“(c) a plan of repayment by the organization of (1) the sums lent to it in not more than fifty years from the date when the principal benefits of the project first become available; (2) interest, as determined by the Secretary of the Treasury, as of the beginning of the fiscal year in which the contract is executed, on the basis of the computed average interest rate payable by the Treasury upon its outstanding marketable public obligations, which are neither due nor callable for redemption for fifteen years from date of issue, and by adjusting such average rate to the nearest one-eighth of 1 per centum, on that portion of the loan which is attributable to furnishing irrigation benefits in each particular year to land held in private ownership by any one owner in excess of one hundred and sixty irrigable acres; and (3) in the case of any project involving an allocation to domestic, industrial, or municipal water supply, or commercial power, interest on the unamortized balance of an appropriate portion of the loan at a rate as determined in (2) above;”;
