION OF PRICES.—The Administrator shall publish annually the prices at which aeronautical products are sold to the public.

(3) DISTRIBUTION.—The Administrator may distribute aeronautical products and provide aeronautical services—

(A) without charge to each foreign government or international organization with which the Administrator or a Federal department or agency has an agreement for exchange of these products or services without cost;

(B) at prices the Administrator establishes, to the departments and officers of the United States requiring them for official use; and

(C) at reduced or no charge where, in the judgment of the Administrator, furnishing the aeronautical product or service to a recipient is a reasonable exchange for voluntary contribution of information by the recipient to the activities under this section.

(4) FEES.—The fees provided for in this subsection are for the purpose of reimbursing the Government for the costs of creating, printing and disseminating aeronautical products and services under this section. The collection of fees authorized by this section does not alter or expand any duty or liability of the Government under existing law for the performance of functions for which fees are collected, nor does the collection of fees constitute an express or implied undertaking by the Government to perform any activity in a certain manner.

(5) CREDITING AMOUNTS RECEIVED.—Notwithstanding any other provision of law, amounts received for the sale of products created and services performed under this section shall be fully credited to the account of the Federal Aviation Administration that funded the provision of the products or services and shall remain available until expended.

(b) REVOCATION OF CERTIFICATE.—

(1) IN GENERAL.—Except as provided in subsections (f) and (g), the Administrator shall issue an order revoking a certificate issued under this chapter if the Administrator finds that the holder of the certificate or an individual who has a controlling or ownership interest in the holder—

(A) was convicted in a court of law of a violation of a law of the United States relating to the installation, production, repair, or sale of a counterfeit or fraudulently-represented aviation part or material; or

(B) knowingly, and with the intent to defraud, carried out or facilitated an activity punishable under a law described in paragraph (1)(A).

(2) NO AUTHORITY TO REVIEW VIOLATION.—In carrying out paragraph (1), the Administrator may not review whether a person violated a law described in paragraph (1)(A).

(c) NOTICE REQUIREMENT.—Before the Administrator revokes a certificate under subsection (b), the Administrator shall—

(1) advise the holder of the certificate of the reason for the revocation; and

(2) provide the holder of the certificate an opportunity to be heard on why the certificate should not be revoked.

(d) APPEAL.—The provisions of section 44710(d) apply to the appeal of a revocation order under subsection (b). For the purpose of applying that section to the appeal, “person” shall be substituted for “individual” each place it appears.

(e) ACQUITTAL OR REVERSAL.—

(1) IN GENERAL.—The Administrator may not revoke, and the National Transportation Safety Board may not affirm a revocation of, a certificate under subsection (b)(1)(B) if the holder of the certificate or the individual referred to in subsection (b)(1) is acquitted of all charges directly related to the violation.

(2) REISSUANCE.—The Administrator may reissue a certificate revoked under subsection (b) of this section to the former holder if—

(A) the former holder otherwise satisfies the requirements of this chapter for the certificate; and

(B)(i) the former holder or the individual referred to in subsection (b)(1), is acquitted of all charges related to the violation on which the revocation was based; or

(ii) the conviction of the former holder or such individual of the violation on which the revocation was based is reversed.

(f) WAIVER.—The Administrator may waive revocation of a certificate under subsection (b) if—

(1) a law enforcement official of the United States Government requests a waiver; and

(2) the waiver will facilitate law enforcement efforts.

(g) AMENDMENT OF CERTIFICATE.—If the holder of a certificate issued under this chapter is other than an individual and the Administrator finds that—

(1) an individual who had a controlling or ownership interest in the holder committed a violation of a law for the violation of which a certificate may be revoked under this section or knowingly, and with intent to defraud, carried out or facilitated an activity punishable under such a law; and

(2) the holder satisfies the requirements for the certificate without regard to that individual,

then the Administrator may amend the certificate to impose a limitation that the certificate will not be valid if that individual has a controlling or ownership interest in the holder. A decision by the Administrator under this subsection is not reviewable by the Board.

SUBCHAPTER I—REQUIREMENTS

§ 44901. Screening passengers and property

(a) IN GENERAL.—The Under Secretary of Transportation for Security shall provide for

the screening of all passengers and property, including United States mail, cargo, carry-on and checked baggage, and other articles, that will be carried aboard a passenger aircraft operated by an air carrier or foreign air carrier in air transportation or intrastate air transportation. In the case of flights and flight segments originating in the United States, the screening shall take place before boarding and shall be carried out by a Federal Government employee (as defined in section 2105 of title 5, United States Code), except as otherwise provided in section 44919 or 44920 and except for identifying passengers and baggage for screening under the CAPPs and known shipper programs and conducting positive bag-match programs.

(b) SUPERVISION OF SCREENING.—All screening of passengers and property at airports in the United States where screening is required under this section shall be supervised by uniformed Federal personnel of the Transportation Security Administration who shall have the power to order the dismissal of any individual performing such screening.

(c) CHECKED BAGGAGE.—A system must be in operation to screen all checked baggage at all airports in the United States as soon as practicable but not later than the 60th day following the date of enactment of the Aviation and Transportation Security Act.

(d) EXPLOSIVE DETECTION SYSTEMS.—

(1) IN GENERAL.—The Under Secretary of Transportation for Security shall take all necessary action to ensure that—

(A) explosive detection systems are deployed as soon as possible to ensure that all United States airports described in section 44903(c) have sufficient explosive detection systems to screen all checked baggage no later than December 31, 2002, and that as soon as such systems are in place at an airport, all checked baggage at the airport is screened by those systems; and

(B) all systems deployed under subparagraph (A) are fully utilized; and

(C) if explosive detection equipment at an airport is unavailable, all checked baggage is screened by an alternative means.

(2) DEADLINE.—

(A) IN GENERAL.—If, in his discretion or at the request of an airport, the Under Secretary of Transportation for Security determines that the Transportation Security Administration is not able to deploy explosive detection systems required to be deployed under paragraph (1) at all airports where explosive detection systems are required by December 31, 2002, then with respect to each airport for which the Under Secretary makes that determination—

(i) the Under Secretary shall submit to the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Transportation and Infrastructure a detailed plan (which may be submitted in classified form) for the deployment of the number of explosive detection systems at that airport necessary to meet the requirements of paragraph (1) as soon as practicable at that airport but in no event later than December 31, 2003; and

¹ Editorially supplied. Section added by Pub. L. 107-71 without corresponding amendment of chapter analysis.

(ii) the Under Secretary shall take all necessary action to ensure that alternative means of screening all checked baggage is implemented until the requirements of paragraph (1) have been met.

(B) CRITERIA FOR DETERMINATION.—In making a determination under subparagraph (A), the Under Secretary shall take into account—

(i) the nature and extent of the required modifications to the airport's terminal buildings, and the technical, engineering, design and construction issues;

(ii) the need to ensure that such installations and modifications are effective; and

(iii) the feasibility and cost-effectiveness of deploying explosive detection systems in the baggage sorting area or other non-public area rather than the lobby of an airport terminal building.

(C) RESPONSE.—The Under Secretary shall respond to the request of an airport under subparagraph (A) within 14 days of receiving the request. A denial of request shall create no right of appeal or judicial review.

(D) AIRPORT EFFORT REQUIRED.—Each airport with respect to which the Under Secretary makes a determination under subparagraph (A) shall—

(i) cooperate fully with the Transportation Security Administration with respect to screening checked baggage and changes to accommodate explosive detection systems; and

(ii) make security projects a priority for the obligation or expenditure of funds made available under chapter 417 or 471 until explosive detection systems required to be deployed under paragraph (1) have been deployed at that airport.

(3) REPORTS.—Until the Transportation Security Administration has met the requirements of paragraph (1), the Under Secretary shall submit a classified report every 30 days after the date of enactment of this Act to the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Transportation and Infrastructure describing the progress made toward meeting such requirements at each airport.

(e) MANDATORY SCREENING WHERE EDS NOT YET AVAILABLE.—As soon as practicable but not later than the 60th day following the date of enactment of the Aviation and Transportation Security Act and until the requirements of subsection (b)(1)(A) are met, the Under Secretary shall require alternative means for screening any piece of checked baggage that is not screened by an explosive detection system. Such alternative means may include 1 or more of the following:

(1) A bag-match program that ensures that no checked baggage is placed aboard an aircraft unless the passenger who checked the baggage is aboard the aircraft.

(2) Manual search.

(3) Search by canine explosive detection units in combination with other means.

(4) Other means or technology approved by the Under Secretary.

(f) CARGO DEADLINE.—A system must be in operation to screen, inspect, or otherwise ensure the security of all cargo that is to be transported in all-cargo aircraft in air transportation and intrastate air transportation as soon as practicable after the date of enactment of the Aviation and Transportation Security Act.

(g) DEPLOYMENT OF ARMED PERSONNEL.—

(1) IN GENERAL.—The Under Secretary shall order the deployment of law enforcement personnel authorized to carry firearms at each airport security screening location to ensure passenger safety and national security.

(2) MINIMUM REQUIREMENTS.—Except at airports required to enter into agreements under subsection (c), the Under Secretary shall order the deployment of at least 1 law enforcement officer at each airport security screening location. At the 100 largest airports in the United States, in terms of annual passenger enplanements for the most recent calendar year for which data are available, the Under Secretary shall order the deployment of additional law enforcement personnel at airport security screening locations if the Under Secretary determines that the additional deployment is necessary to ensure passenger safety and national security.

(h) EXEMPTIONS AND ADVISING CONGRESS ON REGULATIONS.—The Under Secretary—

(1) may exempt from this section air transportation operations, except scheduled passenger operations of an air carrier providing air transportation under a certificate issued under section 41102 of this title or a permit issued under section 41302 of this title; and

(2) shall advise Congress of a regulation to be prescribed under this section at least 30 days before the effective date of the regulation, unless the Under Secretary decides an emergency exists requiring the regulation to become effective in fewer than 30 days and notifies Congress of that decision.

(1) authorized to carry and use firearms;

(2) vested with the degree of the police power of arrest the Under Secretary of Transportation for Security considers necessary to carry out this section; and

(3) identifiable by appropriate indicia of authority.

(b) PROTECTION AGAINST VIOLENCE AND PIRACY.—The Under Secretary shall prescribe regulations to protect passengers and property on an aircraft operating in air transportation or intrastate air transportation against an act of

criminal violence or aircraft piracy. When prescribing a regulation under this subsection, the Under Secretary shall—

(1) consult with the Secretary of Transportation, the Attorney General, the heads of other departments, agencies, and instrumentalities of the United States Government, and State and local authorities;

When deciding whether additional personnel are needed, the Under Secretary shall consider the number of passengers boarded at the airport, the extent of anticipated risk of criminal violence or aircraft piracy at the airport or to the air carrier aircraft operations at the airport, and the availability of qualified State or local law enforcement personnel at the airport.

(2)(A) The Under Secretary may approve a security program of an airport operator, or an amendment in an existing program, that incorporates a security program of an airport tenant (except an air carrier separately complying with part 108 or 129 of title 14, Code of Federal Regulations) having access to a secured area of the airport, if the program or amendment incorporates—

(i) the measures the tenant will use, within the tenant’s leased areas or areas designated for the tenant’s exclusive use under an agree-

ment with the airport operator, to carry out the security requirements imposed by the Under Secretary on the airport operator under the access control system requirements of section 107.14 of title 14, Code of Federal Regulations, or under other requirements of part 107 of title 14; and

(ii) the methods the airport operator will use to monitor and audit the tenant's compliance with the security requirements and provides that the tenant will be required to pay monetary penalties to the airport operator if the tenant fails to carry out a security requirement under a contractual provision or requirement imposed by the airport operator.

(B) If the Under Secretary approves a program or amendment described in subparagraph (A) of this paragraph, the airport operator may not be found to be in violation of a requirement of this subsection or subsection (b) of this section when the airport operator demonstrates that the tenant or an employee, permittee, or invitee of the tenant is responsible for the violation and that the airport operator has complied with all measures in its security program for securing compliance with its security program for the tenant.

(C) MAXIMUM USE OF CHEMICAL AND BIOLOGICAL WEAPON DETECTION EQUIPMENT.—The Secretary of Transportation may require airports to maximize the use of technology and equipment that is designed to detect or neutralize potential chemical or biological weapons.

(3) PILOT PROGRAMS.—The Administrator shall establish pilot programs in no fewer than 20 airports to test and evaluate new and emerging technology for providing access control and other security protections for closed or secure areas of the airports. Such technology may include biometric or other technology that ensures only authorized access to secure areas.

(d) AUTHORIZING INDIVIDUALS TO CARRY FIREARMS AND MAKE ARRESTS.—With the approval of the Attorney General and the Secretary of State, the Secretary of Transportation may authorize an individual who carries out air transportation security duties—

(1) to carry firearms; and

(2) to make arrests without warrant for an offense against the United States committed in the presence of the individual or for a felony under the laws of the United States, if the individual reasonably believes the individual to be arrested has committed or is committing a felony.

(e) EXCLUSIVE RESPONSIBILITY OVER PASSENGER SAFETY.—The Under Secretary has the exclusive responsibility to direct law enforcement activity related to the safety of passengers on an aircraft involved in an offense under section 46502 of this title from the moment all external doors of the aircraft are closed following boarding until those doors are opened to allow passengers to leave the aircraft. When requested by the Under Secretary, other departments, agencies, and instrumentalities of the Government shall provide assistance necessary to carry out this subsection.

(f) GOVERNMENT AND INDUSTRY CONSORTIA.—The Under Secretary may establish at airports such consortia of government and aviation in-

dustry representatives as the Under Secretary may designate to provide advice on matters related to aviation security and safety. Such consortia shall not be considered Federal advisory committees for purposes of the Federal Advisory Committee Act (5 U.S.C. App.).

(g) IMPROVEMENT OF SECURED-AREA ACCESS CONTROL.—

(1) ENFORCEMENT.—

(A) UNDER SECRETARY TO PUBLISH SANCTIONS.—The Under Secretary shall publish in the Federal Register a list of sanctions for use as guidelines in the discipline of employees for infractions of airport access control requirements. The guidelines shall incorporate a progressive disciplinary approach that relates proposed sanctions to the severity or recurring nature of the infraction and shall include measures such as remedial training, suspension from security-related duties, suspension from all duties without pay, and termination of employment.

(B) USE OF SANCTIONS.—Each airport operator, air carrier, and security screening company shall include the list of sanctions published by the Under Secretary in its security program. The security program shall include a process for taking prompt disciplinary action against an employee who commits an infraction of airport access control requirements.

(2) IMPROVEMENTS.—The Under Secretary shall—

(A) work with airport operators and air carriers to implement and strengthen existing controls to eliminate airport access control weaknesses;

(B) require airport operators and air carriers to develop and implement comprehensive and recurring training programs that teach employees their roles in airport security, the importance of their participation, how their performance will be evaluated, and what action will be taken if they fail to perform;

(C) require airport operators and air carriers to develop and implement programs that foster and reward compliance with airport access control requirements and discourage and penalize noncompliance in accordance with guidelines issued by the Under Secretary to measure employee compliance;

(D) on an ongoing basis, assess and test for compliance with access control requirements, report annually findings of the assessments, and assess the effectiveness of penalties in ensuring compliance with security procedures and take any other appropriate enforcement actions when noncompliance is found;

(E) improve and better administer the Under Secretary's security database to ensure its efficiency, reliability, and usefulness for identification of systemic problems and allocation of resources;

(F) improve the execution of the Under Secretary's quality control program; and

(G) work with airport operators to strengthen access control points in secured areas (including air traffic control oper-

ations areas, maintenance areas, crew lounges, baggage handling areas, concessions, and catering delivery areas) to ensure the security of passengers and aircraft and consider the deployment of biometric or similar technologies that identify individuals based on unique personal characteristics.

(h) IMPROVED AIRPORT PERIMETER ACCESS SECURITY.—

(1) IN GENERAL.—The Under Secretary, in consultation with the airport operator and law enforcement authorities, may order the deployment of such personnel at any secure area of the airport as necessary to counter the risk of criminal violence, the risk of aircraft piracy at the airport, the risk to air carrier aircraft operations at the airport, or to meet national security concerns.

(2) SECURITY OF AIRCRAFT AND GROUND ACCESS TO SECURE AREAS.—In determining where to deploy such personnel, the Under Secretary shall consider the physical security needs of air traffic control facilities, parked aircraft, aircraft servicing equipment, aircraft supplies (including fuel), automobile parking facilities within airport perimeters or adjacent to secured facilities, and access and transition areas at airports served by other means of ground or water transportation.

(3) DEPLOYMENT OF FEDERAL LAW ENFORCEMENT PERSONNEL.—The Secretary may enter into a memorandum of understanding or other agreement with the Attorney General or the head of any other appropriate Federal law enforcement agency to deploy Federal law enforcement personnel at an airport in order to meet aviation safety and security concerns.

(4) AIRPORT PERIMETER SCREENING.—The Under Secretary—

(A) shall require, as soon as practicable after the date of enactment of this subsection, screening or inspection of all individuals, goods, property, vehicles, and other equipment before entry into a secured area of an airport in the United States described in section 44903(c);

(B) shall prescribe specific requirements for such screening and inspection that will assure at least the same level of protection as will result from screening of passengers and their baggage;

(C) shall establish procedures to ensure the safety and integrity of—

(i) all persons providing services with respect to aircraft providing passenger air transportation or intrastate air transportation and facilities of such persons at an airport in the United States described in section 44903(c);

(ii) all supplies, including catering and passenger amenities, placed aboard such aircraft, including the sealing of supplies to ensure easy visual detection of tampering; and

(iii) all persons providing such supplies and facilities of such persons;

(D) shall require vendors having direct access to the airfield and aircraft to develop security programs; and

(E) shall issue, not later than March 31, 2005, guidance for the use of biometric or other technology that positively verifies the identity of each employee and law enforcement officer who enters a secure area of an airport.

(5) USE OF BIOMETRIC TECHNOLOGY IN AIRPORT ACCESS CONTROL SYSTEMS.—In issuing guidance under paragraph (4)(E), the Assistant Secretary of Homeland Security (Transportation Security Administration) in consultation with representatives of the aviation industry, the biometric identifier industry, and the National Institute of Standards and Technology, shall establish, at a minimum—

(A) comprehensive technical and operational system requirements and performance standards for the use of biometric identifier technology in airport access control systems (including airport perimeter access control systems) to ensure that the biometric identifier systems are effective, reliable, and secure;

(B) a list of products and vendors that meet the requirements and standards set forth in subparagraph (A);

(C) procedures for implementing biometric identifier systems—

(i) to ensure that individuals do not use an assumed identity to enroll in a biometric identifier system; and

(ii) to resolve failures to enroll, false matches, and false non-matches; and

(D) best practices for incorporating biometric identifier technology into airport access control systems in the most effective manner, including a process to best utilize existing airport access control systems, facilities, and equipment and existing data networks connecting airports.

(6) USE OF BIOMETRIC TECHNOLOGY FOR LAW ENFORCEMENT OFFICER TRAVEL.—

(A) IN GENERAL.—Not later than 120 days after the date of enactment of this paragraph, the Assistant Secretary, in consultation with the Attorney General, shall—

(i) establish a law enforcement officer travel credential that incorporates biometric identifier technology and is uniform across all Federal, State, local, tribal, and territorial government law enforcement agencies;

(ii) establish a process by which the travel credential will be used to verify the identity of a Federal, State, local, tribal, or territorial law enforcement officer seeking to carry a weapon on board an aircraft, without unnecessarily disclosing to the public that the individual is a law enforcement officer;

(iii) establish procedures—

(I) to ensure that only Federal, State, local, tribal, and territorial government law enforcement officers are issued a law enforcement travel credential;

(II) to resolve failures to enroll, false matches, and false non-matches relating to use of the law enforcement travel credential; and

(III) to invalidate any law enforcement travel credential that is lost, stolen, or no longer authorized for use;

(iv) begin issuance of the travel credential to each Federal, State, local, tribal, or territorial government law enforcement officer authorized by the Assistant Secretary to carry a weapon on board an aircraft; and

(v) take such other actions with respect to the travel credential as the Assistant Secretary considers appropriate.

(i) AUTHORITY TO ARM FLIGHT DECK CREW WITH LESS-THAN-LETHAL WEAPONS.—

(1) IN GENERAL.—If the Under Secretary, after receiving the recommendations of the National Institute of Justice, determines, with the approval of the Attorney General and the Secretary of State, that it is appropriate and necessary and would effectively serve the public interest in avoiding air piracy, the Under Secretary may authorize members of the flight deck crew on any aircraft providing air transportation or intrastate air transportation to carry a less-than-lethal weapon while the aircraft is engaged in providing such transportation.

(2) USAGE.—If the Under Secretary grants authority under paragraph (1) for flight deck

crew members to carry a less-than-lethal weapon while engaged in providing air transportation or intrastate air transportation, the Under Secretary shall—

(2) COMPUTER-ASSISTED PASSENGER PRE-SCREENING SYSTEM.—

(A) IN GENERAL.—The Secretary of Transportation shall ensure that the Computer-Assisted Passenger Prescreening System, or any successor system—

(i) is used to evaluate all passengers before they board an aircraft; and

(ii) includes procedures to ensure that individuals selected by the system and their carry-on and checked baggage are adequately screened.

(B) MODIFICATIONS.—The Secretary of Transportation may modify any requirement under the Computer-Assisted Passenger Prescreening System for flights that originate and terminate within the same State, if the Secretary determines that—

(i) the State has extraordinary air transportation needs or concerns due to its isolation and dependence on air transportation; and

(ii) the routine characteristics of passengers, given the nature of the market, regularly triggers primary selectee status.

(C) ADVANCED AIRLINE PASSENGER PRESCREENING.—

(i) COMMENCEMENT OF TESTING.—Not later than January 1, 2005, the Assistant Secretary of Homeland Security (Transportation Security Administration), or the designee of the Assistant Secretary, shall commence testing of an advanced passenger prescreening system that will allow the Department of Homeland Security to assume the performance of comparing passenger information, as defined by the Assistant Secretary, to the automatic selectee and no fly lists, utilizing all appropriate records in the consolidated and integrated terrorist watchlist maintained by the Federal Government.

(ii) ASSUMPTION OF FUNCTION.—Not later than 180 days after completion of testing under clause (i), the Assistant Secretary, or the designee of the Assistant Secretary, shall begin to assume the performance of the passenger prescreening function of comparing passenger information to the automatic selectee and no fly lists and utilize all appropriate records in the consolidated and integrated terrorist watchlist maintained by the Federal Government in performing that function.

(iii) REQUIREMENTS.—In assuming performance of the function under clause (ii), the Assistant Secretary shall—

(I) establish a procedure to enable airline passengers, who are delayed or prohibited from boarding a flight because the advanced passenger prescreening system determined that they might pose a security threat, to appeal such determination and correct information contained in the system;

(II) ensure that Federal Government databases that will be used to establish the identity of a passenger under the system will not produce a large number of false positives;

(III) establish an internal oversight board to oversee and monitor the manner in which the system is being implemented;

(IV) establish sufficient operational safeguards to reduce the opportunities for abuse;

(V) implement substantial security measures to protect the system from unauthorized access;

(VI) adopt policies establishing effective oversight of the use and operation of the system; and

(VII) ensure that there are no specific privacy concerns with the technological architecture of the system.

(iv) PASSENGER INFORMATION.—Not later than 180 days after the completion of the testing of the advanced passenger prescreening system, the Assistant Secretary, by order or interim final rule—

(I) shall require air carriers to supply to the Assistant Secretary the passenger information needed to begin implementing the advanced passenger prescreening system; and

(II) shall require entities that provide systems and services to air carriers in the operation of air carrier reservations systems to provide to air carriers passenger information in possession of such entities, but only to the extent necessary to comply with subclause (I).

(D) SCREENING OF EMPLOYEES AGAINST WATCHLIST.—The Assistant Secretary of Homeland Security (Transportation Security Administration), in coordination with the Secretary of Transportation and the Administrator of the Federal Aviation Administration, shall ensure that individuals are screened against all appropriate records in the consolidated and integrated terrorist watchlist maintained by the Federal Government before—

(i) being certificated by the Federal Aviation Administration;

(ii) being granted unescorted access to the secure area of an airport; or

(iii) being granted unescorted access to the air operations area (as defined in section 1540.5 of title 49, Code of Federal Regulations, or any successor regulation to such section) of an airport.

(E) AIRCRAFT CHARTER CUSTOMER AND LESSEE PRESREENING.—

(i) IN GENERAL.—Not later than 90 days after the date on which the Assistant Secretary assumes the performance of the advanced passenger prescreening function under subparagraph (C)(ii), the Assistant Secretary shall establish a process by which operators of aircraft to be used in charter air transportation with a maximum takeoff weight greater than 12,500 pounds and lessors of aircraft with a maximum takeoff weight greater than 12,500 pounds may—

(I) request the Department of Homeland Security to use the advanced passenger prescreening system to compare information about any individual seeking to charter an aircraft with a maximum takeoff weight greater than 12,500 pounds, any passenger proposed to be transported aboard such aircraft, and any individual seeking to lease an aircraft with a maximum takeoff weight greater than 12,500 pounds to the automatic selectee and no fly lists, utilizing all appropriate records in the consolidated and integrated terrorist watchlist maintained by the Federal Government; and

(II) refuse to charter or lease an aircraft with a maximum takeoff weight greater than 12,500 pounds to or transport aboard such aircraft any persons identified on such watch list.

(ii) REQUIREMENTS.—The requirements of subparagraph (C)(iii) shall apply to this subparagraph.

(ii) RECORDS.—The process shall include the establishment of a method by which the Assistant Secretary will be able to maintain a record of air passengers and other individuals who have been misidentified and have corrected erroneous information. To prevent repeated delays of misidentified passengers and other individuals, the Transportation Security Administration record shall contain information determined by the Assistant Secretary to authenticate the identity of such a passenger or individual.

(H) DEFINITION.—In this paragraph, the term “secure area of an airport” means the sterile area and the Secure Identification Display Area of an airport (as such terms are defined in section 1540.5 of title 49, Code of Federal Regulations, or any successor regulation to such section).

(k) LIMITATION ON LIABILITY FOR ACTS TO THWART CRIMINAL VIOLENCE OR AIRCRAFT PIRACY.—An individual shall not be liable for damages in any action brought in a Federal or State court arising out of the acts of the individual in attempting to thwart an act of criminal violence or piracy on an aircraft if that individual reasonably believed that such an act of criminal violence or piracy was occurring or was about to occur.

(l) AIR CHARTER PROGRAM.—

(1) IN GENERAL.—The Under Secretary for Border and Transportation Security of the Department of Homeland Security shall implement an aviation security program for charter air carriers (as defined in section 40102(a)) with a maximum certificated takeoff weight of more than 12,500 pounds.

(2) EXEMPTION FOR ARMED FORCES CHARTERS.—

(A) IN GENERAL.—Paragraph (1) and the other requirements of this chapter do not apply to passengers and property carried by aircraft when employed to provide charter transportation to members of the armed forces.

(B) SECURITY PROCEDURES.—The Secretary of Defense, in consultation with the Secretary of Homeland Security and the Secretary of Transportation, shall establish security procedures relating to the operation of aircraft when employed to provide charter transportation to members of the armed forces to or from an airport described in section 44903(c).

(C) ARMED FORCES DEFINED.—In this paragraph, the term “armed forces” has the meaning given that term by section 101(a)(4) of title 10.

“(4) the Secretary of Homeland Security has established an internal oversight board to oversee and monitor the manner in which CAPPS2 is being implemented;

The Under Secretary shall not approve a security program of a foreign air carrier under section 129.25, or any successor regulation, unless the security program requires the foreign air carrier in its operations to and from airports in the United States to adhere to the identical security measures that the Under Secretary requires air carriers serving the same airports to adhere to. The foregoing requirement shall not be interpreted to limit the ability of the Under Secretary to impose additional security measures on a foreign air carrier or an air carrier when the Under Secretary determines that a specific threat warrants such additional measures. The Under Secretary shall prescribe regulations to carry out this section.

TRANSFER OF FUNCTIONS

For transfer of functions, personnel, assets, and liabilities of the Transportation Security Administration of the Department of Transportation, including the functions of the Secretary of Transportation, and of the Under Secretary of Transportation for Security, relating thereto, to the Secretary of Homeland Security, and for treatment of related references, see sections 203(2), 551(d), 552(d), and 557 of Title 6, Domestic Security, and the Department of Homeland Security Reorganization Plan of November 25, 2002, as modified, set out as a note under section 542 of Title 6.

§ 44907. Security standards at foreign airports

(a) ASSESSMENT.—(1) At intervals the Secretary of Transportation considers necessary, the Secretary shall assess the effectiveness of the security measures maintained at—

- (A) a foreign airport—
 - (i) served by an air carrier;
 - (ii) from which a foreign air carrier serves the United States; or
 - (iii) that poses a high risk of introducing danger to international air travel; and

(B) other foreign airports the Secretary considers appropriate.

(2) The Secretary of Transportation shall conduct an assessment under paragraph (1) of this subsection—

- (A) in consultation with appropriate aeronautic authorities of the government of a foreign country concerned and each air carrier

serving the foreign airport for which the Secretary is conducting the assessment;

(B) to establish the extent to which a foreign airport effectively maintains and carries out security measures; and

(C) by using a standard that will result in an analysis of the security measures at the airport based at least on the standards and appropriate recommended practices contained in Annex 17 to the Convention on International Civil Aviation in effect on the date of the assessment.

(3) Each report to Congress required under section 44938(b) of this title shall contain a summary of the assessments conducted under this subsection.

(b) CONSULTATION.—In carrying out subsection (a) of this section, the Secretary of Transportation shall consult with the Secretary of State—

(1) on the terrorist threat that exists in each country; and

(2) to establish which foreign airports are not under the de facto control of the government of the foreign country in which they are located and pose a high risk of introducing danger to international air travel.

(c) NOTIFYING FOREIGN AUTHORITIES.—When the Secretary of Transportation, after conducting an assessment under subsection (a) of this section, decides that an airport does not maintain and carry out effective security measures, the Secretary of Transportation, after advising the Secretary of State, shall notify the appropriate authorities of the government of the foreign country of the decision and recommend the steps necessary to bring the security measures in use at the airport up to the standard used by the Secretary of Transportation in making the assessment.

(d) ACTIONS WHEN AIRPORTS NOT MAINTAINING AND CARRYING OUT EFFECTIVE SECURITY MEASURES.—(1) When the Secretary of Transportation decides under this section that an airport does not maintain and carry out effective security measures—

(A) the Secretary of Transportation shall—

- (i) publish the identity of the airport in the Federal Register;
- (ii) have the identity of the airport posted and displayed prominently at all United States airports at which scheduled air carrier operations are provided regularly; and
- (iii) notify the news media of the identity of the airport;

(B) each air carrier and foreign air carrier providing transportation between the United States and the airport shall provide written notice of the decision, on or with the ticket, to each passenger buying a ticket for transportation between the United States and the airport;

(C) notwithstanding section 40105(b) of this title, the Secretary of Transportation, after consulting with the appropriate aeronautic authorities of the foreign country concerned and each air carrier serving the airport and with the approval of the Secretary of State, may withhold, revoke, or prescribe conditions on the operating authority of an air carrier or

foreign air carrier that uses that airport to provide foreign air transportation; and

(D) the President may prohibit an air carrier or foreign air carrier from providing transportation between the United States and any other foreign airport that is served by aircraft flying to or from the airport with respect to which a decision is made under this section.

(2)(A) Paragraph (1) of this subsection becomes effective—

(i) 90 days after the government of a foreign country is notified under subsection (c) of this section if the Secretary of Transportation finds that the government has not brought the security measures at the airport up to the standard the Secretary used in making an assessment under subsection (a) of this section; or

(ii) immediately on the decision of the Secretary of Transportation under subsection (c) of this section if the Secretary of Transportation decides, after consulting with the Secretary of State, that a condition exists that threatens the safety or security of passengers, aircraft, or crew traveling to or from the airport.

(B) The Secretary of Transportation immediately shall notify the Secretary of State of a decision under subparagraph (A)(ii) of this paragraph so that the Secretary of State may issue a travel advisory required under section 44908(a) of this title.

(3) The Secretary of Transportation promptly shall submit to Congress a report (and classified annex if necessary) on action taken under paragraph (1) or (2) of this subsection, including information on attempts made to obtain the cooperation of the government of a foreign country in meeting the standard the Secretary used in assessing the airport under subsection (a) of this section.

(4) An action required under paragraph (1)(A) and (B) of this subsection is no longer required only if the Secretary of Transportation, in consultation with the Secretary of State, decides that effective security measures are maintained and carried out at the airport. The Secretary of Transportation shall notify Congress when the action is no longer required to be taken.

(e) **SUSPENSIONS.**—Notwithstanding sections 40105(b) and 40106(b) of this title, the Secretary of Transportation, with the approval of the Secretary of State and without notice or a hearing, shall suspend the right of an air carrier or foreign air carrier to provide foreign air transportation, and the right of a person to operate aircraft in foreign air commerce, to or from a foreign airport when the Secretary of Transportation decides that—

(1) a condition exists that threatens the safety or security of passengers, aircraft, or crew traveling to or from that airport; and

(2) the public interest requires an immediate suspension of transportation between the United States and that airport.

(f) **CONDITION OF CARRIER AUTHORITY.**—This section is a condition to authority the Secretary of Transportation grants under this part to an air carrier or foreign air carrier.

RESEARCH AND DEVELOPMENT OF AVIATION SECURITY TECHNOLOGY

Pub. L. 107-71, title I, §137, Nov. 19, 2001, 115 Stat. 637, provided that:

“(a) FUNDING.—To augment the programs authorized in section 44912(a)(1) of title 49, United States Code, there is authorized to be appropriated an additional \$50,000,000 for each of fiscal years 2002 through 2006 and such sums as are necessary for each fiscal year thereafter to the Transportation Security Administration, for research, development, testing, and evaluation of the following technologies which may enhance aviation security in the future. Grants to industry, academia, and Government entities to carry out the provisions of this section shall be available for fiscal years 2002 and 2003 for—

“(1) the acceleration of research, development, testing, and evaluation of explosives detection technology for checked baggage, specifically, technology that is—

“(A) more cost-effective for deployment for explosives detection in checked baggage at small- to medium-sized airports, and is currently under development as part of the Argus research program at the Transportation Security Administration;

“(B) faster, to facilitate screening of all checked baggage at larger airports; or

“(C) more accurate, to reduce the number of false positives requiring additional security measures;

“(2) acceleration of research, development, testing, and evaluation of new screening technology for carry-on items to provide more effective means of detecting and identifying weapons, explosives, and components of weapons of mass destruction, including advanced x-ray technology;

“(3) acceleration of research, development, testing, and evaluation of threat screening technology for

other categories of items being loaded onto aircraft, including cargo, catering, and duty-free items;

TERMINATION OF ADVISORY PANELS

Advisory panels established after Jan. 5, 1973, to terminate not later than expiration of 2-year period beginning on the date of their establishment, unless, in the case of a panel established by the President or an officer of the Federal Government, such panel is renewed by appropriate action prior to expiration of such 2-year period, or in the case of a panel established by Congress, its duration is otherwise provided for by law. See sections 3(2) and 14 of Pub. L. 92–463, Oct. 6, 1972, 86 Stat. 770, 776, set out in the Appendix to Title 5, Government Organization and Employees.

§ 44913. Explosive detection

(a) DEPLOYMENT AND PURCHASE OF EQUIPMENT.—(1) A deployment or purchase of explosive detection equipment under section 108.7(b)(8) or 108.20 of title 14, Code of Federal

Regulations, or similar regulation is required only if the Under Secretary of Transportation for Security certifies that the equipment alone, or as part of an integrated system, can detect under realistic air carrier operating conditions the amounts, configurations, and types of explosive material that would likely be used to cause catastrophic damage to commercial aircraft. The Under Secretary shall base the certification on the results of tests conducted under protocols developed in consultation with expert scientists outside of the Transportation Security Administration. Those tests shall be completed not later than April 16, 1992.

(2) Before completion of the tests described in paragraph (1) of this subsection, but not later than April 16, 1992, the Under Secretary may require deployment of explosive detection equipment described in paragraph (1) if the Under Secretary decides that deployment will enhance aviation security significantly. In making that decision, the Under Secretary shall consider factors such as the ability of the equipment alone, or as part of an integrated system, to detect under realistic air carrier operating conditions the amounts, configurations, and types of explosive material that would likely be used to cause catastrophic damage to commercial aircraft. The Under Secretary shall notify the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives of a deployment decision made under this paragraph.

(3) Until such time as the Under Secretary determines that equipment certified under paragraph (1) is commercially available and has successfully completed operational testing as provided in paragraph (1), the Under Secretary shall facilitate the deployment of such approved commercially available explosive detection devices as the Under Secretary determines will enhance aviation security significantly. The Under Secretary shall require that equipment deployed under this paragraph be replaced by equipment certified under paragraph (1) when equipment certified under paragraph (1) becomes commercially available. The Under Secretary is authorized, based on operational considerations at individual airports, to waive the required installation of commercially available equipment under paragraph (1) in the interests of aviation security. The Under Secretary may permit the requirements of this paragraph to be met at airports by the deployment of dogs or other appropriate animals to supplement equipment for screening passengers, baggage, mail, or cargo for explosives or weapons.

(4) This subsection does not prohibit the Under Secretary from purchasing or deploying explosive detection equipment described in paragraph (1) of this subsection.

(b) GRANTS.—The Secretary of Transportation may provide grants to continue the Explosive Detection K-9 Team Training Program to detect explosives at airports and on aircraft.

(2) the Secretary has not directed, within 30 days after being notified under paragraph (1), that person not to provide the requested training because the Secretary has determined that the individual presents a risk to aviation or national security.

(b) **INTERRUPTION OF TRAINING.**—If the Secretary of Homeland Security, more than 30 days after receiving notification under subsection (a) from a person providing training described in subsection (a), determines that the individual presents a risk to aviation or national security, the Secretary shall immediately notify the person providing the training of the determination and that person shall immediately terminate the training.

(c) **NOTIFICATION.**—A person operating as a flight instructor, pilot school, or aviation training center or subject to regulation under this part may provide training in the operation of any aircraft having a maximum certificated takeoff weight of 12,500 pounds or less to an alien (as defined in section 101(a)(3) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(3))) or to any other individual specified by the Secretary of Homeland Security only if that person has notified the Secretary that the individual has requested such training and furnished the Secretary with that individual’s identification in such form as the Secretary may require.

(f) NONAPPLICABILITY TO CERTAIN FOREIGN MILITARY PILOTS.—The procedures and processes required by subsections (a) through (d) shall not apply to a foreign military pilot endorsed by the Department of Defense for flight training in the United States and seeking training described in subsection (e) in the United States.

(1) PASSENGER FEES.—The Under Secretary of Transportation for Security shall impose a uniform fee, on passengers of air carriers and foreign air carriers in air transportation and intrastate air transportation originating at airports in the United States, to pay for the following costs of providing civil aviation security services:

(A) Salary, benefits, overtime, retirement and other costs of screening personnel, their

supervisors and managers, and Federal law enforcement personnel deployed at airport security screening locations under section 44901.

(B) The costs of training personnel described in subparagraph (A), and the acquisition, operation, and maintenance of equipment used by such personnel.

(C) The costs of performing background investigations of personnel described in subparagraphs (A), (D), (F), and (G).

(D) The costs of the Federal air marshals program.

(E) The costs of performing civil aviation security research and development under this title.

The amount of such costs shall be determined by the Under Secretary and shall not be subject to judicial review. For purposes of subparagraph (A), the term "Federal law enforcement personnel" includes State and local law enforcement officers who are deputized under section 44922.

(2) AIR CARRIER FEES.—

(A) AUTHORITY.—In addition to the fee imposed pursuant to paragraph (1), and only to the extent that the Under Secretary estimates that such fee will be insufficient to pay for the costs of providing civil aviation security services described in paragraph (1), the Under Secretary may impose a fee on air carriers and foreign air carriers engaged in air transportation and intrastate air transportation to pay for the difference between any such costs and the amount collected from such fee, as estimated by the Under Secretary at the beginning of each fiscal year. The estimates of the Under Secretary under this subparagraph are not subject to judicial review.

(B) LIMITATIONS.—

(i) OVERALL LIMIT.—The amounts of fees collected under this paragraph for each fiscal year may not exceed, in the aggregate, the amounts paid in calendar year 2000 by carriers described in subparagraph (A) for screening passengers and property, as determined by the Under Secretary.

(ii) PER-CARRIER LIMIT.—The amount of fees collected under this paragraph from an air carrier described in subparagraph (A) for each of fiscal years 2002, 2003, and 2004 may not exceed the amount paid in calendar year 2000 by that carrier for screening passengers and property, as determined by the Under Secretary.

(iii) ADJUSTMENT OF PER-CARRIER LIMIT.—For fiscal year 2005 and subsequent fiscal years, the per-carrier limitation under clause (ii) may be determined by the Under Secretary on the basis of market share or any other appropriate measure in lieu of

actual screening costs in calendar year 2000.

(iv) FINALITY OF DETERMINATIONS.—Determinations of the Under Secretary under this subparagraph are not subject to judicial review.

(C) SPECIAL RULE FOR FISCAL YEAR 2002.—The amount of fees collected under this paragraph from any carrier for fiscal year 2002 may not exceed the amounts paid by that carrier for screening passengers and property for a period of time in calendar year 2000 proportionate to the period of time in fiscal year 2002 during which fees are collected under this paragraph.

(b) SCHEDULE OF FEES.—In imposing fees under subsection (a), the Under Secretary shall ensure that the fees are reasonably related to the Transportation Security Administration's costs of providing services rendered.

(c) LIMITATION ON FEE.—Fees imposed under subsection (a)(1) may not exceed \$2.50 per enplanement in air transportation or intrastate air transportation that originates at an airport in the United States, except that the total amount of such fees may not exceed \$5.00 per one-way trip.

(d) IMPOSITION OF FEE.—

(1) IN GENERAL.—Notwithstanding section 9701 of title 31 and the procedural requirements of section 553 of title 5, the Under Secretary shall impose the fee under subsection (a)(1), and may impose a fee under subsection (a)(2), through the publication of notice of such fee in the Federal Register and begin collection of the fee within 60 days of the date of enactment of this Act, or as soon as possible thereafter.

(2) SPECIAL RULES PASSENGER FEES.—A fee imposed under subsection (a)(1) through the procedures under subsection (d) shall apply only to tickets sold after the date on which such fee is imposed. If a fee imposed under subsection (a)(1) through the procedures under subsection (d) on transportation of a passenger of a carrier described in subsection (a)(1) is not collected from the passenger, the amount of the fee shall be paid by the carrier.

(3) SUBSEQUENT MODIFICATION OF FEE.—After imposing a fee in accordance with paragraph (1), the Under Secretary may modify, from time to time through publication of notice in the Federal Register, the imposition or collection of such fee, or both.

(4) LIMITATION ON COLLECTION.—No fee may be collected under this section except to the extent that the expenditure of the fee to pay the costs of activities and services for which the fee is imposed is provided for in advance in an appropriations Act or in section 44923.

(e) ADMINISTRATION OF FEES.—

(1) FEES PAYABLE TO UNDER SECRETARY.—All fees imposed and amounts collected under this section are payable to the Under Secretary.

(2) FEES COLLECTED BY AIR CARRIER.—A fee imposed under subsection (a)(1) shall be collected by the air carrier or foreign air carrier that sells a ticket for transportation described in subsection (a)(1).

(3) DUE DATE FOR REMITTANCE.—A fee collected under this section shall be remitted on

the last day of each calendar month by the carrier collecting the fee. The amount to be remitted shall be for the calendar month preceding the calendar month in which the remittance is made.

(4) INFORMATION.—The Under Secretary may require the provision of such information as the Under Secretary decides is necessary to verify that fees have been collected and remitted at the proper times and in the proper amounts.

(5) FEE NOT SUBJECT TO TAX.—For purposes of section 4261 of the Internal Revenue Code of 1986 (26 U.S.C. 4261), a fee imposed under this section shall not be considered to be part of the amount paid for taxable transportation.

(6) COST OF COLLECTING FEE.—No portion of the fee collected under this section may be retained by the air carrier or foreign air carrier for the costs of collecting, handling, or remitting the fee except for interest accruing to the carrier after collection and before remittance.

(f) RECEIPTS CREDITED AS OFFSETTING COLLECTIONS.—Notwithstanding section 3302 of title 31, any fee collected under this section—

(1) shall be credited as offsetting collections to the account that finances the activities and services for which the fee is imposed;

(2) shall be available for expenditure only to pay the costs of activities and services for which the fee is imposed; and

(3) shall remain available until expended.

(g) REFUNDS.—The Under Secretary may refund any fee paid by mistake or any amount paid in excess of that required.

(h) EXEMPTIONS.—The Under Secretary may exempt from the passenger fee imposed under subsection (a)(1) any passenger enplaning at an airport in the United States that does not receive screening services under section 44901 for that segment of the trip for which the passenger does not receive screening.

In subsection (b), the text of 49 App.:1481 (4th sentence words after last comma) is omitted as obsolete. The words “National Transportation Safety Board” were substituted for “Board” in 49 App.:1481 (4th sentence) because 49 App.:1655(d) transferred all functions, duties, and powers of the Civil Aeronautics Board under titles VI and VII of the Federal Aviation Act of 1958 (Public Law 85-726, 72 Stat. 775) to the Secretary of Transportation to be carried out through the former National Transportation Safety Board in the Department of Transportation. The action shall conform as nearly as practicable to a civil action in admiralty, regardless of the place an aircraft in a civil action in rem is seized. However, a party may demand a jury trial of an issue of fact in an action involving a civil penalty under this chapter (except a penalty imposed by the Secretary of Transportation that formerly was imposed by the Civil Aeronautics Board) if the value of the matter in controversy is more than \$20. Issues of fact tried by a jury may be reexamined only under common law rules.

The text of 49 App.:1473(b)(4) is omitted because of 28:ch. 131. The words “imposed or assessed” are omitted as surplus. The words “bringing a civil action” are substituted for “proceedings in personam”, the words “civil action in rem” are substituted for “proceedings in rem”, and the words “civil action” are substituted for “civil suits”, for consistency in the revised title and with other titles of the United States Code and the Federal Rules of Civil Procedure (28 App. U.S.C.). The words “regardless of the place an aircraft in a civil action in rem is seized” are substituted for 49 App.:1473(b)(1) (last sentence) to eliminate unnecessary words. The word “civil” is added after “involving a” for clarity. The words “(except a penalty imposed by the

Secretary of Transportation that formerly was imposed by the Civil Aeronautics Board)” are substituted for “other than those assessed by the Board” because the Civil Aeronautics Board went out of existence and its duties and powers were transferred to the Secretary of Transportation.

SUBCHAPTER I—AIRPORT IMPROVEMENT

§ 47101. Policies

(a) GENERAL.—It is the policy of the United States—

(1) that the safe operation of the airport and airway system is the highest aviation priority;

(2) that aviation facilities be constructed and operated to minimize current and projected noise impact on nearby communities;

(3) to give special emphasis to developing reliever airports;

(4) that appropriate provisions should be made to make the development and enhancement of cargo hub airports easier;

(5) to encourage the development of intermodal connections on airport property between aeronautical and other transportation modes and systems to serve air transportation passengers and cargo efficiently and effectively and promote economic development;

(6) that airport development projects under this subchapter provide for the protection and enhancement of natural resources and the quality of the environment of the United States;

(7) that airport construction and improvement projects that increase the capacity of facilities to accommodate passenger and cargo traffic be undertaken to the maximum feasible extent so that safety and efficiency increase and delays decrease;

(8) to ensure that nonaviation usage of the navigable airspace be accommodated but not allowed to decrease the safety and capacity of the airspace and airport system;

(9) that artificial restrictions on airport capacity—

(A) are not in the public interest;

(B) should be imposed to alleviate air traffic delays only after other reasonably avail-

able and less burdensome alternatives have been tried; and

(C) should not discriminate unjustly between categories and classes of aircraft;

(10) that special emphasis should be placed on converting appropriate former military air bases to civil use and identifying and improving additional joint-use facilities;

(11) that the airport improvement program should be administered to encourage projects that employ innovative technology (including integrated in-pavement lighting systems for runways and taxiways and other runway and taxiway incursion prevention devices), concepts, and approaches that will promote safety, capacity, and efficiency improvements in the construction of airports and in the air transportation system (including the development and use of innovative concrete and other materials in the construction of airport facilities to minimize initial laydown costs, minimize time out of service, and maximize lifecycle durability) and to encourage and solicit innovative technology proposals and activities in the expenditure of funding pursuant to this subchapter;

(12) that airport fees, rates, and charges must be reasonable and may only be used for purposes not prohibited by this subchapter; and

(13) that airports should be as self-sustaining as possible under the circumstances existing at each particular airport and in establishing new fees, rates, and charges, and generating revenues from all sources, airport owners and operators should not seek to create revenue surpluses that exceed the amounts to be used for airport system purposes and for other purposes for which airport revenues may be spent under section 47107(b)(1) of this title, including reasonable reserves and other funds to facilitate financing and cover contingencies.

(b) NATIONAL TRANSPORTATION POLICY.—(1) It is a goal of the United States to develop a national intermodal transportation system that transports passengers and property in an efficient manner. The future economic direction of the United States depends on its ability to confront directly the enormous challenges of the global economy, declining productivity growth, energy vulnerability, air pollution, and the need to rebuild the infrastructure of the United States.

(2) United States leadership in the world economy, the expanding wealth of the United States, the competitiveness of the industry of the United States, the standard of living, and the quality of life are at stake.

(3) A national intermodal transportation system is a coordinated, flexible network of diverse but complementary forms of transportation that transports passengers and property in the most efficient manner. By reducing transportation costs, these intermodal systems will enhance the ability of the industry of the United States to compete in the global marketplace.

(4) All forms of transportation, including aviation and other transportation systems of the future, will be full partners in the effort to reduce energy consumption and air pollution while promoting economic development.

(5) An intermodal transportation system consists of transportation hubs that connect different forms of appropriate transportation and provides users with the most efficient means of transportation and with access to commercial centers, business locations, population centers, and the vast rural areas of the United States, as well as providing links to other forms of transportation and to intercity connections.

(6) Intermodality and flexibility are paramount issues in the process of developing an integrated system that will obtain the optimum yield of United States resources.

(7) The United States transportation infrastructure must be reshaped to provide the economic underpinnings for the United States to compete in the 21st century global economy. The United States can no longer rely on the sheer size of its economy to dominate international economic rivals and must recognize fully that its economy is no longer a separate entity but is part of the global marketplace. The future economic prosperity of the United States depends on its ability to compete in an international marketplace that is teeming with competitors but in which a full one-quarter of the economic activity of the United States takes place.

(8) The United States must make a national commitment to rebuild its infrastructure through development of a national intermodal transportation system. The United States must provide the foundation for its industries to improve productivity and their ability to compete in the global economy with a system that will transport passengers and property in an efficient manner.

(c) CAPACITY EXPANSION AND NOISE ABATEMENT.—It is in the public interest to recognize the effects of airport capacity expansion projects on aircraft noise. Efforts to increase capacity through any means can have an impact on surrounding communities. Noncompatible land uses around airports must be reduced and efforts to mitigate noise must be given a high priority.

(d) CONSISTENCY WITH AIR COMMERCE AND SAFETY POLICIES.—Each airport and airway program should be carried out consistently with section 40101(a), (b), (d), and (f) of this title to foster competition, prevent unfair methods of competition in air transportation, maintain essential air transportation, and prevent unjust and discriminatory practices, including as the practices may be applied between categories and classes of aircraft.

(e) ADEQUACY OF NAVIGATION AIDS AND AIRPORT FACILITIES.—This subchapter should be carried out to provide adequate navigation aids and airport facilities for places at which scheduled commercial air service is provided. The facilities provided may include—

(1) reliever airports; and

(2) heliports designated by the Secretary of Transportation to relieve congestion at commercial service airports by diverting aircraft passengers from fixed-wing aircraft to helicopter carriers.

(f) MAXIMUM USE OF SAFETY FACILITIES.—This subchapter should be carried out consistently with a comprehensive airspace system plan, giv-

ing highest priority to commercial service airports, to maximize the use of safety facilities, including installing, operating, and maintaining, to the extent possible with available money and considering other safety needs—

- (1) electronic or visual vertical guidance on each runway;
- (2) grooving or friction treatment of each primary and secondary runway;
- (3) distance-to-go signs for each primary and secondary runway;
- (4) a precision approach system, a vertical visual guidance system, and a full approach light system for each primary runway;
- (5) a nonprecision instrument approach for each secondary runway;
- (6) runway end identifier lights on each runway that does not have an approach light system;
- (7) a surface movement radar system at each category III airport;
- (8) a taxiway lighting and sign system;
- (9) runway edge lighting and marking;
- (10) radar approach coverage for each airport terminal area; and
- (11) runway and taxiway incursion prevention devices, including integrated in-pavement lighting systems for runways and taxiways.

(g) INTERMODAL PLANNING.—To carry out the policy of subsection (a)(5) of this section, the Secretary of Transportation shall take each of the following actions:

(1) COORDINATION IN DEVELOPMENT OF AIRPORT PLANS AND PROGRAMS.—Cooperate with State and local officials in developing airport plans and programs that are based on overall transportation needs. The airport plans and programs shall be developed in coordination with other transportation planning and considering comprehensive long-range land-use plans and overall social, economic, environmental, system performance, and energy conservation objectives. The process of developing airport plans and programs shall be continuing, cooperative, and comprehensive to the degree appropriate to the complexity of the transportation problems.

(2) GOALS FOR AIRPORT MASTER AND SYSTEM PLANS.—Encourage airport sponsors and State and local officials to develop airport master plans and airport system plans that—

- (A) foster effective coordination between aviation planning and metropolitan planning;
- (B) include an evaluation of aviation needs within the context of multimodal planning; and
- (C) are integrated with metropolitan plans to ensure that airport development proposals include adequate consideration of land use and ground transportation access.

(3) REPRESENTATION OF AIRPORT OPERATORS ON MPO'S.—Encourage metropolitan planning organizations, particularly in areas with populations greater than 200,000, to establish membership positions for airport operators.

(h) CONSULTATION.—To carry out the policy of subsection (a)(6) of this section, the Secretary of Transportation shall consult with the Secretary of the Interior and the Administrator of the En-

vironmental Protection Agency about any project included in a project grant application involving the location of an airport or runway, or a major runway extension, that may have a significant effect on—

- (1) natural resources, including fish and wildlife;
- (2) natural, scenic, and recreation assets;
- (3) water and air quality; or
- (4) another factor affecting the environment.

In this section, before clause (1), the words “In this subchapter” are substituted for “As used in this chapter” and “Whenever in this chapter reference is made to . . . such reference shall mean” for consistency in the revised title and with other titles of the United States Code and to eliminate unnecessary words.

Clause (1) restates the definition of “air carrier airport” that was contained in section 11(1) of the Airport and Airway Development Act of 1970 as in effect both on February 18, 1980, and immediately before September 3, 1982. The clause is added to this section to eliminate the cross-references to definitions in section 11 of the Airport and Airway Development Act of 1970 that are contained in the source provisions restated in sections 47106(d) and 47119(a) of the revised title. Because some of the terms used in the definition of “air carrier airport” were themselves defined in section 11, the definitions of those terms are incorporated in the definition added in clause (1) to the extent they differ from the definitions of those terms restated in this section. The words “Secretary of Transportation” and “Secretary” are substituted for “Civil Aeronautics Board” because of the transfer of authority under 49 App.:1551(b)(1)(E).

In clause (2), before subclause (A), the text of 49 App.:2202(a)(21) is omitted as surplus because the complete name of the Secretary of Transportation is used the first time the term appears in a section. In subclause (A)(iii), the words “those areas” are substituted for “thereon” for clarity.

In clause (3)(A), before subclause (i), the words “any work involved in” and “or portion thereof” are eliminated as unnecessary. The word “reconstructing” is omitted as being included in “constructing”. In subclause (ii), the words “carrying out a field investigation” are substituted for “field investigations incidental thereto” for clarity.

In clause (3)(B), before subclause (i), the word “for” is substituted for “by” for clarity. In subclause (i), the words “required by the acquisition or installation” are substituted for “thereby required” for clarity. In subclause (ii), the word “individuals” is substituted for “persons” for clarity and consistency in the revised title and with other titles of the Code.

In clause (3)(C), before subclause (i), the words “interest in land or airspace” are substituted for “land or of any interest therein, or of any easement through or other interest in airspace” to eliminate unnecessary words. In subclause (ii), the words “existing airport hazard . . . the creation of a new airport hazard” are added for clarity and consistency in this chapter.

In clause (3)(D), the words “any . . . work involved to” are omitted as surplus. The word “Secretary” is substituted for “Department of Transportation” because of 49:102(b). The words “Administrator of the” are added because of 49:106(b).

In clause (4), the word “near” is substituted for “in the vicinity of” to eliminate unnecessary words. The words “obstructs or otherwise is hazardous to the landing or taking off” are substituted for “obstructs the airspace required for the flight of aircraft in landing or taking off . . . or is otherwise hazardous to such landing or taking off” for clarity and to eliminate unnecessary words.

In clause (6), the words “for a fiscal year . . . for that fiscal year” are omitted as surplus. The words “authorized for grants” are substituted for “made available for obligation” for clarity and consistency. The word “law” is substituted for “Act of Congress” for consistency in the revised title and with other titles of the Code. The words “or limited” are omitted as surplus.

In clause (8), before subclause (A), the words “the initial as well as continuing” and “nature” are omitted as surplus. In subclause (C), the words “needed to decide which aeronautical needs should be met” are substituted for “as may be necessary to determine the short-, intermediate-, and long-range aeronautical demands required to be met” for clarity and to eliminate unnecessary words. The word “particular” is eliminated as unnecessary. In subclause (D), the word “prescribed” is substituted for “the establishment . . . of” for consistency in the revised title and with other titles of the Code.

In clause (9), the words “scheduled and non-scheduled” are omitted as surplus. The word “cargo” is substituted for “property (including mail)” for consistency in the revised title.

In clause (10), before subclause (A), the words “passenger boardings” are substituted for “passengers enplaned” for clarity. In subclause (A), the words “domestic, territorial, and international”, “in the States”, “scheduled and nonscheduled”, and “intrastate, interstate, and foreign” are omitted as surplus. In subclause (B), the words “who continue on an aircraft in” are substituted for “on board” for clarity. (See Cong. Rec., pp. S15296, 15297, Oct. 28, 1987, daily ed.). The words “that stops” are substituted for “which transit” for clarity. The word “located” is omitted as surplus.

In clause (12), the words “included in one project grant application” are substituted for “submitted together”, and the words “or all projects to be undertaken” are substituted for “including the combined submission of all projects”, for clarity and consistency in this chapter.

In clause (15)(A), the words “or any agency of a State, a municipality . . . other” are omitted as surplus.

In clause (19)(A), the words “either individually or jointly with one or more other public agencies” are omitted as surplus.

In clause (20), the words “the Commonwealth of” and “the Government of” are omitted as surplus.

DESIGN-BUILD CONTRACTING

Pub. L. 106-181, title I, §139, Apr. 5, 2000, 114 Stat. 85, provided that:

“(a) PILOT PROGRAM.—The Administrator [of the Federal Aviation Administration] may establish a pilot program under which design-build contracts may be used to carry out up to 7 projects at airports in the United States with a grant awarded under section 47104 of title 49, United States Code. A sponsor of an airport may submit an application to the Administrator to carry out a project otherwise eligible for assistance under chapter 471 of such title under the pilot program.

“(b) USE OF DESIGN-BUILD CONTRACTS.—Under the pilot program, the Administrator may approve an application of an airport sponsor under this section to authorize the airport sponsor to award a design-build contract using a selection process permitted under applicable State or local law if—

“(1) the Administrator approves the application using criteria established by the Administrator;

“(2) the design-build contract is in a form that is approved by the Administrator;

“(3) the Administrator is satisfied that the contract will be executed pursuant to competitive procedures and contains a schematic design adequate for the Administrator to approve the grant;

“(4) use of a design-build contract will be cost effective and expedite the project;

“(5) the Administrator is satisfied that there will be no conflict of interest; and

“(6) the Administrator is satisfied that the selection process will be as open, fair, and objective as the competitive bid system and that at least three or more bids will be submitted for each project under the selection process.

“(c) REIMBURSEMENT OF COSTS.—The Administrator may reimburse an airport sponsor for design and construction costs incurred before a grant is made pursuant to this section if the project is approved by the Ad-

ministrator in advance and is carried out in accordance with all administrative and statutory requirements that would have been applicable under chapter 471 of title 49, United States Code, if the project were carried out after a grant agreement had been executed.

“(d) DESIGN-BUILD CONTRACT DEFINED.—In this section, the term ‘design-build contract’ means an agreement that provides for both design and construction of a project by a contractor.

“(e) EXPIRATION OF AUTHORITY.—The authority of the Administrator to carry out the pilot program under this section shall expire on September 30, 2003.”

§ 47105. Project grant applications

(a) SUBMISSION AND CONSULTATION.—(1) An application for a project grant under this subchapter may be submitted to the Secretary of Transportation by—

(A) a sponsor; or

(B) a State, as the only sponsor, for an airport development project benefitting 1 or more airports in the State or for airport planning for projects for 1 or more airports in the State if—

(i) the sponsor of each airport gives written consent that the State be the applicant;

(ii) the Secretary is satisfied there is administrative merit and aeronautical benefit in the State being the sponsor; and

(iii) an acceptable agreement exists that ensures that the State will comply with appropriate grant conditions and other assurances the Secretary requires.

(2) Before deciding to undertake an airport development project at an airport under this subchapter, a sponsor shall consult with the airport users that will be affected by the project.

(3) This subsection does not authorize a public agency that is subject to the laws of a State to apply for a project grant in violation of a law of the State.

(b) CONTENTS AND FORM.—An application for a project grant under this subchapter—

(1) shall describe the project proposed to be undertaken;

(2) may propose a project only for a public-use airport included in the current national plan of integrated airport systems;

(3) may propose airport development only if the development complies with standards the Secretary prescribes or approves, including standards for site location, airport layout, site preparation, paving, lighting, and safety of approaches; and

(4) shall be in the form and contain other information the Secretary prescribes.

(c) STATE STANDARDS FOR AIRPORT DEVELOPMENT.—The Secretary may approve standards (except standards for safety of approaches) that a State prescribes for airport development at nonprimary public-use airports in the State. On approval under this subsection, a State’s standards apply to the nonprimary public-use airports in the State instead of the comparable standards prescribed by the Secretary under subsection (b)(3) of this section. The Secretary, or the State with the approval of the Secretary, may revise standards approved under this subsection.

(d) CERTIFICATION OF COMPLIANCE.—The Secretary may require a sponsor to certify that the sponsor will comply with this subchapter in car-

rying out the project. The Secretary may rescind the acceptance of a certification at any time. This subsection does not affect an obligation or responsibility of the Secretary under another law of the United States.

(e) PREVENTIVE MAINTENANCE.—After January 1, 1995, the Secretary may approve an application under this subchapter for the replacement or reconstruction of pavement at an airport only if the sponsor has provided such assurances or certifications as the Secretary may determine appropriate that such airport has implemented an effective airport pavement maintenance-management program. The Secretary may require such reports on pavement condition and pavement management programs as the Secretary determines may be useful.

(f) NOTIFICATION.—The sponsor of an airport for which an amount is apportioned under section 47114(c) of this title shall notify the Secretary of the fiscal year in which the sponsor intends to submit a project grant application for the apportioned amount. The notification shall be given by the time and contain the information the Secretary prescribes.

AMENDMENTS

1994—Subsec. (a)(1)(B). Pub. L. 103–305, §106, in introductory provisions, substituted “1 or more airports” for “at least 2 airports” in two places and struck out “similar” before “projects”.

§ 47106. Project grant application approval conditioned on satisfaction of project requirements

(a) PROJECT GRANT APPLICATION APPROVAL.—The Secretary of Transportation may approve an application under this subchapter for a project grant only if the Secretary is satisfied that—

- (1) the project is consistent with plans (existing at the time the project is approved) of public agencies authorized by the State in which the airport is located to plan for the development of the area surrounding the airport;
- (2) the project will contribute to carrying out this subchapter;
- (3) enough money is available to pay the project costs that will not be paid by the United States Government under this subchapter;
- (4) the project will be completed without unreasonable delay; and
- (5) the sponsor has authority to carry out the project as proposed.

(b) AIRPORT DEVELOPMENT PROJECT GRANT APPLICATION APPROVAL.—The Secretary may approve an application under this subchapter for an airport development project grant for an airport only if the Secretary is satisfied that—

- (1) the sponsor, a public agency, or the Government holds good title to the areas of the airport used or intended to be used for the landing, taking off, or surface maneuvering of aircraft, or that good title will be acquired;
- (2) the interests of the community in or near which the project may be located have been given fair consideration; and
- (3) the application provides touchdown zone and centerline runway lighting, high intensity runway lighting, or land necessary for installing approach light systems that the Secretary, considering the category of the airport and

the kind and volume of traffic using it, decides is necessary for safe and efficient use of the airport by aircraft.

(c) ENVIRONMENTAL REQUIREMENTS.—(1) The Secretary may approve an application under this subchapter for an airport development project involving the location of an airport or runway or a major runway extension—

(A) only if the sponsor certifies to the Secretary that—

(i) an opportunity for a public hearing was given to consider the economic, social, and environmental effects of the location and the location's consistency with the objectives of any planning that the community has carried out;

(ii) the airport management board has voting representation from the communities in which the project is located or has advised the communities that they have the right to petition the Secretary about a proposed project; and

(iii) with respect to an airport development project involving the location of an airport, runway, or major runway extension at a medium or large hub airport, the airport sponsor has made available to and has provided upon request to the metropolitan planning organization in the area in which the airport is located, if any, a copy of the proposed amendment to the airport layout plan to depict the project and a copy of any airport master plan in which the project is described or depicted; and

(B) if the application is found to have a significant adverse effect on natural resources, including fish and wildlife, natural, scenic, and recreation assets, water and air quality, or another factor affecting the environment, only after finding that no possible and prudent alternative to the project exists and that every reasonable step has been taken to minimize the adverse effect.

(2) The Secretary may approve an application under this subchapter for an airport development project that does not involve the location of an airport or runway, or a major runway extension, at an existing airport without requiring an environmental impact statement related to noise for the project if—

(A) completing the project would allow operations at the airport involving aircraft complying with the noise standards prescribed for "stage 3" aircraft in section 36.1 of title 14, Code of Federal Regulations, to replace existing operations involving aircraft that do not comply with those standards; and

(B) the project meets the other requirements under this subchapter.

(3) At the Secretary's request, the sponsor shall give the Secretary a copy of the transcript of any hearing held under paragraph (1)(A) of this subsection.

(4) The Secretary may make a finding under paragraph (1)(B) of this subsection only after completely reviewing the matter. The review and finding must be a matter of public record.

(d) WITHHOLDING APPROVAL.—(1) The Secretary may withhold approval of an application under

this subchapter for amounts apportioned under section 47114(c) and (e) of this title for violating an assurance or requirement of this subchapter only if—

(A) the Secretary provides the sponsor an opportunity for a hearing; and

(B) not later than 180 days after the later of the date of the application or the date the Secretary discovers the noncompliance, the Secretary finds that a violation has occurred.

(2) The 180-day period may be extended by—

(A) agreement between the Secretary and the sponsor; or

(B) the hearing officer if the officer decides an extension is necessary because the sponsor did not follow the schedule the officer established.

(3) A person adversely affected by an order of the Secretary withholding approval may obtain review of the order by filing a petition in the United States Court of Appeals for the District of Columbia Circuit or in the court of appeals of the United States for the circuit in which the project is located. The action must be brought not later than 60 days after the order is served on the petitioner.

(e) REPORTS RELATING TO CONSTRUCTION OF CERTAIN NEW HUB AIRPORTS.—At least 90 days prior to the approval under this subchapter of a project grant application for construction of a new hub airport that is expected to have 0.25 percent or more of the total annual enplanements in the United States, the Secretary shall submit to Congress a report analyzing the anticipated impact of such proposed new airport on—

(1) the fees charged to air carriers (including landing fees), and other costs that will be incurred by air carriers, for using the proposed airport;

(2) air transportation that will be provided in the geographic region of the proposed airport; and

(3) the availability and cost of providing air transportation to rural areas in such geographic region.

(f) COMPETITION PLANS.—

(1) PROHIBITION.—Beginning in fiscal year 2001, no passenger facility fee may be approved for a covered airport under section 40117 and no grant may be made under this subchapter for a covered airport unless the airport has submitted to the Secretary a written competition plan in accordance with this subsection.

(2) CONTENTS.—A competition plan under this subsection shall include information on the availability of airport gates and related facilities, leasing and sub-leasing arrangements, gate-use requirements, patterns of air service, gate-assignment policy, financial constraints, airport controls over air- and ground-side capacity, whether the airport intends to build or acquire gates that would be used as common facilities, and airfare levels (as compiled by the Department of Transportation) compared to other large airports.

(3) SPECIAL RULE FOR FISCAL YEAR 2002.—This subsection does not apply to any passenger facility fee approved, or grant made, in fiscal year 2002 if the fee or grant is to be used to improve security at a covered airport.

(4) COVERED AIRPORT DEFINED.—In this subsection, the term “covered airport” means a commercial service airport—

(A) that has more than .25 percent of the total number of passenger boardings each year at all such airports; and

(B) at which one or two air carriers control more than 50 percent of the passenger boardings.

(g) CONSULTATION WITH SECRETARY OF HOMELAND SECURITY.—The Secretary shall consult with the Secretary of Homeland Security before approving an application under this subchapter for an airport development project grant for activities described in section 47102(3)(B)(ii) only as they relate to security equipment or section 47102(3)(B)(x) only as they relate to installation of bulk explosive detection system.

Any such authorized use shall meet all requirements of Federal law for the completion of such an assessment or study.”

§ 47107. Project grant application approval conditioned on assurances about airport operations

(a) GENERAL WRITTEN ASSURANCES.—The Secretary of Transportation may approve a project grant application under this subchapter for an airport development project only if the Secretary receives written assurances, satisfactory to the Secretary, that—

(1) the airport will be available for public use on reasonable conditions and without unjust discrimination;

(2) air carriers making similar use of the airport will be subject to substantially comparable charges—

(A) for facilities directly and substantially related to providing air transportation; and

(B) regulations and conditions, except for differences based on reasonable classifications, such as between—

(i) tenants and nontenants; and

(ii) signatory and nonsignatory carriers;

(3) the airport operator will not withhold unreasonably the classification or status of tenant or signatory from an air carrier that assumes obligations substantially similar to those already imposed on air carriers of that classification or status;

(4) a person providing, or intending to provide, aeronautical services to the public will not be given an exclusive right to use the air-

port, with a right given to only one fixed-base operator to provide services at an airport deemed not to be an exclusive right if—

(A) the right would be unreasonably costly, burdensome, or impractical for more than one fixed-base operator to provide the services; and

(B) allowing more than one fixed-base operator to provide the services would require reducing the space leased under an existing agreement between the one fixed-base operator and the airport owner or operator;

(5) fixed-base operators similarly using the airport will be subject to the same charges;

(6) an air carrier using the airport may service itself or use any fixed-base operator allowed by the airport operator to service any carrier at the airport;

(7) the airport and facilities on or connected with the airport will be operated and maintained suitably, with consideration given to climatic and flood conditions;

(8) a proposal to close the airport temporarily for a nonaeronautical purpose must first be approved by the Secretary;

(9) appropriate action will be taken to ensure that terminal airspace required to protect instrument and visual operations to the airport (including operations at established minimum flight altitudes) will be cleared and protected by mitigating existing, and preventing future, airport hazards;

(10) appropriate action, including the adoption of zoning laws, has been or will be taken to the extent reasonable to restrict the use of land next to or near the airport to uses that are compatible with normal airport operations;

(11) each of the airport's facilities developed with financial assistance from the United States Government and each of the airport's facilities usable for the landing and taking off of aircraft always will be available without charge for use by Government aircraft in common with other aircraft, except that if the use is substantial, the Government may be charged a reasonable share, proportionate to the use, of the cost of operating and maintaining the facility used;

(12) the airport owner or operator will provide, without charge to the Government, property interests of the sponsor in land or water areas or buildings that the Secretary decides are desirable for, and that will be used for, constructing at Government expense, facilities for carrying out activities related to air traffic control or navigation;

(13) the airport owner or operator will maintain a schedule of charges for use of facilities and services at the airport—

(A) that will make the airport as self-sustaining as possible under the circumstances existing at the airport, including volume of traffic and economy of collection; and

(B) without including in the rate base used for the charges the Government's share of costs for any project for which a grant is made under this subchapter or was made under the Federal Airport Act or the Airport and Airway Development Act of 1970;

(14) the project accounts and records will be kept using a standard system of accounting

that the Secretary, after consulting with appropriate public agencies, prescribes;

(15) the airport owner or operator will submit any annual or special airport financial and operations reports to the Secretary that the Secretary reasonably requests and make such reports available to the public;

(16) the airport owner or operator will maintain a current layout plan of the airport that meets the following requirements:

(A) the plan will be in a form the Secretary prescribes;

(B) the Secretary will approve the plan and any revision or modification before the plan, revision, or modification takes effect;

(C) the owner or operator will not make or allow any alteration in the airport or any of its facilities if the alteration does not comply with the plan the Secretary approves, and the Secretary is of the opinion that the alteration may affect adversely the safety, utility, or efficiency of the airport; and

(D) when an alteration in the airport or its facility is made that does not conform to the approved plan and that the Secretary decides adversely affects the safety, utility, or efficiency of any property on or off the airport that is owned, leased, or financed by the Government, the owner or operator, if requested by the Secretary, will—

(i) eliminate the adverse effect in a way the Secretary approves; or

(ii) bear all cost of relocating the property or its replacement to a site acceptable to the Secretary and of restoring the property or its replacement to the level of safety, utility, efficiency, and cost of operation that existed before the alteration was made;

(17) each contract and subcontract for program management, construction management, planning studies, feasibility studies, architectural services, preliminary engineering, design, engineering, surveying, mapping, and related services will be awarded in the same way that a contract for architectural and engineering services is negotiated under chapter 11 of title 40 or an equivalent qualifications-based requirement prescribed for or by the sponsor;

(18) the airport and each airport record will be available for inspection by the Secretary on reasonable request, and a report of the airport budget will be available to the public at reasonable times and places;

(19) the airport owner or operator will submit to the Secretary and make available to the public an annual report listing in detail—

(A) all amounts paid by the airport to any other unit of government and the purposes for which each such payment was made; and

(B) all services and property provided to other units of government and the amount of compensation received for provision of each such service and property;

(20) the airport owner or operator will permit, to the maximum extent practicable, intercity buses or other modes of transportation to have access to the airport, but the sponsor does not have any obligation under this paragraph, or because of it, to fund spe-

cial facilities for intercity bus service or for other modes of transportation; and

(21) if the airport owner or operator and a person who owns an aircraft agree that a hangar is to be constructed at the airport for the aircraft at the aircraft owner's expense, the airport owner or operator will grant to the aircraft owner for the hangar a long-term lease that is subject to such terms and conditions on the hangar as the airport owner or operator may impose.

(b) WRITTEN ASSURANCES ON USE OF REVENUE.—(1) The Secretary of Transportation may approve a project grant application under this subchapter for an airport development project only if the Secretary receives written assurances, satisfactory to the Secretary, that local taxes on aviation fuel (except taxes in effect on December 30, 1987) and the revenues generated by a public airport will be expended for the capital or operating costs of—

(A) the airport;

(B) the local airport system; or

(C) other local facilities owned or operated by the airport owner or operator and directly and substantially related to the air transportation of passengers or property.

(2) Paragraph (1) of this subsection does not apply if a provision enacted not later than September 2, 1982, in a law controlling financing by the airport owner or operator, or a covenant or assurance in a debt obligation issued not later than September 2, 1982, by the owner or operator, provides that the revenues, including local taxes on aviation fuel at public airports, from any of the facilities of the owner or operator, including the airport, be used to support not only the airport but also the general debt obligations or other facilities of the owner or operator.

(3) This subsection does not prevent the use of a State tax on aviation fuel to support a State aviation program or the use of airport revenue on or off the airport for a noise mitigation purpose.

(c) WRITTEN ASSURANCES ON ACQUIRING LAND.—

(1) In this subsection, land is needed for an airport purpose (except a noise compatibility purpose) if—

(A)(i) the land may be needed for an aeronautical purpose (including runway protection zone) or serves as noise buffer land; and

(ii) revenue from interim uses of the land contributes to the financial self-sufficiency of the airport; and

(B) for land purchased with a grant the owner or operator received not later than December 30, 1987, the Secretary of Transportation or the department, agency, or instrumentality of the Government that made the grant was notified by the owner or operator of the use of the land and did not object to the use and the land is still being used for that purpose.

(2) The Secretary of Transportation may approve an application under this subchapter for an airport development project grant only if the Secretary receives written assurances, satisfactory to the Secretary, that if an airport owner or operator has received or will receive a grant for acquiring land and—

(A) if the land was or will be acquired for a noise compatibility purpose—

(i) the owner or operator will dispose of the land at fair market value at the earliest practicable time after the land no longer is needed for a noise compatibility purpose;

(ii) the disposition will be subject to retaining or reserving an interest in the land necessary to ensure that the land will be used in a way that is compatible with noise levels associated with operating the airport; and

(iii) the part of the proceeds from disposing of the land that is proportional to the Government's share of the cost of acquiring the land will be paid to the Secretary for deposit in the Airport and Airway Trust Fund established under section 9502 of the Internal Revenue Code of 1986 (26 U.S.C. 9502) or, as the Secretary prescribes, reinvested in an approved noise compatibility project, including the purchase of nonresidential buildings or property in the vicinity of residential buildings or property previously purchased by the airport as part of a noise compatibility program; or

(B) if the land was or will be acquired for an airport purpose (except a noise compatibility purpose)—

(i) the owner or operator, when the land no longer is needed for an airport purpose, will dispose of the land at fair market value or make available to the Secretary an amount equal to the Government's proportional share of the fair market value;

(ii) the disposition will be subject to retaining or reserving an interest in the land necessary to ensure that the land will be used in a way that is compatible with noise levels associated with operating the airport; and

(iii) the part of the proceeds from disposing of the land that is proportional to the Government's share of the cost of acquiring the land will be reinvested, on application to the Secretary, in another eligible airport development project the Secretary approves under this subchapter or paid to the Secretary for deposit in the Fund if another eligible project does not exist.

(3) Proceeds referred to in paragraph (2)(A)(iii) and (B)(iii) of this subsection and deposited in the Airport and Airway Trust Fund are available as provided in subsection (f) of this section.

(d) ASSURANCES OF CONTINUATION AS PUBLIC-USE AIRPORT.—The Secretary of Transportation may approve an application under this subchapter for an airport development project grant for a privately owned public-use airport only if the Secretary receives appropriate assurances that the airport will continue to function as a public-use airport during the economic life (that must be at least 10 years) of any facility at the airport that was developed with Government financial assistance under this subchapter.

(e) WRITTEN ASSURANCES OF OPPORTUNITIES FOR SMALL BUSINESS CONCERNS.—(1) The Secretary of Transportation may approve a project grant application under this subchapter for an airport development project only if the Sec-

retary receives written assurances, satisfactory to the Secretary, that the airport owner or operator will take necessary action to ensure, to the maximum extent practicable, that at least 10 percent of all businesses at the airport selling consumer products or providing consumer services to the public are small business concerns (as defined by regulations of the Secretary) owned and controlled by a socially and economically disadvantaged individual (as defined in section 47113(a) of this title) or qualified HUBZone small business concerns (as defined in section 3(p) of the Small Business Act).

(2) An airport owner or operator may meet the percentage goal of paragraph (1) of this subsection by including any business operated through a management contract or subcontract. The dollar amount of a management contract or subcontract with a disadvantaged business enterprise shall be added to the total participation by disadvantaged business enterprises in airport concessions and to the base from which the airport's percentage goal is calculated. The dollar amount of a management contract or subcontract with a non-disadvantaged business enterprise and the gross revenue of business activities to which the management contract or subcontract pertains may not be added to this base.

(3) Except as provided in paragraph (4) of this subsection, an airport owner or operator may meet the percentage goal of paragraph (1) of this subsection by including the purchase from disadvantaged business enterprises of goods and services used in businesses conducted at the airport, but the owner or operator and the businesses conducted at the airport shall make good faith efforts to explore all available options to achieve, to the maximum extent practicable, compliance with the goal through direct ownership arrangements, including joint ventures and franchises.

(4)(A) In complying with paragraph (1) of this subsection, an airport owner or operator shall include the revenues of car rental firms at the airport in the base from which the percentage goal in paragraph (1) is calculated.

(B) An airport owner or operator may require a car rental firm to meet a requirement under paragraph (1) of this subsection by purchasing or leasing goods or services from a disadvantaged business enterprise. If an owner or operator requires such a purchase or lease, a car rental firm shall be permitted to meet the requirement by including purchases or leases of vehicles from any vendor that qualifies as a small business concern owned and controlled by a socially and economically disadvantaged individual or as a qualified HUBZone small business concern (as defined in section 3(p) of the Small Business Act).

(C) This subsection does not require a car rental firm to change its corporate structure to provide for direct ownership arrangements to meet the requirements of this subsection.

(5) This subsection does not preempt—

(A) a State or local law, regulation, or policy enacted by the governing body of an airport owner or operator; or

(B) the authority of a State or local government or airport owner or operator to adopt or enforce a law, regulation, or policy related to disadvantaged business enterprises.

(6) An airport owner or operator may provide opportunities for a small business concern owned and controlled by a socially and economically disadvantaged individual or a qualified HUBZone small business concern (as defined in section 3(p) of the Small Business Act) to participate through direct contractual agreement with that concern.

(7) An air carrier that provides passenger or property-carrying services or another business that conducts aeronautical activities at an airport may not be included in the percentage goal of paragraph (1) of this subsection for participation of small business concerns at the airport.

(8) Not later than April 29, 1993, the Secretary of Transportation shall prescribe regulations to carry out this subsection.

(f) AVAILABILITY OF AMOUNTS.—An amount deposited in the Airport and Airway Trust Fund under—

(1) subsection (c)(2)(A)(iii) of this section is available to the Secretary of Transportation to make a grant for airport development or airport planning under section 47104 of this title;

(2) subsection (c)(2)(B)(iii) of this section is available to the Secretary—

(A) to make a grant for a purpose described in section 47115(b) of this title; and

(B) for use under section 47114(d)(2) of this title at another airport in the State in which the land was disposed of under subsection (c)(2)(B)(i) of this section; and

(3) subsection (c)(2)(B)(iii) of this section is in addition to an amount made available to the Secretary under section 48103 of this title and not subject to apportionment under section 47114 of this title.

(g) ENSURING COMPLIANCE.—(1) To ensure compliance with this section, the Secretary of Transportation—

(A) shall prescribe requirements for sponsors that the Secretary considers necessary; and

(B) may make a contract with a public agency.

(2) The Secretary of Transportation may approve an application for a project grant only if the Secretary is satisfied that the requirements prescribed under paragraph (1)(A) of this subsection have been or will be met.

(h) MODIFYING ASSURANCES AND REQUIRING COMPLIANCE WITH ADDITIONAL ASSURANCES.—

(1) IN GENERAL.—Subject to paragraph (2), before modifying an assurance required of a person receiving a grant under this subchapter and in effect after December 29, 1987, or to require compliance with an additional assurance from the person, the Secretary of Transportation must—

(A) publish notice of the proposed modification in the Federal Register; and

(B) provide an opportunity for comment on the proposal.

(2) PUBLIC NOTICE BEFORE WAIVER OF AERONAUTICAL LAND-USE ASSURANCE.—Before modifying an assurance under subsection (c)(2)(B) that requires any property to be used for an aeronautical purpose, the Secretary must provide notice to the public not less than 30 days before making such modification.

(i) RELIEF FROM OBLIGATION TO PROVIDE FREE SPACE.—When a sponsor provides a property interest in a land or water area or a building that the Secretary of Transportation uses to construct a facility at Government expense, the Secretary may relieve the sponsor from an obligation in a contract made under this chapter, the Airport and Airway Development Act of 1970, or the Federal Airport Act to provide free space to the Government in an airport building, to the extent the Secretary finds that the free space no longer is needed to carry out activities related to air traffic control or navigation.

(j) USE OF REVENUE IN HAWAII.—(1) In this subsection—

(A) “duty-free merchandise” and “duty-free sales enterprise” have the same meanings given those terms in section 555(b)(8) of the Tariff Act of 1930 (19 U.S.C. 1555(b)(8)).

(B) “highway” and “Federal-aid system” have the same meanings given those terms in section 101(a) of title 23.

(2) Notwithstanding subsection (b)(1) of this section, Hawaii may use, for a project for construction or reconstruction of a highway on a Federal-aid system that is not more than 10 miles by road from an airport and that will facilitate access to the airport, revenue from the sales at off-airport locations in Hawaii of duty-free merchandise under a contract between Hawaii and a duty-free sales enterprise. However, the revenue resulting during a Hawaiian fiscal year may be used only if the amount of the revenue, plus amounts Hawaii receives in the fiscal year from all other sources for costs Hawaii incurs for operating all airports it operates and for debt service related to capital projects for the airports (including interest and amortization of principal costs), is more than 150 percent of the projected costs for the fiscal year.

(3)(A) Revenue from sales referred to in paragraph (2) of this subsection in a Hawaiian fiscal year that Hawaii may use may not be more than the amount that is greater than 150 percent as determined under paragraph (2).

(B) The maximum amount of revenue Hawaii may use under paragraph (2) of this subsection is \$250,000,000.

(4) If a fee imposed or collected for rent, landing, or service from an aircraft operator by an airport operated by Hawaii is increased during the period from May 4, 1990, through December 31, 1994, by more than the percentage change in the Consumer Price Index of All Urban Consumers for Honolulu, Hawaii, that the Secretary of Labor publishes during that period and if revenue derived from the fee increases because the fee increased, the amount under paragraph (3)(B) of this subsection shall be reduced by the amount of the projected revenue increase in the period less the part of the increase attributable to changes in the Index in the period.

(5) Hawaii shall determine costs, revenue, and projected revenue increases referred to in this subsection and shall submit the determinations to the Secretary of Transportation. A determination is approved unless the Secretary disapproves it not later than 30 days after it is submitted.

(6) Hawaii is not eligible for a grant under section 47115 of this title in a fiscal year in which

Hawaii uses under paragraph (2) of this subsection revenue from sales referred to in paragraph (2). Hawaii shall repay amounts it receives in a fiscal year under a grant it is not eligible to receive because of this paragraph to the Secretary of Transportation for deposit in the discretionary fund established under section 47115.

(7)(A) This subsection applies only to revenue from sales referred to in paragraph (2) of this subsection from May 5, 1990, through December 30, 1994, and to amounts in the Airport Revenue Fund of Hawaii that are attributable to revenue before May 4, 1990, on sales referred to in paragraph (2).

(B) Revenue from sales referred to in paragraph (2) of this subsection from May 5, 1990, through December 30, 1994, may be used under paragraph (2) in any Hawaiian fiscal year, including a Hawaiian fiscal year beginning after December 31, 1994.

(k) ANNUAL SUMMARIES OF FINANCIAL REPORTS.—The Secretary shall provide to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives an annual summary of the reports submitted to the Secretary under subsection (a)(19) of this section and under section 111(b) of the Federal Aviation Administration Authorization Act of 1994.

(l) POLICIES AND PROCEDURES TO ENSURE ENFORCEMENT AGAINST ILLEGAL DIVERSION OF AIRPORT REVENUE.—

(1) IN GENERAL.—Not later than 90 days after August 23, 1994, the Secretary of Transportation shall establish policies and procedures that will assure the prompt and effective enforcement of subsections (a)(13) and (b) of this section and grant assurances made under such subsections. Such policies and procedures shall recognize the exemption provision in subsection (b)(2) of this section and shall respond to the information contained in the reports of the Inspector General of the Department of Transportation on airport revenue diversion and such other relevant information as the Secretary may by law consider.

(2) REVENUE DIVERSION.—Policies and procedures to be established pursuant to paragraph (1) of this subsection shall prohibit, at a minimum, the diversion of airport revenues (except as authorized under subsection (b) of this section) through—

(A) direct payments or indirect payments, other than payments reflecting the value of services and facilities provided to the airport;

(B) use of airport revenues for general economic development, marketing, and promotional activities unrelated to airports or airport systems;

(C) payments in lieu of taxes or other assessments that exceed the value of services provided; or

(D) payments to compensate nonsponsoring governmental bodies for lost tax revenues exceeding stated tax rates.

(3) EFFORTS TO BE SELF-SUSTAINING.—With respect to subsection (a)(13) of this section, policies and procedures to be established pur-

suant to paragraph (1) of this subsection shall take into account, at a minimum, whether owners and operators of airports, when entering into new or revised agreements or otherwise establishing rates, charges, and fees, have undertaken reasonable efforts to make their particular airports as self-sustaining as possible under the circumstances existing at such airports.

(4) ADMINISTRATIVE SAFEGUARDS.—Policies and procedures to be established pursuant to paragraph (1) shall mandate internal controls, auditing requirements, and increased levels of Department of Transportation personnel sufficient to respond fully and promptly to complaints received regarding possible violations of subsections (a)(13) and (b) of this section and grant assurances made under such subsections and to alert the Secretary to such possible violations.

(5) STATUTE OF LIMITATIONS.—In addition to the statute of limitations specified in subsection (n)(7), with respect to project grants made under this chapter—

(A) any request by a sponsor or any other governmental entity to any airport for additional payments for services conducted off of the airport or for reimbursement for capital contributions or operating expenses shall be filed not later than 6 years after the date on which the expense is incurred; and

(B) any amount of airport funds that are used to make a payment or reimbursement as described in subparagraph (A) after the date specified in that subparagraph shall be considered to be an illegal diversion of airport revenues that is subject to subsection (n).

(m) AUDIT CERTIFICATION.—

(1) IN GENERAL.—The Secretary of Transportation, acting through the Administrator of the Federal Aviation Administration, shall include a provision in the compliance supplement provisions to require a recipient of a project grant (or any other recipient of Federal financial assistance that is provided for an airport) to include as part of an annual audit conducted under sections 7501 through 7505 of title 31, a review concerning the funding activities with respect to an airport that is the subject of the project grant (or other Federal financial assistance) and the sponsors, owners, or operators (or other recipients) involved.

(2) CONTENT OF REVIEW.—A review conducted under paragraph (1) shall provide reasonable assurances that funds paid or transferred to sponsors are paid or transferred in a manner consistent with the applicable requirements of this chapter and any other applicable provision of law (including regulations promulgated by the Secretary or the Administrator).

(n) RECOVERY OF ILLEGALLY DIVERTED FUNDS.—

(1) IN GENERAL.—Not later than 180 days after the issuance of an audit or any other report that identifies an illegal diversion of airport revenues (as determined under subsections (b) and (l) and section 47133), the Secretary, acting through the Administrator, shall—

(A) review the audit or report;

(B) perform appropriate factfinding; and

(C) conduct a hearing and render a final determination concerning whether the illegal diversion of airport revenues asserted in the audit or report occurred.

(2) NOTIFICATION.—Upon making such a finding, the Secretary, acting through the Administrator, shall provide written notification to the sponsor and the airport of—

(A) the finding; and

(B) the obligations of the sponsor to reimburse the airport involved under this paragraph.

(3) ADMINISTRATIVE ACTION.—The Secretary may withhold any amount from funds that would otherwise be made available to the sponsor, including funds that would otherwise be made available to a State, municipality, or political subdivision thereof (including any multimodal transportation agency or transit authority of which the sponsor is a member entity) as part of an apportionment or grant made available pursuant to this title, if the sponsor—

(A) receives notification that the sponsor is required to reimburse an airport; and

(B) has had an opportunity to reimburse the airport, but has failed to do so.

(4) CIVIL ACTION.—If a sponsor fails to pay an amount specified under paragraph (3) during the 180-day period beginning on the date of notification and the Secretary is unable to withhold a sufficient amount under paragraph (3), the Secretary, acting through the Administrator, may initiate a civil action under which the sponsor shall be liable for civil penalty in an amount equal to the illegal diversion in question plus interest (as determined under subsection (o)).

(5) DISPOSITION OF PENALTIES.—

(A) AMOUNTS WITHHELD.—The Secretary or the Administrator shall transfer any amounts withheld under paragraph (3) to the Airport and Airway Trust Fund.

(B) CIVIL PENALTIES.—With respect to any amount collected by a court in a civil action under paragraph (4), the court shall cause to be transferred to the Airport and Airway Trust Fund any amount collected as a civil penalty under paragraph (4).

(6) REIMBURSEMENT.—The Secretary, acting through the Administrator, shall, as soon as practicable after any amount is collected from a sponsor under paragraph (4), cause to be transferred from the Airport and Airway Trust Fund to an airport affected by a diversion that is the subject of a civil action under paragraph (4), reimbursement in an amount equal to the amount that has been collected from the sponsor under paragraph (4) (including any amount of interest calculated under subsection (o)).

(7) STATUTE OF LIMITATIONS.—No person may bring an action for the recovery of funds illegally diverted in violation of this section (as determined under subsections (b) and (l)) or section 47133 after the date that is 6 years after the date on which the diversion occurred.

(o) INTEREST.—

(1) IN GENERAL.—Except as provided in paragraph (2), the Secretary, acting through the Administrator, shall charge a minimum annual rate of interest on the amount of any illegal diversion of revenues referred to in subsection (n) in an amount equal to the average investment interest rate for tax and loan accounts of the Department of the Treasury (as determined by the Secretary of the Treasury) for the applicable calendar year, rounded to the nearest whole percentage point.

(2) ADJUSTMENT OF INTEREST RATES.—If, with respect to a calendar quarter, the average investment interest rate for tax and loan accounts of the Department of the Treasury exceeds the average investment interest rate for the immediately preceding calendar quarter, rounded to the nearest whole percentage point, the Secretary of the Treasury may adjust the interest rate charged under this subsection in a manner that reflects that change.

(3) ACCRUAL.—Interest assessed under subsection (n) shall accrue from the date of the actual illegal diversion of revenues referred to in subsection (n).

(B) remain at a rate fixed under subparagraph (A) during the duration of the indebtedness.

(p) PAYMENT BY AIRPORT TO SPONSOR.—If, in the course of an audit or other review conducted under this section, the Secretary or the Administrator determines that an airport owes a sponsor funds as a result of activities conducted by the sponsor or expenditures by the sponsor for the benefit of the airport, interest on that amount shall be determined in the same manner as provided in paragraphs (1) through (4) of subsection (o), except that the amount of any interest assessed under this subsection shall be determined from the date on which the Secretary or the Administrator makes that determination.

(q) Notwithstanding any written assurances prescribed in subsections (a) through (p), a general aviation airport with more than 300,000 annual operations may be exempt from having to accept scheduled passenger air carrier service, provided that the following conditions are met:

(1) IN GENERAL.—The Secretary of Transportation may approve an application under this subchapter for an airport development project grant for a large hub airport or a medium hub airport only if the Secretary receives assurances that the airport sponsor will provide the information required by paragraph (2) at such time and in such form as the Secretary may require.

(2) COMPETITIVE ACCESS.—On February 1 and August 1 of each year, an airport that during the previous 6-month period has been unable to accommodate one or more requests by an air carrier for access to gates or other facilities at that airport in order to provide service to the airport or to expand service at the airport shall transmit a report to the Secretary that—

(A) describes the requests;

(B) provides an explanation as to why the requests could not be accommodated; and

CONSTRUCTION OF 2000 AMENDMENT

L. 106-181, title I, §125(e), Apr. 5, 2000, 114 Stat. 76, provided that: “Nothing in any amendment made by this section [amending this section and sections 47125, 47151, and 47153 of this title] shall be construed to authorize the Secretary [of Transportation] to issue a waiver or make a modification referred to in such amendment.”

DIVERSION OF AIRPORT REVENUES FOR CLAIMS RELATED TO CERTAIN CEDED LANDS

Pub. L. 105-66, title III, §340, Oct. 27, 1997, 111 Stat. 1448, provided that:

“(a) FINDINGS.—The Congress finds that—

“(1) Congress has the authority under article I, section 8 of the Constitution to regulate the air commerce of the United States;

“(2) section 47107 of title 49, United States Code, prohibits the diversion of certain revenue generated by a public airport as a condition of receiving a project grant;

“(3) a grant recipient that uses airport revenues for purposes that are not airport-related in a manner inconsistent with chapter 471 of title 49, United States Code, illegally diverts airport revenues;

“(4) illegal diversion of airport revenues undermines the interest of the United States in promoting a strong national air transportation system;

“(5) the policy of the United States that airports should be as self-sustaining as possible and that revenues generated at airports should not be diverted from airport purposes was stated by Congress in 1982 and reaffirmed and strengthened in 1987, 1994, and 1996;

“(6) certain airports are constructed on lands that may have belonged, at one time, to Native Americans, Native Hawaiians, or Alaska Natives;

“(7) contrary to the prohibition against diverting airport revenues from airport purposes under section 47107 of title 49, United States Code, certain payments from airport revenues may have been made for the betterment of Native Americans, Native Hawaiians, or Alaska Natives based upon the claims related to lands ceded to the United States;

“(8) Federal law prohibits diversions of airport revenues obtained from any source whatsoever to occur in the future whether related to claims for periods of time prior to or after the date of enactment of this Act [Oct. 27, 1997]; and

“(9) because of the special circumstances surrounding such past diversions of airport revenues for the betterment of Native Americans, Native Hawaiians, or Alaska Natives, it is in the national interest that amounts from airport revenues previously received by any entity for the betterment of Native Ameri-

cans, Native Hawaiians, or Alaska Natives, as specified in subsection (b) of this section, should not be subject to repayment.

“(b) TERMINATION OF REPAYMENT RESPONSIBILITY.—Notwithstanding the provisions of [section] 47107 of title 49, United States Code, or any other provision of law, monies paid for claims related to ceded lands and diverted from airport revenues and received prior to April 1, 1996, by any entity for the betterment of Native Americans, Native Hawaiians, or Alaska Natives, shall not be subject to repayment.

“(c) PROHIBITION ON FURTHER DIVERSION.—There shall be no further payment of airport revenues for claims related to ceded lands, whether characterized as operating expenses, rent, or otherwise, and whether related to claims for periods of time prior to or after the date of enactment of this Act [Oct. 27, 1997].

“(d) CLARIFICATION.—Nothing in this Act [see Tables for classification] shall be construed to affect any existing Federal statutes, enactments, or trust obligations created thereunder, or any statute of the several States that define the obligations of such States to Native Americans, Native Hawaiians, or Alaska Natives in connection with ceded lands, except to make clear that airport revenues may not be used to satisfy such obligations.”

FINDINGS AND PURPOSE

Section 802 of title VIII of Pub. L. 104-264 provided that:

“(a) IN GENERAL.—Congress finds that—

“(1) section 47107 of title 49, United States Code, prohibits the diversion of certain revenue generated by a public airport as a condition of receiving a project grant;

“(2) a grant recipient that uses airport revenue for purposes that are not airport related in a manner inconsistent with chapter 471 of title 49, United States Code, illegally diverts airport revenues;

“(3) any diversion of airport revenues in violation of the condition referred to in paragraph (1) undermines the interest of the United States in promoting a strong national air transportation system that is responsive to the needs of airport users;

“(4) the Secretary and the Administrator have not enforced airport revenue diversion rules adequately and must have additional regulatory tools to increase enforcement efforts; and

“(5) sponsors who have been found to have illegally diverted airport revenues—

“(A) have not reimbursed or made restitution to airports in a timely manner; and

“(B) must be encouraged to do so.

“(b) PURPOSE.—The purpose of this title [see Short Title of 1996 Amendment note set out under section 40101 of this title] is to ensure that airport users are not burdened with hidden taxation for unrelated municipal services and activities by—

“(1) eliminating the ability of any State or political subdivision thereof that is a recipient of a project grant to divert airport revenues for purposes that are not related to an airport, in violation of section 47107 of title 49, United States Code;

“(2) imposing financial reporting requirements that are designed to identify instances of illegal diversions referred to in paragraph (1);

“(3) establishing a statute of limitations for airport revenue diversion actions;

“(4) clarifying limitations on revenue diversion that are permitted under chapter 471 of title 49, United States Code; and

“(5) establishing clear penalties and enforcement mechanisms for identifying and prosecuting airport revenue diversion.”

REVISION OF POLICIES AND PROCEDURES; DEADLINES

Section 805(b)(1) of title VIII of Pub. L. 104-264 provided that: “Not later than 90 days after the date of the enactment of this Act [Oct. 9, 1996], the Secretary, acting through the Administrator, shall revise the policies and procedures established under section 47107(l) of title 49, United States Code, to take into account the amendments made to that section by this title.”

FORMAT FOR REPORTING

Section 111(b) of Pub. L. 103-305 provided that: “Within 180 days after the date of the enactment of this Act [Aug. 23, 1994], the Secretary [of Transportation] shall prescribe a uniform simplified format for reporting that is applicable to airports. Such format shall be designed to enable the public to understand readily how funds are collected and spent at airports, and to provide sufficient information relating to total revenues, operating expenditures, capital expenditures, debt service payments, contributions to restricted funds, accounts, or reserves required by financing agreements or covenants or airport lease or use agreements or covenants. Such format shall require each commercial service airport to report the amount of any revenue surplus, the amount of concession-generated revenue, and other information as required by the Secretary.”

§ 47108. Project grant agreements

(a) OFFER AND ACCEPTANCE.—On approving a project grant application under this subchapter, the Secretary of Transportation shall offer the sponsor a grant to pay the United States Government’s share of the project costs allowable under section 47110 of this title. The Secretary may impose terms on the offer that the Secretary considers necessary to carry out this subchapter and regulations prescribed under this subchapter. An offer shall state the obligations to be assumed by the sponsor and the maximum amount the Government will pay for the project from the amounts authorized under chapter 481 of this title (except sections 48102(e), 48106, 48107, and 48110). At the request of the sponsor, an offer of a grant for a project that will not be completed in one fiscal year shall provide for the obligation of amounts apportioned or to be apportioned to a sponsor under section 47114(c) or 47114(d)(3)(A) of this title for the fiscal years necessary to pay the Government’s share of the cost of the project. An offer that is accepted in writing by the sponsor is an agreement binding on the Government and the sponsor. The Government may pay or be obligated to pay a project cost only after a grant agreement for the project is signed.

(b) INCREASING GOVERNMENT’S SHARE UNDER THIS SUBCHAPTER OR CHAPTER 475.—(1) When an offer has been accepted in writing, the amount stated in the offer as the maximum amount the Government will pay may be increased only as

provided in paragraphs (2) and (3) of this subsection.

(2)(A) For a project receiving assistance under a grant approved under the Airport and Airway Improvement Act of 1982 before October 1, 1987, the amount may be increased by not more than—

(i) 10 percent for an airport development project, except a project for acquiring an interest in land; and

(ii) 50 percent of the total increase in allowable project costs attributable to acquiring an interest in land, based on current creditable appraisals.

(B) An increase under subparagraph (A) of this paragraph may be paid only from amounts the Government recovers from other grants made under this subchapter.

(3) For a project receiving assistance under a grant approved under the Act, this subchapter, or chapter 475 of this title after September 30, 1987, the amount may be increased—

(A) for an airport development project, by not more than 15 percent; and

(B) for a grant after September 30, 1992, to acquire an interest in land for an airport (except a primary airport), by not more than the greater of the following, based on current creditable appraisals or a court award in a condemnation proceeding:

(i) 15 percent; or

(ii) 25 percent of the total increase in allowable project costs attributable to acquiring an interest in land.

(c) INCREASING GOVERNMENT'S SHARE UNDER AIRPORT AND AIRWAY DEVELOPMENT ACT OF 1970.—For a project receiving assistance under a grant made under the Airport and Airway Development Act of 1970, the maximum amount the Government will pay may be increased by not more than 10 percent. An increase under this subsection may be paid only from amounts the Government recovers from other grants made under the Act.

(d) CHANGING WORKSCOPE.—With the consent of the sponsor, the Secretary may amend a grant agreement made under this subchapter to change the workscope of a project financed under the grant if the amendment does not result in an increase in the maximum amount the Government may pay under subsection (b) of this section.

(e) CHANGE IN AIRPORT STATUS.—

(1) CHANGES TO NONPRIMARY AIRPORT STATUS.—If the status of a primary airport changes to a nonprimary airport at a time when a development project under a multiyear agreement under subsection (a) is not yet completed, the project shall remain eligible for funding from discretionary funds under section 47115 at the funding level and under the terms provided by the agreement, subject to the availability of funds.

(2) CHANGES TO NONCOMMERCIAL SERVICE AIRPORT STATUS.—If the status of a commercial service airport changes to a noncommercial service airport at a time when a terminal development project under a phased-funding arrangement is not yet completed, the project shall remain eligible for funding from discre-

tionary funds under section 47115 at the funding level and under the terms provided by the arrangement subject to the availability of funds.

(3) CHANGES TO NONHUB PRIMARY STATUS.—If the status of a nonhub primary airport changes to a small hub primary airport at a time when the airport has received discretionary funds under this chapter for a terminal development project in accordance with section 47110(d)(2), and the project is not yet completed, the project shall remain eligible for funding from the discretionary fund and the small airport fund to pay costs allowable under section 47110(d). Such project shall remain eligible for such funds for three fiscal years after the start of construction of the project, or if the Secretary determines that a further extension of eligibility is justified, until the project is completed.

§ 47109. United States Government's share of project costs

(a) GENERAL.—Except as provided in subsection (b) or subsection (c) of this section, the United States Government's share of allowable project costs is—

- (1) 75 percent for a project at a primary airport having at least .25 percent of the total

number of passenger boardings each year at all commercial service airports;

(2) not more than 90 percent for a project funded by a grant issued to and administered by a State under section 47128, relating to the State block grant program;

(3) 90 percent for a project at any other airport;

(4) 70 percent for a project funded by the Administrator from the discretionary fund under section 47115 at an airport receiving an exemption under section 47134; and

(5) for fiscal year 2002, 100 percent for a project described in section 47102(3)(J), 47102(3)(K), or 47102(3)(L).¹

(b) INCREASED GOVERNMENT SHARE.—If, under subsection (a) of this section, the Government's share of allowable costs of a project in a State containing unappropriated and unreserved public lands and nontaxable Indian lands (individual and tribal) of more than 5 percent of the total area of all lands in the State, is less than the share applied on June 30, 1975, under section 17(b) of the Airport and Airway Development Act of 1970, the Government's share under subsection (a) of this section shall be increased by the lesser of—

(1) 25 percent;

(2) one-half of the percentage that the area of unappropriated and unreserved public lands and nontaxable Indian lands in the State is of the total area of the State; or

(3) the percentage necessary to increase the Government's share to the percentage that applied on June 30, 1975, under section 17(b) of the Act.

(c) GRANDFATHER RULE.—

(1) IN GENERAL.—In the case of any project approved after September 30, 2003, at a small hub airport or nonhub airport that is located in a State containing unappropriated and unreserved public lands and nontaxable Indian lands (individual and tribal) of more than 5 percent of the total area of all lands in the State, the Government's share of allowable costs of the project shall be increased by the same ratio as the basic share of allowable costs of a project divided into the increased (Public Lands States) share of allowable costs of a project as shown on documents of the Federal Aviation Administration dated August 3, 1979, at airports for which the general share was 80 percent on August 3, 1979. This subsection shall apply only if—

(A) the State contained unappropriated and unreserved public lands and nontaxable Indian lands of more than 5 percent of the total area of all lands in the State on August 3, 1979; and

(B) the application under subsection (b), does not increase the Government's share of allowable costs of the project.

| 47109(c) | 49 App.:2212(b)(5). | |

In subsection (a), before clause (1), the words “Except as provided in subsections (b) and (c) of this section” are substituted for “Except as otherwise provided in this chapter” because subsections (b) and (c) restate the only parts of the chapter that provide exceptions to the general rule stated in subsection (a). In clauses (1) and (2), the words “for a project” are substituted for “payable on account of any project contained in an approved project grant application submitted in accordance with this chapter” in 49 App.:2209(a) and “payable on account of any project contained in an approved project grant application” in 49 App.:2209(b) for consistency in this chapter and to eliminate unnecessary words. A project cost is allowable only if it is incurred under a grant agreement made under the chapter, and a grant agreement may be made only if the project grant application is approved. In clause (1), the words “number of passenger boardings” are substituted for “enplaning . . . of the . . . passengers enplaned” because of the definition of “passenger boardings” in section 47102 of the revised title.

In subsection (b), the words “If, under subsection (a) of this section, the Government’s share of allowable costs . . . is less than the share applied on June 30, 1975, under section 17(b) of the Airport and Airway Development Act of 1970” and “(3) the percentage necessary to increase the Government’s share to the percentage that applied on June 30, 1975, under section 17(b) of the Act” are substituted for 49 App.:2209(c) (last sentence) for clarity. The words “of the total of all lands therein” are omitted as surplus.

In subsection (c), the words “Notwithstanding subsections (a) and (b) of this section” are substituted for “Notwithstanding any other provision of this chapter” because subsections (a) and (b) are the only other parts of the chapter that specify the United States Government’s share of allowable project costs.

TEMPORARY INCREASE IN GOVERNMENT SHARE OF CERTAIN AIP PROJECT COSTS

Pub. L. 108–176, title I, §161, Dec. 12, 2003, 117 Stat. 2513, provided that: “Notwithstanding section 47109(a) of title 49, United States Code, the Government’s share of allowable project costs for a grant made in each of fiscal years 2004 through 2007 under chapter 471 of that title for a project described in paragraph (2) or (3) of that section shall be 95 percent.”

§ 47110. Allowable project costs

(a) GENERAL AUTHORITY.—Except as provided in section 47111 of this title, the United States Government may pay or be obligated to pay, from amounts appropriated to carry out this subchapter, a cost incurred in carrying out a project under this subchapter only if the Secretary of Transportation decides the cost is allowable.

(b) ALLOWABLE COST STANDARDS.—A project cost is allowable—

(1) if the cost necessarily is incurred in carrying out the project in compliance with the grant agreement made for the project under this subchapter, including any cost a sponsor incurs related to an audit the Secretary requires under section 47121(b) or (d) of this title and any cost of moving a Federal facility im-

peding the project if the rebuilt facility is of an equivalent size and type;

(2)(A) if the cost is incurred after the grant agreement is executed and is for airport development or airport planning carried out after the grant agreement is executed;

(B) if the cost is incurred after June 1, 1989, by the airport operator (regardless of when the grant agreement is executed) as part of a Government-approved noise compatibility¹ program (including project formulation costs) and is consistent with all applicable statutory and administrative requirements;

(C) if the Government's share is paid only with amounts apportioned under paragraphs (1) and (2) of section 47114(c) or section 47114(d)(3)(A) and if the cost is incurred—

(i) after September 30, 1996;

(ii) before a grant agreement is executed for the project; and

(iii) in accordance with an airport layout plan approved by the Secretary and with all statutory and administrative requirements that would have been applicable to the project if the project had been carried out after the grant agreement had been executed; or

(D) if the cost is incurred after September 11, 2001, for a project described in section 47102(3)(J), 47102(3)(K), or 47102(3)(L)² and shall not depend upon the date of execution of a grant agreement made under this subchapter;

(3) to the extent the cost is reasonable in amount;

(4) if the cost is not incurred in a project for airport development or airport planning for which other Government assistance has been granted;

(5) if the total costs allowed for the project are not more than the amount stated in the grant agreement as the maximum the Government will pay (except as provided in section 47108(b) of this title); and

(6) if the cost is for a project not described in section 47102(3) for acquiring for use at a commercial service airport vehicles and ground support equipment owned by an airport that include low-emission technology, but only to the extent of the incremental cost of equipping such vehicles or equipment with low-emission technology, as determined by the Secretary.

(c) CERTAIN PRIOR COSTS AS ALLOWABLE COSTS.—The Secretary may decide that a project cost under subsection (b)(2)(A) of this section incurred after May 13, 1946, and before the date the grant agreement is executed is allowable if it is—

(1) necessarily incurred in formulating an airport development project, including costs incurred for field surveys, plans and specifications, property interests in land or airspace, and administration or other incidental items that would not have been incurred except for the project; or

(2) necessarily and directly incurred in developing the work scope of an airport planning project.

(d) TERMINAL DEVELOPMENT COSTS.—(1) The Secretary may decide that the cost of terminal development (including multi-modal terminal development) in a nonrevenue-producing public-use area of a commercial service airport is allowable for an airport development project at the airport—

(A) if the sponsor certifies that the airport, on the date the grant application is submitted to the Secretary, has—

(i) all the safety equipment required for certification of the airport under section 44706 of this title;

(ii) all the security equipment required by regulation; and

(iii) provided for access, to the area of the airport for passengers for boarding or exiting aircraft, to those passengers boarding or exiting aircraft, except air carrier aircraft;

(B) if the cost is directly related to moving passengers and baggage in air commerce within the airport, including vehicles for moving passengers between terminal facilities and between terminal facilities and aircraft; and

(C) under terms necessary to protect the interests of the Government.

(2) In making a decision under paragraph (1) of this subsection, the Secretary may approve as allowable costs the expenses of terminal development in a revenue-producing area and construction, reconstruction, repair, and improvement in a nonrevenue-producing parking lot if—

(A) except as provided in section 47108(e)(3), the airport does not have more than .05 percent of the total annual passenger boardings in the United States; and

(B) the sponsor certifies that any needed airport development project affecting safety, security, or capacity will not be deferred because of the Secretary's approval.

(e) LETTERS OF INTENT.—(1) The Secretary may issue a letter of intent to the sponsor stating an intention to obligate from future budget authority an amount, not more than the Government's share of allowable project costs, for an airport development project (including costs of formulating the project) at a primary or reliever airport. The letter shall establish a schedule under which the Secretary will reimburse the sponsor for the Government's share of allowable project costs, as amounts become available, if the sponsor, after the Secretary issues the letter, carries out the project without receiving amounts under this subchapter.

(2) Paragraph (1) of this subsection applies to a project—

(A) about which the sponsor notifies the Secretary, before the project begins, of the sponsor's intent to carry out the project;

(B) that will comply with all statutory and administrative requirements that would apply to the project if it were carried out with amounts made available under this subchapter; and

(C) that meets the criteria of section 47115(d) and, if for a project at a commercial service airport having at least 0.25 percent of the boardings each year at all such airports, the Secretary decides will enhance system-wide airport capacity significantly.

¹ So in original. Probably should be "compatibility".

² See References in Text note below.

(3) A letter of intent issued under paragraph (1) of this subsection is not an obligation of the Government under section 1501 of title 31, and the letter is not deemed to be an administrative commitment for financing. An obligation or administrative commitment may be made only as amounts are provided in authorization and appropriation laws.

(4) The total estimated amount of future Government obligations covered by all outstanding letters of intent under paragraph (1) of this subsection may not be more than the amount authorized to carry out section 48103 of this title, less an amount reasonably estimated by the Secretary to be needed for grants under section 48103 that are not covered by a letter.

(5) **LETTERS OF INTENT.**—The Secretary may not require an eligible agency to impose a passenger facility fee under section 40117 in order to obtain a letter of intent under this section.

(6) **LIMITATION ON STATUTORY CONSTRUCTION.**—Nothing in this section shall be construed to prohibit the obligation of amounts pursuant to a letter of intent under this subsection in the same fiscal year as the letter of intent is issued.

(f) **NONALLOWABLE COSTS.**—Except as provided in subsection (d) of this section and section 47118(f) of this title, a cost is not an allowable airport development project cost if it is for—

- (1) constructing a public parking facility for passenger automobiles;
- (2) constructing, altering, or repairing part of an airport building, except to the extent the building will be used for facilities or activities directly related to the safety of individuals at the airport;
- (3) decorative landscaping; or
- (4) providing or installing sculpture or art works.

(g) **USE OF DISCRETIONARY FUNDS.**—A project for which cost reimbursement is provided under subsection (b)(2)(C) shall not receive priority consideration with respect to the use of discretionary funds made available under section 47115 of this title even if the amounts made available under paragraphs (1) and (2) of section 47114(c) or section 47114(d)(3)(A) are not sufficient to cover the Government's share of the cost of the project.

(h) **NONPRIMARY AIRPORTS.**—The Secretary may decide that the costs of revenue producing aeronautical support facilities, including fuel farms and hangars, are allowable for an airport development project at a nonprimary airport if the Government's share of such costs is paid only with funds apportioned to the airport sponsor under section 47114(d)(3)(A) and if the Secretary determines that the sponsor has made adequate provision for financing airside needs of the airport.

In subsection (a), the words “for airport development or airport planning” are omitted because of the definition of “project” in section 47102 of the revised title. The text of 49 App.:2212(a) (last sentence) is omitted as surplus because of 49:322(a).

In subsection (b)(1), the word “approved” is omitted as surplus because a project that was not approved could not be carried out in compliance with a grant agreement. The words “in compliance with the grant agreement made for the project under this subchapter” are substituted for “in conformity with the terms and conditions of the grant agreement entered into in connection with the project” to eliminate unnecessary words. The word “sponsor” is substituted for “recipient” for clarity.

In subsection (b)(2)(A), the words “with respect to the project” are omitted as unnecessary because “the grant agreement” means “the grant agreement made for the project” referred to in clause (1) of this subsection. The words “under the project” are omitted as surplus.

Subsection (b)(3) is substituted for “in the opinion of the Secretary it is reasonable in amount, and if the Secretary determines that a project cost is unreasonable in amount, the Secretary may allow as an allowable project cost only so much of such project cost as the Secretary determines to be reasonable” to eliminate unnecessary words.

Subsection (b)(5) is substituted for “except that in no event may the Secretary allow project costs in excess of the definite amount stated in the grant agreement except to the extent authorized by section 2211(b) of this Appendix” for consistency in this section.

In subsection (c), before clause (1), the words “The Secretary may decide that a project cost . . . is allowable” are substituted for “However, the allowable costs of a project . . . may include . . . and the allowable costs of a project . . . may include” for clarity and consistency in the revised title. The words “incurred after May 13, 1946, and before the date the grant agreement is executed” are substituted for “which were incurred prior to the execution of the grant agreement and subsequent to May 13, 1946” and “which were incurred subsequent to May 13, 1946” to eliminate unnecessary words. In clause (1), the words “preparation of”, “acquisition of”, “by the sponsor specifically in connection with the accomplishment of the project for airport development” are omitted as surplus. The words “property interests in land or airspace” are substituted for “land or interests therein or easements through or other interests in airspace” to eliminate unnecessary words.

In subsection (d)(1), before clause (A), the words “The Secretary may decide that the cost . . . is allowable” are substituted for “the Secretary may approve, as allowable project costs” and “The Secretary shall approve project costs allowable under paragraph (1) of this subsection” for clarity and consistency in this section. In clause (B), the words “the boundaries of” are omitted as surplus. In clause (C), the words “and conditions” are omitted as being included in “terms”.

In subsection (d)(2), the words “In making a decision under paragraph (1) of this subsection, the Secretary may approve as allowable costs” are substituted for “In the case of a commercial service airport . . . the Secretary may approve, under the preceding sentence as allowable project costs” for consistency in this subsection.

In subsection (e)(1), the word “sponsor” is substituted for “applicant” for consistency. The words “stipulated as” and “Subject to the provisions of this paragraph” are omitted as surplus. The word “reimburse” is substituted for “make payments under paragraph (2) of this subsection” and “pay” for clarity. The words “payable on account of such project in accordance with such letter of intent” are omitted as surplus.

In subsection (e)(2), before clause (A), the text of 49 App.:2212(d)(1)(C) (last sentence) is omitted as obsolete.

In subsection (e)(3), the words “A letter of intent issued” are substituted for “action” for clarity. The word “deemed” before “an obligation” is omitted as surplus.

In subsection (f)(2), the words “of a hangar or” are omitted as being included in “airport building”.

LETTERS OF INTENT FOR AIRPORT SECURITY IMPROVEMENT PROJECTS

Pub. L. 108-7, div. I, title III, §367, Feb. 20, 2003, 117 Stat. 423, provided that:

“(a) The Under Secretary of Transportation for Security may issue a letter of intent to an airport committing to obligate from future budget authority an amount, not more than the Federal Government’s share of the project’s cost, for an airport security improvement project (including interest costs and costs of formulating the project) at the airport. The letter shall establish a schedule under which the Under Secretary will reimburse the airport for the Government’s share of the project’s costs, as amounts become available, if the airport, after the Under Secretary issues the letter,

carries out the project without receiving amounts under Chapter 471 of title 49 [United States Code].

“(b) The airport shall notify the Under Secretary of the airport’s intent to carry out the airport security improvement project before the project begins.

“(c) A letter of intent may be issued under this section only if—

“(1) The airport security improvement project to which the letter applies involves the replacement of baggage conveyer systems or the reconfiguration of terminal baggage areas in order to install explosive detection systems; and

“(2) The Under Secretary determines that the project will improve security or will improve the efficiency of the airport without lessening security.

“(d) A letter of intent issued under this section is not an obligation of the Government under section 1501 of title 31 [United States Code], and the letter is not deemed to be an administrative commitment for financing. An obligation or administrative commitment may be made only as amounts are provided in authorization and appropriations laws.

“(e) The Government’s share of the project’s cost shall be 75 percent for a project at an airport having at least 0.25 percent of the total number of passenger boardings each year at all airports and 90 percent for a project at any other airport.

“(f) Nothing in this section shall be construed to prohibit the obligation of amounts pursuant to a letter of intent under this section in the same fiscal year as the letter of intent is issued.

“(g) The Under Secretary shall notify the House and Senate Committees on Appropriations, the House Transportation and Infrastructure Committee, and the Senate Commerce, Science, and Transportation Committee at least 3 days prior to the issuance of a letter of intent under this section.

§ 47111. Payments under project grant agreements

(a) GENERAL AUTHORITY.—After making a project grant agreement under this subchapter and consulting with the sponsor, the Secretary of Transportation may decide when and in what

amounts payments under the agreement will be made. Payments totaling not more than 90 percent of the United States Government’s share of the project’s estimated allowable costs may be made before the project is completed if the sponsor certifies to the Secretary that the total amount expended from the advance payments at any time will not be more than the cost of the airport development work completed on the project at that time.

(b) RECOVERING PAYMENTS.—If the Secretary determines that the total amount of payments made under a grant agreement under this subchapter is more than the Government’s share of the total allowable project costs, the Government may recover the excess amount. If the Secretary finds that a project for which an advance payment was made has not been completed within a reasonable time, the Government may recover any part of the advance payment for which the Government received no benefit.

(c) PAYMENT DEPOSITS.—A payment under a project grant agreement under this subchapter may be made only to an official or depository designated by the sponsor and authorized by law to receive public money.

(d) WITHHOLDING PAYMENTS.—(1) The Secretary may withhold a payment under a grant agreement under this subchapter for more than 180 days after the payment is due only if the Secretary—

(A) notifies the sponsor and provides an opportunity for a hearing; and

(B) finds that the sponsor has violated the agreement.

(2) The 180-day period may be extended by—

(A) agreement of the Secretary and the sponsor; or

(B) the hearing officer if the officer decides an extension is necessary because the sponsor did not follow the schedule the officer established.

(3) A person adversely affected by an order of the Secretary withholding a payment may apply for review of the order by filing a petition in the United States Court of Appeals for the District of Columbia Circuit or in the court of appeals of the United States for the circuit in which the project is located. The petition must be filed not later than 60 days after the order is served on the petitioner.

(e) ACTION ON GRANT ASSURANCES CONCERNING AIRPORT REVENUES.—If, after notice and opportunity for a hearing, the Secretary finds a violation of section 47107(b) of this title, as further defined by the Secretary under section 47107(l) of this title, or a violation of an assurance made under section 47107(b) of this title, and the Secretary has provided an opportunity for the airport sponsor to take corrective action to cure such violation, and such corrective action has not been taken within the period of time set by the Secretary, the Secretary shall withhold approval of any new grant application for funds under this chapter, or any proposed modification to an existing grant that would increase the amount of funds made available under this chapter to the airport sponsor, and withhold approval of any new application to impose a fee under section 40117 of this title. Such applica-

tions may thereafter be approved only upon a finding by the Secretary that such corrective action as the Secretary requires has been taken to address the violation and that the violation no longer exists.

(f) JUDICIAL ENFORCEMENT.—For any violation of this chapter or any grant assurance made under this chapter, the Secretary may apply to the district court of the United States for any district in which the violation occurred for enforcement. Such court shall have jurisdiction to enforce obedience thereto by a writ of injunction or other process, mandatory or otherwise, restraining any person from further violation.

(a) CONSTRUCTION WORK.—The Secretary of Transportation may inspect and approve construction work for an airport development project carried out under a grant agreement under this subchapter. The construction work must be carried out in compliance with regulations the Secretary prescribes. The regulations shall require the sponsor to make necessary cost and progress reports on the project. The regula-

tions may amend or modify a contract related to the project only if the contract was made with actual notice of the regulations.

(b) PREVAILING WAGES.—A contract for more than \$2,000 involving labor for an airport development project carried out under a grant agreement under this subchapter must require contractors to pay labor minimum wage rates as determined by the Secretary of Labor under sections 3141-3144, 3146, and 3147 of title 40. The minimum rates must be included in the bids for the work and in the invitation for those bids.

(2) A contract involving labor for carrying out an airport development project under a grant agreement under this subchapter must require that preference in the employment of labor (except in executive, administrative, and supervisory positions) be given to Vietnam-era veterans and disabled veterans when they are available and qualified for the employment.

EFFECTIVE DATE OF 1994 AMENDMENT

Amendment by Pub. L. 103-429 effective July 5, 1994, see section 9 of Pub. L. 103-429, set out as a note under section 321 of this title.

§ 47114. **Apportionments**

(a) DEFINITION.—In this section, “amount subject to apportionment” means the amount newly made available under section 48103 of this title for a fiscal year.

(b) APPORTIONMENT DATE.—On the first day of each fiscal year, the Secretary of Transportation shall apportion the amount subject to apportionment for that fiscal year as provided in this section.

(c) AMOUNTS APPORTIONED TO SPONSORS.—

(1) PRIMARY AIRPORTS.—

(A) APPORTIONMENT.—The Secretary shall apportion to the sponsor of each primary airport for each fiscal year an amount equal to—

(i) \$7.80 for each of the first 50,000 passenger boardings at the airport during the prior calendar year;

(ii) \$5.20 for each of the next 50,000 passenger boardings at the airport during the prior calendar year;

(iii) \$2.60 for each of the next 400,000 passenger boardings at the airport during the prior calendar year;

(iv) \$.65 for each of the next 500,000 passenger boardings at the airport during the prior calendar year; and

(v) \$.50 for each additional passenger boarding at the airport during the prior calendar year.

(B) MINIMUM AND MAXIMUM APPORTIONMENTS.—Not less than \$650,000 nor more than \$22,000,000 may be apportioned under subparagraph (A) of this paragraph to an airport sponsor for a primary airport for each fiscal year.

(C) SPECIAL RULE.—In any fiscal year in which the total amount made available under section 48103 is \$3,200,000,000 or more—

(i) the amount to be apportioned to a sponsor under subparagraph (A) shall be increased by doubling the amount that would otherwise be apportioned;

(ii) the minimum apportionment to a sponsor under subparagraph (B) shall be \$1,000,000 rather than \$650,000; and

(iii) the maximum apportionment to a sponsor under subparagraph (B) shall be \$26,000,000 rather than \$22,000,000.

(D) NEW AIRPORTS.—Notwithstanding subparagraph (A), the Secretary shall apportion on the first day of the first fiscal year following the official opening of a new airport with scheduled passenger air transportation an amount equal to the minimum amount set forth in subparagraph (B) or (C), as appropriate, to the sponsor of such airport.

(E) USE OF PREVIOUS FISCAL YEAR'S APPORTIONMENT.—Notwithstanding subparagraph (A), the Secretary may apportion to an airport sponsor in a fiscal year an amount equal to the amount apportioned to that sponsor in the previous fiscal year if the Secretary finds that—

(i) passenger boardings at the airport fell below 10,000 in the calendar year used to calculate the apportionment;

(ii) the airport had at least 10,000 passenger boardings in the calendar year prior to the calendar year used to calculate apportionments to airport sponsors in a fiscal year; and

(iii) the cause of the shortfall in passenger boardings was a temporary but significant interruption in service by an air carrier to that airport due to an employment action, natural disaster, or other event unrelated to the demand for air transportation at the affected airport.

(F) SPECIAL RULE FOR FISCAL YEARS 2004 AND 2005.—Notwithstanding subparagraph (A) and the absence of scheduled passenger aircraft service at an airport, the Secretary may apportion in fiscal years 2004 and 2005 to the sponsor of the airport an amount equal to the amount apportioned to that sponsor in fiscal year 2002 or 2003, whichever amount is greater, if the Secretary finds that—

(i) the passenger boardings at the airport were below 10,000 in calendar year 2002 or 2003;

(ii) the airport had at least 10,000 passenger boardings and scheduled passenger aircraft service in either calendar year 2000 or 2001; and

(iii) the reason that passenger boardings described in clause (i) were below 10,000

was the decrease in passengers following the terrorist attacks of September 11, 2001.

(G) SPECIAL RULE FOR FISCAL YEAR 2006.—Notwithstanding subparagraph (A) and the absence of scheduled passenger aircraft service at an airport, the Secretary may apportion in fiscal year 2006 to the sponsor of the airport an amount equal to \$500,000, if the Secretary finds that—

(i) the passenger boardings at the airport were below 10,000 in calendar year 2004;

(ii) the airport had at least 10,000 passenger boardings and scheduled passenger aircraft service in either calendar year 2000 or 2001; and

(iii) the reason that passenger boardings described in clause (i) were below 10,000 was the decrease in passengers following the terrorist attacks of September 11, 2001.

(2) CARGO AIRPORTS.—

(A) APPORTIONMENT.—Subject to subparagraph (D), the Secretary shall apportion an amount equal to 3.5 percent of the amount subject to apportionment each fiscal year to the sponsors of airports served by aircraft providing air transportation of only cargo with a total annual landed weight of more than 100,000,000 pounds.

(B) SUBALLOCATION FORMULA.—Any funds apportioned under subparagraph (A) to sponsors of airports described in subparagraph (A) shall be allocated among those airports in the proportion that the total annual landed weight of aircraft described in subparagraph (A) landing at each of those airports bears to the total annual landed weight of those aircraft landing at all those airports.

(C) LIMITATION.—In any fiscal year in which the total amount made available under section 48103 is less than \$3,200,000,000, not more than 8 percent of the amount apportioned under subparagraph (A) may be apportioned for any one airport.

(D) DISTRIBUTION TO OTHER AIRPORTS.—Before apportioning amounts to the sponsors of airports under subparagraph (A) for a fiscal year, the Secretary may set-aside a portion of such amounts for distribution to the sponsors of other airports, selected by the Secretary, that the Secretary finds will be served primarily by aircraft providing air transportation of only cargo.

(E) DETERMINATION OF LANDED WEIGHT.—Landed weight under this paragraph is the landed weight of aircraft landing at each airport described in subparagraph (A) during the prior calendar year.

(d) AMOUNTS APPORTIONED FOR GENERAL AVIATION AIRPORTS.—

(1) DEFINITIONS.—In this subsection, the following definitions apply:

(A) AREA.—The term “area” includes land and water.

(B) POPULATION.—The term “population” means the population stated in the latest decennial census of the United States.

(2) APPORTIONMENT.—Except as provided in paragraph (3), the Secretary shall apportion to the States 18.5 percent of the amount subject

to apportionment for each fiscal year as follows:

(A) 0.66 percent of the apportioned amount to Guam, American Samoa, the Northern Mariana Islands, and the Virgin Islands.

(B) Except as provided in paragraph (4), 49.67 percent of the apportioned amount for airports, excluding primary airports but including reliever and nonprimary commercial service airports, in States not named in subparagraph (A) in the proportion that the population of each of those States bears to the total population of all of those States.

(C) Except as provided in paragraph (4), 49.67 percent of the apportioned amount for airports, excluding primary airports but including reliever and nonprimary commercial service airports, in States not named in subparagraph (A) in the proportion that the area of each of those States bears to the total area of all of those States.

(3) SPECIAL RULE.—In any fiscal year in which the total amount made available under section 48103 is \$3,200,000,000 or more, rather than making an apportionment under paragraph (2), the Secretary shall apportion 20 percent of the amount subject to apportionment for each fiscal year as follows:

(A) To each airport, excluding primary airports but including reliever and nonprimary commercial service airports, in States the lesser of—

(i) \$150,000; or

(ii) $\frac{1}{5}$ of the most recently published estimate of the 5-year costs for airport improvement for the airport, as listed in the national plan of integrated airport systems developed by the Federal Aviation Administration under section 47103.

(B) Any remaining amount to States as follows:

(i) 0.62 percent of the remaining amount to Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and the Virgin Islands.

(ii) Except as provided in paragraph (4), 49.69 percent of the remaining amount for airports, excluding primary airports but including reliever and nonprimary commercial service airports, in States not named in clause (i) in the proportion that the population of each of those States bears to the total population of all of those States.

(iii) Except as provided in paragraph (4), 49.69 percent of the remaining amount for airports, excluding primary airports but including reliever and nonprimary commercial service airports, in States not named in clause (i) in the proportion that the area of each of those States bears to the total area of all of those States.

(4) AIRPORTS IN ALASKA, PUERTO RICO, AND HAWAII.—An amount apportioned under paragraph (2) or (3) to Alaska, Puerto Rico, or Hawaii for airports in such State may be made available by the Secretary for any public airport in those respective jurisdictions.

(5) USE OF STATE HIGHWAY SPECIFICATIONS.—

(A) IN GENERAL.—The Secretary may permit the use of State highway specifications

for airfield pavement construction using funds made available under this subsection at nonprimary airports with runways of 5,000 feet or shorter serving aircraft that do not exceed 60,000 pounds gross weight if the Secretary determines that—

(i) safety will not be negatively affected; and

(ii) the life of the pavement will not be shorter than it would be if constructed using Administration standards.

(B) LIMITATION.—An airport may not seek funds under this subchapter for runway rehabilitation or reconstruction of any such airfield pavement constructed using State highway specifications for a period of 10 years after construction is completed unless the Secretary determines that the rehabilitation or reconstruction is required for safety reasons.

(6) INTEGRATED AIRPORT SYSTEM PLANNING.—Notwithstanding any other provision of this subsection, funds made available under this subsection may be used for integrated airport system planning that encompasses one or more primary airports.

(e) SUPPLEMENTAL APPORTIONMENT FOR ALASKA.—

(1) IN GENERAL.—Notwithstanding subsections (c) and (d) of this section, the Secretary may apportion amounts for airports in Alaska in the way in which amounts were apportioned in the fiscal year ending September 30, 1980, under section 15(a) of the Act. However, in apportioning amounts for a fiscal year under this subsection, the Secretary shall apportion—

(A) for each primary airport at least as much as would be apportioned for the airport under subsection (c)(1) of this section; and

(B) a total amount at least equal to the minimum amount required to be apportioned to airports in Alaska in the fiscal year ending September 30, 1980, under section 15(a)(3)(A) of the Act.

(2) AUTHORITY FOR DISCRETIONARY GRANTS.—This subsection does not prohibit the Secretary from making project grants for airports in Alaska from the discretionary fund under section 47115 of this title.

(3) AIRPORTS ELIGIBLE FOR FUNDS.—An amount apportioned under this subsection may be used for any public airport in Alaska.

(4) SPECIAL RULE.—In any fiscal year in which the total amount made available under section 48103 is \$3,200,000,000 or more, the amount that may be apportioned for airports in Alaska under paragraph (1) shall be increased by doubling the amount that would otherwise be apportioned.

(f) REDUCING APPORTIONMENTS.—

(1) IN GENERAL.—Subject to paragraph (3), an amount that would be apportioned under this section (except subsection (c)(2)) in a fiscal year to the sponsor of an airport having at least .25 percent of the total number of boardings each year in the United States and for which a fee is imposed in the fiscal year under

section 40117 of this title shall be reduced by an amount equal to—

(A) in the case of a fee of \$3.00 or less, 50 percent of the projected revenues from the fee in the fiscal year but not by more than 50 percent of the amount that otherwise would be apportioned under this section; and

(B) in the case of a fee of more than \$3.00, 75 percent of the projected revenues from the fee in the fiscal year but not by more than 75 percent of the amount that otherwise would be apportioned under this section.

(2) EFFECTIVE DATE OF REDUCTION.—A reduction in an apportionment required by paragraph (1) shall not take effect until the first fiscal year following the year in which the collection of the fee imposed under section 40117 is begun.

(3) SPECIAL RULE FOR TRANSITIONING AIRPORTS.—

(A) IN GENERAL.—Beginning with the fiscal year following the first calendar year in which the sponsor of an airport has more than .25 percent of the total number of boardings in the United States, the sum of the amount that would be apportioned under this section after application of paragraph (1) in a fiscal year to such sponsor and the projected revenues to be derived from the fee in such fiscal year shall not be less than the sum of the apportionment to such airport for the preceding fiscal year and the revenues derived from such fee in the preceding fiscal year.

(B) EFFECTIVE PERIOD.—Subparagraph (A) shall be in effect for fiscal year 2004.

APPORTIONED FUNDS

Pub. L. 107-71, title I, §119(b), Nov. 19, 2001, 115 Stat. 629, provided that: "For the purpose of carrying out section 47114 of title 49, United States Code, for fiscal year 2003, the Secretary shall use, in lieu of passenger boardings at an airport during the prior calendar year, the greater of—

"(1) the number of passenger boardings at that airport during 2000; or

"(2) the number of passenger boardings at that airport during 2001."

[For definition of "airport" used in section 119(b) of Pub. L. 107-71, set out above, see section 133 of Pub. L. 107-71, set out as a note under section 40102 of this title.]

§ 47115. Discretionary fund

(a) EXISTENCE AND AMOUNTS IN FUND.—The Secretary of Transportation has a discretionary fund. The fund consists of—

(1) amounts subject to apportionment for a fiscal year that are not apportioned under section 47114(c)–(e) of this title; and

(2) 12.5 percent of amounts not apportioned under section 47114 of this title because of section 47114(f).

(b) AVAILABILITY OF AMOUNTS.—Subject to subsection (c) of this section and section 47117(e) of this title, the fund is available for making grants for any purpose for which amounts are made available under section 48103 of this title that the Secretary considers most appropriate to carry out this subchapter.

(c) MINIMUM PERCENTAGE FOR PRIMARY AND RELIEVER AIRPORTS.—At least 75 percent of the amount in the fund and distributed by the Secretary in a fiscal year shall be used for making grants—

(1) to preserve and enhance capacity, safety, and security at primary and reliever airports; and

(2) to carry out airport noise compatibility planning and programs at primary and reliever airports.

(d) CONSIDERATIONS.—

(1) FOR CAPACITY ENHANCEMENT PROJECTS.—In selecting a project for a grant to preserve and improve capacity funded in whole or in part from the fund, the Secretary shall consider—

(A) the effect that the project will have on overall national transportation system capacity;

(B) the benefit and cost of the project, including, in the case of a project at a reliever airport, the number of operations projected to be diverted from a primary airport to the reliever airport as a result of the project, as well as the cost savings projected to be realized by users of the local airport system;

(C) the financial commitment from non-United States Government sources to preserve or improve airport capacity;

(D) the airport improvement priorities of the States to the extent such priorities are not in conflict with subparagraphs (A) and (B);

(E) the projected growth in the number of passengers or aircraft that will be using the airport at which the project will be carried out; and

(F) the ability of the project to foster United States competitiveness in securing global air cargo activity at a United States airport.

(2) FOR ALL PROJECTS.—In selecting a project for a grant under this section, the Secretary shall consider among other factors whether—

(A) funding has been provided for all other projects qualifying for funding during the fiscal year under this chapter that have attained a higher score under the numerical priority system employed by the Secretary in administering the fund; and

(B) the sponsor will be able to commence the work identified in the project application in the fiscal year in which the grant is made or within 6 months after the grant is made, whichever is later.

(e) WAIVING PERCENTAGE REQUIREMENT.—If the Secretary decides the Secretary cannot comply with the percentage requirement of subsection (c) of this section in a fiscal year because there are insufficient qualified grant applications to meet that percentage, the amount the Secretary determines will not be distributed as required by subsection (c) is available for obligation during the fiscal year without regard to the requirement.

(f) CONSIDERATION OF DIVERSION OF REVENUES IN AWARDING DISCRETIONARY GRANTS.—

(1) GENERAL RULE.—Subject to paragraph (2), in deciding whether or not to distribute funds to an airport from the discretionary funds established by subsection (a) of this section and section 47116 of this title, the Secretary shall consider as a factor militating against the distribution of such funds to the airport the fact that the airport is using revenues generated by the airport or by local taxes on aviation fuel for purposes other than capital or operating costs of the airport or the local airports system or other local facilities which are owned or operated by the owner or operator of

the airport and directly and substantially related to the actual air transportation of passengers or property.

(2) REQUIRED FINDING.—Paragraph (1) shall apply only when the Secretary finds that the amount of revenues used by the airport for purposes other than capital or operating costs in the airport's fiscal year preceding the date of the application for discretionary funds exceeds the amount of such revenues in the airport's first fiscal year ending after August 23, 1994, adjusted by the Secretary for changes in the Consumer Price Index of All Urban Consumers published by the Bureau of Labor Statistics of the Department of Labor.

(g) MINIMUM AMOUNT TO BE CREDITED.—

(1) GENERAL RULE.—In a fiscal year, there shall be credited to the fund, out of amounts made available under section 48103 of this title, an amount that is at least equal to the sum of—

(A) \$148,000,000; plus

(B) the total amount required from the fund to carry out in the fiscal year letters of intent issued before January 1, 1996, under section 47110(e) of this title or the Airport and Airway Improvement Act of 1982.

The amount credited is exclusive of amounts that have been apportioned in a prior fiscal year under section 47114 of this title and that remain available for obligation.

(2) REDUCTION OF APPORTIONMENTS.—In a fiscal year in which the amount credited under subsection (a) is less than the minimum amount to be credited under paragraph (1), the total amount calculated under paragraph (3) shall be reduced by an amount that, when credited to the fund, together with the amount credited under subsection (a), equals such minimum amount.

(3) AMOUNT OF REDUCTION.—For a fiscal year, the total amount available to make a reduction to carry out paragraph (2) is the total of the amounts determined under sections 47114(c)(1)(A), 47114(c)(2), 47114(d), and 47117(e) of this title. Each amount shall be reduced by an equal percentage to achieve the reduction.

(h) PRIORITY FOR LETTERS OF INTENT.—In making grants in a fiscal year with funds made available under this section, the Secretary shall fulfill intentions to obligate under section 47110(e).

(i) CONSIDERATIONS FOR PROJECT UNDER EXPANDED SECURITY ELIGIBILITY.—In order to assure that funding under this subchapter is provided to the greatest needs, the Secretary, in selecting a project described in section 47102(3)(J)¹ for a grant, shall consider the non-federal² resources available to sponsor, the use of such non-federal² resources, and the degree to which the sponsor is providing increased funding for the project.

(j) MARSHALL ISLANDS, MICRONESIA, AND PALAU.—For fiscal years 2004 through 2007, the sponsors of airports located in the Republic of the Marshall Islands, Federated States of Micronesia, and Republic of Palau shall be eligible for grants under this section and section 47116.

Sept. 3, 1982, 96 Stat. 671, as amended, which was classified principally to chapter 31 (§2201 et seq.) of former Title 49, Transportation, and was substantially repealed by Pub. L. 103-272, §7(b), July 5, 1994, 108 Stat. 1379, and reenacted by the first section thereof as this subchapter.

Section 47102(3)(J), referred to in subsec. (i), was repealed and subpar. (M) was redesignated (J) by Pub. L. 108-176, title I, §159(b)(1)(A), Dec. 12, 2003, 117 Stat. 2510.

AMENDMENTS

2003—Subsec. (d). Pub. L. 108-176, §148, amended subsec. (d) generally. Prior to amendment, subsec. (d) listed six things the Secretary was required to consider in selecting a project for a grant to preserve and enhance capacity as described in subsection (c)(1) of this section.

Subsec. (j). Pub. L. 108-176, §188, added subsec. (j).

2001—Subsec. (i). Pub. L. 107-71 added subsec. (i).

1999—Subsec. (a)(2). Pub. L. 106-6, §8(a)(1), substituted “12.5” for “25”.

Subsec. (b). Pub. L. 106-6, §8(a)(2), struck out at end “However, 50 percent of amounts not apportioned under section 47114 of this title because of section 47114(f) and added to the fund is available for making grants for projects at small hub airports (as defined in section 41731 of this title).”

Subsec. (g)(4). Pub. L. 106-6, §5, which directed the amendment of section 47115(g) by striking paragraph (4), without specifying the Code title to be amended, was executed by striking heading and text of par. (4) of subsec. (g) of this section, to reflect the probable intent of Congress. Text read as follows: “For a fiscal year in which the amount credited to the fund under this subsection exceeds \$300,000,000, the Secretary shall allocate the amount of such excess as follows:

“(A) ½ shall be made available to airports for which apportionments are made under section 47114(d) of this title.

“(B) ¼ shall be made available for airport noise compatibility planning under section 47505(a)(2) of this title and for carrying out noise compatibility programs under section 47504(c)(1) of this title.

“(C) ⅓ shall be made available to current or former military airports for which grants may be made under section 47117(e)(1)(B) of this title.”

1996—Subsec. (d)(2). Pub. L. 104-264, §145(a)(1), substituted “, including, in the case of a project at a reliever airport, the number of operations projected to be diverted from a primary airport to the reliever airport as a result of the project, as well as the cost savings projected to be realized by users of the local airport system;” for “; and”.

Subsec. (d)(4) to (6). Pub. L. 104-264, §145(a)(2), (3), added pars. (4) to (6).

Subsec. (f). Pub. L. 104-287, §5(81)(B), which directed that subsec. (f), as enacted by Pub. L. 103-429, be redesignated (g), could not be executed because of amendment by Pub. L. 104-264, §122, which struck out that subsec. See below.

Pub. L. 104-264, §122, struck out subsec. (f), relating to minimum amount to be credited, which read as follows:

“(f) MINIMUM AMOUNT TO BE CREDITED.—(1) In a fiscal year, at least \$325,000,000 of the amount made available under section 48103 of this title shall be credited to the fund. The amount credited is exclusive of amounts that have been apportioned in a prior fiscal year under section 47114 of this title and that remain available for obligation.

“(2) In a fiscal year in which the amount credited under subsection (a) of this section is less than \$325,000,000, the total amount calculated under paragraph (3) of this subsection shall be reduced by an amount that, when credited to the fund, together with the amount credited under subsection (a), equals \$325,000,000.

“(3) For a fiscal year, the total amount available to reduce to carry out paragraph (2) of this subsection is the total of the amounts determined under sections

47114(c)(1)(A) and (2) and (d) and 47117(e) of this title. Each amount shall be reduced by an equal percentage to achieve the reduction.”

Subsec. (f)(2). Pub. L. 104-287, §5(81)(A), substituted “August 23, 1994” for “the date of the enactment of this subsection”.

Subsec. (g). Pub. L. 104-264, §122, added subsec. (g).

Subsec. (h). Pub. L. 104-264, §145(b), added subsec. (h).

Pub. L. 103-305 added subsec. (f) relating to consideration of diversion of revenues in awarding discretionary grants.

L. 104-264, set out as a note under section 106 of this title.

§ 47116. Small airport fund

(a) EXISTENCE AND AMOUNTS IN FUND.—The Secretary of Transportation has a small airport fund. The fund consists of 87.5 percent of amounts not apportioned under section 47114 of this title because of section 47114(f).

(b) DISTRIBUTION OF AMOUNTS.—The Secretary may distribute amounts in the fund in each fiscal year for any purpose for which amounts are made available under section 48103 of this title as follows:

(1) one-seventh for grants for projects at small hub airports; and

(2) the remaining amounts based on the following:

(A) one-third for grants to sponsors of public-use airports (except commercial service airports).

(B) two-thirds for grants to sponsors of each commercial service airport that each year has less than .05 percent of the total boardings in the United States in that year.

(c) AUTHORITY TO RECEIVE GRANT NOT DEPENDENT ON PARTICIPATION IN BLOCK GRANT PILOT PROGRAM.—An airport in a State participating in the State block grant pilot program under section 47128 of this title may receive a grant under this section to the same extent the airport may receive a grant if the State were not participating in the program.

(d) PRIORITY CONSIDERATION FOR CERTAIN PROJECTS.—

(1) CONSTRUCTION OF NEW RUNWAYS.—In making grants to sponsors described in subsection (b)(2), the Secretary shall give priority consideration to multi-year projects for construction of new runways that the Secretary finds are cost beneficial and would increase capacity in a region of the United States.

(2) AIRPORT DEVELOPMENT FOR TURBINE POWERED AIRCRAFT.—In making grants to sponsors

described in subsection (b)(1), the Secretary shall give priority consideration to airport development projects to support operations by turbine powered aircraft if the non-Federal share of the project is at least 40 percent.

(e) SET-ASIDE FOR MEETING SAFETY TERMS IN AIRPORT OPERATING CERTIFICATES.—In the first fiscal year beginning after the effective date of regulations issued to carry out section 44706(b) with respect to airports described in section 44706(a)(2), and in each of the next 4 fiscal years, the lesser of \$15,000,000 or 20 percent of the amounts that would otherwise be distributed to sponsors of airports under subsection (b)(2) shall be used to assist the airports in meeting the terms established by the regulations. If the Secretary publishes in the Federal Register a finding that all the terms established by the regulations have been met, this subsection shall cease to be effective as of the date of such publication.

(f) NOTIFICATION OF SOURCE OF GRANT.—Whenever the Secretary makes a grant under this section, the Secretary shall notify the recipient of the grant, in writing, that the source of the grant is from the small airport fund.

L. 104–264, set out as a note under section 106 of this title.

§ 47117. Use of apportioned amounts

(a) GRANT PURPOSE.—Except as provided in this section, an amount apportioned under section 47114(c)(1) or (d)(2) of this title is available for making grants for any purpose for which amounts are made available under section 48103 of this title.

(b) PERIOD OF AVAILABILITY.—An amount apportioned under section 47114 of this title is available to be obligated for grants under the apportionment only during the fiscal year for which the amount was apportioned and the 2 fiscal years immediately after that year or the 3 fiscal years immediately following that year in the case of a nonhub airport or any airport that is not a commercial service airport. If the amount is not obligated under the apportionment within that time, it shall be added to the discretionary fund.

(c) PRIMARY AIRPORTS.—(1) An amount apportioned to a sponsor of a primary airport under section 47114(c)(1) of this title is available for grants for any public-use airport of the sponsor included in the national plan of integrated airport systems.

(2) WAIVER.—A sponsor of an airport may make an agreement with the Secretary of Transportation waiving the sponsor’s claim to any part of the amount apportioned for the airport under sections 47114(c) and 47114(d)(3)(A) if the Secretary agrees to make the waived amount available for a grant for another public-use airport in the same State or geographical area as the airport, as determined by the Secretary.

(d) STATE USE.—An amount apportioned to a State under—

(1) section 47114(d)(2)(A) of this title is available for grants for airports located in the State; and

(2) section 47114(d)(2)(B) or (C) of this title is available for grants for airports described in section 47114(d)(2)(B) or (C) and located in the State.

(e) SPECIAL APPORTIONMENT CATEGORIES.—(1) The Secretary shall use amounts available to the discretionary fund under section 47115 of this title for each fiscal year as follows:

(A) At least 35 percent for grants for airport noise compatibility planning under section 47505(a)(2), for carrying out noise compatibility programs under section 47504(c), for noise mitigation projects approved in an environmental record of decision for an airport development project under this title, for compatible land use planning and projects carried out by State and local governments under section

47141, and for airport development described in section 47102(3)(F), 47102(3)(K), or 47102(3)(L) to comply with the Clean Air Act (42 U.S.C. 7401 et seq.). The Secretary may count the amount of grants made for such planning and programs with funds apportioned under section 47114 in that fiscal year in determining whether or not such 35 percent requirement is being met in that fiscal year.

(B) at¹ least 4 percent to sponsors of current or former military airports designated by the Secretary under section 47118(a) of this title for grants for developing current and former military airports to improve the capacity of the national air transportation system and to sponsors of noncommercial service airports for grants for operational and maintenance expenses at any such airport if the amount of such grants to the sponsor of the airport does not exceed \$30,000 in that fiscal year, if the Secretary determines that the airport is adversely affected by the closure or realignment of a military base, and if the sponsor of the airport certifies that the airport would otherwise close if the airport does not receive the grant.

(C) In any fiscal year in which the total amount made available under section 48103 is \$3,200,000,000 or more, at least two-thirds of 1 percent for grants to sponsors of reliever airports which have—

- (i) more than 75,000 annual operations;
- (ii) a runway with a minimum usable landing distance of 5,000 feet;
- (iii) a precision instrument landing procedure;
- (iv) a minimum number of aircraft, to be determined by the Secretary, based at the airport; and
- (v) been designated by the Secretary as a reliever airport to an airport with 20,000 hours of annual delays in commercial passenger aircraft takeoffs and landings.

(2) If the Secretary decides that an amount required to be used for grants under paragraph (1) of this subsection cannot be used for a fiscal year because there are insufficient qualified grant applications, the amount the Secretary determines cannot be used is available during the fiscal year for grants for other airports or for other purposes for which amounts are authorized for grants under section 48103 of this title.

(3) PRIORITY.—The Secretary shall give priority in making grants under paragraph (1)(A) to applications for airport noise compatibility planning and programs at and around—

- (A) Chicago O'Hare International Airport;
- (B) LaGuardia Airport;
- (C) John F. Kennedy International Airport; and
- (D) Ronald Reagan Washington National Airport.

(f) DISCRETIONARY USE OF APPORTIONMENTS.—

(1) IN GENERAL.—Subject to paragraph (2), if the Secretary finds that all or part of an amount of an apportionment under section 47114 is not required during a fiscal year to

fund a grant for which the apportionment may be used, the Secretary may use during such fiscal year the amount not so required to make grants for any purpose for which grants may be made under section 48103. The finding may be based on the notifications that the Secretary receives under section 47105(f) or on other information received from airport sponsors.

(2) RESTORATION OF APPORTIONMENTS.—

(A) IN GENERAL.—If the fiscal year for which a finding is made under paragraph (1) with respect to an apportionment is not the last fiscal year of availability of the apportionment under subsection (b), the Secretary shall restore to the apportionment an amount equal to the amount of the apportionment used under paragraph (1) for a discretionary grant whenever a sufficient amount is made available under section 48103.

(B) PERIOD OF AVAILABILITY.—If restoration under this paragraph is made in the fiscal year for which the finding is made or the succeeding fiscal year, the amount restored shall be subject to the original period of availability of the apportionment under subsection (b). If the restoration is made thereafter, the amount restored shall remain available in accordance with subsection (b) for the original period of availability of the apportionment plus the number of fiscal years during which a sufficient amount was not available for the restoration.

(3) NEWLY AVAILABLE AMOUNTS.—

(A) RESTORED AMOUNTS TO BE UNAVAILABLE FOR DISCRETIONARY GRANTS.—Of an amount newly available under section 48103 of this title, an amount equal to the amounts restored under paragraph (2) shall not be available for discretionary grant obligations under section 47115.

(B) USE OF REMAINING AMOUNTS.—Subparagraph (A) does not impair the Secretary's authority under paragraph (1), after a restoration under paragraph (2), to apply all or part of a restored amount that is not required to fund a grant under an apportionment to fund discretionary grants.

(4) LIMITATIONS ON OBLIGATIONS APPLY.—

Nothing in this subsection shall be construed to authorize the Secretary to incur grant obligations under section 47104 for a fiscal year in an amount greater than the amount made available under section 48103 for such obligations for such fiscal year.

(g) LIMITING AUTHORITY OF SECRETARY.—The authority of the Secretary to make grants during a fiscal year from amounts that were apportioned for a prior fiscal year and remain available for approved airport development project grants under subsection (b) of this section may be impaired only by a law enacted after September 3, 1982, that expressly limits that authority.

§ 47118. Designating current and former military airports

(a) GENERAL REQUIREMENTS.—The Secretary of Transportation shall designate current or former military airports for which grants may be made under section 47117(e)(1)(B) of this title. The maximum number of airports bearing such designation at any time is 15. The Secretary may only so designate an airport (other than an airport so designated before August 24, 1994) if—

(1) the airport is a former military installation closed or realigned under—

(A) section 2687 of title 10;

(B) section 201 of the Defense Authorization Amendments and Base Closure and Realignment Act (10 U.S.C. 2687 note); or

(C) section 2905 of the Defense Base Closure and Realignment Act of 1990 (10 U.S.C. 2687 note); or

(2) the airport is a military installation with both military and civil aircraft operations.

(b) SURVEY.—Not later than September 30, 1991, the Secretary shall complete a survey of current and former military airports to identify which airports have the greatest potential to improve the capacity of the national air transportation system. The survey shall identify the capital development needs of those airports to make them part of the system and which of those qualify for grants under section 47104 of this title.

(c) CONSIDERATIONS.—In carrying out this section, the Secretary shall consider only current or former military airports for designation under this section if a grant under section 47117(e)(1)(B) would—

(1) reduce delays at an airport with more than 20,000 hours of annual delays in commercial passenger aircraft takeoffs and landings; or

(2) enhance airport and air traffic control system capacity in a metropolitan area or reduce current and projected flight delays.

(d) GRANTS.—Grants under section 47117(e)(1)(B) of this title may be made for an airport designated under subsection (a) of this section for the 5 fiscal years following the designation, and for subsequent periods, each not to exceed 5 fiscal years, if the Secretary determines that the airport satisfies the designation criteria under subsection (a) at the beginning of each such subsequent period.

(e) TERMINAL BUILDING FACILITIES.—From amounts the Secretary distributes to an airport under section 47115, \$10,000,000 for each of fiscal years 2004 and 2005, and \$7,000,000 for each fiscal year thereafter, is available to the sponsor of a current or former military airport the Secretary designates under this section to construct, improve, or repair a terminal building facility, including terminal gates used for revenue passengers getting on or off aircraft. A gate constructed, improved, or repaired under this subsection—

(1) may not be leased for more than 10 years; and

(2) is not subject to majority in interest clauses.

(f) PARKING LOTS, FUEL FARMS, UTILITIES, HANGARS, AND AIR CARGO TERMINALS.—

(1) CONSTRUCTION.—From amounts the Secretary distributes to an airport under section 47115, \$10,000,000 for each of fiscal years 2004 and 2005, and \$7,000,000 for each fiscal year thereafter, is available to the sponsor of a current or former military airport the Secretary designates under this section to construct, improve, or repair airport surface parking lots, fuel farms, utilities, and hangars and air cargo terminals of an area that is 50,000 square feet or less.

(2) REIMBURSEMENT.—Upon approval of the Secretary, the sponsor of a current or former military airport the Secretary designates under this section may use an amount apportioned under section 47114, or made available under section 47115 or 47117(e)(1)(B), to the airport for reimbursement of costs incurred by the airport in fiscal years 2003 and 2004 for construction, improvement, or repair described in paragraph (1).

(g) DESIGNATION OF GENERAL AVIATION AIRPORT.—Notwithstanding any other provision of this section, one of the airports bearing a designation under subsection (a) may be a general aviation airport that was a former military installation closed or realigned under a section referred to in subsection (a)(1).

Subsec. (c). Pub. L. 106-181, § 130(a)(2), added subsec. (c) and struck out heading and text of former subsec. (c). Text read as follows: "In carrying out this section, the Secretary shall consider only current or former military airports that, when at least partly converted to civilian commercial or reliever airports as part of the national air transportation system, will enhance airport and air traffic control system capacity in major metropolitan areas and reduce current and projected flight delays."

1996—Subsec. (a). Pub. L. 104-287, § 5(83)(A), which directed amendment of subsec. (a) by substituting "before August 24, 1994" for "on or before the date of the enactment of this sentence", could not be executed because the phrase to be amended did not appear subsequent to amendment by Pub. (a) GOVERNMENT RELIEF FROM LIABILITY.—The Secretary of Transportation shall ensure that an agreement under this subchapter with a qualified entity (as determined by the Secretary), State, or a political subdivision of a State to allow the entity, State, or subdivision to operate an airport facility relieves the United States Government from any liability arising out of, or related to, acts or omissions of employees of the entity, State, or subdivision in operating the airport facility.

(b) AIR TRAFFIC CONTROL CONTRACT PROGRAM.—(1) The Secretary shall continue the low

activity (Visual Flight Rules) level I air traffic control tower contract program established under subsection (a) of this section for towers existing on December 30, 1987, and extend the program to other towers as practicable.

(2) The Secretary may make a contract with a qualified entity (as determined by the Secretary) or, on a sole source basis, with a State or a political subdivision of a State to allow the entity, State, or subdivision to operate an airport traffic control tower classified as a level I (Visual Flight Rules) tower if the Secretary decides that the entity, State, or subdivision has the capability to comply with the requirements of this paragraph. The contract shall require that the entity, State, or subdivision comply with applicable safety regulations in operating the facility and with applicable competition requirements in making a subcontract to perform work to carry out the contract.

(3) CONTRACT AIR TRAFFIC CONTROL TOWER PROGRAM.—

(A) IN GENERAL.—The Secretary shall establish a program to contract for air traffic control services at nonapproach control towers, as defined by the Secretary, that do not qualify for the contract tower program established under subsection (a) and continued under paragraph (1) (in this paragraph referred to as the “Contract Tower Program”).

(B) PROGRAM COMPONENTS.—In carrying out the program, the Secretary shall—

(i) utilize for purposes of cost-benefit analyses, current, actual, site-specific data, forecast estimates, or airport master plan data provided by a facility owner or operator and verified by the Secretary; and

(ii) approve for participation only facilities willing to fund a pro rata share of the operating costs of the air traffic control tower to achieve a 1-to-1 benefit-to-cost ratio using actual site-specific contract tower operating costs in any case in which there is an operating air traffic control tower, as required for eligibility under the Contract Tower Program.

(C) PRIORITY.—In selecting facilities to participate in the program, the Secretary shall give priority to the following facilities:

(i) Air traffic control towers that are participating in the Contract Tower Program but have been notified that they will be terminated from such program because the Secretary has determined that the benefit-to-cost ratio for their continuation in such program is less than 1.0.

(ii) Air traffic control towers that the Secretary determines have a benefit-to-cost ratio of at least .50.

(iii) Air traffic control towers of the Federal Aviation Administration that are closed as a result of the air traffic controllers strike in 1981.

(iv) Air traffic control towers located at airports or points at which an air carrier is receiving compensation under the essential air service program under this chapter.

(v) Air traffic control towers located at airports that are prepared to assume partial responsibility for maintenance costs.

(vi) Air traffic control towers located at airports with safety or operational problems

related to topography, weather, runway configuration, or mix of aircraft.

(vii) Air traffic control towers located at an airport at which the community has been operating the tower at its own expense.

(4) CONSTRUCTION OF AIR TRAFFIC CONTROL TOWERS.—

AMENDMENTS

2003—Subsec. (a). Pub. L. 108-176, §105(1), added subsec. (a) and struck out heading and text of former subsec. (a). Text read as follows: “The Secretary of Transportation shall ensure that an agreement under this subchapter with a State or a political subdivision of a State to allow the State or subdivision to operate an airport facility in the State or subdivision relieves the United States Government from any liability arising out of, or related to, acts or omissions of employees of the State or subdivision in operating the airport facility.”

Subsec. (b)(2). Pub. L. 108-176, §105(2), added par. (2) and struck out former par. The contract shall require that the State or subdivision comply with applicable safety regulations in operating the facility and with applicable competition requirements in making a subcontract to perform work to carry out the contract.”

Subsec. (b)(3). Pub. L. 108-176, §105(3)(A), (B), struck out “PILOT” before “PROGRAM” in par. heading, before “program to contract” in subpar. (A), before “program, the Secretary” in subpars. (B) and (C), and before “program exceed” in subpar. (D).

Subsec. (b)(3)(A). Pub. L. 108-7, §370(b)(2)(A), substituted “nonapproach control towers, as defined by the Secretary,” for “Level I air traffic control towers, as defined by the Secretary,”.

Subsec. (b)(4). Pub. L. 108-7, §370(b)(1), reenacted heading without change and amended text generally. Prior to amendment, par. authorized the Secretary to provide grants under this subchapter to not more than two airport sponsors for the construction of a low-level activity visual flight rule (level 1) air traffic control tower.

§ 47125. Conveyances of United States Government land

(a) CONVEYANCES TO PUBLIC AGENCIES.—Except as provided in subsection (b) of this section, the Secretary of Transportation shall request the head of the department, agency, or instrumentality of the United States Government owning or controlling land or airspace to convey a property interest in the land or airspace to the public agency sponsoring the project or owning or

controlling the airport when necessary to carry out a project under this subchapter at a public airport, to operate a public airport, or for the future development of an airport under the national plan of integrated airport systems. The head of the department, agency, or instrumentality shall decide whether the requested conveyance is consistent with the needs of the department, agency, or instrumentality and shall notify the Secretary of that decision not later than 4 months after receiving the request. If the head of the department, agency, or instrumentality decides that the requested conveyance is consistent with its needs, the head of the department, agency, or instrumentality, with the approval of the Attorney General and without cost to the Government, shall make the conveyance. A conveyance may be made only on the condition that the property interest conveyed reverts to the Government, at the option of the Secretary, to the extent it is not developed for an airport purpose or used consistently with the conveyance. Before waiving a condition that property be used for an aeronautical purpose under the preceding sentence, the Secretary must provide notice to the public not less than 30 days before waiving such condition.

(b) NONAPPLICATION.—Except as specifically provided by law, subsection (a) of this section does not apply to land or airspace owned or controlled by the Government within—

In subsection (a), the text of 49 App.:2215(a) (last sentence) is omitted as surplus because a “property interest in land or airspace” necessarily includes “title to . . . land or any easement through . . . airspace”. The words “when necessary” are substituted for “whenever the Secretary determines that use of any lands owned or controlled by the United States is reasonably necessary for”, and the words “for the future development” are substituted for “including lands reasonably necessary to meet future development”, to eliminate unnecessary words. The words “not later than 4 months after receiving the request” are substituted for “Upon receipt of a request from the Secretary under this section” and “within a period of four months after receipt of the Secretary’s request” for clarity and to eliminate unnecessary words. The words “make the conveyance” are substituted for “perform any acts and to execute any instruments necessary to make the conveyance requested”, and the words “that the property interest conveyed reverts to the Government . . . to the extent it is not” are substituted for “the property interest conveyed shall revert to the United States in the event that the lands in question are not” and “If only a part

of the property interest conveyed is not developed for airport purposes, or used in a manner consistent with the terms of the conveyance, only that particular part shall, at the option of the Secretary, revert to the United States”, to eliminate unnecessary words. The words “the terms of” are omitted as surplus.

(a) AUTHORITY TO REQUEST SECRETARY'S DETERMINATION.—

(1) IN GENERAL.—The Secretary of Transportation shall issue a determination as to whether a fee imposed upon one or more air carriers (as defined in section 40102 of this title) by the owner or operator of an airport is reasonable if—

(A) a written request for such determination is filed with the Secretary by such owner or operator; or

(B) a written complaint requesting such determination is filed with the Secretary by an affected air carrier within 60 days after such carrier receives written notice of the establishment or increase of such fee.

(2) CALCULATION OF FEE.—A fee subject to a determination of reasonableness under this section may be calculated pursuant to either a compensatory or residual fee methodology or any combination thereof.

(3) SECRETARY NOT TO SET FEE.—In determining whether a fee is reasonable under this section, the Secretary may only determine whether the fee is reasonable or unreasonable and shall not set the level of the fee.

(4) FEES IMPOSED BY PRIVATELY-OWNED AIRPORTS.—In evaluating the reasonableness of a fee imposed by an airport receiving an exemption under section 47134 of this title, the Secretary shall consider whether the airport has complied with section 47134(c)(4).

(b) PROCEDURAL REGULATIONS.—Not later than 90 days after August 23, 1994, the Secretary shall publish in the Federal Register final regulations, policy statements, or guidelines establishing—

(1) the procedures for acting upon any written request or complaint filed under subsection (a)(1); and

(2) the standards or guidelines that shall be used by the Secretary in determining under this section whether an airport fee is reasonable.

(c) DECISIONS BY SECRETARY.—The final regulations, policy statements, or guidelines required in subsection (b) shall provide the following:

(1) Not more than 120 days after an air carrier files with the Secretary a written complaint relating to an airport fee, the Secretary shall issue a final order determining whether such fee is reasonable.

(2) Within 30 days after such complaint is filed with the Secretary, the Secretary shall dismiss the complaint if no significant dispute exists or shall assign the matter to an administrative law judge; and thereafter the matter shall be handled in accordance with part 302 of title 14, Code of Federal Regulations, or as modified by the Secretary to ensure an orderly disposition of the matter within the 120-day period and any specifically applicable provisions of this section.

(3) The administrative law judge shall issue a recommended decision within 60 days after the complaint is assigned or within such shorter period as the Secretary may specify.

(4) If the Secretary, upon the expiration of 120 days after the filing of the complaint, has not issued a final order, the decision of the administrative law judge shall be deemed to be the final order of the Secretary.

(5) Any party to the dispute may seek review of a final order of the Secretary under this subsection in the Circuit Court of Appeals for the District of Columbia Circuit or the court of appeals in the circuit where the airport which gives rise to the written complaint is located.

(6) Any findings of fact in a final order of the Secretary under this subsection, if supported by substantial evidence, shall be conclusive if challenged in a court pursuant to this subsection. No objection to such a final order shall be considered by the court unless objec-

tion was urged before an administrative law judge or the Secretary at a proceeding under this subsection or, if not so urged, unless there were reasonable grounds for failure to do so.

(d) PAYMENT UNDER PROTEST; GUARANTEE OF AIR CARRIER ACCESS.—

(1) PAYMENT UNDER PROTEST.—

(A) IN GENERAL.—Any fee increase or newly established fee which is the subject of a complaint that is not dismissed by the Secretary shall be paid by the complainant air carrier to the airport under protest.

(B) REFERRAL OR CREDIT.—Any amounts paid under this subsection by a complainant air carrier to the airport under protest shall be subject to refund or credit to the air carrier in accordance with directions in the final order of the Secretary within 30 days of such order.

(C) ASSURANCE OF TIMELY REPAYMENT.—In order to assure the timely repayment, with interest, of amounts in dispute determined not to be reasonable by the Secretary, the airport shall obtain a letter of credit, or surety bond, or other suitable credit facility, equal to the amount in dispute that is due during the 120-day period established by this section, plus interest, unless the airport and the complainant air carrier agree otherwise.

(D) DEADLINE.—The letter of credit, or surety bond, or other suitable credit facility shall be provided to the Secretary within 20 days of the filing of the complaint and shall remain in effect for 30 days after the earlier of 120 days or the issuance of a timely final order by the Secretary determining whether such fee is reasonable.

(2) GUARANTEE OF AIR CARRIER ACCESS.—Contingent upon an air carrier's compliance with the requirements of paragraph (1) and pending the issuance of a final order by the Secretary determining the reasonableness of a fee that is the subject of a complaint filed under subsection (a)(1)(B), an owner or operator of an airport may not deny an air carrier currently providing air service at the airport reasonable access to airport facilities or service, or otherwise interfere with an air carrier's prices, routes, or services, as a means of enforcing the fee.

(e) APPLICABILITY.—This section does not apply to—

- (1) a fee imposed pursuant to a written agreement with air carriers using the facilities of an airport;
- (2) a fee imposed pursuant to a financing agreement or covenant entered into prior to August 23, 1994; or
- (3) any other existing fee not in dispute as of August 23, 1994.

(f) EFFECT ON EXISTING AGREEMENTS.—Nothing in this section shall adversely affect—

- (1) the rights of any party under any existing written agreement between an air carrier and the owner or operator of an airport; or
- (2) the ability of an airport to meet its obligations under a financing agreement, or covenant, that is in force as of August 23, 1994.

(g) DEFINITION.—In this section, the term “fee” means any rate, rental charge, landing

fee, or other service charge for the use of airport facilities.

§ 47134. Pilot program on private ownership of airports

(a) SUBMISSION OF APPLICATIONS.—If a sponsor intends to sell or lease a general aviation airport or lease any other type of airport for a long term to a person (other than a public agency), the sponsor and purchaser or lessee may apply to the Secretary of Transportation for exemptions under this section.

(b) APPROVAL OF APPLICATIONS.—The Secretary may approve, with respect to not more than 5 airports, applications submitted under subsection (a) granting exemptions from the following provisions:

(1) USE OF REVENUES.—

(A) IN GENERAL.—The Secretary may grant an exemption to a sponsor from the provisions of sections 47107(b) and 47133 of this title (and any other law, regulation, or grant assurance) to the extent necessary to permit the sponsor to recover from the sale or lease of the airport such amount as may be approved—

- (i) in the case of a primary airport, by at least 65 percent of the scheduled air carriers serving the airport and by scheduled and nonscheduled air carriers whose aircraft landing at the airport during the preceding calendar year, had a total landed weight during the preceding calendar year of at least 65 percent of the total landed weight of all aircraft landing at the airport during such year; or
- (ii) in the case of a nonprimary airport, by the Secretary after the airport has con-

sulted with at least 65 percent of the owners of aircraft based at that airport, as determined by the Secretary.

(B) OBJECTION TO EXEMPTION.—An air carrier shall be deemed to have approved a sponsor's application for an exemption under subparagraph (A) unless the air carrier has submitted an objection, in writing, to the sponsor within 60 days of the filing of the sponsor's application with the Secretary, or within 60 days of the service of the application upon that air carrier, whichever is later.

(C) LANDED WEIGHT DEFINED.—In this paragraph, the term "landed weight" means the weight of aircraft transporting passengers or cargo, or both, in intrastate, interstate, and foreign air transportation, as the Secretary determines under regulations the Secretary prescribes.

(2) REPAYMENT REQUIREMENTS.—The Secretary may grant an exemption to a sponsor from the provisions of sections 47107 and 47152 of this title (and any other law, regulation, or grant assurance) to the extent necessary to waive any obligation of the sponsor to repay to the Federal Government any grants, or to return to the Federal Government any property, received by the airport under this title, the Airport and Airway Improvement Act of 1982, or any other law.

(3) COMPENSATION FROM AIRPORT OPERATIONS.—The Secretary may grant an exemption to a purchaser or lessee from the provisions of sections 47107(b) and 47133 of this title (and any other law, regulation, or grant assurance) to the extent necessary to permit the purchaser or lessee to earn compensation from the operations of the airport.

(c) TERMS AND CONDITIONS.—The Secretary may approve an application under subsection (b) only if the Secretary finds that the sale or lease agreement includes provisions satisfactory to the Secretary to ensure the following:

(1) The airport will continue to be available for public use on reasonable terms and conditions and without unjust discrimination.

(2) The operation of the airport will not be interrupted in the event that the purchaser or lessee becomes insolvent or seeks or becomes subject to any State or Federal bankruptcy, reorganization, insolvency, liquidation, or dissolution proceeding or any petition or similar law seeking the dissolution or reorganization of the purchaser or lessee or the appointment of a receiver, trustee, custodian, or liquidator for the purchaser or lessee or a substantial part of the purchaser or lessee's property, assets, or business.

(3) The purchaser or lessee will maintain, improve, and modernize the facilities of the airport through capital investments and will submit to the Secretary a plan for carrying out such maintenance, improvements, and modernization.

(4) Every fee of the airport imposed on an air carrier on the day before the date of the lease of the airport will not increase faster than the rate of inflation unless a higher amount is approved—

(A) by at least 65 percent of the air carriers serving the airport; and

(B) by air carriers whose aircraft landing at the airport during the preceding calendar year had a total landed weight during the preceding calendar year of at least 65 percent of the total landed weight of all aircraft landing at the airport during such year.

(5) The percentage increase in fees imposed on general aviation aircraft at the airport will not exceed the percentage increase in fees imposed on air carriers at the airport.

(6) Safety and security at the airport will be maintained at the highest possible levels.

(7) The adverse effects of noise from operations at the airport will be mitigated to the same extent as at a public airport.

(8) Any adverse effects on the environment from airport operations will be mitigated to the same extent as at a public airport.

(9) Any collective bargaining agreement that covers employees of the airport and is in effect on the date of the sale or lease of the airport will not be abrogated by the sale or lease.

(d) PARTICIPATION OF CERTAIN AIRPORTS.—

(1) GENERAL AVIATION AIRPORTS.—If the Secretary approves under subsection (b) applications with respect to 5 airports, one of the airports must be a general aviation airport.

(2) LARGE HUB AIRPORTS.—The Secretary may not approve under subsection (b) more than 1 application submitted by an airport that had 1 percent or more of the total passenger boardings (as defined in section 47102) in the United States in the preceding calendar year.

(e) REQUIRED FINDING THAT APPROVAL WILL NOT RESULT IN UNFAIR METHODS OF COMPETITION.—The Secretary may approve an application under subsection (b) only if the Secretary finds that the approval will not result in unfair and deceptive practices or unfair methods of competition.

(f) INTERESTS OF GENERAL AVIATION USERS.—In approving an application of an airport under this section, the Secretary shall ensure that the interests of general aviation users of the airport are not adversely affected.

(g) PASSENGER FACILITY FEES; APPORTIONMENTS; SERVICE CHARGES.—Notwithstanding that the sponsor of an airport receiving an exemption under subsection (b) is not a public agency, the sponsor shall not be prohibited from—

(1) imposing a passenger facility fee under section 40117 of this title;

(2) receiving apportionments under section 47114 of this title; or

(3) collecting reasonable rental charges, landing fees, and other service charges from aircraft operators under section 40116(e)(2) of this title.

(h) EFFECTIVENESS OF EXEMPTIONS.—An exemption granted under subsection (b) shall continue in effect only so long as the facilities sold or leased continue to be used for airport purposes.

(i) REVOCATION OF EXEMPTIONS.—The Secretary may revoke an exemption issued to a pur-

chaser or lessee of an airport under subsection (b)(3) if, after providing the purchaser or lessee with notice and an opportunity to be heard, the Secretary determines that the purchaser or lessee has knowingly violated any of the terms specified in subsection (c) for the sale or lease of the airport.

(j) **NONAPPLICATION OF PROVISIONS TO AIRPORTS OWNED BY PUBLIC AGENCIES.**—The provisions of this section requiring the approval of air carriers in determinations concerning the use of revenues, and imposition of fees, at an airport shall not be extended so as to apply to any airport owned by a public agency that is not participating in the program established by this section.

(k) **AUDITS.**—The Secretary may conduct periodic audits of the financial records and operations of an airport receiving an exemption under this section.

(l) **REPORT.**—Not later than 2 years after the date of the initial approval of an application under this section, the Secretary shall transmit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report on implementation of the program under this section.

(m) **GENERAL AVIATION AIRPORT DEFINED.**—In this section, the term “general aviation airport” means an airport that is not a commercial service airport.

§ 47136. Inherently low-emission airport vehicle pilot program

(a) **IN GENERAL.**—The Secretary of Transportation shall carry out a pilot program at not

more than 10 public-use airports under which the sponsors of such airports may use funds made available under section 48103 for use at such airports to carry out inherently low-emission vehicle activities. Notwithstanding any other provision of this subchapter, inherently low-emission vehicle activities shall for purposes of the pilot program be treated as eligible for assistance under this subchapter.

(b) LOCATION IN AIR QUALITY NONATTAINMENT AREAS.—

(1) IN GENERAL.—A public-use airport shall be eligible for participation in the pilot program only if the airport is located in an air quality nonattainment area (as defined in section 171(2) of the Clean Air Act (42 U.S.C. 7501(2))).

(2) SHORTAGE OF CANDIDATES.—If the Secretary receives an insufficient number of applications from public-use airports located in such areas, then the Secretary may consider applications from public-use airports that are not located in such areas.

(c) SELECTION CRITERIA.—In selecting from among applicants for participation in the pilot program, the Secretary shall give priority consideration to applicants that will achieve the greatest air quality benefits measured by the amount of emissions reduced per dollar of funds expended under the pilot program.

(d) UNITED STATES GOVERNMENT'S SHARE.—Notwithstanding any other provision of this subchapter, the United States Government's share of the costs of a project carried out under the pilot program shall be 50 percent.

(e) MAXIMUM AMOUNT.—Not more than \$2,000,000 may be expended under the pilot program at any single public-use airport.

(f) TECHNICAL ASSISTANCE.—

(1) IN GENERAL.—The sponsor of a public-use airport carrying out inherently low-emission vehicle activities under the pilot program may use not more than 10 percent of the amounts made available for expenditure at the airport in a fiscal year under the pilot program to receive technical assistance in carrying out such activities.

(2) ELIGIBLE CONSORTIUM.—To the maximum extent practicable, participants in the pilot program shall use an eligible consortium (as defined in section 5506¹ of this title) in the region of the airport to receive technical assistance described in paragraph (1).

(g) MATERIALS IDENTIFYING BEST PRACTICES.—The Administrator may develop and make available materials identifying best practices for carrying out low-emission vehicle activities based on the projects carried out under the pilot program and other sources.

(h) REPORT TO CONGRESS.—Not later than 18 months after the date of the enactment of this section, the Secretary shall transmit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report containing—

(1) an evaluation of the effectiveness of the pilot program;

(2) an identification of other public-use airports that expressed an interest in participating in the pilot program; and

(3) a description of the mechanisms used by the Secretary to ensure that the information and know-how gained by participants in the pilot program is transferred among the participants and to other interested parties, including other public-use airports.

(i) INHERENTLY LOW-EMISSION VEHICLE ACTIVITY DEFINED.—In this section, the term “inherently low-emission vehicle activity” means—

(1) the construction of infrastructure or modifications at public-use airports to enable the delivery of fuel and services necessary for the use of vehicles that are certified as inherently low-emission vehicles under title 40 of the Code of Federal Regulations and that—

(A) operate exclusively on compressed natural gas, liquefied natural gas, liquefied petroleum gas, electricity, hydrogen, or a blend at least 85 percent of which is methanol;

(B) are labeled in accordance with section 88.312-93(c) of such title; and

(C) are located or primarily used at public-use airports;

(2) the construction of infrastructure or modifications at public-use airports to enable the delivery of fuel and services necessary for the use of nonroad vehicles that—

(A) operate exclusively on compressed natural gas, liquefied natural gas, liquefied petroleum gas, electricity, hydrogen, or a blend at least 85 percent of which is methanol;

(B) meet or exceed the standards set forth in section 86.1708-99 of such title or the standards set forth in section 89.112(a) of such title, and are in compliance with the requirements of section 89.112(b) of such title; and

§ 47139. Emission credits for air quality projects

(a) **IN GENERAL.**—The Administrator of the Environmental Protection Agency, in consultation with the Secretary of Transportation, shall issue guidance on how to ensure that airport sponsors receive appropriate emission reduction credits for carrying out projects described in sections 40117(a)(3)(G), 47102(3)(F), 47102(3)(K), and 47102(3)(L). Such guidance shall include, at a minimum, the following conditions:

(1) The provision of credits is consistent with the Clean Air Act (42 U.S.C. 7402 et seq.).

(2) Credits generated by the emissions reductions are kept by the airport sponsor and may

only be used for purposes of any current or future general conformity determination under the Clean Air Act or as offsets under the Environmental Protection Agency's new source review program for projects on the airport or associated with the airport.

(3) Credits are calculated and provided to airports on a consistent basis nationwide.

(4) Credits are provided to airport sponsors in a timely manner.

(5) The establishment of a method to assure the Secretary that, for any specific airport project for which funding is being requested, the appropriate credits will be granted.

§ 47140. Airport ground support equipment emissions retrofit pilot program

(a) IN GENERAL.—The Secretary of Transportation shall carry out a pilot program at not more than 10 commercial service airports under which the sponsors of such airports may use an amount made available under section 48103 to retrofit existing eligible airport ground support equipment that burns conventional fuels to achieve lower emissions utilizing emission control technologies certified or verified by the Environmental Protection Agency.

(b) LOCATION IN AIR QUALITY NONATTAINMENT OR MAINTENANCE AREAS.—A commercial service

airport shall be eligible for participation in the pilot program only if the airport is located in an air quality nonattainment area (as defined in section 171(2) of the Clean Air Act (42 U.S.C. 7501(2))) or a maintenance area referred to in section 175A of such Act (42 U.S.C. 7505a).

(c) SELECTION CRITERIA.—In selecting from among applicants for participation in the pilot program, the Secretary shall give priority consideration to applicants that will achieve the greatest air quality benefits measured by the amount of emissions reduced per dollar of funds expended under the pilot program.

(d) MAXIMUM AMOUNT.—Not more than \$500,000 may be expended under the pilot program at any single commercial service airport.

(e) GUIDELINES.—The Secretary, in consultation with the Administrator of the Environmental Protection Agency, shall establish guidelines regarding the types of retrofit projects eligible under the pilot program by considering remaining equipment useful life, amounts of emission reduction in relation to the cost of projects, and other factors necessary to carry out this section. The Secretary may give priority to ground support equipment owned by the airport and used for airport purposes.

(f) ELIGIBLE EQUIPMENT DEFINED.—In this section, the term “eligible equipment” means ground service or maintenance equipment that is located at the airport, is used to support aeronautical and related activities at the airport, and will remain in operation at the airport for the life or useful life of the equipment, whichever is earlier.

§ 47141. Compatible land use planning and projects by State and local governments

(a) IN GENERAL.—The Secretary of Transportation may make grants, from amounts set aside under section 47117(e)(1)(A), to States and units of local government for development and implementation of land use compatibility plans and implementation of land use compatibility projects resulting from those plans for the purposes of making the use of land areas around large hub airports and medium hub airports compatible with aircraft operations. The Secretary may make a grant under this section for a land use compatibility plan or a project resulting from such plan only if—

(1) the airport operator has not submitted a noise compatibility program to the Secretary under section 47504 or has not updated such program within the preceding 10 years; and

(2) the land use plan or project meets the requirements of this section.

(b) ELIGIBILITY.—In order to receive a grant under this section, a State or unit of local government must—

(1) have the authority to plan and adopt land use control measures, including zoning, in the

planning area in and around a large or medium hub airport;

(2) enter into an agreement with the airport owner or operator that the development of the land use compatibility plan will be done cooperatively; and

(3) provide written assurance to the Secretary that it will achieve, to the maximum extent possible, compatible land uses consistent with Federal land use compatibility criteria under section 47502(3) and that those compatible land uses will be maintained.

(c) ASSURANCES.—The Secretary shall require a State or unit of local government to which a grant may be made under this section for a land use plan or a project resulting from such plan to provide—

(1) assurances satisfactory to the Secretary that the plan—

(A) is reasonably consistent with the goal of reducing existing noncompatible land uses and preventing the introduction of additional noncompatible land uses;

(B) addresses ways to achieve and maintain compatible land uses, including zoning, building codes, and any other land use compatibility measures under section 47504(a)(2) that are within the authority of the State or unit of local government to implement;

(C) uses noise contours provided by the airport operator that are consistent with the airport operation and planning, including any noise abatement measures adopted by the airport operator as part of its own noise mitigation efforts;

(D) does not duplicate, and is not inconsistent with, the airport operator's noise compatibility measures for the same area; and

(E) has been approved jointly by the airport owner or operator and the State or unit of local government; and

(2) such other assurances as the Secretary determines to be necessary to carry out this section.

(d) GUIDELINES.—The Secretary shall establish guidelines to administer this section in accordance with the purposes and conditions described in this section. The Secretary may require a State or unit of local government to which a grant may be made under this section to provide progress reports and other information as the Secretary determines to be necessary to carry out this section.

(e) ELIGIBLE PROJECTS.—The Secretary may approve a grant under this section to a State or unit of local government for a project resulting from a land use compatibility plan only if the Secretary is satisfied that the project is consistent with the guidelines established by the Secretary under this section, the State or unit of local government has provided the assurances required by this section, the State or unit of local government has implemented (or has made provision to implement) those elements of the plan that are not eligible for Federal financial assistance, and that the project is not inconsistent with applicable Federal Aviation Administration standards.

(f) SUNSET.—This section shall not be in effect after September 30, 2007.

§ 47142. Design-build contracting

(a) IN GENERAL.—The Administrator of the Federal Aviation Administration may approve an application of an airport sponsor under this section to authorize the airport sponsor to award a design-build contract using a selection process permitted under applicable State or local law if—

(1) the Administrator approves the application using criteria established by the Administrator;

(2) the design-build contract is in a form that is approved by the Administrator;

(3) the Administrator is satisfied that the contract will be executed pursuant to competitive procedures and contains a schematic design adequate for the Administrator to approve the grant;

(4) use of a design-build contract will be cost effective and expedite the project;

(5) the Administrator is satisfied that there will be no conflict of interest; and

(6) the Administrator is satisfied that the selection process will be as open, fair, and objective as the competitive bid system and that at least 3 or more bids will be submitted for each project under the selection process.

(b) REIMBURSEMENT OF COSTS.—The Administrator may reimburse an airport sponsor for design and construction costs incurred before a grant is made pursuant to this section if the project is approved by the Administrator in advance and is carried out in accordance with all administrative and statutory requirements that would have been applicable under this chapter if the project were carried out after a grant agreement had been executed.

(c) DESIGN-BUILD CONTRACT DEFINED.—In this section, the term “design-build contract” means an agreement that provides for both design and construction of a project by a contractor.

SUBCHAPTER II—SURPLUS PROPERTY FOR PUBLIC AIRPORTS

§ 47151. Authority to transfer an interest in surplus property

(a) GENERAL AUTHORITY.—Subject to sections 47152 and 47153 of this title, a department, agency, or instrumentality of the executive branch of the United States Government or a wholly owned Government corporation may convey to a

State, political subdivision of a State, or tax-supported organization any interest in surplus property—

(1) that the Secretary of Transportation decides is—

(A) desirable for developing, improving, operating, or maintaining a public airport (as defined in section 47102 of this title);

(B) reasonably necessary to fulfill the immediate and foreseeable future requirements for developing, improving, operating, or maintaining a public airport; or

(C) needed for developing sources of revenue from nonaviation businesses at a public airport; and

(2) if the Administrator of General Services approves the conveyance and decides the interest is not best suited for industrial use.

(b) ENSURING COMPLIANCE.—Only the Secretary may ensure compliance with an instrument conveying an interest in surplus property under this subchapter. The Secretary may amend the instrument to correct the instrument or to make the conveyance comply with law.

(c) DISPOSING OF INTERESTS NOT CONVEYED UNDER THIS SUBCHAPTER.—An interest in surplus property that could be used at a public airport but that is not conveyed under this subchapter shall be disposed of under other applicable law.

(d) WAIVER OF CONDITION.—Before the Secretary may waive any condition imposed on an interest in surplus property conveyed under subsection (a) that such interest be used for an aeronautical purpose, the Secretary must provide notice to the public not less than 30 days before waiving such condition.

(e) REQUESTS BY PUBLIC AGENCIES.—Except with respect to a request made by another department, agency, or instrumentality of the executive branch of the United States Government, such a department, agency, or instrumentality shall give priority consideration to a request made by a public agency (as defined in section 47102) for surplus property described in subsection (a) (other than real property that is subject to section 2687 of title 10, section 201 of the Defense Authorization Amendments and Base Closure and Realignment Act (10 U.S.C. 2687 note), or section 2905 of the Defense Base Closure and Realignment Act of 1990 (10 U.S.C. 2687 note)) for use at a public airport.

In subsection (a), before clause (1), the words “Notwithstanding any other provision of this Act” are omitted as surplus. The words “Subject to sections 47152 and 47153 of this title” are substituted for “but subject to the terms, conditions, reservations, and restrictions hereinafter provided for” to eliminate unnecessary words. The words “a department, agency, or instrumentality of the executive branch of the United States Government or a wholly owned Government corporation” are substituted for “any disposal agency designated pursuant to this Act” for clarity because disposal agencies were Government agencies designated under 50 App.:1619(a), that was repealed by section 602(a)(1) of the Federal Property and Administrative Services Act of 1949 (ch. 288, 63 Stat. 399), and Government agencies were all departments, agencies, and instrumentalities of the executive branch of the United States Government and wholly owned Government corporations. The word “give” is substituted for “convey or dispose of . . . without monetary consideration to the United States”, to eliminate unnecessary words. The word “municipality” is omitted as being included in “political subdivision”. The words “of a State” are added for clarity and consistency in the revised title and with other titles of the United States Code. The word “organization” is substituted for “institution” for consistency in the revised title. The words “all of the right, title, and . . . of the United States . . . and to . . . real or personal” are omitted as surplus. In clause (1)(A), the words “essential, suitable, or” are omitted as surplus. In clause (1)(B), the words “of the grantee” are omitted as surplus. In clause (2), the words “Administrator of General Services” are substituted for “[War Assets] Administrator” in section 13(g)(1) of the Surplus Property Act of 1944 (ch. 479, 58 Stat. 765) because of section 105 of the Federal Property and Administrative Services Act of 1949 (ch. 288, 63 Stat. 381). The words “and decides the interest is not best suited for industrial use” are substituted for “(exclusive of property the highest and best use of which is determined by the Administrator of General Services to be industrial and which shall be so classified for disposal without regard to the provisions of this subsection)” to eliminate unnecessary words.

Subsection (b) is substituted for 50 App.:1622b to eliminate unnecessary words.

In subsection (c), the text of 50 App.:1622(g)(5) is omitted as obsolete because 50 App.:1621, 1622(f), and 1627(e) were repealed by section 602(a)(1) of the Federal Property and Administrative Services Act of 1949 (ch. 288, 63 Stat. 399). The words “An interest in surplus property that could be used at a public airport” are substituted for “All surplus property within the purview of this subsection” for clarity. The words “elsewhere in this Act or other applicable” are omitted as surplus. The word “law” is substituted for “Federal Statute” for consistency in the revised title and with other titles of the Code.

Amendment by Pub. L. 106-181 applicable only to fiscal years beginning after Sept. 30, 1999, see section 3 of Pub. L. 106-181, set out as a note under section 106 of this title.

CONSTRUCTION OF 2000 AMENDMENT

Nothing in amendment by section 125(c) of Pub. L. 106-181 to be construed to authorize Secretary of Transportation to issue waiver or make a modification referred to in such amendment, see section 125(e) of Pub. L. 106-181, set out as a note under section 47107 of this title.

§ 47152. Terms of conveyances

Except as provided in section 47153 of this title, the following terms apply to a conveyance of an interest in surplus property under this chapter:

(1) A State, political subdivision of a State, or tax-supported organization receiving the interest may use, lease, salvage, or dispose of the interest for other than airport purposes only after the Secretary of Transportation gives written consent that the interest can be used, leased, salvaged, or disposed of without materially and adversely affecting the development, improvement, operation, or maintenance of the airport at which the property is located.

(2) The interest shall be used and maintained for public use and benefit without unreasonable discrimination.

(3) A right may not be vested in a person, excluding others in the same class from using the airport at which the property is located—

(A) to conduct an aeronautical activity requiring the operation of aircraft; or

(B) to engage in selling or supplying aircraft, aircraft accessories, equipment, or supplies (except gasoline and oil), or aircraft services necessary to operate aircraft (including maintaining and repairing aircraft, aircraft engines, propellers, and appliances).

(4) The State, political subdivision, or tax-supported organization accepting the interest shall clear and protect the aerial approaches to the airport by mitigating existing, and preventing future, airport hazards.

(5) During a national emergency declared by the President or Congress, the United States Government is entitled to use, control, or possess, without charge, any part of the public airport at which the property is located. However, the Government shall—

(A) pay the entire cost of maintaining the part of the airport it exclusively uses, controls, or possesses during the emergency;

(B) contribute a reasonable share, consistent with the Government’s use, of the cost of maintaining the property it uses nonexclusively, or over which the Government has nonexclusive control or possession, during the emergency; and

(C) pay a fair rental for use, control, or possession of improvements to the airport made without Government assistance.

(6) The Government is entitled to the non-exclusive use, without charge, of the landing area of an airport at which the property is located. The Secretary may limit the use of the landing area if necessary to prevent unreasonable interference with use by other authorized aircraft. However, the Government shall—

(A) contribute a reasonable share, consistent with the Government’s use, of the cost of maintaining and operating the landing area; and

(B) pay for damages caused by its use of the landing area if its use of the landing area is substantial.

(7) The State, political subdivision, or tax-supported organization accepting the interest shall release the Government from all liability for damages arising under an agreement that provides for Government use of any part of an airport owned, controlled, or operated by the State, political subdivision, or tax-supported organization on which, adjacent to which, or in connection with which, the property is located.

(8) When a term under this section is not satisfied, any part of the interest in the property reverts to the Government, at the option of the Government, as the property then exists.

SUBCHAPTER III—AVIATION
DEVELOPMENT STREAMLINING

§ 47171. Expedited, coordinated environmental review process

(a) AVIATION PROJECT REVIEW PROCESS.—The Secretary of Transportation shall develop and implement an expedited and coordinated environmental review process for airport capacity enhancement projects at congested airports, aviation safety projects, and aviation security projects that—

(1) provides for better coordination among the Federal, regional, State, and local agencies concerned with the preparation of environmental impact statements or environmental assessments under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.);

(2) provides that all environmental reviews, analyses, opinions, permits, licenses, and approvals that must be issued or made by a Federal agency or airport sponsor for such a project will be conducted concurrently, to the maximum extent practicable; and

(3) provides that any environmental review, analysis, opinion, permit, license, or approval that must be issued or made by a Federal agency or airport sponsor for such a project will be completed within a time period established by the Secretary, in cooperation with the agencies identified under subsection (d) with respect to the project.

(b) AVIATION PROJECTS SUBJECT TO A STREAMLINED ENVIRONMENTAL REVIEW PROCESS.—

(1) AIRPORT CAPACITY ENHANCEMENT PROJECTS AT CONGESTED AIRPORTS.—An airport capacity enhancement project at a congested airport shall be subject to the coordinated and expedited environmental review process requirements set forth in this section.

(2) AVIATION SAFETY AND AVIATION SECURITY PROJECTS.—

(A) IN GENERAL.—The Administrator of the Federal Aviation Administration may designate an aviation safety project or aviation security project for priority environmental review. The Administrator may not delegate this designation authority. A designated project shall be subject to the coordinated and expedited environmental review process requirements set forth in this section.

(B) PROJECT DESIGNATION CRITERIA.—The Administrator shall establish guidelines for the designation of an aviation safety project or aviation security project for priority environmental review. Such guidelines shall provide for consideration of—

(i) the importance or urgency of the project;

(ii) the potential for undertaking the environmental review under existing emergency procedures under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.);

(iii) the need for cooperation and concurrent reviews by other Federal or State agencies;

(iv) the prospect for undue delay if the project is not designated for priority review; and

(v) for aviation security projects, the views of the Department of Homeland Security.

(c) HIGH PRIORITY OF AND AGENCY PARTICIPATION IN COORDINATED REVIEWS.—

(1) HIGH PRIORITY FOR ENVIRONMENTAL REVIEWS.—Each Federal agency with jurisdiction over an environmental review, analysis, opinion, permit, license, or approval shall accord any such review, analysis, opinion, permit, license, or approval involving an airport capacity enhancement project at a congested airport or a project designated under subsection (b)(2) the highest possible priority and conduct the review, analysis, opinion, permit, license, or approval expeditiously.

(2) AGENCY PARTICIPATION.—Each Federal agency described in subsection (d) shall formulate and implement administrative, policy, and procedural mechanisms to enable the agency to participate in the coordinated environmental review process under this section and to ensure completion of environmental reviews, analyses, opinions, permits, licenses, and approvals described in subsection (a) in a timely and environmentally responsible manner.

(d) IDENTIFICATION OF JURISDICTIONAL AGENCIES.—With respect to each airport capacity enhancement project at a congested airport or a project designated under subsection (b)(2), the Secretary shall identify, as soon as practicable, all Federal and State agencies that may have jurisdiction over environmental-related matters that may be affected by the project or may be required by law to conduct an environmental-related review or analysis of the project or determine whether to issue an environmental-related permit, license, or approval for the project.

(e) STATE AUTHORITY.—Under a coordinated review process being implemented under this section by the Secretary with respect to a project at an airport within the boundaries of a State, the Governor of the State, consistent with State law, may choose to participate in such process and provide that all State agencies that have jurisdiction over environmental-related matters that may be affected by the project or may be required by law to conduct an environmental-related review or analysis of the project or determine whether to issue an environmental-related permit, license, or approval for the project, be subject to the process.

(f) MEMORANDUM OF UNDERSTANDING.—The coordinated review process developed under this section may be incorporated into a memorandum of understanding for a project between the Secretary and the heads of other Federal and State agencies identified under subsection (d) with respect to the project and, if applicable, the airport sponsor.

(g) USE OF INTERAGENCY ENVIRONMENTAL IMPACT STATEMENT TEAMS.—

(1) IN GENERAL.—The Secretary may utilize an interagency environmental impact statement team to expedite and coordinate the coordinated environmental review process for

a project under this section. When utilizing an interagency environmental impact statement team, the Secretary shall invite Federal, State and Tribal agencies with jurisdiction by law, and may invite such agencies with special expertise, to participate on an interagency environmental impact statement team.

(2) RESPONSIBILITY OF INTERAGENCY ENVIRONMENTAL IMPACT STATEMENT TEAM.—Under a coordinated environmental review process being implemented under this section, the interagency environmental impact statement team shall assist the Federal Aviation Administration in the preparation of the environmental impact statement. To facilitate timely and efficient environmental review, the team shall agree on agency or Tribal points of contact, protocols for communication among agencies, and deadlines for necessary actions by each individual agency (including the review of environmental analyses, the conduct of required consultation and coordination, and the issuance of environmental opinions, licenses, permits, and approvals). The members of the team may formalize their agreement in a written memorandum.

(h) LEAD AGENCY RESPONSIBILITY.—The Federal Aviation Administration shall be the lead agency for projects designated under subsection (b)(2) and airport capacity enhancement projects at congested airports and shall be responsible for defining the scope and content of the environmental impact statement, consistent with regulations issued by the Council on Environmental Quality. Any other Federal agency or State agency that is participating in a coordinated environmental review process under this section shall give substantial deference, to the extent consistent with applicable law and policy, to the aviation expertise of the Federal Aviation Administration.

(i) EFFECT OF FAILURE TO MEET DEADLINE.—

(1) NOTIFICATION OF CONGRESS AND CEQ.— If the Secretary determines that a Federal agency, State agency, or airport sponsor that is participating in a coordinated review process under this section with respect to a project has not met a deadline established under subsection (a)(3) for the project, the Secretary shall notify, within 30 days of the date of such determination, the Committee on Commerce, Science, and Transportation of the Senate, the Committee on Transportation and Infrastructure of the House of Representatives, the Council on Environmental Quality, and the agency or sponsor involved about the failure to meet the deadline.

(2) AGENCY REPORT.—Not later than 30 days after date of receipt of a notice under paragraph (1), the agency or sponsor involved shall submit a report to the Secretary, the Committee on Transportation and Infrastructure of the House of Representatives, the Committee on Commerce, Science, and Transportation of the Senate, and the Council on Environmental Quality explaining why the agency or sponsor did not meet the deadline and what actions it intends to take to complete or issue the required review, analysis, opinion, permit, license, or approval.

(j) PURPOSE AND NEED.—For any environmental review, analysis, opinion, permit, license, or approval that must be issued or made by a Federal or State agency that is participating in a coordinated review process under this section and that requires an analysis of purpose and need for the project, the agency, notwithstanding any other provision of law, shall be bound by the project purpose and need as defined by the Secretary.

(k) ALTERNATIVES ANALYSIS.—The Secretary shall determine the reasonable alternatives to an airport capacity enhancement project at a congested airport or a project designated under subsection (b)(2). Any other Federal agency, or State agency that is participating in a coordinated review process under this section with respect to the project shall consider only those alternatives to the project that the Secretary has determined are reasonable.

(l) SOLICITATION AND CONSIDERATION OF COMMENTS.—In applying subsections (j) and (k), the Secretary shall solicit and consider comments from interested persons and governmental entities in accordance with the National Environmental Policy Act of 1969 (42 U.S.C. 4371 et seq.).

(m) MONITORING BY TASK FORCE.—The Transportation Infrastructure Streamlining Task Force, established by Executive Order 13274 (67 Fed. Reg. 59449; relating to environmental stewardship and transportation infrastructure project reviews), may monitor airport projects that are subject to the coordinated review process under this section.

AMENDMENTS

2003—Subsec. (a). Pub. L. 108-176, §324(1), substituted “a forecast period that is at least 5 years in the future” for “1985,” in introductory provisions.

Subsec. (b). Pub. L. 108-176, §324(2), added subsec. (b) and struck out heading and text of former subsec. (b). Text read as follows: “If a change in the operation of an airport will establish a substantial new noncompatible use in an area surrounding the airport, the airport operator shall submit a revised noise exposure map to the Secretary showing the new noncompatible use.”

EFFECTIVE DATE OF 2003 AMENDMENT

Amendment by Pub. L. 108-176 applicable only to fiscal years beginning after Sept. 30, 2003, except as otherwise specifically provided, see section 3 of Pub. L. 108-176, set out as a note under section 106 of this title.

NOISE DISCLOSURE

Pub. L. 108-176, title III, §322, Dec. 12, 2003, 117 Stat. 2540, provided that:

“(a) NOISE DISCLOSURE SYSTEM IMPLEMENTATION STUDY.—The Administrator of the Federal Aviation Administration shall conduct a study to determine the feasibility of developing a program under which prospective home buyers of property located in the vicinity of an airport could be notified of information derived from noise exposure maps that may affect the use and enjoyment of the property. The study shall assess the scope, administration, usefulness, and burdensomeness of any such program, the costs and benefits of such a program, and whether participation in such a program should be voluntary or mandatory.

“(b) PUBLIC AVAILABILITY OF NOISE EXPOSURE MAPS.—The Administrator shall make noise exposure and land use information from noise exposure maps available to the public via the Internet on its website in an appropriate format.

“(c) NOISE EXPOSURE MAP.—In this section, the term ‘noise exposure map’ means a noise exposure map prepared under section 47503 of title 49, United States Code.”

§ 47504. Noise compatibility programs

(a) SUBMISSIONS.—(1) An airport operator that submitted a noise exposure map and related information under section 47503(a) of this title may submit a noise compatibility program to the Secretary of Transportation after—

- (A) consulting with public agencies and planning authorities in the area surrounding the airport, United States Government officials having local responsibility for the airport, and air carriers using the airport; and
- (B) notice and an opportunity for a public hearing.

(2) A program submitted under paragraph (1) of this subsection shall state the measures the operator has taken or proposes to take to reduce existing noncompatible uses and prevent introducing additional noncompatible uses in the area covered by the map. The measures may include—

- (A) establishing a preferential runway system;
- (B) restricting the use of the airport by a type or class of aircraft because of the noise characteristics of the aircraft;
- (C) constructing barriers and acoustical shielding and soundproofing public buildings;
- (D) using flight procedures to control the operation of aircraft to reduce exposure of individuals to noise in the area surrounding the airport; and
- (E) acquiring land, air rights, easements, development rights, and other interests to ensure that the property will be used in ways compatible with airport operations.

(b) APPROVALS.—(1) The Secretary shall approve or disapprove a program submitted under subsection (a) of this section (except as the program is related to flight procedures referred to in subsection (a)(2)(D) of this section) not later than 180 days after receiving it. The Secretary shall approve the program (except as the program is related to flight procedures referred to in subsection (a)(2)(D)) if the program—

- (A) does not place an unreasonable burden on interstate or foreign commerce;
- (B) is reasonably consistent with achieving the goal of reducing noncompatible uses and preventing the introduction of additional noncompatible uses; and

(C) provides for necessary revisions because of a revised map submitted under section 47503(b) of this title.

(2) A program (except as the program is related to flight procedures referred to in subsection (a)(2)(D) of this section) is deemed to be approved if the Secretary does not act within the 180-day period.

(3) The Secretary shall submit any part of a program related to flight procedures referred to in subsection (a)(2)(D) of this section to the Administrator of the Federal Aviation Administration. The Administrator shall approve or disapprove that part of the program.

(4) The Secretary shall not approve in fiscal years 2004 through 2007 a program submitted under subsection (a) if the program requires the expenditure of funds made available under section 48103 for mitigation of aircraft noise less than 65 DNL.

(c) GRANTS.—(1) The Secretary may incur obligations to make grants from amounts available under section 48103 of this title to carry out a project under a part of a noise compatibility program approved under subsection (b) of this section. A grant may be made to—

(A) an airport operator submitting the program; and

(B) a unit of local government in the area surrounding the airport, if the Secretary decides the unit is able to carry out the project.

(2) SOUNDPROOFING AND ACQUISITION OF CERTAIN RESIDENTIAL BUILDINGS AND PROPERTIES.—The Secretary may incur obligations to make grants from amounts made available under section 48103 of this title—

(A) for projects to soundproof residential buildings—

(i) if the airport operator received approval for a grant for a project to soundproof residential buildings pursuant to section 301(d)(4)(B) of the Airport and Airway Safety and Capacity Expansion Act of 1987;

(ii) if the airport operator submits updated noise exposure contours, as required by the Secretary; and

(iii) if the Secretary determines that the proposed projects are compatible with the purposes of this chapter;

(B) to an airport operator and unit of local government referred to in paragraph (1)(A) or (1)(B) of this subsection to soundproof residential buildings located on residential properties, and to acquire residential properties, at which noise levels are not compatible with normal operations of an airport—

(i) if the airport operator amended an existing local aircraft noise regulation during calendar year 1993 to increase the maximum permitted noise levels for scheduled air carrier aircraft as a direct result of implementation of revised aircraft noise departure procedures mandated for aircraft safety purposes by the Administrator of the Federal Aviation Administration for standardized application at airports served by scheduled air carriers;

(ii) if the airport operator submits updated noise exposure contours, as required by the Secretary; and

(iii) if the Secretary determines that the proposed projects are compatible with the purposes of this chapter;

(C) to an airport operator and unit of local government referred to in paragraph (1)(A) or (1)(B) of this subsection to carry out any part of a program developed before February 18, 1980, or before implementing regulations were prescribed, if the Secretary decides the program is substantially consistent with reducing existing noncompatible uses and preventing the introduction of additional noncompatible uses and the purposes of this chapter will be furthered by promptly carrying out the program;

(D) to an airport operator and unit of local government referred to in paragraph (1)(A) or (1)(B) of this subsection to soundproof a building in the noise impact area surrounding the airport that is used primarily for educational or medical purposes and that the Secretary decides is adversely affected by airport noise; and

(E) to an airport operator of a congested airport (as defined in section 47175) and a unit of local government referred to in paragraph (1)(B) of this subsection to carry out a project to mitigate noise in the area surrounding the airport if the project is included as a commitment in a record of decision of the Federal Aviation Administration for an airport capacity enhancement project (as defined in section 47175) even if that airport has not met the requirements of part 150 of title 14, Code of Federal Regulations.

(3) An airport operator may agree to make a grant made under paragraph (1)(A) of this subsection available to a public agency in the area surrounding the airport if the Secretary decides the agency is able to carry out the project.

(4) The Government's share of a project for which a grant is made under this subsection is the greater of—

(A) 80 percent of the cost of the project; or

(B) the Government's share that would apply if the amounts available for the project were made available under subchapter I of chapter 471 of this title for a project at the airport.

(5) The provisions of subchapter I of chapter 471 of this title related to grants apply to a grant made under this chapter, except—

(A) section 47109(a) and (b) of this title; and

(B) any provision that the Secretary decides is inconsistent with, or unnecessary to carry out, this chapter.

(6) AIRCRAFT NOISE PRIMARILY CAUSED BY MILITARY AIRCRAFT.—The Secretary may make a grant under this subsection for a project even if the purpose of the project is to mitigate the effect of noise primarily caused by military aircraft at an airport.

(d) GOVERNMENT RELIEF FROM LIABILITY.—The Government is not liable for damages from aviation noise because of action taken under this section.

In this section, the word “providing” is substituted for “engaging in” for consistency in the revised title.

In subsection (a), the words “acting through the Administrator” and “acting through the Administrator of the Federal Aviation Administration (14 CFR part 36)” are omitted for consistency. Section 6(c)(1) of the Department of Transportation Act (Public Law 89-670, 80 Stat. 938) transferred all duties and powers of the Federal Aviation Agency and the Administrator to the Secretary of Transportation. However, the Secretary was to carry out certain provisions through the Administrator. In addition, various laws enacted since then have vested duties and powers in the Administrator. All provisions of law the Secretary is required to carry out through the Administrator are included in 49:106(g). Before clause (1), the words “If, by January 1, 1980, the International Civil Aviation Organization (hereafter referred to as ‘ICAO’) does not reach an agreement” and “commence a rulemaking to” and 49 App.:2122(a) (last

sentence) are omitted as executed. In clause (1), the words “as such regulations were” are omitted as surplus. In clause (2), the words “on noise standards and an international schedule” and “(annex 16)” are omitted as surplus. The words “of the Secretary for new subsonic aircraft in regulations of the Secretary at parts 36 and 91 of title 14, Code of Federal Regulations, prescribed between January 2, 1977, and January 1, 1982” are substituted for “set forth in such regulations issued by the Secretary (14 CFR parts 36 and 91) during the 5-year period thereafter” for clarity and consistency.

In subsection (b), the words “in effect” are omitted as surplus.

IMPLEMENTATION OF CHAPTER 4 NOISE STANDARDS

Pub. L. 108-176, title III, §325, Dec. 12, 2003, 117 Stat. 2542, provided that: “Not later than April 1, 2005, the Secretary of Transportation shall issue final regulations to implement Chapter 4 noise standards, consistent with the recommendations adopted by the International Civil Aviation Organization.”

STANDARDS FOR AIRCRAFT AND AIRCRAFT ENGINES TO REDUCE NOISE LEVELS

Pub. L. 106-181, title VII, §726, Apr. 5, 2000, 114 Stat. 167, provided that:

“(a) DEVELOPMENT OF NEW STANDARDS.—The Secretary [of Transportation] shall continue to work to develop through the International Civil Aviation Organization new performance standards for aircraft and aircraft engines that will lead to a further reduction in aircraft noise levels.

“(b) GOALS TO BE CONSIDERED IN DEVELOPING NEW STANDARDS.—In negotiating standards under subsection (a), the Secretary shall give high priority to developing standards that—

“(1) are performance based and can be achieved by use of a full range of certifiable noise reduction technologies;

“(2) protect the useful economic value of existing Stage 3 aircraft in the United States fleet;

“(3) ensure that United States air carriers and aircraft engine and hushkit manufacturers are not competitively disadvantaged;

“(4) use dynamic economic modeling capable of determining impacts on all aircraft in service in the United States fleet; and

“(5) continue the use of a balanced approach to address aircraft environmental issues, taking into account aircraft technology, land use planning, economic feasibility, and airspace operational improvements.

“(c) ANNUAL REPORT.—Not later than July 1, 2000, and annually thereafter, the Secretary shall transmit to Congress a report regarding the application of new standards or technologies to reduce aircraft noise levels.”

AIRCRAFT NOISE RESEARCH PROGRAM

Pub. L. 102-581, title III, §304, Oct. 31, 1992, 106 Stat. 4896, as amended by Pub. L. 109-155, title VII, §706(b), Dec. 30, 2005, 119 Stat. 2937, provided that:

“(a) ESTABLISHMENT.—The Administrator of the Federal Aviation Administration and the Administrator of the National Aeronautics and Space Administration shall jointly conduct a research program to develop new technologies for quieter subsonic jet aircraft engines and airframes.

“(b) GOAL.—The goal of the research program established by subsection (a) is to develop by the year 2010 technologies for subsonic jet aircraft engines and airframes which would permit a subsonic jet aircraft to operate at reduced noise levels.

“(c) PARTICIPATION.—In carrying out the program established by subsection (a), the Administrator of the Federal Aviation Administration and the Administrator of the National Aeronautics and Space Administration shall encourage the participation of representatives of the aviation industry and academia.

“(d) REPORT TO CONGRESS.—The Administrator of the Federal Aviation Administration and the Administrator of the National Aeronautics and Space Administration shall jointly submit to Congress, on an annual basis during the term of the program established by subsection (a), a report on the progress being made under the program toward meeting the goal described in subsection (b).”

§ 47509. Research program on quiet aircraft technology for propeller and rotor driven aircraft

(a) ESTABLISHMENT.—The Administrator of the Federal Aviation Administration and the Administrator of the National Aeronautics and Space Administration shall conduct a study to identify technologies for noise reduction of propeller driven aircraft and rotorcraft.

(b) GOAL.—The goal of the study conducted under subsection (a) is to determine the status of research and development now underway in the area of quiet technology for propeller driven aircraft and rotorcraft, including technology that is cost beneficial, and to determine whether a research program to supplement existing research activities is necessary.

(c) PARTICIPATION.—In conducting the study required under subsection (a), the Administrator of the Federal Aviation Administration and the Administrator of the National Aeronautics and Space Administration shall encourage the participation of the Department of Defense, the Department of the Interior, the airtour industry, the aviation industry, academia and other appropriate groups.

(d) REPORT.—Not less than 280 days after August 23, 1994, the Administrator of the Federal Aviation Administration and the Administrator of the National Aeronautics and Space Administration shall transmit to Congress a report on the results of the study required under subsection (a).

(e) RESEARCH AND DEVELOPMENT PROGRAM.—If the Administrator of the Federal Aviation Administration and the Administrator of the National Aeronautics and Space Administration determine that additional research and development is necessary and would substantially contribute to the development of quiet aircraft technology, then the agencies shall conduct an appropriate research program in consultation with the entities listed in subsection (c) to develop safe, effective, and economical noise reduction technology (including technology that can be applied to existing propeller driven aircraft and rotorcraft) that would result in aircraft that operate at substantially reduced levels of noise to reduce the impact of such aircraft and rotorcraft on the resources of national parks and other areas.

SUBCHAPTER II—NATIONAL AVIATION NOISE POLICY

§ 47521. Findings

Congress finds that—

(1) aviation noise management is crucial to the continued increase in airport capacity;

(2) community noise concerns have led to uncoordinated and inconsistent restrictions on aviation that could impede the national air transportation system;

(3) a noise policy must be carried out at the national level;

(4) local interest in aviation noise management shall be considered in determining the national interest;

(5) community concerns can be alleviated through the use of new technology aircraft and the use of revenues, including those available from passenger facility fees, for noise management;

(6) revenues controlled by the United States Government can help resolve noise problems and carry with them a responsibility to the national airport system;

(7) revenues derived from a passenger facility fee may be applied to noise management and increased airport capacity; and

(8) a precondition to the establishment and collection of a passenger facility fee is the prescribing by the Secretary of Transportation of a regulation establishing procedures for reviewing airport noise and access restrictions on operations of stage 2 and stage 3 aircraft.

§ 47522. Definitions

In this subchapter—

(1) “air carrier”, “air transportation”, and “United States” have the same meanings given those terms in section 40102(a) of this title.

(2) “stage 3 noise levels” means the stage 3 noise levels in part 36 of title 14, Code of Fed-

eral Regulations, in effect on November 5, 1990.

The definitions are made applicable to all of subchapter II, rather than only to those provisions based on 49 App.:2157 as in the source provisions, because the defined terms appear in several sections of subchapter II and it is assumed they are intended to have the same meaning in each of those sections.

§ 47523. National aviation noise policy

(a) GENERAL REQUIREMENTS.—Not later than July 1, 1991, the Secretary of Transportation shall establish by regulation a national aviation noise policy that considers this subchapter, including the phaseout and nonaddition of stage 2 aircraft as provided in this subchapter and dates for carrying out that policy and reporting requirements consistent with this subchapter and law existing as of November 5, 1990.

(b) DETAILED ECONOMIC ANALYSIS.—The policy shall be based on a detailed economic analysis of the impact of the phaseout date for stage 2 aircraft on competition in the airline industry, including—

(1) the ability of air carriers to achieve capacity growth consistent with the projected rate of growth for the airline industry;

(2) the impact of competition in the airline and air cargo industries;

(3) the impact on nonhub and small community air service; and

(4) the impact on new entry into the airline industry.

In this section, the text of 49 App.:2152(c) is omitted as executed.

In subsection (a), the words “(hereinafter in this chapter referred to as the ‘Secretary’)” are omitted because of the restatement. The words “this subchapter” (the first time they appear) are substituted for “the findings, determinations, and provisions of this chapter” to eliminate unnecessary words.

Subsection (b) is tabulated for clarity.

§ 47524. Airport noise and access restriction review program

(a) GENERAL REQUIREMENTS.—The national aviation noise policy established under section 47523 of this title shall provide for establishing by regulation a national program for reviewing airport noise and access restrictions on the operation of stage 2 and stage 3 aircraft. The program shall provide for adequate public notice and opportunity for comment on the restrictions.

(b) STAGE 2 AIRCRAFT.—Except as provided in subsection (d) of this section, an airport noise or access restriction may include a restriction on the operation of stage 2 aircraft proposed after October 1, 1990, only if the airport operator publishes the proposed restriction and prepares and makes available for public comment at least 180 days before the effective date of the proposed restriction—

(1) an analysis of the anticipated or actual costs and benefits of the existing or proposed restriction;

(2) a description of alternative restrictions;

(3) a description of the alternative measures considered that do not involve aircraft restrictions; and

(4) a comparison of the costs and benefits of the alternative measures to the costs and benefits of the proposed restriction.

(c) STAGE 3 AIRCRAFT.—(1) Except as provided in subsection (d) of this section, an airport noise or access restriction on the operation of stage 3 aircraft not in effect on October 1, 1990, may become effective only if the restriction has been agreed to by the airport proprietor and all aircraft operators or has been submitted to and approved by the Secretary of Transportation after an airport or aircraft operator's request for approval as provided by the program established under this section. Restrictions to which this paragraph applies include—

(A) a restriction on noise levels generated on either a single event or cumulative basis;

(B) a restriction on the total number of stage 3 aircraft operations;

(C) a noise budget or noise allocation program that would include stage 3 aircraft;

(D) a restriction on hours of operations; and

(E) any other restriction on stage 3 aircraft.

(2) Not later than 180 days after the Secretary receives an airport or aircraft operator's request for approval of an airport noise or access restriction on the operation of a stage 3 aircraft, the Secretary shall approve or disapprove the restriction. The Secretary may approve the restriction only if the Secretary finds on the basis of substantial evidence that—

(A) the restriction is reasonable, non-arbitrary, and nondiscriminatory;

(B) the restriction does not create an unreasonable burden on interstate or foreign commerce;

(C) the restriction is not inconsistent with maintaining the safe and efficient use of the navigable airspace;

(D) the restriction does not conflict with a law or regulation of the United States;

(E) an adequate opportunity has been provided for public comment on the restriction; and

(F) the restriction does not create an unreasonable burden on the national aviation system.

(3) Paragraphs (1) and (2) of this subsection do not apply if the Administrator of the Federal Aviation Administration, before November 5, 1990, has formed a working group (outside the process established by part 150 of title 14, Code of Federal Regulations) with a local airport operator to examine the noise impact of air traffic

control procedure changes at the airport. However, if an agreement on noise reductions at that airport is made between the airport proprietor and one or more air carriers or foreign air carriers that constitute a majority of the carrier use of the airport, this paragraph applies only to a local action to enforce the agreement.

(4) The Secretary may reevaluate an airport noise or access restriction previously agreed to or approved under this subsection on request of an aircraft operator able to demonstrate to the satisfaction of the Secretary that there has been a change in the noise environment of the affected airport that justifies a reevaluation. The Secretary shall establish by regulation procedures for conducting a reevaluation. A reevaluation—

(A) shall be based on the criteria in paragraph (2) of this subsection; and

(B) may be conducted only after 2 years after a decision under paragraph (2) of this subsection has been made.

(d) NONAPPLICATION.—Subsections (b) and (c) of this section do not apply to—

(1) a local action to enforce a negotiated or executed airport noise or access agreement between the airport operator and the aircraft operators in effect on November 5, 1990;

(2) a local action to enforce a negotiated or executed airport noise or access restriction agreed to by the airport operator and the aircraft operators before November 5, 1990;

(3) an intergovernmental agreement including an airport noise or access restriction in effect on November 5, 1990;

(4) a subsequent amendment to an airport noise or access agreement or restriction in effect on November 5, 1990, that does not reduce or limit aircraft operations or affect aircraft safety;

(5)(A) an airport noise or access restriction adopted by an airport operator not later than October 1, 1990, and stayed as of October 1, 1990, by a court order or as a result of litigation, if any part of the restriction is subsequently allowed by a court to take effect; or

(B) a new restriction imposed by an airport operator to replace any part of a restriction described in subclause (A) of this clause that is disallowed by a court, if the new restriction would not prohibit aircraft operations in effect on November 5, 1990; or

(6) a local action that represents the adoption of the final part of a program of a staged airport noise or access restriction if the initial part of the program was adopted during 1988 and was in effect on November 5, 1990.

(e) GRANT LIMITATIONS.—Beginning on the 91st day after the Secretary prescribes a regulation under subsection (a) of this section, a sponsor of a facility operating under an airport noise or access restriction on the operation of stage 3 aircraft that first became effective after October 1, 1990, is eligible for a grant under section 47104 of this title and is eligible to impose a passenger facility fee under section 40117 of this title only if the restriction has been—

(1) agreed to by the airport proprietor and aircraft operators;

(2) approved by the Secretary as required by subsection (c)(1) of this section; or

(3) rescinded.

§ 47525. Decision about airport noise and access restrictions on certain stage 2 aircraft

The Secretary of Transportation shall conduct a study and decide on the application of section 47524(a)–(d) of this title to airport noise and access restrictions on the operation of stage 2 aircraft with a maximum weight of not more than 75,000 pounds. In making the decision, the Secretary shall consider—

- (1) noise levels produced by those aircraft relative to other aircraft;
- (2) the benefits to general aviation and the need for efficiency in the national air transportation system;
- (3) the differences in the nature of operations at airports and the areas immediately surrounding the airports;
- (4) international standards and agreements on aircraft noise; and

§ 47528. Prohibition on operating certain aircraft not complying with stage 3 noise levels

(a) PROHIBITION.—Except as provided in subsection (b) or (f) of this section and section 47530 of this title, a person may operate after December 31, 1999, a civil subsonic turbojet (for which an airworthiness certificate other than an experimental certificate has been issued by the Administrator) with a maximum weight of more than 75,000 pounds to or from an airport in the United States only if the Secretary of Transportation finds that the aircraft complies with the stage 3 noise levels.

(b) **WAIVERS.**—(1) If, not later than July 1, 1999, at least 85 percent of the aircraft used by an air carrier or foreign air carrier to provide air transportation comply with the stage 3 noise levels, the carrier may apply for a waiver of subsection (a) of this section for the remaining aircraft used by the carrier to provide air transportation. The application must be filed with the Secretary not later than January 1, 1999, or, in the case of a foreign air carrier, the 15th day following the date of the enactment of the Wendell H. Ford Aviation Investment and Reform Act for the 21st Century and must include a plan with firm orders for making all aircraft used by the carrier to provide air transportation comply with the noise levels not later than December 31, 2003.

(2) The Secretary may grant a waiver under this subsection if the Secretary finds it would be in the public interest. In making the finding, the Secretary shall consider the effect of granting the waiver on competition in the air carrier industry and on small community air service.

(3) A waiver granted under this subsection may not permit the operation of stage 2 aircraft in the United States after December 31, 2003.

(c) **SCHEDULE FOR PHASED-IN COMPLIANCE.**—The Secretary shall establish by regulation a schedule for phased-in compliance with subsection (a) of this section. The phase-in period shall begin on November 5, 1990, and end before December 31, 1999. The regulations shall establish interim compliance dates. The schedule for phased-in compliance shall be based on—

(1) a detailed economic analysis of the impact of the phaseout date for stage 2 aircraft on competition in the airline industry, including—

(A) the ability of air carriers to achieve capacity growth consistent with the projected rate of growth for the airline industry;

(B) the impact of competition in the airline and air cargo industries;

(C) the impact on nonhub and small community air service; and

(D) the impact on new entry into the airline industry; and

(2) an analysis of the impact of aircraft noise on individuals residing near airports.

(d) **ANNUAL REPORT.**—Beginning with calendar year 1992—

(1) each air carrier shall submit to the Secretary an annual report on the progress the carrier is making toward complying with the requirements of this section and regulations prescribed under this section; and

(2) the Secretary shall submit to Congress an annual report on the progress being made toward that compliance.

(e) **HAWAIIAN OPERATIONS.**—(1) In this subsection, “turnaround service” means a flight between places only in Hawaii.

(2)(A) An air carrier or foreign air carrier may not operate in Hawaii, or between a place in Hawaii and a place outside the 48 contiguous States, a greater number of stage 2 aircraft with a maximum weight of more than 75,000 pounds than it operated in Hawaii, or between a place in Hawaii and a place outside the 48 contiguous States, on November 5, 1990.

(B) An air carrier that provided turnaround service in Hawaii on November 5, 1990, using stage 2 aircraft with a maximum weight of more than 75,000 pounds may include in the number of aircraft authorized under subparagraph (A) of this paragraph all stage 2 aircraft with a maximum weight of more than 75,000 pounds that were owned or leased by that carrier on that date, whether or not the aircraft were operated by the carrier on that date.

(3) An air carrier may provide turnaround service in Hawaii using stage 2 aircraft with a maximum weight of more than 75,000 pounds only if the carrier provided the service on November 5, 1990.

(4) An air carrier operating stage 2 aircraft under this subsection may transport stage 2 aircraft to or from the 48 contiguous States on a nonrevenue basis in order—

(A) to perform maintenance (including major alterations) or preventative maintenance on aircraft operated, or to be operated, within the limitations of paragraph (2)(B); or

(B) conduct operations within the limitations of paragraph (2)(B).

(f) **AIRCRAFT MODIFICATION, DISPOSAL, SCHEDULED HEAVY MAINTENANCE, OR LEASING.**—

(1) **IN GENERAL.**—The Secretary shall permit a person to operate after December 31, 1999, a stage 2 aircraft in nonrevenue service through the airspace of the United States or to or from an airport in the contiguous 48 States in order to—

(A) sell, lease, or use the aircraft outside the contiguous 48 States;

(B) scrap the aircraft;

(C) obtain modifications to the aircraft to meet stage 3 noise levels;

(D) perform scheduled heavy maintenance or significant modifications on the aircraft at a maintenance facility located in the contiguous 48 States;

(E) deliver the aircraft to an operator leasing the aircraft from the owner or return the aircraft to the lessor;

(F) prepare or park or store the aircraft in anticipation of any of the activities described in subparagraphs (A) through (E); or

(G) divert the aircraft to an alternative airport in the contiguous 48 States on account of weather, mechanical, fuel, air traffic control, or other safety reasons while conducting a flight in order to perform any of the activities described in subparagraphs (A) through (F).

(2) **PROCEDURE TO BE PUBLISHED.**—Not later than 30 days after the date of the enactment of this subsection, the Secretary shall establish and publish a procedure to implement paragraph (1) through the use of categorical waivers, ferry permits, or other means.

(g) **STATUTORY CONSTRUCTION.**—Nothing in this section may be construed as interfering with, nullifying, or otherwise affecting determinations made by the Federal Aviation Administration, or to be made by the Administration with respect to applications under part 161 of title 14, Code of Federal Regulations, that were pending on November 1, 1999.

§ 49101. Findings

Congress finds that—

(1) the 2 federally owned airports in the metropolitan area of the District of Columbia constitute an important and growing part of the commerce, transportation, and economic patterns of Virginia, the District of Columbia, and the surrounding region;

(2) Baltimore/Washington International Airport, owned and operated by Maryland, is an air transportation facility that provides service to the greater Metropolitan Washington region together with the 2 federally owned airports, and timely Federal-aid grants to Baltimore/Washington International Airport will provide additional capacity to meet the growing air traffic needs and to compete with other airports on a fair basis;

(3) the United States Government has a continuing but limited interest in the operation of the 2 federally owned airports, which serve the travel and cargo needs of the entire Metropolitan Washington region as well as the District of Columbia as the national seat of government;

(4) operation of the Metropolitan Washington Airports by an independent local authority will facilitate timely improvements at both airports to meet the growing demand of interstate air transportation occasioned by the Airline Deregulation Act of 1978 (Public Law 95-504; 92 Stat. 1705);

(5) all other major air carrier airports in the United States are operated by public entities at the State, regional, or local level;

(6) any change in status of the 2 airports must take into account the interest of nearby communities, the traveling public, air carriers, general aviation, airport employees, and other interested groups, as well as the interests of the United States Government and State governments involved;

(7) in recognition of a perceived limited need for a Federal role in the management of these airports and the growing local interest, the Secretary of Transportation has recommended a transfer of authority from the Federal to the local/State level that is consistent with the

management of major airports elsewhere in the United States;

(8) an operating authority with representation from local jurisdictions, similar to authorities at all major airports in the United States, will improve communications with local officials and concerned residents regarding noise at the Metropolitan Washington Airports;

(9) a commission of congressional, State, and local officials and aviation representatives has recommended to the Secretary that transfer of the federally owned airports be as a unit to an independent authority to be created by Virginia and the District of Columbia; and

(10) the Federal interest in these airports can be provided through a lease mechanism which provides for local control and operation.

§ 49102. Purpose

(a) GENERAL.—The purpose of this chapter is to authorize the transfer of operating responsibility under long-term lease of the 2 Metropolitan Washington Airport properties as a unit, including access highways and other related facilities, to a properly constituted independent airport authority created by Virginia and the District of Columbia, in order to achieve local control, management, operation, and development of these important transportation assets.

(b) INCLUSION OF BALTIMORE/WASHINGTON INTERNATIONAL AIRPORT NOT PRECLUDED.—This chapter does not prohibit the Airports Authority and Maryland from making an agreement to make Baltimore/Washington International Airport part of a regional airports authority, subject to terms agreed to by the Airports Authority, the Secretary of Transportation, Virginia, the District of Columbia, and Maryland.

§ 49104. Lease of Metropolitan Washington Airports

(a) GENERAL.—The lease between the Secretary of Transportation and the Metropolitan Washington Airports Authority under section 6005(a) of the Metropolitan Washington Airports Act of 1986 (Public Law 99-500; 100 Stat. 1783-375; Public Law 99-591; 100 Stat. 3341-378), for the Metropolitan Washington Airports must provide during its 50-year term at least the following:

(1) The Airports Authority shall operate, maintain, protect, promote, and develop the Metropolitan Washington Airports as a unit and as primary airports serving the Metropolitan Washington area.

(2)(A) In this paragraph, “airport purposes” means a use of property interests (except a sale) for—

- (i) aviation business or activities;
- (ii) activities necessary or appropriate to serve passengers or cargo in air commerce; or
- (iii) nonprofit, public use facilities that are not inconsistent with the needs of aviation.

(B) During the period of the lease, the real property constituting the Metropolitan Washington Airports shall be used only for airport purposes.

(C) If the Secretary decides that any part of the real property leased to the Airports Authority under this chapter is used for other than airport purposes, the Secretary shall—

- (i) direct that the Airports Authority take appropriate measures to have that part of the property be used for airport purposes; and

(ii) retake possession of the property if the Airports Authority fails to have that part of the property be used for airport purposes within a reasonable period of time, as the Secretary decides.

(3) The Airports Authority is subject to section 47107(a)–(c) and (e) of this title and to the assurances and conditions required of grant recipients under the Airport and Airway Improvement Act of 1982 (Public Law 97-248; 96 Stat. 671) as in effect on June 7, 1987. Notwithstanding section 47107(b) of this title, all revenues generated by the Metropolitan Washington Airports shall be expended for the capital and operating costs of the Metropolitan Washington Airports.

(4) In acquiring by contract supplies or services for an amount estimated to be more than \$200,000, or awarding concession contracts, the Airports Authority to the maximum extent practicable shall obtain complete and open competition through the use of published competitive procedures. By a vote of 7 members, the Airports Authority may grant exceptions to the requirements of this paragraph.

(5)(A) Except as provided in subparagraph (B) of this paragraph, all regulations of the Metropolitan Washington Airports (14 CFR part 159) become regulations of the Airports Authority as of June 7, 1987, and remain in effect until modified or revoked by the Airports Authority under procedures of the Airports Authority.

(B) Sections 159.59(a) and 159.191 of title 14, Code of Federal Regulations, do not become regulations of the Airports Authority.

(C) The Airports Authority may not increase or decrease the number of instrument flight rule takeoffs and landings authorized by the High Density Rule (14 CFR 93.121 et seq.) at Ronald Reagan Washington National Airport on October 18, 1986, and may not impose a limitation on the number of passengers taking off or landing at Ronald Reagan Washington National Airport.

(D) Subparagraph (C) does not apply to any increase in the number of instrument flight rule takeoffs and landings necessary to implement exemptions granted by the Secretary under section 41718.

(6)(A) Except as specified in subparagraph (B) of this paragraph, the Airports Authority shall assume all rights, liabilities, and obligations of the Metropolitan Washington Airports on June 7, 1987, including leases, permits, licenses, contracts, agreements, claims, tariffs, accounts receivable, accounts payable, and litigation related to those rights and obligations, regardless whether judgment has been entered, damages awarded, or appeal taken. The Airports Authority must cooperate in allowing representatives of the Attorney General and the Secretary adequate access to employees and records when needed for the performance of duties and powers related to the period before June 7, 1987. The Airports Authority shall assume responsibility for the Federal Aviation Administration’s Master Plans for the Metropolitan Washington Airports.

(B) The procedure for disputes resolution contained in any contract entered into on be-

half of the United States Government before June 7, 1987, continues to govern the performance of the contract unless otherwise agreed to by the parties to the contract. Claims for monetary damages founded in tort, by or against the Government as the owner and operator of the Metropolitan Washington Airports, arising before June 7, 1987, shall be adjudicated as if the lease had not been entered into.

(C) The Administration is responsible for reimbursing the Employees' Compensation Fund, as provided in section 8147 of title 5, for compensation paid or payable after June 7, 1987, in accordance with chapter 81 of title 5 for any injury, disability, or death due to events arising before June 7, 1987, whether or not a claim was filed or was final on that date.

(D) The Airports Authority shall continue all collective bargaining rights enjoyed by employees of the Metropolitan Washington Airports before June 7, 1987.

(7) The Comptroller General may conduct periodic audits of the activities and transactions of the Airports Authority in accordance with generally accepted management principles, and under regulations the Comptroller General may prescribe. An audit shall be conducted where the Comptroller General considers it appropriate. All records and property of the Airports Authority shall remain in possession and custody of the Airports Authority.

(8) The Airports Authority shall develop a code of ethics and financial disclosure to ensure the integrity of all decisions made by its board of directors and employees. The code shall include standards by which members of the board will decide, for purposes of section 49106(d) of this title, what constitutes a substantial financial interest and the circumstances under which an exception to the conflict of interest prohibition may be granted.

(9) A landing fee imposed for operating an aircraft or revenues derived from parking automobiles—

(A) at Washington Dulles International Airport may not be used for maintenance or operating expenses (excluding debt service, depreciation, and amortization) at Ronald Reagan Washington National Airport; and

(B) at Ronald Reagan Washington National Airport may not be used for maintenance or operating expenses (excluding debt service, depreciation, and amortization) at Washington Dulles International Airport.

(10) The Airports Authority shall compute the fees and charges for landing general aviation aircraft at the Metropolitan Washington Airports on the same basis as the landing fees for air carrier aircraft, except that the Airports Authority may require a minimum landing fee that is not more than the landing fee for aircraft weighing 12,500 pounds.

(11) The Secretary shall include other terms applicable to the parties to the lease that are consistent with, and carry out, this chapter.

(b) PAYMENTS.—Under the lease, the Airports Authority must pay to the general fund of the Treasury annually an amount, computed using

the GNP Price Deflator, equal to \$3,000,000 in 1987 dollars. The Secretary and the Airports Authority may renegotiate the level of lease payments attributable to inflation costs every 10 years.

(c) ENFORCEMENT OF LEASE PROVISIONS.—The district courts of the United States have jurisdiction to compel the Airports Authority and its officers and employees to comply with the terms of the lease. The Attorney General or an aggrieved party may bring an action on behalf of the Government.

(d) EXTENSION OF LEASE.—The Secretary and the Airports Authority may at any time negotiate an extension of the lease.

§ 49105. Capital improvements, construction, and rehabilitation

(a) SENSE OF CONGRESS.—It is the sense of Congress that the Metropolitan Washington Airports Authority—

(1) should pursue the improvement, construction, and rehabilitation of the facilities at Washington Dulles International Airport and Ronald Reagan Washington National Airport simultaneously; and

In subsection (a), the text of 49 App.:2226d(e)(1) is omitted because the complete name of the Administrator of the Federal Aviation Administration is used the first time the term appears in a section.

In subsection (b), before clause (1), the words “Subject to subsections (c) and (d) of this section” are added to alert the reader to the limitations in those subsections. In clause (1), the words “requires making the contract with the domestic firm” are substituted for “so requires” for clarity. The words “considering United States international obligations and trade relations” are substituted for “In determining under this subsection whether the public interest so requires, the Administrator shall take into account United States international obligations and trade relations” to eliminate unnecessary words. In clause (4), the words “when completely assembled” are omitted as surplus. The words “produced in the United States” are substituted for “domestically produced” for consistency with clause (3).

In subsection (c), the words “(1) such applicability would not be in the public interest” are omitted as redundant to subsection (b)(1) of the revised section.

In subsection (e)(1), the words “foreign firms” are substituted for “foreign entities” for consistency in the revised section.

Subsection (e)(3) is substituted for “the number of contracts covered under this subtitle (including the amendments made by this subtitle) and awarded based upon the parameters of this section” to eliminate unnecessary words.

AMENDMENTS

1999—Subsecs. (c)(2), (e)(2). Pub. L. 106-36 substituted “multilateral trade agreements (as defined in section 3501(4) of title 19)” for “General Agreement on Tariffs and Trade”.

1996—Pub. L. 104-287 renumbered section 49103 of this title as this section.

§ 50104. Restriction on airport projects using products or services of foreign countries denying fair market opportunities

(a) DEFINITION AND RULES FOR CONSTRUING SECTION.—In this section—

(C) the project cost will increase by more than 20 percent if the product or service is excluded.

(c) DECISIONS ON DENIAL OF FAIR MARKET OPPORTUNITIES.—Not later than 30 days after a report is submitted to Congress under section 181(b) of the Trade Act of 1974 (19 U.S.C. 2241(b)), the Trade Representative, for a construction project of more than \$500,000 for which the government of a foreign country supplies any part of the amount, shall decide whether the foreign country denies fair market opportunities for products and suppliers of the United States in procurement or for United States bidders. In making the decision, the Trade Representative shall consider information obtained in preparing the report and other information the Trade Representative considers relevant.

(d) LIST OF COUNTRIES DENYING FAIR MARKET OPPORTUNITIES.—(1) The Trade Representative shall maintain a list of each foreign country the Trade Representative finds under subsection (c) of this section is denying fair market opportunities. The country shall remain on the list until the Trade Representative decides the country provides fair market opportunities.

(2) The Trade Representative shall publish in the Federal Register—

(A) annually the list required under paragraph (1) of this subsection; and

In this chapter, the words “liquefied natural gas” are substituted for “LNG” for clarity. The word “authority” is substituted for “agency” for consistency in the revised title and with other titles of the United States Code. The words “gas” and “hazardous liquid” are added where applicable because of the restatement.

In subsection (a), before clause (1), the text of 49 App.:1671(10) and 2001(11) is omitted because the complete name of the Secretary of Transportation is used the first time the term appears in a section. The words “As used” are omitted as surplus. In clause (1)(A), the words “Federal Energy Regulatory Commission” and “Commission” are substituted for “Department of Energy” because under 42:7171(a) and 7172(a)(1) the Commission is statutorily independent of the Department and has the responsibility for siting, construction, and operating applications. In clauses (3) and (5), the words “without limitation, new and existing” are omitted as surplus. In clause (4)(B), the words “or material” are omitted as surplus. In clause (6), before subclause (A), the word “pipeline” is substituted for “transmission” for clarity and consistency. In clause (8)(A), before subclause (i), the words “trade, traffic, transportation, exchange, or other” are omitted as surplus. In subclause (ii), the words “trade, transportation, exchange, or other” are omitted as surplus. In clause (8)(B), the word “place” is substituted for “point” for clarity and consistency in the revised title. In clause (9), before subclause (A), the word “facility” is substituted for “transportation” for clarity and consistency. In clause (12), the words “resulting from” and the text of 49 App.:1671(16)(A)–(D) are omitted as surplus. In clause (13), the words “(liquefaction or solidification)” and “(vaporization)” are omitted as surplus. In clauses (14) and (16), the word “pipeline” is added for clarity. In clause (15), the words “city, county, or any other” are omitted as surplus. In clause (17), the words “in addition to its meaning under section 1 of title 1 (except as to societies)” are substituted for “any individual, firm, joint venture, partnership, corporation, association . . . cooperative association, or joint stock association” to eliminate unnecessary words, for clarity, and for consistency in the revised title and with other titles of the Code. Clauses (18) and (19) are added because of the restatement. In clause (20), the words “of the United States” are substituted for “of the several” for consistency in the revised title and with other titles of the Code. In clause (21)(B), the words “outside a populated area” are substituted for “which lie outside the limits of any incorporated or unincorporated city, town, village, or any other designated residential or commercial area such as a subdivision, a business or shopping center, a community development, or any similar populated area” to eliminate unnecessary words. In clause (22)(B)(i), the word “area” is substituted for “locations” for consistency.

§ 60102. Purpose and general authority

(a) PURPOSE AND MINIMUM SAFETY STANDARDS.—

(1) PURPOSE.—The purpose of this chapter is to provide adequate protection against risks to life and property posed by pipeline transportation and pipeline facilities by improving the regulatory and enforcement authority of the Secretary of Transportation.

(2) MINIMUM SAFETY STANDARDS.—The Secretary shall prescribe minimum safety standards for pipeline transportation and for pipeline facilities. The standards—

(A) apply to owners and operators of pipeline facilities;

(B) may apply to the design, installation, inspection, emergency plans and procedures, testing, construction, extension, operation, replacement, and maintenance of pipeline facilities; and

(C) shall include a requirement that all individuals who operate and maintain pipeline facilities shall be qualified to operate and maintain the pipeline facilities.

(3) QUALIFICATIONS OF PIPELINE OPERATORS.—The qualifications applicable to an individual who operates and maintains a pipeline facility shall address the ability to recognize and react appropriately to abnormal operating conditions that may indicate a dangerous situation or a condition exceeding design limits. The operator of a pipeline facility shall ensure that employees who operate and maintain the facility are qualified to operate and maintain the pipeline facilities.

(b) PRACTICABILITY AND SAFETY NEEDS STANDARDS.—

(1) IN GENERAL.—A standard prescribed under subsection (a) shall be—

- (A) practicable; and
- (B) designed to meet the need for—
 - (i) gas pipeline safety, or safely transporting hazardous liquids, as appropriate; and
 - (ii) protecting the environment.

(2) FACTORS FOR CONSIDERATION.—When prescribing any standard under this section or section 60101(b), 60103, 60108, 60109, 60110, or 60113, the Secretary shall consider—

- (A) relevant available—
 - (i) gas pipeline safety information;
 - (ii) hazardous liquid pipeline safety information; and
 - (iii) environmental information;
- (B) the appropriateness of the standard for the particular type of pipeline transportation or facility;
- (C) the reasonableness of the standard;
- (D) based on a risk assessment, the reasonably identifiable or estimated benefits expected to result from implementation or compliance with the standard;
- (E) based on a risk assessment, the reasonably identifiable or estimated costs expected to result from implementation or compliance with the standard;
- (F) comments and information received from the public; and
- (G) the comments and recommendations of the Technical Pipeline Safety Standards Committee, the Technical Hazardous Liquid Pipeline Safety Standards Committee, or both, as appropriate.

(3) RISK ASSESSMENT.—In conducting a risk assessment referred to in subparagraphs (D) and (E) of paragraph (2), the Secretary shall—

- (A) identify the regulatory and nonregulatory options that the Secretary considered in prescribing a proposed standard;
- (B) identify the costs and benefits associated with the proposed standard;
- (C) include—
 - (i) an explanation of the reasons for the selection of the proposed standard in lieu of the other options identified; and
 - (ii) with respect to each of those other options, a brief explanation of the reasons that the Secretary did not select the option; and
- (D) identify technical data or other information upon which the risk assessment information and proposed standard is based.

(4) REVIEW.—

- (A) IN GENERAL.—The Secretary shall—
 - (i) submit any risk assessment information prepared under paragraph (3) of this subsection to the Technical Pipeline Safety Standards Committee, the Technical Hazardous Liquid Pipeline Safety Standards Committee, or both, as appropriate; and
 - (ii) make that risk assessment information available to the general public.
- (B) PEER REVIEW PANELS.—The committees referred to in subparagraph (A) shall serve

as peer review panels to review risk assessment information prepared under this section. Not later than 90 days after receiving risk assessment information for review pursuant to subparagraph (A), each committee that receives that risk assessment information shall prepare and submit to the Secretary a report that includes—

- (i) an evaluation of the merit of the data and methods used; and
- (ii) any recommended options relating to that risk assessment information and the associated standard that the committee determines to be appropriate.

(C) REVIEW BY SECRETARY.—Not later than 90 days after receiving a report submitted by a committee under subparagraph (B), the Secretary—

- (i) shall review the report;
- (ii) shall provide a written response to the committee that is the author of the report concerning all significant peer review comments and recommended alternatives contained in the report; and
- (iii) may revise the risk assessment and the proposed standard before promulgating the final standard.

(5) SECRETARIAL DECISIONMAKING.—Except where otherwise required by statute, the Secretary shall propose or issue a standard under this Chapter¹ only upon a reasoned determination that the benefits of the intended standard justify its costs.

(6) EXCEPTIONS FROM APPLICATION.—The requirements of subparagraphs (D) and (E) of paragraph (2) do not apply when—

- (A) the standard is the product of a negotiated rulemaking, or other rulemaking including the adoption of industry standards that receives no significant adverse comment within 60 days of notice in the Federal Register;
- (B) based on a recommendation (in which three-fourths of the members voting concur) by the Technical Pipeline Safety Standards Committee, the Technical Hazardous Liquid Pipeline Safety Standards Committee, or both, as applicable, the Secretary waives the requirements; or
- (C) the Secretary finds, pursuant to section 553(b)(3)(B) of title 5, United States Code, that notice and public procedure are not required.

(7) REPORT.—Not later than March 31, 2000, the Secretary shall transmit to the Congress a report that—

- (A) describes the implementation of the risk assessment requirements of this section, including the extent to which those requirements have affected regulatory decisionmaking and pipeline safety; and
- (B) includes any recommendations that the Secretary determines would make the risk assessment process conducted pursuant to the requirements under this chapter a more effective means of assessing the benefits and costs associated with alternative regulatory and nonregulatory options in pre-

¹ So in original. Probably should not be capitalized.

scribing standards under the Federal pipeline safety regulatory program under this chapter.

(c) PUBLIC SAFETY PROGRAM REQUIREMENTS.—

(1) The Secretary shall include in the standards prescribed under subsection (a) of this section a requirement that an operator of a gas pipeline facility participate in a public safety program that—

(A) notifies an operator of proposed demolition, excavation, tunneling, or construction near or affecting the facility;

(B) requires an operator to identify a pipeline facility that may be affected by the proposed demolition, excavation, tunneling, or construction, to prevent damaging the facility; and

(C) the Secretary decides will protect a facility adequately against a hazard caused by demolition, excavation, tunneling, or construction.

(2) To the extent a public safety program referred to in paragraph (1) of this subsection is not available, the Secretary shall prescribe standards requiring an operator to take action the Secretary prescribes to provide services comparable to services that would be available under a public safety program.

(3) The Secretary may include in the standards prescribed under subsection (a) of this section a requirement that an operator of a hazardous liquid pipeline facility participate in a public safety program meeting the requirements of paragraph (1) of this subsection or maintain and carry out a damage prevention program that provides services comparable to services that would be available under a public safety program.

(4) PROMOTING PUBLIC AWARENESS.—

(A) Not later than one year after the date of enactment of the Accountable Pipeline Safety and Accountability Act of 1996,² and annually thereafter, the owner or operator of each interstate gas pipeline facility shall provide to the governing body of each municipality in which the interstate gas pipeline facility is located, a map identifying the location of such facility.

(B)(i) Not later than June 1, 1998, the Secretary shall survey and assess the public education programs under section 60116 and the public safety programs under section 60102(c) and determine their effectiveness and applicability as components of a model program. In particular, the survey shall include the methods by which operators notify residents of the location of the facility and its right of way, public information regarding existing One-Call programs, and appropriate procedures to be followed by residents of affected municipalities in the event of accidents involving interstate gas pipeline facilities.

(ii) Not later than one year after the survey and assessment are completed, the Secretary shall institute a rulemaking to determine the most effective public safety and education program components and promulgate if appropriate, standards implementing those compo-

nents on a nationwide basis. In the event that the Secretary finds that promulgation of such standards are not appropriate, the Secretary shall report to Congress the reasons for that finding.

(d) FACILITY OPERATION INFORMATION STANDARDS.—The Secretary shall prescribe minimum standards requiring an operator of a pipeline facility subject to this chapter to maintain, to the extent practicable, information related to operating the facility as required by the standards prescribed under this chapter and, when requested, to make the information available to the Secretary and an appropriate State official as determined by the Secretary. The information shall include—

(1) the business name, address, and telephone number, including an operations emergency telephone number, of the operator;

(2) accurate maps and a supplementary geographic description, including an identification of areas described in regulations prescribed under section 60109 of this title, that show the location in the State of—

(A) major gas pipeline facilities of the operator, including transmission lines and significant distribution lines; and

(B) major hazardous liquid pipeline facilities of the operator;

(3) a description of—

(A) the characteristics of the operator's pipelines in the State; and

(B) products transported through the operator's pipelines in the State;

(4) the manual that governs operating and maintaining pipeline facilities in the State;

(5) an emergency response plan describing the operator's procedures for responding to and containing releases, including—

(A) identifying specific action the operator will take on discovering a release;

(B) liaison procedures with State and local authorities for emergency response; and

(C) communication and alert procedures for immediately notifying State and local officials at the time of a release; and

(6) other information the Secretary considers useful to inform a State of the presence of pipeline facilities and operations in the State.

(e) PIPE INVENTORY STANDARDS.—The Secretary shall prescribe minimum standards requiring an operator of a pipeline facility subject to this chapter to maintain for the Secretary, to the extent practicable, an inventory with appropriate information about the types of pipe used for the transportation of gas or hazardous liquid, as appropriate, in the operator's system and additional information, including the material's history and the leak history of the pipe. The inventory—

(1) for a gas pipeline facility, shall include an identification of each facility passing through an area described in regulations prescribed under section 60109 of this title but shall exclude equipment used with the compression of gas; and

(2) for a hazardous liquid pipeline facility, shall include an identification of each facility and gathering line passing through an area de-

² See References in Text note below.

scribed in regulations prescribed under section 60109 of this title, whether the facility or gathering line otherwise is subject to this chapter, but shall exclude equipment associated only with the pipeline pumps or storage facilities.

(f) STANDARDS AS ACCOMMODATING “SMART PIGS”.—

(1) MINIMUM SAFETY STANDARDS.—The Secretary shall prescribe minimum safety standards requiring that—

(A) the design and construction of new natural gas transmission pipeline or hazardous liquid pipeline facilities, and

(B) when the replacement of existing natural gas transmission pipeline or hazardous liquid pipeline facilities or equipment is required, the replacement of such existing facilities be carried out, to the extent practicable, in a manner so as to accommodate the passage through such natural gas transmission pipeline or hazardous liquid pipeline facilities of instrumented internal inspection devices (commonly referred to as “smart pigs”). The Secretary may extend such standards to require existing natural gas transmission pipeline or hazardous liquid pipeline facilities, whose basic construction would accommodate an instrumented internal inspection device to be modified to permit the inspection of such facilities with instrumented internal inspection devices.

(2) PERIODIC INSPECTIONS.—Not later than October 24, 1995, the Secretary shall prescribe, if necessary, additional standards requiring the periodic inspection of each pipeline the operator of the pipeline identifies under section 60109 of this title. The standards shall include any circumstances under which an inspection shall be conducted with an instrumented internal inspection device and, if the device is not required, use of an inspection method that is at least as effective as using the device in providing for the safety of the pipeline.

(g) EFFECTIVE DATES.—A standard prescribed under this section and section 60110 of this title is effective on the 30th day after the Secretary prescribes the standard. However, the Secretary for good cause may prescribe a different effective date when required because of the time reasonably necessary to comply with the standard. The different date must be specified in the regulation prescribing the standard.

(h) SAFETY CONDITION REPORTS.—(1) The Secretary shall prescribe regulations requiring each operator of a pipeline facility (except a master meter) to submit to the Secretary a written report on any—

(A) condition that is a hazard to life, property, or the environment; and

(B) safety-related condition that causes or has caused a significant change or restriction in the operation of a pipeline facility.

(2) The Secretary must receive the report not later than 5 working days after a representative of a person to which this section applies first establishes that the condition exists. Notice of the condition shall be given concurrently to appropriate State authorities.

(i) CARBON DIOXIDE REGULATION.—The Secretary shall regulate carbon dioxide transported

by a hazardous liquid pipeline facility. The Secretary shall prescribe standards related to hazardous liquid to ensure the safe transportation of carbon dioxide by such a facility.

(j) EMERGENCY FLOW RESTRICTING DEVICES.—

(1) Not later than October 24, 1994, the Secretary shall survey and assess the effectiveness of emergency flow restricting devices (including remotely controlled valves and check valves) and other procedures, systems, and equipment used to detect and locate hazardous liquid pipeline ruptures and minimize product releases from hazardous liquid pipeline facilities.

(2) Not later than 2 years after the survey and assessment are completed, the Secretary shall prescribe standards on the circumstances under which an operator of a hazardous liquid pipeline facility must use an emergency flow restricting device or other procedure, system, or equipment described in paragraph (1) of this subsection on the facility.

(3) REMOTELY CONTROLLED VALVES.—(A) Not later than June 1, 1998, the Secretary shall survey and assess the effectiveness of remotely controlled valves to shut off the flow of natural gas in the event of a rupture of an interstate natural gas pipeline facility and shall make a determination about whether the use of remotely controlled valves is technically and economically feasible and would reduce risks associated with a rupture of an interstate natural gas pipeline facility.

(B) Not later than one year after the survey and assessment are completed, if the Secretary has determined that the use of remotely controlled valves is technically and economically feasible and would reduce risks associated with a rupture of an interstate natural gas pipeline facility, the Secretary shall prescribe standards under which an operator of an interstate natural gas pipeline facility must use a remotely controlled valve. These standards shall include, but not be limited to, requirements for high-density population areas.

(k) PROHIBITION AGAINST LOW INTERNAL STRESS EXCEPTION.—The Secretary may not provide an exception to this chapter for a hazardous liquid pipeline facility only because the facility operates at low internal stress.

(l) UPDATING STANDARDS.—The Secretary shall, to the extent appropriate and practicable, update incorporated industry standards that have been adopted as part of the Federal pipeline safety regulatory program under this chapter.

(m) INSPECTIONS BY DIRECT ASSESSMENT.—Not later than 1 year after the date of the enactment of this subsection, the Secretary shall issue regulations prescribing standards for inspection of a pipeline facility by direct assessment.

In this section, the word “Federal” is omitted as surplus.

In subsection (a)(1), before clause (A), the word “prescribe” is substituted for “by regulation, establish” for consistency in the revised title and with other titles of the United States Code. The word “maintain” is substituted for “provide, and revise as necessary” and “completed and maintained” to eliminate unnecessary words. The words “as the case may be” are omitted as surplus. In clause (2), before subclause (A), the words “map or” and “appropriate” are omitted as surplus. In clause (5)(B), the word “government” is

omitted as surplus and for consistency in this chapter. In clause (6), the words “and necessary” are omitted as surplus.

In subsections (e) and (f), the word “prescribe” is substituted for “by regulation, establish” for consistency in the revised title and with other titles of the Code.

REFERENCES IN TEXT

The date of the enactment of this subsection, referred to in subsec. (m), is the date of enactment of Pub. L. 107-355, which was approved Dec. 17, 2002.

The date of enactment of the Accountable Pipeline Safety and Accountability Act of 1996, referred to in subsec. (c)(4)(A), probably means the date of enactment of the Accountable Pipeline Safety and Partnership Act of 1996, Pub. L. 104-304, which amended this section and was approved Oct. 12, 1996.

AMENDMENTS

2002—Pub. L. 107-355, § 20(a)(2)(A), substituted “Purpose and general authority” for “General authority” in section catchline.

Subsec. (a). Pub. L. 107-355, § 20(a)(1), inserted subsec. heading, added par. (1), redesignated former par. (1) as (2), realigned margins, and substituted “MINIMUM SAFETY STANDARDS” for “MINIMUM SAFETY STANDARDS” in heading and “The Secretary” for “The Secretary of Transportation” in introductory provisions, and redesignated former par. (2) as (3) and inserted heading.

Subsec. (m). Pub. L. 107-355, § 23, added subsec. (m).

1996—Subsec. (a)(1)(A). Pub. L. 104-304, § 4(a)(1), struck out “transporters of gas and hazardous liquid and to” after “apply to”.

Subsec. (a)(1)(C). Pub. L. 104-304, § 4(a)(2), added subpar. (C) and struck out former subpar. (C) which read as follows: “shall include a requirement that all individuals responsible for the operation and maintenance of pipeline facilities be tested for qualifications and certified to operate and maintain those facilities.”

Subsec. (a)(2). Pub. L. 104-304, § 4(a)(3), added par. (2) and struck out former par. (2) which read as follows: “As the Secretary considers appropriate, the operator of a pipeline facility may make the certification under paragraph (1)(C) of this subsection. Testing and certification under paragraph (1)(C) shall address the ability to recognize and react appropriately to abnormal operating conditions that may indicate a dangerous situation or a condition exceeding design limits.”

Subsec. (b). Pub. L. 104-304, § 4(b), reenacted heading without change and amended text generally. Prior to amendment, text read as follows: “A standard prescribed under subsection (a) of this section shall be practicable and designed to meet the need for gas pipeline safety, for safely transporting hazardous liquid, and for protecting the environment. Except as provided in section 60103 of this title, when prescribing the standard the Secretary shall consider—

“(1) relevant available—

“(A) gas pipeline safety information; or

“(B) hazardous liquid pipeline information;

“(2) the appropriateness of the standard for the particular type of pipeline transportation or facility;

“(3) the reasonableness of the standard; and

“(4) the extent to which the standard will contribute to public safety and the protection of the environment.”

Subsec. (c)(4). Pub. L. 104-304, § 4(g), added par. (4).

Subsec. (d). Pub. L. 104-304, § 4(c), inserted “as required by the standards prescribed under this chapter” after “operating the facility”, substituted “to make the information available” for “to provide the information”, and inserted “as determined by the Secretary” after “to the Secretary and an appropriate State official”.

Subsec. (e). Pub. L. 104-304, § 4(d)(2), substituted “transportation” for “transmission” in introductory provisions.

Pub. L. 104-304, § 4(d)(1), in introductory provisions, directed striking out “and, to the extent the Secretary considers necessary, an operator of a gathering line that is not a regulated gather line (as defined under section 60101(b)(2) of this title),” after “subject to this chapter”, which was executed by striking out text which read in part “regulated gathering line” instead of “regulated gather line”, to reflect the probable intent of Congress.

Subsec. (f)(1). Pub. L. 104-304, § 4(e)(1), added heading and text of par. (1) and struck out former par. (1) which read as follows: “The Secretary shall prescribe minimum safety standards requiring that the design and construction of a new gas pipeline transmission facility or hazardous liquid pipeline facility, and the required replacement of an existing gas pipeline transmission facility, hazardous liquid pipeline facility, or equipment, be carried out, to the extent practicable, in a way that accommodates the passage through the facility of an instrumented internal inspection device (commonly referred to as a ‘smart pig’). The Secretary may apply the standard to an existing gas or hazardous liquid transmission facility and require the facility to be changed to allow the facility to be inspected with an instrumented internal inspection device if the basic construction of the facility will accommodate the device.”

Subsec. (f)(2). Pub. L. 104-304, §§ 4(e)(2), 20(g), inserted heading, realigned margins, inserted “, if necessary, additional” after “the Secretary shall prescribe”, and substituted “standards” for “regulations” in two places.

Subsecs. (i), (j)(2). Pub. L. 104-304, § 20(g), substituted “standards” for “regulations”.

STATE PIPELINE SAFETY ADVISORY COMMITTEES

Pub. L. 107-355, § 24, Dec. 17, 2002, 116 Stat. 3011, provided that: “Within 90 days after receiving recommendations for improvements to pipeline safety from an advisory committee appointed by the Governor of any State, the Secretary of Transportation shall respond in writing to the committee setting forth what action, if any, the Secretary will take on those recommendations and the Secretary’s reasons for acting or not acting upon any of the recommendations.”

§ 60103. Standards for liquefied natural gas pipeline facilities

(a) LOCATION STANDARDS.—The Secretary of Transportation shall prescribe minimum safety standards for deciding on the location of a new liquefied natural gas pipeline facility. In prescribing a standard, the Secretary shall consider the—

- (1) kind and use of the facility;
- (2) existing and projected population and demographic characteristics of the location;

- (3) existing and proposed land use near the location;
- (4) natural physical aspects of the location;
- (5) medical, law enforcement, and fire prevention capabilities near the location that can cope with a risk caused by the facility; and
- (6) need to encourage remote siting.

(b) DESIGN, INSTALLATION, CONSTRUCTION, INSPECTION, AND TESTING STANDARDS.—The Secretary of Transportation shall prescribe minimum safety standards for designing, installing, constructing, initially inspecting, and initially testing a new liquefied natural gas pipeline facility. When prescribing a standard, the Secretary shall consider—

- (1) the characteristics of material to be used in constructing the facility and of alternative material;
- (2) design factors;
- (3) the characteristics of the liquefied natural gas to be stored or converted at, or transported by, the facility; and
- (4) the public safety factors of the design and of alternative designs, particularly the ability to prevent and contain a liquefied natural gas spill.

(c) NONAPPLICATION.—(1) Except as provided in paragraph (2) of this subsection, a design, location, installation, construction, initial inspection, or initial testing standard prescribed under this chapter after March 1, 1978, does not apply to an existing liquefied natural gas pipeline facility if the standard is to be applied because of authority given—

- (A) under this chapter; or
- (B) under another law, and the standard is not prescribed at the time the authority is applied.

(2)(A) Any design, installation, construction, initial inspection, or initial testing standard prescribed under this chapter after March 1, 1978, may provide that the standard applies to any part of a replacement component of a liquefied natural gas pipeline facility if the component or part is placed in service after the standard is prescribed and application of the standard—

- (i) does not make the component or part incompatible with other components or parts; or
- (ii) is not impracticable otherwise.

(B) Any location standard prescribed under this chapter after March 1, 1978, does not apply to any part of a replacement component of an existing liquefied natural gas pipeline facility.

(3) A design, installation, construction, initial inspection, or initial testing standard does not apply to a liquefied natural gas pipeline facility existing when the standard is adopted.

(d) OPERATION AND MAINTENANCE STANDARDS.—The Secretary of Transportation shall prescribe minimum operating and maintenance standards for a liquefied natural gas pipeline facility. In prescribing a standard, the Secretary shall consider—

- (1) the conditions, features, and type of equipment and structures that make up or are used in connection with the facility;
- (2) the fire prevention and containment equipment at the facility;

- (3) security measures to prevent an intentional act that could cause a liquefied natural gas accident;
- (4) maintenance procedures and equipment;
- (5) the training of personnel in matters specified by this subsection; and
- (6) other factors and conditions related to the safe handling of liquefied natural gas.

(e) EFFECTIVE DATES.—A standard prescribed under this section is effective on the 30th day after the Secretary of Transportation prescribes the standard. However, the Secretary for good cause may prescribe a different effective date when required because of the time reasonably necessary to comply with the standard. The different date must be specified in the regulation prescribing the standard.

(f) CONTINGENCY PLANS.—A new liquefied natural gas pipeline facility may be operated only after the operator submits an adequate contingency plan that states the action to be taken if a liquefied natural gas accident occurs. The Secretary of Energy or appropriate State or local authority shall decide if the plan is adequate.

(g) EFFECT ON OTHER STANDARDS.—This section does not preclude applying a standard prescribed under section 60102 of this title to a gas pipeline facility (except a liquefied natural gas pipeline facility) associated with a liquefied natural gas pipeline facility.

§ 60104. Requirements and limitations

(a) OPPORTUNITY TO PRESENT VIEWS.—The Secretary of Transportation shall give an interested person an opportunity to make oral and written presentations of information, views, and arguments when prescribing a standard under this chapter.

(b) NONAPPLICATION.—A design, installation, construction, initial inspection, or initial testing standard does not apply to a pipeline facility existing when the standard is adopted.

(c) PREEMPTION.—A State authority that has submitted a current certification under section 60105(a) of this title may adopt additional or more stringent safety standards for intrastate pipeline facilities and intrastate pipeline transportation only if those standards are compatible with the minimum standards prescribed under this chapter. A State authority may not adopt or continue in force safety standards for interstate pipeline facilities or interstate pipeline transportation. Notwithstanding the preceding sentence, a State authority may enforce a requirement of a one-call notification program of the State if the program meets the requirements for one-call notification programs under this chapter or chapter 61.

(d) CONSULTATION.—(1) When continuity of gas service is affected by prescribing a standard or waiving compliance with standards under this chapter, the Secretary of Transportation shall consult with and advise the Federal Energy Regulatory Commission or a State authority having

jurisdiction over the affected gas pipeline facility before prescribing the standard or waiving compliance. The Secretary shall delay the effective date of the standard or waiver until the Commission or State authority has a reasonable opportunity to grant an authorization it considers necessary.

(2) In a proceeding under section 3 or 7 of the Natural Gas Act (15 U.S.C. 717b or 717f), each applicant for authority to import natural gas or to establish, construct, operate, or extend a gas pipeline facility subject to an applicable safety standard shall certify that it will design, install, inspect, test, construct, operate, replace, and maintain a gas pipeline facility under those standards and plans for inspection and maintenance under section 60108 of this title. The certification is binding on the Secretary of Energy and the Commission except when an appropriate enforcement agency has given timely written notice to the Commission that the applicant has violated a standard prescribed under this chapter.

(e) LOCATION AND ROUTING OF FACILITIES.—This chapter does not authorize the Secretary of Transportation to prescribe the location or routing of a pipeline facility.

In subsection (c), the words “prescribed under this chapter” are added for clarity. The words “after the Federal minimum standards become effective” in 49 App.:1672(a) (last sentence) are omitted as obsolete.

In subsection (d)(1), the words “waiving compliance” are substituted for “action upon application for waiver” and “acting on the waiver application” to eliminate unnecessary words. The words “the provisions of” are omitted as surplus. The word “authority” is substituted for “commission” for consistency in the revised title and with other titles of the Code.

AMENDMENTS

2002—Subsec. (c). Pub. L. 107-355 inserted at end “Notwithstanding the preceding sentence, a State authority may enforce a requirement of a one-call notification program of the State if the program meets the requirements for one-call notification programs under this chapter or chapter 61.”

§ 60105. State pipeline safety program certifications

(a) GENERAL REQUIREMENTS AND SUBMISSION.—Except as provided in this section and sections 60114 and 60121 of this title, the Secretary of Transportation may not prescribe or enforce safety standards and practices for an intrastate pipeline facility or intrastate pipeline transportation to the extent that the safety standards and practices are regulated by a State authority (including a municipality if the standards and practices apply to intrastate gas pipeline transportation) that submits to the Secretary annually a certification for the facilities and transportation that complies with subsections (b) and (c) of this section.

(b) CONTENTS.—Each certification submitted under subsection (a) of this section shall state that the State authority—

(1) has regulatory jurisdiction over the standards and practices to which the certification applies;

(2) has adopted, by the date of certification, each applicable standard prescribed under this chapter or, if a standard under this chapter was prescribed not later than 120 days before certification, is taking steps to adopt that standard;

(3) is enforcing each adopted standard through ways that include inspections conducted by State employees meeting the qualifications the Secretary prescribes under section 60107(d)(1)(C) of this title;

(4) is encouraging and promoting programs designed to prevent damage by demolition, excavation, tunneling, or construction activity to the pipeline facilities to which the certification applies;

(5) may require record maintenance, reporting, and inspection substantially the same as provided under section 60117 of this title;

(6) may require that plans for inspection and maintenance under section 60108 (a) and (b) of this title be filed for approval; and

(7) may enforce safety standards of the authority under a law of the State by injunctive relief and civil penalties substantially the same as provided under sections 60120 and 60122(a)(1) and (b)–(f) of this title.

(c) REPORTS.—(1) Each certification submitted under subsection (a) of this section shall include a report that contains—

(A) the name and address of each person to whom the certification applies that is subject to the safety jurisdiction of the State authority;

(B) each accident or incident reported during the prior 12 months by that person involving a fatality, personal injury requiring hospitalization, or property damage or loss of more than an amount the Secretary establishes (even if the person sustaining the fatality, personal injury, or property damage or loss is not subject to the safety jurisdiction of the authority), any other accident the authority considers significant, and a summary of the investigation by the authority of the cause and circumstances surrounding the accident or incident;

(C) the record maintenance, reporting, and inspection practices conducted by the authority to enforce compliance with safety standards prescribed under this chapter to which the certification applies, including the number of inspections of pipeline facilities the authority made during the prior 12 months; and

(D) any other information the Secretary requires.

(2) The report included in the first certification submitted under subsection (a) of this section is only required to state information available at the time of certification.

(d) APPLICATION.—A certification in effect under this section does not apply to safety standards prescribed under this chapter after the date of certification. This chapter applies to each applicable safety standard prescribed after the date of certification until the State authority adopts the standard and submits the appropriate certification to the Secretary under subsection (a) of this section.

(e) MONITORING.—The Secretary may monitor a safety program established under this section to ensure that the program complies with the certification. A State authority shall cooperate with the Secretary under this subsection.

(f) REJECTIONS OF CERTIFICATION.—If after receiving a certification the Secretary decides the State authority is not enforcing satisfactorily compliance with applicable safety standards prescribed under this chapter, the Secretary may reject the certification, assert United States Government jurisdiction, or take other appropriate action to achieve adequate enforcement. The Secretary shall give the authority notice and an opportunity for a hearing before taking final action under this subsection. When notice is given, the burden of proof is on the authority to demonstrate that it is enforcing satisfactorily compliance with the prescribed standards.

AMENDMENTS

1996—Pub. L. 104-304 substituted “State pipeline safety program certifications” for “State certifications” in section catchline.

§ 60106. State pipeline safety agreements

(a) AGREEMENTS WITHOUT CERTIFICATION.—If the Secretary of Transportation does not receive a certification under section 60105 of this title, the Secretary may make an agreement with a State authority (including a municipality if the agreement applies to intrastate gas pipeline transportation) authorizing it to take necessary action. Each agreement shall—

(1) establish an adequate program for record maintenance, reporting, and inspection designed to assist compliance with applicable safety standards prescribed under this chapter; and

(2) prescribe procedures for approval of plans of inspection and maintenance substantially the same as required under section 60108 (a) and (b) of this title.

(b) AGREEMENTS WITH CERTIFICATION.—

(1) IN GENERAL.—If the Secretary accepts a certification under section 60105 and makes the determination required under this subsection, the Secretary may make an agreement with a State authority authorizing it to participate in the oversight of interstate pipeline transportation. Each such agreement shall include a plan for the State authority to participate in special investigations involving incidents or new construction and allow the State authority to participate in other activities overseeing interstate pipeline transportation or to assume additional inspection or investigatory duties. Nothing in this section modifies section 60104(c) or authorizes the Secretary to delegate the enforcement of safety standards for interstate pipeline facilities prescribed under this chapter to a State authority.

(2) DETERMINATIONS REQUIRED.—The Secretary may not enter into an agreement under this subsection, unless the Secretary determines in writing that—

(A) the agreement allowing participation of the State authority is consistent with the Secretary’s program for inspection and consistent with the safety policies and provisions provided under this chapter;

(B) the interstate participation agreement would not adversely affect the oversight responsibilities of intrastate pipeline transportation by the State authority;

(C) the State is carrying out a program demonstrated to promote preparedness and risk prevention activities that enable communities to live safely with pipelines;

(D) the State meets the minimum standards for State one-call notification set forth in chapter 61; and

(E) the actions planned under the agreement would not impede interstate commerce or jeopardize public safety.

(3) EXISTING AGREEMENTS.—If requested by the State authority, the Secretary shall authorize a State authority which had an interstate agreement in effect after January 31,

1999, to oversee interstate pipeline transportation pursuant to the terms of that agreement until the Secretary determines that the State meets the requirements of paragraph (2) and executes a new agreement, or until December 31, 2003, whichever is sooner. Nothing in this paragraph shall prevent the Secretary, after affording the State notice, hearing, and an opportunity to correct any alleged deficiencies, from terminating an agreement that was in effect before enactment of the Pipeline Safety Improvement Act of 2002 if—

(A) the State authority fails to comply with the terms of the agreement;

(B) implementation of the agreement has resulted in a gap in the oversight responsibilities of intrastate pipeline transportation by the State authority; or

(C) continued participation by the State authority in the oversight of interstate pipeline transportation has had an adverse impact on pipeline safety.

(c) NOTIFICATION.—

(1) IN GENERAL.—Each agreement shall require the State authority to notify the Secretary promptly of a violation or probable violation of an applicable safety standard discovered as a result of action taken in carrying out an agreement under this section.

(2) RESPONSE BY SECRETARY.—If a State authority notifies the Secretary under paragraph (1) of a violation or probable violation of an applicable safety standard, the Secretary, not later than 60 days after the date of receipt of the notification, shall—

(A) issue an order under section 60118(b) or take other appropriate enforcement actions to ensure compliance with this chapter; or

(B) provide the State authority with a written explanation as to why the Secretary has determined not to take such actions.

(d) MONITORING.—The Secretary may monitor a safety program established under this section to ensure that the program complies with the agreement. A State authority shall cooperate with the Secretary under this subsection.

(e) ENDING AGREEMENTS.—

(1) PERMISSIVE TERMINATION.—The Secretary may end an agreement under this section when the Secretary finds that the State authority has not complied with any provision of the agreement.

(2) MANDATORY TERMINATION OF AGREEMENT.—The Secretary shall end an agreement for the oversight of interstate pipeline transportation if the Secretary finds that—

(A) implementation of such agreement has resulted in a gap in the oversight responsibilities of intrastate pipeline transportation by the State authority;

(B) the State actions under the agreement have failed to meet the requirements under subsection (b); or

(C) continued participation by the State authority in the oversight of interstate pipeline transportation would not promote pipeline safety.

(3) PROCEDURAL REQUIREMENTS.—The Secretary shall give notice and an opportunity for a hearing to a State authority before ending

an agreement under this section. The Secretary may provide a State an opportunity to correct any deficiencies before ending an agreement. The finding and decision to end the agreement shall be published in the Federal Register and may not become effective for at least 15 days after the date of publication unless the Secretary finds that continuation of an agreement poses an imminent hazard.

§ 60107. State pipeline safety grants

(a) GENERAL AUTHORITY.—If a State authority files an application not later than September 30 of a calendar year, the Secretary of Transportation shall pay not more than 50 percent of the cost of the personnel, equipment, and activities the authority reasonably requires during the next calendar year—

(1) to carry out a safety program under a certification under section 60105 of this title or an agreement under section 60106 of this title; or

(2) to act as an agent of the Secretary on interstate gas pipeline facilities or interstate hazardous liquid pipeline facilities.

(b) PAYMENTS.—After notifying and consulting with a State authority, the Secretary may withhold any part of a payment when the Secretary decides that the authority is not carrying out satisfactorily a safety program or not acting satisfactorily as an agent. The Secretary may pay an authority under this section only when the authority ensures the Secretary that it will provide the remaining costs of a safety program and that the total State amount spent for a safety program (excluding grants of the United States Government) will at least equal the average amount spent—

(1) for a gas safety program, for the fiscal years that ended June 30, 1967, and June 30, 1968; and

(2) for a hazardous liquid safety program, for the fiscal years that ended September 30, 1978, and September 30, 1979.

(c) APPORTIONMENT AND METHOD OF PAYMENT.—The Secretary shall apportion the amount appropriated to carry out this section among the States. A payment may be made under this section in installments, in advance, or on a reimbursable basis.

(d) ADDITIONAL AUTHORITY AND CONSIDERATIONS.—(1) The Secretary may prescribe—

(A) the form of, and way of filing, an application under this section;

(B) reporting and fiscal procedures the Secretary considers necessary to ensure the proper accounting of money of the Government; and

(C) qualifications for a State to meet to receive a payment under this section, including qualifications for State employees who perform inspection activities under section 60105 or 60106 of this title.

(2) The qualifications prescribed under paragraph (1)(C) of this subsection may—

(A) consider the experience and training of the employee;

(B) order training or other requirements; and

(C) provide for approval of qualifications on a conditional basis until specified requirements are met.

AMENDMENTS

1996—Pub. L. 104-304 substituted “State pipeline safety grants” for “State grants” in section catchline.

§ 60108. Inspection and maintenance

(a) PLANS.—(1) Each person owning or operating an intrastate gas pipeline facility or hazardous liquid pipeline facility shall carry out a current written plan (including any changes) for inspection and maintenance of each facility used in the transportation and owned or operated by the person. A copy of the plan shall be kept at any office of the person the Secretary of Transportation considers appropriate. The Secretary also may require a person owning or operating a pipeline facility subject to this chapter to file a plan for inspection and maintenance for approval.

(2) If the Secretary or a State authority responsible for enforcing standards prescribed under this chapter decides that a plan required under paragraph (1) of this subsection is inadequate for safe operation, the Secretary or authority shall require the person to revise the plan. Revision may be required only after giving notice and an opportunity for a hearing. A plan required under paragraph (1) must be practicable and designed to meet the need for pipeline safety and must include terms designed to enhance the ability to discover safety-related conditions described in section 60102(h)(1) of this title. In deciding on the adequacy of a plan, the Secretary or authority shall consider—

- (A) relevant available pipeline safety information;
- (B) the appropriateness of the plan for the particular kind of pipeline transportation or facility;
- (C) the reasonableness of the plan; and
- (D) the extent to which the plan will contribute to public safety and the protection of the environment.

(3) A plan required under this subsection shall be made available to the Secretary or State authority on request under section 60117 of this title.

(b) INSPECTION AND TESTING.—(1) The Secretary shall inspect and require appropriate testing of a pipeline facility subject to this chapter that is not covered by a certification under section 60105 of this title or an agreement under section 60106 of this title. The Secretary shall decide on the frequency and type of inspection and testing under this subsection on a case-by-case basis after considering the following:

- (A) the location of the pipeline facility.
- (B) the type, size, age, manufacturer, method of construction, and condition of the pipeline facility.
- (C) the nature and volume of material transported through the pipeline facility.
- (D) the pressure at which that material is transported.

(E) climatic, geologic, and seismic characteristics (including soil characteristics) and conditions of the area in which the pipeline facility is located.

(F) existing and projected population and demographic characteristics of the area in which the pipeline facility is located.

(G) for a hazardous liquid pipeline facility, the proximity of the area in which the facility is located to an area that is unusually sensitive to environmental damage.

(H) the frequency of leaks.

(I) other factors the Secretary decides are relevant to the safety of pipeline facilities.

(2) To the extent and in amounts provided in advance in an appropriation law, the Secretary shall decide on the frequency of inspection under paragraph (1) of this subsection. The Secretary may reduce the frequency of an inspection of a master meter system.

(3) Testing under this subsection shall use the most appropriate technology practicable.

(c) PIPELINE FACILITIES OFFSHORE AND IN OTHER WATERS.—(1) In this subsection—

(A) “abandoned” means permanently removed from service.

(B) “pipeline facility” includes an underwater abandoned pipeline facility.

(C) if a pipeline facility has no operator, the most recent operator of the facility is deemed to be the operator of the facility.

(2)(A) Not later than May 16, 1993, on the basis of experience with the inspections under section 3(h)(1)(A) of the Natural Gas Pipeline Safety Act of 1968 or section 203(l)(1)(A) of the Hazardous Liquid Pipeline Safety Act of 1979, as appropriate, and any other information available to the Secretary, the Secretary shall establish a mandatory, systematic, and, where appropriate, periodic inspection program of—

- (i) all offshore pipeline facilities; and
- (ii) any other pipeline facility crossing under, over, or through waters where a substantial likelihood of commercial navigation exists, if the Secretary decides that the location of the facility in those waters could pose a hazard to navigation or public safety.

(B) In prescribing standards to carry out subparagraph (A) of this paragraph—

(i) the Secretary shall identify what is a hazard to navigation with respect to an underwater abandoned pipeline facility; and

(ii) for an underwater pipeline facility abandoned after October 24, 1992, the Secretary shall include requirements that will lessen the potential that the facility will pose a hazard to navigation and shall consider the relationship between water depth and navigational safety and factors relevant to the local marine environment.

(3)(A) The Secretary shall establish by regulation a program requiring an operator of a pipeline facility described in paragraph (2) of this subsection to report a potential or existing navigational hazard involving that pipeline facility to the Secretary through the appropriate Coast Guard office.

(B) The operator of a pipeline facility described in paragraph (2) of this subsection that

discovers any part of the pipeline facility that is a hazard to navigation shall mark the location of the hazardous part with a Coast-Guard-approved marine buoy or marker and immediately shall notify the Secretary as provided by the Secretary under subparagraph (A) of this paragraph. A marine buoy or marker used under this subparagraph is deemed a pipeline sign or right-of-way marker under section 60123(c) of this title.

(4)(A) The Secretary shall establish a standard that each pipeline facility described in paragraph (2) of this subsection that is a hazard to navigation is buried not later than 6 months after the date the condition of the facility is reported to the Secretary. The Secretary may extend that 6-month period for a reasonable period to ensure compliance with this paragraph.

(B) In prescribing standards for subparagraph (A) of this paragraph for an underwater pipeline facility abandoned after October 24, 1992, the Secretary shall include requirements that will lessen the potential that the facility will pose a hazard to navigation and shall consider the relationship between water depth and navigational safety and factors relevant to the local marine environment.

(5)(A) Not later than October 24, 1994, the Secretary shall establish standards on what is an exposed offshore pipeline facility and what is a hazard to navigation under this subsection.

(B) Not later than 6 months after the Secretary establishes standards under subparagraph (A) of this paragraph, or October 24, 1995, whichever occurs first, the operator of each offshore pipeline facility not described in section 3(h)(1)(A) of the Natural Gas Pipeline Safety Act of 1968 or section 203(l)(1)(A) of the Hazardous Liquid Pipeline Safety Act of 1979, as appropriate, shall inspect the facility and report to the Secretary on any part of the facility that is exposed or is a hazard to navigation. This subparagraph applies only to a facility that is between the high water mark and the point at which the subsurface is under 15 feet of water, as measured from mean low water. An inspection that occurred after October 3, 1989, may be used for compliance with this subparagraph if the inspection conforms to the requirements of this subparagraph.

(C) The Secretary may extend the time period specified in subparagraph (B) of this paragraph for not more than 6 months if the operator of a facility satisfies the Secretary that the operator has made a good faith effort, with reasonable diligence, but has been unable to comply by the end of that period.

(6)(A) The operator of a pipeline facility abandoned after October 24, 1992, shall report the abandonment to the Secretary in a way that specifies whether the facility has been abandoned properly according to applicable United States Government and State requirements.

(B) Not later than October 24, 1995, the operator of a pipeline facility abandoned before October 24, 1992, shall report to the Secretary reasonably available information related to the facility, including information that a third party possesses. The information shall include the location, size, date, and method of abandonment, whether the facility has been abandoned prop-

erly under applicable law, and other relevant information the Secretary may require. Not later than April 24, 1994, the Secretary shall specify how the information shall be reported. The Secretary shall ensure that the Government maintains the information in a way accessible to appropriate Government agencies and State authorities.

(C) The Secretary shall request that a State authority having information on a collision between a vessel and an underwater pipeline facility report the information to the Secretary in a timely way and make a reasonable effort to specify the location, date, and severity of the collision. Chapter 35 of title 44 does not apply to this subparagraph.

(7) The Secretary may not exempt from this chapter an offshore hazardous liquid pipeline facility only because the pipeline facility transfers hazardous liquid in an underwater pipeline between a vessel and an onshore facility.

(d) REPLACING CAST IRON GAS PIPELINES.—(1) The Secretary shall publish a notice on the availability of industry guidelines, developed by the Gas Piping Technology Committee, for replacing cast iron pipelines. Not later than 2 years after the guidelines become available, the Secretary shall conduct a survey of gas pipeline operators with cast iron pipe in their systems to establish—

(A) the extent to which each operator has adopted a plan for the safe management and replacement of cast iron;

(B) the elements of the plan, including the anticipated rate of replacement; and

(C) the progress that has been made.

(2) Chapter 35 of title 44 does not apply to the conduct of the survey.

(3) This subsection does not prevent the Secretary from developing Government guidelines or standards for cast iron gas pipelines as the Secretary considers appropriate.

L. 107-355, §25, Dec. 17, 2002, 116 Stat. 3011, required the Secretary of Transportation to conduct a study to determine whether cable-suspension pipeline bridges pose structural or other risks warranting particularized attention in connection with pipeline operators risk assessment programs and whether particularized inspection standards need to be developed by the Department of Transportation to recognize the peculiar risks posed by such bridges and to transmit a report detailing the results of the completed study within 2 years after Dec. 17, 2002.

STUDY OF UNDERWATER ABANDONED PIPELINE FACILITIES

Pub. L. 102-508, title III, §307, Oct. 24, 1992, 106 Stat. 3309, directed Secretary of Transportation, in consultation with State and other Federal agencies having authority over underwater natural gas and hazardous liquid pipeline facilities and with pipeline owners and operators, fishing and maritime industries, and other affected groups, to submit to Congress, not later than 3 years after Oct. 24, 1992, report and recommendations on abandonment of such pipeline facilities, including analysis of problems caused by such facilities, alternative methods to abandonment, as well as navigational, safety, economic, and environmental impacts associated with abandonment, and further authorized Secretary to require, based on findings of such study, additional appropriate actions to prevent hazards to navigation in connection with such facilities.

§ 60109. High-density population areas and environmentally sensitive areas

(a) IDENTIFICATION REQUIREMENTS.—Not later than October 24, 1994, the Secretary of Transportation shall prescribe standards that—

(1) establish criteria for identifying—

(A) by operators of gas pipeline facilities, each gas pipeline facility (except a natural gas distribution line) located in a high-density population area; and

(B) by operators of hazardous liquid pipeline facilities and gathering lines—

(i) each hazardous liquid pipeline facility, whether otherwise subject to this chapter, that crosses waters where a substantial likelihood of commercial navigation exists or that is located in an area described in the criteria as a high-density population area; and

(ii) each hazardous liquid pipeline facility and gathering line, whether otherwise subject to this chapter, located in an area that the Secretary, in consultation with the Administrator of the Environmental Protection Agency, describes as unusually sensitive to environmental damage if there is a hazardous liquid pipeline accident; and

(2) provide that the identification be carried out through the inventory required under section 60102(e) of this title.

(b) AREAS TO BE INCLUDED AS UNUSUALLY SENSITIVE.—When describing areas that are unusually sensitive to environmental damage if there is a hazardous liquid pipeline accident, the Secretary shall consider areas where a pipeline rupture would likely cause permanent or long-term environmental damage, including—

(1) locations near pipeline rights-of-way that are critical to drinking water, including intake locations for community water systems and critical sole source aquifer protection areas; and

(2) locations near pipeline rights-of-way that have been identified as critical wetlands, riverine or estuarine systems, national parks, wilderness areas, wildlife preservation areas or refuges, wild and scenic rivers, or critical habitat areas for threatened and endangered species.

(c) RISK ANALYSIS AND INTEGRITY MANAGEMENT PROGRAMS.—

(1) REQUIREMENT.—Each operator of a gas pipeline facility shall conduct an analysis of the risks to each facility of the operator located in an area identified pursuant to subsection (a)(1) and defined in chapter 192 of title 49, Code of Federal Regulations, including any subsequent modifications, and shall adopt and implement a written integrity management program for such facility to reduce the risks.

(2) REGULATIONS.—

(A) IN GENERAL.—Not later than 12 months after the date of enactment of this subsection, the Secretary shall issue regulations prescribing standards to direct an operator's conduct of a risk analysis and adoption and implementation of an integrity management program under this subsection. The regulations shall require an operator to conduct a risk analysis and adopt an integrity management program within a time period prescribed by the Secretary, ending not later than 24 months after such date of enactment. Not later than 18 months after such date of enactment, each operator of a gas pipeline facility shall begin a baseline integrity assessment described in paragraph (3).

(B) AUTHORITY TO ISSUE REGULATIONS.—The Secretary may satisfy the requirements of this paragraph through the issuance of regulations under this paragraph or under other authority of law.

(3) MINIMUM REQUIREMENTS OF INTEGRITY MANAGEMENT PROGRAMS.—An integrity management program required under paragraph (1) shall include, at a minimum, the following requirements:

(A) A baseline integrity assessment of each of the operator's facilities in areas identified pursuant to subsection (a)(1) and defined in chapter 192 of title 49, Code of Federal Regulations, including any subsequent modifications, by internal inspection device, pressure testing, direct assessment, or an alternative method that the Secretary determines would provide an equal or great-

er level of safety. The operator shall complete such assessment not later than 10 years after the date of enactment of this subsection. At least 50 percent of such facilities shall be assessed not later than 5 years after such date of enactment. The operator shall prioritize such facilities for assessment based on all risk factors, including any previously discovered defects or anomalies and any history of leaks, repairs, or failures. The operator shall ensure that assessments of facilities with the highest risks are given priority for completion and that such assessments will be completed not later than 5 years after such date of enactment.

(B) Subject to paragraph (5), periodic reassessment of the facility, at a minimum of once every 7 years, using methods described in subparagraph (A).

(C) Clearly defined criteria for evaluating the results of assessments conducted under subparagraphs (A) and (B) and for taking actions based on such results.

(D) A method for conducting an analysis on a continuing basis that integrates all available information about the integrity of the facility and the consequences of releases from the facility.

(E) A description of actions to be taken by the operator to promptly address any integrity issue raised by an evaluation conducted under subparagraph (C) or the analysis conducted under subparagraph (D).

(F) A description of measures to prevent and mitigate the consequences of releases from the facility.

(G) A method for monitoring cathodic protection systems throughout the pipeline system of the operator to the extent not addressed by other regulations.

(H) If the Secretary raises a safety concern relating to the facility, a description of the actions to be taken by the operator to address the safety concern, including issues raised with the Secretary by States and local authorities under an agreement entered into under section 60106.

(4) TREATMENT OF BASELINE INTEGRITY ASSESSMENTS.—In the case of a baseline integrity assessment conducted by an operator in the period beginning on the date of enactment of this subsection and ending on the date of issuance of regulations under this subsection, the Secretary shall accept the assessment as complete, and shall not require the operator to repeat any portion of the assessment, if the Secretary determines that the assessment was conducted in accordance with the requirements of this subsection.

(5) WAIVERS AND MODIFICATIONS.—In accordance with section 60118(c), the Secretary may waive or modify any requirement for reassessment of a facility under paragraph (3)(B) for reasons that may include the need to maintain local product supply or the lack of internal inspection devices if the Secretary determines that such waiver is not inconsistent with pipeline safety.

(6) STANDARDS.—The standards prescribed by the Secretary under paragraph (2) shall address each of the following factors:

(A) The minimum requirements described in paragraph (3).

(B) The type or frequency of inspections or testing of pipeline facilities, in addition to the minimum requirements of paragraph (3)(B).

(C) The manner in which the inspections or testing are conducted.

(D) The criteria used in analyzing results of the inspections or testing.

(E) The types of information sources that must be integrated in assessing the integrity of a pipeline facility as well as the manner of integration.

(F) The nature and timing of actions selected to address the integrity of a pipeline facility.

(G) Such other factors as the Secretary determines appropriate to ensure that the integrity of a pipeline facility is addressed and that appropriate mitigative measures are adopted to protect areas identified under subsection (a)(1).

In prescribing those standards, the Secretary shall ensure that all inspections required are conducted in a manner that minimizes environmental and safety risks, and shall take into account the applicable level of protection established by national consensus standards organizations.

(7) ADDITIONAL OPTIONAL STANDARDS.—The Secretary may also prescribe standards requiring an operator of a pipeline facility to include in an integrity management program under this subsection—

(A) changes to valves or the establishment or modification of systems that monitor pressure and detect leaks based on the operator's risk analysis; and

(B) the use of emergency flow restricting devices.

(8) LACK OF REGULATIONS.—In the absence of regulations addressing the elements of an integrity management program described in this subsection, the operator of a pipeline facility shall conduct a risk analysis and adopt and implement an integrity management program described in this subsection not later than 24 months after the date of enactment of this subsection and shall complete the baseline integrity assessment described in this subsection not later than 10 years after such date of enactment. At least 50 percent of such facilities shall be assessed not later than 5 years after such date of enactment. The operator shall prioritize such facilities for assessment based on all risk factors, including any previously discovered defects or anomalies and any history of leaks, repairs, or failures. The operator shall ensure that assessments of facilities with the highest risks are given priority for completion and that such assessments will be completed not later than 5 years after such date of enactment.

(9) REVIEW OF INTEGRITY MANAGEMENT PROGRAMS.—

(A) REVIEW OF PROGRAMS.—

(i) IN GENERAL.—The Secretary shall review a risk analysis and integrity management program under paragraph (1) and

record the results of that review for use in the next review of an operator's program.

(ii) **CONTEXT OF REVIEW.**—The Secretary may conduct a review under clause (i) as an element of the Secretary's inspection of an operator.

(iii) **INADEQUATE PROGRAMS.**—If the Secretary determines that a risk analysis or integrity management program does not comply with the requirements of this subsection or regulations issued as described in paragraph (2), or is inadequate for the safe operation of a pipeline facility, the Secretary shall act under section 60108(a)(2) to require the operator to revise the risk analysis or integrity management program.

(B) **AMENDMENTS TO PROGRAMS.**—In order to facilitate reviews under this paragraph, an operator of a pipeline facility shall notify the Secretary of any amendment made to the operator's integrity management program not later than 30 days after the date of adoption of the amendment. The Secretary shall review any such amendment in accordance with this paragraph.

(C) **TRANSMITTAL OF PROGRAMS TO STATE AUTHORITIES.**—The Secretary shall provide a copy of each risk analysis and integrity management program reviewed by the Secretary under this paragraph to any appropriate State authority with which the Secretary has entered into an agreement under section 60106.

(10) **STATE REVIEW OF INTEGRITY MANAGEMENT PLANS.**—A State authority that enters into an agreement pursuant to section 60106, permitting the State authority to review the risk analysis and integrity management program pursuant to paragraph (9), may provide the Secretary with a written assessment of the risk analysis and integrity management program, make recommendations, as appropriate, to address safety concerns not adequately addressed by the operator's risk analysis or integrity management program, and submit documentation explaining the State-proposed revisions. The Secretary shall consider carefully the State's proposals and work in consultation with the States and operators to address safety concerns.

(11) **APPLICATION OF STANDARDS.**—Section 60104(b) shall not apply to this section.

(d) **EVALUATION OF INTEGRITY MANAGEMENT REGULATIONS.**—Not later than 4 years after the date of enactment of this subsection, the Comptroller General shall complete an assessment and evaluation of the effects on public safety and the environment of the requirements for the implementation of integrity management programs contained in the standards prescribed as described in subsection (c)(2).

§ 60112. Pipeline facilities hazardous to life and property

(a) GENERAL AUTHORITY.—After notice and an opportunity for a hearing, the Secretary of Transportation may decide that a pipeline facility is hazardous if the Secretary decides that—

(1) operation of the facility is or would be hazardous to life, property, or the environment; or

(2) the facility is or would be constructed or operated, or a component of the facility is or would be constructed or operated, with equipment, material, or a technique that the Secretary decides is hazardous to life, property, or the environment.

(b) CONSIDERATIONS.—In making a decision under subsection (a) of this section, the Secretary shall consider, if relevant—

(1) the characteristics of the pipe and other equipment used in the pipeline facility, including the age, manufacture, physical properties, and method of manufacturing, constructing, or assembling the equipment;

(2) the nature of the material the pipeline facility transports, the corrosive and deteriorative qualities of the material, the sequence in which the material are¹ transported, and the pressure required for transporting the material;

(3) the aspects of the area in which the pipeline facility is located, including climatic and geologic conditions and soil characteristics;

(4) the proximity of the area in which the hazardous liquid pipeline facility is located to environmentally sensitive areas;

(5) the population density and population and growth patterns of the area in which the pipeline facility is located;

(6) any recommendation of the National Transportation Safety Board made under another law; and

(7) other factors the Secretary considers appropriate.

(c) OPPORTUNITY FOR STATE COMMENT.—The Secretary shall provide, to any appropriate offi-

(1) IN GENERAL.—If the Secretary decides under subsection (a) of this section that a pipeline facility is or would be hazardous, the Secretary shall order the operator of the facility to take necessary corrective action, including suspended or restricted use of the facility, physical inspection, testing, repair, replacement, or other appropriate action.

(2) ACTIONS ATTRIBUTABLE TO AN EMPLOYEE.—If, in the case of a corrective action order issued following an accident, the Secretary determines that the actions of an employee carrying out an activity regulated under this chapter, including duties under section 60102(a), may have contributed substantially to the cause of the accident, the Secretary shall direct the operator to relieve the employee from performing those activities, reassign the employee, or place the employee on leave until the earlier of the date on which—

(A) the Secretary, after notice and an opportunity for a hearing, determines that the employee’s actions did not contribute substantially to the cause of the accident; or

(B) the Secretary determines the employee has been re-qualified or re-trained as provided for in section 60131 and can safely perform those activities.

(3) EFFECT OF COLLECTIVE BARGAINING AGREEMENTS.—An action taken by an operator under paragraph (2) shall be in accordance with the terms and conditions of any applicable collective bargaining agreement.

(e) WAIVER OF NOTICE AND HEARING IN EMERGENCY.—The Secretary may waive the requirements for notice and an opportunity for a hearing under this section and issue expeditiously an order under this section if the Secretary decides failure to issue the order expeditiously will result in likely serious harm to life, property, or the environment. EFFECTIVE DATE OF 1994 AMENDMENT

Amendment by Pub. L. 103-429 effective July 5, 1994, see section 9 of Pub. L. 103-429, set out as a note under section 321 of this title.

§ 60113. Customer-owned natural gas service lines

Not later than October 24, 1993, the Secretary of Transportation shall prescribe standards re-

quiring an operator of a natural gas distribution pipeline that does not maintain customer-owned natural gas service lines up to building walls to advise its customers of—

(1) the requirements for maintaining those lines;

(2) any resources known to the operator that could assist customers in carrying out the maintenance;

AMENDMENTS

1996—Pub. L. 104-304 struck out subsec. (a) designation and heading, substituted “standards” for “regulations”, and struck out subsec. (b), which read as follows:

“(b) ACTIONS TO PROMOTE SAFETY.—Not later than one year after submitting the report required under section 115(b) of the Pipeline Safety Act of 1992 (Public Law 102-508, 106 Stat. 3296), the Secretary, considering the report and in cooperation and coordination with appropriate State and local authorities, shall take appropriate action to promote the adoption of measures to improve the safety of customer-owned natural gas service lines.”

MAINTENANCE OF CUSTOMER-OWNED SERVICE LINES

Pub. L. 102-508, title I, §115(b), Oct. 24, 1992, 106 Stat. 3296, provided that:

“(1) DOT SAFETY REVIEW.—Within 18 months after the date of the enactment of this Act [Oct. 24, 1992], the Secretary of Transportation shall conduct a review of Department of Transportation and State rules, policies, procedures, and other measures with respect to the safety of customer-owned natural gas service lines, including the effectiveness of such rules, policies, procedures, and other measures. The Secretary of Transportation shall include in the review an evaluation of the extent to which lack of maintenance of customer-owned natural gas service lines raises safety concerns and shall make recommendations regarding maintenance of such lines, including the need for any legislative changes or regulatory action. In conducting the review and developing the recommendations, the Secretary of Transportation shall consider the following factors: State and local law, including law governing private property and rights, and including State pipeline safety regulation of distribution operators; the views of State and local regulatory authorities; the extent of operator compliance with the program for advising customers regarding maintenance of such lines required under section 18(b) of the Natural Gas Pipeline Safety Act of 1968 [see subsec. (a) of this section]; available accident information; the recommendations of the National Transportation Safety Board; costs; the civil liability implications of distribution operators taking responsibility for customer-owned service lines; and

whether the service line maintenance information program required under such section 18(b) sufficiently addresses safety risks and concerns involving customer-owned service lines.

“(2) OPERATION AND MAINTENANCE RESPONSIBILITY.—Within 18 months after the date of the enactment of this Act [Oct. 24, 1992], the Secretary of Transportation shall conduct, with the participation of the operators of natural gas distribution facilities, a survey of owners of customer-owned service lines to determine the views of such owners regarding whether distribution companies should assume responsibility for the operation and maintenance of customer-owned service lines. In conducting the survey, the Secretary of Transportation shall ensure that such customers are aware of any potential safety benefits, any potential implementation issues (including any property rights or cost issues), the recommendations of the National Transportation Safety Board, and accidents that have occurred, related to customer-owned service lines.

“(3) APPLICABILITY.—Chapter 35 of title 44, United States Code (relating to coordination of Federal information policy) shall not apply to the conduct of the review or survey under this subsection.

“(4) REPORT.—Not later than 2 years after the date of the enactment of this Act [Oct. 24, 1992], the Secretary of Transportation shall transmit to Congress a report on the results of the review and survey conducted under this subsection, together with any recommendations (including legislative recommendations) regarding maintenance of customer-owned natural gas service lines.”

§ 60114. One-call notification systems

(a) MINIMUM REQUIREMENTS.—The Secretary of Transportation shall prescribe regulations providing minimum requirements for establishing and operating a one-call notification system for a State to adopt that will notify an operator of a pipeline facility of activity in the vicinity of the facility that could threaten the safety of the facility. The regulations shall include the following:

- (1) a requirement that the system apply to all areas of the State containing underground pipeline facilities.
- (2) a requirement that a person, including a government employee or contractor, intending to engage in an activity the Secretary decides could cause physical damage to an underground facility must contact the appropriate system to establish if there are underground facilities present in the area of the intended activity.
- (3) a requirement that all operators of underground pipeline facilities participate in an appropriate one-call notification system.
- (4) qualifications for an operator of a facility, a private contractor, or a State or local authority to operate a system.
- (5) procedures for advertisement and notice of the availability of a system.
- (6) a requirement about the information to be provided by a person contacting the system under clause (2) of this subsection.
- (7) a requirement for the response of the operator of the system and of the facility after they are contacted by an individual under this subsection.
- (8) a requirement that each State decide whether the system will be toll free.
- (9) a requirement for sanctions substantially the same as provided under sections 60120 and 60122 of this title.

(b) MARKING FACILITIES.—On notification by an operator of a damage prevention program or by a person planning to carry out demolition, excavation, tunneling, or construction in the vicinity of a pipeline facility, the operator of the facility shall mark accurately, in a reasonable and timely way, the location of the pipeline facilities in the vicinity of the demolition, excavation, tunneling, or construction.

(c) RELATIONSHIP TO OTHER LAWS.—This section and regulations prescribed under this section do not affect the liability established under a law of the United States or a State for damage caused by an activity described in subsection (a)(2) of this section.

REFERENCES IN TEXT

The date of enactment of the Pipeline Safety Improvement Act of 2002, referred to in subsec. (b), is the date of enactment of Pub. L. 107-355, which was approved Dec. 17, 2002.

AMENDMENTS

2002—Pub. L. 107-355 reenacted section catchline without change and amended text generally. Prior to amendment, text read as follows: “Under regulations the Secretary of Transportation prescribes, each owner or operator of a gas pipeline facility shall carry out a program to educate the public on the use of a one-call notification system prior to excavation, the possible hazards associated with gas leaks, and the importance of reporting gas odors and leaks to the appropriate authority. The Secretary may develop material suitable for use in the program.”

1996—Pub. L. 104-304 substituted “owner or operator of a gas pipeline facility” for “person transporting gas”, inserted “the use of a one-call notification system prior to excavation,” after “educate the public on”, and inserted comma after “gas leaks”.

§ 60117. Administrative

(a) **GENERAL AUTHORITY.**—To carry out this chapter, the Secretary of Transportation may conduct investigations, make reports, issue subpoenas, conduct hearings, require the production of records, take depositions, and conduct research, testing, development, demonstration, and training activities and promotional activities relating to prevention of damage to pipeline facilities. The Secretary may not charge a tuition-type fee for training State or local government personnel in the enforcement of regulations prescribed under this chapter.

(b) **RECORDS, REPORTS, AND INFORMATION.**—To enable the Secretary to decide whether a person owning or operating a pipeline facility is complying with this chapter and standards prescribed or orders issued under this chapter, the person shall—

- (1) maintain records, make reports, and provide information the Secretary requires; and
- (2) make the records, reports, and information available when the Secretary requests.

The Secretary may require owners and operators of gathering lines to provide the Secretary information pertinent to the Secretary's ability to make a determination as to whether and to what extent to regulate gathering lines.

(c) **ENTRY AND INSPECTION.**—An officer, employee, or agent of the Department of Transportation designated by the Secretary, on display of proper credentials to the individual in charge, may enter premises to inspect the records and property of a person at a reasonable time and in a reasonable way to decide whether a person is complying with this chapter and standards prescribed or orders issued under this chapter.

(d) **CONFIDENTIALITY OF INFORMATION.**—Information related to a confidential matter referred to in section 1905 of title 18 that is obtained by the Secretary or an officer, employee, or agent in carrying out this section may be disclosed only to another officer or employee concerned with carrying out this chapter or in a proceeding under this chapter.

(e) **USE OF ACCIDENT REPORTS.**—(1) Each accident report made by an officer, employee, or agent of the Department may be used in a judicial proceeding resulting from the accident. The officer, employee, or agent may be required to testify in the proceeding about the facts developed in investigating the accident. The report shall be made available to the public in a way that does not identify an individual.

(2) Each report related to research and demonstration projects and related activities is public information.

(f) **TESTING FACILITIES INVOLVED IN ACCIDENTS.**—The Secretary may require testing of a part of a pipeline facility subject to this chapter that has been involved in or affected by an accident only after—

- (1) notifying the appropriate State official in the State in which the facility is located; and
- (2) attempting to negotiate a mutually acceptable plan for testing with the owner of the facility and, when the Secretary considers appropriate, the National Transportation Safety Board.

(g) **PROVIDING SAFETY INFORMATION.**—On request, the Secretary shall provide the Federal

Energy Regulatory Commission or appropriate State authority with information the Secretary has on the safety of material, operations, devices, or processes related to pipeline transportation or operating a pipeline facility.

(h) **COOPERATION.**—The Secretary may—

(1) advise, assist, and cooperate with other departments, agencies, and instrumentalities of the United States Government, the States, and public and private agencies and persons in planning and developing safety standards and ways to inspect and test to decide whether those standards have been complied with;

(2) consult with and make recommendations to other departments, agencies, and instrumentalities of the Government, State and local governments, and public and private agencies and persons to develop and encourage activities, including the enactment of legislation, that will assist in carrying out this chapter and improve State and local pipeline safety programs; and

(3) participate in a proceeding involving safety requirements related to a liquefied natural gas facility before the Commission or a State authority.

(i) **PROMOTING COORDINATION.**—(1) After consulting with appropriate State officials, the Secretary shall establish procedures to promote more effective coordination between departments, agencies, and instrumentalities of the Government and State authorities with regulatory authority over pipeline facilities about responses to a pipeline accident.

(2) In consultation with the Occupational Safety and Health Administration, the Secretary shall establish procedures to notify the Administration of any pipeline accident in which an excavator that has caused damage to a pipeline may have violated a regulation of the Administration.

(j) **WITHHOLDING INFORMATION FROM CONGRESS.**—This section does not authorize information to be withheld from a committee of Congress authorized to have the information.

(k) **AUTHORITY FOR COOPERATIVE AGREEMENTS.**—To carry out this chapter, the Secretary may enter into grants, cooperative agreements, and other transactions with any person, agency, or instrumentality of the United States, any unit of State or local government, any educational institution, or any other entity to further the objectives of this chapter. The objectives of this chapter include the development, improvement, and promotion of one-call damage prevention programs, research, risk assessment, and mapping.

(l) **SAFETY ORDERS.**—If the Secretary decides that a pipeline facility has a potential safety-related condition, the Secretary may order the operator of the facility to take necessary corrective action, including physical inspection, testing, repair, replacement, or other appropriate action to remedy the safety-related condition.

(2) prepare and carry out a plan for inspection and maintenance required under section 60108(a) and (b) of this title;

(c) WAIVERS BY SECRETARY.—On application of a person owning or operating a pipeline facility, the Secretary by order may waive compliance with any part of an applicable standard prescribed under this chapter on terms the Secretary considers appropriate, if the waiver is not inconsistent with pipeline safety. The Secretary shall state the reasons for granting a waiver under this subsection. The Secretary may act on a waiver only after notice and an opportunity for a hearing.

(d) WAIVERS BY STATE AUTHORITIES.—If a certification under section 60105 of this title or an agreement under section 60106 of this title is in effect, the State authority may waive compliance with a safety standard to which the certification or agreement applies in the same way and to the same extent the Secretary may waive compliance under subsection (c) of this section. However, the authority must give the Secretary written notice of the waiver at least 60 days before its effective date. If the Secretary makes a written objection before the effective date of the waiver, the waiver is stayed. After notifying the authority of the objection, the Secretary shall provide a prompt opportunity for a hearing. The Secretary shall make the final decision on granting the waiver.

(e) OPERATOR ASSISTANCE IN INVESTIGATIONS.—If the Secretary or the National Transportation Safety Board investigate¹ an accident involving a pipeline facility, the operator of the facility shall make available to the Secretary or the Board all records and information that in any way pertain to the accident (including integrity management plans and test results), and shall afford all reasonable assistance in the investigation of the accident.

(a) CIVIL ACTIONS.—

(1) CIVIL ACTIONS TO ENFORCE THIS CHAPTER.—At the request of the Secretary of Transportation, the Attorney General may bring a civil action in an appropriate district court of the United States to enforce this chapter, including section 60112, or a regulation prescribed or order issued under this chapter. The court may award appropriate relief, including a temporary or permanent injunction, punitive damages, and assessment of civil penalties, considering the same factors as prescribed for the Secretary in an administrative case under section 60122.

(2) CIVIL ACTIONS TO REQUIRE COMPLIANCE WITH SUBPOENAS OR ALLOW FOR INSPECTIONS.—At the request of the Secretary, the Attorney General may bring a civil action in a district court of the United States to require a person to comply immediately with a subpoena or to allow an officer, employee, or agent authorized by the Secretary to enter the premises, and inspect the records and property, of the person to decide whether the person is complying with this chapter. The action may be brought in the judicial district in which the defendant resides, is found, or does business. The court may punish a failure to obey the order as a contempt of court.

(b) JURY TRIAL DEMAND.—In a trial for criminal contempt for violating an injunction issued under this section, the violation of which is also a violation of this chapter, the defendant may demand a jury trial. The defendant shall be tried as provided in rule 42(b) of the Federal Rules of Criminal Procedure (18 App. U.S.C.).

(c) EFFECT ON TORT LIABILITY.—This chapter does not affect the tort liability of any person.

AMENDMENTS

Subsec. (a). Pub. L. 107-355 reenacted subsec. heading without change, added par. (1) and struck out former par. (1), inserted par. (2) heading and realigned margins. Prior to amendment, par. (1) read as follows: “On the request of the Secretary of Transportation, the Attorney General may bring a civil action in an appropriate district court of the United States to enforce this chapter or a regulation prescribed or order issued under this chapter. The court may award appropriate relief, including punitive damages.”

§ 60121. Actions by private persons

(a) GENERAL AUTHORITY.—(1) A person may bring a civil action in an appropriate district court of the United States for an injunction against another person (including the United States Government and other governmental authorities to the extent permitted under the 11th amendment to the Constitution) for a violation of this chapter or a regulation prescribed or order issued under this chapter. However, the person—

(A) may bring the action only after 60 days after the person has given notice of the violation to the Secretary of Transportation or to the appropriate State authority (when the violation is alleged to have occurred in a State certified under section 60105 of this title) and to the person alleged to have committed the violation;

(B) may not bring the action if the Secretary or authority has begun and diligently is pursuing an administrative proceeding for the violation; and

(C) may not bring the action if the Attorney General of the United States, or the chief law enforcement officer of a State, has begun and diligently is pursuing a judicial proceeding for the violation.

(2) The Secretary shall prescribe the way in which notice is given under this subsection.

(3) The Secretary, with the approval of the Attorney General, or the Attorney General may intervene in an action under paragraph (1) of this subsection.

(b) COSTS AND FEES.—The court may award costs, reasonable expert witness fees, and a reasonable attorney’s fee to a prevailing plaintiff in a civil action under this section. The court may award costs to a prevailing defendant when the action is unreasonable, frivolous, or meritless. In this subsection, a reasonable attorney’s fee is a fee—

(1) based on the actual time spent and the reasonable expenses of the attorney for legal services provided to a person under this section; and

(2) computed at the rate prevailing for providing similar services for actions brought in the court awarding the fee.

(c) STATE VIOLATIONS AS VIOLATIONS OF THIS CHAPTER.—In this section, a violation of a safety standard or practice of a State is deemed to be a violation of this chapter or a regulation prescribed or order issued under this chapter only to the extent the standard or practice is not more stringent than a comparable minimum safety standard prescribed under this chapter.

(d) ADDITIONAL REMEDIES.—A remedy under this section is in addition to any other remedies provided by law. This section does not restrict a right to relief that a person or a class of persons may have under another law or at common law.

The Secretary may revoke any exemption granted under this section for substantial noncompliance with the terms and conditions of an approved risk management plan.

(d) PARTICIPATION BY STATE AUTHORITY.—In carrying out this section, the Secretary may provide for consultation by a State that has in effect a certification under section 60105. To the extent that a demonstration project comprises an intrastate natural gas pipeline or an intrastate hazardous liquid pipeline facility, the Secretary may make an agreement with the State agency to carry out the duties of the Secretary for approval and administration of the project.

(e) REPORT.—Not later than March 31, 2000, the Secretary shall transmit to the Congress a report on the results of the demonstration projects carried out under this section that includes—

(1) an evaluation of each such demonstration project, including an evaluation of the performance of each participant in that project with respect to safety and environmental protection; and

(2) recommendations concerning whether the applications of risk management demonstrated under the demonstration project should be incorporated into the Federal pipeline safety program under this chapter on a permanent basis.

§ 60127. Population encroachment and rights-of-way

(a) STUDY.—The Secretary of Transportation, in conjunction with the Federal Energy Regulatory Commission and in consultation with appropriate Federal agencies and State and local governments, shall undertake a study of land use practices, zoning ordinances, and preservation of environmental resources with regard to pipeline rights-of-way and their maintenance.

(b) PURPOSE OF STUDY.—The purpose of the study shall be to gather information on land use practices, zoning ordinances, and preservation of environmental resources—

(1) to determine effective practices to limit encroachment on existing pipeline rights-of-way;

(2) to address and prevent the hazards and risks to the public, pipeline workers, and the environment associated with encroachment on pipeline rights-of-way;

(3) to raise the awareness of the risks and hazards of encroachment on pipeline rights-of-way; and

(4) to address how to best preserve environmental resources in conjunction with maintaining pipeline rights-of-way, recognizing pipeline operators' regulatory obligations to maintain rights-of-way and to protect public safety.

(c) CONSIDERATIONS.—In conducting the study, the Secretary shall consider, at a minimum, the following:

(1) The legal authority of Federal agencies and State and local governments in controlling land use and the limitations on such authority.

(2) The current practices of Federal agencies and State and local governments in addressing land use issues involving a pipeline easement.

(3) The most effective way to encourage Federal agencies and State and local governments to monitor and reduce encroachment upon pipeline rights-of-way.

(d) REPORT.—

(1) IN GENERAL.—Not later than 1 year after the date of enactment of this subsection, the Secretary shall publish a report identifying practices, laws, and ordinances that are most successful in addressing issues of encroachment and maintenance on pipeline rights-of-way so as to more effectively protect public safety, pipeline workers, and the environment.

(2) DISTRIBUTION OF REPORT.—The Secretary shall provide a copy of the report to—

(A) Congress and appropriate Federal agencies; and

(B) States for further distribution to appropriate local authorities.

(3) ADOPTION OF PRACTICES, LAWS, AND ORDINANCES.—The Secretary shall encourage Federal agencies and State and local governments to adopt and implement appropriate practices, laws, and ordinances, as identified in the report, to address the risks and hazards associated with encroachment upon pipeline rights-of-way and to address the potential methods of preserving environmental resources while maintaining pipeline rights-of-way, consistent with pipeline safety.

(b) DEPARTMENT OF LABOR COMPLAINT PROCEDURE.—

(1) FILING AND NOTIFICATION.—A person who believes that he or she has been discharged or

otherwise discriminated against by any person in violation of subsection (a) may, not later than 180 days after the date on which such violation occurs, file (or have any person file on his or her behalf) a complaint with the Secretary of Labor alleging such discharge or discrimination. Upon receipt of such a complaint, the Secretary of Labor shall notify, in writing, the person or persons named in the complaint and the Secretary of Transportation of the filing of the complaint, of the allegations contained in the complaint, of the substance of evidence supporting the complaint, and of the opportunities that will be afforded to such person or persons under paragraph (2).

(A) IN GENERAL.—Not later than 60 days after the date of receipt of a complaint filed under paragraph (1) and after affording the person or persons named in the complaint an opportunity to submit to the Secretary of Labor a written response to the complaint and an opportunity to meet with a representative of the Secretary of Labor to present statements from witnesses, the Secretary of Labor shall conduct an investigation and determine whether there is reasonable cause to believe that the complaint has merit and notify in writing the complainant and the person or persons alleged to have committed a violation of subsection (a) of the Secretary of Labor’s findings. If the Secretary of Labor concludes that there is reasonable cause to believe that a violation of subsection (a) has occurred, the Secretary of Labor shall include with the Secretary of Labor’s findings with a preliminary order providing the relief prescribed by paragraph (3)(B). Not later than 60 days after the date of notification of findings under this subparagraph, any person alleged to have committed a violation or the complainant may file objections to the findings or preliminary order, or both, and request a hearing on the record. The filing of such objections shall not operate to stay any reinstatement remedy contained in the preliminary order. Such hearings shall be conducted expeditiously. If a hearing is not requested in such 60-day period, the preliminary order shall be deemed a final order that is not subject to judicial review.

(B) REQUIREMENTS.—

(i) REQUIRED SHOWING BY COMPLAINANT.—The Secretary of Labor shall dismiss a complaint filed under this subsection and shall not conduct an investigation otherwise required under subparagraph (A) unless the complainant makes a prima facie showing that any behavior described in subsection (a) was a contributing factor in the unfavorable personnel action alleged in the complaint.

(ii) SHOWING BY EMPLOYER.—Notwithstanding a finding by the Secretary of Labor that the complainant has made the showing required under clause (i), no investigation otherwise required under subparagraph (A) shall be conducted if the employer demonstrates, by clear and convincing evidence, that the employer would

(iv) PROHIBITION.—Relief may not be ordered under subparagraph (A) if the employer demonstrates by clear and convincing evidence that the employer would have taken the same unfavorable personnel action in the absence of that behavior.

(3) FINAL ORDER.—

(A) DEADLINE FOR ISSUANCE; SETTLEMENT AGREEMENTS.—Not later than 90 days after the date of conclusion of a hearing under paragraph (2), the Secretary of Labor shall issue a final order providing the relief prescribed by this paragraph or denying the complaint. At any time before issuance of a final order, a proceeding under this subsection may be terminated on the basis of a settlement agreement entered into by the Secretary of Labor, the complainant, and the person or persons alleged to have committed the violation.

(B) REMEDY.—If, in response to a complaint filed under paragraph (1), the Secretary of Labor determines that a violation of subsection (a) has occurred, the Secretary of Labor shall order the person or persons who committed such violation to—

(A) APPEAL TO COURT OF APPEALS.—Any person adversely affected or aggrieved by an order issued under paragraph (3) may obtain review of the order in the United States Court of Appeals for the circuit in which the violation, with respect to which the order was issued, allegedly occurred or the circuit

in which the complainant resided on the date of such violation. The petition for review must be filed not later than 60 days after the date of issuance of the final order of the Secretary of Labor. Review shall conform to chapter 7 of title 5, United States Code. The commencement of proceedings under this subparagraph shall not, unless ordered by the court, operate as a stay of the order.

(B) LIMITATION ON COLLATERAL ATTACK.—An order of the Secretary of Labor with respect to which review could have been obtained under subparagraph (A) shall not be subject to judicial review in any criminal or other civil proceeding.

(5) ENFORCEMENT OF ORDER BY SECRETARY OF LABOR.—Whenever any person has failed to comply with an order issued under paragraph (3), the Secretary of Labor may file a civil action in the United States district court for the district in which the violation was found to occur to enforce such order. In actions brought under this paragraph, the district courts shall have jurisdiction to grant all appropriate relief, including, but not to be limited to, injunctive relief and compensatory damages.

(6) ENFORCEMENT OF ORDER BY PARTIES.—

(A) COMMENCEMENT OF ACTION.—A person on whose behalf an order was issued under paragraph (3) may commence a civil action against the person or persons to whom such order was issued to require compliance with such order. The appropriate United States district court shall have jurisdiction, without regard to the amount in controversy or the citizenship of the parties, to enforce such order.

(B) ATTORNEY FEES.—The court, in issuing any final order under this paragraph, may award costs of litigation (including reasonable attorney and expert witness fees) to any party whenever the court determines such award of costs is appropriate.

(c) MANDAMUS.—Any nondiscretionary duty imposed by this section shall be enforceable in a mandamus proceeding brought under section 1361 of title 28, United States Code.

(d) NONAPPLICABILITY TO DELIBERATE VIOLATIONS.—Subsection (a) shall not apply with respect to an action of an employee of an employer who, acting without direction from the employer (or such employer's agent), deliberately causes a violation of any requirement relating to pipeline safety under this chapter or any other law of the United States.

(1) A method for examining or testing the qualifications of individuals described in subsection (a). The method may include written examination, oral examination, observation during on-the-job performance, on-the-job training, simulations, and other forms of assessment. The method may not be limited to observation of on-the-job performance, except with respect to tasks for which the Secretary has determined that such observation is the best method of examining or testing qualifications. The Secretary shall ensure that the results of any such observations are documented in writing.

(2) A requirement that the operator complete the qualification of all individuals described in subsection (a) not later than 18 months after the date of adoption of the qualification program.

(5) WAIVERS AND MODIFICATIONS.—In accordance with section 60118(c), the Secretary may waive or modify any requirement of this section if the waiver or modification is not inconsistent with pipeline safety.

(6) INACTION BY THE SECRETARY.—Notwithstanding any failure of the Secretary to prescribe standards and criteria as described in subsection (b), an operator of a pipeline facility shall develop and adopt a qualification program that complies with the requirement of subsection (b)(2)(B) and includes the elements described in subsection (d) not later than 2 years after the date of enactment of this section.

(f) INTRASTATE PIPELINE FACILITIES.—In the case of an intrastate pipeline facility operator, the duties and powers of the Secretary under this section with respect to the qualification program of the operator shall be vested in the appropriate State regulatory agency, consistent with this chapter.

(a) INTERAGENCY COMMITTEE.—

(1) ESTABLISHMENT AND PURPOSE.—Not later than 30 days after the date of enactment of this section, the President shall establish an Interagency Committee to develop and ensure

implementation of a coordinated environmental review and permitting process in order to enable pipeline operators to commence and complete all activities necessary to carry out pipeline repairs within any time periods specified by rule by the Secretary.

(2) MEMBERSHIP.—The Chairman of the Council on Environmental Quality (or a designee of the Chairman) shall chair the Interagency Committee, which shall consist of representatives of Federal agencies with responsibilities relating to pipeline repair projects, including each of the following persons (or a designee thereof):

(A) The Secretary of Transportation.

(B) The Administrator of the Environmental Protection Agency.

(C) The Director of the United States Fish and Wildlife Service.

(D) The Assistant Administrator for Fisheries of the National Oceanic and Atmospheric Administration.

(E) The Director of the Bureau of Land Management.

(F) The Director of the Minerals Management Service.

(G) The Assistant Secretary of the Army for Civil Works.

(H) The Chairman of the Federal Energy Regulatory Commission.

(3) EVALUATION.—The Interagency Committee shall evaluate Federal permitting requirements to which access, excavation, and restoration activities in connection with pipeline repairs described in paragraph (1) may be subject. As part of its evaluation, the Interagency Committee shall examine the access, excavation, and restoration practices of the pipeline industry in connection with such pipeline repairs, and may develop a compendium of best practices used by the industry to access, excavate, and restore the site of a pipeline repair.

(4) MEMORANDUM OF UNDERSTANDING.—Based upon the evaluation required under paragraph (3) and not later than 1 year after the date of enactment of this section, the members of the Interagency Committee shall enter into a memorandum of understanding to provide for a coordinated and expedited pipeline repair permit review process to carry out the purpose set forth in paragraph (1). The Interagency Committee shall include provisions in the memorandum of understanding identifying those repairs or categories of repairs described in paragraph (1) for which the best practices identified under paragraph (3), when properly employed by a pipeline operator, would result in no more than minimal adverse effects on the environment and for which discretionary administrative reviews may therefore be minimized or eliminated. With respect to pipeline repairs described in paragraph (1) to which the preceding sentence would not be applicable, the Interagency Committee shall include provisions to enable pipeline operators to commence and complete all activities necessary to carry out pipeline repairs within any time periods specified by rule by the Secretary. The Interagency Committee shall include in the memorandum of understanding criteria under

which permits required for such pipeline repair activities should be prioritized over other less urgent agency permit application reviews. The Interagency Committee shall not enter into a memorandum of understanding under this paragraph except by unanimous agreement of the members of the Interagency Committee.

(5) STATE AND LOCAL CONSULTATION.—In carrying out this subsection, the Interagency Committee shall consult with appropriate State and local environmental, pipeline safety, and emergency response officials, and such other officials as the Interagency Committee considers appropriate.

(b) IMPLEMENTATION.—Not later than 180 days after the completion of the memorandum of understanding required under subsection (a)(4), each agency represented on the Interagency Committee shall revise its regulations as necessary to implement the provisions of the memorandum of understanding.

(c) SAVINGS PROVISIONS; NO PREEMPTION.—Nothing in this section shall be construed—

(1) to require a pipeline operator to obtain a Federal permit, if no Federal permit would otherwise have been required under Federal law; or

(2) to preempt applicable Federal, State, or local environmental law.

(d) INTERIM OPERATIONAL ALTERNATIVES.—

(1) IN GENERAL.—Not later than 30 days after the date of enactment of this section, and subject to the limitations in paragraph (2), the Secretary of Transportation shall revise the regulations of the Department, to the extent necessary, to permit a pipeline operator subject to time periods for repair specified by rule by the Secretary to implement alternative mitigation measures until all applicable permits have been granted.

(2) LIMITATIONS.—The regulations issued by the Secretary pursuant to this subsection shall not allow an operator to implement alternative mitigation measures pursuant to paragraph (1) unless—

(A) allowing the operator to implement such measures would be consistent with the protection of human health, public safety, and the environment;

(B) the operator, with respect to a particular repair project, has applied for and is pursuing diligently and in good faith all required Federal, State, and local permits to carry out the project; and

(C) the proposed alternative mitigation measures are not incompatible with pipeline safety.

(e) OMBUDSMAN.—The Secretary shall designate an ombudsman to assist in expediting pipeline repairs and resolving disagreements between Federal, State, and local permitting agencies and the pipeline operator during agency review of any pipeline repair activity, consistent with protection of human health, public safety, and the environment.

(f) STATE AND LOCAL PERMITTING PROCESSES.—The Secretary shall encourage States and local governments to consolidate their respective permitting processes for pipeline repair projects

subject to any time periods for repair specified by rule by the Secretary. The Secretary may request other relevant Federal agencies to provide technical assistance to States and local governments for the purpose of encouraging such consolidation.

Sec.
60301. User fees.

§ 60301. User fees

(a) SCHEDULE OF FEES.—The Secretary of Transportation shall prescribe a schedule of fees for all natural gas and hazardous liquids transported by pipelines subject to chapter 601 of this title. The fees shall be based on usage (in reasonable relationship to volume-miles, miles, revenues, or a combination of volume-miles, miles, and revenues) of the pipelines. The Secretary shall consider the allocation of resources of the Department of Transportation when establishing the schedule.

(b) IMPOSITION AND TIME OF COLLECTION.—A fee shall be imposed on each person operating a gas pipeline transmission facility, a liquefied natural gas pipeline facility, or a hazardous liquid pipeline facility to which chapter 601 of this title applies. The fee shall be collected before the end of the fiscal year to which it applies.

(c) MEANS OF COLLECTION.—The Secretary shall prescribe procedures to collect fees under this section. The Secretary may use a department, agency, or instrumentality of the United States Government or of a State or local government to collect the fee and may reimburse the department, agency, or instrumentality a reasonable amount for its services.

(d) USE OF FEES.—A fee collected under this section—

(1)(A) related to a gas pipeline facility may be used only for an activity related to gas under chapter 601 of this title; and

(B) related to a hazardous liquid pipeline facility may be used only for an activity related to hazardous liquid under chapter 601 of this title; and

(2) may be used only to the extent provided in advance in an appropriation law.

(e) LIMITATIONS.—Fees prescribed under subsection (a) of this section shall be sufficient to pay for the costs of activities described in subsection (d) of this section. However, the total amount collected for a fiscal year may not be more than 105 percent of the total amount of the appropriations made for the fiscal year for activities to be financed by the fees.

§ 70101. Findings and purposes

(a) FINDINGS.—Congress finds that—

(1) the peaceful uses of outer space continue to be of great value and to offer benefits to all mankind;

(2) private applications of space technology have achieved a significant level of commercial and economic activity and offer the potential for growth in the future, particularly in the United States;

(3) new and innovative equipment and services are being sought, produced, and offered by

entrepreneurs in telecommunications, information services, microgravity research, human space flight, and remote sensing technologies;

(4) the private sector in the United States has the capability of developing and providing private launching, reentry, and associated services that would complement the launching, reentry, and associated capabilities of the United States Government;

(5) the development of commercial launch vehicles, reentry vehicles, and associated services would enable the United States to retain its competitive position internationally, contributing to the national interest and economic well-being of the United States;

(6) providing launch services and reentry services by the private sector is consistent with the national security and foreign policy interests of the United States and would be facilitated by stable, minimal, and appropriate regulatory guidelines that are fairly and expeditiously applied;

(7) the United States should encourage private sector launches, reentries, and associated services and, only to the extent necessary, regulate those launches, reentries, and services to ensure compliance with international obligations of the United States and to protect the public health and safety, safety of property, and national security and foreign policy interests of the United States;

(8) space transportation, including the establishment and operation of launch sites, reentry sites, and complementary facilities, the providing of launch services and reentry services, the establishment of support facilities, and the providing of support services, is an important element of the transportation system of the United States, and in connection with the commerce of the United States there is a need to develop a strong space transportation infrastructure with significant private sector involvement;

(9) the participation of State governments in encouraging and facilitating private sector involvement in space-related activity, particularly through the establishment of a space transportation-related infrastructure, including launch sites, reentry sites, complementary facilities, and launch site and reentry site support facilities, is in the national interest and is of significant public benefit;

(10) the goal of safely opening space to the American people and their private commercial, scientific, and cultural enterprises should guide Federal space investments, policies, and regulations;

(11) private industry has begun to develop commercial launch vehicles capable of carrying human beings into space and greater private investment in these efforts will stimulate the Nation's commercial space transportation industry as a whole;

(12) space transportation is inherently risky, and the future of the commercial human space flight industry will depend on its ability to continually improve its safety performance;

(13) a critical area of responsibility for the Department of Transportation is to regulate the operations and safety of the emerging commercial human space flight industry;

(14) the public interest is served by creating a clear legal, regulatory, and safety regime for commercial human space flight; and

(15) the regulatory standards governing human space flight must evolve as the industry matures so that regulations neither stifle technology development nor expose crew or space flight participants to avoidable risks as the public comes to expect greater safety for crew and space flight participants from the industry.

(b) PURPOSES.—The purposes of this chapter are—

(1) to promote economic growth and entrepreneurial activity through use of the space environment for peaceful purposes;

(2) to encourage the United States private sector to provide launch vehicles, reentry vehicles, and associated services by—

(A) simplifying and expediting the issuance and transfer of commercial licenses;

(B) facilitating and encouraging the use of Government-developed space technology; and

(C) promoting the continuous improvement of the safety of launch vehicles designed to carry humans, including through the issuance of regulations, to the extent permitted by this chapter;

(3) to provide that the Secretary of Transportation is to oversee and coordinate the conduct of commercial launch and reentry operations, issue permits and commercial licenses and transfer commercial licenses authorizing those operations, and protect the public health and safety, safety of property, and national security and foreign policy interests of the United States; and

(4) to facilitate the strengthening and expansion of the United States space transportation infrastructure, including the enhancement of United States launch sites and launch-site support facilities, and development of reentry sites, with Government, State, and private sector involvement, to support the full range of United States space-related activities.

EX. ORD. NO. 12465. COORDINATION AND ENCOURAGEMENT OF COMMERCIAL EXPENDABLE LAUNCH VEHICLE ACTIVITIES

Ex. Ord. No. 12465, Feb. 24, 1984, 49 F.R. 7211, provided: By the authority vested in me as President by the Constitution and laws of the United States of America, and in order to encourage, facilitate and coordinate the development of commercial expendable launch vehicle (ELV) operations by private United States enterprises, it is hereby ordered as follows:

SECTION 1. The Department of Transportation is designated as the lead agency within the Federal government for encouraging and facilitating commercial ELV activities by the United States private sector.

SEC. 2. *Responsibilities of Lead Agency.* The Secretary of Transportation shall, to the extent permitted by law and subject to the availability of appropriations, perform the following functions:

(a) act as a focal point within the Federal government for private sector space launch contacts related to commercial ELV operations;

(b) promote and encourage commercial ELV operations in the same manner that other private United States commercial enterprises are promoted by United States agencies;

(c) provide leadership in the establishment, within affected departments and agencies, of procedures that expedite the processing of private sector requests to obtain licenses necessary for commercial ELV launches and the establishment and operation of commercial launch ranges;

(d) consult with other affected agencies to promote consistent application of ELV licensing requirements for the private sector and assure fair and equitable treatment for all private sector applicants;

(e) serve as a single point of contact for collection and dissemination of documentation related to commercial ELV licensing applications;

(f) make recommendations to affected agencies and, as appropriate, to the President, concerning administrative measures to streamline Federal government procedures for licensing of commercial ELV activities;

(g) identify Federal statutes, treaties, regulations and policies which may have an adverse impact on ELV commercialization efforts and recommend appropriate changes to affected agencies and, as appropriate, to the President; and

(h) conduct appropriate planning regarding long-term effects of Federal activities related to ELV commercialization.

SEC. 3. An interagency group, chaired by the Secretary of Transportation and composed of representatives from the Department of State, the Department of Defense, the Department of Commerce, the Federal Communications Commission, and the National Aeronautics and Space Administration, is hereby established. This group shall meet at the call of the Chair and shall advise and assist the Department of Transportation in performing its responsibilities under this Order.

SEC. 4. *Responsibilities of Other Agencies.* All executive departments and agencies shall assist the Secretary of Transportation in carrying out this Order. To the extent permitted by law and in consultation with the Secretary of Transportation, they shall:

(a) provide the Secretary of Transportation with information concerning agency regulatory actions which may affect development of commercial ELV operations;

(b) review and revise their regulations and procedures to eliminate unnecessary regulatory obstacles to the development of commercial ELV operations and to ensure that those regulations and procedures found essential are administered as efficiently as possible; and

(c) establish timetables for the expeditious handling of and response to applications for licenses and approvals for commercial ELV activities.

SEC. 5. The powers granted to the Secretary of Transportation to encourage, facilitate and coordinate the overall ELV commercialization process shall not diminish or abrogate any statutory or operational authority exercised by any other Federal agency.

SEC. 6. Nothing contained in this Order or in any procedures promulgated hereunder shall confer any substantive or procedural right or privilege on any person or organization, enforceable against the United States, its agencies, its officers or any person.

SEC. 7. This Order shall be effective immediately.

RONALD REAGAN.

§ 70104. Restrictions on launches, operations, and reentries

(a) REQUIREMENT.—A license issued or transferred under this chapter, or a permit, is required for the following:

(1) for a person to launch a launch vehicle or to operate a launch site or reentry site, or to reenter a reentry vehicle, in the United States.

(2) for a citizen of the United States (as defined in section 70102(1)(A) or (B) of this title) to launch a launch vehicle or to operate a launch site or reentry site, or to reenter a reentry vehicle, outside the United States.

(3) for a citizen of the United States (as defined in section 70102(1)(C) of this title) to launch a launch vehicle or to operate a launch site or reentry site, or to reenter a reentry vehicle, outside the United States and outside the territory of a foreign country unless there is an agreement between the United States Government and the government of the for-

eign country providing that the government of the foreign country has jurisdiction over the launch or operation or reentry.

(4) for a citizen of the United States (as defined in section 70102(1)(C) of this title) to launch a launch vehicle or to operate a launch site or reentry site, or to reenter a reentry vehicle, in the territory of a foreign country if there is an agreement between the United States Government and the government of the foreign country providing that the United States Government has jurisdiction over the launch or operation or reentry.

Notwithstanding this subsection, a permit shall not authorize a person to operate a launch site or reentry site.

(b) COMPLIANCE WITH PAYLOAD REQUIREMENTS.—The holder of a license or permit under this chapter may launch or reenter a payload only if the payload complies with all requirements of the laws of the United States related to launching or reentering a payload.

(c) PREVENTING LAUNCHES AND REENTRIES.—The Secretary of Transportation shall establish whether all required licenses, authorizations, and permits required for a payload have been obtained. If no license, authorization, or permit is required, the Secretary may prevent the launch or reentry if the Secretary decides the launch or reentry would jeopardize the public health and safety, safety of property, or national security or foreign policy interest of the United States.

(d) SINGLE LICENSE OR PERMIT.—The Secretary of Transportation shall ensure that only 1 license or permit is required from the Department of Transportation to conduct activities involving crew or space flight participants, including launch and reentry, for which a license or permit is required under this chapter. The Secretary shall ensure that all Department of Transportation regulations relevant to the licensed or permitted activity are satisfied.

§ 70105. License applications and requirements

(a) APPLICATIONS.—(1) A person may apply to the Secretary of Transportation for a license or transfer of a license under this chapter in the form and way the Secretary prescribes. Consistent with the public health and safety, safety of property, and national security and foreign policy interests of the United States, the Secretary, not later than 180 days after accepting an application in accordance with criteria established pursuant to subsection (b)(2)(D),¹ shall issue or transfer a license if the Secretary decides in writing that the applicant complies, and will continue to comply, with this chapter and regulations prescribed under this chapter. The Secretary shall inform the applicant of any pending issue and action required to resolve the issue if the Secretary has not made a decision not later than 120 days after accepting an application in accordance with criteria established pursuant to subsection (b)(2)(D).¹ The Secretary shall transmit to the Committee on Science of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a written notice not later than 30 days after any occurrence when the Secretary has not taken action on a license application within the deadline established by this subsection.

(2) In carrying out paragraph (1), the Secretary may establish procedures for safety approvals of launch vehicles, reentry vehicles, safety systems, processes, services, or personnel (including approval procedures for the purpose of protecting the health and safety of crews and

space flight participants, to the extent permitted by subsections (b) and (c) that may be used in conducting licensed commercial space launch or reentry activities.

(b) REQUIREMENTS.—(1) Except as provided in this subsection, all requirements of the laws of the United States applicable to the launch of a launch vehicle or the operation of a launch site or a reentry site, or the reentry of a reentry vehicle, are requirements for a license or permit under this chapter.

(2) The Secretary may prescribe—

(A) any term necessary to ensure compliance with this chapter, including on-site verification that a launch, operation, or reentry complies with representations stated in the application;

(B) any additional requirement necessary to protect the public health and safety, safety of property, national security interests, and foreign policy interests of the United States;

(C) by regulation that a requirement of a law of the United States not be a requirement for a license or permit if the Secretary, after consulting with the head of the appropriate executive agency, decides that the requirement is not necessary to protect the public health and safety, safety of property, and national security and foreign policy interests of the United States;

(D) additional license requirements, for a launch vehicle carrying a human being for compensation or hire, necessary to protect the health and safety of crew or space flight participants, only if such requirements are imposed pursuant to final regulations issued in accordance with subsection (c); and

(E) regulations establishing criteria for accepting or rejecting an application for a license or permit under this chapter within 60 days after receipt of such application.

(3) The Secretary may waive a requirement, including the requirement to obtain a license, for an individual applicant if the Secretary decides that the waiver is in the public interest and will not jeopardize the public health and safety, safety of property, and national security and foreign policy interests of the United States. The Secretary may not grant a waiver under this paragraph that would permit the launch or reentry of a launch vehicle or a reentry vehicle without a license or permit if a human being will be on board.

(4) The holder of a license or a permit under this chapter may launch or reenter crew only if—

(A) the crew has received training and has satisfied medical or other standards specified in the license or permit in accordance with regulations promulgated by the Secretary;

(B) the holder of the license or permit has informed any individual serving as crew in writing, prior to executing any contract or other arrangement to employ that individual (or, in the case of an individual already employed as of the date of enactment of the Commercial Space Launch Amendments Act of 2004, as early as possible, but in any event prior to any launch in which the individual will participate as crew), that the United States Government has not certified the

launch vehicle as safe for carrying crew or space flight participants; and

(C) the holder of the license or permit and crew have complied with all requirements of the laws of the United States that apply to crew.

(5) The holder of a license or a permit under this chapter may launch or reenter a space flight participant only if—

(A) in accordance with regulations promulgated by the Secretary, the holder of the license or permit has informed the space flight participant in writing about the risks of the launch and reentry, including the safety record of the launch or reentry vehicle type, and the Secretary has informed the space flight participant in writing of any relevant information related to risk or probable loss during each phase of flight gathered by the Secretary in making the determination required by section 70112(a)(2) and (c);

(B) the holder of the license or permit has informed any space flight participant in writing, prior to receiving any compensation from that space flight participant or (in the case of a space flight participant not providing compensation) otherwise concluding any agreement to fly that space flight participant, that the United States Government has not certified the launch vehicle as safe for carrying crew or space flight participants;

(C) in accordance with regulations promulgated by the Secretary, the space flight participant has provided written informed consent to participate in the launch and reentry and written certification of compliance with any regulations promulgated under paragraph (6)(A); and

(D) the holder of the license or permit has complied with any regulations promulgated by the Secretary pursuant to paragraph (6).

(6)(A) The Secretary may issue regulations requiring space flight participants to undergo an appropriate physical examination prior to a launch or reentry under this chapter. This subparagraph shall cease to be in effect three years after the date of enactment of the Commercial Space Launch Amendments Act of 2004.

(B) The Secretary may issue additional regulations setting reasonable requirements for space flight participants, including medical and training requirements. Such regulations shall not be effective before the expiration of 3 years after the date of enactment of the Commercial Space Launch Amendments Act of 2004.

(c) SAFETY REGULATIONS.—(1) The Secretary may issue regulations governing the design or operation of a launch vehicle to protect the health and safety of crew and space flight participants.

(2) Regulations issued under this subsection shall—

(A) describe how such regulations would be applied when the Secretary is determining whether to issue a license under this chapter;

(B) apply only to launches in which a vehicle will be carrying a human being for compensation or hire;

(C) be limited to restricting or prohibiting design features or operating practices that—

(i) have resulted in a serious or fatal injury (as defined in 49 CFR 830, as in effect on November 10, 2004) to crew or space flight participants during a licensed or permitted commercial human space flight; or

(ii) contributed to an unplanned event or series of events during a licensed or permitted commercial human space flight that posed a high risk of causing a serious or fatal injury (as defined in 49 CFR 830, as in effect on November 10, 2004) to crew or space flight participants; and

(D) be issued with a description of the instance or instances when the design feature or operating practice being restricted or prohibited contributed to a result or event described in subparagraph (C).

(3) Beginning 8 years after the date of enactment of the Commercial Space Launch Amendments Act of 2004, the Secretary may propose regulations under this subsection without regard to paragraph (2)(C) and (D). Any such regulations shall take into consideration the evolving standards of safety in the commercial space flight industry.

(4) Nothing in this subsection shall be construed to limit the authority of the Secretary to issue requirements or regulations to protect the public health and safety, safety of property, national security interests, and foreign policy interests of the United States.

(d) PROCEDURES AND TIMETABLES.—The Secretary shall establish procedures and timetables that expedite review of a license or permit application and reduce the regulatory burden for an applicant.

The observer will monitor the activity of the licensee or contractor at the time and to the extent the Secretary considers reasonable to ensure compliance with the license or to carry out the duties of the Secretary under sections 70104(c), 70105, and 70105a of this title. A licensee must cooperate with an observer carrying out this subsection.

§ 70112. Liability insurance and financial responsibility requirements

(a) GENERAL REQUIREMENTS.—(1) When a launch or reentry license is issued or transferred under this chapter, the licensee or transferee shall obtain liability insurance or demonstrate

financial responsibility in amounts to compensate for the maximum probable loss from claims by—

(A) a third party for death, bodily injury, or property damage or loss resulting from an activity carried out under the license; and

(B) the United States Government against a person for damage or loss to Government property resulting from an activity carried out under the license.

(2) The Secretary of Transportation shall determine the amounts required under paragraph (1)(A) and (B) of this subsection, after consulting with the Administrator of the National Aeronautics and Space Administration, the Secretary of the Air Force, and the heads of other appropriate executive agencies.

(3) For the total claims related to one launch or reentry, a licensee or transferee is not required to obtain insurance or demonstrate financial responsibility of more than—

(A)(i) \$500,000,000 under paragraph (1)(A) of this subsection; or

(ii) \$100,000,000 under paragraph (1)(B) of this subsection; or

(B) the maximum liability insurance available on the world market at reasonable cost if the amount is less than the applicable amount in clause (A)(i) or (ii) of this paragraph.

(4) An insurance policy or demonstration of financial responsibility under this subsection shall protect the following, to the extent of their potential liability for involvement in launch services or reentry services, at no cost to the Government:

(A) the Government.

(B) executive agencies and personnel, contractors, and subcontractors of the Government.

(C) contractors, subcontractors, and customers of the licensee or transferee.

(D) contractors and subcontractors of the customer.

(b) RECIPROCAL WAIVER OF CLAIMS.—(1) A launch or reentry license issued or transferred under this chapter shall contain a provision requiring the licensee or transferee to make a reciprocal waiver of claims with its contractors, subcontractors, and customers, and contractors and subcontractors of the customers, involved in launch services or reentry services under which each party to the waiver agrees to be responsible for property damage or loss it sustains, or for personal injury to, death of, or property damage or loss sustained by its own employees resulting from an activity carried out under the applicable license.

(2) The Secretary of Transportation shall make, for the Government, executive agencies of the Government involved in launch services or reentry services, and contractors and subcontractors involved in launch services or reentry services, a reciprocal waiver of claims with the licensee or transferee, contractors, subcontractors, crew, space flight participants, and customers of the licensee or transferee, and contractors and subcontractors of the customers, involved in launch services or reentry services under which each party to the waiver agrees to be responsible for property damage or loss it

sustains, or for personal injury to, death of, or property damage or loss sustained by its own employees or by space flight participants, resulting from an activity carried out under the applicable license. The waiver applies only to the extent that claims are more than the amount of insurance or demonstration of financial responsibility required under subsection (a)(1)(B) of this section. After consulting with the Administrator and the Secretary of the Air Force, the Secretary of Transportation may waive, for the Government and a department, agency, and instrumentality of the Government, the right to recover damages for damage or loss to Government property to the extent insurance is not available because of a policy exclusion the Secretary of Transportation decides is usual for the type of insurance involved.

(c) DETERMINATION OF MAXIMUM PROBABLE LOSSES.—The Secretary of Transportation shall determine the maximum probable losses under subsection (a)(1)(A) and (B) of this section associated with an activity under a license not later than 90 days after a licensee or transferee requires a determination and submits all information the Secretary requires. The Secretary shall amend the determination as warranted by new information.

(d) ANNUAL REPORT.—(1) Not later than November 15 of each year, the Secretary of Transportation shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science of the House of Representatives a report on current determinations made under subsection (c) of this section related to all issued licenses and the reasons for the determinations.

(2) Not later than May 15 of each year, the Secretary of Transportation shall review the amounts specified in subsection (a)(3)(A) of this section and submit a report to Congress that contains proposed adjustments in the amounts to conform with changed liability expectations and availability of insurance on the world market. The proposed adjustment takes effect 30 days after a report is submitted.

(e) LAUNCHES OR REENTRIES INVOLVING GOVERNMENT FACILITIES AND PERSONNEL.—The Secretary of Transportation shall establish requirements consistent with this chapter for proof of financial responsibility and other assurances necessary to protect the Government and its executive agencies and personnel from liability, death, bodily injury, or property damage or loss as a result of a launch or operation of a launch site or reentry site or a reentry involving a facility or personnel of the Government. The Secretary may not relieve the Government of liability under this subsection for death, bodily injury, or property damage or loss resulting from the willful misconduct of the Government or its agents.

(f) COLLECTION AND CREDITING PAYMENTS.—The head of a department, agency, or instrumentality of the Government shall collect a payment owed for damage or loss to Government property under its jurisdiction or control resulting from an activity carried out under a launch or reentry license issued or transferred under this chapter. The payment shall be credited to the current applicable appropriation, fund, or ac-

count of the department, agency, or instrumentality.

LIABILITY REGIME FOR COMMERCIAL SPACE
TRANSPORTATION

Pub. L. 106-405, §7, Nov. 1, 2000, 114 Stat. 1752, provided that:

“(a) REPORT REQUIREMENT.—Not later than 18 months after the date of the enactment of this Act [Nov. 1, 2000], the Secretary of Transportation shall transmit to the Congress a report on the liability risk-sharing regime in the United States for commercial space transportation.

“(b) CONTENTS.—The report required by this section shall—

“(1) analyze the adequacy, propriety, and effectiveness of, and the need for, the current liability risk-sharing regime in the United States for commercial space transportation;

“(2) examine the current liability and liability risk-sharing regimes in other countries with space transportation capabilities;

“(3) examine the appropriateness of deeming all space transportation activities to be ‘ultrahazardous activities’ for which a strict liability standard may be applied and which liability regime should attach to space transportation activities, whether ultrahazardous activities or not;

“(4) examine the effect of relevant international treaties on the Federal Government’s liability for commercial space launches and how the current domestic liability risk-sharing regime meets or exceeds the requirements of those treaties;

“(5) examine the appropriateness, as commercial reusable launch vehicles enter service and demonstrate improved safety and reliability, of evolving the commercial space transportation liability regime towards the approach of the airline liability regime;

“(6) examine the need for changes to the Federal Government’s indemnification policy to accommodate the risks associated with commercial spaceport operations; and

“(7) recommend appropriate modifications to the commercial space transportation liability regime and the actions required to accomplish those modifications.

“(c) SECTIONS.—The report required by this section shall contain sections expressing the views and recommendations of—

“(1) interested Federal agencies, including—

“(A) the Office of the Associate Administrator for Commercial Space Transportation;

“(B) the National Aeronautics and Space Administration;

“(C) the Department of Defense; and

“(D) the Office of Space Commercialization; and

“(2) the public, received as a result of notice in Commerce Business Daily, the Federal Register, and appropriate Federal agency Internet websites.”

§ 70113. Paying claims exceeding liability insurance and financial responsibility requirements

(a) GENERAL REQUIREMENTS.—(1) To the extent provided in advance in an appropriation law or to the extent additional legislative authority is enacted providing for paying claims in a compensation plan submitted under subsection (d) of this section, the Secretary of Transportation shall provide for the payment by the United States Government of a successful claim (including reasonable litigation or settlement expenses) of a third party against a licensee or transferee under this chapter, a contractor, subcontractor, or customer of the licensee or transferee, or a contractor or subcontractor of a customer, but not against a space flight participant, resulting from an activity carried out under the license issued or transferred under this chapter for death, bodily injury, or property damage or loss resulting from an activity carried out under the license. However, claims may be paid under this section only to the extent the total amount of successful claims related to one launch or reentry—

(A) is more than the amount of insurance or demonstration of financial responsibility required under section 70112(a)(1)(A) of this title; and

(B) is not more than \$1,500,000,000 (plus additional amounts necessary to reflect inflation occurring after January 1, 1989) above that insurance or financial responsibility amount.

(2) The Secretary may not provide for paying a part of a claim for which death, bodily injury, or property damage or loss results from willful misconduct by the licensee or transferee. To the extent insurance required under section 70112(a)(1)(A) of this title is not available to cover a successful third party liability claim because of an insurance policy exclusion the Secretary decides is usual for the type of insurance involved, the Secretary may provide for paying the excluded claims without regard to the limitation contained in section 70112(a)(1).

(b) NOTICE, PARTICIPATION, AND APPROVAL.—Before a payment under subsection (a) of this section is made—

(1) notice must be given to the Government of a claim, or a civil action related to the claim, against a party described in subsection (a)(1) of this section for death, bodily injury, or property damage or loss;

(2) the Government must be given an opportunity to participate or assist in the defense of the claim or action; and

(3) the Secretary must approve any part of a settlement to be paid out of appropriations of the Government.

(c) WITHHOLDING PAYMENTS.—The Secretary may withhold a payment under subsection (a) of this section if the Secretary certifies that the amount is not reasonable. However, the Sec-

retary shall deem to be reasonable the amount of a claim finally decided by a court of competent jurisdiction.

(d) SURVEYS, REPORTS, AND COMPENSATION PLANS.—(1) If as a result of an activity carried out under a license issued or transferred under this chapter the total of claims related to one launch or reentry is likely to be more than the amount of required insurance or demonstration of financial responsibility, the Secretary shall—

(A) survey the causes and extent of damage; and

(B) submit expeditiously to Congress a report on the results of the survey.

(2) Not later than 90 days after a court determination indicates that the liability for the total of claims related to one launch or reentry may be more than the required amount of insurance or demonstration of financial responsibility, the President, on the recommendation of the Secretary, shall submit to Congress a compensation plan that—

(A) outlines the total dollar value of the claims;

(B) recommends sources of amounts to pay for the claims;

(C) includes legislative language required to carry out the plan if additional legislative authority is required; and

(D) for a single event or incident, may not be for more than \$1,500,000,000.

(3) A compensation plan submitted to Congress under paragraph (2) of this subsection shall—

(A) have an identification number; and

(B) be submitted to the Senate and the House of Representatives on the same day and when the Senate and House are in session.

(e) CONGRESSIONAL RESOLUTIONS.—(1) In this subsection, “resolution”—

(A) means a joint resolution of Congress the matter after the resolving clause of which is as follows: “That the Congress approves the compensation plan numbered _____ submitted to the Congress on _____, 20____.”, with the blank spaces being filled appropriately; but

(B) does not include a resolution that includes more than one compensation plan.

(2) The Senate shall consider under this subsection a compensation plan requiring additional appropriations or legislative authority not later than 60 calendar days of continuous session of Congress after the date on which the plan is submitted to Congress.

(3) A resolution introduced in the Senate shall be referred immediately to a committee by the President of the Senate. All resolutions related to the same plan shall be referred to the same committee.

(4)(A) If the committee of the Senate to which a resolution has been referred does not report the resolution within 20 calendar days after it is referred, a motion is in order to discharge the committee from further consideration of the resolution or to discharge the committee from further consideration of the plan.

(B) A motion to discharge may be made only by an individual favoring the resolution and is

highly privileged (except that the motion may not be made after the committee has reported a resolution on the plan). Debate on the motion is limited to one hour, to be divided equally between those favoring and those opposing the resolution. An amendment to the motion is not in order. A motion to reconsider the vote by which the motion is agreed to or disagreed to is not in order.

(C) If the motion to discharge is agreed to or disagreed to, the motion may not be renewed and another motion to discharge the committee from another resolution on the same plan may not be made.

(5)(A) After a committee of the Senate reports, or is discharged from further consideration of, a resolution, a motion to proceed to the consideration of the resolution is in order at any time, even though a similar previous motion has been disagreed to. The motion is highly privileged and is not debatable. An amendment to the motion is not in order. A motion to reconsider the vote by which the motion is agreed to or disagreed to is not in order.

(B) Debate on the resolution referred to in subparagraph (A) of this paragraph is limited to not more than 10 hours, to be divided equally between those favoring and those opposing the resolution. A motion further to limit debate is not debatable. An amendment to, or motion to recommit, the resolution is not in order. A motion to reconsider the vote by which the resolution is agreed to or disagreed to is not in order.

(6) The following shall be decided in the Senate without debate:

(A) a motion to postpone related to the discharge from committee.

(B) a motion to postpone consideration of a resolution.

(C) a motion to proceed to the consideration of other business.

(D) an appeal from a decision of the chair related to the application of the rules of the Senate to the procedures related to a resolution.

(f) APPLICATION.—This section applies to a license issued or transferred under this chapter for which the Secretary receives a complete and valid application not later than December 31, 2009. This section does not apply to permits.

(b) CONSIDERATIONS AND CONSULTATION.—(1) In selecting proposed projects for grants under this section, the Secretary of Transportation shall consider—

(A) the contribution of the project to industry capabilities that serve the United States Government’s space transportation needs;

(B) the extent of industry’s financial contribution to the project;

(C) the extent of industry’s participation in the project;

§ 70304. Environmental requirements

(a) POLICY.—It is the policy of the United States that projects selected under this chapter shall provide for the protection and enhancement of the natural resources and the quality of the environment of the United States. In carrying out this policy, the Secretary of Transportation shall consult with the Secretary of the Interior and the Administrator of the Environmental Protection Agency about a project that may have a significant effect on natural resources, including fish and wildlife, natural, scenic, and recreational assets, water and air quality, and other factors affecting the environment. If the Secretary of Transportation finds that a project will have a significant adverse effect, the Secretary may approve the application for the project only if, after a complete review that is a matter of public record, the Secretary makes a written finding that no feasible and prudent alternative to the project exists and

that all reasonable steps have been taken to minimize the adverse effect.

(b) PUBLIC HEARING REQUIREMENT.—The Secretary of Transportation may approve an application only if the sponsor of the project certifies to the Secretary that an opportunity for a public hearing has been provided to consider the economic, social, and environmental effects of the project and its consistency with the goals of any planning carried out by the community. When a hearing is held under this paragraph, the sponsor shall submit a copy of the transcript of the hearing to the Secretary.

(c) COMPLIANCE WITH AIR AND WATER QUALITY STANDARDS.—(1) The Secretary of Transportation may approve an application only if the chief executive officer of the State in which the project is located certifies in writing to the Secretary that there is reasonable assurance that the project will be located, designed, constructed, and operated to comply with applicable air and water quality standards. If the Administrator has not prescribed those standards, certification shall be obtained from the Administrator. Notice of certification or refusal to certify shall be provided not later than 60 days after the Secretary receives the application.

(2) The Secretary of Transportation shall condition the approval of an application on compliance with applicable air and water quality standards during construction and operation.

(d) COMPLIANCE WITH LAWS AND REGULATIONS.—The Secretary of Transportation may require a certification from a sponsor that the sponsor will comply with all applicable laws and regulations. The Secretary may rescind at any time acceptance of a certification from a sponsor under this subsection. This subsection does not affect any responsibility of the Secretary under another law, including—

In this chapter, the words “negotiable bill of lading” are substituted for “order bill”, and the words “non-negotiable bill of lading” are substituted for “straight bill”, for clarity and consistency in the revised title and with other titles of the United States Code.

In this section, before clause (1), the words “unless the context of subject matter otherwise requires” are omitted as unnecessary because of the restatement. The words “‘Action’ includes counterclaim, set-off, and suit in equity” are omitted as unnecessary. The words “‘Bill’ means bill of lading, governed by this chapter” are omitted because of section 80102 of the revised title. In clauses (1), (2), and (4), the words “‘Person’ includes a corporation or partnership, or two or more persons having a joint or common interest” are omitted because of 1:1. In clause (3), the words “personal property” are substituted for “chattels” for clarity and consistency. The words “is being” are substituted for “in course of” for clarity. In clause (7), the words “‘State’ means a State of the United States” are substituted for “‘State’ includes” for clarity and consistency in the revised title and with other titles of the Code. § 80102. Application

This chapter applies to a bill of lading when the bill is issued by a common carrier for the transportation of goods—

- (1) between a place in the District of Columbia and another place in the District of Columbia;

- (2) between a place in a territory or possession of the United States and another place in the same territory or possession;
- (3) between a place in a State and a place in another State;
- (4) between a place in a State and a place in the same State through another State or a foreign country; or
- (5) from a place in a State to a place in a foreign country.

In this chapter, the words “common carrier” are substituted for “carrier” because the source provisions restated in this section provide that this chapter applies to bills of lading issued by common carriers.

In clause (2), the words “territory or possession” are substituted for “Territory” for consistency in the revised title and with other titles of the United States Code.

§ 80103. Negotiable and nonnegotiable bills

(a) NEGOTIABLE BILLS.—(1) A bill of lading is negotiable if the bill—

- (A) states that the goods are to be delivered to the order of a consignee; and
- (B) does not contain on its face an agreement with the shipper that the bill is not negotiable.

(2) Inserting in a negotiable bill of lading the name of a person to be notified of the arrival of the goods—

- (A) does not limit its negotiability; and
- (B) is not notice to the purchaser of the goods of a right the named person has to the goods.

(b) NONNEGOTIABLE BILLS.—(1) A bill of lading is nonnegotiable if the bill states that the goods are to be delivered to a consignee. The indorsement of a nonnegotiable bill does not—

- (A) make the bill negotiable; or
- (B) give the transferee any additional right.

(2) A common carrier issuing a nonnegotiable bill of lading must put “nonnegotiable” or “not negotiable” on the bill. This paragraph does not apply to an informal memorandum or acknowledgment.

(Pub. L. 103-272, §1(e), July 5, 1994, 108 Stat. 1346.)

in which it is stated that the goods are consigned or destined to the order of any person named in such bill is an order bill” for clarity and consistency in the revised title and with other titles of the United States Code. The words “does not contain on its face an agreement with the shipper that the bill is not negotiable” are substituted for 49 App.:83 (last sentence) for clarity and to eliminate unnecessary words.

In subsection (a)(2)(B), the words “right the named person has” are substituted for “rights or equities of such person” for clarity.

The words “free from existing equities” in 49 App.:109 (last sentence) are omitted as surplus.

§ 80104. Form and requirements for negotiation

(a) GENERAL RULES.—(1) A negotiable bill of lading may be negotiated by indorsement. An indorsement may be made in blank or to a specified person. If the goods are deliverable to the order of a specified person, then the bill must be indorsed by that person.

(2) A negotiable bill of lading may be negotiated by delivery when the common carrier, under the terms of the bill, undertakes to deliver the goods to the order of a specified person and that person or a subsequent indorsee has indorsed the bill in blank.

(3) A negotiable bill of lading may be negotiated by a person possessing the bill, regardless of the way in which the person got possession, if—

(A) a common carrier, under the terms of the bill, undertakes to deliver the goods to that person; or

(B) when the bill is negotiated, it is in a form that allows it to be negotiated by delivery.

(b) VALIDITY NOT AFFECTED.—The validity of a negotiation of a bill of lading is not affected by the negotiation having been a breach of duty by the person making the negotiation, or by the owner of the bill having been deprived of possession by fraud, accident, mistake, duress, loss, theft, or conversion, if the person to whom the bill is negotiated, or a person to whom the bill is subsequently negotiated, gives value for the bill in good faith and without notice of the breach of duty, fraud, accident, mistake, duress, loss, theft, or conversion.

(c) NEGOTIATION BY SELLER, MORTGAGOR, OR PLEDGOR TO PERSON WITHOUT NOTICE.—When goods for which a negotiable bill of lading has been issued are in a common carrier’s possession, and the person to whom the bill has been issued retains possession of the bill after selling, mortgaging, or pledging the goods or bill, the subsequent negotiation of the bill by that person to another person receiving the bill for value, in good faith, and without notice of the prior sale, mortgage, or pledge has the same effect as if the first purchaser of the goods or bill had expressly authorized the subsequent negotiation.

The text of 49 App.:108 (last sentence) is omitted as unnecessary because of the restatement.

§ 80105. Title and rights affected by negotiation

(a) TITLE.—When a negotiable bill of lading is negotiated—

(1) the person to whom it is negotiated acquires the title to the goods that—

(A) the person negotiating the bill had the ability to convey to a purchaser in good faith for value; and

(B) the consignor and consignee had the ability to convey to such a purchaser; and

(2) the common carrier issuing the bill becomes obligated directly to the person to whom the bill is negotiated to hold possession of the goods under the terms of the bill the same as if the carrier had issued the bill to that person.

(b) SUPERIORITY OF RIGHTS.—When a negotiable bill of lading is negotiated to a person for value in good faith, that person’s right to the goods for which the bill was issued is superior to a seller’s lien or to a right to stop the transportation of the goods. This subsection applies whether the negotiation is made before or after the common carrier issuing the bill receives notice of the seller’s claim. The carrier may deliver the goods to an unpaid seller only if the bill first is surrendered for cancellation.

(c) MORTGAGEE AND LIEN HOLDER RIGHTS NOT AFFECTED.—Except as provided in subsection (b) of this section, this chapter does not limit a right of a mortgagee or lien holder having a mortgage or lien on goods against a person that purchased for value in good faith from the owner, and got possession of the goods immediately before delivery to the common carrier.

ter” are omitted as unnecessary because of the restatement. The words “which are subject to the mortgage or lien” are omitted as unnecessary.

§ 80106. Transfer without negotiation

(a) DELIVERY AND AGREEMENT.—The holder of a bill of lading may transfer the bill without negotiating it by delivery and agreement to transfer title to the bill or to the goods represented by it. Subject to the agreement, the person to whom the bill is transferred has title to the goods against the transferor.

(b) COMPELLING INDORSEMENT.—When a negotiable bill of lading is transferred for value by delivery without being negotiated and indorsement of the transferor is essential for negotiation, the transferee may compel the transferor to indorse the bill unless a contrary intention appears. The negotiation is effective when the indorsement is made.

(c) EFFECT OF NOTIFICATION.—(1) When a transferee notifies the common carrier that a non-negotiable bill of lading has been transferred under subsection (a) of this section, the carrier is obligated directly to the transferee for any obligations the carrier owed to the transferor immediately before the notification. However, before the carrier is notified, the transferee’s title to the goods and right to acquire the obligations of the carrier may be defeated by—

- (A) garnishment, attachment, or execution on the goods by a creditor of the transferor; or
- (B) notice to the carrier by the transferor or a purchaser from the transferor of a later purchase of the goods from the transferor.

(2) A common carrier has been notified under this subsection only if—

- (A) an officer or agent of the carrier, whose actual or apparent authority includes acting on the notification, has been notified; and
- (B) the officer or agent has had time, exercising reasonable diligence, to communicate with the agent having possession or control of the goods.

§ 80107. Warranties and liability

(a) GENERAL RULE.—Unless a contrary intention appears, a person negotiating or transferring a bill of lading for value warrants that—

- (1) the bill is genuine;
- (2) the person has the right to transfer the bill and the title to the goods described in the bill;
- (3) the person does not know of a fact that would affect the validity or worth of the bill; and
- (4) the goods are merchantable or fit for a particular purpose when merchantability or fitness would have been implied if the agreement of the parties had been to transfer the goods without a bill of lading.

(b) SECURITY FOR DEBT.—A person holding a bill of lading as security for a debt and in good faith demanding or receiving payment of the debt from another person does not warrant by the demand or receipt—

- (1) the genuineness of the bill; or
- (2) the quantity or quality of the goods described in the bill.

(c) DUPLICATES.—A common carrier issuing a bill of lading, on the face of which is the word “duplicate” or another word indicating that the bill is not an original bill, is liable the same as a person that represents and warrants that the bill is an accurate copy of an original bill properly issued. The carrier is not otherwise liable under the bill.

(d) INDORSER LIABILITY.—Indorsement of a bill of lading does not make the indorser liable for failure of the common carrier or a previous indorser to fulfill its obligations.

(2) the carrier's lien.

(d) ADVERSE CLAIMS.—If a person other than the consignee or the person in possession of a bill of lading claims title to or possession of goods and the common carrier knows of the claim, the carrier is not required to deliver the goods to any claimant until the carrier has had a reasonable time to decide the validity of the adverse claim or to bring a civil action to require all claimants to interplead.

§ 80111. Liability for delivery of goods

(a) GENERAL RULES.—A common carrier is liable for damages to a person having title to, or right to possession of, goods when—

- (1) the carrier delivers the goods to a person not entitled to their possession unless the delivery is authorized under section 80110(b)(2) or (3) of this title;
- (2) the carrier makes a delivery under section 80110(b)(2) or (3) of this title after being requested by or for a person having title to, or right to possession of, the goods not to make the delivery; or

(b) EFFECTIVENESS OF REQUEST OR INFORMATION.—A request or information is effective under subsection (a)(2) or (3) of this section only if—

- (1) an officer or agent of the carrier, whose actual or apparent authority includes acting on the request or information, has been given the request or information; and
- (2) the officer or agent has had time, exercising reasonable diligence, to stop delivery of the goods.

(c) FAILURE TO TAKE AND CANCEL BILLS.—Except as provided in subsection (d) of this section, if a common carrier delivers goods for which a negotiable bill of lading has been issued without

taking and canceling the bill, the carrier is liable for damages for failure to deliver the goods to a person purchasing the bill for value in good faith whether the purchase was before or after delivery and even when delivery was made to the person entitled to the goods. The carrier also is liable under this paragraph if part of the goods are delivered without taking and canceling the bill or plainly noting on the bill that a partial delivery was made and generally describing the goods or the remaining goods kept by the carrier.

(d) EXCEPTIONS TO LIABILITY.—A common carrier is not liable for failure to deliver goods to the consignee or owner of the goods or a holder of the bill if—

(a) PARTS AND SETS.—A negotiable bill of lading issued in a State for the transportation of goods to a place in the 48 contiguous States or the District of Columbia may not be issued in parts or sets. A common carrier issuing a bill in violation of this subsection is liable for damages for failure to deliver the goods to a purchaser of one part for value in good faith even though the purchase occurred after the carrier delivered the goods to a holder of one of the other parts.

(b) DUPLICATES.—When at least 2 negotiable bills of lading are issued in a State for the same goods to be transported to a place in the 48 contiguous States or the District of Columbia, the word “duplicate” or another word indicating that the bill is not an original must be put plainly on the face of each bill except the original. § 80113. Liability for nonreceipt, misdescription, and improper loading

(a) **LIABILITY FOR NONRECEIPT AND MISDESCRIPTION.**—Except as provided in this section, a common carrier issuing a bill of lading is liable for damages caused by nonreceipt by the carrier of any part of the goods by the date shown in the bill or by failure of the goods to correspond with the description contained in the bill. The carrier is liable to the owner of goods transported under a nonnegotiable bill (subject to the right of stoppage in transit) or to the holder of a negotiable bill if the owner or holder gave value in good faith relying on the description of the goods in the bill or on the shipment being made on the date shown in the bill.

(b) **NONLIABILITY OF CARRIERS.**—A common carrier issuing a bill of lading is not liable under subsection (a) of this section—

- (1) when the goods are loaded by the shipper;
- (2) when the bill—

(A) describes the goods in terms of marks or labels, or in a statement about kind, quantity, or condition; or

(B) is qualified by “contents or condition of contents of packages unknown”, “said to contain”, “shipper’s weight, load, and count”, or words of the same meaning; and

- (3) to the extent the carrier does not know whether any part of the goods were received or conform to the description.

- (1) the shipper loads the goods; and
- (2) the bill contains the words “shipper’s weight, load, and count”, or words of the same meaning indicating the shipper loaded the goods.

(d) **CARRIER’S DUTY TO DETERMINE KIND, QUANTITY, AND NUMBER.**—(1) When bulk freight is loaded by a shipper that makes available to the common carrier adequate facilities for weighing the freight, the carrier must determine the kind and quantity of the freight within a reasonable time after receiving the written request of the shipper to make the determination. In that situation, inserting the words “shipper’s weight” or words of the same meaning in the bill of lading has no effect.

(2) When goods are loaded by a common carrier, the carrier must count the packages of

goods, if package freight, and determine the kind and quantity, if bulk freight. In that situation, inserting in the bill of lading or in a notice, receipt, contract, rule, or tariff, the words “shipper’s weight, load, and count” or words indicating that the shipper described and loaded the goods, has no effect except for freight concealed by packages.

§ 80114. Lost, stolen, and destroyed negotiable bills

(a) **DELIVERY ON COURT ORDER AND SURETY BOND.**—If a negotiable bill of lading is lost, stolen, or destroyed, a court of competent jurisdiction

tion may order the common carrier to deliver the goods if the person claiming the goods gives a surety bond, in an amount approved by the court, to indemnify the carrier or a person injured by delivery against liability under the outstanding original bill. The court also may order payment of reasonable costs and attorney's fees to the carrier. A voluntary surety bond, without court order, is binding on the parties to the bond.

(b) LIABILITY TO HOLDER.—Delivery of goods under a court order under subsection (a) of this section does not relieve a common carrier from liability to a person to whom the negotiable bill has been or is negotiated for value without notice of the court proceeding or of the delivery of the goods.

The words “the Governor of Guam or of the Northern Mariana Islands as provided in section 80304 of this title” are added because under 49 App.:789 the Governor of Guam enforces 49 App.:ch. 11 in Guam and because, under section 502(a)(2) of the Covenant to Establish a Commonwealth of the Northern Mariana Islands in Political Union with the United States of America, as enacted by the Act of March 24, 1976 (Public Law 94–241, 90 Stat. 263), and proclaimed to be in effect by the President on January 9, 1978 (Proc. No. 4534, Oct. 24, 1977, 42 F.R. 56593, 48 U.S.C. 1681 (note)), the Commonwealth was given the same authority as Guam when a law applies to Guam and the States of the United States generally. The words “or a person authorized by another law to enforce section 80302 of this title” are substituted for “or authorized by law” for clarity. The words “involved in a violation of section 80302” are substituted for “which has been or is being used in violation of any provision of section 781 of this Appendix, or in, upon, or by means of which any violation of said section has taken or is taking place” in 49 App.:782 and “which has been or is being used in violation of any of the provisions of this chapter, or in, upon, or by means of which any violation of this chapter has taken or is taking place” in 49 App.:783 (last sentence) to eliminate unnecessary words. The word “designated” is substituted for “authorized or designated” in 49 App.:783 (last sentence) to eliminate unnecessary words. The words “or appropriate Governor, as the case may be” are added for clarity and for consistency in this section. The words “to await disposition pursuant to the provisions of this chapter and any regulations issued hereunder” are omitted as unnecessary. The words “except when . . . committed the violation” are substituted for “Provided further, That no vessel, vehicle, or aircraft shall be forfeited under the provisions of this chapter by reason of any act or omission . . . committed or omitted” in 49 App.:782 for clarity. The words “However . . . used by a common carrier to provide transportation for compensation may be forfeited only when” are substituted for “Provided, That no . . . used by any person as a common carrier in the transaction of business as such common carrier shall be forfeited under the provisions of this chapter unless it shall appear that” for clarity and consistency in the revised title. In clauses (1)–(3), the words “knows of” are substituted for “privity thereto” for clarity. The word “violation” is substituted for “illegal act” for consistency in the revised title and with other titles of the United States Code.

In subsection (a)(1), the words “may designate” are substituted for “is empowered to authorize, or designate” in 49 App.:783 (1st sentence) to eliminate unnecessary words. In subsections (a)(2) and (b)(3), the word “regulations” is substituted for “such rules and regulations as may be necessary” in 49 App.:788 and 789 for consistency in the revised title and with other titles of the Code and because “rules” and “regulations” are synonymous.

In subsection (b)(1), the words “shall carry out this chapter in Guam” are substituted for “In Guam the enforcement and administration of this chapter shall be performed” for consistency in the revised title.

Subsection (c) is added because, under section 502(a)(2) of the Covenant to Establish a Commonwealth of the Northern Mariana Islands in Political Union with the United States of America, as enacted by the Act of March 24, 1976 (Public Law 94-241, 90 Stat. 263), and proclaimed to be in effect by the President on January 9, 1978 (Proc. The words “or the Governor of Guam or of the Northern Mariana Islands as provided in subsections (b) and (c) of this section” are added because under 49 App.:789 the Governor of Guam enforces 49 App.:ch. 11 in Guam and because of section 502(a)(2) of the Covenant referred to in the revision note for subsection (c) of this section. The words “the customs laws” are substituted for “That such duties as are imposed upon the collector of customs or any other person with respect to the seizure and forfeiture of vessels and vehicles under the customs laws” because of the restatement and to eliminate unnecessary words.

The head of the department, agency, or instrumentality may not assess an owner or operator of an aircraft for administrative overhead expenses for inspection or quarantine service provided by the department, agency, or instrumentality at an entry airport.
