"(18) ADJUSTMENT FOR BASE PERIOD LOSSES FROM BRANCH OPERATIONS.—In the case of a taxpayer which during two or more such taxable years operated a branch at a loss, the excess profits net income for each such taxable year (determined without regard to this paragraph) shall be increased by the amount of the excess of such loss above the loss, if any, incurred by such branch during the taxable year for which the tax under this subchapter is being computed. As used in this paragraph, the term 'branch' means a unit or subdivision of the taxpayer's business which was operated in a separate place from its other business and differed substantially from its other business with respect to character of products or services. A unit or subdivision of the taxpayer's business shall not be considered to differ substantially from the taxpayer's other business unless it is of a type classifiable by the Standard Industrial Classification Manual in a different major industry group or in a different subgroup of the taxpayer's major industry group than that in which its other business is so classifiable: *Provided, however,* That this paragraph shall not apply unless the sum of the net losses of such branch during the base period exceeded 15 per centum of the aggregate excess profits net income of the taxpayer during the base period. For the purposes of this paragraph, the aggregate excess profits net income of the taxpayer during the base period shall be the sum of its excess profits net income for all years in the base period, increased by the sum of the net losses of such branch during the base period.

“(19) RULES FOR APPLICATION OF PARAGRAPH (18).—For the purposes of paragraph (18)—

26 USC 23.

“(A) A branch shall be deemed to have been operated at a loss during a taxable year if the portion of the deductions under section 23 for such year which is determined, under regulations prescribed by the Secretary, to be the portion thereof properly allocable to the operation of such branch exceeds the portion of the gross income during the taxable year which is determined under such regulations to be the portion thereof properly allocable to the operation of such branch; and the amount of the loss shall be an amount equal to such excess.

“(B) If the portion of the gross income determined to be properly allocable to the operation of the branch is a minus quantity, the amount of such excess shall be the sum of the deductions under section 23 determined to be properly allocable to the operation of the branch plus an amount equal to such minus quantity.”
