With respect to improved residential property acquired for the purposes of this subchapter, which is beneficially owned by a natural person and which the Secretary determines can be continued in that use for a limited period of time without undue interference with the administration, development, or public use of the recreation area, the owner thereof may on the date of its acquisition by the Secretary retain a right of use and occupancy of the property for noncommercial residential purposes for a term, as the owner may elect, ending either (1) at the death of the owner or his spouse, whichever occurs later, or (2) not more than twenty-five years from the date of acquisition. Any right so retained may, during its existence, be transferred or assigned. The Secretary shall pay to the owner the fair market value of the property on the date of such acquisition, less the fair market value on such date of the right retained by the owner.

(c) “Improved residential property” defined; determination by Secretary

As used in this subchapter, “improved residential property” means a single-family year-round dwelling, the construction of which began before March 1, 1975, and which serves as the owner's permanent place of abode at the time of its acquisition by the United States, together with not more than three acres of land on which the dwelling and appurtenant buildings are located that the Secretary finds is reasonably necessary for the owner's continued use and occupancy of the dwelling: *Provided*, That the Secretary may exclude from improved residential property any waters and adjoining land that the Secretary deems is necessary for public access to such waters.

(d) Termination of right of use and occupancy; determination by Secretary

The Secretary may terminate a right to use and occupancy retained pursuant to this section upon his determination that such use and occupancy is being exercised in a manner not consistent with the purposes of this subchapter, and upon tender to the holder of the right an amount equal to the fair market value of that portion of the right which remains unexpired on the date of termination.

SUBCHAPTER XCIII—CHATTAHOOCHEE RIVER NATIONAL RECREATION AREA

§460ii. Establishment; boundaries; publication in Federal Register

The Congress finds the natural, scenic, recreation, historic, and other values of a forty-eight-mile segment of the Chattahoochee River and certain adjoining lands in the State of Georgia from Buford Dam downstream to Peachtree Creek are of special national significance, and that such values should be preserved and protected from developments and uses which would substantially impair or destroy them. In order to assure such preservation and protection for public benefit and enjoyment, there is hereby established the Chattahoochee River National Recreation Area (hereinafter referred to as the “recreation area”). The recreation area shall consist of the river and its bed together with the lands, waters, and interests therein within the boundary generally depicted on the map entitled “Chattahoochee River National Recreation Area”, numbered CHAT–20,003, and dated September 1984, and on the maps entitled “Chattahoochee River National Recreation Area Interim Boundary Map #1”, “Chattahoochee River National Recreation Area Interim Boundary Map #2”, and “Chattahoochee River National Recreation Area Interim Boundary Map #3”, and dated August 6, 1998, which shall be on file and available for public inspection in the office of the National Park Service, Department of the Interior. No sooner than 180 days after December 9, 1999, the Secretary of the Interior (hereafter referred to as the “Secretary”) may modify the boundaries of the recreation area to include other land within the Chattahoochee River corridor by submitting a revised map or other boundary description to the Committee on Energy and Natural Resources of the United States Senate and the Committee on Resources of the United States House of Representatives. The revised map or other boundary description shall be prepared by the Secretary after consultation with affected landowners, the State of Georgia, and affected political subdivisions of the State. The revised

boundaries shall take effect 180 days after the date of submission unless, within the 180-day period, Congress enacts a joint resolution disapproving the revised boundaries. The total area, exclusive of the river and its bed, within the recreation area may not exceed 10,000 acres. For purposes of facilitating Federal technical and other support to State and local governments to assist State and local efforts to protect the scenic, recreational, and natural values of a 2,000 foot wide corridor adjacent to each bank of the Chattahoochee River and its impoundments in the 48-mile segment referred to above, such corridor is hereby declared to be an area of national concern.

AMENDMENTS

1999—Pub. L. 106–154, §2(a)(3), substituted “may not exceed 10,000 acres” for “may not exceed approximately 6,800 acres” in penultimate sentence.

Pub. L. 106–154, §2(a)(2), inserted fourth sentence and struck out former fourth sentence which read as follows: “Following reasonable notice in writing to the Committee on Natural Resources of the United States House of Representatives and to the Committee on Energy and Natural Resources of the United States Senate of his intention to do so, the Secretary of the Interior (hereinafter referred to as the ‘Secretary’) may, by publication of a revised map or other boundary description in the Federal Register, (1) make minor revisions in the boundary of the recreation area, and (2) revise the boundary to facilitate access to the recreation area, or to delete lands which would be of little or no benefit to the recreation area due to the existence of valuable improvements completely constructed prior to August 15, 1978.”

Pub. L. 106–154, §2(a)(1), in third sentence, inserted “and on the maps entitled ‘Chattahoochee River National Recreation Area Interim Boundary Map #1’, ‘Chattahoochee River National Recreation Area Interim Boundary Map #2’, and ‘Chattahoochee River National Recreation Area Interim Boundary Map #3’, and dated August 6, 1998,” after “numbered CHAT–20,003, and dated September 1984,”.

1994—Pub. L. 103–437 substituted “Natural Resources” for “Interior and Insular Affairs” after “Committee on”.

1984—Pub. L. 98–568 substituted “CHAT–20,003, and dated September 1984” for “CHAT–20,000, and dated July 1976” and “approximately 6,800 acres” for “six thousand three hundred acres” and inserted provision declaring the corridor area to be an area of national concern.

CHANGE OF NAME

Committee on Resources of House of Representatives changed to Committee on Natural Resources of House of Representatives by House Resolution No. 6, One Hundred Tenth Congress, Jan. 5, 2007.

FINDINGS AND PURPOSE

Pub. L. 106–154, §1, Dec. 9, 1999, 106 Stat. 1736, provided that:

“(a) **FINDINGS.**—Congress finds that—

“(1) the Chattahoochee River National Recreation Area in the State of Georgia is a nationally significant resource;

“(2) the Chattahoochee River National Recreation Area has been adversely affected by land use changes occurring inside and outside the recreation area;

“(3) the population of the metropolitan Atlanta area continues to expand northward, leaving dwindling opportunities to protect the scenic, recreational, natural, and historical values of the 2,000-foot-wide corridor adjacent to each bank of the Chattahoochee River and its impoundments in the 48-mile segment known as the ‘area of national concern’;

“(4) the State of Georgia has enacted the Metropolitan River Protection Act to ensure protection of the corridor located within 2,000 feet of each bank of the Chattahoochee River, or the corridor located within the 100-year floodplain, whichever is larger;

“(5) the corridor located within the 100-year floodplain includes the area of national concern;

“(6) since establishment of the Chattahoochee River National Recreation Area, visitor use of the recreation area has shifted dramatically from waterborne to water-related and land-based activities;

“(7) the State of Georgia and political subdivisions of the State along the Chattahoochee River have indicated willingness to join in a cooperative effort with the United States to link existing units of the recreation area through a series of linear corridors to be established within the area of national concern and elsewhere on the river; and

“(8) if Congress appropriates funds in support of the cooperative effort described in paragraph (7), funding from the State, political subdivisions of the State, private foundations, corporate entities, private individuals, and other sources will be available to fund more than half the estimated cost of the cooperative effort.

“(b) PURPOSES.—The purposes of this Act [amending this section and sections 460ii–1 to 460ii–5 of this title] are—

“(1) to increase the level of protection of the open spaces within the area of national concern along the Chattahoochee River and to enhance visitor enjoyment of the open spaces by adding land-based linear corridors to link existing units of the recreation area;

“(2) to ensure that the Chattahoochee River National Recreation Area is managed to standardize acquisition, planning, design, construction, and operation of the linear corridors; and

“(3) to authorize the appropriation of Federal funds to cover a portion of the costs of the Federal, State, local, and private cooperative effort to add additional areas to the recreation area so as to establish a series of linear corridors linking existing units of the recreation area and to protect other open spaces of the Chattahoochee River corridor.”

COMPLIANCE WITH CONGRESSIONAL BUDGET ACT

Pub. L. 98–568, §2, Oct. 30, 1984, 98 Stat. 2932, provided that: “Any provision of any amendment made by this Act [enacting section 460ii–5 of this title and amending this section and sections 460ii–1, 460ii–3, and 460ii–4 of this title] which, directly or indirectly, authorizes the enactment of new budget authority described in section 402(a) of the Congressional Budget Act of 1974 [2 U.S.C. 652(a)] shall be effective only for fiscal years beginning after September 30, 1984.”

§460ii–1. Acquisition of property

(a) Manner of acquisition of lands, etc., within area

Within the recreation area the Secretary is authorized to acquire lands, waters, and interests therein by donation, purchase from willing sellers with donated or appropriated funds, or exchange. Property owned by the State of Georgia or any political subdivision thereof may be acquired only by donation.

(b) Manner of acquisition of lands partly within and partly without area; disposal of unutilized lands

When a tract of land lies partly within and partly without the boundaries of the recreation area, the Secretary may acquire the entire tract by any of the above methods in order to avoid the payment of severance costs. Land so acquired outside of the boundaries of the recreation area may be exchanged by the Secretary for non-Federal land within such boundaries, and any portion of the land not utilized for such exchanges may be disposed of in accordance with the provisions of chapters 1 to 11 of title 40 and division C (except sections 3302, 3307(e), 3501(b), 3509, 3906, 4710, and 4711) of subtitle I of title 41.

(c) Acquisition of improved property used for noncommercial residential purposes; retention by owners of right of use and occupancy for residential purposes; terms; payment of fair market value

Except for property which the Secretary determines to be necessary for the purposes of administration, development, access, or public use, an owner of improved property which is used solely for noncommercial residential purposes on the date of its acquisition by the Secretary may retain, as a condition of such acquisition, a right of use and occupancy of the property for such residential purposes. The right retained may be for a definite term which shall not exceed twenty-five years or, in lieu thereof, for a term ending at the death of the owner or the death of the spouse, whichever occurs later. The owner shall elect the term to be retained. The Secretary shall pay the owner the fair market value of the property on the date of such acquisition, less the fair market value of the term retained by the owner.

(d) Terms and conditions respecting rights of use and occupancy retained; termination of right of use and occupancy

Any right of use and occupancy retained pursuant to this section may, during its existence, be conveyed or transferred, but all rights of use and occupancy shall be subject to such terms and conditions as the Secretary deems appropriate to assure the use of the property in accordance with the purposes of this subchapter. Upon his determination that the property, or any portion thereof, has ceased to be so used in accordance with such terms and conditions, the Secretary may terminate the right of use and occupancy by tendering to the holder of such right an amount equal to the fair market value, as of the date of the tender, of that portion of the right which remains unexpired on the date of termination.

(e) “Improved property” defined

As used in this section, the term “improved property” means a detached, year-round noncommercial residential dwelling, the construction of which was begun before January 1, 1975, together with so much of the land on which the dwelling is situated, the said land being in the same ownership as the dwelling, as the Secretary shall designate to be reasonably necessary for the enjoyment of the dwelling for the sole purpose of noncommercial residential use, together with any structures accessory to the dwelling which are situated on the land so designated.

“(f)(1) The Secretary shall exchange those federally owned lands identified on the map referenced in section 460ii of this title as ‘exchange lands’ for non-Federal lands which are within the boundaries of the recreation area. The values of the lands exchanged under this subsection shall be equal, or shall be equalized in the same manner as provided in section 1716 of title 43.

“(2) At three year intervals after October 30, 1984, the Secretary shall publish in the Federal Register a progress report on the land exchanges which have taken place and the exchanges which are likely to take place under the authority of this subsection. Such report shall identify the lands which are unsuitable for exchange pursuant to such authority.

“(3) Effective on the date ten years after October 30, 1984, the exchange authority of paragraph (1) shall terminate. The exchange lands identified under paragraph (1) which have not been exchanged prior to such date shall be retained in Federal ownership as a part of the recreation area.

“(4) The Secretary shall publish a revision of the boundary map referred to in section 460ii of this title to exclude from the boundaries of the recreation area any exchange lands which are used to acquire non-Federal lands under paragraph (3).”

1984—Subsec. (f). Pub. L. 98–568 added subsec. (f).

§460ii–2. Administration, protection, and development

(a) Applicability of statutory provisions; consideration of Federal, State, and local plans

The Secretary shall administer, protect, and develop the recreation area in accordance with sections 1, 2, 3, and 4 of this title, and in accordance with any other statutory authorities available to him for the conservation and management of historic and natural resources, including fish and wildlife, to the extent he finds such authority will further the purposes of this subchapter. In developing and administering the recreation area, the Secretary shall take into consideration

applicable Federal, State, and local recreation plans and resource use and development plans, including, but not limited to, the Atlanta Regional Commission Chattahoochee Corridor Study, dated July 1972.

(b) Cooperative agreements

The Secretary may enter into cooperative agreements with the State of Georgia, political subdivisions of the State, and other entities to ensure standardized acquisition, planning, design, construction, and operation of the recreation area.

(c) Consultation with Secretary of Army

In planning for the development and public use of the recreation area, the Secretary shall consult with the Secretary of the Army to assure that public use of adjacent or related water resource development or flood control projects and that of the recreation area are complementary.

(d) Establishment, regulations governing, etc., of fishing zones

In administering the recreation area, the Secretary may permit fishing in waters under his jurisdiction in accordance with applicable State and Federal laws and regulations. The Secretary, after consultation with the appropriate State agency responsible for fishing activities, may designate zones where, and establish periods when, fishing shall be permitted and issue such regulations as he may determine to be necessary to carry out the provisions of this subsection. Except in emergencies, such regulations shall be put into effect only after consultation with the appropriate State agency.

AMENDMENTS

1999—Subsec. (a). Pub. L. 106–154, §2(e)(1), substituted “of this subchapter” for “of this subchapter and chapter 43 of this title”.

Subsec. (b). Pub. L. 106–154, §2(c), added subsec. (b) and struck out former subsec. (b) which read as follows: “The Secretary is authorized and encouraged to enter into cooperative agreements with the State or its political subdivisions whereby he may assist in the planning for and interpretation of non-Federal publicly owned lands within or adjacent or related to the recreation area to assure that such lands are used in a manner consistent with the findings and purposes of this subchapter and chapter 43 of this title.”

§460ii–3. Federal supervision of water resources projects

(a) Limitations on licensing and assistance authorities; criteria for upgrading, improving, etc., supply and quality enhancement programs

The Federal Energy Regulatory Commission shall not license the construction of any dam, water conduit, reservoir, powerhouse, transmission line, or other project works under the Federal Power Act (16 U.S.C. 791a et seq.), on or directly affecting the recreation area, and no department or agency of the United States shall assist by loan, grant, license, or otherwise in the construction of any water resources project that would have a direct and adverse effect on the values for which such area is established, except where such project is determined by the State of Georgia to be necessary for water supply or water quality enhancement purposes and authorized by the United States Congress. Nothing contained in the foregoing sentence, however, shall preclude licensing of, or assistance to, developments upstream or downstream from the recreation area or on any stream tributary thereto which will not invade the recreation area or unreasonably diminish the scenic, recreational, and fish and wildlife values present therein on August 15, 1978. Nothing contained in this subsection shall preclude the upgrading, improvement, expansion or development of facilities or public works for water supply or water quality enhancement purposes if such action would not have a material adverse effect on the values for which the recreation area is established.

(b) Limitations on recommending authorizations and requesting appropriations; applicability of local considerations and criteria

No department or agency of the United States shall recommend authorization of any water

resources project that would have a direct and adverse effect on the values for which such area is established, as determined by the Secretary, nor shall such department or agency request appropriations to begin construction of any such project, whether heretofore or hereafter authorized, without at least sixty days in advance, (1) advising the Secretary in writing of its intention to do so and (2) reporting to the Committee on Natural Resources of the United States House of Representatives and to the Committee on Energy and Natural Resources of the United States Senate the nature of the project involved and the manner in which such project would conflict with the purposes of this subchapter or would affect the recreation area and the values to be protected by it under this subchapter. It is not the intention of Congress by this subchapter to require the manipulation or reduction of lake water levels in Lake Sidney Lanier. Nothing in this subchapter shall be construed in any way to restrict, prohibit, or affect any recommendation of the Metropolitan Atlanta Water Resources Study as authorized by the Public Works Committee of the United States Senate on March 2, 1972.

(c) Expeditious acquisition of lands and interests in lands necessary for establishment, etc., of area

The Secretary is directed to proceed as expeditiously as possible to acquire the lands and interests in lands necessary to achieve the purposes of this subchapter and chapter 43 of this title.

(d) Mitigation funds for adverse impacts; excepted lands; limitation of amount; replacement lands

(1) Notwithstanding any other authority of law, any department, agency, or instrumentality of the United States or of the State of Georgia, or any other entity which may construct any project recommended in the study entitled “Metropolitan Atlanta Water Resources Management Study, Georgia: Report of Chief of Engineers,” dated June 1, 1982, which directly adversely impacts any lands within the authorized recreation boundaries of the Bowman's Island tract as shown on the map numbered and dated CHAT–20,003, September 1984, which were in Federal ownership as of September 1, 1984, shall, upon request by the Secretary, mitigate such adverse impacts. It is expressly provided that use of or adverse impact upon any other lands within the recreation area as result of any such project shall not require mitigation. Mitigation required by this paragraph shall be provided by payment to the United States of a sum not to exceed \$3,200,000. The mitigation funds paid pursuant to this paragraph shall be utilized by the Secretary for the acquisition of replacement lands. Such replacement lands shall be acquired only after consultation with the Governor of Georgia.

(2) In acquiring replacement lands under paragraph (1) priority shall be given to acquisition of lands within the recreation area boundary and those lands within or adjacent to the 2,000 foot wide corridor referred to in section 460ii of this title. Any lands acquired pursuant to this subsection lying outside the boundaries of the recreation area shall, upon acquisition, be included within the recreation area and transferred to the Secretary for management under this subchapter. The Secretary shall publish a revised boundary map to include any lands added to the recreation area pursuant to this subsection.

(3) If lands as described in paragraph (2) are not available for acquisition, other lands within the State of Georgia may be acquired as replacement lands under paragraph (1) if such lands are transferred to the State of Georgia for permanent management for public outdoor recreation.

The values of any lands or interests in lands so exchanged shall be approximately equal, or if they are not approximately equal, they shall be equalized by the payment of cash to the grantor or to the Secretary so long as payment does not exceed 25 per centum of the total value of the land or interest in land. In utilizing cash equalization in exchanges the Secretary shall try to reduce the amount of the payment of money to as small an amount as possible. In the exercise of his exchange authority, the Secretary may utilize authorities and procedures available to him in making exchanges of national forest lands.

SUBCHAPTER XCV—SANTA MONICA MOUNTAINS NATIONAL RECREATION AREA

§460kk. Establishment

(a) Findings

The Congress finds that—

(1) there are significant scenic, recreational, educational, scientific, natural, archeological, and public health benefits provided by the Santa Monica Mountains and adjacent coastline area;

(2) there is a national interest in protecting and preserving these benefits for the residents of and visitors to the area; and

(3) the State of California and its local units of government have authority to prevent or minimize adverse uses of the Santa Monica Mountains and adjacent coastline area and can, to a great extent, protect the health, safety, and general welfare by the use of such authority.

(b) Establishment; management

There is hereby established the Santa Monica Mountains National Recreation Area (hereinafter referred to as the “recreation area”). The Secretary shall manage the recreation area in a manner which will preserve and enhance its scenic, natural, and historical setting and its public health value as an airshed for the Southern California metropolitan area while providing for the recreational and educational need of the visiting public.

(c) Description; boundary revisions: notice to Congressional committees, publication in Federal Register; acquisition of property: manner, transfer from Federal agency to administrative jurisdiction of Secretary, exchange of lands with city of Los Angeles, development of municipal cultural resource management program; Nike Site transfer to Secretary

(1) The recreation area shall consist of the lands and waters and interests generally depicted as the recreation area on the map entitled “Santa Monica Mountains National Recreation Area and Santa

Monica Mountains Zone, California, Boundary Map”, numbered 80,047–C and dated August 2001, which shall be on file and available for inspection in the offices of the National Park Service, Department of the Interior, Washington, District of Columbia, and in the offices of the General Services Administration in the Federal Office Building in West Los Angeles, California, and in the main public library in Ventura, California. After advising the Committee on Resources of the United States House of Representatives and the Committee on Energy and Natural Resources of the United States Senate, in writing, the Secretary may make minor revisions of the boundaries of the recreation area when necessary by publication of a revised drawing or other boundary description in the Federal Register.

(2)(A) Not later than ninety days after November 10, 1978, the Secretary, after consultation with the Governor of the State of California, the California Coastal Commission, and the Santa Monica Mountains Comprehensive Planning Commission, shall commence acquisition of lands, improvements, waters, or interests therein within the recreation area. Such acquisition may be by donation, purchase with donated or appropriated funds, transfer from any Federal agency, exchange, or otherwise. Except as provided in subparagraph (B), any lands or interests therein owned by the State of California or any political subdivision thereof (including any park district or other public entity) may be acquired only by donation, except that such lands acquired after November 10, 1978, by the State of California or its political subdivisions may be acquired by purchase or exchange if the Secretary determines that the lands were acquired for purposes which further the national interest in protecting the area and that the purchase price or value on exchange does not exceed fair market value on the date that the State acquired the land or interest: *Provided, however*, That the value of any lands acquired by the Secretary under the exception in this sentence shall be deducted from the amount of moneys available for grants to the State under subsection (n) of this section. Lands within the “Wildlife Corridor Expansion Zone” identified on the boundary map referred to in paragraph (1) may be acquired only by donation or with donated funds. Notwithstanding any other provision of law, any Federal property located within the boundaries of the recreation area shall, with the concurrence of the head of the agency having custody thereof, be transferred without cost, to the administrative jurisdiction of the Secretary for the purposes of the recreation area.

(B) The Secretary shall negotiate, and carry out, and exchange with the city of Los Angeles (acting through its department of water and power) certain federally owned lands managed by the Bureau of Land Management in the vicinity of the Haiwee Reservoir in Inyo County for certain lands owned by the city of Los Angeles which are associated with the Upper Franklin Reservoir in the city of Los Angeles. Lands acquired by the Secretary pursuant to such exchange shall be transferred without cost to the administrative jurisdiction of the National Park Service for inclusion within the recreation area. The Secretary shall include in such exchange a provision for an easement to be granted to the city of Los Angeles for the existing water pipeline associated with the Upper Franklin Reservoir and for the city of Los Angeles to provide for replacement water to maintain the water elevations of the Franklin Reservoir to the current levels. The values of lands exchanged under this provision shall be equal, or shall be equalized, in the same manner as provided in section 1716 of title 43.

(C) The city shall assume full responsibility for the protection of cultural resources and shall develop a cultural resource management program for the public lands to be transferred to the city in the vicinity of the Haiwee Reservoir. The program shall be developed in consultation with the Secretary of the Interior, the California State Historic Preservation Officer, and the Advisory Council on Historic Preservation.

(3) The Administrator of the General Services Administration is hereby authorized and directed to transfer the site generally known as Nike Site 78 to the Secretary for inclusion in the recreation area: *Provided*, That the county of Los Angeles shall be permitted to continue to use without charge the facilities together with sufficient land as in the determination of the Secretary shall be necessary to continue to maintain and operate a fire suppression and training facility and shall be excused from payment for any use of the land and facilities on the site prior to November 10, 1978. At such time as

the county of Los Angeles, California, relinquishes control of such facilities and adjacent land or ceases the operation of the fire suppression and training facility, the land and facilities shall be managed by the Secretary as a part of the recreation area.

(d) Identification and revision of areas: public ownership for critical purposes; land and area plan: submission to Congressional committees

(1) Within six months after November 10, 1978, the Secretary shall identify the lands, waters, and interests within the recreation area which must be acquired and held in public ownership for the following critical purposes: preservation of beaches and coastal uplands; protection of undeveloped inland stream drainage basins; connection of existing State and local government parks and other publicly owned lands to enhance their potential for public recreation use; protection of existing park roads and scenic corridors, including such right-of-way as is necessary for the protection of the Mulholland Scenic Parkway Corridor; protection of the public health and welfare; and development and interpretation of historic sites and recreation areas in connection therewith, to include, but not be limited to, parks, picnic areas, scenic overlooks, hiking trails, bicycle trails, and equestrian trails. The Secretary may from time to time revise the identification of such areas, and any such revisions shall become effective in the same manner as herein provided for revisions in the boundaries of the recreation area.

(2) By January 1, 1980, the Secretary shall submit, in writing, to the committees referred to in subsection (c) of this section and to the Committees on Appropriations of the United States Congress a detailed plan which shall indicate—

- (A) the lands and areas identified in paragraph (1),
- (B) the lands which he has previously acquired by purchase, donation, exchange, or transfer for the purpose of this recreation area,
- (C) the annual acquisition program (including the level of funding) recommended for the ensuing five fiscal years, and
- (D) the final boundary map for the recreation area.

(e) Improved property and scenic easement acquisitions

With respect to improved properties, as defined in this section, fee title shall not be acquired unless the Secretary finds that such lands are being used, or are threatened with uses, which are detrimental to the purposes of the recreation area, or unless each acquisition is necessary to fulfill the purposes of this section. The Secretary may acquire scenic easements to such improved property or such other interests as, in his judgment are necessary for the purposes of the recreation area.

(f) “Improved property” defined

For the purposes of this section, the term “improved property” means—

- (1) a detached single-family dwelling, the construction of which was begun before January 1, 1978 (hereafter referred to as “dwelling”), together with so much of the land on which the dwelling is situated as is in the same ownership as the dwelling and as the Secretary designates to be reasonably necessary for the enjoyment of the dwelling for the sole purpose of noncommercial residential use, together with any structures necessary to the dwelling which are situated on the land so designated, and
- (2) property developed for agricultural uses, together with any structures accessory thereto as were used for agricultural purposes on or before January 1, 1978.

In determining when and to what extent a property is to be treated as “improved property” for purposes of this section, the Secretary shall take into consideration the manner of use of such buildings and lands prior to January 1, 1978, and shall designate such lands as are reasonably necessary for the continued enjoyment of the property in the same manner and to the same extent as existed prior to such date.

(g) Owner's reservation of right of use and occupancy for fixed term of years or life; election of term; fair market value; termination; notification

The owner of an improved property, as defined in this section, on the date of its acquisition, as a

condition of such acquisition, may retain for herself or himself, her or his heirs and assigns, a right of use and occupancy of the improved property for noncommercial residential or agriculture purposes, as the case may be, for a definite term of not more than twenty-five years, or, in lieu thereof, for a term ending at the death of the owner or the death of her or his spouse, whichever is later. The owner shall elect the term to be reserved. Unless the property is wholly or partially donated, the Secretary shall pay to the owner the fair market value of the property on the date of its acquisition, less the fair market value on that date of the right retained by the owner. A right retained by the owner pursuant to this section shall be subject to termination by the Secretary upon his determination that it is being exercised in a manner inconsistent with the purposes of this section, and it shall terminate by operation of law upon notification by the Secretary to the holder of the right of such determination and tendering to him the amount equal to the fair market value of that portion which remains unexpired.

(h) Hardship sale offers

In exercising the authority to acquire property under this section, the Secretary shall give prompt and careful consideration to any offer made by an individual owning property within the recreation area to sell such property, if such individual notifies the Secretary that the continued ownership of such property is causing, or would result in, undue hardship.

(i) Administration

The Secretary shall administer the recreation area in accordance with this Act and provisions of laws generally applicable to units of the National Park System, including sections 1, 2, 3, and 4 of this title. In the administration of the recreation area, the Secretary may utilize such statutory authority available for the conservation and management of wildlife and natural resources as appropriate to carry out the purpose of this section. The fragile resource areas of the recreation area shall be administered on a low-intensity basis, as determined by the Secretary.

(j) Cooperative agreements for rescue, fire prevention and firefighting, and law enforcement services

The Secretary may enter into cooperative agreements with the State of California, or any political subdivision thereof, for the rendering, on a reimbursable basis, of rescue, firefighting, and law enforcement services and cooperative assistance by nearby law enforcement and fire preventive agencies.

(k) Donations

Notwithstanding any other provision of law, the Secretary is authorized to accept donations of funds, property, or services from individuals, foundations, corporations, or public entities for the purpose of land acquisition and providing services and facilities which the Secretary deems consistent with the purposes of this section.

(l) Report of Advisory Commission to Secretary

By January 1, 1981, the Santa Monica Mountains National Recreation Area Advisory Commission, established by this section, shall submit a report to the Secretary which shall—

- (1) assess the capability and willingness of the State of California and the local units of government to manage and operate the recreation area,
- (2) recommend any changes in ownership, management, and operation which would better accomplish the purposes of this section, and
- (3) recommend any conditions, joint management agreements, or other land use mechanisms to be contingent on any transfer of land.

(m) Report of Secretary to Congressional committees

The Secretary, after giving careful consideration to the recommendations set forth by the Advisory Commission, shall, by January 1, 1982, submit a report to the committees referred to in subsection (c) of this section which shall incorporate the recommendations of the Advisory Commission as well as set forth the Secretary's recommendations. Such report shall—

- (1) assess the benefits and costs of continued management as a unit of the National Park

System,

(2) assess the capability and willingness of the State of California and the local units of government to manage and operate the recreation area, and

(3) recommend any changes in ownership, management, and operation which would better accomplish the purposes of this section.

(n) Comprehensive plan; contents; approval considerations; environmental consultations; grants and funds; assurance and grant requirements; plan changes: liability for reimbursement of funds, approval by Secretary

(1) The Secretary shall request the Santa Monica Mountains Comprehensive Planning Commission to submit a comprehensive plan, prepared in accord with this section and title 7.75 of the California Government Code (commencing with section 67450), for the Santa Monica Mountains Zone generally depicted on the map referred to in subsection (c) of this section for approval.

(2) The comprehensive plan shall include, in addition to the requirements of California State law—

(A) an identification and designation of public and private uses which are compatible with and which would not significantly impair the significant scenic, recreational, educational, scientific, natural, archeological, and public health benefits present in the zone and which would not have an adverse impact on the recreation area or on the air quality of the south coast air basin;

(B) a specific minimum land acquisition program which shall include, but not be limited to, fee and less than fee acquisition of strategic and critical sites not to be acquired by the Federal Government for public recreational and other related uses; and a program for the complementary use of State and local authority to regulate the use of lands and waters within the Santa Monica Mountains Zone to the fullest extent practicable consistent with the purposes of this section; and

(C) a recreation transportation system which may include but need not be limited to existing public transit.

(3) No plan submitted to the Secretary under this section shall be approved unless the Secretary finds the plan consistent with paragraph (2) and finds that—

(A) the planning commission has afforded adequate opportunity, including public hearings, for public involvement in the preparation and review of the plan, and public comments were received and considered in the plan or revision as presented to him;

(B) the State and local units of government identified in the plan as responsible for implementing its provisions have the necessary authority to implement the plan and such State and local units of government have indicated their intention to use such authority to implement the plan;

(C) the plan, if implemented, would preserve significant natural, historical, and archeological benefits and, consistent with such benefits, provide increased recreational opportunities for persons residing in the greater Los Angeles-southern California metropolitan area; and

(D) implementation of the plan would not have a serious adverse impact on the air quality or public health of the greater Los Angeles region.

Before making his findings on the air quality and public health impacts of the plan, the Secretary shall consult with the Administrator of the Environmental Protection Agency.

(4) Following approval of the plan with respect to the Santa Monica Mountains Zone, upon receipt of adequate assurances that all aspects of that jurisdiction's implementation responsibilities will be adopted and put into effect, the Secretary shall—

(A) provide grants to the State and through the State to local governmental bodies for acquisition of lands, waters, and interests therein identified in paragraph (2)(B), and for development of essential public facilities, except that such grants shall be made only for the acquisition of lands, waters, and interests therein, and related essential public facilities, for park, recreation, and conservation purposes; and

(B) provide, subject to agreements that in the opinion of the Secretary will assure additional preservation of the lands and waters of the zone, such funds as may be necessary to retire bonded

indebtedness for water and sewer and other utilities already incurred by property owners which in the opinion of the Secretary would if left outstanding contribute to further development of the zone in a manner inconsistent with the approved plan developed by the planning commission.

No grant for acquisition of land may be made under subparagraph (A) unless the Secretary receives satisfactory assurances that such lands acquired under subparagraph (A) shall not be converted to other than park, recreation, and conservation purposes without the approval of the Secretary and without provision for suitable replacement land.

(5) Grants under this section shall be made only upon application of the recipient State and shall be in addition to any other Federal financial assistance for any other program, and shall be subject to such terms and conditions as the Secretary deems necessary to carry out the purposes of this section. Any jurisdiction that implements changes to the approved plan which are inconsistent with the purposes of this section, or adopts or acquiesces in changes to laws, regulations or policies necessary to implement or protect the approved plan, without approval of the Secretary, may be liable for reimbursement of all funds previously granted or available to it under the terms of this section without regard to such additional terms and conditions or other requirements of law that may be applicable to such grants. During the life of the planning commission, changes to the plan must be submitted by the planning commission to the Secretary for approval. No such application for a grant may be made after the date five years from the date of the Secretary's approval of the plan.

(o) Comments on undertakings prior to expenditure of Federal funds or issuance of licenses or permits

The head of any Federal agency having direct or indirect jurisdiction over a proposed Federal or federally assisted undertaking in the lands and waters within the Santa Monica Mountains Zone, generally depicted on the map referred to in subsection (c) of this section, and the head of any Federal agency having authority to license or permit any undertaking in such lands and waters shall, prior to the approval of the expenditure of any Federal funds on such undertaking or prior to the issuance of any license or permit, as the case may be, afford the Secretary a reasonable opportunity to comment with regard to such undertaking and shall give due consideration to any comments made by the Secretary and to the effect of such undertaking on the "findings" and purposes of this section.

(p) State agency recommendations; consideration

The Secretary shall give full consideration to the recommendations of the California Department of Parks and Recreation, the Santa Monica Mountains Comprehensive Planning Commission, and the California Coastal Commission.

(q) Advisory Commission; establishment and termination; membership; term; meetings; notice, publication in newspapers; compensation and expenses; consultations of Secretary with Commission

(1) There is hereby established the Santa Monica Mountains National Recreation Area Advisory Commission (hereinafter referred to as the "Advisory Commission"). The Advisory Commission shall terminate ten years after the date of establishment of the recreation area.

(2) The Advisory Commission shall be composed of the following members to serve for terms of five years as follows:

- (A) one member appointed by the Governor of the State of California;
- (B) one member appointed by the mayor of the city of Los Angeles;
- (C) one member appointed by the Board of Supervisors of Los Angeles County;
- (D) one member appointed by the Board of Supervisors of Ventura County; and
- (E) nine members appointed by the Secretary, one of whom shall serve as the Commission Chairperson.

(3) The Advisory Commission shall meet on a regular basis. Notice of meetings and agenda shall be published in local newspapers which have a distribution which generally covers the area. Commission meetings shall be held at locations and in such a manner as to insure adequate public

involvement. Such locations shall be in the region of the Santa Monica Mountains and no more than twenty-five miles from it.

(4) Members of the Commission shall serve without compensation as such, but the Secretary may pay expenses reasonably incurred in carrying out their responsibilities under this Act on vouchers signed by the Chairperson.

(5) The Secretary, or his or her designee, shall from time to time but at least semiannually, meet and consult with the Advisory Commission on matters relating to the development of this recreation area and with respect to carrying out the provisions of this section.

(r) Authorization of appropriations for property acquisitions and State grants

There are authorized to be appropriated such sums as may be necessary for acquisition of lands and interests in land within the boundaries of the recreation area established under this section, but not more than \$15,000,000 for fiscal year 1979, \$40,000,000 for fiscal year 1980, \$45,000,000 for fiscal year 1981, \$10,000,000 for fiscal year 1982, and \$15,000,000 for fiscal year 1983, such sums to remain available until expended. For grants to the State pursuant to subsection (n) of this section there are authorized to be appropriated not more than \$10,000,000 for fiscal year 1979, \$10,000,000 for fiscal year 1980, \$5,000,000 for fiscal year 1981, and \$5,000,000 for fiscal year 1982, such sums to remain available until expended. For the authorizations made in this subsection, any amounts authorized but not appropriated in any fiscal year shall remain available for appropriation in succeeding fiscal years.

(s) Authorization of appropriations for public facilities development

For the development of essential public facilities in the recreation area there are authorized to be appropriated not more than \$500,000. The Congress expects that, at least until assessment of the report required by subsection (t) of this section, any further development of the area shall be accomplished by the State of California or local units of government, subject to the approval of the Director, National Park Service.

(t) General management plan; transmission to Congressional committees

Within two years from the date of establishment of the recreation area pursuant to this section, the Secretary shall, after consulting with the Advisory Commission, develop and transmit to the Committees referred to in subsection (c) of this section a general management plan for the recreation area consistent with the objectives of this section. Such plan shall indicate—

- (1) a plan for visitor use including the facilities needed to accommodate the health, safety, education and recreation needs of the public;
- (2) the location and estimated costs of all facilities;
- (3) the projected need for any additional facilities within the area;
- (4) any additions or alterations to the boundaries of the recreation area which are necessary or desirable to the better carrying out of the purposes of this section; and

SUBCHAPTER XCVI—RATTLESNAKE NATIONAL RECREATION AREA

§460//. Findings and declaration of policy

(a) The Congress finds that—

(1) certain lands on the Lolo National Forest in Montana have high value for watershed, water storage, wildlife habitat, primitive recreation, historical, scientific, ecological, and educational purposes. This national forest area has long been used as a wilderness by Montanans and by people throughout the Nation who value it as a source of solitude, wildlife, clean, free-flowing waters stored and used for municipal purposes for over a century, and primitive recreation, to include such activities as hiking, camping, backpacking, hunting, fishing, horse riding, and bicycling; and

(2) certain other lands on the Lolo National Forest, while not predominantly of wilderness quality, have high value for municipal watershed, recreation, wildlife habitat, and ecological and educational purposes.

(b) Therefore, it is hereby declared to be the policy of Congress that, to further the purposes of the Wilderness Act of 1964 (16 U.S.C. 1131) and the National Forest Management Act of 1976 (16 U.S.C. 1600), the people of the Nation and Montana would best be served by national recreation area designation of the Rattlesnake area to include the permanent preservation of certain of these lands under established statutory designation as wilderness, and to promote the watershed, recreational, wildlife, and educational values of the remainder of these lands.

§460//–2. Rattlesnake National Recreation Area

An area of land as generally depicted as the “Rattlesnake National Recreation Area” on a map entitled “Rattlesnake National Recreation area and Wilderness—Proposed”, and dated October 1, 1980, is hereby established as the Rattlesnake National Recreation Area.

(Pub. L. 96–476, §3, Oct. 19, 1980, 94 Stat. 2272.)

§460//–3. Land acquisition and exchange

(a) Authority of Secretary of Agriculture

Within the boundaries of the Rattlesnake National Recreation Area and Rattlesnake Wilderness, the Secretary is authorized and directed to acquire with donated or appropriated funds including amounts appropriated from the Land and Water Conservation Fund, by exchange, gift, or purchase, such non-Federal lands, interests, or any other property, in conformance with the provisions of this

section. Nothing in this subchapter shall be construed to limit or diminish the existing authority of the Secretary to acquire lands and interests therein within or contiguous to the Rattlesnake National Recreation Area or Rattlesnake Wilderness.

(b) Exchange of lands for bidding rights on coal lease sales or coal lease modifications; bidding rights as monetary credit; transfer or sale

(1) The Secretary of the Interior, in consultation with the Secretary of Agriculture, is authorized to consider and consummate an exchange with the owner of the private lands or interests therein within or contiguous to the boundaries of the Rattlesnake National Recreation Area and Rattlesnake Wilderness, as described in sections 46011–1 and 46011–2 of this title, by which the Secretary of the Interior may accept conveyance of title to these private lands for the United States and in exchange issue bidding rights that may be exercised in competitive coal lease sales, or in coal lease modifications, or both, under sections 2 and 3 of the Mineral Lands Leasing Act of 1920, as amended (30 U.S.C. 201(a), 203). Any lands so acquired shall become national forest lands under the jurisdiction of the Secretary of Agriculture to be managed in accordance with the provisions of this subchapter and other laws applicable to the management of national forest lands. Nothing in this subchapter shall be construed to limit or diminish any existing authority of the Secretaries of the Interior and Agriculture to acquire private lands and interests therein in the Rattlesnake National Recreation Area and Rattlesnake Wilderness. Nothing in this subchapter shall be construed to require any owner of the lands within or contiguous to the Rattlesnake National Recreation Area or Rattlesnake Wilderness to accept coal lease bidding rights in exchange for title to those private lands.

(2) The coal lease bidding rights to be issued may be exercised as payment of bonus or other payment required of the successful bidder for a competitive coal lease, or required of an applicant for a coal lease modification. The bidding rights shall equal the fair market value of the private lands or interests therein conveyed in exchange for their issuance. The use and exercise of the bidding rights shall be subject to the provisions of the Secretary of the Interior's regulations governing coal lease bidding rights, to the extent that they are not inconsistent with this subchapter, that are in effect at the time the bidding rights are issued.

(3) If for any reason, including but not limited to the failure of the Secretary of the Interior to offer for lease lands in the Montana portion of the Powder River Coal Production Region as defined in the Federal Register of November 9, 1979 (44 F.R. 65196), or the failure of the holder of the bidding rights to submit a successful high bid for any such leases, any bidding rights issued in an exchange under this subchapter have not been exercised within two years from October 31, 1983, the bidding rights may be used as a monetary credit, which shall be considered “money” within the meaning of section 35 of the Mineral Lands Leasing Act of 1920 (30 U.S.C. 191), against that portion of bonus payments, rental or royalty payments paid into the Treasury of the United States and retained by the Federal Government on any Federal coal lease won or otherwise held by the applicant, its successors or assigns. The holder of the bidding rights shall pay the balance due on such bonus payments, rental or royalty payments in cash for transmittal to the States in the same manner and in the same amounts as though the entire payment were made in cash under the provisions of the Mineral Leasing Act of 1920 as amended [30 U.S.C. 181 et seq.]. The bidding rights may be transferred or sold at any time by the owner to any other party with all the rights of the owner to the credit, and after such transfer, the owner shall notify the Secretary.

(4) It is the intent of Congress that the exchange of bidding rights for the private lands or interests therein authorized by this subchapter shall occur within three years of October 19, 1980.

(5) In order to facilitate the exchange authorized by this subchapter, the Executive order captioned “Order of Withdrawal”, of June 6, 1929, creating “Coal Reserve No. 1, Montana, No. 1”, is hereby revoked to the extent that it constitutes a withdrawal of the lands therein from disposal under the Mineral Lands Leasing Act of 1920, as amended [30 U.S.C. 181 et seq.].

(c) Exchange of lands involving Burlington Northern, Inc.

The exchange of lands involving Burlington Northern, Inc. shall be in accordance with the agreement entitled “Statement of Intent” entered into by Burlington Northern, Inc. and the Regional Forester of the United States Forest Service, Region 1, signed September 18, 1980, and it is the

intent of Congress that this exchange shall occur within three years of October 19, 1980.

(d) Non-Federal lands; water rights

(1) As non-Federal lands and interests in the Rattlesnake National Recreation Area are acquired, the lands shall become part of the Rattlesnake National Recreation Area. As non-Federal lands and interests in the Rattlesnake Wilderness are acquired, the lands shall become part of the Rattlesnake Wilderness. The Secretary shall publish from time to time a notice of such classifications in the Federal Register. It is the intention of Congress that acquisition of the non-Federal lands shall be completed no later than three years after October 19, 1980.

(2) Nothing in this subchapter shall be construed to permit the Secretary to affect or diminish any water right which is vested under either State or Federal law on October 19, 1980, nor the rights of the owner of such water right to the customary and usual access, including necessary motorized use over and along existing roads and trails to any facilities used in connection therewith, and the right to operate and maintain such facilities.

(e) Exchange of land owned by Montana Power Company for bidding rights

The Secretary of the Interior, in consultation with the Secretary of Agriculture, shall consummate the exchange of the lands owned by the Montana Power Company within the boundaries of the Rattlesnake National Recreation Area and Rattlesnake Wilderness by issuing bidding rights to the Montana Power Company which shall equal the negotiated cash equivalent of the fair market value of such Montana Power Company lands, as provided in the agreement of April 4, 1983, signed by the authorized representatives of the Secretary of Agriculture, the Secretary of the Interior and the Montana Power Company, except that adjustments in the “Cash Equivalency Rate” referred to in said agreement shall not exceed a rate determined by the Secretary of the Interior taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the remaining period during which the bidding rights may be used.

(Pub. L. 96–476, §4, Oct. 19, 1980, 94 Stat. 2272; Pub. L. 98–140, §7, Oct. 31, 1983, 97 Stat. 907.)

in cash under the provisions of the Mineral Leasing Act of 1920 as amended, and that the bidding rights may be transferred or sold at any time by the owner to any other party with all the rights of the owner to the credit, and after such transfer, the owner shall notify the Secretary.

(b) Boundaries; special values

The Steese National Conservation Area shall include approximately one million two hundred twenty thousand acres of public lands, as generally depicted on the map entitled “Steese National Conservation Area—proposed”, and dated October 1978. §460mm–3. Rights of holders of unperfected mining claims

(a) “Unperfected mining claim” defined

The term “unperfected mining claim” as used in this section, means a mining claim which is located on lands within the boundaries of the White Mountains National Recreation Area or Steese National Conservation Area established pursuant to this subchapter with respect to which a valid mineral discovery within the meaning of the mining laws of the United States, was not made as of the date of the withdrawal of such area from further appropriation under the mining laws of the United States.

(b) Moratorium on contest proceedings

Any holder of an unperfected mining claim seeking to protect such claim pursuant to this section must have maintained and must continue to maintain such claim in compliance with applicable Federal and State laws, and where applicable, must have obtained and complied with any mining access permit requirements imposed by the Department of the Interior during the 1979 mining season. Prior to September 30, 1982, no unperfected mining claim which has been maintained in accordance with this subsection shall be contested by the United States for failure to have made a valid mineral discovery within the meaning of the mining laws of the United States: *Provided*, That such claim shall be diligently prosecuted during this moratorium on contest proceedings as a condition for the moratorium. Any mining operation undertaken pursuant to this subsection, including but not limited to exploration, development, and extraction, shall be subject to such reasonable regulations as the Secretary may prescribe to assure that such operations will, to the maximum extent practicable, be consistent with protection of the scenic, scientific, cultural, and other resources of the Steese National Conservation Area or the White Mountains National Recreation Area or any affected conservation system units established or expanded by this Act.

(c) Valid mineral discovery

If the holder of an unperfected mining claim notifies the Secretary by filing an application for a patent that, as a result of mining operations in compliance with the requirements of subsection (b) of this section, he has made a valid mineral discovery of such claim within the meaning of the mining laws of the United States, and if the Secretary determines that such claim contains a valid mineral discovery, the holder of such claim shall be entitled to the issuance of a patent only to the minerals in such claim pursuant to the mining laws of the United States. The holder of such a patent shall also be entitled to the use of so much of the surface estate of the lands comprising the claim as may be necessary for mining purposes: *Provided*, That all mining operations conducted upon a claim after such a valid mineral discovery has been made, shall be in accordance with such reasonable regulations as may be issued by the Secretary pursuant to the authority granted in subsection (b) of this section.

(d) Validity determination

If an application for a patent is filed by the holder of an unperfected mining claim pursuant to subsection (c) of this section or if a contest proceeding is initiated by the United States after September 30, 1982, the validity of each claim shall be determined as of the date of the patent application or September 30, 1982, whichever is earlier. the holder of an unperfected mining claim not subject to a patent application filed prior to September 30, 1982, shall submit to the Secretary

within one hundred and eighty days after such date all mineral data compiled during the contest proceeding moratorium which would support a valid mineral discovery within the meaning of the mining laws of the United States. Failure to submit such data within the one-hundred-and-eighty-day period shall preclude its consideration in a subsequent determination of the validity of each affected claim. Except as specifically provided for in this section, nothing shall alter the criteria applied under the general mining laws of the United States to adjudicate the validity of unperfected mining claims.

(e) Access to claims

Pursuant to the provisions of this section and section 3170 of this title, reasonable access shall be granted to an unperfected mining claim for purposes of making a valid discovery of mineral until September 30, 1982.

(f) Preference rights

The holder of any unperfected mining claim which was, prior to November 16, 1978, located, recorded, and maintained in accordance with applicable Federal and State laws on lands located within the boundaries of the Steese National Conservation Area, or the White Mountains National Recreation Area established by this subchapter, shall be entitled during a two-year period after the date that the Secretary exercises his authority under section 460mm–1 or 460mm–4 of this title to open an area containing such claim to mining, (1) to a preference right to rerecord his claim under applicable law and to develop such claim under section 460mm–1 of this title or (2) to obtain a lease to remove nonleasable minerals from the claim under section 460mm–4 of this title.

(Pub. L. 96–487, title IV, §404, Dec. 2, 1980, 94 Stat. 2397.)

§460mm–4. Administration of recreation area

(a) Recreation, conservation, and resource development

The White Mountains National Recreation area established by this Act shall be administered by the Secretary in order to provide for public outdoor recreation use and enjoyment and for the conservation of the scenic, scientific, historic, fish and wildlife, and other values contributing to public enjoyment of such area. Except as otherwise provided in this Act, the Secretary shall administer the recreation area in a manner which in his judgment will best provide for (1) public outdoor recreation benefits; (2) conservation of scenic, scientific, historic, fish and wildlife, and other values contributing to public enjoyment; and (3) such management, utilization, and disposal of natural resources and the continuation of such existing uses and developments as will promote, or are compatible with, or do not significantly impair public recreation and conservation of the scenic, scientific, historic, fish and wildlife, or other values contributing to public enjoyment. In administering the recreation area, the Secretary may utilize such statutory authorities available to him for the conservation and management of natural resources as he deems appropriate for recreation and preservation purposes and for resource development compatible therewith.

(b) Withdrawal of lands from selection and mining; exceptions

The lands within the recreation area, subject to valid existing rights, are hereby withdrawn from State selection under the Alaska Statehood Act or other law, and from location, entry, and patent under the United States mining laws. The Secretary under such reasonable regulations as he deems appropriate, may permit the removal of the nonleasable minerals from lands or interests in lands within the recreation area in the manner described by section 387 of title 43, and he may permit the removal of leasable minerals from lands or interests in lands within the recreation areas in accordance with the mineral leasing laws, if he finds that such disposition would not have significant adverse effects on the administration of the recreation areas.

(c) Disposal of receipts

All receipts derived from permits and leases issued on lands or interest in lands within the recreation area under the mineral leasing laws shall be disposed of as provided in such laws; and receipts from the disposition of nonleasable minerals within the recreation area shall be disposed of in the same manner as moneys received from the sale of public lands.

(a) Congress finds that—

(1) Vermont is a beautiful but small and rural State, situated near four large cities with combined metropolitan populations of over fifteen million;

(2) geographic and topographic characteristics of Vermont provide opportunities for large numbers of people to experience the beauty of primitive areas, but also place unusual pressure to provide options to maximize the availability of such lands for a variety of forms of recreation;

(3) certain lands designated as the Big Branch and Peru Peak Wilderness Areas by title I of this Act are suitable for inclusion as part of the national recreation area; and

(4) certain other lands in the Green Mountain National Forest not designated as wilderness by this Act are of a predominantly roadless nature and possess outstanding wild values that are important for primitive and semiprimitive recreation, watershed protection, wildlife habitat, ecological study, education, and historic and archeological resources, and are deemed suitable for preservation and protection as part of a national recreation area.

(b) The purpose of this subchapter is to designate certain National Forest System lands in the State of Vermont as the Robert T. Stafford White Rocks National Recreation Area in order to preserve and protect their existing wilderness and wild values and to promote wild forest and aquatic habitat for wildlife, watershed protection, opportunities for primitive and semiprimitive recreation, and scenic, ecological, and scientific values.

SUBCHAPTER CIV—KLAMATH RIVER CONSERVATION AREA

§460ss. Findings

The Congress finds that—

(1) the Klamath and Trinity Rivers have been placed under the California and National Wild and Scenic Rivers Systems to protect their outstanding anadromous fishery values;

(2) the Klamath and Trinity Rivers provide fishery resources necessary for Indian subsistence and ceremonial purposes, ocean commercial harvest, recreational fishing, and the economic health of many local communities;

(3) floods, the construction and operation of dams, diversions and hydroelectric projects, past mining, timber harvest practices, and roadbuilding have all contributed to sedimentation, reduced flows, and degraded water quality which has significantly reduced the anadromous fish habitat in the Klamath-Trinity River System;

(4) overlapping Federal, State, and local jurisdictions, inadequate enforcement of fishery harvest regulations, and ineffective fishery management have historically hampered fishery conservation efforts and prevented the Federal Government and the State of California from fulfilling their responsibilities to protect the rivers' anadromous fishery values;

(5) the Klamath-Trinity fall chinook salmon populations have declined by 80 percent from historic levels and steelhead trout have also undergone significant reductions;

(6) Klamath River Basin Fisheries Resource Plan has been developed by the Secretary acting through the Bureau of Indian Affairs;

(7) the Klamath Salmon Management Group, a group of agencies with fishery management responsibility, has established, in cooperation with the users of the Klamath-Trinity River Basin fishery resources, a sound framework for the future coordination of fishery harvest management;

(8) a new Klamath-Trinity River Basin Management authority, composed of the Klamath Salmon Management Group and representatives of users of the fishery resources of the Klamath-Trinity River Basin, is needed to ensure more effective long-term coordination of the Klamath-Trinity River fisheries under sound conservation and management principles that ensure adequate spawning escapement; and

(9) the Secretary has the authority to implement a restoration program only in the Trinity River Basin and needs additional authority to implement a restoration program in cooperation with State and local governments to restore anadromous fish populations to optimum levels in both the Klamath and Trinity River Basins; ¹

(b) Within six months after December 31, 1987, the Secretary shall notify the New Mexico Commissioner of Public Lands what State lands are within the monument or the conservation area. Such listing shall be updated at least annually. If the New Mexico Commissioner of Public Lands gives notice to the Secretary of the State's desire to obtain public lands so listed, the Secretary shall notify the Commissioner in writing as to whether the Department of the Interior considers the State lands within the monument or conservation area to be of approximately equal value to the listed lands or interests in lands the Commissioner has indicated the State desires to obtain. It is the sense of the Congress that the exchange of lands and interests therein with the State pursuant to this section should be completed within two years after December 31, 1987.

§460uu–44. Mineral exchanges

(a) Authorization; matters considered

The Secretary is authorized and directed to exchange the Federal mineral interests in the lands described in subsection (b) of this section for the private mineral interests in the lands described in subsection (c) of this section, if—

(1) the owner of such private mineral interests has made available to the Secretary all information requested by the Secretary as to the respective values of the private and Federal mineral interests to be exchanged; and

(2) on the basis of information obtained pursuant to paragraph (1) and any other information available, the Secretary has determined that the mineral interests to be exchanged are of approximately equal value; and

(3) the Secretary has determined—

(A) that except insofar as otherwise provided in this section, the exchange is not inconsistent with the Federal Land Policy and Management Act of 1976 [43 U.S.C. 1701 et seq.]; and

(B) that the exchange is in the public interest.

(b) Location of Federal mineral interests

The Federal mineral interests to be exchanged under this section underlie the lands, comprising approximately 15,008 acres, depicted as “Proposed for transfer to Santa Fe Pacific” on the map referenced in subsection (d) of this section.

(c) Location of private mineral interests

The private mineral interests to be exchanged pursuant to this section underlie the lands, comprising approximately 15,141 acres, depicted as “Proposed for transfer to U.S.” on the map referenced in subsection (d) of this section.

(d) Identification of mineral interests; legal description

(1) The mineral interests identified in this section underlie those lands depicted as “Proposed for transfer to Santa Fe Pacific” and as “Proposed for transfer to U.S.” on a map entitled “El Malpais Leg. Boundary, HR3684/S56”, revised 5–8–87.

(2) As soon as practicable after December 31, 1987, the Secretary shall file a legal description of the mineral interest areas designated under this section with the Committee on Interior and Insular Affairs of the United States House of Representatives and the Committee on Energy and Natural Resources of the United States Senate. Such legal description shall have the same force and effect as if included in this subchapter, except that the Secretary may correct clerical and typographical errors in such legal description. The legal description shall be on file and available for public inspection in the offices of the Director of the Bureau of Land Management, Department of the Interior.

(e) Time of completion of exchanges

It is the sense of the Congress that all exchanges pursuant to this section shall be completed no later than three years after December 31, 1987.

§460uu–45. Acoma Pueblo exchanges

(a) Lands to be exchanged

(1) Upon the request of the Pueblo of Acoma, the Secretary shall acquire by exchange any lands held in trust for the Pueblo of Acoma (hereinafter referred to as “trust lands”) located within the boundary of the conservation area which the Pueblo wishes to exchange pursuant to this section. (B) public lands of approximately equal value located outside the monument and outside the conservation area but within the boundaries of the State of New Mexico which are selected by the Pueblo of Acoma, so long as such exchange is consistent with applicable law and Bureau of Land Management resource management plans developed pursuant to the Federal Land Policy and Management Act of 1976 [43 U.S.C. 1701 et seq.].

(2) All lands selected by and transferred to the Pueblo of Acoma at its request pursuant to this

SUBCHAPTER CVII—WINDING STAIR MOUNTAIN NATIONAL RECREATION AND WILDERNESS AREA

§460vv. Findings and purposes

(a) Findings

The Congress finds that—

(1) select areas of undeveloped National Forest System lands in the State of Oklahoma possess outstanding natural characteristics which give them high values as wilderness and will, if properly preserved, contribute as an enduring resource of wilderness for the benefit of the American people;

(2) the Department of Agriculture's second roadless area review and evaluation (RARE II) and other studies of National Forest System lands in the State of Oklahoma and the related congressional review of such lands have identified areas which, on the basis of their landform, ecosystem, associated wildlife, and location, will help to fulfill the National Forest System's share of a quality National Wilderness Preservation System;

(3) the Department of Agriculture's second roadless area review and evaluation, of National Forest System lands in the State of Oklahoma and the related congressional review of such lands have also identified areas which do not possess outstanding wilderness attributes or which possess outstanding energy, mineral, timber, grazing, dispersed recreation and other values, and which should not be designated as components of the National Wilderness Preservation System but should be available for nonwilderness multiple uses under the land management planning process and other applicable laws;

(4) many areas of the Ouachita National Forest possess qualities that can only be expressed and utilized in such a manner that designation of such areas as a national recreation area is appropriate for the maximum potential and enjoyment of the area by the American people;

(5) select areas possess unique plant and tree species and plant communities that are significant in their occurrence, variety and location and warrant designation as botanical areas; and

(6) select areas possess unique scenic and wildlife qualities that designation of such areas as a national scenic area and a national scenic and wildlife area is appropriate for the preservation of the natural beauty and wildlife habitat for the enjoyment of the American people.

(b) Purposes

The purposes of this subchapter are to—

(1) designate certain National Forest System lands in the State of Oklahoma as components of the National Wilderness Preservation System, in order to promote, perpetuate, and preserve the wilderness character of the lands, protect watersheds and wildlife habitat, preserve scenic and historic resources, and promote scientific research, primitive recreation, solitude, physical and mental challenge, and inspiration for the benefit of all the American people, to a greater extent than is possible in the absence of wilderness designation; and to ensure that certain other National Forest System lands in the State of Oklahoma be available for nonwilderness multiple uses; and

(2) designate certain National Forest System lands in the State of Oklahoma as a national recreation area, 2 botanical areas, a national scenic area, and a national scenic and wildlife area in order to enhance and further certain natural resources characteristics.

(Pub. L. 100–499, §2, Oct. 18, 1988, 102 Stat. 2491.)

§460vv–1. Additions to National Wilderness Preservation System

In furtherance of the purposes of the Wilderness Act of 1964 (78 Stat. 890, 16 U.S.C. 1131 et seq.) the following lands in the State of Oklahoma are hereby designated as wilderness and, therefore, as components of the National Wilderness Preservation System:

§460vv–4. Wilderness review

(a) Findings

The Congress finds that—

(1) the Department of Agriculture has completed the second roadless area review and evaluation program (RARE II); and

(2) the Congress has made its own review and examination of National Forest System roadless areas in Oklahoma and of the environmental impacts associated with alternative allocations of such areas.

(b) Congressional determination and direction

On the basis of such review, the Congress hereby determines and directs that—

(1) without passing on the questions of the legal and factual sufficiency of the RARE II Final Environmental Impact Statement (dated January 1979) with respect to National Forest System lands in States other than Oklahoma, such statement shall not be subject to judicial review with respect to National Forest System lands in the State of Oklahoma;

(2) with respect to the National Forest System lands in the State of Oklahoma which were reviewed by the Department of Agriculture in the second roadless area review and evaluation (RARE II) and those lands referred to in subsection (d) of this section, that review and evaluation or reference shall be deemed for the purposes of the initial land management plans required for such lands by the Forest and Rangeland Renewable Resources Planning Act of 1974 [16 U.S.C. 1600 et seq.], as amended by the National Forest Management Act of 1976, to be an adequate consideration of the suitability of such lands for inclusion in the National Wilderness Preservation System and the Department of Agriculture shall not be required to review the wilderness option prior to the revision of the plans, but shall review the wilderness option when the plans are revised, which revisions will ordinarily occur on a ten-year cycle, or at least every fifteen years, unless, prior to such time the Secretary of Agriculture finds that conditions in a unit have significantly changed;

(3) areas in the State of Oklahoma reviewed in such final environmental statement or referenced in subsection (d) of this section and not designated wilderness upon enactment of this subchapter shall be managed for multiple use in accordance with land management plans pursuant to section 6 of the Forest and Rangeland Renewable Resources Planning Act of 1974 [16 U.S.C. 1604], as amended by the National Forest Management Act of 1976, except that such areas need not be managed for the purpose of protecting their suitability for wilderness designation prior to or during revision of the initial land management plans;

(4) in the event that revised land management plans in the State of Oklahoma are implemented pursuant to section 6 of the Forest and Rangeland Renewable Resources Planning Act of 1974 [16 U.S.C. 1604], as amended by the National Forest Management Act of 1976, and other applicable law, areas not recommended for wilderness designation need not be managed for the purpose of protecting their suitability for wilderness designation prior to or during revision of such plans, and areas recommended for wilderness designation shall be managed for the purpose of protecting their suitability for wilderness designation as may be required by the Forest and Rangeland Renewable Resources Planning Act of 1974 [16 U.S.C. 1600 et seq.], as amended by the National Forest Management Act of 1976, and other applicable law; and

(5) unless expressly authorized by Congress, the Department of Agriculture shall not conduct any further statewide roadless area review and evaluation of the National Forest System lands in the State of Oklahoma for the purpose of determining their suitability for inclusion in the National Wilderness Preservation System.

(c) Use of term

As used in this section, and as provided in section 6 of the Forest and Rangeland Renewable Resources Planning Act of 1974 [16 U.S.C. 1604], as amended by the National Forest Management Act of 1976, the term “revision” shall not include an “amendment” to a plan.

(d) Application of provisions

The provisions of this section shall also apply to:

The Secretary may acquire lands or interests in lands within the boundaries of the recreation area by donation, purchase with donated or appropriated funds, or exchange. Nothing in this Act shall impair or affect the requirements of section 1102 of Public Law 99–662 or otherwise affect the authorities of any department or agency of the United States to carry out the project purposes of the Summersville project, including recreation. CHANGE OF NAME

Committee on Interior and Insular Affairs of the House of Representatives changed to Committee on Natural Resources of the House of Representatives on Jan. 5, 1993, by House Resolution No. 5, One Hundred Third Congress.

§460yy–1. Plan and management

(a) Development of plan

To achieve the purpose of this subchapter, the Secretary, acting through the National Park Service, in cooperation with appropriate State and Federal agencies, local units of government and local residents shall formulate a comprehensive plan for the protection, preservation, and interpretation of the reserve. The plan shall identify those areas or zones within the reserve which would most appropriately be devoted to—

- (1) public use and development;
- (2) historic and natural preservation; and
- (3) private use subject to appropriate local ordinances designed to protect the historic rural setting.

(b) Transmittal of plan to Congress and State

Within eighteen months following November 18, 1988, the Secretary shall transmit the plan to the President of the Senate and the Speaker of the House of Representatives and to the Governor of the State of Idaho.

(c) Transfer of management and administration to State or local units of government

At such time as the State or appropriate units of local government having jurisdiction over land use within the reserve have enacted ordinances or established regulations which in the judgment of the Secretary will protect and preserve the historic and natural features of the area in accordance with the comprehensive plan, the Secretary shall, pursuant to cooperative agreement—

- (1) transfer management and administration over all or any part of the property acquired under subsection (d) of this section to the State or appropriate units of local government;
- (2) provide technical assistance to such State or units of local government in the management, protection, and interpretation of the reserve; and
- (3) make periodic grants, which shall be supplemental to any other funds to which the grantee may be entitled under any other provision of law, to such State or local unit of government to carry out the purposes of this subchapter.

(d) Acquisition of land

(1) The Secretary is authorized to acquire such lands and interests as he determines are necessary to accomplish the purposes of this subchapter by donation, purchase with donated funds, or appropriated funds, or exchange, except that the Secretary may not acquire the fee simple title to any land without the consent of the owner. The Secretary shall, in addition, give prompt and careful consideration to any offer made by an individual owning property within the reserve to sell such property, if such individual notifies the Secretary that the continued ownership of such property is causing, or would result in, undue hardship.

(2) Lands and waters, and interests therein, within the boundaries of the reserve which were administered by the Forest Service, United States Department of Agriculture or the Bureau of Land Management, Department of the Interior prior to November 18, 1988, are hereby transferred to the administrative jurisdiction of the Secretary to be administered by the National Park Service in accordance with this subchapter.

(3) Lands and interest therein so acquired shall, so long as responsibility for management and administration remains with the United States, be administered by the Secretary subject to the provisions of sections 1, 2, 3, and 4 of this title, and in a manner consistent with the purpose of this subchapter.

(e) Withdrawal of management and administration from State or local units of government

If, after the transfer of management and administration of any lands pursuant to subsection (c) of this section, the Secretary determines that the reserve is not being managed in a manner consistent with the purposes of this subchapter, he shall so notify the appropriate officers of the State or local unit of government to which such transfer was made and provide for a one hundred and eighty-day period in which the transferee may make such modifications in applicable laws, ordinances, rules, and procedures as will be consistent with such purposes. If, upon the expiration of such one hundred and eighty-day period, the Secretary determines that such modifications have not been made or are inadequate, he shall withdraw the management and administration from the transferee and he shall manage such lands in accordance with the provisions of this subchapter.

(f) Water rights

Congress finds that there are unique circumstances with respect to the water and water related resources within the Reserve ¹ designated by this subchapter. The Congress recognizes that the management of this area may be transferred to the State of Idaho, that the State has committed to providing the water necessary to fulfill the purposes of this subchapter, and that there is little or no water or water-related resources that require the protection of a Federal reserved water right. Nothing in this subchapter, nor any action taken pursuant thereto, shall constitute either an express or implied reservation of water or water right for any purpose: *Provided*, That the United States shall retain that reserved water right which is associated with the initial establishment and withdrawal of the national forest lands which will be transferred to the Reserve ¹ under this subchapter.

(g) Withdrawal of lands from disposition under other laws

Subject to valid existing rights, Federal lands and interests therein, within the reserve, are hereby withdrawn from disposition under the public land laws and from entry or appropriation under the mining laws of the United States, from the operation of the mineral leasing laws of the United States, and from operation of the Geothermal Steam Act of 1970, as amended [30 U.S.C. 1001 et seq.].

(h) Authorization of appropriations

There is hereby authorized to be appropriated not to exceed \$2,000,000 to carry out the provisions of this subchapter.

educational facility on no more than 55 acres located so as not to impair or alter existing scenic views or the existing tree line and forested appearance of Grand Island from any point within the boundaries of Pictured Rocks National Lakeshore. The plan shall address the economics of constructing, operating, and maintaining such a facility by a concessionaire or other entity; access by roads and waters; utilities; waste water treatment, garbage disposal, and other associated environmental impacts; management operations including construction, operation and maintenance; and the potential for permitted uses by government agencies, profit and nonprofit organizations, or individuals.

(3) Prescriptions concerning any management and harvest of timber, subject to section 460aaa–2(b)(4) of this title.

(5) Water transportation from the mainland to the national recreation area by a concessionaire or other entity.

(6) The feasibility of concessionaire constructed, operated, and maintained docking facilities in the national recreation area and on the mainland.

(7) An inventory and assessment of existing traditional roads, the level of road use, access needs, and any vehicular regulation and management needed to protect the resources of the national recreation area while, at the same time, providing reasonable access to private property.

SUBCHAPTER CXIII—SMITH RIVER NATIONAL RECREATION AREA

§460bbb. Findings

The Congress finds that—

(1) the Smith River, undammed and free-flowing from its headwaters to the Pacific Ocean, represents one of the last wholly intact vestiges of an invaluable legacy of wild and scenic rivers;

(2) the Smith River watershed, from the diverse conifer forests of the Siskiyou Mountains and unique botanical communities of the North Fork serpentine to the ancient redwoods along the river's lower reaches, exhibits a richness of ecological diversity unusual in a basin of its size;

(3) the Smith River watershed's scenic beauty, renowned anadromous fisheries, exceptional water quality, and abundant wildlife combine with its ready accessibility to offer exceptional opportunities for a wide range of recreational activities, including wilderness, water sports, fishing, hunting, camping, and sightseeing;

(4) careful development and utilization at mutually compatible levels of recreation, fisheries, and timber resources on public lands will ensure the continuation of the Smith River watershed's historic role as a significant contributor to the region's local economy; and

(5) protection of the Smith River's unique values can be enhanced by a cooperative effort by Federal, State and local governments to coordinate land-use planning, management, and development of Federal and non-Federal lands throughout the watershed.

§460bbb–3. Administration

(a) In general

The Secretary shall administer the recreation area in accordance with this subchapter and the laws, rules, and regulations applicable to the National Forest System in furtherance of the purposes for which the recreation area was established. In administering the recreation area, the Secretary shall, consistent with the applicable area management emphasis provided under subsection (b) of this section, undertake the following:

(1) Provide for a broad range of recreation uses and provide recreational and interpretive services and facilities (including trails and campgrounds) for the public.

(2) Provide and maintain adequate public access, including vehicular roads for general recreational activities such as camping, hiking, hunting, and fishing.

(3) Improve the anadromous fishery and water quality, including (but not limited to) stabilizing landslides, improving fish spawning and rearing habitat, and placing appropriate restrictions or limitations on soil disturbing activities.

(4) Permit the use of off-road vehicles only on designated routes.

(5) Provide for public health and safety and for the protection of the recreation area in the event

of fire or infestation of insects or disease.

(6) Permit programmed timber harvest only in those management areas where timber harvest is specifically authorized by subsection (b) of this section. Timber management in these areas shall incorporate the use of strategies to reduce habitat fragmentation and employ silvicultural prescriptions designed to maintain or enhance biological diversity and wildlife habitats (such as retention of standing green trees, snags, and other coarse woody debris) by providing for a high level of structural and compositional diversity in managed stands.

(7) Permit removal of trees within streamside protection zones along those rivers and river segments specified in section 460bbb–8 of this title only when necessary for human health and safety, to maintain trails or existing roads, for the development of recreation or other facilities, for the protection of the recreation area in the event of fire, or to improve fish and wildlife habitat.

(8) Consistent with applicable requirements of law, permit removal of trees in those management areas where timber harvest is not specifically authorized by subsection (b) of this section when necessary for human health and safety, to maintain trails or existing roads, for the development of recreation or other facilities, for the protection of the recreation area in the event of fire, or to improve fish and wildlife habitat. Timber damaged or down in these areas as a result of fire, insects, disease, blowdown or other natural events shall otherwise be retained in its natural condition, with removal permitted only upon a written determination by the Secretary, based upon written findings, that such removal is necessary to provide for or maintain or enhance biological and ecological diversity, without regard for the commodity value of the timber. Such a decision shall not be delegable by the Secretary but shall be subject to administrative appeal and judicial review.

(9) Provide for the long-term viability and presence of Port-Orford-cedar and ensure its continued present economic and noneconomic uses through implementation of management strategies developed by the Forest Service.

(10) Except where timber harvest is specifically authorized by subsection (b) of this section protect, preserve, and increase old growth forest habitat in the recreation area.

(11) Provide for the restoration of landscapes damaged by past human activity consistent with the purposes of this subchapter.

(12) Develop a monitoring program to consistently gather water quality, air quality, wildlife, and fisheries data from representative Smith River subwatersheds.

(13) Develop and implement a management plan to maintain, protect, and promote habitat for native resident trout species in the recreation area.

(14) Cooperate with other Federal, State, and local government agencies in coordinating planning efforts throughout the Smith River watershed.

(b) Management areas

(1) The recreation area shall contain eight management areas, as generally depicted on the map referred to in section 460bbb–2(b) of this title. The Secretary may, pursuant to section 460bbb–2(b) of this title, make minor revisions or amendments to the boundaries of the management areas.

(2) The Secretary shall administer each management area within the recreation area in accordance with the following:

(A) The management emphasis for the North Fork management area shall be on back-country and whitewater recreation, while recognizing unique botanic communities, outstanding whitewater, and historic and scenic values.

(B) The management emphasis for the Upper Middle Fork management area shall be on providing and maintaining ecologic and biologic diversity. Timber harvest shall be permitted, consistent with subsection (a)(6) of this section, only in existing plantations.

(C) The management emphasis for the Middle Fork-Highway 199 management area shall be on maintaining wildlife values and providing for a full range of recreation uses, with particular emphasis on the scenic and recreation values associated with the Smith River, old growth redwoods, and California State Highway 199.

(D) The management emphasis for the Upper South Fork management area shall be on wild river and roadless back-country recreation.

(E) The management emphasis for the Lower South Fork management area shall be on maintaining and protecting natural scenic values in the river canyon while providing for traditional and compatible river sports, including white water rafting, angling, sightseeing, and developed and dispersed recreation. Timber harvests based on uneven-aged management with extended rotations shall be allowed where consistent with protection of the scenic values of the recreation area.

(F) The management emphasis for the Lower Hurdygurdy Creek management area shall be on maintenance of wildlife values while providing rustic family and group recreation facilities for fishing, swimming, hunting, and camping. Timber harvests based on uneven-aged management with extended rotations shall be allowed where consistent with protection of scenic and wildlife values.

(G) The management emphasis for the prescribed timber management area shall be on providing a sustained yield of wood products while maintaining biological and ecological diversity.

(H) The management of the Siskiyou Wilderness management area shall be pursuant to the provisions of the Wilderness Act (16 U.S.C. 1131 et seq.). The Gasquet-Orleans Road corridor between the eastern edge of section 36, T. 14 N., R. 3 E, and the corridor's eastern terminus in the middle of section 26, T. 14 N., R. 4 E. shall be added to the Siskiyou Wilderness.

(c) Wild and scenic rivers

The river segments designated as wild and scenic rivers by the amendments made by section 10(b) of this Act shall be administered in accordance with this subchapter and the Wild and Scenic Rivers Act (16 U.S.C. 1271 et seq.). In case of conflict between the provisions of these Acts, the more restrictive provision shall apply.

Pub. L. 107–282, title I, Nov. 6, 2002, 116 Stat. 1995, provided that:

“SEC. 101. SHORT TITLE.

“This title [amending section 460ccc–1 of this title and enacting this note] may be cited as the ‘Red Rock Canyon National Conservation Area Protection and Enhancement Act of 2002’.

“SEC. 102. DEFINITIONS.

“As used in this title:

“(1) CORPORATION.—The term ‘Corporation’ means the Howard Hughes Corporation, an affiliate of the Rouse Company, with its principal place of business at 10000 West Charleston Boulevard, Las Vegas, Nevada.

“(2) RED ROCK CANYON.—The term ‘Red Rock Canyon’ means the Red Rock Canyon National Conservation Area, consisting of approximately 195,780 acres of public lands in Clark County, Nevada, specially designated for protection in the Red Rock Canyon National Conservation Area Establishment Act of 1990 (16 U.S.C. 460ccc et seq.), as depicted on the Red Rock Canyon Map.

“(3) RED ROCK CANYON MAP.—The term ‘Red Rock Canyon Map’ means the map entitled ‘Southern Nevada Public Land Management Act’, dated October 1, 2002.

“SEC. 103. FINDINGS AND PURPOSES.

“(a) FINDINGS.—The Congress makes the following findings:

“(1) Red Rock Canyon is a natural resource of major significance to the people of Nevada and the United States. It must be protected in its natural state for the enjoyment of future generations of Nevadans and Americans, and enhanced wherever possible.

“(2) In 1998, the Congress enacted the Southern Nevada Public Lands [Land] Management Act of 1998 (Public Law 105–263) [see Short Title of 1998 Amendment note set out under section 6901 of Title 31, Money and Finance], which provided among other things for the protection and enhancement of Red Rock Canyon.

“(3) The Corporation owns much of the private land on Red Rock Canyon's eastern boundary, and is engaged in developing a large-scale master-planned community.

“(4) Included in the Corporation's land holdings are 1,071 acres of high-ground lands at the eastern edge of Red Rock Canyon. These lands were intended to be included in Red Rock, but to date have not been acquired by the United States. The protection of this high-ground acreage would preserve an important element of the western Las Vegas Valley viewshed.

“(5) The Corporation has volunteered to forgo development of the high-ground lands, and proposes that the United States acquire title to the lands so that they can be preserved in perpetuity to protect and expand Red Rock Canyon.

“(b) PURPOSES.—The purposes of this title are:

“(1) To accomplish an exchange of lands between the United States and the Corporation that would transfer certain high-ground lands to the United States in exchange for the transfer of other lands of approximately equal value to the Corporation.

“(2) To protect Red Rock Canyon and to expand its boundaries as contemplated by the Bureau of Land Management, as depicted on the Red Rock Canyon Map.

“(3) To further fulfill the purposes of the Southern Nevada Public Lands [Land] Management Act of 1998 and the Red Rock Canyon National Conservation Area Establishment Act of 1990.

“SEC. 104. RED ROCK CANYON LAND EXCHANGE.

“(1) To the Corporation, the approximately 998 acres of Federal lands depicted on the Red Rock Canyon Map as ‘Public land selected for exchange’.

“(2) To Clark County, Nevada, the approximately 1,221 acres of Federal lands depicted on the Red Rock Canyon Map as ‘Proposed BLM transfer for county park’.

“(b) SIMULTANEOUS CONVEYANCES.—Title to the private property and the Federal property to be conveyed pursuant to this section shall be conveyed at the same time.

“(c) MAP.—The Secretary shall keep the Red Rock Canyon Map on file and available for public inspection in the Las Vegas District Office of the Bureau of Land Management in Nevada, and the State Office of the Bureau of Land Management, Reno, Nevada.

“(d) CONDITIONS.—

“(2) SURVEY.—As a condition of the conveyance under subsection (a)(1), the Secretary shall require that not later than 90 days after the date of the offer referred to in subsection (a), the Corporation shall provide a metes and bounds survey, that is acceptable to the Corporation, Clark County, and the Secretary, of the common boundary between the parcels of land to be conveyed under subsection (a).

“(3) LANDS CONVEYED TO CLARK COUNTY.—As a condition of the conveyance under subsection (a)(2), the Secretary shall require that—

“(A) the lands transferred to Clark County by the United States must be held in perpetuity by the County for use only as a public park or as part of a public regional trail system; and

“(B) if the County attempts to transfer the lands or to undertake a use on the lands that is inconsistent with their preservation and use as described in subparagraph (A), such lands shall, at the discretion of the Secretary, revert to the United States.

“(e) VALUATION.—

“(1) EQUAL VALUE EXCHANGE.—The values of the Federal parcel and the non-Federal parcel, as determined under paragraph (2)—

“(A) shall be equal; or

“(B) if the values are not equal, shall be equalized in accordance with paragraph (3).

“(2) APPRAISAL.—The values of the Federal parcel and the non-Federal parcel shall be determined by an appraisal, to be approved by the Secretary, that complies with the Uniform Standards for Federal Land Acquisitions.

“(3) EQUALIZATION.—

“(A) IN GENERAL.—If the value of the non-Federal parcel is less than the value of the Federal parcel—

“(i) the Corporation shall make a cash equalization payment to the Secretary; or

“(ii) the Secretary shall, as determined to be appropriate by the Secretary and the Corporation, reduce the acreage of the Federal parcel.

“(B) DISPOSITION OF PROCEEDS.—The Secretary shall deposit any cash equalization payments received under subparagraph (A)(i) in accordance with section 4(e)(1)(C) of the Southern Nevada Public Land Management Act of 1998 (112 Stat. 2345).

SUBCHAPTER CXX—MORLEY NELSON SNAKE RIVER BIRDS OF PREY NATIONAL CONSERVATION AREA

§460iii. Findings

The Congress finds the following:

(1) The public lands managed by the Bureau of Land Management in the State of Idaho within the Snake River Birds of Prey Area contain one of the densest known nesting populations of eagles, falcons, owls, hawks, and other birds of prey (raptors) in North America.

(2) These public lands constitute a valuable national biological and educational resource since birds of prey are important components of the ecosystem and indicators of environmental quality, and contribute significantly to the quality of wildlife and human communities.

(3) These public lands also contain important historic and cultural resources (including significant archaeological resources) as well as other resources and values, all of which should be protected and appropriately managed.

(4) A military training area within the Snake River Birds of Prey Area, known as the Orchard Training Area, has been used since 1953 by reserve components of the Armed Forces. Military use of this area is currently governed by a Memorandum of Understanding between the Bureau of Land Management and the State of Idaho Military Division, dated May 1985. Operating under this Memorandum of Understanding, the Idaho National Guard has provided valuable assistance to the Bureau of Land Management with respect to fire control and other aspects of management of the Orchard Training Area and the other lands in the Snake River Birds of Prey Area. Military use of the lands within the Orchard Training Area should continue in accordance with such Memorandum of Understanding (or extension or renewal thereof), to the extent consistent with section 460iii–3(e) of this title, because this would be in the best interest of training of the reserve components (an important aspect of national security) and of the local economy.

(5) Protection of the conservation area as a home for raptors can best and should be accomplished by the Secretary of the Interior, acting through the Bureau of Land Management, under a management plan that—

(A) emphasizes management, protection, and rehabilitation of habitat for these raptors and of other resources and values of the area;

(B) provides for continued military use, consistent with the requirements of section 460iii–3(e) of this title, of the Orchard Training Area by reserve components of the Armed Forces;

(C) addresses the need for public educational and interpretive opportunities;

(D) allows for diverse appropriate uses of lands in the area to the extent consistent with the maintenance and enhancement of raptor populations and habitats and protection and sound management of other resources and values of the area; and

(E) demonstrates management practices and techniques that may be useful to other areas of the public lands and elsewhere.

(6) There exists near the conservation area a facility, the World Center for Birds of Prey

operated by The Peregrine Fund, Inc., where research, public education, recovery, and reestablishment operations exist for endangered raptor species. There also exists at Boise State University a raptor study program which attracts national and international graduate and undergraduate students.

(7) The Bureau of Land Management and Boise State University, together with other State, Federal, and private entities, have formed the Raptor Research and Technical Assistance Center to be housed at Boise State University, which provides a unique adjunct to the conservation area for raptor management, recovery, research, and public visitation, interpretation, and education.

(8) Consistent with requirements of sections 1712 and 1732 of title 43, the Secretary has developed a comprehensive management plan and, based on such plan, has implemented a management program for the public lands included in the conservation area established by this subchapter.

(9) Additional authority and guidance must be provided to assure that essential raptor habitat remains in public ownership, to facilitate sound and effective planning and management, to provide for effective public interpretation and education, to ensure continued study of the relationship of humans and these raptors, to preserve the unique and irreplaceable habitat of the conservation area, and to conserve and properly manage the other natural resources of the area in concert with maintenance of this habitat.

(10) An ongoing research program funded by the Bureau of Land Management and the National Guard is intended to provide information to be used in connection with future decisionmaking concerning management of all uses, including continued military use, of public lands within the Snake River Birds of Prey Area.

(11) Public lands in the Snake River Birds of Prey Area have been used for domestic livestock grazing for more than a century, with resultant benefits to community stability and contributions to the local and State economies. It has not been demonstrated that continuation of this use would be incompatible with appropriate protection and sound management of raptor habitat and the other resource values of these lands; therefore, subject to the determination provided for in section 460iii–3(f) of this title, it is expected that such grazing will continue in accordance with applicable regulations of the Secretary and the management plan for the conservation area.

(12) Hydroelectric facilities for the generation and transmission of electricity exist within the Snake River Birds of Prey Area pursuant to a license(s) issued by the Federal Energy Regulatory Commission, or its predecessor, the Federal Power Commission.

(Pub. L. 103–64, §1, Aug. 4, 1993, 107 Stat. 302.)

§460iii–3. Management and use

(a) In general

(1)(A) Within 1 year after August 4, 1993, the Secretary shall make any revisions in the existing management plan for the conservation area as necessary to assure its conformance with this subchapter, and no later than January 1, 1996, shall finalize a new management plan for the conservation area.

(B) Thereafter, the Secretary shall review the plan at least once every 5 years and shall make such revisions as may be necessary or appropriate.

(C) In reviewing and revising the plan, the Secretary shall provide for appropriate public participation.

(2) Except as otherwise specifically provided in section 460iii–2(d) of this title and subsections (d), (e), and (f) of this section, the Secretary shall allow only such uses of lands in the conservation area as the Secretary determines will further the purposes for which the conservation area is established.

(b) Management guidance

After each review pursuant to subsection (a) of this section, the Secretary shall make such revisions as may be needed so that the plan and management program to implement the plan include, in addition to any other necessary or appropriate provisions, provisions for—

(1) protection for the raptor populations and habitats and the scientific, cultural, and educational resources and values of the public lands in the conservation area;

(2) identifying levels of continued military use of the Orchard Training Area compatible with paragraph (1) of this subsection;

(3) public use of the conservation area consistent with the purposes of this subchapter;

(4) interpretive and educational opportunities for the public;

(5) a program for continued scientific investigation and study to provide information to support sound management in accordance with this subchapter, to advance knowledge of raptor species and the resources and values of the conservation area, and to provide a process for transferring to other areas of the public lands and elsewhere this knowledge and management experience;

(6) such vegetative enhancement and other measures as may be necessary to restore or enhance

prey habitat;

(7) the identification of levels, types, timing, and terms and conditions for the allowable nonmilitary uses of lands within the conservation area that will be compatible with the protection, maintenance, and enhancement of raptor populations and habitats and the other purposes for which the conservation area is established; and

(8) assessing the desirability of imposing appropriate fees for public uses (including, but not limited to, recreational use) of lands in the conservation area, which are not now subject to fees, to be used to further the purposes for which the conservation area is established.

(c) Visitors center

The Secretary, acting through the Director of the Bureau of Land Management, is authorized to establish, in cooperation with other public or private entities as the Secretary may deem appropriate, a visitors center designed to interpret the history and the geological, ecological, natural, cultural, and other resources of the conservation area and the biology of the raptors and their relationships to man.

(d) Visitors use of area

In addition to the visitors center, the Secretary may provide for visitor use of the public lands in the conservation area to such extent and in such manner as the Secretary considers consistent with the protection of raptors and raptor habitat, public safety, and the purposes for which the conservation area is established. To the extent practicable, the Secretary shall make available to visitors and other members of the public a map of the conservation area and such other educational and interpretive materials as may be appropriate.

(e) National Guard use of area

(1) Pending completion of the ongoing research concerning military use of lands in the conservation area, or until the date 5 years after August 4, 1993, whichever is the shorter period, the Secretary shall permit continued military use of those portions of the conservation area known as the Orchard Training Area in accordance with the Memorandum of Understanding, to the extent consistent with the use levels identified pursuant to subsection (b)(2) of this section.

(2) Upon completion of the ongoing research concerning military use of lands in the conservation area, the Secretary shall review the management plan and make such additional revisions therein as may be required to assure that it meets the requirements of this subchapter.

(3) Upon completion of the ongoing research concerning military use of lands in the conservation area, the Secretary shall submit to the Committees on Natural Resources and Merchant Marine and Fisheries of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report of the results of such research.

(4) Nothing in this subchapter shall preclude minor adjustment of the boundaries of the Orchard Training Area in accordance with provisions of the Memorandum of Understanding.

(5) After completion of the ongoing research concerning military use of lands in the Orchard Training Area or after the date 5 years after August 4, 1993, whichever first occurs, the Secretary shall continue to permit military use of such lands, unless the Secretary, on the basis of such research, determines such use is not compatible with the purposes set forth in section 460iii-2(a)(2) of this title. Any such use thereafter shall be permitted in accordance with the Memorandum of Understanding, which may be extended or renewed by the Secretary so long as such use continues to meet the requirements of subsection (b)(2) of this section.

(6) In accordance with the Memorandum of Understanding, the Secretary shall require the State of Idaho Military Division to insure that military units involved maintain a program of decontamination.

(7) Nothing in this subchapter shall be construed as by itself precluding the extension or renewal of the Memorandum of Understanding, or the construction of any improvements or buildings in the Orchard Training Area so long as the requirements of this subsection are met.

(f) Livestock grazing

(1) So long as the Secretary determines that domestic livestock grazing is compatible with the purposes for which the conservation area is established, the Secretary shall permit such use of public

lands within the conservation area, to the extent such use of such lands is compatible with such purposes. Determinations as to compatibility shall be made in connection with the initial revision of management plans for the conservation area and in connection with each plan review required by subsection (a)(1)(B) of this section.

(2) Any livestock grazing on public lands within the conservation area, and activities the Secretary determines necessary to carry out proper and practical grazing management programs on such lands (such as animal damage control activities) shall be managed in accordance with the Act of June 28, 1934 (43 U.S.C. 315 et seq.; commonly referred to as the “Taylor Grazing Act”), section 1752 of title 43, other laws applicable to such use and programs on the public lands, and the management plan for the conservation area.

(g) Cooperative agreements

The Secretary is authorized to provide technical assistance to, and to enter into such cooperative agreements and contracts with, the State of Idaho and with local governments and private entities as the Secretary deems necessary or desirable to carry out the purposes and policies of this subchapter.

(h) Agricultural practices

Nothing in this subchapter shall be construed as constituting a grant of authority to the Secretary to restrict recognized agricultural practices or other activities on private land adjacent to or within the conservation area boundary.

(i) Hydroelectric facilities

Notwithstanding any provision of this subchapter, or regulations and management plans undertaken pursuant to its provisions, the Federal Energy Regulatory Commission shall retain its current jurisdiction concerning all aspects of the continued and future operation of hydroelectric facilities, licensed or relicensed under the Federal Power Act (16 U.S.C. 791a et seq.), located within the boundaries of the conservation area.

§460iii-5. Other laws and administrative provisions

(a) Other laws

(1) Nothing in this subchapter shall be construed to supersede, limit, or otherwise affect administration and enforcement of the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.) or to limit the applicability of the National Trails System Act [16 U.S.C. 1241 et seq.] to any lands within the conservation area.

(2) Except as otherwise specifically provided in this subchapter, nothing in this subchapter shall be construed as limiting the applicability to lands in the conservation area of laws applicable to public lands generally, including but not limited to the National Historic Preservation Act [16 U.S.C. 470 et seq.], the Archaeological Resources Protection Act of 1979 [16 U.S.C. 470aa et seq.], or the Native American Graves Protection and Repatriation Act [25 U.S.C. 3001 et seq.].

(3) Nothing in this subchapter shall be construed as by itself altering the status of any lands that on August 4, 1993, were not managed by the Bureau of Land Management.

(4) Nothing in this subchapter shall be construed as prohibiting the Secretary from engaging qualified persons to use public lands within the conservation area for the propagation of plants (including seeds) to be used for vegetative enhancement of the conservation area in accordance with the plan and in furtherance of the purposes for which the conservation area is established.

(b) Release

The Congress finds and directs that the public lands within the Snake River Birds of Prey Natural Area established as a natural area in October 1971 by Public Land Order 5133 have been adequately studied and found unsuitable for wilderness designation pursuant to section 1782 of title 43. Such lands are hereby released from further management pursuant to section 1782(c) of title 43 and shall be managed in accordance with other applicable provisions of law, including this subchapter.

(c) Existing administrative withdrawal terminated

Public Land Orders 5133 dated October 12, 1971, and 5777 dated November 21, 1980, issued by the Secretary are hereby revoked subject to subsections (d)(3) and (d)(4) of this section.

(d) Water

(1) The Congress finds that the United States is currently a party in an adjudication of rights to waters of the Snake River, including water rights claimed by the United States on the basis of the reservation of lands for purposes of conservation of fish and wildlife and that consequently there is no need for this subchapter to effect a reservation by the United States of rights with respect to such waters in order to fulfill the purposes for which the conservation area is established.

(2) Nothing in this subchapter or any action taken pursuant thereto shall constitute either an expressed or implied reservation of water or water rights for any purpose.

(3) Nothing in this subchapter shall be construed as effecting a relinquishment or reduction of any of the water rights held or claimed by the United States within the State of Idaho or elsewhere on or before August 4, 1993.

(b) Area included

The recreation area shall be comprised of approximately 57,000 acres of lands and interests in lands within the Santa Fe National Forest as generally depicted on the map entitled “Jemez National Recreation Area—Proposed” and dated September 1992. The map shall be on file and available for public inspection in the offices of the Chief of the Forest Service, Department of Agriculture, Washington, District of Columbia. The Secretary may from time to time, in consultation with local tribal leaders, make minor revisions in the boundary of the recreation area to promote management effectiveness and efficiency in furtherance of the purposes of this subchapter.

(c) Map and description

As soon as practicable after October 12, 1993, the Secretary shall file a map and legal description of the recreation area with the Committee on Natural Resources of the House of Representatives and with the Committee on Energy and Natural Resources and the Committee on Indian Affairs of the Senate. Such map and legal description shall have the same force and effect as if included in this subchapter, except that correction of clerical and typographical errors in such legal description and map may be made. Such map and legal description shall be on file and available for public inspection in the Office of the Chief of the Forest Service, Department of Agriculture.

§460jjj–1. Administration**(a) In general**

The Secretary shall administer the recreation area in accordance with this subchapter and the laws, rules, and regulations applicable to National Forest System lands in a manner that will further the purposes of the recreation area. Management of the natural resources within the recreation area shall be permitted only to the extent that such management is compatible with and does not impair the purposes for which the recreation area is established. Recreational activities within the recreation area shall include (but not be limited to) hiking, camping, hunting, fishing, skiing, backpacking, rock climbing, and swimming.

(b) Management plan

The Secretary shall, no later than 5 years after October 12, 1993, develop a management plan for the recreation area, as an amendment to the Santa Fe National Forest Land and Resource Management Plan, to reflect the establishment of the recreation area and to conform to the provisions of this subchapter. Nothing in this subchapter shall require the Secretary to revise the Santa Fe Forest Land and Resource Management Plan pursuant to section 1604 of this title. During development of the management plan for the recreation area, the Secretary shall study newly designated land within the recreation area, and adjacent national forest land.

(c) Cultural resources

In administering the recreation area, the Secretary shall give particular emphasis to the preservation, stabilization, and protection of cultural resources located within the recreation area in furtherance of the Archaeological Resources Protection Act of 1979 [16 U.S.C. 470aa et seq.], the National Historic Preservation Act [16 U.S.C. 470 et seq.], and the Act of August 11, 1978 [42 U.S.C. 1996, 1996a] (commonly referred to as the “American Indian Religious Freedom Act”).

(d) Native Americans

(1) In recognition of the historic use of portions of the recreation area by Indian peoples for traditional cultural and customary uses, the Secretary shall, subject to the provisions of subsection (n) of this section in consultation with local tribal leaders, ensure the protection of religious and cultural sites and provide access from time to time to those sites by Indian peoples for traditional cultural and customary uses. Such access shall be consistent with the purpose and intent of the Act of August 11, 1978 [42 U.S.C. 1996, 1996a] (commonly referred to as the “American Indian Religious Freedom Act”). The Secretary, in accordance with such Act, upon request of an Indian tribe or pueblo, may from time to time temporarily close to general public use one or more specific portions of the recreational area in order to protect traditional and customary uses in such portions by Indian peoples.

(2) In preparing and implementing management plans for the recreation area, the Secretary shall request that the Governor of the Pueblo of Jemez and the chief executive officers of other appropriate Indian tribes and pueblos make recommendations on methods of—

- (A) assuring access to religious and cultural sites;
- (B) enhancing the privacy and continuity of traditional cultural and religious activities in the recreation area; and
- (C) protecting traditional cultural and religious sites in the recreation area.

(e) Wildlife resources

In administering the recreation area, the Secretary shall give particular emphasis to the conservation and protection of wildlife resources, including species listed as sensitive by the Forest Service, within the recreation area and shall comply with applicable Federal and State laws relating to wildlife, including the Endangered Species Act of 1973 [16 U.S.C. 1531 et seq.].

The Secretary shall permit hunting and fishing on lands and waters under the jurisdiction of the Secretary within the recreation area in accordance with applicable Federal and State law.

(g) Timber harvesting

The Secretary may permit timber harvesting in the recreation area for commercial purposes, including (but not limited to) vigas, latillas, the gathering of fuelwood, and for purposes of public safety, recreation, wildlife, and administration, insofar as the harvesting is compatible with the purposes of the recreation area. Trees damaged or downed due to fire, disease, or insect infestation may be utilized, salvaged, or removed from the recreation area as authorized by the Secretary in furtherance of the purposes of this subchapter. Nothing in this subchapter shall be construed to affect the timber sales under contract on October 12, 1993. Nothing in this subchapter shall be construed to effect the Los Griegos timber sale in the Los Griegos Diversity Unit number 0322 as shown on the West Half Diversity Unit map of the Santa Fe National Forest dated November 1991; except that the Secretary shall manage such sale using uneven aged management including the individual tree selection method.

(h) Grazing

The Secretary may permit grazing within the recreation area in accordance with regulations prescribed by the Secretary. Riparian areas shall be managed in such a manner as to protect their important resource values.

(i) Transportation plan

(1) Within 1 year after October 12, 1993, the Secretary shall prepare a transportation plan that provides for the most efficient use of roads and trails to accomplish the purposes of this subchapter. The plan shall provide for a comprehensive trails system that provides for dispersed recreation while minimizing impact on significant archaeological and religious sites.

(2) The Secretary shall construct, maintain, and close roads within the recreation area after consultation with local tribal leaders and only in accordance with such plan.

The Secretary shall establish a visitor center and interpretive facilities in or near the recreation area for the purpose of providing for education relating to the interpretation of cultural and natural resources of the recreation area.

(l) Power transmission lines

In accordance with Federal and State laws and regulations, the Secretary may permit a utility corridor for high power electric transmission lines within the recreation area only when the Secretary determines that—

- (1) there is not a feasible alternative for the location of such corridor;
- (2) damage to the recreational and scenic quality and to the archaeological and religious sites of the recreation area will not be significant;
- (3) it is in the public interest that such corridor be located in the recreation area; and
- (4) a plan to minimize harm to the resources of the recreation area has been developed.

(m) Scientific investigations

The Secretary may permit scientific investigations within the recreation area upon the Secretary's determination that such investigations are in the public interest and are compatible with the purposes of this subchapter.

(n) Resource protection

The Secretary may designate zones where, and establish periods when, any activity otherwise permitted in the recreation area will not be permitted for reasons of public safety, administration, fish and wildlife management, protection of archaeological or cultural resources, or public use and enjoyment. Except in emergencies such designations by the Secretary shall be put into effect only after consultation with the appropriate State agencies, appropriate tribal leaders, and other affected parties.

(l) Water rights

(1) Findings

Congress finds that—

(A) the lands designated as wilderness by this subchapter are located at the headwaters of the streams and rivers on those lands, with few, if any, actual or proposed water resource facilities located upstream from such lands and few, if any, opportunities for diversion, storage, or other uses of water occurring outside such lands that would adversely affect the wilderness or other values of such lands;

(B) the lands designated as wilderness by this subchapter generally are not suitable for use for development of new water resource facilities, or for the expansion of existing facilities;

(C) it is possible to provide for proper management and protection of the wilderness and other values of such lands in ways different from those utilized in other legislation designating as wilderness lands not sharing the attributes of the lands designated as wilderness by this subchapter.

(2) Statutory construction

(A) Nothing in this subchapter shall constitute or be construed to constitute either an express or implied reservation of any water or water rights with respect to the lands designated as a national conservation area or as wilderness by this subchapter.

(B) Nothing in this subchapter shall affect any conditional or absolute water rights in the State of Colorado existing on October 24, 2000.

(C) Nothing in this subsection shall be construed as establishing a precedent with regard to any future national conservation area or wilderness designations.

(D) Nothing in this subchapter shall be construed as limiting, altering, modifying, or amending any of the interstate compacts or equitable apportionment decrees that apportion water among and between the State of Colorado and other States.

(3) Colorado water law

The Secretary shall follow the procedural and substantive requirements of the law of the State of Colorado in order to obtain and hold any new water rights with respect to the Conservation Area and the Wilderness.

(4) New projects

(A) As used in this paragraph, the term “water resource facility” means irrigation and pumping facilities, reservoirs, water conservation works, aqueducts, canals, ditches, pipelines, wells, hydropower projects, and transmission and other ancillary facilities, and other water diversion,

storage, and carriage structures. Such term does not include any such facilities related to or used for the purpose of livestock grazing.

(B) Except as otherwise provided by subsection (g) of this section or other provisions of this subchapter, on and after October 24, 2000, neither the President nor any other officer, employee, or agent of the United States shall fund, assist, authorize, or issue a license or permit for the development of any new water resource facility within the wilderness area designated by this subchapter.

(C) Except as provided in this paragraph, nothing in this subchapter shall be construed to affect or limit the use, operation, maintenance, repair, modification, or replacement of water resource facilities in existence on October 24, 2000, within the boundaries of the Wilderness.

(5) Boundaries along Colorado River

(A) Neither the Conservation Area nor the Wilderness shall include any part of the Colorado River to the 100-year high water mark.

(B) Nothing in this subchapter shall affect the authority that the Secretary may or may not have to manage recreational uses on the Colorado River, except as such authority may be affected by compliance with paragraph (3). Nothing in this subchapter shall be construed to affect the authority of the Secretary to manage the public lands between the boundary of the Conservation Area and the edge of the Colorado River.

(C) Subject to valid existing rights, all lands owned by the Federal Government between the 100-year high water mark on each shore of the Colorado River, as designated on the Map from the line labeled “Line A” on the east to the boundary between the States of Colorado and Utah on the west, are hereby withdrawn from—

- (i) all forms of entry, appropriation, or disposal under the public land laws;
- (ii) location, entry, and patent under the mining laws; and
- (iii) the operation of the mineral leasing, mineral materials, and geothermal leasing laws.

SUBCHAPTER CXXVII—BLACK ROCK DESERT-HIGH ROCK CANYON EMIGRANT TRAILS NATIONAL CONSERVATION AREA

§460ppp. Findings

The Congress finds the following:

(1) The areas of northwestern Nevada known as the Black Rock Desert and High Rock Canyon contain and surround the last nationally significant, untouched segments of the historic California emigrant Trails,¹ including wagon ruts, historic inscriptions, and a wilderness landscape largely unchanged since the days of the pioneers.

(2) The relative absence of development in the Black Rock Desert and high² Rock Canyon areas from emigrant times to the present day offers a unique opportunity to capture the terrain, sights, and conditions of the overland trails as they were experienced by the emigrants and to make available to both present and future generations of Americans the opportunity of experiencing emigrant conditions in an unaltered setting.

(3) The Black Rock Desert and High Rock Canyon areas are unique segments of the Northern Great Basin and contain broad representation of the Great Basin's land forms and plant and animal species, including golden eagles and other birds of prey, sage grouse, mule deer, pronghorn antelope, bighorn sheep, free roaming horses and burros, threatened fish and sensitive plants.

(4) The Black Rock-High Rock region contains a number of cultural and natural resources that have been declared eligible for National Historic Landmark and Natural Landmark status, including a portion of the 1843–44 John Charles Fremont exploration route, the site of the death of Peter Lassen, early military facilities, and examples of early homesteading and mining.

(5) The archeological, paleontological, and geographical resources of the Black Rock-High Rock region include numerous prehistoric and historic Native American sites, woolly mammoth sites, some of the largest natural potholes of North America, and a remnant dry Pleistocene lakebed (playa) where the curvature of the Earth may be observed.

(6) The two large wilderness mosaics that frame the conservation area offer exceptional opportunities for solitude and serve to protect the integrity of the viewshed of the historic emigrant trails.

(7) Public lands in the conservation area have been used for domestic livestock grazing for over a century, with resultant benefits to community stability and contributions to the local and State economies. It has not been demonstrated that continuation of this use would be incompatible with appropriate protection and sound management of the resource values of these lands; therefore, it is expected that such grazing will continue in accordance with the management plan for the conservation area and other applicable laws and regulations.

(8) The Black Rock Desert playa is a unique natural resource that serves as the primary destination for the majority of visitors to the conservation area, including visitors associated with large-scale permitted events. It is expected that such permitted events will continue to be administered in accordance with the management plan for the conservation area and other applicable laws and regulations.

(Pub. L. 111–11, title VII, §7301, Mar. 30, 2009, 123 Stat. 1213.)

§469l. Findings and purposes

(a) Findings

The Congress finds the following:

(1) The Underground Railroad, which flourished from the end of the 18th century to the end of the Civil War, was one of the most significant expressions of the American civil rights movement during its evolution over more than three centuries.

(2) The Underground Railroad bridged the divides of race, religion, sectional differences, and nationality; spanned State lines and international borders; and joined the American ideals of liberty and freedom expressed in the Declaration of Independence and the Constitution to the extraordinary actions of ordinary men and women working in common purpose to free a people.

(3) Pursuant to title VI of Public Law 101–628 (16 U.S.C. 1a–5 note; 104 Stat. 4495), the Underground Railroad Advisory Committee conducted a study of the appropriate means of establishing an enduring national commemorative Underground Railroad program of education, example, reflection, and reconciliation.

(4) The Underground Railroad Advisory Committee found that—

(A) although a few elements of the Underground Railroad story are represented in existing National Park Service units and other sites, many sites are in imminent danger of being lost or destroyed, and many important resource types are not adequately represented and protected;

(B) there are many important sites which have high potential for preservation and visitor use in 29 States, the District of Columbia, and the Virgin Islands;

(C) no single site or route completely reflects and characterizes the Underground Railroad, since its story and associated resources involve networks and regions of the country rather than individual sites and trails; and

(D) establishment of a variety of partnerships between the Federal Government and other levels of government and the private sector would be most appropriate for the protection and interpretation of the Underground Railroad.

(5) The National Park Service can play a vital role in facilitating the national commemoration of the Underground Railroad.

(6) The story and significance of the Underground Railroad can best engage the American people through a national program of the National Park Service that links historic buildings, structures, and sites; routes, geographic areas, and corridors; interpretive centers, museums, and institutions; and programs, activities, community projects, exhibits, and multimedia materials, in a manner that is both unified and flexible.

(b) Purposes

The purposes of sections 469l to 469l–2 of this title are the following:

(1) To recognize the importance of the Underground Railroad, the sacrifices made by those who used the Underground Railroad in search of freedom from tyranny and oppression, and the sacrifices made by the people who helped them.

(2) To authorize the National Park Service to coordinate and facilitate Federal and non-Federal activities to commemorate, honor, and interpret the history of the Underground Railroad, its significance as a crucial element in the evolution of the national civil rights movement, and its relevance in fostering the spirit of racial harmony and national reconciliation.

(Pub. L. 105–203, §2, July 21, 1998, 112 Stat. 678.)

- (3) Other governmental and nongovernmental facilities and programs of an educational, research, or interpretive nature that are directly related to the Underground Railroad.

(c) Cooperative agreements and memoranda of understanding

To achieve the purposes of sections 469l to 469l–3 of this title and to ensure effective coordination of the Federal and non-Federal elements of the national network referred to in subsection (b) of this section with National Park Service units and programs, the Secretary may enter into cooperative agreements and memoranda of understanding with, and provide technical assistance to—

(c) Matching requirement

The Secretary may obligate funds made available for a grant under this section only if the grantee agrees to match, from funds derived from non-Federal sources, the amount of the grant with an amount that is equal to or greater than the grant. The Secretary may waive the requirement of the preceding sentence with respect to a grant if the Secretary determines that an extreme emergency exists or that such a waiver is in the public interest to assure the preservation of historically significant resources.

SUBCHAPTER II—NATIONAL HISTORIC PRESERVATION

§470. Short title; Congressional finding and declaration of policy

(a) This subchapter may be cited as the “National Historic Preservation Act”.

(b) The Congress finds and declares that—

(1) the spirit and direction of the Nation are founded upon and reflected in its historic heritage;

(2) the historical and cultural foundations of the Nation should be preserved as a living part of our community life and development in order to give a sense of orientation to the American people;

(3) historic properties significant to the Nation's heritage are being lost or substantially altered, often inadvertently, with increasing frequency;

(4) the preservation of this irreplaceable heritage is in the public interest so that its vital legacy of cultural, educational, aesthetic, inspirational, economic, and energy benefits will be maintained and enriched for future generations of Americans;

(5) in the face of ever-increasing extensions of urban centers, highways, and residential, commercial, and industrial developments, the present governmental and nongovernmental historic preservation programs and activities are inadequate to insure future generations a genuine opportunity to appreciate and enjoy the rich heritage of our Nation;

(6) the increased knowledge of our historic resources, the establishment of better means of identifying and administering them, and the encouragement of their preservation will improve the planning and execution of Federal and federally assisted projects and will assist economic growth and development; and

(7) although the major burdens of historic preservation have been borne and major efforts initiated by private agencies and individuals, and both should continue to play a vital role, it is nevertheless necessary and appropriate for the Federal Government to accelerate its historic preservation programs and activities, to give maximum encouragement to agencies and individuals undertaking preservation by private means, and to assist State and local governments and the National Trust for Historic Preservation in the United States to expand and accelerate their historic preservation programs and activities.

EX. ORD. NO. 11593. PROTECTION AND ENHANCEMENT OF THE CULTURAL ENVIRONMENT

Ex. Ord. No. 11593, May 13, 1971, 36 F.R. 8921, provided:

By virtue of the authority vested in me as President of the United States and in furtherance of the purposes and policies of the National Environmental Policy Act of 1969 (83 Stat. 852, 42 U.S.C. 4321 et seq.), the National Historic Preservation Act of 1966 (80 Stat. 915, 16 U.S.C. 470 et seq.), the Historic Sites Act of 1935 (49 Stat. 666, 16 U.S.C. 461 et seq.), and the Antiquities Act of 1906 (34 Stat. 225, 16 U.S.C. 431 et seq.), it is ordered as follows:

SECTION 1. *Policy.* The Federal Government shall provide leadership in preserving, restoring and maintaining the historic and cultural environment of the Nation. Agencies of the executive branch of the Government (hereinafter referred to as “Federal agencies”) shall (1) administer the cultural properties under their control in a spirit of stewardship and trusteeship for future generations, (2) initiate measures necessary to direct their policies, plans and programs in such a way that federally owned sites, structures, and objects of historical, architectural or archaeological significance are preserved, restored and maintained for the inspiration and benefit of the people, and (3), in consultation with the Advisory Council on Historic Preservation (16 U.S.C. 470i), institute procedures to assure that Federal plans and programs contribute to the preservation and enhancement of non-federally owned sites, structures and objects of historical, architectural or archaeological significance.

SEC. 2. *Responsibilities of Federal agencies.* Consonant with the provisions of the acts cited in the first paragraph of this order, the heads of Federal agencies shall:

(a) no later than July 1, 1973, with the advice of the Secretary of the Interior, and in cooperation with the liaison officer for historic preservation for the State or territory involved, locate, inventory, and nominate to the Secretary of the Interior all sites, buildings, districts, and objects under their jurisdiction or control that appear to qualify for listing on the National Register of Historic Places.

(b) exercise caution during the interim period until inventories and evaluations required by subsection (a) are completed to assure that any federally owned property that might qualify for nomination is not inadvertently transferred, sold, demolished or substantially altered. The agency head shall refer any questionable actions to the Secretary of the Interior for an opinion respecting the property's eligibility for inclusion on the National Register of Historic Places. The Secretary shall consult with the liaison officer for historic preservation for the State or territory involved in arriving at his opinion. Where, after a reasonable period in which to review and evaluate the property, the Secretary determines that the property is likely to meet the criteria prescribed for listing on the National Register of Historic Places, the Federal agency head shall reconsider the proposal in light of national environmental and preservation policy. Where, after such reconsideration, the Federal agency head proposes to transfer, sell, demolish or substantially alter the property

he shall not act with respect to the property until the Advisory Council on Historic Preservation shall have been provided an opportunity to comment on the proposal.

(c) initiate measures to assure that where as a result of Federal action or assistance a property listed on the National Register of Historic Places is to be substantially altered or demolished, timely steps be taken to make or have made records, including measured drawings, photographs and maps, of the property, and that copy of such records then be deposited in the Library of Congress as part of the Historic American Buildings Survey or Historic American Engineering Record for future use and reference. Agencies may call on the Department of the Interior for advice and technical assistance in the completion of the above records.

(d) initiate measures and procedures to provide for the maintenance, through preservation, rehabilitation, or restoration, of federally owned and registered sites at professional standards prescribed by the Secretary of the Interior.

(e) submit procedures required pursuant to subsection (d) to the Secretary of the Interior and to the Advisory Council on Historic Preservation no later than January 1, 1972, and annually thereafter, for review and comment.

(f) cooperate with purchasers and transferees of a property listed on the National Register of Historic Places in the development of viable plans to use such property in a manner compatible with preservation objectives and which does not result in an unreasonable economic burden to public or private interests.

SEC. 3. *Responsibilities of the Secretary of the Interior.* The Secretary of the Interior shall:

(a) encourage State and local historic preservation officials to evaluate and survey federally owned historic properties and, where appropriate, to nominate such properties for listing on the National Register of Historic Places.

(b) develop criteria and procedures to be applied by Federal agencies in the reviews and nominations required by section 2(a). Such criteria and procedures shall be developed in consultation with the affected agencies.

(c) expedite action upon nominations to the National Register of Historic Places concerning federally owned properties proposed for sale, transfer, demolition or substantial alteration.

(d) encourage State and Territorial liaison officers for historic preservation to furnish information upon request to Federal agencies regarding their properties which have been evaluated with respect to historic, architectural or archaeological significance and which as a result of such evaluations have not been found suitable for listing on the National Register of Historic Places.

(e) develop and make available to Federal agencies and State and local governments information concerning professional methods and techniques for preserving, improving, restoring and maintaining historic properties.

(f) advise Federal agencies in the evaluation, identification, preservation, improvement, restoration and maintenance of historic properties.

(g) review and evaluate the plans of transferees of surplus Federal properties transferred for historic monument purposes to assure that the historic character of such properties is preserved in rehabilitation, restoration, improvement, maintenance and repair of such properties.

(h) review and comment upon Federal agency procedures submitted pursuant to section 2(e) of this order.

RICHARD NIXON.

PART A—PROGRAMS

§470a. Historic preservation program

(a) National Register of Historic Places; designation of properties as historic landmarks; properties deemed included; criteria; nomination of properties by States, local governments or individuals; regulations; review of threats to properties

(1)(A) The Secretary of the Interior is authorized to expand and maintain a National Register of Historic Places composed of districts, sites, buildings, structures, and objects significant in American history, architecture, archeology, engineering, and culture. Notwithstanding section 1125(c) of title 15, buildings and structures on or eligible for inclusion on the National Register of Historic Places (either individually or as part of a historic district), or designated as an individual landmark or as a contributing building in a historic district by a unit of State or local government, may retain the name historically associated with the building or structure.

(B) Properties meeting the criteria for National Historic Landmarks established pursuant to paragraph (2) shall be designated as “National Historic Landmarks” and included on the National Register, subject to the requirements of paragraph (6). All historic properties included on the National Register on December 12, 1980, shall be deemed to be included on the National Register as of their initial listing for purposes of this subchapter. All historic properties listed in the Federal Register of February 6, 1979, as “National Historic Landmarks” or thereafter prior to the effective date of this Act are declared by Congress to be National Historic Landmarks of national historic significance as of their initial listing as such in the Federal Register for purposes of this subchapter and sections 461 to 467 of this title; except that in cases of National Historic Landmark districts for which no boundaries have been established, boundaries must first be published in the Federal Register.

(2) The Secretary in consultation with national historical and archaeological associations, shall establish or revise criteria for properties to be included on the National Register and criteria for National Historic Landmarks, and shall also promulgate or revise regulations as may be necessary for—

(A) nominating properties for inclusion in, and removal from, the National Register and the recommendation of properties by certified local governments;

(B) designating properties as National Historic Landmarks and removing such designation;

(C) considering appeals from such recommendations, nominations, removals, and designations (or any failure or refusal by a nominating authority to nominate or designate);

(D) nominating historic properties for inclusion in the World Heritage List in accordance with the terms of the Convention concerning the Protection of the World Cultural and Natural Heritage;

(E) making determinations of eligibility of properties for inclusion on the National Register; and

(F) notifying the owner of a property, any appropriate local governments, and the general public, when the property is being considered for inclusion on the National Register, for designation as a National Historic Landmark or for nomination to the World Heritage List.

(3) Subject to the requirements of paragraph (6), any State which is carrying out a program approved under subsection (b) of this section, shall nominate to the Secretary properties which meet the criteria promulgated under subsection (a) of this section for inclusion on the National Register. Subject to paragraph (6), any property nominated under this paragraph or under section 470h–2(a)(2) of this title shall be included on the National Register on the date forty-five days after receipt by the Secretary of the nomination and the necessary documentation, unless the Secretary disapproves such nomination within such forty-five day period or unless an appeal is filed under paragraph (5).

(4) Subject to the requirements of paragraph (6) the Secretary may accept a nomination directly from any person or local government for inclusion of a property on the National Register only if such property is located in a State where there is no program approved under subsection (b) of this section. The Secretary may include on the National Register any property for which such a nomination is made if he determines that such property is eligible in accordance with the regulations promulgated under paragraph (2). Such determination shall be made within ninety days from the date of the nomination unless the nomination is appealed under paragraph (5).

(5) Any person or local government may appeal to the Secretary a nomination of any historic property for inclusion on the National Register and may appeal to the Secretary the failure or refusal of a nominating authority to nominate a property in accordance with this subsection.

(6) The Secretary shall promulgate regulations requiring that before any property or district may be included on the National Register or designated as a National Historic Landmark, the owner or owners of such property, or a majority of the owners of the properties within the district in the case of an historic district, shall be given the opportunity (including a reasonable period of time) to concur in, or object to, the nomination of the property or district for such inclusion or designation. If the owner or owners of any privately owned property, or a majority of the owners of such properties within the district in the case of an historic district, object to such inclusion or designation, such property shall not be included on the National Register or designated as a National Historic Landmark until such objection is withdrawn. The Secretary shall review the nomination of the property or district where any such objection has been made and shall determine whether or not the property or district is eligible for such inclusion or designation, and if the Secretary determines that such property or district is eligible for such inclusion or designation, he shall inform the Advisory Council on Historic Preservation, the appropriate State Historic Preservation Officer, the appropriate chief elected local official and the owner or owners of such property, of his determination. The regulations under this paragraph shall include provisions to carry out the purposes of this paragraph in the case of multiple ownership of a single property.

(7) The Secretary shall promulgate, or revise, regulations—

(A) ensuring that significant prehistoric and historic artifacts, and associated records, subject to section 470h–2 of this title, the Act of June 27, 1960 (16 U.S.C. 469c) [16 U.S.C. 469 et seq.], and the Archaeological Resources Protection Act of 1979 (16 U.S.C. 470aa and following) are deposited in an institution with adequate long-term curatorial capabilities;

(B) establishing a uniform process and standards for documenting historic properties by public agencies and private parties for purposes of incorporation into, or complementing, the national historical architectural and engineering records within the Library of Congress; and

(C) certifying local governments, in accordance with subsection (c)(1) of this section and for the allocation of funds pursuant to section 470c(c) of this title.

(8) The Secretary shall, at least once every 4 years, in consultation with the Council and with State Historic Preservation Officers, review significant threats to properties included in, or eligible for

inclusion on, the National Register, in order to—

- (A) determine the kinds of properties that may be threatened;
- (B) ascertain the causes of the threats; and
- (C) develop and submit to the President and Congress recommendations for appropriate action.

(b) Regulations for State Historic Preservation Programs; periodic evaluations and fiscal audits of State programs; administration of State programs; contracts and cooperative agreements with nonprofit or educational institutions and State Historic Preservation Officers; treatment of State programs as approved programs

(1) The Secretary, in consultation with the National Conference of State Historic Preservation Officers and the National Trust for Historic Preservation, shall promulgate or revise regulations for State Historic Preservation Programs. Such regulations shall provide that a State program submitted to the Secretary under this section shall be approved by the Secretary if he determines that the program—

(A) provides for the designation and appointment by the Governor of a “State Historic Preservation Officer” to administer such program in accordance with paragraph (3) and for the employment or appointment by such officer of such professionally qualified staff as may be necessary for such purposes;

(B) provides for an adequate and qualified State historic preservation review board designated by the State Historic Preservation Officer unless otherwise provided for by State law; and

(C) provides for adequate public participation in the State Historic Preservation Program, including the process of recommending properties for nomination to the National Register.

(2)(A) Periodically, but not less than every 4 years after the approval of any State program under this subsection, the Secretary, in consultation with the Council on the appropriate provisions of this subchapter, and in cooperation with the State Historic Preservation Officer, shall evaluate the program to determine whether it is consistent with this subchapter.

(B) If, at any time, the Secretary determines that a major aspect of a State program is not consistent with this subchapter, the Secretary shall disapprove the program and suspend in whole or in part any contracts or cooperative agreements with the State and the State Historic Preservation Officer under this subchapter, until the program is consistent with this subchapter, unless the Secretary determines that the program will be made consistent with this subchapter within a reasonable period of time.

(C) The Secretary, in consultation with State Historic Preservation Officers, shall establish oversight methods to ensure State program consistency and quality without imposing undue review burdens on State Historic Preservation Officers.

(D) At the discretion of the Secretary, a State system of fiscal audit and management may be substituted for comparable Federal systems so long as the State system—

- (i) establishes and maintains substantially similar accountability standards; and
- (ii) provides for independent professional peer review.

The Secretary may also conduct periodic fiscal audits of State programs approved under this section as needed and shall ensure that such programs meet applicable accountability standards.

(3) It shall be the responsibility of the State Historic Preservation Officer to administer the State Historic Preservation Program and to—

(A) in cooperation with Federal and State agencies, local governments, and private organizations and individuals, direct and conduct a comprehensive statewide survey of historic properties and maintain inventories of such properties;

(B) identify and nominate eligible properties to the National Register and otherwise administer applications for listing historic properties on the National Register;

(C) prepare and implement a comprehensive statewide historic preservation plan;

(D) administer the State program of Federal assistance for historic preservation within the State;

(E) advise and assist, as appropriate, Federal and State agencies and local governments in carrying out their historic preservation responsibilities;

(F) cooperate with the Secretary, the Advisory Council on Historic Preservation, and other Federal and State agencies, local governments, and organizations and individuals to ensure that historic properties are taken into consideration at all levels of planning and development;

(G) provide public information, education, and training and technical assistance in historic preservation;

(H) cooperate with local governments in the development of local historic preservation programs and assist local governments in becoming certified pursuant to subsection (c) of this section;

(I) consult with appropriate Federal agencies in accordance with this subchapter on—

(i) Federal undertakings that may affect historic properties; and

(ii) the content and sufficiency of any plans developed to protect, manage, or reduce or mitigate harm to such properties; and

(J) advise and assist in the evaluation of proposals for rehabilitation projects that may qualify for Federal assistance.

(4) Any State may carry out all or any part of its responsibilities under this subsection by contract or cooperative agreement with any qualified nonprofit organization or educational institution.

(5) Any State historic preservation program in effect under prior authority of law may be treated as an approved program for purposes of this subsection until the earlier of—

(A) the date on which the Secretary approves a program submitted by the State under this subsection, or

(B) three years after October 30, 1992.

(6)(A) Subject to subparagraphs (C) and (D), the Secretary may enter into contracts or cooperative agreements with a State Historic Preservation Officer for any State authorizing such Officer to assist the Secretary in carrying out one or more of the following responsibilities within that State—

(i) Identification and preservation of historic properties.

(ii) Determination of the eligibility of properties for listing on the National Register.

(iii) Preparation of nominations for inclusion on the National Register.

(iv) Maintenance of historical and archaeological data bases.

(v) Evaluation of eligibility for Federal preservation incentives.

Nothing in this paragraph shall be construed to provide that any State Historic Preservation Officer or any other person other than the Secretary shall have the authority to maintain the National Register for properties in any State.

(B) The Secretary may enter into a contract or cooperative agreement under subparagraph (A) only if—

(i) the State Historic Preservation Officer has requested the additional responsibility;

(ii) the Secretary has approved the State historic preservation program pursuant to subsection (b)(1) and (2) of this section;

(iii) the State Historic Preservation Officer agrees to carry out the additional responsibility in a timely and efficient manner acceptable to the Secretary and the Secretary determines that such Officer is fully capable of carrying out such responsibility in such manner;

(iv) the State Historic Preservation Officer agrees to permit the Secretary to review and revise, as appropriate in the discretion of the Secretary, decisions made by the Officer pursuant to such contract or cooperative agreement; and

(v) the Secretary and the State Historic Preservation Officer agree on the terms of additional financial assistance to the State, if there is to be any, for the costs of carrying out such responsibility.

(C) For each significant program area under the Secretary's authority, the Secretary shall establish specific conditions and criteria essential for the assumption by State Historic Preservation Officers of

the Secretary's duties in each such program.

(D) Nothing in this subsection shall have the effect of diminishing the preservation programs and activities of the National Park Service.

(c) Certification of local governments by State Historic Preservation Officer; transfer of portion of grants; certification by Secretary; nomination of properties by local governments for inclusion on National Register

(1) Any State program approved under this section shall provide a mechanism for the certification by the State Historic Preservation Officer of local governments to carry out the purposes of this subchapter and provide for the transfer, in accordance with section 470c(c) of this title, of a portion of the grants received by the States under this subchapter, to such local governments. Any local government shall be certified to participate under the provisions of this section if the applicable State Historic Preservation Officer, and the Secretary, certifies that the local government—

(A) enforces appropriate State or local legislation for the designation and protection of historic properties;

(B) has established an adequate and qualified historic preservation review commission by State or local legislation;

(C) maintains a system for the survey and inventory of historic properties that furthers the purposes of subsection (b) of this section;

(D) provides for adequate public participation in the local historic preservation program, including the process of recommending properties for nomination to the National Register; and

(E) satisfactorily performs the responsibilities delegated to it under this subchapter.

Where there is no approved State program, a local government may be certified by the Secretary if he determines that such local government meets the requirements of subparagraphs (A) through (E); and in any such case the Secretary may make grants-in-aid to the local government for purposes of this section.

(2)(A) Before a property within the jurisdiction of the certified local government may be considered by the State to be nominated to the Secretary for inclusion on the National Register, the State Historic Preservation Officer shall notify the owner, the applicable chief local elected official, and the local historic preservation commission. The commission, after reasonable opportunity for public comment, shall prepare a report as to whether or not such property, in its opinion, meets the criteria of the National Register. Within sixty days of notice from the State Historic Preservation Officer, the chief local elected official shall transmit the report of the commission and his recommendation to the State Historic Preservation Officer. Except as provided in subparagraph (B), after receipt of such report and recommendation, or if no such report and recommendation are received within sixty days, the State shall make the nomination pursuant to subsection (a) of this section. The State may expedite such process with the concurrence of the certified local government.

(B) If both the commission and the chief local elected official recommend that a property not be nominated to the National Register, the State Historic Preservation Officer shall take no further action, unless within thirty days of the receipt of such recommendation by the State Historic Preservation Officer an appeal is filed with the State. If such an appeal is filed, the State shall follow the procedures for making a nomination pursuant to subsection (a) of this section. EX. ORD. NO. 13287. PRESERVE AMERICA

Ex. Ord. No. 13287, Mar. 3, 2003, 68 F.R. 10635, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the National Historic Preservation Act (16 U.S.C. 470 *et seq.*) (NHPA) and the National Environmental Policy Act [of 1969] (42 U.S.C. 4321 *et seq.*), it is hereby ordered:

SECTION 1. *Statement of Policy.* It is the policy of the Federal Government to provide leadership in preserving America's heritage by actively advancing the protection, enhancement, and contemporary use of the historic properties owned by the Federal Government, and by promoting intergovernmental cooperation and partnerships for the preservation and use of historic properties. The Federal Government shall recognize and manage the historic properties in its ownership as assets that can support department and agency missions while contributing to the vitality and economic well-being of the Nation's communities and fostering a broader appreciation for the development of the United States and its underlying values. Where consistent with executive branch department and agency missions, governing law, applicable preservation standards, and where appropriate, executive branch departments and agencies (“agency” or “agencies”) shall advance this policy through the protection and continued use of the historic properties owned by the Federal Government, and by pursuing partnerships with State and local governments, Indian tribes, and the private sector to promote the preservation of the unique cultural heritage of communities and of the Nation and to realize the economic benefit that these properties can provide. Agencies shall maximize efforts to integrate the policies, procedures, and practices of the NHPA and this order into their program activities in order to efficiently and effectively advance historic preservation objectives in the pursuit of their missions.

SEC. 2. *Building Preservation Partnerships.* When carrying out its mission activities, each agency, where consistent with its mission and governing authorities, and where appropriate, shall seek partnerships with State and local governments, Indian tribes, and the private sector to promote local economic development and vitality through the use of historic properties in a manner that contributes to the long-term preservation and productive use of those properties. Each agency shall examine its policies, procedures, and capabilities to ensure that its actions encourage, support, and foster public-private initiatives and investment in the use, reuse, and rehabilitation of historic properties, to the extent such support is not inconsistent with other provisions of law, the Secretary of the Interior's Standards for Archeology and Historic Preservation, and essential national department and agency mission requirements.

SEC. 3. *Improving Federal Agency Planning and Accountability.* (a) Accurate information on the state of Federally owned historic properties is essential to achieving the goals of this order and to promoting community economic development through local partnerships. Each agency with real property management responsibilities shall prepare an assessment of the current status of its inventory of historic properties required by section 110(a)(2) of the NHPA (16 U.S.C. 470h–2(a)(2)), the general condition and management needs of such properties, and the steps underway or planned to meet those management needs. The assessment shall also include an evaluation of the suitability of the agency's types of historic properties to contribute to community economic development initiatives, including heritage tourism, taking into account agency mission needs, public access considerations, and the long-term preservation of the historic properties. No later than September 30, 2004, each covered agency shall complete a report of the assessment and make it available to the Chairman of the Advisory Council on Historic Preservation (Council) and the Secretary of the Interior (Secretary).

(b) No later than September 30, 2004, each agency with real property management responsibilities shall review its regulations, management policies, and operating procedures for compliance with sections 110 and 111 of the NHPA (16 U.S.C. 470h–2 & 470–3) and make the results of its review available to the Council and the Secretary. If the agency determines that its regulations, management policies, and operating procedures are not in compliance with those authorities, the agency shall make amendments or revisions to bring them into compliance.

(c) Each agency with real property management responsibilities shall, by September 30, 2005, and every third year thereafter, prepare a report on its progress in identifying, protecting, and using historic properties in its ownership and make the report available to the Council and the Secretary. The Council shall incorporate

this data into a report on the state of the Federal Government's historic properties and their contribution to local economic development and submit this report to the President by February 15, 2006, and every third year thereafter.

(d) Agencies may use existing information gathering and reporting systems to fulfill the assessment and reporting requirements of subsections 3(a)–(c) of this order. To assist agencies, the Council, in consultation with the Secretary, shall, by September 30, 2003, prepare advisory guidelines for agencies to use at their discretion.

(e) No later than June 30, 2003, the head of each agency shall designate a senior policy level official to have policy oversight responsibility for the agency's historic preservation program and notify the Council and the Secretary of the designation. This senior official shall be an assistant secretary, deputy assistant secretary, or the equivalent, as appropriate to the agency organization. This official, or a subordinate employee reporting directly to the official, shall serve as the agency's Federal Preservation Officer in accordance with section 110(c) of the NHPA. The senior official shall ensure that the Federal Preservation Officer is qualified consistent with guidelines established by the Secretary for that position and has access to adequate expertise and support to carry out the duties of the position.

SEC. 4. *Improving Federal Stewardship of Historic Properties.* (a) Each agency shall ensure that the management of historic properties in its ownership is conducted in a manner that promotes the long-term preservation and use of those properties as Federal assets and, where consistent with agency missions, governing law, and the nature of the properties, contributes to the local community and its economy.

(b) Where consistent with agency missions and the Secretary of the Interior's Standards for Archeology and Historic Preservation, and where appropriate, agencies shall cooperate with communities to increase opportunities for public benefit from, and access to, Federally owned historic properties.

(c) The Council is directed to use its existing authority to encourage and accept donations of money, equipment, and other resources from public and private parties to assist other agencies in the preservation of historic properties in Federal ownership to fulfill the goals of the NHPA and this order.

(d) The National Park Service, working with the Council and in consultation with other agencies, shall make available existing materials and information for education, training, and awareness of historic property stewardship to ensure that all Federal personnel have access to information and can develop the skills necessary to continue the productive use of Federally owned historic properties while meeting their stewardship responsibilities.

(e) The Council, in consultation with the National Park Service and other agencies, shall encourage and recognize exceptional achievement by such agencies in meeting the goals of the NHPA and this order. By March 31, 2004, the Council shall submit to the President and the heads of agencies recommendations to further stimulate initiative, creativity, and efficiency in the Federal stewardship of historic properties.

SEC. 5. *Promoting Preservation Through Heritage Tourism.*

(a) To the extent permitted by law and within existing resources, the Secretary of Commerce, working with the Council and other agencies, shall assist States, Indian tribes, and local communities in promoting the use of historic properties for heritage tourism and related economic development in a manner that contributes to the long-term preservation and productive use of those properties. Such assistance shall include efforts to strengthen and improve heritage tourism activities throughout the country as they relate to Federally owned historic properties and significant natural assets on Federal lands.

(b) Where consistent with agency missions and governing law, and where appropriate, agencies shall use historic properties in their ownership in conjunction with State, tribal, and local tourism programs to foster viable economic partnerships, including, but not limited to, cooperation and coordination with tourism officials and others with interests in the properties.

SEC. 6. *National and Homeland Security Considerations.*

Nothing in this order shall be construed to require any agency to take any action or disclose any information that would conflict with or compromise national and homeland security goals, policies, programs, or activities.

SEC. 7. *Definitions.* For the purposes of this order, the term “historic property” means any prehistoric or historic district, site, building, structure, and object included on or eligible for inclusion on the National Register of Historic Places in accordance with section 301(5) of the NHPA (16 U.S.C. 470w(5)). The terms “Federally owned” and “in Federal ownership,” and similar terms, as used in this order, do not include properties acquired by agencies as a result of foreclosure or similar actions and that are held for a period of less than 5 years.

SEC. 8. *Judicial Review.* This order is intended only to improve the internal management of the Federal Government and it is not intended to, and does not, create any right or benefit, substantive or procedural,

enforceable at law or equity by a party against the United States, its departments, agencies, instrumentalities or entities, its officers or employees, or any other person.

§470ff. Civil penalties

(a) Assessment by Federal land manager

(1) Any person who violates any prohibition contained in an applicable regulation or permit issued under this chapter may be assessed a civil penalty by the Federal land manager concerned. No penalty may be assessed under this subsection unless such person is given notice and opportunity for a hearing with respect to such violation. Each violation shall be a separate offense. Any such civil penalty may be remitted or mitigated by the Federal land manager concerned.

(2) The amount of such penalty shall be determined under regulations promulgated pursuant to this chapter, taking into account, in addition to other factors—

(A) the archaeological or commercial value of the archaeological resource involved, and

(B) the cost of restoration and repair of the resource and the archaeological site involved.

Such regulations shall provide that, in the case of a second or subsequent violation by any person, the amount of such civil penalty may be double the amount which would have been assessed if such

violation were the first violation by such person. The amount of any penalty assessed under this subsection for any violation shall not exceed an amount equal to double the cost of restoration and repair of resources and archaeological sites damaged and double the fair market value of resources destroyed or not recovered.

(3) No penalty shall be assessed under this section for the removal of arrowheads located on the surface of the ground.

(b) Judicial review of assessed penalties; collection of unpaid assessments

(1) Any person aggrieved by an order assessing a civil penalty under subsection (a) of this section may file a petition for judicial review of such order with the United States District Court for the District of Columbia or for any other district in which such a person resides or transacts business. Such a petition may only be filed within the 30-day period beginning on the date the order making such assessment was issued. The court shall hear such action on the record made before the Federal land manager and shall sustain his action if it is supported by substantial evidence on the record considered as a whole.

(2) If any person fails to pay an assessment of a civil penalty—

(A) after the order making the assessment has become a final order and such person has not filed a petition for judicial review of the order in accordance with paragraph (1), or

(B) after a court in an action brought under paragraph (1) has entered a final judgment upholding the assessment of a civil penalty,

the Federal land managers may request the Attorney General to institute a civil action in a district court of the United States for any district in which such person is found, resides, or transacts business to collect the penalty and such court shall have jurisdiction to hear and decide any such action. In such action, the validity and amount of such penalty shall not be subject to review.

(c) Hearings

Hearings held during proceedings for the assessment of civil penalties authorized by subsection (a) of this section shall be conducted in accordance with section 554 of title 5. The Federal land manager may issue subpoenas for the attendance and testimony of witnesses and the production of relevant papers, books, and documents, and administer oaths. Witnesses summoned shall be paid the same fees and mileage that are paid to witnesses in the courts of the United States. In case of contumacy or refusal to obey a subpoena served upon any person pursuant to this paragraph, the district court of the United States for any district in which such person is found or resides or transacts business, upon application by the United States and after notice to such person, shall have jurisdiction to issue an order requiring such person to appear and give testimony before the Federal land manager or to appear and produce documents before the Federal land manager, or both, and any failure to obey such order of the court may be punished by such court as a contempt thereof.

(Pub. L. 96–95, §7, Oct. 31, 1979, 93 Stat. 725.)

§470gg. Enforcement

(a) Rewards

Upon the certification of the Federal land manager concerned, the Secretary of the Treasury is directed to pay from penalties and fines collected under sections 470ee and 470ff of this title an amount equal to one-half of such penalty or fine, but not to exceed \$500, to any person who furnishes information which leads to the finding of a civil violation, or the conviction of criminal violation, with respect to which such penalty or fine was paid. If several persons provided such information, such amount shall be divided among such persons. No officer or employee of the United States or of any State or local government who furnishes information or renders service in the performance of his official duties shall be eligible for payment under this subsection.

(b) Forfeitures

All archaeological resources with respect to which a violation of subsection (a), (b), or (c) of section 470ee of this title occurred and which are in the possession of any person, and all vehicles and equipment of any person which were used in connection with such violation, may be (in the discretion of the court or administrative law judge, as the case may be) subject to forfeiture to the United States upon—

- (1) such person's conviction of such violation under section 470ee of this title,
- (2) assessment of a civil penalty against such person under section 470ff of this title with respect to such violation, or
- (3) a determination by any court that such archaeological resources, vehicles, or equipment were involved in such violation.

(c) Disposition of penalties collected and items forfeited in cases involving archaeological resources excavated or removed from Indian lands

In cases in which a violation of the prohibition contained in subsection (a), (b), or (c) of section 470ee of this title involve archaeological resources excavated or removed from Indian lands, the Federal land manager or the court, as the case may be, shall provide for the payment to the Indian or Indian tribe involved of all penalties collected pursuant to section 470ff of this title and for the transfer to such Indian or Indian tribe of all items forfeited under this section.

(Pub. L. 96–95, §8, Oct. 31, 1979, 93 Stat. 726.)

§470hh. Confidentiality of information concerning nature and location of archaeological resources

(a) Disclosure of information

- (1) further the purposes of this chapter or the Act of June 27, 1960 (16 U.S.C. 469–469c) [16 U.S.C. 469–469c–1], and
- (2) not create a risk of harm to such resources or to the site at which such resources are located.

(b) Request for disclosure by Governors

Notwithstanding the provisions of subsection (a) of this section, upon the written request of the Governor of any State, which request shall state—

- (1) the specific site or area for which information is sought,
- (2) the purpose for which such information is sought,
- (3) a commitment by the Governor to adequately protect the confidentiality of such information to protect the resource from commercial exploitation,

the Federal land manager concerned shall provide to the Governor information concerning the nature and location of archaeological resources within the State of the requesting Governor.

§471i. Pinelands National Reserve

(a) Congressional findings

The Congress finds that—

(1) the Pinelands area in New Jersey, containing approximately 1,000,000 acres of pine-oak forest, extensive surface and ground water resources of high quality, and a wide diversity of rare plant and animal species, provides significant ecological, natural, cultural, recreational, educational, agricultural, and public health benefits;

(2) there is a national interest in protecting and preserving these benefits for the residents of and visitors to the area;

(3) a primary responsibility for protecting and enhancing these benefits resides with the State of New Jersey and the various local units of government having jurisdiction over the area;

(4) in view of the longstanding Federal practice of assisting the States in creating, protecting, preserving, and enhancing areas of significant regional and urban importance, and in view of the national significance of this resource, the Federal Government has an interest in assisting the State of New Jersey and its local units of government in fulfilling their responsibilities and in avoiding adverse Federally approved or assisted impacts before these responsibilities can be undertaken;

(5) the State of New Jersey and its local units of government have authority to prevent or minimize adverse uses of the land and water resources of the Pinelands area and can, to a great extent, protect the health, safety, and general welfare by the use of such authority; and

(6) there is a demonstrated need to protect, preserve and enhance the land and water resources of the Pinelands area through a new program which combines the capabilities and resources of the local, State and Federal governments and the private sector and provides an alternative to large-scale direct Federal acquisition and management in cases where such acquisition and management is inappropriate.

(b) Purposes

The purposes of this section are—

(1) to protect, preserve and enhance the significant values of the land and water resources of the Pinelands area;

(2) to encourage and assist the State of New Jersey and its units of local government in the development of a comprehensive management plan for the Pinelands area in order to assure orderly public and private development in the area consistent with the findings of this section;

(3) to provide, during the development of this comprehensive plan, Federal financial assistance for the acquisition of lands in the Pinelands area that have critical ecological values which are in immediate danger of being adversely affected or destroyed;

(4) to encourage and assist the State and its units of local government in developing a governmental mechanism to implement this comprehensive plan, and to provide Federal financial assistance for the acquisition of lands consistent with the comprehensive plan;

(5) to encourage adequate coordination of all government programs affecting the land and water resources of the Pinelands area.

(c) Pinelands National Reserve and Federal Project Review Area; establishment; map, availability

There is hereby established the Pinelands National Reserve which shall consist of the approximately 1,000,000-acre area generally depicted on the map entitled “Pinelands National Reserve Boundary Map” numbered NPS/80,011A and dated September 1978. The map shall be on file and available for public inspection in the offices of the Department of the Interior in Washington, and in the offices of the State of New Jersey planning entity established pursuant to subsection (d) of this section, and in locations throughout the Pinelands National Reserve as determined by the planning entity.

Within thirty days after November 10, 1978, the Secretary of the Interior (hereinafter referred to as the “Secretary”) shall request the Governor of the State of New Jersey to establish, within ninety

Of the entire Elk River Property, the United States and the State of California are to retain approximately 1,845 acres and transfer the remaining approximately 7,755 acres of Elk River Property to the Pacific Lumber Company. The property to be acquired and retained by the United States and the State of California is that property that is the subject of the Agreement of September 28, 1996 as generally depicted on maps labeled as sheets 1 through 7 of Township 3 and 4 North, Ranges 1 East and 1 West, of the Humboldt Meridian, California, titled "Dependent Resurvey and Tract Survey", as approved by Lance J. The Secretary of the Interior is authorized to make such typographical and other corrections to this description as are mutually agreed upon by the parties to the Agreement of September 28, 1996. The land retained by the United States and the State of California (approximately 7,470 acres) shall hereafter be the "Headwaters Forest". Any funds appropriated by the Federal Government to acquire lands or interests in lands that enlarge the Headwaters Forest by more than five acres per each acquisition shall be subject to specific authorization enacted subsequent to this Act, except that such funds may be used pursuant to existing authorities to acquire such lands up to five acres per each acquisition or interests in lands that may be necessary for roadways to provide access to the Headwaters Forest.

(b) Effective period of authorization

The authorization in subsection (a) of this section expires March 1, 1999 and shall become effective only—

- (1) when the State of California provides a \$130,000,000 contribution for the transaction;
- (2) when the State of California approves a Sustained Yield Plan covering Pacific Lumber Company timber property;
- (3) when the Pacific Lumber Company dismisses the following legal actions as evidenced by instruments in form and substance satisfactory to each of the parties to such legal actions: Pacific Lumber Co. v. United States, No. 96–257L (Fed. Cls.) and Salmon Creek Corp. v. California Board of Forestry, No. 96–CS–1057 (Cal. Super. Ct.);
- (4) when the incidental take permit under section 10(a) of the Endangered Species Act [16 U.S.C. 1539(a)] (based upon a multispecies Habitat Conservation Plan covering Pacific Lumber Company timber property, including applicable portions of the Elk River Property) is issued by the United States Fish and Wildlife Service and the National Marine Fisheries Service;
- (5) after an appraisal of all lands and interests therein to be acquired by the United States has been undertaken, such appraisal has been reviewed for a period not to exceed 30 days by the Comptroller General of the United States, and such appraisal has been provided to the Committee on Resources of the House of Representatives, the Committee on Energy and Natural Resources of the Senate, and the Committees on Appropriations of the House and Senate;
- (6) after the Secretary of the Interior issues an opinion of value to the Committee on Resources of the House of Representatives, the Committee on Energy and Natural Resources of the Senate, and the Committees on Appropriations of the House and Senate for the land and property to be acquired by the Federal Government. Such opinion of value shall also include the total value of all compensation (including tax benefits) proposed to be provided for the acquisition;
- (7) after an Environmental Impact Statement for the proposed Habitat Conservation Plan has been prepared and completed in accordance with the applicable provisions of the National Environmental Policy Act of 1969 [42 U.S.C. 4321 et seq.]; and
- (8) when adequate provision has been made for public access to the property.

(c) Acquisition

Notwithstanding any other provision of law, the amount paid by the United States to acquire identified lands and interests in lands referred to in subsection (a) of this section may differ from the value contained in the appraisal required by subsection (b)(5) of this section if the Secretary of the Interior certifies, in writing, to Congress that such action is in the best interest of the United States.

(d) Habitat conservation plan

(1) Applicable standards

Within 60 days after November 14, 1997, the Secretary of the Interior and the Secretary of Commerce shall report to the Committee on Energy and Natural Resources of the Senate and the Committee on Resources of the House of Representatives on the scientific and legal standards and criteria for threatened, endangered, and candidate species under the Endangered Species Act [16 U.S.C. 1531 et seq.] and any other species used to develop the habitat conservation plan (hereinafter “HCP”) and the section 10(a) [16 U.S.C. 1539(a)] incidental take permit for the Pacific Lumber Company land.

(2) Report

If the Pacific Lumber Company submits an application for an incidental take permit under section 10(a) of the Endangered Species Act [16 U.S.C. 1539(a)] for the transaction authorized by subsection (a) of this section, and the permit is not issued, then the United States Fish and Wildlife Service and the National Marine Fisheries Service shall set forth the substantive rationale or rationales for why the measures proposed by the applicant for such permit did not meet the issuance criteria for the species at issue. Such report shall be submitted to the Congress within 60 days of the decision not to issue such permit or by May 1, 1999, whichever is earlier.

(3) HCP standards

If a section 10(a) permit for the Pacific Lumber Company HCP is issued, it shall be deemed to be unique to the circumstances associated with the acquisition authorized by this section and shall not establish a higher or lesser standard for any other multispecies HCPs than would otherwise be established under existing law.

§472a. Timber sales on National Forest System lands

(a) Authorization; rules and regulations; appraised value as minimum sale price

For the purpose of achieving the policies set forth in the Multiple-Use Sustained-Yield Act of 1960 (74 Stat. 215; 16 U.S.C. 528–531) and the Forest and Rangeland Renewable Resources Planning Act of 1974 (88 Stat. 476) [16 U.S.C. 1600 et seq.], the Secretary of Agriculture, under such rules and regulations as he may prescribe, may sell, at not less than appraised value, trees, portions of trees, or forest products located on National Forest System lands.

(b) Designation on map; prospectus

All advertised timber sales shall be designated on maps, and a prospectus shall be available to the public and interested potential bidders.

(c) Terms and conditions of contract

The length and other terms of the contract shall be designed to promote orderly harvesting consistent with the principles set out in section 6 of the Forest and Rangeland Renewable Resources Planning Act of 1974, as amended [16 U.S.C. 1604]. Unless there is a finding by the Secretary of Agriculture that better utilization of the various forest resources (consistent with the provisions of the Multiple-Use Sustained-Yield Act of 1960 [16 U.S.C. 528–531]) will result, sales contracts shall be for a period not to exceed ten years: *Provided*, That such period may be adjusted at the discretion of the Secretary to provide additional time due to time delays caused by an act of an agent of the United States or by other circumstances beyond the control of the purchaser. The Secretary shall require the purchaser to file as soon as practicable after execution of a contract for any advertised sale with a term of two years or more, a plan of operation, which shall be subject to concurrence by the Secretary. The Secretary shall not extend any contract period with an original term of two years or more unless he finds (A) that the purchaser has diligently performed in accordance with an approved plan of operation or (B) that the substantial overriding public interest justifies the extension.

(d) Advertisement of sales; exceptions

The Secretary of Agriculture shall advertise all sales unless he determines that extraordinary conditions exist, as defined by regulation, or that the appraised value of the sale is less than \$10,000. If, upon proper offering, no satisfactory bid is received for a sale, or the bidder fails to complete the purchase, the sale may be offered and sold without further advertisement.

(e) Bidding methods; purposes; oral auction procedures; monitoring and enforcement for prevention of collusive practices

(1) In the sale of trees, portions of trees, or forest products from National Forest System lands (hereinafter referred to in this subsection as “national forest materials”), the Secretary of Agriculture shall select the bidding method or methods which—

(A) insure open and fair competition;

(B) insure that the Federal Government receive not less than the appraised value as required by subsection (a) of this section;

(C) consider the economic stability of communities whose economies are dependent on such national forest materials, or achieve such other objectives as the Secretary deems necessary; and

(D) are consistent with the objectives of this Act and other Federal statutes.

The Secretary shall select or alter the bidding method or methods as he determines necessary to achieve the objectives stated in clauses (A), (B), (C), and (D) of this paragraph.

(2) In those instances when the Secretary selects oral auction as the bidding method for the sale of any national forest materials, he shall require that all prospective purchasers submit written sealed qualifying bids. Only prospective purchasers whose written sealed qualifying bids are equal to or in

excess of the appraised value of such national forest materials may participate in the oral bidding process.

(3) The Secretary shall monitor bidding patterns involved in the sale of national forest materials. If the Secretary has a reasonable belief that collusive bidding practices may be occurring, then—

(A) he shall report any such instances of possible collusive bidding or suspected collusive bidding practices to the Attorney General of the United States with any and all supporting data;

(B) he may alter the bidding methods used within the affected area; and

(C) he shall take such other action as he deems necessary to eliminate such practices within the affected area.

(f) Research and demonstration projects

The Secretary of Agriculture, under such rules and regulations as he may prescribe, is authorized to dispose of, by sale or otherwise, trees, portions of trees, or other forest products related to research and demonstration projects.

(g) Designation, marking, and supervision of harvesting; personnel

Designation, marking when necessary, and supervision of harvesting of trees, portions of trees, or forest products shall be conducted by persons employed by the Secretary of Agriculture. Such persons shall have no personal interest in the purchase or harvest of such products and shall not be directly or indirectly in the employment of the purchaser thereof.

(h) Utilization standards, methods of measurement, and harvesting practices; monetary deposits by purchasers of salvage harvests; nature, purposes and availability of designated fund; return of surplus to Treasury

The Secretary of Agriculture shall develop utilization standards, methods of measurement, and harvesting practices for the removal of trees, portions of trees, or forest products to provide for the optimum practical use of the wood material. Such standards, methods, and practices shall reflect consideration of opportunities to promote more effective wood utilization, regional conditions, and species characteristics and shall be compatible with multiple use resource management objectives in the affected area. To accomplish the purpose of this subsection in situations involving salvage of insect-infested, dead, damaged, or down timber, and to remove associated trees for stand improvement, the Secretary is authorized to require the purchasers of such timber to make monetary deposits, as a part of the payment for the timber, to be deposited in a designated fund from which sums are to be used, to cover the cost to the United States for design, engineering, and supervision of the construction of needed roads and the cost for Forest Service sale preparation and supervision of the harvesting of such timber. Deposits of money pursuant to this subsection are to be available until expended to cover the cost to the United States of accomplishing the purposes for which deposited: *Provided*, That such deposits shall not be considered as moneys received from the national forests within the meaning of sections 500 and 501 of this title: *And provided further*, That sums found to be in excess of the cost of accomplishing the purposes for which deposited on any national forest shall be transferred to miscellaneous receipts in the Treasury of the United States.

(i) Purchaser credit for permanent road construction; right of election of small business concerns; estimated cost; date of completion; use of funds for construction; effective date

(1) For sales of timber which include a provision for purchaser credit for construction of permanent roads with an estimated cost in excess of \$20,000, the Secretary of Agriculture shall promulgate regulations requiring that the notice of sale afford timber purchasers qualifying as “small business concerns” under the Small Business Act, as amended [15 U.S.C. 631 et seq.], and the regulations issued thereunder, an estimate of the cost and the right, when submitting a bid, to elect that the Secretary build the proposed road.

(2) If the purchaser makes such an election, the price subsequently paid for the timber shall include all of the estimated cost of the road. In the notice of sale, the Secretary of Agriculture shall set a date when such road shall be completed which shall be applicable to either construction by the purchaser or the Secretary, depending on the election. To accomplish requested work, the Secretary is authorized to use from any receipts from the sale of timber a sum equal to the estimate for timber

purchaser credits, and such additional sums as may be appropriated for the construction of roads, such funds to be available until expended, to construct a road that meets the standards specified in the notice of sale.

(3) The provisions of this subsection shall become effective on October 1, 1976.

§478a. Townsites

When the Secretary of Agriculture determines that a tract of National Forest System land in Alaska or in the eleven contiguous Western States is located adjacent to or contiguous to an established community, and that transfer of such land would serve indigenous community objectives

that outweigh the public objectives and values which would be served by maintaining such tract in Federal ownership, he may, upon application, set aside and designate as a townsite an area of not to exceed six hundred and forty acres of National Forest System land for any one application. After public notice, and satisfactory showing of need therefor by any county, city, or other local governmental subdivision, the Secretary may offer such area for sale to a governmental subdivision at a price not less than the fair market value thereof: *Provided, however,* That the Secretary may condition conveyances of townsites upon the enactment, maintenance, and enforcement of a valid ordinance which assures any land so conveyed will be controlled by the governmental subdivision so that use of the area will not interfere with the protection, management, and development of adjacent or contiguous National Forest System lands.

Amendment by Pub. L. 94–579 not to be construed as terminating any valid lease, permit, patent, etc., existing on Oct. 21, 1976, see note set out under section 1701 of Title 43, Public Lands.

§479. Sites for schools and churches

The settlers residing within the exterior boundaries of national forests, or in the vicinity thereof, may maintain schools and churches within such national forest, and for that purpose may occupy any part of the said national forest, not exceeding two acres for each schoolhouse and one acre for a church.

§479a. Conveyance of National Forest System lands for educational purposes

(a) Authority to convey

Upon written application, the Secretary of Agriculture may convey National Forest System lands to a public school district for use for educational purposes if the Secretary determines that—

(1) the public school district seeking the conveyance will use the conveyed land for a public or publicly funded elementary or secondary school, to provide grounds or facilities related to such a school, or for both purposes;

(2) the conveyance will serve the public interest;

(3) the land to be conveyed is not otherwise needed for the purposes of the National Forest System;

(4) the total acreage to be conveyed does not exceed the amount reasonably necessary for the proposed use;

(5) the land is to be used for an established or proposed project that is described in detail in the

application to the Secretary, and the conveyance would serve public objectives (either locally or at large) that outweigh the objectives and values which would be served by maintaining such land in Federal ownership;

(6) the applicant is financially and otherwise capable of implementing the proposed project;

(7) the land to be conveyed has been identified for disposal in an applicable land and resource management plan under the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1600 et seq.); and

(8) an opportunity for public participation in a disposal under this section has been provided, including at least one public hearing or meeting, to provide for public comments.

(b) Acreage limitation

A conveyance under this section may not exceed 80 acres. However, this limitation shall not be construed to preclude an entity from submitting a subsequent application under this section for an additional land conveyance if the entity can demonstrate to the Secretary a need for additional land.

(c) Costs and mineral rights

(1) A conveyance under this section shall be for a nominal cost. The conveyance may not include the transfer of mineral or water rights.

(2) If necessary, the exact acreage and legal description of the real property conveyed under this section shall be determined by a survey satisfactory to the Secretary and the applicant. The cost of the survey shall be borne by the applicant.

(d) Review of applications

When the Secretary receives an application under this section, the Secretary shall—

(1) before the end of the 14-day period beginning on the date of the receipt of the application, provide notice of that receipt to the applicant; and

(2) before the end of the 120-day period beginning on that date—

(A) make a final determination whether or not to convey land pursuant to the application, and notify the applicant of that determination; or

(B) submit written notice to the applicant containing the reasons why a final determination has not been made.

(e) Reversionary interest

If, at any time after lands are conveyed pursuant to this section, the entity to whom the lands were conveyed attempts to transfer title to or control over the lands to another or the lands are devoted to a use other than the use for which the lands were conveyed, title to the lands shall revert to the United States.

BULL RUN WATERSHED MANAGEMENT UNIT

Pub. L. 95–200, Nov. 23, 1977, 91 Stat. 1425, as amended by Pub. L. 104–208, div. B, title VI, §§601 to 604, Sept. 30, 1996, 110 Stat. 3009–541; Pub. L. 104–333, div. “PREAMBLE

“The Congress finds that an area of land in the State of Oregon known variously as the Bull Run National Forest and the Bull Run Forest Reserve is presently the source of the sole domestic water supply for the city of Portland, Oregon (hereinafter called the ‘city’) and other local governmental units and persons in the Portland metropolitan area, reserved for the city by a Presidential proclamation issued in 1892 and furnishing an extremely valuable resource of pure clear raw potable water, the continued production of which should be the principal management objective in the area hereinafter referred to as ‘the unit’; that the said area is now managed under terms of a Federal court decree issued pursuant to turn of the century law which does not appropriately address present and future needs and opportunities for the protection, management, and utilization of the resources contained therein.

“SECTION 1. ESTABLISHMENT OF SPECIAL RESOURCES MANAGEMENT UNIT; DEFINITION OF SECRETARY

“(a) DEFINITION OF SECRETARY.—In this Act, the term ‘Secretary’ means—

“(1) with respect to land administered by the Secretary of Agriculture, the Secretary of Agriculture; and

“(2) with respect to land administered by the Secretary of the Interior, the Secretary of the Interior.

“(b) ESTABLISHMENT.—

“(1) IN GENERAL.—There is established, subject to valid existing rights, a special resources management unit in the State of Oregon, comprising approximately 98,272 acres, as depicted on a map dated May 2000 and entitled ‘Bull Run Watershed Management Unit’.

“(2) MAP.—The map described in paragraph (1) shall be on file and available for public inspection in the offices of—

“(A) the Regional Forester-Pacific Northwest Region of the Forest Service; and

“(B) the Oregon State Director of the Bureau of Land Management.

“(3) BOUNDARY ADJUSTMENTS.—The Secretary may periodically make such minor adjustments in the boundaries of the unit as are necessary, after consulting with the city and providing for appropriate public notice and hearings.

“MANAGEMENT

“SEC. 2. (a) The unit and the renewable resources therein, shall be administered as a watershed by the Secretary in accordance with the laws, rules, and regulations applicable to land under the administrative jurisdiction of the Forest Service (in the case of land administered by the Secretary of Agriculture) or applicable to land under the administrative jurisdiction of the Bureau of Land Management (in the case of land administered by the Secretary of the Interior) except to the extent that any management plan or practice is found by the Secretary to have a significant adverse effect on compliance with the water quality standards referred to in section 2(c) hereof or on the quantity of the water produced thereon for the use of the city, and other local government units and persons using such water under agreements with the city (and the Secretary shall take into consideration the cumulative effect of individually insignificant degradations), in which case, and notwithstanding any other provision of law, the management plan and all relevant leases, permits, contracts, rights-of-way, or other rights or authorizations issued pursuant thereto shall forthwith be altered by the Secretary to eliminate such adverse effect by application of different techniques or prohibitions of one or more such practices or uses: *Provided, however,* That use of such water for the production of energy and the transmission of such energy through and over the unit are deemed consistent with the purposes of this Act and

the rights-of-way heretofore granted to Bonneville Power Administration by the Forest Service through and over the unit are validated and confirmed and deemed consistent with the purposes of this Act.

“(b) **TIMBER CUTTING.**—

“(1) **IN GENERAL.**—Subject to paragraph (2), the Secretary shall prohibit the cutting of trees on Federal land in the unit, as designated in section 1 and depicted on the map referred to in that section.

“(2) **PERMITTED CUTTING.**—

“(A) **IN GENERAL.**—Subject to subparagraph (B), the Secretary shall prohibit the cutting of trees in the area described in paragraph (1).

“(B) **PERMITTED CUTTING.**—Subject to subparagraph (C), the Secretary may only allow the cutting of trees in the area described in paragraph (1)—

“(i) for the protection or enhancement of water quality in the area described in paragraph (1); or

“(ii) for the protection, enhancement, or maintenance of water quantity available from the area described in paragraph (1); or

“(iii) for the construction, expansion, protection or maintenance of municipal water supply facilities; or

“(iv) for the construction, expansion, protection or maintenance of facilities for the transmission of energy through and over the unit or previously authorized hydroelectric facilities or hydroelectric projects associated with municipal water supply facilities.

“(C) **SALVAGE SALES.**—The Secretary may not authorize a salvage sale in the area described in paragraph (1).

“(c) The policy set forth in subsections (a) and (b) shall be attained through the development, maintenance, and periodic revision of land management plans in accordance with procedures set forth in section 5 [6] of the Forest and Rangeland Renewable Resources Planning Act of 1974 (88 Stat. 477, as amended; 16 U.S.C. 1604) (in the case of land administered by the Secretary of Agriculture) or section 202 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1712) (in the case of land administered by the Secretary of the Interior), through the maintenance of systems for monitoring and evaluating water quality, and through supporting scientific research as the Secretary may deem necessary after consultation and in coordination with the city. In the development and revision of land management plans for the unit, the Secretary, except as otherwise provided in section 2(a) hereof, shall provide for public participation and shall consult and coordinate with appropriate officials and advisors of the city, and shall consider such data and research as the city may collect through its own monitoring systems and scientific efforts, if any. Such plans shall be prepared by an interdisciplinary team; be embodied in appropriate written material, including maps and other descriptive documents; shall contain water quality standards developed by the Secretary after consultation and in cooperation with the city, which standards shall be substantially based on and shall reflect a quality of water not significantly less than the quality reflected by percentile curves developed from data collected from 1967 through 1975 and, if none, from data collected in the first three years of record thereafter; and be available to the public at convenient locations. The initial plan or plans shall be completed as soon as practicable after the enactment of this Act [Nov. 23, 1977], but not later than September 30, 1979. Current data shall be compared to historical data at least annually for the purpose of determining compliance with the standards and the significance of any deviation therefrom. Deviations occurring from operation, maintenance, alteration, or construction of water storage, or electrical generation and transmission facilities, seasonal fluctuations, variations in climate, and other natural phenomena, fire, or acts of God, shall not be considered in determining the historical or current percentile curves.

“(d) The Secretary or his representative shall, upon request, and at least annually, meet with appropriate officials of the city for the purpose of reviewing planned management programs and the impact thereof on the quality and quantity of the water produced on the unit and assuring that their respective management and operational activities within the unit are appropriately coordinated. The Secretary shall negotiate in good faith cooperative agreements with appropriate officials of the city to effectuate activity coordination.

“(e) In the event there is disagreement between the city and the Secretary with respect to the development or revision of the water quality standards provided for herein, or with respect to the effect or the significance of such effect of one or more proposed or existing programs, practices, uses, regulations, or boundary adjustments (except as otherwise specifically provided for herein), on the quantity of the water produced on said unit, or on compliance with the water quality standards referred to in section 2(a) and (b) [now (c)] hereof and, therefore, with respect to the necessity for an alteration or prohibition of any such program, practice, use, regulation, or boundary adjustment as required in section 2(a) hereof, an arbitration board for resolving such disagreements shall be established. The Secretary and the city shall, each, forthwith appoint one member to such board and those two members shall select a third. In the event agreement cannot be reached on the third

member within seven days after the appointment of the first two, the third member shall be appointed by the presiding judge of the United States District Court for the District of Oregon within seven days after being notified of such disagreement by either of the first two members. All of said members shall be qualified to make a scientific determination of the facts. The contentions of the city and the Secretary shall be submitted to the board in the form of written contentions of fact together with the evidence and analysis that tends to support the position being presented. The board shall forthwith consider and decide, on a scientific basis, the issues in disagreement by majority vote, taking into consideration the evidence and data presented by the parties and such other tests and data which the board by majority vote may require. The decision of such board shall be in the form of written findings of fact and conclusions based thereon and shall be final and binding on the parties. The Secretary and the city shall compensate their designees and share equally the compensation of the third member, and shall provide such technical and administrative support as required.

“(f) The Secretary is authorized, after consultation with the city, to promulgate regulations for controlling entry into the unit by all persons including but not limited to—

“(1) employees or contractors of the city engaged in the inspection, maintenance, construction, or improvement of the city's facilities;

“(2)(i) Federal, State, and local government officers and (ii) employees thereof acting in an official capacity;

“(3) Federal, State, and local government permittees and contractors conducting authorized activities;

“(4) members of advisory groups formed pursuant to this Act or ordinances of the city in the performance of their official duties:

Provided, That no regulation promulgated pursuant to this subsection shall prohibit ingress or egress to non-Federal lands or to authorized occupancies on, or uses of, Federal lands: *Provided further*, That the Secretary may independently and directly prohibit or restrict all entry into the unit during fire or other emergencies as he may determine.

“EFFECT ON OTHER LAWS

“SEC. 3. (a) Nothing in this Act shall terminate or affect any lease, permit, contract, patent, right-of-way, or other land use right or authorization existing on the date of approval of this Act [Nov. 23, 1977] and otherwise valid except for the provisions of section 1862 of title 18 of the United States Code.

“(b) Nothing in this Act shall in any way affect any law governing appropriation or use of, or Federal right to, water on National Forest System lands; or as expanding or diminishing Federal, State, or local jurisdiction, responsibility, interests, or rights in water resources development or control.

“(c) Section 1862 of title 18 of the United States Code is hereby repealed.

“(d) Except as otherwise provided for herein, this Act shall take precedence over and supersede all State and local laws dealing with or affecting the subject matter of this Act.

“(e) Challenge to actions taken by any governmental unit or official under the provisions of this Act shall not be sustained by any court except upon a showing of arbitrary, unreasonable, capricious, or illegal action or an absence of substantial good faith compliance with the procedural provisions hereof substantially prejudicing the rights of an interested party.”

On and after May 11, 1934, all patents issued under the United States mining laws affecting lands within the Mount Hood National Forest within the State of Oregon shall convey title to the mineral deposits within the claim, together with the right to cut and remove so much of the timber therefrom as may be needed in extracting and removing the mineral deposits, if the timber is cut under sound principles of forest management as defined by the national-forest rules and regulations, but each patent shall reserve to the United States all title in or to the surface of the lands and products thereof, and no use of the surface of the claim or the resources therefrom not reasonably required for carrying on mining or prospecting shall be allowed except under the rules and regulations of the Forest Service.

(May 11, 1934, ch. 280, §2, 48 Stat. 773.)

Before any such exchange is effected notice of the contemplated exchange reciting the lands involved shall be published once each week for four successive weeks in some newspaper of general circulation in the county or counties in which may be situated the lands to be accepted, and in some like newspaper published in any county in which may be situated any lands or timber to be given in such exchange. Timber given in such exchanges shall be cut and removed under the laws and regulations relating to the national forests, and under the direction and supervision and in accordance with the requirements of the Secretary of Agriculture. Lands conveyed to the United States under this section and section 486 of this title shall, upon acceptance of title, become parts of the national forest within whose exterior boundaries they are located.

TRANSFER OF LANDS IN CALAVERAS BIG TREES NATIONAL FOREST TO STATE OF CALIFORNIA

Pub. L. 101–436, Oct. 17, 1990, 104 Stat. 993, provided that:

“SECTION 1. FINDINGS AND PURPOSE.

“(a) **FINDINGS.**—The Congress finds and declares that—

“(1) in order to protect certain outstanding examples of ponderosa pine, sugar pine, and giant sequoia trees located in the North and South Calaveras Groves, on the western slope of the Sierra Nevada Mountains, the State of California has established the Calaveras Big Trees State Park;

“(2) for similar purposes, the United States has designated certain adjacent Federal lands, amounting to approximately 379 acres, as the Calaveras Big Trees National Forest; and

“(3) this National Forest (managed as part of the Stanislaus National Forest) is the smallest National Forest in the United States and could be more appropriately and efficiently managed as part of the Calaveras Big Trees State Park.

“(b) **PURPOSE.**—The purpose of this Act is to improve the management of the lands located in the Calaveras Big Trees National Forest, and to protect certain examples of ponderosa pine, sugar pine, and giant sequoia trees, by unifying the management of the lands in such National Forest and in the California Calaveras Big Trees State Park.

“SEC. 2. LAND CONVEYANCE.

“(a) **CONVEYANCE.**—Subject to valid existing rights and the provisions of this Act, the Secretary of Agriculture (hereinafter in this Act referred to as the ‘Secretary’) is authorized and directed to convey all right, title, and interest of the United States in and to lands and interests therein within the Calaveras Big Trees National Forest, as generally depicted on a map numbered 20435 and dated June 5, 1989, prepared by the

California Department of Parks and Recreation, to the State of California for inclusion within the Calaveras Big Trees State Park.

“(b) MAP AND DESCRIPTION.—As soon as practicable after the enactment of this Act [Oct. 17, 1990], the Secretary shall submit a map and legal description of the lands referred to in subsection (a) to the Committee on Interior and Insular Affairs [now Committee on Natural Resources] of the United States House of Representatives, and the Committee on Energy and Natural Resources of the Senate. Such map and legal description shall have the same force and effect as if included in this Act, except that any clerical or typographical errors in such map or legal description may be corrected. The Secretary shall place such map and legal description on file, and make them available for public inspection, in the Office of the Chief of the Forest Service.

“(c) CONDITIONS OF CONVEYANCE.—Conveyance of the lands and interests described in subsection (a) of this section shall be subject to the following conditions:

“(1) The conveyance shall take place only if within two years after the date of enactment of this Act [Oct. 17, 1990], there is concluded an agreement between the State of California and the Secretary whereby the State of California agrees to provide to the United States, in exchange for the lands described in subsection (a) and pursuant to terms and conditions which the Secretary finds acceptable, consideration of approximately equal value. Such consideration shall include either lands in California that the Secretary finds suitable for addition to, and are contiguous to, one or more units of the National Forest System, cash payment, or monetary grants awarded to the United States after June 1, 1990, or any combination thereof.

“(2) No harvest of timber (except as may be necessary for the control of fire, insects, or disease) and no mining, mineral leasing, or geothermal exploration or development shall be permitted on such lands;

“(3) Any action by the State of California to convey any portion of such lands or interests to any entity other than the United States shall be void ab initio and shall result in the reversion to the United States of all right, title, and interest in such lands;

“(4) Any action by the State of California to permit the use of any portion of such lands for any purpose prohibited by this subsection or any purpose incompatible with the continued ability of such lands to support ponderosa pine, sugar pine, or giant sequoia trees, shall result in the reversion of all right, title, and interest in such lands to the United States. Any such lands which revert to the United States shall be incorporated into the Stanislaus National Forest and managed to preserve and protect the stands of ponderosa pine, sugar pine, and giant sequoia trees located on such lands.

“(5) The Secretary, acting through the Forest Service, shall be afforded by appropriate officials of the State of California reasonable opportunities to collect seeds from trees located on such lands for scientific or silvicultural purposes.

“(6) The Secretary, upon prior notification to the State of California, shall be entitled at any time to enter upon such lands for the purpose of monitoring the management of such lands and the compliance of the State of California with the provisions of this subsection.

“(7) The conveyance shall be subject to the following reservations or exceptions:

“(A) existing ditches and canals as authorized by the Act of August 30, 1890 (43 U.S.C. 945); and

“(B) any existing rights-of-way to provide the United States and its assigns access to federally owned lands.

“(d) ENFORCEMENT.—Upon the request of the Secretary, the Attorney General shall bring any action or take any other steps necessary to enforce the provisions of subsection (c) of this section.

“(e) TIMING, VALUE, AND STATUS.—(1) Conveyance of lands to the State of California pursuant to this Act shall occur when the agreement described in paragraph (1) of subsection (c) has been reached. The restrictions and conditions specified in paragraphs (2), (3), (4), (5), (6), and (7) of subsection (c) shall be included in the instruments of conveyance of lands to the State of California.

“(2) Effective upon the conveyance to the State of California of lands described in subsection (a) of this section, or two years after the date of enactment of this Act [Oct. 17, 1990], whichever is sooner, the National Forest designation of such lands shall terminate. Any such lands not conveyed to the State of California shall thereupon be incorporated into the Stanislaus National Forest and managed to preserve and protect the stands of ponderosa pine, sugar pine, and giant sequoia trees located on such lands.

“(3) Any lands conveyed to the United States pursuant to this Act shall be deemed national forest lands and managed according to the laws governing the management of the National Forest System. If any such lands are outside existing boundaries of one or more National Forests, the Secretary shall modify such boundaries as he deems appropriate to include such lands.

“(4) Values of the respective lands exchanged between the United States and the State of California pursuant to this Act shall be of ‘approximately equal value’ as that term is defined by regulations implementing the Act of January 12, 1983, known as the Small Tracts Act (16 U.S.C. 521c–521i).”

§495. Leases of lands for sanitariums or hotels

The Secretary of Agriculture is authorized, under such rules and regulations as he from time to time may make, to rent or lease to responsible persons or corporations applying therefor suitable spaces and portions of ground near, or adjacent to, mineral, medicinal, or other springs, within any national forest established within the United States, or hereafter to be established, and where the public is accustomed or desires to frequent, for health or pleasure, for the purpose of erecting upon such leased ground sanitariums or hotels, to be opened for the reception of the public. And he is further authorized to make such regulations, for the convenience of people visiting such springs, with reference to spaces and locations, for the erection of tents or temporary dwelling houses to be erected or constructed for the use of those visiting such springs for health or pleasure. And the Secretary of Agriculture is authorized to prescribe the terms and duration and the compensation to be paid for the privileges granted under the provisions of this section.

“(b) DEPOSIT OF FEES.—Subject to subsections (a) and (f), during fiscal years 2000 through 2012, the Secretary of Agriculture shall deposit into a special account established in the Treasury all fees collected by the Secretary to recover the costs of processing applications for, and monitoring compliance with, authorizations to use and occupy National Forest System lands pursuant to section 28(l) of the Mineral Leasing Act (30 U.S.C. 185(l)), section 504(g) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1764(g)), section 9701 of title 31, United States Code, and section 110(g) of the National Historic Preservation Act (16 U.S.C. 470h–2(g)).

requirements of modern ski area development; and

“(c) provide a permit system which will be more commensurate with the long-term construction, financing, and operation needs of ski areas on national forest lands.”

§497c. Ski area permit rental charge

(a) In general

The Secretary of Agriculture shall charge a rental charge for all ski area permits issued pursuant to section 3 of the National Forest Ski Area Permit Act of 1986 (16 U.S.C. 497b), the Act of March 4, 1915 (38 Stat. 1101, chapter 144; 16 U.S.C. 497), or the 9th through 20th paragraphs under the heading “SURVEYING THE PUBLIC LANDS” under the heading “UNDER THE DEPARTMENT OF THE INTERIOR” in the Act of June 4, 1897 (30 Stat. 34, chapter 2), on National Forest System lands. Permit rental charges for permits issued pursuant to the National Forest Ski Area Permit Act of 1986 shall be calculated as set forth in subsection (b) of this section. Permit rental charges for existing ski area permits issued pursuant to the Act of March 4, 1915, and the Act of June 4, 1897, shall be calculated in accordance with those existing permits: *Provided*, That a permittee may, at the permittee's option, use the calculation method set forth in subsection (b) of this section.

(b) Formula

(1) The ski area permit rental charge (SAPRC) shall be calculated by adding the permittee's gross revenues from lift ticket/year-round ski area use pass sales plus revenue from ski school operations (LT+SS) and multiplying such total by the slope transport feet percentage (STFP) on National Forest System land. That amount shall be increased by the gross year-round revenue from ancillary facilities (GRAF) physically located on national forest land, including all permittee or subpermittee lodging, food service, rental shops, parking and other ancillary operations, to determine the adjusted gross revenue (AGR) subject to the permit rental charge. The final rental charge shall be calculated by multiplying the AGR by the following percentages for each revenue bracket and adding the total for each revenue bracket:

- (A) 1.5 percent of all adjusted gross revenue below \$3,000,000;
- (B) 2.5 percent for adjusted gross revenue between \$3,000,000 and \$15,000,000;
- (C) 2.75 percent for adjusted gross revenue between \$15,000,000 and \$50,000,000; and
- (D) 4.0 percent for the amount of adjusted gross revenue that exceeds \$50,000,000.

Utilizing the abbreviations indicated in this subsection the ski area permit fee (SAPF) formula can be simply illustrated as:

$$\text{SAPF} = ((\text{LT} + \text{SS}) \times \text{STFP}) + \text{GRAF} = \text{AGR}; \text{AGR} \times \% \text{ BRACKETS}$$

(2) In cases where ski areas are only partially located on national forest lands, the slope transport feet percentage on national forest land referred to in this subsection shall be calculated as generally described in the Forest Service Manual in effect as of January 1, 1992. Revenues from Nordic ski operations shall be included or excluded from the rental charge calculation according to the percentage of trails physically located on national forest land.

(3) In order to ensure that the rental charge remains fair and equitable to both the United States and the ski area permittees, the adjusted gross revenue figures for each revenue bracket in paragraph (1) shall be adjusted annually by the percent increase or decrease in the national Consumer Price Index for the preceding calendar year. No later than 3 years after November 12, 1996, and every 5 years thereafter the Secretary shall submit to the Committee on Energy and Natural Resources of the United States Senate and the Committee on Resources of the United States House of Representatives a report analyzing whether the ski area permit rental charge required by this section is returning a fair market value rental to the United States together with any recommendations the Secretary may have for modifications of the system.

(c) Payment

The rental charge set forth in subsection (b) of this section shall be due on June 1 of each year and

shall be paid or prepaid by the permittee on a monthly, quarterly, annual or other schedule as determined appropriate by the Secretary in consultation with the permittee. Unless mutually agreed otherwise by the Secretary and the permittee, the payment or prepayment schedule shall conform to the permittee's schedule in effect prior to November 12, 1996. To reduce costs to the permittee and the Forest Service, the Secretary shall each year provide the permittee with a standardized form and worksheets (including annual rental charge calculation brackets and rates) to be used for rental charge calculation and submitted with the rental charge payment. Information provided on such forms shall be compiled by the Secretary annually and kept in the Office of the Chief, United States Forest Service.

(d) Effective date

The ski area permit rental charge set forth in this section shall become effective on June 1, 1996 and cover receipts retroactive to June 1, 1995: *Provided*, That if a permittee has paid rental charges for the period June 1, 1995, to June 1, 1996, under the graduated rate rental charge system formula in effect prior to November 12, 1996, such rental charges shall be credited toward the new rental charge due on June 1, 1996. In order to ensure increasing rental charge receipt levels to the United States during transition from the graduated rate rental charge system formula to the formula of this section, the rental charge paid by any individual permittee shall be—

(1) for the 1995–1996 permit year, either the rental charge paid for the preceding 1994–1995 base year or the rental charge calculated pursuant to this section, whichever is higher;

(2) for the 1996–1997 permit year, either the rental charge paid for the 1994–1995 base year or the rental charge calculated pursuant to this section, whichever is higher; and

(3) for the 1997–1998 permit year, either the rental charge for the 1994–1995 base year or the rental charge calculated pursuant to this section, whichever is higher.

If an individual permittee's adjusted gross revenue for the 1995–1996, 1996–1997, or 1997–1998 permit years falls more than 10 percent below the adjusted gross revenue for the 1994–1995 base year, the rental charge paid shall be the rental charge calculated pursuant to this section.

(e) Non-national forest land operations

Under no circumstances shall revenue, or subpermittee revenue (other than lift ticket, area use pass, or ski school sales) obtained from operations physically located on non-national forest land be included in the ski area permit rental charge calculation.

(f) “Revenue” and “sales” defined; limitations

To reduce administrative costs of ski area permittees and the Forest Service the terms “revenue” and “sales”, as used in this section, shall mean actual income from sales and shall not include sales of operating equipment, refunds, rent paid to the permittee by sublessees, sponsor contributions to special events or any amounts attributable to employee gratuities or employee lift tickets, discounts, or other goods or services (except for bartered goods and complimentary lift tickets offered for commercial or other promotional purposes) for which the permittee does not receive money.

(g) Minimum rental charge

In cases where an area of national forest land is under a ski area permit but the permittee does not have revenue or sales qualifying for rental charge payment pursuant to subsection (a) of this section, the permittee shall pay an annual minimum rental charge of \$2 for each national forest acre under permit or a percentage of appraised land value, as determined appropriate by the Secretary.

(h) Five-year phase-in of increase

Where the new rental charge provided for in subsection (b)(1) of this section results in an increase in permit rental charge greater than one-half of 1 percent of the permittee's adjusted gross revenue as determined under subsection (b)(1) of this section, the new rental charge shall be phased in over a five-year period in a manner providing for increases of approximately equal increments.

(i) Construction with National Environmental Policy Act of 1969

To reduce Federal costs in administering the provisions of this section, the reissuance of a ski area

permit to provide activities similar in nature and amount to the activities provided under the previous permit shall not constitute a major Federal action for the purposes of the National Environmental Policy Act of 1969 (42 U.S.C. 4331 et seq.).

(j) Withdrawal from mining laws

Subject to valid existing rights, all lands located within the boundaries of ski area permits issued prior to, on or after November 12, 1996, pursuant to authority of the Act of March 4, 1915 (38 Stat. 1101, chapter 144; 16 U.S.C. 497), and the Act of June 4, 1897, or the National Forest Ski Area Permit Act of 1986 (16 U.S.C. 497b) are hereby and henceforth automatically withdrawn from all forms of appropriation under the mining laws and from disposition under all laws pertaining to mineral and geothermal leasing and all amendments thereto. Such withdrawal shall continue for the full term of the permit and any modification, reissuance, or renewal thereof. Unless the Secretary requests otherwise of the Secretary of the Interior, such withdrawal shall be canceled automatically upon expiration or other termination of the permit and the land automatically restored to all appropriation not otherwise restricted under the public land laws.

Section 471(b) of this title, referred to in text, was repealed by section 704(a) of Pub. L. 94–579, title VII, Oct. 21, 1976, 90 Stat. 2792. For further details, see Codification note below.

CODIFICATION

Section is a combination provision the basis for which is Act Mar. 4, 1907, which superseded previous provisions relating to the disposal of money received from sale of products or use of any land or resources of the forest reserves, contained in Act Feb. 1, 1905, ch. 288, §5, 33 Stat. 628.

Act Mar. 4, 1911, is the source of the last portion of the section beginning with the words, “and also so much as may be necessary,” etc. That Act provides that so much of the former Act “which provides for refunds by the Secretary of Agriculture to depositors of moneys to secure the purchase price of timber or the use of lands or resources of the national forests such sums as may be found to be in excess of the amounts found actually due the United States, be, and is hereby, amended hereafter to appropriate and to include so much;”.

The words of this section reading, “including moneys received from sale of products from or use of lands in national forests created under section 471(b) of this title” were derived from the fourth sentence of section 9 of Act of June 7, 1924, which reads as follows: “All receipts from the sale of products from or for the use of lands in such national forests shall be covered into the Treasury as miscellaneous receipts, forest reserve fund, and shall be disposed of in like manner as the receipts from other national forests as provided by existing law.” Section 471(b) of this title, referred to in text, was based on the first and fifth sentences of section 9 of the 1924 act, and was repealed by section 704(a) of Pub. L. 94–579. Section 505 of this title is based on the second and third sentences of section 9 of the 1924 act.

The words “and moneys received on account of permits for hunting, fishing, or camping on lands acquired under authority of sections 513 to 517 and 521 of this title,” are from a provision of Act Mar. 4, 1917, which reads, “Hereafter, all moneys received on account of permits for hunting, fishing, or camping, on lands acquired under authority of said Act [Act Mar. 1, 1911, ch. 186, 36 Stat. 961] or any Amendment or extension thereof, shall be disposed of as is provided by existing law for the disposition of receipts from national forests.”

AMENDMENTS

1928—Act May 29, 1928, struck out provision which required the Secretary of Agriculture to make an

annual report to Congress of the amounts refunded under this section.

§500. Payment and evaluation of receipts to State or Territory for schools and roads; moneys received; projections of revenues and estimated payments

On and after May 23, 1908, an amount equal to the annual average of 25 percent of all amounts received for the applicable fiscal year and each of the preceding 6 fiscal years from each national forest shall be paid, at the end of such year, by the Secretary of the Treasury to the State or Territory in which such national forest is situated, to be expended as the State or Territorial legislature may prescribe for the benefit of the public schools and public roads of the county or counties in which such national forest is situated: *Provided*, That when any national forest is in more than one State or Territory or county the distributive share to each from the proceeds of such forest shall be proportional to its area therein. In sales of logs, ties, poles, posts, cordwood, pulpwood, and other forest products the amounts made available for schools and roads by this section shall be based upon the stumpage value of the timber. Beginning October 1, 1976, the term “moneys received” shall include all collections under the Act of June 9, 1930, and all amounts earned or allowed any purchaser of national forest timber and other forest products within such State as purchaser credits, for the construction of roads on the National Forest Transportation System within such national forests or parts thereof in connection with any Forest Service timber sales contract. The Secretary of Agriculture shall, from time to time as he goes through his process of developing the budget revenue estimates, make available to the States his current projections of revenues and payments estimated to be made under the Act of May 23, 1908, as amended, or any other special Acts making payments in lieu of taxes, for their use for local budget planning purposes.

AMENDMENTS

2008—Pub. L. 110–343, which directed substitution of “an amount equal to the annual average of 25 percent of all amounts received for the applicable fiscal year and each of the preceding 6 fiscal years from

each national forest shall be paid” for “twenty-five percentum” and all that follows through “shall be paid” in provisions of both acts May 23, 1908, and Mar. 1, 1911, on which this section is based, was executed by making the substitution for “twenty-five per centum of all moneys received during any fiscal year from each national forest shall be paid”, to reflect the probable intent of Congress.

§531. Definitions

As used in sections 528 to 531 of this title the following terms shall have the following meanings:

(a) “Multiple use” means: The management of all the various renewable surface resources of the national forests so that they are utilized in the combination that will best meet the needs of the American people; making the most judicious use of the land for some or all of these resources or related services over areas large enough to provide sufficient latitude for periodic adjustments in use to conform to changing needs and conditions; that some land will be used for less than all of the resources; and harmonious and coordinated management of the various resources, each with the other, without impairment of the productivity of the land, with consideration being given to the relative values of the various resources, and not necessarily the combination of uses that will give the greatest dollar return or the greatest unit output.

(b) “Sustained yield of the several products and services” means the achievement and maintenance in perpetuity of a high-level annual or regular periodic output of the various renewable resources of the national forests without impairment of the productivity of the land.

(Pub. L. 86–517, §4, June 12, 1960, 74 Stat. 215.)

§532. Roads and trails system; Congressional findings and declaration of policy

The Congress hereby finds and declares that the construction and maintenance of an adequate system of roads and trails within and near the national forests and other lands administered by the Forest Service is essential if increasing demands for timber, recreation, and other uses of such lands are to be met; that the existence of such a system would have the effect, among other things, of increasing the value of timber and other resources tributary to such roads; and that such a system is essential to enable the Secretary of Agriculture (hereinafter called the Secretary) to provide for intensive use, protection, development, and management of these lands under principles of multiple use and sustained yield of products and services.

§533. Grant of easements for road rights-of-way; authority of Secretary of Agriculture; regulations

The Secretary is authorized, under such regulations as he may prescribe, subject to the provisions of sections 532 to 538 of this title, to grant permanent or temporary easements for specified periods or otherwise for road rights-of-way (1) over national forest lands and other lands administered by the Forest Service, and (2) over any other related lands with respect to which the Department of Agriculture has rights under the terms of the grant to it.

§534. Termination and cancellation of easements; notice; hearing

An easement granted under sections 532 to 538 of this title may be terminated by consent of the owner of the easement, by condemnation, or after a five-year period of nonuse the Secretary may, if he finds the owner has abandoned the easement, make a determination to cancel it. Before the Secretary may cancel an easement for nonuse the owner of such easement must be notified of the determination to cancel and be given, upon his request made within sixty days after receipt of the notice, a hearing in accordance with such rules and regulations as may be issued by the Secretary.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Secretary or other official in Department of Agriculture under sections 532 to 538 of this title to Federal Inspector, Office of Federal Inspector for Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, then to Federal Coordinator for Alaska Natural Gas Transportation Projects, see Transfer of Functions note set out under section 533 of this title.

§535. Forest development roads; acquisition, construction, and maintenance; maximum economy; methods of financing; cost arrangements for construction standards; transfer of unused effective purchaser credit for road construction

The Secretary is authorized to provide for the acquisition, construction, and maintenance of forest development roads within and near the national forests and other lands administered by the Forest Service in locations and according to specifications which will permit maximum economy in harvesting timber from such lands tributary to such roads and at the same time meet the requirements for protection, development, and management thereof, and for utilization of the other resources thereof. Financing of such roads may be accomplished (1) by the Secretary utilizing appropriated funds, (2) by requirements on purchasers of national forest timber and other products, including provisions for amortization of road costs in contracts, (3) by cooperative financing with other public

agencies and with private agencies or persons, or (4) by a combination of these methods: *Provided*, That where roads of a higher standard than that needed in the harvesting and removal of the timber and other products covered by the particular sale are to be constructed, the purchaser of the national forest timber and other products shall not be required to bear that part of the costs necessary to meet such higher standard, and the Secretary is authorized to make such arrangements to this end as may be appropriate. The Secretary is authorized, under such rules and regulations as he shall prescribe, to permit the transfer of unused effective purchaser credit for road construction earned after December 16, 1975, from one timber sale to a purchaser to another timber sale to the same purchaser within the same National Forest.

(Pub. L. 88–657, §4, Oct. 13, 1964, 78 Stat. 1089; Pub. L. 94–154, Dec. 16, 1975, 89 Stat. 823.)

AMENDMENTS

1975—Pub. L. 94–154 authorized the Secretary to permit the transfer of unused effective purchaser credit for road construction earned after Dec. 16, 1975, from one timber sale to a purchaser to another timber sale to the same purchaser within the same National Forest.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Secretary or other official in Department of Agriculture under sections 532 to 538 of this title to Federal Inspector, Office of Federal Inspector for Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, then to Federal Coordinator for Alaska Natural Gas Transportation Projects, see Transfer of Functions note set out under section 533 of this title.

FINANCING OF FOREST DEVELOPMENT ROADS

Financing of forest development roads authorized by cl. (2) of this section deemed “budget authority” and “budget outlays” as defined in section 621(a) of Title 2, The Congress, and effective for purpose specified in section 651(a) of Title 2, see section 1608 of this title.

§535a. Forest development roads: prohibition on credits; inclusion of construction costs in notice of sale; special election by small business concerns; construction standards; authorization of harvesting; treatment of road value

(a) Prohibition on timber purchaser road credits

In financing any forest development road pursuant to section 535 of this title, the Secretary of Agriculture may not provide effective credit for road construction to any purchaser of national forest timber or other forest products.

(b) Construction of roads by timber purchasers

(1) Whenever the Secretary of Agriculture makes a determination that a forest development road referred to in subsection (a) of this section shall be constructed or paid for, in whole or in part, by a purchaser of national forest timber or other forest products, the Secretary shall include notice of the determination in the notice of sale of the timber or other forest products. The notice of sale shall contain, or announce the availability of, sufficient information related to the road described in the notice to permit a prospective bidder on the sale to calculate the likely cost that would be incurred by the bidder to construct or finance the construction of the road so that the bidder may reflect such cost in the bid.

(2) If there is an increase or decrease in the cost of roads constructed by the timber purchaser, caused by variations in quantities, changes or modifications subsequent to the sale of timber made in accordance with applicable timber sale contract provisions, then an adjustment to the price paid for timber harvested by the purchaser shall be made. The adjustment shall be applied by the Secretary as soon as practicable after any such design change is implemented.

(c) Special election by small business concerns

(1) A notice of sale referred to in subsection (b) of this section containing specified road

construction of \$50,000 or more, shall give a purchaser of national forest timber or other forest products that qualifies as a “small business concern” under the Small Business Act (15 U.S.C. 631 et seq.), and regulations issued thereunder, the option to elect that the Secretary of Agriculture build the roads described in the notice. The Secretary shall provide the small business concern with an estimate of the cost that would be incurred by the Secretary to construct the roads on behalf of the small business concern. The notice of sale shall also include the date on which the roads described in the notice will be completed by the Secretary if the election is made.

(2) If the election referred to in paragraph (1) is made, the purchaser of the national forest timber or other forest products shall pay to the Secretary of Agriculture, in addition to the price paid for the timber or other forest products, an amount equal to the estimated cost of the roads which otherwise would be paid by the purchaser as provided in the notice of sale. Pending receipt of such amount, the Secretary may use receipts from the sale of national forest timber or other forest products and such additional sums as may be appropriated for the construction of roads, such funds to be available until expended, to accomplish the requested road construction.

(d) Authorization of harvesting

In each sale of national forest timber or other forest products referred to in this section, the Secretary of Agriculture is encouraged to authorize harvest of the timber or other forest products in a unit included in the sale as soon as road work for that unit is completed and the road work is approved by the Secretary.

(e) Construction standard

For any forest development road that is to be constructed or paid for by a purchaser of national forest timber or other forest products, the Secretary of Agriculture may not require the purchaser to design, construct, or maintain the road (or pay for the design, construction, or maintenance of the road) to a standard higher than the standard, consistent with applicable environmental laws and regulations, that is sufficient for the harvesting and removal of the timber or other forest products, unless the Secretary bears that part of the cost necessary to meet the higher standard.

(f) Treatment of road value

For any forest development road that is constructed or paid for by a purchaser of national forest timber or other forest products, the estimated cost of the road construction, including subsequent design changes, shall be considered to be money received for purposes of the payments required to be made under section 500 of this title. To the extent that the appraised value of road construction determined under this subsection reflects funds contributed by the Secretary of Agriculture to build the road to a higher standard pursuant to subsection (e) of this section, the Secretary shall modify the appraisal of the road construction to exclude the effect of the Federal funds.

(g) Effective date

(1) This section and the requirements of this section shall take effect (and apply thereafter) upon the earlier of—

(A) April 1, 1999; or

(B) the date that is the later of—

(i) the effective date of regulations issued by the Secretary of Agriculture to implement this section; and

(ii) the date on which new timber sale contract provisions designed to implement this section, that have been published for public comment, are approved by the Secretary.

(2) Notwithstanding paragraph (1), any sale of national forest timber or other forest products for which notice of sale is provided before the effective date of this section, and any effective purchaser road credit earned pursuant to a contract resulting from such a notice of sale or otherwise earned before that effective date shall remain in effect, and shall continue to be subject to section 535 of this title and section 472a(i) of this title, and rules issued thereunder, as in effect on the day before October 21, 1998.

(Pub. L. 105–277, div. A, §101(e) [title III, §329], Oct. 21, 1998, 112 Stat. 2681–231, 2681–292.)

§537. Maintenance and reconstruction by road users; funds for maintenance and reconstruction; availability of deposits until expended, transfer of funds, and refunds

The Secretary may require the user or users of a road under the control of the Forest Service, including purchasers of Government timber and other products, to maintain such roads in a satisfactory condition commensurate with the particular use requirements of each. Such maintenance to be borne by each user shall be proportionate to total use. The Secretary may also require the user or users of such a road to reconstruct the same when such reconstruction is determined to be necessary to accommodate such use. If such maintenance or reconstruction cannot be so provided or if the Secretary determines that maintenance or reconstruction by a user would not be practical, then the Secretary may require that sufficient funds be deposited by the user to provide his portion of such total maintenance or reconstruction. Deposits made to cover the maintenance or reconstruction of roads are hereby made available until expended to cover the cost to the United States of accomplishing the purpose for which deposited: *Provided*, That deposits received for work on adjacent and overlapping areas may be combined when it is the most practicable and efficient manner of performing the work, and cost thereof may be determined by estimates: *And provided further*, That unexpended balances upon accomplishment of the purpose for which deposited shall be transferred to miscellaneous receipts or refunded.

CHUGACH NATIONAL FOREST BOUNDARY CHANGE

Pub. L. 102–415, §6, Oct. 14, 1992, 106 Stat. 2113, provided that:

“(a) BOUNDARY ADJUSTMENT.—The boundary of the Chugach National Forest, Alaska, is modified to include the approximately 9,300 acres as generally depicted on the map entitled ‘Official Map, Boundary Modification, Chugach National Forest’ and dated September 1988. The map shall be on file and available for public inspection in the Office of the Chief of the Forest Service, Department of Agriculture.

“(b) ADMINISTRATION.—Subject to valid existing rights, all Federal lands brought within the boundary of the Chugach National Forest by subsection (a) are added to and shall be administered as part of the Chugach National Forest.

“(c) TERMS AND CONDITIONS.—(1) Nothing in this Act [see Short Title of 1992 Amendment note set out under section 1601 of Title 43, Public Lands] shall be construed to affect the validity of, or the terms and conditions of, any right-of-way, easement, lease, license, or permit on lands transferred by this section that is in existence on the date of enactment of this Act [Oct. 14, 1992].

“(2) Notwithstanding any other provision of law, the Secretary of the Interior shall delegate, as necessary, to the Secretary of Agriculture the authority to renew or reissue the authorizations described in paragraph (1). §539a. Mining and mineral leasing on certain national forest lands

Subject to valid existing rights, the minerals in public lands within the Copper River addition to the Chugach National Forest, are hereby withdrawn from location, entry, and patent under the United States mining laws. With respect to such areas, the Secretary, under such reasonable regulations as he deems appropriate, may permit the removal of nonleasable minerals from the lands in the manner prescribed by Reorganization Plan Numbered 3 of 1946 and section 520 of this title, and the removal of leasable minerals from such lands in accordance with the mineral leasing laws, if the Secretary finds that such disposition would not have significant adverse effects on the administration of the area. All receipts derived from disposal of nonleasable minerals under this section shall be paid into the same funds or accounts in the Treasury of the United States and shall be distributed in the same manner as provided for receipts from national forests.

§539b. Fisheries on national forest lands in Alaska

(a) Regulations for protection and maintenance of habitats

The Secretary of Agriculture shall, in consultation with the Secretaries of Commerce and the Interior, and with the State of Alaska, pursuant to his existing authority to manage surface resources, promulgate such reasonable regulations as he determines necessary after consideration of existing laws and regulations to maintain the habitats, to the maximum extent feasible, of anadromous fish and other foodfish, and to maintain the present and continued productivity of such habitat when such habitats are affected by mining activities on national forest lands in Alaska. The Secretary of Agriculture, in consultation with the State, shall assess the effects on the populations of such fish in determinations made pursuant to this subsection.

(b) Approved plan for mining operations; requirements; review; modification; suspension of activities

Because of the large scale of contemplated mining operations and the proximity of such operations to important fishery resources, with respect to mining operations in the Quartz Hill area of the Tongass National Forest, the regulations of the Secretary shall, pursuant to this subsection, include a requirement that all mining operations involving significant surface disturbance shall be in accordance with an approved plan of operations. Before approving any proposed plan or distinct stages of such plan of operations for any such claims when any fishery habitat or fishery value may be affected, the Secretary shall, in consultation with the Secretaries of Commerce and the Interior and the State of Alaska, determine—

(1) that such plan or stages of such plan are based upon and shall include studies or information which he determines are adequate for—

(A) evaluating the water quality and water quantity, fishery habitat, and other fishery values of the affected area; and

(B) evaluating to the maximum extent feasible and relevant, the sensitivity to environmental degradation from activities carried out under such plan of the fishery habitat as it affects the various life stages of anadromous fish and other foodfish and their major food chain components;

(2) that such plan adequately identifies the risks the operations under such plan or such stages might pose to and the benefits the operations under such plan might provide to—

(A) the natural stability and the present and continued productivity of anadromous fish and other foodfish;

(B) fishery habitat, including but not limited to water quality and water quantity; and

(C) other fishery values;

(3) that such plan includes provisions which he determines are adequate for the purposes of—

(A) preventing significant adverse environmental impacts to the fishery habitat (including but not limited to water quality and water quantity) or other fishery values; and

(B) maintaining present and continued productivity of the habitat of anadromous fish and other foodfish which might be affected by the mining and other activities proposed to be conducted in accordance with such plan or such stages of the plan of operations;

(4)(A) the Secretary shall ensure, to the maximum extent feasible, that the cumulative effects of activities carried out under the operating plan will not interfere with the ability to collect baseline information needed by the Secretary to evaluate the effects of various stages of the operating plan on the fishery habitat and productivity of such habitats;

(B) the Secretary shall review such plan and mining activities on at least an annual basis. With respect to any mining or associated activities, the Secretary, if he determines upon notice and hearing, that the activities are harmful to the continued productivity of anadromous fish, or other foodfish populations or fishery habitat, shall require a modification of the plan to eliminate or mitigate, if necessary, the harmful effects of such activities; and

(5) upon a finding by the Secretary that a mining activity conducted as a part of a mining operation exists which constitutes a threat of irreparable harm to anadromous fish, or other foodfish populations or their habitat, and that immediate correction is required to prevent such harm, he may require such activity to be suspended for not to exceed seven days, provided the activity may be resumed at the end of said seven-day period unless otherwise required by a United States district court.

(c) Authority of State of Alaska to manage fish and wildlife

Nothing in this section shall enlarge or diminish the responsibility and authority of the State of Alaska to manage fish and wildlife or to exercise its other responsibilities under applicable law.

(d) Authority of Secretary of Agriculture to manage national forests

Except as specifically provided in subsection (b)(5) of this section nothing in this section shall enlarge or diminish the responsibilities and authorities of the Secretary of Agriculture to manage the national forests.

(Pub. L. 96-487, title V, §505, Dec. 2, 1980, 94 Stat. 2405.)

§539c. Cooperative fisheries planning; report to Congress

(a) The Secretary of Agriculture is directed to implement a cooperative planning process for the enhancement of fisheries resources through fish hatchery and aquaculture facilities and activities in the Tongass National Forest. Participation in this process shall include but not be limited to the State of Alaska and appropriate nonprofit aquaculture corporations. The Secretary may contract with private, nonprofit associations for services in such planning.

(b) Each subsequent revision of National Forest management plans under the Forest and Rangeland Renewable Resources Planning Act of 1974 [16 U.S.C. 1600 et seq.] and the National Forest Management Act of 1976 shall contain a report on the status of the planning process undertaken under this paragraph, including, but not limited to, a description of current hatchery and aquaculture projects, an analysis of the success of these projects, and a prioritized list of projects anticipated for the duration of the management plan. The report shall be submitted by the Secretary to the Congress with recommendations for any legislative action which the Secretary may deem necessary to implement the proposed hatchery and aquaculture projects.

§539d. National forest timber utilization program

(a) Tongass National Forest timber supply; satisfaction of certain market demands

Subject to appropriations, other applicable law, and the requirements of the National Forest Management Act of 1976 (Public Law 94–588), except as provided in subsection (d) of this section, the Secretary shall, to the extent consistent with providing for the multiple use and sustained yield of all renewable forest resources, seek to provide a supply of timber from the Tongass National Forest which (1) meets the annual market demand for timber from such forest and (2) meets the market demand from such forest for each planning cycle.

(b) Insured and guaranteed loan program for purchasers of national forests materials in Alaska; authorization of appropriations

(1) The Secretary is authorized and directed to establish a special program of insured or guaranteed loans to purchasers of national forest materials in Alaska to assist such purchasers in the acquisition of equipment and the implementation of new technologies which lead to the utilization of wood products which might otherwise not be utilized. The Secretary is authorized to promulgate such regulations as he deems appropriate to define eligibility requirements for the participation in the loan program and the terms and conditions applicable to loans made under the program. Except as otherwise provided in this section or regulations promulgated specifically for this loan program, such program shall be carried out in a manner which is consistent with other authorities available to the Secretary.

(2) To carry out the special loan program established by this section, there are hereby authorized beginning after the fiscal year 1980 to be appropriated \$5,000,000 from National Forest Fund receipts, to be deposited in a special fund in the Treasury of the United States to remain available until expended. Repayments of principal and interest and other recoveries on loans authorized by this section shall be credited to this fund and shall remain available until expended in order to carry out the purposes of this section.

(c) Study on increase of timber yields on national forest lands in Alaska; transmittal to Congress

Within three years after December 2, 1980, the Secretary shall prepare and transmit to the Senate and House of Representatives a study of opportunities (consistent with the laws and regulations applicable to the management of the National Forest System) to increase timber yields on national forest lands in Alaska.

(d) Identification of lands not suited for timber production; consideration of economic factors unnecessary

All provisions of section 6(k) of the National Forest Management Act of 1976 (16 U.S.C. 1604(k)) shall apply to the Tongass National Forest except that the Secretary need not consider economic factors in the identification of lands not suited for timber production.

(e) Protection of riparian habitat; maintenance of buffer zones in Tongass National Forest; relocation of prior independent sale or released volume

In order to assure protection of riparian habitat, the Secretary shall maintain a buffer zone of no

less than one hundred feet in width on each side of all Class I streams in the Tongass National Forest, and on those Class II streams which flow directly into a Class I stream, within which commercial timber harvesting shall be prohibited, except where independent national forest timber sales have already been sold prior to March 1, 1990, or where volume has been released prior to March 1, 1990, to either the Alaska Pulp Corporation or the Ketchikan Pulp Company pursuant to the long-term timber sale contracts numbered 12–11–010–1545 and A10fs–1042 respectively. If such an independent timber sale or released volume is within the buffer zone, the Secretary shall make every effort to relocate such independent sale or released volume to an area outside of the buffer zone. The Secretary shall use best management practices, as defined in the Region 10 Soil and Water Conservation handbook ¹ (FSH 2509.22), January 1990, to assure the protection of riparian habitat on streams or portions of streams not protected by such buffer zones. For the purposes of this subsection, the terms “Class I streams” and “Class II streams” mean the same as they do in the Region 10 Aquatic Habitat Management Handbook (FSH 2609.24), June 1986.

(f) Timber supply from Tongass National Forest for purchasers qualifying as “small business concerns”

Subject to appropriations, the provisions of this Act and other applicable law (including but not limited to the requirements of the National Forest Management Act of 1976 (Public Law 94–588)) and in order to assure the continuation of the Small Business Administration timber sale program, the Secretary shall, in consultation with the Administrator of the Small Business Administration and to the extent consistent with providing for the multiple use and sustained yield of all renewable forest resources, seek to provide a supply of timber from the Tongass National Forest to those purchasers qualifying as “small business concerns” under the Small Business Act as amended (15 U.S.C. 631 et seq.).

Notwithstanding any other provision of law, the Secretary of Agriculture is directed to waive annually without charge all or a portion of payment or rental fees required under terms of a permit for use of certain lands of the National Forest System as organization camps by local units of the Boy Scouts of America or such other nonprofit organization when such local units of the Boy Scouts of America or such nonprofit organization are willing to perform services, as the Secretary prescribes and determines will yield a valuable benefit to the public and to the program of the Secretary of such lands. §539g. Kings River Special Management Area

(a) Establishment

In order to provide for public outdoor recreation use and enjoyment of certain areas within the Sierra National Forest and the Sequoia National Forest, to protect those areas’ natural, archaeological, and scenic resources, and to provide for appropriate fish and wildlife management of those areas, there is hereby established the Kings River Special Management Area (hereinafter in this Act referred to as the “special management area”). The special management area shall be administered by the Secretary of Agriculture (hereinafter in this Act referred to as “the Secretary”) through the Sierra National Forest.

(b) Area included

The special management area shall consist of the lands, waters, and interests therein within the area generally depicted on the map entitled “Boundary Map, Kings River Special Management Area”, dated April 1987. The map shall be on file and available for public inspection in the offices of the National Forest Service, Department of Agriculture. The Secretary of Agriculture may from time to time make minor revisions of the boundary of the special management area.

(c) Administration

The Secretary shall administer the special management area in accordance with this Act and with the provisions of law generally applicable to units of the National Forest System. In the case of any conflict between the provisions of such Acts, the provisions of this Act shall govern. In the administration of the special management area the Secretary may utilize such statutory authority as may be available to him for the conservation of wildlife and natural resources as he deems necessary to carry out the purposes of this Act. Nothing in this Act shall be construed to prohibit grazing within the special management area to the same extent, and in accordance with the same rules and regulations as applicable in the absence of this Act. The Secretary may permit the cutting of timber within the special management area only in those cases where in the judgment of the Secretary the cutting of such timber is required in order to control the attacks of fire, insects, or diseases or to otherwise conserve the scenery or the natural or historical objects in the area.

(d) Mining and mineral leasing

Subject to valid existing rights, lands within the special management area are withdrawn from location, entry, and patent under the mining laws of the United States, from the operation of the mineral leasing laws of the United States and from operation of the Geothermal Steam Act of 1970 [30 U.S.C. 1001 et seq.].

(e) Hunting and fishing

The Secretary shall permit hunting and fishing on lands and waters within the special management area in accordance with applicable Federal and State law. The Secretary may designate zones where, and establish periods when, such activities will not be permitted for reasons of public safety, administration, fish and wildlife management or public use and enjoyment. Except in emergencies, regulations issued by the Secretary under this subsection shall be put into effect only after consultation with the appropriate State agencies responsible for hunting and fishing activities.

(f) Management plan

After consultation with the State of California, the Secretary shall publish a management plan for the special management area within three years after November 3, 1987. The plan shall provide for public outdoor recreation use and enjoyment of the special management area, protect the area’s natural, archeological, and scenic resources, and provide for appropriate fish and wildlife

management within the area. The plan shall contain provisions for management of vegetation within the area designed to enhance the wildlife carrying capacity of the area. The plan shall permit off-road vehicular use of off-road trails to the same extent and in the same locations as was permitted before November 3, 1987. The plan shall provide for the development of hiking trails in the special management area and shall include a trail from Garlic Creek to Little Tshipite Valley.

(g) Access to private lands

If any State or privately owned land or any valid mining claim or other valid occupancy is within the special management area, or if State or private subsurface rights underlie public lands within the special management area, the Secretary shall provide the State or private owner, claimant, or occupier and their successors in interest such rights as may be necessary to assure adequate and feasible access for economic and other purposes to the site concerned. Such rights shall be subject to reasonable regulations issued by the Secretary to protect the natural and other values of the special management area, taking into account the traditional and customary means of access used prior to November 3, 1987.

(h) Specific protections

In recognition of the dispute that exists over whether a dam project should be constructed in the segment of the Main Stem of the Kings River from the point at elevation 1,595 feet above mean sea level downstream to the point at elevation 990 feet above mean sea level, Congress declares its intention at this time not to designate that segment of the Kings River as a component of the Wild and Scenic Rivers System. Notwithstanding any other provision of law, no Federal lands may be used for the construction of any dam or diversion within the boundaries of the special management area without specific authority of the Congress. In order to protect the natural, cultural, recreational, fishery, and wildlife values of the river segment referred to in this subsection, that segment shall be subject to the provisions of section 1278(a) of this title, in the same manner as if it were designated. Nothing in this Act shall preclude the Kings River Conservation District from conducting studies as it may deem appropriate.

“SEC. 601. SHORT TITLE.

“This Act [probably should be “this title” meaning Pub. L. 105–277, div. A, §101(e) [title VI]] may be cited as the ‘Interstate 90 Land Exchange Act of 1998’.

“SEC. 602. FINDINGS AND PURPOSE.

“(a) FINDINGS.—Congress finds that—

“(1) certain parcels of private land located in central and southwest Washington are intermingled with National Forest System land owned by the United States and administered by the Secretary of Agriculture as parts of the Mt. Baker-Snoqualmie National Forest, Wenatchee National Forest, and Gifford Pinchot National Forest;

“(2) the private land surface estate and some subsurface is owned by the Plum Creek Timber Company, L.P. in an intermingled checkerboard pattern, with the United States or Plum Creek owning alternate square mile sections of land or fractions of square mile sections;

“(3) the checkerboard land ownership pattern in the area has frustrated sound and efficient land management on both private and National Forest lands by complicating fish and wildlife habitat management, watershed protection, recreation use, road construction and timber harvest, boundary administration, and protection and management of threatened and endangered species and old growth forest habitat;

“(4) acquisition by the United States of certain parcels of land that have been offered by Plum Creek for addition to the Mt. Baker-Snoqualmie National Forest and Wenatchee National Forest will serve important public objectives, including—

“(A) enhancement of public access, aesthetics and recreation opportunities within or near areas of very heavy public recreational use including—

“(i) the Alpine Lakes Wilderness Area;

“(ii) the Pacific Crest Trail;

“(iii) Snoqualmie Pass;

“(iv) Cle Elum Lake, Kachess Lake and Keechulus Lake; and

“(v) other popular recreation areas along the Interstate 90 corridor east of the Seattle-Tacoma Metropolitan Area;

“(B) protection and enhancement of old growth forests and habitat for threatened, endangered and sensitive species, including a net gain of approximately 28,500 acres of habitat for the northern spotted owl;

“(C) consolidation of National Forest holdings for more efficient administration and to meet a broad array of ecosystem protection and other public land management goals, including net public gains of approximately 283 miles of stream ownership, 14 miles of the route of the Pacific Crest Trail, 20,000 acres of unroaded land, and 7,360 acres of riparian land; and

“(D) a significant reduction in administrative costs to the United States through—

“(i) consolidation of Federal land holdings for more efficient land management and planning;

“(ii) elimination of approximately 300 miles of boundary identification and posting;

“(iii) reduced right-of-way, special use, and other permit processing and issuance for roads and other facilities on National Forest System land; and

“(iv) other administrative cost savings;

“(5) Plum Creek has selected certain parcels of National Forest System land that are logical for consolidation into Plum Creek ownership utilizing a land exchange because the parcels—

“(A) are intermingled with parcels owned by Plum Creek; and

“(B)(i) are generally located in less environmentally sensitive areas than the Plum Creek offered land; and

“(ii) have lower public recreation and other public values than the Plum Creek offered land;

“(6) time is of the essence in consummating a land exchange because delays may force Plum Creek to road or log the offered land and thereby diminish the public values for which the offered land is to be acquired; and

“(7) it is in the public interest to complete the land exchange at the earliest practicable date so that the offered land can be acquired and preserved by the United States for permanent public management, use, and enjoyment.

“(b) PURPOSE.—It is the purpose of this Act to further the public interest by authorizing, directing, facilitating, and expediting the consummation of the Interstate 90 land exchange so as to ensure that the offered land is expeditiously acquired for permanent public use and enjoyment.

“(c) ACCESS TO CERTAIN LANDS ACQUIRED BY THE UNITED STATES.—Outside of Cost Share Construction and Use Agreement Areas, Plum Creek shall grant the Secretary road access easements at no cost on the locations identified by the Secretary in a format acceptable to the Secretary.

“(e) WITHDRAWAL OF SELECTED LAND.—Effective upon the date of enactment of this Act [Oct. 21, 1998], all selected land identified for exchange to Plum Creek under section 604(b) is hereby withdrawn from all forms of entry and appropriation under the U.S. mining and mineral leasing laws, including the Geothermal Steam Act of 1970 [30 U.S.C. 1001 et seq.], until such time as the exchange is consummated, or until a particular parcel or parcels are deleted from the exchange under section 605(d).

“(f) WITHDRAWAL OF CLE ELUM RIVER LANDS.—Lands acquired by the Secretary under this Act that are located in Township 23 North, Range 14 East, and Township 22 North, Range 14 East, Willamette Meridian, shall upon the date of their acquisition be permanently withdrawn from all forms of entry and appropriation under the U.S. mining and mineral leasing laws, including the Geothermal Steam Act of 1970 [30 U.S.C. 1001 et seq.].

“(g) PARCELS SUBJECT TO HISTORIC OR CULTURAL RESOURCE RESTRICTIONS.—

Such report shall include an exact description of each restriction or mitigation action required.

“(2) PLUM CREEK RESPONSE.—Within 30 days of receipt of the Secretary's report under paragraph (1), Plum Creek shall notify the Secretary as to: (i) those parcels it will accept subject to the identified use restrictions or mitigation requirements; and (ii) those parcels it will not accept because the restrictions or mitigation requirements are deemed by Plum Creek to be an unacceptable encumbrance on the land.

“(3) PARCEL DELETION.—The Secretary shall delete from the selected land those parcels identified by Plum Creek as unacceptable for conveyance under paragraph (2).

“(4) APPRAISAL ADJUSTMENT.—The fair market value of any parcels deleted under paragraph (3), or any modification in fair market value caused by the use restrictions or mitigation requirements on land accepted by Plum Creek, shall be based on their contributory value to the final approved appraised value of the selected land and subtracted from such value prior to consummation of the exchange.

“(h) ACCESS LIMITATION.—The Secretary shall not grant any road easements that would access the offered lands listed in section 604(a) prior to consummation of the exchange: *Provided*, That this provision shall not apply should either party withdraw from the exchange.

“SEC. 607. LAND PURCHASE.

“(a) FINDING.—The Congress finds that certain lands owned by Plum Creek in the vicinity of the offered lands (but which are not included in the land exchange under this Act, or are deleted under section 605(c)) are highly desirable for addition to the National Forest System, and that Plum Creek has indicated its willingness to sell certain such lands to the United States. It is the intention of Congress that such lands be acquired by the United States, subject to the availability of funds, by purchase at fair market value consistent with the land acquisition procedures of the Secretary, and with the consent of Plum Creek, in order to preserve their outstanding scenic and natural values for the benefit of future generations.

“The Secretary is authorized and directed to consult with Plum Creek concerning opportunities for the United States to acquire by exchange or purchase Plum Creek lands along the Tieton River in Township 14 North, Range 15 East, Willamette Meridian.

“SEC. 609. FUTURE LAND EXCHANGE OPPORTUNITY.

“(a) FINDING.—The Congress finds that certain lands which were identified for exchange to the United States in the I-90 Land Exchange process have been, or may be, deleted from the final exchange under this Act due to value equalization or other reasons. However, some or all of such deleted lands, or other Plum Creek lands, may possess attributes that merit their conveyance to the United States in a follow-up land exchange, including lands in or around the Carbon River, the Yakima River, the Pacific Crest Trail, Watch Mountain and Goat Mountain on the Gifford Pinchot National Forest, the Green River and the Manastash late successional reserve.

“(b) FUTURE EXCHANGE.—In furtherance of subsection (a), the Secretary is authorized and directed to consult with Plum Creek in examining opportunities for the United States to acquire such deleted lands, or other Plum Creek lands in the State of Washington, in a future exchange.

The Secretary should identify the most urgent acquisitions for purchase or exchange in the report.

“SEC. 610. WILDERNESS STUDY AREA.

“In furtherance of the purposes of the Wilderness Act [16 U.S.C. 1131 et seq.], if the land exchange directed by this Act is consummated, the area of land comprising approximately 15,000 acres, as generally depicted on a map entitled ‘Alpine Lakes Wilderness Study Area’, dated October 1998, shall be reviewed by the Secretary of Agriculture as to its suitability for preservation as wilderness. The Secretary shall submit a report and findings to the President, and the President shall submit his recommendations to the United States House of Representatives and United States Senate no later than three years after the first date on which deeds are exchanged to consummate the land exchange. Subject to valid existing rights and existing uses, such lands shall, until Congress determines otherwise or until December 31, 2003, be administered by the Secretary to maintain their wilderness character existing as of the date of enactment of this Act and potential for inclusion in the National Wilderness Preservation System, and shall be withdrawn from all forms of entry and appropriation under the U.S. mining and mineral leasing laws, including the Geothermal Steam Act of 1970 [30 U.S.C. 1001 et seq.].

“SEC. 611. KELLY BUTTE SPECIAL MANAGEMENT AREA.

“[Enacted this section.]

“SEC. 612. EFFECT ON COUNTY REVENUES.

“The Secretary shall consult with the appropriate Committees of Congress, and local elected officials in the counties in the State of Washington in which the offered lands are located, regarding options to minimize the adverse effect on county revenues of the transfer of the offered lands from private to Federal ownership.”

§539I. Designation of James Peak Protection Area, Colorado

(a) Findings and purpose

(1) Findings

The Congress finds the following:

(A) The lands covered by this section include important resources and values, including wildlife habitat, clean water, open space, and opportunities for solitude.

(B) These lands also include areas that are suitable for recreational uses, including use of snowmobiles in times of adequate snow cover as well as use of other motorized and nonmotorized mechanical devices.

(C) These lands should be managed in a way that affords permanent protection to their resources and values while permitting continued recreational uses in appropriate locales and subject to appropriate regulations.

(2) Purpose

The purpose of this section is to provide for management of certain lands in the

Arapaho/Roosevelt National Forest in a manner consistent with the 1997 Revised Land and Resources Management Plan for this forest in order to protect the natural qualities of these areas.

(b) Designation

The approximately 16,000 acres of land in the Arapaho/Roosevelt National Forest generally depicted on the map entitled “Proposed James Peak Protection Area”, dated September 2001, are hereby designated as the James Peak Protection Area (hereafter in this Act referred to as the “Protection Area”).

(c) Map and boundary description

As soon as practicable after August 21, 2002, the Secretary shall file with the Committee on Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a map and a boundary description of the Protection Area. The map and boundary description shall have the same force and effect as if included in this Act, except that the Secretary may correct clerical and typographical errors in the map and boundary description. The map and boundary description shall be on file and available for public inspection in the office of the Chief of the Forest Service, Department of Agriculture, and in the office of the Forest Supervisor of the Arapaho/Roosevelt National Forest.

(d) Management

(1) In general

Except as otherwise provided in this section, the Protection Area shall be managed and administered by the Secretary in the same manner as the management area prescription designations identified for these lands in the 1997 Revision of the Land and Resource Management Plan for the Arapaho/Roosevelt National Forest and the Pawnee National Grasslands. Such management and administration shall be in accordance with the following:

(A) Grazing

Nothing in this Act, including the establishment of the Protection Area, shall affect grazing on lands within or outside of the Protection Area.

(B) Mining withdrawal

Subject to valid existing rights, all Federal land within the Protection Area and all land and interests in land acquired for the Protection Area by the United States are withdrawn from—

- (i) all forms of entry, appropriation, or disposal under the public land laws;
- (ii) location, entry, and patent under the mining laws; and
- (iii) the operation of the mineral leasing, mineral materials, and geothermal leasing laws, and all amendments thereto.

Nothing in this subparagraph shall be construed to affect discretionary authority of the Secretary under other Federal laws to grant, issue, or renew rights-of-way or other land use authorizations consistent with the other provisions of this Act.

(C) Motorized and mechanized travel

(i) Review and inventory

Not later than two years after August 21, 2002, the Secretary, in consultation with interested parties, shall complete a review and inventory of all roads and trails in the Protection Area on which use was allowed on September 10, 2001, except those lands managed under the management prescription referred to in subparagraph (F). During the review and inventory, the Secretary may—

- (I) connect existing roads and trails in the inventoried area to other existing roads and trails in the inventoried area for the purpose of mechanized and other nonmotorized use on any lands within the Protection Area as long as there is no net gain in the total mileage of either roads or trails open for public use within the Protection Area; and
- (II) close or remove roads or trails within the Protection Area that the Secretary

determines to be undesirable, except those roads or trails managed pursuant to paragraph (2) of this subsection or subsection (e)(3) of this section.

(ii) After completion of inventory

After completion of the review and inventory required by clause (i), the Secretary shall ensure that motorized and mechanized travel within the Protection Area shall be permitted only on those roads and trails identified as open to use in the inventory or established pursuant to subparagraph (D).

(D) New roads and trails

No new roads or trails shall be established within the Protection Area except those which the Secretary shall establish as follows:

(i) Roads and trails established to replace roads or trails of the same character and scope which have become nonserviceable through reasons other than neglect.

(ii) Nonpermanent roads as needed for hazardous fuels reduction or other control of fire, insect or disease control projects, or other management purposes.

(v) Construction of a trail for nonmotorized use following the corridor designated as the Continental Divide Trail.

(E) Timber harvesting

No timber harvesting shall be allowed within the Protection Area except to the extent needed for hazardous fuels reduction or other control of fire, insect or disease control projects, or protection of public health or safety.

(F) Special interest area

The management prescription applicable to the lands described in the 1997 Revision of the Land and Resource Management Plan as the James Peak Special Interest Area shall also be applicable to all the lands in the Protection Area that are bounded on the north by Rollins Pass Road, on the east by the Continental Divide, and on the west by the 11,300 foot elevation contour as shown on the map referred to in subsection (b) of this section. In addition, motorized vehicle use shall not be permitted on any part of the Rogers Pass trail.

(2) Natural gas pipeline

The Secretary shall allow for maintenance of rights-of-ways and access roads located within the Protection Area to the extent necessary to operate the natural gas pipeline permitted under the Arapaho/Roosevelt National Forest master permit numbered 4138.01 in a manner that avoids negative impacts on public safety and allows for compliance with Federal pipeline safety requirements. Such maintenance may include vegetation management, road maintenance, ground stabilization, and motorized vehicle access.

(3) Permanent Federal ownership

All right, title, and interest of the United States, held on or acquired after August 21, 2002, to lands within the boundaries of the Protection Area shall be retained by the United States.

(e) Issues related to water

(1) Statutory construction

(A) Nothing in this Act shall constitute or be construed to constitute either an express or implied reservation of any water or water rights with respect to the lands within the Protection Area.

(B) Nothing in this Act shall affect any conditional or absolute water rights in the State of Colorado existing on August 21, 2002.

(C) Nothing in this subsection shall be construed as establishing a precedent with regard to any future protection area designation.

(D) Nothing in this Act shall be construed as limiting, altering, modifying, or amending any of

the interstate compacts or equitable apportionment decrees that apportion water among and between the State of Colorado and other States.

(2) Colorado water law

The Secretary shall follow the procedural and substantive requirements of the law of the State of Colorado in order to obtain and hold any new water rights with respect to the Protection Area.

(3) Water infrastructure

Nothing in this Act (including the provisions related to establishment or management of the Protection Area) shall affect, impede, interfere with, or diminish the operation, existence, access, maintenance, improvement, or construction of water facilities and infrastructure, rights-of-way, or other water-related property, interests, and uses, (including the use of motorized vehicles and equipment existing or located on lands within the Protection Area) on any lands except those lands managed under the management prescription referred to in subsection (d)(1)(F) of this section.

(c) Commission land use ordinances

(1) Within ninety days after making a determination that a county has failed to comply with the provisions of this section, the Commission shall make and publish a land use ordinance setting standard for the use of non-Federal lands in such county within the boundaries of the national scenic area, excluding urban areas identified in section 544b(e) of this title. The ordinance shall have the object of assuring that the use of such non-Federal lands is consistent with the management plan. The ordinance may differ amongst the several parcels of land within the boundaries of the scenic area. The ordinance may from time to time be amended by the Commission.

(2) SUBSEQUENT COMPLIANCE.—In the event the Commission has promulgated regulations pursuant to this section, a county may thereafter upon written notice to the Commission elect to adopt a land use ordinance, in which event it shall comply with the provisions of this section for adoption of a land use ordinance. Upon approval of a land use ordinance by the Commission it shall supersede any regulations for the county developed by the Commission, subject to valid existing rights.

(d) Construction of facilities

The Secretary is hereby authorized to design, construct, operate and maintain such facilities as are included in the recreation assessment.

(Pub. L. 99-663, §7, Nov. 17, 1986, 100 Stat. 4282.)

§544f. Administration of special management areas

(a) Administration of Federal lands

(1) ¹ The Secretary shall administer Federal lands within the special management areas in accordance with sections 544 to 544p of this title and other laws, rules and regulations applicable to the national forest system. In addition, the construction of roads and the management, utilization and harvest of timber on Federal lands within the special management areas also shall be subject to Forest Service visual resource management guidelines. The Secretary shall utilize lands acquired through exchange in calculating the allowable sales quantity on the Gifford Pinchot and Mount Hood National Forests.

(b) Withdrawal of Federal lands

Subject to valid existing rights, all Federal lands located in the special management areas are hereby withdrawn from all forms of entry, appropriation, or disposal under the public land laws, from location, entry, and patent under the mining laws of the United States, and from disposition under all laws pertaining to mineral and geothermal leasing: *Provided*, That the Secretary may allow the exploration, development, or production of sand, gravel, and crushed rock as necessary to construct, maintain, or reconstruct roads in the special management areas.

(c) Resource inventory

The Secretary shall complete a resource inventory for the special management areas consistent with the process and substance of the inventory prescribed by section 544d(a)(1) of this title.

(d) Recreation assessment

Within two years after November 17, 1986, the Secretary shall complete an assessment of recreation resources in the special management areas and opportunities for enhancement of these resources. The recreation assessment shall—

(1) identify areas within the special management areas suitable for designation by the Commission pursuant to section 544d of this title for the construction of an interpretive center or other appropriate facility, to be located in the State of Oregon, and of a conference center or other appropriate facility, to be located in the State of Washington;

(2) identify areas within the special management areas suitable for other public use facilities, including but not limited to educational and interpretive facilities, campsites, picnic areas, boat launch facilities, and river access areas; and

(3) subject to the treaty or other rights of Indian tribes, identify areas within the special management areas suitable for use to increase access for recreation purposes to the Columbia River and its tributaries.

(e) Land use designations

Within three years after November 17, 1986, the Secretary shall develop land use designations for the special management areas. The land use designations shall be—

(1) based on the resource inventory prepared by the Secretary pursuant to this section; and

(2) consistent with the standards established in section 544d of this title.

(f) Guidelines for land use ordinances

(1) ² Within three years after November 17, 1986, the Secretary shall, in consultation with the Commission, develop guidelines to assure that non-Federal lands within the special management areas are managed consistent with the standards in section 544d of this title and the purposes of sections 544 to 544p of this title. The Secretary shall promptly transmit the guidelines to the Commission for inclusion in the management plan. The guidelines shall require that management,

utilization, and disposal of timber, and exploration, development, and production of sand, gravel, and crushed rock for the construction, maintenance, or reconstruction of roads used to manage or harvest forest products on non-Federal lands within the special management areas take place without adversely affecting the scenic, cultural, recreation, and natural resources of the scenic area.

(h) ³ Adoption of special management area land use ordinances

(1) Within sixty days of receipt of the management plan, each county shall submit to the Commission a letter stating that it proposes to adopt a land use ordinance consistent with the management plan. If any county fails to submit a letter as provided in this subsection, or fails to adopt a land use ordinance as provided in this section, the Commission shall carry out the requirements of subsection (1) of this section.

(2) Within two hundred seventy days of receipt of the management plan, each county shall adopt a special management area land use ordinance consistent with the management plan, and thereafter may adopt an amendment, revision or variance to a land use ordinance at any time. Each county upon adoption of a special management area land use ordinance shall promptly submit the adopted ordinance to the Commission.

(i) Review by Commission

(1) The Commission shall review the special management area land use ordinance received from each county, and within ninety days after receipt shall make a tentative determination as to whether the ordinance is consistent with the management plan. If the Commission makes a tentative determination that the land use ordinance is consistent with the management plan, the Commission shall send the ordinance to the Secretary for concurrence.

(2) If the Commission makes a tentative determination that the land use ordinance is inconsistent with the management plan, the Commission shall state the reasons for the determination and shall return the ordinance to the appropriate county with suggested modifications required for consistency with the management plan.

(3) Each county shall have ninety days after it is notified by the Commission to make modifications designed to eliminate the inconsistencies and to resubmit the ordinance to the Commission for tentative determination of consistency. The Commission shall have sixty days to make a tentative consistency determination on the resubmitted ordinance. If found consistent, the land use ordinance shall be transmitted by the Commission to the Secretary for concurrence that the ordinance is consistent with the management plan. If the Commission finds the resubmitted ordinance inconsistent, the Commission shall adopt an ordinance pursuant to subsection (1) of this section.

(j) Concurrence by Secretary

(1) Upon receipt of a special management area land use ordinance from the Commission, the Secretary shall notify the public of such receipt and shall, within ninety days thereafter, concur with the Commission's tentative determination of consistency with the management plan unless the Secretary determines the ordinance is inconsistent. Any ordinance submitted to the Secretary shall become effective upon notification of concurrence. Should the Secretary fail to act within ninety days, the Secretary shall be deemed to have concurred with the Commission's tentative consistency determination.

(2) DENIAL OF CONCURRENCE.—If concurrence is denied, the Secretary shall state the reasons therefor and shall submit to the Commission suggested modifications to the land use ordinances to make them consistent with the management plan and the purposes of sections 544 to 544p of this title.

(k) Commission reconsideration

Upon receipt of notification of nonconcurrence by the Secretary, the Commission shall resubmit the land use ordinance to the appropriate county. Such county shall within ninety days, reconsider and revise the ordinance and resubmit the ordinance to the Commission for reconsideration in accordance with the provisions of this section. Should the Secretary again deny concurrence, the Commission shall either prepare a land use ordinance for such county pursuant to subsection (1) of

this section or, by a two-thirds vote of the membership of the Commission including a majority of the members appointed from each State, determine that the ordinance is consistent with the management plan.

(l) Commission ordinances

(1) Within ninety days after making a determination that a county has failed to comply with the provisions of subsection (h) of this section, the Commission shall make and publish an ordinance setting standards for the use of non-Federal lands of such county within the boundaries of the special management areas. The ordinances shall have the object of assuring that the use of such lands is consistent with the management plan. The ordinances may differ amongst the several parcels of land within the boundaries of the special management areas. The ordinances may from time to time be amended by the Commission.

(2) The Commission shall promptly submit the ordinance to the Secretary. The Secretary shall, within ninety days after receipt of the ordinance from the Commission, concur with the tentative determination that the land use ordinance is consistent with the management plan unless a determination of inconsistency is made. Any ordinance submitted to the Secretary shall become effective upon concurrence. Should the Secretary fail to concur within ninety days, the land use ordinance shall be effective.

(3) If concurrence is denied, the Secretary shall state the reasons for finding the ordinance is inconsistent with the management plan, and shall submit to the Commission suggested modifications to the ordinance to make it consistent with the plan.

(4) The Commission shall have ninety days after it receives recommendations from the Secretary to make modifications designed to eliminate the inconsistencies and to resubmit the ordinance to the Secretary for concurrence. The Secretary shall have sixty days to concur with the resubmitted ordinance. Any resubmitted ordinance shall become effective upon concurrence by the Secretary. Should the Secretary deny concurrence for the resubmitted ordinance, the Secretary shall state the reasons therefor and shall promptly resubmit the ordinance for reconsideration. Should the Secretary fail to concur within sixty days, the ordinance shall be deemed effective.

(5) Within one hundred twenty days after receipt of notification of non-concurrence, the Commission shall—

(A) revise and resubmit the land use ordinance to the Secretary; or

(B) by a vote of two-thirds of its membership, including a majority of the members appointed from each State, reject the suggested modifications of the Secretary and adopt a land use ordinance consistent with the provisions of this section and the purposes of sections 544 to 544p of this title.

(m) Subsequent compliance

In the event the Commission has adopted an ordinance pursuant to this section, the affected county may thereafter, upon written notice to the Commission and to the Secretary, elect to adopt a special management area land use ordinance, in which event it shall comply with the provisions of this section for adoption of special management area land use ordinances. Upon concurrence of such land use ordinances by the Secretary they shall supersede any special management area land use ordinances for the county development by the Commission, subject to valid existing rights.

(n) Effect of Secretary's non-concurrence

If the Secretary does not concur in any land use ordinance approved or adopted by the Commission pursuant to this section, the availability of certain funds to the relevant county shall be governed by section 544n(c) of this title.

(o) Special rules

(1) In general

Any ordinance adopted pursuant to this section shall not apply to any parcel or parcels of land within a special management area if, after the date such ordinance has been adopted, three years have elapsed after a landowner has made a bona fide offer to sell at fair market value or otherwise

convey such parcel or parcels to the Secretary, unless the affected landowner agrees to an extension of the three year period: *Provided*, That an offer shall not be considered bona fide if the landowner refuses consideration equal to the fair market value as appraised in accordance with section 544g(e) of this title. Lands for which an ordinance is suspended pursuant to this subsection shall be subject to the relevant scenic area land use ordinance adopted pursuant to section 544e of this title.

(2) Applicability

(1) The Secretary is authorized to acquire any lands or interests therein within the special management areas and the Dodson/Warrendale Special Purchase Unit which the Secretary determines are needed to achieve the purposes of sections 544 to 544p of this title: *Provided*, That any lands, waters, or interests therein owned by either State or any political subdivision thereof may be acquired only by donation or exchange.

(2) Lands within the State of Oregon acquired by the Secretary pursuant to sections 544 to 544p of this title shall become part of the Mount Hood National Forest. Lands within the State of Washington acquired by the Secretary pursuant to this section shall become part of the Gifford Pinchot National Forest. All lands acquired by the Secretary pursuant to sections 544 to 544p of this title shall be subject to the laws and regulations pertaining to the National Forest System and sections 544 to 544p of this title.

(b) Limitations on eminent domain

(1) Where authorized in subsection (a) of this section to acquire land or interests therein without the consent of the owner, the Secretary shall—

(A) acquire only such land or interests therein as is reasonably necessary to accomplish the purposes of sections 544 to 544p of this title; and

(B) do so only in cases where all reasonable efforts to acquire with the consent of the owner such lands, or interests therein, have failed.

(2) Notwithstanding the provisions of subsection (a) of this section, the Secretary may not acquire without the consent of the owner lands or interests therein which—

(A) on November 17, 1986, were used primarily for educational, religious, or charitable purposes, single-family residential purposes, farming, or grazing so long as the existing character of that use is not substantially changed or permitted for change;

(B) are located in counties with land use ordinances in which the Secretary has concurred pursuant to section 544f of this title, unless such lands are being used, or are in imminent danger of being used, in a manner incompatible with such ordinances;

(C) are within the boundaries of the Dodson/Warrendale Special Purchase Unit; or

(D) are owned by an Indian tribe, held in trust by the United States for an Indian tribe or member of an Indian tribe, or otherwise administered by the United States for the benefit of an Indian tribe or member of an Indian tribe.

(c) Hardship cases

In exercising authority to acquire lands pursuant to this section the Secretary shall give prompt and careful consideration to any offer made by any person or entity owning any land, or interest in land, within the boundaries of a special management area. In considering such offer, the Secretary shall take into consideration any hardship to the owner which might result from any undue delay in acquiring the property.

(d) Land exchanges

(1) The Secretary is authorized and directed, in conformance with the provisions of this subsection, to acquire by exchange any parcel of unimproved forest land at least forty acres in size within the boundaries of the special management areas which is owned by any private forest land owner if, after November 17, 1986, but within one hundred and eighty days after final adoption of the management plan, such private forest land owner offers to the United States such parcel of forest land.

(2) In exercising this authority to acquire forest lands pursuant to this subsection, the Secretary may accept title to such lands and convey to the owner federally owned lands deemed appropriate by the Secretary within the States of Oregon and Washington, regardless of the State in which the transferred lands are located. Forest lands exchanged pursuant to this subsection shall be of approximately equal value: *Provided*, That the Secretary may accept cash from or pay cash to the grantor in such an exchange in order to equalize minor differences in the values of the properties exchanged: *Provided further*, That the Secretary may reserve in any conveyance pursuant to this subsection such easements, subsurface rights, and any other interests in land deemed necessary or desirable: *Provided further*, That the valuation of lands exchanged shall be determined in terms of forest uses for timber.

(3) It is the intention of Congress that land exchanges pursuant to this subsection shall be completed no later than five years after November 17, 1986.

(4) In the event that exchanges authorized by this section leave any private forest land owner with ownership of an uneconomic remnant of forest land contiguous to a special management area, the Secretary is authorized to acquire such forest lands as if they were within the boundaries of a special management area.

(5) The following-described Federal lands and interests therein are hereby identified as candidate lands for exchanges conducted pursuant to this section: *Provided*, That the determination of which candidate lands will be exchanged, and in what sequence, shall be at the discretion of the Secretary. Subject to valid existing rights, such lands are hereby withdrawn from all forms of entry or appropriation or disposal under the public land laws, and from location, entry, and patent under the United States mining law, and from disposition under all laws pertaining to mineral and geothermal

- (ii) any other current zoning or land use restriction that applies to the land on the date of the offer.

(f) Authorization for certain land exchanges

(1) In general

To facilitate priority land exchanges through which land within the boundaries of the White Salmon Wild and Scenic River or within the scenic area is conveyed to the United States, the Secretary may accept title to such land as the Secretary determines to be appropriate within the States, regardless of the State in which the land conveyed by the Secretary in exchange is located, in accordance with land exchange authorities available to the Secretary under applicable law.

(2) Special rule for land certain exchanges

Notwithstanding any other provision of law—

CONVEYANCE OF LANDS BETWEEN SKAMANIA COUNTY AND THE UNITED STATES

Pub. L. 105–277, div. A, §101(e) [title III, §341], Oct. 21, 1998, 112 Stat. 2681–231, 2681–296, provided that:

“Upon the condition that Skamania County conveys title acceptable to the Secretary of Agriculture to all right, title and interest in lands identified on a map dated September 29, 1998 entitled ‘Skamania County Lands to be Transferred’, such lands being located on Table Mountain lying within the Columbia River Gorge National Scenic Area, there is hereby conveyed to Skamania County, notwithstanding any other provision of law, the Wind River Nursery Site lands and facilities and all interests therein, except for the corridor of the Pacific Crest National Scenic Trail, as depicted on a map dated September 29, 1998, entitled ‘Wind River Conveyance’, which is on file and available for public inspection in the Office of the Chief, USDA Forest Service, Washington, D.C.

“The conveyance of lands to Skamania County shall become automatically effective upon a determination by the Secretary that Skamania County has conveyed acceptable title to the United States to the Skamania County lands. Lands conveyed to the United States shall become part of the Gifford Pinchot National Forest and shall have the status of lands acquired under the Act of March 1, 1911, (commonly called the Weeks Act) [see Short Title note set out under section 552 of this title] and shall be managed in accordance with the laws and regulations applicable to the National Forest System.”

LAND EXCHANGES

Pub. L. 105–83, title III, §336, Nov. 14, 1997, 111 Stat. 1602, provided that: “To facilitate priority land exchanges through which the United States will receive land within the White Salmon Wild and Scenic River boundaries and within the Columbia River Gorge National Scenic Area, the Secretary of Agriculture may, until September 30, 2000, accept title to such lands deemed appropriate by the Secretary within the States of Oregon and Washington, regardless of the State in which the transferred lands are located, following existing exchange authorities.”

WIND RIVER NURSERY

Pub. L. 105–83, title III, §340, Nov. 14, 1997, 111 Stat. 1603, provided that:

“(a) The Secretary of Agriculture is authorized and directed to negotiate with Skamania County for the exchange of lands or interests in lands constituting the Wind River Nursery Site within the Gifford Pinchot National Forest, Washington.

“(b) In return for the Nursery Site properties, Skamania County is authorized and directed to negotiate with the Forest Service the conveyance of approximately 120 acres of high biodiversity, special management lands located near Table Mountain within the Columbia River Gorge National Scenic Area, title to which must be acceptable to the Secretary of Agriculture.

“(c) Before this exchange can occur, it must be of equal value and the Secretary and the Skamania County Board of Commissioners must agree on the exact parcels of land to be included in the exchange. An agreement signed by the Secretary of Agriculture and the Skamania County Board of Commissioners describing the properties involved and a certification that the exchange is of equal value must be completed no later than September 30, 1999.

“(d) During this two-year negotiating period, the Wind River Nursery property shall not be conveyed to another party. The Forest Service shall maintain the site in a tenantable condition.

“(e) Except as provided herein, the exchange shall be for equal value in accordance with land exchange authorities applicable to the National Forest System.

“(f) The Secretary is directed to equalize values by not only cash and exchange of lands, easements, reservations, and other interests in lands, but also by full value credit for such services as Skamania County provides to the Gifford Pinchot and Columbia River Gorge National Scenic Area and as the Secretary and Skamania County deem appropriate. The Secretary may accept services in lieu of cash when the Secretary can discern cash value for the services and when the Secretary determines such services would provide direct benefits to lands and resources and users of such lands and resources under the jurisdiction of the Secretary.

“(g) Any cash equalization which Skamania County elects to make may be made up to 50 percent of the fair market value of the Federal property, and such cash equalization may be made in installments over a period not to exceed 25 years. Payments received as partial consideration shall be deposited into the fund in the Treasury established under the Act of December 4, 1967 [16 U.S.C. 484a], commonly known as the Sisk Act, and shall be available for expenditure as provided in the Act except that the Secretary may not use those funds to purchase lands within Skamania County.

“(h) In defining the Federal estate to be conveyed, the Secretary may require such additional terms and conditions as deemed necessary in connection with assuring equal value and public interest considerations in this exchange including, but not limited to, continued research use of the Wind River Experimental Forest and protection of natural, cultural, and historic resources, existing administrative sites, and a scenic corridor for the Pacific Crest National Scenic Trail.

“(i) This authorization is predicated on Skamania County's Board of Commissioners commitment to give foremost consideration to preservation of the overall integrity of the site and conservation of the educational and research potential of the site, including providing for access to and assurance of the continued administration and operation of forestry research on the adjacent Thornton Munger Research Natural Area.

“(j) The Secretary is further directed to cooperate with Skamania County to address applicable Federal and State environmental laws.

“(k) Notwithstanding the processes involved with the National Environmental Policy Act [of 1969, 42 U.S.C. 4321 et seq.] and the State Environmental Policy Act, should the Secretary of Agriculture and the Skamania County Board of Commissioners fail to reach an agreement on an equal value exchange defined

under the terms of this legislation by September 30, 1999, the Wind River Nursery Site shall remain under Forest Service ownership and be maintained by the Forest Service in a tenantable condition.”

§544h. Interim management

The Secretary shall promptly notify the public of adoption of the interim guidelines and transmit the guidelines to each county. Guidelines adopted by the Secretary pursuant to this subsection shall remain in effect for each county until the Secretary has developed guidelines for the special management areas pursuant to section 544f of this title and the land use ordinances prescribed by section 544e of this title are in effect.
