CODIFICATION

Words “Coast and Interior Survey” appearing in act Mar. 3, 1879, were in prior editions of the Code changed to “Coast and Geodetic Survey.” Congress never created a Coast and Interior Survey. In a communication dated Nov. 6, 1940, the Director of the Geological Survey explained that the words “Coast and Interior Survey” were inadvertently incorporated upon authority of report contained in Senate Misc. Doc. No. 9, 45th Congress, 3d Session, which recommended the “Coast and Geodetic Survey” be changed to “United States Coast and Interior Survey” and an organization be created in the Interior Department to be known as the “United States Geological Survey.” Congress adopted only the latter suggestion.

Coast and Geodetic Survey consolidated with National Weather Bureau in 1965 to form Environmental Science Services Administration by Reorg. Plan No. 2 of 1965, eff. July 13, 1965, 30 F.R. 8819, 79 Stat. 1318. Environmental Science Services Administration abolished in 1970 and its personnel, property, records, etc., transferred to National Oceanic and Atmospheric Administration by Reorg. Plan No. 4 of 1970, eff. Oct. 3, 1970, 35 F.R. 15627, 84 Stat. 2090. By order of Acting Associate Administrator of National Oceanic and Atmospheric Administration, 35 F.R. 19249, Dec. 19, 1970, Coast and Geodetic Survey redesignated National Ocean Survey. See notes set out under section 311 of Title 15, Commerce and Trade.

§80q. Findings

The Congress finds that—

(1) there is no national museum devoted exclusively to the history and art of cultures indigenous to the Americas;

(2) although the Smithsonian Institution sponsors extensive Native American programs, none of its 19 museums, galleries, and major research facilities is devoted exclusively to Native American history and art;

(3) the Heye Museum in New York, New York, one of the largest Native American collections in the world, has more than 1,000,000 art objects and artifacts and a library of 40,000 volumes relating to the archaeology, ethnology, and history of Native American peoples;

(4) the Heye Museum is housed in facilities with a total area of 90,000 square feet, but requires a minimum of 400,000 square feet for exhibition, storage, and scholarly research;

(5) the bringing together of the Heye Museum collection and the Native American collection of the Smithsonian Institution would—

(A) create a national institution with unrivaled capability for exhibition and research;

(B) give all Americans the opportunity to learn of the cultural legacy, historic grandeur, and contemporary culture of Native Americans;

(C) provide facilities for scholarly meetings and the performing arts;

(D) make available curatorial and other learning opportunities for Indians; and

(E) make possible traveling exhibitions to communities throughout the Nation;

(6) by order of the Surgeon General of the Army, approximately 4,000 Indian human remains from battlefields and burial sites were sent to the Army Medical Museum and were later transferred to the Smithsonian Institution;

(7) through archaeological excavations, individual donations, and museum donations, the Smithsonian Institution has acquired approximately 14,000 additional Indian human remains;

(8) the human remains referred to in paragraphs (6) and (7) have long been a matter of concern for many Indian tribes, including Alaska Native Villages, and Native Hawaiian communities which are determined to provide an appropriate resting place for their ancestors;

(9) identification of the origins of such human remains is essential to addressing that concern; and

(10) an extraordinary site on the National Mall in the District of Columbia (U.S. Government Reservation No. 6) is reserved for the use of the Smithsonian Institution and is available for construction of the National Museum of the American Indian.

“SEC. 2. FINDINGS.

“The Congress finds the following:

“(1) Native Americans across the Nation—Indians, Native Alaskans, and Native Hawaiians—have a long, proud and distinguished tradition of service in the Armed Forces of the United States.

“(2) Native Americans have historically served in the Armed Forces of the United States in numbers which far exceed their representation in the population of the United States.

“(3) Native American veterans count among themselves a number of Medal of Honor recipients. Their numbers are also conspicuous in the ranks of those who have received other decorations for valor and distinguished service.

“(4) Native Americans have lost their lives in the service of their Nation and in the cause of peace.

“(5) The National Museum of the American Indian was established as a living memorial to Native Americans. Its mission is to advance knowledge and understanding of Native American cultures, including art, history, language, and the contributions Native Americans have made to our society.

“(6) The National Museum of the American Indian is an extraordinary site and an ideal location to establish a National Native American Veterans’ Memorial.

“(7) A National Native American Veterans’ Memorial would further the purposes of the National Museum of the American Indian by giving all Americans the opportunity to learn of the proud and courageous tradition of service of Native Americans in the Armed Forces of the United States.

“SEC. 3. AUTHORITY TO ESTABLISH MEMORIAL.

“(a) IN GENERAL.—The National Museum of the American Indian (established by the National Museum of the American Indian Act (20 U.S.C. 80q et seq.)), in close consultation with the National Congress of American Indians and other Native American groups, is authorized to construct and maintain a National Native American Veterans’ Memorial (hereafter in this Act referred to as the ‘memorial’).

“(c) DESIGN AND PLANS.—(1) The National Congress of American Indians and the National Museum of the American Indian are authorized to hold a competition to select the design of the Memorial. Any design so selected shall be compatible with both the purpose of the Museum, as set forth in section 3(b) of the National Museum of the American Indian Act (20 U.S.C. 80q–1 [(b)]), and with any existing design plans for the Museum's structure and its surroundings.

“(2) Any design so selected shall be subject to the approval of the Board of Regents of the Smithsonian Institution.

“SEC. 4. PAYMENT OF EXPENSES AND USE OF NAME.

“(a) RESPONSIBILITY OF NATIONAL CONGRESS OF AMERICAN INDIANS AND NATIONAL MUSEUM OF THE AMERICAN INDIAN.—The National Congress of American Indians and the National Museum of the American Indian shall be responsible for acceptance of contributions for, and payment of the expenses of, the establishment of the memorial. No Federal funds may be used to pay any expense of the establishment of the memorial.

“(b) USE OF NAME.—Use of the name of the Smithsonian Institution or the National Museum of the American Indian in any material regarding the memorial produced by the National Congress of American Indians, other than in a manner simply describing the location of the memorial, shall be subject to consultation with, and the approval of, the Board of Regents of the Smithsonian Institution.”

(c) Return of Indian human remains and associated Indian funerary objects

If any Indian human remains are identified by a preponderance of the evidence as those of a particular individual or as those of an individual culturally affiliated with a particular Indian tribe, the Secretary, upon the request of the descendants of such individual or of the Indian tribe shall expeditiously return such remains (together with any associated funerary objects) to the descendants or tribe, as the case may be.

(e) Interpretation

Nothing in this section shall be interpreted as—

Where cultural affiliation of Native American unassociated funerary objects, sacred objects, and objects of cultural patrimony has been established in the summary prepared pursuant to subsection (a) of this section, or where a requesting Indian tribe or Native Hawaiian organization can show

If a known lineal descendant or an Indian tribe or Native Hawaiian organization requests the return of Native American unassociated funerary objects, sacred objects, or objects of cultural patrimony pursuant to this subchapter and presents evidence which, if standing alone before the introduction of evidence to the contrary, would support a finding that the Smithsonian Institution did not have the right of possession, then the Smithsonian Institution shall return such objects unless it can overcome such inference and prove that it has a right of possession to the objects.

(d) Museum obligation

Any museum of the Smithsonian Institution which repatriates any item in good faith pursuant to this subchapter shall not be liable for claims by an aggrieved party or for claims of fiduciary duty, public trust, or violations of applicable law that are inconsistent with the provisions of this subchapter.

(e) Statutory construction

Nothing in this section may be construed to prevent the Secretary of the Smithsonian Institution, with respect to any museum of the Smithsonian Institution, from making an inventory or preparing a written summary or carrying out the repatriation of unassociated funerary objects, sacred objects, or objects of cultural patrimony in a manner that exceeds the requirements of this subchapter.

SUBCHAPTER XV—CIVIL RIGHTS HISTORY PROJECT

§80s. Findings; purpose

(a) Findings

Congress finds as follows:

(1) A fundamental principle of American democracy is that individuals should stand up for their rights and beliefs and fight for justice.

(2) The actions of those who participated in the Civil Rights movement from the 1950s through the 1960s are a shining example of this principle in action, demonstrated in events as varied as the Montgomery Bus Boycott, the sit-ins, the Freedom Rides, the March on Washington, the drive for voting rights in Mississippi, and the March to Selma.

(3) While the Civil Rights movement had many visible leaders, including Thurgood Marshall, Dr. Martin Luther King, Jr., and Rosa Parks, there were many others whose impact and experience were just as important to the cause but who are not as well known.

(4) The participants in the Civil Rights movement possess an invaluable resource in their first-hand memories of the movement, and the recording of the retelling of their stories and memories will provide a rich, detailed history of our Nation during an important and tumultuous period.

(5) It is in the Nation's interest to undertake a project to collect oral histories of individuals from the Civil Rights movement so future generations will be able to learn of their struggle and sacrifice through primary-source, eyewitness material. A coordinated Federal project would also focus attention on the efforts undertaken by various public and private entities to collect and interpret articles in all formats relating to the Civil Rights movement, and serve as a model for future projects undertaken in museums, libraries, and universities throughout the Nation.

(6) The Library of Congress and the Smithsonian Institution are appropriate repositories to collect, preserve, and make available to the public a collection of these oral histories. The Library and Smithsonian have expertise in the management of documentation projects, and experience in the development of cultural and educational programs for the public.

(b) Purpose

It is the purpose of this subchapter to create a new federally sponsored, authorized, and funded project that will coordinate at a national level the collection of video and audio recordings of personal histories and testimonials of individuals who participated in the American Civil Rights movement that will build upon and complement previous and ongoing documentary work on this subject, and to assist and encourage local efforts to preserve the memories of such individuals so that Americans of all current and future generations may hear from them directly and better appreciate the sacrifices they made.

(Pub. L. 111–19, §2, May 12, 2009, 123 Stat. 1612.)

SHORT TITLE

(a) Establishment of project

(1) In general

Within the limits of available funds, the Librarian of Congress (hereafter referred to as the “Librarian”) and the Secretary of the Smithsonian Institution (hereafter referred to as the “Secretary”),¹ acting jointly, shall establish an oral history project—

(A) to survey, during the initial phase of the project, collections of audio and video recordings of the reminiscences of participants in the Civil Rights movement that are housed in archives, libraries, museums, and other educational institutions, as well as ongoing documentary work, in order to augment and complement these endeavors and avoid duplication of effort;

(B) to solicit, reproduce, and collect—

(i) video and audio recordings of personal histories and testimonials of individuals who participated in the Civil Rights movement, and

(ii) visual and written materials (such as letters, diaries, photographs, and ephemera) relevant to the personal histories of individuals;

(b) Use of and consultation with other entities

The Librarian and the Secretary may carry out the activities described in subsection (a)(1) through agreements and partnerships entered into with other government and private entities, and may otherwise consult with interested persons (within the limits of available resources) and develop appropriate guidelines and arrangements for soliciting, acquiring, and making available recordings under the project under this subchapter.

(c) Services of experts and consultants; acceptance of volunteer services; advance payments

In carrying out activities described in subsection (a)(1), the Librarian and the Secretary may—

(1) procure temporary and intermittent services under section 3109 of title 5;

(2) accept and utilize the services of volunteers and other uncompensated personnel and reimburse them for travel expenses, including per diem, as authorized under section 5703 of title 5; and

(3) make advances of money and payments in advance in accordance with section 3324 of title 31.

(d) Timing

As soon as practicable after May 12, 2009, the Librarian and the Secretary shall begin collecting video and audio recordings and other materials under subsection (a)(1), and shall attempt to collect the first such recordings from the oldest individuals involved.

(e) Definition

In this subchapter, the term “Civil Rights movement” means the movement to secure racial equality in the United States for African Americans that, focusing on the period 1954 through 1968, challenged the practice of racial segregation in the Nation and achieved equal rights legislation for

all American citizens.

(Pub. L. 111–19, §3, May 12, 2009, 123 Stat. 1613.)

REORGANIZATION PLAN NO. 4 OF 1966

EFF. AUG. 23, 1966, 31 F.R. 11137, 80 STAT. 1611

Prepared by the President and transmitted to the Senate and the House of Representatives in Congress assembled, June 13, 1966, pursuant to the provisions of the Reorganization Act of 1949, 63 Stat. 203, as amended [see 5 U.S.C. 901 et seq.].

NATIONAL ZOOLOGICAL PARK BUILDINGS AND BRIDGES

All those functions of the Board of Commissioners of the District of Columbia which were vested in the municipal architect of the District of Columbia by the provisions of the Act of August 24, 1912, c. 355, 37 Stat. 437 (20 U.S.C. 84; D.C. Code [former] §8–134), in respect of buildings of the National Zoological Park, and all functions of that Board which were vested in the engineer of bridges of the District of Columbia by those provisions in respect of bridges of the National Zoological Park, are hereby transferred to the Smithsonian Institution.

MESSAGE OF THE PRESIDENT

To the Congress of the United States:

I transmit herewith Reorganization Plan No. 4 of 1966, prepared in accordance with the Reorganization Act of 1949, as amended, and providing for a reorganization relating to the National Zoological Park located in the District of Columbia.

Today, all responsibilities for the administration of the park are vested in the Smithsonian Institution with one exception—the function of preparing plans and specifications for the construction of buildings and bridges at the zoo. That statutory responsibility is now conducted by the Board of Commissioners of the District of Columbia [now the Mayor].

Under the accompanying reorganization plan, the responsibility for the preparation of these plans and specifications would be transferred from the District of Columbia Board of Commissioners to the Smithsonian. The complete administration of the park would then be vested in one agency—the Smithsonian Institution. This will allow the more efficient and effective development and management of the park.

In 1912, the functions to be transferred were vested in the Municipal Architect of the District of Columbia and in the Engineers of the Bridges of the District of Columbia. In 1952, they were transferred to the Board of Commissioners.

When the 1912 act was passed, the District of Columbia shared the costs of capital improvements in the National Zoological Park. In 1961, it ceased sharing these costs, and the Federal Government assumed complete responsibility for financing the improvements. Accordingly, the District government retains no capital improvement responsibilities for the National Zoological Park except those functions relating to construction plans and specifications for buildings and bridges, as specified in the 1912 statute. Upon the transfer of these remaining functions to the Smithsonian Institution, the administration of the National Zoological Park will, at last, be fully centered in one agency. It is not practicable at this time, however, to itemize the resulting reduction in expenditures.

I have found, after investigation, that each reorganization included in the accompanying reorganization plan is necessary to accomplish one or more of the purposes set forth in section 2(a) of the Reorganization Act of 1949, as amended.

I recommend that the Congress allow the reorganization plan to become effective.

LYNDON B. JOHNSON.

THE WHITE HOUSE, June 13, 1966.

§85. Concessions

(a) Authorization; use of proceeds for research and educational work

The Board of Regents of the Smithsonian Institution, in furtherance of the mission of the National Zoological Park to provide for the advancement of science and instruction and recreation of the people, is authorized to negotiate agreements granting concessions at the National Zoological Park to nonprofit scientific, educational, or historic organizations. The net proceeds of such organizations gained from such concessions granted under this subsection shall be used exclusively for research and educational work for the benefit of the National Zoological Park.

(b) Voluntary services

The Smithsonian Institution is authorized to accept the voluntary services of such organizations, and the voluntary services of individuals, for the benefit of the National Zoological Park.

(1) Purposes and methods of expenditures

First. (A) Such appropriation shall be expended by the trustees of the American Printing House for the Blind each year in manufacturing and furnishing books and other materials specially adapted for instruction of the blind; and the total amount of such books and other materials so manufactured and furnished by such appropriation shall each year be distributed among all the public and private nonprofit institutions in the States, Territories, and possessions of the United States, the Commonwealth of Puerto Rico, and the District of Columbia, in which blind pupils are educated. Each public and private nonprofit institution for the education of the blind shall receive, in books and other materials, upon requisition of its superintendent, that portion of the appropriation as is shown by the ratio between the number of blind pupils in that institution and the total number of blind pupils in all of the public and private nonprofit institutions in which blind pupils are educated. Each chief State school officer shall receive, in books and other materials, upon requisition, that portion of the appropriation as is shown by the ratio between the number of blind pupils in public and private nonprofit institutions (in the State) in which blind pupils are educated, other than institutions to which the preceding sentence is applicable, and the total number of blind pupils in the public and private nonprofit institutions in which blind pupils are educated in all of the States, Territories, and possessions of the United States, the Commonwealth of Puerto Rico, and the District of Columbia. The ratio referred to in each of the two immediately preceding sentences shall be computed upon the first Monday in January of each year; and for purposes of such sentences the number of blind pupils in public and private nonprofit institutions in which blind pupils are educated shall be authenticated in such manner and as often as the trustees of the American Printing House for the Blind shall require. For purposes of sections 101, 102, and 104 of this title, an institution for the education of the blind is any institution which

provides education exclusively for the blind, or exclusively for the blind and other handicapped children (in which case special classes are provided for the blind); the chief State school officer of a State is the superintendent of public elementary and secondary schools in such State or, if there is none, such other official as the Governor certifies to have comparable responsibility in the State; and a blind pupil is a blind individual pursuing a course of study in an institution of less than college grade.

(B) The portion of the appropriation received by each chief State school officer, in such books and other materials under subparagraph (A) of this paragraph which represents the number of blind pupils in private nonprofit institutions in such State in which blind pupils are educated shall be distributed among such institutions on the basis of the number of blind pupils in each such institution as compared to the total number of such pupils in all of the private nonprofit institutions in which blind pupils are educated in such State.

(C) All books and other materials furnished pursuant to sections 101, 102, and 104 of this title, and control and administration of their use, shall vest only in a public agency. Such books and materials made available pursuant to sections 101, 102 and 104 of this title for use of teachers and blind pupils in any State, Territory, or possession of the United States, the Commonwealth of Puerto Rico, and the District of Columbia in any school shall be limited to those books and materials which have been approved by an appropriate educational authority or agency of such State, Territory, possession, Commonwealth, or District, or any local educational authority thereof, for use, or are used, in a public elementary or secondary school therein.

(2) Buildings

Second. No part of the appropriation shall be expended in the erection or leasing of buildings; but the trustees of the American Printing House for the Blind may use each year a reasonable sum of the annual appropriation for salaries and other expenses of experts and other staff to assist special committees which may be appointed in performance of their functions, and for expenses of such special committees.

(3) Sales of books and apparatus at cost

Third. No profit shall be put on any books or tangible apparatus for the instruction of the blind manufactured or furnished by the trustees of said American Printing House for the Blind, located in Louisville, Kentucky; and the price put upon each article so manufactured or furnished shall only be its actual cost.

(4) Income withheld when not properly used

Fourth. The Secretary of the Treasury of the United States shall have the authority to withhold the appropriation whenever he shall receive satisfactory proof that the trustees of said American Printing House for the Blind, located in Louisville, Kentucky, are not using the appropriation for the benefit of the blind in the public and private nonprofit institutions for the education of the blind in the United States.

(5) Bond of treasurer

Fifth. Before any money be paid to the treasurer of the American Printing House for the Blind by the Secretary of the Treasury of the United States, the treasurer of the American Printing House for the Blind shall execute a bond, with two approved sureties, to the amount of \$20,000, conditioned that the money so received shall be expended according to this law and all amendments thereto, which shall be held by the Secretary of the Treasury of the United States, and shall be renewed every two years.

(6) Ex officio trustees

Sixth. The superintendent of each public institution for the education of the blind (or his designee) and the chief State school officer (or his designee), of each State and possession of the United States, the Commonwealth of Puerto Rico, and the District of Columbia, shall each, ex officio, be a member of the Board of Trustees of the American Printing House for the Blind only for purposes of administering sections 101, 102 and 104 of this title.

(1) and (2) and provisions following par. (2). An identical amendment was made by Pub. L. 93–651. See Codification note above.

“(1) after review of the operation of the blind vending stand program authorized under the Randolph-Sheppard Act of June 20, 1936 [this chapter], that the program has not developed, and has not been sustained, in the manner and spirit in which the Congress intended at the time of its enactment, and that, in fact, the growth of the program has been inhibited by a number of external forces;

“(2) that the potential exists for doubling the number of blind operators on Federal and other property under the Randolph-Sheppard program within the next five years, provided the obstacles to growth are removed, that legislative and administrative means exist to remove such obstacles, and that Congress should adopt legislation to that end; and

“(3) that at a minimum the following actions must be taken to insure the continued vitality and expansion of the Randolph-Sheppard program—

“(A) establish uniformity of treatment of blind vendors by all Federal departments, agencies, and instrumentalities,

“(B) establish guidelines for the operation of the program by State licensing agencies,

“(C) require coordination among the several entities with responsibility for the program,

“(D) establish a priority for vending facilities operated by blind vendors on Federal property,

§107a. Federal and State responsibilities

(a) Functions of Secretary; surveys; designation of State licensing agencies; qualifications for license; evaluation of programs

The Secretary of Education shall—

(1) Insure that the Rehabilitation Services Administration is the principal agency for carrying out this chapter; and the Commissioner shall, within one hundred and eighty days after enactment of the Randolph-Sheppard Act Amendments of 1974, establish requirements for the uniform application of this chapter by each State agency designated under paragraph (5) of this subsection, including appropriate accounting procedures, policies on the selection and establishment of new vending facilities, distribution of income to blind vendors, and the use and control of set-aside funds under section 107b(3) of this title;

(2) Through the Commissioner, make annual surveys of concession vending opportunities for blind persons on Federal and other property in the United States, particularly with respect to Federal property under the control of the General Services Administration, the Department of Defense, and the United States Postal Service;

(3) Make surveys throughout the United States of industries with a view to obtaining information that will assist blind persons to obtain employment;

(4) Make available to the public, and especially to persons and organizations engaged in work for the blind, information obtained as a result of such surveys;

(5) Designate as provided in section 107b of this title the State agency for the blind in each State, or, in any State in which there is no such agency, some other public agency to issue licenses

to blind persons who are citizens of the United States for the operating of vending facilities on Federal and other property in such State for the vending of newspapers, periodicals, confections, tobacco products, foods, beverages, and other articles or services dispensed automatically or manually and prepared on or off the premises in accordance with all applicable health laws, as determined by the State licensing agency, and including the vending or exchange of chances for any lottery authorized by State law and conducted by an agency of a State; and

(6) Through the Commission,¹ (A) conduct periodic evaluations of the program authorized by this chapter, including upward mobility and other training required by section 107d-4 of this title, and (B) take such other steps, including the issuance of such rules and regulations, as may be necessary or desirable in carrying out the provisions of this chapter.

(b) Duty of State licensing agencies to prefer blind

The State licensing agency shall, in issuing each such license for the operation of a vending facility, give preference to blind persons who are in need of employment. Each such license shall be issued for an indefinite period but may be terminated by the State licensing agency if it is satisfied that the facility is not being operated in accordance with the rules and regulations prescribed by such licensing agency. Such licenses shall be issued only to applicants who are blind within the meaning of section 107e of this title.

(c) Selection of location and type of facility

The State licensing agency designated by the Secretary is authorized, with the approval of the head of the department or agency in control of the maintenance, operation, and protection of the Federal property on which the facility is to be located but subject to regulations prescribed pursuant to section 107 of this title, to select a location for such facility and the type of facility to be provided.

(1) After January 1, 1975, no department, agency, or instrumentality of the United States shall undertake to acquire by ownership, rent, lease, or to otherwise occupy, in whole or in part, any building unless, after consultation with the head of such department, agency, or instrumentality and the State licensing agency, it is determined by the Secretary that (A) such building includes a satisfactory site or sites for the location and operation of a vending facility by a blind person, or (B) if a building is to be constructed, substantially altered, or renovated, or in the case of a building that is already occupied on such date by such department, agency, or instrumentality, is to be substantially altered or renovated for use by such department, agency, or instrumentality, the design for such construction, substantial alteration, or renovation includes a satisfactory site or sites for the location and operation of a vending facility by a blind person. Each such department, agency, or instrumentality shall provide notice to the appropriate State licensing agency of its plans for occupation, acquisition, renovation, or relocation of a building adequate to permit such State agency to determine whether such building includes a satisfactory site or sites for a vending facility.

(2) The provisions of paragraph (1) shall not apply (A) when the Secretary and the State licensing agency determine that the number of people using the property is or will be insufficient to support a vending facility, or (B) to any privately owned building, any part of which is leased by any department, agency, or instrumentality of the United States and in which, (i) prior to the execution of such lease, the lessor or any of his tenants had in operation a restaurant or other food facility in a part of the building not included in such lease, and (ii) the operation of such a vending facility by a blind person would be in proximate and substantial direct competition with such restaurant or other food facility except that each such department, agency, and instrumentality shall make every effort to lease property in privately owned buildings capable of accommodating a vending facility.

(3) For the purposes of this subsection, the term “satisfactory site” means an area determined by the Secretary to have sufficient space, electrical and plumbing outlets, and such other facilities as the Secretary may by regulation prescribe, for the location and operation of a vending facility by a blind person.

(e) State licensing agency in States having vocational rehabilitation plans

FEDERAL SUPPORT FOR THE RANDOLPH-SHEPPARD VENDING FACILITY PROGRAM

Memorandum of President of the United States, Jan. 20, 2012, 77 F.R. 3917, provided:

Memorandum for the Heads of Executive Departments and Agencies

Thousands of Americans who are blind have embraced the entrepreneurial spirit that helps define our Nation as a land of opportunity. Through the Federal Randolph-Sheppard Vending Facility Program administered by the Department of Education, talented and creative individuals who are blind have acquired the management training and business skills necessary to realize the American dream—a lifetime of economic opportunity, independence, and self-sufficiency for themselves and their families.

For 75 years, blind business managers have successfully operated food services and commercial ventures at Federal, State, and private buildings and locations nationwide. We honor and celebrate this program's historic achievements. We also trust that the Randolph-Sheppard Program will continue to be a leading model for providing high-quality entrepreneurial opportunities for blind individuals. From a simple snack shop, to tourist services at the Hoover Dam, to full food-services operations at military installations, blind entrepreneurs have provided exceptional customer service to Federal and State employees, the Armed Forces, and the general public. With proven ability, they have challenged preconceived notions about disability.

The Randolph-Sheppard Act (20 U.S.C. 107 *et seq.*) created the Vending Facility Program requiring qualified blind individuals be given a priority to operate vending facilities on Federal properties. This program is responsible today for providing entrepreneurial opportunities for over 2,500 individuals who are blind. In turn, these business managers have hired thousands of workers, many of whom are individuals with disabilities. Every American, including persons with disabilities, deserves the opportunity to succeed without limits, earn equal pay for equal jobs, and aspire to full-time, career-oriented employment.

Continued support and cooperation are needed from executive departments, agencies, and offices (agencies) to extend the Randolph-Sheppard priority to qualified blind managers through the State licensing agencies that implement the program. Therefore, I direct all agencies that have property management responsibilities to ensure that agency officials, when pursuing the establishment and operation of vending facilities (including cafeterias and military dining facilities) as defined in 20 U.S.C. 107e, issue permits and contracts in compliance with the Randolph-Sheppard Program and consistent with existing regulations and law. I further direct the Secretary of Education, through the Commissioner of the Rehabilitation Services Administration, to submit a report to the President on agencies' implementation of the Randolph-Sheppard Program not later than 1 year from the date of this memorandum.

This memorandum is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

The Secretary of Education is hereby authorized and directed to publish this memorandum in the Federal Register.

BARACK OBAMA.

§107b. Application for designation as State licensing agency; cooperation with Secretary; furnishing initial stock

A State agency for the blind or other State agency desiring to be designated as the licensing agency shall, with the approval of the chief executive of the State, make application to the Secretary and agree—

(1) to cooperate with the Secretary in carrying out the purpose of this chapter;

(2) to provide for each licensed blind person such vending facility equipment, and adequate initial stock of suitable articles to be vended therefrom, as may be necessary: *Provided, however,* That such equipment and stock may be owned by the licensing agency for use of the blind, or by the blind individual to whom the license is issued: *And provided further,* That if ownership of such equipment is vested in the blind licensee, (A) the State licensing agency shall retain a first option to repurchase such equipment and (B) in the event such individual dies or for any other reason ceases to be a licensee or transfers to another vending facility, ownership of such equipment shall

become vested in the State licensing agency (for transfer to a successor licensee) subject to an obligation on the part of the State licensing agency to pay to such individual (or to his estate) the fair value of his interest therein as later determined in accordance with regulations of the State licensing agency and after opportunity for a fair hearing;

(3) that if any funds are set aside, or caused to be set aside, from the net proceeds of the operation of the vending facilities such funds shall be set aside, or caused to be set aside, only to the extent necessary for and may be used only for the purposes of (A) maintenance and replacement of equipment; (B) the purchase of new equipment; (C) management services; (D) assuring a fair minimum return to operators of vending facilities; and (E) retirement or pension funds, health insurance contributions, and provision for paid sick leave and vacation time, if it is determined by a majority vote of blind licensees licensed by such State agency, after such agency provides to each such licensee full information on all matters relevant to such proposed program, that funds under this paragraph shall be set aside for such purposes: *Provided, however,* That in no event shall the amount of such funds to be set aside from the net proceeds of any vending facility exceed a reasonable amount which shall be determined by the Secretary;

(4) to make such reports in such form and containing such information as the Secretary may from time to time require and to comply with such provisions as he may from time to time find necessary to assure the correctness and verification of such reports;

(5) to issue such regulations, consistent with the provisions of this chapter, as may be necessary for the operation of this program;

(6) to provide to any blind licensee dissatisfied with any action arising from the operation or administration of the vending facility program an opportunity for a fair hearing, and to agree to submit the grievances of any blind licensee not otherwise resolved by such hearing to arbitration as provided in section 107d-1 of this title.

PRIOR PROVISIONS

A prior section 6 of act June 20, 1936, which was classified to section 107e of this title, was renumbered section 9 by Pub. L. 93–516, §206.

§107d–3. Vending machine income

(a) Accrual to blind licensee and alternatively to State agency; ceiling on amount for individual licensee

In accordance with the provisions of subsection (b) of this section, vending machine income obtained from the operation of vending machines on Federal property shall accrue (1) to the blind licensee operating a vending facility on such property, or (2) in the event there is no blind licensee operating such facility on such property, to the State agency in whose State the Federal property is located, for the uses designated in subsection (c) of this section, except that with respect to income which accrues under clause (1) of this subsection, the Commissioner may prescribe regulations imposing a ceiling on income from such vending machines for an individual blind licensee. In the event such a ceiling is imposed, no blind licensee shall receive less vending machine income under such ceiling than he was receiving on January 1, 1974. No limitation shall be imposed on income from vending machines, combined to create a vending facility, which are maintained, serviced, or operated by a blind licensee. Any amounts received by a blind licensee that are in excess of the amount permitted to accrue to him under any ceiling imposed by the Commissioner shall be disbursed to the appropriate State agency under clause (2) of this subsection and shall be used by such agency in accordance with subsection (c) of this section.

(b) Direct competition between vending machine and vending facility; proportion of accrued income from such vending machines for individual licensee

(1) After January 1, 1975, 100 per centum of all vending machine income from vending machines on Federal property which are in direct competition with a blind vending facility shall accrue as specified in subsection (a) of this section. “Direct competition” as used in this section means the existence of any vending machines or facilities operated on the same premises as a blind vending facility except that vending machines or facilities operated in areas serving employees the majority of whom normally do not have direct access to the blind vending facility shall not be considered in direct competition with the blind vending facility. After January 1, 1975, 50 per centum of all vending machine income from vending machines on Federal property which are not in direct competition with a blind vending facility shall accrue as specified in subsection (a) of this section, except that with respect to Federal property at which at least 50 per centum of the total hours worked on the premises occurs during periods other than normal working hours, 30 per centum of such income shall so accrue.

(2) The head of each department, agency, and instrumentality of the United States shall insure compliance with this section with respect to buildings, installations, and facilities under his control, and shall be responsible for collection of, and accounting for, such vending machine income.

(c) Disposal of accrued vending machine income by State licensing agency

SUBCHAPTER I—NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

§951. Declaration of findings and purposes

The Congress finds and declares the following:

- (1) The arts and the humanities belong to all the people of the United States.
- (2) The encouragement and support of national progress and scholarship in the humanities and the arts, while primarily a matter for private and local initiative, are also appropriate matters of concern to the Federal Government.
- (3) An advanced civilization must not limit its efforts to science and technology alone, but must give full value and support to the other great branches of scholarly and cultural activity in order to achieve a better understanding of the past, a better analysis of the present, and a better view of the future.
- (4) Democracy demands wisdom and vision in its citizens. It must therefore foster and support a form of education, and access to the arts and the humanities, designed to make people of all backgrounds and wherever located masters of their technology and not its unthinking servants.
- (5) It is necessary and appropriate for the Federal Government to complement, assist, and add to programs for the advancement of the humanities and the arts by local, State, regional, and private agencies and their organizations. In doing so, the Government must be sensitive to the nature of public sponsorship. Public funding of the arts and humanities is subject to the conditions that traditionally govern the use of public money. Such funding should contribute to public support and confidence in the use of taxpayer funds. Public funds provided by the Federal Government must ultimately serve public purposes the Congress defines.
- (6) The arts and the humanities reflect the high place accorded by the American people to the nation's rich cultural heritage and to the fostering of mutual respect for the diverse beliefs and values of all persons and groups.
- (7) The practice of art and the study of the humanities require constant dedication and devotion. While no government can call a great artist or scholar into existence, it is necessary and appropriate for the Federal Government to help create and sustain not only a climate encouraging freedom of thought, imagination, and inquiry but also the material conditions facilitating the release of this creative talent.
- (8) The world leadership which has come to the United States cannot rest solely upon superior power, wealth, and technology, but must be solidly founded upon worldwide respect and admiration for the Nation's high qualities as a leader in the realm of ideas and of the spirit.
- (9) Americans should receive in school, background and preparation in the arts and humanities to enable them to recognize and appreciate the aesthetic dimensions of our lives, the diversity of

excellence that comprises our cultural heritage, and artistic and scholarly expression.

(10) It is vital to a democracy to honor and preserve its multicultural artistic heritage as well as support new ideas, and therefore it is essential to provide financial assistance to its artists and the organizations that support their work.

(11) To fulfill its educational mission, achieve an orderly continuation of free society, and provide models of excellence to the American people, the Federal Government must transmit the achievement and values of civilization from the past via the present to the future, and make widely available the greatest achievements of art.

(12) In order to implement these findings and purposes, it is desirable to establish a National Foundation on the Arts and the Humanities.

(2)(A) Whenever a State desires to designate or to provide for the establishment of a State agency as the sole agency for the administration of the State plan, such State shall designate the humanities council in existence on the date the State agency is established as the State agency, and shall match from State funds a sum equal to 50 per centum of that portion of Federal financial assistance received by such State under this subsection which is described in the first sentence of paragraph (4) relating to the minimum State grant, or 25 per centum of the total amount of Federal financial assistance received by such State under this subsection, whichever is greater, for the fiscal year involved. (vii) provides—

(I) assurances that the State agency has held, after reasonable notice, public meetings in the State to allow scholars, interested organizations, and the public to present views and make recommendations regarding the State plan; and

(3) Whenever a State selects to receive Federal financial assistance under this subsection for any fiscal year under paragraph (2)(B), any appropriate entity desiring to receive such assistance shall submit an application for such assistance at such time as shall be specified by the Chairperson. Each such application shall be accompanied by a plan which the Chairperson finds—

(A) provides assurances that the grant recipient will comply with the requirements of paragraph (2)(B);

(C) establishes a membership policy which is designed to assure broad public representation with respect to programs administered by such grant recipient;

(D) provides a nomination process which assures opportunities for nomination to membership from various groups within the State involved and from a variety of segments of the population of such State, and including individuals who by reason of their achievement, scholarship, or creativity in the humanities, are especially qualified to serve;

(E) provides for a membership rotation process which assures the regular rotation of the membership and officers of such grant recipient;

(4) Of the sums available to carry out this subsection for any fiscal year, each State and each grant recipient which has a plan approved by the Chairperson shall be allotted at least \$200,000. If the sums appropriated are insufficient to make the allotments under the preceding sentence in full, such sums shall be allotted among such States and grant recipients in equal amounts. In any case where the sums available to carry out this subsection for any fiscal year are in excess of the amount required to make the allotments under the first sentence of this paragraph—

(A) 34 per centum of the amount of such excess for such fiscal year shall be available to the Chairperson for making grants under this subsection to States and regional groups and entities applying for such grants;

(B) 44 per centum of the amount of such excess for such fiscal year shall be allotted in equal amounts among the States and grant recipients which have plans approved by the Chairperson; and

(C) 22 per centum of the amount of such excess for such fiscal year shall be allotted among the States and grant recipients which have plans approved by the Chairperson in amounts which bear the same ratio to such excess as the population of the State for which the plan is approved (or, in the case of a grant recipient other than a State, the population of the State in which such grant recipient is located) bears to the population of all the States.

(5)(A) The amount of each allotment to a State for any fiscal year under this subsection shall be available to each State or grant recipient, which has a plan or application approved by the Chairperson in effect on the first day of such fiscal year, to pay not more than 50 per centum of the total cost of any project or production described in paragraph (1). This section may be cited as the “Collegiate Initiative To Reduce Binge Drinking and Illegal Alcohol Consumption”.

(b) Sense of Congress

It is the sense of Congress that, in an effort to change the culture of alcohol consumption on

The institution should provide resources to assist the task force in promoting the campus policies and proposed environmental changes that have been identified.

(2) The institution should provide maximum opportunities for students to live in an alcohol-free environment and to engage in stimulating, alcohol-free recreational and leisure activities.

(3) The institution should enforce a “zero tolerance” policy on the illegal consumption of alcohol by students at the institution.

(4) The institution should vigorously enforce the institution's code of disciplinary sanctions for those who violate campus alcohol policies. Students with alcohol or other drug-related problems should be referred for assistance, including on-campus counseling programs if appropriate.

(5) The institution should adopt a policy to discourage alcoholic beverage-related sponsorship of on-campus activities. It should adopt policies limiting the advertisement and promotion of alcoholic beverages on campus.

the United States shall be entitled to recover from such applicant (or successor) an amount which bears to the value of the facility at that time (or so much thereof as constituted an approved project or projects) the same ratio as the amount of Federal grant bore to the cost of the facility financed with the aid of such grant. The value shall be determined by agreement of the parties or by action brought in the United States district court for the district in which such facility is situated.

Notwithstanding the provisions of subsections (a) and (b) of this section, no project assisted with funds under subchapter VII of this chapter (as in effect prior to October 7, 1998) shall ever be used for religious worship or a sectarian activity or for a school or department of divinity.

Subject to the authority of the Secretary, the Chief Operating Officer of a PBO may exercise the authority of the Secretary to procure property and services in the performance of functions managed by the PBO. For the purposes of this section, the term “PBO” includes the Chief Operating Officer of the PBO and any employee of the PBO exercising procurement authority under the preceding sentence.

(b) In general

Except as provided in this section, the PBO shall abide by all applicable Federal procurement laws and regulations when procuring property and services. The PBO shall—

- (1) enter into contracts to carry out the functions set forth in section 1018(b)(2) of this title;

- (3) through the Chief Operating Officer—
 - (A) to the maximum extent practicable, utilize procurement systems that streamline operations, improve internal controls, and enhance management; and
 - (B) assess the efficiency of such systems and assess such systems' ability to meet PBO requirements.

(c) Service contracts

(1) Performance-based servicing contracts

The Chief Operating Officer shall, to the extent practicable, maximize the use of performance-based servicing contracts, consistent with guidelines for such contracts published by the Office of Federal Procurement Policy, to achieve cost savings and improve service.

(2) Fee for service arrangements

The Chief Operating Officer shall, when appropriate and consistent with the purposes of the PBO, acquire services related to the functions set forth in section 1018(b)(2) of this title from any entity that has the capability and capacity to meet the requirements set by the PBO. The Chief Operating Officer is authorized to pay fees that are equivalent to those paid by other entities to an organization that provides services that meet the requirements of the PBO, as determined by the Chief Operating Officer.

(d) Two-phase source-selection procedures

(1) In general

The PBO may use a two-phase process for selecting a source for a procurement of property or services.

(2) First phase

The procedures for the first phase of the process for a procurement are as follows:

(A) Publication of notice

The contracting officer for the procurement shall publish a notice of the procurement in accordance with section 1708 of title 41 and subsections (e), (f), and (g) of section 637 of title 15, except that the notice shall include only the following:

- (i) A general description of the scope or purpose of the procurement that provides sufficient information on the scope or purpose for sources to make informed business decisions regarding whether to participate in the procurement.
- (ii) A description of the basis on which potential sources are to be selected to submit offers in the second phase.
- (iii) A description of the information that is to be required under subparagraph (B).
- (iv) Any additional information that the contracting officer determines appropriate.

(B) Information submitted by offerors

Each offeror for the procurement shall submit basic information, such as information on the offeror's qualifications, the proposed conceptual approach, costs likely to be associated with the proposed conceptual approach, and past performance of the offeror, together with any additional information that is requested by the contracting officer.

(C) Selection for second phase

The contracting officer shall select the offerors that are to be eligible to participate in the second phase of the process. The contracting officer shall limit the number of the selected offerors to the number of sources that the contracting officer determines is appropriate and in the best interests of the Federal Government.

(3) Second phase

(A) In general

The contracting officer shall conduct the second phase of the source selection process in accordance with sections 3306(a) to (e) and 3308, chapter 37, and section 4702 of title 41.

(B) Eligible participants

Only the sources selected in the first phase of the process shall be eligible to participate in the second phase.

(C) Single or multiple procurements

The second phase may include a single procurement or multiple procurements within the scope, or for the purpose, described in the notice pursuant to paragraph (2)(A).

(4) Procedures considered competitive

The procedures used for selecting a source for a procurement under this subsection shall be considered competitive procedures for all purposes.

(e) Use of simplified procedures for commercial items

Whenever the PBO anticipates that commercial items will be offered for a procurement, the PBO may use (consistent with the special rules for commercial items) the special simplified procedures for the procurement without regard to—

- (1) any dollar limitation otherwise applicable to the use of those procedures; and
- (2) the expiration of the authority to use special simplified procedures under section 4202(e) of the Clinger-Cohen Act of 1996 (110 Stat. 654; 10 U.S.C. 2304 note).

(f) Flexible wait periods and deadlines for submission of offers of noncommercial items

(1) Authority

In carrying out a procurement, the PBO may—

(A) apply a shorter waiting period for the issuance of a solicitation after the publication of a notice under section 1708 of title 41 than is required under subsection (a)(3)(A) of such section; and

(B) notwithstanding subsection (a)(3) of such section, establish any deadline for the submission of bids or proposals that affords potential offerors a reasonable opportunity to respond to the solicitation.

(2) Inapplicability to commercial items

Paragraph (1) does not apply to a procurement of a commercial item.

(3) Consistency with applicable international agreements

If an international agreement is applicable to the procurement, any exercise of authority under paragraph (1) shall be consistent with the international agreement.

(g) Modular contracting

(1) In general

The PBO may satisfy the requirements of the PBO for a system incrementally by carrying out successive procurements of modules of the system. In doing so, the PBO may use procedures authorized under this subsection to procure any such module after the first module.

(2) Utility requirement

A module may not be procured for a system under this subsection unless the module is useful independently of the other modules or useful in combination with another module previously procured for the system.

(3) Conditions for use of authority

The PBO may use procedures authorized under paragraph (4) for the procurement of an additional module for a system if—

- (A) competitive procedures were used for awarding the contract for the procurement of the

first module for the system; and

(B) the solicitation for the first module included—

(i) a general description of the entire system that was sufficient to provide potential offerors with reasonable notice of the general scope of future modules;

(ii) other information sufficient for potential offerors to make informed business judgments regarding whether to submit offers for the contract for the first module; and

(iii) a statement that procedures authorized under this subsection could be used for awarding subsequent contracts for the procurement of additional modules for the system.

(4) Procedures

If the procurement of the first module for a system meets the requirements set forth in paragraph (3), the PBO may award a contract for the procurement of an additional module for the system using any of the following procedures:

(A) Single-source basis

Award of the contract on a single-source basis to a contractor who was awarded a contract for a module previously procured for the system under competitive procedures or procedures authorized under subparagraph (B).

(B) Adequate competition

Award of the contract on the basis of offers made by—

(i) a contractor who was awarded a contract for a module previously procured for the system after having been selected for award of the contract under this subparagraph or other competitive procedures; and

(ii) at least one other offeror that submitted an offer for a module previously procured for the system and is expected, on the basis of the offer for the previously procured module, to submit a competitive offer for the additional module.

(C) Other

Award of the contract under any other procedure authorized by law.

(5) Notice requirement

(A) Publication

Not less than 30 days before issuing a solicitation for offers for a contract for a module for a system under procedures authorized under subparagraph (A) or (B) of paragraph (4), the PBO shall publish in the Commerce Business Daily a notice of the intent to use such procedures to enter into the contract.

(B) Exception

Publication of a notice is not required under this paragraph with respect to a use of procedures authorized under paragraph (4) if the contractor referred to in that subparagraph (who is to be solicited to submit an offer) has previously provided a module for the system under a contract that contained cost, schedule, and performance goals and the contractor met those goals.

(C) Content of notice

A notice published under subparagraph (A) with respect to a use of procedures described in paragraph (4) shall contain the information required under section 1708(c) of title 41, other than paragraph (4) of such section, and shall invite the submission of any assertion that the use of the procedures for the procurement involved is not in the best interest of the Federal Government together with information supporting the assertion.

(6) Documentation

The basis for an award of a contract under this subsection shall be documented. However, a justification pursuant to section 3304(e) of title 41 or section 637(h) of title 15 is not required.

(7) Simplified source-selection procedures

The PBO may award a contract under any other simplified procedures prescribed by the PBO for the selection of sources for the procurement of modules for a system, after the first module, that are not to be procured under a contract awarded on a single-source basis.

(h) Use of simplified procedures for small business set-asides for services other than commercial items

(1) Authority

The PBO may use special simplified procedures for a procurement of services that are not commercial items if—

- (A) the procurement is in an amount not greater than \$1,000,000;
- (B) the procurement is conducted as a small business set-aside pursuant to section 644(a) of title 15; and
- (C) the price charged for supplies associated with the services procured are items of supply expected to be less than 20 percent of the total contract price.

(2) Inapplicability to certain procurements

The authority set forth in paragraph (1) may not be used for—

- (A) an award of a contract on a single-source basis; or
- (B) a contract for construction.

(i) Guidance for use of authority

(1) Issuance by PBO

The Chief Operating Officer of the PBO, in consultation with the Administrator for Federal Procurement Policy, shall issue guidance for the use by PBO personnel of the authority provided in this section.

(2) Guidance from OFPP

As part of the consultation required under paragraph (1), the Administrator for Federal Procurement Policy shall provide the PBO with guidance that is designed to ensure, to the maximum extent practicable, that the authority under this section is exercised by the PBO in a manner that is consistent with the exercise of the authority by the heads of the other performance-based organizations.

(3) Compliance with OFPP guidance

The head of the PBO shall ensure that the procurements of the PBO under this section are carried out in a manner that is consistent with the guidance provided for the PBO under paragraph (2).

(j) Limitation on multiagency contracting

No department or agency of the Federal Government may purchase property or services under contracts entered into or administered by a PBO under this section unless the purchase is approved in advance by the senior procurement official of that department or agency who is responsible for purchasing by the department or agency.

§1051. Findings and purpose

(a) Findings

The Congress finds that—

(1) there are a significant number of institutions of higher education serving high percentages of minority students and students from low-income backgrounds, that face problems that threaten their ability to survive;

(2) the problems relate to the management and fiscal operations of certain institutions of higher education, as well as to an inability to engage in long-range planning and development activities, including endowment building;

(3) in order to be competitive and provide a high-quality education for all, institutions of higher education should improve their technological capacity and make effective use of technology;

(4) the subchapter III program prior to 1985 did not always meet the specific development needs of historically Black colleges and universities and other institutions with large concentrations of minority, low-income students;

(5) the solution of the problems of these institutions would enable them to become viable, fiscally stable and independent, thriving institutions of higher education;

(6) providing assistance to eligible institutions will enhance the role of such institutions in providing access and quality education to low-income and minority students;

(7) these institutions play an important role in the American system of higher education, and there is a strong national interest in assisting them in solving their problems and in stabilizing their management and fiscal operations, and in becoming financially independent; and

(8) there is a particular national interest in aiding those institutions of higher education that have historically served students who have been denied access to postsecondary education because of race or national origin and whose participation in the American system of higher education is in the Nation's interest so that equality of access and quality of postsecondary education opportunities may be enhanced for all students.

(b) Purpose

It is the purpose of this subchapter to assist such institutions in equalizing educational opportunity through a program of Federal assistance.

PART B—STRENGTHENING HISTORICALLY BLACK COLLEGES AND UNIVERSITIES

§1060. Findings and purposes

The Congress finds that—

(1) the historically Black colleges and universities have contributed significantly to the effort to attain equal opportunity through postsecondary education for Black, low-income, and educationally disadvantaged Americans;

(2) States and the Federal Government have discriminated in the allocation of land and financial

resources to support Black public institutions under the Morrill Act of 1862 [7 U.S.C. 301 et seq.] and its progeny, and against public and private Black colleges and universities in the award of Federal grants and contracts, and the distribution of Federal resources under this chapter and part C of subchapter I of chapter 34 of title 42 and other Federal programs which benefit institutions of higher education;

(3) the current state of Black colleges and universities is partly attributable to the discriminatory action of the States and the Federal Government and this discriminatory action requires the remedy of enhancement of Black postsecondary institutions to ensure their continuation and participation in fulfilling the Federal mission of equality of educational opportunity; and

(4) financial assistance to establish or strengthen the physical plants, financial management, academic resources, and endowments of the historically Black colleges and universities are appropriate methods to enhance these institutions and facilitate a decrease in reliance on governmental financial support and to encourage reliance on endowments and private sources.

EX. ORD. NO. 13532. PROMOTING EXCELLENCE, INNOVATION, AND SUSTAINABILITY AT HISTORICALLY BLACK COLLEGES AND UNIVERSITIES

Ex. Ord. No. 13532, Feb. 26, 2010, 75 F.R. 9749, as amended by Ex. Ord. No. 13569, §4, Apr. 5, 2011, 76 F.R. 19891, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, in order to advance the development of the Nation's full human potential and to advance equal opportunity in higher education, strengthen the capacity of historically black colleges and universities to provide the highest quality education, increase opportunities for these institutions to participate in and benefit from Federal programs, and ensure that our Nation has the highest proportion of college graduates in the world by the year 2020, it is hereby ordered as follows:

SECTION 1. *Policy.* Historically black colleges and universities (HBCUs) have made historic and ongoing contributions to the general welfare and prosperity of our country. Established by visionary leaders, America's HBCUs, for over 150 years, have produced many of the Nation's leaders in business, government, academia, and the military and have provided generations of American men and women with hope and educational opportunity. The Nation's 105 HBCUs are located in 20 States, the District of Columbia, and the U.S. Virgin Islands and serve more than 300,000 undergraduate and graduate students. These institutions continue to be important engines of economic growth and community service, and they are proven ladders of intergenerational advancement for men and women of all ethnic, racial, and economic backgrounds, especially African Americans. These institutions also produce a high number of baccalaureate recipients who go on to assume leadership and service roles in their communities and who successfully complete graduate and professional degree programs.

SEC. 2. *White House Initiative on HBCUs.*

(a) *Establishment.* There is established the White House Initiative on Historically Black Colleges and Universities (Initiative), to be housed in the Department of Education (Department).

(b) *Mission and Functions.* The Initiative shall work with executive departments, agencies, and offices, the private sector, educational associations, philanthropic organizations, and other partners to increase the capacity of HBCUs to provide the highest-quality education to a greater number of students, and to take advantage of these institutions' capabilities in serving the Nation's needs through five core tasks:

- (i) strengthening the capacity of HBCUs to participate in Federal programs;
- (ii) fostering enduring private-sector initiatives and public-private partnerships while promoting specific areas and centers of academic research and programmatic excellence throughout all HBCUs;
- (iii) improving the availability, dissemination, and quality of information concerning HBCUs to inform public policy and practice;
- (iv) sharing administrative and programmatic practices within the HBCU community for the benefit of all; and
- (v) exploring new ways of improving the relationship between the Federal Government and HBCUs.

(c) *Administration.* There shall be an Executive Director of the Initiative. The Department shall provide the staff, resources, and assistance for the Initiative, and shall assist the Initiative in fulfilling its mission and responsibilities under this order.

(d) *Federal Agency Plans.* (1) Each executive department and agency designated by the Secretary of Education (Secretary) shall prepare an annual plan (agency plan) of its efforts to strengthen the capacity of HBCUs through increased participation in appropriate Federal programs and initiatives. Where appropriate, each agency plan shall address, among other things, the agency's proposed efforts to:

- (i) establish how the department or agency intends to increase the capacity of HBCUs to compete effectively for grants, contracts, or cooperative agreements and to encourage HBCUs to participate in Federal programs;
- (ii) identify Federal programs and initiatives in which HBCUs may be either underserved or underused as national resources, and improve HBCUs' participation therein; and
- (iii) encourage public-sector, private-sector, and community involvement in improving the overall capacity of HBCUs.

(2) Each department and agency, in its agency plan, shall provide appropriate measurable objectives and, after the first year, shall annually assess that department's or agency's performance on the goals set in the previous year's agency plan.

(3) The Secretary shall establish a date by which agency plans shall be submitted to the Secretary. The Secretary and the Executive Director shall review the agency plans in consultation with the President's Board of Advisors on HBCUs, established in section 3 of this order, and shall submit to the President an annual plan to strengthen the overall capacity of HBCUs.

(4) To help fulfill the objectives of these plans, the head of each department and agency identified by the Secretary shall provide, as appropriate, technical assistance and information to the Executive Director for purposes of communicating with HBCUs concerning program activities of the department or agency and the preparation of applications or proposals for grants, contracts, or cooperative agreements.

(5) To help fulfill the goals of this order, each executive department and agency identified by the Secretary

shall appoint a senior official to report directly to the department or agency head with respect to that department's or agency's activities under this order, and to serve as liaison to the President's Board of Advisors on HBCUs and to the Initiative.

(e) *Interagency Working Group.* There is established the Interagency Working Group, which shall be convened by the Executive Director and that shall consist of representatives from agencies designated by the Secretary, to help advance and coordinate the work of Federal agencies pursuant to this order, where appropriate.

SEC. 3. *President's Board of Advisors on HBCUs.*

(a) *Establishment.* There is established in the Department the President's Board of Advisors on Historically Black Colleges and Universities (the Board). The Board shall consist of not more than 25 members appointed by the President. The President shall designate one member of the Board to serve as Chair, who shall coordinate with the Executive Director to convene meetings and help direct the work of the Board. The Board shall include representatives of a variety of sectors, including philanthropy, education, business, finance, entrepreneurship, innovation, and private foundations, as well as sitting HBCU presidents.

(b) *Mission and Functions.* Through the Initiative, the Board shall advise the President and the Secretary on all matters pertaining to strengthening the educational capacity of HBCUs. In particular, the Board shall advise the President and the Secretary in the following areas:

- (i) improving the identity, visibility, and distinctive capabilities and overall competitiveness of HBCUs;
- (ii) engaging the philanthropic, business, government, military, homeland-security, and education communities in a national dialogue regarding new HBCU programs and initiatives;
- (iii) improving the ability of HBCUs to remain fiscally secure institutions that can assist the Nation in reaching its goal of having the highest proportion of college graduates by 2020;
- (iv) elevating the public awareness of HBCUs; and
- (v) encouraging public-private investments in HBCUs.

(c) *Administration.* The Executive Director of the Initiative shall also serve as the Executive Director of the Board. The Department shall provide funding and administrative support for the Board to the extent permitted by law and within existing appropriations. Members of the Board shall serve without compensation, but shall be reimbursed for travel expenses, including per diem in lieu of subsistence, as authorized by law. Insofar as the Federal Advisory Committee Act, as amended (5 U.S.C. App.), may apply to the Board, any functions of the President under that Act, except for those of reporting to the Congress, shall be performed by the Secretary, in accordance with guidelines issued by the Administrator of General Services.

(d) *Report.* As part of the annual report of the Initiative, the Board shall report to the President and the Secretary on their progress in carrying out its duties under this section.

SEC. 4. *General Provisions.* (a) For the purposes of this order, "historically black colleges and universities" shall mean those institutions listed in 34 C.F.R. 608.2.

(b) This order shall apply to executive departments and agencies designated by the Secretary. Those departments and agencies shall provide timely reports and such information as is required to effectively carry out the objectives of this order.

(c) The heads of executive departments and agencies shall assist and provide information through the White House Initiative to the Board, consistent with applicable law, as may be necessary to carry out the functions of the Board. Each executive department and agency shall bear its own expenses of participating in the Initiative.

(d) Nothing in this order shall be construed to impair or otherwise affect:

- (i) the authority granted by law to an executive department, agency, or the head thereof; or
- (ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(e) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(f) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

(g) Executive Order 13256 of February 12, 2002, is hereby revoked.

§1063. Allotments to institutions

(a) Allotment; Pell Grant basis

From the amounts appropriated to carry out this part for any fiscal year, the Secretary shall allot to each part B institution a sum which bears the same ratio to one-half that amount as the number of Pell Grant recipients in attendance at such institution at the end of the school year preceding the beginning of that fiscal year bears to the total number of Pell Grant recipients at all part B institutions.

(b) Allotment; graduates basis

From the amounts appropriated to carry out this part for any fiscal year, the Secretary shall allot to each part B institution a sum which bears the same ratio to one-fourth that amount as the number of graduates for such school year at such institution bears to the total number of graduates for such school year at all part B institutions.

(c) Allotment; graduate and professional student basis

From the amounts appropriated to carry out this part for any fiscal year, the Secretary shall allot to each part B institution a sum which bears the same ratio to one-fourth of that amount as the percentage of graduates per institution, who are admitted to and in attendance at, within 5 years of graduation with a baccalaureate degree, a graduate or professional school in a degree program in disciplines in which Blacks are underrepresented, bears to the percentage of such graduates per institution for all part B institutions.

(d) Minimum allotment

(1) Notwithstanding subsections (a) through (c), and subject to subsection (h), if the amount of an award under this section for a part B institution, based on the data provided by the part B institution and the formula under subsections (a) through (c), would be—

(A) an amount that is greater than \$250,000 but less than \$500,000, the Secretary shall award the part B institution an allotment in the amount of \$500,000; and

If additional sums become available for such fiscal year, such reduced allocations shall be increased on the same basis as the basis on which they were reduced (until the amount allotted equals the minimum allotment required by paragraph (1)).

(e) Reallotment

The amount of any part B institution's allotment under subsection (a), (b), (c), or (d) of this section for any fiscal year which the Secretary determines will not be required for such institution for the period such allotment is available shall be available for reallotment from time to time on such date during such period as the Secretary may determine to other part B institutions in proportion to the original allotment to such other institutions under this section for such fiscal year.

(f) Special merger rule

(1) The Secretary shall permit any eligible institution for a grant under part B in any fiscal year prior to the fiscal year 1986 to apply for a grant under this part if the eligible institution has merged with another institution of higher education which is not so eligible or has merged with an eligible institution.

§1065. Endowment challenge grants

(a) Purpose; definitions

(1) The purpose of this section is to establish a program to provide matching grants to eligible institutions in order to establish or increase endowment funds at such institutions, to provide additional incentives to promote fund raising activities by such institutions, and to foster increased independence and self-sufficiency at such institutions.

(2) For the purpose of this section:

(A) The term “endowment fund” means a fund established by State law, by an institution of higher education, or by a foundation which is exempt from taxation and is maintained for the

purpose of generating income for the support of the institution, but which shall not include real estate.

(B) The term “endowment fund corpus” means an amount equal to the grant or grants awarded under this section plus an amount equal to such grant or grants provided by the institution.

(C) The term “endowment fund income” means an amount equal to the total value of the endowment fund established under this section minus the endowment fund corpus.

(D)(i) The term “eligible institution” means an institution that is an—

(I) eligible institution under part A of this subchapter or would be considered to be such an institution if section 1058(b)(1)(C) of this title referred to a postgraduate degree rather than a bachelor's degree;

(II) institution eligible for assistance under part B of this subchapter or would be considered to be such an institution if section 1063 of this title referred to a postgraduate degree rather than a baccalaureate degree; or

(III) institution of higher education that makes a substantial contribution to postgraduate medical educational opportunities for minorities and the economically disadvantaged.

(ii) The Secretary may waive the requirements of subclauses (I) and (II) of clause (i) with respect to a postgraduate degree in the case of any institution otherwise eligible under clause (i) for an endowment challenge grant upon determining that the institution makes a substantial contribution to medical education opportunities for minorities and the economically disadvantaged.

(b) Grants authorized

(1) From sums available for this section under section 1068h of this title, the Secretary is authorized to award endowment challenge grants to eligible institutions to establish or increase an endowment fund at such institution. Such grants shall be made only to eligible institutions described in paragraph (4) whose applications have been approved pursuant to subsection (g) of this section.

(2)(A) Except as provided in subparagraph (B), no institution shall receive a grant under this section, unless such institution has deposited in its endowment fund established under this section an amount equal to the amount of such grant. The source of funds for this institutional match shall not include Federal funds or funds from an existing endowment fund.

(B) The Secretary may make a grant under this part to an eligible institution in any fiscal year if the institution—

(i) applies for a grant in an amount not exceeding \$1,000,000; and

(ii) has deposited in the eligible institution's endowment fund established under this section an amount which is equal to $\frac{1}{2}$ of the amount of such grant.

(C) An eligible institution of higher education that is awarded a grant under subparagraph (B) shall not be eligible to receive an additional grant under subparagraph (B) until 10 years after the date on which the grant period terminates.

(3) The period of a grant under this section shall be not more than 20 years. During the grant period, an institution may not withdraw or expend any of the endowment fund corpus. After the termination of the grant period, an institution may use the endowment fund corpus plus any endowment fund income for any educational purpose.

(4)(A) An institution of higher education is eligible to receive a grant under this section if it is an eligible institution as described in subsection (a)(2)(D) of this section.

(B) No institution shall be ineligible for an endowment challenge grant under this section for a fiscal year by reason of the previous receipt of such a grant but no institution shall be eligible to receive such a grant for more than 2 fiscal years out of any period of 5 consecutive fiscal years.

(5) An endowment challenge grant awarded under this section to an eligible institution shall be in an amount which is not less than \$100,000 in any fiscal year.

(6)(A) An eligible institution may designate a foundation, which was established for the purpose of raising money for the institution, as the recipient of the grant awarded under this section.

(B) The Secretary shall not award a grant to a foundation on behalf of an institution unless—

(i) the institution assures the Secretary that the foundation is legally authorized to receive the endowment fund corpus and is legally authorized to administer the fund in accordance with this section and any implementing regulation;

(ii) the foundation agrees to administer the fund in accordance with the requirements of this section and any implementing regulation; and

(iii) the institution agrees to be liable for any violation by the foundation of the provisions of this section and any implementing regulation, including any monetary liability that may arise as a result of such violation.

(c) Grant agreement; endowment fund provisions

(1) An institution awarded a grant under this section shall enter into an agreement with the Secretary containing satisfactory assurances that it will (A) immediately comply with the matching requirements of subsection (b)(2) of this section, (B) establish an endowment fund independent of any other such fund of the institution, (C) invest the endowment fund corpus, and (D) meet the other requirements of this section.

(2)(A) An institution shall invest the endowment fund corpus and endowment fund income in low-risk securities in which a regulated insurance company may invest under the law of the State in which the institution is located such as a federally insured bank savings account or comparable interest-bearing account, certificate of deposit, money market fund, mutual fund, or obligations of the United States.

(B) The institution, in investing the endowment fund established under this section, shall exercise the judgment and care, under the circumstances then prevailing, which a person of prudence, discretion, and intelligence would exercise in the management of such person's own affairs.

(3)(A) An institution may withdraw and expend the endowment fund income to defray any expenses necessary to the operation of such college, including expenses of operations and maintenance, administration, academic and support personnel, construction and renovation, community and student services programs, and technical assistance.

(B)(i) Except as provided in clause (ii), an institution may not spend more than 50 percent of the total aggregate endowment fund income earned prior to the time of expenditure.

(ii) The Secretary may permit an institution to spend more than 50 percent of the endowment fund income notwithstanding clause (i) if the institution demonstrates such an expenditure is necessary because of (I) a financial emergency, such as a pending insolvency or temporary liquidity problem; (II) a life-threatening situation occasioned by a natural disaster or arson; or (III) any other unusual occurrence or exigent circumstance.

(d) Repayment provisions

(1) If at any time an institution withdraws part of the endowment fund corpus, the institution shall repay to the Secretary an amount equal to 50 percent of the withdrawn amount, which represents the Federal share, plus income earned thereon. The Secretary may use such repaid funds to make additional challenge grants, or to increase existing endowment grants, to other eligible institutions.

(2) If an institution expends more of the endowment fund income than is permitted under subsection (c) of this section, the institution shall repay the Secretary an amount equal to 50 percent of the amount improperly expended (representing the Federal share thereof). The Secretary may use such repaid fund to make additional challenge grants, or to increase existing challenge grants, to other eligible institutions.

(e) Audit information

An institution receiving a grant under this section shall provide to the Secretary (or a designee thereof) such information (or access thereto) as may be necessary to audit or examine expenditures made from the endowment fund corpus or income in order to determine compliance with this section.

(f) Selection criteria

In selecting eligible institutions for grants under this section for any fiscal year, the Secretary shall—

(1) give priority to an applicant that is receiving assistance under part A of this subchapter or part B of this subchapter or has received a grant under part A of this subchapter or part B of this subchapter within the 5 fiscal years preceding the fiscal year in which the applicant is applying for a grant under this section;

(2) give priority to an applicant with a greater need for such a grant, based on the current market value of the applicant's existing endowment in relation to the number of full-time equivalent students enrolled at such institution; and

(3) consider—

(A) the effort made by the applicant to build or maintain its existing endowment fund; and

(B) the degree to which an applicant proposes to match the grant with nongovernmental funds.

(g) Application

Any institution which is eligible for assistance under this section may submit to the Secretary a grant application at such time, in such form, and containing such information as the Secretary may prescribe, including a description of the long- and short-term plans for raising and using the funds under this part. Subject to the availability of appropriations to carry out this section and consistent with the requirement of subsection (f) of this section, the Secretary may approve an application for a grant if an institution, in its application, provides adequate assurances that it will comply with the requirements of this section.

(h) Termination and recovery provisions

(1) After notice and an opportunity for a hearing, the Secretary may terminate and recover a grant awarded under this section if the grantee institution—

(A) expends portions of the endowment fund corpus or expends more than the permissible amount of the endowment funds income as prescribed in subsection (c)(3) of this section;

(B) fails to invest the endowment fund in accordance with the investment standards set forth in subsection (c)(2) of this section; or

(C) fails to properly account to the Secretary concerning the investment and expenditures of the endowment funds.

(2) If the Secretary terminates a grant under paragraph (1), the grantee shall return to the Secretary an amount equal to the sum of each original grant under this section plus income earned thereon. The Secretary may use such repaid funds to make additional endowment grants, or to increase existing challenge grants, to other eligible institutions under this part.

(i) Technical assistance

The Secretary, directly or by grant or contract, may provide technical assistance to eligible institutions to prepare the institutions to qualify, apply for, and maintain a grant, under this section.

CODIFICATION

Pub. L. 105–244, title III, §301(a)(3), Oct. 7, 1998, 112 Stat. 1636, redesignated part B of subchapter VII of this chapter as part D of subchapter III of this chapter.

§1066. Findings

The Congress finds that—

(1) a significant part of the Federal mission in education has been to attain equal opportunity in higher education for low-income, educationally disadvantaged Americans and African Americans;

(2) the Nation's historically Black colleges and universities have played a prominent role in American history and have an unparalleled record of fostering the development of African American youth by recognizing their potential, enhancing their academic and technical skills, and honing their social and political skills through higher education;

(3) the academic and residential facilities on the campuses of all historically Black colleges and universities have suffered from neglect, deferred maintenance and are in need of capital improvements in order to provide appropriate settings for learning and social development through higher education;

(4) due to their small enrollments, limited endowments and other financial factors normally considered by lenders in construction financing, historically Black colleges and universities often lack access to the sources of funding necessary to undertake the necessary capital improvements through borrowing and bond financing;

(5) despite their track record of long-standing and remarkable institutional longevity and viability, historically Black colleges and universities often lack the financial resources necessary to gain access to traditional sources of capital financing such as bank loans and bond financing; and

(6) Federal assistance to facilitate low-cost capital basis for historically Black colleges and universities will enable such colleges and universities to continue and expand their educational mission and enhance their significant role in American higher education.

Subject to the limitations in section 1066c of this title, the Secretary is authorized to enter into insurance agreements to provide financial insurance to guarantee the full payment of principal and interest on qualified bonds upon the conditions set forth in subsections (b), (c) and (d) of this section.

(b) Responsibilities of designated bonding authority

The Secretary may not enter into an insurance agreement described in subsection (a) of this section unless the Secretary designates a qualified bonding authority in accordance with sections 1066d(1) and 1066e ¹ of this title and the designated bonding authority agrees in such agreement to—

(1) use the proceeds of the qualified bonds, less costs of issuance not to exceed 2 percent of the principal amount thereof, to make loans to eligible institutions or for deposit into an escrow account for repayment of the bonds;

(2) provide in each loan agreement with respect to a loan that not less than 95 percent of the proceeds of the loan will be used—

(A) to finance the repair, renovation, and, in exceptional cases, construction or acquisition, of a capital project; or

(B) to refinance an obligation the proceeds of which were used to finance the repair, renovation, and, in exceptional cases, construction or acquisition, of a capital project;

(3)(A) charge such interest on loans, and provide for such a schedule of repayments of loans, as will, upon the timely repayment of the loans, provide adequate and timely funds for the payment of principal and interest on the bonds; and

(8) establish an escrow account—

(11) make loans only to eligible institutions under this part in accordance with conditions prescribed by the Secretary to ensure that loans are fairly allocated among as many eligible

PART E—MINORITY SCIENCE AND ENGINEERING IMPROVEMENT PROGRAM

SUBPART 1—MINORITY SCIENCE AND ENGINEERING IMPROVEMENT PROGRAM

CODIFICATION

Pub. L. 105–244, title III, §§301(a)(5), 307(d), Oct. 7, 1998, 112 Stat. 1636, 1648, redesignated subpart 1 (§1135b et seq.) of part B of subchapter X of this chapter as subpart 1 of part E of subchapter III of this chapter and inserted “AND ENGINEERING” before “IMPROVEMENT PROGRAM” in heading.

§1067. Findings

Congress makes the following findings:

(1) It is incumbent on the Federal Government to support the technological and economic competitiveness of the United States by improving and expanding the scientific and technological capacity of the United States. More and better prepared scientists, engineers, and technical experts are needed to improve and expand such capacity.

(2) As the Nation's population becomes more diverse, it is important that the educational and training needs of all Americans are met. Underrepresentation of minorities in science and technological fields diminishes our Nation's competitiveness by impairing the quantity of well prepared scientists, engineers, and technical experts in these fields.

(3) Despite significant limitations in resources, minority institutions provide an important educational opportunity for minority students, particularly in science and engineering fields. Aid to minority institutions is a good way to address the underrepresentation of minorities in science and technological fields.

(4) There is a strong Federal interest in improving science and engineering programs at minority institutions as such programs lag behind in program offerings and in student enrollment compared to such programs at other institutions of higher education.

(Pub. L. 89–329, title III, §350, as added Pub. L. 105–244, title III, §307(a), Oct. 7, 1998, 112 Stat. 1647.)

The Secretary may waive the requirements set forth in section 1058(b)(1)(A) of this title in the case of an institution—

(1) which is extensively subsidized by the State in which it is located and charges low or no tuition;

(2) which serves a substantial number of low-income students as a percentage of its total student population;

(3) which is contributing substantially to increasing higher education opportunities for educationally disadvantaged, underrepresented, or minority students, who are low-income individuals;

(b) Waiver determinations; expenditures

(1) The Secretary may waive the requirements set forth in section 1058(b)(1)(B) of this title if the Secretary determines, based on persuasive evidence submitted by the institution, that the institution's failure to meet that criterion is due to factors which, when used in the determination of compliance with such criterion, distort such determination, and that the institution's designation as an eligible institution under part A of this subchapter is otherwise consistent with the purposes of such parts.¹

(2) The Secretary shall submit to the Congress every other year a report concerning the institutions which, although not satisfying the criterion contained in section 1058(b)(1)(B) of this title, have been determined to be eligible institutions under part A which enroll significant numbers of Black American, Hispanic, Native American, Asian American, or Native Hawaiian students under part A, as the case may be. Such report shall—

(B) contain a list of each institution determined to be an eligible institution under part A including a statement of the reasons for each such determination.

(3) The Secretary may waive the requirement set forth in section 1058(b)(1)(E) ² of this title in the case of an institution located on or near an Indian reservation or a substantial population of Indians, if the Secretary determines that the waiver will substantially increase higher education opportunities appropriate to the needs of American Indians.

(1) Waiver authority

Notwithstanding any other provision of law, unless enacted with specific reference to this section, for any affected institution that was receiving assistance under this subchapter at the time of a Gulf hurricane disaster, the Secretary shall, for each of the fiscal years 2009 through 2011 (and may, for each of the fiscal years 2012 and 2013)—

- (iv) the use of the funding formula developed pursuant to section 1063b(f)(3) of this title;

(B) waive or modify any statutory or regulatory provision to ensure that affected institutions that were receiving assistance under this subchapter at the time of a Gulf hurricane disaster are not adversely affected by any formula calculation for fiscal year 2009 or for any of the four succeeding fiscal years, as necessary; and

(C) make available to each affected institution an amount that is not less than the amount made available to such institution under this subchapter for fiscal year 2006, except that for any fiscal year for which the funds appropriated for payments under this subchapter are less than the appropriated level for fiscal year 2006, the amount made available to such institutions shall be ratably reduced among the institutions receiving funds under this subchapter.

Such notice shall include the terms and conditions to be applied in lieu of such statutory and regulatory provisions. The Secretary is not required to exercise the waiver or modification authority under this section on a case-by-case basis.

SUBPART 1—FEDERAL PELL GRANTS

CODIFICATION

Pub. L. 105–244, title IV, §401(g)(2), Oct. 7, 1998, 112 Stat. 1652, amended subpart heading generally.

§1070a. Federal Pell Grants: amount and determinations; applications

(a) Program authority and method of distribution

(1) For each fiscal year through fiscal year 2017, the Secretary shall pay to each eligible institution such sums as may be necessary to pay to each eligible student (defined in accordance with section 1091 of this title) for each academic year during which that student is in attendance at an institution of higher education, as an undergraduate, a Federal Pell Grant in the amount for which that student is eligible, as determined pursuant to subsection (b) of this section. Not less than 85 percent of such sums shall be advanced to eligible institutions prior to the start of each payment period and shall be based upon an amount requested by the institution as needed to pay eligible students until such time as the Secretary determines and publishes in the Federal Register with an opportunity for comment, an alternative payment system that provides payments to institutions in an accurate and timely manner, except that this sentence shall not be construed to limit the authority of the Secretary to place an institution on a reimbursement system of payment.

(2) Nothing in this section shall be interpreted to prohibit the Secretary from paying directly to students, in advance of the beginning of the academic term, an amount for which they are eligible, in cases where the eligible institution elects not to participate in the disbursement system required by paragraph (1).

(3) Grants made under this subpart shall be known as “Federal Pell Grants”.

(b) Purpose and amount of grants

(1) The purpose of this subpart is to provide a Federal Pell Grant that in combination with reasonable family and student contribution and supplemented by the programs authorized under subparts 3 and 4 of this part, will meet at least 75 percent of a student's cost of attendance (as defined in section 10871l of this title), unless the institution determines that a greater amount of assistance would better serve the purposes of this section.

(2)(A) The amount of the Federal Pell Grant for a student eligible under this part shall be—

- (i) the maximum Federal Pell Grant, as specified in the last enacted appropriation Act applicable to that award year, plus
- (ii) the amount of the increase calculated under paragraph (7)(B) for that year, less
- (iii) an amount equal to the amount determined to be the expected family contribution with respect to that student for that year.

(B) In any case where a student attends an institution of higher education on less than a full-time basis (including a student who attends an institution of higher education on less than a half-time basis) during any academic year, the amount of the Federal Pell Grant to which that student is entitled shall be reduced in proportion to the degree to which that student is not so attending on a full-time basis, in accordance with a schedule of reductions established by the Secretary for the purposes of this division, computed in accordance with this subpart. Such schedule of reductions shall be established by regulation and published in the Federal Register in accordance with section 1089 of this title.

(3) No Federal Pell Grant under this subpart shall exceed the difference between the expected family contribution for a student and the cost of attendance (as defined in section 10871l of this title) at the institution at which that student is in attendance. If, with respect to any student, it is determined that the amount of a Federal Pell Grant plus the amount of the expected family contribution for that student exceeds the cost of attendance for that year, the amount of the Federal Pell Grant shall be reduced until the combination of expected family contribution and the amount of the Federal Pell Grant does not exceed the cost of attendance at such institution.

(4) No Federal Pell Grant shall be awarded to a student under this subpart if the amount of that grant for that student as determined under this subsection for any academic year is less than ten percent of the maximum amount of a Federal Pell Grant award determined under paragraph (2)(A)

for such academic year.

(5) Notwithstanding any other provision of this subpart, the Secretary shall allow the amount of the Federal Pell Grant to be exceeded for students participating in a program of study abroad approved for credit by the institution at which the student is enrolled when the reasonable costs of such program are greater than the cost of attendance at the student's home institution, except that the amount of such Federal Pell Grant in any fiscal year shall not exceed the maximum amount of a Federal Pell Grant award determined under paragraph (2)(A), for which a student is eligible during such award year. If the preceding sentence applies, the financial aid administrator at the home institution may use the cost of the study abroad program, rather than the home institution's cost, to determine the cost of attendance of the student.

(6) No Federal Pell Grant shall be awarded under this subpart to any individual who is incarcerated in any Federal or State penal institution or who is subject to an involuntary civil commitment upon completion of a period of incarceration for a forcible or nonforcible sexual offense (as determined in accordance with the Federal Bureau of Investigation's Uniform Crime Reporting Program).

(c) Period of eligibility for grants

(1) The period during which a student may receive Federal Pell Grants shall be the period required for the completion of the first undergraduate baccalaureate course of study being pursued by that student at the institution at which the student is in attendance except that any period during which the student is enrolled in a noncredit or remedial course of study as defined in paragraph (2) shall not be counted for the purpose of this paragraph.

(2) Nothing in this section shall exclude from eligibility courses of study which are noncredit or remedial in nature (including courses in English language instruction) which are determined by the institution to be necessary to help the student be prepared for the pursuit of a first undergraduate baccalaureate degree or certificate or, in the case of courses in English language instruction, to be

necessary to enable the student to utilize already existing knowledge, training, or skills. Nothing in this section shall exclude from eligibility programs of study abroad that are approved for credit by the home institution at which the student is enrolled.

(3) No student is entitled to receive Pell Grant payments concurrently from more than one institution or from the Secretary and an institution.

(4) Notwithstanding paragraph (1), the Secretary may allow, on a case-by-case basis, a student to receive a Federal Pell Grant if the student—

(A) is carrying at least one-half the normal full-time work load for the course of study the student is pursuing, as determined by the institution of higher education; and

(B) is enrolled or accepted for enrollment in a postbaccalaureate program that does not lead to a graduate degree, and in courses required by a State in order for the student to receive a professional certification or licensing credential that is required for employment as a teacher in an elementary school or secondary school in that State,

except that this paragraph shall not apply to a student who is enrolled in an institution of higher education that offers a baccalaureate degree in education.

(5) The period during which a student may receive Federal Pell Grants shall not exceed 12 semesters, or the equivalent of 12 semesters, as determined by the Secretary by regulation. Such regulations shall provide, with respect to a student who received a Federal Pell Grant for a term but was enrolled at a fraction of full-time, that only that same fraction of such semester or equivalent shall count towards such duration limits.

(d) Applications for grants

(1) The Secretary shall from time to time set dates by which students shall file applications for Federal Pell Grants under this subpart.

(2) Each student desiring a Federal Pell Grant for any year shall file an application therefor containing such information and assurances as the Secretary may deem necessary to enable the Secretary to carry out the functions and responsibilities of this subpart.

(e) Distribution of grants to students

Payments under this section shall be made in accordance with regulations promulgated by the Secretary for such purpose, in such manner as will best accomplish the purpose of this section. Any disbursement allowed to be made by crediting the student's account shall be limited to tuition and fees and, in the case of institutionally owned housing, room and board. The student may elect to have the institution provide other such goods and services by crediting the student's account.

(f) Calculation of eligibility

(1) Each contractor processing applications for awards under this subpart (including a central processor, if any, designated by the Secretary) shall, in a timely manner, furnish to the student financial aid administrator (at each institution of higher education which a student awarded a Federal Pell Grant under this subpart is attending), as a part of its regular output document, the expected family contribution for each such student. Each such student financial aid administrator shall—

(A) examine and assess the data used to calculate the expected family contribution of the student furnished pursuant to this subsection;

(B) recalculate the expected family contribution of the student if there has been a change in circumstances of the student or in the data submitted;

(C) make the award to the student in the correct amount; and

(D) after making such award report the corrected data to such contractor and to a central processor (if any) designated by the Secretary for a confirmation of the correct computation of amount of the expected family contribution for each such student.

(2) Whenever a student receives an award under this subpart that, due to recalculation errors by the institution of higher education, is in excess of the amount which the student is entitled to receive under this subpart, such institution of higher education shall pay to the Secretary the amount of such

excess unless such excess can be resolved in a subsequent disbursement to the institution.

(3) Each contractor processing applications for awards under this subpart shall for each academic year after academic year 1986–1987 prepare and submit a report to the Secretary on the correctness of the computations of amount of the expected family contribution, and on the accuracy of the questions on the application form under this subpart for the previous academic year for which the contractor is responsible. The Secretary shall transmit the report, together with the comments and recommendations of the Secretary, to the Committee on Appropriations of the Senate, the Committee on Appropriations of the House of Representatives, and the authorizing committees.

(g) Insufficient appropriations

If, for any fiscal year, the funds appropriated for payments under this subpart are insufficient to satisfy fully all entitlements, as calculated under subsection (b) of this section (but at the maximum grant level specified in such appropriation), the Secretary shall promptly transmit a notice of such insufficiency to each House of the Congress, and identify in such notice the additional amount that would be required to be appropriated to satisfy fully all entitlements (as so calculated at such maximum grant level).

(h) Use of excess funds

(1) If, at the end of a fiscal year, the funds available for making payments under this subpart exceed the amount necessary to make the payments required under this subpart to eligible students by 15 percent or less, then all of the excess funds shall remain available for making payments under this subpart during the next succeeding fiscal year.

(2) If, at the end of a fiscal year, the funds available for making payments under this subpart exceed the amount necessary to make the payments required under this subpart to eligible students by more than 15 percent, then all of such funds shall remain available for making such payments but payments may be made under this paragraph only with respect to entitlements for that fiscal year.

(i) Treatment of institutions and students under other laws

Any institution of higher education which enters into an agreement with the Secretary to disburse to students attending that institution the amounts those students are eligible to receive under this subpart shall not be deemed, by virtue of such agreement, a contractor maintaining a system of records to accomplish a function of the Secretary. Recipients of Pell Grants shall not be considered to be individual grantees for purposes of chapter 81 of title 41.

(j) Institutional ineligibility based on default rates

(1) In general

No institution of higher education shall be an eligible institution for purposes of this subpart if such institution of higher education is ineligible to participate in a loan program under part B or C of this subchapter as a result of a final default rate determination made by the Secretary under part B or C of this subchapter after the final publication of cohort default rates for fiscal year 1996 or a succeeding fiscal year.

(2) Sanctions subject to appeal opportunity

No institution may be subject to the terms of this subsection unless the institution has had the opportunity to appeal the institution's default rate determination under regulations issued by the Secretary for the loan program authorized under part B or C of this subchapter, as applicable. This subsection shall not apply to an institution that was not participating in the loan program authorized under part B or C of this subchapter on October 7, 1998, unless the institution subsequently participates in the loan programs.

§1070a–11. Program authority; authorization of appropriations

(a) Grants and contracts authorized

The Secretary shall, in accordance with the provisions of this division, carry out a program of making grants and contracts designed to identify qualified individuals from disadvantaged backgrounds, to prepare them for a program of postsecondary education, to provide support services for such students who are pursuing programs of postsecondary education, to motivate and prepare students for doctoral programs, and to train individuals serving or preparing for service in programs and projects so designed.

(b) Recipients, duration, and size

(1) Recipients

For the purposes described in subsection (a) of this section, the Secretary is authorized, without regard to section 6101 of title 41, to make grants to, and contracts with, institutions of higher education, public and private agencies and organizations, including community-based organizations with experience in serving disadvantaged youth, combinations of such institutions, agencies and organizations, and, as appropriate to the purposes of the program, secondary schools, for planning, developing, or carrying out one or more of the services assisted under this division.

(2) Duration

Grants or contracts made under this division shall be awarded for a period of 5 years, except that—

(A) in order to synchronize the awarding of grants for programs under this division, the Secretary may, under such terms as are consistent with the purposes of this division, provide a one-time, limited extension of the length of such an award;

(B) grants made under section 1070a–17 of this title shall be awarded for a period of 2 years; and

(C) grants under section 1070a–18 of this title shall be awarded for a period determined by the Secretary.

(3) Minimum grants

Unless the institution or agency requests a smaller amount, an individual grant authorized under this division shall be awarded in an amount that is not less than \$200,000, except that an individual grant authorized under section 1070a–17 of this title shall be awarded in an amount that is not less than \$170,000.

(c) Procedures for awarding grants and contracts

(1) Application requirements

An eligible entity that desires to receive a grant or contract under this division shall submit an application to the Secretary in such manner and form, and containing such information and assurances, as the Secretary may reasonably require.

(2) Considerations

(A) Prior experience

In making grants under this division, the Secretary shall consider each applicant's prior experience of high quality service delivery, as determined under subsection (f), under the particular program for which funds are sought. The level of consideration given the factor of prior experience shall not vary from the level of consideration given such factor during fiscal years 1994 through 1997, except that grants made under section 1070a–18 of this title shall not be given prior experience consideration.

(B) Participant need

In making grants under this division, the Secretary shall consider the number, percentages, and needs of eligible participants in the area, institution of higher education, or secondary school to be served to aid such participants in preparing for, enrolling in, or succeeding in postsecondary education, as appropriate to the particular program for which the eligible entity is applying.

(3) Order of awards; program fraud

(A) Except with respect to grants made under sections 1070a–17 and 1070a–18 of this title and as provided in subparagraph (B), the Secretary shall award grants and contracts under this division in the order of the scores received by the application for such grant or contract in the peer review process required under paragraph (4) and adjusted for prior experience in accordance with paragraph (2) of this subsection.

(B) The Secretary shall not provide assistance to a program otherwise eligible for assistance under this division, if the Secretary has determined that such program has involved the fraudulent use of funds under this division.

(4) Peer review process

(A) The Secretary shall ensure that, to the extent practicable, members of groups underrepresented in higher education, including African Americans, Hispanics, Native Americans, Alaska Natives, Asian Americans, and Native American Pacific Islanders (including Native Hawaiians), are represented as readers of applications submitted under this division. The Secretary shall also ensure that persons from urban and rural backgrounds are represented as readers.

(B) The Secretary shall ensure that each application submitted under this division is read by at least three readers who are not employees of the Federal Government (other than as readers of applications).

(5) Number of applications for grants and contracts

The Secretary shall not limit the number of applications submitted by an entity under any program authorized under this division if the additional applications describe programs serving different populations or different campuses.

(6) Coordination with other programs for disadvantaged students

The Secretary shall encourage coordination of programs assisted under this division with other programs for disadvantaged students operated by the sponsoring institution or agency, regardless of the funding source of such programs. The Secretary shall not limit an entity's eligibility to receive funds under this division because such entity sponsors a program similar to the program to be assisted under this division, regardless of the funding source of such program. The Secretary shall permit the Director of a program receiving funds under this division to administer one or more additional programs for disadvantaged students operated by the sponsoring institution or agency, regardless of the funding sources of such programs. The Secretary shall, as appropriate,

require each applicant for funds under the programs authorized by this division to identify and make available services under such program, including mentoring, tutoring, and other services provided by such program, to foster care youth (including youth in foster care and youth who have left foster care after reaching age 13) or to homeless children and youths as defined in section 11434a of title 42.

(7) Application status

The Secretary shall inform each entity operating programs under this division regarding the status of their application for continued funding at least 8 months prior to the expiration of the grant or contract. The Secretary, in the case of an entity that is continuing to operate a successful program under this division, shall ensure that the start-up date for a new grant or contract for such program immediately follows the termination of the preceding grant or contract so that no interruption of funding occurs for such successful reapplicants. The Secretary shall inform each entity requesting assistance under this division for a new program regarding the status of their application at least 8 months prior to the proposed startup date of such program.

(8) Review and notification by the Secretary

(A) Guidance

Not later than 180 days after August 14, 2008, the Secretary shall issue nonregulatory guidance regarding the rights and responsibilities of applicants with respect to the application and evaluation process for programs and projects assisted under this division, including applicant access to peer review comments. The guidance shall describe the procedures for the submission, processing, and scoring of applications for grants under this division, including—

In the case of evidence of a scoring error listed in clause (i)(I), when the error relates to either prior experience points for high quality service delivery or to the final score of an application, the Secretary shall—

(I) review such evidence and provide a timely response to the applicant; and

(II) if the Secretary determines that a scoring error was made by the Department or a peer reviewer, adjust the prior experience points or final score of the application appropriately and quickly, so as not to interfere with the timely awarding of grants for the applicable grant competition.

(iv) Error in peer review process

(cc) to extent practicable, has conducted peer reviews in not less than two previous competitions for the grant program that is the subject of such secondary review.

(IV) Final score

The final peer review score of an application subject to a secondary review under this clause shall be adjusted appropriately and quickly using the score awarded by the secondary review panel, so as not to interfere with the timely awarding of grants for the applicable grant competition.

(V) Qualification for secondary review

To qualify for a secondary review under this clause, an applicant shall have evidence of a scoring error and demonstrate that—

(aa) points were withheld for criteria not required in statute, regulation, or guidance governing the Federal TRIO programs or the application for a grant for such programs; or

(bb) information pertaining to selection criteria was wrongly determined to be missing from the application.

(1) In general

The Secretary shall conduct outreach activities to ensure that entities eligible for assistance under this division submit applications proposing programs that serve geographic areas and eligible populations which have been underserved by the programs assisted under this division.

(2) Notice

Such training shall be furnished at conferences, seminars, and workshops to be conducted at not less than 10 sites throughout the United States to ensure that all areas of the United States with large concentrations of eligible participants are served.

(4) Special rule

The outcome criteria under this subsection shall be disaggregated by low-income students, first generation college students, and individuals with disabilities, in the schools and institutions of higher education served by the program to be evaluated.

(3) Contents of outcome criteria

The outcome criteria under this subsection shall measure, annually and for longer periods, the quality and effectiveness of programs authorized under this division and shall include the following:
