CONTINENTAL SCIENTIFIC DRILLING AND EXPLORATION

Pub. L. 100–441, Sept. 22, 1988, 102 Stat. 1760, provided: “That this Act may be cited as the ‘Continental Scientific Drilling and Exploration Act’.

“SEC. 2. PURPOSES.

“The purpose of this Act is to—

“(1) implement section 323 of the joint resolution entitled ‘Joint Resolution making continuing appropriations for the fiscal year 1985, and for other purposes’, approved October 12, 1984 (Public Law 98–473; 98 Stat. 1875) [set out below] which supports and encourages the development of a national Continental Scientific Drilling Program;

“(1) taking such action as necessary to assure an effective, cooperative effort in furtherance of the Continental Scientific Drilling Program of the United States;

“(2) taking all reasonable administrative and financial measures to assure that the Interagency Accord on Continental Scientific Drilling continues to function effectively in support of such program;

“(3) assuring the continuing effective operation of the Interagency Coordinating Group to further the objectives of such program;

“(4) taking such action to assure that the Interagency Coordinating Group receives appropriate cooperation from any Federal agency that can contribute to the objectives of such program, without adversely affecting any program or activity of such agency;

“(5) acting through the Interagency Coordinating Group, preparing and submitting to the Congress, within one hundred and eighty days after the enactment of this Act [Sept. 22, 1988] a report describing—

“(A) long and short-term policy objectives and goals of the United States Continental Scientific Drilling Program;

“(B) projected schedules of desirable scientific and engineering events that would advance United States objectives in the Continental Scientific Drilling Program;

“(C) the levels of resources and funding for fiscal year 1989 that would be required by each participating Federal agency to carry out events pursuant to subparagraphs (A) and (B);

“(D) the scientific, economic, technological, and social benefits expected to be realized through the implementation of such program at each level described in subparagraph (C);

“(E) a recommended course for interaction with the international community in a cooperative effort to achieve the goals and purposes of this Act;

“(F) the extent of participation or interest shown to date in the Continental Scientific Drilling Program by—

“(i) any other governmental agency;

“(H) any other information or recommendations that the Interagency Coordinating Group deems appropriate; and

“(6) submitting to the Congress annually, beginning one year after the submission of a report under paragraph (5), a report describing the levels of resources and funding that would be required by each participating Federal agency for the next fiscal year to carry out events pursuant to paragraph (5)(A) and (B).”

[For termination, effective May 15, 2000, of provisions of law requiring submittal to Congress of any annual, semiannual, or other regular periodic report listed in House Document No. 103–7 (in which a report required under section 4(6) of Pub. L. 100–441, set out above, is listed as the 10th item on page 149), see section 3003 of Pub. L. 104–66, as amended, and section 1(a)(4) [div. A, §1402(1)] of Pub. L. 106–554, set out as notes under section 1113 of Title 31, Money and Finance.]

Pub. L. 98–473, title I, §101(c) [title III, §323], Oct. 12, 1984, 98 Stat. 1837, 1875, provided that: “It is the sense of the Congress that the Continental Scientific Drilling Program is an important national scientific endeavor, benefiting the commerce of the Nation, which should be vigorously pursued by Government and the private sector. The Continental Scientific Drilling Program is an important national scientific endeavor that is vital to the understanding of the geologic evolution of the Earth and the economic value of its resources; the most effective and efficient means of realizing the fullest potential in the Continental Scientific Drilling Program is through a cooperative effort by the Department of Energy, the National Science Foundation, and the United States Geological Survey; many important commercial and scientific advances may result from the Continental Scientific Drilling Program; and many foreign nations are engaged in a comparable deep drilling program, and cooperation and coordination would be beneficial to United States efforts. It is the sense of the Congress that—

“(1) the Continental Scientific Drilling Program is an important national scientific endeavor by the United States which should be enthusiastically implemented through a joint cooperative effort among the United States Department of Energy, the National Science Foundation, and the United States Geological Survey;

“(2) the private sector should be encouraged to support the Continental Scientific Drilling Program and the participating agencies should solicit appropriate private sector participation in such program; and

“(3) the United States Government should cooperate to the extent practicable with the international community in developing this important scientific and technical activity.”

§31a. Findings and purpose

(a) Findings

The Congress finds and declares that—

(1) although significant progress has been made in the production of geologic maps since the establishment of the national cooperative geologic mapping program in 1992, no modern, digital, geologic map exists for approximately 75 percent of the United States;

(2) geologic maps are the primary data base for virtually all applied and basic earth-science investigations, including—

(A) exploration for and development of mineral, energy, and water resources;

(B) screening and characterizing sites for toxic and nuclear waste disposal;

(C) land use evaluation and planning for homeland and environmental protection;

(D) earthquake hazards reduction;

(E) identifying volcanic hazards;

(F) design and construction of infrastructure requirements such as utility lifelines, transportation corridors, and surface-water impoundments;

(G) reducing losses from landslides and other ground failures;

(H) mitigating effects of coastal and stream erosion;

(I) siting of critical facilities;

(J) recreation and public awareness; and

(K) basic earth-science research;

(3) Federal agencies, State and local governments, private industry, and the general public depend on the information provided by geologic maps to determine the extent of potential environmental damage before embarking on projects that could lead to preventable, costly environmental problems or litigation;

(4) the combined capabilities of State, Federal, and academic groups to provide geologic mapping are not sufficient to meet the present and future needs of the United States for national security, environmental protection, and energy self-sufficiency of the Nation;

(5) States are willing to contribute 50 percent of the funding necessary to complete the mapping of the geology within the State;

(6) the lack of proper geologic maps has led to the poor design of such structures as dams and waste-disposal facilities;

(7) geologic maps have proven indispensable in the search for needed fossil-fuel and mineral resources;

(8) geologic map information is required for the sustainable and balanced development of natural resources of all types, including energy, minerals, land, water, and biological resources;

(9) advances in digital technology and geographical information system science have made geologic map databases increasingly available as decision support tools for land and resource management; and

(10) a comprehensive nationwide program of geologic mapping of surficial and bedrock deposits is required in order to systematically build the Nation's geologic-map data base at a pace that responds to increasing demand.

(b) Purpose

The purpose of sections 31a to 31h of this title is to expedite the production of a geologic-map data base for the Nation, to be located within the United States Geological Survey, which can be applied to land-use management, assessment, and utilization, conservation of natural resources, groundwater management, and environmental protection and management.

CODIFICATION

Section, act Mar. 3, 1925, ch. 462, 43 Stat. 1144, which abolished office of surveyor general and transferred its functions to Field Surveying Service under Supervisor of Surveys, was superseded by Reorg. Plan No. 3 of 1946, §403, eff. July 16, 1946, 11 F.R. 7876, 60 Stat. 1100. See note set out under section 1 of this title.

The office of surveyor general abolished in certain States by acts July 31, 1876, ch. 246, 19 Stat. 121, and Oct. 2, 1888, ch. 1069, 25 Stat. 525, and discontinued in others pursuant to R.S. §2218.

So far as they were not already superseded or obsolete by reason of abolition or discontinuance of the office, or otherwise, the following provisions were superseded by former provisions of this section:

R.S. §2207, providing for appointment of surveyors general in States and territories therein named, and acts Apr. 10, 1890, ch. 77, §1, 26 Stat. 53, and July 24, 1897, ch. 14, §2, 30 Stat. 215, providing for surveyors general in North and South Dakota and Alaska;

R.S. §§2208 to 2211; acts Apr. 10, 1890, ch. 77, §2, 26 Stat. 53; July 24, 1897, ch. 14, §3, 30 Stat. 215,

concerning salaries of particular surveyors general;

R.S. §§2212 to 2214, concerning number and location, of offices, and place of residence, of surveyors general.

R.S. §§2215 and 2216, concerning bonds of surveyors general;

R.S. §2217, concerning duration of term of office of surveyors general;

R.S. §§2226 and 2227, concerning allowances for clerk hire and office expenses;

Act Mar. 3, 1893, ch. 211, 27 Stat. 709, relative to consolidation of offices of two or more surveyors general; and provisions of act May 24, 1922, ch. 199, 42 Stat. 556, and prior acts concerning detail of clerks from office of one surveyor general to another.

§52. Surveying duties

The Secretary of the Interior or such officer as he may designate shall engage a sufficient number of skillful surveyors as his deputies, to whom he is authorized to administer the necessary oaths upon their appointments. He shall have authority to frame regulations for their direction, not inconsistent with law or the instructions of the Bureau of Land Management, and to remove them for negligence or misconduct in office.

Second. He shall cause to be surveyed, measured, and marked, without delay, all base and meridian lines through such points and perpetuated by such monuments, and such other correction parallels and meridians as may be prescribed by law or by instructions from the Bureau of Land Management, in respect to the public lands to which the Indian title has been or may be extinguished.

Third. He shall cause to be surveyed all private land claims after they have been confirmed by authority of Congress, so far as may be necessary to complete the survey of the public lands.

Fourth. He shall transmit to the officer, as the Secretary of the Interior may designate, of the respective land offices general and particular plats of all lands surveyed by him for each land district; and he shall forward copies of such plats to such officer as the Secretary may designate.

Fifth. He shall, so far as is compatible with the desk duties of his office, occasionally inspect the surveying operations while in progress in the field, sufficiently to satisfy himself of the fidelity of the execution of the work according to contract, and the actual and necessary expenses incurred by him while so engaged shall be allowed; and where it is incompatible with his other duties for the Secretary of the Interior or such officer as he may designate to devote the time necessary to make a personal inspection of the work in progress, then he is authorized to depute a confidential agent to make such examination; and the actual and necessary expenses of such person shall be allowed and paid for that service, and \$5 a day during the examination in the field; but such examination shall not be protracted beyond thirty days; and in no case longer than is actually necessary; and when the Secretary or such officer, or any person employed in his office at a regular salary, is engaged in such special service, he shall receive only his necessary expenses in addition to his regular salary.

(R.S. §2223; Mar. 3, 1925, ch. 462, 43 Stat. 1144; 1946 Reorg. Plan No. 3, §403, eff. July 16, 1946, 11 F.R. 7876, 60 Stat. 1100.)

Plan No. 3 of 1946. See note set out under section 1 of this title.

which abolished office of surveyor general and transferred its activities to Field Surveying Service under jurisdiction of United States Supervisor of Surveys.

§53. Powers devolved on Secretary of the Interior on turning over of papers to States

In all cases where, as provided in section 54 of this title, the field notes, maps, records, and other papers appertaining to land titles in any State are turned over to the authorities of such State, the same authority, powers, and duties in relation to the survey, resurvey, or subdivision of the lands therein, and all matters and things connected therewith, as previously exercised by the surveyor general, whose district included such State, shall be vested in, and devolved upon, the Secretary of the Interior or such officer as he may designate.

CODIFICATION

This section is from a part of R.S. §2224, as affected by act Mar. 3, 1925. The original text provided for the continuation of the use of the official seals authorized for the offices of the surveyors general of Oregon, California, and Louisiana. This provision was superseded by act Mar. 3, 1925 (classified to section 51 of this title), abolishing the office of surveyor-general. The rest of the section became inapplicable to Louisiana upon the discontinuance of the office of surveyor general of Louisiana pursuant to R.S. §2218. The text of this section was changed to provide for authentication by the supervisor of surveys, instead of a surveyor-general, in view of act Mar. 3, 1925 (classified to section 51 of this title) abolishing the office of surveyor general and transferring its activities to the Field Surveying Service, under the jurisdiction of the U.S. Supervisor of Surveys. See, also, Transfer of Functions note below.

§151. Opening of lands restored to entry after withdrawals

When public lands are excluded from national forests or released from withdrawals the President may, whenever in his judgment it is proper or necessary, provide for the opening of the lands by settlement in advance of entry, by drawing, or by such other method as he may deem advisable in the interest of equal opportunity and good administration, and in doing so may provide that lands so opened shall be subject only to homestead entry by actual settlers only or to entry under the desert-land laws for a period not exceeding ninety days, the unentered lands to be thereafter subject to disposition under the public-land laws applicable thereto.

(Sept. 30, 1913, ch. 15, §1, 38 Stat. 113.)

§152. Restoration of lands previously withdrawn

Where under the law the Secretary of the Interior is authorized or directed to make restoration of lands previously withdrawn he may also restrict the restoration as prescribed in section 151 of this title.

§153. Reservation of lands in North Dakota

Upon receipt of a proper deed from the State of North Dakota, executed under authority of the act of its legislative assembly, approved February 5, 1915, reconveying to the United States title to section 16, township 138 north, range 81 west, fifth principal meridian, the Secretary of the Interior is authorized to issue patents to said State for such vacant, surveyed, unreserved, unoccupied, nonmineral public lands as may be selected by said State within its boundaries, not exceeding one thousand two hundred and eighty acres in aggregate area, and said section when so reconveyed shall not be subject to settlement, location, entry, or selection under the public land laws, but shall be reserved for the use of the Department of Agriculture in carrying on experiments in dry-land agriculture at the Northern Great Plains Field Station, Mandan, North Dakota.

(July 3, 1916, ch. 219, 39 Stat. 344.)

§154. Vacation of withdrawals under reclamation law; lands valuable for minerals; reservation of rights, ways, and easements; rules and regulations

Where public lands of the United States have been withdrawn for possible use for construction purposes under the Federal reclamation laws, and are known or believed to be valuable for minerals and would, if not so withdrawn, be subject to location and patent under the general mining laws, the Secretary of the Interior, when in his opinion the rights of the United States will not be prejudiced thereby, may, in his discretion, open the land to location, entry, and patent under the general mining laws, reserving such ways, rights, and easements over or to such lands as may be prescribed by him and as may be deemed necessary or appropriate, including the right to take and remove from such lands construction materials for use in the construction of irrigation works, and/or the said Secretary may require the execution of a contract by the intending locator or entryman as a condition precedent to the vesting of any rights in him, when in the opinion of the Secretary same may be necessary for the protection of the irrigation interests. Such reservations or contract rights may be in favor of the United States or irrigation concerns cooperating or contracting with the United States and operating in the vicinity of such lands. The Secretary may prescribe the form of such contract which shall be

executed and acknowledged and recorded in the county records and United States local land office by any locator or entryman of such land before any rights in their favor attach thereto, and the locator or entryman executing such contract shall undertake such indemnifying covenants and shall grant such rights over such lands as in the opinion of the Secretary may be necessary for the protection of Federal or private irrigation in the vicinity. Notice of such reservation or of the necessity of executing such prescribed contract shall be filed in the Bureau of Land Management and in the appropriate local land office, and notations thereof shall be made upon the appropriate tract books, and any location or entry thereafter made upon or for such lands, and any patent therefor shall be subject to the terms of such contract and/or to such reserved ways, rights, or easements and such entry or patent shall contain a reference thereto.

The Secretary of the Interior may prescribe such rules and regulations as may be necessary to enable him to enforce the provisions of this section.

For purposes of this paragraph, the term “affiliate” means, with respect to any person, any other person which controls, is controlled by, or is under common control with, such person.

(c) Consent

Notwithstanding subsection (a) of this section and any other provision of law, after the effective date of this subsection no person may engage in the conduct of mineral activities (other than those relating to exploration referred to in subsection (b)(1)B) ¹ of this section) on a mining claim located on lands subject to this subchapter without the written consent of the surface owner thereof unless the Secretary has authorized the conduct of such activities under subsection (d) of this section.

(d) Authorized mineral activities

The Secretary shall authorize a person to conduct mineral activities (other than those relating to exploration referred to in subsection (b)(1)(B) of this section) on lands subject to this subchapter without the consent of the surface owner thereof if such person complies with the requirements of subsections (e) and (f) of this section.

(e) Bond

(1) Before the Secretary may authorize any person to conduct mineral activities the Secretary shall require such person to post a bond or other financial guarantee in an amount to insure the completion of reclamation pursuant to this subchapter. Such bond or other financial guarantee shall ensure—

- (A) payment to the surface owner, after the completion of such mineral activities and reclamation, compensation for any permanent damages to crops and tangible improvements of the surface owner that resulted from mineral activities; and
- (B) payment to the surface owner of compensation for any permanent loss of income of the surface owner due to loss or impairment of grazing, or other uses of the land by the surface owner to the extent that reclamation required by the plan of operations would not permit such uses to continue at the level existing prior to the commencement of mineral activities.

(2) In determining the bond amount to cover permanent loss of income under paragraph (1)(B), the Secretary shall consider, where appropriate, the potential loss of value due to the estimated permanent reduction in utilization of the land.

(f) Plan of operations

(1) Before the Secretary may authorize any person to conduct mineral activities on lands subject to this subchapter, the Secretary shall require such person to submit a plan of operations. Such plan shall include procedures for—

- (A) the minimization of damages to crops and tangible improvements of the surface owner;
- (B) the minimization of disruption to grazing or other uses of the land by the surface owner; and
- (C) payment of a fee for the use of surface during mineral activities equivalent to the loss of income to the ranch operation as established pursuant to subsection (g) of this section.

(2) The Secretary shall provide a copy of the proposed plan of operations to the surface owner at least 45 days prior to the date the Secretary makes a determination as to whether such plan complies with the requirements of this subsection. During such 45-day period the surface owner may submit comments and recommend modifications to the proposed plan of operations to the Secretary.

(3)(A) The Secretary shall, within 60 days of receipt of the plan, approve the plan of operations if it complies with the requirements of this subchapter, including each of the following:

- (i) The proposed plan of operations is complete and accurate.
- (ii) The person submitting the proposed plan of operations has demonstrated that all other applicable Federal and State requirements have been met.

(B) The Secretary shall notify the person submitting a plan of operations of any modifications to such plan required to bring it into compliance with the requirements of this subchapter. If the person submitting the plan agrees to modify such plan in a manner acceptable to the Secretary, the Secretary shall approve the plan as modified. In the event no agreement can be reached on the modifications to the plan which, in the opinion of the Secretary, will bring such plan into compliance with the requirements of this subchapter, then the Secretary shall disapprove the plan and notify both the surface owner and the person submitting the plan of the decision.

(C) The 60-day period referred to in subparagraph (A) may be extended by the Secretary where additional time is required to comply with other applicable requirements of law.

(D) The Secretary shall suspend or revoke a plan of operation whenever the Secretary determines, on the Secretary's own motion or on a motion made by the surface owner, that the person conducting mineral activities is in substantial noncompliance with the terms and conditions of an approved plan of operations and has failed to remedy a violation after notice from the Secretary within the time required by the Secretary.

(4) Final approval of a plan of operations under this subsection shall be conditioned upon compliance with subsections (e) and (g) of this section.

(g) Fee

The fee referred to in subsection (f)(1) of this section shall be—

- (1) paid to the surface owner by the person submitting the plan of operations;
- (2) paid in advance of any mineral activities or at such other time or times as may be agreed to by the surface owner and the person conducting such activities; and
- (3) established by the Secretary taking into account the acreage involved and the degree of potential disruption to existing surface uses during mineral activities (including the loss of income to the surface owner and such surface owner's operations due to the loss or impairment of existing surface uses for the duration of the mineral activities), except that such fee shall not exceed the fair market value for the surface of the land.

(h) Reclamation

Lands affected by mineral activities under a plan of operations approved pursuant to subsection

(f)(3) of this section shall be reclaimed, to the maximum extent practicable, to a condition capable of supporting the uses to which such lands were capable of supporting prior to surface disturbance. Reclamation shall proceed as contemporaneously as practicable with the conduct of mineral activities.

(i) State law

(1) Nothing in this subchapter shall be construed as affecting any reclamation, bonding, inspection, enforcement, air or water quality standard or requirement of any State law or regulation which may be applicable to mineral activities on lands subject to this subchapter to the extent that such law or regulation is not inconsistent with this title.²

(2) Nothing in this subchapter shall be construed as affecting in any way the right of any person to enforce or protect, under applicable law, the interest of such person in water resources affected by mineral activities.

(j) Inspections

Should any surface owner of land subject to this subchapter have reason to believe that they are or may be adversely affected by mineral activities due to any violation of the terms and conditions of a plan of operations approved under subsection (f) of this section, such surface owner may request an inspection of such lands. The Secretary shall determine within 10 days of the receipt of the request whether the request states a reason to believe that a violation exists, except in the event the surface owner alleges and provides reason to believe that an imminent danger exists, the 10-day period shall be waived and the inspection conducted immediately. When an inspection is conducted under this paragraph, the Secretary shall notify the surface owner and such surface owner shall be allowed to accompany the inspector on the inspection.

(k) Damages for failure to comply

(1) Whenever the surface owner of any land subject to this subchapter has suffered any permanent damages to crops or tangible improvements of the surface owner, or any permanent loss of income due to loss or impairment of grazing, or other uses of the land by the surface owner, if such damages or loss result from—

(A) any mineral activity undertaken without the consent of the surface owner under subsection (c) of this section or an authorization by the Secretary under subsection (d) of this section; or

(B) the failure of the person conducting mineral activities to remedy to the satisfaction of the Secretary any substantial noncompliance with the terms and conditions of a plan under subsection (f) of this section;

the surface owner may bring an action in the appropriate United States district court for, and the court may award, double damages plus costs for willful misconduct or gross negligence.

(2) The surface owner of any land subject to this subchapter may also bring an action in the appropriate United States district court for double damages plus costs for willful misconduct or gross negligence against any person undertaking any mineral activities on lands subject to this subchapter in violation of any requirement of subsection (b) of this section.

(3) Any double damages plus costs awarded by the court under this subsection shall be reduced by the amount of any compensation which the surface owner has received (or is eligible to receive) pursuant to the bond or financial guarantee required under subsection (e) of this section.

(l) Payment of financial guarantee

The surface owner of any land subject to this subchapter may petition the Secretary for payment of all or any portion of a bond or other financial guarantee required under subsection (e) of this section as compensation for any permanent damages to crops and tangible improvements of the surface owner, or any permanent loss of income due to loss or impairment of grazing, or other uses of the land by the surface owner. Pursuant to such a petition, the Secretary may use such bond or other guarantee to provide compensation to the surface owner for such damages and to insure the required reclamation.

(m) Bond release

The Secretary shall release the bond or other financial guarantee required under subsection (e) of this section upon the successful completion of all requirements pursuant to a plan of operations approved under subsection (f) of this section.

(n) Conveyance to surface owner

The Secretary shall take such actions as may be necessary to simplify the procedures which must be complied with by surface owners of lands subject to this subchapter who apply to the Secretary to obtain title to interests in such lands owned by the United States.

SUBCHAPTER I—GENERALLY

§315. Grazing districts; establishment; restrictions; prior rights; rights-of-way; hearing and notice; hunting or fishing rights

In order to promote the highest use of the public lands pending its final disposal, the Secretary of the Interior is authorized, in his discretion, by order to establish grazing districts or additions thereto and/or to modify the boundaries thereof, of vacant, unappropriated, and unreserved lands from any part of the public domain of the United States (exclusive of Alaska), which are not in national forests, national parks and monuments, Indian reservations, revested Oregon and California Railroad grant lands, or revested Coos Bay Wagon Road grant lands, and which in his opinion are chiefly valuable for grazing and raising forage crops: *Provided*, That no lands withdrawn or reserved for any other purpose shall be included in any such district except with the approval of the head of the department having jurisdiction thereof. Nothing in this subchapter shall be construed in any way to diminish, restrict, or impair any right which has been heretofore or may be hereafter initiated under existing law validly affecting the public lands, and which is maintained pursuant to such law except as otherwise expressly provided in this subchapter nor to affect any land heretofore or hereafter surveyed which, except for the provisions of this subchapter, would be a part of any grant to any State, nor as limiting or restricting the power or authority of any State as to matters within its jurisdiction. Whenever any grazing district is established pursuant to this subchapter, the Secretary shall grant to owners of land adjacent to such district, upon application of any such owner, such rights-of-way over the lands included in such district for stock-driving purposes as may be necessary

for the convenient access by any such owner to marketing facilities or to lands not within such district owned by such person or upon which such person has stock-grazing rights. Neither this subchapter nor the Act of December 29, 1916 (39 Stat. 862; U.S.C., title 43, secs. 291 and following), commonly known as the “Stock Raising Homestead Act”, shall be construed as limiting the authority or policy of Congress or the President to include in national forests public lands of the character described in section 471 ¹ of title 16, for the purposes set forth in section 475 of title 16, or such other purposes as Congress may specify. Before grazing districts are created in any State as herein provided, a hearing shall be held in the State, after public notice thereof shall have been given, at such location convenient for the attendance of State officials, and the settlers, residents, and livestock owners of the vicinity, as may be determined by the Secretary of the Interior. No such district shall be established until the expiration of ninety days after such notice shall have been given, nor until twenty days after such hearing shall be held: *Provided, however,* That the publication of such notice shall have the effect of withdrawing all public lands within the exterior boundary of such proposed grazing districts from all forms of entry of settlement. Nothing in this subchapter shall be construed as in any way altering or restricting the right to hunt or fish within a grazing district in accordance with the laws of the United States or of any State, or as vesting in any permittee any right whatsoever to interfere with hunting or fishing within a grazing district.

SHORT TITLE

Act June 28, 1934, which enacted this subchapter, is popularly known as the “Taylor Grazing Act”.

¹ [*See References in Text note below.*](#)

§315a. Protection, administration, regulation, and improvement of districts; rules and regulations; study of erosion and flood control; offenses

The Secretary of the Interior shall make provision for the protection, administration, regulation, and improvement of such grazing districts as may be created under the authority of section 315 of this title, and he shall make such rules and regulations and establish such service, enter into such cooperative agreements, and do any and all things necessary to accomplish the purposes of this subchapter and to insure the objects of such grazing districts, namely, to regulate their occupancy and use, to preserve the land and its resources from destruction or unnecessary injury, to provide for the orderly use, improvement, and development of the range; and the Secretary of the Interior is authorized to continue the study of erosion and flood control and to perform such work as may be necessary amply to protect and rehabilitate the areas subject to the provisions of this subchapter,

through such funds as may be made available for that purpose, and any willful violation of the provisions of this subchapter or of such rules and regulations thereunder after actual notice thereof shall be punishable by a fine of not more than \$500.

(June 28, 1934, ch. 865, §2, 48 Stat. 1270.)

§315b. Grazing permits; fees; vested water rights; permits not to create right in land

The Secretary of the Interior is authorized to issue or cause to be issued permits to graze livestock on such grazing districts to such bona fide settlers, residents, and other stock owners as under his rules and regulations are entitled to participate in the use of the range, upon the payment annually of reasonable fees in each case to be fixed or determined from time to time in accordance with governing law. Grazing permits shall be issued only to citizens of the United States or to those who have filed the necessary declarations of intention to become such, as required by the naturalization laws, and to groups, associations, or corporations authorized to conduct business under the laws of the State in which the grazing district is located. Preference shall be given in the issuance of grazing permits to those within or near a district who are landowners engaged in the livestock business, bona fide occupants or settlers, or owners of water or water rights, as may be necessary to permit the proper use of lands, water or water rights owned, occupied, or leased by them, except that until July 1, 1935, no preference shall be given in the issuance of such permits to any such owner, occupant, or settler, whose rights were acquired between January 1, 1934, and December 31, 1934, both dates, inclusive, except that no permittee complying with the rules and regulations laid down by the Secretary of the Interior shall be denied the renewal of such permit, if such denial will impair the value of the grazing unit of the permittee, when such unit is pledged as security for any bona fide loan. Such permits shall be for a period of not more than ten years, subject to the preference right of the permittees to renewal in the discretion of the Secretary of the Interior, who shall specify from time to time numbers of stock and seasons of use. During periods of range depletion due to severe drought or other natural causes, or in case of a general epidemic of disease, during the life of the permit, the Secretary of the Interior is authorized, in his discretion to remit, reduce, refund in whole or in part, or authorize postponement of payment of grazing fees for such depletion period so long as the emergency exists: *Provided further*, That nothing in this subchapter shall be construed or administered in any way to diminish or impair any right to the possession and use of water for mining, agriculture, manufacture, or other purposes which has heretofore vested or accrued under existing law validly affecting the public lands or which may be hereafter initiated or acquired and maintained in accordance with such law. So far as consistent with the purposes and provisions of this subchapter, grazing privileges recognized and acknowledged shall be adequately safeguarded, but the creation of a grazing district or the issuance of a permit pursuant to the provisions of this subchapter shall not create any right, title, interest, or estate in or to the lands.

(June 28, 1934, ch. 865, §3, 48 Stat. 1270; Aug. 6, 1947, ch. 507, §1, 61 Stat. 790; Pub. L. 94-579, title IV, §401(b)(3), Oct. 21, 1976, 90 Stat. 2773.)

AMENDMENTS

1976—Pub. L. 94-579 substituted provisions authorizing fees to be fixed in accordance with governing law, for provisions authorizing fees to take into account public benefits to users of grazing districts over and above benefits accruing to users of forage resources and provisions requiring fees to consist of a grazing fee and a range-improvement fee.

1947—Act Aug. 6, 1947, provided for method to be used by Secretary of the Interior in fixing amount of grazing fees and by assessing a separate grazing fee and a range-improvement fee.

SAVINGS PROVISION

Amendment by Pub. L. 94-579 not to be construed as terminating any valid lease, permit, patent, etc., existing on Oct. 21, 1976, see section 701 of Pub. L. 94-579, set out as a note under section 1701 of this title.

§315c. Fences, wells, reservoirs, and other improvements; construction; permits; partition fences

“SEC. 3001. SHORT TITLE.

“This title may be cited as the ‘Western Water Policy Review Act of 1992’.

“SEC. 3002. CONGRESSIONAL FINDINGS.

“The Congress finds that—

“(1) the Nation needs an adequate water supply for all states [States] at a reasonable cost;

“(2) the demands on the Nation's finite water supply are increasing;

“(3) coordination on both the Federal level and the local level is needed to achieve water policy objectives;

“(4) not less than fourteen agencies of the Federal Government are currently charged with functions relating to the oversight of water policy;

“(5) the diverse authority over Federal water policy has resulted in unclear goals and an inefficient

handling of the Nation's water policy;

“(6) the conflict between competing goals and objectives by Federal, State, and local agencies as well as by private water users is particularly acute in the nineteen Western States which have arid climates which include the seventeen reclamation States, Hawaii, and Alaska;

“(7) the appropriations doctrine of water allocation which characterizes most western water management regimes varies from State to State, and results in many instances in increased competition for limited resources;

“(8) the Federal Government has recognized and continues to recognize the primary jurisdiction of the several States over the allocation, priority, and use of water resources of the States, except to the extent such jurisdiction has been preempted in whole or in part by the Federal Government, including, but not limited to, express or implied Federal reserved water rights either for itself or for the benefit of Indian Tribes, and that the Federal Government will, in exercising its authorities, comply with applicable State laws;

“(9) the Federal Government recognizes its trust responsibilities to protect Indian water rights and assist Tribes in the wise use of those resources;

“(10) Federal agencies, such as the Bureau of Reclamation, have had, and will continue to have major responsibilities in assisting States in the wise management and allocation of scarce water resources; and

“(11) the Secretary of the Interior, given his responsibilities for management of public land, trust responsibilities for Indians, administration of the reclamation program, investigations and reviews into ground water resources through the Geologic Survey [now United States Geological Survey], and the Secretary of the Army, given his responsibilities for flood control, water supply, hydroelectric power, recreation, and fish and wildlife enhancement, have the resources to assist in a comprehensive review, in consultation with appropriate officials from the nineteen Western States, into the problems and potential solutions facing the nineteen Western States and the Federal Government in the increasing competition for the scarce water resources of the Western States.

“SEC. 3003. PRESIDENTIAL REVIEW.

“(a) The President is directed to undertake a comprehensive review of Federal activities in the nineteen Western States which directly or indirectly affect the allocation and use of water resources, whether surface or subsurface, and to submit a report on the President's findings, together with recommendations, if any, to the Committees on Energy and Natural Resources, Environment and Public Works and Appropriations of the Senate and the Committees on Natural Resources, Public Works and Transportation [now Transportation and Infrastructure], Merchant Marine and Fisheries and Appropriations of the House of Representatives.

“(b) Such report shall be submitted within three years from the date of enactment of this Act [Oct. 30, 1992].

“(c) In conducting the review and preparing the report, the President is directed to consult with the Advisory Commission established under section 3004 of this title, and may request the Secretary of the Interior and the Secretary of the Army or other Federal officials or the Commission to undertake such studies or other analyses as the President determines would assist in the review.

“(d) The President shall consult periodically with the Commission, and upon the request of the President, the heads of other Federal agencies are directed to cooperate with and assist the Commission in its activities.

“SEC. 3004. THE ADVISORY COMMISSION.

“(a) The President shall appoint an Advisory Commission (hereafter in this title referred to as the ‘Commission’) to assist in the preparation and review of the report required under this title.

“(b) The Commission shall be composed of eighteen members as follows:

“(1) Ten members appointed by the President including:

“(A) the Secretary of the Interior or his designee;

“(B) the Secretary of the Army or his designee;

“(C) at least one representative chosen from a list submitted by the Western Governors Association; and

“(D) at least one representative chosen from a list submitted by Tribal governments located in the Western States.

“(2) In addition to the ten members appointed by the President, twelve Members from the United States Congress shall serve as ex officio members of the Commission. For the United States Senate: the Chairmen and the Ranking Minority Members of the Committees on Energy and Natural Resources, and Appropriations, and the Subcommittee of the Committee on Energy and Natural Resources which has

jurisdiction over the Bureau of Reclamation. For the United States House of Representatives: the Chairman [Chairmen] and Ranking Minority Members of the Committees on Natural Resources, Public Works and Transportation [now Transportation and Infrastructure], and Appropriations.

“(c) The President shall appoint one member of the Commission to serve as Chairman.

“(d) Any vacancy which may occur on the Commission shall be filled in the same manner in which the original appointment was made.

“(e) Members of the Commission shall serve without compensation but shall be reimbursed for travel, subsistence, and other necessary expenses incurred by them in the performance of their duties.

“SEC. 3005. DUTIES OF THE COMMISSION.

“The Commission shall—

“(1) review present and anticipated water resource problems affecting the nineteen Western States, making such projections of water supply requirements as may be necessary and identifying alternative ways of meeting these requirements—giving considerations, among other things, to conservation and more efficient use of existing supplies, innovations to encourage the most beneficial use of water and recent technological advances;

“(2) examine the current and proposed Federal programs affecting such States and recommend to the President whether they should be continued or adopted and, if so, how they should be managed for the next twenty years, including the possible reorganization or consolidation of the current water resources development and management agencies;

“(3) review the problems of rural communities relating to water supply, potable water treatment, and wastewater treatment;

“(4) review the need and opportunities for additional storage or other arrangements to augment existing water supplies including, but not limited to, conservation;

United States in connection with the construction or operation and maintenance of said project, or properties not owned by the United States; (b) to enter into contracts with the owners of said properties whereby they undertake to acquire any or all property needed for said relocation, or to perform any or all work involved in said relocations; and (c) for the purpose of effecting completely said relocations, to convey or exchange Government properties acquired or improved under (a) above, with or without improvements, or other properties owned and held by the United States in connection with the construction or operation and maintenance of said project, or to grant perpetual easements therein or thereover. Grants or conveyances hereunder shall be by instruments executed by the Secretary without regard to provisions of law governing the patenting of public lands.

The Secretary is further authorized, for the purpose of orderly and economical construction or operation and maintenance of any project, to enter into such contracts for exchange or replacement of water, water rights, or electric energy or for the adjustment of water rights, as in his judgment are necessary and in the interests of the United States and the project.

DEFINITIONS

The definitions in section 485a of this title apply to this section.

§390. Utilization of dams and reservoir projects for irrigation purposes; additional construction; necessity of authorization; apportionment of cost; limitation

On and after December 22, 1944, whenever the Secretary of the Army determines, upon recommendation by the Secretary of the Interior that any dam and reservoir project operated under the direction of the Secretary of the Army may be utilized for irrigation purposes, the Secretary of the Interior is authorized to construct, operate, and maintain, under the provisions of the Federal reclamation laws (Act of June 17, 1902, 32 Stat. 388, and Acts amendatory thereof or supplementary thereto), such additional works in connection therewith as he may deem necessary for irrigation purposes. Such irrigation works may be undertaken only after a report and findings thereon have been made by the Secretary of the Interior as provided in said Federal reclamation laws and after subsequent specific authorization of the Congress by an authorization Act; and, within the limits of the water users' repayment ability such report may be predicated on the allocation to irrigation of an appropriate portion of the cost of structures and facilities used for irrigation and other purposes. Dams and reservoirs operated under the direction of the Secretary of the Army may be utilized after December 22, 1944, for irrigation purposes only in conformity with the provisions of this section, but the foregoing requirement shall not prejudice lawful uses now existing: *Provided*, That this section shall not apply to any dam or reservoir heretofore constructed in whole or in part by the Army engineers, which provides conservation storage of water for irrigation purposes. In the case of any reservoir project constructed and operated by the Corps of Engineers, the Secretary of the Army is authorized to allocate water which was allocated in the project purpose for municipal and industrial water supply and which is not under contract for delivery, for such periods as he may deem reasonable, for the interim use for irrigation purposes of such storage until such storage is required for municipal and industrial water supply. No contracts for the interim use of such storage shall be entered into which would significantly affect then-existing uses of such storage.

§390b. Development of water supplies for domestic, municipal, industrial, and other purposes

(a) Declaration of policy

It is declared to be the policy of the Congress to recognize the primary responsibilities of the States and local interests in developing water supplies for domestic, municipal, industrial, and other purposes and that the Federal Government should participate and cooperate with States and local interests in developing such water supplies in connection with the construction, maintenance, and operation of Federal navigation, flood control, irrigation, or multiple purpose projects.

(b) Storage in reservoir projects; agreements for payment of cost of construction or modification of projects

In carrying out the policy set forth in this section, it is provided that storage may be included in any reservoir project surveyed, planned, constructed or to be planned, surveyed and/or constructed by the Corps of Engineers or the Bureau of Reclamation to impound water for present or anticipated future demand or need for municipal or industrial water, and the reasonable value thereof may be taken into account in estimating the economic value of the entire project: *Provided*, That the cost of

any construction or modification authorized under the provisions of this section shall be determined on the basis that all authorized purposes served by the project shall share equitably in the benefits of multiple purpose construction, as determined by the Secretary of the Army or the Secretary of the Interior, as the case may be: *Provided further*, That before construction or modification of any project including water supply provisions for present demand is initiated, State or local interests shall agree to pay for the cost of such provisions in accordance with the provisions of this section: *And provided further*, That (1) for Corps of Engineers projects, not to exceed 30 percent of the total estimated cost of any project may be allocated to anticipated future demands, and, (2) for Bureau of Reclamation projects, not to exceed 30 per centum of the total estimated cost of any project may be allocated to anticipated future demands where State or local interests give reasonable assurances, and there is reasonable evidence, that such demands for the use of such storage will be made within a period of time which will permit paying out the costs allocated to water supply within the life of the project: *And provided further*, That for Corps of Engineers projects, the Secretary of the Army may permit the full non-Federal contribution to be made, without interest, during construction of the project, or, with interest, over a period of not more than thirty years from the date of completion, with repayment contracts providing for recalculation of the interest rate at, five-year intervals, and for Bureau of Reclamation projects, the entire amount of the construction costs, including interest during construction, allocated to water supply shall be repaid within the life of the project but in no event to exceed fifty years after the project is first used for the storage of water for water supply purposes, except that (1) no payment need be made with respect to storage for future water supply until such supply is first used, and (2) no interest shall be charged on such cost until such supply is first used, but in no case shall the interest-free period exceed ten years. For Corps of Engineers projects, all annual operation, maintenance, and replacement costs for municipal and industrial water supply storage under the provisions of this section shall be reimbursed from State or local interests on an annual basis. For Corps of Engineers projects, any repayment by a State or local interest shall be made with interest at a rate to be determined by the Secretary of the Treasury, taking into consideration the average market yields on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the reimbursement period, during the month preceding the fiscal year in which costs for the construction of the project are first incurred (or, when a recalculation is made), plus a premium of one-eighth of one percentage point for transaction costs. For Bureau of Reclamation projects, the interest rate used for purposes of computing interest during construction and interest on the unpaid balance shall be determined by the Secretary of the Treasury, as of the beginning of the fiscal year in which construction is initiated, on the basis of the computed average interest rate payable by the Treasury upon its outstanding marketable public obligations, which are neither due nor callable for redemption for fifteen years from date of issue. The provisions of this subsection insofar as they relate to the Bureau of Reclamation and the Secretary of the Interior shall be alternative to and not a substitute for the provisions of the Reclamation Projects Act of 1939 (53 Stat. 1187) [43 U.S.C. 485 et seq.] relating to the same subject.

(c) Application to other laws

The provisions of this section shall not be construed to modify the provisions of section 701–1 of title 33 and section 390 of this title, as amended and extended, or the provisions of sections 372 and 383 of this title.

(d) Approval of Congress of modifications of reservoir projects

Modifications of a reservoir project heretofore authorized, surveyed, planned, or constructed to include storage as provided in subsection (b) of this section which would seriously affect the purposes for which the project was authorized, surveyed, planned, or constructed, or which would involve major structural or operational changes shall be made only upon the approval of Congress as now provided by law.

AMENDMENTS

1986—Subsec. (b). Pub. L. 99–662 inserted in third proviso “(1) for Corps of Engineers projects, not to exceed 30 percent of the total estimated cost of any project may be allocated to anticipated future demands, and, (2) for Bureau of Reclamation projects,” inserted in fourth proviso “for Corps of Engineers projects, the Secretary of the Army may permit the full non-Federal contribution to be made, without interest, during construction of the project, or, with interest, over a period of not more than thirty years from the date of completion, with repayment contracts providing for recalculation of the interest rate at, five-year intervals, and for Bureau of Reclamation projects,” inserted after first sentence “For Corps of Engineers projects, all annual operation, maintenance, and replacement costs for municipal and industrial water supply storage under the provisions of this section shall be reimbursed from State or local interests on an annual basis. For Corps of Engineers projects, any repayment by a State or local interest shall be made with interest at a rate to be determined by the Secretary of the Treasury, taking into consideration the average market yields on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the reimbursement period, during the month preceding the fiscal year in which costs for the construction of the project are first incurred (or, when a recalculation is made), plus a premium of one-eighth of one percentage point for transaction costs.”, and substituted “For Bureau of Reclamation projects, the interest rate used” for “The interest rate used”.

1961—Subsec. (b). Pub. L. 87–88 substituted provisions permitting not more than 30 per centum of the total estimated cost of any project to be allocated to anticipated future demands where State or local interests give reasonable assurances, and there is reasonable evidence, that such demands for the use of such storage will be made within a period of time which will permit paying out the costs allocated to water supply within the life of the project for provisions which permitted not more than 30 per centum of the total estimated cost of any project to be allocated to anticipated future demands where States or local interests give reasonable assurance that they will contract for the use of storage for anticipated future demands within a period of time which will permit paying out the costs allocated to water supply within the life of the project.

SHORT TITLE

Pub. L. 85–500, title III, §302, July 3, 1958, 72 Stat. 320, provided that: “Title III of this Act [enacting this section] may be cited as the ‘Water Supply Act of 1958’.”

AMENDMENT OF CONTRACTS EXISTING PRIOR TO NOVEMBER 17, 1986

Pub. L. 99–662, title IX, §932(b), Nov. 17, 1986, 100 Stat. 4197, provided that: “Nothing in this section [amending this section] shall be deemed to amend or require amendment of any valid contract entered into pursuant to the Water Supply Act of 1958 [this section], or Federal reclamation law and approved by the Secretary of the Army or the Secretary of the Interior prior to the date of enactment of this Act [Nov. 17, 1986].”

§390c. Water reservoirs; interests of States and local agencies in storage space

Cognizant that many States and local interests have in the past contributed to the Government, or have contracted to pay to the Government over a specified period of years, money equivalent to the cost of providing for them water storage space at Government-owned dams and reservoirs, constructed by the Corps of Engineers of the United States Army, and that such practices will continue, and, that no law defines the duration of their interest in such storage space, and realizing that such States and local interests assume the obligation of paying substantially their portion of the cost of providing such facilities, their right to use may be continued during the existence of the facility as hereinafter provided.

(Pub. L. 88–140, §1, Oct. 16, 1963, 77 Stat. 249.)

§390d. Dams and reservoirs wherein costs thereof, or rights thereto, have been acquired by local interests

Sections 390c to 390f of this title are applicable to all dams and reservoirs heretofore or hereafter constructed by the United States Government (acting through the Corps of Engineers of the United States Army) wherein either a part of the construction cost thereof shall have been contributed or may be contributed by States or local interests (hereinafter called “local interests”) or local interests have acquired or may acquire rights to utilize certain storage space thereof by making payments during the period of such use as specified in the agreement with the Government and wherein the amount of money paid, exclusive of interest, is equivalent to the cost of providing that part of such dam and reservoir which is allocated to such use, whether such share of cost shall have been determined by the “incremental cost” method or by the “separable costs-remaining benefits” method or by any other method. Included among the dams and reservoirs affected by sections 390c to 390f of this title are those constructed by the Corps of Engineers of the Department of the Army, but nothing in sections 390c to 390f of this title shall be construed to affect or modify section 390 of this title.

§390e. Rights, acquisition and availability of; obligation for operation and maintenance; costs for reconstruction, rehabilitation, or replacement; use during Government operation or by contract

The right thus acquired by any such local interest is declared to be available to the local interest so long as the space designated for that purpose may be physically available, taking into account such equitable reallocation of reservoir storage capacities among the purposes served by the project as may be necessary due to sedimentation, and not limited to the term of years which may be prescribed in any lease agreement or other agreement with the Government, but the enjoyment of such right will remain subject to performance of its obligations prescribed in such lease agreement or agreement executed in reference thereto. Such obligations will include continued payment of annual operation and maintenance costs allocated to water supply. In addition, local interests shall bear the costs allocated to the water supply of any necessary reconstruction, rehabilitation, or replacement of project features which may be required to continue satisfactory operation of the project. Any affected local interest may utilize such facility so long as it is operated by the Government. In the event that the Government concludes that it can no longer usefully and economically maintain and operate such facility, the responsible department or agency of the Government is authorized to negotiate a contract with the affected local interest under which the local interest may continue to operate such part of the facility as is necessary for utilization of the storage space allocated to it, under terms which will protect the public interest and provided that the Government is effectively absolved from all liability in connection with such operation.

(Pub. L. 88–140, §3, Oct. 16, 1963, 77 Stat. 249.)

§390f. Revision of leases or agreements to evidence conversion of rights to use of storage rights

Upon application of any affected local interest its existing lease or agreement with the Government will be revised to evidence the conversion of its rights to the use of the storage as prescribed in sections 390c to 390f of this title.

(Pub. L. 88–140, §4, Oct. 16, 1963, 77 Stat. 250.)

§390g. Groundwater recharge of aquifers; demonstration program

The Secretary of the Interior (hereinafter referred to as the “Secretary”), acting through the Bureau of Reclamation (hereinafter referred to as the “Bureau”), shall, in two phases, conduct an investigation of and establish demonstration projects for groundwater recharge of aquifers in the States of Colorado, Kansas, Nebraska, New Mexico, Oklahoma, South Dakota, Texas, and Wyoming (such States to be hereinafter referred to as the “High Plains States”) and in the other States referred to in section 391 of this title (hereinafter referred to as “other Reclamation Act States”), as provided by sections 390g to 390g–8 of this title: *Provided*, That funds made available pursuant to sections 390g to 390g–8 of this title shall not be used for the study or construction of groundwater recharge demonstration projects in the High Plains States and other Reclamation Act States which would utilize water originating in the drainage basin of the Great Lakes. The Bureau shall consult with the United States Geological Survey and other appropriate agencies and departments of the United States and of the High Plains States and other Reclamation Act States in order to carry out sections 390g to 390g–8 of this title.

(Pub. L. 98–434, §2, Sept. 28, 1984, 98 Stat. 1675.)

SHORT TITLE

Pub. L. 98–434, §1, Sept. 28, 1984, 98 Stat. 1675, provided: “That this Act [enacting sections 390g to 390g–8 of this title] may be cited as the ‘High Plains States Groundwater Demonstration Program Act of 1983’.”

§390g–1. Phase I of groundwater recharge demonstration program

(a) Development of detailed plan of demonstration projects; requisite features of plan

During phase I, the Bureau, in consultation with the High Plains States and other Reclamation Act States and other appropriate departments and agencies of the United States, including the United States Geological Survey, shall develop a detailed plan of demonstration projects the purpose of which is to determine whether various recharge technologies may be applied to diverse geologic and hydrologic conditions represented in the High Plains States and other Reclamation Act States. In the preparation and development of such plan, the Bureau shall make maximum use of data, planning studies and other technical resources and assistance available from State and local entities: *Provided*, That contributions of such technical resources and assistance may be counted as part of the inkind services or other State contribution, but shall otherwise be provided without compensation to the State or local entity. This plan shall contain the selection of not less than a total of twelve demonstration project sites in High Plains States and not less than a total of nine demonstration project sites in other Reclamation Act States. Demonstration project sites shall be confined to areas having a declining water table, an available surface water supply, and a high probability of physical, chemical, and economic feasibility for recharge of the groundwater reservoir. The plan shall provide for demonstration of the application of recharge technology and the selection of water sources, determination of necessary physical works and the operation of water replacement systems, formulation of a monitoring program, identification of any economic, legal, intergovernmental, and environmental issues and projection of planning problems associated with such systems, and recommendation of legislative and administrative actions as may be necessary to carry out phase II.

(b) Recommendation of demonstration projects

During phase I the Bureau is authorized and directed to recommend demonstration projects to be designed, constructed, and operated during phase II.

(c) Preliminary selection of projects

Within six months, after the enactment of an appropriation Act to carry out phase I, the Secretary shall make a preliminary selection of projects to receive further planning and development and shall initiate such further planning and development for those selected projects.

(Pub. L. 98–434, §3, Sept. 28, 1984, 98 Stat. 1675; Pub. L. 104–66, title I, §1081(c), Dec. 21, 1995, 109 Stat. 721.)

AMENDMENTS

1995—Subsec. (d). Pub. L. 104–66 struck out subsec. (d) which read as follows: “Within twenty-four months after the date of enactment of an appropriation Act to carry out phase I, the Secretary shall transmit a report to Congress containing the recommendations made pursuant to subsection (b) of this section and a detailed statement of his findings and conclusions.”

§390g–2. Phase II of groundwater recharge demonstration program

(a) Design, construction, and operation of projects

During phase II, and subject to State water laws and interstate water compacts, the Bureau is authorized and directed to design, construct, and operate demonstration projects in the High Plains States and other Reclamation Act States to recharge groundwater systems as recommended in the report referred to in subsection (c) of this section.

(b) Alternative means of cost allocation; economic feasibility of projects

During phase II the Secretary, acting through the Bureau, shall contract with the various High Plains States and other Reclamation Act States to conduct a study to identify and evaluate alternative means by which the costs of groundwater recharge projects could be allocated among the beneficiaries of the projects within the respective States and identify and evaluate the economic feasibility of and the legal authority for utilizing groundwater recharge in water resource development projects.

(c) Reports to Congress

(1) Within twelve months after the initiation of phase II, and at annual intervals thereafter, the Secretary shall submit interim reports to Congress. Each report shall contain a detailed statement of his findings and progress respecting the design, construction, and operation of the demonstration projects referred to in subsection (a) of this section and the study referred to in subsection (b) of this section.

(2) Within five years after the initiation of phase II, the Secretary shall submit a summary report to Congress. The summary report shall contain—

(A) a detailed evaluation of the demonstration projects referred to in subsection (a) of this section;

(B) the results of the studies referred to in subsection (b) of this section;

(C) specific recommendations regarding the location, scope, and feasibility of operational groundwater recharge projects to be constructed and maintained by the Bureau; and

(D) an evaluation of the feasibility of integrating these groundwater recharge projects into existing reclamation projects.

(3) In addition to recommendations made under section 390g–1 of this title, the Secretary shall make additional recommendations for design, construction, and operation of demonstration projects. Such projects are authorized to be designed, constructed, and operated in accordance with subsection (a) of this section.

(4) Each project under this section shall terminate five years after the date on which construction on the project is completed.

(5) At the conclusion of phase II the Secretary shall submit a final report to the Congress which shall include, but not be limited to, a detailed evaluation of the projects under this section.

(Pub. L. 98–434, §4, Sept. 28, 1984, 98 Stat. 1676; Pub. L. 102–575, title XXVI, §2601(1), (2), Oct. 30, 1992, 106 Stat. 4689.)

AMENDMENTS

1992—Subsec. (c). Pub. L. 102–575 substituted “summary report” for “final report” in two places in

introductory provisions of par. (2) and added pars. (3) to (5).

§390g–3. Evaluation of water quality impacts

The Secretary, acting through the Bureau, and the Administrator of the Environmental Protection Agency (hereinafter referred to as the “Administrator”) shall enter into a memorandum-of-understanding to provide for an evaluation of the impacts to surface water and groundwater quality resulting from the groundwater recharge demonstration projects constructed pursuant to sections 390g to 390g–8 of this title. The Administrator shall consult with the United States Geological Survey and shall make maximum use of data, studies, and other technical resources and assistance available from State and local entities in conducting the evaluation. The evaluation of water quality impacts shall be completed so as to be included in the Secretary's summary report to the Congress referred to in section 390g–2(c)(2) of this title.

(Pub. L. 98–434, §5, Sept. 28, 1984, 98 Stat. 1676; Pub. L. 102–575, title XXVI, §2601(1), Oct. 30, 1992, 106 Stat. 4689.)

AMENDMENTS

1992—Pub. L. 102–575 substituted “summary report” for “final report”.

§390g–4. Authorization of appropriations to carry out phase I

There is authorized to be appropriated \$500,000 for fiscal years beginning after September 30, 1983, to carry out phase I. Amounts shall be made available pursuant to the authorization contained in this section in a single sum for all demonstration project sites, and it shall be within the discretion of the Secretary to apportion such sum among such sites.

(Pub. L. 98–434, §6, Sept. 28, 1984, 98 Stat. 1677.)

§390g–5. Authorization of appropriations to carry out phase II

There is authorized to be appropriated for fiscal years beginning after September 30, 1983, \$31,000,000 (October 1990 price levels) plus or minus such amounts, if any, as may be required by reason of ordinary fluctuations in construction costs as indicated by engineering cost indexes applicable to the type of construction involved herein to carry out phase II. Amounts shall be made available pursuant to the authorization contained in this section in sums for individual projects based on findings of feasibility by the Secretary.

(Pub. L. 98–434, §7, Sept. 28, 1984, 98 Stat. 1677; Pub. L. 102–575, title XXVI, §2601(3), Oct. 30, 1992, 106 Stat. 4689.)

AMENDMENTS

1992—Pub. L. 102–575 substituted “\$31,000,000 (October 1990 price levels) plus or minus such amounts, if any, as may be required by reason of ordinary fluctuations in construction costs as indicated by engineering cost indexes applicable to the type of construction involved herein” for “\$20,000,000 (October 1983 price levels)”.

§390g–6. Matching basis for funding phase II from non-Federal sources

The funds authorized to be appropriated pursuant to section 390g–5 of this title shall match on a four-to-one basis funds made available by the States, their political subdivisions, or other non-Federal entities to meet the cost of phase II: *Provided*, That, in-kind services or other contributions by the States, their political subdivisions, or other non-Federal entities shall be considered in the determination of the matching non-Federal share. The Secretary is authorized to

enter into memoranda of agreement with any appropriate agencies or departments of the High Plains States and other Reclamation Act States to share the costs of phase II.

(Pub. L. 98–434, §8, Sept. 28, 1984, 98 Stat. 1677.)

Any district which has an existing contract with the Secretary as of October 12, 1982, which does not enter into an amendment of such contract as specified in subsection (a) of this section shall be subject to Federal reclamation law in effect immediately prior to October 12, 1982, as that law is amended or supplemented by sections 209 through 230 of this title [43 U.S.C. 390ii—390zz–1, 373a, 422e, 425b, 485h]. Within a district that does not enter into an amendment of its contract with the Secretary within four and one-half years of October 12, 1982, irrigation water may be delivered to lands leased in excess of a landholding of one hundred and sixty acres only if full cost, as defined in section 390bb(3)(A) of this title, is paid for such water as is assignable to those lands leased in excess of such landholding of one hundred and sixty acres: *Provided*, That the interest rate used in computing full cost under this subsection shall be the same as provided in section 390ee(a)(3) of this title.

(c) Election by qualified or limited recipients in absence of amendment to contract

In the absence of an amendment to a contract, as specified in subsection (a) of this section, a

qualified recipient or limited recipient may elect to be subject to the provisions of this subchapter by executing an irrevocable election in a form approved by the Secretary to comply with this subchapter. The district shall thereupon deliver irrigation water to and collect from such recipient, for the credit of the United States, the additional charges required by this subchapter and assignable to the recipient making the election.

(d) Consent of non-Federal party

Amendments to contracts which are not required by the provisions of this subchapter shall not be made without the consent of the non-Federal party.

Notwithstanding any other provision of law, any contract with a district entered into by the Secretary as specified in section 390cc of this title, shall provide for the delivery of irrigation water at full cost as defined in section 390bb(3) of this title to:

(1) a landholding in excess of nine hundred and sixty acres of class I lands or the equivalent thereof for a qualified recipient,¹

(B) the weighted average of market yields on all interest-bearing, marketable issues sold by the Treasury

during the fiscal year preceding the fiscal year in which the expenditures are made, or October 12, 1982, for expenditures made before October 12, 1982.

(b) Delivery of irrigation water at prior terms and conditions

Any contract with a district entered into by the Secretary as specified in section 390cc of this title, shall provide for the delivery of irrigation water to lands not in excess of the landholdings described

As a condition to the receipt of irrigation water for lands in a district which has a contract as specified in section 390cc of this title, each landowner and lessee within such district shall furnish the district, in a form prescribed by the Secretary, a certificate that they are in compliance with the provisions of this subchapter including a statement of the number of acres leased, the term of any lease, and a certification that the rent paid reflects the reasonable value of the irrigation water to the productivity of the land. The Secretary may require any lessee to submit to him, for his examination, a complete copy of any such lease executed by each of the parties thereto.

§390gg. Equivalency

Upon the request of any district, the ownership and pricing limitations imposed by this subchapter shall apply to the irrigable lands classified within such district by the Secretary as having class I productive potential or the equivalent thereof in larger acreage of less productive potential, as determined by the Secretary, taking into account all factors which significantly affect productivity, including but not limited to topography, soil characteristics, length of growing season, elevation, adequacy of water supply, and crop adaptability.

(Pub. L. 97–293, title II, §207, Oct. 12, 1982, 96 Stat. 1266.)

§390hh. Operation and maintenance charges

The price of irrigation water delivered by the Secretary pursuant to a contract or an amendment to a contract with a district, as specified in section 390cc of this title, shall be at least sufficient to recover all operation and maintenance charges which the district is obligated to pay to the United

States.

(b) Modification of price

Whenever a district enters into a contract or requests that its contract be amended as specified in section 390cc of this title, and each year thereafter, the Secretary shall calculate such operation and maintenance charges and shall modify the price of irrigation water delivered under the contract as necessary to reflect any changes in such costs by amending the district's contract accordingly.

(c) Districts not operating from Federal funds

This section shall not apply to districts which operate and maintain project facilities and finance the operation and maintenance thereof from non-Federal funds.

(Pub. L. 97-293, title II, §208, Oct. 12, 1982, 96 Stat. 1267.)

§390ii. Disposition of excess lands

(a) Disposal of lands in excess of ownership limitations within reasonable time

Irrigation water made available in the operation of reclamation project facilities may not be delivered for use in the irrigation of lands held in excess of the ownership limitations imposed by Federal reclamation law, including this subchapter, unless and until the owners thereof shall have executed a recordable contract with the Secretary, in accordance with the terms and conditions required by Federal reclamation law, requiring the disposal of their interest in such excess lands within a reasonable time to be established by the Secretary. In the case of recordable contracts entered into prior to October 12, 1982, such reasonable time shall not exceed ten years after the recordable contract is executed by the Secretary. In the case of recordable contracts entered into after October 12, 1982, except as provided in section 390rr of this title, such reasonable time shall not exceed five years after the recordable contract is executed by the Secretary.

(b) Continued delivery of irrigation water to lands held in excess of ownership limitations

Lands held in excess of the ownership limitations imposed by Federal reclamation law, including this subchapter, which, on October 12, 1982, are, or are capable of, receiving delivery of irrigation water made available by the operation of existing reclamation project facilities may receive such deliveries only—

- (1) if the disposal of the owner's interest in such lands is required by an existing recordable contract with the Secretary, or
- (2) if the owners of such lands have requested that a recordable contract be executed by the Secretary.

(c) Amendment of existing recordable contracts

Recordable contracts existing on October 12, 1982, shall be amended at the request of the landowner to conform with the ownership limitations contained in this subchapter: *Provided*, That the time period for disposal of excess lands specified in the existing recordable contract shall not be extended except as provided in subsection (e) of this section.

(d) Power of attorney requirement in contracts; exercise of power by Secretary

Any recordable contract covering excess lands sales shall provide that a power of attorney shall vest in the Secretary to sell any excess lands not disposed of by the owners thereof within the period of time specified in the recordable contract. In the exercise of that power, the Secretary shall sell such lands through an impartial selection process only to qualified purchasers according to such reasonable rules and regulations as the Secretary may establish: *Provided*, That the Secretary shall recover for the owner the fair market value of the land unrelated to irrigation water deliveries plus the fair market value of improvements thereon.

(e) Extension of time for disposal of excess lands

In the event that the owner of any lands in excess of the ownership limitations of Federal reclamation law has heretofore entered into a recordable contract with the Secretary for the

disposition of such excess lands and has been prevented from disposing of them because the Secretary may have withheld the processing or approval of the disposition of the lands (whether he may have been compelled to do so by court order or for other reasons), the period of time for the disposal of such lands by the owner thereof pursuant to the contract shall be extended from the date on which the Secretary again commences the processing or the approval of the disposition of such lands for a period which shall be equal to the remaining period of time under the recordable contract for the disposal thereof by the owner at the time the decision of the Secretary to withhold the processing or approval of such disposition first became effective.

(f) Eligibility of excess lands for irrigation water after disposition

Excess lands which have been or may be disposed of in compliance with Federal reclamation law, including this subchapter, shall not be considered eligible to receive irrigation water unless—

(1) they are held by nonexcess owners; and

(2) in the case of disposals made after October 12, 1982, their title is burdened by a covenant prohibiting their sale, for a period of ten years after their original disposal to comply with Federal reclamation law, including this subchapter, for values exceeding the sum of the value of newly added improvements and the value of the land as increased by market appreciation unrelated to the delivery of irrigation water. Upon expiration of the terms of such covenant, the title to such lands shall be freed of the burden of any limitations on subsequent sale values which might otherwise be imposed by the operation of section 423e of this title.

Provisions of this section as not amended, modified, or repealed by the Submerged Lands Act, see section 1303 of this title.

§421a. Construction of distribution and drainage systems by irrigation districts or public agencies

Distribution and drainage systems authorized to be constructed under the Federal reclamation laws may, in lieu of construction by the Secretary of the Interior (referred to in sections 421a to 421h of this title as the “Secretary”), be constructed by irrigation districts or other public agencies according to plans and specifications approved by the Secretary as provided in sections 421a to 421h of this title. The drainage systems referred to in sections 421a to 421h of this title are those required for collection and removal of excess irrigation water, either on or below the surface of the ground and do not include enlargement or alteration of existing waterways for disposition or natural runoff.

(July 4, 1955, ch. 271, §1, 69 Stat. 244; Pub. L. 92–487, Oct. 13, 1972, 86 Stat. 804.)

AMENDMENTS

1972—Pub. L. 92–487 substituted provisions relating to construction of distribution and drainage systems, for provisions relating to construction of irrigation systems, and inserted provisions setting forth the type of drainage systems subject to coverage of sections 421a to 421h of this title.

§421b. Loans for construction of distribution and drainage systems; repayment contract; time period for repayment of loan; “irrigation district or other public agency” defined

To assist financially in the construction of the aforesaid local distribution and drainage systems by irrigation districts and other public agencies the Secretary is authorized, on application therefor by such irrigation districts or other public agencies, to make funds available on a loan basis from moneys appropriated for the construction of such distribution and drainage systems to any irrigation district or other public agency in an amount equal to the estimated construction cost of such system, contingent upon a finding by the Secretary that the loan can be returned to the United States in accordance with the general repayment provisions of sections 485a(d) and 485h(d) of this title and upon a showing that such district or agency already holds or can acquire all lands and interests in land (except public and other lands or interests in land owned by the United States which are within the administrative jurisdiction of the Secretary and subject to disposition by him) necessary for the construction, operation, and maintenance of the project. The Secretary shall, upon approval of a loan, including any loan for a distribution and drainage system receiving water from the San Luis unit, Central Valley project, authorized by the Act of June 3, 1960 (74 Stat. 156), enter into a repayment contract which includes such provisions as the Secretary shall deem necessary and proper to provide assurance of prompt repayment of the loan within not to exceed forty years plus a development period not to exceed ten years. The term “irrigation district or other public agency” shall for the purposes of sections 421a to 421h of this title mean any conservancy district, irrigation district, water users’ organization, or other organization, which is organized under State law and which has capacity to enter into contracts with the United States pursuant to the Federal reclamation laws.

“(a) SALE.—The Secretary of the Interior (hereinafter in this section referred to as the ‘Secretary’), under such terms as the Secretary shall prescribe, shall sell or otherwise dispose of loans made pursuant to the Distribution System Loans Act (43 U.S.C. 421a–421d) [43 U.S.C. 421a to 421h], the Small Reclamation Projects Act [of 1956] (43 U.S.C. 422a–422i) [43 U.S.C. 422a et seq.], and the Rehabilitation and Betterment Act (43 U.S.C. 504–505) [43 U.S.C. 504 and note] in such amounts as to realize net proceeds to the Federal Government of not less than \$130,000,000 in the fiscal year ending September 30, 1988. In the conduct of such sales, the Secretary shall take such actions as he deems appropriate to accommodate, effectuate, and otherwise protect the rights and obligations of the United States and the borrowers under the contracts executed to provide for repayment of such loans.

“(b) SAVINGS PROVISIONS.—Nothing in this section, including the prepayment or other disposition of any loan or loans, shall—

“(1) except to the extent that prepayment may have been authorized heretofore, relieve the borrower from the application of the provisions of Federal Reclamation law (Act of June 17, 1902 [32 Stat. 388, see Short Title note under section 371 of this title], and Acts amendatory thereof or supplementary thereto, including the Reclamation Reform Act of 1982 [43 U.S.C. 390aa et seq.]), including acreage limitations, to the extent such provisions would apply absent such prepayment, or

§421c. Conditions of loan for distribution and drainage systems; reconveyance by Secretary of lands, interests in lands, and distribution works heretofore conveyed to the United States; conditions of reconveyance; rights of way

The Secretary shall require, as conditions to any such loan, that the borrower contribute in money or materials, labor, lands, or interests in land, computed at their reasonable value, a portion not in excess of 10 per centum, of the construction cost of the distribution and drainage system (including all costs of acquiring lands and interests in land), that the plans for the system be in accord with sound engineering practices and be such as will achieve the purposes for which the system was authorized, and that the borrower agree to account in full in regard to all disbursements of borrowed funds and to return at once for application toward amortization of the loan all funds which are not expended in the construction of the distribution and drainage system. Every organization contracting for repayment of a loan under sections 421a to 421h of this title shall operate and maintain its distribution and drainage works in conformity with reasonable contractual requirements determined to be appropriate for the protection of the United States. The Secretary is hereby authorized to reconvey to borrowers all lands or interests in lands and distribution works transferred to the United States under the provisions of sections 421a to 421h of this title: *Provided*, That any reconveyance shall be upon the condition that the repayment contract of the borrower be amended to include such

provisions as the Secretary shall deem necessary or proper to provide assurance of and security for prompt repayment of the loan. The head of any department or agency of the Government within whose administrative jurisdiction are lands owned by the United States the use of which is reasonably necessary for the construction, operation, and maintenance of distribution and drainage works under sections 421a to 421h of this title may grant to a borrower or prospective borrower under sections 421a to 421h of this title revocable permission for the use thereof in like manner as under sections 79 and 524 of title 16, sections 323 to 328 of title 25, section 8124 of title 38, or sections 931a to 931d, 946 to 950, 956, and 959 of this title, or any other similar Act which is applicable to the lands involved: *Provided*, That no such permission shall be granted in the case of lands being administered for national park, national monument, or wildlife purposes.

CODIFICATION

“Section 8124 of title 38” substituted in text (see 1991 Amendment note below) for “section 5024 of title 38”, which previously had been substituted for “section 5014 of title 38” as the probable intent of Congress in view of the renumbering of section 5014 of title 38 as section 5024 by Pub. L. 96–22, title III, §301(b)(1), June 13, 1979, 93 Stat. 61. Previously, “section 5014 of title 38” had been substituted for “section 11i of title 38” on authority of Pub. L. 85–857, §5(a), Sept. 2, 1958, 72 Stat. 1281, the first section of which enacted Title 38, Veterans’ Benefits.

AMENDMENTS

1991—Pub. L. 102–40 substituted “section 8124 of title 38” for “section 5024 of title 38”. See Codification note above.

1972—Pub. L. 92–487 inserted provision subjecting drainage systems to the requirements of this section, substituted provisions authorizing the Secretary to reconvey to borrowers all land or interests in land and distribution works transferred to the United States under the provisions of sections 421a to 421h of this title, with the proviso relating to the amendment of the repayment contract, for provisions requiring borrowers, prior to the consummation of any loan, to transfer to the United States any lands or interests in lands presently held or acquired in the future which the Secretary finds necessary for the construction, operation, or maintenance of distribution systems, with title to all such lands, etc., subject to retransfer to the borrower by the Secretary upon repayment of the loan, to remain in the United States, and struck out provisions which restricted applicability of provisions to provisions relating to Federal reclamation laws.

1956—Act May 14, 1956, provided that the Secretary, as conditions to loan, require borrower to account for disbursements of borrowed funds and return for application toward amortization of the loan all funds not expended in the construction of the distribution system, required, prior to the consummation of any loan, the transfer to the United States of titles to lands or interests in lands held by the borrower, and that titles to such lands, interests, and distribution works remain in United States until repayment, and provided for issuance of revocable permits for the use of lands owned by United States, in lieu of the formerly authorized actual conveyance to the districts of the rights-of-way.

§421d. Effect on existing laws

Except as otherwise provided in sections 421a to 421h of this title, the provisions of the Federal reclamation laws, and Acts amendatory thereto, are continued in full force and effect.

(July 4, 1955, ch. 271, §4, 69 Stat. 245; Pub. L. 92–487, Oct. 13, 1972, 86 Stat. 805.)

§421e. Municipal and industrial water supply delivery and distribution; allocation of loan funds; loan repayment contract requirements; rate of interest

Unless otherwise provided in the Act authorizing construction of the project, the delivery and distribution of municipal and industrial water supplies shall be deemed to be an authorized project purpose under sections 421a to 421h of this title, and where appropriate, an allocation of loan funds acceptable to the Secretary shall be made between irrigation and municipal and industrial purposes. Loan repayment contracts shall require that the borrower pay interest on that portion of the unamortized loan obligation (including interest during construction) allocated in each year to municipal and industrial purposes at the rate provided in the Act authorizing the project, or absent such an authorized rate, at a rate determined by the Secretary of the Treasury as of the beginning of the fiscal year in which the contract, or contract amendment entered into pursuant to section 421f of this title, is executed, on the basis of the computed average interest rate payable by the Treasury upon its outstanding marketable public obligations which are neither due nor callable for redemption for fifteen years from date of issue, and by adjusting such average rate to the nearest one-eighth of 1 per centum.

(July 4, 1955, ch. 271, §5, as added Pub. L. 92–487, Oct. 3, 1972, 86 Stat. 805.)

§421f. Existing loan contracts; negotiation by Secretary of amendments

§422c. Proposals; submission; payment for cost of examination

Any organization desiring to avail itself of the benefits provided in this subchapter shall submit a

AMENDMENTS

1986—Pub. L. 99-546 substituted “\$5,000” for “\$1,000”.

§422d. Contents of proposals

(a) Plans and estimates; review by States; allocation of capital costs

Any proposal with respect to the construction of a project which has not theretofore been authorized for construction under the Federal reclamation laws shall set forth, among other things, a plan and estimated cost in detail comparable to those included in preauthorization reports required for a Federal reclamation project; shall have been submitted for review by the States of the drainage basin in which the project is located in like manner as provided in section 701-1(c) of title 33, except that the review may be limited to the State or States in which the project is located if the proposal is one solely for rehabilitation and betterment of an existing project; and shall include a proposed allocation of capital costs to functions such that costs for facilities used for a single purpose shall be allocated to that purpose and costs for facilities used for more than one purpose shall be so allocated among the purposes served that each purpose will share equitably in the costs of such joint facilities. The costs of means and measures to prevent loss of and damage to fish and wildlife resources shall be considered as project costs and allocated as may be appropriate among project functions.

(b) Lands and water rights; ownership; financing

(1) Every such proposal shall include a showing that the organization already holds or can acquire all lands and interests in land (except public and other lands and interests in land owned by the United States which are within the administrative jurisdiction of the Secretary and subject to disposition by him) and rights, pursuant to applicable State law, to the use of water necessary for the successful construction, operation, and maintenance of the project and that it is ready, able, and willing to finance otherwise than by loan and grant of Federal funds such portion of the cost of the project (which portion shall include all costs of acquiring lands, interests in land, and rights to the use of water), except as provided in section 422e(b)(2) of this title as the Secretary shall have advised is proper in the circumstances.

(2) The Secretary shall require each organization to contribute toward the cost of the project (other than by loan and/or grant of Federal funds) an amount equal to 25 percent or more of the allowable estimated cost of the project: *Provided*, That the Secretary, at his discretion, may reduce the amount of such contribution to the extent that he determines that the organization is unable to secure financing from other sources under reasonable terms and conditions, and shall include letters from lenders or other written evidence in support of any funding of an applicant's inability to secure such financing in any project proposal transmitted to the Congress: *Provided further*, That under no circumstances shall the Secretary reduce the amount of such contribution to less than 10 percent of the allowable estimated total project costs. In determining the amount of the contribution as required by this paragraph, the Secretary shall credit toward that amount the cost of investigations, surveys, engineering, and other services necessary to the preparation of proposals and plans for the project as required by the Secretary, and the costs of lands and rights-of-way required for the project, and the \$5,000 fee described in section 422c of this title. In determining the allowable estimated cost of the project, the Secretary shall not include the amount of grants accorded to the organization under section 422e(b) of this title.

(c) Transmittal of findings and approval to Congress; certification of soil survey; reservation of land

At such time as a project is found by the Secretary and the Governor of the State in which it is

located (or an appropriate State agency designated by him) to be financially feasible, is determined by the Secretary to constitute a reasonable risk under the provisions of this subchapter, and is approved by the Secretary, such findings and approval shall be transmitted to the Congress. Each project proposal transmitted by the Secretary to the Congress shall include a certification by the Secretary that an adequate soil survey and land classification has been made, or that the successful irrigability of those lands and their susceptibility to sustained production of agricultural crops by means of irrigation has been demonstrated in practice. Such proposal shall also include an investigation of soil characteristics which might result in toxic or hazardous irrigation return flows. The Secretary, at the time of submitting the project proposal to Congress or at the time of his determination that the requested project constitutes a reasonable risk under the provisions of this subchapter, may reserve from use or disposition inimical to the project any lands and interests in land owned by the United States which are within his administrative jurisdiction and subject to disposition by him and which are required for use by the project. Any such reservation shall expire at the end of two years unless the contract provided for in section 422e of this title shall have been executed.

(d) Amount of loan and/or grant; increase by Secretary

At the time of his submitting the project proposal to the Congress, or at any subsequent time prior to completion of construction of the project, including projects heretofore approved, the Secretary may increase the amount of the requested loan and/or grant to an amount within the maximum allowed by section 422e(a) of this title, as amended by Pub. L. 94–181, to compensate for increases in construction costs due to price escalation.

(e) Appropriation; nonapplicability

No appropriation shall be made for financial participation in any such project prior to sixty calendar days (which sixty days, however, shall not include days on which either the House of Representatives or the Senate is not in session because of an adjournment of more than three calendar days to a day certain) from the date on which the Secretary's findings and approval are submitted to the Congress and then only if, within said sixty days, neither the Committee on Natural Resources of the House of Representatives nor the Committee on Energy and Natural Resources of the Senate disapproves the project proposal by committee resolution. The provisions of this subsection (e) shall not be applicable to proposals made under section 422f of this title.

(f) Consideration of financial feasibility, emergency, or urgent need; jurisdiction and control of project works and facilities

The Secretary shall give due consideration to financial feasibility, emergency, or urgent need for the project. All project works and facilities constructed under this subchapter shall remain under the jurisdiction and control of the local contracting organization subject to the terms of the repayment contract.

L. 85-47, §1(a), changed language generally, and struck out provisions which authorized Secretary to negotiate a contract as provided in section 422e of this title, with the provision that no such contract be executed by him prior to sixty days from date project proposal was submitted to both branches of Congress for committee consideration, and then only if neither committee disapproved proposal within the period, but that if both committees approved he could execute contract, and that if either committee disapproved, he could not proceed unless Congress approved.

§422e. Contract requirements

Upon approval of any project proposal by the Secretary under the provisions of section 422d of this title, he may negotiate a contract which shall set out, among other things—

(a) the maximum amount of any loan to be made to the organization and the time and method of making the same available to the organization. Said loan shall not exceed the lesser of (1) two-thirds of the maximum allowable estimated total project cost as determined by section 422b(f) of this title, or (2) the estimated total cost of the project minus the contribution of the local organization as provided in section 422d(b) of this title and the amount of the grant approved;

(b) the maximum amount of any grant to be accorded the organization. Said grant shall not exceed the sum of the following: (1) the costs of investigations, surveys, and engineering and other services necessary to the preparation of proposals and plans for the project allocable to fish and wildlife enhancement or public recreation; (2) one-half the costs of acquiring lands or interests therein to serve exclusively the purposes of fish and wildlife enhancement or public recreation, plus the costs of acquiring joint use lands and interests therein properly allocable to fish and wildlife enhancement and public recreation; (3) one-half the costs of basic public outdoor recreation facilities or facilities serving fish and wildlife enhancement purposes exclusively; (4)

one-half the costs of construction of joint use facilities properly allocable to fish and wildlife enhancement or public recreation; (5) that portion of the estimated cost of constructing the project which, if it were constructed as a Federal reclamation project, would be properly allocable to functions, other than recreation and fish and wildlife enhancement and flood control, which are nonreimbursable under general provisions of law applicable to such projects; and (6) that portion of the estimated cost of constructing the project which is allocable to flood control and which would be nonreimbursable under general provisions of law applicable to projects constructed by the Secretary of the Army.¹

(c) a plan of repayment by the organization of (1) the sums lent to it in not more than forty years from the date when the principal benefits of the project first become available; (2) interest, as determined by the Secretary of the Treasury, as of the beginning of the fiscal year in which the contract is executed, on the basis of the average market yields on outstanding marketable obligations of the United States with remaining periods of maturity comparable to the applicable reimbursement period of the project, adjusted to the nearest one-eighth of 1 percent on the unamortized balance of any portion of the loan—

(A) which is attributable to furnishing irrigation benefits in each particular year to land held in private ownership by a qualified recipient or by a limited recipient, as such terms are defined in section 390bb of this title, in excess of three hundred and twenty irrigable acres; or,

(B) which is allocated to domestic, industrial, or municipal water supply, commercial power, fish and wildlife enhancement, or public recreation except that portion of such allocation attributable to furnishing benefits to a facility operated by an agency of the United States, which portion shall bear no interest.¹

(d) provision for operation of the project, if a grant predicated upon its performance of nonreimbursable functions is made, in accordance with regulations with respect thereto prescribed by the head of the Federal department or agency primarily concerned with those functions and, in the event of noncompliance with such regulations, for operation by the United States or for repayment to the United States of the amount of any such grant;

(e) such provisions as the Secretary shall deem necessary or proper to provide assurance of and security for prompt repayment of the loan and interest as aforesaid. The liability of the United States under any contract entered into pursuant to this subchapter shall be contingent upon the availability of appropriations to carry out the same, and every such contract shall so recite; and

(f) provisions conforming to the preference requirements contained in the proviso to section 485h(c) of this title, if the project produces electric power for sale.

(Aug. 6, 1956, ch. 972, §5, 70 Stat. 1046; Pub. L. 85–47, §1(c), June 5, 1957, 71 Stat. 49; Pub. L. 89–553, §1(4), Sept. 2, 1966, 80 Stat. 376; Pub. on that portion of the loan which is attributable to furnishing irrigation benefits in each particular year to land held in private ownership by a qualified recipient, as such term is defined in section 390bb of this title, in excess of nine hundred and sixty irrigable acres, or by a limited recipient, as such term is defined in section 390bb of this title, in excess of three hundred and twenty irrigable acres; and”.

L. 97–293 substituted “by a qualified recipient, as such term is defined in section 390bb of this title, in excess of nine hundred and sixty irrigable acres, or by a limited recipient, as such term is defined in section 390bb of this title, in excess of three hundred and twenty irrigable acres” for “by any one owner in excess of one hundred and sixty irrigable acres”.

1975—Subsec. (a)(1). Pub. L. 94–181 substituted “two-thirds of the maximum allowable estimated total project cost as determined by section 422b(f) of this title,” for “\$10,000,000”.

Subsec. (b)(2). Pub. L. 92–167, §1(4), substituted provision for inclusion of one-half of land acquisition costs to serve exclusively the purposes of fish and wildlife enhancement and public recreation, for prior inclusion of such costs for a reservoir or other area to be operated for fish and wildlife enhancement and public recreation purposes and provided for inclusion of costs of acquiring joint use lands and interests therein properly allocable to fish and wildlife enhancement and public recreation.

1966—Pub. L. 89–553 substituted the lesser of \$6,500,000 or the estimated total cost of the project minus the contribution of the local organization as provided in section 422d(b) of this title and the amount of the grant for the portion of the estimated cost of constructing the project which, if it were being constructed as a Federal reclamation project, would be properly allocable to reimbursable functions under general provisions of law applicable to such projects as the maximum amount of the loan, struck out the time and method of paying a grant to an organization from the list of contract terms, added factors involving fish and wildlife enhancement and public recreation to the factors adding up to the figure comprising the maximum allowable grant, and altered the requirements of the interest term by substituting the computed average interest rate payable by the Treasury upon its outstanding marketable public obligations which are neither due nor callable for redemption for fifteen years from date of issue for the estimate of the average annual yield to maturity, on the basis of daily closing market bid quotations or prices during the month of May preceding the fiscal year in which the loan is made, on all outstanding marketable obligations of the United States having a maturity date of fifteen or more years from May 1 of the year.

1957—Pub. L. 85–47 substituted “Upon approval of any project proposal by the Secretary under the provisions of section 422d of this title, he may negotiate a contract which” for “Any contract authorized to be negotiated under the provisions of subsection (c) of section 422d of this title”.

§422f. Proposals for projects previously authorized; waiver of requirements; approval; negotiation of contract

Any proposal with respect to the construction of a project which has theretofore been authorized for construction under the Federal reclamation laws shall be made in like manner as a proposal under section 422d of this title, but the Secretary may waive such requirements of subsections (a) and (b) of section 422d of this title as he finds to be duplicative of, or rendered unnecessary or impossible by, action already taken by the United States. SUBCHAPTER V—ADMINISTRATION OF EXISTING PROJECTS

§423. Permanently unproductive lands; exclusion from project; disposition of water right

All lands found by the classification made under the supervision of the Board of Survey and Adjustments (House Document 201, 69th Congress, 1st Session, checked and modified as outlined in General Recommendations numbered 2 and 4, Page 60 of said document), to be permanently unproductive shall be excluded from the project and no water shall be delivered to them after the date of such exclusion unless and until they are restored to the project. Except as herein otherwise provided, the water right formerly appurtenant to such permanently unproductive lands shall be disposed of by the United States under the reclamation law: *Provided*, That the water users on the projects shall have a preference right to the use of the water: *And provided further*, That any surplus water temporarily available may be furnished upon a rental basis for use on lands excluded from the project under this section, on terms and conditions to be approved by the Secretary of the Interior.

(May 25, 1926, ch. 383, §§40, 41, 44 Stat. 647.)

SECTIONS 423 TO 423G AND 610 UNAFFECTED BY SECTIONS 451 TO 451K OF THIS TITLE

Act Aug. 13, 1953, ch. 428, §10, 67 Stat. 568, provided in part that: “Nothing contained in this Act [enacting sections 451 to 451k of this title] shall be held to repeal, supersede, or supplement the provisions for exchange and matters related thereto contained in the Act of May 25, 1926 (44 Stat. 636), as amended and supplemented [sections 423 to 423g and 610 of this title].”

§423a. Construction charges on permanently unproductive lands already paid; disposition

The construction charges prior to May 25, 1926, paid on permanently unproductive lands excluded from the project shall be applied as a credit on charges due or to become due on any remaining irrigable land covered by the same water-right contract or land taken in exchange as provided in section 423c of this title. If the charges so paid exceed the amount of all water-right charges due and unpaid, plus the construction charges not yet due, the balance shall be paid in cash to the holder of the water-right contract covering the land so excluded or to the irrigation district affected; which in turn shall be charged with the responsibility of making suitable adjustment with the landowners involved. Should all the irrigable lands of a water-right applicant be excluded from the project as permanently unproductive, and no exchange be made as provided in said section, the total construction charges paid before May 25, 1926, less any accrued charges on account of operation and maintenance, shall be refunded in cash, the water-right contract shall be canceled, and all liens on account of water-right charges shall be released.

(May 25, 1926, ch. 383, §42, 44 Stat. 647.)

§423b. Suspension of payment of construction charges against areas temporarily unproductive

The payment of all construction charges against said areas temporarily unproductive shall remain suspended until the Secretary of the Interior shall declare them to be possessed of sufficient productive power properly to be placed in a paying class, whereupon payment of construction charges against such areas shall be resumed or shall begin, as the case may be. Any payments made on such areas shall be credited to the unpaid balance of the construction charge on the productive area of each unit. Such credit shall be applied on and after April 23, 1930, which shall not be construed to require revision of accounts adjusted before April 23, 1930, under the provisions of this section as originally enacted. While said lands so classified as temporarily unproductive and the construction charges against them are suspended, water for irrigation purposes may be furnished upon payment of the usual operation and maintenance charges, or such other charges as may be fixed by the Secretary of the Interior the advance payment of which may be required, in the discretion of the said Secretary. Should said lands temporarily classed as unproductive, or any of them, in the future be found by the Secretary of the Interior to be permanently unproductive, the charges against them shall be charged off as a permanent loss to the reclamation fund and they shall thereupon be treated in the same manner as other permanently unproductive lands as provided in sections 423 to 423g and 610 of this title except that no refund shall be made of the construction charges paid on such unproductive areas and applied as a credit on productive areas as herein authorized.

(May 25, 1926, ch. 383, §43, 44 Stat. 647; Apr. 23, 1930, ch. 205, 46 Stat. 249.)

Settlers who have unpatented entries under any of the public land laws embracing lands which

Owners of private lands so eliminated from the project may, subject to the approval of the Secretary of the Interior, and free from all encumbrances, relinquish and convey to the United States lands so owned and held by them, not exceeding an area of one hundred and sixty acres, and select an equal area of vacant public land within the irrigable area of the same or any other Federal reclamation project, with credit upon the construction costs of the lands selected to the extent and in the amount paid upon or in connection with their relinquished lands, and the Secretary of the Interior is authorized to revise and consolidate farm units, so far as this may be made necessary or advisable, with a view to carrying out the provisions of this section: *Provided further*, That the rights extended under this section shall not be assignable: *And provided further*, That in administering the provisions of this section and section 423a of this title, the Secretary of the Interior shall take into consideration the rights and interests of lien holders, as to him may seem just and equitable: *Provided further*, That where two entrymen apply for the same farm unit under the exchange provisions of this section, only one whom ¹ is an ex-service man, as defined by section 438 ² of this title, the ex-service man shall have a preference in making such exchange.

§451b. Irrigation construction charges

(a) Credits to entryman

If an entryman making an exchange under the provisions of this subchapter becomes the direct obligor for payment to the United States of irrigation construction charges for his lieu farm unit or undertakes a contract under which the equivalent, in whole or in part, of such charges is returned to the United States, the Secretary, to the extent to which such charges upon the original farm unit or the equivalent thereof have actually been paid to the United States or to an irrigation district or other form of organization under contract with the United States, may give him credit for such charges upon the lieu unit.

(b) Credits to district; reduction of costs

If an irrigation district or other form of organization within the boundaries of which is located the lieu farm unit of an entryman making an exchange under the provisions of this subchapter is or becomes the direct obligor for payment to the United States of irrigation construction charges or undertakes or has undertaken a contract under which the equivalent, in whole or in part, of such charges is returned to the United States, the Secretary may, to the extent to which it gives credit to the entryman for such charges or the equivalent thereof actually paid upon the original farm unit, give the district or other form of organization credit for payment of such charges. Upon the making of an exchange pursuant to the provisions of this subchapter, the Secretary may reduce (i) the reimbursable construction costs of the project or division thereof upon which the original farm unit was located by the amount of such costs which were properly assignable to the original farm unit and which were not then due and payable, and (ii) the reimbursable construction costs of the project or division thereof upon which the lieu farm unit is located by the amount of credit which might be given under the provisions of this section.

(c) Extension of benefits to districts

In any case in which the benefits of this subchapter are extended to an assignee of an unpatented farm unit or to a resident owner of private lands, as provided in subsection (b) of section 451a of this title, an appropriate extension of benefits may also be made to an irrigation district or other form of organization under subsection (b) of this section.

(a) After his approval of any application for an exchange as provided in this subchapter, the Secretary may cancel and release, in whole or in part, any and all charges or liens against the entryman or against the relinquished farm unit which are within his administrative jurisdiction. In administering the provisions of this subsection the Secretary shall take into consideration other charges and liens and the rights and interests of other lien holders as to him may seem just and equitable.

(b) An entryman making an exchange under the provisions of this subchapter may be given credit by the Secretary upon any land development charges made by the United States in connection with the lieu farm unit for any such charges paid to the United States in connection with the original unit. A resident owner making an exchange under the provisions of this subchapter may, to the extent, to which he or, in the case of a widow, widower, heir, or devisee, his spouse or ancestor, as the case may be, has paid to the United States the purchase price of the original farm unit, be given credit by the Secretary upon the purchase price of his lieu farm unit; such credit may also be applied in the manner and circumstances provided in section 451b of this title upon irrigation construction charges for or properly assignable to his lieu farm unit.

(Aug. 13, 1953, ch. 428, §4, 67 Stat. 567.)

Within ninety days after receipt of notice of the approval by the Secretary of the application for exchange of entry and subject to the rights and interests of other parties, the entryman may dispose of, and he or his transferee or vendee may remove, any and all improvements placed on the relinquished unit. Upon the making of an exchange under this subchapter, any water right appurtenant to the original lands under the Federal reclamation laws shall cease and the water supply theretofore used or required to satisfy such right shall be available for disposition under those laws. Any land relinquished or conveyed to the United States under this subchapter shall revert to or become a part of the public domain and be subject to disposition by the Secretary under any of the provisions of the Federal reclamation laws.

(Aug. 4, 1939, ch. 418, §3, 53 Stat. 1188.)

EXTENSION OF DATE OF MODIFICATION OF REPAYMENT CONTRACTS

Act Mar. 6, 1952, ch. 94, 66 Stat. 16, as amended by acts Aug. 31, 1954, ch. 1168, 68 Stat. 1044; Pub. L. 85–156, Aug. 21, 1957, 71 Stat. 390; Pub. L. 85–611, §3, Aug. 8, 1958, 72 Stat. 543; Pub. L. 86–308, §2, Sept. 21, 1959, 73 Stat. 585, provided that the authority vested in the Secretary of the Interior by sections 485b and 485f of this title should be extended through Dec. 31, 1960.

§485b–1. Deferment of installments under repayment contracts; determination of undue burden; conditions; supplemental contract; report to Congress

(a) The authority granted in section 485b of this title for modification of existing repayment contracts or other forms of obligations to pay construction charges shall continue through December 31, 1960.

(b) The Secretary is authorized, subject to the provisions of this subsection to defer the time for the payment of such part of any installments of construction charges under any repayment contract or other form of obligation as he deems necessary to adjust such installments to amounts within the probable ability of the water users to pay. Any such deferment shall be effected only after findings by the Secretary that the installments under consideration probably cannot be paid on their due date without undue burden on the water users, considering the various factors which in the Secretary's judgment bear on the ability of the water users so to pay.

The Secretary may effect the deferments hereunder subject to such conditions and provisions relating to the operation and maintenance of the project involved as he deems to be in the interest of the United States. If, however, any deferments would affect installments to accrue more than twelve months after the action of deferment, they shall be effected only by a formal supplemental contract. Such a contract shall provide by its terms that, it being only an interim solution of the repayment problems dealt with therein, its terms are not, in themselves, to be construed as a criterion of the terms of any amendatory contract that may be negotiated and that any such amendatory contract must be approved by the Congress unless it does not lengthen the repayment period for the project in question beyond that permitted by the laws applicable to that project, involves no reduction in the total amount payable by the water users, and is not in other respects less advantageous to the Government than the existing contract arrangements. The Secretary shall report to the Congress all deferments granted under this subsection.

(Aug. 4, 1939, ch. 418, §17, 53 Stat. 1198; Apr. 24, 1945, ch. 94, §3, 59 Stat. 76; Pub. L. 85–611, §3, Aug. 8, 1958, 72 Stat. 543; Pub. L. 86–308, §1, Sept. 21, 1959, 73 Stat. 584.)

1959—Subsec. (b). Pub. L. 86–308 made permanent the Secretary's authority to grant deferments in payment of installments of construction charges under repayment contracts.

1958—Subsec. (a). Pub. L. 85–611 substituted “section 485b” for “sections 485b and 485c”.

1945—Subsec. (a). Act Apr. 24, 1945, extended authority for modification of existing repayment contracts or other forms of obligations to pay construction charges through Dec. 31, 1950, or Dec. 31 of the fifth full calendar year after the cessation of hostilities of World War II, as determined by proclamation of the President or concurrent resolution of Congress, whichever period was the longer.

Subsec. (b). Act Apr. 24, 1945, authorized Secretary, subject to provisions of this subsection, to defer the time for the payment of such part of any installments of construction charges under any repayment contract or other form of obligation that are due and unpaid as of Apr. 24, 1945, or which would become due prior to the expiration of authority under subsec. (a).

§485d. Time of payments to the United States

The Secretary in this discretion may require, in connection with any contract entered into pursuant to the authority of this subchapter, that the contract provide (1) that the payments for each year to be made to the United States shall become due and payable on such date or dates, not exceeding two, in each year as the Secretary determines will be substantially contemporaneous with the time or times

in each year when water users receive crop returns and (2) if the contract be with an organization, that assessments or levies for the purpose of obtaining moneys sufficient to meet the organization's payments under said contract shall be made and shall become due and payable within a certain period or periods of time prior to the date or dates on which the organization's payments to the United States are due and payable, said period or periods of time to be agreed upon in each said contract.

The Secretary may provide such deferments of construction charges as in his judgment are necessary to prevent said requirements from resulting in inequitable pyramiding of payments of said charges.

(Aug. 4, 1939, ch. 418, §5, 53 Stat. 1191.)

EXTENSION OF SECRETARY'S AUTHORITY TO ENTER INTO AMENDATORY CONTRACTS

Secretary's authority extended through Dec. 31, 1960, see section 485b-1 of this title.

§485e. Maintenance and operation of project works; delinquency penalties

In connection with any contract, relating to construction charges, entered into pursuant to the authority of this subchapter, the Secretary is authorized to require such provisions as he deems proper to secure the adoption of proper accounting, to protect the condition of project works and to provide for the proper use thereof, and to protect project lands against deterioration due to improper use of water. Any such contract shall require advance payment of adequate operation and maintenance charges. The Secretary is further authorized, in his discretion, to require such provisions as he deems proper to penalize delinquencies in payments of construction charges or operation and maintenance charges: *Provided*, That in any event there shall be penalties imposed on account of delinquencies of not less than one-half of 1 per centum per month of the delinquent charge from and after the date when such charge becomes due and payable: *Provided further*, That any such contract shall require that no water shall be delivered to lands or parties which are in arrears in the advance payment of operation and maintenance or toll charges, or to lands or parties which are in arrears for more than twelve months in the payment of construction charges due from such lands or parties to the United States or to the organization in which the lands or parties are included, or to any lands or parties included in an organization which is in arrears in the advance payment of operation and maintenance or toll charges or in arrears more than twelve months in the payment of construction charges due from such organization to the United States.

(Aug. 4, 1939, ch. 418, §6, 53 Stat. 1191.)

§485f. Negotiation of equitable contracts by Secretary

(a) Existing project contract unit

The Secretary is authorized and directed to investigate the repayment problems of any existing project contract unit in connection with which, in his judgment, a contract under section 485b or 485c ¹ of this title would not be practicable nor provide an economically sound adjustment, and to negotiate a contract which, in his judgment, both would provide fair and equitable treatment of the repayment problems involved and would be in keeping with the general purpose of this subchapter.

(b) New projects or projects under construction; public lands; development periods

For any project, division of a project, development unit of a project, or supplemental works on a project, under construction on August 4, 1939, or for which appropriations had been made, and in connection with which a repayment contract had not been executed, allocations of costs may be made in accordance with the provisions of section 485h of this title and a repayment contract may be negotiated, in the discretion of the Secretary, (1) pursuant to the authority of subsection (a) of this section or (2) in accordance, as near as may be, with the provisions in section 485h(d) or 485h(e) of this title. In connection with any such project, division, or development unit, on which the majority

of the lands involved are public lands of the United States, the Secretary, prior to entering into a repayment contract, may fix a development period for each irrigation block, if any, of not to exceed ten years from and including the first year in which water is delivered for the lands in said block: *Provided*, That in the event a development period is fixed prior to execution of a repayment contract, execution thereof shall be a condition precedent to delivery of water after the close of the development period. During any such development period water shall be delivered to the lands in the irrigation block involved only on a toll-charge basis, at a charge per annum per acre-foot to be fixed by the Secretary each year and to be collected in advance of delivery of water. Pending negotiation and execution of a repayment contract for any other such project, division, or development unit, water may be delivered for a period of not more than five years from August 4, 1939, on the same toll-charge basis. Any such toll charges collected and which the Secretary determines to be in excess of the cost of operation and maintenance during the toll-charge period shall be credited to the construction cost of the project in the manner determined by the Secretary.

(c) Report of proposed contracts to Congress; approval; amendment after approval

The Secretary from time to time shall report to the Congress on any proposed contracts negotiated pursuant to the authority of subsection (a) or (b)(1) of this section, and he may execute any such contract on behalf of the United States only after approval thereof has been given by Act of Congress. Contracts, so approved, however, may be amended from time to time by mutual agreement and without further approval by Congress if such amendments are within the scope of authority granted prior to or after April 24, 1945, to the Secretary under any Act, except that amendments providing for repayment of construction charges in a period of years longer than authorized by this subchapter, as it may be amended, shall be effective only when approved by Congress.

§485g. Classification of lands

(a) Generally

The Secretary is authorized and directed in the manner hereinafter provided to classify or to reclassify, from time to time but not more often than at five-year intervals, as to irrigability and productivity those lands which have been, are, or may be included within any project.

(b) Necessity for request

No classification or reclassification pursuant to the authority of this subchapter shall be undertaken unless a request therefor, by an organization or duly authorized representatives of the water users, in the form required by subsection (c) of this section has been made of the Secretary. The Secretary shall plan the classification work, undertaken pursuant to the authority of this section, in such manner as in his judgment will result in the most expeditious completion of the work.

(c) Furnishing data

In any request made to the Secretary for a land classification or reclassification under this section, the organization or representatives of the water users shall furnish a list of those lands which are

considered to be of comparatively low productivity or to be nonproductive, and of those lands which are considered to be of greater or lesser productivity than indicated by existing classifications, if any, made pursuant to the Federal reclamation laws, and shall furnish also such data relating thereto as the Secretary by regulation may require.

(d) Primary determination

Upon receipt of any such request the Secretary shall make a preliminary determination whether the requested land classification or reclassification probably is justified by reason of the conditions of the lands involved and other pertinent conditions of the project, including its contractual relations with the United States.

(e) Probable justification

If the Secretary finds probable justification and if the advance to the United States hereinafter required is made, he shall undertake as soon as practicable the classification or reclassification of the lands listed in the request, and of any other lands which have been, are, or may be included within the project involved and which in his judgment should be classified or reclassified.

(f) Expenses

One-half of the expense involved in any classification work undertaken pursuant to this section shall be charged to operation and maintenance administration nonreimbursable; and one-half shall be paid in advance by the organization involved. On determining probable justification for the requested classification or reclassification as provided in this section, the Secretary shall estimate the cost of the work involved and shall submit a statement of the estimated cost to said organization. Said organization, before commencement of the work, shall advance to the United States one-half of the amount set forth in said statement and also shall advance one-half of the amount of supplementary estimates of costs which the Secretary may find it necessary to make from time to time during the progress of the work; and said amounts shall be and remain available for expenditure by the Secretary for the purposes for which they are advanced, until the work is completed or abandoned. After completion or abandonment of the work, the Secretary, shall determine the actual costs thereof; and said organization shall pay any additional amount required to make its total payments hereunder equal to one-half of the actual cost or shall be credited with any amount by which advances made by it exceed one-half of said actual cost, as the case may be.

(g) Classification as prerequisite to contract

If in the judgment of the Secretary a classification or reclassification pursuant to the provisions of this section is a necessary preliminary to entering into a contract under section 485b or 485c ¹ of this title, he may require the same as a condition precedent to entering into such a contract.

(h) Modification of existing obligations

No modification of any existing obligation to pay construction charges on any project shall be made by reason of any classification or reclassification undertaken pursuant to this section without express authority therefor granted by Congress upon recommendations of the Secretary made in a report under subsection (f) of this section.

§485h. New projects; sale of water and electric power; lease of power privileges

(a) Findings of Secretary

No expenditures for the construction of any new project, new division of a project, or new supplemental works on a project shall be made, nor shall estimates be submitted therefor, by the Secretary until after he has made an investigation thereof and has submitted to the President and to the Congress his report and findings on—

- (1) the engineering feasibility of the proposed construction;
- (2) the estimated cost of the proposed construction;
- (3) the part of the estimated cost which can properly be allocated to irrigation and probably be repaid by the water users;
- (4) the part of the estimated cost which can properly be allocated to power and probably be returned to the United States in net power revenues;
- (5) the part of the estimated cost which can properly be allocated to municipal water supply or other miscellaneous purposes and probably be returned to the United States.

If the proposed construction is found by the Secretary to have engineering feasibility and if the repayable and returnable allocations to irrigation, power, and municipal water supply or other miscellaneous purposes found by the Secretary to be proper, together with any allocation to flood control or navigation made under subsection (b) of this section, equal the total estimated cost of construction as determined by the Secretary, then the new project, new division of a project, or supplemental works on a project, covered by his findings, shall be deemed authorized and may be undertaken by the Secretary. If all such allocations do not equal said total estimated cost, then said new project, new division, or new supplemental works may be undertaken by the Secretary only after provision therefor has been made by Act of Congress enacted after the Secretary has submitted to the President and the Congress the report and findings involved.

(b) Allocation of part of cost to flood control or navigation

In connection with any new project, new division of a project, or supplemental works on a project there may be allocated to flood control or navigation the part of said total estimated cost which the Secretary may find to be proper. Items for any such allocations made in connection with projects which may be undertaken pursuant to subsection (a) of this section shall be included in the estimates of appropriations submitted by the Secretary for said projects, and funds for such portions of the projects shall not become available except as directly appropriated or allotted to the Department of the Interior. In connection with the making of such an allocation, the Secretary shall consult with the Chief of Engineers and the Secretary of the Army, and may perform any of the necessary investigations or studies under a cooperative agreement with the Secretary of the Army. In the event of such an allocation the Secretary of the Interior shall operate the project for purposes of flood control or navigation, to the extent justified by said allocation therefor.

(c) Furnishing water to municipalities; sale of electric power; lease of power privileges

(1) The Secretary is authorized to enter into contracts to furnish water for municipal water supply or miscellaneous purposes: *Provided*, That any such contract either (A) shall require repayment to the United States, over a period of not to exceed forty years from the year in which water is first delivered for the use of the contracting party, with interest not exceeding the rate of 3½ per centum per annum if the Secretary determines an interest charge to be proper, of an appropriate share as determined by the Secretary of that part of the construction costs allocated by him to municipal water supply or other miscellaneous purposes; or (B) shall be for such periods, not to exceed forty years, and at such rates as in the Secretary's judgment will produce revenues at least sufficient to cover an appropriate share of the annual operation and maintenance cost and an appropriate share of such fixed charges as the Secretary deems proper, and shall require the payment of said rates each year in advance of delivery of water for said year. Any sale of electric power or lease of power privileges,

made by the Secretary in connection with the operation of any project or division of a project, shall be for such periods, not to exceed forty years, and at such rates as in his judgment will produce power revenues at least sufficient to cover an appropriate share of the annual operation and maintenance cost, interest on an appropriate share of the construction investment at not less than 3 per centum per annum, and such other fixed charges as the Secretary deems proper: *Provided further*, That in said sales or leases preference shall be given to municipalities and other public corporations or agencies; and also to cooperatives and other nonprofit organizations financed in whole or in part by loans made pursuant to the Rural Electrification Act of 1936 [7 U.S.C. 901 et seq.]. Nothing in this subsection shall be applicable to provisions in existing contracts, made pursuant to law, for the use of power and miscellaneous revenues of a project for the benefit of users of water from such project. The provisions of this subsection respecting the sales of electric power and leases of power privileges shall be an authorization in addition to and alternative to any authority in existing laws related to particular projects, including small conduit hydropower development. No contract relating to municipal water supply or miscellaneous purposes or to electric power or power privileges shall be made unless, in the judgment of the Secretary, it will not impair the efficiency of the project for irrigation purposes.

(2)(A) When carrying out this subsection, the Secretary shall first offer the lease of power privilege to an irrigation district or water users association operating the applicable transferred conduit, or to the irrigation district or water users association receiving water from the applicable reserved conduit. The Secretary shall determine a reasonable time frame for the irrigation district or water users association to accept or reject a lease of power privilege offer for a small conduit hydropower project.

(B) If the irrigation district or water users association elects not to accept ¹ a lease of power privilege offer under subparagraph (A), the Secretary shall offer the lease of power privilege to other parties in accordance with this subsection.

(3) The Bureau of Reclamation shall apply its categorical exclusion process under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) to small conduit hydropower development under this subsection, excluding siting of associated transmission facilities on Federal lands.

(4) The Power Resources Office of the Bureau of Reclamation shall be the lead office of small conduit hydropower policy and procedure-setting activities conducted under this subsection.

(5) Nothing in this subsection shall obligate the Western Area Power Administration, the Bonneville Power Administration, or the Southwestern Power Administration to purchase or market any of the power produced by the facilities covered under this subsection and none of the costs associated with production or delivery of such power shall be assigned to project purposes for inclusion in project rates.

(6) Nothing in this subsection shall alter or impede the delivery and management of water by Bureau of Reclamation facilities, as water used for conduit hydropower generation shall be deemed incidental to use of water for the original project purposes. Lease of power privilege shall be made only when, in the judgment of the Secretary, the exercise of the lease will not be incompatible with the purposes of the project or division involved, nor shall it create any unmitigated financial or physical impacts to the project or division involved. The Secretary shall notify and consult with the irrigation district or water users association operating the transferred conduit before offering the lease of power privilege and shall prescribe terms and conditions that will adequately protect the planning, design, construction, operation, maintenance, and other interests of the United States and the project or division involved.

(7) Nothing in this subsection shall alter or affect any existing agreements for the development of conduit hydropower projects or disposition of revenues.

(8) Nothing in this subsection shall alter or affect any existing preliminary permit, license, or exemption issued by the Federal Energy Regulatory Commission under Part I of the Federal Power Act (16 U.S.C. 792 et seq.) or any project for which an application has been filed with the Federal Energy Regulatory Commission as of August 9, 2013.

(9) In this subsection:

(A) CONDUIT.—The term “conduit” means any Bureau of Reclamation tunnel, canal, pipeline, aqueduct, flume, ditch, or similar manmade water conveyance that is operated for the distribution of water for agricultural, municipal, or industrial consumption and not primarily for the generation of electricity.

(B) IRRIGATION DISTRICT.—The term “irrigation district” means any irrigation, water conservation or conservancy, multicounty water conservation or conservancy district, or any separate public entity composed of two or more such districts and jointly exercising powers of its member districts.

(C) RESERVED CONDUIT.—The term “reserved conduit” means any conduit that is included in project works the care, operation, and maintenance of which has been reserved by the Secretary, through the Commissioner of the Bureau of Reclamation.

(D) TRANSFERRED CONDUIT.—The term “transferred conduit” means any conduit that is included in project works the care, operation, and maintenance of which has been transferred to a legally organized water users association or irrigation district.

(E) SMALL CONDUIT HYDROPOWER.—The term “small conduit hydropower” means a facility capable of producing 5 megawatts or less of electric capacity.

(d) Delivery of water for irrigation; repayment contract prerequisites

No water may be delivered for irrigation of lands in connection with any new project, new division of a project, or supplemental works on a project until an organization, satisfactory in form and powers to the Secretary, has entered into a repayment contract with the United States, in a form satisfactory to the Secretary, providing among other things—

(1) That the Secretary may fix a development period for each irrigation block, if any, of not to exceed ten years from and including the first calendar year in which water is delivered for the lands in said block; and that during the development period water shall be delivered to the lands in the irrigation block involved at a charge per annum per acre-foot, or other charge, to be fixed by the Secretary each year and to be paid in advance of delivery of water: *Provided*, That where the lands included in an irrigation block are for the most part lands owned by the United States, the Secretary, prior to execution of a repayment contract, may fix a development period, but in such case execution of such a contract shall be a condition precedent to delivery of water after the close of the development period: *Provided further*, That when the Secretary, by contract or by notice given thereunder, shall have fixed a development period of less than ten years, and at any time thereafter but before commencement of the repayment period conditions arise which in the judgment of the Secretary would have justified the fixing of a longer period, he may amend such contract or notice to extend such development period to a date not to exceed ten years from its commencement, and in a case where no development period was provided, he may amend such contract within the same limits: *Provided further*, That when the Secretary shall have deferred the payment of all or any part of any installments of construction charges under any repayment contract pursuant to the authority of the Act of September 21, 1959 (73 Stat. 584), he may, at any time prior to the due date prescribed for the first installment not reduced by such deferment, and by agreement with the contracting organization, terminate the supplemental contract by which such deferment was effected, credit the construction payments made, and exercise the authority granted in this section. After the close of the development period, any such charges collected and which the Secretary determines to be in excess of the cost of the operation and maintenance during the development period shall be credited to the construction cost of the project in the manner determined by the Secretary.

(2) That the part of the construction costs allocated by the Secretary to irrigation shall be included in a general repayment obligation of the organization; and that the organization may vary its distribution of construction charges in a manner that takes into account the productivity of the various classes of lands and the benefits accruing to the lands by reason of the construction: *Provided*, That no distribution of construction charges over the lands included in the organization shall in any manner be deemed to relieve the organization or any party or any land therein of the organization's general obligation to the United States.

(3) That the general repayment obligation of the organization shall be spread in annual

installments, of the number and amounts fixed by the Secretary, over a period of not more than 40 years, exclusive of any development period fixed under paragraph (1) of this subsection, for any project contract unit or, if the project contract unit be divided into two or more irrigation blocks, for any such block, or as near to said period of not more than forty years as is consistent with the adoption and operation of a variable payment formula which, being based on full repayment within such period under average conditions, permits variance in the required annual payments in the light of economic factors pertinent to the ability of the organization to pay.

(4) That the first annual installment for any project contract unit, or for any irrigation block, as the case may be, shall accrue, on the date fixed by the Secretary, in the year after the last year of the development period or, if there be not development period, in the calendar year after the Secretary announces that the construction contemplated in the repayment contract is substantially completed or is advanced to a point where delivery of water can be made to substantially all of the lands in said unit or block to be irrigated; and if there be no development period fixed, that prior to and including the year in which the Secretary makes said announcement water shall be delivered only on the toll charge basis hereinbefore provided for development periods.

(e) Contracts to furnish water

In lieu of entering into a repayment contract pursuant to the provisions of subsection (d) of this section to cover that part of the cost of the construction of works connected with water supply and allocated to irrigation, the Secretary, in his discretion, may enter into either short- or long-term contracts to furnish water for irrigation purposes. Each such contract shall be for such period, not to exceed forty years, and at such rates as in the Secretary's judgment will produce revenues at least sufficient to cover an appropriate share of the annual operation and maintenance cost and an appropriate share of such fixed charges as the Secretary deems proper, due consideration being given to that part of the cost of construction of works connected with water supply and allocated to irrigation; and shall require payment of said rates each year in advance of delivery of water for said year. In the event such contracts are made for furnishing water for irrigation purposes, the costs of any irrigation water distribution works constructed by the United States in connection with the new project, new division of a project, or supplemental works on a project, shall be covered by a repayment contract entered into pursuant to subsection (d) of this section.

(f) Public participation

No less than sixty days before entering into or amending any repayment contract or any contract for the delivery of irrigation water (except any contract for the delivery of surplus or interim irrigation water whose duration is for one year or less) the Secretary shall—

(1) publish notice of the proposed contract or amendment in newspapers of general circulation in the affected area and shall make reasonable efforts to otherwise notify interested parties which may be affected by such contract or amendment, together with information indicating to whom comments or inquiries concerning the proposed actions can be addressed; and

(2) provide an opportunity for submission of written data, views and arguments, and shall consider all substantive comments so received.

§485h–1. Administration of repayment contracts and long-term contracts to furnish water; renewal and conversion; credit for payments; right to available water supply; rates; construction component

In administering subsections (d) and (e) of section 485h of this title, the Secretary of the Interior shall—

(1) include in any long-term contract hereafter entered into under subsection (e) of section 485h of this title provision, if the other contracting party so requests, for renewal thereof under stated terms and conditions mutually agreeable to the parties. Such terms and conditions shall provide for an increase or decrease in the charges set forth in the contract to reflect, among other things, increases or decreases in construction, operation, and maintenance costs and improvement or deterioration in the party's repayment capacity. Any right of renewal shall be exercised within such reasonable time prior to the expiration of the contract as the parties shall have agreed upon and set forth therein;

(2) include in any long-term contract hereafter entered into under subsection (e) of section 485h of this title with a contracting organization provision, if the organization so requests, for conversion of said contract, under stated terms and conditions mutually agreeable to the parties, to a contract under subsection (d) of section 485h of this title at such time as, account being taken of the amount credited to return by the organization as hereinafter provided, the remaining amount of construction cost which is properly assignable for ultimate return by it can probably be repaid to the United States within the term of a contract under subsection (d) of section 485h of this title;

(3) credit each year to every party which has entered into or which shall enter into a long-term contract pursuant to subsection (e) of section 485h of this title so much of the amount paid by said party on or before the due date as is in excess of the share of the operation and maintenance costs of the project which the Secretary finds is properly chargeable to that party. Credit for payments heretofore made under any such contract shall be established by the Secretary as soon after July 2, 1956 as it is feasible for him to do so. After the sum of such credits is equal to the amount which would have been for repayment by the party if a repayment contract under subsection (d) of section 485h of this title had been entered into, which amount shall be established by the Secretary upon completion of the project concerned or as far in advance thereof as is feasible, no construction component shall be included in any charges made for the furnishing of water to the

contracting party and any charges theretofore fixed by contract or otherwise shall be reduced accordingly;

(4) provide that the other party to any contract entered into pursuant to subsection (d) of section 485h of this title or to any long-term contract entered into pursuant to subsection (e) of section 485h of this title shall, during the term of the contract and of any renewal thereof and subject to fulfillment of all obligations thereunder, have a first right (to which right the rights of the holders of any other type of irrigation water contract shall be subordinate) to a stated share or quantity of the project's available water supply for beneficial use on the irrigable lands within the boundaries of, or owned by, the party and a permanent right to such share or quantity upon completion of payment of the amount assigned for ultimate return by the party subject to payment of an appropriate share of such costs, if any, as may thereafter be incurred by the United States in its operation and maintenance of the project works; and ¹

(5) Provide ² for payment of rates under any contract entered into pursuant to said subsection (e) in advance of delivery of water on an annual, semiannual, bimonthly, or monthly basis as specified in the contract.³

(6) include a reasonable construction component in the rates set out in any long-term contract hereafter entered into under subsection (e) of section 485h of this title prior to amortization of that part of the cost of constructing the project which is assigned to be repaid by the contracting party. (July 2, 1956, ch. 492, §1, 70 Stat. 483; Pub. L. 96–375, §8, Oct. 3, 1980, 94 Stat. 1507.)

§503. “Unusual or emergency conditions” defined

The term “unusual or emergency conditions”, as used in section 502 of this title, shall be construed to mean canal bank failures, generator failures, damage to transmission lines; or other physical failures or damage, or acts of God, or of the public enemy, fires, floods, drought, epidemics, strikes, or freight embargoes, or conditions, causing or threatening to cause interruption in water or power service.

§504. Rehabilitation and betterment of Federal reclamation projects, including small reclamation projects; return of costs; interest; definitions; performance of work

Expenditures of funds hereafter specifically appropriated for rehabilitation and betterment of any project constructed under authority of the Small Reclamation Projects Act (Act of August 6, 1956, 70 Stat. 1044, and Acts amendatory thereof and supplementary thereto) [43 U.S.C. 422a et seq.] and of irrigation systems on projects governed by the Federal reclamation laws (Act of June 17, 1902, 32 Stat. 388, and Acts amendatory thereof or supplementary thereto), shall be made only after the organizations concerned shall have obligated themselves for the return thereof, in installments fixed in accordance with their ability to pay, as determined by the Secretary of the Interior in the light of their outstanding repayment obligations, and which shall, to the fullest practicable extent, be scheduled for return with their construction charge installments or otherwise scheduled as he shall determine: *Provided*, That repayment of such loans made for small reclamation projects shall include interest in accordance with the provisions of said Small Reclamation Projects Act. No such determination of the Secretary of the Interior shall become effective until the expiration of sixty days after it has been submitted to the Committee on Energy and Natural Resources of the Senate and the Committee on Natural Resources of the House of Representatives; except that, any such determination may become effective prior to the expiration of such sixty days in any case in which each such committee approves an earlier date and notifies the Secretary in writing, of such approval: *Provided*, That when Congress is not in session the Secretary's determination, if accompanied by a

finding by the Secretary that substantial hardship to the water users concerned or substantial further injury to the project works will result, shall become effective when the chairman and ranking minority member of each such committee shall file with the Secretary their written approval of said findings. The term “rehabilitation and betterment”, as used in this section, shall mean maintenance, including replacements, which cannot be financed currently, as otherwise contemplated by the Federal reclamation laws in the case of operation and maintenance costs, but shall not include construction, the costs of which are returnable, in whole or in part, through “construction charges” as that term is defined in section 485a(d) of this title. §507. Construction for dam safety

Construction authorized by this subchapter shall be for the purposes of dam safety and not for the

Nothing in this subchapter shall be construed to reduce the amount of project costs allocated to reimbursable purposes heretofore authorized.

(Pub. L. 95–578, §3, Nov. 2, 1978, 92 Stat. 2471.)

§508. Costs incurred in the modification of structures

(a) Costs resulting from age and normal deterioration or lack of maintenance of structures

Costs heretofore or hereafter incurred in the modification of structures under this subchapter, the cause of which results from age and normal deterioration of the structure or from nonperformance of reasonable and normal maintenance of the structure by the operating entity shall be considered as project costs and will be allocated to the purposes for which the structure was authorized initially to be constructed and will be reimbursable as provided by existing law.

(b) Nonreimbursable costs resulting from new hydrologic or seismic data or changes in criteria

With respect to the \$100,000,000 authorized to be appropriated in the Reclamation Safety of Dams Act of 1978 [43 U.S.C. 509], costs heretofore or hereafter incurred in the modification of structures under this subchapter, the cause of which results from new hydrologic or seismic data or changes in state-of-the-art criteria deemed necessary for safety purposes shall be nonreimbursable and nonreturnable under the Federal Reclamation law.

(c) Reimbursement of certain modification costs

With respect to the additional amounts authorized to be appropriated by section 509 of this title, costs incurred in the modification of structures under this subchapter, the cause of which results from new hydrologic or seismic data or changes in state-of-the-art criteria deemed necessary for safety purposes, shall be reimbursed to the extent provided in this subsection.

(1) Fifteen percent of such costs shall be allocated to the authorized purposes of the structure, except that in the case of Jackson Lake Dam, Minidoka Project, Idaho-Wyoming, such costs shall be allocated in accordance with the allocation of operation and maintenance charges.

(2) Costs allocated to irrigation water service and capable of being repaid by the irrigation water users shall be reimbursed within 50 years of the year in which the work undertaken pursuant to this subchapter is substantially complete. Costs allocated to irrigation water service which are beyond the water users' ability to pay shall be reimbursed in accordance with existing law.

(3) Costs allocated to recreation or fish and wildlife enhancement shall be reimbursed in accordance with the Federal Water Project Recreation Act (79 Stat. 213), as amended [16 U.S.C. 460l–12 et seq.].

(4) Costs allocated to the purpose of municipal, industrial, and miscellaneous water service, commercial power, and the portion of recreation and fish and wildlife enhancement costs reimbursable under the Federal Water Project Recreation Act [16 U.S.C. 460l–12 et seq.], shall be repaid within 50 years with interest. The interest rate used shall be determined by the Secretary of the Treasury, taking into consideration average market yields on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the applicable reimbursement period during the month preceding the fiscal year in which the costs are incurred. To the extent that more than one interest rate is determined pursuant to the preceding sentence, the Secretary of the Treasury shall establish an interest rate at the weighted average of the rates so determined.

(d) Contracts for return of costs

The Secretary is authorized to negotiate appropriate contracts with project beneficiaries providing for the return of reimbursable costs under this subchapter: *Provided, however,* That no contract entered into pursuant to this subchapter shall be deemed to be a new or amended contract for the purposes of section 390cc(a) of this title.

(e) Cost containment; modification status

(a) Guidelines and inspections

(1) Development of guidelines

Not later than 1 year after March 30, 2009, the Secretary in consultation with transferred works operating entities shall develop, consistent with existing transfer contracts, specific inspection guidelines for project facilities which are in proximity to urbanized areas and which could pose a risk to public safety or property damage if such project facilities were to fail.

(2) Conduct of inspections

Not later than 3 years after March 30, 2009, the Secretary shall conduct inspections of those project facilities, which are in proximity to urbanized areas and which could pose a risk to public safety or property damage if such facilities were to fail, using such specific inspection guidelines and criteria developed pursuant to paragraph (1). In selecting project facilities to inspect, the Secretary shall take into account the potential magnitude of public safety and economic damage posed by each project facility.

(3) Treatment of costs

The costs incurred by the Secretary in conducting these inspections shall be nonreimbursable.

(b) Use of inspection data

The Secretary shall use the data collected through the conduct of the inspections under subsection (a)(2) to—

Consolidation of Parker and Davis Dam projects as not affecting this subchapter, see note preceding this subchapter.

§617. Colorado River Basin; protection and development; dam, reservoir, and incidental works; water, water power, and electrical energy; eminent domain

For the purpose of controlling the floods, improving navigation, and regulating the flow of the Colorado River, providing for storage and for the delivery of the stored waters thereof for reclamation of public lands and other beneficial uses exclusively within the United States, and for the generation of electrical energy as a means of making the project herein authorized a self-supporting and financially solvent undertaking, the Secretary of the Interior subject to the terms of the Colorado River compact hereinafter mentioned in this chapter, is authorized to construct, operate, and maintain a dam and incidental works in the main stream of the Colorado River at Black Canyon or Boulder Canyon adequate to create a storage reservoir of a capacity of not less than twenty million acre-feet of water and a main canal and appurtenant structures located entirely within the United States connecting the Laguna Dam, or other suitable diversion dam, which the Secretary of the Interior is authorized to construct if deemed necessary or advisable by him upon engineering or economic considerations, with the Imperial and Coachella Valleys in California, the expenditures for said main canal and appurtenant structures to be reimbursable, as provided in the reclamation law, and shall not be paid out of revenues derived from the sale or disposal of water power or electric energy at the dam authorized to be constructed at said Black Canyon or Boulder Canyon, or for

water for potable purposes outside of the Imperial and Coachella Valleys: *Provided, however,* That no charge shall be made for water for the use, storage, or delivery of water for irrigation or water for potable purposes in the Imperial or Coachella Valleys; also to construct and equip, operate, and maintain at or near said dam, or cause to be constructed, a complete plant and incidental structures suitable for the fullest economic development of electrical energy from the water discharged from said reservoir; and to acquire by proceedings in eminent domain, or otherwise, all lands, rights-of-way, and other property necessary for said purposes.

§617a. “Colorado River Dam Fund”

(a) Creation of fund; purpose; receipts and expenditures under control of Secretary of the Interior

There is established a special fund, to be known as the “Colorado River Dam fund” (hereinafter referred to as the “fund”), and to be available, as hereafter provided for, only for carrying out the provisions of this subchapter. All revenues received in carrying out the provisions of this subchapter shall be paid into and expenditures shall be made out of the fund, under the direction of the Secretary of the Interior.

(b) Advancements to fund by Secretary of the Treasury; allocation; repayment; interest

The Secretary of the Treasury is authorized to advance to the fund, from time to time and within the appropriations therefor, such amounts as the Secretary of the Interior deems necessary for carrying out the provisions of this subchapter..¹ Of this amount the sum of \$25,000,000 shall be allocated to flood control and shall be repaid to the United States out of 62½ per centum of revenues, if any, in excess of the amount necessary to meet periodical payments during the period of amortization, as provided in section 617c of this title. If said sum of \$25,000,000 is not repaid in full during the period of amortization, then 62½ per centum of all net revenues shall be applied to payment of the remainder. Interest at the rate of 4 per centum per annum accruing during the year upon the amounts so advanced and remaining unpaid shall be paid annually out of the fund, except as herein otherwise provided.

(c) Limitation on use made of advancements

Moneys in the fund advanced under subsection (b) of this section shall be available only for expenditures for construction and the payment of interest, during construction, upon the amounts so advanced. No expenditures out of the fund shall be made for operation and maintenance except from appropriations therefor.

(d) Unpaid interest on advancements; charge on fund; rate of interest

The Secretary of the Treasury shall charge the fund as of June 30 in each year with such amount as may be necessary for the payment of interest on advances made under subsection (b) of this section at the rate of 4 per centum per annum accrued during the year upon the amounts so advanced and remaining unpaid, except that if the fund is insufficient to meet the payment of interest the Secretary of the Treasury may, in his discretion, defer any part of such payment, and the amount so deferred shall bear interest at the rate of 4 per centum per annum until paid.

(e) Money in fund in excess of amount needed; certification of fact; disposition

The Secretary of the Interior shall certify to the Secretary of the Treasury, at the close of each fiscal year, the amount of money in the fund in excess of the amount necessary for construction, operation, and maintenance, and payment of interest. Upon receipt of each such certificate the Secretary of the Treasury is authorized and directed to charge the fund with the amount so certified as repayment of the advances made under subsection (b) of this section, which amount shall be covered into the Treasury to the credit of miscellaneous receipts.

(Dec. 21, 1928, ch. 42, §2, 45 Stat. 1057; Pub. L. 98–381, title I, §103(a)(1), Aug. 17, 1984, 98 Stat. 1334.)

¹ So in original.

§617b. Authorization of appropriations

There is authorized to be appropriated from time to time, out of any money in the Treasury not otherwise appropriated, such sums of money as may be necessary to carry out the purposes of this subchapter, not exceeding in the aggregate \$242,000,000, of which \$77,000,000 (October 1983 price levels) shall be adjusted plus or minus such amounts as may be justified by reason of ordinary fluctuations of construction costs as indicated by engineering cost indices applicable to the type of construction involved herein. Said \$77,000,000 represents the additional amount required for the uprating program and the visitor facilities program.

(Dec. 21, 1928, ch. 42, §3, 45 Stat. 1058; Pub. L. 98–381, title I, §103(a)(2), Aug. 17, 1984, 98 Stat. 1334.)

(a) Ratification by interested States of Colorado River compact; agreements for apportionment of waters

This subchapter shall not take effect and no authority shall be exercised under this subchapter and no work shall be begun and no moneys expended on or in connection with the works or structures provided for in this subchapter, and no water rights shall be claimed or initiated thereunder, and no steps shall be taken by the United States or by others to initiate or perfect any claims to the use of water pertinent to such works or structures unless and until (1) the States of Arizona, California,

Colorado, Nevada, New Mexico, Utah, and Wyoming shall have ratified the Colorado River compact, mentioned in section 617l of this title, and the President by public proclamation shall have so declared, or (2) if said States fail to ratify the said compact within six months from December 21, 1928, then, until six of said States, including the State of California, shall ratify said compact and shall consent to waive the provisions of the first paragraph of Article XI of said compact, which makes the same binding and obligatory only when approved by each of the seven States signatory thereto, and shall have approved said compact without conditions, save that of such six-State approval, and the President by public proclamation shall have so declared, and, further, until the State of California, by act of its legislature, shall agree irrevocably and unconditionally with the United States and for the benefit of the States of Arizona, Colorado, Nevada, New Mexico, Utah, and Wyoming, as an express covenant and in consideration of the passage of this subchapter, that the aggregate annual consumptive use (diversions less returns to the river) of water of and from the Colorado River for use in the State of California, including all uses under contracts made under the provisions of this subchapter and all water necessary for the supply of any rights which existed on December 21, 1928, shall not exceed four million four hundred thousand acre-feet of the waters apportioned to the lower basin States by paragraph (a) of Article III of the Colorado River compact, plus not more than one-half of any excess or surplus waters unapportioned by said compact, such uses always to be subject to the terms of said compact.

The States of Arizona, California, and Nevada are authorized to enter into an agreement which shall provide (1) that of the 7,500,000 acre-feet annually apportioned to the lower basin by paragraph (a) of Article III of the Colorado River compact, there shall be apportioned to the State of Nevada 300,000 acre-feet and to the State of Arizona 2,800,000 acre-feet for exclusive beneficial consumptive use in perpetuity, and (2) that the State of Arizona may annually use one-half of the excess or surplus waters unapportioned by the Colorado River compact, and (3) that the State of Arizona shall have the exclusive beneficial consumptive use of the Gila River and its tributaries within the boundaries of said State, and (4) that the waters of the Gila River and its tributaries, except return flow after the same enters the Colorado River, shall never be subject to any diminution whatever by any allowance of water which may be made by treaty or otherwise to the United States of Mexico but if, as provided in paragraph (c) of Article III of the Colorado River compact, it shall become necessary to supply water to the United States of Mexico from waters over and above the quantities which are surplus as defined by said compact, then the State of California shall and will mutually agree with the State of Arizona to supply out of the main stream of the Colorado River, one-half of any deficiency which must be supplied to Mexico by the lower basin, and (5) that the State of California shall and will further mutually agree with the States of Arizona and Nevada that none of said three States shall withhold water and none shall require the delivery of water, which cannot reasonably be applied to domestic and agricultural uses, and (6) that all of the provisions of said tri-State agreement shall be subject in all particulars to the provisions of the Colorado River compact and (7) said agreement to take effect upon the ratification of the Colorado River compact by Arizona, California, and Nevada.

(b) Agreements for revenues to meet expenses of construction, operation, and maintenance of works

Before any money is appropriated for the construction of said dam or power plant, or any construction work done or contracted for, the Secretary of the Interior shall make provision for revenues by contract, in accordance with the provisions of this subchapter, adequate in his judgment to insure payment of all expenses of operation and maintenance of said works incurred by the United States and the repayment, within fifty years from the date of the completion of said works, of all amounts advanced to the fund under subsection (b) of section 617a of this title for such works together with interest thereon made reimbursable under this subchapter.

Before any money is appropriated for the construction of said main canal and appurtenant structures to connect the Laguna Dam with the Imperial and Coachella Valleys in California, or any construction work is done upon said canal or contracted for, the Secretary of the Interior shall make

provision for revenues, by contract or otherwise, adequate in his judgment to insure payment of all expenses of construction, operation, and maintenance of said main canal and appurtenant structures in the manner provided in the reclamation law.

If during the period of amortization the Secretary of the Interior shall receive revenues in excess of the amount necessary to meet the periodical payments to the United States as provided in the contract, or contracts, executed under this subchapter, then, immediately after the settlement of such periodical payments, he shall pay to the State of Arizona 18¾ per centum of such excess revenues and to the State of Nevada 18¾ per centum of such excess revenues.

The reclamation law, referred to in text, is defined in section 617k of this title.

§617d. Contracts for storage and use of waters for irrigation and domestic purposes; generation and sale of electrical energy

The Secretary of the Interior is authorized, under such general regulations as he may prescribe, to contract for the storage of water in said reservoir and for the delivery thereof at such points on the river and on said canal as may be agreed upon, for irrigation and domestic uses, and generation of electrical energy and delivery at the switchboard to States, municipal corporations, political subdivisions, and private corporations of electrical energy generated at said dam, upon charges that will provide revenue which, in addition to other revenue accruing under the reclamation law and under this subchapter, will in his judgment cover all expenses of operation and maintenance incurred by the United States on account of works constructed under this subchapter and the payments to the United States under subsection (b) of section 617c of this title. Contracts respecting water for irrigation and domestic uses shall be for permanent service and shall conform to subsection (a) of section 617c of this title. No person shall have or be entitled to have the use for any purpose of the water stored as aforesaid except by contract made as herein stated.

After the repayments to the United States of all money advanced with interest, charges shall be on such basis and the revenues derived therefrom shall be kept in a separate fund to be expended within the Colorado River Basin as may hereafter be prescribed by the Congress.

General and uniform regulations shall be prescribed by the said Secretary for the awarding of contracts for the sale and delivery of electrical energy, and for renewals under subsection (b) of this section, and in making such contracts the following shall govern:

(a) Duration of contracts for electrical energy; price of water and electrical energy to yield reasonable returns; readjustments of prices

No contract for electrical energy or for generation of electrical energy shall be of longer duration than fifty years from the date at which such energy is ready for delivery.

Contracts made pursuant to subsection (a) of this section shall be made with a view to obtaining reasonable returns and shall contain provisions whereby at the end of fifteen years from the date of their execution and every ten years thereafter, there shall be readjustment of the contract, upon the demand of either party thereto, either upward or downward as to price, as the Secretary of the Interior may find to be justified by competitive conditions at distributing points or competitive centers, and with provisions under which disputes or disagreements as to interpretation or performance of such contract shall be determined either by arbitration or court proceedings, the Secretary of the Interior being authorized to act for the United States in such readjustments or proceedings.

(b) Renewal of contracts for electrical energy

The holder of any contract for electrical energy not in default thereunder shall be entitled to a renewal thereof upon such terms and conditions as may be authorized or required under the then existing laws and regulations, unless the property of such holder dependent for its usefulness on a

continuation of the contract be purchased or acquired and such holder be compensated for damages to its property, used and useful in the transmission and distribution of such electrical energy and not taken, resulting from the termination of the supply.

(c) Applicants for purchase of water and electrical energy; preferences

Contracts for the use of water and necessary privileges for the generation and distribution of hydroelectric energy or for the sale and delivery of electrical energy shall be made with responsible applicants therefor who will pay the price fixed by the said Secretary with a view to meeting the revenue requirements herein provided for. In case of conflicting applications, if any, such conflicts shall be resolved by the said Secretary, after hearing, with due regard to the public interest, and in conformity with the policy expressed in the Federal Power Act [16 U.S.C. 791a et seq.] as to conflicting applications for permits and licenses, except that preference to applicants for the use of water and appurtenant works and privileges necessary for the generation and distribution of hydroelectric energy, or for delivery at the switchboard of a hydroelectric plant, shall be given, first, to a State for the generation or purchase of electric energy for use in the State, and the States of Arizona, California, and Nevada shall be given equal opportunity as such applicants.

The rights covered by such preference shall be contracted for by such State within six months after notice by the Secretary of the Interior and to be paid for on the same terms and conditions as may be provided in other similar contracts made by said Secretary: *Provided, however,* That no application of a State or a political subdivision for an allocation of water for power purposes or of electrical energy shall be denied or another application in conflict therewith be granted on the ground that the bond issue of such State or political subdivision necessary to enable the applicant to utilize such water and appurtenant works and privileges necessary for the generation and distribution of hydroelectric energy or the electrical energy applied for, has not been authorized or marketed, until after a reasonable time, to be determined by the said Secretary, has been given to such applicant to have such bond issue authorized and marketed.

(d) Transmission lines for electrical energy; use; rights of way over public and reserved lands

Any agency receiving a contract for electrical energy equivalent to one hundred thousand firm horsepower, or more, may, when deemed feasible by the said Secretary, from engineering and economic considerations and under general regulations prescribed by him, be required to permit any other agency having contracts hereunder for less than the equivalent of twenty-five thousand firm horsepower, upon application to the Secretary of the Interior made within sixty days from the execution of the contract of the agency the use of whose transmission line is applied for, to participate in the benefits and use of any main transmission line constructed or to be constructed by the former for carrying such energy (not exceeding, however, one-fourth the capacity of such line), upon payment by such other agencies of a reasonable share of the cost of construction, operation, and maintenance thereof.

The use is authorized of such public and reserved lands of the United States as may be necessary or convenient for the construction, operation, and maintenance of main transmission lines to transmit said electrical energy.

The dam and reservoir provided for by section 617 of this title shall be used: First, for river regulation, improvement of navigation, and flood control; second, for irrigation and domestic uses and satisfaction of present perfected rights in pursuance of Article VIII of said Colorado River

compact; and third, for power. The title to said dam, reservoir, plant, and incidental works shall forever remain in the United States, and the United States shall, until otherwise provided by Congress, control, manage, and operate the same, except as herein otherwise provided: *Provided, however,* That the Secretary of the Interior may, in his discretion, enter into contracts of lease of a unit or units of any Government-built plant, with right to generate electrical energy, or alternatively, to enter into contracts of lease for the use of water for the generation of electrical energy as herein provided, in either of which events the provisions of section 617d of this title relating to revenue, term, renewals, determination of conflicting applications, and joint use of transmission lines under contracts for the sale of electrical energy, shall apply.

The Secretary of the Interior shall prescribe and enforce rules and regulations conforming with the requirements of the Federal Power Act [16 U.S.C. 791a et seq.], so far as applicable, respecting maintenance of works in condition of repair adequate for their efficient operation, maintenance of a system of accounting, control of rates and service in the absence of State regulation or interstate agreement, valuation for rate-making purposes, transfers of contracts, contracts extending beyond the lease period, expropriation of excessive profits, recapture and/or emergency use by the United States of property of lessees, and penalties for enforcing regulations made under this subchapter or penalizing failure to comply with such regulations or with the provisions of this subchapter. He shall also conform with other provisions of the Federal Power Act and of the rules and regulations of the Federal Power Commission, which have been devised or which may be hereafter devised, for the protection of the investor and consumer.

The Federal Power Commission is directed not to issue or approve any permits or licenses under said Federal Power Act [16 U.S.C. 791a et seq.] upon or affecting the Colorado River or any of its tributaries, except the Gila River, in the States of Colorado, Wyoming, Utah, New Mexico, Nevada, Arizona, and California until this subchapter shall become effective as provided in sections 617c of this title.

CHANGE OF NAME

Act Apr. 30, 1947, changed name of Boulder Dam back to Hoover Dam.

CONSTRUCTION WITH OTHER LAWS

Pub. L. 98–381, title I, §104(b), Aug. 17, 1984, 98 Stat. 1335, provided that: “Except as amended by this Act [amending sections 618, 618a, 618e, and 618k of this title], the Boulder Canyon Project Adjustment Act of 1940 (54 Stat. 774, as amended, 43 U.S.C. 618), as amended and supplemented [this subchapter], shall remain in full force and effect.”

§618a. Receipts from project; disposition

All receipts from the project shall be paid into the Colorado River Dam Fund and shall be available, without further appropriation, for:

(a) Defraying operating expenses

Defraying the costs of operation (including purchase of supplemental energy to meet temporary deficiencies in firm energy which the Secretary of Energy is obligated by contract to supply), maintenance and replacements of, and emergency expenditures for, all facilities of the project, within such separate limitations as may be included in annual appropriations Acts;

(b) Repayment of cost of construction

Repayment to the Treasury, with interest (after making provision for the payments and transfers

provided in subdivisions (c) and (d) of this section), of advances to the Colorado River Dam Fund for the construction of the project (excluding the amount allocated to flood control by section 2(b) of the Project Act [43 U.S.C. 617a(b)]), and any readvances made to said fund under section 618d of this title; and

(c) Commutation payments to Arizona and Nevada

Payment subject to the provisions of section 618b of this title, in commutation of the payments now provided for the States of Arizona and Nevada in section 4(b) of the Project Act [43 U.S.C. 617c(b)] to each of said States of the sum of \$300,000 for each year of operation, beginning with the year of operation ending May 31, 1938, and continuing annually thereafter until and including the year of operation ending May 31, 1987, and such payments for any year of operation which shall have expired at the time when this subdivision shall become effective shall be due immediately, and be paid, without interest, as expeditiously as administration of this subchapter will permit, and each such payment for subsequent years of operation shall be made on or before July 31, following the close of the year of operation for which it is made. All such payments shall be made from revenues received on and after July 19, 1940 in the Colorado River Dam Fund.

Notwithstanding the foregoing provisions of this subsection, in the event that there are levied and collected by or under authority of Arizona or Nevada or by any lawful taxing political subdivision thereof, taxes upon—

- (i) the project as herein defined;
- (ii) the electrical energy generated at Hoover Dam by means of facilities, machinery, or equipment both owned and operated by the United States, or owned by the United States and operated under contract with the United States;
- (iii) the privilege of generating or transforming such electrical energy or of use of such facilities, machinery, or equipment or of falling water for such generation or transforming; or
- (iv) the transmission or control of such electrical energy so generated or transformed (as distinguished from the transmission lines and other physical properties used for such transmission or control) or the use of such transmission lines or other physical properties for such transmission or control,

payments made hereunder to the State by or under the authority of which such taxes are collected shall be reduced by an amount equivalent to such taxes. Nothing herein shall in anywise impair the right of either the State of Arizona or the State of Nevada, or any lawful taxing political subdivision of either of them, to collect non-discriminatory taxes upon that portion of the transmission lines and all other physical properties, situated within such State and such political subdivision, respectively, and belonging to any of the lessees and/or allottees under the Project Act [43 U.S.C. 617 et seq.] and/or under this subchapter, and nothing herein shall exempt or be construed so as to exempt any such property from nondiscriminatory taxation, all in the manner provided by the constitution and laws of such State. Sums, if any, received by each State under the provisions of the Project Act [43 U.S.C. 617 et seq.] shall be deducted from the first payment or payments to said State authorized by this subchapter. Payments under this subsection shall be deemed contractual obligations of the United States, subject to the provisions of section 618b of this title.

(d) Transfer of sums to Colorado River Development Fund; expenditure of fund

Transfer, subject to the provisions of section 618b of this title, from the Colorado River Dam Fund to a special fund in the Treasury, established and designated the “Colorado River Development Fund”, of the sum of \$500,000 for the year of operation ending May 31, 1938, and the like sum of \$500,000 for each year of operation thereafter, until and including the year of operation ending May 31, 1987. The transfer of the said sum of \$500,000 for each year of operation shall be made on or before July 31 next following the close of the year of operation for which it is made: *Provided*, That any such transfer for any year of operation which shall have ended at the time this subsection shall become effective, shall be made, without interest, from revenues received in the Colorado River Dam Fund, as expeditiously as administration of this subchapter will permit, and without readvances from the general funds of the Treasury. Receipts of the Colorado River Development Fund for the

years of operation ending in 1938, 1939, and 1940 (or in the event of reduced receipts during any of said years, due to adjustments under section 618b of this title, then the first receipts of said fund up to \$1,500,000), are authorized to be appropriated only for the continuation and extension, under the direction of the Secretary, of studies and investigations by the Bureau of Reclamation for the formulation of a comprehensive plan for the utilization of waters of the Colorado River system for irrigation, electrical power, and other purposes, in the States of the upper division and the States of the lower division, including studies of quantity and quality of water and all other relevant factors. The next such receipts up to and including the receipts for the year of operation ending in 1955 are authorized to be appropriated only for the investigation and construction of projects for such utilization in and equitably distributed among the four States of the upper division: *Provided, however,* That in view of distributions heretofore made, and in order to expedite the development and utilization of water projects within all of the States of the upper division, the distribution of such funds for use in the fiscal years 1949 to 1955, shall be on a basis which is as nearly equal as practicable. Such receipts for the years of operation ending in 1956 to 1987, inclusive, are authorized to be appropriated for the investigation and construction of projects for such utilization in and equitably distributed among the States of the upper division and the States of the lower division. The terms “Colorado River system”, “States of the upper division”, and “States of the lower division” as so used shall have the respective meanings defined in the Colorado River compact mentioned in the Project Act [43 U.S.C. 617 et seq.]. Such projects shall be only such as are found by the Secretary to be physically feasible, economically justified, and consistent with such formulation of a comprehensive plan. Nothing in this subchapter shall be construed so as to prevent the authorization and construction of any such projects prior to the completion of said plan of comprehensive development; nor shall this subchapter be construed as affecting the right of any State to proceed independently of this subchapter or its provisions with the investigation or construction of any project or projects. Transfers under this subsection shall be deemed contractual obligations of the United States, subject to the provisions of section 618b of this title.

(e) Transfer to Lower Colorado River Basin Development Fund

Transfer to the Lower Colorado River Basin Development Fund established by title IV of the Colorado River Basin Project Act of 1968, as amended and supplemented [43 U.S.C. 1541 et seq.], of the revenues referred to in section 618(e) of this title.

(B) The Secretary of Energy shall offer Schedule D contingency capacity and firm energy to entities not receiving contingent capacity and firm energy under subparagraphs (A) and (B) of paragraph (1) (referred to in this section as “new allottees”) for delivery commencing October 1, 2017 pursuant to this subsection. In this subsection, the term “the marketing area for the Boulder City Area Projects” shall have the same meaning as in appendix A of the Conformed General Consolidated Power Marketing Criteria or Regulations for Boulder City Area Projects published in the Federal Register on December 28, 1984 (49 Federal Register 50582 et seq.) (referred to in this section as the “Criteria”).

(C)(i) Within 36 months of December 20, 2011, the Secretary of Energy shall allocate through the Western Area Power Administration (referred to in this section as “Western”), for delivery commencing October 1, 2017, for use in the marketing area for the Boulder City Area Projects 66.7 percent of the Schedule D contingent capacity and firm energy to new allottees that are located within the marketing area for the Boulder City Area Projects and that are—

- (II) federally recognized Indian tribes.

(ii) In the case of Arizona and Nevada, Schedule D contingent capacity and firm energy for new allottees other than federally recognized Indian tribes shall be offered through the Arizona Power Authority and the Colorado River Commission of Nevada, respectively. Schedule D contingent capacity and firm energy allocated to federally recognized Indian tribes shall be contracted for directly with Western.

(D) Within 1 year of December 20, 2011, the Secretary of Energy also shall allocate, for delivery commencing October 1, 2017, for use in the marketing area for the Boulder City Area Projects 11.1 percent of the Schedule D contingent capacity and firm energy to each of—

(3) The total obligation of the Secretary of Energy to deliver firm energy pursuant to paragraphs (1)(A), (1)(B), and (2) is 4,527.001 million kilowatthours in each year of operation. To the extent that the actual generation at Hoover Powerplant in each year of operation (less deliveries thereof to Arizona required by its first priority under Schedule C of subsection (a)(1)(C) of this section whenever actual generation in each year of operation is in excess of 4,501.001 million kilowatthours) is less than 4,527.001 million kilowatthours, such deficiency shall be borne by the holders of contracts under said ¹ Schedules A, B, and D in the ratio that the sum of the quantities of firm energy to which each contractor is entitled pursuant to said schedules bears to 4,527.001 million kilowatthours. At the request of any such contractor, the Secretary of Energy will purchase energy to meet that contractor's deficiency at such contractor's expense.

(4) Subdivision C of the Criteria shall be deemed to have been modified to conform to this section, as modified by the Hoover Power Allocation Act of 2011. The Secretary of Energy shall cause to be included in the Federal Register a notice conforming the text of the regulations to such modifications.

(C) conform to the applicable provisions of subdivision ² E of the Criteria, commencing at 48 Federal Register 20881, modified as provided in this section. To the extent that said provisions of the Criteria, as so modified, are applicable to contracts entered into under this section, those provisions are hereby ratified;

(D) authorize and require Western to collect from new allottees a pro rata share of Hoover Dam repayable advances paid for by contractors prior to October 1, 2017, and remit such amounts to the contractors that paid such advances in proportion to the amounts paid by such contractors as

specified in section 6.4 of the Implementation Agreement;

(E) permit transactions with an independent system operator; and

(F) contain the same material terms included in section 5.6 of those long-term contracts for purchases from the Hoover Power Plant that were made in accordance with this subchapter and are in existence on December 20, 2011.

(b) Prejudice of rights of contract holders under Boulder Canyon Project Act

Nothing in the Criteria shall be construed to prejudice any rights conferred by the Boulder Canyon Project Act, as amended and supplemented [43 U.S.C. 617 et seq.], on the holder of a contract described in subsection (a) of this section not in default thereunder on September 30, 2067.

(c) Offer of contract to other entities

If any existing contractor fails to accept an offered contract, the Secretary of Energy shall offer the contingent capacity and firm energy thus available first to other entities in the same State listed in Schedule A and Schedule B, second to other entities listed in Schedule A and Schedule B, third to other entities in the same State which receive contingent capacity and firm energy under subsection (a)(2) of this section, and last to other entities which receive contingent capacity and firm energy under subsection (a)(2) of this section.

(d) Water availability

Except with respect to energy purchased at the request of an allottee pursuant to subsection (a)(3), the obligation of the Secretary of Energy to deliver contingent capacity and firm energy pursuant to contracts entered into pursuant to this section shall be subject to availability of the water needed to produce such contingent capacity and firm energy. In the event that water is not available to produce the contingent capacity and firm energy set forth in Schedule A, Schedule B, and Schedule D, the Secretary of Energy shall adjust the contingent capacity and firm energy offered under those Schedules in the same proportion as those contractors' allocations of Schedule A, Schedule B, and Schedule D contingent capacity and firm energy bears to the full rated contingent capacity and firm energy obligations.

(e) Congressional exercise of reserved right

The provisions of this section constitute an exercise by the Congress of the right reserved by it in section 5(b) of the Boulder Canyon Project Act, as amended and supplemented [43 U.S.C. 617d(b)], to prescribe terms and conditions for contracts for electrical energy generated at Hoover Dam. This section constitutes the exclusive method for disposing of capacity and energy from Hoover Dam for the period beginning October 1, 2017, and ending September 30, 2067.

(f) Court challenges; disputes and disagreements

(1) Notwithstanding any other provision of law, any claim that the provisions of subsection (a) of this section violates any rights to capacity or energy from the Boulder Canyon project is barred unless the complaint is filed within one year after December 20, 2011, in the United States Court of Federal Claims which shall have exclusive jurisdiction over this action. Any claim that actions taken by any administrative agency of the United States violates any right under this subchapter or the Boulder Canyon Project Act [43 U.S.C. 617 et seq.] or the Boulder Canyon Project Adjustment Act [43 U.S.C. 618 et seq.] is barred unless suit asserting such claim is filed in a Federal court of competent jurisdiction within one year after final refusal of such agency to correct the action complained of.

(2) Any contract entered into pursuant to this section or section 107 of this Act [42 U.S.C. 7133 note] shall contain provisions by which any dispute or disagreement as to interpretation or performance of the provisions of this subchapter or of applicable regulations or of the contract may be determined by arbitration or court proceedings. The Secretary of Energy or the Secretary of the Interior, as the case may be, if authorized to act for the United States in such arbitration or court proceedings and, except as provided in paragraph (1) of this subsection, jurisdiction is conferred upon any district court of the United States of proper venue to determine the dispute.

(4) the costs of each storage unit which are allocated to irrigation pursuant to section 620e of this title within a period not exceeding fifty years; and

(5) the costs of each salinity control unit or separable feature thereof, the costs of measures to replace incidental fish and wildlife values foregone, and the costs of the on-farm measures payable from the Upper Colorado River Basin Fund in accordance with sections 1595(a)(2), 1595(a)(3), and 1595(c) of this title.

§751. Rules of survey

The public lands shall be divided by north and south lines run according to the true meridian, and by others crossing them at right angles, so as to form townships of six miles square, unless where the line of an Indian reservation, or of tracts of land surveyed or patented prior to May 18, 1796, or the course of navigable rivers, may render this impracticable; and in that case this rule must be departed from no further than such particular circumstances require.

Second. The corners of the townships must be marked with progressive numbers from the beginning; each distance of a mile between such corners must be also distinctly marked with marks

different from those of the corners.

Third. The township shall be subdivided into sections, containing, as nearly as may be, six hundred and forty acres each, by running parallel lines through the same from east to west and from south to north at the distance of one mile from each other, and marking corners at the distance of each half mile. The sections shall be numbered, respectively, beginning with the number one in the northeast section and proceeding west and east alternately through the township with progressive numbers, until the thirty-six be completed.

Fourth. The deputy surveyors, respectively, shall cause to be marked on a tree near each corner established in the manner described, and within the section, the number of such section, and over it the number of the township within which such section may be; and the deputy surveyors shall carefully note, in their respective field books, the names of the corner trees marked and the numbers so made.

Fifth. Where the exterior lines of the townships which may be subdivided into sections or half-sections exceed, or do not extend six miles, the excess or deficiency shall be specially noted, and added to or deducted from the western and northern ranges of sections or half-sections in such township, according as the error may be in running the lines from east to west, or from north to south; the sections and half-sections bounded on the northern and western lines of such townships shall be sold as containing only the quantity expressed in the returns and plats respectively, and all others as containing the complete legal quantity.

Sixth. All lines shall be plainly marked upon trees, and measured with chains, containing two perches of sixteen and one-half feet each, subdivided into twenty-five equal links; and the chain shall be adjusted to a standard to be kept for that purpose.

Seventh. Every surveyor shall note in his field book the true situations of all mines, salt licks, salt springs, and mill-seats which come to his knowledge; all watercourses over which the line he runs may pass; and also the quality of the lands.

Eighth. These field books shall be returned to the Secretary of the Interior or such officer as he may designate, who shall cause therefrom a description of the whole lands surveyed to be made out and transmitted to the officers who may superintend the sales. He shall also cause a fair plat to be made of the townships and fractional parts of townships contained in the lands, describing the subdivisions thereof, and the marks of the corners. This plat shall be recorded in books to be kept for that purpose; and a copy thereof shall be kept open at the office of the Secretary of the Interior or of such agency as he may designate for public information, and other copies shall be sent to the places of the sale, and to the Bureau of Land Management.

§851. Deficiencies in grants to State by reason of settlements, etc., on designated sections generally

Where settlements with a view to preemption or homestead have been, or shall hereafter be made, before the survey of the lands in the field, which are found to have been made on sections sixteen or thirty-six, those sections shall be subject to the claims of such settlers; and if such sections or either of them have been or shall be granted, reserved, or pledged for the use of schools or colleges in the State in which they lie, other lands of equal acreage are hereby appropriated and granted, and may be selected, in accordance with the provisions of section 852 of this title, by said State, in lieu of such as may be thus taken by preemption or homestead settlers. And other lands of equal acreage are also hereby appropriated and granted and may be selected, in accordance with the provisions of section 852 of this title, by said State where sections sixteen or thirty-six are, before title could pass to the State, included within any Indian, military, or other reservation, or are, before title could pass to the State, otherwise disposed of by the United States: *Provided*, That the selection of any lands under this section in lieu of sections granted or reserved to a State shall be a waiver by the State of its right to the granted or reserved sections. And other lands of equal acreage are also appropriated and granted, and may be selected, in accordance with the provisions of section 852 of this title, by said State to compensate deficiencies for school purposes, where sections sixteen or thirty-six are fractional in quantity, or where one or both are wanting by reason of the township being fractional, or from any natural cause whatever. And it shall be the duty of the Secretary of the Interior, without awaiting the extension of the public surveys, to ascertain and determine, by protraction or otherwise, the number of townships that will be included within such Indian, military, or other reservations, and thereupon the State shall be entitled to select indemnity lands to the extent of section for section in lieu of sections therein which have been or shall be granted, reserved, or pledged; but such selections

may not be made within the boundaries of said reservation: *Provided, however,* That nothing in this section contained shall prevent any State from awaiting the extinguishment of any such military, Indian, or other reservation and the restoration of the lands therein embraced to the public domain and then taking the sections sixteen and thirty-six in place therein.

CODIFICATION

R.S. §2275 derived from acts Feb. 26, 1859, ch. 58, 11 Stat. 385; June 22, 1874, ch. 422, 18 Stat. 202.

§852. Selections to supply deficiencies of school lands

(a) Restrictions

The lands appropriated by section 851 of this title shall be selected from any unappropriated, surveyed or unsurveyed public lands within the State where such losses or deficiencies occur subject to the following restrictions:

(1) No lands mineral in character may be selected by a State except to the extent that the selection is being made as indemnity for mineral lands lost to the State because of appropriation before title could pass to the State;

(2) No lands on a known geologic structure of a producing oil or gas field may be selected except to the extent that the selection is being made as indemnity for lands on such a structure lost to the State because of appropriation before title could pass to the State; and

(3) Land subject to a mineral lease or permit may be selected if none of the land subject to that lease or permit is in a producing or producible status, subject, however, to the restrictions and conditions of the preceding and following paragraphs of this subsection.

(4) If a selection is consummated as to a portion but not all of the lands subject to any mineral lease or permit, then, as to such portion and for so long only as such lease or permit or any lease issued pursuant to such permit shall remain in effect, there shall be automatically reserved to the United States the mineral or minerals for which the lease or permit was issued, together with such further rights as may be necessary for the full and complete enjoyment of all rights, privileges and benefits under or with respect to the lease or permit: *Provided, however,* That after approval of the selection the Secretary of the Interior shall determine what portion of any rents and royalties accruing thereafter which may be paid under the lease or permit is properly applicable to that portion of the land subject to the lease or permit selected by the State, the portion applicable being determined by applying to the sum of the rents and royalties the same ratio as that existing between the acreage selected by the State and the total acreage subject to the lease or permit; of the portion applicable to the selected land 90 per centum shall be paid to the State by the United States annually and 10 per centum shall be deposited in the Treasury of the United States as miscellaneous receipts.

(5) If a selection is consummated as to all of the lands subject to any mineral lease or permit or if, where the selecting State has previously acquired title to a portion of the lands subject to a mineral lease or permit, a selection is consummated as to all of the remaining lands subject to that lease or permit, then and upon condition that the United States shall retain all rents and royalties theretofore paid and that the lessee or permittee shall have and may enjoy under and with respect to that lease or permit all the rights, privileges, and benefits which he would have had or might have enjoyed had the selection not been made and approved, the State shall succeed to all the rights of the United States under the lease or permit as to the mineral or minerals covered thereby, subject, however, to all obligations of the United States under and with respect to that lease or permit.

(b) Adjustments

Where the selections are to compensate for deficiencies of school lands in fractional townships, such selections shall be made in accordance with the following principles of adjustment, to wit: For each township, or fractional township, containing a greater quantity of land than three-quarters of an entire township, one section; for a fractional township, containing a greater quantity of land than one-half, and not more than three-quarters of a township, three-quarters of a section; for a fractional township, containing a greater quantity of land than one-quarter, and not more than one-half of a township, one-half section; and for a fractional township containing a greater quantity of land than one entire section, and not more than one-quarter of a township, one-quarter section of land: *Provided*, That the States which are, or shall be entitled to both the sixteenth and thirty-sixth sections in place, shall have the right to select double the amounts named, to compensate for deficiencies of school land in fractional townships.

(c) Preference rights for State

Notwithstanding the provisions of section 282 ¹ of this title on the revocation not later than 10 years after the date of approval of this Act, of any order of withdrawal, in whole or in part, the order or notice taking such action shall provide for a period of not less than six months before the date on which it otherwise becomes effective in which the State in which the lands are situated shall have a preferred right of application for selection under this section, subject to the requirements of existing law, except as against the prior existing valid settlement rights and preference rights conferred by existing law other than section 282 ¹ of this title, or as against equitable claims subject to allowance and confirmation, and except where a revocation of an order of withdrawal is made in order to assist in a Federal land program.

(d) “Unappropriated public lands” defined; determination of mineral character of land

(1) The term “unappropriated public lands” as used in this section shall include, without otherwise affecting the meaning thereof, lands withdrawn for coal, phosphate, nitrate, potash, oil, gas, asphaltic minerals, oil shale, sodium, and sulphur, but otherwise subject to appropriation, location, selection, entry, or purchase under the nonmineral laws of the United States; lands withdrawn by Executive Order Numbered 5327, of April 15, 1930, if otherwise available for selection; and the retained or reserved interest of the United States in lands which have been disposed of with a reservation to the United States of all minerals or any specified mineral or minerals.

(2) The determination, for the purposes of this section of the mineral character of lands lost to a State shall be made as of the date of application for selection and upon the basis of the best evidence available at that time.

§869. Disposal of lands for public or recreational purposes

(a) Application; conditions; classification; restoration if not applied for

The Secretary of the Interior upon application filed by a duly qualified applicant under section 869–1 of this title may, in the manner prescribed by sections 869 to 869–4 of this title, dispose of any public lands to a State, Territory, county, municipality, or other State, Territorial, or Federal instrumentality or political subdivision for any public purposes, or to a nonprofit corporation or nonprofit association for any recreational or any public purpose consistent with its articles of incorporation or other creating authority. Before the land may be disposed of under sections 869 to 869–4 of this title it must be shown to the satisfaction of the Secretary that the land is to be used for an established or definitely proposed project, that the land involved is not of national significance nor more than is reasonably necessary for the proposed use, and that for proposals of over 640 acres comprehensive land use plans and zoning regulations applicable to the area in which the public lands to be disposed of are located have been adopted by the appropriate State or local authority. The Secretary shall provide an opportunity for participation by affected citizens in disposals under sections 869 to 869–4 of this title, including public hearings or meetings where he deems it appropriate to provide public comments, and shall hold at least one public meeting on any proposed disposal of more than six hundred forty acres under sections 869 to 869–4 of this title. If, within eighteen months following such classification, no application has been filed for the purpose for which the lands have been so classified, then the Secretary shall restore such lands to appropriation under the applicable public land laws.

Conveyances made in any one calendar year shall be limited as follows:

(B) To any nonprofit corporation or nonprofit association, six hundred and forty acres.

(C) No more than twenty-five thousand six hundred acres may be conveyed for recreational purposes under sections 869 to 869–4 of this title in any one State per calendar year. Should any State or political subdivision, however, fail to secure, in any one year, six thousand four hundred acres, not counting lands for small roadside parks and rest sites, conveyances may be made thereafter if pursuant to an application on file with the Secretary of the Interior on or before the last day of said year and to the extent that the conveyance would not have exceeded the limitations of said year.

(ii) For public purposes other than recreation:

(A) To any State or agency or instrumentality thereof, for any one program, six hundred and forty acres.

(B) To any political subdivision of a State, six hundred and forty acres.

(C) To any nonprofit corporation or nonprofit association, six hundred and forty acres.

(c) Lands withdrawn in aid of functions of a department, agency, State, etc.; lands excepted from disposal

Where the lands have been withdrawn in aid of a function of a Federal department or agency other than the Department of the Interior, or of a State, Territory, county, municipality, water district, or other local governmental subdivision or agency, the Secretary of the Interior may make disposals under sections 869 to 869-4 of this title only with the consent of such Federal department or agency, or of such State, Territory, or local governmental unit. Nothing in sections 869 to 869-4 of this title shall be construed to apply to lands in any national forest, national park, or national monument, or national wildlife refuge, or to any Indian lands or lands set aside or held for the use or benefit of Indians, including lands over which jurisdiction has been transferred to the Department of the Interior by Executive order for the use of Indians, or, except insofar as sections 869 to 869-4 of this title apply to leases of land to States and counties and to State and Federal instrumentalities and political subdivisions and to municipal corporations, to the revested Oregon and California Railroad grant lands and the reconveyed Coos Bay Wagon Road grant lands in the State of Oregon. Nor shall any disposition be made under sections 869 to 869-4 of this title for any use authorized under any other law, except for a use authorized under sections 682a to 682e ¹ of this title.

1954—Act June 4, 1954, divided provisions of act June 14, 1926, on which this section is based, into separate sections (now set out as this section and sections 869-1 to 869-4 of this title), and changed provisions generally to broaden authority of Secretary of the Interior to dispose of public lands for public purposes (1) by including provisions for disposal thereof to Territories (including Alaska), other political

subdivisions, and nonprofit corporations and associations rather than to States, counties, and municipalities only, (2) by permitting the disposal thereof for “public” purposes, rather than merely for “recreational” purposes as theretofore, (3) by striking out “nonmineral” in describing the lands which may be so disposed of, (4) by inserting limitation provisions set out in subsecs. (b) and (c) of this section, (5) by amending and transferring to section 2 of that act (section 869–1 of this title) provisions governing methods of, and conditions with respect to the, disposing of the lands for those purposes (see Prior Provisions note set out under section 869–1 of this title), including provision for the reservation of mineral deposits, (6) by amending and transferring to section 3 of that act (section 869–2 of this title) provisions with respect to reversion of the lands to the United States in certain cases (see Prior Provisions note set out under section 869–2 of this title), (7) by enacting, as section 4 of that act, provisions set out as section 869–3 of this title, and (8) by inserting provision in this section that disposals should be made “upon application by a duly qualified applicant” under section 869–1 of this title.

PRIOR PROVISIONS

Provisions similar to those in this section were formerly contained in section 869 of this title. See 1954 Amendment note set out under that section. Those prior provisions did not require, as in this section, the Secretary of the Interior to take into account the possible power value of the lands, whether withdrawn therefor, or not, before authorizing any disposal of them under section 869 of this title; did not provide, as in this section, for the sale or lease of those lands to Federal instrumentalities, to Territories and to political subdivisions other than States, counties, and municipalities, and to nonprofit corporations and associations; and did not provide, as in this section, that conveyances of that land for historic-monument purposes should be made without monetary consideration. See section 869 of this title.

AMENDMENTS

1976—Pub. L. 94-579 in cl. (a) inserted reference to recreational purposes and in cl. (b) inserted reference to leases for recreational purposes.

1966—Pub. L. 89-457 authorized an increase in the period of a lease under cl. (b) from twenty to twenty-five years.

SAVINGS PROVISION

Amendment by Pub. L. 94-579 not to be construed as terminating any valid lease, permit, patent, etc., existing on Oct. 21, 1976, see section 701 of Pub. L. 94-579, set out as a note under section 1701 of this title.

PERIOD OF LEASES

Pub. L. 89-457, §2, June 20, 1966, 80 Stat. 210, provided that: “Upon application by a lessee holding a lease under the Recreation and Public Purposes Act [sections 869 to 869-4 of this title] the Secretary of the Interior may enter into a new lease for a term not to exceed twenty-five years from the date of the new lease.”

§869-2. Conditions of transfer by grantee; solid waste disposal

(a) Conditions of transfer by grantee

Title to lands conveyed by the Government under sections 869 to 869-4 of this title may not be transferred by the grantee or its successor except, with the consent of the Secretary of the Interior, to a transferee which would be a qualified grantee under section 869-1(a) or 869-1(c) of this title and subject to the acreage limitation contained in section 869(b) of this title. A grantee or its successor may not change the use specified in the conveyance to another or additional use except, with the consent of the Secretary, to a use for which such grantee or its successor could obtain a conveyance under sections 869 to 869-4 of this title. If at any time after the lands are conveyed by the Government, the grantee or its successor attempts to transfer title to or control over these lands to another or the lands are devoted to a use other than that for which the lands were conveyed, without the consent of the Secretary, title to the lands shall revert to the United States.

(b) New disposal sites

(1) Notwithstanding the provisions of subsection (a) of this section, if the Secretary receives an application for conveyance of land under sections 869 to 869-4 of this title for the express purpose of solid waste disposal or for another purpose which the Secretary finds may include the disposal, placement, or release of any hazardous substance, the Secretary may convey such land subject only to the provisions of this subsection.

(2) Prior to issuance of any conveyance of land under this subsection the Secretary shall investigate the land covered by an application for such conveyance to determine whether or not any

hazardous substance is present on such land. Such investigation shall include a review of any available records as to the use of such land and all appropriate analysis of the soil, water and air associated with such land. No land shall be conveyed under this subsection if such investigation indicates that any hazardous substance is present on such land.

(3) No application for conveyance under this subsection shall be acted on by the Secretary until the applicant has furnished evidence, satisfactory to the Secretary, that a copy of the application and information concerning the proposed use of the land covered by the application has been provided to the Environmental Protection Agency and to all other State and Federal agencies with responsibility for enforcement of State and Federal laws applicable to lands used for the disposal, placement, or release of solid waste or any hazardous substance.

(4) No application for conveyance under this subsection shall be acted on by the Secretary until the applicant has given a warranty that use of the land covered by the application will be consistent with all applicable State and Federal laws, including laws dealing with the disposal, placement, or release of hazardous substances, and that the applicant will hold the United States harmless from any liability that may arise out of any violation of any such law.

(5) A conveyance under this subsection shall be made to the extent that the applicant has demonstrated to the Secretary that the land covered by an application meets all applicable State and local requirements and is appropriate in character and reasonable in acreage in order to meet an existing or reasonably anticipated need for solid waste disposal or for another proposed use that the Secretary finds may include the disposal, placement, or release of any hazardous substance.

(6) A conveyance under this subsection shall be subject to the following conditions:

(A) Except as otherwise provided in subparagraphs (B) and (D) of this paragraph, the document of conveyance shall provide that the lands conveyed under this subsection shall revert to the United States, unless substantially all of the lands have been used, on or before the date five years after the date of conveyance, for the purpose or purposes specified in the application, or for other use or uses authorized under subsection (a) of this section with the consent of the Secretary.

(B) In the event that at any time after such conveyance any portion of such lands has not been used for the purpose or purposes specified in the application, and the party to whom such lands were conveyed by the Secretary shall transfer ownership of such unused portion to any other party, the party to whom such lands were conveyed by the Secretary shall be liable to pay the Secretary, on behalf of the United States, the fair market value of such transferred portion as of the date of such transfer, including the value of any improvements thereon. Subject to appropriations, all amounts received by the Secretary under this subparagraph shall be retained by the Secretary and used for the management of public lands and shall remain available until expended.

(C) Pricing for conveyances of land under this subsection shall be in accordance with the provisions of section 869–1 of this title, except that no compensation shall be required for the inclusion of only the limited reverter specified in this paragraph.

(D) Each patent issued under this subsection shall specify that no portion of the lands covered by such patent shall under any circumstances revert to the United States if such portion has been used for solid waste disposal or for any other purpose that the Secretary finds may result in the disposal, placement, or release of any hazardous substance.

(7) For purposes of this section the term “hazardous substance” has the same meaning as such term has when used in the Comprehensive Environmental Response, Compensation, and Liability Act (42 U.S.C. 9601 et seq.).

(c) Existing disposal sites

(1) Upon the application or with the concurrence of any party to whom the Secretary, prior to November 10, 1988, conveyed land under sections 869 to 869–4 of this title, the Secretary may renounce the reversionary interests of the United States in such land, or portion thereof, if the Secretary finds that such land, or portion thereof, has been used for solid waste disposal or for any other purpose which the Secretary finds may result in the disposal, placement, or release of any hazardous substance, and the Secretary may rescind any portion of any patent or other instrument of conveyance inconsistent with such renunciation. After such renunciation, affected lands shall not

under any circumstances revert to the United States by the operation of law, and shall cease to be subject to the provisions of subsection (a) of this section.

(2) Upon the application or with the concurrence of a party to whom the Secretary, prior to November 10, 1988, leased lands pursuant to sections 869 to 869-4 of this title, the Secretary may convey in fee the lands covered by such lease or any portion thereof which have been used for solid waste disposal or for any other purpose that the Secretary finds may result in the disposal, placement, or release of any hazardous substance. Notwithstanding any other provision of sections 869 to 869-4 of this title, a patent issued pursuant to this paragraph shall not contain a reverter provision and the lands covered by such patent shall not under any circumstances revert to the United States by operation of law after the issuance of such patent and shall not be subject to the provisions of subsection (a) of this section.

PRIOR PROVISIONS

Prior provisions on the subject of reverter were formerly contained in section 869 of this title. See 1954 Amendment note set out under that section. Those prior provisions permanently restricted the lands conveyed to a single use, and did not provide, as in this section, for transfer by the original grantee or its successor.

AMENDMENTS

1988—Pub. L. 100-648 designated existing provision as subsec. (a) and added subsecs. (b) and (c).

1959—Pub. L. 86-292 struck out sentence which provided that this section should cease to be in effect as to any lands patented under sections 869 to 869-4 of this title twenty-five years after the issuance of patent for such lands.

SAVINGS PROVISIONS

Pub. L. 100-648, §3, Nov. 10, 1988, 102 Stat. 3815, provided that: “Nothing in this Act [amending section 869-2 of this title and enacting provisions set out as notes under sections 869 and 869-2 of this title] or the amendments made thereby shall be construed to affect the applicability and operation of the Comprehensive Environmental Response, Compensation[,] and Liability Act [of 1980] (42 U.S.C. 9601 et seq.) as amended, and the Resource Conservation and Recovery Act of 1976 (42 U.S.C. 6901 et seq.), as amended.”

“(a) The Secretary shall not make any conveyance of land or renunciation of reversionary interests under this Act [amending section 869-2 of this title and enacting provisions set out as notes under sections 869 and 869-2 of this title] until he has published in the Federal Register regulations implementing this Act and until sixty days (not counting days on which the House of Representatives or the Senate has adjourned for more than three days) after these regulations have been submitted to the Committee on Energy and Natural Resources of the Senate and the Committee on Interior and Insular Affairs of the House of Representatives. [Implementing regulations were published in the Federal Register July 23, 1992, 57 F.R. 32730.]

“(b) During the first three years after enactment of this Act [Nov. 10, 1988] the Secretary shall not make any conveyance of land or renunciation of reversionary interests under this Act until thirty days (not counting days on which the House of Representatives or the Senate has adjourned for more than three days) after notice of intention to do so has been submitted to the Committee on Energy and Natural Resources of the Senate and the Committee on Interior and Insular Affairs of the House of Representatives.”

§869-3. Authority for transfers; applicability of section 869-2 to prior patents;

termination of restrictions

The Secretary may authorize transfers of title or changes in use in accordance with the provisions of section 869–2 of this title with respect to any patent heretofore issued under any Act upon application by a patentee qualified to obtain a conveyance under section 869–1(a) or 869–1(c) of this title. If the Secretary, pursuant to such an application, authorizes such transfer or use, all reverter provisions and other limitations on transfer or use, under sections 869 to 869–4 of this title or any other Act affecting the lands involved, shall cease to be in effect twenty-five years after the Secretary authorizes the transfer or use for a changed or additional purpose under the provisions of this section. (June 14, 1926, ch. 578, §4, as added June 4, 1954, ch. 263, 68 Stat. 175.)

§869–4. Disposition of moneys received from or on account of revested Oregon and California Railroad grant lands or reconveyed Coos Bay Wagon Road grant lands

All moneys received from or on account of any revested Oregon and California Railroad grant lands or reconveyed Coos Bay Wagon Road grant lands under sections 869 to 869–4 of this title shall be deposited respectively in the Oregon and California land-grant fund and the Coos Bay Wagon Road grant fund, and shall be applied in the manner prescribed respectively by section 1181f of this title, and by sections 1181f–1 to 1181f–4 of this title.

§870. Grants of land in aid of common or public schools; extension to those mineral in character; effect of leases

Subject to the provisions of subsections (a), (b), and (c) of this section, the several grants to the States of numbered sections in place for the support or in aid of common or public schools be, and they are, extended to embrace numbered school sections mineral in character, unless land has been granted to and/or selected by and certified or approved, to any such State or States as indemnity or in lieu of any land so granted by numbered sections.

(a) The grant of numbered mineral sections under this section shall be of the same effect as prior grants for the numbered nonmineral sections, and titles to such numbered mineral sections shall vest in the States at the time and in the manner and be subject to all the rights of adverse parties recognized by existing law in the grants of numbered nonmineral sections.

(b) The additional grant made by this section is upon the express condition that all sales, grants, deeds, or patents for any of the lands so granted shall hereafter be subject to and contain a reservation to the State of all the coal and other minerals in the lands so sold, granted, deeded, or patented, together with the right to prospect for, mine, and remove the same. The coal and other mineral deposits in such lands not heretofore disposed of by the State shall be subject to lease by the State as the State legislature may direct, the proceeds and rentals and royalties therefrom to be utilized for the support or in aid of the common or public schools: *Provided*, That any lands or minerals hereafter disposed of contrary to the provisions of this section shall be forfeited to the United States by appropriate proceedings instituted by the Attorney General for that purpose in the United States district court for the district in which the property or some part thereof is located.

(c) Except as provided in subsection (d) of this section, any lands included within the limits of

existing reservations of or by the United States, or specifically reserved for water-power purposes, or included in any pending suit or proceeding in the courts of the United States, or subject to or included in any valid application, claim, or right initiated or held under any of the existing laws of the United States, unless or until such reservation, application, claim, or right is extinguished, relinquished, or canceled, and all lands in the Territory of Alaska, are excluded from the provisions of this section.

(d)(1) Notwithstanding subsection (c) of this section, the fact that there is outstanding on any numbered school section, whether or not mineral in character, at the time of its survey a mineral lease or leases entered into by the United States, or an application therefor, shall not prevent the grant of such numbered school section to the State concerned as provided by this section and section 871 of this title.

(2) Any such numbered school section which has been surveyed prior to July 11, 1956, and which has not been granted to the State concerned solely by reason of the fact that there was outstanding on it at the time of the survey a mineral lease or leases entered into by the United States, or an application therefor, is hereby granted by the United States to such State under this section as if it had not been so leased; and the State shall succeed the position of the United States as lessor under such lease or leases.

(3) Any such numbered school section which is surveyed on or after July 11, 1956, and on which there is outstanding at the time of such survey a mineral lease or leases entered into by the United States, shall (unless excluded from the provisions of this section by subsection (c) of this section for a reason other than the existence of an outstanding lease) be granted to the State concerned immediately upon completion of such survey; and the State shall succeed to the position of the United States as lessor under such lease or leases.

(4) The Secretary of the Interior shall, upon application by a State, issue patents to the State for the lands granted by this section and section 871 of this title, in accordance with section 871a ¹ of this title. Such patent shall, if the lease is then outstanding, include a statement that the State succeeded to the position of the United States as lessor at the time the title vested in the State.

(5) Where at the time rents, royalties, and bonuses accrue the lands or deposits covered by a single lease are owned in part by the State and in part by the United States, the rents, royalties, and bonuses shall be allocated between them in proportion to the acreage in said lease owned by each.

(6) As used in this subsection, "lease" includes "permit" and "lessor" includes "grantor".

(Mar. 3, 1887, ch. 376, §1, 24 Stat. 556.)

§900. Suits to cancel patents to lands erroneously issued under railroad or wagon-road grants

§901. Claims of bona fide purchasers; establishment of rights

If any person claiming to be a bona fide purchaser of any lands erroneously patented or certified shall present his claim to the Secretary of the Interior prior to the institution of a suit to cancel a patent or certification, and if it shall appear that he is a bona fide purchaser, the Secretary of the Interior shall request that suit be brought in such case against the patentee, or the corporation, company, person, or association of persons for whose benefit the certification was made, for the value of said land, which in no case shall be more than the minimum Government price thereof, and the title of such claimant shall stand confirmed. An adverse decision by the Secretary of the Interior on the bona fides of such claimant shall not be conclusive of his rights, and if such claimant, or one claiming to be a bona fide purchaser, but who has not submitted his claim to the Secretary of the Interior, is made a party to such suit, and if found by the court to be a bona fide purchaser, the court shall decree a confirmation of the title, and shall render a decree in behalf of the United States against the patentee, corporation, company, person, or association of persons for whose benefit the

certification was made for the value of the land as hereinbefore provided. Any bona fide purchaser of lands patented or certified to a railroad company, and who is not made a party to such suit, and who has not submitted his claim to the Secretary of the Interior, may establish his right as such bona fide purchaser in any United States court having jurisdiction of the subject matter, or at his option, as prescribed in sections 896 and 897 of this title.

(Mar. 2, 1896, ch. 39, §2, 29 Stat. 43.)

§902. Cancellation; investigation before suit

If at any time prior to the institution of suit by the Attorney General to cancel any patent or certification of lands erroneously patented or certified a claim or statement is presented to the Secretary of the Interior by or on behalf of any person or persons, corporation or corporations, claiming that such person or persons, corporation or corporations, is a bona fide purchaser or are bona fide purchasers of any patented or certified land by deed or contract or otherwise, from or through the original patentee or corporation to which patent or certification was issued, no suit or action shall be brought to cancel or annul the patent or certification for said land until such claim is investigated in said Department of the Interior; and if it shall appear that such person or corporation is a bona fide purchaser as aforesaid, or that such persons or corporations are such bona fide purchasers, then no such suit shall be instituted and the title of such claimant or claimants shall stand confirmed; but the Secretary of the Interior shall request that suit be brought in such case against the patentee, or the corporation, company, person, or association of persons for whose benefit the patent was issued or certification was made for the value of the land as hereinbefore specified.

§942–2. Rights of several roads through canyons

Any railroad company whose right of way, or whose track or roadbed upon such right of way, passes through any canyon, pass, or defile shall not prevent any other railroad company from the use and occupancy of said canyon, pass, or defile for the purposes of its road, in common with the road first located, or the crossing of other railroads at grade; and the location of such right of way through any canyon, pass, or defile shall not cause the disuse of any tramway, wagon road, or other public highway now located therein, nor prevent the location through the same of any such tramway, wagon road, or highway where such tramway, wagon road, or highway may be necessary for the public accommodation; and where any change in the location of such tramway, wagon road, or highway is necessary to permit the passage of such railroad through any canyon, pass, or defile, said railroad

§942–3. Condemnation of land

Where any company, the right of way to which is granted by sections 687a, 687a–2 to 687a–5,¹ and 942–1 to 942–9 of this title and sections 607a and 615a of title 16, shall in the course of construction find it necessary to pass over private lands or possessory claims on lands of the United States, condemnation of a right of way across the same may be made in the following manner: In case the owner or claimant of such lands or premises and such company can not agree as to the damages, the amount shall be determined by the appraisal of three disinterested commissioners, who may be appointed upon application by any party to any judge of a court of record in Alaska; and said commissioners, in their assessments of damages, shall appraise such premises at what would have been the value thereof if the road had not been built; and upon return into court of such appraisal, and upon the payment to the clerk thereof of the amount so awarded by the commissioners for the use and benefit of the owner thereof, said premises shall be deemed to be taken by said company, which shall thereby acquire full title to the same for the purposes aforesaid. And either party feeling aggrieved by said assessment may, within thirty days, file an appeal therefrom, and demand a jury of twelve men to estimate the damage sustained; but such appeal shall not interfere with the rights of said company to enter upon the premises taken, or to do any act necessary in the construction of its road. And said party appealing shall give bonds with sufficient surety or sureties for the payment of any costs that may arise upon such appeal. And in case the party appealing does not obtain a more favorable verdict, such party shall pay the whole cost incurred by the appellee, as well as its own. And the payment into court for the use of the owner or claimant, of a sum equal to that finally awarded shall be held to vest in said company the title of said land, and the right to use and occupy the same for the construction, maintaining and operating of the road of said company. And in case any of the lands to be taken as aforesaid shall be held by any person residing without the Territory, or subject to any legal disability, the court may appoint a proper person who shall give bonds with sufficient surety or sureties, for the faithful execution of his trust, and who may represent in court the person disqualified or absent as aforesaid, when the same proceeding shall be had in reference to the appraisal of the premises to be taken, and with the same effect as has been already described. And the title of the company to the land taken by virtue of this section shall

not be affected nor impaired by reason of any failure by any guardian to discharge faithfully his trust. And in case it shall be necessary for the said company to enter upon lands which are unoccupied, and of which there is no apparent owner or claimant, it may proceed to take and use the same for the purpose of its said railroad, and may institute proceedings in the manner described for the purpose of ascertaining the value of, and acquiring a title to, the same; and the court may determine the kind of notice to be served on such owner or owners, and may in its discretion appoint an agent or guardian to represent such owner or owners in case of his or their incapacity or nonappearance. But in case no claimant shall appear within six years from the time of the opening of said road across any land, all claims to damages against said company shall be barred. It shall be competent for the legal guardian of any infant, or any other person under guardianship, to agree with the said company as to damages sustained by reason of the taking of any lands of any such person under disability, as aforesaid, for the use as aforesaid; and upon such agreement being made, and approved by the court having supervision of the official acts of said guardian, and said guardian shall have full power to make and execute a conveyance thereof to the said company which shall vest the title thereto in the said company.

Any citizen of the United States who in good faith under color of title or claiming as a riparian owner, prior to September 21, 1922, placed valuable improvements upon or reduced to cultivation any of the lands subject to the operation of this section, shall have a preferred right to file in the office of the officer, as the Secretary of the Interior may designate, of the United States land office of the district in which the lands are situated, an application to purchase the lands thus improved by them at any time within ninety days from September 21, 1922, if the lands have been surveyed and plats filed in the United States land office; otherwise within ninety days from the filing of such plats. Every such application must be accompanied with satisfactory proof that the applicant is entitled to such preference right and that the lands which he applies to purchase are not in the legal possession of an adverse claimant.

Upon the filing of an application to purchase any lands subject to the operation of this section, together with the required proof, the Secretary of the Interior shall cause the lands described in said application to be appraised, said appraisal to be on the basis of the value of such lands at the date of appraisal, exclusive of any increased value resulting from the development or improvement thereof for agricultural purposes by the applicant or his predecessor in interest, but inclusive of the stumpage value of any timber cut or removed by the applicant or his predecessor in interest.

An applicant who applies to purchase lands under the provisions of this section, in order to be entitled to receive a patent, must within thirty days from receipt of notice of appraisal by the Secretary of the Interior pay to the officer, as the Secretary of the Interior may designate, of the United States land office of the district in which the lands are situated the appraisal price of the lands, and thereupon a patent shall issue to said applicant for such lands as the Secretary of the

SUBCHAPTER V—OREGON AND CALIFORNIA RAILROAD AND COOS BAY WAGON ROAD GRANT LANDS

§1181a. Conservation management by Department of the Interior; permanent forest production; sale of timber; subdivision

Notwithstanding any provisions in the Acts of June 9, 1916 (39 Stat. 218), and February 26, 1919 (40 Stat. 1179), as amended, such portions of the revested Oregon and California Railroad and reconveyed Coos Bay Wagon Road grant lands as are or may hereafter come under the jurisdiction of the Department of the Interior, which have heretofore or may hereafter be classified as timberlands, and power-site lands valuable for timber, shall be managed, except as provided in section 1181c ¹ of this title, for permanent forest production, and the timber thereon shall be sold, cut, and removed in conformity with the principal ² of sustained yield for the purpose of providing a permanent source of timber supply, protecting watersheds, regulating stream flow, and contributing to the economic stability of local communities and industries, and providing recreational facilities: ³ *Provided*, That nothing in this section shall be construed to interfere with the use and development of power sites as may be authorized by law.

The annual productive capacity for such lands shall be determined and declared as promptly as possible after August 28, 1937, but until such determination and declaration are made the average annual cut therefrom shall not exceed one-half billion feet board measure: *Provided*, That timber from said lands in an amount not less than one-half billion feet board measure, or not less than the annual sustained yield capacity when the same has been determined and declared, shall be sold annually, or so much thereof as can be sold at reasonable prices on a normal market.

If the Secretary of the Interior determines that such action will facilitate sustained-yield management, he may subdivide such revested lands into sustained-yield forest units, the boundary lines of which shall be so established that a forest unit will provide, insofar as practicable, a permanent source of raw materials for the support of dependent communities and local industries of the region; but until such subdivision is made the land shall be treated as a single unit in applying the principle of sustained yield: *Provided*, That before the boundary lines of such forest units are established, the Department, after published notice thereof, shall hold a hearing thereon in the vicinity of such lands open to the attendance of State and local officers, representatives of dependent industries, residents, and other persons interested in the use of such lands. Due consideration shall be given to established lumbering operations in subdividing such lands when necessary to protect the

economic stability of dependent communities. Timber sales from a forest unit shall be limited to the productive capacity of such unit and the Secretary is authorized, in his discretion, to reject any bids which may interfere with the sustained-yield management plan of any unit.

§1181f. Oregon and California land-grant fund; annual distribution of moneys

On and after March 1, 1938, all moneys deposited in the Treasury of the United States in the special fund designated the “Oregon and California land-grant fund” shall be distributed annually as follows:

(a) Fifty per centum to the counties in which the lands revested under the Act of June 9, 1916 (39 Stat. 218), are situated, to be payable on or after June 30, 1938, and each year thereafter to each of said counties in the proportion that the total assessed value of the Oregon and California grant lands in each of said counties for the year 1915 bears to the total assessed value of all of said lands in the State of Oregon for said year, such moneys to be used as other county funds: *Provided, however*, That for the purposes of this subsection the portion of the said revested Oregon and California railroad grant lands in each of said counties which was not assessed for the year 1915 shall be deemed to have been assessed at the average assessed value of the grant lands in said county.

(b) Twenty-five per centum to said counties as money in lieu of taxes accrued or which shall accrue to them prior to March 1, 1938, under the provisions of the Act of July 13, 1926 (44 Stat. 915), and which taxes are unpaid on said date, such moneys to be paid to said counties severally by the Secretary of the Treasury of the United States, upon certification by the Secretary of the Interior, until such tax indebtedness as shall have accrued prior to March 1, 1938, is extinguished.

From and after payment of the above accrued taxes said 25 per centum shall be accredited annually to the general fund in the Treasury of the United States until all reimbursable charges against the Oregon and California land-grant fund owing to the general fund in the Treasury have been paid: *Provided*, That if for any year after the extinguishment of the tax indebtedness accruing to the counties prior to March 1, 1938, under the provisions of Forty-fourth Statutes, page 915, the total amount payable under subsection (a) of this section is less than 78 per centum of the aggregate amount of tax claims which accrued to said counties under said Act for the year 1934, there shall be additionally payable for such year such portion of said 25 per centum (but not in excess of three-fifths of said 25 per centum), as may be necessary to make up the deficiency. When the general fund in the Treasury has been fully reimbursed for the expenditures which were made charges against the Oregon and California land-grant fund said 25 per centum shall be paid annually, on or after September 30, to the several counties in the manner provided in subsection (a) of this section.

(c) Twenty-five per centum to be available for the administration of sections 1181a to 1181f of this title, in such annual amounts as the Congress shall from time to time determine. Any part of such per centum not used for administrative purposes shall be covered into the general fund of the Treasury of the United States: *Provided*, That moneys covered into the Treasury in such manner shall be used to satisfy the reimbursable charges against the Oregon and California land-grant fund mentioned in subsection (b) of this section so long as any such charges shall exist.

When used in this subchapter and subchapter II of this chapter—

(a) The term “lands beneath navigable waters” means—

(1) all lands within the boundaries of each of the respective States which are covered by nontidal waters that were navigable under the laws of the United States at the time such State became a member of the Union, or acquired sovereignty over such lands and waters thereafter, up to the ordinary high water mark as heretofore or hereafter modified by accretion, erosion, and reliction;

(2) all lands permanently or periodically covered by tidal waters up to but not above the line of mean high tide and seaward to a line three geographical miles distant from the coast line of each such State and to the boundary line of each such State where in any case such boundary as it existed at the time such State became a member of the Union, or as heretofore approved by Congress, extends seaward (or into the Gulf of Mexico) beyond three geographical miles, and

(3) all filled in, made, or reclaimed lands which formerly were lands beneath navigable waters, as hereinabove defined;

(b) The term “boundaries” includes the seaward boundaries of a State or its boundaries in the Gulf of Mexico or any of the Great Lakes as they existed at the time such State became a member of the Union, or as heretofore approved by the Congress, or as extended or confirmed pursuant to section 1312 of this title but in no event shall the term “boundaries” or the term “lands beneath navigable waters” be interpreted as extending from the coast line more than three geographical miles into the Atlantic Ocean or the Pacific Ocean, or more than three marine leagues into the Gulf of Mexico, except that any boundary between a State and the United States under this subchapter or subchapter II of this chapter which has been or is hereafter fixed by coordinates under a final decree of the United States Supreme Court shall remain immobilized at the coordinates provided under such decree and shall not be ambulatory;

(c) The term “coast line” means the line of ordinary low water along that portion of the coast which is in direct contact with the open sea and the line marking the seaward limit of inland waters;

(d) The terms “grantees” and “lessees” include (without limiting the generality thereof) all political subdivisions, municipalities, public and private corporations, and other persons holding grants or leases from a State, or from its predecessor sovereign if legally validated, to lands beneath navigable waters if such grants or leases were issued in accordance with the constitution, statutes, and decisions of the courts of the State in which such lands are situated, or of its predecessor sovereign: *Provided, however*, That nothing herein shall be construed as conferring upon said grantees or lessees any greater rights or interests other than are described herein and in their respective grants from the State, or its predecessor sovereign;

(e) The term “natural resources” includes, without limiting the generality thereof, oil, gas, and all other minerals, and fish, shrimp, oysters, clams, crabs, lobsters, sponges, kelp, and other marine animal and plant life but does not include water power, or the use of water for the production of power;

(f) The term “lands beneath navigable waters” does not include the beds of streams in lands now or heretofore constituting a part of the public lands of the United States if such streams were not meandered in connection with the public survey of such lands under the laws of the United States and if the title to the beds of such streams was lawfully patented or conveyed by the United States or any State to any person;

PROC. NO. 5928. TERRITORIAL SEA OF UNITED STATES

Proc. No. 5928, Dec. 27, 1988, 54 F.R. 777, provided:

International law recognizes that coastal nations may exercise sovereignty and jurisdiction over their territorial seas.

The territorial sea of the United States is a maritime zone extending beyond the land territory and internal waters of the United States over which the United States exercises sovereignty and jurisdiction, a sovereignty and jurisdiction that extend to the airspace over the territorial sea, as well as to its bed and subsoil.

Extension of the territorial sea by the United States to the limits permitted by international law will advance the national security and other significant interests of the United States.

NOW, THEREFORE, I, RONALD REAGAN, by the authority vested in me as President by the Constitution of the United States of America, and in accordance with international law, do hereby proclaim the extension of the territorial sea of the United States of America, the Commonwealth of Puerto Rico, Guam, American Samoa, the United States Virgin Islands, the Commonwealth of the Northern Mariana Islands, and any other territory or possession over which the United States exercises sovereignty.

The territorial sea of the United States henceforth extends to 12 nautical miles from the baselines of the United States determined in accordance with international law.

In accordance with international law, as reflected in the applicable provisions of the 1982 United Nations Convention on the Law of the Sea, within the territorial sea of the United States, the ships of all countries enjoy the right of innocent passage and the ships and aircraft of all countries enjoy the right of transit passage through international straits.

Nothing in this Proclamation:

(a) extends or otherwise alters existing Federal or State law or any jurisdiction, rights, legal interests, or obligations derived therefrom; or

(b) impairs the determination, in accordance with international law, of any maritime boundary of the United States with a foreign jurisdiction.

IN WITNESS WHEREOF, I have hereunto set my hand this 27th day of December, in the year of our Lord nineteen hundred and eighty-eight, and of the Independence of the United States of America the two hundred and thirteenth.

RONALD REAGAN.

PROC. NO. 7219. CONTIGUOUS ZONE OF THE UNITED STATES

Proc. No. 7219, Sept. 2, 1999, 64 F.R. 48701, 49844, provided:

International law recognizes that coastal nations may establish zones contiguous to their territorial seas, known as contiguous zones.

The contiguous zone of the United States is a zone contiguous to the territorial sea of the United States, in

which the United States may exercise the control necessary to prevent infringement of its customs, fiscal, immigration, or sanitary laws and regulations within its territory or territorial sea, and to punish infringement of the above laws and regulations committed within its territory or territorial sea.

Extension of the contiguous zone of the United States to the limits permitted by international law will advance the law enforcement and public health interests of the United States. Moreover, this extension is an important step in preventing the removal of cultural heritage found within 24 nautical miles of the baseline.

NOW, THEREFORE, I, WILLIAM J. CLINTON, by the authority vested in me as President by the Constitution of the United States, and in accordance with international law, do hereby proclaim the extension of the contiguous zone of the United States of America, including the Commonwealth of Puerto Rico, Guam, American Samoa, the United States Virgin Islands, the Commonwealth of the Northern Mariana Islands, and any other territory or possession over which the United States exercises sovereignty, as follows:

The contiguous zone of the United States extends to 24 nautical miles from the baselines of the United States determined in accordance with international law, but in no case within the territorial sea of another nation.

In accordance with international law, reflected in the applicable provisions of the 1982 Convention on the Law of the Sea, within the contiguous zone of the United States the ships and aircraft of all countries enjoy the high seas freedoms of navigation and overflight and the laying of submarine cables and pipelines, and other internationally lawful uses of the sea related to those freedoms, such as those associated with the operation of ships, aircraft, and submarine cables and pipelines, and compatible with the other provisions of international law reflected in the 1982 Convention on the Law of the Sea.

Nothing in this proclamation:

(a) amends existing Federal or State law;

(b) amends or otherwise alters the rights and duties of the United States or other nations in the Exclusive Economic Zone of the United States established by Proclamation 5030 of March 10, 1983 [16 U.S.C. 1453 note]; or

(c) impairs the determination, in accordance with international law, of any maritime boundary of the United States with a foreign jurisdiction.

IN WITNESS WHEREOF, I have hereunto set my hand this second day of September, in the year of our Lord nineteen hundred and ninety-nine, and of the Independence of the United States of America the two hundred and twenty-fourth.

WILLIAM J. CLINTON.

§1332. Congressional declaration of policy

It is hereby declared to be the policy of the United States that—

(1) the subsoil and seabed of the outer Continental Shelf appertain to the United States and are subject to its jurisdiction, control, and power of disposition as provided in this subchapter;

(2) this subchapter shall be construed in such a manner that the character of the waters above the outer Continental Shelf as high seas and the right to navigation and fishing therein shall not be affected;

(3) the outer Continental Shelf is a vital national resource reserve held by the Federal Government for the public, which should be made available for expeditious and orderly development, subject to environmental safeguards, in a manner which is consistent with the maintenance of competition and other national needs;

(4) since exploration, development, and production of the minerals of the outer Continental Shelf will have significant impacts on coastal and non-coastal areas of the coastal States, and on other affected States, and, in recognition of the national interest in the effective management of the marine, coastal, and human environments—

(A) such States and their affected local governments may require assistance in protecting their coastal zones and other affected areas from any temporary or permanent adverse effects of such impacts;

(B) the distribution of a portion of the receipts from the leasing of mineral resources of the outer Continental Shelf adjacent to State lands, as provided under section 1337(g) of this title, will provide affected coastal States and localities with funds which may be used for the mitigation of adverse economic and environmental effects related to the development of such resources; and

(C) such States, and through such States, affected local governments, are entitled to an opportunity to participate, to the extent consistent with the national interest, in the policy and planning decisions made by the Federal Government relating to exploration for, and development and production of, minerals of the outer Continental Shelf.¹

(5) the rights and responsibilities of all States and, where appropriate, local governments, to preserve and protect their marine, human, and coastal environments through such means as regulation of land, air, and water uses, of safety, and of related development and activity should be considered and recognized; and

(6) operations in the outer Continental Shelf should be conducted in a safe manner by well-trained personnel using technology, precautions, and techniques sufficient to prevent or minimize the likelihood of blowouts, loss of well control, fires, spillages, physical obstruction to other users of the waters or subsoil and seabed, or other occurrences which may cause damage to the environment or to property, or endanger life or health.

§1333. Laws and regulations governing lands

(a) Constitution and United States laws; laws of adjacent States; publication of projected State lines; international boundary disputes; restriction on State taxation and jurisdiction

(1) The Constitution and laws and civil and political jurisdiction of the United States are extended to the subsoil and seabed of the outer Continental Shelf and to all artificial islands, and all installations and other devices permanently or temporarily attached to the seabed, which may be erected thereon for the purpose of exploring for, developing, or producing resources therefrom, or any such installation or other device (other than a ship or vessel) for the purpose of transporting such resources, to the same extent as if the outer Continental Shelf were an area of exclusive Federal jurisdiction located within a State: *Provided, however,* That mineral leases on the outer Continental Shelf shall be maintained or issued only under the provisions of this subchapter.

(2)(A) To the extent that they are applicable and not inconsistent with this subchapter or with other Federal laws and regulations of the Secretary now in effect or hereafter adopted, the civil and criminal laws of each adjacent State, now in effect or hereafter adopted, amended, or repealed are declared to be the law of the United States for that portion of the subsoil and seabed of the outer Continental Shelf, and artificial islands and fixed structures erected thereon, which would be within the area of the State if its boundaries were extended seaward to the outer margin of the outer Continental Shelf, and the President shall determine and publish in the Federal Register such projected lines extending seaward and defining each such area. All of such applicable laws shall be administered and enforced by the appropriate officers and courts of the United States. State taxation laws shall not apply to the outer Continental Shelf.

(B) Within one year after September 18, 1978, the President shall establish procedures for setting¹ any outstanding international boundary dispute respecting the outer Continental Shelf.

(3) The provisions of this section for adoption of State law as the law of the United States shall never be interpreted as a basis for claiming any interest in or jurisdiction on behalf of any State for any purpose over the seabed and subsoil of the outer Continental Shelf, or the property and natural resources thereof or the revenues therefrom.

(b) Longshore and Harbor Workers' Compensation Act applicable; definitions

With respect to disability or death of an employee resulting from any injury occurring as the result of operations conducted on the outer Continental Shelf for the purpose of exploring for, developing, removing, or transporting by pipeline the natural resources, or involving rights to the natural resources, of the subsoil and seabed of the outer Continental Shelf, compensation shall be payable under the provisions of the Longshore and Harbor Workers' Compensation Act [33 U.S.C. 901 et seq.]. For the purposes of the extension of the provisions of the Longshore and Harbor Workers' Compensation Act under this section—

(1) the term “employee” does not include a master or member of a crew of any vessel, or an officer or employee of the United States or any agency thereof or of any State or foreign government, or of any political subdivision thereof;

(2) the term “employer” means an employer any of whose employees are employed in such operations; and

(3) the term “United States” when used in a geographical sense includes the outer Continental Shelf and artificial islands and fixed structures thereon.

(c) National Labor Relations Act applicable

For the purposes of the National Labor Relations Act, as amended [29 U.S.C. 151 et seq.], any unfair labor practice, as defined in such Act, occurring upon any artificial island, installation, or other device referred to in subsection (a) of this section shall be deemed to have occurred within the judicial district of the State, the laws of which apply to such artificial island, installation, or other device pursuant to such subsection, except that until the President determines the areas within which such State laws are applicable, the judicial district shall be that of the State nearest the place of location of such artificial island, installation, or other device.

(d) Coast Guard regulations; marking of artificial islands, installations, and other devices; failure of owner suitably to mark according to regulations

(1) The Secretary of the Department in which the Coast Guard is operating shall have authority to promulgate and enforce such reasonable regulations with respect to lights and other warning devices, safety equipment, and other matters relating to the promotion of safety of life and property on the artificial islands, installations, and other devices referred to in subsection (a) of this section or on the waters adjacent thereto, as he may deem necessary.

(2) The Secretary of the Department in which the Coast Guard is operating may mark for the protection of navigation any artificial island, installation, or other device referred to in subsection (a) of this section whenever the owner has failed suitably to mark such island, installation, or other device in accordance with regulations issued under this subchapter, and the owner shall pay the cost of such marking.

(e) Authority of Secretary of the Army to prevent obstruction to navigation

The authority of the Secretary of the Army to prevent obstruction to navigation in the navigable waters of the United States is extended to the artificial islands, installations, and other devices referred to in subsection (a) of this section.

(f) Provisions as nonexclusive

The specific application by this section of certain provisions of law to the subsoil and seabed of the outer Continental Shelf and the artificial islands, installations, and other devices referred to in subsection (a) of this section or to acts or offenses occurring or committed thereon shall not give rise to any inference that the application to such islands and structures, acts, or offenses of any other provision of law is not intended.

§1334. Administration of leasing

(a) Rules and regulations; amendment; cooperation with State agencies; subject matter and scope of regulations

The Secretary shall administer the provisions of this subchapter relating to the leasing of the outer Continental Shelf, and shall prescribe such rules and regulations as may be necessary to carry out such provisions. The Secretary may at any time prescribe and amend such rules and regulations as he determines to be necessary and proper in order to provide for the prevention of waste and conservation of the natural resources of the outer Continental Shelf, and the protection of correlative rights therein, and, notwithstanding any other provisions herein, such rules and regulations shall, as of their effective date, apply to all operations conducted under a lease issued or maintained under the provisions of this subchapter. In the enforcement of safety, environmental, and conservation laws and regulations, the Secretary shall cooperate with the relevant departments and agencies of the Federal Government and of the affected States. In the formulation and promulgation of regulations, the Secretary shall request and give due consideration to the views of the Attorney General with respect to matters which may affect competition. In considering any regulations and in preparing any such views, the Attorney General shall consult with the Federal Trade Commission. The regulations prescribed by the Secretary under this subsection shall include, but not be limited to, provisions—

(1) for the suspension or temporary prohibition of any operation or activity, including production, pursuant to any lease or permit (A) at the request of a lessee, in the national interest, to facilitate proper development of a lease or to allow for the construction or negotiation for use of transportation facilities, or (B) if there is a threat of serious, irreparable, or immediate harm or damage to life (including fish and other aquatic life), to property, to any mineral deposits (in areas leased or not leased), or to the marine, coastal, or human environment, and for the extension of any permit or lease affected by suspension or prohibition under clause (A) or (B) by a period equivalent to the period of such suspension or prohibition, except that no permit or lease shall be so extended when such suspension or prohibition is the result of gross negligence or willful violation of such lease or permit, or of regulations issued with respect to such lease or permit;

(2) with respect to cancellation of any lease or permit—

(A) that such cancellation may occur at any time, if the Secretary determines, after a hearing, that—

(i) continued activity pursuant to such lease or permit would probably cause serious harm or damage to life (including fish and other aquatic life), to property, to any mineral (in areas leased or not leased), to the national security or defense, or to the marine, coastal, or human environment;

(ii) the threat of harm or damage will not disappear or decrease to an acceptable extent within a reasonable period of time; and

(iii) the advantages of cancellation outweigh the advantages of continuing such lease or permit force;

(B) that such cancellation shall not occur unless and until operations under such lease or permit shall have been under suspension, or temporary prohibition, by the Secretary, with due extension of any lease or permit term continuously for a period of five years, or for a lesser period upon request of the lessee;

(C) that such cancellation shall entitle the lessee to receive such compensation as he shows to the Secretary as being equal to the lesser of (i) the fair value of the canceled rights as of the date of cancellation, taking account of both anticipated revenues from the lease and anticipated costs, including costs of compliance with all applicable regulations and operating orders, liability for cleanup costs or damages, or both, in the case of an oilspill, and all other costs reasonably anticipated on the lease, or (ii) the excess, if any, over the lessee's revenues, from the lease (plus interest thereon from the date of receipt to date of reimbursement) of all consideration paid for the lease and all direct expenditures made by the lessee after the date of issuance of such lease and in connection with exploration or development, or both, pursuant to the lease (plus interest on such consideration and such expenditures from date of payment to date of reimbursement), except that (I) with respect to leases issued before September 18, 1978, such compensation shall be equal to the amount specified in clause (i) of this subparagraph; and (II) in the case of joint leases which are canceled due to the failure of one or more partners to exercise due diligence, the innocent parties shall have the right to seek damages for such loss from the responsible party or parties and the right to acquire the interests of the negligent party or parties and be issued the lease in question;

(3) for the assignment or relinquishment of a lease;

(4) for unitization, pooling, and drilling agreements;

(5) for the subsurface storage of oil and gas from any source other than by the Federal Government;

(6) for drilling or easements necessary for exploration, development, and production;

(7) for the prompt and efficient exploration and development of a lease area; and

(8) for compliance with the national ambient air quality standards pursuant to the Clean Air Act (42 U.S.C. 7401 et seq.), to the extent that activities authorized under this subchapter significantly affect the air quality of any State.

(b) Compliance with regulations as condition for issuance, continuation, assignment, or other transfer of leases

The issuance and continuance in effect of any lease, or of any assignment or other transfer of any lease, under the provisions of this subchapter shall be conditioned upon compliance with regulations issued under this subchapter.

(c) Cancellation of nonproducing lease

Whenever the owner of a nonproducing lease fails to comply with any of the provisions of this subchapter, or of the lease, or of the regulations issued under this subchapter, such lease may be canceled by the Secretary, subject to the right of judicial review as provided in this subchapter, if such default continues for the period of thirty days after mailing of notice by registered letter to the lease owner at his record post office address.

(d) Cancellation of producing lease

Whenever the owner of any producing lease fails to comply with any of the provisions of this subchapter, or of the lease, or of the regulations issued under this subchapter, such lease may be forfeited and canceled by an appropriate proceeding in any United States district court having jurisdiction under the provisions of this subchapter.

(e) Pipeline rights-of-way; forfeiture of grant

Rights-of-way through the submerged lands of the outer Continental Shelf, whether or not such lands are included in a lease maintained or issued pursuant to this subchapter, may be granted by the Secretary for pipeline purposes for the transportation of oil, natural gas, sulphur, or other minerals, or under such regulations and upon such conditions as may be prescribed by the Secretary, or where appropriate the Secretary of Transportation, including (as provided in section 1347(b) of this title) assuring maximum environmental protection by utilization of the best available and safest technologies, including the safest practices for pipeline burial and upon the express condition that oil or gas pipelines shall transport or purchase without discrimination, oil or natural gas produced from

submerged lands or outer Continental Shelf lands in the vicinity of the pipelines in such proportionate amounts as the Federal Energy Regulatory Commission, in consultation with the Secretary of Energy, may, after a full hearing with due notice thereof to the interested parties, determine to be reasonable, taking into account, among other things, conservation and the prevention of waste. Failure to comply with the provisions of this section or the regulations and conditions prescribed under this section shall be grounds for forfeiture of the grant in an appropriate judicial proceeding instituted by the United States in any United States district court having jurisdiction under the provisions of this subchapter.

(f) Competitive principles governing pipeline operation

(1) Except as provided in paragraph (2), every permit, license, easement, right-of-way, or other grant of authority for the transportation by pipeline on or across the outer Continental Shelf of oil or gas shall require that the pipeline be operated in accordance with the following competitive principles:

(A) The pipeline must provide open and nondiscriminatory access to both owner and nonowner shippers.

(B) Upon the specific request of one or more owner or nonowner shippers able to provide a guaranteed level of throughput, and on the condition that the shipper or shippers requesting such expansion shall be responsible for bearing their proportionate share of the costs and risks related thereto, the Federal Energy Regulatory Commission may, upon finding, after a full hearing with due notice thereof to the interested parties, that such expansion is within technological limits and economic feasibility, order a subsequent expansion of throughput capacity of any pipeline for which the permit, license, easement, right-of-way, or other grant of authority is approved or issued after September 18, 1978. This subparagraph ¹ shall not apply to any such grant of authority approved or issued for the Gulf of Mexico or the Santa Barbara Channel.

(2) The Federal Energy Regulatory Commission may, by order or regulation, exempt from any or all of the requirements of paragraph (1) of this subsection any pipeline or class of pipelines which feeds into a facility where oil and gas are first collected or a facility where oil and gas are first separated, dehydrated, or otherwise processed.

(3) The Secretary of Energy and the Federal Energy Regulatory Commission shall consult with and give due consideration to the views of the Attorney General on specific conditions to be included in any permit, license, easement, right-of-way, or grant of authority in order to ensure that pipelines are operated in accordance with the competitive principles set forth in paragraph (1) of this subsection. In preparing any such views, the Attorney General shall consult with the Federal Trade Commission.

(4) Nothing in this subsection shall be deemed to limit, abridge, or modify any authority of the United States under any other provision of law with respect to pipelines on or across the outer Continental Shelf.

(g) Rates of production

(1) The leasee ² shall produce any oil or gas, or both, obtained pursuant to an approved development and production plan, at rates consistent with any rule or order issued by the President in accordance with any provision of law.

(2) If no rule or order referred to in paragraph (1) has been issued, the lessee shall produce such oil or gas, or both, at rates consistent with any regulation promulgated by the Secretary of Energy which is to assure the maximum rate of production which may be sustained without loss of ultimate recovery of oil or gas, or both, under sound engineering and economic principles, and which is safe for the duration of the activity covered by the approved plan. The Secretary may permit the lessee to vary such rates if he finds that such variance is necessary.

(h) Federal action affecting outer Continental Shelf; notification; recommended changes

The head of any Federal department or agency who takes any action which has a direct and significant effect on the outer Continental Shelf or its development shall promptly notify the

Secretary of such action and the Secretary shall thereafter notify the Governor of any affected State and the Secretary may thereafter recommend such changes in such action as are considered appropriate.

(i) Flaring of natural gas

After September 18, 1978, no holder of any oil and gas lease issued or maintained pursuant to this subchapter shall be permitted to flare natural gas from any well unless the Secretary finds that there is no practicable way to complete production of such gas, or that such flaring is necessary to alleviate a temporary emergency situation or to conduct testing or work-over operations.

(j) Cooperative development of common hydrocarbon-bearing areas

(1) Findings

(A) ³ The Congress of the United States finds that the unrestrained competitive production of hydrocarbons from a common hydrocarbon-bearing geological area underlying the Federal and State boundary may result in a number of harmful national effects, including—

(i) the drilling of unnecessary wells, the installation of unnecessary facilities and other imprudent operating practices that result in economic waste, environmental damage, and damage to life and property;

(ii) the physical waste of hydrocarbons and an unnecessary reduction in the amounts of hydrocarbons that can be produced from certain hydrocarbon-bearing areas; and

(iii) the loss of correlative rights which can result in the reduced value of national hydrocarbon resources and disorders in the leasing of Federal and State resources.

(2) Prevention of harmful effects

The Secretary shall prevent, through the cooperative development of an area, the harmful effects of unrestrained competitive production of hydrocarbons from a common hydrocarbon-bearing area underlying the Federal and State boundary.

§1335. Validation and maintenance of prior leases

(a) Requirements for validation

The provisions of this section shall apply to any mineral lease covering submerged lands of the outer Continental Shelf issued by any State (including any extension, renewal, or replacement thereof heretofore granted pursuant to such lease or under the laws of such State) if—

(1) such lease, or a true copy thereof, is filed with the Secretary by the lessee or his duly authorized agent within ninety days from August 7, 1953, or within such further period or periods as provided in section 1336 of this title or as may be fixed from time to time by the Secretary;

(2) such lease was issued prior to December 21, 1948, and would have been on June 5, 1950, in force and effect in accordance with its terms and provisions and the law of the State issuing it had the State had the authority to issue such lease;

(3) there is filed with the Secretary, within the period or periods specified in paragraph (1) of this subsection, (A) a certificate issued by the State official or agency having jurisdiction over such lease stating that it would have been in force and effect as required by the provisions of paragraph (2) of this subsection, or (B) in the absence of such certificate, evidence in the form of affidavits, receipts, canceled checks, or other documents that may be required by the Secretary, sufficient to prove that such lease would have been so in force and effect;

(4) except as otherwise provided in section 1336 of this title hereof, all rents, royalties, and other sums payable under such lease between June 5, 1950, and August 7, 1953, which have not been paid in accordance with the provisions thereof, or to the Secretary or to the Secretary of the Navy, are paid to the Secretary within the period or periods specified in paragraph (1) of this subsection, and all rents, royalties, and other sums payable under such lease after August 7, 1953, are paid to the Secretary, who shall deposit such payments in the Treasury in accordance with section 1338 of this title;

(5) the holder of such lease certifies that such lease shall continue to be subject to the overriding royalty obligations existing on August 7, 1953;

(6) such lease was not obtained by fraud or misrepresentation;

(7) such lease, if issued on or after June 23, 1947, was issued upon the basis of competitive bidding;

(8) such lease provides for a royalty to the lessor on oil and gas of not less than 12½ per centum and on sulphur of not less than 5 per centum in amount or value of the production saved, removed, or sold from the lease, or, in any case in which the lease provides for a lesser royalty, the holder thereof consents in writing, filed with the Secretary, to the increase of the royalty to the minimum herein specified;

(9) the holder thereof pays to the Secretary within the period or periods specified in paragraph (1) of this subsection an amount equivalent to any severance, gross production, or occupation taxes imposed by the State issuing the lease on the production from the lease, less the State's royalty interest in such production, between June 5, 1950, and August 7, 1953 and not heretofore paid to the State, and thereafter pays to the Secretary as an additional royalty on the production from the lease, less the United States' royalty interest in such production, a sum of money equal to the amount of the severance, gross production, or occupation taxes which would have been payable on such production to the State issuing the lease under its laws as they existed on August 7, 1953;

(10) such lease will terminate within a period of not more than five years from August 7, 1953 in the absence of production or operations for drilling, or, in any case in which the lease provides for a longer period, the holder thereof consents in writing, filed with the Secretary, to the reduction of such period so that it will not exceed the maximum period herein specified; and

(11) the holder of such lease furnishes such surety bond, if any, as the Secretary may require and complies with such other reasonable requirements as the Secretary may deem necessary to protect the interests of the United States.

(b) Conduct of operations under lease; sulphur rights

Any person holding a mineral lease, which as determined by the Secretary meets the requirements of subsection (a) of this section, may continue to maintain such lease, and may conduct operations thereunder, in accordance with (1) its provisions as to the area, the minerals covered, rentals and, subject to the provisions of paragraphs (8)–(10) of subsection (a) of this section, as to royalties and as to the term thereof and of any extensions, renewals, or replacements authorized therein or heretofore authorized by the laws of the State issuing such lease, or, if oil or gas was not being produced in paying quantities from such lease on or before December 11, 1950, or if production in paying quantities has ceased since June 5, 1950, or if the primary term of such lease has expired since December 11, 1950, then for a term from August 7, 1953 equal to the term remaining unexpired on December 11, 1950, under the provisions of such lease or any extensions, renewals, or replacements authorized therein, or heretofore authorized by the laws of such State, and (2) such regulations as the Secretary may under section 1334 of this title prescribe within ninety days after making his determination that such lease meets the requirements of subsection (a) of this section:

Provided, however, That any rights to sulphur under any lease maintained under the provisions of this subsection shall not extend beyond the primary term of such lease or any extension thereof under the provisions of this subsection unless sulphur is being produced in paying quantities or drilling, well reworking, plant construction, or other operations for the production of sulphur, as approved by the Secretary, are being conducted on the area covered by such lease on the date of expiration of such primary term or extension: *Provided further,* That if sulphur is being produced in paying quantities on such date, then such rights shall continue to be maintained in accordance with such lease and the provisions of this subchapter: *Provided further,* That, if the primary term of a lease being maintained under this subsection has expired prior to August 7, 1953 and oil or gas is being produced in paying quantities on such date, then such rights to sulphur as the lessee may have under such lease shall continue for twenty-four months from August 7, 1953 and as long thereafter as sulphur is produced in paying quantities, or drilling, well working, plant construction, or other operations for the production of sulphur, as approved by the Secretary, are being conducted on the area covered by the lease.

(c) Nonwaiver of United States claims

The permission granted in subsection (b) of this section shall not be construed to be a waiver of such claims, if any, as the United States may have against the lessor or the lessee or any other person respecting sums payable or paid for or under the lease, or respecting activities conducted under the lease, prior to August 7, 1953.

(d) Judicial review of determination

Any person complaining of a negative determination by the Secretary of the Interior under this section may have such determination reviewed by the United States District Court for the District of Columbia by filing a petition for review within sixty days after receiving notice of such action by the Secretary.

(e) Lands beneath navigable waters

In the event any lease maintained under this section covers lands beneath navigable waters, as that term is used in the Submerged Lands Act [43 U.S.C. 1301 et seq.], as well as lands of the outer Continental Shelf, the provisions of this section shall apply to such lease only insofar as it covers lands of the outer Continental Shelf.

§1336. Controversies over jurisdiction; agreements; payments; final settlement or adjudication; approval of notice concerning oil and gas operations in Gulf of Mexico

In the event of a controversy between the United States and a State as to whether or not lands are subject to the provisions of this subchapter, the Secretary is authorized, notwithstanding the

provisions of section 1335(a) and (b) of this title and with the concurrence of the Attorney General of the United States, to negotiate and enter into agreements with the State, its political subdivision or grantee or a lessee thereof, respecting operations under existing mineral leases and payment and impounding of rents, royalties, and other sums payable thereunder, or with the State, its political subdivision or grantee, respecting the issuance or nonissuance of new mineral leases pending the settlement or adjudication of the controversy. The authorization contained in the preceding sentence of this section shall not be construed to be a limitation upon the authority conferred on the Secretary in other sections of this subchapter. Payments made pursuant to such agreement, or pursuant to any stipulation between the United States and a State, shall be considered as compliance with section 1335(a)(4) of this title. Upon the termination of such agreement or stipulation by reason of the final settlement or adjudication of such controversy, if the lands subject to any mineral lease are determined to be in whole or in part lands subject to the provisions of this subchapter, the lessee, if he has not already done so, shall comply with the requirements of section 1335(a) of this title, and thereupon the provisions of section 1335(b) of this title shall govern such lease. §1337. Leases, easements, and rights-of-way on the outer Continental Shelf

(a) Oil and gas leases; award to highest responsible qualified bidder; method of bidding; royalty relief; Congressional consideration of bidding system; notice

(1) The Secretary is authorized to grant to the highest responsible qualified bidder or bidders by competitive bidding, under regulations promulgated in advance, any oil and gas lease on submerged lands of the outer Continental Shelf which are not covered by leases meeting the requirements of subsection (a) of section 1335 of this title. Such regulations may provide for the deposit of cash bids in an interest-bearing account until the Secretary announces his decision on whether to accept the bids, with the interest earned thereon to be paid to the Treasury as to bids that are accepted and to the unsuccessful bidders as to bids that are rejected. The bidding shall be by sealed bid and, at the discretion of the Secretary, on the basis of—

(A) cash bonus bid with a royalty at not less than 12½ per centum fixed by the Secretary in amount or value of the production saved, removed, or sold;

(B) variable royalty bid based on a per centum in amount or value of the production saved, removed, or sold, with either a fixed work commitment based on dollar amount for exploration or a fixed cash bonus as determined by the Secretary, or both;

(C) cash bonus bid, or work commitment bid based on a dollar amount for exploration with a fixed cash bonus, and a diminishing or sliding royalty based on such formulae as the Secretary shall determine as equitable to encourage continued production from the lease area as resources

diminish, but not less than 12½ per centum at the beginning of the lease period in amount or value of the production saved, removed, or sold;

(D) cash bonus bid with a fixed share of the net profits of no less than 30 per centum to be derived from the production of oil and gas from the lease area;

(E) fixed cash bonus with the net profit share reserved as the bid variable;

(F) cash bonus bid with a royalty at no less than 12½ per centum fixed by the Secretary in amount or value of the production saved, removed, or sold and a fixed per centum share of net profits of no less than 30 per centum to be derived from the production of oil and gas from the lease area;

(G) work commitment bid based on a dollar amount for exploration with a fixed cash bonus and a fixed royalty in amount or value of the production saved, removed, or sold;

(H) cash bonus bid with royalty at no less than 12 and ½ per centum fixed by the Secretary in amount or value of production saved, removed, or sold, and with suspension of royalties for a period, volume, or value of production determined by the Secretary, which suspensions may vary based on the price of production from the lease; or

(I) subject to the requirements of paragraph (4) of this subsection, any modification of bidding systems authorized in subparagraphs (A) through (G), or any other systems of bid variables, terms, and conditions which the Secretary determines to be useful to accomplish the purposes and policies of this subchapter, except that no such bidding system or modification shall have more than one bid variable.

(2) The Secretary may, in his discretion, defer any part of the payment of the cash bonus, as authorized in paragraph (1) of this subsection, according to a schedule announced at the time of the announcement of the lease sale, but such payment shall be made in total no later than five years after the date of the lease sale.

(3)(A) The Secretary may, in order to promote increased production on the lease area, through direct, secondary, or tertiary recovery means, reduce or eliminate any royalty or net profit share set forth in the lease for such area.

(B) In the Western and Central Planning Areas of the Gulf of Mexico and the portion of the Eastern Planning Area of the Gulf of Mexico encompassing whole lease blocks lying west of 87 degrees, 30 minutes West longitude and in the Planning Areas offshore Alaska, the Secretary may, in order to—

(i) promote development or increased production on producing or non-producing leases; or

(ii) encourage production of marginal resources on producing or non-producing leases;

through primary, secondary, or tertiary recovery means, reduce or eliminate any royalty or net profit share set forth in the lease(s). With the lessee's consent, the Secretary may make other modifications to the royalty or net profit share terms of the lease in order to achieve these purposes.

(C)(i) Notwithstanding the provisions of this subchapter other than this subparagraph, with respect to any lease or unit in existence on November 28, 1995, meeting the requirements of this subparagraph, no royalty payments shall be due on new production, as defined in clause (iv) of this subparagraph, from any lease or unit located in water depths of 200 meters or greater in the Western and Central Planning Areas of the Gulf of Mexico, including that portion of the Eastern Planning Area of the Gulf of Mexico encompassing whole lease blocks lying west of 87 degrees, 30 minutes West longitude, until such volume of production as determined pursuant to clause (ii) has been produced by the lessee.

(ii) Upon submission of a complete application by the lessee, the Secretary shall determine within 180 days of such application whether new production from such lease or unit would be economic in the absence of the relief from the requirement to pay royalties provided for by clause (i) of this subparagraph. In making such determination, the Secretary shall consider the increased technological and financial risk of deep water development and all costs associated with exploring, developing, and producing from the lease. The lessee shall provide information required for a complete application to the Secretary prior to such determination. The Secretary shall clearly define the

information required for a complete application under this section. Such application may be made on the basis of an individual lease or unit. If the Secretary determines that such new production would be economic in the absence of the relief from the requirement to pay royalties provided for by clause (i) of this subparagraph, the provisions of clause (i) shall not apply to such production. If the Secretary determines that such new production would not be economic in the absence of the relief from the requirement to pay royalties provided for by clause (i), the Secretary must determine the volume of production from the lease or unit on which no royalties would be due in order to make such new production economically viable; except that for new production as defined in clause (iv)(I), in no case will that volume be less than 17.5 million barrels of oil equivalent in water depths of 200 to 400 meters, 52.5 million barrels of oil equivalent in 400–800 meters of water, and 87.5 million barrels of oil equivalent in water depths greater than 800 meters. Redetermination of the applicability of clause (i) shall be undertaken by the Secretary when requested by the lessee prior to the commencement of the new production and upon significant change in the factors upon which the original determination was made. The Secretary shall make such redetermination within 120 days of submission of a complete application. The Secretary may extend the time period for making any determination or redetermination under this clause for 30 days, or longer if agreed to by the applicant, if circumstances so warrant. The lessee shall be notified in writing of any determination or redetermination and the reasons for and assumptions used for such determination. Any determination or redetermination under this clause shall be a final agency action. The Secretary's determination or redetermination shall be judicially reviewable under section 702 of title 5, only for actions filed within 30 days of the Secretary's determination or redetermination.

(iii) In the event that the Secretary fails to make the determination or redetermination called for in clause (ii) upon application by the lessee within the time period, together with any extension thereof, provided for by clause (ii), no royalty payments shall be due on new production as follows:

(I) For new production, as defined in clause (iv)(I) of this subparagraph, no royalty shall be due on such production according to the schedule of minimum volumes specified in clause (ii) of this subparagraph.

(II) For new production, as defined in clause (iv)(II) of this subparagraph, no royalty shall be due on such production for one year following the start of such production.

(iv) For purposes of this subparagraph, the term “new production” is—

(I) any production from a lease from which no royalties are due on production, other than test production, prior to November 28, 1995; or

(II) any production resulting from lease development activities pursuant to a Development Operations Coordination Document, or supplement thereto that would expand production significantly beyond the level anticipated in the Development Operations Coordination Document, approved by the Secretary after November 28, 1995.

(v) During the production of volumes determined pursuant to clauses ¹(ii) or (iii) of this subparagraph, in any year during which the arithmetic average of the closing prices on the New York Mercantile Exchange for light sweet crude oil exceeds \$28.00 per barrel, any production of oil will be subject to royalties at the lease stipulated royalty rate. Any production subject to this clause shall be counted toward the production volume determined pursuant to clause (ii) or (iii). Estimated royalty payments will be made if such average of the closing prices for the previous year exceeds \$28.00. After the end of the calendar year, when the new average price can be calculated, lessees will pay any royalties due, with interest but without penalty, or can apply for a refund, with interest, of any overpayment.

(vi) During the production of volumes determined pursuant to clause (ii) or (iii) of this subparagraph, in any year during which the arithmetic average of the closing prices on the New York Mercantile Exchange for natural gas exceeds \$3.50 per million British thermal units, any production of natural gas will be subject to royalties at the lease stipulated royalty rate. Any production subject to this clause shall be counted toward the production volume determined pursuant to clauses ¹(ii) or (iii). Estimated royalty payments will be made if such average of the closing prices for the previous

year exceeds \$3.50. After the end of the calendar year, when the new average price can be calculated, lessees will pay any royalties due, with interest but without penalty, or can apply for a refund, with interest, of any overpayment.

(vii) The prices referred to in clauses (v) and (vi) of this subparagraph shall be changed during any calendar year after 1994 by the percentage, if any, by which the implicit price deflator for the gross domestic product changed during the preceding calendar year.

(4)(A) The Secretary of Energy shall submit any bidding system authorized in subparagraph (H) of paragraph (1) to the Senate and House of Representatives. The Secretary may institute such bidding system unless either the Senate or the House of Representatives passes a resolution of disapproval within thirty days after receipt of the bidding system.

(B) Subparagraphs (C) through (J) of this paragraph are enacted by Congress—

(i) as an exercise of the rulemaking power of the Senate and the House of Representatives, respectively, and as such they are deemed a part of the rules of each House, respectively, but they are applicable only with respect to the procedures to be followed in that House in the case of resolutions described by this paragraph, and they supersede other rules only to the extent that they are inconsistent therewith; and

(ii) with full recognition of the constitutional right of either House to change the rules (so far as relating to the procedure of that House) at any time, in the same manner, and to the same extent as in the case of any other rule of that House.

(C) A resolution disapproving a bidding system submitted pursuant to this paragraph shall immediately be referred to a committee (and all resolutions with respect to the same request shall be referred to the same committee) by the President of the Senate or the Speaker of the House of Representatives, as the case may be.

(D) If the committee to which has been referred any resolution disapproving the bidding system of the Secretary has not reported the resolution at the end of ten calendar days after its referral, it shall be in order to move either to discharge the committee from further consideration of the resolution or to discharge the committee from further consideration of any other resolution with respect to the same bidding system which has been referred to the committee.

(E) A motion to discharge may be made only by an individual favoring the resolution, shall be highly privileged (except that it may not be made after the committee has reported a resolution with respect to the same recommendation), and debate thereon shall be limited to not more than one hour, to be divided equally between those favoring and those opposing the resolution. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion is agreed to or disagreed to.

(F) If the motion to discharge is agreed to or disagreed to, the motion may not be renewed, nor may another motion to discharge the committee be made with respect to any other resolution with respect to the same bidding system.

(G) When the committee has reported, or has been discharged from further consideration of, a resolution as provided in this paragraph, it shall be at any time thereafter in order (even though a previous motion to the same effect has been disagreed to) to move to proceed to the consideration of the resolution. The motion shall be highly privileged and shall not be debatable. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion is agreed to or disagreed to.

(H) Debate on the resolution is limited to not more than two hours, to be divided equally between those favoring and those opposing the resolution. A motion further to limit debate is not debatable. An amendment to, or motion to recommit, the resolution is not in order, and it is not in order to move to reconsider the vote by which the resolution is agreed to or disagreed to.

(I) Motions to postpone, made with respect to the discharge from the committee, or the consideration of a resolution with respect to a bidding system, and motions to proceed to the consideration of other business, shall be decided without debate.

(J) Appeals from the decisions of the Chair relating to the application of the rules of the Senate or the House of Representatives, as the case may be, to the procedure relating to a resolution with

respect to a bidding system shall be decided without debate.

(5)(A) During the five-year period commencing on September 18, 1978, the Secretary may, in order to obtain statistical information to determine which bidding alternatives will best accomplish the purposes and policies of this subchapter, require, as to no more than 10 per centum of the tracts offered each year, each bidder to submit bids for any area of the outer Continental Shelf in accordance with more than one of the bidding systems set forth in paragraph (1) of this subsection. For such statistical purposes, leases may be awarded using a bidding alternative selected at random for the acquisition of valid statistical data if such bidding alternative is otherwise consistent with the provisions of this subchapter.

(B) The bidding systems authorized by paragraph (1) of this subsection, other than the system authorized by subparagraph (A), shall be applied to not less than 20 per centum and not more than 60 per centum of the total area offered for leasing each year during the five-year period beginning on September 18, 1978, unless the Secretary determines that the requirements set forth in this subparagraph are inconsistent with the purposes and policies of this subchapter.

(6) At least ninety days prior to notice of any lease sale under subparagraph (D), (E), (F), or, if appropriate, (H) of paragraph (1), the Secretary shall by regulation establish rules to govern the calculation of net profits. In the event of any dispute between the United States and a lessee concerning the calculation of the net profits under the regulation issued pursuant to this paragraph, the burden of proof shall be on the lessee.

(7) After an oil and gas lease is granted pursuant to any of the work commitment options of paragraph (1) of this subsection—

(A) the lessee, at its option, shall deliver to the Secretary upon issuance of the lease either (i) a cash deposit for the full amount of the exploration work commitment, or (ii) a performance bond in form and substance and with a surety satisfactory to the Secretary, in the principal amount of such exploration work commitment assuring the Secretary that such commitment shall be faithfully discharged in accordance with this section, regulations, and the lease; and for purposes of this subparagraph, the principal amount of such cash deposit or bond may, in accordance with regulations, be periodically reduced upon proof, satisfactory to the Secretary, that a portion of the exploration work commitment has been satisfied;

(B) 50 per centum of all exploration expenditures on, or directly related to, the lease, including, but not limited to (i) geological investigations and related activities, (ii) geophysical investigations including seismic, geomagnetic, and gravity surveys, data processing and interpretation, and (iii) exploratory drilling, core drilling, redrilling, and well completion or abandonment, including the drilling of wells sufficient to determine the size and a real extent of any newly discovered field, and including the cost of mobilization and demobilization of drilling equipment, shall be included in satisfaction of the commitment, except that the lessee's general overhead cost shall not be so included against the work commitment, but its cost (including employee benefits) of employees directly assigned to such exploration work shall be so included; and

(C) if at the end of the primary term of the lease, including any extension thereof, the full dollar amount of the exploration work commitment has not been satisfied, the balance shall then be paid in cash to the Secretary.

(8) Not later than thirty days before any lease sale, the Secretary shall submit to the Congress and publish in the Federal Register a notice—

(A) identifying any bidding system which will be utilized for such lease sale and the reasons for the utilization of such bidding system; and

(B) designating the lease tracts selected which are to be offered in such sale under the bidding system authorized by subparagraph (A) of paragraph (1) and the lease tracts selected which are to be offered under any one or more of the bidding systems authorized by subparagraphs (B) through (H) of paragraph (1), and the reasons such lease tracts are to be offered under a particular bidding system.

(b) Terms and provisions of oil and gas leases

An oil and gas lease issued pursuant to this section shall—

(1) be for a tract consisting of a compact area not exceeding five thousand seven hundred and sixty acres, as the Secretary may determine, unless the Secretary finds that a larger area is necessary to comprise a reasonable economic production unit;

(2) be for an initial period of—

(A) five years; or

(B) not to exceed ten years where the Secretary finds that such longer period is necessary to encourage exploration and development in areas because of unusually deep water or other unusually adverse conditions,

and as long after such initial period as oil or gas is produced from the area in paying quantities, or drilling or well reworking operations as approved by the Secretary are conducted thereon;

(3) require the payment of amount or value as determined by one of the bidding systems set forth in subsection (a) of this section;

(4) entitle the lessee to explore, develop, and produce the oil and gas contained within the lease area, conditioned upon due diligence requirements and the approval of the development and production plan required by this subchapter;

(5) provide for suspension or cancellation of the lease during the initial lease term or thereafter pursuant to section 1334 of this title;

(6) contain such rental and other provisions as the Secretary may prescribe at the time of offering the area for lease; and

(7) provide a requirement that the lessee offer 20 per centum of the crude oil, condensate, and natural gas liquids produced on such lease, at the market value and point of delivery applicable to Federal royalty oil, to small or independent refiners as defined in the Emergency Petroleum Allocation Act of 1973 ² [15 U.S.C. 751 et seq.].

(c) Antitrust review of lease sales

(1) Following each notice of a proposed lease sale and before the acceptance of bids and the issuance of leases based on such bids, the Secretary shall allow the Attorney General, in consultation with the Federal Trade Commission, thirty days to review the results of such lease sale, except that the Attorney General, after consultation with the Federal Trade Commission, may agree to a shorter review period.

(2) The Attorney General may, in consultation with the Federal Trade Commission, conduct such antitrust review on the likely effects the issuance of such leases would have on competition as the Attorney General, after consultation with the Federal Trade Commission, deems appropriate and shall advise the Secretary with respect to such review. The Secretary shall provide such information as the Attorney General, after consultation with the Federal Trade Commission, may require in order to conduct any antitrust review pursuant to this paragraph and to make recommendations pursuant to paragraph (3) of this subsection.

(3) The Attorney General, after consultation with the Federal Trade Commission, may make such recommendations to the Secretary, including the nonacceptance of any bid, as may be appropriate to prevent any situation inconsistent with the antitrust laws. If the Secretary determines, or if the Attorney General advises the Secretary, after consultation with the Federal Trade Commission and prior to the issuance of any lease, that such lease may create or maintain a situation inconsistent with the antitrust laws, the Secretary may—

(A) refuse (i) to accept an otherwise qualified bid for such lease, or (ii) to issue such lease, notwithstanding subsection (a) of this section; or

(B) issue such lease, and notify the lessee and the Attorney General of the reason for such decision.

(4)(A) Nothing in this subsection shall restrict the power under any other Act or the common law of the Attorney General, the Federal Trade Commission, or any other Federal department or agency to secure information, conduct reviews, make recommendations, or seek appropriate relief.

(B) Neither the issuance of a lease nor anything in this subsection shall modify or abridge any

private right of action under the antitrust laws.

(d) Due diligence

No bid for a lease may be submitted if the Secretary finds, after notice and hearing, that the bidder is not meeting due diligence requirements on other leases.

(e) Secretary's approval for sale, exchange, assignment, or other transfer of leases

No lease issued under this subchapter may be sold, exchanged, assigned, or otherwise transferred except with the approval of the Secretary. Prior to any such approval, the Secretary shall consult with and give due consideration to the views of the Attorney General.

(f) Antitrust immunity or defenses

Nothing in this subchapter shall be deemed to convey to any person, association, corporation, or other business organization immunity from civil or criminal liability, or to create defenses to actions, under any antitrust law.

(g) Leasing of lands within three miles of seaward boundaries of coastal States; deposit of revenues; distribution of revenues

(1) At the time of soliciting nominations for the leasing of lands containing tracts wholly or partially within three nautical miles of the seaward boundary of any coastal State, and subsequently as new information is obtained or developed by the Secretary, the Secretary shall, in addition to the information required by section 1352 of this title, provide the Governor of such State—

(A) an identification and schedule of the areas and regions proposed to be offered for leasing;

(B) at the request of the Governor of such State, all information from all sources concerning the geographical, geological, and ecological characteristics of such tracts;

(C) an estimate of the oil and gas reserves in the areas proposed for leasing; and

(D) at the request of the Governor of such State, an identification of any field, geological structure, or trap located wholly or partially within three nautical miles of the seaward boundary of such coastal State, including all information relating to the entire field, geological structure, or trap.

The provisions of the first sentence of subsection (c) and the provisions of subsections (e)–(h) of section 1352 of this title shall be applicable to the release by the Secretary of any information to any coastal State under this paragraph. In addition, the provisions of subsections (c) and (e)–(h) of section 1352 of this title shall apply in their entirety to the release by the Secretary to any coastal State of any information relating to Federal lands beyond three nautical miles of the seaward boundary of such coastal State.

(2) Notwithstanding any other provision of this subchapter, the Secretary shall deposit into a separate account in the Treasury of the United States all bonuses, rents, and royalties, and other revenues (derived from any bidding system authorized under subsection (a)(1) of this section), excluding Federal income and windfall profits taxes, and derived from any lease issued after September 18, 1978 of any Federal tract which lies wholly (or, in the case of Alaska, partially until seven years from the date of settlement of any boundary dispute that is the subject of an agreement under section 1336 of this title entered into prior to January 1, 1986 or until April 15, 1993 with respect to any other tract) within three nautical miles of the seaward boundary of any coastal State, or, (except as provided above for Alaska) in the case where a Federal tract lies partially within three nautical miles of the seaward boundary, a percentage of bonuses, rents, royalties, and other revenues (derived from any bidding system authorized under subsection (a)(1) of this section), excluding Federal income and windfall profits taxes, and derived from any lease issued after September 18, 1978 of such tract equal to the percentage of surface acreage of the tract that lies within such three nautical miles. Except as provided in paragraph (5) of this subsection, not later than the last business day of the month following the month in which those revenues are deposited in the Treasury, the Secretary shall transmit to such coastal State 27 percent of those revenues, together with all accrued interest thereon. The remaining balance of such revenues shall be transmitted simultaneously to the miscellaneous receipts account of the Treasury of the United States.

(3) Whenever the Secretary or the Governor of a coastal State determines that a common potentially hydrocarbon-bearing area may underlie the Federal and State boundary, the Secretary or the Governor shall notify the other party in writing of his determination and the Secretary shall provide to the Governor notice of the current and projected status of the tract or tracts containing the common potentially hydrocarbon-bearing area. If the Secretary has leased or intends to lease such tract or tracts, the Secretary and the Governor of the coastal State may enter into an agreement to divide the revenues from production of any common potentially hydrocarbon-bearing area, by unitization or other royalty sharing agreement, pursuant to existing law. If the Secretary and the Governor do not enter into an agreement, the Secretary may nevertheless proceed with the leasing of the tract or tracts. Any revenues received by the United States under such an agreement shall be subject to the requirements of paragraph (2).

(4) The deposits in the Treasury account described in this section shall be invested by the Secretary of the Treasury in securities backed by the full faith and credit of the United States having maturities suitable to the needs of the account and yielding the highest reasonably available interest rates as determined by the Secretary of the Treasury.

(5)(A) When there is a boundary dispute between the United States and a State which is subject to an agreement under section 1336 of this title, the Secretary shall credit to the account established pursuant to such agreement all bonuses, rents, and royalties, and other revenues (derived from any bidding system authorized under subsection (a)(1) of this section), excluding Federal income and windfall profits taxes, and derived from any lease issued after September 18, 1978 of any Federal tract which lies wholly or partially within three nautical miles of the seaward boundary asserted by the State, if that money has not otherwise been deposited in such account. Proceeds of an escrow account established pursuant to an agreement under section 1336 of this title shall be distributed as follows:

(i) Twenty-seven percent of all bonuses, rents, and royalties, and other revenues (derived from any bidding system authorized under subsection (a)(1) of this section), excluding Federal income and windfall profits taxes, and derived from any lease issued after September 18, 1978, of any tract which lies wholly within three nautical miles of the seaward boundary asserted by the Federal Government in the boundary dispute, together with all accrued interest thereon, shall be paid to the State either—

(I) within thirty days of December 1, 1987, or

(II) by the last business day of the month following the month in which those revenues are deposited in the Treasury, whichever date is later.

(ii) Upon the settlement of a boundary dispute which is subject to a section 1336 of this title agreement between the United States and a State, the Secretary shall pay to such State any additional moneys due such State from amounts deposited in or credited to the escrow account. If there is insufficient money deposited in the escrow account, the Secretary shall transmit, from any revenues derived from any lease of Federal lands under this subchapter, the remaining balance due such State in accordance with the formula set forth in section 8004(b)(1)(B) of the Outer Continental Shelf Lands Act Amendments of 1985.

(B) This paragraph applies to all Federal oil and gas lease sales, under this subchapter, including joint lease sales, occurring after September 18, 1978.

(6) This section shall be deemed to take effect on October 1, 1985, for purposes of determining the amounts to be deposited in the separate account and the States' shares described in paragraph (2).

(7) When the Secretary leases any tract which lies wholly or partially within three miles of the seaward boundary of two or more States, the revenues from such tract shall be distributed as otherwise provided by this section, except that the State's share of such revenues that would otherwise result under this section shall be divided equally among such States.

(h) State claims to jurisdiction over submerged lands

Nothing contained in this section shall be construed to alter, limit, or modify any claim of any State to any jurisdiction over, or any right, title, or interest in, any submerged lands.

(i) Sulphur leases; award to highest bidder; method of bidding

In order to meet the urgent need for further exploration and development of the sulphur deposits in the submerged lands of the outer Continental Shelf, the Secretary is authorized to grant to the qualified persons offering the highest cash bonuses on a basis of competitive bidding sulphur leases on submerged lands of the outer Continental Shelf, which are not covered by leases which include sulphur and meet the requirements of section 1335(a) of this title, and which sulphur leases shall be offered for bid by sealed bids and granted on separate leases from oil and gas leases, and for a separate consideration, and without priority or preference accorded to oil and gas lessees on the same area.

(j) Terms and provisions of sulphur leases

A sulphur lease issued by the Secretary pursuant to this section shall (1) cover an area of such size and dimensions as the Secretary may determine, (2) be for a period of not more than ten years and so long thereafter as sulphur may be produced from the area in paying quantities or drilling, well reworking, plant construction, or other operations for the production of sulphur, as approved by the Secretary, are conducted thereon, (3) require the payment to the United States of such royalty as may be specified in the lease but not less than 5 per centum of the gross production or value of the sulphur at the wellhead, and (4) contain such rental provisions and such other terms and provisions as the Secretary may by regulation prescribe at the time of offering the area for lease.

(k) Other mineral leases; award to highest bidder; terms and conditions; agreements for use of resources for shore protection, beach or coastal wetlands restoration, or other projects

(1) The Secretary is authorized to grant to the qualified persons offering the highest cash bonuses on a basis of competitive bidding leases of any mineral other than oil, gas, and sulphur in any area of the outer Continental Shelf not then under lease for such mineral upon such royalty, rental, and other terms and conditions as the Secretary may prescribe at the time of offering the area for lease.

(2)(A) Notwithstanding paragraph (1), the Secretary may negotiate with any person an agreement for the use of Outer Continental Shelf sand, gravel and shell resources—

(i) for use in a program of, or project for, shore protection, beach restoration, or coastal wetlands restoration undertaken by a Federal, State, or local government agency; or

(ii) for use in a construction project, other than a project described in clause (i), that is funded in whole or in part by or authorized by the Federal Government.

(B) In carrying out a negotiation under this paragraph, the Secretary may assess a fee based on an assessment of the value of the resources and the public interest served by promoting development of the resources. No fee shall be assessed directly or indirectly under this subparagraph against a Federal, State, or local government agency.

(C) The Secretary may, through this paragraph and in consultation with the Secretary of Commerce, seek to facilitate projects in the coastal zone, as such term is defined in section 1453 of title 16, that promote the policy set forth in section 1452 of title 16.

(D) Any Federal agency which proposes to make use of sand, gravel and shell resources subject to the provisions of this subchapter shall enter into a Memorandum of Agreement with the Secretary concerning the potential use of those resources. The Secretary shall notify the Committee on Merchant Marine and Fisheries and the Committee on Natural Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate on any proposed project for the use of those resources prior to the use of those resources.

(l) Publication of notices of sale and terms of bidding

Notice of sale of leases, and the terms of bidding, authorized by this section shall be published at least thirty days before the date of sale in accordance with rules and regulations promulgated by the Secretary.

(m) Disposition of revenues

All moneys paid to the Secretary for or under leases granted pursuant to this section shall be

deposited in the Treasury in accordance with section 1338 of this title.

(n) Issuance of lease as nonprejudicial to ultimate settlement or adjudication of controversies

The issuance of any lease by the Secretary pursuant to this subchapter, or the making of any interim arrangements by the Secretary pursuant to section 1336 of this title shall not prejudice the ultimate settlement or adjudication of the question as to whether or not the area involved is in the outer Continental Shelf.

(o) Cancellation of leases for fraud

The Secretary may cancel any lease obtained by fraud or misrepresentation.

(p) Leases, easements, or rights-of-way for energy and related purposes

(1) In general

The Secretary, in consultation with the Secretary of the Department in which the Coast Guard is operating and other relevant departments and agencies of the Federal Government, may grant a lease, easement, or right-of-way on the outer Continental Shelf for activities not otherwise authorized in this subchapter, the Deepwater Port Act of 1974 (33 U.S.C. 1501 et seq.), the Ocean Thermal Energy Conversion Act of 1980 (42 U.S.C. 9101 et seq.), or other applicable law, if those activities—

(A) support exploration, development, production, or storage of oil or natural gas, except that a lease, easement, or right-of-way shall not be granted in an area in which oil and gas preleasing, leasing, and related activities are prohibited by a moratorium;

(B) support transportation of oil or natural gas, excluding shipping activities;

(C) produce or support production, transportation, or transmission of energy from sources other than oil and gas; or

(D) use, for energy-related purposes or for other authorized marine-related purposes, facilities currently or previously used for activities authorized under this subchapter, except that any oil and gas energy-related uses shall not be authorized in areas in which oil and gas preleasing, leasing, and related activities are prohibited by a moratorium.

(2) Payments and revenues

(A) The Secretary shall establish royalties, fees, rentals, bonuses, or other payments to ensure a fair return to the United States for any lease, easement, or right-of-way granted under this subsection.

(B) The Secretary shall provide for the payment of 27 percent of the revenues received by the Federal Government as a result of payments under this section from projects that are located wholly or partially within the area extending three nautical miles seaward of State submerged lands. Payments shall be made based on a formula established by the Secretary by rulemaking no later than 180 days after August 8, 2005, that provides for equitable distribution, based on proximity to the project, among coastal states that have a coastline that is located within 15 miles of the geographic center of the project.

(3) Competitive or noncompetitive basis

Except with respect to projects that meet the criteria established under section 388(d) of the Energy Policy Act of 2005, the Secretary shall issue a lease, easement, or right-of-way under paragraph (1) on a competitive basis unless the Secretary determines after public notice of a proposed lease, easement, or right-of-way that there is no competitive interest.

(4) Requirements

The Secretary shall ensure that any activity under this subsection is carried out in a manner that provides for—

(A) safety;

(B) protection of the environment;

(C) prevention of waste;

(D) conservation of the natural resources of the outer Continental Shelf;

- (E) coordination with relevant Federal agencies;
- (F) protection of national security interests of the United States;
- (G) protection of correlative rights in the outer Continental Shelf;
- (H) a fair return to the United States for any lease, easement, or right-of-way under this subsection;

- (I) prevention of interference with reasonable uses (as determined by the Secretary) of the exclusive economic zone, the high seas, and the territorial seas;

- (J) consideration of—

- (i) the location of, and any schedule relating to, a lease, easement, or right-of-way for an area of the outer Continental Shelf; and

- (ii) any other use of the sea or seabed, including use for a fishery, a sealane, a potential site of a deepwater port, or navigation;

- (K) public notice and comment on any proposal submitted for a lease, easement, or right-of-way under this subsection; and

- (L) oversight, inspection, research, monitoring, and enforcement relating to a lease, easement, or right-of-way under this subsection.

(5) Lease duration, suspension, and cancellation

The Secretary shall provide for the duration, issuance, transfer, renewal, suspension, and cancellation of a lease, easement, or right-of-way under this subsection.

(6) Security

The Secretary shall require the holder of a lease, easement, or right-of-way granted under this subsection to—

- (A) furnish a surety bond or other form of security, as prescribed by the Secretary;

- (B) comply with such other requirements as the Secretary considers necessary to protect the interests of the public and the United States; and

- (C) provide for the restoration of the lease, easement, or right-of-way.

(7) Coordination and consultation with affected State and local governments

The Secretary shall provide for coordination and consultation with the Governor of any State or the executive of any local government that may be affected by a lease, easement, or right-of-way under this subsection.

(8) Regulations

Not later than 270 days after August 8, 2005, the Secretary, in consultation with the Secretary of Defense, the Secretary of the Department in which the Coast Guard is operating, the Secretary of Commerce, heads of other relevant departments and agencies of the Federal Government, and the Governor of any affected State, shall issue any necessary regulations to carry out this subsection.

(9) Effect of subsection

Nothing in this subsection displaces, supersedes, limits, or modifies the jurisdiction, responsibility, or authority of any Federal or State agency under any other Federal law.

(10) Applicability

This subsection does not apply to any area on the outer Continental Shelf within the exterior boundaries of any unit of the National Park System, National Wildlife Refuge System, or National Marine Sanctuary System, or any National Monument.

(3) as so redesignated, substituted "payment of amount or value as determined by one of the bidding systems set forth in subsection (a) of this section" for "payment of a royalty of not less than 12½ per centum, in the amount or value of the production saved, removed, or sold from the lease".

(2) Timing and location of exploration, development, and production of oil and gas among the oil- and gas-bearing physiographic regions of the outer Continental Shelf shall be based on a consideration of—

(A) existing information concerning the geographical, geological, and ecological characteristics of such regions;

(B) an equitable sharing of developmental benefits and environmental risks among the various regions;

(C) the location of such regions with respect to, and the relative needs of, regional and national energy markets;

(E) the interest of potential oil and gas producers in the development of oil and gas resources as indicated by exploration or nomination;

(F) laws, goals, and policies of affected States which have been specifically identified by the Governors of such States as relevant matters for the Secretary's consideration;

(G) the relative environmental sensitivity and marine productivity of different areas of the outer Continental Shelf; and

(H) relevant environmental and predictive information for different areas of the outer Continental Shelf.

(3) The Secretary shall select the timing and location of leasing, to the maximum extent practicable, so as to obtain a proper balance between the potential for environmental damage, the potential for the discovery of oil and gas, and the potential for adverse impact on the coastal zone.

(4) Leasing activities shall be conducted to assure receipt of fair market value for the lands leased and the rights conveyed by the Federal Government.

(b) Estimates of appropriations and staff required for management of leasing program

The leasing program shall include estimates of the appropriations and staff required to—

(1) obtain resource information and any other information needed to prepare the leasing program required by this section;

(2) analyze and interpret the exploratory data and any other information which may be compiled under the authority of this subchapter;

(c) Suggestions from Federal agencies and affected State and local governments; submission of proposed program to Governors of affected States and Congress; publication in Federal Register

(1) During the preparation of any proposed leasing program under this section, the Secretary shall invite and consider suggestions for such program from any interested Federal agency, including the Attorney General, in consultation with the Federal Trade Commission, and from the Governor of any

State which may become an affected State under such proposed program. The Secretary may also invite or consider any suggestions from the executive of any affected local government in such an affected State, which have been previously submitted to the Governor of such State, and from any other person.

(2) After such preparation and at least sixty days prior to publication of a proposed leasing program in the Federal Register pursuant to paragraph (3) of this subsection, the Secretary shall submit a copy of such proposed program to the Governor of each affected State for review and comment. The Governor may solicit comments from those executives of local governments in his State which he, in his discretion, determines will be affected by the proposed program. If any comment by such Governor is received by the Secretary at least fifteen days prior to submission to the Congress pursuant to such paragraph (3) and includes a request for any modification of such proposed program, the Secretary shall reply in writing, granting or denying such request in whole or in part, or granting such request in such modified form as the Secretary considers appropriate, and stating his reasons therefor. All such correspondence between the Secretary and the Governor of any affected State, together with any additional information and data relating thereto, shall accompany such proposed program when it is submitted to the Congress.

(3) Within nine months after September 18, 1978, the Secretary shall submit a proposed leasing program to the Congress, the Attorney General, and the Governors of affected States, and shall publish such proposed program in the Federal Register. Each Governor shall, upon request, submit a copy of the proposed leasing program to the executive of any local government affected by the proposed program.

(2) At least sixty days prior to approving a proposed leasing program, the Secretary shall submit it to the President and the Congress, together with any comments received. Such submission shall indicate why any specific recommendation of the Attorney General or a State or local government was not accepted.

(3) After the leasing program has been approved by the Secretary, or after eighteen months following September 18, 1978, whichever first occurs, no lease shall be issued unless it is for an area included in the approved leasing program and unless it contains provisions consistent with the approved leasing program, except that leasing shall be permitted to continue until such program is approved and for so long thereafter as such program is under judicial or administrative review pursuant to the provisions of this subchapter.

(e) Review, revision, and reapproval of program

The Secretary shall review the leasing program approved under this section at least once each year. He may revise and reapprove such program, at any time, and such revision and reapproval, except in the case of a revision which is not significant, shall be in the same manner as originally developed.

(f) Procedural regulations for management of program

The Secretary shall, by regulation, establish procedures for—

- (1) receipt and consideration of nominations for any area to be offered for lease or to be excluded from leasing;
- (2) public notice of and participation in development of the leasing program;

The Secretary may obtain from public sources, or purchase from private sources, any survey, data, report, or other information (including interpretations of such data, survey, report, or other information) which may be necessary to assist him in preparing any environmental impact statement and in making other evaluations required by this subchapter. Data of a classified nature provided to the Secretary under the provisions of this subsection shall remain confidential for such period of time as agreed to by the head of the department or agency from whom the information is requested. The Secretary shall maintain the confidentiality of all privileged or proprietary data or information for such period of time as is provided for in this subchapter, established by regulation, or agreed to by the parties.

§1345. Coordination and consultation with affected State and local governments

(a) Recommendations regarding size, time, or location of proposed lease sales

Any Governor of any affected State or the executive of any affected local government in such State may submit recommendations to the Secretary regarding the size, timing, or location of a proposed lease sale or with respect to a proposed development and production plan. Prior to submitting recommendations to the Secretary, the executive of any affected local government in any affected State must forward his recommendations to the Governor of such State.

(b) Time for submission of recommendations

Such recommendations shall be submitted within sixty days after notice of such proposed lease sale or after receipt of such development and production plan.

(c) Acceptance or rejection of recommendations

The Secretary shall accept recommendations of the Governor and may accept recommendations of the executive of any affected local government if he determines, after having provided the opportunity for consultation, that they provide for a reasonable balance between the national interest and the well-being of the citizens of the affected State. For purposes of this subsection, a determination of the national interest shall be based on the desirability of obtaining oil and gas supplies in a balanced manner and on the findings, purposes, and policies of this subchapter. The Secretary shall communicate to the Governor, in writing, the reasons for his determination to accept or reject such Governor's recommendations, or to implement any alternative means identified in consultation with the Governor to provide for a reasonable balance between the national interest and the well-being of the citizens of the affected State.

(d) Finality of acceptance or rejection of recommendations

The Secretary's determination that recommendations provide, or do not provide, for a reasonable balance between the national interest and the well-being of the citizens of the affected State shall be final and shall not, alone, be a basis for invalidation of a proposed lease sale or a proposed development and production plan in any suit or judicial review pursuant to section 1349 of this title, unless found to be arbitrary or capricious.

(e) Cooperative agreements

The Secretary is authorized to enter into cooperative agreements with affected States for purposes which are consistent with this subchapter and other applicable Federal law. Such agreements may include, but need not be limited to, the sharing of information (in accordance with the provisions of section 1352 of this title), the joint utilization of available expertise, the facilitating of permitting procedures, joint planning and review, and the formation of joint surveillance and monitoring arrangements to carry out applicable Federal and State laws, regulations, and stipulations relevant to outer Continental Shelf operations both onshore and offshore.

(Aug. 7, 1953, ch. 345, §19, as added Pub. L. 95–372, title II, §208, Sept. 18, 1978, 92 Stat. 652.)

§1346. Environmental studies

(a) Information for assessment and management of impacts on environment; time for study; impacts on marine biota from pollution or large spills

(1) The Secretary shall conduct a study of any area or region included in any oil and gas lease sale or other lease in order to establish information needed for assessment and management of environmental impacts on the human, marine, and coastal environments of the outer Continental Shelf and the coastal areas which may be affected by oil and gas or other mineral development in such area or region.

(2) Each study required by paragraph (1) of this subsection shall be commenced not later than six months after September 18, 1978, with respect to any area or region where a lease sale has been held or announced by publication of a notice of proposed lease sale before September 18, 1978, and not later than six months prior to the holding of a lease sale with respect to any area or region where no lease sale has been held or scheduled before September 18, 1978. In the case of an agreement under section 1337(k)(2) of this title, each study required by paragraph (1) of this subsection shall be commenced not later than 6 months prior to commencing negotiations for such agreement or the entering into the memorandum of agreement as the case may be. The Secretary may utilize information collected in any study prior to September 18, 1978.

(3) In addition to developing environmental information, any study of an area or region, to the extent practicable, shall be designed to predict impacts on the marine biota which may result from chronic low level pollution or large spills associated with outer Continental Shelf production, from

the introduction of drill cuttings and drilling muds in the area, and from the laying of pipe to serve the offshore production area, and the impacts of development offshore on the affected and coastal areas.

(b) Additional studies subsequent to leasing and development of area

Subsequent to the leasing and developing of any area or region, the Secretary shall conduct such additional studies to establish environmental information as he deems necessary and shall monitor the human, marine, and coastal environments of such area or region in a manner designed to provide time-series and data trend information which can be used for comparison with any previously collected data for the purpose of identifying any significant changes in the quality and productivity of such environments, for establishing trends in the areas studied and monitored, and for designing experiments to identify the causes of such changes.

(c) Procedural regulations for conduct of studies; cooperation with affected States; utilization of information from Federal, State and local governments and agencies

The Secretary shall, by regulation, establish procedures for carrying out his duties under this section, and shall plan and carry out such duties in full cooperation with affected States. To the extent that other Federal agencies have prepared environmental impact statements, are conducting studies, or are monitoring the affected human, marine, or coastal environment, the Secretary may utilize the information derived therefrom in lieu of directly conducting such activities. The Secretary may also utilize information obtained from any State or local government, or from any person, for the purposes of this section. For the purpose of carrying out his responsibilities under this section, the Secretary may by agreement utilize, with or without reimbursement, the services, personnel, or facilities of any Federal, State, or local government agency.

(d) Consideration of relevant environmental information in developing regulations, lease conditions and operating orders

The Secretary shall consider available relevant environmental information in making decisions (including those relating to exploration plans, drilling permits, and development and production plans), in developing appropriate regulations and lease conditions, and in issuing operating orders.

(e) Assessment of cumulative effects of activities on environment; submission to Congress

As soon as practicable after the end of every 3 fiscal years, the Secretary shall submit to the Congress and make available to the general public an assessment of the cumulative effect of activities conducted under this subchapter on the human, marine, and coastal environments.

(f) Utilization of capabilities of Department of Commerce

In executing his responsibilities under this section, the Secretary shall, to the maximum extent practicable, enter into appropriate arrangements to utilize on a reimbursable basis the capabilities of the Department of Commerce. In carrying out such arrangements, the Secretary of Commerce is authorized to enter into contracts or grants with any person, organization, or entity with funds appropriated to the Secretary of the Interior pursuant to this subchapter.

Upon September 18, 1978, the Secretary and the Secretary of the Department in which the Coast Guard is operating shall, in consultation with each other and, as appropriate, with the heads of other Federal departments and agencies, promptly commence a joint study of the adequacy of existing safety and health regulations and of the technology, equipment, and techniques available for the exploration, development, and production of the minerals of the outer Continental Shelf. The results of such study shall be submitted to the President who shall submit a plan to the Congress of his proposals to promote safety and health in the exploration, development, and production of the minerals of the outer Continental Shelf.

(b) Use of best available and safest economically feasible technologies

In exercising their respective responsibilities for the artificial islands, installations, and other devices referred to in section 1333(a)(1) of this title, the Secretary, and the Secretary of the Department in which the Coast Guard is operating, shall require, on all new drilling and production operations and, wherever practicable, on existing operations, the use of the best available and safest technologies which the Secretary determines to be economically feasible, wherever failure of equipment would have a significant effect on safety, health, or the environment, except where the Secretary determines that the incremental benefits are clearly insufficient to justify the incremental costs of utilizing such technologies.

(c) Regulations applying to unregulated hazardous working conditions

The Secretary of the Department in which the Coast Guard is operating shall promulgate regulations or standards applying to unregulated hazardous working conditions related to activities on the outer Continental Shelf when he determines such regulations or standards are necessary. The Secretary of the Department in which the Coast Guard is operating may from time to time modify any regulations, interim or final, dealing with hazardous working conditions on the outer Continental Shelf.

Nothing in this subchapter shall affect the authority provided by law to the Secretary of Labor for the protection of occupational safety and health, the authority provided by law to the Administrator of the Environmental Protection Agency for the protection of the environment, or the authority provided by law to the Secretary of Transportation with respect to pipeline safety.

(e) Studies of underwater diving techniques and equipment

The Secretary of Commerce, in cooperation with the Secretary of the Department in which the Coast Guard is operating, and the Director of the National Institute of Occupational Safety and Health, shall conduct studies of underwater diving techniques and equipment suitable for protection of human safety and improvement of diver performance. Such studies shall include, but need not be limited to, decompression and excursion table development and improvement and all aspects of diver physiological restraints and protective gear for exposure to hostile environments.

(f) Coordination and consultation with Federal departments and agencies; availability to interested persons of compilation of safety regulations

(1) In administering the provisions of this section, the Secretary shall consult and coordinate with the heads of other appropriate Federal departments and agencies for purposes of assuring that, to the

maximum extent practicable, inconsistent or duplicative requirements are not imposed.

(2) The Secretary shall make available to any interested person a compilation of all safety and other regulations which are prepared and promulgated by any Federal department or agency and applicable to activities on the outer Continental Shelf. Such compilation shall be revised and updated annually.

(Aug. 7, 1953, ch. 345, §21, as added Pub. L. 95–372, title II, §208, Sept. 18, 1978, 92 Stat. 654.)

§1350. Remedies and penalties

(a) Injunctions, restraining orders, etc.

At the request of the Secretary, the Secretary of the Army, or the Secretary of the Department in which the Coast Guard is operating, the Attorney General or a United States attorney shall institute a civil action in the district court of the United States for the district in which the affected operation is located for a temporary restraining order, injunction, or other appropriate remedy to enforce any provision of this subchapter, any regulation or order issued under this subchapter, or any term of a lease, license, or permit issued pursuant to this subchapter.

(b) Civil penalties; hearing

(1) Except as provided in paragraph (2), if any person fails to comply with any provision of this

subchapter, or any term of a lease, license, or permit issued pursuant to this subchapter, or any regulation or order issued under this subchapter, after notice of such failure and expiration of any reasonable period allowed for corrective action, such person shall be liable for a civil penalty of not more than \$20,000 for each day of the continuance of such failure. The Secretary may assess, collect, and compromise any such penalty. No penalty shall be assessed until the person charged with a violation has been given an opportunity for a hearing. The Secretary shall, by regulation at least every 3 years, adjust the penalty specified in this paragraph to reflect any increases in the Consumer Price Index (all items, United States city average) as prepared by the Department of Labor.

(2) If a failure described in paragraph (1) constitutes or constituted a threat of serious, irreparable, or immediate harm or damage to life (including fish and other aquatic life), property, any mineral deposit, or the marine, coastal, or human environment, a civil penalty may be assessed without regard to the requirement of expiration of a period allowed for corrective action.

(c) Criminal penalties

Any person who knowingly and willfully (1) violates any provision of this subchapter, any term of a lease, license, or permit issued pursuant to this subchapter, or any regulation or order issued under the authority of this subchapter designed to protect health, safety, or the environment or conserve natural resources, (2) makes any false statement, representation, or certification in any application, record, report, or other document filed or required to be maintained under this subchapter, (3) falsifies, tampers with, or renders inaccurate any monitoring device or method of record required to be maintained under this subchapter, or (4) reveals any data or information required to be kept confidential by this subchapter shall, upon conviction, be punished by a fine of not more than \$100,000, or by imprisonment for not more than ten years, or both. Each day that a violation under clause (1) of this subsection continues, or each day that any monitoring device or data recorder remains inoperative or inaccurate because of any activity described in clause (3) of this subsection, shall constitute a separate violation.

(d) Liability of corporate officers and agents for violations by corporation

Whenever a corporation or other entity is subject to prosecution under subsection (c) of this section, any officer or agent of such corporation or entity who knowingly and willfully authorized, ordered, or carried out the proscribed activity shall be subject to the same fines or imprisonment, or both, as provided for under subsection (c) of this section.

(e) Concurrent and cumulative nature of penalties

The remedies and penalties prescribed in this subchapter shall be concurrent and cumulative and the exercise of one shall not preclude the exercise of the others. Further, the remedies and penalties prescribed in this subchapter shall be in addition to any other remedies and penalties afforded by any other law or regulation.

§1351. Oil and gas development and production

(a) Development and production plans; submission to Secretary; statement of facilities and operation; submission to Governors of affected States and local governments

(1) Prior to development and production pursuant to an oil and gas lease issued after September 18, 1978, in any area of the outer Continental Shelf, other than the Gulf of Mexico, or issued or maintained prior to September 18, 1978, in any area of the outer Continental Shelf, other than the Gulf of Mexico, with respect to which no oil or gas has been discovered in paying quantities prior to September 18, 1978, the lessee shall submit a development and production plan (hereinafter in this section referred to as a “plan”) to the Secretary, for approval pursuant to this section.

(2) A plan shall be accompanied by a statement describing all facilities and operations, other than those on the outer Continental Shelf, proposed by the lessee and known by him (whether or not owned or operated by such lessee) which will be constructed or utilized in the development and production of oil or gas from the lease area, including the location and site of such facilities and operations, the land, labor, material, and energy requirements associated with such facilities and operations, and all environmental and safety safeguards to be implemented.

(3) Except for any privileged or proprietary information (as such term is defined in regulations issued by the Secretary), the Secretary, within ten days after receipt of a plan and statement, shall (A) submit such plan and statement to the Governor of any affected State, and, upon request to the executive of any affected local government, and (B) make such plan and statement available to any appropriate interstate regional entity and the public.

(b) Development and production activities in accordance with plan as lease requirement

After September 18, 1978, no oil and gas lease may be issued pursuant to this subchapter in any region of the outer Continental Shelf, other than the Gulf of Mexico, unless such lease requires that development and production activities be carried out in accordance with a plan which complies with the requirements of this section.

(c) Scope and contents of plan

A plan may apply to more than one oil and gas lease, and shall set forth, in the degree of detail established by regulations issued by the Secretary—

(1) the specific work to be performed;

(2) a description of all facilities and operations located on the outer Continental Shelf which are proposed by the lessee or known by him (whether or not owned or operated by such lessee) to be directly related to the proposed development, including the location and size of such facilities and operations, and the land, labor, material, and energy requirements associated with such facilities and operations;

(3) the environmental safeguards to be implemented on the outer Continental Shelf and how such safeguards are to be implemented;

(4) all safety standards to be met and how such standards are to be met;

(5) an expected rate of development and production and a time schedule for performance; and

(6) such other relevant information as the Secretary may by regulation require.

(d) State concurrence in land or water zone use in coastal zone of State

The Secretary shall not grant any license or permit for any activity described in detail in a plan and affecting any land use or water use in the coastal zone of a State with a coastal zone management program approved pursuant to section 306 of the Coastal Zone Management Act of 1972 (16 U.S.C. 1455), unless the State concurs or is conclusively presumed to concur with the consistency certification accompanying such plan pursuant to section 307(c)(3)(B)(i) or (ii) of such Act [16 U.S.C. 1456(c)(3)(B)(i) or (ii)], or the Secretary of Commerce makes the finding authorized by section 307(c)(3)(B)(iii) of such Act [16 U.S.C. 1456(c)(3)(B)(iii)].

(e) Declaration of approval of development and production plan as major Federal action; submission of preliminary or final lease plans prior to commencement of National Environmental Policy provisions procedures

(1) At least once the Secretary shall declare the approval of a development and production plan in any area or region (as defined by the Secretary) of the outer Continental Shelf, other than the Gulf of Mexico, to be a major Federal action.

(2) The Secretary may require lessees of tracts for which development and production plans have not been approved, to submit preliminary or final plans for their leases, prior to or immediately after a determination by the Secretary that the procedures under the National Environmental Policy Act of 1969 [42 U.S.C. 4321 et seq.] shall commence.

(f) Plans considered major Federal actions; submission of draft environmental impact statement to Governors of affected States and local governments

If approval of a development and production plan is found to be a major Federal action, the Secretary shall transmit the draft environmental impact statement to the Governor of any affected State, and upon request, to the executive of any local government, and shall make such draft available to any appropriate interstate regional entity and the public.

(g) Plans considered nonmajor Federal actions; comments and recommendations from States

If approval of a development and production plan is not found to be a major Federal action, the Governor of any affected State and the executive of any affected local government shall have sixty days from the date of receipt of the plan from the Secretary to submit comments and recommendations. Prior to submitting recommendations to the Secretary, the executive of any affected local government must forward his recommendations to the Governor of his State. Such comments and recommendations shall be made available to the public upon request. In addition, any interested person may submit comments and recommendations.

(h) Approval, disapproval or modification of plan; reapplication; periodic review

(1) After reviewing the record of any public hearing held with respect to the approval of a plan pursuant to the National Environmental Policy Act of 1969 [42 U.S.C. 4321 et seq.] or the comments and recommendations submitted under subsection (g) of this section, the Secretary shall, within sixty days after the release of the final environmental impact statement prepared pursuant to the National Environmental Policy Act of 1969 in accordance with subsection (e) of this section, or sixty days after the period provided for comment under subsection (g) of this section, approve, disapprove, or require modifications of the plan. The Secretary shall require modification of a plan if he determines that the lessee has failed to make adequate provision in such plan for safe operations on the lease area or for protection of the human, marine, or coastal environment, including compliance with the regulations prescribed by the Secretary pursuant to paragraph (8) of section 1334(a) of this title. Any modification required by the Secretary which involves activities for which a Federal license or permit is required and which affects any land use or water use in the coastal zone of a State with a coastal zone management program approved pursuant to section 306 of the Coastal Zone Management Act of 1972 (16 U.S.C. 1455) must receive concurrence by such State with respect to the consistency certification accompanying such plan pursuant to section 307(c)(3)(B)(i) or (ii) of such Act [16 U.S.C. 1456(c)(3)(B)(i) or (ii)] unless the Secretary of Commerce makes the finding authorized by section 307(c)(3)(B)(iii) of such Act [16 U.S.C. 1456(c)(3)(B)(iii)]. The Secretary shall disapprove a plan—

(A) if the lessee fails to demonstrate that he can comply with the requirements of this subchapter or other applicable Federal law, including the regulations prescribed by the Secretary pursuant to paragraph (8) of section 1334(a) of this title;

(B) if any of the activities described in detail in the plan for which a Federal license or permit is required and which affects any land use or water use in the coastal zone of a State with a coastal zone management program approved pursuant to section 306 of the Coastal Zone Management Act of 1972 (16 U.S.C. 1455) do not receive concurrence by such State with respect to the consistency certification accompanying such plan pursuant to section 307(c)(3)(B)(i) or (ii) of

such Act [16 U.S.C. 1456(c)(3)(B)(i) or (ii)] and the Secretary of Commerce does not make the finding authorized by section 307(c)(3)(B)(iii) of such Act [16 U.S.C. 1456(c)(3)(B)(iii)];

(C) if operations threaten national security or national defense; or

(D) if the Secretary determines, because of exceptional geological conditions in the lease areas, exceptional resource values in the marine or coastal environment, or other exceptional circumstances, that (i) implementation of the plan would probably cause serious harm or damage to life (including fish and other aquatic life), to property, to any mineral deposits (in areas leased or not leased), to the national security or defense, or to the marine, coastal or human environments, (ii) the threat of harm or damage will not disappear or decrease to an acceptable extent within a reasonable period of time, and (iii) the advantages of disapproving the plan outweigh the advantages of development and production.

(2)(A) If a plan is disapproved—

(i) under subparagraph (A) of paragraph (1); or

(ii) under subparagraph (B) of paragraph (1) with respect to a lease issued after approval of a coastal zone management program pursuant to the Coastal Zone Management Act of 1972 (16 U.S.C. 1455),

the lessee shall not be entitled to compensation because of such disapproval.

(B) If a plan is disapproved—

(i) under subparagraph (C) or (D) of paragraph (1); or

(ii) under subparagraph (B) of paragraph (1) with respect to a lease issued before approval of a coastal zone management program pursuant to the Coastal Zone Management Act of 1972 [16 U.S.C. 1451 et seq.], and such approval occurs after the lessee has submitted a plan to the Secretary,

the term of the lease shall be duly extended, and at any time within five years after such disapproval, the lessee may reapply for approval of the same or a modified plan, and the Secretary shall approve, disapprove, or require modifications of such plan in accordance with this subsection.

(C) Upon expiration of the five-year period described in subparagraph (B) of this paragraph, or, in the Secretary's discretion, at an earlier time upon request of a lessee, if the Secretary has not approved a plan, the Secretary shall cancel the lease and the lessee shall be entitled to receive compensation in accordance with section 1334(a)(2)(C) of this title. The Secretary may, at any time within the five-year period described in subparagraph (B) of this paragraph, require the lessee to submit a development and production plan for approval, disapproval, or modification. If the lessee fails to submit a required plan expeditiously and in good faith, the Secretary shall find that the lessee has not been duly diligent in pursuing his obligations under the lease, and shall immediately initiate procedures to cancel such lease, without compensation, under the provisions of section 1334(c) of this title.

(3) The Secretary shall, from time to time, review each plan approved under this section. Such review shall be based upon changes in available information and other onshore or offshore conditions affecting or impacted by development and production pursuant to such plan. If the review indicates that the plan should be revised to meet the requirements of this subsection, the Secretary shall require such revision.

(i) Approval of revision of approved plan

The Secretary may approve any revision of an approved plan proposed by the lessee if he determines that such revision will lead to greater recovery of oil and natural gas, improve the efficiency, safety, and environmental protection of the recovery operation, is the only means available to avoid substantial economic hardship to the lessee, or is otherwise not inconsistent with the provisions of this subchapter, to the extent such revision is consistent with protection of the human, marine, and coastal environments. Any revision of an approved plan which the Secretary determines is significant shall be reviewed in accordance with subsections (d) through (f) of this section.

(j) Cancellation of lease on failure to submit plan or comply with approved plan

Whenever the owner of any lease fails to submit a plan in accordance with regulations issued under this section, or fails to comply with an approved plan, the lease may be canceled in accordance with section 1334(c) and (d) of this title. Termination of a lease because of failure to comply with an approved plan, including required modifications or revisions, shall not entitle a lessee to any compensation.

(k) Production and transportation of natural gas; submission of plan to Federal Energy Regulatory Commission; impact statement

If any development and production plan submitted to the Secretary pursuant to this section provides for the production and transportation of natural gas, the lessee shall contemporaneously submit to the Federal Energy Regulatory Commission that portion of such plan which relates to production of natural gas and the facilities for transportation of natural gas. The Secretary and the Federal Energy Regulatory Commission shall agree as to which of them shall prepare an environmental impact statement pursuant to the National Environmental Policy Act of 1969 [42 U.S.C. 4321 et seq.] applicable to such portion of such plan, or conduct studies as to the effect on the environment of implementing it. Thereafter, the findings and recommendations by the agency preparing such environmental impact statement or conducting such studies pursuant to such agreement shall be adopted by the other agency, and such other agency shall not independently prepare another environmental impact statement or duplicate such studies with respect to such portion of such plan, but the Federal Energy Regulatory Commission, in connection with its review of an application for a certificate of public convenience and necessity applicable to such transportation facilities pursuant to section 717f of title 15, may prepare such environmental studies or statement relevant to certification of such transportation facilities as have not been covered by an environmental impact statement or studies prepared by the Secretary. The Secretary, in consultation with the Federal Energy Regulatory Commission, shall promulgate rules to implement this subsection, but the Federal Energy Regulatory Commission shall retain sole authority with respect to rules and procedures applicable to the filing of any application with the Commission and to all aspects of the Commission's review of, and action on, any such application.

(l) Application of provisions to leases in Gulf of Mexico

The Secretary may require the provisions of this section to apply to an oil and gas lease issued or maintained under this subchapter, which is located in that area of the Gulf of Mexico which is adjacent to the State of Florida, as determined pursuant to section 1333(a)(2) of this title.

(a) Access to data and information obtained by lessee or permittee from oil or gas exploration, etc., data obtained by Federal department or agency from geological and geophysical explorations

(1)(A) Any lessee or permittee conducting any exploration for, or development or production of, oil or gas pursuant to this subchapter shall provide the Secretary access to all data and information

(including processed, analyzed, and interpreted information) obtained from such activity and shall provide copies of such data and information as the Secretary may request. Such data and information shall be provided in accordance with regulations which the Secretary shall prescribe.

(B) If an interpretation provided pursuant to subparagraph (A) of this paragraph is made in good faith by the lessee or permittee, such lessee or permittee shall not be held responsible for any consequence of the use of or reliance upon such interpretation.

(C) Whenever any data and information is provided to the Secretary, pursuant to subparagraph (A) of this paragraph—

(i) by a lessee, in the form and manner of processing which is utilized by such lessee in the normal conduct of his business, the Secretary shall pay the reasonable cost of reproducing such data and information;

(ii) by a lessee, in such other form and manner of processing as the Secretary may request, the Secretary shall pay the reasonable cost of processing and reproducing such data and information;

(iii) by a permittee, in the form and manner of processing which is utilized by such permittee in the normal conduct of his business, the Secretary shall pay such permittee the reasonable cost of reproducing such data and information for the Secretary and shall pay at the lowest rate available to any purchaser for processing such data and information the costs attributable to such processing; and

(iv) by a permittee, in such other form and manner of processing as the Secretary may request, the Secretary shall pay such permittee the reasonable cost of processing and reproducing such data and information for the Secretary,

pursuant to such regulations as he may prescribe.

(2) Each Federal department and agency shall provide the Secretary with any data obtained by such Federal department or agency pursuant to section 1340 of this title, and any other information which may be necessary or useful to assist him in carrying out the provisions of this subchapter.

(b) Processing, analyzing, and interpreting information; availability of summary of data to affected States and local government

(1) Data and information provided to the Secretary pursuant to subsection (a) of this section shall be processed, analyzed, and interpreted by the Secretary for purposes of carrying out his duties under this subchapter.

(2) As soon as practicable after information provided to the Secretary pursuant to subsection (a) of this section is processed, analyzed, and interpreted, the Secretary shall make available to the affected States, and upon request, to any affected local government, a summary of data designed to assist them in planning for the onshore impacts of possible oil and gas development and production. Such summary shall include estimates of (A) the oil and gas reserves in areas leased or to be leased, (B) the size and timing of development if and when oil or gas, or both, is found, (C) the location of pipelines, and (D) the general location and nature of onshore facilities.

(c) Confidentiality of information; regulations

The Secretary shall prescribe regulations to (1) assure that the confidentiality of privileged or proprietary information received by the Secretary under this section will be maintained, and (2) set forth the time periods and conditions which shall be applicable to the release of such information. Such regulations shall include a provision that no such information will be transmitted to any affected State unless the lessee, or the permittee and all persons to whom such permittee has sold such information under promise of confidentiality, agree to such transmittal.

(d) Transmittal of information to affected State; protection of competitive position

(1) The Secretary shall transmit to any affected State—

(A) an index, and upon request copies of, all relevant actual or proposed programs, plans, reports, environmental impact statements, tract nominations (including negative nominations) and other lease sale information, any similar type of relevant information, and all modifications and revisions thereof and comments thereon, prepared or obtained by the Secretary pursuant to this

subchapter, but no information transmitted by the Secretary under this subsection shall identify any particular tract with the name or names of any particular party so as not to compromise the competitive position of any party or parties participating in the nominations;

(B)(i) the summary of data prepared by the Secretary pursuant to subsection (b)(2) of this section, and (ii) any other processed, analyzed, or interpreted data prepared by the Secretary pursuant to subsection (b)(1) of this section, unless the Secretary determines that transmittal of such data prepared pursuant to subsection (b)(1) of this section would unduly damage the competitive position of the lessee or permittee who provided the Secretary with the information which the Secretary had processed, analyzed, or interpreted; and

(C) any relevant information received by the Secretary pursuant to subsection (a) of this section, subject to any applicable requirements as to confidentiality which are set forth in regulations prescribed under subsection (c) of this section.

(2) Notwithstanding the provisions of any regulation required pursuant to the second sentence of subsection (c) of this section, the Governor of any affected State may designate an appropriate State official to inspect, at a regional location which the Secretary shall designate, any privileged information received by the Secretary regarding any activity adjacent to such State, except that no such inspection shall take place prior to the sale of a lease covering the area in which such activity was conducted. Knowledge obtained by such State during such inspection shall be subject to applicable requirements as to confidentiality which are set forth in regulations prescribed under subsection (c) of this section.

(e) Agreement with State to waive defenses and hold United States harmless from failure to maintain confidentiality of information

Prior to transmitting any privileged information to any State, or granting such State access to such information, the Secretary shall enter into a written agreement with the Governor of such State in which such State agrees, as a condition precedent to receiving or being granted access to such information, to waive the defenses set forth in subsection (f)(2) of this section, and to hold the United States harmless from any violations of the regulations prescribed pursuant to subsection (c) of this section that the State or its employees may commit.

(f) Civil action against United States or State for failure to maintain confidentiality of information; certain defenses unavailable

(1) Whenever any employee of the Federal Government or of any State reveals information in violation of the regulations prescribed pursuant to subsection (c) of this section, the lessee or permittee who supplied such information to the Secretary or to any other Federal official, and any person to whom such lessee or permittee has sold such information under promise of confidentiality, may commence a civil action for damages in the appropriate district court of the United States against the Federal Government or such State, as the case may be.

(2) In any action commenced against the Federal Government or a State pursuant to paragraph (1) of this subsection, the Federal Government or such State, as the case may be, may not raise as a defense (A) any claim of sovereign immunity, or (B) any claim that the employee who revealed the privileged information which is the basis of such suit was acting outside the scope of his employment in revealing such information.

(g) Preemption of State law by Federal law

Any provision of State or local law which provides for public access to any privileged information received or obtained by any person pursuant to this subchapter is expressly preempted by the provisions of this section, to the extent that it applies to such information.

(h) Failure by State to comply with regulations; withholding of information

If the Secretary finds that any State cannot or does not comply with the regulations issued under subsection (c) of this section, he shall thereafter withhold transmittal and deny inspection of privileged information to such State until he finds that such State can and will comply with such regulations.

§1353. Federal purchase and disposition of oil and gas

(a) Payment of royalties or net profit shares in oil and gas; purchase of oil and gas by United States; transfer of title to Federal agencies

(1) Except as may be necessary to comply with the provisions of sections 1335 and 1336 of this title, all royalties or net profit shares, or both, accruing to the United States under any oil and gas lease issued or maintained in accordance with this subchapter, shall, on demand of the Secretary, be paid in oil or gas.

(2) The United States shall have the right to purchase not to exceed 162/3 per centum by volume of the oil and gas produced pursuant to a lease issued or maintained in accordance with this subchapter, at the regulated price, or, if no regulated price applies, at the fair market value at the well head of the oil and gas saved, removed, or sold, except that any oil or gas obtained by the United States as royalty or net profit share shall be credited against the amount that may be purchased under this subsection.

(3) Title to any royalty, net profit share, or purchased oil or gas may be transferred, upon request, by the Secretary to the Secretary of Defense, to the Administrator of the General Services Administration, or to the Secretary of Energy, for disposal within the Federal Government.

(b) Sale of oil by United States to public; disposition of oil to small refiners; application of other laws

(1) The Secretary, except as provided in this subsection, may offer to the public and sell by competitive bidding for not more than its regulated price, or, if no regulated price applies, not less than its fair market value, any part of the oil (A) obtained by the United States pursuant to any lease as royalty or net profit share, or (B) purchased by the United States pursuant to subsection (a)(2) of this section.

(2) Whenever, after consultation with the Secretary of Energy, the Secretary determines that small refiners do not have access to adequate supplies of oil at equitable prices, the Secretary may dispose of any oil which is taken as a royalty or net profit share accruing or reserved to the United States pursuant to any lease issued or maintained under this subchapter, or purchased by the United States pursuant to subsection (a)(2) of this section, by conducting a lottery for the sale of such oil, or may equitably allocate such oil among the competitors for the purchase of such oil, at the regulated price, or if no regulated price applies, at its fair market value. The Secretary shall limit participation in any allocation or lottery sale to assure such access and shall publish notice of such allocation or sale, and the terms thereof, at least thirty days in advance. Such notice shall include qualifications for participation, the amount of oil to be sold, and any limitation in the amount of oil which any participant may be entitled to purchase.

(3) The Secretary may only sell or otherwise dispose of oil described in paragraph (1) of this subsection in accordance with any provision of law, or regulations issued in accordance with such

provisions, which provide for the Secretary of Energy to allocate, transfer, exchange, or sell oil in amounts or at prices determined by such provision of law or regulations.

(c) Sale of gas by United States to public

(1) Except as provided in paragraph (2) of this subsection, the Secretary, pursuant to such terms as he determines, may ¹ offer to the public and sell by competitive bidding for not more than its regulated price, or, if no regulated price applies, not less than its fair market value any part of the gas (A) obtained by the United States pursuant to a lease as royalty or net profit share, or (B) purchased by the United States pursuant to subsection (a)(2) of this section.

(2) Whenever, after consultation with and advice from the Secretary of Energy, the Federal Energy Regulatory Commission determines that an emergency shortage of natural gas is threatening to cause severe economic or social dislocation in any region of the United States and that such region can be serviced in a practical, feasible, and efficient manner by royalty, net profit share, or purchased gas obtained pursuant to the provisions of this section, the Secretary of the Interior may allocate or conduct a lottery for the sale of such gas, and shall limit participation in any allocation or lottery sale of such gas to any person servicing such region, but he shall not sell any such gas for more than its regulated price, or, if no regulated price applies, less than its fair market value. DEPARTMENT OF THE INTERIOR

SECTION 1. TRANSFER OF FUNCTIONS TO THE SECRETARY

(a) Except as otherwise provided in subsection (b) of this section, there are hereby transferred to the Secretary of the Interior all functions of all other officers of the Department of the Interior and all functions of all agencies and employees of such Department.

(b) This section shall not apply to the functions vested by the Administrative Procedure Act (60 Stat. 237) [see 5 U.S.C. 551 et seq. and 701 et seq.] in hearing examiners employed by the Department of the Interior, nor to the functions of the Virgin Islands Corporation or of its Board of Directors or officers.

The Secretary of the Interior may from time to time make such provisions as he shall deem appropriate authorizing the performance by an other officer, or by any agency or employee, of the Department of the Interior of any function of the Secretary, including any function transferred to the Secretary by the provisions of this reorganization plan.

MESSAGE OF THE PRESIDENT

To the Congress of the United States:

I transmit herewith Reorganization Plan No. 3 of 1950, prepared in accordance with the Reorganization Act of 1949 and providing for reorganizations in the Department of the Interior. My reasons for transmitting this plan are stated in an accompanying general message.

After investigation I have found and hereby declare that each reorganization included in Reorganization Plan No. 3 of 1950 is necessary to accomplish one or more of the purposes set forth in section 2(a) of the Reorganization Act of 1949.

I have found and hereby declare that it is necessary to include in the accompanying reorganization plan, by reason of reorganizations made thereby, provisions for the appointment and compensation of an Assistant Secretary of the Interior and an Administrative Assistant Secretary of the Interior. The rate of compensation fixed for these officers is that which I have found to prevail in respect of comparable officers in the executive branch of the Government.

The taking effect of the reorganizations included in this plan may not in itself result in substantial immediate savings. However, many benefits in improved operations are probable during the next years which will result in a reduction in expenditures as compared with those that would be otherwise necessary. An itemization of these reductions in advance of actual experience under this plan is not practicable.

HARRY S. TRUMAN.

THE WHITE HOUSE, March 13, 1950.

§1452. Deputy Secretary of the Interior; appointment

EX. ORD. NO. 12906. COORDINATING GEOGRAPHIC DATA ACQUISITION AND ACCESS: THE NATIONAL SPATIAL DATA INFRASTRUCTURE

Ex. Ord. No. 12906, Apr. 11, 1994, 59 F.R. 17671, as amended by Ex. Ord. No. 13286, §25, Feb. 28, 2003, 68 F.R. 10624, provided:

Geographic information is critical to promote economic development, improve our stewardship of natural resources, and protect the environment. Modern technology now permits improved acquisition, distribution, and utilization of geographic (or geospatial) data and mapping. The National Performance Review has recommended that the executive branch develop, in cooperation with State, local, and tribal governments, and the private sector, a coordinated National Spatial Data Infrastructure to support public and private sector applications of geospatial data in such areas as transportation, community development, agriculture, emergency response, environmental management, and information technology.

NOW, THEREFORE, by the authority vested in me as President by the Constitution and the laws of the United States of America; and to implement the recommendations of the National Performance Review; to advance the goals of the National Information Infrastructure; and to avoid wasteful duplication of effort and promote effective and economical management of resources by Federal, State, local, and tribal governments, it is ordered as follows:

SECTION 1. DEFINITIONS. (a) "National Spatial Data Infrastructure" ("NSDI") means the technology, policies, standards, and human resources necessary to acquire, process, store, distribute, and improve utilization of geospatial data.

(b) "Geospatial data" means information that identifies the geographic location and characteristics of natural or constructed features and boundaries on the earth. This information may be derived from, among other things, remote sensing, mapping, and surveying technologies. Statistical data may be included in this definition at the discretion of the collecting agency.

(c) The "National Geospatial Data Clearinghouse" means a distributed network of geospatial data producers, managers, and users linked electronically.

SEC. 2. EXECUTIVE BRANCH LEADERSHIP FOR DEVELOPMENT OF THE COORDINATED NATIONAL SPATIAL DATA INFRASTRUCTURE. (a) The Federal Geographic Data Committee ("FGDC"), established by the Office of Management and Budget ("OMB") Circular No. A-16 ("Coordination of Surveying, Mapping, and Related Spatial Data Activities") and chaired by the Secretary of the Department of the Interior ("Secretary") or the Secretary's designee, shall coordinate the Federal Government's development of the NSDI.

(b) Each member agency shall ensure that its representative on the FGDC holds a policy-level position.

(c) Executive branch departments and agencies ("agencies") that have an interest in the development of the

NSDI are encouraged to join the FGDC.

(d) This Executive order is intended to strengthen and enhance the general policies described in OMB Circular No. A-16. Each agency shall meet its respective responsibilities under OMB Circular No. A-16.

(e) The FGDC shall seek to involve State, local, and tribal governments in the development and implementation of the initiatives contained in this order. The FGDC shall utilize the expertise of academia, the private sector, professional societies, and others as necessary to aid in the development and implementation of the objectives of this order.

SEC. 3. DEVELOPMENT OF A NATIONAL GEOSPATIAL DATA CLEARINGHOUSE. (a) *Establishing a National Geospatial Data Clearinghouse.* The Secretary, through the FGDC, and in consultation with, as appropriate, State, local, and tribal governments and other affected parties, shall take steps within 6 months of the date of this order, to establish an electronic National Geospatial Data Clearinghouse ("Clearinghouse") for the NSDI. The Clearinghouse shall be compatible with the National Information Infrastructure to enable integration with that effort.

(b) *Standardized Documentation of Data.* Beginning 9 months from the date of this order, each agency shall document all new geospatial data it collects or produces, either directly or indirectly, using the standard under development by the FGDC, and make that standardized documentation electronically accessible to the Clearinghouse network. Within 1 year of the date of this order, agencies shall adopt a schedule, developed in consultation with the FGDC, for documenting, to the extent practicable, geospatial data previously collected or produced, either directly or indirectly, and making that data documentation electronically accessible to the Clearinghouse network.

(c) *Public Access to Geospatial Data.* Within 1 year of the date of this order, each agency shall adopt a plan, in consultation with the FGDC, establishing procedures to make geospatial data available to the public, to the extent permitted by law, current policies, and relevant OMB circulars, including OMB Circular No. A-130 ("Management of Federal Information Resources") and any implementing bulletins.

(d) *Agency Utilization of the Clearinghouse.* Within 1 year of the date of this order, each agency shall adopt internal procedures to ensure that the agency accesses the Clearinghouse before it expends Federal funds to collect or produce new geospatial data, to determine whether the information has already been collected by others, or whether cooperative efforts to obtain the data are possible.

(e) *Funding.* The Department of the Interior shall provide funding for the Clearinghouse to cover the initial prototype testing, standards development, and monitoring of the performance of the Clearinghouse. Agencies shall continue to fund their respective programs that collect and produce geospatial data; such data is then to be made part of the Clearinghouse for wider accessibility.

SEC. 4. DATA STANDARDS ACTIVITIES. (a) *General FGDC Responsibility.* The FGDC shall develop standards for implementing the NSDI, in consultation and cooperation with State, local, and tribal governments, the private and academic sectors, and, to the extent feasible, the international community, consistent with OMB Circular No. A-119 ("Federal Participation in the Development and Use of Voluntary Standards"), and other applicable law and policies.

(b) *Standards for Which Agencies Have Specific Responsibilities.* Agencies assigned responsibilities for data categories by OMB Circular No. A-16 shall develop, through the FGDC, standards for those data categories, so as to ensure that the data produced by all agencies are compatible.

(c) *Other Standards.* The FGDC may from time to time identify and develop, through its member agencies, and to the extent permitted by law, other standards necessary to achieve the objectives of this order. The FGDC will promote the use of such standards and, as appropriate, such standards shall be submitted to the Department of Commerce for consideration as Federal Information Processing Standards. Those standards shall apply to geospatial data as defined in section 1 of this order.

(d) *Agency Adherence to Standards.* Federal agencies collecting or producing geospatial data, either directly or indirectly (e.g. through grants, partnerships, or contracts with other entities), shall ensure, prior to obligating funds for such activities, that data will be collected in a manner that meets all relevant standards adopted through the FGDC process.

SEC. 5. NATIONAL DIGITAL GEOSPATIAL DATA FRAMEWORK. In consultation with State, local, and tribal governments and within 9 months of the date of this order, the FGDC shall submit a plan and schedule to OMB for completing the initial implementation of a national digital geospatial data framework ("framework") by January 2000 and for establishing a process of ongoing data maintenance. The framework shall include geospatial data that are significant, in the determination of the FGDC, to a broad variety of users within any geographic area or nationwide. At a minimum, the plan shall address how the initial transportation, hydrology, and boundary elements of the framework might be completed by January 1998 in order to support the decennial census of 2000.

SEC. 6. PARTNERSHIPS FOR DATA ACQUISITION. The Secretary, under the auspices of the FGDC,

and within 9 months of the date of this order, shall develop, to the extent permitted by law, strategies for maximizing cooperative participatory efforts with State, local, and tribal governments, the private sector, and other nonfederal organizations to share costs and improve efficiencies of acquiring geospatial data consistent with this order.

SEC. 7. SCOPE. (a) For the purposes of this order, the term “agency” shall have the same meaning as the term “Executive agency” in 5 U.S.C. 105, and shall include the military departments and components of the Department of Defense.

(b) The following activities are exempt from compliance with this order:

(i) national security-related activities of the Department of Defense as determined by the Secretary of Defense;

(ii) national defense-related activities of the Department of Energy as determined by the Secretary of Energy;

(iii) intelligence activities as determined by the Director of Central Intelligence; and

(iv) the national security-related activities of the Department of Homeland Security as determined by the Secretary of Homeland Security.

(c) The NSDI may involve the mapping, charting, and geodesy activities of the Department of Defense relating to foreign areas, as determined by the Secretary of Defense.

(d) This order does not impose any requirements on tribal governments.

(e) Nothing in the order shall be construed to contravene the development of Federal Information Processing Standards and Guidelines adopted and promulgated under the provisions of section 111(d) of the Federal Property and Administrative Services Act of 1949 [former 40 U.S.C. 759(d)], as amended by the Computer Security Act of 1987 (Public Law 100–235), or any other United States law, regulation, or international agreement.

SEC. 8. JUDICIAL REVIEW. This order is intended only to improve the internal management of the executive branch and is not intended to, and does not, create any right to administrative or judicial review, or any other right or benefit or trust responsibility, substantive or procedural, enforceable by a party against the United States, its agencies or instrumentalities, its officers or employees, or any other person.

“(7) The authority provided in this section shall expire on September 30, 2002, unless by September 30, 2001, the Trustees have submitted to the Congress a report recommending a structure the Trustees believe would be most effective and appropriate for the administration and expenditure of remaining funds and interest received. This program is declared to be for the purposes, among others, of regulating the flow of the Colorado River; controlling floods; improving navigation; providing for the storage and delivery of the waters of the Colorado River for reclamation of lands, including supplemental water supplies, and for municipal, industrial, and other beneficial purposes; improving water quality; providing for basic public outdoor recreation facilities; improving conditions for fish and wildlife, and the generation and sale of electrical power as an incident of the foregoing purposes.

(b) It is the policy of the Congress that the Secretary of the Interior (hereinafter referred to the “Secretary”) shall continue to develop, after consultation with affected States and appropriate Federal agencies, a regional water plan, consistent with the provisions of this chapter and with future authorizations, to serve as the framework under which projects in the Colorado River Basin may be coordinated and constructed with proper timing to the end that an adequate supply of water may be made available for such projects, whether heretofore, herein, or hereafter authorized.

For the purposes of furnishing irrigation water and municipal water supplies to the water-deficient areas of Arizona and western New Mexico through direct diversion or exchange of water, control of floods, conservation and development of fish and wildlife resources, enhancement of recreation opportunities, and for other purposes, the Secretary shall construct, operate, and maintain the Central Arizona Project, consisting of the following principal works: (1) a system of main conduits and canals, including a main canal and pumping plants (Hayden-Rhodes Aqueduct and pumping plants), for diverting and carrying water from Lake Havasu to Orme Dam or suitable alternative, which system may have a capacity of 3,000 cubic feet per second or whatever lesser capacity is found to be feasible: *Provided*, That any capacity in the Hayden-Rhodes Aqueduct in excess of 2,500 cubic feet per second shall be utilized for the conveyance of Colorado River water only when Lake Powell is full or releases of water are made from Lake Powell to prevent the reservoir from exceeding elevation 3,700 feet above mean sea level or when releases are made pursuant to the proviso in section 1552(a)(3) of this title: *Provided further*, That the costs of providing any capacity in excess of 2,500 cubic feet per second shall be repaid by those funds available to Arizona pursuant to the provision of section 1543(f) of this title, or by funds from sources other than the development fund; (2) Orme Dam and Reservoir and power pumping plant or suitable alternative; (3) Buttes Dam and Reservoir, which shall be so operated as not to prejudice the rights of any user in and to the waters of the Gila River as those rights are set forth in the decree entered by the United States District Court for the District of Arizona on June 29, 1935, in United States against Gila Valley Irrigation District and others (Globe Equity Numbered 59); (4) Hooker Dam and Reservoir or suitable alternative, which shall be constructed in such a manner as to give effect to the provisions of subsection (f) of section 1524 of this title; (5) Charleston Dam and Reservoir; (6) Tucson aqueducts and pumping plants; (7) Fannin-McFarland Aqueduct; (8) related canals, regulating facilities, hydroelectric powerplants, and electric transmission facilities required for the operation of said principal works; (9) related water distribution and drainage works; and (10) appurtenant works.

(b) Limitation on water diversions in years of insufficient main stream Colorado River water

Article II(B)(3) of the decree of the Supreme Court of the United States in Arizona against California (376 U.S. 340) shall be so administered that in any year in which, as determined by the Secretary, there is insufficient main stream Colorado River water available for release to satisfy annual consumptive use of seven million five hundred thousand acre-feet in Arizona, California, and Nevada, diversions from the main stream for the Central Arizona Project shall be so limited as to assure the availability of water in quantities sufficient to provide for the aggregate annual consumptive use by holders of present perfected rights, by other users in the State of California served under existing contracts with the United States by diversion works heretofore constructed, and by other existing Federal reservations in that State, of four million four hundred thousand acre-feet of mainstream water, and by users of the same character in Arizona and Nevada. Water users in the State of Nevada shall not be required to bear shortages in any proportion greater than would have been imposed in the absence of this subsection. This subsection shall not affect the relative priorities, among themselves, of water users in Arizona, Nevada, and California which are senior to diversions for the Central Arizona Project, or amend any provisions of said decree.

(c) Augmentation of water supply of Colorado River system

The limitation stated in subsection (b) of this section shall not apply so long as the Secretary shall determine and proclaim that means are available and in operation which augment the water supply of the Colorado River system in such quantity as to make sufficient mainstream water available for release to satisfy annual consumptive use of seven million five hundred thousand acre-feet in Arizona, California, and Nevada.

“(b) Any reference in any law, regulation, document, record, map, or other paper of the United States to the aqueduct referred to in subsection (a) hereby is deemed to be a reference to the ‘Hayden-Rhodes Aqueduct’.”

§1522. Orme Dam and Reservoir

(a) Acquisition of lands of Salt River Pima-Maricopa Indian Community and Fort McDowell-Apache Indian Community; relocation; eminent domain

The Secretary shall designate the lands of the Salt River Pima-Maricopa Indian Community, Arizona, and the Fort McDowell-Apache Indian Community, Arizona, or interests therein, and any allotted lands or interests therein within said communities which he determines are necessary for use and occupancy by the United States for the construction, operation, and maintenance of Orme Dam and Reservoir, or alternative. The Secretary shall offer to pay the fair market value of the lands and interests designated, inclusive of improvements. In addition, the Secretary shall offer to pay toward the cost of relocating or replacing such improvements not to exceed \$500,000 in the aggregate, and the amount offered for the actual relocation or replacement of a residence shall not exceed the difference between the fair market value of the residence and \$8,000. Each community and each affected allottee shall have six months in which to accept or reject the Secretary's offer. If the Secretary's offer is rejected, the United States may proceed to acquire the property interests involved through eminent domain proceedings in the United States District Court for the District of Arizona under sections 3113 and 3114(a) to (d) of title 40. Upon acceptance in writing of the Secretary's offer, or upon the filing of a declaration of taking in eminent domain proceedings, title to the lands or interests involved, and the right to possession thereof, shall vest in the United States. Upon a determination by the Secretary that all or any part of such lands or interests are no longer necessary for the purpose for which acquired, title to such lands or interests shall be restored to the appropriate community upon repayment to the Federal Government of the amounts paid by it for such lands.

(b) Rights of former owners to use or lease land

Title to any land or easement acquired pursuant to this section shall be subject to the right of the former owner to use or lease the land for purposes not inconsistent with the construction, operation, and maintenance of the project, as determined by, and under terms and conditions prescribed by, the

Secretary. Such right shall include the right to extract and dispose of minerals. The determination of fair market value under subsection (a) of this section shall reflect the right to extract and dispose of minerals and all other uses permitted by this section.

(c) Addition of land to Fort McDowell Indian Reservation

In view of the fact that a substantial portion of the lands of the Fort McDowell Mohave-Apache Indian Community will be required for Orme Dam and Reservoir, or alternative, the Secretary shall, in addition to the compensation provided for in subsection (a) of this section, designate and add to the Fort McDowell Indian Reservation twenty-five hundred acres of suitable lands in the vicinity of the reservation that are under the jurisdiction of the Department of the Interior in township 4 north, range 7 east; township 5 north, range 7 east; and township 3 north, range 7 east, Gila and Salt River base meridian, Arizona. Title to lands so added to the reservation shall be held by the United States in trust for the Fort McDowell Mohave-Apache Indian Community.

(d) Recreational facilities developed and operated by Indian communities along Orme Reservoir shoreline

Each community shall have a right, in accordance with plans approved by the Secretary, to develop and operate recreational facilities along the part of the shoreline of the Orme Reservoir located on or adjacent to its reservation, including land added to the Fort McDowell Reservation as provided in subsection (b) of this section, subject to rules and regulations prescribed by the Secretary governing the recreation development of the reservoir. Recreation development of the entire reservoir and federally owned lands under the jurisdiction of the Secretary adjacent thereto shall be in accordance with a master recreation plan approved by the Secretary. The members of each community shall have nonexclusive personal rights to hunt and fish on or in the reservoir without charge to the same extent they are now authorized to hunt and fish, but no community shall have the right to exclude others from the reservoir except by control of access through its reservation or any right to require payment by members of the public except for the use of community lands or facilities.

(e) Exemption of funds from State and Federal income taxes

All funds paid pursuant to this section, and any per capita distribution thereof, shall be exempt from all forms of State and Federal income taxes.

§1523. Power requirements of Central Arizona Project and augmentation of Lower Colorado River Basin Development Fund

(a) Engineering and economic studies

The Secretary is authorized and directed to continue to a conclusion appropriate engineering and

economic studies and to recommend the most feasible plan for the construction and operation of hydroelectric generating and transmission facilities, the purchase of electrical energy, the purchase of entitlement to electrical plant capacity, or any combination thereof, including participation, operation, or construction by non-Federal entities, for the purpose of supplying the power requirements of the Central Arizona Project and augmenting the Lower Colorado River Basin Development Fund: *Provided*, That nothing in this section or in this chapter contained shall be construed to authorize the study or construction of any dams on the main stream of the Colorado River between Hoover Dam and Glen Canyon Dam.

(b) Construction of thermal generating powerplants; agreements for acquisition by United States of portions of plant capacity

If included as a part of the recommended plan, the Secretary may enter into agreements with non-Federal interests proposing to construct thermal generating powerplants whereby the United States shall acquire the right to such portions of their capacity, including delivery of power and energy over appurtenant transmission facilities to mutually agreed upon delivery points, as he determines is required in connection with the operation of the Central Arizona Project. When not required for the Central Arizona Project, the power and energy acquired by such agreements may be disposed of intermittently by the Secretary for other purposes at such prices as he may determine, including its marketing in conjunction with the sale of power and energy from Federal powerplants in the Colorado River system so as to produce the greatest practicable amount of power and energy that can be sold at firm power and energy rates. The agreements shall provide among other things, that—

(1) the United States shall pay not more than that portion of the total construction cost, exclusive of interest during construction, of the powerplants, and of any switchyards and transmission facilities serving the United States, as is represented by the ratios of the respective capacities to be provided for the United States therein to the total capacities of such facilities. The Secretary shall make the Federal portion of such costs available to the non-Federal interests during the construction period, including the period of preparation of designs and specifications, in such installments as will facilitate a timely construction schedule, but no funds other than for preconstruction activities shall be made available by the Secretary until he determines that adequate contractual arrangements have been entered into between all the affected parties covering land, water, fuel supplies, power (its availability and use), rights-of-way, transmission facilities and all other necessary matters for the thermal generating powerplants;

(2) annual operation and maintenance costs shall be apportioned between the United States and the non-Federal interests on an equitable basis taking into account the ratios determined in accordance with the foregoing clause (1): *Provided, however*, That the United States shall share on the foregoing basis in the depreciation component of such costs only to the extent of provision for depreciation on replacements financed by the non-Federal interests;

(3) the United States shall be given appropriate credit for any interests in Federal lands administered by the Department of the Interior that are made available for the power plants and appurtenances;

(4) costs to be borne by the United States under clauses (1) and (2) shall not include (a) interest and interest during construction, (b) financing charges, (c) franchise fees, and (d) such other costs as shall be specified in the agreement.

(c) Recommended plan; submission to Congress

No later than one year from September 30, 1968, the Secretary shall submit his recommended plan to the Congress. Except as authorized by subsection (b) of this section, such plan shall not become effective until approved by the Congress.

(d) Apportionment of water for Arizona plants diverted above Lee Ferry

If any thermal generating plant referred to in subsection (b) of this section is located in Arizona, and if it is served by water diverted from the drainage area of the Colorado River system above Lee Ferry, other provisions of existing law to the contrary notwithstanding, such consumptive use of

water shall be a part of the fifty thousand acre-feet per annum apportioned to the State of Arizona by article III(a) of the Upper Colorado River Basin Compact (63 Stat. 31).

§1524. Water furnished from Central Arizona Project

(a) Restriction on use of water for irrigation

Unless and until otherwise provided by Congress, water from the Central Arizona Project shall not be made available directly or indirectly for the irrigation of lands not having a recent irrigation history as determined by the Secretary, except in the case of Indian lands, national wildlife refuges, and, with the approval of the Secretary, State-administered wildlife management areas.

(b) Contracts with municipal and industrial users

(1) Irrigation and municipal and industrial water supply under the Central Arizona Project within the State of Arizona may, in the event the Secretary determines that it is necessary to effect repayment, be pursuant to master contracts with organizations which have power to levy assessments against all taxable real property within their boundaries. The terms and conditions of contracts or other arrangements whereby each such organization makes water from the Central Arizona Project available to users within its boundaries shall be subject to the Secretary's approval, and the United States shall, if the Secretary determines such action is desirable to facilitate carrying out the provisions of this chapter, have the right to require that it be a party to such contracts or that contracts subsidiary to the master contracts be entered into between the United States and any user. The provisions of this clause (1) shall not apply to the supplying of water to an Indian tribe for use within the boundaries of an Indian reservation.

(2) Any obligation assumed pursuant to section 485h(d) of this title with respect to any project contract unit or irrigation block shall be repaid over a basic period of not more than fifty years; any water service provided pursuant to section 485h(e) of this title may be on the basis of delivery of water for a period of fifty years and for the delivery of such water at an identical price per acre-foot for water of the same class at the several points of delivery from the main canals and conduits and from such other points of delivery as the Secretary may designate; and long-term contracts relating to irrigation water supply shall provide that water made available thereunder may be made available by the Secretary for municipal or industrial purposes if and to the extent that such water is not required by the contractor for irrigation purposes.

(3) Contracts relating to municipal and industrial water supply under the Central Arizona Project may be made without regard to the limitations of the last sentence of section 485h(c) of this title; may provide for the delivery of such water at an identical price per acre-foot for water of the same class at the several points of delivery from the main canals and conduits; and may provide for repayment over a period of fifty years if made pursuant to clause (1) of said section and for the delivery of water over a period of fifty years if made pursuant to clause (2) thereof.

(c) Water conservation

Each contract under which water is provided under the Central Arizona Project shall require that (1) there be in effect measures, adequate in the judgment of the Secretary, to control expansion of irrigation from aquifers affected by the irrigation in the contract service area; (2) the canals and distribution systems through which water is conveyed after its delivery by the United States to the contractors shall be provided and maintained with linings adequate in his judgment to prevent

excessive conveyance losses; and (3) [Repealed. Pub. L. 102–575, title XXXVII, §3710(k), Oct. 30, 1992, 106 Stat. 4751]. Such contracts shall be subordinate at all times to the satisfaction of all existing contracts between the Secretary and users in Arizona heretofore made pursuant to the Boulder Canyon Project Act (45 Stat. 1057) [43 U.S.C. 617 et seq.].

(d) Water exchanges

The Secretary may require in any contract under which water is provided from the Central Arizona Project that the contractor agree to accept main stream water in exchange for or in replacement of existing supplies from sources other than the main stream. The Secretary shall so require in the case of users in Arizona who also use water from the Gila River system to the extent necessary to make available to users of water from the Gila River system in New Mexico additional quantities of water as provided in and under the conditions specified in subsection (f) of this section: *Provided*, That such exchanges and replacements shall be accomplished without economic injury or cost to such Arizona contractors.

(e) Water shortage priorities

In times of shortage or reduction of main stream Colorado River water for the Central Arizona Project, as determined by the Secretary, users which have yielded water from other sources in exchange for main stream water supplied by that project shall have a first priority to receive main stream water, as against other users supplied by that project which have not so yielded water from other sources, but only in quantities adequate to replace the water so yielded.

(f) New Mexico users; water exchange contracts

(1) In the operation of the Central Arizona Project, the Secretary shall offer to contract with water users in the State of New Mexico, with the approval of its Interstate Stream Commission, or with the State of New Mexico, through its Interstate Stream Commission, for water from the Gila River, its tributaries and underground water sources in amounts that will permit consumptive use of water in New Mexico of not to exceed an annual average in any period of 10 consecutive years of 14,000 acre-feet, including reservoir evaporation, over and above the consumptive uses provided for by article IV of the decree of the Supreme Court of the United States in *Arizona v. California* (376 U.S. 340). Such increased consumptive uses shall continue only so long as delivery of Colorado River water to downstream Gila River users in Arizona is being accomplished in accordance with this chapter, in quantities sufficient to replace any diminution of their supply resulting from such diversion from the Gila River, its tributaries and underground water sources. In determining the amount required for this purpose, full consideration shall be given to any differences in the quality of the water involved.

(2) All additional consumptive uses provided for in clauses (1) and (2) ¹ of this subsection shall be subject to all rights in New Mexico and Arizona as established by the decree entered by the United States District Court for the District of Arizona on June 29, 1935, in *United States against Gila Valley Irrigation District and others* (Globe Equity Numbered 59) and to all other rights existing on September 30, 1968, in New Mexico and Arizona to water from the Gila River, its tributaries, and underground water sources, and shall be junior thereto and shall be made only to the extent possible without economic injury or cost to the holders of such rights.

CODIFICATION

Subsec. (g) of this section, which restricted the use of water from the projects authorized by this chapter for the production of basic agricultural commodities on newly irrigated lands for a period of ten years from Sept. 30, 1968, was omitted.

AMENDMENTS

2004—Subsec. (f)(1). Pub. L. 108–451, §212(d)(1), added par. (1) and struck out former par. (1) which read as follows: “In the operation of the Central Arizona Project, the Secretary shall offer to contract with water users in New Mexico for water from the Gila River, its tributaries and underground water sources in amounts that will permit consumptive use of water in New Mexico of not to exceed an annual average in any period of ten consecutive years of eighteen thousand acre-feet, including reservoir evaporation, over and above the consumptive uses provided for by article IV of the decree of the Supreme Court of the United States in Arizona against California (376 U.S. 340). Such increased consumptive uses shall not begin until, and shall continue only so long as, delivery of Colorado River water to downstream Gila River users in Arizona is being accomplished in accordance with this chapter, in quantities sufficient to replace any diminution of their supply resulting from such diversion from the Gila River, its tributaries and underground water sources. In determining the amount required for this purpose full consideration shall be given to any differences in the quality of the waters involved.”

(2) which read as follows: “The Secretary shall further offer to contract with water users in New Mexico for water from the Gila River, its tributaries, and underground water sources in amounts that will permit consumptive uses of water in New Mexico of not to exceed an annual average in any period of ten consecutive years of an additional thirty thousand acre-feet, including reservoir evaporation. Such further increases in consumptive use shall not begin until, and shall continue only so long as, works capable of augmenting the water supply of the Colorado River system have been completed and water sufficiently in excess of two million eight hundred thousand acre-feet per annum is available from the main stream of the Colorado River for consumptive use in Arizona to provide water for the exchanges herein authorized and provided. In determining the amount required for this purpose full consideration shall be given to any differences in the quality of the waters involved.”

1992—Subsec. (c)(3). Pub. L. 102–575 repealed cl. (3) which read as follows: “neither the contractor nor the Secretary shall pump or permit others to pump ground water from within the exterior boundaries of the service area of a contractor receiving water from the Central Arizona Project for any use outside said contractor's service area unless the Secretary and such contractor shall agree, or shall have previously agreed, that a surplus of ground water exists and that drainage is or was required.”

§1525. Cost of main stream water of Colorado River

To the extent that the flow of the main stream of the Colorado River is augmented in order to make sufficient water available for release, as determined by the Secretary pursuant to article II(b)(1) of the decree of the Supreme Court of the United States in Arizona against California (376 U.S. 340), to satisfy annual consumptive use of two million eight hundred thousand acre-feet in Arizona, four million four hundred thousand acre-feet in California, and three hundred thousand acre-feet in Nevada, respectively, the Secretary shall make such water available to users of main stream water in those States at the same costs (to the extent that such costs can be made comparable through the

nonreimbursable allocation to the replenishment of the deficiencies occasioned by satisfaction of the Mexican Treaty burden as herein provided and financial assistance from the development fund established by section 1543 of this title) and on the same terms as would be applicable if main stream water were available for release in the quantities required to supply such consumptive use. (Pub. L. 90–537, title III, §305, Sept. 30, 1968, 82 Stat. 893.)

§1526. Water salvage programs

The Secretary shall undertake programs for water salvage and ground water recovery along and adjacent to the main stream of the Colorado River. Such programs shall be consistent with maintenance of a reasonable degree of undistributed habitat for fish and wildlife in the area, as determined by the Secretary.

(a) There is hereby authorized to be appropriated for construction of the Central Arizona Project, including prepayment for power generation and transmission facilities but exclusive of distribution and drainage facilities for non-Indian lands, \$832,180,000 plus or minus such amounts, if any, as may be justified by reason of ordinary fluctuations in construction costs as indicated by engineering cost indices applicable to the types of construction involved therein and, in addition thereto, such sums as may be required for operation and maintenance of the project.

(b) There is also authorized to be appropriated \$100,000,000 for construction of distribution and drainage facilities for non-Indian lands plus or minus such amounts, if any, as may be justified by reason of ordinary fluctuations in construction costs as indicated by engineering and cost indices applicable to the types of construction involved therein from September 30, 1968: *Provided*, That the Secretary shall enter into agreements with non-Federal interests to provide not less than 20 per centum of the total cost of such facilities during the construction of such facilities. Notwithstanding the provisions of section 1543 of this title, neither appropriations made pursuant to the authorization contained in this subsection nor revenues collected in connection with the operation of such facilities shall be credited to the Lower Colorado River Basin Development Fund and payments shall not be made from that fund to the general fund of the Treasury to return any part of the costs of construction, operation, and maintenance of such facilities.

SUBCHAPTER IV—LOWER COLORADO RIVER BASIN DEVELOPMENT FUND

§1541. Allocation of costs; repayment

Upon completion of each lower basin unit of the project herein or hereafter authorized, or separate feature thereof, the Secretary shall allocate the total costs of constructing said unit or features to (1) commercial power, (2) irrigation, (3) municipal and industrial water supply, (4) flood control, (5) navigation, (6) water quality control, (7) recreation, (8) fish and wildlife, (9) the replenishment of the depletion of Colorado River flows available for use in the United States occasioned by performance of the Water Treaty of 1944 with the United Mexican States (Treaty Series 994; 59 Stat. 1219), and (10) any other purposes authorized under the Federal reclamation laws. Costs of construction, operation, and maintenance allocated to the replenishment of the depletion of Colorado River flows available for use in the United States occasioned by compliance with the Mexican Water Treaty (including losses in transit, evaporation from regulatory reservoirs, and regulatory losses at the Mexican boundary, incurred in the transportation, storage, and delivery of water in discharge of the obligations of that treaty) shall be nonreimbursable: *Provided*, That the nonreimbursable allocation shall be made on a pro rata basis to be determined by the ratio between the amount of water required to comply with the Mexican Water Treaty and the total amount of water by which the Colorado River is augmented pursuant to the investigations authorized subchapter II of this chapter and any future Congressional authorization. The repayment of costs allocated to recreation and fish and wildlife enhancement shall be in accordance with the provisions of the Federal Water Project Recreation Act (79 Stat. 213) [16 U.S.C. 460l–12 et seq.]: *Provided*, That all of the separable and joint costs allocated to recreation and fish and wildlife enhancement as a part of the Dixie project, Utah, shall be nonreimbursable. Costs allocated to nonreimbursable purposes shall be nonreturnable under the provisions of this chapter.

§1552. Criteria for long-range operation of reservoirs

(a) Promulgation by Secretary; order of priorities

In order to comply with and carry out the provisions of the Colorado River Compact, the Upper Colorado River Basin Compact, and the Mexican Water Treaty, the Secretary shall propose criteria for the coordinated long-range operation of the reservoirs constructed and operated under the authority of the Colorado River Storage Project Act [43 U.S.C. 620 et seq.], the Boulder Canyon Project Act [43 U.S.C. 617 et seq.], and the Boulder Canyon Project Adjustment Act [43 U.S.C. 618 et seq.]. To effect in part the purposes expressed in this paragraph, the criteria shall make provision for the storage of water in storage units of the Colorado River storage project and releases of water from Lake Powell in the following listed order of priority:

(1) releases to supply one-half the deficiency described in article III(c) of the Colorado River Compact, if any such deficiency exists and is chargeable to the States of the Upper Division, but in any event such releases, if any, shall not be required in any year that the Secretary makes the determination and issues the proclamation specified in section 1512 of this title;

(2) releases to comply with article III(d) of the Colorado River Compact, less such quantities of water delivered into the Colorado River below Lee Ferry to the credit of the States of the Upper Division from other sources; and

(3) storage of water not required for the releases specified in clauses (1) and (2) of this subsection to the extent that the Secretary, after consultation with the Upper Colorado River Commission and representatives of the three Lower Division States and taking into consideration all relevant factors (including, but not limited to, historic stream-flows, the most critical period of record, and probabilities of water supply), shall find this to be reasonably necessary to assure deliveries under clauses (1) and (2) without impairment of annual consumptive uses in the upper basin pursuant to the Colorado River Compact: *Provided*, That water not so required to be stored shall be released from Lake Powell: (i) to the extent it can be reasonably applied in the States of the Lower Division to the uses specified in article III(e) of the Colorado River Compact, but no such releases shall be made when the active storage in Lake Powell is less than the active storage in Lake Mead, (ii) to maintain, as nearly as practicable, active storage in Lake Mead equal to the active storage in Lake Powell, and (iii) to avoid anticipated spills from Lake Powell.

(b) Submittal of criteria for review and comment; publication; report to Congress

Not later than January 1, 1970, the criteria proposed in accordance with the foregoing subsection (a) of this section shall be submitted to the Governors of the seven Colorado River Basin States and to such other parties and agencies as the Secretary may deem appropriate for their review and comment. After receipt of comments on the proposed criteria, but not later than July 1, 1970, the Secretary shall adopt appropriate criteria in accordance with this section and publish the same in the Federal Register. Beginning January 1, 1972, and yearly thereafter, the Secretary shall transmit to the Congress and to the Governors of the Colorado River Basin States a report describing the actual operation under the adopted criteria for the preceding compact water year and the projected operation for the current year. As a result of actual operating experience or unforeseen circumstances, the Secretary may thereafter modify the criteria to better achieve the purposes specified in subsection (a) of this section, but only after correspondence with the Governors of the seven Colorado River Basin States and appropriate consultation with such State representatives as each Governor may designate.

(c) Powerplant operations

Section 7 of the Colorado River Storage Project Act [43 U.S.C. 620f] shall be administered in

accordance with the foregoing criteria.

SUBCHAPTER I—PROGRAMS DOWNSTREAM FROM IMPERIAL DAM**§1571. Water quality improvement****(a) Authority to proceed with program**

The Secretary of the Interior, hereinafter referred to as the “Secretary”, is authorized and directed to proceed with a program of works of improvement for the enhancement and protection of the quality of water available in the Colorado River for use in the United States and the Republic of Mexico, and to enable the United States to comply with its obligations under the agreement with Mexico of August 30, 1973 (Minute No. 242 of the International Boundary and Water Commission, United States and Mexico), concluded pursuant to the Treaty of February 3, 1944 (TS 994), in accordance with the provisions of this chapter.

(b) Desalting complexes and plants

(1) The Secretary is authorized to construct, operate, and maintain a desalting complex, including (1) a desalting plant to reduce the salinity of drain water from the Wellton-Mohawk division of the Gila project, Arizona (hereinafter referred to as the division), including a pretreatment plant for settling, softening, and filtration of the drain water to be desalted; (2) the necessary appurtenant works including the intake pumping plant system, product waterline, power transmission facilities, and permanent operating facilities; (3) the necessary extension in the United States and Mexico of the existing bypass drain to carry the reject stream from the desalting plant and other drainage waters to the Santa Clara Slough in Mexico, with the part in Mexico, subject to arrangements made pursuant to subsection (d) of this section; (4) replacement of the metal flume in the existing main outlet drain extension with a concrete siphon; (5) reduction of the quantity of irrigation return flows through acquisition of lands to reduce the size of the division, and irrigation efficiency improvements to minimize return flows; (6) acquire on behalf of the United States such lands or interest in lands in the Painted Rock Reservoir as may be necessary to operate the project in accordance with the obligations of Minute No. 242, and (7) all associated facilities including roads, railroad spur, and transmission lines.

(2)(A) The desalting plant shall be designed to treat approximately one hundred and twenty-nine million gallons a day of drain water using advanced technology commercially available. The plant shall effect recovery initially of not less than 70 per centum of the drain water as product water, and shall effect reduction of not less than 90 per centum of the dissolved solids in the feed water. The Secretary shall use sources of electric power supply for the desalting complex that will not diminish the supply of power to preference customers from Federal power systems operated by the Secretary.

(B) The Secretary is authorized to use electrical power and energy available from the Navajo Generating Station which is in excess of the Central Arizona Project pumping requirements for the purpose of supplying power and energy requirements of the desalting plant and protective pumping well field constructed pursuant to this subchapter: *Provided*, That revenues credited to the Lower Colorado River Basin Development Fund shall not be diminished below those amounts which would have accrued had the power been marketed at the rate determined by the Secretary of Energy for the sale of power from the Navajo Generating Station to utilities and public entities, as a result of the use of power and energy for the desalting, protective pumping works, and other uses authorized by law, and that power and energy from the Navajo Generating Station shall be used first to meet the pumping requirements of the Central Arizona Project and after those needs have been met, for the desalting and protective pumping facilities constructed pursuant to this subchapter, and finally for other uses: *Provided further*, That prior to obtaining power from the Navajo Generating Station under the authority of this subsection, the Secretary shall complete an analysis of alternative sources of supply, including but not limited to the possibility of developing an agreement with the Republic of Mexico whereby the United States (or a non-Federal entity) would enter into contractual arrangements with Mexico for a sufficient supply of power to operate the desalting plant, the regulatory pumping fields and appurtenant facilities.

(C) Effective October 1, 1979, and to such extent and in such amounts as are provided in advance in appropriation Acts, the Secretary of the Interior is authorized to purchase supplemental power and energy as required for the purposes of supplying the power and energy requirements of the desalting plant and protective pumping well field.

(c) Replacement water studies

Replacement of the reject stream from the desalting plant, Colorado River waters used for the mitigation of fish and wildlife habitat losses and of any Wellton-Mohawk drainage water bypassed to the Santa Clara Slough to accomplish essential operation except at such times when there exists surplus water of the Colorado River under the terms of the Mexican Water Treaty of 1944, is recognized as a national obligation as provided in section 1512 of this title. Studies to identify feasible measures to provide adequate replacement water shall be completed not later than June 30, 1980. Said studies shall be limited to potential sources within the States of Arizona, California, Colorado, New Mexico, and those portions of Nevada, Utah, and Wyoming which are within the natural drainage basin of the Colorado River. Measures found necessary to replace the reject stream from the desalting plant, Colorado River waters used for the mitigation of fish and wildlife habitat losses and any Wellton-Mohawk drainage bypassed to the Santa Clara Slough to accomplish essential operations may be undertaken independently of the national obligation set forth in section 1512 of this title.

(d) Advancement of funds for that portion of bypass drain within Mexico

The Secretary is hereby authorized to advance funds to the United States section, International Boundary and Water Commission (IBWC), for construction, operation, and maintenance by Mexico pursuant to Minute No. 242 of that portion of the bypass drain within Mexico. Such funds shall be transferred to an appropriate Mexican agency, under arrangements to be concluded by the IBWC providing for the construction, operation, and maintenance of such facility by Mexico.

(e) Desalted water exchange

Any desalted water not needed for the purposes of this subchapter may be exchanged at prices and under terms and conditions satisfactory to the Secretary and the proceeds therefrom shall be deposited in the General Fund of the Treasury. The city of Yuma, Arizona, shall have first right of refusal to any such water.

(f) Return flow reduction

For the purpose of reducing the return flows from the division to one hundred and seventy-five thousand acre-feet or less, annually, the Secretary is authorized to:

(1) Accelerate the cooperative program of Irrigation Management Services with the Wellton-Mohawk Irrigation and Drainage District, hereinafter referred to as the district, for the purpose of improving irrigation efficiency. The district shall bear its share of the cost of such program as determined by the Secretary.

(2) Acquire by purchase or through eminent domain or exchange, to the extent determined by him to be appropriate, lands or interests in lands to reduce the existing seventy-five thousand developed and undeveloped irrigable acres authorized by the Act of July 30, 1947 (61 Stat. 628), known as the Gila Reauthorization Act [43 U.S.C. 613 et seq.]. The initial reduction in irrigable acreage shall be limited to approximately ten thousand acres. If the Secretary determines that the irrigable acreage of the division must be reduced below sixty-five thousand acres of irrigable lands to carry out the purpose of this section, the Secretary is authorized, with the consent of the district, to acquire additional lands, as may be deemed by him to be appropriate.

(g) Disposal of acquired lands

The Secretary is authorized to dispose of the acquired lands and interests therein on terms and conditions satisfactory to him and meeting the objective of this chapter.

(h) Assistance to water users for installation of system improvements

The Secretary is authorized, either in conjunction with or in lieu of land acquisition, to assist water users in the division in installing system improvements, such as ditch lining, change of field layouts,

automatic equipment, sprinkler systems and bubbler systems, as a means of increasing irrigation efficiencies: *Provided, however,* That all costs associated with the improvements authorized herein and allocated to the water users on the basis of benefits received, as determined by the Secretary, shall be reimbursed to the United States in amounts and on terms and conditions satisfactory to the Secretary.

(i) Contract amendment

The Secretary is authorized to amend the contract between the United States and the district dated March 4, 1952, as amended, to provide that—

(1) the portion of the existing repayment obligation owing to the United States allocable to irrigable acreage eliminated from the division for the purposes of this subchapter, as determined by the Secretary, shall be nonreimbursable; and

(2) if deemed appropriate by the Secretary, the district shall be given credit against its outstanding repayment obligation to offset any increase in operation and maintenance assessments per acre which may result from the district's decreased operation and maintenance base, all as determined by the Secretary.

(j) Acquisition of land for storage

The Secretary is authorized to acquire through the Corps of Engineers fee title to, or other necessary interests in, additional lands above the Painted Rock Dam in Arizona that are required for the temporary storage capacity needed to permit operation of the dam and reservoir in times of serious flooding in accordance with the obligations of the United States under Minute No. 242. No funds shall be expended for acquisition of land or interests therein until it is finally determined by a Federal court of competent jurisdiction that the Corps of Engineers presently lacks legal authority to use said lands for this purpose. Nothing contained in this subchapter nor any action taken pursuant to it shall be deemed to be a recognition or admission of any obligation to the owners of such land on the part of the United States or a limitation or deficiency in the rights or powers of the United States with respect to such lands or the operation of the reservoir.

(k) Transfer of funds

To the extent desirable to carry out subsections (f)(1) and (h) of this section, the Secretary may transfer funds to the Secretary of Agriculture as may be required for technical assistance to farmers, conduct of research and demonstrations, and such related investigations as are required to achieve higher on-farm irrigation efficiencies.

(l) Nonreimbursable costs

All cost associated with the desalting complex shall be nonreimbursable except as provided in subsections (f) and (h) of this section.

(Pub. L. 93–320, title I, §101, June 24, 1974, 88 Stat. 266; Pub. L. 96–336, §§1, 2, Sept. 4, 1980, 94 Stat. 1063.)

§1572. Canal or canal lining

(a) Authorization of construction

To assist in meeting salinity control objectives of Minute No. 242 during an interim period, the Secretary is authorized to construct a new concrete-lined canal or, to line the presently unlined portion of the Coachella Canal of the Boulder Canyon project, California, from station 2 plus 26 to the beginning of siphon numbered 7, a length of approximately forty-nine miles. The United States shall be entitled to temporary use of a quantity of water, for the purpose of meeting the salinity control objectives of Minute No. 242, during an interim period, equal to the quantity of water conserved by constructing or lining the said canal. The interim period shall commence on completion of construction or lining said canal and shall end the first year that the Secretary delivers main stream Colorado River water to California in an amount less than the sum of the quantities requested by (1) the California agencies under contracts made pursuant to section 617d of this title, and (2) Federal establishments to meet their water rights acquired in California in accordance with the Supreme Court decree in Arizona against California (376 U.S. 340).

(b) Repayment

The charges for total construction shall be repayable without interest in equal annual installments over a period of forty years beginning in the year following completion of construction: *Provided*, That, repayment shall be prorated between the United States and the Coachella Valley County Water District, and the Secretary is authorized to enter into a repayment contract with Coachella Valley County Water District for that purpose. Such contract shall provide that annual repayment installments shall be nonreimbursable during the interim period, defined in subsection (a) of this section and shall provide that after the interim period, said annual repayment installments or portions thereof, shall be paid by Coachella Valley County Water District.

(c) Acquisition of private lands

The Secretary is authorized to acquire by purchase, eminent domain, or exchange private lands or interests therein, as may be determined by him to be appropriate, within the Imperial Irrigation District on the Imperial East Mesa which receive, or which have been granted rights to receive, water from Imperial Irrigation District's capacity in the Coachella Canal. Costs of such acquisitions shall be nonreimbursable and the Secretary shall return such lands to the public domain. The United States shall not acquire any water rights by reason of this land acquisition.

(d) Credit to Imperial Irrigation District against final payments for relinquished capacity in Coachella Canal

The Secretary is authorized to credit Imperial Irrigation District against its final payments for certain outstanding construction charges payable to the United States on account of capacity to be relinquished in the Coachella Canal as a result of the canal lining program, all as determined by the Secretary: *Provided*, That, relinquishment of capacity shall not affect the established basis for allocating operation and maintenance costs of the main All-American Canal to existing contractors.

(e) Transfer of lands to Cocopah Tribe of Indians

The Secretary is authorized and directed to cede the following land to the Cocopah Tribe of Indians, subject to rights-of-way for existing levees, to be held in trust by the United States for the Cocopah Tribe of Indians:

Township 9 south, range 25 west of the Gila and Salt River meridian, Arizona;

Section 25: Lots 18, 19, 20, 21, 22, and 23;

Section 26: Lots 1, 12, 13, 14, and 15;

Section 27: Lot 3; and all accretion to the above described lands.

The Secretary is authorized and directed to construct three bridges, one of which shall be capable

of accommodating heavy vehicular traffic, over the portion of the bypass drain which crosses the reservation of the Cocopah Tribe of Indians. The transfer of lands to the Cocopah Indian Reservation and the construction of bridges across the bypass drain shall constitute full and complete payment to said tribe for the rights-of-way required for construction of the bypass drain and electrical transmission lines for works authorized by this subchapter.

§1573. Construction and maintenance of well fields; land acquisition; land replacement; nonreimbursable costs

(a) The Secretary is authorized to:

(1) Construct, operate, and maintain, consistent with Minute No. 242, well fields capable of furnishing approximately one hundred and sixty thousand acre-feet of water per year for use in the United States and for delivery to Mexico in satisfaction of the 1944 Mexican Water Treaty.

(2) Acquire by purchase, eminent domain, or exchange, to the extent determined by him to be appropriate, approximately twenty-three thousand five hundred acres of lands or interests therein with approximately five miles of the Mexican border on the Yuma Mesa: *Provided, however*, That any such lands which are presently owned by the State of Arizona may be acquired or exchanged for Federal lands.

(3) Any lands removed from the jurisdiction of the Yuma Mesa Irrigation and Drainage District pursuant to clause (2) of this subsection which were available for use under the Gila Reauthorization Act (61 Stat. 628) [43 U.S.C. 613 et. seq.], shall be replaced with like lands within or adjacent to the Yuma Mesa division of the project. In the development of these substituted lands or any other lands within the Gila project, the Secretary may provide for full utilization of the Gila Gravity Main Canal in addition to contracted capacities.

(4) Effective October 1, 1979, and to such extent and in such amounts as are provided in advance in appropriation Acts, enter into contracts under the terms and conditions of the Act of June 17, 1902 (43 U.S.C. 371 et seq.) as amended and supplemented for the delivery of water from said well field to entities within the United States for municipal and industrial or irrigation purposes: *Provided*, That such contracts for municipal and industrial purposes shall contain terms and conditions as substantially provided in section 485h(c)(1) of this title, and that contracts for replacement irrigation water supplies to prevent damage to existing water users on privately developed lands include water charges no greater than if such water users had continued to pump their own wells without the United States lowering the water table and that the acreage limitation and related provisions of the Reclamation Law will not be applicable to such privately developed lands: *Provided further*, That no contract shall be entered which will impair the ability of the United States to continue to deliver to Mexico on the land boundary at San Luis and in the Limitrophe Section of the Colorado River downstream from Morelos Dam approximately one hundred and forty thousand acre-feet annually, consistent with the terms contained in Minute No. 242 of the IBWC.

(b) The cost of work provided for in this section, including delivery of water to Mexico, shall be nonreimbursable; except to the extent that the waters furnished are used in the United States.

§1592. Authorization to construct, operate, and maintain salinity control units and salinity control programs

(a) Authority of Secretary

The Secretary is authorized to construct, operate, and maintain the following salinity control units and salinity control programs as the initial stage of the Colorado River Basin salinity control program:

(1) The Paradox Valley unit, Montrose County, Colorado, consisting of facilities for collection and disposition of saline ground water of Paradox Valley, including wells, pumps, pipelines, solar evaporation ponds, and all necessary appurtenant and associated works such as roads, fences, dikes, power transmission facilities, and permanent operating facilities, and consisting of measures to replace incidental fish and wildlife values foregone.

(2) The Grand Valley unit, Colorado, consisting of measures and all necessary appurtenant and associated works to reduce the seepage of irrigation water from the irrigated lands of Grand Valley

into the ground water and thence into the Colorado River. Measures shall include lining of canals and laterals, replacing canals and laterals with pipe, and the combining of existing canals and laterals into fewer and more efficient facilities implementing other measures to reduce salt contributions from the Grand Valley to the Colorado River, and implementing measures to replace incidental fish and wildlife values foregone..¹ Prior to initiation of construction of the Grand Valley unit, or portion thereof, the Secretary shall enter into contracts through which the non-Federal entities owning, operating, and maintaining the water distribution systems, or portions thereof, in Grand Valley, singly or in concert, will assume the obligations specified in subsection (b)(2) of this section relating to the continued operation and maintenance of the unit's facilities to the end that the maximum reduction of salinity inflow to the Colorado River will be achieved.

(3) The Las Vegas Wash unit, Nevada, consisting of facilities for collection and disposition of saline ground water of Las Vegas Wash, including infiltration galleries, pumps, desalter, pipelines, solar evaporation facilities, and all appurtenant works including but not limited to roads, fences, power transmission facilities, and operating facilities, and consisting of measures to replace incidental fish and wildlife values foregone.

(4) Stage I of the Lower Gunnison Basin unit, Colorado, consisting of measures and all necessary appurtenant and associated works to reduce seepage from canals and laterals in the Uncompahgre Valley, and consisting of measures to replace incidental fish and wildlife values foregone, essentially as described in the feasibility report and final environmental statement dated February 10, 1984. Prior to initiation of construction of stage I of the Lower Gunnison Basin unit, or of a portion of stage I, the Secretary shall enter into contracts through which the non-Federal entities owning, operating, and maintaining the water distribution systems, or portions thereof, in the Uncompahgre Valley, singly or in concert, will assume the obligations specified in subsection (b)(2) of this section relating to the continued operation and maintenance of the unit's facilities.

(5) Portions of the McElmo Creek unit, Colorado, as components of the Dolores participating project, Colorado River Storage project, authorized by Public Law 90-537 [43 U.S.C. 1501 et seq.] and Public Law 84-485 [43 U.S.C. 620 et seq.], consisting of all measures and all necessary appurtenant and associated works to reduce seepage only from the Towaoc-Highline combined canal, Rocky Ford laterals, Lone Pine lateral, and Upper Hermana lateral, and consisting of measures to replace incidental fish and wildlife values foregone. The Dolores participating project shall have salinity control as a project purpose insofar as these specific facilities are concerned: *Provided*, That the costs of construction and replacement of these specific facilities shall be allocated by the Secretary to salinity control and irrigation only after consultation with the State of Colorado, the Montezuma Valley Irrigation District, Colorado, and the Dolores Water Conservancy District, Colorado: *And provided further*, That such allocation of costs to salinity control will include only the separable and specific costs of these specific facilities and will not include any joint costs of any other facilities of the Dolores participating project. Repayment of costs allocated to salinity control shall be subject to this chapter. Repayment of costs allocated to irrigation shall be subject to the Acts which authorized the Dolores participating project, the Reclamation Act of 1902, and Acts amendatory and supplementary thereto. Prior to initiation of construction of these specific facilities, or a portion thereof, the Secretary shall enter into contracts through which the non-Federal entities owning, operating, and maintaining the water distribution systems, or portions thereof, in the Montezuma Valley, singly or in concert, will assume the obligations specified in subsection (b)(2) of this section relating to the continued operation and maintenance of the unit's facilities.

(6) A basinwide salinity control program that the Secretary, acting through the Bureau of Reclamation, shall implement. The Secretary may carry out the purposes of this paragraph directly, or may make grants, commitments for grants, or advances of funds to non-Federal entities under such terms and conditions as the Secretary may require. Such program shall consist of cost-effective measures and associated works to reduce salinity from saline springs, leaking wells, irrigation sources, industrial sources, erosion of public and private land, or other sources that the Secretary considers appropriate. Such program shall provide for the mitigation of incidental fish and wildlife values that are lost as a result of the measures and associated works. The Secretary shall submit a planning report concerning the program established under this paragraph to the appropriate

committees of Congress. The Secretary may not expend funds for any implementation measure under the program established under this paragraph before the expiration of a 30-day period beginning on the date on which the Secretary submits such report.

(7) BASIN STATES PROGRAM.—

(A) **IN GENERAL.**—A Basin States Program that the Secretary, acting through the Bureau of Reclamation, shall implement to carry out salinity control activities in the Colorado River Basin using funds made available under section 1595(f) of this title.

(B) **ASSISTANCE.**—The Secretary, in consultation with the Colorado River Basin Salinity Control Advisory Council, shall carry out this paragraph using funds described in subparagraph (A) directly or by providing grants, grant commitments, or advance funds to Federal or non-Federal entities under such terms and conditions as the Secretary may require.

(C) **ACTIVITIES.**—Funds described in subparagraph (A) shall be used to carry out, as determined by the Secretary—

(i) cost-effective measures and associated works to reduce salinity from saline springs, leaking wells, irrigation sources, industrial sources, erosion of public and private land, or other sources;

(ii) operation and maintenance of salinity control features constructed under the Colorado River Basin salinity control program; and

(iii) studies, planning, and administration of salinity control activities.

(D) REPORT.—

(i) **IN GENERAL.**—Not later than 30 days before implementing the program established under this paragraph, the Secretary shall submit to the appropriate committees of Congress a planning report that describes the proposed implementation of the program.

(ii) **IMPLEMENTATION.**—The Secretary may not expend funds to implement the program established under this paragraph before the expiration of the 30-day period beginning on the date on which the Secretary submits the report, or any revision to the report, under clause (i).

(b) Implementation of authorized units

In implementing the units authorized to be constructed pursuant to subsection (a) of this section, the Secretary shall carry out the following directions:

(1) As reports are completed describing final implementation plans for the unit, or any portion thereof, authorized by paragraph (5) of subsection (a) of this section, and prior to expenditure of funds for related construction activities, the Secretary shall submit such reports to the appropriate committees of the Congress and to the governors of the Colorado River Basin States.

(2) Non-Federal entities shall be required by the Secretary to contract for the long-term operation and maintenance of canal and lateral systems constructed pursuant to activities provided for in subsection (a) of this section: *Provided*, That the Secretary shall reimburse such non-Federal entities for the costs of such operation and maintenance to the extent the costs exceed the expenses that would have been incurred by them in the thorough and timely operation and maintenance of their canal and lateral systems absent the construction of a unit, said expenses to be determined by the Secretary after consultation with the involved non-Federal entities. The operation and maintenance for which non-Federal entities shall be responsible shall include such repairing and replacing of a unit's facilities as are associated with normal annual maintenance activities in order to keep such facilities in a condition which will assure maximum reduction of salinity inflow to the Colorado River. These non-Federal entities shall not be responsible, nor incur any costs, for the replacement of a unit's facilities, including measures to replace incidental fish and wildlife values foregone. The term replacement shall be defined for the purposes of this subchapter as a major modification or reconstruction of a completed unit, or portion thereof, which is necessitated, through no fault of the non-Federal entity or entities operating and maintaining a unit, by design or construction inadequacies or by normal limits on the useful life of a facility. The Secretary is authorized to provide continuing technical assistance to non-Federal entities to assure the effective and efficient operation and maintenance of a unit's facilities.

(3) The Secretary may, under authority of this subchapter, and limited to the purposes of this

chapter, fund through a grant or contract, for any fiscal year only to such extent or in such amounts as are provided in appropriation Acts, a non-Federal entity to organize private canal and lateral owners into formal organizations with which the Secretary may enter into a grant or contract to construct, operate, and maintain a unit's facilities.

(4) In implementing the units authorized to be constructed or the programs pursuant to paragraphs (1), (2), (3), (4), (5), (6), and (7) of subsection (a) of this section, the Secretary shall comply with procedural and substantive State water laws.

(5) The Secretary may, under authority of this subchapter and limited to the purposes of this chapter, fund through a grant or contract, for any fiscal year only to such extent or in such amounts as are provided in appropriation Acts, a non-Federal entity to operate and maintain measures to replace incidental fish and wildlife values foregone.

(6) In implementing the units authorized to be constructed pursuant to subsection (a) of this section, the Secretary shall implement measures to replace incidental fish and wildlife values foregone concurrently with the implementation of a unit's, or a portion of a unit's, related features.

(c) Salinity control measures

The Secretary of Agriculture shall carry out salinity control measures (including watershed enhancement and cost-share measures with livestock and crop producers) in the Colorado River Basin as part of the environmental quality incentives program established under chapter 4 of subtitle D of title XII of the Food Security Act of 1985 [16 U.S.C. 3839aa et seq.].

See sections 3(2) and 14 of Pub. L. 92–463, Oct. 6, 1972, 86 Stat. 770, 776, set out in the Appendix to Title 5, Government Organization and Employees.

§1595. Salinity control units; authority and functions of Secretary of the Interior

(a) Allocation of costs

The Secretary shall allocate the total costs (excluding costs borne by non-Federal participants) of the on-farm measures authorized by section 1592(c) of this title, of all measures to replace incidental fish and wildlife values foregone, and of each unit or separable feature thereof authorized by section 1592(a) of this title, as follows:

(1) In recognition of Federal responsibility for the Colorado River as an interstate stream and for international comity with Mexico, Federal ownership of the lands of the Colorado River Basin from which most of the dissolved salts originate, and the policy embodied in the Federal Water Pollution Control Act Amendments of 1972 (86 Stat. 816) [33 U.S.C. 1251 et seq.], 75 per centum of the total costs of construction, operation, maintenance, and replacement of each unit or separable feature thereof authorized by section 1592(a)(1), (2), and (3) of this title, including 75 per centum of the total costs of construction, operation, and maintenance of the associated measures to replace incidental fish and wildlife values foregone, 70 per centum of the total costs of construction, operation, maintenance, and replacement of each unit, or separable feature thereof authorized by paragraphs (4) through (6) of section 1592(a) of this title, including 70 per centum of the total costs of construction, operation, and maintenance of the associated measures to replace incidental fish and wildlife values foregone, and 70 per centum of the total costs of implementation of the on-farm measures authorized by section 1592(c) of this title, including 70 per centum of the total costs of the associated measures to replace incidental fish and wildlife values foregone, shall be nonreimbursable. The total costs remaining after these allocations shall be reimbursable as provided for in paragraphs (2), (3), (4), and (5),¹ of subsection (a) of this section ²

(2) The reimbursable portion of the total costs shall be allocated between the Upper Colorado River Basin Fund established by section 5(a) of the Colorado River Storage Project Act (70 Stat. 107) [43 U.S.C. 620d(a)] and the Lower Colorado River Basin Development Fund established by section 1543(a) of this title, after consultation with the Advisory Council created in section 1594(a) of this title and consideration of the following items:

(i) benefits to be derived in each basin from the use of water of improved quality and the use of works for improved water management;

(ii) causes of salinity; and

(iii) availability of revenues in the Lower Colorado River Basin Development Fund and increased revenues to the Upper Colorado River Basin Fund made available under section

620d(d)(5) of this title: *Provided*, That costs allocated to the Upper Colorado River Basin Fund under this paragraph (2) shall not exceed 15 per centum of the costs allocated to the Upper Colorado River Basin Fund and the Lower Colorado River Basin Development Fund.

(3) Costs of construction and replacement of each unit or separable feature thereof authorized by sections ³ 1592(a)(1), (2), and (3) of this title and costs of construction of measures to replace incidental fish and wildlife values foregone, when such measures are a part of the units authorized by sections ³ 1592(a)(1), (2), and (3) of this title, allocated to the upper basin and to the lower basin under subsection (a)(2) of this section shall be repaid within a fifty-year period or within a period equal to the estimated life of the unit, separable feature thereof, or replacement, whichever is less, without interest from the date such unit, separable feature, or replacement is determined by the Secretary to be in operation.

(4)(i) Costs of construction and replacement of each unit or separable feature thereof authorized by paragraphs (4) through (6) of section 1592 ⁴ of this title, costs of construction of measures to replace incidental fish and wildlife values foregone, when such measures are a part of the on-farm measures authorized by section 1592(c) of this title or of the units authorized by paragraphs (4) through (6) of section 1592 ⁴ of this title, and costs of implementation of the on-farm measures authorized by section 1592(c) of this title allocated to the upper basin and to the lower basin under subsection (a)(2) of this section shall be repaid as provided in subparagraphs (ii) and (iii), respectively, of this paragraph.

(ii) Costs allocated to the upper basin shall be repaid with interest within a fifty-year period, or within a period equal to the estimated life of the unit, separable feature thereof, replacement, or on-farm measure, whichever is less, from the date such unit, separable feature thereof, replacement, or on-farm measure is determined by the Secretary or the Secretary of Agriculture to be in operation.

(iii) Costs allocated to the lower basin shall be repaid without interest as such costs are incurred to the extent that money is available from the Lower Colorado River Basin development fund to repay costs allocated to the lower basin. If in any fiscal year the money available from the Lower Colorado River Basin development fund for such repayment is insufficient to repay the costs allocated to the lower basin, as provided in the preceding sentence, the deficiency shall be repaid with interest as soon as money becomes available in the fund for repayment of those costs.

(iv) The interest rates used pursuant to this chapter shall be determined by the Secretary of the Treasury, taking into consideration average market yields on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the reimbursement period during the month preceding October 30, 1984, for costs outstanding at that date, or, in the case of costs incurred subsequent to October 30, 1984, during the month preceding the fiscal year in which the costs are incurred.

(5) Costs of operation and maintenance of each unit or separable feature thereof authorized by section 1592(a) of this title and of measures to replace incidental fish and wildlife values foregone allocated to the upper basin and to the lower basin under subsection (a)(2) of this section shall be repaid without interest in the fiscal year next succeeding the fiscal year in which such costs are incurred. In the event that revenues are not available to repay the portion of operation and maintenance costs allocated to the Upper Colorado River Basin fund and to the Lower Colorado River Basin development fund in the year next succeeding the fiscal year in which such costs are incurred, the deficiency shall be repaid ⁵ with interest calculated in the same manner as provided in subsection (a)(4)(iv) of this section. Any reimbursement due non-Federal entities pursuant to section 1592(b)(2) of this title shall be repaid without interest in the fiscal year next succeeding the fiscal year in which such operation and maintenance costs are incurred.

§1600. Findings and purposes

(a) Findings

The Congress finds that—

(1) there are multiple purposes established by law for the dams and other control structures administered by the Secretary of the Interior on the Colorado River;

(2) the maintenance of the Colorado River Floodway established in this chapter is essential to accomplish these multiple purposes;

(3) developments within the Floodway are and will continue to be vulnerable to damaging flows such as the property damage which occurred in 1983 and may occur in the future;

(4) certain Federal programs which subsidize or permit development within the Floodway threaten human life, health, property, and natural resources; and

(5) there is a need for coordinated Federal, State, and local action to limit Floodway development.

(b) Purpose

The Congress declares that the purposes of this chapter are to—

(1) establish the Colorado River Floodway, as designated and described further in this chapter, so as to provide benefits to river users and to minimize the loss of human life, protect health and safety, and minimize damage to property and natural resources by restricting future Federal expenditures and financial assistance, except public health funds, which have the effect of encouraging development within the Colorado River Floodway; and

(2) establish a task force to advise the Secretary of the Interior and the Congress on establishment of the Floodway and on managing existing and future development within the Floodway, including the appropriateness of compensation in specified cases of extraordinary hardship.

(Pub. L. 99–450, §2, Oct. 8, 1986, 100 Stat. 1129.)

Within eighteen months after October 8, 1986, the Secretary, in consultation with the seven Colorado River Basin States, represented by persons designated by the Governors of those States, the Colorado River Floodway Task Force, and any other interested parties shall:

(1) complete a study of the tributary floodflows downstream of Davis Dam;

(c) Review and modification of boundaries; notice and comment; written justification for decision of Secretary

(1) The Secretary shall conduct, at least once every five years, a review of the Colorado River Floodway and make, after notice to and in consultation with appropriate chief executive officers of States, counties, municipalities, water districts, Indian tribes, or equivalent jurisdictions in which the Floodway is located, and others, such minor and technical modifications to the boundaries of the

Floodway as are necessary solely to reflect changes that have occurred in the size or location of any portion of the floodplain as a result of natural forces, and as necessary pursuant to subsection (c) of section 1600e of this title.

(2) If, in the case of any minor and technical modification to the boundaries of the Floodway made under the authority of this subsection, an appropriate chief executive officer of a State, county, municipality, water district, Indian tribe, or equivalent jurisdiction, to which notice was given in accordance with this subsection files comments disagreeing with all or part of the modification and the Secretary makes a modification which is in conflict with such comments, the Secretary shall submit to the chief executive officer a written justification for his failure to make modifications consistent with such comments or proposals.

(c) Lease of lands owned in whole or in part by United States between Hoover Dam and Davis Dam

No lease of lands owned in whole or part by the United States between Hoover Dam and Davis Dam below elevation 655.0 feet on Lake Mohave shall be granted unless the Secretary determines that such lease would be consistent with the operation of Lake Mohave.

§1601. Congressional findings and declaration of policy

Congress finds and declares that—

(a) there is an immediate need for a fair and just settlement of all claims by Natives and Native groups of Alaska, based on aboriginal land claims;

(b) the settlement should be accomplished rapidly, with certainty, in conformity with the real economic and social needs of Natives, without litigation, with maximum participation by Natives in decisions affecting their rights and property, without establishing any permanent racially defined institutions, rights, privileges, or obligations, without creating a reservation system or lengthy wardship or trusteeship, and without adding to the categories of property and institutions enjoying special tax privileges or to the legislation establishing special relationships between the United States Government and the State of Alaska;

(c) no provision of this chapter shall replace or diminish any right, privilege, or obligation of Natives as citizens of the United States or of Alaska, or relieve, replace, or diminish any obligation of the United States or of the State or Alaska to protect and promote the rights or welfare of Natives as citizens of the United States or of Alaska; the Secretary is authorized and directed, together with other appropriate agencies of the United States Government, to make a study of all Federal programs primarily designed to benefit Native people and to report back to the Congress with his recommendations for the future management and operation of these programs within three years of December 18, 1971;

(d) no provision of this chapter shall constitute a precedent for reopening, renegotiating, or legislating upon any past settlement involving land claims or other matters with any Native

organizations, or any tribe, band, or identifiable group of American Indians;

(e) no provision of this chapter shall effect a change or changes in the petroleum reserve policy reflected in sections 7421 through 7438 ¹ of title 10 except as specifically provided in this chapter;

(f) no provision of this chapter shall be construed to constitute a jurisdictional act, to confer jurisdiction to sue, nor to grant implied consent to Natives to sue the United States or any of its officers with respect to the claims extinguished by the operation of this chapter; and

(g) no provision of this chapter shall be construed to terminate or otherwise curtail the activities of the Economic Development Administration or other Federal agencies conducting loan or loan and grant programs in Alaska. For this purpose only, the terms “Indian reservation” and “trust or restricted Indian-owned land areas” in Public Law 89–136, the Public Works and Economic Development Act of 1965, as amended [42 U.S.C. 3121 et seq.], shall be interpreted to include lands granted to Natives under this chapter as long as such lands remain in the ownership of the Native villages or the Regional Corporations.

CONGRESSIONAL FINDINGS AND DECLARATION OF POLICY

Pub. L. 100–241, §2, Feb. 3, 1988, 101 Stat. 1788, provided that: “The Congress finds and declares that—

“(1) the Alaska Native Claims Settlement Act [this chapter] was enacted in 1971 to achieve a fair and just settlement of all aboriginal land and hunting and fishing claims by Natives and Native groups of Alaska with maximum participation by Natives in decisions affecting their rights and property;

“(2) the settlement enabled Natives to participate in the subsequent expansion of Alaska's economy, encouraged efforts to address serious health and welfare problems in Native villages, and sparked a resurgence of interest in the cultural heritage of the Native peoples of Alaska;

“(3) despite these achievements and Congress's desire that the settlement be accomplished rapidly without litigation and in conformity with the real economic and social needs of Natives, the complexity of the land conveyance process and frequent and costly litigation have delayed implementation of the settlement and diminished its value;

“(4) Natives have differing opinions as to whether the Native Corporation, as originally structured by the Alaska Native Claims Settlement Act, is well adapted to the reality of life in Native villages and to the continuation of traditional Native cultural values;

“(5) to ensure the continued success of the settlement and to guarantee Natives continued participation in decisions affecting their rights and property, the Alaska Native Claims Settlement Act must be amended to enable the shareholders of each Native Corporation to structure the further implementation of the settlement in light of their particular circumstances and needs;

“(6) among other things, the shareholders of each Native Corporation must be permitted to decide—

“(A) when restrictions on alienation of stock issued as part of the settlement should be terminated, and

“(B) whether Natives born after December 18, 1971, should participate in the settlement;

“(7) by granting the shareholders of each Native Corporation options to structure the further implementation of the settlement, Congress is not expressing an opinion on the manner in which such shareholders choose to balance individual rights and communal rights;

“(8) no provision of this Act [see Short Title of 1988 Amendment note above] shall—

“(A) unless specifically provided, constitute a repeal or modification, implied or otherwise, of any provision of the Alaska Native Claims Settlement Act; or

“(B) confer on, or deny to, any Native organization any degree of sovereign governmental authority over lands (including management, or regulation of the taking, of fish and wildlife) or persons in Alaska; and

“(9) the Alaska Native Claims Settlement Act and this Act are Indian legislation enacted by Congress pursuant to its plenary authority under the Constitution of the United States to regulate Indian affairs.”

JUDICIAL REVIEW

Pub. L. 100–241, §16, Feb. 3, 1988, 101 Stat. 1813, provided that:

“(a) **STATUTE OF LIMITATIONS.**—(1) Notwithstanding any other provision of law, a civil action that challenges the constitutionality of an amendment made by, or other provision of this Act (the Alaska Native Claims Settlement Act Amendments of 1987) [see Short Title of 1988 Amendment note above] shall be barred unless filed within the periods specified in this subsection.

“(2) If a civil action described in paragraph (1) challenges—

“(A) the issuance or distribution of Settlement Common Stock for less than fair market value consideration pursuant to section 7(g)(1)(B) or 7(g)(2)(C)(ii) of the Alaska Native Claims Settlement Act

[43 U.S.C. 1606(g)(1)(B), (2)(C)(ii)]; or

“(B) an extension of alienability restrictions that involves the issuance of stock pursuant to subsections [sic] (c) or (d) of section 37 of such Act [43 U.S.C. 1629c(c), (d)]; or

“(C) the denial of dissenters rights after the rejection of an amendment to terminate alienability restrictions pursuant to section 37(b) of such Act;

such civil action shall be barred unless it is filed within one year after the date of the shareholder vote authorizing such issuance or distribution, extension of restrictions, or denial of right, and unless a request for a declaratory judgment or injunctive relief is made before stock is issued or distributed.

“(3) Any other civil action described in paragraph (1) shall be barred unless it is filed within two years of the date of the enactment of this Act [Feb. 3, 1988].

“(4) No Native Corporation taking an action described in paragraph (2)(A), (2)(B), or (2)(C) shall issue or distribute stock sooner than fourteen days after the date of the shareholder vote authorizing such action.

“(b) JURISDICTION AND PROCEDURE.—(1) The United States District Court for the District of Alaska shall have exclusive original jurisdiction over a civil action described in subsection (a)(1). The action shall be heard and determined by a court of three judges as provided in section 2284 of title 28 of the United States Code. An appeal of the final judgment of such court shall be made directly to the United States Supreme Court.

“(2) No money judgment shall be entered against the United States in a civil action subject to this section.

“(c) STATEMENT OF PURPOSE.—The purpose of the limitation on civil actions established by this section is—

“(1) to ensure that after the expiration of a reasonable period of time, Native Shareholders, Native Corporations, the United States, and the State of Alaska and its political subdivisions will be able to plan their affairs with certainty in full reliance on the provisions of this Act, and

“(2) to eliminate the possibility that the United States will incur a monetary liability as a result of the enactment of this Act.”

DISCLAIMER

Pub. L. 100–241, §17, Feb. 3, 1988, 101 Stat. 1814, provided that:

“(a) No provision of this Act (the Alaska Native Claims Settlement Act Amendments of 1987) [see Short Title of 1988 Amendment note above], exercise of authority pursuant to this Act, or change made by, or pursuant to, this Act in the status of land shall be construed to validate or invalidate or in any way affect—

“(1) any assertion that a Native organization (including a federally recognized tribe, traditional Native council, or Native council organized pursuant to the Act of June 18, 1934 (48 Stat. 987), as amended [25 U.S.C. 461 et seq.]) has or does not have governmental authority over lands (including management of, or regulation of the taking of, fish and wildlife) or persons within the boundaries of the State of Alaska, or

“(2) any assertion that Indian country (as defined by 18 U.S.C. 1151 or any other authority) exists or does not exist within the boundaries of the State of Alaska.

“(b) Nothing in the Alaska Native Claims Settlement Act Amendments of 1987 (or any amendment made thereby) shall be construed—

“(1) to diminish or enlarge the ability of the Federal Government to assess, collect, or otherwise enforce any Federal tax, or

“(2) to affect, for Federal tax purposes, the valuation of any stock issued by a Native Corporation.”

The management of the Regional Corporation shall be vested in a board of directors, all of whom, with the exception of the initial board, shall be stockholders over the age of eighteen. (g) Issuance of stock

(1) Settlement Common Stock

(A) The Regional Corporation shall be authorized to issue such number of shares of Settlement Common Stock (divided into such classes as may be specified in the articles of incorporation to reflect the provisions of this chapter) as may be needed to issue one hundred shares of stock to each Native enrolled in the region pursuant to section 1604 of this title.

(B)(i) A Regional Corporation may amend its articles of incorporation to authorize the issuance of additional shares of Settlement Common Stock to—

(III) Natives who have attained the age of 65,

for no consideration or for such consideration and upon such terms and conditions as may be specified in such amendment or in a resolution approved by the board of directors pursuant to authority expressly vested in the board by the amendment. (II) CONDITIONS.—A condition referred to in subclause (I) is a condition that—

(cc) the stock shall not be transferred by gift under subsection (h)(1)(C)(iii).

(iv) Settlement Common Stock issued pursuant to clause (i) shall not carry rights to share in distributions made to shareholders pursuant to subsections (j) and (m) of this section unless, prior to the issuance of such stock, a majority of the class of existing holders of Settlement Common Stock carrying such rights separately approve the granting of such rights. The articles of incorporation of the Regional Corporation shall be deemed to be amended to authorize such class vote.

(C)(i) A Regional Corporation may amend its articles of incorporation to authorize the issuance of additional shares of Settlement Common Stock as a dividend or other distribution (without regard to surplus of the corporation under the laws of the State) upon each outstanding share of Settlement Common Stock issued pursuant to subparagraphs (A) and (B).

(ii) The amendment authorized by clause (i) may provide that shares of Settlement Common Stock issued as a dividend or other distribution shall constitute a separate class of stock with greater per share voting power than Settlement Common Stock issued pursuant to subparagraphs (A) and (B).

(2) Other forms of stock

(A) A Regional Corporation may amend its articles of incorporation to authorize the issuance of shares of stock other than Settlement Common Stock in accordance with the provisions of this paragraph. Such amendment may provide that—

 - (II) issuing shares of stock without adequate consideration as required under the laws of the State.

(B) The amendment authorized by subparagraph (A) may provide that the stock to be issued shall be one or more of the following—

- (i) divided into classes and series within classes, with preferences, limitations, and relative rights, including, without limitation—

- (I) dividend rights,
 - (II) voting rights, and
 - (III) liquidation preferences;

- (ii) made subject to one or more of—

- (I) the restrictions on alienation described in clauses (i), (ii), and (iv) of subsection (h)(1)(B) of this section, and

 - (IV) entities established for the sole benefit of Natives or descendants of Natives, in which the classes of beneficiaries are defined in terms of general applicability and not in any way by reference to place of residence, family, or position as an officer, director, or employee of a Native Corporation.

(C) The amendment authorized by subparagraph (A) shall provide that the additional shares of stock shall be issued—

- (i) as a dividend or other distribution (without regard to surplus of the corporation under the laws of the State) upon all outstanding shares of stock of any class or series, or

- (i) issued to, or for the benefit of, a group of individuals composed only or principally of employees, officers, and directors of the corporation; or
- (ii) issued more than thirteen months after the date on which the vote of the shareholders on the amendment authorizing the issuance of such stock occurred if, as a result of the issuance, the outstanding shares of Settlement Common Stock will represent less than a majority of the total voting power of the corporation for the purpose of electing directors.

(3) Disclosure requirements

(A) An amendment to the articles of incorporation of a Regional Corporation authorized by paragraph (2) shall specify—

- (i) the maximum number of shares of any class or series of stock that may be issued, and
- (ii) the maximum number of votes that may be held by such shares.

(B)(i) If the board of directors of a Regional Corporation intends to propose an amendment pursuant to paragraph (2) which would authorize the issuance of classes or series of stock that, singly or in combination, could cause the outstanding shares of Settlement Common Stock to represent less than a majority of the total voting power of the corporation for the purposes of electing directors, the shareholders of such corporation shall be expressly so informed.

(ii) Such information shall be transmitted to the shareholders in a separate disclosure statement or in another informational document in writing or in recorded sound form both in English and any Native language used by a shareholder of such corporation. Such statement or informational document shall be transmitted to the shareholders at least sixty days prior to the date on which such proposal is to be submitted for a vote.

(iii) If not later than thirty days after issuance of such disclosure statement or informational document the board of directors receives a prepared concise statement setting forth arguments in opposition to the proposed amendment together with a request for distribution thereof signed by the holders of at least 10 per centum of the outstanding shares of Settlement Common Stock, the board shall either distribute such statement to the shareholders or provide to the requesting shareholders a list of all shareholder's names and addresses so that the requesting shareholders may distribute such statement.

(4) Savings

(A)(i) No shares of stock issued pursuant to paragraphs (1)(C) and (2) shall carry rights to share in distributions made to shareholders pursuant to subsections (j) and (m) of this section. No shares of stock issued pursuant to paragraph (1)(B) shall carry such rights unless authorized pursuant to paragraph (1)(B)(iv).

(ii) Notwithstanding the issuance of additional shares of stock pursuant to paragraphs ¹(1)(B), (1)(C), or (2), a Regional Corporation shall apply the ratio last computed pursuant to subsection (m) of this section prior to February 3, 1988, for purposes of distributing funds pursuant to subsections (j) and (m) of this section.

(B) The issuance of additional shares of stock pursuant to paragraphs ¹(1)(B), (1)(C), or (2) shall not affect the division and distribution of revenues pursuant to subsection (i) of this section.

(C) No provision of this chapter shall limit the right of a Regional Corporation to take an action authorized by the laws of the State unless such action is inconsistent with the provisions of this chapter.

(h) Settlement Common Stock

(2) Inheritance of Settlement Common Stock

(A) Upon the death of a holder of Settlement Common Stock, ownership of such stock (unless canceled in accordance with subsection (g)(1)(B)(iii) of this section) shall be transferred in accordance with the lawful will of such holder or pursuant to applicable laws of intestate succession. If the holder fails to dispose of his or her stock by will and has no heirs under applicable laws of intestate succession, the stock shall escheat to the issuing Regional Corporation and be canceled.

(B) The issuing Regional Corporation shall have the right to purchase at fair value Settlement Common Stock transferred pursuant to applicable laws of intestate succession to a person not a Native or a descendant of a Native after February 3, 1988, if—

The purpose of this limitation on suits is to insure that, after the expiration of a reasonable period of time, the right, title, and interest of the United States, the Natives, and the State of Alaska will vest with certainty and finality and may be relied upon by all other persons in their relations with the State, the Natives, and the United States.

(b) Land selection; suspension and extension of rights

In the event that the State initiates litigation or voluntarily becomes a party to litigation to contest the authority of the United States to legislate on the subject matter or the legality of this chapter, all rights of land selection granted to the State by the Alaska Statehood Act shall be suspended as to any public lands which are determined by the Secretary to be potentially valuable for mineral development, timber, or other commercial purposes, and no selections shall be made, no tentative approvals shall be granted, and no patents shall be issued for such lands during the pendency of such litigation. In the event of such suspension, the State's right of land selection pursuant to section 6 of the Alaska Statehood Act shall be extended for a period of time equal to the period of time the selection right was suspended.

select, the Secretary shall withdraw three times the deficiency from the nearest unreserved, vacant and unappropriated public lands. In making this withdrawal the Secretary shall, insofar as possible, withdraw public lands of a character similar to those on which the village is located and in order of their proximity to the center of the Native village: *Provided*, That if the Secretary, pursuant to section 1616, and 1621(e) of this title determines there is a need to expand the boundaries of a National Wildlife Refuge to replace any acreage selected in the Wildlife Refuge System by the Village Corporation the withdrawal under this section shall not include lands in the Refuge.

(2) Within two and one-half years from December 18, 1971, the Secretary shall review all of the villages listed in subsection (b)(1) hereof, and a village shall not be eligible for land benefits under section 1613(a) and (b) of this title, and any withdrawal for such village shall expire, if the Secretary determines that—

(A) less than twenty-five Natives were residents of the village on the 1970 census enumeration date as shown by the census or other evidence satisfactory to the Secretary, who shall make findings of fact in each instance; or

(B) the village is of a modern and urban character, and the majority of the residents are non-Native.

Any Native group made ineligible by this subsection shall be considered under section 1613(h) of this title.

(3) Native villages not listed in subsection (b)(1) hereof shall be eligible for land and benefits under this chapter and lands shall be withdrawn pursuant to this section if the Secretary within two and one-half years from December 18, 1971, determines that—

(A) twenty-five or more Natives were residents of an established village on the 1970 census enumeration date as shown by the census or other evidence satisfactory to the Secretary, who shall make findings of fact in each instance; and

(B) the village is not of a modern and urban character, and a majority of the residents are Natives.

§1611. Native land selections

(a) Acreage limitation; proximity of selections and size of sections and units; waiver

(1) During a period of three years from December 18, 1971, the Village Corporation for each Native village identified pursuant to section 1610 of this title shall select, in accordance with rules established by the Secretary, all of the township or townships in which any part of the village is located, plus an area that will make the total selection equal to the acreage to which the village is entitled under section 1613 of this title. The selection shall be made from lands withdrawn by section 1610(a) of this title: *Provided*, That no Village Corporation may select more than 69,120 acres from lands withdrawn by section 1610(a)(2) of this title, and not more than 69,120 acres from the National Wildlife Refuge System, and not more than 69,120 acres in a National Forest: *Provided further*, That when a Village Corporation selects the surface estate to lands within the National Wildlife Refuge

System or Naval Petroleum Reserve Numbered 4, the Regional Corporation, for that region may select the subsurface estate in an equal acreage from other lands withdrawn in section 1610(a) of this title within the region, if possible.

(2) Selections made under this subsection (a) of this section shall be contiguous and in reasonably compact tracts, except as separated by bodies of water or by lands which are unavailable for selection, and shall be in whole sections and, wherever feasible, in units of not less than 1,280 acres: *Provided*, That the Secretary in his discretion and upon the request of the concerned Village Corporation, may waive the whole section requirement where—

(A)(i) a portion of available public lands of a section is separated from other available public lands in the same section by lands unavailable for selection or by a meanderable body of water;

(ii) such waiver will not result in small isolated parcels of available public land remaining after conveyance of selected lands to Native Corporations; and

(iii) such waiver would result in a better land ownership pattern or improved land or resource management opportunity; or

(B) the remaining available public lands in the section have been selected and will be conveyed to another Native Corporation under this chapter.

(b) Allocation; reallocation considerations

The difference between twenty-two million acres and the total acreage selected by Village Corporations pursuant to subsection (a) of this section shall be allocated by the Secretary among the eleven Regional Corporations (which excludes the Regional Corporation for southeastern Alaska) on the basis of the number of Natives enrolled in each region. Each Regional Corporation shall, not later than October 1, 2005, reallocate such acreage among the Native villages within the region on an equitable basis after considering historic use, subsistence needs, and population. The action of the Secretary or the Corporation shall not be subject to judicial review. Each Village Corporation shall select the acreage allocated to it from the lands withdrawn by section 1610(a) of this title.

(c) Computation

The difference between thirty-eight million acres and the 22 million acres selected by Village Corporations pursuant to subsections (a) and (b) of this section shall be allocated among the eleven Regional Corporations (which excludes the Regional Corporation for southeastern Alaska) as follows:

(1) The number of acres each Regional Corporation is entitled to receive shall be computed (A) by determining on the basis of available data the percentages of all land in Alaska (excluding the southeastern region) that is within each of the eleven regions, (B) by applying that percentage to thirty-eight million acres reduced by the acreage in the southeastern region that is to be selected pursuant to section 1615 of this title, and (C) by deducting from the figure so computed the number of acres within that region selected pursuant to subsections (a) and (b) of this section.

(2) In the event that the total number of acres selected within a region pursuant to subsections (a) and (b) of the section exceeds the percentage of the reduced thirty-eight million acres allotted to that region pursuant to subsection (c)(1)(B) of this section, that region shall not be entitled to receive any lands under this subsection (c). For each region so affected the difference between the acreage calculated pursuant to subsection (c)(1)(B) of this section and the acreage selected pursuant to subsections (a) and (b) of this section shall be deducted from the acreage calculated under subsection (c)(1)(C) of this section for the remaining regions which will select lands under this subsection (c). The reductions shall be apportioned among the remaining regions so that each region's share of the total reduction bears the same proportion to the total reduction as the total land area in that region (as calculated pursuant to subsection (c)(1)(A) of this section ¹ bears to the total land area in all of the regions whose allotments are to be reduced pursuant to this paragraph.

(3) Before the end of the fourth year after December 18, 1971, each Regional Corporation shall select the acreage allocated to it from the lands within the region withdrawn pursuant to section 1610(a)(1) of this title, and from the lands within the region withdrawn pursuant to section 1610(a)(3) of this title to the extent lands withdrawn pursuant to section 1610(a)(1) of this title are not sufficient to satisfy its allocation: *Provided*, That within the lands withdrawn by section

1610(a)(1) of this title the Regional Corporation may select only even numbered townships in even numbered ranges, and only odd numbered townships in odd numbered ranges.

(4) Where the public lands consist only of the mineral estate, or portion thereof, which is reserved by the United States upon patent of the balance of the estate under one of the public land laws, other than this chapter, the Regional Corporations may select as follows:

(A) Where such public lands were not withdrawn pursuant to section 1610(a)(3) of this title, but are surrounded by or contiguous to lands withdrawn pursuant to section 1610(a)(3) of this title, and filed upon for selection by a Regional Corporation, the Corporation may, upon request, have such public land included in its selection and considered by the Secretary to be withdrawn and properly selected.

(B) Where such public lands were withdrawn pursuant to section 1610(a)(1) of this title and are required to be selected by paragraph (3) of this subsection, the Regional Corporation may, at its option, exclude such public lands from its selection.

(C) Where such public lands are surrounded by or contiguous to subsurface lands obtained by a Regional Corporation under subsections ² (a) or (b) of this section, the Corporation may, upon request, have such public land conveyed to it.

(D)(i) A Regional Corporation which elects to obtain public lands under subparagraph (C) shall be limited to a total of not more than 12,000 acres. Selection by a Regional Corporation of in lieu surface acres under subparagraph (E) pursuant to an election under subparagraph (C) shall not be made from any lands within a conservation system unit (as that term is defined by section 3102(4) of title 16).

(ii) An election to obtain the public lands described in subparagraph (A), (B), or (C) shall include all available parcels within the township in which the public lands are located.

(iii) For purposes of this subparagraph and subparagraph (C), the term “Regional Corporation” shall refer only to Doyon, Limited.

(E) Where the Regional Corporation elects to obtain such public lands under subparagraph (A), (B), or (C) of this paragraph, it may select, within ninety days of receipt of notice from the Secretary, the surface estate in an equal acreage from other public lands withdrawn by the Secretary for that purpose. Such selections shall be in units no smaller than a whole section, except where the remaining entitlement is less than six hundred and forty acres, or where an entire section is not available. Where possible, selections shall be of lands from which the subsurface estate was selected by that Regional Corporation pursuant to subsection (a)(1) of this section or section 1613(h)(9) of this title, and, where possible, all selections made under this section shall be contiguous to lands already selected by the Regional Corporation or a Village Corporation. The Secretary is authorized, as necessary, to withdraw up to two times the acreage entitlement of the in lieu surface estate from vacant, unappropriated, and unreserved public lands from which the Regional Corporation may select such in lieu surface estate except that the Secretary may withdraw public lands which had been previously withdrawn pursuant to subsection 1616(d)(1) of this title.

(F) No mineral estate or in lieu surface estate shall be available for selection within the National Petroleum Reserve—Alaska or within Wildlife Refuges as the boundaries of those refuges exist on December 18, 1971.

(5) Subparagraphs (A), (B), and (C) of paragraph (4) shall apply, notwithstanding the failure of the Regional Corporation to have appealed the rejection of a selection during the conveyance of the relevant surface estate.

(d) Village Corporation for Native village at Dutch Harbor; lands and improvements and patent for Village Corporation

To insure that the Village Corporation for the Native village at Dutch Harbor, if found eligible for land grants under this chapter, has a full opportunity to select lands within and near the village, no federally owned lands, whether improved or not, shall be disposed of pursuant to the Federal surplus property disposal laws for a period of two years from December 18, 1971. The Village Corporation

may select such lands and improvements and receive patent to them pursuant to section 1613(a) of this title.

(e) Disputes over land selection rights and boundaries; arbitration

Any dispute over the land selection rights and the boundaries of Village Corporations shall be resolved by a board of arbitrators consisting of one person selected by each of the Village Corporations involved, and an additional one or two persons, whichever is needed to make an odd number of arbitrators, such additional person or persons to be selected by the arbitrators selected by the Village Corporations.

(f) Combining entitlements and reallocations

(1) The entitlements received by any Village Corporation under subsection (a) of this section and the reallocations made to the Village Corporation under subsection (b) of this section may be combined, at the discretion of the Secretary, without—

(A) increasing or decreasing the combined entitlement; or

(B) increasing the limitation on selections of Wildlife Refuge System land, National Forest System land, or State-selected land under subsection (a) of this section.

(2) The combined entitlement under paragraph (1) may be fulfilled from selections under subsection (a) or (b) of this section without regard to the entitlement specified in the selection application.

(3) All selections under a combined entitlement under paragraph (1) shall be adjudicated and conveyed in compliance with this chapter.

(4) Except in a case in which a survey has been contracted for December 10, 2004, the combination of entitlements under paragraph (1) shall not require separate patents or surveys, to distinguish between conveyances made to a Village Corporation under subsections (a) and (b) of this section.

This authority shall not be employed to increase or decrease the statutory entitlement of any Village Corporation or Cook Inlet Region, Incorporated. For the purposes of counting acres received in computing statutory entitlement, the Secretary shall count the number of acres or acre selections surrendered by Village Corporations in any exchange for any other lands or selections.

“(b) The Secretary shall not be required to survey any land conveyed pursuant to subsection 4(a) until the Village Corporation entitlement for all eligible Village Corporations has been conveyed. “(a) The purpose of this section is to provide for the settlement of certain claims, and in so doing to consolidate ownership among the United States, the Cook Inlet Region Incorporated (hereinafter in this section referred to as the ‘Region’), and the State of Alaska, within the Cook Inlet area of Alaska in order to facilitate land management and to create land ownership patterns which encourage settlement and development in appropriate areas. The provisions of this section shall take effect at such time as all of the following have taken place:

“(1) the State of Alaska has conveyed or irrevocably obligated itself to convey lands to the United States for exchange, hereby authorized, with the Region in accordance with the document referred to in subsection (b);

“(2) the Region and all plaintiffs/appellants have withdrawn from Cook Inlet against Kleppe, numbered 75–2232, ninth circuit, and such proceedings have been dismissed with prejudice; and

“(3) all Native village selections under section 12 of the Settlement Act [section 1611 of this title] of the lands within Lake Clark, Lake Kontrashibuna, and Mulchatna River deficiency withdrawals have been irrevocably withdrawn and waived.

The conveyances described in paragraph (1) of this subsection shall not be subject to the provisions of section 6(i) of the Alaska Statehood Act (72 Stat. 339) [set out as note preceding section 21 of Title 48, Territories and Insular Possessions].

“(b) The Secretary shall make the following conveyances to the Region, in accordance with the specific terms, conditions, procedures, covenants, reservations, and other restrictions set forth in the document entitled ‘Terms and Conditions for Land Consolidation and Management in Cook Inlet Area’, which was submitted to the House Committee on Interior and Insular Affairs on December 10, 1975, and clarified on August 31, 1976, the terms of which, as clarified, are hereby incorporated herein and ratified as to the duties and obligations of the United States and the Region, as a matter of Federal law.

“(6) title to lands selected by the Region from a pool which shall be established by the Secretary and the Administrator of General Services: *Provided*, That conveyances pursuant to this paragraph shall not be subject to the provisions of section 22(l) of the Settlement Act [section 1621(l) of this title]: *Provided further*, That conveyances pursuant to this paragraph shall be made in exchange for lands or rights to select lands outside the boundaries of Cook Inlet Region as described in paragraph (5) of this subsection and on the basis of values determined by agreement among the parties, notwithstanding any other provision of law. Effective upon their conveyance, the lands referred to in paragraph (1) of this subsection are excluded from the Kenai National Moose Range, but they shall automatically become part of the range and subject to the laws and regulations applicable thereto upon title thereafter vesting in the United States. The Secretary is authorized to acquire lands formerly within the range with the concurrence of the Region so long as the Region owns such lands. Section 22(e) of the Settlement Act [section 1621(e) of this title], concerning refuge replacement, shall apply with respect to lands conveyed pursuant to paragraphs (1) and (2) of this

(b)(7)(iv) of this note], bid, as any other bidder for property as defined in subsection 12(b)(7)(vii) [subsec. (b)(7)(vii) of this note],, [sic] wherever located, in accordance with the applicable laws and regulations of the Federal agency or instrumentality offering such property for sale. No preference right of any type will be offered to Cook Inlet Region Incorporated, for bidding on property under this section 12(b)(7) [subsec. (b)(7) of this note]. There shall be no advertising other than that ordinarily required by such sale. [sic] (b) the Administrator of General Services may, at the discretion of the Administrator, tender to the Secretary any surplus property otherwise to be disposed of pursuant to 40 U.S.C. 484(e)(3) [now 40 U.S.C. 545(b)] to be offered Cook Inlet Region, Incorporated for a period of 90 days so as to aid in the fulfillment of the Secretary's program purposes under the Alaska Native Claims Settlement Act [this chapter]: *Provided*, That nothing in these subsections 12(b)(7)(i)(b) or (ii) [subsec. (b)(7)(i)(b) or (ii) of this note] shall be construed to establish, enlarge or diminish authority of the Administrator or the Secretary within the State of Alaska. Prior to any disposition under subsection 12(b)(7)(i)(b) [subsec. (b)(7)(i)(b) of this note], the Administrator shall notify the governing body of the locality where such property is located and any appropriate state agency, and no such disposition shall be made if such governing body or state agency, within ninety days of such notification formally advises the Administrator that it objects to the proposed disposition.

“(ii) Subject to the exceptions stated in section 12(b)(9) [subsec. (b)(9) of this note], and notwithstanding the foregoing subsection 12(b)(7)(i) [subsec. (b)(7)(i) of this note] and any provision of any other law or any implementing regulation inconsistent with this subsection, until the obligations of the Secretary and the Administrator of General Services under section 12(b)(5) and (6) [subsec. (b)(5) and (6) of this note] are otherwise fulfilled:

“(A) concurrently with the commencement of screening of any excess real property, wherever located, for utilization by Federal agencies, the Administrator of General Services shall notify the Region that such property may be available for conveyance to the Region upon negotiated sale. Within fifteen days of the date of receipt of such notice, the Region may advise the Administrator that there is a tentative need for the property to fulfill the obligations established under section 12(b)(5) and (6) [subsec. (b)(5) and (6) of this note]. If the Administrator determines the property should be disposed of by transfer to the Region, the Administrator or other appropriate Federal official shall promptly transfer such property;

“(B) no disposition or conveyance of property under this subsection to the Region shall be made until the Administrator, after notice to affected State and local governments, has provided to them such opportunity to obtain the property as is recognized in title 40, United States Code and the regulations thereunder for the disposition or conveyance of surplus property; and

“(C) as used in this subsection, ‘real property’ means any land or interests in land owned or held by the United States or any Federal agency, any improvements on such land or rights to their use or exploitation, and any personal property related to the land.

“(iii) If the Region accepts any conveyance under section 12(b)(7)(i) or (ii) [subsec. (b)(7)(i) or (ii) of this note], it shall be in exchange for acres or acre-equivalents as provided in subparagraph I(C)(2)(e) of the document referred to in this section, except that, after the obligation of the Secretary and the Administrator under subparagraph I(C)(2)(g) of that document has been fulfilled, the acre-equivalents under subparagraph I(C)(2)(e)(iii)(A) shall be one-half the valued increment therein stated. The entitlement of the Region under section 12(b) of this Act [subsec. (b) of this note] shall be reduced by the number of acres or acre-equivalents attributed to the Region under this subsection. The Secretary and the Administrator are directed to execute an agreement with the Region which shall conform substantially to the ‘Memorandum of Understanding Regarding the Implementation of Section 12(b)(7)’, dated September 10, 1982, and submitted to the Senate Committee on Commerce, Science, and Transportation. The Secretary, the Administrator and the Region may thereafter otherwise agree to procedures to implement responsibilities under this section 12(b)(7) [subsec. (b)(7) of this note], including establishment of accounting procedures and the delegation or reassignment of duties under this statute.

“(iv) The Secretary of the Treasury shall establish a Cook Inlet Region, Incorporated property account, which shall be available for the purpose of bidding on property, as defined in subsection 12(b)(7)(vii) [subsec. (b)(7)(vii) of this note], or paying for the conveyance of property pursuant to subsections 12(b)(7)(i) or (ii) [subsec. (b)(7)(i), (ii) of this note]. The balance of the account shall be the sum of (1) the acre-equivalent exchange value established by paragraph I(C)(2)(e)(iii)(A) of the document referred to in

this subsection, of the unfulfilled entitlement of Cook Inlet Region, Incorporated, [on] December 2, 1980, to acre or acre-equivalents under paragraph I(C)(2)(g) of the document referred to in this subsection 12(b) [subsec. (b) of this note] and (2) one-half the acre or acre-equivalent exchange value under subparagraph I(C)(2)(e)(iii)(A) of seven townships fewer than the unfulfilled entitlement of the Region on the same date to acres or acre-equivalents under paragraph I(C)(1) of the document referred to in this section. The balance of the property account shall be adjusted in accordance with subsection 12(b)(7)(iii) [subsec. (b)(7)(iii) of this note] to reflect transfers or successful bids under section 12(b)(5) and (6) of this section [subsec. (b)(5) and (6) of this note] or payments of forfeited deposits, penalties, or other assessments imposed under a valid bid or sales contract on Cook Inlet Region, Incorporated.

“(v) The amount charged against the Treasury account established under subsection 12(b)(7)(iv) [subsec. (b)(7)(iv) of this note] for sales or transfers of property made pursuant to the Federal Property and Administrative Services Act of 1949, 40 U.S.C. sec. 471 et seq. [see chapters 1 to 11 of Title 40, Public Buildings, Property, and Works, and division C (except sections 3302, 3307(e), 3501(b), 3509, 3906, 4710, and 4711) of subtitle I of Title 41, Public Contracts], or any legislative or executive delegation under that Act, shall be treated as proceeds of dispositions of surplus property for the purpose of determining the basis for calculating direct expenses pursuant to 40 U.S.C. 485(b) [now 40 U.S.C. 572(a)], as amended.

“(vi) The basis for computing gain or loss on subsequent sale or other disposition of lands or interests in land conveyed to Cook Inlet Region, Incorporated, under this subsection, for purposes of any Federal, State or local tax imposed on or measured by income, shall be the fair value of such land or interest in land at the time of receipt. The amount charged against Cook Inlet's entitlement under I(C)(2)(e) of the document referred to in subsection (b) of this section [subsec. (b) of this note] shall be prima facie evidence of such fair value.

“(vii) Notwithstanding the definition of ‘property’ found in the Federal Property and Administrative Services Act of 1949, as amended [see 40 U.S.C. 102(9)], as used in this section 12(b)(7) [subsec. (b)(7) of this note], ‘property’ means any property—real, personal (including intangible assets sold or offered by the Federal Deposit Insurance Corporation or the Resolution Trust Corporation, such as financial instruments, notes, loans, and bonds), or mixed—owned, held, or controlled by the United States (including that in a corporate capacity or as a receiver or conservator, or such other similar fiduciary relationship), and offered for sale by any agency or instrumentality of the United States, including but not limited to the General Services Administration, Department of Defense, Department of the Interior, Department of Agriculture, Department of Housing and Urban Development, the United States Courts and any Government corporation, agency or instrumentality subject to chapter 91 of title 31, United States Code; real property means any land or interest in land or option to purchase land, any improvements on such lands, or rights to their use or exploitation.

“(viii) Any charge against the property account and any transfer of funds from the property account heretofore made for the purpose of consummating any prior sale or making a deposit or other payment to bind any contract of sale or paying any forfeiture of deposit, penalty or assessment is hereby authorized, ratified and affirmed.

“(8) Subject to the exceptions stated in section 12(b)(9) [subsec. (b)(9) of this note], and notwithstanding any provisions of law or implementing regulation inconsistent with this section:

“(i) The deadlines in subparagraphs I(C)(2)(a) and (g) of the document referred to in this section shall be extended until the Secretary's obligations under section 12(b)(5) and (6) [subsec. (b)(5) and (6) of this note] are fulfilled: *Provided*, That:

“(A) the obligation of the Secretary under subparagraph I(C)(2)(a) of such document shall terminate on such date, after July 15, 1984, that the Secretary has fulfilled his obligation under subparagraph I(C)(2)(g) of that document: *Provided*, That the obligation of the Secretary under subparagraph I(C)(2)(g) of such document shall be fulfilled at such date, after July 15, 1984, that the sum of the acres or acre-equivalents identified for and placed in the pool and the acres or acre-equivalents used by the Region in purchasing property under section 12(b)(7) [subsec. (b)(7) of this note] equals or exceeds 138,240 acres or acre-equivalents;

“(B) the authority of the Secretary under subparagraphs I(C)(2)(b) and I(C)(2)(g)(ii) of such document to contribute to the pool created under subparagraph I(C)(2)(a) of such document shall terminate (a) on July 15, 1984, if, by that date, the Secretary has fulfilled his obligation under subparagraph I(C)(2)(g), or (b) if not, on such date after July 15, 1984 as such obligation is fulfilled, or (c) if such obligation remains unfulfilled, on July 15, 1987;

“(C) the concurrence by the State as described in subparagraphs I(C)(2)(a)(vi) and I(C)(2)(c) of the document referred to in this section shall be deemed not required after the Secretary has fulfilled his obligation under subparagraph I(C)(2)(g) of that document, but in no event after July 15, 1987. In

lieu of such concurrence, after 1984 as to military property, and after the Secretary has fulfilled his obligation under subparagraph I(C)(2)(g) of that document or July 15, 1987, whichever is earlier, as to any other property, except property of the Alaska Railroad which is governed by subsection 12(b)(6)(i)(D) of this Act [probably means subpar. (i)(D) of this paragraph], the Secretary shall not place any lands in the selection pool referred to in subparagraphs I(C)(2)(a) and (g) of the document referred to in this section without the prior written concurrence of the State. Such concurrence shall be deemed obtained unless the State advises the Secretary within ninety days of receipt of a formal notice from the Secretary that he is considering placing property in the selection pool, that the State, or a municipality of the State which includes all or part of the property in question, requires the property for a public purpose of the State or municipality; and

“(D) notwithstanding section 606(a)(2) of the Alaska Railroad Transfer Act of 1982 [section 1205(a)(2) of Title 45, Railroads], the Secretary may include property of the Alaska Railroad in the pool of lands to be made available for selection to the extent that he is authorized to do so under a provision of section 12(b) of this Act [subsec. (b) of this note] if the State consents to its inclusion, which consent is not subject to any limitation under subsection 12(b)(8)(i)(C) herein: *Provided*, That, while the Alaska Railroad is the property of the United States, the Secretary shall obtain the consent of the Secretary of Transportation prior to including such property: *And provided further*, That, if the transfer of the Alaska Railroad to the State does not occur pursuant to the terms of the Alaska Railroad Transfer Act of 1982 [see Short Title note set out under section 1201 of Title 45] or any amendments thereto, the State's consent shall be deemed obtained unless the State advises the Secretary in writing, within ninety days of receipt of a formal notice from the Secretary that he is considering placing such property in the selection pool, that the State, or a municipality of the State which includes all or part of the property in question, requires the property for a public purpose of the State or the municipality.

“(11) Notwithstanding the provisions of section 906 of the Alaska National Interest Lands Conservation Act [section 1635 of this title] and section 6(i) of the Alaska Statehood Act (72 Stat. 339) [set out in a note preceding section 21 of Title 48, Territories and Insular Possessions];

“(i) The State is hereby authorized to convey to the United States for reconveyance to the Region, and the Secretary is directed to accept and so reconvey, lands tentatively approved for patent or patented to the State, if the State and the Region enter into an agreement that such lands shall be reconveyed to the Region to fulfill all or part of its entitlement under paragraph I(C)(1) of the document referred to in this section: *Provided,* That the acreage of lands conveyed to the United States under this provision shall be added to the State's unfulfilled entitlement pursuant to section 6 of the Alaska Statehood Act, and the number of townships to be nominated, pooled, struck, selected and conveyed pursuant to paragraph I(C)(1) of the document referred to in this section shall be reduced accordingly.

“(ii) The Secretary is directed to convey to the Region lands selected by the State prior to July 18, 1973 or pursuant to sections 2 and 5 of the State-Federal Agreement of September 1, 1972, if the State relinquishes such selections and enters into an agreement with the Region that such lands shall be reconveyed to the Region to fulfill all or part of its entitlement under paragraph I(C)(1) of the document referred to in this section, and the number of townships to be nominated, pooled, struck, selected and conveyed pursuant to paragraph I(C)(1) of the document referred to in this section shall be reduced accordingly.

“(iii) The Secretary, in the Secretary's discretion, is authorized to enter into an agreement with the State and the Region to implement the authority contained in this section 12(b)(11) [subsec. (b)(11) of this note], which agreement may provide for conveyances directly from the State to the Region.

Conveyances directly conveyed shall be deemed conveyances from the Secretary pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.).

“(c) The lands and interests conveyed to the Region under the foregoing subsections of this section and the lands provided by the State exchange under subsection (a)(1) of this section, shall be considered and treated as conveyances under the Settlement Act [this chapter] unless otherwise provided, and shall constitute the Region's full entitlement under sections 12(c) and 14(h)(8) of the Settlement Act [sections 1611(c) and 1613(h)(8) of this title]. Of such lands, 3.58 townships of oil and gas and coal in the Kenai National Moose Range shall constitute the full surface and subsurface entitlement of the Region under section 14(h)(8) [section 1613(h)(8) of this title]. The lands which would comprise the difference in acreage between the lands actually conveyed under and referred to in the foregoing subsections of this section, and any final

determination of what the Region's acreage rights under sections 12(c) and 14(h)(8) of the Settlement Act [sections 1611(c) and 1613(h)(8) of this title] would have been, if the conveyances set forth in this section to the Region had not been executed, shall be retained by the United States and shall not be available for conveyance to any Regional Corporation or Village Corporation, notwithstanding any provisions of the Settlement Act [this chapter] to the contrary.

“(d)(1) The Secretary shall convey to the State of Alaska all right, title, and interest of the United States in and to all of the following lands:

“(i) At least 22.8 townships and no more than 27 townships of land from those presently withdrawn under section 17(d)(2) of the Settlement Act [section 1616(d)(2) of this title] in the Lake Iliamna area and within the Nushagak River or Koksetana River drainages near lands heretofore selected by the State, the amount and identities of which shall be determined pursuant to the document referred to in subsection (b); and

“(ii) 26 townships of lands in the Talkeetna Mountains, Kamishak Bay, and Tutna Lake areas, the identities of which are set forth in the document referred to in subsection (b).

All lands granted to the State of Alaska pursuant to this subsection shall be regarded for all purposes as if conveyed to the State under and pursuant to section 6 of the Alaska Statehood Act [set out as a note preceding section 21 of Title 48, Territories and Insular Possessions]: *Provided, however*, That this grant of lands shall not constitute a charge against the total acreage to which the State is entitled under section 6(b) of the Alaska Statehood Act.

“(2) The Secretary is authorized and directed to convey to the State of Alaska, without consideration, all right, title, and interest of the United States in and to all that tract generally known as the Campbell tract and more particularly identified in the document referred to in subsection (b) except for one compact union of land, which he determines, after consultation with the State of Alaska, is actually needed by the Bureau of Land Management for its present operations: *Provided*, That in no event shall the unit of land so excepted exceed 1,000 acres in size. The land authorized to be conveyed pursuant to this paragraph shall be used for public parks and recreational purposes and other compatible public purposes. An area encompassing approximately sixty-two acres and depicted on the map entitled ‘Native Heritage Park Proposal’ and on file with the Secretary shall be managed in accordance with the generalized land use plan outlined in the Greater Anchorage Area Borough's Far North Bicentennial Park Master Development Plan of September 1974. Except as provided otherwise in this paragraph, in making the conveyance authorized and required by this paragraph, the Secretary shall utilize the procedures of the Recreation and Public Purposes Act (44 Stat. 741), as amended [section 869 et seq. of this title], and regulations developed pursuant to that Act, and the conveyance of such lands shall also contain a provision that, if the lands cease to be used for the purposes for which they were conveyed; the lands and title thereto shall revert to the United States: *Provided, however*, That the acreage limitation provided by section 1(b) of that Act, as amended by the Act of June 4, 1954 (68 Stat. 173) [section 869(b) of this title], shall not apply to this conveyance, nor shall the lands conveyed pursuant to this paragraph be counted against that acreage limitation with respect to the State of Alaska or any subdivision thereof: *Provided further*, That to the extent necessary, any and all conveyance documents executed concerning the conveyance of the lands referred to in this proviso shall be deemed amended accordingly to conform to this proviso.

“(3) The Secretary is authorized and directed to make available for selection by the State, in its discretion, under section 6 of the Alaska Statehood Act [set out as a note preceding section 21 of Title 48, Territories and Insular Possessions], 12.4 townships of land to be selected from lands within the Talkeetna Mountains and Koksetna River area as described in the document referred to in subsection (b).

“(e) The Secretary may, notwithstanding any other provision of law to the contrary, convey title to lands and interests in lands selected by Native corporations within the exterior boundaries of Power Site Classification 443, February 13, 1958, to such corporations, subject to the reservations required by section 24 of the Federal Power Act [section 818 of Title 16, Conservation]. This conveyance shall be considered and treated as a conveyance under the Settlement Act [this chapter].

“(f) All conveyances of lands made or to be made by the State of Alaska in satisfaction of the terms and conditions of the document referred to in subsection (b) of this section shall pass all of the State's right, title, and interest in such lands, including the minerals therein, as if those conveyances were made pursuant to section 22(f) of the Settlement Act [section 1621(f) of this title], except that dedicated or platted section line easements and highway and other rights-of-way may be reserved to the State.

“(g) The Secretary, through the National Park Service, shall provide financial assistance, not to exceed \$25,000, hereby authorized to be appropriated, and technical assistance to the Region for the purpose of developing and implementing a land use plan for the west side of Cook Inlet, including an analysis of alternative uses of such lands.

“(h) Village Corporations within the Cook Inlet Region shall have until December 18, 1976, to file selections under section 12(b) of the Settlement Act [section 1611(b) of this title], notwithstanding any provision of that Act to the contrary.

“(i) The Secretary shall report to the Congress by April 15, 1976, on the implementation of this section. If the State fails to agree to engage in a transfer with the Federal Government, pursuant to subsection (a)(1), the Secretary shall prior to December 18, 1976, make no conveyance of the lands that were to be conveyed to the Region in this section, nor shall he convey prior to such date the Point Campbell, Point Woronzof, and Campbell tracts, so that the Congress is not precluded from fashioning an appropriate remedy. In the event that the State fails to agree as aforesaid, all rights of the Region that may have been extinguished by this section shall be restored.”

(C) in the case of land within a conservation system unit, a quarter of a quarter section, and if the land is managed by an agency other than the Bureau of Land Management, only with the concurrence of that agency.

(3)(A) If the Secretary determines pursuant to paragraph (2) that an entitlement of a Village Corporation (other than a Village Corporation listed in section 1615(a) of this title) or a Regional Corporation may be fulfilled by conveying a specific tract of surveyed or unsurveyed land, the Secretary and the affected Village or Regional Corporation may enter into an agreement providing that all land entitlements under this chapter shall be deemed satisfied by conveyance of the specifically identified and agreed upon tract of land.

(B) An agreement entered into under subparagraph (A) shall be—

(i) in writing;

(ii) executed by the Secretary and the Village or Regional Corporation; and

(iii) authorized by a corporate resolution adopted by the affected Village or Regional Corporation.

(ii) the Village or Regional Corporation shall not be entitled to any further conveyances under this chapter.

(D) A Village or Regional Corporation shall not be eligible to receive land under subparagraph (A) if the Village or Regional Corporation has received the full land entitlement of the Village or Regional Corporation through—

(i) an actual conveyance of land; or

(ii) a previous agreement.

(E) If the calculations of the Secretary indicate that the final survey boundaries for any Village or Regional Corporation entitlement for which an agreement has not been entered into under this

paragraph include acreage in a quantity that exceeds the statutory entitlement of the corporation by 1/10 of 1 percent or less, but not more than the applicable acreage limitation specified in paragraph (2)—

- (i) the entitlement shall be considered satisfied by the conveyance of the surveyed area; and
- (ii) the Secretary shall not change the survey for the sole purpose of an acreage adjustment.

(F) This paragraph does not limit or otherwise affect the ability of a Village or Regional Corporation to enter into land exchanges with the United States.

(e) Surface and/or subsurface estates to Regional Corporations

Immediately after selection by a Regional Corporation, the Secretary shall convey to the Regional Corporation title to the surface and/or the subsurface estates, as is appropriate, in the lands selected.

(f) Patents to Village Corporations for surface estates and to Regional Corporations for subsurface estates; excepted lands; mineral rights, consent of Village Corporations

When the Secretary issues a patent to a Village Corporation for the surface estate in lands pursuant to subsections (a) and (b) of this section, he shall issue to the Regional Corporation for the region in which the lands are located a patent to the subsurface estate in such lands, except lands located in the National Wildlife Refuge System and lands withdrawn or reserved for national defense purposes, including Naval Petroleum Reserve Numbered 4, for which in lieu rights are provided for in section 1611(a)(1) of this title: *Provided*, That the right to explore, develop, or remove minerals from the subsurface estate in the lands within the boundaries of any Native village shall be subject to the consent of the Village Corporation.

(g) Valid existing rights preserved; saving provisions in patents; patentee rights; administration; proportionate rights of patentee

All conveyances made pursuant to this chapter shall be subject to valid existing rights. Where, prior to patent of any land or minerals under this chapter, a lease, contract, permit, right-of-way, or easement (including a lease issued under section 6(g) of the Alaska Statehood Act) has been issued for the surface or minerals covered under such patent, the patent shall contain provisions making it subject to the lease, contract, permit, right-of-way, or easement, and the right of the lessee, contractee, permittee, or grantee to the complete enjoyment of all rights, privileges, and benefits thereby granted to him. Upon issuance of the patent, the patentee shall succeed and become entitled to any and all interests of the State or the United States as lessor, contractor, permitter, or grantor, in any such leases, contracts, permits, rights-of-way, or easements covering the estate patented, and a lease issued under section 6(g) of the Alaska Statehood Act shall be treated for all purposes as though the patent had been issued to the State. The administration of such lease, contract, permit, right-of-way, or easement shall continue to be by the State or the United States, unless the agency responsible for administration waives administration. In the event that the patent does not cover all of the land embraced within any such lease, contract, permit, right-of-way, or easement, the patentee shall only be entitled to the proportionate amount of the revenues reserved under such lease, contract, permit, right-of-way, or easement by the State or the United States which results from multiplying the total of such revenues by a fraction in which the numerator is the acreage of such lease, contract, permit, right-of-way, or easement which is included in the patent and the denominator is the total acreage contained in such lease, contract, permit, right-of-way, or easement.

(h) Authorization for land conveyances; surface and subsurface estates

(C)(i) Notwithstanding any other provision of this subsection, as soon as practicable after December 10, 2004, the Secretary shall allocate to a Regional Corporation eligible for an allocation under subparagraph (A) the Regional Corporation's share of 200,000 acres from lands withdrawn under this subsection, to be credited against acreage to be allocated to the Regional Corporation under subparagraph (A).

(ii) Clause (i) shall apply to Chugach Alaska Corporation pursuant to the terms of the 1982 CNI Settlement Agreement.

(I) clause (i) shall not apply; and

(II) the portion of the 200,000 acres allocated to Cook Inlet Region Inc. or Koniag, Inc., shall be retained by the United States.

(iv) This subparagraph shall not affect any prior agreement entered into by a Regional Corporation other than the agreements specifically referred to in this subparagraph.

(9) Where the Regional Corporation is precluded from receiving the subsurface estate in lands selected and conveyed pursuant to paragraph (1), (2), (3), or (5), or the retained mineral estate, if any, pursuant to paragraph (6), it may select the subsurface estate in an equal acreage from other lands withdrawn for such selection by the Secretary, or, as to Cook Inlet Region, Incorporated, from those areas designated for in lieu selection in paragraph I.B.(2) of the document identified in section 12(b) of Public Law 94–204. “(a)(1) During the period of the appropriate withdrawal for selection pursuant to the Settlement Act [this chapter], any and all proceeds derived from contracts, leases, licenses, permits, rights-of-way, or easements, or from trespass occurring after the date of withdrawal of the lands for selection, pertaining to lands or resources of lands, including wildlife proceeds received between the date of withdrawal and the date of conveyance from harvests on lands conveyed pursuant to the Act, withdrawn for Native selection pursuant to the Settlement Act shall be deposited in an escrow account which shall be held by the Secretary until lands selected pursuant to that Act have been conveyed to the selecting Corporation or individual entitled to receive benefits under such Act.

“(2) Such proceeds which were received, if any, subsequent to the date of withdrawal of the land for selection, but were not deposited in the escrow account shall be identified by the Secretary within two years of the date of conveyance or this Act [probably means Dec. 2, 1980], whichever is later, and shall be paid, together with interest payable on the proceeds from the date of receipt by the United States to the date of payment to the appropriate Corporation or individual to which the land was conveyed by the United States: *Provided*, That the interest on proceeds received prior to January 2, 1976, shall be calculated and paid at the rate of the earnings on Individual Indian Moneys in the custody of the Secretary of the Interior pursuant to sections 463 and 465 of the Revised Statutes (25 U.S.C. 2 and 9) and invested by him pursuant to the Act of June 24, 1938 (25 U.S.C. 162a), from the date of receipt to January 2, 1976. Effective January 2, 1976, the interest so calculated shall be added to the principal amount of such proceeds. The interest on this total amount and on proceeds received on or after January 2, 1976, shall be calculated and paid as though such proceeds and previously calculated interest had been deposited in the escrow account from January 2, 1976, or the date of receipt, whichever occurs later, to the date of payment to the affected Corporation.[:] *Provided further*, That any rights of a Corporation or individual under this section to such proceeds shall be limited to proceeds actually received by the United States plus interest: *And provided further*, That moneys for such payments have been appropriated as provided in subsection (e) of this section.

“(3) Such proceeds which have been deposited in the escrow account shall be paid, together with interest accrued by the Secretary to the appropriate Corporation or individual upon conveyance of the particular withdrawn lands. In the event that a conveyance does not cover all of the land embraced within any contract, lease, license, permit, right-of-way, easement, or trespass, the Corporation or individual shall only be entitled to the proportionate amount of the proceeds, including interest accrued, derived from such contract, lease, license, permit, right-of-way, or easement, which results from multiplying the total of such proceeds, including interest accrued, by a fraction in which the numerator is the acreage of such contract, lease, license, permit, right-of-way, or easement which is included in the conveyance and the denominator is the total acreage contained in such contract, lease, license, permit, right-of-way, or easement; in the case of trespass, the conveyee shall be entitled to the proportionate share of the proceeds, including a proportionate share of interest accrued, in relation to the damages occurring on the respective lands during the period the lands were withdrawn for selection.

“(4) Such proceeds which have been deposited in the escrow account pertaining to lands withdrawn but not selected pursuant to such Act [this chapter], or selected but not conveyed due to rejection or relinquishment of the selection, shall be paid, together with interest accrued, as would have been required by law were it not for the provisions of this Act [enacting sections 1625 to 1627 of this title, amending sections 1615, 1616, 1620, and 1621 of this title, and enacting provisions set out as notes under sections 1604, 1605, 1611, 1613, 1618, and 1625 of this title].

“(5) Lands withdrawn under this subsection include all Federal lands identified under appendices A, B–1, and B–2 of the document referred to in section 12 of the Act of January 2, 1976 (Public Law 94–204) [set out as a note under section 1611 of this title] for Cook Inlet Region, Incorporated, and are deemed withdrawn as of the date established in subsection (a) of section 2 of the Act of January 2, 1976 [this subsection].

“(b) The Secretary is authorized to deposit in the Treasury of the United States the escrow account proceeds referred to in subsection (a) of this section, and the United States shall pay interest thereon semiannually from

the date of deposit to the date of payment with simple interest at the rate determined by the Secretary of the Treasury to be the rate payable on short-term obligations of the United States prevailing at the time of payment: *Provided*, That the Secretary in his discretion may withdraw such proceeds from the United States Treasury and reinvest such proceeds in the manner provided by the first section of the Act of June 24, 1938 (52 U.S.C. 1037) [section 162a of Title 25, Indians]: *Provided further*, That this section shall not be construed to create or terminate any trust relationship between the United States and any corporation or individual entitled to receive benefits under the Settlement Act [this chapter].

“(c) Any and all proceeds from public easements reserved pursuant to section 17(b)(3) of the Settlement Act [section 1616(b)(3) of this title], from or after the date of enactment of this Act [Jan. 2, 1976], shall be paid to the grantee of such conveyance in accordance with such grantee's proportionate share.

“(d) To the extent that there is a conflict between the provisions of this section and any other Federal laws applicable to Alaska, the provisions of this section will govern. Any payment made to any corporation or any individual under authority of this section shall not be subject to any prior obligation under section 9(d) or 9(f) of the Settlement Act [section 1608(d) or section 1608(f) of this title].

“(e) The Secretary shall calculate the amounts payable pursuant to this section and notify the affected Corporation of the results of his calculations. The affected Corporation shall have thirty days in which to appeal the Secretary's calculations after which the Secretary shall promptly make a final determination of the amounts payable. The Secretary shall certify such final determinations to the Secretary of the Treasury and each determination shall constitute a final judgment, award, or compromise settlement under section 1304 of title 31 of the United States Code. The Secretary of the Treasury is authorized and directed to pay such amounts to the appropriate Corporation out of funds in the Treasury: *Provided*, That if the lands from which the proceeds and interest entitlement are derived have not been conveyed to the selecting Native Corporation at the time the Secretary makes his final determination, the Secretary of the Treasury is authorized and directed to pay such amount into the escrow account where it will earn interest and be disbursed in the same manner as other proceeds and interest.”

§1614. Timber sale contracts; modification; timber from contingency area

(a) Notwithstanding the provisions of existing National Forest timber sale contracts that are directly affected by conveyances authorized by this chapter, the Secretary of Agriculture is authorized to modify any such contract, with the consent of the purchaser, by substituting, to the extent practicable, timber on other national forest lands approximately equal in volume, species, grade, and accessibility for timber standing on any land affected by such conveyances, and, on request of the appropriate Village Corporation the Secretary of Agriculture is directed to make such substitution to the extent it is permitted by the timber sale contract without the consent of the purchaser.

§1616. Joint Federal-State Land Use Planning Commission for Alaska

(a) Omitted

(b) Public easements; continuance of access rights under valid existing rights

(1) The Planning Commission shall identify public easements across lands selected by Village Corporations and the Regional Corporations and at periodic points along the courses of major waterways which are reasonably necessary to guarantee international treaty obligations, a full right of public use and access for recreation, hunting, transportation, utilities, docks, and such other public uses as the Planning Commission determines to be important.

(2) In identifying public easements the Planning Commission shall consult with appropriate State

and Federal agencies, shall review proposed transportation plans, and shall receive and review statements and recommendations from interested organizations and individuals on the need for and proposed location of public easements: *Provided*, That any valid existing right recognized by this chapter shall continue to have whatever right of access as is now provided for under existing law and this subsection shall not operate in any way to diminish or limit such right of access.

(3) Prior to granting any patent under this chapter to the Village Corporation and Regional Corporations, the Secretary shall consult with the State and the Planning Commission and shall reserve such public easements as he determines are necessary.

(c) Prohibition against selection of lands from withdrawn area in event of withdrawal of utility and transportation corridor across public lands

In the event that the Secretary withdraws a utility and transportation corridor across public lands in Alaska pursuant to his existing authority, the State, the Village Corporations and the Regional Corporations shall not be permitted to select lands from the area withdrawn.

(d) Public Land Order Numbered 4582 revoked; withdrawal of unreserved public lands; classification and reclassification of lands; opening lands to appropriation; administration; contracting and other authority of Secretary not impaired by withdrawal

(1) Public Land Order Numbered 4582, 34 Federal Register 1025, as amended, is hereby revoked. For a period of ninety days after December 18, 1971, all unreserved public lands in Alaska are hereby withdrawn from all forms of appropriation under the public land laws, including the mining (except locations for metalliferous minerals) and the mineral leasing laws. During this period of time the Secretary shall review the public lands in Alaska and determine whether any portion of these lands should be withdrawn under authority provided for in existing law to insure that the public interest in these lands is properly protected. Any further withdrawal shall require an affirmative act by the Secretary under his existing authority, and the Secretary is authorized to classify or reclassify any lands so withdrawn and to open such lands to appropriation under the public land laws in accord with his classifications. Withdrawals pursuant to this paragraph shall not affect the authority of the Village Corporations, the Regional Corporations, and the State to make selections and obtain patents within the areas withdrawn pursuant to section 1610 of this title.

(2)(A) The Secretary, acting under authority provided for in existing law, is directed to withdraw from all forms of appropriation under the public land laws, including the mining and mineral leasing laws, and from selection under the Alaska Statehood Act, and from selection by Regional Corporations pursuant to section 1610 of this title, up to, but not to exceed, eighty million acres of unreserved public lands in the State of Alaska, including previously classified lands, which the Secretary deems are suitable for addition to or creation as units of the National Park, Forest, Wildlife Refuge, and Wild and Scenic Rivers Systems: *Provided*, That such withdrawals shall not affect the authority of the State and the Regional and Village Corporations to make selections and obtain patents within the areas withdrawn pursuant to section 1610 of this title.

(B) Lands withdrawn pursuant to paragraph (A) hereof must be withdrawn within nine months of December 18, 1971. All unreserved public lands not withdrawn under paragraph (A) or subsection (d)(1) of this section shall be available for selection by the State and for appropriation under the public land laws.

(C) Every six months, for a period of two years from December 18, 1971, the Secretary shall advise the Congress of the location, size and values of lands withdrawn pursuant to paragraph (A) and submit his recommendations with respect to such lands. Any lands withdrawn pursuant to paragraph (A) not recommended for addition to or creation as units of the National Park, Forest, Wildlife Refuge, and Wild and Scenic Rivers Systems at the end of the two years shall be available for selection by the State and the Regional Corporations, and for appropriations under the public land laws.

(D) Areas recommended by the Secretary pursuant to paragraph (C) shall remain withdrawn from any appropriation under the public land laws until such time as the Congress acts on the Secretary's recommendations, but not to exceed five years from the recommendation dates. The withdrawal of areas not so recommended shall terminate at the end of the two year period.

(E) Notwithstanding any other provision of this subsection, initial identification of lands desired to be selected by the State pursuant to the Alaska Statehood Act and by the Regional Corporations pursuant to section 1611 of this title may be made within any area withdrawn pursuant to this subsection (d), but such lands shall not be tentatively approved or patented so long as the withdrawals of such areas remain in effect: *Provided*, That selection of lands by Village Corporations pursuant to section 1611 of this title shall not be affected by such withdrawals and such lands selected may be patented and such rights granted as authorized by this chapter. In the event Congress enacts legislation setting aside any areas withdrawn under the provisions of this subsection which the Regional Corporations or the State desired to select, then other unreserved public lands shall be made available for alternative selection by the Regional Corporations and the State. Any time periods established by law for Regional Corporations or State selections are hereby extended to the extent that delays are caused by compliance with the provisions of this subsection (2).

(3) Any lands withdrawn under this section shall be subject to administration by the Secretary under applicable laws and regulations, and his authority to make contracts and to grant leases, permits, rights-of-way, or easements shall not be impaired by the withdrawal.

§1617. Revocation of Indian allotment authority in Alaska

(a) Revocation of authority

No Native covered by the provisions of this chapter, and no descendant of his, may hereafter avail himself of an allotment under the provisions of the Act of February 8, 1887 (24 Stat. 389), as amended and supplemented, or the Act of June 25, 1910 (36 Stat. 363). Further, the Act of May 17, 1906 (34 Stat. 197), as amended, is repealed. Notwithstanding the foregoing provisions of this section, any application for an allotment that is pending before the Department of the Interior on December 18, 1971, may, at the option of the Native applicant, be approved and a patent issued in accordance with said 1887, 1910, or 1906 Act, as the case may be, in which event the Native shall not be eligible for a patent under section 1613(h)(5) of this title.

(b) Charging allotment against statutory grant

Any allotments approved pursuant to this section during the four years following December 18, 1971, shall be charged against the two million acre grant provided for in section 1613(h) of this title.

(c) Relocation of allotment

(1)(A) Notwithstanding any other provision of law, an allotment applicant, who had a valid application pending before the Department of the Interior on December 18, 1971, and whose

application remains pending as of October 14, 1992, may amend the land description in the application of the applicant (with the advice and approval of the responsible officer of the Bureau of Indian Affairs) to describe land other than the land that the applicant originally intended to claim if—

- (i) the application pending before the Department, either describes land selected by, tentatively approved to, or patented to the State of Alaska or otherwise conflicts with an interest in land granted to the State of Alaska by the United States prior to the filing of the allotment application;
- (ii) the amended land description describes land selected by, tentatively approved to, or patented to the State of Alaska of approximately equal acreage in substitution for the land described in the original application; and
- (iii) the Commissioner of the Department of Natural Resources for the State of Alaska, acting under the authority of State law, has agreed to reconvey or relinquish to the United States the land, or interest in land, described in the amended application.

(B) If an application pending before the Department of the Interior as described in subparagraph (A) describes land selected by, but not tentatively approved to or patented to, the State of Alaska, the concurrence of the Secretary of the Interior shall be required in order for an application to proceed under this section.

(2)(A) The Secretary shall accept reconveyance or relinquishment from the State of Alaska of the land described in an amended application pursuant to paragraph (1)(A), except where the land described in the amended application is State-owned land within the boundaries of a conservation system unit as defined in the Alaska National Interest Lands Conservation Act. Upon acceptance, the Secretary shall issue a Native Allotment certificate to the applicant for the land reconveyed or relinquished by the State of Alaska to the United States.

(B) The Secretary shall adjust the computation of the acreage charged against the land entitlement of the State of Alaska to ensure that this subsection will not cause the State to receive either more or less than its full land entitlement under section 6 of the Act entitled “An Act to provide for the admission of the State of Alaska into the Union”, approved July 7, 1958 (commonly referred to as the “Alaska Statehood Act”), and section 906 of the Alaska National Interest Lands Conservation Act (43 U.S.C. 1635). If the State retains any part of the fee estate, the State shall remain charged with the acreage.

(d) Correction of conveyance documents

(1) If an allotment application is valid or would have been approved under section 1634 of this title had the land described in the application been in Federal ownership on December 2, 1980, the Secretary may correct a conveyance to a Native Corporation or to the State that includes land described in the allotment application to exclude the described allotment land with the written concurrence of the Native Corporation or the State.

(2) A written concurrence shall—

(A) include a finding that the land description proposed by the Secretary is acceptable; and

(B) attest that the Native Corporation or the State has not—

(i) granted any third party rights or taken any other action that would affect the ability of the United States to convey full title under the Act of May 17, 1906 (34 Stat. 197, chapter 2469); and

(ii) stored or allowed the deposit of hazardous waste on the land.

(3) On receipt of an acceptable written concurrence, the Secretary, shall—

(A) issue a corrected conveyance document to the State or Native Corporation, as appropriate; and

(B) issue a certificate of allotment to the allotment applicant.

(4) No documents of reconveyance from the State or an Alaska Native Corporation or evidence of title, other than the written concurrence and attestation described in paragraph (2), are necessary to use the procedures authorized by this subsection.

(e) Native allotment revisions on land selected by or conveyed to a Native Corporation

(1) An allotment applicant who had an application pending before the Department of the Interior on December 18, 1971, and whose application is still open on the records of the Department of the Interior as of December 10, 2004, may revise the land description in the application to describe land other than the land that the applicant originally intended to claim if—

(A) the application—

(i) describes land selected by or conveyed by interim conveyance or patent to a Native Corporation formed to receive benefits under this chapter; or

(ii) otherwise conflicts with an interest in land granted to a Native Corporation by the United States;

(B) the revised land description describes land selected by or conveyed by interim conveyance or patent to a Native Corporation of approximately equal acreage in substitution for the land described in the original application;

(C) the Director of the Bureau of Land Management has not adopted a final plan of survey for the final entitlement of the Native Corporation or its successor in interest; and

(D) the Native Corporation that selected the land or its successor in interest provides a corporate resolution authorizing reconveyance or relinquishment to the United States of the land, or interest in land, described in the revised application.

(2) The land description in an allotment application may not be revised under this section unless the Secretary has determined—

(A) that the allotment application is valid or would have been approved under section 1634 of this title had the land in the allotment application been in Federal ownership on December 2, 1980;

(B) in consultation with the administering agency, that the proposed revision would not create an isolated inholding within a conservation system unit (as defined in section 3102 of title 16); and

(C) that the proposed revision will facilitate completion of a land transfer in the State.

(3)(A) On obtaining title evidence acceptable under Department of Justice title standards and acceptance of a reconveyance or relinquishment from a Native Corporation under paragraph (1), the Secretary shall issue a Native allotment certificate to the applicant for the land reconveyed or relinquished by the Native Corporation.

(B) Any allotment revised under this section shall, when allotted, be made subject to any easement, trail, right-of-way, or any third-party interest (other than a fee interest) in existence on the revised allotment land on the date of revision.

(f) Reinstatements and reconstructions

(1) If an applicant for a Native allotment filed under the Act of May 17, 1906 (34 Stat. 197, chapter 2469) petitions the Secretary to reinstate a previously closed Native allotment application or to accept a reconstructed copy of an application claimed to have been timely filed with an agency of the Department of the Interior, the United States—

(A) may seek voluntary reconveyance of any land described in the application that is reinstated or reconstructed after December 10, 2004; but

(B) shall not file an action in any court to recover title from a current landowner.

(2) A certificate of allotment that is issued for any allotment application for which a request for reinstatement or reconstruction is received or accepted after December 10, 2004 shall be made subject to any Federal appropriation, trail, right-of-way, easement, or existing third party interest of record, including third party interests created by the State, without regard to the date on which the Native allotment applicant initiated use and occupancy.

§1618. Revocation of reserved rights; excepted reserve; acquisition of title to surface and subsurface estates in reserve; election of Village Corporations; restoration of land to Elim Native Corporation

(a) Revocation of reserved rights; excepted reserve

Notwithstanding any other provision of law, and except where inconsistent with the provisions of this chapter, the various reserves set aside by legislation or by Executive or Secretarial Order for Native use or for administration of Native affairs, including those created under section 497 of title 25, are hereby revoked subject to any valid existing rights of non-Natives. This section shall not

apply to the Annette Island Reserve established by section 495 of title 25 and no person enrolled in the Metlakatla Indian community of the Annette Island Reserve shall be eligible for benefits under this chapter.

(b) Acquisition of title to surface and subsurface estates in reserve; election of Village Corporations

Notwithstanding any other provision of law or of this chapter, any Village Corporation or Corporations may elect within two years to acquire title to the surface and subsurface estates in any reserve set aside for the use or benefit of its stockholders or members prior to December 18, 1971. If two or more villages are located on such reserve, the election must be made by all of the members or stockholders of the Village Corporations concerned. In such event, the Secretary shall convey the land to the Village Corporation or Corporations, subject to valid existing rights as provided in section 1613(g) of this title, and the Village Corporation shall not be eligible for any other land selections under this chapter or to any distribution of Regional Corporations funds pursuant to section 1606 of this title, and the enrolled residents of the Village Corporation shall not be eligible to receive Regional Corporation stock.

(c) Restoration of land to Elim Native Corporation

(1) Findings

The Congress finds that—

(A) approximately 350,000 acres of land were withdrawn by Executive orders in 1917 for the use of the United States Bureau of Education and of the Natives of Indigenous Alaskan race;

(B) these lands comprised the Norton Bay Reservation (later referred to as Norton Bay Native Reserve) and were set aside for the benefit of the Native inhabitants of the Eskimo Village of Elim, Alaska;

(C) in 1929, 50,000 acres of land were deleted from the Norton Bay Reservation by Executive order;

(D) the lands were deleted from the Reservation for the benefit of others;

(E) the deleted lands were not available to the Native inhabitants of Elim under subsection (b) of this section at the time of passage of this chapter;

(F) the deletion of these lands has been and continues to be a source of deep concern to the indigenous people of Elim; and

(G) until this matter is dealt with, it will continue to be a source of great frustration and sense of loss among the shareholders of the Elim Native Corporation and their descendants.

(2) Withdrawal

The lands depicted and designated “Withdrawal Area” on the map dated October 19, 1999, along with their legal descriptions, on file with the Bureau of Land Management, and entitled “Land Withdrawal Elim Native Corporation”, are hereby withdrawn, subject to valid existing rights, from all forms of appropriation or disposition under the public land laws, including the mining and mineral leasing laws, for a period of 2 years from May 2, 2000, for selection by the Elim Native Corporation (hereinafter referred to as “Elim”).

(3) Authority to select and convey

Elim is authorized to select in accordance with the rules set out in this paragraph, 50,000 acres of land (hereinafter referred to as “Conveyance Lands”) within the boundary of the Withdrawal Area described in paragraph (2). The Secretary is authorized and directed to convey to Elim in fee the surface and subsurface estates to 50,000 acres of valid selections in the Withdrawal Area, subject to the covenants, reservations, terms and conditions and other provisions of this subsection.

(A) Elim shall have 2 years from May 2, 2000, in which to file its selection of no more than 60,000 acres of land from the area described in paragraph (2). The selection application shall be filed with the Bureau of Land Management, Alaska State Office, shall describe a single tract adjacent to United States Survey No. 2548, Alaska, and shall be reasonably compact,

contiguous, and in whole sections except when separated by unavailable land or when the remaining entitlement is less than a whole section. Elim shall prioritize its selections made pursuant to this subsection at the time such selections are filed, and such prioritization shall be irrevocable. Any lands selected shall remain withdrawn until conveyed or full entitlement has been achieved.

(B) The selection filed by Elim pursuant to this subsection shall be subject to valid existing rights and may not supercede prior selections of the State of Alaska, any Native corporation, or valid entries of any private individual unless such selection or entry is relinquished, rejected, or abandoned prior to conveyance to Elim.

(C) Upon receipt of the Conveyance Lands, Elim shall have all legal rights and privileges as landowner, subject only to the covenants, reservations, terms and conditions specified in this subsection.

(D) Selection by Elim of lands under this subsection and final conveyance of those lands to Elim shall constitute full satisfaction of any claim of entitlement of Elim with respect to its land entitlement.

(4) Covenants, reservations, terms and conditions

The covenants, reservations, terms and conditions set forth in this paragraph and in paragraphs (5) and (6) with respect to the Conveyance Lands shall run with the land and shall be incorporated into the interim conveyance, if any, and patent conveying the lands to Elim.

(A) Consistent with paragraph (3)(C) and subject to the applicable covenants, reservations, terms and conditions contained in this paragraph and paragraphs (5) and (6), Elim shall have all rights to the timber resources of the Conveyance Lands for any use including, but not limited to, construction of homes, cabins, for firewood and other domestic uses on any Elim lands:

Provided, That cutting and removal of Merchantable Timber from the Conveyance Lands for sale shall not be permitted: *Provided further*, That Elim shall not construct roads and related infrastructure for the support of such cutting and removal of timber for sale or permit others to do so. "Merchantable Timber" means timber that can be harvested and marketed by a prudent operator.

(B) Public Land Order 5563 of December 16, 1975, which made hot or medicinal springs available to other Native Corporations for selection and conveyance, is hereby modified to the extent necessary to permit the selection by Elim of the lands heretofore encompassed in any withdrawal of hot or medicinal springs and is withdrawn pursuant to this subsection. The Secretary is authorized and directed to convey such selections of hot or medicinal springs (hereinafter referred to as "hot springs") subject to applicable covenants, reservations, terms and conditions contained in paragraphs (5) and (6).

(C) Should Elim select and have conveyed to it lands encompassing portions of the Tubutulik River or Clear Creek, or both, Elim shall not permit surface occupancy or knowingly permit any other activity on those portions of land lying within the bed of or within 300 feet of the ordinary high waterline of either or both of these water courses for purposes associated with mineral or other development or activity if they would cause or are likely to cause erosion or siltation of either water course to an extent that would significantly adversely impact water quality or fish habitat.

(5) Rights retained by the United States

With respect to conveyances authorized in paragraph (3), the following rights are retained by the United States:

(A) To enter upon the conveyance lands, after providing reasonable advance notice in writing to Elim and after providing Elim with an opportunity to have a representative present upon such entry, in order to achieve the purpose and enforce the terms of this paragraph and paragraphs (4) and (6).

(B) To have, in addition to such rights held by Elim, all rights and remedies available against persons, jointly or severally, who cut or remove Merchantable Timber for sale.

(C) In cooperation with Elim, the right, but not the obligation, to reforest in the event

previously existing Merchantable Timber is destroyed by fire, wind, insects, disease, or other similar manmade or natural occurrence (excluding manmade occurrences resulting from the exercise by Elim of its lawful rights to use the Conveyance Lands).

(D) The right of ingress and egress over easements under section 1616(b) of this title for the public to visit, for noncommercial purposes, hot springs located on the Conveyance Lands and to use any part of the hot springs that is not commercially developed.

(E) The right to enter upon the lands containing hot springs for the purpose of conducting scientific research on such hot springs and to use the results of such research without compensation to Elim. Elim shall have an equal right to conduct research on the hot springs and to use the results of such research without compensation to the United States.

(F) A covenant that commercial development of the hot springs by Elim or its successors, assigns, or grantees shall include the right to develop only a maximum of 15 percent of the hot springs and any land within ¼ mile of the hot springs. Such commercial development shall not alter the natural hydrologic or thermal system associated with the hot springs. Not less than 85 percent of the lands within ¼ mile of the hot springs shall be left in their natural state.

(G) The right to exercise prosecutorial discretion in the enforcement of any covenant, reservation, term or condition shall not waive the right to enforce any covenant, reservation, term or condition.

(6) General

(A) Memorandum of Understanding

The Secretary and Elim shall, acting in good faith, enter into a Memorandum of Understanding (hereinafter referred to as the “MOU”) to implement the provisions of this subsection. The MOU shall include among its provisions reasonable measures to protect plants and animals in the hot springs on the Conveyance Lands and on the land within ¼ mile of the hot springs. The parties shall agree to meet periodically to review the matters contained in the MOU and to exercise their right to amend, replace, or extend the MOU. Such reviews shall include the authority to relocate any of the easements set forth in subparagraph (D) if the parties deem it advisable.

(B) Incorporation of terms

Elim shall incorporate the covenants, reservations, terms and conditions, in this subsection in any deed or other legal instrument by which it divests itself of any interest in all or a portion of the Conveyance Lands, including without limitation, a leasehold interest.

(C) Section 1616(b) easements

The Bureau of Land Management, in consultation with Elim, shall reserve in the conveyance to Elim easements to the United States pursuant to subsection ¹ 1616(b) of this title that are not in conflict with other easements specified in this paragraph.

(D) Other easements

The Bureau of Land Management, in consultation with Elim, shall reserve easements which shall include the right of the public to enter upon and travel along the Tubutulik River and Clear Creek within the Conveyance Lands. Such easements shall also include easements for trails confined to foot travel along, and which may be established along each bank of, the Tubutulik River and Clear Creek. Such trails shall be 25 feet wide and upland of the ordinary high waterline of the water courses. The trails may deviate from the banks as necessary to go around man-made or natural obstructions or to portage around hazardous stretches of water. The easements shall also include one-acre sites along the water courses at reasonable intervals, selected in consultation with Elim, which may be used to launch or take out water craft from the water courses and to camp in non-permanent structures for a period not to exceed 24 hours without the consent of Elim.

(E) Inholders

The owners of lands held within the exterior boundaries of lands conveyed to Elim shall have

all rights of ingress and egress to be vested in the inholder and the inholder's agents, employees, co-venturers, licensees, subsequent grantees, or invitees, and such easements shall be reserved in the conveyance to Elim. The inholder may not exercise the right of ingress and egress in a manner that may result in substantial damage to the surface of the lands or make any permanent improvements on Conveyance Lands without the prior consent of Elim.

(F) Iditarod trail

The Bureau of Land Management may reserve an easement for the Iditarod National Historic Trail in the conveyance to Elim.

(7) Implementation

There are authorized to be appropriated such sums as may be necessary to implement this subsection.

The basis for determining gain or loss from the sale or other disposition of such land or interest in land for purposes of any Federal, State, or local tax imposed on or measured by income shall be the fair value of such land or interest in land at the time of receipt, adjusted as provided in section 1016 of title 26, as amended: *Provided, however,* That the basis of any such land or interest therein attributable to an interest in a mine, well, other natural deposit, or block of timber shall be not less than the fair value of such mine, well, natural deposit, or block of timber (or such interest therein as the Secretary shall convey) at the time of the first commercial development thereof, adjusted as provided in section 1016 of title 26. In the event that a Native Corporation simultaneously exchanges two or more tracts of land having different periods of tax exemption pursuant to this subsection, the periods of tax exemption for the exchanged lands received by such Native Corporation shall be determined (A) by calculating the percentage that the acreage of each tract given up bears to the total acreage given up, and (B) by applying such percentages and the related periods of tax exemption to the acreage received in exchange.

(a) Contract restrictions; percentage fee; enforcement; liens, executions, or judgments

None of the revenues granted by section 1605 of this title, and none of the lands granted by this chapter to the Regional and Village Corporation and to Native groups and individuals shall be subject to any contract which is based on a percentage fee of the value of all or some portion of the settlement granted by this chapter. Any such contract shall not be enforceable against any Native as defined by this chapter or any Regional or Village Corporation and the revenues and lands granted by this chapter shall not be subject to lien, execution or judgment to fulfill such a contract.

(b) Patents for homesteads, headquarters sites, trade and manufacturing sites, or small tract sites; use and occupancy protection

The Secretary is directed to promptly issue patents to all persons who have made a lawful entry on the public lands in compliance with the public land laws for the purpose of gaining title to homesteads, headquarters sites, trade and manufacturing sites, or small tract sites (43 U.S.C. 682 ¹),

and who have fulfilled all requirements of the law prerequisite to obtaining a patent. Any person who has made a lawful entry prior to August 31, 1971, for any of the foregoing purposes shall be protected in his right of use and occupancy until all the requirements of law for a patent have been met even though the lands involved have been reserved or withdrawn in accordance with Public Land Order 4582, as amended, or the withdrawal provisions of this chapter: *Provided*, That occupancy must have been maintained in accordance with the appropriate public land law: *Provided further*, That any person who entered on public lands in violation of Public Land Order 4582, as amended, shall gain no rights.

(c) Mining claims; possessory rights, protection

(1) On any lands conveyed to Village and Regional Corporations, any person who prior to August 31, 1971, initiated a valid mining claim or location under the general mining laws and recorded notice of said location with the appropriate State or local office shall be protected in his possessory rights, if all requirements of the general mining laws are complied with, for a period of five years and may, if all requirements of the general mining laws are complied with, proceed to patent.

(2)(A)(i) Subject to valid existing rights, an unpatented mining claim or location, or portion thereof, under the general mining laws that is situated outside the boundaries of a conservation system unit (as such term is defined in the Alaska National Interest Lands Conservation Act) and within the exterior boundaries of lands validly selected by a Village or Regional Corporation pursuant to section 1611 of this title or section 1613(h) of this title and that lapses, is abandoned, relinquished, or terminated, declared null and void, or otherwise expires, after August 31, 1971, because of failure to comply with requirements of the general mining laws (including the mining laws of the State of Alaska), is deemed to be null and void for the purposes of this paragraph. The Secretary shall promptly determine the validity of such claims or locations within conservation system units.

(ii) Subject to valid existing rights and to subparagraph (B), the lands outside a conservation system unit included in a mining claim or location described in clause (i) shall—

(I) be considered part of the lands selected pursuant to sections 1611 of this title and 1613(h) of this title by the Village or Regional Corporation described in clause (i); and

(II) be eligible for conveyance pursuant to this chapter unless specifically identified and excluded from an initial selection application.

(iii) Subject to valid existing rights and to subparagraph (B), any portion outside a conservation system unit of a mining claim or location described in clause (i) that is situated within the exterior boundaries of lands conveyed prior to October 14, 1992, from selections under section 1611 or section 1613(h) of this title shall be conveyed pursuant to this chapter.

(B) No lands shall be conveyed pursuant to this subsection if the conveyance would result in the receipt of title to lands in excess of an acreage entitlement under this chapter.

(3) This section shall apply to lands conveyed by interim conveyance or patent to a Regional Corporation pursuant to this chapter which are made subject to a mining claim or claims located under the general mining laws, including lands conveyed prior to November 2, 1995. Effective on November 2, 1995, the Secretary, acting through the Bureau of Land Management and in a manner consistent with section 1613(g) of this title, shall transfer to the Regional Corporation administration of all mining claims determined to be entirely within lands conveyed to that corporation. Any person holding such mining claim or claims shall meet such requirements of the general mining laws and section 1744 of this title, except that any filings that would have been made with the Bureau of Land Management if the lands were within Federal ownership shall be timely made with the appropriate Regional Corporation. The validity of any such mining claim or claims may be contested by the Regional Corporation, in place of the United States. All contest proceedings and appeals by the mining claimants of adverse decisions made by the Regional Corporation shall be brought in Federal District Court for the District of Alaska. Neither the United States nor any Federal agency or official shall be named or joined as a party in such proceedings or appeals. All revenues from such mining claims received after November 2, 1995, shall be remitted to the Regional Corporation subject to distribution pursuant to section 1606(i) of this title, except that in the event that the mining claim or

claims are not totally within the lands conveyed to the Regional Corporation, the Regional Corporation shall be entitled only to that proportion of revenues, other than administrative fees, reasonably allocated to the portion of the mining claim so conveyed. The provisions of this section shall apply to Haida Corporation and the Haida Traditional Use Sites, which shall be treated as a Regional Corporation for the purposes of this paragraph, except that any revenues remitted to Haida Corporation under this section shall not be subject to distribution pursuant to section 1606(i) of this title.

(d) Purchase restrictions for personnel inapplicable to chapter

The provisions of section 11 of this title shall not apply to any land grants or other rights granted under this chapter.

(e) National Wildlife Refuge System; replacement lands

If land within the National Wildlife Refuge System is selected by a Village Corporation pursuant to the provisions of this chapter, the secretary shall add to the Refuge System other public lands in the State to replace the lands selected by the Village Corporation.

(f) Land exchanges

The Secretary, the Secretary of Defense, the Secretary of Agriculture, and the State of Alaska are authorized to exchange lands or interests therein, including Native selection rights, with the corporations organized by Native groups, Village Corporations, Regional Corporations, and the corporations organized by Natives residing in Juneau, Sitka, Kodiak, and Kenai, all as defined in this chapter, and other municipalities and corporations or individuals, the State (acting free of the restrictions of section 6(i) of the Alaska Statehood Act), or any Federal agency for the purpose of effecting land consolidations or to facilitate the management or development of the land, or for other public purposes. Exchanges shall be on the basis of equal value, and either party to the exchange may pay or accept cash in order to equalize the value of the property exchanged: *Provided*, That when the parties agree to an exchange and the appropriate Secretary determines it is in the public interest, such exchanges may be made for other than equal value.

(g) National Wildlife Refuge System lands subject of patents; Federal reservation of first refusal rights; provision in patents for continuing application of laws and regulations governing Refuge

If a patent is issued to any Village Corporation for land in the National Wildlife Refuge System, the patent shall reserve to the United States the right of first refusal if the land is ever sold by the Village Corporation. Notwithstanding any other provision of this chapter, every patent issued by the Secretary pursuant to this chapter—which covers lands lying within the boundaries of a National Wildlife Refuge on December 18, 1971, shall contain a provision that such lands remain subject to the laws and regulations governing use and development of such Refuge.

(h) Withdrawals of public lands; termination date

(1) All withdrawals made under this chapter, except as otherwise provided in this subsection, shall terminate within four years of December 18, 1971: *Provided*, That any lands selected by Village or Regional Corporations or by a Native group under section 1611 of this title shall remain withdrawn until conveyed pursuant to section 1613 of this title.

(2) The withdrawal of lands made by section 1610(a)(2) and section 1615 of this title shall terminate three years from December 18, 1971.

(3) The provisions of this section shall not apply to any withdrawals made under section 1616 of this title.

(4) The Secretary is authorized to terminate any withdrawal made by or pursuant to this chapter whenever he determines that the withdrawal is no longer necessary to accomplish the purposes of this chapter.

(i) Administration of withdrawn lands; contracting and other authority of Secretaries not impaired by withdrawal

Prior to a conveyance pursuant to section 1613 of this title, lands withdrawn by or pursuant to

sections 1610, 1613, and 1615 of this title shall be subject to administration by the Secretary, or by the Secretary of Agriculture in the case of National Forest lands, under applicable laws and regulations, and their authority to make contracts and to grant leases, permits, rights-of-way, or easements shall not be impaired by the withdrawal.

(j) Interim conveyances and underselections

(1) Where lands to be conveyed to a Native, Native Corporation, or Native group pursuant to this chapter as amended and supplemented have not been surveyed, the same may be conveyed by the issuance of an “interim conveyance” to the party entitled to the lands. Subject to valid existing rights and such conditions and reservations authorized by law as are imposed, the force and effect of such an interim conveyance shall be to convey to and vest in the recipient exactly the same right, title, and interest in and to the lands as the recipient would have received had he been issued a patent by the United States. Upon survey of lands covered by an interim conveyance a patent thereto shall be issued to the recipient. The boundaries of the lands as defined and conveyed by the interim conveyance shall not be altered but may then be redescribed, if need be, in reference to the plat of survey. The Secretary shall make appropriate adjustments to insure that the recipient receives his full entitlement. Where the term “patent,” or a derivative thereof, is used in this chapter unless the context precludes such construction, it shall be deemed to include “interim conveyance,” and the conveyances of land to Natives and Native Corporations provided for this chapter shall be as fully effectuated by the issuance of interim conveyances as by the issuance of patents.

(2) Where lands selected and conveyed, or to be conveyed to a Village Corporation are insufficient to fulfill the Corporation's entitlement under section 1611(b), 1613(a), 1615(b), or 1615(d) of this title, the Secretary is authorized to withdraw twice the amount of unfulfilled entitlement and provide the Village Corporation ninety days from receipt of notice from the Secretary to select from the lands withdrawn the land it desires to fulfill its entitlement. In making the withdrawal, the Secretary shall first withdraw public lands that were formerly withdrawn for selection by the concerned Village Corporation by or pursuant to section 1610(a)(1), 1610(a)(3), 1615(a), or 1615(d) of this title. Should such lands no longer be available, the Secretary may withdraw public lands that are vacant, unreserved, and unappropriated, except that the Secretary may withdraw public lands which had been previously withdrawn pursuant to section 1616(d) of this title. Any subsequent selection by the Village Corporation shall be in the manner provided in this chapter for such original selections.

(3) In lieu of withdrawal under paragraph (2), land may be segregated from all other forms of appropriation for the purposes described in that paragraph if—

(A) the Secretary and the Village Corporation enter into an agreement identifying the land for selection; and

(B) the Village Corporation files an application for selection of the land.

(k) National forest land patents; conditions

Any patents to lands under this chapter which are located within the boundaries of a national forest shall contain such conditions as the Secretary deems necessary to assure that:

(1) the sale of any timber from such lands shall, for a period of five years, be subject to the same restrictions relating to the export of timber from the United States as are applicable to national forest lands in Alaska under rules and regulations of the Secretary of Agriculture; and

(2) such lands are managed under the principle of sustained yield and under management practices for protection and enhancement of environmental quality no less stringent than such management practices on adjacent national forest lands for a period of twelve years.

(l) Land selection limitation; proximity to home rule or first class city and Ketchikan

Notwithstanding any provision of this chapter, no Village or Regional Corporation shall select lands which are within two miles from the boundary, as it exists on December 18, 1971, of any home rule or first class city (excluding boroughs) or which are within six miles from the boundary of Ketchikan.

(m) Licenses held by Alaska Native regional corporations

An Alaska Native regional corporation organized pursuant to this chapter, or an affiliate thereof, that holds a Federal Communications Commission license in the personal communications service as of the date of enactment of this section ² and has either paid for such license in full or has complied with the payment schedules for such license shall be permitted to transfer or assign without penalty such license to any transferee or assignee. No economic penalties shall apply to any transfer or assignment authorized under this section. Any amounts owed to the United States for the initial grant of such licenses shall become immediately due and payable upon the consummation of any such transfer or assignment. Any application for such a transfer or assignment shall be deemed granted if not denied by the Commission within 90 days of the date on which it was initially filed. Any provision of law or regulation to the contrary is hereby amended.

Any complaint by any person or entity that any aspect of the construction, operation, maintenance, expansion or reclamation of the portion of the transportation system on the lands subject to the easement granted to NANA by this section is not in accordance with the terms and conditions specified in the Agreement shall be made to the Secretary in writing. The Secretary shall review any such complaint and shall provide to NANA or its successors or assigns and to the complainant a decision in writing on the complaint within 90 days of receipt thereof. Lands conveyed to NANA pursuant to this subsection shall be of a like estate and equal in acreage to that conveyed by NANA to the United States. The lands conveyed to NANA pursuant to this subsection shall be in exchange for the lands conveyed by NANA to the United States and there shall be no change in the charges previously made to NANA's land entitlements with respect to the lands conveyed by NANA to the United States. Lands received by NANA pursuant to this subsection are Settlement Act lands.

(c) Relinquishment of interests under filed selection applications

NANA may relinquish any interest it has under selection applications filed pursuant to this chapter in the surface and subsurface estate in lands described in subsection (a) of this section by formally withdrawing such application pursuant to this section: *Provided, however*, That NANA can relinquish only interests in lands that are compact and contiguous to other public lands within the Krusenstern National Monument and, if the lands have been disturbed by NANA, the Secretary must first determine that such disturbance has not rendered the lands incompatible with Monument values. Whenever NANA formally withdraws a selection application pursuant to this section, it shall be entitled to designate and have conveyed to it lands outside the boundaries of Cape Krusenstern National Monument and any other conservation system unit, as established and defined by the Alaska National Interest Lands Conservation Act (Public Law 96–487; 94 Stat. 2371, et seq.) pursuant to any of its pending selection applications filed under either section 1611(b), 1611(c) or 1613(h)(8) of this title. Lands conveyed to NANA under this subsection shall be of a like estate and equal in acreage to the interest which NANA relinquished, and when the lands are conveyed to NANA, the conveyance shall be charged against the same entitlement of NANA as if the lands had been conveyed pursuant to the relinquished selection applications. Lands received by NANA pursuant to this subsection are Settlement Act lands.

(d) Termination date

The provisions of this section shall remain in effect only until December 18, 1991.

(e) Effect on NANA's selection rights or entitlement to lands

Nothing in this section shall be deemed to alter or amend in any way NANA's selection rights or to increase or diminish NANA's total entitlement to lands pursuant to this chapter.

§1629b. Procedures for considering amendments and resolutions

(a) Coverage

Notwithstanding any provision of the articles of incorporation and bylaws of a Native Corporation or of the laws of the State, except those related to proxy statements and solicitations that are not inconsistent with this section—

- (1) an amendment to the articles of incorporation of a Native Corporation authorized by subsections (g) and (h) of section 1606 of this title, subsection (d)(1)(B) of this section, or section 1629c of this title;
- (2) a resolution authorized by section 1629d(a)(2) of this title;
- (3) a resolution to establish a Settlement Trust; or
- (4) a resolution to convey all or substantially all of the assets of a Native Corporation to a Settlement Trust pursuant to section 1629e(a)(1) of this title;

shall be considered in accordance with the provisions of this section.

(b) Basic procedure

(1) An amendment or resolution described in subsection (a) of this section may be approved by the board of directors of a Native Corporation in accordance with its bylaws. If the board approves the amendment or resolution, it shall direct that the amendment or resolution be submitted to a vote of the shareholders at the next annual meeting or at a special meeting (if the board, at its discretion, schedules such special meeting). One or more such amendments or resolutions may be submitted to the shareholders and voted upon at one meeting.

(2)(A) A written notice (including a proxy statement if required under applicable law), setting forth the amendment or resolution approved pursuant to paragraph (1) (and, at the discretion of the board, a summary of the changes to be effected) together with any amendment or resolution submitted pursuant to subsection (c) of this section and the statements described therein shall be sent, not less than fifty days nor more than sixty days prior to the meeting of the shareholders, by first-class mail or hand-delivered to each shareholder of record entitled to vote at his or her address as it appears in the records of the Native Corporation. The corporation may also communicate with its shareholders at any time and in any manner authorized by the laws of the State.

(B) The board of directors may, but shall not be required to, appraise or otherwise determine the value of—

- (i) land conveyed to the corporation pursuant to section 1613(h)(1) of this title or any other land used as a cemetery;
- (ii) the surface estate of land that is both—
 - (I) exempt from real estate taxation pursuant to section 1636(d)(1)(A) of this title; and
 - (II) used by the shareholders of the corporation for subsistence uses (as defined in section 3113 of title 16); or
- (iii) land or interest in land which the board of directors believes to be only of speculative value;

in connection with any communication made to the shareholders pursuant to this subsection.

(C) If the board of directors determines, for quorum purposes or otherwise, that a previously-noticed meeting must be postponed or adjourned, it may, by giving notice to the shareholders, set a new date for such meeting not more than forty-five days later than the original date without sending the shareholders a new written notice (or a new summary of changes to be effected). If the new date is more than forty-five days later than the original date, however, a new

written notice (and a new summary of changes to be effected if such a summary was originally sent pursuant to subparagraph (A)), shall be sent or delivered to shareholders not less than thirty days nor more than forty-five days prior to the new date.

(c) Shareholder petitions

(1)(A) With respect to an amendment authorized by section 1606(g)(1)(B) of this title or section 1629c(b) of this title or an amendment authorizing the issuance of stock subject to the restrictions provided by section 1606(g)(2)(B)(iii) of this title, the holders of shares representing at least 25 per centum of the total voting power of a Native Corporation may petition the board of directors to submit such amendment to a vote of the shareholders in accordance with the provisions of this section.

(B) The requirements of the laws of the State relating to the solicitation of proxies shall govern solicitation of signatures for a petition described in subparagraph (A) except that the requirements of Federal law shall govern the solicitation of signatures for a petition that is to be submitted to a Native Corporation which at the time of such submission has issued a class of equity securities registered pursuant to the Securities Exchange Act of 1934 [15 U.S.C. 78a et seq.]. If a petition meets the applicable solicitation requirements and—

(i) the board agrees with such petition, the board shall submit the amendment and either the proponents' statement or its own statement in support of the amendment to the shareholders for a vote, or

(ii) the board disagrees with the petition for any reason, the board shall submit the amendment and the proponents' statement to the shareholders for a vote and may, at its discretion, submit an opposing statement or an alternative amendment.

(2) Paragraph (1) shall not apply to a Native Corporation that on or before the date one year after February 3, 1988, elects application of section 1629c(d) of this title in lieu of section 1629c(b) of this title. Until December 18, 1991, paragraph (1) shall not apply to a Native Corporation that elects application of section 1629c(c) of this title in lieu of section 1629c(b) of this title. Insofar as they are not inconsistent with this section, the laws of the State shall govern any shareholder right of petition for Native Corporations.

(d) Voting standards

(1) Except as otherwise set forth in subsection (d)(3) of this section, an amendment or resolution described in subsection (a) of this section shall be considered to be approved by the shareholders of a Native Corporation if it receives the affirmative vote of shares representing—

(A) a majority of the total voting power of the corporation, or

(B) a level of the total voting power of the corporation greater than a majority (but not greater than two-thirds of the total voting power of the corporation) if the corporation establishes such a level by an amendment to its articles of incorporation.

(2) A Native Corporation in amending its articles of incorporation pursuant to section 1606(g)(2) of this title to authorize the issuance of a new class or series of stock may provide that a majority (or more than a majority) of the shares of such class or series must vote in favor of an amendment or resolution described in subsection (a) of this section (other than an amendment authorized by section 1629c of this title) in order for such amendment or resolution to be approved.

(3) A resolution described in subsection (a)(3) or an amendment to articles of incorporation under section 1606(g)(1)(B) of this title shall be considered to be approved by the shareholders of a Native Corporation if it receives the affirmative vote of shares representing—

(A) a majority of the shares present or represented by proxy at the meeting relating to the resolution or amendment to articles of incorporation; or

(B) an amount of shares greater than a majority of the shares present or represented by proxy at the meeting relating to the resolution or amendment to articles of incorporation (but not greater than two-thirds of the total voting power of the corporation) if the corporation establishes such a level by an amendment to its articles of incorporation.

(e) Voting power

For the purposes of this section, the determination of total voting power of a Native Corporation shall include all outstanding shares of stock that carry voting rights except shares that are not permitted to vote on the amendment or resolution in question because of restrictions in the articles of incorporation of the corporation.

(f) Substantially all of the assets

For purposes of this section and section 1629e of this title, a Native Corporation shall be considered to be transferring all or substantially all of its assets to a Settlement Trust only if such assets represent two-thirds or more of the fair market value of the Native Corporation's total assets. EFFECTIVE DATE OF 2006 AMENDMENT

Pub. L. 109–221, title I, §101(c), May 12, 2006, 120 Stat. 337, provided that: “The amendments made by this section [amending this section and section 1629e of this title] take effect on February 20, 2003.”

§1629c. Duration of alienability restrictions

(a) General rule

Alienability restrictions shall continue until terminated in accordance with the procedures established by this section. No such termination shall take effect until after July 16, 1993: *Provided, however*, That this prohibition shall not apply to a Native Corporation whose board of directors approves, no later than March 1, 1992, a resolution (certified by the corporate secretary of such corporation) electing to decline the application of such prohibition.

(b) Opt-out procedure

(1)(A) A Native Corporation may amend its articles of incorporation to terminate alienability restrictions in accordance with this subsection. Only one amendment to terminate alienability restrictions shall be considered and voted on prior to December 18, 1991. Rejection of the amendment shall not preclude consideration prior to December 18, 1991, of subsequent amendments to terminate alienability restrictions.

(B) If an amendment to terminate alienability restrictions is considered, voted on, and rejected prior to December 18, 1991, then subsequent amendments to terminate alienability restrictions after December 18, 1991, shall be considered and voted on—

(i) in the case of an amendment submitted by the board of directors of the corporation on its own motion, not earlier than five years after the rejection of the most recently rejected amendment to terminate restrictions; or

(ii) in the case of an amendment submitted by the board of directors of the corporation pursuant to a shareholder petition, not earlier than two years after the rejection of the most recently rejected amendment to terminate restrictions.

(C) If no amendment to terminate alienability restrictions is considered and voted on prior to December 18, 1991, then amendments to terminate alienability restrictions after December 18, 1991, shall be considered and voted on—

(i) in the case of an amendment submitted by the board of directors of the corporation on its own motion, not more than once every five years; or

(ii) in the case of an amendment submitted by the board of directors of the corporation pursuant to a shareholder petition, not more than once every two years.

(2) An amendment authorized by paragraph (1) shall specify the time of termination, either by establishing a date certain or by describing the specific event upon which alienability restrictions shall terminate.

(3) Dissenters rights may be granted by the corporation in connection with the rejection of an amendment to terminate alienability restrictions in accordance with section 1629d of this title. Once dissenters rights have been so granted, they shall not be granted again in connection with subsequent amendments to terminate alienability restrictions.

(c) Recapitalization procedure

(1)(A) On or prior to December 18, 1991, a Native Corporation may amend its articles of incorporation to implement a recapitalization plan in accordance with this subsection. Rejection of an amendment or amendments to implement a recapitalization plan shall not preclude consideration prior to December 18, 1991, of a subsequent amendment or amendments to implement such a plan. Subsequent amendment or amendments shall be considered and voted on not earlier than one year after the date on which the most recent previous recapitalization plan was rejected. No recapitalization plan shall provide for the termination of alienability restrictions prior to December 18, 1991.

(B) An amendment or amendments submitted pursuant to subparagraph (A) (and any subsequent amendment submitted pursuant to subparagraph (C)) may provide for the maintenance or extension of alienability restrictions for—

(i) an indefinite period of time;

(ii) a specified period of time not to exceed fifty years; or

(iii) a period of time that shall end upon the occurrence of a specified event.

(C) If an amendment or amendments approved pursuant to subparagraph (A) or this subparagraph maintains or extends alienability restrictions for a specified period of time, termination of the restrictions at the close of such period may be postponed if a further amendment to the articles of incorporation of the corporation is approved to extend the restrictions. There shall be no limit on the number of such amendments that can be approved. Such amendments shall not be effective to extend the restrictions unless approved prior to the expiration of the period of maintenance or extension then in force.

(D) The board of directors may ask the shareholders to approve en bloc pursuant to a single vote a series of amendments (including an amendment to authorize the issuance of stock pursuant to section 1606(g) of this title) to implement a recapitalization plan that includes a provision maintaining alienability restrictions.

(2)(A) If an amendment to the articles of incorporation of a Native Corporation maintaining or

extending alienability restrictions for a specified period of time is approved pursuant to paragraph (1), the restrictions shall automatically terminate at the end of such period unless the restrictions are extended in accordance with the provisions of paragraph (1)(C).

(B)(i) A Native Corporation that approves an amendment to its articles of incorporation pursuant to paragraph (1)(B) to maintain or extend alienability restrictions for an indefinite period may later amend its articles to terminate such restrictions. Such amendment shall specify the time of termination, either by establishing a date certain or by describing the specific event upon which the restrictions shall terminate.

(ii) Rejection of an amendment described in clause (i) by the shareholders shall not preclude consideration of subsequent amendments to terminate alienability restrictions.

(3) If a recapitalization plan approved pursuant to paragraph (1) distributes voting alienable common stock to each holder of shares of Settlement Common Stock (issued pursuant to section 1606(g)(1)(A) of this title) that carries aggregate dividend and liquidation rights equivalent to those carried by such shares of Settlement Common Stock (except for rights to distributions made pursuant to sections 1606(j) and 1606(m) of this title) upon completion of the recapitalization plan, then such holder shall have no right under section 1629d of this title and any other provision of law to further compensation from the corporation with respect to action taken pursuant to this subsection.

(d) Opt-in procedure

(1)(A) Subsection (b) of this section shall not apply to a Native Corporation whose board of directors approves, no later than one year after February 3, 1988, a resolution electing the application of this subsection and such resolution is not validly rescinded pursuant to paragraph (2)(B)(ii).

(B) This subsection shall not apply to Village Corporations, Urban Corporations, and Group Corporations located outside of the Bristol Bay and Aleut regions.

(2)(A) Alienability restrictions imposed on Settlement Common Stock issued by a Native Corporation electing application of this subsection shall terminate on December 18, 1991, unless extended in accordance with the provisions of this subsection.

(B)(i) The board of directors of a Native Corporation electing application of this subsection shall, at least once prior to January 1, 1991, approve, and submit to a vote of the shareholders, an amendment to the articles of incorporation of the corporation to extend alienability restrictions. If the amendment is not approved by the shareholders, the board of directors may submit another such amendment to the shareholders once or more a year until December 18, 1991.

(ii) In lieu of approving the amendment to the articles of incorporation described in clause (i) and submitting such amendment to a vote of the shareholders, at any time prior to January 1, 1991, the board of directors of a Native Corporation that has approved a resolution described in paragraph (1)(A) may approve a new resolution rescinding that prior resolution. Upon approval of the new resolution rescinding a resolution described in paragraph (1)(A), the latter resolution shall be void and alienability restrictions on the Settlement Common Stock of such corporation shall continue subsequent to December 18, 1991, until such time as the alienability restrictions are terminated pursuant to the procedure described in subsection (b) of this section.

(iii) Notwithstanding any other provision of law, a civil action that challenges the constitutionality of any provision in clause (ii) shall be barred unless it is filed within one year after the date of the vote of the board of directors approving a resolution to rescind a prior opt-in election under paragraph (1)(A). Any such civil action shall be filed in accordance with section 16(b) of the Alaska Native Claims Settlement Act Amendments of 1987 (101 Stat. 1813–1814).

(C) An amendment submitted pursuant to subparagraph (B) and any amendment submitted pursuant to subparagraph (D) may provide for an extension of alienability restrictions for—

(i) an indefinite period of time, or

(ii) a specified period of time of not less than one year and not more than fifty years.

(D) If an amendment approved by the shareholders of a Native Corporation pursuant to subparagraph (B) or this subparagraph extends alienability restrictions for a specified period of time, termination of the restrictions at the close of such period may be postponed if a further amendment to the articles of incorporation of the corporation is approved to extend the restrictions. There shall be

no limit on the number of such amendments that can be approved. Such amendments shall not be effective to extend the restrictions unless approved prior to the expiration of the period of extension then in force.

(3)(A) If an amendment to the articles of incorporation of a Native Corporation extending alienability restrictions for a specified period of time is approved pursuant to paragraph (2), the restrictions shall automatically terminate at the end of such period unless the restrictions are extended in accordance with the provisions of paragraph (2)(D).

(B) If the board of directors of a Native Corporation electing application of this subsection does not submit for a shareholder vote an amendment to the articles of incorporation of the corporation in accordance with paragraph (2)(B), or if the amendment submitted does not comply with paragraph (2)(C), alienability restrictions shall not terminate and shall instead remain in effect until such time as a court of competent jurisdiction, upon petition of one or more shareholders of the corporation, orders that a shareholder vote be taken on an amendment which complies with paragraph (2)(C) and such vote is conducted. Following the vote, the status of alienability restrictions shall be determined in accordance with the other provisions of this subsection and the amendment, if approved.

(4)(A) A Native Corporation that approves an amendment to its articles of incorporation pursuant to paragraph (2) to extend alienability restrictions for an indefinite period of time may later amend its articles of incorporation to terminate the restrictions. Such amendment shall specify the time of termination, either by establishing a date certain or by describing the specific event upon which the restrictions shall terminate.

(B) The rejection of an amendment described in subparagraph (A) by the shareholders shall not preclude consideration of subsequent amendments to terminate alienability restrictions.

(5)(A) If a Native Corporation amends its articles of incorporation pursuant to paragraph (2) to extend alienability restrictions, a shareholder who—

- (i) voted against such amendment, and
- (ii) desires to relinquish his or her Settlement Common Stock in exchange for the stock or payment authorized by the board of directors pursuant to subparagraph (B),

shall notify the Corporation within ninety days of the date of the vote of the shareholders on the amendment of his or her desire.

(B) Within one hundred and twenty days after the date of the vote described in subparagraph (A), the board of directors shall approve a resolution to provide that each shareholder who has notified the corporation pursuant to subparagraph (A) shall receive either—

- (i) alienable common stock in exchange for his or her Settlement Common Stock pursuant to paragraph (6), or
- (ii) an opportunity to request payment for his or her Settlement Common Stock pursuant to section 1629d(a)(1)(B) of this title.

(C) This paragraph shall apply only to the first extension of alienability restrictions approved by the shareholders. No dissenters rights of any sort shall be permitted in connection with subsequent extensions of such restrictions.

(6)(A) If the board of directors of a Native Corporation approves a resolution providing for the issuance of alienable common stock pursuant to paragraph (5)(B), then on December 18, 1991, or sixty days after the approval of the resolution, whichever later occurs, the Settlement Common Stock of each shareholder who has notified the corporation pursuant to paragraph (5)(A) shall be deemed canceled, and shares of alienable common stock of the appropriate class shall be issued to such shareholder, share for share, subject only to subparagraph (B) and to such restrictions consistent with this chapter as may be provided by the articles of incorporation of the corporation or in agreements between the corporation and individual shareholders.

(B)(i) Alienable common stock issued in exchange for Settlement Common Stock issued subject to the restriction authorized by section 1606(g)(1)(B)(iii) of this title shall bear a legend indicating that the stock will eventually be canceled in accordance with the requirements of that section.

- (ii) Alienable common stock issued in exchange for a class of Settlement Common Stock carrying

greater per share voting power than Settlement Common Stock issued pursuant to subsections (g)(1)(A) and (g)(1)(B) of this section shall carry such voting power and be subject to such other terms as may be provided in the amendment to the articles of incorporation authorizing the issuance of such class of Settlement Common Stock.

(iii) In the resolution authorized by paragraph (5)(B), the board of directors shall provide that each share of Settlement Common Stock carrying the right to share in distributions made to shareholders pursuant to subsections (j) and (m) of section 1606 of this title shall be exchanged either for—

- (I) a share of alienable common stock carrying such right, or
- (II) a share of alienable common stock that does not carry such right together with a separate, non-voting security that represents only such right.

(iv) In the resolution authorized by paragraph (5)(B), the board of directors may impose upon the alienable common stock to be issued in exchange for Settlement Common Stock one or more of the following—

- (I) a restriction granting the corporation, or the corporation and members of the shareholder's immediate family who are Natives or descendants of Natives the first right to purchase, on reasonable terms, the alienable common stock of the shareholder prior to the sale or transfer of such stock (other than a transfer by will or intestate succession) to any other party, including a transfer in satisfaction of a lien, writ of attachment, judgment execution, pledge, or other encumbrance; or

- (II) any other term, restriction, limitation, or other provision permitted under the laws of the State.

(C) The articles of incorporation of the Native Corporation shall be deemed amended to implement the provisions of the resolution authorized by paragraph (5)(B).

(D) Alienable common stock issued pursuant to this subparagraph shall not be subjected to a lien or judgment execution based upon any asserted or unasserted legal obligation of the original recipient arising prior to the issuance of such stock.

(7)(A) No share of alienable common stock issued pursuant to paragraph (6) shall carry voting rights if it is owned, legally or beneficially, by a person not a Native or a descendant of a Native.

(B)(i) A purchaser or other transferee of shares of alienable common stock shall, as a condition of the obligation of the issuing Native Corporation to transfer such shares on the books of the corporation, deliver to the corporation or transfer agent, as the case may be, a statement on a form prescribed by the corporation identifying the number of such shares to be transferred to such transferee and certifying—

- (I) that such transferee is or is not a Native or a descendant of a Native;
- (II) that such transferee, if not a Native or a descendant of a Native, understands that shares of such alienable common stock shall not carry voting rights so long as such shares are held by the transferee or any subsequent transferee not a Native or a descendant of a Native;
- (III) that such transferee, if a purchaser, understands that such acquisition may be subject to section 78m(d) of title 15 and the regulations of the Securities and Exchange Commission promulgated thereunder; and
- (IV) whether such transferee will be the sole beneficial owner of such shares (if not, the transferee must certify as to the identities of all beneficial owners of such shares and whether such owners are Natives or descendants of Natives).

(ii) The statement required by clause (i) shall be prima facie evidence of the matters certified therein and may be relied upon by the corporation in effecting a transfer on its books.

(iii) For purposes of this subparagraph, a beneficial owner of a security includes any person (including a corporation, partnership, trust, association, or other entity) who, directly or indirectly, through any contract, arrangement, understanding, relationship, or otherwise has or shares—

- (I) voting power, which includes the power to vote, or to direct the voting of, such security; or
- (II) investment power, which includes the power to dispose of, or to direct the disposition of,

such security.

(iv) Any person who, directly or indirectly, creates or uses a trust, proxy, power of attorney, pooling arrangement, or any other contract, arrangement, or device with the purpose or effect of divesting such person of beneficial ownership of a security or preventing the vesting of such beneficial ownership as part of a plan or scheme to evade the requirements imposed by this section or section 78m(d) of title 15 shall be deemed for purposes of such sections to be the beneficial owner of such security.

(C) The statement required by subparagraph (B) shall be verified by the transferee before a notary public or other official authorized to administer oaths in accordance with the laws of the jurisdiction of the transferee or in which the transfer is made.

§1629d. Dissenters rights

(a) Coverage

(1) Notwithstanding the laws of the State, if the shareholders of a Native Corporation—

(A) fail to approve an amendment authorized by section 1629c(b) of this title to terminate alienability restrictions, a shareholder who voted for the amendment may demand payment from the corporation for all of his or her shares of Settlement Common Stock; or

(B) approve an amendment authorized by section 1629c(d) of this title to continue alienability restrictions without issuing alienable common stock pursuant to section 1629c(d)(6) of this title, a shareholder who voted against the amendment may demand payment from the corporation for all of his or her shares of Settlement Common Stock.

(b) Relationship to State procedure

(1) Except as otherwise provided in this section, the laws of the State governing the right of a dissenting shareholder to demand and receive payment for his or her shares shall apply to demands for payment honored pursuant to subsection (a)(2) of this section.

§1629e. Settlement Trust option

(a) Conveyance of corporate assets

(1)(A) A Native Corporation may convey assets (including stock or beneficial interests therein) to a Settlement Trust in accordance with the laws of the State (except to the extent that such laws are inconsistent with this section and section 1629b of this title).

(B) The approval of the shareholders of the corporation in the form of a resolution shall be required to convey all or substantially all of the assets of the corporation to a Settlement Trust. A conveyance in violation of this clause shall be void ab initio and shall not be given effect by any court.

(2) No subsurface estate in land shall be conveyed to a Settlement Trust. A conveyance of title to, or any other interest in, subsurface estate in violation of this subparagraph shall be void ab initio and shall not be given effect by any court.

(3) Conveyances made pursuant to this subsection—

(A) shall be subject to applicable laws respecting fraudulent conveyance and creditors rights; and

(B) shall give rise to dissenters rights to the extent provided under the laws of the State only if—

(i) the rights of beneficiaries in the Settlement Trust receiving a conveyance are inalienable; and

(ii) a shareholder vote on such transfer is required by section 1629b(a)(4) of this title.

(4) The provisions of this subsection shall not prohibit a Native Corporation from engaging in any conveyance, reorganization, or transaction not otherwise prohibited under the laws of the State or the United States.

(b) Authority and limitations of a Settlement Trust

(1) The purpose of a Settlement Trust shall be to promote the health, education, and welfare of its beneficiaries and preserve the heritage and culture of Natives. A Settlement Trust shall not—

(A) operate as a business;

(B) alienate land or any interest in land received from the settlor Native Corporation (except if the recipient of the land is the settlor corporation or the land is conveyed for a homesite by the Trust to a beneficiary of the Trust who is also a legal resident under Alaska law of the Native village of the settlor corporation and the conveyance does not exceed 1.5 acres); or

(C) discriminate in favor of a group of individuals composed only or principally of employees, officers, or directors of the settlor Native Corporation.

An alienation of land or an interest in land in violation of this paragraph shall be void ab initio and

shall not be given effect by any court.

(2) A Native Corporation that has established a Settlement Trust shall have exclusive authority to—

- (A) appoint the trustees of the trust, and
- (B) remove the trustees of the trust for cause.

Only a natural person shall be appointed a trustee of a Settlement Trust. An appointment or removal of a trustee in violation of this paragraph shall be void ab initio and shall not be given effect by any court.

(3) A Native Corporation that has established a Settlement Trust may expand the class of beneficiaries to include holders of Settlement Common Stock issued after the establishment of the trust without compensation to the original beneficiaries.

(4) A Settlement Trust shall not be held to violate any laws against perpetuities.

(c) Savings

(1) The provisions of this chapter shall continue to apply to any land or interest in land received from the Federal Government pursuant to this chapter and later conveyed to a Settlement Trust as if the land or interest in land were still held by the Native Corporation that conveyed the land or interest in land.

(2) No timber resources subject to section 1606(i) of this title conveyed to a Settlement Trust shall be sold, exchanged, or otherwise conveyed except as necessary to—

- (A) dispose of diseased or dying timber or to prevent the spread of disease or insect infestation;
- (B) prevent or suppress fire; or
- (C) ensure public safety.

The revenue, if any, from such timber harvests shall be subject to section 1606(i) of this title as if such conveyance had not occurred.

(3) The conveyance of assets (including stock or beneficial interests) pursuant to subsection (a) of this section shall not affect the applicability or enforcement (including specific performance) of a valid contract, judgment, lien, or other obligation (including an obligation arising under section 1606(i) of this title) to which such assets, stock, or beneficial interests were subject immediately prior to such conveyance.

(4) A claim based upon paragraph (1), (2), or (3) shall be enforceable against the transferee Settlement Trust holding the land, interest in land, or other assets (including stock or beneficial interests) in question to the same extent as such claim would have been enforceable against the transferor Native Corporation, and valid obligations arising under section 1606(i) of this title as well as claims with respect to a conveyance in violation of a valid contract, judgment, lien, or other obligation shall also be enforceable against the transferor corporation.

(5) Except as provided in paragraphs (1), (2), (3), and (4), once a Native Corporation has made, pursuant to subsection (a) of this section, a conveyance to a Settlement Trust that does not—

- (A) render it—
 - (i) unable to satisfy claims based upon paragraph (1), (2), or (3); or
 - (ii) insolvent; or

- (B) occur when the Native Corporation is insolvent;

the assets so conveyed to the Settlement Trust shall not be subject to attachment, distraint, or sale on execution of judgment or other process or order of any court, except with respect to the lawful debts or obligations of the Settlement Trust.

(6) No transferee Settlement Trust shall make a distribution or conveyance of assets (including cash, stock, or beneficial interests) that would render it unable to satisfy a claim made pursuant to paragraph (1), (2), or (3). A distribution or conveyance made in violation of this paragraph shall be void ab initio and shall not be given effect by any court.

(7) Except where otherwise expressly provided, no provision of this section shall be construed to

require shareholder approval of an action where shareholder approval would not be required under the laws of the State.

(8) A beneficiary's interest in a settlement trust and the distributions thereon shall be subject to creditor action (including without limitation, levy attachment, pledge, lien, judgment execution, assignment, and the insolvency and bankruptcy laws) only to the extent that Settlement Common Stock and the distributions thereon are subject to such creditor action under section 1606(h) of this title.

(2) The land conveyed to Kake Tribal Corporation and to Sealaska Corporation under this section is, for all purposes, considered to be land conveyed under this chapter. However, the conveyance of such land to Kake Tribal Corporation shall not count against or otherwise affect the Corporation's remaining entitlement under section 1615(b) of this title.

(c) Lands subject to exchange

(1) The lands to be transferred to the City of Kake under subsection (a) of this section are the surface and subsurface estate to approximately 1,430 acres of land owned by Kake Tribal Corporation and Sealaska Corporation, and depicted as “KTC Land to City of Kake” on the map entitled “Kake Land Exchange-2000”, dated May 2000.

Any exchange under this paragraph shall be subject to the mutual consent of the United States Forest Service and Sealaska Corporation.

(d) Withdrawal

Subject to valid existing rights, the lands described in subsection (c)(2) of this section are withdrawn from all forms of location, entry, and selection under the mining and public land laws of the United States and from leasing under the mineral and geothermal leasing laws. §1631. Ownership of submerged lands

(a) Meandering in the surveying of submerged land

(1) Except as provided in paragraph (2), whenever the Secretary surveys land selected by a Native, a Native Corporation, or the State pursuant to the Alaska Native Claims Settlement Act [43 U.S.C. 1601 et seq.], the Alaska Statehood Act, or this Act, lakes, rivers, and streams shall be meandered in accordance with the principles in the Bureau of Land Management, "Manual of Surveying Instructions" (1973).

(2) If title to lands beneath navigable waters of a lake less than fifty acres in size or a river or stream less than three chains in width did not vest in the State pursuant to the Submerged Lands Act [43 U.S.C. 1301 et seq., 1311 et seq.], such lake, river, or stream shall not be meandered.

(3) The Secretary is not required to determine the navigability of a lake, river, or stream which because of its size or width is required to be meandered or to compute the acreage of the land beneath such lake, river, or stream or to describe such land in any conveyance document.

(4) Nothing in this subsection shall be construed to require ground survey or monumentation of meanderlines.

(b) Ownership of riparian lands; ratification of memorandum of agreement

(1) Whenever, either before or after August 16, 1988, the Secretary conveys land to a Native, a Native Corporation, or the State pursuant to the Alaska Native Claims Settlement Act [43 U.S.C. 1601 et seq.], the Alaska Statehood Act, or this Act which abuts or surrounds a meanderable lake, river, or stream, all right, title, and interest of the United States, if any, in the land under such lake, river, or stream lying between the uplands and the median line or midpoint, as the case may be, shall vest in and shall not be charged against the acreage entitlement of such Native or Native Corporation or the State. The right, title, and interest vested in a Native or Native Corporation shall be no greater an estate than the estate he or it is conveyed in the land which abuts or surrounds the lake, river, or stream.

(2) The specific terms, conditions, procedures, covenants, reservations, and other restrictions set forth in the document entitled, "Memorandum of Agreement between the United States Department of the Interior and the State of Alaska" dated March 28, 1984, signed by the Secretary and the Governor of Alaska and submitted to the Committee on Interior and Insular Affairs of the House of Representatives, and the Committee on Energy and Natural Resources of the Senate, are hereby incorporated in this section and are ratified as to the duties and obligations of the United States and the State, as a matter of Federal law.

(c) Interim conveyances and patents; navigability of streams; award of costs and attorney's fees

(1) The execution of an interim conveyance or patent, as appropriate, by the Bureau of Land Management which conveys an area of land selected by a Native or Native Corporation which includes, surrounds, or abuts a lake, river, or stream, or any portion thereof, shall be the final agency action with respect to a decision of the Secretary of the Interior that such lake, river, or stream, is or is not navigable, unless such decision was validly appealed to an agency or board of the Department of the Interior on or before December 2, 1980.

(2) No agency or board of the Department of the Interior other than the Bureau of Land Management shall have authority to determine the navigability of a lake, river, or stream within an area selected by a Native or Native Corporation pursuant to the Alaska Native Claims Settlement Act [43 U.S.C. 1601 et seq.] or this Act unless a determination by the Bureau of Land Management that such lake, river, or stream, is or is not navigable, was validly appealed to such agency or board on or before December 2, 1980.

(3) If title to land conveyed to a Native Corporation pursuant to the Alaska Native Claims Settlement Act [43 U.S.C. 1601 et seq.] or this Act which underlies a lake, river, or stream is challenged in a court of competent jurisdiction and such court determines that such land is owned by the Native Corporation, the Native Corporation shall be awarded a money judgment against the plaintiffs in an amount equal to its costs and attorney's fees, including costs and attorney's fees incurred on appeal.

(d) Definitions

For the purposes of this section, the terms “navigable” and “navigability” means navigable for the purpose of determining title to lands beneath navigable waters, as between the United States and the several States pursuant to the Submerged Lands Act [43 U.S.C. 1301 et seq., 1311 et seq.] and section 6(m) of the Alaska Statehood Act.

§1634. Alaska Native allotments

(a) Approval of applications for certain lands; lands containing coal, oil, or gas; nonmineral lands; lands within National Park System; protests; voluntary relinquishment of application

(1)(A) Subject to valid existing rights, all Alaska Native allotment applications made pursuant to the Act of May 17, 1906 (34 Stat. 197, as amended) which were pending before the Department of the Interior on or before December 18, 1971, and which describe either land that was unreserved on December 13, 1968, or land within the National Petroleum Reserve—Alaska (then identified as Naval Petroleum Reserve No. 4) or within Fort Davis (except as provided in subparagraph (B)) are hereby approved on the one hundred and eightieth day following December 2, 1980, except where provided otherwise by paragraph (3), (4), (5), or (6) of this subsection, or where the land description of the allotment must be adjusted pursuant to subsection (b) of this section, in which cases approval

pursuant to the terms of this subsection shall be effective at the time the adjustment becomes final. The Secretary shall cause allotments approved pursuant to this section to be surveyed and shall issue trust certificates therefor.

(B) The land referred to in subparagraph (A) with respect to Fort Davis—

(i) shall be restricted to—

(I) the allotment applications named in the decision published at 96 IBLA 42 (1987) and to the acreage involved in those applications; or

(II) the heirs of an applicant who made an application described in subclause (I); and

(ii) shall be subject to valid existing rights and an easement for the Iditarod National Historic Trail established by section 1244(a)(7) of title 16, but pending final determination of the trail's location, the easement shall be located on an interim basis by the Secretary, in consultation with the Iditarod Historic Trail Advisory Council.

(2) All applications approved pursuant to this section shall be subject to the provisions of the Act of March 8, 1922 (43 U.S.C. 270–11) [43 U.S.C. 270–11 to 270–13].¹

(3) When on or before the one hundred and eightieth day following December 2, 1980, the Secretary determines by notice or decision that the land described in an allotment application may be valuable for minerals, excluding oil, gas, or coal, the allotment application shall be adjudicated pursuant to the provision of the Act of May 17, 1906, as amended, requiring that land allotted under said Act be nonmineral: *Provided*, That “nonmineral”, as that term is used in such Act, is defined to include land valuable for deposits of sand or gravel.

(4) Where an allotment application describes land within the boundaries of a unit of the National Park System established on or before December 2, 1980, and the described land was not withdrawn pursuant to section 11(a)(1) of the Alaska Native Claims Settlement Act [43 U.S.C. 1610(a)(1)], or where an allotment application describes land which has been patented or deeded to the State of Alaska or which on or before December 18, 1971, was validly selected by or tentatively approved or confirmed to the State of Alaska pursuant to the Alaska Statehood Act and was not withdrawn pursuant to section 11(a)(1)(A) of the Alaska Native Claims Settlement Act [43 U.S.C.

1610(a)(1)(A)] from those lands made available for selection by section 11(a)(2) of the Act [43 U.S.C. 1610(a)(2)] by any Native Village certified as eligible pursuant to section 11(b) of such Act [43 U.S.C. 1610(b)], paragraph (1) of this subsection and subsection (d) of this section shall not apply and the application shall be adjudicated pursuant to the requirements of the Act of May 17, 1906, as amended, the Alaska Native Claims Settlement Act [43 U.S.C. 1601 et seq.], and other applicable law.

(5) Paragraph (1) of this subsection and subsection (d) of this section shall not apply and the Native allotment application shall be adjudicated pursuant to the requirements of the Act of May 17, 1906, as amended, if on or before the one hundred and eightieth day following December 2, 1980—

(A) A Native Corporation files a protest with the Secretary stating that the applicant is not entitled to the land described in the allotment application, and said land is withdrawn for selection by the Corporation pursuant to the Alaska Native Claims Settlement Act [43 U.S.C. 1601 et seq.]; or

(B) The State of Alaska files a protest with the Secretary stating that the land described in the allotment application is necessary for access to lands owned by the United States, the State of Alaska, or a political subdivision of the State of Alaska, to resources located thereon, or to a public body of water regularly employed for transportation purposes, and the protest states with specificity the facts upon which the conclusions concerning access are based and that no reasonable alternatives for access exist; or

(C) A person or entity files a protest with the Secretary stating that the applicant is not entitled to the land described in the allotment application and that said land is the situs of improvements claimed by the person or entity.

(6) Paragraph (1) of this subsection and subsection (d) of this section shall not apply to any

application pending before the Department of the Interior on or before December 18, 1971, which was knowingly and voluntarily relinquished by the applicant thereafter.

(7) Paragraph (1) of this subsection and subsection (d) of this section shall apply, and paragraph (5) of this subsection shall cease to apply, to an application—

(A) that is open and pending on October 31, 1998;

(B) if the lands described in the application are in Federal ownership other than as a result of reacquisition by the United States after January 3, 1959; and

(C) if any protest which is filed by the State of Alaska pursuant to paragraph (5)(B) with respect to the application is withdrawn or dismissed either before, on, or after October 31, 1998.

(8)(A) Any allotment application which is open and pending and which is legislatively approved by enactment of paragraph (7) shall, when allotted, be made subject to any easement, trail, or right-of-way in existence on the date of the Native allotment applicant's commencement of use and occupancy.

(B) The jurisdiction of the Secretary is extended to make any factual determinations required to carry out this paragraph.

(b) Conflicting land descriptions in applications; adjustments; reductions

Where a conflict between two or more allotment applications exists due to overlapping land descriptions, the Secretary shall adjust the descriptions to eliminate conflicts, and in so doing, consistent with other existing rights, if any, may expand or alter the applied-for allotment boundaries or increase or decrease acreage in one or more of the allotment applications to achieve an adjustment which, to the extent practicable, is consistent with prior use of the allotted land and is beneficial to the affected parties: *Provided*, That the Secretary shall, to the extent feasible, implement an adjustment proposed by the affected parties: *Provided further*, That the Secretary's decision concerning adjustment of conflicting land descriptions shall be final and unreviewable in all cases in which the reduction, if any, of the affected allottee's claim is less than 30 percent of the acreage contained in the parcel originally described and the adjustment does not exclude from the allotment improvements claimed by the allottee: *Provided further*, That where an allotment application describes more than one hundred and sixty acres, the Secretary shall at any time prior to or during survey reduce the acreage to one hundred and sixty acres and shall attempt to accomplish said reduction in the manner least detrimental to the applicant.

(c) Amendment of land description in application; notification; protest; adoption of final plan of survey

An allotment applicant may amend the land description contained in his or her application if said description designates land other than that which the applicant intended to claim at the time of application and if the description as amended describes the land originally intended to be claimed. If the allotment application is amended, this section shall operate to approve the application or to require its adjudication, as the case may be, with reference to the amended land description only: *Provided*, That the Secretary shall notify the State of Alaska and all interested parties, as shown by the records of the Department of the Interior, of the intended correction of the allotment's location, and any such party shall have until the one hundred and eightieth day following December 2, 1980, or sixty days following mailing of the notice, whichever is later, to file with the Department of the Interior a protest as provided in subsection (a)(5) of this section, which protest, if timely, shall be deemed filed within one hundred and eighty days of December 2, 1980, notwithstanding the actual date of filing: *Provided further*, That the Secretary may require that all allotment applications designating land in a specified area be amended, if at all, prior to a date certain, which date shall be calculated to allow for orderly adoption of a plan of survey for the specified area, and the Secretary shall mail notification of the final date for amendment to each affected allotment applicant, and shall provide such other notice as the Secretary deems appropriate, at least sixty days prior to said date: *Provided further*, That no allotment application may be amended for location following adoption of a final plan of survey which includes the location of the allotment as described in the application or its location as desired by amendment.

(d) Powersites and power projects

Where the land described in an allotment application pending before the Department of the Interior on or before December 18, 1971 (or such an application as adjusted or amended pursuant to subsection (b) or (c) of this section), was on that date withdrawn, reserved, or classified for powersite or power-project purposes, notwithstanding such withdrawal, reservation, or classification the described land shall be deemed vacant, unappropriated, and unreserved within the meaning of the Act of May 17, 1906, as amended, and, as such, shall be subject to adjudication or approval pursuant to the terms of this section: *Provided, however*, That if the described land is included as part of a project licensed under part I of the Federal Power Act of June 10, 1920 (41 Stat. 24), as amended [16 U.S.C. 791a et seq.], or is presently utilized for purposes of generating or transmitting electrical power or for any other project authorized by Act of Congress, the foregoing provision shall not apply and the allotment application shall be adjudicated pursuant to the Act of May 17, 1906, as amended: *Provided further*, That where the allotment applicant commenced use of the land after its withdrawal or classification for powersite purposes, the allotment shall be made subject to the right of reentry provided the United States by section 24 of the Federal Power Act, as amended [16 U.S.C. 818]: *Provided further*, That any right of reentry reserved in a certificate of allotment pursuant to this section shall expire twenty years after December 2, 1980, if at that time the allotted land is not subject to a license or an application for a license under part I of the Federal Power Act, as amended [16 U.S.C. 791a et seq.], or actually utilized or being developed for a purpose authorized by that Act, as amended [16 U.S.C. 791a et seq.], or other Act of Congress.

(e) Validity of existing rights; rights acquired by actual use and national forest lands unaffected

Prior to issuing a certificate for an allotment subject to this section, the Secretary shall identify and adjudicate any record entry or application for title made under an Act other than the Alaska Native Claims Settlement Act [43 U.S.C. 1601 et seq.], the Alaska Statehood Act, or the Act of May 17, 1906, as amended, which entry or application claims land also described in the allotment application, and shall determine whether such entry or application represents a valid existing right to which the allotment application is subject. Nothing in this section shall be construed to affect rights, if any, acquired by actual use of the described land prior to its withdrawal or classification, or as affecting national forest lands.

(f) Reinstatement

(1)(A) Notwithstanding paragraphs (1) and (6) of subsection (a) of this section, and subject to subparagraph (B), each Alaska Native allotment application made pursuant to the Act entitled “An Act authorizing the Secretary of the Interior to allot homesteads to the natives of Alaska”, approved May 17, 1906 (34 Stat. 197), that—

- (i) was pending before the Department of the Interior on or before December 18, 1971; and
- (ii) describes lands within the National Petroleum Reserve-Alaska that have been selected, interim conveyed, or patented to a Village Corporation or Regional Corporation,

is reinstated only for the purpose of this section, subject to this section.

(B) The reinstatement under subparagraph (A) shall be carried out regardless of whether the application was—

- (i) relinquished by the applicant; or
- (ii) denied by the Department of the Interior, if the denial was based solely on the grounds that land within the National Petroleum Reserve-Alaska was unavailable.

(2)(A) To the extent that the application describes lands (or any interest in the lands) that have been selected, interim conveyed, or patented to a Village Corporation or Regional Corporation, the Secretary is authorized to accept from the Village Corporation or Regional Corporation the reconveyance or relinquishment of the lands (or any interest in the lands).

(B)(i) To the extent that the application describes lands (or any interest in the lands) that a Village Corporation is not willing to reconvey or relinquish pursuant to subparagraph (A), the applicant may

relinquish any claim to any portion of the lands (or any interest in the lands) or may, with the consent of the affected Village Corporation, amend the application to exclude the lands and include in lieu thereof a description of lands selected by, interim conveyed to, or patented to the Village Corporation of an acreage that is not to exceed the amount of land relinquished.

(ii) The Secretary is authorized to accept the reconveyance or relinquishment of the lands (or any interest in the lands) described in the amended application from the Village Corporation or Regional Corporation in lieu of the lands (or any interest in the lands) described in the initial application.

(C) If a Village Corporation or Regional Corporation reconveys lands (or any interest in the lands) to the United States under subparagraph (A) or (B), the Secretary shall reduce the acreage charged against the entitlement of the Village Corporation or Regional Corporation.

(D) The authority of the Secretary to accept the reconveyance or relinquishment of lands (or any interest in the lands) under this paragraph shall terminate on the date that is 6 years after October 14, 1992.

(3)(A) Subject to any valid existing rights, to the extent that the application describes lands that are authorized to be reconveyed or relinquished to the United States under paragraph (2), the Village Corporation shall file with the Secretary, not later than 3 years after October 14, 1992, the name of the applicant and the land description of each allotment proposed to be reconveyed or relinquished.

(B) Upon receipt of the land description, the Secretary shall immediately notify the State of Alaska and all interested parties of the land description proposed to be reconveyed or relinquished, and any such party shall have 60 days following notification in which to file with the Department of the Interior a protest as provided in subsection (a)(5) of this section.

(C) The Secretary shall then either—

(i) if no protest is filed, approve the application; or

(ii) if a protest is filed, adjudicate the legal sufficiency of any protest timely filed; and—

(I) if the protest is legally insufficient, approve the application; or

(II) if the protest is valid, issue a decision that closes the application and that is final for the Department.

(D) The Secretary shall, with respect to each allotment approved pursuant to this subsection—

(i) survey the allotment; and

(ii) following reconveyance or relinquishment, issue a Native allotment certificate to the applicant or heirs of the applicant.

(4)(A) To the extent a Village Corporation or a Regional Corporation reconveys lands (or any interest in the lands) to the United States pursuant to paragraph (2) and the conveyance results in a reduction in the acreage charged against the entitlement of the Village Corporation or Regional Corporation under the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.), the Village Corporation or Regional Corporation shall be entitled to make selections in lieu of the reconveyed lands (or any interest in the lands).

(B)(i) The quantity of acreage of the surface estate reconveyed pursuant to paragraph (2) shall be added to the quantity of acreage of underselection, if any, for the Village Corporation. The Secretary shall provide for the selection of lands for replacement in accordance with the procedures for withdrawals and selections under section 22(j)(2) of the Alaska Native Claims Settlement Act (43 U.S.C. 1621(j)(2)).

(ii)(I) A Village Corporation described in clause (i) shall be entitled to select lands for replacement from the lands that have been withdrawn for selection by the Village Corporation pursuant to section 11(a)(1) of the Alaska Native Claims Settlement Act (43 U.S.C. 1610(a)(1)).

(II) In any case in which the lands described in subclause (I) are no longer in Federal ownership and the Village Corporation is entitled to make a selection pursuant to this subparagraph, the Secretary shall withdraw, and the Village Corporation shall select, Federal lands that are compact and contiguous with lands previously conveyed to the Village Corporation.

(C) Lands (or any interests in the lands) in the replacement of lands (or interests in the lands) reconveyed by the Regional Corporation to the United States under this subsection shall be selected

by the Regional Corporation from lands that are—

- (i) compact and contiguous with other lands previously conveyed to the Regional Corporation within the National Petroleum Reserve-Alaska; and
- (ii) beneath the surface estate of lands selected and conveyed to a Village Corporation.

(D) The Secretary shall convey the lands selected pursuant to this paragraph in accordance with this subsection.

(5)(A) Each Native allotment certificate issued to an applicant or the heirs of the applicant pursuant to paragraph (3) shall be subject to any existing easement or other right that had been reserved, conveyed, transferred, or recognized by the United States prior to the issuance of the certificate.

(B) Each conveyance by the Secretary to any applicant or to the heirs of the applicant under this subsection shall reserve to the United States—

- (i) except as provided in subparagraph (C), all interests in oil, gas, and coal in the conveyed lands, and the right of the United States, or a lessee or assignee of the United States, to enter on lands conveyed to the applicant or to the heirs of the applicant, to drill, explore, mine, produce, and remove the oil, gas, or coal; and
- (ii) all other rights reasonably incident to the mineral reservations described in clause (i).

(C)(i) If the oil, gas, or coal described in subparagraph (B)(i) was previously conveyed to the Regional Corporation and the Regional Corporation reserves those interests in a reconveyance to the United States, the Secretary shall reserve from the reconveyance to the applicant or to the heirs of the applicant for the benefit of the Regional Corporation the same rights and privileges that would have been reserved for the United States.

(ii) With respect to a reconveyance of lands (or any interest in the lands) by the Regional Corporation to the United States that does not convey the entire mineral estate, the Regional Corporation shall not be entitled—

- (I) to a reduction of the acreage charged against the entitlement under the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.); or
- (II) to select mineral interests to replace the acreage.

(6) The United States shall not be subject to liability for the presence of any hazardous substance in land or an interest in land solely as a result of any reconveyance to and transfer by the United States of the land or interest pursuant to this subsection.

§1635. State selections and conveyances

(a) Omitted

(b) School lands settlement

(1) In full and final settlement of any and all claims by the State of Alaska arising under the Act of March 4, 1915 (38 Stat. 1214), as confirmed and transferred in section 6(k) of the Alaska Statehood Act, the State is hereby granted seventy-five thousand acres which it shall be entitled to select until January 4, 1994, from vacant, unappropriated, and unreserved public lands. In exercising the selection rights granted herein, the State shall be deemed to have relinquished all claims to any right, title, or interest to any school lands which failed to vest under the above statutes at the time Alaska became a State (January 3, 1959), including lands unsurveyed on that date or surveyed lands which were within Federal reservations or withdrawals on that date.

(2) Except as provided herein, such selections shall be made in conformance with the provisions for selections under section 6(b) of the Alaska Statehood Act. Selections made under this subsection shall be in units of whole sections as shown on the official survey plats of the Bureau of Land Management, including protraction diagrams, unless part of the section is unavailable or the land is otherwise surveyed, or unless the Secretary waives the whole section requirement.

(3) Lands selected and conveyed to the State under this subsection shall be subject to the provisions of subsections (j) and (k) of section 6 of the Alaska Statehood Act.

(c) Prior tentative approvals

(1) All tentative approvals of State of Alaska land selections pursuant to the Alaska Statehood Act are hereby confirmed, subject only to valid existing rights and Native selection rights under the Alaska Native Claims Settlement Act [43 U.S.C. 1601 et seq.], and the United States hereby confirms that all right, title, and interest of the United States in and to such lands is deemed to have vested in the State of Alaska as of the date of tentative approval; except that this subsection shall not apply to tentative approvals which, prior to December 2, 1980, have been relinquished by the State, or have been finally revoked by the United States under authority other than authority under section 11(a)(2), 12(a), or 12(b) of the Alaska Native Claims Settlement Act [43 U.S.C. 1610(a)(2), 1611(a), or 1611(b)].

(2) Upon approval of a land survey by the Secretary, such lands shall be patented to the State of Alaska.

(3) If the State elects to receive patent to any of the lands which are the subject of this subsection on the basis of protraction surveys in lieu of field surveys, the Secretary shall issue patent to the State on that basis within six months after notice of such election. For townships having such adverse claims of record, patent on the basis of protraction surveys shall be issued as soon as practicable after such election.

(4) Future tentative approvals of State land selections, when issued, shall have the same force and effect as those existing tentative approvals which are confirmed by this subsection and shall be processed for patent by the same administrative procedures as specified in paragraphs (2) and (3) of this subsection.

(d) Prior State selections

(1) In furtherance of the State's entitlement to lands under section 6(b) of the Alaska Statehood Act, the United States hereby conveys to the State of Alaska, subject only to valid existing rights and Native selection rights under the Alaska Native Claims Settlement Act [43 U.S.C. 1601 et seq.], all right, title and interest of the United States in and to all vacant, unappropriated, and unreserved lands, including lands subject to subsection (l) of this section, which are specified in the list entitled "Prior State of Alaska Selections to be Conveyed by Congress", dated July 24, 1978, submitted by the State of Alaska and on file in the Office of the Secretary except those Federal lands which are specified in a list dated October 19, 1979, submitted by the State of Alaska and on file with the Office of the Secretary. If any of those townships listed above contain lands within the boundaries of any conservation system unit, national conservation area, national recreation area, new national forest or forest addition, established, designated, or expanded by this Act, then only those lands within such townships which have been previously selected by the State of Alaska shall be conveyed pursuant to this subsection.

(2) In furtherance of the State's entitlement to lands under section 6(a) of the Alaska Statehood Act, the United States hereby conveys to the State of Alaska, subject only to valid existing rights and Native selection rights under the Alaska Native Claims Settlement Act [43 U.S.C. 1601 et seq.], all right, title and interest of the United States in and to all valid land selections made from the national forests under authority of said section 6(a) which have been approved by the Secretary of Agriculture prior to July 1, 1979.

(3) As soon as practicable after December 2, 1980, the Secretary shall issue tentative approvals to such State selections as required by the Alaska Statehood Act and pursuant to subsection (i) of this section. The sequence of issuance of such tentative approvals shall be on the basis of priorities determined by the State.

(4) Upon approval of a land survey by the Secretary, such lands shall be patented to the State of Alaska.

(5) If the State elects to receive patent to any of the lands which are the subject of this subsection on the basis of protraction surveys in lieu of field surveys, the Secretary shall issue patent to the State on that basis within six months after notice of such election for townships having no adverse claims on the public land records. For townships having such adverse claims of record, patent on the basis of protraction surveys shall be issued as soon as practicable after such election.

(6) Future valid State land selections shall be subject only to valid existing rights and Native selection rights under the Alaska Native Claims Settlement Act [43 U.S.C. 1601 et seq.].

(e) Future "top filings"

Subject to valid existing rights and Native selection rights under the Alaska Native Claims Settlement Act [43 U.S.C. 1601 et seq.], the State, at its option, may file future selection applications and amendments thereto, pursuant to section 6(a) or (b) of the Alaska Statehood Act or subsection (b) of this section, for lands which are not, on the date of filing of such applications, available within the meaning of section 6(a) or (b) of the Alaska Statehood Act, other than lands within any conservation system unit or the National Petroleum Reserve—Alaska. Each such selection application, if otherwise valid, shall become an effective selection without further action by the State upon the date the lands included in such application become available within the meaning of subsection (a) or (b) of section 6 regardless of whether such date occurs before or after expiration of the State's land selection rights. Selection applications heretofore filed by the State may be refiled so as to become subject to the provisions of this subsection; except that no such refiling shall prejudice any claim of validity which may be asserted regarding the original filing of such application.

Nothing contained in this subsection shall be construed to prevent the United States from transferring a Federal reservation or appropriation from one Federal agency to another Federal agency for the use and benefit of the Federal Government.

(f) Right to overselect

(1) The State of Alaska may select lands exceeding by not more than 25 per centum in total area the amount of State entitlement which has not been patented or tentatively approved under each grant or confirmation of lands to the State contained in the Alaska Statehood Act or other law. If its selections under a particular grant exceed such remaining entitlement, the State shall thereupon list all selections for that grant which have not been tentatively approved in desired priority order of conveyance, in blocks no larger than one township in size; except that the State may alter such priorities prior to receipt of tentative approval. Upon receipt by the State of subsequent tentative approvals, such excess selections shall be reduced by the Secretary pro rata by rejecting the lowest prioritized selection blocks necessary to maintain a maximum excess selection of 25 per centum of the entitlement which has not yet been tentatively approved or patented to the State under each grant.

(2) The State of Alaska may, by written notification to the Secretary, relinquish any selections of land filed under the Alaska Statehood Act or subsection (b) of this section prior to receipt by the State of tentative approval, except that lands conveyed pursuant to subsection (g) of this section may not be relinquished pursuant to this paragraph.

(3) Omitted

(g) Conveyance of specified lands

In furtherance of the State's entitlement to lands under section 6(b) of the Alaska Statehood Act, the United States hereby conveys to the State of Alaska all right, title, and interest of the United States in and to all vacant, unappropriated, and unreserved lands, including lands subject to subsection (e) of this section but which lie within those townships outside the boundaries of conservation system units, National Conservation Areas, National Recreation Areas, new national forests and forest additions, established, designated, or expanded by this Act, which are specified in the list entitled "State Selection Lands May 15, 1978", dated July 24, 1978, submitted by the State of Alaska and on file in the office of the Secretary of the Interior. The denomination of lands in such list which are not, on December 2, 1980, available lands within the meaning of section 6(b) of the Alaska Statehood Act and this Act shall be treated as a future selection application pursuant to subsection (e) of this section, to the extent such an application could have been filed under such subsection (e) of this section.

(h) Limitation of conveyances of specified lands tentative approvals; surveys

(1) Lands identified in subsection (g) of this section are conveyed to the State subject to valid existing rights and Native selection rights under the Alaska Native Claims Settlement Act [43 U.S.C. 1601 et seq.]. All right, title, and interest of the United States in and to such lands shall vest in the State of Alaska as of December 2, 1980, subject to those reservations specified in subsection (l) of this section.

(2)(A) As soon as practicable after December 2, 1980, the Secretary shall issue to the State tentative approvals to such lands as required by the Alaska Statehood Act and pursuant to subsection (i) of this section.

(B)(i) The sequence of issuance of such tentative approvals shall be on the basis of priorities determined by the State.

(ii) In establishing the priorities for tentative approval under clause (i), the State shall—

(I) in the case of a selection under section 6(a) of Public Law 85-508 (commonly known as the "Alaska Statehood Act") (72 Stat. 340), include all land selected; or

(II) in the case of a selection under section 6(b) of that Act—

(aa) include at least 5,760 acres; or

(bb) if a waiver has been granted under section 6(g) of that Act or less than 5,760 acres of the entitlement remains, prioritize the selection in such increments as are available for conveyance.

(3) Upon approval of a land survey by the Secretary, those lands identified in subsection (g) of this section shall be patented to the State of Alaska.

(4) If the State elects to receive patent to any of the lands which are identified in subsection (g) of this section on the basis of protraction surveys in lieu of field surveys, the Secretary shall issue patent to the State on that basis within six months after notice of such election for townships having no adverse claims on the public land records. For townships having such adverse claims of record, patent on the basis of protraction surveys shall be issued as soon as practicable after such election.

(i) Adjudication

Nothing contained in this section shall relieve the Secretary of the duty to adjudicate conflicting claims regarding the lands specified in subsection (g) of this section, or otherwise selected under authority of the Alaska Statehood Act, subsection (b) of this section, or other law, prior to the issuance of tentative approval.

(j) Clarification of land status outside units

As to lands outside the boundaries of a conservation system unit, National Recreation Areas, National Conservation Areas, new national forests and forest additions, the following withdrawals, classifications, or designations shall not, of themselves, remove the lands involved from the status of vacant, unappropriated, and unreserved lands for the purposes of subsection (d) or (g) of this section and future State selections pursuant to the Alaska Statehood Act or subsection (b) of this section:

(1) withdrawals for classification pursuant to section 17(d)(1) of the Alaska Native Claims Settlement Act [43 U.S.C. 1616(d)(1)]; except that, in accordance with the Memorandum of Understanding between the United States and the State of Alaska dated September 2, 1972, to the extent that Public Land Orders Numbered 5150, 5151, 5181, 5182, 5184, 5187, 5190, 5194, and 5388 by their terms continue to prohibit State selections of certain lands, such lands shall remain unavailable for future State selection except as provided by subsection (e) of this Act; ¹

(2) withdrawals pursuant to section 11 of the Alaska Native Claims Settlement Act [43 U.S.C. 1610], which are not finally conveyed pursuant to section 12, 14, or 19 of such Act [43 U.S.C. 1611, 1613, or 1618];

(3) classifications pursuant to the Classification and Multiple Use Act (78 Stat. 987);

(4) classifications or designations pursuant to the National Forest Management Act (90 Stat. 2949) as amended; and

(5) classifications, withdrawals exceeding 5,000 acres (except withdrawals exceeding 5,000 acres which the Congress, by concurrent resolution, approves within 180 days of the withdrawal or December 2, 1980, whichever occurs later), or designations pursuant to the Federal Land Policy and Management Act (90 Stat. 2743) [43 U.S.C. 1701 et seq.].

(k) Interim provisions

Notwithstanding any other provision of law, on lands selected by, or granted or conveyed to, the State of Alaska under section 6 of the Alaska Statehood Act or this Act, but not yet tentatively approved to the State:

(1) The Secretary is authorized to make contracts and grant leases, licenses, permits, rights-of-way, or easements, and any tentative approval or patent shall be subject to such contract, lease, license, permit, right-of-way, or easement; except that (A) the authority granted the Secretary by this subsection is that authority the Secretary otherwise would have had under existing laws and regulations had the lands not been selected by the State, and (B) the State has concurred prior to such action by the Secretary.

(2) On and after December 2, 1980, 90 per centum of any and all proceeds derived from contracts, leases, licenses, permits, rights-of-way, or easements or from trespasses originating after the date of selection by the State shall be held by the Secretary until such lands have been tentatively approved to the State. As such lands are tentatively approved, the Secretary shall pay to the State from such account the proceeds allocable to such lands which are derived from contracts, leases, licenses, permits, rights-of-way, easements, or trespasses. The proceeds derived from contracts, leases, licenses, permits, rights-of-way, easements or trespasses and deposited to the

account pertaining to lands selected by the State but not tentatively approved due to rejection or relinquishment shall be paid as would have been required by law were it not for the provisions of this Act. In the event that the tentative approval does not cover all of the land embraced within any contract, lease, license, permit, right-of-way, easement, or trespass, the State shall only be entitled to the proportionate amount of the proceeds derived from such contract, lease, license, permit, right-of-way, or easement, which results from multiplying the total of such proceeds by a fraction in which the numerator is the acreage of such contract, lease, license, permit, right-of-way, or easement which is included in the tentative approval and the denominator is the total acreage contained in such contract, lease, license, permit, right-of-way, or easement; in the case of trespass, the State shall be entitled to the proportionate share of the proceeds in relation to the damages occurring on the respective lands.

(3) Nothing in this subsection shall relieve the State or the United States of any obligations under section 9 of the Alaska Native Claims Settlement Act [43 U.S.C. 1608] or the fourth sentence of section 6(h) of the Alaska Statehood Act.

(l) Existing rights

(1) All conveyances to the State under section 6 of the Alaska Statehood Act, this Act, or any other law, shall be subject to valid existing rights, to Native selection rights under the Alaska Native Claims Settlement Act [43 U.S.C. 1601 et seq.], and to any right-of-way or easement reserved for or appropriated by the United States prior to selection of the underlying lands by the State of Alaska.

(2) Where, prior to a conveyance to the State, a right-of-way or easement has been reserved for or appropriated by the United States or a contract, lease, permit, right-of-way, or easement has been issued for the lands, the conveyance shall contain provisions making it subject to the right-of-way or easement reserved or appropriated and to the contract, lease, license, permit, right-of-way, or easement issued or granted, and also subject to the right of the United States, contractee, lessee, licensee, permittee, or grantee to the complete enjoyment of all rights, privileges, and benefits previously granted, issued, reserved, or appropriated. Upon issuance of tentative approval, the State shall succeed and become entitled to any and all interests of the United States as contractor, lessor, licensor, permittor,² or grantor, in any such contracts, leases, licenses, permits, rights-of-way, or easements, except those reserved to the United States in the tentative approval.

(3) The administration of rights-of-way or easements reserved to the United States in the tentative approval shall be in the United States, including the right to grant an interest in such right-of-way or easement in whole or in part.

(4) Where the lands tentatively approved do not include all of the land involved with any contract, lease, license, permit, right-of-way, or easement issued or granted, the administration of such contract, lease, license, permit, right-of-way, or easement shall remain in the United States unless the agency responsible for administration waives such administration.

(5) Nothing in this subsection shall relieve the State or the United States of any obligations under section 9 of the Alaska Native Claims Settlement Act [43 U.S.C. 1608] or the fourth sentence of section 6(h) of the Alaska Statehood Act.

(m) Extinguishment of certain time extensions

Any extensions of time periods granted to the State pursuant to section 17(d)(2)(E) of the Alaska Native Claims Settlement Act [43 U.S.C. 1616(d)(2)(E)] are hereby extinguished, and the time periods specified in subsections (a) and (b) of this section shall hereafter be applicable to State selections.

(n) Effect on third-party rights

(1) Nothing in this section shall alter the rights or obligations of any party with regard to section 12 of the Act of January 2, 1976 (Public Law 94–204), sections 4 and 5 of the Act of October 4, 1976 (Public Law 94–456), or section 3 of the Act of November 15, 1977 (Public Law 94–178).

(2) Any conveyance of land to or confirmation of prior selections of the State made by this Act or selections allowed under this Act shall be subject to the rights of Cook Inlet Region, Incorporated, to nominate lands outside of its region with such nominations to be superior to any selection made by

the State after July 18, 1975, including any lands conveyed to the State pursuant to subsection (g) of this section, and to the duty of the Secretary, with consent of the State, to make certain lands within the Cook Inlet Region available to the Corporation, both in accordance with the provisions of section 12(b) of the Act of January 2, 1976 (Public Law 94–204), as amended.

(3) Nothing in this chapter shall prejudice a claim of validity or invalidity regarding any third-party interest created by the State of Alaska prior to December 18, 1971, under authority of section 6(g) of the Alaska Statehood Act or otherwise.

(4) Nothing in this Act shall affect any right of the United States or Alaska Natives to seek and receive damages against any party for trespass against, or other interference with, aboriginal interests if any, occurring prior to December 18, 1971.

(o) Status of lands within units

(1) Notwithstanding any other provision of law, subject to valid existing rights any land withdrawn pursuant to section 17(d)(1) of the Alaska Native Claims Settlement Act [43 U.S.C. 1616(d)(1)] and within the boundaries of any conservation system unit, National Recreation Area, National Conservation Area, new national forest or forest addition, shall be added to such unit and administered accordingly unless, before, on, or after December 2, 1980, such land has been validly selected by and conveyed to a Native Corporation, or unless before December 2, 1980, such land has been validly selected by, and after December 2, 1980, is conveyed to the State. At such time as the entitlement of any Native Corporation to land under the Alaska Native Claims Settlement Act [43 U.S.C. 1601 et seq.] is satisfied, any land within a conservation system unit selected by such Native Corporation shall, to the extent that such land is in excess of its entitlement, become part of such unit and administered accordingly: *Provided*, That nothing in this subsection shall necessarily preclude the future conveyance to the State of those Federal lands which are specified in a list dated October 19, 1979, submitted by the State of Alaska and on file with the Office of the Secretary: *Provided further*, That nothing in this subsection shall affect any conveyance to the State pursuant to subsections (b), (c), (d), or (g) of this section.

(2) Until conveyed, all Federal lands within the boundaries of a conservation system unit, National Recreation Area, National Conservation Area, new national forest or forest addition, shall be administered in accordance with the laws applicable to such unit.

(p) PYK line

The second proviso of section 6(b) of the Alaska Statehood Act regarding Presidential approval of land selection north and west of the line described in section 10 of such Act shall not apply to any conveyance of land to the State pursuant to subsections (c), (d), and (g) of this section but shall apply to future State selections.

§1636. Alaska land bank

(a) Establishment; agreements

(1) In order to enhance the quantity and quality of Alaska's renewable resources and to facilitate the coordinated management and protection of Federal, State, and Native and other private lands, there is hereby established the Alaska Land Bank Program. Any private landowner is authorized as provided in this section to enter into a written agreement with the Secretary if his lands adjoin, or his use of such lands would directly affect, Federal land, Federal and State land, or State land if the State is not participating in the program. Any private landowner described in subsection (d)(1) of this section whose lands do not adjoin, or whose use of such lands would not directly affect either Federal or State lands also is entitled to enter into an agreement with the Secretary. Any private landowner whose lands adjoin, or whose use of such lands would directly affect, only State, or State and private lands, is authorized as provided in this section to enter into an agreement with the State of Alaska if the State is participating in the program. If the Secretary is the contracting party with the

private landowner, he shall afford the State an opportunity to participate in negotiations and become a party to the agreement. An agreement may include all or part of the lands of any private landowner: *Provided*, That no lands shall be included in the agreement unless the Secretary, or the State, determines that the purposes of the program will be promoted by their inclusion.

(2) If a private landowner consents to the inclusion in an agreement of the stipulations provided in subsections (b)(1), (b)(2), (b)(4), (b)(5), and (b)(7) of this section, and if such owner does not insist on any additional terms which are unacceptable to the Secretary or the State, as appropriate, the owner shall be entitled to enter into an agreement pursuant to this section. If an agreement is not executed within one hundred and twenty days of the date on which a private landowner communicates in writing his consent to the stipulations referred to in the preceding sentence, the appropriate Secretary or State agency head shall execute an agreement. Upon such execution, the private owner shall receive the benefits provided in subsection (c) hereof.

(3) No agreement under this section shall be construed as affecting any land, or any right or interest in land, of any owner not a party to such agreement.

(b) Terms of agreement

Each agreement referred to in subsection (a) of this section shall have an initial term of ten years, with provisions, if any, for renewal for additional periods of five years. Such agreement shall contain the following terms:

(1) The landowner shall not alienate, transfer, assign, mortgage, or pledge the lands subject to the agreement except as provided in section 14(c) of the Alaska Native Claims Settlement Act [43 U.S.C. 1613(c)], or permit development or improvement on such lands except as provided in the agreement. For the purposes of this section only, each agreement entered into with a landowner described in subsection (d)(1) of this section shall constitute a restriction against alienation imposed by the United States upon the lands subject to the agreement.

(2) Lands subject to the agreement shall be managed by the owner in a manner compatible with the management plan, if any, for the adjoining Federal or State lands, and with the requirements of this subsection. If lands subject to the agreement do not adjoin either Federal or State lands, they shall be managed in a manner compatible with the management plan, if any, of Federal or State lands which would be directly affected by the use of such private lands. If no such plan has been adopted, or if the use of such private lands would not directly affect either Federal or State lands, the owner shall manage such lands in accordance with the provisions in paragraph (1) of this subsection. Except as provided in (3) ¹ of this subsection, nothing in this section or the management plan of any Federal or State agency shall be construed to require a private landowner to grant public access on or across his lands.

(3) If the surface landowner so consents, such lands may be made available for local or other recreational use: *Provided*, That the refusal of a private landowner to permit the uses referred to in this subsection shall not be grounds for the refusal of the Secretary or the State to enter into an agreement with the landowner under this section.

(4) Appropriate Federal and/or State agency heads shall have reasonable access to such privately owned land for purposes relating to the administration of the adjoining Federal or State lands, and to carry out their obligations under the agreement.

(5) Reasonable access to such land by officers of the State shall be permitted for purposes of conserving fish and wildlife.

(6) Those services or other consideration which the appropriate Secretary or the State shall provide to the owner pursuant to subsection (c)(1) of this section shall be set forth.

(7) All or part of the lands subject to the agreement may be withdrawn from the Alaska land bank program not earlier than ninety days after the landowner—

(A) submits written notice thereof to the other parties which are signatory to the agreement; and

(B) pays all Federal, State and local property taxes and assessments which, during the particular term then in effect, would have been incurred except for the agreement, together with interest on such taxes and assessments in an amount to be determined at the highest rate of

interest charged with respect to delinquent property taxes by the Federal, State or local taxing authority, if any.

(8) The agreement may contain such additional terms, which are consistent with the provisions of this section, as seem desirable to the parties entering into the agreement: *Provided*, That the refusal of the landowner to agree to any additional terms shall not be grounds for the refusal of the Secretary or the State to enter into an agreement with the landowner under this section.

(c) Benefits to private landowners

(1) In addition to any requirement of applicable law, the appropriate Secretary is authorized to provide technical and other assistance with respect to fire control, trespass control, resource and land use planning, and the protection, maintenance, and enhancement of any special values of the land subject to the agreement, all with or without reimbursement as agreed upon by the parties, so long as the landowner is in compliance with the agreement.

(2) The provision of section 21(e) of the Alaska Native Claims Settlement Act [43 U.S.C. 1620(e)] shall apply to all lands which are subject to an agreement made pursuant to this section so long as the parties to the agreement are in compliance therewith.

(d) Automatic protections for lands conveyed pursuant to Alaska Native Claims Settlement Act

(1)(A) Notwithstanding any other provision of law or doctrine of equity, all land and interests in land in Alaska conveyed by the Federal Government pursuant to the Alaska Native Claims Settlement Act [43 U.S.C. 1601 et seq.] to a Native individual or Native Corporation or subsequently reconveyed by a Native Corporation pursuant to section 39 of that Act [43 U.S.C. 1629e] to a Settlement Trust or conveyed to a Native Corporation pursuant to an exchange authorized by section 22(f) of the Alaska Native Claims Settlement Act [43 U.S.C. 1621(f)] or section 3192(h) of title 16 or other applicable law shall be exempt, so long as such land and interests are not developed or leased or sold to third parties from—

- (i) adverse possession and similar claims based upon estoppel;
- (ii) real property taxes by any governmental entity;
- (iii) judgments resulting from a claim based upon or arising under—
 - (I) title 11 or any successor statute,
 - (II) other insolvency or moratorium laws, or
 - (III) other laws generally affecting creditors' rights;

(iv) judgments in any action at law or in equity to recover sums owed or penalties incurred by a Native Corporation or Settlement Trust or any employee, officer, director, or shareholder of such corporation or trust, unless this exemption is contractually waived prior to the commencement of such action; and

(v) involuntary distributions or conveyances related to the involuntary dissolution of a Native Corporation or Settlement Trust.

(B) Except as otherwise provided ² specifically provided, the exemptions described in subparagraph (A) shall apply to any claim or judgment existing on or arising after February 3, 1988.

(2) DEFINITIONS.—(A) For purposes of this subsection, the term—

(i) “Developed” means a purposeful modification of land, or an interest in land, from its original state that effectuates a condition of gainful and productive present use without further substantial modification. Any such modification shall be performed by the Native individual or Native Corporation. Surveying, construction of roads, providing utilities, or other similar actions, which are normally considered to be component parts of the development process but do not create the condition described in the preceding sentence, shall not constitute a developed state within the meaning of this clause. In order to terminate the exemptions listed in paragraph (1), land, or an interest in land, must be developed for purposes other than exploration, and the exemptions will be

terminated only with respect to the smallest practicable tract actually used in the developed state. Any lands previously developed by third-party trespassers shall not be considered to have been developed.; ³

(ii) “Exploration” means the examination and investigation of undeveloped land to determine the existence of subsurface nonrenewable resources; and

(iii) “Leased” means subjected to a grant of primary possession entered into for a gainful purpose with a determinable fee remaining in the hands of the grantor. With respect to a lease that conveys rights of exploration and development, the exemptions listed in paragraph (1) shall continue with respect to that portion of the leased tract that is used solely for the purposes of exploration.

(B) For purposes of this subsection—

(i) land shall not be considered developed solely as a result of—

(I) the construction, installation, or placement upon such land of any structure, fixture, device, or other improvement intended to enable, assist, or otherwise further subsistence uses or other customary or traditional uses of such land, or

(II) the receipt of fees related to hunting, fishing, and guiding activities conducted on such land;

(ii) land upon which timber resources are being harvested shall be considered developed only during the period of such harvest and only to the extent that such land is integrally related to the timber harvesting operation;

(iii) land subdivided by a State or local platting authority on the basis of a subdivision plat submitted by the holder of the land or its agent, shall be considered developed on the date an approved subdivision plat is recorded by such holder or agent unless the subdivided property is a remainder parcel; and

(iv) lands or interest in lands shall not be considered developed or leased or sold to a third party as a result of an exchange or conveyance of such land or interest in land between or among Native Corporations and trusts, partnerships, corporations, or joint ventures, whose beneficiaries, partners, shareholders, or joint venturers are Native Corporations.

(3) ACTION BY A TRUSTEE.—(A) Except as provided in this paragraph and in section 14(c)(3) of the Alaska Native Claims Settlement Act [43 U.S.C. 1613(c)(3)] no trustee, receiver, or custodian vested pursuant to applicable Federal or State law with a right, title, or interest of a Native individual or Native Corporation shall—

(i) assign or lease to a third party,

(ii) commence development or use of, or

(iii) convey to a third party,

any right, title, or interest in any land, or interests in land, subject to the exemptions described in paragraph (1).

(B) The prohibitions of subparagraph (A) shall not apply—

(i) when the actions of such trustee, receiver, or custodian are for purposes of exploration or pursuant to a judgment in law or in equity (or arbitration award) arising out of any claim made pursuant to section 7(i) or section 14(c) of the Alaska Native Claims Settlement Act [43 U.S.C. 1606(i) or 1613(c)];

(ii) to any land, or interest in land, which has been—

(I) developed or leased prior to the vesting of the trustee, receiver, or custodian with the right, title, or interest of the Native Corporation; or

(II) expressly pledged as security for any loan or expressly committed to any commercial transaction in a valid agreement; or

(iii) to actions by any trustee whose right, title, or interest in land or interests in land arises

pursuant to an agreement between or among Native Corporations and trusts, partnerships, or joint ventures whose beneficiaries, partners, shareholders, or joint venturers are Native Corporations.

(4) EXCLUSIONS, REATTACHMENT OF EXEMPTIONS.—(A) The exemptions listed in paragraph (1) shall not apply to any land, or interest in land, which is—

- (i) developed or leased or sold to a third party;
- (ii) held by a Native Corporation in which neither—
 - (I) the Settlement Common Stock of the corporation,
 - (II) the Settlement Common Stock of the corporation and other stock of the corporation held by holders of Settlement Common Stock, nor
 - (III) the Settlement Common Stock of the corporation and other stock of the corporation held by holders of Settlement Common Stock and by Natives and descendants of Natives,

represents a majority of either the total equity of the corporation or the total voting power of the corporation for the purposes of electing directors; or

(iii) held by a Settlement Trust with respect to which any of the conditions set forth in section 39 of the Alaska Native Claims Settlement Act [43 U.S.C. 1629e] have been violated.

(B) The exemptions described in clauses (iii), (iv), and (v) of paragraph (1)(A) shall not apply to any land, or interest in land—

- (i) to the extent that such land or interest is expressly pledged as security for any loan or expressly committed to any commercial transaction in a valid agreement, and
- (ii) to the extent necessary to enforce a judgment in any action at law or in equity (or any arbitration award) arising out of any claim made pursuant to section 7(i) or section 14(c) of the Alaska Native Claims Settlement Act [43 U.S.C. 1606(i) or 1613(c)].

(C) If the exemptions listed in paragraph (1) are terminated with respect to land, or an interest in land, as a result of development (or a lease to a third party), and such land, or interest in land, subsequently reverts to an undeveloped state (or the third-party lease is terminated), then the exemptions shall again apply to such land, or interest in land, in accordance with the provisions of this subsection.

(5) TAX RECAPTURE UPON SUBDIVISION PLAT RECORDATION.—(A) Upon the recordation with an appropriate government authority of an approved subdivision plat submitted by, or on behalf of, a Native individual, Native Corporation, or Settlement Trust with respect to land described in paragraph (1), such individual, corporation, or trust shall pay in accordance with this paragraph all State and local property taxes on the smallest practicable tract integrally related to the subdivision project that would have been incurred by the individual, corporation, or trust on such land (excluding the value of subsurface resources and timber) in the absence of the exemption described in paragraph (1)(A)(ii) during the thirty months prior to the date of the recordation of the plat.

(B) State and local property taxes specified in subparagraph (A) of this paragraph (together with interest at the rate of 5 per centum per annum commencing on the date of recordation of the subdivision plat) shall be paid in equal semi-annual installments over a two-year period commencing on the date six months after the date of recordation of the subdivision plat.

(C) At least thirty days prior to final approval of a plat of the type described in subparagraph (A), the government entity with jurisdiction over the plat shall notify the submitting individual, corporation, or trust of the estimated tax liability that would be incurred as a result of the recordation of the plat at the time of final approval.

(6) SAVINGS.—(A) No provision of this subsection shall be construed to impair, or otherwise affect, any valid contract or other obligation that was entered into prior to February 3, 1988.

(B) Enactment of this subsection shall not affect any real property tax claim in litigation on February 3, 1988.

(e) Condemnation

All land subject to an agreement made pursuant to subsection (a) of this section and all land, and interests in land, conveyed or subsequently reconveyed pursuant to the Alaska Native Claims Settlement Act [43 U.S.C. 1601 et seq.] to a Native individual, Native Corporation, or Settlement Trust shall be subject to condemnation for public purposes in accordance with the provisions of this Act and other applicable law.

(f) Existing contracts

Nothing in this section shall be construed as impairing, or otherwise affecting in any manner, any contract or other obligation which was entered into prior to December 2, 1980, or which (1) applies to any land which is subject to an agreement, and (2) was entered into before the agreement becomes effective.

§1640. Relinquishment of selections partly within conservation units

Whenever a valid State or Native selection is partly in and partly out of the boundary of a conservation system unit, notwithstanding any other provision of law to the contrary, the State or any Native Corporation may relinquish its rights in any portion of any validly selected Federal land, including land underneath waters, which lies within the boundary of the conservation system unit. Upon relinquishment, the Federal land (including land underneath waters) so relinquished within the boundary of the conservation system unit shall become, and be administered as, a part of the conservation system unit. The total land entitlement of the State or Native Corporation shall not be affected by such relinquishment. In lieu of the lands and waters relinquished by the State, the State may select pursuant to the Alaska Statehood Act as amended by this Act, an equal acreage of other lands available for such purpose. The Native Corporation may retain an equal acreage from overselection lands on which selection applications were otherwise properly and timely filed. A relinquishment pursuant to this section shall not invalidate an otherwise valid State or Native Corporation land selection outside the boundaries of the conservation system unit, on the grounds that, after such relinquishment, the remaining portion of the land selection no longer meets applicable requirements of size, compactness, or contiguity, or that the portion of the selection retained immediately outside the conservation system unit does not follow section lines along the boundary of the conservation system unit. The validity of the selection outside such boundary shall not be adversely affected by the relinquishment.

§1641. Conveyances to Village Corporations

(a) Optional procedure

The provisions of this section shall be applicable only to the conveyance of Federal lands described herein to a Native Corporation which within one hundred and eighty days after December

2, 1980, or the date of eligibility determination, whichever is later, files a document with the Secretary setting forth its election to receive conveyance pursuant to this section.

(b) “Core” townships, etc.

(1)(A) Except to the extent that conveyance of a surface estate would be inconsistent with section 12(a), 14(a), 14(b), or 22(l) of the Alaska Native Claims Settlement Act [43 U.S.C. 1611(a), 1613(a), 1613(b), or 1621(l)], subject to valid existing rights and section 1633(a) of this title, there is hereby conveyed to and vested in each Village Corporation for a Native Village which is determined by the Secretary to be eligible for land under section 11 or 16 of the Alaska Native Claims Settlement Act [43 U.S.C. 1610 or 1615] and which did not elect to acquire a former reserve under section 19(b) of such Act [43 U.S.C. 1618(b)], all of the right, title, and interest of the United States in and to the surface estate in the public lands, as defined in such Act [43 U.S.C. 1601 et seq.], in the township or townships withdrawn pursuant to section 11(a)(1) or 16(a) of such Act [43 U.S.C. 1610(a)(1) or 1615(a)] in which all or any part of such Village is located. As used in this paragraph the term “Native Village” has the same meaning such term has in section 3(c) of the Alaska Native Claims Settlement Act [43 U.S.C. 1602(c)].

(B) Where two or more Village Corporations are entitled to the same land by virtue of the same township or townships embracing all or part of the Native Villages, the conveyance made by paragraph (A) shall not be effective as to such lands until an arbitration decision or other binding agreement between or among the Corporations is filed with and published by the Secretary. Within thirty days of receipt of such decision or agreement, the Secretary shall publish notice of the decision or agreement in the Federal Register. Effective with such publication, title to the lands conveyed by subparagraph (A) shall vest in the Village Corporation as specified in the decision or agreement. For purposes of section 1632 of this title, until title vests in the Village Corporation pursuant to this subparagraph, the Secretary shall consider the entire acreage involved chargeable to each Corporation's entitlement.

(2) Except to the extent that conveyance of a surface estate would be inconsistent with section 12(a), 14(a), or 22(l) of the Alaska Native Claims Settlement Act [43 U.S.C. 1611(a), 1613(a), or 1621(l)], subject to valid existing rights and section 1633(a) of this title, there is hereby conveyed to and vested in each Village Corporation for a Native Village which is determined by the Secretary to be eligible for land under section 11 of such Act [43 U.S.C. 1610], and which did not elect to acquire a former reserve under section 19(b) of such Act [43 U.S.C. 1618(b)], all of the right, title, and interest of the United States in and to the surface estate in the township or townships withdrawn pursuant to section 11(a)(2) of such Act [43 U.S.C. 1610(a)(2)] in which all or any part of such village is located: *Provided*, That any such land reserved to or selected by the State of Alaska under the Acts of March 4, 1915 (38 Stat. 1214), as amended, January 21, 1929 (45 Stat. 1091), as amended, or July 28, 1956 (70 Stat. 709), and lands selected by the State which have been tentatively approved to the State under section 6(g) of the Alaska Statehood Act and as to which the State, prior to December 18, 1971, had conditionally granted title to, or contracts to purchase, the surface estate to third parties, including cities and boroughs within the State, and such reservations, selections, grants, and contracts had not expired or been relinquished or revoked by December 2, 1980, shall not be conveyed by operation of this paragraph: *And provided further*, That the provisions of subparagraph (1)(B) of this subsection shall apply to the conveyances under this paragraph.

(3) Subject to valid existing rights and section 1633(a) of this title, there is hereby conveyed to and vested in each Village Corporation which, by December 2, 1980, is determined by the Secretary to be eligible under the Alaska Native Claims Settlement Act [43 U.S.C. 1601 et seq.] to, and has elected to, acquire title to any estate pursuant to section 19(b) of the Alaska Native Claims Settlement Act [43 U.S.C. 1618(b)], all of the right, title, and interest of the United States in and to the estates in a reserve, as such reserve existed on December 18, 1971, which was set aside for the use or benefit of the stockholders or members of such Corporation before December 18, 1971. Nothing in this paragraph shall apply to the Village Corporation for the Native village of Klukwan, which Corporation shall receive those rights granted to it by the Act of January 2, 1976 (Public Law 94–204) as amended by the Act of October 4, 1976 (Public Law 94–456).

(4) Subject to valid existing rights and section 1633(a) of this title, and except where such lands

are within a National Wildlife Refuge or the National Petroleum Reserve—Alaska, for which the Regional Corporation obtains in-lieu rights pursuant to section 12(a)(1) of the Alaska Native Claims Settlement Act [43 U.S.C. 1611(a)(1)], there is hereby conveyed to and vested in each Regional Corporation which, as a result of a conveyance of a surface estate by operation of paragraphs (1) and (2) of this subsection, is entitled under section 14(f) of the Alaska Native Claims Settlement Act [43 U.S.C. 1613(f)] to receive the subsurface estate corresponding to such surface estate, all of the right, title, and interest of the United States in and to such subsurface estate.

(c) Documents

As soon as possible after December 2, 1980, the Secretary shall issue to each Native Corporation referred to in subsection (b) of this section interim conveyances or patents to the estate or estates conveyed to such Corporation by such subsection, but title shall be deemed to have passed on the date of the filing of a document of election described in subsection (a) of this section, notwithstanding any delay in the issuance of the interim conveyances or patents.

(d) Reconveyances; disputes

A Village Corporation's obligation to reconvey lands under section 14(c) of the Alaska Native Claims Settlement Act [43 U.S.C. 1613(c)] shall arise only upon receipt of an interim conveyance or patent, whichever is earlier, under subsection (c) of this section or under such Act [43 U.S.C. 1601 et seq.]. For purposes of the Alaska Native Claims Settlement Act [43 U.S.C. 1601 et seq.], legislative conveyances made by, or interim conveyances and patents issued pursuant to, this title shall have the same effect as if issued pursuant to sections 14(a), 14(b), 14(f), and 19(b) of the Alaska Native Claims Settlement Act [43 U.S.C. 1613(a), 1613(b), 1613(f), and 1618(b)] and shall be deemed to have been so issued. Disputes between or among Native Corporations arising from conveyances under this Act shall be resolved by a board of arbitrators of a type described in section 12(e) of the Alaska Native Claims Settlement Act [43 U.S.C. 1611(e)] pertaining to disputes over land selection rights and the boundaries of Village Corporations.

(e) Existing rights

All conveyances made by operation of this section shall be subject to the terms and conditions of the Alaska Native Claims Settlement Act [43 U.S.C. 1601 et seq.] as if such conveyances or patents had been made or issued pursuant to that Act.

(f) Easements

For a period of one year from December 2, 1980, the Secretary may identify and issue a decision to reserve in the patent those easements, pursuant to section 17(b)(3) of the Alaska Native Claims Settlement Act [43 U.S.C. 1616(b)(3)], which are described in section 17(b)(1) of such Act [43 U.S.C. 1616(b)(1)] on lands conveyed by this section, but the Secretary shall not reserve a greater number of easements or more land for a particular easement or easements than is reasonably necessary and he shall be guided by the principles of section 1633 of this title. Upon the finality of the decision so issued, such easements shall be reserved in the conveyance document or documents issued by the Secretary as required by this section.

(g) “Native Corporation” defined

For purposes of this section, the term “Native Corporation” means Village Corporations and Regional Corporations.

(c) The earliest possible construction of a trans-Alaska oil pipeline from the North Slope of Alaska to Port Valdez in that State will make the extensive proven and potential reserves of low-sulfur oil available for domestic use and will best serve the national interest.

(d) A supplemental pipeline to connect the North Slope with a trans-Canada pipeline may be needed later and it should be studied now, but it should not be regarded as an alternative for a trans-Alaska pipeline that does not traverse a foreign country.

TRANS-CANADA PIPELINE; NEGOTIATIONS WITH CANADA; FEASIBILITY STUDY

Pub. L. 93–153, title III, Nov. 16, 1973, 87 Stat. 588, authorized the President to enter into negotiations with the Government of Canada to determine Canadian willingness to permit construction of pipelines or other transportation systems across its territory to bring gas and oil from Alaska's North Slope to the United States; the need for intergovernmental agreements to protect interests of any parties involved with construction, operation, and maintenance of such natural gas or oil transportation systems; terms and conditions for construction across Canadian territory; desirability of joint studies to insure environmental protection, reduce regulatory uncertainty, and insure meeting energy requirements; quantity of oil and gas for which Canada would guarantee transit; and acquisition of other energy sources so as to make unnecessary the shipment of oil from the Alaska pipeline by tanker into the Puget Sound area. The President was to report to Congress on actions taken and recommendations for further action. In addition, the Secretary of the Interior was to investigate, and to report to Congress within 2 years of Nov. 16, 1973, as to the feasibility of oil or gas pipelines from the North Slope of Alaska to connect with a pipeline through Canada that would deliver oil or gas to United States markets. Nothing in title III was to limit the authority of the Secretary or any other Federal official to grant a gas or oil pipeline right-of-way or permit, which that official was otherwise authorized by law to grant.

EXCLUSION OF PERSONS FROM TRANS-ALASKA PIPELINE ACTIVITIES ON BASIS OF RACE, CREED, COLOR, NATIONAL ORIGIN, OR SEX PROHIBITED

Pub. L. 93–153, title IV, §403, Nov. 16, 1973, 87 Stat. 590, provided that: “The Secretary of the Interior shall take such affirmative action as he deems necessary to assure that no person shall, on the grounds of race, creed, color, national origin, or sex, be excluded from receiving, or participating in any activity conducted under, any permit, right-of-way, public land order, or other Federal authorization granted or issued under title II [this chapter]. The Secretary of the Interior shall promulgate such rules as he deems necessary to carry out the purposes of this subsection and may enforce this subsection, and any rules promulgated under this subsection, through agency and department provisions and rules which shall be similar to those established and in effect under title VI of the Civil Rights Act of 1964 [section 2000d et seq. of Title 42, The Public Health and Welfare].”

EQUITABLE ALLOCATION OF NORTH SLOPE CRUDE OIL

Pub. L. 93–153, title IV, §410, Nov. 16, 1973, 87 Stat. 594, provided that: “The Congress declares that the crude oil on the North Slope of Alaska is an important part of the Nation's oil resources, and that the benefits of such crude oil should be equitably shared, directly or indirectly, by all regions of the country. The President shall use any authority he may have to insure an equitable allocation of available North Slope and other crude oil resources and petroleum products among all regions and all of the several States.”

§1652. Authorizations for construction

(a) Congressional declaration of purpose

The purpose of this chapter is to insure that, because of the extensive governmental studies already made of this project and the national interest in early delivery of North Slope oil to domestic markets, the trans-Alaska oil pipeline be constructed promptly without further administrative or judicial delay or impediment. To accomplish this purpose it is the intent of the Congress to exercise its constitutional powers to the fullest extent in the authorizations and directions herein made and in limiting judicial review of the actions taken pursuant thereto.

(b) Issuance, administration, and enforcement of rights-of-way, permits, leases, and other authorizations

The Congress hereby authorizes and directs the Secretary of the Interior and other appropriate Federal officers and agencies to issue and take all necessary action to administer and enforce rights-of-way, permits, leases, and other authorizations that are necessary for or related to the construction, operation, and maintenance of the trans-Alaska oil pipeline system, including roads and airstrips, as that system is generally described in the Final Environmental Impact Statement issued by the Department of the Interior on March 20, 1972. The route of the pipeline may be modified by the Secretary to provide during construction greater environmental protection.

(c) Applicability of statutes governing rights-of-way for pipelines through Federal lands; other statutory terms and conditions; waiver of procedural requirements; supersedure of administrative authorizations for construction

Rights-of-way, permits, leases, and other authorizations issued pursuant to this chapter by the Secretary shall be subject to the provisions of section 185 of title 30, as amended by Pub. L. 93–153 (except the provisions of subsections (h)(1), (k), (q), (w)(2), and (x)); all authorizations issued by the Secretary and other Federal officers and agencies pursuant to this chapter shall include the terms and conditions required, and may include the terms and conditions permitted, by the provisions of law that would otherwise be applicable if this chapter had not been enacted, and they may waive any procedural requirements of law or regulation which they deem desirable to waive in order to accomplish the purposes of this chapter. The direction contained in subsection (b) of this section shall supersede the provisions of any law or regulation relating to an administrative determination as to whether the authorizations for construction of the trans-Alaska oil pipeline shall be issued.

(d) National Environmental Policy Act of 1969 bypassed; issuance of authorizations for construction and operation not to be subject to judicial review; time limits on charges of invalidity or unconstitutionality; jurisdiction; hearings; review

The actions taken pursuant to this chapter which relate to the construction and completion of the pipeline system, and to the applications filed in connection therewith necessary to the pipeline's operation at full capacity, as described in the Final Environmental Impact Statement of the Department of the Interior, shall be taken without further action under the National Environmental Policy Act of 1969 [42 U.S.C. 4321 et seq.]; and the actions of the Federal officers concerning the issuance of the necessary rights-of-way, permits, leases, and other authorizations for construction and initial operation at full capacity of said pipeline system shall not be subject to judicial review under any law except that claims alleging the invalidity of this section may be brought within sixty days following November 16, 1973, and claims alleging that an action will deny rights under the Constitution of the United States, or that the action is beyond the scope of authority conferred by this chapter, may be brought within sixty days following the date of such action. A claim shall be barred unless a complaint is filed within the time specified. Any such complaint shall be filed in a United States district court, and such court shall have exclusive jurisdiction to determine such proceeding in accordance with the procedures hereinafter provided, and no other court of the United States, of any State, territory, or possession of the United States, or of the District of Columbia, shall have jurisdiction of any such claim whether in a proceeding instituted prior to or on or after November 16, 1973. Such court shall not have jurisdiction to grant any injunctive relief against the issuance of any right-of-way, permit, lease, or other authorization pursuant to this section except in conjunction with a final judgment entered in a case involving a claim filed pursuant to this section. An interlocutory or final judgment, decree, or order of such district court may be reviewed only upon petition for a writ of certiorari to the Supreme Court of the United States.

(e) Amendment or modification of rights-of-way, permits, leases, or other authorizations

The Secretary of the Interior and the other Federal officers and agencies are authorized at any time when necessary to protect the public interest, pursuant to the authority of this section and in accordance with its provisions, to amend or modify any right-of-way, permit, lease, or other authorization issued under this chapter.

(a) Activities along or in vicinity of pipeline right-of-way; strict liability; limitation on liability; subrogation; emergency subsistence and other aid; exemption for State of Alaska

(1) Except when the holder of the pipeline right-of-way granted pursuant to this chapter can prove that damages in connection with or resulting from activities along or in the vicinity of the proposed trans-Alaskan pipeline right-of-way were caused solely by an act of war or negligence of the United States, other government entity, or the damaged party, such holder shall be strictly liable to all damaged parties, public or private, without regard to fault for such damages, and without regard to ownership of any affected lands, structures, fish, wildlife, or biotic or other natural resources relied upon by Alaska Natives, Native organizations, or others for subsistence or economic purposes. Claims for such injury or damages may be determined by arbitration or judicial proceedings.

(2) Liability under paragraph (1) of this subsection shall be limited to \$350,000,000 for any one incident, and the holders of the right-of-way or permit shall be liable for any claim allowed in proportion to their ownership interest in the right-of-way or permit. (b) Control and removal of pollutants at expense of right-of-way holder

If any area in the State of Alaska within or without the right-of-way or permit area granted under this chapter is polluted by any activities related to the Trans-Alaska Pipeline System, including operation of the terminal, conducted by or on behalf of the holder to whom such right-of-way or permit was granted, and such pollution damages or threatens to damage aquatic life, wildlife, or public or private property, the control and total removal of the pollutant shall be at the expense of such holder, including any administrative and other costs incurred by the Secretary or any other Federal or State officer or agency. Upon failure of such holder to adequately control and remove such pollutant, the Secretary, in cooperation with other Federal, State, or local agencies, or in

cooperation with such holder, or both, shall have the right to accomplish the control and removal at the expense of such holder.

- (2) during transportation through the trans-Alaska pipeline or handling at the terminal facilities, that causes damage to, or threatens to damage, natural resources or public or private property.

(b) Persons liable

In addition to the person causing or permitting the discharge, the owner or owners of the oil at the time the discharge occurs shall be jointly, severally, and strictly liable for the full amount of penalties assessed pursuant to this section, except that the United States and the several States, and political subdivisions thereof, shall not be liable under this section.

 - (2) Nothing in this section shall affect or modify in any way the obligations or liabilities of any person under other Federal or State law, including common law, with respect to discharges of oil.

(a) The Congress declares that it is the policy of the United States that—

(1) the public lands be retained in Federal ownership, unless as a result of the land use planning procedure provided for in this Act, it is determined that disposal of a particular parcel will serve the national interest;

(2) the national interest will be best realized if the public lands and their resources are periodically and systematically inventoried and their present and future use is projected through a land use planning process coordinated with other Federal and State planning efforts;

(3) public lands not previously designated for any specific use and all existing classifications of public lands that were effected by executive action or statute before October 21, 1976, be reviewed in accordance with the provisions of this Act;

(4) the Congress exercise its constitutional authority to withdraw or otherwise designate or dedicate Federal lands for specified purposes and that Congress delineate the extent to which the Executive may withdraw lands without legislative action;

(5) in administering public land statutes and exercising discretionary authority granted by them, the Secretary be required to establish comprehensive rules and regulations after considering the views of the general public; and to structure adjudication procedures to assure adequate third party participation, objective administrative review of initial decisions, and expeditious decisionmaking;

- (6) judicial review of public land adjudication decisions be provided by law;
- (7) goals and objectives be established by law as guidelines for public land use planning, and that management be on the basis of multiple use and sustained yield unless otherwise specified by law;
- (8) the public lands be managed in a manner that will protect the quality of scientific, scenic, historical, ecological, environmental, air and atmospheric, water resource, and archeological values; that, where appropriate, will preserve and protect certain public lands in their natural condition; that will provide food and habitat for fish and wildlife and domestic animals; and that will provide for outdoor recreation and human occupancy and use;
- (9) the United States receive fair market value of the use of the public lands and their resources unless otherwise provided for by statute;
- (10) uniform procedures for any disposal of public land, acquisition of non-Federal land for public purposes, and the exchange of such lands be established by statute, requiring each disposal, acquisition, and exchange to be consistent with the prescribed mission of the department or agency involved, and reserving to the Congress review of disposals in excess of a specified acreage;
- (11) regulations and plans for the protection of public land areas of critical environmental concern be promptly developed;
- (12) the public lands be managed in a manner which recognizes the Nation's need for domestic sources of minerals, food, timber, and fiber from the public lands including implementation of the Mining and Minerals Policy Act of 1970 (84 Stat. 1876, 30 U.S.C. 21a) as it pertains to the public lands; and
- (13) the Federal Government should, on a basis equitable to both the Federal and local taxpayer, provide for payments to compensate States and local governments for burdens created as a result of the immunity of Federal lands from State and local taxation.

(b) The policies of this Act shall become effective only as specific statutory authority for their implementation is enacted by this Act or by subsequent legislation and shall then be construed as supplemental to and not in derogation of the purposes for which public lands are administered under other provisions of law.

(a) The term “areas of critical environmental concern” means areas within the public lands where special management attention is required (when such areas are developed or used or where no development is required) to protect and prevent irreparable damage to important historic, cultural, or scenic values, fish and wildlife resources or other natural systems or processes, or to protect life and safety from natural hazards.

(k) An “allotment management plan” means a document prepared in consultation with the lessees or permittees involved, which applies to livestock operations on the public lands or on lands within National Forests in the eleven contiguous Western States and which:

- (1) prescribes the manner in, and extent to, which livestock operations will be conducted in order to meet the multiple-use, sustained-yield, economic and other needs and objectives as determined for the lands by the Secretary concerned; and
- (2) describes the type, location, ownership, and general specifications for the range improvements to be installed and maintained on the lands to meet the livestock grazing and other

objectives of land management; and

SUBCHAPTER II—LAND USE PLANNING AND LAND ACQUISITION AND DISPOSITION

§1711. Continuing inventory and identification of public lands; preparation and maintenance

(a) The Secretary shall prepare and maintain on a continuing basis an inventory of all public lands and their resource and other values (including, but not limited to, outdoor recreation and scenic values), giving priority to areas of critical environmental concern. This inventory shall be kept current so as to reflect changes in conditions and to identify new and emerging resource and other values. The preparation and maintenance of such inventory or the identification of such areas shall not, of itself, change or prevent change of the management or use of public lands.

(b) As funds and manpower are made available, the Secretary shall ascertain the boundaries of the public lands; provide means of public identification thereof including, where appropriate, signs and maps; and provide State and local governments with data from the inventory for the purpose of planning and regulating the uses of non-Federal lands in proximity of such public lands.

(Pub. L. 94–579, title II, §201, Oct. 21, 1976, 90 Stat. 2747.)

§1712. Land use plans

(a) Development, maintenance, and revision by Secretary

The Secretary shall, with public involvement and consistent with the terms and conditions of this Act, develop, maintain, and, when appropriate, revise land use plans which provide by tracts or areas for the use of the public lands. Land use plans shall be developed for the public lands regardless of whether such lands previously have been classified, withdrawn, set aside, or otherwise designated for one or more uses.

(b) Coordination of plans for National Forest System lands with Indian land use planning and management programs for purposes of development and revision

In the development and revision of land use plans, the Secretary of Agriculture shall coordinate land use plans for lands in the National Forest System with the land use planning and management programs of and for Indian tribes by, among other things, considering the policies of approved tribal land resource management programs.

(c) Criteria for development and revision

In the development and revision of land use plans, the Secretary shall—

(1) use and observe the principles of multiple use and sustained yield set forth in this and other applicable law;

(2) use a systematic interdisciplinary approach to achieve integrated consideration of physical, biological, economic, and other sciences;

(3) give priority to the designation and protection of areas of critical environmental concern;

(4) rely, to the extent it is available, on the inventory of the public lands, their resources, and other values;

(5) consider present and potential uses of the public lands;

(6) consider the relative scarcity of the values involved and the availability of alternative means (including recycling) and sites for realization of those values;

(7) weigh long-term benefits to the public against short-term benefits;

(8) provide for compliance with applicable pollution control laws, including State and Federal air, water, noise, or other pollution standards or implementation plans; and

(9) to the extent consistent with the laws governing the administration of the public lands, coordinate the land use inventory, planning, and management activities of or for such lands with the land use planning and management programs of other Federal departments and agencies and of the States and local governments within which the lands are located, including, but not limited to, the statewide outdoor recreation plans developed under the Act of September 3, 1964 (78 Stat. 897), as amended [16 U.S.C. 460l–4 et seq.], and of or for Indian tribes by, among other things, considering the policies of approved State and tribal land resource management programs. In implementing this directive, the Secretary shall, to the extent he finds practical, keep apprised of State, local, and tribal land use plans; assure that consideration is given to those State, local, and tribal plans that are germane in the development of land use plans for public lands; assist in resolving, to the extent practical, inconsistencies between Federal and non-Federal Government plans, and shall provide for meaningful public involvement of State and local government officials, both elected and appointed, in the development of land use programs, land use regulations, and land use decisions for public lands, including early public notice of proposed decisions which may have a significant impact on non-Federal lands. Such officials in each State are authorized to furnish advice to the Secretary with respect to the development and revision of land use plans, land use guidelines, land use rules, and land use regulations for the public lands within such State and with respect to such other land use matters as may be referred to them by him. Land use plans of the Secretary under this section shall be consistent with State and local plans to the maximum extent he finds consistent with Federal law and the purposes of this Act.

(d) Review and inclusion of classified public lands; review of existing land use plans; modification and termination of classifications

Any classification of public lands or any land use plan in effect on October 21, 1976, is subject to review in the land use planning process conducted under this section, and all public lands, regardless of classification, are subject to inclusion in any land use plan developed pursuant to this section. The

Secretary may modify or terminate any such classification consistent with such land use plans.

(e) Management decisions for implementation of developed or revised plans

The Secretary may issue management decisions to implement land use plans developed or revised under this section in accordance with the following:

(1) Such decisions, including but not limited to exclusions (that is, total elimination) of one or more of the principal or major uses made by a management decision shall remain subject to reconsideration, modification, and termination through revision by the Secretary or his delegate, under the provisions of this section, of the land use plan involved.

(2) Any management decision or action pursuant to a management decision that excludes (that is, totally eliminates) one or more of the principal or major uses for two or more years with respect to a tract of land of one hundred thousand acres or more shall be reported by the Secretary to the House of Representatives and the Senate. If within ninety days from the giving of such notice (exclusive of days on which either House has adjourned for more than three consecutive days), the Congress adopts a concurrent resolution of nonapproval of the management decision or action, then the management decision or action shall be promptly terminated by the Secretary. If the committee to which a resolution has been referred during the said ninety day period, has not reported it at the end of thirty calendar days after its referral, it shall be in order to either discharge the committee from further consideration of such resolution or to discharge the committee from consideration of any other resolution with respect to the management decision or action. A motion to discharge may be made only by an individual favoring the resolution, shall be highly privileged (except that it may not be made after the committee has reported such a resolution), and debate thereon shall be limited to not more than one hour, to be divided equally between those favoring and those opposing the resolution. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to. If the motion to discharge is agreed to or disagreed to, the motion may not be made with respect to any other resolution with respect to the same management decision or action. When the committee has reprinted, or has been discharged from further consideration of a resolution, it shall at any time thereafter be in order (even though a previous motion to the same effect has been disagreed to) to move to proceed to the consideration of the resolution. The motion shall be highly privileged and shall not be debatable. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.

(3) Withdrawals made pursuant to section 1714 of this title may be used in carrying out management decisions, but public lands shall be removed from or restored to the operation of the Mining Law of 1872, as amended (R.S. 2318–2352; 30 U.S.C. 21 et seq.) or transferred to another department, bureau, or agency only by withdrawal action pursuant to section 1714 of this title or other action pursuant to applicable law: *Provided*, That nothing in this section shall prevent a wholly owned Government corporation from acquiring and holding rights as a citizen under the Mining Law of 1872.

(f) Procedures applicable to formulation of plans and programs for public land management

The Secretary shall allow an opportunity for public involvement and by regulation shall establish procedures, including public hearings where appropriate, to give Federal, State, and local governments and the public, adequate notice and opportunity to comment upon and participate in the formulation of plans and programs relating to the management of the public lands.

§1713. Sales of public land tracts

(a) Criteria for disposal; excepted lands

A tract of the public lands (except land in units of the National Wilderness Preservation System, National Wild and Scenic Rivers Systems, and National System of Trails) may be sold under this Act where, as a result of land use planning required under section 1712 of this title, the Secretary determines that the sale of such tract meets the following disposal criteria:

- (1) such tract because of its location or other characteristics is difficult and uneconomic to manage as part of the public lands, and is not suitable for management by another Federal department or agency; or
- (2) such tract was acquired for a specific purpose and the tract is no longer required for that or any other Federal purpose; or
- (3) disposal of such tract will serve important public objectives, including but not limited to, expansion of communities and economic development, which cannot be achieved prudently or feasibly on land other than public land and which outweigh other public objectives and values, including, but not limited to, recreation and scenic values, which would be served by maintaining such tract in Federal ownership.

(b) Conveyance of land of agricultural value and desert in character

Where the Secretary determines that land to be conveyed under clause (3) of subsection (a) of this section is of agricultural value and is desert in character, such land shall be conveyed either under the sale authority of this section or in accordance with other existing law.

(c) Congressional approval procedures applicable to tracts in excess of two thousand five hundred acres

Where a tract of the public lands in excess of two thousand five hundred acres has been designated for sale, such sale may be made only after the end of the ninety days (not counting days on which the House of Representatives or the Senate has adjourned for more than three consecutive days) beginning on the day the Secretary has submitted notice of such designation to the Senate and the House of Representatives, and then only if the Congress has not adopted a concurrent resolution stating that such House does not approve of such designation. If the committee to which a resolution has been referred during the said ninety day period, has not reported it at the end of thirty calendar days after its referral, it shall be in order to either discharge the committee from further consideration of such resolution or to discharge the committee from consideration of any other resolution with respect to the designation. A motion to discharge may be made only by an individual favoring the resolution, shall be highly privileged (except that it may not be made after the committee has reported such a resolution), and debate thereon shall be limited to not more than one hour, to be divided equally between those favoring and those opposing the resolution. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to. If the motion to discharge is agreed to or disagreed to, the motion may not be made with respect to any other resolution with respect to the same designation. When the committee has reprinted, or has been discharged from further consideration of a resolution, it shall at any time thereafter be in order (even though a previous motion to the same effect has been disagreed to) to move to proceed to the consideration of the resolution. The motion shall be highly privileged and shall not be debatable. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.

(d) Sale price

Sales of public lands shall be made at a price not less than their fair market value as determined by

the Secretary.

(e) Maximum size of tracts

The Secretary shall determine and establish the size of tracts of public lands to be sold on the basis of the land use capabilities and development requirements of the lands; and, where any such tract which is judged by the Secretary to be chiefly valuable for agriculture is sold, its size shall be no larger than necessary to support a family-sized farm.

(f) Competitive bidding requirements

Sales of public lands under this section shall be conducted under competitive bidding procedures to be established by the Secretary. However, where the Secretary determines it necessary and proper in order (1) to assure equitable distribution among purchasers of lands, or (2) to recognize equitable considerations or public policies, including but not limited to, a preference to users, he may sell those lands with modified competitive bidding or without competitive bidding. In recognizing public policies, the Secretary shall give consideration to the following potential purchasers:

- (1) the State in which the land is located;
- (2) the local government entities in such State which are in the vicinity of the land;
- (3) adjoining landowners;
- (4) individuals; and
- (5) any other person.

(g) Acceptance or rejection of offers to purchase

The Secretary shall accept or reject, in writing, any offer to purchase made through competitive bidding at his invitation no later than thirty days after the receipt of such offer or, in the case of a tract in excess of two thousand five hundred acres, at the end of thirty days after the end of the ninety-day period provided in subsection (c) of this section, whichever is later, unless the offeror waives his right to a decision within such thirty-day period. Prior to the expiration of such periods the Secretary may refuse to accept any offer or may withdraw any land or interest in land from sale under this section when he determines that consummation of the sale would not be consistent with this Act or other applicable law.

This Act, referred to in subsecs. (a) and (g), is Pub. L. 94-579, Oct. 21, 1976, 90 Stat. 2743, as amended, known as the Federal Land Policy and Management Act of 1976. For complete classification of this Act to the Code, see Tables.

§1714. Withdrawals of lands

(a) Authorization and limitation; delegation of authority

On and after the effective date of this Act the Secretary is authorized to make, modify, extend, or revoke withdrawals but only in accordance with the provisions and limitations of this section. The Secretary may delegate this withdrawal authority only to individuals in the Office of the Secretary who have been appointed by the President, by and with the advice and consent of the Senate.

(b) Application and procedures applicable subsequent to submission of application

(1) Within thirty days of receipt of an application for withdrawal, and whenever he proposes a withdrawal on his own motion, the Secretary shall publish a notice in the Federal Register stating that the application has been submitted for filing or the proposal has been made and the extent to which the land is to be segregated while the application is being considered by the Secretary. Upon publication of such notice the land shall be segregated from the operation of the public land laws to the extent specified in the notice. The segregative effect of the application shall terminate upon (a) rejection of the application by the Secretary, (b) withdrawal of lands by the Secretary, or (c) the expiration of two years from the date of the notice.

(2) The publication provisions of this subsection are not applicable to withdrawals under subsection (e) hereof.

(c) Congressional approval procedures applicable to withdrawals aggregating five thousand acres or more

(1) On and after October 21, 1976, a withdrawal aggregating five thousand acres or more may be made (or such a withdrawal or any other withdrawal involving in the aggregate five thousand acres or more which terminates after such date of approval may be extended) only for a period of not more than twenty years by the Secretary on his own motion or upon request by a department or agency head. The Secretary shall notify both Houses of Congress of such a withdrawal no later than its effective date and the withdrawal shall terminate and become ineffective at the end of ninety days (not counting days on which the Senate or the House of Representatives has adjourned for more than three consecutive days) beginning on the day notice of such withdrawal has been submitted to the Senate and the House of Representatives, if the Congress has adopted a concurrent resolution stating that such House does not approve the withdrawal. If the committee to which a resolution has been referred during the said ninety day period, has not reported it at the end of thirty calendar days after its referral, it shall be in order to either discharge the committee from further consideration of such resolution or to discharge the committee from consideration of any other resolution with respect to the Presidential recommendation. A motion to discharge may be made only by an individual favoring the resolution, shall be highly privileged (except that it may not be made after the committee has reported such a resolution), and debate thereon shall be limited to not more than one hour, to be divided equally between those favoring and those opposing the resolution. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to. If the motion to discharge is agreed to or disagreed to, the motion may not be made with respect to any other resolution with respect to the same Presidential recommendation. When the committee has reprinted, or has been discharged from further consideration of a resolution, it shall at any time thereafter be in order (even though a previous motion to the same effect has been disagreed to) to move to proceed to the consideration of the resolution. The motion shall be highly privileged and shall not be debatable. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.

(2) With the notices required by subsection (c)(1) of this section and within three months after filing the notice under subsection (e) of this section, the Secretary shall furnish to the committees—

(1) a clear explanation of the proposed use of the land involved which led to the withdrawal;

(2) an inventory and evaluation of the current natural resource uses and values of the site and adjacent public and nonpublic land and how it appears they will be affected by the proposed use, including particularly aspects of use that might cause degradation of the environment, and also the economic impact of the change in use on individuals, local communities, and the Nation;

(3) an identification of present users of the land involved, and how they will be affected by the proposed use;

(4) an analysis of the manner in which existing and potential resource uses are incompatible with or in conflict with the proposed use, together with a statement of the provisions to be made for continuation or termination of existing uses, including an economic analysis of such continuation or termination;

(5) an analysis of the manner in which such lands will be used in relation to the specific requirements for the proposed use;

(6) a statement as to whether any suitable alternative sites are available (including cost estimates) for the proposed use or for uses such a withdrawal would displace;

(7) a statement of the consultation which has been or will be had with other Federal departments and agencies, with regional, State, and local government bodies, and with other appropriate individuals and groups;

(8) a statement indicating the effect of the proposed uses, if any, on State and local government interests and the regional economy;

(9) a statement of the expected length of time needed for the withdrawal;

(10) the time and place of hearings and of other public involvement concerning such withdrawal;

(11) the place where the records on the withdrawal can be examined by interested parties; and

(12) a report prepared by a qualified mining engineer, engineering geologist, or geologist which shall include but not be limited to information on: general geology, known mineral deposits, past and present mineral production, mining claims, mineral leases, evaluation of future mineral potential, present and potential market demands.

(d) Withdrawals aggregating less than five thousand acres; procedure applicable

A withdrawal aggregating less than five thousand acres may be made under this subsection by the Secretary on his own motion or upon request by a department or an agency head—

(1) for such period of time as he deems desirable for a resource use; or

(2) for a period of not more than twenty years for any other use, including but not limited to use for administrative sites, location of facilities, and other proprietary purposes; or

(3) for a period of not more than five years to preserve such tract for a specific use then under consideration by the Congress.

(e) Emergency withdrawals; procedure applicable; duration

When the Secretary determines, or when the Committee on Natural Resources of the House of Representatives or the Committee on Energy and Natural Resources of the Senate notifies the Secretary, that an emergency situation exists and that extraordinary measures must be taken to preserve values that would otherwise be lost, the Secretary notwithstanding the provisions of subsections (c)(1) and (d) of this section, shall immediately make a withdrawal and file notice of such emergency withdrawal with both of those Committees. Such emergency withdrawal shall be effective when made but shall last only for a period not to exceed three years and may not be extended except under the provisions of subsection (c)(1) or (d), whichever is applicable, and (b)(1) of this section. The information required in subsection (c)(2) of this subsection shall be furnished the committees within three months after filing such notice.

(f) Review of existing withdrawals and extensions; procedure applicable to extensions; duration

All withdrawals and extensions thereof, whether made prior to or after October 21, 1976, having a specific period shall be reviewed by the Secretary toward the end of the withdrawal period and may be extended or further extended only upon compliance with the provisions of subsection (c)(1) or (d) of this section, whichever is applicable, and only if the Secretary determines that the purpose for which the withdrawal was first made requires the extension, and then only for a period no longer than the length of the original withdrawal period. The Secretary shall report on such review and extensions to the Committee on Natural Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate.

(g) Processing and adjudication of existing applications

All applications for withdrawal pending on October 21, 1976 shall be processed and adjudicated to conclusion within fifteen years of October 21, 1976, in accordance with the provisions of this section. The segregative effect of any application not so processed shall terminate on that date.

(h) Public hearing required for new withdrawals

All new withdrawals made by the Secretary under this section (except an emergency withdrawal made under subsection (e) of this section) shall be promulgated after an opportunity for a public hearing.

(i) Consent for withdrawal of lands under administration of department or agency other than Department of the Interior

In the case of lands under the administration of any department or agency other than the Department of the Interior, the Secretary shall make, modify, and revoke withdrawals only with the consent of the head of the department or agency concerned, except when the provisions of subsection (e) of this section apply.

(j) Applicability of other Federal laws withdrawing lands as limiting authority

The Secretary shall not make, modify, or revoke any withdrawal created by Act of Congress; make a withdrawal which can be made only by Act of Congress; modify or revoke any withdrawal creating national monuments under the Act of June 8, 1906 (34 Stat. 225; 16 U.S.C. 431–433); or modify, or revoke any withdrawal which added lands to the National Wildlife Refuge System prior to October 21, 1976, or which thereafter adds lands to that System under the terms of this Act. Nothing in this Act is intended to modify or change any provision of the Act of February 27, 1976 (90 Stat. 199; 16 U.S.C. 668dd(a)).

(k) Authorization of appropriations for processing applications

There is hereby authorized to be appropriated the sum of \$10,000,000 for the purpose of processing withdrawal applications pending on the effective date of this Act, to be available until expended.

(l) Review of existing withdrawals in certain States; procedure applicable for determination of future status of lands; authorization of appropriations

(1) The Secretary shall, within fifteen years of October 21, 1976, review withdrawals existing on October 21, 1976, in the States of Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming of (1) all Federal lands other than withdrawals of the public lands administered by the Bureau of Land Management and of lands which, on October 21, 1976, were part of Indian reservations and other Indian holdings, the National Forest System, the National Park System, the National Wildlife Refuge System, other lands administered by the Fish and Wildlife Service or the Secretary through the Fish and Wildlife Service, the National Wild and Scenic Rivers System, and the National System of Trails; and (2) all public lands administered by the Bureau of Land Management and of lands in the National Forest System (except those in wilderness areas, and those areas formally identified as primitive or natural areas or designated as national recreation areas) which closed the lands to appropriation under the Mining Law of 1872 (17 Stat. 91, as amended; 30 U.S.C. 22 et seq.) or to leasing under the Mineral Leasing Act of 1920 (41 Stat. 437, as amended; 30 U.S.C. 181 et seq.).

(2) In the review required by paragraph (1) of this subsection, the Secretary shall determine whether, and for how long, the continuation of the existing withdrawal of the lands would be, in his judgment, consistent with the statutory objectives of the programs for which the lands were dedicated and of the other relevant programs. The Secretary shall report his recommendations to the President, together with statements of concurrence or nonconcurrence submitted by the heads of the departments or agencies which administer the lands. The President shall transmit this report to the President of the Senate and the Speaker of the House of Representatives, together with his recommendations for action by the Secretary, or for legislation. The Secretary may act to terminate withdrawals other than those made by Act of the Congress in accordance with the recommendations of the President unless before the end of ninety days (not counting days on which the Senate and the House of Representatives has adjourned for more than three consecutive days) beginning on the day the report of the President has been submitted to the Senate and the House of Representatives the Congress has adopted a concurrent resolution indicating otherwise. If the committee to which a resolution has been referred during the said ninety day period, has not reported it at the end of thirty calendar days after its referral, it shall be in order to either discharge the committee from further consideration of such resolution or to discharge the committee from consideration of any other resolution with respect to the Presidential recommendation. A motion to discharge may be made only by an individual favoring the resolution, shall be highly privileged (except that it may not be made after the committee has reported such a resolution), and debate thereon shall be limited to not more than one hour, to be divided equally between those favoring and those opposing the resolution. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to. If the motion to discharge is agreed to or disagreed to, the motion may not be made with respect to any other resolution with respect to the same Presidential recommendation. When the committee has reprinted, or has been discharged from further consideration of a resolution, it shall at any time thereafter be in order (even though a

previous motion to the same effect has been disagreed to) to move to proceed to the consideration of the resolution. The motion shall be highly privileged and shall not be debatable. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.

(3) There are hereby authorized to be appropriated not more than \$10,000,000 for the purpose of paragraph (1) of this subsection to be available until expended to the Secretary and to the heads of other departments and agencies which will be involved.

§1715. Acquisitions of public lands and access over non-Federal lands to National Forest System units

(a) Authorization and limitations on authority of Secretary of the Interior and Secretary of Agriculture

Notwithstanding any other provisions of law, the Secretary, with respect to the public lands and the Secretary of Agriculture, with respect to the acquisition of access over non-Federal lands to units of the National Forest System, are authorized to acquire pursuant to this Act by purchase, exchange, donation, or eminent domain, lands or interests therein: *Provided*, That with respect to the public lands, the Secretary may exercise the power of eminent domain only if necessary to secure access to public lands, and then only if the lands so acquired are confined to as narrow a corridor as is necessary to serve such purpose. Nothing in this subsection shall be construed as expanding or

limiting the authority of the Secretary of Agriculture to acquire land by eminent domain within the boundaries of units of the National Forest System.

(b) Conformity to departmental policies and land-use plan of acquisitions

Acquisitions pursuant to this section shall be consistent with the mission of the department involved and with applicable departmental land-use plans.

(c) Status of lands and interests in lands upon acquisition by Secretary of the Interior; transfers to Secretary of Agriculture of lands and interests in lands acquired within National Forest System boundaries

Except as provided in subsection (e) of this section, lands and interests in lands acquired by the Secretary pursuant to this section or section 1716 of this title shall, upon acceptance of title, become public lands, and, for the administration of public land laws not repealed by this Act, shall remain public lands. If such acquired lands or interests in lands are located within the exterior boundaries of a grazing district established pursuant to section 315 of this title, they shall become a part of that district. Lands and interests in lands acquired pursuant to this section which are within boundaries of the National Forest System may be transferred to the Secretary of Agriculture and shall then become National Forest System lands and subject to all the laws, rules, and regulations applicable thereto.

(d) Status of lands and interests in lands upon acquisition by Secretary of Agriculture

Lands and interests in lands acquired by the Secretary of Agriculture pursuant to this section shall, upon acceptance of title, become National Forest System lands subject to all the laws, rules, and regulations applicable thereto.

(e) Status and administration of lands acquired in exchange for lands revested in or reconveyed to United States

Lands acquired by the Secretary pursuant to this section or section 1716 of this title in exchange for lands which were revested in the United States pursuant to the provisions of the Act of June 9, 1916 (39 Stat. 218) or reconveyed to the United States pursuant to the provisions of the Act of February 26, 1919 (40 Stat. 1179), shall be considered for all purposes to have the same status as, and shall be administered in accordance with the same provisions of law applicable to, the revested or reconveyed lands exchanged for the lands acquired by the Secretary.

AMENDMENTS

1986—Subsec. (c). Pub. L. 99–632, §5(1), inserted exception relating to subsec. (e).

Subsec. (e). Pub. L. 99–632, §5(2), added subsec. (e).

§1716. Exchanges of public lands or interests therein within the National Forest System

(a) Authorization and limitations on authority of Secretary of the Interior and Secretary of Agriculture

A tract of public land or interests therein may be disposed of by exchange by the Secretary under this Act and a tract of land or interests therein within the National Forest System may be disposed of by exchange by the Secretary of Agriculture under applicable law where the Secretary concerned

determines that the public interest will be well served by making that exchange: *Provided*, That when considering public interest the Secretary concerned shall give full consideration to better Federal land management and the needs of State and local people, including needs for lands for the economy, community expansion, recreation areas, food, fiber, minerals, and fish and wildlife and the Secretary concerned finds that the values and the objectives which Federal lands or interests to be conveyed may serve if retained in Federal ownership are not more than the values of the non-Federal lands or interests and the public objectives they could serve if acquired.

(b) Implementation requirements; cash equalization waiver

In exercising the exchange authority granted by subsection (a) of this section or by section 1715(a) of this title, the Secretary concerned may accept title to any non-Federal land or interests therein in exchange for such land, or interests therein which he finds proper for transfer out of Federal ownership and which are located in the same State as the non-Federal land or interest to be acquired. For the purposes of this subsection, unsurveyed school sections which, upon survey by the Secretary, would become State lands, shall be considered as "non-Federal lands". The values of the lands exchanged by the Secretary under this Act and by the Secretary of Agriculture under applicable law relating to lands within the National Forest System either shall be equal, or if they are not equal, the values shall be equalized by the payment of money to the grantor or to the Secretary concerned as the circumstances require so long as payment does not exceed 25 per centum of the total value of the lands or interests transferred out of Federal ownership. The Secretary concerned and the other party or parties involved in the exchange may mutually agree to waive the requirement for the payment of money to equalize values where the Secretary concerned determines that the exchange will be expedited thereby and that the public interest will be better served by such a waiver of cash equalization payments and where the amount to be waived is no more than 3 per centum of the value of the lands being transferred out of Federal ownership or \$15,000, whichever is less, except that the Secretary of Agriculture shall not agree to waive any such requirement for payment of money to the United States. The Secretary concerned shall try to reduce the amount of the payment of money to as small an amount as possible.

(c) Status of lands acquired upon exchange by Secretary of the Interior

Lands acquired by the Secretary by exchange under this section which are within the boundaries of any unit of the National Forest System, National Park System, National Wildlife Refuge System, National Wild and Scenic Rivers System, National Trails System, National Wilderness Preservation System, or any other system established by Act of Congress, or the boundaries of the California Desert Conservation Area, or the boundaries of any national conservation area or national recreation area established by Act of Congress, upon acceptance of title by the United States shall immediately be reserved for and become a part of the unit or area within which they are located, without further action by the Secretary, and shall thereafter be managed in accordance with all laws, rules, and regulations applicable to such unit or area.

(d) Appraisal of land; submission to arbitrator; determination to proceed or withdraw from exchange; use of other valuation process; suspension of deadlines

(1) No later than ninety days after entering into an agreement to initiate an exchange of land or interests therein pursuant to this Act or other applicable law, the Secretary concerned and other party or parties involved in the exchange shall arrange for appraisal (to be completed within a time frame and under such terms as are negotiated by the parties) of the lands or interests therein involved in the exchange in accordance with subsection (f) of this section.

(2) If within one hundred and eighty days after the submission of an appraisal or appraisals for review and approval by the Secretary concerned, the Secretary concerned and the other party or parties involved cannot agree to accept the findings of an appraisal or appraisals, the appraisal or appraisals shall be submitted to an arbitrator appointed by the Secretary from a list of arbitrators submitted to him by the American Arbitration Association for arbitration to be conducted in accordance with the real estate valuation arbitration rules of the American Arbitration Association. Such arbitration shall be binding for a period of not to exceed two years on the Secretary concerned

and the other party or parties involved in the exchange insofar as concerns the value of the lands which were the subject of the appraisal or appraisals.

(3) Within thirty days after the completion of the arbitration, the Secretary concerned and the other party or parties involved in the exchange shall determine whether to proceed with the exchange, modify the exchange to reflect the findings of the arbitration or any other factors, or to withdraw from the exchange. A decision to withdraw from the exchange may be made by either the Secretary concerned or the other party or parties involved.

(4) Instead of submitting the appraisal to an arbitrator, as provided in paragraph (2) of this section, the Secretary concerned and the other party or parties involved in an exchange may mutually agree to employ a process of bargaining or some other process to determine the values of the properties involved in the exchange.

(5) The Secretary concerned and the other party or parties involved in an exchange may mutually agree to suspend or modify any of the deadlines contained in this subsection.

(e) Simultaneous issue of patents or titles

Unless mutually agreed otherwise by the Secretary concerned and the other party or parties involved in an exchange pursuant to this Act or other applicable law, all patents or titles to be issued for land or interests therein to be acquired by the Federal Government and lands or interest therein to be transferred out of Federal ownership shall be issued simultaneously after the Secretary concerned has taken any necessary steps to assure that the United States will receive acceptable title.

(f) New rules and regulations; appraisal rules and regulations; “costs and other responsibilities or requirements” defined

(1) Within one year after August 20, 1988, the Secretaries of the Interior and Agriculture shall promulgate new and comprehensive rules and regulations governing exchanges of land and interests therein pursuant to this Act and other applicable law. Such rules and regulations shall fully reflect the changes in law made by subsections (d) through (i) of this section and shall include provisions pertaining to appraisals of lands and interests therein involved in such exchanges.

(2) The provisions of the rules and regulations issued pursuant to paragraph (1) of this subsection governing appraisals shall reflect nationally recognized appraisal standards, including, to the extent appropriate, the Uniform Appraisal Standards for Federal Land Acquisitions: *Provided, however*, That the provisions of such rules and regulations shall—

(A) ensure that the same nationally approved appraisal standards are used in appraising lands or interest therein being acquired by the Federal Government and appraising lands or interests therein being transferred out of Federal ownership; and

(B) with respect to costs or other responsibilities or requirements associated with land exchanges—

(i) recognize that the parties involved in an exchange may mutually agree that one party (or parties) will assume, without compensation, all or part of certain costs or other responsibilities or requirements ordinarily borne by the other party or parties; and

(ii) also permit the Secretary concerned, where such Secretary determines it is in the public interest and it is in the best interest of consummating an exchange pursuant to this Act or other applicable law, and upon mutual agreement of the parties, to make adjustments to the relative values involved in an exchange transaction in order to compensate a party or parties to the exchange for assuming costs or other responsibilities or requirements which would ordinarily be borne by the other party or parties.

As used in this subparagraph, the term “costs or other responsibilities or requirements” shall include, but not be limited to, costs or other requirements associated with land surveys and appraisals, mineral examinations, title searches, archeological surveys and salvage, removal of encumbrances, arbitration pursuant to subsection (d) of this section, curing deficiencies preventing highest and best use, and other costs to comply with laws, regulations and policies applicable to exchange transactions, or which are necessary to bring the Federal or non-Federal lands or interests involved in the exchange to their highest and best use for the appraisal and exchange purposes. Prior

to making any adjustments pursuant to this subparagraph, the Secretary concerned shall be satisfied that the amount of such adjustment is reasonable and accurately reflects the approximate value of any costs or services provided or any responsibilities or requirements assumed.

(g) Exchanges to proceed under existing laws and regulations pending new rules and regulations

Until such time as new and comprehensive rules and regulations governing exchange of land and interests therein are promulgated pursuant to subsection (f) of this section, land exchanges may proceed in accordance with existing laws and regulations, and nothing in the Act shall be construed to require any delay in, or otherwise hinder, the processing and consummation of land exchanges pending the promulgation of such new and comprehensive rules and regulations. Where the Secretary concerned and the party or parties involved in an exchange have agreed to initiate an exchange of land or interests therein prior to the day of enactment of such subsections, subsections (d) through (i) of this section shall not apply to such exchanges unless the Secretary concerned and the party or parties involved in the exchange mutually agree otherwise.

(h) Exchange of lands or interests of approximately equal value; conditions; “approximately equal value” defined

(1) Notwithstanding the provisions of this Act and other applicable laws which require that exchanges of land or interests therein be for equal value, where the Secretary concerned determines it is in the public interest and that the consummation of a particular exchange will be expedited thereby, the Secretary concerned may exchange lands or interests therein which are of approximately equal value in cases where—

(A) the combined value of the lands or interests therein to be transferred from Federal ownership by the Secretary concerned in such exchange is not more than \$150,000; and

(B) the Secretary concerned finds in accordance with the regulations to be promulgated pursuant to subsection (f) of this section that a determination of approximately equal value can be made without formal appraisals, as based on a statement of value made by a qualified appraiser and approved by an authorized officer; and

(C) the definition of and procedure for determining “approximately equal value” has been set forth in regulations by the Secretary concerned and the Secretary concerned documents how such determination was made in the case of the particular exchange involved.

(2) As used in this subsection, the term “approximately equal value” shall have the same meaning with respect to lands managed by the Secretary of Agriculture as it does in the Act of January 22, 1983 (commonly known as the “Small Tracts Act”).

(i) Segregation from appropriation under mining and public land laws

(1) Upon receipt of an offer to exchange lands or interests in lands pursuant to this Act or other applicable laws, at the request of the head of the department or agency having jurisdiction over the lands involved, the Secretary of the Interior may temporarily segregate the Federal lands under consideration for exchange from appropriation under the mining laws. Such temporary segregation may only be made for a period of not to exceed five years. Upon a decision not to proceed with the exchange or upon deletion of any particular parcel from the exchange offer, the Federal lands involved or deleted shall be promptly restored to their former status under the mining laws. Any segregation pursuant to this paragraph shall be subject to valid existing rights as of the date of such segregation.

(2) All non-Federal lands which are acquired by the United States through exchange pursuant to this Act or pursuant to other law applicable to lands managed by the Secretary of Agriculture shall be automatically segregated from appropriation under the public land law, including the mining laws, for ninety days after acceptance of title by the United States. Such segregation shall be subject to valid existing rights as of the date of such acceptance of title. At the end of such ninety day period,

such segregation shall end and such lands shall be open to operation of the public land laws and to entry, location, and patent under the mining laws except to the extent otherwise provided by this Act or other applicable law, or appropriate actions pursuant thereto.

CONGRESSIONAL STATEMENT OF FINDINGS AND PURPOSES

Pub. L. 100–409, §2, Aug. 20, 1988, 102 Stat. 1086, provided that:

“(a) FINDINGS.—The Congress finds and declares that—

“(1) land exchanges are a very important tool for Federal and State land managers and private landowners to consolidate Federal, State, and private holdings of land or interests in land for purposes of more efficient management and to secure important objectives including the protection of fish and wildlife habitat and aesthetic values; the enhancement of recreation opportunities; the consolidation of mineral and timber holdings for more logical and efficient development; the expansion of communities; the promotion of multiple-use values; and fulfillment of public needs;

“(2) needs for land ownership adjustments and consolidation consistently outpace available funding for land purchases by the Federal Government and thereby make land exchanges an increasingly important method of land acquisition and consolidation for both Federal and State land managers and private landowners;

“(3) the Federal Land Policy and Management Act of 1976 [Pub. L. 94–579, see Short Title note set out under section 1701 of this title] and other laws provide a basic framework and authority for land exchanges involving lands under the jurisdiction of the Secretary of the Interior and the Secretary of Agriculture; and

“(4) such existing laws are in need of certain revisions to streamline and facilitate land exchange procedures and expedite exchanges.

“(b) PURPOSES.—The purposes of this Act [see Short Title of 1988 Amendment note set out under section 1701 of this title] are:

“(1) to facilitate and expedite land exchanges pursuant to the Federal Land Policy and Management Act of 1976 and other laws applicable to exchanges involving lands managed by the Departments of the Interior and Agriculture by—

“(A) providing more uniform rules and regulations pertaining to land appraisals which reflect nationally recognized appraisal standards; and

“(B) establishing procedures and guidelines for the resolution of appraisal disputes.[;]

“(2) to provide sufficient resources to the Secretaries of the Interior and Agriculture to ensure that land exchange activities can proceed consistent with the public interest; and

“(3) to require a study and report concerning improvements in the handling of certain information related to Federal and other lands.”

LAND EXCHANGE FUNDING AUTHORIZATION

Pub. L. 100–409, §4, Aug. 20, 1988, 102 Stat. 1090, provided that: “In order to ensure that there are increased funds and personnel available to the Secretaries of the Interior and Agriculture to consider, process, and consummate land exchanges pursuant to the Federal Land Policy and Management Act of 1976 [Pub. L. 94–579, see Short Title note set out under section 1701 of this title] and other applicable law, there are hereby authorized to be appropriated for fiscal years 1989 through 1998 an annual amount not to exceed \$4,000,000 which shall be used jointly or divided among the Secretaries as they determine appropriate for the consideration, processing, and consummation of land exchanges pursuant to the Federal Land Policy and Management Act of 1976, as amended, and other applicable law. Such moneys are expressly intended by Congress to be in addition to, and not offset against, moneys otherwise annually requested by the Secretaries, and appropriated by Congress for land exchange purposes.”

SAVINGS PROVISION

Pub. L. 100–409, §5, Aug. 20, 1988, 102 Stat. 1090, provided that: “Nothing in this Act [see Short Title of 1988 Amendment note set out under section 1701 of this title] shall be construed as amending the Alaska Native Claims Settlement Act (Public Law 92–203, as amended) [43 U.S.C. 1601 et seq.] or the Alaska National Interest Lands Conservation Act (Public Law 96–487, as amended) [see Tables for classification] or as enlarging or diminishing the authority with regard to exchanges conferred upon either the Secretary of the Interior or the Secretary of Agriculture by either such Acts. If any provision of this Act or the application thereof is held invalid, the remainder of the Act and the application thereof shall not be affected thereby. Nothing in this Act shall be construed to change the discretionary nature of land exchanges or to prohibit the Secretary concerned or any other party or parties involved in a land exchange from withdrawing from the exchange at any time, unless the Secretary concerned and the other party or parties specifically commit otherwise by written agreement.”

§1717. Qualifications of conveyees

No tract of land may be disposed of under this Act, whether by sale, exchange, or donation, to any person who is not a citizen of the United States, or in the case of a corporation, is not subject to the laws of any State or of the United States.

§1719. Mineral interests; reservation and conveyance requirements and procedures

(a) All conveyances of title issued by the Secretary, except those involving land exchanges provided for in section 1716 of this title, shall reserve to the United States all minerals in the lands, together with the right to prospect for, mine, and remove the minerals under applicable law and such regulations as the Secretary may prescribe, except that if the Secretary makes the findings specified in subsection (b) of this section, the minerals may then be conveyed together with the surface to the prospective surface owner as provided in subsection (b) of this section.

(b)(1) The Secretary, after consultation with the appropriate department or agency head, may convey mineral interests owned by the United States where the surface is or will be in non-Federal ownership, regardless of which Federal entity may have administered the surface, if he finds (1) that there are no known mineral values in the land, or (2) that the reservation of the mineral rights in the United States is interfering with or precluding appropriate nonmineral development of the land and that such development is a more beneficial use of the land than mineral development.

(2) Conveyance of mineral interests pursuant to this section shall be made only to the existing or proposed record owner of the surface, upon payment of administrative costs and the fair market value of the interests being conveyed.

(3) Before considering an application for conveyance of mineral interests pursuant to this section—

(i) the Secretary shall require the deposit by the applicant of a sum of money which he deems sufficient to cover administrative costs including, but not limited to, costs of conducting an exploratory program to determine the character of the mineral deposits in the land, evaluating the data obtained under the exploratory program to determine the fair market value of the mineral interests to be conveyed, and preparing and issuing the documents of conveyance: *Provided*, That, if the administrative costs exceed the deposit, the applicant shall pay the outstanding amount; and, if the deposit exceeds the administrative costs, the applicant shall be given a credit for or refund of the excess; or

(ii) the applicant, with the consent of the Secretary, shall have conducted, and submitted to the Secretary the results of, such an exploratory program, in accordance with standards promulgated by the Secretary.

(4) Moneys paid to the Secretary for administrative costs pursuant to this subsection shall be paid to the agency which rendered the service and deposited to the appropriation then current.

§1720. Coordination by Secretary of the Interior with State and local governments

At least sixty days prior to offering for sale or otherwise conveying public lands under this Act, the Secretary shall notify the Governor of the State within which such lands are located and the head of the governing body of any political subdivision of the State having zoning or other land use regulatory jurisdiction in the geographical area within which such lands are located, in order to afford the appropriate body the opportunity to zone or otherwise regulate, or change or amend existing zoning or other regulations concerning the use of such lands prior to such conveyance. The Secretary shall also promptly notify such public officials of the issuance of the patent or other document of conveyance for such lands.

§1721. Conveyances of public lands to States, local governments, etc.

(a) Unsurveyed islands; authorization and limitations on authority

The Secretary is authorized to convey to States or their political subdivisions under the Recreation and Public Purposes Act (44 Stat. 741 as amended; 43 U.S.C. 869 et seq.), as amended, but without regard to the acreage limitations contained therein, unsurveyed islands determined by the Secretary to be public lands of the United States. The conveyance of any such island may be made without survey: *Provided, however*, That such island may be surveyed at the request of the applicant State or its political subdivision if such State or subdivision donates money or services to the Secretary for such survey, the Secretary accepts such money or services, and such services are conducted pursuant to criteria established by the Director of the Bureau of Land Management. Any such island so surveyed shall not be conveyed without approval of such survey by the Secretary prior to the conveyance.

(b) Omitted lands; authorization and limitations on authority

(1) The Secretary is authorized to convey to States and their political subdivisions under the Recreation and Public Purposes Act [43 U.S.C. 869 to 869–4], but without regard to the acreage limitations contained therein, lands other than islands determined by him after survey to be public lands of the United States erroneously or fraudulently omitted from the original surveys (hereinafter referred to as “omitted lands”). Any such conveyance shall not be made without a survey: *Provided*, That the prospective recipient may donate money or services to the Secretary for the surveying necessary prior to conveyance if the Secretary accepts such money or services, such services are conducted pursuant to criteria established by the Director of the Bureau of Land Management, and such survey is approved by the Secretary prior to the conveyance.

(2) The Secretary is authorized to convey to the occupant of any omitted lands which, after survey, are found to have been occupied and developed for a five-year period prior to January 1, 1975, if the Secretary determines that such conveyance is in the public interest and will serve objectives which outweigh all public objectives and values which would be served by retaining such lands in Federal ownership. Conveyance under this subparagraph shall be made at not less than the fair market value of the land, as determined by the Secretary, and upon payment in addition of administrative costs, including the cost of making the survey, the cost of appraisal, and the cost of making the conveyance.

(c) Conformity with land use plans and programs and coordination with State and local governments of conveyances

(1) No conveyance shall be made pursuant to this section until the relevant State government, local government, and areawide planning agency designated pursuant to section 204 of the Demonstration Cities and Metropolitan Development Act of 1966 (80 Stat. 1255, 1262) [42 U.S.C. 3334] and/or section 6506 of title 31 have notified the Secretary as to the consistency of such conveyance with applicable State and local government land use plans and programs.

(2) The provisions of section 1720 of this title shall be applicable to all conveyances under this section.

(d) Applicability of other statutory requirements for authorized use of conveyed lands

The final sentence of section 1(c) of the Recreation and Public Purposes Act [43 U.S.C. 869(c)] shall not be applicable to conveyances under this section.

(e) Limitations on uses of conveyed lands

No conveyance pursuant to this section shall be used as the basis for determining the baseline between Federal and State ownership, the boundary of any State for purposes of determining the extent of a State's submerged lands or the line of demarcation of Federal jurisdiction, or any similar

or related purpose.

(f) Applicability to lands within National Forest System, National Park System, National Wildlife Refuge System, and National Wild and Scenic Rivers System

The provisions of this section shall not apply to any lands within the National Forest System, defined in the Act of August 17, 1974 (88 Stat. 476; 16 U.S.C. 1601), the National Park System, the National Wildlife Refuge System, and the National Wild and Scenic Rivers System.

(g) Applicability to other statutory provisions authorizing sale of specific omitted lands

Nothing in this section shall supersede the provisions of the Act of December 22, 1928 (45 Stat. 1069; 43 U.S.C. 1068), as amended, and the Act of May 31, 1962 (76 Stat. 89), or any other Act authorizing the sale of specific omitted lands.

§1722. Sale of public lands subject to unintentional trespass

(a) Preference right of contiguous landowners; offering price

Notwithstanding the provisions of the Act of September 26, 1968 (82 Stat. 870; 43 U.S.C. 1431–1435), hereinafter called the “1968 Act”, with respect to applications under the 1968 Act which were pending before the Secretary as of the effective date of this subsection and which he approves for sale under the criteria prescribed by the 1968 Act, he shall give the right of first refusal to those having a preference right under section 2 of the 1968 Act [43 U.S.C. 1432]. The Secretary shall offer such lands to such preference right holders at their fair market value (exclusive of any values added to the land by such holders and their predecessors in interest) as determined by the Secretary as of September 26, 1973.

(b) Procedures applicable

Within three years after October 21, 1976, the Secretary shall notify the filers of applications subject to paragraph (a) of this section whether he will offer them the lands applied for and at what price; that is, their fair market value as of September 26, 1973, excluding any value added to the lands by the applicants or their predecessors in interest. He will also notify the President of the Senate and the Speaker of the House of Representatives of the lands which he has determined not to sell pursuant to paragraph (a) of this section and the reasons therefor. With respect to such lands which the Secretary determined not to sell, he shall take no other action to convey those lands or

interests in them before the end of ninety days (not counting days on which the House of Representatives or the Senate has adjourned for more than three consecutive days) beginning on the date the Secretary has submitted such notice to the Senate and House of Representatives. If, during that ninety-day period, the Congress adopts a concurrent resolution stating the length of time such suspension of action should continue, he shall continue such suspension for the specified time period. If the committee to which a resolution has been referred during the said ninety-day period, has not reported it at the end of thirty calendar days after its referral, it shall be in order to either discharge the committee from further consideration of such resolution or to discharge the committee from consideration of any other resolution with respect to the suspension of action. A motion to discharge may be made only by an individual favoring the resolution, shall be highly privileged (except that it may not be made after the committee has reported such a resolution), and debate thereon shall be limited to not more than one hour, to be divided equally between those favoring and those opposing the resolution. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to. If the motion to discharge is agreed to or disagreed to, the motion may not be made with respect to any other resolution with respect to the same suspension of action. When the committee has reprinted, or has been discharged from further consideration of a resolution, it shall at any time thereafter be in order (even though a previous motion to the same effect has been disagreed to) to move to proceed to the consideration of the resolution. The motion shall be highly privileged and shall not be debatable. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.

§1723. Temporary revocation authority

(a) Exchange involved

When the sole impediment to consummation of an exchange of lands or interests therein (hereinafter referred to as an exchange) determined to be in the public interest, is the inability of the Secretary of the Interior to revoke, modify, or terminate part or all of a withdrawal or classification because of the order (or subsequent modification or continuance thereof) of the United States District Court for the District of Columbia dated February 10, 1986, in Civil Action No. 85-2238 (National Wildlife Federation v. Robert E. Burford, et al.), the Secretary of the Interior is hereby authorized, notwithstanding such order (or subsequent modification or continuance thereof), to use the authority contained herein, in lieu of other authority provided in this Act including section 1714 of this title, to revoke, modify, or terminate in whole or in part, withdrawals or classifications to the extent deemed necessary by the Secretary to enable the United States to transfer land or interests therein out of Federal ownership pursuant to an exchange.

(b) Requirements

The authority specified in subsection (a) of this section may be exercised only in cases where—

(1) a particular exchange is proposed to be carried out pursuant to this Act, as amended, or other applicable law authorizing such an exchange;

(2) the proposed exchange has been prepared in compliance with all laws applicable to such exchange;

(3) the head of each Federal agency managing the lands proposed for such transfer has submitted to the Secretary of the Interior a statement of concurrence with the proposed revocation, modification, or termination;

(4) at least sixty days have elapsed since the Secretary of the Interior has published in the Federal Register a notice of the proposed revocation, modification, or termination; and

(5) at least sixty days have elapsed since the Secretary of the Interior has transmitted to the Committee on Natural Resources of the House of Representatives and the Committee on Energy and Natural Resources of the United States Senate a report which includes—

(A) a justification for the necessity of exercising such authority in order to complete an exchange;

(B) an explanation of the reasons why the continuation of the withdrawal or a classification or portion thereof proposed for revocation, modification, or termination is no longer necessary for the purposes of the statutory or other program or programs for which the withdrawal or classification was made or other relevant programs;

(C) assurances that all relevant documents concerning the proposed exchange or purchase for which such authority is proposed to be exercised (including documents related to compliance with the National Environmental Policy Act of 1969 [42 U.S.C. 4321 et seq.] and all other applicable provisions of law) are available for public inspection in the office of the Secretary concerned located nearest to the lands proposed for transfer out of Federal ownership in furtherance of such exchange and that the relevant portions of such documents are also available in the offices of the Secretary concerned in Washington, District of Columbia; and

(D) an explanation of the effect of the revocation, modification, or termination of a withdrawal or classification or portion thereof and the transfer of lands out of Federal ownership pursuant to the particular proposed exchange, on the objectives of the land management plan which is applicable at the time of such transfer to the land to be transferred out of Federal ownership.

(c) Limitations

(1) Nothing in this section shall be construed as affirming or denying any of the allegations made by any party in the civil action specified in subsection (a) of this section, or as constituting an expression of congressional opinion with respect to the merits of any allegation, contention, or argument made or issue raised by any party in such action, or as expanding or diminishing the jurisdiction of the United States District Court for the District of Columbia.

(2) Except as specifically provided in this section, nothing in this section shall be construed as modifying, terminating, revoking, or otherwise affecting any provision of law applicable to land exchanges, withdrawals, or classifications.

(3) The availability or exercise of the authority granted in subsection (a) of this section may not be considered by the Secretary of the Interior in making a determination pursuant to this Act or other applicable law as to whether or not any proposed exchange is in the public interest.

(d) Termination

The authority specified in subsection (a) of this section shall expire either (1) on December 31, 1990, or (2) when the Court order (or subsequent modification or continuation thereof) specified in subsection (a) of this section is no longer in effect, whichever occurs first.

§1732. Management of use, occupancy, and development of public lands

(a) Multiple use and sustained yield requirements applicable; exception

The Secretary shall manage the public lands under principles of multiple use and sustained yield, in accordance with the land use plans developed by him under section 1712 of this title when they are available, except that where a tract of such public land has been dedicated to specific uses according to any other provisions of law it shall be managed in accordance with such law.

(b) Easements, permits, etc., for utilization through habitation, cultivation, and development of small trade or manufacturing concerns; applicable statutory requirements

In managing the public lands, the Secretary shall, subject to this Act and other applicable law and under such terms and conditions as are consistent with such law, regulate, through easements, permits, leases, licenses, published rules, or other instruments as the Secretary deems appropriate, the use, occupancy, and development of the public lands, including, but not limited to, long-term leases to permit individuals to utilize public lands for habitation, cultivation, and the development of small trade or manufacturing concerns: *Provided*, That unless otherwise provided for by law, the Secretary may permit Federal departments and agencies to use, occupy, and develop public lands only through rights-of-way under section 1767 of this title, withdrawals under section 1714 of this title, and, where the proposed use and development are similar or closely related to the programs of the Secretary for the public lands involved, cooperative agreements under section 1737(b) of this title: *Provided further*, That nothing in this Act shall be construed as authorizing the Secretary concerned to require Federal permits to hunt and fish on public lands or on lands in the National Forest System and adjacent waters or as enlarging or diminishing the responsibility and authority of the States for management of fish and resident wildlife. However, the Secretary concerned may designate areas of public land and of lands in the National Forest System where, and establish periods when, no hunting or fishing will be permitted for reasons of public safety, administration, or compliance with provisions of applicable law. Except in emergencies, any regulations of the Secretary concerned relating to hunting and fishing pursuant to this section shall be put into effect only after consultation with the appropriate State fish and game department. Nothing in this Act shall modify or change any provision of Federal law relating to migratory birds or to endangered or threatened species. In managing the public lands the Secretary shall, by regulation or otherwise, take any action necessary to prevent unnecessary or undue degradation of the lands.

(c) Revocation or suspension provision in instrument authorizing use, occupancy or development; violation of provision; procedure applicable

The Secretary shall insert in any instrument providing for the use, occupancy, or development of

the public lands a provision authorizing revocation or suspension, after notice and hearing, of such instrument upon a final administrative finding of a violation of any term or condition of the instrument, including, but not limited to, terms and conditions requiring compliance with regulations under Acts applicable to the public lands and compliance with applicable State or Federal air or water quality standard or implementation plan: *Provided*, That such violation occurred on public lands covered by such instrument and occurred in connection with the exercise of rights and privileges granted by it: *Provided further*, That the Secretary shall terminate any such suspension no later than the date upon which he determines the cause of said violation has been rectified: *Provided further*, That the Secretary may order an immediate temporary suspension prior to a hearing or final administrative finding if he determines that such a suspension is necessary to protect health or safety or the environment: *Provided further*, That, where other applicable law contains specific provisions for suspension, revocation, or cancellation of a permit, license, or other authorization to use, occupy, or develop the public lands, the specific provisions of such law shall prevail.

(d) Authorization to utilize certain public lands in Alaska for military purposes

(1) The Secretary of the Interior, after consultation with the Governor of Alaska, may issue to the Secretary of Defense or to the Secretary of a military department within the Department of Defense or to the Commandant of the Coast Guard a nonrenewable general authorization to utilize public lands in Alaska (other than within a conservation system unit or the Steese National Conservation Area or the White Mountains National Recreation Area) for purposes of military maneuvering, military training, or equipment testing not involving artillery firing, aerial or other gunnery, or other use of live ammunition or ordnance.

(2) Use of public lands pursuant to a general authorization under this subsection shall be limited to areas where such use would not be inconsistent with the plans prepared pursuant to section 1712 of this title. Each such use shall be subject to a requirement that the using department shall be responsible for any necessary cleanup and decontamination of the lands used, and to such other terms and conditions (including but not limited to restrictions on use of off-road or all-terrain vehicles) as the Secretary of the Interior may require to—

(A) minimize adverse impacts on the natural, environmental, scientific, cultural, and other resources and values (including fish and wildlife habitat) of the public lands involved; and

(B) minimize the period and method of such use and the interference with or restrictions on other uses of the public lands involved.

(3)(A) A general authorization issued pursuant to this subsection shall not be for a term of more than three years and shall be revoked in whole or in part, as the Secretary of the Interior finds necessary, prior to the end of such term upon a determination by the Secretary of the Interior that there has been a failure to comply with its terms and conditions or that activities pursuant to such an authorization have had or might have a significant adverse impact on the resources or values of the affected lands.

(B) Each specific use of a particular area of public lands pursuant to a general authorization under this subsection shall be subject to specific authorization by the Secretary and to appropriate terms and conditions, including such as are described in paragraph (2) of this subsection.

(4) Issuance of a general authorization pursuant to this subsection shall be subject to the provisions of section 1712(f) of this title, section 3120 of title 16, and all other applicable provisions of law. The Secretary of a military department (or the Commandant of the Coast Guard) requesting such authorization shall reimburse the Secretary of the Interior for the costs of implementing this paragraph. An authorization pursuant to this subsection shall not authorize the construction of permanent structures or facilities on the public lands.

(5) To the extent that public safety may require closure to public use of any portion of the public lands covered by an authorization issued pursuant to this subsection, the Secretary of the military Department concerned or the Commandant of the Coast Guard shall take appropriate steps to notify the public concerning such closure and to provide appropriate warnings of risks to public safety.

(6) For purposes of this subsection, the term “conservation system unit” has the same meaning as specified in section 3102 of title 16.

benefit of borrowers; recordkeeping requirements; discrimination prohibited; deposit of receipts

Such loans shall be confined to the uses specified for the 50 per centum of mineral leasing revenues to be received by such States and subdivisions pursuant to section 35 of such Act [30 U.S.C. 191].

(2) The total amount of loans outstanding pursuant to this section for any State and political subdivisions thereof in any year shall be not more than the anticipated mineral leasing revenues to be received by that State pursuant to section 35 of the Act of February 25, 1920, as amended [30 U.S.C. 191], for the ten years following.

(3) The Secretary, after consultation with the Governors of the affected States, shall allocate such loans among the States and their political subdivisions in a fair and equitable manner, giving priority to those States and subdivisions suffering the most severe impacts.

The Secretary shall promulgate such regulations as may be necessary to carry out the provisions of this section no later than three months after August 20, 1978.

(6) Any loan made pursuant to this section shall be secured only by a pledge of the revenues received by the State or the political subdivision thereof pursuant to section 35 of the Act of February 25, 1920, as amended [30 U.S.C. 191], and shall not constitute an obligation upon the general property or taxing authority of such unit of government.

(7) Notwithstanding any other provision of law, loans made pursuant to this section may be used for the non-Federal share of the aggregate cost of any project or program otherwise funded by the Federal Government which requires a non-Federal share for such project or program and which provides planning or public facilities otherwise eligible for assistance under this section.

(8) Nothing in this section shall be construed to preclude any forbearance ¹ for the benefit of the borrower including loan restructuring, which may be determined by the Secretary as justified by the failure of anticipated mineral development or related revenues to materialize as expected when the loan was made pursuant to this section.

(9) Recipients of loans made pursuant to this section shall keep such records as the Secretary shall prescribe by regulation, including records which fully disclose the disposition of the proceeds of such assistance and such other records as the Secretary may require to facilitate an effective audit. The Secretary and the Comptroller General of the United States or their duly authorized representatives shall have access, for the purpose of audit, to such records.

CODIFICATION

Section was enacted as part of the Federal Land Assistance, Management, and Enhancement Act of 2009, also known as the FLAME Act of 2009, and also as part of the Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010, and not as part of the Federal Land Policy and Management Act of 1976 which comprises this chapter.

SUBCHAPTER IV—RANGE MANAGEMENT

§1751. Grazing fees; feasibility study; contents; submission of report; annual distribution and use of range betterment funds; nature of distributions

(a) The Secretary of Agriculture and the Secretary of the Interior shall jointly cause to be conducted a study to determine the value of grazing on the lands under their jurisdiction in the eleven Western States with a view to establishing a fee to be charged for domestic livestock grazing on such lands which is equitable to the United States and to the holders of grazing permits and leases on such lands. In making such study, the Secretaries shall take into consideration the costs of production normally associated with domestic livestock grazing in the eleven Western States, differences in forage values, and such other factors as may relate to the reasonableness of such fees. The Secretaries shall report the result of such study to the Congress not later than one year from and after October 21, 1976, together with recommendations to implement a reasonable grazing fee schedule based upon such study. If the report required herein has not been submitted to the Congress within one year after October 21, 1976, the grazing fee charge then in effect shall not be altered and shall remain the same until such report has been submitted to the Congress. Neither Secretary shall increase the grazing fee in the 1977 grazing year.

(b)(1) Congress finds that a substantial amount of the Federal range lands is deteriorating in quality, and that installation of additional range improvements could arrest much of the continuing deterioration and could lead to substantial betterment of forage conditions with resulting benefits to wildlife, watershed protection, and livestock production. Congress therefore directs that 50 per centum or \$10,000,000 per annum, whichever is greater of all moneys received by the United States as fees for grazing domestic livestock on public lands (other than from ceded Indian lands) under the Taylor Grazing Act (48 Stat. 1269; 43 U.S.C. 315 et seq.) and the Act of August 28, 1937 (50 Stat. 874; 43 U.S.C. 1181d), and on lands in National Forests in the sixteen contiguous Western States under the provisions of this section shall be credited to a separate account in the Treasury, one-half of which is authorized to be appropriated and made available for use in the district, region, or national forest from which such moneys were derived, as the respective Secretary may direct after consultation with district, regional, or national forest user representatives, for the purpose of on-the-ground range rehabilitation, protection, and improvements on such lands, and the remaining one-half shall be used for on-the-ground range rehabilitation, protection, and improvements as the Secretary concerned directs. Any funds so appropriated shall be in addition to any other appropriations made to the respective Secretary for planning and administration of the range betterment program and for other range management. Such rehabilitation, protection, and improvements shall include all forms of range land betterment including, but not limited to, seeding and reseeding, fence construction, weed control, water development, and fish and wildlife habitat enhancement as the respective Secretary may direct after consultation with user representatives. The annual distribution and use of range betterment funds authorized by this paragraph shall not be considered a major Federal action requiring a detailed statement pursuant to section 4332(c) ¹ of title 42.

(2) All distributions of moneys made under subsection (b)(1) of this section shall be in addition to distributions made under section 10 of the Taylor Grazing Act [43 U.S.C. 315i] and shall not apply to distribution of moneys made under section 11 of that Act [43 U.S.C. 315j]. The remaining moneys received by the United States as fees for grazing domestic livestock on the public lands shall be deposited in the Treasury as miscellaneous receipts.

AMENDMENTS

1978—Subsec. (b)(1). Pub. L. 95–514 inserted “or \$10,000,000 per annum, whichever is greater” after “50 per centum” and substituted “sixteen contiguous Western States” for “eleven contiguous Western States”.

MORATORIUM ON INCREASE OF GRAZING FEE FOR 1978 GRAZING YEAR

Pub. L. 95–321, July 21, 1978, 92 Stat. 394, in order to allow the Congress sufficient time to analyze the report and recommendations of the Secretaries of Interior and Agriculture under subsec. (a) of this section and to take appropriate action, provided that the 1978 grazing year fee was not to be raised by the Secretary of the Interior for the grazing of livestock on public lands nor by the Secretary of Agriculture for such grazing on lands under the jurisdiction of the Forest Service.

¹ So in original. Probably means “4332(2)(C)”.

§1752. Grazing leases and permits

(a) Terms and conditions

Except as provided in subsection (b) of this section, permits and leases for domestic livestock grazing on public lands issued by the Secretary under the Act of June 28, 1934 (48 Stat. 1269, as amended; 43 U.S.C. 315 et seq.) or the Act of August 28, 1937 (50 Stat. 874, as amended; 43 U.S.C. 1181a–1181j), or by the Secretary of Agriculture, with respect to lands within National Forests in the sixteen contiguous Western States, shall be for a term of ten years subject to such terms and conditions the Secretary concerned deems appropriate and consistent with the governing law, including, but not limited to, the authority of the Secretary concerned to cancel, suspend, or modify a grazing permit or lease, in whole or in part, pursuant to the terms and conditions thereof, or to cancel or suspend a grazing permit or lease for any violation of a grazing regulation or of any term or condition of such grazing permit or lease.

(b) Terms of lesser duration

Permits or leases may be issued by the Secretary concerned for a period shorter than ten years where the Secretary concerned determines that—

(1) the land is pending disposal; or

(2) the land will be devoted to a public purpose prior to the end of ten years; or

(3) it will be in the best interest of sound land management to specify a shorter term: *Provided*, That the absence from an allotment management plan of details the Secretary concerned would like to include but which are undeveloped shall not be the basis for establishing a term shorter than ten years: *Provided further*, That the absence of completed land use plans or court ordered environmental statements shall not be the sole basis for establishing a term shorter than ten years unless the Secretary determines on a case-by-case basis that the information to be contained in such land use plan or court ordered environmental impact statement is necessary to determine

whether a shorter term should be established for any of the reasons set forth in items (1) through (3) of this subsection.

(c) First priority for renewal of expiring permit or lease

So long as (1) the lands for which the permit or lease is issued remain available for domestic livestock grazing in accordance with land use plans prepared pursuant to section 1712 of this title or section 1604 of title 16, (2) the permittee or lessee is in compliance with the rules and regulations issued and the terms and conditions in the permit or lease specified by the Secretary concerned, and (3) the permittee or lessee accepts the terms and conditions to be included by the Secretary concerned in the new permit or lease, the holder of the expiring permit or lease shall be given first priority for receipt of the new permit or lease.

(d) Allotment management plan requirements

All permits and leases for domestic livestock grazing issued pursuant to this section may incorporate an allotment management plan developed by the Secretary concerned. However, nothing in this subsection shall be construed to supersede any requirement for completion of court ordered environmental impact statements prior to development and incorporation of allotment management plans. If the Secretary concerned elects to develop an allotment management plan for a given area, he shall do so in careful and considered consultation, cooperation and coordination with the lessees, permittees, and landowners involved, the district grazing advisory boards established pursuant to section 1753 of this title, and any State or States having lands within the area to be covered by such allotment management plan. Allotment management plans shall be tailored to the specific range condition of the area to be covered by such plan, and shall be reviewed on a periodic basis to determine whether they have been effective in improving the range condition of the lands involved or whether such lands can be better managed under the provisions of subsection (e) of this section. The Secretary concerned may revise or terminate such plans or develop new plans from time to time after such review and careful and considered consultation, cooperation and coordination with the parties involved. As used in this subsection, the terms “court ordered environmental impact statement” and “range condition” shall be defined as in the “Public Rangelands Improvement Act of 1978 [43 U.S.C. 1901 et seq.]”.

(e) Omission of allotment management plan requirements and incorporation of appropriate terms and conditions; reexamination of range conditions

In all cases where the Secretary concerned has not completed an allotment management plan or determines that an allotment management plan is not necessary for management of livestock operations and will not be prepared, the Secretary concerned shall incorporate in grazing permits and leases such terms and conditions as he deems appropriate for management of the permitted or leased lands pursuant to applicable law. The Secretary concerned shall also specify therein the numbers of animals to be grazed and the seasons of use and that he may reexamine the condition of the range at any time and, if he finds on reexamination that the condition of the range requires adjustment in the amount or other aspect of grazing use, that the permittee or lessee shall adjust his use to the extent the Secretary concerned deems necessary. Such readjustment shall be put into full force and effect on the date specified by the Secretary concerned.

(f) Allotment management plan applicability to non-Federal lands; appeal rights

Allotment management plans shall not refer to livestock operations or range improvements on non-Federal lands except where the non-Federal lands are intermingled with, or, with the consent of the permittee or lessee involved, associated with, the Federal lands subject to the plan. The Secretary concerned under appropriate regulations shall grant to lessees and permittees the right of appeal from decisions which specify the terms and conditions of allotment management plans. The preceding sentence of this subsection shall not be construed as limiting any other right of appeal from decisions of such officials.

(g) Cancellation of permit or lease; determination of reasonable compensation; notice

Whenever a permit or lease for grazing domestic livestock is canceled in whole or in part, in order

to devote the lands covered by the permit or lease to another public purpose, including disposal, the permittee or lessee shall receive from the United States a reasonable compensation for the adjusted value, to be determined by the Secretary concerned, of his interest in authorized permanent improvements placed or constructed by the permittee or lessee on lands covered by such permit or lease, but not to exceed the fair market value of the terminated portion of the permittee's or lessee's interest therein. Except in cases of emergency, no permit or lease shall be canceled under this subsection without two years' prior notification.

(h) Applicability of provisions to rights, etc., in or to public lands or lands in National Forests

Nothing in this Act shall be construed as modifying in any way law existing on October 21, 1976, with respect to the creation of right, title, interest or estate in or to public lands or lands in National Forests by issuance of grazing permits and leases.

(Pub. L. 94-579, title IV, §402, Oct. 21, 1976, 90 Stat. 2772, 2773; Pub. L. 95-514, §§7, 8, Oct. 25, 1978, 92 Stat. 1807.)

SUBCHAPTER V—RIGHTS-OF-WAY

§1761. Grant, issue, or renewal of rights-of-way

(a) Authorized purposes

The Secretary, with respect to the public lands (including public lands, as defined in section 1702(e) of this title, which are reserved from entry pursuant to section 24 of the Federal Power Act (16 U.S.C. 818)) and, the Secretary of Agriculture, with respect to lands within the National Forest System (except in each case land designated as wilderness), are authorized to grant, issue, or renew rights-of-way over, upon, under, or through such lands for—

(1) reservoirs, canals, ditches, flumes, laterals, pipes, pipelines, tunnels, and other facilities and systems for the impoundment, storage, transportation, or distribution of water;

(2) pipelines and other systems for the transportation or distribution of liquids and gases, other than water and other than oil, natural gas, synthetic liquid or gaseous fuels, or any refined product produced therefrom, and for storage and terminal facilities in connection therewith;

(3) pipelines, slurry and emulsion systems, and conveyor belts for transportation and distribution of solid materials, and facilities for the storage of such materials in connection therewith;

(4) systems for generation, transmission, and distribution of electric energy, except that the applicant shall also comply with all applicable requirements of the Federal Energy Regulatory Commission under the Federal Power Act, including part 1 ¹ thereof (41 Stat. 1063, 16 U.S.C. 791a–825r).; ²

(5) systems for transmission or reception of radio, television, telephone, telegraph, and other electronic signals, and other means of communication;

(6) roads, trails, highways, railroads, canals, tunnels, tramways, airways, livestock driveways, or other means of transportation except where such facilities are constructed and maintained in connection with commercial recreation facilities on lands in the National Forest System; or

(7) such other necessary transportation or other systems or facilities which are in the public interest and which require rights-of-way over, upon, under, or through such lands.

(b) Procedures applicable; administration

(1) The Secretary concerned shall require, prior to granting, issuing, or renewing a right-of-way, that the applicant submit and disclose those plans, contracts, agreements, or other information reasonably related to the use, or intended use, of the right-of-way, including its effect on competition, which he deems necessary to a determination, in accordance with the provisions of this Act, as to whether a right-of-way shall be granted, issued, or renewed and the terms and conditions which should be included in the right-of-way.

(2) If the applicant is a partnership, corporation, association, or other business entity, the Secretary

concerned, prior to granting a right-to-way ³ pursuant to this subchapter, shall require the applicant to disclose the identity of the participants in the entity, when he deems it necessary to a determination, in accordance with the provisions of this subchapter, as to whether a right-of-way shall be granted, issued, or renewed and the terms and conditions which should be included in the right-of-way. Such disclosures shall include, where applicable: (A) the name and address of each partner; (B) the name and address of each shareholder owning 3 per centum or more of the shares, together with the number and percentage of any class of voting shares of the entity which such shareholder is authorized to vote; and (C) the name and address of each affiliate of the entity together with, in the case of an affiliate controlled by the entity, the number of shares and the percentage of any class of voting stock of that affiliate owned, directly or indirectly, by that entity, and, in the case of an affiliate which controls that entity, the number of shares and the percentage of any class of voting stock of that entity owned, directly or indirectly, by the affiliate.

(3) The Secretary of Agriculture shall have the authority to administer all rights-of-way granted or issued under authority of previous Acts with respect to lands under the jurisdiction of the Secretary of Agriculture, including rights-of-way granted or issued pursuant to authority given to the Secretary of the Interior by such previous Acts.

(c) Permanent easement for water systems; issuance, preconditions, etc.

(1) Upon receipt of a written application pursuant to paragraph (2) of this subsection from an applicant meeting the requirements of this subsection, the Secretary of Agriculture shall issue a permanent easement, without a requirement for reimbursement, for a water system as described in subsection (a)(1) of this section, traversing Federal lands within the National Forest System ("National Forest Lands"), constructed and in operation or placed into operation prior to October 21, 1976, if—

(A) the traversed National Forest lands are in a State where the appropriation doctrine governs the ownership of water rights;

(B) at the time of submission of the application the water system is used solely for agricultural irrigation or livestock watering purposes;

(C) the use served by the water system is not located solely on Federal lands;

(D) the originally constructed facilities comprising such system have been in substantially continuous operation without abandonment;

(E) the applicant has a valid existing right, established under applicable State law, for water to be conveyed by the water system;

(F) a recordable survey and other information concerning the location and characteristics of the system as necessary for proper management of National Forest lands is provided to the Secretary of Agriculture by the applicant for the easement; and

(G) the applicant submits such application on or before December 31, 1996.

(2)(A) Nothing in this subsection shall be construed as affecting any grants made by any previous Act. To the extent any such previous grant of right-of-way is a valid existing right, it shall remain in full force and effect unless an owner thereof notifies the Secretary of Agriculture that such owner elects to have a water system on such right-of-way governed by the provisions of this subsection and submits a written application for issuance of an easement pursuant to this subsection, in which case upon the issuance of an easement pursuant to this subsection such previous grant shall be deemed to have been relinquished and shall terminate.

(B) Easements issued under the authority of this subsection shall be fully transferable with all existing conditions and without the imposition of fees or new conditions or stipulations at the time of transfer. The holder shall notify the Secretary of Agriculture within sixty days of any address change of the holder or change in ownership of the facilities.

(C) Easements issued under the authority of this subsection shall include all changes or modifications to the original facilities in existence as of October 21, 1976, the date of enactment of this Act.

(D) Any future extension or enlargement of facilities after October 21, 1976, shall require the

issuance of a separate authorization, not authorized under this subsection.

(3)(A) Except as otherwise provided in this subsection, the Secretary of Agriculture may terminate or suspend an easement issued pursuant to this subsection in accordance with the procedural and other provisions of section 1766 of this title. An easement issued pursuant to this subsection shall terminate if the water system for which such easement was issued is used for any purpose other than agricultural irrigation or livestock watering use. For purposes of subparagraph (D) of paragraph (1) of this subsection, non-use of a water system for agricultural irrigation or livestock watering purposes for any continuous five-year period shall constitute a rebuttable presumption of abandonment of the facilities comprising such system.

(B) Nothing in this subsection shall be deemed to be an assertion by the United States of any right or claim with regard to the reservation, acquisition, or use of water. Nothing in this subsection shall be deemed to confer on the Secretary of Agriculture any power or authority to regulate or control in any manner the appropriation, diversion, or use of water for any purpose (nor to diminish any such power or authority of such Secretary under applicable law) or to require the conveyance or transfer to the United States of any right or claim to the appropriation, diversion, or use of water.

(C) Except as otherwise provided in this subsection, all rights-of-way issued pursuant to this subsection are subject to all conditions and requirements of this Act.

(D) In the event a right-of-way issued pursuant to this subsection is allowed to deteriorate to the point of threatening persons or property and the holder of the right-of-way, after consultation with the Secretary of Agriculture, refuses to perform the repair and maintenance necessary to remove the threat to persons or property, the Secretary shall have the right to undertake such repair and maintenance on the right-of-way and to assess the holder for the costs of such repair and maintenance, regardless of whether the Secretary had required the holder to furnish a bond or other security pursuant to subsection (i) of this section.

(d) Rights-of-way on certain Federal lands

With respect to any project or portion thereof that was licensed pursuant to, or granted an exemption from, part I of the Federal Power Act [16 U.S.C. 791a et seq.] which is located on lands subject to a reservation under section 24 of the Federal Power Act [16 U.S.C. 818] and which did not receive a permit, right-of-way or other approval under this section prior to October 24, 1992, no such permit, right-of-way, or other approval shall be required for continued operation, including continued operation pursuant to section 15 of the Federal Power Act [16 U.S.C. 808], of such project unless the Commission determines that such project involves the use of any additional public lands or National Forest lands not subject to such reservation.

§1762. Roads

(a) Authority to acquire, construct, and maintain; financing arrangements

The Secretary, with respect to the public lands, is authorized to provide for the acquisition, construction, and maintenance of roads within and near the public lands in locations and according to specifications which will permit maximum economy in harvesting timber from such lands tributary to such roads and at the same time meet the requirements for protection, development, and management of such lands for utilization of the other resources thereof. Financing of such roads may be accomplished (1) by the Secretary utilizing appropriated funds, (2) by requirements on purchasers of timber and other products from the public lands, including provisions for amortization of road costs in contracts, (3) by cooperative financing with other public agencies and with private agencies or persons, or (4) by a combination of these methods: *Provided*, That, where roads of a higher standard than that needed in the harvesting and removal of the timber and other products covered by the particular sale are to be constructed, the purchaser of timber and other products from public lands shall not, except when the provisions of the second proviso of this subsection apply, be required to bear that part of the costs necessary to meet such higher standard, and the Secretary is authorized to make such arrangements to this end as may be appropriate: *Provided further*, That when timber is offered with the condition that the purchaser thereof will build a road or roads in accordance with standards specified in the offer, the purchaser of the timber will be responsible for paying the full costs of construction of such roads.

(b) Recordation of copies of affected instruments

Copies of all instruments affecting permanent interests in land executed pursuant to this section shall be recorded in each county where the lands are located.

(c) Maintenance or reconstruction of facilities by users

The Secretary may require the user or users of a road, trail, land, or other facility administered by

him through the Bureau, including purchasers of Government timber and other products, to maintain such facilities in a satisfactory condition commensurate with the particular use requirements of each. Such maintenance to be borne by each user shall be proportionate to total use. The Secretary may also require the user or users of such a facility to reconstruct the same when such reconstruction is determined to be necessary to accommodate such use. If such maintenance or reconstruction cannot be so provided or if the Secretary determines that maintenance or reconstruction by a user would not be practical, then the Secretary may require that sufficient funds be deposited by the user to provide his portion of such total maintenance or reconstruction. Deposits made to cover the maintenance or reconstruction of roads are hereby made available until expended to cover the cost to the United States of accomplishing the purposes for which deposited: *Provided*, That deposits received for work on adjacent and overlapping areas may be combined when it is the most practicable and efficient manner of performing the work, and cost thereof may be determined by estimates: *And provided further*, That unexpended balances upon accomplishment of the purpose for which deposited shall be transferred to miscellaneous receipts or refunded.

(d) Fund for user fees for delayed payment to grantor

Whenever the agreement under which the United States has obtained for the use of, or in connection with, the public lands a right-of-way or easement for a road or an existing road or the right to use an existing road provides for delayed payments to the Government's grantor, any fees or other collections received by the Secretary for the use of the road may be placed in a fund to be available for making payments to the grantor.

§1763. Right-of-way corridors; criteria and procedures applicable for designation

In order to minimize adverse environmental impacts and the proliferation of separate rights-of-way, the utilization of rights-of-way in common shall be required to the extent practical, and each right-of-way or permit shall reserve to the Secretary concerned the right to grant additional rights-of-way or permits for compatible uses on or adjacent to rights-of-way granted pursuant to this Act. In designating right-of-way corridors and in determining whether to require that rights-of-way be confined to them, the Secretary concerned shall take into consideration national and State land use policies, environmental quality, economic efficiency, national security, safety, and good engineering and technological practices. The Secretary concerned shall issue regulations containing the criteria and procedures he will use in designating such corridors. Any existing transportation and utility corridors may be designated as transportation and utility corridors pursuant to this subsection without further review.

§1764. General requirements

(a) Boundary specifications; criteria; temporary use of additional lands

The Secretary concerned shall specify the boundaries of each right-of-way as precisely as is practical. Each right-of-way shall be limited to the ground which the Secretary concerned determines (1) will be occupied by facilities which constitute the project for which the right-of-way is granted, issued, or renewed, (2) to be necessary for the operation or maintenance of the project, (3) to be necessary to protect the public safety, and (4) will do no unnecessary damage to the environment. The Secretary concerned may authorize the temporary use of such additional lands as he determines to be reasonably necessary for the construction, operation, maintenance, or termination of the project or a portion thereof, or for access thereto.

(b) Terms and conditions of right-of-way or permit

Each right-of-way or permit granted, issued, or renewed pursuant to this section shall be limited to a reasonable term in light of all circumstances concerning the project. In determining the duration of a right-of-way the Secretary concerned shall, among other things, take into consideration the cost of the facility, its useful life, and any public purpose it serves. The right-of-way shall specify whether it is or is not renewable and the terms and conditions applicable to the renewal.

(c) Applicability of regulations or stipulations

Rights-of-way shall be granted, issued, or renewed pursuant to this subchapter under such regulations or stipulations, consistent with the provisions of this subchapter or any other applicable law, and shall also be subject to such terms and conditions as the Secretary concerned may prescribe regarding extent, duration, survey, location, construction, maintenance, transfer or assignment, and termination.

(d) Submission of plan of construction, operation, and rehabilitation by new project applicants; plan requirements

The Secretary concerned prior to granting or issuing a right-of-way pursuant to this subchapter for a new project which may have a significant impact on the environment, shall require the applicant to submit a plan of construction, operation, and rehabilitation for such right-of-way which shall comply with stipulations or with regulations issued by that Secretary, including the terms and conditions required under section 1765 of this title.

(e) Regulatory requirements for terms and conditions; revision and applicability of regulations

The Secretary concerned shall issue regulations with respect to the terms and conditions that will be included in rights-of-way pursuant to section 1765 of this title. Such regulations shall be regularly revised as needed. Such regulations shall be applicable to every right-of-way granted or issued pursuant to this subchapter and to any subsequent renewal thereof, and may be applicable to rights-of-way not granted or issued, but renewed pursuant to this subchapter.

(f) Removal or use of mineral and vegetative materials

Mineral and vegetative materials, including timber, within or without a right-of-way, may be used or disposed of in connection with construction or other purposes only if authorization to remove or use such materials has been obtained pursuant to applicable laws or for emergency repair work necessary for those rights-of-way authorized under section 1761(c) of this title.

(g) Rental payments; amount, waiver, etc.

The holder of a right-of-way shall pay in advance the fair market value thereof, as determined by the Secretary granting, issuing, or renewing such right-of-way. The Secretary concerned may require either annual payment or a payment covering more than one year at a time except that private individuals may make at their option either annual payments or payments covering more than one year if the annual fee is greater than one hundred dollars. The Secretary concerned may waive rentals where a right-of-way is granted, issued or renewed in consideration of a right-of-way conveyed to the United States in connection with a cooperative cost share program between the United States and the holder. The Secretary concerned may, by regulation or prior to promulgation of such regulations, as a condition of a right-of-way, require an applicant for or holder of a right-of-way to reimburse the United States for all reasonable administrative and other costs incurred in processing an application for such right-of-way and in inspection and monitoring of construction, operation, and termination of the facility pursuant to such right-of-way: *Provided, however,* That the Secretary concerned need not secure reimbursement in any situation where there is in existence a cooperative cost share right-of-way program between the United States and the holder of a right-of-way. Rights-of-way may be granted, issued, or renewed to a Federal, State, or local government or any agency or instrumentality thereof, to nonprofit associations or nonprofit corporations which are not themselves controlled or owned by profitmaking corporations or business enterprises, or to a holder where he provides without or at reduced charges a valuable benefit to the public or to the programs of the Secretary concerned, or to a holder in connection with the authorized use or occupancy of Federal land for which the United States is already receiving compensation for such lesser charge, including free use as the Secretary concerned finds equitable and in the public interest. Such rights-of-way issued at less than fair market value are not assignable except with the approval of the Secretary issuing the right-of-way. The moneys received for reimbursement of reasonable costs shall be deposited with the Treasury in a special account and are hereby authorized to be appropriated and made available until expended. Rights-of-way shall be granted, issued, or renewed, without rental fees, for electric or telephone facilities eligible for financing pursuant to the Rural Electrification Act of 1936, as amended [7 U.S.C. 901 et seq.], determined without regard to any application requirement under that Act, or any extensions from such facilities: *Provided,* That nothing in this sentence shall be construed to affect the authority of the Secretary granting, issuing, or renewing the right-of-way to require reimbursement of reasonable administrative and other costs pursuant to the second sentence of this subsection.

(h) Liability for damage or injury incurred by United States for use and occupancy of rights-of-way; indemnification of United States; no-fault liability; amount of damages

(1) The Secretary concerned shall promulgate regulations specifying the extent to which holders of rights-of-way under this subchapter shall be liable to the United States for damage or injury incurred by the United States caused by the use and occupancy of the rights-of-way. The regulations shall also specify the extent to which such holders shall indemnify or hold harmless the United States for liabilities, damages, or claims caused by their use and occupancy of the rights-of-way.

(2) Any regulation or stipulation imposing liability without fault shall include a maximum limitation on damages commensurate with the foreseeable risks or hazards presented. Any liability for damage or injury in excess of this amount shall be determined by ordinary rules of negligence.

(i) Bond or security requirements

Where he deems it appropriate, the Secretary concerned may require a holder of a right-of-way to furnish a bond, or other security, satisfactory to him to secure all or any of the obligations imposed by the terms and conditions of the right-of-way or by any rule or regulation of the Secretary concerned.

(j) Criteria for grant, issue, or renewal of right-of-way

The Secretary concerned shall grant, issue, or renew a right-of-way under this subchapter only when he is satisfied that the applicant has the technical and financial capability to construct the project for which the right-of-way is requested, and in accord with the requirements of this subchapter.

(b) such terms and conditions as the Secretary concerned deems necessary to (i) protect Federal property and economic interests; (ii) manage efficiently the lands which are subject to the right-of-way or adjacent thereto and protect the other lawful users of the lands adjacent to or traversed by such right-of-way; (iii) protect lives and property; (iv) protect the interests of

individuals living in the general area traversed by the right-of-way who rely on the fish, wildlife, and other biotic resources of the area for subsistence purposes; (v) require location of the right-of-way along a route that will cause least damage to the environment, taking into consideration feasibility and other relevant factors; and (vi) otherwise protect the public interest in the lands traversed by the right-of-way or adjacent thereto.

§1766. Suspension or termination; grounds; procedures applicable

Abandonment of a right-of-way or noncompliance with any provision of this subchapter condition of the right-of-way, or applicable rule or regulation of the Secretary concerned may be grounds for suspension or termination of the right-of-way if, after due notice to the holder of the right-of-way and, and ¹ with respect to easements, an appropriate administrative proceeding pursuant to section 554 of title 5, the Secretary concerned determines that any such ground exists and that suspension or termination is justified. No administrative proceeding shall be required where the right-of-way by its terms provides that it terminates on the occurrence of a fixed or agreed-upon condition, event, or time. If the Secretary concerned determines that an immediate temporary suspension of activities within a right-of-way for violation of its terms and conditions is necessary to protect public health or safety or the environment, he may abate such activities prior to an administrative proceeding. Prior to commencing any proceeding to suspend or terminate a right-of-way the Secretary concerned shall give written notice to the holder of the grounds for such action and shall give the holder a reasonable time to resume use of the right-of-way or to comply with this subchapter condition, rule, or regulation as the case may be. Failure of the holder of the right-of-way to use the right-of-way for the purpose for which it was granted, issued, or renewed, for any continuous five-year period, shall constitute a rebuttable presumption of abandonment of the right-of-way except that where the failure of the holder to use the right-of-way for the purpose for which it was granted, issued, or renewed for any continuous five-year period is due to circumstances not within the holder's control, the Secretary concerned is not required to commence proceedings to suspend or terminate the right-of-way.

(a) The Secretary concerned may provide under applicable provisions of this subchapter for the use of any department or agency of the United States a right-of-way over, upon, under or through the land administered by him, subject to such terms and conditions as he may impose.

(b) Where a right-of-way has been reserved for the use of any department or agency of the United States, the Secretary shall take no action to terminate, or otherwise limit, that use without the consent of the head of such department or agency.

§1768. Conveyance of lands covered by right-of-way; terms and conditions

If under applicable law the Secretary concerned decides to transfer out of Federal ownership any lands covered in whole or in part by a right-of-way, including a right-of-way granted under the Act of November 16, 1973 (87 Stat. 576; 30 U.S.C. 185), the lands may be conveyed subject to the right-of-way; however, if the Secretary concerned determines that retention of Federal control over the right-of-way is necessary to assure that the purposes of this subchapter will be carried out, the terms and conditions of the right-of-way complied with, or the lands protected, he shall (a) reserve to the United States that portion of the lands which lies within the boundaries of the right-of-way, or (b) convey the lands, including that portion within the boundaries of the right-of-way, subject to the right-of-way and reserving to the United States the right to enforce all or any of the terms and conditions of the right-of-way, including the right to renew it or extend it upon its termination and to collect rents.

§1769. Existing right-of-way or right-of-use unaffected; exceptions; rights-of-way for railroad and appurtenant communication facilities; applicability of existing terms and conditions

(a) Nothing in this subchapter shall have the effect of terminating any right-of-way or right-of-use heretofore issued, granted, or permitted. However, with the consent of the holder thereof, the Secretary concerned may cancel such a right-of-way or right-of-use and in its stead issue a right-of-way pursuant to the provisions of this subchapter.

(b) When the Secretary concerned issues a right-of-way under this subchapter for a railroad and appurtenant communication facilities in connection with a realignment of a railroad on lands under his jurisdiction by virtue of a right-of-way granted by the United States, he may, when he considers it to be in the public interest and the lands involved are not within an incorporated community and are of approximately equal value, notwithstanding the provisions of this subchapter, provide in the new right-of-way the same terms and conditions as applied to the portion of the existing right-of-way relinquished to the United States with respect to the payment of annual rental, duration of the right-of-way, and the nature of the interest in lands granted. The Secretary concerned or his delegate shall take final action upon all applications for the grant, issue, or renewal of rights-of-way under subsection (b) of this section no later than six months after receipt from the applicant of all information required from the applicant by this subchapter.

Nothing in this subchapter shall be construed to preclude the use of lands covered by this subchapter for highway purposes pursuant to sections 107 and 317 of title 23.

SUBCHAPTER VI—DESIGNATED MANAGEMENT AREAS

§1781. California Desert Conservation Area

(a) Congressional findings

The Congress finds that—

(1) the California desert contains historical, scenic, archeological, environmental, biological, cultural, scientific, educational, recreational, and economic resources that are uniquely located adjacent to an area of large population;

(2) the California desert environment is a total ecosystem that is extremely fragile, easily scarred, and slowly healed;

(3) the California desert environment and its resources, including certain rare and endangered species of wildlife, plants, and fishes, and numerous archeological and historic sites, are seriously threatened by air pollution, inadequate Federal management authority, and pressures of increased use, particularly recreational use, which are certain to intensify because of the rapidly growing population of southern California;

(4) the use of all California desert resources can and should be provided for in a multiple use and sustained yield management plan to conserve these resources for future generations, and to provide present and future use and enjoyment, particularly outdoor recreation uses, including the use, where appropriate, of off-road recreational vehicles;

(5) the Secretary has initiated a comprehensive planning process and established an interim management program for the public lands in the California desert; and

(6) to insure further study of the relationship of man and the California desert environment, preserve the unique and irreplaceable resources, including archeological values, and conserve the use of the economic resources of the California desert, the public must be provided more opportunity to participate in such planning and management, and additional management authority must be provided to the Secretary to facilitate effective implementation of such planning and management.

(b) Statement of purpose

It is the purpose of this section to provide for the immediate and future protection and administration of the public lands in the California desert within the framework of a program of multiple use and sustained yield, and the maintenance of environmental quality.

(c) Description of Area

(1) For the purpose of this section, the term “California desert” means the area generally depicted on a map entitled “California Desert Conservation Area—Proposed” dated April 1974, and described as provided in subsection (c)(2) of this section.

(2) As soon as practicable after October 21, 1976, the Secretary shall file a revised map and a legal description of the California Desert Conservation Area with the Committees on Interior and Insular Affairs of the United States Senate and the House of Representatives, and such map and description shall have the same force and effect as if included in this Act. Correction of clerical and

typographical errors in such legal description and a map may be made by the Secretary. To the extent practicable, the Secretary shall make such legal description and map available to the public promptly upon request.

(d) Preparation and implementation of comprehensive long-range plan for management, use, etc.

The Secretary, in accordance with section 1712 of this title, shall prepare and implement a comprehensive, long-range plan for the management, use, development, and protection of the public lands within the California Desert Conservation Area. Such plan shall take into account the principles of multiple use and sustained yield in providing for resource use and development, including, but not limited to, maintenance of environmental quality, rights-of-way, and mineral development. Such plan shall be completed and implementation thereof initiated on or before September 30, 1980.

(e) Interim program for management, use, etc.

During the period beginning on October 21, 1976, and ending on the effective date of implementation of the comprehensive, long-range plan, the Secretary shall execute an interim program to manage, use, and protect the public lands, and their resources now in danger of destruction, in the California Desert Conservation Area, to provide for the public use of such lands in an orderly and reasonable manner such as through the development of campgrounds and visitor centers, and to provide for a uniformed desert ranger force.

(f) Applicability of mining laws

Subject to valid existing rights, nothing in this Act shall affect the applicability of the United States mining laws on the public lands within the California Desert Conservation Area, except that all mining claims located on public lands within the California Desert Conservation Area shall be subject to such reasonable regulations as the Secretary may prescribe to effectuate the purposes of this section. Any patent issued on any such mining claim shall recite this limitation and continue to be subject to such regulations. Such regulations shall provide for such measures as may be reasonable to protect the scenic, scientific, and environmental values of the public lands of the California Desert Conservation Area against undue impairment, and to assure against pollution of the streams and waters within the California Desert Conservation Area.

(g) Advisory Committee; establishment; functions

(1) The Secretary, within sixty days after October 21, 1976, shall establish a California Desert Conservation Area Advisory Committee (hereinafter referred to as "advisory committee") in accordance with the provisions of section 1739 of this title.

(2) It shall be the function of the advisory committee to advise the Secretary with respect to the preparation and implementation of the comprehensive, long-range plan required under subsection (d) of this section.

(h) Management of lands under jurisdiction of Secretary of Agriculture and Secretary of Defense

The Secretary of Agriculture and the Secretary of Defense shall manage lands within their respective jurisdictions located in or adjacent to the California Desert Conservation Area, in accordance with the laws relating to such lands and wherever practicable, in a manner consonant with the purpose of this section. The Secretary, the Secretary of Agriculture, and the Secretary of Defense are authorized and directed to consult among themselves and take cooperative actions to carry out the provisions of this subsection, including a program of law enforcement in accordance with applicable authorities to protect the archeological and other values of the California Desert Conservation Area and adjacent lands.

(i) Omitted

(j) Authorization of appropriations

There are authorized to be appropriated for fiscal years 1977 through 1981 not to exceed

\$40,000,000 for the purpose of this section, such amount to remain available until expended.

§1782. Bureau of Land Management Wilderness Study

(a) Lands subject to review and designation as wilderness

Within fifteen years after October 21, 1976, the Secretary shall review those roadless areas of five thousand acres or more and roadless islands of the public lands, identified during the inventory required by section 1711(a) of this title as having wilderness characteristics described in the Wilderness Act of September 3, 1964 (78 Stat. 890; 16 U.S.C. 1131 et seq.) and shall from time to time report to the President his recommendation as to the suitability or unsuitability of each such area or island for preservation as wilderness: *Provided*, That prior to any recommendations for the designation of an area as wilderness the Secretary shall cause mineral surveys to be conducted by the United States Geological Survey and the United States Bureau of Mines to determine the mineral values, if any, that may be present in such areas: *Provided further*, That the Secretary shall report to the President by July 1, 1980, his recommendations on those areas which the Secretary has prior to November 1, 1975, formally identified as natural or primitive areas. The review required by this subsection shall be conducted in accordance with the procedure specified in section 3(d) of the Wilderness Act [16 U.S.C. 1132(d)].

(b) Presidential recommendation for designation as wilderness

The President shall advise the President of the Senate and the Speaker of the House of Representatives of his recommendations with respect to designation as wilderness of each such area, together with a map thereof and a definition of its boundaries. Such advice by the President shall be given within two years of the receipt of each report from the Secretary. A recommendation of the President for designation as wilderness shall become effective only if so provided by an Act of Congress.

(c) Status of lands during period of review and determination

During the period of review of such areas and until Congress has determined otherwise, the Secretary shall continue to manage such lands according to his authority under this Act and other applicable law in a manner so as not to impair the suitability of such areas for preservation as wilderness, subject, however, to the continuation of existing mining and grazing uses and mineral leasing in the manner and degree in which the same was being conducted on October 21, 1976:

Provided, That, in managing the public lands the Secretary shall by regulation or otherwise take any action required to prevent unnecessary or undue degradation of the lands and their resources or to afford environmental protection. Unless previously withdrawn from appropriation under the mining laws, such lands shall continue to be subject to such appropriation during the period of review unless withdrawn by the Secretary under the procedures of section 1714 of this title for reasons other than preservation of their wilderness character. Once an area has been designated for preservation as wilderness, the provisions of the Wilderness Act [16 U.S.C. 1131 et seq.] which apply to national forest wilderness areas shall apply with respect to the administration and use of such designated area, including mineral surveys required by section 4(d)(2) of the Wilderness Act [16 U.S.C. 1133(d)(2)], and mineral development, access, exchange of lands, and ingress and egress for mining claimants and occupants.

This plan shall be developed in accordance with the provisions of section 202 of the Federal Land Policy and Management Act of 1976, as amended (43 U.S.C. 1712).

(3) Notwithstanding any other provision of this section, the Secretary is authorized to issue permits or to contract for the quarrying of materials from the area in accordance with the management plan for the area on condition that the lands be reclaimed and restored to the satisfaction of the Secretary. Such authorization to quarry shall require payment of fair market value for the materials to be quarried, as established by the Secretary, and shall also include any terms and conditions which the Secretary determines necessary to protect the values of such quarry lands for purposes of this section.

(c) Revocation of 1866 reservation of lands for lighthouse purposes; restoration to public lands status

The reservation of lands for lighthouse purposes made by Executive order of June 8, 1866, of certain lands totaling approximately 18.1 acres, as depicted on the map referred to in subsection (a) of this section, is hereby revoked. The lands referred to in subsection (a) of this section are hereby restored to the status of public lands as defined in section 103(e) of the Federal Land Policy and Management Act of 1976, as amended (43 U.S.C. 1702) [43 U.S.C. 1702(e)], and shall be administered in accordance with the management plan for the area developed pursuant to subsection (b) of this section, except that such lands are hereby withdrawn from settlement, sale, location, or entry, under the public land laws, including the mining laws (30 U.S.C., ch. 2), leasing under the mineral leasing laws (30 U.S.C. 181 et seq.), and disposals under the Materials Act of July 31, 1947, as amended (30 U.S.C. 601, 602) [43 U.S.C. 601 et seq.].

(d) Acquisition of lands not already in Federal ownership

The Secretary shall, as soon as possible but in no event later than twenty-four months following March 5, 1980, acquire by purchase, exchange, donation, or condemnation all or any part of the lands and waters and interests in lands and waters within the area referred to in subsection (a) of this section which are not in Federal ownership except that State land shall not be acquired by purchase or condemnation. Any lands or interests acquired by the Secretary pursuant to this section shall become public lands as defined in the Federal Land Policy and Management Act of 1976, as amended [43 U.S.C. 1701 et seq.]. Upon acquisition by the United States, such lands are automatically withdrawn under the provisions of subsection (c) of this section except that lands affected by quarrying operations in the area shall be subject to disposals under the Materials Act of July 31, 1947, as amended (30 U.S.C. 601, 602) [30 U.S.C. 601 et seq.]. Any lands acquired pursuant to this subsection shall be administered in accordance with the management plan for the area developed pursuant to subsection (b) of this section.

(e) Wind energy research

The Secretary is authorized to conduct a study relating to the use of lands in the area for purposes of wind energy research. If the Secretary determines after such study that the conduct of wind energy research activity will not substantially impair the values of the lands in the area for purposes of this section, the Secretary is further authorized to issue permits for the use of such lands as a site for installation and field testing of an experimental wind turbine generating system. Any permit issued pursuant to this subsection shall contain such terms and conditions as the Secretary determines necessary to protect the values of such lands for purposes of this section.

(f) Reclamation and restoration of lands affected by quarrying operations

The Secretary shall develop and administer, in addition to any requirements imposed pursuant to subsection (b)(3) of this section, a program for the reclamation and restoration of all lands affected by quarrying operations in the area acquired pursuant to subsection (d) of this section. All revenues received by the United States in connection with quarrying operations authorized by subsection

(b)(3) of this section shall be deposited in a separate fund account which shall be established by the Secretary of the Treasury. Such revenues are hereby authorized to be appropriated to the Secretary as needed for reclamation and restoration of any lands acquired pursuant to subsection (d) of this section. After completion of such reclamation and restoration to the satisfaction of the Secretary, any unexpended revenues in such fund shall be returned to the general fund of the United States Treasury.

(g) Authorization of appropriations

There are hereby authorized to be appropriated in addition to that authorized by subsection (f) of this section, such sums as may be necessary to carry out the provisions of this section.

Notwithstanding any other provision of law, section 1782 of this title shall not apply to any lands in Alaska. However, in carrying out his duties under sections 1711 and 1712 of this title and other applicable laws, the Secretary may identify areas in Alaska which he determines are suitable as wilderness and may, from time to time, make recommendations to the Congress for inclusion of any such areas in the National Wilderness Preservation System, pursuant to the provisions of the Wilderness Act [16 U.S.C. 1131 et seq.]. In the absence of congressional action relating to any such recommendation of the Secretary, the Bureau of Land Management shall manage all such areas which are within its jurisdiction in accordance with the applicable land use plans and applicable provisions of law.

“(B) The lands to be acquired by the Service are within the area impacted by the Exxon Valdez oil spill of 1989, and these lands included important habitat for various species of fish and wildlife for which significant injury resulting from the spill has been documented through the EVOS Trustee Council restoration process. This analysis has indicated that these lands generally have value for the restoration of such injured natural resources as pink salmon, dolly varden, bald eagles, river otters, and cultural and archaeological resources. This analysis has also indicated that these lands generally have high value for the restoration of injured species that rely on these natural resources, including wilderness quality, recreation, tourism, and subsistence.

“(C) Restoration of the injured species will benefit from acquisition and the prevention of disturbances which may adversely affect their recovery.

“(d) ACQUISITION OF LANDS.—

“(1) OFFER TO KNA.—

“(A) IN GENERAL.—Subject to the availability of the funds identified in paragraph (2)(C), no later than 90 days after the date of enactment of this section [Nov. 12, 1996], the Secretary shall offer to convey to KNA the interests in land and rights set forth in paragraph (2)(B), subject to valid existing rights, in return for the conveyance by KNA to the United States of the interests in land or relinquishment of ANCSA selections set forth in paragraph (2)(A). Payment for the lands conveyed to the United States by KNA is contingent upon KNA's acceptance of the entire conveyance outlined herein.

“(B) LIMITATION.—The Secretary may not convey any lands or make payment to KNA under this section unless title to the lands to be conveyed by KNA under this section has been found by the United States to be sufficient in accordance with the provisions of section 355 of the Revised Statutes (40 U.S.C. 255) [now 40 U.S.C. 3111, 3112].

“(2) ACQUISITION LANDS.—

“(A) LANDS TO BE CONVEYED TO THE UNITED STATES.—The lands to be conveyed by KNA to the United States, or the valid selection rights under ANCSA to be relinquished, all situated within the boundary of the Refuge, are the following:

relinquishments outlined above, all KNA's entitlement shall be deemed to be extinguished and the completion of this acquisition will satisfy all of KNA's ANCSA entitlement.

“(vi) The conveyance of an access easement providing the United States and its assigns access across KNA's surface estate in the SW¼ of section 21, T. 6 N., R. 9 W., Seward Meridian, Alaska.

“(vii) The conveyance of approximately 100 acres within the Beaver Creek Patented Tract, which is contiguous to lands being retained by the United States contiguous to the Beaver Creek Patented Tract, in exchange for 280 acres of Service lands currently situated within the Beaver Creek Selected Tract.

“(B) LANDS TO BE CONVEYED TO KNA.—The rights provided or lands to be conveyed by the United States to KNA, are the following:

“(i) The surface and subsurface estate to approximately 5 acres, subject to reservations of easements for existing roads and utilities, located within the city of Kenai, Alaska, identified as United States Survey 1435, withdrawn by Executive Order 2943 and known as the old Fish and Wildlife Service Headquarters site.

“(ii) The remaining subsurface estate held by the United States to approximately 13,651 acres, including portions of the Beaver Creek Patented Tract, the Beaver Creek Selected Tract, and portions of the Swanson River Road West Tract and the Swanson River Road East Tract, where the surface was previously or will be conveyed to KNA pursuant to this Act but excluding the SW¼ of section 21, T. 6 N., R. 9 W., Seward Meridian, Alaska, which will be retained by the United States. The conveyance of these subsurface interests will be subject to the rights of CIRI to the coal, oil, gas, and to all rights CIRI, its successors, and assigns would have under paragraph 1(B) of the Terms and Conditions, including the right to sand and gravel, to construct facilities, to have rights-of-way, and to otherwise develop its subsurface interests.

“(iii)(I) The nonexclusive right to use sand and gravel which is reasonably necessary for on-site development without compensation or permit on those portions of the Swanson River Road East Tract, comprising approximately 1,738.04 acres; where the entire subsurface of the land is presently owned by the United States. The United States shall retain the ownership of all other sand and gravel located within the subsurface and KNA shall not sell or dispose of such sand and gravel.

“(II) The right to excavate within the subsurface estate as reasonably necessary for structures, utilities, transportation systems, and other development of the surface estate.

“(iv) The nonexclusive right to excavate within the subsurface estate as reasonably necessary for structures, utilities, transportation systems, and other development of the surface estate on the SW¼, section 21, T. 6 N., R. 9 W., Seward Meridian, Alaska, where the entire subsurface of the land is owned by the United States and which public lands shall continue to be withdrawn from mining following their removal from the Refuge boundary under paragraph (3)(A)(ii). The United States shall retain the ownership of all other sand and gravel located within the subsurface of this parcel.

If the Department of the Interior establishes a historical, cultural, or archaeological interpretive site, KNA shall have the exclusive right to operate a Dena'ina interpretive site on the Stephanka Tract under the regulations and policies of the department. If KNA declines to operate such a site, the department may do so under its existing authorities. Prior to the department undertaking any archaeological activities whatsoever on the Stephanka Tract, KNA shall be consulted.

“(3) GENERAL PROVISIONS.—

“(A) REMOVAL OF KNA LANDS FROM THE NATIONAL WILDLIFE REFUGE SYSTEM.—

“(i) Effective on the date of closing for the Acquisition Lands identified in paragraph (2)(B), all lands retained by or conveyed to KNA pursuant to this section, and the subsurface interests of CIRI underlying such lands shall be automatically removed from the National Wildlife Refuge System and

shall neither be considered as part of the Refuge nor subject to any laws pertaining solely to lands within the boundaries of the Refuge. The conveyance restrictions imposed by section 22(g) of ANCSA [43 U.S.C. 1621(g)] (i) shall then be ineffective and cease to apply to such interests of KNA and CIRI, and (ii) shall not be applicable to the interests received by KNA in accordance with paragraph (2)(B) or to the CIRI interests underlying them. The Secretary shall adjust the boundaries of the Refuge so as to exclude all interests in lands retained or received in exchange by KNA in accordance with this section, including both surface and subsurface, and shall also exclude all interests currently held by CIRI. On lands within the Swanson River Road East Tract, the boundary adjustment shall only include the surface estate where the subsurface estate is retained by the United States.

“(ii)(I) The Secretary, KNA, and CIRI shall execute an agreement within 45 days of the date of enactment of this section [Nov. 12, 1996] which preserves CIRI's rights under paragraph 1(B)(1) of the Terms and Conditions, addresses CIRI's obligations under such paragraph, and adequately addresses management issues associated with the boundary adjustment set forth in this section and with the differing interests in land resulting from enactment of this section.

“(II) In the event that no agreement is executed as provided for in subclause (I), solely for the purposes of administering CIRI's rights under paragraph 1(B)(1) of the Terms and Conditions, the Secretary and CIRI shall be deemed to have retained their respective rights and obligations with respect to CIRI's subsurface interests under the requirements of the Terms and Conditions in effect on June 18, 1996. Notwithstanding the boundary adjustments made pursuant to this section, conveyances to KNA shall be deemed to remain subject to the Secretary's and CIRI's rights and obligations under paragraph 1(B)(1) of the Terms and Conditions.

“(iii) The Secretary is authorized to acquire by purchase or exchange, on a willing seller basis only, any lands retained by or conveyed to KNA. In the event that any lands owned by KNA are subsequently acquired by the United States, they shall be automatically included in the Refuge System. The laws and regulations applicable to Refuge lands shall then apply to these lands and the Secretary shall then adjust the boundaries accordingly.

“(iv) Nothing in this section is intended to enlarge or diminish the authorities, rights, duties, obligations, or the property rights held by CIRI under the Terms and Conditions, or otherwise except as set forth in this section. In the event of the purchase by the United States of any lands from KNA in accordance with subparagraph (A)(ii), the United States shall reassume from KNA the rights it previously held under the Terms and Conditions and the provisions in any patent implementing section 22(g) of ANCSA [43 U.S.C. 1621(g)] will again apply.

“(v) By virtue of implementation of this section, CIRI is deemed entitled to 1,207 acres of in-lieu subsurface entitlement under section 12(a)(1) of ANCSA [43 U.S.C. 1611(a)(1)]. Such entitlement shall be fulfilled in accordance with paragraph 1(B)(2)(A) of the Terms and Conditions.

“(B) MAPS AND LEGAL DESCRIPTIONS.—Maps and a legal description of the lands described above shall be on file and available for public inspection in the appropriate offices of the United States Department of the Interior, and the Secretary shall, no later than 90 days after enactment of this section, prepare a legal description of the lands described in paragraph (2)(A)(vii). Such maps and legal description shall have the same force and effect as if included in the section, except that the Secretary may correct clerical and typographical errors.

“(C) ACCEPTANCE.—KNA may accept the offer made in this section by notifying the Secretary in writing of its decision within 180 days of receipt of the offer. In the event the offer is rejected, the Secretary shall notify the Committee on Resources [now Committee on Natural Resources] of the House of Representatives and the Committee on Energy and Natural Resources and the Committee on Environment and Public Works of the Senate.

“(D) FINAL MAPS.—Not later than 120 days after the conclusion of the acquisition authorized by paragraph (1), the Secretary shall transmit a final report and maps accurately depicting the lands transferred and conveyed pursuant to this section and the acreage and legal descriptions of such lands to the Committee on Resources [now Committee on Natural Resources] of the House of Representatives and the Committee on Energy and Natural Resources and the Committee on Environment and Public Works of the Senate.

“(e) ADJUSTMENTS TO NATIONAL WILDERNESS SYSTEM.—Upon acquisition of lands by the United States pursuant to subsection (d)(2)(A), that portion of the Stephanka Tract lying south and west of the Kenai River, consisting of approximately 592 acres, shall be included in and managed as part of the Kenai Wilderness and such lands shall be managed in accordance with the applicable provisions of the Wilderness Act and ANILCA.

“(f) DESIGNATION OF LAKE TODATONTEN SPECIAL MANAGEMENT AREA.—

“(1) PURPOSE.—To balance the potential effects on fish, wildlife, and habitat of the removal of KNA lands from the Refuge System, the Secretary is hereby directed to withdraw, subject to valid existing rights, from location, entry, and patent under the mining laws and to create as a special management unit for the protection of fish, wildlife, and habitat, certain unappropriated and unreserved public lands, totaling approximately 37,000 acres adjacent to the west boundary of the Kanuti National Wildlife Refuge to be known as the ‘Lake Todatonten Special Management Area’, as depicted on the map entitled ‘Proposed: Lake Todatonten Special Management Area’, dated June 13, 1996, and to be managed by the Bureau of Land Management.

“(2) MANAGEMENT.—

“(A) Such designation is subject to all valid existing rights as well as the subsistence preferences provided under title VIII of ANILCA [16 U.S.C. 3111 et seq.]. Any lands conveyed to the State of Alaska shall be removed from the Lake Todatonten Special Management Area.

“(B) The Secretary may permit any additional uses of the area, or grant easements, only to the extent that such use, including leasing under the mineral leasing laws, is determined to not detract from nor materially interfere with the purposes for which the Special Management Area is established.

“(C)(i) The BLM shall establish the Lake Todatonten Special Management Area Committee. The membership of the Committee shall consist of 11 members as follows:

“(I) Two residents each from the villages of Alatna, Allakaket, Hughes, and Tanana.

“(II) One representative from each of Doyon Corporation, the Tanana Chiefs Conference, and the State of Alaska.

“(ii) Members of the Committee shall serve without pay.

“(iii) The BLM shall hold meetings of the Lake Todatonten Special Management Area Committee at least once per year to discuss management issues within the Special Management Area. The BLM shall not allow any new type of activity in the Special Management Area without first conferring with the Committee in a timely manner.

“(3) ACCESS.—The Secretary shall allow the following:

“(A) Private access for any purpose, including economic development, to lands within the boundaries of the Special Management Area which are owned by third parties or are held in trust by the Secretary for third parties pursuant to the Alaska Native Allotment Act (25 U.S.C. 336). Such rights may be subject to restrictions issued by the BLM to protect subsistence uses of the Special Management Area.

“(B) Existing public access across the Special Management Area. Section 1110(a) of ANILCA [16 U.S.C. 3170(a)] shall apply to the Special Management Area.

“(4) SECRETARIAL ORDER AND MAPS.—The Secretary shall file with the Committee on Resources [now Committee on Natural Resources] of the House of Representatives and the Committee on Energy and Natural Resources and the Committee on Environment and Public Works of the Senate, the Secretarial Order and maps setting forth the boundaries of the Area within 90 days of the completion of the acquisition authorized by this section. Once established, this Order may only be amended or revoked by Act of Congress.

“(5) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as may be necessary to carry out the purposes of this section.”

1866. Relationship to existing law.

§1801. Congressional findings

The Congress finds and declares that—

(1) the demand for energy in the United States is increasing and will continue to increase for the foreseeable future;

(2) domestic production of oil and gas has declined in recent years;

(3) the United States has become increasingly dependent upon imports of oil from foreign nations to meet domestic energy demand;

(4) increasing reliance on imported oil is not inevitable, but is rather subject to significant reduction by increasing the development of domestic sources of energy supply;

(5) consumption of natural gas in the United States has greatly exceeded additions to domestic reserves in recent years;

(6) technology is or can be made available which will allow significantly increased domestic production of oil and gas without undue harm or damage to the environment;

(7) the Outer Continental Shelf contains significant quantities of oil and natural gas and is a vital national resource reserve which must be carefully managed so as to realize fair value, to preserve and maintain competition, and to reflect the public interest;

(8) there presently exists a variety of technological, economic, environmental, administrative, and legal problems which tend to retard the development of the oil and natural gas reserves of the Outer Continental Shelf;

(9) environmental and safety regulations relating to activities on the Outer Continental Shelf

should be reviewed in light of current technology and information;

(10) the development, processing, and distribution of the oil and gas resources of the Outer Continental Shelf, and the siting of related energy facilities, may cause adverse impacts on various States and local governments;

(11) policies, plans, and programs developed by States and local governments in response to activities on the Outer Continental Shelf cannot anticipate and ameliorate such adverse impacts unless such States, working in close cooperation with affected local governments, are provided with timely access to information regarding activities on the Outer Continental Shelf and an opportunity to review and comment on decisions relating to such activities;

(12) funds must be made available to pay for the prompt removal of any oil spilled or discharged as a result of activities on the Outer Continental Shelf and for any damages to public or private interests caused by such spills or discharges;

(13) because of the possible conflicts between exploitation of the oil and gas resources in the Outer Continental Shelf and other uses of the marine environment, including fish and shellfish growth and recovery, and recreational activity, the Federal Government must assume responsibility for the minimization or elimination of any conflict associated with such exploitation;

(14) the oil and gas resources of the Outer Continental Shelf are limited, nonrenewable resources which must be developed in a manner which takes into consideration the Nation's long-range energy needs and also assures adequate protection of the renewable resources of the Outer Continental Shelf which are a continuing and increasingly important source of food and protein to the Nation and the world; and

(15) funds must be made available to pay for damage to commercial fishing vessels and gear resulting from activities involving oil and gas exploration, development, and production on the Outer Continental Shelf.

SHORT TITLE

Pub. L. 95–372, §1, Sept. 18, 1978, 92 Stat. 629, provided: “That this Act [enacting this chapter, sections 1344 to 1356 of this title, and section 237 of Title 30, Mineral Lands and Mining, amending sections 1331 to 1334, 1337, 1340, and 1343 of this title, sections 1456, 1456a, and 1464 of Title 16, Conservation, and section 6213 of Title 42, The Public Health and Welfare, and enacting provisions set out as notes under sections 1348 and 1811 of this title] may be cited as the ‘Outer Continental Shelf Lands Act Amendments of 1978’.”

§1802. Congressional declaration of purposes

The purposes of this chapter are to—

(1) establish policies and procedures for managing the oil and natural gas resources of the Outer Continental Shelf which are intended to result in expedited exploration and development of the Outer Continental Shelf in order to achieve national economic and energy policy goals, assure national security, reduce dependence on foreign sources, and maintain a favorable balance of payments in world trade;

(2) preserve, protect, and develop oil and natural gas resources in the Outer Continental Shelf in a manner which is consistent with the need (A) to make such resources available to meet the Nation's energy needs as rapidly as possible, (B) to balance orderly energy resource development with protection of the human, marine, and coastal environments, (C) to insure the public a fair and equitable return on the resources of the Outer Continental Shelf, and (D) to preserve and maintain free enterprise competition;

(3) encourage development of new and improved technology for energy resource production

which will eliminate or minimize risk of damage to the human, marine, and coastal environments;

(4) provide States, and through States, local governments, which are impacted by Outer Continental Shelf oil and gas exploration, development, and production with comprehensive assistance in order to anticipate and plan for such impact, and thereby to assure adequate protection of the human environment;

(5) assure that States, and through States, local governments, have timely access to information regarding activities on the Outer Continental Shelf, and opportunity to review and comment on decisions relating to such activities, in order to anticipate, ameliorate, and plan for the impacts of such activities;

(6) assure that States, and through States, local governments, which are directly affected by exploration, development, and production of oil and natural gas are provided an opportunity to participate in policy and planning decisions relating to management of the resources of the Outer Continental Shelf;

(7) minimize or eliminate conflicts between the exploration, development, and production of oil and natural gas, and the recovery of other resources such as fish and shellfish;

(8) establish an oilspill liability fund to pay for the prompt removal of any oil spilled or discharged as a result of activities on the Outer Continental Shelf and for any damages to public or private interests caused by such spills or discharges;

(9) insure that the extent of oil and natural gas resources of the Outer Continental Shelf is assessed at the earliest practicable time; and

(10) establish a fishermen's contingency fund to pay for damages to commercial fishing vessels and gear due to Outer Continental Shelf activities.

(2) a report on the location of the material, equipment, tool, container, or other item which caused such damages and the nature of such damages was made within fifteen days after the date on which the vessel first returns to a port after discovering such damages;

(B) may in any case involving extenuating circumstances, accept a claim that does not meet the 30-day refiling requirement.

(3)(A) The Secretary shall make an initial determination with respect to the claim within 60 days after the day on which the claim is accepted for filing. Within 30 days after the day on which the Secretary issues an initial determination on a claim, the claimant, or any other interested person who submitted evidence relating to the initial determination, may petition the Secretary for a review of that determination.

(B) If a petition for the review of an initial determination is not filed with the Secretary within the 30-day period provided under subparagraph (A), the initial determination shall thereafter be treated as a final determination by the Secretary on the claim involved.

The Secretary shall then undertake such review and, on the basis of such review, issue a final determination no later than the 60th day after the day on which the Secretary received the petition for review of an initial determination.

(e) Claim preparation fees; attorney's fees

If the decision of the Secretary under subsection (d) of this section is in favor of the commercial fisherman filing the claim, the Secretary, as a part of the amount awarded, shall include reasonable claim preparation fees and reasonable attorney's fees, if any, incurred by the claimant in pursuing the claim.

(h) Certification and disbursement of award; subrogation of rights; payment of costs of proceedings

(1) The amount awarded in an initial determination by the Secretary under subsection (d) of this section shall be immediately disbursed, subject to the limitations of this section, by the Secretary if the claimant—

(A) states in writing that he will not petition for review of the initial determination; and

(B) enters into an agreement with the Secretary to repay to the Secretary all or any part of the amount of the award if, after review under subsection (d)(3)(C) of this section or, if applicable, after judicial review, the amount of the award, or any part thereof, is not sustained.

(2) Upon payment of a claim by the Secretary pursuant to this subsection, the Secretary shall acquire by subrogation all rights of the claimant against any person found to be responsible for the damages with respect to which such claim was made. Any moneys recovered by the Secretary through subrogation shall be deposited into the Fund.

(3) Any person who denies responsibility for damages with respect to which a claim is made and who is subsequently ² found to be responsible for such damages, and any commercial fisherman who files a claim for damages and who is subsequently found to be responsible for such damages, shall pay the costs of the proceedings under this section with respect to such claim.

(i) Judicial review

Any claimant or other person who suffers a legal wrong or who is adversely affected or aggrieved by a final determination of the Secretary under subsection (d) of this section, may, no later than 30 days after such determination is made, seek judicial review of the determination in the United States district court for such United States judicial district as may be mutually agreeable to the parties concerned or, if no agreement can be reached, in the United States district court for the United States judicial district in which is located the home port of the claimant.

Section 1847 of this title, referred to in subsec. (f)(2), was repealed by Pub. L. 97–212, §6(a), June 30, 1982, 96 Stat. 147.

AMENDMENTS

1984—Subsec. (a). Pub. L. 98–498 substituted “under subsection (d)(1) of this section” for “, except that no such claim may be filed more than 60 days after the date of discovery of the damages with respect to which such claim is made”.

Subsec. (d)(1). Pub. L. 98–498 inserted “time,” before “form”.

1982—Subsec. (b). Pub. L. 97–212, §5(1), struck out pars. (1) and (2) designations, and substituted “shall take such further action regarding the claim that is required under subsection (d) of this section” for “refer such matter to a hearing examiner appointed under section 3105 of title 5”.

Subsec. (c). Pub. L. 97–212, §5(2), substituted “proceeding” for “hearing”.

Subsec. (d). Pub. L. 97–212, §5(3), substituted provisions relating to the filing of claims with the Secretary of the Interior in order to be eligible for compensation under this subchapter, the time for such filing, the time in which the Secretary must make his initial determination with respect to the claim, and the submission of evidence by the petitioner when reviewing an initial determination by the Secretary, for provisions relating to the time in which a hearing examiner has to render a decision.

Subsec. (e). Pub. L. 97–212, §5(4), substituted provisions that if the decision of the Secretary is in favor of the commercial fisherman filing the claim, the Secretary shall award to such claimant reasonable attorney's fees and claim preparation fees incurred by claimant in pursuing such claim for provisions that upon a decision in favor of the claimant fisherman, the hearing examiner include in the award reasonable attorney's fees incurred by the claimant in pursuing such claim.

Subsec. (f). Pub. L. 97–212, §5(5), substituted “the Secretary” for “hearing examiner” and “proceeding” for

“hearing” wherever appearing. The amendment which directed the substitution of “the Secretary” for “hearing examiner” was executed by substituting “the Secretary” for “the hearing examiner”, as the probable intent of Congress, to avoid repeating the article “the” before “Secretary” in two places.

Subsec. (g). Pub. L. 97–212, §5(6), substituted “Any proceeding conducted with respect to an initial determination on a claim under subsection (d)(3)(A) of this section shall be conducted within such United States judicial district as may be mutually agreeable to the claimant and the Secretary or, if no agreement can be reached, within the United States judicial district in which the home port of the claimant is located” for “A hearing conducted under this section shall be conducted within the United States judicial district within which the matter giving rise to the claim occurred, or, if such matter occurred within two or more districts, in any of the affected districts, or, if such matter occurred outside of any district, in the nearest district”.

Subsec. (h)(1). Pub. L. 97–212, §5(7)(A), substituted provisions that the amount awarded in an initial determination by the Secretary under subsec. (d) be immediately disbursed by the Secretary if the claimant states in writing that he will not petition for review of the initial determination and he enters into an agreement with the Secretary to repay to the Secretary all or any part of the award that is not sustained upon later judicial review for provisions that upon a decision of the hearing examiner and in absence of judicial review, any amount to be paid would be certified to the Secretary who would promptly disburse the award and that such decision of the hearing examiner was not reviewable by the Secretary.

Subsec. (h)(2). Pub. L. 97–212, §5(7)(B), inserted provision that any moneys recovered by the Secretary through subrogation shall be deposited into the Fund.

Subsec. (i). Pub. L. 97–212, §5(8), substituted “Any claimant or other person who suffers a legal wrong or who is adversely affected or aggrieved by a final determination of the Secretary under subsection (d) of this section, may, no later than 30 days after such determination is made, seek judicial review of the determination in the United States district court for such United States judicial district as may be mutually agreeable to the parties concerned or, if no agreement can be reached, in the United States district court for the United States judicial district in which is located the home port of the claimant” for “Any person who suffers legal wrong or who is adversely affected or aggrieved by the decision of a hearing examiner under this section may, no later than 60 days after such decision is made, seek judicial review of such decision in the United States court of appeals for the circuit in which the damage occurred, or if such damage occurred outside of any circuit, in the United States court of appeals for the nearest circuit”.

CHAPTER 37—PUBLIC RANGELANDS IMPROVEMENT

Sec.

- 1901. Congressional findings and declaration of policy.
- 1902. Definitions.
- 1903. Rangelands inventory and management; public availability.
- 1904. Range improvement funding.
- 1905. Grazing fees; economic value of use of land; fair market value components; annual percentage change limitation.
- 1906. Authority for cooperative agreements and payments effective as provided in appropriations.
- 1907. National Grasslands; exemptions.
- 1908. Experimental stewardship program.

§1901. Congressional findings and declaration of policy

(a) The Congress finds and declares that—

(1) vast segments of the public rangelands are producing less than their potential for livestock, wildlife habitat, recreation, forage, and water and soil conservation benefits, and for that reason are in an unsatisfactory condition;

(2) such rangelands will remain in an unsatisfactory condition and some areas may decline further under present levels of, and funding for, management;

(3) unsatisfactory conditions on public rangelands present a high risk of soil loss, desertification,¹ and a resultant underproductivity for large acreages of the public lands; contribute significantly to unacceptable levels of siltation and salinity in major western watersheds including the Colorado River; negatively impact the quality and availability of scarce western water supplies; threaten important and frequently critical fish and wildlife habitat; prevent expansion of the forage resource and resulting benefits to livestock and wildlife production; increase surface runoff and flood danger; reduce the value of such lands for recreational and esthetic purposes; and may ultimately lead to unpredictable and undesirable long-term local and regional climatic and economic changes;

(4) the above-mentioned conditions can be addressed and corrected by an intensive public rangelands maintenance, management, and improvement program involving significant increases in levels of rangeland management and improvement funding for multiple-use values;

(5) to prevent economic disruption and harm to the western livestock industry, it is in the public interest to charge a fee for livestock grazing permits and leases on the public lands which is based on a formula reflecting annual changes in the costs of production;

(6) the Act of December 15, 1971 (85 Stat. 649, 16 U.S.C. 1331 et seq.), continues to be successful in its goal of protecting wild free-roaming horses and burros from capture, branding, harassment, and death, but that certain amendments are necessary thereto to avoid excessive costs in the administration of the Act, and to facilitate the humane adoption or disposal of excess wild free-roaming horses and burros which because they exceed the carrying capacity of the range, pose a threat to their own habitat, fish, wildlife, recreation, water and soil conservation, domestic livestock grazing, and other rangeland values;

(b) The Congress therefore hereby establishes and reaffirms a national policy and commitment to:

(1) inventory and identify current public rangelands conditions and trends as a part of the inventory process required by section 1711(a) of this title;

(2) manage, maintain and improve the condition of the public rangelands so that they become as productive as feasible for all rangeland values in accordance with management objectives and the land use planning process established pursuant to section 1712 of this title;

(3) charge a fee for public grazing use which is equitable and reflects the concerns addressed in paragraph (a)(5) above;

(4) continue the policy of protecting wild free-roaming horses and burros from capture, branding, harassment, or death, while at the same time facilitating the removal and disposal of excess wild free-roaming horses and burros which pose a threat to themselves and their habitat and to other rangeland values;

(c) The policies of this chapter shall become effective only as specific statutory authority for their implementation is enacted by this chapter or by subsequent legislation, and shall be construed as supplemental to and not in derogation of the purposes for which public rangelands are administered under other provisions of law.

§1902. Definitions

As used in this chapter—

(a) The terms “rangelands” or “public rangelands” means lands administered by the Secretary of the Interior through the Bureau of Land Management or the Secretary of Agriculture through the Forest Service in the sixteen contiguous Western States on which there is domestic livestock grazing or which the Secretary concerned determines may be suitable for domestic livestock grazing.

(b) The term “allotment management plan” is the same as defined in section 1702(k) of this title, except that as used in this chapter such term applies to the sixteen contiguous Western States.

§1903. Rangelands inventory and management; public availability

(a) Following enactment of this chapter, the Secretary of the Interior and the Secretary of Agriculture shall update, develop (where necessary) and maintain on a continuing basis thereafter, an inventory of range conditions and record of trends of range conditions on the public rangelands, and shall categorize or identify such lands on the basis of the range conditions and trends thereof as they deem appropriate. Such inventories shall be conducted and maintained by the Secretary as a part of the inventory process required by section 201(a) of the Federal Land Policy and Management Act (43 U.S.C. 1711), and by the Secretary of Agriculture in accordance with section 1603 of title 16; shall be kept current on a regular basis so as to reflect changes in range conditions; and shall be available to the public.

§1904. Range improvement funding

(a) Authorization of additional appropriations

In order to accomplish the purposes of this chapter, there are hereby authorized to be appropriated the sum of an additional \$15,000,000 annually in fiscal years 1980 through 1982; for fiscal years 1983 through 1986 an amount no less than the amount authorized for 1982; and for fiscal years 1987 through 1999 an amount not less than \$5,000,000 annually more than the amount authorized for fiscal year 1986. Such funds shall be in addition to any range, wildlife, and soil and water management moneys which have been requested by the Secretary under the provisions of section 1748 of this title, and in addition to the moneys which are available for range improvements under section 1751 of this title.

(b) Availability of unappropriated funds for subsequent fiscal years

Any amounts authorized by this section not appropriated in one or more fiscal years shall be available for appropriation in any subsequent years.

(c) Fund limitations for prescribed uses; distribution, consultation and coordination; public hearings and meetings; interested parties; priority of cooperative agreements with range users

No less than 80 per centum of such funds provided herein shall be used for on-the-ground range rehabilitation, maintenance and the construction of range improvements (including project layout, project design, and project supervision). No more than 15 per centum of such funds provided herein shall be used to hire and train such experienced and qualified personnel as are necessary to implement on-the-ground supervision and enforcement of the land use plans required pursuant to section 1712 of this title and such allotment management plans as may be developed. Such funds shall be distributed as the Secretary deems advisable after careful and considered consultation and coordination, including public hearings and meetings where appropriate, with the district grazing advisory boards established pursuant to section 1753 of this title, and the advisory councils established pursuant to section 1739 of this title, range user representatives, and other interested parties. To the maximum extent practicable, and where economically sound, the Secretary shall give priority to entering into cooperative agreements with range users (or user groups) for the installation and maintenance of on-the-ground range improvements.

(d) Environmental assessment record and environmental impact statement requirements

Prior to the use of any funds authorized by this section the Secretary shall cause to have prepared an environmental assessment record on each range improvement project. Thereafter, improvement projects may be constructed unless the Secretary determines that the project will have a significant impact on the quality of human environment, necessitating an environmental impact statement pursuant to the National Environmental Policy Act [42 U.S.C. 4321 et seq.] prior to the expenditure of funds.

§1905. Grazing fees; economic value of use of land; fair market value components; annual percentage change limitation

For the grazing years 1979 through 1985, the Secretaries of Agriculture and Interior shall charge the fee for domestic livestock grazing on the public rangelands which Congress finds represents the economic value of the use of the land to the user, and under which Congress finds fair market value for public grazing equals the \$1.23 base established by the 1966 Western Livestock Grazing Survey multiplied by the result of the Forage Value Index (computed annually from data supplied by the Economic Research Service) added to the Combined Index (Beef Cattle Price Index minus the Price Paid Index) and divided by 100: *Provided*, That the annual increase or decrease in such fee for any given year shall be limited to not more than plus or minus 25 per centum of the previous year's fee. (Pub. L. 95-514, §6(a), Oct. 25, 1978, 92 Stat. 1806.)

(a) Scope of program

The Secretaries of Interior and Agriculture are hereby authorized and directed to develop and implement, on an experimental basis on selected areas of the public rangelands which are representative of the broad spectrum of range conditions, trends, and forage values, a program which provides incentives to, or rewards for, the holders of grazing permits and leases whose stewardship results in an improvement of the range condition of lands under permit or lease. Such program shall explore innovative grazing management policies and systems which might provide incentives to improve range conditions. These may include, but need not be limited to—

(1) cooperative range management projects designed to foster a greater degree of cooperation and coordination between the Federal and State agencies charged with the management of the rangelands and with local private range users,

(2) the payment of up to 50 per centum of the amount due the Federal Government from grazing permittees in the form of range improvement work,

§2001. Findings

The Congress finds and declares that—

(1) a serious crude oil supply shortage may soon exist in portions of the United States;

(2) a large surplus of crude oil on the west coast of the United States is projected;

(3) any substantial curtailment of Canadian crude oil exports to the United States could create a severe crude oil shortage in the northern tier States;

(4) pending the authorization and completion of west-to-east crude oil delivery systems, Alaskan crude oil in excess of west coast needs will be transshipped through the Panama Canal at a high transportation cost;

(5) national security and regional supply requirements may be such that west-to-east crude delivery systems serving both the northern tier States and inland States, consistent with the requirements of section 410 of the Act approved November 16, 1973 (87 Stat. 594), commonly known as the Trans-Alaska Pipeline Authorization Act, are needed;

(6) expeditious Federal and State decisions for west-to-east crude oil delivery systems are of the utmost priority; and

(7) resolution of the west coast crude oil surplus and the need for crude oil in northern tier States and inland States require the assignment and coordination of overall responsibility within the executive branch to permit expedited action on all necessary environmental assessments and decisions on permit applications concerning delivery systems.

An application under this section may be accepted by the Secretary only if it contains a general description of the route of the proposed system and identification of the applicant and any other person who, at the time of filing, has a financial or other interest in the system or is a party to an agreement under which such person would acquire a financial or other interest in the system.

(Pub. L. 95–617, title V, §504, Nov. 9, 1978, 92 Stat. 3158.)

§2005. Review schedule

(a) Establishment

The Secretary of the Interior, after consultation with the heads of appropriate Federal agencies, shall establish an expedited schedule for conducting reviews and making recommendations concerning crude oil transportation systems proposed in applications filed under section 2004 of this title and for obtaining information necessary for environmental impact statements required under section 4332 of title 42 with respect to such proposed systems.

(b) Additional information

(1) On his own initiative or at the request of the head of any Federal agency covered by the review schedule established under subsection (a) of this section, the Secretary of the Interior shall require that an applicant provide such additional information as may be necessary to conduct the review of the applicant's proposal. Such information may include—

(A) specific details of the route (and alternative routes) and identification of Federal lands affected by any such route;

(C) transportation costs and delivered prices of crude oil by region under each of such systems;

(D) construction schedules for each of such systems and possibilities for delay in such schedules;

(E) feasibility of financing for each of such systems;

(F) capital and operating costs of each of such systems, including an analysis of the reliability of cost estimates and the risk of cost overruns;

(G) net national economic costs and benefits of each such system;

(H) the extent to which each system complies with the provisions of section 410 of the Act approved November 16, 1973 (87 Stat. 594), commonly known as the Trans-Alaska Pipeline Authorization Act;

(I) the effect of each such system on international relations, including the status and time schedule for any necessary Canadian approvals and plans;

(J) impact upon competition by each system;

(c) Publication of findings and decision

The President shall make available to the public at the time of issuance of a decision under this section a written statement setting forth findings with respect to each of the criteria specified in subsection (b) of this section and describing the nature and route of crude oil transportation systems, if any, which are approved in the decision. If the President's decision is to approve a system, each statement shall set forth his reasons for approving such system over other proposed systems (if any) eligible for consideration under this chapter. Such statement along with notification of such decision shall be published in the Federal Register.

(a) General authority

In order to mitigate losses and damages resulting from drought conditions, the Secretary may make available, by temporary contract, project and nonproject water, and may permit the use of facilities at Federal Reclamation projects for the storage or conveyance of project or nonproject water, for use both within and outside an authorized project service area.

(b) Special provisions applicable to temporary water supplies provided under this section

(1) Temporary supplies

Each temporary contract for the supply of water entered into pursuant to this section shall terminate no later than two years from the date of execution or upon a determination by the Secretary that water supply conditions no longer warrant that such contracts remain in effect, whichever occurs first. The costs associated with any such contract shall be repaid within the term of the contract.

(2) Ownership and acreage limitations

Lands not subject to Reclamation law that receive temporary irrigation water supplies under temporary contracts under this section shall not become subject to the ownership and acreage limitations or pricing provisions of Federal Reclamation law because of the delivery of such temporary water supplies. Lands that are subject to the ownership and acreage limitations of Federal Reclamation law shall not be exempted from those limitations because of the delivery of such temporary water supplies.

(3) Treatment under Reclamation Reform Act of 1982

No temporary contract entered into by the Secretary under this section shall be treated as a “contract” as that term is used in sections 203(a) and 220 of the Reclamation Reform Act of 1982 (Public Law 97–293) [43 U.S.C. 390cc(a), 390tt].

(4) Amendments of existing contracts

Any amendment to an existing contract to allow a contractor to carry out the provisions of this subchapter shall not be considered a new and supplemental benefit for purposes of the Reclamation Reform Act of 1982 (Public Law 97–293) [43 U.S.C. 390aa et seq.].

(c) Contract price

The price for project water, other than water purchased pursuant to section 2211(c) of this title, delivered under a temporary contract entered into by the Secretary under this section shall be at least sufficient to recover all Federal operation and maintenance costs and administrative costs, and an appropriate share of capital costs, including interest on such capital costs allocated to municipal and industrial water, except that, for project water delivered to nonproject landholdings, the price shall include full cost (as defined in section 202(3) of the Reclamation Reform Act of 1982 (Public Law 97–293; 96 Stat. 1263; 43 U.S.C. 390bb) [43 U.S.C. 390bb(3)]). For all contracts entered into by the Secretary under the authority of this subchapter—

(1) the interest rate used for computing interest during construction and interest on the unpaid balance of the capital costs expended pursuant to this chapter shall be at a rate to be determined by the Secretary of the Treasury based on average market yields on outstanding marketable obligations of the United States with remaining periods to maturity of one year occurring during the last month of the fiscal year preceding the date of execution of the temporary contract; or

(2) in the case of existing facilities the rate as authorized for that Federal Reclamation project; or

(3) in the absence of such authorized rate, the interest rate as determined by the Secretary of the Treasury as of the beginning of the fiscal year in which construction was initiated on the basis of the computed average interest rate payable by the Treasury upon its outstanding marketable public obligations which were neither due nor callable for redemption for fifteen years from date of issue: *Provided*, That for all deliveries of water for municipal and industrial purposes from existing facilities to nonproject contractors, the rate shall be as set forth in paragraph (1) of this subsection.

(d) Fish and wildlife

The Secretary may make water from Federal Reclamation projects and nonproject water available on a nonreimbursable basis for the purposes of protecting or restoring fish and wildlife resources, including mitigation losses, that occur as a result of drought conditions or the operation of a Federal Reclamation project during drought conditions. The Secretary may store and convey project and nonproject water for fish and wildlife purposes, and may provide conveyance of any such water for both State and Federal wildlife habitat and for habitat held in private ownership. The Secretary may make available water for these purposes outside the authorized project service area. Use of the Federal storage and conveyance facilities for these purposes shall be on a nonreimbursable basis. Water made available by the Secretary in 1991 from the Central Valley Project, California, to the Grasslands Water District for the purpose of fish and wildlife shall be nonreimbursable.

(e) Nonproject water

The Secretary is authorized to store and convey nonproject water utilizing Federal Reclamation project facilities for use outside and inside the authorized project service area for municipal and industrial uses, fish and wildlife, and agricultural uses. Except in the case of water supplied for fish and wildlife, which shall be nonreimbursable, the Secretary shall charge the recipients of such water for such use of Federal Reclamation project facilities at a rate established pursuant to subsection (c) of this section.

(f) Reclamation Fund

The payment of capital costs attributable to the sale of project or nonproject water or the use of Federal Reclamation project facilities shall be covered into the Reclamation Fund and be placed to the credit of the project from which such water or use of such facilities is supplied.

CHAPTER 41—FEDERAL LAND TRANSACTION FACILITATION

Sec.	
2301.	Findings.
2302.	Definitions.
2303.	Identification of inholdings.
2304.	Disposal of public land.
2305.	Federal Land Disposal Account.
2306.	Special provisions.

§2301. Findings

Congress finds that—

- (1) the Bureau of Land Management has authority under the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq.) to sell land identified for disposal under its land use planning;
- (2) the Bureau of Land Management has authority under that Act to exchange Federal land for non-Federal land if the exchange would be in the public interest;
- (3) through land use planning under that Act, the Bureau of Land Management has identified

certain tracts of public land for disposal;

(4) the Federal land management agencies of the Departments of the Interior and Agriculture have authority under existing law to acquire land consistent with the mission of each agency;

(5) the sale or exchange of land identified for disposal and the acquisition of certain non-Federal land from willing landowners would—

(A) allow for the reconfiguration of land ownership patterns to better facilitate resource management;

(B) contribute to administrative efficiency within Federal land management units; and

(C) allow for increased effectiveness of the allocation of fiscal and human resources within the Federal land management agencies;

(6) a more expeditious process for disposal and acquisition of land, established to facilitate a more effective configuration of land ownership patterns, would benefit the public interest;

(7) many private individuals own land within the boundaries of Federal land management units and desire to sell the land to the Federal Government;

(8) such land lies within national parks, national monuments, national wildlife refuges, national forests, and other areas designated for special management;

(9) Federal land management agencies are facing increased workloads from rapidly growing public demand for the use of public land, making it difficult for Federal managers to address problems created by the existence of inholdings in many areas;

(10) in many cases, inholders and the Federal Government would mutually benefit from Federal acquisition of the land on a priority basis;

(11) proceeds generated from the disposal of public land may be properly dedicated to the acquisition of inholdings and other land that will improve the resource management ability of the Federal land management agencies and adjoining landowners;

(12) using proceeds generated from the disposal of public land to purchase inholdings and other such land from willing sellers would enhance the ability of the Federal land management agencies to—

(A) work cooperatively with private landowners and State and local governments; and

(B) promote consolidation of the ownership of public and private land in a manner that would allow for better overall resource management;

(13) in certain locations, the sale of public land that has been identified for disposal is the best way for the public to receive fair market value for the land; and

(14) to allow for the least disruption of existing land and resource management programs, the Bureau of Land Management may use non-Federal entities to prepare appraisal documents for agency review and approval consistent with applicable provisions of the Uniform Standards for Federal Land Acquisition.
