____TH
CONGRESS
____ SESSION

# H. R. _____

To enact certain laws relating to food and drugs as title 21, United States Code, ''Food and Drugs''.

---

IN THE HOUSE OF REPRESENTATIVES

M__. _____ introduced the following bill; which was referred to the Committee on the Judiciary

---

# A BILL

To enact certain laws relating to food and drugs as title 21, United States Code, ''Food and Drugs''.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**SECTION 1. TABLE OF CONTENTS.**

The table of contents for this Act is as follows:

Sec. 1. Table of contents.
Sec. 2. Purpose; restatement does not change meaning or effect of existing law.
Sec. 3. Enactment of title 21, United States Code.
Sec. 4. Conforming amendments.
Sec. 5. Transitional and savings provisions.
Sec. 6. Repeals.

**SEC. 2. PURPOSE; RESTATEMENT DOES NOT CHANGE MEANING OR EFFECT OF EXISTING LAW.**

(a) PURPOSE.—The purpose of this Act is to enact a restatement of existing law relating to food and drugs as a positive law title of the United States Code.

(b) RESTATEMENT DOES NOT CHANGE MEANING OR EFFECT OF EXISTING LAW.—

(1) IN GENERAL.—The restatement of existing law enacted by this Act does not change the meaning or effect of the existing law. The restatement consolidates various provisions that were enacted separately over a period of many years, reorganizing them, conforming style and terminology, modernizing obsolete language, and correcting drafting errors. These changes serve to remove ambiguities, contradictions, and other imperfections, but they do not change the meaning or effect of the existing law or impair the precedential value of earlier judicial decisions or other interpretations.

(2) RULE OF CONSTRUCTION.—

(A) IN GENERAL.—Notwithstanding the plain meaning rule or other rules of statutory construction, a change in wording made in the restatement of existing law enacted by this Act serves to clarify the existing law as indicated in

paragraph (1), but not to change the meaning or effect of the existing law.

(B) REVISION NOTES.—Subparagraph (A) applies whether or not a change in wording is explained by a revision note appearing in a congressional report accompanying this Act. If such a revision note does appear, a court shall consider the revision note in interpreting the change.

**SEC. 3. ENACTMENT OF TITLE 21, UNITED STATES CODE.**

Title 21, United States Code, ''Food and Drugs'', is enacted as follows:

# TITLE 21—FOOD AND DRUGS

**Subtitle I—Federal Food, Drug, and Cosmetic Provisions**

**Division A—General Provisions**

| Chap. | | Sec. |
|---|---|---|

# Subtitle I—Federal Food, Drug, and Cosmetic Provisions

# Division A—General Provisions

# Chapter 101—Definitions Applicable to Subtitle

Sec.
10101. Subtitle definitions.
10102. Nonfat dry milk.
10103. Market names for catfish and ginseng.
10104. FDA and FDA website.

**§ 10101. Subtitle definitions**

(a) GENERAL DEFINITIONS.—In this subtitle:

(1) ABBREVIATED DRUG APPLICATION.—The term ''abbreviated drug application'' means an application submitted under section 13511 of this title for the approval of a drug that relies on the approved application of another drug with the same active ingredient to establish safety and efficacy, and—

(A) in the case of section 10506 of this title, includes a supplement to the approved application for a different or additional use of the drug but does not include a supplement to the approved application for other than a different or additional use of the drug; and

(B) in the case of sections 10507 and 10508 of this title, includes any supplement to the approved application.

(2) ADMINISTRATOR.—The term ''Administrator'' means the Administrator of the Environmental Protection Agency.

(3) ANIMAL FEED.—

(A) APPLICABILITY.—This paragraph applies only to—

(i) paragraph (33);

(ii) chapter 137 of this title; and

(iii) the provisions of this subtitle referring to paragraph (33) or chapter 137 of this title.

(B) IN GENERAL.—The term ''animal feed'' means an article that is intended for use—

(i) for food for animals other than humans; and

(ii) as a substantial source of nutrients in the diet of any such animal.

(C) NOT LIMITED.—The term ''animal feed'' is not limited to a mixture intended to be the sole ration of the animal.

(4) ANTIBIOTIC DRUG.—

(A) IN GENERAL.—The term ''antibiotic drug'' means a drug composed wholly or partly of—

(i) any kind of penicillin, streptomycin, chlortetracycline, chloramphenicol, or bacitracin;

(ii) any other drug intended for human use containing any quantity of a chemical substance (including a chemically-synthesized equivalent of a chemical substance)—

(I) that is produced by a microorganism; and

(II) that has the capacity to inhibit or destroy microorganisms in dilute solution; or

(iii) a derivative of any drug under clause (i) or (ii).

(B) EXCEPTION.—The term ''antibiotic drug'' does not include a drug for use in animals other than humans.

(5) BUTTER.—The term ''butter'' means the food product—

(A) that is usually known as butter;

(B) that is made exclusively from milk, cream, or both, with or without common salt, and with or without additional coloring matter; and

(C) that contains not less than 80 percent of milk fat (by weight), all tolerances having been allowed for.

(6) COLOR.—The term ''color'' includes black, white, and intermediate grays.

(7) COLOR ADDITIVE.—

(A) IN GENERAL.—The term ''color additive'' means a material that—

(i) is a dye, pigment, or other substance made by a process of synthesis or similar artifice, or extracted, isolated, or otherwise derived, with or without intermediate or final change of identity, from a vegetable, animal, mineral, or other source; and

(ii) when added or applied to a food, drug, or cosmetic, or to the human body or any part of the human body, is capable (alone or through reaction with other substance) of imparting color to the food, drug, or cosmetic, or to the human body or the part of the human body.

(B) EXCLUSION.—The term ''color additive'' does not include any material that the Secretary, by regulation, determines is used (or intended to be used) solely for a purpose other than coloring.

(C) EFFECT OF PARAGRAPH.—Nothing in this paragraph shall be construed to apply to any pesticide chemical, soil or plant nutrient, or other agricultural chemical solely because of its effect in aiding, retarding, or otherwise affecting, directly or indirectly, the growth or other

natural physiological processes of produce of the soil, by which growth or processes the color of the produce is affected, whether before or after harvest.

(8) COMMISSIONER.—The term ''Commissioner'' means the Commissioner of Food and Drugs.

(9) COMPOUNDED POSITRON EMISSION TOMOGRAPHY DRUG.—

(A) IN GENERAL.—The term ''compounded positron emission tomography drug'' means a drug that—

(i) exhibits spontaneous disintegration of unstable nuclei by the emission of positrons and is used for the purpose of providing dual photon positron emission tomographic diagnostic images; and

(ii)(I) has been compounded by or on the order of a practitioner who is licensed by a State to compound or order compounding for a drug described in clause (i); and

(II) is compounded in accordance with that State's law, for a patient or for research, teaching, or quality control.

(B) INCLUSIONS.—The term ''compounded positron emission tomography drug'' includes any nonradioactive reagent, reagent kit, ingredient, nuclide generator, accelerator, target material, electronic synthesizer, or other apparatus or computer program to be used in the preparation of a drug under subparagraph (A).

(10) COSMETIC.—

(A) IN GENERAL.—The term ''cosmetic'' means—

(i) articles intended to be rubbed, poured, sprinkled, or sprayed on, introduced into, or otherwise applied to the human body or any part of the human body for cleansing, beautifying, promoting attractiveness, or altering the appearance; and

(ii) articles intended for use as a component of any article under clause (i).

(B) EXCLUSION.—The term ''cosmetic'' does not include soap.

(11) COUNTERFEIT DEVICE.—The term ''counterfeit device'' means a device or the container, packaging, or labeling of the device—

(A) that, without authorization, bears a trademark, trade name, or other identifying mark or imprint, or any likeness of the trademark, trade name, or other identifying mark or imprint, or is manufactured using a design, of a device manufacturer, processor, packer, or distributor other than the person that in fact manufactured, processed, packed, or distributed the device; and

(B) that, by the unauthorized bearing described in subparagraph (A), falsely purports or is represented to be the product of, or to have been packed or distributed by, the other device manufacturer, processor, packer, or distributor.

(12) COUNTERFEIT DRUG.—The term ''counterfeit drug'' means a drug or the container or labeling of the drug—

(A) that, without authorization, bears the trademark, trade name, or other identifying mark, imprint, or device, or any likeness of the trademark, trade name, or other identifying mark, imprint, or device, of a drug manufacturer, processor, packer, or distributor other than the person that in fact manufactured, processed, packed, or distributed the drug; and

(B) that, by the unauthorized bearing described in subparagraph (A), falsely purports or is represented to be the product of, or to have been packed or distributed by, the other drug manufacturer, processor, packer, or distributor.

(13) CRITICAL FOOD.—The term ''critical food'' means a food that is—

(A) an infant formula; or

(B) a medical food, as defined in section 49502(a)(1) of this title.

(14) CRITICAL REPROCESSED SINGLE-USE DEVICE.—The term ''critical reprocessed single-use device'' means a reprocessed single-use device that is intended to contact normally sterile tissue or body spaces during use.

(15) DEPARTMENT.—The term ''Department'' means the Department of Health and Human Services.

(16) DEVICE.—

(A) IN GENERAL.—The term ''device'' (except when used in subsection (c)(1) and sections 10501(9), 11306, 13303, and 17112(c) of this title) means an instrument, apparatus, implement, machine, contrivance, implant, in vitro reagent, or other similar or related article, in-

cluding any component, part, or accessory, that—

(i) is—

(I) recognized in the official National Formulary, or the United States Pharmacopeia, or any supplement to those publications;

(II) intended for use in the diagnosis of disease or other conditions, or in the cure, mitigation, treatment, or prevention of disease, in humans or other animals; or

(III) intended to affect the structure or any function of the body of humans or other animals;

(ii) does not achieve its primary intended purposes through chemical action within or on the body of humans or other animals; and

(iii) is not dependent on being metabolized for the achievement of its primary intended purposes.

(B) EXCLUSIONS.—The term ''device'' does not include software functions excluded pursuant to section 13152(o) of this title.

(17) DIETARY SUPPLEMENT.—

(A) IN GENERAL.—The term ''dietary supplement''—

(i) means a product (other than tobacco) intended to supplement the diet that bears or contains 1 or more of the dietary ingredients listed in this clause, which dietary ingredients consist of—

(I) a vitamin;

(II) a mineral;

(III) an herb or other botanical;

(IV) an amino acid;

(V) a dietary substance for use by humans to supplement the diet by increasing the total dietary intake; or

(VI) a concentrate, metabolite, constituent, extract, or combination of any ingredient described in clause (I), (II), (III, (IV), or (V);

(ii) means a product that—

(I)(aa) is intended for ingestion in a form described in section 11113(a)(1)(D)(i) of this title; or

(bb) complies with section 11113(a)(1)(D)(ii) of this title;

(II) is not represented for use as a conventional food or as a sole item of a meal or the diet; and

(III) is labeled as a dietary supplement; and

(iii) does—

(I) include an article that is approved as a new drug under chapter 135 of this title or licensed as a biologic under section 351 of the Public Health Service Act (42 U.S.C. 262) and was, prior to the approval or license, marketed as a dietary supplement or as a food unless the Secretary has issued a regulation, after notice and comment, finding that the article, when used as or in a dietary supplement under the conditions of use and dosages set forth in the labeling for the dietary supplement, is unlawful under section 11102(f) of this title; and

(II) not include an article—

(aa) that is—

(AA) approved as a new drug under chapter 135 of this title or licensed as a biologic under section 351 of the Public Health Service Act (42 U.S.C. 262); or

(BB) authorized for investigation as a new drug or biologic for which substantial clinical investigations have been instituted and for which the existence of the investigations has been made public; and

(bb) that was not, before the approval, licensing, or authorization under item (aa), marketed as a dietary supplement or as a food unless the Secretary, in the Secretary's discretion, has issued a regulation, after notice and comment, finding that the article would be lawful under this subtitle.

(B) DEEMED TO BE A FOOD.—Except for purposes of paragraphs (12) and (18) and section 11119 of this title, a dietary supplement shall be deemed to be a food within the meaning of this subtitle.

(18) DRUG.—

(A) IN GENERAL.—The term ''drug'' means—

(i) an article recognized in the official United States Pharmacopeia, official Homoeopathic Pharmacopoeia of the United States, or official National Formulary, or any supplement to any of those publications;

(ii) an article intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease in humans or other animals;

(iii) an article (other than food) intended to affect the structure or any function of the body of humans or other animals; and

(iv) an article intended for use as a component of any article specified in clause (i), (ii), or (iii).

(B) ARTICLES WITH CLAIMS ON LABEL OR LABELING.—A food or dietary supplement for which a claim, subject to subsections (a)(1)(B) and (c) of section 11317 of this title or subsections (a)(1)(B) and (e)(4) of section 11317 of this title, is made in accordance with the requirements of section 11317 of this title is not a drug solely because the label or the labeling contains such a claim.

(C) ARTICLES WITH CERTAIN TRUTHFUL STATEMENTS ON LABEL OR LABELING.—A food, dietary ingredient, or dietary supplement for which a truthful and not misleading statement is made in accordance with section 11317(f) of this title is not a drug under subparagraph (A)(iii) solely because the label or the labeling contains such a statement.

(19) FOOD.—The term ''food'' means—

(A) articles used for food or drink for humans or other animals;

(B) chewing gum; or

(C) articles used for components of any article under subparagraph (A) or (B).

(20) FOOD ADDITIVE.—

(A) IN GENERAL.—The term ''food additive'' means any substance the intended use of which results or may reasonably be expected to result, directly or indirectly, in its becoming a component or otherwise affecting the characteristics of any food, if the substance is not generally recognized, among experts qualified by scientific training and experience to evaluate its safety, as having been adequately shown through scientific procedures (or, in the case of a substance used in food prior to January 1, 1958, through either scientific procedures or experience based on common use in food) to be safe under the conditions of its intended use.

(B) INCLUSIONS.—The term ''food additive'' includes—

(i) any substance described in subparagraph (A) intended for use in producing, manufacturing, packing, processing, preparing, treating, packaging, transporting, or holding food; and

(ii) any source of radiation intended for any use described in clause (i).

(C) EXCLUSIONS.—The term ''food additive'' does not include—

(i) a pesticide chemical residue in or on a raw agricultural commodity or processed food;

(ii) a pesticide chemical;

(iii) a color additive;

(iv) any substance used in accordance with a sanction or approval granted prior to September 6, 1958, pursuant to this subtitle, chapter 303 of this title, or chapter 313 of this title;

(v) a new animal drug; or

(vi) an ingredient described in paragraph (17) in, or intended for use in, a dietary supplement.

(21) IMMEDIATE CONTAINER.—The term ''immediate container'' does not include package liners.

(22) INFANT FORMULA.—The term ''infant formula'' means a food that purports to be or is represented for special dietary use solely as a food for infants by reason of its simulation of human milk or its suitability as a complete or partial substitute for human milk.

(23) INFORMAL HEARING.—The term ''informal hearing'' means a hearing that is not subject to sec-

tion 554, 556, or 557 of title 5 and that provides for the following:

(A) PRESIDING OFFICER.—The presiding officer in the hearing shall be designated by the Secretary from officers and employees of the Department who have not participated in any action of the Secretary that is the subject of the hearing and who are not directly responsible to an officer or employee of the Department that has participated in any such action.

(B) ATTORNEY REPRESENTATION.—Each party to the hearing shall have the right at all times to be advised and accompanied by an attorney.

(C) NOTICE.—Before the hearing, each party to the hearing shall be given reasonable notice of the matters to be considered at the hearing, including a comprehensive statement of the basis for the action taken or proposed by the Secretary that is the subject of the hearing and a general summary of the information that will be presented by the Secretary at the hearing in support of the action.

(D) RIGHTS OF PARTIES.—At the hearing, the parties to the hearing shall have the right—

(i) to hear a full and complete statement of the action of the Secretary that is the subject of the hearing and the information and reasons supporting the action;

(ii) to conduct reasonable questioning; and

(iii) to present any oral or written information relevant to the action.

(E) WRITTEN REPORT BY PRESIDING OFFICER.—The presiding officer in the hearing shall prepare a written report of the hearing to which shall be attached all written material presented at the hearing. The participants in the hearing shall be given the opportunity to review and correct or supplement the presiding officer's report of the hearing.

(F) TRANSCRIPTION.—The Secretary may require the hearing to be transcribed. A party to the hearing shall have the right to have the hearing transcribed at the party's expense. Any transcription of a hearing shall be included in the presiding officer's report of the hearing.

(24) INTERSTATE COMMERCE.—The term ''interstate commerce'' means—

(A) commerce between any State or territory of the United States and any place outside of the State or territory of the United States; or

(B) commerce within the District of Columbia or within any other territory of the United States not organized with a legislative body.

(25) KNOW.—The term ''know'' means, with respect to a person that knows information, the person—

(A) has actual knowledge of the information; or

(B) acts in deliberate ignorance or reckless disregard of the truth or falsity of the information.

(26) KNOWINGLY.—The term ''knowingly'' means, with respect to a person's knowing of information, the person—

(A) has actual knowledge of the information; or

(B) acts in deliberate ignorance or reckless disregard of the truth or falsity of the information.

(27) LABEL.—

(A) IN GENERAL.—The term ''label'' means a display of written, printed, or graphic matter on the immediate container of any article.

(B) COMPLIANCE.—A requirement made by or under the authority of this subtitle that any word, statement, or other information appear on the label shall not be considered to be complied with unless the word, statement, or other information also appears on the outside container or wrapper, if there is any outside container or wrapper, of the retail package of the article, or is easily legible through the outside container or wrapper.

(28) LABELING.—The term ''labeling'' means all labels and other written, printed, or graphic matter—

(A) on any article or any of its containers or wrappers; or

(B) accompanying the article.

(29) MAJOR FOOD ALLERGEN.—The term ''major food allergen'' means—

(A) milk, egg, fish (e.g., bass, flounder, or cod), Crustacean shellfish (e.g., crab, lobster, or shrimp), tree nuts (e.g., almonds, pecans, or

walnuts), wheat, peanuts, soybeans, or sesame; or

(B) a food ingredient that contains protein derived from a food specified in subparagraph (A), except—

(i) any highly refined oil derived from a food specified in subparagraph (A) and any ingredient derived from the highly refined oil; or

(ii) a food ingredient that is exempt under subsection (e) or (f) of section 11323 of this title.

(30) MAJOR SPECIES.—The term ''major species'' means cattle, horses, swine, chickens, turkeys, dogs, or cats, except that the Secretary may add species to this definition by regulation.

(31) MINOR SPECIES.—The term ''minor species'' means animals other than humans that are not major species.

(32) MINOR USE.—The term ''minor use'' means the intended use of a drug in a major species for an indication that occurs infrequently and in only a small number of animals or in limited geographical areas and in only a small number of animals annually.

(33) NEW ANIMAL DRUG.—

(A) IN GENERAL.—The term ''new animal drug'' means any drug intended for use for animals other than humans the composition of which is such that—

(i) the drug is not generally recognized, among experts qualified by scientific training and experience to evaluate the safety and effectiveness of animal drugs, as safe and effective for use under the conditions prescribed, recommended, or suggested in the labeling of the drug; or

(ii) the drug, as a result of investigations to determine its safety and effectiveness for use under the conditions prescribed, recommended, or suggested in the labeling of the drug, has become generally recognized as described in clause (i) but has not, other than in the investigations, been used to a material extent or for a material time under the conditions.

(B) EXCEPTION.—A drug that is not generally recognized as safe and effective as described under subparagraph (A)(i) shall not be deemed to be a new animal drug if at any time

prior to June 25, 1938, it was subject to the Food and Drugs Act of June 30, 1906 (ch. 3915, 34 Stat. 768), and if at that time, its labeling contained the same representations concerning the conditions of its use.

(C) INCLUSIONS.—The term ''new animal drug'' includes any drug intended for use in animal feed (but not including the animal feed).

(D) DRUGS INTENDED FOR MINOR USE OR USE IN A MINOR SPECIES.—Any drug intended for minor use or use in a minor species that is not the subject of a final regulation published by the Secretary through notice and comment rulemaking finding that the criteria of clauses (i) and (ii) of subparagraph (A) have not been met (or that the exception under subparagraph (B) to the criterion in subparagraph (A)(i) has been met) is a new animal drug.

(34) NEW DRUG.—

(A) IN GENERAL.—The term ''new drug'' means—

(i) any drug (except a new animal drug or an animal feed bearing or containing a new animal drug) the composition of which is such that the drug is not

generally recognized, among experts qualified by scientific training and experience to evaluate the safety and effectiveness of drugs, as safe and effective for use under the conditions prescribed, recommended, or suggested in the labeling of the drug; or

(ii) any drug (except a new animal drug or an animal feed bearing or containing a new animal drug) the composition of which is such that the drug, as a result of investigations to determine its safety and effectiveness for use under the conditions prescribed, recommended, or suggested in the labeling of the drug, has become generally recognized as described in clause (i), but has not, other than in the investigations, been used to a material extent or for a material time under the conditions.

(B) EXCEPTION.—A drug under subparagraph (A)(i) that is not generally recognized as described in subparagraph (A)(i) shall not be deemed to be a ''new drug'' if at any time prior to June 25, 1938, it was subject to the Food and Drugs Act of June 30, 1906 (ch. 3915, 34

Stat. 768), and if at that time, its labeling contained the same representations concerning the conditions of its use.

(35) OFFICIAL COMPENDIUM.—The term ''official compendium'' means the official United States Pharmacopeia, official Homoeopathic Pharmacopoeia of the United States, official National Formulary, or any supplement to any of those publications.

(36) PACKAGE.—The term ''package'' includes wrapped meat enclosed in paper or other material as prepared by the manufacturers of the wrapped meat for sale.

(37) PERSON.—The term ''person'' includes an individual, partnership, corporation, and association.

(38) PESTICIDE CHEMICAL.—

(A) IN GENERAL.—Except as provided in subparagraph (C), the term ''pesticide chemical'' means any substance that is a pesticide within the meaning of the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136 et seq.), including all active and inert ingredients of the pesticide.

(B) PESTICIDE.—Notwithstanding any other provision of law, the term ''pesticide'' within the meaning under subparagraph (A) in-

cludes ethylene oxide and propylene oxide if the substances are applied on food.

(C) USE IN FOOD.—In the case of the use, with respect to food, of a substance described in subparagraph (A) to prevent, destroy, repel, or mitigate microorganisms (including bacteria, viruses, fungi, protozoa, algae, and slime), the following applies for purposes of subparagraph (A):

(i) EXCLUSION.—

(I) IN GENERAL.—The term ''pesticide chemical'' does not include the substance if the substance is applied for the use on food, or the substance is included for the use in water that comes into contact with the food, in the preparing, packing, or holding of the food for commercial purposes.

(II) SUBSTANCES NOT EXCLUDED.—The substance is not excluded under subclause (I) from the definition if the substance is ethylene oxide or propylene oxide, and is applied for the use on food described in subclause (I).

(III) USE IN RAW AGRICULTURAL COMMODITY.—The substance is not excluded under subclause (I) from the definition if the substance is applied for the use on a raw agricultural commodity, or the substance is included for the use in water that comes into contact with the agricultural commodity, as follows:

(aa) The substance is applied in the field.

(bb) The substance is applied at a treatment facility in which raw agricultural commodities are the only food treated, and the treatment is in a manner that does not change the status of the food as a raw agricultural commodity (including treatment through washing, waxing, fumigating, and packing the commodities in that manner).

(cc) The substance is applied during the transportation of the agricultural commodity be-

tween the field and a treatment facility described in item (bb).

(ii) EXCLUSION RELATING TO USE AS FOOD CONTACT SUBSTANCE.—

(I) IN GENERAL.—The term ''pesticide chemical'' does not include the substance if the substance is a food contact substance as defined in section 11111(a) of this title, and any of the following circumstances exist:

(aa) The substance is included for the use in an object that has a food contact surface but is not intended to have an ongoing effect on any portion of the object.

(bb) The substance is included for the use in an object that has a food contact surface and is intended to have an ongoing effect on a portion of the object but not on the food contact surface.

(cc) The substance is included for the use in or is applied

for the use on food packaging (without regard to whether the substance is intended to have an ongoing effect on any portion of the packaging).

(II) SEMIPERMANENT OR PERMANENT FOOD CONTACT SURFACE.—The food contact substance is not excluded under this clause from the definition under subparagraph (A) if—

(aa) the substance is applied for the use on a semipermanent or permanent food contact surface (other than being applied on food packaging); or

(bb) the substance is included for the use in an object that has a semipermanent or permanent food contact surface (other than being included in food packaging) and the substance is intended to have an ongoing effect on the food contact surface.

(D) EFFECT ON FEDERAL INSECTICIDE, FUNGICIDE, AND RODENTICIDE ACT.—With respect to the definition of the term ''pesticide'' that is applicable to the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136 et seq.), subparagraph (C) does not exclude any substance from the definition.

(E) EXCEPTION BY REGULATION.—Notwithstanding this paragraph, the Administrator may by regulation except a substance from the definition of ''pesticide chemical'' if—

(i) its occurrence as a residue on or in a raw agricultural commodity or processed food is attributable primarily to natural causes or to human activities not involving the use of any substances for a pesticidal purpose in the production, storage, processing, or transportation of any raw agricultural commodity or processed food; and

(ii) the Administrator, after consultation with the Secretary, determines that the substance more appropriately should be regulated under 1 or more provisions of this subtitle other than sections 11102(a)(2)(B) and 11110 of this title.

(39) PESTICIDE CHEMICAL RESIDUE.—

(A) IN GENERAL.—The term ''pesticide chemical residue'' means a residue in or on raw agricultural commodity or processed food of—

(i) a pesticide chemical; or

(ii) any other added substance that is present on or in the commodity or food primarily as a result of the metabolism or other degradation of a pesticide chemical.

(B) EXCEPTION BY REGULATION.—Notwithstanding this paragraph, the Administrator may by regulation except a substance from the definition of ''pesticide chemical residue'' if—

(i) its occurrence as a residue on or in a raw agricultural commodity or processed food is attributable primarily to natural causes or to human activities not involving the use of any substances for a pesticidal purpose in the production, storage, processing, or transportation of any raw agricultural commodity or processed food; and

(ii) the Administrator, after consultation with the Secretary, determines that the substance more appropriately should be regulated under 1 or more provisions of

this subtitle other than sections 11102(a)(2)(B) and 11110 of this title.

(40) PRIORITY SUPPLEMENT.—The term ''priority supplement'' means a drug application referred to in section 101(4) of the Food and Drug Administration Modernization Act of 1997 (Public Law 105–115, 111 Stat. 2298).

(41) PROCESSED FOOD.—The term ''processed food'' means any food other than a raw agricultural commodity and includes any raw agricultural commodity that has been subject to processing, such as canning, cooking, freezing, dehydration, or milling.

(42) RAW AGRICULTURAL COMMODITY.—The term ''raw agricultural commodity'' means any food in its raw or natural state, including all fruits that are washed, colored, or otherwise treated in their unpeeled natural form prior to marketing.

(43) SACCHARIN.—The term ''saccharin'' includes calcium saccharin, sodium saccharin, and ammonium saccharin.

(44) SECRETARY.—The term ''Secretary'' means the Secretary of Health and Human Services.

(45) SEMI-CRITICAL REPROCESSED SINGLE-USE DEVICE.—The term ''semi-critical reprocessed single-use device'' means a reprocessed single-use de-

vice that is intended to contact intact mucous membranes and not penetrate normally sterile areas of the body.

(46) SINGLE-USE DEVICE.—

(A) IN GENERAL.—The term ''single-use device'' means a device that is intended—

(i) for 1 use; or

(ii) for use on a single patient during a single procedure.

(B) REPROCESSED.—

(i) IN GENERAL.—The term ''reprocessed'', with respect to a single-use device, means an original device that has previously been used on a patient and has been subjected to additional processing and manufacturing for the purpose of an additional single use on a patient. The subsequent processing and manufacture of a reprocessed single-use device shall result in a device that is reprocessed within the meaning of this definition.

(ii) DESCRIPTIONS USED BY MANUFACTURERS.—A single-use device that meets the definition under clause (i) shall be considered a reprocessed device without

regard to any description of the device used by the manufacturer of the device or other persons, including a description that uses the term ''recycled'' rather than the term ''reprocessed''.

(C) ORIGINAL DEVICE.—The term ''original device'' means a new, unused single-use device.

(47) STATE.—The term ''State'', except as used in section 17502(a)(1) of this title, means any State or territory of the United States, the District of Columbia, or Puerto Rico.

(48) TERRITORY OF THE UNITED STATES.—The term ''territory of the United States'' means any territory (including a possession) of the United States, including the District of Columbia, and excluding Puerto Rico.

(49) TOBACCO PRODUCT.—

(A) IN GENERAL.—The term ''tobacco product'' means any product made or derived from tobacco, or containing nicotine from any source, that is intended for human consumption, including any component, part, or accessory of a tobacco product (except for raw materials other than tobacco used in manufacturing

a component, part, or accessory of a tobacco product).

(B) ARTICLES THAT ARE NOT TOBACCO PRODUCTS.—

(i) DRUGS, DEVICES, AND COMBINATION PRODUCTS.—The term ''tobacco product'' does not mean an article that is a drug under paragraph (18), a device under paragraph (16), or a combination product described in section 13104 of this title.

(ii) APPLICABILITY OF PROVISIONS.—The articles described in clause (i) shall be subject to division D.

(iii) FOOD.—The term ''tobacco product'' does not mean an article that is a food under paragraph (19), if the article contains no nicotine, or no more than trace amounts of naturally occurring nicotine.

(C) MARKETING OF TOBACCO PRODUCTS.—A tobacco product shall not be marketed in combination with any other article or product regulated under this subtitle (including a drug, biologic, food, cosmetic, medical device, or dietary supplement).

(b) SPECIFIC DEFINITIONS.—

(1) DRUG PRODUCT.—For purposes of sections 10506 and 10507 of this title, the term ''drug product'' means a drug subject to regulation under chapter 135 or 137 of this title, section 20102 of this title, or section 351 of the Public Health Service Act (42 U.S.C. 262).

(2) HIGH MANAGERIAL AGENT.—For purposes of section 10506 of this title, the term ''high managerial agent''—

(A) means—

(i) an officer or director of a corporation or an association having duties such that the conduct of the officer or director may fairly be assumed to represent the policy of the corporation or association;

(ii) a partner of a partnership having duties such that the conduct of the partner may fairly be assumed to represent the policy of the partnership; or

(iii) any employee or other agent of a corporation, association, or partnership having duties such that the conduct of the employee or agent may fairly be assumed

to represent the policy of the corporation, association, or partnership; and

(B) includes individuals having management responsibility for—

(i) submissions to the FDA regarding the development or approval of any drug product;

(ii) production, quality assurance, or quality control of any drug product; or

(iii) research and development of any drug product.

(3) SAFE.—The term ''safe'', as used in subsection (a)(20), in sections 11111, 14502, and 17701 of this title, and in chapter 137 of this title, has reference to the health of humans or animals.

(c) PROVISIONS RELATING TO MISBRANDING AND LABELING.—

(1) MISLEADING LABELING OR ADVERTISING.—If an article is alleged to be misbranded because the labeling or advertising is misleading, in determining whether the labeling or advertising is misleading, there shall be taken into account (among other things)—

(A) the representations made or suggested by—

(i) statement, word, design, or device; or

(ii) any combination of statement, word, design, or device; and

(B) the extent to which the labeling or advertising fails to reveal facts—

(i) material in the light of the representations; or

(ii) material with respect to consequences that may result from the use of the article (to which the labeling or advertising relates)—

(I) under the conditions of use prescribed in the labeling or advertising of the article; or

(II) under such conditions of use as are customary or usual.

(2) REPRESENTATION OF A DRUG AS ANTISEPTIC.—The representation of a drug, in its labeling, as an antiseptic shall be considered to be a representation that it is a germicide, except in the case of a drug purporting to be, or represented as, an antiseptic for inhibitory use as a wet dressing, ointment, dusting powder, or such other use as involves prolonged contact with the body.

**§ 10102. Nonfat dry milk**

(a) MILK.—In this section, the term ''milk'' means sweet milk of cows.

(b) NONFAT DRY MILK.—For the purposes of this subtitle:

(1) NONFAT DRY MILK.—Nonfat dry milk—

(A) is the product resulting from the removal of fat and water from milk;

(B) contains the lactose, milk proteins, and milk minerals in the same relative proportions as in the fresh milk from which made; and

(C) contains not over 5 percent by weight of moisture.

(2) FAT CONTENT.—The fat content of nonfat dry milk is not over 1½ percent by weight unless otherwise indicated.

**§ 10103. Market names for catfish and ginseng**

(a) CATFISH LABELING.—Notwithstanding any other provision of law, for purposes of this subtitle—

(1) the term ''catfish'' may only be considered to be a common or usual name (or part of a common or usual name) for fish classified within the family Ictaluridae; and

(2) only labeling or advertising for fish classified within the family Ictaluridae may include the term ''catfish''.

(b) GINSENG LABELING.—Notwithstanding any other provision of law, for purposes of this subtitle—

(1) the term ''ginseng'' may only be considered to be a common or usual name (or part of a common or usual name) for any herb or herbal ingredient derived from a plant classified within the genus Panax; and

(2) only labeling or advertising for herbs or herbal ingredients classified within the genus Panax may include the term ''ginseng''.

**§ 10104. FDA and FDA website**

In this subtitle:

(1) FDA.—The term ''FDA'' means the Food and Drug Administration established in section 10301 of this title.

(2) FDA WEBSITE.—The term ''FDA website'' means the internet website of the FDA.

# Chapter 103—Food and Drug Administration

**Subchapter I—Establishment**
Sec.
10301. Food and Drug Administration.
10302. Office of the Chief Scientist.
10303. Office of Women's Health.
10304. FDA Intercenter Institutes.
10305. Scientific review groups.
**Subchapter II—Administrative Provisions**
10321. Exemption of meats and meat food products.
10322. Loan repayment program.
10323. Practice of medicine.
10324. Contracts for expert review.
10325. Notices to States regarding imported food.

10326. Grants to enhance food safety.
10327. Improving the training of State, local, territorial, and tribal food safety officials.
10328. Employee protections.

# Subchapter I—Establishment

## § 10301. Food and Drug Administration

(a) ESTABLISHMENT.—There is established in the Department the Food and Drug Administration.

(b) MISSION.—The FDA shall—

(1) promote the public health by promptly and efficiently reviewing clinical research and taking appropriate action on the marketing of regulated products in a timely manner;

(2) with respect to the products, protect the public health by ensuring that—

(A) foods are safe, wholesome, sanitary, and properly labeled;

(B) human and veterinary drugs are safe and effective;

(C) there is reasonable assurance of the safety and effectiveness of devices intended for human use;

(D) cosmetics are safe and properly labeled; and

(E) public health and safety are protected from electronic product radiation;

(3) participate through appropriate processes with representatives of other countries to reduce the burden of regulation, harmonize regulatory requirements, and achieve appropriate reciprocal arrangements; and

(4) as determined to be appropriate by the Secretary, carry out paragraphs (1) through (3) in consultation with experts in science, medicine, and public health, and in cooperation with consumers, users, manufacturers, importers, packers, distributors, and retailers of regulated products.

(c) INTERAGENCY COLLABORATION.—The Secretary shall implement programs and policies that fosters collaboration between the FDA, the National Institutes of Health, and other science-based Federal agencies, to enhance the scientific and technical expertise available to the Secretary in the conduct of the duties of the Secretary with respect to the development, clinical investigation, evaluation, and postmarket monitoring of emerging medical therapies, including complementary therapies, and advances in nutrition and food science.

(d) COMMISSIONER.—

(1) APPOINTMENT.—There shall be in the FDA a Commissioner of Food and Drugs who shall be ap-

pointed by the President by and with the advice and consent of the Senate.

(2) GENERAL POWERS.—The Secretary, through the Commissioner, shall be responsible for executing this subtitle and for—

(A) providing overall direction to the FDA and establishing and implementing general policies respecting the management and operation of programs and activities of the FDA;

(B) coordinating and overseeing the operation of all administrative entities within the FDA;

(C) research relating to foods, drugs, cosmetics, devices, and tobacco products in carrying out this subtitle;

(D) conducting educational and public information programs relating to the responsibilities of the FDA; and

(E) performing such other functions as the Secretary may prescribe.

(e) TECHNICAL AND SCIENTIFIC REVIEW GROUPS.—The Secretary, through the Commissioner, may, without regard to the provisions of title 5 governing appointments in the competitive service and without regard to the provisions of chapter 51 and subchapter III of chapter 53 of

title 5 relating to classification and General Schedule pay rates, establish such technical and scientific review groups as are needed to carry out the functions of the FDA, including functions under this subtitle, and appoint and pay the members of the groups, except that officers and employees of the Federal Government shall not receive additional compensation for service as members of the groups.

(f) AGENCY PLAN FOR STATUTORY COMPLIANCE.—

(1) IN GENERAL.—The Secretary, after consultation with appropriate scientific and academic experts, health care professionals, representatives of patient and consumer advocacy groups, and the regulated industry, shall develop and publish in the Federal Register a plan bringing the Secretary into compliance with each of the obligations of the Secretary under this subtitle. The Secretary shall review the plan biannually and shall revise the plan as necessary, in consultation with the persons.

(2) OBJECTIVES OF AGENCY PLAN.—The plan required by paragraph (1) shall establish objectives and mechanisms to achieve the objectives, including objectives related to—

(A) maximizing the availability and clarity of information about the process for review of applications and submissions (including peti-

tions, notifications, and any other similar forms of request) made under this subtitle;

(B) maximizing the availability and clarity of information for consumers and patients concerning new products;

(C) implementing inspection and postmarket monitoring provisions of this subtitle;

(D) ensuring access to the scientific and technical expertise needed by the Secretary to meet obligations described in paragraph (1);

(E) establishing mechanisms for meeting the time periods specified in this subtitle for the review of all applications and submissions described in subparagraph (A); and

(F) eliminating backlogs in the review of applications and submissions described in subparagraph (A), by January 1, 2000.

(g) ANNUAL REPORT.—The Secretary shall annually prepare and publish in the Federal Register and solicit public comment on a report that—

(1) provides detailed statistical information on the performance of the Secretary under the plan described in subsection (f);

(2) compares the performance of the Secretary with the objectives of the plan and with the statutory obligations of the Secretary; and

(3) identifies any regulatory policy that has a significant negative impact on compliance with any objective of the plan or any statutory obligation and sets forth any proposed revision to any such regulatory policy.

(h) ANNUAL REPORT REGARDING FOOD.—Not later than February 1 of each year, the Secretary shall submit to Congress a report, including efforts to coordinate and cooperate with other Federal agencies with responsibilities for food inspections, regarding—

(1) information about food facilities including—

(A) the appropriations used to inspect facilities registered pursuant to section 11117 of this title in the previous fiscal year;

(B) the average cost of a non-high-risk food facility inspection and the average cost of a high-risk food facility inspection, if a difference exists between the costs, in the previous fiscal year;

(C) the number of domestic facilities and the number of foreign facilities registered pur-

suant to section 11117 of this title that the Secretary inspected in the previous fiscal year;

(D) the number of domestic facilities and the number of foreign facilities registered pursuant to section 11117 of this title that were scheduled for inspection in the previous fiscal year and that the Secretary did not inspect in that year;

(E) the number of high-risk facilities identified pursuant to section 11123 of this title that the Secretary inspected in the previous fiscal year; and

(F) the number of high-risk facilities identified pursuant to section 11123 of this title that were scheduled for inspection in the previous fiscal year and that the Secretary did not inspect in that year;

(2) information about food imports including—

(A) the number of lines of food imported into the United States that the Secretary physically inspected or sampled in the previous fiscal year;

(B) the number of lines of food imported into the United States that the Secretary did

not physically inspect or sample in the previous fiscal year; and

(C) the average cost of physically inspecting or sampling a line of food subject to this subtitle that is imported or offered for import into the United States; and

(3) information on the foreign offices of the FDA, including—

(A) the number of foreign offices established; and

(B) the number of personnel permanently stationed in each foreign office.

(i) PUBLIC AVAILABILITY OF ANNUAL FOOD REPORTS.—The Secretary shall make the reports required under subsection (h) available to the public on the FDA website.

**§ 10302. Office of the Chief Scientist**

(a) DEFINITION OF OFFICE.—In this section, the term ''Office'' means the Office of the Chief Scientist established under subsection (b).

(b) ESTABLISHMENT.—The Secretary shall establish within the Office of the Commissioner an office to be known as the Office of the Chief Scientist. The Secretary shall appoint a Chief Scientist to lead the Office.

(c) DUTIES OF THE OFFICE.—The Office shall—

(1) oversee, coordinate, and ensure quality and regulatory focus of the intramural research programs of the FDA;

(2) track and, to the extent necessary, coordinate intramural research awards made by each center of the FDA or science-based office within the Office of the Commissioner, and ensure that there is no duplication of research efforts supported by the Reagan-Udall Foundation for the Food and Drug Administration;

(3) develop and advocate for a budget to support intramural research;

(4) develop a peer review process by which intramural research can be evaluated;

(5) identify and solicit intramural research proposals from across the FDA through an advisory board composed of employees of the FDA, which advisory board shall include—

(A) representatives of each of the centers and the science-based offices within the Office of the Commissioner; and

(B) experts on trial design, epidemiology, demographics, pharmacovigilance, basic science, and public health; and

(6) develop postmarket safety performance measures that are as measurable and rigorous as the ones already developed for premarket review.

**§ 10303. Office of Women's Health**

(a) DEFINITION OF OFFICE.—In this section, the term ''Office'' means the Office of Women's Health established under subsection (b).

(b) ESTABLISHMENT.—There is established within the Office of the Commissioner an office to be known as the Office of Women's Health. The Commissioner shall appoint a Director who shall be the head of the Office.

(c) PURPOSE.—The Director of the Office shall—

(1) report to the Commissioner on current FDA levels of activity regarding women's participation in clinical trials and the analysis of data by sex in the testing of drugs, medical devices, and biological products across, where appropriate, age, biological, and sociocultural contexts;

(2) establish short-range and long-range goals and objectives within the FDA for issues of particular concern to women's health within the jurisdiction of the FDA, including, where relevant and appropriate, adequate inclusion of women and analysis of data by sex in FDA protocols and policies;

(3) provide information to women and health care providers on those areas in which differences between men and women exist;

(4) consult, with pharmaceutical, biologics, and device manufacturers, health professionals with expertise in women's issues, consumer organizations, and women's health professionals, on FDA policy with regard to women;

(5) make annual estimates of funds needed to monitor clinical trials and analysis of data by sex in accordance with needs that are identified; and

(6) serve as a member of the Department of Health and Human Services Coordinating Committee on Women's Health (established under section 229(b)(4) of the Public Health Service Act (42 U.S.C. 237a(b)(4))).

**§ 10304. FDA Intercenter Institutes**

(a) DEFINITIONS.—In this section:

(1) CENTERS.—The term ''Centers'' means the Center for Drug Evaluation and Research, the Center for Biologics Evaluation and Research, and the Center for Devices and Radiological Health.

(2) INSTITUTE.—The term ''Institute'' means an Intercenter Institute established under subsection (b).

(b) IN GENERAL.—The Secretary shall establish 1 or more Intercenter Institutes within the FDA for a major disease area or areas. With respect to a major disease area of focus of an Institute, the Institute shall develop and implement processes for coordination of activities, as applicable to the major disease area, among the Centers. The activities may include—

(1) coordination of staff from the Centers with diverse product expertise in the diagnosis, cure, mitigation, treatment, or prevention of the specific diseases relevant to the major disease area of focus of the Institute;

(2) streamlining, where appropriate, the review of medical products to diagnose, cure, mitigate, treat, or prevent the specific diseases relevant to the major disease area of focus of the Institute, applying relevant standards under chapter 135 of this title, sections 13136(k), 13140(h)(2), and 13142 of this title, and section 351 of the Public Health Service Act (42 U.S.C. 262), and other applicable authorities;

(3) promotion of scientific programs within the Centers related to the major disease area of focus of the Institute;

(4) development of programs and enhancement of strategies to recruit, train, and provide continuing education opportunities for the personnel of the Centers with expertise related to the major disease area of focus of the Institute;

(5) enhancement of the interactions of the Centers with patients, sponsors, and the external biomedical community regarding the major disease area of focus of the Institute; and

(6) facilitation of the collaborative relationships of the Centers with other agencies within the Department regarding the major disease area of focus of the Institute.

(c) PUBLIC PROCESS.—The Secretary shall provide a period for public comment during the time that each Institute is being implemented.

(d) TERMINATION OF INSTITUTES.—The Secretary may terminate any Institute established pursuant to this section if the Secretary determines that the Institute is no longer benefitting the public health. Not less than 60 days prior to the termination of the Institute, the Secretary shall provide public notice, including the rationale for the termination.

**§ 10305. Scientific review groups**

(a) IN GENERAL.—Without regard to the provisions of title 5 governing appointments in the competitive service and without regard to the provisions of chapter 51 and subchapter III of chapter 53 of title 5 relating to classification and General Schedule pay rates, the Commissioner may—

(1) establish such technical and scientific review groups as are needed to carry out the functions of the FDA (including functions prescribed under this subtitle); and

(2) appoint and pay the members of the groups, except that officers and employees of the Federal Government shall not receive additional compensation for service as members of the groups.

(b) DELEGATION OF APPOINTMENT AND OVERSIGHT AUTHORITY.—The Secretary may delegate the appointment and oversight authority granted under this section to a director of a center or successor entity within the FDA.

# Subchapter II—Administrative Provisions

**§ 10321. Exemption of meats and meat food products**

(a) LAW DETERMINATIVE OF EXEMPTION.—Meats and meat food products shall be exempt from the provisions of this subtitle to the extent of the application or

the extension to meats and meat food products of chapter 303 of this title.

(b) EFFECT OF SUBTITLE.—Nothing in this subtitle shall be construed as affecting, modifying, repealing, or superseding—

(1) the provisions of section 351 of the Public Health Service Act (42 U.S.C. 262) (relating to viruses, serums, toxins, and analogous products applicable to humans);

(2) the virus, serum, toxin, and analogous products provisions, applicable to domestic animals, of the Act of March 4, 1913 (ch. 145, 37 Stat. 832);

(3) chapter 307 of this title; or

(4) chapter 309 of this title.

**§ 10322. Loan repayment program**

(a) IN GENERAL.—

(1) AUTHORITY FOR PROGRAM.—Subject to paragraph (2), the Secretary shall carry out a program of entering into contracts with appropriately qualified health professionals under which the health professionals agree to conduct research, as employees of the FDA, in consideration of the Federal Government agreeing to repay, for each year of the service, not more than $20,000 of the principal and in-

terest of the educational loans of the health professionals.

(2) LIMITATION.—The Secretary may not enter into an agreement with a health professional pursuant to paragraph (1) unless the professional—

(A) has a substantial amount of educational loans relative to income; and

(B) agrees to serve as an employee of the FDA for purposes of paragraph (1) for a period of not less than 3 years.

(b) APPLICABILITY OF CERTAIN PROVISIONS.—With respect to the National Health Service Corps Loan Repayment Program established in subpart III of part D of title III of the Public Health Service Act (42 U.S.C. 254l et seq.), the provisions of that subpart shall, except as inconsistent with subsection (a), apply to the program established in subsection (a) in the same manner and to the same extent as the provisions apply to the National Health Service Corps Loan Repayment Program.

**§ 10323. Practice of medicine**

(a) IN GENERAL.—Nothing in this subtitle shall be construed to limit or interfere with the authority of a health care practitioner to prescribe or administer any legally marketed device to a patient for any condition or

disease within a legitimate health care practitioner-patient relationship.

(b) EFFECT OF SECTION.—

(1) LIMITATION ON AUTHORITY OF SECRETARY.—This section shall not limit any existing authority of the Secretary to establish and enforce restrictions on the sale or distribution, or in the labeling, of a device that are part of a determination of substantial equivalence, established as a condition of approval, or promulgated through regulations.

(2) PROHIBITION ON PROMOTION OF UNAPPROVED USES.—This section shall not change any existing prohibition on the promotion of unapproved uses of legally marketed devices.

**§ 10324. Contracts for expert review**

(a) IN GENERAL.—

(1) AUTHORITY TO ENTER CONTRACT.—

(A) IN GENERAL.—The Secretary may enter into a contract with any organization or any individual (who is not an employee of the Department) with relevant expertise, to review and evaluate, for the purpose of making recommendations to the Secretary on, part or all of any application or submission (including a

petition, notification, and any other similar form of request)—

(i) made under this subtitle for the approval or classification of an article; or

(ii) made under section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)) with respect to a biological product.

(B) CONFIDENTIALITY OF INFORMATION.—Any contract under subparagraph (A) shall be subject to the requirements of section 17508 of this title relating to the confidentiality of information.

(2) INCREASED EFFICIENCY AND EXPERTISE THROUGH CONTRACTS.—

(A) TIMELINESS.—The Secretary may use the authority granted in paragraph (1) if the Secretary determines that use of a contract described in paragraph (1) will improve the timeliness of the review of an application or submission described in paragraph (1), unless using the authority would reduce the quality, or unduly increase the cost, of the review.

(B) QUALITY.—The Secretary may use the authority granted under paragraph (1) if the

Secretary determines that use of a contract under paragraph (1) will improve the quality of the review of an application or submission described in paragraph (1), unless using the authority would unduly increase the cost of the review.

(C) INCREASED SCIENTIFIC OR TECHNICAL EXPERTISE RELATING TO REVIEW OF NEW TECHNOLOGIES.—Improvement in timeliness or quality under this paragraph may include providing the Secretary increased scientific or technical expertise that is necessary to review or evaluate new therapies and technologies.

(b) REVIEW OF EXPERT REVIEW.—

(1) IN GENERAL.—Subject to paragraph (2), the official of the FDA responsible for any matter for which expert review is used pursuant to subsection (a) shall review the recommendations of the organization or individual who conducted the expert review and shall make a final decision regarding the matter in a timely manner.

(2) LIMITATION.—A final decision by the Secretary on any application or submission reviewed under this section shall be made within the applicable prescribed time period for review of the matter

as set forth in this subtitle or in the Public Health Service Act (42 U.S.C. 201 et seq.).

**§ 10325. Notices to States regarding imported food**

(a) IN GENERAL.—

(1) PROVIDING NOTICE TO STATES.—If the Secretary has credible evidence or information indicating that a shipment of imported food or portion of the food presents a threat of serious adverse health consequences or death to humans or animals, the Secretary shall provide notice regarding the threat to the States in which the food is held or will be held, and to the States in which the manufacturer, packer, or distributor of the food is located, to the extent that the Secretary has knowledge of which States are involved as described in this paragraph.

(2) REQUEST TO TAKE ACTION.—In providing notice to a State, the Secretary shall request the State to take such action as the State considers appropriate, if any, to protect the public health regarding the food involved.

(b) RULE OF CONSTRUCTION.—This section may not be construed as limiting the authority of the Secretary with respect to food under any other provision of this subtitle.

**§ 10326. Grants to enhance food safety**

(a) DEFINITION OF ELIGIBLE ENTITY.—In this section, the term ''eligible entity'' means an entity—

(1) that is—

(A) a State;

(B) a locality;

(C) a territory of the United States;

(D) an Indian tribe (as defined in section 4(e) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5304(e))); or

(E) a nonprofit food safety training entity that collaborates with 1 or more institutions of higher education; and

(2) that submits an application to the Secretary at such time, in such manner, and including such information as the Secretary may reasonably require.

(b) IN GENERAL.—The Secretary may make grants to eligible entities to—

(1) undertake examinations, inspections, and investigations, and related food safety activities under section 17502 of this title;

(2) train, to the standards of the Secretary, for the examination, inspection, and investigation of food manufacturing, processing, packing, holding, distribution, and importation, including as such ex-

amination, inspection, and investigation relate to retail food establishments;

(3) build the food safety capacity of the laboratories of the eligible entity, including the detection of zoonotic diseases;

(4) build the infrastructure and capacity of the food safety programs of the eligible entity to meet the standards as outlined in the grant application; and

(5) take appropriate action to protect the public health in response to—

(A) a notification under section 10325 of this title, including planning and otherwise preparing to take the action; or

(B) a recall of food under this subtitle.

(c) APPLICATION CONTENTS.—Each application submitted under subsection (a) shall include—

(1) an assurance that the eligible entity has developed plans to engage in the types of activities described in subsection (b);

(2) a description of the types of activities to be funded by the grant;

(3) an itemization of how grant funds received under this section will be expended;

(4) a description of how grant activities will be monitored; and

(5) an agreement by the eligible entity to report information required by the Secretary to conduct evaluations under this section.

(d) LIMITATIONS.—The funds provided under subsection (b) shall be available to an eligible entity that receives a grant under this section only to the extent the entity funds the food safety programs of the entity independently of any grant under this section in each year of the grant at a level equal to the level of the funding in the previous year, increased by the Consumer Price Index. The non-Federal matching funds may be provided directly or through donations from public or private entities and may be in cash or in-kind, fairly evaluated, including plant, equipment, or services.

(e) ADDITIONAL AUTHORITY.—The Secretary may—

(1) award a grant under this section in each subsequent fiscal year without reapplication for a period of not more than 3 years, provided the requirements of subsection (d) are met for the previous fiscal year; and

(2) award a grant under this section in a fiscal year for which the requirement of subsection (d) has not been met only if the requirement was not met

because the funding was diverted for response to 1 or more natural disasters or in other extenuating circumstances that the Secretary may determine appropriate.

(f) DURATION OF AWARDS.—The Secretary may award grants to an individual grant recipient under this section for periods of not more than 3 years. In the event the Secretary conducts a program evaluation, funding in the second year or third year of the grant, if applicable, shall be contingent on a successful program evaluation by the Secretary after the first year.

(g) PROGRESS AND EVALUATION.—

(1) IN GENERAL.—

(A) MEASUREMENT.—The Secretary shall measure the status and success of each grant program authorized under chapter 325 of this title and under the FDA Food Safety Modernization Act (Public Law 111–353, 124 Stat. 3885) (and any amendment made by the Act), including the grant program under this section.

(B) INFORMATION REQUIRED FROM RECIPIENT.—A recipient of a grant described in subparagraph (A) shall, at the end of each grant year, provide the Secretary with information on how grant funds were spent and the

status of the efforts by the recipient to enhance food safety.

(C) PERFORMANCE OF RECIPIENT.—To the extent practicable, the Secretary shall take the performance of a grant recipient under subparagraph (B) into account when determining whether to continue funding for the recipient.

(2) NO DUPLICATION.—In carrying out paragraph (1), the Secretary shall not duplicate the efforts of the Secretary under other provisions of this subtitle, chapter 325 of this title, or the FDA Food Safety Modernization Act (Public Law 111–353, 124 Stat. 3885) that require measurement and review of the activities of grant recipients under this subtitle, chapter 325 of this title, or the FDA Food Safety Modernization Act (Public Law 111–353, 124 Stat. 3885).

(h) SUPPLEMENT NOT SUPPLANT.—Grant funds received under this section shall be used to supplement, and not supplant, non-Federal funds and any other Federal funds available to carry out the activities described in this section.

**§ 10327. Improving the training of State, local, territorial, and tribal food safety officials**

(a) TRAINING.—The Secretary shall set standards and administer training and education programs for the employees of State, local, territorial, and tribal food safety officials relating to the regulatory responsibilities and policies established by this subtitle, including programs for—

(1) scientific training;

(2) training to improve the skill of officers and employees authorized to conduct inspections under section 17502 and 17504 of this title;

(3) training to achieve advanced product or process specialization in the inspections;

(4) training that addresses best practices;

(5) training in administrative process and procedure and integrity issues;

(6) training in appropriate sampling and laboratory analysis methodology; and

(7) training in building enforcement actions following inspections, examinations, testing, and investigations.

(b) PARTNERSHIPS WITH STATE AND LOCAL OFFICIALS.—

(1) IN GENERAL.—The Secretary, pursuant to a contract or memorandum of understanding between the Secretary and the head of a State, local,

territorial, or tribal department or agency, is authorized and encouraged to conduct examinations, testing, and investigations for the purposes of determining compliance with the food safety provisions of this subtitle through the officers and employees of the State, local, territorial, or tribal department or agency.

(2) CONTENT.—

(A) ADEQUATE TRAINING.—A contract or memorandum described under paragraph (1) shall include provisions to ensure adequate training of the officers and employees to conduct the examinations, testing, and investigations.

(B) REIMBURSEMENT.—The contract or memorandum shall contain provisions regarding reimbursement. The reimbursement provisions may, at the sole discretion of the head of the other department or agency, require reimbursement, in whole or in part, from the Secretary for the examinations, testing, or investigations performed pursuant to this section by the officers or employees of the State, territorial, or tribal department or agency.

(3) EFFECT.—Nothing in this subsection shall be construed to limit the authority of the Secretary under section 17502 of this title.

(c) EXTENSION SERVICE.—The Secretary shall ensure coordination with the extension activities of the National Institute of Food and Agriculture of the Department of Agriculture in advising producers and small processors transitioning into new practices required as a result of the enactment of the FDA Food Safety Modernization Act (Public Law 111–353, 124 Stat. 3885) and assisting regulated industry with compliance with the Act.

(d) NATIONAL FOOD SAFETY TRAINING, EDUCATION, EXTENSION, OUTREACH, AND TECHNICAL ASSISTANCE PROGRAM.—

(1) IN GENERAL.—In order to improve food safety and reduce the incidence of foodborne illness, the Secretary shall enter into 1 or more memoranda of understanding, or enter into other cooperative agreements, with the Secretary of Agriculture to establish a competitive grant program within the National Institute for Food and Agriculture to provide food safety training, education, extension, outreach, and technical assistance to—

(A) owners and operators of farms;

(B) small food processors; and

(C) small fruit and vegetable merchant wholesalers.

(2) IMPLEMENTATION.—The competitive grant program established under paragraph (1) shall be carried out in accordance with section 405 of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7625).

**§ 10328. Employee protections**

(a) IN GENERAL.—An entity engaged in the manufacture, processing, packing, transporting, distribution, reception, holding, or importation of food shall not discharge an employee or otherwise discriminate against an employee with respect to compensation, terms, conditions, or privileges of employment because the employee, whether at the employee's initiative or in the ordinary course of the employee's duties (or any person acting pursuant to a request of the employee)—

(1) provided, caused to be provided, or is about to provide or cause to be provided to the employer, the Federal Government, or the attorney general of a State information relating to any violation of, or any act or omission the employee reasonably believes to be a violation of, any provision of this subtitle or any order, rule, regulation, standard, or ban under this subtitle;

(2) testified or is about to testify in a proceeding concerning the violation;

(3) assisted or participated or is about to assist or participate in a proceeding concerning the violation; or

(4) objected to, or refused to participate in, any activity, policy, practice, or assigned task that the employee (or the person) reasonably believed to be in violation of any provision of this subtitle, or any order, rule, regulation, standard, or ban under this subtitle.

(b) PROCESS.—

(1) IN GENERAL.—

(A) FILING OF COMPLAINT.—An individual who believes that the individual has been discharged or otherwise discriminated against by any person in violation of subsection (a) may, not later than 180 days after the date on which the violation occurs, file (or have any person file on the individual's behalf) a complaint with the Secretary of Labor alleging the discharge or discrimination and identifying the person responsible for the act.

(B) NOTIFICATION.—On receipt of a complaint under subparagraph (A), the Secretary of

Labor shall notify, in writing, the person named in the complaint of the filing of the complaint, of the allegations contained in the complaint, of the substance of evidence supporting the complaint, and of the opportunities that will be afforded to the person under paragraph (2).

(2) INVESTIGATION.—

(A) IN GENERAL.—Not later than 60 days after the date of receipt of a complaint filed under paragraph (1) and after affording the complainant and the person named in the complaint an opportunity to submit to the Secretary of Labor a written response to the complaint and an opportunity to meet with a representative of the Secretary of Labor to present statements from witnesses, the Secretary of Labor shall initiate an investigation and determine whether there is reasonable cause to believe that the complaint has merit and notify, in writing, the complainant and the person alleged to have committed a violation of subsection (a) of the findings of the Secretary of Labor.

(B) REASONABLE CAUSE FOUND; PRELIMINARY ORDER.—

(i) REASONABLE CAUSE THAT VIOLATION OCCURRED.—If the Secretary of Labor concludes that there is reasonable cause to believe that a violation of subsection (a) has occurred, the Secretary of Labor shall accompany the findings of the Secretary of Labor with a preliminary order providing the relief prescribed by paragraph (3)(B).

(ii) OBJECTIONS; REQUEST FOR HEARING.—Not later than 30 days after the date of notification of findings under this paragraph, the person alleged to have committed the violation or the complainant may file objections to the findings or preliminary order, or both, and request a hearing on the record. A hearing under this clause shall be conducted expeditiously. If a hearing is not requested within the 30-day period, the preliminary order shall be deemed a final order that is not subject to judicial review.

(iii) FILING OF OBJECTIONS NOT TO OPERATE TO STAY REINSTATEMENT REMEDY.—The filing of objections under clause

(ii) shall not operate to stay any reinstatement remedy contained in the preliminary order.

(C) DISMISSAL OF COMPLAINT.—

(i) STANDARD FOR COMPLAINANT.—The Secretary of Labor shall dismiss a complaint filed under this subsection and shall not conduct an investigation otherwise required under subparagraph (A) unless the complainant makes a prima facie showing that any behavior described in paragraphs (1) through (4) of subsection (a) was a contributing factor in the unfavorable personnel action alleged in the complaint.

(ii) STANDARD FOR EMPLOYER.—Notwithstanding a finding by the Secretary of Labor that the complainant has made the showing required under clause (i), no investigation otherwise required under subparagraph (A) shall be conducted if the employer demonstrates, by clear and convincing evidence, that the employer would have taken the same unfavorable personnel action in the absence of that behavior.

(iii) VIOLATION STANDARD.—The Secretary of Labor may determine that a violation of subsection (a) has occurred only if the complainant demonstrates that any behavior described in paragraphs (1) through (4) of subsection (a) was a contributing factor in the unfavorable personnel action alleged in the complaint.

(iv) RELIEF STANDARD.—Relief may not be ordered under subparagraph (A) if the employer demonstrates by clear and convincing evidence that the employer would have taken the same unfavorable personnel action in the absence of that behavior.

(3) FINAL ORDER.—

(A) IN GENERAL.—Not later than 120 days after the date of conclusion of any hearing under paragraph (2), the Secretary of Labor shall issue a final order providing the relief prescribed by this paragraph or denying the complaint. At any time before issuance of a final order, a proceeding under this subsection may be terminated on the basis of a settlement agreement entered into by the Secretary of

Labor, the complainant, and the person alleged to have committed the violation.

(B) CONTENT OF ORDER.—If, in response to a complaint filed under paragraph (1), the Secretary of Labor determines that a violation of subsection (a) has occurred, the Secretary of Labor shall order the person that committed the violation—

(i) to take affirmative action to abate the violation;

(ii) to reinstate the complainant to the complainant's former position together with compensation (including back pay) and restore the terms, conditions, and privileges associated with the complainant's employment; and

(iii) to provide compensatory damages to the complainant.

(C) PENALTY.—If an order described in subparagraph (B) is issued under this paragraph, the Secretary of Labor, at the request of the complainant, shall assess against the person against whom the order is issued a sum equal to the aggregate amount of all costs and expenses (including attorneys' and expert witness

fees) reasonably incurred, as determined by the Secretary of Labor, by the complainant for, or in connection with, the bringing of the complaint on which the order was issued.

(D) BAD FAITH CLAIM.—If the Secretary of Labor finds that a complaint under paragraph (1) is frivolous or has been brought in bad faith, the Secretary may award to the prevailing employer a reasonable attorneys' fee, not exceeding $1,000, to be paid by the complainant.

(4) ACTION IN COURT.—

(A) IN GENERAL.—If the Secretary of Labor has not issued a final decision within 210 days after the filing of the complaint, or within 90 days after receiving a written determination, the complainant may bring an action at law or equity for de novo review in the appropriate district court of the United States with jurisdiction, which shall have jurisdiction over such an action without regard to the amount in controversy, and which action shall, at the request of either party to the action, be tried by the court with a jury. The proceedings

shall be governed by the same legal burdens of proof specified in paragraph (2)(C).

(B) RELIEF.—The court shall have jurisdiction to grant all relief necessary to make the employee whole, including injunctive relief and compensatory damages, including—

(i) reinstatement with the same seniority status that the employee would have had, but for the discharge or discrimination;

(ii) the amount of back pay, with interest; and

(iii) compensation for any special damages sustained as a result of the discharge or discrimination, including litigation costs, expert witness fees, and reasonable attorneys' fees.

(5) APPEALS.—

(A) IN GENERAL.—

(i) COURT.—Unless the complainant brings an action under paragraph (4), any person adversely affected or aggrieved by a final order issued under paragraph (3) may obtain review of the order in the United States Court of Appeals for the cir-

cuit in which the violation, with respect to which the order was issued, allegedly occurred or the circuit in which the complainant resided on the date of the violation.

(ii) FILING DEADLINE.—The petition for review shall be filed not later than 60 days after the date of the issuance of the final order of the Secretary of Labor.

(iii) PROCEDURE.—Review under this paragraph shall conform to chapter 7 of title 5.

(iv) EFFECT OF COMMENCEMENT OF PROCEEDING.—The commencement of proceedings under this subparagraph shall not, unless ordered by the court, operate as a stay of the order.

(B) NO JUDICIAL REVIEW.—An order of the Secretary of Labor with respect to which review could have been obtained under subparagraph (A) shall not be subject to judicial review in any criminal or other civil proceeding.

(6) FAILURE TO COMPLY WITH ORDER.—If any person has failed to comply with an order issued under paragraph (3), the Secretary of Labor may

file a civil action in the United States district court for the district in which the violation was found to occur, or in the United States district court for the District of Columbia, to enforce the order. In actions brought under this paragraph, the district courts shall have jurisdiction to grant all appropriate relief, including injunctive relief and compensatory damages.

(7) CIVIL ACTION TO REQUIRE COMPLIANCE.—

(A) IN GENERAL.—A person on whose behalf an order was issued under paragraph (3) may commence a civil action against the person to whom the order was issued to require compliance with the order. The appropriate United States district court shall have jurisdiction, without regard to the amount in controversy or the citizenship of the parties, to enforce the order.

(B) AWARD.—The court, in issuing any final order under this paragraph, may award costs of litigation (including reasonable attorneys' fees and expert witness fees) to any party whenever the court determines that the award is appropriate.

(c) EFFECT OF SECTION.—

(1) SAFEGUARDS PROVIDED BY OTHER LAWS.—Nothing in this section preempts or diminishes any other safeguards against discrimination, demotion, discharge, suspension, threats, harassment, reprimand, retaliation, or any other manner of discrimination provided by Federal or State law.

(2) RIGHTS OF EMPLOYEES.—Nothing in this section shall be construed to diminish the rights, privileges, or remedies of any employee under any Federal or State law or under any collective bargaining agreement. The rights and remedies in this section may not be waived by any agreement, policy, form, or condition of employment.

(d) ENFORCEMENT.—Any nondiscretionary duty imposed by this section shall be enforceable in a mandamus proceeding brought under section 1361 of title 28.

(e) LIMITATION.—Subsection (a) shall not apply with respect to an employee of an entity engaged in the manufacture, processing, packing, transporting, distribution, reception, holding, or importation of food, which employee, acting without direction from the entity (or the entity's agent), deliberately causes a violation of any requirement relating to any violation or alleged violation of any order, rule, regulation, standard, or ban under this subtitle.

# Division B—Procedure and Prohibited Acts and Penalties

# Chapter 105—Procedure and Prohibited Acts and Penalties

Sec.
10501. Prohibitions.
10502. Injunction proceedings.
10503. Penalties.
10504. Seizure.
10505. Hearing before report of criminal violation.
10506. Debarment, temporary denial of approval, and suspension.
10507. Civil penalties.
10508. Authority to withdraw approval of abbreviated drug applications.
10509. Report of minor violations.
10510. Proceedings in name of United States or a State.
10511. Extraterritorial jurisdiction.

## § 10501. Prohibitions

The following acts and the causing of the acts are prohibited:

(1) The introduction or delivery for introduction into interstate commerce of any food, drug, device, tobacco product, or cosmetic that is adulterated or misbranded.

(2) The adulteration or misbranding of any food, drug, device, tobacco product, or cosmetic in interstate commerce.

(3) The receipt in interstate commerce, and the delivery or proffered delivery for pay or otherwise, of any food, drug, device, tobacco product, or cosmetic that is adulterated or misbranded.

(4) The introduction or delivery for introduction into interstate commerce of any article in violation of section 11106, 11117, 14306, or 17123 of this title or chapter 135 of this title.

(5)(A) The refusal to permit access to or copying of any record as required by section 11114, 11116, 11118, 11119(j), 13110, 14306, 17121, 17503, 17504(a), 18901, or 18902 of this title.

(B)(i) The failure to establish or maintain any record, or make any report, required under section 11114, 11116(b), 11118, 11119, 13110, 13142(f), 13151, 13510, 13512, 13702(d)(3), 13711, 13713, 13714, 14306, 14503(i), 17121, 17127, 18901, 18902, 21110, or 21121 of this title; or

(ii) the refusal to permit access to or verification or copying of any required record described in clause (i).

(C) The violation of any recordkeeping requirement under section 32533 of this title (except when the violation is committed by a farm).

(6) The refusal to permit entry or inspection as authorized by section 17504 of this title.

(7) The manufacture within any territory of the United States of any food, drug, device, tobacco

product, or cosmetic that is adulterated or misbranded.

(8) The giving of—

(A) a guaranty or undertaking referred to in section 10503(c)(2) of this title, which guaranty or undertaking is false, except by a person that relied on a guaranty or undertaking to the same effect signed by, and containing the name and address of, another person residing in the United States from whom the former received in good faith the food, drug, device, tobacco product, or cosmetic; or

(B) a guaranty or undertaking referred to in section 10503(c)(3) of this title, which guaranty or undertaking is false.

(9)(A) Forging, counterfeiting, simulating, or falsely representing, or without proper authority using any mark, stamp, tag, label, or other identification device authorized or required by regulations promulgated under section 11106 or 17701 of this title.

(B) Making, selling, disposing of, or keeping in possession, control, or custody, or concealing any punch, die, plate, stone, or other thing designed to print, imprint, or reproduce the trademark, trade

name, or other identifying mark, imprint, or device of another or any likeness of any of the foregoing on any drug or container or labeling of the drug or container so as to render the drug a counterfeit drug.

(C) The doing of any act that causes a drug to be a counterfeit drug, or the sale or dispensing, or the holding for sale or dispensing, of a counterfeit drug.

(10)(A) The using by any person to the person's own advantage, or revealing (other than to the Secretary or officers or employees of the Department, or to the courts when relevant in any judicial proceeding under this subtitle) any information—

(i) acquired under section 11106, 11111, 11114, 11116, 13136, 13140, 13141, 13142, 13146, 13149, 13151, 13152, 17504, 17508, 17701, 21105, 21106, 21107, 21108, 21109, 21110, or 21121(b) of this title or chapter 135, 137, or 145 of this title; and

(ii) concerns any method or process which, as a trade secret, is entitled to protection.

(B) The violating of section 11110(j)(2) of this title or any regulation issued under that section.

(C) This paragraph does not authorize the withholding of information from—

(i) the Senate or House of Representatives; or

(ii) to the extent of matter within its jurisdiction—

(I) any committee of Congress or any subcommittee of the committee; or

(II) any joint committee of Congress or any subcommittee of the joint committee.

(11) The alteration, mutilation, destruction, obliteration, or removal of the whole or any part of the labeling of, or the doing of any other act with respect to, a food, drug, device, tobacco product, or cosmetic, if the act—

(A) is done while the article is held for sale (whether or not the first sale) after shipment in interstate commerce; and

(B) results in the article being adulterated or misbranded.

(12) The sale or offering for sale of colored oleomargarine or colored margarine, or the possession or serving of colored oleomargarine or colored margarine in violation of subsection (d) or (e) of section 11109 of this title.

(13) The using, in labeling, advertising or other sales promotion, of any reference to any report or

analysis furnished in compliance with section 17504 of this title.

(14)(A) In the case of a prescription drug distributed or offered for sale in interstate commerce, the failure of the manufacturer, packer, or distributor of the prescription drug to maintain for transmittal, or to transmit, to any practitioner (licensed by applicable State law to administer the prescription drug) who makes a written request for information as to the prescription drug, true and correct copies of—

(i) all printed matter that is required to be included in any package in which that prescription drug is distributed or sold; or

(ii) such other printed matter as is approved by the Secretary.

(B) Nothing in this paragraph shall be construed to exempt any person from any labeling requirement imposed by or under other provisions of this subtitle.

(15) The failure—

(A) to register in accordance with section 13136 or 21106 of this title;

(B) to provide any information required by section 13136(j), 13136(k), 21106(i), or 21106(j) of this title; or

(C) to provide a notice required by section 13136(j)(2) or 21106(i)(3) of this title.

(16)(A) The failure or refusal—

(i) to comply with any requirement prescribed under section 13149, 13152(g), 21104(b), 21108, 21109, or 21116 of this title;

(ii) to furnish any notification or other material or information required by or under section 13151, 13152(g), 21105, 21110, or 21121 of this title; or

(iii) to comply with a requirement under section 13154 or 21114 of this title.

(B) With respect to any device or tobacco product, the submission of any report that is required by or under this subtitle that is false or misleading in any material respect.

(C)(i) The failure to comply with any requirement under section 13158(c)(2) of this title (relating to ensuring device cybersecurity).

(ii) Nothing in clause (i) shall be construed to affect the Secretary's authority related to ensuring that there is a reasonable assurance of the safety

and effectiveness of devices, which may include ensuring that there is a reasonable assurance of the cybersecurity of certain cyber devices, including for devices approved or cleared prior to December 29, 2022.

(17)(A) The movement of a device, drug, or tobacco product in violation of an order under section 10504(g) of this title.

(B) The removal or alteration of any mark or label required by the order described in subparagraph (A) to identify the device, drug, or tobacco product as detained.

(18) The failure—

(A) to provide the notice required by subsection (c) or (e) of section 11114 of this title;

(B) to make the reports required by section 11114(f)(1)(B) of this title;

(C) to retain the records required by section 11114(b)(4) of this title; or

(D) to meet the requirements prescribed under section 11114(f)(3) of this title.

(19)(A) The importation of a drug in violation of section 20101(d)(1) of this title.

(B) The sale, purchase, or trade of a drug or drug sample or the offer to sell, purchase, or trade

a drug or drug sample in violation of section 13103(b) of this title.

(C) The sale, purchase, or trade of a coupon, the offer to sell, purchase, or trade a coupon, or the counterfeiting of a coupon in violation of section 13103(b)(2) of this title.

(D) The distribution of a drug sample in violation of section 13103(c) of this title or the failure to otherwise comply with the requirements of section 13103(c) of this title.

(E) The distribution of drugs in violation of section 13103(d) of this title or the failure to otherwise comply with the requirements of section 13103(d) of this title.

(F) The failure to comply with the requirements under section 14902 of this title or the failure to comply with the requirements under section 14904 of this title, as applicable.

(20) The failure to comply with any requirements of the provisions of, or any regulations or orders of the Secretary under, section 13702(d)(1), 13702(d)(4), or 13702(e) of this title.

(21) The introduction or delivery for introduction into interstate commerce of a dietary supple-

ment that is unsafe under section 11115 of this title.

(22)(A) The making of a knowingly false statement in any statement, certificate of analysis, record, or report required or requested under section 20101(d)(3) of this title.

(B) The failure to submit a certificate of analysis as required under section 20101(d)(3) of this title.

(C) The failure to maintain records or to submit records or reports as required by section 20101(d)(3) of this title.

(D) The release into interstate commerce of any article or portion of the article imported into the United States under section 20101(d)(3) of this title or any finished product made from the article or portion, except for export in accordance with section 20101(e) or 20102 of this title, or with section 351(h) of the Public Health Service Act (42 U.S.C. 262(h)).

(E) The failure to export as described in subparagraph (D) or to destroy an article, portion, or finished product described in subparagraph (D).

(23)(A) The falsification of a declaration of conformity submitted under section 13141(c) of this title.

(B) The failure or refusal to provide data or information requested by the Secretary under section 13141(c)(3) of this title.

(24) In the case of a drug, device, or food—

(A) the submission of a report or recommendation by a person accredited under section 13155 of this title that is false or misleading in any material respect;

(B) the disclosure by a person accredited under section 13155 of this title of confidential commercial information or any trade secret without the express written consent of the person that submitted the information or secret to the accredited person; or

(C) the receipt by a person accredited under section 13155 of this title of a bribe in any form or the doing of any corrupt act by the person associated with a responsibility delegated to the person under this subtitle.

(25)(A) The importation of a prescription drug in violation of section 20104 of this title.

(B) The falsification of any record required to be maintained or provided to the Secretary under section 20104 of this title.

(C) Any other violation of regulations under section 20104 of this title.

(26)(A) The transfer of an article of food in violation of an order under section 10504(h) of this title.

(B) The removal or alteration of any mark or label required by the order under subparagraph (A) to identify the article as detained.

(27) The importing or offering for import into the United States of an article of food or a drug by, with the assistance of, or at the direction of, a person debarred from the activity under section 10506(b)(3) of this title.

(28) The failure to register in accordance with section 11117 of this title.

(29) The importing or offering for import into the United States of an article of food in violation of the requirements under section 20101(m) of this title.

(30) The importing or offering for import into the United States of a drug or device with respect to which there is a failure to comply with a request

of the Secretary to submit to the Secretary a statement under section 20101(o) of this title.

(31)(A) The knowing failure to comply with paragraph (7)(E) of section 17504(g) of this title.

(B) The knowing inclusion by a person accredited under paragraph (2) of section 17504(g) of this title of false information in an inspection report under paragraph (7)(A) of section 17504(g) of this title.

(C) The knowing failure of a person described in subparagraph (B) to include material facts in an inspection report described in subparagraph (B).

(32) The failure by a shipper, carrier by motor vehicle or rail vehicle, receiver, or any other person engaged in the transportation of food to comply with the sanitary transportation practices prescribed by the Secretary under section 11118 of this title.

(33)(A) The falsification of a report of a serious adverse event submitted to a responsible person (as defined under section 17101, 18901, or 18902 of this title).

(B) The falsification of a serious adverse event report (as defined under section 18901 or 18902 of this title or required under section 17121(a) of this title) submitted to the Secretary.

(34)(A) The failure to submit the certification required by section 402(j)(5)(B) of the Public Health Service Act (42 U.S.C. 282(j)(5)(B)), or knowingly submitting a false certification under that section.

(B) The failure to submit clinical trial information required under section 402(j) of the Public Health Service Act (42 U.S.C. 282(j)).

(C) The submission of clinical trial information under subsection (j) of section 402 of the Public Health Service Act (42 U.S.C. 282(j)) that is false or misleading in any particular under paragraph (5)(D) of that subsection.

(35) The dissemination of a television advertisement without complying with section 13108 of this title.

(36) The introduction or delivery for introduction into interstate commerce of any food to which has been added a drug approved under chapter 135 of this title, a biological product licensed under section 351 of the Public Health Service Act (42 U.S.C. 262), or a drug or a biological product for which substantial clinical investigations have been instituted and for which the existence of the investigations has been made public, unless—

(A) the drug or the biological product was marketed in food before any approval of the drug under chapter 135 of this title, before licensure of the biological product under section 351 of the Public Health Service Act (42 U.S.C. 262), and before any substantial clinical investigations involving the drug or the biological product have been instituted;

(B) the Secretary, in the Secretary's discretion, has issued a regulation, after notice and comment, approving the use of the drug or the biological product in the food;

(C)(i) the use of the drug or the biological product in the food—

(I) is to enhance the safety of the food to which the drug or the biological product is added or applied and not to have independent biological or therapeutic effects on humans; and

(II) is in conformity with—

(aa) a regulation issued under section 11111 of this title prescribing conditions of safe use in food;

(bb) a regulation listing or affirming conditions under which the use of the drug

or the biological product in food is generally recognized as safe;

(cc) the conditions of use identified in a notification to the Secretary of a claim of exemption from the premarket approval requirements for food additives based on the notifier's determination that the use of the drug or the biological product in food is generally recognized as safe, provided that the Secretary has not questioned the general recognition of safety determination in a letter to the notifier; or

(dd) a food contact substance notification that is effective under section 11111(i) of this title; or

(ii) the drug or biological product had been marketed for smoking cessation prior to September 27, 2007; or

(D) the drug is a new animal drug whose use is not unsafe under chapter 137 of this title.

(37) The failure to submit a report or provide a notification required under section 11119(d) of this title.

(38) The falsification of a report or notification required under section 11119(d) of this title.

(39) The sale of tobacco products in violation of a no-tobacco-sale order issued under section 10503(f) of this title.

(40) The introduction or delivery for introduction into interstate commerce of a tobacco product in violation of section 21112 of this title.

(41)(A) Forging, counterfeiting, simulating, or falsely representing, or without proper authority using any mark, stamp (including tax stamp), tag, label, or other identification device on any tobacco product or container or labeling of the tobacco product or container so as to render the tobacco product a counterfeit tobacco product.

(B) Making, selling, disposing of, or keeping in possession, control, or custody, or concealing any punch, die, plate, stone, or other item that is designed to print, imprint, or reproduce the trademark, trade name, or other identifying mark, imprint, or device of another or any likeness of any of the foregoing on any tobacco product or container or labeling of the tobacco product or container so as to render the tobacco product a counterfeit tobacco product.

(C) The doing of any act that causes a tobacco product to be a counterfeit tobacco product, or the sale or dispensing, or the holding for sale or dispensing, of a counterfeit tobacco product.

(42) The charitable distribution of tobacco products.

(43) The failure of a manufacturer or distributor to notify the Attorney General and the Secretary of the Treasury of its knowledge of tobacco products used in illicit trade.

(44) Making—

(A) any express or implied statement or representation directed to consumers with respect to a tobacco product, in a label or labeling or through the media or advertising, that conveys, or misleads or would mislead consumers into believing, that—

(i) the product is approved by the FDA;

(ii) the FDA considers the product to be safe for use by consumers;

(iii) the product is endorsed by the FDA for use by consumers; or

(iv) the product is safe or less harmful by virtue of—

(I) its regulation or inspection by the FDA; or

(II) its compliance with regulatory requirements set by the FDA; or

(B) any statement or representation described in subparagraph (A) rendering the product misbranded under section 21104 of this title.

(45) The operation of a facility that manufactures, processes, packs, or holds food for sale in the United States if the owner, operator, or agent in charge of the facility is not in compliance with section 11120 of this title.

(46) The failure to comply with the requirements under section 11121 of this title.

(47) The failure to comply with section 11122 of this title.

(48) The refusal or failure to follow an order under section 11125 of this title.

(49) The knowing and willful failure to comply with the notification requirement under section 11119(h) of this title.

(50) The importation or offering for importation of a food if the importer (as defined in section

20105 of this title) does not have in place a foreign supplier verification program in compliance with section 20105 of this title.

(51) The failure to register in accordance with section 20101(s) of this title.

(52) The failure to notify the Secretary in violation of section 14315 of this title.

(53)(A) The resale of a compounded drug that is labeled ''not for resale'' in accordance with section 13107 of this title.

(B) With respect to a drug to be compounded pursuant to section 13106 or 13107 of this title, the intentional falsification of a prescription, as applicable.

(C) The failure to report drugs or adverse events by an entity that is registered in accordance with subsection (c) of section 13107 of this title.

(54)(A) The manufacture or the introduction or delivery for introduction into interstate commerce of a rinse-off cosmetic that contains intentionally added plastic microbeads.

(B) In this paragraph:

(i) PLASTIC MICROBEAD.—The term ''plastic microbead'' means any solid plastic particle that is less than 5 millimeters in size and is intended to be

used to exfoliate or cleanse the human body or any part of the human body.

(ii) RINSE-OFF COSMETIC.—The term ''rinse-off cosmetic'' includes toothpaste.

(55) The failure to comply with any order issued under section 14320 of this title.

(56)(A) The forging, counterfeiting, or simulating of, or the false represention of, or the using without proper authority of, any mark, stamp, tag, label, or other identification on any device or container, packaging, or labeling of the device so as to render the device a counterfeit device.

(B) The making, selling, or disposing of, or the keeping in possession, control, or custody of, or the concealing of, any punch, die, plate, stone, or other thing designed to print, imprint, or reproduce the trademark, trade name, or other identifying mark or imprint of another or any likeness of any of the foregoing on any device or container, packaging, or labeling of the device so as to render the device a counterfeit device.

(C) The doing of any act that causes a device to be a counterfeit device, or the sale or dispensing, or the holding for sale or dispensing, of a counterfeit device.

(57) The failure of a sponsor of a product approved under accelerated approval pursuant to section 13119(d) of this title—

(A) to conduct with due diligence any post-approval study required under section 13119(d) of this title with respect to the product; or

(B) to submit timely reports with respect to the product in accordance with section 13121(a)(2) of this title.

(58) The failure to register or submit listing information in accordance with section 17123 of this title.

(59) The refusal or failure to follow an order under section 17127 of this title.

**§ 10502. Injunction proceedings**

(a) JURISDICTION OF COURTS.—The district courts of the United States and the United States courts of the territories of the United States shall have jurisdiction, for cause shown, to issue an injunction or restraining order for a violation of section 10501 of this title, except paragraphs (8), (9), and (10) of that section.

(b) VIOLATION OF INJUNCTION.—In case of violation of an injunction or restraining order issued under this section, which also constitutes a violation of this subtitle, trial

shall be by the court, or, on demand of the accused, by a jury.

**§ 10503. Penalties**

(a) VIOLATION OF SECTION 10501 OF THIS TITLE.—

(1) IN GENERAL.—Any person that violates a provision of section 10501 of this title shall be imprisoned for not more than 1 year, fined under title 18, or both.

(2) SUBSEQUENT VIOLATION; INTENT TO DEFRAUD OR MISLEAD.—Notwithstanding paragraph (1), a person shall be imprisoned for not more than 3 years, fined under title 18, or both, if the person—

(A) commits a violation under paragraph (1) after a conviction of the person under this section has become final; or

(B) commits a violation under paragraph (1) with the intent to defraud or mislead.

(b) PRESCRIPTION DRUG MARKETING VIOLATIONS.—

(1) VIOLATIONS OF SECTION 10501(19) OF THIS TITLE.—Notwithstanding subsection (a), any person shall be imprisoned for not more than 10 years,

fined not more than $250,000, or both, if the person violates section 10501(19) of this title by—

(A) knowingly importing a drug in violation of section 20101(d)(1) of this title;

(B) knowingly selling, purchasing, or trading a drug or drug sample or knowingly offering to sell, purchase, or trade a drug or drug sample, in violation of section 13103(b)(1) of this title;

(C) knowingly selling, purchasing, or trading a coupon, knowingly offering to sell, purchase, or trade such a coupon, or knowingly counterfeiting such a coupon, in violation of section 13103(b)(2) of this title; or

(D) knowingly distributing drugs in violation of section 13103(d)(2) of this title.

(2) CIVIL PENALTIES FOR VIOLATIONS RELATING TO A CONVICTION OF A REPRESENTATIVE.—

(A) IN GENERAL.—Any manufacturer or distributor that distributes drug samples by means other than the mail or common carrier whose representative, during the course of the representative's employment or association with that manufacturer or distributor, violated section 10501(19) of this title because of a viola-

tion of section 13103(b)(1) of this title or violated any State law prohibiting the sale, purchase, or trade of a drug sample subject to section 13103(a) of this title or the offer to sell, purchase, or trade a drug sample subject to section 13103(a) of this title shall, on conviction of the representative for the violation, be subject to a civil penalty of—

(i) not more than $50,000 for each of the first 2 such violations resulting in a conviction of any representative of the manufacturer or distributor in any 10-year period; and

(ii) not more than $1,000,000 for each violation resulting in a conviction of any representative after the second conviction in any 10-year period.

(B) MULTIPLE CONVICTIONS OUT OF SAME OR RELATED EVENTS OR TRANSACTIONS.—For the purposes of this paragraph, multiple convictions of 1 or more persons arising out of the same event or transaction, or a related series of events or transactions, shall be considered as 1 violation.

(3) CIVIL PENALTY FOR FAILURE TO MAKE A REPORT.—Any manufacturer or distributor that violates section 10501(19) of this title because of a failure to make a report required by section 13103(c)(4)(E) of this title shall be subject to a civil penalty of not more than $100,000.

(4) DEFENSES RELATING TO PARAGRAPH (2).—

(A) PROVIDING INFORMATION AS DEFENSE.—If a manufacturer or distributor or any representative of the manufacturer or distributor provides information leading to the institution of a criminal proceeding against, and conviction of, any representative of that manufacturer or distributor for a violation of section 10501(19) of this title because of a sale, purchase, or trade or offer to sell, purchase, or trade a drug sample in violation of section 13103(b)(1) of this title or for a violation of State law prohibiting the sale, purchase, or trade or offer to sell, purchase, or trade a drug sample, the conviction of the representative shall not be considered as a violation for purposes of paragraph (2).

(B) INVESTIGATION AS DEFENSE.—For purposes of paragraph (2), the conviction of a

representative of a manufacturer or distributor for the sale, purchase, or trade of a drug or the offer to sell, purchase, or trade a drug as described in paragraph (2) shall not be considered as a conviction in an action brought under paragraph (2) against the manufacturer or distributor relating to the conviction of the representative, if it is shown, by clear and convincing evidence—

(i) that the manufacturer or distributor conducted, before the institution of a criminal proceeding against the representative for the violation that resulted in the conviction, an investigation of events or transactions that would have led to the reporting of information leading to the institution of a criminal proceeding against, and conviction of, the representative for the purchase, sale, or trade or offer to purchase, sell, or trade; or

(ii) that, except in the case of the conviction of a representative employed in a supervisory function, despite diligent implementation by the manufacturer or distributor of an independent audit and secu-

rity system designed to detect such a violation, the manufacturer or distributor could not reasonably have been expected to have detected the violation.

(5) REWARD FOR PROVIDING INFORMATION LEADING TO CONVICTION.—If a person provides information leading to the institution of a criminal proceeding against, and conviction of, a person for a violation of section 10501(19) of this title because of the sale, purchase, or trade of a drug sample or the offer to sell, purchase, or trade a drug sample in violation of section 13103(b)(1) of this title, the person shall be entitled to ½ of the criminal fine imposed and collected for the violation but not more than $125,000.

(6) VIOLATIONS OF SECTION 20104(e) OF THIS TITLE.—Notwithstanding subsection (a), any person that is a manufacturer or importer of a prescription drug under section 20104(b) of this title and knowingly fails to comply with a requirement of section 20104(e) of this title that is applicable to the manufacturer or importer, respectively, shall be imprisoned for not more than 10 years, fined not more than $250,000, or both.

(7) ADULTERATION OF A DRUG.—Notwithstanding subsection (a)(2), any person that knowingly and intentionally adulterates a drug such that the drug is adulterated under subsection (a)(2)(A), (b), (c), or (d) of section 13101 of this title and has a reasonable probability of causing serious adverse health consequences or death to humans or animals shall be imprisoned for not more than 20 years, fined not more than $1,000,000, or both.

(8) COUNTERFEITING.—Notwithstanding subsection (a), any person that violates section 10501(9)(C) of this title by knowingly making, selling or dispensing, or holding for sale or dispensing, a counterfeit drug, or that violates section 10501(56)(C) of this title by knowingly making, selling or dispensing, or holding for sale or dispensing, a counterfeit device, shall be imprisoned for not more than 10 years or fined under title 18, or both.

(c) EXCEPTIONS IN CERTAIN CASES OF GOOD FAITH.—A person shall not be subject to the penalties of subsection (a)(1)—

(1) for having received in interstate commerce any article and delivered the article or proffered delivery of the article, if the delivery or proffer was made in good faith, unless the person refuses to fur-

nish on request of an officer or employee designated by the Secretary—

(A) the name and address of the source from whom the person purchased or received the article; and

(B) copies of all documents, if any, pertaining to the delivery of the article to the person;

(2) for having violated paragraph (1) or (4) of section 10501 of this title, if the person establishes a guaranty or undertaking—

(A) signed by, and containing the name and address of, the source residing in the United States from whom the person received in good faith the article; and

(B) to the effect—

(i) in case of an alleged violation of section 10501(1) of this title, that the article is not adulterated or misbranded, within the meaning of this subtitle designating this subtitle; or

(ii) in case of an alleged violation of section 10501(4) of this title, that the article is not an article that may not, under the provisions of section 11106 of this title

or chapter 135 of this title, be introduced into interstate commerce;

(3) for having violated section 10501(1) of this title, where the violation exists because the article is adulterated by reason of containing a color additive not from a batch certified in accordance with regulations promulgated by the Secretary under this subtitle, if the person establishes a guaranty or undertaking signed by, and containing the name and address of, the manufacturer of the color additive, to the effect that the color additive was from a batch certified in accordance with the applicable regulations promulgated by the Secretary under this subtitle;

(4) for having violated paragraph (2), (3) or (11) of section 10501 of this title by failure to comply with section 13305 of this title with respect to an article received in interstate commerce to which neither section 13102 nor 13103(a)(1) of this title is applicable, if—

(A) the delivery or proffered delivery was made in good faith; and

(B) the labeling at the time of delivery or proffered delivery contained the same directions for use and warning statements as were con-

tained in the labeling at the time of the receipt of the article;

(5)(A) for having violated section 10501(9)(B) of this title, if the person—

(i) acted in good faith; and

(ii) had no reason to believe that use of the punch, die, plate, stone, or other thing involved would result in a drug being a counterfeit drug; or

(B) for having violated section 10501(9)(C) of this title, if the person doing the act or causing it to be done—

(i) acted in good faith; and

(ii) had no reason to believe that the drug was a counterfeit drug; or

(6) for having violated—

(A) section 10501(56)(B) of this title if the person acted in good faith and had no reason to believe that use of the punch, die, plate, stone, or other thing involved would result in a device being a counterfeit device; or

(B) section 10501(56)(C) of this title if the person doing the act or causing it to be done acted in good faith and had no reason to believe that the device was a counterfeit device.

(d) EXCEPTIONS INVOLVING MISBRANDED FOOD.—A person shall not be subject to the penalties of subsection (a)(1) for a violation of section 10501 of this title involving misbranded food if the violation exists solely because the food is misbranded under section 11301(2) of this title because of its advertising.

(e) PROHIBITED DISTRIBUTION OF HUMAN GROWTH HORMONE.—

(1) DEFINITION OF HUMAN GROWTH HORMONE.—In this subsection, the term ''human growth hormone'' means somatrem, somatropin, or an analogue of somatrem or somatropin.

(2) DISTRIBUTION OR POSSESSION.—Except as provided in paragraph (3), a person that knowingly distributes, or possesses with intent to distribute, human growth hormone for any use in humans other than the treatment of a disease or other recognized medical condition, where the use has been authorized by the Secretary under chapter 135 of this title and pursuant to the order of a physician, shall be imprisoned for not more than 5 years, fined under title 18, or both.

(3) OFFENSES INVOLVING MINORS.—A person that commits any offense set forth in paragraph (2) shall be imprisoned not more than 10 years, fined

under title 18, or both if the offense involves an individual under 18 years of age.

(4) EFFECT OF DIVISION A OF SUBTITLE V; FORFEITURES.—Any conviction for a violation of paragraphs (2) and (3) shall be considered a felony violation of division A of subtitle V of this title for the purposes of forfeiture under section 50713 of this title.

(5) INVESTIGATION AUTHORITY OF THE DEA.—The Drug Enforcement Administration may investigate offenses punishable by this subsection.

(f) CIVIL PENALTIES.—

(1) DEVICES.—

(A) IN GENERAL.—

(i) AMOUNT.—Except as provided in subparagraph (B), any person that violates a requirement of this subtitle that relates to devices shall be liable to the United States for a civil penalty in an amount not to exceed $15,000 for each such violation, and not to exceed $1,000,000 for all such violations adjudicated in a single proceeding.

(ii) PERSONS ACCREDITED TO CONDUCT INSPECTIONS.—For purposes of

clause (i), a person accredited under paragraph (2) of section 17504(g) of this title shall be considered to have violated a requirement of this subtitle that relates to devices if the person—

(I) is substantially not in compliance with the standards of accreditation under that section; or

(II) poses a threat to public health or fails to act in a manner that is consistent with the purposes of that section.

(B) INAPPLICABILITY.—Subparagraph (A) shall not apply—

(i) to any person that violates the requirements of section 13151(a) or 13152(f) of this title unless the violation constitutes—

(I) a significant or knowing departure from the requirements; or

(II) a risk to public health;

(ii) to any person that commits a minor violation of section 13151(d) or 13151(f) of this title (only with respect to correction reports) if the person dem-

onstrates substantial compliance with the section; or

(iii) to violations of section 13101(a)(2)(B)(i) of this title that involve 1 or more devices that are not defective.

(2) ADULTERATED OR MISBRANDED FOOD.—

(A) IN GENERAL.—Any person that introduces into interstate commerce or delivers for introduction into interstate commerce an article of food that is adulterated within the meaning of section 11102(a)(2)(B) of this title or any person that does not comply with a recall order under section 11125 of this title shall be subject to a civil penalty of not more than $50,000 in the case of an individual and $250,000 in the case of any other person for the introduction or delivery, not to exceed $500,000 for all such violations adjudicated in a single proceeding.

(B) EFFECT OF PARAGRAPH.—

(i) INAPPLICABILITY.—This paragraph shall not apply to any person that grew the article of food that is adulterated.

(ii) USE OF OTHER AUTHORITIES PRECLUDED.—

(I) CRIMINAL AUHTORITIES.—If the Secretary assesses a civil penalty against any person under this paragraph, the Secretary may not use the criminal authorities under this section to sanction the person for the introduction or delivery for introduction into interstate commerce of the article of food that is adulterated.

(II) SEIZURE OR INJUNCTION AUTHORITIES.—If the Secretary assesses a civil penalty against any person under this paragraph, the Secretary may not use the seizure authorities of section 10504 of this title or the injunction authorities of section 10502 of this title with respect to the article of food that is adulterated.

(C) HEARING PROCEDURES.—

(i) IN GENERAL.—In a hearing to assess a civil penalty under this paragraph, the presiding officer shall have the same authority with regard to compelling testimony or production of documents as a pre-

siding officer has under section 11110(h)(2)(B) of this title.

(ii) INAPPLICABILITY OF PARAGRAPH (5)(A)(iii).—Paragraph (5)(A)(iii) shall not apply to any investigation under this paragraph.

(3) CLINICAL TRIAL CERTIFICATION OR INFORMATION SUBMISSIONS.—

(A) IN GENERAL.—Any person that violates section 10501(34) of this title shall be subject to a civil penalty of not more than $10,000 for all violations adjudicated in a single proceeding.

(B) ADDITIONAL PENALTY FOR VIOLATION NOT CORRECTED.—If a violation of section 10501(34) of this title is not corrected within the 30-day period following notification under section 402(j)(5)(C)(ii) of the Public Health Service Act (42 U.S.C. 282(j)(5)(C)(ii)), the person shall, in addition to any civil penalty under subparagraph (A), be subject to a civil penalty of not more than $10,000 for each day of the violation after the period until the violation is corrected.

(4) DRUGS.—

(A) IN GENERAL.—

(i) DEFINITION OF RESPONSIBLE PERSON.—In this subparagraph, the term ''responsible person'' has the meaning given the term in section 13111 of this title.

(ii) PENALTY.—Any responsible person that violates a requirement of section 13111, 13515, or 13516 of this title shall be subject to a civil penalty of—

(I) not more than $250,000 per violation, and not to exceed $1,000,000 for all such violations adjudicated in a single proceeding; or

(II) in the case of a violation that continues after the Secretary provides written notice to the responsible person, the responsible person shall be subject to a civil penalty of $250,000 for the first 30-day period (or any portion of that 30-day period) that the responsible person continues to be in violation, and the amount shall double for every 30-day period after the first 30-day period that the viola-

tion continues, not to exceed $1,000,000 for any 30-day period, and not to exceed $10,000,000 for all such violations adjudicated in a single proceeding.

(B) EFFORTS TOWARD CORRECTION TO BE CONSIDERED.—In determining the amount of a civil penalty under subparagraph (A)(ii)(II), the Secretary shall take into consideration whether the responsible person is making efforts toward correcting the violation of the requirement of section 13111, 13515, or 13516 of this title for which the responsible person is subject to the civil penalty.

(5) PROCEDURE FOR ASSESSMENT OF CIVIL PENALTY OR IMPOSITION OF NO-TOBACCO-SALE ORDER.—

(A) IN GENERAL.—

(i) ORDER BY SECRETARY; HEARING.—A civil penalty under paragraph (1), (2), (3), (4), or (9) shall be assessed, or a no-tobacco-sale order may be imposed, by the Secretary by an order made on the record after opportunity for a hearing pro-

vided in accordance with this subparagraph and section 554 of title 5.

(ii) NOTICE.—Before issuing an order under clause (i), the Secretary shall—

(I) give written notice to the person to be assessed a civil penalty under the order, or on whom a no-tobacco-sale order is to be imposed, of the Secretary's proposal to issue the order; and

(II) provide the person an opportunity for a hearing on the order.

(iii) SUBPOENAS.—In the course of any investigation, the Secretary may issue subpoenas requiring the attendance and testimony of witnesses and the production of evidence that relates to the matter under investigation.

(B) FACTORS TO CONSIDER.—

(i) IN GENERAL.—In determining the amount of a civil penalty, or the period to be covered by a no-tobacco-sale order, the Secretary shall take into account—

(I) with respect to the violation, the nature, circumstances, extent, and gravity; and

(II) with respect to the violator—

(aa) the ability to pay;

(bb) the effect on ability to continue to do business;

(cc) any history of prior such violations;

(dd) the degree of culpability; and

(ee) such other matters as justice may require.

(ii) REQUIRED PROVISIONS FOR PERMANENT NO-TOBACCO-SALE ORDERS.—A no-tobacco-sale order permanently prohibiting an individual retail outlet from selling tobacco products shall include provisions that allow the outlet, after a specified period of time, to request that the Secretary compromise, modify, or terminate the order.

(C) COMPROMISE, MODIFICATION, AND REMISSION OF CIVIL PENALTY.—

(i) IN GENERAL.—The Secretary may compromise, modify, or remit, with or without conditions, any civil penalty which may be assessed under paragraph (1), (2), (3), (4), or (9).

(ii) DEDUCTION FROM AMOUNTS OWED.—The amount of the civil penalty, when finally determined, or the amount agreed on in compromise, may be deducted from any sums the United States owes to the person charged.

(D) COMPROMISE, MODIFICATION, AND REMISSION OF NO-TOBACCO-SALE ORDER.—The Secretary may compromise, modify, or terminate, with or without conditions, any no-tobacco-sale order.

(6) PETITION FOR JUDICIAL REVIEW.—

(A) IN GENERAL.—Any person that requested, in accordance with paragraph (5)(A), a hearing respecting the assessment of a civil penalty or the imposition of a no-tobacco-sale order and that is aggrieved by an order assessing a civil penalty or the imposition of a no-tobacco-sale order may file a petition for judicial review of the order with the United States

Court of Appeals for the District of Columbia Circuit or for any other circuit in which the person resides or transacts business.

(B) FILING PERIOD.—A petition under subparagraph (A) may be filed only within the 60-day period beginning on the date the order making the assessment was issued, or on which the no-tobacco-sale order was imposed, as the case may be.

(7) FAILURE TO PAY CIVIL PENALTY.—

(A) IN GENERAL.—The Attorney General shall recover an amount described in subparagraph (B) in an action brought against a person in any appropriate district court of the United States if the person fails to pay an assessment of a civil penalty—

(i) after the order making the assessment becomes final, and if the person does not file a petition for judicial review of the order in accordance with paragraph (6); or

(ii) after a court in an action brought under paragraph (6) has entered a final judgment in favor of the Secretary.

(B) AMOUNT TO BE RECOVERED.—The amount referred to in subparagraph (A) is the

amount assessed, plus interest at currently prevailing rates from the date of the expiration of the 60-day period referred to in paragraph (6) or the date of the final judgment, as the case may be.

(C) VALIDITY, AMOUNT, AND APPROPRIATENESS OF CIVIL PENALTY.—In an action described in subparagraph (A), the validity, amount, and appropriateness of the civil penalty shall not be subject to review.

(8) NO-TOBACCO-SALE ORDERS.—

(A) IN GENERAL.—If the Secretary finds that a person has committed repeated violations of section 21107(d)(5) of this title or of restrictions promulgated under section 21107(d) of this title at a particular retail outlet, the Secretary may impose a no-tobacco-sale order on that person prohibiting the sale of tobacco products in that outlet.

(B) IMPOSITION WITH CIVIL PENALTY.—A no-tobacco-sale order may be imposed with a civil penalty under paragraph (1).

(C) HEARING.—Prior to the entry of a no-tobacco-sale order under this paragraph, a person shall be entitled to a hearing pursuant to

the procedures established through regulations of the FDA for assessing civil penalties, including at a retailer's request a hearing—

(i) by telephone;

(ii) at the nearest regional or field office of the FDA; or

(iii) at a Federal, State, or county facility within 100 miles from the location of the retail outlet, if such a facility is available.

(9) CIVIL PENALTIES FOR VIOLATION OF TOBACCO PRODUCT REQUIREMENTS.—

(A) IN GENERAL.—Subject to subparagraph (B), any person that violates a requirement of this subtitle that relates to tobacco products shall be liable to the United States for a civil penalty in an amount not to exceed $15,000 for each such violation, and not to exceed $1,000,000 for all such violations adjudicated in a single proceeding.

(B) ENHANCED PENALTIES.—

(i) ADULTERATED TOBACCO PRODUCTS; INFORMATION SUBMISSION; ORDERS TO CEASE DISTRIBUTION AND RECALL; MODIFIED RISK TOBACCO PRODUCTS IN

INTERSTATE COMMERCE.—Any person that intentionally violates a requirement of paragraph (5) or (6) of section 21103 or section 21105, 21109(c), or 21112(b) of this title shall be subject to a civil penalty of—

(I) not to exceed $250,000 per violation, and not to exceed $1,000,000 for all such violations adjudicated in a single proceeding; or

(II) in the case of a violation that continues after the Secretary provides written notice to the person, $250,000 for the first 30-day period (or any portion of that 30-day period) that the person continues to be in violation, and the amount shall double for every 30-day period after the first 30-day period that the violation continues, not to exceed $1,000,000 for any 30-day period, and not to exceed $10,000,000 for all such violations adjudicated in a single proceeding.

(ii) POSTMARKET SURVEILLANCE AND STUDIES.—Any person that violates a re-

quirement of section 21112(g)(2)(C)(ii) or 21112(i)(1) of this title, shall be subject to a civil penalty of—

(I) not to exceed $250,000 per violation, and not to exceed $1,000,000 for all such violations adjudicated in a single proceeding; or

(II) in the case of a violation that continues after the Secretary provides written notice to the person, $250,000 for the first 30-day period (or any portion of that 30-day period) that the person continues to be in violation, and the amount shall double for every 30-day period after the first 30-day period that the violation continues, not to exceed $1,000,000 for any 30-day period, and not to exceed $10,000,000 for all such violations adjudicated in a single proceeding.

(iii) EFFORTS TOWARD CORRECTION TO BE CONSIDERED.—In determining the amount of a civil penalty under clause (i)(II) or (ii)(II), the Secretary shall take into consideration whether the person is

making efforts toward correcting the violation of the requirements of the section for which the person is subject to the civil penalty.

(g) VIOLATIONS REGARDING DIRECT-TO-CONSUMER ADVERTISING.—

(1) IN GENERAL.—

(A) PENALTIES.—With respect to a person that is a holder of an approved application under chapter 135 of this title for a drug subject to section 13103(a) of this title or under section 351 of the Public Health Service Act (42 U.S.C. 262), any such person that disseminates or causes another party to disseminate a direct-to-consumer advertisement that is false or misleading shall be liable to the United States for a civil penalty in an amount not to exceed $250,000 for the first such violation in any 3-year period, and not to exceed $500,000 for each subsequent violation in any 3-year period.

(B) INAPPLICABILITY OF OTHER CIVIL PENALTIES.—No other civil penalties in this subtitle (including the civil penalty in sub-

section (f)(4)) shall apply to a violation regarding direct-to-consumer advertising.

(C) REPEATED ACTS.—For purposes of this paragraph—

(i) repeated dissemination of the same or similar advertisement prior to the receipt of the written notice referred to in paragraph (2) for the advertisements shall be considered 1 violation; and

(ii) on and after the date of the receipt of such a notice, all violations under this paragraph occurring in a single day shall be considered 1 violation.

(D) ADVERTISEMENTS IN MAGAZINES AND OTHER PUBLICATIONS.—With respect to advertisements that appear in magazines or other publications that are published less frequently than daily, each issue date (whether weekly or monthly) shall be treated as a single day for the purpose of calculating the number of violations under this paragraph.

(2) PROCEDURE FOR ASSESSMENT OF CIVIL PENALTY.—

(A) IN GENERAL.—A civil penalty under paragraph (1) shall be assessed by the Sec-

retary by an order made on the record after providing written notice to the person to be assessed a civil penalty and an opportunity for a hearing in accordance with this paragraph and section 554 of title 5.

(B) SUBPOENAS.—If on receipt of the written notice, the person to be assessed a civil penalty objects and requests a hearing, then in the course of any investigation related to the hearing, the Secretary may issue subpoenas requiring the attendance and testimony of witnesses and the production of evidence that relates to the matter under investigation, including information pertaining to the factors described in paragraph (3).

(3) FACTORS FOR THE DETERMINATION OF CIVIL PENALTY AMOUNT.—The Secretary, in determining the amount of the civil penalty under paragraph (1), shall take into account the nature, circumstances, extent, and gravity of the violation or violations, including—

(A) whether the person submitted the advertisement for review if required under section 13108 of this title;

(B) whether, after submission of the advertisement as described in subparagraph (A), the person disseminated or caused another party to disseminate the advertisement before the end of the 45-day comment period;

(C) whether the person incorporated any comments made by the Secretary with regard to the advertisement into the advertisement prior to its dissemination;

(D) whether the person ceased distribution of the advertisement on receipt of the written notice referred to in paragraph (2) for the advertisement;

(E) whether the person had the advertisement reviewed by qualified medical, regulatory, and legal reviewers prior to its dissemination;

(F) whether the violations were material;

(G) whether the person that created the advertisement or caused the advertisement to be created acted in good faith;

(H) whether the person that created the advertisement or caused the advertisement to be created has been assessed a civil penalty under this subsection within the previous 1-year period;

(I) the scope and extent of any voluntary, subsequent remedial action by the person; and

(J) such other matters, as justice may require.

(4) COMMENTS FROM SECRETARY.—

(A) NO CIVIL PENALTY ON INCORPORATION OF COMMENTS INTO ADVERTISEMENT.—Subject to subparagraph (B), a person shall not be required to pay a civil penalty under paragraph (1) if the person submitted the advertisement to the Secretary and disseminated or caused another party to disseminate the advertisement after incorporating each comment received from the Secretary.

(B) RETRACTION OR MODIFICATION OF COMMENTS.—The Secretary may retract or modify any prior comments the Secretary has provided to an advertisement submitted to the Secretary based on new information or changed circumstances, so long as the Secretary—

(i) provides written notice to the person of the new views of the Secretary on the advertisement; and

(ii) provides a reasonable time for modification or correction of the advertise-

ment prior to seeking any civil penalty under paragraph (1).

(5) COMPROMISE, MODIFICATION, REMISSION.—

(A) IN GENERAL.—The Secretary may compromise, modify, or remit, with or without conditions, any civil penalty that may be assessed under paragraph (1).

(B) DEDUCTION FROM AMOUNTS OWED.—The amount of the civil penalty described in subparagraph (A), when finally determined, or the amount charged upon in compromise, may be deducted from any sums the United States owes to the person charged.

(6) PETITION FOR JUDICIAL REVIEW.—

(A) IN GENERAL.—Any person that requested, in accordance with paragraph (2), a hearing with respect to the assessment of a civil penalty and that is aggrieved by an order assessing a civil penalty, may file a petition for de novo judicial review of the order with the United States Court of Appeals for the District of Columbia Circuit or for any other circuit in which the person resides or transacts business.

(B) FILING PERIOD.—A petition under subparagraph (A) may be filed only within the

60-day period beginning on the date the order making the assessments was issued.

(7) FAILURE TO PAY CIVIL PENALTY.—

(A) IN GENERAL.—The Attorney General shall recover an amount described in subparagraph (B) in an action brought against a person in any appropriate district court of the United States if the person fails to pay an assessment of a civil penalty under paragraph (1)—

(i) after the order making the assessment becomes final, and if the person does not file a petition for judicial review of the order in accordance with paragraph (6); or

(ii) after a court in an action brought under paragraph (6) has entered a final judgment in favor of the Secretary.

(B) AMOUNT TO BE RECOVERED.—The amount referred to in subparagraph (A) is the amount assessed, plus interest at currently prevailing rates from the date of the expiration of the 60-day period referred to in paragraph (6) or the date of the final judgment, as the case may be.

(C) VALIDITY, AMOUNT, AND APPROPRIATENESS OF CIVIL PENALTY.—In an action described in subparagraph (A), the validity, amount, and appropriateness of the penalty shall not be subject to review.

**§ 10504. Seizure**

(a) PROCEEDINGS FOR CONDEMNATION.—

(1) IN GENERAL.—

(A) ARTICLES IN INTERSTATE COMMERCE.—Any article of food, drug, or cosmetic shall be subject to an action for condemnation proceeding, while the article is in interstate commerce or at any time after being in interstate commerce, and condemned in any district court of the United States or United States court of a territory of the United States within the jurisdiction of which the article is found—

(i) if the article is adulterated or misbranded—

(I) when introduced into or while in interstate commerce; or

(II) while held for sale (whether or not the first sale) after shipment in interstate commerce; or

(ii) if the article may not, under the provisions of section 10501(36) or 11106 of this title, or chapter 135 of this title, be introduced into interstate commerce.

(B) ONE PROCEEDING AT A TIME.—

(i) IN GENERAL.—

(I) PENDING PROCEEDINGS.—An action for condemnation proceeding shall not be instituted under this subtitle for an alleged misbranding if there is pending in any court an action for condemnation proceeding under this subtitle based on the same alleged misbranding.

(II) MULTIPLE PROCEEDINGS NOT TO BE INSTITUTED.—Not more than 1 condemnation proceeding described in subclause (I) shall be instituted if no such proceeding is pending.

(ii) EXCEPTIONS.—The limitations under clause (i) shall not apply—

(I) if the misbranding has been the basis of a prior judgment in favor of the United States in a criminal, in-

junction, or action for condemnation proceeding under this subtitle; or

(II) if the Secretary has probable cause to believe from facts found, without hearing, by the Secretary or any officer or employee of the Department—

(aa) that the misbranded article is dangerous to health; or

(bb) that the labeling of the misbranded article is fraudulent, or would be in a material respect misleading to the injury or damage of the purchaser or consumer.

(C) REMOVAL PROCEEDING.—

(i) IN GENERAL.—In any case in which the number of condemnation proceedings is limited as provided in subparagraph (B), the proceeding pending or instituted shall, on application of the claimant, seasonably made, be removed for trial to any district agreed on by stipulation between the parties.

(ii) FAILURE OF PARTIES TO AGREE TO DISTRICT.—If the parties fail to agree to a district by stipulation within a reasonable time, the claimant may apply to the court of the district in which the seizure has been made, and the court (after giving the United States attorney for the district reasonable notice and opportunity to be heard) shall by order, unless good cause to the contrary is shown, specify a district of reasonable proximity to the claimant's principal place of business, to which the case shall be removed for trial.

(2) ARTICLES LIABLE TO BE PROCEEDED AGAINST AT ANY TIME.—The following shall be subject to condemnation proceedings at any time and condemned in any district court of the United States or United States court of a territory of the United States within the jurisdiction of which they are found:

(A) Any drug that is a counterfeit drug.

(B) Any container of a counterfeit drug.

(C) Any punch, die, plate, stone, labeling, container, or other thing used or designed for use in making a counterfeit drug or drugs.

(D) Any adulterated or misbranded device.

(E) Any adulterated or misbranded tobacco product.

(F) Any device that is a counterfeit device.

(G) Any container, packaging, or labeling of a counterfeit device.

(H) Any punch, die, plate, stone, labeling, container, or other thing used or designed for use in making a counterfeit device.

(3) LIMITATION.—

(A) IN GENERAL.—Except as provided in subparagraph (B), an action for condemnation proceeding shall not be instituted under paragraph (1) or (2) against any food that—

(i) is misbranded under section 11301(2) of this title because of its advertising; and

(ii) is being held for sale to the ultimate consumer in an establishment other than an establishment owned or operated by a manufacturer, packer, or distributor of the food.

(B) EXCEPTIONS TO LIMITATION.—An action for condemnation proceeding may be insti-

tuted under paragraph (1) or (2) against a food described in subparagraph (A) if—

(i) with respect to the food's advertising—

(I) the advertising that resulted in the food being misbranded under section 11301(2) of this title was disseminated in the establishment in which the food is being held for sale to the ultimate consumer;

(II) the advertising was disseminated by, or under the direction of, the owner or operator of the establishment; or

(III) all or part of the cost of the advertising was paid by the owner or operator; and

(ii) the owner or operator of the establishment used the advertising in the establishment to promote the sale of the food.

(b) CONFORMATION TO PROCEDURE IN ADMIRALTY AND CONSOLIDATION OF PROCEEDINGS.—

(1) CONFORMANCE TO PROCEDURE IN ADMIRALTY.—The article, equipment, or other thing pro-

ceeded against shall be liable to seizure by process pursuant to the action for condemnation proceeding, and the procedure in cases under this section shall conform, as nearly as may be, to the procedure in admiralty, except that, on demand of either party, any issue of fact joined in the case shall be tried by jury.

(2) CONSOLIDATION OF MULTIPLE PROCEEDINGS FOR TRIAL.—If actions for condemnation proceedings under this section are pending in 2 or more jurisdictions, and the actions involve the same claimant and the same issues of adulteration or misbranding, the pending actions, on application of the claimant seasonably made to the court of one of the jurisdictions, shall be consolidated for trial by order of the court, and tried in—

(A) any district selected by the claimant where one of the actions is pending; or

(B) a district agreed on by stipulation between the parties.

(3) APPLICATION FOR CONSOLIDATION.—

(A) IN GENERAL.—If no order for consolidation is made under paragraph (2) within a reasonable time, the claimant may apply to the court of one of the jurisdictions and the court

(after giving the United States attorney for the district reasonable notice and opportunity to be heard) shall by order, unless good cause to the contrary is shown, specify a district of reasonable proximity to the claimant's principal place of business, in which all such pending proceedings shall be consolidated for trial and tried.

(B) CASE WITH FIXED TRIAL DATE.—An order of consolidation under subparagraph (A) shall not apply so as to require the removal of any case the date for trial of which has been fixed.

(C) NOTICE TO OTHER COURTS.—The court granting the order of consolidation under subparagraph (A) shall give prompt notification of the order to the other courts having jurisdiction of the cases covered by the consolidation.

(c) AVAILABILITY OF SAMPLES OF SEIZED GOODS PRIOR TO TRIAL.—The court at any time after seizure up to a reasonable time before trial shall by order allow any party to a condemnation proceeding, or the party's attorney or agent, to obtain a representative sample of the article seized and a true copy of the analysis, if any, on which the proceeding is based and the identifying marks

or numbers, if any, of the packages from which the samples analyzed were obtained.

(d) DISPOSITION OF GOODS AFTER DECREE OF CONDEMNATION.—

(1) IN GENERAL.—

(A) DISPOSITION BY DESTRUCTION OR SALE.—Any food, drug, device, tobacco product, or cosmetic condemned under this section shall, after entry of the decree, be disposed of by destruction or sale as the court may, in accordance with the provisions of this section, direct.

(B) SALE.—If the article is sold, the proceeds of the sale (less the legal costs and charges) shall be paid into the Treasury. The article shall not be sold under the decree contrary to the provisions of this subtitle or the laws of the jurisdiction in which the article is sold.

(C) RELEASE OF ARTICLE UNDER BOND.—After entry of the decree and on the payment of the costs of the proceedings and the execution of a good and sufficient bond conditioned that the article shall not be sold or disposed of contrary to the provisions of this subtitle or the laws of any State or territory of the United

States in which the article is sold, the court may by order direct that the article be delivered to the owner of the article to be destroyed or brought into compliance with the provisions of this subtitle, under the supervision of an officer or employee designated by the Secretary, and the expenses of the supervision shall be paid by the person obtaining release of the article under bond.

(D) EXPORTATION IN LIEU OF DESTRUCTION.—

(i) IN GENERAL.—If the article was imported into the United States, the court may permit the article to be delivered to the owner for exportation in lieu of destruction—

(I) if the person seeking its release establishes—

(aa) that the adulteration, misbranding, or violation did not occur after the article was imported; and

(bb) that the person had no cause for believing that the article was adulterated, misbranded,

or in violation before it was released from customs custody; and

(II) on a showing by the owner that all of the conditions of section 20101(e) of this title can and will be met.

(ii) LIMITATION.—Clause (i) shall not apply if condemnation is based on violation of—

(I) paragraph (1), (2), or (6) of section 11102(a) of this title;

(II) section 13101(a)(2)(C) of this title;

(III) section 13309 of this title; or

(IV) subsection (b) or (e) of section 17111 of this title.

(iii) EXPORTATION MADE TO ORIGINAL FOREIGN SUPPLIER.—If the exportation is made to the original foreign supplier, then subparagraphs (A) and (B) of section 20101(e)(1) of this title and clause (ii) shall not be applicable.

(iv) BOND CONDITION.—In all cases of exportation, the bond shall be condi-

tioned that the article shall not be sold or disposed of until the applicable conditions of section 20101(e) of this title have been met.

(v) REQUIREMENT TO ESTABLISH THAT ARTICLE WAS INTENDED FOR EXPORT.—Any person seeking to export an imported article pursuant to any of the provisions of this subsection shall establish that the article was intended for export at the time the article entered commerce.

(vi) REQUIREMENT TO DISPOSE BY DESTRUCTION.—Any article condemned by reason of its being an article that may not, under section 11106 of this title or chapter 135 of this title, be introduced into interstate commerce, shall be disposed of by destruction.

(2) APPLICABILITY OF PARAGRAPH (1) TO ADDITIONAL ARTICLES.—The provisions of paragraph (1) shall, to the extent considered appropriate by the court, apply to any equipment or other thing that is not otherwise within the scope of the paragraph and that is referred to in subsection (a)(2).

(3) REMISSION OR MITIGATION OF FORFEITURE.—If in any proceeding under this section involving subsection (a)(2), the condemnation of any equipment or thing (other than a drug) is decreed, the court shall allow the claim of any claimant, to the extent of the claimant's interest, for remission or mitigation of the forfeiture if the claimant proves to the satisfaction of the court—

(A) that the claimant has not committed or caused to be committed any prohibited act referred to in subsection (a)(2) and has no interest in any drug referred to in subsection (a)(2);

(B) that the claimant has an interest in the equipment or other thing as owner or lienor or otherwise, acquired by the claimant in good faith; and

(C) that the claimant at no time had any knowledge or reason to believe that the equipment or other thing was being or would be used in, or to facilitate, the violation of laws of the United States relating to counterfeit drugs.

(e) COSTS.—If a decree of condemnation is entered against the article, court costs and fees, and storage and

other proper expenses, shall be awarded against the person, if any, intervening as claimant of the article.

(f) REMOVAL OF CASE FOR TRIAL.—In the case of removal for trial of any case as provided by subsection (a) or (b)—

(1) the clerk of the court from which removal is made shall promptly transmit to the court in which the case is to be tried all records in the case necessary in order that the court may exercise jurisdiction; and

(2) the court to which the case was removed shall have the powers and be subject to the duties, for purposes of the case, that the court from which removal was made would have had, or to which the court would have been subject, if the case had not been removed.

(g) ADMINISTRATIVE DETENTION OF DEVICES, DRUGS, AND TOBACCO PRODUCTS.—

(1) IN GENERAL.—

(A) DETENTION AUTHORITY; PERIOD OF DETENTION.—If during an inspection conducted under section 17504 of this title of a facility or a vehicle, a device, drug, or tobacco product that the officer or employee making the inspection has reason to believe is adulterated

or misbranded is found in the facility or vehicle, the officer or employee may order the device, drug, or tobacco product detained (in accordance with regulations prescribed by the Secretary) for a reasonable period that may not exceed 20 days, unless the Secretary determines that a period of detention greater than 20 days is required to institute an action under subsection (a) or section 10502 of this title, in which case the Secretary may authorize a detention period of not to exceed 30 days.

(B) APPROVAL OF DETENTION ORDER.—Regulations of the Secretary prescribed under this paragraph shall require that before a device, drug, or tobacco product may be ordered detained under this paragraph, the Secretary or an officer or employee designated by the Secretary approve the order.

(C) LABELING OR MARKING DURING DETENTION PERIOD.—A detention order under this paragraph may require the labeling or marking of a device, drug, or tobacco product during the period of its detention for the purpose of identifying the device, drug, or tobacco product as detained.

(D) APPEAL OF DETENTION ORDER.—

(i) IN GENERAL.—Any person that would be entitled to claim a device, drug, or tobacco product if it were seized under subsection (a) may appeal to the Secretary a detention of the device, drug, or tobacco product under this paragraph.

(ii) CONFIRMATION OR REVOCATION OF DETENTION.—Within 5 days of the date an appeal of a detention is filed with the Secretary, the Secretary shall, after affording opportunity for an informal hearing, by order confirm or revoke the detention.

(2) MOVEMENT OF DETAINED ARTICLE PROHIBITED.—

(A) IN GENERAL.—Except as authorized by subparagraph (B), a device, drug, or tobacco product subject to a detention order issued under paragraph (1) shall not be moved by any person from the place at which it is ordered detained until the earlier of—

(i) release of the device, drug, or tobacco product by the Secretary; or

(ii) the expiration of the detention period applicable to the order.

(B) AUTHORIZED MOVEMENT OF DETAINED ARTICLE.—A device or drug subject to a detention order under paragraph (1) may be moved—

(i) in accordance with regulations prescribed by the Secretary; and

(ii) if not in final form for shipment, at the discretion of the manufacturer of the device or drug for the purpose of completing the work required to put it in that form.

(h) ADMINISTRATIVE DETENTION OF FOODS.—

(1) DETENTION AUTHORITY.—

(A) IN GENERAL.—An officer or qualified employee of the FDA may order the detention, in accordance with this subsection, of any article of food that is found during an inspection, examination, or investigation under this subtitle conducted by the officer or qualified employee, if the officer or qualified employee has reason to believe that the article is adulterated or misbranded.

(B) SECRETARY'S APPROVAL.—An article of food may be ordered detained under subparagraph (A) only if the Secretary or an official designated by the Secretary approves the order. An official may not be designated unless the official is the director of the district under this subtitle in which the article involved is located, or is an official senior to the director.

(2) PERIOD OF DETENTION.—An article of food may be detained under paragraph (1) for a reasonable period, not to exceed 20 days, unless a greater period, not to exceed 30 days, is necessary, to enable the Secretary to institute an action under subsection (a) or section 10502 of this title. The Secretary shall by regulation provide for procedures for instituting the action on an expedited basis with respect to perishable foods.

(3) SECURITY OF DETAINED ARTICLE.—

(A) IN GENERAL.—An order under paragraph (1) with respect to an article of food may require that the article be labeled or marked as detained, and shall require that the article be removed to a secure facility, as appropriate.

(B) TRANSFER OF ARTICLE.—An article subject to such an order shall not be trans-

ferred by any person from the place at which the article is ordered detained, or from the place to which the article is removed, as the case may be, until the earlier of—

(i) release of the article by the Secretary; or

(ii) expiration of the detention period applicable under the order.

(C) EFFECT OF PROVISIONS ON DELIVERY OF ARTICLE.—This subsection may not be construed as authorizing the delivery of the article pursuant to the execution of a bond while the article is subject to the order, and section 20101(b) of this title does not authorize the delivery of the article pursuant to the execution of a bond while the article is subject to the order.

(4) APPEAL OF DETENTION ORDER.—

(A) IN GENERAL.—

(i) PERSONS THAT MAY APPEAL.—With respect to an article of food ordered detained under paragraph (1), any person that would be entitled to be a claimant for the article if the article were seized under subsection (a) may appeal the order to the Secretary.

(ii) CONFIRMATION OR TERMINATION OF DETENTION.—Within 5 days after such an appeal is filed, the Secretary, after providing opportunity for an informal hearing, shall confirm or terminate the order involved, and the confirmation by the Secretary shall be considered a final agency action for purposes of section 702 of title 5.

(iii) ORDER DEEMED TERMINATED.—If, during the 5-day period, the Secretary fails to provide an opportunity for an informal hearing, or to confirm or terminate the order, the order is deemed to be terminated.

(B) EFFECT OF INSTITUTING COURT ACTION.—The process under subparagraph (A) for the appeal of an order under paragraph (1) terminates if the Secretary institutes an action under subsection (a) or section 10502 of this title regarding the article of food involved.

(i) PROCEDURES FOR PROMULGATING REGULATIONS.—

(1) IN GENERAL.—In promulgating a regulation implementing this section, the Secretary shall—

(A) issue a notice of proposed rulemaking that includes the proposed regulation;

(B) provide a period of not less than 60 days for comments on the proposed regulation; and

(C) publish the final regulation not less than 30 days before the regulation's effective date.

(2) RESTRICTIONS.—Notwithstanding any other provision of Federal law, in implementing this section, the Secretary shall only promulgate regulations as described in paragraph (1).

**§ 10505. Hearing before report of criminal violation**

Before any violation of this subtitle is reported by the Secretary to any United States attorney for institution of a criminal proceeding, the person against whom the proceeding is contemplated shall be given appropriate notice and an opportunity to present the person's views, orally or in writing, with regard to the contemplated proceeding.

**§ 10506. Debarment, temporary denial of approval, and suspension**

(a) MANDATORY DEBARMENT.—

(1) CORPORATIONS, PARTNERSHIPS, AND ASSOCIATIONS.—If the Secretary finds that a person other than an individual has been convicted, after

May 13, 1992, of a felony under Federal law for conduct relating to the development or approval, including the process for development or approval, of any abbreviated drug application, the Secretary shall debar the person from submitting, or assisting in the submission of, any such application.

(2) INDIVIDUALS.—

(A) IN GENERAL.—The Secretary shall debar an individual as described in subparagraph (B) if the Secretary finds that the individual has been convicted of a felony under Federal law for conduct—

(i) relating to the development or approval, including the process for development or approval, of any drug product; or

(ii) otherwise relating to the regulation of any drug product under this subtitle.

(B) DEBARMENT.—The Secretary shall debar an individual whom the Secretary finds has been convicted as described in subparagraph (A) from providing services in any capacity to a person that has an approved or pending drug product application.

(b) PERMISSIVE DEBARMENT.—

(1) IN GENERAL.—The Secretary, on the Secretary's own initiative or in response to a petition, may, in accordance with paragraph (2) or (3), debar—

(A) a person other than an individual from submitting or assisting in the submission of any abbreviated drug application;

(B) an individual from providing services in any capacity to a person that has an approved or pending drug product application;

(C) a person from importing an article of food or offering an article of food for import into the United States; or

(D) a person from importing or offering for import into the United States a drug.

(2) PERSONS SUBJECT TO PERMISSIVE DEBARMENT; DRUG APPLICATIONS.—The following persons are subject to debarment under subparagraph (A) or (B) of paragraph (1):

(A) CORPORATIONS, PARTNERSHIPS, AND ASSOCIATIONS.—Any person other than an individual that the Secretary finds has been convicted (if the Secretary finds that the type of conduct that served as the basis for the convic-

tion undermines the process for the regulation of drugs)—

(i) for conduct that—

(I) relates to the development or approval, including the process for the development or approval, of any abbreviated drug application; and

(II) is a felony under Federal law (if the person was convicted before May 13, 1992), a misdemeanor under Federal law, or a felony under State law; or

(ii) of a conspiracy to commit, or aiding or abetting, a criminal offense described in clause (i) or a felony described in subsection (a)(1).

(B) INDIVIDUALS.—

(i) Any individual whom the Secretary finds has been convicted (if the Secretary finds that the type of conduct that served as the basis for the conviction undermines the process for the regulation of drugs) of—

(I) a misdemeanor under Federal law or a felony under State law for

conduct relating to the development or approval, including the process for development or approval, of any drug product or otherwise relating to the regulation of drug products under this subtitle; or

(II) a conspiracy to commit, or aiding or abetting, the criminal offense or a felony described in subsection (a)(2).

(ii) Any individual whom the Secretary finds has been convicted (if the Secretary finds, on the basis of the conviction of the individual and other information, that the individual has demonstrated a pattern of conduct sufficient to find that there is reason to believe that the individual may violate requirements under this subtitle relating to drug products) of—

(I) a felony—

(aa) that is not described in subsection (a)(2) or clause (i); and

(bb) that involves bribery, payment of illegal gratuities,

fraud, perjury, false statement, racketeering, blackmail, extortion, falsification or destruction of records, or interference with, obstruction of an investigation into, or prosecution of, any criminal offense; or

(II) a conspiracy to commit, or aiding or abetting, a felony described in subclause (I).

(iii) Any individual whom the Secretary finds materially participated in acts that were the basis for a conviction for an offense described in subsection (a) or in clause (i) or (ii) for which a conviction was obtained, if the Secretary finds, on the basis of the participation and other information, that the individual has demonstrated a pattern of conduct sufficient to find that there is reason to believe that the individual may violate requirements under this subtitle relating to drug products.

(iv) Any high managerial agent whom the Secretary finds—

(I) worked for, or worked as a consultant for, the same person as another individual during the period in which the other individual took actions for which a felony conviction was obtained (if the Secretary finds that the type of conduct that served as the basis for the other individual's conviction undermines the process for the regulation of drugs) and that resulted in the debarment under subsection (a)(2), or clause (i), of the other individual;

(II) had actual knowledge of the actions described in subclause (I) of the other individual, took action to avoid the actual knowledge, or failed to take action for the purpose of avoiding the actual knowledge;

(III) knew that the actions described in subclause (I) were violative of law; and

(IV) did not report the actions, or did not cause the actions to be reported, to an officer, employee, or

agent of the Department or to an appropriate law enforcement officer, or failed to take other appropriate action that would have ensured that the process for the regulation of drugs was not undermined, within a reasonable time after the agent first knew of the actions.

(3) PERSONS SUBJECT TO PERMISSIVE DEBARMENT; FOOD OR DRUG IMPORTATION.—

(A) DEFINITION OF PATTERN OF IMPORTING OR OFFERING FOR IMPORT.—For purposes of subparagraph (B)(iv), the term ''pattern of importing or offering for import'' means importing or offering for import a drug described in subclause (I) or (II) of subparagraph (B)(iv) in an amount, frequency, or dosage that is inconsistent with personal or household use by the importer.

(B) IN GENERAL.—A person is subject to debarment under paragraph (1)(C) if—

(i) the person has been convicted of a felony for conduct relating to the importation into the United States of any food;

(ii) the person has engaged in a pattern of importing or offering for import adulterated food that presents a threat of serious adverse health consequences or death to humans or animals;

(iii) the person has been convicted of a felony for conduct relating to the importation into the United States of any drug or controlled substance (as defined in section 50101 of this title); or

(iv) the person has engaged in a pattern of importing or offering for import—

(I) controlled substances that are prohibited from importation under section 401(m) of the Tariff Act of 1930 (19 U.S.C. 1401(m)); or

(II) adulterated or misbranded drugs that are—

(aa) not designated in an authorized electronic data interchange system as a product that is regulated by the Secretary; or

(bb) knowingly or intentionally falsely designated in an authorized electronic data inter-

change system as a product that is regulated by the Secretary.

(4) STAY OF CERTAIN ORDERS.—An order of the Secretary under clause (iii) or (iv) of paragraph (2)(B) shall not take effect until 30 days after the order has been issued.

(c) DEBARMENT PERIOD AND CONSIDERATIONS.—

(1) EFFECT OF DEBARMENT.—The Secretary—

(A) shall not accept or review (other than in connection with an audit under this section) any abbreviated drug application submitted by or with the assistance of a person debarred under subsection (a)(1) or (b)(2)(A) during the period the person is debarred;

(B) shall, during the period of a debarment under subsection (a)(2) or (b)(2)(B), debar an individual from providing services in any capacity to a person that has an approved or pending drug product application and shall not accept or review (other than in connection with an audit under this section) an abbreviated drug application from the individual; and

(C) shall, if the Secretary makes the finding described in subparagraph (F) or (G) of section 10507(a)(1) of this title, assess a civil

penalty in accordance with section 10507 of this title.

(2) DEBARMENT PERIODS.—

(A) IN GENERAL.—

(i) LENGTH.—The Secretary shall debar a person under subsection (a) or (b) for the following periods:

(I) The period of debarment of a person (other than an individual) under subsection (a)(1) shall not be less than 1 year or more than 10 years, but if an act leading to a subsequent debarment under subsection (a) occurs within 10 years after the person has been debarred under subsection (a)(1), the period of debarment shall be permanent.

(II) The debarment of an individual under subsection (a)(2) shall be permanent.

(III) The period of debarment of any person under paragraph (2) or (3) of subsection (b) shall not be more than 5 years.

(ii) MULTIPLE OFFENSES.—The Secretary may determine whether debarment periods shall run concurrently or consecutively in the case of a person debarred for multiple offenses.

(B) NOTIFICATION.—On a conviction for an offense described in subsection (a) or (b) or on execution of an agreement with the United States to plead guilty to such an offense, the person involved may notify the Secretary that the person acquiesces to debarment and the person's debarment shall commence on the notification.

(3) CONSIDERATIONS.—In determining the appropriateness and the period of a debarment of a person under subsection (b) and any period of debarment beyond the minimum specified in paragraph (2)(A)(i)(I), the Secretary shall consider, as applicable—

(A) the nature and seriousness of any offense involved;

(B) the nature and extent of management participation in any offense involved, whether corporate policies and practices encouraged the

offense, including whether inadequate institutional controls contributed to the offense;

(C) the nature and extent of voluntary steps to mitigate the impact on the public of any offense involved, including the recall or the discontinuation of the distribution of suspect drugs, full cooperation with any investigations (including the extent of disclosure to appropriate authorities of all wrongdoing), the relinquishing of profits on drug approvals fraudulently obtained, and any other actions taken to substantially limit potential or actual adverse effects on the public health;

(D) whether the extent to which changes in ownership, management, or operations have corrected the causes of any offense involved and provide reasonable assurances that the offense will not occur in the future;

(E) whether the person to be debarred is able to present adequate evidence that current production of drugs subject to abbreviated drug applications and all pending abbreviated drug applications are free of fraud or material false statements; and

(F) prior convictions under this subtitle or under other Acts involving matters within the jurisdiction of the FDA.

(d) TERMINATION OF DEBARMENT.—

(1) APPLICATION.—Any person that is debarred under subsection (a) (other than a person permanently debarred) or any person that is debarred under subsection (b) may apply to the Secretary for termination of the debarment under this subsection. Any information submitted to the Secretary under this paragraph does not constitute an amendment or supplement to pending or approved abbreviated drug applications.

(2) DEADLINE.—The Secretary shall grant or deny any application respecting a debarment that is submitted under paragraph (1) within 180 days of the date the application is submitted.

(3) ACTION BY THE SECRETARY.—

(A) CORPORATIONS.—

(i) CONVICTION REVERSAL.—If the conviction that served as the basis for the debarment of a person under subsection (a)(1) or paragraph (2)(A) or (3) of subsection (b) is reversed, the Secretary shall withdraw the order of debarment.

(ii) APPLICATION.—On application submitted under paragraph (1), the Secretary shall terminate the debarment of a person if the Secretary finds that—

(I) changes in ownership, management, or operations have fully corrected the causes of the offense involved and provide reasonable assurances that the offense will not occur in the future; and

(II) in applicable cases, sufficient audits, conducted by the FDA or by independent experts acceptable to the FDA, demonstrate that pending applications and the development of drugs being tested before the submission of an application are free of fraud or material false statements.

(iii) EFFECTIVE DATE OF TERMINATION.—In the case of persons debarred under subsection (a)(1), the termination shall take effect no earlier than the expiration of 1 year from the date of the debarment.

(B) INDIVIDUALS.—

(i) CONVICTION REVERSAL.—If the conviction that served as the basis for the debarment of an individual under subsection (a)(2) or clause (i), (ii), (iii), or (iv) of subsection (b)(2)(B) or subsection (b)(3) is reversed, the Secretary shall withdraw the order of debarment.

(ii) APPLICATION.—On application submitted under paragraph (1), the Secretary shall terminate the debarment of an individual who has been debarred under subsection (b)(2)(B) or subsection (b)(3) if the termination serves the interests of justice and adequately protects the integrity of the drug approval process or the food importation process, as the case may be.

(4) SPECIAL TERMINATION.—

(A) APPLICATION.—Any person that is debarred under subsection (a)(1) (other than a person permanently debarred under subsection (c)(2)(A)(i)(I)) or any individual who is debarred under subsection (a)(2) may apply to the Secretary for special termination of debarment under this subsection. Any information submitted to the Secretary under this subpara-

graph does not constitute an amendment or supplement to pending or approved abbreviated drug applications.

(B) CORPORATIONS.—On an application submitted under subparagraph (A), the Secretary may take the action described in subparagraph (D) if the Secretary, after an informal hearing, finds that—

(i) the person making the application under subparagraph (A) has demonstrated that the felony conviction that was the basis for the person's debarment involved the commission of an offense that was not authorized, requested, commanded, performed, or recklessly tolerated by the board of directors or by a high managerial agent acting on behalf of the person within the scope of the board's or agent's office or employment;

(ii) all individuals who were involved in the commission of the offense or who knew or should have known of the offense have been removed from employment involving the development or approval of any drug subject to chapter 135 of this title;

(iii) the person fully cooperated with all investigations and promptly disclosed all wrongdoing to the appropriate authorities; and

(iv) the person acted to mitigate any impact on the public of any offense involved, including the recall, or the discontinuation of the distribution, of any drug with respect to which the Secretary requested a recall or discontinuation of distribution due to concerns about the safety or efficacy of the drug.

(C) INDIVIDUALS.—On an application submitted under subparagraph (A), the Secretary may take the action described in subparagraph (D) if the Secretary, after an informal hearing, finds that the individual has provided substantial assistance in the investigations or prosecutions of offenses that are described in subsection (a) or (b) or that relate to any matter under the jurisdiction of the FDA.

(D) SECRETARIAL ACTION.—The action referred to in subparagraphs (B) and (C) is any of the following that best serves the interest of

justice and protects the integrity of the drug approval process:

(i) In the case of a person other than an individual—

(I) terminating the debarment immediately; or

(II) limiting the period of debarment to less than 1 year.

(ii) In the case of an individual, limiting the period of debarment to less than permanent but to no less than 1 year.

(e) PUBLICATION AND LIST OF DEBARRED PERSONS.—The Secretary shall publish in the Federal Register the name of any person debarred under subsection (a) or (b), the effective date of the debarment, and the period of the debarment. The Secretary shall also maintain and make available to the public a list, updated no less often than quarterly, of the persons, of the effective dates and minimum periods of the debarments, and of the termination of debarments.

(f) TEMPORARY DENIAL OF APPROVAL.—

(1) IN GENERAL.—The Secretary, on the Secretary's own initiative or in response to a petition, may, in accordance with paragraph (4), refuse by order, for the period prescribed by paragraph (3), to

approve any abbreviated drug application submitted by any person—

(A) if the person is under an active Federal criminal investigation in connection with an action described in subparagraph (B);

(B) if the Secretary finds that the person—

(i) has bribed or attempted to bribe, has paid or attempted to pay an illegal gratuity, or has induced or attempted to induce another person to bribe or pay an illegal gratuity to any officer, employee, or agent of the Department or to any other Federal, State, or local official in connection with any abbreviated drug application, or has conspired to commit, or aided or abetted, the actions; or

(ii) has knowingly made or caused to be made a pattern or practice of false statements or misrepresentations with respect to material facts relating to any abbreviated drug application, or the production of any drug subject to an abbreviated drug application, to any officer, employee, or agent of the Department, or has con-

spired to commit, or aided or abetted, the actions; and

(C) if a significant question has been raised regarding—

(i) the integrity of the approval process with respect to the abbreviated drug application; or

(ii) the reliability of data in or concerning the person's abbreviated drug application.

(2) MODIFICATION; TERMINATION.—An order under paragraph (1) may be modified or terminated at any time.

(3) APPLICABLE PERIOD.—

(A) IN GENERAL.—Except as provided in subparagraph (B), a denial of approval of an application of a person under paragraph (1) shall be in effect for a period determined by the Secretary but not to exceed 18 months beginning on the date the Secretary finds that the conditions described in subparagraphs (A), (B), and (C) of paragraph (1) exist. The Secretary shall terminate the denial—

(i) if the investigation with respect to which the finding was made does not result

in a criminal charge against the person, if criminal charges have been brought and the charges have been dismissed, or if a judgment of acquittal has been entered; or

(ii) if the Secretary determines that the finding was in error.

(B) EXTENSION.—If, at the end of the period described in subparagraph (A), the Secretary determines that a person has been criminally charged for an action described in paragraph (1)(B), the Secretary may extend the period of denial of approval of an application for a period not to exceed 18 months. The Secretary shall terminate the extension if the charges have been dismissed, if a judgment of acquittal has been entered, or if the Secretary determines that the finding described in subparagraph (A) was in error.

(4) INFORMAL HEARING.—Within 10 days of the date an order is issued under paragraph (1), the Secretary shall provide the person with an opportunity for an informal hearing, to be held within the 10 days, on the decision of the Secretary to refuse approval of an abbreviated drug application. Within 60 days of the date on which the hearing is held, the

Secretary shall notify the person given the hearing whether the Secretary's refusal of approval will be continued, terminated, or otherwise modified. The notification shall be final agency action.

(g) SUSPENSION AUTHORITY.—

(1) IN GENERAL.—

(A) CONDITIONS.—The Secretary shall issue an order described in subparagraph (B) if—

(i) the Secretary finds—

(I) that a person has engaged in conduct described in subsection (f)(1)(B) in connection with 2 or more drugs under abbreviated drug applications; or

(II) that a person has engaged in flagrant and repeated, material violations of good manufacturing practice or good laboratory practice in connection with the development, manufacturing, or distribution of 1 or more drugs approved under an abbreviated drug application during a 2-year period, and—

(aa) the violations may undermine the safety and efficacy of the drugs; and

(bb) the causes of the violations have not been corrected within a reasonable period of time following notice of the violations by the Secretary; and

(ii) the person is under an active investigation by a Federal authority in connection with a civil or criminal action involving conduct described in clause (i).

(B) ORDER.—If the conditions under subparagraph (A) are met, the Secretary shall issue an order suspending the distribution of all drugs the development or approval of which was related to the conduct described in subparagraph (A)(i) or suspending the distribution of all drugs approved under abbreviated drug applications of the person if the Secretary finds that the conduct may have affected the development or approval of a significant number of drugs that the Secretary is unable to identify.

(C) EXCLUSION OF DRUG FROM SUSPENSION.—The Secretary shall exclude a drug from

the order under subparagraph (B) if the Secretary determines that the conduct was not likely to have influenced the safety or efficacy of the drug.

(2) PUBLIC HEALTH WAIVER.—

(A) IN GENERAL.—The Secretary shall, on the Secretary's own initiative or in response to a petition, waive the suspension under paragraph (1) (involving an action described in paragraph (1)(A)(i)(I)) with respect to any drug if the Secretary finds that the waiver is necessary to protect the public health because sufficient quantities of the drug would not otherwise be available.

(B) ACTION ON PETITION; DEADLINE.—The Secretary shall act on any petition seeking action under this paragraph within 180 days of the date the petition is submitted to the Secretary.

(h) TERMINATION OF SUSPENSION.—

(1) IN GENERAL.—The Secretary shall withdraw an order of suspension of the distribution of a drug under subsection (g) if the person with respect to whom the order was issued demonstrates in a petition to the Secretary—

(A)(i) on the basis of an audit by the FDA or by experts acceptable to the FDA, or on the basis of other information, that the development, approval, manufacturing, and distribution of the drug is in substantial compliance with the applicable requirements of this subtitle; and

(ii) changes in ownership, management, or operations—

(I) fully remedy the patterns or practices with respect to which the order was issued; and

(II) provide reasonable assurances that the actions will not occur in the future; or

(B) the initial determination was in error.

(2) ACTION ON PETITION; DEADLINE; CONCURRENT CONSIDERATION.—The Secretary shall act on a submission of a petition under this subsection within 180 days of the date of its submission and the Secretary may consider the petition concurrently with the suspension proceeding.

(3) INFORMATION SUBMITTED NOT AN AMENDMENT OR SUPPLEMENT.—Any information submitted to the Secretary under this subsection does not constitute an amendment or supplement to a pending or approved abbreviated drug application.

(i) PROCEDURE.—The Secretary may not take any action under subsection (a), (b), (c), (d)(3), (g), or (h) with respect to any person unless the Secretary has issued an order for the action made on the record after opportunity for an agency hearing on disputed issues of material fact. In the course of any investigation or hearing under this subsection, the Secretary may administer oaths and affirmations, examine witnesses, receive evidence, and issue subpoenas requiring the attendance and testimony of witnesses and the production of evidence that relates to the matter under investigation.

(j) JUDICIAL REVIEW.—

(1) IN GENERAL.—Except as provided in paragraph (2), any person that is the subject of an adverse decision under subsection (a), (b), (c), (d), (f), (g), or (h) may obtain a review of the decision by the United States Court of Appeals for the District of Columbia or for the circuit in which the person resides, by filing in the court (within 60 days following the date the person is notified of the Secretary's decision) a petition requesting that the decision be modified or set aside.

(2) EXCEPTION.—Any person that is the subject of an adverse decision under clause (iii) or (iv) of subsection (b)(2)(B) may obtain a review of the

decision by the United States District Court for the District of Columbia or a district court of the United States for the district in which the person resides, by filing in the court (within 30 days following the date the person is notified of the Secretary's decision) a complaint requesting that the decision be modified or set aside. In such an action, the court shall determine the matter de novo.

(k) CERTIFICATION.—Any application for approval of a drug product shall include—

(1) a certification that the applicant did not and will not use in any capacity the services of any person debarred under subsection (a) or (b), in connection with the application; and

(2) if the application is an abbreviated drug application, a list of all convictions, described in subsections (a) and (b) that occurred within the previous 5 years, of the applicant and affiliated persons responsible for the development or submission of the application.

(l) APPLICABILITY.—

(1) CONVICTION.—For purposes of this section, a person is considered to have been convicted of a criminal offense—

(A) if a judgment of conviction has been entered against the person by a Federal or State court, regardless of whether there is an appeal pending;

(B) if a plea of guilty or nolo contendere by the person has been accepted by a Federal or State court; or

(C) if the person has entered into participation in a first offender, deferred adjudication, or other similar arrangement or program in which judgment of conviction has been withheld.

(2) EFFECTIVE DATES.—Subsection (a), subparagraph (A) of subsection (b)(2), clauses (i) and (ii) of subsection (b)(2)(B), and subsection (b)(3)(A) shall not apply to a conviction that occurred more than 5 years before the initiation of an agency action proposed to be taken under subsection (a) or (b). Clauses (iii) and (iv) of subsection (b)(2)(B), subsection (b)(3)(B), and subsections (f) and (g) shall not apply to an act or action that occurred more than 5 years before the initiation of an agency action proposed to be taken under subsection (b), (f), or (g). Subsection (b)(2)(B)(iv) shall not apply to an action that occurred before June 1, 1992. Sub-

section (k) shall not apply to applications submitted to the Secretary before June 1, 1992.

(m) DEVICES; MANDATORY DEBARMENT REGARDING THIRD-PARTY INSPECTIONS AND REVIEWS.—

(1) IN GENERAL.—If the Secretary finds that a person has been convicted of a felony under section 10501(31) of this title, the Secretary shall debar the person from being accredited under section 13155(b) or 17504(g)(2) of this title and from carrying out activities under an agreement described in section 20103(b) of this title.

(2) DEBARMENT PERIOD.—The Secretary shall debar a person under paragraph (1) for the following periods:

(A) The period of debarment of a person (other than an individual) shall not be less than 1 year or more than 10 years, but if an act leading to a subsequent debarment under paragraph (1) occurs within 10 years after the person has been debarred under paragraph (1), the period of debarment shall be permanent.

(B) The debarment of an individual shall be permanent.

(3) TERMINATION OF DEBARMENT; JUDICIAL REVIEW; OTHER MATTERS.—Subsections (c)(3), (d),

(e), (i), (j), and (l)(1) apply with respect to a person (other than an individual) or an individual who is debarred under paragraph (1) to the same extent and in the same manner as the subsections apply with respect to a person that is debarred under subsection (a)(1), or an individual who is debarred under subsection (a)(2), respectively.

**§ 10507. Civil penalties**

(a) IN GENERAL.—

(1) PERSONS LIABLE.—A person shall be liable under paragraph (2) if the Secretary finds that the person—

(A) knowingly made or caused to be made, to any officer, employee, or agent of the Department, a false statement or misrepresentation of a material fact in connection with an abbreviated drug application;

(B) bribed or attempted to bribe or paid or attempted to pay an illegal gratuity to any officer, employee, or agent of the Department in connection with an abbreviated drug application;

(C) destroyed, altered, removed, or secreted, or procured the destruction, alteration, removal, or secretion of, any material document

or other material evidence that was the property of or in the possession of the Department for the purpose of interfering with that Department's discharge of its responsibilities in connection with an abbreviated drug application;

(D) knowingly failed to disclose, to an officer or employee of the Department, a material fact that the person had an obligation to disclose relating to any drug subject to an abbreviated drug application;

(E) knowingly obstructed an investigation of the Department into any drug subject to an abbreviated drug application;

(F) is a person that has an approved or pending drug product application and has knowingly—

(i) employed or retained as a consultant or contractor a person that was debarred under section 10506 of this title; or

(ii) otherwise used in any capacity the services of a person that was debarred under section 10506 of this title; or

(G) is an individual debarred under section 10506 of this title and, during the period of de-

barment, provided services in any capacity to a person that had an approved or pending drug product application.

(2) AMOUNTS.—A person described under paragraph (1) shall be liable to the United States for a civil penalty for each violation under paragraph (1) in an amount not to exceed $250,000 in the case of an individual and $1,000,000 in the case of any other person.

(b) PROCEDURE.—

(1) IN GENERAL.—

(A) ACTION BY THE SECRETARY.—A civil penalty under subsection (a) shall be assessed by the Secretary on a person by an order made on the record after an opportunity for an agency hearing on disputed issues of material fact and the amount of the penalty. In the course of any investigation or hearing under this subparagraph, the Secretary may administer oaths and affirmations, examine witnesses, receive evidence, and issue subpoenas requiring the attendance and testimony of witnesses and the production of evidence that relates to the matter under investigation.

(B) ACTION BY THE ATTORNEY GENERAL.—In lieu of a proceeding under subparagraph (A), the Attorney General may, on request of the Secretary, institute a civil action to recover a civil penalty in the amount and for any of the acts set forth in subsection (a). Such an action may be instituted separately from or in connection with any other claim, civil or criminal, initiated by the Attorney General under this subtitle.

(2) AMOUNT.—In determining the amount of a civil penalty under paragraph (1), the Secretary or the court shall take into account the nature, circumstances, extent, and gravity of the act subject to penalty, the person's ability to pay, the effect on the person's ability to continue to do business, any history of prior, similar acts, and such other matters as justice may require.

(3) LIMITATION ON ACTIONS.—An action shall not be initiated under this section more than 6 years after the date on which facts material to the act described in subsection (a) are known or reasonably should have been known by the Secretary but not more than 10 years after the date the act took place.

(c) JUDICIAL REVIEW.—Any person that is the subject of an adverse decision under subsection (b)(1)(A) may obtain a review of the decision by the United States Court of Appeals for the District of Columbia or for the circuit in which the person resides, by filing in the court (within 60 days following the date the person is notified of the Secretary's decision) a petition requesting that the decision be modified or set aside.

(d) RECOVERY OF PENALTIES.—

(1) IN GENERAL.—The Attorney General may recover any civil penalty (plus interest at the currently prevailing rates from the date the penalty became final) assessed under subsection (b)(1)(A) in an action brought in the name of the United States.

(2) DEDUCTION FROM AMOUNTS OWED.—The amount of the penalty may be deducted, when the penalty has become final, from any sums then or later owed by the United States to the person against whom the penalty has been assessed.

(3) VALIDITY, AMOUNT, APPROPRIATENESS.—In an action brought under this subsection, the validity, amount, and appropriateness of the penalty shall not be subject to judicial review.

(e) INFORMANTS.—

(1) IN GENERAL.—The Secretary may award to any individual (other than an officer or employee of the Federal Government or an individual who materially participated in any conduct described in subsection (a)) who provides information leading to the imposition of a civil penalty under this section an amount not to exceed $250,000 or ½ of the penalty imposed and collected, whichever is less.

(2) REVIEWABILITY.—The decision of the Secretary on the award shall not be reviewable.

**§ 10508. Authority to withdraw approval of abbreviated drug applications**

(a) IN GENERAL.—The Secretary—

(1) shall withdraw approval of an abbreviated drug application if the Secretary finds that the approval was obtained, expedited, or otherwise facilitated through bribery, payment of an illegal gratuity, or fraud or material false statement; and

(2) may withdraw approval of an abbreviated drug application if the Secretary finds that the applicant has repeatedly demonstrated a lack of ability to produce the drug for which the application was submitted in accordance with the formulations or manufacturing practice set forth in the abbreviated drug application and has introduced, or attempted to

introduce, the adulterated or misbranded drug into commerce.

(b) PROCEDURE.—The Secretary may not take any action under subsection (a) with respect to any person unless the Secretary has issued an order for the action made on the record after opportunity for an agency hearing on disputed issues of material fact. In the course of any investigation or hearing under this subsection, the Secretary may administer oaths and affirmations, examine witnesses, receive evidence, and issue subpoenas requiring the attendance and testimony of witnesses and the production of evidence that relates to the matter under investigation.

(c) APPLICABILITY.—Subsection (a) shall apply with respect to offenses or acts regardless of when the offenses or acts occurred.

(d) JUDICIAL REVIEW.—Any person that is the subject of an adverse decision under subsection (a) may obtain a review of the decision by the United States Court of Appeals for the District of Columbia or for the circuit in which the person resides, by filing in the court (within 60 days following the date the person is notified of the Secretary's decision) a petition requesting that the decision be modified or set aside.

**§ 10509. Report of minor violations**

Nothing in this subtitle shall be construed as requiring the Secretary to report for prosecution, or for the institution of civil action or injunction proceedings, minor violations of this subtitle if the Secretary believes that the public interest will be adequately served by a suitable written notice or warning.

**§ 10510. Proceedings in name of United States or a State**

(a) UNITED STATES.—

(1) IN GENERAL.—Except as provided in subsection (b), all proceedings for the enforcement, or to restrain violations, of this subtitle shall be by and in the name of the United States.

(2) SUBPOENAS.—Subpoenas for witnesses who are required to attend a court of the United States, in any district, may run into any other district in any proceeding under this section.

(b) STATES.—

(1) IN GENERAL.—A State may bring in its own name and within its jurisdiction proceedings for the civil enforcement, or to restrain violations, of section 11101, 11302, 11303, 11304, 11305, 11306, 11307, 11308, 11309, 11310, 11312, 11316, or 11317 of this title if the food that is the subject of the proceedings is located in the State.

(2) COMMENCEMENT.—A proceeding shall not be commenced by a State under paragraph (1)—

(A) before 30 days after the State has given notice to the Secretary that the State intends to bring the proceeding;

(B) before 90 days after the State has given notice to the Secretary of the intent if the Secretary has, within the 30 days, commenced an informal or formal enforcement action pertaining to the food that would be the subject of the proceeding; or

(C) if the Secretary is diligently prosecuting a proceeding in court pertaining to the food, has settled the proceeding, or has settled the informal or formal enforcement action pertaining to the food.

(3) INTERVENTION.—In any court proceeding described in paragraph (2)(C), a State may intervene as a matter of right.

**§ 10511. Extraterritorial jurisdiction**

There is extraterritorial jurisdiction over any violation of this subtitle relating to any article regulated under this subtitle if the article was intended for import into the United States or if any act in furtherance of the violation was committed in the United States.

11126. Requirements for critical food.

## § 11101. Definitions and standards for food

(a) IN GENERAL.—The Secretary shall promulgate regulations fixing and establishing for any food, under its common or usual name, to the extent practicable, a reasonable definition and standard of identity, a reasonable standard of quality, or reasonable standards of fill of container if, in the judgment of the Secretary, promulgating the regulations will promote honesty and fair dealing in the interest of consumers.

(b) FRESH AND DRIED FRUITS; BUTTER.—

(1) IN GENERAL.—Except as provided in paragraph (2)(A), a definition and standard of identity or a standard of quality shall not be established for fresh or dried fruits, fresh or dried vegetables, or butter.

(2) AVOCADOES, CANTALOUPES, CITRUS FRUITS, AND MELONS.—

(A) IN GENERAL.—Definitions and standards of identity may be established for avocadoes, cantaloupes, citrus fruits, and melons.

(B) MATURITY AND EFFECTS OF FREEZING ONLY.—Any definition and standard of identity prescribed by the Secretary for avocadoes, cantaloupes, citrus fruits, or melons shall relate only to maturity and to the effects of freezing.

(c) FACTORS TO CONSIDER IN REGULATING STANDARD OF FILL OF CONTAINER.—In prescribing any standard of fill of container, the Secretary shall consider—

(1) the natural shrinkage in storage and in transit of fresh natural food; and

(2) the need for the necessary packing and protective material.

(d) FACTOR TO CONSIDER IN REGULATING STANDARD OF QUALITY FOR CANNED FRUITS AND VEGETA-

BLES.—In prescribing any standard of quality for any canned fruit or canned vegetable, the Secretary shall consider and allow for the differing characteristics of the several varieties of the fruit or vegetable.

(e) OPTIONAL INGREDIENTS.—In prescribing a definition and standard of identity for any food or class of food in which optional ingredients are permitted, the Secretary shall, for the purpose of promoting honesty and fair dealing in the interest of consumers, designate the optional ingredients that shall be named on the label.

**§ 11102. Adulterated food**

(a) POISONOUS, INSANITARY, OR UNSAFE SUBSTANCES, INGREDIENTS, OR CONDITIONS.—A food shall be deemed to be adulterated—

(1) if it bears or contains any poisonous or deleterious substance that may render it injurious to health, but if the substance is not an added substance, the food shall not be considered adulterated under this paragraph if the quantity of the substance in the food does not ordinarily render the food injurious to health;

(2)(A) if it bears or contains any added poisonous or added deleterious substance (other than a substance that is a pesticide chemical residue in or on a raw agricultural commodity or processed food,

a food additive, a color additive, or a new animal drug) that is unsafe within the meaning of section 11108 of this title;

(B) if it bears or contains a pesticide chemical residue that is unsafe within the meaning of section 11110(b) of this title; or

(C) if it is or if it bears or contains—

(i) any food additive that is unsafe within the meaning of section 11111 of this title; or

(ii) a new animal drug (or conversion product of a new animal drug) that is unsafe within the meaning of chapter 137 of this title;

(3) if it consists in whole or in part of any filthy, putrid, or decomposed substance, or if it is otherwise unfit for food;

(4) if it has been prepared, packed, or held under insanitary conditions whereby—

(A) it may have become contaminated with filth; or

(B) it may have been rendered injurious to health;

(5) if it is, in whole or in part, the product of a diseased animal or of an animal that has died otherwise than by slaughter;

(6) if its container is composed, in whole or in part, of any poisonous or deleterious substance that may render the contents injurious to health; or

(7) if it has been intentionally subjected to radiation, unless the use of the radiation was in conformity with a regulation or exemption in effect pursuant to section 11111 of this title.

(b) ABSENCE, SUBSTITUTION, OR ADDITION OF CONSTITUENTS.—A food shall be deemed to be adulterated—

(1) if any valuable constituent has been in whole or in part omitted or abstracted from the food;

(2) if any substance has been substituted wholly or in part for the food;

(3) if damage or inferiority has been concealed in any manner; or

(4) if any substance has been added to the food or mixed or packed with the food so as to increase its bulk or weight, or reduce its quality or strength, or make it appear better or of greater value than it is.

(c) COLOR ADDITIVES.—A food shall be deemed to be adulterated if it is, or if it bears or contains, a color additive that is unsafe within the meaning of section 17701(a) of this title.

(d) CONFECTIONERY CONTAINING ALCOHOL OR NONNUTRITIVE SUBSTANCE.—

(1) EMBEDDED NONNUTRITIVE OBJECT.—

(A) IN GENERAL.—A food shall be deemed to be adulterated if—

(i) it is confectionery; and

(ii) a nonnutritive object is partially or completely embedded in the food.

(B) INAPPLICABILITY.—This paragraph shall not apply in the case of any nonnutritive object if, in the judgment of the Secretary as provided by regulations, the object is of practical functional value to the confectionery product and would not render the product injurious or hazardous to health.

(2) ALCOHOL.—

(A) IN GENERAL.—A food shall be deemed to be adulterated if—

(i) it is confectionery; and

(ii) it bears or contains any alcohol other than alcohol not in excess of ½ of 1 percent by volume derived solely from the use of flavoring extracts.

(B) INAPPLICABILITY.—This paragraph shall not apply to confectionery that is intro-

duced or delivered for introduction into, or received or held for sale in, interstate commerce if the sale of the confectionery is permitted under the laws of the State in which the confectionery is intended to be offered for sale.

(3) BEARING OR CONTAINING NONNUTRITIVE SUBSTANCE.—

(A) IN GENERAL.—A food shall be deemed to be adulterated if—

(i) it is confectionery; and

(ii) it bears or contains any nonnutritive substance.

(B) INAPPLICABILITY.—This paragraph shall not apply to a safe nonnutritive substance that is in or on confectionery by reason of its use for some practical functional purpose in the manufacture, packaging, or storage of the confectionery if the use of the substance does not—

(i) promote deception of the consumer; or

(ii) otherwise result in adulteration or misbranding in violation of any provision of this subtitle.

(C) ISSUANCE OF REGULATIONS TO AVOID OR RESOLVE UNCERTAINTY AS TO APPLICABILITY.—The Secretary may, for the purpose of avoiding or resolving uncertainty as to the application of this paragraph, issue regulations allowing or prohibiting the use of particular nonnutritive substances.

(e) OLEOMARGARINE.—A food shall be deemed to be adulterated if it is oleomargarine, margarine, or butter and—

(1) any of the raw material used in the oleomargarine, margarine, or butter consisted in whole or in part of any filthy, putrid, or decomposed substance; or

(2) the oleomargarine, margarine, or butter is otherwise unfit for food.

(f) DIETARY SUPPLEMENT OR DIETARY INGREDIENT; SAFETY.—

(1) IN GENERAL.—A food shall be deemed to be adulterated if it is a dietary supplement or contains a dietary ingredient that—

(A) presents a significant or unreasonable risk of illness or injury—

(i) under conditions of use recommended or suggested in labeling; or

(ii) if no conditions of use are suggested or recommended in the labeling, under ordinary conditions of use;

(B) is a new dietary ingredient for which there is inadequate information to provide reasonable assurance that the ingredient does not present a significant or unreasonable risk of illness or injury;

(C) the Secretary declares to pose an imminent hazard to public health or safety, except that the authority to make the declaration shall not be delegated and the Secretary shall promptly after such a declaration initiate a proceeding in accordance with sections 554 and 556 of title 5 to affirm or withdraw the declaration; or

(D) is or contains a dietary ingredient that renders it adulterated under subsection (a)(1) under the conditions of use recommended or suggested in the labeling of the dietary supplement.

(2) BURDEN OF PROOF; STANDARD OF REVIEW.—In any proceeding under paragraph (1), the United States shall bear the burden of proof on each element to show that a dietary supplement is adul-

terated. The court shall decide any issue under paragraph (1) on a de novo basis.

(3) NOTICE AND OPPORTUNITY TO PRESENT VIEWS.—Before the Secretary may report to a United States attorney a violation of paragraph (1)(A) for a civil proceeding, the person against whom the proceeding would be initiated shall be given appropriate notice and the opportunity to present views, orally and in writing, at least 10 days before the notice, with regard to the proceeding.

(g) DIETARY SUPPLEMENT; MANUFACTURING PRACTICES.—

(1) IN GENERAL.—A food shall be deemed to be adulterated if it is a dietary supplement and it has been prepared, packed, or held under conditions that do not meet current good manufacturing practice regulations, including regulations requiring, when necessary, expiration date labeling, issued by the Secretary under paragraph (2).

(2) REGULATIONS.—

(A) IN GENEAL.—The Secretary may by regulation prescribe good manufacturing practices for dietary supplements.

(B) MODEL.—The regulations shall be modeled after current good manufacturing

practice regulations for food and may not impose standards for which there is no current and generally available analytical methodology.

(C) NOTICE AND COMMENT.—A standard of current good manufacturing practice shall not be imposed unless the standard is included in a regulation promulgated after notice and opportunity for comment in accordance with chapter 5 of title 5.

(h) REOFFER OF FOOD PREVIOUSLY DENIED ADMISSION.—A food shall be deemed to be adulterated if it is an article of food imported or offered for import into the United States and the article of food has previously been refused admission under section 20101(a) of this title, unless the person reoffering the article affirmatively establishes, at the expense of the owner or consignee of the article, that the article complies with the applicable requirements of this subtitle, as determined by the Secretary.

(i) NONCOMPLIANCE WITH SANITARY TRANSPORTATION PRACTICES.—A food shall be deemed to be adulterated if it is transported or offered for transport by a shipper, carrier by motor vehicle or rail vehicle, receiver, or any other person engaged in the transportation of food

under conditions that are not in compliance with regulations promulgated under section 11118 of this title.

**§ 11103. National uniform nutrition labeling**

(a) IN GENERAL.—Except as provided in subsection (c), a State or political subdivision of a State shall not directly or indirectly establish under any authority or continue in effect as to any food in interstate commerce—

(1) any requirement for a food that is the subject of a standard of identity established under section 11101 of this title that is not identical to the standard of identity or that is not identical to the requirement of section 11307 of this title, except that this paragraph does not apply to a standard of identity of a State or political subdivision of a State for maple syrup that is of the type required by sections 11101 and 11307 of this title;

(2) any requirement for the labeling of food of the type required by section 11303, 11305, 11310(a)(2), 11323, or 11324 of this title that is not identical to the requirement of the section, except that this paragraph does not apply to a requirement of a State or political subdivision of a State that is of the type required by section 11303 of this title and that is applicable to maple syrup;

(3) any requirement for the labeling of food of the type required by section 11302, 11304, 11306, 11308, 11309, 11310(a)(1), or 11312 of this title that is not identical to the requirement of the section, except that this paragraph does not apply to a requirement of a State or political subdivision of a State that is of the type required by section 11308(1) of this title and that is applicable to maple syrup;

(4) any requirement for nutrition labeling of food that is not identical to the requirement of section 11316 of this title, except that this paragraph does not apply to food that is offered for sale in a restaurant or similar retail food establishment that is not part of a chain with 20 or more locations doing business under the same name (regardless of the type of ownership of the locations) and that offers for sale substantially the same menu items unless the restaurant or similar retail food establishment complies with the voluntary provision of nutrition information requirements under section 11316(g)(10) of this title; or

(5) any requirement respecting any claim of the type described in section 11317(a) of this title made in the label or labeling of food that is not identical

to the requirement of section 11317 of this title, except a requirement respecting a claim made in the label or labeling of food that is exempt under section 11317(e)(2) of this title.

(b) APPLICATION OF SUBSECTION (a)(3).—Subsection (a)(3) shall take effect in accordance with section 6(b) of the Nutrition Labeling and Education Act of 1990 (Pub. L. 101–535, 104 Stat. 2363).

(c) EXEMPTION BY PETITION.—On petition of a State or a political subdivision of a State, the Secretary may exempt from subsection (a), under such conditions as may be prescribed by regulation, any State or local requirement that—

(1) would not cause any food to be in violation of any applicable requirement under Federal law;

(2) would not unduly burden interstate commerce; and

(3) is designed to address a particular need for information, which need is not met by the requirements of the provisions referred to in subsection (a).

**§ 11104. Dietary supplement labeling exemptions**

(a) IN GENERAL.—A publication (including an article, a chapter in a book, or an official abstract of a peer-reviewed scientific publication that appears in an article and was prepared by the author or the editors of the publi-

cation) that is reprinted in its entirety shall not be defined as labeling when used in connection with the sale of a dietary supplement to consumers if it—

(1) is not false or misleading;

(2) does not promote a particular manufacturer or brand of a dietary supplement;

(3) is displayed or presented, or is displayed or presented with other publications on the same subject matter, so as to present a balanced view of the available scientific information on a dietary supplement;

(4) if displayed in an establishment, is physically separate from the dietary supplements; and

(5) does not have appended to it any information by sticker or any other method.

(b) APPLICATION.—Subsection (a) shall not apply to or restrict a retailer or wholesaler of dietary supplements in the sale of books or other publications as a part of the business of the retailer or wholesaler.

(c) BURDEN OF PROOF.—In any proceeding brought under subsection (a), the burden of proof shall be on the United States to establish that a publication is false or misleading.

**§ 11105. Disclosure relating to radiation**

(a) DEFINITION OF RADIATION DISCLOSURE STATEMENT.—In this section, the term ''radiation disclosure statement'' means a written statement that discloses that a food has been intentionally subject to radiation.

(b) CONSTRUCTION OF CERTAIN PROVISIONS.—Sections 10101(c)(1), 11301, and 11111 of this title shall not be construed to require, on the label or labeling of a food, a separate radiation disclosure statement that is more prominent than the declaration of ingredients required by section 11310(a)(2) of this title.

**§ 11106. Emergency permit relating to contaminated food**

(a) REGULATIONS FOR THE ISSUANCE OF PERMITS.—

(1) IN GENERAL.—The Secretary shall prescribe regulations providing for the issuance of permits described in this subsection if the Secretary finds, after investigation, that—

(A) the distribution in interstate commerce of any class of food may, by reason of contamination with microorganisms during the manufacture, processing, or packing, in any locality, of articles of food within the class, be injurious to health; and

(B) the injurious nature cannot be adequately determined after the articles have entered interstate commerce.

(2) PERMITTEES.—The permits under paragraph (1) shall be issued to manufacturers, processors, or packers of the class of food described in paragraph (1) in the locality.

(3) CONDITIONS.—Conditions governing the manufacture, processing, or packing of the class of food under paragraph (1) shall be attached to the permits under paragraph (1) for such temporary period of time as may be necessary to protect the public health.

(4) PROHIBITION ON INTRODUCTION OR DELIVERY FOR INTRODUCTION INTO INTERSTATE COMMERCE.—After the effective date of the regulations under paragraph (1), and during the temporary period described in paragraph (3), a person shall not introduce or deliver for introduction into interstate commerce any article of food within the class described in paragraph (1) manufactured, processed, or packed by any manufacturer, processor, or packer of the class of food described in paragraph (1) in the locality unless the manufacturer, processor, or pack-

er holds a permit issued by the Secretary as provided by the regulations.

(b) SUSPENSION AND REINSTATEMENT OF PERMITS.—

(1) SUSPENSION.—The Secretary may suspend immediately upon notice any permit issued under this section if the Secretary finds that any of the conditions of the permit has been violated.

(2) REINSTATEMENT.—

(A) APPLICATION.—The holder of a permit suspended under paragraph (1) shall be privileged at any time to apply for the reinstatement of the permit.

(B) COMPLIANCE AND REINSTATEMENT.—The Secretary shall, immediately after prompt hearing and an inspection of the manufacturing, processing, or packing establishment, reinstate the permit if the Secretary finds that adequate measures have been taken to comply with and maintain the conditions of the permit, as originally issued or as amended.

(c) INSPECTION OF PERMIT-HOLDING ESTABLISHMENTS.—

(1) ACCESS TO ESTABLISHMENTS.—Any officer or employee designated by the Secretary shall have

access to any factory or establishment, the operator of which holds a permit from the Secretary, for the purpose of ascertaining whether or not the conditions of the permit are being complied with.

(2) DENIAL OF ACCESS AS GROUND FOR SUSPENSION OF PERMIT.—Denial of access for the inspection shall be ground for suspension of the permit until access is freely given by the operator.

**§ 11107. Regulations making labeling exemptions**

(a) IN GENERAL.—The Secretary shall promulgate regulations exempting from any labeling requirement of this subtitle—

(1) small open containers of fresh fruits and fresh vegetables; and

(2) food that is, in accordance with the practice of the trade, to be processed, labeled, or repacked in substantial quantities at establishments other than those where originally processed or packed, on condition that the food is not adulterated or misbranded under this subtitle on removal from the processing, labeling, or repacking establishment.

(b) INAPPLICABILITY.—This section does not apply to the labeling requirements of sections 11316 and 11317 of this title.

**§ 11108. Added poisonous or deleterious substances deemed unsafe; tolerances**

(a) IN GENERAL.—Any poisonous or deleterious substance added to any food shall be deemed to be unsafe for purposes of the application of section 11102(a)(2)(A) of this title.

(b) EXCEPTIONS.—A poisonous or deleterious substance added to any food shall not be deemed to be unsafe under subsection (a) if the substance—

(1) is required in the production of the food; or

(2) cannot be avoided by good manufacturing practice.

(c) LIMITING QUANTITIES BY REGULATION.—If a substance is required or cannot be avoided under subsection (b), the Secretary or the Administrator, as applicable pursuant to section 2(a)(4) of Reorganization Plan No. 3 of 1970 (42 U.S.C. 4321 note), shall prescribe regulations limiting the quantity in or on the food to such extent as the Secretary or Administrator finds necessary for the protection of public health.

(d) EXCEEDING LIMITS.—Any quantity exceeding the limits prescribed by regulation under subsection (c) shall also be deemed to be unsafe for purposes of the application of section 11102(a)(2)(A) of this title.

(e) EFFECT OF REGULATION ON CERTAIN FOOD DEEMED ADULTERATED.—While a regulation under sub-

section (c) is in effect limiting the quantity of a substance in the case of any food, the food shall not, by reason of bearing or containing any added amount of the substance, be considered to be adulterated within the meaning of section 11102(a)(1) of this title.

(f) TOLERANCE.—In determining the quantity of an added poisonous or deleterious substance to be tolerated in or on different articles of food, the Secretary or the Administrator, as applicable pursuant to section 2(a)(4) of Reorganization Plan No. 3 of 1970 (42 U.S.C. 4321 note), shall take into account the extent to which the use of the substance is required or cannot be avoided in the production of each of those articles, and the other ways in which the consumer may be affected by the same or other poisonous or deleterious substances.

**§ 11109. Intrastate sales of colored oleomargarine**

(a) MARGARINE; OLEOMARGARINE.—

(1) MARGARINE; INCLUSIONS.—In this section, the term ''margarine'' includes—

(A) all substances, mixtures, and compounds known as margarine; and

(B) all substances, mixtures, and compounds that have a consistency similar to butter and that contain any edible oil or fat other than

milk fat if made in imitation or semblance of butter.

(2) OLEOMARGARINE; INCLUSIONS.—In this section, the term ''oleomargarine'' includes—

(A) all substances, mixtures, and compounds known as oleomargarine; and

(B) all substances, mixtures, and compounds that have a consistency similar to butter and that contain any edible oil or fat other than milk fat if made in imitation or semblance of butter.

(b) COLOR CONTENT OF OLEOMARGARINE.—For the purpose of this section, colored oleomargarine or colored margarine is oleomargarine or margarine having a tint or shade containing more than $1^{6}/_{10}$ degrees of yellow, or of yellow and red collectively, but with an excess of yellow over red, measured in terms of Lovibond tintometer scale or its equivalent.

(c) SUBJECT TO SUBTITLE AS IF INTRODUCED IN INTERSTATE COMMERCE.—Colored oleomargarine or colored margarine that is sold in the same State or territory of the United States in which it is produced shall be subject in the same manner and to the same extent to this subtitle as if it had been introduced in interstate commerce.

(d) LABELING AND PACKAGING REQUIREMENTS.—

(1) IN GENERAL.—A person shall not sell, or offer for sale, colored oleomargarine or colored margarine unless—

(A) the colored oleomargarine or colored margarine is packaged;

(B) the net weight of the contents of the package sold in a retail establishment is 1 pound or less;

(C) the label of the package shows—

(i) the word ''oleomargarine'' or ''margarine'' in type or lettering at least as large as any other type or lettering on the label; and

(ii) a full and accurate statement of all the ingredients contained in the oleomargarine or margarine; and

(D) each part of the contents of the package is contained in a wrapper that bears the word ''oleomargarine'' or ''margarine'' in type or lettering not smaller than 20-point type.

(2) EFFECT OF SUBSECTION.—The requirements of this subsection shall be in addition to and not in lieu of any of the other requirements of this subtitle.

(e) SALES IN PUBLIC EATING PLACES.—

(1) PROMINENT DISPLAY.—A person shall not possess, in a form ready for serving, colored oleomargarine or colored margarine at a public eating place unless a notice that oleomargarine or margarine is served—

(A) is displayed prominently and conspicuously in such place and in such manner as to render it likely to be read and understood by an ordinary individual being served in the eating place; or

(B) is printed or is otherwise set forth on the menu in type or lettering not smaller than that normally used to designate the serving of other food items.

(2) MANNER OF SERVING.—A person shall not serve colored oleomargarine or colored margarine at a public eating place, whether or not any charge is made for the colored oleomargarine or colored margarine, unless—

(A) each separate serving bears or is accompanied by labeling identifying the serving as oleomargarine or margarine; or

(B) each separate serving is triangular in shape.

(f) EXEMPTION FROM LABELING REQUIREMENTS.—Colored oleomargarine or colored margarine, when served with meals at a public eating place, shall, at the time of the service, be exempt from the labeling requirements of chapter 113 of this title (except sections 11301 and 11306 of this title) if it complies with the requirements of subsection (d).

**§ 11110. Tolerances and exemptions for pesticide chemical residues**

(a) DEFINITIONS.—In this section:

(1) FOOD.—The term ''food'', when used as a noun without modification, means a raw agricultural commodity or processed food.

(2) MODIFY.—The term ''modify'', with respect to a tolerance, does not mean to expand the tolerance to cover additional foods.

(3) SAFE.—The term ''safe'', with respect to a tolerance for a pesticide chemical residue or to an exemption from the requirement for a tolerance, means that there is, as determined by the Administrator, a reasonable certainty that no harm will result from aggregate exposure to the pesticide chemical residue, including all anticipated dietary exposures and all other exposures for which there is reliable information.

(b) REQUIREMENT FOR TOLERANCE OR EXEMPTION.—

(1) IN GENERAL.—Except as provided in paragraph (2) or (3), any pesticide chemical residue in or on a food shall be deemed unsafe for the purpose of section 11102(a)(2)(B) of this title unless—

(A) a tolerance for the pesticide chemical residue in or on the food is in effect under this section and the quantity of the residue is within the limits of the tolerance; or

(B) an exemption from the requirement for a tolerance is in effect under this section for the pesticide chemical residue.

(2) PROCESSED FOOD.—Notwithstanding paragraph (1)—

(A) if a tolerance is in effect under this section for a pesticide chemical residue in or on a raw agricultural commodity, a pesticide chemical residue that is present in or on a processed food because the food is made from that raw agricultural commodity shall not be considered unsafe within the meaning of section 11102(a)(2)(B) of this title despite the lack of a tolerance for the pesticide chemical residue in or on the processed food if—

(i) the pesticide chemical has been used in or on the raw agricultural commodity in conformity with a tolerance under this section;

(ii) the pesticide chemical residue in or on the raw agricultural commodity is removed to the extent possible in good manufacturing practice; and

(iii) the concentration of the pesticide chemical residue in the processed food is not greater than the tolerance prescribed for the pesticide chemical residue in the raw agricultural commodity; or

(B) if an exemption for the requirement for a tolerance is in effect under this section for a pesticide chemical residue in or on a raw agricultural commodity, a pesticide chemical residue that is present in or on a processed food because the food is made from that raw agricultural commodity shall not be considered unsafe within the meaning of section 11102(a)(2)(B) of this title.

(3) RESIDUES OF DEGRADATION PRODUCTS.—If a pesticide chemical residue is present in or on a food because it is a metabolite or other degradation

product of a precursor substance that itself is a pesticide chemical or pesticide chemical residue, the pesticide chemical residue present in or on the food shall not be considered to be unsafe within the meaning of section 11102(a)(2)(B) of this title despite the lack of a tolerance or exemption from the requirement for a tolerance for the pesticide chemical residue in or on the food if—

(A) the Administrator has not determined that the degradation product is likely to pose any potential health risk from dietary exposure that is of a different type than, or of a greater significance than, any risk posed by dietary exposure to the precursor substance;

(B) either—

(i) a tolerance is in effect under this section for pesticide chemical residues of the precursor substance in or on the food, and the combined level of pesticide chemical residues of the degradation product and the precursor substance in or on the food is at or below the stoichiometrically equivalent level that would be permitted by the tolerance if the pesticide chemical residue consisted only of the precursor sub-

stance rather than the degradation product; or

(ii) an exemption from the requirement for a tolerance is in effect under this section for pesticide chemical residues of the precursor substance in or on the food; and

(C) the tolerance or exemption for pesticide chemical residues of the precursor substance does not state that it applies only to particular-named substances and does not state that it does not apply to pesticide chemical residues of the degradation product.

(4) EFFECT OF TOLERANCE OR EXEMPTION.—While a tolerance or exemption from the requirement for a tolerance is in effect under this section for a pesticide chemical residue with respect to any food, the food shall not, by reason of bearing or containing any amount of the pesticide chemical residue, be considered to be adulterated within the meaning of section 11102(a)(1) of this title.

(c) AUTHORITY AND STANDARD FOR TOLERANCE.—

(1) AUTHORITY.—The Administrator may issue regulations establishing, modifying, or revoking a

tolerance for a pesticide chemical residue in or on a food—

(A) in response to a petition filed under subsection (e); or

(B) on the Administrator's own initiative under subsection (f).

(2) STANDARD.—

(A) ESTABLISHMENT; MODIFICATION; REVOCATION.—

(i) IN GENERAL.—

(I) ESTABLISHMENT.—The Administrator may establish or leave in effect a tolerance for a pesticide chemical residue in or on a food only if the Administrator determines that the tolerance is safe.

(II) MODIFICATION; REVOCATION.—The Administrator shall modify or revoke a tolerance if the Administrator determines it is not safe.

(ii) RULE OF CONSTRUCTION.—With respect to a tolerance, a pesticide chemical residue meeting the standard under clause (i) is not an eligible pesticide chemical residue for purposes of subparagraph (B).

(B) TOLERANCES FOR ELIGIBLE PESTICIDE CHEMICAL RESIDUES.—

(i) DEFINITION OF ELIGIBLE PESTICIDE CHEMICAL RESIDUE.—In this subparagraph, the term ''eligible pesticide chemical residue'' means a pesticide chemical residue as to which—

(I) the Administrator is not able to identify a level of exposure to the pesticide chemical residue at which the pesticide chemical residue will not cause or contribute to a known or anticipated harm to human health (referred to in this section as a ''nonthreshold effect'');

(II) the lifetime risk of experiencing the nonthreshold effect is appropriately assessed by quantitative risk assessment; and

(III) with regard to any known or anticipated harm to human health for which the Administrator is able to identify a level at which the pesticide chemical residue will not cause the harm (referred to in this section as a

''threshold effect''), the Administrator determines that the level of aggregate exposure is safe.

(ii) DETERMINATION OF TOLERANCE.—Notwithstanding subparagraph (A)(i), a tolerance for an eligible pesticide chemical residue may be left in effect or modified under this subparagraph if—

(I) at least one of the conditions described in clause (iii) is met; and

(II) both of the conditions described in clause (iv) are met.

(iii) CONDITIONS REGARDING USE.—For purposes of clause (ii), the conditions described in this clause with respect to a tolerance for an eligible pesticide chemical residue are the following:

(I) Use of the pesticide chemical that produces the pesticide chemical residue protects consumers from adverse effects on health that would pose a greater risk than the dietary risk from the pesticide chemical residue.

(II) Use of the pesticide chemical that produces the pesticide chemical residue is necessary to avoid a significant disruption in domestic production of an adequate, wholesome, and economical food supply.

(iv) CONDITIONS REGARDING RISK.—For purposes of clause (ii), the conditions described in this clause with respect to a tolerance for an eligible pesticide chemical residue are the following:

(I) The yearly risk associated with the nonthreshold effect from aggregate exposure to the pesticide chemical residue does not exceed 10 times the yearly risk that would be allowed under subparagraph (A) for the nonthreshold effect.

(II) The tolerance is limited so as to ensure that the risk over a lifetime associated with the nonthreshold effect from aggregate exposure to the pesticide chemical residue is not greater than twice the lifetime risk

that would be allowed under subparagraph (A) for the nonthreshold effect.

(v) REVIEW.—

(I) IN GENERAL.—Five years after the date on which the Administrator makes a determination to leave in effect or modify a tolerance under this subparagraph, and thereafter as the Administrator considers appropriate, the Administrator shall determine, after notice and opportunity for comment, whether it has been demonstrated to the Administrator that—

(aa) a condition described in subclause (I) or (II) of clause (iii) continues to exist with respect to the tolerance; and

(bb) the yearly and lifetime risks from aggregate exposure to the pesticide chemical residue continue to comply with the limits specified in clause (iv).

(II) NO DEMONSTRATION THAT CONDITIONS WERE MET.—If the Administrator determines that the dem-

onstration under subclause (I) is not made by the date described in subclause (I), the Administrator shall, not later than 180 days after the date of the determination, issue a regulation under subsection (f)(1) to modify or revoke the tolerance.

(vi) INFANTS AND CHILDREN.—Any tolerance under this subparagraph shall meet the requirements of subparagraph (C).

(C) EXPOSURE OF INFANTS AND CHILDREN.—

(i) IN GENERAL.—In establishing, modifying, leaving in effect, or revoking a tolerance or exemption for a pesticide chemical residue, the Administrator—

(I) shall assess the risk of the pesticide chemical residue based on—

(aa) available information about consumption patterns among infants and children that are likely to result in disproportionately high consumption of foods containing or bearing the

pesticide chemical residue among infants and children in comparison to the general population;

(bb) available information concerning the special susceptibility of infants and children to the pesticide chemical residues, including neurological differences between infants and children and adults, and effects of in utero exposure to pesticide chemicals; and

(cc) available information concerning the cumulative effects, on infants and children, of the pesticide chemical residues and other substances that have a common mechanism of toxicity; and

(II) shall—

(aa) ensure that there is a reasonable certainty that no harm will result to infants and children from aggregate exposure

to the pesticide chemical residue; and

(bb) publish a specific determination regarding the safety of the pesticide chemical residue for infants and children.

(ii) SURVEYS.—The Secretary and the Secretary of Agriculture, in consultation with the Administrator, shall conduct surveys to document dietary exposure to pesticides among infants and children.

(iii) DEVELOPMENT AND IMPLEMENTATION OF SURVEY PROCEDURES.—

(I) IN GENERAL.—The Secretary of Agriculture, in consultation with the Administrator and the Secretary, shall coordinate the development and implementation of survey procedures to ensure that adequate data on food consumption patterns of infants and children are collected.

(II) INCLUSIONS.—To the extent practicable, the procedures referred to in subclause (I) shall include the collection of data on food consumption

patterns of a statistically valid sample of infants and children.

(III) RESIDUE DATA COLLECTION.—The Secretary of Agriculture shall ensure that the residue data collection activities conducted by the Department of Agriculture, in cooperation with the Environmental Protection Agency and the Department, provide for the improved data collection of pesticide residues, including guidelines for the use of comparable analytical and standardized reporting methods, and the increased sampling of foods most likely consumed by infants and children.

(iv) THRESHOLD EFFECTS.—

(I) ADDITIONAL MARGIN OF SAFETY.—In the case of threshold effects, for purposes of clause (i)(II)(aa), an additional tenfold margin of safety for the pesticide chemical residue and other sources of exposure shall be applied for infants and children to take into account potential

pre-natal and post-natal toxicity and completeness of the data with respect to exposure and toxicity to infants and children.

(II) USE OF A DIFFERENT MARGIN OF SAFETY.—Notwithstanding the requirement for an additional margin of safety under subclause (I), the Administrator may use a different margin of safety for the pesticide chemical residue only if, on the basis of reliable data, the margin will be safe for infants and children.

(D) FACTORS.—In establishing, modifying, leaving in effect, or revoking a tolerance or exemption for a pesticide chemical residue, the Administrator shall consider, among other relevant factors—

(i) the validity, completeness, and reliability of the available data from studies of the pesticide chemical and pesticide chemical residue;

(ii) the nature of any toxic effect shown to be caused by the pesticide chem-

ical or pesticide chemical residue in the studies;

(iii) available information concerning the relationship of the results of the studies to human risk;

(iv) available information concerning the dietary consumption patterns of consumers (and major identifiable subgroups of consumers);

(v) available information concerning the cumulative effects of the pesticide chemical residues and other substances that have a common mechanism of toxicity;

(vi) available information concerning the aggregate exposure levels of consumers (and major identifiable subgroups of consumers) to the pesticide chemical residue and to other related substances, including dietary exposure under the tolerance and all other tolerances in effect for the pesticide chemical residue, and exposure from other non-occupational sources;

(vii) available information concerning the variability of the sensitivities of major identifiable subgroups of consumers;

(viii) such information as the Administrator may require on whether the pesticide chemical may have an effect in humans that is similar to an effect produced by a naturally occurring estrogen or other endocrine effects; and

(ix) safety factors that, in the opinion of experts qualified by scientific training and experience to evaluate the safety of food additives, are generally recognized as appropriate for the use of animal experimentation data.

(E) DATA AND INFORMATION REGARDING ANTICIPATED AND ACTUAL RESIDUE LEVELS.—

(i) AUTHORITY.—In establishing, modifying, leaving in effect, or revoking a tolerance for a pesticide chemical residue, the Administrator may consider available data and information on the anticipated residue levels of the pesticide chemical in or on food and the actual residue levels of the pesticide chemical that have been measured in food, including residue data collected by the FDA.

(ii) REQUIREMENT.—

(I) IN GENERAL.—If the Administrator relies on anticipated or actual residue levels in establishing, modifying, or leaving in effect a tolerance, the Administrator shall, pursuant to paragraphs (1) through (3) of subsection (g), require that data be provided 5 years after the date on which the tolerance is established, modified, or left in effect, and thereafter as the Administrator considers appropriate, demonstrating that the residue levels are not above the levels relied on by the Administrator.

(II) MODIFICATION OR REVOCATION OF TOLERANCE IF DATA REQUIREMENT IS NOT MET.—If data described in subclause (I) are not provided, or if the data do not demonstrate that the residue levels are not above the levels relied on by the Administrator under subclause (I), the Administrator shall, not later than 180 days after the date on which the data are required to be provided, issue

a regulation under subsection (f)(1), or an order under subsection (g)(4), as appropriate, to modify or revoke the tolerance.

(F) PERCENT OF FOOD ACTUALLY TREATED.—In establishing, modifying, leaving in effect, or revoking a tolerance for a pesticide chemical residue, the Administrator may, when assessing chronic dietary risk, consider available data and information on the percentage of food actually treated with the pesticide chemical (including aggregate pesticide use data collected by the Department of Agriculture) only if the Administrator—

(i) finds that the data are reliable and provide a valid basis to show what percentage of the food derived from crop that is treated with the pesticide chemical is likely to contain the pesticide chemical residue;

(ii) finds that the exposure estimate does not understate exposure for any significant subpopulation group;

(iii) finds that, if data are available on pesticide use and consumption of food in a particular area, the population in the area

is not dietarily exposed to pesticide chemical residues above those estimated by the Administrator; and

(iv) provides for the periodic reevaluation of the estimate of anticipated dietary exposure.

(3) DETECTION AND MEASUREMENT.—

(A) IN GENERAL.—A tolerance for a pesticide chemical residue in or on a food shall not be established or modified by the Administrator unless the Administrator determines, after consultation with the Secretary, that there is a practical method for detecting and measuring the levels of the pesticide chemical residue in or on the food.

(B) DETECTION LIMIT.—A tolerance for a pesticide chemical residue in or on a food shall not be established at or modified to a level lower than the limit of detection of the method for detecting and measuring the pesticide chemical residue specified by the Administrator under subparagraph (A).

(4) INTERNATIONAL STANDARDS.—

(A) DETERMINATION WHETHER CODEX ALIMENTARIUS COMMISSION ESTABLISHED

MAXIMUM RESIDUE LEVEL.—In establishing a tolerance for a pesticide chemical residue in or on a food, the Administrator shall determine whether a maximum residue level for the pesticide chemical has been established by the Codex Alimentarius Commission.

(B) DEPARTING FROM CODEX LEVEL.—If a Codex maximum residue level has been established for the pesticide chemical and the Administrator does not propose to adopt the Codex level, the Administrator shall publish for public comment a notice explaining the reasons for departing from the Codex level.

(d) AUTHORITY AND STANDARD FOR EXEMPTIONS.—

(1) AUTHORITY.—The Administrator may issue a regulation establishing, modifying, or revoking an exemption from the requirement for a tolerance for a pesticide chemical residue in or on food—

(A) in response to a petition filed under subsection (e); or

(B) on the Administrator's initiative under subsection (f).

(2) STANDARD.—

(A) IN GENERAL.—

(i) ESTABLISHMENT OR LEAVING IN EFFECT.—The Administrator may establish or leave in effect an exemption from the requirement for a tolerance for a pesticide chemical residue in or on food only if the Administrator determines that the exemption is safe.

(ii) MODIFICATION; REVOCATION.—The Administrator shall modify or revoke an exemption if the Administrator determines it is not safe.

(B) FACTORS.—In making a determination under this paragraph, the Administrator shall take into account, among other relevant considerations, the considerations set forth in subparagraphs (C) and (D) of subsection (c)(2).

(3) LIMITATION.—An exemption from the requirement for a tolerance for a pesticide chemical residue in or on food shall not be established or modified by the Administrator unless the Administrator determines, after consultation with the Secretary—

(A) that there is a practical method for detecting and measuring the levels of the pesticide chemical residue in or on food; or

(B) that there is no need for a method described in subparagraph (A), and states the reasons for the determination in issuing the regulation establishing or modifying the exemption.

(e) PETITION FOR TOLERANCE OR EXEMPTION.—

(1) PETITIONS AND PETITIONERS.—Any person may file with the Administrator a petition proposing the issuance of a regulation—

(A) establishing, modifying, or revoking a tolerance for a pesticide chemical residue in or on a food; or

(B) establishing, modifying, or revoking an exemption from the requirement for a tolerance for a pesticide chemical residue in or on a food.

(2) PETITION CONTENTS.—

(A) ESTABLISHMENT.—A petition under paragraph (1) to establish a tolerance or exemption for a pesticide chemical residue shall be supported by such data and information as are specified in regulations issued by the Administrator, including—

(i)(I) an informative summary of the petition and of the data, information, and

arguments submitted or cited in support of the petition; and

(II) a statement that the petitioner agrees that the summary or any information it contains may be published as a part of the notice of filing of the petition to be published under this subsection and as part of a proposed or final regulation issued under this section;

(ii) the name, chemical identity, and composition of the pesticide chemical residue and of the pesticide chemical that produces the pesticide chemical residue;

(iii) data showing the recommended amount, frequency, method, and time of application of that pesticide chemical;

(iv) full reports of tests and investigations made with respect to the safety of the pesticide chemical, including full information as to the methods and controls used in conducting those tests and investigations;

(v) full reports of tests and investigations made with respect to the nature and amount of the pesticide chemical residue

that is likely to remain in or on the food, including a description of the analytical methods used;

(vi) a practical method for detecting and measuring the levels of the pesticide chemical residue in or on the food, or for exemptions, a statement why such a method is not needed;

(vii) a proposed tolerance for the pesticide chemical residue, if a tolerance is proposed;

(viii) if the petition relates to a tolerance for a processed food, reports of investigations conducted using the processing methods used to produce that food;

(ix) such information as the Administrator may require to make the determination under subsection (c)(2)(C);

(x) such information as the Administrator may require on whether the pesticide chemical may have an effect in humans that is similar to an effect produced by a naturally occurring estrogen or other endocrine effects;

(xi) information regarding exposure to the pesticide chemical residue due to any tolerance or exemption already granted for the pesticide chemical residue;

(xii) practical methods for removing any amount of the pesticide chemical residue that would exceed any proposed tolerance; and

(xiii) such other data and information as the Administrator requires by regulation to support the petition.

(B) CITING TO AVAILABLE INFORMATION OR DATA.—If information or data required by subparagraph (A) is available to the Administrator, the person submitting the petition may cite the availability of the information or data in lieu of submitting it.

(C) SAMPLES.—The Administrator may require a petition to be accompanied by samples of the pesticide chemical with respect to which the petition is filed.

(D) MODIFICATION OR REVOCATION.—The Administrator may by regulation establish the requirements for information and data to support a petition—

(i) to modify or revoke a tolerance; or

(ii) to modify or revoke an exemption from the requirement for a tolerance.

(3) NOTICE.—

(A) IN GENERAL.—A notice of the filing of a petition that the Administrator determines has met the requirements of paragraph (2) shall be published by the Administrator within 30 days after the determination.

(B) ANALYTICAL METHODS.—The notice—

(i) shall announce the availability of a description of the analytical methods available to the Administrator for the detection and measurement of the pesticide chemical residue with respect to which the petition is filed; or

(ii) shall set forth the petitioner's statement of why an analytical method described in clause (i) is not needed.

(C) SUMMARY.—The notice shall include the summary required by paragraph (2)(A)(i)(I).

(4) ACTIONS BY THE ADMINISTRATOR.—

(A) IN GENERAL.—The Administrator shall, after giving due consideration to a peti-

tion filed under paragraph (1) and any other information available to the Administrator—

(i) issue a final regulation (which may vary from that sought by the petition) establishing, modifying, or revoking a tolerance for the pesticide chemical residue or an exemption of the pesticide chemical residue from the requirement for a tolerance (which final regulation shall be issued without further notice and without further period for public comment);

(ii) issue a proposed regulation under subsection (f), and after the proposed regulation is issued, issue a final regulation under subsection (f); or

(iii) issue an order denying the petition.

(B) PRIORITIES.—The Administrator shall give priority to petitions for the establishment or modification of a tolerance or exemption for a pesticide chemical residue that appears to pose a significantly lower risk to human health from dietary exposure than pesticide chemical residues that have tolerances in effect for the same or similar uses.

(C) EXPEDITED REVIEW OF CERTAIN PETITIONS.—

(i) DATE CERTAIN FOR REVIEW.—If a person files a complete petition with the Administrator proposing the issuance of a regulation establishing a tolerance or exemption for a pesticide chemical residue that presents a lower risk to human health than a pesticide chemical residue for which a tolerance has been left in effect or modified under subsection (c)(2)(B), the Administrator shall complete action on the petition under this paragraph within 1 year.

(ii) REQUIRED DETERMINATIONS.—

(I) IN GENERAL.—If the Administrator issues a final regulation establishing a tolerance or exemption for a safer pesticide chemical residue under clause (i), the Administrator shall, not later than 180 days after the date on which the regulation is issued, determine whether a condition described in subclause (I) or (II) of subsection (c)(2)(B)(iii) continues to

exist with respect to a tolerance that is left in effect or modified under subsection (c)(2)(B).

(II) CONDITION NO LONGER EXISTS.—If, under subclause (I), the Administrator determines that a condition described in subclause (I) or (II) of subsection (c)(2)(B)(iii) does not continue to exist, the Administrator shall, not later than 180 days after the date on which the determination is made, issue a regulation under subsection (f)(1) to modify or revoke the tolerance.

(f) ACTION ON ADMINISTRATOR'S OWN INITIATIVE.—

(1) IN GENERAL.—The Administrator may issue a regulation—

(A) establishing, modifying, suspending under subsection (m)(3), or revoking a tolerance for a pesticide chemical or a pesticide chemical residue;

(B) establishing, modifying, suspending under subsection (m)(3), or revoking an exemp-

tion of a pesticide chemical residue from the requirement for a tolerance; or

(C) establishing general procedures and requirements to implement this section.

(2) NOTICE AND COMMENT.—

(A) IN GENERAL.—Except as provided in subparagraph (B), before issuing a final regulation under paragraph (1), the Administrator shall issue a notice of proposed rulemaking and provide a period of not less than 60 days for public comment on the proposed regulation.

(B) SHORTER COMMENT PERIOD.—A period for comment shorter than the period described in subparagraph (A) may be provided if the Administrator, for good cause—

(i) finds that the shorter comment period would be in the public interest; and

(ii) states the reasons for the finding under clause (i) in the notice of proposed rulemaking under subparagraph (A).

(g) SPECIAL DATA REQUIREMENTS.—

(1) REQUIRING SUBMISSION OF ADDITIONAL DATA.—If the Administrator determines that additional data or information are reasonably required to support the continuation of a tolerance or exemption

that is in effect under this section for a pesticide chemical residue on a food, the Administrator shall—

(A) issue a notice requiring the person holding the pesticide registrations associated with the tolerance or exemption to submit the data or information under section 3(c)(2)(B) of the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136a(c)(2)(B));

(B) issue a rule requiring that testing be conducted on a substance or mixture under section 4 of the Toxic Substances Control Act (15 U.S.C. 2603); or

(C) publish in the Federal Register, after providing notice and an opportunity for comment for a period of not less than 60 days, an order—

(i) requiring the submission to the Administrator by any interested person of a notice identifying the person that will submit the required data and information;

(ii) describing the type of data and information required to be submitted to the Administrator and stating why the data and information could not be obtained

under the authority of section 3(c)(2)(B) of the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136a(c)(2)(B)) or section 4 of the Toxic Substances Control Act (15 U.S.C. 2603);

(iii) describing the reports of the Administrator required to be prepared during and after the collection of the data and information;

(iv) requiring the submission to the Administrator of the data, information, and reports referred to in clauses (ii) and (iii); and

(v) establishing dates by which the submissions described in clauses (i) and (iv) shall be made.

(2) REVISION OF ORDER TO CORRECT AN ERROR.—The Administrator may, under paragraph (1)(C), revise an order to correct an error.

(3) DATA OR INFORMATION RELATING TO CERTAIN EFFECTS OF PESTICIDE CHEMICAL.—The Administrator may, under paragraph (1), require data or information pertaining to whether the pesticide chemical may have an effect in humans that is simi-

lar to an effect produced by a naturally occurring estrogen or other endocrine effects.

(4) NONCOMPLIANCE.—

(A) IN GENERAL.—If a submission required by a notice issued in accordance with paragraph (1)(A), a rule issued under paragraph (1)(B), or an order issued under paragraph (1)(C) is not made by the time specified in the notice, rule, or order, the Administrator may, by order published in the Federal Register, modify or revoke the tolerance or exemption in question.

(B) MATERIAL ISSUE IN REVIEW.—In any review under subsection (h)(2) of an order to modify or revoke a tolerance or exemption under clause (A), the only material issue shall be whether a submission required under paragraphs (1) through (3) was not made by the time specified.

(h) EFFECTIVE DATE; OBJECTIONS; HEARINGS; ADMINISTRATIVE REVIEW.—

(1) EFFECTIVE DATE.—

(A) IN GENERAL.—A regulation or order issued under subsection (e)(4), (f)(1), or (g)(4)

shall take effect on publication unless the regulation or order specifies otherwise.

(B) EFFECT OF OBJECTIONS.—The Administrator may stay the effectiveness of the regulation or order if, after issuance of the regulation or order, objections are filed with respect to the regulation or order pursuant to paragraph (2).

(2) FURTHER PROCEEDINGS.—

(A) OBJECTIONS.—

(i) IN GENERAL.—Within 60 days after a regulation or order is issued under subsection (e)(4), (f)(1)(A), (f)(1)(B), (g)(4), (o)(2), or (o)(4)(C), any person may file objections to the regulation or order with the Administrator, specifying with particularity the provisions of the regulation or order considered objectionable and stating reasonable grounds for considering the provisions objectionable.

(ii) REGULATION OR ORDER ISSUED BY PETITION; SERVICE OF OBJECTIONS.—If the regulation or order was issued in response to a petition under subsection (e)(1), a copy of each objection filed by a

person other than the petitioner shall be served by the Administrator on the petitioner.

(B) HEARING.—

(i) REQUEST.—An objection may include a request for a public evidentiary hearing on the objection.

(ii) DETERMINATION THAT HEARING IS NECESSARY TO RECEIVE EVIDENCE.—The Administrator shall, on the initiative of the Administrator or on the request of an interested person and after due notice, hold a public evidentiary hearing if and to the extent the Administrator determines that the public hearing is necessary to receive factual evidence relevant to material issues of fact raised by the objections.

(iii) AUTHORIZATION OF DISCOVERY; SUBPOENA TO COMPEL TESTIMONY OR PRODUCTION OF DOCUMENTS.—The presiding officer in the public hearing may authorize a party to obtain discovery from other persons and may, on a showing of good cause made by a party, issue a sub-

poena to compel testimony or production of documents from any person.

(iv) PROTECTION OF WITNESS AND DOCUMENTS; FEDERAL RULES OF CIVIL PROCEDURE.—The presiding officer shall be governed by the Federal Rules of Civil Procedure in making any order for the protection of the witness or the content of documents produced and shall order the payment of reasonable fees and expenses as a condition to requiring testimony of the witness.

(v) ENFORCEMENT OF SUBPOENA.—On contest, a subpoena under clause (iii) may be enforced by a Federal district court.

(C) FINAL DECISION.—

(i) IN GENERAL.—As soon as practicable after receiving the arguments of the parties, the Administrator shall issue an order—

(I) stating the action taken on each objection under this paragraph; and

(II) setting forth any revision to the regulation or prior order that the Administrator has found to be warranted.

(ii) ORDER AND REVISIONS TO BE BASED ON SUBSTANTIAL EVIDENCE AND TO SET FORTH FINDINGS OF FACTS AND CONCLUSIONS OF LAW.—If a hearing was held under subparagraph (B), an order issued under clause (i) and any revision to the regulation or prior order—

(I) shall, with respect to questions of fact at issue in the hearing, be based only on substantial evidence of record at the hearing; and

(II) shall set forth in detail the findings of facts and the conclusions of law or policy on which the order or regulation is based.

(i) JUDICIAL REVIEW.—

(1) PETITION.—In a case of actual controversy as to the validity of any regulation issued under subsection (f)(1)(C), any order issued under subsection (g)(1)(C) or (h)(2)(C), or any regulation that is the subject of an order issued under subsection

(g)(1)(C) or (h)(2)(C), any person that will be adversely affected by the order or regulation may obtain judicial review by filing in the United States Court of Appeals for the circuit in which the person resides or in which the person's principal place of business is located, or in the United States Court of Appeals for the District of Columbia Circuit, within 60 days after publication of the order or regulation, a petition praying that the order or regulation be set aside in whole or in part.

(2) RECORD AND JURISDICTION.—

(A) TRANSMITTALS BETWEEN COURT AND ADMINISTRATOR.—A copy of the petition under paragraph (1) shall be immediately transmitted by the clerk of the court to the Administrator, or any officer designated by the Administrator for that purpose, and on the transmittal, the Administrator shall file in the court the record of the proceedings on which the Administrator based the order or regulation, as provided in section 2112 of title 28.

(B) EXCLUSIVE JURISDICTION.—On the filing of a petition under paragraph (1), the court shall have exclusive jurisdiction to affirm

or set aside, in whole or in part, the order or regulation that is petitioned to be set aside.

(C) FINDINGS OF FACT SUSTAINED IF SUPPORTED BY SUBSTANTIAL EVIDENCE.—In the case of orders issued following a public evidentiary hearing, the findings of the Administrator with respect to questions of fact shall be sustained only if supported by substantial evidence when considered on the record as a whole.

(3) ADDITIONAL EVIDENCE.—

(A) IN GENERAL.—If a party applies to the court for leave to adduce additional evidence and shows to the satisfaction of the court that the additional evidence is material and that there were reasonable grounds for the failure to adduce the evidence in the proceeding before the Administrator, the court may order the additional evidence (and evidence in rebuttal of the additional evidence) to be taken before the Administrator in the manner and on the terms and conditions the court considers proper.

(B) MODIFICATION OF PRIOR FINDINGS OF FACTS.—The Administrator may modify prior findings of facts by reason of the additional evi-

dence taken under this paragraph and may modify the order or regulation accordingly.

(C) COURT FILING.—The Administrator shall file with the court any modified finding, order, or regulation under subparagraph (B).

(4) FINAL JUDGMENT; SUPREME COURT REVIEW.—The judgment of the court affirming or setting aside, in whole or in part, any regulation, or any order and any regulation that is the subject of the order, shall be final, subject to review by the Supreme Court of the United States as provided in section 1254 of title 28.

(5) EFFECT OF COMMENCEMENT OF PROCEEDINGS.—The commencement of proceedings under this subsection shall not, unless specifically ordered by the court to the contrary, operate as a stay of a regulation or order.

(6) REVIEWABILITY OF REVIEWS UNDER THIS SUBSECTION.—Any issue as to which review is or was obtainable under this subsection shall not be the subject of judicial review under any other provision of law.

(j) CONFIDENTIALITY AND USE OF DATA.—

(1) GENERAL RULE.—Data and information submitted to the Administrator under this section or

section 11111 of this title in support of a tolerance or an exemption from the requirement for a tolerance shall be entitled to confidential treatment for reasons of business confidentiality and to exclusive use and data compensation to the same extent provided by sections 3 and 10 of the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136a, 136h).

(2) EXCEPTIONS.—

(A) IN GENERAL.—Data and information that are entitled to confidential treatment under paragraph (1) may be disclosed, under such security requirements as the Administrator may provide by regulation, to—

(i) Federal employees authorized by the Administrator to examine the data and information in the carrying out of their official duties under this subtitle or other Federal statutes intended to protect the public health; or

(ii) contractors with the United States authorized by the Administrator to examine the data and information in the carrying out of contracts under this subtitle

or other Federal statutes intended to protect the public health.

(B) CONGRESS.—This subsection does not authorize the withholding of data or information from—

(i) the Senate or the House of Representatives; or

(ii) to the extent of matter within its jurisdiction—

(I) any committee or subcommittee of the committee of Congress; or

(II) any joint committee or subcommittee of the joint committee of Congress.

(3) SUMMARIES.—Notwithstanding any provision of this subsection or other law, the Administrator may—

(A) publish the informative summary required by subsection (e)(2)(A)(i)(I); and

(B) in issuing a proposed or final regulation or order under this section, publish an informative summary of the data relating to the regulation or order.

(k) STATUS OF PREVIOUSLY ISSUED REGULATIONS.—

(1) REGULATIONS UNDER SECTION 11108 OF THIS TITLE.—Regulations affecting pesticide chemical residues in or on raw agricultural commodities promulgated, in accordance with section 17501(e) of this title, under the authority of section 11108 of this title on the basis of public hearings instituted before January 1, 1953, shall be deemed to be regulations issued under this section and shall be subject to modification or revocation under subsections (e) and (f).

(2) REGULATIONS UNDER SECTION 11111 OF THIS TITLE.—Regulations that established tolerances for substances that are pesticide chemical residues in or on processed food, or that otherwise stated the conditions under which the pesticide chemicals could be safely used, and that were issued under section 11111 of this title on or before August 3, 1996, shall be deemed to be regulations issued under this section and shall be subject to modification or revocation under subsection (e) or (f).

(3) REGULATIONS UNDER THIS SECTION.—Regulations that established tolerances or exemptions under this section that were issued on or before Au-

gust 3, 1996, shall remain in effect unless modified or revoked under subsection (e) or (f).

(4) CERTAIN SUBSTANCES.—With respect to a substance that is not included in the definition of the term ''pesticide chemical'' under section 10101(a)(38) of this title but was included in the definition on the day before October 30, 1998, the following applies as of October 30, 1998:

(A) Notwithstanding paragraph (2), any regulation applying to the use of the substance that was in effect on the day before October 30, 1998, and was on that day deemed in the paragraph to have been issued under this section, shall be considered to have been issued under section 11111 of this title.

(B) Notwithstanding paragraph (3), any regulation applying to the use of the substance that was in effect on the day before October 30, 1998, and was issued under this section (including any such regulation issued before August 3, 1996) is deemed to have been issued under section 11111 of this title.

(l) EXEMPTIONS BASED ON STATUS AS OF AUGUST 3, 1996.—

(1) IN GENERAL.—With respect to a particular pesticidal use of a substance that is a pesticide chemical and any resulting pesticide chemical residue in or on a particular food, the pesticide chemical residue shall be regarded as exempt from the requirement for a tolerance, as of August 3, 1996, if, on the day before August 3, 1996, the substance was—

(A) regarded by the Administrator or the Secretary as generally recognized as safe for use within the meaning of the provisions of section 408(a) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(a)) or section 201(s) of the Act as in effect on the day before August 3, 1996; or

(B) regarded by the Secretary as a substance described by section 10101(a)(20)(C)(iv) of this title.

(2) NOTICE.—The Administrator shall by regulation indicate which substances are described by this subsection.

(3) MODIFICATION; REVOCATION.—Any exemption under this subsection may be modified or revoked as if it had been issued under subsection (d).

(m) HARMONIZATION WITH ACTION UNDER OTHER LAWS.—

(1) COORDINATION WITH FIFRA.—To the extent practicable, in issuing a final rule under this subsection that suspends or revokes a tolerance or exemption for a pesticide chemical residue in or on food, the Administrator shall coordinate the issuance with any related necessary action under the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136 et seq.).

(2) REVOCATION OF TOLERANCE OR EXEMPTION FOLLOWING CANCELLATION OF ASSOCIATED REGISTRATIONS.—

(A) IN GENERAL.—The Administrator shall revoke any tolerance or exemption that allows the presence of a pesticide chemical, or any pesticide chemical residue that results from its use, in or on a food, if the Administrator, acting under the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136 et seq.), due in whole or in part to dietary risks to humans posed by residues of the pesticide chemical on the food—

(i) cancels the registration of each pesticide that—

(I) contains the pesticide chemical; and

(II) is labeled for use on the food; or

(ii) requires that the registration of each pesticide described in clause (i) be modified to prohibit its use in connection with the production, storage, or transportation of the food.

(B) APPLICABILITY OF SUBSECTION (f).—Subsection (f) shall apply to actions taken under this paragraph.

(C) EFFECTIVE DATE OF REVOCATIONS.—A revocation under this paragraph shall become effective not later than 180 days after the later of—

(i) the date by which each such cancellation of a registration has become effective; or

(ii) the date on which the use of the canceled pesticide becomes unlawful under the terms of the cancellation.

(3) SUSPENSION OF TOLERANCE OR EXEMPTION FOLLOWING SUSPENSION OF ASSOCIATED REGISTRATIONS.—

(A) SUSPENSION.—

(i) IN GENERAL.—The Administrator shall suspend any tolerance or exemption that allows the presence of a pesticide chemical, or any pesticide chemical residue that results from its use, in or on a food, if the Administrator, acting under the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136 et seq.), due in whole or in part to dietary risks to humans posed by residues of the pesticide chemical on the food, suspends the use of each registered pesticide that—

(I) contains the pesticide chemical; and

(II) is labeled for use on the food.

(ii) APPLICABILITY OF SUBSECTION (f).—Subsection (f) shall apply to actions taken under this paragraph.

(iii) EFFECTIVE DATE OF SUSPENSIONS.—A suspension under this paragraph shall become effective not later than 60 days after the date by which each such suspension of use has become effective.

(B) EFFECT OF SUSPENSION.—

(i) DURATION OF EFFECTIVITY.—The suspension of a tolerance or exemption under subparagraph (A) shall be effective as long as the use of each associated registration of a pesticide is suspended under the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136 et seq.).

(ii) TOLERANCE OR EXEMPTION NOT CONSIDERED IN EFFECT.—While a suspension of a tolerance or exemption is effective, the tolerance or exemption shall not be considered to be in effect.

(iii) TERMINATION OF SUSPENSION OF USE OF PESTICIDE.—If the suspension of use of the pesticide under the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136 et seq.) is terminated, leaving the registration of the pesticide for that use in effect under the Act, the Administrator shall rescind any associated suspension of tolerance or exemption.

(4) TOLERANCES FOR UNAVOIDABLE RESIDUES.—

(A) IN GENERAL.—In connection with action taken under paragraph (2) or (3), or with respect to pesticides whose registrations were suspended or canceled prior to August 3, 1996, under the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136 et seq.), if the Administrator determines that a residue of the canceled or suspended pesticide chemical will unavoidably persist in the environment so that it will be present in or on a food, the Administrator may establish a tolerance for the pesticide chemical residue.

(B) FACTORS.—In establishing a tolerance under subparagraph (A), the Administrator shall take into account—

(i) the factors set forth in subsection (c)(2); and

(ii) the unavoidability of the residue.

(C) APPLICABILITY OF SUBSECTION (f).—Subsection (f) shall apply to the establishment of a tolerance under subparagraph (A).

(D) REVIEW.—The Administrator shall review any tolerance established under subparagraph (A) periodically and modify it as nec-

essary so that it allows no greater level of the pesticide chemical residue than is unavoidable.

(5) PESTICIDE RESIDUES RESULTING FROM LAWFUL APPLICATION OF PESTICIDE.—

(A) IN GENERAL.—Notwithstanding any other provision of this subtitle, if a tolerance or exemption for a pesticide chemical residue in or on a food has been revoked, suspended, or modified under this section, an article of that food shall not be deemed unsafe solely because of the presence of the pesticide chemical residue in or on the food if it is shown to the satisfaction of the Secretary that—

(i) the pesticide chemical residue is present as the result of an application or use of a pesticide at a time and in a manner that was lawful under the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136 et seq.); and

(ii) the pesticide chemical residue does not exceed a level that was authorized at the time of that application or use to be present on the food under a tolerance, exemption, food additive regulation, or other sanction then in effect under this subtitle.

(B) INAPPLICABILITY.—Subparagraph (A) does not apply in the case of any tolerance or exemption revoked, suspended, or modified under this subsection or subsection (e) or (f) if the Administrator has issued a determination that consumption of the legally treated food during the period of its likely availability in commerce will pose an unreasonable dietary risk.

(6) TOLERANCE FOR USE OF PESTICIDES UNDER AN EMERGENCY EXEMPTION.—

(A) IN GENERAL.—If the Administrator grants an exemption under section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136p) for a pesticide chemical, the Administrator shall establish a tolerance or exemption from the requirement for a tolerance for the pesticide chemical residue.

(B) EXPIRATION DATE.—A tolerance or exemption from a tolerance established under subparagraph (A) shall have an expiration date.

(C) NOTICE OR PERIOD FOR COMMENT NOT REQUIRED.—The Administrator may establish a tolerance or exemption under subpara-

graph (A) without providing notice or a period for comment on the tolerance or exemption.

(D) REGULATIONS GOVERNING ESTABLISHMENT OF TOLERANCES AND EXEMPTIONS.—

(i) IN GENERAL.—The Administrator shall promulgate regulations governing the establishment of tolerances and exemptions under this paragraph.

(ii) EFFECT OF OTHER LAWS.—The regulations under clause (i) shall be consistent with the safety standard under subsections (c)(2) and (d)(2) and with section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136p).

(n) FEES.—

(1) AMOUNT.—

(A) IN GENERAL.—The Administrator shall, by regulation, require the payment of such fees as will in the aggregate, in the judgment of the Administrator, be sufficient over a reasonable term to provide, equip, and maintain an adequate service for the performance of the Administrator's functions under this section.

(B) PERFORMANCE OF FUNCTIONS CONDITIONED ON PAYMENT OF FEES.—Under the regulations in subparagraph (A), the performance of the Administrator's services or other functions under this section may be conditioned on the payment of the fees required under subparagraph (A).

(C) SERVICES AND OTHER FUNCTIONS.—The services and other functions referred to in subparagraph (B) include—

(i) the acceptance for filing of a petition submitted under subsection (e);

(ii) the establishment, modification, leaving in effect, or revocation of a tolerance or the establishment, modification, leaving in effect, or revocation of an exemption from the requirement for a tolerance under this section;

(iii) the acceptance for filing of objections under subsection (h); and

(iv) the certification and filing in court of a transcript of the proceedings and the record under subsection (i).

(D) WAIVER; REFUND OF FEES.—The regulations under subparagraph (A) may provide

for waiver or refund of fees, in whole or in part, if in the judgment of the Administrator, the waiver or refund is equitable and not contrary to the purposes of this subsection.

(2) DEPOSIT.—

(A) IN GENERAL.—All fees collected under paragraph (1) shall be deposited in the Reregistration and Expedited Processing Fund created by section 4(k) of the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136a–1(k)).

(B) AVAILABILITY.—Fees described in subparagraph (A) shall be available to the Administrator, without fiscal year limitation, for the performance of the Administrator's services or functions as specified in paragraph (1).

(3) PROHIBITION.—During the period beginning on December 29, 2022, and ending on September 30, 2027, the Administrator shall not collect any tolerance fees under paragraph (1).

(o) NATIONAL UNIFORMITY OF TOLERANCES.—

(1) DEFINITIONS.—In this subsection:

(A) QUALIFYING FEDERAL DETERMINATION.—The term ''qualifying Federal determination'' means a tolerance or exemption from

the requirement for a tolerance for a qualifying pesticide chemical residue that—

(i) is issued under this section after August 3, 1996, and determined by the Administrator to meet the standard under subsection (c)(2)(A) (in the case of a tolerance) or (d)(2) (in the case of an exemption); or

(ii)(I) pursuant to subsection (k), is remaining in effect or is deemed to have been issued under this section, or is regarded under subsection (l) as exempt from the requirement for a tolerance; and

(II) is determined by the Administrator to meet the standard under subsection (c)(2)(A) (in the case of a tolerance) or (d)(2) (in the case of an exemption).

(B) QUALIFYING PESTICIDE CHEMICAL RESIDUE.—The term ''qualifying pesticide chemical residue'' means a pesticide chemical residue resulting from the use, in production, processing, or storage of a food, of a pesticide chemical that is an active ingredient and that—

(i) is first approved for that use in a registration of a pesticide issued under section 3(c)(5) of the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136a(c)(5)) on or after April 25, 1985, on the basis of data determined by the Administrator to meet all applicable requirements for data prescribed by regulations in effect under that Act on April 25, 1985; or

(ii) is approved for that use in a reregistration eligibility determination issued under section 4(g) of that Act (7 U.S.C. 136a–1(g)) on or after August 3, 1996.

(2) PROCEDURE FOR DETERMINATION UNDER PARAGRAPH (1)(A)(ii)(II).—

(A) IN GENERAL.—The Administrator may make the determination described in paragraph (1)(A)(ii)(II)—

(i) only by issuing a rule in accordance with the procedure set forth in subsection (e) or (f); and

(ii) only if the Administrator issues a proposed rule and allows a period of not less than 30 days for comment on the proposed rule.

(B) REVIEWABILITY.—A rule under subparagraph (A) shall be reviewable in accordance with subsections (h) and (i).

(3) STATE AUTHORITY.—

(A) IN GENERAL.—Except as provided in paragraphs (4), (5), and (7), a State or political subdivision shall not establish or enforce any regulatory limit on a qualifying pesticide chemical residue in or on any food if a qualifying Federal determination applies to the presence of the pesticide chemical residue in or on the food, unless the State regulatory limit is identical to the qualifying Federal determination.

(B) DEEMED TO ESTABLISH OR ENFORCE A REGULATORY LIMIT.—A State or political subdivision shall be deemed to establish or enforce a regulatory limit on a pesticide chemical residue in or on a food if the regulatory limit purports to prohibit or penalize the production, processing, shipping, or other handling of a food because the food contains a pesticide chemical residue (in excess of a prescribed limit).

(4) PETITION PROCEDURE.—

(A) IN GENERAL.—Any State may petition the Administrator for authorization to establish in the State a regulatory limit on a qualifying pesticide chemical residue in or on any food that is not identical to the qualifying Federal determination applicable to the qualifying pesticide chemical residue.

(B) PETITION REQUIREMENTS.—Any petition under subparagraph (A)—

(i) shall satisfy any requirement prescribed, by rule, by the Administrator; and

(ii) shall be supported by—

(I) scientific data about the pesticide chemical residue that is the subject of the petition or about chemically related pesticide chemical residues;

(II) data on the consumption within the State of food bearing the pesticide chemical residue; and

(III) data on exposure of humans within the State to the pesticide chemical residue.

(C) AUTHORIZATION.—The Administrator may, by order, grant the authorization described in subparagraph (A) if the Adminis-

trator determines that the proposed State regulatory limit—

(i) is justified by compelling local conditions; and

(ii) would not cause any food to be in violation of Federal law.

(D) TREATMENT.—

(i) IN GENERAL.—In lieu of any action authorized under subparagraph (C), the Administrator may treat a petition under this paragraph as a petition under subsection (e) to modify or revoke a tolerance or an exemption.

(ii) EFFECT OF TREATMENT.—If the Administrator determines to treat a petition under this paragraph as a petition under subsection (e), the Administrator shall act on the petition pursuant to subsection (e).

(E) REVIEW.—Any order of the Administrator granting or denying the authorization described in subparagraph (A) shall be subject to review in the manner described in subsections (h) and (i).

(5) URGENT PETITION PROCEDURE.—

(A) IN GENERAL.—Any State petition to the Administrator pursuant to paragraph (4) that demonstrates that consumption of a food containing the pesticide chemical residue level during the period of the food's likely availability in the State will pose a significant public health threat from acute exposure shall be considered an urgent petition.

(B) TEMPORARY REGULATORY LIMIT.—

(i) IN GENERAL.—If an order by the Administrator to grant or deny the requested authorization in an urgent petition is not made within 30 days of receipt of the petition, the petitioning State may establish and enforce a temporary regulatory limit on a qualifying pesticide chemical residue in or on the food.

(ii) VALIDATION; TERMINATION.—The temporary regulatory limit shall be validated or terminated by the Administrator's final order on the petition.

(6) RESIDUES FROM LAWFUL APPLICATION.—A State or political subdivision shall not enforce any regulatory limit on the level of a pesticide chemical residue that may appear in or on any food if, at the

time of the application of the pesticide that resulted in the pesticide chemical residue, the sale of the food with the pesticide chemical residue level was lawful under this section and under the law of the State, unless the State demonstrates that consumption of the food containing the pesticide residue level during the period of the food's likely availability in the State will pose an unreasonable dietary risk to the health of persons within the State.

(7) NONPREEMPTION RELATING TO WARNING OR STATEMENT.—Nothing in this subtitle preempts the authority of any State or political subdivision to require that a food containing a pesticide chemical residue bear or be the subject of a warning or other statement relating to the presence of the pesticide chemical residue in or on the food.

(p) CONSUMER RIGHT TO KNOW.—

(1) IN GENERAL.—The Administrator shall annually, in consultation with the Secretary of Agriculture and the Secretary, publish in a format understandable to a lay person, and distribute to large retail grocers for public display (in a manner determined by the grocer), the following information, at a minimum:

(A) A discussion of the risks and benefits of pesticide chemical residues in or on food purchased by consumers.

(B) A listing of actions taken under subsection (c)(2)(B) that may result in pesticide chemical residues in or on food that present a yearly or lifetime risk above the risk allowed under subsection (c)(2)(A), and the food on which the pesticide chemicals producing the pesticide chemical residues are used.

(C) Recommendations to consumers for reducing dietary exposure to pesticide chemical residues in a manner consistent with maintaining a healthy diet, including a list of food that may reasonably substitute for food listed under subparagraph (B).

(2) PROVIDING OF ADDITIONAL INFORMATION.—Nothing in this subsection shall prevent retail grocers from providing additional information.

(q) ESTROGENIC SUBSTANCES SCREENING PROGRAM.—

(1) DEVELOPMENT.—The Administrator shall, in consultation with the Secretary, develop a screening program, using appropriate validated test systems and other scientifically relevant information, to

determine whether certain substances may have an effect in humans that is similar to an effect produced by a naturally occurring estrogen, or such other endocrine effect as the Administrator may designate.

(2) IMPLEMENTATION.—After obtaining public comment and review of the screening program described in paragraph (1) by the scientific advisory panel established under section 25(d) of the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136w(d)) or the science advisory board established by section 8 of the Environmental Research, Development, and Demonstration Authorization Act of 1978 (42 U.S.C. 4365), the Administrator shall implement the program.

(3) SUBSTANCES.—In carrying out the screening program described in paragraph (1), the Administrator—

(A) shall provide for the testing of all pesticide chemicals; and

(B) may provide for the testing of any other substance that may have an effect that is cumulative to an effect of a pesticide chemical if the Administrator determines that a substan-

tial population may be exposed to the substance.

(4) EXEMPTION.—Notwithstanding paragraph (3), the Administrator may, by order, exempt from the requirements of this section a biologic substance or other substance if the Administrator determines that the substance is anticipated not to produce any effect in humans similar to an effect produced by a naturally occurring estrogen.

(5) COLLECTION OF INFORMATION.—

(A) IN GENERAL.—The Administrator shall issue an order to a registrant of a substance for which testing is required under this subsection, or to a person that manufactures or imports a substance for which testing is required under this subsection, to—

(i) conduct testing in accordance with the screening program described in paragraph (1); and

(ii) submit information obtained from the testing to the Administrator, within a reasonable time period that the Administrator determines is sufficient for the generation of the information.

(B) PROCEDURES.—To the extent practicable, the Administrator shall—

(i) minimize duplicative testing of the same substance for the same endocrine effect;

(ii) develop, as appropriate, procedures for fair and equitable sharing of test costs; and

(iii) develop, as necessary, procedures for handling of confidential business information.

(C) FAILURE OF REGISTRANTS TO SUBMIT INFORMATION.—

(i) SUSPENSION.—If a registrant of a substance referred to in paragraph (3)(A) fails to comply with an order under subparagraph (A), the Administrator shall issue a notice of intent to suspend the sale or distribution of the substance by the registrant.

(ii) WHEN SUSPENSION BECOMES FINAL.—Any suspension proposed under this paragraph shall become final at the end of the 30-day period beginning on the date that the registrant receives the notice

of intent to suspend, unless during that period—

(I) a person adversely affected by the notice requests a hearing; or

(II) the Administrator determines that the registrant has complied fully with this paragraph.

(iii) HEARING.—

(I) IN GENERAL.—If a person requests a hearing under clause (ii), the hearing shall be conducted in accordance with section 554 of title 5.

(II) MATTER FOR RESOLUTION.—The only matter for resolution at the hearing shall be whether the registrant has failed to comply with an order under subparagraph (A).

(III) DECISION AS FINAL AGENCY ACTION.—A decision by the Administrator after completion of a hearing shall be considered to be a final agency action.

(iv) TERMINATION OF SUSPENSIONS.—The Administrator shall terminate a suspension under this subparagraph

issued with respect to a registrant if the Administrator determines that the registrant has complied fully with this paragraph.

(D) NONCOMPLIANCE BY OTHER PERSONS.—Any person (other than a registrant) that fails to comply with an order under subparagraph (A) shall be liable for the same penalties and sanctions as are provided under section 16 of the Toxic Substances Control Act (15 U.S.C. 2615) in the case of a violation referred to in that section. The penalties and sanctions shall be assessed and imposed in the same manner as provided in that section.

(6) AGENCY ACTION.—In the case of any substance that is found, as a result of testing and evaluation under this section, to have an endocrine effect on humans, the Administrator shall, as appropriate, take action under such statutory authority as is available to the Administrator, including consideration under other sections of this subtitle, as is necessary to ensure the protection of public health.

(r) TEMPORARY TOLERANCE OR EXEMPTION RELATING TO EXPERIMENTAL PERMIT FOR PESTICIDE CHEMICAL.—

(1) IN GENERAL.—The Administrator may, on the request of any person that has obtained an experimental permit for a pesticide chemical under the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136 et seq.) or on the Administrator's own initiative, establish a temporary tolerance or exemption for the pesticide chemical residue for the uses covered by the permit.

(2) APPLICABILITY OF OTHER PROVISIONS.—Subsections (c)(2), (d)(2), (e), and (f) shall apply to actions taken under this subsection.

(s) REGULATION OF SULFURYL FLUORIDE.—Notwithstanding any other provision of law, the Administrator shall exclude nonpesticidal sources of fluoride from any aggregate exposure assessment required under this section when assessing tolerances associated with residues from the pesticide.

(t) EFFECT OF SECTION.—Nothing in this section shall be construed to amend or modify the provisions of the Toxic Substances Control Act (15 U.S.C. 2601 et seq.) or the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136 et seq.).

**§ 11111. Food additives**

(a) DEFINITION OF FOOD CONTACT SUBSTANCE.—In this section, the term ''food contact substance'' means

any substance intended for use as a component of materials used in manufacturing, packing, packaging, transporting, or holding food if that use is not intended to have any technical effect in the food.

(b) UNSAFE FOOD ADDITIVES; EXCEPTIONS.—

(1) IN GENERAL.—A food additive shall, with respect to any particular use or intended use of the food additive, be deemed to be unsafe for the purposes of the application of section 11102(a)(2)(C) of this title, unless—

(A) the food additive and its use or intended use conform to the terms of an exemption that is in effect pursuant to subsection (k);

(B) there is in effect, and the food additive and its use or intended use are in conformity with, a regulation issued under this section prescribing the conditions under which the food additive may be safely used; or

(C) in the case of a food additive that is a food contact substance, there is—

(i) in effect, and the food contact substance and the use of the food contact substance are in conformity with, a regulation issued under this section prescribing the

conditions under which the food additive may be safely used; or

(ii) a notification submitted under subsection (i) that is effective.

(2) ADULTERATED FOOD; EXCEPTION.—While such a regulation relating to a food additive, or such a notification under subsection (i)(1) relating to a food additive that is a food contact substance, is in effect, and has not been revoked pursuant to subsection (j), a food shall not, by reason of bearing or containing such a food additive in accordance with the regulation or notification, be considered adulterated under section 11102(a)(1) of this title.

(c) PETITION FOR REGULATION PRESCRIBING CONDITIONS OF SAFE USE.—

(1) IN GENERAL.—Any person may, with respect to any intended use of a food additive, file with the Secretary a petition proposing the issuance of a regulation prescribing the conditions under which the food additive may be safely used.

(2) CONTENTS.—A petition under paragraph (1) shall, in addition to any explanatory or supporting data, contain—

(A) the name and all pertinent information concerning the food additive, including, where available, its chemical identity and composition;

(B) a statement of the conditions of the proposed use of the food additive, including all directions, recommendations, and suggestions proposed for the use of the food additive, and including specimens of its proposed labeling;

(C) all relevant data bearing on the physical or other technical effect the food additive is intended to produce, and the quantity of the food additive required to produce the effect;

(D) a description of practicable methods for determining the quantity of the food additive in or on food, and any substance formed in or on food, because of the use of the food additive; and

(E) full reports of investigations made with respect to the safety for use of the food additive, including full information as to the methods and controls used in conducting the investigations.

(3) DESCRIPTION OF METHODS, FACILITIES, AND CONTROLS RELATING TO PRODUCTION.—On request of the Secretary, the petitioner shall furnish

(or, if the petitioner is not the manufacturer of the food additive, the petitioner shall have the manufacturer of the food additive furnish, without disclosure to the petitioner) a full description of the methods used in, and the facilities and controls used for, the production of the food additive.

(4) SAMPLES.—On request of the Secretary, the petitioner shall furnish samples of the food additive involved, or articles used as components of the food additive, and of the food in or on which the food additive is proposed to be used.

(5) NOTICE.—Notice of the regulation proposed by the petitioner shall be published in general terms by the Secretary within 30 days after filing.

(d) APPROVAL OR DENIAL OF PETITION.—

(1) IN GENERAL.—The Secretary—

(A) shall—

(i) by order establish a regulation (whether or not in accord with that proposed by the petitioner) prescribing, with respect to 1 or more proposed uses of the food additive involved, the conditions under which the food additive may be safely used (including specifications as to the particular food or classes of food in or on

which the food additive may be used, the maximum quantity that may be used or permitted to remain in or on the food, the manner in which the food additive may be added to or used in or on the food, and any directions or other labeling or packaging requirements for the food additive that the Secretary considers necessary to ensure the safety of the use); and

(ii) notify the petitioner of the order and the reasons for the action; or

(B) shall—

(i) by order deny the petition; and

(ii) notify the petitioner of the order and of the reasons for the action.

(2) DATE BY WHICH ORDER SHALL BE ISSUED.—The order required by subparagraph (A) or (B) of paragraph (1) shall be issued within 90 days after the date of filing of the petition, except that the Secretary may (prior to the 90th day), by written notice to the petitioner, extend the 90-day period to such time (not more than 180 days after the date of filing of the petition) as the Secretary considers necessary to enable the Secretary to study and investigate the petition.

(3) ISSUANCE OF REGULATION PRECLUDED.—A regulation proposed to be issued under this subsection shall not be issued if either subparagraph (A) or (B) applies:

(A) SAFETY.—A fair evaluation of the data before the Secretary fails to establish that the proposed use of the food additive, under the conditions of use to be specified in the regulation, will be safe. No food additive shall be deemed to be safe if it is found to induce cancer when ingested by humans or animals, or if it is found, after tests that are appropriate for the evaluation of the safety of food additives, to induce cancer in humans or animals. The preceding sentence shall not apply with respect to the use of a substance as an ingredient of feed for animals that are raised for food production, if the Secretary finds—

(i) that, under the conditions of use and feeding specified in proposed labeling and reasonably certain to be followed in practice, the food additive will not adversely affect the animals for which the feed is intended; and

(ii) that no residue of the food additive will be found (by methods of examination prescribed or approved by the Secretary by regulations, which regulations shall not be subject to subsections (g) and (h)) in any edible portion of the animal after slaughter or in any food yielded by or derived from the living animal.

(B) CONSUMER DECEPTION.—A fair evaluation of the data before the Secretary shows that the proposed use of the food additive would promote deception of the consumer in violation of this subtitle or would otherwise result in adulteration or in misbranding of food within the meaning of this subtitle.

(4) TOLERANCE LIMITATION REQUIRED.—If, in the judgment of the Secretary, based on a fair evaluation of the data before the Secretary, a tolerance limitation is required in order to ensure that the proposed use of a food additive will be safe, the Secretary—

(A) shall not fix the tolerance limitation at a level higher than the Secretary finds to be reasonably required to accomplish the physical

or other technical effect for which the food additive is intended; and

(B) shall not establish a regulation for the proposed use if the Secretary finds, on a fair evaluation of the data before the Secretary, that the data do not establish that the use would accomplish the intended physical or other technical effect.

(5) SAFETY FACTORS.—In determining, for the purposes of this section, whether a proposed use of a food additive is safe, the Secretary shall consider among other relevant factors—

(A) the probable consumption of the food additive and of any substance formed in or on food because of the use of the food additive;

(B) the cumulative effect of the food additive in the diet of humans or animals, taking into account any chemically or pharmacologically related substance in the diet; and

(C) safety factors that, in the opinion of experts qualified by scientific training and experience to evaluate the safety of food additives, are generally recognized as appropriate for the use of animal experimentation data.

(e) REGULATION ISSUED ON SECRETARY'S INITIATIVE.—

(1) PROPOSAL OF ISSUANCE.—The Secretary may at any time, on the Secretary's own initiative, propose the issuance of a regulation prescribing, with respect to any particular use of a food additive, the conditions under which the food additive may be safely used, and the reasons for the conditions.

(2) ESTABLISHMENT.—After the 30th day following publication of a proposal under paragraph (1), the Secretary may by order establish a regulation based on the proposal.

(f) PUBLICATION AND EFFECTIVE DATE OF ORDERS.—Any order, including any regulation established by the order, issued under subsection (d) or (e), shall be published and shall be effective on publication, but the Secretary may stay the effectiveness if, after issuance of the order, a hearing is sought with respect to the order pursuant to subsection (g).

(g) OBJECTIONS AND PUBLIC HEARING; BASIS AND CONTENTS OF ORDER; STATEMENT.—

(1) OBJECTIONS.—

(A) IN GENERAL.—Within 30 days after publication of an order made pursuant to subsection (d) or (e), any person adversely affected

by the order may file objections to the order with the Secretary, specifying with particularity the provisions of the order considered objectionable, stating reasonable grounds for the objections, and requesting a public hearing on the objections.

(B) HEARING.—The Secretary shall, after due notice, as promptly as possible, hold the public hearing for the purpose of receiving evidence relevant and material to the issues raised by the objections. As soon as practicable after completion of the hearing, the Secretary shall by order act on the objections and make the order public.

(2) BASIS AND CONTENTS OF ORDER.—The order under paragraph (1)(B) shall be based on a fair evaluation of the entire record at the hearing, and shall include a statement setting forth in detail the findings and conclusions on which the order is based.

(3) EFFECTIVE DATE OF ORDER.—The Secretary shall specify in the order the date on which it shall take effect, except that it shall not be made to take effect prior to the 90th day after its publication, unless the Secretary finds that emergency con-

ditions exist necessitating an earlier effective date, in which event the Secretary shall specify in the order the Secretary's findings as to the conditions.

(h) JUDICIAL REVIEW.—

(1) PETITION.—In a case of actual controversy as to the validity of any order issued under subsection (g), including any order under subsection (g) with respect to amendment or repeal of a regulation issued under this section, any person that will be adversely affected by the order may obtain judicial review by filing in the United States Court of Appeals for the circuit in which the person resides or in which the person's principal place of business is located, or in the United States Court of Appeals for the District of Columbia Circuit, within 60 days after the entry of the order, a petition praying that the order be set aside in whole or in part.

(2) RECORD AND JURISDICTION.—

(A) TRANSMITTALS BETWEEN COURT AND SECRETARY.—A copy of the petition shall be immediately transmitted by the clerk of the court to the Secretary, or any officer designated by the Secretary for that purpose, and on the transmittal, the Secretary shall file in the court the record of the proceedings on which the Sec-

retary based the Secretary's order, as provided in section 2112 of title 28.

(B) JURISDICTION.—On the filing of the petition, the court shall have jurisdiction, which on the filing of the record with the court shall be exclusive, to affirm or set aside the order complained of in whole or in part.

(C) AUTHORITY TO MODIFY ORDER.—Until the filing of the record, the Secretary may modify or set aside the Secretary's order.

(D) FINDINGS OF FACTS TO BE SUSTAINED IF BASED ON FAIR EVALUATION OF RECORD.—The findings of the Secretary with respect to questions of fact shall be sustained if based on a fair evaluation of the entire record at the hearing.

(3) ORDER NOT TO BE SUSTAINED ON NONCOMPLIANCE OF SECRETARY.—The court, on the judicial review, shall not sustain the order of the Secretary if the Secretary failed to comply with any requirement imposed on the Secretary by subsection (g)(2).

(4) ADDITIONAL EVIDENCE.—

(A) IN GENERAL.—If application is made to the court for leave to adduce additional evi-

dence, the court may order the additional evidence to be taken before the Secretary and to be adduced on the hearing in such manner and on such terms and conditions as to the court may seem proper, if the evidence is material and there were reasonable grounds for failure to adduce the evidence in the prior proceedings before the Secretary.

(B) MODIFICATION OF FINDINGS OF FACTS AND ORDER.—The Secretary—

(i) may modify the Secretary's findings as to the facts and order by reason of the additional evidence taken under this paragraph; and

(ii) shall file with the court the modified findings and order.

(5) FINAL JUDGMENT; SUPREME COURT REVIEW.—The judgment of the court affirming or setting aside, in whole or in part, any order under this section shall be final, subject to review by the Supreme Court of the United States on certiorari or certification as provided in section 1254 of title 28.

(6) EFFECT OF COMMENCEMENT OF PROCEEDINGS.—The commencement of proceedings under this section shall not, unless specifically or-

dered by the court to the contrary, operate as a stay of an order.

(i) NOTIFICATION RELATING TO FOOD CONTACT SUBSTANCE.—

(1) NOTIFICATION OF SECRETARY.—

(A) IN GENERAL.—Subject to such regulations as may be promulgated under paragraph (3), a manufacturer or supplier of a food contact substance may, at least 120 days prior to the introduction or delivery for introduction into interstate commerce of the food contact substance, notify the Secretary of the identity and intended use of the food contact substance, and of the determination of the manufacturer or supplier that the intended use of the food contact substance is safe under the standard described in subsection (d)(3)(A).

(B) CONTENTS.—The notification shall contain the information that forms the basis of the determination and all information required to be submitted by regulations promulgated by the Secretary.

(2) EFFECTIVE DATE.—

(A) DEFINITION OF FOOD CONTACT SUBSTANCE.—In this paragraph, the term ''food

contact substance'' means the substance that is the subject of a notification submitted under paragraph (1), and does not include a similar or identical substance manufactured or prepared by a person other than the manufacturer identified in the notification.

(B) IN GENERAL.—A notification submitted under paragraph (1) shall become effective 120 days after the date of receipt by the Secretary and the food contact substance may be introduced or delivered for introduction into interstate commerce, unless the Secretary—

(i) makes a determination within the 120-day period that, based on the data and information before the Secretary, the use of the food contact substance has not been shown to be safe under the standard described in subsection (d)(3)(A); and

(ii) informs the manufacturer or supplier of the determination.

(C) FINAL AGENCY ACTION.—A decision by the Secretary to object to a notification shall constitute final agency action subject to judicial review.

(3) USE OF PETITION INSTEAD OF NOTIFICATION.—

(A) IN GENERAL.—The process in this subsection shall be utilized for authorizing the marketing of a food contact substance except—

(i) where the Secretary determines that submission and review of a petition under subsection (c) is necessary to provide adequate assurance of safety; or

(ii) where the Secretary and any manufacturer or supplier agree that the manufacturer or supplier may submit a petition under subsection (c).

(B) REGULATIONS.—The Secretary—

(i) may promulgate regulations to identify the circumstances in which a petition shall be filed under subsection (c); and

(ii) shall consider criteria such as the probable consumption of the food contact substance and potential toxicity of the food contact substance in determining the circumstances in which a petition shall be filed under subsection (c).

(4) CONFIDENTIALITY OF INFORMATION.—The Secretary shall keep confidential any information

provided in a notification under paragraph (1) for 120 days after receipt by the Secretary of the notification. After the expiration of the 120 days, the information shall be available to any interested party except for any matter in the notification that is a trade secret or confidential commercial information.

(5) CONDITIONS RELATING TO APPROPRIATIONS.—

(A) IN GENERAL.—

(i) The notification program established under this subsection shall not operate in any fiscal year unless—

(I) an appropriation equal to or exceeding the applicable amount under clause (ii) is made for the fiscal year for carrying out the notification program in the fiscal year; and

(II) the Secretary certifies that the amount appropriated for the fiscal year for the Center for Food Safety and Applied Nutrition of the FDA (exclusive of the appropriation referred to in subclause (I)) equals or exceeds the amount appropriated for the Center for fiscal year 1997, ex-

cluding any amount appropriated for new programs.

(ii) APPLICABLE AMOUNT.—The applicable amount under this clause is $3,000,000, or the amount specified in the budget request of the President for the fiscal year involved for carrying out the notification program under this subsection, whichever is less.

(B) REPORT.—Not later than February 1 of each fiscal year, the Secretary shall submit to the Committees on Appropriations of the House of Representatives and the Senate, the Committee on Energy and Commerce of the House of Representatives, and the Committee on Health, Education, Labor, and Pensions of the Senate a report that provides an estimate of the Secretary of the costs of carrying out the notification program established under this subsection for the next fiscal year.

(j) AMENDMENT OR REPEAL OF REGULATIONS.—The Secretary shall by regulation prescribe the procedure by which regulations under subsections (a) through (i) may be amended or repealed, and the procedure shall conform to the procedure provided in this section for the pro-

mulgation of the regulations. The Secretary shall by regulation prescribe the procedure by which the Secretary may deem a notification under subsection (i) to no longer be effective.

(k) EXEMPTIONS FOR INVESTIGATIONAL USE.—Without regard to subsections (c) through (j), the Secretary shall by regulation provide for exempting from the requirements of this section any food additive, and any food bearing or containing the food additive, intended solely for investigational use by qualified experts when in the Secretary's opinion the exemption is consistent with the public health.

(l) FOOD ADDITIVES INTENDED FOR USE IN ANIMAL FOOD.—

(1) REVIEW OF REPORTS OF INVESTIGATIONS IN FOREIGN COUNTRIES.—In taking action on a petition under subsection (d) for, or for recognition of, a food additive intended for use in animal food, the Secretary shall review reports of investigations conducted in foreign countries, provided by the petitioner.

(2) INFORMATION TO BE POSTED ON FDA WEBSITE.—Not later than 12 months after August 14, 2018, the Secretary shall post on the FDA website—

(A) the number of petitions for food additives intended for use in animal food filed under subsection (c) that are pending;

(B) how long each the petition submitted under subsection (c) has been pending, including the petitions the Secretary has extended under subsection (d)(2); and

(C) the number of study protocols that have been pending review for over 50 days, and the number that have received an extension.

(3) REQUIRED CONTENTS OF PETITION.—In the case of a food additive petition intended for use in animal food, the Secretary shall provide information to the petitioner on the required contents of the petition. If the Secretary requires additional studies beyond what the petitioner proposed, the Secretary shall provide the scientific rationale for the requirement.

(4) GUIDANCE ON PRE-PETITION CONSULTATION PROCESS.—

(A) IN GENERAL.—Not later than 18 months after August 14, 2018, the Secretary shall publish draft guidance relating to the voluntary pre-petition consultation process for food additives intended for use in animal food.

(B) CONTENTS.—The guidance under subparagraph (A) shall include—

(i) the recommended format to submit to the FDA existing data, including any applicable foreign data, for assessment prior to submission of a food additive petition for animal food under subsection (c);

(ii) the manner and the number of days by which the FDA intends to review and respond to the existing data, including with respect to providing a scientific rationale for any additional data request;

(iii) circumstances under which the submission of study protocols is recommended prior to submission of a food additive petition under such subsection (c);

(iv) the manner in which the Secretary intends to inform the person submitting a study protocol for a food additive if the review of the study protocol will take longer than 50 days; and

(v) best practices for communication between the FDA and industry on the development of pre-petition submissions of

study protocols and existing data for food additives.

(C) FINAL GUIDANCE.—The guidance under subparagraph (A) shall be finalized, withdrawn, or reissued not later than 1 year after the close of the comment period on the draft guidance.

**§ 11112. Bottled drinking water**

(a) ACTIONS REQUIRED OF SECRETARY RELATING TO NATIONAL PRIMARY DRINKING WATER REGULATIONS.—Except as provided in subsection (b), whenever the Administrator prescribes an interim or revised national primary drinking water regulation under section 1412 of the Safe Drinking Water Act (42 U.S.C. 300g–1), the Secretary—

(1) shall consult with the Administrator; and

(2) within 180 days after the promulgation of the interim or revised national primary drinking water regulation—

(A) promulgate amendments to regulations under this subtitle applicable to bottled drinking water; or

(B) publish in the Federal Register the reasons of the Secretary for not making the amendments.

(b) STANDARD OF QUALITY REGULATION.—

(1) PROMULGATION.—

(A) IN GENERAL.—Not later than 180 days before the effective date of a national primary drinking water regulation promulgated by the Administrator for a contaminant under section 1412 of the Safe Drinking Water Act (42 U.S.C. 300g–1), the Secretary—

(i) shall promulgate a standard of quality regulation under this subsection for that contaminant in bottled water; or

(ii) make a finding that the standard of quality regulation under clause (i) is not necessary to protect the public health because the contaminant is contained in water in public water systems (as defined under section 1401(4) of the Safe Drinking Water Act (42 U.S.C. 300f(4))) but not in water used for bottled drinking water.

(B) EFFECTIVE DATE.—

(i) IN GENERAL.—The effective date for a standard of quality regulation promulgated under subparagraph (A) shall be the same as the effective date for the na-

tional primary drinking water regulation, except for any standard of quality of regulation promulgated by the Secretary before August 6, 1996, for which (as of August 6, 1996) an effective date had not been established.

(ii) MONITORING REQUIREMENTS FOR CONTAMINANTS REGULATED BEFORE AUGUST 6, 1996.—In the case of a standard of quality regulation to which the exception under clause (i) applies, the Secretary shall promulgate monitoring requirements for the contaminants covered by the regulation not later than 2 years after August 6, 1996.

(2) MONITORING REQUIREMENTS.—A standard of quality regulation issued by the Secretary under this subsection shall include any monitoring requirements that the Secretary determines appropriate for bottled water.

(3) REQUIRED PROVISIONS.—A standard of quality regulation issued by the Secretary under this subsection shall require the following:

(A) MAXIMUM CONTAMINANT LEVEL NOT LESS STRINGENT.—In the case of contaminants

for which a maximum contaminant level is established in a national primary drinking water regulation under section 1412 of the Safe Drinking Water Act (42 U.S.C. 300g–1), the standard of quality regulation shall establish a maximum contaminant level for the contaminant in bottled water that is no less stringent than the maximum contaminant level provided in the national primary drinking water regulation.

(B) REQUIREMENTS NO LESS PROTECTIVE OF PUBLIC HEALTH.—In the case of contaminants for which a treatment technique is established in a national primary drinking water regulation under section 1412 of the Safe Drinking Water Act (42 U.S.C. 300g–1), the standard of quality regulation shall require that bottled water be subject to requirements no less protective of the public health than those applicable to water provided by public water systems using the treatment technique required by the national primary drinking water regulation.

(4) NO STANDARD OF QUALITY REGULATION PROMULGATED.—

(A) IN GENERAL.—If the Secretary does not promulgate a standard of quality regulation under this subsection within the period described in paragraph (1), the national primary drinking water regulation referred to in paragraph (1) shall be deemed, as of the date on which the Secretary is required to establish a regulation under paragraph (1), as the standard of quality regulation applicable under this subsection to bottled water.

(B) PUBLICATION.—

(i) DEFINITION OF SUBSTITUTE REGULATION.—In this subparagraph, the term ''substitute regulation'' means a national primary drinking water regulation that, pursuant to subparagraph (A), is deemed to be a standard of quality regulation.

(ii) IN GENERAL.—In the case of a substitute regulation, the Secretary shall, not later than the applicable date referred to in subparagraph (A), publish in the Federal Register a notice—

(I) specifying the contents of the substitute regulation, including monitoring requirements; and

(II) providing that, for purposes of this paragraph—

(aa) the effective date for the substitute regulation is the same as the effective date for the national primary drinking water regulation for purposes of the Safe Drinking Water Act (42 U.S.C. 300f et seq.); or

(bb) if the exception under paragraph (1)(B) applies to the substitute regulation, the effective date for the regulation is not later than 2 years and 180 days after August 6, 1996.

**§ 11113. Vitamins and minerals**

(a) DEFINITION OF FOOD TO WHICH THIS SECTION APPLIES.—

(1) IN GENERAL.—In this section, the term ''food to which this section applies'' means a food—

(A) for humans;

(B) for special dietary use;

(C) that is or contains any natural or synthetic vitamin or mineral; and

(D) that—

(i) is intended for ingestion in tablet, capsule, powder, softgel, gelcap, or liquid form; or

(ii) if not intended for ingestion in a form described in clause (i)—

(I) is not represented as conventional food; and

(II) is not represented for use as a sole item of a meal or of the diet.

(2) INTENDED FOR INGESTION IN LIQUID FORM.—For purposes of paragraph (1)(D)(i), a food shall be considered intended for ingestion in liquid form only if—

(A) it is formulated in a fluid carrier; and

(B) it is intended for ingestion in daily quantities measured in drops or similar small units of measure.

(3) SPECIAL DIETARY USE.—For purposes of paragraph (1) and of section 11311 of this title to the extent that section 11311 of this title is applicable to food to which this section applies, the term ''special dietary use'' means a particular use for which a food purports or is represented to be used, including—

(A) supplying a special dietary need that exists by reason of a physical, physiological, pathological, or other condition, including—

(i) the condition of disease, convalescence, pregnancy, lactation, infancy, allergic hypersensitivity to food, being underweight, being overweight; and

(ii) the need to control the intake of sodium;

(B) supplying a vitamin, mineral, or other ingredient for use by a human to supplement that human's diet by increasing the total dietary intake; and

(C) supplying a special dietary need by reason of being a food for use as the sole item of the diet.

(b) REGULATING POTENCY AND CONTENT.—Except as provided in subsection (c)—

(1) the Secretary may not establish, under chapter 113 of this title or section 10101(c)(1) or 11101 of this title, maximum limits on the potency of any synthetic or natural vitamin or mineral within a food to which this section applies;

(2) the Secretary may not classify any natural or synthetic vitamin or mineral (or combination of

any natural or synthetic vitamin or mineral) as a drug solely because it exceeds the level of potency that the Secretary determines is nutritionally rational or useful; and

(3) the Secretary may not limit, under chapter 113 of this title or section 10101(c)(1) or 11101 of this title, within a food to which this section applies, the combination or number of any synthetic or natural—

(A) vitamin;

(B) mineral; or

(C) other ingredient of food.

(c) INAPPLICABILITY RELATING TO INDIVIDUALS WITH DISEASES OR DISORDERS, CHILDREN, AND PREGNANT OR LACTATING WOMEN.—

(1) DEFINITION OF CHILDREN.—In this subsection, the term ''children'' means individuals who are under the age of 12 years.

(2) IN GENERAL.—Subsection (b) shall not apply in the case of a vitamin, mineral, other ingredient of food, or food that is represented for use by—

(A) individuals in the treatment or management of specific diseases or disorders;

(B) children; or

(C) pregnant or lactating women.

(d) LABELING AND ADVERTISING REQUIREMENTS FOR FOODS.—

(1) MISBRANDING PROVISIONS.—A food to which this section applies shall not be considered under chapter 113 of this title to be misbranded solely because—

(A) its label bears, in accordance with section 11310(a)(2) of this title, all the ingredients in the food; or

(B) its advertising contains references to ingredients in the food that are not vitamins or minerals.

(2) LISTING OF INGREDIENTS ON LABELING.—

(A) IN GENERAL.—The labeling for any food to which this section applies may not list the food's ingredients that are not dietary supplement ingredients described in section 10101(a)(17) of this title—

(i) except as a part of a list of all the ingredients of the food; and

(ii) unless the ingredients are listed in accordance with applicable regulations under chapter 113 of this title.

(B) EXEMPTIONS.—To the extent that compliance with subparagraph (A)(i) is impracticable or results in deception or unfair competition, exemptions shall be established by regulations promulgated by the Secretary.

(e) AMENDMENT OF INCONSISTENT REGULATIONS BY SECRETARY.—

(1) IN GENERAL.—The Secretary shall amend any regulation promulgated under this subtitle that is inconsistent with this section.

(2) SECTION 553 OF TITLE 5.—Any amendment to a regulation under paragraph (1) shall be promulgated in accordance with section 553 of title 5.

**§ 11114. Infant formulas**

(a) ADULTERATION.—An infant formula, including an infant formula powder, shall be deemed to be adulterated if—

(1) the infant formula does not provide nutrients as required by subsection (i);

(2) the infant formula does not meet the quality factor requirements prescribed by the Secretary under subsection (b)(1); or

(3) the processing of the infant formula is not in compliance with the good manufacturing practices

and the quality control procedures prescribed by the Secretary under subsection (b)(2).

(b) REQUIREMENTS FOR QUALITY FACTORS, GOOD MANUFACTURING PRACTICES, AND RETENTION OF RECORDS.—

(1) QUALITY FACTORS.—The Secretary shall by regulation establish requirements for quality factors for infant formulas to the extent possible consistent with current scientific knowledge, including quality factor requirements for the nutrients required by subsection (i).

(2) GOOD MANUFACTURING PRACTICES.—

(A) IN GENERAL.—The Secretary shall by regulation establish good manufacturing practices for infant formulas, including quality control procedures that the Secretary determines are necessary to ensure that an infant formula—

(i) provides nutrients in accordance with this subsection and subsection (i); and

(ii) is manufactured in a manner designed to prevent adulteration of the infant formula.

(B) REQUIREMENTS FOR REGULATIONS ON GOOD MANUFACTURING PRACTICES AND QUALITY CONTROL PROCEDURES.—

(i) IN GENERAL.—The good manufacturing practices and quality control procedures prescribed by the Secretary under subparagraph (A) shall include requirements for—

(I) the testing, by the manufacturer of an infant formula (or an agent of the manufacturer), of each batch of infant formula for each nutrient required by subsection (i) before the distribution of the batch, which testing shall be in accordance with paragraph (3);

(II) regularly scheduled testing, by the manufacturer of an infant formula or an agent of the manufacturer, of samples of infant formulas during the shelf life of the formulas to ensure that the formulas are in compliance with this section;

(III) in-process controls including, where necessary, testing required

by good manufacturing practices designed to prevent adulteration of each batch of infant formula; and

(IV) the conduct by the manufacturer of an infant formula or an agent of the manufacturer of regularly scheduled audits to determine that the manufacturer has complied with the regulations prescribed under subparagraph (A).

(ii) AUDIT REQUIREMENTS.—In prescribing requirements for audits under clause (i)(IV), the Secretary shall provide that the audits be conducted by appropriately trained individuals who do not have any direct responsibility for the manufacture or production of infant formula.

(3) TESTING REQUIREMENTS.—

(A) DEFINITION OF FINAL PRODUCT STAGE.—In this paragraph, the term ''final product stage'' means the point in the manufacturing process, before distribution of an infant formula, at which an infant formula is homogenous and is not subject to further degradation.

(B) VITAMINS.—At the final product stage, each batch of infant formula shall be tested for vitamin A, vitamin B1, vitamin C, and vitamin E to ensure that the infant formula is in compliance with the requirements of this subsection and subsection (i) relating to the vitamins.

(C) PREMIX NUTRIENTS.—Each nutrient premix used in the manufacture of an infant formula shall be tested for each relied on nutrient required by subsection (i) that is contained in the premix to ensure that the premix is in compliance with its specifications or certifications by a premix supplier.

(D) NUTRIENTS NOT TESTED IN SUBPARAGRAPHS (B) AND (C).—

(i) IN GENERAL.—During the manufacturing process or at the final product stage and before distribution of an infant formula, an infant formula shall be tested for all nutrients required to be included in the formula by subsection (i) for which testing has not been conducted pursuant to subparagraph (B) or (C).

(ii) PURPOSE OF TESTING.—Testing under this subparagraph shall be conducted to—

(I) ensure that each batch of the infant formula is in compliance with the requirements of subsection (i) relating to the nutrients; and

(II) confirm that nutrients contained in any nutrient premix used in the infant formula are present in each batch of the infant formula in the proper concentration.

(E) NEWLY ADDED NUTRIENTS.—If the Secretary adds a nutrient to the list of nutrients in the table in subsection (i), the Secretary shall by regulation require that the manufacturer of an infant formula test each batch of the formula for the new nutrient in accordance with subparagraph (B), (C), or (D).

(4) RETENTION OF RECORDS.—

(A) ESTABLISHMENT OF REQUIREMENTS.—The Secretary shall by regulation establish requirements respecting the retention of records.

(B) REQUIRED PROVISIONS.—The requirements under subparagraph (A) shall provide for—

(i) the retention of all records necessary to demonstrate compliance with the good manufacturing practices and quality control procedures prescribed by the Secretary under paragraph (2), including records containing the results of all testing required under paragraph (2)(B);

(ii) the retention of all certifications or guarantees of analysis by premix suppliers;

(iii) the retention by a premix supplier of all records necessary to confirm the accuracy of all premix certifications and guarantees of analysis;

(iv) the retention of—

(I) all records pertaining to the microbiological quality and purity of raw materials used in infant formula powder and in finished infant formula; and

(II) all records pertaining to food packaging materials that show that

the materials do not cause an infant formula to be adulterated within the meaning of section 11102(a)(2)(C) of this title;

(v) the retention of all records of the results of regularly scheduled audits conducted pursuant to the requirements prescribed by the Secretary under paragraph (2)(B)(i)(IV); and

(vi) the retention of all complaints and the maintenance of files with respect to, and the review of, complaints concerning infant formulas that may reveal the possible existence of a hazard to health.

(C) DURATION OF RETENTION.—Records required under this paragraph with respect to an infant formula shall be retained for at least 1 year after the expiration of the shelf life of the infant formula.

(D) AVAILABILITY FOR REVIEW.—Except as provided in subparagraph (E), the records shall be made available to the Secretary for review and duplication on request of the Secretary.

(E) WRITTEN ASSURANCES RELATING TO AUDITS.—A manufacturer need only provide written assurances to the Secretary that the regularly scheduled audits required by paragraph (2)(B)(i)(IV) are being conducted by the manufacturer, and need not make available to the Secretary the actual written reports of the audits.

(c) REGISTRATION OF PERSONS DISTRIBUTING NEW INFANT FORMULA.—

(1) DEFINITION OF NEW INFANT FORMULA.—

(A) IN GENERAL.—In this subsection, the term ''new infant formula'' includes—

(i) an infant formula manufactured by a person that has not previously manufactured infant formula; and

(ii) an infant formula manufactured by a person that has previously manufactured infant formula and in which there is a major change, in processing or formulation, from a current or any previous formulation produced by the manufacturer.

(B) MAJOR CHANGE.—In this paragraph, the term ''major change'' has the meaning given the term in section 106.30(c)(2) of title

21, Code of Federal Regulations, as in effect on August 1, 1986, and guidelines issued under that section.

(2) IN GENERAL.—A person shall not introduce or deliver for introduction into interstate commerce any new infant formula unless—

(A) the person has, before introducing the new infant formula, or delivering the new infant formula for introduction, into interstate commerce, registered with the Secretary the name of the person, the place of business of the person, and all establishments at which the person intends to manufacture the new infant formula; and

(B) the person has, at least 90 days before marketing the new infant formula, made the submission to the Secretary required by subsection (d)(1).

(d) SUBMISSION OF INFORMATION ABOUT NEW INFANT FORMULA REQUIRED.—

(1) IN GENERAL.—A person shall, with respect to any infant formula subject to subsection (c), make a submission to the Secretary that includes—

(A) the quantitative formulation of the infant formula;

(B) a description of any reformulation of the formula or change in processing of the infant formula;

(C) assurances that the infant formula will not be marketed unless it meets the requirements of subsections (b)(1) and (i), as demonstrated by the testing required under subsection (b)(3); and

(D) assurances that the processing of the infant formula complies with subsection (b)(2).

(2) WRITTEN VERIFICATION OF TEST RESULTS AND RECORDS DEMONSTRATING COMPLIANCE.—After the first production of an infant formula subject to subsection (c), and before the introduction into interstate commerce of the formula, the manufacturer of the formula shall submit to the Secretary, in such form as may be prescribed by the Secretary, a written verification that summarizes test results and records demonstrating that the formula complies with the requirements of paragraph(1), paragraph (2)(A), subclauses (I) and (III) of paragraph (2)(B)(i), and subparagraphs (B) and (D) of paragraph (3) of subsection (b) and subsection (i).

(3) SUBMISSION BASED ON CHANGE IN FORMULA.—If the manufacturer of an infant formula for commercial or charitable distribution for human consumption determines that a change in the formulation of the formula or a change in the processing of the formula may affect whether the formula is adulterated under subsection (a), the manufacturer shall, before the first processing of the formula, make the submission to the Secretary required by paragraph (1).

(4) RESPONSE.—The Secretary shall provide a response to a submission under this subsection not later than 45 days after receiving the submission.

(e) ADDITIONAL NOTICE REQUIREMENTS FOR MANUFACTURER.—

(1) DEFINITION OF KNOWLEDGE.—In this subsection, the term ''knowledge'', as applied to a manufacturer, means—

(A) the actual knowledge that the manufacturer had; or

(B) the knowledge that a reasonable person would have had under like circumstances or that would have been obtained on the exercise of due care.

(2) NOTIFICATION.—

(A) IN GENERAL.—If the manufacturer of an infant formula has knowledge that reasonably supports the conclusion described in subparagraph (B), the manufacturer shall promptly notify the Secretary of that knowledge.

(B) CONCLUSION.—The conclusion described in this subparagraph is the conclusion that an infant formula that has been processed by the manufacturer and that has left an establishment subject to the control of the manufacturer—

(i) may not provide the nutrients required by subsection (i); or

(ii) may be otherwise adulterated or misbranded.

(3) RECALL.—If the Secretary determines that the infant formula presents a risk to human health, the manufacturer shall immediately take all actions necessary to recall shipments of the infant formula from all wholesale and retail establishments, consistent with recall regulations and guidelines issued by the Secretary.

(f) PROCEDURES APPLICABLE TO RECALLS BY MANUFACTURER; REGULATORY OVERSIGHT.—

(1) REVIEW BY SECRETARY; REPORT BY MANUFACTURER.—If a manufacturer begins a recall of an infant formula, the manufacturer shall carry out the recall in accordance with such requirements as the Secretary shall prescribe under paragraph (2) and—

(A) the Secretary shall, not later than the 15th day after the beginning of the recall and at least once every 15 days after that day until the recall is terminated, review the actions taken under the recall to determine whether the recall meets the requirements prescribed under paragraph (2); and

(B) the manufacturer shall, not later than the 14th day after the beginning of the recall and at least once every 14 days after that day until the recall is terminated, report to the Secretary the actions taken to implement the recall.

(2) REGULATIONS.—The Secretary shall by regulation prescribe the scope and extent of recalls of infant formulas necessary and appropriate for the degree of risks to human health presented by the formula subject to the recall.

(3) NOTICE TO PUBLIC.—The Secretary shall by regulation require each manufacturer of an infant

formula that begins a recall of the formula because of a risk to human health to request each retail establishment at which the formula is sold or available for sale to post at the point of purchase of the formula a notice of the recall at the establishment for the time that the Secretary determines necessary to inform the public of the recall.

(g) RECORDKEEPING REQUIREMENTS FOR MANUFACTURER; REGULATORY OVERSIGHT AND ENFORCEMENT.—

(1) REQUIREMENT.—

(A) IN GENERAL.—Each manufacturer of an infant formula shall make and retain such records respecting the distribution of the infant formula through any establishment owned or operated by the manufacturer as may be necessary to effect and monitor recalls of the formula.

(B) DURATION OF RETENTION OF RECORDS.—The records shall be retained for at least 1 year after the expiration of the shelf life of the infant formula.

(2) REGULATIONS DUE TO NONCOMPLIANCE.—

(A) IN GENERAL.—To the extent that the Secretary determines that records are not being

made or maintained in accordance with paragraph (1), the Secretary may by regulation prescribe—

(i) the records required to be made under paragraph (1); and

(ii) the requirements respecting the retention of the records under paragraph (1).

(B) EFFECTIVE DATE OF REGULATIONS.—The regulations under subparagraph (A) shall take effect on such date as the Secretary prescribes but not sooner than the 180th day after the date the regulations are prescribed.

(C) APPLICABILITY OF REGULATIONS.—The regulations under subparagraph (A) shall apply only with respect to distributions of infant formulas made after the effective date under subparagraph (B).

(h) EXEMPTIONS; REGULATORY OVERSIGHT.—

(1) REQUIREMENT FOR EXEMPTION.—

(A) IN GENERAL.—Any infant formula that is represented and labeled for use by an infant described in subparagraph (B) is exempt from the requirements of subsections (a), (b), and (c).

(B) INFANT.—An infant described in this paragraph is an infant—

(i) who has an inborn error of metabolism or a low birth weight; or

(ii) who otherwise has an unusual medical or dietary problem.

(C) EFFECT OF EXEMPTION.—The manufacturer of an infant formula exempt under this paragraph shall, in the case of the exempt formula, be required to provide the notice required by subsection (e)(2) only with respect to adulteration or misbranding described in subsection (e)(2)(B)(ii) and to comply with the regulations prescribed by the Secretary under paragraph (2).

(2) REGULATIONS.—

(A) The Secretary may by regulation establish terms and conditions for the exemption of an infant formula from the requirements of subsections (a), (b), and (c).

(B) WITHDRAWAL OF EXEMPTION.—An exemption of an infant formula under paragraph (1) may be withdrawn by the Secretary if the formula is not in compliance with applica-

ble terms and conditions prescribed under this paragraph.

(i) NUTRIENT REQUIREMENTS.—

(1) IN GENERAL.—An infant formula shall contain nutrients in accordance with the table set out in this subsection, which shall be reviewed by the Secretary every 4 years as appropriate. In reviewing the table, the Secretary shall consider any new scientific data or information related to infant formula nutrients, including international infant formula standards. The Secretary may revise the list of nutrients and the required level for any nutrient required by the table.

(2) REVISION.—The Secretary may by regulation—

(A) revise the list of nutrients in the table in this subsection; and

(B) revise the required level for any nutrient required by the table.

(3) TABLE.—The table under this subsection is the following table:

NUTRIENTS

| Nutrient | Minimum[a] | Maximum[a] |
|---|---|---|
| Protein (gm) | 1.8[b] | 4.5. |
| Fat: | | |
| gm | 3.3 | 6.0. |
| percent cal | 30.0 | 54.0. |
| Essential fatty acids (linoleate): | | |
| percent cal | 2.7 | |
| mg | 300.0 | |
| Vitamins: | | |
| A (IU) | 250.0 (75 µg)[c] | 750.0 (225 µg).[c] |
| D (IU) | 40.0 | 100.0. |

NUTRIENTS—Continued

| Nutrient | Minimum[a] | Maximum[a] |
|---|---|---|
| K (µg) | 4.0 | |
| E (IU) | 0.7 (with 0.7 IU/gm linoleic acid) | |
| C (ascorbic acid) (mg) | 8.0 | |
| $B_1$ (thiamine) (µg) | 40.0 | |
| $B_2$ (riboflavin) (µg) | 60.0 | |
| $B_6$ (pyridoxine) (µg) | 35.0 (with 15 µg/gm of protein in formula) | |
| $B_{12}$ (µg) | 0.15 | |
| Niacin (µg) | 250.0 | |
| Folic acid (µg) | 4.0 | |
| Pantothenic acid (µg) | 300.0 | |
| Biotin (µg) | 1.5[d] | |
| Choline (mg) | 7.0[d] | |
| Inositol (mg) | 4.0[d] | |
| Minerals: | | |
| Calcium (mg) | 50.0[e] | |
| Phosphorus (mg) | 25.0[e] | |
| Magnesium (mg) | 6.0 | |
| Iron (mg) | 0.15 | |
| Iodine (µg) | 5.0 | |
| Zinc (mg) | 0.5 | |
| Copper (µg) | 60.0 | |
| Manganese (µg) | 5.0 | |
| Sodium (mg) | 20.0 | 60.0. |
| Potassium (mg) | 80.0 | 200.0. |
| Chloride (mg) | 55.0 | 150.0 |

[a]Stated per 100 kilocalories.

[b]The source of protein shall be at least nutritionally equivalent to casein.

[c]Retinol equivalents.

[d]Required to be included in this amount only in formulas which are not milk-based.

[e]Calcium to phosphorus ratio must be no less than 1.1 nor more than 2.0.

(j) PREMARKET SUBMISSIONS TO ADDRESS SHORTAGES.—

(1) IN GENERAL.—The Secretary shall waive the 90-day premarket submission requirement under subsection (c) and apply a 30-day premarket submission requirement for any person that intends to introduce or deliver for introduction into interstate commerce any new infant formula.

(2) EFFECTIVE PERIOD.—The waiver authority under this subsection shall remain in effect—

(A) for 90 days beginning on the date that the Secretary distributes information under sec-

tion 11126(a)(3) of this title with respect to a shortage of infant formula; or

(B) such longer period as the Secretary determines appropriate, to prevent or mitigate a shortage of infant formula.

(k) CONGRESSIONAL NOTIFICATION OF RECALL.—

(1) IN GENERAL.—Not later than 24 hours after the initiation of a recall of infant formula as described in subsection (e), the Secretary shall submit to the Committee on Health, Education, Labor, and Pensions of the Senate and the Committee on Energy and Commerce of the House of Representatives a notification of the recall.

(2) CONTENTS.—A notification under paragraph (1) shall include the following:

(A) If the recall is required by the FDA, a summary of the information supporting a determination that the adulterated or misbranded infant formula presents a risk to human health.

(B) If the recall is voluntarily initiated by the manufacturer, a summary of the information provided to the FDA by the manufacturer regarding infant formula that has left the control of the manufacturer that may be adulterated or misbranded.

(C) Specification of when the FDA was first made aware of the instance or circumstances surrounding the recall.

(D) An initial estimate of the disruption in domestic production that may result from the recall.

(l) ANNUAL REPORT TO CONGRESS.—

(1) IN GENERAL.—Not later than March 30 of each year, the Secretary shall submit a report to Congress containing, with respect to the preceding calendar year, the following information:

(A) The number of submissions received by the Secretary under subsection (d).

(B) The number of the submissions described in subparagraph (A) that included any new ingredients that were not included in any infant formula already on the market.

(C) The number of inspections conducted by the FDA or any agent of the FDA to evaluate compliance with the requirements for infant formulas under subsection (b).

(D) The time between any inspection referred to in subparagraph (C) and any necessary reinspection to evaluate compliance with

the requirements for infant formulas under subsection (b).

(E) A breakdown of the information described in subparagraphs (A) through (D) between foreign and domestic manufacturers and facilities.

(2) CONFIDENTIALITY.—The Secretary shall ensure that the reports under paragraph (1) do not include any information that is a trade secret or confidential information subject to section 552(b)(4) of title 5 or section 1905 of title 18.

(m) WAIVER OF REQUIREMENTS FOR IMPORTATION OF SPECIALTY INFANT FORMULA.—

(1) DEFINITION OF SPECIALTY INFANT FORMULA.—In this subsection, the term ''specialty infant formula'' means infant formula described in subsection (h)(1).

(2) IN GENERAL.—The Secretary may, during a shortage of specialty infant formula as determined by the Secretary, waive any requirement under this subtitle applicable to facilitate the importation of specialty infant formula. The waiver may be applicable to—

(A) the importation of specialty infant formula from any country that is determined by

the Secretary to be implementing and enforcing requirements for infant formula that provide a similar assurance of safety and nutritional adequacy as the requirements of this subtitle; or

(B) the distribution and sale of the imported specialty infant formula.

(3) RULE OF CONSTRUCTION.—Nothing in paragraph (2) shall be construed to limit the authority of the Secretary to require a recall of, or otherwise impose restrictions and requirements under this subtitle with respect to, specialty infant formula that is subject to a waiver under paragraph (2).

**§ 11115. New dietary ingredients**

(a) DEFINITION OF NEW DIETARY INGREDIENT.—In this section, the term ''new dietary ingredient'' means a dietary ingredient that was not marketed in the United States before October 15, 1994, and does not include any dietary ingredient which was marketed in the United States before October 15, 1994.

(b) REQUIREMENTS FOR NOT BEING DEEMED ADULTERATED.—

(1) IN GENERAL.—A dietary supplement that contains a new dietary ingredient shall be deemed adulterated under section 11102(f) of this title unless it meets one of the following requirements:

(A) CONTAINS ONLY CERTAIN DIETARY INGREDIENTS.—The dietary supplement contains only dietary ingredients that have been present in the food supply as an article used for food in a form in which the food has not been chemically altered.

(B) EXISTENCE OF EVIDENCE OF SAFETY.—There is a history of use or other evidence of safety establishing that the dietary ingredient—

(i) when used under the conditions recommended or suggested in the labeling of the dietary supplement, will reasonably be expected to be safe; and

(ii) at least 75 days before being introduced or delivered for introduction into interstate commerce, the manufacturer or distributor of the dietary ingredient or dietary supplement provides the Secretary with information, including any citation to published articles, that is the basis on which the manufacturer or distributor has concluded that a dietary supplement containing the dietary ingredient will reasonably be expected to be safe.

(2) CONFIDENTIALITY FOR 90 DAYS.—The Secretary shall keep confidential any information provided under paragraph (1)(B) for 90 days following receipt of the information.

(3) PUBLIC DISPLAY FOLLOWING CONFIDENTIALITY.—After the expiration of the 90 days under paragraph (2), the Secretary shall place the information described in paragraph (2) on public display, except matters in the information that are trade secrets or otherwise confidential, commercial information.

(c) PETITION FOR ORDER RELATING TO SAFETY.—

(1) FILING.—Any person may file with the Secretary a petition proposing the issuance of an order prescribing the conditions under which a new dietary ingredient under its intended conditions of use will reasonably be expected to be safe.

(2) DECISION PERIOD.—The Secretary shall make a decision on the petition within 180 days of the date the petition is filed with the Secretary.

(3) DECISION AS FINAL AGENCY ACTION.—For purposes of chapter 7 of title 5, the decision of the Secretary shall be considered final agency action.

(d) NOTIFICATION RELATING TO ANABOLIC STEROID.—

(1) DEFINITIONS.—In this subsection:

(A) ANABOLIC STEROID.—The term ''anabolic steroid'' has the meaning given the term in section 50101 of this title.

(B) ANALOGUE OF AN ANABOLIC STEROID.—The term ''analogue of an anabolic steroid'' means a substance whose chemical structure is substantially similar to the chemical structure of an anabolic steroid.

(2) IN GENERAL.—If the Secretary determines that the information in a new dietary ingredient notification submitted under this section for an article purported to be a new dietary ingredient is inadequate to establish that a dietary supplement containing the article will reasonably be expected to be safe because the article may be, or may contain, an anabolic steroid or an analogue of an anabolic steroid, the Secretary shall notify the Drug Enforcement Administration of the determination.

(3) INCLUSIONS.—The notification by the Secretary shall include, at a minimum—

(A) the name of the dietary supplement or article;

(B) the name of the person or persons that marketed the product or made the submission

of information regarding the article to the Secretary under this section; and

(C) any contact information for the person or persons that the Secretary has.

(e) GUIDANCE.—Not later than 180 days after January 4, 2011, the Secretary shall publish guidance that clarifies—

(1) when a dietary supplement ingredient is a new dietary ingredient;

(2) when the manufacturer or distributor of a dietary ingredient or dietary supplement should provide the Secretary with information as described in subsection (b)(1)(B);

(3) the evidence needed to document the safety of new dietary ingredients; and

(4) appropriate methods for establishing the identity of a new dietary ingredient.

**§ 11116. Maintenance and inspection of records**

(a) RECORDS INSPECTION.—

(1) ADULTERATED FOOD.—If the Secretary has a reasonable belief that an article of food, and any other article of food that the Secretary reasonably believes is likely to be affected in a similar manner, is adulterated and presents a threat of serious adverse health consequences or death to humans or

animals, each person (excluding farms and restaurants) that manufactures, processes, packs, distributes, receives, holds, or imports the article shall, at the request of an officer or employee designated by the Secretary, permit the officer or employee, on presentation of appropriate credentials and a written notice to the person, at reasonable times and within reasonable limits and in a reasonable manner, to have access to and copy all records relating to the article (and to have access to any other article of food that the Secretary reasonably believes is likely to be affected in a similar manner) that are needed to assist the Secretary in determining whether the food is adulterated and presents a threat of serious adverse health consequences or death to humans or animals.

(2) USE OF OR EXPOSURE TO FOOD OF CONCERN.—If the Secretary believes that there is a reasonable probability that the use of or exposure to an article of food, and any other article of food that the Secretary reasonably believes is likely to be affected in a similar manner, will cause serious adverse health consequences or death to humans or animals, each person (excluding farms and restaurants) that manufactures, processes, packs, distributes, receives,

holds, or imports the article shall, at the request of an officer or employee designated by the Secretary, permit the officer or employee, on presentation of appropriate credentials and a written notice to the person, at reasonable times and within reasonable limits and in a reasonable manner, to have access to and copy all records relating to the article (and to have access to any other article of food that the Secretary reasonably believes is likely to be affected in a similar manner) that are needed to assist the Secretary in determining whether there is a reasonable probability that the use of or exposure to the food will cause serious adverse health consequences or death to humans or animals.

(3) APPLICABILITY.—The requirement under paragraphs (1) and (2) applies to all records relating to the manufacture, processing, packing, distribution, receipt, holding, or importation of the article maintained by or on behalf of the person in any format (including paper and electronic formats) and at any location.

(b) REGULATIONS CONCERNING RECORDKEEPING.—

(1) AUTHORITY TO ESTABLISH RECORDKEEPING REQUIREMENTS BY REGULATION.—The Secretary, in consultation and coordination, as ap-

propriate, with other Federal agencies with responsibilities for regulating food safety, may by regulation establish requirements regarding the establishment and maintenance, for not longer than 2 years, of records by persons (excluding farms and restaurants) that manufacture, process, pack, transport, distribute, receive, hold, or import food, which records are needed by the Secretary for inspection to allow the Secretary to identify the immediate previous sources and the immediate subsequent recipients of food, including its packaging, to address credible threats of serious adverse health consequences or death to humans or animals.

(2) SIZE OF BUSINESS AS A FACTOR.—The Secretary shall take into account the size of a business in promulgating regulations under this subsection.

(c) PROTECTION OF SENSITIVE INFORMATION.—The Secretary shall take appropriate measures to ensure that there are in effect effective procedures to prevent the unauthorized disclosure of any trade secret or confidential information that is obtained by the Secretary pursuant to this section.

(d) LIMITATIONS.—This section shall not be construed—

(1) to limit the authority of the Secretary to inspect records or to require establishment and maintenance of records under any other provision of this subtitle;

(2) to authorize the Secretary to impose any requirements with respect to a food to the extent that it is within the exclusive jurisdiction of the Secretary of Agriculture pursuant to chapters 303, 313, and 317 of this title;

(3) to have any legal effect on section 552 of title 5 or section 1905 of title 18; or

(4) to extend to recipes for food, financial data, pricing data, personnel data, research data, or sales data (other than shipment data regarding sales).

**§ 11117. Registration of food facilities**

(a) DEFINITIONS.—

(1) DOMESTIC FACILITY.—The term ''domestic facility'' means a facility located in any State or territory of the United States.

(2) FACILITY.—

(A) INCLUSIONS.—The term ''facility'' includes any factory, warehouse, or establishment (including a factory, warehouse, or establishment of an importer) that manufactures, processes, packs, or holds food.

(B) EXCLUSIONS.—The term ''facility'' does not include—

(i) farms;

(ii) restaurants or other retail food establishments;

(iii) nonprofit food establishments in which food is prepared for or served directly to the consumer; or

(iv) fishing vessels (except vessels engaged in processing as defined in section 123.3(k) of title 21, Code of Federal Regulations).

(3) FOREIGN FACILITY.—

(A) DEFINITION.—The term ''foreign facility'' means a facility that manufactures, processes, packs, or holds food, but only if food from the facility is exported to the United States without further processing or packaging outside the United States.

(B) FURTHER PROCESSING OR PACKAGING.—A food may not be considered to have undergone further processing or packaging for purposes of subparagraph (A) solely on the basis that labeling was added or that any simi-

lar activity of a de minimis nature was carried out with respect to the food.

(b) REGISTRATION.—

(1) REQUIREMENT TO REGISTER.—

(A) IN GENERAL.—The Secretary shall by regulation require that any facility engaged in manufacturing, processing, packing, or holding food for consumption in the United States be registered with the Secretary.

(B) DOMESTIC AND FOREIGN FACILITIES.—To be registered—

(i) for a domestic facility, the owner, operator, or agent in charge of the facility shall submit a registration to the Secretary; and

(ii) for a foreign facility, the owner, operator, or agent in charge of the facility shall submit a registration to the Secretary and shall include with the registration the name of the United States agent for the facility.

(2) SUBMISSIONS.—

(A) IN GENERAL.—An entity (referred to in this section as the ''registrant'') shall submit

a registration under paragraph (1) to the Secretary containing—

(i) information necessary to notify the Secretary of—

(I) the name and address of each facility at which the registrant conducts business; and

(II) all trade names under which the registrant conducts business;

(ii) the e-mail address for the contact person of the facility or, in the case of a foreign facility, the United States agent for the facility; and

(iii) when determined necessary by the Secretary through guidance, the general food category (as identified under section 170.3 of title 21, Code of Federal Regulations, or any other food categories as determined appropriate by the Secretary, including by guidance) of any food manufactured, processed, packed, or held at the facility.

(B) ASSURANCE.—The registration shall contain an assurance that the Secretary will be

permitted to inspect the facility at the times and in the manner permitted by this subtitle.

(C) NOTIFICATIONS RELATING TO CHANGES TO INFORMATION.—The registrant shall notify the Secretary in a timely manner of changes to the information submitted under this paragraph.

(3) BIENNIAL REGISTRATION RENEWAL.—

(A) IN GENERAL.—During the period beginning on October 1 and ending on December 31 of each even-numbered year, a registrant that has submitted a registration under paragraph (1) shall submit to the Secretary a renewal registration containing the information described in paragraph (2).

(B) ABBREVIATED PROCESS.—The Secretary shall provide for an abbreviated registration renewal process for any registrant that has not had any changes to the information since the registrant submitted the preceding registration or registration renewal for the facility involved.

(4) NOTIFICATION OF RECEIPT; ASSIGNMENT OF REGISTRATION NUMBER.—On receipt of a completed registration described in paragraph (1), the

Secretary shall notify the registrant of the receipt of the registration and assign a registration number to each registered facility.

(5) LIST.—

(A) COMPILATION AND MAINTENANCE.—The Secretary shall compile and maintain an up-to-date list of facilities that are registered under this section.

(B) DISCLOSURE UNDER SECTION 552 OF TITLE 5.—

(i) LIST AND REGISTRATION DOCUMENTS.—The list and any registration documents submitted pursuant to this subsection shall not be subject to disclosure under section 552 of title 5.

(ii) INFORMATION DERIVED RELATING TO SPECIFIC REGISTERED PERSON.—Information derived from the list or registration documents shall not be subject to disclosure under section 552 of title 5 to the extent that it discloses the identity or location of a specific registered person.

(c) SUSPENSION OF REGISTRATION.—

(1) IN GENERAL.—If the Secretary determines that food manufactured, processed, packed, received,

or held by a facility registered under this section has a reasonable probability of causing serious adverse health consequences or death to humans or animals, the Secretary may by order suspend the registration of a facility—

(A) that created, caused, or was otherwise responsible for the reasonable probability; or

(B) that—

(i) knew of, or had reason to know of, the reasonable probability; and

(ii) packed, received, or held the food.

(2) HEARING ON SUSPENSION.—The Secretary shall provide the registrant subject to an order under paragraph (1) with an opportunity for an informal hearing, to be held as soon as possible but not later than 2 business days after the issuance of the order or such other time period, as agreed on by the Secretary and the registrant, on—

(A) the actions required for reinstatement of registration; and

(B) why the registration that is subject to suspension should be reinstated.

(3) REINSTATEMENT.—The Secretary shall reinstate a registration if the Secretary determines, based on evidence presented, that adequate grounds

do not exist to continue the suspension of the registration.

(4) POST-HEARING CORRECTIVE ACTION PLAN; VACATING OF ORDER.—

(A) CORRECTIVE ACTION PLAN.—

(i) SUBMISSION.—If, after providing opportunity for an informal hearing under paragraph (2), the Secretary determines that the suspension of registration remains necessary, the Secretary shall require the registrant to submit a corrective action plan to demonstrate how the registrant plans to correct the conditions found by the Secretary.

(ii) REVIEW.—The Secretary shall review the corrective action plan not later than 14 days after submission under clause (i) or such other time period as determined by the Secretary.

(B) VACATING OR MODIFICATION OF ORDER.—On a determination by the Secretary that adequate grounds do not exist to continue the suspension actions required by the order, or that the actions should be modified, the Secretary shall promptly vacate the order and rein-

state the registration of the facility subject to the order or modify the order, as appropriate.

(5) EFFECT OF SUSPENSION.—If the registration of a facility is suspended under this subsection, a person shall not—

(A) import or export food into the United States from the facility;

(B) offer to import or export food into the United States from the facility; or

(C) otherwise introduce food from the facility into interstate or intrastate commerce in the United States.

(6) REGULATIONS.—

(A) IN GENERAL.—The Secretary shall promulgate regulations to implement this subsection. The Secretary may promulgate the regulations on an interim final basis.

(B) AUTHORITY TO REQUIRE SUBMISSION OF REGISTRATION IN ELECTRONIC FORMAT.—The Secretary may require that registration under this section be submitted in electronic format.

(C) SMALL ENTITY COMPLIANCE POLICY GUIDE.—The Secretary shall issue a small entity compliance policy guide setting forth in plain

language the requirements of the regulations under this paragraph to assist small entities in complying with registration requirements and other activities required under this paragraph.

(7) NO DELEGATION.—The authority conferred by this subsection to issue an order to suspend a registration or vacate an order of suspension shall not be delegated to any officer or employee other than the Commissioner.

(d) RULE OF CONSTRUCTION.—Nothing in this section shall be construed to authorize the Secretary to require an application, review, or licensing process for a facility to be registered, except with respect to the reinstatement of a registration that is suspended under subsection (c).

**§ 11118. Sanitary transportation practices**

(a) DEFINITIONS.—In this section:

(1) BULK VEHICLE.—The term ''bulk vehicle'' includes a tank truck, hopper truck, rail tank car, hopper car, cargo tank, portable tank, freight container, and hopper bin, and any other vehicle in which food is shipped in bulk, with the food coming into direct contact with the vehicle.

(2) TRANSPORTATION.—The term ''transportation'' means any movement in commerce by motor vehicle or rail vehicle.

(b) REGULATIONS.—The Secretary shall by regulation require shippers, carriers by motor vehicle or rail vehicle, receivers, and other persons engaged in the transportation of food to use sanitary transportation practices prescribed by the Secretary to ensure that food is not transported under conditions that may render the food adulterated.

(c) CONTENTS.—The regulations under subsection (b) shall—

(1) prescribe such practices as the Secretary determines to be appropriate relating to—

(A) sanitation;

(B) packaging, isolation, and other protective measures;

(C) limitations on the use of vehicles;

(D) information to be disclosed—

(i) to a carrier by a person arranging for the transport of food; and

(ii) to a manufacturer or other person that—

(I) arranges for the transportation of food by a carrier; or

(II) furnishes a tank vehicle or bulk vehicle for the transportation of food; and

(E) recordkeeping; and

(2) include—

(A) a list of nonfood products that the Secretary determines may, if shipped in a bulk vehicle, render adulterated food that is subsequently transported in the same vehicle; and

(B) a list of nonfood products that the Secretary determines may, if shipped in a motor vehicle or rail vehicle (other than a tank vehicle or bulk vehicle), render adulterated food that is simultaneously or subsequently transported in the same vehicle.

(d) WAIVERS.—

(1) IN GENERAL.—The Secretary may waive any requirement under this section, with respect to any class of persons, vehicles, food, or nonfood products, if the Secretary determines that the waiver—

(A) will not result in the transportation of food under conditions that would be unsafe for human or animal health; and

(B) will not be contrary to the public interest.

(2) PUBLICATION.—The Secretary shall publish in the Federal Register any waiver and the reasons for the waiver.

(e) PREEMPTION.—

(1) IN GENERAL.—A requirement of a State or political subdivision of a State that concerns the transportation of food is preempted if—

(A) complying with a requirement of the State or political subdivision and a requirement of this section, or a regulation prescribed under this section, is not possible; or

(B) the requirement of the State or political subdivision as applied or enforced is an obstacle to accomplishing and carrying out this section or a regulation prescribed under this section.

(2) APPLICABILITY.—This subsection applies to transportation that occurs on or after the effective date of the regulations promulgated under subsection (b).

(f) ASSISTANCE OF OTHER AGENCIES.—The Secretary of Transportation, the Secretary of Agriculture, the Administrator, and the heads of other Federal agencies, as appropriate, shall provide assistance on request, to the

extent resources are available, to the Secretary for the purposes of carrying out this section.

**§ 11119. Reportable food registry**

(a) DEFINITIONS.—In this section:

(1) REPORTABLE FOOD.—The term ''reportable food'' means an article of food (other than infant formula) for which there is a reasonable probability that the use of, or exposure to, the article of food will cause serious adverse health consequences or death to humans or animals.

(2) RESPONSIBLE PARTY.—The term ''responsible party'', with respect to an article of food, means a person that submits the registration under section 11117(b) of this title for a food facility that is required to register under section 11117(b) of this title, at which the article of food is manufactured, processed, packed, or held.

(b) ESTABLISHMENT.—

(1) IN GENERAL.—The Secretary shall establish within the FDA a Reportable Food Registry to which instances of reportable food may be submitted by the FDA after receipt of reports under subsection (d), via an electronic portal, from—

(A) Federal, State, and local public health officials; or

(B) responsible parties.

(2) REVIEW BY SECRETARY.—The Secretary shall promptly review and assess the information submitted under paragraph (1) for the purposes of—

(A) identifying reportable food;

(B) submitting entries to the Reportable Food Registry;

(C) acting under subsection (c); and

(D) exercising other existing food safety authorities under this subtitle to protect the public health.

(c) ISSUANCE OF AN ALERT BY THE SECRETARY.—

(1) IN GENERAL.—The Secretary shall issue, or cause to be issued, an alert or a notification with respect to a reportable food using information from the Reportable Food Registry as the Secretary considers necessary to protect the public health.

(2) EFFECT.—Paragraph (1) shall not affect the authority of the Secretary to issue an alert or a notification under any other provision of this subtitle.

(d) REPORTING AND NOTIFICATION.—

(1) IN GENERAL.—Except as provided in paragraph (2), as soon as practicable, but not later than

24 hours after a responsible party determines that an article of food is a reportable food, the responsible party shall—

(A) submit a report to the FDA through the electronic portal established under subsection (b) that includes the data elements described in subsection (e) (except the elements described in paragraphs (8), (9), and (10) of subsection (e)); and

(B) investigate the cause of the adulteration if the adulteration of the article of food may have originated with the responsible party.

(2) NO REPORT REQUIRED.—A responsible party is not required to submit a report under paragraph (1) if—

(A) the adulteration originated with the responsible party;

(B) the responsible party detected the adulteration prior to any transfer to another person of the article of food; and

(C) the responsible party—

(i) corrected the adulteration; or

(ii) destroyed or caused the destruction of the article of food.

(3) REPORTS BY PUBLIC HEALTH OFFICIALS.—A Federal, State, or local public health official may submit a report about a reportable food to the FDA through the electronic portal established under subsection (b) that includes the data elements described in subsection (e) that the official is able to provide.

(4) REPORT NUMBER.—The Secretary shall ensure that, on submission of a report under paragraph (1) or (3), a unique number is issued through the electronic portal established under subsection (b) to the person submitting the report, by which number the Secretary is able to—

(A) link reports about the reportable food submitted and amended under this subsection; and

(B) identify the supply chain for the reportable food.

(5) REVIEW.—The Secretary shall promptly review a report submitted under paragraph (1) or (3).

(6) RESPONSE TO REPORT SUBMITTED BY A RESPONSIBLE PARTY.—After consultation with the responsible party that submitted a report under paragraph (1), the Secretary may require the responsible party to do, as soon as practicable, but not

later than a time specified by the Secretary, 1 or more of the following:

(A) Amend the report submitted by the responsible party under paragraph (1) to include the data element described in subsection (e)(9).

(B) Provide a notification—

(i) to the immediate previous source of the article of food, if the Secretary considers necessary;

(ii) to the immediate subsequent recipient of the article of food, if the Secretary considers necessary; and

(iii) that includes—

(I) the data elements described in subsection (e) that the Secretary considers necessary;

(II) the actions described under paragraph (7) that the recipient of the notification shall perform, as required by the Secretary; and

(III) any other information that the Secretary may require.

(7) SUBSEQUENT REPORTS AND NOTIFICATIONS.—Except as provided in paragraph (8), the Secretary may require a responsible party to do, as

soon as practicable, but not later than a time specified by the Secretary, after the responsible party receives a notification under subparagraph (C) or paragraph (6)(B), 1 or more of the following:

(A) Submit a report to the FDA through the electronic portal established under subsection (b) that includes those data elements described in subsection (e) and other information that the Secretary considers necessary.

(B) Investigate the cause of the adulteration if the adulteration of the article of food may have originated with the responsible party.

(C) Provide a notification—

(i) to the immediate previous source of the article of food, if the Secretary considers necessary;

(ii) to the immediate subsequent recipient of the article of food, if the Secretary considers necessary; and

(iii) that includes—

(I) the data elements described in subsection (e) that the Secretary considers necessary;

(II) the actions described under this paragraph that the recipient of

the notification shall perform, as required by the Secretary; and

(III) any other information that the Secretary may require.

(8) AMENDED REPORT.—If a responsible party receives a notification under paragraph (6)(B) or (7)(C) with respect to an article of food after the responsible party has submitted a report to the FDA under paragraph (1) with respect to the article of food—

(A) the responsible party is not required to submit an additional report or make a notification under paragraph (7); and

(B) the responsible party shall amend the report submitted by the responsible party under paragraph (1) to include the data elements described in subsection (e)(9), and, with respect to both the notification and the report, subsection (e)(11).

(e) DATA ELEMENTS.—The data elements described in this subsection are the following:

(1) The registration numbers of the responsible party under section 11117(b)(4) of this title.

(2) The date on which an article of food was determined to be a reportable food.

(3) A description of the article of food, including the quantity or amount.

(4) The extent and nature of the adulteration.

(5) If the adulteration of the article of food may have originated with the responsible party, the results of the investigation required under paragraph (1)(B) or (7)(B) of subsection (d), as applicable and when known.

(6) The disposition of the article of food, when known.

(7) Product information typically found on packaging including product codes, use-by dates, and names of manufacturers, packers, or distributors sufficient to identify the article of food.

(8) Contact information for the responsible party.

(9) The contact information for parties directly linked in the supply chain and notified under paragraph (6)(B) or (7)(C) of subsection (d), as applicable.

(10) The information required by the Secretary to be included in a notification provided by the responsible party involved under paragraph (6)(B) or (7)(C) of subsection (d) or required in a report under subsection (d)(7)(A).

(11) The unique number described in subsection (d)(4).

(f) CRITICAL INFORMATION.—Except with respect to fruits and vegetables that are raw agricultural commodities, not more than 18 months after January 4, 2011, the Secretary may require a responsible party to submit to the Secretary consumer-oriented information regarding a reportable food, which shall include—

(1) a description of the article of food as provided in subsection (e)(3);

(2) as provided in subsection (e)(7), affected product identification codes, such as UPC, SKU, or lot or batch numbers sufficient for the consumer to identify the article of food;

(3) contact information for the responsible party as provided in subsection (e)(8); and

(4) any other information the Secretary determines is necessary to enable a consumer to accurately identify whether the consumer is in possession of the reportable food.

(g) GROCERY STORE NOTIFICATION.—

(1) ACTION BY SECRETARY.—The Secretary shall—

(A) prepare the critical information described under subsection (f) for a reportable food as a standardized 1-page summary; and

(B) publish the 1-page summary on the FDA website in a format that can be easily printed by a grocery store for purposes of consumer notification.

(2) ACTION BY GROCERY STORE.—A notification described under paragraph (1)(B) printed by a grocery store shall include the date and time the summary was posted on the FDA website.

(h) CONSUMER NOTIFICATION.—

(1) IN GENERAL.—If a grocery store sold a reportable food that is the subject of the posting and the establishment is part of a chain of establishments with 15 or more physical locations, the establishment shall, not later than 24 hours after a 1-page summary described in subsection (g) is published, prominently display the summary or the information from the summary via at least one of the methods identified under paragraph (2) and maintain the display for 14 days.

(2) LIST OF CONSPICUOUS LOCATIONS.—

(A) IN GENERAL.—Not more than 1 year after January 4, 2011, the Secretary shall de-

velop and publish a list of acceptable conspicuous locations and manners, from which grocery stores shall select at least 1, for providing the notification required in paragraph (1).

(B) CONTENTS.—The list under subparagraph (A) shall include—

(i) posting the notification at or near the register;

(ii) providing the location of the reportable food;

(iii) providing targeted recall information given to customers on purchase of a food; and

(iv) other such prominent and conspicuous locations and manners utilized by grocery stores as of January 4, 2011, to provide notice of the recalls to consumers as considered appropriate by the Secretary.

(i) COORDINATION OF FEDERAL, STATE, AND LOCAL EFFORTS.—

(1) DEPARTMENT OF AGRICULTURE.—In implementing this section, the Secretary shall—

(A) share information and coordinate regulatory efforts with the Department of Agriculture; and

(B) if the Secretary receives a report submitted about a food within the jurisdiction of the Department of Agriculture, promptly provide the report to the Department of Agriculture.

(2) STATES AND LOCALITIES.—In implementing this section, the Secretary shall work with State and local public health officials to share information and coordinate regulatory efforts, to—

(A) help to ensure coverage of the safety of the food supply chain, including those food establishments regulated by the States and localities that are not required to register under section 11117 of this title; and

(B) reduce duplicative regulatory efforts.

(j) MAINTENANCE AND INSPECTION OF RECORDS.—

(1) MAINTENTANCE.—The responsible party shall maintain records related to each report received, notification made, and report submitted to the FDA under this section for 2 years.

(2) INSPECTION.—A responsible party shall, at the request of the Secretary, permit inspection of the

records maintained under paragraph (1) as provided for in section 11116 of this title.

(k) REQUEST FOR INFORMATION.—Except as provided by section 11117(b)(5) of this title, section 552 of title 5 shall apply to any request for information regarding a record in the Reportable Food Registry.

(l) SAFETY REPORT.—A report or notification under subsection (d) shall be considered to be a safety report under section 18701 of this title and may be accompanied by a statement, which shall be part of any report released for public disclosure, that denies that the report or the notification constitutes an admission that the product involved caused or contributed to a death, serious injury, or serious illness.

(m) ADMISSION.—A report or notification under this section shall not be considered an admission that the article of food involved is adulterated or caused or contributed to a death, serious injury, or serious illness.

(n) HOMELAND SECURITY NOTIFICATION.—

(1) IN GENERAL.—If, after receiving a report under subsection (d), the Secretary believes the food may have been deliberately adulterated, the Secretary shall immediately notify the Secretary of Homeland Security.

(2) AVAILABILITY OF INFORMATION FROM REPORTABLE FOOD REGISTRY.—The Secretary shall make relevant information from the Reportable Food Registry available to the Secretary of Homeland Security.

(o) GUIDANCE.—The Secretary shall issue a guidance to industry about submitting reports to the electronic portal established under this section and providing notifications to other persons in the supply chain of an article of food under this section.

**§ 11120. Hazard analysis and risk-based preventive controls**

(a) DEFINITIONS.—In this section:

(1) CRITICAL CONTROL POINT.—The term ''critical control point'' means a point, step, or procedure in a food process at which control—

(A) can be applied; and

(B) is essential to prevent or eliminate a food safety hazard or reduce the hazard to an acceptable level.

(2) FACILITY.—The term ''facility'' means a domestic facility or a foreign facility that is required to register under section 11117 of this title.

(3) PREVENTIVE CONTROLS.—

(A) IN GENERAL.—The term ''preventive controls'' means those risk-based, reasonably appropriate procedures, practices, and processes—

(i) that a person knowledgeable about the safe manufacturing, processing, packing, or holding of food would employ to significantly minimize or prevent the hazards identified under the hazard analysis conducted under subsection (c); and

(ii) that are consistent with the current scientific understanding of safe food manufacturing, processing, packing, or holding at the time of the hazard analysis.

(B) INCLUSIONS.—The procedures, practices, and processes under subparagraph (A) may include—

(i) sanitation procedures for food contact surfaces and utensils and food-contact surfaces of equipment;

(ii) supervisor, manager, and employee hygiene training;

(iii) an environmental monitoring program to verify the effectiveness of pathogen controls in processes in which a food

is exposed to a potential contaminant in the environment;

(iv) a food allergen control program;

(v) a recall plan;

(vi) current good manufacturing practices under part 110 of title 21, Code of Federal Regulations (or any successor regulations); or

(vii) supplier verification activities that relate to the safety of food.

(b) IN GENERAL.—The owner, operator, or agent in charge of a facility shall, in accordance with this section—

(1) evaluate the hazards that could affect food manufactured, processed, packed, or held by the facility;

(2) identify and implement preventive controls to significantly minimize or prevent the occurrence of the hazards and provide assurances that the food is not adulterated under section 11102 of this title or misbranded under section 11323 of this title;

(3) monitor the performance of the preventive controls implemented under paragraph (2); and

(4) maintain records of the monitoring under paragraph (3) as a matter of routine practice.

(c) HAZARD ANALYSIS.—The owner, operator, or agent in charge of a facility shall—

(1) identify and evaluate known or reasonably foreseeable hazards that may be associated with the facility, including—

(A) biological, chemical, physical, and radiological hazards, natural toxins, pesticides, drug residues, decomposition, parasites, allergens, and unapproved food and color additives; and

(B) hazards that occur naturally, or may be unintentionally introduced;

(2) identify and evaluate hazards that may be intentionally introduced, including by acts of terrorism; and

(3) develop a written analysis of the hazards.

(d) PREVENTIVE CONTROLS.—The owner, operator, or agent in charge of a facility shall identify and implement preventive controls, including at critical control points, if any, to provide assurances that—

(1) hazards identified in the hazard analysis conducted under subsection (c)(1) will be significantly minimized or prevented;

(2) any hazards identified in the hazard analysis conducted under subsection (c)(2) will be significantly minimized or prevented and addressed,

consistent with section 11122 of this title, as applicable; and

(3) the food manufactured, processed, packed, or held by the facility will not be adulterated under section 11102 of this title or misbranded under section 11323 of this title.

(e) MONITORING OF EFFECTIVENESS.—The owner, operator, or agent in charge of a facility shall monitor the effectiveness of the preventive controls implemented under subsection (d) to provide assurances that the outcomes described in subsection (d) shall be achieved.

(f) CORRECTIVE ACTIONS.—The owner, operator, or agent in charge of a facility shall establish procedures to ensure that, if the preventive controls implemented under subsection (d) are not properly implemented or are found to be ineffective—

(1) appropriate action is taken to reduce the likelihood of recurrence of the implementation failure;

(2) all affected food is evaluated for safety; and

(3) all affected food is prevented from entering into commerce if the owner, operator, or agent in charge of the facility cannot ensure that the affected food is not adulterated under section 11102 of this title or misbranded under section 11323 of this title.

(g) VERIFICATION.—The owner, operator, or agent in charge of a facility shall verify that—

(1) the preventive controls implemented under subsection (d) are adequate to control the hazards identified under subsection (c);

(2) the owner, operator, or agent is conducting monitoring in accordance with subsection (e);

(3) the owner, operator, or agent is making appropriate decisions about corrective actions taken under subsection (f);

(4) the preventive controls implemented under subsection (d) are effectively and significantly minimizing or preventing the occurrence of identified hazards, including through the use of environmental and product testing programs and other appropriate means; and

(5) there is documented, periodic reanalysis of the plan under subsection (j) to ensure that the plan is still relevant to the raw materials, conditions and processes in the facility, and new and emerging threats.

(h) RECORDKEEPING.—The owner, operator, or agent in charge of a facility shall maintain, for not less than 2 years, records documenting—

(1) the monitoring of the preventive controls implemented under subsection (d);

(2) instances of nonconformance material to food safety;

(3) the results of testing and other appropriate means of verification under subsection (g)(4);

(4) instances when corrective actions were implemented; and

(5) the efficacy of preventive controls and corrective actions.

(i) WRITTEN PLAN AND DOCUMENTATION.—

(1) IN GENERAL.—The owner, operator, or agent in charge of a facility shall prepare a written plan that documents and describes the procedures used by the facility to comply with this section, including analyzing the hazards under subsection (c) and identifying the preventive controls adopted under subsection (d) to address those hazards.

(2) AVAILABILITY.—The written plan under paragraph (1), together with the documentation described in subsection (h), shall be made promptly available to an authorized representative of the Secretary on oral or written request.

(j) REQUIREMENT TO REANALYZE.—

(1) FREQUENCY.—The owner, operator, or agent in charge of a facility shall conduct a reanalysis under subsection (c) whenever a significant change is made in the activities conducted at a facility operated by the owner, operator, or agent if the change creates a reasonable potential for a new hazard or a significant increase in a previously identified hazard or not less frequently than once every 3 years, whichever is earlier.

(2) CONDITIONS BEFORE CHANGE IN ACTIVITIES IS OPERATIVE.—The reanalysis shall be completed and additional preventive controls needed to address the hazard identified, if any, shall be implemented before the change in activities under paragraph (1) at the facility is operative.

(3) DOCUMENTATION.—The owner, operator, or agent shall—

(A) revise the written plan required under subsection (i) if a significant change under this subsection is made; or

(B) document the basis for the conclusion that no additional or revised preventive controls are needed.

(4) REANALYSIS BASED ON NEW HAZARDS AND DEVELOPMENTS.—The Secretary may require a rea-

nalysis under this section to respond to new hazards and developments in scientific understanding, including, as appropriate, results from the Department of Homeland Security biological, chemical, radiological, or other terrorism risk assessment.

(k) EXEMPTION FOR SEAFOOD, JUICE, AND LOW-ACID CANNED FOOD FACILITIES SUBJECT TO HACCP.—

(1) IN GENERAL.—This section shall not apply to a facility if the owner, operator, or agent in charge of the facility is required to comply with, and is in compliance with, one of the following standards and regulations with respect to the facility:

(A) The Seafood Hazard Analysis Critical Control Points Program of the FDA.

(B) The Juice Hazard Analysis Critical Control Points Program of the FDA.

(C) The Thermally Processed Low-Acid Foods Packaged in Hermetically Sealed Containers standards of the FDA (or any successor standards).

(2) APPLICABILITY.—The exemption under paragraph (1)(C) shall apply only with respect to microbiological hazards that are regulated under the standards for Thermally Processed Low-Acid Foods Packaged in Hermetically Sealed Containers under

part 113 of title 21, Code of Federal Regulations (or any successor regulations).

(l) EXCEPTION FOR ACTIVITIES OF FACILITIES SUBJECT TO SECTION 11121 OF THIS TITLE.—This section shall not apply to activities of a facility that are subject to section 11121 of this title.

(m) MODIFIED REQUIREMENTS FOR QUALIFIED FACILITIES.—

(1) DEFINITIONS.—In this subsection:

(A) AFFILIATE.—The term ''affiliate'' means any facility that controls, is controlled by, or is under common control with another facility.

(B) QUALIFIED END-USER.—

(i) IN GENERAL.—The term ''qualified end-user'', with respect to a food, means—

(I) the consumer of the food; or

(II) a restaurant or retail food establishment (as those terms are defined by the Secretary for purposes of section 11117 of this title) that—

(aa) is located—

(AA) in the same State as the qualified facility that

sold the food to the restaurant or establishment; or

(BB) not more than 275 miles from the facility; and

(bb) is purchasing the food for sale directly to consumers at the restaurant or retail food establishment.

(ii) CONSUMER.—For the purposes of clause (i), the term ''consumer'' does not include a business.

(C) SUBSIDIARY.—The term ''subsidiary'' means any company that is owned or controlled directly or indirectly by another company.

(2) QUALIFIED FACILITIES.—

(A) IN GENERAL.—A facility is a qualified facility for purposes of this subsection if the facility meets the conditions under subparagraph (B) or (C).

(B) VERY SMALL BUSINESS.—A facility is a qualified facility under this subparagraph—

(i) if the facility, including any subsidiary or affiliate of the facility, is, collectively, a very small business (as defined in

the regulations promulgated under subsection (o)); and

(ii) in a case in which the facility is a subsidiary or affiliate of an entity, if the subsidiaries or affiliates, are, collectively, a very small business (as defined in the regulations promulgated under subsection (o)).

(C) LIMITED ANNUAL MONETARY VALUE OF SALES.—

(i) IN GENERAL.—A facility is a qualified facility under this subparagraph if clause (ii) applies—

(I) to the facility, including any subsidiary or affiliate of the facility, collectively; and

(II) to the subsidiaries or affiliates, collectively, of any entity of which the facility is a subsidiary or affiliate.

(ii) AVERAGE ANNUAL MONETARY VALUE.—This clause applies if—

(I) during the 3-year period preceding the applicable calendar year, the average annual monetary value of the food manufactured, processed,

packed, or held at the facility (or the collective average annual monetary value of the food at any subsidiary or affiliate, as described in clause (i)) that is sold directly to qualified end-users during the period exceeded the average annual monetary value of the food manufactured, processed, packed, or held at the facility (or the collective average annual monetary value of the food at any subsidiary or affiliate, as described in clause (i)) sold by the facility (or collectively by any such subsidiary or affiliate) to all other purchasers during the period; and

(II) the average annual monetary value of all food sold by the facility (or the collective average annual monetary value of the food sold by any subsidiary or affiliate, as described in clause (i)) during the period was less than $500,000, adjusted for inflation.

(3) EXEMPTION.—A qualified facility—

(A) shall not be subject to the requirements under subsections (b) through (j) and

subsection (o) in an applicable calendar year; and

(B) shall submit to the Secretary—

(i)(I) documentation that demonstrates that the owner, operator, or agent in charge of the facility—

(aa) has identified potential hazards associated with the food being produced;

(bb) is implementing preventive controls to address the hazards; and

(cc) is monitoring the preventive controls to ensure that the controls are effective; or

(II) documentation (which may include licenses, inspection reports, certificates, permits, credentials, certification by an appropriate agency (such as a State department of agriculture), or other evidence of oversight), as specified by the Secretary, that the facility is in compliance with State, local, county, or other applicable non-Federal food safety law; and

(ii) documentation, as specified by the Secretary in a guidance document, that the

facility is a qualified facility under subparagraph (B) or (C) of paragraph (2).

(4) WITHDRAWAL OF EXEMPTION.—In the event of an active investigation of a foodborne illness outbreak that is directly linked to a qualified facility subject to an exemption under this subsection, or if the Secretary determines that it is necessary to protect the public health and prevent or mitigate a foodborne illness outbreak based on conduct or conditions associated with a qualified facility that are material to the safety of the food manufactured, processed, packed, or held at the facility, the Secretary may withdraw the exemption provided to the facility under this subsection.

(5) RULE OF CONSTRUCTION.—Nothing in this subsection shall be construed to expand or limit the inspection authority of the Secretary.

(6) NONPREEMPTION.—

(A) IN GENERAL.—This subsection does not preempt any State, local, county, or other non-Federal law regarding the safe production of food.

(B) EFFECT OF COMPLIANCE.—Compliance with this subsection shall not relieve any

person from liability at common law or under State statutory law.

(7) NOTIFICATION TO CONSUMERS.—

(A) IN GENERAL.—A qualified facility that is exempt from the requirements under subsections (b) through (j) and subsection (o) and does not prepare documentation under paragraph (3)(B)(i)(I) shall—

(i) with respect to a food for which a food packaging label is required by the Secretary under any other provision of this subtitle, include prominently and conspicuously on the label the name and business address of the facility where the food was manufactured or processed; or

(ii) with respect to a food for which a food packaging label is not required by the Secretary under any other provision of this subtitle, prominently and conspicuously display, at the point of purchase, on a label, poster, sign, placard, or documents delivered contemporaneously with the food in the normal course of business, or, in the case of internet sales, in an electronic notice, the name and business address of the

facility where the food was manufactured or processed.

(B) NO ADDITIONAL LABEL.—Subparagraph (A) does not provide authority to the Secretary to require a label that is in addition to any label required under any other provision of this subtitle.

(n) AUTHORITY WITH RESPECT TO CERTAIN FACILITIES.—The Secretary may, by regulation, exempt or modify the requirements for compliance under this section with respect to facilities that are solely engaged in—

(1) the production of food for animals other than humans;

(2) the storage of raw agricultural commodities (other than fruits and vegetables) intended for further distribution or processing; or

(3) the storage of packaged foods that are not exposed to the environment.

(o) REGULATIONS.—

(1) IN GENERAL.—The Secretary shall promulgate regulations—

(A) to establish science-based minimum standards for conducting a hazard analysis, documenting hazards, implementing preventive controls, and documenting the implementation

of the preventive controls under this section; and

(B) to define, for purposes of this section, the terms ''small business'' and ''very small business'', taking into consideration the study described in section 418(l)(5)(A) of the Federal Food, Drug, and Cosmetic Act (ch. 675), as added by section 103(a) of the FDA Food Safety Modernization Act (Public Law 111–353, 124 Stat. 3894).

(2) FACTORS TO CONSIDER IN DEFINING TERMS.—In defining the terms under paragraph (1)(B), the Secretary shall include consideration of harvestable acres, income, the number of employees, and the volume of food harvested.

(3) COORDINATION.—In promulgating the regulations under paragraph (1)(A), with regard to hazards that may be intentionally introduced, including by acts of terrorism, the Secretary shall coordinate with the Secretary of Homeland Security, as appropriate.

(4) CONTENT.—The regulations promulgated under paragraph (1)(A) shall—

(A) provide sufficient flexibility to be practicable for all sizes and types of facilities, in-

cluding small businesses such as a small food processing facility co-located on a farm;

(B) comply with chapter 35 of title 44 (commonly known as the ''Paperwork Reduction Act''), with special attention to minimizing the burden (as defined in section 3502(2) of title 44) on the facility, and collection of information (as defined in section 3502(3) of title 44), associated with the regulations;

(C) acknowledge differences in risk and minimize, as appropriate, the number of separate standards that apply to separate foods; and

(D) not require a facility to hire a consultant or other third party to identify, implement, certify, or audit preventive controls, except in the case of negotiated enforcement resolutions that may require such a consultant or third party.

(5) GUIDANCE DOCUMENT.—The Secretary shall issue a guidance document related to the regulations promulgated under paragraph (1)(A) with respect to the hazard analysis and preventive controls.

(6) RULE OF CONSTRUCTION.—Nothing in this subsection shall be construed to provide the Sec-

retary with the authority to prescribe specific technologies, practices, or critical controls for an individual facility.

(p) EFFECT OF SECTION.—

(1) LIMITATION RELATING TO ENFORCEMENT OF PROGRAMS AND STANDARDS.—Nothing in this section and section 10501(45) of this title limits the authority of the Secretary under this subtitle or the Public Health Service Act (42 U.S.C. 201 et seq.) to revise, issue, or enforce Hazard Analysis Critical Control Points programs and the Thermally Processed Low-Acid Foods Packaged in Hermetically Sealed Containers standards.

(2) INAPPLICABILITY TO FACILITIES THAT MANUFACTURE, PROCESS, PACK, OR HOLD DIETARY SUPPLEMENTS.—Nothing in this section and section 10501(45) of this title shall apply to any facility with regard to the manufacturing, processing, packing, or holding of a dietary supplement that is in compliance with the requirements of sections 11102(g)(2) and 18902 of this title.

**§ 11121. Standards for produce safety**

(a) PROPOSED RULEMAKING.—

(1) IN GENERAL.—

(A) RULEMAKING.—Not later than 1 year after January 4, 2011, the Secretary, in coordination with the Secretary of Agriculture and representatives of State departments of agriculture (including with regard to the national organic program established under the Organic Foods Production Act of 1990 (7 U.S.C. 6501 et seq.)), and in consultation with the Secretary of Homeland Security, shall publish a notice of proposed rulemaking to establish science-based minimum standards for the safe production and harvesting of those types of fruits and vegetables, including specific mixes or categories of fruits and vegetables, that are raw agricultural commodities for which the Secretary has determined that the standards minimize the risk of serious adverse health consequences or death.

(B) DETERMINATION BY SECRETARY.—With respect to small businesses and very small businesses (as the terms are defined in the regulation promulgated under subparagraph (A)) that produce and harvest those types of fruits and vegetables that are raw agricultural commodities that the Secretary has determined are low risk and do not present a risk of serious ad-

verse health consequences or death, the Secretary may determine not to include production and harvesting of the fruits and vegetables in the rulemaking, or may modify the applicable requirements of regulations promulgated pursuant to this section.

(2) PUBLIC INPUT.—During the comment period on the notice of proposed rulemaking under paragraph (1), the Secretary shall conduct not less than 3 public meetings in diverse geographical areas of the United States to provide persons in different regions an opportunity to comment.

(3) CONTENT.—The proposed rulemaking under paragraph (1) shall—

(A) provide sufficient flexibility to be applicable to various types of entities engaged in the production and harvesting of fruits and vegetables that are raw agricultural commodities, including small businesses and entities that sell directly to consumers, and be appropriate to the scale and diversity of the production and harvesting of the commodities;

(B) include, with respect to growing, harvesting, sorting, packing, and storage operations, science-based minimum standards re-

lated to soil amendments, hygiene, packaging, temperature controls, animals in the growing area, and water;

(C) consider hazards that occur naturally, may be unintentionally introduced, or may be intentionally introduced, including by acts of terrorism;

(D) take into consideration, consistent with ensuring enforceable public health protection, conservation and environmental practice standards and policies established by Federal natural resource conservation, wildlife conservation, and environmental agencies;

(E) in the case of production that is certified organic, not include any requirements that conflict with or duplicate the requirements of the national organic program established under the Organic Foods Production Act of 1990 (7 U.S.C. 6501 et seq.), while providing the same level of public health protection as the requirements under guidance documents, including guidance documents regarding action levels, and regulations under chapter 325 of this title; and

(F) define, for purposes of this section, the terms ''small business'' and ''very small business''.

(4) PRIORITIZATION.—The Secretary shall prioritize the implementation of the regulations under this section for specific fruits and vegetables that are raw agricultural commodities based on known risks that may include a history and severity of foodborne illness outbreaks.

(b) FINAL REGULATION.—

(1) IN GENERAL.—Not later than 1 year after the close of the comment period for the proposed rulemaking under subsection (a), the Secretary shall adopt a final regulation to provide for minimum science-based standards for those types of fruits and vegetables, including specific mixes or categories of fruits or vegetables, that are raw agricultural commodities, which standards shall be based on known safety risks, which may include a history of foodborne illness outbreaks.

(2) FINAL REGULATION.—The final regulation shall—

(A) provide for coordination of education and enforcement activities by State and local officials, as designated by the Governors of the

respective States or the appropriate elected State official as recognized by State statute; and

(B) include a description of the variance process under subsection (c) and the types of permissible variances the Secretary may grant.

(3) FLEXIBILITY FOR SMALL BUSINESSES.—Notwithstanding paragraph (1)—

(A) the regulations promulgated under this section shall apply to a small business (as defined in the regulation promulgated under subsection (a)(1)) after the date that is 1 year after the effective date of the final regulation under paragraph (1); and

(B) the regulations promulgated under this section shall apply to a very small business (as defined in the regulation promulgated under subsection (a)(1)) after the date that is 2 years after the effective date of the final regulation under paragraph (1).

(c) CRITERIA.—

(1) IN GENERAL.—The regulations adopted under subsection (b) shall—

(A) set forth those procedures, processes, and practices that the Secretary determines to

minimize the risk of serious adverse health consequences or death, including procedures, processes, and practices that the Secretary determines to be reasonably necessary—

(i) to prevent the introduction of known or reasonably foreseeable biological, chemical, and physical hazards, including hazards that—

(I) occur naturally; and

(II) may be unintentionally introduced or may be intentionally introduced, including by acts of terrorism, into fruits and vegetables, including specific mixes or categories of fruits and vegetables, that are raw agricultural commodities; and

(ii) to provide reasonable assurances that the produce is not adulterated under section 11102 of this title;

(B) provide sufficient flexibility to be practicable for all sizes and types of businesses, including small businesses such as a small food processing facility co-located on a farm;

(C) comply with chapter 35 of title 44 (commonly known as the ''Paperwork Reduction

Act''), with special attention to minimizing the burden (as defined in section 3502(2) of title 44) on the business, and collection of information (as defined in section 3502(3) of title 44), associated with the regulations;

(D) acknowledge differences in risk and minimize, as appropriate, the number of separate standards that apply to separate foods;

(E) not require a business to hire a consultant or other third party to identify, implement, or certify compliance with the procedures, processes, and practices described in subparagraph (A), except in the case of negotiated enforcement resolutions that may require such a consultant or third party; and

(F) permit States and foreign countries from which food is imported into the United States to request from the Secretary variances from the requirements of the regulations, subject to paragraph (2), where the State or foreign country determines—

(i) that the variance is necessary in light of local growing conditions; and

(ii) that the procedures, processes, and practices to be followed under the variance are reasonably likely—

(I) to ensure that the produce is not adulterated under section 11102 of this title; and

(II) to provide the same level of public health protection as the requirements of the regulations adopted under subsection (b).

(2) VARIANCES.—

(A) REQUESTS FOR VARIANCES.—

(i) IN GENERAL.—A State or foreign country from which food is imported into the United States may, in writing, request a variance from the Secretary.

(ii) CONTENTS.—A request under clause (i) shall describe the variance requested and present information demonstrating—

(I) that the variance does not increase the likelihood that the food for which the variance is requested will be adulterated under section 11102 of this title; and

(II) that the variance provides the same level of public health protection as the requirements of the regulations adopted under subsection (b).

(iii) REVIEW.—The Secretary shall review requests for variance in a reasonable timeframe.

(B) APPROVAL OF VARIANCES.—The Secretary may approve a variance in whole or in part, as appropriate, and may specify the scope of applicability of a variance to other similarly situated persons.

(C) DENIAL OF VARIANCES.—

(i) IN GENERAL.—The Secretary may deny a variance request if the Secretary determines that the variance is not reasonably likely—

(I) to ensure that the food is not adulterated under section 11102 of this title; and

(II) to provide the same level of public health protection as the requirements of the regulation adopted under subsection (b).

(ii) NOTIFICATION.—The Secretary shall notify the person requesting the variance of the reasons for the denial.

(D) MODIFICATION OR REVOCATION OF A VARIANCE.—The Secretary, after notice and an opportunity for a hearing, may modify or revoke a variance if the Secretary determines that the variance is not reasonably likely—

(i) to ensure that the food is not adulterated under section 11102 of this title; and

(ii) to provide the same level of public health protection as the requirements of the regulations adopted under subsection (b).

(d) ENFORCEMENT.—The Secretary may coordinate with the Secretary of Agriculture and, as appropriate, shall contract and coordinate with the agency or department designated by the Governor of each State to perform activities to ensure compliance with this section.

(e) GUIDANCE.—

(1) IN GENERAL.—Not later than 1 year after January 4, 2011, the Secretary shall publish, after consultation with the Secretary of Agriculture, representatives of State departments of agriculture,

farmer representatives, and various types of entities engaged in the production and harvesting or importing of fruits and vegetables that are raw agricultural commodities, including small businesses, updated good agricultural practices and guidance for the safe production and harvesting of specific types of fresh produce under this section.

(2) PUBLIC MEETINGS.—The Secretary shall conduct not fewer than 3 public meetings in diverse geographical areas of the United States as part of an effort to conduct education and outreach regarding the guidance described in paragraph (1)—

(A) for persons in different regions that are involved in the production and harvesting of fruits and vegetables that are raw agricultural commodities, including persons that sell directly to consumers and farmer representatives; and

(B) for importers of fruits and vegetables that are raw agricultural commodities.

(3) PAPERWORK REDUCTION.—The Secretary shall ensure that any updated guidance under this section will—

(A) provide sufficient flexibility to be practicable for all sizes and types of facilities, in-

cluding small businesses such as a small food processing facility co-located on a farm; and

(B) acknowledge differences in risk and minimize, as appropriate, the number of separate standards that apply to separate foods.

(f) EXEMPTION FOR DIRECT FARM MARKETING.—

(1) DEFINITION OF QUALIFIED END-USER.—

(A) IN GENERAL.—In this subsection, the term ''qualified end-user'', with respect to a food, means—

(i) the consumer of the food; or

(ii) a restaurant or retail food establishment (as those terms are defined by the Secretary for purposes of section 11117 of this title) that is located—

(I) in the same State as the farm that produced the food; or

(II) not more than 275 miles from the farm.

(B) CONSUMER.—For purposes of subparagraph (A), the term ''consumer'' does not include a business.

(2) IN GENERAL.—A farm shall be exempt from the requirements under this section in a calendar year if—

(A) during the previous 3-year period, the average annual monetary value of the food sold by the farm directly to qualified end-users during the period exceeded the average annual monetary value of the food sold by the farm to all other buyers during the period; and

(B) the average annual monetary value of all food sold during the period was less than $500,000, adjusted for inflation.

(3) NOTIFICATION TO CONSUMERS.—

(A) IN GENERAL.—A farm that is exempt from the requirements under this section shall—

(i) with respect to a food for which a food packaging label is required by the Secretary under any other provision of this subtitle, include prominently and conspicuously on the label the name and business address of the farm where the produce was grown; or

(ii) with respect to a food for which a food packaging label is not required by the Secretary under any other provision of this subtitle, prominently and conspicuously display, at the point of purchase, on a

label, poster, sign, placard, or documents delivered contemporaneously with the food in the normal course of business, or, in the case of internet sales, in an electronic notice, the name and business address of the farm where the produce was grown.

(B) NO ADDITIONAL LABEL.—Subparagraph (A) does not provide authority to the Secretary to require a label that is in addition to any label required under any other provision of this subtitle.

(4) WITHDRAWAL; RULE OF CONSTRUCTION.—

(A) IN GENERAL.—The Secretary may withdraw the exemption provided to a farm under this subsection—

(i) in the event of an active investigation of a foodborne illness outbreak that is directly linked to the farm subject to an exemption under this subsection; or

(ii) if the Secretary determines that it is necessary to protect the public health and prevent or mitigate a foodborne illness outbreak based on conduct or conditions associated with the farm that are material

to the safety of the food produced or harvested at the farm.

(B) RULE OF CONSTRUCTION.—Nothing in this subsection shall be construed to expand or limit the inspection authority of the Secretary.

(5) NONPREEMPTION.—

(A) IN GENERAL.—Nothing in this subsection preempts State, local, county, or other non-Federal law regarding the safe production, harvesting, holding, transportation, and sale of fresh fruits and vegetables.

(B) LIABILITY UNDER COMMON LAW OR STATE STATUTORY LAW.—Compliance with this subsection shall not relieve any person from liability at common law or under State statutory law.

(6) LIMITATION OF EFFECT.—Nothing in this subsection shall prevent the Secretary from exercising any authority granted in the other sections of this subtitle.

(g) SMALL ENTITY COMPLIANCE POLICY GUIDE.—Not later than 180 days after the issuance of regulations under this section, the Secretary shall issue a small entity compliance policy guide setting forth in plain language the requirements of this section to assist small entities in com-

plying with standards for safe production and harvesting and other activities required under this section.

(h) INAPPLICABILITY RELATING TO PERSONAL CONSUMPTION.—This section shall not apply to produce that is produced by an individual for personal consumption.

(i) EXCEPTION FOR ACTIVITIES OF CERTAIN FACILITIES.—This section shall not apply to activities of a facility that are subject to section 11120 of this title.

(j) EFFECT OF SECTION.—Nothing in this section and section 10501(46) of this title limits the authority of the Secretary under this subtitle or the Public Health Service Act (42 U.S.C. 201 et seq.) to revise, issue, or enforce product and category-specific regulations, such as the Seafood Hazard Analysis Critical Control Points Program, the Juice Hazard Analysis Critical Control Points Program, and the Thermally Processed Low-Acid Foods Packaged in Hermetically Sealed Containers standards.

**§ 11122. Protection against intentional adulteration**

(a) DEFINITION OF FARM.—In this section, the term ''farm'' has the meaning given the term in section 1.227 of title 21, Code of Federal Regulations (or any successor regulation).

(b) DETERMINATIONS.—

(1) IN GENERAL.—The Secretary shall—

(A) conduct a vulnerability assessment of the food system, including by consideration of the Department of Homeland Security biological, chemical, radiological, or other terrorism risk assessments;

(B) consider the best available understanding of uncertainties, risks, costs, and benefits associated with guarding against intentional adulteration of food at vulnerable points; and

(C) determine the types of science-based mitigation strategies or measures that are necessary to protect against the intentional adulteration of food.

(2) LIMITED DISTRIBUTION.—In the interest of national security, the Secretary, in consultation with the Secretary of Homeland Security, may determine the time, manner, and form in which determinations made under paragraph (1) are made publicly available.

(c) REGULATIONS.—

(1) IN GENERAL.—The Secretary, in coordination with the Secretary of Homeland Security and in consultation with the Secretary of Agriculture, shall

promulgate regulations to protect against the intentional adulteration of food subject to this subtitle.

(2) CONTENTS.—The regulations promulgated under paragraph (1) shall—

(A) specify how a person shall assess whether the person is required to implement mitigation strategies or measures intended to protect against the intentional adulteration of food; and

(B) specify appropriate science-based mitigation strategies or measures to prepare and protect the food supply chain at specific vulnerable points, as appropriate.

(d) GUIDANCE DOCUMENTS.—

(1) IN GENERAL.—The Secretary, in consultation with the Secretary of Homeland Security and the Secretary of Agriculture, shall issue guidance documents related to protection against intentional adulteration of food, including mitigation strategies or measures to guard against intentional adulteration of food as required under this section.

(2) CONTENT.—The guidance documents issued under paragraph (1) shall—

(A) include a model assessment for a person to use under subsection (c)(2)(A);

(B) include examples of mitigation strategies or measures described in subsection (c)(2)(B); and

(C) specify situations in which the examples of mitigation strategies or measures described in subsection (c)(2)(B) are appropriate.

(3) LIMITED DISTRIBUTION.—In the interest of national security, the Secretary, in consultation with the Secretary of Homeland Security, may determine the time, manner, and form in which the guidance documents issued under paragraph (1) are made public, including by releasing the documents to targeted audiences.

(e) PERIODIC REVIEW.—The Secretary shall periodically review and, as appropriate, update the regulations under subsection (c) and the guidance documents under subsection (d).

(f) APPLICABILITY.—

(1) IN GENERAL.—Regulations promulgated under subsection (c) shall apply only to food for which there is a high risk of intentional contamination, as determined by the Secretary, in consultation with the Secretary of Homeland Security, under subsection (b), which intentional contamination could

cause serious adverse health consequences or death to humans or animals.

(2) INCLUSIONS.—The food to which the regulations under subsection (c) apply as described in paragraph (1) shall include food—

(A) for which the Secretary has identified clear vulnerabilities (including short shelf-life or susceptibility to intentional contamination at critical control points); and

(B) in bulk or batch form, prior to being packaged for the final consumer.

(g) INAPPLICABILITY.—This section shall not apply to farms, except for those that produce milk.

**§ 11123. Targeting of inspection resources for domestic facilities, foreign facilities, and ports of entry**

(a) DEFINITION OF FACILITY.—In this section, the term ''facility'' means a domestic facility or a foreign facility that is required to register under section 11117 of this title.

(b) IDENTIFICATION AND INSPECTION OF FACILITIES.—

(1) IDENTIFICATION.—The Secretary shall identify high-risk facilities and shall allocate resources to inspect facilities according to the known

safety risks of the facilities, which shall be based on—

(A) the known safety risks of the food manufactured, processed, packed, or held at the facility;

(B) the compliance history of a facility, including with regard to food recalls, outbreaks of foodborne illness, and violations of food safety standards;

(C) the rigor and effectiveness of the facility's hazard analysis and risk-based preventive controls;

(D) whether the food manufactured, processed, packed, or held at the facility meets the criteria for priority under section 20101(h)(1) of this title;

(E) whether the food or the facility that manufactured, processed, packed, or held the food has received a certification as described in section 20101(q) or 20106 of this title, as appropriate; and

(F) any other criteria considered necessary and appropriate by the Secretary for purposes of allocating inspection resources.

(2) INSPECTIONS.—

(A) IN GENERAL.—Beginning on January 4, 2011, the Secretary shall increase the frequency of inspection of all facilities.

(B) DOMESTIC HIGH-RISK FACILITIES.—The Secretary shall increase the frequency of inspection of domestic facilities identified under paragraph (1) as high-risk facilities so that each of those facilities is inspected—

(i) not less often than once in the 5-year period following January 4, 2011; and

(ii) not less often than once every 3 years thereafter.

(C) DOMESTIC NON-HIGH-RISK FACILITIES.—The Secretary shall ensure that each domestic facility that is not identified under paragraph (1) as a high-risk facility is inspected—

(i) not less often than once in the 7-year period following January 4, 2011; and

(ii) not less often than once every 5 years thereafter.

(D) FOREIGN FACILITIES.—

(i) YEAR 1.—In the 1-year period following January 4, 2011, the Secretary shall inspect not fewer than 600 foreign facilities.

(ii) SUBSEQUENT YEARS.—In each of the 5 years following the 1-year period described in clause (i), the Secretary shall inspect not fewer than twice the number of foreign facilities inspected by the Secretary during the previous year.

(E) RELIANCE ON FEDERAL, STATE, OR LOCAL INSPECTIONS.—In meeting the inspection requirements under this subsection for domestic facilities, the Secretary may rely on inspections conducted by other Federal, State, or local agencies under interagency agreement, contract, memorandum of understanding, or other obligation.

(c) IDENTIFICATION AND INSPECTION AT PORTS OF ENTRY.—The Secretary, in consultation with the Secretary of Homeland Security, shall allocate resources to inspect any article of food imported into the United States according to the known safety risks of the article of food, which shall be based on—

(1) the known safety risks of the food imported;

(2) the known safety risks of the countries or regions of origin and countries through which the article of food is transported;

(3) the compliance history of the importer, including with regard to food recalls, outbreaks of foodborne illness, and violations of food safety standards;

(4) the rigor and effectiveness of the activities conducted by the importer of the article of food to satisfy the requirements of the foreign supplier verification program under section 20105 of this title;

(5) whether the food importer participates in the voluntary qualified importer program under section 20106 of this title;

(6) whether the food meets the criteria for priority under section 20101(h)(1) of this title;

(7) whether the food or the facility that manufactured, processed, packed, or held the food received a certification as described in section 20101(q) or 20106 of this title; and

(8) any other criteria considered necessary and appropriate by the Secretary for purposes of allocating inspection resources.

(d) INTERAGENCY AGREEMENTS WITH RESPECT TO SEAFOOD.—

(1) IN GENERAL.—The Secretary, the Secretary of Commerce, the Secretary of Homeland Security,

the Chairman of the Federal Trade Commission, and the heads of other appropriate agencies may enter into such agreements as may be necessary or appropriate to improve seafood safety.

(2) SCOPE OF AGREEMENTS.—The agreements under paragraph (1) may include—

(A) cooperative arrangements for examining and testing seafood imports that leverage the resources, capabilities, and authorities of each party to the agreement;

(B) coordination of inspections of foreign facilities to increase the percentage of imported seafood and seafood facilities inspected;

(C) standardization of data on seafood names, inspection records, and laboratory testing to improve interagency coordination;

(D) coordination to detect and investigate violations under applicable Federal law;

(E) a process, including the use or modification of existing processes, by which officers and employees of the National Oceanic and Atmospheric Administration may be designated by the Secretary to carry out seafood examinations and investigations under section 11323, 11324, or 20101 of this title;

(F) the sharing of information concerning observed non-compliance with United States food requirements domestically and in foreign nations and new regulatory decisions and policies that may affect the safety of food imported into the United States;

(G) conducting joint training on subjects that affect and strengthen seafood inspection effectiveness by Federal authorities; and

(H) outreach on Federal efforts to enhance seafood safety and compliance with Federal food safety requirements.

(e) COORDINATION.—The Secretary shall improve coordination and cooperation with the Secretary of Agriculture and the Secretary of Homeland Security to target food inspection resources.

(f) ADVISORY COMMITTEE CONSULTATION.—In allocating inspection resources as described in this section, the Secretary may, as appropriate, consult with any relevant advisory committee within the Department.

**§ 11124. Laboratory accreditation for analyses of foods**

(a) RECOGNITION OF LABORATORY ACCREDITATION.—

(1) IN GENERAL.—The Secretary shall—

(A) establish a program for the testing of food by accredited laboratories;

(B) establish a publicly available registry of accreditation bodies recognized by the Secretary and laboratories accredited by a recognized accreditation body, including the name of, contact information for, and other information considered appropriate by the Secretary about the bodies and laboratories; and

(C) require, as a condition of recognition or accreditation, as appropriate, that recognized accreditation bodies and accredited laboratories report to the Secretary any changes that would affect the recognition of the accreditation body or the accreditation of the laboratory.

(2) PROGRAM REQUIREMENTS.—The program established under paragraph (1)(A) shall provide for the recognition of laboratory accreditation bodies that meet criteria established by the Secretary for accreditation of laboratories, including independent private laboratories and laboratories run and operated by a Federal agency (including the Department of Commerce), State, or locality with a demonstrated capability to conduct 1 or more sampling and analytical testing methodologies for food.

(3) INCREASING THE NUMBER OF QUALIFIED LABORATORIES.—The Secretary shall work with the laboratory accreditation bodies recognized under paragraph (1), as appropriate, to increase the number of qualified laboratories that are eligible to perform testing under subsection (b) beyond the number so qualified on January 4, 2011.

(4) LIMITED DISTRIBUTION.—In the interest of national security, the Secretary, in coordination with the Secretary of Homeland Security, may determine the time, manner, and form in which the registry established under paragraph (1)(B) is made publicly available.

(5) FOREIGN LABORATORIES.—Accreditation bodies recognized by the Secretary under paragraph (1) may accredit laboratories that operate outside the United States, so long as the laboratories meet the accreditation standards applicable to domestic laboratories accredited under this section.

(6) MODEL LABORATORY STANDARDS.—

(A) DEVELOPMENT.—The Secretary shall develop model standards that a laboratory shall meet to be accredited by a recognized accreditation body for a specified sampling or analytical

testing methodology and included in the registry provided for under paragraph (1).

(B) EXISTING STANDARDS.—In developing the model standards, the Secretary shall consult existing standards for guidance.

(C) CONTENTS.—The model standards shall include—

(i) methods to ensure that—

(I) appropriate sampling, analytical procedures (including rapid analytical procedures), and commercially available techniques are followed and reports of analyses are certified as true and accurate;

(II) internal quality systems are established and maintained;

(III) procedures exist to evaluate and respond promptly to complaints regarding analyses and other activities for which the laboratory is accredited; and

(IV) individuals who conduct the sampling and analyses are qualified by training and experience to do so; and

(ii) any other criteria determined appropriate by the Secretary.

(7) REVIEW OF RECOGNITION; REVOCATION OF RECOGNITION.—To ensure compliance with the requirements of this section, the Secretary—

(A) shall periodically, but not less than once every 5 years, reevaluate accreditation bodies recognized under paragraph (1) and may accompany auditors from an accreditation body to assess whether the accreditation body meets the criteria for recognition; and

(B) shall promptly revoke the recognition of any accreditation body found not to be in compliance with the requirements of this section, specifying, as appropriate, any terms and conditions necessary for laboratories accredited by the body to continue to perform testing as described in this section.

(b) TESTING PROCEDURES.—

(1) IN GENERAL.—Food testing shall be conducted by Federal laboratories or non-Federal laboratories that have been accredited for the appropriate sampling or analytical testing methodology or methodologies by a recognized accreditation body on the registry established by the Secretary under sub-

section (a)(1)(B) whenever the testing is conducted—

(A) by or on behalf of an owner or consignee—

(i) in response to a specific testing requirement under this subtitle or implementing regulations, when applied to address an identified or suspected food safety problem; and

(ii) as required by the Secretary, as the Secretary considers appropriate, to address an identified or suspected food safety problem; or

(B) on behalf of an owner or consignee—

(i) in support of admission of an article of food under section 20101(a) of this title; and

(ii) under an Import Alert that requires successful consecutive tests.

(2) RESULTS OF TESTING.—

(A) SUBMISSION.—The results of any testing under paragraph (1) shall be sent directly to the FDA.

(B) EXEMPTION FROM SUBMISSION.—The Secretary may by regulation exempt test results

from the submission requirement under subparagraph (A) if the Secretary determines that the results do not contribute to the protection of public health.

(C) ELECTRONIC SUBMISSION.—Test results required to be submitted may be submitted to the FDA through electronic means.

(3) EXCEPTION.—The Secretary may waive requirements under this subsection if—

(A) a new methodology or methodologies have been developed and validated but a laboratory has not yet been accredited to perform the methodology or methodologies; and

(B) the use of the methodology or methodologies is necessary to prevent, control, or mitigate a food emergency or foodborne illness outbreak.

(c) REVIEW BY SECRETARY.—If food sampling and testing performed by a laboratory run and operated by a State or locality that is accredited by a recognized accreditation body on the registry established by the Secretary under subsection (a) result in a State recalling a food, the Secretary shall review the sampling and testing results for the purpose of determining the need for a national recall or other compliance and enforcement activities.

(d) NO LIMIT ON SECRETARIAL AUTHORITY.—Nothing in this section shall be construed to limit the ability of the Secretary to review and act on information from food testing, including determining the sufficiency of the information and testing.

**§ 11125. Mandatory recall authority**

(a) VOLUNTARY PROCEDURES.—If the Secretary determines, based on information gathered through the reportable food registry under section 11119 of this title or through any other means, that there is a reasonable probability that an article of food (other than infant formula) is adulterated under section 11102 of this title or misbranded under section 11323 of this title and the use of or exposure to the article will cause serious adverse health consequences or death to humans or animals, the Secretary shall provide the responsible party (as defined in section 11119 of this title) with an opportunity to cease distribution and recall the article.

(b) PREHEARING ORDER TO CEASE DISTRIBUTION AND GIVE NOTICE.—

(1) IN GENERAL.—If the responsible party refuses to or does not voluntarily cease distribution or recall the article within the time and in the manner that the Secretary may prescribe, the Secretary by

order may require, as the Secretary considers necessary, the responsible party to—

(A) immediately cease distribution of the article; and

(B) as applicable, immediately notify, to immediately cease distribution of the article, all persons—

(i) manufacturing, processing, packing, transporting, distributing, receiving, holding, or importing and selling the article; and

(ii) to which the article was distributed, transported, or sold.

(2) REQUIRED ADDITIONAL INFORMATION.—

(A) IN GENERAL.—If an article of food covered by a recall order issued under paragraph (1)(B) has been distributed to a warehouse-based third-party logistics provider without providing the provider sufficient information to know or reasonably determine the precise identity of the article of food covered by a recall order that is in its possession, the notice provided by the responsible party subject to the order issued under paragraph (1)(B) shall include such information as is necessary for the

warehouse-based third-party logistics provider to identify the food.

(B) RULES OF CONSTRUCTION.—Nothing in this paragraph shall be construed—

(i) to exempt a warehouse-based third-party logistics provider from the requirements of this subtitle, including the requirements in this section and section 11116 of this title; or

(ii) to exempt a warehouse-based third-party logistics provider from being the subject of a mandatory recall order.

(3) DETERMINATION TO LIMIT AREAS AFFECTED.—If the Secretary requires a responsible party to cease distribution under paragraph (1)(A) of an article of food identified in subsection (a), the Secretary may limit the size of the geographic area and the markets affected by the cessation if the limitation would not compromise the public health.

(c) HEARING ON ORDER.—The Secretary shall provide the responsible party subject to an order under subsection (b) with an opportunity for an informal hearing, to be held as soon as possible, but not later than 2 days after the issuance of the order, on the actions required

by the order and on the reasons that the article that is the subject of the order should not be recalled.

(d) POST-HEARING RECALL ORDER AND MODIFICATION OF ORDER.—

(1) AMENDMENT OF ORDER.—If, after providing opportunity for an informal hearing under subsection (c), the Secretary determines that removal of the article from commerce is necessary, the Secretary shall, as appropriate—

(A) amend the order to require recall of the article or other appropriate action;

(B) specify a timetable in which the recall shall occur;

(C) require periodic reports to the Secretary describing the progress of the recall; and

(D) provide notice to consumers to whom the article was, or may have been, distributed.

(2) VACATING OF ORDER.—If, after the hearing, the Secretary determines that adequate grounds do not exist to continue the actions required by the order, or that the actions should be modified, the Secretary shall vacate the order or modify the order.

(e) RULE REGARDING ALCOHOLIC BEVERAGES.—The Secretary shall not initiate a mandatory recall or take any other action under this section with respect to any

alcohol beverage until the Secretary has provided the Alcohol and Tobacco Tax and Trade Bureau with a reasonable opportunity to cease distribution and recall the article under the Alcohol and Tobacco Tax and Trade Bureau authority.

(f) COOPERATION AND CONSULTATION.—The Secretary shall work with State and local public health officials in carrying out this section, as appropriate.

(g) PUBLIC NOTIFICATION.—In conducting a recall under this section, the Secretary shall—

(1) ensure that a press release is published regarding the recall, as well as alerts and public notices, as appropriate, to provide notification—

(A) of the recall to consumers and retailers to whom the article was, or may have been, distributed; and

(B) that includes, at a minimum—

(i) the name of the article of food subject to the recall;

(ii) a description of the risk associated with the article; and

(iii) to the extent practicable, information for consumers about similar articles of food that are not affected by the recall;

(2)(A) consult the policies of the Department of Agriculture regarding providing to the public a list of retail consignees receiving products involved in a Class I recall; and

(B) consider providing such a list to the public, as determined appropriate by the Secretary; and

(3) publish on the FDA website an image of the article (if available) that is the subject of the press release described in paragraph (1).

(h) NO DELEGATION.—The authority conferred by this section to order a recall or vacate a recall order shall not be delegated to any officer or employee other than the Commissioner.

(i) COORDINATED COMMUNICATION.—

(1) IN GENERAL.—To assist in carrying out the requirements of this subsection, the Secretary shall establish an incident command operation or a similar operation within the Department that will operate not later than 24 hours after the initiation of a mandatory recall or the recall of an article of food for which the use of, or exposure to, the article will cause serious adverse health consequences or death to humans or animals.

(2) REQUIREMENTS.—To reduce the potential for miscommunication during recalls or regarding in-

vestigations of a foodborne illness outbreak associated with a food that is subject to a recall, each incident command operation or similar operation under paragraph (1) shall use regular staff and resources of the Department to—

(A) ensure timely and coordinated communication within the Department, including enhanced communication and coordination between different agencies and organizations within the Department;

(B) ensure timely and coordinated communication from the Department, including public statements, throughout the duration of the investigation and related foodborne illness outbreak;

(C) identify a single point of contact within the Department for public inquiries regarding any actions by the Secretary related to a recall;

(D) coordinate with Federal, State, local, and tribal authorities, as appropriate, that have responsibilities related to the recall of a food or a foodborne illness outbreak associated with a food that is subject to the recall, including notification of the Secretary of Agriculture and the Secretary of Education in the event the recalled

food is a commodity intended for use in a child nutrition program (as identified in section 25(b) of the Richard B. Russell National School Lunch Act (42 U.S.C. 1769f(b))); and

(E) conclude operations at such time as the Secretary determines appropriate.

(3) MULTIPLE RECALLS.—The Secretary may establish multiple or concurrent incident command operations or similar operations in the event of multiple recalls or foodborne illness outbreaks necessitating the action by the Department.

(j) EFFECT.—Nothing in this section shall affect the authority of the Secretary—

(1) to request or participate in a voluntary recall; or

(2) to issue an order to cease distribution or to recall under any other provision of this subtitle or under the Public Health Service Act (42 U.S.C. 201 et seq.).

(k) SEARCH ENGINE.—The Secretary shall include in the FDA website a search engine that—

(1) is consumer-friendly, as determined by the Secretary; and

(2) provides a means by which an individual may locate relevant information regarding each arti-

cle of food subject to a recall under this section and the status of the recall (such as whether a recall is ongoing or has been completed).

(l) ANNUAL REPORT TO CONGRESS.—

(1) IN GENERAL.—The Secretary shall annually submit to the Committee on Health, Education, Labor, and Pensions of the Senate and the Committee on Energy and Commerce of the House of Representatives a report on the use of—

(A) recall authority under this section; and

(B) any public health advisories issued by the Secretary that advise against the consumption of an article of food on the ground that the article of food is adulterated and poses an imminent danger to health.

(2) CONTENT.—The report under paragraph (1) shall include, with respect to the report year—

(A) the identity of each article of food that was the subject of—

(i) a public health advisory described in paragraph (1);

(ii) an opportunity to cease distribution and recall under subsection (a); or

(iii) a mandatory recall order under subsection (b);

(B) the number of responsible parties, as defined in section 11119 of this title, formally given the opportunity to cease distribution of an article of food and recall the article, as described in subsection (a);

(C) the number of responsible parties described in subparagraph (B) that did not cease distribution of or recall an article of food after given the opportunity to cease distribution or recall under subsection (a);

(D) the number of recall orders issued under subsection (b); and

(E) a description of any instance in which there was no testing that confirmed adulteration of an article of food that was the subject of a recall under subsection (b) or a public health advisory described in paragraph (1).

**§ 11126. Requirements for critical food**

(a) NOTIFICATION OF MEANINGFUL DISRUPTION FOR CRITICAL FOOD.—

(1) MEANINGFUL DISRUPTION.—In this subsection, the term ''meaningful disruption''—

(A) means a change in production that is reasonably likely to lead to a significant reduction in the supply of a critical food by a manu-

facturer that affects the ability of the manufacturer to meet expected demand for its product; and

(B) does not include interruptions in manufacturing due to matters such as routine maintenance, changes or discontinuance of flavors, colors, or other insignificant formulation characteristics, or insignificant changes in manufacturing so long as the manufacturer expects to resume operations in a short period of time.

(2) IN GENERAL.—A manufacturer of a critical food shall notify the Secretary of a permanent discontinuance in the manufacture or an interruption of the manufacture of the food that is likely to lead to a meaningful disruption in the supply of the food in the United States, and the reasons for the discontinuance or interruption, as soon as practicable, but not later than 5 business days after the discontinuance or the interruption.

(3) DISTRIBUTION OF INFORMATION.—Not later than 5 calendar days after receiving a notification under paragraph (2), if the Secretary has determined that the discontinuance or interruption has resulted, or is likely to result, in a shortage of the critical food, the Secretary shall distribute, to the

Secretary of Agriculture and to the maximum extent practicable to the appropriate entities, as determined by the Secretary through such means as the Secretary determines appropriate, information on the shortage.

(4) CONFIDENTIALITY.—Nothing in this subsection authorizes the Secretary to disclose any information that is a trade secret or confidential information subject to section 552(b)(4) of title 5 or section 1905 of title 18.

(b) RISK MANAGEMENT PLANS.—Each manufacturer of a critical food shall develop, maintain, and implement, as appropriate, a redundancy risk management plan that identifies and evaluates risks to the supply of the food, as applicable, for each establishment in which the food is manufactured. A risk management plan under this subsection—

(1) may identify and evaluate risks to the supply of more than 1 critical food, or critical food category, manufactured at the same establishment;

(2) may identify mechanisms by which the manufacturer would mitigate the impacts of a supply disruption through alternative production sites, alternative suppliers, stockpiling of inventory, or other means; and

(3) shall be subject to inspection and copying by the Secretary pursuant to an inspection under section 17504 of this title.

(c) FAILURE TO MEET REQUIREMENTS.—

(1) IN GENERAL.—If a person fails to submit information required under, and in accordance with, subsection (a)—

(A) the Secretary shall issue a letter to the person informing the person of the failure; and

(B) not later than 45 calendar days after the issuance of a letter under subparagraph (A), subject to paragraph (2), the Secretary shall make available to the public on the FDA website, with appropriate redactions made to protect the information described in subsection (a)(4)—

(i) the letter issued under subparagraph (A); and

(ii) at the request of the person, any response to the letter that the person submitted to the Secretary.

(2) EXCEPTION.—If the Secretary determines that the letter under paragraph (1) was issued in error or, after review of the response, the person had a reasonable basis for not submitting a notification

as required under subsection (a), the requirements of paragraph (1)(B) shall not apply.

# Chapter 113—Misbranded Food

Sec.
11301. False or misleading label.
11302. Offer for sale under another name.
11303. Imitation of another food.
11304. Misleading container.
11305. Package form.
11306. Prominence of information on label.
11307. Representation as to definition and standard of identity.
11308. Representation as to standards of quality and fill of container.
11309. Representation as to pasteurization.
11310. Label to bear common or usual name.
11311. Representation for special dietary use.
11312. Artificial flavoring, artificial coloring, or chemical preservatives.
11313. Pesticide chemicals on raw agricultural commodities.
11314. Color additives.
11315. Packaging or labeling of drugs in violation of regulations.
11316. Nutrition information.
11317. Nutrition levels and health-related claims.
11318. Dietary supplements; general.
11319. Dietary supplements; serious adverse event.
11320. Catfish.
11321. Ginseng.
11322. Failure to label; health threat.
11323. Major food allergen labeling requirements.
11324. Nonmajor food allergen labeling requirements.

## § 11301. False or misleading label

A food shall be deemed to be misbranded if—

(1) its labeling is false or misleading in any particular; or

(2) in the case of a food to which section 11113 of this title applies, its advertising is false or misleading in a material respect or its labeling is in violation of section 11113(d)(2) of this title.

**§ 11302. Offer for sale under another name**

A food shall be deemed to be misbranded if it is offered for sale under the name of another food.

**§ 11303. Imitation of another food**

A food shall be deemed to be misbranded if it is an imitation of another food, unless its label bears, in type of uniform size and prominence, the word ''imitation'' and, immediately after that word, the name of the food imitated.

**§ 11304. Misleading container**

A food shall be deemed to be misbranded if its container is made, formed, or filled so as to be misleading.

**§ 11305. Package form**

A food shall be deemed to be misbranded if in package form unless it bears a label containing—

(1) the name and place of business of the manufacturer, packer, or distributor; and

(2) an accurate statement of the quantity of the contents in terms of weight, measure, or numerical count, except that under this paragraph, reasonable variations shall be permitted, and exemptions as to small packages shall be established, by regulations prescribed by the Secretary.

**§ 11306. Prominence of information on label**

A food shall be deemed to be misbranded if any word, statement, or other information required by or under au-

thority of this subtitle to appear on the label or labeling is not prominently placed on the label or labeling with such conspicuousness (as compared with other words, statements, designs, or devices, in the labeling) and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.

**§ 11307. Representation as to definition and standard of identity**

(a) IN GENERAL.—A food shall be deemed to be misbranded if it purports to be or is represented as a food for which a definition and standard of identity has been prescribed by regulations as provided by section 11101 of this title, unless—

(1) it conforms to the definition and standard; and

(2) its label bears—

(A) the name of the food specified in the definition and standard; and

(B) to the extent that the regulations may require, the common names of optional ingredients (other than spices, flavoring, and coloring) present in the food.

(b) ARTIFICIAL COLORING IN BUTTER, CHEESE, OR ICE CREAM.—The provisions of this section with respect

to artificial coloring shall not apply in the case of butter, cheese, or ice cream.

**§ 11308. Representation as to standards of quality and fill of container**

A food shall be deemed to be misbranded if it purports to be or is represented as—

(1) a food for which a standard of quality has been prescribed by regulations as provided by section 11101 of this title, and its quality falls below the standard, unless its label bears, in such manner and form as the regulations specify, a statement that it falls below the standard; or

(2) a food for which a standard of fill of container has been prescribed by regulations as provided by section 11101 of this title, and it falls below the standard of fill of container applicable to the food, unless its label bears, in such manner and form as the regulations specify, a statement that it falls below the standard.

**§ 11309. Representation as to pasteurization**

(a) IN GENERAL.—A food shall be deemed to be misbranded if it purports to be or is represented as a food that is pasteurized unless—

(1) the food has been subjected to a safe process or treatment that is prescribed as pasteurization

for the food in a regulation promulgated under this subtitle; or

(2)(A) the food has been subjected to a safe process or treatment that—

(i) is reasonably certain to achieve destruction or elimination in the food of the most resistant microorganisms of public health significance that are likely to occur in the food;

(ii) is at least as protective of the public health as a process or treatment described in paragraph (1);

(iii) is effective for a period that is at least as long as the shelf life of the food when stored under normal and moderate abuse conditions; and

(iv) is the subject of a notification to the Secretary, including effectiveness data regarding the process or treatment; and

(B) at least 120 days have passed after the date of receipt of the notification by the Secretary without the Secretary making a determination that the process or treatment involved has not been shown to meet the requirements of clauses (i) through (iii) of subparagraph (A).

(b) DETERMINATION NOT TO MEET REQUIREMENTS AS FINAL AGENCY ACTION.—For purposes of this section, a determination by the Secretary that a process or treatment has not been shown to meet the requirements of clauses (i) through (iii) of subsection (a)(2)(A) shall constitute final agency action under those clauses.

**§ 11310. Label to bear common or usual name**

(a) IN GENERAL.—A food shall be deemed to be misbranded unless its label bears—

(1) the common or usual name of the food, if any; and

(2) in case it is fabricated from 2 or more ingredients, the common or usual name of each ingredient and if the food purports to be a beverage containing vegetable or fruit juice, a statement with appropriate prominence on the information panel of the total percentage of the fruit or vegetable juice contained in the food.

(b) SPICES, FLAVORINGS, AND COLORS.—Spices, flavorings, and colors not required to be certified under section 17701(c) of this title, unless sold as spices, flavorings, or those colors, may be designated as spices, flavorings, and colorings without naming each.

(c) EXEMPTIONS BY REGULATIONS.—To the extent that compliance with the requirements of subsection (a)(2)

is impracticable, or results in deception or unfair competition, exemptions shall be established by regulations promulgated by the Secretary.

(d) ARTIFICIAL COLORING IN BUTTER, CHEESE, OR ICE CREAM.—The provisions of this section with respect to artificial coloring shall not apply in the case of butter, cheese, or ice cream.

**§ 11311. Representation for special dietary use**

A food shall be deemed to be misbranded if it purports to be or is represented for special dietary uses, unless its label bears such information concerning its vitamin, mineral, and other dietary properties as the Secretary determines to be, and by regulations prescribes as, necessary to fully inform purchasers as to its value for the uses.

**§ 11312. Artificial flavoring, artificial coloring, or chemical preservatives**

(a) IN GENERAL.—A food shall be deemed to be misbranded if it bears or contains any artificial flavoring, artificial coloring, or chemical preservative, unless it bears labeling stating that fact, except that to the extent that compliance with the requirements of this section is impracticable, exemptions shall be established by regulations promulgated by the Secretary.

(b) ARTIFICIAL COLORING; BUTTER, CHEESE, OR ICE CREAM.—The provisions of this section with respect to artificial coloring shall not apply in the case of butter, cheese, or ice cream.

(c) CHEMICAL PRESERVATIVES; PESTICIDE CHEMICALS.—

(1) IN GENERAL.—The provisions of this section with respect to chemical preservatives shall not apply to a pesticide chemical when used in or on a raw agricultural commodity that is the produce of the soil.

(2) EFFECT.—Nothing in paragraph (1) shall affect any requirement of the laws of any State or territory of the United States.

**§ 11313. Pesticide chemicals on raw agricultural commodities**

(a) IN GENERAL.—A food shall be deemed to be misbranded if it is a raw agricultural commodity that is the produce of the soil, bearing or containing a pesticide chemical applied after harvest, unless the shipping container of the commodity bears labeling that declares the presence of the chemical in or on the commodity and the common or usual name and the function of the chemical.

(b) EXCEPTION.—A declaration under subsection (a) shall not be required while the commodity, having been

removed from the shipping container, is being held or displayed for sale at retail out of the container in accordance with the custom of the trade.

(c) EFFECT.—Nothing in this section shall affect any requirement of the laws of any State or territory of the United States.

**§ 11314. Color additives**

A food shall be deemed to be misbranded if it is a color additive, unless its packaging and labeling are in conformity with the packaging and labeling requirements, applicable to the color additive, as may be contained in regulations issued under section 17701 of this title.

**§ 11315. Packaging or labeling of drugs in violation of regulations**

A food shall be deemed to be misbranded if its packaging or labeling is in violation of an applicable regulation issued pursuant to section 3 or 4 of the Poison Prevention Packaging Act of 1970 (15 U.S.C. 1472, 1473).

**§ 11316. Nutrition information**

(a) IN GENERAL.—

(1) LABEL AND LABELING REQUIREMENTS.—Except as provided in subsections (c), (d), (e), (f), and (g), a food shall be deemed to be misbranded if it is a food intended for human consumption and is

offered for sale, unless its label or labeling bears nutrition information that provides—

(A)(i) the serving size which is an amount customarily consumed and which is expressed in a common household measure that is appropriate to the food; or

(ii) if the use of the food is not typically expressed in a serving size, the common household unit of measure that expresses the serving size of the food;

(B) the number of servings or other units of measure per container;

(C) the total number (in each serving size or other unit of measure of the food) of calories—

(i) derived from any source; and

(ii) derived from the total fat;

(D) the amount of total fat, saturated fat, cholesterol, sodium, total carbohydrates, complex carbohydrates, sugars, dietary fiber, and total protein contained in each serving size or other unit of measure; and

(E) any vitamin, mineral, or other nutrient required to be placed on the label and labeling of food under this subtitle before October 1,

1990, if the Secretary determines that the information will assist consumers in maintaining healthy dietary practices.

(2) HIGHLIGHTING OF CERTAIN INFORMATION.—The Secretary may by regulation require any information required to be placed on the label or labeling by this subsection or subsection (b)(1) to be highlighted on the label or labeling by larger type, bold type, or contrasting color if the Secretary determines that the highlighting will assist consumers in maintaining healthy dietary practices.

(b) INCLUSION OF NUTRIENT BY REGULATION.—

(1) IN GENERAL.—If the Secretary determines that a nutrient other than a nutrient required by subparagraph (C), (D), or (E) of subsection (a)(1) should be included in the label or labeling of food subject to subsection (a) for purposes of providing information regarding the nutritional value of the food that will assist consumers in maintaining healthy dietary practices, the Secretary may by regulation require that information relating to the additional nutrient be included in the label or labeling of the food.

(2) REMOVAL OF REQUIRED INFORMATION BY REGULATION.—If the Secretary determines that the

information relating to a nutrient required by paragraph (1) or by subparagraph (C), (D), or (E) of subsection (a)(1) to be included in the label or labeling of food is not necessary to assist consumers in maintaining healthy dietary practices, the Secretary may by regulation remove information relating to the nutrient from the requirement.

(c) FOOD IN BULK CONTAINERS.—For food that is received in bulk containers at a retail establishment, the Secretary may, by regulation, provide that the nutrition information required by subsections (a) and (b) be displayed at the location in the retail establishment at which the food is offered for sale.

(d) RAW AGRICULTURAL COMMODITIES; RAW FISH.—

(1) DEFINITION OF FISH.—In this subsection, the term ''fish'' includes freshwater or marine fin fish, crustaceans, and mollusks, including shellfish, amphibians, and other forms of aquatic animal life.

(2) ISSUANCE OF VOLUNTARY GUIDELINES OR MANDATORY REGULATIONS.—The Secretary shall provide for furnishing the nutrition information required by subsections (a) and (b) with respect to raw agricultural commodities and raw fish by issuing voluntary nutrition guidelines as provided by para-

graph (3) or by issuing regulations that are mandatory as provided by paragraph (5).

(3) ISSUANCE OF GUIDELINES.—

(A) PROCEDURE.—

(i) IN GENERAL.—On the expiration of 12 months after November 8, 1990, the Secretary, after providing an opportunity for comment, shall issue guidelines for food retailers offering raw agricultural commodities or raw fish to provide nutrition information specified in subsections (a) and (b). The guidelines shall take into account the actions taken by food retailers during the 12-month period to provide to consumers nutrition information on raw agricultural commodities and raw fish. The guidelines shall apply only—

(I) in the case of raw agricultural commodities, to the 20 varieties of vegetables most frequently consumed during a year and the 20 varieties of fruit most frequently consumed during a year; and

(II) to the 20 varieties of raw fish most frequently consumed during a year.

(ii) DETERMINATION BY REGULATION; REGIONAL APPLICABILITY.—The vegetables, fruits, and raw fish to which the guidelines apply shall be determined by the Secretary by regulation and the Secretary may apply the guidelines regionally.

(B) FINAL REGULATION ON SUBSTANTIAL COMPLIANCE.—

(i) ISSUANCE.—On the expiration of 12 months after November 8, 1990, the Secretary shall issue a final regulation defining the circumstances that constitute substantial compliance by food retailers with the guidelines issued under subparagraph (A).

(ii) NO SUBSTANTIAL COMPLIANCE.—The regulation shall provide that there is no substantial compliance if a significant number of retailers have failed to comply with the guidelines.

(iii) CONSIDERATION OF SIZE OF RETAILERS AND PORTION OF MARKET.—The

size of the retailers and the portion of the market served by retailers in compliance with the guidelines shall be considered in determining whether the substantial-compliance standard has been met.

(4) REPORT.—

(A) IN GENERAL.—

(i) ISSUANCE.—On the expiration of 30 months after November 8, 1990, the Secretary shall issue a report on actions taken by food retailers to provide consumers with nutrition information for raw agricultural commodities and raw fish under the guidelines issued under paragraph (2).

(ii) INCLUSION OF SUBSTANTIAL COMPLIANCE.—The report shall include a determination of whether there is substantial compliance with the guidelines.

(B) RECURRENCE.—If the Secretary finds that there is substantial compliance with the guidelines, the Secretary shall issue a report and make a determination of the type required in subparagraph (A) every 2 years.

(5) MANDATORY PROVISION OF NUTRITION INFORMATION.—

(A) REGULATIONS.—

(i) PROPOSED REGULATIONS.—If the Secretary determines that there is no substantial compliance with the guidelines issued under paragraph (2), the Secretary shall, at the time the determination is made, issue proposed regulations requiring that any person that offers raw agricultural commodities or raw fish to consumers provide, in a manner prescribed by regulations, the nutrition information required by subsections (a) and (b).

(ii) FINAL REGULATIONS.—The Secretary shall issue final regulations imposing the requirements 6 months after issuing the proposed regulations. The final regulations shall become effective 6 months after the date of their issuance.

(B) REQUIRING NUTRITION INFORMATION FOR LARGER NUMBER OF FREQUENTLY CONSUMED PRODUCTS.—

(i) IN GENERAL.—Regulations issued under subparagraph (A) may require that

the nutrition information required by subsections (a) and (b) be provided for more than the 20 varieties of vegetables, 20 varieties of fruit, and 20 varieties of fish most frequently consumed during a year if the Secretary finds that a larger number of the products are frequently consumed.

(ii) SINGLE LOCATION.—Regulations issued under subparagraph (A) shall permit the information to be provided in a single location in each area in which raw agricultural commodities and raw fish are offered for sale.

(iii) EXPRESSED AS AVERAGE OR RANGE PER SERVING.—Regulations issued under subparagraph (A) may provide that information shall be expressed as an average or range per serving of the same type of raw agricultural commodity or raw fish.

(iv) AVAILABILITY OF REQUIRED INFORMATION TO PERSONS THAT OFFER FOOD TO CONSUMERS.—The Secretary shall develop and make available to the persons that offer the varieties of food described in clause (i) to consumers the in-

formation required by subsections (a) and (b).

(C) AREA; FORMAT; SUPPLEMENTATION.—

(i) AREA.—Regulations issued under subparagraph (A) shall permit the required information to be provided in each area of an establishment in which raw agricultural commodities and raw fish are offered for sale.

(ii) FORMAT.—The regulations shall permit food retailers to display the required information by supplying copies of the information provided by the Secretary, by making the information available in brochure, notebook or leaflet form, or by posting a sign disclosing the information.

(iii) SUPPLEMENTATION.—The regulations shall also permit presentation of the required information to be supplemented by a video, live demonstration, or other media that the Secretary approves.

(6) NO PROSECUTION FOR MINOR VIOLATIONS.—A person that offers raw agricultural commodities or raw fish to consumers shall not be prosecuted for minor violations of this subsection if there

has been substantial compliance with the requirements of this section.

(e) DIETARY SUPPLEMENT PRODUCT.—A dietary supplement product (including a food to which section 11113 of this title applies) shall comply with the requirements of subsections (a) and (b) in a manner that is appropriate for the product and that is specified in regulations of the Secretary which shall provide that—

(1) nutrition information shall first list those dietary ingredients that are present in the product in a significant amount and for which a recommendation for daily consumption has been established by the Secretary, except that a dietary ingredient shall not be required to be listed if it is not present in a significant amount, and shall list any other dietary ingredient present and identified as having no such recommendation;

(2) the listing of dietary ingredients shall include the quantity of each of the dietary ingredients (or the quantity of a proprietary blend of the dietary ingredients) per serving;

(3) the listing of dietary ingredients may include the source of a dietary ingredient; and

(4) the nutrition information shall immediately precede the ingredient information required under

paragraph (1), except that no ingredient identified pursuant to paragraph (1) shall be required to be identified a second time.

(f) INAPPLICABILITY.—

(1) IN GENERAL.—Subsections (a), (b), (c), and (d) shall not apply to food—

(A) except as provided in subsection (g)(3)(C), that is—

(i) served in restaurants or other establishments in which food is served for immediate human consumption; or

(ii) sold for sale or use in those establishments;

(B) except as provided in subsection (g)(3)(C), that is—

(i) processed and prepared primarily in a retail establishment;

(ii) ready for human consumption;

(iii) of the type described in subparagraph (A); and

(iv) offered for sale to consumers but not for immediate human consumption in the establishment and is not offered for sale outside the establishment;

(C) that is an infant formula subject to section 11114 of this title;

(D) that is a medical food as defined in section 49502(a) of this title; or

(E) that is described in section 11107(a)(2) of this title.

(2) PACKAGING TOO SMALL.—Subsections (a) and (b) shall not apply to the label of a food if—

(A) the Secretary determines by regulations that compliance with the subsections is impracticable because the package of the food is too small to comply with the requirements of the subsections; and

(B) the label of the food does not contain any nutrition information.

(3) INSIGNIFICANT AMOUNT OF NUTRIENTS.—

(A) FOOD CONTAINING ALL THE NUTRIENTS THAT REQUIRE LISTING.—If a food contains insignificant amounts, as determined by the Secretary, of all the nutrients required by subsections (a) and (b) to be listed in the label or labeling of food, the requirements of the subsections shall not apply to the food if the label, labeling, or advertising of the food does not

make any claim with respect to the nutritional value of the food.

(B) FOOD CONTAINING MORE THAN HALF OF THE NUTRIENTS THAT REQUIRE LISTING.—If a food contains insignificant amounts, as determined by the Secretary, of more than ½ the nutrients required by subsections (a) and (b) to be in the label or labeling of the food, the Secretary shall require the amounts of the nutrients to be stated in a simplified form prescribed by the Secretary.

(4) SALES BELOW A CERTAIN AMOUNT.—If a person offers food for sale and has annual gross sales made or business done in sales to consumers that is not more than $500,000 or has annual gross sales made or business done in sales of food to consumers that is not more than $50,000, the requirements of subsections (a), (b), (c), and (d) shall not apply with respect to food sold by the person to consumers unless the label or labeling of food offered by the person provides nutrition information or makes a nutrition claim.

(5) LOW NUMBER OF UNITS SOLD.—

(A) DEFINITIONS.—In this paragraph:

(i) FOOD PRODUCT.—The term ''food product'' means food in any sized package that is manufactured by a single manufacturer or that bears the same brand name, that bears the same statement of identity, and that has similar preparation methods.

(ii) PERSON.—The term ''person'' in the case of a corporation includes all domestic and foreign affiliates of the corporation.

(iii) UNIT.—The term ''unit'' means the packaging or, if there is no packaging, the form in which a food product is offered for sale to consumers.

(B) IN GENERAL.—During the 12-month period for which an exemption from subsections (a) and (b) is claimed pursuant to this subparagraph, the requirements of the subsections shall not apply to any food product if—

(i) the labeling for the product does not provide nutrition information or make a claim subject to section 11317 of this title;

(ii) the person that claims for the product an exemption from the subsections

employed fewer than an average of 100 full-time equivalent employees;

(iii) the person provided the notice described in subparagraph (C); and

(iv) in the case of a food product that was sold in the 12-month period preceding the period for which an exemption was claimed, fewer than 100,000 units of the product were sold in the United States during the preceding period, or in the case of a food product that was not sold in the 12-month period preceding the period for which the exemption is claimed, fewer than 100,000 units of the product are reasonably anticipated to be sold in the United States during the period for which the exemption is claimed.

(C) NOTICE.—The notice referred to in subparagraph (B)—

(i) shall be given to the Secretary prior to the beginning of the period during which the exemption under subparagraph (B) is to be in effect;

(ii) shall state that the person claiming the exemption for a food product has

complied with the applicable requirements of subparagraph (B); and

(iii) shall—

(I) state the average number of full-time equivalent employees the person employed during the 12 months preceding the date the person claims the exemption;

(II) state the approximate number of units the person claiming the exemption sold in the United States;

(III) if the exemption is claimed for a food product that was sold in the 12-month period preceding the period for which the exemption was claimed, state the approximate number of units of the product that were sold in the United States during the preceding period, and, if the exemption is claimed for a food product that was not sold in the preceding period, state the number of units of the product that the person reasonably anticipates will be sold in the United States

during the period for which the exemption was claimed; and

(IV) contain such information as the Secretary may require to verify the information required by the preceding provisions of this subparagraph if the Secretary has questioned the validity of the information.

(D) EXEMPTION FROM FILING NOTICE.—If a person is not an importer, has fewer than 10 full-time equivalent employees, and sells fewer than 10,000 units of any food product in any year, the person is not required to file a notice for the product under subparagraph (C) for the year.

(E) EXTENSION.—In the case of a person that claimed an exemption under subparagraph (B), if, during the period of the exemption, the number of full-time equivalent employees of the person exceeds the number in subparagraph (B) or if the number of food products sold in the United States exceeds the number in subparagraph (B), the exemption shall extend to the expiration of 18 months after the date the num-

ber of full-time equivalent employees or food products sold exceeded the applicable number.

(F) LOWERING REQUIRED NUMBERS BY REGULATION.—For any food product first introduced into interstate commerce after May 8, 2002, the Secretary may by regulation lower the employee or units of food products requirement of subparagraph (B) if the Secretary determines that the cost of compliance with the lower requirement will not place an undue burden on persons subject to the lower requirement.

(6) FOOD SOLD BY FOOD DISTRIBUTORS.—Subsections (a), (b), (c), and (d) shall not apply to food that is sold by a food distributor if the food distributor principally sells food to restaurants or other establishments in which food is served for immediate human consumption and does not manufacture, process, or repackage the food it sells.

(g) RESTAURANTS, RETAIL FOOD ESTABLISHMENTS, AND VENDING MACHINES.—

(1) DEFINITIONS.—In this subsection:

(A) MENU.—The term ''menu'' means the primary writing of the restaurant or other simi-

lar retail food establishment from which a consumer makes an order selection.

(B) MENU BOARD.—The term ''menu board'' means the primary writing, on a board, of the restaurant or other similar retail food establishment from which a consumer makes an order selection.

(2) GENERAL REQUIREMENTS FOR RESTAURANTS AND SIMILAR RETAIL FOOD ESTABLISHMENTS.—Except for food described in paragraph (8), in the case of food that is a standard menu item that is offered for sale in a restaurant or similar retail food establishment that is part of a chain with 20 or more locations doing business under the same name (regardless of the type of ownership of the locations) and offering for sale substantially the same menu items, the restaurant or similar retail food establishment shall disclose the information described in paragraphs (3) and (4).

(3) INFORMATION REQUIRED TO BE DISCLOSED BY RESTAURANTS AND RETAIL FOOD ESTABLISHMENTS.—Except as provided in paragraph (8), the restaurant or similar retail food establishment shall disclose in a clear and conspicuous manner—

(A)(i) in a nutrient content disclosure statement adjacent to the name of the standard menu item, so as to be clearly associated with the standard menu item, on the menu listing the item for sale, the number of calories contained in the standard menu item, as usually prepared and offered for sale; and

(ii) a succinct statement concerning suggested daily caloric intake, as specified by the Secretary by regulation and posted prominently on the menu board, designed to enable the public to understand, in the context of a total daily diet, the significance of the caloric information that is provided on the menu;

(B)(i) in a nutrient content disclosure statement adjacent to the name of the standard menu item, so as to be clearly associated with the standard menu item, on the menu board, including a drive-through menu board, the number of calories contained in the standard menu item, as usually prepared and offered for sale; and

(ii) a succinct statement concerning suggested daily caloric intake, as specified by the Secretary by regulation and posted prominently

on the menu board, designed to enable the public to understand, in the context of a total daily diet, the significance of the nutrition information that is provided on the menu board;

(C) in a written form, available on the premises of the restaurant or similar retail establishment and to the consumer on request, the nutrition information required under subparagraphs (C) and (D) of subsection (a)(1); and

(D) on the menu or menu board, a prominent, clear, and conspicuous statement regarding the availability of the information described in subparagraph (C).

(4) SELF-SERVICE FOOD AND FOOD ON DISPLAY.—Except as provided in paragraph (8), in the case of food sold at a salad bar, buffet line, cafeteria line, or similar self-service facility, and for self-service beverages or food that is on display and that is visible to customers, a restaurant or similar retail food establishment shall place adjacent to each food offered a sign that lists calories per displayed food item or per serving.

(5) REASONABLE BASIS.—For the purposes of this subsection, a restaurant or similar retail food

establishment shall have a reasonable basis for its nutrient content disclosures, including nutrient databases, cookbooks, laboratory analyses, and other reasonable means, as described in section 101.10 of title 21, Code of Federal Regulations, or any successor regulation, or in a related guidance of the FDA.

(6) MENU VARIABILITY AND COMBINATION MEALS.—The Secretary shall establish by regulation standards for determining and disclosing the nutrient content for standard menu items that come in different flavors, varieties, or combinations, but that are listed as a single menu item, such as soft drinks, ice cream, pizza, doughnuts, or children's combination meals, through means determined by the Secretary, including ranges, averages, or other methods.

(7) ADDITIONAL INFORMATION.—If the Secretary determines that a nutrient, other than a nutrient required under paragraph (3)(C), should be disclosed for the purpose of providing information to assist consumers in maintaining healthy dietary practices, the Secretary may require, by regulation, disclosure of the nutrient in the written form required under paragraph (3)(C).

(8) INAPPLICABILITY TO CERTAIN FOOD.—

(A) IN GENERAL.—Paragraphs (2) through (7) do not apply to—

(i) items that are not listed on a menu or menu board (such as condiments and other items placed on the table or counter for general use);

(ii) daily specials, temporary menu items appearing on the menu for less than 60 days per calendar year, or custom orders; or

(iii) such other food that is part of a customary market test appearing on the menu for less than 90 days, under terms and conditions established by the Secretary.

(B) WRITTEN FORMS.—Subsection (f)(3) shall apply to any regulations promulgated under paragraphs (3)(C) and (7).

(9) VENDING MACHINES.—

(A) IN GENERAL.—In the case of an article of food sold from a vending machine described in subparagraph (B), the vending machine operator shall provide a sign in close proximity to each article of food or the selection button that includes a clear and conspicuous

statement disclosing the number of calories contained in the article.

(B) VENDING MACHINE.—A vending machine described in this subparagraph is a vending machine that—

(i) does not permit a prospective purchaser to examine the Nutrition Facts Panel before purchasing the article or does not otherwise provide visible nutrition information at the point of purchase; and

(ii) is operated by a person that is engaged in the business of owning or operating 20 or more vending machines.

(10) VOLUNTARY PROVISION OF NUTRITION INFORMATION.—

(A) IN GENERAL.—An authorized official of any restaurant or similar retail food establishment or vending machine operator not subject to the requirements of this subsection may elect to be subject to the requirements of this subsection, by registering biannually the name and address of the restaurant or similar retail food establishment or vending machine operator with the Secretary, as specified by the Secretary by regulation.

(B) RULE OF CONSTRUCTION.—Nothing in this paragraph shall be construed to authorize the Secretary to require an application, review, or licensing process for any entity to register with the Secretary, as described in subparagraph (A).

(11) REGULATIONS.—

(A) PROPOSED REGULATION.—The Secretary shall promulgate proposed regulations to carry out this subsection.

(B) CONTENTS.—In promulgating regulations, the Secretary shall—

(i) consider standardization of recipes and methods of preparation, reasonable variation in serving size and formulation of menu items, space on menus and menu boards, inadvertent human error, training of food service workers, variations in ingredients, and other factors, as the Secretary determines; and

(ii) specify the format and manner of the nutrient content disclosure requirements under this paragraph.

(C) REPORTING.—The Secretary shall submit to the Committee on Health, Education,

Labor, and Pensions of the Senate and the Committee on Energy and Commerce of the House of Representatives a quarterly report that describes the Secretary's progress toward promulgating final regulations under this subsection.

(12) CONSTRUCTION; INAPPLICABILITY; PREEMPTION.—Nothing in this subsection shall be construed—

(A) to preempt any provision of State or local law, unless the provision—

(i) establishes or continues into effect nutrient content disclosures of the type required under this subsection; and

(ii) is expressly preempted under section 11103(a)(4) of this title;

(B) to apply to any State or local requirement respecting a statement in the labeling of food that provides for a warning concerning the safety of the food or component of the food; or

(C) except as provided in paragraph (10), to apply to any restaurant or similar retail food establishment other than a restaurant or similar retail food establishment described in paragraph (2).

(h) LABELING EXEMPTION FOR SINGLE-INGREDIENT FOODS AND PRODUCTS.—The food labeling requirements under this section shall not require that the nutrition facts label of any single-ingredient sugar, honey, agave, or syrup, including maple syrup, that is packaged and offered for sale as a single-ingredient food bear the declaration ''Includes X g Added Sugars.''.

**§ 11317. Nutrition levels and health-related claims**

(a) IN GENERAL.—

(1) CLAIMS THAT DEEM FOOD TO BE MISBRANDED.—Except as provided in paragraphs (1) through (3) of subsection (e), a food shall be deemed to be misbranded if it is a food intended for human consumption that is offered for sale and for which a claim is made in the label or labeling of the food that expressly or by implication—

(A) characterizes the level of any nutrient that is of the type required by subsection (a) or (b) of section 11316 of this title to be in the label or labeling of the food unless the claim is made in accordance with subsection (b) of this section; or

(B) characterizes the relationship of any nutrient that is of the type required by subsection (a) or (b) of section 11316 of this title

to be in the label or labeling of the food to a disease or a health-related condition unless the claim is made in accordance with subsection (c) or (e)(4).

(2) LIMITATION OF APPLICABILITY.—A statement of the type required by section 11316 of this title that appears as part of the nutrition information required or permitted by that section is not a claim that is subject to this section and a claim subject to paragraph (1)(A) is not subject to paragraph (1)(B).

(b) REQUIREMENTS FOR NUTRITIONAL CLAIMS UNDER SUBSECTION (a)(1)(A).—

(1) IN GENERAL.—Except as provided in subparagraphs (B) and (C) of subsection (d)(1) and paragraphs (1) through (3) of subsection (e), a claim described in subsection (a)(1)(A)—

(A) may be made only if the characterization of the level made in the claim uses terms that are defined in regulations of the Secretary;

(B) may not state the absence of a nutrient unless—

(i) the nutrient is usually present in the food or in another food that substitutes

for the food as defined by the Secretary by regulation; or

(ii) the Secretary by regulation permits such a statement on the basis of a finding that such a statement would assist consumers in maintaining healthy dietary practices and the statement discloses that the nutrient is not usually present in the food;

(C) may not be made with respect to the level of cholesterol in the food if the food contains, as determined by the Secretary by regulation, fat or saturated fat in an amount that increases to individuals in the general population the risk of disease or a health-related condition that is diet-related unless—

(i) the Secretary—

(I) finds by regulation that the level of cholesterol is substantially less than the level usually present in the food or in another food that substitutes for the food and that has a significant market share; or

(II) by regulation permits a statement regarding the absence of

cholesterol on the basis of a finding that cholesterol is not usually present in the food and that such a statement would assist consumers in maintaining healthy dietary practices and the regulation requires that the statement disclose that cholesterol is not usually present in the food; and

(ii) the label or labeling of the food discloses the level of the fat or saturated fat in immediate proximity to the claim and with appropriate prominence, which shall be no less than ½ the size of the claim with respect to the level of cholesterol;

(D) may not be made with respect to the level of saturated fat in the food if the food contains cholesterol unless the label or labeling of the food discloses the level of cholesterol in the food in immediate proximity to the claim and with appropriate prominence, which shall be no less than ½ the size of the claim with respect to the level of saturated fat;

(E) may not state that a food is high in dietary fiber unless the food is low in total fat

as defined by the Secretary or the label or labeling discloses the level of total fat in the food in immediate proximity to the statement and with appropriate prominence, which shall be no less than ½ the size of the claim with respect to the level of dietary fiber; and

(F) may not be made if the Secretary by regulation prohibits the claim because the claim is misleading in light of the level of another nutrient in the food.

(2) INCREASED RISK OF DISEASE OR HEALTH-RELATED CONDITION.—

(A) STATEMENT.—If a claim described in subsection (a)(1)(A) is made with respect to a nutrient in a food and the Secretary makes a determination that the food contains a nutrient at a level that increases to persons in the general population the risk of a disease or health-related condition that is diet-related, the label or labeling of the food shall contain, prominently and in immediate proximity to the claim, the following statement: ''See nutrition information for _____ content.''

(B) BLANK SPACE.—The blank shall identify the nutrient associated with the increased disease or health-related condition risk.

(C) DETERMINATION.—In making the determination described in subparagraph (A), the Secretary shall take into account the significance of the food in the total daily diet.

(3) CERTAIN CLAIMS UNDER SUBSECTION (a)(1)(A) CONTAINED IN BRAND NAMES.—

(A) IN GENERAL.—Paragraph (1) does not apply to a claim described in subsection (a)(1)(A) and contained in the label or labeling of a food if the claim is contained in the brand name of the food and the brand name was in use on the food before October 25, 1989, unless the brand name contains a term defined by the Secretary under paragraph (1)(A).

(B) CLAIM SUBJECT TO MISBRANDING PROVISIONS RELATING TO FALSE OR MISLEADING LABELING.—A claim under subparagraph (A) is subject to section 11301 of this title.

(4) CERTAIN CLAIMS UNDER SUBSECTION (a)(1)(A) CONTAINED IN SOFTDRINK BRAND NAMES.—

(A) IN GENERAL.—This subsection does not apply to a claim described in subsection (a)(1)(A) that uses the term ''diet'' and is contained in the label or labeling of a soft drink if—

(i) the claim is contained in the brand name of the soft drink;

(ii) the brand name was in use on the soft drink before October 25, 1989; and

(iii) the use of the term ''diet'' was in conformity with section 105.66 of title 21, Code of Federal Regulations.

(B) CLAIM SUBJECT TO MISBRANDING PROVISIONS RELATING TO FALSE OR MISLEADING LABELING.—A claim under subparagraph (A) is subject to section 11301 of this title.

(5) CLAIMS DESCRIBING PERCENTAGE OF VITAMINS AND MINERALS.—Subparagraphs (A) through (E) of paragraph (1) do not apply to a statement in the label or labeling of food that describes the percentage of vitamins and minerals in the food in relation to the amount of the vitamins and minerals recommended for daily consumption by the Secretary.

(6) CLAIM IN DIETARY SUPPLEMENT LABELING CHARACTERIZING PERCENTAGE LEVEL OF DIETARY INGREDIENT.—Paragraph (1)(A) does not apply to a statement in the labeling of a dietary supplement that characterizes the percentage level of a dietary ingredient for which the Secretary has not established a reference daily intake, daily recommended value, or other recommendation for daily consumption.

(7) CLAIM FOR A NUTRIENT FOR WHICH NO REGULATION HAS BEEN PROMULGATED.—

(A) IN GENERAL.—A claim of the type described in subsection (a)(1)(A) for a nutrient, for which the Secretary has not promulgated a regulation under paragraph (1)(A), shall be authorized and may be made with respect to a food if—

(i) a scientific body of the United States Government with official responsibility for public health protection or research directly relating to human nutrition (such as the National Institutes of Health or the Centers for Disease Control and Prevention) or the National Academy of

Sciences or any of its subdivisions has published an authoritative statement—

(I) that is currently in effect; and

(II) that identifies the nutrient level to which the claim refers;

(ii) a person, at least 120 days (during which the Secretary may notify any person that is making a claim as authorized by paragraph (3) that the person has not submitted all the information required by the paragraph) before the first introduction into interstate commerce of the food with a label containing the claim, has submitted to the Secretary—

(I) a notice of the claim, which shall include—

(aa) the exact words used in the claim; and

(bb) a concise description of the basis on which the person relied for determining that the requirements of clause (i) have been satisfied;

(II) a copy of the statement referred to in clause (i) on which the person relied in making the claim; and

(III) a balanced representation of the scientific literature relating to the nutrient level to which the claim refers;

(iii) the claim and the food for which the claim is made are in compliance with paragraphs (1) and (2), and are otherwise in compliance with sections 10101(c)(1) and 11301 of this title; and

(iv) the claim is stated in a manner—

(I) so that the claim is an accurate representation of the authoritative statement referred to in clause (i); and

(II) so that the claim enables the public to comprehend the information provided in the claim and to understand the relative significance of the information in the context of a total daily diet.

(B) AUTHORITATIVE STATEMENT.—

(i) IN GENERAL.—For purposes of this paragraph, a statement shall be regarded as an authoritative statement of a scientific body described in subparagraph (A)(i) only if the statement is published by the scientific body.

(ii) STATEMENT OF EMPLOYEE.—An authoritative statement of a scientific body described in subparagraph (A)(i) shall not include a statement of an employee of the scientific body made in the individual capacity of the employee.

(C) SUBMISSION PERIOD.—A claim submitted under the requirements of this paragraph may be made until—

(i) such time as the Secretary issues a regulation—

(I) prohibiting or modifying the claim and the regulation has become effective; or

(II) finding that the requirements of this paragraph have not been met, including finding that the petitioner had not submitted all the

information required by this paragraph; or

(ii) a district court of the United States in an enforcement proceeding under chapter 105 of this title has determined that the requirements of this paragraph have not been met.

(c) REQUIREMENTS FOR NUTRITIONAL CLAIMS UNDER SUBSECTION (a)(1)(B).—

(1) IN GENERAL.—Except as provided in subsection (e), a claim described in subsection (a)(1)(B) may be made only—

(A) if the claim meets the requirements of the regulations of the Secretary promulgated under paragraph (2); and

(B) if the food for which the claim is made does not contain, as determined by the Secretary by regulation, any nutrient in an amount that increases to persons in the general population the risk of a disease or health-related condition which is diet-related, taking into account the significance of the food in the total daily diet, except that the Secretary may by regulation permit such a claim based on a finding that such a claim would assist consumers in

maintaining healthy dietary practices and based on a requirement that the label contain a disclosure of the type required by subsection (b)(2).

(2) REGULATIONS.—

(A) IN GENERAL.—The Secretary shall promulgate regulations authorizing claims of the type described in subsection (a)(1)(B) only if the Secretary determines, based on the totality of publicly available scientific evidence (including evidence from well-designed studies conducted in a manner that is consistent with generally recognized scientific procedures and principles), that there is significant scientific agreement, among experts qualified by scientific training and experience to evaluate the claims, that the claims to be authorized are supported by the evidence.

(B) CONTENTS.—A regulation described in subparagraph (A) shall describe—

(i) the relationship between a nutrient of the type required in the label or labeling of food by subsection (a) or (b) of section 11316 of this title and a disease or health-related condition; and

(ii) the significance of each such nutrient in affecting the disease or health-related condition.

(C) MANNER OF STATEMENT.—A regulation described in subparagraph (A) shall require the claim to be stated in a manner—

(i) so that the claim is an accurate representation of the matters set out in subparagraph (B); and

(ii) so that the claim enables the public to comprehend the information provided in the claim and to understand the relative significance of the information in the context of a total daily diet.

(3) CLAIM UNDER SUBSECTION (a)(1)(B) NOT AUTHORIZED BY REGULATION.—

(A) IN GENERAL.—Notwithstanding the provisions of paragraphs (1)(A) and (2), a claim of the type described in subsection (a)(1)(B) that is not authorized by the Secretary in a regulation promulgated in accordance with paragraph (2) shall be authorized and may be made with respect to a food if—

(i) a scientific body of the United States Government with official responsi-

bility for public health protection or research directly relating to human nutrition (such as the National Institutes of Health or the Centers for Disease Control and Prevention) or the National Academy of Sciences or any of its subdivisions has published an authoritative statement—

(I) that is currently in effect; and

(II) that is about the relationship between a nutrient and a disease or health-related condition to which the claim refers;

(ii) a person, at least 120 days (during which the Secretary may notify any person that is making a claim as authorized by this paragraph that the person has not submitted all the information required by this paragraph) before the first introduction into interstate commerce of the food with a label containing the claim, has submitted to the Secretary—

(I) a notice of the claim, which shall include—

(aa) the exact words used in the claim; and

(bb) a concise description of the basis on which the person relied for determining that the requirements of clause (i) have been satisfied;

(II) a copy of the statement referred to in clause (i) on which the person relied in making the claim; and

(III) a balanced representation of the scientific literature relating to the relationship between a nutrient and a disease or health-related condition to which the claim refers;

(iii) the claim and the food for which the claim is made are in compliance with paragraph (1)(B) and are otherwise in compliance with sections 10101(c)(1) and 11301 of this title; and

(iv) the claim is stated in a manner—

(I) so that the claim is an accurate representation of the authoritative statement referred to in clause (i); and

(II) so that the claim enables the public to comprehend the information

provided in the claim and to understand the relative significance of the information in the context of a total daily diet.

(B) AUTHORITATIVE STATEMENT.—

(i) IN GENERAL.—For purposes of this paragraph, a statement shall be regarded as an authoritative statement of a scientific body described in subparagraph (A)(i) only if the statement is published by the scientific body.

(ii) STATEMENT OF EMPLOYEE.—An authoritative statement of a scientific body described in subparagraph (A)(i) shall not include a statement of an employee of the scientific body made in the individual capacity of the employee.

(4) SUBMISSION PERIOD.—A claim submitted under the requirements of paragraph (3) may be made until—

(A) such time as the Secretary issues a regulation under the standard in paragraph (2)(A)—

(i) prohibiting or modifying the claim and the regulation has become effective; or

(ii) finding that the requirements of paragraph (3) have not been met, including finding that the petitioner has not submitted all the information required by the paragraph; or

(B) a district court of the United States in an enforcement proceeding under chapter 105 of this title has determined that the requirements of paragraph (3) have not been met.

(d) PETITIONS.—

(1) REGULATIONS.—

(A) IN GENERAL.—

(i) SUBMISSION.—Any person may petition the Secretary to issue a regulation under subsection (b)(1)(A) or (c)(2) relating to a claim described in subparagraph (A) or (B) of subsection (a)(1).

(ii) FINAL DECISION.—Not later than 100 days after the petition is received by the Secretary, the Secretary shall issue a final decision denying the petition or file the petition for further action by the Secretary.

(iii) NO ACTION AFTER PETITION IS RECEIVED.—If the Secretary does not act

within the 100 days under clause (ii), the petition shall be deemed to be denied unless an extension is mutually agreed on by the Secretary and the petitioner.

(iv) DENIAL; PETITION NOT TO BE MADE PUBLIC.—If the Secretary denies the petition or the petition is deemed to be denied, the petition shall not be made available to the public.

(v) FURTHER AGENCY ACTIONS AFTER SECRETARY FILES PETITION.—If the Secretary files the petition, the Secretary shall deny the petition or issue a proposed regulation to take the action requested in the petition not later than 90 days after the date of the decision.

(vi) NO FURTHER AGENCY ACTION AFTER SECRETARY FILES PETITION.—If the Secretary does not act within the 90 days under clause (v), the petition shall be deemed to be denied unless an extension is mutually agreed on by the Secretary and the petitioner.

(vii) RULEMAKING PERIOD.—If the Secretary issues a proposed regulation, the

rulemaking shall be completed within 540 days of the date the petition is received by the Secretary.

(viii) SUBMISSION TO CONGRESS OF REASONS IF REGULATIONS NOT PRESCRIBED.—If the Secretary does not issue a regulation within the 540 days under clause (vii), the Secretary shall provide the Committee on Energy and Commerce of the House of Representatives and the Committee on Health, Education, Labor, and Pensions of the Senate the reasons action on the regulation did not occur within the 540 days.

(B) USE OF TERMS CONSISTENT WITH DEFINED TERMS.—

(i) IN GENERAL.—Any person may petition the Secretary for permission to use in a claim described in subsection (a)(1)(A) terms that are consistent with the terms defined by the Secretary under subsection (b)(1)(A).

(ii) FINAL DECISION.—Within 90 days of the submission of a petition under clause (i), the Secretary shall issue a final

decision denying the petition or granting the permission.

(C) IMPLIED CLAIMS IN BRAND NAMES.—

(i) IN GENERAL.—Any person may petition the Secretary for permission to use an implied claim described in subsection (a)(1)(A) in a brand name.

(ii) PUBLICATION OF NOTICE; GRANT OF PETITION.—After publishing notice of an opportunity to comment on the petition in the Federal Register and making the petition available to the public, the Secretary shall grant the petition if the Secretary finds that the claim is not misleading and is consistent with terms defined by the Secretary under subsection (b)(1)(A).

(iii) DECISION PERIOD.—The Secretary shall grant or deny the petition within 100 days of the date it is submitted to the Secretary and the petition shall be considered granted if the Secretary does not act on it within the 100 days.

(2) INCLUSION OF REASONS.—A petition under paragraph (1)(A) respecting a claim described in subparagraph (A) or (B) of subsection (a)(1) shall

include an explanation of the reasons why the claim meets the requirements of this section and a summary of the scientific data that supports the reasons.

(3) CONSIDERATION OF REPORT FROM SCIENTIFIC BODY.—If a petition for a regulation under subsection (c)(2) relies on a report from an authoritative scientific body of the United States, the Secretary shall consider the report and shall justify any decision rejecting the conclusions of the report.

(e) INAPPLICABILITY TO SPECIFIC FOODS.—

(1) INFANT FORMULAS AND MEDICAL FOODS.—This section does not apply to infant formulas subject to section 11114(h) of this title and medical foods as defined in section 49502(a) of this title.

(2) FOODS SERVED IN RESTAURANTS OR OTHER ESTABLISHMENTS.—Subparagraphs (C) through (E) of subsection (b)(1) and subsection (b)(2) do not apply to food—

(A) that is served in restaurants or other establishments in which food is served for immediate human consumption; or

(B) that is sold for sale or use in those establishments.

(3) FOOD FOR WHICH CLAIM IS REQUIRED BY A STANDARD OF IDENTITY.—A subsection (a)(1)(A) claim made with respect to a food which claim is required by a standard of identity issued under section 11101 of this title shall not be subject to subsection (b)(1)(A) or (b)(2).

(4) DIETARY SUPPLEMENTS.—A subsection (a)(1)(B) claim made with respect to a dietary supplement of vitamins, minerals, herbs, or other similar nutritional substances shall not be subject to subsection (c) but shall be subject to a procedure and standard, respecting the validity of the claim, established by regulation of the Secretary.

(f) CLAIMS UNDER SUBSECTION (a)(1)(B) FOR DIETARY SUPPLEMENTS.—

(1) IN GENERAL.—For purposes of subsection (a)(1)(B), a statement for a dietary supplement may be made if—

(A) the statement claims a benefit related to a classical nutrient deficiency disease and—

(i) discloses the prevalence of the disease in the United States;

(ii) describes the role of a nutrient or dietary ingredient intended to affect the structure or function in humans;

(iii) characterizes the documented mechanism by which a nutrient or dietary ingredient acts to maintain the structure or function; or

(iv) describes general well-being from consumption of a nutrient or dietary ingredient;

(B) the manufacturer of the dietary supplement has substantiation that the statement is truthful and not misleading; and

(C) the statement contains, prominently displayed and in boldface type, the following: ''This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.''.

(2) UNAUTHORIZED CLAIMS.—A statement under this subsection may not claim to diagnose, mitigate, treat, cure, or prevent a specific disease or class of diseases.

(3) NOTIFICATION BY MANUFACTURER.—If the manufacturer of a dietary supplement proposes to make a statement described in paragraph (1) in the labeling of the dietary supplement, the manufacturer shall notify the Secretary not later than 30 days

after the first marketing of the dietary supplement with the statement that such a statement is being made.

(g) PROPOSED REGULATIONS AUTHORIZED TO BE EFFECTIVE ON PUBLICATION.—

(1) IN GENERAL.—The Secretary may make proposed regulations issued under this section effective on publication pending consideration of public comment and publication of a final regulation if the Secretary determines that the action is necessary—

(A) to enable the Secretary to review and act promptly on petitions the Secretary determines provide for information necessary to—

(i) enable consumers to develop and maintain healthy dietary practices;

(ii) enable consumers to be informed promptly and effectively of important new knowledge regarding nutritional and health benefits of food; or

(iii) ensure that scientifically sound nutritional and health information is provided to consumers as soon as possible; or

(B) to enable the Secretary to act promptly to ban or modify a claim under this section.

(2) FINAL AGENCY ACTION.—The proposed regulations under paragraph (1) shall be deemed final agency action for purposes of judicial review.

**§ 11318. Dietary supplements; general**

(a) IN GENERAL.—A food shall be deemed to be misbranded if—

(1) it is a dietary supplement; and

(2)(A) the label or labeling of the dietary supplement fails to list—

(i) the name of each ingredient of the dietary supplement that is described in section 10101(a)(17) of this title; and

(ii)(I) the quantity of each such ingredient; or

(II) with respect to a proprietary blend of the ingredients, the total quantity of all ingredients in the blend;

(B) the label or labeling of the dietary supplement fails to identify the product by using the term ''dietary supplement'', which term may be modified with the name of such an ingredient;

(C) the supplement contains an ingredient described in section 10101(a)(17)(A)(i)(III) of this title, and the label or labeling of the supplement fails

to identify any part of the plant from which the ingredient is derived;

(D) the supplement—

(i) is covered by the specifications of an official compendium;

(ii) is represented as conforming to the specifications of an official compendium; and

(iii) fails to conform as described in clause (ii); or

(E) the supplement—

(i) is not covered by the specifications of an official compendium; and

(ii)(I) fails to have the identity and strength that the supplement is represented to have; or

(II) fails to meet the quality (including tablet or capsule disintegration), purity, or compositional specifications, based on validated assay or other appropriate methods, that the supplement is represented to meet.

(b) DIRECTIONS FOR OR CONDITIONS OF USE; WARNINGS.—A dietary supplement shall not be deemed misbranded solely because its label or labeling contains directions for or conditions of use or warnings.

**§ 11319. Dietary supplements; serious adverse event**

A food shall be deemed to be misbranded if it is a dietary supplement that is marketed in the United States, unless the label of the dietary supplement includes a domestic address or domestic phone number through which the responsible person (as described in section 18902 of this title) may receive a report of a serious adverse event with the dietary supplement.

**§ 11320. Catfish**

A food shall be deemed to be misbranded if it purports to be or is represented as catfish, unless it is fish classified within the family Ictaluridae.

**§ 11321. Ginseng**

A food shall be deemed to be misbranded if it purports to be or is represented as ginseng, unless it is an herb or herbal ingredient derived from a plant classified within the genus Panax.

**§ 11322. Failure to label; health threat**

(a) IN GENERAL.—A food shall be deemed to be misbranded if—

(1) it fails to bear a label required by the Secretary under section 20101(n)(1) of this title (relating to food refused admission into the United States);

(2) the Secretary finds that the food presents a threat of serious adverse health consequences or death to humans or animals; and

(3) on or after notifying the owner or consignee involved that the label is required under section 20101 of this title, the Secretary informs the owner or consignee that the food presents such a threat.

(b) EFFECT OF SECTION.—With respect to articles of food that are imported or offered for import into the United States, nothing in this section limits the authority of the Secretary or the Secretary of the Treasury to require the marking of refused articles of food under any other provision of law.

**§ 11323. Major food allergen labeling requirements**

(a) IN GENERAL.—

(1) DEFINITION OF NAME OF THE FOOD SOURCE FROM WHICH THE MAJOR FOOD ALLERGEN IS DERIVED.—

(A) IN GENERAL.—In this subsection, the term ''name of the food source from which the major food allergen is derived'' means the name described in section 10101(a)(29)(A) of this title, except as provided in subparagraph (B).

(B) TREE NUTS; FISH; CRUSTACEAN SHELLFISH.—In the case of a tree nut, fish, or

crustacean shellfish, the term ''name of the food source from which the major food allergen is derived'' means the name of the specific type of nut or species of fish or crustacean shellfish.

(2) IN GENERAL.—A food shall be deemed to be misbranded if it is not a raw agricultural commodity and it is, or it contains an ingredient that bears or contains, a major food allergen, unless—

(A) the word ''Contains'', followed by the name of the food source from which the major food allergen is derived, is printed immediately after or is adjacent to the list of ingredients (in a type size no smaller than the type size used in the list of ingredients) required under sections 11307 and 11310 of this title; or

(B) the common or usual name of the major food allergen in the list of ingredients required under sections 11307 and 11310 of this title is followed in parentheses by the name of the food source from which the major food allergen is derived, except that the name of the food source from which the major food allergen is derived is not required when—

(i) the common or usual name of the ingredient uses the name of the food

source from which the major food allergen is derived; or

(ii) the name of the food source from which the major food allergen is derived appears elsewhere in the ingredient list, unless the name of the food source from which the major food allergen is derived that appears elsewhere in the ingredient list appears as part of the name of a food ingredient that is not a major food allergen under clause (i) or (ii) of section 10101(a)(29)(B) of this title.

(b) INFORMATION MAY APPEAR IN LABELING IN LIEU OF APPEARING ON LABEL.—

(1) IN GENERAL.—The information required under this section may appear in labeling in lieu of appearing on the label only if the Secretary finds that such other labeling is sufficient to protect the public health.

(2) FINDING EFFECTIVE ON PUBLICATION.—A finding by the Secretary under this subsection (including any change in an earlier finding under this subsection) is effective on publication in the Federal Register as a notice.

(c) FLAVORING; COLORING; INCIDENTAL ADDITIVE.—Notwithstanding section 11307, 11310, or 11312 of this title, or any other law, a flavoring, coloring, or incidental additive that is, or that bears or contains, a major food allergen shall be subject to the labeling requirements of this section.

(d) MODIFICATION OR ELIMINATION OF REQUIREMENTS.—The Secretary may by regulation modify the requirements of subparagraph (A) or (B) of subsection (a)(2), or eliminate the requirement of subparagraph (A) or the requirements of subparagraph (B) of subsection (a)(2), if the Secretary determines that the modification or elimination of the requirement of subparagraph (A) or the requirements of subparagraph (B) of subsection (a)(2) is necessary to protect the public health.

(e) PETITION TO EXEMPT CERTAIN FOOD INGREDIENTS.—

(1) IN GENERAL.—Any person may petition the Secretary to exempt a food ingredient described in section 10101(a)(29)(B) of this title from the allergen labeling requirements of this section.

(2) DECISION PERIOD.—The Secretary shall approve or deny the petition within 180 days of receipt of the petition or the petition shall be deemed de-

nied, unless an extension of time is mutually agreed on by the Secretary and the petitioner.

(3) BURDEN.—The burden shall be on the petitioner to provide scientific evidence (including the analytical method used to produce the evidence) that demonstrates that the food ingredient, as derived by the method specified in the petition, does not cause an allergic response that poses a risk to human health.

(4) FINAL AGENCY ACTION.—A determination regarding a petition under this subsection shall constitute final agency action.

(5) PUBLIC SITE.—The Secretary shall promptly post to a public site all petitions received under this subsection within 14 days of receipt and the Secretary shall promptly post the Secretary's response to each.

(f) EXEMPTION BY NOTIFICATION.—

(1) IN GENERAL.—A person need not file a petition under subsection (e) to exempt a food ingredient described in section 10101(a)(29)(B) of this title from the allergen labeling requirements of this section, if the person files with the Secretary a notification containing—

(A) scientific evidence (including the analytical method used) that demonstrates that the food ingredient (as derived by the method specified in the notification, where applicable) does not contain allergenic protein; or

(B) a determination by the Secretary that the ingredient does not cause an allergic response that poses a risk to human health under a premarket approval or notification program under section 11111 of this title.

(2) INTRODUCTION OF FOOD INGREDIENT INTO INTERSTATE COMMERCE.—The food ingredient may be introduced or delivered for introduction into interstate commerce as a food ingredient that is not a major food allergen 90 days after the date of receipt of the notification by the Secretary, unless the Secretary determines within the 90-day period that the notification does not meet the requirements of this subsection, or there is insufficient scientific evidence to determine that the food ingredient does not contain allergenic protein or does not cause an allergenic response that poses a risk to human health.

(3) PUBLIC SITE.—The Secretary shall promptly post to a public site all notifications received under this paragraph within 14 days of receipt and

promptly post any objections to the notifications by the Secretary.

### § 11324. Nonmajor food allergen labeling requirements

Notwithstanding section 11307, 11310, or 11312 of this title, or any other law, a spice, flavoring, coloring, or incidental additive that is, or that bears or contains, a food allergen (other than a major food allergen), as determined by the Secretary by regulation, shall be disclosed in a manner specified by the Secretary by regulation.

# Division D—Drugs and Devices

# Chapter 131—Drugs and Devices Generally

Sec.

13101. Adulterated drugs and devices.
13102. Exemption from labeling and packaging requirements for drugs and devices to be processed, labeled, or repacked elsewhere.
13103. Prescription drugs.
13104. Combination products.
13105. Regulation of certain products as drugs.
13106. Pharmacy compounding.
13107. Outsourcing facilities.
13108. Prereview of television advertisements.
13109. Process to update labeling for certain generic drugs.
13110. Veterinary feed directive drugs.
13111. Risk evaluation and mitigation strategies.
13112. Pediatric studies of drugs.
13113. Research into pediatric uses for drugs and biological products.
13114. Internal committee for review of pediatric plans, assessments, deferrals, deferral extensions, and waivers.
13115. Pharmaceutical security.
13116. Extension of exclusivity period for new qualified infectious disease products.
13117. Utilizing real-world evidence.
13118. Regulation of certain nonprescription drugs that are marketed without an approved drug application.
13119. Expedited approval of drugs for serious or life-threatening diseases or conditions.
13120. Manufacturing changes.

13121. Reports of postmarketing studies.
13122. Discontinuance or interruption in the production of life-saving drugs.
13123. Annual reporting on drug shortages.
13124. Coordination relating to drug shortages.
13125. Drug shortage list.
13126. Hospital repackaging of drugs in shortage.
13127. Standards for regenerative medicine and regenerative advanced therapies.
13128. Competitive generic therapies.
13129. Prompt reports of marketing status.
13130. Discontinuance or interruption in the production of medical devices.
13131. Platform technologies.
13132. Advanced manufacturing technologies designation program.
13133. Qualification of drug development tools.
13134. Authority to designate official names.
13135. Inapplicability of division to cosmetics.
13136. Registration of producers of drugs or devices.
13137. Clinical trial guidance for antibiotic drugs.
13138. Susceptibility test interpretive criteria for microorganisms.
13139. Priority zoonotic animal drugs.
13140. Classification of devices intended for human use.
13141. Performance standards.
13142. Premarket approval.
13143. Pediatric uses of devices.
13144. Breakthrough devices.
13145. Predetermined change control plans for devices.
13146. Banned devices.
13147. Judicial review.
13148. Agency documentation and review of significant decisions regarding devices.
13149. Notification and other remedies.
13150. Program to improve the device recall system.
13151. Records and reports on devices.
13152. General provisions respecting control of devices intended for human use.
13153. State and local requirements respecting devices.
13154. Postmarket surveillance.
13155. Accredited persons.
13156. Priority review to encourage treatments for tropical diseases.
13157. Priority review for qualified infectious disease products.
13158. Ensuring cybersecurity of devices.

## § 13101. Adulterated drugs and devices

(a) POISONOUS, INSANITARY, OR UNSAFE SUBSTANCES OR CONDITIONS.—

(1) DEFINITION OF CURRENT GOOD MANUFACTURING PRACTICE.—For purposes of paragraph (2)(B)(ii), the term ''current good manufacturing practice'' includes the implementation of oversight

and controls over the manufacture of drugs to ensure quality, including managing the risk of and establishing the safety of raw materials, materials used in the manufacturing of drugs, and finished drug products.

(2) IN GENERAL.—A drug or device shall be deemed to be adulterated—

(A) if it consists in whole or in part of any filthy, putrid, or decomposed substance;

(B) if—

(i) it has been prepared, packed, or held under insanitary conditions whereby—

(I) it may have been contaminated with filth; or

(II) it may have been rendered injurious to health;

(ii) it is a drug and the methods used in, or the facilities or controls used for, its manufacture, processing, packing, or holding do not conform to or are not operated or administered in conformity with current good manufacturing practice to ensure that the drug—

(I) meets the requirements of this subtitle as to safety; and

(II) has the identity and strength, and meets the quality and purity characteristics, that it purports or is represented to possess; or

(iii) it is a compounded positron emission tomography drug and the methods used in, or the facilities and controls used for, its compounding, processing, packing, or holding do not conform to or are not operated or administered in conformity with the positron emission tomography compounding standards and the official monographs of the United States Pharmacopeia to ensure that the drug—

(I) meets the requirements of this subtitle as to safety; and

(II) has the identity and strength, and meets the quality and purity characteristics, that it purports or is represented to possess;

(C) if its container is composed, in whole or in part, of any poisonous or deleterious substance that may render the contents injurious to health;

(D) if—

(i) it bears or contains, for purposes of coloring only, a color additive that is unsafe within the meaning of section 17701(a) of this title; or

(ii) it is a color additive the intended use of which in or on drugs or devices is for purposes of coloring only and is unsafe within the meaning of section 17701(a) of this title;

(E) if it is a new animal drug that is unsafe within the meaning of chapter 137 of this title; or

(F) if it is an animal feed bearing or containing a new animal drug, and the animal feed is unsafe within the meaning of chapter 137 of this title.

(b) STRENGTH, QUALITY, OR PURITY DIFFERING FROM OFFICIAL COMPENDIUM.—

(1) IN GENERAL.—A drug shall be deemed to be adulterated if it purports to be or is represented as a drug the name of which is recognized in an official compendium, and its strength differs from, or its quality or purity falls below, the standard set forth in the compendium.

(2) DETERMINATION OF STRENGTH, QUALITY, OR PURITY.—

(A) IN GENERAL.—The determination as to strength, quality, or purity shall be made in accordance with the tests or methods of assay set forth in the compendium.

(B) TESTS OR METHODS OF ASSAY NOT PRESCRIBED OR INSUFFICIENT.—If tests or methods of assay have not been prescribed in the compendium, or if the tests or methods of assay as are prescribed are, in the judgment of the Secretary, insufficient for the making of the determination, the Secretary shall bring that fact to the attention of the appropriate body charged with the revision of the compendium.

(C) PRESCRIBING TESTS OR METHODS OF ASSAY BY SECRETARY.—If the body charged with the revision of the compendium fails within a reasonable time to prescribe tests or methods of assay that, in the judgment of the Secretary, are sufficient for purposes of this subsection, then the Secretary shall promulgate regulations prescribing appropriate tests or methods of assay in accordance with which the determina-

tion as to strength, quality, or purity shall be made.

(D) EXCEPTION.—No drug defined in an official compendium shall be deemed to be adulterated under this subsection because it differs from the standard of strength, quality, or purity set forth for the drug in the compendium, if its difference in strength, quality, or purity from the standard is plainly stated on its label.

(E) REQUIREMENTS FOR DRUGS RECOGNIZED BY COMPENDIA.—If a drug is recognized in both the United States Pharmacopeia and the Homoeopathic Pharmacopoeia of the United States, the drug shall be subject to the requirements of the United States Pharmacopeia unless it is labeled and offered for sale as a homoeopathic drug, in which case the drug shall be subject to the provisions of the Homoeopathic Pharmacopoeia of the United States and not to those of the United States Pharmacopeia.

(c) MISREPRESENTATION OF STRENGTH IF DRUG IS UNRECOGNIZED IN COMPENDIUM.—A drug or device shall be deemed to be adulterated if it is not subject to the provisions of subsection (b) and its strength differs from, or

its purity or quality falls below, that which it purports or is represented to possess.

(d) MIXTURE WITH OR SUBSTITUTION OF ANOTHER SUBSTANCE.—A drug shall be deemed to be adulterated if any substance has been—

(1) mixed or packed with the drug so as to reduce its quality or strength; or

(2) substituted wholly or in part for the drug.

(e) DEVICES NOT IN CONFORMITY WITH PERFORMANCE STANDARDS.—A device shall be deemed to be adulterated—

(1) if it is, or purports to be or is represented as, a device that is subject to a performance standard established under section 13141 of this title unless the device is in all respects in conformity with the standard; or

(2) if it is declared to be, purports to be, or is represented as, a device that is in conformity with any standard recognized under section 13141(c) of this title unless the device is in all respects in conformity with the standard.

(f) CERTAIN CLASS III DEVICES.—

(1) IN GENERAL.—A device shall be deemed to be adulterated if it is a class III device—

(A)(i) that—

(I) is required by an order issued under section 13142(b) of this title to have an approval under section 13142 of this title of an application for premarket approval; and

(II) is not exempt from section 13142 of this title under section 13152(g) of this title; and

(ii) for which—

(I) an application for premarket approval or a notice of completion of a product development protocol was not filed with the Secretary within the 90-day period beginning on the date of the issuance of the order; or

(II) an application for premarket approval was filed and approval of the application has been denied, suspended, or withdrawn, or a notice of completion of a product development protocol was filed and has been declared not completed or the approval of the device under the protocol has been withdrawn;

(B) that—

(i) was classified under section 13140(h) of this title into class III, which—

(I) under section 13142(a) of this title is required to have in effect an approved application for premarket approval; and

(II) is not exempt from section 13142 of this title under section 13152(g) of this title; and

(ii) has an application that has been suspended or is otherwise not in effect; or

(C) that was classified under section 13152(l) of this title into class III, which—

(i) under that section is required to have in effect an approved application under section 13142 of this title; and

(ii) has an application that has been suspended or is otherwise not in effect.

(2) INAPPLICABILITY DURING SPECIFIED PERIOD.—

(A) DEVICE INTENDED SOLELY FOR INVESTIGATIONAL USE.—In the case of a device classified under section 13140(h) of this title into class III and intended solely for investigational use, paragraph (1)(B) shall not apply with respect to the device during the period ending on the 90th day after the date of the

promulgation of the regulations prescribing the procedures and conditions required by section 13152(g)(2) of this title.

(B) DEVICE SUBJECT TO ORDER.—In the case of a device subject to an order issued under section 13142(b) of this title, paragraph (1) shall not apply with respect to the device during the period ending on the later of—

(i) the last day of the 30th calendar month beginning after the month in which the classification of the device in class III became effective under section 13140 of this title; or

(ii) the 90th day after the date of the issuance of the order.

(C) DEVICE SUBJECT TO REGULATION PRIOR TO JULY 9, 2012.—In the case of a device with respect to which a regulation was promulgated under section 13142(b) of this title prior to July 9, 2012, a reference in this subsection to an order issued under section 13142(b) of this title shall be deemed to include the regulation.

(g) BANNED DEVICES.—A device shall be deemed to be adulterated if it is a banned device.

(h) MANUFACTURE, PACKING, STORAGE, OR INSTALLATION OF DEVICE NOT IN CONFORMITY WITH APPLICABLE REQUIREMENTS OR CONDITIONS.—A device shall be deemed to be adulterated if the methods used in, or the facilities or controls used for, its manufacture, packing, storage, or installation are not in conformity with applicable requirements under section 13152(f)(1) of this title or an applicable condition prescribed by an order under section 13152(f)(2) of this title.

(i) FAILURE TO COMPLY WITH REQUIREMENTS UNDER WHICH DEVICE WAS EXEMPTED FOR INVESTIGATIONAL USE.—A device shall be deemed to be adulterated if—

(1) it is a device for which an exemption has been granted under section 13152(g) of this title for investigational use; and

(2) the person that was granted the exemption or any investigator who uses the device under the exemption fails to comply with a requirement prescribed by or under the section.

(j) DELAYED, DENIED, OR LIMITED INSPECTION; REFUSAL TO PERMIT ENTRY OR INSPECTION.—

(1) IN GENERAL.—A drug or device shall be deemed to be adulterated if it has been manufactured, processed, packed, or held in any factory,

warehouse, or establishment and the owner, operator, or agent of the factory, warehouse, or establishment—

(A) delays, denies, or limits an inspection; or

(B) refuses to permit entry or inspection.

(2) GUIDANCE.—The Secretary shall issue guidance that defines the circumstances that would constitute delaying, denying, or limiting inspection, or refusing to permit entry or inspection, for purposes of this subsection.

**§ 13102. Exemption from labeling and packaging requirements for drugs and devices to be processed, labeled, or repacked elsewhere**

The Secretary shall promulgate regulations exempting from any labeling or packaging requirement of this subtitle drugs and devices that are, in accordance with the practice of the trade, to be processed, labeled, or repacked in substantial quantities at establishments other than those where originally processed or packed, on condition that the drugs and devices are not adulterated or misbranded under this subtitle upon removal from the processing, labeling, or repacking establishment.

**§ 13103. Prescription drugs**

(a) PRESCRIPTION REQUIRED FOR CERTAIN DRUGS.—

(1) IN GENERAL.—

(A) TYPES OF DRUGS.—A drug intended for human use shall be dispensed only on the conditions under subparagraph (B) if the drug—

(i) because of its toxicity or other potentiality for harmful effect, the method of its use, or the collateral measures necessary to its use, is not safe for use except under the supervision of a practitioner licensed by law to administer the drug; or

(ii) is limited by an approved application under chapter 135 of this title to use under the professional supervision of a practitioner licensed by law to administer the drug.

(B) CONDITIONS.—A drug described in subparagraph (A) shall be dispensed only—

(i) on a written prescription of a practitioner licensed by law to administer the drug;

(ii) on an oral prescription of the practitioner that is reduced promptly to writing and filed by the pharmacist; or

(iii) by refilling any such written or oral prescription if the refilling is authorized by the prescriber either in the original prescription or by oral order that is reduced promptly to writing and filed by the pharmacist.

(C) MISBRANDED DRUG.—The act of dispensing a drug contrary to the provisions of this paragraph shall be deemed to be an act that results in the drug being misbranded while held for sale.

(2) EXEMPTION FROM MISBRANDING PROVISIONS.—

(A) IN GENERAL.—Any drug dispensed by filling or refilling a written or oral prescription of a practitioner licensed by law to administer the drug shall be exempt from the requirements of chapter 133 of this title, except sections 13301, 13308(2), and 13308(3) of this title and the packaging requirements of sections 13306, 13307, and 13313 of this title, if the drug bears a label containing—

(i) the name and address of the dispenser;

(ii) the serial number and date of the prescription or of its filling;

(iii) the name of the prescriber, and, if stated in the prescription, the name of the patient; and

(iv) the directions for use and cautionary statements, if any, contained in the prescription.

(B) INAPPLICABILITY.—This exemption shall not apply to any drug dispensed in the course of the conduct of a business of dispensing drugs pursuant to diagnosis by mail, or to a drug dispensed in violation of paragraph (1).

(3) EXEMPTION FROM REQUIRED PRESCRIPTION.—The Secretary may by regulation exempt drugs subject to chapter 135 of this title from the requirements of paragraph (1) if the requirements are not necessary for the protection of the public health.

(4) PRESCRIPTION SYMBOL.—

(A) DRUGS THAT REQUIRE PRESCRIBING.—A drug that is subject to paragraph

(1) shall be deemed to be misbranded if, at any time prior to dispensing, the label of the drug fails to bear, at a minimum, the symbol ''Rx only''.

(B) DRUGS THAT DO NOT REQUIRE PRESCRIBING.—A drug to which paragraph (1) does not apply shall be deemed to be misbranded if, at any time prior to dispensing, the label of the drug bears the symbol described in subparagraph (A).

(b) SALES RESTRICTIONS.—

(1) DRUG SAMPLES.—

(A) DEFINITION OF DRUG SAMPLE.—In this paragraph, the term ''drug sample'' means a unit of a drug, subject to subsection (a), that—

(i) is not intended to be sold; and

(ii) is intended to promote the sale of the drug.

(B) IN GENERAL.—A person shall not sell, purchase, or trade or offer to sell, purchase, or trade any drug sample.

(C) EFFECT OF PARAGRAPH.—Nothing in this paragraph shall subject an officer or executive of a drug manufacturer or distributor to

criminal liability solely because of a sale, purchase, trade, or offer to sell, purchase, or trade in violation of this paragraph by other employees of the manufacturer or distributor.

(2) COUPONS.—

(A) DEFINITION OF COUPON.—In this paragraph, the term ''coupon'' means a form that may be redeemed, at no cost or at a reduced cost, for a drug that is prescribed in accordance with subsection (a).

(B) IN GENERAL.—A person shall not sell, purchase, or trade, offer to sell, purchase, or trade, or counterfeit any coupon.

(3) DRUGS PURCHASED BY HOSPITAL OR OTHER HEALTH CARE ENTITY.—

(A) DEFINITIONS.—In this paragraph:

(i) EMERGENCY MEDICAL REASONS.—The term ''emergency medical reasons'' includes transfers of a drug between health care entities or from a health care entity to a retail pharmacy undertaken to alleviate temporary shortages of the drug arising from delays in or interruptions of regular distribution schedules.

(ii) ENTITY.—The term ''entity'' does not include a wholesale distributor of drugs or a retail pharmacy licensed under State law.

(B) IN GENERAL.—A person shall not sell, purchase, or trade, or offer to sell, purchase, or trade, any drug—

(i) that is subject to subsection (a); and

(ii) that—

(I) was purchased by a public or private hospital or other health care entity; or

(II) was donated or supplied at a reduced price to a charitable organization described in section 501(c)(3) of the Internal Revenue Code of 1986 (26 U.S.C. 501(c)(3)).

(C) INAPPLICABILITY.—Subparagraph (B) does not apply to—

(i) the purchase or other acquisition by a hospital or other health care entity that is a member of a group purchasing organization of a drug for its own use from the group purchasing organization or from

other hospitals or health care entities that are members of the organization;

(ii) the sale, purchase, or trade of a drug or an offer to sell, purchase, or trade a drug by an organization described in subparagraph (B)(ii)(II) to a nonprofit affiliate of the organization to the extent otherwise permitted by law;

(iii) a sale, purchase, or trade of a drug or an offer to sell, purchase, or trade a drug among hospitals or other health care entities that are under common control;

(iv) a sale, purchase, or trade of a drug or an offer to sell, purchase, or trade a drug for emergency medical reasons; or

(v) a sale, purchase, or trade of a drug, an offer to sell, purchase, or trade a drug, or the dispensing of a drug pursuant to a prescription executed in accordance with subsection (a).

(c) DISTRIBUTION OF DRUG SAMPLES.—

(1) DEFINITIONS.—In this subsection:

(A) AUTHORIZED DISTRIBUTORS OF RECORD.—The term ''authorized distributors of

record'' means those distributors with whom a manufacturer has established an ongoing relationship to distribute the manufacturer's products.

(B) DISTRIBUTE.—The term ''distribute'' does not include the providing of a drug sample to a patient by a—

(i) practitioner licensed to prescribe the drug;

(ii) health care professional acting at the direction and under the supervision of such a practitioner; or

(iii) pharmacy of a hospital or of another health care entity that is acting at the direction of such a practitioner and that received the sample pursuant to paragraph (3) or (4).

(C) DRUG SAMPLE.—The term ''drug sample'' has the meaning given the term in subsection (b).

(D) WHOLESALE DISTRIBUTION.—The term ''wholesale distribution'' has the meaning given the term in subsection (d).

(2) IN GENERAL.—Except as provided in paragraphs (3) and (4), a person shall not distribute any drug sample.

(3) CONDITIONS FOR DISTRIBUTION BY MAIL OR COMMON CARRIER.—

(A) IN GENERAL.—

(i) AUTHORIZED RECIPIENTS.—The manufacturer or authorized distributor of record of a drug subject to subsection (a) may, in accordance with this paragraph, distribute drug samples by mail or common carrier to practitioners licensed to prescribe the drugs or, at the request of a licensed practitioner, to pharmacies of hospitals or other health care entities.

(ii) MANNER.—Any distribution of drug samples under clause (i) may be made only—

(I) in response to a written request for drug samples made on a form that meets the requirements of subparagraph (B); and

(II) under a system that requires the recipient of the drug sample to execute a written receipt for the drug

sample on its delivery and the return of the receipt to the manufacturer or authorized distributor of record.

(B) WRITTEN REQUESTS.—A written request for a drug sample required by subparagraph (A)(ii)(I) shall contain—

(i) the name, address, professional designation, and signature of the practitioner making the request;

(ii) the identity of the drug sample requested and the quantity requested;

(iii) the name of the manufacturer of the drug sample requested; and

(iv) the date of the request.

(C) MAINTENANCE OF RECORD.—

(i) IN GENERAL.—Each drug manufacturer or authorized distributor of record that makes distributions by mail or common carrier under this paragraph shall—

(I) maintain, for a period of 3 years—

(aa) the request forms submitted for the distributions; and

(bb) the receipts submitted for the distributions; and

(II) maintain a record of distributions of drug samples that identifies the drugs distributed and the recipients of the distributions.

(ii) AVAILABILITY TO FEDERAL AND STATE OFFICIALS.—Forms, receipts, and records required to be maintained under this subparagraph shall be made available by the drug manufacturer or authorized distributor of record to Federal and State officials engaged in the regulation of drugs and in the enforcement of laws applicable to drugs.

(4) CONDITIONS FOR DISTRIBUTION OTHER THAN BY MAIL OR COMMON CARRIER.—

(A) IN GENERAL.—

(i) CONDITIONS.—The manufacturer or authorized distributor of record of a drug subject to subsection (a) may, by means other than mail or common carrier, distribute drug samples only if the manufacturer or authorized distributor of record makes the distributions in accordance with clause (ii) and carries out the activities described in subparagraphs (B) through (F).

(ii) AUTHORIZED RECIPIENTS.—

(I) IN GENERAL.—Drug samples may be distributed only—

(aa) to practitioners licensed to prescribe the drugs if they make a written request for the drug samples; or

(bb) at the written request of such a licensed practitioner, to pharmacies of hospitals or other health care entities.

(II) WRITTEN REQUESTS.—A written request for drug samples under subclause (I) shall be made on a form that contains—

(aa) the practitioner's name, address, and professional designation;

(bb) the identity of the drug sample requested;

(cc) the quantity of drug samples requested;

(dd) the name of the manufacturer or authorized distributor of record of the drug sample;

(ee) the date of the request; and

(ff) the signature of the practitioner making the request.

(B) STORAGE CONDITIONS.—Drug manufacturers or authorized distributors of record shall store drug samples under conditions that will maintain their stability, integrity, and effectiveness and will ensure that the drug samples will be free of contamination, deterioration, and adulteration.

(C) RECORDKEEPING.—

(i) INVENTORY.—Drug manufacturers or authorized distributors of record shall conduct, at least annually, a complete and accurate inventory of all drug samples in the possession of representatives of the manufacturer or authorized distributor of record.

(ii) LIST OF REPRESENTATIVES.—Drug manufacturers or authorized distributors of record shall maintain lists of the names and address of each of their representatives who distribute drug sam-

ples and of the sites where drug samples are stored.

(iii) MAINTENANCE OF RECORDS.—Drug manufacturers or authorized distributors of record shall maintain records for at least 3 years of—

(I) all drug samples distributed, destroyed, or returned to the manufacturer or authorized distributor of record;

(II) all inventories maintained under this subparagraph;

(III) all thefts or significant losses of drug samples; and

(IV) all requests made under subparagraph (A) for drug samples.

(iv) AVAILABILITY.—Records and lists maintained under this subparagraph shall be made available by the drug manufacturer or authorized distributor of record to the Secretary upon request.

(D) NOTIFICATION OF LOSS OR THEFT.—Drug manufacturers or authorized distributors of record shall notify the Secretary of any sig-

nificant loss of drug samples and any known theft of drug samples.

(E) REPORTING OF CONVICTION OF REPRESENTATIVE.—Drug manufacturers or authorized distributors of record shall report to the Secretary any conviction of their representatives for violations of subsection (b)(1) or a State law because of the sale, purchase, or trade of a drug sample or the offer to sell, purchase, or trade a drug sample.

(F) CONTACT INFORMATION.—Drug manufacturers or authorized distributors of record shall provide to the Secretary the name and telephone number of the individual responsible for responding to a request for information respecting drug samples.

(d) WHOLESALE DISTRIBUTION.—

(1) DEFINITIONS.—In this subsection:

(A) AFFILIATE.—The term ''affiliate'' means a business entity that has a relationship with a second business entity if, directly or indirectly—

(i) 1 business entity controls, or has the power to control, the other business entity; or

(ii) a third party controls, or has the power to control, both of the business entities.

(B) WHOLESALE DISTRIBUTION.—

(i) IN GENERAL.—The term ''wholesale distribution'' means the distribution of a drug subject to subsection (a) to a person other than a consumer or patient, or receipt of a drug subject to subsection (a) by a person other than the consumer or patient.

(ii) EXCLUSIONS.—The term ''wholesale distribution'' does not include—

(I) intracompany distribution of any drug between members of an affiliate or within a manufacturer;

(II) the distribution of a drug or an offer to distribute a drug among hospitals or other health care entities that are under common control;

(III) the distribution of a drug or an offer to distribute a drug for emergency medical reasons, including a public health emergency declaration pursuant to section 319 of the Public

Health Service Act (42 U.S.C. 247d), except that, for purposes of this subparagraph, a drug shortage not caused by a public health emergency shall not constitute an emergency medical reason;

(IV) the dispensing of a drug pursuant to a prescription executed in accordance with subsection (a)(1);

(V) the distribution of minimal quantities of a drug by a licensed retail pharmacy to a licensed practitioner for office use;

(VI) the distribution of a drug or an offer to distribute a drug by a charitable organization to a nonprofit affiliate of the organization to the extent otherwise permitted by law;

(VII) the purchase or other acquisition by a dispenser, hospital, or other health care entity of a drug for use by the dispenser, hospital, or other health care entity;

(VIII) the distribution of a drug by the manufacturer of the drug;

(IX) the receipt or transfer of a drug by an authorized third-party logistics provider provided that the third-party logistics provider does not take ownership of the drug;

(X) the transportation, by a common carrier, of a drug, provided that the common carrier does not take ownership of the drug;

(XI) the distribution of a drug or an offer to distribute a drug by an authorized repackager that has taken ownership or possession of the drug and repacks it in accordance with section 14902(e) of this title;

(XII) salable drug returns when conducted by a dispenser;

(XIII) the distribution of a collection of finished medical devices, which may include a product or biological product, assembled in kit form strictly for the convenience of the purchaser or user (referred to in this subclause as a ''medical convenience kit'') if—

(aa) the medical convenience kit is assembled in an establishment that is registered with the FDA as a device manufacturer in accordance with section 13136(b)(2) of this title;

(bb) the medical convenience kit does not contain a controlled substance that appears in a schedule contained in division A of subtitle V of this title;

(cc) in the case of a medical convenience kit that includes a product, the person that manufactures the kit—

(AA) purchased the product directly from the pharmaceutical manufacturer or from a wholesale distributor that purchased the product directly from the pharmaceutical manufacturer; and

(BB) does not alter the primary container or label of

the product as purchased from the manufacturer or wholesale distributor; and

(dd) in the case of a medical convenience kit that includes a product, the product is—

(AA) an intravenous solution intended for the replenishment of fluids and electrolytes;

(BB) a product intended to maintain the equilibrium of water and minerals in the body;

(CC) a product intended for irrigation or reconstitution;

(DD) an anesthetic;

(EE) an anticoagulant;

(FF) a vasopressor; or

(GG) a sympathomimetic;

(XIV) the distribution of an intravenous drug that, by its formulation, is intended for the replenishment

of fluids and electrolytes (such as sodium, chloride, and potassium) or calories (such as dextrose and amino acids);

(XV) the distribution of an intravenous drug used to maintain the equilibrium of water and minerals in the body, such as dialysis solutions;

(XVI) the distribution of a drug that is intended for irrigation, or sterile water, whether intended for those purposes or for injection;

(XVII) the distribution of medical gas, as defined in section 14701 of this title;

(XVIII) the facilitation of the distribution of a product by providing solely administrative services, including processing of orders and payments; or

(XIX) the transfer of a product by a hospital or other health care entity, or by a wholesale distributor or manufacturer operating at the direction of the hospital or other health

care entity, to a repackager described in section 14901(16)(B) of this title and registered under section 13136 of this title for the purpose of repackaging the drug for use by that hospital, or other health care entity and other health care entities that are under common control, if ownership of the drug remains with the hospital or other health care entity at all times.

(2) REQUIRED LICENSURE.—Subject to section 14903 of this title:

(A) IN GENERAL.—A person shall not engage in wholesale distribution of a drug subject to subsection (a)(1) in any State unless the person—

(i) is—

(I) licensed by the State from which the drug is distributed; or

(II) if the State from which the drug is distributed has not established a licensure requirement, licensed by the Secretary; and

(ii) if the drug is distributed interstate, is licensed by the State into which

the drug is distributed if the State into which the drug is distributed requires the licensure of a person that distributes drugs into the State.

(B) STANDARDS.—Each Federal and State license described in subparagraph (A) shall meet the standards, terms, and conditions established by the Secretary under section 14903 of this title.

(3) REPORTING AND DATABASE.—

(A) REPORTING.—Any person that owns or operates an establishment that engages in wholesale distribution shall—

(i) report to the Secretary, on an annual basis pursuant to a schedule determined by the Secretary—

(I) each State by which the person is licensed and the appropriate identification number of each such license; and

(II) the name, address, and contact information of each facility at which, and all trade names under which, the person conducts business; and

(ii) report to the Secretary within a reasonable period of time and in a reasonable manner, as determined by the Secretary, any significant disciplinary actions, such as the revocation or suspension of a wholesale distributor license, taken by a State or the Federal Government during the reporting period against the wholesale distributor.

(B) DATABASE.—The Secretary shall establish a database of authorized wholesale distributors. The database shall—

(i) identify each authorized wholesale distributor by name, contact information, and each State where the wholesale distributor is appropriately licensed to engage in wholesale distribution;

(ii) be available to the public on the FDA website; and

(iii) be regularly updated on a schedule determined by the Secretary.

(C) COORDINATION.—The Secretary shall establish a format and procedure for appropriate State officials to access the information

provided pursuant to subparagraph (A) in a prompt and secure manner.

(D) CONFIDENTIALITY.—Nothing in this paragraph shall be construed as authorizing the Secretary to disclose any information that is a trade secret or confidential information subject to section 552(b)(4) of title 5 or section 1905 of title 18.

(4) LICENSING BY SECRETARY.—

(A) AUTHORIZED FEES OF SECRETARY.—If a State does not establish a licensing program for persons engaged in the wholesale distribution of a drug subject to subsection (a), the Secretary—

(i) shall license a person engaged in wholesale distribution located in the State; and

(ii) may collect a reasonable fee in the amount necessary to reimburse the Secretary for costs associated with establishing and administering the licensure program and conducting periodic inspections under this section.

(B) ADJUSTMENT OF FEES.—The Secretary shall adjust fee rates as needed on an

annual basis to generate only the amount of revenue needed to perform this service.

(C) LIMITATION ON COLLECTION AND AVAILABILITY.—Fees authorized under this paragraph shall be collected and available for obligation only to the extent and in the amount provided in advance in appropriations Acts.

(D) AVAILABLE UNTIL EXPENDED.—Fees authorized under this paragraph are authorized to remain available until expended.

(E) TRANSFER OF SUMS TO ACCOUNT WITHOUT FISCAL YEAR LIMITATION.—Such sums as may be necessary may be transferred from the FDA salaries and expenses appropriation account without fiscal year limitation to the appropriation account for salaries and expenses with fiscal year limitation.

(F) STATE LICENSING FEES.—Nothing in this subtitle shall prohibit States from collecting fees from wholesale distributors in connection with State licensing of the distributors.

(5) THIRD-PARTY LOGISTICS PROVIDERS.—Notwithstanding paragraphs (1)(B), (2), (3), and (4), each entity that meets the definition of a third-party logistics provider under section 14901(22) of this

title shall obtain a license as a third-party logistics provider as described in section 14904(a) of this title and is not required to obtain a license as a wholesale distributor if the entity never assumes an ownership interest in the product it handles.

(e) VETERINARY PRESCRIPTION DRUGS.—

(1) PRESCRIPTION REQUIRED FOR CERTAIN DRUGS INTENDED FOR ANIMALS.—

(A) IN GENERAL.—

(i) TYPES OF DRUGS.—A drug intended for use by animals other than humans (other than a veterinary feed directive drug intended for use in animal feed or an animal feed bearing or containing a veterinary feed directive drug) shall be dispensed only on the condition under clause (ii) if it is a drug that—

(I) because of its toxicity or other potentiality for harmful effect, or the method of its use, or the collateral measures necessary for its use, is not safe for animal use except under the professional supervision of a licensed veterinarian; or

(II) is limited by an approved application under section 13703 of this title, a conditionally approved application under section 14502 of this title, or an index listing under section 14503 of this title to use under the professional supervision of a licensed veterinarian.

(ii) CONDITION.—A drug described in clause (i) shall be dispensed only by or on the lawful written or oral order of a licensed veterinarian in the course of the veterinarian's professional practice.

(B) ORDER.—For purposes of subparagraph (A), an order is lawful if the order—

(i) is a prescription or other order authorized by law;

(ii) is, if an oral order, promptly reduced to writing by the person lawfully filling the order, and filed by that person; and

(iii) is refilled only if authorized in the original order or in a subsequent oral order promptly reduced to writing by the person lawfully filling the order, and filed by that person.

(C) MISBRANDED DRUG.—The act of dispensing a drug contrary to the provisions of this paragraph shall be deemed to be an act that results in the drug being misbranded while held for sale.

(2) EXEMPTION FROM MISBRANDING PROVISIONS.—

(A) IN GENERAL.—Any drug when dispensed in accordance with paragraph (1)—

(i) shall be exempt from the requirements of chapter 133 of this title, except sections 13301, 13306, 13307, 13308(2), 13308(3), and 13313 of this title; and

(ii) shall be exempt from the packaging requirements of section 13306, 13307, and 13313 of this title, if—

(I) when dispensed by a licensed veterinarian, the drug bears a label containing—

(aa) the name and address of the practitioner; and

(bb) any directions for use and cautionary statements specified by the practitioner; or

(II) when dispensed by filling the lawful order of a licensed veterinarian, the drug bears a label containing—

(aa) the name and address of the dispenser;

(bb) the serial number and date of the order or of its filling;

(cc) the name of the licensed veterinarian; and

(dd) the directions for use and cautionary statements, if any, contained in the order.

(B) INAPPLICABILITY.—Subparagraph (A) shall not apply to any drug dispensed in the course of the conduct of a business of dispensing drugs pursuant to diagnosis by mail.

(3) EXEMPTION FROM REQUIRED ORDER.—The Secretary may by regulation exempt drugs for animals other than humans subject to chapter 137 of this title or section 14502 or 14503 of this title from the requirements of paragraph (1) if the requirements are not necessary for the protection of the public health.

(4) CAUTIONARY STATEMENT.—

(A) DRUGS THAT REQUIRE AN ORDER FROM VETERINARIAN.—A drug that is subject to paragraph (1) shall be deemed to be misbranded if, at any time prior to dispensing, its label fails to bear the statement ''Caution: Federal law restricts this drug to use by or on the order of a licensed veterinarian.''.

(B) DRUGS THAT DO NOT REQUIRE AN ORDER FROM VETERINARIAN.—A drug to which paragraph (1) does not apply shall be deemed to be misbranded if, at any time prior to dispensing, its label bears the statement specified in subparagraph (A).

**§ 13104. Combination products**

(a) DEFINITIONS.—In this section:

(1) AGENCY CENTER.—The term ''agency center'' means a center or alternative organizational component of the FDA.

(2) BIOLOGICAL PRODUCT.—The term ''biological product'' has the meaning given the term in section 351(i) of the Public Health Service Act (42 U.S.C. 262(i)).

(3) MARKET CLEARANCE.—The term ''market clearance'' includes—

(A) approval of an application under chapter 135 of this title or section 13142 or 13152(g) of this title;

(B) a finding of substantial equivalence under this chapter;

(C) approval of a biologics license application under section 351(a) of the Public Health Service Act (42 U.S.C. 262); and

(D) de novo classification under section 13140(c)(1) of this title.

(4) PREMARKET REVIEW; REVIEW.—The terms ''premarket review'' and ''review'' include all activities of the FDA conducted prior to approval or clearance of an application, notification, or request for classification submitted under chapter 135 of this title, section 13136(k), 13140(h)(2), 13142, or 13152 of this title, or section 351 of the Public Health Service Act (42 U.S.C. 262), including with respect to investigational use of the product.

(5) PRIMARY MODE OF ACTION.—The term ''primary mode of action'' means the single mode of action of a combination product expected to make the greatest contribution to the overall intended therapeutic effects of the combination product.

(b) PRIMARY AGENCY CENTER.—The Secretary shall, in accordance with this section, assign a primary agency center to regulate products that constitute a combination of a drug, device, or biological product.

(c) PREMARKET REVIEW.—The Secretary shall conduct the premarket review of any combination product under a single application, whenever appropriate.

(d) DETERMINATION OF PRIMARY MODE OF ACTION.—

(1) IN GENERAL.—The Secretary shall determine the primary mode of action of the combination product.

(2) AGENCY CENTER WITH JURISDICTION BASED ON DETERMINATION.—If the Secretary determines that the primary mode of action is that of—

(A) a drug (other than a biological product), the agency center charged with premarket review of drugs shall have primary jurisdiction;

(B) a device, the agency center charged with premarket review of devices shall have primary jurisdiction; or

(C) a biological product, the agency center charged with premarket review of biological products shall have primary jurisdiction.

(3) COMBINATION PRODUCT THAT HAS CHEMICAL ACTION ON HUMAN BODY.—In determining the primary mode of action of a combination product, the Secretary shall not determine that the primary mode of action is that of a drug or biological product solely because the combination product has any chemical action in or on the human body.

(e) DISAGREEMENT BY SPONSOR.—

(1) REQUEST FOR SUBSTANTIVE RATIONALE; PROPOSAL OF STUDIES.—If a sponsor of a combination product disagrees with the determination under subsection (d)—

(A) the sponsor may request, and the Secretary shall provide to the sponsor, a substantive rationale that references scientific evidence provided by the sponsor and any other scientific evidence relied on by the Secretary to support the determination; and

(B) the sponsor of the combination product may propose 1 or more studies (which may be nonclinical, clinical, or both) to establish the relevance, if any, of the chemical action in achieving the primary mode of action of the product.

(2) COLLABORATION AND AGREEMENT ON DESIGN OF STUDIES.—If the sponsor proposes any study described in paragraph (1)(B), the Secretary and the sponsor of the combination product shall collaborate and seek to reach agreement, within a reasonable time of the proposal, not to exceed 90 calendar days, on the design of the studies.

(3) CONSIDERATION OF DATA FROM STUDIES.—If an agreement is reached under paragraph (2) and the sponsor conducts 1 or more of the studies under paragraph (1)(B), the Secretary shall consider the data resulting from the studies when reevaluating the determination of the primary mode of action of the combination product, and until the reevaluation occurs and the Secretary issues a new determination, the determination of the Secretary under subsection (d) shall remain in effect.

(f) MEETING REQUESTED BY SPONSOR.—

(1) IN GENERAL.—To establish clarity and certainty for the sponsor, the sponsor of a combination product may request a meeting on the combination product.

(2) IF MAKING A DETERMINATION IS NECESSARY.—If the Secretary concludes that a determination of the primary mode of action pursuant to

subsection (d) is necessary, the sponsor may request the meeting only after the Secretary makes the determination.

(3) IF SPONSOR SUBMITS A WRITTEN MEETING REQUEST.—If the sponsor submits a written meeting request, the Secretary shall, not later than 75 calendar days after receiving the request, meet with the sponsor of the combination product.

(4) ISSUES FOR DISCUSSION.—A meeting under this subsection may—

(A) address the standards and requirements for market approval or clearance of the combination product;

(B) address other issues relevant to the combination product, such as requirements related to postmarket modification of the combination product and good manufacturing practices applicable to the combination product; and

(C) identify elements under subparagraphs (A) and (B) that may be more appropriate for discussion and agreement with the Secretary at a later date given that scientific or other information is not available, or agreement is otherwise not feasible regarding the elements, at the time a request for the meeting is made.

(5) AGREEMENT REQUIRED TO BE IN WRITING AND PART OF RECORD.—Any agreement under this subsection shall be in writing and made part of the administrative record by the Secretary.

(6) EFFECTIVE PERIOD OF AGREEMENT.—Any agreement under this subsection shall remain in effect, except—

(A) on the written agreement of the Secretary and the sponsor or applicant; or

(B) pursuant to a decision by the director of the reviewing division of the primary agency center, or a person more senior than the director, in consultation with consulting centers and the Office, as appropriate, that—

(i) an issue essential to determining whether the standard for market clearance or other applicable standard under this subtitle or the Public Health Service Act (42 U.S.C. 201 et seq.) applicable to the combination product has been identified since the agreement was reached; or

(ii) deviating from the agreement is otherwise justifiable based on scientific evidence, for public health reasons.

(g) PREMARKET REVIEW.—

(1) DEFINITION OF APPROVED DRUG.—In this subsection, the term ''approved drug'' means an active ingredient—

(A) that was in an application previously approved under section 13504 of this title, which application is relied on by the applicant submitting the application or request described in paragraph (4);

(B) for which full reports of investigations that have been made to show whether the drug is safe for use and whether the drug is effective in use were not conducted by or for the applicant submitting the application or request described in paragraph (4); and

(C) for which the applicant submitting the application or request described in paragraph (4) has not obtained a right of reference or use from the person by or for whom the investigations described in subparagraph (B) were conducted.

(2) IN GENERAL.—For purposes of conducting the premarket review of a combination product that contains an approved constituent part described in paragraph (3), the Secretary may require that the sponsor of the combination product submit to the

Secretary only data or information that the Secretary determines is necessary to meet the standard for clearance or approval, as applicable, under this subtitle or the Public Health Service Act (42 U.S.C. 201 et seq.), including any incremental risks and benefits posed by the combination product, using a risk-based approach and taking into account any prior finding of safety and effectiveness or substantial equivalence for the approved constituent part relied on by the applicant in accordance with paragraphs (1), (4), (5), and (6).

(3) APPROVED CONSTITUENT PART.—For purposes of paragraph (2), an approved constituent part is—

(A) a drug constituent part of a combination product being reviewed in a single application or request under section 13136(k), 13140(h)(2), or 13142 of this title (submitted in accordance with paragraphs (1), (4), (5), and (6)), that is an approved drug, provided the application or request complies with paragraphs (1), (4), (5), and (6);

(B) a device constituent part approved under section 13142 of this title that is referenced by the sponsor and that is available for

use by the Secretary under section 13152(h)(4) of this title; or

(C) any constituent part that was previously approved, cleared, or classified under chapter 135 of this title or section 13136(k), 13140(h)(2), or 13142 of this title for which the sponsor has a right of reference or any constituent part that is a nonprescription drug, as defined in section 18901(a)(2) of this title.

(4) APPLICATION REQUIREMENTS.—If an application is submitted under section 13136(k) or 13142 of this title or a request is submitted under section 13140(h)(2) of this title, consistent with any determination made under subsection (d), for a combination product containing as a constituent part an approved drug—

(A) the application or request shall include the certification or statement described in section 13503(b) of this title; and

(B) the applicant or requester shall provide notice as described in section 13503(c) of this title.

(5) APPLICABLE PROVISIONS.—The following provisions shall apply with respect to an application or request described in paragraph (4) to the same

extent and in the same manner as if the application or request were an application described in section 13503(b) of this title that referenced the approved drug:

(A) Paragraphs (1), (2), (3), and (4) of section 13504(c) of this title.

(B) Subparagraphs (A), (B) and (C) of section 13504(c)(5) of this title.

(C) Subsections (b) and (c) of section 13112 of this title.

(D) Section 13116(b) of this title.

(E) Section 13903(a) of this title.

(6) PATENT INFRINGEMENT IMPLICATIONS.—Notwithstanding any other provision of this section, an application or request for classification for a combination product described in paragraph (4) shall be considered an application submitted under section 13503(b) of this title for purposes of section 271(e)(2)(A) of title 35.

(h) SEPARATE APPLICATIONS FOR CONSTITUENT PARTS.—Nothing in this section shall be construed as prohibiting a sponsor from submitting separate applications for the constituent parts of a combination product, unless the Secretary determines that a single application is necessary.

(i) USE OF AGENCY RESOURCES.—Nothing in this section shall prevent the Secretary from using any agency resources of the FDA necessary to ensure adequate review of the safety, effectiveness, or substantial equivalence of an article.

(j) OFFICE RELATING TO COMBINATION PRODUCTS.—

(1) DEFINITION OF OFFICE.—In this subsection, the term ''Office'' means the office established under paragraph (2).

(2) ESTABLISHMENT.—The Secretary shall establish in the Office of the Commissioner of Food and Drugs an office to ensure—

(A) the prompt assignment of combination products to agency centers;

(B) the timely and effective premarket review of the combination products; and

(C) consistent and appropriate postmarket regulation of like products subject to the same statutory requirements to the extent permitted by law.

(3) CONSULTATION.—The Office shall, in determining whether a product is to be designated a combination product, consult with the component in the

Office of the Commissioner of Food and Drugs that is responsible for the determinations.

(4) EXPERTISE.—The Office shall have appropriate scientific and medical expertise.

(5) HEAD.—The Office shall be headed by a director.

(6) DUTIES RELATING TO PREMARKET REVIEW.—

(A) ASSIGNMENT OF AGENCY CENTER.—In carrying out this section, the Office shall, for each combination product, promptly assign an agency center with primary jurisdiction in accordance with subsections (b), (c), (d), and (e) for the premarket review of the combination product.

(B) ENSURING TIMELY AND EFFECTIVE REVIEW.—

(i) IN GENERAL.—In carrying out this section, the Office shall help to ensure timely and effective premarket review that involves more than 1 agency center by—

(I) coordinating the reviews;

(II) overseeing the timeliness of the reviews; and

(III) overseeing the alignment of feedback regarding the reviews.

(ii) TIMELINESS AND ALIGNMENT.—To ensure the timeliness and alignment of the premarket review of a combination product, the agency center with primary jurisdiction for the product, and the consulting agency center, shall be responsible to the Office with respect to the timeliness and alignment of the premarket review.

(C) COMMUNICATIONS.—

(i) DESIGNATED PERSONS AS POINTS OF CONTACT FOR SPONSORS.—The Office shall ensure that, with respect to a combination product, a designated person (or persons) in the primary agency center is the primary point (or points) of contact for the sponsor of the combination product.

(ii) CONSULTING CENTER.—The Office shall also coordinate communications to and from any consulting center involved in the premarket review, if requested by the primary agency center or any such consulting center.

(iii) COMMUNICATION FROM PRIMARY AGENCY CENTER AS COMMUNICATION FROM SECRETARY.—Agency communications and commitments, to the extent consistent with other provisions of law and the requirements of all affected agency centers, from the primary agency center shall be considered as communication from the Secretary on behalf of all agency centers involved in the review.

(D) MANAGEMENT OF PREMARKET REVIEWS.—The Office shall, with respect to the premarket review of a combination product—

(i) ensure that any meeting between the Secretary and the sponsor of the combination product is attended by each agency center involved in the review, as appropriate;

(ii) ensure that each consulting agency center has completed its premarket review and provided the results of the review to the primary agency center in a timely manner; and

(iii) ensure that each consulting center follows the guidance described in sub-

section (k) and advises, as appropriate, on other relevant regulations, guidances, and policies.

(7) SPONSOR ACTIONS.—In seeking agency action with respect to a combination product, the sponsor of the combination product—

(A) shall identify the product as a combination product; and

(B) may request in writing the participation of representatives of the Office in meetings related to the combination product, or to have the Office otherwise engage on the regulatory matters concerning the combination product.

(8) ENSURING CONSISTENCY AND APPROPRIATENESS OF POSTMARKET REGULATION.—In carrying out this section, the Office shall ensure the consistency and appropriateness of postmarket regulation of like products subject to the same statutory requirements to the extent permitted by law.

(9) DISPUTES.—

(A) TIMELINESS OF PREMARKET REVIEW.—Any dispute regarding the timeliness of the premarket review of a combination product may be presented to the Office for resolution, unless the dispute is clearly premature.

(B) SUBSTANCE OF PREMARKET REVIEW.—During the review process, any dispute regarding the substance of the premarket review may be presented to the Commissioner after first being considered by the agency center with primary jurisdiction of the premarket review, under the scientific dispute resolution procedures for the agency center. The Commissioner shall consult with the Director of the Office in resolving the substantive dispute.

(10) REVIEW OF AGREEMENT, GUIDANCE, OR PRACTICE.—

(A) IN GENERAL.—The Secretary, acting through the Office, shall review each agreement, guidance, or practice of the Secretary that is specific to the assignment of combination products to agency centers and shall determine whether the agreement, guidance, or practice is consistent with the requirements of this section.

(B) CONSULTATION WITH STAKEHOLDERS AND DIRECTORS OF AGENCY CENTERS.—In carrying out the review under subparagraph (A), the Secretary shall consult with stakeholders and the directors of the agency centers.

(C) DETERMINATION AND PUBLICATION BY SECRETARY.—After the consultation under subparagraph (B), the Secretary shall—

(i) determine whether to continue in effect, modify, revise, or eliminate the agreement, guidance, or practice; and

(ii) publish in the Federal Register a notice of the availability of the modified or revised agreement, guidance or practice.

(D) EFFECT OF SUBSECTION.—Nothing in this subsection shall be construed as preventing the Secretary from following each agreement, guidance, or practice until continued, modified, revised, or eliminated.

(11) EFFECT ON REGULATORY AUTHORITY OF AGENCY CENTER.—Nothing in this subsection shall be construed to limit the regulatory authority of any agency center.

(k) GUIDANCE RELATING TO PRESUBMISSION INTERACTIONS.—Not later than 4 years after December 13, 2016, the Secretary shall issue a final guidance that describes—

(1) the structured process for managing pre-submission interactions with sponsors developing combination products;

(2) the best practices for ensuring that the feedback in the presubmission interactions represents the Agency's best advice based on the information provided during the presubmission interactions; and

(3) the information that is required to be submitted with a meeting request under subsection (f), how the meetings relate to other types of meetings in the FDA, and the form and content of any agreement reached through a meeting under subsection (f).

(l) REPORT.—

(1) IN GENERAL.—The Secretary shall annually report to the appropriate committees of Congress on the activities and impact of the Office.

(2) INCLUSIONS.—The report shall include provisions—

(A) describing the numbers and types of combination products under review and the timeliness in days of the assignments, reviews, and dispute resolutions;

(B) identifying the number of premarket reviews of the products that involved a consulting agency center;

(C) describing improvements in the consistency of postmarket regulation of combination products; and

(D) identifying the percentage of combination products for which a dispute resolution, with respect to premarket review, was requested by the combination product's sponsor.

**§ 13105. Regulation of certain products as drugs**

(a) DEFINITIONS.—In this section:

(1) CONTRAST AGENT.—The term ''contrast agent'' means an article that is intended for use in conjunction with a medical imaging device, and—

(A) is a diagnostic radiopharmaceutical, as defined in sections 315.2 and 601.31 of title 21, Code of Federal Regulations (or any successor regulations); or

(B) is a diagnostic agent that improves the visualization of structure or function within the body by increasing the relative difference in signal intensity within the target tissue, structure, or fluid.

(2) RADIOACTIVE DRUG.—The term ''radioactive drug'' has the meaning given the term in section 310.3(n) of title 21, Code of Federal Regula-

tions (or any successor regulations), except that the term does not include—

(A) an implant or article similar to an implant;

(B) an article that applies radiation from outside of the body; or

(C) the radiation source of an article described in subparagraph (A) or (B).

(3) OTC MONOGRAPH DRUG .—The term ''OTC monograph drug'' has the meaning given the term in section 17976 of this title.

(b) DEEMED TO BE A DRUG.—Any contrast agent, radioactive drug, or OTC monograph drug shall be deemed to be a drug under section 10101(a)(18) of this title and not a device under section 10101(a)(16) of this title.

(c) CONSTRUCTION.—Unless another provision of this subtitle otherwise indicates a different classification, nothing in this section shall be construed as allowing for the classification of a product as a drug (as defined in section 10101(a)(18) of this title) if the product—

(1) is not described in subsection (b); and

(2) meets the definition of a device under section 10101(a)(16) of this title.

(d) FEE WAIVER.—The Secretary shall waive the application fee under sections 17907 and 17952 of this title for applications for drugs that are—

(1) on September 30, 2022, legally marketed as devices; and

(2) deemed drugs pursuant to subsection (b).

**§ 13106. Pharmacy compounding**

(a) DEFINITION OF COMPOUNDING.—In this section, the term ''compounding'' does not include mixing, reconstituting, or other such acts that are performed in accordance with directions contained in approved labeling provided by the product's manufacturer and other manufacturer directions consistent with that labeling.

(b) IN GENERAL.—Chapter 135 of this title and sections 13101(a)(2)(B)(ii) and 13305(a)(1) of this title shall not apply to a drug product—

(1) if the drug product is compounded for an identified individual patient based on the receipt of a valid prescription order or a notation, approved by the prescribing practitioner, on the prescription order that a compounded product is necessary for the identified patient;

(2) if the drug product meets the requirements of this section; and

(3) if the compounding—

(A) on the prescription order for the individual patient made by a licensed physician or other licensed practitioner authorized by State law to prescribe drugs, is by a licensed pharmacist in a State-licensed pharmacy or a Federal facility or a licensed physician; or

(B)(i) is by a licensed pharmacist or licensed physician in limited quantities before the receipt of a valid prescription order for the individual patient; and

(ii) is based on a history of the licensed pharmacist or licensed physician receiving valid prescription orders for the compounding of the drug product, which orders have been generated solely within an established relationship between—

(I) the licensed pharmacist or licensed physician; and

(II)(aa) the individual patient for whom the prescription order will be provided; or

(bb) the physician or other licensed practitioner who will write the prescription order.

(c) COMPOUNDED DRUG.—

(1) LICENSED PHARMACIST AND LICENSED PHYSICIAN.—A drug product may be compounded

under subsection (b) if the licensed pharmacist or licensed physician—

(A) compounds the drug product using bulk drug substances (as defined in regulations of the Secretary published at section 207.3(a)(4) of title 21, Code of Federal Regulations)—

(i) that—

(I) comply with the standards of—

(aa) an applicable United States Pharmacopeia or National Formulary monograph, if a monograph exists; and

(bb) the United States Pharmacopeia chapter on pharmacy compounding;

(II) if a monograph under subclause (I)(aa) does not exist, are drug substances that are components of drugs approved by the Secretary; or

(III) if a monograph under subclause (I)(aa) does not exist and the drug substance is not a component of a drug approved by the Secretary, ap-

pear on a list developed by the Secretary through regulations issued by the Secretary under subsection (d);

(ii) that are manufactured by an establishment that is registered under section 13136 of this title (including a foreign establishment that is registered under section 13136(i) of this title); and

(iii) that are accompanied by valid certificates of analysis for each bulk drug substance;

(B) compounds the drug product using ingredients (other than bulk drug substances) that comply with the standards of an applicable United States Pharmacopeia or National Formulary monograph, if a monograph exists, and the United States Pharmacopoeia chapter on pharmacy compounding;

(C) does not compound a drug product that appears on a list published by the Secretary in the Federal Register of drug products that have been withdrawn or removed from the market because the drug products or components of the drug products have been found to be unsafe or not effective; and

(D) does not compound regularly or in inordinate amounts (as defined by the Secretary) any drug product that is essentially a copy of a commercially available drug product.

(2) ESSENTIALLY A COPY OF A COMMERCIALLY AVAILABLE DRUG PRODUCT.—In paragraph (1)(D), the term ''essentially a copy of a commercially available drug product'' does not include a drug product in which there is a change, made for an identified individual patient, that produces for that patient a significant difference, as determined by the prescribing practitioner, between the compounded drug and the comparable commercially available drug product.

(3) DRUG PRODUCT.—A drug product may be compounded under subsection (b) only if—

(A) the drug product is not a drug product identified by the Secretary by regulation as a drug product that presents demonstrable difficulties for compounding that reasonably demonstrate an adverse effect on the safety or effectiveness of that drug product; and

(B) the drug product is compounded in a State—

(i) that has entered into a memorandum of understanding with the Secretary, which memorandum—

(I) addresses the distribution of inordinate amounts of compounded drug products interstate; and

(II) provides for appropriate investigation by a State agency of complaints relating to compounded drug products distributed outside the State; or

(ii) that has not entered into the memorandum of understanding described in clause (i) and the licensed pharmacist, licensed pharmacy, or licensed physician distributes (or causes to be distributed) compounded drug products out of the State in which they are compounded in quantities that do not exceed 5 percent of the total prescription orders dispensed or distributed by the pharmacy or physician.

(4) STANDARD MEMORANDUM OF UNDERSTANDING.—The Secretary shall, in consultation with the National Association of Boards of Pharmacy, develop a standard memorandum of under-

standing for use by the States in complying with paragraph (3)(B)(i).

(d) REGULATIONS.—

(1) IN GENERAL.—

(A) ISSUANCE.—The Secretary shall issue regulations to implement this section.

(B) ADVISORY COMMITTEE CONSULTATION RELATING TO CERTAIN REGULATIONS.—Before issuing regulations to implement subparagraph (A)(i)(III) or (C) of paragraph (1) of subsection (c) or paragraph (3)(A) of subsection (c), the Secretary shall convene and consult an advisory committee on compounding unless the Secretary determines that the issuance of the regulations before consultation is necessary to protect the public health.

(C) ADVISORY COMMITTEE MEMBERS.—The advisory committee shall include representatives from the National Association of Boards of Pharmacy, the United States Pharmacopeia, pharmacy, physician, and consumer organizations, and other experts selected by the Secretary.

(2) LIMITING COMPOUNDING.—

(A) IN GENERAL.—The Secretary, in consultation with the United States Pharmacopoeia Convention, Incorporated, shall promulgate regulations identifying drug substances that may be used in compounding under subsection (c)(1)(A)(i)(III) for which a monograph does not exist or that are not components of drug products approved by the Secretary.

(B) CRITERIA REQUIRED.—The Secretary shall include in the regulation under subparagraph (A) the criteria for the substances, which shall include historical use, reports in peer reviewed medical literature, or other criteria the Secretary may identify.

(e) INAPPLICABILITY.—This section shall not apply to—

(1) compounded positron emission tomography drugs as defined in section 10101(a)(9) of this title; or

(2) radiopharmaceuticals.

**§ 13107. Outsourcing facilities**

(a) DEFINITIONS.—In this section:

(1) APPROVED DRUG.—The term ''approved drug'' means a drug that is approved under chapter

135 of this title and does not appear on the list described in subsection (b)(4).

(2) COMPOUNDING.—The term ''compounding'' includes the combining, admixing, mixing, diluting, pooling, reconstituting, or otherwise altering of a drug or bulk drug substance to create a drug.

(3) ESSENTIALLY A COPY OF AN APPROVED DRUG.—The term ''essentially a copy of an approved drug'' means—

(A) a drug that is identical or nearly identical to an approved drug, or a marketed drug not subject to section 13103(a) of this title and not subject to approval in an application submitted under chapter 135 of this title, unless, in the case of an approved drug, the drug appears on the drug shortage list in effect under section 13125 of this title at the time of compounding, distribution, and dispensing; or

(B) a drug, a component of which is a bulk drug substance that is a component of an approved drug or a marketed drug that is not subject to section 13103(a) of this title and not subject to approval in an application submitted under chapter 135 of this title, unless there is a change that produces for an individual patient

a clinical difference, as determined by the prescribing practitioner, between the compounded drug and the comparable approved drug.

(4) OUTSOURCING FACILITY.—

(A) IN GENERAL.—The term ''outsourcing facility'' means a facility at 1 geographic location or address that—

(i) is engaged in the compounding of sterile drugs;

(ii) has elected to register as an outsourcing facility; and

(iii) complies with all of the requirements of this section.

(B) LICENSED PHARMACY.—An outsourcing facility is not required to be a licensed pharmacy.

(C) OBTAINING PRESCRIPTIONS FOR INDIVIDUAL PATIENTS.—An outsourcing facility may or may not obtain prescriptions for identified individual patients.

(5) STERILE DRUG.—The term ''sterile drug'' means a drug that is intended for parenteral administration, an ophthalmic or oral inhalation drug in aqueous format, or a drug that is required to be sterile under Federal or State law.

(b) IN GENERAL.—Chapter 135 of this title and sections 13305(a)(1) and 14902 of this title shall not apply to a drug compounded by or under the direct supervision of a licensed pharmacist in an outsourcing facility if each of the following conditions is met:

(1) REGISTRATION AND REPORTING.—The drug is compounded in an outsourcing facility that is in compliance with the requirements of subsection (c).

(2) BULK DRUG SUBSTANCES.—The drug is compounded in an outsourcing facility that does not compound using bulk drug substances (as defined in section 207.3(a)(4) of title 21, Code of Federal Regulations (or any successor regulation)), unless—

(A)(i) the bulk drug substance appears on a list established by the Secretary identifying bulk drug substances for which there is a clinical need, by—

(I) publishing a notice in the Federal Register proposing bulk drug substances to be included on the list, including the rationale for the proposal;

(II) providing a period of not less than 60 calendar days for comment on the notice; and

(III) publishing a notice in the Federal Register designating bulk drug substances for inclusion on the list; or

(ii) the drug compounded from the bulk drug substance appears on the drug shortage list in effect under section 13125 of this title at the time of compounding, distribution, and dispensing;

(B) if an applicable monograph exists under the United States Pharmacopeia, the National Formulary, or another compendium or pharmacopeia recognized by the Secretary for purposes of this paragraph, the bulk drug substances each comply with the monograph;

(C) the bulk drug substances are each manufactured by an establishment that is registered under section 13136 of this title (including a foreign establishment that is registered under section 13136(i) of this title); and

(D) the bulk drug substances are each accompanied by a valid certificate of analysis.

(3) INGREDIENTS OTHER THAN BULK DRUG SUBSTANCES.—If any ingredient (other than a bulk drug substance) is used in compounding the drug, the ingredient complies with the standards of the ap-

plicable United States Pharmacopeia or National Formulary monograph, if the monograph exists, or of another compendium or pharmacopeia recognized by the Secretary for purposes of this paragraph, if any.

(4) DRUGS WITHDRAWN OR REMOVED BECAUSE UNSAFE OR NOT EFFECTIVE.—The drug does not appear on a list, published by the Secretary, of drugs that have been withdrawn or removed from the market because the drugs or components of the drugs have been found to be unsafe or not effective.

(5) ESSENTIALLY A COPY OF AN APPROVED DRUG.—The drug is not essentially a copy of an approved drug.

(6) DRUGS PRESENTING DEMONSTRABLE DIFFICULTIES FOR COMPOUNDING.—The drug—

(A) is not identified (directly or as part of a category of drugs) on a list published by the Secretary, through the process described in subsection (d), of drugs or categories of drugs that present demonstrable difficulties for compounding, which difficulties are reasonably likely to lead to an adverse effect on the safety or effectiveness of the drug or category of

drugs, taking into account the risks and benefits to patients; or

(B) is compounded in accordance with all applicable conditions identified on the list described in subparagraph (A) as conditions that are necessary to prevent the drug or category of drugs from presenting the demonstrable difficulties described in subparagraph (A).

(7) ELEMENTS TO ENSURE SAFE USE.—In the case of a drug that is compounded from a drug that is the subject of a risk evaluation and mitigation strategy approved with elements to ensure safe use pursuant to section 13111 of this title, or from a bulk drug substance that is a component of such a drug, the outsourcing facility demonstrates to the Secretary prior to beginning compounding that the outsourcing facility will utilize controls comparable to the controls applicable under the relevant risk evaluation and mitigation strategy.

(8) PROHIBITION ON WHOLESALING.—

(A) IN GENERAL.—The drug will not be sold or transferred by an entity other than the outsourcing facility that compounded the drug.

(B) WHEN ADMINISTRATION OF DRUG NOT PROHIBITED.—This paragraph does not pro-

hibit administration of a drug in a health care setting or dispensing a drug pursuant to a prescription executed in accordance with section 13103(a)(1) of this title.

(9) FEES.—The drug is compounded in an outsourcing facility that has paid all fees owed by the outsourcing facility pursuant to section 17972 of this title.

(10) LABELING OF DRUGS.—

(A) LABEL.—The label of the drug includes—

(i) the statement ''This is a compounded drug.'' or a reasonable comparable alternative statement (as specified by the Secretary) that prominently identifies the drug as a compounded drug;

(ii) the name, address, and phone number of the applicable outsourcing facility; and

(iii) with respect to the drug—

(I) the lot or batch number;

(II) the established name of the drug;

(III) the dosage form and strength;

(IV) the statement of quantity or volume, as appropriate;

(V) the date that the drug was compounded;

(VI) the expiration date;

(VII) storage and handling instructions;

(VIII) the National Drug Code number, if available;

(IX) the statement ''Not for resale'', and, if the drug is dispensed or distributed other than pursuant to a prescription for an individual identified patient, the statement ''Office Use Only''; and

(X) subject to subparagraph (B)(i), a list of active and inactive ingredients, identified by established name and the quantity or proportion of each ingredient.

(B) CONTAINER.—The container from which the individual units of the drug are removed for dispensing or for administration (such as a plastic bag containing individual product syringes) shall include—

(i) the information described under subparagraph (A)(iii)(X), if there is no space on the label for the information;

(ii) to facilitate adverse event reporting, the information ''www.fda.gov/medwatch and 1–800–FDA–1088'', or any successor internet website or phone number; and

(iii) directions for use, including, as appropriate, dosage and administration.

(C) ADDITIONAL INFORMATION.—The label and labeling of the drug shall include any other information as determined necessary and specified in regulations promulgated by the Secretary.

(11) OUTSOURCING FACILITY REQUIREMENT.—The drug is compounded in an outsourcing facility in which the compounding of drugs occurs only in accordance with this section.

(c) REGISTRATION OF OUTSOURCING FACILITIES AND REPORTING OF DRUGS.—

(1) REGISTRATION OF OUTSOURCING FACILITIES.—

(A) ANNUAL REGISTRATION.—On electing and in order to become an outsourcing facility,

and during the period beginning on October 1 and ending on December 31 of each year after becoming an outsourcing facility, a facility—

(i) shall register with the Secretary its name, place of business, and unique facility identifier (which shall conform to the requirements for the unique facility identifier established under section 13136 of this title), and a point of contact email address; and

(ii) shall indicate whether the outsourcing facility intends to compound a drug that appears on the list in effect under section 13125 of this title during the subsequent calendar year.

(B) AVAILABILITY OF REGISTRATION FOR INSPECTION; LIST.—

(i) REGISTRATIONS.—The Secretary shall make available for inspection, to any person so requesting, any registration filed pursuant to this paragraph.

(ii) LIST.—The Secretary shall make available on the public FDA website a list of the names of each facility registered under this subsection as an outsourcing fa-

cility, the State in which each of those outsourcing facilities is located, whether the outsourcing facility compounds from bulk drug substances, and whether the compounding from bulk drug substances is for sterile or nonsterile drugs.

(2) DRUG REPORTING BY OUTSOURCING FACILITIES.—

(A) IN GENERAL.—On initially registering as an outsourcing facility, once during the month of June of each year, and once during the month of December of each year, each outsourcing facility that registers with the Secretary under paragraph (1) shall submit to the Secretary a report—

(i) identifying the drugs compounded by the outsourcing facility during the previous 6-month period; and

(ii) with respect to each drug identified under clause (i), providing the active ingredient, the source of the active ingredient, the National Drug Code number of the source drug or bulk active ingredient, if available, the strength of the active ingredient per unit, the dosage form and

route of administration, the package description, the number of individual units produced, and the National Drug Code number of the final product, if assigned.

(B) FORM.—Each report under subparagraph (A) shall be prepared in such form and manner as the Secretary may prescribe by regulation or guidance.

(C) CONFIDENTIALITY.—Reports submitted under this paragraph shall be exempt from inspection under paragraph (1)(B)(i), unless the Secretary finds that the exemption would be inconsistent with the protection of the public health.

(3) ELECTRONIC REGISTRATION AND REPORTING.—Registrations and drug reporting under this subsection (including the submission of updated information) shall be submitted to the Secretary by electronic means unless the Secretary grants a request for waiver of the electronic submission requirement because use of electronic means is not reasonable for the person requesting waiver.

(4) RISK-BASED INSPECTION FREQUENCY.—

(A) IN GENERAL.—Outsourcing facilities—

(i) shall be subject to inspection pursuant to section 17504 of this title; and

(ii) shall not be eligible for the exemption under section 17504(a)(2)(A) of this title.

(B) RISK-BASED SCHEDULE.—The Secretary, acting through 1 or more officers or employees designated by the Secretary, shall inspect outsourcing facilities in accordance with a risk-based schedule established by the Secretary.

(C) RISK FACTORS.—In establishing the risk-based schedule, the Secretary shall inspect an outsourcing facility according to the known safety risks of the outsourcing facility, which safety risks shall be based on the following factors:

(i) The compliance history of the outsourcing facility.

(ii) The record, history, and nature of recalls linked to the outsourcing facility.

(iii) The inherent risk of the drugs compounded at the outsourcing facility.

(iv) The inspection frequency and history of the outsourcing facility, including

whether the outsourcing facility has been inspected pursuant to section 17504 of this title within the last 4 years.

(v) Whether the outsourcing facility has registered under this paragraph as an entity that intends to compound a drug that appears on the list in effect under section 13125 of this title.

(vi) Any other criteria considered necessary and appropriate by the Secretary for purposes of allocating inspection resources.

(5) ADVERSE EVENT REPORTING.—An outsourcing facility shall submit adverse event reports to the Secretary in accordance with the content and format requirements established through guidance or regulation under section 310.305 of title 21, Code of Federal Regulations (or any successor regulation).

(d) REGULATIONS.—

(1) IN GENERAL.—The Secretary shall implement the list described in subsection (b)(6) through regulations.

(2) ADVISORY COMMITTEE ON COMPOUNDING.—

(A) IN GENERAL.—Before issuing regulations to implement subsection (b)(6), the Secretary shall convene and consult an advisory committee on compounding.

(B) MEMBERS.—The advisory committee shall include representatives from the National Association of Boards of Pharmacy, the United States Pharmacopeia, pharmacists with current experience and expertise in compounding, physicians with background and knowledge in compounding, and patient and public health advocacy organizations.

(3) INTERIM LIST.—

(A) IN GENERAL.—Before the effective date of the regulations finalized to implement subsection (b)(6), the Secretary may designate drugs, categories of drugs, or conditions as described in the subsection by—

(i) publishing a notice of the substances, drugs, categories of drugs, or conditions proposed for designation, including the rationale for the designation, in the Federal Register;

(ii) providing a period of not less than 60 calendar days for comment on the notice; and

(iii) publishing a notice in the Federal Register designating the drugs, categories of drugs, or conditions.

(B) SUNSET OF NOTICE.—Any notice provided under subparagraph (A) shall not be effective after the earlier of—

(i) the date that is 5 years after November 27, 2013; or

(ii) the effective date of the final regulations issued to implement subsection (b)(6).

(4) UPDATES.—

(A) IN GENERAL.—The Secretary shall review, and update as necessary, the regulations containing the lists of drugs, categories of drugs, or conditions described in subsection (b)(6) regularly, but not less than once every 4 years.

(B) EFFECT OF SUBPARAGRAPH (A).—Nothing in subparagraph (A) prohibits submissions to the Secretary, before or during any 4-

year period described in subparagraph (A), requesting updates to the lists.

(e) OBLIGATION TO PAY FEES.—Payment of the fee under section 17972 of this title, as described in subsection (b)(9), shall not relieve an outsourcing facility that is licensed as a pharmacy in any State that requires pharmacy licensing fees of its obligation to pay the State fees.

**§ 13108. Prereview of television advertisements**

(a) IN GENERAL.—The Secretary may require the submission of any television advertisement for a drug (including any script, story board, rough, or a completed video production of the television advertisement) to the Secretary for review under this section not later than 45 days before dissemination of the television advertisement.

(b) REVIEW.—In conducting a review of a television advertisement under this section, the Secretary may make recommendations with respect to information included in the label of the drug—

(1) on changes that are—

(A) necessary to protect the consumer good and well-being; or

(B) consistent with prescribing information for the product under review; and

(2) if appropriate and if information exists, on statements for inclusion in the advertisement to ad-

dress the specific efficacy of the drug as it relates to specific population groups, including elderly populations, children, and racial and ethnic minorities.

(c) ELDERLY POPULATIONS, CHILDREN, RACIALLY AND ETHNICALLY DIVERSE COMMUNITIES.—In formulating recommendations under subsection (b), the Secretary shall take into consideration the impact of the advertised drug on elderly populations, children, and racially and ethnically diverse communities.

(d) NO AUTHORITY TO REQUIRE CHANGES.—Except as provided by subsection (e), this section does not authorize the Secretary to make or direct changes in any material submitted pursuant to subsection (a).

(e) SPECIFIC DISCLOSURES.—

(1) SERIOUS RISK; SAFETY PROTOCOL.—In conducting a review of a television advertisement under this section, if the Secretary determines that the advertisement would be false or misleading without a specific disclosure about a serious risk listed in the labeling of the drug involved, the Secretary may require inclusion of the disclosure in the advertisement.

(2) DATE OF APPROVAL.—In conducting a review of a television advertisement under this section, the Secretary may require the advertisement to in-

clude, for a period not to exceed 2 years from the date of the approval of the drug under chapter 135 of this title or section 351 of the Public Health Service Act (42 U.S.C. 262), a specific disclosure of the date of approval if the Secretary determines that the advertisement would otherwise be false or misleading.

(f) RULE OF CONSTRUCTION.—Nothing in this section may be construed as having any effect on requirements under section 13311 of this title or the authority of the Secretary under section 314.550, 314.640, 601.45, or 601.94 of title 21, Code of Federal Regulations (or successor regulations).

**§ 13109. Process to update labeling for certain generic drugs**

(a) DEFINITIONS.—In this section:

(1) COVERED DRUG.—The term ''covered drug'' means a drug approved under section 13504 of this title—

(A) for which there are no unexpired patents included in the list under section 13511(h) of this title and no unexpired period of exclusivity;

(B) for which the approval of the application has been withdrawn for reasons other than safety or effectiveness; and

(C) for which—

(i)(I) there is new scientific evidence available pertaining to new or existing conditions of use that is not reflected in the approved labeling;

(II) the approved labeling does not reflect current legal and regulatory requirements for content or format; or

(III) there is a relevant accepted use in clinical practice that is not reflected in the approved labeling; and

(ii) updating the approved labeling would benefit the public health.

(2) PERIOD OF EXCLUSIVITY.—The term ''period of exclusivity'', with respect to a drug approved under section 13504 of this title, means any period of exclusivity under subparagraph (A), (B), or (C) of section 13504(c)(5) of this title, subparagraph (A), (B), or (C) of section 13511(f)(6) of this title, or section 13112, 13116, or 13903 of this title.

(3) GENERIC VERSION.—The term ''generic version'' means a drug approved under section

13511 of this title whose reference listed drug is a covered drug.

(4) RELEVANT ACCEPTED USE.—The term ''relevant accepted use'' means a use for a drug in clinical practice that is supported by scientific evidence that appears to the Secretary to meet the standards for approval under chapter 135 of this title.

(5) SELECTED DRUG.—The term ''selected drug'' means a covered drug for which the Secretary has determined through the process under subsection (c) that the labeling should be changed.

(b) IDENTIFICATION OF COVERED DRUGS.—The Secretary may identify covered drugs for which labeling updates would provide a public health benefit. To assist in identifying covered drugs, the Secretary may do 1 or both of the following:

(1) Enter into cooperative agreements or contracts with public or private entities to review the available scientific evidence concerning the drugs.

(2) Seek public input concerning the drugs, including input on whether there is a relevant accepted use in clinical practice that is not reflected in the approved labeling of the drugs or whether new scientific evidence is available regarding the conditions of use for the drugs, by—

(A) holding 1 or more public meetings;

(B) opening a public docket for the submission of public comments; or

(C) other means, as the Secretary determines appropriate.

(c) SELECTION OF DRUGS FOR UPDATING.—If the Secretary determines, with respect to a covered drug, that the available scientific evidence meets the standards under chapter 135 of this title for adding or modifying information to the labeling or providing supplemental information to the labeling regarding the use of the covered drug, the Secretary may initiate the process under subsection (d).

(d) INITIATION OF THE PROCESS OF UPDATING.—If the Secretary determines that labeling changes are appropriate for a selected drug pursuant to subsection (c), the Secretary shall provide notice to the holders of approved applications for a generic version of the drug that—

(1) summarizes the findings supporting the determination of the Secretary that the available scientific evidence meets the standards under chapter 135 of this title for adding or modifying information or providing supplemental information to the labeling of the covered drug pursuant to subsection (c);

(2) provides a clear statement regarding the additional, modified, or supplemental information for the labeling, according to the determination by the Secretary (including, as applicable, modifications to add the relevant accepted use to the labeling of the drug as an additional indication for the drug); and

(3) states whether the statement under paragraph (2) applies to the selected drug as a class of covered drugs or only to a specific drug product.

(e) RESPONSE TO NOTIFICATION.—Within 30 days of receipt of notification provided by the Secretary pursuant to subsection (d), the holder of an approved application for a generic version of the selected drug shall—

(1) agree to change the approved labeling to reflect the additional, modified, or supplemental information the Secretary has determined to be appropriate; or

(2) notify the Secretary that the holder of the approved application does not believe that the requested labeling changes are warranted and submit a statement detailing the reasons why the changes are not warranted.

(f) REVIEW OF APPLICATION HOLDER'S RESPONSE.—

(1) IN GENERAL.—On receipt of the application holder's response, the Secretary shall promptly review each statement received under subsection (e)(2) and determine which labeling changes pursuant to the Secretary's notice under subsection (d) are appropriate, if any. If the Secretary disagrees with the reasons why the labeling changes are not warranted, the Secretary shall provide opportunity for discussions with the application holders to reach agreement on whether the labeling for the covered drug should be updated to reflect available scientific evidence, and if so, the content of the labeling changes.

(2) CHANGES TO LABELING.—After considering all responses from the holder of an approved application under paragraph (1) or (2) of subsection (e), and any discussion under paragraph (1), the Secretary may order the holder to make the labeling changes the Secretary determines are appropriate. The holder of an approved application shall—

(A) update its paper labeling for the drug at the next printing of that labeling;

(B) update any electronic labeling for the drug within 30 days of the order; and

(C) submit the revised labeling through the form, ''Supplement—Changes Being Effected''.

(g) VIOLATION.—If the holder of an approved application for the generic version of the selected drug does not comply with the requirements of subsection (f)(2), the generic version of the selected drug shall be deemed to be misbranded under chapter 133 of this title.

(h) LIMITATIONS; GENERIC DRUGS.—

(1) IN GENERAL.—With respect to any labeling change required under this section, the generic version shall be deemed to have the same conditions of use and the same labeling as its reference listed drug for purposes of subparagraphs (A) and (E) of section 13511(c)(1) of this title. Any labeling change so required shall not have any legal effect for the applicant that is different than the legal effect that would have resulted if a supplemental application had been submitted and approved to conform the labeling of the generic version to a change in the labeling of the reference drug.

(2) SUPPLEMENTAL APPLICATIONS.—Changes to labeling made in accordance with this section shall not be eligible for an exclusivity period under this subtitle.

(3) SELECTION OF DRUGS.—The Secretary shall not identify a drug as a covered drug or select a drug label for updating under subsection (b) or (c)

solely based on the availability of new safety information. On identification of a drug as a covered drug under subsection (b), the Secretary may then consider the availability of new safety information (as defined in section 13111(a) of this title) in determining whether the drug is a selected drug and in determining what labeling changes are appropriate.

(i) RULES OF CONSTRUCTION.—

(1) APPROVAL STANDARDS.—This section shall not be construed as altering the applicability of the standards for approval of an application under chapter 135 of this title. No order shall be issued under this subsection unless the scientific evidence supporting the changed labeling meets the standards for approval applicable to any change to labeling under chapter 135 of this title.

(2) REMOVAL OF INFORMATION.—Nothing in this section shall be construed to give the Secretary additional authority to remove approved indications for drugs, other than the authority described in this section.

(3) SECRETARY AUTHORITY.—Nothing in this section shall be construed to limit the authority of

the Secretary to require labeling changes under section 13515 of this title.

(4) MAINTENANCE OF LABELING.—Nothing in this section shall be construed to affect the responsibility of the holder of an approved application under section 13511 of this title to maintain its labeling in accordance with existing requirements, including subpart B of part 201 and sections 314.70 and 314.97 of title 21, Code of Federal Regulations (or any successor regulations).

(j) REPORTS.—Not later than 4 years after December 27, 2020, and every 4 years thereafter, the Secretary shall prepare and submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Health, Education, Labor, and Pensions of the Senate, a report that—

(1) describes the actions of the Secretary under this section, including—

(A) the number of covered drugs and description of the types of drugs the Secretary has selected for labeling changes and the rationale for the recommended changes; and

(B) the number of times the Secretary entered into discussions concerning a disagreement with an application holder and a summary

of the decision regarding a labeling change, if any; and

(2) includes any recommendations of the Secretary for modifying the program under this section.

**§ 13110. Veterinary feed directive drugs**

(a) LAWFUL VETERINARY FEED DIRECTIVE REQUIREMENT.—

(1) VETERINARY FEED DIRECTIVE DRUG.—

(A) IN GENERAL.—A veterinary feed directive drug is a drug that—

(i) is intended for use in or on animal feed; and

(ii) is limited by—

(I) an approved application filed pursuant to section 13703 of this title;

(II) a conditionally approved application filed pursuant to section 14502 of this title; or

(III) an index listing pursuant to section 14503 of this title to use under the professional supervision of a licensed veterinarian.

(B) DIRECTIVE REQUIRED FOR ADMINISTERING DRUG.—Any animal feed bearing or

containing a veterinary feed directive drug shall be fed to animals only by or on a lawful veterinary feed directive issued by a licensed veterinarian in the course of the veterinarian's professional practice.

(C) EXEMPTION FROM CERTAIN LABELING REQUIREMENTS.—When labeled, distributed, held, and used in accordance with this section, a veterinary feed directive drug and any animal feed bearing or containing a veterinary feed directive drug shall be exempt from section 13305 of this title.

(2) VETERINARY FEED DIRECTIVE REQUIREMENTS.—A veterinary feed directive is lawful if it—

(A) contains such information as the Secretary may by general regulation or by order require; and

(B) is in compliance with the conditions and indications for use of the drug set forth in—

(i) the notice published pursuant to section 13710 of this title; or

(ii) the index listing pursuant to section 14503(e) of this title.

(3) DISTRIBUTION REQUIREMENTS.—

(A) MAINTENANCE OF RECORDS.—

(i) VETERINARY FEED DIRECTIVE.—Any person involved in the distribution or use of animal feed bearing or containing a veterinary feed directive drug and the licensed veterinarian issuing the veterinary feed directive shall maintain a copy of the veterinary feed directive applicable to each such feed, except in the case of a person distributing the feed to another person for further distribution.

(ii) WRITTEN ACKNOWLEDGMENT.—The person distributing the feed shall maintain a written acknowledgment from the person to whom the feed is shipped stating that that person shall not ship or move the feed to an animal production facility without a veterinary feed directive or ship the feed to another person for further distribution unless that person has provided the same written acknowledgment to its immediate supplier.

(B) AVAILABILITY OF RECORDS.—Every person required under subparagraph (A) to maintain records, and every person in charge or

custody of the records, shall, on request of an officer or employee designated by the Secretary, permit the officer or employee at all reasonable times to have access to and copy and verify the records.

(C) NOTIFICATION OF NAME AND ADDRESS.—

(i) IN GENERAL.—Any person that distributes animal feed bearing or containing a veterinary feed directive drug shall, on first engaging in the distribution, notify the Secretary of that person's name and place of business.

(ii) FAILURE TO NOTIFY RESULTS IN MISBRANDING.—The failure to provide the notification shall be deemed to be an act that results in the drug being misbranded.

(b) LABELING AND ADVERTISING.—A veterinary feed directive drug and any feed bearing or containing a veterinary feed directive drug shall be deemed to be misbranded if—

(1) their labeling fails to bear such cautionary statement and such other information as the Secretary may by general regulation or by order prescribe; or

(2) their advertising—

(A) fails to conform to—

(i) the conditions and indications for use published pursuant to section 13710 of this title; or

(ii) the index listing pursuant to section 14503(e) of this title; or

(B) fails to contain the general cautionary statement prescribed by the Secretary.

(c) NONPRESCRIPTION STATUS.—Neither a drug subject to this section, nor animal feed bearing or containing such a drug, shall be deemed to be a prescription article under any Federal or State law.

**§ 13111. Risk evaluation and mitigation strategies**

(a) DEFINITIONS.—In this section:

(1) ADVERSE DRUG EXPERIENCE.—The term ''adverse drug experience'' means any adverse event associated with the use of a drug in humans, whether or not considered drug-related, including—

(A) an adverse event occurring in the course of the use of the drug in professional practice;

(B) an adverse event occurring from an overdose of the drug, whether accidental or intentional;

(C) an adverse event occurring from abuse of the drug;

(D) an adverse event occurring from withdrawal of the drug; and

(E) any failure of expected pharmacological action of the drug, which may include reduced effectiveness under the conditions of use prescribed in the labeling of the drug, but which may not include reduced effectiveness that is in accordance with the labeling.

(2) COVERED APPLICATION.—The term ''covered application'' means an application referred to in section 13516(a)(1) of this title.

(3) NEW SAFETY INFORMATION.—

(A) IN GENERAL.—The term ''new safety information'', with respect to a drug, means—

(i) information described in subparagraph (B) derived from a clinical trial, an adverse event report, a postapproval study (including a study under section 13515(c) of this title), or peer-reviewed biomedical literature;

(ii) data described in subparagraph (B) derived from the postmarket risk iden-

tification and analysis system under section 13512 of this title; or

(iii) other scientific data described in subparagraph (B) considered appropriate by the Secretary.

(B) INFORMATION; DATA.—Information and data described in this subparagraph are information and data about—

(i) a serious risk or an unexpected serious risk associated with use of the drug that the Secretary has become aware of (that may be based on a new analysis of existing information)—

(I) since the drug was approved;

(II) since the risk evaluation and mitigation strategy was required; or

(III) since the last assessment of the approved risk evaluation and mitigation strategy for the drug; or

(ii) the effectiveness of the approved risk evaluation and mitigation strategy for the drug obtained since the last assessment of such strategy.

(4) RESPONSIBLE PERSON.—The term ''responsible person'' means the person submitting a covered

application or the holder of the approved covered application.

(5) SEPARATE REMS.—The term ''different, comparable aspect of the elements to ensure safe use'' means a risk evaluation and mitigation strategy for a drug that is the subject of an application under section 13511 of this title that uses different methods or operational means than the strategy required under subsection (b) for—

(A) the applicable listed drug, but achieves the same level of safety as the strategy for the listed drug; or

(B) another application under section 13511 of this title with the same listed drug, but achieves the same level of safety as the strategy for the listed drug.

(6) SERIOUS ADVERSE DRUG EXPERIENCE.—The term ''serious adverse drug experience'' is an adverse drug experience that—

(A) results in—

(i) death;

(ii) an adverse drug experience that places the patient at immediate risk of death from the adverse drug experience as it occurred (not including an adverse drug

experience that might have caused death had it occurred in a more severe form);

(iii) inpatient hospitalization or prolongation of existing hospitalization;

(iv) a persistent or significant incapacity or substantial disruption of the ability to conduct normal life functions; or

(v) a congenital anomaly or birth defect; or

(B) based on appropriate medical judgment, may jeopardize the patient and may require a medical or surgical intervention to prevent an outcome described under subparagraph (A).

(7) SERIOUS RISK.—The term ''serious risk'' means a risk of a serious adverse drug experience.

(8) SIGNAL OF A SERIOUS RISK.—The term ''signal of a serious risk'' means information related to a serious adverse drug experience associated with use of a drug and derived from—

(A) a clinical trial;

(B) adverse event reports;

(C) a postapproval study, including a study under section 13515(c) of this title;

(D) peer-reviewed biomedical literature;

(E) data derived from the postmarket risk identification and analysis system under section 13512(d) of this title; or

(F) other scientific data considered appropriate by the Secretary.

(9) UNEXPECTED SERIOUS RISK.—The term ''unexpected serious risk'' means a serious adverse drug experience that is not listed in the labeling of a drug, or that may be symptomatically and pathophysiologically related to an adverse drug experience identified in the labeling, but differs from the adverse drug experience because of greater severity, specificity, or prevalence.

(b) SUBMISSION OF PROPOSED STRATEGY.—

(1) INITIAL APPROVAL.—

(A) IN GENERAL.—If the Secretary, in consultation with the office responsible for reviewing the drug and the office responsible for postapproval safety with respect to the drug, determines that a risk evaluation and mitigation strategy is necessary to ensure that the benefits of the drug outweigh the risks of the drug, and informs the person that submits the application of the determination, the person shall submit to the Secretary as part of the ap-

plication a proposed risk evaluation and mitigation strategy.

(B) FACTORS.—In making a determination under subparagraph (A), the Secretary shall consider the following factors:

(i) The estimated size of the population likely to use the drug involved.

(ii) The seriousness of the disease or condition that is to be treated with the drug.

(iii) The expected benefit of the drug with respect to the disease or condition.

(iv) The expected or actual duration of treatment with the drug.

(v) The seriousness of any known or potential adverse events that may be related to the drug and the background incidence of the events in the population likely to use the drug.

(vi) Whether the drug is a new molecular entity.

(2) POSTAPPROVAL REQUIREMENT.—

(A) IN GENERAL.—If the Secretary has approved a covered application (including an application approved before the effective date of

this section) and did not when approving the application require a risk evaluation and mitigation strategy under paragraph (1), the Secretary, in consultation with the offices described in paragraph (1), may subsequently require such a strategy for the drug involved (including when acting on a supplemental application seeking approval of a new indication for use of the drug) if the Secretary becomes aware of new safety information and makes a determination that such a strategy is necessary to ensure that the benefits of the drug outweigh the risks of the drug.

(B) SUBMISSION OF PROPOSED STRATEGY.—Not later than 120 days after the Secretary notifies the holder of an approved covered application that the Secretary has made a determination under subparagraph (A) with respect to the drug involved, or within such other reasonable time as the Secretary requires to protect the public health, the holder shall submit to the Secretary a proposed risk evaluation and mitigation strategy.

(3) ABBREVIATED NEW DRUG APPLICATIONS.—The applicability of this section to an application

under section 13511 of this title is subject to subsection (i).

(4) NON-DELEGATION.—Determinations by the Secretary under this subsection for a drug shall be made by individuals at or above the level of individuals empowered to approve a drug (such as division directors within the Center for Drug Evaluation and Research).

(c) CONTENTS.—A proposed risk evaluation and mitigation strategy under subsection (b) shall—

(1) include the timetable required under subsection (d); and

(2) to the extent required by the Secretary, in consultation with the office responsible for reviewing the drug and the office responsible for postapproval safety with respect to the drug, include additional elements described in subsections (e) and (f).

(d) MINIMAL STRATEGY.—For purposes of subsection (c)(1), the risk evaluation and mitigation strategy for a drug shall require a timetable for submission of assessments of the strategy that—

(1) includes an assessment by the date that is 18 months after the strategy is initially approved;

(2) includes an assessment by the date that is 3 years after the strategy is initially approved;

(3) includes an assessment in the seventh year after the strategy is so approved; and

(4) subject to paragraphs (1), (2), and (3)—

(A) is at a frequency specified in the strategy;

(B) is increased or reduced in frequency as necessary as provided for in subsection (g)(4)(A); and

(C) is eliminated after the 3-year period described in paragraph (2) if the Secretary determines that serious risks of the drug have been adequately identified and assessed and are being adequately managed.

(e) ADDITIONAL POTENTIAL ELEMENTS OF STRATEGY.—

(1) IN GENERAL.—The Secretary, in consultation with the offices described in subsection (c)(2), may under subsection (c)(2) require that the risk evaluation and mitigation strategy for a drug include 1 or more of the additional elements described in this subsection if the Secretary makes the determination required with respect to each element involved.

(2) MEDICATION GUIDE; PATIENT PACKAGE INSERT.—The risk evaluation and mitigation strategy

for a drug may require that, as applicable, the responsible person develop for distribution to each patient when the drug is dispensed—

(A) a Medication Guide, as provided for under part 208 of title 21, Code of Federal Regulations (or any successor regulations); and

(B) a patient package insert, if the Secretary determines that the insert may help mitigate a serious risk of the drug.

(3) COMMUNICATION PLAN.—The risk evaluation and mitigation strategy for a drug may require that the responsible person conduct a communication plan to health care providers, if, with respect to the drug, the Secretary determines that the plan may support implementation of an element of the strategy (including under this paragraph). The plan may include—

(A) sending letters to health care providers;

(B) disseminating information about the elements of the risk evaluation and mitigation strategy to encourage implementation by health care providers of components that apply to the health care providers, or to explain certain safe-

ty protocols (such as medical monitoring by periodic laboratory tests);

(C) disseminating information to health care providers through professional societies about any serious risks of the drug and any protocol to ensure safe use; or

(D) disseminating information to health care providers about drug formulations or properties, including information about the limitations or patient care implications of the formulations or properties, and how the formulations or properties may be related to serious adverse drug events associated with use of the drug.

(4) PACKAGING AND DISPOSAL.—The Secretary may require a risk evaluation mitigation strategy for a drug for which there is a serious risk of an adverse drug experience described in subparagraph (B) or (C) of subsection (a)(1), taking into consideration the factors described in subparagraphs (C) and (D) of subsection (f)(2) and in consultation with other relevant Federal agencies with authorities over drug disposal packaging, which may include requiring that—

(A) the drug be made available for dispensing to certain patients in unit dose pack-

aging, packaging that provides a set duration, or another packaging system that the Secretary determines may mitigate the serious risk; or

(B) the drug be dispensed to certain patients with a safe disposal packaging or safe disposal system if the Secretary determines that the safe disposal packaging or system may mitigate the serious risk and is sufficiently available.

(f) PROVIDING SAFE ACCESS FOR PATIENTS TO DRUGS WITH KNOWN SERIOUS RISKS THAT WOULD OTHERWISE BE UNAVAILABLE.—

(1) ALLOWING SAFE ACCESS TO DRUGS WITH KNOWN SERIOUS RISKS.—The Secretary, in consultation with the offices described in subsection (c)(2), may require that the risk evaluation and mitigation strategy for a drug include such elements as are necessary to ensure safe use of the drug, because of its inherent toxicity or potential harmfulness, if the Secretary determines that—

(A) the drug, which has been shown to be effective, but is associated with a serious adverse drug experience, can be approved only if, or would be withdrawn unless, the elements are required as part of the strategy to mitigate a

specific serious risk listed in the labeling of the drug; and

(B) for a drug initially approved without elements to ensure safe use, other elements under subsections (c), (d), and (e) are not sufficient to mitigate the serious risk.

(2) ENSURING ACCESS AND MINIMIZING BURDEN.—The elements to ensure safe use under paragraph (1) shall—

(A) be commensurate with the specific serious risk listed in the labeling of the drug;

(B) within 30 days of the date on which any element under paragraph (1) is imposed, be posted publicly by the Secretary with an explanation of how the elements will mitigate the observed safety risk;

(C) considering the risk, not be unduly burdensome on patient access to the drug, considering in particular—

(i) patients with serious or life-threatening diseases or conditions;

(ii) patients who have difficulty accessing health care (such as patients in rural or medically underserved areas); and

(iii) patients with functional limitations; and

(D) to the extent practicable, so as to minimize the burden on the health care delivery system—

(i) conform with elements to ensure safe use for other drugs with similar, serious risks; and

(ii) be designed to be compatible with established distribution, procurement, and dispensing systems for drugs.

(3) ELEMENTS TO ENSURE SAFE USE.—

(A) IN GENERAL.—The elements to ensure safe use under paragraph (1) shall include 1 or more goals to mitigate a specific serious risk listed in the labeling of the drug and, to mitigate the risk, may require that—

(i) health care providers who prescribe the drug have particular training or experience, or are specially certified;

(ii) pharmacies, practitioners, or health care settings that dispense the drug are specially certified;

(iii) the drug be dispensed to patients only in certain health care settings, such as hospitals;

(iv) the drug be dispensed to patients with evidence or other documentation of safe-use conditions, such as laboratory test results;

(v) each patient using the drug be subject to certain monitoring; or

(vi) each patient using the drug be enrolled in a registry.

(B) TRAINING AND CERTIFICATION OF HEALTH CARE PROVIDERS; FRONTIER AREAS.—The opportunity to obtain the training or certification referred to in subparagraph (A)(i) with respect to the drug shall be available to any willing provider from a frontier area in a widely available training or certification method (including an online course or via mail) as approved by the Secretary at reasonable cost to the provider.

(C) CERTIFICATION OF PHARMACIES, PRACTITIONERS, OR HEALTH CARE SETTINGS; FRONTIER AREAS.—The opportunity to obtain the certification referred to in subparagraph

(A)(ii) shall be available to any willing provider from a frontier area.

(4) IMPLEMENTATION SYSTEM.—The elements to ensure safe use under paragraph (1) that are described in clauses (ii), (iii), and (iv) of paragraph (3)(A) may include a system through which the applicant is able to take reasonable steps to—

(A) monitor and evaluate implementation of the elements by health care providers, pharmacists, and other parties in the health care system who are responsible for implementing the elements; and

(B) work to improve implementation of the elements by the persons.

(5) EVALUATION OF ELEMENTS TO ENSURE SAFE USE.—The Secretary, through the Drug Safety and Risk Management Advisory Committee (or successor committee) or other advisory committee of the FDA, shall—

(A) seek input from patients, physicians, pharmacists, and other health care providers about how elements to ensure safe use under this subsection for 1 or more drugs may be standardized—

(i) so as not to be unduly burdensome on patient access to the drug; and

(ii) to the extent practicable, to minimize the burden on the health care delivery system;

(B) periodically evaluate, for 1 or more drugs, the elements to ensure safe use of the drug to assess whether the elements—

(i) ensure safe use of the drug;

(ii) are not unduly burdensome on patient access to the drug; and

(iii) to the extent practicable, minimize the burden on the health care delivery system; and

(C) considering the input and evaluations—

(i) issue or modify agency guidance about how to implement the requirements of this subsection; and

(ii) modify elements under this subsection for 1 or more drugs as appropriate.

(6) ADDITIONAL MECHANISMS TO ENSURE ACCESS.—

(A) IN GENERAL.—The mechanisms under section 14301 of this title to provide for ex-

panded access for patients with serious or life-threatening diseases or conditions may be used to provide access for patients with a serious or life-threatening disease or condition, the treatment of which is not an approved use for the drug, to a drug that is subject to elements to ensure safe use under this subsection.

(B) REGULATIONS.—The Secretary shall promulgate regulations for how a physician may provide the drug under the mechanisms of section 14301 of this title.

(7) LIMITATION.—A holder of an approved covered application shall not use any element to ensure safe use required by the Secretary under this subsection to block or delay approval of an application under section 13503(b) or 13511 of this title or to prevent application of the element under subsection (i)(1)(A)(ii) to a drug that is the subject of an abbreviated new drug application.

(g) ASSESSMENT AND MODIFICATION OF APPROVED STRATEGY.—

(1) VOLUNTARY ASSESSMENTS.—After the approval of a risk evaluation and mitigation strategy under subsection (b), the responsible person involved may, subject to paragraph (2), submit to the Sec-

retary an assessment of the approved strategy for the drug involved at any time.

(2) REQUIRED ASSESSMENTS.—A responsible person shall submit an assessment of the approved risk evaluation and mitigation strategy for a drug—

(A) when submitting a supplemental application for a new indication for use under section 13503 of this title or under section 351 of the Public Health Service Act (42 U.S.C. 262), unless the drug is not subject to section 13103(a) of this title and the risk evaluation and mitigation strategy for the drug includes only the timetable under subsection (d);

(B) when required by the strategy, as provided for in the timetable under subsection (d); and

(C) within a time period to be determined by the Secretary, if the Secretary, in consultation with the offices described in subsection (c)(2), determines that an assessment is needed to evaluate whether the approved strategy should be modified to—

(i) ensure the benefits of the drug outweigh the risks of the drug; or

(ii) minimize the burden on the health care delivery system of complying with the strategy.

(3) REQUIREMENTS FOR ASSESSMENTS.—An assessment under paragraph (1) or (2) of an approved risk evaluation and mitigation strategy for a drug shall include, with respect to each goal included in the strategy, an assessment of the extent to which the approved strategy, including each element of the strategy, is meeting the goal or whether 1 or more of the goals or elements should be modified.

(4) MODIFICATION.—

(A) ON INITIATIVE OF RESPONSIBLE PERSON.—After the approval of a risk evaluation and mitigation strategy by the Secretary, the responsible person may, at any time, submit to the Secretary a proposal to modify the approved strategy. The proposal may propose the addition, modification, or removal of any goal or element of the approved strategy and shall include an adequate rationale to support the proposed addition, modification, or removal of any goal or element of the strategy.

(B) ON INITIATIVE OF SECRETARY.—After the approval of a risk evaluation and mitigation

strategy by the Secretary, the Secretary may, at any time, require a responsible person to submit a proposed modification to the strategy within 120 days or within such reasonable time as the Secretary specifies, if the Secretary, in consultation with the offices described in subsection (c)(2), determines that 1 or more goals or elements should be added, modified, or removed from the approved strategy to—

(i) ensure the benefits of the drug outweigh the risks of the drug;

(ii) minimize the burden on the health care delivery system of complying with the strategy; or

(iii) accommodate different, comparable aspects of the elements to ensure safe use for a drug that is the subject of an application under section 13511 of this title, and the applicable listed drug.

(h) REVIEW OF PROPOSED STRATEGIES AND ASSESSMENTS AND MODIFICATIONS OF APPROVED STRATEGIES.—

(1) IN GENERAL.—The Secretary, in consultation with the offices described in subsection (c)(2), shall promptly review each proposed risk evaluation

and mitigation strategy for a drug submitted under subsection (b) and each assessment of and proposed modification to an approved risk evaluation and mitigation strategy for a drug submitted under subsection (g), and, if necessary, promptly initiate discussions with the responsible person about the proposed strategy, assessment, or modification.

(2) ACTION.—

(A) IN GENERAL.—

(i) TIMEFRAME.—Unless the dispute resolution process described under paragraph (3) or (4) applies, and, except as provided in clause (ii) or (iii) below, the Secretary, in consultation with the offices described in subsection (c)(2), shall review and act on the proposed risk evaluation and mitigation strategy for a drug or any proposed modification to any required strategy within 180 days of receipt of the proposed strategy or modification.

(ii) MINOR MODIFICATIONS.—

(I) IN GENERAL.—The Secretary shall review and act on a proposed minor modification, as defined by the

Secretary in guidance, within 60 days of receipt of the modification.

(II) GUIDANCE.—The Secretary shall issue guidance that, for purposes of this subparagraph, describes the types of modifications to approved risk evaluation and mitigation strategies that shall be considered to be minor modifications of the strategies.

(iii) MODIFICATION DUE TO SAFETY LABELING CHANGES.—Not later than 60 days after the Secretary receives a proposed modification to an approved risk evaluation and mitigation strategy to conform the strategy to approved safety labeling changes, including safety labeling changes initiated by the responsible person in accordance with FDA regulatory requirements, or to a safety labeling change that the Secretary has directed the holder of the application to make pursuant to section 13515(d) of this title, the Secretary shall review and act on the proposed modification to the approved strategy.

(iv) GUIDANCE.—The Secretary shall establish, through guidance, that responsible persons may implement certain modifications to an approved risk evaluation and mitigation strategy following notification to the Secretary.

(B) INACTION.—An approved risk evaluation and mitigation strategy shall remain in effect until the Secretary acts, if the Secretary fails to act as provided under subparagraph (A).

(C) PUBLIC AVAILABILITY.—On acting on a proposed risk evaluation and mitigation strategy or proposed modification to a risk evaluation and mitigation strategy under subparagraph (A), the Secretary shall make publicly available an action letter describing the actions taken by the Secretary under subparagraph (A).

(3) DISPUTE RESOLUTION AT INITIAL APPROVAL.—If a proposed risk evaluation and mitigation strategy is submitted under subsection (b)(1) in an application for initial approval of a drug and there is a dispute about the strategy, the responsible person shall use the major dispute resolution proce-

dures as set forth in the letters described in section 101(c) of the Prescription Drug User Fee Amendments of 2007 (Public Law 110–85, title I, 121 Stat. 825).

(4) DISPUTE RESOLUTION IN ALL OTHER CASES.—

(A) REQUEST FOR REVIEW.—

(i) IN GENERAL.—The responsible person may, after the sponsor is required to make a submission under subsection (b)(2) or (g), request in writing that a dispute about the strategy be reviewed by the Drug Safety Oversight Board under subsection (j), except that the determination of the Secretary to require a risk evaluation and mitigation strategy is not subject to review under this paragraph. This clause does not prohibit review under this paragraph of the particular elements of such a strategy.

(ii) SCHEDULING.—On receipt of a request under clause (i), the Secretary shall schedule the dispute involved for review under subparagraph (B) and, not later than 5 business days after scheduling the

dispute for review, shall publish by posting on the Internet or otherwise a notice that the dispute will be reviewed by the Drug Safety Oversight Board.

(B) SCHEDULING REVIEW.—If a responsible person requests review under subparagraph (A), the Secretary—

(i) shall schedule the dispute for review at 1 of the next 2 regular meetings of the Drug Safety Oversight Board, whichever meeting date is more practicable; or

(ii) may convene a special meeting of the Drug Safety Oversight Board to review the matter more promptly, including to meet an action deadline on an application (including a supplemental application).

(C) AGREEMENT AFTER DISCUSSION OR ADMINISTRATIVE APPEALS.—

(i) FURTHER DISCUSSION OR ADMINISTRATIVE APPEALS.—

(I) IN GENERAL.—A request for review under subparagraph (A) shall not preclude further discussions to reach agreement on the risk evaluation and mitigation strategy, and shall

not preclude the use of administrative appeals within the FDA to reach agreement on the strategy, including appeals as described in the letters described in section 101(c) of the Prescription Drug User Fee Amendments of 2007 (Public Law 110–85, title I, 121 Stat. 825) for procedural or scientific matters involving the review of human drug applications and supplemental applications that cannot be resolved at the divisional level.

(II) WITHDRAWAL OF REQUEST OR TERMINATION OF ADMINISTRATIVE APPEALS.—At the time a review has been scheduled under subparagraph (B) and notice of the review has been posted, the responsible person shall either withdraw the request under subparagraph (A) or terminate the use of the administrative appeals.

(ii) AGREEMENT TERMINATES DISPUTE RESOLUTION.—At any time before a decision and order is issued under subparagraph (G), the Secretary (in consulta-

tion with the offices described in subsection (c)(2)) and the responsible person may reach an agreement on the risk evaluation and mitigation strategy through further discussion or administrative appeals, terminating the dispute resolution process, and the Secretary shall issue an action letter or order, as appropriate, that describes the strategy.

(D) MEETING OF THE BOARD.—At a meeting of the Drug Safety Oversight Board described in subparagraph (B), the Board shall—

(i) hear from both parties via written or oral presentation; and

(ii) review the dispute.

(E) RECORD OF PROCEEDINGS.—The Secretary shall ensure that the proceedings of any such meeting are recorded, transcribed, and made public within 90 days of the meeting. The Secretary shall redact the transcript to protect any trade secrets and other information that is exempted from disclosure under section 552 or 552a of title 5.

(F) RECOMMENDATION OF THE BOARD.—Not later than 5 days after any such meeting, the Drug Safety Oversight Board shall provide a written recommendation on resolving the dispute to the Secretary. Not later than 5 days after the Board provides the written recommendation to the Secretary, the Secretary shall make the recommendation available to the public.

(G) ACTION BY THE SECRETARY.—

(i) ACTION LETTER.—With respect to a proposal or assessment referred to in paragraph (1), the Secretary shall issue an action letter that resolves the dispute not later than the later of—

(I) the action deadline for the action letter on the application; or

(II) 7 days after receiving the recommendation of the Drug Safety Oversight Board.

(ii) ORDER.—With respect to an assessment of an approved risk evaluation and mitigation strategy under subsection (g)(1) or under subparagraph (B) or (C) of subsection (g)(2), the Secretary shall

issue an order, which shall be made public, that resolves the dispute not later than 7 days after receiving the recommendation of the Drug Safety Oversight Board.

(H) INACTION.—An approved risk evaluation and mitigation strategy shall remain in effect until the Secretary acts, if the Secretary fails to act as provided for under subparagraph (G).

(I) EFFECT ON ACTION DEADLINE.—With respect to a proposal or assessment referred to in paragraph (1), the Secretary shall be considered to have met the action deadline for the action letter on the application if the responsible person requests the dispute resolution process described in this paragraph and if the Secretary complies with the timing requirements of scheduling review by the Drug Safety Oversight Board, provides a written recommendation, and issues an action letter under subparagraphs (B), (F), and (G), respectively.

(J) DISQUALIFICATION.—An individual who is an employee of the FDA and who reviews a drug or who participated in an administrative appeal under subparagraph (C)(i) with

respect to the drug shall not serve on the Drug Safety Oversight Board at a meeting under subparagraph (D) to review a dispute about the risk evaluation and mitigation strategy for the drug.

(K) ADDITIONAL EXPERTISE.—The Drug Safety Oversight Board may add members with relevant expertise from the FDA, including the Office of Pediatric Therapeutics, the Office of Women's Health, or the Office of Rare Diseases, or from other Federal public health or health care agencies, for a meeting under subparagraph (D).

(5) USE OF ADVISORY COMMITTEES.—The Secretary may convene a meeting of 1 or more advisory committees of the FDA to—

(A) review a concern about the safety of a drug or class of drugs, including before an assessment of the risk evaluation and mitigation strategy or strategies of the drug or drugs is required to be submitted under subparagraph (B) or (C) of subsection (g)(2);

(B) review the risk evaluation and mitigation strategy or strategies of a drug or group of drugs; or

(C) review a dispute under paragraph (3) or (4).

(6) PROCESS FOR ADDRESSING DRUG CLASS EFFECTS.—

(A) IN GENERAL.—When a concern about a serious risk of a drug may be related to the pharmacological class of the drug, the Secretary, in consultation with the offices described in subsection (c)(2), may defer assessments of the approved risk evaluation and mitigation strategies for the drugs until the Secretary has convened 1 or more public meetings to consider possible responses to the concern.

(B) NOTICE.—If the Secretary defers an assessment under subparagraph (A), the Secretary shall—

(i) give notice of the deferral to the holder of the approved covered application not later than 5 days after the deferral;

(ii) publish the deferral in the Federal Register; and

(iii) give notice to the public of any public meetings to be convened under subparagraph (A), including a description of the deferral.

(C) PUBLIC MEETINGS.—The public meetings may include—

(i) 1 or more meetings of the responsible person for the drugs;

(ii) 1 or more meetings of 1 or more advisory committees of the FDA, as provided for under paragraph (5); or

(iii) 1 or more workshops of scientific experts and other stakeholders.

(D) ACTION.—After considering the discussions from any meetings under subparagraph (A), the Secretary may—

(i) announce in the Federal Register a planned regulatory action, including a modification to each risk evaluation and mitigation strategy, for drugs in the pharmacological class;

(ii) seek public comment about the action; and

(iii) after seeking public comment, issue an order addressing the regulatory action.

(7) INTERNATIONAL COORDINATION.—

(A) IN GENERAL.—The Secretary, in consultation with the offices described in sub-

section (c)(2), may coordinate the timetable for submission of assessments under subsection (d), or a study or clinical trial under section 13515(c) of this title, with efforts to identify and assess the serious risks of the drug by the marketing authorities of other countries whose drug approval and risk management processes the Secretary considers comparable to the drug approval and risk management processes of the United States.

(B) NOTICE.—If the Secretary takes action to coordinate the timetable, the Secretary shall give notice to the responsible person.

(8) EFFECT.—Use of the processes described in paragraphs (6) and (7) shall not be the sole source of delay of action on an application or a supplement to an application for a drug.

(i) ABBREVIATED NEW DRUG APPLICATIONS.—

(1) ELEMENTS OF STRATEGY.—

(A) IN GENERAL.—A drug that is the subject of an abbreviated new drug application under section 13511 of this title is subject to only the following elements of the risk evaluation and mitigation strategy required under subsection (b) for the applicable listed drug:

(i) A Medication Guide or patient package insert, if required under subsection (e) for the applicable listed drug.

(ii) A packaging or disposal requirement, if required under subsection (e)(4) for the applicable listed drug.

(iii) Elements to ensure safe use, if required under subsection (f) for the listed drug, which, subject to subparagraph (B), for a drug that is the subject of an application under section 13511 of this title, may use—

(I) a single, shared system with the listed drug under subsection (f); or

(II) a different, comparable aspect of the elements to ensure safe use under subsection (f).

(B) AUTHORITY TO REQUIRE SINGLE, SHARED SYSTEM.—The Secretary may require a drug that is the subject of an application under section 13511 of this title and the listed drug to use a single, shared system under subsection (f), if the Secretary determines that no different, comparable aspect of the elements to

ensure safe use could satisfy the requirements of subsection (f).

(2) ACTION BY SECRETARY.—For an applicable listed drug for which a drug is approved under section 13511 of this title, the Secretary—

(A) shall undertake any communication plan to health care providers required under subsection (e)(3) for the applicable listed drug;

(B) shall permit packaging systems and safe disposal packaging or safe disposal systems that are different from those required for the applicable listed drug under subsection (e)(4); and

(C) shall inform the responsible person for the drug that is approved under section 13511 of this title if the risk evaluation and mitigation strategy for the applicable listed drug is modified.

(3) SHARED REMS.—If the Secretary approves, in accordance with paragraph (1)(A)(iii)(II), a different, comparable aspect of the elements to ensure safe use under subsection (f) for a drug that is the subject of an abbreviated new drug application under section 13511 of this title, the Secretary may require that the different, comparable aspect of the

elements to ensure safe use can be used with respect to any other drug that is the subject of an application under section 13503 or 13511 of this title that references the same listed drug.

(j) DRUG SAFETY OVERSIGHT BOARD.—

(1) IN GENERAL.—There is established a Drug Safety Oversight Board.

(2) COMPOSITION; MEETINGS.—The Drug Safety Oversight Board shall—

(A) be composed of scientists and health care practitioners appointed by the Secretary, each of whom is an employee of the Federal Government;

(B) include representatives from offices throughout the FDA, including the offices responsible for postapproval safety of drugs;

(C) include at least 1 representative each from the National Institutes of Health and the Department (other than the FDA);

(D) include such representatives as the Secretary shall designate from other appropriate agencies that wish to provide representatives; and

(E) meet at least monthly to provide oversight and advice to the Secretary on the management of important drug safety issues.

(k) WAIVER IN PUBLIC HEALTH EMERGENCIES.—The Secretary may waive any requirement of this section with respect to a qualified countermeasure (as defined in section 319F–1(a)(2) of the Public Health Service Act (42 U.S.C. 247d–6a(a)(2))) to which a requirement under this section has been applied, if the Secretary determines that the waiver is required to mitigate the effects of, or reduce the severity of, the circumstances under which—

(1) a determination described in subparagraph (A), (B), or (C) of section 14306(c)(1) of this title has been made by the Secretary of Homeland Security, the Secretary of Defense, or the Secretary, respectively; or

(2) the identification of a material threat described in section 14306(c)(1)(D) of this title has been made pursuant to section 319F–2 of the Public Health Service Act (42 U.S.C. 247d–6b).

(l) PROVISION OF SAMPLES NOT A VIOLATION OF STRATEGY.—The provision of samples of a covered product to an eligible product developer (as those terms are defined in section 49519(a) of this title) shall not be considered a violation of the requirements of any risk evalua-

tion and mitigation strategy that may be in place under this section for the drug.

**§ 13112. Pediatric studies of drugs**

(a) DEFINITION OF PEDIATRIC STUDIES.—In this section, the term ''pediatric studies'' means at least 1 clinical investigation (that, at the Secretary's discretion, may include pharmacokinetic studies) in pediatric age groups (including neonates in appropriate cases) in which a drug is anticipated to be used, and, at the discretion of the Secretary, may include preclinical studies.

(b) MARKET EXCLUSIVITY FOR NEW DRUGS.—

(1) IN GENERAL.—

(A) CONDITIONS.—Except as provided in paragraph (2), each period described in subparagraph (B) is extended as provided in subparagraph (B) if, prior to approval of an application that is submitted under section 13503(a) of this title—

(i) the Secretary determines that information relating to the use of a new drug in the pediatric population may produce health benefits in that population;

(ii) the Secretary makes a written request for pediatric studies (which shall in-

clude a timeframe for completing the pediatric studies);

(iii) the applicant agrees to the request;

(iv) the pediatric studies are completed using appropriate formulations for each age group for which the pediatric study is requested within any such timeframe; and

(v) the reports of the pediatric studies are submitted and accepted in accordance with subsection (d)(4).

(B) EXTENDED PERIODS.—With regard to the drug concerned under subparagraph (A)—

(i)(I)(aa) the period referred to in section 13504(c)(5)(A) of this title, and in section 13511(f)(6)(A) of this title, is deemed to be 5 years and 6 months rather than 5 years, and the references in sections 13504(c)(5)(A) and 13511(f)(6)(A) of this title to 4 years, to 48 months, and to 7½ years are deemed to be 4½ years, 54 months, and 8 years, respectively; or

(bb) the period referred to in subparagraphs (B) and (C) of section 13504(c)(5)

of this title, and in subparagraphs (B) and (C) of section 13511(f)(6) of this title, is deemed to be 3 years and 6 months rather than 3 years; and

(II) if the drug is designated under section 13902 of this title for a rare disease or condition, the period referred to in section 13903(a) of this title is deemed to be 7 years and 6 months rather than 7 years; and

(ii)(I) if the drug is the subject of a listed patent described in subparagraph (C), the period during which an application may not be approved under section 13504(c) of this title or section 13511(f)(2) of this title shall be extended by a period of 6 months after the date the patent expires (including any patent extensions); or

(II) if the drug is the subject of a listed patent for which a certification has been submitted under section 13503(b)(1)(D) or 13511(c)(1)(G)(iv) of this title, and in the patent infringement litigation resulting from the certification the court determines

that the patent is valid and would be infringed, the period during which an application may not be approved under section 13504(c) or 13511(f)(2) of this title shall be extended by a period of 6 months after the date the patent expires (including any patent extensions).

(C) LISTED PATENT.—A listed patent is described in this subparagraph if it is—

(i) a listed patent for which a certification has been submitted under section 13503(b)(1)(B) or 13511(c)(1)(G)(ii) of this title and for which pediatric studies were submitted prior to the expiration of the patent (including any patent extensions); or

(ii) a listed patent for which a certification has been submitted under section 13503(b)(1)(C) or 13511(c)(1)(G)(iii) of this title.

(2) EXCEPTION.—The Secretary shall not extend the period referred to in clause (i) or (ii) of paragraph (1)(B) if the determination made under subsection (d)(4) is made later than 9 months prior to the expiration of the period.

(c) MARKET EXCLUSIVITY FOR ALREADY-MARKETED DRUGS.—

(1) IN GENERAL.—

(A) CONDITIONS.—Except as provided in paragraph (2), each period described in subparagraph (B) is extended as provided in subparagraph (B) if—

(i) the Secretary determines that information relating to the use of an approved drug in the pediatric population may produce health benefits in that population;

(ii) the Secretary makes a written request to the holder of an approved application under section 13503(a) of this title for pediatric studies (which shall include a timeframe for completing the pediatric studies);

(iii) the holder agrees to the request;

(iv) the pediatric studies are completed using appropriate formulations for each age group for which the pediatric study is requested within any such timeframe; and

(v) the reports of the pediatric studies are submitted and accepted in accordance with subsection (d)(4).

(B) EXTENDED PERIODS.—With regard to the drug concerned under subparagraph (A)—

(i)(I)(aa) the period referred to in section 13504(c)(5)(A) of this title, and in section 13511(f)(6)(A) of this title, is deemed to be 5 years and 6 months rather than 5 years, and the references in sections 13504(c)(5)(A) and 13511(f)(6)(A) of this title to 4 years, to 48 months, and to 7½ years are deemed to be 4½ years, 54 months, and 8 years, respectively; or

(bb) the period referred to in subparagraphs (B) and (C) of section 13504(c)(5) of this title, and in subparagraphs (B) and (C) of section 13511(f)(6) of this title, is deemed to be 3 years and 6 months rather than 3 years; and

(II) if the drug is designated under section 13902 of this title for a rare disease or condition, the period referred to in section 13903(a) of this title is deemed to

be 7 years and 6 months rather than 7 years; and

(ii)(I) if the drug is the subject of a listed patent described in subparagraph (C), the period during which an application may not be approved under section 13504(c) of this title or section 13511(f)(2)(B) of this title shall be extended by a period of 6 months after the date the patent expires (including any patent extensions); or

(II) if the drug is the subject of a listed patent for which a certification has been submitted under section 13503(b)(1)(D) or 13511(c)(1)(G)(iv) of this title, and in the patent infringement litigation resulting from the certification the court determines that the patent is valid and would be infringed, the period during which an application may not be approved under section 13504(c) or 13511(f)(2) of this title shall be extended by a period of 6 months after the date the patent expires (including any patent extensions).

(C) LISTED PATENT.—A listed patent is described in this subparagraph if it is—

(i) a listed patent for which a certification has been submitted under section 13503(b)(1)(B) or 13511(c)(1)(G)(ii) of this title and for which pediatric studies were submitted prior to the expiration of the patent (including any patent extensions); or

(ii) a listed patent for which a certification has been submitted under section 13503(b)(1)(C) or 13511(c)(1)(G)(iii) of this title.

(2) EXCEPTION.—The Secretary shall not extend the period referred to in clause (i) or (ii) of paragraph (1)(B) if the determination made under subsection (d)(4) is made later than 9 months prior to the expiration of the period.

(d) CONDUCT OF PEDIATRIC STUDIES.—

(1) REQUEST TO CONDUCT PEDIATRIC STUDIES.—

(A) AUTHORITY.—

(i) IN GENERAL.—The Secretary may, after consultation with the sponsor of an application for an investigational new drug

under section 13510 of this title, the sponsor of an application for a new drug under section 13503(a) of this title, or the holder of an approved application for a drug under section 13503(a) of this title, issue to the sponsor or holder a written request to conduct pediatric studies for the drug.

(ii) REPRESENTATION OF CHILDREN OF ETHNIC AND RACIAL MINORITIES.—In issuing the request, the Secretary shall take into account adequate representation of children of ethnic and racial minorities.

(iii) REQUEST TO BE IN WRITING; TIMEFRAME; PROPOSAL RELATING TO PEDIATRIC LABELING.—The request to conduct pediatric studies shall be in writing and shall include a timeframe for the pediatric studies and a request to the sponsor or holder to propose pediatric labeling resulting from the pediatric studies.

(iv) PEDIATRIC STUDIES IN NEONATES.—If a request under this subparagraph does not request pediatric studies in neonates, the request shall include a state-

ment describing the rationale for not requesting pediatric studies in neonates.

(B) SINGLE WRITTEN REQUEST.—A single written request—

(i) may relate to more than 1 use of a drug; and

(ii) may include uses that are both approved and unapproved.

(2) WRITTEN REQUEST FOR PEDIATRIC STUDIES.—

(A) REQUEST AND RESPONSE.—

(i) IN GENERAL.—If the Secretary makes a written request for pediatric studies (including neonates, as appropriate) under subsection (b) or (c), the applicant or holder, not later than 180 days after receiving the written request, shall respond to the Secretary as to the intention of the applicant or holder to act on the request by—

(I) indicating when the pediatric studies will be initiated, if the applicant or holder agrees to the request; or

(II) indicating that the applicant or holder does not agree to the request and stating the reasons for declining the request.

(ii) DISAGREEMENT WITH REQUEST.—If the applicant or holder does not agree to the request on the grounds that it is not possible to develop the appropriate pediatric formulation, the applicant or holder shall submit to the Secretary the reasons the pediatric formulation cannot be developed.

(B) ADVERSE EVENT REPORTS.—An applicant or holder that agrees to the request for the pediatric studies shall provide the Secretary, at the same time as the submission of the reports of the pediatric studies, with all postmarket adverse event reports—

(i) regarding the drug that is the subject of the pediatric studies; and

(ii) that are available prior to submission of the reports of the pediatric studies.

(3) ACTION ON SUBMISSIONS.—The Secretary shall review and act on a submission by a sponsor or holder of a proposed pediatric study request or a

proposed amendment to a written request for pediatric studies within 120 calendar days of the submission.

(4) MEETING THE PEDIATRIC STUDIES REQUIREMENT.—

(A) ACCEPTANCE OR REJECTION OF REPORTS.—Not later than 180 days after the submission of the reports of the pediatric studies, the Secretary shall accept or reject the reports and notify the sponsor or holder of the acceptance or rejection.

(B) DETERMINATION BY SECRETARY.—The Secretary's only responsibility in accepting or rejecting the reports shall be to determine, within the 180-day period, whether the pediatric studies—

(i) fairly respond to the written request;

(ii) have been conducted in accordance with commonly accepted scientific principles and protocols; and

(iii) have been reported in accordance with the requirements of the Secretary for filing.

(5) EFFECT OF SUBSECTION.—Nothing in this subsection alters or amends—

(A) section 10501(10) of this title;

(B) section 552 of title 5; or

(C) section 1905 of title 18.

(6) CONSULTATION.—With respect to a drug that is a qualified countermeasure (as defined in section 319F–1 of the Public Health Service Act (42 U.S.C. 247d–6a)), a security countermeasure (as defined in section 319F–2 of the Public Health Service Act (42 U.S.C. 247d–6b)), or a qualified pandemic or epidemic product (as defined in section 319F–3 of the Public Health Service Act (42 U.S.C. 247d–6d)), the Secretary shall solicit input from the Assistant Secretary for Preparedness and Response regarding the need for and, from the Director of the Biomedical Advanced Research and Development Authority regarding the conduct of, pediatric studies under this section.

(e) NOTICE OF DETERMINATIONS ON PEDIATRIC STUDIES REQUIREMENT.—

(1) PUBLICATION.—

(A) IN GENERAL.—The Secretary shall publish a notice of any determination that the requirements of subsection (d) have been met

and that submissions and approvals under section 13503(b) or 13511 for a drug will be subject to the provisions of this section.

(B) DATE.—The notice shall be published not later than 30 days after the date of the Secretary's determination regarding market exclusivity and shall include a copy of the written request made under subsection (b) or (c).

(2) IDENTIFICATION OF CERTAIN DRUGS.—

(A) IN GENERAL.—The Secretary shall publish a notice identifying any drug for which a pediatric formulation was developed, studied, and found to be safe and effective in the pediatric population (or specified subpopulation) if the pediatric formulation for the drug is not introduced onto the market within 1 year after the date that the Secretary publishes the notice described in paragraph (1).

(B) DATE.—The notice identifying the drug shall be published not later than 30 days after the date of the expiration of the 1-year period.

(f) INTERNAL REVIEW OF WRITTEN REQUESTS AND PEDIATRIC STUDIES.—

(1) INTERNAL REVIEW.—The Secretary shall utilize the internal committee established under section 13114 of this title to review all written requests issued in accordance with paragraph (2).

(2) REVIEW OF WRITTEN REQUESTS.—The committee referred to in paragraph (1) shall review all written requests issued pursuant to this section prior to being issued.

(3) REVIEW OF PEDIATRIC STUDIES.—The committee referred to in paragraph (1) may review pediatric studies conducted pursuant to this section to make a recommendation to the Secretary whether to accept or reject the reports under subsection (d)(4).

(4) ACTIVITY BY COMMITTEE.—The committee referred to in paragraph (1) may operate using appropriate members of the committee and need not convene all members of the committee.

(5) DOCUMENTATION OF COMMITTEE ACTION.—For each drug, the committee referred to in paragraph (1) shall document, for each activity described in paragraph (2) or (3), which members of the committee participated in the activity.

(6) TRACKING PEDIATRIC STUDIES AND LABELING CHANGES.—The Secretary, in consultation with

the committee referred to in paragraph (1), shall track and make available to the public, in an easily accessible manner, including through posting on the FDA website—

(A) the number of pediatric studies conducted under this section and under section 409I of the Public Health Service Act (42 U.S.C. 284m);

(B) the specific drugs and drug uses, including labeled and off-labeled indications, studied under the sections;

(C) the types of pediatric studies conducted under the sections, including trial design, the number of pediatric patients studied, and the number of centers and countries involved;

(D) the number of pediatric formulations developed and the number of pediatric formulations not developed and the reasons the formulations were not developed;

(E) the labeling changes made as a result of pediatric studies conducted under the sections;

(F) an annual summary of labeling changes made as a result of pediatric studies

conducted under the sections for distribution pursuant to subsection (k)(2); and

(G) information regarding reports submitted on or after September 27, 2007.

(7) INFORMING INTERNAL COMMITTEE.—The Secretary shall provide to the committee referred to in paragraph (1) any response issued to an applicant or holder with respect to a proposed pediatric study request.

(g) LIMITATIONS.—Notwithstanding subsection (c)(2), a drug to which the 6-month period under subsection (b) or (c) has already been applied—

(1) may receive an additional 6-month period under subsection (c)(1)(B)(i)(I)(bb) for a supplemental application if all other requirements under this section are satisfied, except that the drug may not receive any additional such period under subsection (c)(1)(B)(ii); and

(2) may not receive any additional such period under subsection (c)(1)(B)(i)(II).

(h) RELATIONSHIP TO PEDIATRIC RESEARCH REQUIREMENTS.—Exclusivity under this section shall be granted only for the completion of a pediatric study or pediatric studies that are the subject of a written request and for which reports are submitted and accepted in ac-

cordance with subsection (d)(4). Written requests under this section may consist of a pediatric study or pediatric studies required under section 13113 of this title.

(i) LABELING CHANGES.—

(1) PRIORITY STATUS FOR PEDIATRIC APPLICATIONS AND SUPPLEMENTS.—Any application or supplement to an application under chapter 135 of this title proposing a labeling change as a result of any pediatric study conducted pursuant to this section—

(A) shall be considered to be a priority application or supplement; and

(B) shall be subject to the performance goals established by the Commissioner for priority drugs.

(2) DISPUTE RESOLUTION.—

(A) REQUEST FOR LABELING CHANGE AND FAILURE TO AGREE.—If the Commissioner determines that the sponsor and the Commissioner have been unable to reach agreement on appropriate changes to the labeling for the drug that is the subject of the application, not later than 180 days after the date of submission of the application—

(i) the Commissioner shall request that the sponsor of the application make

any labeling change that the Commissioner determines to be appropriate; and

(ii) if the sponsor of the application does not agree within 30 days after the Commissioner's request to make a labeling change requested by the Commissioner, the Commissioner shall refer the matter to the Pediatric Advisory Committee.

(B) ACTION BY THE PEDIATRIC ADVISORY COMMITTEE.—Not later than 90 days after receiving a referral under subparagraph (A)(ii), the Pediatric Advisory Committee shall—

(i) review the pediatric study reports; and

(ii) make a recommendation to the Commissioner concerning appropriate labeling changes, if any.

(C) CONSIDERATION OF RECOMMENDATIONS.—The Commissioner shall consider the recommendations of the Pediatric Advisory Committee and, if appropriate, not later than 30 days after receiving the recommendation, make a request to the sponsor of the application to make any labeling change that the Commissioner determines to be appropriate.

(D) MISBRANDING.—If the sponsor of the application, within 30 days after receiving a request under subparagraph (C), does not agree to make a labeling change requested by the Commissioner, the Commissioner may deem the drug that is the subject of the application to be misbranded.

(E) NO EFFECT ON AUTHORITY.—Nothing in this subsection limits the authority of the United States to bring an enforcement action under this subtitle when a drug lacks appropriate pediatric labeling. Neither course of action (the Pediatric Advisory Committee process or an enforcement action referred to in the preceding sentence) shall preclude, delay, or serve as the basis to stay the other course of action.

(j) OTHER LABELING CHANGES.—If the Secretary determines that a pediatric study conducted under this section does or does not demonstrate that the drug that is the subject of the pediatric study is safe and effective, including whether the pediatric study results are inconclusive, in pediatric populations or subpopulations, the Secretary shall order the labeling of the product to include information about the results of the pediatric study and a statement of the Secretary's determination.

(k) DISSEMINATION OF PEDIATRIC INFORMATION.—

(1) IN GENERAL.—Not later than 210 days after the date of submission of a report on a pediatric study under this section, the Secretary shall make available to the public the medical, statistical, and clinical pharmacology reviews of pediatric studies conducted under subsection (b) or (c).

(2) DISSEMINATION OF INFORMATION REGARDING LABELING CHANGES.—The Secretary shall include as a requirement of a written request that the sponsors of the pediatric studies that result in labeling changes that are reflected in the annual summary developed pursuant to subsection (f)(6)(F) distribute, at least annually (or more frequently if the Secretary determines that it would be beneficial to the public health), that information to physicians and other health care providers.

(3) EFFECT OF SUBSECTION.—Nothing in this subsection alters or amends—

(A) section 10501(10) of this title;

(B) section 552 of title 5; or

(C) section 1905 of title 18.

(l) ADVERSE EVENT REPORTING.—

(1) REPORTING IN FIRST 18-MONTH PERIOD.—

(A) REFERRAL TO OFFICE OF PEDIATRIC THERAPEUTICS.—During the 18-month period beginning on the date a labeling change is approved pursuant to subsection (i), the Secretary shall ensure that all adverse event reports that have been received for the drug (regardless of when the report was received) are referred to the Office of Pediatric Therapeutics.

(B) REVIEW BY PEDIATRIC ADVISORY COMMITTEE.—In considering the reports, the Director of the Office of Pediatric Therapeutics shall provide for the review of the reports by the Pediatric Advisory Committee, including obtaining any recommendations of the Committee regarding whether the Secretary should take action under this subtitle in response to the reports.

(2) REPORTING IN SUBSEQUENT PERIODS.—

(A) REFERRAL TO OFFICE OF PEDIATRIC THERAPEUTICS.—Following the 18-month period described in paragraph (1), the Secretary shall, as appropriate, refer to the Office of Pediatric Therapeutics all pediatric adverse event reports for a drug for which a pediatric study was conducted under this section.

(B) REVIEW BY PEDIATRIC ADVISORY COMMITTEE.—In considering the reports, the Director of the Office of Pediatric Therapeutics may provide for the review of the reports by the Pediatric Advisory Committee, including obtaining any recommendation of the Committee regarding whether the Secretary should take action in response to the reports.

(3) PRESERVATION OF AUTHORITY.—Nothing in this subsection shall prohibit the Office of Pediatric Therapeutics from providing for the review of adverse event reports by the Pediatric Advisory Committee prior to the 18-month period referred to in paragraph (1), if the review is necessary to ensure safe use of a drug in a pediatric population.

(4) EFFECT.—The requirements of this subsection shall supplement, not supplant, other review of the adverse event reports by the Secretary.

(m) CLARIFICATION OF INTERACTION OF MARKET EXCLUSIVITY UNDER THIS SECTION AND MARKET EXCLUSIVITY AWARDED TO AN APPLICANT FOR APPROVAL OF A DRUG UNDER SECTION 13511 OF THIS TITLE.—If a 180-day period under section 13511(f)(2)(D) of this title overlaps with a 6-month exclusivity period under this section, so that the applicant for approval of a drug under

section 13511 of this title entitled to the 180-day period under that section loses a portion of the 180-day period to which the applicant is entitled for the drug, the 180-day period shall be extended from—

(1) the date on which the 180-day period would have expired by the number of days of the overlap, if the 180-day period would, but for the application of this subsection, expire after the 6-month exclusivity period; or

(2) the date on which the 6-month exclusivity period expires by the number of days of the overlap, if the 180-day period would, but for the application of this subsection, expire during the 6-month exclusivity period.

(n) REFERRAL IF PEDIATRIC STUDIES NOT SUBMITTED.—

(1) IN GENERAL.—If pediatric studies of a drug have not been submitted by the date specified in the written request issued or if the applicant or holder does not agree to the request under subsection (d) and if the Secretary, through the committee established under section 13114 of this title, determines that there is a continuing need for information relating to the use of the drug in the pediatric population

(including neonates, as appropriate), the Secretary shall carry out the following:

(A) For a drug for which a listed patent has not expired, or for which a period of exclusivity eligible for extension under subsection (b)(1) or (c)(1), or under paragraph (2) or (3) of section 351(m) of the Public Health Service Act (42 U.S.C. 262(m)), has not ended, the Secretary shall make a determination regarding whether an assessment shall be required to be submitted under section 13113(b) of this title.

(B) For a drug that has no unexpired listed patents and for which no unexpired periods of exclusivity eligible for extension under subsection (b)(1) or (c)(1), or under paragraph (2) or (3) of section 351(m) of the Public Health Service Act (42 U.S.C. 262(m)), apply, the Secretary shall refer the drug for inclusion on the list established under section 409I of the Public Health Service Act (42 U.S.C. 284m) for the conduct of pediatric studies.

(C) For a drug that is a qualified countermeasure (as defined in section 319F–1 of the Public Health Service Act (42 U.S.C. 247d–6a)), a security countermeasure (as defined in

section 319F–2 of the Public Health Service Act (42 U.S.C. 247d–6b)), or a qualified pandemic or epidemic product (as defined in section 319F–3 of the Public Health Service Act (42 U.S.C. 247d–6d)), in addition to any action with respect to the drug under subparagraph (A) or (B), the Secretary shall notify the Assistant Secretary for Preparedness and Response and the Director of the Biomedical Advanced Research and Development Authority of all pediatric studies in the written request issued by the Commissioner.

(2) PUBLIC NOTICE.—The Secretary shall give the public notice of a decision under paragraph (1)(A) not to require an assessment under section 13113 of this title and the basis for the decision.

(3) EFFECT OF SUBSECTION.—Nothing in this subsection alters or amends—

(A) section 10501(10) of this title;

(B) section 552 of title 5; or

(C) section 1905 of title 18.

(o) PROMPT APPROVAL OF DRUGS WHEN PEDIATRIC INFORMATION IS ADDED TO LABELING.—

(1) IN GENERAL.—A drug for which an application has been submitted or approved under section

13503(b) or 13511 of this title shall not be considered ineligible for approval under chapter 135 of this title or misbranded under chapter 133 of this title on the basis that the labeling of the drug omits a pediatric indication or any other aspect of labeling pertaining to pediatric use when the omitted indication or other aspect is protected by patent, or by exclusivity under subparagraph (B) or (C) of section 13511(f)(6) of this title, subparagraph (B) or (C) of section 13504(c)(5) of this title, or section 13903(a) of this title, or by an extension of the exclusivity under this section or section 13116 of this title.

(2) LABELING.—Notwithstanding subparagraphs (B) and (C) of section 13511(f)(6) of this title, subparagraphs (B) and (C) of section 13504(c)(5) of this title, or section 13903 of this title, the Secretary may require that the labeling of a drug approved pursuant to an application submitted under section 13503(b) or 13511 of this title that omits a pediatric indication or other aspect of labeling as described in paragraph (1) include—

(A) a statement that, because of marketing exclusivity for a manufacturer—

(i) the drug is not labeled for pediatric use; or

(ii) in the case of a drug for which there is an additional pediatric use not referred to in paragraph (1), the drug is not labeled for the pediatric use under paragraph (1); and

(B) a statement of any appropriate pediatric contraindications, warnings, precautions, or other information that the Secretary considers necessary to ensure safe use.

(3) PRESERVATION OF PEDIATRIC EXCLUSIVITY AND EXTENSIONS.—This subsection does not affect—

(A) the availability or scope of exclusivity under—

(i) this section;

(ii) chapter 135 of this title for pediatric formulations; or

(iii) section 13903 of this title;

(B) the availability or scope of an extension to any such exclusivity, including an extension under this section or section 13116 of this title;

(C) the question of the eligibility for approval under chapter 135 of this title of any application described in section 13503(b) or

13511 of this title that omits any other aspect of labeling protected by exclusivity under—

(i) subparagraph (B) or (C) of section 13511(f)(6) of this title;

(ii) subparagraph (B) or (C) of section 13504(c)(5) of this title; or

(iii) section 13903(a) of this title; or

(D) except as expressly provided in paragraphs (1) and (2), the operation of chapter 135 of this title or section 13903 of this title.

**§ 13113. Research into pediatric uses for drugs and biological products**

(a) NEW DRUGS AND BIOLOGICAL PRODUCTS.—

(1) IN GENERAL.—

(A) SUBMISSION OF ASSESSMENTS.—

(i) IN GENERAL.—Except with respect to an application for which subparagraph (B) applies, a person that submits an application (or supplement to an application) described in clause (ii) shall submit with the application the assessments described in paragraph (2).

(ii) APPLICATION.—An application (or supplement to an application) is described

in this clause if it is an application (or supplement to an application) for a drug—

(I) under chapter 135 of this title for a new active ingredient, new indication, new dosage form, new dosing regimen, or new route of administration; or

(II) under section 351 of the Public Health Service Act (42 U.S.C. 262) for a new active ingredient, new indication, new dosage form, new dosing regimen, or new route of administration.

(B) CERTAIN MOLECULARLY TARGETED CANCER INDICATIONS.—A person that submits, on or after the date that is 3 years after August 18, 2017, an original application for a new active ingredient under chapter 135 of this title or section 351 of the Public Health Service Act (42 U.S.C. 262), shall submit with the application reports on the investigation described in paragraph (3) if the drug or biological product that is the subject of the application is—

(i) intended for the treatment of an adult cancer; and

(ii) directed at a molecular target that the Secretary determines to be substantially relevant to the growth or progression of a pediatric cancer.

(2) ASSESSMENTS.—

(A) IN GENERAL.—The assessments referred to in paragraph (1)(A) shall contain data, gathered using appropriate formulations for each age group for which the assessment is required, that are adequate—

(i) to assess the safety and effectiveness of the drug or the biological product for the claimed indications in all relevant pediatric subpopulations; and

(ii) to support dosing and administration for each pediatric subpopulation for which the drug or the biological product is safe and effective.

(B) SIMILAR COURSE OF DISEASE OR SIMILAR EFFECT OF DRUG OR BIOLOGICAL PRODUCT.—

(i) IN GENERAL.—If the course of the disease and the effects of the drug are sufficiently similar in adults and pediatric patients, the Secretary may conclude that pe-

diatric effectiveness can be extrapolated from adequate and well-controlled studies in adults, usually supplemented with other information obtained in pediatric patients, such as pharmacokinetic studies.

(ii) EXTRAPOLATION BETWEEN AGE GROUPS.—A study may not be needed in each pediatric age group if data from 1 age group can be extrapolated to another age group.

(iii) INFORMATION ON EXTRAPOLATION.—A brief documentation of the scientific data supporting the conclusion under clauses (i) and (ii) shall be included in any pertinent reviews for the application under chapter 135 of this title or section 351 of the Public Health Service Act (42 U.S.C. 262).

(3) MOLECULARLY TARGETED PEDIATRIC CANCER INVESTIGATION.—

(A) IN GENERAL.—With respect to a drug or biological product described in paragraph (1)(B), the investigation described in this paragraph is a molecularly targeted pediatric cancer investigation, which shall be designed to yield

clinically meaningful pediatric study data, gathered using appropriate formulations for each age group for which the study is required, regarding dosing, safety, and preliminary efficacy to inform potential pediatric labeling.

(B) EXTRAPOLATION OF DATA.—Paragraph (2)(B) shall apply to investigations described in this paragraph to the same extent and in the same manner as paragraph (2)(B) applies with respect to the assessments required under paragraph (1)(A).

(C) DEFERRALS AND WAIVERS.—Deferrals and waivers under paragraphs (4) and (5) shall apply to investigations described in this paragraph to the same extent and in the same manner as the deferrals and waivers apply with respect to the assessments under paragraph (2)(B).

(4) DEFERRAL.—

(A) IN GENERAL.—On the initiative of the Secretary or at the request of the applicant, the Secretary may defer submission of some or all assessments required under paragraph (1)(A) or reports on the investigation required under paragraph (1)(B) until a specified date after

approval of the drug or issuance of the license for a biological product if—

(i) the Secretary finds that—

(I) the drug or biological product is ready for approval for use in adults before pediatric studies are complete;

(II) pediatric studies should be delayed until additional safety or effectiveness data have been collected; or

(III) there is another appropriate reason for deferral; and

(ii) the applicant submits to the Secretary—

(I) certification of the grounds for deferring the assessments or reports on the investigation;

(II) a pediatric study plan as described in subsection (e);

(III) evidence that the studies are being conducted or will be conducted with due diligence and at the earliest possible time; and

(IV) a timeline for the completion of the studies.

(B) DEFERRAL EXTENSION.—

(i) IN GENERAL.—On the initiative of the Secretary or at the request of the applicant, the Secretary may grant an extension of a deferral approved under subparagraph (A) for submission of some or all assessments required under paragraph (1)(A) or reports on the investigation required under paragraph (1)(B) if—

(I) the Secretary determines that the conditions described in subclause (II) or (III) of subparagraph (A)(i) continue to be met; and

(II) the applicant submits a new timeline under subparagraph (A)(ii)(IV) and any significant updates to the information required under subparagraph (A)(ii).

(ii) TIMING AND INFORMATION.—

(I) SUBMISSION OF DEFERRAL EXTENSION REQUEST.—If the deferral extension under this subparagraph is requested by the applicant, the applicant shall submit the deferral extension request containing the informa-

tion described in this subparagraph not less than 90 days prior to the date that the deferral would expire.

(II) RESPONSE BY SECRETARY.—The Secretary shall respond to the request not later than 45 days after the receipt of the letter.

(III) EXTENDED DATE.—If the Secretary grants such an extension, the specified date shall be the extended date.

(IV) NON-COMPLIANCE LETTER NOT TO BE ISSUED.—The sponsor of the required assessment under paragraph (1)(A) or reports on the investigation under paragraph (1)(B) shall not be issued a letter described in subsection (d) unless the specified or extended date of submission for the required studies has passed or if the request for an extension is pending.

(V) PUBLIC UPDATE OF STATUS OF STUDIES.—Nothing in this clause shall prevent the Secretary from updating the status of a study or studies

publicly if components of the study or studies are late or delayed.

(C) ANNUAL REVIEW.—

(i) IN GENERAL.—On an annual basis following the approval of a deferral under subparagraph (A), the applicant shall submit to the Secretary—

(I) information detailing the progress made in conducting pediatric studies;

(II) if no progress has been made in conducting the studies, evidence and documentation that the studies will be conducted with due diligence and at the earliest possible time;

(III) projected completion date for pediatric studies; and

(IV) the reason or reasons why a deferral or deferral extension continues to be necessary.

(ii) PUBLIC AVAILABILITY.—Not later than 90 days after the submission to the Secretary of the information submitted through the annual review under clause (i), the Secretary shall make available to the

public in an easily accessible manner, including through the FDA website—

(I) the information;

(II) the name of the applicant for the product subject to the assessment or investigation;

(III) the date on which the product was approved; and

(IV) the date of each deferral or deferral extension under this paragraph for the product.

(5) WAIVERS.—

(A) FULL WAIVER.—On the initiative of the Secretary or at the request of an applicant, the Secretary shall grant a full waiver, as appropriate, of the requirement to submit assessments or reports on the investigation for a drug or biological product under this subsection if the applicant certifies and the Secretary finds that—

(i) necessary studies are impossible or highly impracticable (because, for example, the number of patients is so small or the patients are geographically dispersed);

(ii) there is evidence strongly suggesting that the drug or biological product would be ineffective or unsafe in all pediatric age groups; or

(iii) the drug or biological product—

(I) does not represent a meaningful therapeutic benefit over existing therapies for pediatric patients; and

(II) is not likely to be used in a substantial number of pediatric patients.

(B) PARTIAL WAIVER.—On the initiative of the Secretary or at the request of an applicant, the Secretary shall grant a partial waiver, as appropriate, of the requirement to submit assessments or reports on the investigation for a drug or biological product under this subsection with respect to a specific pediatric age group if the applicant certifies and the Secretary finds that—

(i) necessary studies are impossible or highly impracticable (because, for example, the number of patients in that age group is so small or patients in that age group are geographically dispersed);

(ii) there is evidence strongly suggesting that the drug or biological product would be ineffective or unsafe in that age group;

(iii) the drug or biological product—

(I) does not represent a meaningful therapeutic benefit over existing therapies for pediatric patients in that age group; and

(II) is not likely to be used by a substantial number of pediatric patients in that age group; or

(iv) the applicant can demonstrate that reasonable attempts to produce a pediatric formulation necessary for that age group have failed.

(C) PEDIATRIC FORMULATION NOT POSSIBLE.—

(i) SCOPE OF PARTIAL WAIVER.—If a partial waiver is granted on the ground that it is not possible to develop a pediatric formulation, the waiver shall cover only the pediatric groups requiring that formulation.

(ii) REQUIRED DOCUMENTATION.—An applicant seeking a partial waiver under clause (i) shall submit to the Secretary documentation detailing why a pediatric formulation cannot be developed and, if the waiver is granted, the applicant's submission shall promptly be made available to the public in an easily accessible manner, including through posting on the FDA website.

(D) LABELING REQUIREMENT.—If the Secretary grants a full or partial waiver because there is evidence that a drug or biological product would be ineffective or unsafe in pediatric populations, the information shall be included in the labeling for the drug or biological product.

(b) MARKETED DRUGS AND BIOLOGICAL PRODUCTS.—

(1) IN GENERAL.—The Secretary may (by order in the form of a letter) require the sponsor or holder of an approved application for a drug under chapter 135 of this title or the holder of a license for a biological product under section 351 of the Public Health Service Act (42 U.S.C. 262) to sub-

mit by a specified date the assessments described in subsection (a)(2), if the Secretary finds that—

(A)(i) the drug or biological product is used for a substantial number of pediatric patients for the labeled indications; and

(ii) adequate pediatric labeling could confer a benefit on pediatric patients;

(B) there is reason to believe that the drug or biological product would represent a meaningful therapeutic benefit over existing therapies for pediatric patients for 1 or more of the claimed indications; or

(C) the absence of adequate pediatric labeling could pose a risk to pediatric patients.

(2) WAIVERS.—

(A) FULL WAIVER.—At the request of an applicant, the Secretary shall grant a full waiver, as appropriate, of the requirement to submit assessments under this subsection if the applicant certifies and the Secretary finds that—

(i) necessary studies are impossible or highly impracticable (because, for example, the number of patients in that age group is so small or patients in that age group are geographically dispersed); or

(ii) there is evidence strongly suggesting that the drug or biological product would be ineffective or unsafe in all pediatric age groups.

(B) PARTIAL WAIVER.—At the request of an applicant, the Secretary shall grant a partial waiver, as appropriate, of the requirement to submit assessments under this subsection with respect to a specific pediatric age group if the applicant certifies and the Secretary finds that—

(i) necessary studies are impossible or highly impracticable (because, for example, the number of patients in that age group is so small or patients in that age group are geographically dispersed);

(ii) there is evidence strongly suggesting that the drug or biological product would be ineffective or unsafe in that age group;

(iii)(I) the drug or biological product—

(aa) does not represent a meaningful therapeutic benefit over existing

therapies for pediatric patients in that age group; and

(bb) is not likely to be used in a substantial number of pediatric patients in that age group; and

(II) the absence of adequate labeling could not pose significant risks to pediatric patients; or

(iv) the applicant can demonstrate that reasonable attempts to produce a pediatric formulation necessary for that age group have failed.

(C) PEDIATRIC FORMULATION NOT POSSIBLE.—

(i) SCOPE OF WAIVER.—If a waiver is granted on the ground that it is not possible to develop a pediatric formulation, the waiver shall cover only the pediatric groups requiring that formulation.

(ii) REQUIRED DOCUMENTATION.—An applicant seeking either a full or partial waiver shall submit to the Secretary documentation detailing why a pediatric formulation cannot be developed and, if the waiver is granted, the applicant's submission

shall promptly be made available to the public in an easily accessible manner, including through posting on the FDA website.

(D) LABELING REQUIREMENT.—If the Secretary grants a full or partial waiver because there is evidence that a drug or biological product would be ineffective or unsafe in pediatric populations, the information shall be included in the labeling for the drug or biological product.

(3) EFFECT OF SUBSECTION.—Nothing in this subsection alters or amends—

(A) section 10501(10) of this title;

(B) section 552 of title 5; or

(C) section 1905 of title 18.

(c) MEANINGFUL THERAPEUTIC BENEFIT.—For the purposes of subparagraphs (A)(iii)(I) and (B)(iii)(I) of subsection (a)(5) and paragraphs (1)(B) and (2)(B)(iii)(I)(aa) of subsection (b), a drug or biological product shall be considered to represent a meaningful therapeutic benefit over existing therapies if the Secretary determines that—

(1) if approved, the drug or biological product could represent an improvement in the treatment,

diagnosis, or prevention of a disease, compared with marketed products adequately labeled for that use in the relevant pediatric population; or

(2) the drug or biological product is in a class of products or for an indication for which there is a need for additional options.

(d) SUBMISSION OF ASSESSMENTS AND REPORTS ON THE INVESTIGATION.—If a person fails to submit a required assessment described in subsection (a)(2) or report on the investigation described in subsection (a)(3), fails to meet the applicable requirements in subsection (a)(4), or fails to submit a request for approval of a pediatric formulation described in subsection (a) or (b), in accordance with applicable provisions of subsections (a) and (b), the following shall apply:

(1) NON-COMPLIANCE LETTER.—

(A) IN GENERAL.—The Secretary shall issue a non-compliance letter to the person informing the person of the failure to submit or meet the requirements of the applicable subsection.

(B) DEADLINE FOR RESPONSE.—The letter shall require the person to respond in writing within 45 calendar days of issuance of the letter

(C) DEFERRAL EXTENSION MAY BE INCLUDED IN RESPONSE.—The response may include the person's request for a deferral extension if applicable.

(D) PUBLIC AVAILAIBILITY.—The letter and the person's written response to the letter shall be made publicly available on the FDA website 60 calendar days after issuance, with redactions for any trade secrets and confidential commercial information.

(E) INAPPLICABILITY RELATING TO LETTER ISSUED IN ERROR.—If the Secretary determines that the letter was issued in error, the requirements of this paragraph shall not apply.

(F) PEDIATRIC ADVISORY COMMITTEE.—The Secretary shall inform the Pediatric Advisory Committee of letters issued under this paragraph and responses to the letters.

(2) MISBRANDED DRUG OR BIOLOGICAL PRODUCT.—The drug or biological product that is the subject of an assessment described in subsection (a)(2) or the investigation described in subsection (a)(3), applicable requirements in subsection (a)(4), or request for approval of a pediatric formulation described in subsection (a) or (b), may be considered

misbranded solely because of that failure and subject to relevant enforcement action (except that the drug or biological product shall not be subject to action under section 10503 of this title), but the failure shall not be the basis for a proceeding—

(A) to withdraw approval for a drug under section 13506 of this title; or

(B) to revoke the license for a biological product under section 351 of the Public Health Service Act (42 U.S.C. 262).

(e) PEDIATRIC STUDY PLANS.—

(1) IN GENERAL.—An applicant subject to subsection (a) shall submit to the Secretary an initial pediatric study plan.

(2) TIMING; CONTENT; MEETINGS.—

(A) TIMING.—

(i) IN GENERAL.—An applicant shall submit the initial pediatric study plan under paragraph (1)—

(I) before the date on which the applicant submits the assessments under subsection (a)(2) or reports on the investigation described in subsection (a)(3); and

(II) not later than—

(aa) 60 calendar days after the date of the end-of-Phase 2 meeting (as the term is used in section 312.47 of title 21, Code of Federal Regulations, or successor regulations); or

(bb) such other time as may be agreed on between the Secretary and the applicant.

(ii) EFFECT OF SECTION.—Nothing in this section shall preclude the Secretary from accepting the submission of an initial pediatric study plan earlier than the date otherwise applicable under this subparagraph.

(B) CONTENT OF INITIAL PEDIATRIC STUDY PLAN.—The initial pediatric study plan shall include—

(i) an outline of the pediatric study or studies that the applicant plans to conduct (including, to the extent practicable, study objectives and design, age groups, relevant endpoints, and statistical approach);

(ii) any request for a deferral, partial waiver, or waiver under this section, if ap-

plicable, along with any supporting information; and

(iii) other information specified in the regulations promulgated under paragraph (7).

(C) MEETINGS.—The Secretary—

(i) shall meet with the applicant—

(I) if requested by the applicant with respect to a drug or biological product that is intended to treat a serious or life-threatening disease or condition, to discuss preparation of the initial pediatric study plan, not later than the end-of-Phase 1 meeting (as the term is used in section 312.82(b) of title 21, Code of Federal Regulations, or successor regulations) or within 30 calendar days of receipt of the request, whichever is later;

(II) to discuss the initial pediatric study plan as soon as practicable, but not later than 90 calendar days after the receipt of the plan under subparagraph (A); and

(III) to discuss the bases for the deferral under subsection (a)(4) or a full or partial waiver under subsection (a)(5);

(ii) may determine that a written response to the initial pediatric study plan is sufficient to communicate comments on the initial pediatric study plan, and that no meeting under clause (i)(II) is necessary; and

(iii) if the Secretary determines that no meeting under clause (i)(II) is necessary, shall notify the applicant of the determination and provide written comments of the Secretary as soon as practicable, but not later than 90 calendar days after the receipt of the initial pediatric study plan.

(3) AGREED INITIAL PEDIATRIC STUDY PLAN.—Not later than 90 calendar days following the meeting under paragraph (2)(C)(i)(II) or the receipt of a written response from the Secretary under paragraph (2)(C)(iii), the applicant shall document agreement on the initial pediatric study plan in a submission to the Secretary marked ''Agreed Initial Pediatric Study Plan'', and the Secretary shall con-

firm the agreement to the applicant in writing not later than 30 calendar days of receipt of the agreed initial pediatric study plan.

(4) DEFERRAL AND WAIVER.—If the agreed initial pediatric study plan contains a request from the applicant for a deferral, partial waiver, or waiver under this section, the written confirmation under paragraph (3) shall include a recommendation from the Secretary as to whether the request meets the standards under paragraph (4) or (5) of subsection (a).

(5) AMENDMENTS TO THE AGREED INITIAL PEDIATRIC STUDY PLAN.—

(A) TIMING.—At the initiative of the Secretary or the applicant, the agreed initial pediatric study plan may be amended at any time.

(B) APPLICABILITY OF CERTAIN REQUIREMENTS.—The requirements of paragraph (2)(C) shall apply to any such proposed amendment in the same manner and to the same extent as the requirements apply to an initial pediatric study plan under paragraph (1). The requirements of paragraphs (3) and (4) shall apply to any agreement resulting from the proposed amendment in the same manner and to the same ex-

tent as the requirements apply to an agreed initial pediatric study plan.

(6) INTERNAL COMMITTEE.—The Secretary shall consult the internal committee under section 13114 of this title on the review of the initial pediatric study plan, the agreed initial pediatric study plan, and any significant amendments to the plans.

(7) REQUIRED RULEMAKING.—Not later than 1 year after July 9, 2012, the Secretary shall promulgate proposed regulations and issue guidance to implement the provisions of this subsection.

(f) REVIEW OF PEDIATRIC STUDY PLANS, ASSESSMENTS, DEFERRALS, DEFERRAL EXTENSIONS, AND WAIVERS.—

(1) REVIEW.—The Secretary shall utilize the internal committee established under section 13114 of this title to provide consultation to reviewing divisions on—

(A) initial pediatric study plans, agreed initial pediatric study plans, and any significant amendments to the plans;

(B) assessments prior to approval of an application or supplement for which a pediatric assessment is required under this section; and

(C) all deferral, deferral extension, and waiver requests granted pursuant to this section.

(2) ACTIVITY BY COMMITTEE.—The internal committee referred to in paragraph (1) may operate using appropriate members of the internal committee and need not convene all members of the internal committee.

(3) DOCUMENTATION OF INTERNAL COMMITTEE ACTION.—For each drug or biological product, the internal committee referred to in paragraph (1) shall document, for each activity described in paragraph (4) or (5), which members of the committee participated in the activity.

(4) REVIEW OF PEDIATRIC STUDY PLANS, ASSESSMENTS, DEFERRALS, DEFERRAL EXTENSIONS, AND WAIVERS.—

(A) TIMING OF CONSULTATIONS.—Consultation on initial pediatric study plans, agreed initial pediatric study plans, and assessments by the internal committee referred to in paragraph (1) pursuant to this section shall occur prior to approval of an application or supplement for which a pediatric assessment is required under this section.

(B) REVIEW.—The internal committee shall review all requests for deferrals, deferral extensions, and waivers from the requirement to submit a pediatric assessment granted under this section and shall provide recommendations as needed to reviewing divisions, including with respect to whether such a supplement, when submitted, shall be considered for priority review.

(5) RETROSPECTIVE REVIEW OF PEDIATRIC ASSESSMENTS, DEFERRALS, AND WAIVERS.—Not later than 1 year after September 27, 2007, the internal committee referred to in paragraph (1) shall conduct a retrospective review and analysis of a representative sample of assessments submitted and deferrals and waivers approved under this section since December 3, 2003. The review shall include an analysis of the quality and consistency of pediatric information in pediatric assessments and the appropriateness of waivers and deferrals granted. Based on the review, the Secretary shall issue recommendations to the review divisions for improvements and initiate guidance to industry related to the scope of pediatric studies required under this section.

(6) TRACKING OF ASSESSMENTS AND LABELING CHANGES.—The Secretary, in consultation with the internal committee referred to in paragraph (1), shall track and make available to the public in an easily accessible manner, including through posting on the FDA website—

(A) the number of assessments conducted under this section;

(B) the specific drugs and biological products and their uses assessed under this section;

(C) the types of assessments conducted under this section, including trial design, the number of pediatric patients studied, and the number of centers and countries involved;

(D) aggregated on an annual basis—

(i) the total number of deferrals and deferral extensions requested and granted under this section and, if granted, the reasons for each such deferral or deferral extension;

(ii) the timeline for completion of the assessments;

(iii) the number of assessments completed and pending; and

(iv) the number of postmarket noncompliance letters issued pursuant to subsection (d), and the recipients of the letters;

(E) the number of waivers requested and granted under this section and, if granted, the reasons for the waivers;

(F) the number of pediatric formulations developed and the number of pediatric formulations not developed and the reasons any such formulation was not developed;

(G) the labeling changes made as a result of assessments conducted under this section;

(H) an annual summary of labeling changes made as a result of assessments conducted under this section for distribution pursuant to subsection (h)(2);

(I) an annual summary of information submitted pursuant to subsection (a)(4)(C); and

(J) the number of times the internal committee referred to in paragraph (1) made a recommendation to the Secretary under paragraph (4) regarding priority review, the number of times the Secretary followed or did not follow such a recommendation, and, if not followed,

the reasons why such a recommendation was not followed.

(g) LABELING CHANGES.—

(1) DISPUTE RESOLUTION.—

(A) REQUEST FOR LABELING CHANGE AND FAILURE TO AGREE.—If the Commissioner determines that a sponsor and the Commissioner have been unable to reach agreement on appropriate changes to the labeling for the drug that is the subject of the application or supplement, not later than 180 days after the date of the submission of the application or supplement that receives a priority review or 330 days after the date of the submission of an application or supplement that receives a standard review—

(i) the Commissioner shall request that the sponsor of the application make any labeling change that the Commissioner determines to be appropriate; and

(ii) if the sponsor does not agree within 30 days after the Commissioner's request to make a labeling change requested by the Commissioner, the Commissioner shall refer the matter to the Pediatric Advisory Committee.

(B) ACTION BY THE PEDIATRIC ADVISORY COMMITTEE.—Not later than 90 days after receiving a referral under subparagraph (A)(ii), the Pediatric Advisory Committee shall—

(i) review the pediatric study reports; and

(ii) make a recommendation to the Commissioner concerning appropriate labeling changes, if any.

(C) CONSIDERATION OF RECOMMENDATIONS.—The Commissioner shall consider the recommendations of the Pediatric Advisory Committee and, if appropriate, not later than 30 days after receiving the recommendation, make a request to the sponsor of the application or supplement to make any labeling changes that the Commissioner determines to be appropriate.

(D) MISBRANDING.—If the sponsor of the application or supplement, within 30 days after receiving a request under subparagraph (C), does not agree to make a labeling change requested by the Commissioner, the Commissioner may deem the drug that is the subject of the application or supplement to be misbranded.

(E) NO EFFECT ON AUTHORITY.—

(i) ENFORCEMENT ACTION.—Nothing in this subsection limits the authority of the United States to bring an enforcement action under this subtitle when a drug lacks appropriate pediatric labeling.

(ii) PRECLUSION; DELAY; STAY OF ACTION.—Neither course of action (the Pediatric Advisory Committee process or an enforcement action referred to in clause (i)) shall preclude, delay, or serve as the basis to stay the other course of action.

(2) OTHER LABELING CHANGES.—If the Secretary makes a determination that a pediatric assessment conducted under this section does or does not demonstrate that the drug that is the subject of the assessment is safe and effective in pediatric populations or subpopulations, including whether the assessment results are inconclusive, the Secretary shall order the labeling of the product to include information about the results of the assessment and a statement of the Secretary's determination.

(h) DISSEMINATION OF PEDIATRIC INFORMATION.—

(1) IN GENERAL.—Not later than 210 days after the date of submission of an application (or

supplement to an application) that contains a pediatric assessment under this section, if the application (or supplement) receives a priority review, or not later than 330 days after the date of submission of an application (or supplement to an application) that contains a pediatric assessment under this section, if the application (or supplement) receives a standard review, the Secretary shall make available to the public in an easily accessible manner the medical, statistical, and clinical pharmacology reviews of the pediatric assessments, and shall post the assessments on the FDA website.

(2) DISSEMINATION OF INFORMATION REGARDING LABELING CHANGES.—The Secretary shall require that the sponsors of the assessments that result in labeling changes that are reflected in the annual summary developed pursuant to subsection (f)(6)(H) distribute the information to physicians and other health care providers.

(3) EFFECT OF SUBSECTION.—Nothing in this subsection shall alter or amend—

(A) section 10501(10) of this title;

(B) section 552 of title 5; or

(C) section 1905 of title 18.

(i) ADVERSE EVENT REPORTING.—

(1) REPORTING IN FIRST 18-MONTH PERIOD.—

(A) IN GENERAL.—During the 18-month period beginning on the date a labeling change is made pursuant to subsection (g), the Secretary shall ensure that all adverse event reports that have been received for the drug (regardless of when the adverse event report was received) are referred to the Office of Pediatric Therapeutics.

(B) REVIEW BY PEDIATRIC ADVISORY COMMITTEE.—In considering the adverse event reports, the Director of the Office of Pediatric Therapeutics shall provide for the review of the adverse event reports by the Pediatric Advisory Committee, including obtaining any recommendations of the Pediatric Advisory Committee regarding whether the Secretary should take action under this subtitle in response to the adverse event reports.

(2) REPORTING IN SUBSEQUENT PERIODS.—

(A) IN GENERAL.—Following the 18-month period described in paragraph (1), the Secretary shall, as appropriate, refer to the Office of Pediatric Therapeutics all pediatric ad-

verse event reports for a drug for which a pediatric study was conducted under this section.

(B) REVIEW BY PEDIATRIC ADVISORY COMMITTEE.—In considering the pediatric adverse event reports, the Director of the Office of Pediatric Therapeutics may provide for the review of the pediatric adverse event reports by the Pediatric Advisory Committee, including obtaining any recommendation of the Pediatric Advisory Committee regarding whether the Secretary should take action in response to the pediatric adverse event reports.

(3) PRESERVATION OF AUTHORITY.—Nothing in this subsection shall prohibit the Office of Pediatric Therapeutics from providing for the review of adverse event reports by the Pediatric Advisory Committee prior to the 18-month period referred to in paragraph (1), if the review is necessary to ensure safe use of a drug in a pediatric population.

(4) EFFECT OF SUBSECTION.—The requirements of this subsection shall supplement, not supplant, other review of the adverse event reports by the Secretary.

(j) SCOPE OF AUTHORITY.—Nothing in this section provides to the Secretary any authority to require a pedi-

atric assessment of any drug or biological product, or any assessment regarding other populations or uses of a drug or biological product, other than the pediatric assessments described in this section.

(k) RELATION TO ORPHAN DRUGS.—

(1) IN GENERAL.—Unless the Secretary requires otherwise by regulation and except as provided in paragraph (2), this section does not apply to any drug or biological product for an indication for which orphan designation has been granted under section 13902 of this title.

(2) APPLICABILITY DESPITE ORPHAN DESIGNATION OF CERTAIN INDICATIONS.—This section shall apply with respect to a drug or biological product for which an indication has been granted orphan designation under section 13902 of this title if the investigation described in subsection (a)(3) applies to the drug or biological product as described in subsection (a)(1)(B).

(l) NEW ACTIVE INGREDIENT.—

(1) NON-INTERCHANGEABLE BIOSIMILAR BIOLOGICAL PRODUCT.—A biological product that is biosimilar to a reference product under section 351 of the Public Health Service Act (42 U.S.C. 262), and that the Secretary has not determined to meet

the standards described in subsection (k)(4) of that section for interchangeability with the reference product, shall be considered to have a new active ingredient under this section.

(2) INTERCHANGEABLE BIOSIMILAR BIOLOGICAL PRODUCT.—A biological product that is interchangeable with a reference product under section 351 of the Public Health Service Act (42 U.S.C. 262) shall not be considered to have a new active ingredient under this section.

(m) LIST OF PRIMARY MOLECULAR TARGETS.—

(1) IN GENERAL.—The Secretary shall update regularly, and shall publish on the FDA website—

(A) a list of molecular targets considered, on the basis of data the Secretary determines to be adequate, to be substantially relevant to the growth and progression of a pediatric cancer, and that may trigger the requirements under this section; and

(B) a list of molecular targets of new cancer drugs and biological products in development for which pediatric cancer study requirements under this section will be automatically waived.

(2) CONSULTATION.—In establishing the lists described in paragraph (1), the Secretary shall consult the National Cancer Institute, members of the internal committee under section 13114 of this title, and the Pediatric Oncology Subcommittee of the Oncologic Drugs Advisory Committee, and shall take into account comments from the meeting under section 504(c) of the FDA Reauthorization Act of 2017 (Public Law 115–52, 131 Stat. 1041).

(3) RULE OF CONSTRUCTION.—Nothing in paragraph (1) shall be construed—

(A) to require the inclusion of a molecular target on the list published under the paragraph as a condition for triggering the requirements under subsection (a)(1)(B) with respect to a drug or biological product directed at the molecular target; or

(B) to authorize the disclosure of confidential commercial information, as prohibited under section 10501(10) of this title or section 1905 of title 18.

**§ 13114. Internal committee for review of pediatric plans, assessments, deferrals, deferral extensions, and waivers**

(a) ESTABLISHMENT.—The Secretary shall establish an internal committee within the FDA to carry out the activities as described in sections 13112(f) and 13113(f) of this title.

(b) MEMBERS.—The internal committee shall include—

(1) employees of the FDA, with expertise in—

(A) pediatrics (including representation from the Office of Pediatric Therapeutics);

(B) biopharmacology;

(C) statistics;

(D) chemistry;

(E) legal issues;

(F) pediatric ethics;

(G) neonatology; and

(H) the appropriate expertise pertaining to the pediatric product under review, such as expertise in child and adolescent psychiatry or pediatric rare diseases; and

(2) other individuals designated by the Secretary.

**§ 13115. Pharmaceutical security**

(a) DEFINITION OF PRESCRIPTION DRUG.—In this section, the term ''prescription drug'' means a drug subject to section 13103(a)(1) of this title.

(b) IN GENERAL.—The Secretary shall develop standards and identify and validate effective technologies for the purpose of securing the drug supply chain against counterfeit, diverted, subpotent, substandard, adulterated, misbranded, or expired drugs.

(c) STANDARDS DEVELOPMENT.—

(1) IN GENERAL.—The Secretary shall, in consultation with the agencies specified in paragraph (4), manufacturers, distributors, pharmacies, and other supply chain stakeholders, prioritize and develop standards for the identification, validation, authentication, and tracking and tracing of prescription drugs.

(2) STANDARDIZED NUMERAL IDENTIFIER.—The Secretary shall develop a standardized numerical identifier (which, to the extent practicable, shall be harmonized with international consensus standards for such an identifier) to be applied to a prescription drug at the point of manufacturing and repackaging (in which case the numerical identifier shall be linked to the numerical identifier applied at the point of manufacturing) at the package or pallet

level, sufficient to facilitate the identification, validation, authentication, and tracking and tracing of the prescription drug.

(3) PROMISING TECHNOLOGIES.—The standards developed under this subsection shall address promising technologies, which may include—

(A) radio frequency identification technology;

(B) nanotechnology;

(C) encryption technologies; and

(D) other track-and-trace or authentication technologies.

(4) INTERAGENCY COLLABORATION.—In carrying out this subsection, the Secretary shall consult with Federal health and security agencies, including—

(A) the Department of Justice;

(B) the Department of Homeland Security;

(C) the Department of Commerce; and

(D) other appropriate Federal and State agencies.

(d) INSPECTION AND ENFORCEMENT.—

(1) IN GENERAL.—The Secretary shall expand and enhance the resources and facilities of agency components of the FDA involved with regulatory

and criminal enforcement of this subtitle to secure the drug supply chain against counterfeit, diverted, subpotent, substandard, adulterated, misbranded, or expired drugs including biological products and active pharmaceutical ingredients from domestic and foreign sources.

(2) ACTIVITIES.—The Secretary shall undertake enhanced and joint enforcement activities with other Federal and State agencies, and establish regional capacities for the validation of prescription drugs and the inspection of the prescription drug supply chain.

**§ 13116. Extension of exclusivity period for new qualified infectious disease products**

(a) DEFINITIONS.—In this section:

(1) QUALIFIED INFECTIOUS DISEASE PRODUCT.—The term ''qualified infectious disease product'' means a drug (including a biological product), including an antibacterial or antifungal drug, for human use that—

(A) acts on bacteria or fungi or on substances produced by bacteria or fungi; and

(B) is intended to treat a serious or life-threatening infection, including such an infection caused by—

(i) an antibacterial or antifungal resistant pathogen, including novel or emerging infectious pathogens; or

(ii) qualifying pathogens listed by the Secretary under subsection (g).

(2) QUALIFYING PATHOGEN.—The term ''qualifying pathogen'' means a pathogen identified and listed by the Secretary under subsection (g) that has the potential to pose a serious threat to public health, such as—

(A) resistant gram-positive pathogens, including methicillin-resistant Staphylococcus aureus, vancomycin-resistant Staphylococcus aureus, and vancomycin-resistant enterococcus;

(B) multi-drug resistant gram-negative bacteria, including Acinetobacter, Klebsiella, Pseudomonas, and E. coli species;

(C) multi-drug resistant tuberculosis; and

(D) Clostridium difficile.

(b) EXTENSION.—If the Secretary approves an application pursuant to chapter 135 of this title for a drug that has been designated as a qualified infectious disease product under subsection (e), the 4-year and 5-year periods described in sections 13504(c)(5)(A) and 13511(f)(6)(A) of this title, the 3-year periods described

in subparagraphs (B) and (C) of section 13504(c)(5) of this title and subparagraphs (B) and (C) of section 13511(f)(6) of this title, or the 7-year period described in section 13903 of this title, as applicable, shall be extended by 5 years.

(c) RELATION TO PEDIATRIC EXCLUSIVITY.—Any extension under subsection (b) of a period shall be in addition to any extension of the period under section 13112 of this title with respect to the drug.

(d) LIMITATIONS.—Subsection (b) does not apply to the approval of—

(1) a supplement to an application under section 13503 of this title for any qualified infectious disease product for which an extension described in subsection (b) is in effect or has expired;

(2) a subsequent application filed with respect to a product approved under chapter 135 of this title for a change that results in a new indication, route of administration, dosing schedule, dosage form, delivery system, delivery device, or strength;

(3) a product that does not meet the definition of a qualified infectious disease product under subsection (a)(1) based on its approved uses; or

(4) an application pursuant to section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)).

(e) DESIGNATION.—

(1) IN GENERAL.—The manufacturer or sponsor of a drug may request the Secretary to designate a drug as a qualified infectious disease product at any time before the submission of an application under section 13503 of this title or section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)) for the drug. The Secretary shall, not later than 60 days after the submission of the request, determine whether the drug is a qualified infectious disease product.

(2) LIMITATION.—Except as provided in paragraph (3), a designation under this subsection shall not be withdrawn for any reason, including modifications to the list of qualifying pathogens under subsection (g)(3).

(3) REVOCATION OF DESIGNATION.—The Secretary may revoke a designation of a drug as a qualified infectious disease product if the Secretary finds that the request for the designation contained an untrue statement of material fact.

(f) REGULATIONS.—

(1) IN GENERAL.—The Secretary shall promulgate regulations implementing this section, including

developing the list of qualifying pathogens described in subsection (g).

(2) PROCEDURE.—In promulgating a regulation implementing this section, the Secretary shall—

(A) issue a notice of proposed rulemaking that includes the proposed regulation;

(B) provide a period of not less than 60 days for comments on the proposed regulation; and

(C) publish the final regulation not less than 30 days before the effective date of the regulation.

(3) RESTRICTIONS.—Notwithstanding any other provision of law, the Secretary shall promulgate regulations implementing this section only as described in paragraph (2), except that the Secretary may issue interim guidance for sponsors seeking designation under subsection (e) prior to the promulgation of the regulations.

(4) DESIGNATION PRIOR TO REGULATIONS.—The Secretary shall designate drugs as qualified infectious disease products under subsection (e) prior to the promulgation of regulations under this subsection, if the drugs meet the definition of a quali-

fied infectious disease product described in subsection (a)(1).

(g) LIST OF QUALIFYING PATHOGENS.—

(1) IN GENERAL.—The Secretary shall establish and maintain a list of qualifying pathogens, and shall make public the methodology for developing the list.

(2) CONSIDERATIONS.—In establishing and maintaining the list of pathogens described under this section, the Secretary shall—

(A) consider—

(i) the impact on the public health due to drug-resistant organisms in humans;

(ii) the rate of growth of drug-resistant organisms in humans;

(iii) the increase in resistance rates in humans; and

(iv) the morbidity and mortality in humans; and

(B) consult with experts in infectious diseases and antibiotic resistance, including the Centers for Disease Control and Prevention, the FDA, medical professionals, and the clinical research community.

(3) REVIEW.—Every 5 years, or more often as needed, the Secretary shall review, provide modifications to, and publish the list of qualifying pathogens under paragraph (1) and shall by regulation revise the list as necessary, in accordance with subsection (f).

**§ 13117. Utilizing real-world evidence**

(a) DEFINITION OF REAL-WORLD EVIDENCE.—In this section, the term ''real-world evidence'' means data regarding the usage, or the potential benefits or risks, of a drug derived from sources other than traditional clinical trials.

(b) ESTABLISHMENT OF PROGRAM.—The Secretary shall establish a program to evaluate the potential use of real-world evidence—

(1) to help to support the approval of a new indication for a drug approved under section 13504 of this title; and

(2) to help to support or satisfy postapproval study requirements.

(c) PROGRAM FRAMEWORK.—

(1) IN GENERAL.—Not later than 2 years after December 13, 2016, the Secretary shall establish a draft framework for implementation of the program under this section.

(2) CONTENTS OF FRAMEWORK.—The framework shall include information describing—

(A) the sources of real-world evidence, including ongoing safety surveillance, observational studies, registries, claims, and patient-centered outcomes research activities;

(B) the gaps in data collection activities;

(C) the standards and methodologies for collection and analysis of real-world evidence; and

(D) the priority areas, remaining challenges, and potential pilot opportunities that the program established under this section will address.

(3) CONSULTATION.—

(A) IN GENERAL.—In developing the program framework under this subsection, the Secretary shall consult with regulated industry, academia, medical professional organizations, representatives of patient advocacy organizations, consumer organizations, disease research foundations, and other interested parties.

(B) PROCESS.—The consultation under subparagraph (A) may be carried out through approaches such as—

(i) a public-private partnership with the entities described in subparagraph (A) in which the Secretary may participate;

(ii) a contract, grant, or other arrangement, as the Secretary determines appropriate, with such a partnership or an independent research organization; or

(iii) public workshops with the entities described in subparagraph (A).

(d) PROGRAM IMPLEMENTATION.—The Secretary shall, not later than 3 years after December 13, 2016, and in accordance with the framework established under subsection (c), implement the program to evaluate the potential use of real-world evidence.

(e) GUIDANCE FOR INDUSTRY.—The Secretary shall—

(1) utilize the program established under subsection (b), its activities, and any subsequent pilots or written reports, to inform a guidance for industry on—

(A) the circumstances under which sponsors of drugs and the Secretary may rely on real-world evidence for the purposes described in paragraphs (1) and (2) of subsection (b); and

(B) the appropriate standards and methodologies for collection and analysis of real-world evidence submitted for those purposes;

(2) not later than 5 years after December 13, 2016, issue draft guidance for industry as described in paragraph (1); and

(3) not later than 18 months after the close of the public comment period for the draft guidance described in paragraph (2), issue revised draft guidance or final guidance.

(f) RULE OF CONSTRUCTION.—

(1) OTHER PURPOSES FOR USING REAL-WORLD EVIDENCE.—Subject to paragraph (2), nothing in this section prohibits the Secretary from using real-world evidence for purposes not specified in this section, provided the Secretary determines that sufficient basis exists for any such nonspecified use.

(2) STANDARDS OF EVIDENCE AND SECRETARY'S AUTHORITY.—This section shall not be construed to alter—

(A) the standards of evidence under—

(i) section 13504 or 13505 of this title, including the substantial evidence standard in section 13505 of this title; or

(ii) section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)); or

(B) the Secretary's authority to require postapproval studies or clinical trials, or the standards of evidence under which studies or trials are evaluated.

**§ 13118. Regulation of certain nonprescription drugs that are marketed without an approved drug application**

(a) DEFINITIONS.—In this section:

(1) NONPRESCRIPTION DRUG.—The term ''nonprescription drug'' refers to a drug not subject to the requirements of section 13103(a)(1) of this title.

(2) REQUESTOR.—The term ''requestor'' refers to any person or group of persons marketing, manufacturing, processing, or developing a drug.

(3) SPONSOR.—The term ''sponsor'' refers to any person marketing, manufacturing, or processing a drug that—

(A) is listed pursuant to section 13136(j) of this title; and

(B) is or will be subject to an administrative order of the FDA under this section.

(b) NONPRESCRIPTION DRUGS MARKETED WITHOUT AN APPROVED APPLICATION.—Nonprescription drugs

marketed without an approved drug application under chapter 135 of this title, as of March 27, 2020, shall be treated in accordance with this subsection as follows:

(1) DRUGS SUBJECT TO A FINAL MONOGRAPH; CATEGORY I DRUGS SUBJECT TO A TENTATIVE FINAL MONOGRAPH.—A drug is deemed to be generally recognized as safe and effective under section 10101(a)(34)(A)(i) of this title, not a new drug under section 10101(a)(34) of this title, and not subject to section 13103(a)(1) of this title, if—

(A) the drug is—

(i) in conformity with the requirements for nonprescription use of a final monograph issued under part 330 of title 21, Code of Federal Regulations (except as provided in paragraph (2)), the general requirements for nonprescription drugs, and conditions or requirements under subsections (c), (d), and (l); and

(ii) except as permitted by an order issued under subsection (c) or, in the case of a minor change in the drug, in conformity with an order issued under subsection (d), in a dosage form that, immediately prior to March 27, 2020, has been

used to a material extent and for a material time under section 10101(a)(34)(A)(ii) of this title; or

(B) the drug is—

(i) classified in category I for safety and effectiveness under a tentative final monograph that is the most recently applicable proposal or determination issued under part 330 of title 21, Code of Federal Regulations;

(ii) in conformity with the proposed requirements for nonprescription use of the tentative final monograph, any applicable subsequent determination by the Secretary, the general requirements for nonprescription drugs, and conditions or requirements under subsections (c), (d), and (l); and

(iii) except as permitted by an order issued under subsection (c) or, in the case of a minor change in the drug, in conformity with an order issued under subsection (d), in a dosage form that, immediately prior to March 27, 2020, has been used to a material extent and for a mate-

rial time under section 10101(a)(34)(A)(ii) of this title.

(2) TREATMENT OF SUNSCREEN DRUGS.—With respect to sunscreen drugs subject to this section, the applicable requirements in terms of conformity with a final monograph, for purposes of paragraph (1)(A)(i), shall be the requirements specified in part 352 of title 21, Code of Federal Regulations, as published on May 21, 1999, beginning on page 27687 of volume 64 of the Federal Register, except that the applicable requirements governing effectiveness and labeling shall be those specified in section 201.327 of title 21, Code of Federal Regulations.

(3) CATEGORY III DRUGS SUBJECT TO A TENTATIVE FINAL MONOGRAPH; CATEGORY I DRUGS SUBJECT TO PROPOSED MONOGRAPH OR ADVANCE NOTICE OF PROPOSED RULEMAKING.—A drug that is not described in paragraph (1), (2), or (4) is not required to be the subject of an application approved under chapter 135 of this title, and is not subject to section 13103(a)(1) of this title, if—

(A) the drug is—

(i) classified in category III for safety or effectiveness in the preamble of a proposed rule establishing a tentative final

monograph that is the most recently applicable proposal or determination for the drug issued under part 330 of title 21, Code of Federal Regulations;

(ii) in conformity with—

(I) the conditions of use, including indication and dosage strength, if any, described for such category III drug in such preamble or in an applicable subsequent proposed rule;

(II) the proposed requirements for drugs classified in the tentative final monograph in category I in the most recently proposed rule establishing requirements related to the tentative final monograph and in any final rule establishing requirements that are applicable to the drug; and

(III) the general requirements for nonprescription drugs and conditions or requirements under subsection (c) or (l); and

(iii) in a dosage form that, immediately prior to March 27, 2020, had been used to a material extent and for a mate-

rial time under section 10101(a)(34)(A)(ii) of this title; or

(B) the drug is—

(i) classified in category I for safety and effectiveness under a proposed monograph or advance notice of proposed rulemaking that is the most recently applicable proposal or determination for the drug issued under part 330 of title 21, Code of Federal Regulations;

(ii) in conformity with the requirements for nonprescription use of the proposed monograph or advance notice of proposed rulemaking, any applicable subsequent determination by the Secretary, the general requirements for nonprescription drugs, and conditions or requirements under subsection (c) or (l); and

(iii) in a dosage form that, immediately prior to March 27, 2020, has been used to a material extent and for a material time under section 10101(a)(34)(A)(ii) of this title.

(4) CATEGORY II DRUGS DEEMED NEW DRUGS.—A drug that is classified in category II for

safety or effectiveness under a tentative final monograph or that is subject to a determination to be not generally recognized as safe and effective in a proposed rule that is the most recently applicable proposal issued under part 330 of title 21, Code of Federal Regulations, shall be deemed to be a new drug under section 10101(a)(34) of this title, misbranded under section 13328 of this title, and subject to the requirement for an approved new drug application under chapter 135 of this title beginning on the day that is 180 calendar days after March 27, 2020, unless, before that day, the Secretary determines that it is in the interest of public health to extend the period during which the drug may be marketed without such an approved new drug application.

(5) DRUGS NOT GENERALLY RECOGNIZED AS SAFE AND EFFECTIVE DEEMED NEW DRUGS.—A drug that the Secretary has determined not to be generally recognized as safe and effective under section 10101(a)(34)(A)(i) of this title under a final determination issued under part 330 of title 21, Code of Federal Regulations, shall be deemed to be a new drug under section 10101(a)(34) of this title, misbranded under section 13328 of this title, and sub-

ject to the requirement for an approved new drug application under chapter 135 of this title.

(6) OTHER DRUGS DEEMED NEW DRUGS.—Except as provided in subsection (n), a drug is deemed to be a new drug under section 10101(a)(34) of this title and misbranded under section 13328 of this title if the drug—

(A) is not subject to section 13103(a)(1) of this title; and

(B) is not described in paragraph (1), (2), (3), (4), or (5), or subsection (c)(1)(B).

(c) ADMINISTRATIVE ORDERS.—

(1) IN GENERAL.—

(A) DETERMINATION.—The Secretary may, on the initiative of the Secretary or at the request of 1 or more requestors, issue an administrative order determining whether there are conditions under which a specific drug, a class of drugs, or a combination of drugs, is determined to be—

(i) not subject to section 13103(a)(1) of this title; and

(ii) generally recognized as safe and effective under section 10101(a)(34)(A)(i) of this title.

(B) EFFECT.—A drug or combination of drugs shall be deemed to not require approval under chapter 135 of this title if the drug or combination of drugs—

(i) is determined by the Secretary to meet the conditions specified in clauses (i) and (ii) of subparagraph (A);

(ii) is marketed in conformity with an administrative order under this subsection;

(iii) meets the general requirements for nonprescription drugs; and

(iv) meets the requirements under subsections (d) and (l).

(C) STANDARD.—The Secretary shall find that a drug is not generally recognized as safe and effective under section 10101(a)(34)(A)(i) of this title if—

(i) the evidence shows that the drug is not generally recognized as safe and effective under section 10101(a)(34)(A)(i) of this title; or

(ii) the evidence is inadequate to show that the drug is generally recognized as safe and effective under section 10101(a)(34)(A)(i) of this title.

(2) ADMINISTRATIVE ORDERS INITIATED BY THE SECRETARY.—

(A) IN GENERAL.—In issuing an administrative order under paragraph (1) on the initiative of the Secretary, the Secretary shall—

(i) make reasonable efforts to notify informally, not later than 2 business days before the issuance of the proposed order, the sponsors of drugs who have a listing in effect under section 13136(j) of this title for the drugs or combination of drugs that will be subject to the administrative order;

(ii) after any such reasonable efforts of notification—

(I) issue a proposed administrative order by publishing it on the FDA website and include in the order the reasons for the issuance of the order; and

(II) publish a notice of availability of the proposed order in the Federal Register;

(iii) except as provided in subparagraph (B), provide for a public comment

period with respect to the proposed order of not less than 45 calendar days; and

(iv) if, after completion of the proceedings specified in clauses (i) through (iii), the Secretary determines that it is appropriate to issue a final administrative order—

(I) issue the final administrative order, together with a detailed statement of reasons, which order shall not take effect until the time for requesting judicial review under paragraph (3)(D)(ii) has expired;

(II) publish a notice of the final administrative order in the Federal Register;

(III) afford requestors of drugs that will be subject to the order the opportunity for formal dispute resolution up to the level of the Director of the Center for Drug Evaluation and Research, which initially must be requested within 45 calendar days of the issuance of the order, and, for subsequent levels of appeal, within 30

calendar days of the prior decision; and

(IV) except with respect to drugs described in paragraph (3)(B), on completion of the formal dispute resolution procedure, inform the persons that sought the dispute resolution of their right to request a hearing.

(B) EXCEPTIONS.—When issuing an administrative order under paragraph (1) on the Secretary's initiative proposing to determine that a drug described in subsection (b)(3) is not generally recognized as safe and effective under section 10101(a)(34)(A)(i) of this title, the Secretary shall follow the procedures in subparagraph (A), except that—

(i) the proposed order shall include notice of—

(I) the general categories of data the Secretary has determined necessary to establish that the drug is generally recognized as safe and effective under section 10101(a)(34)(A)(i) of this title; and

(II) the format for submissions by interested persons;

(ii) the Secretary shall provide for a public comment period of no less than 180 calendar days with respect to the proposed order, except when the Secretary determines, for good cause, that a shorter period is in the interest of public health; and

(iii) any person that submits data in the comment period shall include a certification that the person has submitted all evidence created, obtained, or received by that person that is both within the categories of data identified in the proposed order and relevant to a determination as to whether the drug is generally recognized as safe and effective under section 10101(a)(34)(A)(i) of this title.

(3) HEARINGS; JUDICIAL REVIEW.—

(A) IN GENERAL.—

(i) PERSON THAT MAY REQUEST HEARING.—Only a person that participated in each stage of formal dispute resolution under paragraph (2)(A)(iv)(III) of an administrative order with respect to a

drug may request a hearing concerning a final administrative order issued under the paragraph with respect to the drug.

(ii) TIMING OF REQUEST.—A person seeking a hearing shall submit a request for a hearing, which shall be based solely on information in the administrative record, to the Secretary not later than 30 calendar days after receiving notice of the final decision of the formal dispute resolution procedure.

(B) NO HEARING REQUIRED WITH RESPECT TO ORDERS RELATING TO CERTAIN DRUGS.—

(i) DEFINITIONS.—In this subparagraph:

(I) HUMAN DATA STUDIES.—The term ''human data studies'' means clinical trials of safety or effectiveness (including actual use studies), pharmacokinetics studies, or bioavailability studies.

(II) NON-HUMAN DATA.—The term ''non-human data'' means data from testing other than with human

subjects that provides information concerning safety or effectiveness.

(ii) IN GENERAL.—The Secretary shall not be required to provide notice and an opportunity for a hearing pursuant to paragraph (2)(A)(iv) if the final administrative order involved relates to a drug—

(I) that is described in subsection (b)(3)(A); and

(II) with respect to which no human or non-human data studies relevant to the safety or effectiveness of the drug have been submitted to the administrative record since the issuance of the most recent tentative final monograph relating to the drug.

(C) HEARING PROCEDURES.—

(i) DENIAL OF REQUEST FOR HEARING.—If the Secretary determines that information submitted in a request for a hearing under subparagraph (A) with respect to a final administrative order issued under paragraph (2)(A)(iv) does not identify the existence of a genuine and substantial question of material fact, the Sec-

retary may deny the request. In making such a determination, the Secretary may consider only information and data that are based on relevant and reliable scientific principles and methodologies.

(ii) SINGLE HEARING FOR MULTIPLE RELATED REQUESTS.—If more than 1 request for a hearing is submitted with respect to the same administrative order under subparagraph (A), the Secretary may direct that a single hearing be conducted in which all persons whose hearing requests were granted may participate.

(iii) PRESIDING OFFICER.—The presiding officer of a hearing requested under subparagraph (A) shall—

(I) be designated by the Secretary;

(II) not be an employee of the Center for Drug Evaluation and Research; and

(III) not have been previously involved in the development of the administrative order involved or pro-

ceedings relating to that administrative order.

(iv) RIGHTS OF PARTIES TO HEARING.—The parties to a hearing requested under subparagraph (A) shall have the right to present testimony, including testimony of expert witnesses, and to cross-examine witnesses presented by other parties. Where appropriate, the presiding officer may require that cross-examination by parties representing substantially the same interests be consolidated to promote efficiency and avoid duplication.

(v) FINAL DECISION.—

(I) IN GENERAL.—At the conclusion of a hearing requested under subparagraph (A), the presiding officer of the hearing shall issue a decision containing findings of fact and conclusions of law. The decision of the presiding officer shall be final.

(II) EFFECTIVE DATE OF FINAL DECISION.—The final decision may not take effect until the period under subparagraph (D)(ii) for submitting a

request for judicial review of the decision expires.

(D) JUDICIAL REVIEW OF FINAL ADMINISTRATIVE ORDER.—

(i) IN GENERAL.—The procedures described in section 13509 of this title shall apply with respect to judicial review of final administrative orders issued under this subsection in the same manner and to the same extent as that section applies to an order described in that section except that the judicial review shall be taken by filing in an appropriate district court of the United States in lieu of the appellate courts specified in the section.

(ii) PERIOD TO SUBMIT A REQUEST FOR JUDICIAL REVIEW.—A person eligible to request a hearing under this paragraph and seeking judicial review of a final administrative order issued under this subsection shall file the request for judicial review not later than 60 calendar days after the latest of—

(I) the date on which notice of the order is published;

(II) the date on which a hearing with respect to the order is denied under subparagraph (B) or (C)(i);

(III) the date on which a final decision is made following a hearing under subparagraph (C)(v); or

(IV) if no hearing is requested, the date on which the time for requesting a hearing expires.

(4) EXPEDITED PROCEDURE WITH RESPECT TO ADMINISTRATIVE ORDERS INITIATED BY THE SECRETARY.—

(A) IMMINENT HAZARD TO THE PUBLIC HEALTH.—

(i) IN GENERAL.—In the case of a determination by the Secretary that a drug, class of drugs, or combination of drugs subject to this section poses an imminent hazard to the public health, the Secretary, after first making reasonable efforts to notify, not later than 48 hours before issuance of the order under this subparagraph, sponsors who have a listing in effect under section 13136(j) of this title for the drug or combination of drugs—

(I) may issue an interim final administrative order for the drug, class of drugs, or combination of drugs under paragraph (1), together with a detailed statement of the reasons for the order;

(II) shall publish in the Federal Register a notice of availability of the interim final order; and

(III) shall provide for a public comment period of at least 45 calendar days with respect to the interim final order.

(ii) NONDELEGATION.—The Secretary may not delegate the authority to issue an interim final administrative order under this subparagraph.

(B) SAFETY LABELING CHANGES.—

(i) IN GENERAL.—In the case of a determination by the Secretary that a change in the labeling of a drug, class of drugs, or combination of drugs subject to this section is reasonably expected to mitigate a significant or unreasonable risk of a seri-

ous adverse event associated with use of the drug, the Secretary may—

(I) make reasonable efforts to notify informally, not later than 48 hours before the issuance of the interim final order, the sponsors of drugs who have a listing in effect under section 13136(j) of this title for the drug or combination of drugs;

(II) after reasonable efforts of notification, issue an interim final administrative order in accordance with paragraph (1) to require the change, together with a detailed statement of the reasons for the order;

(III) publish in the Federal Register a notice of availability of the order; and

(IV) provide for a public comment period of at least 45 calendar days with respect to the interim final order.

(ii) CONTENT OF ORDER.—An interim final order issued under this subparagraph with respect to the labeling of a drug may

provide for new warnings and other information required for safe use of the drug.

(C) EFFECTIVE DATE.—An order under subparagraph (A) or (B) shall take effect on a date specified by the Secretary.

(D) FINAL ORDER.—After the completion of the proceedings in subparagraph (A) or (B), the Secretary shall—

(i) issue a final order in accordance with paragraph (1);

(ii) publish a notice of availability of the final administrative order in the Federal Register; and

(iii) afford sponsors of the drugs that will be subject to the final administrative order the opportunity for formal dispute resolution up to the level of the Director of the Center for Drug Evaluation and Research, which must initially be within 45 calendar days of the issuance of the order, and for subsequent levels of appeal, within 30 calendar days of the prior decision.

(E) HEARINGS.—

(i) SPONSOR THAT MAY REQUEST HEARING.—A sponsor of a drug subject to

a final order issued under subparagraph (D) and that participated in each stage of formal dispute resolution under clause (iii) of the subparagraph may request a hearing on the order.

(ii) PROVISIONS APPLICABLE TO HEARING.—The provisions of subparagraphs (A), (B), and (C) of paragraph (3), other than paragraph (3)(C)(v)(II), shall apply with respect to a hearing on the order in the same manner and to the same extent as the provisions apply with respect to a hearing on an administrative order issued under paragraph (2)(A)(iv).

(F) TIMING.—

(i) FINAL ORDER AND HEARING.—The Secretary shall—

(I) not later than 6 months after the date on which the comment period closes under subparagraph (A) or (B), issue a final order in accordance with paragraph (1); and

(II) not later than 12 months after the date on which the final order

is issued, complete any hearing under subparagraph (E).

(ii) DISPUTE RESOLUTION REQUEST.—The Secretary shall specify in an interim final order issued under subparagraph (A) or (B) such shorter periods for requesting dispute resolution under subparagraph (D)(iii) as are necessary to meet the requirements of this subparagraph.

(G) JUDICIAL REVIEW.—A final order issued pursuant to subparagraph (F) shall be subject to judicial review in accordance with paragraph (3)(D).

(5) ADMINISTRATIVE ORDER INITIATED AT THE REQUEST OF A REQUESTOR.—

(A) IN GENERAL.—

(i) DETERMINATION RELATING TO COMPLETENESS AND FORMATTING OF REQUEST.—In issuing an administrative order under paragraph (1) at the request of a requestor with respect to certain drugs, classes of drugs, or combinations of drugs, the Secretary shall, after receiving a request under this subparagraph, deter-

mine whether the request is sufficiently complete and formatted to permit a substantive review.

(ii) REQUEST SUFFICIENTLY COMPLETE AND FORMATTED TO PERMIT SUBSTANTIVE REVIEW.—If the Secretary determines that the request is sufficiently complete and formatted to permit a substantive review, the Secretary shall—

(I) file the request; and

(II) initiate proceedings with respect to issuing an administrative order in accordance with paragraphs (2) and (3).

(iii) REQUEST DOES NOT MEET FILING REQUIREMENTS OR IS NOT SUFFICIENTLY COMPLETE AND FORMATTED TO PERMIT SUBSTANTIVE REVIEW.—Except as provided in paragraph (6), if the Secretary determines that a request does not meet the requirements for filing or is not sufficiently complete and formatted to permit a substantive review, the requestor may demand that the request be filed over protest, and the Secretary shall initiate pro-

ceedings to review the request in accordance with paragraph (2)(A).

(B) REQUEST TO INITIATE PROCEEDINGS.—

(i) IN GENERAL.—A requestor seeking an administrative order under paragraph (1) with respect to certain drugs, classes of drugs, or combinations of drugs shall submit to the Secretary a request to initiate proceedings for the order in the form and manner as specified by the Secretary. The requestor may submit a request under this subparagraph for the issuance of an administrative order—

(I) determining whether a drug is generally recognized as safe and effective under section 10101(a)(34)(A)(i) of this title, exempt from section 13103(a)(1) of this title, and not required to be the subject of an approved application under chapter 135 of this title; or

(II) determining whether a change to a condition of use of a drug is generally recognized as safe and ef-

fective under section 10101(a)(34)(A)(i) of this title, exempt from section 13103(a)(1) of this title, and not required to be the subject of an approved application under chapter 135 of this title, if, absent such a changed condition of use, the drug is—

(aa) generally recognized as safe and effective under section 10101(a)(34)(A)(i) of this title in accordance with paragraph (1) or (2) of subsection (b), or with an order under this subsection; or

(bb) subject to subsection (b)(3), but only if the requestor initiates the request in conjunction with a request for the Secretary to determine whether the drug is generally recognized as safe and effective under section 10101(a)(34)(A)(i) of this title, which is filed by the Secretary under subparagraph (A)(ii).

(ii) EXCEPTION.—The Secretary is not required to complete review of a request for a change described in clause (i)(II) if the Secretary determines that there is an inadequate basis to find that the drug is generally recognized as safe and effective under section 10101(a)(34)(A)(i) of this title under paragraph (1) and issues a final order announcing that determination.

(iii) WITHDRAWAL.—The requestor may withdraw a request under this paragraph, according to the procedures set forth pursuant to subsection (e)(2)(B). Notwithstanding any other provision of this section, if the request is withdrawn, the Secretary may cease proceedings under this subparagraph.

(C) EXCLUSIVITY.—

(i) DEFINITION OF NEW HUMAN DATA STUDIES.—In this subparagraph, the term ''new human data studies'' means clinical trials of safety or effectiveness (including actual use studies), pharmacokinetics stud-

ies, or bioavailability studies, the results of which—

(I) have not been relied on by the Secretary to support—

(aa) a proposed or final determination that a drug described in subclause (I), (II), or (III) of clause (iv) is generally recognized as safe and effective under section 10101(a)(34)(A)(i) of this title; or

(bb) approval of a drug that was approved under chapter 135 of this title; and

(II) do not duplicate the results of another study that was relied on by the Secretary to support—

(aa) a proposed or final determination that a drug described in subclause (I), (II), or (III) of clause (iii) is generally recognized as safe and effective under section 10101(a)(34)(A)(i) of this title; or

(bb) approval of a drug that was approved under chapter 135 of this title.

(ii) IN GENERAL.—A final administrative order issued in response to a request under this section shall have the effect of authorizing solely the order requestor (or the licensees, assignees, or successors in interest of the requestor with respect to the subject of the order), for a period of 18 months following the effective date of the final order and beginning on the date the requestor may lawfully market the drugs pursuant to the order, to market drugs—

(I) incorporating changes described in clause (iii); and

(II) subject to the limitations under clause (v).

(iii) CHANGES DESCRIBED.—A change described in this clause is a change subject to an order specified in clause (ii), which—

(I) provides for a drug to contain an active ingredient (including any ester or salt of the active ingredient)

not previously incorporated in a drug described in clause (iv); or

(II) provides for a change in the conditions of use of a drug, for which new human data studies conducted or sponsored by the requestor (or for which the requestor has an exclusive right of reference) were essential to the issuance of the order.

(iv) DRUGS DESCRIBED.—The drugs described in this clause are drugs—

(I) specified in paragraph (1), (2), or (3) of subsection (b);

(II) subject to a final order issued under this section;

(III) subject to a final sunscreen order (as defined in section 15101(2)(A) of this title); or

(IV) described in subsection (n)(1), other than drugs subject to an active enforcement action under chapter 105 of this title.

(v) LIMITATIONS ON EXCLUSIVITY.—

(I) IN GENERAL.—Only one 18-month period under this subpara-

graph shall be granted, under each order described in clause (ii), with respect to changes (to the drug subject to the order) that are either—

(aa) changes described in clause (iii)(I), relating to active ingredients; or

(bb) changes described in clause (iii)(II), relating to conditions of use.

(II) NO EXCLUSIVITY ALLOWED.—No exclusivity shall apply to changes to a drug that are—

(aa) the subject of a Tier 2 OTC monograph order request (as defined in section 17976 of this title);

(bb) safety-related changes, as defined by the Secretary, or any other changes the Secretary considers necessary to ensure safe use; or

(cc) changes related to methods of testing safety or efficacy.

(vi) NOTIFICATION OF DRUG NOT AVAILABLE FOR SALE.—A requestor that is granted exclusivity with respect to a drug under this subparagraph shall notify the Secretary in writing within 1 year of the issuance of the final administrative order if the drug that is the subject of the order will not be available for sale within 1 year of the date of issuance of the order. The requestor shall include with the notice the—

(I) identity of the drug by established name and by proprietary name, if any;

(II) strength of the drug;

(III) date on which the drug will be available for sale, if known; and

(IV) reason for not marketing the drug after issuance of the order.

(6) INFORMATION REGARDING SAFE NONPRESCRIPTION MARKETING AND USE AS CONDITION FOR FILING A GENERALLY RECOGNIZED AS SAFE AND EFFECTIVE REQUEST.—

(A) IN GENERAL.—In response to a request under this section that a drug described

in subparagraph (B) be generally recognized as safe and effective, the Secretary—

(i) may file the request, if the request includes information specified under subparagraph (C) with respect to safe nonprescription marketing and use of the drug; or

(ii) if the request fails to include information specified under subparagraph (C), shall refuse to file the request and require that nonprescription marketing of the drug be pursuant to a new drug application as described in subparagraph (D).

(B) DRUG DESCRIBED.—A drug described in this subparagraph is a nonprescription drug that contains an active ingredient not previously incorporated in a drug—

(i) specified in paragraph (1), (2), or (3) of subsection (b);

(ii) subject to a final order under this section; or

(iii) subject to a final sunscreen order (as defined in section 15101(2)(A) of this title).

(C) INFORMATION DEMONSTRATING PRIMA FACIE SAFE NONPRESCRIPTION MARKETING AND USE.—Information specified in this subparagraph, with respect to a request described in subparagraph (A)(i), is—

(i) information sufficient for a prima facie demonstration that the drug subject to the request has a verifiable history of being marketed and safely used by consumers in the United States as a nonprescription drug under comparable conditions of use;

(ii) if the drug has not been previously marketed in the United States as a nonprescription drug, information sufficient for a prima facie demonstration that the drug was marketed and safely used under comparable conditions of marketing and use in a country listed in section 20102(c)(1)(A) of this title or designated by the Secretary in accordance with section 20102(c)(1)(B) of this title—

(I) for such period as needed to provide reasonable assurances con-

cerning the safe nonprescription use of the drug; and

(II) during that time was subject to sufficient monitoring by a regulatory body considered acceptable by the Secretary for those monitoring purposes, including for adverse events associated with nonprescription use of the drug; or

(iii) if the Secretary determines that information described in clause (i) or (ii) is not needed to provide a prima facie demonstration that the drug can be safely marketed and used as a nonprescription drug, such other information the Secretary determines is sufficient for those purposes.

(D) MARKETING PURSUANT TO NEW DRUG APPLICATION.—In the case of a request described in subparagraph (A)(ii), the drug subject to the request may be resubmitted for filing only if—

(i) the drug is marketed as a nonprescription drug, under conditions of use comparable to the conditions specified in the request, for such period as the Sec-

retary determines appropriate (not to exceed 5 consecutive years) pursuant to an application approved under chapter 135 of this title; and

(ii) during that period, 1,000,000 retail packages of the drug, or an equivalent quantity as determined by the Secretary, were distributed for retail sale, as determined in such manner as the Secretary finds appropriate.

(E) RULE OF APPLICATION.—Except in the case of a request involving a drug described in section 15101(9) of this title, as in effect on January 1, 2017, if the Secretary refuses to file a request under this paragraph, the requestor may not file the request over protest under paragraph (5)(A)(iii).

(7) PACKAGING.—

(A) CERTAIN ORDERS MAY INCLUDE PACKAGING REQUIREMENTS.—An administrative order issued under paragraph (2), (4)(A), or (5) may include requirements for the packaging of a drug to encourage use in accordance with labeling.

(B) REQUIREMENTS.—The requirements may include unit dose packaging, requirements for products intended for use by pediatric populations, requirements to reduce risk of harm from unsupervised ingestion, and other appropriate requirements.

(C) CERTAIN STANDARDS AND TESTING PROCEDURES NOT AUTHORIZED.—This paragraph does not authorize the FDA to require standards or testing procedures as described in part 1700 of title 16, Code of Federal Regulations.

(8) FINAL AND TENTATIVE FINAL MONOGRAPHS FOR CATEGORY I DRUGS DEEMED FINAL ADMINISTRATIVE ORDERS.—

(A) IN GENERAL.—A final monograph or tentative final monograph described in subparagraph (B) shall be deemed to be a final administrative order under this subsection and may be amended, revoked, or otherwise modified in accordance with the procedures of this subsection.

(B) MONOGRAPHS DESCRIBED.—For purposes of subparagraph (A), a final monograph

or tentative final monograph is described in this subparagraph if it—

(i) establishes conditions of use for a drug described in paragraph (1) or (2) of subsection (b); and

(ii) represents the most recently promulgated version of the conditions, including as modified, in whole or in part, by any proposed or final rule.

(C) DEEMED ORDERS INCLUDE HARMONIZING TECHNICAL AMENDMENTS.—The deemed establishment of a final administrative order under subparagraph (A) shall be construed to include any technical amendments to the order as the Secretary determines necessary to ensure that the order is appropriately harmonized, in terms of terminology or cross-references, with the applicable provisions of this chapter (and regulations thereunder) and any other orders issued under this section.

(d) PROCEDURE FOR MINOR CHANGES.—

(1) IN GENERAL.—Minor changes in the dosage form of a drug that is described in paragraph (1) or (2) of subsection (b) or the subject of an order issued under subsection (c) may be made by a re-

questor without the issuance of an order under subsection (c) if—

(A) the requestor maintains such information as is necessary to demonstrate that the change—

(i) will not affect the safety or effectiveness of the drug; and

(ii) will not materially affect the extent of absorption or other exposure to the active ingredient in comparison to a suitable reference product; and

(B) the change is in conformity with the requirements of an applicable administrative order issued by the Secretary under paragraph (3).

(2) ADDITIONAL INFORMATION.—

(A) ACCESS TO RECORDS.—A sponsor shall submit records requested by the Secretary relating to such a minor change under section 17504(a)(4) of this title, within 15 business days of receiving such a request, or such longer period as the Secretary may provide.

(B) INSUFFICIENT INFORMATION.—If the Secretary determines that the information contained in the records is not sufficient to dem-

onstrate that the change does not affect the safety or effectiveness of the drug or materially affect the extent of absorption or other exposure to the active ingredient, the Secretary—

(i) may so inform the sponsor of the drug in writing; and

(ii) if the Secretary so informs the sponsor, shall provide the sponsor of the drug with a reasonable opportunity to provide additional information.

(C) FAILURE TO SUBMIT SUFFICIENT INFORMATION.—The drug as modified is a new drug under section 10101(a)(34) of this title and shall be deemed to be misbranded under section 13328 of this title if the sponsor fails to provide the additional information within a time prescribed by the Secretary, or if the Secretary determines that the additional information does not demonstrate that the change does not—

(i) affect the safety or effectiveness of the drug; or

(ii) materially affect the extent of absorption or other exposure to the active in-

gredient in comparison to a suitable reference product.

(3) DETERMINING WHETHER A CHANGE WILL AFFECT SAFETY OR EFFECTIVENESS.—

(A) IN GENERAL.—The Secretary shall issue 1 or more administrative orders specifying requirements for determining whether a minor change made by a sponsor pursuant to this subsection will affect the safety or effectiveness of a drug or materially affect the extent of absorption or other exposure to an active ingredient in the drug in comparison to a suitable reference product, together with guidance for applying those orders to specific dosage forms.

(B) STANDARD PRACTICES.—The orders and guidance issued by the Secretary under subparagraph (A) shall take into account relevant public standards and standard practices for evaluating the quality of drugs, and may take into account the special needs of populations, including children.

(e) CONFIDENTIALITY OF INFORMATION SUBMITTED TO THE SECRETARY.—

(1) IN GENERAL.—Subject to paragraph (2), any information, including reports of testing con-

ducted on the drug or drugs involved, that is submitted by a requestor in connection with proceedings on an order under this section (including any minor change under subsection (d)) and is a trade secret or confidential information subject to section 552(b)(4) of title 5 or section 1905 of title 18 shall not be disclosed to the public unless the requestor consents to that disclosure.

(2) PUBLIC AVAILABILITY.—

(A) IN GENERAL.—Except as provided in subparagraph (B), the Secretary shall—

(i) make any information submitted by a requestor in support of a request under subsection (c)(5)(A) available to the public not later than the date on which the proposed order is issued; and

(ii) make any information submitted by any other person with respect to an order requested (or initiated by the Secretary) under subsection (c) available to the public on the submission.

(B) LIMITATIONS ON PUBLIC AVAILABILITY.—Information described in subparagraph (A) shall not be made public if—

(i) the information pertains to pharmaceutical quality information, unless the information is necessary to establish standards under which a drug is generally recognized as safe and effective under section 10101(a)(34)(A)(i) of this title;

(ii) the information is submitted in a requestor-initiated request, but the requestor withdraws the request, in accordance with withdrawal procedures established by the Secretary, before the Secretary issues the proposed order;

(iii) the Secretary requests and obtains the information under subsection (d) and the information is not submitted in relation to an order under subsection (c); or

(iv) the information is of the type contained in raw datasets.

(f) UPDATES TO DRUG LISTING INFORMATION.—A sponsor that makes a change to a drug subject to this section shall submit updated drug listing information for the drug in accordance with section 13136(j) of this title within 30 calendar days of the date when the drug is first commercially marketed, except that a sponsor that was the order requestor with respect to an order subject to sub-

section (c)(5)(C) (or a licensee, assignee, or successor in interest of the requestor) shall submit updated drug listing information on or before the date when the drug is first commercially marketed.

(g) APPROVALS UNDER CHAPTER 135 OF THIS TITLE.—

(1) CONSTRUCTION RELATING TO APPLICATIONS.—The provisions of this section shall not be construed to preclude a person from seeking or maintaining the approval of an application for a drug under sections 13503(a), 13503(b), and 13511 of this title.

(2) EFFECT OF CERTAIN DETERMINATIONS UNDER THIS SECTION.—A determination under this section that a drug is not subject to section 13103(a)(1) of this title, is generally recognized as safe and effective under section 10101(a)(34)(A)(i) of this title, and is not a new drug under section 10101(a)(34) of this title shall constitute a finding that the drug is safe and effective that may be relied on for purposes of an application under section 13503(b) of this title, so that the applicant shall be required to submit for purposes of the application only information needed to support any modification

of the drug that is not covered by the determination under this section.

(h) PUBLIC AVAILABILITY OF ADMINISTRATIVE ORDERS.—The Secretary shall establish, maintain, update (as determined necessary by the Secretary but no less frequently than annually), and make publicly available, with respect to orders issued under this section—

(1) a repository of each final order and interim final order in effect, including the complete text of the order; and

(2) a listing of all orders proposed and under development under subsection (c)(2), including—

(A) a brief description of each such order; and

(B) the Secretary's expectations, if resources permit, for issuance of proposed orders over a 3-year period.

(i) DEVELOPMENT ADVICE TO SPONSORS OR REQUESTORS.—The Secretary shall establish procedures under which sponsors or requestors may meet with appropriate officials of the FDA to obtain advice on the studies and other information necessary to support submissions under this section and other matters relevant to the regulation of nonprescription drugs and the development of new nonprescription drugs under this section.

(j) PARTICIPATION OF MULTIPLE SPONSORS OR REQUESTORS.—The Secretary shall establish procedures to facilitate efficient participation by multiple sponsors or requestors in proceedings under this section, including provision for joint meetings with multiple sponsors or requestors or with organizations nominated by sponsors or requestors to represent their interests in a proceeding.

(k) ELECTRONIC FORMAT.—All submissions under this section shall be in electronic format.

(l) EFFECT ON EXISTING REGULATIONS GOVERNING NONPRESCRIPTION DRUGS.—

(1) REGULATIONS OF GENERAL APPLICABILITY TO NONPRESCRIPTION DRUGS.—Except as provided in this subsection, nothing in this section supersedes regulations establishing general requirements for nonprescription drugs, including regulations of general applicability contained in parts 201, 250, and 330 of title 21, Code of Federal Regulations, or any successor regulations. The Secretary shall establish or modify the regulations by means of rulemaking in accordance with section 553 of title 5.

(2) REGULATIONS ESTABLISHING REQUIREMENTS FOR SPECIFIC NONPRESCRIPTION DRUGS.—

(A) CERTAIN PROVISIONS DEEMED TO BE FINAL ORDER.—The provisions of section

310.545 of title 21, Code of Federal Regulations, as in effect on the day before March 27, 2020, shall be deemed to be a final order under subsection (c).

(B) CERTAIN PROVISIONS DEEMED TO BE FINAL ORDERS ONLY AS THEY APPLY TO SPECIFIC DRUGS.—Regulations in effect on the day before March 27, 2020, establishing requirements for specific nonprescription drugs marketed pursuant to this section (including the requirements in parts 201 and 250 of title 21, Code of Federal Regulations), shall be deemed to be final orders under subsection (c), only as they apply to drugs—

(i) subject to paragraph (1), (2), (3), or (4) of subsection (b); or

(ii) otherwise subject to an order under this section.

(3) WITHDRAWAL OF REGULATIONS.—

(A) IN GENERAL.—The Secretary shall withdraw regulations establishing final monographs and the procedures governing the over-the-counter drug review under part 330 and other relevant parts of title 21, Code of Federal Regulations (as in effect on the day before

March 27, 2020), or make technical changes to the regulations to ensure conformity with appropriate terminology and cross references.

(B) NO PUBLIC NOTICE AND COMMENT; EFFECTIVE ON PUBLICATION.—Notwithstanding subchapter II of chapter 5 of title 5, any withdrawal or technical changes under subparagraph (A) shall be made without public notice and comment and shall be effective on publication through notice in the Federal Register (or on such date as specified in the notice).

(m) GUIDANCE.—The Secretary shall issue guidance that specifies—

(1) the procedures and principles for formal meetings between the Secretary and sponsors or requestors for drugs subject to this section;

(2) the format and content of data submissions to the Secretary under this section;

(3) the format of electronic submissions to the Secretary under this section;

(4) consolidated proceedings for appeal and the procedures for the consolidated proceedings where appropriate; and

(5) for minor changes in drugs, recommendations on how to comply with the requirements in orders issued under subsection (d)(3).

(n) RULE OF CONSTRUCTION.—

(1) IN GENERAL.—This section shall not affect the treatment or status of a nonprescription drug—

(A) that is marketed without an application approved under chapter 135 of this title as of March 27, 2020;

(B) that is not subject to an order issued under this section; and

(C) to which paragraph (1), (2), (3), (4), or (5) of subsection (b) do not apply.

(2) TREATMENT OF PRODUCTS PREVIOUSLY FOUND TO BE SUBJECT TO TIME AND EXTENT REQUIREMENTS.—

(A) IN GENERAL.—Notwithstanding subsection (b), a drug described in subparagraph (B) may be lawfully marketed, without an application approved under chapter 135 of this title, only pursuant to an order issued under this section.

(B) DRUG DESCRIBED.—A drug described in this subparagraph is a drug that, prior to March 27, 2020, the Secretary determined in a

proposed or final rule to be ineligible for review under the OTC drug review (as the phrase ''OTC drug review'' was used in section 330.14 of title 21, Code of Federal Regulations, as in effect on the day before March 27, 2020).

(3) PRESERVATION OF AUTHORITY.—

(A) IN GENERAL.—Nothing in paragraph (1) shall be construed to preclude or limit the applicability of any provision of this subtitle other than this section.

(B) ISSUANCE OF ORDER FINDING DRUG TO BE NOT GENERALLY RECOGNIZED AS SAFE AND EFFECTIVE.—Nothing in subsection (b) shall be construed to prohibit the Secretary from issuing an order under this section finding a drug to be not generally recognized as safe and effective under section 10101(a)(34)(A)(i) of this title, as the Secretary determines appropriate.

(o) INAPPLICABILITY TO DRUGS EXEMPTED FOR INVESTIGATIONAL USE.—A drug is not subject to this section if an exemption for investigational use under section 13510 of this title is in effect for the drug.

(p) INAPPLICABILITY OF PAPERWORK REDUCTION ACT.—Chapter 35 of title 44 shall not apply to collections of information made under this section.

(q) INAPPLICABILITY OF NOTICE AND COMMENT RULEMAKING AND OTHER REQUIREMENTS.—The requirements of subsection (c) shall apply with respect to orders issued under this section instead of the requirements of subchapter II of chapter 5 of title 5.

**§ 13119. Expedited approval of drugs for serious or life-threatening diseases or conditions**

(a) DEFINITIONS.—In this section:

(1) ACCELERATED APPROVAL.—The term ''accelerated approval'' means the approval described in subsection (d)(1)(A).

(2) BREAKTHROUGH THERAPY.—The term ''breakthrough therapy'' means a drug intended to treat, alone or in combination with 1 or more other drugs, a serious or life-threatening disease or condition and preliminary clinical evidence indicates that the drug may demonstrate substantial improvement over existing therapies on 1 or more clinically significant endpoints, such as substantial treatment effects observed early in clinical development.

(3) FAST-TRACK PRODUCT.—The term ''fast-track product'' means a drug that is intended,

whether alone or in combination with 1 or more other drugs, for the treatment of a serious or life-threatening disease or condition, and it demonstrates the potential to address unmet medical needs for such a disease or condition, or if the Secretary designates the drug as a qualified infectious disease product under section 13116(e) of this title.

(4) REGENERATIVE MEDICINE THERAPY.—The term ''regenerative medicine therapy'' includes cell therapy, therapeutic tissue engineering products, human cell and tissue products, and combination products using any such therapies or products, except for those regulated solely under section 361 of the Public Health Service Act (42 U.S.C. 264) and part 1271 of title 21, Code of Federal Regulations.

(b) DESIGNATION OF A DRUG AS A BREAKTHROUGH THERAPY.—

(1) IN GENERAL.—The Secretary shall, at the request of the sponsor of a drug, expedite the development and review of the drug if the drug is a breakthrough therapy.

(2) REQUEST FOR DESIGNATION.—The sponsor of a drug may request the Secretary to designate the drug as a breakthrough therapy. A request for the designation may be made concurrently with, or at

any time after, the submission of an application for the investigation of the drug under section 13510 of this title or section 351(a)(3) of the Public Health Service Act (42 U.S.C. 262(a)(3)).

(3) DESIGNATION.—

(A) IN GENERAL.—Not later than 60 calendar days after the receipt of a request under paragraph (2), the Secretary shall determine whether the drug that is the subject of the request meets the criteria in subsection (a)(2). If the Secretary finds that the drug meets the criteria, the Secretary shall designate the drug as a breakthrough therapy and shall take such actions as are appropriate to expedite the development and review of the application for approval of the drug.

(B) ACTIONS.—The actions to expedite the development and review of an application under subparagraph (A) may include, as appropriate—

(i) holding meetings with the sponsor and the review team throughout the development of the drug;

(ii) providing timely advice to, and interactive communication with, the spon-

sor regarding the development of the drug to ensure that the development program to gather the nonclinical and clinical data necessary for approval is as efficient as practicable;

(iii) involving senior managers and experienced review staff, as appropriate, in a collaborative, cross-disciplinary review;

(iv) assigning a cross-disciplinary project lead for the FDA review team to facilitate an efficient review of the development program and to serve as a scientific liaison between the review team and the sponsor; and

(v) taking steps to ensure that the design of the clinical trials is as efficient as practicable, when scientifically appropriate, such as by minimizing the number of patients exposed to a potentially less efficacious treatment.

(c) DESIGNATION OF A DRUG AS A FAST TRACK PRODUCT.—

(1) IN GENERAL.—The Secretary shall, at the request of the sponsor of a new drug, facilitate the

development and expedite the review of the drug if the drug is a fast-track product.

(2) REQUEST FOR DESIGNATION.—The sponsor of a new drug may request the Secretary to designate the drug as a fast track product. A request for the designation may be made concurrently with, or at any time after, submission of an application for the investigation of the drug under section 13510 of this title or section 351(a)(3) of the Public Health Service Act (42 U.S.C. 262(a)(3)).

(3) DESIGNATION.—Within 60 calendar days after the receipt of a request under paragraph (2), the Secretary shall determine whether the drug that is the subject of the request meets the criteria in subsection (a)(3). If the Secretary finds that the drug meets the criteria, the Secretary shall designate the drug as a fast-track product and shall take such actions as are appropriate to expedite the development and review of the application for approval of the fast-track product.

(d) ACCELERATED APPROVAL OF A DRUG FOR A SERIOUS OR LIFE-THREATENING DISEASE OR CONDITION, INCLUDING A FAST-TRACK PRODUCT.—

(1) IN GENERAL.—

(A) ACCELERATED APPROVAL.—The Secretary may approve an application for approval of a product for a serious or life-threatening disease or condition, including a fast-track product, under section 13504 of this title or section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)) on a determination that the product has an effect, taking into account the severity, rarity, or prevalence of the condition and the availability or lack of alternative treatments, on—

(i) a surrogate endpoint that is reasonably likely to predict clinical benefit; or

(ii) a clinical endpoint that can be measured earlier than irreversible morbidity or mortality and that is reasonably likely to predict an effect on irreversible morbidity or mortality or other clinical benefit.

(B) EVIDENCE.—The evidence to support that an endpoint is reasonably likely to predict clinical benefit under subparagraph (A) may include epidemiological, pathophysiological, therapeutic, pharmacologic, or other evidence devel-

oped using biomarkers, for example, or other scientific methods or tools.

(2) LIMITATION.—

(A) IN GENERAL.—Approval of a product under this subsection may be subject to 1 or both of the following requirements:

(i) That the sponsor conduct an appropriate postapproval study or studies to verify and describe the predicted effect on irreversible morbidity or mortality or other clinical benefit.

(ii) That the sponsor submit copies of all promotional materials related to the product during the preapproval review period and, following approval and for the period after approval as the Secretary determines to be appropriate, at least 30 days prior to dissemination of the materials.

(B) STUDIES NOT REQUIRED.—If the Secretary does not require that the sponsor of a product approved under accelerated approval conduct a postapproval study under this paragraph, the Secretary shall publish on the FDA

website the rationale for why the study is not appropriate or necessary.

(C) POSTAPPROVAL STUDY CONDITIONS.—Not later than the date of approval of a product under accelerated approval, the Secretary shall specify the conditions for a postapproval study or studies required to be conducted under this paragraph with respect to the product, which may include enrollment targets, the study protocol, and milestones, including the target date of study completion.

(D) STUDIES BEGUN BEFORE APPROVAL.—The Secretary may require, as appropriate, a study or studies to be underway prior to approval, or within a specified time period after the date of approval, of the applicable product.

(3) EXPEDITED WITHDRAWAL OF APPROVAL.—

(A) IN GENERAL.—The Secretary may withdraw approval of a product approved under accelerated approval using expedited procedures described in subparagraph (B) if—

(i) the sponsor fails to conduct any required postapproval study of the product with due diligence, including with respect

to conditions specified by the Secretary under paragraph (2)(C);

(ii) a study required to verify and describe the predicted effect on irreversible morbidity or mortality or other clinical benefit of the product fails to verify and describe the effect or benefit;

(iii) other evidence demonstrates that the product is not shown to be safe or effective under the conditions of use; or

(iv) the sponsor disseminates false or misleading promotional materials with respect to the product.

(B) EXPEDITED PROCEDURES.—Expedited procedures described in this subparagraph shall consist of, prior to the withdrawal of accelerated approval—

(i) providing the sponsor with—

(I) due notice;

(II) an explanation for the proposed withdrawal;

(III) an opportunity for a meeting with the Commissioner or the Commissioner's designee; and

(IV) an opportunity for written appeal to—

(aa) the Commissioner; or

(bb) a designee of the Commissioner who has not participated in the proposed withdrawal of approval (other than a meeting pursuant to subclause (III)) and is not a subordinate of an individual (other than the Commissioner) who participated in the proposed withdrawal;

(ii) providing an opportunity for public comment on the proposal to withdraw approval;

(iii) the publication of a summary of the public comments received, and the Secretary's response to the comments, on the FDA website; and

(iv) convening and consulting an advisory committee on issues related to the proposed withdrawal, if requested by the sponsor and if no such advisory committee has previously advised the Secretary on those issues with respect to the withdrawal

of the product prior to the sponsor's request.

(e) REVIEW OF INCOMPLETE APPLICATIONS FOR APPROVAL OF A FAST-TRACK PRODUCT.—

(1) IN GENERAL.—If the Secretary determines, after preliminary evaluation of clinical data submitted by the sponsor, that a fast-track product may be effective, the Secretary shall evaluate for filing, and may commence review of portions of, an application for the approval of the product before the sponsor submits a complete application. The Secretary shall commence the review only if the applicant—

(A) provides a schedule for submission of information necessary to make the application complete; and

(B) pays any fee that may be required under section 17907 of this title.

(2) EXCEPTION.—Any time period for review of human drug applications that has been agreed to by the Secretary and that has been set forth in goals identified in letters of the Secretary (relating to the use of fees collected under section 17907 of this title to expedite the drug development process and the review of human drug applications) shall not apply to

an application submitted under paragraph (1) until the date on which the application is complete.

(f) CONSTRUCTION.—

(1) PURPOSE.—The amendments made by the Food and Drug Administration Safety and Innovation Act (Public Law 112–144, 126 Stat. 193) and the 21st Century Cures Act (Public Law 114–255, 130 Stat. 1033) to this section are intended to encourage the Secretary to utilize innovative and flexible approaches to the assessment of products under accelerated approval for treatments for patients with serious or life-threatening diseases or conditions and unmet medical needs.

(2) EFFECT OF PROVISIONS.—

(A) EFFECT OF SECTION ON STANDARDS OF EVIDENCE.—Nothing in this section shall be construed to alter the standards of evidence under—

(i) section 13504 or 13505 of this title, including the substantial evidence standard in section 13505 of this title; or

(ii) section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)).

(B) APPLICABILITY OF PROVISIONS AND STANDARDS OF EVIDENCE.—The sections and

standards of evidence referred to in subparagraph (A) apply to the review and approval of products under this section, including whether a product is safe and effective.

(C) EFFECT OF SECTION ON RELIANCE OF SECRETARY ON CERTAIN EVIDENCE.—Nothing in this section alters the ability of the Secretary to rely on evidence that does not come from adequate and well-controlled investigations for the purpose of determining whether an endpoint is reasonably likely to predict clinical benefit as described in subsection (d)(1)(B).

(g) AWARENESS EFFORTS.—The Secretary shall—

(1) develop and disseminate to physicians, patient organizations, pharmaceutical and biotechnology companies, and other appropriate persons a description of the provisions of this section applicable to breakthrough therapies, accelerated approval, and fast-track products; and

(2) establish a program to encourage the development of surrogate and clinical endpoints, including biomarkers, and other scientific methods and tools that can assist the Secretary in determining whether the evidence submitted in an application is reasonably likely to predict clinical benefit for serious or

life-threatening conditions for which significant unmet medical needs exist.

(h) REGENERATIVE ADVANCED THERAPY.—

(1) IN GENERAL.—The Secretary, at the request of the sponsor of a drug, shall facilitate an efficient development program for, and expedite review of, the drug if the drug qualifies as a regenerative advanced therapy under the criteria described in paragraph (2).

(2) CRITERIA.—A drug is eligible for designation as a regenerative advanced therapy under this subsection if—

(A) the drug is a regenerative medicine therapy;

(B) the drug is intended to treat, modify, reverse, or cure a serious or life-threatening disease or condition; and

(C) preliminary clinical evidence indicates that the drug has the potential to address unmet medical needs for a serious or life-threatening disease or condition.

(3) REQUEST FOR DESIGNATION.—The sponsor of a drug may request the Secretary to designate the drug as a regenerative advanced therapy concurrently with, or at any time after, submission of an

application for the investigation of the drug under section 13510 of this title or section 351(a)(3) of the Public Health Service Act (42 U.S.C. 262(a)(3)).

(4) DESIGNATION.—Not later than 60 calendar days after the receipt of a request under paragraph (3), the Secretary shall determine whether the drug that is the subject of the request meets the criteria described in paragraph (2). If the Secretary determines that the drug meets the criteria, the Secretary shall designate the drug as a regenerative advanced therapy and shall take such actions as are appropriate under paragraph (1). If the Secretary determines that a drug does not meet the criteria for the designation, the Secretary shall include with the determination a written description of the rationale for the determination.

(5) ACTIONS.—The sponsor of a regenerative advanced therapy shall be eligible for the actions to expedite development and review of the therapy under subsection (b)(3)(B), including early interactions to discuss any potential surrogate or intermediate endpoint to be used to support the accelerated approval of an application for the product under subsection (d).

(6) ACCESS TO EXPEDITED APPROVAL PATHWAYS.—An application for a regenerative advanced therapy under section 13503(a) of this title or section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)) may be—

(A) eligible for priority review, as described in the Manual of Policies and Procedures of the Food and Drug Administration and goals identified in the letters described in section 101(b) of the Prescription Drug User Fee Amendments of 2012 (Public Law 112–144, title I, 126 Stat. 996); and

(B) eligible for accelerated approval under subsection (d), as agreed on pursuant to subsection (b)(3)(B), through, as appropriate—

(i) surrogate or intermediate endpoints reasonably likely to predict long-term clinical benefit; or

(ii) reliance on data obtained from a meaningful number of sites, including through expansion to additional sites, as appropriate.

(7) POSTAPPROVAL REQUIREMENTS.—The sponsor of a regenerative advanced therapy that is granted accelerated approval and is subject to the

postapproval requirements under subsection (d) may, as appropriate, fulfill such requirements, as the Secretary may require, through—

(A) the submission of clinical evidence, clinical studies, patient registries, or other sources of real-world evidence, such as electronic health records;

(B) the collection of larger confirmatory data sets, as agreed on pursuant to subsection (b)(3)(B); or

(C) postapproval monitoring of all patients treated with the therapy prior to approval of the therapy.

(8) REPORT TO CONGRESS.—Before March 1 of each calendar year, the Secretary shall, with respect to the previous calendar year, submit to the Committee on Health, Education, Labor, and Pensions of the Senate and the Committee on Energy and Commerce of the House of Representatives a report on—

(A) the number and type of applications for approval of regenerative advanced therapies filed, approved or licensed as applicable, withdrawn, or denied; and

(B) how many of the applications or therapies, as applicable, were granted accelerated approval or priority review.

(i) LIMITED POPULATION PATHWAY FOR ANTIBACTERIAL AND ANTIFUNGAL DRUGS.—

(1) IN GENERAL.—The Secretary may approve an antibacterial or antifungal drug, alone or in combination with 1 or more other drugs, as a limited population drug pursuant to this subsection only if—

(A) the drug is intended to treat a serious or life-threatening infection in a limited population of patients with unmet needs;

(B) the standards for approval under sections 13504 and 13505 of this title, or the standards for licensure under section 351 of the Public Health Service Act (2 U.S.C. 262), as applicable, are met; and

(C) the Secretary receives a written request from the sponsor to approve the drug as a limited population drug pursuant to this subsection.

(2) BENEFIT-RISK CONSIDERATION.—The Secretary's determination of safety and effectiveness of an antibacterial or antifungal drug shall reflect the

benefit-risk profile of the drug in the intended limited population, taking into account the severity, rarity, or prevalence of the infection the drug is intended to treat and the availability or lack of alternative treatment in the limited population. The drug may be approved under this subsection notwithstanding a lack of evidence to fully establish a favorable benefit-risk profile in a population that is broader than the intended limited population.

(3) ADDITIONAL REQUIREMENTS.—A drug approved under this subsection shall be subject to the following requirements, in addition to any other applicable requirements of this subtitle:

(A) LABELING.—To indicate that the safety and effectiveness of a drug approved under this subsection has been demonstrated only with respect to a limited population—

(i) all labeling and advertising of an antibacterial or antifungal drug approved under this subsection shall contain the statement ''Limited Population'' in a prominent manner and adjacent to, and not more prominent than—

(I) the proprietary name of the drug, if any; or

(II) if there is no proprietary name, the established name of the drug, if any, as defined in section 13304(a)(1) of this title, or, in the case of a drug that is a biological product, the proper name, as defined by regulation; and

(ii) the prescribing information for the drug required by section 201.57 of title 21, Code of Federal Regulations (or any successor regulation) shall also include the following statement: ''This drug is indicated for use in a limited and specific population of patients.''.

(B) PROMOTIONAL MATERIAL.—The sponsor of an antibacterial or antifungal drug subject to this subsection shall submit to the Secretary copies of all promotional materials related to the drug at least 30 calendar days prior to dissemination of the materials.

(4) OTHER PROGRAMS.—A sponsor of a drug that seeks approval of a drug under this subsection may also seek designation or approval, as applicable, of the drug under other applicable sections or sub-

sections of this subtitle or the Public Health Service Act (42 U.S.C. 201 et seq.).

(5) GUIDANCE.—Not later than 18 months after December 13, 2016, the Secretary shall issue draft guidance describing criteria, processes, and other general considerations for demonstrating the safety and effectiveness of limited population antibacterial and antifungal drugs. The Secretary shall publish final guidance within 18 months of the close of the public comment period on the draft guidance. The Secretary may approve antibacterial and antifungal drugs under this subsection prior to issuing guidance under this paragraph.

(6) ADVICE.—The Secretary shall provide prompt advice to the sponsor of a drug for which the sponsor seeks approval under this subsection to enable the sponsor to plan a development program to obtain the necessary data for the approval, and to conduct any additional studies that would be required to gain approval of the drug for use in a broader population.

(7) TERMINATION OF LIMITATIONS.—If, after approval of a drug under this subsection, the Secretary approves a broader indication for the drug under section 13503 of this title or section 351(a)

of the Public Health Service Act (42 U.S.C. 262(a)), the Secretary may remove any postmarketing conditions, including requirements with respect to labeling and review of promotional materials under paragraph (3), applicable to the approval of the drug under this subsection.

(8) RULES OF CONSTRUCTION.—

(A) AUTHORITY OF SECRETARY AND STANDARDS OF EVIDENCE.—Nothing in this subsection shall be construed to alter—

(i) the authority of the Secretary to approve drugs pursuant to this subtitle or section 351 of the Public Health Service Act (42 U.S.C. 262), including—

(I) the standards of evidence and applicable conditions for approval under this subtitle or that Act; and

(II) the standards of approval of a drug under this subtitle or that Act; or

(ii) the authority of the Secretary to monitor drugs pursuant to this subtitle or that Act.

(B) PRESCRIBING AUTHORITY OF HEALTH CARE PROFESSIONALS AND PRACTICE OF

HEALTH CARE.—Nothing in this subsection shall be construed—

(i) to restrict the prescribing of antimicrobial drugs or other products, including drugs approved under this subsection by health care professionals; or

(ii) to limit the practice of health care.

(9) REPORTING AND ACCOUNTABILITY.—

(A) BIENNIAL REPORTING.—The Secretary shall report to Congress not less often than once every 2 years on the number of requests for approval, and the number of approvals, of an antibacterial or antifungal drug under this subsection.

(B) GAO REPORT.—

(i) IN GENERAL.—Not later than December 2021, the Comptroller General shall submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Health, Education, Labor, and Pensions of the Senate a report on the coordination of activities required under section 319E of the Public Health Service Act (42 U.S.C. 247d–5).

(ii) INCLUSIONS.— The report shall include a review of the activities, and the extent to which the use of the pathway established under this subsection has streamlined premarket approval for antibacterial or antifungal drugs for limited populations, if the pathway has functioned as intended, if the pathway has helped provide for safe and effective treatment for patients, if the premarket approval would be appropriate for other categories of drugs, and if the authorities under this subsection have affected antibacterial or antifungal resistance.

**§ 13120. Manufacturing changes**

(a) IN GENERAL.—With respect to a drug for which there is in effect an approved application under chapter 135 or 137 of this title or a license under section 351 of the Public Health Service Act (42 U.S.C. 262), a change from the manufacturing process approved pursuant to the application or license may be made, and the drug as made with the change may be distributed, if—

(1) the holder of the approved application or license (referred to in this section as a ''holder'') has

validated the effects of the change in accordance with subsection (b); and

(2)(A) in the case of a major manufacturing change, the holder has complied with the requirements of subsection (c); or

(B) in the case of a change that is not a major manufacturing change, the holder complies with the applicable requirements of subsection (d).

(b) VALIDATION OF EFFECTS OF CHANGES.—For purposes of subsection (a)(1), a drug made with a manufacturing change (whether a major manufacturing change or otherwise) may be distributed only if, before distribution of the drug as so made, the holder involved validates the effects of the change on the identity, strength, quality, purity, and potency of the drug as the identity, strength, quality, purity, and potency may relate to the safety or effectiveness of the drug.

(c) MAJOR MANUFACTURING CHANGES.—

(1) REQUIREMENT TO SUBMIT SUPPLEMENTAL APPLICATION.—

(A) IN GENERAL.—For purposes of subsection (a)(2)(A), a drug made with a major manufacturing change may be distributed only if, before the distribution of the drug as so made, the holder involved submits to the Sec-

retary a supplemental application for the change and the Secretary approves the application.

(B) CONTENTS.—The supplemental application shall contain such information as the Secretary determines to be appropriate, and shall include the information developed under subsection (b) by the holder in validating the effects of the change.

(2) CHANGES QUALIFYING AS MAJOR CHANGES.—For purposes of subsection (a)(2)(A), a major manufacturing change is a manufacturing change that is determined by the Secretary to have substantial potential to adversely affect the identity, strength, quality, purity, or potency of the drug as they may relate to the safety or effectiveness of a drug. Such a change includes a change that—

(A) is made in the qualitative or quantitative formulation of the drug involved or in the specifications in the approved application or license referred to in subsection (a) for the drug (unless exempted by the Secretary by regulation or guidance from the requirements of this subsection);

(B) is determined by the Secretary by regulation or guidance to require completion of an appropriate clinical study demonstrating equivalence of the drug to the drug as manufactured without the change; or

(C) is another type of change determined by the Secretary by regulation or guidance to have a substantial potential to adversely affect the safety or effectiveness of the drug.

(d) OTHER MANUFACTURING CHANGES.—

(1) IN GENERAL.—For purposes of subsection (a)(2)(B), the Secretary may regulate drugs made with manufacturing changes that are not major manufacturing changes as follows:

(A) The Secretary may in accordance with paragraph (2) authorize holders to distribute the drugs without submitting a supplemental application for the changes.

(B) The Secretary may in accordance with paragraph (3) require that, prior to the distribution of the drugs, holders submit to the Secretary supplemental applications for the changes.

(C) The Secretary may establish categories of the changes and designate categories to

which subparagraph (A) applies and categories to which subparagraph (B) applies.

(2) CHANGES NOT REQUIRING SUPPLEMENTAL APPLICATION.—

(A) SUBMISSION OF REPORT.—

(i) IN GENERAL.—A holder making a manufacturing change to which paragraph (1)(A) applies shall submit to the Secretary a report on the change, which report shall—

(I) contain such information as the Secretary determines to be appropriate; and

(II) include the information developed under subsection (b) by the holder in validating the effects of the change.

(ii) DATE OF SUBMISSION.—The report shall be submitted by such date as the Secretary may specify.

(B) AUTHORITY REGARDING ANNUAL REPORTS.—In the case of a holder that during a single year makes more than 1 manufacturing change to which paragraph (1)(A) applies, the Secretary may in carrying out subparagraph

(A) authorize the holder to comply with the subparagraph by submitting a single report for the year that provides the information required in the subparagraph for all the changes made by the holder during the year.

(3) CHANGES REQUIRING SUPPLEMENTAL APPLICATION.—

(A) SUBMISSION OF SUPPLEMENTAL APPLICATION.—The supplemental application required under paragraph (1)(B) for a manufacturing change shall contain such information as the Secretary determines to be appropriate, which shall include the information developed under subsection (b) by the holder in validating the effects of the change.

(B) AUTHORITY FOR DISTRIBUTION.—In the case of a manufacturing change to which paragraph (1)(B) applies:

(i) The holder involved may commence distribution of the drug involved 30 days after the Secretary receives the supplemental application under paragraph (1)(B), unless the Secretary notifies the holder within the 30-day period that prior

approval of the application is required before distribution may be commenced.

(ii) The Secretary may designate a category of the changes for the purpose of providing that, in the case of a change that is in the category, the holder involved may commence distribution of the drug involved on the receipt by the Secretary of a supplemental application for the change.

(iii) If the Secretary disapproves the supplemental application, the Secretary may order the manufacturer to cease the distribution of the drugs that have been made with the manufacturing change.

**§ 13121. Reports of postmarketing studies**

(a) SUBMISSION.—

(1) IN GENERAL.—A sponsor of a drug that has entered into an agreement with the Secretary to conduct a postmarketing study of a drug shall submit to the Secretary, within 1 year after the approval of the drug and annually thereafter until the study is completed or terminated, a report of the progress of the study or the reasons for the failure of the sponsor to conduct the study. The report shall

be submitted in such form as is prescribed by the Secretary in regulations issued by the Secretary.

(2) ACCELERATED APPROVAL.—Notwithstanding paragraph (1), a sponsor of a drug approved pursuant to accelerated approval shall submit to the Secretary a report of the progress of any study required under section 13119(d) of this title, including progress toward enrollment targets, milestones, and other information as required by the Secretary, not later than 180 days after the approval of the drug and not less frequently than every 180 days thereafter, until the study is completed or terminated. The Secretary shall promptly publish on the FDA website, in an easily searchable format, the information reported under this paragraph.

(3) AGREEMENTS PRIOR TO EFFECTIVE DATE.—Any agreement entered into between the Secretary and a sponsor of a drug, prior to November 21, 1997, to conduct a postmarketing study of a drug shall be subject to the requirements of paragraph (1). An initial report for such an agreement shall be submitted within 6 months after the date of the issuance of the regulations under paragraph (1).

(b) CONSIDERATION OF INFORMATION AS PUBLIC INFORMATION.—Any information pertaining to a report de-

scribed in subsection (a) shall be considered to be public information to the extent that the information is necessary—

(1) to identify the sponsor; and

(2) to establish the status of a study described in subsection (a) and the reasons, if any, for any failure to carry out the study.

(c) STATUS OF STUDIES AND REPORTS.—The Secretary shall annually develop and publish in the Federal Register a report that provides information on the status of the postmarketing studies—

(1) that sponsors have entered into agreements to conduct; and

(2) for which reports have been submitted under subsection (a)(1).

(d) DISCLOSURE.—If a sponsor fails to complete an agreed upon study required by this section by its original or otherwise negotiated deadline, the Secretary shall publish a statement on the FDA website stating that the study was not completed and, if the reasons for the failure to complete the study were not satisfactory to the Secretary, a statement that the reasons were not satisfactory to the Secretary.

(e) NOTIFICATION.—

(1) IN GENERAL.—With respect to studies of the type required under section 13119(d)(2)(A) of this title or under section 314.510 or 601.41 of title 21, Code of Federal Regulations, as each of those sections was in effect on September 30, 2002, the Secretary may require that a sponsor who, for reasons not satisfactory to the Secretary, fails to complete by its deadline a study under any of those sections of the type for a drug or biological product (including such a study conducted after the effective date) notify practitioners who prescribe the drug or biological product of the failure to complete the study and the questions of clinical benefit, and, where appropriate, questions of safety, that remain unanswered as a result of the failure to complete the study.

(2) EFFECT OF SUBSECTION.—Nothing in this subsection shall be construed as altering the requirements of the types of studies required under section 13119(d)(2)(A) of this title or under section 314.510 or 601.41 of title 21, Code of Federal Regulations, as in effect as described in paragraph (1), or as prohibiting the Secretary from modifying sections 314.510 and 601.41 of title 21, Code of Fed-

eral Regulations, to provide for studies in addition to those of the type described in paragraph (1).

**§ 13122. Discontinuance or interruption in the production of life-saving drugs**

(a) DEFINITIONS.—In this section:

(1) DRUG.—The term ''drug''—

(A) means a drug (as defined in section 10101(a)(18) of this title) that is intended for human use and that is subject to section 13103(a)(1) of this title; and

(B) does not include biological products (as defined in section 351 of the Public Health Service Act (42 U.S.C. 262)), unless otherwise provided by the Secretary in the regulations promulgated under subsection (i).

(2) DRUG SHORTAGE.—The term ''drug shortage'', with respect to a drug, means a period of time when the demand or projected demand for the drug within the United States exceeds the supply of the drug.

(3) MEANINGFUL DISRUPTION.—The term ''meaningful disruption''—

(A) means a change in production that is reasonably likely to lead to a reduction in the supply of a drug by a manufacturer that is

more than negligible and affects the ability of the manufacturer to fill orders or meet expected demand for its product; and

(B) does not include interruptions in manufacturing due to matters such as routine maintenance or insignificant changes in manufacturing so long as the manufacturer expects to resume operations in a short period of time.

(b) NOTIFICATION.—

(1) IN GENERAL.—A manufacturer of a drug shall notify the Secretary, in accordance with subsection (c), of a permanent discontinuance in the manufacture of the drug or an interruption of the manufacture of the drug that is likely to lead to a meaningful disruption in the supply of that drug in the United States, or a permanent discontinuance in the manufacture of an active pharmaceutical ingredient or an interruption in the manufacture of the active pharmaceutical ingredient of the drug that is likely to lead to a meaningful disruption in the supply of the active pharmaceutical ingredient of the drug, and the reasons for the discontinuance or interruption, if the drug—

(A) is—

(i) life-supporting;

(ii) life-sustaining; or

(iii) intended for use in the prevention or treatment of a debilitating disease or condition, including any such drug used in emergency medical care or during surgery or any such drug that is critical to the public health during a public health emergency declared by the Secretary under section 319 of the Public Health Service Act (42 U.S.C. 247d); and

(B) is not a radiopharmaceutical drug product or any other product as designated by the Secretary.

(2) REQUIRED DISCLOSURES.—Notification under this subsection shall include disclosure of—

(A)(i) reasons for the discontinuation or interruption; and

(ii) if applicable, an active pharmaceutical ingredient that is a reason for, or risk factor in, the discontinuation or interruption, the source of the active pharmaceutical ingredient, and any alternative sources for the active pharmaceutical ingredient known by the manufacturer;

(B) whether any associated device used for preparation or administration included in the

drug is a reason for, or a risk factor in, the discontinuation or interruption;

(C) the expected duration of the interruption; and

(D) such other information as the Secretary may require.

(c) TIMING.—A notice required under subsection (b) shall be submitted to the Secretary—

(1) at least 6 months prior to the date of the discontinuance or interruption; or

(2) if compliance with paragraph (1) is not possible, as soon as practicable.

(d) DISTRIBUTION OF INFORMATION.—To the maximum extent practicable, the Secretary shall distribute, through such means as the Secretary considers appropriate, information on the discontinuance or interruption of the manufacture of the drugs described in subsection (b) to appropriate organizations, including physician, health provider, and patient organizations, as described in section 13125 of this title.

(e) CONFIDENTIALITY.—Nothing in this section shall be construed as authorizing the Secretary to disclose any information that is a trade secret or confidential information subject to section 552(b)(4) of title 5 or section 1905 of title 18.

(f) COORDINATION WITH ATTORNEY GENERAL.—

(1) IN GENERAL.—Not later than 30 days after the receipt of a notification described in subsection (b), the Secretary shall—

(A) determine whether the notification pertains to a controlled substance subject to a production quota under section 50506 of this title; and

(B) if necessary, as determined by the Secretary—

(i) notify the Attorney General that the Secretary has received such a notification; and

(ii) request that the Attorney General increase the aggregate and individual production quotas under section 50506 of this title applicable to the controlled substance and any ingredient in the controlled substance to a level the Secretary considers necessary to address a drug shortage of a controlled substance based on the best available market data.

(2) LEVEL REQUESTED NOT NECESSARY TO ADDRESS DRUG SHORTAGE.—If the Attorney General determines that the level requested under paragraph

(1)(B)(ii) is not necessary to address a drug shortage of a controlled substance, the Attorney General shall provide to the Secretary a written response detailing the basis for the Attorney General's determination.

(3) AVAILABILITY OF WRITTEN RESPONSE.—The Secretary shall make the written response provided under paragraph (2) available to the public on the FDA website.

(g) FAILURE TO MEET REQUIREMENTS.—If a person fails to submit information required under subsection (b) in accordance with subsection (c)—

(1) the Secretary shall issue a letter to the person informing the person of the failure;

(2) not later than 30 calendar days after the issuance of a letter under paragraph (1), the person that receives the letter shall submit to the Secretary a written response to the letter setting forth the basis for noncompliance and providing information required under subsection (b); and

(3) not later than 45 calendar days after the issuance of a letter under paragraph (1), the Secretary shall make the letter and any response to the letter under paragraph (2) available to the public on the FDA website, with appropriate redactions made

to protect information described in subsection (e), except that, if the Secretary determines that the letter under paragraph (1) was issued in error or, after review of the response, the person had a reasonable basis for not notifying as required under subsection (b), the requirements of this paragraph shall not apply.

(h) EXPEDITED INSPECTIONS AND REVIEWS.—If, based on notifications described in subsection (b) or any other relevant information, the Secretary concludes that there is, or is likely to be, a drug shortage of a drug described in subsection (b), the Secretary shall, as appropriate—

(1) prioritize and expedite the review of a supplement to a new drug application submitted under section 13503 of this title, an abbreviated new drug application submitted under section 13511 of this title, or a supplement to such an application submitted under section 13511 of this title, that could help mitigate or prevent the drug shortage; or

(2) prioritize and expedite an inspection or reinspection of an establishment that could help mitigate or prevent the drug shortage.

(i) REGULATIONS.—

(1) IN GENERAL.—The Secretary shall adopt a final regulation implementing this section.

(2) CONTENTS.—The regulation shall define, for purposes of this section, the terms ''life-supporting'', ''life-sustaining'', and ''intended for use in the prevention or treatment of a debilitating disease or condition''.

(3) INCLUSION OF BIOLOGICAL PRODUCTS.—

(A) IN GENERAL.—The Secretary may by regulation apply this section to biological products (as defined in section 351 of the Public Health Service Act (42 U.S.C. 262)), including plasma products derived from human plasma protein and their recombinant analogs, if the Secretary determines the inclusion would benefit the public health. The regulation shall take into account any supply reporting programs and shall aim to reduce duplicative notification.

(B) RULE FOR VACCINES.—If the Secretary applies this section to vaccines pursuant to subparagraph (A), the Secretary shall—

(i) consider whether the notification requirement under subsection (b) may be satisfied by submitting a notification to the Centers for Disease Control and Preven-

tion under the vaccine shortage notification program of the Centers; and

(ii) explain the determination made by the Secretary under clause (i) in the regulation.

(4) PROCEDURE.—In promulgating a regulation implementing this section, the Secretary shall—

(A) issue a notice of proposed rulemaking that includes the proposed regulation;

(B) provide a period of not less than 60 days for comments on the proposed regulation; and

(C) publish the final regulation not less than 30 days before the regulation's effective date.

(5) RESTRICTIONS.—Notwithstanding any other provision of Federal law, in implementing this section, the Secretary shall only promulgate regulations as described in paragraph (4).

(j) RISK MANAGEMENT PLANS.—

(1) IN GENERAL.—Each manufacturer of a drug described in subsection (b) or of any active pharmaceutical ingredient or any associated medical device used for preparation or administration included in the drug shall develop, maintain, and im-

plement, as appropriate, a redundancy risk management plan that identifies and evaluates risks to the supply of the drug, as applicable, for each establishment in which the drug or active pharmaceutical ingredient of the drug is manufactured.

(2) INSPECTION OF RISK MANAGEMENT PLAN.—A risk management plan under this section shall be subject to inspection and copying by the Secretary pursuant to an inspection or a request under section 17504(a)(4) of this title.

(k) EFFECT OF SUBMISSION OF NOTIFICATION.—The submission of a notification to the Secretary for purposes of complying with the requirement in subsection (b) shall not be construed—

(1) as an admission that any product that is the subject of the notification violates any provision of this subtitle; or

(2) as evidence of an intention to promote or market the product for an indication or use for which the product has not been approved by the Secretary.

**§ 13123. Annual reporting on drug shortages**

(a) DEFINITION OF DRUG SHORTAGE.—In this section, the term ''drug shortage'' has the meaning given the term in section 13122 of this title.

(b) ANNUAL REPORTS TO CONGRESS.—Not later than March 31 of each calendar year, the Secretary shall submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Health, Education, Labor, and Pensions of the Senate a report, with respect to the preceding calendar year, on drug shortages, which report—

(1) specifies the number of manufacturers that submitted a notification to the Secretary under section 13122(b) of this title during the calendar year;

(2) describes the communication between the field investigators of the FDA and the staff of the Center for Drug Evaluation and Research's Office of Compliance and Drug Shortage Program, including the FDA's procedures for enabling and ensuring the communication;

(3) describes the coordination and alignment activities undertaken pursuant to section 13124(f) of this title;

(4) provides the number of reports that were required under section 17504(b)(2) of this title to be sent to the appropriate offices of the FDA with expertise regarding drug shortages, and the number of the reports that were sent;

(5)(A) lists the major actions taken by the Secretary to prevent or mitigate the drug shortages described in paragraph (9); and

(B) in the list under subparagraph (A), includes—

(i) the number of applications and supplements for which the Secretary expedited review under section 13122(h)(1) of this title during the calendar year; and

(ii) the number of establishment inspections or reinspections that the Secretary expedited under section 13122(h)(2) of this title during the calendar year;

(6) describes the coordination between the FDA and the Drug Enforcement Administration on efforts to prevent or alleviate drug shortages;

(7) identifies the number of and describes the instances in which the FDA exercised regulatory flexibility and discretion to prevent or alleviate a drug shortage;

(8) lists the names of manufacturers that were issued letters under section 13122(g) of this title; and

(9) specifies the number of drug shortages occurring during the calendar year, as identified by the Secretary.

(c) TREND ANALYSIS.—The Secretary may retain a third party to conduct a study, if the Secretary believes that the study would help clarify the causes, trends, or solutions related to drug shortages.

**§ 13124. Coordination relating to drug shortages**

(a) COMMUNICATION.—The Secretary shall ensure that, prior to any enforcement action or issuance of a warning letter that the Secretary determines could reasonably be anticipated to lead to a meaningful disruption in the supply in the United States of a drug described under section 13122(b) of this title, there is communication with the appropriate office of the FDA with expertise regarding drug shortages regarding whether the action or letter could cause, or exacerbate, a shortage of the drug.

(b) ACTION.—If the Secretary determines, after the communication described in subsection (a), that an enforcement action or a warning letter could reasonably cause or exacerbate a shortage of a drug described under section 13122(b) of this title, then the Secretary shall evaluate the risks associated with the impact of the shortage on patients and those risks associated with the violation involved before taking the action or issuing the letter,

unless there is imminent risk of serious adverse health consequences or death to humans.

(c) REPORTING BY OTHER ENTITIES.—The Secretary shall identify or establish a mechanism by which health care providers and other third-party organizations may report to the Secretary evidence of a drug shortage.

(d) REVIEW AND CONSTRUCTION.—No determination, finding, action, or omission of the Secretary under this section shall—

(1) be subject to judicial review; or

(2) be construed to establish a defense to an enforcement action by the Secretary.

(e) TEMPORARY SUNSET.—Subsections (a), (b), and (d) shall not be in effect during the period beginning 5 years after July 9, 2012, and ending on December 29, 2022. Subsections (b), (c), and (e) shall be in effect beginning on December 29, 2022.

(f) COORDINATION.—The Secretary shall ensure timely and effective internal coordination and alignment among the field investigators of the FDA and the staff of the Center for Drug Evaluation and Research's Office of Compliance and Drug Shortage Program regarding—

(1) the reviews of reports shared pursuant to section 17504(b)(2) of this title; and

(2) any feedback or corrective or preventive actions in response to the reports.

**§ 13125. Drug shortage list**

(a) ESTABLISHMENT.—The Secretary shall maintain an up-to-date list of drugs that are determined by the Secretary to be in shortage in the United States.

(b) CONTENTS.—For each drug on the list described in subsection (a), the Secretary shall include the following information:

(1) The name of the drug in shortage, including the National Drug Code number for the drug.

(2) The name of each manufacturer of the drug.

(3) The reason for the shortage, as determined by the Secretary, selecting from the following categories:

(A) Requirements related to complying with good manufacturing practices.

(B) Regulatory delay.

(C) Shortage of an active ingredient.

(D) Shortage of an inactive ingredient component.

(E) Discontinuance of the manufacture of the drug.

(F) Delay in shipping of the drug.

(G) Demand increase for the drug.

(4) The estimated duration of the shortage as determined by the Secretary.

(c) PUBLIC AVAILABILITY.—

(1) IN GENERAL.—Subject to paragraphs (2) and (3), the Secretary shall make the information in the list publicly available.

(2) TRADE SECRETS AND CONFIDENTIAL INFORMATION.—Nothing in this section alters or amends section 1905 of title 18 or section 552(b)(4) of title 5.

(3) PUBLIC HEALTH EXCEPTION.—The Secretary may choose not to make information collected under this section publicly available under paragraph (1) or section 13122(d) of this title if the Secretary determines that disclosure of the information would adversely affect the public health (such as by increasing the possibility of hoarding or other disruption of the availability of drug products to patients).

(d) INTERAGENCY NOTIFICATION.—Not later than 180 days after March 27, 2020, and every 90 days thereafter, the Secretary shall transmit a report regarding the drugs of the current drug shortage list under this section to the Administrator of the Centers for Medicare & Medicaid Services.

**§ 13126. Hospital repackaging of drugs in shortage**

(a) DEFINITIONS.—In this section:

(1) DRUG.—The term ''drug'' excludes any controlled substance (as the term is defined in section 50101 of this title).

(2) HEALTH SYSTEM.—The term ''health system'' means a collection of hospitals that are owned and operated by the same entity and that share access to databases with drug order information for their patients.

(3) REPACKAGE.—The term ''repackage'', with respect to a drug, means to divide the volume of a drug into smaller amounts in order to—

(A) extend the supply of a drug in response to the placement of the drug on a drug shortage list under section 13125 of this title; and

(B) facilitate access to the drug by hospitals within the same health system.

(b) EXCLUSION FROM REGISTRATION.—Notwithstanding any other provision of this subtitle, a hospital shall not be considered an establishment for which registration is required under section 13136 of this title solely because it repackages a drug and transfers it to another hospital within the same health system in accordance with the conditions in subsection (c)—

(1) during any period in which the drug is listed on the drug shortage list under section 13125 of this title; or

(2) during the 60-day period following any period described in paragraph (1).

(c) CONDITIONS.—Subsection (b) shall only apply to a hospital, with respect to the repackaging of a drug for transfer to another hospital within the same health system, if the following conditions are met:

(1) DRUG FOR INTRASYSTEM USE ONLY.—In no case may a drug that has been repackaged in accordance with this section be sold or otherwise distributed by the health system or a hospital within the system to an entity or individual that is not a hospital within the health system.

(2) COMPLIANCE WITH STATE RULES.—Repackaging of a drug under this section shall be done in compliance with applicable State requirements of each State in which the drug is repackaged and received.

(d) TERMINATION.—This section shall not apply on or after the date on which the Secretary issues final guidance that clarifies the policy of the FDA regarding hospital pharmacies repackaging and safely transferring re-

packaged drugs to other hospitals within the same health system during a drug shortage.

**§ 13127. Standards for regenerative medicine and regenerative advanced therapies**

(a) DEFINITIONS.—In this section:

(1) REGENERATIVE ADVANCED THERAPY.—The term ''regenerative advanced therapy'' has the meaning given the term in section 13119(h) of this title.

(2) REGENERATIVE MEDICINE THERAPY.—The term ''regenerative medicine therapy'' has the meaning given the term in section 13119(a)(4) of this title.

(b) IN GENERAL.—Not later than 2 years after December 13, 2016, the Secretary, in consultation with the National Institute of Standards and Technology and stakeholders (including regenerative medicine and advanced therapies manufacturers and clinical trial sponsors, contract manufacturers, academic institutions, practicing clinicians, regenerative medicine and advanced therapies industry organizations, and standard setting organizations), shall facilitate an effort to coordinate and prioritize the development of standards and consensus definition of terms, through a public process, to support, through regulatory predictability, the development, evaluation, and review of regenerative medicine therapies and re-

generative advanced therapies, including with respect to the manufacturing processes and controls of the products.

(c) ACTIVITIES.—

(1) IN GENERAL.—In carrying out this section, the Secretary shall continue to—

(A) identify opportunities to help advance the development of regenerative medicine therapies and regenerative advanced therapies;

(B) identify opportunities for the development of laboratory regulatory science research and documentary standards that the Secretary determines would help support the development, evaluation, and review of regenerative medicine therapies and regenerative advanced therapies through regulatory predictability; and

(C) work with stakeholders, such as those described in subsection (b), as appropriate, in the development of the standards.

(2) REGULATIONS AND GUIDANCE.—Not later than 1 year after the development of standards as described in subsection (b), the Secretary shall review relevant regulations and guidance and, through a public process, update such regulations and guidance as the Secretary determines appropriate.

**§ 13128. Competitive generic therapies**

(a) DEFINITIONS.—In this section:

(1) GENERIC DRUG.—The term ''generic drug'' means a drug that is approved pursuant to section 13511 of this title.

(2) INADEQUATE GENERIC COMPETITION.—The term ''inadequate generic competition'' means, with respect to a drug, there is not more than 1 approved drug on the list of drugs described in section 13511(h)(1) of this title (not including drugs on the discontinued section of the list) that is—

(A) the reference listed drug; or

(B) a generic drug with the same reference listed drug as the drug for which designation as a competitive generic therapy is sought.

(3) REFERENCE LISTED DRUG.—The term ''reference listed drug'' means the listed drug (as the term is used in section 13511 of this title) for the drug involved.

(b) IN GENERAL.—The Secretary may, at the request of an applicant of a drug that is designated as a competitive generic therapy pursuant to subsection (c), expedite the development and review of an abbreviated new drug application under section 13511 of this title for the drug.

(c) DESIGNATION PROCESS.—

(1) REQUEST.—The applicant may request the Secretary to designate the drug as a competitive generic therapy.

(2) TIMING.—A request under paragraph (1) may be made concurrently with, or at any time prior to, the submission of an abbreviated new drug application for the drug under section 13511 of this title.

(3) CRITERIA.—A drug is eligible for designation as a competitive generic therapy under this section if the Secretary determines that there is inadequate generic competition.

(4) DESIGNATION.—Not later than 60 calendar days after the receipt of a request under paragraph (1), the Secretary may—

(A) determine whether the drug that is the subject of the request meets the criteria described in paragraph (3); and

(B) if the Secretary finds that the drug meets the criteria, designate the drug as a competitive generic therapy.

(d) ACTIONS.—In expediting the development and review of an application under subsection (b), the Secretary may, as requested by the applicant, take actions, including—

(1) holding meetings with the applicant and the review team throughout the development of the drug prior to submission of the application for the drug under section 13511 of this title;

(2) providing timely advice to, and interactive communication with, the applicant regarding the development of the drug to ensure that the development program to gather the data necessary for approval is as efficient as practicable;

(3) involving senior managers and experienced review staff, as appropriate, in a collaborative, coordinated review of the application, including with respect to drug-device combination products and other complex products; and

(4) assigning a cross-disciplinary project lead—

(A) to facilitate an efficient review of the development program and application, including manufacturing inspections; and

(B) to serve as a scientific liaison between the review team and the applicant.

(e) REPORTING REQUIREMENT.—Not later than 1 year after the date of the approval of an application under section 13511 of this title with respect to a drug for which the development and review is expedited under this section, the sponsor of the drug shall report to the Secretary

on whether the drug has been marketed in interstate commerce since the date of the approval.

**§ 13129. Prompt reports of marketing status**

(a) NOTIFICATION OF WITHDRAWAL.—The holder of an application approved under section 13504 or 13511 of this title or subsection (a) or (k) of section 351 of the Public Health Service Act (42 U.S.C. 262(a), (k)) shall notify the Secretary in writing 180 days prior to withdrawing the approved drug from sale, or if 180 days is not practicable, as soon as practicable but not later than the date of withdrawal. The holder shall include with the notice the—

(1) National Drug Code;

(2) identity of the drug by established name (or, in the case of a biological product, the proper name) and by proprietary name, if any;

(3) new drug application number, abbreviated application number, or biologics license application number;

(4) strength of the drug;

(5) date on which the drug is expected to no longer be available for sale; and

(6) reason for withdrawal of the drug.

(b) NOTIFICATION THAT DRUG IS NOT AVAILABLE FOR SALE AFTER APPROVAL.—The holder of an applica-

tion approved under section 13504 or 13511 of this title or subsection (a) or (k) of section 351 of the Public Health Service Act (42 U.S.C. 262(a), (k)) shall notify the Secretary in writing within 180 calendar days of the date of approval of the drug if the drug will not be available for sale within 180 calendar days of the date of approval. The holder shall include with the notice the—

(1) identity of the drug by established name (or, in the case of a biological product, the proper name) and by proprietary name, if any;

(2) new drug application number, abbreviated application number, or biologics license application number;

(3) strength of the drug;

(4) date on which the drug will be available for sale, if known; and

(5) reason for not marketing the drug after approval.

(c) ADDITIONAL ONE-TIME REPORT.—Within 180 days of December 29, 2022, all holders of applications approved under subsection (a) or (k) of section 351 of the Public Health Service Act (42 U.S.C. 262(a), (k)) shall review the information in the list published under section 351(k)(9)(A) of the Public Health Service Act (42 U.S.C.

262(k)(9)(A)) and shall submit a written notice to the Secretary—

(1) stating that all of the application holder's biological products in the list published under section 351(k)(9)(A) of the Public Health Service Act (42 U.S.C. 262(k)(9)(A)) that are not listed as discontinued are available for sale; or

(2) including the information required pursuant to subsection (a) or (b), as applicable, for each of the application holder's biological products that is in the list published under section 351(k)(9)(A) of the Public Health Service Act (42 U.S.C. 262(k)(9)(A)) and not listed as discontinued, but has been discontinued from sale or never has been available for sale.

(d) FAILURE TO MEET REQUIREMENTS.—If a holder of an approved application fails to submit the information required under subsection (a), (b), or (c), the Secretary may—

(1) move the application holder's drugs from the active section of the list published under section 13511(h)(1) of this title to the discontinued section of the list, except that the Secretary shall remove from the list in accordance with section 13511(h)(3) of this title drugs that the Secretary determines

have been withdrawn from sale for reasons of safety or effectiveness; and

(2) identify the application holder's biological products as discontinued in the list published under section 351(k)(9)(A) of the Public Health Service Act (42 U.S.C. 262(k)(9)(A)), except that the Secretary shall remove from the list in accordance with section 351(k)(9)(B) of that Act (42 U.S.C. 262(k)(9)(B)) biological products for which the license has been revoked or suspended for reasons of safety, purity, or potency.

(e) UPDATES.—The Secretary shall update the list published under section 13511(h)(1) of this title based on the information provided under subsections (a), (b), and (c) by moving drugs that are not available for sale from the active section to the discontinued section of the list, except that drugs the Secretary determines have been withdrawn from sale for reasons of safety or effectiveness shall be removed from the list in accordance with section 13511(h)(3) of this title. The Secretary shall update the list published under section 351(k)(9)(A) of the Public Health Service Act (42 U.S.C. 262(k)(9)(A)) based on information provided under subsections (a), (b), and (c) by identifying as discontinued biological products that are not available for sale, except that biological products for which

the license has been revoked or suspended for safety, purity, or potency reasons shall be removed from the list in accordance with section 351(k)(9)(B) of the Public Health Service Act (42 U.S.C. 262(k)(9)(B)). The Secretary shall make monthly updates to the lists referred to in the preceding sentences based on the information provided pursuant to subsections (a) and (b), and shall update the lists based on the information provided under subsection (c) as soon as practicable.

(f) LIMITATION ON USE OF NOTICES.—Any notice submitted under this section shall not be made public by the Secretary and shall be used solely for the purpose of the updates described in subsection (e).

**§ 13130. Discontinuance or interruption in the production of medical devices**

(a) DEFINITIONS.—In this section:

(1) MEANINGFUL DISRUPTION.—

(A) IN GENERAL.—The term ''meaningful disruption'' means a change in production that is reasonably likely to lead to a reduction in the supply of a device by a manufacturer that—

(i) is more than negligible; and

(ii) affects the ability of the manufacturer to fill orders or meet expected demand for its product.

(B) EXCLUSIONS.—The term ''meaningful disruption'' does not include—

(i) interruptions in manufacturing due to matters such as routine maintenance or insignificant changes in manufacturing so long as the manufacturer expects to resume operations in a short period of time, not to exceed 6 months;

(ii) interruptions in manufacturing of components or raw materials so long as the interruptions do not result in a shortage of the device and the manufacturer expects to resume operations in a reasonable period of time; or

(iii) interruptions in manufacturing that do not lead to a reduction in procedures or diagnostic tests associated with a medical device designed to perform more than 1 procedure or diagnostic test.

(2) SHORTAGE.—The term ''shortage'', with respect to a device, means a period of time when the demand or projected demand for the device within the United States exceeds the supply of the device.

(b) IN GENERAL.—

(1) NOTIFICATION.—A manufacturer of a device described in paragraph (2) shall, during, or in advance of, a public health emergency declared by the Secretary under section 319 of the Public Health Service Act (42 U.S.C. 247d), notify the Secretary, in accordance with subsection (c), of—

(A) a permanent discontinuance in the manufacture of the device (except for discontinuances as a result of an approved modification of the device) or an interruption of the manufacture of the device that is likely to lead to a meaningful disruption in the supply of that device in the United States; and

(B) the reasons for the discontinuance or interruption.

(2) DEVICE.—A device described in this paragraph is a device—

(A) that is critical to public health during a public health emergency, including devices that are life-supporting, life-sustaining, or intended for use in emergency medical care or during surgery; or

(B) for which the Secretary determines that information on potential meaningful supply

disruptions of the device is needed during, or in advance of, a public health emergency.

(c) TIMING.—A notice required under subsection (b) shall be submitted to the Secretary—

(1) at least 6 months prior to the date of the discontinuance or interruption; or

(2) if compliance with paragraph (1) is not possible, as soon as practicable.

(d) DISTRIBUTION.—

(1) PUBLIC AVAILABILITY.—To the maximum extent practicable, subject to paragraph (2), the Secretary shall distribute, through such means as the Secretary determines appropriate, information on the discontinuance or interruption of the manufacture of devices reported under subsection (b) to appropriate organizations (including physician, health provider, and patient organizations) and supply chain partners, as appropriate and applicable, as described in subsection (h).

(2) PUBLIC HEALTH EXCEPTION.—The Secretary may choose not to make information collected under this section publicly available pursuant to this section if the Secretary determines that disclosure of the information would adversely affect the public health, such as by increasing the possibility of—

(A) unnecessary overpurchase of product or component parts; or

(B) other disruption of the availability of medical products to patients.

(e) CONFIDENTIALITY.—Nothing in this section shall be construed as authorizing the Secretary to disclose any information that is a trade secret or confidential information subject to section 552(b)(4) of title 5 or section 1905 of title 18.

(f) FAILURE TO MEET REQUIREMENTS.—If a person fails to submit information required under subsection (b) in accordance with subsection (c)—

(1) the Secretary shall issue a letter to the person informing the person of the failure;

(2) not later than 30 calendar days after the issuance of a letter under paragraph (1), the person that receives the letter shall submit to the Secretary a written response to the letter setting forth the basis for noncompliance and providing information required under subsection (b); and

(3) not later than 45 calendar days after the issuance of a letter under paragraph (1), the Secretary shall make the letter and any response to the letter under paragraph (2) available to the public on the FDA website, with appropriate redactions made

to protect information described in subsection (e), except that, if the Secretary determines that the letter under paragraph (1) was issued in error or, after review of the response, the person had a reasonable basis for not notifying as required under subsection (b), the requirements of this paragraph shall not apply.

(g) EXPEDITED INSPECTIONS AND REVIEWS.—If, based on notifications described in subsection (b) or (i) or any other relevant information, the Secretary concludes that there is, or is likely to be, a shortage of a device, the Secretary shall, as appropriate—

(1) prioritize and expedite the review of a submission under section 13140(h)(2), 13142, or 13152(m) of this title or review of a notification under section 13136(k) of this title for a device that could help mitigate or prevent the shortage; or

(2) prioritize and expedite an inspection or reinspection of an establishment that could help mitigate or prevent the shortage.

(h) DEVICE SHORTAGE LIST.—

(1) ESTABLISHMENT.—The Secretary shall establish and maintain an up-to-date list of devices that are determined by the Secretary to be in shortage in the United States.

(2) CONTENTS.—For each device included on the list under paragraph (1), the Secretary shall include the following information:

(A) The category or name of the device in shortage.

(B) The name of each manufacturer of the device.

(C) The reason for the shortage, as determined by the Secretary, selecting from the following categories:

(i) Requirements related to complying with good manufacturing practices.

(ii) Regulatory delay.

(iii) Shortage or discontinuance of a component or part.

(iv) Discontinuance of the manufacture of the device.

(v) Delay in shipping of the device.

(vi) Delay in sterilization of the device.

(vii) Demand increase for the device.

(viii) Facility closure.

(D) The estimated duration of the shortage as determined by the Secretary.

(3) PUBLIC AVAILABILITY.—

(A) IN GENERAL.—Subject to subparagraphs (B) and (C), the Secretary shall make the information in the list under paragraph (1) publicly available.

(B) TRADE SECRETS AND CONFIDENTIAL INFORMATION.—Nothing in this subsection shall be construed to alter or amend section 1905 of title 18 or section 552(b)(4) of title 5.

(C) PUBLIC HEALTH EXCEPTION.—The Secretary may elect not to make information collected under this subsection publicly available if the Secretary determines that disclosure of the information would adversely affect the public health (such as by increasing the possibility of hoarding or other disruption of the availability of the device to patients).

(i) ADDITIONAL NOTIFICATIONS.—The Secretary may receive voluntary notifications from a manufacturer of a device that is life-supporting, life-sustaining, or intended for use in emergency medical care or during surgery, or any other device the Secretary determines to be critical to the public health, pertaining to a permanent discontinuance in the manufacture of the device (except for any discontinuance as a result of an approved modification of the device) or an interruption of the manufacture of

the device that is likely to lead to a meaningful disruption in the supply of that device in the United States, and the reasons for the discontinuance or interruption.

(j) RULE OF CONSTRUCTION.—Nothing in this section shall be construed to affect the authority of the Secretary on March 27, 2020, to expedite the review of devices under section 13142 of this title, section 13144 of this title relating to the priority review program for devices, and section 14306 of this title relating to the emergency use authorization authorities.

**§ 13131. Platform technologies**

(a) DEFINITIONS.—In this section:

(1) DESIGNATED PLATFORM TECHNOLOGY.—The term ''designated platform technology'' means a platform technology that is designated as a platform technology under subsection (e).

(2) PLATFORM TECHNOLOGY.—The term ''platform technology'' means a well-understood and reproducible technology, which may include a nucleic acid sequence, molecular structure, mechanism of action, delivery method, vector, or a combination of any of those technologies that the Secretary determines to be appropriate, that the sponsor demonstrates—

(A) is incorporated in or utilized by a drug or biological product and is essential to the structure or function of the drug or biological product;

(B) can be adapted for, incorporated into, or utilized by more than 1 drug or biological product sharing common structural elements; and

(C) facilitates the manufacture or development of more than 1 drug or biological product through a standardized production or manufacturing process or processes.

(b) IN GENERAL.—The Secretary shall establish a program for the designation of platform technologies that meet the criteria described in subsection (c).

(c) CRITERIA.—A platform technology incorporated within or utilized by a drug or biological product is eligible for designation as a designated platform technology under this section if—

(1) the platform technology is incorporated in, or utilized by, a drug approved under chapter 135 of this title or a biological product licensed under section 351 of the Public Health Service Act (42 U.S.C. 262);

(2) preliminary evidence submitted by the sponsor of the approved or licensed drug described in paragraph (1), or a sponsor that has been granted a right of reference to data submitted in the application for the drug, demonstrates that the platform technology has the potential to be incorporated in, or utilized by, more than 1 drug without an adverse effect on quality, manufacturing, or safety; and

(3) data or information submitted by the applicable sponsor under paragraph (2) indicates that incorporation or utilization of the platform technology has a reasonable likelihood to bring significant efficiencies to the drug development or manufacturing process and to the review process.

(d) REQUEST FOR DESIGNATION.—A person may request the Secretary to designate a platform technology as a designated platform technology concurrently with, or at any time after, submission under section 13510 of this title or section 351(a)(3) of the Public Health Service Act (42 U.S.C. 262(a)(3)) for the investigation of a drug that incorporates or utilizes the platform technology that is the subject of the request.

(e) DESIGNATION.—

(1) IN GENERAL.—Not later than 90 calendar days after the receipt of a request under subsection

(d), the Secretary shall determine whether the platform technology that is the subject of the request meets the criteria described in subsection (c).

(2) DESIGNATION.—If the Secretary determines that the platform technology meets the criteria described in subsection (c), the Secretary shall designate the platform technology as a designated platform technology and may expedite the development and review of any subsequent application submitted under section 13503 of this title or section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)) for a drug that uses or incorporates the platform technology pursuant to subsection (f), as appropriate.

(3) DETERMINATION NOT TO DESIGNATE.—If the Secretary determines that the platform technology does not meet the criteria under subsection (c), the Secretary shall include with the determination not to designate the technology a written description of the rationale for the determination.

(4) REVOCATION OF DESIGNATION.—The Secretary may revoke a designation made under paragraph (2), if the Secretary determines that the designated platform technology no longer meets the criteria described in subsection (c). The Secretary shall

communicate the determination to revoke a designation to the requesting sponsor in writing, including a description of the rationale for the determination.

(5) APPLICABILITY.—Nothing in this section shall prevent a product that uses or incorporates a designated platform technology from being eligible for expedited approval pathways if it is otherwise eligible under this subtitle or the Public Health Service Act (42 U.S.C. 201 et seq.).

(f) ACTIONS.—The Secretary may take actions to expedite the development and review of an application for a drug that incorporates or utilizes a designated platform technology, including—

(1) engaging in early interactions with the sponsor to discuss the use of the designated platform technology and what is known about the technology, including data previously submitted that is relevant to establishing, as applicable, safety or efficacy under section 13503 of this title or safety, purity, or potency under section 351(a) of the Public Health Service Act (42 U.S.C. 262(a));

(2) providing timely advice to, and interactive communication with, the sponsor regarding the development of the drug that proposes to use the designated platform technology to ensure that the devel-

opment program designed to gather data necessary for approval or licensure is as efficient as practicable, which may include holding meetings with the sponsor and the review team throughout the development of the drug; and

(3) considering inspectional findings, including prior findings, related to the manufacture of a drug that incorporates or utilizes the designated platform technology.

(g) LEVERAGING DATA FROM DESIGNATED PLATFORM TECHNOLOGIES.—The Secretary shall, consistent with applicable standards for approval, authorization, or licensure under this subtitle and section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)), allow the sponsor of an application under section 13503 of this title or section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)) or a request for emergency use authorization under section 14306 of this title, in order to support approval, licensure, or authorization, to reference or rely on data and information in an application or request for a drug or biological product that incorporates or utilizes the same platform technology designated under subsection (e), if—

(1) the data and information were submitted by the same sponsor, pursuant to the application for

the drug with respect to which designation of the designated platform technology under subsection (e) was granted; or

(2) the sponsor relying on the data and information received a right of reference to the data and information from the sponsor described in paragraph (1).

(h) CHANGES TO A DESIGNATED PLATFORM TECHNOLOGY.—A sponsor of more than 1 application approved under section 13503 of this title or section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)) for drugs that incorporate or utilize a designated platform technology may submit a single supplemental application for proposed changes to the designated platform technology that may be applicable to more than 1 of those drugs that incorporate or utilize the same designated platform technology. The supplemental application may cross-reference data and information submitted in other applications and may include 1 or more comparability protocols regarding how the proposed changes to the platform technology would be made for each applicable drug or biological product.

(i) RULE OF CONSTRUCTION.—Nothing in this section shall be construed to—

(1) alter the authority of the Secretary to approve drugs pursuant to chapter 135 of this title or license biological products pursuant to section 351 of the Public Health Service Act (42 U.S.C. 262), including standards of evidence and applicable conditions for approval or licensure under the chapter or the Act; or

(2) confer any new rights with respect to the permissibility of a sponsor of an application for a drug product or biological product referencing information contained in another application submitted by the holder of an approved application under section 13504 of this title or of a license under section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)).

**§ 13132. Advanced manufacturing technologies designation program**

(a) IN GENERAL.—Not later than 1 year after December 29, 2022, the Secretary shall initiate a program under which persons may request designation of an advanced manufacturing technology as described in subsection (b).

(b) DESIGNATION PROCESS.—The Secretary shall establish a process for the designation under this section of methods of manufacturing drugs, including biological

products, and active pharmaceutical ingredients of those drugs, as advanced manufacturing technologies. A method of manufacturing, or a combination of manufacturing methods, is eligible for designation as an advanced manufacturing technology if the method or combination of methods incorporates a novel technology, or uses an established technique or technology in a novel way, that will substantially improve the manufacturing process for a drug while maintaining equivalent, or providing superior, drug quality, including by—

(1) reducing development time for a drug using the designated manufacturing method; or

(2) increasing or maintaining the supply of—

(A) a drug that is life-supporting, life-sustaining, or of critical importance to providing health care; or

(B) a drug that is on the drug shortage list under section 13125 of this title.

(c) EVALUATION AND DESIGNATION OF AN ADVANCED MANUFACTURING TECHNOLOGY.—

(1) SUBMISSION.—A person that requests designation of a method of manufacturing as an advanced manufacturing technology under this section shall submit to the Secretary data or information demonstrating that the method of manufacturing

meets the criteria described in subsection (b) in a particular context of use. The Secretary may facilitate the development and review of the data or information by—

(A) providing timely advice to, and interactive communication with, the person regarding the development of the method of manufacturing; and

(B) involving senior managers and experienced staff of the FDA, as appropriate, in a collaborative, cross-disciplinary review of the method of manufacturing, as applicable.

(2) EVALUATION AND DESIGNATION.—Not later than 180 calendar days after the receipt of a request under paragraph (1), the Secretary shall determine whether to designate the method of manufacturing as an advanced manufacturing technology, in a particular context of use, based on the data and information submitted under paragraph (1) and the criteria described in subsection (b).

(d) REVIEW OF ADVANCED MANUFACTURING TECHNOLOGIES.—If the Secretary designates a method of manufacturing as an advanced manufacturing technology, the Secretary shall—

(1) expedite the development and review of an application submitted under chapter 135 of this title or section 351 of the Public Health Service Act (42 U.S.C. 262), including supplemental applications, for drugs that are manufactured using a designated advanced manufacturing technology; and

(2) allow the holder of an advanced technology designation, or a person authorized by the advanced manufacturing technology designation holder, in an application submitted under chapter 135 of this title or section 351 of the Public Health Service Act (42 U.S.C. 262), including a supplemental application, to reference or rely on data and information about the designated advanced manufacturing technology for use in manufacturing drugs in the same context of use for which the designation was granted.

(e) IMPLEMENTATION AND EVALUATION OF ADVANCED MANUFACTURING TECHNOLOGIES PROGRAM.—

(1) PUBLIC MEETING.—The Secretary shall publish in the Federal Register a notice of a public meeting, to be held not later than 180 days after December 29, 2022, to discuss, and obtain input and recommendations from relevant stakeholders regarding—

(A) the goals and scope of the program under this section, and the framework, procedures, and requirements suitable for the program; and

(B) ways in which the FDA will support the use of advanced manufacturing technologies and other innovative manufacturing approaches for drugs.

(2) PROGRAM GUIDANCE.—

(A) IN GENERAL.—The Secretary shall—

(i) not later than 180 days after the public meeting under paragraph (1), issue draft guidance regarding the goals and implementation of the program under this section; and

(ii) not later than 2 years after December 29, 2022, issue final guidance regarding the implementation of the program.

(B) CONTENT.—The guidance described in subparagraph (A) shall address—

(i) the process by which a person may request a designation under subsection (b);

(ii) the data and information that a person requesting the designation is re-

quired to submit under subsection (c), and how the Secretary intends to evaluate the submissions;

(iii) the process to expedite the development and review of applications under subsection (d); and

(iv) the criteria described in subsection (b) for eligibility for designation.

(3) REPORT.—Not later than 3 years after December 29, 2022, and annually thereafter, the Secretary shall publish on the FDA website and submit to the Committee on Health, Education, Labor, and Pensions of the Senate and the Committee on Energy and Commerce of the House of Representatives a report containing a description and evaluation of the program being conducted under this section, including the types of innovative manufacturing approaches supported under the program. The report shall include the following:

(A) The number of persons that have requested designations and that have been granted designations.

(B) The number of methods of manufacturing that have been the subject of designation

requests and that have been granted designations.

(C) The average number of calendar days for completion of evaluations under subsection (c)(2).

(D) An analysis of the factors in data submissions that result in determinations to designate and not to designate after evaluation under subsection (c)(2).

(E) The number of applications received under chapter 135 of this title or section 351 of the Public Health Service Act (42 U.S.C. 262), including supplemental applications, that have included an advanced manufacturing technology designated under this section, and the number of the applications approved.

(f) SUNSET.—The Secretary—

(1) may not consider any requests for designation submitted under subsection (c) after October 1, 2032; and

(2) may continue all activities under this section with respect to advanced manufacturing technologies that were designated pursuant to subsection (b) prior to that date, if the Secretary determines

that the activities are in the interest of the public health.

**§ 13133. Qualification of drug development tools**

(a) DEFINITIONS.—In this section:

(1) BIOMARKER.—The term ''biomarker''—

(A) means a characteristic (such as a physiologic, pathologic, or anatomic characteristic or measurement) that is objectively measured and evaluated as an indicator of normal biologic processes, pathologic processes, or biological responses to a therapeutic intervention; and

(B) includes a surrogate endpoint.

(2) BIOMEDICAL RESEARCH CONSORTIA.—The term ''biomedical research consortia'' means collaborative groups that may take the form of public-private partnerships and may include government agencies, institutions of higher education (as defined in section 101(a) of the Higher Education Act of 1965 (20 U.S.C. 1001(a))), patient advocacy groups, industry representatives, clinical and scientific experts, and other relevant entities and individuals.

(3) CLINICAL OUTCOME ASSESSMENT.—The term ''clinical outcome assessment''—

(A) means a measurement of a patient's symptoms, overall mental state, or the effects of a disease or condition on how the patient functions; and

(B) includes a patient-reported outcome.

(4) CONTEXT OF USE.—The term ''context of use'' means, with respect to a drug development tool, the circumstances under which the drug development tool is to be used in drug development and regulatory review.

(5) DRUG DEVELOPMENT TOOL.—The term ''drug development tool'' includes—

(A) a biomarker;

(B) a clinical outcome assessment; and

(C) any other method, material, or measure that the Secretary determines aids drug development and regulatory review for purposes of this section.

(6) PATIENT-REPORTED OUTCOME.—The term ''patient-reported outcome'' means a measurement based on a report from a patient regarding the status of the patient's health condition without amendment or interpretation of the patient's report by a clinician or any other person.

(7) QUALIFICATION.—The term ''qualification'' means a determination by the Secretary that a drug development tool and its proposed context of use can be relied on to have a specific interpretation and application in drug development and regulatory review under this subtitle.

(8) REQUESTOR.—The term ''requestor'' means an entity or entities, including a drug sponsor or a biomedical research consortia, seeking to qualify a drug development tool for a proposed context of use under this section.

(9) SURROGATE ENDPOINT.—The term ''surrogate endpoint'' means a marker, such as a laboratory measurement, radiographic image, physical sign, or other measure, that is not itself a direct measurement of clinical benefit, and—

(A) is known to predict clinical benefit and could be used to support traditional approval of a drug or biological product; or

(B) is reasonably likely to predict clinical benefit and could be used to support the accelerated approval of a drug or biological product in accordance with section 13119(d) of this title.

(b) PROCESS FOR QUALIFICATION.—

(1) IN GENERAL.—The Secretary shall establish a process for the qualification of drug development tools for a proposed context of use under which—

(A)(i) a requestor initiates the process by submitting a letter of intent to the Secretary; and

(ii) the Secretary accepts or declines to accept the letter of intent;

(B)(i) if the Secretary accepts the letter of intent, a requestor submits a qualification plan to the Secretary; and

(ii) the Secretary accepts or declines to accept the qualification plan; and

(C)(i) if the Secretary accepts the qualification plan, the requestor submits to the Secretary a full qualification package;

(ii) the Secretary determines whether to accept the qualification package for review; and

(iii) if the Secretary accepts the qualification package for review, the Secretary conducts the review in accordance with this section.

(2) ACCEPTANCE AND REVIEW OF SUBMISSIONS.—

(A) IN GENERAL.—Subparagraphs (B), (C), and (D) shall apply with respect to the

treatment of a letter of intent, a qualification plan, or a full qualification package submitted under paragraph (1) (referred to in this paragraph as ''qualification submissions'').

(B) ACCEPTANCE FACTORS; NONACCEPTANCE.—

(i) SCIENTIFIC MERIT AS A FACTOR.—The Secretary shall determine whether to accept a qualification submission based on factors that may include the scientific merit of the qualification submission.

(ii) NOT A FINAL DETERMINATION.—A determination not to accept a submission under paragraph (1) shall not be construed as a final determination by the Secretary under this section regarding the qualification of a drug development tool for its proposed context of use.

(C) PRIORITIZATION OF QUALIFICATION REVIEW.—The Secretary may prioritize the review of a full qualification package submitted under paragraph (1) with respect to a drug development tool, based on factors determined appropriate by the Secretary, including—

(i) as applicable, the severity, rarity, or prevalence of the disease or condition targeted by the drug development tool and the availability or lack of alternative treatments for the disease or condition; and

(ii) the identification, by the Secretary or by biomedical research consortia and other expert stakeholders, of the drug development tool and its proposed context of use as a public health priority.

(D) ENGAGEMENT OF EXTERNAL EXPERTS.—The Secretary may, for purposes of the review of qualification submissions, through the use of cooperative agreements, grants, or other appropriate mechanisms, consult with biomedical research consortia and may consider the recommendations of the consortia with respect to the review of any qualification plan submitted under paragraph (1) or the review of any full qualification package under paragraph (3).

(3) REVIEW OF FULL QUALIFICATION PACKAGE.—The Secretary shall—

(A) conduct a comprehensive review of a full qualification package accepted under paragraph (1)(C); and

(B) determine whether the drug development tool at issue is qualified for its proposed context of use.

(4) QUALIFICATION.—The Secretary shall determine whether a drug development tool is qualified for a proposed context of use based on the scientific merit of a full qualification package reviewed under paragraph (3).

(c) EFFECT OF QUALIFICATION.—

(1) IN GENERAL.—A drug development tool determined to be qualified under subsection (b)(4) for a proposed context of use specified by the requestor may be used by any person in that context of use for the purposes described in paragraph (2).

(2) USE OF A DRUG DEVELOPMENT TOOL.—Subject to paragraph (3), a drug development tool qualified under this section may be used for—

(A) supporting or obtaining approval or licensure (as applicable) of a drug or biological product (including in accordance with section 13119(d) of this title) under chapter 135 of

this title or section 351 of the Public Health Service Act (42 U.S.C. 262); or

(B) supporting the investigational use of a drug or biological product under section 13510 of this title or section 351(a)(3) of the Public Health Service Act (42 U.S.C. 262(a)(3)).

(3) RESCISSION OR MODIFICATION.—

(A) IN GENERAL.—The Secretary may rescind or modify a determination under this section to qualify a drug development tool if the Secretary determines that the drug development tool is not appropriate for the proposed context of use specified by the requestor. The determination may be based on new information that calls into question the basis for the qualification.

(B) MEETING FOR REVIEW.—If the Secretary rescinds or modifies under subparagraph (A) a determination to qualify a drug development tool, the requestor involved shall, on request, be granted a meeting with the Secretary to discuss the basis of the Secretary's decision to rescind or modify the determination before the effective date of the rescission or modification.

(d) TRANSPARENCY.—

(1) IN GENERAL.—Subject to paragraph (3), the Secretary shall make publicly available, and update on at least a biannual basis, on the FDA website the following:

(A) Information with respect to each qualification submission under the qualification process under subsection (b), including—

(i) the stage of the review process applicable to the submission;

(ii) the date of the most recent change in stage status;

(iii) whether external scientific experts were utilized in the development of a qualification plan or the review of a full qualification package; and

(iv) submissions from requestors under the qualification process under subsection (b), including any data and evidence contained in the submissions, and any updates to the submissions.

(B) The Secretary's formal written determinations in response to the qualification submissions.

(C) Any rescissions or modifications under subsection (c)(3) of a determination to qualify a drug development tool.

(D) Summary reviews that document conclusions and recommendations for determinations to qualify drug development tools under subsection (b).

(E) A comprehensive list of—

(i) all drug development tools qualified under subsection (b); and

(ii) all surrogate endpoints that were the basis of approval or licensure (as applicable) of a drug or biological product (including in accordance with section 13119(d) of this title) under chapter 135 of this title or section 351 of the Public Health Service Act (42 U.S.C. 262).

(2) RELATION TO TRADE SECRETS ACT.—Information made publicly available by the Secretary under paragraph (1) shall be considered a disclosure authorized by law for purposes of section 1905 of title 18.

(3) APPLICABILITY.—

(A) IN GENERAL.—Nothing in this section shall be construed as authorizing or directing the Secretary to disclose—

(i) any information contained in an application submitted under chapter 135 of this title or section 351 of the Public Health Service Act (42 U.S.C. 262) that is confidential commercial or trade secret information subject to section 552(b)(4) of title 5 or section 1905 of title 18; or

(ii) in the case of a drug development tool that may be used to support the development of a qualified countermeasure, security countermeasure, or qualified pandemic or epidemic product, as defined in sections 319F–1, 319F–2, and 319F–3, respectively, of the Public Health Service Act (42 U.S.C. 247d–6a, 247d–6b, 247d–6d), any information that the Secretary determines has a significant potential to affect national security.

(B) PUBLIC ACKNOWLEDGMENT.—In the case that the Secretary, pursuant to subparagraph (A)(ii), does not make information publicly available, the Secretary shall provide on

the FDA website an acknowledgment of the information that has not been disclosed, pursuant to subparagraph (A)(ii).

(e) RULE OF CONSTRUCTION.—Nothing in this section shall be construed—

(1) to alter the standards of evidence under section 13504 or 13505 of this title, including the substantial evidence standard in section 13505 of this title, or under section 351 of the Public Health Service Act (42 U.S.C. 262) (as applicable); or

(2) to limit the authority of the Secretary to approve or license products under this subtitle or the Public Health Service Act (42 U.S.C. 201 et seq.), as applicable (as in effect before December 13, 2016).

**§ 13134. Authority to designate official names**

(a) IN GENERAL.—

(1) DETERMINATION THAT DESIGNATION IS NECESSARY OR DESIRABLE.—The Secretary may designate an official name for any drug or device if the Secretary determines that the action is necessary or desirable in the interest of usefulness and simplicity.

(2) ONLY OFFICIAL NAME TO BE USED.—An official name designated under this section for any

drug or device shall be the only official name of that drug or device used in any official compendium published after the name has been prescribed or for any other purpose of this subtitle.

(3) OFFICIAL NAME NOT TO INFRINGE VALID TRADEMARK.—The Secretary shall not establish an official name so as to infringe a valid trademark.

(b) REVIEW OF NAMES IN OFFICIAL COMPENDIA.—

(1) DRUGS.—At such times as the Secretary may consider necessary, the Secretary shall review the official names by which drugs are identified in the official United States Pharmacopeia, the official Homoeopathic Pharmacopoeia of the United States, and the official National Formulary, and all supplements to those compendia, to determine whether revision of any of those names is necessary or desirable in the interest of usefulness and simplicity.

(2) DEVICES.—At such times as the Secretary may consider necessary, the Secretary shall review the official names by which devices are identified in any official compendium (and all supplements to the compendium) to determine whether revision of any of those names is necessary or desirable in the interest of usefulness and simplicity.

(c) USEFULNESS OF NAME.—

(1) DETERMINATIONS OF COMPLEXITY, USEFULNESS, MULTIPLICITY, OR LACK OF NAME.—The Secretary shall make the transmittal described in paragraph (2) if the Secretary determines after any review under subsection (b) that—

(A) any official name reviewed under subsection (b) is unduly complex or is not useful for any other reason;

(B) 2 or more official names have been applied to—

(i) a single drug or device;

(ii) 2 or more drugs that are identical in chemical structure and pharmacological action and that are substantially identical in strength, quality, and purity; or

(iii) 2 or more devices that are substantially equivalent in design and purpose; or

(C) no official name has been applied to a medically useful drug or device.

(2) TRANSMITTAL.—If the Secretary makes a determination under paragraph (1), the Secretary shall transmit in writing to the compiler of each official compendium in which the drug or drugs or device are identified and recognized the Secretary's re-

quest for the recommendation of a single official name for the drug or drugs or device that will have usefulness and simplicity.

(3) NO SINGLE OFFICIAL NAME RECOMMENDED.—If a single official name has not been recommended within 180 days after the request, or if the Secretary determines that any name recommended is not useful for any reason, the Secretary shall designate a single official name for the drug or drugs or device.

(4) USEFUL NAME RECOMMENDED.—If the Secretary determines that the name recommended is useful, the Secretary shall designate that name as the official name of the drug or drugs or device.

(5) NOTICE.—The designation shall be made as a regulation on public notice and in accordance with the procedure set forth in section 553 of title 5.

(d) REVISED OFFICIAL NAMES; COMPILATION, PUBLICATION, AND PUBLIC DISTRIBUTION.—After each review under this section, and at such other times as the Secretary may determine to be necessary or desirable, the Secretary shall compile, publish, and publicly distribute a list that—

(1) shall list all revised official names of drugs or devices designated under this section; and

(2) shall contain such descriptive and explanatory matter as the Secretary may determine to be required for the effective use of those names.

(e) REQUEST BY COMPILER OF OFFICIAL COMPENDIUM FOR DESIGNATION OF NAME.—On a request in writing by any compiler of an official compendium that the Secretary exercise the authority granted to the Secretary under subsection (a), the Secretary shall, on public notice and in accordance with the procedure set forth in section 553 of title 5, designate the official name of the drug or device for which the request is made.

**§ 13135. Inapplicability of division to cosmetics**

This division, as amended by the Drug Amendments of 1962 (Public Law 87–781, 76 Stat. 780), shall not apply to any cosmetic unless the cosmetic is also a drug or device or component of a drug or device.

**§ 13136. Registration of producers of drugs or devices**

(a) DEFINITIONS.—In this section:

(1) MANUFACTURE, PREPARATION, PROPAGATION, COMPOUNDING, OR PROCESSING.—The term ''manufacture, preparation, propagation, compounding, or processing'' shall include repackaging or otherwise changing the container, wrapper, or labeling of any drug package or device package in furtherance of the distribution of the drug or device

from the original place of manufacture to the person that makes final delivery or sale to the ultimate consumer or user.

(2) NAME.—The term ''name'' shall include, in the case of a partnership, the name of each partner and, in the case of a corporation, the name of each corporate officer and director, and the State of incorporation.

(b) ANNUAL REGISTRATION.—

(1) DRUG PRODUCERS.—During the period beginning on October 1 and ending on December 31 of each year, each person that owns or operates any establishment in any State engaged in the manufacture, preparation, propagation, compounding, or processing of a drug or drugs shall register with the Secretary—

(A) the name of the person;

(B) places of business of the person;

(C) all such establishments;

(D) the unique facility identifier of each such establishment; and

(E) a point of contact e-mail address.

(2) DEVICE PRODUCERS.—During the period beginning on October 1 and ending on December 31 of each year, each person that owns or operates any

establishment in any State engaged in the manufacture, preparation, propagation, compounding, or processing of a device or devices shall register with the Secretary—

(A) the name of the person;

(B) places of business of the person; and

(C) all such establishments.

(3) UNIQUE FACILITY IDENTIFIER.—

(A) SPECIFICATION BY SECRETARY.—The Secretary shall specify the unique facility identifier system that shall be used by registrants under paragraph (1).

(B) DATE ON WHICH REQUIREMENT TO INCLUDE IS APPLICABLE.—The requirement to include a unique facility identifier in a registration under paragraph (1) shall not apply until the date that the identifier system is specified by the Secretary under subparagraph (A).

(c) NEW PRODUCERS.—Each person, on first engaging in the manufacture, preparation, propagation, compounding, or processing of a drug or drugs or a device or devices in any establishment that the person owns or operates in any State, shall immediately register with the Secretary—

(1) with respect to drugs, the information described under subsection (b)(1); and

(2) with respect to devices, the information described under subsection (b)(2).

(d) ADDITIONAL ESTABLISHMENTS.—Each person registered in accordance with subsections (b) and (c) shall immediately register with the Secretary any additional establishment that the person owns or operates in any State and in which the person begins the manufacture, preparation, propagation, compounding, or processing of a drug or drugs or a device or devices.

(e) REGISTRATION NUMBERS AND OTHER IDENTIFICATION NUMBERS.—

(1) REGISTRATION NUMBER.—The Secretary may assign a registration number to any person or any establishment registered in accordance with this section.

(2) LISTING NUMBER FOR DRUGS.—The Secretary may assign a listing number to each drug or class of drugs listed under subsection (j).

(3) CONFORMITY WITH NATIONAL DRUG CODE.—Any number assigned pursuant to paragraph (2) shall be the same as that assigned pursuant to the National Drug Code.

(4) UNIFORM SYSTEM FOR THE IDENTIFICATION OF DEVICES.—The Secretary may by regulation prescribe a uniform system for the identification of devices intended for human use and may require persons that are required to list the devices pursuant to subsection (j) to list the devices in accordance with the system.

(f) AVAILABILITY OF REGISTRATIONS FOR INSPECTION.—

(1) IN GENERAL.—The Secretary shall make available for inspection, to any person requesting such an inspection, any registration filed pursuant to this section, except as provided in paragraph (2).

(2) EXCEPTION.—Any list submitted pursuant to paragraph (4) of subsection (j) and the information accompanying any list or notice filed under paragraph (1) or (2) of that subsection shall be exempt from the inspection under paragraph (1) unless the Secretary finds that the exemption would be inconsistent with protection of the public health.

(g) EXCLUSIONS FROM APPLICATION OF SECTION.—

(1) DEFINITION OF WHOLESALE DISTRIBUTOR.—In this subsection, the term ''wholesale distributor'' means any person (other than the manufacturer or the initial importer) that distributes a

device from the original place of manufacture to the person that makes the final delivery or sale of the device to the ultimate consumer or user.

(2) IN GENERAL.—Subsections (a) through (f) shall not apply to—

(A) pharmacies—

(i) that maintain establishments in conformance with any applicable local laws regulating the practice of pharmacy and medicine and that are regularly engaged in dispensing prescription drugs or devices, on prescriptions of practitioners licensed to administer the drugs or devices to patients under the care of the practitioners in the course of their professional practice; and

(ii) that do not manufacture, prepare, propagate, compound, or process drugs or devices for sale other than in the regular course of their business of dispensing or selling drugs or devices at retail;

(B) practitioners who—

(i) are licensed by law to prescribe or administer drugs or devices; and

(ii) manufacture, prepare, propagate, compound, or process drugs or devices

solely for use in the course of their professional practice;

(C) persons that manufacture, prepare, propagate, compound, or process drugs or devices solely for use in research, teaching, or chemical analysis and not for sale;

(D) any distributor that—

(i) acts as a wholesale distributor of devices; and

(ii) does not manufacture, repackage, process, or relabel a device; or

(E) such other classes of persons as the Secretary may by regulation exempt from the application of this section on a finding that registration by the classes of persons in accordance with this section is not necessary for the protection of the public health.

(h) INSPECTIONS.—

(1) IN GENERAL.—Each establishment that is required to be registered with the Secretary under this section shall be subject to inspection pursuant to section 17504 of this title.

(2) RISK-BASED SCHEDULE FOR DEVICES.—

(A) IN GENERAL.—The Secretary, acting through 1 or more officers or employees des-

ignated by the Secretary, shall inspect establishments described in paragraph (1) that are engaged in the manufacture, preparation, propagation, compounding, or processing of a device or devices (referred to in this subsection as ''device establishments'') in accordance with a risk-based schedule established by the Secretary.

(B) FACTORS AND CONSIDERATIONS.—In establishing the risk-based schedule under subparagraph (A), the Secretary shall—

(i) apply, to the extent applicable for device establishments, the factors identified in paragraph (4); and

(ii) consider the participation of the device establishment, as applicable, in international device audit programs in which the United States participates or the United States recognizes for purposes of inspecting device establishments.

(3) RISK-BASED SCHEDULE FOR DRUGS.—The Secretary, acting through 1 or more officers or employees designated by the Secretary, shall inspect establishments described in paragraph (1) that are engaged in the manufacture, preparation, propagation, compounding, or processing of a drug or drugs in

accordance with a risk-based schedule established by the Secretary.

(4) RISK FACTORS.—In establishing a risk-based schedule under paragraph (2) or (3), the Secretary shall inspect establishments according to the known safety risks of the establishments, which shall be based on the following factors:

(A) The compliance history of the establishment.

(B) The record, history, and nature of recalls linked to the establishment.

(C) The inherent risk of the drug or device manufactured, prepared, propagated, compounded, or processed at the establishment.

(D) The inspection frequency and history of the establishment, including whether the establishment has been inspected pursuant to section 17504 of this title within the last 4 years.

(E) Whether the establishment has been inspected by a foreign government or an agency of a foreign government recognized under section 20109 of this title.

(F) The compliance history of establishments in the country or region in which the establishment is located, which establishments are

subject to regulation under this subtitle, including the history of violations related to products exported from the country or region, which products are subject to the regulation.

(G) Any other criteria considered necessary and appropriate by the Secretary for purposes of allocating inspection resources.

(5) EFFECT OF STATUS.—In determining the risk associated with an establishment for purposes of establishing a risk-based schedule under paragraph (3), the Secretary shall not consider whether the drugs manufactured, prepared, propagated, compounded, or processed by the establishment are drugs described in section 13103(a) of this title.

(6) ANNUAL REPORT ON INSPECTIONS OF ESTABLISHMENTS.—Not later than May 1 of each year, the Secretary shall make available on the FDA website a report regarding—

(A)(i) the number of domestic and foreign establishments registered pursuant to this section in the previous fiscal year;

(ii) the number of the registered establishments described in clause (i) in each region of interest;

(iii) the number of the domestic establishments described in clause (i) and the number of the foreign establishments described in clause (i), including the number of establishments in each region of interest, that the Secretary inspected in the previous fiscal year;

(iv) the number of inspections to support actions by the Secretary on applications under chapter 135 of this title or section 351 of the Public Health Service Act (42 U.S.C. 262), including the number of inspections to support actions by the Secretary on supplemental applications, including changes to manufacturing processes, the Secretary conducted in the previous fiscal year;

(v) the number of routine surveillance inspections the Secretary conducted in the previous fiscal year, including in each region of interest;

(vi) the number of for-cause inspections the Secretary conducted in the previous fiscal year, not including inspections described in clause (iv), including in each region of interest; and

(vii) the number of inspections the Secretary has recognized pursuant to an agreement entered into pursuant to section 20109 of this title, or otherwise recognized, for each of the types of inspections described in clauses (v) and (vi), including for inspections of establishments in each region of interest;

(B) with respect to establishments that manufacture, prepare, propagate, compound, or process an active ingredient of a drug or a finished drug product, the number of each such type of establishment;

(C) the percentage of the budget of the FDA used to fund the inspections described under subparagraph (A); and

(D) the status of the efforts of the FDA to expand its recognition of inspections conducted or recognized by foreign regulatory authorities under section 20109 of this title, including any obstacles to expanding the use of the recognition.

(7) REGION OF INTEREST.—For purposes of paragraph (6)(A), the term ''region of interest'' means a foreign geographic region or country, including the People's Republic of China, India, the

European Union, the United Kingdom, and any other country or geographic region, as the Secretary determines appropriate.

(i) REGISTRATION OF FOREIGN ESTABLISHMENTS.—

(1) IN GENERAL.—Each person that owns or operates any establishment within any foreign country engaged in the manufacture, preparation, propagation, compounding, or processing of a drug or device that is imported or offered for import into the United States shall, through electronic means in accordance with the criteria of the Secretary—

(A) on first engaging in any such activity, immediately submit a registration to the Secretary that includes—

(i) with respect to drugs—

(I) the name and place of business of the person;

(II) all establishments owned or operated by the person;

(III) the unique facility identifier of each of the establishments;

(IV) a point of contact e-mail address;

(V) the name of the United States agent of each of the establishments;

(VI) the name of each importer of the drug in the United States, which importer is known to the establishment; and

(VII) the name of each person that imports or offers for import the drug to the United States for purposes of importation; and

(ii) with respect to devices—

(I) the name and place of business of the establishment;

(II) the name of the United States agent for the establishment;

(III) the name of each importer of the device in the United States, which importer is known to the establishment; and

(IV) the name of each person that imports or offers for import the device to the United States for purposes of importation; and

(B) after the initial registration under subparagraph (A), register with the Secretary, during the period beginning on October 1 and ending on December 31 of each year, each establishment subject to the requirements of subparagraph (A).

(2) ADDITIONAL INFORMATION.—The establishment shall also provide the information required by subsection (j).

(3) COOPERATIVE AGREEMENTS.—The Secretary may enter into cooperative arrangements with officials of foreign countries to ensure that adequate and effective means are available for purposes of determining, from time to time, whether drugs or devices manufactured, prepared, propagated, compounded, or processed by an establishment described in paragraph (1), if imported or offered for import into the United States, shall be refused admission on any of the grounds set forth in section 20101(a) of this title.

(4) UNIQUE FACILITY IDENTIFIER.—

(A) SPECIFICATION BY SECRETARY.—The Secretary shall specify the unique facility identifier system that shall be used by registrants under paragraph (1) with respect to drugs.

(B) DATE ON WHICH REQUIREMENT TO INCLUDE IS APPLICABLE.—The requirement to include a unique facility identifier in a registration under paragraph (1) with respect to drugs shall not apply until the date that the identifier system is specified by the Secretary under subparagraph (A).

(5) APPLICABILITY OF REQUIREMENTS REGARDLESS OF FURTHER MANUFACTURE, PREPARATION, PROPAGATION, COMPOUNDING, OR PROCESSING AT A SEPARATE ESTABLISHMENT OUTSIDE THE UNITED STATES.—The requirements of paragraphs (1) and (2) shall apply regardless of whether the drug or device undergoes further manufacture, preparation, propagation, compounding, or processing at a separate establishment outside the United States prior to being imported or offered for import into the United States.

(j) OTHER SUBMISSIONS.—

(1) FILING OF LISTS OF DRUGS AND DEVICES MANUFACTURED, PREPARED, PROPAGATED, COMPOUNDED, OR PROCESSED BY REGISTRANTS.—Each person that registers with the Secretary under subsection (b), (c), (d), or (i) shall, at the time of registration under any of those subsections, file with

the Secretary a list of all drugs and a list of all devices (including a brief statement of the basis for believing that each device included in the list is a device rather than a drug), with each drug and device in each list listed by its established name (as defined in section 13304 of this title) and by any proprietary name, that are being manufactured, prepared, propagated, compounded, or processed by the person for commercial distribution and that the person has not included in any list of drugs or devices filed by the person with the Secretary under this paragraph or paragraph (2) before the time of registration. The list shall be prepared in such form and manner as the Secretary may prescribe and shall be accompanied by—

(A) in the case of a drug that is contained in the applicable list and subject to chapter 135 or 137 of this title, or a device that is intended for human use contained in the applicable list with respect to which a performance standard has been established under section 13141 of this title or that is subject to section 13142 of this title, a reference to the authority for the marketing of the drug or device and a copy of all labeling for the drug or device;

(B) in the case of any other drug or device contained in an applicable list—

(i) which drug is subject to section 13103(a)(1) of this title, or which device is a restricted device, a copy of all labeling for the drug or device, a representative sampling of advertisements for the drug or device, and, on request made by the Secretary for good cause, a copy of all advertisements for a particular drug product or device; or

(ii) which drug is not subject to section 13103(a)(1) of this title or which device is not a restricted device, the label and package insert for the drug or device and a representative sampling of any other labeling for the drug or device;

(C) in the case of any drug contained in an applicable list that is described in subparagraph (B), a quantitative listing of its active ingredient or ingredients, except that with respect to a particular drug product, the Secretary may require the submission of a quantitative listing of all ingredients if the Secretary finds that the

submission is necessary to carry out the purposes of this subtitle;

(D) if the registrant filing a list has determined that a particular drug product or device contained in the list is not subject to chapter 135 or 137 of this title, or the particular device contained in the list is not subject to a performance standard established under section 13141 of this title or to section 13142 of this title or is not a restricted device, a brief statement of the basis on which the registrant made the determination if the Secretary requests a statement with respect to that particular drug product or device; and

(E) in the case of a drug contained in the applicable list, the name and place of business of each manufacturer of an excipient of the listed drug with which the person listing the drug conducts business, including all establishments used in the production of the excipient, the unique facility identifier of each of those establishments, and a point of contact e-mail address for each of the excipient manufacturers.

(2) REPORTS.—

(A) IN GENERAL.—Each person that registers with the Secretary under this section shall report to the Secretary, with regard to drugs once during the month of June of each year and once during the month of December of each year, and with regard to devices once each year during the period beginning on October 1 and ending on December 31, the following information:

(i) A list of each drug or device introduced by the registrant for commercial distribution that has not been included in any list previously filed by the registrant with the Secretary under this clause or paragraph (1).

(ii) If, since the date the registrant last made a report under this paragraph (or if the registrant has not made a report under this paragraph since February 1, 1973), the registrant has discontinued the manufacture, preparation, propagation, compounding, or processing for commercial distribution of a drug or device included in a list filed by the registrant under clause (i) or paragraph (1)—

(I) notice of the discontinuance;

(II) the date of the discontinuance; and

(III) the identity (by established name (as defined in section 13304 of this title) and by any proprietary name) of the drug or device.

(iii) If, since the date the registrant reported pursuant to clause (ii) a notice of discontinuance, the registrant has resumed the manufacture, preparation, propagation, compounding, or processing for commercial distribution of the drug or device with respect to which the notice of discontinuance was reported, unless the registrant has previously reported the resumption to the Secretary pursuant to this clause—

(I) notice of the resumption;

(II) the date of the resumption;

(III) the identity of the drug or device (each by established name (as defined in section 13304 of this title) and by any proprietary name); and

(IV) the other information required by paragraph (1).

(iv) Any material change in any information previously submitted pursuant to this paragraph or paragraph (1).

(B) LIST FORMAT; ACCOMPANYING INFORMATION.—A list under subparagraph (A)(i) shall list a drug or device by its established name (as defined in section 13304 of this title) and by any proprietary name it may have and shall be accompanied by the other information required by paragraph (1).

(3) REPORTS RELATING TO AMOUNT OF DRUG MANUFACTURED, PREPARED, PROPAGATED, COMPOUNDED, OR PROCESSED.—

(A) IN GENERAL.—

(i) ANNUAL REPORTING REQUIREMENT.—Each person that registers with the Secretary under this section with regard to a drug shall report annually to the Secretary on the amount of each drug listed under paragraph (1) that was manufactured, prepared, propagated, compounded, or processed by the person for commercial distribution.

(ii) ELECTRONIC FORMAT.—The information may be required to be submitted

in an electronic format as determined by the Secretary.

(iii) PUBLIC HEALTH EMERGENCY.—The Secretary may require that information required to be reported under this paragraph be submitted at the time a public health emergency is declared by the Secretary under section 319 of the Public Health Service Act (42 U.S.C. 247d).

(B) BIOLOGICAL PRODUCTS.—By order of the Secretary, certain biological products or categories of biological products regulated under section 351 of the Public Health Service Act (42 U.S.C. 262) may be exempt from some or all of the reporting requirements under subparagraph (A), if the Secretary determines that applying the reporting requirements to the biological products or categories of biological products is not necessary to protect the public health.

(4) ADDITIONAL INFORMATION.—

(A) IN GENERAL.—The Secretary may require each registrant under this section to submit a list of each drug product that—

(i) the registrant is manufacturing, preparing, propagating, compounding, or processing for commercial distribution; and

(ii) contains a particular ingredient.

(B) FINDING REQUIRED.—The Secretary may not require the submission of a list under subparagraph (A) unless the Secretary has made a finding that the submission of the list is necessary to carry out this subtitle.

(5) UNIQUE FACILITY IDENTIFIER SYSTEMS.—

(A) REQUIRED USE.—The Secretary shall require persons subject to this subsection to use, for purposes of this subsection, the unique facility identifier systems specified under subsections (b)(3) and (i)(4) with respect to drugs.

(B) DATE ON WHICH REQUIREMENT TO USE IS APPLICABLE.—The requirement under subparagraph (A) shall not apply until the date that the identifier system under subsection (b)(3) or (i)(4), as applicable, is specified by the Secretary.

(k) REPORT PRECEDING INTRODUCTION OF DEVICES INTO INTERSTATE COMMERCE.—

(1) IN GENERAL.—Each person that is required to register under this section and that proposes to

begin the introduction or delivery for introduction into interstate commerce for commercial distribution of a device intended for human use shall, at least 90 days before making the introduction or delivery, report to the Secretary or person that is accredited under section 13155(a) of this title (in such form and manner as the Secretary shall by regulation prescribe)—

(A) the class in which the device is classified under section 13140 of this title or if the person determines that the device is not classified under that section, a statement of that determination and the basis for the person's determination that the device is or is not classified under that section; and

(B) action taken by the person to comply with requirements under section 13141 or 13142 of this title that are applicable to the device.

(2) CERTIFICATION REQUIRED TO ACCOMPANY CLINICAL TRIAL DATA FOR APPLICABLE DEVICE.—A notification submitted under this subsection that contains clinical trial data for an applicable device clinical trial (as defined in section 402(j)(1) of the Public Health Service Act (42 U.S.C. 282(j)(1)))

shall be accompanied by the certification required under section 402(j)(5)(B) of the Public Health Service Act (42 U.S.C. 282(j)(5)(B)). The certification shall not be considered an element of the notification.

(l) EXEMPTION FROM REPORTING REQUIREMENTS.—

(1) IN GENERAL.—A report under subsection (k) is not required for a device intended for human use that is exempted from the requirements of this subsection under subsection (m) or is within a type that has been classified in class I under section 13140 of this title, or with respect to a change that is consistent with a predetermined change control plan cleared under section 13145 of this title. The exemption established in the preceding sentence does not apply to any class I device that is intended for a use that is of substantial importance in preventing impairment of human health, or to any class I device that presents a potential unreasonable risk of illness or injury.

(2) IDENTIFICATION OF CLASS I DEVICES THAT NO LONGER REQUIRE A REPORT.—

(A) IN GENERAL.—Not later than 120 calendar days after December 13, 2016, and at

least once every 5 years thereafter, as the Secretary determines appropriate, the Secretary shall identify, through publication in the Federal Register, any type of class I device that the Secretary determines no longer requires a report under subsection (k) to provide reasonable assurance of safety and effectiveness.

(B) EXEMPTION.—On publication under subparagraph (A)—

(i) each type of class I device identified under subparagraph (A) shall be exempt from the requirement for a report under subsection (k); and

(ii) the classification regulation applicable to each such type of device shall be deemed amended to incorporate the exemption.

(m) EXEMPTION OF CLASS II DEVICES FROM REPORTING REQUIREMENTS.—

(1) PUBLICATION OF LIST.—The Secretary shall—

(A) not later than 90 days after December 13, 2016, and at least once every 5 years thereafter, as the Secretary determines appropriate—

(i) publish in the Federal Register a notice that contains a list of each type of class II device that the Secretary determines no longer requires a report under subsection (k) to provide reasonable assurance of safety and effectiveness; and

(ii) provide, for a period of not less than 60 calendar days, for public comment beginning on the date of the publication of the notice; and

(B) not later than 210 calendar days after December 13, 2016, have published in the Federal Register a list representing the Secretary's original final determination with respect to the devices contained in the list published under subparagraph (A).

(2) EXEMPTION BY SECRETARY'S INITIATIVE OR BY PETITION.—

(A) IN GENERAL.—Beginning on the date that is 1 calendar day after the date of publication of the final list under paragraph (1)(B), the Secretary may exempt a class II device from the requirement to submit a report under subsection (k), on the Secretary's own initiative or a petition of an interested person, if the Sec-

retary determines that the report is not necessary to ensure the safety and effectiveness of the device.

(B) NOTICE AND COMMENT.—The Secretary shall publish in the Federal Register notice of the intent of the Secretary to exempt the device, or of the petition, and provide a 60-calendar-day period for public comment.

(C) PUBLICATION OR FINAL DETERMINATION.—Within 120 days after the issuance of the notice in the Federal Register, the Secretary shall publish an order in the Federal Register that sets forth the final determination of the Secretary regarding the exemption of the device that was the subject of the notice.

(D) FAILURE OF SECRETARY TO RESPOND TO PETITION.—If the Secretary fails to respond to a petition under this paragraph within 180 days of receiving it, the petition shall be deemed to be granted.

(3) EFFECT OF LISTING.—On the publication of the final list under paragraph (1)(B)—

(A) each type of class II device on the list shall be exempt from the requirement for a report under subsection (k); and

(B) the classification regulation applicable to each such type of device shall be deemed amended to incorporate the exemption.

(n) REVIEW OF REPORT.—

(1) IN GENERAL.—The Secretary shall review the report required in subsection (k) and make a determination under section 13140(h)(1) of this title not later than 90 days after receiving the report.

(2) GUIDANCE.—

(A) WITHDRAWAL OF 2011 GUIDANCE.—

(i) IN GENERAL.—The Secretary shall withdraw the FDA draft guidance entitled ''Guidance for Industry and FDA Staff—510(k) Device Modifications: Deciding When to Submit a 510(k) for a Change to an Existing Device'', dated July 27, 2011, and shall not use this draft guidance as part of, or for the basis of, any premarket review or any compliance or enforcement decisions or actions.

(ii) RECEIPT OF REPORT REQUIRED BEFORE ISSUANCE OF GUIDANCE OR REGULATION.—The Secretary shall not issue—

(I) any draft guidance or proposed regulation that addresses when

to submit a premarket notification submission for changes and modifications made to a manufacturer's previously cleared device before the receipt by the Committee on Energy and Commerce of the House of Representatives and the Committee on Health, Education, Labor, and Pensions of the Senate of the report required in section 510(n)(2)(A) of the Federal Food, Drug, and Cosmetic Act, as added by section 604(2) of the Food and Drug Administration Safety and Innovation Act (Public Law 112–144, 126 Stat. 1052); and

(II) any final guidance or regulation on that topic for 1 year after date of receipt of the report by the Committee on Energy and Commerce of the House of Representatives and the Committee on Health, Education, Labor, and Pensions of the Senate.

(B) USE OF 1997 GUIDANCE AND ISSUANCE OF SUBSEQUENT GUIDANCE.—The FDA guidance entitled ''Deciding When to Submit a

510(k) for a Change to an Existing Device'', dated January 10, 1997, shall be in effect until the subsequent issuance of guidance or promulgation, if appropriate, of a regulation described in subparagraph (A), and the Secretary shall interpret the guidance in a manner that is consistent with the manner in which the Secretary has interpreted the guidance since 1997.

(o) REPROCESSED SINGLE-USE DEVICES.—

(1) DEVICES FOR WHICH REPORTS MUST INCLUDE VALIDATION DATA TO ENSURE SUBSTANTIAL EQUIVALENCE.—With respect to reprocessed single-use devices for which reports are required under subsection (k), the following applies:

(A) IDENTIFICATION.—

(i) IN GENERAL.—The Secretary shall identify the devices or types of devices for which reports under subsection (k) must, in order to ensure that the device is substantially equivalent to a predicate device, include validation data, the types of which shall be specified by the Secretary, regarding cleaning and sterilization, and functional performance demonstrating that the single-use device will remain substantially

equivalent to its predicate device after the maximum number of times the device is reprocessed as intended by the person submitting the premarket notification.

(ii) LIST.—The Secretary shall publish in the Federal Register a list of the types identified under clause (i), and shall revise the list as appropriate.

(iii) REQUIREMENT TO INCLUDE VALIDATION DATA.—Reports under subsection (k) for devices or types of devices within a type included on the list are, on publication of the list, required to include the validation data.

(B) REPORTS SUBMITTED BEFORE PUBLICATION OF LIST.—

(i) IN GENERAL.—In the case of each report under subsection (k) that was submitted to the Secretary before the publication of the initial list under subparagraph (A), or any revision of the list, and was for a device or type of device included on the list, the person that submitted the report under subsection (k) shall submit validation data as described in subparagraph (A)

to the Secretary not later than 9 months after the publication of the list.

(ii) NO ACTION ON GROUNDS THAT VALIDATION DATA HAVE NOT BEEN SUBMITTED.—During the 9-month period, the Secretary may not take any action under this subtitle against the device solely on the basis that the validation data for the device have not been submitted to the Secretary.

(iii) ACTIONS BY SECRETARY AFTER SUBMISSION OF VALIDATION DATA.—After the submission of the validation data to the Secretary, the Secretary may not determine that the device is misbranded under section 13312 of this title or adulterated under section 13101(f)(1)(B) of this title, or take action against the device under section 10501(15) of this title for failure to provide any information required by subsection (k) until—

(I) the review is terminated by withdrawal of the submission of the report under subsection (k);

(II) the Secretary finds the data to be acceptable and issues a letter; or

(III) the Secretary determines that the device is not substantially equivalent to a predicate device.

(iv) MARKETING OF DEVICE NOT LEGAL.—On a determination that a device is not substantially equivalent to a predicate device, or if the submission is withdrawn, the device can no longer be legally marketed.

(C) REQUIREMENT TO INCLUDE VALIDATION DATA IN ADVANCE OF REVISION OF LIST.—In the case of a report under subsection (k) for a device identified under subparagraph (A) that is of a type for which the Secretary has not previously received a report under subsection (k), the Secretary may, in advance of revising the list under subparagraph (A) to include the type, require that the report include the validation data specified in subparagraph (A).

(D) APPLICABILITY OF SECTION 13312 OF THIS TITLE.—Section 13312 of this title applies with respect to the failure of a report under

subsection (k) to include validation data required under subparagraph (A).

(2) CRITICAL OR SEMI-CRITICAL REPROCESSED SINGLE-USE DEVICES FOR WHICH EXEMPTIONS SHOULD BE TERMINATED.—With respect to critical or semi-critical reprocessed single-use devices that, under subsection (l) or (m), are exempt from the requirement of submitting reports under subsection (k), the following applies:

(A) IDENTIFICATION.—

(i) IN GENERAL.—The Secretary shall identify the devices or types of devices for which the exemptions should be terminated in order to provide a reasonable assurance of the safety and effectiveness of the devices.

(ii) LIST.—The Secretary shall publish in the Federal Register a list of the devices or types of devices identified under clause (i), and shall revise the list as appropriate.

(iii) TERMINATION OF EXEMPTION.—The exemption for each device or type included on the list is terminated on the publication of the list.

(iv) VALIDATION DATA REQUIRED.—For each report under subsection (k) submitted pursuant to this subparagraph, the Secretary shall require the validation data described in paragraph (1)(A).

(B) SUBMISSION OF REPORT.—

(i) DEADLINE.—For each device or type of device included on the list under subparagraph (A), a report under subsection (k) shall be submitted to the Secretary not later than 15 months after the publication of the initial list, or a revision of the list, whichever terminates the exemption for the device.

(ii) NO ACTION ON GROUNDS THAT REPORT HAS NOT BEEN SUBMITTED.—During the 15-month period, the Secretary may not take any action under this subtitle against the device solely on the basis that the report has not been submitted to the Secretary.

(iii) ACTIONS BY SECRETARY AFTER SUBMISSION OF REPORT.—After the submission of the report to the Secretary, the Secretary may not determine that the de-

vice is misbranded under section 13312 of this title or adulterated under section 13101(f)(1)(B) of this title, or take action against the device under section 10501(15) of this title for failure to provide any information required by subsection (k) until—

(I) the review is terminated by withdrawal of the submission;

(II) the Secretary determines by order that the device is substantially equivalent to a predicate device; or

(III) the Secretary determines by order that the device is not substantially equivalent to a predicate device.

(iv) MARKETING OF DEVICE NOT LEGAL.—On a determination that a device is not substantially equivalent to a predicate device, the device can no longer be legally marketed.

(C) APPLICABILITY OF SECTION 13312 OF THIS TITLE.—Section 13312 of this title applies with respect to the failure to submit a report under subsection (k) that is required pursuant to subparagraph (A), including a failure of the

report to include validation data required in subparagraph (A).

(D) TERMINATION NOT TO APPLY TO ORIGINAL DEVICE.—The termination under subparagraph (A) of an exemption under subsection (l) or (m) for a critical or semi-critical reprocessed single-use device does not terminate the exemption under subsection (l) or (m) for the original device.

(p) ELECTRONIC REGISTRATION AND LISTING.—

(1) IN GENERAL.—Registrations and listings under this section (including the submission of updated information) shall be submitted to the Secretary by electronic means unless the Secretary grants a request for waiver of the requirement because use of electronic means is not reasonable for the person requesting the waiver.

(2) ELECTRONIC DATABASE.—Not later than 2 years after the Secretary specifies a unique facility identifier system under subsections (b) and (i), the Secretary shall maintain an electronic database, which shall not be subject to inspection under subsection (f), populated with the information submitted as described under paragraph (1) that—

(A) enables personnel of the FDA to search the database by any field of information submitted in a registration described under paragraph (1), or combination of the fields; and

(B) uses the unique facility identifier system to link with other relevant databases within the FDA, including the database for submission of information under section 20101(r) of this title.

(3) RISK-BASED INFORMATION AND COORDINATION.—The Secretary shall ensure the accuracy and coordination of relevant FDA databases in order to identify and inform risk-based inspections under subsection (h).

(q) REUSABLE MEDICAL DEVICES.—

(1) IN GENERAL.—The Secretary shall identify and publish a list of reusable device types for which reports under subsection (k) are required to include—

(A) instructions for use, which have been validated in a manner specified by the Secretary, regarding cleaning, disinfection, and sterilization, and for which a substantial equivalence determination may be based; and

(B) validation data, the types of which shall be specified by the Secretary, regarding cleaning, disinfection, and sterilization, and for which a substantial equivalence determination may be based.

(2) REVISION OF LIST.—The Secretary shall revise the list under paragraph (1), as the Secretary determines appropriate, with notice in the Federal Register.

(3) CONTENT OF REPORTS.—Reports under subsection (k) that are submitted after the publication of the list described in paragraph (1), for devices or types of devices included on the list, shall include the instructions for use and validation data.

**§ 13137. Clinical trial guidance for antibiotic drugs**

(a) IN GENERAL.—The Secretary shall issue guidance for the conduct of clinical trials with respect to antibiotic drugs, including antimicrobials to treat acute bacterial sinusitis, acute bacterial otitis media, and acute bacterial exacerbation of chronic bronchitis. The guidance shall indicate the appropriate models and valid surrogate markers.

(b) REVIEW.—The Secretary shall review and update the guidance described under subsection (a) to reflect de-

velopments in scientific and medical information and technology.

**§ 13138. Susceptibility test interpretive criteria for microorganisms**

(a) PURPOSE.—The purpose of this section is to clarify the Secretary's authority to—

(1) efficiently update susceptibility test interpretive criteria for antimicrobial drugs when necessary for public health, due to, among other things, the constant evolution of microorganisms that leads to the development of resistance to drugs that have been effective in decreasing morbidity and mortality for patients, which warrants unique management of antimicrobial drugs that is inappropriate for most other drugs in order to delay or prevent the development of further resistance to existing therapies;

(2) provide for public notice of the availability of recognized interpretive criteria and interpretive criteria standards; and

(3) clear under section 13136(k) of this title, classify under section 13140(h)(2) of this title, or approve under section 13142 of this title, antimicrobial susceptibility testing devices utilizing updated, recognized susceptibility test interpretive criteria to characterize the in vitro susceptibility of

particular bacteria, fungi, or other microorganisms, as applicable, to antimicrobial drugs.

(b) DEFINITIONS.—In this section:

(1) ANTIMICROBIAL DRUG.—

(A) IN GENERAL.—The term ''antimicrobial drug'' means, subject to subparagraph (B), a systemic antibacterial or antifungal drug that—

(i) is intended for human use in the treatment of a disease or condition caused by a bacterium or fungus;

(ii) may include a qualified infectious disease product designated under section 13116(e) of this title; and

(iii) is subject to section 13103(a)(1) of this title.

(B) INCLUSIONS.—If provided by the Secretary through regulations, the term ''antimicrobial drug'' may include—

(i) drugs other than systemic antibacterial and antifungal drugs; and

(ii) biological products (as the term is defined in section 351 of the Public Health Service Act (42 U.S.C. 262)) to the extent the products exhibit antimicrobial activity.

(2) ANTIMICROBIAL SUSCEPTIBILITY TESTING DEVICE.—The term ''antimicrobial susceptibility testing device'' means a device that utilizes susceptibility test interpretive criteria to determine and report the in vitro susceptibility of certain microorganisms to a drug (or drugs).

(3) INTERPRETIVE CRITERIA STANDARD.—The term ''interpretive criteria standard'' means a compilation of susceptibility test interpretive criteria developed by a standard development organization that meets the criteria set forth in subsection (d)(2)(A)(i).

(4) INTERPRETIVE CRITERIA WEBSITE.—The term ''Interpretive Criteria Website'' means the website established in subsection (d)(1).

(5) QUALIFIED INFECTIOUS DISEASE PRODUCT.—The term ''qualified infectious disease product'' means a qualified infectious disease product designated under section 13116(e) of this title.

(6) SUSCEPTIBILITY TEST INTERPRETIVE CRITERIA.—The term ''susceptibility test interpretive criteria'' means—

(A) 1 or more specific numerical values that characterize the susceptibility of bacteria or other microorganisms to the drug tested; and

(B) related categorizations of the susceptibility, including categorization of the drug as susceptible, intermediate, resistant, or such other term as the Secretary determines appropriate.

(c) IDENTIFICATION OF CRITERIA.—

(1) IN GENERAL.—The Secretary shall identify appropriate susceptibility test interpretive criteria with respect to antimicrobial drugs—

(A) if the criteria are available on the date of approval of the drug under chapter 135 of this title or licensure of the drug under section 351 of the Public Health Service Act (42 U.S.C. 262) (as applicable), on the approval or licensure; or

(B) if the criteria are unavailable on the date described in subparagraph (A), on the date on which the criteria are available for the drug.

(2) BASES FOR INITIAL IDENTIFICATION.—The Secretary shall identify appropriate susceptibility test interpretive criteria under paragraph (1), based on the Secretary's review of, to the extent available and relevant—

(A) preclinical and clinical data, including pharmacokinetic, pharmacodynamic, and epidemiological data;

(B) the relationship of susceptibility test interpretive criteria to morbidity and mortality associated with the disease or condition for which the drug is used; and

(C) such other evidence and information as the Secretary considers appropriate.

(d) SUSCEPTIBILITY TEST INTERPRETIVE CRITERIA WEBSITE.—

(1) IN GENERAL.—The Secretary shall establish, and maintain after the establishment, on the FDA website, the Interpretative Criteria Website, which contains a list of any appropriate new or updated susceptibility test interpretive criteria standards and interpretive criteria in accordance with paragraph (2).

(2) LISTING OF SUSCEPTIBILITY TEST INTERPRETIVE CRITERIA STANDARDS AND INTERPRETIVE CRITERIA.—

(A) IN GENERAL.—The list described in paragraph (1) shall consist of any new or updated susceptibility test interpretive criteria standards that are—

(i) established by a nationally or internationally recognized standard development organization that—

(I) establishes and maintains procedures to address potential conflicts of interest and ensure transparent decisionmaking;

(II) holds open meetings to ensure that there is an opportunity for public input by interested parties, and establishes and maintains processes to ensure that the input is considered in decisionmaking; and

(III) permits its standards to be made publicly available, through the National Library of Medicine or another similar source acceptable to the Secretary; and

(ii) recognized in whole, or in part, by the Secretary under subsection (e).

(B) OTHER LIST.—The Interpretive Criteria Website shall, in addition to the list described in subparagraph (A), include a list of interpretive criteria, if any, that the Secretary has determined to be appropriate with respect

to legally marketed antimicrobial drugs, where—

(i) the Secretary does not recognize, in whole or in part, an interpretive criteria standard described under subparagraph (A) otherwise applicable to such a drug;

(ii) the Secretary withdraws under subsection (e)(1)(A) recognition of a standard, in whole or in part, otherwise applicable to such a drug;

(iii) the Secretary approves an application under chapter 135 of this title or section 351 of the Public Health Service Act (42 U.S.C. 262), as applicable, with respect to marketing of such a drug for which there are no relevant interpretive criteria included in a standard recognized by the Secretary under subsection (e); or

(iv) because the characteristics of such a drug differ from other drugs with the same active ingredient, the interpretive criteria with respect to the drug—

(I) differ from otherwise applicable interpretive criteria included in a standard listed under subparagraph

(A) or interpretive criteria otherwise listed under this subparagraph; and

(II) are determined by the Secretary to be appropriate for the drug.

(C) REQUIRED STATEMENTS.—The Interpretive Criteria Website shall include statements conveying—

(i) that the Website provides information about the in vitro susceptibility of bacteria, fungi, or other microorganisms, as applicable to a certain drug (or drugs);

(ii) that—

(I) the safety and efficacy of the drugs in treating clinical infections due to the bacteria, fungi, or other microorganisms, as applicable, may or may not have been established in adequate and well-controlled clinical trials in order for the susceptibility information described in clause (i) to be included on the Website; and

(II) the clinical significance of the susceptibility information in those instances is unknown;

(iii) that the approved product labeling for specific drugs provides the uses for which the Secretary has approved the product; and

(iv) any other information that the Secretary determines appropriate to adequately convey the meaning of the data supporting the recognition or listing of susceptibility test interpretive criteria standards or susceptibility test interpretive criteria included on the Website.

(3) INAPPLICABILITY OF MISBRANDING PROVISION.—The inclusion in the approved labeling of an antimicrobial drug of a reference or hyperlink to the Interpretive Criteria Website, in and of itself, shall not cause the drug to be misbranded in violation of chapter 133 of this title.

(4) TRADE SECRETS AND CONFIDENTIAL INFORMATION.—Nothing in this section shall be construed as authorizing the Secretary to disclose any information that is a trade secret or confidential information subject to section 552(b)(4) of title 5.

(e) RECOGNITION OF SUSCEPTIBILITY TEST INTERPRETIVE CRITERIA.—

(1) EVALUATION AND PUBLICATION.—

(A) IN GENERAL.—At least every 6 months, the Secretary shall—

(i) evaluate any appropriate new or updated susceptibility test interpretive criteria standards established by a nationally or internationally recognized standard development organization described in subsection (d)(2)(A)(i); and

(ii) publish on the public FDA website a notice—

(I) withdrawing recognition of any different susceptibility test interpretive criteria standard, in whole or in part;

(II) recognizing the new or updated standards;

(III) recognizing 1 or more parts of the new or updated interpretive criteria specified in the standard and declining to recognize the remainder of the standard; and

(IV) making any necessary updates to the lists under subsection (d)(2).

(B) ON APPROVAL OF A DRUG.—On the approval of an initial or supplemental application for an antimicrobial drug under chapter 135 of this title or section 351 of the Public Health Service Act (42 U.S.C. 262), as applicable, where the approval is based on susceptibility test interpretive criteria that differ from those contained in a standard recognized, or from those otherwise listed, by the Secretary pursuant to this subsection, or for which there are no relevant interpretive criteria standards recognized, or interpretive criteria otherwise listed, by the Secretary pursuant to this subsection, the Secretary shall update the lists under subparagraphs (A) and (B) of subsection (d)(2) to include the susceptibility test interpretive criteria on which the approval was based.

(2) BASES FOR UPDATING INTERPRETIVE CRITERIA STANDARDS.—In evaluating new or updated susceptibility test interpretive criteria standards under paragraph (1)(A), the Secretary may consider—

(A) the Secretary's determination that such a standard is not applicable to a particular drug because the characteristics of the drug dif-

fer from other drugs with the same active ingredient;

(B) information provided by interested third parties, including public comment on the annual compilation of notices published under paragraph (3);

(C) any bases used to identify susceptibility test interpretive criteria under subsection (c)(1); and

(D) such other information or factors as the Secretary determines appropriate.

(3) ANNUAL COMPILATION OF NOTICES.—

(A) IN GENERAL.—Each year, the Secretary shall compile the notices published under paragraph (1)(A) and publish the compilation in the Federal Register and provide for public comment.

(B) REVIEW OF COMMENTS AND UPDATE OF STANDARDS.—If the Secretary receives comments, the Secretary shall review the comments and, if the Secretary determines appropriate, update pursuant to this subsection susceptibility test interpretive criteria standards or criteria—

(i) recognized by the Secretary under this subsection; or

(ii) otherwise listed on the Interpretive Criteria Website under subsection (d)(2).

(4) RELATION TO SECTION 13141(c) OF THIS TITLE.—Any susceptibility test interpretive standard recognized under this subsection or any criteria otherwise listed under subsection (d)(2)(B) shall be deemed to be recognized as a standard by the Secretary under section 13141(c)(1) of this title.

(5) VOLUNTARY USE OF INTERPRETIVE CRITERIA.—Nothing in this section prohibits a person from seeking approval or clearance of a drug or device, or changes to the drug or the device, on the basis of susceptibility test interpretive criteria that differ from those contained in a standard recognized, or from those otherwise listed, by the Secretary pursuant to subsection (d)(2).

(f) ANTIMICROBIAL DRUG LABELING.—

(1) DRUGS MARKETED PRIOR TO ESTABLISHMENT OF INTERPRETIVE CRITERIA WEBSITE.—

(A) IN GENERAL.—With respect to an antimicrobial drug lawfully introduced or delivered for introduction into interstate commerce

for commercial distribution before the establishment of the Interpretive Criteria Website, a holder of an approved application under chapter 135 of this title or section 351 of the Public Health Service Act (42 U.S.C. 262), as applicable, for the drug, not later than 1 year after establishment of the Interpretive Criteria Website described in subsection (d)(1), shall remove susceptibility test interpretive criteria, if any, and related information from the approved drug labeling and replace it with a reference to the Interpretive Criteria Website.

(B) LABELING CHANGES.—The labeling changes required by this section shall be considered a minor change under section 314.70 of title 21, Code of Federal Regulations, or any successor regulations, that may be implemented through documentation in the next applicable annual report.

(2) DRUGS MARKETED SUBSEQUENT TO ESTABLISHMENT OF INTERPRETIVE CRITERIA WEBSITE.—With respect to antimicrobial drugs approved on or after the date of the establishment of the Interpretive Criteria Website described in subsection (d)(1), the labeling for the drug shall include, in lieu of sus-

ceptibility test interpretive criteria and related information, a reference to the Website.

(g) SPECIAL CONDITION FOR MARKETING OF ANTIMICROBIAL SUSCEPTIBILITY TESTING DEVICES.—

(1) IN GENERAL.—Notwithstanding chapters 133 and 135 of this title and sections 13101, 13136, 13140, and 13142 of this title, if the conditions specified in paragraph (2) are met (in addition to other applicable provisions under this division) with respect to an antimicrobial susceptibility testing device described in subsection (b)(2), the Secretary may authorize the marketing of the antimicrobial susceptibility testing device for a use described in subsection (b)(2).

(2) CONDITIONS APPLICABLE TO ANTIMICROBIAL SUSCEPTIBILITY TESTING DEVICES.—The conditions specified in this paragraph are the following:

(A) USED TO MAKE A DETERMINATION OF SUSCEPTIBILITY.—The antimicrobial susceptibility testing device is used to make a determination of susceptibility using susceptibility test interpretive criteria that are—

(i) included in a standard recognized by the Secretary under subsection (e); or

(ii) otherwise listed on the Interpretive Criteria Website under subsection (d)(2).

(B) LABELING INCLUDES CERTAIN STATEMENTS.—The labeling of the antimicrobial susceptibility testing device includes statements conveying—

(i) that the antimicrobial susceptibility testing device provides information about the in vitro susceptibility of bacteria, fungi, or other microorganisms, as applicable to antimicrobial drugs;

(ii) that—

(I) the safety and efficacy of the drugs in treating clinical infections due to the bacteria, fungi, or other microorganisms, as applicable, may or may not have been established in adequate and well-controlled clinical trials in order for the antimicrobial susceptibility testing device to report the susceptibility of the bacteria, fungi, or other microorganisms, as applicable, to the drugs; and

(II) the clinical significance of the susceptibility information in those instances is unknown;

(iii) that the approved labeling for drugs tested using the antimicrobial susceptibility testing device provides the uses for which the Secretary has approved the drugs; and

(iv) any other information the Secretary determines appropriate to adequately convey the meaning of the data supporting the recognition or listing of susceptibility test interpretive criteria standards or susceptibility test interpretive criteria described in subparagraph (A).

(C) DEVICE MEETS OTHER REQUIREMENTS.—The antimicrobial susceptibility testing device meets all other requirements to be cleared under section 13136(k) of this title, classified under section 13140(h)(2) of this title, or approved under section 13142 of this title.

(h) RULE OF CONSTRUCTION.—Nothing in this section shall be construed—

(1) to alter the standards of evidence under—

(A) section 13504 or 13505 of this title, including the substantial evidence standard under section 13505 of this title; or

(B) section 351 of the Public Health Service Act (42 U.S.C. 262); or

(2) with respect to clearing devices under section 13136(k) of this title, classifying devices under section 13140(h)(2) of this title, or approving devices under section 13142 of this title—

(A) to apply with respect to any drug, device, or biological product, in any context other than an antimicrobial drug and an antimicrobial susceptibility testing device that uses susceptibility test interpretive criteria to characterize and report the susceptibility of certain bacteria, fungi, or other microorganisms, as applicable, to the drug to reflect patient morbidity and mortality in accordance with this section; or

(B) unless specifically stated, to have any effect on authorities provided under other sections of this subtitle, including any regulations issued under those sections.

(i) APPLICABILITY OF CHAPTER 35 OF TITLE 44.—Chapter 35 of title 44 shall not apply to the collection

of information from interested parties regarding updating the lists established under subsection (d) and posted on the Interpretive Criteria Website established under subsection (d).

**§ 13139. Priority zoonotic animal drugs**

(a) IN GENERAL.—The Secretary shall, at the request of the sponsor intending to submit an application for approval of a new animal drug under section 13703(a) of this title or an application for conditional approval of a new animal drug under section 14502 of this title, expedite the development and review of the new animal drug if preliminary clinical evidence indicates that the new animal drug, alone or in combination with 1 or more other animal drugs, has the potential to prevent or treat a zoonotic disease in animals, including a vector borne-disease, that has the potential to cause serious adverse health consequences for, or serious or life-threatening diseases in, humans.

(b) REQUEST FOR DESIGNATION.—

(1) IN GENERAL.—The sponsor of a new animal drug may request the Secretary to designate a new animal drug described in subsection (a) as a priority zoonotic animal drug.

(2) TIMING OF REQUEST.—A request for the designation may be made concurrently with, or at

any time after, the opening of an investigational new animal drug file under section 13711 of this title or the filing of an application under section 13703(a) or 14502 of this title.

(c) DESIGNATION.—

(1) IN GENERAL.—

(A) DETERMINATION BY SECRETARY.—Not later than 60 calendar days after the receipt of a request under subsection (b), the Secretary shall determine whether the new animal drug that is the subject of the request meets the criteria described in subsection (a).

(B) EFFECT OF DETERMINATION THAT NEW ANIMAL DRUG MEETS CRITERIA.—If the Secretary determines that the new animal drug meets the criteria, the Secretary shall designate the new animal drug as a priority zoonotic animal drug and shall take such actions as are appropriate to expedite the development and review of the application for approval or conditional approval of the new animal drug.

(2) ACTIONS.—The actions to expedite the development and review of an application under paragraph (1) may include, as appropriate—

(A) taking steps to ensure that the design of clinical trials is as efficient as practicable, when scientifically appropriate, such as by utilizing novel trial designs or drug development tools (including biomarkers) that may reduce the number of animals needed for studies;

(B) providing timely advice to, and interactive communication with, the sponsor (which may include meetings with the sponsor and review team) regarding the development of the new animal drug to ensure that the development program to gather the nonclinical and clinical data necessary for approval is as efficient as practicable;

(C) involving senior managers and review staff with experience in zoonotic or vector-borne disease to facilitate collaborative, cross-disciplinary review, including, as appropriate, across agency centers; and

(D) implementing additional administrative or process enhancements, as necessary, to facilitate an efficient review and development program.

**§ 13140. Classification of devices intended for human use**

(a) REFERENCES TO CERTAIN TERMS IN PARTICULAR SECTIONS.—For purposes of this section and sections 13101, 13136, 13141, 13142, 13146, 13151, and 13152 of this title—

(1) a reference to ''general controls'' is a reference to the controls authorized by or under chapter 133 of this title and sections 13101, 13136, 13146, 13149, 13151, and 13152 of this title;

(2) a reference to ''class I'', ''class II'', or ''class III'' is a reference to a class of medical devices described in subparagraph (A), (B), or (C) of subsection (c)(1); and

(3) a reference to a ''panel under section 13140 of this title'' is a reference to a panel established or authorized to be used under this section.

(b) SUBSTANTIAL EQUIVALENCE.—

(1) DETERMINATION OF SUBSTANTIAL EQUIVALENCE.—

(A) IN GENERAL.—For purposes of determinations of substantial equivalence under subsection (h) and section 13152(l) of this title, a device is substantially equivalent to a predicate device if the device has the same intended use

as the predicate device and the Secretary by order has found that the device—

(i) has the same technological characteristics as the predicate device; or

(ii)(I) has different technological characteristics and the information submitted showing that the device is substantially equivalent to the predicate device contains information, including appropriate clinical or scientific data if considered necessary by the Secretary or a person accredited under section 13155 of this title, that demonstrates that the device is as safe and effective as a legally marketed device; and

(II) does not raise different questions of safety and effectiveness than the predicate device.

(B) DIFFERENT TECHNOLOGICAL CHARACTERISTICS.—For purposes of subparagraph (A), the term ''different technological characteristics'' means, with respect to a device being compared to a predicate device, that there is a significant change in the materials, design, energy source, or other features of the device from those of the predicate device.

(C) RELIANCE ON POSTMARKET CONTROLS.—To facilitate reviews of reports submitted to the Secretary under section 13136(k) of this title, the Secretary shall consider the extent to which reliance on postmarket controls may expedite the classification of devices under subsection (h)(1).

(D) INFORMATION DEMONSTRATING SUBSTANTIAL EQUIVALENCE OF DEVICES WITH DIFFERING TECHNOLOGICAL CHARACTERISTICS.—

(i) DEFINITION OF NECESSARY.—For purposes of clause (ii), the term ''necessary'' means the minimum required information that would support a determination of substantial equivalence between a new device and a predicate device.

(ii) IN GENERAL.—Whenever the Secretary requests information to demonstrate that devices with differing technological characteristics are substantially equivalent, the Secretary shall request only information that is necessary to making substantial equivalence determinations. In making the request, the Secretary shall consider

the least burdensome means of demonstrating substantial equivalence and request information accordingly.

(iii) EFFECT OF SUBPARAGRAPH ON SUBSTANTIAL EQUIVALENCE STANDARD.—Nothing in this subparagraph shall alter the standard for determining substantial equivalence between a new device and a predicate device.

(E) PROPOSED LABELING.—

(i) IN GENERAL.—

(I) DETERMINATION OF INTENDED USE.—Any determination by the Secretary of the intended use of a device shall be based on the proposed labeling submitted in a report for the device under section 13136(k) of this title.

(II) STATEMENT IN LABELING THAT MAY BE REQUIRED.—When determining that a device can be found substantially equivalent to a legally marketed device, the director of the organizational unit responsible for regulating devices (in this subpara-

graph referred to as the ''Director'') may require a statement in labeling that provides appropriate information regarding a use of the device not identified in the proposed labeling if, after providing an opportunity for consultation with the person that submitted the report, the Director determines and states in writing—

(aa) that there is a reasonable likelihood that the device will be used for an intended use not identified in the proposed labeling for the device; and

(bb) that the use could cause harm.

(ii) REQUIREMENTS RELATING TO DETERMINATION OF SUBSTANTIAL EQUIVALENCE.—A determination of substantial equivalence under clause (i) shall—

(I) be provided to the person that submitted the report within 10 days from the date of the notification of the Director's concerns regarding the proposed labeling;

(II) specify the limitations on the use of the device not included in the proposed labeling; and

(III) find the device substantially equivalent if the requirements of subparagraph (A) are met and if the labeling for the device conforms to the limitations specified in subclause (II).

(iii) NONDELEGATION.—The responsibilities of the Director under this subparagraph may not be delegated.

(F) GUIDANCE RELATING TO DETERMINATION THAT SPECIFIC INTENDED USE IS NOT INCLUDED IN GENERAL USE.—The Secretary shall issue guidance specifying the general principles that the Secretary will consider in determining when a specific intended use of a device is not reasonably included within a general use of the device for purposes of a determination of substantial equivalence under subsection (h) or section 13152(l) of this title.

(2) PREDICATE DEVICE; REMOVED FROM MARKET, MISBRANDED, OR ADULTERATED.—A device may not be found to be substantially equivalent to a predicate device that has been removed from the

market at the initiative of the Secretary or that has been determined to be misbranded or adulterated by a judicial order.

(3) SUMMARY OF INFORMATION ON SAFETY AND EFFECTIVENESS.—

(A) IN GENERAL.—As part of a submission under section 13136(k) of this title respecting a device, the person required to file a premarket notification under that section shall provide an adequate summary of any information respecting safety and effectiveness or state that the information will be made available on request by any person.

(B) CONTENTS; DATE ON WHICH SUMMARY IS TO BE MADE PUBLICLY AVAILABLE.—Any summary under subparagraph (A) respecting a device shall contain detailed information regarding data concerning adverse health effects and shall be made available to the public by the Secretary within 30 days of the issuance of a determination that the device is substantially equivalent to another device.

(c) CLASSES OF DEVICES.—

(1) IN GENERAL.—There are established the following classes of devices intended for human use:

(A) CLASS I, GENERAL CONTROLS.—

(i) DEVICES FOR WHICH THERE ARE SUFFICIENT CONTROLS.—A device for which the controls authorized by or under chapter 133 of this title or section 13101, 13136, 13146, 13149, 13151, or 13152 of this title, or any combination of those provisions, are sufficient to provide reasonable assurance of the safety and effectiveness of the device.

(ii) DEVICES FOR WHICH THERE IS INSUFFICIENT INFORMATION RELATING TO CONTROLS.—

(I) IN GENERAL.—A device for which insufficient information exists to determine that the controls referred to in clause (i) are sufficient to provide reasonable assurance of the safety and effectiveness of the device or to establish special controls to provide the assurance, but because it is a device described in subclause (II), is to be regulated by the controls referred to in clause (i).

(II) DEVICE.—A device is described in this subclause if it—

(aa) is not purported or represented to be for a use in supporting or sustaining human life or for a use which is of substantial importance in preventing impairment of human health; and

(bb) does not present a potential unreasonable risk of illness or injury.

(B) CLASS II, SPECIAL CONTROLS.—

(i) IN GENERAL.—A device that cannot be classified as a class I device because the general controls by themselves are insufficient to provide reasonable assurance of the safety and effectiveness of the device, and for which there is sufficient information to establish special controls to provide the assurance, including—

(I) the promulgation of performance standards;

(II) postmarket surveillance;

(III) patient registries;

(IV) development and dissemination of guidelines (including guidelines for the submission of clinical data in premarket notification submissions in accordance with section 13136(k) of this title);

(V) recommendations; and

(VI) other appropriate actions as the Secretary considers necessary to provide the assurance.

(ii) DEVICES FOR USE IN SUPPORTING OR SUSTAINING HUMAN LIFE.—For a device that is purported or represented to be for a use in supporting or sustaining human life, the Secretary shall examine and identify the special controls, if any, that are necessary to provide adequate assurance of safety and effectiveness and describe how the controls provide the assurance.

(C) CLASS III, PREMARKET APPROVAL.—A device that—

(i) because it—

(I) cannot be classified as a class I device because insufficient informa-

tion exists to determine that the application of general controls is sufficient to provide reasonable assurance of the safety and effectiveness of the device; and

(II) cannot be classified as a class II device because insufficient information exists to determine that the special controls described in subparagraph (B) would provide reasonable assurance of its safety and effectiveness; and

(ii)(I) is purported or represented to be for a use in supporting or sustaining human life or for a use which is of substantial importance in preventing impairment of human health; or

(II) presents a potential unreasonable risk of illness or injury;

is to be subject, in accordance with section 13142 of this title, to premarket approval to provide reasonable assurance of its safety and effectiveness.

(2) INSUFFICIENT INFORMATION TO ESTABLISH PERFORMANCE STANDARD.—If there is not suffi-

cient information to establish a performance standard for a device to provide reasonable assurance of its safety and effectiveness, the Secretary may conduct such activities as may be necessary to develop or obtain the information.

(3) SAFETY AND EFFECTIVENESS OF A DEVICE.—For purposes of this section and sections 13141 and 13142 of this title, the safety and effectiveness of a device are to be determined—

(A) with respect to the persons for whose use the device is represented or intended;

(B) with respect to the conditions of use prescribed, recommended, or suggested in the labeling of the device; and

(C) by weighing any probable benefit to health from the use of the device against any probable risk of injury or illness from the use.

(4) EFFECTIVENESS OF A DEVICE.—

(A) DETERMINATION ON THE BASIS OF WELL-CONTROLLED INVESTIGATIONS.—Except as authorized by subparagraph (B), the effectiveness of a device is, for purposes of this section and sections 13141 and 13142 of this title, to be determined, in accordance with regulations promulgated by the Secretary, on the

basis of well-controlled investigations, including 1 or more clinical investigations where appropriate, by experts qualified by training and experience to evaluate the effectiveness of the device, from which investigations it can fairly and responsibly be concluded by qualified experts that the device will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling of the device.

(B) DETERMINATION ON THE BASIS OF VALID SCIENTIFIC EVIDENCE.—If the Secretary determines that there exists valid scientific evidence (other than evidence derived from investigations described in subparagraph (A)), then, for purposes of this section and sections 13141 and 13142 of this title, the Secretary may authorize the effectiveness of a device to be determined on the basis of the valid scientific evidence if—

(i) the evidence is sufficient to determine the effectiveness of the device; and

(ii) from the evidence, it can fairly and responsibly be concluded by qualified experts that the device will have the effect

it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling of the device.

(C) RELIANCE ON POSTMARKET CONTROLS.—In making a determination of a reasonable assurance of the effectiveness of a device for which an application under section 13142 of this title has been submitted, the Secretary shall consider whether the extent of data that otherwise would be required for approval of the application with respect to effectiveness can be reduced through reliance on postmarket controls.

(D) PROCEDURE.—

(i) MEETING RELATING TO VALID SCIENTIFIC EVIDENCE.—

(I) IN GENERAL.—The Secretary, on the written request of any person intending to submit an application under section 13142 of this title, shall meet with the person to determine the type of valid scientific evidence (within the meaning of subparagraphs (A) and (B)) that will be necessary to

demonstrate for purposes of approval of an application the effectiveness of a device for the conditions of use proposed by the person.

(II) WRITTEN REQUEST.—The written request shall include—

(aa) a detailed description of the device;

(bb) a detailed description of the proposed conditions of use of the device;

(cc) a proposed plan for determining whether there is a reasonable assurance of effectiveness; and

(dd) if available, information regarding the expected performance from the device.

(III) SECRETARY TO SPECIFY TYPE OF VALID SCIENTIFIC EVIDENCE.—Within 30 days after the meeting, the Secretary shall specify in writing the type of valid scientific evidence that will provide a reasonable assurance that a device is effective

under the conditions of use proposed by the person.

(ii) CLINICAL DATA SPECIFIED.—

(I) DEFINITION OF NECESSARY.—In subclause (II), the term ''necessary'' means the minimum required information that would support a determination by the Secretary that an application provides reasonable assurance of the effectiveness of the device.

(II) IN GENERAL.—Any clinical data, including 1 or more well-controlled investigations, specified in writing by the Secretary for demonstrating a reasonable assurance of device effectiveness shall be specified as result of a determination by the Secretary that the data are necessary to establish device effectiveness.

(III) LEAST BURDENSOME MEANS OF EVALUATION.—The Secretary shall consider, in consultation with the applicant, the least burdensome appropriate means of evaluating

device effectiveness that would have a reasonable likelihood of resulting in approval.

(iii) EFFECT OF SUBPARAGRAPH.—Nothing in this subparagraph shall alter the criteria for evaluating an application for premarket approval of a device.

(iv) DETERMINATION AS BINDING.—The determination of the Secretary with respect to the specification of valid scientific evidence under clauses (i) and (ii) shall be binding on the Secretary, unless the determination by the Secretary could be contrary to the public health.

(d) CLASSIFICATION PANELS.—

(1) IN GENERAL.—

(A) PURPOSE OF CLASSIFICATION.—The Secretary shall classify devices (other than devices classified by subsection (h)) into the classes established by subsection (c) for purposes of—

(i) determining which devices intended for human use should be subject to the requirements of general controls, perform-

ance standards, or premarket approval; and

(ii) providing notice to the manufacturers and importers of the devices to enable them to prepare for the application of the requirements to devices manufactured or imported by them.

(B) ESTABLISHMENT OF PANELS.—For the purpose of securing recommendations with respect to the classification of devices, the Secretary shall establish panels of experts or use panels of experts established before May 28, 1976, or both.

(C) INAPPLICABILITY OF SECTION 1013 OF TITLE 5.—Section 1013 of title 5 shall not apply to the duration of a panel established under this paragraph.

(2) PANEL MEMBERS.—

(A) APPOINTMENT.—The Secretary shall appoint to each panel established under paragraph (1) individuals who are qualified by training and experience to evaluate the safety and effectiveness of the devices to be referred to the panel and who, to the extent feasible, possess skill in the use of, or experience in the de-

velopment, manufacture, or utilization of, the devices.

(B) EXPERTISE.—The Secretary shall make appointments to each panel so that each panel shall consist of members with adequately diversified expertise in fields such as clinical and administrative medicine, engineering, biological and physical sciences, and other related professions. In addition, each panel shall include as nonvoting members a representative of consumer interests and a representative of interests of the device manufacturing industry.

(C) NOMINATIONS FROM ORGANIZATIONS.—Scientific, trade, and consumer organizations shall be afforded an opportunity to nominate individuals for appointment to the panels.

(D) FEDERAL EMPLOYEES.—An individual who is in the regular full-time employ of the United States and engaged in the administration of this subtitle shall not be a member of any panel.

(E) CHAIRPERSON.—The Secretary shall designate one of the members of each panel to serve as chairperson of the panel.

(3) COMPENSATION AND TRAVEL EXPENSES RELATING TO MEETINGS AND CONFERENCES.—

(A) IN GENERAL.—Panel members (other than officers or employees of the United States), while attending meetings or conferences of a panel or otherwise engaged in its business, shall be entitled to receive compensation at rates to be fixed by the Secretary, but not at rates exceeding the daily equivalent of the maximum rate payable under section 5376 of title 5, for each day so engaged, including travel time.

(B) SERVICE AWAY FROM HOME OR REGULAR PLACE OF BUSINESS.—While a panel member is serving as described in subparagraph (A) away from the panel member's home or regular place of business, the panel member may be allowed travel expenses (including per diem in lieu of subsistence) as authorized by section 5703 of title 5, for individuals in the Government service employed intermittently.

(4) PERSONNEL.—The Secretary shall furnish each panel with adequate clerical and other necessary assistance.

(5) PANEL MEETINGS; ADEQUATE EXPERTISE.—

(A) SCHEDULE OF MEETINGS.—Classification panels covering each type of device shall be scheduled to meet at such times as may be appropriate for the Secretary to meet applicable statutory deadlines.

(B) ADEQUATE EXPERTISE WITHIN PANELS.—When a device is specifically the subject of review by a classification panel, the Secretary shall—

(i) ensure that adequate expertise is represented on the classification panel to assess—

(I) the disease or condition that the device is intended to cure, treat, mitigate, prevent, or diagnose; and

(II) the technology of the device; and

(ii) provide an opportunity for the person whose device is specifically the subject of panel review to provide recommendations on the expertise needed among the voting members of the panel.

(C) ADEQUATE EXPERTISE REPRESENTED.—In subparagraph (B)(i), adequate expertise is represented on the classification panel if the membership of the classification panel includes—

(i) 2 or more voting members, with a specialty or other expertise clinically relevant to the device under review; and

(ii) at least 1 voting member who is knowledgeable about the technology of the device.

(D) ANNUAL OPPORTUNITY TO PROVIDE RECOMMENDATIONS.—The Secretary shall provide an annual opportunity for patients, representatives of patients, and sponsors of medical devices that may be specifically the subject of a review by a classification panel to provide recommendations for individuals with appropriate expertise to fill voting member positions on classification panels.

(6) PANEL REVIEW PROCEDURE.—

(A) RIGHTS OF PERSON WHOSE DEVICE IS SUBJECT OF REVIEW.—Any person whose device is specifically the subject of review by a classification panel shall have—

(i) the same access to data and information submitted to a classification panel (except for data and information that are not available for public disclosure under section 552 of title 5) as the Secretary;

(ii) the opportunity to submit, for review by a classification panel, information that is based on the data or information provided in the application submitted under section 13142 of this title by the person, which information shall be submitted to the Secretary for prompt transmittal to the classification panel; and

(iii) the same opportunity as the Secretary to participate in meetings of the panel, including, subject to the discretion of the panel chairperson, by designating a representative who will be provided a time during the panel meeting to address the panel for the purpose of correcting misstatements of fact or providing clarifying information, and permitting the person or representative to call on experts within the person's organization to address the specific issues in the time provided.

(B) PANEL MEETINGS.—

(i) CONDUCT OF MEETING.—Any meeting of a classification panel with respect to the review of a device shall—

(I) provide adequate time for initial presentations by the person whose device is specifically the subject of the review and by the Secretary; and

(II) encourage free and open participation by all interested persons.

(ii) QUESTIONS FOLLOWING INITIAL PRESENTATION.—Following the initial presentations described in clause (i), the panel may—

(I) pose questions to a designated representative described in subparagraph (A)(iii); and

(II) consider the responses to the questions in the panel's review of the device.

(7) DUTIES OF SECRETARY AFTER PANEL REVIEW.—After receiving from a classification panel the conclusions and recommendations of the panel on a matter that the panel has reviewed, the Secretary—

(A) shall review the conclusions and recommendations;

(B) shall make a final decision on the matter in accordance with section 13142(d)(2) of this title; and

(C) shall—

(i) notify the affected persons of the decision in writing; and

(ii) if the decision differs from the conclusions and recommendations of the panel, include in the notification under clause (i) the reasons for the difference.

(8) REQUIREMENTS UNDER CHAPTER 10 OF TITLE 5.—A classification panel under this subsection shall not be subject to the annual chartering and annual reporting requirements of chapter 10 of title 5.

(e) CLASSIFICATION PANEL ORGANIZATION AND OPERATION.—

(1) IN GENERAL.—

(A) BY FIELDS OF CLINICAL MEDICINE AND FUNDAMENTAL SCIENCES.—The Secretary shall organize the panels according to the various fields of clinical medicine and fundamental

sciences in which devices intended for human use are used.

(B) REFERRAL.—The Secretary shall refer a device to be classified under this section to an appropriate panel established or authorized to be used under subsection (d) for its review and for its recommendation respecting the classification of the device.

(C) PROCEDURE TO BE PRESCRIBED BY REGULATION.—The Secretary shall by regulation prescribe the procedure to be followed by the panels in making their reviews and recommendations.

(D) OPPORTUNITY FOR INTERESTED PERSONS TO MAKE SUBMISSIONS.—In making their reviews of devices, the panels, to the maximum extent practicable, shall provide an opportunity for interested persons to submit data and views on the classification of the devices.

(2) RECOMMENDATIONS.—

(A) SUBMISSION TO SECRETARY.—

(i) IN GENERAL.—On completion of a panel's review of a device referred to it under paragraph (1), the panel shall, subject to subparagraphs (B) and (C), submit

to the Secretary its recommendation for the classification of the device.

(ii) CONTENTS OF RECOMMENDATION.—Any recommendation under clause (i) shall—

(I) contain—

(aa) a summary of the reasons for the recommendation;

(bb) a summary of the data on which the recommendation is based; and

(cc) an identification of the risks to health (if any) presented by the device with respect to which the recommendation is made; and

(II) to the extent practicable, include a recommendation for the assignment of a priority for the application of the requirements of section 13141 or 13142 of this title to a device recommended to be classified in class II or class III.

(B) RECOMMENDATION RELATING TO EXEMPTIONS.—A recommendation of a panel for

the classification of a device in class I shall include a recommendation as to whether the device should be exempted from the requirements of section 13136, 13151, or 13152(f) of this title.

(C) DEVICE TO BE RECOMMENDED FOR CLASSIFICATION IN CLASS III.—

(i) IN GENERAL.—A panel shall recommend to the Secretary that a device be classified in class III, unless the panel determines that classification of the device in class III is not necessary to provide reasonable assurance of its safety and effectiveness, if the device (which has been referred to the panel under paragraph (1))—

(I) is intended to be implanted in the human body or is purported or represented to be for a use in supporting or sustaining human life; and

(II)(aa) was introduced or delivered for introduction into interstate commerce for commercial distribution before May 28, 1976; or

(bb) is within a type of device that was introduced or delivered as

described in item (aa) before the date under item (aa) and is substantially equivalent to another device within that type.

(ii) CLASS III RECOMMENDATION NOT MADE; REASONS.—If a panel does not recommend that a device described in clause (i) be classified in class III, it shall in its recommendation to the Secretary for the classification of the device set forth the reasons for not recommending classification of the device in class III.

(f) REGULATIONS CLASSIFYING DEVICES.—

(1) IN GENERAL.—

(A) PUBLICATION AND PROPOSED REGULATION.—On receipt of a recommendation from a panel respecting a device, the Secretary shall publish in the Federal Register the panel's recommendation and a proposed regulation classifying the device and shall provide interested persons an opportunity to submit comments on the recommendation and the proposed regulation.

(B) FINAL REGULATION.—After reviewing the comments, the Secretary shall, subject to paragraph (2), by regulation classify the device.

(2) REGULATION REQUIREMENTS FOR SPECIFIC DEVICES.—

(A) CLASS I DEVICES; INAPPLICABILITY OF CERTAIN PROVISIONS.—A regulation under paragraph (1) classifying a device in class I shall prescribe which, if any, of the requirements of section 13136, 13151, or 13152(f) of this title shall not apply to the device. A regulation that makes a requirement of section 13136, 13151, or 13152(f) of this title inapplicable to a device shall be accompanied by a statement of the reasons of the Secretary for making the requirement inapplicable.

(B) DEVICES TO BE CLASSIFIED AS CLASS III DEVICES.—

(i) IN GENERAL.—A device described in subsection (e)(2)(C) shall be classified in class III unless the Secretary determines that classification of the device in class III is not necessary to provide reasonable assurance of its safety and effectiveness.

(ii) CLASS III CLASSIFICATION NOT MADE; REASONS.—A proposed regulation under paragraph (1) classifying the device in a class other than class III shall be accompanied by a full statement of the reasons of the Secretary (and supporting documentation and data) for not classifying the device in class III and an identification of the risks to health (if any) presented by the device.

(3) PRIORITIES FOR CERTAIN DEVICES.—In the case of devices classified in class II and devices classified under this subsection in class III and described in section 13142(b)(1) of this title, the Secretary may establish priorities that, in the Secretary's discretion, shall be used in applying sections 13141 and 13142 of this title, as appropriate, to the devices.

(g) CLASSIFICATION CHANGES.—

(1) AUTHORITY.—

(A) IN GENERAL.—

(i) ADMINISTRATIVE ORDER FOLLOWING PROCEDURAL REQUIREMENTS.—Based on new information respecting a device, the Secretary may, on the initiative of

the Secretary or on petition of an interested person, change the classification of the device, and revoke, on account of the change in classification, any regulation or requirement in effect under section 13141 or 13142 of this title with respect to the device, by administrative order published in the Federal Register following publication of a proposed reclassification order in the Federal Register, a meeting of a device classification panel described in subsection (d), and consideration of comments to a public docket, notwithstanding subchapter II of chapter 5 of title 5.

(ii) CONTENTS OF PROPOSED RECLASSIFICATION ORDER.—

(I) IN GENERAL.—The proposed reclassification order published in the Federal Register shall set forth the proposed reclassification, and a substantive summary of the valid scientific evidence concerning the proposed reclassification, including—

(aa) the public health benefit of the use of the device, and

the nature and, if known, incidence of the risk of the device;

(bb) in the case of a reclassification from class II to class III, why general controls pursuant to subsection (c)(1)(A) and special controls pursuant to subsection (c)(1)(B) together are not sufficient to provide a reasonable assurance of safety and effectiveness for the device; and

(cc) in the case of reclassification from class III to class II, why general controls pursuant to subsection (c)(1)(A) and special controls pursuant to subsection (c)(1)(B) together are sufficient to provide a reasonable assurance of safety and effectiveness for the device.

(II) ORDER CHANGING CLASSIFICATION FROM CLASS III TO CLASS II.—An order under this subsection changing the classification of a device from class III to class II may provide

that the classification shall not take effect until the effective date of a performance standard established under section 13141 of this title for the device.

(B) DELEGATION.—Authority to issue an administrative order under this paragraph shall not be delegated below the Director of the Center for Devices and Radiological Health, acting in consultation with the Commissioner.

(2) RECLASSIFIYING CLASS III DEVICES.—By an order issued under paragraph (1), the Secretary may change the classification of a device from class III—

(A) to class II if the Secretary determines that special controls would provide reasonable assurance of the safety and effectiveness of the device and that general controls would not provide reasonable assurance of the safety and effectiveness of the device; or

(B) to class I if the Secretary determines that general controls would provide reasonable assurance of the safety and effectiveness of the device.

(h) INITIAL CLASSIFICATION AND RECLASSIFICATION OF CERTAIN DEVICES.—

(1) INITIAL CLASSIFICATION AS CLASS III.—

(A) IN GENERAL.—Any device intended for human use that was not introduced or delivered for introduction into interstate commerce for commercial distribution before May 28, 1976, is classified in class III unless—

(i) the device—

(I) is within a type of device—

(aa) that was introduced or delivered for introduction into interstate commerce for commercial distribution before that date and that is to be classified pursuant to subsection (d); or

(bb) that was not so introduced or delivered before that date and has been classified in class I or II; and

(II) is substantially equivalent to another device within that type;

(ii) the Secretary in response to a petition submitted under paragraph (3) has classified the device in class I or II; or

(iii) the device is classified pursuant to a request submitted under paragraph (2).

(B) DATE UNTIL WHICH CLASS III CLASSIFICATION IS EFFECTIVE.—A device classified in class III under this paragraph shall be classified in that class until the effective date of an order of the Secretary under paragraph (2) or (3) classifying the device in class I or II.

(2) CLASSIFICATION BY REQUEST.—

(A) SUBMISSION BY PERSON MAKING A CLASSIFICATION REQUEST.—

(i) REQUEST AFTER NOTICE FROM SECRETARY OF CLASS III CLASSIFICATION.—Any person that submits a report under section 13136(k) of this title for a type of device that has not been previously classified under this subtitle, and that is classified in class III under paragraph (1), may request, after receiving written notice of the classification, the Secretary to classify the device.

(ii) REQUEST IN LIEU OF REPORT AND REQUEST UNDER CLAUSE (i).—In lieu of submitting a report under section

13136(k) of this title and submitting a request for classification under clause (i) for a device, if a person determines there is no legally marketed device on which to base a determination of substantial equivalence under subsection (b), a person may submit a request under this clause for the Secretary to classify the device.

(iii) DEADLINE FOR SECRETARY TO MAKE THE CLASSIFICATION.—On receipt of a request under clause (i) or (ii), the Secretary shall classify the device subject to the request under the criteria set forth in subparagraphs (A) through (C) of subsection (c)(1) within 120 days.

(iv) AUTHORITY TO DECLINE CLASSIFICATION REQUEST.—Notwithstanding clause (iii), the Secretary may decline to undertake a classification request submitted under clause (ii)—

(I) if the Secretary identifies a legally marketed device that could provide a reasonable basis for review of substantial equivalence under paragraph (1); or

(II) if the Secretary determines—

(aa) that the device submitted is not of low to moderate risk; or

(bb) that general controls would be inadequate to control the risks and special controls to mitigate the risks cannot be developed.

(v) RECOMMENDATION FROM PERSON SUBMITTING THE REQUEST.—

(I) IN GENERAL.—The person submitting the request for classification under this subparagraph may recommend to the Secretary a classification for the device and shall, if recommending classification in class II, include in the request an initial draft proposal for applicable special controls, as described in subsection (c)(1)(B), that are necessary, in conjunction with general controls, to provide reasonable assurance of safety and effectiveness and a description of

how the special controls provide the assurance.

(II) DESCRIPTION OF DEVICE AND REASONS FOR RECOMMENDATION.—Any request under subclause (I) shall describe the device and provide detailed information and reasons for the recommended classification.

(B) ACTIONS BY SECRETARY; EFFECT OF CLASSIFICATION.—

(i) CLASSIFICATION.—

(I) IN GENERAL.—The Secretary shall by written order classify the device that is the subject of a request under subparagraph (A).

(II) INITIAL CLASSIFICATION.—The classification shall be the initial classification of the device for purposes of paragraph (1) and any device classified under this paragraph shall be a predicate device for determining substantial equivalence under paragraph (1).

(ii) DEVICE THAT REMAINS IN CLASS III.—A device that remains in class III

under this subparagraph shall be deemed to be adulterated within the meaning of section 13101(f)(1)(B) of this title until approved under section 13142 of this title or exempted from the approval under section 13152(g) of this title.

(C) PUBLICATION OF CLASSIFICATION.—Within 30 days after the issuance of an order classifying a device under this paragraph, the Secretary shall publish a notice in the Federal Register announcing the classification.

(3) CLASSIFICATION ON SECRETARY'S INITIATIVE; PETITION BY MANUFACTURER OR IMPORTER.—

(A) AUTHORITY.—

(i) IN GENERAL.—The Secretary may initiate the reclassification of a device classified in class III under paragraph (1) or the manufacturer or importer of a device classified under paragraph (1) may petition the Secretary (in such form and manner as the Secretary shall prescribe) for the issuance of an order classifying the device in class I or class II.

(ii) NOTIFICATION OF DEFICIENCIES.—Within 30 days of the filing of a petition under clause (i), the Secretary shall notify the petitioner of any deficiencies in the petition that prevent the Secretary from making a decision on the petition.

(B) REFERRAL TO AND CONSIDERATION BY PANEL.—

(i) REFERRAL.—

(I) IN GENERAL.—On determining that a petition does not contain any deficiency that prevents the Secretary from making a decision on the petition, the Secretary may, for good cause shown, refer the petition to an appropriate panel established or authorized to be used under subsection (d).

(II) RECOMMENDATION.—A panel to which a petition under subclause (I) has been referred shall, not later than 90 days after the referral of the petition, make a recommenda-

tion to the Secretary respecting approval or denial of the petition.

(III) CONTENTS OF RECOMMENDATION.—Any recommendation under subclause (II) shall contain—

(aa) a summary of the reasons for the recommendation;

(bb) a summary of the data on which the recommendation is based; and

(cc) an identification of the risks to health (if any) presented by the device with respect to which the petition was filed.

(IV) DEVICE TO BE IMPLANTED IN HUMAN BODY OR FOR USE IN SUPPORTING OR SUSTAINING HUMAN LIFE.—In the case of a petition for a device that is intended to be implanted in the human body or that is purported or represented to be for a use in supporting or sustaining human life, the panel shall recommend that the petition be denied

unless the panel determines that the classification in class III of the device is not necessary to provide reasonable assurance of its safety and effectiveness. If the panel recommends that the petition be approved, it shall in its recommendation to the Secretary set forth its reasons for the recommendation.

(ii) APPLICABILITY OF CERTAIN PROVISIONS.—The requirements of paragraphs (1) and (2) of subsection (e) (relating to opportunities for submission of data and views and recommendations respecting priorities and exemptions from sections 13136, 13151, and 13152(f) of this title) shall apply with respect to consideration by panels of petitions submitted under subparagraph (A).

(C) ACTIONS BY SECRETARY AFTER RECEIPT OF RECOMMENDATION.—

(i) DENIAL OF APPROVAL; ORDER.—

(I) IN GENERAL.—Within 90 days from the date the Secretary receives the recommendation of a panel

respecting a petition (but not later than 210 days after the filing of the petition), the Secretary shall by order deny or approve the petition.

(II) ORDER ON APPROVAL.—If the Secretary approves the petition, the Secretary shall order the classification of the device in class I or class II in accordance with the criteria prescribed by subsection (c)(1)(A) or (c)(1)(B).

(III) DEVICE TO BE IMPLANTED IN HUMAN BODY OR FOR USE IN SUPPORTING OR SUSTAINING HUMAN LIFE.—In the case of a petition for a device that is intended to be implanted in the human body or that is purported or represented to be for a use in supporting or sustaining human life, the Secretary shall deny the petition unless the Secretary determines that the classification in class III of the device is not necessary to provide reasonable assurance of its safety and effectiveness. An order ap-

proving the petition shall be accompanied by a full statement of the reasons of the Secretary (and supporting documentation and data) for approving the petition and an identification of the risks to health (if any) presented by the device to which the order applies.

(ii) APPLICABILITY OF CERTAIN PROVISIONS.—The requirements of paragraphs (1) and (2)(A) of subsection (f) (relating to publication of recommendations, opportunity for submission of comments, and exemption from sections 13136, 13151, and 13152(f) of this title) shall apply with respect to action by the Secretary on petitions submitted under subparagraph (A).

(4) CERTIFICATION BY MANUFACTURERS OF DEVICES SUBJECT TO PREMARKET REPORT AND SUBSTANTIALLY EQUIVALENT TO CERTAIN OTHER DEVICES.—

(A) IN GENERAL.—A manufacturer shall make the certification described in subparagraph (B) if the manufacturer reports to the Secretary under section 13136(k) of this title

that a device is substantially equivalent to another device—

(i) that the Secretary has classified as a class III device under subsection (d);

(ii) that was introduced or delivered for introduction into interstate commerce for commercial distribution before December 1, 1990; and

(iii) for which no final regulation requiring premarket approval has been promulgated under section 13142(b) of this title (as in effect prior to July 9, 2012).

(B) CONTENT OF CERTIFICATION.—If a manufacturer reports to the Secretary as described in subparagraph (A), the manufacturer shall certify to the Secretary that the manufacturer has conducted a reasonable search of all information known or otherwise available to the manufacturer respecting the other device and has included in the report under section 13136(k) of this title a summary of and a citation to all adverse safety and effectiveness data respecting the other device and respecting the device for which the section 13136(k) report is being made and that has not been submitted to

the Secretary under section 13151 of this title. The Secretary may require the manufacturer to submit the adverse safety and effectiveness data described in the report.

(5) DETERMINATION OF INITIAL CLASSIFICATION NOT TO BE WITHHELD.—The Secretary may not withhold a determination of the initial classification of a device under paragraph (1) because of a failure to comply with any provision of this subtitle unrelated to a substantial equivalence decision, including a finding that the facility in which the device is manufactured is not in compliance with good manufacturing requirements as set forth in regulations of the Secretary under section 13152(f) of this title (other than a finding that there is a substantial likelihood that the failure to comply with the regulations will potentially present a serious risk to human health).

(6) ACCESSORIES.—

(A) CLASSIFICATION BY WRITTEN ORDER.—Subject to the succeeding subparagraphs of this paragraph, the Secretary shall, by written order, classify an accessory under this section based on the risks of the accessory when used as intended and the level of regu-

latory controls necessary to provide a reasonable assurance of safety and effectiveness of the accessory, notwithstanding the classification of any other device with which the accessory is intended to be used.

(B) CLASSIFICATION APPLICABLE UNTIL RECLASSIFIED.—

(i) IN GENERAL.—The classification of any accessory distinct from another device by regulation or written order issued prior to December 13, 2016, shall continue to apply unless and until the accessory is reclassified by the Secretary, notwithstanding the classification of any other device with which the accessory is intended to be used.

(ii) EFFECT OF PARAGRAPH.—Nothing in this paragraph shall preclude the Secretary's authority to initiate the classification of an accessory through regulation or written order, as appropriate.

(C) CLASSIFICATION OF ACCESSORIES INTENDED TO BE USED WITH DEVICE.—

(i) INCLUSION OF REQUEST FOR CLASSIFICATION OF ACCESSORY IN APPLI-

CATION OR REPORT RELATING TO THE DEVICE.—In the case of a device intended to be used with an accessory, where the accessory has been included in an application for premarket approval of the device under section 13142 of this title or a report under section 13136(k) of this title for clearance of the device and the Secretary has not classified the accessory distinctly from another device in accordance with subparagraph (A), the person filing the application or report (as applicable) at the time the application or report is filed—

(I) may include a written request for the proper classification of the accessory pursuant to subparagraph (A);

(II) shall include in any such request such information as may be necessary for the Secretary to evaluate, based on the least burdensome approach, the appropriate class for the accessory under subsection (c); and

(III) shall, if the request under subclause (I) is requesting classifica-

tion of the accessory in class II, include in the application an initial draft proposal for special controls, if special controls would be required pursuant to subsection (c)(1)(B).

(ii) GRANT OR DENIAL OF REQUEST.—The Secretary's response under section 13142(d) or 13136(n) of this title (as applicable) to an application or report described in clause (i) shall also contain the Secretary's granting or denial of the request for classification of the accessory involved.

(iii) SECRETARY'S EVALUATION OF ACCESSORY CONSTITUTES ORDER ESTABLISHING CLASSIFICATION.—The Secretary's evaluation of an accessory under clause (i) shall constitute an order establishing a new classification for the accessory for the specified intended use or uses of the accessory and for any accessory with the same intended use or uses as the accessory.

(D) ACCESSORIES PREVIOUSLY GRANTED MARKETING AUTHORIZATION.—For accessories

that have been granted marketing authorization as part of a submission for another device with which the accessory involved is intended to be used, through an application for the other device under section 13142(c) of this title, a report under section 13136(k) of this title, or a request for classification under paragraph (2), the following shall apply:

(i) CLASS I LIST.—

(I) PROPOSED LIST.—Not later than the date that is 1 year after August 18, 2017, and at least once every 5 years thereafter, and as the Secretary otherwise determines appropriate, pursuant to this paragraph, the Secretary shall publish in the Federal Register a notice proposing a list of the accessories that the Secretary determines may be suitable for a distinct classification in class I and the proposed regulations for the classifications.

(II) CONSIDERATION OF RECOMMENDATIONS FROM SPONSORS AND STAKEHOLDERS.—In developing the

list, the Secretary shall consider recommendations from sponsors of device submissions and other stakeholders for accessories to be included on the list.

(III) PUBLIC COMMENT.—Each notice shall provide for a period of not less than 60 calendar days for public comment.

(IV) FINAL ACTION.—Within 180 days after the end of the comment period, the Secretary shall publish in the Federal Register a final action classifying the suitable accessories in class I.

(ii) CLASSIFICATION BY REQUEST.—

(I) IN GENERAL.—A manufacturer or importer of an accessory that has been granted the marketing authorization—

(aa) may submit to the Secretary a written request for the appropriate classification of the accessory based on the risks and appropriate level of regulatory

controls as described in subparagraph (A); and

(bb) shall, if the request is requesting classification of the accessory in class II, include in the submission an initial draft proposal for special controls, if special controls would be required pursuant to subsection (c)(1)(B).

(II) REQUEST TO INCLUDE NECESSARY INFORMATION FOR EVALUATION BY SECRETARY.—A request under subclause (I) shall include such information as may be necessary for the Secretary to evaluate, based on the least burdensome approach, the appropriate class for the accessory under subsection (c).

(III) OPPORTUNITY TO MEET WITH FDA PERSONNEL.—The Secretary shall provide an opportunity for a manufacturer or importer to meet with appropriate personnel of the FDA to discuss the appropriate classification of the accessory prior to sub-

mitting a written request under this clause for classification of the accessory.

(iii) RESPONSE BY SECRETARY.—

(I) IN GENERAL.—The Secretary shall respond to a request made under clause (ii) not later than 85 calendar days after receiving the request by issuing a written order classifying the accessory or denying the request.

(II) JUSTIFICATION REQUIRED IF SECRETARY DISAGREES.—If the Secretary does not agree with the recommendation for classification submitted by the manufacturer or importer, the response shall include a detailed description and justification for the determination.

(III) PUBLICATION ANNOUNCING RESPONSE.—Within 30 calendar days after granting such a request, the Secretary shall publish a notice in the Federal Register announcing the response.

(E) EFFECT OF PARAGRAPH ON USE OF CLASSIFICATION PROCESS ON NEW TYPE OF ACCESSORY.—Nothing in this paragraph may be construed as precluding a manufacturer of an accessory of a new type from using the classification process described in paragraph (2) to obtain classification of the accessory in accordance with the criteria and requirements set forth in that paragraph.

(i) INFORMATION.—Within 60 days of the receipt of a written request of any person for information respecting the class in which a device has been classified or the requirements applicable to a device under this subtitle, the Secretary shall provide the person a written statement of the classification (if any) of the device and the requirements of this subtitle applicable to the device.

(j) TRAINING AND OVERSIGHT OF LEAST BURDENSOME REQUIREMENTS.—

(1) IN GENERAL.—The Secretary shall—

(A) ensure that each employee of the FDA who is involved in the review of premarket submissions, including supervisors, receives training regarding the meaning and implementation of the least burdensome requirements under

subsections (b)(1)(D) and (c)(4)(D) and section 13142(c)(5) of this title; and

(B) periodically assess the implementation of the least burdensome requirements, including the employee training under subparagraph (A), to ensure that the least burdensome requirements are fully and consistently applied.

(2) AUDIT.—Not later than 18 months after December 13, 2016, the ombudsman for any organizational unit of the FDA responsible for the premarket review of devices—

(A) shall conduct an audit of the training described in paragraph (1)(A), including the effectiveness of the training in implementing the least burdensome requirements;

(B) shall include in the audit interviews of individuals who are representatives of the device industry regarding their experiences in the device premarket review process, including with respect to the application of least burdensome concepts to premarket review and decision-making;

(C) shall include in the audit a list of the measurement tools the Secretary uses to assess the implementation of the least burdensome re-

quirements, including under paragraph (1)(B) and section 13148(a)(3) of this title, and may provide feedback on the effectiveness of the tools in the implementation of the least burdensome requirements;

(D) shall summarize the findings of the audit in a final audit report; and

(E) within 30 calendar days of completion of the final audit report, shall make the final audit report available—

(i) to the Committee on Health, Education, Labor, and Pensions of the Senate and the Committee on Energy and Commerce of the House of Representatives; and

(ii) on the FDA website.

(k) DUAL SUBMISSION FOR CERTAIN DEVICES.—For a device authorized for emergency use under section 14306 of this title for which, in accordance with section 14306(n) of this title, the Secretary has deemed a laboratory examination or procedure associated with the device to be in the category of examinations and procedures described in section 353(d)(3) of the Public Health Service Act (42 U.S.C. 263a(d)(3)), the sponsor of the device

may, when submitting a request for classification under subsection (h)(2), submit a single submission containing—

(1) the information needed for the request; and

(2) sufficient information to enable the Secretary to determine whether the laboratory examination or procedure satisfies the criteria to be categorized under section 353(d)(3) of the Public Health Service Act (42 U.S.C. 263a(d)(3)).

**§ 13141. Performance standards**

(a) REASONABLE ASSURANCE OF SAFE AND EFFECTIVE PERFORMANCE.—

(1) REQUIRED INCLUSION OF PERFORMANCE STANDARDS FOR CLASS II DEVICES.—The special controls required by section 13140(c)(1)(B) of this title shall include performance standards for a class II device if the Secretary determines that a performance standard is necessary to provide reasonable assurance of the safety and effectiveness of the device. A class III device may also be considered a class II device for purposes of establishing a standard for the device under subsection (b) if the device has been reclassified as a class II device under an administrative order under section 13140(g) of this title (or a regulation promulgated under that section prior to July 9, 2012) but the order (or regulation)

provides that the reclassification is not to take effect until the effective date of the standard for the device.

(2) REQUIRED PROVISIONS IN A PERFORMANCE STANDARD.—A performance standard established under subsection (b) for a device—

(A) shall include provisions to provide reasonable assurance of its safe and effective performance;

(B) shall, where necessary to provide reasonable assurance of its safe and effective performance, include—

(i) provisions respecting the construction, components, ingredients, and properties of the device and its compatibility with power systems and connections to those power systems;

(ii) provisions for the testing (on a sample basis or, if necessary, on an individual basis) of the device or, if it is determined that no other more practicable means are available to the Secretary to ensure the conformity of the device to the standard, provisions for the testing (on a sample basis or, if necessary, on an indi-

vidual basis) by the Secretary or by another person at the direction of the Secretary;

(iii) provisions for the measurement of the performance characteristics of the device;

(iv) provisions requiring that the results of each or of certain of the tests of the device required to be made under clause (ii) show that the device is in conformity with the portions of the standard for which the test or tests were required; and

(v) a provision requiring that the sale and distribution of the device be restricted but only to the extent that the sale and distribution of a device may be restricted under a regulation under section 13152(e) of this title; and

(C) shall, where appropriate, require the use and prescribe the form and content of labeling for the proper installation, maintenance, operation, and use of the device.

(3) PERIODIC EVALUATION.—The Secretary shall provide for periodic evaluation of performance

standards established under subsection (b) to determine if the standards should be changed to reflect new medical, scientific, or other technological data.

(4) COOPERATION.—In carrying out the Secretary's duties under this subsection and subsection (b), the Secretary shall, to the maximum extent practicable—

(A) use personnel, facilities, and other technical support available in other Federal agencies;

(B) consult with other Federal agencies concerned with standard-setting and other nationally or internationally recognized standard-setting entities; and

(C) invite appropriate participation, through joint or other conferences, workshops, or other means, by informed individuals representative of scientific, professional, industry, or consumer organizations, which individuals, in the Secretary's judgment, can make a significant contribution.

(b) ESTABLISHMENT, AMENDMENT, AND REVOCATION OF A STANDARD.—

(1) PUBLICATION OF PROPOSED RULEMAKING.—

(A) IN GENERAL.—The Secretary shall publish in the Federal Register a notice of proposed rulemaking for the establishment, amendment, or revocation of any performance standard for a device.

(B) REQUIREMENTS FOR ESTABLISHMENT OR AMENDMENT.—A notice of proposed rulemaking for the establishment or amendment of a performance standard for a device shall—

(i) set forth a finding with supporting justification that the performance standard is appropriate and necessary to provide reasonable assurance of the safety and effectiveness of the device;

(ii) set forth proposed findings with respect to the risk of illness or injury that the performance standard is intended to reduce or eliminate;

(iii) invite interested persons to submit to the Secretary, within 30 days of the publication of the notice, requests for changes in the classification of the device pursuant to section 13140(g) of this title based on new information relevant to the classification; and

(iv) invite interested persons to submit an existing performance standard for the device, including a draft or proposed performance standard, for consideration by the Secretary.

(C) REQUIRED FINDING FOR REVOCATION.—A notice of proposed rulemaking for the revocation of a performance standard shall set forth a finding with supporting justification that the performance standard is no longer necessary to provide reasonable assurance of the safety and effectiveness of a device.

(D) COMMENT PERIOD.—The Secretary shall provide for a comment period of not less than 60 days.

(2) REQUESTS FOR A CHANGE IN CLASSIFICATION.—If, after publication of a notice in accordance with paragraph (1), the Secretary receives a request for a change in the classification of the device, the Secretary shall, within 60 days of the publication of the notice, after consultation with the appropriate panel under section 13140 of this title, either deny the request or give notice of an intent to initiate the change under section 13140(g) of this title.

(3) FINAL REGULATION; ESTABLISHING A STANDARD OR TERMINATING DEVELOPMENT OF A STANDARD.—

(A) IN GENERAL.—After the expiration of the period for comment on a notice of proposed rulemaking published under paragraph (1) respecting a performance standard and after consideration of the comments and any report from an advisory committee under paragraph (5), the Secretary shall—

(i) promulgate a regulation establishing a performance standard and publish in the Federal Register findings on the matters referred to in paragraph (1); or

(ii) publish a notice terminating the proceeding for the development of the standard together with the reasons for the termination.

(B) RECLASSIFICATION OF DEVICE FOR WHICH NOTICE OF TERMINATION OF PROCEEDING IS PUBLISHED.—If a notice of termination is published, the Secretary shall (unless the notice is issued because the device is a banned device under section 13146 of this title) initiate a proceeding under section 13140(g) of

this title to reclassify the device subject to the proceeding terminated by the notice.

(C) EFFECTIVE DATE OF STANDARD.—

(i) IN GENERAL.—A regulation establishing a performance standard shall set forth the date or dates on which the standard shall take effect, but no such regulation may take effect before 1 year after the date of its publication unless—

(I) the Secretary determines that an earlier effective date is necessary for the protection of the public health and safety; or

(II) the standard has been established for a device that, effective on the effective date of the standard, has been reclassified from class III to class II.

(ii) CONSIDERATION OF DOMESTIC AND INTERNATIONAL TRADE.—The date or dates under clause (i) shall be established so as to minimize, consistent with the public health and safety, economic loss to, and disruption or dislocation of, domestic and international trade.

(4) AMENDMENT OR REVOCATION OF PERFORMANCE STANDARD.—

(A) IN GENERAL.—The Secretary, on the Secretary's own initiative or on petition of an interested person, may by regulation, promulgated in accordance with the requirements of paragraphs (1), (2), and (3)(C), amend or revoke a performance standard.

(B) EFFECTIVE DATE OF PROPOSED AMENDMENT ON DATE OF PUBLICATION.—The Secretary may declare a proposed amendment of a performance standard to be effective on and after its publication in the Federal Register and until the effective date of any final action taken on the amendment if the Secretary determines that making it so effective is in the public interest.

(C) LIMITATION ON PROHIBITION OF INTRODUCTION OR DELIVERY FOR INTRODUCTION INTO INTERSTATE COMMERCE.—A proposed amendment of a performance standard made effective as described in subparagraph (B) may not prohibit, during the period in which it is so effective, the introduction or delivery for introduction into interstate commerce of a device

that conforms to the standard without the change or changes provided by the proposed amendment.

(5) REFERRAL TO ADVISORY COMMITTEE.—

(A) IN GENERAL.—

(i) AUTHORITY.—

(I) IN GENERAL.—The Secretary—

(aa) may, on the Secretary's own initiative, refer a proposed regulation as described in subclause (II) for the establishment, amendment, or revocation of a performance standard; or

(bb) shall, on the request of an interested person, which request demonstrates good cause for referral and which request is made before the expiration of the period for submission of comments on the proposed regulation, refer the proposed regulation as described in subclause (II).

(II) REFERRAL.—The referral of a proposed regulation under item (aa) or (bb) of subclause (I) shall be made to an advisory committee of experts, established pursuant to subparagraph (B), for a report and recommendation with respect to any matter involved in the proposed regulation that requires the exercise of scientific judgment.

(ii) PROVISION OF DATA AND INFORMATION BY SECRETARY TO ADVISORY COMMITTEE.—If a proposed regulation is referred under this subparagraph to an advisory committee, the Secretary shall provide the advisory committee with the data and information on which the proposed regulation is based.

(iii) RECOMMENDATION.—The advisory committee shall, within 60 days of the referral of a proposed regulation and after independent study of the data and information furnished to it by the Secretary and other data and information before it, submit to the Secretary a report and recommendation respecting the regulation, to-

gether with all underlying data and information and a statement of the reason or basis for the recommendation.

(iv) PUBLIC AVAILABILITY OF RECOMMENDATION.—A copy of the report and recommendation shall be made public by the Secretary.

(B) ESTABLISHMENT OF ADVISORY COMMITTEES.—

(i) IN GENERAL.—The Secretary shall establish advisory committees (which may not be panels under section 13140 of this title) to receive referrals under subparagraph (A).

(ii) QUALIFICATION OF MEMBERS; LIMITATION ON FEDERAL EMPLOYEES.—The Secretary shall appoint as members of any advisory committee under clause (i) individuals who are qualified in the subject matter to be referred to the advisory committee and who are of appropriately diversified professional background, except that the Secretary may not appoint to the advisory committee any individual who is in the regular full-time employ of the United

States and engaged in the administration of this subtitle.

(iii) REPRESENTATION OF CONSUMER AND INDUSTRY INTERESTS.—Each advisory committee established under this subparagraph shall include as nonvoting members a representative of consumer interests and a representative of interests of the device manufacturing industry.

(iv) COMPENSATION AND TRAVEL EXPENSES RELATING TO CONFERENCES AND MEETINGS.—

(I) IN GENERAL.—Members of an advisory committee who are not officers or employees of the United States, while attending conferences or meetings of their committee or otherwise serving at the request of the Secretary, shall be entitled to receive compensation at rates to be fixed by the Secretary, which rates may not exceed the daily equivalent of the maximum rate payable under section 5376 of title 5, for each day (including travel time) they are so engaged.

(II) SERVICE AWAY FROM HOME OR REGULAR PLACE OF BUSINESS.—While serving as described in subclause (I) away from the member's home or regular place of business, each member may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5 for individuals in the Government service employed intermittently.

(v) CHAIRPERSON.—The Secretary shall designate one of the members of each advisory committee to serve as chairperson of the advisory committee.

(vi) PERSONNEL; PROCEDURES.—The Secretary shall furnish each advisory committee with clerical and other assistance, and shall by regulation prescribe the procedures to be followed by each such advisory committee in acting on referrals made under subparagraph (A).

(c) RECOGNITION OF STANDARD.—

(1) IN GENERAL.—

(A) PUBLICATION.—In addition to establishing a performance standard under this section, the Secretary shall, by publication in the Federal Register (or, with respect to a susceptibility test interpretive criteria standard under section 13138 of this title, by posting on the Interpretive Criteria Website in accordance with that section), recognize all or part of an appropriate standard established by a nationally or internationally recognized standard development organization for which a person may submit a declaration of conformity in order to meet a premarket submission requirement or other requirement under this subtitle to which the standard is applicable.

(B) DECLARATION OF CONFORMITY.—If a person elects to use a standard recognized by the Secretary under subparagraph (A) to meet the requirements described in subparagraph (A), the person shall provide a declaration of conformity to the Secretary that certifies that the device is in conformity with the standard. A person may elect to use data, or information other than data, required by a standard recog-

nized under subparagraph (A) to meet any requirement regarding devices under this subtitle.

(C) REQUEST FOR RECOGNITION.—

(i) IN GENERAL.—Any person may submit a request for recognition under subparagraph (A) of all or part of an appropriate standard established by a nationally or internationally recognized standard development organization.

(ii) ACTIONS BY SECRETARY.—Not later than 60 calendar days after the Secretary receives a request under clause (i), the Secretary shall—

(I) make a determination to recognize all, part, or none of the standard that is the subject of the request; and

(II) issue to the person that submitted the request a response in writing that states the Secretary's rationale for that determination, including the scientific, technical, regulatory, or other basis for the determination.

(iii) PUBLIC AVAILABILITY OF RESPONSE.—The Secretary shall make a re-

sponse issued under clause (ii)(II) publicly available, in such a manner as the Secretary determines appropriate.

(iv) NECESSARY ACTIONS FOR IMPLEMENTATION.—The Secretary shall take such actions as may be necessary to implement all or part of a standard recognized under clause (ii)(I), in accordance with subparagraph (A).

(D) PUBLIC AVAILABILITY OF RATIONALE FOR RECOGNITION.—The Secretary shall make publicly available, in such manner as the Secretary determines appropriate, the rationale for recognition under subparagraph (A) of all, part, or none of a standard, including the scientific, technical, regulatory, or other basis for the decision regarding the recognition.

(2) WITHDRAWAL OF RECOGNITION.—The Secretary may withdraw the recognition of a standard through publication of a notice in the Federal Register if the Secretary determines that the standard is no longer appropriate for meeting a requirement regarding devices under this subtitle.

(3) ACCEPTANCE OF DECLARATION OF CONFORMITY.—

(A) IN GENERAL.—Subject to subparagraph (B), the Secretary shall accept a declaration of conformity that a device is in conformity with a standard recognized under paragraph (1) unless the Secretary finds—

(i) that the data or information submitted to support the declaration of conformity does not demonstrate that the device is in conformity with the standard identified in the declaration of conformity; or

(ii) that the standard identified in the declaration of conformity is not applicable to the particular device under review.

(B) AUTHORITY OF SECRETARY TO REQUEST DATA OR INFORMATION.—The Secretary may request, at any time, the data or information relied on by the person to make a declaration of conformity with respect to a standard recognized under paragraph (1).

(C) MAINTENANCE OF DATA AND INFORMATION.—A person making a declaration of conformity with respect to a standard recognized under paragraph (1) shall maintain the data and information demonstrating conformity

of the device to the standard for a period of 2 years after the date of the classification or approval of the device by the Secretary or a period equal to the expected design life of the device, whichever is longer.

(4) TRAINING.—The Secretary shall provide to all employees of the FDA who review premarket submissions for devices periodic training on the concept and use of recognized standards for purposes of meeting a premarket submission requirement or other applicable requirement under this subtitle, including standards relevant to an employee's area of device review.

(d) ACCREDITATION SCHEME FOR CONFORMITY ASSESSMENT.—

(1) IN GENERAL.—The Secretary shall establish a program under which—

(A) testing laboratories meeting criteria specified in guidance by the Secretary may be accredited, by accreditation bodies meeting criteria specified in guidance by the Secretary, to conduct testing to support the assessment of the conformity of a device to certain standards recognized under this section; and

(B) subject to paragraph (2), results from tests conducted to support the assessment of conformity of devices as described in subparagraph (A) conducted by testing laboratories accredited pursuant to this subsection shall be accepted by the Secretary for purposes of demonstrating the conformity unless the Secretary finds that certain results of those tests should not be so accepted.

(2) SECRETARIAL REVIEW OF ACCREDITED LABORATORY RESULTS.—The Secretary may—

(A) review the results of tests conducted by testing laboratories accredited pursuant to this subsection, including by conducting periodic audits of the results or of the processes of accredited bodies or testing laboratories;

(B) following the review, take additional measures under this subtitle, as the Secretary determines appropriate, such as—

(i) suspension or withdrawal of accreditation of a testing laboratory or of recognition of an accreditation body under paragraph (1)(A); or

(ii) requesting additional information with respect to a device; and

(C) if the Secretary becomes aware of information materially bearing on the safety or effectiveness of a device for which an assessment of conformity was supported by testing conducted by a testing laboratory accredited under this subsection, take such additional measures under this subtitle, as the Secretary determines appropriate, such as—

(i) suspension or withdrawal of accreditation of a testing laboratory or of recognition of an accreditation body under paragraph (1)(A); or

(ii) requesting additional information with regard to the device.

(3) REPORT.—The Secretary shall make available on the FDA website an annual report on the progress of the program under this subsection.

**§ 13142. Premarket approval**

(a) REQUIRED PREMARKET APPROVAL FOR CLASS III DEVICES.—

(1) IN GENERAL.—A class III device described in paragraph (2) is required to have, unless exempt under section 13152(g) of this title, an approval under this section of an application for premarket approval or, as applicable, an approval under sub-

section (c)(2) of a report seeking premarket approval.

(2) CLASS III DEVICE.—A class III device is described in this paragraph if the device is—

(A) subject to an order issued under subsection (b) (or a regulation promulgated under that subsection prior to July 9, 2012); or

(B) a class III device because of section 13140(h) of this title.

(b) ORDER TO REQUIRE PREMARKET APPROVAL.—

(1) AUTHORITY.—

(A) IN GENERAL.—In the case of a class III device described in subparagraph (B), the Secretary shall, by administrative order, following publication of a proposed order in the Federal Register, a meeting of a device classification panel described in section 13140(d) of this title, and consideration of comments from all affected stakeholders, including patients, payors, and providers, notwithstanding subchapter II of chapter 5 of title 5, require that the device have an approval under this section of an application for premarket approval.

(B) CLASS III DEVICE.—A class III device is described in this subparagraph if it—

(i) was introduced or delivered for introduction into interstate commerce for commercial distribution before May 28, 1976; or

(ii) is—

(I) of a type introduced or delivered as described in clause (i); and

(II) is substantially equivalent to another device within that type.

(C) NONDELEGATION.—Authority to issue an administrative order under subparagraph (A) shall not be delegated below the Director of the Center for Devices and Radiological Health, acting in consultation with the Commissioner.

(2) CONTENTS OF PROPOSED ORDER.—A proposed order required under paragraph (1) shall contain—

(A) the proposed order;

(B) proposed findings with respect to—

(i) the degree of risk of illness or injury designed to be eliminated or reduced by requiring the device to have an approved application for premarket approval; and

(ii) the benefit to the public from use of the device;

(C) opportunity for the submission of comments on the proposed order and the proposed findings; and

(D) opportunity to request a change in the classification of the device based on new information relevant to the classification of the device.

(3) ISSUANCE OF ORDER; TERMINATION OF PROCEEDING FOR THE ISSUANCE OF ORDER.—

(A) IN GENERAL.—After the expiration of the period for comment on a proposed order and proposed findings published under paragraph (2), consideration of comments submitted on the proposed order and findings, and a meeting of a device classification panel described in section 13140(d) of this title, the Secretary shall—

(i) issue an administrative order under paragraph (1) and publish in the Federal Register findings on the matters referred to in paragraph (2)(B); or

(ii) publish a notice terminating the proceeding for the issuance of the adminis-

trative order together with the reasons for the termination.

(B) RECLASSIFICATION ON TERMINATION OF PROCEEDING.—If a notice of termination is published, the Secretary shall (unless the notice is issued because the device is a banned device under section 13146 of this title) initiate a proceeding under section 13140(g) of this title to reclassify the device subject to the proceeding terminated by the notice.

(c) APPLICATION FOR PREMARKET APPROVAL.—

(1) IN GENERAL.—Any person may file with the Secretary an application for premarket approval for a class III device. The application for the device shall contain—

(A) full reports of all information, published or known to, or that should reasonably be known to, the applicant, concerning investigations that have been made to show whether or not the device is safe and effective;

(B) a full statement of the components, ingredients, and properties, and of the principle or principles of operation, of the device;

(C) a full description of the methods used in, and the facilities and controls used for, the

manufacture, processing, and, when relevant, packing and installation, of the device;

(D) an identifying reference to any performance standard under section 13141 of this title that would be applicable to any aspect of the device if it were a class II device, and either adequate information to show that the aspect of the device fully meets the performance standard or adequate information to justify any deviation from the standard;

(E) such samples of the device and of components of the device as the Secretary may reasonably require, except that where the submission of the samples is impracticable or unduly burdensome, the requirement of this subparagraph may be met by the submission of complete information concerning the location of 1 or more of the devices readily available for examination and testing;

(F) specimens of the labeling proposed to be used for the device;

(G) the certification required under section 402(j)(5)(B) of the Public Health Service Act (42 U.S.C. 282(j)(5)(B)) (which shall not be considered an element of the application); and

(H) such other information relevant to the subject matter of the application as the Secretary, with the concurrence of the appropriate panel under section 13140 of this title, may require.

(2) REPORT SEEKING PREMARKET APPROVAL FOR A CLASS III DEVICE THAT IS A REPROCESSED, SINGLE-USE DEVICE.—

(A) IN GENERAL.—Any person may file with the Secretary a report seeking premarket approval for a class III device referred to in subsection (a) that is a reprocessed single-use device. The report shall contain—

(i) the device name, including both the trade or proprietary name and the common or usual name;

(ii) the establishment registration number of the owner or operator submitting the report;

(iii) actions taken to comply with performance standards under section 13141 of this title;

(iv) proposed labels, labeling, and advertising sufficient to describe the device, its intended use, and directions for use;

(v) full reports of all information, published or known to, or that should be reasonably known to, the applicant, concerning investigations that have been made to show whether or not the device is safe or effective;

(vi) a description of the device's components, ingredients, and properties;

(vii) a full description of the methods used in, and the facilities and controls used for, the reprocessing and packing of the device;

(viii) such samples of the device that the Secretary may reasonably require;

(ix) a financial certification or disclosure statement or both, as required by part 54 of title 21, Code of Federal Regulations;

(x) a statement that the applicant believes to the best of the applicant's knowledge that all data and information submitted to the Secretary are truthful and accurate and that no material fact has been omitted in the report;

(xi) any additional data and information, including information of the type required in paragraph (1) for an application under paragraph (1), that the Secretary determines is necessary to determine whether there is reasonable assurance of safety and effectiveness for the reprocessed device; and

(xii) validation data described in section 13136(o)(1)(A) of this title that demonstrates that the reasonable assurance of the safety or effectiveness of the device will remain after the maximum number of times the device is reprocessed as intended by the person submitting the report.

(B) APPLICABILITY OF CERTAIN PROVISIONS.—In the case of a class III device referred to in subsection (a) that is a reprocessed single-use device—

(i) subparagraph (A) applies in lieu of paragraph (1);

(ii) subject to clause (i), the provisions of this section apply to a report under subparagraph (A) to the same extent and in

the same manner as the provisions apply to an application under paragraph (1);

(iii) each reference in other sections of this subtitle to an application under this section, other than such a reference in section 17916 or 17917 of this title, shall be considered to be a reference to a report under subparagraph (A); and

(iv) each reference in other sections of this subtitle to a device for which an application under this section has been approved, or has been denied, suspended, or withdrawn, other than such a reference in section 17916 or 17917 of this title, shall be considered to be a reference to a device for which a report under subparagraph (A) has been approved, or has been denied, suspended, or withdrawn, respectively.

(3) REFERRAL OF APPLICATION TO CLASSIFICATION PANEL.—

(A) IN GENERAL.—

(i) AUTHORITY.—On receipt of an application meeting the requirements set forth in paragraph (1), the Secretary—

(I) may, on the Secretary's own initiative, refer the application as described in clause (ii); or

(II) shall, on the request of an applicant, unless the Secretary finds that the information in the application that would be reviewed by a panel substantially duplicates information that has previously been reviewed by a panel appointed under section 13140 of this title, refer the application as described in clause (ii).

(ii) REFERRAL.—The referral of an application under subclause (I) or (II) of clause (i) shall be made to the appropriate panel under section 13140 of this title for study and for submission (within such period as the Secretary may establish) of a report and recommendation respecting approval of the application, together with all underlying data and the reasons or basis for the recommendation.

(B) INVOLVEMENT OF PEDIATRIC EXPERTS.—If appropriate, the Secretary shall ensure that the panel under subparagraph (A) in-

cludes, or consults with, 1 or more pediatric experts.

(4) REVIEW OF APPLICATION PRIOR TO SUBMISSION.—

(A) IN GENERAL.—Prior to the submission of an application under this subsection, the Secretary shall accept and review any portion of the application that the applicant and the Secretary agree is complete, ready, and appropriate for review, except that this requirement does not apply, and the Secretary may accept and review the portion, during any period in which, under section 17917(g) of this title, the Secretary does not have the authority to collect fees under section 17917(a) of this title.

(B) FURTHER REVIEW ON RECEIPT OF APPLICATION.—Each portion of a submission reviewed under subparagraph (A) and found acceptable by the Secretary shall not be further reviewed after receipt of an application that satisfies the requirements of paragraph (1), unless a significant issue of safety or effectiveness provides the Secretary reason to review the accepted portion.

(C) DEFICIENCIES IN SUBMISSION.—If the Secretary determines that a portion of a submission under subparagraph (A) is unacceptable, the Secretary shall, in writing, provide to the applicant a description of any deficiencies in the portion and identify the information that is required to correct the deficiencies, unless the applicant is no longer pursuing the application.

(5) REQUEST FOR ADDITIONAL INFORMATION; LEAST BURDENSOME APPROACH.—

(A) IN GENERAL.—

(i) DEFINITION OF NECESSARY.—In clause (ii), the term ''necessary'' means the minimum required information that would support a determination by the Secretary that an application provides a reasonable assurance of the safety and effectiveness of the device.

(ii) CONSIDERATION OF LEAST BURDENSOME APPROACH.—In requesting additional information with respect to an application under this section, the Secretary shall consider the least burdensome appropriate means necessary to demonstrate a

reasonable assurance of device safety and effectiveness.

(B) POSTMARKET INFORMATION.—For purposes of this paragraph, the Secretary shall consider the role of postmarket information in determining the least burdensome means of demonstrating a reasonable assurance of device safety and effectiveness.

(C) EFFECT OF PARAGRAPH ON STANDARDS FOR PREMARKET APPROVAL.—Nothing in this paragraph alters the standards for premarket approval of a device.

(d) ACTION ON APPLICATION FOR PREMARKET APPROVAL.—

(1) APPROVAL OR DENIAL OF APPROVAL OF APPLICATION.—

(A) AUTHORITY.—

(i) IN GENERAL.—As promptly as possible, but not later than 180 days after the receipt of an application under subsection (c) (except as provided in section 13152(l)(3)(D)(ii) of this title or unless, in accordance with subparagraph (B)(i), an additional period is agreed on by the Secretary and the applicant), the Secretary,

after considering the report and recommendation submitted under subsection (c)(2), shall—

(I) issue an order approving the application if the Secretary finds that none of the grounds for denying approval specified in paragraph (2) applies; or

(II) deny approval of the application if the Secretary finds (and sets forth the basis for the finding as part of or accompanying the denial) that 1 or more grounds for denial specified in paragraph (2) apply.

(ii) RELIANCE ON CONDITIONS OF USE IN PROPOSED LABELING.—

(I) IN GENERAL.—In making the determination whether to approve or deny the application, the Secretary shall rely on the conditions of use included in the proposed labeling as the basis for determining whether or not there is a reasonable assurance of safety and effectiveness, if the pro-

posed labeling is neither false nor misleading.

(II) DETERMINATION WHETHER LABELING IS FALSE OR MISLEADING.—In determining whether or not the labeling is false or misleading, the Secretary shall fairly evaluate all material facts pertinent to the proposed labeling.

(B) CONDUCT OF ACTIONS BY SECRETARY.—

(i) EXTENSIONS.—The Secretary may not enter into an agreement to extend the period in which to take action with respect to an application submitted for a device subject to an order issued under subsection (b) unless the Secretary finds that the continued availability of the device is necessary for the public health.

(ii) RESTRICTED SALE CONDITION.—An order approving an application for a device may require as a condition to the approval that the sale and distribution of the device be restricted but only to the extent that the sale and distribution of a de-

vice may be restricted under a regulation under section 13152(e) of this title.

(iii) DATA AND INFORMATION TO BE ACCEPTED AND REVIEWED.—The Secretary shall accept and review statistically valid and reliable data and any other information from investigations conducted under the authority of regulations required by section 13152(g) of this title to make a determination of whether there is a reasonable assurance of safety and effectiveness of a device subject to a pending application under this section if—

(I) the data or information is derived from investigations of an earlier version of the device, the device has been modified during or after the investigations (but prior to submission of an application under subsection (c)), and the modification of the device does not constitute a significant change in the design or in the basic principles of operation of the device that would invalidate the data or information; or

(II) the data or information relates to a device approved under this section, is available for use under this subtitle, and is relevant to the design and intended use of the device for which the application is pending.

(2) DENIAL OF APPROVAL OF APPLICATIONS.—

(A) IN GENERAL.—The Secretary shall deny approval of an application for a device if, on the basis of the information submitted to the Secretary as part of the application and any other information before the Secretary with respect to the device, the Secretary finds that—

(i) there is a lack of a showing of reasonable assurance that the device is safe under the conditions of use prescribed, recommended, or suggested in the proposed labeling of the device;

(ii) there is a lack of a showing of reasonable assurance that the device is effective under the conditions of use prescribed, recommended, or suggested in the proposed labeling of the device;

(iii) the methods used in, or the facilities or controls used for, the manufacture,

processing, packing, or installation of the device do not conform to the requirements of section 13152(f) of this title;

(iv) based on a fair evaluation of all material facts, the proposed labeling is false or misleading in any particular; or

(v) the device is not shown to conform in all respects to a performance standard in effect under section 13141 of this title, compliance with which is a condition to approval of the application, and there is a lack of adequate information to justify the deviation from the standard.

(B) STATEMENT TO ACCOMPANY DENIAL.—Any denial of an application shall, to the extent that the Secretary determines to be practicable, be accompanied by a statement informing the applicant of the measures required to place the application in approvable form (which measures may include further research by the applicant in accordance with 1 or more protocols prescribed by the Secretary).

(3) MEETING ON REQUEST BY APPLICANT AFTER RECEIPT OF APPLICATION.—

(A) REQUEST.—

(i) IN GENERAL.—The Secretary shall, on the written request of an applicant, meet with the applicant, not later than 100 days after the receipt of an application that has been filed as complete under subsection (c), to discuss the review status of the application.

(ii) DESCRIPTION OF DEFICIENCIES.—The Secretary shall, in writing and prior to the meeting, provide to the applicant a description of any deficiencies in the application that, at that point, have been identified by the Secretary based on an interim review of the entire application and identify the information that is required to correct those deficiencies.

(iii) NOTIFICATION OF ADDITIONAL DEFICIENCIES.—The Secretary shall notify the applicant promptly of—

(I) any additional deficiency identified in the application, which deficiency was not described as a deficiency in the written description provided by the Secretary under clause (ii); or

(II) any additional information required to achieve completion of the review and final action on the application, which information was not described as a deficiency in the written description provided by the Secretary under clause (ii).

(B) SCHEDULE OF MEETING BY MUTUAL CONSENT.—The Secretary and the applicant may, by mutual consent, establish a different schedule for a meeting required under this paragraph.

(4) REVIEW OF DENIALS AND APPROVALS.—An applicant whose application has been denied approval may, by petition filed on or before the 30th day after the date on which the applicant receives notice of the denial, obtain review of the denial in accordance with either paragraph (1) or (2) of subsection (g), and any interested person may obtain review, in accordance with paragraph (1) or (2) of subsection (g), of an order of the Secretary approving an application.

(5) CHANGE TO A DEVICE.—

(A) SUPPLEMENTAL APPLICATION OR WRITTEN NOTICE REQUIRED.—

(i) IN GENERAL.—Unless the change is consistent with a predetermined change control plan approved under section 13145 of this title, a supplemental application shall be required for any change to a device subject to an approved application under this subsection that affects safety or effectiveness, unless the change is a modification in a manufacturing procedure or method of manufacturing and the holder of the approved application submits a written notice to the Secretary that describes in detail the change, summarizes the data or information supporting the change, and informs the Secretary that the change has been made under the requirements of section 13152(f) of this title.

(ii) DATE ON WHICH DEVICE WITH MANUFACTURING CHANGE MAY BE DISTRIBUTED.—

(I) IN GENERAL.—The holder of an approved application who submits a notice under clause (i) with respect to a manufacturing change of a device may distribute the device 30 days

after the date on which the Secretary receives the notice, unless the Secretary, within the 30-day period, notifies the holder that the notice is not adequate and describes such further information or action that is required for acceptance of the change.

(II) NOTIFICATION THAT SUPPLEMENTAL APPLICATION IS REQUIRED.—If the Secretary notifies the holder that a supplemental application is required, the Secretary shall review the supplement within 135 days after the receipt of the supplement.

(III) ADJUSTMENTS TO REVIEW PERIOD.—The time used by the Secretary to review the notice of the manufacturing change shall be deducted from the 135-day review period if the notice meets appropriate content requirements for premarket approval supplements.

(B) APPROVAL OF SUPPLEMENT.—

(i) IN GENERAL.—Subject to clause (ii), in reviewing a supplement to an ap-

proved application, which supplement is for an incremental change to the design of a device that affects safety or effectiveness, the Secretary shall approve the supplement if—

(I) nonclinical data demonstrate that the design modification creates the intended additional capacity, function, or performance of the device; and

(II) clinical data from the approved application and any supplement to the approved application provide a reasonable assurance of safety and effectiveness for the changed device.

(ii) ADDITIONAL CLINICAL DATA.—The Secretary may require, when necessary, additional clinical data to evaluate the design modification of the device to provide a reasonable assurance of safety and effectiveness.

(e) WITHDRAWAL AND TEMPORARY SUSPENSION OF APPROVAL OF APPLICATION.—

(1) WITHDRAWAL.—The Secretary shall, on obtaining, where appropriate, advice on scientific matters from a panel or panels under section 13140 of this title, and after due notice and opportunity for informal hearing provided to the holder of an approved application for a device, issue an order withdrawing approval of the application if the Secretary finds—

(A) that the device is unsafe or ineffective under the conditions of use prescribed, recommended, or suggested in the labeling of the device;

(B) on the basis of new information before the Secretary with respect to the device, evaluated together with the evidence available to the Secretary when the application was approved, that there is a lack of a showing of reasonable assurance that the device is safe or effective under the conditions of use prescribed, recommended, or suggested in the labeling of the device;

(C) that the application contained or was accompanied by an untrue statement of a material fact;

(D) that the applicant—

(i) has failed to establish a system for maintaining records, or has repeatedly or deliberately failed to maintain records or to make reports, required by an applicable regulation under section 13151(a) of this title;

(ii) has refused to permit access to, or copying or verification of, the records as required by section 17504 of this title; or

(iii) has not complied with the requirements of section 13136 of this title;

(E) on the basis of new information before the Secretary with respect to the device, evaluated together with the evidence before the Secretary when the application was approved, that the methods used in, or the facilities and controls used for, the manufacture, processing, packing, or installation of the device do not conform with the requirements of section 13152(f) of this title and were not brought into conformity with the requirements within a reasonable time after receipt of written notice from the Secretary of nonconformity;

(F) on the basis of new information before the Secretary, evaluated together with the evi-

dence before the Secretary when the application was approved, that the labeling of the device, based on a fair evaluation of all material facts, is false or misleading in any particular and was not corrected within a reasonable time after receipt of written notice from the Secretary of that fact; or

(G) on the basis of new information before the Secretary, evaluated together with the evidence before the Secretary when the application was approved, that the device is not shown to conform in all respects to a performance standard that is in effect under section 13141 of this title, compliance with which was a condition to approval of the application, and that there is a lack of adequate information to justify the deviation from the standard.

(2) REVIEW OF WITHDRAWAL.—The holder of an application subject to an order issued under paragraph (1) withdrawing approval of the application may, by petition filed on or before the 30th day after the date on which the holder receives notice of the withdrawal, obtain review of the withdrawal in accordance with either paragraph (1) or (2) of subsection (g).

(3) TEMPORARY SUSPENSION OF APPROVAL.—If, after providing an opportunity for an informal hearing, the Secretary determines there is reasonable probability that the continuation of distribution of a device under an approved application would cause serious, adverse health consequences or death, the Secretary shall, by order, temporarily suspend the approval of the application approved under this section. If the Secretary issues the order, the Secretary shall proceed expeditiously under paragraph (1) to withdraw the application.

(f) PRODUCT DEVELOPMENT PROTOCOL.—

(1) COMPLETION OF TESTING IN ACCORDANCE WITH PRODUCT DEVELOPMENT PROTOCOL DEEMED AS APPROVAL OF CLASS III DEVICE.—In the case of a class III device that is required to have an approval of an application submitted under subsection (c), the device shall be considered as having the approval if a notice of completion of testing conducted in accordance with a product development protocol approved under paragraph (4) has been declared completed under paragraph (6).

(2) SUBMISSION OF PROPOSED PRODUCT DEVELOPMENT PROTOCOL.—

(A) IN GENERAL.—Any person may submit to the Secretary a proposed product development protocol with respect to a device. The protocol shall be accompanied by data supporting the protocol.

(B) REFERRAL TO CLASSIFICATION PANEL.—If, within 30 days of the receipt of the protocol, the Secretary determines that it appears to be appropriate to apply the requirements of this subsection to the device with respect to which the protocol is submitted, the Secretary—

(i) may, at the initiative of the Secretary, refer the proposed protocol to the appropriate panel under section 13140 of this title for its recommendation respecting approval of the protocol; or

(ii) shall so refer the protocol on the request of the submitter, unless the Secretary finds that the proposed protocol and accompanying data that would be reviewed by the panel substantially duplicate a product development protocol and accompanying data that have previously been reviewed by such a panel.

(3) REQUIREMENTS FOR APPROVAL OF PROPOSED PRODUCT DEVELOPMENT PROTOCOL.—A proposed product development protocol for a device may be approved only if—

(A) the Secretary determines that it is appropriate to apply the requirements of this subsection to the device in lieu of the requirement of approval of an application submitted under subsection (c); and

(B) the Secretary determines that the proposed protocol provides—

(i) a description of the device and the changes that may be made in the device;

(ii) a description of the preclinical trials (if any) of the device and a specification of—

(I) the results from the preclinical trials to be required before the commencement of clinical trials of the device; and

(II) any permissible variations in preclinical trials and the results from the preclinical trials;

(iii) a description of the clinical trials (if any) of the device and a specification of—

(I) the results from the clinical trials to be required before the filing of a notice of completion of the requirements of the protocol; and

(II) any permissible variations in the clinical trials and the results from the clinical trials;

(iv) a description of the methods to be used in, and the facilities and controls to be used for, the manufacture, processing, and, when relevant, packing and installation of the device;

(v) an identifying reference to any performance standard under section 13141 of this title to be applicable to any aspect of the device;

(vi) if appropriate, specimens of the labeling proposed to be used for the device;

(vii) such other information relevant to the subject matter of the protocol as the Secretary, with the concurrence of the ap-

propriate panel or panels under section 13140 of this title, may require; and

(viii) a requirement for submission of progress reports and, when completed, records of the trials conducted under the protocol, which records are adequate to show compliance with the protocol.

(4) APPROVAL OR DENIAL OF APPROVAL OF PROPOSED PRODUCT DEVELOPMENT PROTOCOL.—

(A) DATE BY WHICH SECRETARY IS TO APPROVE OR DENY PROPOSED PRODUCT DEVELOPMENT PROTOCOL.—The Secretary shall approve or disapprove a proposed product development protocol submitted under paragraph (2) within 120 days of its receipt unless an additional period is agreed on by the Secretary and the person that submitted the protocol.

(B) FINAL AGENCY ACTION.—Approval of a protocol or denial of approval of a protocol is final agency action subject to judicial review under chapter 7 of title 5.

(5) COMPLETION OF PROTOCOL.—At any time after a product development protocol for a device has been approved pursuant to paragraph (4), the

person for whom the protocol was approved may submit a notice of completion—

(A) stating—

(i) the person's determination that the requirements of the protocol have been fulfilled and that, to the best of the person's knowledge, there is no reason bearing on safety or effectiveness why the notice of completion should not become effective; and

(ii) the data and other information on which the determination was made; and

(B) setting forth the results of the trials required by the protocol and all the information required by subsection (c)(1).

(6) FINAL ORDERS RELATING TO COMPLETION OF PROTOCOL.—

(A) REVOCATION OF APPROVED PROTOCOL.—The Secretary may, after providing the person that has an approved protocol an opportunity for an informal hearing and at any time prior to receipt of notice of completion of the protocol, issue a final order to revoke the protocol if the Secretary finds that—

(i) the person has failed substantially to comply with the requirements of the protocol;

(ii) the results of the trials obtained under the protocol differ so substantially from the results required by the protocol that further trials cannot be justified; or

(iii) the results of the trials conducted under the protocol or available new information do not demonstrate that the device tested under the protocol does not present an unreasonable risk to health and safety.

(B) DECLARATION THAT PROTOCOL IS COMPLETED OR NOT COMPLETED.—

(i) IN GENERAL.—After the receipt of a notice of completion of an approved protocol, the Secretary shall, within the 90-day period beginning on the date the notice is received, by order, either declare the protocol completed or declare it not completed.

(ii) OPPORTUNITY FOR INFORMAL HEARING RELATING TO DECLARATIONS THAT PROTOCOL IS NOT COMPLETED.—An order declaring a protocol not completed

may take effect only after the Secretary has provided the person that has the protocol opportunity for an informal hearing on the order.

(iii) FINDINGS REQUIRED TO ISSUE ORDER OF DECLARATION THAT PROTOCOL IS NOT COMPLETED.—An order declaring a protocol not completed may be issued only if the Secretary finds that—

(I) the person has failed substantially to comply with the requirements of the protocol;

(II) the results of the trials obtained under the protocol differ substantially from the results required by the protocol; or

(III) there is a lack of a showing of reasonable assurance of the safety and effectiveness of the device under the conditions of use prescribed, recommended, or suggested in the proposed labeling of the device.

(C) FINAL ORDER TO BE IN WRITING AND TO CONTAIN REASONS.—A final order issued under subparagraph (A) or (B) shall be in writ-

ing and shall contain the reasons to support the conclusions of the final order.

(7) REVOCATION OF APPROVAL OF DEVICE PROVIDED BY NOTICE OF COMPLETION.—At any time after a notice of completion has become effective, the Secretary may issue an order (after due notice and opportunity for an informal hearing provided to the person for whom the notice is effective) revoking the approval of a device provided by a notice of completion that has become effective as provided in paragraph (6)(B) if the Secretary finds that any of the grounds listed in subparagraphs (A) through (G) of subsection (e)(1) apply. Each reference in the subparagraphs to an application shall be considered for purposes of this paragraph as a reference to a protocol and the notice of completion of the protocol, and each reference to the time when an application was approved shall be considered for purposes of this paragraph as a reference to the time when a notice of completion took effect.

(8) REVIEW OF ORDER REVOKING PROTOCOL, DECLARING PROTOCOL NOT COMPLETED, OR REVOKING APPROVAL OF DEVICE.—A person that has an approved protocol subject to an order issued under paragraph (6)(A) revoking the protocol, a person

that has an approved protocol with respect to which an order under paragraph (6)(B) was issued declaring that the protocol had not been completed, or a person subject to an order issued under paragraph (7) revoking the approval of a device may, by petition filed on or before the 30th day after the date on which the person receives notice of the order, obtain review of the order in accordance with either paragraph (1) or (2) of subsection (g).

(g) REVIEW.—

(1) HEARING ON PETITION FOR REVIEW.—

(A) ORDERS PETITIONED FOR REVIEW.—The Secretary shall hold a hearing as described in subparagraph (B) on petition for review of—

(i) an order under subsection (d) approving or denying approval of an application or an order under subsection (e) withdrawing approval of an application; or

(ii) an order under subsection (f)(6)(A) revoking an approved protocol, under subsection (f)(6)(B) declaring that an approved protocol has not been completed, or under subsection (f)(7) revoking the approval of a device.

(B) REQUIRED HEARING.—On petition for review of any order described in subparagraph (A), the Secretary shall, unless the Secretary finds the petition to be without good cause or unless a petition for review of the order has been submitted under paragraph (2), hold a hearing, in accordance with section 554 of title 5, on the order.

(C) PANEL MEMBER DESIGNATED TO TESTIFY AT HEARING.—The panel or panels that considered the application, protocol, or device subject to the order shall designate a member to appear and testify at any hearing under subparagraph (B) on request of the Secretary, the petitioner, or the officer conducting the hearing, but this requirement does not preclude any other member of the panel or panels from appearing and testifying at any hearing under subparagraph (B).

(D) ISSUANCE OF ORDER AFTER HEARING.—On completion of the hearing and after considering the record established in the hearing, the Secretary shall issue an order affirming the order subject to the hearing or reversing the order and, as appropriate, approving or denying

approval of the application, reinstating the application's approval, approving the protocol, or placing in effect a notice of completion.

(2) REFERRAL ON PETITION FOR REVIEW.—

(A) IN GENERAL.—

(i) ORDERS SUBJECT TO REFERRAL.—The Secretary shall make the referral under clause (ii) on petition for review of—

(I) an order under subsection (d) approving or denying approval of an application or an order under subsection (e) withdrawing approval of an application; or

(II) an order under subsection (f)(6)(A) revoking an approved protocol, under subsection (f)(6)(B) declaring that an approved protocol has not been completed, or under subsection (f)(7) revoking the approval of a device.

(ii) REQUIRED REFERRAL.—On petition for review of any order under clause (i), the Secretary shall refer the application or protocol subject to the order and

the basis for the order to an advisory committee of experts established pursuant to subparagraph (B) for a report and recommendation with respect to the order.

(iii) REPORT AND RECOMMENDATION.—The advisory committee shall, after independent study of the data and information furnished to the advisory committee by the Secretary and other data and information before the advisory committee, submit to the Secretary a report and recommendation, together with all underlying data and information and a statement of the reasons or basis for the recommendation.

(iv) AVAILABILITY OF REPORT TO PETITIONER.—A copy of the report under clause (iii) shall be promptly supplied by the Secretary to any person that petitioned for the referral to the advisory committee.

(B) ADVISORY COMMITTEES.—

(i) ESTABLISHMENT.—The Secretary shall establish advisory committees (which may not be panels under section 13140 of

this title) to receive referrals under subparagraph (A).

(ii) QUALIFICATION OF MEMBERS; LIMITATION ON FEDERAL EMPLOYEES.—The Secretary shall appoint as members of any advisory committee under clause (i) individuals who are qualified in the subject matter to be referred to the advisory committee and who are of appropriately diversified professional backgrounds, except that the Secretary may not appoint to the advisory committee any individual who is in the regular full-time employ of the United States and engaged in the administration of this subtitle.

(iii) COMPENSATION AND TRAVEL EXPENSES RELATING TO CONFERENCES AND MEETINGS.—

(I) IN GENERAL.—Members of an advisory committee (other than officers or employees of the United States), while attending conferences or meetings of the advisory committee or otherwise serving at the request of the Secretary, shall be entitled to re-

ceive compensation at rates to be fixed by the Secretary, which rates may not exceed the daily equivalent for the maximum rate payable under section 5376 of title 5 for each day (including travel time) they are so engaged.

(II) SERVICE AWAY FROM HOME OR REGULAR PLACE OF BUSINESS.—While serving as described in subclause (I) away from the member's home or regular place of business, each member may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5 for individuals in the Government service employed intermittently.

(iv) CHAIRPERSON.—The Secretary shall designate the chairperson of an advisory committee from its members.

(v) PERSONNEL; PROCEDURES.—The Secretary shall furnish each advisory committee with clerical and other assistance, and shall by regulation prescribe the proce-

dures to be followed by each advisory committee in acting on referrals made under subparagraph (A).

(C) PUBLIC AVAILABILITY OF REPORT AND RECOMMENDATION; AFFIRMING OR REVERSING ORDER REFERRED TO ADVISORY COMMITTEE.—The Secretary shall make public the report and recommendation made by an advisory committee with respect to an application and shall, by order, stating the reasons for the order, either affirm the order referred to the advisory committee or reverse the order and, if appropriate, approve or deny approval of the application, reinstate the application's approval, approve the protocol, or place in effect a notice of completion.

(h) SERVICE OF ORDERS.—Orders of the Secretary under this section shall be served—

(1) in person by any officer or employee of the department designated by the Secretary; or

(2) by mailing the order by registered mail or certified mail addressed to the applicant at the applicant's last known address in the records of the Secretary.

(i) REVISION.—

(1) ORDER RELATING TO DEVICES INTRODUCED OR DELIVERED FOR INTRODUCTION INTO INTERSTATE COMMERCE BEFORE MAY 28, 1976.—

(A) IN GENERAL.—Before December 1, 1995, the Secretary shall, by order, require manufacturers of devices, which were introduced or delivered for introduction into interstate commerce for commercial distribution before May 28, 1976, and which are subject to revision of classification under paragraph (2), to submit to the Secretary a summary of and citation to any information known or otherwise available to the manufacturer respecting the devices, including adverse safety or effectiveness information that has not been submitted under section 13151 of this title.

(B) AUTHORITY TO REQUIRE SUBMISSION OF SAFETY AND EFFECTIVENESS DATA.—The Secretary may require the manufacturer to submit the adverse safety or effectiveness data for which a summary and citation were submitted, if the data are available to the manufacturer.

(2) ADMINISTRATIVE ORDER REVISING CLASSIFICATION.—

(A) ISSUANCE FOR EACH DEVICE.—After the issuance of an order under paragraph (1) but before the date that is 2 years after July 9, 2012, the Secretary shall issue an administrative order described in subparagraph (B) following publication of a proposed order in the Federal Register, a meeting of a device classification panel described in section 13140(d) of this title, and consideration of comments from all affected stakeholders, including patients, payors, and providers, notwithstanding subchapter II of chapter 5 of title 5, for each device—

(i) that the Secretary classified as a class III device; and

(ii) for which no administrative order was issued under subsection (b) (or no regulation was promulgated under subsection (b) prior to July 9, 2012).

(B) ADMINISTRATIVE ORDER.—An administrative order described in this subparagraph is an administrative order revising the classification of the device referred to in subparagraph (A) so that the device is classified in class I or class II, unless the administrative order issued

under this paragraph requires the device to remain in class III.

(C) APPLICATION OF CRITERIA IN DETERMINING WHETHER TO REVISE CLASSIFICATION.—In determining whether to revise the classification of a device or to require a device to remain in class III, the Secretary shall apply the criteria set forth in section 13140(c) of this title.

(3) SCHEDULE OF ISSUANCE OF ADMINISTRATIVE ORDER FOR DEVICES REQUIRED TO REMAIN IN CLASS III.—The Secretary shall, as promptly as is reasonably achievable, but not later than 12 months after the effective date of the order requiring a device to remain in class III, establish a schedule for the issuance of an administrative order under subsection (b) for each device that is subject to the order requiring the device to remain in class III.

**§ 13143. Pediatric uses of devices**

(a) DEFINITION OF PEDIATRIC SUBPOPULATION.—In this section, the term ''pediatric subpopulation'' has the meaning given the term in section 13152(m)(6)(A)(iii) of this title.

(b) NEW DEVICES.—

(1) IN GENERAL.—A person that submits to the Secretary an application under section 13152(m) of this title, or an application (or supplement to an application) or a product development protocol under section 13142 of this title, shall include in the application or protocol the information described in paragraph (2).

(2) REQUIRED INFORMATION.—The application or protocol described in paragraph (1) shall include, with respect to the device for which approval is sought and if readily available—

(A) a description of any pediatric subpopulations that suffer from the disease or condition that the device is intended to treat, diagnose, or cure; and

(B) the number of affected pediatric patients.

(3) ANNUAL REPORT.—

(A) IN GENERAL.—The Secretary shall annually submit to the Committee on Health, Education, Labor, and Pensions of the Senate and the Committee on Energy and Commerce of the House of Representatives a report that includes—

(i) the number of devices approved in the year preceding the year in which the report is submitted, for which there is a pediatric subpopulation that suffers from the disease or condition that the device is intended to treat, diagnose, or cure;

(ii) any information, based on a review of data available to the Secretary, regarding devices used in pediatric patients but not labeled for that use for which the Secretary determines that approved pediatric labeling could confer a benefit to pediatric patients;

(iii) the number of pediatric devices that receive a humanitarian use exemption under section 13152(m) of this title;

(iv) the number of devices approved in the year preceding the year in which the report is submitted, labeled for use in pediatric patients;

(v) the number of pediatric devices approved in the year preceding the year in which the report is submitted, exempted from a fee pursuant to section 17917(a)(2)(B)(v) of this title;

(vi) the review time for each device described in clauses (i), (iii), (iv), and (v);

(vii) the number of devices for which the Secretary relied on data with respect to adults to support a determination of a reasonable assurance of safety and effectiveness in pediatric patients; and

(viii) the number of devices for which the Secretary relied on data from 1 pediatric subpopulation to support a determination of a reasonable assurance of safety and effectiveness in another pediatric subpopulation.

(B) DISAGGREGATION OF NUMBER OF DEVICES BY PEDIATRIC SUBPOPULATION.—For the items described in this paragraph, the report shall disaggregate the number of devices by pediatric subpopulation.

(c) DETERMINATION OF PEDIATRIC EFFECTIVENESS BASED ON SIMILAR COURSE OF DISEASE OR CONDITION OR SIMILAR EFFECT OF DEVICE ON ADULTS.—

(1) IN GENERAL.—If the course of the disease or condition and the effects of the device are sufficiently similar in adults and pediatric patients, the Secretary may conclude that adult data may be used

to support a determination of a reasonable assurance of effectiveness in pediatric populations, as appropriate.

(2) EXTRAPOLATION BETWEEN SUBPOPULATIONS.—A study may not be needed in each pediatric subpopulation if data from 1 subpopulation can be extrapolated to another subpopulation.

**§ 13144. Breakthrough devices**

(a) PURPOSE.—The purpose of this section is to encourage the Secretary, and to provide the Secretary with sufficient authority, to apply efficient and flexible approaches to expedite the development of, and prioritize the FDA's review of, devices that represent breakthrough technologies.

(b) ESTABLISHMENT OF PROGRAM.—The Secretary shall establish a program to expedite the development of, and provide for the priority review for, devices, as determined by the Secretary—

(1) that provide for more effective treatment or diagnosis of life-threatening or irreversibly debilitating human disease or conditions; and

(2)(A) that represent breakthrough technologies;

(B) for which no approved or cleared alternatives exist;

(C) that offer significant advantages over existing approved or cleared alternatives, including the potential, compared to existing approved alternatives, to reduce or eliminate the need for hospitalization, improve patient quality of life, facilitate patients' ability to manage their own care (such as through self-directed personal assistance), or establish long-term clinical efficiencies; or

(D) the availability of which is in the best interest of patients.

(c) REQUEST FOR DESIGNATION.—A sponsor of a device may request that the Secretary designate a device described in subsection (b) for expedited development and priority review under this section. The request for designation may be made at any time prior to the submission of an application under section 13142(c) of this title, a notification under section 13136(k) of this title, or a petition for classification under section 13140(h)(2) of this title.

(d) DESIGNATION PROCESS.—

(1) IN GENERAL.—Not later than 60 calendar days after the receipt of a request under subsection (c), the Secretary shall determine whether the device that is the subject of the request meets the criteria described in subsection (b). If the Secretary determines that the device meets the criteria, the Sec-

retary shall designate the device for expedited development and priority review.

(2) REVIEW.—Review of a request under subsection (c) shall be undertaken by a team that is composed of experienced staff and senior managers of the FDA.

(3) WITHDRAWAL.—The Secretary may not withdraw a designation granted under this section on the basis of the criteria under subsection (b) no longer applying because of the subsequent clearance or approval of another device that—

(A) was designated under this section; or

(B) was given priority review under section 13142(d)(5) of this title, as in effect prior to December 13, 2016.

(e) EXPEDITED DEVELOPMENT AND PRIORITY REVIEW.—

(1) ACTIONS.—For purposes of expediting the development and review of devices designated under subsection (d), the Secretary shall—

(A) assign a team of staff, including a team leader with appropriate subject matter expertise and experience, for each device for which a request is submitted under subsection (c);

(B) provide for oversight of the team by senior agency personnel to facilitate the efficient development of the device and the efficient review of any submission described in subsection (c) for the device;

(C) adopt an efficient process for timely dispute resolution;

(D) provide for interactive and timely communication with the sponsor of the device during the development program and review process;

(E) expedite the Secretary's review of manufacturing and quality systems compliance, as applicable;

(F) disclose to the sponsor, not less than 5 business days in advance, the topics of any consultation the Secretary intends to undertake with external experts or an advisory committee concerning the sponsor's device and provide the sponsor the opportunity to recommend the external experts;

(G) provide for advisory committee input, as the Secretary determines appropriate (including in response to the request of the spon-

sor) for applications submitted under section 13142(c) of this title; and

(H) assign staff to be available within a reasonable time to address questions by institutional review committees concerning the conditions and clinical testing requirements applicable to the investigational use of the device pursuant to an exemption under section 13152(g) of this title.

(2) ADDITIONAL ACTIONS.—In addition to the actions described in paragraph (1), for purposes of expediting the development and review of devices designated under subsection (d), the Secretary, in collaboration with the device sponsor, may, as appropriate—

(A) coordinate with the sponsor regarding early agreement on a data development plan;

(B) take steps to ensure that the design of clinical trials is as efficient and flexible as practicable, when scientifically appropriate;

(C) facilitate, when scientifically appropriate, expedited and efficient development and review of the device through utilization of timely postmarket data collection with regard to ap-

plication for approval under section 13142(c) of this title; and

(D) agree in writing to clinical protocols that the Secretary will consider binding on the Secretary and the sponsor, subject to—

(i) changes to the protocols agreed to in writing by the sponsor and the Secretary; or

(ii) a decision, made by the director of the office responsible for reviewing the device submission, that a substantial scientific issue essential to determining the safety or effectiveness of the device exists, provided that the decision is in writing, and is made only after the Secretary provides to the device sponsor or applicant an opportunity for a meeting at which the director and the sponsor or applicant are present and at which the director documents the substantial scientific issue.

(f) PRIORITY REVIEW GUIDANCE.—

(1) CONTENT.—Not later than 1 year after December 13, 2016, the Secretary shall issue guidance on the implementation of this section. The guidance shall—

(A) set forth the process by which a person may seek a designation under subsection (d);

(B) provide a template for requests under subsection (c);

(C) identify the criteria the Secretary will use in evaluating a request for designation under this section; and

(D) identify the criteria and processes the Secretary will use to assign a team of staff, including team leaders, to review devices designated for expedited development and priority review, including any training required for the personnel to ensure effective and efficient review.

(2) PROCESS.—Prior to finalizing the guidance under paragraph (1), the Secretary shall seek public comment on a draft version of that guidance.

(g) RULE OF CONSTRUCTION.—Nothing in this section shall be construed to affect—

(1) the criteria and standards for evaluating an application pursuant to section 13142(c) of this title, a report and request for classification under section 13140(h)(2) of this title, or a report under section 13136(k) of this title, including the recognition of valid scientific evidence as described in sec-

tion 13140(c)(4)(B) of this title and consideration and application of the least burdensome means of evaluating device effectiveness or demonstrating substantial equivalence between devices with differing technological characteristics, as applicable;

(2) the authority of the Secretary with respect to clinical holds under section 13152(g)(8)(A) of this title;

(3) the authority of the Secretary to act on an application pursuant to section 13142(d) of this title before completion of an establishment inspection, as the Secretary determines appropriate; or

(4) the authority of the Secretary with respect to postmarket surveillance under sections 13151(g) and 13154 of this title.

**§ 13145. Predetermined change control plans for devices**

(a) APPROVED DEVICES.—

(1) IN GENERAL.—Notwithstanding section 13142(d)(5)(A) of this title, a supplemental application shall not be required for a change to a device approved under section 13142 of this title, if the change is consistent with a predetermined change control plan that is approved pursuant to paragraph (2).

(2) PREDETERMINED CHANGE CONTROL PLAN.—The Secretary may approve a predetermined change control plan submitted in an application, including a supplemental application, under section 13142 of this title that describes planned changes that may be made to the device (and that would otherwise require a supplemental application under section 13142 of this title), if the device remains safe and effective without any change.

(3) SCOPE.—The Secretary may require that a change control plan include labeling required for safe and effective use of the device as the device changes pursuant to the plan, notification requirements if the device does not function as intended pursuant to the plan, and performance requirements for changes made under the plan.

(b) CLEARED DEVICES.—

(1) IN GENERAL.—Notwithstanding section 13136(k) of this title, a premarket notification shall not be required for a change to a device cleared under section 13136(k) of this title, if the change is consistent with an established predetermined change control plan granted pursuant to paragraph (2).

(2) PREDETERMINED CHANGE CONTROL PLAN.—The Secretary may clear a predetermined

change control plan submitted in a notification submitted under section 13136(k) of this title that describes planned changes that may be made to the device (and that would otherwise require a new notification), if—

(A) the device remains safe and effective without any of those planned changes; and

(B) the device would remain substantially equivalent to the predicate.

(3) SCOPE.—The Secretary may require that a change control plan include labeling required for safe and effective use of the device as the device changes pursuant to the plan, notification requirements if the device does not function as intended pursuant to the plan, and performance requirements for changes made under the plan.

(c) PREDICATE DEVICES.—In making a determination of substantial equivalence pursuant to section 13140(b) of this title, the Secretary shall not compare a device to changed versions of a device implemented in accordance with an established predetermined change control plan as a predicate device. Only the version of the device cleared or approved, prior to changes made under the predetermined change control plan, may be used by a sponsor as a predicate device.

**§ 13146. Banned devices**

(a) IN GENERAL.—

(1) FINDINGS BY SECRETARY.—The Secretary may act as described in paragraph (2) whenever the Secretary finds, on the basis of all available data and information, that—

(A) a device intended for human use presents substantial deception or an unreasonable and substantial risk of illness or injury for 1 or more intended uses; and

(B) in the case of substantial deception or an unreasonable and substantial risk of illness or injury that the Secretary determined could be corrected or eliminated by labeling or a change in labeling and with respect to which the Secretary provided written notice to the manufacturer specifying the deception or risk of illness or injury, the labeling or change in labeling to correct the deception or eliminate or reduce the risk, and the period within which the labeling or change in labeling was to be done, the labeling or change in labeling was not done within the period.

(2) ACTION BY SECRETARY.—

(A) IN GENERAL.—Whenever the Secretary makes the findings described in paragraph (1),

the Secretary may initiate a proceeding to promulgate a regulation to make the device a banned device or to make the intended use or uses a banned intended use or uses.

(B) NOT A LEGALLY MARKETED DEVICE.—A device that is banned for 1 or more intended uses is not a legally marketed device under section 10323 of this title when intended for those uses.

(b) SPECIAL EFFECTIVE DATE.—

(1) IN GENERAL.—The Secretary may declare a proposed regulation under subsection (a) to be effective on its publication in the Federal Register and until the effective date of any final action taken respecting the regulation if—

(A) the Secretary determines, on the basis of all available data and information, that the deception or risk of illness or injury associated with the use of the device that is subject to the regulation presents an unreasonable, direct, and substantial danger to the health of individuals; and

(B) before the date of the publication of the regulation, the Secretary notifies the manufacturer of the device that the regulation is to

be made effective as described in this paragraph.

(2) CONDITIONS.—If the Secretary makes a proposed regulation effective as described in paragraph (1), the Secretary shall, as expeditiously as possible, give interested persons prompt notice of the Secretary's action under this subsection, provide reasonable opportunity for an informal hearing on the proposed regulation, and affirm, modify, or revoke the proposed regulation.

**§ 13147. Judicial review**

(a) DEFINITION OF RECORD.—In this section, the term ''record'' means all notices and other matter published in the Federal Register with respect to the regulation or order reviewed, all information submitted to the Secretary with respect to the regulation or order, proceedings of any panel or advisory committee with respect to the regulation or order, any hearing held with respect to the regulation or order, and any other information identified by the Secretary, in the administrative proceeding held with respect to the regulation or order, as being relevant to the regulation or order.

(b) PETITION.—

(1) IN GENERAL.—

(A) TIMEFRAME.—A person described in subparagraph (B) may file a petition as described in subparagraph (B) not later than 30 days after—

(i) the promulgation of a regulation under section 13140 of this title classifying a device in class I, an administrative order changing the classification of a device to class I, or an order under section 13140(h)(2) of this title reclassifying a device or denying a petition for reclassification of a device;

(ii) the promulgation of a regulation under section 13141 of this title establishing, amending, or revoking a performance standard for a device;

(iii) the issuance of an order under section 13141(b)(2) of this title denying a request for reclassification of a device;

(iv) the issuance of an order under section 13142(b)(3) of this title requiring a device to have an approval of a premarket application or an order pursuant to paragraph (1) or (2)(C) of section 13142(g) of this title;

(v) the promulgation of a regulation under section 13146 of this title (other than a proposed regulation made effective under subsection (b) of that section on the regulation's publication) making a device a banned device;

(vi) the issuance of an order under section 13152(f)(2) of this title;

(vii) an order under section 13152(g)(4) of this title disapproving an application for an exemption of a device for investigational use or an order under section 13152(g)(5) of this title withdrawing such an exemption for a device;

(viii) an order pursuant to section 13140(b) of this title; or

(ix) a regulation under section 13142(i)(2) or 13152(l)(4)(B) of this title.

(B) FILING.—Any person adversely affected by a regulation or order described in subparagraph (A) may file a petition with the United States Court of Appeals for the District of Columbia or for the circuit in which the person resides or in which the person's principal

place of business is located for judicial review of the regulation or order.

(2) TRANSMISSION BY CLERK.—A copy of the petition shall be transmitted by the clerk of the court to the Secretary or other officer designated by the Secretary for that purpose.

(3) FILING OF RECORD.—The Secretary shall file in the court the record of the proceedings on which the Secretary based the Secretary's regulation or order as provided in section 2112 of title 28.

(c) ADDITIONAL DATA, VIEWS, AND ARGUMENTS.—

(1) IN GENERAL.—If the petitioner applies to the court for leave to adduce additional data, views, or arguments respecting the regulation or order being reviewed and shows to the satisfaction of the court that the additional data, views, or arguments are material and that there were reasonable grounds for the petitioner's failure to adduce the data, views, or arguments in the proceedings before the Secretary, the court may order the Secretary to provide additional opportunity for the oral presentation of data, views, or arguments and for written submissions.

(2) MODIFICATION OF FINDINGS; MAKING NEW FINDINGS.—The Secretary may modify the Sec-

retary's findings, or make new findings by reason of the additional data, views, or arguments taken under paragraph (1) and shall file with the court the modified or new findings, and the Secretary's recommendation, if any, for the modification or setting aside of the regulation or order being reviewed, with the return of the additional data, views, or arguments.

(d) STANDARD FOR REVIEW.—On the filing of the petition under subsection (b) for judicial review of a regulation or order, the court shall have jurisdiction to review the regulation or order in accordance with chapter 7 of title 5 and to grant appropriate relief, including interim relief, as provided in chapter 7 of title 5. A regulation described in clause (ii) or (v) of subsection (b)(1)(A) or an order issued after the review provided by section 13142(g) of this title shall not be affirmed if it is found to be unsupported by substantial evidence on the record taken as a whole.

(e) FINALITY OF JUDGMENTS.—The judgment of the court affirming or setting aside, in whole or in part, any regulation or order shall be final, subject to review by the Supreme Court of the United States on certiorari or certification, as provided in section 1254 of title 28.

(f) REMEDIES.—The remedies provided for in this section shall be in addition to and not in lieu of any other remedies provided by law.

(g) STATEMENT OF REASONS.—To facilitate judicial review under this section or under any other provision of law of a regulation or order issued under section 13140, 13141, 13142, 13146, 13149, 13151, 13152, or 13153 of this title, each of those regulations or orders shall contain a statement of the reasons for its issuance and the basis, in the record of the proceedings held in connection with its issuance, for its issuance.

**§ 13148. Agency documentation and review of significant decisions regarding devices**

(a) DOCUMENTATION OF RATIONALE FOR SIGNIFICANT DECISIONS.—

(1) IN GENERAL.—The Secretary shall provide a substantive summary of the scientific and regulatory rationale for any significant decision of the Center for Devices and Radiological Health regarding submission or review of a report under section 13136(k) of this title, a petition for classification under section 13140(h) of this title, an application under section 13142 of this title, or an application for an exemption under section 13152(g) of this title, including documentation of significant con-

troversies or differences of opinion and the resolution of the controversies or differences of opinion.

(2) PROVISION OF DOCUMENTATION.—On request, the Secretary shall furnish the substantive summary to the person that is seeking to submit, or that has submitted, the report or application.

(3) APPLICATION OF LEAST BURDENSOME REQUIREMENTS.—The substantive summary required under this subsection shall include a brief statement regarding how the least burdensome requirements were considered and applied consistent with subsections (b)(1)(D) and (c)(4)(D) of section 13140 of this title and section 13142(c)(5) of this title, as applicable.

(b) REVIEW OF SIGNIFICANT DECISIONS.—

(1) REQUEST FOR SUPERVISORY REVIEW OF SIGNIFICANT DECISION.—Any person may request a supervisory review of the significant decision described in subsection (a)(1). The review may be conducted at the next supervisory level or higher above the individual who made the significant decision.

(2) SUBMISSION OF REQUEST.—A person requesting a supervisory review under paragraph (1) shall submit the request to the Secretary not later than 30 days after the decision and shall indicate in

the request whether the person seeks an in-person meeting or a teleconference review.

(3) TIMEFRAME.—

(A) IN GENERAL.—Except as provided in subparagraph (B), the Secretary shall schedule an in-person or teleconference review, if so requested, not later than 30 days after the request is made. The Secretary shall issue a decision to the person requesting a review under this subsection not later than 45 days after the request is made under paragraph (1), or, in the case of a person that requests an in-person meeting or teleconference, 30 days after the meeting or teleconference.

(B) EXCEPTION.—Subparagraph (A) shall not apply in cases that are referred to experts outside of the FDA.

**§ 13149. Notification and other remedies**

(a) NOTIFICATION.—

(1) IN GENERAL.—The Secretary may issue such order as may be necessary to ensure that adequate notification is provided in an appropriate form, by the persons and means best suited under the circumstances involved, to all health professionals who prescribe or use a device and to any

other person (including manufacturers, importers, distributors, retailers, and device users) that should properly receive the notification in order to eliminate the risk described in subparagraph (A), if the Secretary determines that—

(A) the device, which is intended for human use, and which is introduced or delivered for introduction into interstate commerce for commercial distribution, presents an unreasonable risk of substantial harm to the public health; and

(B) notification under this subsection is necessary to eliminate the unreasonable risk of substantial harm and no more practicable means is available under this subtitle (other than this section) to eliminate the risk.

(2) INDIVIDUALS AT RISK.—An order under this subsection shall require that the individuals subject to the risk with respect to which the order is to be issued be included in the persons to be notified of the risk unless the Secretary determines that notice to the individuals would present a greater danger to the health of the individuals than no such notification.

(3) HEALTH PROFESSIONALS.—If the Secretary makes a determination under paragraph (2) with respect to individuals described in paragraph (2), the order shall require that the health professionals who prescribe or use the device provide for the notification of the individuals whom the health professionals treated with the device of the risk presented by the device and of any action that may be taken by or on behalf of the individuals to eliminate or reduce the risk.

(4) CONSULTATION WITH PERSONS TO GIVE NOTICE.—Before issuing an order under this subsection, the Secretary shall consult with the persons that are to give notice under the order.

(b) REPAIR, REPLACEMENT, OR REFUND.—

(1) PLAN.—

(A) ORDER TO SUBMIT A PLAN.—

(i) IN GENERAL.—The Secretary may order the manufacturer, importer, or any distributor of a device, or any combination of those persons, to submit to the Secretary, within a reasonable time, a plan for taking 1 or more of the actions described in paragraph (2) if, after affording oppor-

tunity for an informal hearing, the Secretary determines that—

(I) the device, which is intended for human use and which is introduced or delivered for introduction into interstate commerce for commercial distribution, presents an unreasonable risk of substantial harm to the public health;

(II) there are reasonable grounds to believe that the device was not properly designed or manufactured with reference to the state of the art as it existed at the time of its design or manufacture;

(III) there are reasonable grounds to believe that the unreasonable risk was not caused by failure of a person other than a manufacturer, importer, distributor, or retailer of the device to exercise due care in the installation, maintenance, repair, or use of the device; and

(IV) the notification authorized by subsection (a) would not by itself

be sufficient to eliminate the unreasonable risk and action described in paragraph (2) is necessary to eliminate the risk.

(ii) SPECIFICATION OF RESPONSIBILITIES IN ORDERS DIRECTED TO MORE THAN 1 PERSON.—An order issued under clause (i) that is directed to more than 1 person shall specify which person may decide which action shall be taken under the plan and the person specified shall be the person that the Secretary determines bears the principal, ultimate financial responsibility for action taken under the plan unless the Secretary cannot determine who bears the responsibility or the Secretary determines that the protection of the public health requires that the decision be made by a person (including a device user or health professional) other than the person the Secretary determines bears the responsibility.

(B) APPROVAL OR DISAPPROVAL OF PLAN.—

(i) IN GENERAL.—The Secretary shall approve a plan submitted pursuant to an order issued under subparagraph (A) unless the Secretary determines (after affording opportunity for an informal hearing) that the action or actions to be taken under the plan or the manner in which the action or actions are to be taken under the plan will not ensure that the unreasonable risk with respect to which the order was issued will be eliminated.

(ii) DISAPPROVAL.—

(I) REVISED PLAN.—If the Secretary disapproves a plan, the Secretary shall order a revised plan to be submitted to the Secretary within a reasonable time.

(II) REVISED PLAN UNSATISFACTORY OR NOT SUBMITTED.—If the Secretary determines (after affording opportunity for an informal hearing) that the revised plan is unsatisfactory or if no revised plan or no initial plan has been submitted to the Secretary

within the prescribed time, the Secretary shall—

(aa) prescribe a plan to be carried out by the person or persons to whom the order issued under subparagraph (A) was directed; or

(bb) after affording an opportunity for an informal hearing, by order, prescribe a plan to be carried out by a person that is a manufacturer, importer, distributor, or retailer of the device with respect to which the order was issued but to whom the order under subparagraph (A) was not directed.

(2) ACTIONS AUTHORIZED UNDER PLAN.—The actions that may be taken under a plan submitted under an order issued under paragraph (1) are as follows:

(A) To repair the device so that the device does not present the unreasonable risk of substantial harm with respect to which the order under paragraph (1) was issued.

(B) To replace the device with a like or equivalent device that is in conformity with all applicable requirements of this subtitle.

(C) To refund the purchase price of the device (less a reasonable allowance for use if the device has been in the possession of the device user for 1 year or more at the time of notification ordered under subsection (a) or at the time the device user receives actual notice of the unreasonable risk with respect to which the order was issued under paragraph (1), whichever first occurs).

(3) AVAILING OF REMEDIES.—No charge shall be made to any person (other than a manufacturer, importer, distributor, or retailer) for availing itself or one's self of any remedy, described in paragraph (2) and provided under an order issued under paragraph (1), and the person subject to the order shall reimburse each person (other than a manufacturer, importer, distributor, or retailer) that is entitled to such a remedy for any reasonable and foreseeable expenses actually incurred by the person in availing itself or one's self of the remedy.

(c) REIMBURSEMENT.—An order issued under subsection (b) with respect to a device may require any person

that is a manufacturer, importer, distributor, or retailer of the device to reimburse any other person that is a manufacturer, importer, distributor, or retailer of the device for that other person's expenses actually incurred in connection with carrying out the order if the Secretary determines that the reimbursement is required for the protection of the public health. The requirement to reimburse shall not affect any rights or obligations under any contract to which the person receiving reimbursement or the person making the reimbursement is a party.

(d) EFFECT ON OTHER LIABILITY.—Compliance with an order issued under this section shall not relieve any person from liability under Federal or State law. In awarding damages for economic loss in an action brought for the enforcement of any such liability, the value to the plaintiff in the action of any remedy provided to the plaintiff under the order shall be taken into account.

(e) RECALL AUTHORITY.—

(1) ORDER TO CEASE DISTRIBUTION.—

(A) IN GENERAL.—If the Secretary finds that there is a reasonable probability that a device intended for human use would cause serious, adverse health consequences or death, the Secretary shall issue an order requiring the appropriate person (including the manufacturers,

importers, distributors, or retailers of the device)—

(i) to immediately cease distribution of the device; and

(ii) to immediately notify health professionals and device user facilities of the order and to instruct the health professionals and device user facilities to cease use of the device.

(B) HEARING.—The order shall provide the person subject to the order with an opportunity for an informal hearing, to be held not later than 10 days after the date of the issuance of the order, on the actions required by the order and on whether the order should be amended to require a recall of the device.

(C) INADEQUATE GROUNDS; VACATING OF AN ORDER.—If, after providing an opportunity for a hearing under subparagraph (B), the Secretary determines that inadequate grounds exist to support the actions required by the order, the Secretary shall vacate the order.

(2) AMENDING AN ORDER TO INCLUDE RECALL.—

(A) IN GENERAL.—If, after providing an opportunity for an informal hearing under paragraph (1), the Secretary determines that the order should be amended to include a recall of the device with respect to which the order was issued, the Secretary shall, except as provided in subclauses (I) and (II) of subparagraph (B)(i), amend the order to require a recall. The Secretary shall specify a timetable in which the device recall will occur and shall require periodic reports to the Secretary describing the progress of the recall.

(B) CONTENTS OF AMENDED ORDER.—An amended order under subparagraph (A)—

(i) shall—

(I) not include recall of a device from individuals; and

(II) not include recall of a device from device user facilities if the Secretary determines that the risk of recalling the device from the device user facilities presents a greater health risk than the health risk of not recalling the device from use; and

(ii) shall provide for notice to individuals subject to the risks associated with the use of the device.

(C) NOTICE TO INDIVIDUALS.—In providing the notice required by subparagraph (B)(ii), the Secretary may use the assistance of health professionals who prescribed or used such a device for individuals. If a significant number of the individuals cannot be identified, the Secretary shall notify the individuals pursuant to section 17505(b) of this title.

(3) RECALL AS ADDITIONAL REMEDY.—The remedy provided by this subsection shall be in addition to remedies provided by subsections (a), (b), and (c).

**§ 13150. Program to improve the device recall system**

(a) DEFINITION OF RECALL.—In this section, the term ''recall'' means—

(1) the removal from the market of a device pursuant to an order of the Secretary under subsection (b) or (e) of section 13149 of this title; or

(2) the correction or removal from the market of a device at the initiative of the manufacturer or importer of the device that is required to be reported to the Secretary under section 13151(f) of this title.

(b) IN GENERAL.—The Secretary shall—

(1) establish a program to routinely and systematically assess information relating to device recalls and use the information to proactively identify strategies for mitigating health risks presented by defective or unsafe devices;

(2) clarify procedures for conducting device recall audit checks to improve the ability of investigators to perform those checks in a consistent manner;

(3) develop detailed criteria for assessing whether a person performing a device recall has performed an effective correction or action plan for the recall; and

(4) document the basis for each termination by the FDA of a device recall.

(c) ASSESSMENT CONTENT.—The program established under subsection (b)(1) shall, at a minimum, identify—

(1) trends in the number and types of device recalls;

(2) devices that are most frequently the subject of a recall; and

(3) underlying causes of device recalls.

**§ 13151. Records and reports on devices**

(a) IN GENERAL.—

(1) REGULATIONS.—Each person that is a manufacturer or importer of a device intended for human use shall establish and maintain such records, make such reports, and provide such information, as the Secretary may by regulation reasonably require to ensure that the device is not adulterated or misbranded and to otherwise ensure its safety and effectiveness. Regulations prescribed under this paragraph—

(A) shall require a device manufacturer or importer to report to the Secretary whenever the manufacturer or importer receives or otherwise becomes aware of information that reasonably suggests that one of its marketed devices—

(i) may have caused or contributed to a death or serious injury; or

(ii) has malfunctioned and that the device or a similar device marketed by the manufacturer or importer would be likely to cause or contribute to a death or serious injury if the malfunction were to recur, which report under this clause—

(I) shall be submitted in accordance with part 803 of title 21, Code

of Federal Regulations (or successor regulations), unless the Secretary grants an exemption or variance from, or an alternative to, a requirement under the regulations pursuant to section 803.19 of title 21, Code of Federal Regulations (or successor regulations), if the device involved is—

(aa) a class III device;

(bb) a class II device that is permanently implantable, is life supporting, or is life sustaining; or

(cc) a type of device that the Secretary has, by notice published in the Federal Register or letter to the person that is the manufacturer or importer of the device, indicated should be subject to part 803 of title 21, Code of Federal Regulations (or successor regulations), in order to protect the public health;

(II) shall, if the device is not subject to subclause (I), be submitted in

accordance with criteria established by the Secretary for reports made pursuant to this subclause, which criteria shall require the reports to be in summary form and made on a quarterly basis; or

(III) shall, if the device is imported into the United States and for which part 803 of title 21, Code of Federal Regulations (or successor regulations) requires an importer to submit a report to the manufacturer, be submitted by the importer to the manufacturer in accordance with part 803 of title 21, Code of Federal Regulations (or successor regulations);

(B) shall define the term ''serious injury'' to mean an injury that—

(i) is life threatening;

(ii) results in permanent impairment of a body function or permanent damage to a body structure; or

(iii) necessitates medical or surgical intervention to preclude permanent impair-

ment of a body function or permanent damage to a body structure;

(C) shall require reporting of other significant adverse device experiences as determined by the Secretary to be necessary to be reported;

(D) shall not impose requirements unduly burdensome to a device manufacturer or importer taking into account the manufacturer's or importer's cost of complying with the requirements and the need for the protection of the public health and the implementation of this subtitle;

(E) that prescribe the procedure for making requests for reports or information shall require that each request made under the regulations for submission of a report or information to the Secretary state the reason or purpose for the request and identify to the fullest extent practicable the report or information;

(F) that require submission of a report or information to the Secretary shall state the reason or purpose for the submission of the report or information and identify to the fullest extent practicable the report or information;

(G) may not require that the identity of any patient be disclosed in records, reports, or information required under this subsection unless required for the medical welfare of an individual, to determine the safety or effectiveness of a device, or to verify a record, report, or information submitted under this subtitle; and

(H) may not require a manufacturer or importer of a class I device—

(i) to maintain for the class I device records respecting information not in the possession of the manufacturer or importer; or

(ii) to submit for the class I device to the Secretary any report or information, unless the report or information is necessary to determine if the device should be reclassified or if the device is adulterated or misbranded, which report or information—

(I) is not in the possession of the manufacturer or importer; or

(II) is submitted on a periodic basis.

(2) CONSIDERATION OF PROFESSIONAL ETHICS.—In prescribing regulations under paragraph (1), the Secretary shall have due regard for the professional ethics of the medical profession and the interests of patients.

(3) CONTINUED PROTECTION OF PATIENT IDENTITY.—The prohibitions of paragraph (1)(G) continue to apply to records, reports, and information concerning any individual who has been a patient, irrespective of whether or when the individual ceases to be a patient.

(4) AVAILABILITY OF DISTRIBUTOR RECORDS ON SECRETARY'S REQUEST.—The Secretary shall by regulation require distributors to keep records and make the records available to the Secretary upon request.

(5) APPLICABILITY OF CERTAIN PROVISIONS TO DISTRIBUTORS.—Subparagraphs (D) and (H) of paragraph (1) apply to distributors to the same extent and in the same manner as the subparagraphs apply to manufacturers and importers.

(b) USER REPORTS.—

(1) DEFINITIONS.—In this subsection:

(A) DEVICE USER FACILITY.—

(i) IN GENERAL.—The term ''device user facility'' means a hospital, ambulatory surgical facility, nursing home, or outpatient treatment facility that is not a physician's office.

(ii) INCLUSION.—The Secretary may by regulation include in the term an outpatient diagnostic facility that is not a physician's office.

(B) SERIOUS ILLNESS.—The term ''serious illness'' means illness that—

(i) is life threatening;

(ii) results in permanent impairment of a body function or permanent damage to a body structure; or

(iii) necessitates medical or surgical intervention to preclude permanent impairment of a body function or permanent damage to a body structure.

(C) SERIOUS INJURY.—The term ''serious injury'' means injury that—

(i) is life threatening;

(ii) results in permanent impairment of a body function or permanent damage to a body structure; or

(iii) necessitates medical or surgical intervention to preclude permanent impairment of a body function or permanent damage to a body structure.

(2) IN GENERAL.—

(A) DEATH.—Whenever a device user facility receives or otherwise becomes aware of information that reasonably suggests that a device has or may have caused or contributed to the death of a patient of the device user facility, the device user facility shall, as soon as practicable but not later than 10 working days after becoming aware of the information, report the information to the Secretary and, if the identity of the manufacturer is known, to the manufacturer of the device. In the case of deaths, the Secretary may by regulation prescribe a shorter period for the reporting of the information.

(B) SERIOUS ILLNESS OR SERIOUS INJURY; SIGNIFICANT ADVERSE DEVICE EXPERIENCE.—A device user facility shall, as soon as practicable but not later than 10 working days after becoming aware of information or experience described in clause (i) or (ii), respectively, report the information or experience to the

manufacturer of a device or to the Secretary if the identity of the manufacturer is not known, whenever the device user facility receives or otherwise becomes aware of—

(i) information that reasonably suggests that the device has or may have caused or contributed to the serious illness of, or serious injury to, a patient of the device user facility; or

(ii) any other significant adverse device experience as determined by the Secretary by regulation to be necessary to be reported.

(C) SUMMARY OF REPORTS.—

(i) SUBMISSION.—Each device user facility shall submit to the Secretary on an annual basis a summary of the reports made under subparagraphs (A) and (B). The summary shall be submitted on January 1 of each year.

(ii) FORMAT AND CONTENTS.—The summary shall be in such form and contain such information from the reports as the Secretary may require and shall include—

(I) sufficient information to identify the device user facility that made the reports for which the summary is submitted;

(II) in the case of any product that was the subject of a report, the product name, serial number, and model number;

(III) the name and the address of the manufacturer of the device; and

(IV) a brief description of the event reported to the manufacturer.

(D) IMPUTED KNOWLEDGE.—For purposes of subparagraphs (A), (B), and (C), a device user facility shall be treated as having received or otherwise become aware of information with respect to a device of that device user facility when medical personnel who are employed by or otherwise formally affiliated with the device user facility receive or otherwise become aware of information with respect to that device in the course of their duties.

(3) NONDISCLOSURE OF IDENTITY OF REPORTING DEVICE USER FACILITY.—

(A) IN GENERAL.—The Secretary may not disclose the identity of a device user facility that makes a report under paragraph (2) except in connection with—

(i) an action brought to enforce section 10501(16) of this title; or

(ii) a communication to a manufacturer of a device that is the subject of a report under paragraph (2).

(B) EFFECT OF PARAGRAPH ON SECRETARY DISCLOSURE TO AGENCIES AND CONGRESS.—This paragraph does not prohibit the Secretary from disclosing the identity of a device user facility making a report under paragraph (2) or any information in the report to employees of the Department, to the Department of Justice, or to the authorized committees and subcommittees of Congress.

(4) ADMISSIBILITY OF REPORTS IN PRIVATE ACTIONS.—A report made under paragraph (2) by a device user facility, an individual who is employed by or otherwise formally affiliated with a device user facility, or a physician who is not required to make such a report shall not be admissible into evidence or otherwise used in any civil action involving private

parties unless the device user facility, individual, or physician who made the report had knowledge of the falsity of the information contained in the report.

(5) EFFECT OF USER REPORTS ON MANUFACTURER REPORTS.—A report made under paragraph (2) does not affect any obligation of a manufacturer that receives the report to file a report as required under subsection (a).

(6) PROGRAM THAT LIMITS USER REPORTING TO A SUBSET OF DEVICE USER FACILITIES.—With respect to device user facilities:

(A) IN GENERAL.—The Secretary shall by regulation plan and implement a program under which the Secretary limits user reporting under paragraphs (2) through (5) to a subset of device user facilities that constitutes a representative profile of user reports for device deaths and serious illnesses or serious injuries.

(B) PERIOD OF PLANNING.—During the period of planning the program under subparagraph (A), paragraphs (2) through (5) continue to apply.

(C) TRANSITION.—During the period in which the Secretary is providing for a transition to the full implementation of the program,

paragraphs (2) through (5) apply except to the extent that the Secretary determines otherwise.

(D) FULL IMPLEMENTATION.—On and after the date on which the program is fully implemented, paragraphs (2) through (5) do not apply to a device user facility unless the device user facility is included in the subset referred to in subparagraph (A).

(c) PERSONS EXEMPT.—Subsection (a) shall not apply to—

(1) any practitioner who is licensed by law to prescribe or administer devices intended for use in humans and who manufactures or imports devices solely for use in the course of the practitioner's professional practice;

(2) any person that manufactures or imports devices intended for use in humans solely for the person's use in research or teaching and not for sale (including any person that uses a device under an exemption granted under section 13152(g) of this title); and

(3) any other class of persons as the Secretary may by regulation exempt from subsection (a) on a finding that compliance with the requirements of

subsection (a) by the class with respect to a device is not necessary to—

(A) ensure that a device is not adulterated or misbranded; or

(B) otherwise to ensure its safety and effectiveness.

(d) DEVICE TRACKING.—

(1) IN GENERAL.—The Secretary may by order require a manufacturer to adopt a method of tracking a class II or class III device—

(A) the failure of which would be reasonably likely to have serious adverse health consequences; or

(B) that is—

(i) intended to be implanted in the human body for more than 1 year; or

(ii) a life sustaining or life supporting device used outside a device user facility.

(2) REFUSAL BY PATIENT TO RELEASE PERSONAL INFORMATION.—Any patient receiving a device subject to tracking under paragraph (1) may refuse to release, or refuse permission to release, the patient's name, address, social security number, or other identifying information for the purpose of tracking.

(e) UNIQUE DEVICE IDENTIFICATION SYSTEM.—The Secretary shall issue regulations establishing a unique device identification system for medical devices requiring the label of devices to bear a unique identifier, unless the Secretary requires an alternative placement or provides an exception for a particular device or type of device. The unique identifier shall adequately identify the device through distribution and use, and may include information on the lot or serial number.

(f) REPORTS OF REMOVALS AND CORRECTIONS.—

(1) IN GENERAL.—

(A) PROMPT REPORTING.—Except as provided in paragraph (2), the Secretary shall by regulation require a manufacturer or importer of a device to report promptly to the Secretary any correction or removal of a device undertaken by the manufacturer or importer if the removal or correction was undertaken—

(i) to reduce a risk to health posed by the device; or

(ii) to remedy a violation of this subtitle caused by the device, which violation may present a risk to health.

(B) KEEPING RECORDS.—A manufacturer or importer of a device that undertakes a cor-

rection or removal of a device that is not required to be reported under this paragraph shall keep a record of the correction or removal.

(2) LIMITATION ON REQUIREMENT TO SUBMIT REPORT UNDER PARAGRAPH (1).—A report of the corrective action or removal of a device shall not be required under paragraph (1) if a report of the corrective action or removal is required and has been submitted under subsection (a).

(3) ROUTINE SERVICING NOT INCLUDED.—For purposes of paragraphs (1) and (2), the terms ''correction'' and ''removal'' do not include routine servicing.

(g) INCLUSION OF DEVICES IN THE POSTMARKET RISK IDENTIFICATION AND ANALYSIS SYSTEM.—

(1) IN GENERAL.—

(A) APPLICATION TO DEVICES.—The Secretary shall amend the procedures established and maintained under subparagraphs (A), (B), (C), and (E) of section 13512(c)(3) of this title in order to expand the postmarket risk identification and analysis system established under section 13512(c)(3) of this title to include and apply to devices.

(B) EXCEPTION.—Section 13512(c)(3)(A)(ii) of this title shall not apply to devices.

(C) CLARIFICATION.—With respect to devices, the private sector health-related electronic data provided under section 13512(c)(3)(A)(iii)(II) of this title may include medical device utilization data, health insurance claims data, and procedure and device registries.

(2) DATA.—In expanding the system as described in paragraph (1)(A), the Secretary shall use relevant data with respect to devices cleared under section 13136(k) of this title or approved under section 13142 of this title, including claims data, patient survey data, and any other data considered appropriate by the Secretary.

(3) STAKEHOLDER INPUT.—To help ensure effective implementation of the system as described in paragraph (1) with respect to devices, the Secretary shall engage outside stakeholders in the development of the system, and gather information from outside stakeholders regarding the content of an effective sentinel program, through a public hearing, advisory

committee meeting, maintenance of a public docket, or other similar public measure.

(4) VOLUNTARY SURVEYS.—Chapter 35 of title 44 shall not apply to the collection of voluntary information from health care providers, such as voluntary surveys or questionnaires, initiated by the Secretary for purposes of postmarket risk identification, mitigation, and analysis for devices.

(h) POSTMARKET PILOT.—

(1) IN GENERAL.—

(A) PROJECTS.—In order to provide timely and reliable information on the safety and effectiveness of devices approved under section 13142 of this title, cleared under section 13136(k) of this title, or classified under section 13140(h)(2) of this title, including responses to adverse events and malfunctions, and to advance the objectives of part 803 of title 21, Code of Federal Regulations (or successor regulations), and to advance the objectives of, and to evaluate innovative new methods of compliance with, this section and section 13154 of this title, the Secretary shall, within 1 year of August 18, 2017, initiate 1 or more pilot projects for voluntary participation by a

manufacturer or manufacturers of a device or device type, or continue existing projects, in accordance with paragraph (3), that—

(i) are designed to efficiently generate reliable and timely safety and active surveillance data for use by the Secretary or manufacturers of the devices that are involved in the pilot project;

(ii) inform the development of methods, systems, data criteria, and programs that could be used to support safety and active surveillance activities for devices included or not included in the project;

(iii) may be designed and conducted in coordination with a comprehensive system for evaluating medical device technology that operates under a governing board with appropriate representation of stakeholders, including patient groups and device manufacturers;

(iv) use electronic health data including claims data, patient survey data, or any other data, as the Secretary determines appropriate; and

(v) prioritize devices and device types that meet 1 or more of the criteria under subparagraph (B).

(B) CRITERIA.—The criteria under this subparagraph are the following:

(i) Devices and device types for which the collection and analysis of real-world evidence regarding a device's safety and effectiveness is likely to advance public health.

(ii) Devices and device types that are widely used.

(iii) Devices and device types, the failure of which has significant health consequences.

(iv) Devices and device types for which the Secretary—

(I) has received public recommendations in accordance with paragraph (2)(B); and

(II) has determined to meet 1 or more of the criteria under clause (i), (ii), or (iii) and is appropriate for such a pilot project.

(2) PARTICIPATION.—The Secretary shall establish the conditions and processes—

(A) under which a manufacturer of a device may voluntarily participate in a pilot project described in paragraph (1); and

(B) for facilitating public recommendations for devices to be prioritized under such a pilot project, including requirements for the data necessary to support the recommendations.

(3) CONTINUATION OF ONGOING PROJECTS.—The Secretary may continue or expand projects, with respect to providing timely and reliable information on the safety and effectiveness of devices approved under section 13142 of this title, cleared under section 13136(k) of this title, or classified under section 13140(h)(2) of this title, that were being carried out as of August 18, 2017. The Secretary shall, beginning on that date, take such steps as may be necessary—

(A) to ensure the projects meet the requirements of clauses (i) through (v) of paragraph (1)(A); and

(B) to increase the voluntary participation in the projects of manufacturers of devices and

facilitate public recommendations for any devices prioritized under the projects.

(4) IMPLEMENTATION.—

(A) CONTRACTING AUTHORITY.—The Secretary may carry out a pilot project meeting the criteria specified in clauses (i) through (v) of paragraph (1)(A) or a project continued or expanded under paragraph (3) by entering into contracts, cooperative agreements, grants, or other appropriate agreements with public or private entities that have a significant presence in the United States and meet the following conditions:

(i) AGREEMENT RELATING TO SECURITY MEASURES TO MAINTAIN CONFIDENTIALITY AND PRIVACY OF DATA.—If such an entity is a component of another organization, the entity and the organization have established an agreement under which appropriate security measures are implemented to maintain the confidentiality and privacy of the data described in paragraph (1)(A)(iv) and the agreement ensures that the entity will not make an unauthorized disclosure of the data to the other compo-

nents of the organization in breach of requirements with respect to confidentiality and privacy of the data established under the security measures.

(ii) COMPLIANCE REQUIREMENTS IN CASE OF TERMINATION OR NONRENEWAL OF AGREEMENT.—In the case of the termination or nonrenewal of the contract, cooperative agreement, grant, or other appropriate agreement, the entity or entities involved shall comply with each of the following:

(I) The entity or entities shall continue to comply with the requirements with respect to confidentiality and privacy referred to in clause (i) with respect to all data disclosed to the entity under the agreement.

(II) The entity or entities shall return any data disclosed to the entity pursuant to this subsection and to which it would not otherwise have access or, if returning the data is not practicable, destroy the data.

(iii) QUALIFICATIONS.—The entity or entities shall have 1 or more qualifications with respect to—

(I) research, statistical, epidemiologic, or clinical capability and expertise to conduct and complete the activities under this subsection, including the capability and expertise to provide the Secretary access to de-identified data consistent with the requirements of this subsection;

(II) an information technology infrastructure to support electronic data and operational standards to provide security for the data, as appropriate;

(III) experience with, and expertise on, the development of research on, and surveillance of, device safety and effectiveness using electronic health data; or

(IV) such other expertise that the Secretary determines necessary to carry out such a project.

(B) REVIEW OF CONTRACT IN THE EVENT OF A MERGER OR ACQUISITION.—The Secretary shall review any contract, cooperative agreement, grant, or other appropriate agreement entered into under this paragraph with an entity meeting the conditions specified in subparagraph (A) in the event of a merger or acquisition of the entity in order to ensure that the requirements specified in this subsection will continue to be met.

(5) COMPLIANCE WITH REQUIREMENTS FOR RECORDS OR REPORTS ON DEVICES.—The participation of a manufacturer in pilot projects under this subsection or a project continued or expanded under paragraph (3) shall not affect the eligibility of the manufacturer to participate in any quarterly reporting program with respect to devices carried out under this section or section 13154 of this title. The Secretary may determine that, for a specified time period to be determined by the Secretary, a manufacturer's participation in a pilot project under this subsection or a project continued or expanded under paragraph (3) may meet the applicable requirements of this section or section 13154 of this title, if—

(A) the project has demonstrated success in capturing relevant adverse event information; and

(B) the Secretary has established procedures for making adverse event and safety information collected from the project public, to the extent possible.

(6) PRIVACY REQUIREMENTS.—With respect to the disclosure of any health information collected through a project conducted under this subsection—

(A) individually identifiable health information so collected shall not be disclosed when presenting any information from the project; and

(B) the disclosure shall be made in compliance with regulations issued pursuant to section 264(c) of the Health Insurance Portability and Accountability Act of 1996 (42 U.S.C. 1320d–2 note) and sections 552 and 552a of title 5.

(7) LIMITATIONS.—A pilot project under this subsection, or in coordination with the comprehensive system described in paragraph (1)(A)(iii), shall not allow for an entity participating in the project, other than the Secretary, to make determinations of

safety or effectiveness, or substantial equivalence, for purposes of this subtitle.

(8) OTHER PROJECTS REQUIRED TO COMPLY.—Paragraphs (1)(A)(ii), clauses (i) and (ii) of paragraph (4)(A), and paragraph (5) through (7) shall apply with respect to any pilot project undertaken in coordination with the comprehensive system described in paragraph (1)(A)(iii) that relates to the use of real-world evidence for devices in the same manner and to the same extent as the paragraphs apply with respect to pilot projects conducted under this subsection.

(9) REPORT TO CONGRESS.—Not later than 18 months after August 18, 2017, and annually thereafter, the Secretary shall submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Health, Education, Labor, and Pensions of the Senate a report containing a description of the pilot projects being conducted under this subsection and projects continued or expanded pursuant to paragraph (3), including for each project—

(A) how the project is being implemented in accordance with paragraph (4), including how the project is being implemented through a

contract, cooperative agreement, grant, or other appropriate agreement, if applicable;

(B) the number of manufacturers that have agreed to participate in the project;

(C) the data sources used to conduct the project;

(D) the devices or device categories involved in the project;

(E) the number of patients involved in the project; and

(F) the findings of the project in relation to device safety, including adverse events, malfunctions, and other safety information.

(10) SUNSET.—The Secretary may not carry out a pilot project initiated by the Secretary under this subsection after October 1, 2022.

**§ 13152. General provisions respecting control of devices intended for human use**

(a) IN GENERAL.—Any requirement authorized by or under chapter 133 of this title or section 13101, 13136, or 13151 of this title applicable to a device intended for human use shall apply to the device until the applicability of the requirement to the device has been changed by action taken under section 13140, 13141, or 13142 of this title or under subsection (g), and any requirement estab-

lished by or under chapter 133 of this title or section 13101, 13136, or 13151 of this title that is inconsistent with a requirement imposed on the device under section 13141 or 13142 of this title or under subsection (g) shall not apply to the device.

(b) CUSTOM DEVICES.—

(1) IN GENERAL.—The requirements of sections 13141 and 13142 of this title shall not apply to a device that—

(A) is created or modified in order to comply with the order of an individual physician or dentist (or any other specially qualified person designated under regulations promulgated by the Secretary after an opportunity for an oral hearing);

(B) in order to comply with an order described in subparagraph (A), necessarily deviates from an otherwise applicable performance standard under section 13141 of this title or requirement under section 13142 of this title;

(C) is not generally available in the United States in finished form through labeling or advertising by the manufacturer, importer, or distributor for commercial distribution;

(D) is designed to treat a unique pathology or physiological condition that no other device is domestically available to treat;

(E) is intended—

(i) to meet the special needs of the physician or dentist (or other specially qualified person designated as described in subparagraph (A)) in the course of the professional practice of the physician or dentist (or other specially qualified person designated as described in subparagraph (A)); or

(ii) for use by an individual patient named in the order of the physician or dentist (or other specially qualified person designated as described in subparagraph (A));

(F) is assembled from components or manufactured and finished on a case-by-case basis to accommodate the unique needs of individuals described in clause (i) or (ii) of subparagraph (E); and

(G) may have common, standardized design characteristics, chemical and material com-

positions, and manufacturing processes as commercially distributed devices.

(2) LIMITATIONS.—Paragraph (1) shall apply to a device only if—

(A) the device is for the purpose of treating a sufficiently rare condition, such that conducting clinical investigations on the device would be impractical;

(B) production of the device under paragraph (1) is limited to no more than 5 units per year of a particular device type, provided that the replication otherwise complies with this section; and

(C) the manufacturer of the device notifies the Secretary on an annual basis, in a manner prescribed by the Secretary, of the manufacture of the device.

(3) GUIDANCE.—The Secretary shall issue final guidance on replication of multiple devices described in paragraph (2)(B).

(c) TRADE SECRETS.—Any information reported to or otherwise obtained by the Secretary or the Secretary's representative under section 13140, 13141, 13142, 13146, 13149, 13151, or 17504 of this title or under subsection (f) or (g) that is exempt from disclosure pursuant to sec-

tion 552(a) of title 5 by reason of section 552(b)(4) of title 5 shall be considered confidential and shall not be disclosed and may not be used by the Secretary as the basis for the reclassification of a device from class III to class II or class I or as the basis for the establishment or amendment of a performance standard under section 13141 of this title for a device reclassified from class III to class II, except—

(1) in accordance with subsection (h); and

(2) that the information may be disclosed to other officers or employees concerned with carrying out this subtitle or when relevant in any proceeding under this subtitle (other than section 13140 or 13141 of this title).

(d) NOTICES AND FINDINGS.—Each notice of proposed rulemaking under section 13140, 13141, 13142, 13146, 13149, or 13151 of this title, or under this section, any other notice that is published in the Federal Register with respect to any other action taken under any of those sections and that states the reasons for the action, and each publication of findings required to be made in connection with rulemaking under any of those sections shall set forth—

(1) the manner in which interested persons may examine data and other information on which the notice or findings are based; and

(2) the period within which interested persons may present their comments on the notice or findings (including the need therefor) orally or in writing, which period shall be at least 60 days but may not exceed 90 days unless the time is extended by the Secretary by a notice published in the Federal Register stating good cause for the extension.

(e) RESTRICTED DEVICES.—

(1) AUTHORITY TO RESTRICT DEVICES.—

(A) IN GENERAL.—If, because of a device's potentiality for harmful effect or the collateral measures necessary to the use of the device, the Secretary determines that there cannot otherwise be reasonable assurance of the safety and effectiveness of the device, the Secretary may by regulation require that a device be restricted to sale, distribution, or use—

(i) only on the written or oral authorization of a practitioner licensed by law to administer or use the device; or

(ii) on such other conditions as the Secretary may prescribe in the regulation.

(B) LIMITATIONS ON RESTRICTIONS.—A condition prescribed under subparagraph (A)(ii) shall not—

(i) restrict the use of a device to persons with specific training or experience in its use or to persons for use in certain facilities unless the Secretary determines that such a restriction is required for the safe and effective use of the device; or

(ii) exclude a person from using a device solely because the person—

(I) does not have the training or experience to make the person eligible for certification by a certifying board recognized by the American Board of Medical Specialties; or

(II) has not been certified by a certifying board described in subclause (I).

(C) RESTRICTED DEVICE.—A device subject to a regulation under this subsection is a restricted device.

(2) LABEL.—The label of a restricted device shall bear such appropriate statements of the re-

strictions required by a regulation under paragraph (1) as the Secretary may in the regulation prescribe.

(f) GOOD MANUFACTURING PRACTICE REQUIREMENTS.—

(1) REGULATIONS.—

(A) IN GENERAL.—The Secretary may, in accordance with subparagraph (B), prescribe regulations requiring that the methods used in, and the facilities and controls used for, the manufacture, pre-production design validation (including a process to assess the performance of a device but not including an evaluation of the safety or effectiveness of a device), packing, storage, and installation of a device conform to current good manufacturing practice, as prescribed in the regulations, to ensure that the device will be safe and effective and otherwise in compliance with this subtitle.

(B) PROCEDURE.—

(i) IN GENERAL.—Before the Secretary may promulgate any regulation under subparagraph (A), the Secretary shall—

(I) afford the advisory committee established under paragraph (3) an

opportunity to submit recommendations to the Secretary with respect to the regulation proposed to be promulgated;

(II) afford opportunity for an oral hearing; and

(III) ensure that the regulation conforms, to the extent practicable, with internationally recognized standards defining quality systems, or parts of the standards, for medical devices.

(ii) REASONABLE TIME FOR RECOMMENDATIONS FROM ADVISORY COMMITTEE.—The Secretary shall provide the advisory committee a reasonable time to make its recommendation with respect to proposed regulations under subparagraph (A).

(2) PETITION FOR EXEMPTION OR VARIANCE.—

(A) IN GENERAL.—Any person subject to any requirement prescribed by regulations under paragraph (1) may petition the Secretary for an exemption or variance from the requirement. The petition shall be submitted to the

Secretary in such form and manner as the Secretary shall prescribe and shall—

(i) in the case of a petition for an exemption from a requirement, set forth the basis for the petitioner's determination that compliance with the requirement is not required to ensure that the device will be safe and effective and otherwise in compliance with this subtitle;

(ii) in the case of a petition for a variance from a requirement, set forth the methods proposed to be used in, and the facilities and controls proposed to be used for, the manufacture, packing, storage, and installation of the device in lieu of the methods, facilities, and controls prescribed by the requirement; and

(iii) contain such other information as the Secretary shall prescribe.

(B) REFERRAL TO ADVISORY COMMITTEE.—

(i) IN GENERAL.—The Secretary may refer to the advisory committee established under paragraph (3) any petition submitted under subparagraph (A).

(ii) DATE ON WHICH ADVISORY COMMITTEE IS TO REPORT ITS RECOMMENDATION.—The advisory committee shall report its recommendations to the Secretary with respect to a petition referred to the advisory committee within 60 days of the date of the petition's referral.

(iii) DENIAL OR APPROVAL OF PETITION.—The Secretary shall, by order, deny or approve a petition submitted under subparagraph (A) within 60 days after the later of—

(I) the date the petition was submitted to the Secretary; or

(II) if the petition was referred to an advisory committee, the expiration of the 60-day period beginning on the date the petition was referred to the advisory committee.

(C) APPROVAL.—

(i) IN GENERAL.—The Secretary may approve—

(I) a petition for an exemption for a device from a requirement if the Secretary determines that compliance

with the requirement is not required to ensure that the device will be safe and effective and otherwise in compliance with this subtitle; and

(II) a petition for a variance for a device from a requirement if the Secretary determines that the methods to be used in, and the facilities and controls to be used for, the manufacture, packing, storage, and installation of the device in lieu of the methods, controls, and facilities prescribed by the requirement are sufficient to ensure that the device will be safe and effective and otherwise in compliance with this subtitle.

(ii) ORDER APPROVING PETITION FOR A VARIANCE.—An order of the Secretary approving a petition for a variance shall prescribe such conditions respecting the methods used in, and the facilities and controls used for, the manufacture, packing, storage, and installation of the device to be granted the variance under the petition as may be necessary to ensure that

the device will be safe and effective and otherwise in compliance with this subtitle.

(D) HEARING AFTER ORDER TO DENY OR APPROVE PETITION.—After the issuance of an order under subparagraph (B) respecting a petition, the petitioner shall have an opportunity for an informal hearing on the order.

(3) ADVISORY COMMITTEE.—

(A) ESTABLISHMENT.—The Secretary shall establish an advisory committee for the purpose of advising and making recommendations to the Secretary with respect to regulations proposed to be promulgated under paragraph (1)(A) and the approval or disapproval of petitions submitted under paragraph (2).

(B) MEMBERS.—The advisory committee shall be composed of 9 members—

(i) 3 of which shall be appointed from individuals who are officers or employees of any State or local government or of the Federal Government; and

(ii)(I) 2 of whom shall be appointed from individuals who are representative of interests of the device manufacturing industry;

(II) 2 of whom shall be appointed from individuals who are representative of the interests of physicians and other health professionals; and

(III) 2 of whom shall be representative of the interests of the general public.

(C) COMPENSATION AND TRAVEL EXPENSES RELATING TO MEETINGS AND CONFERENCES.—

(i) IN GENERAL.—Members of the advisory committee who are not officers or employees of the United States, while attending conferences or meetings of the committee or otherwise engaged in its business, shall be entitled to receive compensation at rates to be fixed by the Secretary, which rates may not exceed the daily equivalent of the maximum rate payable under section 5376 of title 5, for each day (including travel time) they are so engaged.

(ii) SERVICE AWAY FROM HOME OR REGULAR PLACE OF BUSINESS.—While serving as described in clause (i) away from the member's home or regular place

of business, each member may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5 for individuals in the Government service employed intermittently.

(D) CHAIRPERSON.—The Secretary shall designate one of the members of the advisory committee to serve as its chairperson.

(E) PERSONNEL.—The Secretary shall furnish the advisory committee with clerical and other assistance.

(F) INAPPLICABILITY OF SECTION 1013 OF TITLE 5.—Section 1013 of title 5 shall not apply with respect to the duration of the advisory committee established under this paragraph.

(g) EXEMPTION FOR DEVICES FOR INVESTIGATIONAL USE.—

(1) PURPOSE.—The purpose of this subsection is to encourage, to the extent consistent with the protection of the public health and safety and with ethical standards, the discovery and development of useful devices intended for human use and to that end to maintain optimum freedom for scientific investigators in their pursuit of that purpose.

(2) PRESCRIPTION OF REGULATIONS.—

(A) REGULATIONS.—The Secretary shall by regulation prescribe procedures and conditions under which devices intended for human use may on application be granted an exemption from the requirements of chapter 133 of this title or section 13136, 13141, 13142, 13146, 13151, or 17701 of this title or subsection (e) or (f) or from any combination of those requirements to permit the investigational use of the devices by experts qualified by scientific training and experience to investigate the safety and effectiveness of the devices.

(B) REQUIREMENTS.—The conditions prescribed pursuant to subparagraph (A) shall include—

(i) a requirement that an application be submitted to the Secretary before an exemption may be granted and that the application be submitted in such form and manner as the Secretary shall specify;

(ii) a requirement that the person applying for an exemption for a device ensure the establishment and maintenance of such records, and the making of such reports to

the Secretary of safety or effectiveness data obtained as a result of the investigational use of the device during the exemption, as the Secretary determines will enable the Secretary to ensure compliance with the conditions, review the progress of the investigation, and evaluate the safety and effectiveness of the device; and

(iii) such other requirements as the Secretary may determine to be necessary for the protection of the public health and safety.

(C) VARIATIONS; FACTORS.—Procedures and conditions prescribed pursuant to subparagraph (A) for an exemption may appropriately vary depending on—

(i) the scope and duration of clinical testing to be conducted under the exemption;

(ii) the number of human subjects that are to be involved in the testing;

(iii) the need to permit changes to be made in the device subject to the exemption during testing conducted in accord-

ance with a clinical testing plan required under paragraph (3)(A)(i); and

(iv) whether the clinical testing of the device is for the purpose of developing data to obtain approval for the commercial distribution of the device.

(3) RESPONSIBILITIES OF APPLICANTS FOR EXEMPTION.—

(A) IN GENERAL.—Procedures and conditions prescribed pursuant to paragraph (2)(A) shall require, as a condition to the exemption of any device to be the subject of testing involving human subjects, that the person applying for the exemption—

(i)(I) submit, for review for adequacy to justify the commencement of the testing, a plan for any proposed clinical testing of the device and a report of prior investigations of the device (including, where appropriate, tests on animals) adequate to justify the proposed clinical testing—

(aa) to the institutional review committee established in accordance with regulations of the Secretary to supervise clinical testing of devices in

the facilities where the proposed clinical testing is to be conducted; or

(bb) to the Secretary, if—

(AA) an institutional review committee under item (aa) does not exist; or

(BB) the Secretary finds that the process of review by the institutional review committee is inadequate (whether or not the plan for the testing has been approved by the institutional review committee); and

(II) if the plan and report are not submitted to the Secretary under subclause (I)(bb), submit to the Secretary a summary of the plan and a report of prior investigations of the device (including, where appropriate, tests on animals);

(ii) promptly notify the Secretary (under such circumstances and in such manner as the Secretary prescribes) of approval by an institutional review committee of any clinical testing plan submitted to it in accordance with clause (i);

(iii) in the case of a device to be distributed to investigators for testing, obtain signed agreements from each of the investigators that any testing of the device involving human subjects will be under the investigator's supervision and in accordance with clause (iv) and submit the agreements to the Secretary; and

(iv) ensure that informed consent will be obtained from each human subject (or a representative of the human subject) of proposed clinical testing involving the device, except where, subject to such conditions as the Secretary may prescribe—

(I) the proposed clinical testing poses no more than minimal risk to the human subject and includes appropriate safeguards to protect the rights, safety, and welfare of the human subject; or

(II) the investigator conducting or supervising the proposed clinical testing of the device determines in writing that there exists a life-threatening situation involving the human

subject of the testing which necessitates the use of the device and it is not feasible to obtain informed consent from the subject and there is not sufficient time to obtain the consent from the human subject's representative.

(B) DETERMINATION TO BE CONCURRED IN BY LICENSED PHYSICIAN.—The determination required by subparagraph (A)(iv)(II) shall be concurred in by a licensed physician who is not involved in the testing of the human subject with respect to which the determination is made, unless immediate use of the device is required to save the life of the human subject of the testing and there is not sufficient time to obtain the concurrence.

(4) APPROVAL OR DISAPPROVAL.—

(A) IN GENERAL.—An application, submitted in accordance with the procedures prescribed by regulations under paragraph (2), for an exemption for a device (other than an exemption from section 13146 of this title) shall be deemed approved on the 30th day after the submission of the application to the Secretary

unless, on or before that day, the Secretary by order disapproves the application and notifies the applicant of the disapproval of the application.

(B) CONDITIONS FOR DISAPPROVAL.—The Secretary may disapprove an application only if the Secretary finds that the investigation with respect to which the application is submitted does not conform to procedures and conditions prescribed under regulations under paragraph (2). A notification of disapproval under subparagraph (A) shall—

(i) contain—

(I) the order of disapproval; and

(II) a complete statement of the reasons for the Secretary's disapproval of the application; and

(ii) afford the applicant opportunity for an informal hearing on the disapproval order.

(C) DETERMINATIONS FOR WHICH APPLICATION SHALL NOT BE DISAPPROVED.—Consistent with paragraph (1), the Secretary shall not disapprove an application under this subsection because the Secretary determines that—

(i) the investigation may not support a substantial equivalence or de novo classification determination or approval of the device;

(ii) the investigation may not meet a requirement, including a data requirement, relating to the approval or clearance of a device; or

(iii) an additional or different investigation may be necessary to support clearance or approval of the device.

(5) WITHDRAWAL OF EXEMPTION.—

(A) IN GENERAL.—The Secretary may by order withdraw an exemption granted under this subsection for a device if the Secretary determines that the conditions applicable to the device under this subsection for the exemption are not met.

(B) HEARING.—An order for withdrawal under subparagraph (A) may be issued only after opportunity for an informal hearing, except that such an order may be issued before the provision of an opportunity for an informal hearing if the Secretary determines that the continuation of testing under the exemption

with respect to which the order is to be issued will result in an unreasonable risk to the public health.

(6) CHANGES IN DEVICE OR CLINICAL PROTOCOLS.—

(A) IN GENERAL.—The Secretary shall by regulation establish, with respect to a device for which an exemption under this subsection is in effect, procedures and conditions that, without requiring an additional approval of an application for an exemption or the approval of a supplement to an application for an exemption, permit—

(i) developmental changes in the device (including manufacturing changes) that do not constitute a significant change in design or in basic principles of operation and that are made in response to information gathered during the course of an investigation; and

(ii) changes or modifications to clinical protocols that do not affect—

(I) the validity of data or information resulting from the completion of an approved protocol, or the rela-

tionship of likely patient risk to benefit relied on to approve a protocol;

(II) the scientific soundness of an investigational plan submitted under paragraph (3)(A)(i); or

(III) the rights, safety, or welfare of the human subjects involved in the investigation.

(B) REQUIRED PROVISIONS.—Regulations under subparagraph (A) shall provide that a change or modification described in subparagraph (A) may be made if—

(i) the sponsor of the investigation determines, on the basis of credible information (as defined by the Secretary), that the applicable conditions under subparagraph (A) are met; and

(ii) the sponsor submits to the Secretary, not later than 5 days after making the change or modification, a notice of the change or modification.

(7) CLASS III DEVICES AND IMPLANTABLE DEVICES.—

(A) OPPORTUNITY TO SUBMIT INVESTIGATIONAL PLAN FOR REVIEW PRIOR TO SUBMITTING APPLICATION.—

(i) IN GENERAL.—In the case of a person intending to investigate the safety or effectiveness of a class III device or any implantable device, the Secretary shall ensure that the person has an opportunity, prior to submitting an application to the Secretary or to an institutional review committee, to submit to the Secretary, for review, an investigational plan (including a clinical protocol).

(ii) REQUEST FOR MEETING TO REACH AGREEMENT ON INVESTIGATIONAL PLAN.—If the applicant submits a written request for a meeting with the Secretary regarding the review under clause (i), the Secretary shall, not later than 30 days after receiving the request, meet with the applicant for the purpose of reaching agreement regarding the investigational plan (including a clinical protocol).

(iii) CONTENT OF WRITTEN REQUEST.—The written request under clause (ii) shall include—

(I) a detailed description of the device;

(II) a detailed description of the proposed conditions of use of the device;

(III) a proposed plan (including a clinical protocol) for determining whether there is a reasonable assurance of effectiveness; and

(IV) if available, information regarding the expected performance from the device.

(B) AGREEMENT.—Any agreement regarding the parameters of an investigational plan (including a clinical protocol) that is reached between the Secretary and a sponsor or applicant shall be reduced to writing and made part of the administrative record by the Secretary. The agreement shall not be changed, except—

(i) with the written agreement of the sponsor or applicant; or

(ii) pursuant to a decision, made in accordance with subparagraph (C) by the director of the office in which the device involved is reviewed, that a substantial scientific issue essential to determining the safety or effectiveness of the device involved has been identified.

(C) DECISION.—A decision under subparagraph (B)(ii) by the director shall be in writing, and may be made only after the Secretary has provided to the sponsor or applicant an opportunity for a meeting at which the director and the sponsor or applicant are present and at which the director documents the scientific issue involved.

(8) CLINICAL HOLDS.—

(A) IN GENERAL.—At any time, the Secretary may prohibit the sponsor of an investigation from conducting the investigation (referred to in this paragraph as a ''clinical hold'') if the Secretary makes a determination described in subparagraph (B). The Secretary shall specify the basis for the clinical hold, including the specific information available to the Secretary that

served as the basis for the clinical hold, and confirm the determination in writing.

(B) DETERMINATION.—For purposes of subparagraph (A), a determination described in this subparagraph with respect to a clinical hold is a determination that—

(i) the device involved represents an unreasonable risk to the safety of the individuals who are the subjects of the clinical investigation, taking into account—

(I) the qualifications of the clinical investigators;

(II) information about the device;

(III) the design of the clinical investigation;

(IV) the condition for which the device is to be investigated; and

(V) the health status of the subjects involved; or

(ii) the clinical hold should be issued for such other reasons as the Secretary may by regulation establish.

(C) REQUEST TO REMOVE CLINICAL HOLD.—Any written request to the Secretary from the sponsor of an investigation that a clin-

ical hold be removed shall receive a decision, in writing and specifying the reasons for the decision, within 30 days after receipt of the request. The request shall include sufficient information to support the removal of the clinical hold.

(9) DIVERSITY ACTION PLAN.—

(A) SUBMISSION.—

(i) DEVICE FOR WHICH AN APPLICATION FOR AN INVESTIGATIONAL DEVICE EXEMPTION IS REQUIRED.—The sponsor of a device for which submission of an application for an investigational device exemption is required shall submit to the Secretary in the application a diversity action plan for clinical studies of the device, in the form and manner specified in guidance issued by the Secretary.

(ii) DEVICE FOR WHICH AN APPLICATION FOR AN INVESTIGATIONAL DEVICE EXEMPTION IS NOT REQUIRED.—The sponsor of a device for which submission of an application for an investigational device exemption is not required, except for a device being studied as described in section 812.2(c) of title 21, Code of Federal Regu-

lations, or successor regulations, shall develop a diversity action plan for any clinical study with respect to the device. The diversity action plan shall be submitted to the Secretary in any premarket notification under section 13136(k) of this title, request for classification under section 13140(h)(2) of this title, or application for premarket approval under section 13142 of this title for the device.

(B) CONTENT.—A diversity action plan under clause (i) or (ii) of subparagraph (A) shall include—

(i) the sponsor's goals for enrollment in the clinical study;

(ii) the sponsor's rationale for the goals; and

(iii) an explanation of how the sponsor intends to meet the goals.

(C) WAIVER.—

(i) AUTHORITY.—On the initiative of the Secretary or at the request of a sponsor, the Secretary may waive any requirement in subparagraph (A) or (B) if the Secretary determines that a waiver is nec-

essary based on what is known or can be determined about the prevalence or incidence of the disease or condition for which the device is under investigation (including in terms of the patient population that may use the device), if conducting a clinical investigation in accordance with a diversity action plan would otherwise be impracticable, or if the waiver is necessary to protect public health during a public health emergency.

(ii) WRITTEN RESPONSE REQUIRED.—The Secretary shall issue a written response granting or denying a request from a sponsor for a waiver within 60 days of receiving the request.

(D) INAPPLICABILITY.—A diversity action plan shall not be required for a submission described in section 14301 of this title.

(h) RELEASE OF INFORMATION RESPECTING SAFETY AND EFFECTIVENESS.—

(1) INFORMATION SUBMITTED TO SECRETARY.—

(A) PROMULGATION OF REGULATIONS.—The Secretary shall promulgate regulations

under which a detailed summary of information respecting the safety and effectiveness of a device shall be made available to the public on issuance of the order described in clause (i), (ii), or (iii), as applicable, which information was submitted to the Secretary and which was the basis for—

(i) an order under section 13142(d)(1)(A) of this title approving an application for premarket approval for the device or denying approval of such an application or an order under section 13142(e) of this title withdrawing approval of such an application for the device;

(ii) an order under section 13142(f)(6)(A) of this title revoking an approved protocol for the device, an order under section 13142(f)(6)(B) of this title declaring a protocol for the device completed or not completed, or an order under section 13142(f)(7) of this title revoking the approval of the device; or

(iii) an order approving an application under subsection (g) for an exemption for the device from section 13146 of this title

or an order disapproving, or withdrawing approval of, an application for an exemption under subsection (g) for the device.

(B) ADVERSE EFFECTS ON HEALTH.—Summaries of information made available pursuant to this paragraph respecting a device shall include information respecting any adverse effects on health of the device.

(2) INFORMATION SUBMITTED TO ADVISORY COMMITTEE.—

(A) IN GENERAL.—The Secretary shall promulgate regulations under which each advisory committee established under section 13142(g)(2)(B) of this title shall make available to the public a detailed summary of information respecting the safety and effectiveness of a device, which information was submitted to the advisory committee and which was the basis for its recommendation to the Secretary made pursuant to section 13142(g)(2)(A) of this title.

(B) AVAILABILITY OF INFORMATION RELATING TO RECOMMENDATION; ADVERSE EFFECTS ON HEALTH.—A summary of information on which a recommendation described in subparagraph (A) is based shall be made avail-

able pursuant to this paragraph only after the issuance of the order with respect to which the recommendation was made and each summary shall include information respecting any adverse effect on health of the device subject to the order.

(3) LIMITATIONS ON USE OF INFORMATION.—Except as provided in paragraph (4), any information respecting a device that is made available pursuant to paragraph (1) or (2)—

(A) may not be used to establish the safety or effectiveness of another device for purposes of this subtitle by any person other than the person that submitted the information that was made available; and

(B) shall be made available subject to subsection (c).

(4) USE OF INFORMATION BY SECRETARY.—

(A) IN GENERAL.—Subject to subparagraph (C), any information contained in an application for premarket approval filed with the Secretary pursuant to section 13142(c) of this title (including information from clinical and preclinical tests or studies that demonstrate the safety and effectiveness of a device, but exclud-

ing descriptions of methods of manufacture and product composition and other trade secrets) shall be available, 6 years after the application has been approved by the Secretary, for use by the Secretary in—

(i) approving another device;

(ii) determining whether a product development protocol has been completed under section 13142 of this title for another device;

(iii) establishing a performance standard or special control under this subtitle; or

(iv) classifying or reclassifying another device under section 13140 of this title and subsection (l)(2).

(B) EVIDENTIARY BASIS.—The publicly available detailed summaries of information respecting the safety and effectiveness of devices required by paragraph (1)(A)(i) shall be available for use by the Secretary as the evidentiary basis for the agency actions described in subparagraph (A).

(C) COMBINATION PRODUCT CONTAINING AN APPROVED DRUG.—Information contained in

an application for premarket approval filed with the Secretary pursuant to section 13142(c) of this title shall not be used to approve or clear any application submitted under section 13136(k) or 13142 of this title or to classify a product under section 13140(h)(2) of this title for a combination product containing as a constituent part an approved drug (as defined in section 13104(g)(1) of this title) unless—

(i) the application includes the certification or statement referenced in section 13104(g)(4) of this title;

(ii) the applicant provides notice as described in section 13104(g)(4) of this title; and

(iii) the Secretary's approval of the application is subject to the provisions in section 13104(g)(5) of this title.

(i) PROCEEDINGS OF ADVISORY PANELS AND COMMITTEES.—Each panel under section 13140 of this title and each advisory committee established under section 13141(b)(5)(B) or 13142(g) of this title or under subsection (f) shall make and maintain a transcript of any proceeding of the panel or committee. Each such panel and committee shall delete from any transcript made pur-

suant to this subsection information that under subsection (c) is to be considered confidential.

(j) TRACEABILITY.—Except as provided in section 13151(d) of this title, a regulation under this subtitle shall not impose on a type or class of device requirements for the traceability of the type or class of device unless the requirements are necessary to ensure the protection of the public health.

(k) RESEARCH AND DEVELOPMENT.—The Secretary may enter into contracts for research, testing, and demonstrations respecting devices and may obtain devices for research, testing, and demonstration purposes without regard to subsections (a) and (b) of section 3324 of title 31 and section 6101 of title 41.

(l) TRANSITIONAL PROVISIONS FOR DEVICES CONSIDERED AS NEW DRUGS.—

(1) CLASS III.—

(A) IN GENERAL.—A device described in subparagraph (B) is classified in class III unless the Secretary in response to a petition submitted under paragraph (2) has classified the device in class I or II.

(B) DEVICE.—A device described in this subparagraph is a device intended for human use—

(i) for which on May 28, 1976 (in this subsection, referred to as the ''enactment date'') an approval of an application submitted under section 13503 of this title was in effect;

(ii) for which such an application was filed on or before the enactment date and with respect to which application no order of approval or refusing to approve had been issued on that date under section 13504 or 13505 of this title;

(iii) for which on the enactment date an exemption under section 13510 of this title was in effect;

(iv) which is within a type of device described in clause (i), (ii), or (iii) and is substantially equivalent to another device within that type;

(v) which the Secretary in a notice published in the Federal Register before the enactment date has declared to be a new drug subject to chapter 135 of this tile; or

(vi) with respect to which on the enactment date an action is pending in a

United States court under section 10502, 10503, or 10504 of this title for an alleged violation of a provision of section 10501 of this title that enforces a requirement of chapter 135 of this title or for an alleged violation of section 13502 of this title.

(2) RECLASSIFICATION.—

(A) INITIATION.—The Secretary may initiate the reclassification of a device classified into class III under paragraph (1) or the manufacturer or importer of a device classified under paragraph (1) may petition the Secretary (in such form and manner as the Secretary shall prescribe) for the issuance of an order classifying the device in class I or class II.

(B) NOTIFICATION RELATING TO DEFICIENCIES.—Within 30 days of the filing of the petition, the Secretary shall notify the petitioner of any deficiencies in the petition that prevent the Secretary from making a decision on the petition.

(C) ORDER.—Except as provided in paragraph (3)(D)(ii), within 180 days after the filing of a petition under this paragraph, the Secretary shall, after consultation with the appro-

priate panel under section 13140 of this title, by order deny the petition or order the classification, in accordance with the criteria prescribed by subparagraph (A) or (B) of section 13140(c)(1) of this title, of the device in class I or class II.

(3) PREMARKET APPROVAL.—

(A) DEVICE DESCRIBED IN PARAGRAPH (1)(B)(i).—In the case of a device that is described in paragraph (1)(B)(i) and that is in class III—

(i) the device shall on the enactment date be considered a device with an approved application under section 13142 of this title; and

(ii) the requirements applicable to the device before the enactment date under chapter 135 of this title shall continue to apply to the device until changed by the Secretary as authorized by this subtitle.

(B) DEVICE DESCRIBED IN PARAGRAPH (1)(B)(ii).—In the case of a device that is described in paragraph (1)(B)(ii) and that is in class III, an application for the device shall be considered as having been filed under section

13142 of this title on the enactment date. The period in which the Secretary shall act on the application in accordance with section 13142(d)(1) of this title shall be 180 days from the enactment date (or such greater period as the Secretary and the applicant may agree on after the Secretary has made the finding required by section 13142(d)(1)(B)(i) of this title) less the number of days in the period beginning on the date an application for the device was filed under chapter 135 of this title and ending on the enactment date. After the expiration of the period, the device is required, unless exempt under subsection (g), to have in effect an approved application under section 13142 of this title.

(C) DEVICE DESCRIBED IN PARAGRAPH (1)(B)(iii).—A device that is described in paragraph (1)(B)(iii) and that is in class III shall be considered a new drug until the expiration of the 90-day period beginning on the date of the promulgation of regulations under subsection (g). After the expiration of the period, the device is required, unless exempt under subsection

(g), to have in effect an approved application under section 13142 of this title.

(D) DEVICE DESCRIBED IN CLAUSE (iv), (v), OR (vi) OF PARAGRAPH (1)(B).—

(i) IN GENERAL.—Except as provided in clauses (ii) and (iii), a device that is described in clause (iv), (v), or (vi) of paragraph (1)(B) and that is in class III is required, unless exempt under subsection (g), to have, on and after 60 days after the enactment date, in effect an approved application under section 13142 of this title.

(ii) PETITION FOR RECLASSIFICATION OR APPLICATION FOR PREMARKET APPROVAL FILED.—

(I) ACTION BY SECRETARY.—

(aa) IN GENERAL.—The Secretary shall act on a petition or application in accordance with paragraph (2) or section 13142 of this title if, within the 60-day period beginning on the enactment date (or within such greater period as the Secretary, after making the finding required

under section 13142(d)(1)(B) of this title, and the petitioner or applicant may agree on)—

(AA) the petition is filed under paragraph (2) for a device described in clause (iv), (v), or (vi) of paragraph (1)(B); or

(BB) the application for premarket approval is filed under section 13142 of this title for such a device.

(bb) TIMEFRAME.—The period within which the Secretary must act on the petition or application under item (aa) shall be within the 120-day period beginning on the date the petition or application is filed.

(II) EFFECT OF FILING OF PETITION OR APPLICATION ON REQUIREMENT TO HAVE AN APPROVED APPLICATION.—If a petition or application described in subclause (I) is filed within the 60-day (or greater) period,

clause (i) shall not apply to the device before the expiration of the 120-day period, or if the petition is denied or the application is denied approval, before the date of the denial, whichever occurs first.

(iii) DEVICE DESCRIBED IN PARAGRAPH (1)(B)(V).—

(I) IN GENERAL.—In the case of a device that is described in paragraph (1)(B)(v), that the Secretary in a notice published in the Federal Register after March 31, 1976, declared to be a new drug subject to chapter 135 of this title, and that is in class III—

(aa) the device shall, after 18 months after the enactment date, have in effect an approved application under section 13142 of this title unless exempt under subsection (g); and

(bb) the Secretary may, during the period beginning 180 days after the enactment date

and ending 18 months after that date, restrict the use of the device to investigational use by experts qualified by scientific training and experience to investigate the safety and effectiveness of the device, and to investigational use in accordance with the requirements applicable under regulations under subsection (g) to investigational use of devices granted an exemption under the subsection.

(II) REASONABLE AVAILABILITY TO PHYSICIANS.—If the requirements under subsection (g) are made applicable to the investigational use of a device described in subclause (I), the requirements shall be made applicable in such a manner that the device shall be made reasonably available to physicians meeting appropriate qualifications prescribed by the Secretary.

(4) REQUIRED SUBMISSION BY MANUFACTURERS OF DEVICES SUBJECT TO RECLASSIFICATION.—

(A) ORDER.—Before December 1, 1991, the Secretary shall by order require manufacturers of devices described in paragraph (1), which are subject to revision of classification under subparagraph (B), to submit to the Secretary a summary of and citation to any information known or otherwise available to the manufacturers respecting the devices, including adverse safety or effectiveness information that has not been submitted under section 13151 of this title. The Secretary may require a manufacturer to submit the adverse safety or effectiveness data for which a summary and citation were submitted, if the data are available to the manufacturer.

(B) REGULATION.—

(i) IN GENERAL.—Except as provided in subparagraph (C), after the issuance of an order under subparagraph (A) but before December 1, 1992, the Secretary shall publish a regulation in the Federal Register for each device that is classified in class III under paragraph (1) revising the classification of the device so that the device is classified in class I or class II, un-

less the regulation requires the device to remain in class III.

(ii) DETERMINATION RELATING TO RECLASSIFICATION.—In determining whether to revise the classification of a device or to require a device to remain in class III, the Secretary shall apply the criteria set forth in section 13140(c) of this title.

(iii) PROPOSED REGULATION.—Before the publication of a regulation requiring a device to remain in class III or revising its classification, the Secretary shall publish a proposed regulation respecting the classification of a device under this subparagraph and provide an opportunity for the submission of comments on the regulation.

(iv) EFFECTIVE DATE.—A regulation under this subparagraph requiring a device to remain in class III or revising its classification shall not take effect before the expiration of 90 days from the date of the publication in the Federal Register of the proposed regulation.

(C) EXTENSION.—The Secretary may by notice published in the Federal Register extend the period prescribed by subparagraph (B) for a device for an additional period not to exceed 1 year.

(m) HUMANITARIAN DEVICE EXEMPTION.—

(1) PURPOSE.—To the extent consistent with the protection of the public health and safety and with ethical standards, the purpose of this subsection is to encourage the discovery and use of devices intended to benefit patients in the treatment and diagnosis of diseases or conditions that affect not more than 8,000 individuals in the United States.

(2) EXEMPTION FROM EFFECTIVENESS REQUIREMENT.—

(A) IN GENERAL.—The Secretary may grant a request for an exemption from the effectiveness requirements of sections 13141 and 13142 of this title for a device for which the Secretary finds that—

(i) the device is designed to treat or diagnose a disease or condition that affects not more than 8,000 individuals in the United States;

(ii) the device would not be available to a person with a disease or condition referred to in clause (i) unless the Secretary grants the exemption and there is no comparable device, other than under this exemption, available to treat or diagnose the disease or condition; and

(iii) the device will not expose patients to an unreasonable or significant risk of illness or injury and the probable benefit to health from the use of the device outweighs the risk of injury or illness from its use, taking into account the probable risks and benefits of currently available devices or alternative forms of treatment.

(B) SUBMISSION OF APPLICATION; APPROVAL OR DENIAL.—The request shall be in the form of an application submitted to the Secretary and the application shall include the certification required under section 402(j)(5)(B) of the Public Health Service Act (42 U.S.C. 282(j)(5)(B)) (which shall not be considered an element of the application). Not later than 75 days after the date of the receipt of the applica-

tion, the Secretary shall issue an order approving or denying the application.

(C) GUIDANCE RELATING TO PROBABLE BENEFIT.—The Secretary, acting through the Commissioner, shall publish a draft guidance that defines the criteria for establishing ''probable benefit'' as that term is used in subparagraph (A)(iii).

(3) PROHIBITION RELATING TO SALE PRICE.—Except as provided in paragraph (6), a person granted an exemption under paragraph (2) with respect to a device shall not sell the device for an amount that exceeds the costs of research and development, fabrication, and distribution of the device.

(4) LIMITATIONS ON USE.—

(A) IN GENERAL.—Devices granted an exemption under paragraph (2) may be used only—

(i) in facilities in which clinical testing of devices is supervised by an institutional review committee established in accordance with the regulations of the Secretary; and

(ii) if, before the use of a device, an institutional review committee or an appropriate local committee approves the use in

the treatment or diagnosis of a disease or condition referred to in paragraph (2)(A)(i), unless a physician determines in an emergency situation that approval from an institutional review committee or an appropriate local committee cannot be obtained in time to prevent serious harm or death to a patient.

(B) NOTIFICATION RELATING TO EMERGENCY USE.—In a case described in subparagraph (A)(ii) in which a physician uses a device without an approval from an institutional review committee or an appropriate local committee, the physician shall, after the use of the device, notify the chairperson of the institutional review committee or an appropriate local committee of the use. The notification shall include the identification of the patient involved, the date on which the device was used, and the reason for the use.

(5) DEMONSTRATION OF CONTINUED COMPLIANCE.—

(A) IN GENERAL.—The Secretary may require a person granted an exemption under

paragraph (2) to demonstrate continued compliance with the requirements of this subsection—

(i) if the Secretary believes the demonstration to be necessary to protect the public health;

(ii) if the Secretary has reason to believe that the requirements of paragraph (6) are no longer met; or

(iii) if the Secretary has reason to believe that the criteria for the exemption are no longer met.

(B) SUSPENSION OR WITHDRAWAL OF EXEMPTION.—If the person granted an exemption under paragraph (2) fails to demonstrate continued compliance with the requirements of this subsection, the Secretary may suspend or withdraw the exemption from the effectiveness requirements of sections 13141 and 13142 of this title for a humanitarian device only after providing notice and an opportunity for an informal hearing.

(6) INAPPLICABILITY OF PROHIBITION ON SALE PRICE.—

(A) DEFINITIONS.—In this paragraph:

(i) ANNUAL DISTRIBUTION NUMBER.—The term ''annual distribution number'' means the number of the devices reasonably needed to treat, diagnose, or cure a population of 8,000 individuals in the United States.

(ii) PEDIATRIC PATIENTS.—The term ''pediatric patients'' means patients who are 21 years of age or younger at the time of the diagnosis or treatment.

(iii) PEDIATRIC SUBPOPULATION.—The term ''pediatric subpopulation'' means one of the following populations:

(I) Neonates.

(II) Infants.

(III) Children.

(IV) Adolescents.

(B) CONDITIONS.—Except as provided in subparagraph (E), the prohibition in paragraph (3) shall not apply with respect to a person granted an exemption under paragraph (2) if each of the following conditions apply:

(i) The device with respect to which the exemption is granted—

(I) is intended for the treatment or diagnosis of a disease or condition that occurs in pediatric patients or in a pediatric subpopulation, and the device is labeled for use in pediatric patients or in a pediatric subpopulation in which the disease or condition occurs; or

(II) is intended for the treatment or diagnosis of a disease or condition that does not occur in pediatric patients or that occurs in pediatric patients in such numbers that the development of the device for the patients is impossible, highly impracticable, or unsafe.

(ii) During any calendar year, the number of the devices distributed during that year under each exemption granted under this subsection does not exceed the annual distribution number for the device. The Secretary shall determine the annual distribution number when the Secretary grants the exemption.

(iii) The person immediately notifies the Secretary if the number of the devices distributed during any calendar year exceeds the annual distribution number referred to in clause (ii).

(iv) The request for the exemption is submitted on or before October 1, 2027.

(C) INSPECTION OF RECORDS.—The Secretary may inspect the records relating to the number of devices distributed during any calendar year of a person granted an exemption under paragraph (2) for which the prohibition in paragraph (3) does not apply.

(D) PETITION TO MODIFY ANNUAL DISTRIBUTION NUMBER.—A person may petition the Secretary to modify the annual distribution number determined by the Secretary under subparagraph (B)(ii) with respect to a device if additional information arises, and the Secretary may modify the annual distribution number.

(E) EFFECT OF EXCEEDING ANNUAL DISTRIBUTION NUMBER ON PROHIBITION RELATING TO SALE PRICE.—If a person notifies the Secretary, or the Secretary determines through an inspection under subparagraph (C), that the

number of devices distributed during any calendar year exceeds the annual distribution number, as required under subparagraph (B)(iii), and modified under subparagraph (D), if applicable, the prohibition in paragraph (3) shall apply with respect to the person for the device for any sales of the device after the notification or determination.

(7) REFERRAL OF ADVERSE EVENT REPORT.—The Secretary shall refer to the Office of Pediatric Therapeutics any report of an adverse event regarding a device described in paragraph (6)(B)(i)(I) for which the prohibition under paragraph (3) does not apply pursuant to paragraph (6)(B) that the Secretary receives. In considering the report, the Director of the Office of Pediatric Therapeutics, in consultation with experts in the Center for Devices and Radiological Health, shall provide for periodic review of the report by the Pediatric Advisory Committee, including obtaining any recommendations of the Committee regarding whether the Secretary should take action under this subtitle in response to the report.

(8) REVIEW OF ALL DEVICES TO ENSURE APPROPRIATENESS OF EXEMPTION.—The Secretary,

acting through the Office of Pediatric Therapeutics and the Center for Devices and Radiological Health, shall provide for an annual review by the Pediatric Advisory Committee of all devices described in paragraph (6)(B)(i)(I) to ensure that the exemption under paragraph (2) remains appropriate for the pediatric populations for which it is granted.

(n) REGULATION OF CONTACT LENSES AS DEVICES.—

(1) IN GENERAL.—All contact lenses shall be deemed to be devices under section 10101(a)(16) of this title.

(2) EFFECT OF PARAGRAPH (1).—Paragraph (1) shall not be construed as bearing on or being relevant to the question of whether any product other than a contact lens is a device as defined by section 10101(a)(16) of this title or a drug as defined by section 10101(a)(18) of this title.

(o) REGULATION OF MEDICAL AND CERTAIN DECISIONS SUPPORT SOFTWARE.—

(1) LIMITATION ON DEFINITION OF DEVICE.—The term ''device'', as defined in section 10101(a)(16) of this title, shall not include a software function that is intended—

(A) for administrative support of a health care facility, including the processing and maintenance of financial records, claims or billing information, appointment schedules, business analytics, information about patient populations, admissions, practice and inventory management, analysis of historical claims data to predict future utilization or cost-effectiveness, determination of health benefit eligibility, population health management, and laboratory workflow;

(B) for maintaining or encouraging a healthy lifestyle and is unrelated to the diagnosis, cure, mitigation, prevention, or treatment of a disease or condition;

(C) to serve as electronic patient records, including patient-provided information, to the extent that the records are intended to transfer, store, convert formats, or display the equivalent of a paper medical chart, so long as—

(i) the records were created, stored, transferred, or reviewed by health care professionals, or by individuals working under supervision of the professionals;

(ii) the records are part of health information technology that is certified under section 3001(c)(5) of the Public Health Service Act (42 U.S.C. 300jj–11(c)(5)); and

(iii) the function is not intended to interpret or analyze patient records, including medical image data, for the purpose of the diagnosis, cure, mitigation, prevention, or treatment of a disease or condition;

(D) for transferring, storing, converting formats, or displaying clinical laboratory test or other device data and results, findings by a health care professional with respect to the data and results, general information about the findings, and general background information about the laboratory test or other device, unless the function is intended to interpret or analyze clinical laboratory test or other device data, results, and findings; or

(E) unless the function is intended to acquire, process, or analyze a medical image or a signal from an in vitro diagnostic device or a pattern or signal from a signal acquisition system, for the purpose of—

(i) displaying, analyzing, or printing medical information about a patient or other medical information (such as peer-reviewed clinical studies and clinical practice guidelines);

(ii) supporting or providing recommendations to a health care professional about prevention, diagnosis, or treatment of a disease or condition; and

(iii) enabling the health care professional to independently review the basis for the recommendations that the software presents so that it is not the intent that the health care professional rely primarily on any of the recommendations to make a clinical diagnosis or treatment decision regarding an individual patient.

(2) PRODUCT WITH MULTIPLE FUNCTIONS.—

(A) IN GENERAL.—

(i) FUNCTIONS.—Clause (ii) applies if a product has multiple functions that contains—

(I) at least 1 software function that meets the criteria under paragraph (1) or that otherwise does not

meet the definition of device under section 10101(a)(16) of this title; and

(II) at least 1 function that does not meet the criteria under paragraph (1) and that otherwise meets the definition of a device under section 10101(a)(16) of this title.

(ii) NO REGULATION.—The Secretary shall not regulate the software function of the product described in subparagraph (A)(i)(I) as a device.

(B) EXCEPTION RELATING TO SAFETY AND EFFECTIVENESS OF DEVICE FUNCTION.—Notwithstanding subparagraph (A), when assessing the safety and effectiveness of the device function or functions of the product described in subparagraph (A)(i)(II), the Secretary may assess the impact that the software function or functions described in subparagraph(A)(i)(I) have on the device function or functions.

(3) EXCEPTIONS TO PARAGRAPH (1).—

(A) IN GENERAL.—Notwithstanding paragraph (1), a software function described in subparagraph (C), (D), or (E) of paragraph (1)

shall not be excluded from the definition of device under section 10101(a)(16) of this title if—

(i) the Secretary makes a finding that use of the software function would be reasonably likely to have serious adverse health consequences; and

(ii) the software function has been identified in a final order issued by the Secretary under subparagraph (B).

(B) APPLICABILITY.—Subparagraph (A) shall apply only if the Secretary—

(i) publishes a notification and proposed order in the Federal Register;

(ii) includes in the notification the Secretary's finding, including the rationale and identification of the evidence on which the finding was based, as described in subparagraph (A)(i); and

(iii) provides for a period of not less than 30 calendar days for public comment before issuing a final order or withdrawing the proposed order.

(C) FACTORS.—In making a finding under subparagraph (A)(i) with respect to a software function, the Secretary shall consider—

(i) the likelihood and severity of patient harm if the software function were to not perform as intended;

(ii) the extent to which the software function is intended to support the clinical judgment of a health care professional;

(iii) whether there is a reasonable opportunity for a health care professional to review the basis of the information or treatment recommendation provided by the software function; and

(iv) the intended user and user environment, such as whether a health care professional will use a software function of a type described in paragraph (1)(E).

(4) EFFECT OF SUBSECTION.—Nothing in this subsection shall be construed as limiting the authority of the Secretary to—

(A) exercise enforcement discretion as to any device subject to regulation under this subtitle;

(B) regulate software used in the manufacture and transfusion of blood and blood components to assist in the prevention of disease in humans; or

(C) regulate software as a device under this subtitle if the software meets the criteria under section 13140(c)(1)(C) of this title.

(p) DIAGNOSTIC IMAGING DEVICES INTENDED FOR USE WITH CONTRAST AGENTS.—

(1) DEFINITIONS.—In this subsection:

(A) APPLICABLE MEDICAL IMAGING DEVICE.—The term ''applicable medical imaging device'' means a device intended to be used in conjunction with a contrast agent (or class of contrast agents) for an imaging use that is not described in the approved labeling of the contrast agent (or the approved labeling of any contrast agent in the same class as the contrast agent).

(B) CONTRAST AGENT.—The term ''contrast agent'' means a drug that is approved under chapter 135 of this title or licensed under section 351 of the Public Health Service Act (42 U.S.C. 262), is intended for use in conjunc-

tion with an applicable medical imaging device, and—

(i) is a diagnostic radiopharmaceutical, as defined in sections 315.2 and 601.31 of title 21, Code of Federal Regulations (or any successor regulations); or

(ii) is a diagnostic agent that improves the visualization of structure or function within the body by increasing the relative difference in signal intensity within the target tissue, structure, or fluid.

(2) IN GENERAL.—The Secretary may, subject to this subsection, approve an application (or a supplement to such an application) submitted under section 13142 of this title with respect to an applicable medical imaging device, or, in the case of an applicable medical imaging device for which a notification is submitted under section 13136(k) of this title, may make a substantial equivalence determination with respect to an applicable medical imaging device, or may grant a request submitted under section 13140(h)(2) of this title for an applicable medical imaging device, if the application, notification, or request involves the use of a contrast agent that is not—

(A) in a concentration, rate of administration, or route of administration that is different from those described in the approved labeling of the contrast agent, except that the Secretary may approve the application, make the substantial equivalence determination, or grant the request if the Secretary determines that the differences in concentration, rate of administration, or route of administration exist but do not adversely affect the safety and effectiveness of the contrast agent when used with the device;

(B) in a region, organ, or system of the body that is different from those described in the approved labeling of the contrast agent, except that the Secretary may approve the application, make the substantial equivalence determination, or grant the request if the Secretary determines that the differences in region, organ, or system of the body exist but do not adversely affect the safety and effectiveness of the contrast agent when used with the device;

(C) in a patient population that is different from those described in the approved labeling of the contrast agent, except that the Secretary may approve the application, make the substan-

tial equivalence determination, or grant the request if the Secretary determines the differences in patient population exist but do not adversely affect the safety and effectiveness of the contrast agent when used with the device; or

(D) in an imaging modality that is different from those described in the approved labeling of the contrast agent.

(3) PREMARKET REVIEW.—The agency center charged with premarket review of devices shall have primary jurisdiction with respect to the review of an application, notification, or request described in paragraph (2). In conducting the review, the agency center may—

(A) consult with the agency center charged with the premarket review of drugs or biological products; and

(B) review information and data provided to the Secretary by the sponsor of a contrast agent in an application submitted under chapter 135 of this title or section 351 of the Public Health Service Act (42 U.S.C. 262), so long as the sponsor of the contrast agent has provided to the sponsor of the applicable medical imag-

ing device that is the subject of the review a right of reference and the application is submitted in accordance with this subsection.

(4) APPLICABLE REQUIREMENTS.—An application submitted under section 13142 of this title, a notification submitted under section 13136(k) of this title, or a request submitted under section 13140(h)(2) of this title, as described in paragraph (2), with respect to an applicable medical imaging device, shall be subject to the requirements of the respective section. The application, notification, or request shall be subject only to the requirements of this subtitle applicable to devices.

(q) REGULATION OF OVER-THE-COUNTER HEARING AIDS.—

(1) DEFINITION.—

(A) IN GENERAL.—In this subsection, the term ''over-the-counter hearing aid'' means a device that—

(i) uses the same fundamental scientific technology as air conduction hearing aids (as defined in section 874.3300 of title 21, Code of Federal Regulations, or any successor regulation) or wireless air conduction hearing aids (as defined in sec-

tion 874.3305 of title 21, Code of Federal Regulations, or any successor regulation);

(ii) is intended to be used by adults age 18 and older to compensate for perceived mild to moderate hearing impairment;

(iii) through tools, tests, or software, allows the user to control the over-the-counter hearing aid and customize it to the user's hearing needs;

(iv) may—

(I) use wireless technology; or

(II) include tests for self-assessment of hearing loss; and

(v) is available over-the-counter, without the supervision, prescription, or other order, involvement, or intervention of a licensed person, to consumers through in-person transactions, by mail, or online.

(B) EXCLUSION.—The term ''over-the-counter hearing aid'' does not include a personal sound amplification product intended to amplify sound for non-hearing impaired consumers in situations including hunting and birdwatching.

(2) REGULATION.—An over-the-counter hearing aid shall be subject to the regulations promulgated in accordance with section 49516(a) of this title and shall be exempt from sections 801.420 and 801.421 of title 21, Code of Federal Regulations (or any successor regulations).

**§ 13153. State and local requirements respecting devices**

(a) IN GENERAL.—Except as provided in subsection (b), a State or political subdivision of a State shall not establish or continue in effect with respect to a device intended for human use any requirement—

(1) that is different from, or in addition to, any requirement applicable under this subtitle to the device; or

(2) that relates to the safety or effectiveness of the device or to any other matter included in a requirement applicable to the device under this subtitle.

(b) EXEMPTION REQUIREMENTS.—On application of a State or a political subdivision of a State, the Secretary may, by regulation promulgated after notice and opportunity for an oral hearing, exempt from subsection (a), under such conditions as may be prescribed in the regula-

tion, a requirement of the State or political subdivision applicable to a device intended for human use if—

(1) the requirement is more stringent than a requirement under this subtitle that would be applicable to the device if an exemption were not in effect under this subsection; or

(2) the requirement—

(A) is required by compelling local conditions; and

(B) compliance with the requirement would not cause the device to be in violation of any applicable requirement under this subtitle.

**§ 13154. Postmarket surveillance**

(a) POSTMARKET SURVEILLANCE.—

(1) IN GENERAL.—

(A) CONDUCT.—The Secretary may by order, at the time of approval or clearance of a device or at any time after the approval or clearance, require a manufacturer to conduct postmarket surveillance for any device of the manufacturer that is a class II or class III device—

(i) the failure of which would be reasonably likely to have serious adverse health consequences;

(ii) that is expected to have significant use in pediatric populations; or

(iii) that is intended to be—

(I) implanted in the human body for more than 1 year; or

(II) a life-sustaining or life-supporting device used outside a device user facility.

(B) CONDITION.—The Secretary may order a postmarket surveillance under subparagraph (A) as a condition to approval or clearance of a device described in subparagraph (A)(ii).

(2) RULE OF CONSTRUCTION.—Paragraph (1) shall have no effect on authorities otherwise provided under this subtitle or regulations issued under this subtitle.

(b) SURVEILLANCE APPROVAL.—

(1) IN GENERAL.—

(A) SUBMISSION OF PLAN.—Each manufacturer required to conduct a surveillance of a device shall, within 30 days of receiving an order from the Secretary prescribing that the manufacturer is required under this section to conduct the surveillance, submit, for the ap-

proval of the Secretary, a plan for the required surveillance.

(B) DETERMINATIONS OF THE SECRETARY.—The Secretary, within 60 days of the receipt of the plan, shall determine if the person designated to conduct the surveillance has appropriate qualifications and experience to undertake the surveillance and if the plan will result in the collection of useful data that can reveal unforeseen adverse events or other information necessary to protect the public health.

(C) COMMENCEMENT OF SURVEILLANCE.—The manufacturer shall commence surveillance under this section not later than 15 months after the day on which the Secretary issues an order under this section.

(D) ORDER OF SECRETARY RELATING TO LENGTH OF SURVEILLANCE.—

(i) IN GENERAL.—Except as provided in paragraph (2), the Secretary, in consultation with the manufacturer, may by order require a prospective surveillance period of up to 36 months.

(ii) LONGER PERIOD TO BE MUTUALLY AGREED ON BETWEEN SECRETARY

AND MANUFACTURER.—Except as provided in paragraph (2), any determination by the Secretary that a longer period is necessary shall be made by mutual agreement between the Secretary and the manufacturer or, if no agreement can be reached, after the completion of a dispute resolution process as described in section 14304 of this title.

(2) LONGER SURVEILLANCE FOR PEDIATRIC DEVICES.—The Secretary may by order require a prospective surveillance period of more than 36 months with respect to a device that is expected to have significant use in pediatric populations if the period of more than 36 months is necessary in order to assess the impact of the device on growth and development, or the effects of growth, development, activity level, or other factors on the safety or efficacy of the device.

(c) DISPUTE RESOLUTION.—

(1) REQUEST FOR REVIEW.—A manufacturer may request review under section 14304 of this title of any order or condition requiring postmarket surveillance under this section.

(2) NONCOMPLIANCE DURING PENDENCY OF REVIEW.—During the pendency of the review, the device subject to such a postmarket surveillance order or condition shall not, because of noncompliance with the order or condition, be deemed in violation of section 10501(16)(A)(iii) of this title, adulterated under section 13101(f)(1) of this title, misbranded under section 13317(3) of this title, or in violation of, as applicable, section 13136(k) or 13142 of this title, unless considered necessary to protect the public health.

**§ 13155. Accredited persons**

(a) IN GENERAL.—

(1) REVIEW AND CLASSIFICATION OF DEVICES.—The Secretary shall, subject to paragraph (3), accredit persons for the purpose of reviewing reports submitted under section 13136(k) of this title and making recommendations to the Secretary regarding the initial classification of devices under section 13140(h)(1) of this title.

(2) REQUIREMENTS REGARDING REVIEW.—

(A) IN GENERAL.—In making a recommendation to the Secretary under paragraph (1), an accredited person shall notify the Sec-

retary in writing of the reasons for the recommendation.

(B) TIME PERIOD FOR REVIEW.—Not later than 30 days after the date on which the Secretary is notified under subparagraph (A) by an accredited person with respect to a recommendation of an initial classification of a device, the Secretary shall make a determination with respect to the initial classification.

(C) SPECIAL RULE.—The Secretary may change the initial classification under section 13140(h)(1) of this title that is recommended under paragraph (1) by an accredited person, and in that case shall provide to the person, and the person that submitted the report under section 13136(k) of this title for the device, a statement explaining in detail the reasons for the change.

(3) CERTAIN DEVICES.—

(A) IN GENERAL.—An accredited person may not be used to perform a review of—

(i) a class III device;

(ii) a device classified under section 13140(h)(2) of this title or designated under section 13144(d) of this title;

(iii) a device that is intended to be permanently implantable, life sustaining, or life supporting, unless otherwise determined by the Secretary in accordance with subparagraph (B)(i)(II) and listed as eligible for review under subparagraph (B)(iii); or

(iv) a device that is of a type, or subset of a type, listed as not eligible for review under subparagraph (B)(iii).

(B) DESIGNATION FOR REVIEW.—The Secretary shall—

(i) issue draft guidance on the factors the Secretary will use in determining whether a class I or class II device type, or subset of the device types, is eligible for review by an accredited person, including—

(I) the risk of the device type, or subset of the device type; and

(II) whether the device type, or subset of the device type, is permanently implantable, life sustaining, or life supporting, and whether there is a detailed public health justification for

permitting the review by an accredited person of the device type or subset;

(ii) not later than 24 months after the date on which the Secretary issues the draft guidance, finalize the guidance; and

(iii) beginning on the date the guidance is finalized, designate and post on the FDA website an updated list of class I and class II device types, or subsets of the device types, and the Secretary's determination with respect to whether each of those device types, or each of those subsets, is eligible or not eligible for review by an accredited person under this section based on the factors described in clause (i).

(C) INTERIM RULE.—Until the date on which the updated list is designated and posted in accordance with subparagraph (B)(iii), the list in effect on August 18, 2017, shall be in effect.

(b) ACCREDITATION.—

(1) PROGRAMS.—The Secretary shall provide for the accreditation through programs administered by the FDA, other government agencies, or by other qualified nongovernment organizations.

(2) ACCREDITATION.—

(A) IN GENERAL.—

(i) CRITERIA.—The Secretary shall establish and publish in the Federal Register criteria to accredit or deny accreditation to any person that requests to perform the duties specified in subsection (a).

(ii) RESPONSE TO REQUEST FOR ACCREDITATION.—The Secretary shall respond to a request for accreditation within 60 days of the receipt of the request.

(iii) SPECIFICATION OF ACTIVITIES.—The accreditation of a person shall specify the particular activities under subsection (a) for which the person is accredited.

(B) SUSPENSION OR WITHDRAWAL OF ACCREDITATION.—The Secretary may suspend or withdraw accreditation of any person accredited under this paragraph, after providing notice and an opportunity for an informal hearing, when the person is substantially not in compliance with the requirements of this section, poses a threat to public health, or fails to act in a manner that is consistent with the purposes of this section.

(C) PERFORMANCE AUDITING.—To ensure that persons accredited under this section will continue to meet the standards of accreditation, the Secretary shall—

(i) make onsite visits on a periodic basis to each accredited person to audit the performance of the person; and

(ii) take such additional measures as the Secretary determines to be appropriate.

(D) PERIODIC REACCREDITATION.—

(i) PERIOD.—Subject to suspension or withdrawal under subparagraph (B), any accreditation under this section shall be valid for a period of 3 years after its issuance.

(ii) RESPONSE TO REACCREDITATION REQUEST.—On the submission of a request by an accredited person for reaccreditation under this section, the Secretary shall approve or deny the request not later than 60 days after receipt of the request.

(iii) CRITERIA.—The Secretary shall establish and publish in the Federal Register criteria to reaccredit or deny reaccreditation to persons under this section.

The reaccreditation of persons under this section shall specify the particular activities under subsection (a), and the devices, for which the persons are reaccredited.

(3) QUALIFICATIONS.—An accredited person shall, at a minimum, meet the following requirements:

(A) The person may not be an employee of the Federal Government.

(B) The person shall be an independent organization that is not owned or controlled by a manufacturer, supplier, or vendor of devices and that has no organizational, material, or financial affiliation with such a manufacturer, supplier, or vendor.

(C) The person shall be a legally constituted entity permitted to conduct the activities for which it seeks accreditation.

(D) The person shall not engage in the design, manufacture, promotion, or sale of devices.

(E) The operations of the person shall be in accordance with generally accepted professional and ethical business practices.

(F) The person shall agree, at a minimum, to include in its request for accreditation a commitment to, at the time of accreditation, and at any time it is performing any review pursuant to this section—

(i) certify that reported information accurately reflects data reviewed;

(ii) limit work to that for which competence and capacity are available;

(iii) treat information received, records, reports, and recommendations as proprietary information;

(iv) promptly respond and attempt to resolve complaints regarding its activities for which it is accredited; and

(v) protect against the use, in carrying out subsection (a) with respect to a device, of any officer or employee of the person that has a financial conflict of interest regarding the device, and annually make available to the public disclosures of the extent to which the person, and the officers and employees of the person, have maintained compliance with requirements

under this clause relating to financial conflicts of interest.

(4) SELECTION OF ACCREDITED PERSONS.—The Secretary shall provide, for each person that chooses to use an accredited person to receive a report under section 13136(k) of this title, a panel of at least 2 or more accredited persons from which the regulated person may select 1 for a specific regulatory function.

(5) COMPENSATION OF ACCREDITED PERSONS.—Compensation for an accredited person shall be determined by agreement between the accredited person and the person that engages the services of the accredited person, and shall be paid by the person that engages the services.

(c) DURATION.—The authority provided by this section terminates on October 1, 2027.

**§ 13156. Priority review to encourage treatments for tropical diseases**

(a) DEFINITIONS.—In this section:

(1) PRIORITY REVIEW.—The term ''priority review'', with respect to a human drug application as defined in section 17906(a) of this title, means review and action by the Secretary on the human drug application not later than 6 months after receipt by

the Secretary of the human drug application, as described in the Manual of Policies and Procedures of the FDA and goals identified in the letters described in section 101(c) of the Prescription Drug User Fee Amendments of 2007 (Public Law 110–85, title I, 121 Stat. 825).

(2) PRIORITY REVIEW VOUCHER.—The term ''priority review voucher'' means a voucher issued by the Secretary to the sponsor of a tropical disease product application that entitles the holder of the voucher to priority review of a single human drug application submitted under section 13503(a) of this title or section 351 of the Public Health Service Act (42 U.S.C. 262) after the date of approval of the tropical disease product application.

(3) TROPICAL DISEASE.—The term ''tropical disease'' means any of the following:

(A) Tuberculosis.

(B) Malaria.

(C) Blinding trachoma.

(D) Buruli Ulcer.

(E) Cholera.

(F) Dengue/dengue haemorrhagic fever.

(G) Dracunculiasis (guinea-worm disease).

(H) Fascioliasis.

(I) Human African trypanosomiasis.

(J) Leishmaniasis.

(K) Leprosy.

(L) Lymphatic filariasis.

(M) Onchocerciasis.

(N) Schistosomiasis.

(O) Soil transmitted helmithiasis.

(P) Yaws.

(Q) Filovirus Diseases.

(R) Zika Virus Disease.

(S) Any other infectious disease for which there is no significant market in developed nations and that disproportionately affects poor and marginalized populations, designated by order of the Secretary.

(4) TROPICAL DISEASE PRODUCT APPLICATION.—The term ''tropical disease product application'' means an application that—

(A) is a human drug application as defined in section 17906(a) of this title—

(i) for prevention or treatment of a tropical disease;

(ii) that the Secretary considers eligible for priority review;

(iii) that contains reports of 1 or more new clinical investigations (other than bioavailability studies) that are essential to the approval of the application and conducted or sponsored by the sponsor of the application; and

(iv) that contains an attestation from the sponsor of the application that the reports were not submitted as part of an application for marketing approval or licensure by a regulatory authority in India, Brazil, Thailand, or any country that is a member of the Pharmaceutical Inspection Convention or the Pharmaceutical Inspection Cooperation Scheme prior to September 27, 2007;

(B) is approved after September 27, 2007, by the Secretary for use in the prevention, detection, or treatment of a tropical disease; and

(C) is for—

(i) a human drug, no active moiety (as defined by the Secretary in section 314.3 of title 21, Code of Federal Regulations (or any successor regulations)) of which has been approved in any other ap-

plication under section 13503(a) of this title; or

(ii) a biological product, no active ingredient of which has been approved in any other application under section 351 of the Public Health Service Act (42 U.S.C. 262).

(b) PRIORITY REVIEW VOUCHER.—

(1) IN GENERAL.—The Secretary shall award a priority review voucher to the sponsor of a tropical disease product application on approval by the Secretary of the tropical disease product application.

(2) TRANSFERABILITY.—The sponsor of a tropical disease product that receives a priority review voucher under this section may transfer (including by sale) the entitlement to the voucher to a sponsor of a human drug for which an application under section 13503(a) of this title or section 351 of the Public Health Service Act (42 U.S.C. 262) will be submitted after the date of the approval of the tropical disease product application. There is no limit on the number of times a priority review voucher may be transferred before the voucher is used.

(3) LIMITATION.—A sponsor of a tropical disease product may not receive a priority review

voucher under this section if the tropical disease product application was submitted to the Secretary prior to September 27, 2007.

(4) NOTIFICATION.—The sponsor of a human drug application shall notify the Secretary not later than 90 days prior to submission of the human drug application that is the subject of a priority review voucher of an intent to submit the human drug application, including the date on which the sponsor intends to submit the human drug application. The notification shall be a legally binding commitment to pay for the user fee to be assessed in accordance with this section.

(c) PRIORITY REVIEW USER FEE.—

(1) IN GENERAL.—The Secretary shall establish a user fee program under which a sponsor of a human drug application that is the subject of a priority review voucher shall pay to the Secretary a fee determined under paragraph (2). The fee shall be in addition to any fee required to be submitted by the sponsor under chapter 179 of this title.

(2) FEE AMOUNT.—The amount of the priority review user fee shall be determined each fiscal year by the Secretary and shall be based on the average cost incurred by the agency in the review of a

human drug application subject to priority review in the previous fiscal year.

(3) ANNUAL FEE SETTING.—The Secretary shall establish, before the beginning of each fiscal year, for that fiscal year, the amount of the priority review user fee.

(4) PAYMENT.—

(A) IN GENERAL.—The priority review user fee required by this subsection shall be due on the submission of a human drug application under section 13503(a) of this title or section 351 of the Public Health Service Act (42 U.S.C. 262) for which the priority review voucher is used.

(B) COMPLETE APPLICATION.—An application described under subparagraph (A) for which the sponsor requests the use of a priority review voucher shall be considered incomplete if the fee required by this subsection and all other applicable user fees are not paid in accordance with the Secretary's procedures for paying the fees.

(C) NO WAIVERS, EXEMPTIONS, REDUCTIONS, OR REFUNDS.—The Secretary may not

grant a waiver, exemption, reduction, or refund of any fees due and payable under this section.

(5) OFFSETTING COLLECTIONS.—Fees collected pursuant to this subsection for any fiscal year—

(A) shall be deposited and credited as offsetting collections to the account providing appropriations to the FDA; and

(B) shall not be collected for any fiscal year except to the extent provided in advance in appropriation Acts.

**§ 13157. Priority review for qualified infectious disease products**

(a) IN GENERAL.—If the Secretary designates a drug under section 13116(e) of this title as a qualified infectious disease product, the Secretary shall give priority review to the first application submitted for approval for that drug under section 13503 of this title or section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)) that requires clinical data (other than bioavailability studies) to demonstrate safety or effectiveness.

(b) CONSTRUCTION.—Nothing in this section prohibits the Secretary from giving priority review to a human drug application or efficacy supplement submitted for approval under section 13503 of this title that other-

wise meets the criteria for the Secretary to grant priority review.

**§ 13158. Ensuring cybersecurity of devices**

(a) DEFINITION OF CYBER DEVICE.—In this section, the term ''cyber device'' means a device that—

(1) includes software validated, installed, or authorized by the sponsor as a device or in a device;

(2) has the ability to connect to the internet; and

(3) contains any technological characteristics validated, installed, or authorized by the sponsor that could be vulnerable to cybersecurity threats.

(b) IN GENERAL.—A person that submits an application or submission under section 13136(k), 13140, or 13152(m) of this title or under subsection (c) or (f) of section 13142 of this title for a device that meets the definition of a cyber device under this section shall include such information as the Secretary may require to ensure that the cyber device meets the cybersecurity requirements under subsection (c).

(c) CYBERSECURITY REQUIREMENTS.—The sponsor of an application or submission described in subsection (b) shall—

(1) submit to the Secretary a plan to monitor, identify, and address, as appropriate, in a reasonable

time, postmarket cybersecurity vulnerabilities and exploits, including coordinated vulnerability disclosure and related procedures;

(2) design, develop, and maintain processes and procedures to provide a reasonable assurance that the device and related systems are cybersecure, and make available postmarket updates and patches to the device and related systems to address—

(A) on a reasonably justified regular cycle, known unacceptable vulnerabilities; and

(B) as soon as possible out of cycle, critical vulnerabilities that could cause uncontrolled risks;

(3) provide to the Secretary a software bill of materials, including commercial, open-source, and off-the-shelf software components; and

(4) comply with such other requirements as the Secretary may require through regulation to demonstrate reasonable assurance that the device and related systems are cybersecure.

(d) EXEMPTION.—

(1) IN GENERAL.—The Secretary may identify devices, or categories or types of devices, that are exempt from meeting the cybersecurity requirements

established by this section and regulations promulgated pursuant to this section.

(2) PUBLICATION.—The Secretary shall publish in the Federal Register, and update, as appropriate, a list of the devices, or categories or types of devices, identified by the Secretary under paragraph (1).

(e) RULE OF CONSTRUCTION.—Nothing in this section shall be construed to affect the Secretary's authority related to ensuring that there is a reasonable assurance of the safety and effectiveness of devices, which may include ensuring that there is a reasonable assurance of the cybersecurity of certain cyber devices, including for devices approved or cleared prior to December 29, 2022.

# Chapter 133—Misbranded Drugs and Devices

Sec.
13301. False or misleading label.
13302. Package form.
13303. Prominence of information on label.
13304. Designation of drugs or devices by established names.
13305. Directions for use and warnings on label.
13306. Representations as recognized drug.
13307. Deteriorative drugs.
13308. Misleading container; imitation; offered for sale under another name.
13309. Health-endangering when used as prescribed.
13310. Color additives.
13311. Prescription drug advertisements.
13312. Drugs or devices from nonregistered establishments.
13313. Packaging or labeling of drugs in violation of regulations.
13314. Restricted devices using false or misleading advertising or used in violation of regulations.
13315. Restricted device advertisements.
13316. Devices subject to performance standards not bearing requisite labeling.
13317. Devices for which there has been a failure or refusal to give required notification or to furnish required material or information.
13318. Identification of manufacturer.
13319. Reprocessed single-use devices.

13320. New animal drugs.
13321. Nonprescription drugs.
13322. Drugs subject to approved risk evaluation and mitigation strategy.
13323. Postmarket studies and clinical trials; new safety information in labeling.
13324. Unpaid fees; failure to submit identifying information.
13325. False or misleading advertisement or promotion of compounded drug.
13326. Failure to bear product identifier.
13327. Improper labeling of antimicrobial drugs.
13328. Nonprescription drug subject to regulation.
13329. Drugs manufactured, prepared, propagated, compounded, or processed in facilities for which fees have not been paid.
13330. Product information prior to approval.

**§ 13301. False or misleading label**

(a) DEFINITION OF HEALTH CARE ECONOMIC INFORMATION.—

(1) IN GENERAL.—In this section, the term ''health care economic information'' means any analysis (including the clinical data, inputs, clinical or other assumptions, methods, results, and other components underlying or comprising the analysis) that identifies, measures, or describes the economic consequences, which may be based on the separate or aggregated clinical consequences of the represented health outcomes, of the use of a drug or device. The analysis may be comparative to the use of another drug or device, to another health care intervention, or to no intervention.

(2) EXCLUSION.—The term ''health care economic information'' does not include any analysis that relates only to an indication that is not approved under chapter 135 of this title or section 13136(k), 13140(h)(2), or 13142 of this title or

under section 351 of the Public Health Service Act (42 U.S.C. 262) for the drug or device.

(b) IN GENERAL.—A drug or device shall be deemed to be misbranded if its labeling is false or misleading in any particular.

(c) EXCEPTION FOR CERTAIN HEALTH CARE ECONOMIC INFORMATION.—Health care economic information provided to a payor, formulary committee, or other similar entity with knowledge and expertise in the area of health care economic analysis, carrying out its responsibilities for the selection of drugs or devices for coverage or reimbursement, shall not be considered to be false or misleading under this section if the health care economic information—

(1) relates to an indication approved under chapter 135 of this title or section 13136(k), 13140(h)(2), or 13142 of this title or under section 351 of the Public Health Service Act (42 U.S.C. 262) for the drug or device;

(2) is based on competent and reliable scientific evidence; and

(3) includes, where applicable, a conspicuous and prominent statement describing any material differences between the health care economic information and the labeling approved for the drug or de-

vice under chapter 135 of this title or section 13136(k), 13140(h)(2), or 13142 of this title or under section 351 of the Public Health Service Act (42 U.S.C. 262).

(d) INAPPLICABILITY OF REQUIREMENTS.—The requirements set forth in chapter 135 of this title or in section 13136(k), 13140(h)(2), or 13142 of this title or in section 351 of the Public Health Service Act (42 U.S.C. 262) shall not apply to health care economic information provided to a payor, committee, or entity in accordance with this section.

(e) AVAILABILITY OF INFORMATION TO SECRETARY.—Information that is relevant to the substantiation of the health care economic information presented pursuant to this section shall be made available to the Secretary upon request.

**§ 13302. Package form**

(a) IN GENERAL.—A drug or device shall be deemed to be misbranded if in package form unless it bears a label containing—

(1) the name and place of business of the manufacturer, packer, or distributor; and

(2) an accurate statement of the quantity of the contents in terms of weight, measure, or numerical count.

(b) REASONABLE VARIATIONS; EXEMPTIONS.—Under subsection (a)(2), reasonable variations shall be permitted, and exemptions as to small packages shall be established, by regulations prescribed by the Secretary.

**§ 13303. Prominence of information on label**

A drug or device shall be deemed to be misbranded if any word, statement, or other information required by or under authority of this subtitle to appear on the label or labeling is not prominently placed on the label or labeling with such conspicuousness (as compared with other words, statements, designs, or devices, in the labeling) and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.

**§ 13304. Designation of drugs or devices by established names**

(a) DRUGS.—

(1) DEFINITION OF ESTABLISHED NAME.—

(A) IN GENERAL.—In this subsection, the term ''established name'', with respect to a drug or ingredient of a drug, means—

(i) the applicable official name designated pursuant to section 13134 of this title; or

(ii) if there is no such name and the drug, or the ingredient, is an article recognized in an official compendium, then the official title of the drug or ingredient in the compendium; or

(iii) if neither clause (i) nor (ii) applies, then the common or usual name, if any, of the drug or of the ingredient.

(B) ARTICLE RECOGNIZED IN BOTH COMPENDIA.—If subparagraph (A)(ii) applies to an article recognized in the United States Pharmacopeia and in the Homoeopathic Pharmacopoeia under different official titles, the official title used in the United States Pharmacopeia shall apply unless it is labeled and offered for sale as a homoeopathic drug, in which case the official title used in the Homoeopathic Pharmacopoeia shall apply.

(2) IN GENERAL.—A drug shall be deemed to be misbranded, unless its label bears, to the exclusion of any other nonproprietary name (except the applicable systematic chemical name or the chemical formula)—

(A) the established name of the drug, if there is such a name;

(B) the established name and quantity or, if determined to be appropriate by the Secretary, the proportion of each active ingredient, including the quantity, kind, and proportion of any alcohol, and also including, whether active or not, the established name and quantity or, if determined to be appropriate by the Secretary, the proportion of any bromides, ether, chloroform, acetanilide, acetophenetidin, amidopyrine, antipyrine, atropine, hyoscine, hyoscyamine, arsenic, digitalis, digitalis glucosides, mercury, ouabain, strophanthin, strychnine, thyroid, or any derivative or preparation of any such substances, contained in the drug, except that the requirement for stating the quantity of the active ingredients, other than the quantity of those specifically named in this subparagraph, shall not apply to nonprescription drugs not intended for human use; and

(C) the established name of each inactive ingredient listed in alphabetical order on the outside container of the retail package and, if determined to be appropriate by the Secretary, on the immediate container, as prescribed in

regulation promulgated by the Secretary, except that—

(i) nothing in this subparagraph shall be deemed to require that any trade secret be divulged; and

(ii)(I) the requirements of this subparagraph with respect to alphabetical order shall apply only to nonprescription drugs that are not also cosmetics; and

(II) this subparagraph shall not apply to nonprescription drugs not intended for human use.

(3) PRINTING AND TYPE SIZE REQUIREMENTS RELATING TO PRESCRIPTION DRUGS.—For any prescription drug, the established name of the drug or ingredient, as the case may be, on the label (and on any labeling on which a name for the drug or ingredient is used) shall be printed prominently and in type at least half as large as that used on the label for any proprietary name or designation for the drug or ingredient.

(4) EXCEPTIONS ESTABLISHED BY REGULATION.—To the extent that compliance with the requirements of subparagraph (B) or (C) of paragraph (2) or paragraph (3) is impracticable, exemptions

shall be established by regulations promulgated by the Secretary.

(b) DEVICES.—

(1) DEFINITION OF ESTABLISHED NAME.—In this subsection, the term ''established name'', with respect to a device, means—

(A) the applicable official name of the device designated pursuant to section 13134 of this title;

(B) if there is no such name and the device is an article recognized in an official compendium, then the official title of the device in the compendium; or

(C) if neither subparagraph (A) nor subparagraph (B) applies, then any common or usual name of the device.

(2) IN GENERAL.—A device shall be deemed to be misbranded if it has an established name, unless its label bears, to the exclusion of any other nonproprietary name, its established name prominently printed in type at least half as large as that used on the label for any proprietary name or designation for the device.

(3) EXCEPTIONS ESTABLISHED BY REGULATION.—To the extent compliance with the require-

ments of paragraph (2) is impracticable, exemptions shall be established by regulations promulgated by the Secretary.

**§ 13305. Directions for use and warnings on label**

(a) IN GENERAL.—A drug or device shall be deemed to be misbranded unless its labeling bears—

(1) adequate directions for use; and

(2) in such manner and form as are necessary for the protection of users, adequate warnings—

(A) against use in those pathological conditions or by children where its use may be dangerous to health; or

(B) against unsafe dosage or methods or duration of administration or application.

(b) EXEMPTIONS BY REGULATIONS.—If any requirement of subsection (a)(1), as applied to any drug or device, is not necessary for the protection of the public health, the Secretary shall promulgate regulations exempting the drug or device from the requirement.

(c) DEVICES FOR WHICH REQUIRED LABELING MAY BE MADE AVAILABLE BY ELECTRONIC MEANS.—Required labeling for prescription devices intended for use in health care facilities or by a health care professional and required labeling for in vitro diagnostic devices intended for use by health care professionals or in blood es-

tablishments may be made available solely by electronic means, provided that—

(1) the labeling complies with all applicable requirements of law; and

(2) the manufacturer—

(A) affords the users the opportunity to request the labeling in paper form; and

(B) after the request, promptly provides the requested information without additional cost.

**§ 13306. Representations as recognized drug**

(a) IN GENERAL.—A drug shall be deemed to be misbranded if it purports to be a drug the name of which is recognized in an official compendium, unless it is packaged and labeled as prescribed in the compendium.

(b) MODIFICATION OF METHOD OF PACKING.—The method of packing for a drug described in subsection (a) may be modified with the consent of the Secretary.

(c) DRUGS RECOGNIZED IN BOTH COMPENDIA.—

(1) IN GENERAL.—If a drug is recognized in both the United States Pharmacopeia and the Homoeopathic Pharmacopoeia of the United States, it shall be subject to the requirements of the United States Pharmacopoeia with respect to packaging and labeling unless it is labeled and offered for sale as

a homoeopathic drug, in which case it shall be subject to the provisions of the Homoeopathic Pharmacopoeia of the United States, and not those of the United States Pharmacopoeia.

(2) INCONSISTENT REQUIREMENTS WITH RESPECT TO DESIGNATED NAME.—In the event of inconsistency between the requirements of this section and those of section 13304 of this title as to the name by which the drug or its ingredients shall be designated, the requirements of section 13304 of this title shall prevail.

**§ 13307. Deteriorative drugs**

(a) IN GENERAL.—A drug shall be deemed to be misbranded if it has been found by the Secretary to be a drug liable to deterioration, unless it is packaged in such form and manner, and its label bears a statement of such precautions, as the Secretary shall by regulations require as necessary for the protection of the public health.

(b) REQUIREMENTS TO BE FIRST PRESCRIBED BY BODY CHARGED WITH REVISION OF COMPENDIUM.—The Secretary shall not establish any regulation under subsection (a) for any drug recognized in an official compendium until—

(1) the Secretary informs the appropriate body charged with the revision of the compendium of the need for the packaging or labeling requirements; and

(2) the body fails within a reasonable time to prescribe the requirements.

**§ 13308. Misleading container; imitation; offered for sale under another name**

A drug shall be deemed to be misbranded—

(1) if its container is made, formed, or filled so as to be misleading;

(2) if it is an imitation of another drug; or

(3) if it is offered for sale under the name of another drug.

**§ 13309. Health-endangering when used as prescribed**

A drug or device shall be deemed to be misbranded if it is dangerous to health when used in the dosage or manner, or with the frequency or duration, prescribed, recommended, or suggested in the labeling of the drug or device.

**§ 13310. Color additives**

A drug or device shall be deemed to be misbranded if it is a color additive the intended use of which is for the purpose of coloring only, unless its packaging and labeling are in conformity with such packaging and labeling requirements applicable to the color additive, as may be

contained in regulations issued under section 17701 of this title.

**§ 13311. Prescription drug advertisements**

(a) IN GENERAL.—A drug shall be deemed to be misbranded if it is a prescription drug distributed or offered for sale in any State, unless the manufacturer, packer, or distributor of the prescription drug includes—

(1) in all advertisements and other descriptive printed matter issued or caused to be issued by the manufacturer, packer, or distributor with respect to that drug, a true statement of—

(A) the established name as defined in section 13304 of this title, printed prominently and in type at least half as large as that used for any trade or brand name of the drug;

(B) the formula showing quantitatively each ingredient of the drug to the extent required for labels under section 13304 of this title; and

(C) such other information in brief summary relating to side effects, contraindications, and effectiveness as shall be required in regulations that shall be issued by the Secretary in accordance with section 17501(a) of this title; and

(2) in the case of published direct-to-consumer advertisements, the following statement printed in conspicuous text: ''You are encouraged to report negative side effects of prescription drugs to the FDA. Visit www.fda.gov/medwatch, or call 1–800-FDA-1088.''.

(b) PRIOR APPROVAL OF CONTENT.—Except in extraordinary circumstances, a regulation issued under this section shall not require prior approval by the Secretary of the content of any advertisement.

(c) INAPPLICABILITY OF CERTAIN PROVISIONS OF THE FEDERAL TRADE COMMISSION ACT.—An advertisement of a prescription drug, published after the effective date of regulations issued under this section applicable to advertisements of prescription drugs, shall not with respect to the matters specified in this section or covered by the regulations, be subject to sections 12 through 17 of the Federal Trade Commission Act (15 U.S.C. 52 through 57).

(d) INAPPLICABILITY TO LABELING.—This section shall not be applicable to any printed matter that the Secretary determines to be labeling as defined in section 10101(a) of this title.

(e) EFFECT OF CONVENTION ON PSYCHOTROPIC SUBSTANCES.—Nothing in the Convention on Psycho-

tropic Substances, done at Vienna, Austria February 21, 1971 (32 UST 543; TIAS 9725), shall be construed to prevent drug price communications to consumers.

(f) SPECIAL REQUIREMENT FOR TELEVISION OR RADIO ADVERTISEMENTS.—

(1) IN GENERAL.—In the case of an advertisement for a drug subject to section 13103(a)(1) of this title presented directly to consumers in television or radio format and stating the name of the drug and its conditions of use, the major statement relating to side effects and contraindications shall be presented in a clear, conspicuous, and neutral manner.

(2) REGULATIONS.—Not later than 30 months after September 27, 2007, the Secretary shall by regulation establish standards for determining whether a major statement relating to side effects and contraindications of a drug, described in paragraph (1), is presented in the manner required under the paragraph.

**§ 13312. Drugs or devices from nonregistered establishments**

A drug or device shall be deemed to be misbranded—

(1) if it was manufactured, prepared, propagated, compounded, or processed in an establishment not registered under section 13136 of this title;

(2) if it is a drug and was imported or offered for import by a commercial importer of drugs not registered under section 20101(s) of this title;

(3) if it was not included in a list required by section 13136(j) of this title;

(4) if a notice or other information respecting it was not provided as required by subsection (j) or (k) of section 13136 of this title; or

(5) if it is a device and it does not bear such symbols from the uniform system for identification of devices prescribed under section 13136(e) of this title as the Secretary by regulation requires.

**§ 13313. Packaging or labeling of drugs in violation of regulations**

A drug shall be deemed to be misbranded if its packaging or labeling is in violation of an applicable regulation issued pursuant to section 3 or 4 of the Poison Prevention Packaging Act of 1970 (15 U.S.C. 1472, 1473).

**§ 13314. Restricted devices using false or misleading advertising or used in violation of regulations**

A device shall be deemed to be misbranded in the case of any restricted device distributed or offered for sale in any State, if—

(1) its advertising is false or misleading in any particular; or

(2) it is sold, distributed, or used in violation of regulations prescribed under section 13152(e) of this title.

**§ 13315. Restricted device advertisements**

(a) IN GENERAL.—A device shall be deemed to be misbranded in the case of any restricted device distributed or offered for sale in any State, unless the manufacturer, packer, or distributor of the restricted device includes in all advertisements and other descriptive printed matter issued or caused to be issued by the manufacturer, packer, or distributor with respect to that device—

(1)(A) true statement of the device's established name as defined in section 13304 of this title, printed prominently and in type at least half as large as that used for any trade or brand name of the device; and

(B) a brief statement of the intended uses of the device and relevant warnings, precautions, side effects, and contraindications; and

(2) in the case of specific devices made subject to a finding by the Secretary after notice and opportunity for comment that the action is necessary to protect the public health, a full description of the components of the device or the formula showing quantitatively each ingredient of the device to the extent required in regulations that shall be issued by the Secretary after an opportunity for a hearing.

(b) PRIOR APPROVAL OF CONTENT.—Except in extraordinary circumstances, a regulation issued under this section shall not require prior approval by the Secretary of the content of any advertisement.

(c) INAPPLICABILITY OF THE FEDERAL TRADE COMMISSION ACT.—An advertisement of a restricted device, published after May 28, 1976, shall not, with respect to the matters specified in this section or covered by regulations issued under this section, be subject to sections 12 through 15 of the Federal Trade Commission Act (15 U.S.C. 52 through 55).

(d) INAPPLICABILITY TO LABELING.—This section shall not be applicable to any printed matter that the Sec-

retary determines to be labeling as defined in section 10101(a) of this title.

**§ 13316. Devices subject to performance standards not bearing requisite labeling**

A device shall be deemed to be misbranded if it is subject to a performance standard established under section 13141 of this title, unless it bears such labeling as may be prescribed in the performance standard.

**§ 13317. Devices for which there has been a failure or refusal to give required notification or to furnish required material or information**

A device shall be deemed to be misbranded if there was a failure or refusal—

(1) to comply with any requirement prescribed under section 13149 of this title respecting the device;

(2) to furnish any material or information required by or under section 13151 of this title respecting the device; or

(3) to comply with a requirement under section 13154 of this title respecting the device.

**§ 13318. Identification of manufacturer**

(a) IN GENERAL.—Subject to subsection (b), a device shall be deemed to be misbranded if it is a reprocessed

single-use device, unless it, or an attachment to the device, prominently and conspicuously bears—

(1) the name of the manufacturer of the reprocessed device;

(2) a generally recognized abbreviation of the name; or

(3) a unique and generally recognized symbol identifying the manufacturer.

(b) DETACHABLE LABEL IN LIEU OF NAME, ABBREVIATION, OR SYMBOL.—If the original device or an attachment to the device does not prominently and conspicuously bear the name of the manufacturer of the original device, a generally recognized abbreviation of the name, or a unique and generally recognized symbol identifying the manufacturer, a reprocessed device may satisfy the requirements of subsection (a) through the use of a detachable label on the packaging that identifies the manufacturer and is intended to be affixed to the medical record of a patient.

(c) GUIDANCE.—The Secretary shall issue guidance to identify circumstances in which the name of the manufacturer of the original device, a generally recognized abbreviation of the name of the manufacturer, or a unique and generally recognized symbol identifying the manufac-

turer, is not ''prominent and conspicuous'' as used in this section.

**§ 13319. Reprocessed single-use devices**

(a) IN GENERAL.—A device shall be deemed to be misbranded if it is a reprocessed single-use device, unless all labeling of the device prominently and conspicuously bears the statement ''Reprocessed device for single use. Reprocessed by _____.''.

(b) SPACE.—In subsection (a), the name of the manufacturer of the reprocessed device shall be placed in the space identifying the person responsible for reprocessing.

**§ 13320. New animal drugs**

(a) IN GENERAL.—A drug shall be deemed to be misbranded if it is a new animal drug—

(1) that is conditionally approved under section 14502 of this title and its labeling does not conform with the approved application or section 14502(g) of this title, or that is not conditionally approved under section 14502 of this title and its label bears the statement set forth in section 14502(g)(1)(A) of this title;

(2) that is indexed under section 14503 of this title and its labeling does not conform with the index listing under subsection (e) or (h) of section 14503 of this title, or that has not been indexed under sec-

tion 14503 of this title and its label bears the statement set forth in section 14503(h) of this title; or

(3) for which an application has been approved under chapter 137 of this title and the labeling of the drug does not include the application number in the format ''Approved by FDA under (A)NADA # xxx–xxx'', except that this paragraph shall not apply to representative labeling required under section 514.1(b)(3)(v)(b) of title 21, Code of Federal Regulations, or any successor regulation, for animal feed bearing or containing a new animal drug.

(b) EFFECTIVE DATE.—Subsection (a)(3) shall apply beginning on September 30, 2023.

**§ 13321. Nonprescription drugs**

A drug shall be deemed to be misbranded if it is a nonprescription drug (as defined in section 18901 of this title) that is marketed in the United States, unless the label of the drug includes a domestic address or domestic phone number through which the responsible person (as described in section 18901 of this title) may receive a report of a serious adverse event (as defined in section 18901 of this title) with the drug.

**§ 13322. Drugs subject to approved risk evaluation and mitigation strategy**

A drug shall be deemed to be misbranded if it is subject to an approved risk evaluation and mitigation strategy pursuant to section 13516 of this title and the responsible person (as the term is used in section 13111 of this title) fails to comply with a requirement of the strategy provided for under subsection (d), (e), or (f) of section 13111 of this title.

**§ 13323. Postmarket studies and clinical trials; new safety information in labeling**

A drug shall be deemed to be misbranded if the responsible person (as the term is used in section 13515 of this title) is in violation of a requirement established under subsection (c) or subsection (d) of section 13515 of this title with respect to the drug.

**§ 13324. Unpaid fees; failure to submit identifying information**

A drug shall be deemed to be misbranded if—

(1) it is a drug or an active pharmaceutical ingredient; and

(2)(A) it was manufactured, prepared, propagated, compounded, or processed in a facility—

(i) for which fees have not been paid as required by section 17952(a)(4) of this title; or

(ii) for which identifying information required by section 17952(f) of this title has not been submitted; or

(B) it contains an active pharmaceutical ingredient that was manufactured, prepared, propagated, compounded, or processed in a facility described in subparagraph (A).

**§ 13325. False or misleading advertisement or promotion of compounded drug**

A drug shall be deemed to be misbranded if it is a compounded drug and its advertising or promotion is false or misleading in any particular.

**§ 13326. Failure to bear product identifier**

A drug shall be deemed to be misbranded if it fails to bear the product identifier as required by section 14902 of this title.

**§ 13327. Improper labeling of antimicrobial drugs**

A drug shall be deemed to be misbranded if it is an antimicrobial drug, as defined in section 13138(b) of this title, and its labeling fails to conform with the requirements under section 13138(f) of this title.

**§ 13328. Nonprescription drug subject to regulation**

A drug shall be deemed to be misbranded if it is a nonprescription drug that is subject to section 13118 of this title, is not the subject of an application approved

under chapter 135 of this title, and does not comply with the requirements under section 13118 of this title.

**§ 13329. Drugs manufactured, prepared, propagated, compounded, or processed in facilities for which fees have not been paid**

A drug shall be deemed to be misbranded if it was manufactured, prepared, propagated, compounded, or processed in a facility for which fees have not been paid as required by section 17977 of this title.

**§ 13330. Product information prior to approval**

(a) DEFINITION OF PRODUCT INFORMATION.—In this section, the term ''product information'' includes—

(1) information describing the drug or device (such as drug class, device description, and features);

(2) information about the indication or indications being investigated;

(3) the anticipated timeline for a possible approval, clearance, marketing authorization, or licensure pursuant to chapter 135 of this title or section 13136(k), 13140, or 13142 of this title or section 351 of the Public Health Service Act (42 U.S.C. 262);

(4) drug or device pricing information;

(5) patient utilization projections;

(6) product-related programs or services; and

(7) factual presentations of results from studies that do not characterize or make conclusions regarding safety or efficacy.

(b) IN GENERAL.—A drug or device shall be deemed to be misbranded unless its labeling bears adequate directions for use in accordance with section 13305 of this title, except that (in addition to drugs or devices that conform with exemptions pursuant to section 13305 of this title) no drug or device shall be deemed to be misbranded under section 13305 of this title through the provision of truthful and not misleading product information to a payor, formulary committee, or other similar entity with knowledge and expertise in the area of health care economic analysis carrying out its responsibilities for the selection of drugs or devices for coverage or reimbursement if the product information relates to an investigational drug or device or investigational use of a drug or device that is approved, cleared, granted marketing authorization, or licensed under chapter 135 of this title or section 13136(k), 13140(h)(2), or 13142 of this title or section 351 of the Public Health Service Act (42 U.S.C. 262) (as applicable), provided—

(1) the product information includes—

(A) a clear statement that the investigational drug or device or investigational use of a drug or device has not been approved, cleared, granted marketing authorization, or licensed under chapter 135 of this title or section 13136(k), 13140(h)(2), or 13142 of this title or section 351 of the Public Health Service Act (42 U.S.C. 262) (as applicable) and that the safety and effectiveness of the drug or device for that use has not been established;

(B) information related to the stage of development of the drug or device involved, such as—

(i) the status of any study or studies in which the investigational drug or device or investigational use is being investigated;

(ii) how the study or studies relate to the overall plan for the development of the drug or device; and

(iii) whether an application, premarket notification, or request for classification for the investigational drug or device or investigational use has been submitted to the Secretary or when such a submission is planned;

(C) in the case of information that includes factual presentations of results from studies, which shall not be selectively presented, a description of—

(i) all material aspects of study design, methodology, and results; and

(ii) all material limitations related to the study design, methodology, and results;

(D) where applicable, a prominent statement disclosing the indication or indications for which the Secretary has approved, granted marketing authorization for, cleared, or licensed the product pursuant to chapter 135 of this title or section 13136(k), 13140(h)(2), or 13142 of this title or section 351 of the Public Health Service Act (42 U.S.C. 262), and a copy of the most current required labeling; and

(E) updated information, if previously communicated information becomes materially outdated as a result of significant changes or as a result of new information regarding the product or its review status; and

(2) the product information does not include—

(A) information that represents that an unapproved product—

(i) has been approved, cleared, granted marketing authorization, or licensed under chapter 135 of this title or section 13136(k), 13140(h)(2), or 13142 of this title or section 351 of the Public Health Service Act (42 U.S.C. 262) (as applicable); or

(ii) has otherwise been determined to be safe or effective for the purpose or purposes for which the drug or device is being studied; or

(B) information that represents—

(i) that an unapproved use of a drug or device that has been approved, cleared, granted marketing authorization, or licensed under chapter 135 of this title or section 13136(k), 13140(h)(2), or 13142 of this title or section 351 of the Public Health Service Act (42 U.S.C. 262) (as applicable) is so approved, cleared, granted marketing authorization, or licensed; or

(ii) that the product is safe or effective for the use or uses for which the drug or device is being studied.

13506. Withdrawal of and suspension of approval.
13507. Revocation of order refusing, withdrawing, or suspending approval of application.
13508. Service of orders.
13509. Appeal from order.
13510. Drugs for investigational use.
13511. Abbreviated new drug applications.
13512. Records and reports.
13513. Public disclosure of safety and effectiveness data and action package.
13514. Scientific advisory panels.
13515. Postmarket studies and clinical trials; labeling changes.
13516. Risk evaluation and mitigation strategy.
13517. Petitions and civil actions regarding approval of certain applications.
13518. Postmarket drug safety information for patients and providers.
13519. Referral to advisory committee.
13520. Database for authorized generic drugs.
13521. Certain drugs containing single enantiomers.
13522. Antibiotic drugs submitted before November 21, 1997.
13523. Deadline for determination on certain petitions.
13524. Date of approval in the case of recommended controls under division A of subtitle V of this title.
13525. Contrast agents intended for use with applicable medical imaging devices.
13526. Diversity action plan for clinical studies.

## § 13501. Definitions

In this chapter:

(1) DATE OF APPROVAL.—With respect to an application described in section 13524 of this title, the term ''date of approval'' means the later of—

(A) the date an application under section 13503 of this title is approved under section 13504 of this title; or

(B) the date of issuance of the interim final rule controlling the drug.

(2) NONCLINICAL TEST.—The term ''nonclinical test'' means a test conducted in vitro, in silico, or in chemico, or a nonhuman in vivo test, that occurs before or during the clinical trial phase of the investigation of the safety and effectiveness of a drug. The test may include the following:

(A) Cell-based assays.

(B) Organ chips and microphysiological systems.

(C) Computer modeling.

(D) Other nonhuman or human biology-based test methods, such as bioprinting.

(E) Animal tests.

(3) PATENT.—The term ''patent'' means a patent issued by the United States Patent and Trademark Office.

**§ 13502. Necessity of effective approval of application**

A person shall not introduce or deliver for introduction into interstate commerce any new drug, unless an approval of an application filed pursuant to section 13503 or 13511 of this title is effective with respect to the drug.

**§ 13503. Filing application; contents**

(a) IN GENERAL.—

(1) PERSON THAT MAY FILE; REQUIRED SUBMISSIONS.—Any person may file with the Secretary

an application with respect to any drug subject to the provisions of section 13502 of this title. The person shall submit to the Secretary as part of the application—

(A) full reports of investigations that have been made to show whether the drug is safe for use and whether the drug is effective in use;

(B) a full list of the articles used as components of the drug;

(C) a full statement of the composition of the drug;

(D) a full description of the methods used in, and the facilities and controls used for, the manufacture, processing, and packing of the drug;

(E) such samples of the drug and of the articles used as components of the drug as the Secretary may require;

(F) specimens of the labeling proposed to be used for the drug;

(G) any assessments required under section 13113 of this title; and

(H) the patent number and expiration date of each patent for which a claim of patent infringement could reasonably be asserted if a

person not licensed by the owner of the patent engaged in the manufacture, use, or sale of the drug, and that—

(i) claims the drug for which the applicant submitted the application and is a drug substance (active ingredient) patent or a drug product (formulation or composition) patent; or

(ii) claims a method of using the drug for which approval is sought or has been granted in the application.

(2) PATENT ISSUANCE SUBSEQUENT TO FILING OF APPLICATION.—If an application is filed under this section for a drug, and a patent of the type described in paragraph (1)(H) is issued after the filing date but before approval of the application, the applicant shall amend the application to include the patent number and expiration date.

(b) ADDITIONAL REQUIREMENTS FOR CERTAIN APPLICATIONS.—An application submitted under subsection (a) for a drug for which the investigations described in subsection (a)(1)(A) (which investigations were relied on by the applicant for approval of the application) were not conducted by or for the applicant and for which drug the applicant has not obtained a right of reference or use from

the person by or for whom the investigations were conducted shall also include—

(1) a certification, in the opinion of the applicant and to the best of the applicant's knowledge, with respect to each patent that claims the drug for which the investigations were conducted or that claims a use for the drug for which the applicant is seeking approval under this section and for which information is required to be filed under subsection (a) or section 13504 of this title—

(A) that the patent information has not been filed;

(B) that the patent has expired;

(C) of the date on which the patent will expire; or

(D) that the patent is invalid or will not be infringed by the manufacture, use, or sale of the new drug for which the application is submitted; and

(2) if, with respect to the drug for which investigations described in subsection (a)(1)(A) were conducted, information was filed under subsection (a) or section 13504 of this title for a method of use patent that does not claim a use for which the applicant is seeking approval under this section, a statement

that the method of use patent does not claim that use.

(c) NOTICE OF OPINION THAT PATENT IS INVALID OR WILL NOT BE INFRINGED.—

(1) AGREEMENT TO GIVE NOTICE.—An applicant that makes a certification described in subsection (b)(1)(D) shall include in the application a statement that the applicant will give notice as required by this subsection.

(2) TIMING OF NOTICE.—An applicant that makes a certification described in subsection (b)(1)(D) shall give notice as required under this subsection—

(A) if the certification is in the application, not later than 20 days after the date of the postmark on the notice with which the Secretary informs the applicant that the application has been filed; or

(B) if the certification is in an amendment or supplement to the application, at the time at which the applicant submits the amendment or supplement, regardless of whether the applicant has already given notice with respect to another such certification contained in the application

or in an amendment or supplement to the application.

(3) RECIPIENTS OF NOTICE.—An applicant required under this subsection to give notice shall give notice to—

(A) each owner of the patent that is the subject of the certification (or a representative of the owner designated to receive such a notice); and

(B) the holder of the approved application under this section for the drug that is claimed by the patent or a use of which is claimed by the patent (or a representative of the holder designated to receive such a notice).

(4) CONTENTS OF NOTICE.—A notice required under this subsection shall—

(A) state that an application that contains data from bioavailability or bioequivalence studies has been submitted under this section for the drug with respect to which the certification is made to obtain approval to engage in the commercial manufacture, use, or sale of the drug before the expiration of the patent referred to in the certification; and

(B) include a detailed statement of the factual and legal basis of the opinion of the applicant that the patent is invalid or will not be infringed.

(d) AMENDMENT OR SUPPLEMENTATION OF AN APPLICATION FOR A DRUG TO SEEK APPROVAL FOR A DIFFERENT DRUG.—

(1) IN GENERAL.—An applicant may not amend or supplement an application referred to in subsection (b) to seek approval of a drug that is a different drug than the drug identified in the application as submitted to the Secretary.

(2) DIFFERENT STRENGTH.—With respect to the drug for which such an application is submitted, nothing in this section or section 13504(c) of this title prohibits an applicant from amending or supplementing the application to seek approval of a different strength.

(e) GUIDANCE FOR INDIVIDUALS WHO REVIEW APPLICATIONS; AGREEMENT ON DESIGN AND SIZE OF CLINICAL TRIALS OR STUDIES.—

(1) GUIDANCE.—The Secretary shall issue guidance for the individuals who review applications submitted under subsection (a) or under section 351

of the Public Health Service Act (42 U.S.C. 262), which guidance shall—

(A) relate to promptness in conducting the review, technical excellence, lack of bias and conflict of interest, and knowledge of regulatory and scientific standards; and

(B) apply equally to all individuals who review the applications.

(2) AGREEMENT.—

(A) REVIEWING DIVISION.—In this paragraph, the reviewing division is the division responsible for the review of an application for approval of a drug under this section or section 351 of the Public Health Service Act (42 U.S.C. 262) (including all scientific and medical matters, chemistry, manufacturing, and controls).

(B) MEETING TO REACH AGREEMENT.—

(i) IN GENERAL.—The Secretary shall meet with a sponsor of an investigation or an applicant for approval for a drug under this section or section 351 of the Public Health Service Act (42 U.S.C. 262) if the sponsor or applicant makes a reasonable written request for a meeting for the pur-

pose of reaching agreement on the design and size—

(I)(aa) of clinical trials intended to form the primary basis of an effectiveness claim; or

(bb) in the case where human efficacy studies are not ethical or feasible, of animal and any associated clinical trials that, in combination, are intended to form the primary basis of an effectiveness claim; or

(II) with respect to an application for approval of a biological product under section 351(k) of the Public Health Service Act (42 U.S.C. 262(k)), of any necessary clinical study or studies.

(ii) PROVISION OF INFORMATION.—The sponsor or applicant shall provide information necessary for discussion and agreement on the design and size of the clinical trials.

(iii) MINUTES.—Minutes of any meeting under clause (i) shall be prepared by

the Secretary and made available to the sponsor or applicant upon request.

(C) AGREEMENT REQUIRED TO BE IN WRITING; CONDITIONS ON WHICH AGREEMENT MAY BE CHANGED.—

(i) AGREEMENT REQUIRED TO BE IN WRITING.—Any agreement regarding the parameters of the design and size of clinical trials of a new drug under this paragraph that is reached between the Secretary and a sponsor or applicant shall be reduced to writing and made part of the administrative record by the Secretary.

(ii) CONDITIONS ON WHICH AGREEMENT MAY BE CHANGED.—The agreement shall not be changed after the testing begins, except—

(I) with the written agreement of the sponsor or applicant; or

(II) pursuant to a decision, made in accordance with subparagraph (D) by the director of the reviewing division, that a substantial scientific issue essential to determining the safety or

effectiveness of the drug has been identified after the testing has begun.

(D) REQUIREMENTS FOR DECISION.—A decision under subparagraph (C)(ii)(II) by the director shall be in writing and the Secretary shall provide to the sponsor or applicant an opportunity for a meeting at which the director and the sponsor or applicant will be present and at which the director will document the scientific issue involved.

(E) DECISION OF REVIEWING DIVISION AS BINDING; MODIFICATION BY FIELD OR COMPLIANCE DIVISION PERSONNEL.—The written decisions of the reviewing division shall be binding on, and may not directly or indirectly be changed by, the field or compliance division personnel unless the field or compliance division personnel demonstrate to the reviewing division why the decision should be modified.

(F) DELAY OF ACTION BY REVIEWING DIVISION.—An action by the reviewing division shall not be delayed because of the unavailability of information from or action by field personnel unless the reviewing division deter-

mines that a delay is necessary to ensure the marketing of a safe and effective drug.

(f) CERTIFICATION UNDER SECTION 402(j)(5)(B) OF THE PUBLIC HEALTH SERVICE ACT REQUIRED.—An application submitted under this section shall be accompanied by the certification required under section 402(j)(5)(B) of the Public Health Service Act (42 U.S.C. 282(j)(5)(B)). The certification shall not be considered an element of the application.

**§ 13504. Period for approval of application**

(a) IN GENERAL.—

(1) APPROVAL; NOTICE OF OPPORTUNITY FOR HEARING.—Within 180 days after the filing of an application under section 13503 of this title, or such additional period as may be agreed on by the Secretary and the applicant, the Secretary shall—

(A) approve the application if the Secretary then finds that none of the grounds for denying approval specified in section 13505 of this title applies; or

(B) give the applicant notice of an opportunity for a hearing before the Secretary under section 13505 of this title on the question whether the application is approvable.

(2) ELECTION TO ACCEPT HEARING; COMMENCEMENT OF HEARING.—If the applicant elects to accept the opportunity for hearing by written request within 30 days after the notice, the hearing shall commence not more than 90 days after the expiration of the 30 days unless the Secretary and the applicant otherwise agree.

(3) HEARING ON EXPEDITED BASIS; ISSUANCE OF ORDER.—The hearing shall be conducted on an expedited basis and the Secretary's order thereon shall be issued within 90 days after the date fixed by the Secretary for filing final briefs.

(b) SUBMISSION OF PATENT INFORMATION AFTER APPROVAL OF APPLICATION.—

(1) IN GENERAL.—Not later than 30 days after the date of approval of an application submitted under section 13503 of this title, the holder of the approved application shall file with the Secretary the patent number and the expiration date of any patent described in section 13503(a)(1)(H) of this title, except that a patent that is identified as claiming a method of using the drug shall be filed only if the patent claims a method of use approved in the application.

(2) PATENT ISSUED AFTER DATE OF APPROVAL OF APPLICATION.—If a patent described in section 13503(a)(1)(H) of this title is issued after the date of approval of an application submitted under section 13503 of this title, the holder of the approved application shall, not later than 30 days after the date of issuance of the patent, file the patent number and the expiration date of the patent, except that a patent that claims a method of using the drug shall be filed only if approval for the use has been granted in the application.

(3) TRANSITIONAL AND OTHER PROVISIONS.—If the patent information described in section 13503 of this title could not be filed with the submission of an application under section 13503 of this title because the application was filed before the patent information was required under section 13503 of this title or a patent was issued after the application was approved under section 13503 of this title, the holder of an approved application shall file with the Secretary the patent number and the expiration date of any patent described in section 13503(a)(1)(H) of this title. If the holder of an approved application could not file patent information under section 13503 of this title because it was not required at the

time the application was approved, the holder shall file the information under this section not later than 30 days after September 24, 1984, and if the holder of an approved application could not file patent information under section 13503 of this title because no patent of the type for which information is required to be submitted in section 13503(a)(1)(H) of this title had been issued when an application was filed or approved, the holder shall file the information under this section not later than 30 days after the date the patent involved is issued.

(4) PUBLICATION.—On the submission of patent information under this section, the Secretary shall publish the patent information.

(5) PATENT INFORMATION NOT TO BE SUBMITTED.—Patent information that is not the type of patent information required by section 13503(a)(1)(H) of this title shall not be submitted under this subsection.

(c) EFFECTIVE DATES OF APPROVAL.—The approval of an application filed under section 13503 of this title that contains a certification required by subsection (b) of that section shall be made effective on the last applicable date determined by applying the following to each certification made under section 13503(b)(1) of this title:

(1) CERTIFICATION UNDER SUBPARAGRAPH (A) OR (B) OF SECTION 13503(b)(1) OF THIS TITLE.—If the applicant made only a certification described in subparagraph (A) or (B) of section 13503(b)(1) of this title or in both such subparagraphs, the approval may be made effective immediately.

(2) CERTIFICATION UNDER SUBPARAGRAPH (C) OF SECTION 13503(b)(1) OF THIS TITLE.—If the applicant made a certification described in subparagraph (C) of section 13503(b)(1) of this title, the approval may be made effective on the date certified under subparagraph (C) of section 13503(b)(1) of this title.

(3) CERTIFICATION UNDER SUBPARAGRAPH (D) OF SECTION 13503(b)(1) OF THIS TITLE.—

(A) IN GENERAL.—If the applicant made a certification described in subparagraph (D) of section 13503(b)(1) of this title, the approval shall be made effective immediately unless, before the expiration of 45 days after the date on which the notice described in section 13503(c) of this title is received, an action is brought for infringement of the patent—

(i) that is the subject of the certification; and

(ii) for which information was submitted to the Secretary under subsection (b) or section 13503(a) of this title before the date on which the application (excluding an amendment or supplement to the application) was submitted.

(B) PATENT INFRINGEMENT ACTION BROUGHT.—If an action described in subparagraph (A) is brought before the expiration of the 45 days, the approval may be made effective on the expiration of the 30-month period beginning on the date of the receipt of the notice provided under section 13503(c) of this title or such shorter or longer period as the court may order because either party to the action failed to reasonably cooperate in expediting the action, except that—

(i) if before the expiration of the period, the district court decides that the patent is invalid or not infringed (including any substantive determination that there is no cause of action for patent infringement or invalidity), the approval shall be made effective on—

(I) the date on which the court enters judgment reflecting the decision; or

(II) the date of a settlement order or consent decree signed and entered by the court stating that the patent that is the subject of the certification is invalid or not infringed;

(ii) if before the expiration of the period, the district court decides that the patent has been infringed—

(I) if the judgment of the district court is appealed, the approval shall be made effective on—

(aa) the date on which the court of appeals decides that the patent is invalid or not infringed (including any substantive determination that there is no cause of action for patent infringement or invalidity); or

(bb) the date of a settlement order or consent decree signed and entered by the court of appeals stating that the patent that

is the subject of the certification is invalid or not infringed; or

(II) if the judgment of the district court is not appealed or is affirmed, the approval shall be made effective on the date specified by the district court in a court order under section 271(e)(4)(A) of title 35;

(iii) if before the expiration of the period, the court grants a preliminary injunction prohibiting the applicant from engaging in the commercial manufacture or sale of the drug until the court decides the issues of patent validity and infringement and if the court decides that the patent is invalid or not infringed, the approval shall be made effective as provided in clause (i); or

(iv) if before the expiration of the period, the court grants a preliminary injunction prohibiting the applicant from engaging in the commercial manufacture or sale of the drug until the court decides the issues of patent validity and infringement and if the court decides that the patent

has been infringed, the approval shall be made effective as provided in clause (ii).

(C) COOPERATION TO EXPEDITE PATENT INFRINGEMENT ACTION.—In an action described in subparagraph (A), each of the parties shall reasonably cooperate in expediting the action.

(4) CIVIL ACTION TO OBTAIN PATENT CERTAINTY.—

(A) DECLARATORY JUDGMENT ABSENT INFRINGEMENT ACTION.—

(i) IN GENERAL.—An action shall not be brought under section 2201 of title 28 by an applicant referred to in section 13503(b) of this title for a declaratory judgment with respect to a patent that is the subject of the certification referred to in paragraph (3) unless—

(I) the 45-day period referred to in paragraph (3) has expired;

(II) neither the owner of the patent nor the holder of the approved application under section 13503 of this title for the drug that is claimed by the patent or a use of which is

claimed by the patent brought a civil action against the applicant for infringement of the patent before the expiration of the period; and

(III) in any case in which the notice provided under section 13503(c) of this title relates to noninfringement, the notice was accompanied by a document described in clause (iii).

(ii) FILING OF CIVIL ACTION.—

(I) IN GENERAL.—If the conditions described in subclauses (I), (II), and as applicable, (III) of clause (i) have been met, the applicant referred to in clause (i) may, in accordance with section 2201 of title 28, bring a civil action under that section against the owner or holder referred to in the clause (but not against any owner or holder that has brought such a civil action against the applicant, unless that civil action was dismissed without prejudice) for a declaratory judgment that the patent is invalid or will not be infringed by the drug for which the

applicant seeks approval, except that the civil action may be brought for a declaratory judgment that the patent will not be infringed only in a case in which the condition described in clause (i)(III) is applicable.

(II) JURISDICTION.—A civil action referred to in this clause shall be brought in the judicial district where the defendant has its principal place of business or a regular and established place of business.

(iii) OFFER OF CONFIDENTIAL ACCESS TO APPLICATION.—

(I) IN GENERAL.—For purposes of clause (i)(III), the document described in this clause is a document providing an offer of confidential access to the application that is in the custody of the applicant referred to in section 13503(b) of this title for the purpose of determining whether an action referred to in paragraph (3) should be brought.

(II) RESTRICTIONS TO PROTECT TRADE SECRETS AND BUSINESS INFORMATION.—The document providing the offer of confidential access shall contain such restrictions as to persons entitled to access, and on the use and disposition of any information accessed, as would apply had a protective order been entered for the purpose of protecting trade secrets and other confidential business information.

(III) REQUEST FOR ACCESS AS ACCEPTANCE OF OFFER OF CONFIDENTIAL ACCESS; ENFORCEABLE CONTRACT.—A request for access to an application under an offer of confidential access shall be considered acceptance of the offer of confidential access with the restrictions as to persons entitled to access, and on the use and disposition of any information accessed, contained in the offer of confidential access, and those restrictions and other terms of the offer of

confidential access shall be considered terms of an enforceable contract.

(IV) LIMITATION ON PURPOSE AND DISCLOSURE.—Any person provided an offer of confidential access—

(aa) shall review the application for the sole and limited purpose of evaluating possible infringement of the patent that is the subject of the certification under section 13503(b)(1)(D) of this title and for no other purpose; and

(bb) may not disclose information of no relevance to any issue of patent infringement to any person other than a person provided an offer of confidential access.

(V) REDACTION OF APPLICATION.—The application subject to the offer may be redacted by the applicant to remove any information of no relevance to any issue of patent infringement.

(B) COUNTERCLAIM TO INFRINGEMENT ACTION.—

(i) IN GENERAL.—If an owner of the patent or the holder of the approved application under section 13503 of this title for the drug that is claimed by the patent or a use of which is claimed by the patent brings a patent infringement action against the applicant, the applicant may assert a counterclaim seeking an order requiring the holder to correct or delete the patent information submitted by the holder under section 13503 of this title or this section on the ground that the patent does not claim—

(I) the drug for which the application was approved; or

(II) an approved method of using the drug.

(ii) NO INDEPENDENT CAUSE OF ACTION.—Clause (i) does not authorize the assertion of a claim described in clause (i) in any civil action or proceeding other than a counterclaim described in clause (i).

(C) NO DAMAGES.—An applicant shall not be entitled to damages in a civil action under subparagraph (A) or a counterclaim under subparagraph (B).

(5) LIMITATIONS ON CERTAIN SUBMISSIONS AND APPROVALS.—

(A) LIMITATION FOR APPLICATIONS FOR A DRUG FOR WHICH THERE IS A PREVIOUSLY APPROVED APPLICATION.—If an application submitted under section 13503 of this title for a drug, no active moiety (as defined by the Secretary in section 314.3 of title 21, Code of Federal Regulations (or any successor regulations)) of which has been approved in any other application under section 13503 of this title, is approved (referred to in this subparagraph as ''approved application'') after September 24, 1984, no application that refers (referred to in this subparagraph as ''referring application'') to the drug for which the approved application was submitted and for which the investigations described in section 13503(a)(1)(A) of this title and relied on by the applicant for approval of the referring application were not conducted by or for the applicant and for which the applicant

has not obtained a right of reference or use from the person by or for whom the investigations were conducted may be submitted under section 13503 of this title before the expiration of 5 years from the date of the approval of the approved application, except that the referring application may be submitted under section 13503 of this title after the expiration of 4 years from the date of the approval of the approved application if the referring application contains a certification of patent invalidity or noninfringement described in section 13503(b)(1)(D) of this title. The approval of the referring application shall be made effective in accordance with this subsection except that, if an action for patent infringement is commenced during the 1-year period beginning 48 months after the date of the approval of the approved application, the 30-month period referred to in paragraph (3) shall be extended by such amount of time (if any) that is required for 7½ years to have elapsed from the date of approval of the approved application.

(B) LIMITATION FOR APPLICATIONS FOR A DRUG FOR WHICH THERE IS A PREVIOUSLY AP-

PROVED APPLICATION; ACTIVE MOIETY PREVIOUSLY APPROVED.—If an application submitted under section 13503 of this title for a drug, which includes an active moiety (as defined by the Secretary in section 314.3 of title 21, Code of Federal Regulations (or any successor regulations)) that has been approved in another application approved under section 13503 of this title, is approved (referred to in this subparagraph as ''approved application'') after September 24, 1984, and if the approved application contains reports of new clinical investigations (other than bioavailability studies) essential to the approval of the approved application and conducted or sponsored by the applicant, the Secretary may not make the approval of an application submitted under section 13503 of this title (referred to in this subparagraph as ''submitted application'') for the conditions of approval of the drug in the approved application effective before the expiration of 3 years from the date of the approval of the approved application if the investigations described in section 13503(a)(1)(A) of this title and relied on by the applicant for approval of

the submitted application were not conducted by or for the applicant and if the applicant has not obtained a right of reference or use from the person by or for whom the investigations were conducted.

(C) LIMITATION FOR APPLICATIONS FOR A DRUG FOR WHICH THERE IS A PREVIOUSLY APPROVED SUPPLEMENT.—If a supplement to an application approved under section 13503 of this title is approved after September 24, 1984, and the supplement contains reports of new clinical investigations (other than bioavailability studies) essential to the approval of the supplement and conducted or sponsored by the person submitting the supplement, the Secretary may not make the approval of an application submitted under section 13503 of this title for a change approved in the supplement effective before the expiration of 3 years from the date of the approval of the supplement under section 13503 of this title if the investigations described in section 13503(a)(1)(A) of this title and relied on by the applicant for approval of the application were not conducted by or for the applicant and if the applicant has not obtained

a right of reference or use from the person by or for whom the investigations were conducted.

(D) LIMITATION FOR APPLICATIONS FOR A DRUG FOR WHICH THERE IS A PREVIOUSLY APPROVED APPLICATION OR SUPPLEMENT DURING SPECIFIED PERIOD.—If an application (or supplement to an application) submitted under section 13503 of this title for a drug, which includes an active moiety (as defined by the Secretary in section 314.3 of title 21, Code of Federal Regulations (or any successor regulations)) that has been approved in another application under section 13503 of this title, was approved (referred to in this subparagraph as ''approved application or supplement'') during the period beginning January 1, 1982, and ending on September 24, 1984, the Secretary may not make the approval of an application submitted under this section (referred to in this subparagraph as ''submitted application'') and for which the investigations described in section 13503(a)(1)(A) of this title and relied on by the applicant for approval of the submitted application were not conducted by or for the applicant and for which the applicant has not obtained a right of ref-

erence or use from the person by or for whom the investigations were conducted and which refers to the drug for which the approved application or supplement was submitted effective before the expiration of 2 years from September 24, 1984.

(d) DRUGS MANUFACTURED IN PILOT OR OTHER SMALL FACILITY.—A drug manufactured in a pilot or other small facility may be used to demonstrate the safety and effectiveness of the drug and to obtain approval for the drug prior to manufacture of the drug in a larger facility, unless the Secretary makes a determination that a full scale production facility is necessary to ensure the safety or effectiveness of the drug.

(e) QUALIFIED DATA SUMMARIES AS SUPPORT FOR SUPPLEMENTAL APPLICATION.—

(1) DEFINITIONS.—In this subsection:

(A) QUALIFIED DATA SUMMARY.—The term ''qualified data summary'' means a summary of clinical data that demonstrates the safety and effectiveness of a drug with respect to a qualified indication.

(B) QUALIFIED INDICATION.—The term ''qualified indication'' means an indication for a drug that the Secretary determines to be appro-

priate for summary level review under this subsection.

(2) IN GENERAL.—The Secretary may rely on qualified data summaries to support the approval of a supplemental application, with respect to a qualified indication for a drug, submitted under section 13503 of this title, if the supplemental application complies with paragraph (3).

(3) ELIGIBILITY FOR REVIEW.—A supplemental application is eligible for review as described in paragraph (2) only if—

(A) there is existing data available and acceptable to the Secretary demonstrating the safety of the drug; and

(B) all data used to develop the qualified data summaries are submitted to the Secretary as part of the supplemental application.

(4) PUBLICATION.—The Secretary shall post on the FDA website and update annually—

(A) the number of applications reviewed solely under paragraph (2) or section 351(a)(2)(E) of the Public Health Service Act (42 U.S.C. 262(a)(2)(E));

(B) the average time for completion of review under paragraph (2) or section

351(a)(2)(E) of the Public Health Service Act (42 U.S.C. 262(a)(2)(E));

(C) the average time for review of supplemental applications where the Secretary did not use review flexibility under paragraph (2) or section 351(a)(2)(E) of the Public Health Service Act (42 U.S.C. 262(a)(2)(E)); and

(D) the number of applications reviewed under paragraph (2) or section 351(a)(2)(E) of the Public Health Service Act (42 U.S.C. 262(a)(2)(E)) for which the Secretary made use of full data sets in addition to the qualified data summary.

**§ 13505. Grounds for refusing to approve application; approval**

(a) DEFINITION OF SUBSTANTIAL EVIDENCE.—In this section:

(1) IN GENERAL.—The term ''substantial evidence'' means evidence consisting of adequate and well-controlled investigations, including clinical investigations, by experts qualified by scientific training and experience to evaluate the effectiveness of the drug involved, on the basis of which it could fairly and responsibly be concluded by the experts that the drug will have the effect it purports or is rep-

resented to have under the conditions of use prescribed, recommended, or suggested in the labeling or proposed labeling of the drug.

(2) SUFFICIENCY OF DATA AND CONFIRMATORY EVIDENCE.—If the Secretary determines, based on relevant science, that data from 1 adequate and well-controlled clinical investigation and confirmatory evidence (obtained prior to or after the investigation) are sufficient to establish effectiveness, the Secretary may consider the data and evidence to constitute substantial evidence for purposes of paragraph (1).

(b) ORDER REFUSING TO APPROVE APPLICATION.—The Secretary shall issue an order refusing to approve an application under section 13503 of this title if the Secretary finds, after due notice to the applicant in accordance with section 13504 of this title and after giving the applicant an opportunity for a hearing, in accordance with that section, that—

(1) the investigations, reports of which are required to be submitted to the Secretary pursuant to section 13503 of this title, do not include adequate tests by all methods reasonably applicable to show whether or not the drug is safe for use under the

conditions prescribed, recommended, or suggested in the proposed labeling of the drug;

(2) the results of the tests show that the drug is unsafe for use under the conditions described in paragraph (1) or do not show that the drug is safe for use under the conditions;

(3) the methods used in, and the facilities and controls used for, the manufacture, processing, and packing of the drug are inadequate to preserve its identity, strength, quality, and purity;

(4) on the basis of the information submitted to the Secretary as part of the application, or on the basis of any other information before the Secretary with respect to the drug, the Secretary has insufficient information to determine whether the drug is safe for use under the conditions described in paragraph (1);

(5) evaluated on the basis of the information submitted to the Secretary as part of the application and any other information before the Secretary with respect to the drug, there is a lack of substantial evidence that the drug will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the proposed labeling of the drug;

(6) the application failed to contain the patent information prescribed by section 13503 of this title; or

(7) based on a fair evaluation of all material facts, the labeling is false or misleading in any particular.

(c) ORDER OF APPROVAL.—If, after notice and opportunity for hearing under subsection (b), the Secretary finds that paragraphs (1) through (7) of subsection (b) do not apply, the Secretary shall issue an order approving the application.

(d) STRUCTURED RISK-BENEFIT ASSESSMENT FRAMEWORK.—

(1) IN GENERAL.—The Secretary shall implement a structured risk-benefit assessment framework in the new drug approval process to facilitate—

(A) the balanced consideration of benefits and risks;

(B) a consistent and systematic approach to the discussion and regulatory decision-making; and

(C) the communication of the benefits and risks of new drugs.

(2) EFFECT OF PARAGRAPH (1).—Nothing in paragraph (1) shall alter the criteria for evaluating an application for marketing approval of a drug.

**§ 13506. Withdrawal of and suspension of approval**

(a) DEFINITION OF SUBSTANTIAL EVIDENCE.—In this section:

(1) IN GENERAL.—The term ''substantial evidence'' has the meaning given the term in section 13505(a)(1) of this title.

(2) SUFFICIENCY OF DATA AND CONFIRMATORY EVIDENCE.—Section 13505(a)(2) of this title applies for purposes of paragraph (1).

(b) REQUIRED WITHDRAWAL OF APPROVAL OF APPLICATION.—The Secretary shall, after due notice and opportunity for hearing to the applicant, withdraw approval of an application with respect to any drug under this chapter if the Secretary finds—

(1) that clinical or other experience, tests, or other scientific data show that the drug is unsafe for use under the conditions of use on the basis of which the application was approved;

(2) that new evidence of clinical experience, not contained in the application or not available to the Secretary until after the application was approved, or tests by new methods, or tests by methods not

considered reasonably applicable when the application was approved, evaluated together with the evidence available to the Secretary when the application was approved, shows that the drug is not shown to be safe for use under the conditions of use on the basis of which the application was approved;

(3) on the basis of new information before the Secretary with respect to the drug, evaluated together with the evidence available to the Secretary when the application was approved, that there is a lack of substantial evidence that the drug will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling of the drug;

(4) that the patent information prescribed by section 13504 of this title was not filed within 30 days after the receipt of written notice from the Secretary specifying the failure to file the information; or

(5) that the application contains any untrue statement of a material fact.

(c) SUSPENSION OF APPROVAL ON FINDING OF IMMINENT HAZARD TO HEALTH.—

(1) IN GENERAL.—If the Secretary (or in the Secretary's absence, the officer acting as Secretary)

finds that there is an imminent hazard to the public health, the Secretary may suspend the approval of the application immediately, and give the applicant prompt notice of the Secretary's action and afford the applicant the opportunity for an expedited hearing under this section.

(2) NONDELEGATION.—The authority conferred by paragraph (1) to suspend the approval of an application shall not be delegated.

(d) AUTHORIZED WITHDRAWAL OF APPROVAL OF APPLICATION.—The Secretary may, after due notice and opportunity for hearing to the applicant, withdraw the approval of an application submitted under section 13503 or 13511 of this title with respect to any drug under this chapter if the Secretary finds—

(1) that the applicant has failed to establish a system for maintaining required records, or has repeatedly or deliberately failed to maintain the records or to make required reports, in accordance with a regulation or order under section 13512 of this title or to comply with the notice requirements of section 13136(j)(2) of this title, or the applicant has refused to permit access to, or copying or verification of, the records as required by section 13512(b) of this title;

(2) that on the basis of new information before the Secretary, evaluated together with the evidence before the Secretary when the application was approved, the methods used in, or the facilities and controls used for, the manufacture, processing, and packing of the drug are inadequate to ensure and preserve its identity, strength, quality, and purity and were not made adequate within a reasonable time after receipt of written notice from the Secretary specifying the matter complained of; or

(3) that on the basis of new information before the Secretary, evaluated together with the evidence before the Secretary when the application was approved, the labeling of the drug, based on a fair evaluation of all material facts, is false or misleading in any particular and was not corrected within a reasonable time after receipt of written notice from the Secretary specifying the matter complained of.

(e) ORDER TO STATE FINDINGS.—Any order under this section shall state the findings on which it is based.

**§ 13507. Revocation of order refusing, withdrawing, or suspending approval of application**

If the Secretary finds that the facts so require, the Secretary shall revoke any previous order under section 13505 or 13506 of this title refusing, withdrawing, or sus-

pending approval of an application and shall approve the application or reinstate the approval, as may be appropriate.

**§ 13508. Service of orders**

Orders of the Secretary issued under this chapter shall be served—

(1) in person by any officer or employee of the department designated by the Secretary; or

(2) by mailing the order by registered mail or by certified mail addressed to the applicant or respondent at the applicant's or respondent's last-known address in the records of the Secretary.

**§ 13509. Appeal from order**

(a) IN GENERAL.—An appeal may be taken by the applicant from an order of the Secretary refusing or withdrawing approval of an application under this chapter.

(b) PROCEDURE.—

(1) DEADLINE; CONTENT OF PETITION.—An appeal under subsection (a) shall be taken by filing in the United States court of appeals for the circuit in which the applicant resides or in which the applicant's principal place of business is located, or in the United States Court of Appeals for the District of Columbia Circuit, within 60 days after the entry of

the order, a written petition praying that the order of the Secretary be set aside.

(2) TRANSMISSION OF COPY OF PETITION TO SECRETARY; FILING OF RECORD IN COURT.—A copy of the petition shall be immediately transmitted by the clerk of the court to the Secretary, or any officer designated by the Secretary for that purpose, and on the transmission, the Secretary shall certify and file in the court the record on which the order complained of was entered, as provided in section 2112 of title 28.

(3) EXCLUSIVE JURISDICTION.—On the filing of the petition, the court shall have exclusive jurisdiction to affirm or set aside the order, except that until the filing of the record the Secretary may modify or set aside the Secretary's order.

(4) OBJECTION TO THE ORDER.—An objection to the order of the Secretary shall not be considered by the court unless the objection shall have been urged before the Secretary or unless there were reasonable grounds for failure to do so.

(5) FINDING OF FACTS BY SECRETARY AS CONCLUSIVE.—The finding of the Secretary as to the facts, if supported by substantial evidence, shall be conclusive.

(6) ADDUCING OF ADDITIONAL EVIDENCE.—

(A) IN GENERAL.—If any person applies to the court for leave to adduce additional evidence, and shows to the satisfaction of the court that the additional evidence is material and that there were reasonable grounds for failure to adduce the evidence in the proceeding before the Secretary, the court may order the additional evidence to be taken before the Secretary and to be adduced on the hearing in such manner and on such terms and conditions as to the court may seem proper.

(B) MODIFICATION OF FINDINGS.—The Secretary may modify the Secretary's findings as to the facts by reason of the additional evidence taken under subparagraph (A), and the Secretary shall file with the court—

(i) the modified findings, which, if supported by substantial evidence, shall be conclusive; and

(ii) the Secretary's recommendation, if any, for the setting aside of the original order.

(7) JUDGMENT OF COURT AS FINAL.—The judgment of the court affirming or setting aside the

original order of the Secretary shall be final, subject to review by the Supreme Court of the United States on certiorari or certification as provided in section 1254 of title 28.

(8) COMMENCEMENT OF APPEAL NOT TO OPERATE AS STAY OF SECRETARY'S ORDER.—The commencement of proceedings under this section shall not, unless specifically ordered by the court to the contrary, operate as a stay of the Secretary's order.

**§ 13510. Drugs for investigational use**

(a) EXEMPTION.—

(1) IN GENERAL.—The Secretary shall promulgate regulations for exempting from the operation of sections 13502 through 13509 of this title drugs intended solely for investigational use by experts qualified by scientific training and experience to investigate the safety and effectiveness of drugs.

(2) CONTENT.—In the regulations, the Secretary may provide for, among other conditions relating to the protection of public health, conditioning the exemption on—

(A) the submission to the Secretary, before any clinical testing of a new drug is undertaken, of reports, by the manufacturer or the sponsor of the investigation of the drug, of non-

clinical tests of the drug adequate to justify the proposed clinical testing;

(B) the manufacturer or the sponsor of the investigation of a new drug proposed to be distributed to investigators for clinical testing obtaining, from each of the investigators, a signed agreement—

(i) that patients to whom the drug is administered will be under the investigator's personal supervision, or under the supervision of investigators responsible to the investigator; and

(ii) that the investigator will not supply the drug to any other investigator, or to clinics, for administration to human beings;

(C) the establishment and maintenance of such records, and the making of such reports to the Secretary, by the manufacturer or the sponsor of the investigation of the drug, of data (including analytical reports by investigators) obtained as the result of the investigational use of the drug, as the Secretary finds will enable the Secretary to evaluate the safety and effectiveness of the drug in the event of the filing of an

application pursuant to section 13503 of this title; and

(D) the submission to the Secretary by the manufacturer or the sponsor of the investigation of a new drug of a statement of intent regarding whether the manufacturer or sponsor has plans for assessing pediatric safety and efficacy.

(b) REQUIRED SUBMISSION OF INFORMATION.—Subject to subsection (c), a clinical investigation of a new drug may begin 30 days after the Secretary has received from the manufacturer or sponsor of the investigation a submission containing information about the drug and the clinical investigation, including—

(1) information on design of the investigation and adequate reports of basic information, certified by the applicant to be accurate reports, necessary to assess the safety of the drug for use in clinical investigation; and

(2) adequate information on the chemistry and manufacturing of the drug, controls available for the drug, and primary data tabulations from nonclinical tests or human studies.

(c) CLINICAL HOLD.—

(1) IN GENERAL.—

(A) AUTHORITY.—At any time, the Secretary may prohibit the sponsor of an investigation from conducting the investigation (referred to in this subsection as a ''clinical hold'') if the Secretary makes a determination described in paragraph (2).

(B) BASIS; WRITTEN CONFIRMATION OF DETERMINATION.—The Secretary shall specify the basis for the clinical hold, including the specific information available to the Secretary that served as the basis for the clinical hold, and confirm the determination in writing.

(2) DETERMINATION.—For purposes of paragraph (1), a determination described in this paragraph with respect to a clinical hold is that—

(A) the drug involved represents an unreasonable risk to the safety of the individuals who are the subjects of the clinical investigation, taking into account—

(i) the qualifications of the clinical investigators;

(ii) information about the drug;

(iii) the design of the clinical investigation;

(iv) the condition for which the drug is to be investigated; and

(v) the health status of the subjects involved; or

(B) the clinical hold should be issued for such other reasons as the Secretary may by regulation establish (including reasons established by regulation before November 21, 1997).

(3) REQUEST TO REMOVE CLINICAL HOLD.—Any written request to the Secretary from the sponsor of an investigation that a clinical hold be removed shall receive a decision, in writing and specifying the reasons for the decision, within 30 days after receipt of the request. The request shall include sufficient information to support the removal of the clinical hold.

(d) INFORMING AND OBTAINING CONSENT FROM HUMAN SUBJECTS.—

(1) IN GENERAL.—Regulations under subsection (a) shall provide that the exemption shall be conditioned on the manufacturer, or the sponsor of the investigation, requiring that experts using the drugs for investigational purposes certify to the manufacturer or sponsor that the experts will inform

any human beings to whom the drugs, or any controls used in connection with the drugs, are being administered, or their representatives, that the drugs are being used for investigational purposes and will obtain the consent of the human beings or their representatives, except where—

(A) it is not feasible;

(B) it is contrary to the best interests of the human beings; or

(C) the proposed clinical testing—

(i) poses no more than minimal risk to the human beings; and

(ii) includes appropriate safeguards as prescribed to protect the rights, safety, and welfare of the human beings.

(2) INCLUSION OF STATEMENT IN CONSENT DOCUMENTS.—The Secretary shall require in the regulations under subsection (a) the inclusion, in the informed consent documents and process, a statement that clinical trial information for the clinical investigation has been or will be submitted for inclusion in the registry data bank pursuant to section 402(j) of the Public Health Service Act (42 U.S.C. 282(j)).

(e) DIRECT SUBMISSION OF REPORTS BY INVESTIGATORS NOT REQUIRED.—Nothing in this section shall be construed to require any clinical investigator to submit directly to the Secretary reports on the investigational use of drugs.

**§ 13511. Abbreviated new drug applications**

(a) DEFINITIONS.—In this section:

(1) BIOAVAILABILITY.—

(A) IN GENERAL.—The term ''bioavailability'' means the rate and extent to which the active ingredient or therapeutic ingredient is absorbed from a drug and becomes available at the site of drug action.

(B) DRUG NOT INTENDED TO BE ABSORBED INTO THE BLOODSTREAM.—For a drug that is not intended to be absorbed into the bloodstream, the Secretary may assess bioavailability by scientifically valid measurements intended to reflect the rate and extent to which the active ingredient or therapeutic ingredient becomes available at the site of drug action.

(C) EFFECT OF PARAGRAPH.—This paragraph does not alter the standards for approval of drugs under this section.

(2) BIOEQUIVALENT.—

(A) IN GENERAL.—A drug shall be considered to be bioequivalent to a listed drug if—

(i) the rate and extent of absorption of the drug do not show a significant difference from the rate and extent of absorption of the listed drug when administered at the same molar dose of the therapeutic ingredient under similar experimental conditions in either a single dose or multiple doses; or

(ii) the extent of absorption of the drug does not show a significant difference from the extent of absorption of the listed drug when administered at the same molar dose of the therapeutic ingredient under similar experimental conditions in either a single dose or multiple doses and the difference from the listed drug in the rate of absorption of the drug—

(I) is intentional;

(II) is reflected in its proposed labeling;

(III) is not essential to the attainment of effective body drug concentrations on chronic use; and

(IV) is considered medically insignificant for the drug.

(B) DRUG NOT INTENDED TO BE ABSORBED INTO THE BLOODSTREAM.—

(i) IN GENERAL.—For a drug that is not intended to be absorbed into the bloodstream, the Secretary may establish alternative, scientifically valid methods to show bioequivalence if the alternative methods are expected to detect a significant difference between the drug and the listed drug in safety and therapeutic effect.

(ii) EFFECT OF SUBPARAGRAPH.—This subparagraph does not alter the standards for approval of drugs under this section.

(3) LISTED DRUG.—The term ''listed drug'' means a drug listed under subsection (h).

(b) AUTHORITY.—Any person may file with the Secretary an abbreviated application for the approval of a new drug.

(c) CONTENTS.—

(1) IN GENERAL.—An abbreviated application for a new drug shall contain—

(A) information to show that the conditions of use prescribed, recommended, or suggested in the labeling proposed for the new drug have been previously approved for a listed drug;

(B)(i) if the listed drug referred to in subparagraph (A) has only 1 active ingredient, information to show that the active ingredient of the new drug is the same as that of the listed drug;

(ii) if the listed drug referred to in subparagraph (A) has more than 1 active ingredient, information to show that the active ingredients of the new drug are the same as those of the listed drug; or

(iii) if the listed drug referred to in subparagraph (A) has more than 1 active ingredient and if one of the active ingredients of the new drug is different and the application is filed pursuant to the approval of a petition filed under paragraph (4)—

(I) information to show that the other active ingredients of the new drug are the same as the active ingredients of the listed drug;

(II) information to show that the different active ingredient is an active ingredient of a listed drug or of a drug that does not meet the requirements of section 10101(a)(34) of this title; and

(III) such other information respecting the different active ingredient with respect to which the petition was filed as the Secretary may require;

(C)(i) information to show that the route of administration, the dosage form, and the strength of the new drug are the same as those of the listed drug referred to in subparagraph (A); or

(ii) if the route of administration, the dosage form, or the strength of the new drug is different and the application is filed pursuant to the approval of a petition filed under paragraph (4), such information respecting the route of administration, dosage form, or strength with respect to which the petition was filed as the Secretary may require;

(D) information to show that the new drug is bioequivalent to the listed drug referred to in subparagraph (A), except that if the application

is filed pursuant to the approval of a petition filed under paragraph (4), information to show that—

(i) the active ingredients of the new drug are of the same pharmacological or therapeutic class as those of the listed drug referred to in subparagraph (A); and

(ii) the new drug can be expected to have the same therapeutic effect as the listed drug when administered to patients for a condition of use referred to in subparagraph (A);

(E) information to show that the labeling proposed for the new drug is the same as the labeling approved for the listed drug referred to in subparagraph (A) except for changes required because of differences approved under a petition filed under paragraph (4) or because the new drug and the listed drug are produced or distributed by different manufacturers;

(F) the items specified in subparagraphs (B) through (F) of section 13503(a)(1) of this title;

(G) a certification, in the opinion of the applicant and to the best of the applicant's

knowledge, with respect to each patent that claims the listed drug referred to in subparagraph (A) or that claims a use for the listed drug for which the applicant is seeking approval under this section and for which information is required to be filed under section 13503 or 13504 of this title—

(i) that the patent information has not been filed;

(ii) that the patent has expired;

(iii) of the date on which the patent will expire; or

(iv) that the patent is invalid or will not be infringed by the manufacture, use, or sale of the new drug for which the application is submitted; and

(H) if with respect to the listed drug referred to in subparagraph (A) information was filed under section 13503 or 13504 of this title for a method of use patent that does not claim a use for which the applicant is seeking approval under this section, a statement that the method of use patent does not claim such a use.

(2) ADDITIONAL INFORMATION NOT REQUIRED.—The Secretary may not require that an

abbreviated application contain information in addition to that required by subparagraphs (A) through (H) of paragraph (1).

(3) NOTICE OF OPINION THAT PATENT IS INVALID OR WILL NOT BE INFRINGED.—

(A) AGREEMENT TO GIVE NOTICE.—An applicant that makes a certification described in paragraph (1)(G)(iv) shall include in the application a statement that the applicant will give notice as required by this paragraph.

(B) TIMING OF NOTICE.—An applicant that makes a certification described in paragraph (1)(G)(iv) shall give notice as required under this paragraph—

(i) if the certification is in the application, not later than 20 days after the date of the postmark on the notice with which the Secretary informs the applicant that the application has been filed; or

(ii) if the certification is in an amendment or supplement to the application, at the time at which the applicant submits the amendment or supplement, regardless of whether the applicant has already given notice with respect to another such certifi-

cation contained in the application or in an amendment or supplement to the application.

(C) RECIPIENTS OF NOTICE.—An applicant required under this paragraph to give notice shall give notice to—

(i) each owner of the patent that is the subject of the certification (or a representative of the owner designated to receive such a notice); and

(ii) the holder of the approved application under section 13503 of this title for the drug that is claimed by the patent or a use of which is claimed by the patent (or a representative of the holder designated to receive such a notice).

(D) CONTENTS OF NOTICE.—A notice required under this paragraph shall—

(i) state that an application that contains data from bioavailability or bioequivalence studies has been submitted under this section for the drug with respect to which the certification is made to obtain approval to engage in the commercial manufacture, use, or sale of the drug

before the expiration of the patent referred to in the certification; and

(ii) include a detailed statement of the factual and legal basis of the opinion of the applicant that the patent is invalid or will not be infringed.

(4) SUBMISSION OF PETITION TO FILE ABBREVIATED APPLICATION.—

(A) IN GENERAL.—If a person wants to submit an abbreviated application for a new drug that has a different active ingredient or that the route of administration, dosage form, or strength of which differs from that of a listed drug, the person shall submit to the Secretary a petition seeking permission to file the application.

(B) DEADLINE FOR SECRETARY TO APPROVE OR DISAPPROVE A PETITION.—The Secretary shall approve or disapprove a petition submitted under this paragraph within 90 days of the date the petition is submitted.

(C) APPROVAL.—The Secretary shall approve the petition unless the Secretary finds—

(i) that investigations must be conducted to show the safety and effectiveness

of the drug or of any of its active ingredients, the route of administration, the dosage form, or strength that differs from the listed drug; or

(ii) that any drug with a different active ingredient may not be adequately evaluated for approval as safe and effective on the basis of the information required to be submitted in an abbreviated application.

(5) AMENDMENT OR SUPPLEMENTATION.—

(A) IN GENERAL.—An applicant may not amend or supplement an application to seek approval of a drug referring to a different listed drug from the listed drug identified in the application as submitted to the Secretary.

(B) DIFFERENT STRENGTH.—With respect to the drug for which an application is submitted, nothing in this section prohibits an applicant from amending or supplementing the application to seek approval of a different strength.

(C) GUIDANCE.—The Secretary shall issue guidance defining the term ''listed drug'' for purposes of this paragraph.

(d) GUIDANCE FOR REVIEW OF APPLICATIONS; DESIGN AND SIZE OF BIOAVAILABILITY AND BIOEQUIVALENCE STUDIES.—

(1) GUIDANCE.—The Secretary shall issue guidance for the individuals who review applications submitted under subsection (b), which guidance shall—

(A) relate to promptness in conducting the review, technical excellence, lack of bias and conflict of interest, and knowledge of regulatory and scientific standards; and

(B) apply equally to all individuals who review the applications.

(2) DESIGN AND SIZE OF BIOAVAILABILITY AND BIOEQUIVALENCE STUDIES.—

(A) REVIEWING DIVISION.—In this paragraph, the reviewing division is the division responsible for the review of an application for approval of a drug under this section (including scientific matters, chemistry, manufacturing, and controls).

(B) MEETING TO REACH AGREEMENT.—

(i) IN GENERAL.—The Secretary shall meet with a sponsor of an investigation or an applicant for approval for a drug under

this section if the sponsor or applicant makes a reasonable written request for a meeting for the purpose of reaching agreement on the design and size of bioavailability and bioequivalence studies needed for approval of the application.

(ii) PROVISION OF INFORMATION.—The sponsor or applicant shall provide information necessary for discussion and agreement on the design and size of the bioavailability and bioequivalence studies.

(iii) MINUTES.—Minutes of the meeting shall be prepared by the Secretary and made available to the sponsor or applicant.

(C) AGREEMENT REQUIRED TO BE IN WRITING; CONDITIONS ON WHICH AGREEMENT MAY BE CHANGED.—

(i) AGREEMENT REQUIRED TO BE IN WRITING.—Any agreement regarding the parameters of design and size of bioavailability and bioequivalence studies of a drug under this paragraph that is reached between the Secretary and a sponsor or applicant shall be reduced to writing and

made part of the administrative record by the Secretary.

(ii) CONDITIONS ON WHICH AGREEMENT MAY BE CHANGED.—The agreement shall not be changed after the testing begins, except—

(I) with the written agreement of the sponsor or applicant; or

(II) pursuant to a decision, made in accordance with subparagraph (D) by the director of the reviewing division, that a substantial scientific issue essential to determining the safety or effectiveness of the drug has been identified after the testing has begun.

(D) REQUIREMENTS FOR DECISION.—A decision under subparagraph (C)(ii)(II) by the director shall be in writing and the Secretary shall provide to the sponsor or applicant an opportunity for a meeting at which the director and the sponsor or applicant will be present and at which the director will document the scientific issue involved.

(E) DECISION OF REVIEWING DIVISION AS BINDING; MODIFICATION BY FIELD OR COMPLI-

ANCE DIVISION PERSONNEL.—The written decisions of the reviewing division shall be binding on, and may not directly or indirectly be changed by, the field or compliance office personnel unless the field or compliance office personnel demonstrate to the reviewing division why the decision should be modified.

(F) DELAY OF ACTION BY REVIEWING DIVISION.—An action by the reviewing division shall not be delayed because of the unavailability of information from or action by field personnel unless the reviewing division determines that a delay is necessary to ensure the marketing of a safe and effective drug.

(e) GROUNDS FOR DISAPPROVAL.—Subject to subsection (f), the Secretary shall approve an application for a drug unless the Secretary finds that—

(1) the methods used in, or the facilities and controls used for, the manufacture, processing, and packing of the drug are inadequate to ensure and preserve its identity, strength, quality, and purity;

(2) information submitted with the application is insufficient to show that each of the proposed conditions of use has been previously approved for the listed drug referred to in the application;

(3) if the listed drug—

(A) has only 1 active ingredient, information submitted with the application is insufficient to show that the active ingredient is the same as that of the listed drug;

(B) has more than 1 active ingredient, information submitted with the application is insufficient to show that the active ingredients are the same as the active ingredients of the listed drug; or

(C) has more than 1 active ingredient and if the application is for a drug that has an active ingredient different from the listed drug—

(i) information submitted with the application is insufficient to show—

(I) that the other active ingredients are the same as the active ingredients of the listed drug; or

(II) that the different active ingredient is an active ingredient of a listed drug or a drug that does not meet the requirements of section 10101(a)(34) of this title; or

(ii) no petition to file an application for the drug with the different ingredient was approved under subsection (c)(4);

(4) if the application is for a drug the route of administration, dosage form, or strength of which—

(A) is the same as the route of administration, dosage form, or strength of the listed drug referred to in the application, information submitted in the application is insufficient to show that the route of administration, dosage form, or strength is the same as that of the listed drug; or

(B) is different from that of the listed drug referred to in the application, no petition to file an application for the drug with the different route of administration, dosage form, or strength was approved under subsection (c)(4);

(5) if the application was filed pursuant to the approval of a petition under subsection (c)(4), the application did not contain the information required by the Secretary respecting the active ingredient, route of administration, dosage form, or strength that is not the same;

(6)(A) information submitted in the application is insufficient to show that the drug is bioequivalent to the listed drug referred to in the application; or

(B) if the application was filed pursuant to a petition approved under subsection (c)(4), information submitted in the application is insufficient to show that the active ingredients of the new drug are of the same pharmacological or therapeutic class as those of the listed drug referred to in subsection (c)(1)(A) and that the new drug can be expected to have the same therapeutic effect as the listed drug when administered to patients for a condition of use referred to in the subsection;

(7) information submitted in the application is insufficient to show that the labeling proposed for the drug is the same as the labeling approved for the listed drug referred to in the application except for changes required—

(A) because of differences approved under a petition filed under subsection (c)(4); or

(B) because the drug and the listed drug are produced or distributed by different manufacturers;

(8) information submitted in the application or any other information available to the Secretary shows that—

(A) the inactive ingredients of the drug are unsafe for use under the conditions prescribed, recommended, or suggested in the labeling proposed for the drug; or

(B) the composition of the drug is unsafe under the conditions because of the type or quantity of inactive ingredients included or the manner in which the inactive ingredients are included;

(9)(A) the approval under section 13504 of this title of the listed drug referred to in the application under this section has been withdrawn for grounds described in section 13506(b) of this title or suspended for grounds described in section 13506(c) of this title;

(B) the Secretary has published a notice of opportunity for hearing to withdraw approval of the listed drug under section 13504 of this title for grounds described in section 13506(b) of this title;

(C) the approval under this section of the listed drug referred to in the application under this section

has been withdrawn or suspended under subsection (g); or

(D) the Secretary has determined that the listed drug has been withdrawn from sale for safety or effectiveness reasons;

(10) the application does not meet any other requirement of subsection (c)(1); or

(11) the application contains an untrue statement of material fact.

(f) APPROVAL.—

(1) IN GENERAL.—Within 180 days of the initial receipt of an application under subsection (c) or within such additional period as may be agreed on by the Secretary and the applicant, the Secretary shall approve or disapprove the application.

(2) EFFECTIVE DATES OF APPROVAL.—The approval of an application submitted under subsection (c) shall be made effective on the last applicable date determined by applying the following to each certification made under subsection (c)(1)(G):

(A) CERTIFICATION UNDER CLAUSE (i) OR (ii) OF SUBSECTION (c)(1)(G).—If the applicant only made a certification described in clause (i) or (ii) of subsection (c)(1)(G) or in both

clauses, the approval may be made effective immediately.

(B) CERTIFICATION UNDER CLAUSE OF SUBSECTION (c)(1)(G)(iii).—If the applicant made a certification described in subsection (c)(1)(G)(iii), the approval may be made effective on the date certified under subsection (c)(1)(G)(iii).

(C) CERTIFICATION UNDER SUBSECTION (c)(1)(G)(iv).—

(i) IN GENERAL.—If the applicant made a certification described in subsection (c)(1)(G)(iv), the approval shall be made effective immediately unless, before the expiration of 45 days after the date on which the notice described in subsection (c)(3) is received, an action is brought for infringement of the patent—

(I) that is the subject of the certification; and

(II) for which information was submitted to the Secretary under section 13503(a) or 13504(b) of this title before the date on which the application (excluding an amendment or sup-

plement to the application), which the Secretary later determines to be a substantially complete application (as defined in subparagraph (D)(ii)(II), was submitted.

(ii) PATENT INFRINGEMENT ACTION BROUGHT.—If an action under clause (i) is brought before the expiration of the 45 days, the approval shall be made effective on the expiration of the 30-month period beginning on the date of the receipt of the notice provided under subsection (c)(3)(A) or such shorter or longer period as the court may order because either party to the action failed to reasonably cooperate in expediting the action, except that—

(I) if before the expiration of the period, the district court decides that the patent is invalid or not infringed (including any substantive determination that there is no cause of action for patent infringement or invalidity), the approval shall be made effective on—

(aa) the date on which the court enters judgment reflecting the decision; or

(bb) the date of a settlement order or consent decree signed and entered by the court stating that the patent that is the subject of the certification is invalid or not infringed;

(II) if before the expiration of the period, the district court decides that the patent has been infringed—

(aa) if the judgment of the district court is appealed, the approval shall be made effective on—

(AA) the date on which the court of appeals decides that the patent is invalid or not infringed (including any substantive determination that there is no cause of action for patent infringement or invalidity); or

(BB) the date of a settlement order or consent decree signed and entered by the court of appeals stating that the patent that is the subject of the certification is invalid or not infringed; or

(bb) if the judgment of the district court is not appealed or is affirmed, the approval shall be made effective on the date specified by the district court in a court order under section 271(e)(4)(A) of title 35;

(III) if before the expiration of the period, the court grants a preliminary injunction prohibiting the applicant from engaging in the commercial manufacture or sale of the drug until the court decides the issues of patent validity and infringement and if the court decides that the patent is invalid or not infringed, the approval shall be made effective as provided in subclause (I); or

(IV) if before the expiration of the period, the court grants a preliminary injunction prohibiting the applicant from engaging in the commercial manufacture or sale of the drug until the court decides the issues of patent validity and infringement and if the court decides that the patent has been infringed, the approval shall be made effective as provided in subclause (II).

(iii) COOPERATION TO EXPEDITE PATENT INFRINGEMENT ACTION.—In an action described in clause (i), each of the parties shall reasonably cooperate in expediting the action.

(D) 180-DAY EXCLUSIVITY PERIOD.—

(i) SUBSECTION-WIDE DEFINITIONS.—In this subsection:

(I) 180-DAY EXCLUSIVITY PERIOD.—The term ''180-day exclusivity period'' means the 180-day period ending on the day before the date on which an application submitted by an applicant other than a first applicant

could become effective under this subparagraph.

(II) TENTATIVE APPROVAL.—

(aa) IN GENERAL.—The term ''tentative approval'' means notification to an applicant by the Secretary that an application under this section meets the requirements of subsection (c)(1), but cannot receive effective approval because—

(AA) the application does not meet the requirements of this paragraph;

(BB) there is a period of exclusivity for the listed drug under paragraph (6) or section 13112 of this title; or

(CC) there is a 7-year period of exclusivity for the listed drug under section 13903 of this title.

(bb) LIMITATION.—A drug that is granted tentative approval

by the Secretary is not an approved drug and shall not have an effective approval until the Secretary issues an approval after any necessary additional review of the application.

(ii) SUBPARAGRAPH-WIDE DEFINITIONS.—

(I) FIRST APPLICANT.—In this subparagraph, the term ''first applicant'' means an applicant that, on the first day on which a substantially complete application containing a certification described in subsection (c)(1)(G)(iv) is submitted for approval of a drug, submits a substantially complete application that contains and lawfully maintains a certification described in subsection (c)(1)(G)(iv) for the drug.

(II) SUBSTANTIALLY COMPLETE APPLICATION.—In subclause (I), the term ''substantially complete application'' means an application under this section that on its face is sufficiently

complete to permit a substantive review and contains all the information required by subsection (c)(1).

(iii) EFFECTIVENESS OF APPLICATION.—Subject to paragraph (4), if the application contains a certification described in subsection (c)(1)(G)(iv) and is for a drug for which a first applicant has submitted an application containing such a certification, the application shall be made effective on the date that is 180 days after the date of the first commercial marketing of the drug (including the commercial marketing of the listed drug) by any first applicant.

(E) 180-DAY EXCLUSIVITY PERIOD FOR COMPETITIVE GENERIC THERAPIES.—

(i) DEFINITIONS.—In this subparagraph and paragraph (4)(D):

(I) COMPETITIVE GENERIC THERAPY.—The term ''competitive generic therapy'' means a drug—

(aa) that is designated as a competitive generic therapy

under section 13128 of this title; and

(bb) for which there are no unexpired patents or exclusivities on the list of products described in subsection (h)(1) at the time of submission.

(II) FIRST APPROVED APPLICANT.—The term ''first approved applicant'' means any applicant that has submitted an application that—

(aa) is for a competitive generic therapy that is approved on the first day on which any application for the competitive generic therapy is approved;

(bb) is not eligible for a 180-day exclusivity period under subparagraph (D) for the drug that is the subject of the application for the competitive generic therapy; and

(cc) is not for a drug for which all drug versions have forfeited eligibility for a 180-day ex-

clusivity period under subparagraph (D) pursuant to paragraph (4).

(ii) EFFECTIVENESS OF APPLICATION.—Subject to paragraph (4)(D), if the application is for a drug that is the same as a competitive generic therapy for which any first approved applicant has commenced commercial marketing, the application shall be made effective on the date that is 180 days after the date of the first commercial marketing of the competitive generic therapy (including the commercial marketing of the listed drug) by any first approved applicant.

(iii) LIMITATION.—The exclusivity period under clause (ii) shall not apply with respect to a competitive generic therapy that has previously received an exclusivity period under clause (ii).

(3) CIVIL ACTION TO OBTAIN PATENT CERTAINTY.—

(A) DECLARATORY JUDGMENT ABSENT INFRINGEMENT ACTION.—

(i) IN GENERAL.—An action shall not be brought under section 2201 of title 28 by an applicant under subsection (c) for a declaratory judgment with respect to a patent that is the subject of the certification referred to in paragraph (2)(C) unless—

(I) the 45-day period referred to in paragraph (2)(C) has expired;

(II) neither the owner of the patent nor the holder of the approved application under section 13503 of this title for the drug that is claimed by the patent or a use of which is claimed by the patent brought a civil action against the applicant for infringement of the patent before the expiration of the period; and

(III) in any case in which the notice provided under subsection (c)(3) relates to noninfringement, the notice was accompanied by a document described in clause (iii).

(ii) FILING OF CIVIL ACTION.—

(I) IN GENERAL.—If the conditions described in subclauses (I), (II), and as applicable, (III) of clause (i) have been met, the applicant referred to in the clause may, in accordance with section 2201 of title 28, bring a civil action under that section against the owner or holder referred to in the clause (but not against any owner or holder that has brought such a civil action against the applicant, unless that civil action was dismissed without prejudice) for a declaratory judgment that the patent is invalid or will not be infringed by the drug for which the applicant seeks approval, except that the civil action may be brought for a declaratory judgment that the patent will not be infringed only in a case in which the condition described in clause (i)(III) is applicable.

(II) JURISDICTION.—A civil action referred to in this clause shall be brought in the judicial district where the defendant has its principal place

of business or a regular and established place of business.

(iii) OFFER OF CONFIDENTIAL ACCESS TO APPLICATION.—

(I) IN GENERAL.—For purposes of clause (i)(III), the document described in this clause is a document providing an offer of confidential access to the application that is in the custody of the applicant under subsection (c) for the purpose of determining whether an action referred to in paragraph (2)(C) should be brought.

(II) RESTRICTIONS TO PROTECT TRADE SECRETS AND BUSINESS INFORMATION.—The document providing the offer of confidential access shall contain such restrictions as to persons entitled to access, and on the use and disposition of any information accessed, as would apply had a protective order been entered for the purpose of protecting trade secrets and

other confidential business information.

(III) REQUEST FOR ACCESS AS ACCEPTANCE OF OFFER OF CONFIDENTIAL ACCESS; ENFORCEABLE CONTRACT.—A request for access to an application under an offer of confidential access shall be considered acceptance of the offer of confidential access with the restrictions as to persons entitled to access, and on the use and disposition of any information accessed, contained in the offer of confidential access, and those restrictions and other terms of the offer of confidential access shall be considered terms of an enforceable contract.

(IV) LIMITATION ON PURPOSE AND DISCLOSURE.—Any person provided an offer of confidential access—

(aa) shall review the application for the sole and limited purpose of evaluating possible infringement of the patent that is the subject of the certification

under subsection (c)(1)(G)(iv) and for no other purpose; and

(bb) may not disclose information of no relevance to any issue of patent infringement to any person other than a person provided an offer of confidential access.

(V) REDACTION.—The application may be redacted by the applicant to remove any information of no relevance to any issue of patent infringement.

(B) COUNTERCLAIM TO INFRINGEMENT ACTION.—

(i) IN GENERAL.—If an owner of the patent or the holder of the approved application under section 13503 of this title for the drug that is claimed by the patent or a use of which is claimed by the patent brings a patent infringement action against the applicant, the applicant may assert a counterclaim seeking an order requiring the holder to correct or delete the patent information submitted by the holder

under section 13503 or 13504 of this title on the ground that the patent does not claim—

(I) the drug for which the application was approved; or

(II) an approved method of using the drug.

(ii) NO INDEPENDENT CAUSE OF ACTION.—Clause (i) does not authorize the assertion of a claim described in clause (i) in any civil action or proceeding other than a counterclaim described in clause (i).

(C) NO DAMAGES.—An applicant shall not be entitled to damages in a civil action under subparagraph (A) or a counterclaim under subparagraph (B).

(4) FORFEITURE OF 180-DAY EXCLUSIVITY PERIOD.—

(A) DEFINITIONS.—In this paragraph:

(i) FIRST APPLICANT.—The term ''first applicant'' has the meaning given the term in paragraph (2)(D)(ii)(I).

(ii) FORFEITURE EVENT.—The term ''forfeiture event'', with respect to an ap-

plication under this section, means the occurrence of any of the following:

(I) FAILURE TO MARKET.—The first applicant fails to market the drug by the later of—

(aa) the earlier of the date that is—

(AA) 75 days after the date on which the approval of the application of the first applicant is made effective under paragraph (2)(C); or

(BB) 30 months after the date of submission of the application of the first applicant; or

(bb) with respect to the first applicant or any other applicant (which other applicant has received tentative approval), the date that is 75 days after the date as of which, as to each of the patents with respect to which the first applicant submitted and lawfully maintained a certifi-

cation qualifying the first applicant for the 180-day exclusivity period under paragraph (2)(D), at least 1 of the following has occurred:

(AA) In an infringement action brought against that applicant with respect to the patent or in a declaratory judgment action brought by that applicant with respect to the patent, a court enters a final decision from which no appeal (other than a petition to the Supreme Court for a writ of certiorari) has been or can be taken that the patent is invalid or not infringed.

(BB) In an infringement action or a declaratory judgment action described in subitem (AA), a court signs a settlement order or consent decree that enters a

final judgment that includes a finding that the patent is invalid or not infringed.

(CC) The patent information submitted under section 13503 or 13504 of this title is withdrawn by the holder of the application approved under section 13503 of this title.

(II) WITHDRAWAL OF APPLICATION.—The first applicant withdraws the application or the Secretary considers the application to have been withdrawn as a result of a determination by the Secretary that the application does not meet the requirements for approval under subsection (e).

(III) AMENDMENT OR WITHDRAWAL OF CERTIFICATION FOR ALL PATENTS.—The first applicant amends or withdraws the certification for all of the patents with respect to which that applicant submitted a cer-

tification qualifying the applicant for the 180-day exclusivity period.

(IV) FAILURE TO OBTAIN TENTATIVE APPROVAL.—The first applicant fails to obtain tentative approval of the application within 30 months after the date on which the application is filed, unless the failure is caused by a change in or a review of the requirements for approval of the application imposed after the date on which the application is filed.

(V) AGREEMENT WITH ANOTHER APPLICANT, THE LISTED DRUG APPLICATION HOLDER, OR A PATENT OWNER.—The first applicant enters into an agreement with another applicant under this section for the drug, the holder of the application for the listed drug, or an owner of the patent that is the subject of the certification under subsection (c)(1)(G)(iv), the Federal Trade Commission or the Attorney General files a complaint, and there is a final decision of the Federal

Trade Commission or the court with regard to the complaint from which no appeal (other than a petition to the Supreme Court for a writ of certiorari) has been or can be taken that the agreement has violated the antitrust laws (as defined in section 1 of the Clayton Act (15 U.S.C. 12), except that the term includes section 5 of the Federal Trade Commission Act (15 U.S.C. 45) to the extent that that section applies to unfair methods of competition).

(VI) EXPIRATION OF ALL PATENTS.—All of the patents as to which the applicant submitted a certification qualifying it for the 180-day exclusivity period have expired.

(B) FORFEITURE.—The 180-day exclusivity period described in paragraph (2)(D) shall be forfeited by a first applicant if a forfeiture event occurs with respect to that first applicant.

(C) SUBSEQUENT APPLICANT.—If all first applicants forfeit the 180-day exclusivity period under subparagraph (B)—

(i) approval of any application containing a certification described in subsection (c)(1)(G)(iv) shall be made effective in accordance with paragraph (2)(C); and

(ii) no applicant shall be eligible for a 180-day exclusivity period.

(D) SPECIAL FORFEITURE RULE FOR COMPETITIVE GENERIC THERAPY.—The 180-day exclusivity period described in paragraph (2)(E) shall be forfeited by a first approved applicant if the applicant fails to market the competitive generic therapy within 75 days after the date on which the approval of the first approved applicant's application for the competitive generic therapy is made effective.

(5) HEARING ON DISAPPROVAL.—

(A) NOTICE.—If the Secretary decides to disapprove an application, the Secretary shall give the applicant notice of an opportunity for a hearing before the Secretary on the question of whether the application is approvable.

(B) ELECTION TO ACCEPT OPPORTUNITY FOR HEARING; COMMENCEMENT OF HEARING.—If the applicant elects to accept the opportunity for hearing by written request within 30 days after the notice, the hearing shall commence not more than 90 days after the expiration of the 30 days unless the Secretary and the applicant otherwise agree.

(C) EXPEDITED BASIS; ISSUANCE OF ORDER.—The hearing shall be conducted on an expedited basis and the Secretary's order on the hearing shall be issued within 90 days after the date fixed by the Secretary for filing final briefs.

(6) LIMITATIONS ON CERTAIN SUBMISSIONS AND APPROVALS.—

(A) LIMITATION FOR APPLICATIONS FOR A DRUG FOR WHICH THERE IS A PREVIOUSLY APPROVED APPLICATION.—If an application submitted under section 13503 of this title for a drug, no active moiety (as defined by the Secretary in section 314.3 of title 21, Code of Federal Regulations (or any successor regulations)) of which has been approved in any other application under section 13503 of this title, is ap-

proved (referred to in this subparagraph as ''approved application'') after September 24, 1984, no application may be submitted under this section which refers (referred to in this subparagraph as ''referring application'') to the drug for which the approved application was submitted before the expiration of 5 years from the date of the approval of the approved application, except that the referring application may be submitted under this section after the expiration of 4 years from the date of the approval of the approved application if the referring application contains a certification of patent invalidity or noninfringement described in subsection (c)(1)(G)(iv). The approval of the referring application shall be made effective in accordance with paragraph (2) except that, if an action for patent infringement is commenced during the 1-year period beginning 48 months after the date of the approval of the approved application, the 30-month period referred to in paragraph (2)(C) shall be extended by such amount of time (if any) which is required for 7½ years to have elapsed from the date of approval of the approved application.

(B) LIMITATION FOR APPLICATIONS FOR A DRUG FOR WHICH THERE IS A PREVIOUSLY APPROVED APPLICATION; ACTIVE MOIETY PREVIOUSLY APPROVED.—If an application submitted under section 13503 of this title for a drug, which includes an active moiety (as defined by the Secretary in section 314.3 of title 21, Code of Federal Regulations (or any successor regulations)) that has been approved in another application approved under section 13503 of this title, is approved (referred to in this subparagraph as ''approved application'') after September 24, 1984, and if the approved application contains reports of new clinical investigations (other than bioavailability studies) essential to the approval of the approved application and conducted or sponsored by the applicant, the Secretary may not make the approval of an application submitted under this section for the conditions of approval of the drug in the approved application effective before the expiration of 3 years from the date of the approval of the approved application for the drug.

(C) LIMITATION FOR APPLICATIONS FOR A DRUG FOR WHICH THERE IS A PREVIOUSLY AP-

PROVED SUPPLEMENT.—If a supplement to an application approved under section 13503 of this title is approved after September 24, 1984, and the supplement contains reports of new clinical investigations (other than bioavailability studies) essential to the approval of the supplement and conducted or sponsored by the person submitting the supplement, the Secretary may not make the approval of an application submitted under this section for a change approved in the supplement effective before the expiration of 3 years from the date of the approval of the supplement under section 13503 of this title.

(D) LIMITATION FOR APPLICATIONS FOR A DRUG FOR WHICH THERE IS A PREVIOUSLY APPROVED APPLICATION OR SUPPLEMENT DURING SPECIFIED PERIOD.—If an application (or supplement to an application) submitted under section 13503 of this title for a drug, which includes an active moiety (as defined by the Secretary in section 314.3 of title 21, Code of Federal Regulations (or any successor regulations)) that has been approved in another application under section 13503 of this title, was approved (referred to in this subparagraph as ''approved

application'') during the period beginning January 1, 1982, and ending on September 24, 1984, the Secretary may not make the approval of an application submitted under this section which refers to the drug for which the approved application was submitted or which refers to a change approved in a supplement to the approved application effective before the expiration of 2 years from September 24, 1984.

(g) WITHDRAWN OR SUSPENDED APPROVAL OF DRUGS REFERRED TO IN APPROVED APPLICATION.—If a drug approved under this section refers to, in its approved application, a drug the approval of which was withdrawn for grounds described in section 13506(b) of this title or suspended for grounds described in section 13506(c) of this title or was withdrawn or suspended under this subsection or that, as determined by the Secretary, has been withdrawn from sale for safety or effectiveness reasons, the approval of the drug under this section shall be withdrawn or suspended—

(1) for the same period as the withdrawal under section 13506(b) of this title or suspension under section 13506(c) of this title or the withdrawal or suspension under this subsection; or

(2) if the listed drug has been withdrawn from sale, for the period of withdrawal from sale or, if earlier, the period ending on the date the Secretary determines that the withdrawal from sale is not for safety or effectiveness reasons.

(h) LIST OF APPROVED DRUGS.—

(1) PUBLICATION.—

(A) IN GENERAL.—The Secretary shall publish and make available to the public—

(i) a list in alphabetical order of the official and proprietary name of each drug that has been approved for safety and effectiveness under section 13504 of this title before September 24, 1984;

(ii) the date of approval if the drug is approved after 1981 and the number of the application that was approved; and

(iii) whether in vitro or in vivo bioequivalence studies, or both such studies, are required for applications filed under this section which will refer to the drug published.

(B) REVISIONS.—Every 30 days after the publication of the first list under subparagraph (A), the Secretary shall revise the list to include

each drug that has been approved for safety and effectiveness under section 13504 of this title or approved under this section during the 30-day period.

(C) PATENT INFORMATION.—When patent information submitted under section 13504 of this title respecting a drug included on the list is to be published by the Secretary, the Secretary shall, in revisions made under subparagraph (B), include the patent information for the drug.

(D) EXCLUSIVITY PERIOD.—For each drug included on the list under subparagraph (A), the Secretary shall specify any exclusivity period that is applicable, for which the Secretary has determined the expiration date, and for which the period has not yet expired, under—

(i) subparagraph (A), (B), or (C) of section 13504(c)(5) of this title;

(ii) subparagraph (D) or (E) of subsection (f)(2);

(iii) subparagraph (A), (B), or (C) of subsection (f)(6);

(iv) section 13112 of this title;

(v) section 13116 of this title;

(vi) section 13903(a) of this title; or

(vii) section 13521 of this title.

(E) THERAPEUTIC EQUIVALENCE EVALUATIONS.—

(i) REQUIREMENTS RELATING TO REQUESTS FOR EVALUATION.—With respect to an application submitted pursuant to section 13503(b) of this title for a drug that is subject to section 13103(a) of this title for which the sole difference from a listed drug relied on in the application is a difference in inactive ingredients not permitted under clause (iii) or (iv) of section 314.94(a)(9) of title 21, Code of Federal Regulations, or any successor regulations, the Secretary shall make an evaluation with respect to whether the drug is a therapeutic equivalent (as defined in section 314.3 of title 21, Code of Federal Regulations, or any successor regulations) to another approved drug product in the prescription drug product section of the list under this subsection as follows:

(I) IN GENERAL.—With respect to such an application submitted after

December 29, 2022, the evaluation shall be made with respect to a listed drug relied on in the application pursuant to section 13503(b) of this title that is a pharmaceutical equivalent (as defined in section 314.3 of title 21, Code of Federal Regulations, or any successor regulations) to the drug in the application pursuant to section 13503(b) of this title at the time of approval of the application or not later than 180 days after the date of the approval, if the request for such an evaluation is made in the original application (or in a resubmission to a complete response letter), and all necessary data and information are submitted in the original application (or in a resubmission in response to a complete response letter) for the therapeutic equivalence evaluation, including information to demonstrate bioequivalence, in a form and manner prescribed by the Secretary.

(II) TRANSITIONAL PROVISIONS.—With respect to such an application approved prior to or on December 29, 2022, the evaluation shall be made not later than 180 days after receipt of a request for a therapeutic equivalence evaluation submitted as part of a supplement to the application. With respect to an application that was submitted prior to December 29, 2022, but not approved as of December 29, 2022, the evaluation shall be made not later than 180 days after the date of approval of the application, if a request for the evaluation is submitted as an amendment to the application, and if—

(aa) the request for a therapeutic equivalence evaluation is being sought with respect to a listed drug relied on in the application, and the relied-on listed drug is in the prescription drug product section of the list under this subsection and is a pharma-

ceutical equivalent (as defined in section 314.3 of title 21, Code of Federal Regulations, or any successor regulations) to the drug for which a therapeutic equivalence evaluation is sought; and

(bb) the amendment or supplement, as applicable, containing the request, or the relevant application, includes all necessary data and information for the therapeutic equivalence evaluation, including information to demonstrate bioequivalence, in a form and manner prescribed by the Secretary.

(ii) INFORMATION TO INCLUDE IN REVISIONS TO LIST.—When the Secretary makes an evaluation under clause (i), the Secretary shall, in revisions made to the list pursuant to subparagraph (B), include that information for the drug.

(2) PUBLICATION DATE.—A drug approved for safety and effectiveness under section 13504 of this title or approved under this section shall, for pur-

poses of this section, be considered to have been published under paragraph (1) on the date of its approval or September 24, 1984, whichever is later.

(3) WITHDRAWN OR SUSPENDED APPROVAL OF DRUGS; EXCLUSION OR REMOVAL FROM LIST.—

(A) IN GENERAL.—If the approval of a drug was withdrawn for grounds described in section 13506(b) of this title or suspended for grounds described in section 13506(c) of this title or was withdrawn or suspended under subsection (g) or if the Secretary determines that a drug has been withdrawn from sale for safety or effectiveness reasons, the drug may not be published in the list under paragraph (1) or, if the withdrawal or suspension occurred after its publication in the list, it shall be immediately removed from the list—

(i) for the same period as the withdrawal under section 13506(b) of this title or suspension under section 13506(c) of this title or the withdrawal or suspension under subsection (g); or

(ii) if the listed drug has been withdrawn from sale, for the period of withdrawal from sale or, if earlier, the period

ending on the date the Secretary determines that the withdrawal from sale is not for safety or effectiveness reasons.

(B) NOTICE OF REMOVAL.—A notice of the removal shall be published in the Federal Register.

(4) CANCELLATION OR INVALIDATION OF PATENT.—In the case of a listed drug for which the list under paragraph (1)(A) includes a patent for the drug, and any claim of the patent has been cancelled or invalidated pursuant to a final decision issued by the Patent Trial and Appeal Board of the United States Patent and Trademark Office or by a court, from which no appeal has been, or can be, taken, if the holder of the applicable application approved under section 13504 of this title determines that a patent for the drug, or any patent information for the drug, no longer meets the listing requirements under this chapter—

(A) the holder of the approved application shall notify the Secretary, in writing, within 14 days of the decision of the cancellation or invalidation and request that the patent or patent information, as applicable, be amended or with-

drawn in accordance with the decision issued by the Patent Trial and Appeal Board or a court;

(B) the holder of the approved application shall include in any notification under subparagraph (A) information related to the patent cancellation or invalidation decision and submit the information, including a copy of the decision, to the Secretary; and

(C) the Secretary shall, in response to a notification under subparagraph (A), amend or remove patent or patent information in accordance with the relevant decision from the Patent Trial and Appeals Board or court, as applicable, except that the Secretary shall not remove from the list any patent or patent information before the expiration of any 180-day exclusivity period under subsection (f)(2)(D) that relies on a certification described in subsection (c)(1)(G).

(i) MAINTENANCE OF RECORDS BY SECRETARY.—

(1) IN GENERAL.—The Secretary shall, with respect to each application submitted under this section, maintain a record of—

(A) the name of the applicant;

(B) the name of the drug covered by the application;

(C) the name of each person to whom the review of the chemistry of the application was assigned and the date of the assignment; and

(D) the name of each person to whom the bioequivalence review for the application was assigned and the date of the assignment.

(2) AVAILABILITY TO THE PUBLIC.—The information the Secretary is required to maintain under this subsection with respect to an application submitted under this section shall be made available to the public after the approval of the application.

(j) VARIATION IN LABELING.—

(1) IN GENERAL.—If the proposed labeling of a drug that is the subject of an application under this section differs from the listed drug due to a labeling revision described under subparagraph (A), the drug that is the subject of the application shall, notwithstanding any other provision of this subtitle, be eligible for approval and shall not be considered misbranded under chapter 133 of this title if—

(A) a revision to the labeling of the listed drug has been approved by the Secretary within 90 days of when the application is otherwise eligible for approval under this section;

(B) the sponsor of the application agrees to submit revised labeling for the drug that is the subject of the application not later than 60 days after approval under this section of the application;

(C) the labeling revision described under subparagraph (A) does not include a change to the ''Warnings'' section of the labeling; and

(D) the application otherwise meets the applicable requirements for approval under this section.

(2) EFFECT OF ADVERSE IMPACT OF LABELING PRIOR TO REVISION.—If, after a labeling revision described in paragraph (1)(A), the Secretary determines that the continued presence in interstate commerce of the labeling of the listed drug (as in effect before the revision described in paragraph (1)(A)) adversely impacts the safe use of the drug, an application under this section shall not be eligible for approval with the labeling.

(k) PRIORITY REVIEW FOR CERTAIN DRUGS.—

(1) IN GENERAL.—Subject to paragraph (2), the Secretary shall prioritize the review of, and act within 8 months of the date of the submission of, an

original abbreviated new drug application submitted for review under this section that is for a drug—

(A) for which there are not more than 3 approved drug products listed under subsection (h) and for which there are no blocking patents and exclusivities; or

(B) that has been included on the list under section 13125 of this title.

(2) REQUIRED INFORMATION.—

(A) IN GENERAL.—To qualify for priority review under this subsection, not later than 60 days prior to the submission of an application described in paragraph (1) or that the Secretary may prioritize pursuant to paragraph (4), the applicant shall provide complete, accurate information regarding facilities involved in manufacturing processes and testing of the drug that is the subject of the application, including facilities in corresponding Type II active pharmaceutical ingredients drug master files referenced in an application and sites or organizations involved in bioequivalence and clinical studies used to support the application, to enable the Secretary to make a determina-

tion regarding whether an inspection of a facility is necessary.

(B) INCLUSIONS.—The information described in subparagraph (A) shall include the relevant (as determined by the Secretary) sections of the application, which shall be unchanged relative to the date of the submission of the application, except to the extent that a change is made to the information to exclude a facility that was not used to generate data to meet any application requirements for the submission and that is not the only facility intended to conduct 1 or more unit operations in commercial production.

(C) INFORMATION PROVIDED NOT CONSIDERED SUBMISSION OF APPLICATION.—Information provided by an applicant under this paragraph shall not be considered the submission of an application under this section.

(3) EXPEDITED INSPECTION.—The Secretary may expedite an inspection or reinspection under section 17504 of this title of an establishment that proposes to manufacture a drug described in paragraph (1).

(4) EFFECT OF SUBSECTION.—Nothing in this subsection shall prevent the Secretary from prioritizing the review of other applications as the Secretary determines appropriate.

(l) PUBLICATION OF LIST OF DRUGS.—The Secretary shall publish on the FDA website, and update at least once every 6 months, a list of all drugs approved under section 13504 of this title for which all patents and periods of exclusivity under this subtitle have expired and for which no application has been approved under this section.

(m) REVIEW STATUS UPDATES.—On the request of an applicant regarding 1 or more specified pending applications under this section, the Secretary shall, as appropriate, provide review status updates indicating the categorical status of the applications by each relevant review discipline.

**§ 13512. Records and reports**

(a) RECORDS AND REPORTS RELATING TO GROUNDS FOR WITHDRAWAL OR SUSPENSION OF APPROVAL REQUIRED BY REGULATION OR ORDER.—

(1) IN GENERAL.—In the case of any drug for which an approval of an application filed under section 13503 or 13511 of this title is in effect, the applicant shall establish and maintain such records,

and make such reports to the Secretary, of data relating to clinical experience and other data or information, received or otherwise obtained by the applicant with respect to the drug, as the Secretary may by general regulation, or by order with respect to the application, prescribe on the basis of a finding that the records and reports are necessary in order to enable the Secretary to determine, or facilitate a determination, whether there is or may be ground for invoking section 13506 of this title.

(2) REQUIREMENTS FOR REGULATIONS AND ORDERS.—Regulations and orders issued under this section and under section 13510 of this title—

(A) shall have due regard for the professional ethics of the medical profession and the interests of patients; and

(B) shall provide, where the Secretary considers it to be appropriate, for the examination, upon request, by the persons to whom the regulations or orders are applicable, of similar information received or otherwise obtained by the Secretary.

(b) ACCESS TO RECORDS.—Every person required under this chapter to maintain records, and every person in charge or custody of the records, shall, on request of

an officer or employee designated by the Secretary, permit the officer or employee at all reasonable times to have access to and copy and verify the records.

(c) ACTIVE POSTMARKET RISK IDENTIFICATION.—

(1) DEFINITION OF DATA.—In this subsection, the term ''data'' refers to information with respect to a drug approved under this chapter or under section 351 of the Public Health Service Act (42 U.S.C. 262), including—

(A) claims data;

(B) patient survey data;

(C) standardized analytic files that allow for the pooling and analysis of data from disparate data environments; and

(D) any other data considered appropriate by the Secretary.

(2) DEVELOPMENT OF POSTMARKET RISK IDENTIFICATION AND ANALYSIS METHODS.—The Secretary shall, in collaboration with public, academic, and private entities—

(A) develop methods to obtain access to disparate data sources including the data sources specified in paragraph (3);

(B) develop validated methods for the establishment of a postmarket risk identification

and analysis system to link and analyze safety data from multiple sources, with the goals of including, in aggregate—

(i) at least 25,000,000 patients by July 1, 2010; and

(ii) at least 100,000,000 patients by July 1, 2012; and

(C) convene a committee of experts, including individuals who are recognized in the field of protecting data privacy and security, to make recommendations to the Secretary on the development of tools and methods for the ethical and scientific uses for, and communication of, postmarketing data specified under paragraph (3), including recommendations on the development of effective research methods for the study of drug safety questions.

(3) ESTABLISHMENT OF THE POSTMARKET RISK IDENTIFICATION AND ANALYSIS SYSTEM.—

(A) IN GENERAL.—The Secretary shall, not later than 1 year after the development of the risk identification and analysis methods under paragraph (2), establish and maintain procedures—

(i) for risk identification and analysis based on electronic health data, in compliance with the regulations promulgated under section 264(c) of the Health Insurance Portability and Accountability Act of 1996 (42 U.S.C. 1320d-2 note), and in a manner that does not disclose individually identifiable health information in violation of subsection (d)(2);

(ii) for the reporting (in a standardized form) of data on all serious adverse drug experiences (as defined in section 13111(a) of this title) submitted to the Secretary under subsection (a), and those adverse events submitted by patients, providers, and drug sponsors, when appropriate;

(iii) to provide for active adverse event surveillance using the following data sources, as available:

(I) Federal health-related electronic data (such as data from the Medicare program and the health systems of the Department of Veterans Affairs);

(II) private sector health-related electronic data (such as pharmaceutical purchase data and health insurance claims data); and

(III) other data as the Secretary considers necessary to create a robust system to identify adverse events and potential drug safety signals;

(iv) to identify certain trends and patterns with respect to data accessed by the system;

(v) to provide regular reports to the Secretary concerning adverse event trends, adverse event patterns, incidence and prevalence of adverse events, and other information the Secretary determines appropriate, which may include data on comparative national adverse event trends; and

(vi) to enable the program to export data in a form appropriate for further aggregation, statistical analysis, and reporting.

(B) TIMELINESS OF REPORTING.—The procedures established under subparagraph (A) shall ensure that the data are accessed, ana-

lyzed, and reported in a timely, routine, and systematic manner, taking into consideration the need for data completeness, coding, cleansing, and standardized analysis and transmission.

(C) PRIVATE SECTOR RESOURCES.—To ensure the establishment of the active postmarket risk identification and analysis system under this section not later than 1 year after the development of the risk identification and analysis methods under paragraph (2), as required under subparagraph (A), the Secretary may, on a temporary or permanent basis, implement systems or products developed by private entities.

(D) COMPLEMENTARY APPROACHES.—To the extent the active postmarket risk identification and analysis system under this section is not sufficient to gather data and information relevant to a priority drug safety question, the Secretary shall develop, support, and participate in complementary approaches to gather and analyze the data and information, including—

(i) approaches that are complementary with respect to assessing the safety of

use of a drug in domestic populations not included, or underrepresented, in the trials used to approve the drug (such as older people, people with comorbidities, pregnant women, or children); and

(ii) existing approaches such as the Vaccine Adverse Event Reporting System and the Vaccine Safety Datalink or successor databases.

(E) AUTHORITY FOR ENTERING INTO CONTRACTS.—The Secretary may enter into contracts with public and private entities to fulfill the requirements of this paragraph.

(d) ADVANCED ANALYSIS OF DRUG SAFETY DATA.—

(1) PURPOSE.—The Secretary shall establish collaborations with public, academic, and private entities, which may include the Centers for Education and Research on Therapeutics under section 912 of the Public Health Service Act (42 U.S.C. 299b–1), to provide for advanced analysis of drug safety data described in subsection (c)(3) and other information that is publicly available or is provided by the Secretary, in order to—

(A) improve the quality and efficiency of postmarket drug safety risk-benefit analysis;

(B) provide the Secretary with routine access to outside expertise to study advanced drug safety questions; and

(C) enhance the ability of the Secretary to make timely assessments based on drug safety data.

(2) PRIVACY.—The analysis under paragraph (1) shall not disclose individually identifiable health information when presenting the drug safety signals and trends or when responding to inquiries regarding the drug safety signals and trends.

(3) PUBLIC PROCESS FOR PRIORITY QUESTIONS.—At least biannually, the Secretary shall seek recommendations from the Drug Safety and Risk Management Advisory Committee (or any successor committee) and from other advisory committees, as appropriate, to the FDA on—

(A) priority drug safety questions; and

(B) mechanisms for answering the questions, including through—

(i) active risk identification under subsection (c); and

(ii) when the risk identification is not sufficient, postapproval studies and clinical trials under section 13515(c) of this title.

(4) PROCEDURES FOR THE DEVELOPMENT OF DRUG SAFETY COLLABORATIONS.—

(A) IN GENERAL.—The Secretary shall establish and implement procedures under which the Secretary may routinely contract with 1 or more qualified entities to—

(i) classify, analyze, or aggregate data described in subsection (c)(3) and information that is publicly available or is provided by the Secretary;

(ii) allow for prompt investigation of priority drug safety questions, including—

(I) unresolved safety questions for drugs or classes of drugs; and

(II) for a newly-approved drug—

(aa) safety signals from clinical trials used to approve the drug and other preapproval trials;

(bb) rare, serious drug side effects; and

(cc) the safety of use in domestic populations not included, or underrepresented, in the trials used to approve the drug (such

as older people, people with comorbidities, pregnant women, or children);

(iii) perform advanced research and analysis on identified drug safety risks;

(iv) focus postapproval studies and clinical trials under section 13515(c) of this title more effectively on cases for which reports under subsection (a) and other safety signal detection are not sufficient to resolve whether there is an elevated risk of a serious adverse event associated with the use of a drug; and

(v) carry out other activities as the Secretary considers necessary to carry out the purposes of this paragraph.

(B) REQUEST FOR SPECIFIC METHODOLOGY.—The procedures described in subparagraph (A) shall permit the Secretary to request that a specific methodology be used by the qualified entity. The qualified entity shall work with the Secretary to finalize the methodology to be used.

(5) USE OF ANALYSES.—The Secretary shall provide the analyses described in this subsection, in-

cluding the methods and results of the analyses, about a drug to the sponsor or sponsors of the drug.

(6) QUALIFIED ENTITIES.—

(A) IN GENERAL.—The Secretary shall enter into contracts with a sufficient number of qualified entities to develop and provide information to the Secretary in a timely manner.

(B) QUALIFICATION.—The Secretary shall enter into a contract with an entity under subparagraph (A) only if the Secretary determines that the entity has a significant presence in the United States and has 1 or more of the following qualifications:

(i) RESEARCH, STATISTICAL, EPIDEMIOLOGIC, OR CLINICAL CAPABILITY AND EXPERTISE.—The research, statistical, epidemiologic, or clinical capability and expertise to conduct and complete the activities under this subsection, including the capability and expertise to provide the Secretary de-identified data consistent with the requirements of this section.

(ii) INFORMATION TECHNOLOGY INFRASTRUCTURE.—An information technology infrastructure in place to support

electronic data and operational standards to provide security for the data.

(iii) EXPERIENCE AND EXPERTISE ON DEVELOPMENT OF DRUG SAFETY AND EFFECTIVENESS RESEARCH.—Experience with, and expertise on, the development of drug safety and effectiveness research using electronic population data.

(iv) UNDERSTANDING OF DRUG DEVELOPMENT OR RISK/BENEFIT BALANCING.—An understanding of drug development or risk/benefit balancing in a clinical setting.

(v) OTHER EXPERTISE.—Other expertise that the Secretary considers necessary to fulfill the activities under this subsection.

(7) CONTRACT REQUIREMENTS.—Each contract with a qualified entity under paragraph (6)(A) shall contain the following requirements:

(A) ENSURING PRIVACY.—

(i) IN GENERAL.—The qualified entity shall ensure that the entity will not use data under this section in a manner that—

(I) violates the regulations promulgated under section 264(c) of the Health Insurance Portability and Accountability Act of 1996 (42 U.S.C. 1320d–2 note);

(II) violates section 552 or 552a of title 5 with regard to the privacy of individually identifiable beneficiary health information; or

(III) discloses individually identifiable health information when presenting drug safety signals and trends or when responding to inquiries regarding drug safety signals and trends.

(ii) EFFECT OF SUBPARAGRAPH.—Nothing in this subparagraph prohibits lawful disclosure for other purposes.

(B) COMPONENT OF ANOTHER ORGANIZATION.—If a qualified entity is a component of another organization—

(i) the qualified entity shall establish appropriate security measures to maintain the confidentiality and privacy of the data; and

(ii) the entity shall not make an unauthorized disclosure of the data to the other components of the organization in breach of the confidentiality and privacy requirement.

(C) TERMINATION OR NONRENEWAL.—If a contract with a qualified entity under this paragraph is terminated or not renewed, the following requirements shall apply:

(i) CONFIDENTIALITY AND PRIVACY PROTECTIONS.—The entity shall continue to comply with the confidentiality and privacy requirements under this subsection with respect to all data disclosed to the entity.

(ii) DISPOSITION OF DATA.—The entity shall return any data disclosed to the entity under this section to which it would not otherwise have access or, if returning the data is not practicable, destroy the data.

(8) COMPETITIVE PROCEDURES.—The Secretary shall use competitive procedures (as defined in section 132 of title 41) to enter into contracts under paragraph (7).

(9) REVIEW OF CONTRACT IN THE EVENT OF A MERGER OR ACQUISITION.—The Secretary shall review the contract with a qualified entity under this subsection in the event of a merger or acquisition of the entity in order to ensure that the requirements under this subsection will continue to be met.

(10) COMMUNICATION AND COORDINATION.—In carrying out this subsection, the Secretary shall provide for appropriate communications to the public, scientific, public health, and medical communities, and other key stakeholders, and to the extent practicable shall coordinate activities with private entities, professional associations, or other entities that may have sources of drug safety data.

(e) REPORTING TO CONGRESS AND ONLINE PUBLICATION RELATING TO SAFETY.—The Secretary shall—

(1) conduct regular screenings of the Adverse Event Reporting System database and post a quarterly report on the Adverse Event Reporting System website of any new safety information or potential signal of a serious risk identified by the Adverse Event Reporting System within the last quarter;

(2) on an annual basis, review the entire backlog of postmarket safety commitments to determine which commitments require revision or should be

eliminated, report to the Congress on these determinations, and assign start dates and estimated completion dates for the commitments; and

(3) make available on the FDA website—

(A) guidelines, developed with input from experts qualified by scientific training and experience to evaluate the safety and effectiveness of drugs, that detail best practices for drug safety surveillance using the Adverse Event Reporting System; and

(B) criteria for public posting of adverse event signals.

(f) EFFECT OF PROVISIONS ON LAWFUL DISCLOSURE OF INFORMATION.—Nothing in subsections (c) and (d), or in section 905 of the Food and Drug Administration Amendments Act of 2007 (Public Law 110–85, 121 Stat. 944), shall be construed to prohibit the lawful disclosure or use of data or information by an entity other than as described in paragraph (2) or (7) of subsection (d).

**§ 13513. Public disclosure of safety and effectiveness data and action package**

(a) WHEN SAFETY AND EFFECTIVENESS DATA SHALL BE MADE AVAILABLE.—Safety and effectiveness data and information that has been submitted in an application under section 13503 of this title for a drug and

that has not previously been disclosed to the public shall be made available to the public, upon request, unless extraordinary circumstances are shown—

(1) if no work is being or will be undertaken to have the application approved;

(2) if the Secretary has determined that the application is not approvable and all legal appeals have been exhausted;

(3) if approval of the application under section 13504 of this title is withdrawn and all legal appeals have been exhausted;

(4) if the Secretary has determined that the drug is not a new drug; or

(5) on the effective date of the approval of the first application under section 13511 of this title that refers to the drug or on the date on which the approval of an application under section 13511 of this title that refers to the drug could be made effective if such an application had been submitted.

(b) ACTION PACKAGE FOR APPROVAL.—

(1) ACTION PACKAGE.—The Secretary shall publish the action package for approval of an application under section 13503 of this title or section 351 of the Public Health Service Act (42 U.S.C. 262) on the FDA website—

(A) not later than 30 days after the date of approval of the application—

(i) for a drug, no active moiety (as defined by the Secretary in section 314.3 of title 21, Code of Federal Regulations (or any successor regulations)) of which has been approved in any other application under this chapter; or

(ii) for a biological product, no active ingredient of which has been approved in any other application under section 351 of the Public Health Service Act (42 U.S.C. 262); and

(B) not later than 30 days after the third request for the action package for approval received under section 552 of title 5 for any other drug or biological product.

(2) IMMEDIATE PUBLICATION OF SUMMARY REVIEW.—Notwithstanding paragraph (1), the Secretary shall publish, on the FDA website, the materials described in paragraph (3)(D) not later than 48 hours after the date of approval of the drug, except where the materials require redaction by the Secretary.

(3) CONTENTS.—An action package for approval of an application under paragraph (1) shall be dated and shall include the following:

(A) Documents generated by the FDA related to review of the application.

(B) Documents pertaining to the format and content of the application generated during drug development.

(C) Labeling submitted by the applicant.

(D) A summary review that documents conclusions from all reviewing disciplines about the drug, noting any critical issues and disagreements with the applicant and within the review team and how they were resolved, recommendations for action, and an explanation of any nonconcurrence with review conclusions.

(E) The Division Director and Office Director's decision document, which includes—

(i) a brief statement of concurrence with the summary review;

(ii) a separate review or addendum to the review if disagreeing with the summary review; and

(iii) a separate review or addendum to the review to add further analysis.

(F) Identification by name of each officer or employee of the FDA who—

(i) participated in the decision to approve the application; and

(ii) consents to have his or her name included in the package.

(4) REVIEW.—A scientific review of an application is considered the work of the reviewer and shall not be altered by management or the reviewer once final.

(5) CONFIDENTIAL INFORMATION.—This subsection does not authorize the disclosure of any trade secret, confidential commercial or financial information, or other matter listed in section 552(b) of title 5.

**§ 13514. Scientific advisory panels**

(a) PURPOSE OF ESTABLISHMENT OR USE OF PANELS.—For the purpose of providing expert scientific advice and recommendations to the Secretary regarding a clinical investigation of a drug or the approval for marketing of a drug under this chapter or section 351 of the Public Health Service Act (42 U.S.C. 262), the Secretary shall establish panels of experts, use panels of experts established before November 21, 1997, or both.

(b) MEMBERS.—

(1) IN GENERAL.—The Secretary shall make appointments to each panel established under subsection (a) so that each panel shall consist of—

(A) members who are qualified by training and experience to evaluate the safety and effectiveness of the drugs to be referred to the panel and who, to the extent feasible, possess skill and experience in the development, manufacture, or utilization of the drugs;

(B) members with diverse expertise in such fields as clinical and administrative medicine, pharmacy, pharmacology, pharmacoeconomics, biological and physical sciences, and other related professions;

(C)(i) a representative of consumer interests; and

(ii) a representative of interests of the drug manufacturing industry not directly affected by the matter to be brought before the panel; and

(D) 2 or more members who are specialists or have other expertise in the particular disease or condition for which the drug under review is proposed to be indicated.

(2) OPPORTUNITY FOR ORGANIZATIONS TO NOMINATE INDIVIDUALS FOR MEMBERSHIP.—Scientific, trade, and consumer organizations shall be afforded an opportunity to nominate individuals for appointment to the panels.

(3) LIMITATION RELATING TO FEDERAL EMPLOYMENT.—An individual who is in the regular full-time employ of the Federal Government and engaged in the administration of this subtitle shall not be a voting member of any panel.

(4) CHAIRPERSON.—The Secretary shall designate one of the members of each panel to serve as chairperson of the panel.

(c) EDUCATION AND TRAINING OF MEMBERS.—The Secretary shall, as appropriate, provide education and training to each new panel member before the member participates in a panel's activities, including education regarding requirements under this subtitle and related regulations of the Secretary, and the administrative processes and procedures related to panel meetings.

(d) COMPENSATION.—

(1) IN GENERAL.—Panel members (other than officers or employees of the Federal Government), while attending meetings or conferences of a panel or otherwise engaged in its business, shall be enti-

tled to receive compensation for each day of attendance or engagement, including travel time, at rates to be fixed by the Secretary, but not to exceed the daily equivalent of the rate in effect for positions classified above grade GS–15 of the General Schedule.

(2) TRAVEL EXPENSES.—While serving away from their homes or regular places of business, panel members may be allowed travel expenses (including per diem in lieu of subsistence) as authorized by section 5703 of title 5 for individuals in the Government service employed intermittently.

(e) MEETINGS.—

(1) IN GENERAL.—The Secretary shall ensure that any scientific advisory panel meets regularly and at appropriate intervals so that any matter to be reviewed by the panel can be presented to the panel not more than 60 days after the matter is ready for the review.

(2) ELECTRONIC COMMUNICATIONS.—A meeting of a panel under paragraph (1) may be held using electronic communication to convene the meetings.

(f) REVIEW OF PANEL RECOMMENDATIONS; FINAL DECISION.—

(1) IN GENERAL.—Within 90 days after a scientific advisory panel makes recommendations on any matter under its review, the FDA official responsible for the matter shall review the conclusions and recommendations of the panel, and notify the affected persons of the final decision on the matter, or of the reasons that no final decision has been reached.

(2) DOCUMENTATION.—Each final decision under paragraph (1) shall be documented, including the rationale for the decision.

**§ 13515. Postmarket studies and clinical trials; labeling changes**

(a) DEFINITIONS.—In this section:

(1) COVERED APPLICATION.—The term ''covered application'' means—

(A) an application under section 13503 of this title for a drug that is subject to section 13103(a) of this title; and

(B) an application under section 351 of the Public Health Service Act (42 U.S.C. 262).

(2) NEW SAFETY INFORMATION.—The term ''new safety information'' has the meaning given the term in section 13111(a) of this title.

(3) RESPONSIBLE PERSON.—The term ''responsible person'' means a person that—

(A) has submitted to the Secretary a covered application that is pending; or

(B) is the holder of an approved covered application.

(4) SERIOUS RISK.—The term ''serious risk'' has the meaning given the term in section 13111(a) of this title.

(5) SIGNAL OF A SERIOUS RISK.—The term ''signal of a serious risk'' has the meaning given the term in section 13111(a) of this title.

(b) IN GENERAL.—A responsible person may not introduce or deliver for introduction into interstate commerce the new drug involved if the person is in violation of a requirement established under subsection (c) or (d) with respect to the drug.

(c) STUDIES AND CLINICAL TRIALS.—

(1) IN GENERAL.—For any or all of the purposes specified in paragraph (2), the Secretary may, subject to paragraph (4), require a responsible person for a drug to conduct a postapproval study or studies of the drug, or a postapproval clinical trial or trials of the drug, on the basis of scientific data considered appropriate by the Secretary, including

information regarding chemically-related or pharmacologically-related drugs.

(2) PURPOSES OF STUDY OR CLINICAL TRIAL.—The purposes referred to in this paragraph with respect to a postapproval study or postapproval clinical trial are the following:

(A) To assess a known serious risk related to the use of the drug involved.

(B) To assess signals of serious risk related to the use of the drug.

(C) To identify an unexpected serious risk when available data indicates the potential for a serious risk.

(3) ESTABLISHMENT OF REQUIREMENT AFTER APPROVAL OF COVERED APPLICATION.—The Secretary may require a postapproval study or studies or postapproval clinical trial or trials for a drug for which an approved covered application is in effect as of the date on which the Secretary seeks to establish the requirement only if the Secretary becomes aware of new safety information.

(4) DETERMINATION BY SECRETARY.—

(A) POSTAPPROVAL STUDIES.—The Secretary may not require the responsible person to conduct a study under this subsection, unless

the Secretary makes a determination that the reports under section 13512(a) of this title and the active postmarket risk identification and analysis system as available under section 13512(c) of this title will not be sufficient to meet the purposes set forth in paragraph (2).

(B) POSTAPPROVAL CLINICAL TRIALS.—The Secretary may not require the responsible person to conduct a clinical trial under this subsection, unless the Secretary makes a determination that a postapproval study or studies will not be sufficient to meet the purposes set forth in paragraph (2).

(5) NOTIFICATION; TIMETABLES; PERIODIC REPORTS.—

(A) NOTIFICATION.—The Secretary shall notify the responsible person regarding a requirement under this subsection to conduct a postapproval study or clinical trial by the target dates for communication of feedback from the review team to the responsible person regarding proposed labeling and postmarketing study commitments as set forth in the letters described in section 101(c) of the Prescription

Drug User Fee Amendments of 2007 (Public Law 110–85, title I, 121 Stat. 825).

(B) TIMETABLE; PERIODIC REPORTS.—

(i) SUBMISSION OF TIMETABLE.—For each study or clinical trial required to be conducted under this subsection, the Secretary shall require that the responsible person submit a timetable for completion of the study or clinical trial.

(ii) PERIODIC REPORTING OF STATUS.—

(I) STUDIES.—With respect to each study required to be conducted under this subsection or otherwise undertaken by the responsible person to investigate a safety issue, the Secretary shall require the responsible person to periodically report to the Secretary on the status of the study including whether any difficulties in completing the study have been encountered.

(II) CLINICAL TRIALS.—With respect to each clinical trial required to be conducted under this subsection or

otherwise undertaken by the responsible person to investigate a safety issue, the Secretary shall require the responsible person to periodically report to the Secretary on the status of the clinical trial including whether enrollment has begun, the number of participants enrolled, the expected completion date, whether any difficulties completing the clinical trial have been encountered, and registration information with respect to the requirements under section 402(j) of the Public Health Service Act (42 U.S.C. 282(j)).

(iii) NONCOMPLIANCE OR VIOLATION; DEMONSTRATION OF GOOD CAUSE.—

(I) IN GENERAL.—If the responsible person fails to comply with the timetable or violates any other requirement of this paragraph, the responsible person shall be considered in violation of this section, unless the responsible person demonstrates good

cause for the noncompliance or other violation.

(II) DETERMINATION OF GOOD CAUSE.—The Secretary shall determine what constitutes good cause under subclause (I).

(6) DISPUTE RESOLUTION.—The responsible person may appeal a requirement to conduct a study or clinical trial under this subsection using dispute resolution procedures established by the Secretary in regulation and guidance.

(d) SAFETY LABELING CHANGES REQUESTED BY SECRETARY.—

(1) NEW SAFETY OR NEW EFFECTIVENESS INFORMATION.—If the Secretary becomes aware of new information, including any new safety information or information related to reduced effectiveness, that the Secretary determines should be included in the labeling of the drug, the Secretary shall promptly notify the responsible person or, if the same drug approved under section 13503 of this title is not currently marketed, the holder of an approved application under section 13511 of this title.

(2) RESPONSE TO NOTIFICATION.—Following notification pursuant to paragraph (1), the respon-

sible person or the holder of the approved application under section 13511 of this title shall within 30 days—

(A) submit a supplement proposing changes to the approved labeling to reflect the new safety information, including changes to boxed warnings, contraindications, warnings, precautions, or adverse reactions, or new effectiveness information; or

(B) notify the Secretary that the responsible person or the holder of the approved application under section 13511 of this title does not believe a labeling change is warranted and submit a statement detailing the reasons why such a change is not warranted.

(3) REVIEW.—

(A) IN GENERAL.—On receipt of a supplement under paragraph (2)(A), the Secretary shall promptly review and act on the supplement.

(B) DISAGREEMENT BY SECRETARY; DISCUSSIONS.—If the Secretary disagrees with the proposed changes in the supplement or with the statement setting forth the reasons why no labeling change is necessary, the Secretary shall

initiate discussions to reach agreement on whether the labeling for the drug should be modified to reflect the new safety or new effectiveness information, and if so, the contents of the labeling changes.

(4) DISCUSSIONS.—The discussions described in paragraph (3)(B) shall not extend for more than 30 days after the response to the notification under paragraph (2), unless the Secretary determines an extension of the discussion period is warranted.

(5) ORDER.—

(A) ISSUANCE.—Within 15 days of the conclusion of the discussions under paragraph (4), the Secretary may issue an order directing the responsible person or the holder of the approved application under section 13511 of this title to make such a labeling change as the Secretary considers appropriate to address the new safety or new effectiveness information.

(B) SUBMISSION OF SUPPLEMENT CONTAINING LABELING CHANGE.—Within 15 days of the order under subparagraph (A), the responsible person or the holder of the approved application under section 13511 of this title

shall submit a supplement containing the labeling change.

(6) DISPUTE RESOLUTION.—Within 5 days of receiving an order under paragraph (5), the responsible person or the holder of the approved application under section 13511 of this title may appeal using dispute resolution procedures established by the Secretary in regulation and guidance.

(7) VIOLATIONS.—

(A) REQUIRED SUPPLEMENT UNDER PARAGRAPH (5) NOT SUBMITTED.—If the responsible person or the holder of the approved application under section 13511 of this title has not submitted a supplement within 15 days of the date of the order under paragraph (5), and there is no appeal or dispute resolution proceeding pending, the responsible person or holder shall be considered to be in violation of this section.

(B) REQUIRED SUPPLEMENT AT CONCLUSION OF DISPUTE RESOLUTION NOT SUBMITTED.—If, at the conclusion of any dispute resolution procedures, the Secretary determines that a supplement must be submitted and the supplement is not submitted within 15 days of the date of that determination, the responsible

person or holder shall be in violation of this section.

(8) PUBLIC HEALTH THREAT.—Notwithstanding paragraphs (1) through (6), if the Secretary concludes that a labeling change under this subsection is necessary to protect the public health, the Secretary may accelerate the timelines in the paragraphs.

(9) RULE OF CONSTRUCTION.—This subsection shall not be construed to affect the responsibility of the responsible person or the holder of the approved application under section 13511 of this title to maintain its label in accordance with existing requirements, including subpart B of part 201 and sections 314.70 and 601.12 of title 21, Code of Federal Regulations (or any successor regulations).

(e) NON-DELEGATION.—Determinations by the Secretary under this section for a drug shall be made by individuals at or above the level of individuals empowered to approve a drug (such as division directors within the Center for Drug Evaluation and Research).

**§ 13516. Risk evaluation and mitigation strategy**

(a) IN GENERAL.—A person may not introduce or deliver for introduction into interstate commerce a new drug if—

(1)(A) the application for the drug is approved under section 13503 or 13511 of this title and is subject to section 13103(a) of this title; or

(B) the application for the drug is approved under section 351 of the Public Health Service Act (42 U.S.C. 262); and

(2) a risk evaluation and mitigation strategy is required under section 13111 of this title with respect to the drug and the person fails to maintain compliance with the requirements of the approved strategy or with other requirements under section 13111 of this title, including requirements regarding assessments of approved strategies.

(b) CERTAIN POSTMARKET STUDIES.—The failure to conduct a postmarket study under section 13119 of this title of this title or subpart H of part 314 or subpart E of part 601 of title 21, Code of Federal Regulations (or any successor regulations), is deemed to be a violation of subsection (a).

**§ 13517. Petitions and civil actions regarding approval of certain applications**

(a) DEFINITIONS.—In this section:

(1) APPLICATION.—The term ''application'' means an application submitted under section

13503(b) or 13511 of this title or section 351(k) of the Public Health Service Act (42 U.S.C. 262(k)).

(2) PETITION.—Except in subsection (b)(1)(A)(i), the term ''petition'' means a request described in subsection (b)(1)(A)(i).

(b) IN GENERAL.—

(1) DETERMINATION.—

(A) IN GENERAL.—The Secretary shall not delay approval of a pending application because of any request to take any form of action relating to the application, either before or during consideration of the request, unless—

(i) the request is in writing and is a petition submitted to the Secretary pursuant to section 10.30 or 10.35 of title 21, Code of Federal Regulations (or any successor regulations); and

(ii) the Secretary determines, on reviewing the petition, that a delay is necessary to protect the public health.

(B) SEPARATE AND APART FROM REVIEW OF APPLICATION.—Consideration of the petition shall be separate and apart from review and approval of any application.

(2) NOTIFICATION.—If the Secretary determines under paragraph (1) that a delay is necessary with respect to an application, the Secretary shall provide to the applicant, not later than 30 days after making the determination, the following information:

(A) Notification of the fact that a determination under paragraph (1) has been made.

(B) If applicable, any clarification or additional data that the applicant should submit to the docket on the petition to allow the Secretary to review the petition promptly.

(C) A brief summary of the specific substantive issues raised in the petition that form the basis of the determination.

(3) FORMAT.—The information described in paragraph (2) shall be conveyed via, at the discretion of the Secretary, either—

(A) a document; or

(B) a meeting with the applicant involved.

(4) PUBLIC DISCLOSURE.—Any information conveyed by the Secretary under paragraph (3) shall be considered part of the application and shall be subject to the disclosure requirements applicable to information in the application.

(5) DENIAL BASED ON INTENT TO DELAY.—

(A) IN GENERAL.—If the Secretary determines that a petition or a supplement to the petition was submitted with the primary purpose of delaying the approval of an application and the petition does not on its face raise valid scientific or regulatory issues, the Secretary may deny the petition at any point based on the determination.

(B) GUIDANCE.—The Secretary may issue guidance to describe the factors that will be used to determine under this paragraph whether a petition is submitted with the primary purpose of delaying the approval of an application.

(6) FINAL AGENCY ACTION.—

(A) DEADLINE.—The Secretary shall take final agency action on a petition not later than 150 days after the date on which the petition is submitted.

(B) NO EXTENSION.—The Secretary shall not extend the period under subparagraph (A) for any reason, including—

(i) any determination made under paragraph (1);

(ii) the submission of comments relating to the petition or supplemental information supplied by the petitioner; or

(iii) the consent of the petitioner.

(7) EXTENSION OF 30-MONTH PERIOD.—If the filing of an application resulted in first-applicant status under section 13511(f)(4)(A)(ii)(IV) of this title and approval of the application was delayed because of a petition, the 30-month period under that section is deemed to be extended by a period of time equal to the period beginning on the date on which the Secretary received the petition and ending on the date of final agency action on the petition (inclusive of the beginning and ending dates), without regard to whether the Secretary grants, in whole or in part, or denies, in whole or in part, the petition.

(8) CERTIFICATION.—

(A) IN GENERAL.—The Secretary shall not consider a petition for review unless the party submitting the petition does so in written form and the subject document is signed and contains the following certification: ''I certify that, to my best knowledge and belief: (a) this petition includes all information and views upon which the petition relies; (b) this petition in-

cludes representative data and/or information known to the petitioner which are unfavorable to the petition; and (c) I have taken reasonable steps to ensure that any representative data and/or information which are unfavorable to the petition were disclosed to me. I further certify that the information upon which I have based the action requested herein first became known to the party on whose behalf this petition is submitted on or about the following date: _____ . If I received or expect to receive payments, including cash and other forms of consideration, to file this information or its contents, I received or expect to receive those payments from the following persons or organizations: _____ . I verify under penalty of perjury that the foregoing is true and correct as of the date of the submission of this petition.''.

(B) DATE; PERSONS AND ORGANIZATIONS.—The date on which the information first became known to the party shall be inserted in the first blank space and the names of the persons or organizations from whom the payments are received or expected to be re-

ceived shall be inserted in the second blank space.

(9) VERIFICATION.—

(A) IN GENERAL.—The Secretary shall not accept for review any supplemental information or comments on a petition unless the party submitting the information or comments does so in written form and the subject document is signed and contains the following verification: ''I certify that, to my best knowledge and belief: (a) I have not intentionally delayed submission of this document or its contents; and (b) the information upon which I have based the action requested herein first became known to me on or about _____ . If I received or expect to receive payments, including cash and other forms of consideration, to file this information or its contents, I received or expect to receive those payments from the following persons or organizations: _____. I verify under penalty of perjury that the foregoing is true and correct as of the date of the submission of this petition.''.

(B) DATE; PERSONS AND ORGANIZATIONS.—The date on which the information first became known to the party shall be inserted in the first blank space and the names of the persons or organizations from whom the payments are received or expected to be received shall be inserted in the second blank space.

(c) EXHAUSTION OF ADMINISTRATIVE REMEDIES.—

(1) FINAL AGENCY ACTION WITHIN 150 DAYS.—The Secretary shall be considered to have taken final agency action on a petition if—

(A) during the 150-day period referred to in subsection (b)(6), the Secretary makes a final decision within the meaning of section 10.45(d) of title 21, Code of Federal Regulations (or any successor regulation); or

(B) the 150-day period expires without the Secretary having made a final decision described in subparagraph (A).

(2) DISMISSAL OF CERTAIN CIVIL ACTIONS.—If a civil action is filed against the Secretary with respect to any issue raised in the petition before the Secretary has taken final agency action on the petition within the meaning of paragraph (1), the court

shall dismiss without prejudice the action for failure to exhaust administrative remedies.

(3) ADMINISTRATIVE RECORD.—For purposes of judicial review related to the approval of an application for which a petition under subsection (b) was submitted, the administrative record regarding any issue raised by the petition shall include—

(A) the petition filed under subsection (b) and any supplements to and comments on the petition;

(B) the Secretary's response to the petition, if issued; and

(C) other information, as designated by the Secretary, related to the Secretary's determinations regarding the issues raised in the petition, as long as the information was considered by the agency no later than the date of final agency action as defined under paragraph (1), and regardless of whether the Secretary responded to the petition at or before the approval of the application at issue in the petition.

(d) ANNUAL REPORT ON DELAYS IN APPROVALS PER PETITIONS.—The Secretary shall annually submit to Congress a report that specifies—

(1) the number of applications that were approved during the preceding 12-month period;

(2) the number of applications described in paragraph (1) whose effective dates were delayed by petitions referred to in subsection (b) during the 12-month period;

(3) the number of days by which the applications described in paragraph (2) were delayed; and

(4) the number of petitions referred to in subsection (b) that were submitted during the 12-month period.

(e) INAPPLICABILITY OF PROVISIONS OF THIS SECTION.—

(1) IN GENERAL.—This section does not apply to—

(A) a petition that relates solely to the timing of the approval of an application pursuant to section 13511(f)(2)(D) of this title; or

(B) a petition that is made by the sponsor of an application and that seeks only to have the Secretary take or refrain from taking any form of action with respect to that application.

(2) SUBSECTION (c).—Subsection (c) does not apply to a petition addressing issues concerning an

application submitted pursuant to section 351(k) of the Public Health Service Act (42 U.S.C. 262(k)).

**§ 13518. Postmarket drug safety information for patients and providers**

(a) ESTABLISHMENT.—The Secretary shall improve the transparency of information about drugs and allow patients and health care providers better access to information about drugs by developing and maintaining an internet website that—

(1) provides links to drug safety information listed in subsection (b) for prescription drugs that are approved under this chapter or licensed under section 351 of the Public Health Service Act (42 U.S.C. 262); and

(2) improves communication of drug safety information to patients and providers.

(b) INTERNET WEBSITE.—The Secretary shall carry out subsection (a) by—

(1) developing and maintaining an accessible, consolidated internet website with easily searchable drug safety information, including the information found on United States Government internet websites, such as the United States National Library of Medicine's Daily Med and Medline Plus websites,

in addition to other such websites maintained by the Secretary;

(2) ensuring that the information provided on the internet website is comprehensive and includes, when available and appropriate—

(A) patient labeling and patient packaging inserts;

(B) a link to a list of each drug, whether approved under this chapter or licensed under section 351 of the Public Health Service Act (42 U.S.C. 262), for which a Medication Guide, as provided for under part 208 of title 21, Code of Federal Regulations (or any successor regulations), is required;

(C) a link to the registry and results data bank provided for under subsections (i) and (j) of section 402 of the Public Health Service Act (42 U.S.C. 282(i), (j));

(D) the most recent safety information and alerts issued by the FDA for drugs approved by the Secretary under this chapter, such as product recalls, warning letters, and import alerts;

(E) publicly available information about implemented RiskMAPs and risk evaluation and

mitigation strategies under section 13515 of this title;

(F) guidance documents and regulations related to drug safety; and

(G) other material determined appropriate by the Secretary;

(3) providing access to summaries of the assessed and aggregated data collected from the active surveillance infrastructure under section 13512(c) of this title to provide information of known and serious side-effects for drugs approved under this chapter or licensed under section 351 of the Public Health Service Act (42 U.S.C. 262);

(4) preparing and making publicly available on the internet website established under subsection (a) best practices for drug safety surveillance activities for drugs approved under this chapter or section 351 of the Public Health Service Act (42 U.S.C. 262);

(5) enabling patients, providers, and drug sponsors to submit adverse event reports through the internet website;

(6) providing educational materials for patients and providers about the appropriate means of disposing of expired, damaged, or unusable medications; and

(7) supporting initiatives that the Secretary determines to be useful to fulfill the purposes of the internet website.

(c) POSTING OF DRUG LABELING.—The Secretary shall post on the internet website developed and maintained under subsection (a) the approved professional labeling and any required patient labeling of a drug approved under this chapter or licensed under section 351 of the Public Health Service Act (42 U.S.C. 262) not later than 21 days after the date the drug is approved or licensed, including in a supplemental application with respect to a labeling change.

(d) AUTHORITY FOR CONTRACTS.—The Secretary may enter into contracts with public and private entities to fulfill the requirements of this section.

(e) REVIEW.—The Advisory Committee on Risk Communication established under section 14314 of this title—

(1) shall, on a regular basis, perform a comprehensive review and evaluation of the types of risk communication information provided on the internet website developed and maintained under subsection (a) and, through other means, shall identify, clarify, and define the purposes and types of information available to facilitate the efficient flow of information to patients and providers; and

(2) shall recommend ways for the FDA to work with outside entities to help facilitate the dispensing of risk communication information to patients and providers.

**§ 13519. Referral to advisory committee**

The Secretary shall—

(1) refer a drug or biological product to an advisory committee of the FDA for review at a meeting of the advisory committee prior to the approval of the drug or biological product if it is—

(A) a drug, no active moiety (as defined by the Secretary in section 314.3 of title 21, Code of Federal Regulations (or any successor regulations)) of which has been approved in any other application under this chapter; or

(B) a biological product, no active ingredient of which has been approved in any other application under section 351 of the Public Health Service Act (42 U.S.C. 262); or

(2) if the Secretary does not refer a drug or biological product described in paragraph (1) to an advisory committee of the FDA prior to the approval, provide in the action letter on the application for the drug or biological product a summary of the reasons why the Secretary did not refer the drug or biologi-

cal product to an advisory committee prior to approval.

**§ 13520. Database for authorized generic drugs**

(a) DEFINITION OF AUTHORIZED GENERIC DRUG.—In this section, the term ''authorized generic drug'' means a listed drug (as that term is used in section 13511 of this title) that—

(1) has been approved under section 13504 of this title; and

(2) is marketed, sold, or distributed directly or indirectly to retail class of trade under a different labeling, packaging (other than repackaging as the listed drug in blister packs, unit doses, or similar packaging for use in institutions), product code, labeler code, trade name, or trademark than the listed drug.

(b) IN GENERAL.—

(1) PUBLICATION.—The Commissioner shall—

(A) publish a complete list, on the FDA website, of all authorized generic drugs (including drug trade name, brand company manufacturer, and the date the authorized generic drug entered the market); and

(B) update the list quarterly to include each authorized generic drug included in an an-

nual report submitted to the Secretary by the sponsor of a listed drug during the preceding 3-month period.

(2) NOTIFICATION.—When the Commissioner first publishes the information described in paragraph (1), the Commissioner shall notify relevant Federal agencies, including the Centers for Medicare & Medicaid Services and the Federal Trade Commission, that the information has been published and that the information will be updated quarterly.

(c) INCLUSION.—The Commissioner shall include in the list described in subsection (b) each authorized generic drug included in an annual report submitted to the Secretary by the sponsor of a listed drug after January 1, 1999.

**§ 13521. Certain drugs containing single enantiomers**

(a) DEFINITION OF THERAPEUTIC CATEGORY.—

(1) IN GENERAL.—In this section, the term ''therapeutic category'' means a therapeutic category identified in the list developed by the United States Pharmacopeia pursuant to section 1860D–4(b)(3)(C)(ii) of the Social Security Act (42 U.S.C. 1395w–104(b)(3)(C)(ii)) and as in effect on September 27, 2007.

(2) PUBLICATION BY SECRETARY.—The Secretary shall publish the list described in paragraph (1) and may amend the list by regulation.

(b) IN GENERAL.—For purposes of sections 13504(c)(5)(A) and 13511(f)(6)(A) of this title, if an application is submitted under section 13503 of this title for a non-racemic drug containing as an active moiety (as defined by the Secretary in section 314.3 of title 21, Code of Federal Regulations (or any successor regulations)) a single enantiomer that is contained in a racemic drug approved in another application under section 13503 of this title, the applicant may, in the application for the non-racemic drug, elect to have the single enantiomer not be considered the same active moiety as that contained in the approved racemic drug, if—

(1)(A) the single enantiomer has not been previously approved except in the approved racemic drug; and

(B) the application submitted under section 13503 of this title for the non-racemic drug—

(i) includes full reports of new clinical investigations (other than bioavailability studies)—

(I) necessary for the approval of the application under sections 13504 and 13505 of this title; and

(II) conducted or sponsored by the applicant; and

(ii) does not rely on any clinical investigations (other than bioavailability studies) that are part of an application submitted under section 13503 of this title for approval of the approved racemic drug; and

(2) the application submitted under section 13503 of this title for the non-racemic drug is not submitted for approval of a condition of use—

(A) in a therapeutic category in which the approved racemic drug has been approved; or

(B) for which any other enantiomer of the racemic drug has been approved.

(c) LIMITATION.—

(1) NO APPROVAL IN CERTAIN THERAPEUTIC CATEGORIES.—Until the date that is 10 years after the date of approval of a non-racemic drug described in subsection (b) and with respect to which the applicant has made the election provided for by subsection (b), the Secretary shall not approve the non-racemic drug for any condition of use in the therapeutic category in which the racemic drug has been approved.

(2) LABELING.—If applicable, the labeling of a non-racemic drug described in subsection (b) and

with respect to which the applicant has made the election provided for by subsection (b) shall include a statement that the non-racemic drug is not approved, and has not been shown to be safe and effective, for any condition of use of the racemic drug.

(d) AVAILABILITY.—The election referred to in subsection (b) may be made only in an application that is submitted to the Secretary after September 27, 2007, and before October 1, 2027.

**§ 13522. Antibiotic drugs submitted before November 21, 1997**

(a) ANTIBIOTIC DRUGS APPROVED BEFORE NOVEMBER 21, 1997.—

(1) IN GENERAL.—Notwithstanding any provision of the Food and Drug Administration Modernization Act of 1997 (Public Law 105–115, 111 Stat. 2296) or any other provision of law, a sponsor of a drug that is the subject of an application described in paragraph (2)(A) shall be eligible for, with respect to the drug, the 3-year exclusivity period referred to under subparagraphs (B) and (C) of section 13504(c)(5) of this title and subparagraphs (B) and (C) of section 13511(f)(6) of this title, subject to the requirements of those subparagraphs, as applicable.

(2) APPLICATION; ANTIBIOTIC DRUG DESCRIBED.—

(A) APPLICATION.—An application described in this subparagraph is an application for marketing submitted under this chapter after October 8, 2008, in which the drug that is the subject of the application contains an antibiotic drug described in subparagraph (B).

(B) ANTIBIOTIC DRUG.—An antibiotic drug described in this subparagraph is an antibiotic drug that was the subject of an application approved by the Secretary under section 507 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 357) (as in effect before November 21, 1997).

(b) ANTIBIOTIC DRUGS SUBMITTED BEFORE NOVEMBER 21, 1997, BUT NOT APPROVED.—

(1) IN GENERAL.—Notwithstanding any provision of the Food and Drug Administration Modernization Act of 1997 (Public Law 105–115, 111 Stat. 2296) or any other provision of law, a sponsor of a drug that is the subject of an application described in paragraph (2)(A) may elect to be eligible for, with respect to the drug—

(A)(i) the 3-year exclusivity period referred to under subparagraphs (B) and (C) of section 13504(c)(5) of this title and subparagraphs (B) and (C) of section 13511(f)(6) of this title, subject to the requirements of those subparagraphs, as applicable; and

(ii) the 5-year exclusivity period referred to under subparagraph (A) of section 13504(c)(5) of this title and subparagraph (A) of section 13511(f)(6) of this title, subject to the requirements of those subparagraphs, as applicable; or

(B) a patent term extension under section 156 of title 35, subject to the requirements of that section.

(2) APPLICATION; ANTIBIOTIC DRUG DESCRIBED.—

(A) APPLICATION.—An application described in this subparagraph is an application for marketing submitted under this section after October 8, 2008, in which the drug that is the subject of the application contains an antibiotic drug described in subparagraph (B).

(B) ANTIBIOTIC DRUG.—An antibiotic drug described in this subparagraph is an antibiotic drug that was the subject of 1 or more

applications received by the Secretary under section 507 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 357) (as in effect before November 21, 1997), none of which was approved by the Secretary under that section.

(c) LIMITATIONS.—

(1) EXCLUSIVITIES AND EXTENSIONS.—Subsections (a)(1) and (b)(1) shall not be construed to entitle a drug that is the subject of an approved application described in subsection (a)(2)(A) or (b)(2)(A), as applicable, to any market exclusivities or patent extensions other than those exclusivities or extensions described in subsection (a)(1) or (b)(1).

(2) CONDITIONS OF USE.—Subsections (a)(1) and (b)(1)(A)(i) do not apply to any condition of use for which the drug referred to in subsection (a)(2)(A) or (b)(2)(A), as applicable, was approved before October 8, 2008.

(d) APPLICATION OF CERTAIN PROVISIONS.—Notwithstanding section 125, or any other provision, of the Food and Drug Administration Modernization Act of 1997 (Public Law 105–115, 111 Stat. 2296), or any other provision of law, and subject to the limitations in subsections (a), (b), and (c), the provisions of the Drug Price Competition and Patent Term Restoration Act of 1984 (Public

Law 98–417, 98 Stat. 1585) shall apply to any drug subject to subsection (a) or any drug with respect to which an election is made under subsection (b)(1).

**§ 13523. Deadline for determination on certain petitions**

The Secretary shall issue a final, substantive determination on a petition submitted pursuant to section 314.161(b) of title 21, Code of Federal Regulations (or any successor regulations), not later than 270 days after the date the petition is submitted.

**§ 13524. Date of approval in the case of recommended controls under division A of subtitle V of this title**

In the case of an application under 13503 of this title with respect to a drug for which the Secretary provides notice to the sponsor that the Secretary intends to issue a scientific and medical evaluation and recommend controls under division A of subtitle V of this title, approval of the application shall not take effect until the interim final rule controlling the drug is issued in accordance with section 50301(j) of this title.

**§ 13525. Contrast agents intended for use with applicable medical imaging devices**

(a) DEFINITIONS.—In this subsection:

(1) APPLICABLE MEDICAL IMAGING DEVICE.—The term ''applicable medical imaging device'' has the meaning given the term in section 13152(p) of this title.

(2) CONTRAST AGENT.—The term ''contrast agent'' has the meaning given the term in section 13152(p) of this title.

(3) NEW USE.—The term ''new use'' means a use of a contrast agent that is described in the approved labeling of an applicable medical imaging device described in section 13152(p) of this title, but that is not described in the approved labeling of the contrast agent.

(b) IN GENERAL.—The sponsor of a contrast agent for which an application has been approved under this chapter may submit a supplement to the application seeking approval for a new use following the authorization of a premarket submission for an applicable medical imaging device for that use with the contrast agent pursuant to section 13152(p)(2) of this title.

(c) REVIEW OF SUPPLEMENT.—In reviewing a supplement submitted under this section, the agency center charged with the premarket review of drugs may—

(1) consult with the center charged with the premarket review of devices; and

(2) review information and data submitted to the Secretary by the sponsor of an applicable medical imaging device pursuant to section 13136(k), 13140(h)(2), or 13142 of this title so long as the sponsor of the applicable medical imaging device has provided to the sponsor of the contrast agent a right of reference.

**§ 13526. Diversity action plan for clinical studies**

(a) IN GENERAL.—With respect to a clinical investigation of a new drug that is a phase 3 study, as defined in section 312.21(c) of title 21, Code of Federal Regulations, or successor regulations, or, as appropriate, another pivotal study of a new drug (other than bioavailability or bioequivalence studies), the sponsor of the drug shall submit to the Secretary a diversity action plan.

(b) CONTENT.—The diversity action plan shall include—

(1) the sponsor's goals for enrollment in the clinical study;

(2) the sponsor's rationale for the goals; and

(3) an explanation of how the sponsor intends to meet the goals.

(c) SUBMISSION REQUIREMENTS.—

(1) IN GENERAL.—The sponsor shall submit to the Secretary the diversity action plan, in the form

and manner specified by the Secretary in guidance, as soon as practicable but not later than the date on which the sponsor submits the protocol to the Secretary for the phase 3 study or other pivotal study of the drug.

(2) MODIFICATIONS.—The sponsor may submit modifications to the diversity action plan. The modifications shall be in the form and manner specified by the Secretary in guidance.

(d) WAIVER.—

(1) AUTHORITY.—On the initiative of the Secretary or at the request of a sponsor, the Secretary may waive any requirement in subsection (a), (b), or (c) if the Secretary determines that a waiver is necessary based on what is known or what can be determined about the prevalence or incidence of the disease or condition for which the new drug is under investigation (including in terms of the patient population that may use the drug), if conducting a clinical investigation in accordance with a diversity action plan would otherwise be impracticable, or if the waiver is necessary to protect public health during a public health emergency.

(2) WRITTEN RESPONSE REQUIRED.—The Secretary shall issue a written response granting or de-

nying a request from a sponsor for a waiver within 60 days of receiving the request.

(e) INAPPLICABILITY.—A diversity action plan shall not be required for a submission described in section 14301 of this title.

# Chapter 137—New Animal Drugs

Sec.
13701. Definitions.
13702. Unsafe new animal drugs and animal feed.
13703. Application procedures.
13704. Approval of applications.
13705. Grounds for refusing application.
13706. Withdrawal and suspension of approval.
13707. Revocation of order refusing, withdrawing, or suspending approval of application.
13708. Service of orders.
13709. Appeals from orders.
13710. Publication of approval in Federal Register.
13711. Exemption for drugs for investigational use.
13712. Food containing approved new animal drug considered unadulterated.
13713. Records and reports.
13714. Feed mill licenses.
13715. Abbreviated applications for new animal drugs.
13716. Safety and effectiveness data.
13717. Date of approval in the case of recommended controls under the CSA.

## § 13701. Definitions

In this chapter:

(1) DATE OF APPROVAL.—With respect to an application described in section 13717 of this title, the term ''date of approval'' means the later of—

(A) the date an application under section 13703 of this title is approved under section 13704 of this title; or

(B) the date of issuance of the interim final rule controlling the drug.

(2) PATENT.—The term ''patent'' means a patent issued by the United States Patent and Trademark Office.

(3) SUBSTANTIAL EVIDENCE.—

(A) IN GENERAL.—The term ''substantial evidence'' means evidence consisting of 1 or more adequate and well-controlled investigations described in subparagraph (B) such as—

(i) a study in a target species;

(ii) a study in laboratory animals;

(iii) any field investigation that may be required under this chapter and that meets the requirements of section 13703(c) of this title if a presubmission conference is requested by the applicant;

(iv) a bioequivalence study; or

(v) an in vitro study.

(B) INVESTIGATIONS.—The investigations described in this subparagraph are investigations by experts qualified by scientific training and experience to evaluate the effectiveness of the drug involved, on the basis of which it could fairly and reasonably be concluded by the experts that the drug will have the effect it purports or is represented to have under the condi-

tions of use prescribed, recommended, or suggested in the labeling or proposed labeling of the drug.

**§ 13702. Unsafe new animal drugs and animal feed**

(a) NEW ANIMAL DRUGS.—

(1) IN GENERAL.—A new animal drug shall, with respect to any particular use or intended use of the drug, be deemed unsafe for purposes of sections 13101(a)(2)(E) and 11102(a)(2)(C)(ii) of this title unless—

(A) there is in effect an approval of an application filed pursuant to section 13703 of this title with respect to the use or intended use of the drug, and the drug, its labeling, and the use conform to the approved application;

(B) there is in effect a conditional approval of an application filed pursuant to section 14502 of this title with respect to the use or intended use of the drug, and the drug, its labeling, and the use conform to the conditionally approved application;

(C) there is in effect an index listing pursuant to section 14503 of this title with respect to the use or intended use of the drug in a

minor species, and the drug, its labeling, and the use conform to the index listing; or

(D) there is in effect an authorization pursuant to section 14306 of this title with respect to the use or intended use of the drug, and the drug, its labeling, and the use conform to all conditions of the authorization.

(2) REMOVAL FROM ESTABLISHMENT.—A new animal drug shall also be deemed unsafe for the purposes described in paragraph (1) in the event of removal from the establishment of a manufacturer, packer, or distributor of the drug for use in the manufacture of animal feed in any State unless, at the time of the removal, the manufacturer, packer, or distributor has an unrevoked written statement from the consignee of the drug, or notice from the Secretary, to the effect that, with respect to the use of the drug in animal feed, the consignee—

(A) holds a license issued under section 13714 of this title and has in its possession current approved labeling for the drug in animal feed; or

(B) will, if the consignee is not a user of the drug, ship the drug only to a holder of a license issued under section 13714 of this title.

(b) ANIMAL FEED.—An animal feed bearing or containing a new animal drug shall, with respect to any particular use or intended use of the animal feed, be deemed unsafe for purposes of section 13101(a)(2)(F) of this title unless—

(1) there is in effect—

(A) an approval of an application filed pursuant to section 13703 of this title with respect to the drug, as used in the animal feed, and the animal feed and its labeling, distribution, holding, and use conform to the approved application;

(B) a conditional approval of an application filed pursuant to section 14502 of this title with respect to the drug, as used in the animal feed, and the animal feed and its labeling, distribution, holding, and use conform to the conditionally approved application; or

(C) an index listing pursuant to section 14503 of this title with respect to the drug, as used in the animal feed, and the animal feed and its labeling, distribution, holding, and use conform to the index listing; and

(2) the animal feed is manufactured at a site for which there is in effect a license issued pursuant

to section 13714(a) of this title to manufacture the animal feed.

(c) EXEMPTION RELATING TO INVESTIGATIONAL USE.—A new animal drug or an animal feed bearing or containing a new animal drug shall not be deemed unsafe for the purposes of subparagraph (E) or (F) of section 13101(a)(2) of this title if the article is for investigational use and conforms to the terms of an exemption in effect with respect to the new animal drug or the animal feed under section 13711 of this title.

(d) CONDITIONS OF USE.—

(1) NOT DEEMED UNSAFE; EXEMPTION FROM CERTAIN LABELING REQUIREMENTS.—

(A) IN GENERAL.—Except as provided in paragraph (2), if an approval of an application filed under section 13703 of this title is in effect with respect to a particular use or intended use of a new animal drug, the drug shall not be deemed unsafe for the purposes of subsection (a) and shall be exempt from the requirements of section 13305 of this title with respect to a different use or intended use of the drug, other than a use in or on animal feed, if the use or intended use—

(i) is by or on the lawful written or oral order of a licensed veterinarian within the context of a veterinarian-client-patient relationship, as defined by the Secretary; and

(ii) is in compliance with regulations promulgated by the Secretary that establish the conditions for the different use or intended use.

(B) LIMITATIONS BY REGULATION.—The regulations promulgated by the Secretary under subparagraph (A)(ii) may prohibit particular uses of an animal drug and shall not permit the different use of an animal drug if the labeling of another animal drug that contains the same active ingredient and that is in the same dosage form and concentration provides for the different use.

(2) RISK TO PUBLIC HEALTH; ACTIONS BY SECRETARY.—

(A) IN GENERAL.—If the Secretary finds that there is a reasonable probability that a use of an animal drug authorized under paragraph (1) may present a risk to the public health, the Secretary may—

(i) establish a safe level for a residue of an animal drug when it is used for the different use authorized by paragraph (1); and

(ii) require the development of a practical, analytical method for the detection of residues of the drug above the safe level established under clause (i).

(B) USE EXCEEDING SAFE LEVEL.—The use of an animal drug that results in residues exceeding a safe level established under subparagraph (A)(i) shall be considered an unsafe use of the drug under subsection (a).

(C) SAFE LEVELS BY REGULATION OR ORDER.—Safe levels may be established under subparagraph (A)(i) either by regulation or order.

(3) ACCESS TO RECORDS OF VETERINARIANS BY REGULATION.—The Secretary may by general regulation provide access to the records of veterinarians to ascertain any use or intended use authorized under paragraph (1) that the Secretary has determined may present a risk to the public health.

(4) PROHIBITION OF USE.—If the Secretary finds, after affording an opportunity for public com-

ment, that a use of an animal drug authorized under paragraph (1) presents a risk to the public health or that an analytical method required under paragraph (2) has not been developed and submitted to the Secretary, the Secretary may, by order, prohibit that use.

(e) NEW DRUG APPROVAL IN EFFECT.—If the approval of an application filed under chapter 135 of this title is in effect, the drug under the application shall not be deemed unsafe for purposes of subsection (a) and shall be exempt from the requirements of section 13305 of this title with respect to a use or intended use of the drug in animals if the use or intended use—

(1) is by or on the lawful written or oral order of a licensed veterinarian within the context of a veterinarian-client-patient relationship, as defined by the Secretary; and

(2) is in compliance with regulations promulgated by the Secretary that establish the conditions for the use or intended use of the drug in animals.

(f) ESTABLISHMENT OF TOLERANCES.—

(1) DEFINITION OF RELEVANT INTERNATIONAL ORGANIZATION.—In this subsection, the term ''relevant international organization'' means the Codex

Alimentarius Commission or other international organization considered appropriate by the Secretary.

(2) IN GENERAL.—For purposes of section 11102(a)(2)(C)(ii) of this title, a use or intended use of a new animal drug shall not be deemed unsafe under this chapter if—

(A) the Secretary establishes a tolerance for the drug; and

(B) any edible portion of any animal imported into the United States does not contain residues exceeding the tolerance.

(3) RELIANCE ON DATA BASED ON FOOD SAFETY CRITERIA.—In establishing the tolerance under paragraph (2), the Secretary shall rely on data sufficient to demonstrate that a proposed tolerance is safe based on similar food safety criteria used by the Secretary to establish tolerances for applications for new animal drugs filed under section 13703(a) of this title.

(4) RELIANCE ON DATA SUBMITTED BY DRUG MANUFACTURER.—The Secretary may consider and rely on data submitted by the drug manufacturer, including data submitted to appropriate regulatory authorities in any country where the new animal drug is lawfully used or data available from a rel-

evant international organization, to the extent the data are not inconsistent with the criteria used by the Secretary to establish a tolerance for applications for new animal drugs filed under section 13703(a) of this title.

(5) REVOCATION OF TOLERANCE.—The Secretary may, under procedures specified by regulation, revoke a tolerance established under this subsection if—

(A) information demonstrates that the use of the new animal drug under actual use conditions results in food being imported into the United States with residues exceeding the tolerance; or

(B) scientific evidence shows the tolerance to be unsafe.

**§ 13703. Application procedures**

(a) NEW ANIMAL DRUG APPLICATIONS.—

(1) FILING.—Any person may file with the Secretary an application with respect to any intended use or uses of a new animal drug.

(2) CONTENTS.—A person filing an application under paragraph (1) shall submit to the Secretary as part of the application—

(A) full reports of investigations that have been made to show whether or not the drug is safe and effective for use;

(B) a full list of the articles used as components of the drug;

(C) a full statement of the composition of the drug;

(D) a full description of the methods used in, and the facilities and controls used for, the manufacture, processing, and packing of the drug;

(E) such samples of the drug and of the articles used as components of the drug, of any animal feed for use in or on which the drug is intended, and of the edible portions or products (before or after slaughter) of animals to which the drug (directly or in or on animal feed) is intended to be administered, as the Secretary may require;

(F) specimens of the labeling proposed to be used for the drug, or in case the drug is intended for use in animal feed, proposed labeling appropriate for the use, and specimens of the labeling for the drug to be manufactured, packed, or distributed by the applicant;

(G) a description of practicable methods for determining the quantity, if any, of the drug in or on food, and any substance formed in or on food, because of its use; and

(H) the proposed tolerance or withdrawal period or other use restrictions for the drug if any tolerance or withdrawal period or other use restrictions are required in order to ensure that the proposed use of the drug will be safe.

(3) PATENT INFORMATION.—The applicant shall file with the application the patent number and the expiration date of any patent—

(A) that—

(i) claims the new animal drug for which the applicant filed the application; or

(ii) claims a method of using the drug; and

(B) with respect to which a claim of patent infringement could reasonably be asserted if a person not licensed by the owner engaged in the manufacture, use, or sale of the drug.

(4) AMENDMENT OF APPLICATION TO INCLUDE PATENT INFORMATION.—If an application is filed under this section for a drug and a patent that claims the drug or a method of using the drug is

issued after the filing date but before approval of the application, the applicant shall amend the application to include the information required by paragraph (3).

(5) PUBLICATION OF PATENT INFORMATION.—On approval of the application, the Secretary shall publish information submitted under paragraph (3) and (4), as applicable.

(b) ABBREVIATED NEW ANIMAL DRUG APPLICATIONS.—

(1) FILING.—Any person may file with the Secretary an abbreviated application for the approval of a new animal drug.

(2) CONTENTS.—An abbreviated application shall contain the information required by section 13715 of this title.

(3) LIMITATION.—Notwithstanding this subsection, the Secretary may not approve an abbreviated application submitted under this subsection for a new animal drug that is primarily manufactured using recombinant DNA, recombinant RNA, hybridoma technology, or other processes involving site specific genetic manipulation techniques.

(c) AGREEMENT WITH SECRETARY RELATING TO SUBMISSION AND INVESTIGATIONAL REQUIREMENTS.—

(1) CONFERENCES.—Any person intending to file an application under subsection (a) or section 14502 of this title or a request for an investigational exemption under section 13711 of this title shall be entitled to 1 or more conferences prior to the submission to reach an agreement acceptable to the Secretary establishing a submission or an investigational requirement, which may include a requirement for a field investigation.

(2) DECISION AS BINDING.—A decision establishing a submission or an investigational requirement shall bind the Secretary and the applicant or requestor unless—

(A) the Secretary and the applicant or requestor mutually agree to modify the requirement; or

(B) the Secretary, by written order, determines that a substantiated scientific requirement essential to the determination of safety or effectiveness of the animal drug involved has appeared after the conference.

(3) SCIENTIFIC JUSTIFICATION FOR REQUIRING MORE THAN 1 FIELD INVESTIGATION.—Not later than 25 calendar days after each conference described in paragraph (1), the Secretary shall provide

a written order setting forth a scientific justification specific to the animal drug and intended uses under consideration if the agreement referred to in paragraph (1) requires more than 1 field investigation as being essential to provide substantial evidence of effectiveness for the intended uses of the drug.

(4) EFFECT OF SUBSECTION.—Nothing in this subsection shall be construed as compelling the Secretary to require a field investigation.

(d) ELECTRONIC SUBMISSION.—All applications or submissions pursuant to this section shall be submitted by electronic means in such format as the Secretary may require.

**§ 13704. Approval of applications**

(a) NEW ANIMAL DRUG APPLICATIONS.—

(1) IN GENERAL.—Within 180 days after the filing of an application pursuant to section 13703(a) of this title, or such additional period as may be agreed on by the Secretary and the applicant, the Secretary shall—

(A) issue an order approving the application if the Secretary finds that none of the grounds for denying approval specified in section 13705 of this title applies; or

(B) give the applicant notice of an opportunity for a hearing before the Secretary under section 13705 of this title on the question of whether the application is approvable.

(2) HEARINGS.—

(A) COMMENCEMENT.—If the applicant elects to accept the opportunity for a hearing by written request within 30 days after the notice under paragraph (1)(B), the hearing shall commence not more than 90 days after the expiration of the 30 days unless the Secretary and the applicant otherwise agree.

(B) HEARING ON EXPEDITED BASIS; ISSUANCE OF ORDER.—The hearing shall be conducted on an expedited basis and the Secretary's order on the hearing shall be issued within 90 days after the date fixed by the Secretary for filing final briefs.

(b) ABBREVIATED NEW ANIMAL DRUG APPLICATIONS.—

(1) DEFINITION OF BIOEQUIVALENCE.—

(A) IN GENERAL.—In this subsection, the term ''bioequivalence'' means the rate and extent to which the active ingredient or therapeutic ingredient is absorbed from a new animal

drug and becomes available at the site of drug action.

(B) CONDITIONS OF BIOEQUIVALENCE.—A new animal drug shall be considered to be bioequivalent to the approved new animal drug referred to in its application under section 13715 of this title if—

(i) the rate and extent of absorption of the drug do not show a significant difference from the rate and extent of absorption of the approved new animal drug referred to in the application when administered at the same dose of the active ingredient under similar experimental conditions in either a single dose or multiple doses;

(ii) the extent of absorption of the drug does not show a significant difference from the extent of absorption of the approved new animal drug referred to in the application when administered at the same dose of the active ingredient under similar experimental conditions in either a single dose or multiple doses and the difference from the approved new animal drug in the rate of absorption of the drug—

(I) is intentional;

(II) is reflected in its proposed labeling;

(III) is not essential to the attainment of effective drug concentrations in use; and

(IV) is considered scientifically insignificant for the drug in attaining the intended purposes of its use and preserving human food safety; or

(iii) in any case in which the Secretary determines that the measurement of the rate and extent of absorption or excretion of the new animal drug in biological fluids is inappropriate or impractical, an appropriate acute pharmacological effects test or other test of the new animal drug and, when considered scientifically necessary, of the approved new animal drug referred to in the application in the species to be tested or in an appropriate animal model does not show a significant difference between the new animal drug and the approved new animal drug when ad-

ministered at the same dose under similar experimental conditions.

(C) BIOEQUIVALENCY INFORMATION; STUDIES.—

(i) BIOEQUIVALENCY INFORMATION REQUIRED FOR 1 SPECIES UNLESS OTHERWISE CONSIDERED APPROPRIATE BY SECRETARY.—If the approved new animal drug referred to in the application for a new animal drug under section 13715 of this title is approved for use in more than 1 animal species, the bioequivalency information described in clauses (i), (ii), and (iii) of subparagraph (B) shall be obtained for 1 species, or if the Secretary considers appropriate based on scientific principles, shall be obtained for more than 1 species.

(ii) DOSAGE IN DETERMINING BIOEQUIVALENCY.—The Secretary may prescribe the dose to be used in determining bioequivalency under clauses (i), (ii), and (iii) of subparagraph (B).

(iii) ENSURING CONSISTENCY WITH ESTABLISHED TOLERANCES.—To ensure that the residues of the new animal drug

will be consistent with the established tolerances for the approved new animal drug referred to in the application under section 13703(b) of this title on the expiration of the withdrawal period contained in the application for the new animal drug, the Secretary shall require bioequivalency data or residue depletion studies of the new animal drug or such other data or studies as the Secretary considers appropriate based on scientific principles.

(iv) ASSAY METHODOLOGY NOT MORE RIGOROUS.—If the Secretary requires 1 or more residue studies under clause (iii), the Secretary may not require that the assay methodology used to determine the withdrawal period of the new animal drug be more rigorous than the methodology used to determine the withdrawal period for the approved new animal drug referred to in the application.

(v) STUDIES TO BE CONDUCTED FOR 1 SPECIES UNLESS OTHERWISE CONSIDERED APPROPRIATE BY SECRETARY.—If the studies are required and if the ap-

proved new animal drug, referred to in the application for the new animal drug for which the studies are required, is approved for use in more than 1 animal species, the studies shall be conducted for 1 species, or if the Secretary considers appropriate based on scientific principles, shall be conducted for more than 1 species.

(2) APPROVAL.—Subject to paragraph (4), the Secretary shall approve an abbreviated application for a drug unless the Secretary finds—

(A) the methods used in, or the facilities and controls used for, the manufacture, processing, and packing of the drug are inadequate to ensure and preserve its identity, strength, quality, and purity;

(B) the conditions of use prescribed, recommended, or suggested in the proposed labeling are not reasonably certain to be followed in practice or, except as provided in paragraph (3), information submitted with the application is insufficient to show that each of the proposed conditions of use or similar limitations (whether in the labeling or published pursuant to section 13710 of this title) have been previously ap-

proved for the approved new animal drug referred to in the application;

(C) information submitted with the application is insufficient to show that the active ingredients are the same as those of the approved new animal drug referred to in the application;

(D)(i) if the application is for a drug the active ingredients, route of administration, dosage form, strength, or use of which with other animal drugs in animal feed is the same as the active ingredients, route of administration, dosage form, strength, or use with other animal drugs in animal feed of the approved new animal drug referred to in the application, information submitted in the application is insufficient to show that the active ingredients, route of administration, dosage form, strength, or use with other animal drugs in animal feed is the same as that of the approved new animal drug; or

(ii) if the application is for a drug the active ingredients, route of administration, dosage form, strength, or use of which with other animal drugs in animal feed is different from that of the approved new animal drug referred to in

the application, no petition to file an application for the drug with the different active ingredients, route of administration, dosage form, strength, or use with other animal drugs in animal feed was approved under section 13715(d) of this title;

(E) if the application was filed pursuant to the approval of a petition under section 13715(d) of this title, the application did not contain the information required by the Secretary respecting the active ingredients, route of administration, dosage form, strength, or use with other animal drugs in animal feed that is not the same;

(F) information submitted in the application is insufficient to show that the drug is bioequivalent to the approved new animal drug referred to in the application, or if the application is filed under a petition approved pursuant to section 13715(d) of this title, information submitted in the application is insufficient to show that the active ingredients of the new animal drug are of the same pharmacological or therapeutic class as the pharmacological or therapeutic class of the approved new animal drug

and that the new animal drug can be expected to have the same therapeutic effect as the approved new animal drug when used in accordance with the labeling;

(G) information submitted in the application is insufficient to show that the labeling proposed for the drug is the same as the labeling approved for the approved new animal drug referred to in the application except for changes required—

(i) because of differences approved under a petition filed under section 13715(d) of this title;

(ii) because of a different withdrawal period; or

(iii) because the drug and the approved new animal drug are produced or distributed by different manufacturers;

(H) information submitted in the application or any other information available to the Secretary shows that—

(i) the inactive ingredients of the drug are unsafe for use under the conditions prescribed, recommended, or suggested in the labeling proposed for the drug;

(ii) the composition of the drug is unsafe under the conditions because of the type or quantity of inactive ingredients included or the manner in which the inactive ingredients are included; or

(iii) in the case of a drug for food producing animals, the inactive ingredients of the drug or its composition may be unsafe with respect to human food safety;

(I)(i) the approval under section 13703(a) of this title of the approved new animal drug referred to in the application filed under section 13703(b) of this title has been withdrawn or suspended for grounds described in subsection (a) or (b) of section 13706 of this title;

(ii) the Secretary has published a notice of a hearing to withdraw approval of the approved new animal drug for those grounds;

(iii) the approval under this subsection of the new animal drug for which the application under section 13703(b) of this title was filed has been withdrawn or suspended under paragraph (8) for those grounds; or

(iv) the Secretary has determined that the approved new animal drug has been withdrawn from sale for safety or effectiveness reasons;

(J) the application does not meet any other requirement of section 13715 of this title; or

(K) the application contains an untrue statement of material fact.

(3) DIFFERENT WITHDRAWAL PERIODS FOR BIOEQUIVALENT NEW ANIMAL DRUGS.—If the Secretary finds that a new animal drug for which an application is submitted under section 13703(b) of this title is bioequivalent to the approved new animal drug referred to in the application and that residues of the new animal drug are consistent with the tolerances established for the approved new animal drug but at a withdrawal period that is different than the withdrawal period approved for the approved new animal drug, the Secretary may establish, on the basis of information submitted, that different withdrawal period as the withdrawal period for the new animal drug for purposes of the approval of the application for the drug.

(4) APPROVAL; TIMING.—Within 180 days of the initial receipt of an application under section

13703(b) of this title or within such additional period as may be agreed on by the Secretary and the applicant, the Secretary shall approve or disapprove the application.

(5) EFFECTIVE DATE OF APPROVAL.—The approval of an application filed under section 13703(b) of this title shall be made effective on the last applicable date determined under the following:

(A) CERTIFICATION UNDER CLAUSE (i) OR (ii) OF SECTION 13715(b)(1)(H) OF THIS TITLE.—If the applicant made only a certification described in clause (i) or (ii) of section 13715(b)(1)(H) of this title or in both of the clauses, the approval may be made effective immediately.

(B) CERTIFICATION UNDER CLAUSE (iii) OF SECTION 13715(b)(1)(H) OF THIS TITLE.—If the applicant made a certification described in clause (iii) of section 13715(b)(1)(H) of this title, the approval may be made effective on the date certified under that clause.

(C) CERTIFICATION UNDER CLAUSE (iv) OF SECTION 13715 (b)(1)(H) OF THIS TITLE.—

(i) IN GENERAL.—If the applicant made a certification described in clause

(iv) of section 13715(b)(1)(H) of this title, the approval shall be made effective immediately unless an action is brought for infringement of a patent that is the subject of the certification before the expiration of 45 days from the date the notice provided under section 13715(c)(1)(A) of this title is received.

(ii) PATENT INFRINGEMENT ACTION BROUGHT.—If an action for patent infringement is brought as described in clause (i) before the expiration of the 45 days, the approval shall be made effective on the expiration of the 30-month period beginning on the date of the receipt of the notice provided under section 13715(c)(1) of this title or such shorter or longer period as the court may order because either party to the action failed to reasonably cooperate in expediting the action, except that if before the expiration of that period—

(I) the court decides that the patent is invalid or not infringed, the

approval shall be made effective on the date of the court decision;

(II) the court decides that the patent has been infringed, the approval shall be made effective on the date that the court orders under section 271(e)(4)(A) of title 35; or

(III) the court grants a preliminary injunction prohibiting the applicant from engaging in the commercial manufacture or sale of the drug until the court decides the issues of patent validity and infringement and if the court decides that the patent is invalid or not infringed, the approval shall be made effective on the date of the court decision.

(iii) COOPERATION OF PARTIES TO EXPEDITE ACTION.—In an action for patent infringement described in clause (i), each of the parties shall reasonably cooperate in expediting the action.

(iv) ACTION FOR DECLARATORY JUDGMENT WITH RESPECT TO PATENT.—

(I) IN GENERAL.—Until the expiration of 45 days from the date the notice made under section 13715(c)(2) of this title is received, an action shall not be brought under section 2201 of title 28 for a declaratory judgment with respect to the patent.

(II) JURISDICTION.—Any action brought under section 2201 of title 28 shall be brought in the judicial district where the defendant has its principal place of business or a regular and established place of business.

(D) CERTIFICATION UNDER CLAUSE (iv) OF SECTION 13715(b)(1)(H) OF THIS TITLE; PREVIOUS APPLICATION FILED WITH SUCH A CERTIFICATION.—If the application contains a certification described in clause (iv) of section 13715(b)(1)(H) of this title and is for a drug for which a previous application has been filed under this section containing such a certification, the application shall be made effective not earlier than 180 days after the date that is the earlier of—

(i) the date the Secretary receives notice from the applicant under the previous application of the first commercial marketing of the drug under the previous application; or

(ii) the date of a decision of a court in an action described in subparagraph (C)(ii)(III) holding the patent that is the subject of the certification to be invalid or not infringed.

(6) DISAPPROVAL OF APPLICATION; HEARING.—

(A) OPPORTUNITY FOR A HEARING.—If the Secretary decides to disapprove an application, the Secretary shall give the applicant notice of an opportunity for a hearing before the Secretary on the question of whether the application is approvable.

(B) COMMENCEMENT OF HEARING.—If the applicant elects to accept the opportunity for hearing by written request within 30 days after the notice, the hearing shall commence not more than 90 days after the expiration of the 30 days unless the Secretary and the applicant otherwise agree.

(C) HEARING ON EXPEDITED BASIS; ISSUANCE OF ORDER.—The hearing shall be conducted on an expedited basis and the Secretary's order on the hearing shall be issued within 90 days after the date fixed by the Secretary for filing final briefs.

(7) LIMITATIONS ON CERTAIN SUBMISSIONS AND APPROVALS.—

(A) LIMITATION FOR APPLICATIONS FOR A DRUG FOR WHICH THERE IS A PREVIOUSLY APPROVED APPLICATION.—

(i) IN GENERAL.—If an application submitted under section 13703(a) of this title for a drug, no active moiety (as defined by the Secretary in section 314.3 of title 21, Code of Federal Regulations (or any successor regulations)) of which has been approved in any other application under section 13703(a) of this title, is approved (referred to in this subparagraph as ''approved application'') after November 16, 1988, no application may be submitted under section 13703(b) of this title (referred to in this subparagraph as ''abbreviated application'') that refers to the drug

for which the approved application was submitted before the expiration of 5 years from the date of the approval of the approved application, except that an abbreviated application may be submitted under section 13703(b) of this title after the expiration of 4 years from the date of the approval of the approved application if it contains a certification of patent invalidity or noninfringement described in section 13715(b)(1)(H)(iv) of this title.

(ii) EFFECTIVE DATE OF APPROVAL; EXCEPTION RELATING TO PATENT INFRINGEMENT ACTION.—The approval of an abbreviated application under clause (i) shall be made effective in accordance with paragraph (5) except that, if an action for patent infringement is commenced during the 1-year period beginning 48 months after the date of the approval of the approved application, the 30-month period referred to in paragraph (5)(C) shall be extended by the amount of time (if any) that is required for 7½ years to have elapsed

from the date of approval of the approved application.

(B) LIMITATION FOR APPLICATIONS FOR A DRUG FOR WHICH THERE IS A PREVIOUSLY APPROVED APPLICATION; ACTIVE MOIETY PREVIOUSLY APPROVED.—If an application submitted under section 13703(a) of this title for a drug, which includes an active moiety (as defined by the Secretary in section 314.3 of title 21, Code of Federal Regulations (or any successor regulations)) that has been approved in another application approved under section 13703(a) of this title, is approved (referred to in this subparagraph as ''approved application'') after November 16, 1988, and if the approved application contains substantial evidence of the effectiveness of the drug involved, any studies of animal safety, or, in the case of food-producing animals, human food safety studies (other than bioequivalence studies or residue depletion studies, except residue depletion studies for minor uses or minor species) required for the approval of the approved application and conducted or sponsored by the applicant, the Secretary may not make the approval of an

application submitted under section 13703(b) of this title for the conditions of approval of the drug in the approved application effective before the expiration of 3 years from the date of the approval of the approved application for the drug.

(C) LIMITATION FOR APPLICATIONS FOR A DRUG FOR WHICH THERE IS A PREVIOUSLY APPROVED SUPPLEMENT.—If a supplement to an application approved under section 13703(a) of this title is approved after November 16, 1988, and the supplement contains substantial evidence of the effectiveness of the drug involved, any studies of animal safety, or, in the case of food-producing animals, human food safety studies (other than bioequivalence studies or residue depletion studies, except residue depletion studies for minor uses or minor species) required for the approval of the supplement and conducted or sponsored by the person submitting the supplement, the Secretary may not make the approval of an application submitted under section 13703(b) of this title for a change approved in the supplement effective be-

fore the expiration of 3 years from the date of the approval of the supplement.

(D) WAIVER OF SUBPARAGRAPH (A).—An applicant under section 13703(a) of this title that comes within the provisions of subparagraph (A) as a result of an application that seeks approval for a use solely in non-food-producing animals, may elect, within 10 days of receiving the approval, to waive subparagraph (A), in which event the limitation on approval of applications submitted under section 13703(b) of this title set forth in subparagraph (B) shall be applicable to the application under section 13703(a) of this title.

(E) LIMITATION FOR ABBREVIATED APPLICATIONS FOR NEW CONDITIONS OF APPROVAL OF A DRUG THAT INCLUDES AN ACTIVE MOIETY THAT HAS BEEN THE SUBJECT OF A WAIVER UNDER SUBPARAGRAPH (D).—If an application (including any supplement to a new animal drug application) submitted under section 13703(a) of this title for a new animal drug for a food-producing-animal use, which includes an active moiety (as defined by the Secretary in section 314.3 of title 21, Code of Federal Regu-

lations (or any successor regulations)) that has been the subject of a waiver under subparagraph (D), is approved after November 16, 1988, and if the application contains substantial evidence of the effectiveness of the drug involved, any studies of animal safety, or human food safety studies (other than bioequivalence studies or residue depletion studies, except residue depletion studies for minor uses or minor species) required for the new approval of the application and conducted or sponsored by the applicant, the Secretary may not make the approval of an application (including any supplement to such application) submitted under section 13703(b) of this title for the new conditions of approval of the drug in the section 13703(a) application effective before the expiration of 5 years from the date of approval of the application under section 13703(a) of this title for the drug. The provisions of this subsection shall apply only to the first approval for a food-producing-animal use for the same applicant after the waiver under subparagraph (D).

(8) WITHDRAWN OR SUSPENDED APPROVAL OF DRUGS REFERRED TO IN APPROVED ABBREVIATED

NEW ANIMAL DRUG APPLICATION.—If an approved application submitted under section 13703(b) of this title for a new animal drug refers to a drug the approval of which was withdrawn or suspended for grounds described in subsection (a), (b), or (c) of section 13706 of this title or was withdrawn or suspended under this paragraph or that, as determined by the Secretary, has been withdrawn from sale for safety or effectiveness reasons, the approval of the drug under this subsection shall be withdrawn or suspended—

(A) for the same period as the withdrawal or suspension under section 13706 of this title or this paragraph; or

(B) if the approved new animal drug has been withdrawn from sale, for the period of withdrawal from sale or, if earlier, the period ending on the date the Secretary determines that the withdrawal from sale is not for safety or effectiveness reasons.

(c) SUBMISSION OF PATENT INFORMATION AFTER APPROVAL OF APPLICATION.—

(1) IN GENERAL.—If the patent information described in section 13703(a) of this title could not be filed with the submission of an application under

section 13703(a) of this title because a patent was issued after the application was approved under that section, the holder of an approved application shall file with the Secretary the patent number and the expiration date of any patent—

(A) that claims—

(i) the new animal drug for which the application was filed; or

(ii) a method of using the drug; and

(B) with respect to which a claim of patent infringement could reasonably be asserted if a person not licensed by the owner engaged in the manufacture, use, or sale of the drug.

(2) DEADLINE FOR FILING.—If the holder of an approved application could not file patent information under section 13703(a) of this title because no patent had been issued when an application was filed or approved, the holder shall file the information under this section not later than 30 days after the date the patent involved is issued.

(3) PUBLICATION.—On the submission of patent information under this section, the Secretary shall publish it.

(d) DRUGS MANUFACTURED IN PILOT OR OTHER SMALL FACILITY.—A drug manufactured in a pilot or

other small facility may be used to demonstrate the safety and effectiveness of the drug and to obtain approval for the drug prior to manufacture of the drug in a larger facility, unless the Secretary makes a determination that a full scale production facility is necessary to ensure the safety or effectiveness of the drug.

**§ 13705. Grounds for refusing application**

(a) ORDER REFUSING TO APPROVE APPLICATION.—

(1) IN GENERAL.—The Secretary shall issue an order refusing to approve an application under section 13703(a) of this title if the Secretary finds, after due notice to the applicant in accordance with section 13704 of this title and giving the applicant an opportunity for a hearing, in accordance with section 13704 of this title, that—

(A) the investigations, reports of which are required to be submitted to the Secretary pursuant to section 13703(a) of this title, do not include adequate tests by all methods reasonably applicable to show whether or not the drug is safe for use under the conditions prescribed, recommended, or suggested in the proposed labeling of the drug;

(B) the results of the tests show that the drug is unsafe for use under the conditions or

do not show that the drug is safe for use under the conditions;

(C) the methods used in, and the facilities and controls used for, the manufacture, processing, and packing of the drug are inadequate to preserve its identity, strength, quality, and purity;

(D) on the basis of the information submitted to the Secretary as part of the application, or on the basis of any other information before the Secretary with respect to the drug, the Secretary has insufficient information to determine whether the drug is safe for use under the conditions;

(E) evaluated on the basis of the information submitted to the Secretary as part of the application and any other information before the Secretary with respect to the drug, there is a lack of substantial evidence that the drug will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the proposed labeling of the drug;

(F) on the basis of information submitted to the Secretary as part of the application or

any other information before the Secretary with respect to the drug, any use prescribed, recommended, or suggested in labeling proposed for the drug will result in a residue of the drug in excess of a tolerance found by the Secretary to be safe for the drug;

(G) the application failed to contain the patent information prescribed by section 13703(a) of this title;

(H) based on a fair evaluation of all material facts, the labeling is false or misleading in any particular; or

(I) the drug induces cancer when ingested by humans or animals or, after tests that are appropriate for the evaluation of the safety of the drug, induces cancer in humans or animals, except that this subparagraph shall not apply with respect to the drug if the Secretary finds that, under the conditions of use specified in proposed labeling and reasonably certain to be followed in practice—

(i) the drug will not adversely affect the animals for which it is intended; and

(ii) no residue of the drug will be found (by methods of examination pre-

scribed or approved by the Secretary by regulations, which regulations shall not be subject to this section and sections 13704 and 13709 of this title) in any edible portion of the animals after slaughter or in any food yielded by or derived from the living animals.

(2) ISSUANCE OF ORDER APPROVING APPLICATION.—If, after the notice and opportunity for hearings under paragraph (1), the Secretary finds that subparagraphs (A) through (I) of paragraph (1) do not apply, the Secretary shall issue an order approving the application.

(b) FACTORS FOR DETERMINING SAFETY.—In determining whether the drug is safe for use under the conditions prescribed, recommended, or suggested in the proposed labeling of the drug, the Secretary shall consider, among other relevant factors—

(1) the probable consumption of the drug and of any substance formed in or on food because of the use of the drug;

(2) the cumulative effect on humans or animals of the drug, taking into account any chemically or pharmacologically related substance;

(3) safety factors that in the opinion of experts, qualified by scientific training and experience to evaluate the safety of the drugs, are appropriate for the use of animal experimentation data; and

(4) whether the conditions of use prescribed, recommended, or suggested in the proposed labeling are reasonably certain to be followed in practice.

(c) FINDINGS TO BE STATED IN ORDER REFUSING TO APPROVE APPLICATION.—Any order issued under this section refusing to approve an application shall state the findings on which it is based.

(d) DRUGS CONTAINING 1 OR MORE ACTIVE INGREDIENTS; DRUGS USED IN COMBINATION WITH OTHER DRUGS.—In a case in which an animal drug contains more than 1 active ingredient, or the labeling of the drug prescribes, recommends, or suggests use of the drug in combination with 1 or more other animal drugs, and the active ingredients or drugs intended for use in the combination have previously been separately approved pursuant to an application submitted under section 13703(a) of this title for particular uses and conditions of use for which they are intended for use in the combination—

(1) the Secretary shall not issue an order under subparagraph (A), (B), or (D) of subsection (a)(1) refusing to approve the application for the combina-

tion on human food safety grounds unless the Secretary finds that the application fails to establish that—

(A) none of the active ingredients or drugs intended for use in the combination, respectively, at the longest withdrawal time of any of the active ingredients or drugs in the combination, respectively, exceeds its established tolerance; or

(B) none of the active ingredients or drugs in the combination interferes with the methods of analysis for another of the active ingredients or drugs in the combination, respectively;

(2) the Secretary shall not issue an order under subparagraph (A), (B), or (D) of subsection (a)(1) refusing to approve the application for the combination on target animal safety grounds unless the Secretary finds that—

(A) there is—

(i) a substantiated scientific issue, specific to 1 or more of the active ingredients or animal drugs in the combination, that cannot adequately be evaluated based on information contained in the application for the combination (including any inves-

tigations, studies, or tests for which the applicant has a right of reference or use from the person by or for whom the investigations, studies, or tests were conducted); or

(ii) a scientific issue raised by target animal observations contained in studies submitted to the Secretary as part of the application; and

(B) based on the Secretary's evaluation of the information contained in the application with respect to the issues identified in clauses (i) and (ii) of subparagraph (A), subparagraph (A), (B), or (D) of subsection (a)(1) applies;

(3) except in the case of a combination that contains a nontopical antibacterial ingredient or animal drug, the Secretary shall not issue an order under subsection (a)(1)(E) refusing to approve an application for a combination animal drug intended for use other than in animal feed or drinking water unless the Secretary finds that the application fails to demonstrate that—

(A) there is substantial evidence that any active ingredient or animal drug intended only for the same use as another active ingredient or

animal drug in the combination makes a contribution to labeled effectiveness;

(B) each active ingredient or animal drug intended for at least 1 use that is different from all other active ingredients or animal drugs used in the combination provides appropriate concurrent use for the intended target population; or

(C) where, based on scientific information, the Secretary has reason to believe the active ingredients or animal drugs may be physically incompatible or have disparate dosing regimens, the active ingredients or animal drugs are physically compatible or do not have disparate dosing regimens; and

(4) the Secretary shall not issue an order under subsection (a)(1)(E) refusing to approve an application for a combination animal drug intended for use in animal feed or drinking water unless the Secretary finds that the application fails to demonstrate that—

(A) there is substantial evidence that any active ingredient or animal drug intended only for the same use as another active ingredient or

animal drug in the combination makes a contribution to the labeled effectiveness;

(B) each of the active ingredients or animal drugs intended for at least 1 use that is different from all other active ingredients or animal drugs used in the combination provides appropriate concurrent use for the intended target population;

(C) where a combination contains more than 1 nontopical antibacterial ingredient or animal drug, there is substantial evidence that each of the nontopical antibacterial ingredients or animal drugs makes a contribution to the labeled effectiveness, except that for purposes of this subparagraph, the term ''antibacterial ingredient'' or ''animal drug'' does not include the ionophore or arsenical classes of animal drugs; or

(D) where, based on scientific information, the Secretary has reason to believe the active ingredients or animal drugs intended for use in drinking water may be physically incompatible, the active ingredients or animal drugs intended for use in drinking water are physically compatible.

(e) ADDITION OF INTENDED USE FOR MINOR USE OR MINOR SPECIES.—

(1) REEVALUATION OF RELEVANT INFORMATION ONLY IN APPROVED APPLICATION.—In reviewing an application that proposes a change to add an intended use for a minor use or a minor species to an approved new animal drug application, the Secretary shall reevaluate only the relevant information in the approved application to determine whether the application for the minor use or minor species can be approved.

(2) EFFECT OF APPROVAL.—A decision to approve the application for the minor use or minor species is not, implicitly or explicitly, a reaffirmation of the approval of the original application.

**§ 13706. Withdrawal and suspension of approval**

(a) REQUIRED WITHDRAWAL OF APPROVAL OF APPLICATION.—The Secretary shall, after due notice and opportunity for hearing to the applicant, issue an order withdrawing approval of an application filed pursuant to section 13703(a) of this title with respect to any new animal drug if the Secretary finds—

(1) that experience or scientific data show that the drug is unsafe for use under the conditions of use on the basis of which the application was ap-

proved or the condition of use authorized under section 13702(d)(1) of this title;

(2) that new evidence not contained in the application or not available to the Secretary until after the application was approved, or tests by new methods, or tests by methods not considered reasonably applicable when the application was approved, evaluated together with the evidence available to the Secretary when the application was approved, show—

(A) that the drug is not shown to be safe for use under the conditions of use on the basis of which the application was approved; or

(B) that section 13705(a)(1)(I) of this title applies to the drug;

(3) on the basis of new information before the Secretary with respect to the drug, evaluated together with the evidence available to the Secretary when the application was approved, that there is a lack of substantial evidence that the drug will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling of the drug;

(4) that the patent information prescribed by section 13704(c) of this title was not filed within 30

days after the receipt of written notice from the Secretary specifying the failure to file the information;

(5) that the application contains any untrue statement of a material fact; or

(6) that the applicant has made any changes from the standpoint of safety or effectiveness beyond the variations provided for in the application unless the applicant has supplemented the application by filing with the Secretary adequate information respecting all the changes and unless there is in effect an approval of the supplemental application, which approved supplemental application shall be treated in the same manner as the original application.

(b) SUSPENSION OF APPROVAL ON FINDING OF IMMINENT HAZARD TO HEALTH.—

(1) IN GENERAL.—If the Secretary (or in the Secretary's absence, the officer acting as Secretary) finds that there is an imminent hazard to the health of humans or of the animals for which the drug is intended, the Secretary may suspend the approval of the application immediately, and give the applicant prompt notice of the Secretary's action and afford the applicant the opportunity for an expedited hearing under this section.

(2) NONDELEGATION.—The authority conferred by paragraph (1) to suspend the approval of an application shall not be delegated.

(c) AUTHORIZED WITHDRAWAL OF APPROVAL OF APPLICATION.—The Secretary may, after due notice and opportunity for hearing to the applicant, issue an order withdrawing the approval of an application with respect to any new animal drug under this chapter if the Secretary finds—

(1) that the applicant has failed to establish a system for maintaining required records, or has repeatedly or deliberately failed to maintain the records or to make required reports in accordance with a regulation or order under section 13713 of this title, or the applicant has refused to permit access to, or copying or verification of, the records as required by section 13713(b) of this title;

(2) that on the basis of new information before the Secretary, evaluated together with the evidence before the Secretary when the application was approved, the methods used in, or the facilities and controls used for, the manufacture, processing, and packing of the drug are inadequate to ensure and preserve its identity, strength, quality, and purity and were not made adequate within a reasonable

time after receipt of written notice from the Secretary specifying the matter complained of; or

(3) that on the basis of new information before the Secretary, evaluated together with the evidence before the Secretary when the application was approved, the labeling of the drug, based on a fair evaluation of all material facts, is false or misleading in any particular and was not corrected within a reasonable time after receipt of written notice from the Secretary specifying the matter complained of.

(d) ORDER TO STATE FINDINGS.—Any order under this section shall state the findings on which it is based.

**§ 13707. Revocation of order refusing, withdrawing, or suspending approval of application**

If the Secretary finds that the facts so require, the Secretary shall revoke any previous order under section 13705, 13706, or 13714 of this title, or subsection (d), (e), or (f) of section 14502 of this title, refusing, withdrawing, or suspending approval of an application and shall approve the application or reinstate the approval, as may be appropriate.

**§ 13708. Service of orders**

Orders of the Secretary issued under this chapter, or section 14502 of this title (other than orders issuing, amending, or repealing regulations), shall be served—

(1) in person by any officer or employee of the department designated by the Secretary; or

(2) by mailing the order by registered mail or by certified mail addressed to the applicant or respondent at the applicant's or respondent's last known address in the records of the Secretary.

**§ 13709. Appeals from orders**

(a) IN GENERAL.—An appeal may be taken by the applicant from an order of the Secretary refusing or withdrawing approval of an application filed under section 13703 or 13714 of this title.

(b) PROVISIONS TO GOVERN APPEALS.—The provisions of section 13509 of this title shall govern the appeal.

**§ 13710. Publication of approval in Federal Register**

(a) APPROVAL OF NEW ANIMAL DRUG APPLICATION.—When a new animal drug application filed pursuant to section 13703 or 14502 of this title is approved, the Secretary shall by notice, which on publication shall be effective as a regulation, publish in the Federal Register—

(1) the name and address of the applicant;

(2) the conditions and indications of use of the new animal drug covered by the application, including—

(A) any tolerance and withdrawal period or other use restrictions; and

(B) if the new animal drug is intended for use in animal feed, appropriate purposes and conditions of use (including special labeling requirements and any requirement that an animal feed bearing or containing the new animal drug be limited to use under the professional supervision of a licensed veterinarian) applicable to any animal feed for use in which the drug is approved; and

(3) such other information, on the basis of which the application was approved, as the Secretary considers necessary to ensure the safe and effective use of the drug.

(b) WITHDRAWAL OF APPROVAL OF NEW ANIMAL DRUG APPLICATION.—On withdrawal of approval of the new animal drug application or on its suspension or on failure to renew a conditional approval under section 14502 of this title, the Secretary shall immediately revoke or suspend, as the case may be, the regulation published pursuant to this section to the extent that it is based on the approval of the application.

**§ 13711. Exemption for drugs for investigational use**

(a) IN GENERAL.—To the extent consistent with the public health, the Secretary shall promulgate regulations for exempting from the operation of this chapter new animal drugs, and animal feeds bearing or containing new animal drugs, intended solely for investigational use by experts qualified by scientific training and experience to investigate the safety and effectiveness of animal drugs.

(b) AUTHORIZED CONTENT.—The regulations promulgated under subsection (a) may, in the discretion of the Secretary, among other conditions relating to the protection of the public health, provide for conditioning the exemption on the establishment and maintenance of such records, and the making of such reports to the Secretary, by the manufacturer or the sponsor of the investigation of the article, of data (including analytical reports by investigators) obtained as a result of the investigational use of the article, as the Secretary finds will enable the Secretary to evaluate the safety and effectiveness of the article in the event of the filing of an application pursuant to this chapter.

(c) REQUIRED CONTENT.—The regulations promulgated under subsection (a), among other things, shall set forth the conditions (if any) on which animals treated with the articles, and any products of the animals (before or after slaughter), may be marketed for food use.

**§ 13712. Food containing approved new animal drug considered unadulterated**

While approval of an application for a new animal drug is effective, a food shall not, by reason of bearing or containing the drug or any substance formed in or on the food because of its use in accordance with the application (including the conditions and indications of use prescribed pursuant to section 13710 of this title), be considered adulterated within the meaning of section 11102(a)(1) of this title.

**§ 13713. Records and reports**

(a) REQUIREMENT TO MAINTAIN RECORDS AND MAKE REPORTS BY REGULATION.—

(1) IN GENERAL.—In the case of any new animal drug for which an approval of an application filed pursuant to section 13703 or 14502 of this title is in effect, the applicant shall establish and maintain such records, and make such reports to the Secretary, of data relating to experience, including experience with uses authorized under section 13702(d)(1) of this title, and other data or information, received or otherwise obtained by the applicant with respect to the drug, or with respect to animal feeds bearing or containing the drug, as the Secretary may by general regulation, or by order with respect to the application, prescribe on the basis of

a finding that the records and reports are necessary in order to enable the Secretary to determine, or facilitate a determination, whether there is or may be ground for invoking section 13706 or 13714(d) of this title.

(2) EXAMINATION BY PERSONS.—The regulation or order shall provide, where the Secretary considers it to be appropriate, for the examination, upon request, by the persons to whom the regulation or order is applicable, of similar information received or otherwise obtained by the Secretary.

(b) ACCESS TO RECORDS BY OFFICERS AND EMPLOYEES DESIGNATED BY SECRETARY.—Each person required under this section to maintain records, and each person in charge or custody of the records, shall, on request of an officer or employee designated by the Secretary, permit the officer or employee at all reasonable times to have access to and copy and verify the records.

(c) REPORTING REQUIREMENTS RELATING TO ANTIMICROBIAL ACTIVE INGREDIENTS.—

(1) IN GENERAL.—In the case of each new animal drug described in subsection (a) that contains an antimicrobial active ingredient, the sponsor of the drug shall submit an annual report to the Secretary on the amount of each antimicrobial active ingre-

dient in the drug that is sold or distributed for use in food-producing animals, including information on any distributor-labeled product.

(2) CONTENTS OF REPORT.—

(A) RELATING TO AMOUNT OF EACH ANTIMICROBIAL ACTIVE INGREDIENT.—Each report under this subsection shall specify the amount of each antimicrobial active ingredient—

(i) by container size, strength, and dosage form;

(ii) by quantities distributed domestically and quantities exported; and

(iii) by dosage form, including, for each dosage form, a listing of the target animals, indications, and production classes that are specified on the approved label of the product.

(B) RELATING TO SUBMISSION AND FORMAT.—Each report under this subsection shall—

(i) be submitted not later than March 31 each year;

(ii) cover the period of the preceding calendar year; and

(iii) include separate information for each month of the preceding calendar year.

(3) SHARING OF INFORMATION WITH ANTIMICROBIAL RESISTANCE TASK FORCE.—The Secretary may share information reported under this subsection with the Antimicrobial Resistance Task Force established under section 319E of the Public Health Service Act (42 U.S.C. 247d–5).

(4) SUMMARIES.—The Secretary shall make summaries of the information reported under this subsection publicly available, except that—

(A) the summary data shall be reported by antimicrobial class, and no class with fewer than 3 distinct sponsors of approved applications shall be independently reported; and

(B) the data shall be reported in a manner consistent with protecting both national security and confidential business information.

**§ 13714. Feed mill licenses**

(a) APPLICATION.—

(1) FILING.—Any person may file with the Secretary an application for a license to manufacture animal feeds bearing or containing new animal drugs.

(2) CONTENTS.—A person filing under paragraph (1) shall submit to the Secretary as part of the application—

(A) a full statement of the business name and address of the specific facility at which the manufacturing is to take place and the facility's registration number;

(B) the name and signature of the responsible individual or individuals for that facility;

(C) a certification that the animal feeds bearing or containing new animal drugs are manufactured and labeled—

(i) in accordance with the applicable regulations published pursuant to section 13710 of this title; or

(ii) for indexed new animal drugs, in accordance with—

(I) the index listing published pursuant to section 14503(e)(2) of this title; and

(II) the labeling requirements set forth in section 14503(h) of this title; and

(D) a certification that the methods used in, and the facilities and controls used for,

manufacturing, processing, packaging, and holding the animal feeds are in conformity with current good manufacturing practice as described in section 13101(a)(2)(B)(ii) of this title.

(b) APPROVAL; HEARING.—

(1) IN GENERAL.—Within 90 days after the filing of an application pursuant to subsection (a), or such additional period as may be agreed on by the Secretary and the applicant, the Secretary shall—

(A) issue an order approving the application if the Secretary then finds that none of the grounds for denying approval specified in subsection (c) applies; or

(B) give the applicant notice of an opportunity for a hearing before the Secretary under subsection (c) on the question whether the application is approvable.

(2) HEARING PROCEDURE.—The procedure governing such a hearing shall be the procedure set forth in section 13704(a)(2) of this title.

(c) REFUSAL TO APPROVE APPLICATION.—

(1) GROUNDS.—The Secretary shall issue an order refusing to approve an application under subsection (a) if the Secretary, after due notice to the

applicant in accordance with subsection (b) and giving the applicant an opportunity for a hearing in accordance with subsection (b), finds, on the basis of information submitted to the Secretary as part of the application, on the basis of a preapproval inspection, or on the basis of any other information before the Secretary—

(A) that the application is incomplete, false, or misleading in any particular;

(B) that the methods used in, and the facilities and controls used for, the manufacture, processing, and packing of the animal feed are inadequate to preserve the identity, strength, quality, and purity of the new animal drug in the animal feed; or

(C) that the facility manufactures animal feeds bearing or containing new animal drugs in a manner that does not accord with the specifications for manufacture or labels animal feeds bearing or containing new animal drugs in a manner that does not accord with the conditions or indications of use that are published pursuant to section 13710 of this title or an index listing pursuant to section 14503(e) of this title.

(2) APPROVAL ON INAPPLICABILITY OF GROUNDS.—If, after the notice and opportunity for hearing, the Secretary finds that subparagraphs (A) through (C) of paragraph (1) do not apply, the Secretary shall issue an order approving the application.

(3) LIMITATION ON APPROVALS.—An order under this section approving an application for a license to manufacture animal feeds bearing or containing new animal drugs shall permit a facility to manufacture only those animal feeds bearing or containing new animal drugs for which—

(A) there are in effect regulations pursuant to section 13710 of this title relating to the use of the drugs in or on the animal feed; or

(B) there is an index listing pursuant to section 14503(e) of this title relating to the use of the drugs in or on the animal feed.

(d) REVOCATION OF LICENSE.—

(1) REQUIRED REVOCATION.—The Secretary shall, after due notice and opportunity for hearing to the applicant, revoke a license to manufacture animal feeds bearing or containing new animal drugs under this section if the Secretary finds—

(A) that the application for the license contains any untrue statement of a material fact; or

(B) that the applicant has made changes that would cause the application to contain any untrue statements of material fact or that would affect the safety or effectiveness of the animal feeds manufactured at the facility unless the applicant has supplemented the application by filing with the Secretary adequate information respecting all the changes and unless there is in effect an approval of the supplemental application.

(2) SUSPENSION OF APPROVAL ON FINDING OF IMMINENT HAZARD TO HEALTH.—

(A) IN GENERAL.—If the Secretary (or in the Secretary's absence, the officer acting as the Secretary) finds that there is an imminent hazard to the health of humans or of the animals for which the animal feed is intended, the Secretary may suspend the license immediately, and give the applicant prompt notice of the action and afford the applicant the opportunity for an expedited hearing under this section.

(B) NONDELEGATION.—The authority conferred by subparagraph (A) shall not be delegated.

(3) AUTHORIZED REVOCATION.—The Secretary may, after due notice and opportunity for hearing to the applicant, revoke a license to manufacture animal feed under this section if the Secretary finds—

(A) that the applicant—

(i) has failed to establish a system for maintaining required records;

(ii) has repeatedly or deliberately failed to maintain the records or to make required reports in accordance with a regulation or order under subsection (e)(1) or section 13110(a)(3)(A) of this title; or

(iii) has refused to permit access to, or copying or verification of, the records as required by subsection (e)(2) or section 13110(a)(3)(B) of this title;

(B) that on the basis of new information before the Secretary, evaluated together with the evidence before the Secretary when the license was issued, the methods used in, or the facilities and controls used for, the manufacture, processing, packing, and holding of the

animal feed are inadequate to ensure and preserve the identity, strength, quality, and purity of the new animal drug in the animal feed, and were not made adequate within a reasonable time after receipt of written notice from the Secretary specifying the matter complained of;

(C) that on the basis of new information before the Secretary, evaluated together with the evidence before the Secretary when the license was issued, the labeling of any animal feeds, based on a fair evaluation of all material facts, is false or misleading in any particular and was not corrected within a reasonable time after receipt of written notice from the Secretary specifying the matter complained of; or

(D) that on the basis of new information before the Secretary, evaluated together with the evidence before the Secretary when the license was issued, the facility has manufactured, processed, packed, or held animal feed bearing or containing a new animal drug adulterated under section 13101(a)(2)(F) of this title and the facility did not discontinue the manufacture, processing, packing, or holding of the animal feed within a reasonable time after receipt

of written notice from the Secretary specifying the matter complained of.

(4) INTENTION TO DISCONTINUE MANUFACTURE.—The Secretary may revoke a license to manufacture animal feeds under this section if an applicant gives notice to the Secretary of intention to discontinue the manufacture of all animal feed covered under this section and waives an opportunity for a hearing on the matter.

(5) ORDER TO STATE FINDINGS.—Any order under this subsection shall state the findings on which it is based.

(e) ISSUANCE OF LICENSE AND MAINTENANCE OF RECORDS.—When a license to manufacture animal feeds bearing or containing new animal drugs has been issued—

(1) the applicant shall establish and maintain such records, and make such reports to the Secretary, or (at the option of the Secretary) to the appropriate person or persons holding an approved application filed under section 13703 of this title, as the Secretary may by general regulation, or by order with respect to the application, prescribe on the basis of a finding that the records and reports are necessary in order to enable the Secretary to determine, or facilitate a determination, whether there is

or may be ground for invoking section 13706 of this title or subsection (d); and

(2) each person required under this section to maintain records, and each person in charge or custody of the records, shall, on request of an officer or employee designated by the Secretary, permit the officer or employee at all reasonable times to have access to and copy and verify the records.

(f) EXEMPTION BY REGULATION.—To the extent consistent with the public health, the Secretary may promulgate regulations for exempting from the operation of this section facilities that manufacture, process, pack, or hold animal feeds bearing or containing new animal drugs.

**§ 13715. Abbreviated applications for new animal drugs**

(a) DEFINITION OF APPROVED NEW ANIMAL DRUG.—In this section, the term ''approved new animal drug'' means a new animal drug listed under subsection (e).

(b) APPLICATION.—

(1) CONTENTS.—An abbreviated application for a new animal drug shall contain—

(A)(i) except as provided in clause (ii), information to show that the conditions of use or similar limitations (whether in the labeling or

published pursuant to section 13710 of this title) prescribed, recommended, or suggested in the labeling proposed for the new animal drug have been previously approved for an approved new animal drug; and

(ii) information to show that the withdrawal period at which residues of the new animal drug will be consistent with the tolerances established for the approved new animal drug is the same as the withdrawal period previously established for the approved new animal drug or, if the withdrawal period is proposed to be different, information showing that the residues of the new animal drug at the proposed different withdrawal period will be consistent with the tolerances established for the approved new animal drug;

(B)(i) information to show that the active ingredients of the new animal drug are the same as those of the approved new animal drug; and

(ii) if the approved new animal drug has more than 1 active ingredient, and if 1 of the active ingredients of the new animal drug is different from 1 of the active ingredients of the

approved new animal drug and the application is filed pursuant to the approval of a petition filed under subsection (d)—

(I) information to show that the other active ingredients of the new animal drug are the same as the active ingredients of the approved new animal drug;

(II) information to show that the different active ingredient is an active ingredient of either another approved new animal drug or an animal drug that does not meet the requirements of section 10101(a)(33) of this title; and

(III) such other information respecting the different active ingredients as the Secretary may require;

(C)(i) if the approved new animal drug is permitted to be used with 1 or more animal drugs in animal feed, information to show that the proposed uses of the new animal drug with other animal drugs in animal feed are the same as the uses of the approved new animal drug; and

(ii) if the approved new animal drug is permitted to be used with 1 or more other animal drugs in animal feed, and 1 of the other animal

drugs proposed for use with the new animal drug in animal feed is different from 1 of the other animal drugs permitted to be used in animal feed with the approved new animal drug, and the application is filed pursuant to the approval of a petition filed under subsection (d)—

(I) information to show that the different animal drug proposed for use with the approved new animal drug in animal feed is an approved new animal drug permitted to be used in animal feed or does not meet the requirements of section 10101(a)(33) of this title when used with another animal drug in animal feed;

(II) information to show that other animal drugs proposed for use with the new animal drug in animal feed are the same as the other animal drugs permitted to be used with the approved new animal drug; and

(III) such other information respecting the different animal drug or combination with respect to which the petition was filed as the Secretary may require;

(D)(i) information to show that the route of administration, the dosage form, and the

strength of the new animal drug are the same as those of the approved new animal drug; or

(ii) if the route of administration, the dosage form, or the strength of the new animal drug is different and the application is filed pursuant to the approval of a petition filed under subsection (d), such information respecting the route of administration, dosage form, or strength with respect to which the petition was filed as the Secretary may require;

(E) information to show that the new animal drug is bioequivalent to the approved new animal drug, except that if the application is filed pursuant to the approval of a petition filed under subsection (d) for the purposes described in subparagraph (B) or (C), information to show—

(i) that the active ingredients of the new animal drug are of the same pharmacological or therapeutic class as the pharmacological or therapeutic class of the approved new animal drug; and

(ii) that the new animal drug can be expected to have the same therapeutic ef-

fect as the approved new animal drug when used in accordance with the labeling;

(F) information to show that the labeling proposed for the new animal drug is the same as the labeling approved for the approved new animal drug except for changes required—

(i) because of differences approved under a petition filed under subsection (d);

(ii) because of a different withdrawal period; or

(iii) because the new animal drug and the approved new animal drug are produced or distributed by different manufacturers;

(G) the items specified in subparagraphs (B) through (F) of section 13703(a)(2) of this title;

(H) a certification, in the opinion of the applicant and to the best of the applicant's knowledge, with respect to each patent that claims the approved new animal drug or that claims a use for the approved new animal drug for which the applicant is seeking approval under this section and for which information is

required to be filed under section 13703(a) or 13704(c) of this title—

(i) that the patent information has not been filed;

(ii) that the patent has expired;

(iii) of the date on which the patent will expire; or

(iv) that the patent is invalid or will not be infringed by the manufacture, use, or sale of the new animal drug for which the application is filed; and

(I) if, with respect to the approved new animal drug, information was filed under section 13703(a) or 13704(c) of this title for a method of use patent that does not claim a use for which the applicant is seeking approval of an application under section 13704(b) of this title, a statement that the method of use patent does not claim such a use.

(2) NO OTHER REQUIRED INFORMATION.—The Secretary may not require that an abbreviated application contain information in addition to that required by subparagraphs (A) through (I) of paragraph (1).

(c) STATEMENT RELATING TO NOTICE OF INVALIDITY OR NON-INFRINGEMENT CERTIFICATION.—

(1) IN GENERAL.—An applicant that makes a certification described in subsection (b)(1)(H)(iv) shall include in the application a statement that the applicant will give the notice required by paragraph (2) to—

(A) each owner of the patent that is the subject of the certification or the representative of the owner designated to receive the notice; and

(B) the holder of the approved application under section 13704(a) of this title for the drug that is claimed by the patent or a use of which is claimed by the patent or the representative of the holder designated to receive the notice.

(2) NOTICE.—

(A) IN GENERAL.—The notice referred to in paragraph (1) shall state that an application, which contains data from bioequivalence studies, has been filed under this section for the drug with respect to which the certification is made to obtain approval to engage in the commercial manufacture, use, or sale of the drug

before the expiration of the patent referred to in the certification.

(B) BASIS FOR INVALIDITY OR NON-INFRINGEMENT OPINION.—The notice shall include a detailed statement of the factual and legal basis of the applicant's opinion that the patent is not valid or will not be infringed.

(3) APPLICATIONS AMENDED TO INCLUDE INVALIDITY OR NON-INFRINGEMENT CERTIFICATION.—If an application is amended to include a certification described in subsection (b)(1)(H)(iv), the notice required by paragraph (2) shall be given when the amended application is filed.

(d) PETITION TO FILE CERTAIN ABBREVIATED NEW ANIMAL DRUG APPLICATIONS.—

(1) SUBMISSION.—A person shall submit a petition to the Secretary seeking permission to file an abbreviated new animal drug application if the person wants to submit the application for a new animal drug—

(A) whose active ingredients, route of administration, dosage form, or strength differ from that of an approved new animal drug; or

(B) whose use with other animal drugs in animal feed differs from that of an approved new animal drug.

(2) APPROVAL.—The Secretary shall approve a petition for a new animal drug unless the Secretary finds that—

(A) investigations must be conducted to show the safety and effectiveness, in animals to be treated with the drug, of—

(i) the active ingredients; or

(ii) the route of administration, dosage form, strength, or use with other animal drugs in animal feed that differ from the approved new animal drug; or

(B) investigations must be conducted to show the safety for human consumption of any residues in food resulting from—

(i) the proposed active ingredients;

(ii) the route of administration, dosage form, strength, or use with other animal drugs in animal feed for the new animal drug that is different from the active ingredients; or

(iii) the route of administration, dosage form, strength, or use with other ani-

mal drugs in animal feed of the approved new animal drug.

(3) DECISION TIMEFRAME.—The Secretary shall approve or disapprove a petition submitted under this subsection within 90 days of the date the petition is submitted.

(e) LIST OF NEW ANIMAL DRUGS APPROVED FOR SAFETY AND EFFECTIVENESS.—

(1) IN GENERAL.—

(A) PUBLICATION.—The Secretary shall publish and make available to the public a list in alphabetical order of the official and proprietary name of each new animal drug that was approved for safety and effectiveness before November 16, 1988.

(B) UPDATES.—Every 30 days, the Secretary shall revise the list to include each new animal drug that has been approved for safety and effectiveness under section 13704 of this title during the 30-day period.

(C) PATENT INFORMATION.—When patent information submitted under section 13703(a) or 13704(c) of this title respecting a new animal drug included on the list is to be published by the Secretary, the Secretary shall, in revi-

sions made under subparagraph (B), include the information for the drug.

(2) DATE OF PUBLICATION.—A new animal drug approved for safety and effectiveness before November 16, 1988, or approved for safety and effectiveness under section 13704 of this title shall, for purposes of this section, be considered to have been published under paragraph (1) on the date of its approval or November 16, 1988, whichever is later.

(3) NON-PUBLICATION IN LIST; REMOVAL FROM LIST.—

(A) IN GENERAL.—If the approval of a new animal drug was withdrawn or suspended under section 13704(b)(8) of this title or for grounds described in section 13706 of this title or if the Secretary determines that a drug has been withdrawn from sale for safety or effectiveness reasons, the new animal drug may not be published in the list under paragraph (1) or, if the withdrawal or suspension occurred after its publication in the list, it shall be immediately removed from the list—

(i) for the same period as the withdrawal or suspension under section 13704(b)(8) or 13706 of this title; or

(ii) if the listed drug has been withdrawn from sale, for the period of withdrawal from sale or, if earlier, the period ending on the date the Secretary determines that the withdrawal from sale is not for safety or effectiveness reasons.

(B) NOTICE OF REMOVAL.—A notice of the removal shall be published in the Federal Register.

(f) APPLICATIONS DEEMED FILED AS ABBREVIATED NEW ANIMAL DRUG APPLICATIONS.—An application shall be deemed to be an application filed under section 13703(b) of this title if the application contains the information required by subparagraphs (A), (G), and (H) of section 13703(a)(2) of this title and the information—

(1) is relied on by the applicant for the approval of the application; and

(2) is not information derived either from investigations, studies, or tests conducted by or for the applicant or for which the applicant had obtained a right of reference or use from the person by or for

whom the investigations, studies, or tests were conducted.

**§ 13716. Safety and effectiveness data**

(a) AVAILABILITY TO THE PUBLIC.—Safety and effectiveness data and information that have been submitted in an application filed under section 13703(a) or 14502(b) of this title for a drug and that have not previously been disclosed to the public shall be made available to the public, upon request, unless extraordinary circumstances are shown—

(1) if no work is being or will be undertaken to have the application approved;

(2) if the Secretary has determined that the application is not approvable and all legal appeals have been exhausted;

(3) if approval of the application under section 13704 of this title is withdrawn and all legal appeals have been exhausted;

(4) if the Secretary has determined that the drug is not a new drug; or

(5) on the effective date of the approval of the first application filed under section 13703(b) of this title that refers to the drug or on the date on which the approval of an application filed under section

13703(b) of this title that refers to the drug could be made effective if the application had been filed.

(b) NON-DISCLOSURE STATEMENT.—Any request for data and information pursuant to subsection (a) shall include a verified statement by the person making the request that any data or information received under subsection (a) shall not be disclosed by the person to any other person—

(1) for the purpose of, or as part of a plan, scheme, or device for, obtaining the right to make, use, or market, or making, using, or marketing, outside the United States, the drug identified in the application filed under section 13703(a) or 14502(b) of this title; and

(2) without obtaining from any person to whom the data and information are disclosed an identical verified statement, a copy of which is to be provided by the person to the Secretary, that meets the requirements of this subsection.

**§ 13717. Date of approval in the case of recommended controls under the CSA**

In the case of an application under section 13703 of this title with respect to a drug for which the Secretary provides notice to the sponsor that the Secretary intends to issue a scientific and medical evaluation and rec-

ommend controls under division A of subtitle V of this title, approval of the application shall not take effect until the interim final rule controlling the drug is issued in accordance with section 50301(j) of this title.

# Chapter 139—Drugs for Rare Diseases or Conditions

Sec.
13901. Recommendations for investigations of drugs for rare diseases or conditions.
13902. Designation of drugs for rare diseases or conditions.
13903. Protection for drugs for rare diseases or conditions.
13904. Open protocols for investigations of drugs for rare diseases or conditions.
13905. Priority review to encourage treatments for rare pediatric diseases.
13906. Targeted drugs for rare diseases.

## § 13901. Recommendations for investigations of drugs for rare diseases or conditions

(a) REQUEST BY SPONSOR.—

(1) IN GENERAL.—The sponsor of a drug for a disease or condition that is rare in the States may request the Secretary to provide written recommendations for the non-clinical and clinical investigations that must be conducted with the drug before—

(A) it may be approved for the disease or condition under chapter 135 of this title; or

(B) if the drug is a biological product, it may be licensed for the disease or condition under section 351 of the Public Health Service Act (42 U.S.C. 262).

(2) PROVISION OF WRITTEN RECOMMENDATION BY SECRETARY.—If the Secretary has reason to believe that a drug for which a request is made under this section is a drug for a disease or condition that is rare in the States, the Secretary shall provide the person making the request written recommendations for the non-clinical and clinical investigations that the Secretary believes, on the basis of information available to the Secretary at the time of the request under this section, would be necessary for approval of the drug for the disease or condition under chapter 135 of this title or licensing of the drug for the disease or condition under section 351 of the Public Health Service Act (42 U.S.C. 262).

(b) REGULATIONS.—The Secretary shall by regulation promulgate procedures for the implementation of subsection (a).

**§ 13902. Designation of drugs for rare diseases or conditions**

(a) REQUEST BY SPONSOR; PPRECONDITIONS.—

(1) DEFINITION OF RARE DISEASE OR CONDITION.—

(A) IN GENERAL.—In this subsection, the term ''rare disease or condition'' means any disease or condition that—

(i) affects less than 200,000 persons in the United States; or

(ii) affects more than 200,000 in the United States and for which there is no reasonable expectation that the cost of developing and making available in the United States a drug for the disease or condition will be recovered from sales in the United States of the drug.

(B) BASIS.—Determinations under subparagraph (A) with respect to any drug shall be made on the basis of the facts and circumstances as of the date the request for designation of the drug under this subsection is made.

(2) REQUEST FOR DESIGNATION.—

(A) IN GENERAL.—The manufacturer or the sponsor of a drug may request the Secretary to designate the drug as a drug for a rare disease or condition.

(B) TIMING.—A request for designation of a drug shall be made before the submission of an application under section 13503 of this title for the drug, or the submission of an application for licensing of the drug under section 351

of the Public Health Service Act (42 U.S.C. 262).

(C) DESIGNATION.—

(i) IN GENERAL.—The Secretary shall designate a drug as a drug for a rare disease or condition if the Secretary finds that the drug, for which a request is submitted under this subsection, is being or will be investigated for the rare disease or condition; and

(I) if an application for the drug is approved under chapter 135 of this title, the approval would be for use for the disease or condition; or

(II) if a license for the drug is issued under section 351 of the Public Health Service Act (42 U.S.C. 262), the license would be for use for the disease or condition.

(ii) CONSENT TO NOTICE REQUIRED.—A request for a designation of a drug under this subsection shall contain the consent of the applicant to notice being given by the Secretary under subsection (c) respecting the designation of the drug.

(b) NOTIFICATION OF DISCONTINUANCE OF DRUG OR APPLICATION AS CONDITION.—A designation of a drug under subsection (a) shall be subject to the condition that—

(1) if an application was approved for the drug under section 13503 of this title or a license was issued for the drug under section 351 of the Public Health Service Act (42 U.S.C. 262), the manufacturer of the drug will notify the Secretary of any discontinuance of the production of the drug at least 1 year before discontinuance; and

(2) if an application has not been approved for the drug under section 13503 of this title or a license has not been issued for the drug under section 351 of the Public Health Service Act (42 U.S.C. 262) and if preclinical investigations or investigations under section 13510 of this title are being conducted with the drug, the manufacturer or sponsor of the drug will notify the Secretary of any decision to discontinue active pursuit of approval of an application under section 13503 of this title or approval of a license under section 351 of the Public Health Service Act (42 U.S.C. 262).

(c) NOTICE TO PUBLIC.—Notice respecting the designation of a drug under subsection (a) shall be made available to the public.

(d) REGULATIONS.—The Secretary shall by regulation promulgate procedures for the implementation of subsection (a).

**§ 13903. Protection for drugs for rare diseases or conditions**

(a) EXCLUSIVE APPROVAL, CERTIFICATION, OR LICENSE.—

(1) IN GENERAL.—Except as provided in subsection (b), if the Secretary approves an application filed pursuant to chapter 135 of this title or issues a license under section 351 of the Public Health Service Act (42 U.S.C. 262) for a drug designated under section 13902 of this title for a rare disease or condition, the Secretary may not approve another application under chapter 135 of this title or issue another license under section 351 of the Public Health Service Act (42 U.S.C. 262) for the same drug for the same disease or condition for a person that is not the holder of the approved application or of the license until the expiration of 7 years from the date of the approval of the approved application or the issuance of the license.

(2) INAPPLICABILITY OF CERTAIN PROVISION.—Section 13504(a)(1)(B) of this title does not apply to the refusal to approve an application under paragraph (1).

(b) EXCEPTIONS.—During the 7-year period described in subsection (a) for an approved application under chapter 135 of this title or a license under section 351 of the Public Health Service Act (42 U.S.C. 262), the Secretary may approve an application or issue a license for a drug that is otherwise the same, as determined by the Secretary, as the already approved drug for the same rare disease or condition if—

(1) the Secretary finds, after providing the holder of exclusive approval or licensure notice and opportunity for the submission of views, that during the 7-year period, the holder of the exclusive approval or licensure cannot ensure the availability of sufficient quantities of the drug to meet the needs of individuals with the disease or condition for which the drug was designated; or

(2) the holder provides the Secretary in writing the consent of the holder for the approval of other applications or the issuance of other licenses before the expiration of the 7-year period.

(c) CONDITION OF CLINICAL SUPERIORITY.—

(1) DEFINITION OF CLINICALLY SUPERIOR.—In this subsection, the term ''clinically superior'', with respect to a drug, means that the drug provides a significant therapeutic advantage over and above an already approved or licensed drug in terms of greater efficacy or greater safety, or by providing a major contribution to patient care.

(2) IN GENERAL.—If a sponsor of a drug that is designated under section 13902 of this title and that is otherwise the same, as determined by the Secretary, as an already approved or licensed drug is seeking exclusive approval or exclusive licensure described in subsection (a) for the same rare disease or condition as the already approved drug, the Secretary shall require the sponsor, as a condition of the exclusive approval or licensure, to demonstrate that the drug is clinically superior to any already approved or licensed drug that is the same drug.

(3) APPLICABILITY.—This subsection applies to any drug designated under section 13902 of this title for which an application was approved under chapter 135 of this title or licensed under section 351 of the Public Health Service Act (42 U.S.C. 262) after August 18, 2017, regardless of the date

on which the drug was designated under section 13902 of this title.

(d) REGULATIONS.—The Secretary may promulgate regulations for the implementation of subsection (c). Beginning on August 18, 2017, until such time as the Secretary promulgates regulations in accordance with this subsection, the Secretary may apply any definitions set forth in regulations that were promulgated prior to that date, to the extent the definitions are not inconsistent with the terms of this section.

(e) DEMONSTRATION OF CLINICAL SUPERIORITY STANDARD.—To assist sponsors in demonstrating clinical superiority as described in subsection (c), the Secretary—

(1) on the designation of any drug under section 13902 of this title, shall notify the sponsor of the drug in writing of the basis for the designation, including, as applicable, any plausible hypothesis offered by the sponsor and relied on by the Secretary that the drug is clinically superior to a previously approved drug; and

(2) on granting exclusive approval or licensure under subsection (a) on the basis of a demonstration of clinical superiority as described in subsection (c), shall publish a summary of the clinical superiority findings.

**§ 13904. Open protocols for investigations of drugs for rare diseases or conditions**

If a drug is designated under section 13902 of this title as a drug for a rare disease or condition and if notice of a claimed exemption under section 13510 of this title or regulations issued under section 13510 of this title is filed for the drug, the Secretary shall encourage the sponsor of the drug to design protocols for clinical investigations of the drug that may be conducted under the exemption to permit the addition to the investigations of individuals with the disease or condition who need the drug to treat the disease or condition and who cannot be satisfactorily treated by available alternative drugs.

**§ 13905. Priority review to encourage treatments for rare pediatric diseases**

(a) DEFINITIONS.—In this section:

(1) PRIORITY REVIEW.—The term ''priority review'', with respect to a human drug application as defined in section 17906(a) of this title, means review and action by the Secretary on the human drug application not later than 6 months after receipt by the Secretary of the human drug application, as described in the Manual of Policies and Procedures of the FDA and goals identified in the letters described in section 101(b) of the Prescription Drug User Fee

Amendments of 2012 (Public Law 112–144, title I, 126 Stat. 996).

(2) PRIORITY REVIEW VOUCHER.—The term ''priority review voucher'' means a voucher issued by the Secretary to the sponsor of a rare pediatric disease product application that entitles the holder of the voucher to priority review of a single human drug application submitted under section 13503(a) of this title or section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)) after the date of approval of the rare pediatric disease product application.

(3) RARE PEDIATRIC DISEASE.—The term ''rare pediatric disease'' means a disease that is—

(A) a serious or life-threatening disease in which the serious or life-threatening manifestations primarily affect individuals aged from birth to 18 years, including age groups often called neonates, infants, children, and adolescents; and

(B) a rare disease or condition, within the meaning of section 13902 of this title.

(4) RARE PEDIATRIC DISEASE PRODUCT APPLICATION.—The term ''rare pediatric disease product

application'' means a human drug application, as defined in section 17906(a) of this title, that—

(A) is for a drug or biological product that is for the prevention or treatment of a rare pediatric disease;

(B)(i) is for such a drug—

(I) that contains no active moiety (as defined by the Secretary in section 314.3 of title 21, Code of Federal Regulations (or any successor regulations)) that has been previously approved in any other application under subsection (a) or (b) of section 13503 of this title or section 13511 of this title; and

(II) that is the subject of an application submitted under section 13503(a) of this title; or

(ii) is for such a biological product—

(I) that contains no active ingredient that has been previously approved in any other application under subsection (a) or (k) of section 351 of the Public Health Service Act (42 U.S.C. 262(a), (k)); and

(II) that is the subject of an application submitted under section 351(a) of the Public Health Service Act (42 U.S.C. 262(a));

(C) the Secretary considers eligible for priority review;

(D) relies on clinical data derived from studies examining a pediatric population and dosages of the drug intended for that population;

(E) does not seek approval for an adult indication in the original rare pediatric disease product application; and

(F) is approved after September 30, 2016.

(b) PRIORITY REVIEW VOUCHER.—

(1) IN GENERAL.—The Secretary shall award a priority review voucher to the sponsor of a rare pediatric disease product application on approval by the Secretary of the rare pediatric disease product application.

(2) TRANSFERABILITY.—

(A) IN GENERAL.—The sponsor of a rare pediatric disease product application that receives a priority review voucher under this section may transfer (including by sale) the entitlement to the voucher. There is no limit on the

number of times a priority review voucher may be transferred before the voucher is used.

(B) NOTIFICATION OF TRANSFER.—Each person to whom a voucher is transferred shall notify the Secretary of the change in ownership of the voucher not later than 30 days after the transfer.

(3) LIMITATION.—A sponsor of a rare pediatric disease product application may not receive a priority review voucher under this section if the rare pediatric disease product application was submitted to the Secretary prior to the date that is 90 days after July 9, 2012.

(4) NOTIFICATION.—

(A) SPONSOR OF A RARE PEDIATRIC DISEASE PRODUCT.—

(i) IN GENERAL.—Beginning on the date that is 90 days after September 30, 2016, the sponsor of a rare pediatric disease product application that intends to request a priority review voucher under this section shall notify the Secretary of the intent on submission of the rare pediatric disease product application that is the

basis of the request for a priority review voucher.

(ii) APPLICATIONS SUBMITTED BUT NOT YET APPROVED.—The sponsor of a rare pediatric disease product application that was submitted and that has not been approved as of September 30, 2016, shall be considered eligible for a priority review voucher, if—

(I) the sponsor has submitted the rare pediatric disease product application—

(aa) on or after the date that is 90 days after July 9, 2012; and

(bb) on or before September 30, 2016; and

(II) the application otherwise meets the criteria for a priority review voucher under this section.

(B) SPONSOR OF A DRUG APPLICATION USING A PRIORITY REVIEW VOUCHER.—

(i) IN GENERAL.—The sponsor of a human drug application shall notify the Secretary not later than 90 days prior to

submission of the human drug application that is the subject of a priority review voucher of an intent to submit the human drug application, including the date on which the sponsor intends to submit the human drug application. The notification shall be a legally binding commitment to pay the user fee to be assessed in accordance with this section.

(ii) TRANSFER AFTER NOTICE.—The sponsor of a human drug application that provides notification of the intent of the sponsor to use the voucher for the human drug application under clause (i) may transfer the voucher after the notification is provided, if the sponsor has not yet submitted the human drug application described in the notification.

(5) TERMINATION OF AUTHORITY.—The Secretary may not award any priority review vouchers under paragraph (1) after December 20, 2024, unless the rare pediatric disease product application—

(A) is for a drug that, not later than December 20, 2024, is designated under sub-

section (d) as a drug for a rare pediatric disease; and

(B) is, not later than September 30, 2026, approved under section 13503(a) of this title or section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)).

(c) PRIORITY REVIEW USER FEE.—

(1) IN GENERAL.—The Secretary shall establish a user fee program under which a sponsor of a human drug application that is the subject of a priority review voucher shall pay to the Secretary a fee determined under paragraph (2). The fee shall be in addition to any fee required to be submitted by the sponsor under chapter 179 of this title.

(2) FEE AMOUNT.—The amount of the priority review user fee shall be determined each fiscal year by the Secretary, based on the difference between—

(A) the average cost incurred by the FDA in the review of a human drug application subject to priority review in the previous fiscal year; and

(B) the average cost incurred by the FDA in the review of a human drug application that is not subject to priority review in the previous fiscal year.

(3) ANNUAL FEE SETTING.—The Secretary shall establish, before the beginning of each fiscal year, the amount of the priority review user fee for that fiscal year.

(4) PAYMENT.—

(A) IN GENERAL.—The priority review user fee required by this subsection shall be due on the notification by a sponsor of the intent of the sponsor to use the voucher, as specified in subsection (b)(4)(B). All other user fees associated with the human drug application shall be due as required by the Secretary or under applicable law.

(B) COMPLETE APPLICATION.—An application described under subparagraph (A) for which the sponsor requests the use of a priority review voucher shall be considered incomplete if the fee required by this subsection and all other applicable user fees are not paid in accordance with the Secretary's procedures for paying the fees.

(C) NO WAIVERS, EXEMPTIONS, REDUCTIONS, OR REFUNDS.—The Secretary may not grant a waiver, exemption, reduction, or refund of any fees due and payable under this section.

(5) OFFSETTING COLLECTIONS.—Fees collected pursuant to this subsection for any fiscal year—

(A) shall be deposited and credited as offsetting collections to the account providing appropriations to the FDA; and

(B) shall not be collected for any fiscal year except to the extent provided in advance in appropriations Acts.

(d) DESIGNATION PROCESS.—

(1) IN GENERAL.—On the request of the manufacturer or the sponsor of a new drug, the Secretary may designate—

(A) the new drug as a drug for a rare pediatric disease; and

(B) the application for the new drug as a rare pediatric disease product application.

(2) REQUEST FOR DESIGNATION.—The request for a designation under paragraph (1) shall be made at the same time a request for designation of orphan disease status under section 13902 of this title or fast-track designation under section 13119 of this title is made. Requesting designation under this subsection is not a prerequisite to receiving a priority review voucher under this section.

(3) DETERMINATION BY SECRETARY.—Not later than 60 days after a request is submitted under paragraph (1), the Secretary shall determine whether—

(A) the disease or condition that is the subject of the request is a rare pediatric disease; and

(B) the application for the new drug is a rare pediatric disease product application.

(e) MARKETING OF RARE PEDIATRIC DISEASE PRODUCTS.—

(1) REVOCATION.—The Secretary may revoke any priority review voucher awarded under subsection (b) if the rare pediatric disease product for which the voucher was awarded is not marketed in the United States within the 365-day period beginning on the date of the approval of the drug under chapter 135 of this title or section 351 of the Public Health Service Act (42 U.S.C. 262).

(2) POSTAPPROVAL PRODUCTION REPORT.—The sponsor of an approved rare pediatric disease product shall submit a report to the Secretary not later than 5 years after the approval of the applicable rare pediatric disease product application. The report shall provide the following information, with

respect to each of the first 4 years after approval of the product:

(A) The estimated population in the United States suffering from the rare pediatric disease.

(B) The estimated demand in the United States for the rare pediatric disease product.

(C) The actual amount of the rare pediatric disease product distributed in the United States.

(f) NOTICE AND REPORT.—

(1) NOTICE OF ISSUANCE OF VOUCHER AND APPROVAL OF PRODUCTS UNDER VOUCHER.—The Secretary shall publish a notice in the Federal Register and on the FDA website not later than 30 days after the occurrence of each of the following:

(A) The Secretary issues a priority review voucher under this section.

(B) The Secretary approves a drug pursuant to an application submitted under section 13503 of this title or section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)) for which the sponsor of the application used a priority review voucher under this section.

(2) NOTIFICATION.—If, after the last day of the 1-year period that begins on the date that the Secretary awards the third rare pediatric disease priority voucher under this section, a sponsor of an application submitted under section 13503 of this title or section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)) for a drug uses a priority review voucher under this section for the application, the Secretary shall submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Health, Education, Labor, and Pensions of the Senate a document—

(A) notifying the Committees of the use of the voucher; and

(B) identifying the drug for which the priority review voucher is used.

(g) ELIGIBILITY FOR OTHER PROGRAMS.—Nothing in this section precludes a sponsor that seeks a priority review voucher under this section from participating in any other incentive program, including under this subtitle, except that a sponsor of a rare pediatric disease product application shall not receive more than 1 priority review voucher issued under any section of this subtitle with respect to the drug for which the application is made.

(h) RELATION TO OTHER PROVISIONS.—The provisions of this section shall supplement, not supplant, any other provisions of this subtitle or the Public Health Service Act (42 U.S.C. 201 et seq.) that encourage the development of drugs for tropical diseases and rare pediatric diseases.

(i) GAO STUDY AND REPORT.—

(1) STUDY.—

(A) IN GENERAL.—Beginning on the date that the Secretary awards the third rare pediatric disease priority voucher under this section, the Comptroller General shall conduct a study of the effectiveness of awarding rare pediatric disease priority vouchers under this section in the development of human drug products that treat or prevent the diseases.

(B) CONTENTS OF STUDY.—In conducting the study under subparagraph (A), the Comptroller General shall examine the following:

(i) The indications for which each rare disease product for which a priority review voucher was awarded was approved under chapter 135 of this title or section 351 of the Public Health Service Act (42 U.S.C. 262).

(ii) Whether, and to what extent, an unmet need related to the treatment or prevention of a rare pediatric disease was met through the approval of such a rare disease product.

(iii) The value of the priority review voucher if transferred.

(iv) Identification of each drug for which a priority review voucher was used.

(v) The length of the period of time between the date on which a priority review voucher was awarded and the date on which it was used.

(2) REPORT.—Not later than 1 year after the date under paragraph (1)(A), the Comptroller General shall submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Health, Education, Labor, and Pensions of the Senate, a report containing the results of the study under paragraph (1).

**§ 13906. Targeted drugs for rare diseases**

(a) PURPOSES.—The purposes of this section, through the approach provided for in subsection (c), are—

(1) to facilitate the development, review, and approval of genetically targeted drugs and variant

protein targeted drugs to address an unmet medical need in 1 or more patient subgroups, including subgroups of patients with different mutations of a gene, with respect to rare diseases or conditions that are serious or life-threatening; and

(2) to maximize the use of scientific tools or methods, including surrogate endpoints and other biomarkers, for those purposes.

(b) DEFINITIONS.—In this section:

(1) GENETICALLY TARGETED DRUG.—The term ''genetically targeted drug'' means a drug that—

(A) is the subject of an application under section 13503(a) of this title or section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)) for the treatment of a rare disease or condition (as the term is defined in section 13902 of this title) that is serious or life-threatening;

(B) may result in the modulation (including suppression, up-regulation, or activation) of the function of a gene or its associated gene product; and

(C) incorporates or utilizes a genetically targeted technology.

(2) GENETICALLY TARGETED TECHNOLOGY.—The term ''genetically targeted technology'' means a technology comprising non-replicating nucleic acid or analogous compounds with a common or similar chemistry that is intended to treat 1 or more patient subgroups, including subgroups of patients with different mutations of a gene, with the same disease or condition, including a disease or condition due to other variants in the same gene.

(3) VARIANT PROTEIN TARGETED DRUG.—The term ''variant protein targeted drug'' means a drug that—

(A) is the subject of an application under section 13503(a) of this title or section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)) for the treatment of a rare disease or condition (as the term is defined in section 13902 of this title) that is serious or life-threatening;

(B) modulates the function of a product of a mutated gene where the mutation is responsible in whole or in part for a given disease or condition; and

(C) is intended to treat 1 or more patient subgroups, including subgroups of patients with

different mutations of a gene, with the same disease or condition.

(c) LEVERAGING OF DATA FROM PREVIOUSLY APPROVED DRUG APPLICATION OR APPLICATIONS.—

(1) IN GENERAL.—The Secretary may, consistent with applicable standards for approval under this subtitle or section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)), allow the sponsor of an application under section 13503(a) of this title or section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)) for a genetically targeted drug or a variant protein targeted drug to rely on data and information described in paragraph (2), which data and information were—

(A) previously developed by the same sponsor (or another sponsor that has provided the sponsor with a contractual right of reference to the data and information); and

(B) submitted by a sponsor described in subparagraph (A) in support of 1 or more previously approved applications that were submitted under section 13503(a) of this title or section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)).

(2) DATA AND INFORMATION.—Data and information described in this paragraph are data and information for a drug that incorporates or utilizes the same or similar genetically targeted technology as the drug or drugs that are the subject of an application or applications described in paragraph (1)(B) or for a variant protein targeted drug that is the same or incorporates or utilizes the same variant protein targeted drug as the drug or drugs that are the subject of an application or applications described in paragraph (1)(B).

(d) RULE OF CONSTRUCTION.—Nothing in this section shall be construed—

(1) to alter the authority of the Secretary to approve drugs pursuant to this subtitle or section 351 of the Public Health Service Act (42 U.S.C. 262) (as authorized prior to December 13, 2016), including the standards of evidence, and applicable conditions, for approval under the applicable subtitle or Act; or

(2) to confer any new rights, beyond those authorized under this subtitle or the Public Health Service Act (42 U.S.C. 201 et seq.) prior to December 13, 2016, with respect to the permissibility of a sponsor referencing information contained in an-

other application submitted under section 13503(a) of this title or section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)).

## § 14101. Definitions

In this chapter:

(1) COMMERCE.—The term ''commerce'' means—

(A) commerce between any place in any State and any place outside the State; and

(B) commerce wholly within the District of Columbia.

(2) ELECTRONIC PRODUCT.—The term ''electronic product'' means—

(A) any manufactured or assembled product that, when in operation—

(i) contains or acts as part of an electronic circuit; and

(ii) emits (or in the absence of effective shielding or other controls would emit) electronic product radiation; or

(B) any manufactured or assembled article that is intended for use as a component, part, or accessory of a product described in subparagraph (A) and that when in operation emits (or in the absence of effective shielding or other controls would emit) electronic product radiation.

(3) ELECTRONIC PRODUCT RADIATION.—The term ''electronic product radiation'' means—

(A) any ionizing or non-ionizing electromagnetic or particulate radiation; or

(B) any sonic, infrasonic, or ultrasonic wave that is emitted from an electronic product as the result of the operation of an electronic circuit in the electronic product.

(4) MANUFACTURER.—The term ''manufacturer'' means any person engaged in the business of manufacturing, assembling, or importing of electronic products.

(5) STATE.—The term ''State'' includes the District of Columbia, Puerto Rico, Guam, American

Samoa, the Virgin Islands, and the Northern Mariana Islands.

**§ 14102. Program of control**

(a) ESTABLISHMENT.—The Secretary shall establish and carry out an electronic product radiation control program designed to protect the public health and safety from electronic product radiation. As a part of the program, the Secretary shall—

(1) pursuant to section 14104 of this title, develop and administer performance standards for electronic products;

(2) plan, conduct, coordinate, and support research, development, training, and operational activities to minimize the emissions of, and the exposure of people to, unnecessary electronic product radiation;

(3) maintain liaison with and receive information from other Federal and State departments and agencies with related interests, professional organizations, industry, industry and labor associations, and other organizations on present and future potential electronic product radiation;

(4) study and evaluate emissions of, and conditions of exposure to, electronic product radiation and intense magnetic fields;

(5) develop, test, and evaluate the effectiveness of procedures and techniques for minimizing exposure to electronic product radiation; and

(6) consult and maintain liaison with the Secretary of Commerce, the Secretary of Defense, the Secretary of Labor, and other appropriate Federal agencies (including the agency to which was transferred the functions of the Atomic Energy Commission relating to this paragraph) on—

(A) techniques, equipment, and programs for testing and evaluating electronic product radiation; and

(B) the development of performance standards pursuant to section 14104 of this title to control the radiation emissions.

(b) AUTHORITIES OF SECRETARY.—In carrying out subsection (a), the Secretary may—

(1)(A) collect and make available, through publications and other appropriate means, the results of, and other information concerning, research and studies relating to the nature and extent of the hazards and control of electronic product radiation; and

(B) make such recommendations relating to the hazards and control as the Secretary considers appropriate;

(2) make grants to public and private agencies, organizations, and institutions, and to individuals for the purposes stated in paragraphs (2), (4), and (5) of subsection (a);

(3) contract with public or private agencies, institutions, and organizations, and with individuals, without regard to section 3324 of title 31 and section 6101 of title 41; and

(4) procure (by negotiation or otherwise) electronic products for research and testing purposes, and sell or otherwise dispose of the electronic products.

(c) RECORDKEEPING.—

(1) IN GENERAL.—Each recipient of assistance under this chapter pursuant to grants or contracts entered into under other than competitive bidding procedures shall keep such records as the Secretary shall prescribe, including—

(A) records that fully disclose—

(i) the amount and disposition by the recipient of the proceeds of the assistance;

(ii) the total cost of the project or undertaking in connection with which the assistance is given or used; and

(iii) the amount of the portion of the cost of the project or undertaking supplied by other sources; and

(B) such other records as will facilitate an effective audit.

(2) ACCESS TO RECORDS.—The Secretary and the Comptroller General, or any of their authorized representatives, shall have access for the purpose of audit and examination to any books, documents, papers, and records of the recipients that are pertinent to the grants or contracts entered into under this chapter under other than competitive bidding procedures.

**§ 14103. Studies by Secretary**

(a) REPORT TO CONGRESS.—The Secretary shall conduct the following studies and shall make a report or reports of the results of the studies to Congress from time to time as the Secretary may find necessary, with such recommendations for legislation as the Secretary may consider appropriate:

(1) A study of present State and Federal control of health hazards from electronic product radiation and other types of ionizing radiation, which study shall include—

(A) control of health hazards from radioactive materials other than materials regulated under the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.);

(B) any gaps and inconsistencies in present controls;

(C) the need for controlling the sale of certain used electronic products, particularly antiquated X-ray equipment, without upgrading the electronic products to meet the standards for new electronic products or separate standards for used electronic products;

(D) measures to ensure consistent and effective control of the aforementioned health hazards;

(E) measures to strengthen radiological health programs of State governments; and

(F) the feasibility of authorizing the Secretary to enter into arrangements with individual States or groups of States to define their respective functions and responsibilities for the control of electronic product radiation and other ionizing radiation.

(2) A study to determine the necessity for the development of standards for the use of nonmedical

electronic products for commercial and industrial purposes.

(3) A study of the development of practicable procedures for the detection and measurement of electronic product radiation that may be emitted from electronic products manufactured or imported prior to the effective date of any applicable standard established pursuant to this chapter.

(b) PARTICIPATION OF OTHER FEDERAL AGENCIES.—In carrying out the studies under subsection (a), the Secretary shall invite the participation of other Federal agencies having related responsibilities and interests, State governments (particularly those States that regulate radioactive materials under section 274 of the Atomic Energy Act of 1954 (42 U.S.C. 2021)), and interested professional, labor, and industrial organizations. On request from congressional committees interested in the studies, the Secretary shall keep the congressional committees currently informed as to the progress of the studies and shall permit the congressional committees to send observers to meetings of the study groups.

(c) ORGANIZATION OF STUDIES AND PARTICIPATION.—The Secretary shall organize the studies and the participation of the invited participants as the Secretary considers best. Any dissent from the findings and rec-

ommendations of the Secretary shall be included in the report if the inclusion is requested by the dissenter.

**§ 14104. Performance standards for electronic products**

(a) PRESCRIPTION OF REGULATIONS.—

(1) IN GENERAL.—

(A) PRESCRIPTION ON DETERMINATION OF NECESSITY FOR PROTECTION OF PUBLIC HEALTH AND SAFETY.—The Secretary shall by regulation prescribe performance standards for electronic products to control the emission of electronic product radiation from the electronic products if the Secretary determines that the standards are necessary for the protection of the public health and safety.

(B) CONTENTS.—The standards may—

(i) include provisions for the testing of the electronic products and the measurement of their electronic product radiation emissions;

(ii) require the attachment of warning signs and labels; and

(iii) require the provision of instructions for the installation, operation, and use of the electronic products.

(C) TIMING.—The standards may be prescribed from time to time whenever the determinations under subparagraph (A) are made.

(D) DEVELOPMENT OF STANDARDS; CONSULTATIONS; FACTORS TO CONSIDER.—In the development of the standards, the Secretary shall consult with Federal and State agencies having related responsibilities or interests and with appropriate professional organizations and interested persons, including representatives of industries and labor organizations that would be affected by the standards, and shall give consideration to—

(i) the latest available scientific and medical data in the field of electronic product radiation;

(ii) the standards currently recommended by—

(I) other Federal agencies having responsibilities relating to the control and measurement of electronic product radiation; and

(II) public or private groups having an expertise in the field of electronic product radiation;

(iii) the reasonableness and technical feasibility of the standards as applied to a particular electronic product;

(iv) the adaptability of the standards to the need for uniformity and reliability of testing and measuring procedures and equipment; and

(v) in the case of a component, or accessory described in section 14101(2)(B) of this title, the performance of the article in the manufactured or assembled product for which it is designed.

(2) DIFFERENT AND INDIVIDUAL PERFORMANCE STANDARDS.—The Secretary may prescribe different and individual performance standards, to the extent appropriate and feasible, for different electronic products so as to recognize their different operating characteristics and uses.

(3) ELECTRONIC PRODUCTS FOR EXPORT.—The performance standards prescribed under this section shall not apply to any electronic product that is intended solely for export if—

(A) the electronic product and the outside of any shipping container used in the export of the electronic product are labeled or tagged to

show that the electronic product is intended for export; and

(B) the electronic product meets all the applicable requirements of the country to which the electronic product is intended for export.

(4) AMENDMENT; REVOCATION.—The Secretary may by regulation amend or revoke any performance standard prescribed under this section.

(5) EXEMPTION FOR ELECTRONIC PRODUCTS FOR USE BY FEDERAL AGENCIES.—The Secretary may exempt from the provisions of this section any electronic product intended for use by any Federal agency, provided that the Federal agency has prescribed procurement specifications governing emissions of electronic product radiation and provided further that the electronic product is of a type used solely or predominantly by Federal agencies.

(b) ADMINISTRATIVE PROCEDURE.—The provisions of subchapter II of chapter 5 of title 5 (relating to the administrative procedure for rulemaking), and of chapter 7 of title 5 (relating to judicial review), shall apply with respect to any regulation prescribing, amending, or revoking any standard prescribed under this section.

(c) PUBLICATION IN FEDERAL REGISTER.—Each regulation prescribing, amending, or revoking a standard

shall specify the date on which it shall take effect which, in the case of any regulation prescribing or amending any standard, may not be sooner than 1 year or not later than 2 years after the date on which the regulation is issued, unless the Secretary finds, for good cause shown, that an earlier or later effective date is in the public interest and publishes in the Federal Register the Secretary's reason for the finding, in which case the earlier or later date shall apply.

(d) JUDICIAL REVIEW.—

(1) FILING OF PETITION.—

(A) IN GENERAL.—In a case of actual controversy as to the validity of any regulation issued under this section prescribing, amending, or revoking a performance standard, any person that will be adversely affected by the regulation when it is effective may, at any time prior to the 60th day after the regulation is issued, file a petition with the United States court of appeals for the circuit in which the person resides or in which the person's principal place of business is located, for a judicial review of the regulation.

(B) TRANSMISSION TO SECRETARY.—A copy of the petition shall be immediately trans-

mitted by the clerk of the court to the Secretary or other officer designated by the Secretary for that purpose.

(C) FILING OF RECORD OF PROCEEDINGS.—On the transmission under subparagraph (B), the Secretary shall file in the court the record of the proceedings on which the Secretary based the regulation, as provided in section 2112 of title 28.

(2) ADDITIONAL EVIDENCE.—

(A) IN GENERAL.—If the petitioner applies to the court for leave to adduce additional evidence, and shows to the satisfaction of the court that the additional evidence is material and that there were reasonable grounds for the failure to adduce the evidence in the proceeding before the Secretary, the court may order the additional evidence (and evidence in rebuttal of the additional evidence) to be taken before the Secretary, and to be adduced on the hearing, in such manner and on such terms and conditions as to the court may seem proper.

(B) MODIFICATION OF FINDINGS OR MAKING OF NEW FINDINGS.—The Secretary may modify the Secretary's findings, or make new

findings, by reason of the additional evidence taken before the Secretary under subparagraph (A), and the Secretary shall file the modified or new findings, and the Secretary's recommendations, if any, for the modification or setting aside of the Secretary's original regulation, with the return of the additional evidence.

(3) JURISDICTION.—On the filing of the petition referred to in paragraph (1), the court shall have jurisdiction to review the regulation in accordance with chapter 7 of title 5 and to grant appropriate relief as provided in chapter 7 of title 5.

(4) FINALITY; REVIEW.—The judgment of the court affirming or setting aside, in whole or in part, any such regulation of the Secretary shall be final, subject to review by the Supreme Court of the United States on certiorari or certification as provided in section 1254 of title 28.

(5) EFFECT OF CHANGE IN THE OFFICE OF SECRETARY.—Any action instituted under this subsection shall survive, notwithstanding any change in the individual occupying the Office of the Secretary or any vacancy in the Office.

(6) REMEDIES NOT IN SUBSTITUTION FOR OTHER REMEDIES.—The remedies provided for in

this subsection shall be in addition to and not in substitution for any other remedies provided by law.

(e) AVAILABILITY OF RECORD.—

(1) IN GENERAL.—The Secretary shall furnish a certified copy of the transcript of the record and administrative proceedings under this section to any interested party at the request and payment of the interested party.

(2) ADMISSIBILITY.—The certified copy under paragraph (1) shall be admissible in any criminal, exclusion of imports, or other proceeding arising under or in respect of this chapter, regardless of whether proceedings with respect to the regulation have previously been initiated or become final under this section.

(f) TECHNICAL ELECTRONIC PRODUCT RADIATION SAFETY STANDARDS COMMITTEE.—

(1) DEFINITION OF COMMITTEE.—In this subsection, the term ''Committee'' means the Technical Electronic Product Radiation Safety Standards Committee established under paragraph (2).

(2) ESTABLISHMENT.—The Secretary shall establish a Technical Electronic Product Radiation Safety Standards Committee that the Secretary shall

consult before prescribing any standard under this section.

(3) APPOINTMENT AND COMPOSITION.—The Committee shall be appointed by the Secretary, after consultation with public and private agencies concerned with the technical aspect of electronic product radiation safety, and shall be composed of 15 members, each of whom shall be technically qualified by training and experience in 1 or more fields of science or engineering applicable to electronic product radiation safety, as follows:

(A) Five members shall be selected from governmental agencies, including State and Federal Governments.

(B) Five members shall be selected from the affected industries after consultation with industry representatives.

(C) Five members shall be selected from the general public, of which at least 1 shall be a representative of organized labor.

(4) AUTHORITY TO PROPOSE STANDARDS.—The Committee may propose electronic product radiation safety standards to the Secretary for the Secretary's consideration.

(5) RECORDS OF PROCEEDINGS.—All proceedings of the Committee shall be recorded and the record of each of those proceedings shall be available for public inspection.

(6) PAYMENTS NOT TO RENDER COMMITTEE MEMBERS FEDERAL EMPLOYEES.—Payments to members of the Committee who are not officers or employees of the United States pursuant to section 208(c) of the Public Health Service Act (42 U.S.C. 210(c)) shall not render members of the Committee officers or employees of the United States for any purpose.

(g) REVIEW AND EVALUATION.—The Secretary shall review and evaluate on a continuing basis testing programs carried out by industry to ensure the adequacy of safeguards against hazardous electronic product radiation and to ensure that electronic products comply with standards prescribed under this section.

(h) ELECTRONIC PRODUCT CERTIFICATION.—

(1) IN GENERAL.—Each manufacturer of an electronic product to which is applicable a standard in effect under this section shall furnish to the distributor or dealer at the time of delivery of the electronic product, in the form of a label or tag permanently affixed to the electronic product or in such

manner as approved by the Secretary, the certification that the electronic product conforms to all applicable standards under this section.

(2) TEST.—The certification under paragraph (1) shall be based on a test, in accordance with the standard in effect described in paragraph (1), of the individual article to which the certification is attached or on a testing program that is in accord with good manufacturing practice and that has not been disapproved by the Secretary (in such manner as the Secretary shall prescribe by regulation) on the grounds that the testing program does not ensure the adequacy of safeguards against hazardous electronic product radiation or that the testing program does not ensure that electronic products comply with the standards prescribed under this section.

**§ 14105. Notification of defects in and repair or replacement of electronic products**

(a) NOTIFICATION.—

(1) IN GENERAL.—Each manufacturer of electronic products that discovers that an electronic product produced, assembled, or imported by the manufacturer has a defect that relates to the safety of use of the electronic product by reason of the emission of electronic product radiation, or that an

electronic product produced, assembled, or imported by the manufacturer on or after the effective date of an applicable standard prescribed pursuant to section 14104 of this title fails to comply with the standard, shall immediately notify the Secretary of the defect or failure to comply if the electronic product has left the place of manufacture and shall (except as authorized by paragraph (2)) with reasonable promptness furnish notification of the defect or failure to the persons (which persons are known to the manufacturer) specified in subsection (b).

(2) EXEMPTION.—

(A) APPLICATION.—If, in the opinion of the manufacturer described in paragraph (1), the defect or failure to comply does not create a significant risk of injury, including genetic injury, to any person, the manufacturer may, at the time of giving notice to the Secretary of the defect or failure to comply, apply to the Secretary for an exemption from the requirement of notice to the persons specified in subsection (b).

(B) OPPORTUNITY TO PRESENT VIEWS; BURDEN OF PROOF.—If the exemption application states reasonable grounds for the exemp-

tion, the Secretary shall afford the manufacturer an opportunity to present the manufacturer's views and evidence in support of the application, the burden of proof being on the manufacturer.

(C) GRANTING OF EXEMPTION.—If, after the presentation afforded under subparagraph (B), the Secretary is satisfied that the defect or failure to comply does not create a significant risk of injury, including genetic injury, to any person, the Secretary shall exempt the manufacturer from the requirement of notice to the persons specified in subsection (b) and from the requirements of repair or replacement imposed by subsection (f).

(b) METHOD OF NOTIFICATION.—The notification (other than to the Secretary) required by subsection (a)(1) shall be accomplished—

(1) by certified mail to the first purchaser of the electronic product for purposes other than resale, and to any subsequent transferee of the electronic product; and

(2) by certified mail or other more expeditious means to the dealers or distributors of the manufacturer to whom the electronic product was delivered.

(c) REQUISITE ELEMENTS OF NOTIFICATION.—The notifications required by subsection (a)(1) shall contain a clear description of the defect or failure to comply with an applicable standard, an evaluation of the hazard reasonably related to the defect or failure to comply, and a statement of the measures to be taken to repair the defect. In the case of a notification to a person referred to in subsection (b), the notification shall also advise the person of the person's rights under subsection (f).

(d) COPIES TO SECRETARY OF COMMUNICATIONS BY MANUFACTURERS REGARDING DEFECTS.—

(1) IN GENERAL.—Each manufacturer of electronic products shall furnish to the Secretary a true or representative copy of all notices, bulletins, and other communications to the dealers or distributors of the manufacturer or to purchasers (or subsequent transferees) of electronic products of the manufacturer regarding the defect or failure to comply.

(2) DISCLOSURE TO PUBLIC.—The Secretary shall disclose to the public such information contained in the notice or other information obtained under section 14107 of this title as the Secretary considers will assist in carrying out the purposes of this chapter, but the Secretary shall not disclose any information that contains or relates to a trade secret

or other matter referred to in section 1905 of title 18 unless the Secretary determines that it is necessary to carry out the purposes of this chapter.

(e) NOTICE FROM SECRETARY TO MANUFACTURER OF DEFECTS OR FAILURE TO COMPLY WITH STANDARDS.—

(1) IN GENERAL.—The Secretary shall immediately notify the manufacturer of an electronic product of the defect or failure to comply described in subparagraph (A) or (B) if through testing, inspection, investigation, or research carried out pursuant to this chapter, examination of reports submitted pursuant to section 14107 of this title, or otherwise, the Secretary determines that the electronic product—

(A) does not comply with an applicable standard prescribed pursuant to section 14104 of this title; or

(B) contains a defect that relates to the safety of use of the electronic product by reason of the emission of electronic product radiation.

(2) FINDINGS.—The notice under paragraph (1) shall contain the findings of the Secretary and shall include all information on which the findings are based.

(3) OPPORTUNITY TO PRESENT VIEWS.—The Secretary shall afford the manufacturer an opportunity to present the manufacturer's views and evidence in support of the views, to establish that there is no failure of compliance or that the alleged defect does not exist or does not relate to safety of use of the electronic product by reason of the emission of the radiation hazard.

(4) DETERMINATION OF NONCOMPLIANCE OR DEFECT AFTER OPPORTUNITY TO PRESENT VIEWS.—If, after the presentation by the manufacturer as described in paragraph (3), the Secretary determines that the electronic product does not comply with an applicable standard prescribed pursuant to section 14104 of this title, or that it contains a defect that relates to the safety of use of the electronic product by reason of the emission of electronic product radiation, the Secretary shall direct the manufacturer to furnish the notification specified in subsection (c) to the persons specified in paragraphs (1) and (2) of subsection (b) (which persons are known to the manufacturer), unless the manufacturer has applied for an exemption from the requirement of the notification on the ground specified in subsection (a)(2) and the Secretary is satis-

fied that the noncompliance or defect does not create a significant risk of injury, including genetic injury, to any person.

(f) CORRECTION OF DEFECTS.—

(1) IN GENERAL.—If any electronic product is found under subsection (a) or (e) to fail to comply with an applicable standard prescribed under this chapter or to have a defect that relates to the safety of use of the electronic product, and the notification specified in subsection (c) is required to be furnished on account of the failure or defect, the manufacturer of the electronic product shall—

(A) without charge, bring the electronic product into conformity with the standard or remedy the defect and provide reimbursement for any expenses for transportation of the electronic product incurred in connection with having the electronic product brought into conformity or having the defect remedied;

(B) replace the electronic product with a like or equivalent electronic product—

(i) that complies with each applicable standard prescribed under this chapter; and

(ii) that has no defect relating to the safety of its use; or

(C) make a refund of the cost of the electronic product.

(2) EFFECT OF REGULATIONS.—The manufacturer shall take the action required by this subsection in such manner, and with respect to such persons, as the Secretary by regulations shall prescribe.

(g) EFFECTIVE DATE.—This section shall not apply to any electronic product that was manufactured before October 18, 1968.

**§ 14106. Imports**

(a) REFUSAL OF ADMISSION TO NONCOMPLYING ELECTRONIC PRODUCTS.—

(1) IN GENERAL.—Any electronic product offered for importation into the United States shall be refused admission into the United States if it is an electronic product—

(A) that fails to comply with an applicable standard prescribed under this chapter; or

(B) to which is not affixed a certification in the form of a label or tag in conformity with section 14104(h) of this title.

(2) REQUEST FOR SAMPLES BEING IMPORTED.—The Secretary of the Treasury shall deliver to the Secretary, on the latter's request, samples of electronic products that are being imported or offered for import into the United States, giving to the owner or consignee notice of the delivery, which owner or consignee may have a hearing before the Secretary.

(3) EFFECT OF NONCOMPLIANCE.—If it appears from an examination of the samples or otherwise that any electronic product fails to comply with applicable standards prescribed pursuant to section 14104 of this title, then, unless subsection (b) applies and is complied with—

(A) the electronic product shall be refused admission; and

(B) the Secretary of the Treasury shall cause the destruction of the electronic product unless the article is exported, under regulations prescribed by the Secretary of the Treasury, within 90 days after the date of notice of refusal of admission or within such additional time as may be permitted by the regulations.

(b) BOND.—

(1) AUTHORITY TO DEFER FINAL DETERMINATION AS TO ADMISSION.—If it appears to the Secretary that any electronic product refused admission pursuant to subsection (a) can be brought into compliance with applicable standards prescribed pursuant to section 14104 of this title, final determination as to admission of the electronic product may be deferred on filing of timely written application by the owner or consignee and the execution by the owner or consignee of a good and sufficient bond providing for the payment of the liquidated damages in the event of default as the Secretary may by regulation prescribe.

(2) PERMISSION.—If the application is filed and the bond is executed, the Secretary may, in accordance with rules prescribed by the Secretary, permit the applicant to perform the operations with respect to the electronic product as may be specified in the notice of permission.

(c) LIABILITY OF OWNER OR CONSIGNEE FOR EXPENSES CONNECTED WITH REFUSAL OF ADMISSION.—All expenses (including travel, per diem or subsistence, and salaries of officers or employees of the United States) in connection with the destruction provided for in subsection (a) and the supervision of operations provided for

in subsection (b), and all expenses in connection with the storage, cartage, or labor with respect to any electronic product refused admission pursuant to subsection (a), shall be paid by the owner or consignee, and, in the event of default, shall constitute a lien against any future importations made by the owner or consignee.

(d) DESIGNATION OF AGENT FOR PURPOSES OF SERVICE.—

(1) IN GENERAL.—Each manufacturer offering an electronic product for importation into the United States shall designate in writing an agent on whom service of all administrative and judicial processes, notices, orders, decisions, and requirements may be made for and on behalf of the manufacturer, and to file the designation with the Secretary.

(2) DESIGNATION CHANGE.—A designation under paragraph (1) may from time to time be changed in writing, filed with the Secretary.

(3) SERVICE.—

(A) IN GENERAL.—Service of all administrative and judicial processes, notices, orders, decisions, and requirements may be made on the manufacturer by service on the designated agent at the agent's office or usual place of res-

idence, the effect of which is as if service was made personally on the manufacturer.

(B) DESIGNATION NOT MADE.—If designation of an agent under this subsection is not made, service of process, notice, order, requirement, or decision in any proceeding before the Secretary or in any judicial proceeding for enforcement of this chapter or any standards prescribed pursuant to this chapter may be made by posting the process, notice, order, requirement, or decision in the Office of the Secretary or in a place designated by the Secretary by regulation.

**§ 14107. Inspection, records, and reports**

(a) INSPECTION OF PREMISES.—

(1) IN GENERAL.—If the Secretary finds for good cause that the methods, tests, or programs related to electronic product radiation safety in a particular factory, warehouse, or establishment in which electronic products are manufactured or held may not be adequate or reliable, officers or employees designated by the Secretary, on presenting appropriate credentials and a written notice to the owner, operator, or agent in charge, may—

(A) enter, at reasonable times, any area in the factory, warehouse, or establishment in which the manufacturer's tests (or testing programs) required by section 14104(h) of this title are carried out; and

(B) inspect, at reasonable times and within reasonable limits and in a reasonable manner, the facilities and procedures within the area that are related to electronic product radiation safety.

(2) PROMPTNESS OF INSPECTIONS.—Each inspection under paragraph (1) shall be commenced and completed with reasonable promptness.

(3) GOOD CAUSE.—In addition to other grounds on which good cause may be found for purposes of this subsection, good cause will be considered to exist in any case in which the manufacturer has introduced into commerce any electronic product that does not comply with an applicable standard prescribed under this chapter and with respect to which no exemption from the notification requirements has been granted by the Secretary under subsection (a)(2) or (e) of section 14105 of this title.

(b) RECORDKEEPING.—Each manufacturer of electronic products—

(1) shall establish and maintain such records (including testing records), make such reports, and provide such information, as the Secretary may reasonably require to enable the Secretary to determine whether the manufacturer has acted or is acting in compliance with this chapter and standards prescribed pursuant to this chapter; and

(2) shall, on request of an officer or employee designated by the Secretary, permit the officer or employee to inspect appropriate books, papers, records, and documents relevant to determining whether the manufacturer has acted or is acting in compliance with standards prescribed pursuant to this chapter.

(c) DISCLOSURE OF TECHNICAL DATA.—Each manufacturer of electronic products shall provide to the Secretary such performance data and other technical data related to safety as may be required to carry out this chapter. The Secretary may require the manufacturer to give such notification of the performance and technical data at the time of original purchase to the ultimate purchaser of the electronic product as the Secretary determines necessary to carry out the purposes of this chapter after consulting with the affected industry.

(d) PUBLIC NATURE OF REPORTS.—

(1) IN GENERAL.—Accident and investigation reports made under this chapter by any officer, employee, or agent of the Secretary shall be available for use in any civil, criminal, or other judicial proceeding arising out of the accident.

(2) TESTIMONY.—Any officer, employee, or agent under paragraph (1) may be required to testify in the proceedings as to the facts developed in the investigations.

(3) PUBLIC AVAILABILITY.—Any report under paragraph (1) shall be made available to the public in a manner that need not identify individuals. All reports on research projects, demonstration projects, and other related activities shall be public information.

(e) TRADE SECRETS.—

(1) IN GENERAL.—The Secretary or the Secretary's representative shall not disclose any information reported to or otherwise obtained by the Secretary or the representative, pursuant to subsection (a) or (b), that concerns any information that contains or relates to a trade secret or other matter referred to in section 1905 of title 18, except that the information may be disclosed—

(A) to other officers or employees of the Department and of other agencies concerned with carrying out this chapter; or

(B) when relevant in any proceeding under this chapter.

(2) EFFECT OF SECTION ON WITHHOLDING INFORMATION FROM CONGRESS.—Nothing in this section authorizes the withholding of information by the Secretary, or by any officers or employees under the Secretary's control, from the authorized committees of Congress.

(f) INFORMATION REQUIRED TO IDENTIFY AND LOCATE FIRST PURCHASERS OF ELECTRONIC PRODUCTS.—

(1) IN GENERAL.—The Secretary may by regulation—

(A) require dealers and distributors of electronic products, to which there are applicable standards prescribed under this chapter and the retail prices of which is not less than $50, to furnish manufacturers of the electronic products such information as may be necessary to identify and locate, for purposes of section 14105 of this title, the first purchasers of the electronic products for purposes other than resale; and

(B) require manufacturers to preserve the information.

(2) CONTENTS.—Any regulation establishing a requirement pursuant to paragraph (1)(A) shall—

(A) authorize the dealers and distributors to elect, in lieu of immediately furnishing the information to the manufacturer, to hold and preserve the information until advised by the manufacturer or Secretary that the information is needed by the manufacturer for purposes of section 14105 of this title; and

(B) provide that the dealer or distributor shall, on making the election, give prompt notice of the election (together with information identifying the notifier and the electronic product) to the manufacturer and shall, when advised by the manufacturer or Secretary, of the need for the required information for the purposes of section 14105 of this title, immediately furnish the manufacturer with the required information.

(3) DISCONTINUATION BY DEALER OR DISTRIBUTOR.—If a dealer or distributor discontinues the dealing in or distribution of electronic products, the dealer or distributor shall turn the information

over to the manufacturer. Any manufacturer receiving information pursuant to this subsection concerning first purchasers of electronic products for purposes other than resale shall treat the information as confidential and may use the information only if necessary for the purpose of notifying persons pursuant to section 14105(a) of this title.

**§ 14108. Prohibited acts**

(a) IN GENERAL.—It shall be unlawful—

(1) for any manufacturer to introduce, or to deliver for introduction, into commerce, or to import into the United States, any electronic product that does not comply with an applicable standard prescribed pursuant to section 14104 of this title;

(2) for any person—

(A) to fail to furnish any notification or other material or information required by section 14105 or 14107 of this title; or

(B) to fail to comply with the requirements of section 14105(f) of this title;

(3) for any person to fail or to refuse—

(A) to establish or maintain records required by this chapter;

(B) to permit access by the Secretary or any of the Secretary's authorized representatives—

(i) to the records; or

(ii) to the copying of the records; or

(C) to permit entry or inspection, as required by section 14107 of this title;

(4) for any person to fail or to refuse—

(A) to make any report required pursuant to section 14107(b) of this title; or

(B) to furnish or preserve any information required pursuant to section 14107(f) of this title; or

(5) for any person—

(A) to fail to issue a certification as required by section 14104(h) of this title; or

(B) to issue a certification required by section 14104(h) of this title—

(i) if the certification is not based on a test or testing program meeting the requirements of section 14104(h) of this title; or

(ii) if the issuer, in the exercise of due care, would have reason to know that the

certification is false or misleading in a material respect.

(b) EXEMPTION.—The Secretary may exempt any electronic product, or class of an electronic product, from all or part of subsection (a), on such conditions as the Secretary may find necessary—

(1) to protect the public health or welfare;

(2) for the purpose of research, investigations, studies, demonstrations, or training; or

(3) for reasons of national security.

**§ 14109. Enforcement**

(a) JURISDICTION OF COURTS.—The district courts of the United States shall have jurisdiction, for cause shown, to restrain violations of section 14108 of this title and to restrain dealers and distributors of electronic products from selling or otherwise disposing of electronic products that do not conform to an applicable standard prescribed pursuant to section 14104 of this title except when the electronic products are disposed of by returning them to the distributor or manufacturer from whom they were obtained. The district courts of the United States shall also have jurisdiction in accordance with section 1355 of title 28 to enforce the provisions of subsection (b).

(b) CIVIL PENALTIES.—

(1) MAXIMUM AMOUNT.—

(A) IN GENERAL.—Any person that violates section 14108 of this title shall be subject to a civil penalty of not more than $1,000.

(B) SEPARATE VIOLATIONS.—For purposes of this subsection, any violation described in subparagraph (A) shall, with respect to each electronic product involved or with respect to each act or omission made unlawful by section 14108 of this title, constitute a separate violation, except that the maximum civil penalty imposed on any person under this subsection for any related series of violations shall not exceed $300,000.

(2) REMISSION OR MITIGATION.—Any civil penalty under paragraph (1) may on application be remitted or mitigated by the Secretary.

(3) FACTORS TO CONSIDER.—In determining the amount of the civil penalty, or whether the civil penalty should be remitted or mitigated and in what amount, the appropriateness of the civil penalty to the size of the business of the person charged and the gravity of the violation shall be considered.

(4) OFFSETTING OF AMOUNT OWED.—The amount of the civil penalty, when finally determined,

may be deducted from any amounts owed by the United States to the person charged.

(c) VENUE; PROCESS.—Actions under subsections (a) and (b) may be brought in the district court of the United States for the district in which any act or omission or transaction constituting the violation occurred, or in the court for the district in which the defendant is found or transacts business, and process in those cases may be served in any other district of which the defendant is an inhabitant or wherever the defendant may be found.

(d) EFFECT OF CHAPTER.—Nothing in this chapter shall be construed as requiring the Secretary to report, for the institution of proceedings, minor violations of this chapter whenever the Secretary believes that the public interest will be adequately served by a suitable written notice or warning.

(e) COMPLIANCE WITH REGULATIONS.—Except as provided in section 14111(a) of this title, compliance with this chapter or any regulations issued under this chapter shall not relieve any person from liability at common law or under statutory law.

(f) ADDITIONAL REMEDIES.—The remedies provided for in this chapter shall be in addition to and not in substitution for any other remedies provided by law.

**§ 14110. Federal-State cooperation**

The Secretary—

(1) may accept from State and local authorities engaged in activities related to health or safety or consumer protection, on a reimbursable basis or otherwise, any assistance in the administration and enforcement of this chapter that the Secretary may request and that the State and local authorities may be able and willing to provide and, if so agreed, may pay in advance or otherwise for the reasonable cost of the assistance; and

(2) may, for the purpose of conducting examinations, investigations, and inspections, commission any officer or employee of any authority described in paragraph (1) as an officer of the Department.

**§ 14111. Preemption**

(a) IN GENERAL.—If a standard prescribed pursuant to section 14104 of this title with respect to an aspect of performance of an electronic product is in effect, a State or political subdivision of a State shall not have any authority to establish, or to continue in effect, any standard that is applicable to the same aspect of performance of the electronic product and that is not identical to the Federal standard.

(b) EFFECT OF CHAPTER.—Nothing in this chapter shall be construed to prevent the Federal Government or

the government of any State or political subdivision of any State from establishing a requirement with respect to emission of radiation from electronic products procured for its own use if the requirement imposes a more restrictive standard than that required to comply with the otherwise applicable Federal standard.

# Chapter 143—General Provisions Relating to Drugs and Devices

Sec.
14301. Expanded access to unapproved therapies and diagnostics.
14302. Expanded access policy required for investigational drugs.
14303. Investigational drugs for use by eligible patients.
14304. Dispute resolution.
14305. Classification of products.
14306. Authorization for medical products for use in emergencies.
14307. Emergency use of medical products.
14308. Products held for emergency use.
14309. Countermeasure development, review, and technical assistance.
14310. Priority review to encourage treatments for agents that present national security threats.
14311. Medical countermeasure master files.
14312. Critical Path Public-Private Partnerships.
14313. Emerging technology program.
14314. Risk communication.
14315. Notification.
14316. Consultation with external experts on rare diseases, targeted therapies, and genetic targeting of treatments.
14317. Optimizing global clinical trials.
14318. Use of clinical investigation data from outside the United States.
14319. Patient participation in medical product discussion.
14320. Notification, nondistribution, and recall of controlled substances.

## § 14301. Expanded access to unapproved therapies and diagnostics

(a) DEFINITIONS.—In this section:

(1) INVESTIGATIONAL DEVICE.—The term ''investigational device'' has the meaning given the term in regulations prescribed by the Secretary.

(2) INVESTIGATIONAL DRUG.—The term ''investigational drug'' has the meaning given the term in regulations prescribed by the Secretary.

(3) TREATMENT INVESTIGATIONAL DEVICE EXEMPTION.—The term ''treatment investigational device exemption'' has the meaning given the term in regulations prescribed by the Secretary.

(4) TREATMENT INVESTIGATIONAL NEW DRUG APPLICATION.—The term ''treatment investigational new drug application'' has the meaning given the term in regulations prescribed by the Secretary.

(b) EMERGENCY SITUATIONS.—The Secretary may, under appropriate conditions determined by the Secretary, authorize the shipment of investigational drugs or investigational devices for the diagnosis, monitoring, or treatment of a serious disease or condition in emergency situations.

(c) INDIVIDUAL PATIENT ACCESS TO INVESTIGATIONAL PRODUCTS INTENDED FOR SERIOUS DISEASES.—Any individual, acting through a physician licensed in accordance with State law, may request from a manufacturer or distributor, and any manufacturer or distributor may, after complying with the provisions of this subsection, provide to the physician an investigational drug

or investigational device for the diagnosis, monitoring, or treatment of a serious disease or condition if—

(1) the licensed physician determines that the individual has no comparable or satisfactory alternative therapy available to diagnose, monitor, or treat the disease or condition involved, and that the probable risk to the individual from the investigational drug or investigational device is not greater than the probable risk from the disease or condition;

(2) the Secretary determines that there is sufficient evidence of safety and effectiveness to support the use of the investigational drug or investigational device in the case described in paragraph (1);

(3) the Secretary determines that provision of the investigational drug or investigational device will not interfere with the initiation, conduct, or completion of clinical investigations to support marketing approval; and

(4) the sponsor, or clinical investigator, of the investigational drug or investigational device submits to the Secretary a clinical protocol consistent with section 13510 or 13152(g) of this title, including any regulations promulgated under section 13510 or 13152(g) of this title, describing the use of the in-

vestigational drug or investigational device in a single patient or a small group of patients.

(d) TREATMENT INVESTIGATIONAL NEW DRUG APPLICATIONS AND TREATMENT INVESTIGATIONAL DEVICE EXEMPTIONS.—

(1) IN GENERAL.—On submission by a sponsor or a physician of a protocol intended to provide widespread access to an investigational drug or investigational device for eligible patients (referred to in this subsection as an ''expanded access protocol''), the Secretary shall permit the investigational drug or investigational device to be made available for expanded access under a treatment investigational new drug application or treatment investigational device exemption if the Secretary determines that—

(A) under the treatment investigational new drug application or treatment investigational device exemption, the investigational drug or investigational device is intended for use in the diagnosis, monitoring, or treatment of a serious or immediately life-threatening disease or condition;

(B) there is no comparable or satisfactory alternative therapy available to diagnose, monitor, or treat that stage of disease or condition

in the population of patients to which the investigational drug or investigational device is intended to be administered;

(C)(i) the investigational drug or investigational device is under investigation in a controlled clinical trial for the use described in subparagraph (A) under an investigational drug application in effect under section 13510 of this title or investigational device exemption in effect under section 13152(g) of this title; or

(ii) all clinical trials necessary for approval of that use of the investigational drug or investigational device have been completed;

(D) the sponsor of the controlled clinical trials is actively pursuing marketing approval of the investigational drug or investigational device for the use described in subparagraph (A) with due diligence;

(E) in the case of an investigational drug or investigational device described in subparagraph (C)(i), the provision of the investigational drug or investigational device will not interfere with the enrollment of patients in ongoing clinical investigations under section 13510 or 13152(g) of this title;

(F) in the case of serious diseases, there is sufficient evidence of safety and effectiveness to support the use described in subparagraph (A); and

(G) in the case of immediately life-threatening diseases, the available scientific evidence, taken as a whole, provides a reasonable basis to conclude that the investigational drug or investigational device may be effective for its intended use and would not expose patients to an unreasonable and significant risk of illness or injury.

(2) APPLICABILITY OF CERTAIN PROVISIONS.—An expanded access protocol submitted under this subsection shall be subject to section 13510 or 13152(g) of this title, including regulations promulgated under section 13510 or 13152(g) of this title.

(3) AUTHORITY TO INFORM PUBLIC OF AVAILABILITY.—

(A) IN GENERAL.—The Secretary may inform national, State, and local medical associations and societies, voluntary health associations, and other appropriate persons about the availability of an investigational drug or inves-

tigational device under expanded access protocols submitted under this subsection.

(B) CONTENT OF INFORMATION.—The information provided by the Secretary, in accordance with subparagraph (A), shall be the same type of information that is required by section 402(i)(3) of the Public Health Service Act (42 U.S.C. 282(i)(3)).

(e) TERMINATION.—The Secretary may, at any time, with respect to a sponsor, physician, manufacturer, or distributor described in this section, terminate expanded access provided under this section for an investigational drug or investigational device if the requirements under this section are no longer met.

**§ 14302. Expanded access policy required for investigational drugs**

(a) IN GENERAL.—The manufacturer or distributor of 1 or more investigational drugs for the diagnosis, monitoring, or treatment of 1 or more serious diseases or conditions shall make available the policy of the manufacturer or distributor on evaluating and responding to requests submitted under section 14301(c) of this title for provision of such a drug.

(b) PUBLIC AVAILABILITY OF EXPANDED ACCESS POLICY.—The policies under subsection (a) shall be made

public and readily available, such as by posting the policies on a publicly available internet website.

(c) GENERAL APPLICABILITY.—The policies under subsection (a) may be generally applicable to all investigational drugs of the manufacturer or distributor.

(d) CONTENT OF POLICY.—A policy described in subsection (a) shall include—

(1) contact information for the manufacturer or distributor to facilitate communication about requests described in subsection (a);

(2) procedures for making the requests;

(3) the general criteria the manufacturer or distributor will use—

(A) to evaluate the requests for individual patients; and

(B) for responses to the requests;

(4) the length of time the manufacturer or distributor anticipates will be necessary to acknowledge receipt of the requests; and

(5) a hyperlink or other reference to the clinical trial record containing information about the expanded access for the drug that is required under section 402(j)(2)(A)(ii)(II)(gg) of the Public Health Service Act (42 U.S.C. 282(j)(2)(A)(ii)(II)(gg)).

(e) NO GUARANTEE OF ACCESS.—The posting of policies by manufacturers and distributors under subsection (a) shall not serve as a guarantee of access to any specific investigational drug by any individual patient.

(f) REVISED POLICY.—Nothing in this section prevents a manufacturer or distributor from revising a policy required under this section at any time.

(g) APPLICATION.—This section shall apply to a manufacturer or distributor with respect to an investigational drug beginning on the earlier of—

(1) the first initiation of a phase 2 or phase 3 study (as the terms are defined in subsections (b) and (c) of section 312.21 of title 21, Code of Federal Regulations (or any successor regulations)) with respect to the investigational drug; or

(2) as applicable, 15 days after the drug receives a designation as a breakthrough therapy, fast track product, or regenerative advanced therapy under subsection (b), (c), or (h), respectively, of section 13119 of this title.

**§ 14303. Investigational drugs for use by eligible patients**

(a) DEFINITIONS.—In this section:

(1) ELIGIBLE INVESTIGATIONAL DRUG.—The term ''eligible investigational drug'' means an inves-

tigational drug (as the term is used in section 14301 of this title)—

(A) for which a Phase 1 clinical trial has been completed;

(B) that has not been approved or licensed for any use under chapter 135 of this title or section 351 of the Public Health Service Act (42 U.S.C. 262);

(C)(i) for which an application has been filed under section 13503 of this title or section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)); or

(ii) that is under investigation in a clinical trial that—

(I) is intended to form the primary basis of a claim of effectiveness in support of approval or licensure under chapter 135 of this title or section 351 of the Public Health Service Act (42 U.S.C. 262); and

(II) is the subject of an active investigational new drug application under section 13510 of this title or section 351(a)(3) of the Public Health Service Act (42 U.S.C. 262(a)(3)), as applicable; and

(D) the active development or production of which is ongoing and has not been discontinued by the manufacturer or placed on clinical hold under section 13510 of this title.

(2) ELIGIBLE PATIENT.—The term ''eligible patient'' means a patient—

(A) who has been diagnosed with a life-threatening disease or condition (as defined in section 312.81 of title 21, Code of Federal Regulations (or any successor regulations));

(B) who has exhausted approved treatment options and is unable to participate in a clinical trial involving the eligible investigational drug, as certified by a physician, who—

(i) is in good standing with the physician's licensing organization or board; and

(ii) will not be compensated directly by the manufacturer for the certification; and

(C) who has provided to the treating physician written informed consent regarding the eligible investigational drug, or, as applicable, on whose behalf a legally authorized representative of the patient has provided the consent.

(3) PHASE 1 TRIAL.—The term ''phase 1 trial'' means a phase 1 clinical investigation of a drug as described in section 312.21 of title 21, Code of Federal Regulations (or any successor regulations).

(b) EXEMPTIONS.—

(1) IN GENERAL.—Eligible investigational drugs provided to eligible patients in compliance with this section are exempt from the provisions listed under paragraph (2) provided that the sponsor of the eligible investigational drug or any person that manufactures, distributes, prescribes, dispenses, introduces or delivers for introduction into interstate commerce, or provides to an eligible patient, an eligible investigational drug pursuant to this section is in compliance with the applicable requirements set forth in sections 312.6, 312.7, and 312.8(d)(1) of title 21, Code of Federal Regulations (or any successor regulations) that apply to investigational drugs.

(2) PROVISIONS.—The provisions under this paragraph are—

(A) sections 13103(a)(4), 13305, 13502, and 13510 of this title;

(B) section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)); and

(C) parts 50, 56, and 312 of title 21, Code of Federal Regulations (or any successor regulations).

(c) USE OF CLINICAL OUTCOMES.—

(1) IN GENERAL.—Notwithstanding any other provision of this subtitle, the Public Health Service Act (42 U.S.C. 201 et seq.), or any other provision of Federal law, the Secretary may not use a clinical outcome associated with the use of an eligible investigational drug pursuant to this section to delay or adversely affect the review or approval of the drug under chapter 135 of this title or section 351 of the Public Health Service Act (42 U.S.C. 262) unless—

(A) the Secretary makes a determination, in accordance with paragraph (2), that use of the clinical outcome is critical to determining the safety of the eligible investigational drug; or

(B) the sponsor requests use of the outcomes.

(2) LIMITATION.—

(A) NOTICE.—If the Secretary makes a determination under paragraph (1)(A), the Secretary shall provide written notice of the determination to the sponsor, including a public health justification for the determination, and

the notice shall be made part of the administrative record.

(B) DELEGATION OF DETERMINATION.—The determination shall not be delegated below the director of the agency center that is charged with the premarket review of the eligible investigational drug.

(d) REPORTING.—

(1) IN GENERAL.—

(A) SUBMISSION OF ANNUAL SUMMARY.—The manufacturer or sponsor of an eligible investigational drug shall submit to the Secretary an annual summary of any use of the drug under this section.

(B) CONTENTS.—The summary shall include the number of doses supplied, the number of patients treated, the uses for which the drug was made available, and any known serious adverse events.

(C) REGULATION.—The Secretary—

(i) shall specify by regulation the deadline of submission of the annual summary; and

(ii) may amend section 312.33 of title 21, Code of Federal Regulations (or any

successor regulations) to require the submission of the annual summary in conjunction with the annual report for an applicable investigational new drug application for the drug.

(2) POSTING OF INFORMATION.—The Secretary shall post an annual summary report of the use of this section on the FDA website, including the number of drugs for which clinical outcomes associated with the use of an eligible investigational drug pursuant to this section was—

(A) used in accordance with subsection (c)(1)(A);

(B) used in accordance with subsection (c)(1)(B); and

(C) not used in the review of an application under chapter 135 of this title or section 351 of the Public Health Service Act (42 U.S.C. 262).

(e) NO LIABILITY.—

(1) ALLEGED ACTS OR OMISSIONS.—With respect to any alleged act or omission with respect to an eligible investigational drug provided to an eligible patient pursuant to this section and in compli-

ance with this section, no liability in a cause of action shall lie against—

(A) a sponsor or manufacturer; or

(B) a prescriber, dispenser, or other individual entity (other than a sponsor or manufacturer), unless the relevant conduct constitutes reckless or willful misconduct, gross negligence, or an intentional tort under any applicable State law.

(2) DETERMINATION NOT TO PROVIDE DRUG.—No liability shall lie against a sponsor, manufacturer, prescriber, dispenser, or other individual entity for its determination not to provide access to an eligible investigational drug under this section.

(3) LIMITATION.—Except as set forth in paragraphs (1) and (2), nothing in this section shall be construed to modify or otherwise affect the right of any person to bring a private action under any State or Federal product liability, tort, consumer protection, or warranty law.

**§ 14304. Dispute resolution**

(a) IN GENERAL.—If, regarding an obligation concerning drugs or devices under this subtitle or section 351 of the Public Health Service Act (42 U.S.C. 262), there is a scientific controversy between the Secretary and a per-

son that is a sponsor, applicant, or manufacturer and no specific provision of this subtitle involved, including a regulation promulgated under this subtitle, provides a right of review of the matter in controversy, the Secretary shall, by regulation, establish a procedure under which the sponsor, applicant, or manufacturer may request a review of the controversy, including a review by an appropriate scientific advisory panel described in section 13514 of this title or an advisory committee described in section 13142(g)(2)(B) of this title.

(b) TIMELINESS OF REVIEW.—Any review under subsection (a) shall take place in a timely manner.

**§ 14305. Classification of products**

(a) REQUEST.—

(1) IN GENERAL.—A person that submits an application or submission (including a petition, notification, and any other similar form of request) under this subtitle for a product, may submit a request to the Secretary—

(A) respecting the classification of the product as a drug, biological product, device, or a combination product subject to section 13104 of this title; or

(B) respecting the component of the FDA that will regulate the product.

(2) RECOMMENDATION.—In submitting the request, the person shall recommend a classification for the product, or a component to regulate the product, as appropriate.

(b) STATEMENT.—

(1) IN GENERAL.—Not later than 60 days after the receipt of the request described in subsection (a), the Secretary—

(A) shall determine—

(i) the classification of the product under subsection (a); or

(ii) the component of the FDA that will regulate the product; and

(B) shall provide to the person a written statement that identifies the classification or the component, and the reasons for the determination.

(2) MODIFICATION.—The Secretary may not modify the statement except with the written consent of the person, or for public health reasons based on scientific evidence.

(c) INACTION OF SECRETARY.—If the Secretary does not provide the statement within the 60-day period described in subsection (b), the recommendation made by the person under subsection (a) shall be considered to be a

final determination by the Secretary of the classification of the product, or the component of the FDA that will regulate the product, as applicable, and may not be modified by the Secretary except with the written consent of the person, or for public health reasons based on scientific evidence.

**§ 14306. Authorization for medical products for use in emergencies**

(a) DEFINITIONS.—In this section:

(1) BIOLOGICAL PRODUCT.—The term ''biological product'' has the meaning given the term in section 351 of the Public Health Service Act (42 U.S.C. 262).

(2) EMERGENCY USE.—The term ''emergency use'' means use in an actual or potential emergency.

(3) PRODUCT.—The term ''product'' means a drug, device, or biological product.

(4) UNAPPROVED PRODUCT.—The term ''unapproved product'' means a product that is not approved, licensed, or cleared for commercial distribution as described in subsection (b)(2)(A) or that is not conditionally approved as described in subsection (b)(2)(A).

(5) UNAPPROVED USE OF AN APPROVED PRODUCT.—The term ''unapproved use of an approved

product'' means a use that is not an approved, licensed, or cleared use of a product as described in subsection (b)(2)(B) or that is not a conditionally approved use of a product as described in subsection (b)(2)(B), which product is approved, licensed, or cleared as described in subsection (b)(2)(B) or conditionally approved as described in subsection (b)(2)(B).

(b) IN GENERAL.—

(1) EMERGENCY USES.—Notwithstanding any provision of this subtitle and section 351 of the Public Health Service Act (42 U.S.C. 262), and subject to the provisions of this section, the Secretary may authorize the introduction into interstate commerce, during the effective period of a declaration under subsection (c), of a drug, device, or biological product intended for emergency use.

(2) APPROVAL STATUS OF PRODUCT.—An authorization under paragraph (1) may authorize an emergency use of a product that—

(A) is not approved, licensed, or cleared for commercial distribution under chapter 135 or 137 of this title, section 13136(k) or 13142 of this title, or section 351 of the Public Health

Service Act (42 U.S.C. 262) or conditionally approved under section 14502 of this title; or

(B) is approved, licensed, or cleared under chapter 135 or 137 of this title, section 13136(k) or 13142 of this title, or section 351 of the Public Health Service Act (42 U.S.C. 262), or conditionally approved under section 14502 of this title, but which use is not under chapter 135 or 137 of this title, section 13136(k) or 13142 of this title, or section 351 of the Public Health Service Act (42 U.S.C. 262) an approved, licensed, or cleared use of the product or which use is not a conditionally approved use of the product under section 14502 of this title.

(3) RELATION TO OTHER USES.—An emergency use authorized under paragraph (1) for a product is in addition to any other use that is authorized for the product under a section of this subtitle or the Public Health Service Act (42 U.S.C. 201 et seq.) referred to in paragraph (2)(A).

(c) DECLARATION OF EMERGENCY OR THREAT JUSTIFYING EMERGENCY AUTHORIZED USE.—

(1) IN GENERAL.—The Secretary may make a declaration that the circumstances exist justifying

the authorization under this subsection for a product on the basis of—

(A) a determination by the Secretary of Homeland Security that there is a domestic emergency, or a significant potential for a domestic emergency, involving a heightened risk of attack with a biological, chemical, radiological, or nuclear agent or agents;

(B) a determination by the Secretary of Defense that there is a military emergency, or a significant potential for a military emergency, involving a heightened risk to United States military forces, including personnel operating under the authority of title 10 or the provisions classified to title 50, of attack with—

(i) a biological, chemical, radiological, or nuclear agent or agents; or

(ii) an agent or agents that may cause, or are otherwise associated with, an imminently life-threatening and specific risk to United States military forces;

(C) a determination by the Secretary that there is a public health emergency, or a significant potential for a public health emergency, that affects, or has a significant potential to af-

fect, national security or the health and security of United States citizens living abroad, and that involves a biological, chemical, radiological, or nuclear agent or agents, or a disease or condition that may be attributable to the agent or agents; or

(D) the identification of a material threat pursuant to section 319F–2 of the Public Health Service Act (42 U.S.C. 247d–6b) sufficient to affect national security or the health and security of United States citizens living abroad.

(2) TERMINATION OF DECLARATION.—

(A) IN GENERAL.—A declaration under this subsection shall terminate on the earlier of—

(i) a determination by the Secretary, in consultation as appropriate with the Secretary of Homeland Security or the Secretary of Defense, that the circumstances described in paragraph (1) have ceased to exist; or

(ii) a change in the approval status of the product such that the circumstances

described in subsection (b)(2) have ceased to exist.

(B) DISPOSITION OF PRODUCT.—If an authorization under this section with respect to an unapproved product ceases to be effective as a result of a termination under subparagraph (A), the Secretary shall consult with the manufacturer of the product with respect to the appropriate disposition of the product.

(3) ADVANCE NOTICE OF TERMINATION.—The Secretary shall provide advance notice that a declaration under this subsection will be terminated. The period of advance notice shall be a period reasonably determined to provide—

(A) in the case of an unapproved product, a sufficient period for disposition of the product, including the return of the product (except such quantities of product as are necessary to provide for continued use consistent with subsection (g)(2)) to the manufacturer (in the case of a manufacturer that chooses to have the product returned); and

(B) in the case of an unapproved use of an approved product, a sufficient period for the disposition of any labeling, or any information

under subsection (f)(2)(B)(ii), as the case may be, that was provided with respect to the emergency use involved.

(4) PUBLICATION.—The Secretary shall promptly publish in the Federal Register each declaration, determination, and advance notice of termination under this subsection.

(5) EXPLANATION BY SECRETARY.—If an authorization under this section with respect to an unapproved product or an unapproved use of an approved product has been in effect for more than 1 year, the Secretary shall provide in writing to the sponsor of the product an explanation of the scientific, regulatory, or other obstacles to approval, licensure, or clearance of the product or use, including specific actions to be taken by the Secretary and the sponsor to overcome the obstacles.

(6) MILITARY EMERGENCIES.—In the case of a determination described in paragraph (1)(B), the Secretary shall determine, within 45 calendar days of the determination, whether to make a declaration under paragraph (1), and, if appropriate, shall promptly make such a declaration.

(d) CRITERIA FOR ISSUANCE OF AUTHORIZATION.—The Secretary may issue an authorization under this sec-

tion with respect to the emergency use of a product only if, after consultation with the Assistant Secretary for Preparedness and Response, the Director of the National Institutes of Health, and the Director of the Centers for Disease Control and Prevention (to the extent feasible and appropriate given the applicable circumstances described in subsection (c)(1)), the Secretary concludes—

(1) that an agent referred to in a declaration under subsection (c) can cause a serious or life-threatening disease or condition;

(2) that, based on the totality of scientific evidence available to the Secretary, including data from adequate and well-controlled clinical trials, if available, it is reasonable to believe that—

(A) the product may be effective in diagnosing, treating, or preventing—

(i) the disease or condition; or

(ii) a serious or life-threatening disease or condition caused by a product authorized under this section, approved or cleared under this subtitle, or licensed under section 351 of the Public Health Service Act (42 U.S.C. 262), for diagnosing, treating, or preventing such a dis-

ease or condition caused by such an agent; and

(B) the known and potential benefits of the product, when used to diagnose, prevent, or treat the disease or condition, outweigh the known and potential risks of the product, taking into consideration the material threat posed by the agent or agents identified in a declaration under subsection (c)(1)(D), if applicable;

(3) that there is no adequate, approved, and available alternative to the product for diagnosing, preventing, or treating the disease or condition;

(4) in the case of a determination described in subsection (c)(1)(B)(ii), that the request for emergency use is made by the Secretary of Defense; and

(5) that such other criteria as the Secretary may by regulation prescribe are satisfied.

(e) SCOPE OF AUTHORIZATION.—An authorization of a product under this section shall state—

(1) each disease or condition that the product may be used to diagnose, prevent, or treat within the scope of the authorization;

(2) the Secretary's conclusions, made under subsection (d)(2)(B), that the known and potential benefits of the product, when used to diagnose, pre-

vent, or treat the disease or condition, outweigh the known and potential risks of the product; and

(3) the Secretary's conclusions, made under subsection (d), concerning the safety and potential effectiveness of the product in diagnosing, preventing, or treating the diseases or conditions, including, to the extent practicable given the circumstances of the emergency, an assessment of the available scientific evidence.

(f) CONDITIONS OF AUTHORIZATION.—

(1) UNAPPROVED PRODUCT.—

(A) REQUIRED CONDITIONS.—With respect to the emergency use of an unapproved product, the Secretary, to the extent practicable given the applicable circumstances described in subsection (c)(1), shall, for a person that carries out any activity for which the authorization is issued, establish such conditions on an authorization under this section as the Secretary finds necessary or appropriate to protect the public health, including the following:

(i) CONDITIONS TO ENSURE INFORMED HEALTH CARE PROFESSIONALS.—Appropriate conditions designed to ensure

that health care professionals administering the product are informed—

(I) that the Secretary has authorized the emergency use of the product;

(II) of the significant known and potential benefits and risks of the emergency use of the product, and of the extent to which the benefits and risks are unknown; and

(III) of the alternatives to the product that are available, and of their benefits and risks.

(ii) CONDITIONS TO ENSURE INFORMED INDIVIDUALS.—Appropriate conditions designed to ensure that individuals to whom the product is administered are informed—

(I) that the Secretary has authorized the emergency use of the product;

(II) of the significant known and potential benefits and risks of the emergency use of the product, and of

the extent to which the benefits and risks are unknown; and

(III) of the option to accept or refuse administration of the product, of the consequences, if any, of refusing administration of the product, and of the alternatives to the product that are available and of their benefits and risks.

(iii) CONDITIONS FOR MONITORING AND REPORTING OF ADVERSE EVENTS.—Appropriate conditions for the monitoring and reporting of adverse events associated with the emergency use of the product.

(iv) CONDITIONS RELATING TO RECORDKEEPING AND REPORTING BY MANUFACTURERS.—For manufacturers of the product, appropriate conditions concerning recordkeeping and reporting, including records access by the Secretary, with respect to the emergency use of the product.

(B) AUTHORITY FOR ADDITIONAL CONDITIONS.—With respect to the emergency use of an unapproved product, the Secretary may, for a person that carries out any activity for which

the authorization is issued, establish such conditions on an authorization under this section as the Secretary finds necessary or appropriate to protect the public health, including the following:

(i) CONDITIONS RELATING TO DISTRIBUTION.—Appropriate conditions on which entities may distribute the product with respect to the emergency use of the product (including limitation to distribution by government entities), and on how distribution is to be performed.

(ii) CONDITIONS RELATING TO ADMINISTRATION.—Appropriate conditions on who may administer the product with respect to the emergency use of the product, and on the categories of individuals to whom, and the circumstances under which, the product may be administered with respect to the emergency use.

(iii) CONDITIONS RELATING TO COLLECTION AND ANALYSIS OF SAFETY AND EFFECTIVENESS INFORMATION.—Appropriate conditions with respect to collection and analysis of information concerning the

safety and effectiveness of the product with respect to the use of the product during the period when the authorization is in effect and a reasonable time following the period.

(iv) CONDITIONS RELATING TO RECORDKEEPING AND REPORTING BY PERSONS OTHER THAN MANUFACTURERS.—For persons other than manufacturers of the product, appropriate conditions concerning recordkeeping and reporting, including records access by the Secretary, with respect to the emergency use of the product.

(2) UNAPPROVED USE.—With respect to the emergency use of a product that is an unapproved use of an approved product:

(A) CONDITIONS DESCRIBED IN PARAGRAPH (1)(A).—For a person that carries out any activity for which the authorization is issued, the Secretary shall, to the extent practicable given the applicable circumstances described in subsection (c)(1), establish conditions described in clauses (i) and (ii) of paragraph (1)(A), and may establish conditions described

in clauses (iii) and (iv) of paragraph (1)(A) or in paragraph (1)(B).

(B) CONDITIONS RELATING TO LABELING.—

(i) ALTERING OR OBSCURING BY DISTRIBUTORS.—If the authorization under this section regarding the emergency use authorizes a change in the labeling of the product, but the manufacturer of the product chooses not to make the change, the authorization may not authorize distributors of the product or any other person to alter or obscure the labeling provided by the manufacturer, except as provided in section 14307 of this title with respect to authorized changes to the product expiration date.

(ii) INFORMATION IN ADDITION TO LABELING.—In the circumstances described in clause (i), for a person that does not manufacture the product and that chooses to act under this clause, an authorization under this section regarding the emergency use shall, to the extent practicable given the circumstances of the

emergency, authorize the person to provide appropriate information with respect to the product in addition to the labeling provided by the manufacturer, subject to compliance with clause (i). While the authorization under this section is effective, the additional information shall not be considered labeling for purposes of chapter 133 of this title.

(C) RESTRICTION ON DISTRIBUTION OR ADMINISTRATION.—In establishing conditions under this paragraph with respect to the distribution and administration of the product for the unapproved use, the Secretary shall not impose conditions that would restrict distribution or administration of the product when distributed or administered for the approved use.

(3) WAIVER OR LIMITATION OF GOOD MANUFACTURING PRACTICE.—With respect to the emergency use of a product for which an authorization under this section is issued (whether an unapproved product or an unapproved use of an approved product), the Secretary may waive or limit, to the extent appropriate given the applicable circumstances described in subsection (c)(1)—

(A) requirements regarding current good manufacturing practice otherwise applicable to the manufacture, processing, packing, or holding of products subject to regulation under this subtitle, including the requirements established under section 13101 or 13152(f)(1) of this title, and including relevant conditions prescribed with respect to the product by an order under section 13152(f)(2) of this title;

(B) requirements established under section 13103(a), 13103(e), or 13110 of this title; and

(C) requirements established under section 13152(e) of this title.

(4) ADVERTISING.—The Secretary may establish conditions on advertisements and other promotional descriptive printed matter that relate to the emergency use of a product for which an authorization under this section is issued (whether an unapproved product or an unapproved use of an approved product), including, as appropriate—

(A) with respect to drugs and biological products, requirements applicable to prescription drugs pursuant to section 13311 of this title; or

(B) with respect to devices, requirements applicable to restricted devices pursuant to section 13315 of this title.

(g) DURATION OF AUTHORIZATION.—

(1) IN GENERAL.—Except as provided in paragraph (2), an authorization under this section shall be effective until the earlier of the termination of the declaration under subsection (c) or a revocation under subsection (h).

(2) CONTINUED USE AFTER END OF EFFECTIVE PERIOD.—Notwithstanding the termination of the declaration under subsection (c) or a revocation under subsection (h), an authorization shall continue to be effective to provide for continued use of an unapproved product with respect to a patient to whom, or an animal to which, it was administered during the period described by paragraph (1), to the extent found necessary by the patient's attending physician or by the veterinarian caring for the animal, as applicable.

(h) REVIEW AND REVOCATION OF AUTHORIZATION.—

(1) REVIEW.—The Secretary shall periodically review the circumstances and the appropriateness of an authorization under this section. As part of the

review, the Secretary shall regularly review the progress made with respect to the approval, licensure, or clearance of, or the conditional approval under section 14502 of this title of—

(A) an unapproved product for which an authorization was issued under this section; or

(B) an unapproved use of an approved product for which an authorization was issued under this section.

(2) REVISION AND REVOCATION.—The Secretary may revise or revoke an authorization under this section if—

(A) the circumstances described under subsection (c)(1) no longer exist;

(B) the criteria under subsection (d) for issuance of the authorization are no longer met; or

(C) other circumstances make the revision or revocation appropriate to protect the public health or safety.

(i) PUBLICATION; CONFIDENTIAL INFORMATION.—

(1) PUBLICATION.—

(A) FEDERAL REGISTER.—The Secretary shall promptly publish on the FDA website and in the Federal Register a notice of each author-

ization, and each termination or revocation of an authorization, under this section, and an explanation of the reasons for the authorization, termination, or revocation (which may include a summary of data or information that has been submitted to the Secretary in an application, request, or submission under this section, section 13136(k), 13140(h)(2), 13142, 13503, 13510, 13511, 13703, 13711, 13715, 14502, or 14503 of this title, subsection (g) or (m) of section 13152 of this title, or subsection (a) or (k) of section 351 of the Public Health Service Act (42 U.S.C. 262(a), (k)), even if the summary may reveal the existence of the application, request, or submission or the data contained in the application, request, or submission).

(B) REVISIONS TO AUTHORIZATIONS TO BE AVAILABLE ONLINE.—The Secretary shall make any revisions to an authorization under this section available on the FDA website, which may include a summary of the data and information supporting the revisions.

(2) CONFIDENTIAL INFORMATION.—Nothing in this section alters or amends section 1905 of title 18 or section 552(b)(4) of title 5. Information made

publicly available by the Secretary in accordance with paragraph (1) shall be considered a disclosure authorized by law for purposes of section 1905 of title 18.

(j) ACTIONS COMMITTED TO AGENCY DISCRETION.—Actions under the authority of this section by the Secretary, by the Secretary of Defense, or by the Secretary of Homeland Security are committed to agency discretion.

(k) RULES OF CONSTRUCTION.—The following applies with respect to this section:

(1) Nothing in this section impairs the authority of the President as Commander in Chief of the Armed Forces of the United States under article II, section 2 of the United States Constitution.

(2) Nothing in this section impairs the authority of the Secretary of Defense with respect to the Department of Defense, including the armed forces, under other provisions of Federal law.

(3) Nothing in this section (including any exercise of authority by a manufacturer under subsection (f)(2)) impairs the authority of the United States to use or manage quantities of a product that are owned or controlled by the United States (including quantities in the stockpile maintained under section

319F–2 of the Public Health Service Act (42 U.S.C. 247d–6b)).

(4) Nothing in this section shall be construed as authorizing a delay in the review or other consideration by the Secretary of any application or submission pending before the FDA for a product for which an authorization under this section is issued.

(l) RELATION TO OTHER PROVISIONS.—If a product is the subject of an authorization under this section, the use of the product within the scope of the authorization shall not be considered to constitute a clinical investigation for purposes of section 13510, 13711, or 13152(g) of this title, or any other provision of this subtitle or section 351 of the Public Health Service Act (42 U.S.C. 262).

(m) OPTION TO CARRY OUT AUTHORIZED ACTIVITIES.—

(1) IN GENERAL.—Nothing in this section provides the Secretary any authority to require any person to carry out any activity that becomes lawful pursuant to an authorization under this section, and no person is required to inform the Secretary that the person will not be carrying out the activity, except that a manufacturer of a sole-source unapproved product authorized for emergency use shall report to the Secretary within a reasonable period of

time after the issuance by the Secretary of the authorization if the manufacturer does not intend to carry out any activity under the authorization.

(2) PERSONS ON WHICH SECTION HAS LEGAL EFFECT.—This section has legal effect only on a person that carries out an activity for which an authorization under this section is issued.

(3) EFFECT OF SUBSECTION.—This section does not modify or affect activities carried out pursuant to other provisions of this subtitle or section 351 of the Public Health Service Act (42 U.S.C. 262).

(4) AUTHORITY OF SECRETARY TO IMPOSE CONDITIONS.—Nothing in this subsection may be construed as restricting the Secretary from imposing conditions on persons that carry out any activity pursuant to an authorization under this section.

(n) CATEGORIZATION OF LABORATORY TESTS ASSOCIATED WITH DEVICES SUBJECT TO AUTHORIZATION.—

(1) IN GENERAL.—In issuing an authorization under this section with respect to a device, the Secretary may, subject to the provisions of this section, determine that a laboratory examination or procedure associated with the device shall be deemed, for purposes of section 353 of the Public Health Service

Act (42 U.S.C. 263a), to be in a particular category of examinations and procedures (including the category described by subsection (d)(3) of that section) if, based on the totality of scientific evidence available to the Secretary—

(A) the categorization would be beneficial to protecting the public health; and

(B) the known and potential benefits of the categorization under the circumstances of the authorization outweigh the known and potential risks of the categorization.

(2) CONDITIONS OF DETERMINATION.—The Secretary may establish appropriate conditions on the performance of the examination or procedure pursuant to the determination.

(3) EFFECTIVE PERIOD.—A determination under this subsection shall be effective for purposes of section 353 of the Public Health Service Act (42 U.S.C. 263a) notwithstanding any other provision of that section during the effective period of the relevant declaration under subsection (c).

**§ 14307. Emergency use of medical products**

(a) DEFINITIONS.—In this section:

(1) ELIGIBLE PRODUCT.—The term ''eligible product'' means a product that—

(A) is approved or cleared under this division, conditionally approved under section 14502 of this title, or licensed under section 351 of the Public Health Service Act (42 U.S.C. 262);

(B) is intended for use to prevent, diagnose, or treat—

(i) a disease or condition involving a biological, chemical, radiological, or nuclear agent or agents; or

(ii) a serious or life-threatening disease or condition caused by a product described in clause (i); and

(C) is intended for use during the circumstances under which—

(i) a determination described in subparagraph (A), (B), or (C) of section 14306(c)(1) of this title has been made by the Secretary of Homeland Security, the Secretary of Defense, or the Secretary, respectively; or

(ii) the identification of a material threat described in section 14306(c)(1)(D) of this title has been made pursuant to

section 319F–2 of the Public Health Service Act (42 U.S.C. 247d–6b).

(2) PRODUCT.—The term ''product'' means a drug, device, or biological product.

(b) EXPIRATION DATING.—

(1) DEFINITION OF EXPIRATION DATE.—In this subsection, the term ''expiration date'' means the date established through appropriate stability testing required by the regulations issued by the Secretary to ensure that the product meets applicable standards of identity, strength, quality, and purity at the time of use.

(2) IN GENERAL.—The Secretary may extend the expiration date and authorize the introduction or delivery for introduction into interstate commerce of an eligible product after the expiration date provided by the manufacturer if—

(A) the expiration date extension is intended to support the ability of the United States to protect—

(i) the public health; or

(ii) military preparedness and effectiveness; and

(B) the expiration date extension is supported by an appropriate scientific evaluation that is conducted or accepted by the Secretary.

(3) REQUIREMENTS AND CONDITIONS.—Any extension of an expiration date under paragraph (2) shall, as part of the extension, identify—

(A) each specific lot, batch, or other unit of the product for which extended expiration is authorized;

(B) the duration of the extension; and

(C) any other requirements or conditions as the Secretary may consider appropriate for the protection of the public health, which may include requirements for, or conditions on, product sampling, storage, packaging or repackaging, transport, labeling, notice to product recipients, recordkeeping, periodic testing or retesting, or product disposition.

(4) EFFECT.—Notwithstanding any other provision of this subtitle or the Public Health Service Act (42 U.S.C. 201 et seq.), an eligible product shall not be considered an unapproved product (as defined in section 14306(a)(4) of this title) and shall not be deemed adulterated or misbranded under this subtitle because, with respect to the product, the Sec-

retary has, under paragraph (2), extended the expiration date and authorized the introduction or delivery for introduction into interstate commerce of the product after the expiration date provided by the manufacturer.

(c) DEVIATIONS FROM CURRENT GOOD MANUFACTURING PRACTICE.—

(1) IN GENERAL.—The Secretary may authorize, if the circumstances of a domestic, military, or public health emergency or material threat described in subsection (a)(1)(C) warrant the authorization, with respect to an eligible product, deviations from current good manufacturing practice requirements otherwise applicable to the manufacture, processing, packing, or holding of products subject to regulation under this subtitle, including requirements under section 13101 or 13152(f)(1) of this title or applicable conditions prescribed with respect to the eligible product by an order under section 13152(f)(2) of this title.

(2) EFFECT.—Notwithstanding any other provision of this subtitle or the Public Health Service Act (42 U.S.C. 201 et seq.), an eligible product shall not be considered an unapproved product (as defined in section 14306(a)(4) of this title) and shall not be

deemed adulterated or misbranded under this subtitle because, with respect to the product, the Secretary has authorized deviations from current good manufacturing practices under paragraph (1).

(d) EMERGENCY DISPENSING.—The requirements of sections 13103(a), 13103(e), 13110, and 13152(e) of this title shall not apply to an eligible product, and the product shall not be considered an unapproved product (as defined in section 14306(a)(4) of this title) and shall not be deemed adulterated or misbranded under this subtitle because it is dispensed without an individual prescription, if—

(1) the product is dispensed during the circumstances described in subsection (a)(1)(C); and

(2) the dispensing without an individual prescription occurs—

(A) as permitted under the law of the State in which the product is dispensed; or

(B) in accordance with an order issued by the Secretary, for the purposes and duration of the circumstances described in subsection (a)(1)(C).

(e) EMERGENCY USE INSTRUCTIONS.—

(1) IN GENERAL.—The Secretary, acting through an appropriate official within the Depart-

ment, may create and issue emergency use instructions to inform health care providers or individuals to whom an eligible product is to be administered concerning the product's approved, licensed, or cleared conditions of use.

(2) EFFECT.—Notwithstanding any other provisions of this subtitle or the Public Health Service Act (42 U.S.C. 201 et seq.), a product shall not be considered an unapproved product and shall not be deemed adulterated or misbranded under this subtitle because of the issuance of emergency use instructions under paragraph (1) with respect to the product or the introduction or delivery for introduction of the product into interstate commerce accompanied by the instructions—

(A) during an emergency response to an actual emergency that is the basis for a determination described in subsection (a)(1)(C); or

(B) by a government entity (including a Federal, State, local, or tribal government entity), or a person acting on behalf of the government entity, in preparation for an emergency response.

**§ 14308. Products held for emergency use**

It is not a violation of any section of this subtitle or of the Public Health Service Act (42 U.S.C. 201 et seq.) for a government entity (including a Federal, State, local, or tribal government entity), or a person acting on behalf of such a government entity, to introduce into interstate commerce a product (as defined in section 14306(a) of this title) intended for emergency use, if that product—

(1) is intended to be held and not used; and

(2) is held and not used, unless and until that product—

(A) is approved, cleared, or licensed under chapter 135 or 137 of this title, section 13136(k) or 13142 of this title, or section 351 of the Public Health Service Act (42 U.S.C. 262) or conditionally approved under section 14502 of this title;

(B) is authorized for investigational use under chapter 135 or 137 of this title, section 13152 of this title, or section 351 of the Public Health Service Act (42 U.S.C. 262); or

(C) is authorized for use under section 14306 or 14307 of this title.

**§ 14309. Countermeasure development, review, and technical assistance**

(a) DEFINITIONS.—In this section:

(1) COUNTERMEASURE.—The term ''countermeasure'' means a qualified countermeasure, a security countermeasure, and a qualified pandemic or epidemic product.

(2) QUALIFIED COUNTERMEASURE.—The term ''qualified countermeasure'' has the meaning given the term in section 319F–1 of the Public Health Service Act (42 U.S.C. 247d–6a).

(3) QUALIFIED PANDEMIC OR EPIDEMIC PRODUCT.—The term ''qualified pandemic or epidemic product'' means a product that meets the definition given the term in section 319F–3 of the Public Health Service Act (42 U.S.C. 247d–6d) and—

(A) that has been identified by the Department or the Department of Defense as receiving funding directly related to addressing chemical, biological, radiological, or nuclear threats, including pandemic influenza; or

(B) that is included under this paragraph pursuant to a determination by the Secretary.

(4) SECURITY COUNTERMEASURE.—The term ''security countermeasure'' has the meaning given the term in section 319F–2 of the Public Health Service Act (42 U.S.C. 247d–6b).

(b) GENERAL DUTIES.—In order to accelerate the development, stockpiling, approval, licensure, and clearance of qualified countermeasures, security countermeasures, and qualified pandemic or epidemic products, the Secretary, in consultation with the Assistant Secretary for Preparedness and Response, shall—

(1) ensure the appropriate involvement of FDA personnel in interagency activities related to countermeasure advanced research and development, consistent with sections 319F, 319F–1, 319F–2, 319F–3, 319L, and 2811 of the Public Health Service Act (42 U.S.C. 247d–6, 247d–6a, 247d–6b, 247d–6d, 247d–7e, 300hh–10);

(2) ensure the appropriate involvement and consultation of FDA personnel in any flexible manufacturing activities carried out under section 319L of the Public Health Service Act (42 U.S.C. 247d–7e), including with respect to meeting regulatory requirements under this subtitle;

(3) promote countermeasure expertise within the FDA by—

(A) ensuring that FDA personnel involved in reviewing countermeasures for approval, licensure, or clearance are informed by the Assistant Secretary for Preparedness and Re-

sponse on the material threat assessment conducted under section 319F–2 of the Public Health Service Act (42 U.S.C. 247d–6b) for the agent or agents for which the countermeasure under review is intended;

(B) training FDA personnel regarding review of countermeasures for approval, licensure, or clearance;

(C) holding public meetings at least twice annually to encourage the exchange of scientific ideas; and

(D) establishing protocols to ensure that countermeasure reviewers have sufficient training or experience with countermeasures;

(4) maintain teams, composed of FDA personnel with expertise on countermeasures, including specific countermeasures, populations with special clinical needs (including populations of children and pregnant women that may use countermeasures, as applicable and appropriate), classes or groups of countermeasures, or other countermeasure-related technologies and capabilities, which teams shall—

(A) consult with countermeasure experts, including countermeasure sponsors and applicants, to identify and help resolve scientific

issues related to the approval, licensure, or clearance of countermeasures, through workshops or public meetings; and

(B) improve and advance the science relating to the development of new tools, standards, and approaches to assessing and evaluating countermeasures—

(i) in order to inform the process for countermeasure approval, clearance, and licensure; and

(ii) with respect to the development of countermeasures for populations with special clinical needs, including populations of children and pregnant women, in order to meet the needs of the populations, as necessary and appropriate; and

(5) establish within the FDA a team of experts on manufacturing and regulatory activities (including compliance with current Good Manufacturing Practice) to provide both off-site and on-site technical assistance to any manufacturer of qualified countermeasures, security countermeasures, or vaccines, at the request of the manufacturer and at the discretion of the Secretary, if the Secretary determines that a shortage or potential shortage may

occur in the United States in the supply of the vaccines or countermeasures and that the provision of the assistance would be beneficial in helping alleviate or avert the shortage.

(c) FINAL GUIDANCE ON DEVELOPMENT OF ANIMAL MODELS.—The Secretary shall provide final guidance to industry regarding the development of animal models to support approval, clearance, or licensure of countermeasures referred to in subsection (a) when human efficacy studies are not ethical or feasible.

(d) DEVELOPMENT AND ANIMAL MODELING PROCEDURES.—

(1) AVAILABILITY OF ANIMAL MODEL MEETINGS.—To facilitate the timely development of animal models and support the development, stockpiling, licensure, approval, and clearance of countermeasures, the Secretary shall establish a procedure by which a sponsor or applicant that is developing a countermeasure for which human efficacy studies are not ethical or practicable, and that has an approved investigational new drug application or investigational device exemption, may request and receive—

(A) a meeting to discuss proposed animal model development activities; and

(B) a meeting prior to initiating pivotal animal studies.

(2) PEDIATRIC MODELS.—To facilitate the development and selection of animal models that could translate to pediatric studies, any meeting conducted under paragraph (1) shall include discussion of animal models for pediatric populations, as appropriate.

(e) REVIEW AND APPROVAL OF COUNTERMEASURES.—

(1) MATERIAL THREAT.—When evaluating an application or submission for approval, licensure, or clearance of a countermeasure, the Secretary shall take into account the material threat posed by the chemical, biological, radiological, or nuclear agent or agents identified under section 319F–2 of the Public Health Service Act (42 U.S.C. 247d–6b) for which the countermeasure under review is intended.

(2) REVIEW EXPERTISE.—When practicable and appropriate, teams of FDA personnel reviewing applications or submissions described under paragraph (1) shall include a reviewer with sufficient training or experience with countermeasures pursuant to the protocols established under subsection (b)(3)(D).

(f) REGULATORY MANAGEMENT PLAN.—

(1) DEFINITION OF ELIGIBLE COUNTERMEASURE.—In this subsection, the term ''eligible countermeasure'' means—

(A) a security countermeasure with respect to which the Secretary has entered into a procurement contract under section 319F–2(c) of the Public Health Service Act (42 U.S.C. 247d–6b(c)); or

(B) a countermeasure with respect to which the Biomedical Advanced Research and Development Authority has provided funding under section 319L of the Public Health Service Act (42 U.S.C. 247d–7e) for advanced research and development.

(2) REGULATORY MANAGEMENT PLAN PROCESS.—The Secretary, in consultation with the Assistant Secretary for Preparedness and Response and the Director of the Biomedical Advanced Research and Development Authority, shall establish a formal process for obtaining scientific feedback and interactions regarding the development and regulatory review of eligible countermeasures by facilitating the development of written regulatory management plans in accordance with this subsection.

(3) PUBLICATION.—The Secretary shall make available on the FDA website information regarding regulatory management plans, including—

(A) the process by which an applicant may submit a request for a regulatory management plan;

(B) the timeframe by which the Secretary is required to respond to the request under subparagraph (A);

(C) the information required for the submission of the request under subparagraph (A);

(D) a description of the types of development milestones and performance targets that could be discussed and included in the regulatory management plans; and

(E) contact information for beginning the regulatory management plan process.

(4) SUBMISSION OF REQUEST AND PROPOSED PLAN BY SPONSOR OR APPLICANT.—

(A) IN GENERAL.—A sponsor or applicant of an eligible countermeasure may initiate the process described under paragraph (2) on submission of a written request to the Secretary. The request shall include a proposed regulatory management plan.

(B) TIMING OF SUBMISSION.—A sponsor or applicant may submit a written request under subparagraph (A) after the eligible countermeasure has an investigational new drug or investigational device exemption in effect.

(C) RESPONSE BY SECRETARY.—The Secretary shall direct the FDA, on submission of a written request by a sponsor or applicant under subparagraph (A), to work with the sponsor or applicant to agree on a regulatory management plan within a reasonable time not to exceed 90 days. If the Secretary determines that no plan can be agreed on, the Secretary shall provide to the sponsor or applicant, in writing, the scientific or regulatory rationale why an agreement cannot be reached.

(5) PLAN.—The content of a regulatory management plan agreed to by the Secretary and a sponsor or applicant shall include—

(A) an agreement between the Secretary and the sponsor or applicant regarding developmental milestones that will trigger responses by the Secretary as described in subparagraph (B);

(B) performance targets and goals for timely and appropriate responses by the Sec-

retary to the triggers described under subparagraph (A), including meetings between the Secretary and the sponsor or applicant, written feedback, decisions by the Secretary, and other activities carried out as part of the development and review process; and

(C) an agreement on how the plan shall be modified, if needed.

(6) MILESTONES AND PERFORMANCE TARGETS.—The developmental milestones described in paragraph (5)(A) and the performance targets and goals described in paragraph (5)(B) shall include—

(A) feedback from the Secretary regarding the data required to support the approval, clearance, or licensure of the eligible countermeasure involved;

(B) feedback from the Secretary regarding the data necessary to inform any authorization under section 14306 of this title;

(C) feedback from the Secretary regarding the data necessary to support the positioning and delivery of the eligible countermeasure, including to the Strategic National Stockpile;

(D) feedback from the Secretary regarding the data necessary to support the submission of

protocols for review under section 13503(e)(2)(B) of this title;

(E) feedback from the Secretary regarding any gaps in scientific knowledge that will need resolution prior to approval, licensure, or clearance of the eligible countermeasure and plans for conducting the necessary scientific research;

(F) identification of the population for which the countermeasure sponsor or applicant seeks approval, licensure, or clearance and the population for which desired labeling would not be appropriate, if known; and

(G) as necessary and appropriate, and to the extent practicable, a plan for demonstrating safety and effectiveness in pediatric populations, and for developing pediatric dosing, formulation, and administration with respect to the eligible countermeasure, provided that the plan would not delay authorization under section 14306 of this title, approval, licensure, or clearance for adults.

(7) PRIORITIZATION.—

(A) PLANS FOR SECURITY COUNTERMEASURES.—The Secretary shall establish regulatory management plans for all security coun-

termeasures for which a request is submitted under paragraph (4)(A).

(B) PLANS FOR OTHER ELIGIBLE COUNTERMEASURES.—The Secretary shall determine whether resources are available to establish regulatory management plans for eligible countermeasures that are not security countermeasures. If resources are available to establish regulatory management plans for eligible countermeasures that are not security countermeasures, and if resources are not available to establish regulatory management plans for all eligible countermeasures for which requests have been submitted, the Director of the Biomedical Advanced Research and Development Authority, in consultation with the Commissioner, shall prioritize which eligible countermeasures may receive regulatory management plans.

(g) ANNUAL REPORT.—The Secretary shall annually make publicly available on the FDA website a report that details the countermeasure development and review activities of the FDA, including—

(1) with respect to the development of new tools, standards, and approaches to assess and evaluate countermeasures—

(A) the identification of the priorities of the FDA and the progress made on those priorities; and

(B) the identification of scientific gaps that impede the development, approval, licensure, or clearance of countermeasures for populations with special clinical needs, including for populations of children and pregnant women, and the progress made on resolving these challenges;

(2) with respect to countermeasures for which a regulatory management plan has been agreed on under subsection (f), the extent to which the performance targets and goals set forth in subsection (f)(5)(B) and the regulatory management plan have been met, including, for each of those countermeasures—

(A) whether the regulatory management plan was completed within the required timeframe, and the length of time taken to complete the plan;

(B) whether the Secretary adhered to the timely and appropriate response times set forth in the plan; and

(C) explanations for any failure to meet the performance targets and goals;

(3) the number of regulatory teams established pursuant to subsection (b)(4), the number of products, classes of products, or technologies assigned to each of those regulatory teams, and the number of, type of, and any progress made as a result of consultations carried out under subsection (b)(4)(A);

(4) an estimate of resources obligated to countermeasure development and regulatory assessment, including—

(A) Center-specific objectives and accomplishments; and

(B) the number of full-time equivalent employees of the FDA who directly support the review of countermeasures;

(5) the number of countermeasure applications and submissions submitted, the number of countermeasures approved, licensed, or cleared, the status of remaining submitted applications and submissions, and the number of each type of authorization issued pursuant to section 14306 of this title;

(6) the number of written requests for a regulatory management plan submitted under subsection (f)(4)(A), the number of regulatory management plans developed, and the number of the plans developed for security countermeasures; and

(7) the number, type, and frequency of meetings between the FDA and—

(A) sponsors of a countermeasure; or

(B) another agency engaged in development or management of portfolios for the countermeasures, including the Centers for Disease Control and Prevention, the Biomedical Advanced Research and Development Authority, the National Institutes of Health, and the appropriate agencies of the Department of Defense.

(h) ACCELERATING COUNTERMEASURE DEVELOPMENT AND REVIEW DURING AN EMERGENCY.—

(1) ACCELERATION OF COUNTERMEASURE DEVELOPMENT AND REVIEW.—The Secretary may, at the request of the sponsor of a countermeasure, during a domestic, military, or public health emergency or material threat described in section 14307(a)(1)(C) of this title, expedite the development and review of countermeasures that are in-

tended to address the domestic, military, or public health emergency or material threat for approval, licensure, clearance, or authorization under this title or section 351 of the Public Health Service Act (42 U.S.C. 262).

(2) ACTIONS.—The actions to expedite the development and review of a countermeasure under paragraph (1) may include the following:

(A) Expedited review of submissions made by sponsors of countermeasures to the FDA, including rolling submissions of countermeasure applications and other submissions.

(B) Expedited and increased engagement with sponsors regarding countermeasure development and manufacturing, including—

(i) holding meetings with the sponsor and the review team and providing timely advice to, and interactive communication with, the sponsor regarding the development of the countermeasure to ensure that the development program to gather the nonclinical and clinical data necessary for approval, licensure, clearance, or authorization is as efficient as practicable;

(ii) involving senior managers and experienced review staff, as appropriate, in a collaborative, cross-disciplinary review;

(iii) assigning a cross-disciplinary project lead for the review team to facilitate;

(iv) taking steps to ensure that the design of the clinical trials is as efficient as practicable, when scientifically appropriate, such as by minimizing the number of patients exposed to a potentially less efficacious treatment; and

(v) streamlining the review of approved, licensed, cleared, or authorized countermeasures to treat or prevent new or emerging threats, including the review of any changes to the countermeasures.

(C) Expedited issuance of guidance documents and publication of other regulatory information regarding countermeasure development and manufacturing.

(D) Other steps to expedite the development and review of a countermeasure application submitted for approval, licensure, clear-

ance, or authorization, as the Secretary determines appropriate.

(3) LIMITATION OF EFFECT.—Nothing in this subsection shall be construed to require the Secretary to grant, or take any other action related to, a request of a sponsor to expedite the development and review of a countermeasure for approval, licensure, clearance, or authorization under paragraph (1).

(i) THIRD PARTY EVALUATION OF TESTS USED DURING AN EMERGENCY.—

(1) IN GENERAL.—For purposes of conducting evaluations regarding whether an in vitro diagnostic product (as defined in section 809.3 of title 21, Code of Federal Regulations, or any successor regulations) for which a request for emergency use authorization is submitted under section 14306 of this title meets the criteria for issuance of the authorization, the Secretary may, as appropriate, consult with persons with appropriate expertise with respect to the evaluations or enter into cooperative agreements or contracts with those persons under which those persons conduct the evaluations and make recommendations, including, as appropriate, evaluations and rec-

ommendations regarding the scope of authorization and conditions of authorization.

(2) REQUIREMENTS REGARDING EVALUATIONS AND RECOMMENDATIONS.—

(A) IN GENERAL.—In evaluating and making recommendations to the Secretary regarding the validity, accuracy, and reliability of in vitro diagnostic products, as described in paragraph (1), a person shall consider and document whether the relevant criteria under section 14306(d)(2) of this title for issuance of authorization under that section are met with respect to the in vitro diagnostic product.

(B) WRITTEN RECOMMENDATIONS.—Recommendations made by a person under this subsection shall be submitted to the Secretary in writing, and shall include the reasons for the recommendation and other information that may be requested by the Secretary.

(3) RULE OF CONSTRUCTION.—Nothing in this subsection shall be construed to require the Secretary to consult with, or enter into cooperative agreements or contracts with, persons as described in paragraph (1) for purposes of authorizing an in vitro diagnostic product or otherwise affecting the

emergency use authorization authorities under this section or section 14306 of this title.

**§ 14310. Priority review to encourage treatments for agents that present national security threats**

(a) DEFINITIONS.—In this section:

(1) HUMAN DRUG APPLICATION.—The term ''human drug application'' has the meaning given the term in section 17906(a) of this title.

(2) MATERIAL THREAT MEDICAL COUNTERMEASURE APPLICATION.—The term ''material threat medical countermeasure application'' means an application that—

(A) is a human drug application for a drug intended for use—

(i) to prevent or treat harm from a biological, chemical, radiological, or nuclear agent identified as a material threat under section 319F–2(c)(2)(A)(ii) of the Public Health Service Act (42 U.S.C. 247d–6b(c)(2)(A)(ii)); or

(ii) to mitigate, prevent, or treat harm from a condition that may result in adverse health consequences or death and

may be caused by administering a drug or biological product against the agent; and

(B) the Secretary determines is eligible for priority review;

(C) is approved after December 13, 2016; and

(D) is for—

(i) a human drug, no active moiety (as defined by the Secretary in section 314.3 of title 21, Code of Federal Regulations (or any successor regulations)) of which has been approved in any other application under section 13503(a) of this title; or

(ii) a biological product, no active ingredient of which has been approved in any other application under section 351 of the Public Health Service Act (42 U.S.C. 262).

(3) PRIORITY REVIEW.—The term ''priority review'', with respect to a human drug application, means review and action by the Secretary on the human drug application not later than 6 months after receipt by the Secretary of the human drug application, as described in the Manual of Policies and

Procedures in the FDA and goals identified in the letters described in section 101(b) of the Prescription Drug User Fee Amendments of 2012 (Public Law 112–144, title I, 126 Stat. 996).

(4) PRIORITY REVIEW VOUCHER.—The term ''priority review voucher'' means a voucher issued by the Secretary to the sponsor of a material threat medical countermeasure application that entitles the holder of the voucher to priority review of a single human drug application submitted under section 13503(a) of this title or section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)) after the date of approval of the material threat medical countermeasure application.

(b) PRIORITY REVIEW VOUCHER.—

(1) IN GENERAL.—The Secretary shall award a priority review voucher to the sponsor of a material threat medical countermeasure application on approval by the Secretary of the material threat medical countermeasure application.

(2) TRANSFERABILITY.—The sponsor of a material threat medical countermeasure application that receives a priority review voucher under this section may transfer (including by sale) the entitlement to the voucher to a sponsor of a human drug

for which an application under section 13503(a) of this title or section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)) will be submitted after the date of the approval of the material threat medical countermeasure application. There is no limit on the number of times a priority review voucher may be transferred before the voucher is used.

(3) NOTIFICATION.—

(A) IN GENERAL.—The sponsor of a human drug application shall notify the Secretary, not later than 90 calendar days prior to submission of the human drug application that is the subject of a priority review voucher, of an intent to submit the human drug application, including the date on which the sponsor intends to submit the application. The notification shall be a legally binding commitment to pay for the user fee to be assessed in accordance with this section.

(B) TRANSFER AFTER NOTICE.—The sponsor of a human drug application that provides notification of the intent of the sponsor to use the voucher for the human drug application under subparagraph (A) may transfer the voucher after the notification is provided, if the

sponsor has not yet submitted the human drug application described in the notification.

(c) PRIORITY REVIEW USER FEE.—

(1) IN GENERAL.—The Secretary shall establish a user fee program under which a sponsor of a human drug application that is the subject of a priority review voucher shall pay to the Secretary a fee determined under paragraph (2). The fee shall be in addition to any fee required to be submitted by the sponsor under division F.

(2) FEE AMOUNT.—The amount of the priority review user fee shall be determined each fiscal year by the Secretary and based on the average cost incurred by the agency in the review of a human drug application subject to priority review in the previous fiscal year.

(3) ANNUAL FEE SETTING.—The Secretary shall establish, before the beginning of each fiscal year, for that fiscal year, the amount of the priority review user fee.

(4) PAYMENT.—

(A) IN GENERAL.—The priority review user fee required by this subsection shall be due on the submission of a human drug application under section 13503(a) of this title or section

351(a) of the Public Health Service Act (42 U.S.C. 262(a)) for which the priority review voucher is used.

(B) INCOMPLETE APPLICATION.—An application described under subparagraph (A) for which the sponsor requests the use of a priority review voucher shall be considered incomplete if the fee required by this subsection and all other applicable user fees are not paid in accordance with the Secretary's procedures for paying the fees.

(C) NO WAIVERS, EXEMPTIONS, REDUCTIONS, OR REFUNDS.—The Secretary may not grant a waiver, exemption, reduction, or refund of any fees due and payable under this section.

(5) OFFSETTING COLLECTIONS.—Fees collected pursuant to this subsection for any fiscal year—

(A) shall be deposited and credited as offsetting collections to the account providing appropriations to the FDA; and

(B) shall not be collected for any fiscal year except to the extent provided in advance in appropriation Acts.

(d) NOTICE OF ISSUANCE OF VOUCHER AND APPROVAL OF PRODUCTS UNDER VOUCHER.—The Secretary

shall publish a notice in the Federal Register and on the FDA website not later than 30 calendar days after the occurrence of each of the following:

(1) The Secretary issues a priority review voucher under this section.

(2) The Secretary approves a drug pursuant to an application submitted under section 13503 of this title or section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)) for which the sponsor of the application used a priority review voucher issued under this section.

(e) ELIGIBILITY FOR OTHER PROGRAMS.—Nothing in this section precludes a sponsor who seeks a priority review voucher under this section from participating in any other incentive program, including under this subtitle, except that a sponsor of a material threat medical countermeasure application shall not receive more than 1 priority review voucher issued under any section of this subtitle with respect to the drug.

(f) RELATION TO OTHER PROVISIONS.—The provisions of this section shall supplement, not supplant, any other provisions of this subtitle or the Public Health Service Act (42 U.S.C. 201 et seq.) that encourage the development of medical countermeasures.

(g) SUNSET.—The Secretary may not award any priority review vouchers under subsection (b) after October 1, 2023.

**§ 14311. Medical countermeasure master files**

(a) DEFINITIONS.—In this section:

(1) MASTER FILE HOLDER.—The term ''master file holder'' means a person that submits data and information to the Secretary with the intent to reference or authorize another person to reference the data or information to support a medical countermeasure submission, as described in subsection (b).

(2) MEDICAL COUNTERMEASURE SUBMISSION.—The term ''medical countermeasure submission'' means an investigational new drug application under section 13510 of this title, a new drug application under section 13503 of this title, or an abbreviated new drug application under section 13511 of this title, a biological product license application under section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)) or a biosimilar biological product license application under section 351(k) of the Public Health Service Act (42 U.S.C. 262(k)), a new animal drug application under section 13703(a) of this title or abbreviated new animal drug application under section 13703(b) of this title, an applica-

tion for conditional approval of a new animal drug under section 14502 of this title, an investigational device application under section 13152(g) of this title, an application with respect to a device under section 13142(c) of this title, a request for classification of a device under section 13140(h)(2) of this title, a notification with respect to a device under section 13136(k) of this title, or a request for an emergency use authorization under section 14306 of this title to support—

(A) the approval, licensure, classification, clearance, conditional approval, or authorization of a security countermeasure, qualified countermeasure, or qualified pandemic or epidemic product; or

(B) a new indication to an approved security countermeasure, qualified countermeasure, or qualified pandemic or epidemic product.

(3) QUALIFIED COUNTERMEASURE.—The term ''qualified countermeasure'' has the meaning given the term in section 319F–1 of the Public Health Service Act (42 U.S.C. 247d–6a).

(4) QUALIFIED PANDEMIC OR EPIDEMIC PRODUCT.—The term ''qualified pandemic or epidemic product'' has the meaning given the term in section

319F–3 of the Public Health Service Act (42 U.S.C. 247d–6d).

(5) SECURITY COUNTERMEASURE.—The term ''security countermeasure'' has the meaning given the term in section 319F–2 of the Public Health Service Act (42 U.S.C. 247d–6b).

(b) APPLICABILITY OF REFERENCE.—

(1) IN GENERAL.—A person may submit data and information in a master file to the Secretary with the intent to reference, or to authorize, in writing, another person to reference, the data or information to support a medical countermeasure submission (including a supplement or amendment to any such submission), without requiring the master file holder to disclose the data and information to the person authorized to reference the master file. The data and information shall be available for reference by the master file holder or by a person authorized by the master file holder, in accordance with applicable privacy and confidentiality protocols and regulations.

(2) REFERENCE OF CERTAIN MASTER FILES.—In the case that data or information within a medical countermeasure master file is used only to support the conditional approval of an application filed

under section 14502 of this title, the master file may be relied on to support the effectiveness of a product that is the subject of a subsequent medical countermeasure submission only if the application is supplemented by additional data or information to support review and approval in a manner consistent with the standards applicable to the review and approval for the countermeasure, qualified countermeasure, or qualified pandemic or epidemic product.

(c) MEDICAL COUNTERMEASURE MASTER FILE CONTENT.—

(1) IN GENERAL.—A master file under this section may include data or information to support—

(A) the development of medical countermeasure submissions to support the approval, licensure, classification, clearance, conditional approval, or authorization of 1 or more security countermeasures, qualified countermeasures, or qualified pandemic or epidemic products; and

(B) the manufacture of security countermeasures, qualified countermeasures, or qualified pandemic or epidemic products.

(2) REQUIRED UPDATES.—The Secretary may require, as appropriate, that the master file holder ensure that the contents of the master file are up-

dated during the time the master file is referenced for a medical countermeasure submission.

(d) SPONSOR REFERENCE.—

(1) IN GENERAL.—Each incorporation of data or information within a medical countermeasure master file shall describe the incorporated material in a manner in which the Secretary determines appropriate and that permits the review of the information within the master file without necessitating resubmission of the data or information. Master files shall be submitted in an electronic format in accordance with sections 13703(d), 14502(b)(4), and 18102 of this title, as applicable, and as specified in applicable guidance.

(2) REFERENCE BY A MASTER FILE HOLDER.—A master file holder that is the sponsor of a medical countermeasure submission shall notify the Secretary in writing of the intent to reference the medical countermeasure master file as a part of the submission.

(3) REFERENCE BY AN AUTHORIZED PERSON.—A person submitting an application for review may, where the Secretary determines appropriate, incorporate by reference all or part of the contents of a medical countermeasure master file, if the mas-

ter file holder authorizes the incorporation in writing.

(e) ACKNOWLEDGMENT OF AND RELIANCE ON A MASTER FILE BY THE SECRETARY.—

(1) IN GENERAL.—The Secretary shall provide the master file holder with a written notification indicating that the Secretary has reviewed and relied on specified data or information within a master file and the purposes for which the data or information was incorporated by reference if the Secretary has reviewed and relied on the specified data or information to support the approval, classification, conditional approval, clearance, licensure, or authorization of a security countermeasure, qualified countermeasure, or qualified pandemic or epidemic product. The Secretary may rely on the data and information within the medical countermeasure master file for which the written notification was provided in additional applications, as applicable and appropriate and on the request of the master file holder so notified in writing or by an authorized person of the holder.

(2) CERTAIN APPLICATIONS.—If the Secretary has reviewed and relied on specified data or information within a medical countermeasure master file to

support the conditional approval of an application under section 14502 of this title to subsequently support the approval, clearance, licensure, or authorization of a security countermeasure, qualified countermeasure, or qualified pandemic or epidemic product, the Secretary shall provide a brief written description to the master file holder regarding the elements of the application fulfilled by the data or information within the master file and how the data or information contained in the application meets the standards of evidence under section 13504 or 13505 of this title, section 13701(3) of this title, or section 351 of the Public Health Service Act (42 U.S.C. 262) (as applicable), which written description shall not include any trade secret or confidential commercial information.

(f) RULES OF CONSTRUCTION.—Nothing in this section shall be construed to—

(1) limit the authority of the Secretary to approve, license, clear, conditionally approve, or authorize drugs, biological products, or devices pursuant to, as applicable, this subtitle or section 351 of the Public Health Service Act (42 U.S.C. 262) (as the subtitle or Act, as applicable, is in effect on June 23, 2019), including the standards of evidence,

and applicable conditions, for approval under the subtitle or Act, as applicable;

(2) alter the standards of evidence with respect to approval, licensure, or clearance, as applicable, of drugs, biological products, or devices under this subtitle or section 351 of the Public Health Service Act (42 U.S.C. 262), including, as applicable, the substantial evidence standards under sections 13505 and 13701(3) of this title and section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)); or

(3) alter the authority of the Secretary under this subtitle or the Public Health Service Act (42 U.S.C. 201 et seq.) to determine the types of data or information previously submitted by a sponsor or any other person that may be incorporated by reference in an application, request, or notification for a drug, biological product, or device submitted under section 13136(k), 13140(h)(2), 13142(c), 13152(g), 13503, 13510, 13511, 13703(a), 13703(b), 13711, 14306, or 14502 of this title, or subsection (a) or (k) of section 351 of the Public Health Service Act (42 U.S.C. 262), including a supplement or amendment to any such submission, and the requirements associated with the reference.

**§ 14312. Critical Path Public-Private Partnerships**

(a) DEFINITIONS.—In this section:

(1) ELIGIBLE ENTITY.—The term ''eligible entity'' means an entity—

(A) that is—

(i) an institution of higher education (as defined in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001)) or a consortium of those institutions; or

(ii) an organization described in section 501(c)(3) of the Internal Revenue Code of 1986 (26 U.S.C. 501(c)(3)) and exempt from tax under section 501(a) of the Internal Revenue Code of 1986 (26 U.S.C. 501(a));

(B) that has experienced personnel and clinical and other technical expertise in the biomedical sciences, which may include graduate training programs in areas relevant to priorities of the Critical Path Initiative of the FDA; and

(C) that demonstrates to the Secretary's satisfaction that the entity is capable of—

(i) developing and critically evaluating tools, methods, and processes—

(I) to increase efficiency, predictability, and productivity of medical product development; and

(II) to more accurately identify the benefits and risks of new and existing medical products;

(ii) establishing partnerships, consortia, and collaborations with—

(I) health care practitioners and other providers of health care goods or services;

(II) pharmacists;

(III) pharmacy benefit managers and purchasers;

(IV) health maintenance organizations and other managed health care organizations;

(V) health care insurers;

(VI) government agencies;

(VII) patients and consumers;

(VIII) manufacturers of prescription drugs, biological products, diagnostic technologies, and devices; and

(IX) academic scientists; and

(iii) securing funding for the projects of a Critical Path Public-Private Partnership from Federal and nonfederal governmental sources, foundations, and private individuals.

(2) MEDICAL PRODUCT.—The term ''medical product'' includes a drug, a biological product as defined in section 351 of the Public Health Service Act (42 U.S.C. 262), a device, and any combination of those products.

(b) ESTABLISHMENT.—The Secretary, acting through the Commissioner, may enter into collaborative agreements, to be known as Critical Path Public-Private Partnerships, with 1 or more eligible entities to implement the Critical Path Initiative of the FDA by developing innovative, collaborative projects in research, education, and outreach for the purpose of—

(1) fostering medical product innovation;

(2) enabling the acceleration of medical product development, manufacturing, and translational therapeutics; and

(3) enhancing medical product safety.

(c) FUNDING.—The Secretary may not enter into a collaborative agreement under subsection (b) unless the eligible entity involved provides an assurance that the entity

will not accept funding for a Critical Path Public-Private Partnership project from any organization that manufactures or distributes products regulated by the FDA unless the entity provides assurances in its agreement with the FDA that the results of the Critical Path Public-Private Partnership project will not be influenced by any source of funding.

(d) ANNUAL REPORT.—The Secretary, in collaboration with the parties to each Critical Path Public-Private Partnership, shall annually submit a report to the Committee on Health, Education, Labor, and Pensions of the Senate and the Committee on Energy and Commerce of the House of Representatives—

(1) reviewing the operations and activities of the Partnerships in the previous year; and

(2) addressing such other issues relating to this section as the Secretary determines to be appropriate.

(e) AUTHORIZATION OF APPROPRIATIONS.—To carry out this section, there is authorized to be appropriated $6,000,000 for each of fiscal years 2023 through 2027.

**§ 14313. Emerging technology program**

(a) PROGRAM ESTABLISHMENT.—

(1) IN GENERAL.—The Secretary shall establish a program to support the adoption of, and improve

the development of, innovative approaches to drug design and manufacturing.

(2) ACTIONS.—In carrying out the program under paragraph (1), the Secretary may—

(A) facilitate and increase communication between public and private entities, consortia, and individuals with respect to innovative drug product design and manufacturing;

(B) solicit information regarding, and conduct or support research on, innovative approaches to drug product design and manufacturing;

(C) convene meetings with representatives of industry, academia, other Federal agencies, international agencies, and other interested persons, as appropriate;

(D) convene working groups to support drug product design and manufacturing research and development;

(E) support education and training for regulatory staff and scientists related to innovative approaches to drug product design and manufacturing;

(F) advance regulatory science related to the development and review of innovative ap-

proaches to drug product design and manufacturing;

(G) convene or participate in working groups to support the harmonization of international regulatory requirements related to innovative approaches to drug product design and manufacturing; and

(H) award grants or contracts to carry out or support the program under paragraph (1).

(3) GRANTS AND CONTRACTS.—To seek a grant or contract under this section, an entity shall submit an application—

(A) in such form and manner as the Secretary may require; and

(B) containing such information as the Secretary may require, including a description of—

(i) how the entity will conduct the activities to be supported through the grant or contract; and

(ii) how the activities will further research and development related to, or adoption of, innovative approaches to drug product design and manufacturing.

(b) GUIDANCE.—The Secretary shall—

(1) issue or update guidance to help facilitate the adoption of, and advance the development of, innovative approaches to drug product design and manufacturing; and

(2) include in the guidance descriptions of—

(A) any regulatory requirements related to the development or review of technologies related to innovative approaches to drug product design and manufacturing, including updates and improvements to the technologies after product approval; and

(B) data that can be used to demonstrate the identity, safety, purity, and potency of drugs manufactured using the technologies.

(c) REPORT TO CONGRESS.—Not later than 4 years after December 29, 2022, the Secretary shall submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Health, Education, Labor, and Pensions of the Senate a report containing—

(1) an annual accounting of the allocation of funds made available to carry out this section;

(2) a description of how FDA staff were utilized to carry out this section and, as applicable, any challenges or limitations related to staffing;

(3) the number of public meetings held or participated in by the FDA pursuant to this section, including meetings convened as part of a working group described in subparagraph (D) or (G) of subsection (a)(2), and the topics of each meeting; and

(4) the number of drug products approved or licensed, after December 29, 2022, using an innovative approach to drug product design and manufacturing.

**§ 14314. Risk communication**

(a) DEFINITION OF COMMITTEE.—In this section, the term ''Committee'' means the Advisory Committee on Risk Communication established under subsection (b).

(b) ADVISORY COMMITTEE ON RISK COMMUNICATION.—

(1) IN GENERAL.—The Secretary shall establish the Advisory Committee on Risk Communication.

(2) DUTIES OF COMMITTEE.—The Committee shall advise the Commissioner on methods to effectively communicate risks associated with the products regulated by the FDA.

(3) MEMBERS.—The Secretary shall ensure that the Committee is composed of experts on risk communication, experts on the risks described in

subsection (c), and representatives of patient, consumer, and health professional organizations.

(4) PERMANENCE OF COMMITTEE.—Section 1013 of title 5 shall not apply to the Committee.

(c) PARTNERSHIPS FOR RISK COMMUNICATION.—

(1) IN GENERAL.—The Secretary shall partner with professional medical societies, medical schools, academic medical centers, and other stakeholders to develop robust and multifaceted systems for communication to health care providers about emerging postmarket drug risks.

(2) PARTNERSHIPS.—The systems developed under paragraph (1) shall—

(A) account for the diversity among physicians in terms of practice, willingness to adopt technology, and medical specialty; and

(B) include the use of existing communication channels, including electronic communications, in place at the FDA.

**§ 14315. Notification**

(a) DEFINITION OF REGULATED PERSON.—In this section, the term ''regulated person'' means—

(1) a person that is required to register under section 13136 or 20101(s) of this title;

(2) a wholesale distributor of a drug product; or

(3) any other person that distributes drugs, except a person that distributes drugs exclusively for retail sale.

(b) NOTIFICATION TO SECRETARY.—With respect to a drug, the Secretary may require notification to the Secretary by a regulated person if the regulated person knows—

(1) that the use of the drug in the United States may result in serious injury or death;

(2) of a significant loss or known theft of the drug intended for use in the United States; or

(3) that—

(A) the drug has been or is being counterfeited; and

(B)(i) the counterfeit product is in commerce in the United States or could be reasonably expected to be introduced into commerce in the United States; or

(ii) the drug has been or is being imported into the United States or may reasonably be expected to be offered for import into the United States.

(c) MANNER OF NOTIFICATION.—Notification under this section shall be made in such manner and by such

means as the Secretary may specify by regulation or guidance.

(d) EFFECT OF SECTION.—Nothing in this section shall be construed as limiting any other authority of the Secretary to require notifications related to a drug under any other provision of this subtitle or the Public Health Service Act (42 U.S.C. 201 et seq.).

**§ 14316. Consultation with external experts on rare diseases, targeted therapies, and genetic targeting of treatments**

(a) IN GENERAL.—For the purpose of promoting the efficiency of and informing the review by the FDA of new drugs and biological products for rare diseases and drugs and biological products that are genetically targeted, the following shall apply:

(1) CONSULTATION WITH STAKEHOLDERS.—Consistent with sections X.C and IX.E.4 of the PDUFA Reauthorization Performance Goals and Procedures Fiscal Years 2013 through 2017, as referenced in the letters described in section 101(b) of the Prescription Drug User Fee Amendments of 2012 (Public Law 112–144, title I, 126 Stat. 996), the Secretary shall ensure that opportunities exist, at a time the Secretary determines appropriate, for

consultations with stakeholders on the topics described in subsection (b).

(2) CONSULTATION WITH EXTERNAL EXPERTS.—

(A) IN GENERAL.—The Secretary shall develop and maintain a list of external experts who, because of their special expertise, are qualified to provide advice on rare disease issues, including topics described in subsection (b). The Secretary may, when appropriate to address a specific regulatory question, consult the external experts on issues related to the review of new drugs and biological products for rare diseases and drugs and biological products that are genetically targeted, including the topics described in subsection (b), if the consultation is necessary because the Secretary lacks the specific scientific, medical, or technical expertise necessary for the performance of the Secretary's regulatory responsibilities and the necessary expertise can be provided by the external experts.

(B) EXTERNAL EXPERTS.—For purposes of subparagraph (A), external experts are individuals who possess scientific or medical train-

ing that the Secretary lacks with respect to 1 or more rare diseases.

(b) TOPICS FOR CONSULTATION.—Topics for consultation pursuant to this section may include—

(1) rare diseases;

(2) the severity of rare diseases;

(3) the unmet medical need associated with rare diseases;

(4) the willingness and ability of individuals with a rare disease to participate in clinical trials;

(5) an assessment of the benefits and risks of therapies to treat rare diseases;

(6) the general design of clinical trials for rare disease populations and subpopulations;

(7) the demographics and the clinical description of patient populations; and

(8) the science of small population studies.

(c) CLASSIFICATION AS SPECIAL GOVERNMENT EMPLOYEES.—The external experts who are consulted under this section may be considered special Government employees, as defined under section 202 of title 18.

(d) PROTECTION OF CONFIDENTIAL INFORMATION AND TRADE SECRETS.—

(1) RULE OF CONSTRUCTION.—Nothing in this section shall be construed to alter the protections of-

fered by laws, regulations, and policies governing disclosure of confidential commercial or trade secret information, and any other information exempt from disclosure pursuant to section 552(b) of title 5 as the provisions would be applied to consultation with individuals and organizations prior to July 9, 2012.

(2) CONSENT REQUIRED FOR DISCLOSURE.—The Secretary shall not disclose confidential commercial or trade secret information to an expert consulted under this section without the written consent of the sponsor unless the expert is a special Government employee (as defined under section 202 of title 18) or the disclosure is otherwise authorized by law.

(e) OTHER CONSULTATION.—Nothing in this section shall be construed to limit the ability of the Secretary to consult with individuals and organizations as authorized prior to July 9, 2012.

(f) EFFECT OF SECTION.—

(1) NO RIGHT TO CONSULTATION.—Nothing in this section shall be construed to create a legal right for a consultation on any matter or require the Secretary to meet with any particular expert or stakeholder.

(2) NO ALTERING OF GOALS.—Nothing in this section shall be construed to alter agreed on goals

and procedures identified in the letters described in section 101(b) of the Prescription Drug User Fee Amendments of 2012 (Public Law 112–144, title I, 126 Stat. 996).

(3) NO CHANGE TO NUMBER OF REVIEW CYCLES.—Nothing in this section is intended to increase the number of review cycles as in effect before July 9, 2012.

(g) NO DELAY IN PRODUCT REVIEW.—

(1) IN GENERAL.—Prior to a consultation with an external expert, as described in this section, relating to an investigational new drug application under section 13510 of this title, a new drug application under section 13503 of this title, or a biologics license application under section 351 of the Public Health Service Act (42 U.S.C. 262), the Director of the Center for Drug Evaluation and Research or the Director of the Center for Biologics Evaluation and Research (or appropriate Division Director), as appropriate, shall determine that—

(A) the consultation will—

(i) facilitate the Secretary's ability to complete the Secretary's review; and

(ii) address outstanding deficiencies in the application; or

(B) the sponsor authorized the consultation.

(2) LIMITATION.—The requirements of this subsection shall apply only in instances where the consultation is undertaken solely under the authority of this section. The requirements of this subsection shall not apply to any consultation initiated under any other authority.

**§ 14317. Optimizing global clinical trials**

(a) DEFINITION OF MEDICAL PRODUCT.—In this section, the term ''medical product'' means—

(1) a drug;

(2) a device; or

(3) a biological product (as defined in section 351(i) of the Public Health Service Act (42 U.S.C. 262(i))).

(b) IN GENERAL.—The Secretary shall—

(1) work with other regulatory authorities of similar standing, medical research companies, and international organizations to foster and encourage uniform, scientifically driven clinical trial standards with respect to medical products around the world; and

(2) enhance the commitment to provide consistent parallel scientific advice to manufacturers

seeking simultaneous global development of new medical products in order to—

(A) enhance medical product development;

(B) facilitate the use of foreign data; and

(C) minimize the need to conduct duplicative clinical studies, preclinical studies, or nonclinical studies.

(c) SAVINGS CLAUSE.—Nothing in this section alters the criteria for evaluating the safety or effectiveness of a medical product under this subtitle or under the Public Health Service Act (42 U.S.C. 201 et seq.).

**§ 14318. Use of clinical investigation data from outside the United States**

(a) IN GENERAL.—In determining whether to approve, license, or clear a drug, biological product, or device pursuant to an application submitted under this division, the Secretary shall accept data from clinical investigations conducted outside of the United States, including the European Union, if the applicant demonstrates that the data are adequate under applicable standards to support approval, licensure, or clearance of the drug, biological product, or device in the United States.

(b) NOTICE TO SPONSOR.—If the Secretary finds under subsection (a) that the data from clinical investigations conducted outside the United States, including in the

European Union, are inadequate for the purpose of making a determination on approval, clearance, or licensure of a drug, biological product, or device pursuant to an application submitted under this division, the Secretary shall provide written notice to the sponsor of the application of the finding and include the rationale for the finding.

**§ 14319. Patient participation in medical product discussion**

(a) DEFINITIONS.—In this section:

(1) FINANCIAL INTEREST.—The term ''financial interest'' means a financial interest under section 208(a) of title 18.

(2) PATIENT EXPERIENCE DATA.—The term ''patient experience data'' includes data that—

(A) are collected by any persons (including patients, family members and caregivers of patients, patient advocacy organizations, disease research foundations, researchers, and drug manufacturers); and

(B) are intended to provide information about patients' experiences with a disease or condition, including—

(i) the impact (including physical and psychosocial impacts) of the disease or

condition, or a related therapy or clinical investigation, on patients' lives; and

(ii) patient preferences with respect to treatment of the disease or condition.

(b) PATIENT ENGAGEMENT IN DRUGS AND DEVICES.—

(1) IN GENERAL.—The Secretary shall develop and implement strategies to solicit the views of patients during the medical product development process and consider the perspectives of patients during regulatory discussions, including by—

(A) fostering participation of a patient representative who may serve as a special Government employee (as defined under section 202 of title 18) in appropriate agency meetings with medical product sponsors and investigators; and

(B) exploring means to provide for identification of patient representatives who do not have any, or have minimal, financial interests in the medical products industry.

(2) PROTECTION OF PROPRIETARY INFORMATION.—Nothing in this section shall be construed to alter the protections offered by laws, regulations, or policies governing disclosure of confidential commercial or trade secret information and any other infor-

mation exempt from disclosure pursuant to section 552(b) of title 5 as the laws, regulations, or policies would apply to consultation with individuals and organizations prior to July 9, 2012.

(3) OTHER CONSULTATION.—Nothing in this section shall be construed to limit the ability of the Secretary to consult with individuals and organizations as authorized prior to July 9, 2012.

(4) EFFECT OF SECTION.—

(A) NO RIGHT TO CONSULTATION.—Nothing in this section shall be construed to create a legal right for a consultation on any matter or require the Secretary to meet with any particular expert or stakeholder.

(B) NO ALTERING OF GOALS AND PROCEDURES.—Nothing in this section shall be construed to alter agreed on goals and procedures identified in the letters described in section 101(b) of the Prescription Drug User Fee Amendments of 2012 (Public Law 112–144, title I, 126 Stat. 996).

(C) NO CHANGE TO NUMBER OF REVIEW CYCLES.—Nothing in this section is intended to increase the number of review cycles as in effect before July 9, 2012.

(c) STATEMENT OF PATIENT EXPERIENCE.—

(1) IN GENERAL.—Following the approval of an application that was submitted under section 13503 of this title or section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)) at least 180 days after December 13, 2016, the Secretary shall make public a brief statement regarding the patient experience data and related information, if any, submitted and reviewed as part of the application.

(2) DATA AND INFORMATION.—The data and information referred to in paragraph (1) are—

(A) patient experience data;

(B) information on patient-focused drug development tools; and

(C) other relevant information, as determined by the Secretary.

(d) INAPPLICABILITY OF CHAPTER 35 OF TITLE 44.—Chapter 35 of title 44 shall not apply to the collection of information to which a response is voluntary, which collection is initiated by the Secretary under this section.

**§ 14320. Notification, nondistribution, and recall of controlled substances**

(a) ORDER TO CEASE DISTRIBUTION AND RECALL.—

(1) IN GENERAL.—If the Secretary determines there is a reasonable probability that a controlled substance would cause serious adverse health consequences or death, the Secretary may, after providing the appropriate person with an opportunity to consult with the agency, issue an order requiring manufacturers, importers, distributors, or pharmacists that distribute the controlled substance to immediately cease distribution of the controlled substance.

(2) HEARING.—An order under paragraph (1) shall provide the person subject to the order with an opportunity for an informal hearing, to be held not later than 10 days after the date of issuance of the order, on—

(A) whether adequate evidence exists to justify an amendment to the order; and

(B) what actions are required by the amended order pursuant to paragraph (3).

(3) ORDER RESOLUTION.—After an order is issued according to the process under paragraphs (1) and (2), the Secretary shall, except as provided in paragraph (4)—

(A) vacate the order, if the Secretary determines that inadequate grounds exist to support the actions required by the order;

(B) continue the order ceasing distribution of the controlled substance until a date specified in the order; or

(C) amend the order to require a recall of the controlled substance, including any requirements to notify appropriate persons, a timetable for the recall to occur, and a schedule for updates to be provided to the Secretary regarding the recall.

(4) RISK ASSESSMENT.—If the Secretary determines that the risk of recalling a controlled substance presents a greater health risk than the health risk of not recalling the controlled substance from use, an amended order under subparagraph (B) or (C) of paragraph (3) shall not include either a recall order for, or an order to cease distribution of, the controlled substance, as applicable.

(5) ACTION FOLLOWING ORDER.—Any person that is subject to an order pursuant to subparagraph (B) or (C) of paragraph (3) shall immediately cease distribution of or recall, as applicable, the controlled

substance and provide notification as required by the order.

(b) NOTICE TO PERSONS AFFECTED.—

(1) IN GENERAL.—If the Secretary determines necessary, the Secretary may require the person subject to an order pursuant to subsection (a)(1) or an amended order pursuant to subparagraph (B) or (C) of subsection (a)(3) to provide either a notice of a recall order for, or an order to cease distribution of, the controlled substance, as applicable, under this section to appropriate persons, including persons that manufacture, distribute, import, or offer for sale the product that is the subject of an order and to the public.

(2) ASSISTANCE OF HEALTH PROFESSIONALS.—In providing the notice under paragraph (1), the Secretary may use the assistance of health professionals who prescribed or dispensed the controlled substances.

(c) NONDELEGATION.—

(1) IN GENERAL.—An order described in subsection (a)(3) shall be ordered by the Secretary or an official designated by the Secretary.

(2) DESIGNATED OFFICIAL.—An official may not be designated under paragraph (1) unless the of-

ficial is the Director of the Center for Drug Evaluation and Research or an official senior to the Director.

(d) SAVINGS CLAUSE.—Nothing in this section shall be construed as limiting—

(1) the authority of the Secretary to issue an order to cease distribution of, or to recall, any drug under any other provision of this subtitle or the Public Health Service Act (42 U.S.C. 201 et seq.); or

(2) the ability of the Secretary to request any person to perform a voluntary activity related to any drug subject to this subtitle or the Public Health Service Act (42 U.S.C. 201 et seq.).

# Chapter 145—New Animal Drugs for Minor Use and Minor Species

Sec.
14501. Definition of transgenic animal.
14502. Conditional approval of new animal drugs for minor use and minor species and certain new animal drugs.
14503. Index of legally marketed unapproved new animal drugs for minor species.
14504. Designated new animal drugs for minor use or minor species.

## § 14501. Definition of transgenic animal

In this chapter, the term ''transgenic animal'' means an animal whose genome contains a nucleotide sequence that has been intentionally modified in vitro, and the progeny of such an animal. The term ''transgenic animal'' does not include an animal of which the nucleotide sequence

of the genome has been modified solely by selective breeding.

**§ 14502. Conditional approval of new animal drugs for minor use and minor species and certain new animal drugs**

(a) DEFINITION OF DATE OF APPROVAL.—In this section, with respect to an application described in subsection (e)(3), the term ''date of approval'' means the later of—

(1) the date an application under subsection (b) is conditionally approved under subsection (c); or

(2) the date of issuance of the interim final rule controlling the drug.

(b) APPLICATION.—

(1) IN GENERAL.—

(A) FILING OF APPLICATION.—Except as provided in paragraph (3), any person may file with the Secretary an application for conditional approval of—

(i) a new animal drug intended for a minor use or a minor species; or

(ii) a new animal drug not intended for a minor use or minor species—

(I) that is intended to treat a serious or life-threatening disease or

condition or addresses an unmet animal or human health need; and

(II) for which the Secretary determines that a demonstration of effectiveness would require a complex or particularly difficult study or studies.

(B) ISSUANCE OF GUIDANCE OR REGULATIONS.—The Secretary shall issue guidance or regulations further clarifying the criteria specified in subparagraph (A)(ii).

(C) COMPLIANCE WITH OTHER PROVISIONS OF LAW.—An application under this paragraph shall comply in all respects with—

(i) chapter 137 of this title, except sections 13702(d), 13703(b), 13704(a), 13704(b), 13704(c), 13705(a), 13706, 13709, and 13715 of this title unless otherwise stated in this section; and

(ii) any additional provisions of this section.

(D) APPLICABILITY OF SAFETY STANDARDS.—New animal drugs for which conditional approval is sought under this section are subject to the same safety standards that would be applied to new animal drugs under section

13705 of this title (including, for antimicrobial new animal drugs, with respect to antimicrobial resistance).

(2) SUBMISSION REQUIREMENTS.—The applicant shall submit to the Secretary as part of an application for the conditional approval of a new animal drug—

(A) all information necessary to meet the requirements of section 13703(a) of this title except section 13703(a)(2)(A) of this title;

(B) full reports of investigations that have been made to show—

(i) whether or not the drug is safe under section 13705 of this title (including, for an antimicrobial new animal drug, with respect to antimicrobial resistance); and

(ii) that there is a reasonable expectation of effectiveness for use;

(C) data for establishing a conditional dose;

(D) projections of expected need and the justification for that expectation based on the best information available;

(E) information regarding the quantity of drug expected to be distributed on an annual basis to meet the expected need; and

(F) a commitment that the applicant will conduct additional investigations to meet the requirements for the full demonstration of effectiveness under section 13705(a)(1)(E) of this title within 5 years.

(3) FILING OF APPLICATION NOT AUTHORIZED.—

(A) IN GENERAL.—A person may not file an application under paragraph (1) if—

(i) the application seeks conditional approval of a new animal drug that is contained in, or is a product of, a transgenic animal;

(ii) the person has previously filed an application for conditional approval under paragraph (1) for the same drug in the same dosage form for the same intended use whether or not subsequently conditionally approved by the Secretary under subsection (c); or

(iii) the person obtained the application, or data or other information con-

tained in the application, directly or indirectly from the person that filed for conditional approval under paragraph (1) for the same drug in the same dosage form for the same intended use whether or not subsequently conditionally approved by the Secretary under subsection (c).

(B) NEW ANIMAL DRUG CONTAINING ANTIMICROBIAL ACTIVE INGREDIENT.—A person may not file an application under paragraph (1)(A)(ii) if the application seeks conditional approval of a new animal drug that contains an antimicrobial active ingredient.

(4) ELECTRONIC SUBMISSION.—Beginning on October 1, 2018, all applications or submissions pursuant to this subsection shall be submitted by electronic means in such format as the Secretary may require.

(c) ORDER OF APPROVAL OR HEARING.—Within 180 days after the filing of an application pursuant to subsection (b), or such additional period as may be agreed on by the Secretary and the applicant, the Secretary shall—

(1) issue an order, effective for 1 year, conditionally approving the application if the Secretary

finds that none of the grounds for denying conditional approval, specified in subsection (d), applies and publish a Federal Register notice of the conditional approval; or

(2) give the applicant notice of an opportunity for an informal hearing on the question whether the application can be conditionally approved.

(d) ORDER OF APPROVAL OR REFUSAL AFTER HEARING.—

(1) GROUNDS FOR REFUSAL.—The Secretary shall issue an order refusing to conditionally approve an application under subsection (b) if the Secretary finds, after giving the applicant notice and an opportunity for an informal hearing, that—

(A) any of subparagraphs (A) through (D) or (F) through (I) of section 13705(a)(1) of this title is applicable;

(B) the information submitted to the Secretary as part of the application, and any other information before the Secretary with respect to the drug, is insufficient to show that there is a reasonable expectation that the drug will have the effect it purports or is represented to have under the conditions of use prescribed, rec-

ommended, or suggested in the proposed labeling of the drug; or

(C) another person has received approval under chapter 137 of this title for the same drug in the same dosage form for the same intended use, and that person is able to ensure the availability of sufficient quantities of the drug to meet the needs for which the drug is intended.

(2) APPROVAL.—If, after the notice and opportunity for an informal hearing, the Secretary finds that subparagraphs (A) through (C) of paragraph (1) do not apply, the Secretary shall issue an order conditionally approving the application effective for 1 year and publish a Federal Register notice of the conditional approval.

(3) ORDER TO STATE FINDINGS.—Any order issued under this subsection refusing to conditionally approve an application shall state the findings on which the refusal is based.

(e) EFFECTIVE PERIOD.—

(1) IN GENERAL.—

(A) LENGTH; RENEWAL.—A conditional approval under this section is effective for a 1-year period and is, after that period, renewable

by the Secretary annually for up to 4 additional 1-year terms.

(B) MAXIMUM PERIOD.—A conditional approval shall be in effect for no more than 5 years from the date of approval under subsection (c)(1) or (d) unless extended as provided for in subsection (i).

(C) PROCEDURE FOR RENEWALS.—The following shall also apply:

(i) SUBMISSION OF REQUEST.—No later than 90 days from the end of the 1-year period for which the original or renewed conditional approval is effective, the applicant may submit a request to renew a conditional approval for an additional 1-year term.

(ii) CONDITIONS.—A conditional approval shall be deemed renewed at the end of the 1-year period, or at the end of a 90-day extension that the Secretary may grant by letter in order to complete review of the renewal request, unless the Secretary determines before the expiration of the 1-year period or the 90-day extension that—

(I) the applicant failed to submit a timely renewal request;

(II) the request fails to contain sufficient information to show that—

(aa) the applicant is making sufficient progress toward meeting approval requirements under section 13705(a)(1)(E) of this title, and is likely to be able to fulfill those requirements and obtain an approval under chapter 137 of this title before the expiration of the 5-year maximum term of the conditional approval;

(bb) the quantity of the drug that has been distributed is consistent with the conditionally approved intended use and conditions of use, unless there is adequate explanation that ensures that the drug is used only for its intended purpose; or

(cc) the same drug in the same dosage form for the same intended use has not received ap-

proval under chapter 137 of this title, or if the drug has been approved, the holder of the approved application is unable to ensure the availability of sufficient quantities of the drug to meet the needs for which the drug is intended; or

(III) any of paragraphs (1), (2), (4), (5), or (6) of section 13706(a) of this title is applicable.

(2) ORDER REFUSING TO RENEW.—

(A) IN GENERAL.—If the Secretary determines before the end of the 1-year period or the 90-day extension, if granted, that a conditional approval should not be renewed, the Secretary shall issue an order refusing to renew the conditional approval, and the conditional approval shall be deemed withdrawn and no longer in effect.

(B) REINSTATEMENT.—The Secretary shall, after the issuance under subparagraph (A), provide an opportunity for an informal hearing to the applicant on the issue whether the conditional approval shall be reinstated.

(3) DATE OF APPROVAL IN THE CASE OF RECOMMENDED CONTROLS UNDER DIVISION A OF SUBTITLE V OF THIS TITLE.—In the case of an application under subsection (b) with respect to a drug for which the Secretary provides notice to the sponsor that the Secretary intends to issue a scientific and medical evaluation and recommend controls under division A of subtitle V of this title, conditional approval of the application shall not take effect until the interim final rule controlling the drug is issued in accordance with section 50301(j) of this title.

(f) WITHDRAWAL OF CONDITIONAL APPROVAL.—

(1) APPROVAL OF SAME DRUG.—The Secretary shall issue an order withdrawing conditional approval of an application filed pursuant to subsection (b) if the Secretary finds that another person has received approval under chapter 137 of this title for the same drug in the same dosage form for the same intended use and that person is able to ensure the availability of sufficient quantities of the drug to meet the needs for which the drug is intended.

(2) OTHER BASES FOR REQUIRED WITHDRAWAL.—The Secretary shall, after due notice and opportunity for an informal hearing to the applicant, issue an order withdrawing conditional approval of

an application filed pursuant to subsection (b) if the Secretary finds that—

(A) any of paragraphs (1), (2), (4), (5), or (6) of section 13706(a) of this title is applicable; or

(B) on the basis of new information before the Secretary with respect to the drug, evaluated together with the evidence available to the Secretary when the application was conditionally approved, there is no reasonable expectation that the drug will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling of the drug.

(3) AUTHORIZED WITHDRAWAL.—The Secretary may, after due notice and opportunity for an informal hearing to the applicant, issue an order withdrawing conditional approval of an application filed pursuant to subsection (b) if the Secretary finds that any of the provisions of section 13706(c) of this title are applicable.

(g) LABELING.—

(1) CONTENT.—The label and labeling of a new animal drug with a conditional approval under this section shall for the conditionally approved use—

(A) bear the statement, ''conditionally approved by FDA pending a full demonstration of effectiveness under application number''; and

(B) contain such other information as prescribed by the Secretary.

(2) INCLUSION OF INTENDED USE SUBJECT TO CONDITIONAL APPROVAL IN SAME PRODUCT LABEL WITH APPROVED USE.—The Secretary shall, through regulation or guidance, determine under what conditions an intended use that is the subject of a conditional approval under this section may be included in the same product label with any intended use approved under chapter 137 of this title.

(h) AMENDMENT OF APPLICATION.—A conditionally approved new animal drug application may not be amended or supplemented to add indications for use.

(i) ORDER OF APPROVAL AFTER CONDITIONAL APPROVAL PERIOD TERMINATION.—

(1) SUBMISSION OF INFORMATION SUPPORTING NEW ANIMAL DRUG APPLICATION.—One hundred eighty days prior to the termination date established under subsection (e), an applicant shall have submitted all the information necessary to support a complete new animal drug application in accordance with section 13703(a) of this title or the conditional

approval issued under this section is no longer in effect.

(2) ACTIONS BY SECRETARY.—Following review of the information submitted as described in paragraph (1), the Secretary shall—

(A) issue an order approving the application under section 13704 of this title if the Secretary finds that none of the grounds for denying approval specified in section 13705(a) of this title applies; or

(B) give the applicant an opportunity for a hearing before the Secretary under section 13705 of this title on the question whether the application can be approved.

(3) MODIFICATION OF PRODUCT LABELING AND ADMINISTRATIVE RECORDS ON APPROVAL.—On issuance of an order approving the application, product labeling and administrative records of approval shall be modified accordingly.

(4) EFFECT OF SECRETARY NOT GRANTING NEW ANIMAL DRUG APPLICATION APPROVAL; EXTENSION.—If the Secretary has not issued an order under section 13704 of this title approving the application prior to the termination date established under subsection (e), the conditional approval issued

under this section is no longer in effect unless the Secretary grants an extension of an additional 180-day period so that the Secretary can complete review of the application. The decision to grant an extension is committed to the discretion of the Secretary and not subject to judicial review.

(j) JUDICIAL REVIEW.—The decision of the Secretary under subsection (d), (e), or (f) refusing or withdrawing conditional approval of an application shall constitute final agency action subject to judicial review.

(k) SUNSET RELATING TO CERTAIN NEW ANIMAL DRUGS.—

(1) IN GENERAL.—The Secretary's authority to grant conditional approval of new animal drugs not intended for a minor use or minor species pursuant to subsection (b)(1)(A)(ii) terminates on October 1, 2028.

(2) ACCEPTANCE OF NEW APPLICATIONS FOR CONDITIONAL APPROVAL; CONTINUANCE OF ACTIVITIES UNDER THIS SECTION.—The Secretary—

(A) may not accept any new applications for conditional approval pursuant to subsection (b)(1)(A)(ii) on or after October 1, 2028; and

(B) may continue all activities under this section with respect to drugs that were condi-

tionally approved pursuant to subsection (b)(1)(A)(ii) prior to October 1, 2028.

(3) ACCEPTANCE OF APPLICATIONS FOR APPROVAL OF NEW ANIMAL DRUGS.—The Secretary may, until October 1, 2032, accept applications for approval under chapter 137 of this title of drugs conditionally approved pursuant to subsection (b)(1)(A)(ii).

**§ 14503. Index of legally marketed unapproved new animal drugs for minor species**

(a) ESTABLISHMENT AND CONTENT.—

(1) IN GENERAL.—The Secretary shall establish an index limited to—

(A) new animal drugs intended for use in a minor species for which there is a reasonable certainty that the animal or edible products from the animal will not be consumed by humans or food-producing animals; and

(B) new animal drugs intended for use only in a hatchery, tank, pond, or other similar contained man-made structure in an early, non-food life stage of a food-producing minor species, where safety for humans is demonstrated in accordance with the standard of section 13705 of this title (including, for an anti-

microbial new animal drug, with respect to antimicrobial resistance).

(2) TRANSGENIC ANIMALS.—The index shall not include a new animal drug that is contained in or a product of a transgenic animal.

(b) CONFERENCES.—Any person intending to file a request under this section shall be entitled to 1 or more conferences to discuss the requirements for indexing a new animal drug.

(c) REQUEST FOR DETERMINATION OF ELIGIBILITY FOR INCLUSION IN INDEX.—

(1) SUBMISSION.—Any person may submit a request to the Secretary for a determination whether a new animal drug may be eligible for inclusion in the index. The request shall include—

(A) information regarding the need for the new animal drug, the species for which the new animal drug is intended, the proposed intended use and conditions of use, and anticipated annual distribution;

(B) information to support the conclusion that the proposed use meets the conditions of subparagraph (A) or (B) of subsection (a)(1);

(C) information regarding the components and composition of the new animal drug;

(D) a description of the methods used in, and the facilities and controls used for, the manufacture, processing, and packing of the new animal drug;

(E) an environmental assessment that meets the requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), and as defined in part 25 of title 21, Code of Federal Regulations, as it appeared on August 2, 2004, and amended after that date, or information to support a categorical exclusion from the requirement to prepare an environmental assessment;

(F) information sufficient to support the conclusion that the proposed use of the new animal drug is safe under section 13705 of this title with respect to individuals exposed to the new animal drug through its manufacture or use; and

(G) such other information as the Secretary may consider necessary to make the eligibility determination.

(2) GRANT OF REQUEST.—Within 90 days after the submission of a request for a determination of eligibility for indexing based on subsection (a)(1)(A),

or 180 days for a request submitted based on subsection (a)(1)(B), the Secretary shall grant or deny the request, and notify the person that requested the determination of the Secretary's decision. The Secretary shall grant the request if the Secretary finds that—

(A) the same drug in the same dosage form for the same intended use is not approved or conditionally approved;

(B) the proposed use of the drug meets the conditions of subparagraph (A) or (B) of subsection (a)(1), as appropriate;

(C) the person requesting the determination has established appropriate specifications for the manufacture and control of the new animal drug and has demonstrated an understanding of the requirements of current good manufacturing practices;

(D) the new animal drug will not significantly affect the human environment; and

(E) the new animal drug is safe with respect to individuals exposed to the new animal drug through its manufacture or use.

(3) DENIAL OF REQUEST.—If the Secretary denies the request, the Secretary shall, after the de-

nial, provide due notice and an opportunity for an informal conference. A decision of the Secretary to deny an eligibility request following an informal conference shall constitute final agency action subject to judicial review.

(d) REQUEST FOR ADDITION TO INDEX.—

(1) QUALIFIED EXPERT PANEL.—

(A) IN GENERAL.—In this section, a qualified expert panel is a panel that—

(i) is composed of experts qualified by scientific training and experience to evaluate the target animal safety and effectiveness of the new animal drug under consideration;

(ii) operates external to the FDA; and

(iii) is not subject to chapter 10 of title 5.

(B) CRITERIA FOR SELECTION.—The Secretary shall define the criteria for selection of a qualified expert panel and the procedures for the operation of the panel by regulation.

(2) IN GENERAL.—With respect to a new animal drug for which the Secretary has made a determination of eligibility under subsection (c), the person that made a request under subsection (c) may

ask that the Secretary add the new animal drug to the index established under subsection (a). The request for addition to the index shall include—

(A) a copy of the Secretary's determination of eligibility issued under subsection (c);

(B) a written report that meets the requirements in paragraph (3);

(C) a proposed index entry;

(D) facsimile labeling;

(E) anticipated annual distribution of the new animal drug;

(F) a written commitment to manufacture the new animal drug and animal feeds bearing or containing the new animal drug according to current good manufacturing practices;

(G) a written commitment to label, distribute, and promote the new animal drug only in accordance with the index entry;

(H) on specific request of the Secretary, information submitted to the qualified expert panel described in paragraph (1); and

(I) any additional requirements that the Secretary may prescribe by general regulation or specific order.

(3) REPORT.—The report required in paragraph (2) shall—

(A) be authored by a qualified expert panel;

(B) include an evaluation of all available target animal safety and effectiveness information, including anecdotal information;

(C) state the qualified expert panel's opinion regarding whether the benefits of using the new animal drug for the proposed use in a minor species outweigh its risks to the target animal, taking into account the harm being caused by the absence of an approved or conditionally approved new animal drug for the minor species in question;

(D) include information from which labeling can be written; and

(E) include a recommendation regarding whether the new animal drug should be limited to use under the professional supervision of a licensed veterinarian.

(4) GRANT OR DENIAL OF REQUEST.—

(A) IN GENERAL.—Within 180 days after the receipt of a request for listing a new animal

drug in the index, the Secretary shall grant or deny the request.

(B) CONDITIONS FOR REQUEST TO BE GRANTED.—The Secretary shall grant the request if the request for indexing continues to meet the eligibility criteria in subsection (a) and the Secretary finds, on the basis of the report of the qualified expert panel and other information available to the Secretary, that the benefits of using the new animal drug for the proposed use in a minor species outweigh its risks to the target animal, taking into account the harm caused by the absence of an approved or conditionally approved new animal drug for the minor species in question.

(C) DENIAL OF REQUEST.—If the Secretary denies the request, the Secretary shall, after the denial, provide due notice and the opportunity for an informal conference. The decision of the Secretary following an informal conference shall constitute final agency action subject to judicial review.

(e) INDEX CONTENTS; PUBLICATION.—

(1) CONTENTS.—The index established under subsection (a) shall, for each listed drug, include—

(A) the name and address of the person that holds the index listing;

(B) the name of the drug and the intended use and conditions of use for which it is being indexed;

(C) product labeling; and

(D) conditions and any limitations that the Secretary considers necessary regarding use of the drug.

(2) PUBLICATION; REVISION.—The Secretary shall publish the index, and revise it periodically.

(3) PROCESS FOR REPORTING CHANGES.—The Secretary may establish by regulation a process for reporting changes in the conditions of manufacturing or labeling of indexed products.

(f) REMOVAL FROM INDEX; SUSPENDED LISTING.—

(1) REMOVAL.—

(A) IN GENERAL.—The Secretary shall remove a new animal drug from the index if the Secretary finds, after due notice to the person that requested the index listing and an opportunity for an informal conference, that—

(i) the qualified expert panel failed to meet the requirements as set forth by the Secretary by regulation;

(ii) on the basis of new information before the Secretary, evaluated together with the evidence available to the Secretary when the new animal drug was listed in the index, the benefits of using the new animal drug for the indexed use do not outweigh its risks to the target animal;

(iii) the conditions of subsection (c)(2) are no longer satisfied;

(iv) the manufacture of the new animal drug is not in accordance with current good manufacturing practices;

(v) the labeling, distribution, or promotion of the new animal drug is not in accordance with the index entry;

(vi) the conditions and limitations of use associated with the index listing have not been followed; or

(vii) the request for indexing contains any untrue statement of material fact.

(B) DECISION FOLLOWING INFORMAL CONFERENCE AS FINAL AGENCY ACTION.—The decision of the Secretary following an informal conference shall constitute final agency action subject to judicial review.

(2) SUSPENSION.—

(A) IN GENERAL.—If the Secretary finds that there is a reasonable probability that the use of the drug would present a risk to the health of humans or other animals, the Secretary may—

(i) suspend the listing of the drug immediately;

(ii) give the person listed in the index prompt notice of the Secretary's action; and

(iii) afford that person the opportunity for an informal conference.

(B) DECISION FOLLOWING INFORMAL CONFERENCE AS FINAL AGENCY ACTION.—The decision of the Secretary following an informal conference shall constitute final agency action subject to judicial review.

(g) REGULATIONS CONCERNING EXEMPTIONS FOR INVESTIGATIONAL USE.—

(1) IN GENERAL.—For purposes of indexing new animal drugs under this section, to the extent consistent with the public health, the Secretary shall promulgate regulations for exempting from the operation of chapter 137 of this title minor species new

animal drugs and animal feeds bearing or containing new animal drugs intended solely for investigational use by experts qualified by scientific training and experience to investigate the safety and effectiveness of minor species animal drugs.

(2) AUTHORIZED CONDITIONS FOR EXEMPTIONS.—In the regulations under paragraph (1), the Secretary may provide for, among other conditions relating to the protection of the public health, conditioning the exemption on the establishment and maintenance of the records, and the making of such reports to the Secretary, by the manufacturer or the sponsor of the investigation of the article, of data (including analytical reports by investigators) obtained as a result of the investigational use of the article, as the Secretary finds will enable the Secretary to evaluate the safety and effectiveness of the article in the event of the filing of a request for an index listing pursuant to this section.

(h) LABELING CONTENTS.—The labeling of a new animal drug that is the subject of an index listing shall state, prominently and conspicuously—

(1) the statement ''LEGAL STATUS—In order to be legally marketed, a new animal drug intended for a minor species must be Approved, Con-

ditionally Approved, or Indexed by the Food and Drug Administration. THIS PRODUCT IS INDEXED—MIF #'', followed by the applicable minor species index file number and a period, and followed by the statement ''Extra-label use is prohibited.'';

(2) except in the case of new animal drugs indexed for use in an early life stage of a food-producing animal, the statement ''This product is not to be used in animals intended for use as food for humans or food-producing animals.''; and

(3) such other information as may be prescribed by the Secretary in the index listing.

(i) RECORDS AND REPORTS.—

(1) REQUIREMENTS BY REGULATION OR ORDER.—

(A) IN GENERAL.—In the case of any new animal drug for which an index listing pursuant to subsection (a) is in effect, the person that has an index listing shall establish and maintain such records, and make such reports to the Secretary, of data relating to experience, and other data or information, received or otherwise obtained by the person with respect to the drug, or with respect to animal feeds bearing or con-

taining the drug, as the Secretary may by general regulation, or by order with respect to the listing, prescribe on the basis of a finding that the records and reports are necessary in order to enable the Secretary to determine, or facilitate a determination, whether there is or may be ground for invoking subsection (f).

(B) EXAMINATION BY PERSONS OF INFORMATION RECEIVED BY SECRETARY.—The regulation or order under subparagraph (A) shall provide, if the Secretary considers the provision to be appropriate, for the examination, upon request, by the persons to whom the regulation or order is applicable, of similar information received or otherwise obtained by the Secretary.

(2) ACCESS TO RECORDS.—Each person required under this subsection to maintain records, and each person in charge or custody of the records, shall, on request of an officer or employee designated by the Secretary, permit the officer or employee at all reasonable times to have access to and copy and verify the records.

(j) PUBLIC DISCLOSURE OF SAFETY AND EFFECTIVENESS DATA.—

(1) IN GENERAL.—Safety and effectiveness data and information that has been submitted in support of a request for a new animal drug to be indexed under this section and that has not been previously disclosed to the public shall be made available to the public, upon request, unless extraordinary circumstances are shown—

(A) if no work is being or will be undertaken to have the drug indexed in accordance with the request;

(B) if the Secretary has determined that the drug cannot be indexed and all legal appeals have been exhausted;

(C) if the indexing of the drug is terminated and all legal appeals have been exhausted; or

(D) if the Secretary has determined that the drug is not a new animal drug.

(2) VERIFIED STATEMENT.—Any request for data and information pursuant to paragraph (1) shall include a verified statement by the person making the request that any data or information received under paragraph (1) shall not be disclosed by the person to any other person—

(A) for the purpose of, or as part of a plan, scheme, or device for, obtaining the right to make, use, or market, or making, using, or marketing, outside the United States, the drug identified in the request for indexing; and

(B) without obtaining from any person to whom the data and information are disclosed an identical verified statement, a copy of which is to be provided by the person to the Secretary, that meets the requirements of this paragraph.

(k) DATE OF DETERMINATION IN THE CASE OF RECOMMENDED CONTROLS UNDER DIVISION A OF SUBTITLE V OF THIS TITLE.—In the case of a request under subsection (d) to add a drug to the index under subsection (a) with respect to a drug for which the Secretary provides notice to the person filing the request that the Secretary intends to issue a scientific and medical evaluation and recommend controls under division A of subtitle V of this title, a determination to grant the request to add the drug to the index shall not take effect until the interim final rule controlling the drug is issued in accordance with section 50301(j) of this title.

**§ 14504. Designated new animal drugs for minor use or minor species**

(a) DESIGNATION.—

(1) REQUEST.—

(A) IN GENERAL.—The manufacturer or the sponsor of a new animal drug for a minor use or use in a minor species may request that the Secretary declare that drug a ''designated new animal drug''.

(B) TIMING.—A request for designation of a new animal drug shall be made before the submission of an application under section 13703 or 14502 of this title for the new animal drug.

(2) CRITERIA.—The Secretary may declare a new animal drug a ''designated new animal drug'' if—

(A) it is intended for a minor use or use in a minor species; and

(B) the same drug in the same dosage form for the same intended use is not approved under chapter 137 or section 14502 of this title or designated under this section at the time the request is made.

(3) TERMINATION OF DESIGNATION.—With respect to a termination of a designation, the following shall apply:

(A) DISCONTINUATION OF PURSUIT OF APPROVAL.—The sponsor of a new animal drug shall notify the Secretary of any decision to discontinue active pursuit of approval under chapter 137 or section 14502 of this title of an application for a designated new animal drug. The Secretary shall terminate the designation on the notification.

(B) LACK OF DUE DILIGENCE.—The Secretary may terminate designation if the Secretary independently determines that the sponsor is not actively pursuing approval under chapter 137 or section 14502 of this title with due diligence.

(C) DISCONTINUANCE OF MANUFACTURE.—The sponsor of an approved designated new animal drug shall notify the Secretary of any discontinuance of the manufacture of the new animal drug at least 1 year before discontinuance. The Secretary shall terminate the designation on the notification.

(D) EXPIRATION OF EXCLUSIVITY PERIOD.—The designation shall terminate on the expiration of any applicable exclusivity period under subsection (c).

(4) NOTICE TO PUBLIC.—Notice respecting the designation or termination of designation of a new animal drug shall be made available to the public.

(b) GRANTS AND CONTRACTS FOR DEVELOPMENT OF DESIGNATED NEW ANIMAL DRUGS.—

(1) DEFINITIONS.—In this subsection:

(A) MANUFACTURING EXPENSES.—The term ''manufacturing expenses'' means expenses incurred in developing processes and procedures associated with manufacture of the designated new animal drug that occur after the new animal drug is designated under this section and before the date on which an application with respect to the new animal drug is submitted under chapter 137 or section 14502 of this title.

(B) QUALIFIED SAFETY AND EFFECTIVENESS TESTING.—The term ''qualified safety and effectiveness testing'' means testing—

(i) that occurs after the date the new animal drug is designated under this section and before the date on which an application with respect to the drug is submitted under chapter 137 of this title; and

(ii) that is carried out under an investigational exemption under section 13711 of this title.

(2) IN GENERAL.—The Secretary may make grants to and enter into contracts with public and private entities and individuals to assist in defraying the costs of qualified safety and effectiveness testing expenses and manufacturing expenses incurred in connection with the development of designated new animal drugs.

(c) EXCLUSIVITY FOR DESIGNATED NEW ANIMAL DRUGS.—

(1) IN GENERAL.—Except as provided in paragraph (2), if the Secretary approves or conditionally approves an application for a designated new animal drug, the Secretary may not approve or conditionally approve another application submitted for the new animal drug with the same intended use as the designated new animal drug for another applicant before the expiration of 7 years from the date of approval or conditional approval of the application.

(2) EXCEPTIONS.—If an application filed pursuant to chapter 137 or section 14502 of this title is approved for a designated new animal drug, the Secretary may, during the 7-year exclusivity period

beginning on the date of the application approval or conditional approval, approve or conditionally approve another application under chapter 137 or section 14502 of this title for the drug for the minor use or minor species for another applicant if—

(A) the Secretary finds, after providing the holder of such an approved application notice and opportunity for the submission of views, that in the granted exclusivity period the holder of the approved application cannot ensure the availability of sufficient quantities of the drug to meet the needs for which the drug was designated; or

(B) the holder provides written consent to the Secretary for the approval or conditional approval of other applications before the expiration of the exclusivity period.

(3) DATE OF APPROVAL IN THE CASE OF RECOMMENDED CONTROLS UNDER DIVISION A OF SUBTITLE V OF THIS TITLE.—For purposes of determining the 7-year period of exclusivity under paragraph (1) for a drug for which the Secretary intends to issue a scientific and medical evaluation and recommend controls under division A of subtitle V of this title, the drug shall not be considered approved

or conditionally approved until the date that the interim final rule controlling the drug is issued in accordance with section 50301(j) of this title.

# Chapter 147—Medical Gases

Sec.
14701. Definitions.
14702. Regulation of medical gases.
14703. Inapplicability of drug fees to designated medical gases.
14704. Rules of construction.

## § 14701. Definitions

In this chapter:

(1) DESIGNATED MEDICAL GAS.—The term ''designated medical gas'' means—

(A) oxygen that meets the standards set forth in an official compendium;

(B) nitrogen that meets the standards set forth in an official compendium;

(C) nitrous oxide that meets the standards set forth in an official compendium;

(D) carbon dioxide that meets the standards set forth in an official compendium;

(E) helium that meets the standards set forth in an official compendium;

(F) carbon monoxide that meets the standards set forth in an official compendium;

(G) medical air that meets the standards set forth in an official compendium; or

(H) any other medical gas considered appropriate by the Secretary, after taking into account any investigational new drug application or investigational new animal drug application for the same medical gas submitted in accordance with regulations applicable to the applications in title 21 of the Code of Federal Regulations, unless any period of exclusivity for a new drug under section 13504(c)(5)(A) or 13511(f)(6)(A) of this title, the extension of any such period under section 13112 of this title, or any period of exclusivity for a new animal drug under section 13704(b)(7) of this title, applicable to the medical gas, has not expired.

(2) MEDICAL GAS.—The term ''medical gas'' means a drug that—

(A) is manufactured or stored in a liquefied, nonliquefied, or cryogenic state; and

(B) is administered as a gas.

**§ 14702. Regulation of medical gases**

(a) CERTIFICATION OF DESIGNATED MEDICAL GASES.—

(1) SUBMISSION.—Any person that seeks to initially introduce or deliver for introduction a des-

ignated medical gas into interstate commerce may file with the Secretary a request for certification of a medical gas as a designated medical gas. The request shall contain—

(A) a description of the medical gas;

(B) the name and address of the sponsor;

(C) the name and address of the facility or facilities where the medical gas is or will be manufactured; and

(D) any other information considered appropriate by the Secretary to determine whether the medical gas is a designated medical gas.

(2) GRANT OF CERTIFICATION.—The certification requested under paragraph (1) is deemed to be granted unless, within 60 days of the filing of the request, the Secretary finds that—

(A) the medical gas subject to the certification is not a designated medical gas;

(B) the request does not contain the information required under paragraph (1) or otherwise lacks sufficient information to permit the Secretary to determine that the medical gas is a designated medical gas; or

(C) denying the request is necessary to protect the public health.

(3) EFFECT OF CERTIFICATION.—

(A) IN GENERAL.—

(i) APPROVED USES.—A designated medical gas for which a certification is granted under paragraph (2) is deemed, alone or in combination, as medically appropriate, with another designated medical gas or other designated medical gases for which a certification or certifications have been granted, to have in effect an approved application under chapter 135 or 137 of this title, subject to all applicable post-approval requirements, for the following indications for use:

(I) In the case of oxygen, the treatment or prevention of hypoxemia or hypoxia.

(II) In the case of nitrogen, use in hypoxic challenge testing.

(III) In the case of nitrous oxide, analgesia.

(IV) In the case of carbon dioxide, use in extracorporeal membrane oxygenation therapy or respiratory stimulation.

(V) In the case of helium, the treatment of upper airway obstruction or increased airway resistance.

(VI) In the case of medical air, to reduce the risk of hyperoxia.

(VII) In the case of carbon monoxide, use in lung diffusion testing.

(VIII) Any other indication for use for a designated medical gas or combination of designated medical gases considered appropriate by the Secretary, unless any period of exclusivity for a new drug under subparagraph (B) or (C) of section 13504(c)(5) of this title, subparagraph (B) or (C) of section 13511(f)(6) of this title, or section 13903 of this title, or the extension of any such period under section 13112 of this title, applicable to the indication for use for the gas or combination of gases has not expired.

(ii) LABELING.—The requirements of sections 13103(a)(4) and 13305 of this title are deemed to have been met for a

designated medical gas if the labeling on the final use container for the medical gas bears—

(I) the information required by section 13103(a)(4) of this title;

(II) a warning statement concerning the use of the medical gas as determined by the Secretary by regulation; and

(III) appropriate directions and warnings concerning storage and handling.

(B) INAPPLICABILITY OF EXCLUSIVITY PROVISIONS.—

(i) NO EXCLUSIVITY FOR A CERTIFIED MEDICAL GAS.—No designated medical gas deemed under subparagraph (A)(i) to have in effect an approved application is eligible for any period of exclusivity for a new drug under section 13504, 13511, or 13903 of this title, or the extension of any such period under section 13112 of this title, on the basis of the deemed approval.

(ii) EFFECT ON CERTIFICATION.—No period of exclusivity under section 13504,

13511, or 13903 of this title, or the extension of any such period under section 13112 of this title, with respect to an application for a drug product, shall prohibit, limit, or otherwise affect the submission, grant, or effect of a certification under this section, except as provided in subparagraph (A)(i)(VIII) and section 14701(1)(H) of this title.

(4) WITHDRAWAL, SUSPENSION, OR REVOCATION OF APPROVAL.—

(A) WITHDRAWAL OR SUSPENSION OF APPROVAL.—Nothing in this chapter limits the Secretary's authority to withdraw or suspend approval of a drug product, including a designated medical gas deemed under this section to have in effect an approved application under chapter 135 or 137 of this title.

(B) REVOCATION OF CERTIFICATION.—The Secretary may revoke the grant of a certification under paragraph (2) if the Secretary determines that the request for certification contains any material omission or falsification.

(b) PRESCRIPTION REQUIREMENT.—

(1) IN GENERAL.—A designated medical gas shall be subject to the requirements of section 13103(a)(1) of this title unless—

(A) the Secretary exercises the authority provided in section 13103(a)(3) of this title to remove the medical gas from the requirements of section 13103(a)(1) of this title;

(B) the gas is approved for use without a prescription pursuant to an application under chapter 135 or 137 of this title; or

(C) the use in question is authorized pursuant to another provision of this subtitle relating to use of medical products in emergencies.

(2) OXYGEN.—

(A) NO PRESCRIPTION REQUIRED FOR CERTAIN USES.—Notwithstanding paragraph (1), oxygen may be provided without a prescription—

(i) for use in the event of depressurization or other environmental oxygen deficiency; or

(ii) for oxygen deficiency or for use in emergency resuscitation, when administered by properly trained personnel.

(B) LABELING.—For oxygen provided pursuant to subparagraph (A), the requirements of section 13103(a)(4) of this title shall be deemed to have been met if its labeling bears a warning that the oxygen can be used for emergency use only and for all other medical applications a prescription is required.

**§ 14703. Inapplicability of drug fees to designated medical gases**

A designated medical gas, alone or in combination with another designated gas or other designated medical gases (as medically appropriate), deemed under section 14702 of this title to have in effect an approved application shall not be assessed fees under section 17907(a) or 17927(a) of this title on the basis of the deemed approval.

**§ 14704. Rules of construction**

Nothing in this chapter applies with respect to—

(1) a drug that is approved prior to May 1, 2012, pursuant to an application submitted under chapter 135 or 137 of this title;

(2) any gas listed in subparagraphs (A) through (G) of section 14701(1) of this title, or any combination of any such gases, for an indication that—

(A) is not included in, or is different from, those specified in subclauses (I) through (VII) of section 14702(a)(3)(A)(i) of this title; and

(B) is approved on or after May 1, 2012, pursuant to an application submitted under chapter 135 or 137 of this title; or

(3) any designated medical gas added pursuant to subparagraph (H) of section 14701(1) of this title for an indication that—

(A) is not included in, or is different from, those originally added pursuant to sections 14701(1)(H) and 14702(a)(3)(A)(i)(VIII) of this title; and

(B) is approved on or after May 1, 2012, pursuant to an application submitted under chapter 135 or 137 of this title.

# Chapter 149—Pharmaceutical Distribution Supply Chain

Sec.
14901. Definitions.
14902. Requirements.
14903. National standards for prescription drug wholesale distributors.
14904. National standards for third-party logistics providers.
14905. Uniform national policy.

## § 14901. Definitions

In this chapter:

(1) AFFILIATE.—The term ''affiliate'' means a business entity that has a relationship with a second business entity if, directly or indirectly—

(A) 1 business entity controls, or has the power to control, the other business entity; or

(B) a third party controls, or has the power to control, both of the business entities.

(2) AUTHORIZED.—The term ''authorized'' means—

(A) in the case of a manufacturer or repackager, having a valid registration in accordance with section 13136 of this title;

(B) in the case of a wholesale distributor, having a valid license under State law or section 14903 of this title, in accordance with section 14902(a)(6) of this title, and complying with the licensure reporting requirements under section 13103(d) of this title;

(C) in the case of a third-party logistics provider, having a valid license under State law or section 14904(a)(1) of this title, in accordance with section 14902(a)(7) of this title, and complying with the licensure reporting requirements under section 14904(b) of this title; and

(D) in the case of a dispenser, having a valid license under State law.

(3) DISPENSER.—

(A) IN GENERAL.—The term ''dispenser'' means a retail pharmacy, a hospital pharmacy, a group of chain pharmacies under common ownership and control that do not act as a wholesale distributor, or any other person authorized by law to dispense or administer prescription drugs, and the affiliated warehouses or distribution centers of the entities under common ownership and control that do not act as a wholesale distributor.

(B) EXCLUSION.—The term ''dispenser'' does not include a person that dispenses only products to be used in animals in accordance with section 13702(e) of this title.

(4) DISPOSITION.—The term ''disposition'', with respect to a product within the possession or control of an entity, means the removal of the product from the pharmaceutical distribution supply chain, which may include disposal or return of the product for disposal or other appropriate handling and other actions, such as retaining a sample of the product for further additional physical examination

or laboratory analysis of the product by a manufacturer or regulatory or law enforcement agency.

(5) DISTRIBUTION.—

(A) IN GENERAL.—The term ''distribution'' means the sale, purchase, trade, delivery, handling, storage, or receipt of a product.

(B) EXCLUSION.—The term ''distribution'' does not include the dispensing of a product pursuant to a prescription executed in accordance with section 13103(a)(1) of this title or the dispensing of a product approved under section 13703 of this title.

(6) EXCLUSIVE DISTRIBUTOR.—The term ''exclusive distributor'' means the wholesale distributor that directly purchased the product from the manufacturer and is the sole distributor of that manufacturer's product to a subsequent repackager, wholesale distributor, or dispenser.

(7) HOMOGENEOUS CASE.—The term ''homogeneous case'' means a sealed case containing only product that has a single National Drug Code number belonging to a single lot.

(8) ILLEGITIMATE PRODUCT.—The term ''illegitimate product'' means a product for which credible evidence shows that the product—

(A) is counterfeit, diverted, or stolen;

(B) is intentionally adulterated such that the product would result in serious adverse health consequences or death to humans;

(C) is the subject of a fraudulent transaction; or

(D) appears otherwise unfit for distribution such that the product would be reasonably likely to result in serious adverse health consequences or death to humans.

(9) LICENSED.—The term ''licensed'' means—

(A) in the case of a wholesale distributor, having a valid license in accordance with section 13103(d) or 14902(a)(6) of this title, as applicable;

(B) in the case of a third-party logistics provider, having a valid license in accordance with section 14902(a)(7) or 14904(a) of this title, as applicable; or

(C) in the case of a dispenser, having a valid license under State law.

(10) MANUFACTURER.—The term ''manufacturer'', with respect to a product, means—

(A) a person that holds an application approved under chapter 135 of this title or a li-

cense issued under section 351 of the Public Health Service Act (42 U.S.C. 262) for the product, or if the product is not the subject of an approved application or license, the person that manufactured the product;

(B) a co-licensed partner of the person described in subparagraph (A) that obtains the product directly from a person described in this subparagraph or subparagraph (A) or (C); or

(C) an affiliate of a person described in subparagraph (A) or (B) that receives the product directly from a person described in this subparagraph or subparagraph (A) or (B).

(11) PACKAGE.—

(A) IN GENERAL.—The term ''package'' means the smallest individual saleable unit of product for distribution by a manufacturer or repackager that is intended by the manufacturer for ultimate sale to the dispenser of the product.

(B) INDIVIDUAL SALEABLE UNIT.—For purposes of this paragraph, an ''individual saleable unit'' is the smallest container of product introduced into commerce by the manufacturer or repackager that is intended by the manufac-

turer or repackager for individual sale to a dispenser.

(12) PRESCRIPTION DRUG.—The term ''prescription drug'' means a drug for human use subject to section 13103(a)(1) of this title.

(13) PRODUCT.—

(A) IN GENERAL.—The term ''product'' means a prescription drug in a finished dosage form for administration to a patient without substantial further manufacturing (such as capsules, tablets, and lyophilized products before reconstitution).

(B) EXCLUSION.—For purposes of section 14902 of this title, the term ''product'' does not include—

(i) blood or blood components intended for transfusion;

(ii) radioactive drugs or radioactive biological products (as defined in section 600.3(ee) of title 21, Code of Federal Regulations) that are regulated by the Nuclear Regulatory Commission or by a State pursuant to an agreement with the Nuclear Regulatory Commission under section 274

of the Atomic Energy Act of 1954 (42 U.S.C. 2021);

(iii) imaging drugs;

(iv) an intravenous product described in clause (xiv), (xv), or (xvi) of paragraph (24)(B);

(v) any medical gas (as defined in section 14701 of this title);

(vi) homeopathic drugs marketed in accordance with applicable guidance under this subtitle; or

(vii) a drug compounded in compliance with section 13106 or 13107 of this title.

(14) PRODUCT IDENTIFIER.—The term ''product identifier'' means a standardized graphic that includes, in both human-readable form and on a machine-readable data carrier that conforms to the standards developed by a widely recognized international standards development organization, the standardized numerical identifier, lot number, and expiration date of the product.

(15) QUARANTINE.—The term ''quarantine'' means the storage or identification of a product, to prevent distribution or transfer of the product, in a

physically separate area clearly identified for that use or through other procedures.

(16) REPACKAGER.—The term ''repackager'' means a person that owns or operates an establishment that repacks and relabels a product or package for—

(A) further sale; or

(B) distribution without a further transaction.

(17) RETURN.—The term ''return'' means providing product to the authorized immediate trading partner from which the product was purchased or received, or to a returns processor for handling of the product.

(18) RETURNS PROCESSOR.—The term ''returns processor'' means a person that owns or operates an establishment that dispositions or otherwise processes saleable or nonsaleable product received from an authorized trading partner such that the product may be processed for credit to the purchaser, manufacturer, or seller or disposed of for no further distribution.

(19) SPECIFIC PATIENT NEED.—

(A) IN GENERAL.—The term ''specific patient need'' refers to the need for the transfer

of a product from 1 pharmacy to another to fill a prescription for an identified patient.

(B) EXCLUSION.—The term ''specific patient need'' does not include the need for the transfer of a product from 1 pharmacy to another for the purpose of increasing or replenishing stock in anticipation of a potential need.

(20) STANDARDIZED NUMERICAL IDENTIFIER.—The term ''standardized numerical identifier'' means a set of numbers or characters used to uniquely identify each package or homogenous case that is composed of the National Drug Code that corresponds to the specific product (including the particular package configuration) combined with a unique alphanumeric serial number of up to 20 characters.

(21) SUSPECT PRODUCT.—The term ''suspect product'' means a product for which there is reason to believe that the product—

(A) is potentially counterfeit, diverted, or stolen;

(B) is potentially intentionally adulterated such that the product would result in serious adverse health consequences or death to humans;

(C) is potentially the subject of a fraudulent transaction; or

(D) appears otherwise unfit for distribution such that the product would result in serious adverse health consequences or death to humans.

(22) THIRD-PARTY LOGISTICS PROVIDER.—The term ''third-party logistics provider'' means an entity that provides or coordinates warehousing, or other logistics services of a product in interstate commerce on behalf of a manufacturer, wholesale distributor, or dispenser of a product, but does not take ownership of the product, or has no responsibility to direct the sale or disposition of the product.

(23) TRADING PARTNER.—The term ''trading partner'' means—

(A) a manufacturer, repackager, wholesale distributor, or dispenser from whom a manufacturer, repackager, wholesale distributor, or dispenser accepts direct ownership of a product or to whom a manufacturer, repackager, wholesale distributor, or dispenser transfers direct ownership of a product; or

(B) a third-party logistics provider from whom a manufacturer, repackager, wholesale

distributor, or dispenser accepts direct possession of a product or to whom a manufacturer, repackager, wholesale distributor, or dispenser transfers direct possession of a product.

(24) TRANSACTION.—

(A) IN GENERAL.—The term ''transaction'' means the transfer of product between persons in which a change of ownership occurs.

(B) EXCLUSIONS.—The term ''transaction'' does not include—

(i) intracompany distribution of any product between members of an affiliate or within a manufacturer;

(ii) the distribution of a product among hospitals or other health care entities that are under common control;

(iii) the distribution of a product for emergency medical reasons including a public health emergency declaration pursuant to section 319 of the Public Health Service Act (42 U.S.C. 247d), except that a drug shortage not caused by a public health emergency shall not constitute an emergency medical reason;

(iv) the dispensing of a product pursuant to a prescription executed in accordance with section 13103(a)(1) of this title;

(v) the distribution of product samples by a manufacturer or a licensed wholesale distributor in accordance with section 13103(c) of this title;

(vi) the distribution of blood or blood components intended for transfusion;

(vii) the distribution of minimal quantities of product by a licensed retail pharmacy to a licensed practitioner for office use;

(viii) the sale, purchase, or trade of a drug or an offer to sell, purchase, or trade a drug by a charitable organization described in section 501(c)(3) of the Internal Revenue Code of 1986 (26 U.S.C.501(c)(3)) to a nonprofit affiliate of the organization to the extent otherwise permitted by law;

(ix) the distribution of a product pursuant to the sale or merger of a pharmacy or pharmacies or a wholesale distributor or wholesale distributors, except that any

records required to be maintained for the product shall be transferred to the new owner of the pharmacy or pharmacies or wholesale distributor or wholesale distributors;

(x) the dispensing of a product approved under section 13704 of this title;

(xi) the transfer of products to or from any facility that is licensed by the Nuclear Regulatory Commission or by a State pursuant to an agreement with the Nuclear Regulatory Commission under section 274 of the Atomic Energy Act of 1954 (42 U.S.C. 2021);

(xii) a combination product that is not subject to approval under chapter 135 of this title or licensure under section 351 of the Public Health Service Act (42 U.S.C. 262), and that is—

(I) a product comprised of a device and 1 or more other regulated components (such as a drug/device, biologic/device, or drug/device/biologic) that are physically, chemically, or oth-

erwise combined or mixed and produced as a single entity;

(II) 2 or more separate products packaged together in a single package or as a unit and comprised of a drug and device or device and biological product; or

(III) 2 or more finished medical devices plus 1 or more drug or biological products that are packaged together in what is referred to as a ''medical convenience kit'' as described in clause (xiii);

(xiii) the distribution of a collection of finished medical devices, which may include a product or biological product, assembled in kit form strictly for the convenience of the purchaser or user (referred to in this clause as a ''medical convenience kit'') if—

(I) the medical convenience kit is assembled in an establishment that is registered with the FDA as a device manufacturer in accordance with section 13136(b)(2) of this title;

(II) the medical convenience kit does not contain a controlled substance that appears in a schedule contained in division A of subtitle V of this title;

(III) in the case of a medical convenience kit that includes a product, the person that manufactures the medical convenience kit—

(aa) purchased the product directly from the pharmaceutical manufacturer or from a wholesale distributor that purchased the product directly from the pharmaceutical manufacturer; and

(bb) does not alter the primary container or label of the product as purchased from the manufacturer or wholesale distributor; and

(IV) in the case of a medical convenience kit that includes a product, the product is—

(aa) an intravenous solution intended for the replenishment of fluids and electrolytes;

(bb) a product intended to maintain the equilibrium of water and minerals in the body;

(cc) a product intended for irrigation or reconstitution;

(dd) an anesthetic;

(ee) an anticoagulant;

(ff) a vasopressor; or

(gg) a sympathomimetic;

(xiv) the distribution of an intravenous product that, by its formulation, is intended for the replenishment of fluids and electrolytes (such as sodium, chloride, and potassium) or calories (such as dextrose and amino acids);

(xv) the distribution of an intravenous product used to maintain the equilibrium of water and minerals in the body, such as dialysis solutions;

(xvi) the distribution of a product that is intended for irrigation, or sterile water,

whether intended for those purposes or for injection;

(xvii) the distribution of a medical gas (as defined in section 14701 of this title); or

(xviii) the distribution or sale of any licensed product under section 351 of the Public Health Service Act (42 U.S.C. 262) that meets the definition of a device under section 10101(a)(16) of this title.

(25) TRANSACTION HISTORY.—The term ''transaction history'' means a statement in paper or electronic form, including the transaction information for each prior transaction going back to the manufacturer of the product.

(26) TRANSACTION INFORMATION.—The term ''transaction information'' means—

(A) the proprietary or established name or names of the product;

(B) the strength and dosage form of the product;

(C) the National Drug Code number of the product;

(D) the container size;

(E) the number of containers;

(F) the lot number of the product;

(G) the date of the transaction;

(H) the date of the shipment, if more than 24 hours after the date of the transaction;

(I) the business name and address of the person from whom ownership is being transferred; and

(J) the business name and address of the person to whom ownership is being transferred.

(27) TRANSACTION STATEMENT.—The term ''transaction statement'' is a statement, in paper or electronic form, that the entity transferring ownership in a transaction—

(A) is authorized as required under this chapter;

(B) received the product from a person that is authorized as required under this chapter;

(C) received transaction information and a transaction statement from the prior owner of the product, as required under section 14902 of this title;

(D) did not knowingly ship a suspect product or illegitimate product;

(E) had systems and processes in place to comply with verification requirements under section 14902 of this title;

(F) did not knowingly provide false transaction information; and

(G) did not knowingly alter the transaction history.

(28) VERIFICATION.—The term ''verification'' means the determination of whether the product identifier affixed to, or imprinted on, a package or homogeneous case corresponds to the standardized numerical identifier or lot number and expiration date assigned to the product by the manufacturer or the repackager, as applicable in accordance with section 14902 of this title.

(29) WHOLESALE DISTRIBUTOR.—The term ''wholesale distributor'' means a person (other than a manufacturer, a manufacturer's co-licensed partner, a third-party logistics provider, or repackager) engaged in wholesale distribution (as defined in section 13103(d)(1)(B) of this title).

**§ 14902. Requirements**

(a) IN GENERAL.—

(1) COMPLIANCE.—

(A) IN GENERAL.—Each manufacturer, repackager, wholesale distributor, and dispenser shall comply with the requirements set forth in this section with respect to the role of the manufacturer, repackager, wholesale distributor, or dispenser in a transaction involving product.

(B) CERTAIN ENTITIES.—If an entity meets the definition of more than 1 of the entities listed in subparagraph (A), the entity shall comply with all applicable requirements in this section, but shall not be required to duplicate requirements.

(2) INITIAL STANDARDS.—

(A) GUIDANCE.—The Secretary shall, in consultation with other appropriate Federal officials, manufacturers, repackagers, wholesale distributors, dispensers, and other pharmaceutical distribution supply chain stakeholders, issue a draft guidance document that establishes standards for the interoperable exchange of transaction information, transaction history, and transaction statements, in paper or electronic format, for compliance with this subsection and subsections (b), (c), (d), and (e).

(B) STANDARDIZED DOCUMENTATION.—In establishing the standards under subparagraph (A), the Secretary shall consider the feasibility of establishing standardized documentation to be used by members of the pharmaceutical distribution supply chain to convey the transaction information, transaction history, and transaction statement to the subsequent purchaser of a product and to facilitate the exchange of lot level data.

(C) EFFECT OF OTHER STANDARDS.—The standards established under this paragraph shall take into consideration the standards established under section 13115 of this title and shall comply with a form and format developed by a widely recognized international standards development organization.

(3) WAIVERS, EXCEPTIONS, AND EXEMPTIONS.—

(A) IN GENERAL.—The Secretary shall, by guidance—

(i) establish a process by which an authorized manufacturer, repackager, wholesale distributor, or dispenser may request a waiver from any of the requirements set

forth in this section, which the Secretary may grant—

(I) if the Secretary determines that the requirements would result in an undue economic hardship; or

(II) for emergency medical reasons, including a public health emergency declaration pursuant to section 319 of the Public Health Service Act (42 U.S.C. 247d);

(ii) establish a process by which the Secretary determines exceptions, and a process through which a manufacturer or repackager may request such an exception, to the requirements relating to product identifiers if a product is packaged in a container too small or otherwise unable to accommodate a label with sufficient space to bear the information required for compliance with this section; and

(iii) establish a process by which the Secretary may determine other products or transactions that shall be exempt from the requirements of this section.

(B) CONTENT.—The guidance issued under subparagraph (A) shall include a process for the biennial review and renewal of the waivers, exceptions, and exemptions, as applicable.

(C) PROCESS.—In issuing the guidance under this paragraph, the Secretary shall provide an effective date that is not later than 180 days prior to the date on which manufacturers are required to affix or imprint a product identifier to each package and homogenous case of product intended to be introduced in a transaction into commerce consistent with this section.

(4) SELF-EXECUTING REQUIREMENTS.—Except where otherwise specified, the requirements of this section may be enforced without further regulations or guidance from the Secretary.

(5) GRANDFATHERING PRODUCT.—

(A) PRODUCT IDENTIFIER.—The Secretary shall finalize guidance specifying whether and under what circumstances product that is not labeled with a product identifier and that is in the pharmaceutical distribution supply chain at the time of the effective date of the require-

ments of this section shall be exempted from the requirements of this section.

(B) TRACING.—For a product that entered the pharmaceutical distribution supply chain prior to January 1, 2015—

(i) authorized trading partners shall be exempt from providing transaction information as required under subsections (b)(1)(A)(i), (c)(1)(A)(ii), (d)(1)(A)(ii), and (e)(1)(A)(ii);

(ii) transaction history required under this section shall begin with the owner of the product on that date; and

(iii) the owners of the product on that date shall be exempt from asserting receipt of transaction information and transaction statement from the prior owner as required under this section.

(6) WHOLESALE DISTRIBUTOR LICENSES.—Notwithstanding section 14901(9)(A) of this title, until the effective date of the wholesale distributor licensing regulations under section 14903 of this title, the term ''licensed'' or ''authorized'', as it relates to a wholesale distributor with respect to pre-

scription drugs, shall mean a wholesale distributor with a valid license under State law.

(7) THIRD-PARTY LOGISTICS PROVIDER LICENSES.—Until the effective date of the third-party logistics provider licensing regulations under section 14904 of this title, a third-party logistics provider shall be considered ''licensed'' under section 14901(9)(B) of this title unless the Secretary has made a finding that the third-party logistics provider does not utilize good handling and distribution practices and publishes notice of the finding.

(8) LABEL CHANGES.—Changes made to package labels solely to incorporate the product identifier may be submitted to the Secretary in the annual report of an establishment, in accordance with section 314.70(d) of title 21, Code of Federal Regulations (or any successor regulation).

(9) PRODUCT IDENTIFIERS.—With respect to any requirement relating to product identifiers under this chapter—

(A) unless the Secretary allows, through guidance, the use of other technologies for data instead of or in addition to the technologies described in clauses (i) and (ii), the applicable data—

(i) shall be included in a 2-dimensional data matrix barcode when affixed to, or imprinted on, a package; and

(ii) shall be included in a linear or 2-dimensional data matrix barcode when affixed to, or imprinted on, a homogeneous case; and

(B) verification of the product identifier may occur by using human-readable or machine-readable methods.

(b) MANUFACTURER REQUIREMENTS.—

(1) PRODUCT TRACING.—

(A) IN GENERAL.—A manufacturer shall—

(i) prior to, or at the time of, each transaction in which the manufacturer transfers ownership of a product, provide the subsequent owner with transaction history, transaction information, and a transaction statement, in a single document in a paper or electronic format; and

(ii) capture the transaction information (including lot level information), transaction history, and transaction statement for each transaction and maintain the information, history, and statement for

not less than 6 years after the date of the transaction.

(B) REQUESTS FOR INFORMATION.—On a request by the Secretary or other appropriate Federal or State official, in the event of a recall or for the purpose of investigating a suspect product or an illegitimate product, a manufacturer shall, not later than 1 business day, and not to exceed 48 hours, after receiving the request, or in other such reasonable time as determined by the Secretary, based on the circumstances of the request, provide the applicable transaction information, transaction history, and transaction statement for the product.

(C) ELECTRONIC FORMAT.—

(i) IN GENERAL.—Except as provided under clause (ii), a manufacturer shall provide the transaction information, transaction history, and transaction statement required under subparagraph (A)(i) in electronic format.

(ii) EXCEPTION.—A manufacturer may continue to provide the transaction information, transaction history, and transaction statement required under subpara-

graph (A)(i) in a paper format to a licensed health care practitioner authorized to prescribe medication under State law or other licensed individual under the supervision or direction of such a practitioner who dispenses product in the usual course of professional practice.

(2) PRODUCT IDENTIFIER.—

(A) IN GENERAL.—A manufacturer shall affix or imprint a product identifier to each package and homogenous case of a product intended to be introduced in a transaction into commerce. The manufacturer shall maintain the product identifier information for the product for not less than 6 years after the date of the transaction.

(B) EXCEPTION.—A package that is required to have a standardized numerical identifier is not required to have a unique device identifier.

(3) AUTHORIZED TRADING PARTNERS.—The trading partners of a manufacturer may be only authorized trading partners.

(4) VERIFICATION.—A manufacturer shall have systems in place to enable the manufacturer to comply with the following requirements:

(A) SUSPECT PRODUCT.—

(i) IN GENERAL.—On making a determination that a product in the possession or control of the manufacturer is a suspect product, or on receiving a request for verification from the Secretary that has made a determination that a product within the possession or control of a manufacturer is a suspect product, a manufacturer shall—

(I) quarantine the product within the possession or control of the manufacturer from product intended for distribution until the product is cleared or dispositioned; and

(II) promptly conduct an investigation in coordination with trading partners, as applicable, to determine whether the product is an illegitimate product, which shall include validating any applicable transaction history and transaction information in the posses-

sion of the manufacturer and otherwise investigating to determine whether the product is an illegitimate product, and verifying the product at the package level, including the standardized numerical identifier.

(ii) CLEARED PRODUCT.—If the manufacturer makes the determination that a suspect product is not an illegitimate product, the manufacturer shall promptly notify the Secretary, if applicable, of the determination and the product may be further distributed.

(iii) RECORDS.—A manufacturer shall keep records of the investigation of a suspect product for not less than 6 years after the conclusion of the investigation.

(B) ILLEGITIMATE PRODUCT.—

(i) IN GENERAL.—On determining that a product in the possession or control of a manufacturer is an illegitimate product, the manufacturer shall, in a manner consistent with the systems and processes of the manufacturer—

(I) quarantine the product within the possession or control of the manufacturer from product intended for distribution until the product is dispositioned;

(II) disposition the illegitimate product within the possession or control of the manufacturer;

(III) take reasonable and appropriate steps to assist a trading partner to disposition an illegitimate product not in the possession or control of the manufacturer; and

(IV) retain a sample of the product for further physical examination or laboratory analysis of the product by the manufacturer or Secretary (or other appropriate Federal or State official) on request by the Secretary (or other appropriate Federal or State official), as necessary and appropriate.

(ii) NOTIFICATION.—

(I) ILLEGITIMATE PRODUCT.—On determining that a product in the possession or control of the manufac-

turer is an illegitimate product, the manufacturer shall notify the Secretary, and all immediate trading partners that the manufacturer has reason to believe may have received the illegitimate product, of the determination not later than 24 hours after making the determination.

(II) HIGH RISK OF ILLEGITIMACY.—

(aa) HIGH RISK.—In this subclause, the term ''high risk'' may include a specific high risk that could increase the likelihood that illegitimate product will enter the pharmaceutical distribution supply chain and other high risks as determined by the Secretary in guidance pursuant to subsection (h).

(bb) IN GENERAL.—A manufacturer shall notify the Secretary and immediate trading partners that the manufacturer has reason to believe may have in

the trading partner's possession a product manufactured by, or purported to be a product manufactured by, the manufacturer not later than 24 hours after determining or being notified by the Secretary or a trading partner that there is a high risk that the product is an illegitimate product.

(iii) RESPONDING TO A NOTIFICATION.—On the receipt of a notification from the Secretary or a trading partner that a determination has been made that a product is an illegitimate product, a manufacturer shall identify all illegitimate product subject to the notification that is in the possession or control of the manufacturer, including any product that is subsequently received, and shall perform the activities described in subparagraph (A).

(iv) TERMINATING A NOTIFICATION.—On making a determination, in consultation with the Secretary, that a notification is no longer necessary, a manufacturer

shall promptly notify immediate trading partners that the manufacturer notified pursuant to clause (ii) that the notification has been terminated.

(v) RECORDS.—A manufacturer shall keep records of the disposition of an illegitimate product for not less than 6 years after the conclusion of the disposition.

(C) REQUESTS FOR VERIFICATION.—

(i) NOTIFICATION.—On receiving a request for verification from an authorized repackager, wholesale distributor, or dispenser that is in possession or control of a product that the authorized repackager, wholesale distributor, or dispenser believes to be manufactured by the manufacturer, a manufacturer shall, not later than 24 hours after receiving the request for verification or in other such reasonable time as determined by the Secretary, based on the circumstances of the request, notify the authorized repackager, wholesale distributor, or dispenser making the request whether the product identifier, including the standardized numerical identifier, that

is the subject of the request corresponds to the product identifier affixed or imprinted by the manufacturer.

(ii) PRODUCT IDENTIFIER DOES NOT CORRESPOND TO PRODUCT IDENTIFIER AFFIXED OR IMPRINTED BY MANUFACTURER.—If a manufacturer responding to a request for verification identifies a product identifier that does not correspond to that affixed or imprinted by the manufacturer, the manufacturer shall treat the product as suspect product and conduct an investigation as described in subparagraph (A).

(iii) SUSPICION THAT PRODUCT IS ILLEGITIMATE PRODUCT.—If the manufacturer has reason to believe the product is an illegitimate product, the manufacturer shall advise the person making the request of the belief at the time the manufacturer responds to the request for verification.

(D) ELECTRONIC DATABASE.—

(i) IN GENERAL.—A manufacturer may satisfy the requirements of this paragraph by developing a secure electronic

database or utilizing a secure electronic database developed or operated by another entity.

(ii) REQUIREMENTS AND PROCESSES; ACCESS.—The owner of the database shall establish the requirements and processes to respond to requests and may provide for data access to other members of the pharmaceutical distribution supply chain, as appropriate.

(iii) REQUESTS FOR VERIFICATION BY MEANS OTHER THAN SECURE ELECTRONIC DATABASE.—The development and operation of an electronic database under this subparagraph shall not relieve a manufacturer of the requirement under this paragraph to respond to a request for verification submitted by means other than a secure electronic database.

(E) SALEABLE RETURNED PRODUCT.—Except as provided pursuant to subsection (a)(5), on receipt of a returned product that the manufacturer intends to further distribute, before further distributing the product, the manufacturer shall verify the product identifier, includ-

ing the standardized numerical identifier, for each sealed homogeneous case of the product or, if the product is not in a sealed homogeneous case, verify the product identifier, including the standardized numerical identifier, on each package.

(F) NONSALEABLE RETURNED PRODUCT.—A manufacturer may return a nonsaleable product to the manufacturer or repackager, to the wholesale distributor from whom the product was purchased, or to a person acting on behalf of such a person, including a returns processor, without providing the information described in paragraph (1)(A)(i).

(c) WHOLESALE DISTRIBUTOR REQUIREMENTS.—

(1) PRODUCT TRACING.—

(A) IN GENERAL.—The following requirements shall apply to wholesale distributors:

(i) PROVISION OF INFORMATION BY PREVIOUS OWNER TO WHOLESALE DISTRIBUTOR.—A wholesale distributor shall not accept ownership of a product unless the previous owner prior to, or at the time of, the transaction provides the transaction history, transaction information, and a

transaction statement for the product, as applicable under this subparagraph.

(ii) PROVISION OF INFORMATION BY WHOLESALE DISTRIBUTOR TO SUBSEQUENT PURCHASER; DIRECT PURCHASE.—

(I) IN GENERAL.—

(aa) LIST OF INFORMATION.—If the wholesale distributor purchased a product directly from the manufacturer, the exclusive distributor of the manufacturer, or a repackager that purchased directly from the manufacturer, then prior to, or at the time of, each transaction in which the wholesale distributor transfers ownership of a product, the wholesale distributor shall provide to the subsequent purchaser—

(AA) a transaction statement, which shall state that the wholesale distributor, or a member of the affiliate of the wholesale dis-

tributor, purchased the product directly from the manufacturer, exclusive distributor of the manufacturer, or repackager that purchased the product directly from the manufacturer; and

(BB) subject to subclause (II), the transaction history and transaction information.

(bb) FORMAT.—The wholesale distributor shall provide the transaction history, transaction information, and transaction statement under item (aa)—

(AA) if provided to a dispenser, on a single document in a paper or electronic format; and

(BB) if provided to a wholesale distributor, through any combination of self-generated paper, elec-

tronic data, or manufacturer-provided information on the product package.

(II) INFORMATION NOT REQUIRED.—For purposes of transactions described in subclause (I), transaction history and transaction information shall not be required to include the lot number of the product, the initial transaction date, or the initial shipment date from the manufacturer (as defined in subparagraphs (F), (G), and (H) of section 14901(26) of this title).

(iii) PROVISION OF INFORMATION BY WHOLESALE DISTRIBUTOR TO SUBSEQUENT PURCHASER; INDIRECT PURCHASE.—If the wholesale distributor did not purchase a product directly from the manufacturer, the exclusive distributor of the manufacturer, or a repackager that purchased directly from the manufacturer, as described in clause (ii), then prior to, or at the time of, each transaction or subsequent transaction, the wholesale distributor

shall provide to the subsequent purchaser a transaction statement, transaction history, and transaction information, in a paper or electronic format that complies with the guidance document issued under subsection (a)(2).

(iv) TRANSACTION HISTORY RELATING TO DIRECT PURCHASERS.—For the purposes of clause (iii), the transaction history supplied shall begin only with the wholesale distributor described in clause (ii)(I), but the wholesale distributor described in clause (iii) shall inform the subsequent purchaser that the wholesale distributor received a direct purchase statement from a wholesale distributor described in clause (ii)(I).

(v) MAINTENANCE OF INFORMATION; CONFIDENTIALITY.—A wholesale distributor shall—

(I) capture the transaction information (including lot level information) consistent with the requirements of this section, transaction history, and transaction statement for each

transaction described in clauses (i), (ii), and (iii) and maintain the information, history, and statement for not less than 6 years after the date of the transaction; and

(II) maintain the confidentiality of the transaction information (including any lot level information consistent with the requirements of this section), transaction history, and transaction statement for a product in a manner that prohibits disclosure to any person other than the Secretary or other appropriate Federal or State official, except to comply with clauses (ii) and (iii), and, as applicable, pursuant to an agreement under subparagraph (D).

(B) RETURNS.—

(i) SALEABLE RETURNS.—Notwithstanding subparagraph (A)(i), the following shall apply:

(I) REQUIREMENTS.—Until the date that is 6 years after November 27, 2013 (except as provided pursuant

to subsection (a)(5)), a wholesale distributor may accept returned product from a dispenser or repackager pursuant to the terms and conditions of any agreement between the parties, and, notwithstanding subparagraph (A)(ii), may distribute the returned product without providing the transaction history. For transactions subsequent to the return, the transaction history of the product shall begin with the wholesale distributor that accepted the returned product, consistent with the requirements of this subsection.

(II) ENHANCED REQUIREMENTS.—Beginning 6 years after November 27, 2013 (except as provided pursuant to subsection (a)(5)), a wholesale distributor may accept returned product from a dispenser or repackager only if the wholesale distributor can associate returned product with the transaction information and transaction statement associated with that product. For all trans-

actions after that date, the transaction history, as applicable, of the product shall begin with the wholesale distributor that accepted and verified the returned product. For purposes of this subparagraph, the transaction information and transaction history, as applicable, need not include transaction dates if it is not reasonably practicable to obtain the dates.

(ii) NONSALEABLE RETURNS.—A wholesale distributor may return a nonsaleable product to the manufacturer or repackager, to the wholesale distributor from whom the product was purchased, or to a person acting on behalf of the manufacturer, repackager, or wholesale distributor from whom the product was purchased, including a returns processor, without providing the information required under subparagraph (A)(i).

(C) REQUESTS FOR INFORMATION.—On a request by the Secretary or other appropriate Federal or State official, in the event of a recall or for the purpose of investigating a suspect

product or an illegitimate product, a wholesale distributor shall, not later than 1 business day, and not to exceed 48 hours, after receiving the request or in other such reasonable time as determined by the Secretary, based on the circumstances of the request, provide the applicable transaction information, transaction history, and transaction statement for the product.

(D) TRADING PARTNER AGREEMENTS.—

(i) IN GENERAL.—A wholesale distributor may disclose the transaction information, including lot level information, transaction history, or transaction statement of a product to the subsequent purchaser of the product, pursuant to a written agreement between the wholesale distributor and the subsequent purchaser.

(ii) EFFECT OF SUBPARAGRAPH.—Nothing in this subparagraph shall be construed to limit the applicability of subparagraphs (A) through (C).

(2) PRODUCT IDENTIFIER.—A wholesale distributor may engage in transactions involving a product only if the product is encoded with a prod-

uct identifier (except as provided pursuant to subsection (a)(5)).

(3) AUTHORIZED TRADING PARTNERS.—The trading partners of a wholesale distributor may be only authorized trading partners.

(4) VERIFICATION.—A wholesale distributor shall have systems in place to enable the wholesale distributor to comply with the following requirements:

(A) SUSPECT PRODUCT.—

(i) IN GENERAL.—On making a determination that a product in the possession or control of a wholesale distributor is a suspect product, or on receiving a request for verification from the Secretary that has made a determination that a product within the possession or control of a wholesale distributor is a suspect product, a wholesale distributor shall—

(I) quarantine the product within the possession or control of the wholesale distributor from product intended for distribution until the product is cleared or dispositioned; and

(II) promptly conduct an investigation in coordination with trading partners, as applicable, to determine whether the product is an illegitimate product, which shall include validating any applicable transaction history and transaction information in the possession of the wholesale distributor and otherwise investigating to determine whether the product is an illegitimate product, and, except as provided pursuant to subsection (a)(5), verifying the product at the package level, including the standardized numerical identifier.

(ii) CLEARED PRODUCT.—If the wholesale distributor determines that a suspect product is not an illegitimate product, the wholesale distributor shall promptly notify the Secretary, if applicable, of the determination and the product may be further distributed.

(iii) RECORDS.—A wholesale distributor shall keep records of the investigation of a suspect product for not less than

6 years after the conclusion of the investigation.

(B) ILLEGITIMATE PRODUCT.—

(i) IN GENERAL.—On determining, in coordination with the manufacturer, that a product in the possession or control of a wholesale distributor is an illegitimate product, the wholesale distributor shall, in a manner that is consistent with the systems and processes of the wholesale distributor—

(I) quarantine the product within the possession or control of the wholesale distributor from product intended for distribution until the product is dispositioned;

(II) disposition the illegitimate product within the possession or control of the wholesale distributor;

(III) take reasonable and appropriate steps to assist a trading partner to disposition an illegitimate product not in the possession or control of the wholesale distributor; and

(IV) retain a sample of the product for further physical examination or laboratory analysis of the product by the manufacturer or Secretary (or other appropriate Federal or State official) on request by the manufacturer or Secretary (or other appropriate Federal or State official), as necessary and appropriate.

(ii) NOTIFICATION.—On determining that a product in the possession or control of the wholesale distributor is an illegitimate product, the wholesale distributor shall notify the Secretary, and all immediate trading partners that the wholesale distributor has reason to believe may have received the illegitimate product, of the determination not later than 24 hours after making the determination.

(iii) RESPONDING TO A NOTIFICATION.—On the receipt of a notification from the Secretary or a trading partner that a determination has been made that a product is an illegitimate product, a wholesale distributor shall identify all illegit-

imate product subject to the notification that is in the possession or control of the wholesale distributor, including any product that is subsequently received, and shall perform the activities described in subparagraph (A).

(iv) TERMINATING A NOTIFICATION.—On making a determination, in consultation with the Secretary, that a notification is no longer necessary, a wholesale distributor shall promptly notify immediate trading partners that the wholesale distributor notified pursuant to clause (ii) that the notification has been terminated.

(v) RECORDS.—A wholesale distributor shall keep records of the disposition of an illegitimate product for not less than 6 years after the conclusion of the disposition.

(C) ELECTRONIC DATABASE.—

(i) IN GENERAL.—A wholesale distributor may satisfy the requirements of this paragraph by developing a secure electronic database or utilizing a secure elec-

tronic database developed or operated by another entity.

(ii) REQUIREMENTS AND PROCESSES; ACCESS.—The owner of the database shall establish the requirements and processes to respond to requests and may provide for data access to other members of the pharmaceutical distribution supply chain, as appropriate.

(iii) REQUESTS FOR VERIFICATION BY MEANS OTHER THAN SECURE ELECTRONIC DATABASE.—The development and operation of an electronic database under this subparagraph shall not relieve a wholesale distributor of the requirement under this paragraph to respond to a verification request submitted by means other than a secure electronic database.

(D) VERIFICATION OF SALEABLE RETURNED PRODUCT.—On receipt of a returned product that the wholesale distributor intends to further distribute, before further distributing the product, the wholesale distributor shall verify the product identifier, including the standardized numerical identifier, for each

sealed homogeneous case of the product or, if the product is not in a sealed homogeneous case, verify the product identifier, including the standardized numerical identifier, on each package.

(d) DISPENSER REQUIREMENTS.—

(1) PRODUCT TRACING.—

(A) IN GENERAL.—A dispenser—

(i) shall not accept ownership of a product, unless the previous owner prior to, or at the time of, the transaction, provides transaction history, transaction information, and a transaction statement;

(ii) prior to, or at the time of, each transaction in which the dispenser transfers ownership of a product (but not including dispensing to a patient or returns), shall provide the subsequent owner with transaction history, transaction information, and a transaction statement for the product, except that the requirements of this clause shall not apply to sales by a dispenser to another dispenser to fulfill a specific patient need; and

(iii) shall capture transaction information (including lot level information, if provided), transaction history, and transaction statements, as necessary to investigate a suspect product, and maintain the information, history, and statements for not less than 6 years after the transaction.

(B) AGREEMENTS WITH THIRD PARTIES.—A dispenser may enter into a written agreement with a third party, including an authorized wholesale distributor, under which the third party confidentially maintains the transaction information, transaction history, and transaction statements required to be maintained under this subsection on behalf of the dispenser. If a dispenser enters into such an agreement, the dispenser shall maintain a copy of the written agreement and shall not be relieved of the obligations of the dispenser under this subsection.

(C) RETURNS.—

(i) SALEABLE RETURNS.—A dispenser may return product to the trading partner from which the dispenser obtained the

product without providing the information required under subparagraph (A).

(ii) NONSALEABLE RETURNS.—A dispenser may return a nonsaleable product to the manufacturer or repackager, to the wholesale distributor from whom the product was purchased, to a returns processor, or to a person acting on behalf of the manufacturer, repackager, wholesale distributor from whom the product was purchased, or returns processor without providing the information required under subparagraph (A).

(D) REQUESTS FOR INFORMATION.—

(i) IN GENERAL.—On a request by the Secretary or other appropriate Federal or State official, in the event of a recall or for the purpose of investigating a suspect or an illegitimate product, a dispenser shall, not later than 2 business days after receiving the request or in another such reasonable time as determined by the Secretary, based on the circumstances of the request, provide the applicable transaction information, transaction statement, and trans-

action history that the dispenser received from the previous owner, which shall not include the lot number of the product, the initial transaction date, or the initial shipment date from the manufacturer unless the information was included in the transaction information, transaction statement, and transaction history provided by the manufacturer or wholesale distributor to the dispenser.

(ii) FORMAT.—The dispenser may respond to the request by providing the applicable information in either paper or electronic format.

(iii) TEMPORARY LIMITATION ON CERTAIN REQUIREMENTS.—Until the date that is 4 years after November 27, 2013, the Secretary or other appropriate Federal or State official shall grant a dispenser additional time, as necessary, only with respect to a request to provide lot level information described in subparagraph (F) of section 14901(26) of this title that was provided to the dispenser in paper format, shall limit the request time period to the 6

months preceding the request or other relevant date, and, in the event of a recall, may request information only if the recall involves a serious adverse health consequence or death to humans.

(2) PRODUCT IDENTIFIER.—A dispenser may engage in transactions involving a product only if the product is encoded with a product identifier (except as provided pursuant to subsection (a)(5)).

(3) AUTHORIZED TRADING PARTNERS.—The trading partners of a dispenser may be only authorized trading partners.

(4) VERIFICATION.—A dispenser shall have systems in place to enable the dispenser to comply with the following requirements:

(A) SUSPECT PRODUCT.—

(i) IN GENERAL.—On making a determination that a product in the possession or control of the dispenser is a suspect product, or on receiving a request for verification from the Secretary that has made a determination that a product within the possession or control of a dispenser is a suspect product, a dispenser shall—

(I) quarantine the product within the possession or control of the dispenser from product intended for distribution until the product is cleared or dispositioned; and

(II) promptly conduct an investigation in coordination with trading partners, as applicable, to determine whether the product is an illegitimate product.

(ii) INVESTIGATION.—An investigation conducted under clause (i)(II) shall include—

(I) verifying whether the lot number of a suspect product corresponds with the lot number for the product;

(II) verifying that the product identifier, including the standardized numerical identifier, of at least 3 packages or 10 percent of the suspect product, whichever is greater, or all packages, if there are fewer than 3, corresponds with the product identifier for the product;

(III) validating any applicable transaction history and transaction information in the possession of the dispenser; and

(IV) otherwise investigating to determine whether the product is an illegitimate product.

(iii) CLEARED PRODUCT.—If the dispenser makes the determination that a suspect product is not an illegitimate product, the dispenser shall promptly notify the Secretary, if applicable, of the determination and the product may be further distributed or dispensed.

(iv) RECORDS.—A dispenser shall keep records of the investigation of a suspect product for not less than 6 years after the conclusion of the investigation.

(B) ILLEGITIMATE PRODUCT.—

(i) IN GENERAL.—On determining, in coordination with the manufacturer, that a product in the possession or control of a dispenser is an illegitimate product, the dispenser shall—

(I) disposition the illegitimate product within the possession or control of the dispenser;

(II) take reasonable and appropriate steps to assist a trading partner to disposition an illegitimate product not in the possession or control of the dispenser; and

(III) retain a sample of the product for further physical examination or laboratory analysis of the product by the manufacturer or Secretary (or other appropriate Federal or State official) on request by the manufacturer or Secretary (or other appropriate Federal or State official), as necessary and appropriate.

(ii) NOTIFICATION.—On determining that a product in the possession or control of the dispenser is an illegitimate product, the dispenser shall notify the Secretary, and all immediate trading partners that the dispenser has reason to believe may have received the illegitimate product, of

the determination not later than 24 hours after making the determination.

(iii) RESPONDING TO A NOTIFICATION.—On the receipt of a notification from the Secretary or a trading partner that a determination has been made that a product is an illegitimate product, a dispenser shall identify all illegitimate product subject to the notification that is in the possession or control of the dispenser, including any product that is subsequently received, and shall perform the activities described in subparagraph (A).

(iv) TERMINATING A NOTIFICATION.—On making a determination, in consultation with the Secretary, that a notification is no longer necessary, a dispenser shall promptly notify immediate trading partners that the dispenser notified pursuant to clause (ii) that the notification has been terminated.

(v) RECORDS.—A dispenser shall keep records of the disposition of an illegitimate product for not less than 6 years after the conclusion of the disposition.

(C) ELECTRONIC DATABASE.—A dispenser may satisfy the requirements of this paragraph by developing a secure electronic database or utilizing a secure electronic database developed or operated by another entity.

(5) EXCEPTION.—Notwithstanding any other provision of law, the requirements under paragraphs (1) and (4) shall not apply to licensed health care practitioners authorized to prescribe or administer medication under State law or other licensed individuals under the supervision or direction of the practitioners who dispense or administer product in the usual course of professional practice.

(e) REPACKAGER REQUIREMENTS.—

(1) PRODUCT TRACING.—

(A) IN GENERAL.—A repackager described in section 14901(16)(A) of this title shall—

(i) not accept ownership of a product unless the previous owner, prior to, or at the time of, the transaction, provides transaction history, transaction information, and a transaction statement for the product;

(ii) prior to, or at the time of, each transaction in which the repackager trans-

fers ownership of a product, provide the subsequent owner with transaction history, transaction information, and a transaction statement for the product; and

(iii) capture the transaction information (including lot level information), transaction history, and transaction statement for each transaction described in clauses (i) and (ii) and maintain the information, history, and statement for not less than 6 years after the transaction.

(B) RETURNS.—

(i) NONSALEABLE PRODUCT.—A repackager described in section 14901(16)(A) of this title may return a nonsaleable product to the manufacturer or repackager, or to the wholesale distributor from whom the product was purchased, or to a person acting on behalf of the manufacturer, repackager, or wholesale distributor from whom the product was purchased, including a returns processor, without providing the information required under subparagraph (A)(ii).

(ii) SALEABLE OR NONSALEABLE PRODUCT.—A repackager described in section 14901(16)(B) of this title may return a saleable or nonsaleable product to the manufacturer, repackager, or wholesale distributor from whom the product was received without providing the information required under subparagraph (A)(ii) on behalf of the hospital or other health care entity that took ownership of the product pursuant to the terms and conditions of any agreement between the repackager and the entity that owns the product.

(C) REQUESTS FOR INFORMATION.—On a request by the Secretary or other appropriate Federal or State official, in the event of a recall or for the purpose of investigating a suspect product or an illegitimate product, a repackager described in section 14901(16)(A) of this title shall, not later than 1 business day, and not to exceed 48 hours, after receiving the request or in other such reasonable time as determined by the Secretary, provide the applicable transaction information, transaction history, and transaction statement for the product.

(2) PRODUCT IDENTIFIER.—

(A) IN GENERAL.—A repackager described in section 14901(16)(A) of this title—

(i) shall affix or imprint a product identifier to each package and homogenous case of product intended to be introduced in a transaction in commerce;

(ii) shall maintain the product identifier information for the product for not less than 6 years after the date of the transaction;

(iii) may engage in transactions involving a product only if the product is encoded with a product identifier (except as provided pursuant to subsection (a)(5)); and

(iv) shall maintain records for not less than 6 years to allow the repackager to associate the product identifier the repackager affixes or imprints with the product identifier assigned by the original manufacturer of the product.

(B) EXCEPTION.—A package that is required to have a standardized numerical identi-

fier is not required to have a unique device identifier.

(3) AUTHORIZED TRADING PARTNERS.—The trading partners of a repackager described in section 14901(16) of this title may be only authorized trading partners.

(4) VERIFICATION.—A repackager described in section 14901(16)(A) of this title shall have systems in place to enable the repackager to comply with the following requirements:

(A) SUSPECT PRODUCT.—

(i) IN GENERAL.—On making a determination that a product in the possession or control of the repackager is a suspect product, or on receiving a request for verification from the Secretary that has made a determination that a product within the possession or control of a repackager is a suspect product, a repackager shall—

(I) quarantine the product within the possession or control of the repackager from product intended for distribution until the product is cleared or dispositioned; and

(II) promptly conduct an investigation in coordination with trading partners, as applicable, to determine whether the product is an illegitimate product, which shall include—

(aa) validating any applicable transaction history and transaction information in the possession of the repackager and otherwise investigating to determine whether the product is an illegitimate product; and

(bb) except as provided pursuant to subsection (a)(5), verifying the product at the package level, including the standardized numerical identifier.

(ii) CLEARED PRODUCT.—If the repackager makes the determination that a suspect product is not an illegitimate product, the repackager shall promptly notify the Secretary, if applicable, of the determination and the product may be further distributed.

(iii) RECORDS.—A repackager shall keep records of the investigation of a suspect product for not less than 6 years after the conclusion of the investigation.

(B) ILLEGITIMATE PRODUCT.—

(i) IN GENERAL.—On determining, in coordination with the manufacturer, that a product in the possession or control of a repackager is an illegitimate product, the repackager shall, in a manner that is consistent with the systems and processes of the repackager—

(I) quarantine the product within the possession or control of the repackager from product intended for distribution until the product is dispositioned;

(II) disposition the illegitimate product within the possession or control of the repackager;

(III) take reasonable and appropriate steps to assist a trading partner to disposition an illegitimate product not in the possession or control of the repackager; and

(IV) retain a sample of the product for further physical examination or laboratory analysis of the product by the manufacturer or Secretary (or other appropriate Federal or State official) on request by the manufacturer or Secretary (or other appropriate Federal or State official), as necessary and appropriate.

(ii) NOTIFICATION.—On determining that a product in the possession or control of the repackager is an illegitimate product, the repackager shall notify the Secretary, and all immediate trading partners that the repackager has reason to believe may have received the illegitimate product, of the determination not later than 24 hours after making the determination.

(iii) RESPONDING TO A NOTIFICATION.—On the receipt of a notification from the Secretary or a trading partner, a repackager shall identify all illegitimate product subject to the notification that is in the possession or control of the repackager, including any product that is subse-

quently received, and shall perform the activities described in subparagraph (A).

(iv) TERMINATING A NOTIFICATION.—On making a determination, in consultation with the Secretary, that a notification is no longer necessary, a repackager shall promptly notify immediate trading partners that the repackager notified pursuant to clause (ii) that the notification has been terminated.

(v) RECORDS.—A repackager shall keep records of the disposition of an illegitimate product for not less than 6 years after the conclusion of the disposition.

(C) REQUESTS FOR VERIFICATION.—

(i) NOTIFICATION.—On receiving a request for verification from an authorized manufacturer, wholesale distributor, or dispenser that is in possession or control of a product the manufacturer, wholesale distributor, or dispenser believes to be repackaged by the repackager, a repackager shall, not later than 24 hours after receiving the verification request or in other such reasonable time as determined by the Sec-

retary, based on the circumstances of the request, notify the authorized manufacturer, wholesale distributor, or dispenser making the request whether the product identifier, including the standardized numerical identifier, that is the subject of the request corresponds to the product identifier affixed or imprinted by the repackager.

(ii) PRODUCT IDENTIFIER DOES NOT CORRESPOND TO PRODUCT IDENTIFIER AFFIXED OR IMPRINTED BY REPACKAGER.—If a repackager responding to a verification request identifies a product identifier that does not correspond to that affixed or imprinted by the repackager, the repackager shall treat the product as suspect product and conduct an investigation as described in subparagraph (A).

(iii) SUSPICION THAT PRODUCT IS ILLEGITIMATE PRODUCT.—If the repackager has reason to believe the product is an illegitimate product, the repackager shall advise the person making the request of that belief at the time the repackager responds to the verification request.

(D) ELECTRONIC DATABASE.—

(i) IN GENERAL.—A repackager may satisfy the requirements of this paragraph by developing a secure electronic database or utilizing a secure electronic database developed or operated by another entity.

(ii) REQUIREMENTS AND PROCESSES; ACCESS.—The owner of the database shall establish the requirements and processes to respond to requests and may provide for data access to other members of the pharmaceutical distribution supply chain, as appropriate.

(iii) REQUESTS FOR VERIFICATION BY MEANS OTHER THAN SECURE ELECTRONIC DATABASE.—The development and operation of an electronic database under this subparagraph shall not relieve a repackager of the requirement under subparagraph (C) to respond to a verification request submitted by means other than a secure electronic database.

(E) VERIFICATION OF SALEABLE RETURNED PRODUCT.—On receipt of a returned product that the repackager intends to further

distribute, before further distributing the product, the repackager shall verify the product identifier for each sealed homogeneous case of the product or, if the product is not in a sealed homogeneous case, verify the product identifier on each package.

(f) DROP SHIPMENTS.—

(1) IN GENERAL.—A wholesale distributor that does not physically handle or store product shall be exempt from this section except the notification requirements under clauses (ii), (iii), and (iv) of subsection (c)(4)(B), provided that the manufacturer, repackager, or other wholesale distributor that distributes the product to the dispenser by means of a drop shipment for the wholesale distributor includes on the transaction information and transaction history to the dispenser the contact information of the wholesale distributor and provides the transaction information, transaction history, and transaction statement directly to the dispenser.

(2) CLARIFICATION.—For purposes of this subsection, providing administrative services, including processing of orders and payments, shall not by itself, be construed as being involved in the handling, distribution, or storage of a product.

(g) ENHANCED DRUG DISTRIBUTION SECURITY.—

(1) IN GENERAL.—On the date that is 10 years after November 27, 2013, the following interoperable, electronic tracing of product at the package level requirements shall go into effect:

(A) EXCHANGE OF TRANSACTION INFORMATION AND TRANSACTION STATEMENTS.—The transaction information and the transaction statements as required under this section shall be exchanged in a secure, interoperable, electronic manner in accordance with the standards established under the guidance issued pursuant to paragraphs (3) and (4) of subsection (h), including any revision of the guidance issued in accordance with paragraph (5) of subsection (h).

(B) INCLUSION OF PRODUCT IDENTIFIER IN TRANSACTION INFORMATION.—The transaction information required under this section shall include the product identifier at the package level for each package included in the transaction.

(C) SYSTEMS AND PROCESSES FOR VERIFICATION OF PRODUCT AT PACKAGE LEVEL.—Systems and processes for verification

of product at the package level, including the standardized numerical identifier, shall be required in accordance with the standards established under the guidance issued pursuant to subsection (a)(2) and the guidances issued pursuant to paragraphs (2), (3), and (4) of subsection (h), including any revision of the guidances issued in accordance with paragraph (5) of subsection (h), which may include the use of aggregation and inference as necessary.

(D) SYSTEMS AND PROCESSES FOR RESPONDING ON REQUEST.—The systems and processes necessary to promptly respond with the transaction information and transaction statement for a product on a request by the Secretary (or other appropriate Federal or State official) in the event of a recall or for the purposes of investigating a suspect product or an illegitimate product shall be required.

(E) SYSTEMS AND PROCESSES FOR PROMPT FACILITATION OF GATHERING INFORMATION.—The systems and processes necessary to promptly facilitate gathering the information necessary to produce the transaction informa-

tion for each transaction going back to the manufacturer, as applicable, shall be required—

(i) in the event of a request by the Secretary (or other appropriate Federal or State official), on account of a recall or for the purposes of investigating a suspect product or an illegitimate product; or

(ii) in the event of a request by an authorized trading partner, in a secure manner that ensures the protection of confidential commercial information and trade secrets, for purposes of investigating a suspect product or assisting the Secretary (or other appropriate Federal or State official) with a request described in clause (i).

(F) ACCEPTANCE OF SALEABLE RETURNS.—Each person accepting a saleable return shall have systems and processes in place to allow acceptance of the product and may accept saleable returns only if the person can associate the saleable return product with the transaction information and transaction statement associated with that product.

(2) COMPLIANCE.—

(A) INFORMATION MAINTENANCE AGREEMENT.—A dispenser may enter into a written agreement with a third party, including an authorized wholesale distributor, under which the third party shall confidentially maintain any information and statements required to be maintained under this section. If a dispenser enters into such an agreement, the dispenser shall maintain a copy of the written agreement and shall not be relieved of the obligations of the dispenser under this subsection.

(B) ALTERNATIVE METHODS.—The Secretary, taking into consideration the assessment conducted under paragraph (3), shall provide for alternative methods of compliance with any of the requirements set forth in paragraph (1), including—

(i) establishing timelines for compliance by small businesses (including small business dispensers with 25 or fewer full-time employees) with the requirements, in order to ensure that the requirements do not impose undue economic hardship for small businesses, including small business dispensers for whom the criteria set forth

in the assessment under paragraph (3) are not met, if the Secretary determines that the requirements under paragraph (1) would result in undue economic hardship; and

(ii) establishing a process by which a dispenser may request a waiver from any of the requirements set forth in paragraph (1) if the Secretary determines that the requirements would result in an undue economic hardship, which shall include a process for the biennial review and renewal of the waiver.

(3) ASSESSMENT.—

(A) IN GENERAL.—Not later than the date that is 18 months after the Secretary issues the final guidance required under subsection (h), the Secretary shall enter into a contract with a private, independent consulting firm with expertise to conduct a technology and software assessment that looks at the feasibility of dispensers with 25 or fewer full-time employees conducting interoperable, electronic tracing of products at the package level. The assessment

shall be completed not later than 8½ years after November 27, 2013.

(B) CONDITION.—As a condition of the award of the contract under subparagraph (A), the private, independent consulting firm shall agree to consult with dispensers with 25 or fewer full-time employees when conducting the assessment under the subparagraph.

(C) CONTENT.—The assessment under subparagraph (A) shall assess whether—

(i) the necessary software and hardware is readily accessible to the dispensers;

(ii) the necessary software and hardware is prohibitively expensive to obtain, install, and maintain for the dispensers; and

(iii) the necessary hardware and software can be integrated into business practices, such as interoperability with wholesale distributors, for the dispensers.

(D) PUBLICATION.—The Secretary shall—

(i) publish the statement of work for the assessment under subparagraph (A) for public comment prior to beginning the assessment;

(ii) publish the final assessment for public comment not later than 30 calendar days after receiving the assessment; and

(iii) hold a public meeting not later than 180 calendar days after receiving the final assessment at which public stakeholders may present their views on the assessment.

(4) PROCEDURE.—Notwithstanding section 553 of title 5, the Secretary, in promulgating any regulation pursuant to this section, shall—

(A) provide appropriate flexibility by—

(i) not requiring the adoption of specific business systems for the maintenance and transmission of data;

(ii) prescribing alternative methods of compliance for any of the requirements set forth in paragraph (1) or set forth in regulations implementing the requirements, including—

(I) timelines for small businesses to comply with the requirements set forth in the regulations in order to ensure that the requirements do not impose undue economic hardship for

small businesses (including small business dispensers for whom the criteria set forth in the assessment under paragraph (3) are not met), if the Secretary determines that the requirements would result in undue economic hardship; and

(II) the establishment of a process by which a dispenser may request a waiver from any of the requirements set forth in the regulations if the Secretary determines that the requirements would result in an undue economic hardship; and

(iii) taking into consideration—

(I) the results of pilot projects, including pilot projects pursuant to this section and private sector pilot projects, including those involving the use of aggregation and inference;

(II) the public meetings held and related guidance documents issued under this section;

(III) the public health benefits of any additional regulations in compari-

son to the cost of compliance with the requirements, including on entities of varying sizes and capabilities;

(IV) the diversity of the pharmaceutical distribution supply chain by providing appropriate flexibility for each sector, including both large and small businesses; and

(V) the assessment pursuant to paragraph (3) with respect to small business dispensers, including related public comment and the public meeting, and requirements under this section;

(B) issue a notice of proposed rulemaking that includes a copy of the proposed regulation;

(C) provide a period of not less than 60 days for comments on the proposed regulation; and

(D) publish in the Federal Register the final regulation not less than 2 years prior to the effective date of the regulation.

(h) GUIDANCE DOCUMENTS.—

(1) IN GENERAL.—For the purposes of facilitating the successful and efficient adoption of se-

cure, interoperable product tracing at the package level in order to enhance drug distribution security and further protect the public health, the Secretary shall issue the guidance documents as provided for in this subsection.

(2) SUSPECT PRODUCT AND ILLEGITIMATE PRODUCT.—

(A) IN GENERAL.—The Secretary shall issue a guidance document to aid trading partners in the identification of a suspect product and notification termination. The guidance document shall—

(i) identify specific scenarios that could significantly increase the risk of a suspect product entering the pharmaceutical distribution supply chain;

(ii) provide a recommendation on how trading partners may identify the product and make a determination on whether the product is a suspect product as soon as practicable; and

(iii) set forth the process by which manufacturers, repackagers, wholesale distributors, and dispensers shall terminate notifications in consultation with the Sec-

retary regarding illegitimate product pursuant to subsections (b)(4)(B), (c)(4)(B), (d)(4)(B), and (e)(4)(B).

(B) REVISED GUIDANCE.—If the Secretary revises the guidance issued under subparagraph (A), the Secretary shall follow the procedure set forth in paragraph (5).

(3) UNIT LEVEL TRACING.—

(A) IN GENERAL.—In order to enhance drug distribution security at the package level, not later than 18 months after conducting a public meeting on the system attributes necessary to enable secure tracing of product at the package level, including allowing for the use of verification, inference, and aggregation, as necessary, the Secretary shall issue a final guidance document that outlines and makes recommendations with respect to the system attributes necessary to enable secure tracing at the package level as required under the requirements established under subsection (g). The guidance document shall—

(i) define the circumstances under which the sectors within the pharmaceutical distribution supply chain may, in

the most efficient manner practicable, infer the contents of a case, pallet, tote, or other aggregate of individual packages or containers of product, from a product identifier associated with the case, pallet, tote, or other aggregate, without opening each case, pallet, tote, or other aggregate or otherwise individually scanning each package;

(ii) identify methods and processes to enhance secure tracing of product at the package level, such as secure processes to facilitate the use of inference, enhanced verification activities, the use of aggregation and inference, processes that utilize the product identifiers to enhance tracing of product at the package level, including the standardized numerical identifier, or package security features; and

(iii) ensure the protection of confidential commercial information and trade secrets.

(B) PROCEDURE.—In issuing the guidance under subparagraph (A), and in revising the

guidance, if applicable, the Secretary shall follow the procedure set forth in paragraph (5).

(4) STANDARDS FOR INTEROPERABLE DATA EXCHANGE.—

(A) IN GENERAL.—In order to enhance secure tracing of a product at the package level, the Secretary, not later than 18 months after conducting a public meeting on the interoperable standards necessary to enhance the security of the pharmaceutical distribution supply chain, shall update the guidance issued pursuant to subsection (a)(2), as necessary and appropriate, and finalize the guidance document so that the guidance document—

(i) identifies and makes recommendations with respect to the standards necessary for adoption in order to support the secure, interoperable electronic data exchange among the pharmaceutical distribution supply chain that comply with a form and format developed by a widely recognized international standards development organization;

(ii) takes into consideration standards established pursuant to subsection (a)(2) and section 13115 of this title;

(iii) facilitates the creation of a uniform process or methodology for product tracing; and

(iv) ensures the protection of confidential commercial information and trade secrets.

(B) PROCEDURE.—In issuing the guidance under subparagraph (A), and in revising the guidance, if applicable, the Secretary shall follow the procedure set forth in paragraph (5).

(5) PROCEDURE.—In issuing or revising any guidance issued pursuant to this subsection or subsection (g), except the initial guidance issued under paragraph (2)(A), the Secretary shall—

(A) publish a notice in the Federal Register for a period not less than 30 days announcing that the draft or revised draft guidance is available;

(B) post the draft guidance document on the FDA website and make the draft guidance document available in hard copy;

(C) provide an opportunity for comment and review and take into consideration any comments received;

(D) revise the draft guidance, as appropriate;

(E) publish a notice in the Federal Register for a period not less than 30 days announcing that the final guidance or final revised guidance is available;

(F) post the final guidance document on the FDA website and make the final guidance document available in hard copy; and

(G) provide for an effective date of not earlier than 1 year after the guidance becomes final.

(i) PUBLIC MEETINGS.—

(1) IN GENERAL.—The Secretary shall hold not less than 5 public meetings to enhance the safety and security of the pharmaceutical distribution supply chain and provide for comment. The Secretary may hold the first public meeting not earlier than 1 year after November 27, 2013. In carrying out the public meetings described in this paragraph, the Secretary shall—

(A) prioritize topics necessary to inform the issuance of the guidance described in paragraphs (3) and (4) of subsection (h); and

(B) take all measures reasonable and practicable to ensure the protection of confidential commercial information and trade secrets.

(2) CONTENT.—Each of the following topics shall be addressed in at least 1 of the public meetings described in paragraph (1):

(A) An assessment of the steps taken under subsections (b) through (e) to build capacity for a unit-level system, including the impact of the requirements of the subsections on—

(i) the ability of the health care system collectively to maintain patient access to medicines;

(ii) the scalability of the requirements, including as it relates to product lines; and

(iii) the capability of different sectors and subsectors, including both large and small businesses, to affix and utilize the product identifier.

(B) The system attributes necessary to support the requirements set forth under sub-

section (g), including the standards necessary for adoption in order to support the secure, interoperable electronic data exchange among sectors within the pharmaceutical distribution supply chain.

(C) Best practices in each of the different sectors within the pharmaceutical distribution supply chain to implement the requirements of this section.

(D) The costs and benefits of the implementation of this section, including the impact on each pharmaceutical distribution supply chain sector and on public health.

(E) Whether electronic tracing requirements, including tracing of product at the package level, are feasible, cost effective, and needed to protect the public health.

(F) The systems and processes needed to utilize the product identifiers to enhance tracing of product at the package level, including allowing for verification, aggregation, and inference, as necessary.

(G) The technical capabilities and legal authorities, if any, needed to establish an inter-

operable, electronic system that provides for tracing of product at the package level.

(H) The impact that the additional requirements would have on patient safety, the drug supply, cost and regulatory burden, and timely patient access to prescription drugs.

(I) Other topics, as determined appropriate by the Secretary.

(j) PILOT PROJECTS.—

(1) IN GENERAL.—The Secretary shall establish 1 or more pilot projects, in coordination with authorized manufacturers, repackagers, wholesale distributors, and dispensers, to explore and evaluate methods to enhance the safety and security of the pharmaceutical distribution supply chain. The projects shall build on efforts, in existence as of November 27, 2013, to enhance the safety and security of the pharmaceutical distribution supply chain, take into consideration any pilot projects conducted prior to November 27, 2013, including any pilot projects that use aggregation and inference, and inform the draft and final guidance under paragraphs (3) and (4) of subsection (h).

(2) CONTENT.—

(A) IN GENERAL.—The Secretary shall ensure that the pilot projects under paragraph (1) reflect the diversity of the pharmaceutical distribution supply chain and that the pilot projects, when taken as a whole, include participants representative of every sector, including both large and small businesses.

(B) PROJECT DESIGN.—The pilot projects under paragraph (1) shall be designed to—

(i) utilize the product identifier for tracing of a product, which may include verification of the product identifier of a product, including the use of aggregation and inference;

(ii) improve the technical capabilities of each sector and subsector to comply with systems and processes needed to utilize the product identifiers to enhance tracing of a product;

(iii) identify system attributes that are necessary to implement the requirements established under this section; and

(iv) complete other activities as determined by the Secretary.

(k) SUNSET.—The following requirements shall have no force or effect beginning on the date that is 10 years after November 27, 2013:

(1) The provision and receipt of transaction history under this section.

(2) The requirements set forth for returns under subsections (b)(4)(E), (c)(1)(B)(i), (d)(1)(C)(i), and (e)(4)(E).

(3) The requirements set forth under subparagraphs (A)(v)(II) and (D) of subsection (c)(1), as applied to lot level information only.

(l) RULE OF CONSTRUCTION.—The requirements set forth in subsections (g)(4), (i), and (j) shall not be construed as a condition, prohibition, or precedent for precluding or delaying the provisions becoming effective pursuant to subsection (g).

(m) REQUESTS FOR INFORMATION.—On the date that is 10 years after November 27, 2013, the timeline for responses to requests for information from the Secretary, or other appropriate Federal or State official, as applicable, under subsections (b)(1)(B), (c)(1)(C), and (e)(1)(C) shall be not later than 24 hours after receiving the request from the Secretary or other appropriate Federal or State official, as applicable, or in such other rea-

sonable time as determined by the Secretary based on the circumstances of the request.

**§ 14903. National standards for prescription drug wholesale distributors**

(a) IN GENERAL.—The Secretary shall, not later than 2 years after November 27, 2013, establish by regulation standards for the licensing of persons under section 13103(d)(2) of this title, including the revocation, reissuance, and renewal of a license under the section.

(b) CONTENT.—For the purpose of ensuring uniformity with respect to standards set forth in this section, the standards established under subsection (a) shall apply to all State and Federal licenses described under section 13103(d)(2) of this title and shall include standards for the following:

(1) The storage and handling of prescription drugs, including facility requirements.

(2) The establishment and maintenance of records of the distributions of the drugs described in paragraph (1).

(3) The furnishing of a bond or other equivalent means of security, as follows:

(A)(i) For the issuance or renewal of a wholesale distributor license, an applicant that is not a government owned and operated whole-

sale distributor shall submit a surety bond of $100,000 or other equivalent means of security acceptable to the State.

(ii) For purposes of clause (i), the State or other applicable authority may accept a surety bond in the amount of $25,000 if the annual gross receipts of the previous tax year for the wholesaler is $10,000,000 or less.

(B) If a wholesale distributor can provide evidence that it possesses the required bond in a State, the requirement for a bond in another State shall be waived.

(4) Mandatory background checks and fingerprinting of facility managers or designated representatives.

(5) The establishment and implementation of qualifications for key personnel.

(6) The mandatory physical inspection of any facility to be used in wholesale distribution within a reasonable timeframe from the initial application of the facility and to be conducted by the licensing authority or by the State, consistent with subsection (c).

(7) In accordance with subsection (d), the prohibition of certain persons from receiving or maintaining licensure for wholesale distribution.

(c) INSPECTIONS.—To satisfy the inspection requirement under subsection (b)(6), the Federal or State licensing authority may—

(1) conduct the inspection; or

(2) accept an inspection by—

(A) the State in which the facility is located; or

(B) a third-party accreditation or inspection service approved by the Secretary or the State licensing the wholesale distributor.

(d) PROHIBITED PERSONS.—The standards established under subsection (a) shall include requirements to prohibit a person from receiving or maintaining licensure for wholesale distribution if the person—

(1) has been convicted of any felony for conduct relating to wholesale distribution, any felony violation of paragraph (9) or (11) of section 10501 of this title, or any felony violation of section 1365 of title 18 relating to product tampering; or

(2) has engaged in a pattern of violating the requirements of this section, or State requirements for

licensure, that presents a threat of serious adverse health consequences or death to humans.

(e) PROCEDURE.—The Secretary, in promulgating any regulation pursuant to this section, shall, notwithstanding section 553 of title 5—

(1) issue a notice of proposed rulemaking that includes a copy of the proposed regulation;

(2) provide a period of not less than 60 days for comments on the proposed regulation; and

(3) provide that the final regulation take effect on the date that is 2 years after the date the final regulation is published.

**§ 14904. National standards for third-party logistics providers**

(a) REQUIREMENTS.—A third-party logistics provider in any State shall not conduct activities in any State unless each facility of the third-party logistics provider—

(1)(A) is licensed by the State from which the drug is distributed by the third-party logistics provider, in accordance with the regulations promulgated under subsection (d); or

(B) if the State from which the drug distributed by the third-party logistics provider has not established a licensure requirement, is licensed by the

Secretary, in accordance with the regulations promulgated under subsection (d); and

(2) if the drug is distributed interstate, is licensed by the State into which the drug is distributed by the third-party logistics provider if the State licenses third-party logistics providers that distribute drugs into the State and the third-party logistics provider is not licensed by the Secretary as described in paragraph (1)(B).

(b) REPORTING.—A facility of a third-party logistics provider shall report to the Secretary, on an annual basis pursuant to a schedule determined by the Secretary—

(1) the State by which the facility is licensed and the appropriate identification number of the license; and

(2) the name and address of the facility and all trade names under which the facility conducts business.

(c) COSTS.—

(1) LICENSING BY SECRETARY; AUTHORIZED FEES OF SECRETARY.—

(A) IN GENERAL.—If a State does not establish a licensing program for a third-party logistics provider, the Secretary shall license the third-party logistics provider located in the

State and may collect a reasonable fee in the amount necessary to reimburse the Secretary for costs associated with establishing and administering the licensure program and conducting periodic inspections under this section.

(B) ANNUAL ADJUSTMENT OF FEE RATES.—The Secretary shall adjust fee rates as needed on an annual basis to generate only the amount of revenue needed to perform the service described in subparagraph (A).

(C) AVAILABILITY.—Fees authorized under this paragraph shall be collected and available for obligation only to the extent and in the amount provided in advance in appropriations Acts. The fees are authorized to remain available until expended. Such amounts as may be necessary may be transferred from the FDA salaries and expenses appropriation account without fiscal year limitation to the appropriation account for salaries and expenses with fiscal year limitation.

(2) STATE LICENSING FEES.—

(A) STATE-ESTABLISHED PROGRAM.—Nothing in this subtitle shall prohibit a State that has established a program to license a

third-party logistics provider from collecting fees from a third-party logistics provider for the license.

(B) NO STATE-ESTABLISHED PROGRAM.—A State that does not establish a program to license a third-party logistics provider in accordance with this section shall be prohibited from collecting a State licensing fee from a third-party logistics provider.

(d) REGULATIONS.—

(1) IN GENERAL.—Not later than 2 years after November 27, 2013, the Secretary shall issue regulations regarding the standards for licensing under subsection (a), including the revocation and reissuance of the license, to third-party logistics providers under this section.

(2) CONTENT.—The regulations under paragraph (1) shall—

(A) establish a process by which a third-party accreditation program approved by the Secretary shall, on request by a third-party logistics provider, issue a license to each third-party logistics provider that meets the requirements set forth in this section;

(B) establish a process by which the Secretary shall issue a license to each third-party logistics provider that meets the requirements set forth in this section if the Secretary is not able to approve a third-party accreditation program because no such program meets the Secretary's requirements necessary for approval of a third-party accreditation program;

(C) require that the entity complies with storage practices, as determined by the Secretary for the facility, including—

(i) maintaining access to warehouse space of suitable size to facilitate safe operations, including a suitable area to quarantine suspect product;

(ii) maintaining adequate security; and

(iii) having written policies and procedures to—

(I) address receipt, security, storage, inventory, shipment, and distribution of a product;

(II) identify, record, and report confirmed losses or thefts in the United States;

(III) correct errors and inaccuracies in inventories;

(IV) provide support for manufacturer recalls;

(V) prepare for, protect against, and address any reasonably foreseeable crisis that affects security or operation at the facility, such as a strike, fire, or flood;

(VI) ensure that any expired product is segregated from other products and returned to the manufacturer or repackager or destroyed;

(VII) maintain the capability to trace the receipt and outbound distribution of a product, and supplies and records of inventory; and

(VIII) quarantine or destroy a suspect product if directed to do so by the respective manufacturer, wholesale distributor, dispenser, or an authorized government agency;

(D) provide for periodic inspection by the licensing authority, as determined by the Sec-

retary, of the facility warehouse space to ensure compliance with this section;

(E) prohibit a facility from having as a manager or designated representative anyone convicted of any felony violation of paragraph (9) or (11) of section 10501 of this title or any violation of section 1365 of title 18, relating to product tampering;

(F) provide for mandatory background checks of a facility manager or a designated representative of the manager;

(G) require a third-party logistics provider to provide the applicable licensing authority, on a request by the authority, a list of all product manufacturers, wholesale distributors, and dispensers for whom the third-party logistics provider provides services at the facility; and

(H) include procedures under which any third-party logistics provider license—

(i) expires on the date that is 3 years after issuance of the license; and

(ii) may be renewed for additional 3-year periods.

(3) PROCEDURE.—In promulgating the regulations under this subsection, the Secretary shall, notwithstanding section 553 of title 5—

(A) issue a notice of proposed rulemaking that includes a copy of the proposed regulation;

(B) provide a period of not less than 60 days for comments on the proposed regulation; and

(C) provide that the final regulation takes effect on the expiration of 1 year after the date that the final regulation is issued.

(e) VALIDITY.—A license issued under this section shall remain valid as long as the third-party logistics provider remains licensed consistent with this section. If the Secretary finds that the third-party accreditation program demonstrates that all applicable requirements for licensure under this section are met, the Secretary shall issue a license under this section to a third-party logistics provider receiving accreditation, pursuant to subsection (d)(2)(A).

**§ 14905. Uniform national policy**

(a) PRODUCT TRACING AND OTHER REQUIREMENTS.—A State or political subdivision of a State shall not establish or continue in effect any requirements for tracing products through the distribution system (including any requirements with respect to statements of dis-

tribution history, transaction history, transaction information, or transaction statement of a product as the product changes ownership in the supply chain, or verification, investigation, disposition, notification, or recordkeeping relating to the systems, including paper or electronic pedigree systems or for tracking and tracing drugs throughout the distribution system)—

(1) that are inconsistent with, more stringent than, or in addition to, any requirements applicable under this chapter or section 13103(d) of this title (or regulations issued under this chapter or section 13103(d) of this title); or

(2) that are inconsistent with—

(A) any waiver, exception, or exemption pursuant to section 14901 or 14902 of this title; or

(B) any restrictions specified in section 14902 of this title.

(b) WHOLESALE DISTRIBUTOR AND THIRD-PARTY LOGISTICS PROVIDER STANDARDS.—

(1) IN GENERAL.—A State or political subdivision of a State shall not establish or continue any standards, requirements, or regulations with respect to wholesale prescription drug distributor or third-party logistics provider licensure that are incon-

sistent with, less stringent than, directly related to, or covered by the standards and requirements applicable under section 13103(d) of this title, in the case of a wholesale distributor, or section 14904 of this title, in the case of a third-party logistics provider.

(2) STATE REGULATION OF THIRD-PARTY LOGISTICS PROVIDERS.—A State shall not regulate third-party logistics providers as wholesale distributors.

(3) ADMINISTRATION FEES.—Notwithstanding paragraph (1), a State may administer fee collections for effectuating the wholesale drug distributor and third-party logistics provider licensure requirements under sections 13103(d), 14903, and 14904 of this title.

(4) ENFORCEMENT, SUSPENSION, AND REVOCATION.—Notwithstanding paragraph (1), a State—

(A) may take administrative action, including fines, to enforce a requirement promulgated by the State in accordance with this chapter or section 13103(d) of this title;

(B) may provide for the suspension or revocation of licenses issued by the State for violations of the laws of the State;

(C) on conviction of violations of Federal, State, or local drug laws or regulations, may provide for fines, imprisonment, or civil penalties; and

(D) may regulate activities of licensed entities in a manner that is consistent with product tracing requirements under section 14902 of this title.

(c) EXCEPTION.—Nothing in this section shall be construed to preempt State requirements related to the distribution of prescription drugs if the requirements are not related to product tracing as described in subsection (a) or wholesale distributor and third-party logistics provider licensure as described in subsection (b) applicable under this chapter or section 13103(d) of this title (or regulations issued under this chapter or section 13103(d) of this title).

# Chapter 151—Nonprescription Sunscreen and Other Active Ingredients

Sec.
15101. Definitions.
15102. Submission of requests.

15104. GRASE determination.
15105. Guidance; other provisions.
15106. Effect of sections.
15107. Non-sunscreen time and extent applications.
15108. Report.
15109. Sunset.

**§ 15101. Definitions**

In this chapter:

(1) ADVISORY COMMITTEE.—The term ''Advisory Committee'' means the Nonprescription Drug Advisory Committee of the FDA or any successor to the Advisory Committee.

(2) FINAL SUNSCREEN ORDER.—The term ''final sunscreen order'' means an order published by the Secretary in the Federal Register containing information stating that a nonprescription sunscreen active ingredient or combination of nonprescription sunscreen active ingredients—

(A) is GRASE and is not misbranded if marketed in accordance with the order; or

(B) is not GRASE and is misbranded.

(3) GRASE.—The term ''GRASE'' means generally recognized, among experts qualified by scientific training and experience to evaluate the safety and effectiveness of drugs, as safe and effective for use under the conditions prescribed, recommended, or suggested in the labeling of a drug as described in section 10101(a)(34) of this title.

(4) GRASE DETERMINATION.—The term ''GRASE determination'' means, with respect to a nonprescription active ingredient or a combination of nonprescription active ingredients, a determination

of whether the ingredient or combination of ingredients is GRASE.

(5) NONPRESCRIPTION.—The term ''nonprescription'' means not subject to section 13103(a)(1) of this title.

(6) PENDING REQUEST.—The term ''pending request'' means each request with respect to a nonprescription sunscreen active ingredient submitted under section 330.14 of title 21, Code of Federal Regulations, as in effect on November 26, 2014, for consideration for inclusion in the over-the-counter drug monograph system—

(A) that was determined to be eligible for the review by publication of a notice of eligibility in the Federal Register prior to November 26, 2014; and

(B) for which safety and effectiveness data have been submitted to the Secretary prior to November 26, 2014.

(7) PROPOSED SUNSCREEN ORDER.—The term ''proposed sunscreen order'' means an order containing a tentative determination published by the Secretary in the Federal Register containing information proposing that a nonprescription sunscreen

active ingredient or combination of nonprescription sunscreen active ingredients—

(A) is GRASE and is not misbranded if marketed in accordance with the order;

(B) is not GRASE and is misbranded; or

(C) is not GRASE and is misbranded because the data are insufficient to classify the ingredient or combination of ingredients as GRASE and not misbranded and additional information is necessary to allow the Secretary to determine otherwise.

(8) SPONSOR.—The term ''sponsor'' means the person that submitted—

(A) a request under section 15102 of this title;

(B) a pending request; or

(C) any other application subject to this chapter.

(9) SUNSCREEN.—The term ''sunscreen'' means a drug containing 1 or more sunscreen active ingredients.

(10) SUNSCREEN ACTIVE INGREDIENT.—The term ''sunscreen active ingredient'' means an active ingredient that is intended for application to the

skin of humans for purposes of absorbing, reflecting, or scattering ultraviolet radiation.

**§ 15102. Submission of requests**

Any person may submit a request to the Secretary for a determination of whether a nonprescription sunscreen active ingredient or a combination of nonprescription sunscreen active ingredients, for use under specified conditions, to be prescribed, recommended, or suggested in the labeling of the ingredient or combination of ingredients (including dosage form, dosage strength, and route of administration) is GRASE and should be included in part 352 of title 21, Code of Federal Regulations, or any successor regulations, concerning nonprescription sunscreen.

**§ 15103. Eligibility determinations; data submission; filing**

(a) ELIGIBILITY DETERMINATIONS.—

(1) IN GENERAL.—Not later than 60 calendar days after the date of receipt of a request under section 15102 of this title, the Secretary shall—

(A) determine, in accordance with paragraph (2), whether the request is eligible for further review under subsection (b) and section 15104 of this title;

(B) notify the sponsor of the determination of the Secretary; and

(C) make the determination publicly available in accordance with paragraph (3) and subsection (b)(1).

(2) CRITERIA FOR ELIGIBILITY.—

(A) IN GENERAL.—To be eligible for review under subsection (b) and section 15104 of this title, a request shall be for a nonprescription sunscreen active ingredient or combination of nonprescription sunscreen active ingredients, for use under specified conditions to be prescribed, recommended, or suggested in the labeling of the ingredient or combination of ingredients, that—

(i) is not included in part 352 of title 21, Code of Federal Regulations, or any successor regulations, concerning nonprescription sunscreen; and

(ii) has been used to a material extent and for a material time under the conditions, as described in section 10101(a)(34)(A)(ii) of this title.

(B) ESTABLISHMENT OF TIME AND EXTENT.—A sponsor shall include in a request

under section 15102 of this title the information required under section 330.14 of title 21, Code of Federal Regulations, or any successor regulations, to meet the standard described in subparagraph (A)(ii).

(3) PUBLIC AVAILABILITY.—

(A) REDACTIONS FOR CONFIDENTIAL INFORMATION.—If a nonprescription sunscreen active ingredient or combination of nonprescription sunscreen active ingredients is determined under paragraph (1)(A) to be eligible for further review, the Secretary shall make the request publicly available, with redactions for information that is treated as confidential under section 552(b) of title 5, section 1905 of title 18, or section 10501(10) of this title.

(B) IDENTIFICATION OF CONFIDENTIAL INFORMATION BY SPONSOR.—At the time that a request is made under section 15102 of this title, the sponsor of the request shall identify any information that the sponsor considers to be confidential information described in subparagraph (A).

(C) CONFIDENTIALITY DURING ELIGIBILITY REVIEW.—The information contained in

a request under section 15102 of this title shall remain confidential during the Secretary's consideration under this section of whether the request is eligible for further review consistent with section 330.14 of title 21, Code of Federal Regulations, or any successor regulations.

(b) DATA SUBMISSION AND FILING OF REQUESTS.—

(1) IN GENERAL.—In the case of a request under section 15102 of this title that is determined to be eligible under subsection (a) for further review under this section and section 15104 of this title, the Secretary shall, in notifying the public under subsection (a)(1)(C) of the eligibility determination, post the eligibility determination on the FDA website, invite the sponsor of the request and any other interested party to submit comments, and provide a period of not less than 45 calendar days for comments in support of or otherwise relating to a GRASE determination, including published and unpublished data and other information related to the safety and efficacy of the request.

(2) FILING DETERMINATION.—Not later than 60 calendar days after the submission of data and other information described in paragraph (1) by the sponsor, the Secretary shall determine whether the

data and other information submitted by the sponsor under this section are sufficiently complete, including being formatted in a manner that enables the Secretary to determine the completeness of the data and information, to enable the Secretary to conduct a substantive review under section 15104 of this title with respect to the request. Not later than 60 calendar days after the submission of data and other information described in paragraph (1) by the sponsor, if the Secretary determines—

(A) that the data and other information are sufficiently complete, the Secretary shall—

(i) issue a written notification, to the sponsor, of the determination to file the request, and make the notification publicly available; and

(ii) file the request made under section 15102 of this title; or

(B) that the data and other information are not sufficiently complete, the Secretary shall issue a written notification to the sponsor of the determination to refuse to file the request, which shall include the reasons for the refusal, including why the data and other infor-

mation are not sufficiently complete, and make the notification publicly available.

(3) REFUSAL TO FILE A REQUEST.—

(A) REQUEST FOR MEETINGS; SUBMISSION OF ADDITIONAL DATA OR OTHER INFORMATION.—If the Secretary refuses to file a request made under section 15102 of this title, the sponsor may—

(i) within 30 calendar days of receipt of written notification of the refusal, request, in writing, a meeting with the Secretary regarding the filing determination; and

(ii) submit additional data or other information.

(B) MEETINGS.—

(i) IN GENERAL.—If a sponsor seeks a meeting under subparagraph (A)(i), the Secretary shall convene the meeting within 30 calendar days of the request for the meeting.

(ii) ACTIONS AFTER MEETING.—Following any meeting held under clause (i)—

(I) the Secretary may file the request within 60 calendar days;

(II) the sponsor may submit additional data or other information; or

(III) if the sponsor elects, within 120 calendar days, to have the Secretary file the request (with or without amendments to correct any purported deficiencies to the request)—

(aa) the Secretary shall file the request over protest, not later than 30 calendar days after the sponsor makes the election;

(bb) at the time of filing, the Secretary shall provide written notification of the filing to the sponsor; and

(cc) the Secretary shall make the notification publicly available.

(iii) REQUESTS FILED OVER PROTEST.—The Secretary shall not require the sponsor to resubmit a copy of the request for purposes of filing a request filed over protest, as described in clause (ii)(III).

(C) SUBMISSIONS OF ADDITIONAL DATA OR OTHER INFORMATION.—Within 60 calendar

days of any submission of additional data or other information under subparagraph (A)(ii) or (B)(ii)(II), the Secretary shall reconsider the previous determination made under paragraph (2) with respect to the applicable request and make a new determination in accordance with paragraph (2).

(4) PUBLIC AVAILABILITY.—

(A) REDACTIONS FOR CONFIDENTIAL INFORMATION.—After the period of confidentiality described in subsection (a)(3)(C), the Secretary shall make data and other information submitted in connection with a request under section 15102 of this title publicly available, with redactions for information that is treated as confidential under section 552(b) of title 5, section 1905 of title 18, or section 10501(10) of this title.

(B) IDENTIFICATION OF CONFIDENTIAL INFORMATION BY SPONSOR.—A person submitting information under this section shall identify at the time of the submission the portions of the information that the person considers to be confidential information described in subparagraph (A).

**§ 15104. GRASE determination**

(a) REVIEW OF NEW REQUEST.—

(1) PROPOSED SUNSCREEN ORDER.—In the case of a request under section 15102 of this title, not later than 300 calendar days after the date on which the request is filed under subsection (b)(2)(A) or (b)(3)(B)(ii)(III) of section 15103 of this title, the Secretary—

(A) may convene a meeting of the Advisory Committee to review the request; and

(B) shall complete the review of the request and issue a proposed sunscreen order with respect to the request.

(2) PROPOSED SUNSCREEN ORDER BY COMMISSIONER.—

(A) NOTIFICATION AND REQUEST FOR REVIEW.—If the Secretary does not issue a proposed sunscreen order under paragraph (1)(B) within the 300-day period, the sponsor of the request may notify the Office of the Commissioner of the request and request review by the Office of the Commissioner.

(B) ISSUANCE.—If the sponsor notifies the Office of the Commissioner under subparagraph (A), the Commissioner shall, not later than 60 calendar days after the date of notification

under this paragraph, issue a proposed sunscreen order with respect to the request.

(3) PUBLIC COMMENT PERIOD.—A proposed sunscreen order issued under paragraph (1)(B) or (2) with respect to a request shall provide for a period of 45 calendar days for public comment.

(4) MEETING.—A sponsor may request, in writing, a meeting with respect to a proposed sunscreen order issued under this subsection and described in subparagraph (B) or (C) of section 15101(7) of this title, not later than 30 calendar days after the Secretary issues the order. The Secretary shall convene a meeting with the sponsor not later than 45 calendar days after the request for a meeting.

(5) FINAL SUNSCREEN ORDER.—With respect to a proposed sunscreen order under paragraph (1)(B) or (2)—

(A) the Secretary shall issue a final sunscreen order—

(i) in the case of a proposed sunscreen order described in subparagraph (A) or (B) of section 15101(7) of this title, not later than 90 calendar days after the end of the public comment period under paragraph (3); or

(ii) in the case of a proposed sunscreen order described in subparagraph (C) of section 15101(7) of this title, not later than 210 calendar days after the date on which the sponsor submits the additional information requested pursuant to the proposed sunscreen order; or

(B) if the Secretary does not issue the final sunscreen order within the 90-calendar day period or 210-calendar-day period, as applicable, the sponsor of the request may notify the Office of the Commissioner of the request and request review by the Office of the Commissioner.

(6) FINAL SUNSCREEN ORDER BY COMMISSIONER.—The Commissioner shall issue a final sunscreen order with respect to a proposed sunscreen order subject to paragraph (5)(B) not later than 60 calendar days after the date of notification under paragraph (5)(B).

(b) REVIEW OF PENDING REQUESTS.—

(1) IN GENERAL.—The Secretary shall carry out the review of a pending request in accordance with this subsection.

(2) INAPPLICABILITY OF CERTAIN PROVISIONS.—Sections 15102 and 15103 of this title shall not apply with respect to any pending request.

(3) FEEDBACK LETTERS AS PROPOSED SUNSCREEN ORDER.—Notwithstanding the requirements of section 15101(7) of this title, a letter issued pursuant to section 330.14(g) of title 21, Code of Federal Regulations, before November 26, 2014, with respect to a pending request, shall be deemed to be a proposed sunscreen order and displayed on the FDA website. Notification of the availability of the letter shall be published in the Federal Register not later than 45 calendar days after November 26, 2014.

(4) PROPOSED SUNSCREEN ORDER.—In the case of a pending request for which the Secretary has not issued a letter pursuant to section 330.14(g) of title 21, Code of Federal Regulations, before November 26, 2014, the Secretary shall complete review of the request and, not later than 90 calendar days after November 26, 2014, issue a proposed sunscreen order with respect to the request.

(5) PROPOSED SUNSCREEN ORDER BY COMMISSIONER.—If the Secretary does not issue a proposed sunscreen order under paragraph (4), or the Sec-

retary does not publish a notification of the availability of a letter under paragraph (3), as applicable, the sponsor of the request may notify the Office of the Commissioner of the request and request review by the Office of the Commissioner. The Commissioner shall, not later than 60 calendar days after the date of notification under this paragraph, issue a proposed order with respect to the request.

(6) PUBLIC COMMENT PERIOD.—A proposed sunscreen order issued under paragraph (4) or (5), or a notification of the availability of a letter under paragraph (3), with respect to a pending request shall provide for a period of 45 calendar days for public comment.

(7) MEETING.—

(A) IN GENERAL.—A sponsor may request, in writing, a meeting with respect to a proposed sunscreen order issued under this subsection, including a letter deemed to be a proposed sunscreen order under paragraph (3), not later than 30 calendar days after the Secretary issues the order or the date on which the feedback letter is deemed to be a proposed sunscreen order, as applicable. The Secretary shall convene a meeting with the sponsor not later

than 45 calendar days after the date of the request for a meeting.

(B) CONFIDENTIAL MEETINGS.—

(i) REQUEST BY SPONSOR.—A sponsor may request 1 or more confidential meetings with respect to a proposed sunscreen order, including a letter deemed to be a proposed sunscreen order under paragraph (3), to discuss matters relating to data requirements to support a general recognition of safety and effectiveness involving confidential information and public information related to the proposed sunscreen order, as appropriate.

(ii) TIMING.—The Secretary shall convene a confidential meeting with the sponsor in a reasonable time period.

(iii) REQUEST FOR MORE THAN 1 MEETING.—If a sponsor requests more than 1 confidential meeting for the same proposed sunscreen order, the Secretary may refuse to grant an additional confidential meeting request—

(I) if the Secretary determines that the additional confidential meet-

ing is not reasonably necessary for the sponsor to advance its proposed sunscreen order; or

(II) if the request for a confidential meeting fails to include sufficient information on which to base a substantive discussion.

(iv) PUBLICATION OF POST-MEETING SUMMARY.—The Secretary shall publish a post-meeting summary of each confidential meeting under this subparagraph that does not disclose confidential commercial information or trade secrets.

(v) OTHER LAWS.—This subparagraph does not authorize the disclosure of confidential commercial information or trade secrets subject to section 552(b)(4) of title 5 or section 1905 of title 18.

(8) ADVISORY COMMITTEE MEETING.—In the case of a proposed sunscreen order under paragraph (3), (4), or (5), an Advisory Committee meeting may be convened for the purpose of reviewing and providing recommendations regarding the pending request.

(9) FINAL SUNSCREEN ORDER.—In the case of a proposed sunscreen order under paragraph (3), (4), or (5)—

(A) the Secretary shall issue a final sunscreen order with respect to the request—

(i) in the case of a proposed sunscreen order described in subparagraph (A) or (B) of section 15101(7) of this title, not later than 90 calendar days after the end of the public comment period under paragraph (6); or

(ii) in the case of a proposed sunscreen order described in subparagraph (C) of section 15101(7) of this title—

(I) if the Advisory Committee is not convened under paragraph (8), not later than 210 calendar days after the date on which the sponsor submits the additional information requested pursuant to the proposed sunscreen order, which shall include a rationale for not convening the Advisory Committee; or

(II) if the Advisory Committee is convened under paragraph (8), not

later than 270 calendar days after the date on which the sponsor submits the additional information; or

(B) if the Secretary does not issue the final sunscreen order within the 90-calendar day period, 210-calendar day period, or 270-calendar-day period, as applicable, the sponsor of the request may notify the Office of the Commissioner about the request and request review by the Office of the Commissioner.

(10) FINAL SUNSCREEN ORDER BY COMMISSIONER.—The Commissioner shall issue a final sunscreen order with respect to a proposed sunscreen order subject to paragraph (9)(B) not later than 60 calendar days after the date of notification under paragraph (9)(B).

(c) ADVISORY COMMITTEE.—The Secretary shall not be required to—

(1) convene the Advisory Committee—

(A) more than once with respect to any request under section 15102 of this title or any pending request; or

(B) more than twice in any calendar year with respect to the review under this section; or

(2) submit more than a total of 3 requests under section 15102 of this title or pending requests to the Advisory Committee per meeting.

(d) NO DELEGATION.—Any responsibility vested in the Commissioner by paragraph (2) or (6) of subsection (a) or paragraph (5) or (10) of subsection (b) shall not be delegated.

(e) EFFECT OF FINAL SUNSCREEN ORDER.—

(1) IN GENERAL.—

(A) SUNSCREEN ACTIVE INGREDIENTS DETERMINED TO BE GRASE.—On issuance of a final sunscreen order determining that a nonprescription sunscreen active ingredient or combination of nonprescription sunscreen active ingredients is GRASE and is not misbranded, a sunscreen containing the ingredient or combination of ingredients shall be permitted to be introduced or delivered into interstate commerce for use under the conditions described in the final sunscreen order, in accordance with all requirements applicable to drugs not subject to section 13103(a)(1) of this title, for so long as the final sunscreen order remains in effect.

(B) SUNSCREEN ACTIVE INGREDIENTS DETERMINED NOT TO BE GRASE.—On issuance of

a final sunscreen order determining that a nonprescription sunscreen active ingredient or combination of nonprescription sunscreen active ingredients is not GRASE and is misbranded, a sunscreen containing the ingredient or combination of ingredients shall not be introduced or delivered into interstate commerce, for use under the conditions described in the final sunscreen order, unless an application is approved pursuant to chapter 135 of this title with respect to a sunscreen containing the ingredient or combination of ingredients, or unless conditions are later established under which the ingredient or combination of ingredients is later determined to be GRASE and not misbranded under the over-the-counter drug monograph system.

(2) AMENDMENTS TO FINAL SUNSCREEN ORDERS.—

(A) AMENDMENTS AT INITIATIVE OF SECRETARY.—In the event that information relevant to a nonprescription sunscreen active ingredient or combination of nonprescription sunscreen active ingredients becomes available to the Secretary after issuance of a final sunscreen

order, the Secretary may amend the final sunscreen order by issuing a new proposed sunscreen order under subsection (a)(1) and following the procedures set forth in this section.

(B) PETITION TO AMEND FINAL ORDER.—Any interested person may petition the Secretary to amend a final sunscreen order under section 10.30 of title 21, Code of Federal Regulations (or any successor regulations). If the Secretary grants any petition under that section, the Secretary shall initiate the process for amending a final sunscreen order by issuing a new proposed sunscreen order under subsection (a)(1) and following the procedures set forth in this section.

(C) APPLICABILITY OF FINAL ORDERS.—Once the Secretary issues a new proposed sunscreen order to amend a final sunscreen order under subparagraph (A) or (B), the final sunscreen order shall remain in effect and paragraph (3) shall not apply to the final sunscreen order until the Secretary has issued a new final sunscreen order or has determined not to amend the final sunscreen order.

(3) RELATIONSHIP TO ORDERS UNDER SECTION 13118 OF THIS TITLE.—A final sunscreen order shall be deemed to be a final order under section 13118 of this title.

(f) EXCLUSIVITY.—

(1) IN GENERAL.—A final sunscreen order shall have the effect of authorizing solely the order requestor (or the licensees, assignees, or successors in interest of the requestor with respect to the subject of the request and listed under paragraph (5)), for a period of 18 months, to market a sunscreen ingredient under this section incorporating changes described in paragraph (2) subject to the limitations under paragraph (4), beginning on the date the requestor (or any licensees, assignees, or successors in interest of the requestor with respect to the subject of the request and listed under paragraph (5)) may lawfully market the sunscreen ingredient pursuant to the order.

(2) CHANGES DESCRIBED.—A change described in this paragraph is a change subject to an order specified in paragraph (1) that permits a sunscreen to contain an active sunscreen ingredient not previously incorporated in a marketed sunscreen listed in paragraph (3).

(3) MARKETED SUNSCREEN.—The marketed sunscreen ingredients described in this paragraph are sunscreen ingredients—

(A) marketed in accordance with a final monograph for sunscreen drug products set forth at part 352 of title 21, Code of Federal Regulations (as published at 64 Fed. Reg. 27687 (May 21, 1999)); or

(B) marketed in accordance with a final order issued under this section.

(4) LIMITATIONS ON EXCLUSIVITY.—Only one 18-month period may be granted per ingredient under paragraph (1).

(5) LISTING OF LICENSEES, ASSIGNEES, OR SUCCESSORS IN INTEREST.—Requestors shall submit to the Secretary, at the time when a drug subject to the request is introduced or delivered for introduction into interstate commerce, a list of licensees, assignees, or successors in interest under paragraph (1).

**§ 15105. Guidance; other provisions**

(a) GUIDANCE.—

(1) IN GENERAL.—

(A) DRAFT GUIDANCE.—The Secretary shall issue final guidance on the implementation

of, and compliance with, the requirements with respect to sunscreen under this chapter, including guidance on—

(i) the format and content of information submitted by a sponsor in support of a request under section 15102 of this title or a pending request;

(ii) the data required to meet the safety and efficacy standard for determining whether a nonprescription sunscreen active ingredient or combination of nonprescription sunscreen active ingredients is GRASE and is not misbranded;

(iii) the process by which a request under section 15102 of this title or a pending request is withdrawn; and

(iv) the process by which the Secretary will carry out section 15104(c) of this title, including with respect to how the Secretary will address the total number of requests received under section 15102 of this title and pending requests.

(B) INAPPLICABILITY OF PAPERWORK REDUCTION ACT.—Chapter 35 of title 44 shall not

apply to collections of information made for purposes of guidance under this subsection.

(2) SUBMISSIONS PENDING ISSUANCE OF FINAL GUIDANCE.—Irrespective of whether final guidance under paragraph (1) has been issued—

(A) persons may make submissions under this chapter; and

(B) the Secretary shall review and act on the submissions in accordance with this chapter.

(b) RULES OF CONSTRUCTION.—

(1) CURRENTLY MARKETED SUNSCREENS.—Nothing in this chapter shall be construed to affect the marketing of sunscreens that are marketed in interstate commerce on or before November 26, 2014, except as otherwise provided in this chapter.

(2) ENSURING SAFETY AND EFFECTIVENESS.—Nothing in this chapter shall be construed to alter the authority of the Secretary with respect to prohibiting the marketing of a sunscreen that is not safe and effective or is misbranded, or with respect to imposing restrictions on the marketing of a sunscreen to ensure safety and effectiveness, except as otherwise provided in this chapter, including section 15104(e) of this title.

(3) OTHER DRUGS.—Except as otherwise provided in section 15107 of this title, nothing in this chapter shall be construed to affect the authority of the Secretary under this subtitle or the Public Health Service Act (42 U.S.C. 201 et seq.) with respect to a drug other than a nonprescription sunscreen.

(4) EFFECT ON DRUGS OTHERWISE APPROVED.—Nothing in this chapter affects the marketing of a drug approved under chapter 135 of this title or section 351 of the Public Health Service Act (42 U.S.C. 262).

(c) TIMELINES.—The timelines for the processes and procedures under paragraphs (1), (2), (5), and (6) of section 15104(a) of this title shall not apply to any requests submitted to the Secretary under section 15102 of this title after the date that is 6 years after November 26, 2014.

**§ 15106. Effect of sections**

Nothing in sections 15101, 15102, 15103, 15104, and 15105 of this title shall be construed to—

(1) limit the right of a sponsor to request that the Secretary convene an advisory committee; or

(2) limit the authority of the Secretary to meet with a sponsor.

**§ 15107. Non-sunscreen time and extent applications**

(a) PENDING TIME AND EXTENT APPLICATIONS.—

(1) IN GENERAL.—

(A) REQUEST FOR FRAMEWORK FOR REVIEW.—If, prior to November 26, 2014, an application was submitted pursuant to section 330.14 of title 21, Code of Federal Regulations, for a GRASE determination for a drug other than a nonprescription sunscreen active ingredient or combination of nonprescription sunscreen active ingredients and the drug was found to be eligible to be considered for inclusion in the over-the-counter drug monograph system pursuant to section 330.14 of title 21, Code of Federal Regulations, the sponsor of the application may request that the Secretary provide a framework under paragraph (2) for the review of the application.

(B) REQUEST REQUIREMENTS.—A request for a framework for review of an application made under subparagraph (A) shall be made within 180 calendar days of November 26, 2014, and shall include the preference of the sponsor as to whether the application is reviewed by the Secretary in accordance with—

(i) the processes and procedures set forth for pending requests under section 15104(b) of this title, except that specific timelines shall be determined in accordance with other applicable requirements under this section;

(ii) the processes and procedures set forth under part 330 of title 21, Code of Federal Regulations, or any successor regulations;

(iii) an initial filing determination under the processes and procedures described in section 15103(b) of this title and the processes and procedures set forth for pending requests under section 15104(b) of this title, except that specific timelines shall be determined in accordance with other applicable requirements under this section; or

(iv) an initial filing determination under the processes and procedures described in section 15103(b) of this title and the processes and procedures set forth under part 330 of title 21, Code of Federal Regulations, or any successor regulations.

(C) NO REQUEST.—If a sponsor described in subparagraph (A) does not make the request within 180 calendar days of November 26, 2014, the application shall be reviewed by the Secretary in accordance with the timelines of the applicable regulations when the regulations are finalized under subsection (b).

(2) FRAMEWORK.—Not later than 1 year after November 26, 2014, the Secretary shall provide, in writing, a framework to each sponsor that submitted a request under paragraph (1). The framework shall set forth the various timelines, in calendar days, with respect to the processes and procedures for review under clauses (i), (ii), (iii), and (iv) of paragraph (1)(B) and—

(A) the timelines shall account for the considerations under paragraph (5); and

(B) the timelines for the various processes and procedures shall not be shorter than the timelines set forth for pending requests under sections 15103(b) and 15104(b) of this title, as applicable.

(3) GOVERNING PROCESSES AND PROCEDURES FOR REVIEW.—

(A) ELECTION.—

(i) IN GENERAL.—Not later than 60 calendar days after the Secretary provides a framework to a sponsor under paragraph (2), the sponsor may provide an election to the Secretary regarding the processes and procedures for review under clause (i), (ii), (iii), or (iv) of paragraph (1)(B).

(ii) REVIEW.—If the sponsor makes the election, the Secretary shall review the application that is the subject of the election pursuant to the processes and procedures elected by the sponsor and the applicable timelines in calendar days set forth under the framework, which the Secretary shall confirm in writing to the sponsor not later than the date on which the Secretary provides a report under paragraph (4).

(iii) ELECTION NOT MADE.—If the sponsor does not make the election, the application shall be reviewed by the Secretary in accordance with the timelines of the applicable regulations when the regulations are finalized under subsection (b).

(B) DIFFERENT PROCESSES AND PROCEDURES.—At any time during review of an appli-

cation, the Secretary may review the application under different processes and procedures under clause (i), (ii), (iii), or (iv) of paragraph (1)(B) than the processes and procedures the sponsor elected in accordance with subparagraph (A), so long as the Secretary proposes, in writing, the change and the sponsor agrees, in writing, to the change.

(C) INCLUSION OF INGREDIENTS IN MONOGRAPHS.—If the sponsor elects to use the processes and procedures for review in accordance with clause (i) or (iii) of paragraph (1)(B), the Secretary may incorporate any resulting final order into a regulation addressing the conditions under which other drugs in the same therapeutic category are GRASE and not misbranded, including through direct final rulemaking, and the incorporated final order shall cease to be effective on the effective date of the final regulation that addresses the drug.

(4) LETTER REGARDING PENDING APPLICATIONS.—Not later than 18 months after November 26, 2014, the Secretary shall report to the Committee on Health, Education, Labor, and Pensions of the Senate and the Committee on Energy and

Commerce of the House of Representatives, in writing, regarding all pending applications subject to paragraph (1). In the letter, the Secretary shall provide a report on the review of the applications, including the timelines, in calendar days, for the review and GRASE determination for each application. The timelines shall account for the considerations under paragraph (5).

(5) TIMELINES.—The timelines in calendar days established by the Secretary pursuant to this subsection—

(A) may vary based on the content, complexity, and format of the application submitted to the Secretary; and

(B) shall—

(i) reflect the public health priorities of the FDA, including the potential public health benefits posed by the inclusion of additional drugs in the over-the-counter drug monograph system;

(ii) take into consideration the resources available to the Secretary for carrying out the priorities and the processes and procedures described in paragraphs (1)(B) and (2); and

(iii) be reasonable, taking into consideration the requirements described in clauses (i) and (ii).

(b) NEW TIME AND EXTENT APPLICATIONS.—

(1) IN GENERAL.—The Secretary shall issue final regulations establishing timelines for the review of applications for GRASE determinations for drugs other than nonprescription sunscreen active ingredients or combinations of nonprescription sunscreen active ingredients that are submitted to the Secretary after November 26, 2014, under section 330.14 of title 21, Code of Federal Regulations, or any successor regulations, and that are found to be eligible to be considered for inclusion in the over-the-counter drug monograph system pursuant to section 330.14 of title 21, Code of Federal Regulations, or any successor regulations, or that are subject to this subsection pursuant to paragraph (1) or (3) of subsection (a), as applicable, providing—

(A) timely and efficient completion of evaluations of applications under section 330.14 of title 21, Code of Federal Regulations, or any successor regulations, for drugs other than sunscreens; and

(B) timely and efficient completion of the review of the safety and effectiveness submissions pursuant to the applications, including establishing—

(i) reasonable timelines, in calendar days, for the applicable proposed and final regulations for applications of various content, complexity, and format, and timelines for internal procedures related to the processes; and

(ii) measurable metrics for tracking the extent to which the timelines set forth in the regulations are met.

(2) TIMELINES.—The timelines in calendar days established in the regulations under paragraph (1)—

(A) may vary based on the content, complexity, and format of the application submitted to the Secretary; and

(B) shall—

(i) reflect the public health priorities of the FDA, including the potential public health benefits posed by the inclusion of additional drugs in the over-the-counter drug monograph system;

(ii) take into consideration the resources available to the Secretary for carrying out the priorities and the processes and procedures described in paragraph (1); and

(iii) be reasonable, taking into consideration the requirements described in clauses (i) and (ii).

(3) PROCEDURE.—In promulgating regulations under this subsection, the Secretary shall issue a notice of proposed rulemaking that includes a copy of the proposed regulation, provide a period of not less than 60 calendar days for comments on the proposed regulation, and publish the final regulation not less than 30 calendar days before the effective date of the regulation.

(4) RESTRICTIONS.—Notwithstanding any other provision of law, the Secretary shall promulgate regulations implementing this section only as described in paragraphs (1), (2), and (3).

**§ 15108. Report**

(a) IN GENERAL.—

(1) IN GENERAL.—Not later than 18 months after November 26, 2014, and on the dates that are 2 and 4 years thereafter, the Secretary shall issue

a report to the Committee on Health, Education, Labor, and Pensions of the Senate and the Committee on Energy and Commerce of the House of Representatives describing actions taken under this chapter.

(2) CONTENTS.—The reports under this subsection shall include—

(A) a review of the progress made in issuing GRASE determinations for pending requests, including the number of pending requests—

(i) reviewed and the decision times for each request, measured from the date of the original request for an eligibility determination submitted by the sponsor;

(ii) resulting in a determination that the nonprescription sunscreen active ingredient or combination of nonprescription sunscreen active ingredients is GRASE and is not misbranded;

(iii) resulting in a determination that the nonprescription sunscreen active ingredient or combination of nonprescription sunscreen active ingredients is not GRASE

and is misbranded and the reasons for the determinations; and

(iv) for which a determination has not been made, and an explanation for the delay, a description of the current status of each such request, and the length of time each such request has been pending, measured from the date of original request for an eligibility determination by the sponsor;

(B) a review of the progress made in issuing GRASE determinations for requests not included in the reporting under subparagraph (A), including the number of the requests—

(i) reviewed and the decision times for each request;

(ii) resulting in a determination that the nonprescription sunscreen active ingredient, combination of nonprescription sunscreen active ingredients, or other ingredient is GRASE and is not misbranded;

(iii) resulting in a determination that the nonprescription sunscreen active ingredient, combination of nonprescription sunscreen active ingredients, or other ingredient is not GRASE and is misbranded

and the reasons for the determinations; and

(iv) for which a determination has not been made, and an explanation for the delay, a description of the current status of each such request, and the length of time each such request has been pending, measured from the date of original request for an eligibility determination by the sponsor;

(C) an annual accounting (including information from years prior to November 26, 2014, if the information is available) of the total number of requests submitted, pending, or completed under this chapter, including whether the requests were the subject of an advisory committee convened by the Secretary;

(D) a description of the staffing and resources relating to the costs associated with the review and decisionmaking pertaining to requests under this chapter;

(E) a review of the progress made in meeting the deadlines with respect to processing requests under this chapter; and

(F) to the extent the Secretary determines appropriate, recommendations for process im-

provements in the handling of requests under this chapter, including the advisory committee review process.

(b) METHOD.—The Secretary shall publish the reports under subsection (a) in the manner the Secretary determines to be the most effective for efficiently disseminating the report, including publication of the report on the FDA website.

### § 15109. Sunset

This chapter shall cease to be effective at the end of fiscal year 2022.

17127. Mandatory recall authority.
17128. Small businesses.
17129. Exemption for certain products and facilities.
17130. Preemption.

## Subchapter I—General Provisions

### § 17101. Definitions

In this chapter:

(1) ADVERSE EVENT.—The term ''adverse event'' means any health-related event associated with the use of a cosmetic product that is adverse.

(2) COSMETIC PRODUCT.—The term ''cosmetic product'' means a preparation of cosmetic ingredients with a qualitatively and quantitatively set composition for use in a finished product.

(3) FACILITY.—

(A) IN GENERAL.—The term ''facility'' includes any establishment (including an establishment of an importer) that manufactures or processes cosmetic products distributed in the United States.

(B) EXCLUSIONS.—The term ''facility'' does not include any of the following:

(i) Beauty shops and salons, unless the establishment manufactures or processes cosmetic products at that location.

(ii) Cosmetic product retailers, including individual sales representatives, direct sellers (as defined in section 3508(b) of the Internal Revenue Act of 1986 (26 U.S.C. 3508(b))), retail distribution facilities, and pharmacies, unless the establishment manufactures or processes cosmetic products

that are not sold directly to consumers at that location.

(iii) Hospitals, physicians' offices, and health care clinics.

(iv) Public health agencies and other nonprofit entities that provide cosmetic products directly to the consumer.

(v) Entities (such as hotels and airlines) that provide complimentary cosmetic products to customers incidental to other services.

(vi) Trade shows and other venues where cosmetic product samples are provided free of charge.

(vii) An establishment that manufactures or processes cosmetic products that are solely for use in research or evaluation, including for production testing, and not offered for retail sale.

(viii) An establishment that solely performs 1 or more of the following with respect to cosmetic products:

(I) Labeling.

(II) Relabeling.

(III) Packaging.

(IV) Repackaging.

(V) Holding.

(VI) Distributing.

(C) CLARIFICATION.—For the purposes of subparagraph (B)(viii), the terms ''packaging'' and ''repackaging'' do not include filling a product container with a cosmetic product.

(4) RESPONSIBLE PERSON.—The term ''responsible person'' means the manufacturer, packer, or distributor of a cosmetic product whose name appears on the label of the cosmetic product in accordance with section 17125(a) of this title or section 4(a) of the Fair Packaging and Labeling Act (15 U.S.C. 1453(a)).

(5) SERIOUS ADVERSE EVENT.—The term ''serious adverse event'' means an adverse event that—

(A) results in—

(i) death;

(ii) a life-threatening experience;

(iii) inpatient hospitalization;

(iv) a persistent or significant disability or incapacity;

(v) a congenital anomaly or birth defect;

(vi) an infection; or

(vii) significant disfigurement (including serious and persistent rashes, second-degree or third-degree burns, significant hair loss, or persistent or significant alteration of appearance), other than as intended, under conditions of use that are customary or usual; or

(B) requires, based on reasonable medical judgment, a medical or surgical intervention to prevent an outcome described in subparagraph (A).

# Subchapter II—Adulterated and Misbranded Cosmetics

### § 17111. Adulterated cosmetics

(a) DEFINITION OF HAIR DYE.—In this section, the term ''hair dye'' does not include eyelash dyes or eyebrow dyes.

(b) POISONOUS OR DELETERIOUS SUBSTANCE.—

(1) IN GENERAL.—A cosmetic shall be deemed to be adulterated if it bears or contains any poisonous or deleterious substance that may render it injurious to users under the conditions of use prescribed in the labeling of the cosmetic, or under such conditions of use as are customary or usual.

(2) INAPPLICABILITY.—This subsection shall not apply to coal-tar hair dye—

(A) the label of which bears the statement, conspicuously displayed on the label, ''Caution—This product contains ingredients which may cause skin irritation on certain individuals and a preliminary test according to accompanying directions should first be made. This product must not be used for dyeing the eyelashes or eyebrows; to do so may cause blindness.''; and

(B) the labeling of which bears adequate directions for the preliminary testing referred to in the statement under subparagraph (A).

(c) FILTHY, PUTRID, OR DECOMPOSED SUBSTANCE.—A cosmetic shall be deemed to be adulterated if it consists in whole or in part of any filthy, putrid, or decomposed substance.

(d) INSANITARY CONDITIONS.—A cosmetic shall be deemed to be adulterated if it has been prepared, packed, or held under insanitary conditions—

(1) in which it may have become contaminated with filth; or

(2) in which it may have been rendered injurious to health.

(e) CONTAINER COMPOSED OF POISONOUS OR DELETERIOUS SUBSTANCE.—A cosmetic shall be deemed to be adulterated if its container is composed, in whole or in part, of any poisonous or deleterious substance that may render the contents injurious to health.

(f) COLOR ADDITIVE.—A cosmetic shall be deemed to be adulterated if it is not a hair dye and it is, or it bears or contains, a color additive that is unsafe within the meaning of section 17701(a) of this title.

(g) DOES NOT MEET GOOD MANUFACTURING PRACTICE REQUIREMENTS.—A cosmetic shall be deemed to be adulterated if it has been manufactured or processed under conditions that do not meet the good manufacturing practice requirements of section 17122 of this title.

(h) NO ADEQUATE SUBSTANTIATION OF SAFETY.—A cosmetic shall be deemed to be adulterated if it is a cosmetic product, and the cosmetic product, including each ingredient in the cosmetic product, does not have adequate substantiation for safety, as defined in section 17124(a) of this title.

**§ 17112. Misbranded cosmetics**

(a) FALSE OR MISLEADING LABEL.—A cosmetic shall be deemed to be misbranded if its labeling is false or misleading in any particular.

(b) LABEL CONTENT.—

(1) IN GENERAL.—A cosmetic shall be deemed to be misbranded if in package form unless it bears a label containing—

(A) the name and place of business of the manufacturer, packer, or distributor;

(B) an accurate statement of the quantity of the contents in terms of weight, measure, or numerical count; and

(C) the information required under section 17125 of this title.

(2) STATEMENT VARIATIONS.—With respect to paragraph (1)(B), reasonable variations shall be permitted, and exemptions as to small packages shall be established, by regulations prescribed by the Secretary.

(c) PROMINENT PLACEMENT OF INFORMATION ON LABEL OR LABELING.—A cosmetic shall be deemed to be misbranded if any word, statement, or other information required under this subtitle to appear on the label or labeling is not prominently placed on the label or labeling with such conspicuousness (as compared with other words, statements, designs, or devices, in the labeling) and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.

(d) MISLEADING CONTAINER.—A cosmetic shall be deemed to be misbranded if its container is made, formed, or filled in a manner that is misleading.

(e) COLOR ADDITIVES.—

(1) IN GENERAL.—A cosmetic shall be deemed to be misbranded if it is a color additive, unless its packaging and labeling are in conformity with such packaging and labeling requirements, applicable to the color additive, as may be contained in regulations issued under section 17701 of this title.

(2) INAPPLICABILITY TO HAIR DYES.—This subsection shall not apply to packages of color additives that, with respect to their use for cosmetics, are marketed and intended for use only in or on hair dyes (as defined in section 17111(a) of this title).

(f) PACKAGING OR LABELING IN VIOLATION OF CERTAIN PROVISIONS.—A cosmetic shall be deemed to be misbranded if its packaging or labeling is in violation of an applicable regulation issued pursuant to section 3 or 4 of the Poison Prevention Packaging Act of 1970 (15 U.S.C. 1472, 1473).

**§ 17113. Regulations making exemptions**

The Secretary shall promulgate regulations exempting from any labeling requirement of this subtitle cosmetics that are, in accordance with the practice of the

trade, to be processed, labeled, or repacked in substantial quantities at establishments other than those where originally processed or packed, on condition that the cosmetics are not adulterated or misbranded under this subtitle upon removal from the processing, labeling, or repacking establishment.

# Subchapter III—General Safety Regulations

### § 17121. Adverse events

(a) SERIOUS ADVERSE EVENT REPORTING REQUIREMENTS.—The responsible person shall submit to the Secretary any report received of a serious adverse event associated with the use, in the United States, of a cosmetic product manufactured, packed, or distributed by the person.

(b) SUBMISSION OF REPORTS.—

(1) SERIOUS ADVERSE EVENT REPORT.—The responsible person shall submit to the Secretary a serious adverse event report accompanied by a copy of the label on or within the retail packaging of the cosmetic product no later than 15 business days after the report is received by the responsible person.

(2) NEW MEDICAL INFORMATION.—The responsible person shall submit to the Secretary any new

and material medical information, related to a serious adverse event report submitted to the Secretary in accordance with paragraph (1), that is received by the responsible person within 1 year of the initial report to the Secretary, no later than 15 business days after the information is received by the responsible person.

(3) CONSOLIDATION OF REPORTS.—The Secretary shall develop systems to enable responsible persons to submit a single report that includes duplicate reports of, or new medical information related to, a serious adverse event.

(c) EXEMPTIONS.—The Secretary may establish by regulation an exemption to any of the requirements of this section if the Secretary determines that the exemption would have no significant adverse effect on public health.

(d) CONTACT INFORMATION.—The responsible person shall receive reports of adverse events through the domestic address, domestic telephone number, or electronic contact information included on the label in accordance with section 17125(a) of this title.

(e) MAINTENANCE AND INSPECTION OF ADVERSE EVENT RECORDS.—

(1) MAINTENANCE.—

(A) IN GENERAL.—The responsible person shall maintain records related to each report of an adverse event associated with the use, in the United States, of a cosmetic product manufactured or distributed by the person received by the person, for a period of 6 years, except as provided in subparagraph (B).

(B) EXCEPTION.—A responsible person that is considered a small business for the purposes of section 17128 of this title and that does not engage in the manufacturing or processing of the cosmetic products described in section 17128(b) of this title shall maintain the records described in subparagraph (A) for a period of 3 years.

(2) INSPECTION.—

(A) AUTHORIZED INDIVIDUAL.—In this paragraph, the term ''authorized individual'' means an officer or employee of the Department who has—

(i) appropriate credentials, as determined by the Secretary; and

(ii) been designated by the Secretary to have access to the records required under this section.

(B) IN GENERAL.—The responsible person shall permit an authorized individual to have access to records required to be maintained under this section during an inspection pursuant to section 17504 of this title.

(f) FRAGRANCE AND FLAVOR INGREDIENTS.—

(1) IN GENERAL.—If the Secretary has reasonable grounds to believe that an ingredient or combination of ingredients in a fragrance or flavor has caused or contributed to a serious adverse event required to be reported under this section, the Secretary may request in writing a list of the ingredients or categories of ingredients in the specific fragrances or flavors in the cosmetic product, from the responsible person.

(2) SUBMISSION PERIOD.—The responsible person shall ensure that the requested information is submitted to the Secretary within 30 days of the request.

(3) EXEMPTION FROM PUBLIC INFORMATION DISCLOSURE.—In response to a request under section 552 of title 5, information submitted to the Secretary under this subsection shall be withheld under section 552(b)(3) of title 5.

(g) PROTECTED INFORMATION.—A serious adverse event report submitted to the Secretary under this section, including any new medical information submitted under subsection (b)(2), or an adverse event report, or any new information, voluntarily submitted to the Secretary, shall be considered to be—

(1) a safety report under section 18701 of this title and may be accompanied by a statement, which shall be a part of any report that is released for public disclosure, that denies that the report or the records constitute an admission that the product involved caused or contributed to the adverse event; and

(2) a record about an individual under section 552a of title 5 and a medical or similar file the disclosure of which would constitute a violation of section 552 of title 5, and shall not be publicly disclosed unless all personally identifiable information is redacted.

(h) EFFECT OF SECTION.—

(1) IN GENERAL.—Nothing in this section shall affect the authority of the Secretary to provide adverse event reports and information to any health, food, or drug officer or employee of any State, territory of the United States, or political subdivision of

a State or territory of the United States, under a memorandum of understanding between the Secretary and the State, territory of the United States, or political subdivision.

(2) PERSONALLY IDENTIFIABLE INFORMATION.—Notwithstanding any other provision of law, personally-identifiable information in adverse event reports provided by the Secretary to any health, food, or drug officer or employee of any State, territory of the United States, or political subdivision of a State or territory of the United States, shall not—

(A) be made publicly available pursuant to any State or other law requiring disclosure of information or records; or

(B) otherwise be disclosed or distributed to any party without the written consent of the Secretary and the person submitting the information to the Secretary.

(3) USE OF REPORTS.—Nothing in this section shall permit a State, territory of the United States, or political subdivision of a State or territory of the United States to use any safety report received from the Secretary in a manner inconsistent with this section.

(4) RULE OF CONSTRUCTION.—The submission of any report in compliance with this section shall not be construed as an admission that the cosmetic product involved caused or contributed to the relevant adverse event.

**§ 17122. Good manufacturing practice**

(a) ESTABLISHMENT BY REGULATION.—

(1) IN GENERAL.—The Secretary shall by regulation establish good manufacturing practices for facilities that are consistent, to the extent practicable, and appropriate, with national and international standards, in accordance with section 17111 of this title.

(2) PROTECTION OF PUBLIC HEALTH.—Any regulation described in paragraph (1) shall be intended to protect the public health and ensure that cosmetic products are not adulterated.

(3) INSPECTION OF RECORDS.—The regulations described in paragraph (1) may allow for the Secretary to inspect records necessary to demonstrate compliance with good manufacturing practices prescribed by the Secretary under this subsection during an inspection conducted under section 17504 of this title.

(b) CONSIDERATIONS.—

(1) IN GENERAL.—In establishing regulations for good manufacturing practices under this section, the Secretary shall—

(A) take into account—

(i) the size and scope of the businesses engaged in the manufacture of cosmetics; and

(ii) the risks to public health posed by the cosmetics; and

(B) provide sufficient flexibility to be practicable for all sizes and types of facilities to which the regulations will apply.

(2) SMALLER BUSINESSES.—The regulations for good manufacturing practices under this section—

(A) shall include simplified good manufacturing practice requirements for smaller businesses, as appropriate, to ensure that the regulations do not impose undue economic hardship for smaller businesses; and

(B) may include longer compliance times for smaller businesses.

(3) CONSULTATION WITH EXPERTS.—Before issuing regulations to implement subsection (a), the Secretary shall consult with cosmetics manufactur-

ers, including smaller businesses, consumer organizations, and other experts selected by the Secretary.

(c) TIMEFRAME.—The Secretary shall publish a notice of proposed rulemaking not later than 2 years after December 29, 2022, and shall publish final regulations under this section not later than 3 years after December 29, 2022.

**§ 17123. Registration and product listing**

(a) SUBMISSION OF REGISTRATION.—

(1) INITIAL REGISTRATION.—

(A) EXISTING FACILITIES.—Every person that, on December 29, 2022, owns or operates a facility that engages in the manufacturing or processing of a cosmetic product for distribution in the United States shall register each facility with the Secretary not later than 1 year after December 29, 2022.

(B) NEW FACILITIES.—Every person that owns or operates a facility that first engages, after December 29, 2022, in manufacturing or processing of a cosmetic product for distribution in the United States, shall register with the Secretary the facility within 60 days of first engaging in the activity or 60 days after the dead-

line for registration under subparagraph (A), whichever is later.

(2) BIENNIAL RENEWAL OF REGISTRATION.—A person required to register a facility under paragraph (1) shall renew the registrations with the Secretary biennially.

(3) CONTRACT MANUFACTURERS.—If a facility manufactures or processes cosmetic products on behalf of a responsible person, the Secretary shall require only a single registration for the facility even if the facility is manufacturing or processing its own cosmetic products or cosmetic products on behalf of more than 1 responsible person. The single registration may be submitted to the Secretary by the facility or any responsible person whose products are manufactured or processed at the facility.

(4) UPDATES TO CONTENT.—A person that is required to register under subsection (a)(1) shall notify the Secretary within 60 days of any changes to information required under subsection (b)(2).

(5) ABBREVIATED RENEWAL REGISTRATIONS.—The Secretary shall provide for an abbreviated registration renewal process for any person that owns or operates a facility that has not been required to submit updates under paragraph (4) for a registered

facility since submission of the most recent registration of the facility under paragraph (1) or (2).

(b) FORMAT; CONTENTS OF REGISTRATION.—

(1) IN GENERAL.—Registration information under this section may be submitted at such time and in such manner as the Secretary may prescribe.

(2) CONTENTS.—The registration under subsection (a) shall contain—

(A) the facility's name, physical address, email address, and telephone number;

(B) with respect to any foreign facility, the contact for the United States agent of the facility, and, if available, the electronic contact information;

(C) the facility registration number, if any, previously assigned by the Secretary under subsection (d);

(D) all brand names under which cosmetic products manufactured or processed in the facility are sold; and

(E) the product category or categories and responsible person for each cosmetic product manufactured or processed at the facility.

(c) COSMETIC PRODUCT LISTING.—

(1) IN GENERAL.—For each cosmetic product, the responsible person shall submit to the Secretary a cosmetic product listing, or ensure that the submission is made, at such time and in such manner as the Secretary may prescribe.

(2) COSMETIC PRODUCT LISTING.—The responsible person of a cosmetic product that is marketed on December 29, 2022, shall submit to the Secretary a cosmetic product listing not later than 1 year after December 29, 2022, or for a cosmetic product that is first marketed after December 29, 2022, within 120 days of marketing the product in interstate commerce. Any updates to the listing shall be made annually, consistent with paragraphs (4) and (5).

(3) ABBREVIATED RENEWAL.—The Secretary shall provide for an abbreviated process for the renewal of any cosmetic product listing under this subsection with respect to which there has been no change since the responsible person submitted the previous listing.

(4) CONTENTS OF LISTING.—

(A) IN GENERAL.—Each cosmetic product listing under this subsection shall include—

(i) the facility registration number of each facility where the cosmetic product is manufactured or processed;

(ii) the name and contact number of the responsible person and the name for the cosmetic product, as the name appears on the label;

(iii) the applicable cosmetic category or categories for the cosmetic product;

(iv) a list of ingredients in the cosmetic product, including any fragrances, flavors, or colors, with each ingredient identified by the name, as required under section 701.3 of title 21, Code of Federal Regulations, or any successor regulations, or by the common or usual name of the ingredient; and

(v) the product listing number, if any, previously assigned by the Secretary under subsection (d).

(B) FLEXIBLE LISTINGS.—A single listing submission for a cosmetic product may include multiple cosmetic products with identical formulations, or formulations that differ only with re-

spect to colors, fragrances or flavors, or quantity of contents.

(5) UPDATES TO CONTENT.—A responsible person that is required to submit a cosmetic product listing shall submit any updates to the cosmetic product listing annually.

(6) SUBMISSION.—A responsible person may submit product listing information as part of a facility registration or separately.

(d) FACILITY REGISTRATION AND PRODUCT LISTING NUMBERS.—At the time of the initial registration of any facility under subsection (a)(1) or initial listing of any cosmetic product under subsection (c)(1), the Secretary shall assign a facility registration number to the facility and a product listing number to each cosmetic product. The Secretary shall not make the product listing number publicly available.

(e) CONFIDENTIALITY.—In response to a request under section 552 of title 5, information described in subsection (b)(2)(D) or (c)(4)(A)(i) that is derived from a registration or listing under this section shall be withheld under section 552(b)(3) of title 5.

(f) SUSPENSIONS.—

(1) SUSPENSION OF REGISTRATION OF A FACILITY.—The Secretary may suspend the registration of a facility if—

(A) the Secretary determines that a cosmetic product manufactured or processed by a registered facility and distributed in the United States has a reasonable probability of causing serious adverse health consequences or death to humans; and

(B) the Secretary has a reasonable belief that other products manufactured or processed by the facility may be similarly affected because of a failure—

(i) that cannot be isolated to a product or products; or

(ii) that is sufficiently pervasive to raise concerns about other products manufactured in the facility.

(2) NOTICE OF SUSPENSION.—Before suspending a facility registration under this section, the Secretary shall provide—

(A) notice to the facility registrant of the cosmetic product or other responsible person, as appropriate, of the intent to suspend the facility registration, which notice shall specify the basis

of the determination by the Secretary that the facility registration should be suspended; and

(B) an opportunity, within 5 business days of the notice provided under subparagraph (A), for the responsible person to provide a plan for addressing the reasons for possible suspension of the facility registration.

(3) HEARING ON SUSPENSION.—

(A) IN GENERAL.—The Secretary shall provide the registrant subject to an order under paragraph (1) or (2) with an opportunity for an informal hearing, to be held as soon as possible but not later than 5 business days after the issuance of the order, or such other time period agreed on by the Secretary and the registrant, on the actions required for reinstatement of registration and why the registration that is subject to the suspension should be reinstated.

(B) REINSTATEMENT.—The Secretary shall reinstate a registration if the Secretary determines, based on evidence presented, that adequate grounds do not exist to continue the suspension of the registration.

(4) POST-HEARING CORRECTIVE ACTION PLAN.—

(A) IN GENERAL.—If, after providing opportunity for an informal hearing under paragraph (3), the Secretary determines that the suspension of registration remains necessary, the Secretary shall require the registrant to submit a corrective action plan to demonstrate how the registrant plans to correct the conditions found by the Secretary.

(B) REVIEW OF CORRECTIVE ACTION PLAN.—The Secretary shall review the corrective action plan not later than 14 business days after the submission of the corrective action plan or such other time period as determined by the Secretary, in consultation with the registrant.

(5) VACATING OF ORDER; REINSTATEMENT.—On a determination by the Secretary that adequate grounds do not exist to continue the suspension actions, the Secretary shall promptly vacate the suspension and reinstate the registration of the facility.

(6) EFFECT OF SUSPENSION.—If the registration of the facility is suspended under this section, no person shall introduce or deliver for introduction into commerce in the United States cosmetic products from the facility.

(7) NO DELEGATION.—The authority conferred by this section to issue an order to suspend a registration or vacate an order of suspension shall not be delegated to any officer or employee other than the Commissioner.

**§ 17124. Safety substantiation**

(a) DEFINITIONS.—In this section:

(1) ADEQUATE SUBSTANTIATION OF SAFETY.—The term ''adequate substantiation of safety'' means tests or studies, research, analyses, or other evidence or information that is considered, among experts qualified by scientific training and experience to evaluate the safety of cosmetic products and their ingredients, sufficient to support a reasonable certainty that a cosmetic product is safe.

(2) SAFE.—

(A) IN GENERAL.—The term ''safe'' means that the cosmetic product, including any ingredient of the cosmetic product, is not injurious to users under the conditions of use prescribed in the labeling of the cosmetic product, or under such conditions of use as are customary or usual.

(B) NOT INJURIOUS TO USERS.—The Secretary shall not consider a cosmetic ingredient

or cosmetic product injurious to users solely because it can cause minor and transient reactions or minor and transient skin irritations in some users.

(C) CUMULATIVE OR OTHER RELEVANT EXPOSURE TO COSMETIC PRODUCT.—In determining for purposes of this section whether a cosmetic product is safe, the Secretary may consider, as appropriate and available, the cumulative or other relevant exposure to the cosmetic product, including any ingredient of the cosmetic product.

(b) SUBSTANTIATION OF SAFETY.—A responsible person for a cosmetic product shall ensure, and maintain records supporting, that there is adequate substantiation of safety of the cosmetic product.

(c) COAL-TAR HAIR DYE.—Subsection (b) shall not apply to coal-tar hair dye that otherwise complies with the requirements of section 17111(b) of this title. A responsible person for a coal-tar hair dye shall maintain records related to the safety of the product.

**§ 17125. Labeling**

(a) IN GENERAL.—Each cosmetic product shall bear a label that includes a domestic address, domestic phone number, or electronic contact information, which may in-

clude a website, through which the responsible person can receive adverse event reports with respect to the cosmetic product.

(b) FRAGRANCE ALLERGENS.—

(1) IDENTIFICATION ON LABEL.—The responsible person shall identify on the label of a cosmetic product each fragrance allergen included in the cosmetic product.

(2) DETERMINED BY REGULATION.—The Secretary shall determine, by regulation, substances that are fragrance allergens for purposes of this subsection.

(3) RULEMAKING.—The Secretary—

(A) shall issue a notice of proposed rulemaking promulgating the regulation implementing this subsection not later than 18 months after December 29, 2022; and

(B) not later than 180 days after the date on which the public comment period on the proposed rulemaking closes, shall issue a final rulemaking.

(4) CONSIDERATIONS; CONTENT.—In promulgating regulations implementing this subsection, the Secretary shall consider international, State, and local requirements for allergen disclosure, including

the substance and format of requirements in the European Union, and may establish threshold levels of amounts of substances subject to disclosure pursuant to the regulations.

(c) COSMETIC PRODUCTS FOR PROFESSIONAL USE.—

(1) DEFINITION OF PROFESSIONAL.—In this subsection, the term ''professional'' means an individual who is licensed by an official State authority to practice in the field of cosmetology, nail care, barbering, or esthetics.

(2) PROFESSIONAL USE LABELING.—A cosmetic product introduced into interstate commerce and intended to be used only by a professional shall bear a label that—

(A) contains a clear and prominent statement that the product shall be administered or used only by professionals; and

(B) is in conformity with the requirements of the Secretary for cosmetics labeling under this subtitle and section 4(a) of the Fair Packaging and Labeling Act (15 U.S.C. 1453(a)).

**§ 17126. Records**

(a) ACCESS BY SECRETARY.—

(1) IN GENERAL.—If the Secretary has a reasonable belief that a cosmetic product, including an ingredient in the cosmetic product, and any other cosmetic product that the Secretary reasonably believes is likely to be affected in a similar manner, is likely to be adulterated such that the use or exposure to the product presents a threat of serious adverse health consequences or death to humans, each responsible person and facility shall, at the request of an officer or employee designated by the Secretary, permit the officer or employee, on presentation of appropriate credentials and a written notice to the person, at reasonable times and within reasonable limits and in a reasonable manner, to have access to and copy all records relating to the cosmetic product, and to any other cosmetic product that the Secretary reasonably believes is likely to be affected in a similar manner, which records are needed to assist the Secretary in determining whether the cosmetic product is adulterated and presents a threat of serious adverse health consequences or death to humans.

(2) INAPPLICABILITY TO CERTAIN DATA.—This subsection shall not be construed to extend to recipes or formulas for cosmetics, financial data, pric-

ing data, personnel data (other than data as to qualification of technical and professional personnel performing functions subject to this subtitle), research data (other than safety substantiation data for cosmetic products and their ingredients), or sales data (other than shipment data regarding sales).

(b) RULE OF CONSTRUCTION.—Nothing in this section shall be construed to limit the authority of the Secretary to inspect records or require establishment and maintenance of records under any other provision of this subtitle, including section 17121 or 17122 of this title.

**§ 17127. Mandatory recall authority**

(a) IN GENERAL.—

(1) IN GENERAL.—If the Secretary determines that there is a reasonable probability that a cosmetic is adulterated under section 17111 of this title or misbranded under section 17112 of this title and the use of or exposure to the cosmetic will cause serious adverse health consequences or death, the Secretary shall provide the responsible person with an opportunity to voluntarily cease distribution and recall the cosmetic.

(2) REFUSAL TO CEASE DISTRIBUTION OR TO RECALL.—If the responsible person refuses to or does not voluntarily cease distribution or recall the

cosmetic within the time and manner prescribed by the Secretary (if prescribed), the Secretary may, by order, require, as the Secretary determines necessary, the person to immediately cease distribution of the cosmetic.

(b) HEARING.—The Secretary shall provide the responsible person that is subject to an order under subsection (a) with an opportunity for an informal hearing, to be held not later than 10 days after the date of issuance of the order, on whether adequate evidence exists to justify the order.

(c) ORDER RESOLUTION.—After an order is issued according to the process under subsections (a) and (b), the Secretary shall, except as provided in subsection (d)—

(1) vacate the order, if the Secretary determines that inadequate grounds exist to support the actions required by the order;

(2) continue the order ceasing distribution of the cosmetic until a date specified in the order; or

(3) amend the order to require a recall of the cosmetic, including any requirements to notify appropriate persons, a timetable for the recall to occur, and a schedule for updates to be provided to the Secretary regarding the recall.

(d) ACTION FOLLOWING ORDER.—Any person that is subject to an order pursuant to paragraph (2) or (3) of subsection (c) shall immediately cease distribution of or recall, as applicable, the cosmetic and provide notification as required by the order.

(e) NOTICE TO PERSONS AFFECTED.—If the Secretary determines necessary, the Secretary may require the person subject to an order pursuant to subsection (a) or an amended order pursuant to paragraph (2) or (3) of subsection (c) to provide either a notice of a recall order for, or an order to cease distribution of, the cosmetic, as applicable, under this section to—

(1) appropriate persons, including persons that manufacture, distribute, import, or offer for sale the cosmetic that is the subject of an order; and

(2) the public.

(f) PUBLIC NOTIFICATION.—In conducting a recall under this section, the Secretary shall—

(1) ensure that a press release is published regarding the recall, and that alerts and public notices are issued, as appropriate, in order to provide notification—

(A) of the recall to consumers and retailers to whom the cosmetic was, or may have been, distributed; and

(B) that includes, at a minimum—

(i) the name of the cosmetic subject to the recall;

(ii) a description of the risk associated with the cosmetic; and

(iii) to the extent practicable, information for consumers about similar cosmetics that are not affected by the recall; and

(2) ensure publication, as appropriate, on the FDA website, of an image of the cosmetic that is the subject of the press release described in paragraph (1), if available.

(g) NO DELEGATION.—The authority conferred by this section to order a recall or vacate a recall order shall not be delegated to any officer or employee other than the Commissioner.

(h) EFFECT.—Nothing in this section shall affect the authority of the Secretary to request or participate in a voluntary recall, or to issue an order to cease distribution or to recall under any other provision of this chapter.

**§ 17128. Small businesses**

(a) IN GENERAL.—Responsible persons, and owners and operators of facilities, whose average gross annual sales in the United States of cosmetic products for the previous 3-year period is less than $1,000,000, adjusted

for inflation, and that do not engage in the manufacturing or processing of the cosmetic products described in subsection (b), shall be considered small businesses and not subject to the requirements of section 17122 or 17123 of this title.

(b) REQUIREMENTS APPLICABLE TO ALL MANUFACTURERS AND PROCESSORS OF COSMETICS.—The exemptions under subsection (a) shall not apply to any responsible person or facility engaged in the manufacturing or processing of any of the following products:

(1) Cosmetic products that regularly come into contact with mucus membrane of the eye under conditions of use that are customary or usual.

(2) Cosmetic products that are injected.

(3) Cosmetic products that are intended for internal use.

(4) Cosmetic products that are intended to alter appearance for more than 24 hours under conditions of use that are customary or usual and removal by the consumer is not part of the conditions of use that are customary or usual.

**§ 17129. Exemption for certain products and facilities**

(a) IN GENERAL.—Notwithstanding any other provision of law, except as provided in subsection (b), a cosmetic product or facility that is also subject to the require-

ments of division D shall be exempt from the requirements of sections 17121, 17122, 17123, 17124, 17125(a), 17126, and 17127 of this title.

(b) EXCEPTION.—A facility described in subsection (a) that also manufactures or processes cosmetic products that are not subject to the requirements of division D shall not be exempt from the requirements of sections 17121, 17122, 17123, 17124, 17125(a), 17126, and 17127 of this title, with respect to the cosmetic products.

**§ 17130. Preemption**

(a) IN GENERAL.—No State or political subdivision of a State may establish or continue in effect any law, regulation, order, or other requirement for cosmetics that is different from or in addition to, or otherwise not identical with, any requirement applicable under this chapter with respect to registration and product listing, good manufacturing practice, records, recalls, adverse event reporting, or safety substantiation.

(b) LIMITATION.—Nothing in the amendments to this subtitle made by the Modernization of Cosmetics Regulation Act of 2022 (Public Law 117-328, div. FF, title III, subtitle E, 136 Stat. 5847) shall be construed to preempt any State statute, public initiative, referendum, regulation, or other State action, except as expressly provided in subsection (a). Notwithstanding subsection (a), nothing

in this section shall be construed to prevent any State from prohibiting the use or limiting the amount of an ingredient in a cosmetic product, or from continuing in effect a requirement of any State that is in effect at the time of enactment of the Modernization of Cosmetics Regulation Act of 2022 (Public Law 117-328, div. FF, title III, subtitle E, 136 Stat. 5847) for the reporting to the State of an ingredient in a cosmetic product.

(c) SAVINGS.—Nothing in the amendments to this subtitle made by the Modernization of Cosmetics Regulation Act of 2022 (Public Law 117-328, div. FF, title III, subtitle E, 136 Stat. 5847), nor any standard, rule, requirement, regulation, or adverse event report shall be construed to modify, preempt, or displace any action for damages or the liability of any person under the law of any State, whether statutory or based in common law.

(d) RULE OF CONSTRUCTION.—Nothing in this section shall be construed to amend, expand, or limit the provisions under section 18502 of this title.

# Division F—General Authorities

## Chapter 175—General Administrative Provisions

Sec.
17501. Regulations and hearings.
17502. Examinations and investigations.
17503. Records.
17504. Inspection.
17505. Publicity.
17506. Examination of seafood on request of packer.

17507. Advertising of foods.
17508. Confidential information.
17509. Existence of jurisdiction.
17510. Consolidated administrative and laboratory facility.
17511. Automation of FDA.
17512. Conflicts of interest.
17513. Policy on the review and clearance of scientific articles published by FDA employees.
17514. Hiring authority for scientific, technical, and professional personnel.
17515. Strategic Workforce Plan and report.
17516. Reporting requirements for biosimilar biological products.

### § 17501. Regulations and hearings

(a) AUTHORITY TO PROMULGATE REGULATIONS.—The authority to promulgate regulations for the efficient enforcement of this subtitle, except as otherwise provided in this section, is vested in the Secretary.

(b) REGULATIONS FOR IMPORTS AND EXPORTS.—The Secretary of the Treasury and the Secretary shall jointly prescribe regulations for the efficient enforcement of section 20101 of this title, except as otherwise provided in that section. The regulations shall be promulgated in such manner and take effect at such time, after due notice, as the Secretary shall determine.

(c) CONDUCT OF HEARINGS.—Hearings authorized or required by this subtitle shall be conducted by the Secretary or such officer or employee as the Secretary may designate for that purpose.

(d) EFFECTIVENESS OF DEFINITIONS AND STANDARDS OF IDENTITY.—The definitions and standards of identity promulgated in accordance with this subtitle shall be effective for the purposes of the enforcement of this

subtitle, notwithstanding the definitions and standards as may be contained in other laws of the United States and regulations promulgated under those laws.

(e) PROCEDURE FOR ESTABLISHMENT.—

(1) PROPOSAL.—

(A) IN GENERAL.—Any action for the issuance, amendment, or repeal of any regulation under section 11106(a), 11108, 11311, 13101(b), or 13307 of this title, and any action for the amendment or repeal of any definition and standard of identity under section 11101 of this title for any dairy product (including products regulated under parts 131, 133, and 135 of title 21, Code of Federal Regulations) shall be initiated by a proposal made—

(i) by the Secretary on the Secretary's own initiative; or

(ii) by petition of any interested person, showing reasonable grounds for the petition, filed with the Secretary.

(B) PUBLICATION.—The Secretary shall publish the proposal under subparagraph (A) and shall afford all interested persons an opportunity to present their views on the proposal, orally or in writing.

(C) ORDER.—

(i) IN GENERAL.—As soon as practicable after the presentation of views under subparagraph (B), the Secretary shall by order act on the proposal and shall make the order public.

(ii) EFFECTIVE DATE.—Except as provided in paragraph (2), the order shall become effective at such time as may be specified in the order, but not prior to the day following the last day on which objections may be filed under paragraph (2).

(2) OBJECTIONS.—

(A) FILING.—On or before the 30th day after the date on which an order entered under paragraph (1) is made public, any person that will be adversely affected by the order if placed in effect may file objections to the order with the Secretary, specifying with particularity the provisions of the order considered objectionable, stating the grounds for the objections, and requesting a public hearing on the objections.

(B) EFFECT OF OBJECTIONS.—

(i) IN GENERAL.—Until final action on the objections is taken by the Secretary

under paragraph (3), the filing of the objections shall operate to stay the effectiveness of those provisions of the order to which the objections are made.

(ii) PUBLICATION.—As soon as practicable after the time for filing objections has expired, the Secretary shall publish a notice in the Federal Register specifying those parts of the order that have been stayed by the filing of objections and, if no objections have been filed, stating that fact.

(3) HEARING.—

(A) IN GENERAL.—As soon as practicable after the request for a public hearing under paragraph (2)(A), the Secretary, after due notice, shall hold the public hearing for the purpose of receiving evidence relevant and material to the issues raised by the objections.

(B) PERSONS TO BE HEARD.—At the hearing, any interested person may be heard in person or by representative.

(C) ORDER.—

(i) IN GENERAL.—As soon as practicable after completion of the hearing, the

Secretary shall by order act on the objections and make the order public.

(ii) SUBSTANTIAL EVIDENCE.—The order shall be based only on substantial evidence of record at the hearing and shall set forth, as part of the order, detailed findings of fact on which the order is based.

(iii) EFFECTIVE DATE.—The Secretary shall specify in the order the date on which it shall take effect, except that it shall not be made to take effect prior to the 90th day after its publication unless the Secretary finds that emergency conditions exist necessitating an earlier effective date, in which event the Secretary shall specify in the order the Secretary's findings as to the conditions.

(f) REVIEW OF ORDER.—

(1) PETITION.—

(A) FILING.—In a case of actual controversy as to the validity of any order under subsection (e), any person that will be adversely affected by the order if placed in effect may, at any time prior to the 90th day after the order

is issued, file a petition with the United States court of appeals for the circuit in which the person resides or in which the person's principal place of business is located, for a judicial review of the order.

(B) TRANSMISSION TO SECRETARY.—A copy of the petition shall be immediately transmitted by the clerk of the court to the Secretary or other officer designated by the Secretary for that purpose.

(C) FILING OF RECORD OF PROCEEDINGS.—The Secretary, on the transmission, shall file in the court the record of the proceedings on which the Secretary based the order, as provided in section 2112 of title 28.

(2) ADDITIONAL EVIDENCE.—

(A) IN GENERAL.—If the petitioner applies to the court for leave to adduce additional evidence, and shows to the satisfaction of the court that the additional evidence is material and that there were reasonable grounds for the failure to adduce the evidence in the proceeding before the Secretary, the court may order the additional evidence (and evidence in rebuttal of the additional evidence) to be taken before the

Secretary, and to be adduced on the hearing, in such manner and on such terms and conditions as to the court may seem proper.

(B) FINDINGS; RECOMMENDATION.—The Secretary may modify the Secretary's findings as to the facts, or make new findings, by reason of the additional evidence taken under subparagraph (A), and the Secretary shall file the modified or new findings, and the Secretary's recommendation, if any, for the modification or setting aside of the Secretary's original order, with the return of the additional evidence.

(3) DECISION OF THE COURT.—

(A) IN GENERAL.—On the filing of the petition referred to in paragraph (1), the court shall have jurisdiction to affirm the order, or to set it aside in whole or in part, temporarily or permanently.

(B) ORDER BY THE COURT.—If the Secretary, in the Secretary's order, refuses to issue, amend, or repeal a regulation and the order is not in accordance with law, the court shall, by its judgment, order the Secretary to take action, with respect to the regulation, in accordance with law.

(C) CONCLUSIVENESS OF SECRETARY'S FINDINGS.—The findings of the Secretary as to the facts, if supported by substantial evidence, shall be conclusive.

(4) FINALITY OF COURT JUDGMENT.—The judgment of the court affirming or setting aside, in whole or in part, any such order of the Secretary shall be final, subject to review by the Supreme Court of the United States on certiorari or certification as provided in section 1254 of title 28.

(5) CHANGE IN THE INDIVIDUAL HOLDING OFFICE; VACANCY.—Any action instituted under this subsection shall survive notwithstanding any change in the individual occupying the Office of Secretary or any vacancy in the Office.

(6) REMEDIES UNDER THIS SUBSECTION IN ADDITION TO OTHER REMEDIES.—The remedies provided for in this subsection shall be in addition to and not in substitution for any other remedies provided by law.

(g) COPIES OF RECORDS OF HEARINGS.—

(1) FURNISHMENT.—The Secretary shall furnish a certified copy of the transcript of the record and proceedings under subsection (e) to any inter-

ested party at the request and payment of the interested party.

(2) ADMISSIBILITY.—The certified copy under paragraph (1) shall be admissible in any criminal, action for condemnation, exclusion of imports, or other proceeding arising under or in respect to this subtitle, irrespective of whether proceedings with respect to the order have previously been instituted or become final under subsection (f).

(h) GUIDANCE DOCUMENTS.—

(1) IN GENERAL.—

(A) DEVELOPMENT; PUBLIC AVAILABILITY; VIEWS OF THE SECRETARY.—The Secretary shall develop guidance documents with public participation and ensure that information identifying the existence of the documents and the documents themselves are made available to the public both in written form and, as feasible, through electronic means. The documents shall not create or confer any rights for or on any person, although they present the views of the Secretary on matters under the jurisdiction of the FDA.

(B) USE BY EMPLOYEES.—Although guidance documents shall not be binding on the

Secretary, the Secretary shall ensure that employees of the FDA do not deviate from the guidances without appropriate justification and supervisory concurrence. The Secretary shall provide training to employees in how to develop and use guidance documents and shall monitor the development and issuance of the documents.

(C) GUIDANCE DOCUMENTS SETTING FORTH INTERPRETATION OR COMPLEX OR CONTROVERSIAL ISSUES.—

(i) IN GENERAL.—For guidance documents that set forth initial interpretations of a statute or regulation, changes in interpretation or policy that are of more than a minor nature, complex scientific issues, or highly controversial issues, the Secretary shall ensure public participation prior to implementation of the guidance documents, unless the Secretary determines that prior public participation is not feasible or appropriate. In cases in which prior public participation is not feasible or appropriate, the Secretary shall provide for public comment on implementation and take the comment into account.

(ii) NOTICE TO INDUSTRY AS GUIDANCE DOCUMENT FOR DEVICES.—With respect to devices, if a notice to industry guidance letter, a notice to industry advisory letter, or any similar notice sets forth initial interpretations of a regulation or policy or sets forth changes in interpretation or policy, the notice shall be treated as a guidance document for purposes of this subparagraph.

(D) GUIDANCE DOCUMENTS SETTING FORTH EXISTING PRACTICES AND MINOR CHANGES IN POLICY.—For guidance documents that set forth existing practices or minor changes in policy, the Secretary shall provide for public comment on implementation.

(2) UNIFORMITY; REVIEW AND REVISION.—In developing guidance documents, the Secretary shall ensure uniform nomenclature for the documents and uniform internal procedures for approval of the documents. The Secretary shall ensure that guidance documents and revisions of the documents are properly dated and indicate the nonbinding nature of the documents. The Secretary shall periodically review

all guidance documents and, where appropriate, revise the documents.

(3) PUBLICATION.—The Secretary, acting through the Commissioner, shall maintain electronically and update and publish periodically in the Federal Register a list of guidance documents. All such documents shall be made available to the public.

(4) APPEALS AND COMPLAINTS RELATING TO DEVELOPMENT AND USE OF GUIDANCE DOCUMENTS.—The Secretary shall ensure that an effective appeals mechanism is in place to address complaints that the FDA is not developing and using guidance documents in accordance with this subsection.

(5) POLICIES AND PROCEDURES FOR THE DEVELOPMENT, ISSUANCE, AND USE OF GUIDANCE DOCUMENTS.—Not later than July 1, 2000, the Secretary after evaluating the effectiveness of the Good Guidance Practices document, published in the Federal Register at 62 Fed. Reg. 8961 (Feb. 27, 1997), shall promulgate a regulation consistent with this subsection specifying the policies and procedures of the FDA for the development, issuance, and use of guidance documents.

**§ 17502. Examinations and investigations**

(a) AUTHORITY TO CONDUCT.—

(1) DEFINITION OF UNITED STATES.—In this subsection, the term ''United States'' means the States and the District of Columbia.

(2) IN GENERAL.—

(A) INDVIDUALS AUTHORIZED.—The Secretary may conduct examinations and investigations for the purposes of this subtitle through officers and employees of the Department or through any health, food, or drug officer or employee of any State, territory of the United States, or political subdivision of a State or territory of the United States, commissioned by the Secretary as an officer of the Department.

(B) TOBACCO PRODUCTS.—

(i) IN GENERAL.—For a tobacco product, to the extent feasible, the Secretary shall contract with a State in accordance with this paragraph to carry out inspections of retailers within that State in connection with the enforcement of this subtitle.

(ii) EXCEPTION RELATING TO INDIAN COUNTRY.—The Secretary shall not enter into any contract under clause (i) with the

government of any State to exercise enforcement authority under this subtitle on Indian country without the express written consent of the Indian tribe involved.

(3) MEMORANDUM OF UNDERSTANDING.—

(A) AUTHORITY.—

(i) IN GENERAL.—In addition to the authority established in paragraph (2), the Secretary, pursuant to a memorandum of understanding between the Secretary and the head of another Federal agency, may conduct examinations and investigations for the purposes of this subtitle through the officers and employees of the other Federal agency, subject to subparagraph (B).

(ii) TRAINING.—The memorandum of understanding under clause (i) shall include provisions to ensure adequate training of the officers and employees to conduct the examinations and investigations.

(iii) REIMBURSEMENT.—The memorandum of understanding shall contain provisions regarding reimbursement. The reimbursement provisions may, at the sole

discretion of the head of the other Federal agency, require reimbursement, in whole or in part, from the Secretary for the examinations or investigations performed under this section by the officers or employees of the other Federal agency.

(B) EFFECTIVE IN FACILITIES OR LOCATIONS JOINTLY REGULATED.—A memorandum of understanding under subparagraph (A) between the Secretary and another Federal agency is effective only in the case of examinations or inspections at facilities or other locations that are jointly regulated by the Secretary and the other Federal agency.

(C) REPORT.—For any fiscal year in which the Secretary and the head of another Federal agency carries out 1 or more examinations or inspections under a memorandum of understanding under subparagraph (A), the Secretary and the head of the other Federal agency shall, with respect to their respective agencies, submit to the committees of jurisdiction (authorizing and appropriating) in the House of Representatives and the Senate a report that provides, for the year—

(i) the number of officers or employees that carried out 1 or more programs, projects, or activities under the memorandum;

(ii) the number of additional articles that were inspected or examined as a result of the memorandum; and

(iii) the number of additional examinations or investigations that were carried out pursuant to the memorandum.

(4) FOOD PACKED IN PUERTO RICO OR TERRITORY OF THE UNITED STATES.—In the case of food packed in Puerto Rico or a territory of the United States, the Secretary shall attempt to inspect the food at the first point of entry within the United States when, in the Secretary's opinion and with due regard to the enforcement of all the provisions of this subtitle, the facilities at the Secretary's disposal will permit of the inspection.

(b) AVAILABILITY TO OWNER OF PART OF ANALYSIS SAMPLES.—

(1) IN GENERAL.—If a sample of a food, drug, or cosmetic is collected for analysis under this subtitle, the Secretary shall, upon request, provide a part of the official sample for examination or anal-

ysis by any person named on the label of the article, the owner of the article, or the person's or owner's attorney or agent.

(2) EXCEPTION.—The Secretary may, by regulations, make such reasonable exceptions from, and impose such reasonable terms and conditions relating to, the operation of this subsection as the Secretary finds necessary for the proper administration of this subtitle.

(c) RECORDS OF OTHER AGENCIES.—For purposes of enforcement of this subtitle, records of any agency or independent establishment in the Executive Branch of the Government shall be open to inspection by any official of the Department authorized by the Secretary to make the inspection.

(d) INFORMATION ON PATENTS FOR DRUGS.—

(1) IN GENERAL.—The Secretary shall, on request from the Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office, furnish full and complete information with respect to such questions relating to drugs as the Director may submit concerning any patent application.

(2) RESEARCH.—The Secretary may, on receipt of any request under paragraph (1), conduct or

cause to be conducted, such research as may be required.

(e) AUTHORITIES OF ENFORCEMENT PERSONNEL.—

(1) IN GENERAL.—Any officer or employee of the Department designated by the Secretary to conduct examinations, investigations, or inspections under this subtitle relating to counterfeit drugs may, when authorized by the Secretary—

(A) carry firearms;

(B) execute and serve search warrants and arrest warrants;

(C) execute seizure by process issued pursuant to an action under section 10504 of this title;

(D) make arrests without warrant for offenses under this subtitle with respect to the drugs if the offense is committed in the officer's or employee's presence or, in the case of a felony, if the officer or employee has probable cause to believe that the person arrested has committed, or is committing, the offense; and

(E) make, prior to the institution of an action for condemnation proceeding under section 10504(a)(2) of this title, seizures of drugs or containers or of equipment, punches, dies,

plates, stones, labeling, or other things, if they are, or the officer or employee has reasonable grounds to believe that they are, subject to seizure and condemnation under section 10504(a)(2) of this title.

(2) SEIZURE.—In the event of seizure pursuant to paragraph (1)(E), an action for condemnation proceeding under section 10504(a)(2) of this title shall be instituted promptly and the property seized shall be placed under the jurisdiction of the court.

**§ 17503. Records**

(a) IN GENERAL.—

(1) REQUIRED ACCESS.—For the purpose of enforcing this subtitle, carriers engaged in interstate commerce, and persons receiving food, drugs, devices, tobacco products, or cosmetics in interstate commerce or holding the articles received in interstate commerce, shall, on the request of an officer or employee designated by the Secretary, permit the officer or employee, at reasonable times, to have access to and to copy all records showing—

(A) the movement in interstate commerce of any food, drug, device, tobacco product, or cosmetic, or the holding of the food, drug, de-

vice, tobacco product, or cosmetic during or after the movement; and

(B) the quantity, shipper, and consignee of the food, drug, device, tobacco product, or cosmetic.

(2) PROHIBITION.—It shall be unlawful for any carrier or person under paragraph (1) to fail to permit access to and copying of any record requested as described in paragraph (1) when the request is accompanied by a statement in writing specifying the nature or kind of food, drug, device, tobacco product, or cosmetic to which the request relates.

(3) EVIDENCE.—Evidence obtained under this section, or any evidence that is directly or indirectly derived from the evidence obtained under this section, shall not be used in a criminal prosecution of the person from whom obtained.

(4) INAPPLICABILITY OF OTHER PROVISIONS TO CARRIERS IN THE USUAL COURSE OF BUSINESS.—Carriers shall not be subject to the other provisions of this subtitle by reason of their receipt, carriage, holding, or delivery of food, drugs, devices, tobacco products, or cosmetics in the usual course of business as carriers, except as provided in subsection (b).

(b) FOOD TRANSPORTATION RECORDS.—A shipper, carrier by motor vehicle or rail vehicle, receiver, or other person subject to section 11118 of this title shall, on request of an officer or employee designated by the Secretary, permit the officer or employee, at reasonable times, to have access to and to copy all records that the Secretary requires to be kept under section 11118(c)(1)(E) of this title.

**§ 17504. Inspection**

(a) IN GENERAL.—

(1) AUTHORITY TO ENTER; SCOPE; NOTICE; PROMPTNESS.—

(A) AUTHORITY TO ENTER.—For purposes of enforcement of this subtitle, officers or employees designated by the Secretary, on presenting appropriate credentials and a written notice to the owner, operator, or agent in charge, may—

(i) enter, at reasonable times, any factory, warehouse, or establishment in which food, drugs, devices, tobacco products, or cosmetics are manufactured, processed, packed, or held, for introduction into interstate commerce or after the introduction, or enter any vehicle being used to trans-

port or hold the food, drugs, devices, tobacco products, or cosmetics in interstate commerce; and

(ii) inspect, at reasonable times and within reasonable limits and in a reasonable manner, the factory, warehouse, establishment, or vehicle and all pertinent equipment, finished and unfinished materials, containers, and labeling in the factory, warehouse, establishment, or vehicle.

(B) SCOPE OF INSPECTION RELATING TO FOODS.—In the case of any person (excluding farms and restaurants) that manufactures, processes, packs, transports, distributes, holds, or imports foods, the inspection shall extend to all records and other information described in section 11116 of this title, if the standard for records inspection under paragraph (1) or (2) of section 11116(a) of this title applies, subject to the limitations established in section 11116(d) of this title.

(C) SCOPE OF INSPECTION RELATING TO COSMETICS.—In the case of a facility (as defined in section 17101 of this title) that manufactures or processes cosmetic products, the in-

spection shall extend to all records and other information described in sections 17121, 17122, and 17126 of this title, when the standard for records inspection under the section applies.

(D) SCOPE OF INSPECTION RELATING TO DRUGS, DEVICES, AND TOBACCO PRODUCTS.—In the case of any factory, warehouse, establishment, or consulting laboratory in which prescription drugs, nonprescription drugs intended for human use, devices, or tobacco products are manufactured, processed, packed, or held, the inspection shall extend to all things in the factory, warehouse, establishment, or consulting laboratory (including records, files, papers, processes, controls, and facilities)—

(i) bearing on whether prescription drugs, nonprescription drugs intended for human use, devices, or tobacco products that are adulterated or misbranded within the meaning of this subtitle, or that may not be manufactured, introduced into interstate commerce, sold, or offered for sale by reason of any provision of this subtitle, have been or are being manufactured,

processed, packed, transported, or held in any such place; or

(ii) otherwise bearing on violation of this subtitle.

(E) SCOPE LIMITATION.—An inspection authorized by subparagraph (D) or by paragraph (3) shall not extend to financial data, sales data other than shipment data, pricing data, personnel data (other than data as to qualification of technical and professional personnel performing functions subject to this subtitle), and research data (other than data relating to new drugs, antibiotic drugs, devices, and tobacco products and subject to reporting and inspection under regulations lawfully issued pursuant to section 13151, 13152(g), 13510, or 13512 of this title or chapter 211 of this title and data relating to other drugs, devices, or tobacco products that in the case of a new drug would be subject to reporting or inspection under lawful regulations issued pursuant to section 13511 of this title).

(F) NOTICE.—A separate notice shall be given for each inspection under this paragraph, but a notice shall not be required for each entry

made during the period covered by the inspection.

(G) PROMPTNESS.—Each inspection under this paragraph shall be commenced and completed with reasonable promptness.

(2) INAPPLICABILITY OF PARAGRAPH (1)(D).—Paragraph (1)(D) shall not apply to—

(A) pharmacies—

(i) that—

(I) maintain establishments in conformance with any applicable local laws regulating the practice of pharmacy and medicine; and

(II) are regularly engaged in dispensing prescription drugs or devices, on prescriptions of practitioners licensed to administer the drugs or devices to patients under the care of the practitioners in the course of their professional practice; and

(ii) that do not, either through a subsidiary or otherwise, manufacture, prepare, propagate, compound, or process drugs or devices for sale other than in the regular

course of their business of dispensing or selling drugs or devices at retail;

(B) practitioners—

(i) licensed by law to prescribe or administer drugs or prescribe or use devices; and

(ii) who manufacture, prepare, propagate, compound, or process drugs, or manufacture or process devices, solely for use in the course of their professional practice;

(C) persons who manufacture, prepare, propagate, compound, or process drugs or manufacture or process devices, solely for use in research, teaching, or chemical analysis and not for sale; or

(D) such other classes of persons as the Secretary may by regulation exempt from the application of this section on a finding that inspection as applied to the classes of persons in accordance with this section is not necessary for the protection of the public health.

(3) INSPECTIONS RELATING TO REQUIREMENTS FOR INFANT FORMULAS.—An officer or employee making an inspection under paragraph (1) for purposes of enforcing the requirements of section 11114

of this title applicable to infant formulas shall be permitted, at all reasonable times, to have access to and to copy and verify any records—

(A) bearing on whether the infant formula manufactured or held in the facility inspected meets the requirements of section 11114 of this title; or

(B) required to be maintained under section 11114 of this title.

(4) ADVANCED PROVISION OF RECORDS OR INFORMATION BY PERSONS THAT OWN DRUG OR DEVICE ESTABLISHMENTS.—

(A) IN GENERAL.—Any records or other information that the Secretary may inspect under this section from a person that owns or operates an establishment that is engaged in the manufacture, preparation, propagation, compounding, or processing of a drug or device, or a site or facility that is subject to inspection under paragraph (5)(C), shall, on the request of the Secretary, be provided to the Secretary by the person, in advance of or in lieu of an inspection, within a reasonable timeframe, within reasonable limits, and in a reasonable manner, and in either electronic or physical form, at the

expense of the person. The Secretary's request shall include a sufficient description of the records or other information requested and a rationale for requesting the records or other information in advance of, or in lieu of, an inspection.

(B) CONFIRMATION OF RECEIPT.—On receipt of the records requested under subparagraph (A), the Secretary shall provide to the person confirmation of receipt.

(C) SATISFACTION OF CERTAIN REQUIREMENTS.—The Secretary may rely on any records or other information that the Secretary may inspect under this section to satisfy requirements that may pertain to a preapproval or risk-based surveillance inspection, or to resolve deficiencies identified during the inspections, if applicable and appropriate.

(D) EFFECT OF PARAGRAPH.—Nothing in this paragraph supplants the authority of the Secretary to conduct inspections otherwise permitted under this subtitle in order to ensure compliance with this subtitle.

(5) INSPECTIONS RELATING TO ACCURACY AND RELIABILITY OF STUDIES AND RECORDS AND COMPLIANCE WITH REQUIREMENTS.—

(A) IN GENERAL.—The Secretary may, to ensure the accuracy and reliability of studies and records or other information described in subparagraph (B) and to assess compliance with applicable requirements under this subtitle or the Public Health Service Act (42 U.S.C. 201 et seq.), enter sites and facilities specified in subparagraph (C) in order to inspect the records or other information.

(B) SCOPE OF INSPECTION.—An inspection under this paragraph shall extend to all records and other information related to the studies and submissions described in subparagraph (E), including records and information related to the conduct, results, and analyses of, and the protection of human and animal trial participants participating in, the studies.

(C) SITES AND FACILITIES.—

(i) IN GENERAL.—The sites and facilities subject to inspection by the Secretary under this paragraph are those owned or operated by a person described in clause

(ii) and which are (or were) utilized by the person in connection with—

(I) developing an application or other submission to the Secretary under this subtitle or the Public Health Service Act (42 U.S.C. 201 et seq.) related to marketing authorization for a product described in paragraph (1);

(II) preparing, conducting, or analyzing the results of a study described in subparagraph (E); or

(III) holding any records or other information described in subparagraph (B).

(ii) PERSON.—A person described in this clause is—

(I) the sponsor of an application or submission specified in subparagraph (E);

(II) a person engaged in any activity described in clause (i) on behalf of a sponsor described in subclause (I), through a contract, grant, or

other business arrangement with the sponsor;

(III) an institutional review board, or other individual or entity, engaged by contract, grant, or other business arrangement with a non-sponsor in preparing, collecting, or analyzing records or other information described in subparagraph (B); or

(IV) any person not otherwise described in this clause that conducts, or has conducted, a study described in subparagraph (E) yielding records or other information described in subparagraph (B).

(D) ACCESS BY SECRETARY.—

(i) IN GENERAL.—Subject to clause (ii), an entity that owns or operates any site or facility subject to inspection under this paragraph shall provide the Secretary with access to records and other information described in subparagraph (B) that is held by or under the control of the entity, including—

(I) permitting the Secretary to record or copy the information for purposes of this paragraph;

(II) providing the Secretary with access to any electronic information system utilized by the entity to hold, process, analyze, or transfer any records or other information described in subparagraph (B); and

(III) permitting the Secretary to inspect the facilities, equipment, written procedures, processes, and conditions through which records or other information described in subparagraph (B) is or was generated, held, processed, analyzed, or transferred.

(ii) EFFECT ON CONFIDENTIAL INFORMATION.—Nothing in clause (i) shall negate, supersede, or otherwise affect the applicability of provisions, under this subtitle or under any Act, preventing or limiting the disclosure of confidential commercial information or other information considered proprietary or trade secret.

(iii) CONDUCT OF INSPECTION.—An inspection under this paragraph shall be conducted at reasonable times and within reasonable limits and in a reasonable manner.

(E) STUDIES AND SUBMISSIONS.—The studies and submissions described in this subparagraph are each of the following:

(i) Clinical and nonclinical studies submitted to the Secretary in support of, or otherwise related to, applications and other submissions to the Secretary under this subtitle or the Public Health Service Act (42 U.S.C. 201 et seq.) for marketing authorization of a product described in paragraph (1).

(ii) Postmarket safety activities conducted under this subtitle or the Public Health Service Act (42 U.S.C. 201 et seq.).

(iii) Any other clinical investigation of—

(I) a drug subject to chapter 135 or 137 of this title or section 351 of

the Public Health Service Act (42 U.S.C. 262); or

(II) a device subject to section 13152(g) of this title.

(iv) Any other submissions made under this subtitle or the Public Health Service Act (42 U.S.C. 201 et seq.) with respect to which the Secretary determines an inspection under this paragraph is warranted in the interest of public health.

(F) CONSTRUCTION.—This paragraph clarifies the authority of the Secretary to conduct inspections of the type described in this paragraph and shall not be construed as a basis for inferring that, prior to December 29, 2022, the Secretary lacked the authority to conduct the inspections, including under this subtitle or the Public Health Service Act (42 U.S.C. 201 et seq.).

(b) WRITTEN REPORT TO OWNER.—

(1) IN GENERAL.—

(A) CONTENT.—On completion of any such inspection of a factory, warehouse, consulting laboratory, or other establishment, and prior to leaving the premises, the officer or em-

ployee making the inspection shall give to the owner, operator, or agent in charge a report in writing setting forth any conditions or practices observed by the officer or employee that, in the judgment of the officer or employee, indicate that any food, drug, device, tobacco product, or cosmetic in the establishment—

(i) consists in whole or in part of any filthy, putrid, or decomposed substance; or

(ii) has been prepared, packed, or held under insanitary conditions in which it may have become contaminated with filth, or in which it may have been rendered injurious to health.

(B) COPY TO SECRETARY.—A copy of the report under subparagraph (A) shall be sent promptly to the Secretary.

(2) DRUGS FOR WHICH NOTIFICATION OF DISCONTINUANCE OR INTERRUPTION HAS BEEN SUBMITTED; DRUGS ON SHORTAGE LIST.—

(A) IN GENERAL.—In carrying out this subsection with respect to any establishment manufacturing a drug described in subparagraph (B), a copy of the report shall be sent

promptly to the appropriate offices of the FDA with expertise regarding drug shortages.

(B) DRUG DESCRIBED.—A drug described in this subparagraph is a drug approved under section 13504 or 13511 of this title—

(i) for which a notification has been submitted in accordance with section 13122 of this title;

(ii) that is, or has been in the last 5 years, listed on the drug shortage list under section 13125 of this title; or

(iii) that is described in section 13511(k)(1) of this title.

(c) RECEIPT FOR SAMPLES TAKEN.—If the officer or employee making any such inspection of a factory, warehouse, or other establishment has obtained any sample in the course of the inspection, on completion of the inspection and prior to leaving the premises, the officer or employee shall give to the owner, operator, or agent in charge a receipt describing the samples obtained.

(d) ANALYSIS OF SAMPLES FURNISHED TO OWNER.—If, in the course of any such inspection of a factory or other establishment in which food is manufactured, processed, or packed, the officer or employee making the inspection obtains a sample of any such food, and an anal-

ysis is made of the sample for the purpose of ascertaining whether the food consists in whole or in part of any filthy, putrid, or decomposed substance, or is otherwise unfit for food, a copy of the results of the analysis shall be furnished promptly to the owner, operator, or agent in charge.

(e) ACCESSIBILITY OF RECORDS.—Each person required under section 13151 or 13152(g) of this title to maintain records and each person that is in charge or custody of the records shall, on request of an officer or employee designated by the Secretary, permit the officer or employee at all reasonable times to have access to, and to copy and verify, the records.

(f) RECORDKEEPING.—

(1) DEFINITION OF ACCREDITED PERSON.—In this subsection, the term ''accredited person'' means a person that—

(A) is accredited under subsection (g); or

(B) is accredited under section 13155 of this title.

(2) IN GENERAL.—

(A) RESPONSIBILITY OF ACCREDITED PERSON.—An accredited person shall maintain records documenting—

(i) the training qualifications of the accredited person and the employees of the accredited person;

(ii) the procedures used by the accredited person for handling confidential information;

(iii) the compensation arrangements made by the accredited person; and

(iv) the procedures used by the accredited person to identify and avoid conflicts of interest.

(B) ACCESS.—On the request of an officer or employee designated by the Secretary, the accredited person shall permit the officer or employee, at all reasonable times, to have access to, to copy, and to verify the records.

(3) PRODUCTION OF COPIES.—Within 15 days after the receipt of a written request from the Secretary to an accredited person for copies of records described in paragraph (2), the accredited person shall produce the copies of the records at the place designated by the Secretary.

(g) INSPECTIONS BY ACCREDITED PERSONS.—

(1) ACCREDITATION.—

(A) IN GENERAL.—The Secretary shall, subject to this subsection, accredit persons for the purpose of conducting inspections of establishments that manufacture, prepare, propagate, compound, or process class II or class III devices, which inspections are required under section 13136(h) of this title or are inspections of the establishments required to register under section 13136(i) of this title.

(B) SELECTION OF ACCREDITED PERSON BY ELIGIBLE ESTABLISHMENT.—The owner or operator of an establishment described in subparagraph (A) that is eligible under paragraph (6) may, from the list published under paragraph (4), select an accredited person to conduct the inspections.

(2) REQUESTS FOR ACCREDITATION.—

(A) PUBLICATION OF CRITERIA.—The Secretary shall publish in the Federal Register criteria to accredit or deny accreditation to persons that request to perform the duties specified in paragraph (1).

(B) ACTIONS BY SECRETARY ON RECEIPT OF REQUEST.—The Secretary shall inform a person requesting accreditation, within 60 days

after the receipt of the request, whether the request for accreditation is adequate for review, and the Secretary shall promptly act on the request for accreditation.

(C) AUTHORITIES TO BE STATED IN ACCREDITATION.—

(i) IN GENERAL.—Any resulting accreditation shall state that the person is accredited to conduct inspections at device establishments identified in paragraph (1).

(ii) PARTICULAR ACTIVITIES.—The accreditation of the person shall specify the particular activities under this subsection for which the person is accredited.

(3) REQUIREMENTS.—An accredited person shall, at a minimum, meet the following requirements:

(A) NOT A FEDERAL EMPLOYEE.—The person may not be an employee of the Federal Government.

(B) INDEPENDENT ORGANIZATION.—The person shall be an independent organization that is not owned or controlled by a manufacturer, supplier, or vendor of articles regulated under this subtitle and that has no organiza-

tional, material, or financial affiliation (including a consultative affiliation) with such a manufacturer, supplier, or vendor.

(C) LEGALLY CONSTITUTED ENTITY PERMITTED TO CONDUCT ACTIVITIES UNDER THE ACCREDITATION.—The person shall be a legally constituted entity permitted to conduct the activities for which it seeks accreditation.

(D) NOT ENGAGED IN ACTIVITIES RELATING TO REGULATED ARTICLES.—The person shall not engage in the design, manufacture, promotion, or sale of articles regulated under this subtitle.

(E) OPERATIONS IN ACCORDANCE WITH PROFESSIONAL AND ETHICAL BUSINESS PRACTICES; OTHER REQUIREMENTS AGREED TO IN WRITING.—The operations of the person shall be in accordance with generally accepted professional and ethical business practices, and the person shall agree in writing that, at a minimum, the person will—

(i) certify that reported information accurately reflects data reviewed, inspection observations made, other matters that relate to or may influence compliance with

this subtitle, and recommendations made during an inspection or at an inspection's closing meeting;

(ii) limit work to that for which competence and capacity are available;

(iii) treat information received, records, reports, and recommendations as confidential commercial or financial information or trade secret information, except the information may be made available to the Secretary;

(iv) promptly respond and attempt to resolve complaints regarding its activities for which it is accredited; and

(v) protect against the use, in carrying out paragraph (1), of any officer or employee of the accredited person that has a financial conflict of interest regarding any product regulated under this subtitle, and annually make available to the public disclosures of the extent to which the accredited person, and the officers and employees of the person, have maintained compliance with requirements under this

clause relating to financial conflicts of interest.

(F) NOTIFICATION RELATING TO CERTIFICATE OF CONFORMANCE WITH THE QUALITY SYSTEMS STANDARD.—The person shall notify the Secretary of any withdrawal, suspension, restriction, or expiration of a certificate of conformance with the quality systems standard referred to in paragraph (7) for any device establishment that the person inspects under this subsection not later than 30 days after the withdrawal, suspension, restriction, or expiration.

(G) AUDITS.—The person may conduct audits to establish conformance with the quality systems standard referred to in paragraph (7).

(4) LIST OF ACCREDITED PERSONS.—

(A) PUBLICATION.—The Secretary shall publish on the FDA website a list of persons that are accredited under paragraph (2).

(B) IDENTITY OF ACCREDITED PERSONS AND ACTIVITIES FOR WHICH ACCREDITED AS PUBLIC INFORMATION.—The list under subparagraph (A) shall be updated to ensure that the identity of each accredited person, and the

particular activities for which the person is accredited, is known to the public. The updating of the list shall be no later than 1 month after the accreditation of a person under this subsection or the suspension or withdrawal of accreditation, or the modification of the particular activities for which the person is accredited.

(5) CONTINUED COMPLIANCE WITH REQUIREMENTS OF ACCREDITATION.—

(A) AUDIT; ADDITIONAL MEASURES.—To ensure that persons accredited under this subsection continue to meet the standards of accreditation, the Secretary shall—

(i) audit the performance of the persons on a periodic basis through the review of inspection reports and inspections by persons designated by the Secretary to evaluate the compliance status of a device establishment and the performance of accredited persons; and

(ii) take such additional measures as the Secretary determines to be appropriate.

(B) WITHDRAWAL OF ACCREDITATION.—

(i) IN GENERAL.—The Secretary may withdraw accreditation of any person ac-

credited under paragraph (2), after providing notice and an opportunity for an informal hearing, if—

(I) the person—

(aa) is substantially not in compliance with the standards of accreditation;

(bb) poses a threat to public health; or

(cc) fails to act in a manner that is consistent with the purposes of this subsection; or

(II) the Secretary determines that there is a financial conflict of interest in the relationship between the accredited person and the owner or operator of a device establishment that the accredited person has inspected under this subsection.

(ii) SUSPENSION.—The Secretary may suspend the accreditation of the person during the pendency of the process under clause (i).

(6) ELIGIBILITY FOR INSPECTION OF DEVICE ESTABLISHMENT.—

(A) CONDITIONS.—Subject to subparagraphs (B) and (C), a device establishment is eligible for inspection by persons accredited under paragraph (2) if the following conditions are met:

(i) CLASSIFICATION OF RESULTS OF INSPECTION.—The Secretary classified the results of the most recent inspection of the device establishment as ''no action indicated'' or ''voluntary action indicated''.

(ii) SUBMISSION OF NOTICE.—With respect to inspections of the device establishment to be conducted by an accredited person, the owner or operator of the device establishment submits to the Secretary a notice that—

(I) provides the date of the last inspection of the device establishment by the Secretary and the classification of that inspection;

(II) states the intention of the owner or operator to use an accredited person to conduct inspections of the device establishment;

(III) identifies the particular accredited person the owner or operator intends to select to conduct the inspections; and

(IV) includes a certification that, with respect to the devices that are manufactured, prepared, propagated, compounded, or processed in the device establishment—

(aa) at least 1 of the devices is marketed in the United States; and

(bb) at least 1 of the devices is marketed, or is intended to be marketed, in 1 or more foreign countries, 1 of which countries certifies, accredits, or otherwise recognizes the person accredited under paragraph (2) and identified under subclause (III) as a person authorized to conduct inspections of device establishments.

(B) CLEARANCE TO PARTICIPATE.—

(i) IN GENERAL.—Except with respect to the requirement of subparagraph (A)(i), a device establishment is deemed to have clearance to participate in the program and to use the accredited person identified in the notice under subparagraph (A)(ii) for inspections of the device establishment unless the Secretary, not later than 30 days after receiving the notice, issues a response that—

(I) denies clearance to participate as provided under subparagraph (C); or

(II) makes a request under clause (ii).

(ii) REQUEST FOR INFORMATION BY SECRETARY.—

(I) IN GENERAL.—The Secretary may request from the owner or operator of a device establishment in response to the notice under subparagraph (A)(ii) with respect to the device establishment, or from the particular accredited person identified in the notice—

(aa) compliance data for the device establishment in accordance with clause (iii)(I); or

(bb) information concerning the relationship between the owner or operator of the establishment and the accredited person identified in the notice in accordance with clause (iii)(II).

(II) RESPONSE BY OWNER OR OPERATOR OR ACCREDITED PERSON.—The owner or operator of the device establishment, or the accredited person, as the case may be, shall respond to a request under subclause (I) not later than 60 days after receiving the request.

(iii) COMPLIANCE DATA.—

(I) CONTENT.—

(aa) QUALITY CONTROLS SUFFICIENT FOR ENSURING COMPLIANCE WITH GOOD MANUFACTURING PRACTICE.—The compliance data to be submitted by the owner or operator of a device es-

tablishment in response to a request under clause (ii)(I)(aa) are data describing whether the quality controls of the establishment have been sufficient for ensuring consistent compliance with current good manufacturing practice within the meaning of section 13101(h) of this title and with other applicable provisions of this subtitle.

(bb) REPORTS OF INSPECTIONAL FINDINGS.—The compliance data shall include complete reports of inspectional findings regarding good manufacturing practice or other quality control audits that, during the preceding 2-year period, were conducted at the device establishment by persons other than the owner or operator of the device establishment, together with all other compliance data the Secretary considers necessary.

(cc) CORRECTION OF COMPLIANCE PROBLEMS.—Data under item (bb) shall demonstrate to the Secretary whether the device establishment has facilitated consistent compliance by promptly correcting any compliance problems identified in the inspections.

(II) INFORMATION NOT REQUIRED NOT TO BE REQUESTED.—A request to an accredited person under clause (ii)(I)(bb) may not seek any information that is not required to be maintained by the person in records under subsection (f)(2).

(iv) DEEMED TO HAVE CLEARANCE TO PARTICIPATE UNLESS CLEARANCE IS DENIED.—A device establishment is deemed to have clearance to participate in the program and to use the accredited person identified in the notice under subparagraph (A)(ii) for inspections of the establishment unless the Secretary, not later than 60 days after receiving the informa-

tion requested under clause (ii), issues a response that denies clearance to participate as provided under subparagraph (C).

(C) DENIAL OF CLEARANCE; REJECTION OF SELECTION OF ACCREDITED PERSON.—

(i) EVIDENCE THAT CERTIFICATION IS UNTRUE.—The Secretary may deny clearance to a device establishment if the Secretary has evidence that the certification under subparagraph (A)(ii)(IV) is untrue and the Secretary provides to the owner or operator of the establishment a statement summarizing the evidence.

(ii) FAILURE TO DEMONSTRATE CONSISTENT COMPLIANCE.—The Secretary may deny clearance to a device establishment if the Secretary determines that the establishment has failed to demonstrate consistent compliance for purposes of subparagraph (B)(iii)(I) and the Secretary provides to the owner or operator of the device establishment a statement of the reasons for the determination.

(iii) REJECTION OF THE SELECTION OF ACCREDITED PERSON.—

(I) REASONS TO BE PROVIDED BY SECRETARY.—The Secretary may reject the selection of the accredited person identified in the notice under subparagraph (A)(ii) if the Secretary provides to the owner or operator of the device establishment a statement of the reasons for the rejection. Reasons for the rejection may include—

(aa) that the device establishment or the accredited person, as the case may be, has failed to fully respond to the request; or

(bb) that the Secretary has concerns regarding the relationship between the device establishment and the accredited person.

(II) ADDITIONAL SELECTIONS.—

(aa) IN GENERAL.—If the Secretary rejects the selection of an accredited person by the owner or operator of a device establishment, the owner or operator may make an additional se-

lection of an accredited person by submitting to the Secretary a notice that identifies the additional selection.

(bb) APPLICABILITY OF PROVISIONS.—Clauses (i) and (ii) of subparagraph (B), and subclause (I) of this clause, apply to the selection of an accredited person through a notice under item (aa) in the same manner and to the same extent as the provisions apply to a selection of an accredited person through a notice under subparagraph (A)(ii).

(iv) REVIEW OF REASONS OR EVIDENCE.—In the case of a device establishment that is denied clearance under clause (i) or (ii) or with respect to which the selection of the accredited person is rejected under clause (iii), the Secretary shall designate a person to review the statement of reasons, or statement summarizing the evidence, as the case may be, of the Secretary under the clause if, during the 30-day pe-

riod beginning on the date on which the owner or operator of the device establishment receives the statement, the owner or operator requests the review. The review shall commence not later than 30 days after the owner or operator requests the review, unless the Secretary and the owner or operator otherwise agree.

(7) INSPECTION REPORTS.—

(A) IN GENERAL.—

(i) OBSERVATIONS; CONDUCT OF INSPECTION.—A person accredited under paragraph (2) to conduct inspections shall record in writing the inspection observations of the person and shall present the observations to the device establishment's designated representative and describe each observation. Additionally, the accredited person shall prepare an inspection report in a form and manner designated by the Secretary to conduct inspections, taking into consideration the goals of international harmonization of quality systems standards.

(ii) CLASSIFICATION OF INSPECTION.—Any official classification of the inspection shall be determined by the Secretary.

(B) CONTENT.—At a minimum, an inspection report under subparagraph (A) shall identify the persons responsible for good manufacturing practice compliance at the inspected device establishment, the dates of the inspection, and the scope of the inspection, and shall describe in detail each observation identified by the accredited person, identify other matters that relate to or may influence compliance with this subtitle, and describe any recommendations during the inspection or at the inspection's closing meeting.

(C) RECIPIENTS; DATE OF SUBMISSION.—An inspection report under subparagraph (A) shall be sent to the Secretary and to the designated representative of the inspected device establishment at the same time, but not later than 3 weeks after the last day of the inspection. The report to the Secretary shall be accompanied by all written inspection observa-

tions previously provided to the designated representative of the device establishment.

(D) CRIMINAL VIOLATION.—Any statement or representation made by an employee or agent of a device establishment to a person accredited under paragraph (2) to conduct inspections shall be subject to section 1001 of title 18.

(E) NOTIFICATION OF CONDITION THAT COULD CAUSE UNREASONABLE RISK TO PUBLIC HEALTH.—If at any time during an inspection by an accredited person, the accredited person discovers a condition that could cause or contribute to an unreasonable risk to the public health, the accredited person shall immediately notify the Secretary of the identification of the device establishment subject to inspection and the condition.

(F) VOLUNTARY REPORTS.—For the purpose of setting risk-based inspectional priorities, the Secretary shall accept voluntary submissions of reports of audits assessing conformance with appropriate quality systems standards set by the International Organization for Standardization (ISO) and identified by the Secretary in public notice. If the owner or operator of an es-

tablishment elects to submit audit reports under this subparagraph, the owner or operator shall submit all such audit reports with respect to the establishment during the preceding 2-year period.

(8) COMPENSATION.—Compensation for an accredited person shall be determined by agreement between the accredited person and the person that engages the services of the accredited person, and shall be paid by the person that engages the services.

(9) EFFECT OF SUBSECTION ON INSPECTIONS BY SECRETARY.—Nothing in this subsection affects the authority of the Secretary to inspect any device establishment pursuant to this subtitle.

(10) LIMITATION OF INSPECTIONS RELATING TO AMOUNTS OBLIGATED.—

(A) DEFINITIONS.—In this paragraph:

(i) BASE AMOUNT.—The term ''base amount'' means the inspection budget determined under subparagraph (C) for fiscal year 2002.

(ii) ADJUSTED BASE AMOUNT.—

(I) FISCAL YEAR 2003.—The term ''adjusted base amount'', in the

case of applicability to fiscal year 2003, means an amount equal to the base amount increased by 5 percent.

(II) FISCAL YEAR 2004 AND SUBSEQUENT FISCAL YEARS.—The term ''adjusted base amount'', with respect to applicability to fiscal year 2004 or any subsequent fiscal year, means the adjusted base amount applicable to the preceding year increased by 5 percent.

(B) IN GENERAL.—For fiscal year 2005 and each subsequent fiscal year, no device establishment may be inspected during the fiscal year involved by a person accredited under paragraph (2) if—

(i) of the amounts appropriated for salaries and expenses of the FDA for the preceding fiscal year (referred to in this subparagraph as the ''first prior fiscal year''), the amount obligated by the Secretary for inspections of device establishments by the Secretary was less than the adjusted base amount applicable to the first prior fiscal year; and

(ii) of the amounts appropriated for salaries and expenses of the FDA for the fiscal year preceding the first prior fiscal year (referred to in this subparagraph as the ''second prior fiscal year''), the amount obligated by the Secretary for inspections of device establishments by the Secretary was less than the adjusted base amount applicable to the second prior fiscal year.

(C) DETERMINATION OF AMOUNTS OBLIGATED.—

(i) IN GENERAL.—Subject to clause (ii), the Comptroller General shall determine the amount that was obligated by the Secretary for fiscal year 2002 for compliance activities of the FDA with respect to devices (referred to in this subparagraph as the ''compliance budget''), and of that amount, the amount that was obligated by the Secretary for inspections of device establishments (referred to in this subparagraph as the ''inspection budget'').

(ii) AMOUNTS OBLIGATED FOR INSPECTIONS CONDUCTED AS PART OF THE PROCESS OF REVIEWING PREMARKET AP-

PROVAL APPLICATIONS.—For purposes of determinations under clause (i), the Comptroller General shall not include in the compliance budget or the inspection budget any amounts obligated for inspections of device establishments conducted as part of the process of reviewing applications under section 13142 of this title.

(iii) COMPLETION OF DETERMINATIONS; REPORT.—Not later than March 31, 2003, the Comptroller General shall complete the determinations required in this subparagraph and submit to the Secretary and to Congress a report describing the findings made through the determinations.

(11) TERMINATION.—The authority provided by this subsection terminates on October 1, 2027.

(12) REPORT.—No later than 4 years after October 26, 2002, the Comptroller General shall report to the Committee on Energy and Commerce of the House of Representatives and the Committee on Health, Education, Labor, and Pensions of the Senate—

(A) the number of inspections conducted by accredited persons pursuant to this subsection and the number of inspections conducted by Federal employees pursuant to section 13136(h) of this title and of device establishments required to register under section 13136(i) of this title;

(B) the number of persons that sought accreditation under this subsection, as well as the number of persons that were accredited under this subsection;

(C) the reasons why persons that sought accreditation, but were denied accreditation, were denied;

(D) the number of audits conducted by the Secretary of accredited persons, the quality of inspections conducted by accredited persons, whether accredited persons are meeting their obligations under this subtitle, and whether the number of audits conducted is sufficient to permit these assessments;

(E) whether this subsection is achieving the goal of ensuring more information about device establishment compliance is being presented to the Secretary, and whether that infor-

mation is of a quality consistent with information obtained by the Secretary pursuant to inspections conducted by Federal employees;

(F) whether this subsection is advancing efforts to allow device establishments to rely on third-party inspections for purposes of compliance with the laws of foreign governments; and

(G) whether Congress should continue, modify, or terminate the program under this subsection.

(13) INCLUSION OF INFORMATION IN REQUIRED ANNUAL REPORT.—The Secretary shall include in the annual report required under section 10301(g) of this title the names of all accredited persons and the particular activities under this subsection for which each person is accredited and the name of each accredited person whose accreditation has been withdrawn during the year.

(14) LEGAL EFFECT ON CERTAIN AGREEMENTS.—Notwithstanding any provision of this subsection, this subsection does not have any legal effect on any agreement described in section 20103(b) of this title between the Secretary and a foreign country.

(15) RECOGNITION OF CERTAIN AUDITING ORGANIZATIONS.—

(A) IN GENERAL.—Notwithstanding any other provision of this subsection, the Secretary may recognize auditing organizations that are recognized by organizations established by governments to facilitate international harmonization for purposes of conducting inspections of—

(i) establishments that manufacture, prepare, propagate, compound, or process devices (other than types of devices licensed under section 351 of the Public Health Service Act (42 U.S.C. 262)), as required under section 13136(h) of this title; or

(ii) establishments required to register pursuant to section 13136(i) of this title.

(B) EFFECT OF PARAGRAPH ON AUTHORITY OF SECRETARY.—Nothing in this paragraph affects—

(i) the authority of the Secretary to inspect any device establishment pursuant to this subtitle; or

(ii) the authority of the Secretary to determine the official classification of an inspection.

(h) UNIFORM PROCESSES AND STANDARDS.—

(1) IN GENERAL.—In the case of inspections other than for-cause inspections, the Secretary shall review processes and standards applicable to inspections of domestic and foreign device establishments in effect as of August 18, 2017, and update the processes and standards through the adoption of uniform processes and standards applicable to the inspections. The uniform processes and standards shall provide for—

(A) exceptions to the processes and standards, as appropriate;

(B) announcing the inspection of the device establishment within a reasonable time before the inspection occurs, including by providing to the owner, operator, or agent in charge of the establishment a notification regarding the type and nature of the inspection;

(C) a reasonable estimate of the timeframe for the inspection, an opportunity for advance communications between the officers or employees carrying out the inspection under subsection

(a)(1) and the owner, operator, or agent in charge of the device establishment concerning appropriate working hours during the inspection, and, to the extent feasible, advance notice of some records that will be requested; and

(D) regular communications during the inspection with the owner, operator, or agent in charge of the device establishment regarding inspection status, which may be recorded by either party with advance notice and mutual consent.

(2) FEEDBACK.—

(A) PROVISION OF FEEDBACK BY SECRETARY.—The Secretary shall, with respect to a request described in subparagraph (B), provide nonbinding feedback with respect to the request not later than 45 days after the Secretary receives the request.

(B) REQUEST FROM OWNER, OPERATOR, OR AGENT.—A request described in this subparagraph is a request for feedback—

(i) that is made by the owner, operator, or agent in charge of the establishment in a timely manner; and

(ii) with respect to actions proposed to be taken by a device establishment in a response to a report received by the device establishment pursuant to subsection (b) that involve a public health priority, that implicate systemic or major actions, or relate to emerging safety issues (as determined by the Secretary).

(3) EFFECT OF SUBSECTION.—Nothing in this subsection affects the authority of the Secretary to conduct inspections otherwise permitted under this subtitle in order to ensure compliance with this subtitle.

**§ 17505. Publicity**

(a) REPORTS.—The Secretary shall publish from time to time reports summarizing all judgments, decrees, and court orders that have been rendered under this subtitle, including the nature of the charge and the disposition of all of those judgments, decrees, and court orders.

(b) INFORMATION REGARDING CERTAIN GOODS.—The Secretary may disseminate information regarding food, drugs, devices, tobacco products, or cosmetics in situations involving, in the opinion of the Secretary, imminent danger to health or gross deception of the consumer.

(c) EFFECT OF SECTION.—Nothing in this section shall be construed to prohibit the Secretary from collecting, reporting, and illustrating the results of the investigations of the Department.

**§ 17506. Examination of seafood on request of packer**

(a) DESIGNATION OF INSPECTORS; EXAMINATION AND INSPECTION OF SEAFOOD.—The Secretary, on application of any packer of any seafood for shipment or sale subject to this subtitle, may designate inspectors to examine and inspect the seafood and the production, packing, and labeling of the seafood.

(b) COMPLIANCE MARKED.—If, on the examination and inspection under subsection (a), compliance is found with this subtitle and regulations promulgated under this subtitle, the applicant shall be authorized or required to mark the seafood as provided by regulation to show the compliance.

(c) FEES.—Services under this section shall be rendered only on payment by the applicant of fees fixed by regulation in such amounts as may be necessary to provide, equip, and maintain an adequate and efficient inspection service.

(d) AVAILABILITY OF FEES FOR EXPENDITURES.—Receipts from the fees shall be deposited in the Treasury and shall be available to the Secretary for expenditures

incurred in carrying out the purposes of this section, including expenditures for salaries of additional inspectors if necessary to supplement the number of inspectors for whose salaries Congress has appropriated.

(e) REGULATIONS RELATING TO SANITARY AND OTHER CONDITIONS.—The Secretary may promulgate regulations governing the sanitary and other conditions under which the service provided under this section shall be granted and maintained, and for otherwise carrying out the purposes of this section.

(f) CRIMINAL PENALTIES.—Any person that forges, counterfeits, simulates, or falsely represents, or without proper authority uses any mark, stamp, tag, label, or other identification devices authorized or required by this section or regulations under this section, shall be imprisoned for not more than 1 year, fined under title 18 but not less than $1,000, or both.

**§ 17507. Advertising of foods**

(a) NOTIFICATION OF FEDERAL TRADE COMMISSION.—

(1) IN GENERAL.—Except as provided in subsection (c), before the Secretary may initiate any action under chapter 105 of this title with respect to any food or advertising of food, the Secretary shall, in accordance with paragraph (2), notify in writing

the Federal Trade Commission of the action the Secretary proposes to take respecting the food or advertising—

(A) if, in the case of food, the Secretary determines that the food is misbranded under section 11301(2) of this title because of its advertising; or

(B) if, in the case of advertising of food, the Secretary determines that the advertising causes the food to be misbranded under section 11301(2) of this title.

(2) CONTENTS.—The notice required by paragraph (1) shall—

(A) contain—

(i) a description of the action the Secretary proposes to take and of the advertising that the Secretary has determined causes a food to be misbranded; and

(ii) a statement of the reasons for the Secretary's determination that the advertising has caused the food to be misbranded; and

(B) be accompanied by the records, documents, and other written materials that the Secretary determines supports the Secretary's

determination that the food is misbranded because of the advertising.

(b) ACTION BY FEDERAL TRADE COMMISSION PRECLUDING ACTION BY SECRETARY.—

(1) IN GENERAL.—If the Secretary notifies the Federal Trade Commission under subsection (a) of action proposed to be taken under chapter 105 of this title with respect to a food or food advertising, the Secretary may not, except as provided by paragraph (2), initiate the action described in the Secretary's notice if the Federal Trade Commission notifies the Secretary in writing, within the 30-day period beginning on the date of the receipt of the Secretary's notice, that—

(A) the Federal Trade Commission has initiated under the Federal Trade Commission Act (15 U.S.C. 41 et seq.) an investigation of the advertising to determine if the advertising is prohibited by the Act or any order or rule under the Act;

(B) the Federal Trade Commission has commenced (or intends to commence) a civil action under section 5, 13, or 19 of the Federal Trade Commission Act (15 U.S.C. 45, 53, 57b) with respect to the advertising or the Attorney

General has commenced (or intends to commence) a civil action under section 5 of the Act (15 U.S.C. 45) with respect to the advertising;

(C) the Federal Trade Commission has issued and served (or intends to issue and serve) a complaint under section 5(b) of the Act (15 U.S.C. 45(b)) respecting the advertising; or

(D) pursuant to section 16(b) of the Act (15 U.S.C. 56(b)), the Federal Trade Commission has made a certification to the Attorney General respecting the advertising.

(2) EXCEPTION.—The Secretary may, after the expiration of the 60-day period beginning on the date the Secretary receives a notice described in paragraph (1) from the Federal Trade Commission in response to a notice under subsection (a) of the Secretary to the Commission, initiate the action described in the notice under subsection (a) if, before the expiration of the 60-day period—

(A) the Commission or the Attorney General does not commence a civil action described in paragraph (1)(B) respecting the advertising described in the Secretary's notice;

(B) the Commission does not issue and serve a complaint described in paragraph (1)(C) respecting the advertising; or

(C) the Commission does not (as described in paragraph (1)(D)) make a certification to the Attorney General respecting the advertising, or, if the Commission does make the certification to the Attorney General respecting the advertising, the Attorney General, before the expiration of the period, does not cause appropriate criminal proceedings to be brought against the advertising.

(3) NOTIFICATION TO SECRETARY.—The Federal Trade Commission shall promptly notify the Secretary of the commencement by the Commission of such a civil action, the issuance and service by the Commission of such a complaint, or the causing by the Attorney General of such criminal proceedings to be brought against the advertising.

(c) SECRETARY'S DETERMINATION OF IMMINENT HAZARD TO HEALTH AS SUSPENDING APPLICABILITY OF PROVISIONS.—The requirements of subsections (a) and (b) do not apply with respect to action under chapter 105 of this title with respect to any food or food advertising

if the Secretary determines that the action is required to eliminate an imminent hazard to health.

(d) COORDINATION OF ACTION BY SECRETARY WITH FEDERAL TRADE COMMISSION.—For the purpose of avoiding unnecessary duplication, the Secretary shall coordinate any action taken under chapter 105 of this title because of advertising that the Secretary determines causes a food to be misbranded with any action of the Federal Trade Commission under the Federal Trade Commission Act (15 U.S.C. 41 et seq.) with respect to the advertising.

**§ 17508. Confidential information**

(a) CONTRACTORS.—

(1) PROVISION BY SECRETARY OF INFORMATION EXEMPT FROM DISCLOSURE.—The Secretary may provide any information that is exempt from disclosure under section 552(a) of title 5 by reason of section 552(b)(4) of that title to a person other than an officer or employee of the Department if the Secretary determines that the person requires the information in connection with an activity that is undertaken under contract with the Secretary, which relates to the administration of this subtitle, and with respect to which the Secretary (or an officer or

employee of the Department) is not prohibited from using the information.

(2) SECURITY PRECAUTIONS AS CONDITION.—The Secretary shall require as a condition to the provision of information under this section that the person receiving the information take the security precautions respecting the information as the Secretary may by regulation prescribe.

(b) ABILITY TO RECEIVE AND PROTECT CONFIDENTIAL INFORMATION OBTAINED FROM FOREIGN GOVERNMENTS.—

(1) IN GENERAL.—The Secretary shall not be required to disclose under section 552 of title 5, or any other provision of law, any information relating to drugs obtained from a foreign government agency, if—

(A) the information concerns the inspection of a facility, is part of an investigation, alerts the United States to the potential need for an investigation, or concerns a drug that has a reasonable probability of causing serious adverse health consequences or death to humans or animals;

(B) the information is provided or made available to the United States Government vol-

untarily on the condition that it not be released to the public; and

(C) the information is covered by, and subject to, a written agreement between the Secretary and the foreign government.

(2) TIME LIMITATIONS.—

(A) IN GENERAL.—The written agreement described in paragraph (1)(C) shall specify the time period for which paragraph (1) shall apply to the voluntarily disclosed information.

(B) APPLICABILITY OF OTHER LEGAL PROTECTIONS.—Paragraph (1) shall not apply with respect to the information after the date specified in the agreement, but all other applicable legal protections, including the provisions of section 552 of title 5 and section 319L(e)(1) of the Public Health Service Act (42 U.S.C. 247d–7e(e)(1)), as applicable, shall continue to apply to the information.

(C) NO DATE SPECIFIED IN AGREEEMENT.—If no date is specified in the written agreement, paragraph (1) shall not apply with respect to the information for a period of more than 36 months.

(3) DISCLOSURES NOT AFFECTED.—Nothing in this section authorizes any official to withhold, or to authorize the withholding of, information from Congress or information required to be disclosed pursuant to an order of a court of the United States.

(4) RELATION TO OTHER LAW.—For purposes of section 552 of title 5, this subsection shall be considered a statute described in section 552(b)(3)(B) of title 5.

(c) AUTHORITY TO ENTER INTO MEMORANDA OF UNDERSTANDING FOR PURPOSES OF INFORMATION EXCHANGE.—The Secretary may enter into written agreements to provide information referenced in section 10501(10) of this title to foreign governments subject to the following criteria:

(1) CERTIFICATION.—The Secretary may enter into a written agreement to provide information under this subsection to a foreign government only if the Secretary has certified the government as having the authority and demonstrated ability to protect trade secret information from disclosure. Responsibility for this certification shall not be delegated to any officer or employee other than the Commissioner.
