

## ACTS CITED BY POPULAR NAME

The following is an alphabetical list of popular and statutory names of Acts of Congress. The Statutes at Large citation following an entry is to the Act or part of the Act to which the name relates. Not all entries are classified to the United States Code. If an entry is classified mainly to a discrete part of the Code (such as a chapter or subchapter), a Code citation is set out in parentheses. If there is a short title or a short title note in the Code for an entry, a Code citation for the short title or short title note is set out on a separate line. For a complete chronological listing of Acts that have been classified to the Code together with their Code classifications and current status, see Tables II and III in the Tables volumes.
