(a) In general

No funds made available under this part to a local educational agency for an elementary school or secondary school that does not receive services at discount rates under section 254(h)(5) of title 47 may be used to purchase computers used to access the Internet, or to pay for direct costs associated

with accessing the Internet, for such school unless the school, school board, local educational agency, or other authority with responsibility for administration of such school both—

(iii) harmful to minors; and

(B) is enforcing the operation of such technology protection measure during any use of such computers by minors; and

(2)(A) has in place a policy of Internet safety that includes the operation of a technology protection measure with respect to any of its computers with Internet access that protects against access through such computers to visual depictions that are—

(i) obscene; or

(ii) child pornography; and

(2) Process

(C) Waivers

Any school subject to a certification under subparagraph (B)(i)(II) for which the local educational agency concerned cannot make the certification otherwise required by that subparagraph may seek a waiver of that subparagraph if State or local procurement rules or regulations or competitive bidding requirements prevent the making of the certification otherwise required by that subparagraph. The local educational agency concerned shall notify the Secretary of the applicability of that subparagraph to the school. Such notice shall certify that the school will be brought into compliance with the requirements in subsection (a) of this section before the start of the third program year after December 21, 2000, in which the school is applying for funds under this part.

Whenever the Secretary has reason to believe that any recipient of funds under this part is failing to comply substantially with the requirements of this section, the Secretary may—

(A) withhold further payments to the recipient under this part;

(B) issue a complaint to compel compliance of the recipient through a cease and desist order; or

(C) enter into a compliance agreement with a recipient to bring it into compliance with such requirements,

(3) Recommencement of payments

Whenever the Secretary determines (whether by certification or other appropriate evidence) that a recipient of funds who is subject to the withholding of payments under paragraph (1)(A) has cured the failure providing the basis for the withholding of payments, the Secretary shall cease the withholding of payments to the recipient under that paragraph.

PART D—MAGNET SCHOOLS ASSISTANCE

CODIFICATION

Pub. L. 114–95, title IV, §4001(b)(3)(A)–(C), Dec. 10, 2015, 129 Stat. 1967, redesignated part C (§7231 et seq.) of subchapter V of this chapter as part D of this subchapter.

§7231. Findings and purpose

(a) Findings

Congress makes the following findings:

(1) Magnet schools are a significant part of the Nation's effort to achieve voluntary desegregation in our Nation's schools.

(2) The use of magnet schools has increased dramatically since the inception of the magnet schools assistance program under this chapter, with approximately 2,500,000 students nationwide attending such schools, of whom more than 69 percent are non-white.

(3) Magnet schools offer a wide range of distinctive programs that have served as models for school improvement efforts.

(4) It is in the best interests of the United States—

(A) to continue the Federal Government's support of local educational agencies that are implementing court-ordered desegregation plans and local educational agencies that are voluntarily seeking to foster meaningful interaction among students of different racial and ethnic backgrounds, beginning at the earliest stage of such students' education;

(B) to ensure that all students have equitable access to a high quality education that will prepare all students to function well in a technologically oriented and a highly competitive economy comprised of people from many different racial and ethnic backgrounds; and

(C) to continue to desegregate and diversify schools by supporting magnet schools, recognizing that segregation exists between minority and nonminority students as well as among students of different minority groups.

(5) Desegregation efforts through magnet school programs are a significant part of our Nation's effort to achieve voluntary desegregation in schools and help to ensure equal educational opportunities for all students.

(b) Purpose

The purpose of this part is to assist in the desegregation of schools served by local educational agencies by providing financial assistance to eligible local educational agencies for—

(1) the elimination, reduction, or prevention of minority group isolation in elementary schools and secondary schools with substantial proportions of minority students, which shall include assisting in the efforts of the United States to achieve voluntary desegregation in public schools;

(2) the development, implementation, and expansion of magnet school programs that will assist local educational agencies in achieving systemic reforms and providing all students the opportunity to meet challenging State academic standards;

(3) the development, design, and expansion of innovative educational methods and practices that promote diversity and increase choices in public elementary schools and public secondary schools and public educational programs;

(4) courses of instruction within magnet schools that will substantially strengthen the knowledge of academic subjects and the attainment of tangible and marketable career, technological, and professional skills of students attending such schools;

(5) improving the capacity of local educational agencies, including through professional development, to continue operating magnet schools at a high performance level after Federal funding for the magnet schools is terminated; and

(6) ensuring that all students enrolled in the magnet school programs have equitable access to high quality education that will enable the students to succeed academically and continue with postsecondary education or employment.

Except as provided in paragraphs (3) and (4), the Secretary shall award a grant under subsection (a) to a local educational agency eligible under section 7345(b) of this title for a fiscal year in an amount equal to the initial amount determined under paragraph (2) for the fiscal year minus the total amount received by the agency under the provisions of law described in section 7345(c) of this title for the preceding fiscal year.

(B) Special determination

For a local educational agency that is eligible under section 7345(b)(1)(C) of this title and is a member of an educational service agency, the Secretary may determine the award amount by subtracting from the initial amount determined under paragraph (2), an amount that is equal to that local educational agency's per-pupil share of the total amount received by the educational service agency under the provisions described in section 7345(c) of this title, as long as a determination under this subparagraph would not disproportionately affect any State.

(B) Additional amounts

If additional funds become available for making payments under paragraph (1) for such fiscal year, payments that were reduced under subparagraph (A) shall be increased on the same basis as such payments were reduced.

§7351. Program authorized

(a) Grants to States

(1) In general

From amounts appropriated under section 7355c of this title for this subpart for a fiscal year that are not reserved under subsection (c) of this section, the Secretary shall award grants (from allotments made under paragraph (2)) for the fiscal year to State educational agencies that have applications submitted under section 7351b of this title approved to enable the State educational agencies to award grants to eligible local educational agencies for local authorized activities described in section 7351a(a) of this title.

(2) Allotment

From amounts described in paragraph (1) for a fiscal year, the Secretary shall allot to each State educational agency for that fiscal year an amount that bears the same ratio to those amounts as the number of students in average daily attendance served by eligible local educational agencies in the State for that fiscal year bears to the number of all such students served by eligible local educational agencies in all States for that fiscal year.

(3) Specially qualified agencies

(A) Eligibility and application

If a State educational agency elects not to participate in the program under this subpart or does not have an application submitted under section 7351b of this title approved, a specially qualified agency in such State desiring a grant under this subpart may submit an application under such section directly to the Secretary to receive an award under this subpart.

(B) Direct awards

The Secretary may award, on a competitive basis or by formula, the amount the State educational agency is eligible to receive under paragraph (2) directly to a specially qualified agency in the State that has submitted an application in accordance with subparagraph (A) and obtained approval of the application.

(C) Specially qualified agency defined

In this subpart, the term "specially qualified agency" means an eligible local educational agency served by a State educational agency that does not participate in a program under this subpart in a fiscal year, that may apply directly to the Secretary for a grant in such year under this subsection.

(b) Local awards

(1) Eligibility

A local educational agency shall be eligible to receive a grant under this subpart if—

(A)(i) 20 percent or more of the children ages 5 through 17 years served by the local educational agency are from families with incomes below the poverty line; and

(ii) all of the schools served by the agency are designated with a locale code of 32, 33, 41, 42, or 43, as determined by the Secretary; or

(B) the agency meets the criteria established in clause (i) of subparagraph (A) and the Secretary, in accordance with paragraph (2), grants the local educational agency's request to waive the criteria described in clause (ii) of such subparagraph.

(2) Certification

The Secretary shall determine whether to waive the criteria described in paragraph (1)(A)(ii) based on a demonstration by the local educational agency, and concurrence by the State educational agency, that the local educational agency is located in an area defined as rural by a governmental agency of the State.

(3) Award basis

A State educational agency shall award grants to eligible local educational agencies—

(A) on a competitive basis;

(B) according to a formula based on the number of students in average daily attendance served by the eligible local educational agencies or schools in the State; or

(C) according to an alternative formula, if, prior to awarding the grants, the State educational agency demonstrates, to the satisfaction of the Secretary, that the alternative formula enables the State educational agency to allot the grant funds in a manner that serves equal or greater concentrations of children from families with incomes below the poverty line, relative to the concentrations that would be served if the State educational agency used the formula described in subparagraph (B).

(c) Reservations

From amounts appropriated under section 7355c of this title for this subpart for a fiscal year, the Secretary shall reserve—

(1) one-half of 1 percent to make awards to elementary schools or secondary schools operated or supported by the Bureau of Indian Education, to carry out the activities authorized under this subpart; and

EX. ORD. NO. 13592. IMPROVING AMERICAN INDIAN AND ALASKA NATIVE EDUCATIONAL OPPORTUNITIES AND STRENGTHENING TRIBAL COLLEGES AND UNIVERSITIES

Ex. Ord. No. 13592, Dec. 2, 2011, 76 F.R. 76603, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, I hereby order as follows:

SECTION 1. *Policy*. The United States has a unique political and legal relationship with the federally recognized American Indian and Alaska Native (AI/AN) tribes across the country, as set forth in the Constitution of the United States, treaties, Executive Orders, and court decisions. For centuries, the Federal Government's relationship with these tribes has been guided by a trust responsibility—a long-standing commitment on the part of our Government to protect the unique rights and ensure the well-being of our Nation's tribes, while respecting their tribal sovereignty. In recognition of that special commitment—and in fulfillment of the solemn obligations it entails—Federal agencies must help improve educational opportunities provided to all AI/AN students, including students attending public schools in cities and in rural areas, students attending schools operated and funded by the Department of the Interior's Bureau of Indian Education (BIE), and students attending postsecondary institutions, including Tribal Colleges and Universities (TCUs). This is an urgent need. Recent studies show that AI/AN students are dropping out of school at an alarming rate, that our Nation has made little or no progress in closing the achievement gap between AI/AN students and their non-AI/AN student counterparts, and that many Native languages are on the verge of extinction.

It is the policy of my Administration to support activities that will strengthen the Nation by expanding educational opportunities and improving educational outcomes for all AI/AN students in order to fulfill our commitment to furthering tribal self-determination and to help ensure that AI/AN students have an opportunity to learn their Native languages and histories and receive complete and competitive educations that prepare them for college, careers, and productive and satisfying lives.

My Administration is also committed to improving educational opportunities for students attending TCUs. TCUs maintain, preserve, and restore Native languages and cultural traditions; offer a high-quality college education; provide career and technical education, job training, and other career-building programs; and often serve as anchors in some of the country's poorest and most remote areas.

SEC. 2. *Definitions*. (a) "Agency" means any executive department or agency designated by the Secretary of Education and the Secretary of the Interior to participate in this order.

(b) "Indian tribe" means an Indian or Alaska Native tribe, band, nation, pueblo, village, or community that the Secretary of the Interior acknowledges to exist as an Indian tribe pursuant to the Federally Recognized Indian Tribe List Act of 1994, 25 U.S.C. 479a [et seq.].

(c) "American Indian and Alaska Native" means a member of an Indian tribe, as membership is defined by the tribe.

(d) "Public school" means a Head Start center or a pre-kindergarten, elementary, or secondary school that is predominantly funded by public means through the Federal Government, a State, a local educational agency, or an Indian tribal government, including a school operated directly by or through contract or grant with the BIE, an Indian tribe, or a State, county, or local government.

(e) "Tribal Colleges and Universities" are those institutions that are chartered by their respective Indian tribes through the sovereign authority of the tribes or by the Federal Government, and defined in section 316 of the Higher Education Act of 1965 (20 U.S.C. 1059c).

SEC. 3. *White House Initiative on American Indian and Alaska Native Education.*

(a) *Establishment*. There is hereby established the White House Initiative on American Indian and Alaska Native Education (Initiative). The Secretary of Education and the Secretary of the Interior will co-chair the Initiative. The Secretary of Education shall appoint an Executive Director who shall be responsible for overseeing implementation of the Initiative. This individual shall be a senior-level, Department of Education official who shall serve as the Secretary of Education's senior policy advisor on Federal policies affecting AI/AN education.

The Executive Director shall work closely with the BIE Director and shall provide periodic reports to the Secretaries of Education and the Interior regarding progress achieved under the Initiative. The Executive Director shall coordinate frequent consultations with tribal officials and shall provide staff support for the National Advisory Council on Indian Education (NACIE), authorized by section 7141 [now 6141] of the Elementary and Secondary Education Act of 1965 (ESEA) (20 U.S.C. 7471).

(b) *Mission and Functions*. (1) The Initiative shall help expand educational opportunities and improve educational outcomes for all AI/AN students, including opportunities to learn their Native languages, cultures, and histories and receive complete and competitive educations that prepare them for college, careers, and productive and satisfying lives, by:

(i) working closely with the Executive Office of the President to help ensure AI/AN participation in the development and implementation of key Administration priorities;

(ii) strengthening the relationship between the Department of Education, which has substantial expertise and resources to help improve Indian education, and the Department of the Interior and its BIE, which directly operates or provides grants to tribes to operate an extensive primary, secondary, and college level school system for AI/AN children and young adults;

(iii) coordinating, in consultation with the Department of Education's Director of Indian Education, programs administered by the Department of Education and other executive branch agencies regarding AI/AN education;

(iv) serving as a liaison with other executive branch agencies on AI/AN issues and advising those agencies on how they might help to promote AI/AN educational opportunities;

(v) reporting on the development, implementation, and coordination of education policy and programs that affect AI/AN students;

(vi) furthering tribal sovereignty by supporting efforts, consistent with applicable law, to build the capacity of tribal educational agencies and TCUs to provide high-quality education services to AI/AN children;

(vii) developing in partnership with tribal educational agencies a more routine and streamlined process for entering into agreements for educational studies conducted on tribal lands;

(viii) developing sufficient data resources to inform progress on Federal performance indicators, in close collaboration with the Department of Education's National Center for Educational Statistics;

(ix) encouraging and coordinating Federal partnerships with public, private, philanthropic, and nonprofit entities to help increase the readiness of AI/AN students for school, college, and careers, and to help increase the number and percentage of AI/AN students completing college; and

(x) developing a national network of individuals, organizations, and communities to share best practices in AI/AN education and encouraging them to implement these practices.

(2) In order to help expand educational opportunities and improve education outcomes for AI/AN students, the Initiative shall promote, encourage, and undertake efforts, consistent with applicable law, to meet the following objectives:

(i) increasing the number and percentage of AI/AN children who enter kindergarten ready for success through improved access to high-quality early learning programs and services, including Native language immersion programs, that encourage the learning and development of AI/AN children from birth through age five;

(ii) supporting the expanded implementation of education reform strategies that have shown evidence of success in enabling AI/AN students to acquire a rigorous and well-rounded education and increasing their

access to the support services that prepare them for college, careers, and civic involvement;

(iii) increasing the number and percentage of AI/AN students who have access to excellent teachers and school leaders, including effective science, technology, engineering, and mathematics (STEM), language, and special education teachers, in part by supporting efforts to improve the recruitment, development, and retention of effective AI/AN teachers and other effective teachers and school leaders, particularly through TCUs;

(iv) reducing the AI/AN student dropout rate and helping a greater number and percentage of those students who stay in high school to be ready for college and careers by the time of their graduation and college completion, in part by promoting a positive school climate and supporting successful and innovative dropout-prevention and recovery strategies that better engage AI/AN youths in their learning and help them catch up academically;

(v) providing pathways that enable those who have dropped out to reenter educational or training programs and acquire degrees, certificates, or industry-recognized credentials and obtain quality jobs, and expanding access to high-quality education programs leading to career advancement, especially in the STEM fields, by supporting adult, career, and technical education;

(vi) increasing college access and completion for AI/AN students through strategies to strengthen the capacity of postsecondary institutions, particularly TCUs; and

(vii) helping to ensure that the unique cultural, educational, and language needs of AI/AN students are met.

(3) To facilitate a new partnership between the Department of Education and the Department of the Interior, to improve AI/AN education, the Executive Director shall work with the BIE Director and develop a Memorandum of Understanding (MOU) between the two Departments that will take advantage of both Departments' expertise, resources, and facilities. The MOU shall be completed within 120 days of the date of this order. Among other things, the MOU shall address how the Departments will collaborate in carrying out the policy set out in section 1 of this order.

(c) *Funding and Administrative Support*. Subject to the availability of appropriations, the Department of Education shall fund the Initiative, including NACIE. The Department shall also provide administrative support for the Initiative to the extent permitted by law and within existing appropriations.

(d) *Interagency Working Group*. There is established the Interagency Working Group on AI/AN education and TCUs, which shall be convened by the Initiative's Executive Director. The Working Group shall consist of senior officials from the Department of Education and the Department of the Interior and officials from the Departments of Justice, Agriculture, Labor, Health and Human Services, and Energy, the Environmental Protection Agency, and the White House Domestic Policy Council, as well as such additional agencies and offices as the Secretaries of Education and the Interior may designate. Senior officials shall be designated by the heads of their respective agencies and offices. The Secretaries of Education and the Interior shall serve as the co-chairs of the Interagency Working Group.

(e) *Federal Agency Plans*. (1) Each agency designated by the co-chairs as a member of the Interagency Working Group shall develop and implement a two-part, 4-year plan of the agency's efforts to fulfill the purposes of this order, with part one of the plan focusing on all AI/AN students except for those attending TCUs, and part two focusing on AI/AN students attending TCUs. Each agency plan shall include:

(i) annual performance indicators and appropriate measurable objectives with which the agency will measure its success in meeting the goals of this order;

(ii) information on how the agency intends to increase the capacity of educational agencies and institutions, including our Nation's public schools and TCUs, to deliver high-quality education and related social services to all AI/AN students; and

(iii) agency efforts to enhance the ability of these educational agencies and institutions serving AI/AN students to compete effectively for grants, contracts, cooperative agreements, and other Federal resources with which to serve the education needs of AI/AN students, and to encourage eligible schools and colleges serving those students to apply for Federal grants and participate in Federal education programs, as appropriate. Agency plans may also emphasize access to high-quality educational opportunities for AI/AN students, consistent with requirements of the ESEA, the Individuals with Disabilities Education Act, and other applicable Federal education statutes; the preservation and revitalization of tribal languages and cultural traditions; and innovative approaches to more seamlessly align early learning, elementary, and secondary education programs with the work of TCUs.

(2) *Submission*. Each agency shall submit its plan to the Initiative by a deadline established by the co-chairs. In consultation with NACIE, the Initiative shall then review agency plans and develop, for submission to the President, a synthesized interagency plan to achieve the aims of this order.

(3) *Annual Performance Reports*. Each agency shall submit to the Initiative an Annual Performance Report that measures the agency's performance against the objectives set forth in its plan. In consultation with

NACIE, the Initiative shall review and combine Annual Performance Reports from the various agencies into one annual report, which shall be submitted to the Secretaries of Education and the Interior for review.

(f) *Private Sector*. In consultation with NACIE, and consistent with applicable law, the Interagency Working Group, led by the Executive Director, shall encourage the private sector to assist State- and locally-operated public schools that serve large numbers of AI/AN students, including those attending our Nation's public schools, publicly-funded preschools, and TCUs, through increased use of such strategies as:

(1) Providing funds to support the preservation and revitalization of Native languages and cultures;

(2) Providing funds to support increased institutional endowments;

(3) Helping these schools develop expertise in financial and facilities management, information systems, and curricula; and

(4) Providing resources for the hiring and training of effective teachers and administrators.

SEC. 4. *Study*. In carrying out this order, the Secretaries of Education and the Interior shall study and collect information on the education of AI/AN students.

SEC. 5. *General Provisions*. (a) NACIE shall serve as the Initiative's advisory committee.

(b) Insofar as the Federal Advisory Committee Act, as amended (5 U.S.C. App.), may apply to the Initiative, any functions of the President under that Act, except for those of reporting to the Congress, shall be performed by the Secretary of Education, in consultation with the Secretary of the Interior, in accordance with the guidelines issued by the Administrator of General Services.

(c) This order revokes Executive Order 13270 of July 3, 2002, Executive Order 13336 of April 30, 2004, and section 1(n) of Executive Order 13585 of September 30, 2011.

(d) The heads of agencies shall assist and provide such information to the Initiative as may be necessary to carry out its functions, consistent with applicable law.

(e) Nothing in this order shall be construed to impair or otherwise affect:

(1) authority granted by law to an executive department, agency, or the head thereof; or

(2) functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(f) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

§7426. Integration of services authorized

(a) Plan

An entity receiving funds under this subpart may submit a plan to the Secretary for the integration of education and related services provided to Indian students.

(b) Consolidation of programs

Upon the receipt of an acceptable plan under subsection (a) of this section, the Secretary, in cooperation with each Federal agency providing grants for the provision of education and related services to the entity, shall authorize the entity to consolidate, in accordance with such plan, the federally funded education and related services programs of the entity and the Federal programs, or portions of the programs, serving Indian students in a manner that integrates the program services involved into a single, coordinated, comprehensive program and reduces administrative costs by consolidating administrative functions.

(c) Programs affected

The funds that may be consolidated in a demonstration project under any such plan referred to in subsection (a) of this section shall include funds for any Federal program exclusively serving Indian children, or the funds reserved under any Federal program to exclusively serve Indian children, under which the entity is eligible for receipt of funds under a statutory or administrative formula for the purposes of providing education and related services that would be used to serve Indian students.

(d) Plan requirements

For a plan to be acceptable pursuant to subsection (b) of this section, the plan shall—

(1) identify the programs or funding sources to be consolidated;

(2) be consistent with the objectives of this section concerning authorizing the services to be integrated in a demonstration project;

(3) describe a comprehensive strategy that identifies the full range of potential educational opportunities and related services to be provided to assist Indian students to achieve the objectives

set forth in this subpart;

(e) Plan review

Upon receipt of the plan from an eligible entity, the Secretary shall consult with the Secretary of each Federal department providing funds to be used to implement the plan, and with the entity submitting the plan. The parties so consulting shall identify any waivers of statutory requirements or of Federal departmental regulations, policies, or procedures necessary to enable the entity to implement the plan. Notwithstanding any other provision of law, the Secretary of the affected department shall have the authority to waive any regulation, policy, or procedure promulgated by that department that has been so identified by the entity or department, unless the Secretary of the affected department determines that such a waiver is inconsistent with the objectives of this subpart or those provisions of the statute from which the program involved derives authority that are specifically applicable to Indian students.

(f) Plan approval

Within 90 days after the receipt of an entity's plan by the Secretary, the Secretary shall inform the entity, in writing, of the Secretary's approval or disapproval of the plan. If the plan is disapproved, the entity shall be informed, in writing, of the reasons for the disapproval and shall be given an opportunity to amend the plan or to petition the Secretary to reconsider such disapproval.

(g) Responsibilities of Department of Education

Not later than 180 days after December 10, 2015, the Secretary of Education, the Secretary of the Interior, the Secretary of Health and Human Services, and the head of any other Federal department or agency identified by the Secretary of Education, shall enter into an interdepartmental memorandum of agreement providing for the implementation and coordination of the demonstration projects authorized under this section. (4) the provision of technical assistance to an eligible entity appropriate to the project, except that an eligible entity shall have the authority to accept or reject the plan for providing such technical assistance and the technical assistance provider.

(i) Report requirements

A single report format shall be developed by the Secretary, consistent with the requirements of this section. Such report format shall require that reports described in subsection (h) of this section, together with records maintained on the consolidated program at the local level, shall contain such information as will allow a determination that the eligible entity has complied with the requirements incorporated in its approved plan, including making a demonstration of student academic achievement, and will provide assurances to each Secretary that the eligible entity has complied with all directly applicable statutory requirements and with those directly applicable regulatory requirements that have not been waived.

(j) No reduction in amounts

In no case shall the amount of Federal funds available to an eligible entity involved in any demonstration project be reduced as a result of the enactment of this section.

(k) Interagency fund transfers authorized

The Secretary is authorized to take such action as may be necessary to provide for an interagency transfer of funds otherwise available to an eligible entity in order to further the objectives of this section.

(l) Administration of funds

(1) In general

Program funds for the consolidated programs shall be administered in such a manner as to allow for a determination that funds from a specific program are spent on allowable activities authorized under such program, except that the eligible entity shall determine the proportion of the funds granted that shall be allocated to such program.

(2) Separate records not required

Nothing in this section shall be construed as requiring the eligible entity to maintain separate records tracing any services or activities conducted under the approved plan to the individual programs under which funds were authorized for the services or activities, nor shall the eligible entity be required to allocate expenditures among such individual programs.

(m) Overage

The eligible entity may commingle all administrative funds from the consolidated programs and shall be entitled to the full amount of such funds (under each program's or agency's regulations). The overage (defined as the difference between the amount of the commingled funds and the actual administrative cost of the programs) shall be considered to be properly spent for Federal audit purposes, if the overage is used for the purposes provided for under this section.

(n) Fiscal accountability

Nothing in this part shall be construed so as to interfere with the ability of the Secretary or the lead agency to fulfill the responsibilities for the safeguarding of Federal funds pursuant to chapter 75 of title 31.

For purposes of determining whether a child is eligible to be counted for the purpose of computing the amount of a grant award under section 7423 of this title, the membership of the child, or any parent or grandparent of the child, in a tribe or band of Indians (as so defined) may be established by proof other than an enrollment number, notwithstanding the availability of an enrollment number for a member of such tribe or band. §7512. Findings

Congress finds the following:

(1) Native Hawaiians are a distinct and unique indigenous people with a historical continuity to the original inhabitants of the Hawaiian archipelago, whose society was organized as a nation and internationally recognized as a nation by the United States, Britain, France, and Japan, as evidenced by treaties governing friendship, commerce, and navigation.

(2) At the time of the arrival of the first nonindigenous people in Hawaii in 1778, the Native Hawaiian people lived in a highly organized, self-sufficient subsistence social system based on a communal land tenure system with a sophisticated language, culture, and religion.

(3) A unified monarchal government of the Hawaiian Islands was established in 1810 under Kamehameha I, the first King of Hawaii.

(4) From 1826 until 1893, the United States recognized the sovereignty and independence of the

Kingdom of Hawaii, which was established in 1810 under Kamehameha I, extended full and complete diplomatic recognition to the Kingdom of Hawaii, and entered into treaties and conventions with the Kingdom of Hawaii to govern friendship, commerce and navigation in 1826, 1842, 1849, 1875, and 1887.

(5) In 1893, the sovereign, independent, internationally recognized, and indigenous government of Hawaii, the Kingdom of Hawaii, was overthrown by a small group of non-Hawaiians, including United States citizens, who were assisted in their efforts by the United States Minister, a United States naval representative, and armed naval forces of the United States. Because of the participation of United States agents and citizens in the overthrow of the Kingdom of Hawaii, in 1993 the United States apologized to Native Hawaiians for the overthrow and the deprivation of the rights of Native Hawaiians to self-determination through Public Law 103–150 (107 Stat. 1510).

(6) In 1898, the joint resolution entitled "Joint Resolution to provide for annexing the Hawaiian Islands to the United States", approved July 7, 1898 (30 Stat. 750), ceded absolute title of all lands held by the Republic of Hawaii, including the government and crown lands of the former Kingdom of Hawaii, to the United States, but mandated that revenue generated from the lands be used "solely for the benefit of the inhabitants of the Hawaiian Islands for educational and other public purposes".

(7) By 1919, the Native Hawaiian population had declined from an estimated 1,000,000 in 1778 to an alarming 22,600, and in recognition of this severe decline, Congress enacted the Hawaiian Homes Commission Act, 1920 (42 Stat. 108), which designated approximately 200,000 acres of ceded public lands for homesteading by Native Hawaiians.

(8) Through the enactment of the Hawaiian Homes Commission Act, 1920, Congress affirmed the special relationship between the United States and the Native Hawaiians, which was described by then Secretary of the Interior Franklin K. Lane, who said: "One thing that impressed me . . . was the fact that the natives of the island who are our wards, I should say, and for whom in a sense we are trustees, are falling off rapidly in numbers and many of them are in poverty.".

(9) In 1938, Congress again acknowledged the unique status of the Hawaiian people by including in the Act of June 20, 1938 (52 Stat. 781, chapter 530; 16 U.S.C. 391b, 391b–1, 392b, 392c, 396, 396a), a provision to lease lands within the National Parks extension to Native Hawaiians and to permit fishing in the area "only by native Hawaiian residents of said area or of adjacent villages and by visitors under their guidance.".

(10) Under the Act entitled "An Act to provide for the admission of the State of Hawaii into the Union", approved March 18, 1959 (73 Stat. 4), the United States transferred responsibility for the administration of the Hawaiian Home Lands to the State of Hawaii but reaffirmed the trust relationship between the United States and the Hawaiian people by retaining the exclusive power to enforce the trust, including the power to approve land exchanges and amendments to such Act affecting the rights of beneficiaries under such Act.

(11) In 1959, under the Act entitled "An Act to provide for the admission of the State of Hawaii into the Union", the United States also ceded to the State of Hawaii title to the public lands formerly held by the United States, but mandated that such lands be held by the State "in public trust" and reaffirmed the special relationship that existed between the United States and the Hawaiian people by retaining the legal responsibility to enforce the public trust responsibility of the State of Hawaii for the betterment of the conditions of Native Hawaiians, as defined in section 201(a) of the Hawaiian Homes Commission Act, 1920.

(12) The United States has recognized and reaffirmed that—

(A) Native Hawaiians have a cultural, historic, and land-based link to the indigenous people who exercised sovereignty over the Hawaiian Islands, and that group has never relinquished its claims to sovereignty or its sovereign lands;

(B) Congress does not extend services to Native Hawaiians because of their race, but because of their unique status as the indigenous people of a once sovereign nation as to whom the United States has established a trust relationship;

(C) Congress has also delegated broad authority to administer a portion of the Federal trust

responsibility to the State of Hawaii;

(D) the political status of Native Hawaiians is comparable to that of American Indians and Alaska Natives; and

(E) the aboriginal, indigenous people of the United States have—

(i) a continuing right to autonomy in their internal affairs; and

(ii) an ongoing right of self-determination and self-governance that has never been extinguished.

(13) The political relationship between the United States and the Native Hawaiian people has been recognized and reaffirmed by the United States, as evidenced by the inclusion of Native Hawaiians in—

(A) the Native American Programs Act of 1974 (42 U.S.C. 2991 et seq.);

(B) the American Indian Religious Freedom Act (42 U.S.C. 1996[, 1996a]);

(C) the National Museum of the American Indian Act (20 U.S.C. 80q et seq.);

(F) the Native American Languages Act (25 U.S.C. 2901 et seq.);

(G) the American Indian, Alaska Native, and Native Hawaiian Culture and Art Development Act (20 U.S.C. 4401 et seq.);

(H) the Workforce Innovation and Opportunity Act; and

(I) the Older Americans Act of 1965 (42 U.S.C. 3001 et seq.).

AMENDMENTS

2015—Pars. (14) to (21). Pub. L. 114–95, §6003(a), struck out pars. (14) to (21) which read as follows:

"(14) In 1981, Congress instructed the Office of Education to submit to Congress a comprehensive report on Native Hawaiian education. The report, entitled the 'Native Hawaiian Educational Assessment Project', was released in 1983 and documented that Native Hawaiians scored below parity with regard to national norms on standardized achievement tests, were disproportionately represented in many negative social and physical statistics indicative of special educational needs, and had educational needs that were related to their unique cultural situation, such as different learning styles and low self-image.

"(15) In recognition of the educational needs of Native Hawaiians, in 1988, Congress enacted title IV of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988 (102 Stat. 130) to authorize and develop supplemental educational programs to address the unique conditions of Native Hawaiians.

"(16) In 1993, the Kamehameha Schools Bishop Estate released a 10-year update of findings of the Native Hawaiian Educational Assessment Project, which found that despite the successes of the programs established under title IV of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988, many of the same educational needs still existed for Native Hawaiians. Subsequent reports by the Kamehameha Schools Bishop Estate and other organizations have generally confirmed those findings. For example—

"(A) educational risk factors continue to start even before birth for many Native Hawaiian children, including—

"(i) late or no prenatal care;

"(ii) high rates of births by Native Hawaiian women who are unmarried; and

"(iii) high rates of births to teenage parents;

"(B) Native Hawaiian students continue to begin their school experience lagging behind other students in terms of readiness factors such as vocabulary test scores;

"(C) Native Hawaiian students continue to score below national norms on standardized education achievement tests at all grade levels;

"(D) both public and private schools continue to show a pattern of lower percentages of Native

Hawaiian students in the uppermost achievement levels and in gifted and talented programs;

"(E) Native Hawaiian students continue to be overrepresented among students qualifying for special education programs provided to students with learning disabilities, mild intellectual disabilities, emotional impairment, and other such disabilities;

"(F) Native Hawaiians continue to be underrepresented in institutions of higher education and among adults who have completed four or more years of college;

"(G) Native Hawaiians continue to be disproportionately represented in many negative social and physical statistics indicative of special educational needs, as demonstrated by the fact that—

"(i) Native Hawaiian students are more likely to be retained in grade level and to be excessively absent in secondary school;

"(ii) Native Hawaiian students have the highest rates of drug and alcohol use in the State of Hawaii; and

"(iii) Native Hawaiian children continue to be disproportionately victimized by child abuse and neglect; and

"(H) Native Hawaiians now comprise over 23 percent of the students served by the State of Hawaii Department of Education, and there are and will continue to be geographically rural, isolated areas with a high Native Hawaiian population density.

"(17) In the 1998 National Assessment of Educational Progress, Hawaiian fourth-graders ranked 39th among groups of students from 39 States in reading. Given that Hawaiian students rank among the lowest groups of students nationally in reading, and that Native Hawaiian students rank the lowest among Hawaiian students in reading, it is imperative that greater focus be placed on beginning reading and early education and literacy in Hawaii.

"(18) The findings described in paragraphs (16) and (17) are inconsistent with the high rates of literacy and integration of traditional culture and Western education historically achieved by Native Hawaiians through a Hawaiian language-based public school system established in 1840 by Kamehameha III.

"(19) Following the overthrow of the Kingdom of Hawaii in 1893, Hawaiian medium schools were banned. After annexation, throughout the territorial and statehood period of Hawaii, and until 1986, use of the Hawaiian language as an instructional medium in education in public schools was declared unlawful. The declaration caused incalculable harm to a culture that placed a very high value on the power of language, as exemplified in the traditional saying: 'I ka 'lelo n ke ola; I ka 'lelo n ka make. In the language rests life; In the language rests death.'.

"(20) Despite the consequences of over 100 years of nonindigenous influence, the Native Hawaiian people are determined to preserve, develop, and transmit to future generations their ancestral territory and their cultural identity in accordance with their own spiritual and traditional beliefs, customs, practices, language, and social institutions.

"(21) The State of Hawaii, in the constitution and statutes of the State of Hawaii—

"(A) reaffirms and protects the unique right of the Native Hawaiian people to practice and perpetuate their culture and religious customs, beliefs, practices, and language;

"(B) recognizes the traditional language of the Native Hawaiian people as an official language of the State of Hawaii, which may be used as the language of instruction for all subjects and grades in the public school system; and

"(C) promotes the study of the Hawaiian culture, language, and history by providing a Hawaiian education program and using community expertise as a suitable and essential means to further the program."

2014—Par. (13)(E). Pub. L. 113–287 substituted "division A of subtitle III of title 54" for "the National Historic Preservation Act (16 U.S.C. 470 et seq.)".

Par. (13)(H). Pub. L. 113–128 substituted "the Workforce Innovation and Opportunity Act" for "the Workforce Investment Act of 1998 (29 U.S.C. 2801 et seq.)".

2010—Par. (16)(E). Pub. L. 111–256 substituted "mild intellectual disabilities," for "mild mental retardation,".

§7542. Findings

Congress finds and declares the following:

(1) It is the policy of the Federal Government to maximize the leadership of and participation by Alaska Natives in the planning and the management of Alaska Native education programs and to support efforts developed by and undertaken within the Alaska Native community to improve educational opportunity for all students.

(2) Many Alaska Native children enter and exit school with serious educational disadvantages.

(3) Overcoming the magnitude of the geographic challenges, historical inequities, and other barriers to successfully improving educational outcomes for Alaska Native students in rural, village, and urban settings is challenging. Significant disparities between academic achievement of Alaska Native students and non-Native students continue, including lower graduation rates, increased school dropout rates, and lower achievement scores on standardized tests.

(4) The preservation of Alaska Native cultures and languages and the integration of Alaska Native cultures and languages into education, positive identity development for Alaska Native students, and local, place-based, and culture-based programming are critical to the attainment of educational success and the long-term well-being of Alaska Native students.

(5) Improving educational outcomes for Alaska Native students increases access to employment opportunities.

(6) The Federal Government should lend support to efforts developed by and undertaken within the Alaska Native community to improve educational opportunity for Alaska Native students. In 1983, pursuant to Public Law 98–63, Alaska ceased to receive educational funding from the Bureau of Indian Affairs. The Bureau of Indian Education does not operate any schools in Alaska, nor operate or fund Alaska Native education programs. The program under this part supports the Federal trust responsibility of the United States to Alaska Natives.

SUBCHAPTER VII—IMPACT AID

CODIFICATION

Pub. L. 114–95, title VII, §7001(c), Dec. 10, 2015, 129 Stat. 2074, redesignated subchapter VIII (§7701 et seq.) of this chapter as this subchapter.

Title VII of the Elementary and Secondary Education Act of 1965, comprising this subchapter, was originally enacted as part of Pub. L. 89–10, Apr. 11, 1965, 79 Stat. 27, and subsequently revised, restated, redesignated, and amended by other public laws. Title VII is shown, herein, as having been added as title VIII of Pub. L. 89–10 by Pub. L. 103–382, title I, §101, Oct. 20, 1994, 108 Stat. 3749, without reference to earlier amendments because of the extensive revision of the title's provisions by Pub. L. 103–382. Title VIII of Pub. L. 89–10 was subsequently redesignated title VII by Pub. L. 114–95, title VII, §7001(c), Dec. 10, 2015, 129 Stat. 2074, and transferred to this subchapter. See Codification note preceding section 6301 of this title.

PRIOR PROVISIONS

A prior title VII of the Elementary and Secondary Education Act of 1965, comprising former subchapter VII (§7401 et seq.) of this chapter, was redesignated title VI of the Act by Pub. L. 114–95, title VI, §6001(a), Dec. 10, 2015, 129 Stat. 2046, and transferred to subchapter VI (§7401 et seq.) of this chapter.

§7701. Purpose

In order to fulfill the Federal responsibility to assist with the provision of educational services to federally connected children in a manner that promotes control by local educational agencies with little or no Federal or State involvement, because certain activities of the Federal Government, such as activities to fulfill the responsibilities of the Federal Government with respect to Indian tribes and activities under section 4001 of title 50, place a financial burden on the local educational agencies serving areas where such activities are carried out, and to help such children meet the same challenging State academic standards, it is the purpose of this subchapter to provide financial assistance to local educational agencies that—

(1) experience a substantial and continuing financial burden due to the acquisition of real property by the United States;

(2) educate children who reside on Federal property and whose parents are employed on Federal property;

(3) educate children of parents who are in the military services and children who live in low-rent housing;

(4) educate heavy concentrations of children whose parents are civilian employees of the

Federal Government and do not reside on Federal property; or

(5) need special assistance with capital expenditures for construction activities because of the enrollments of substantial numbers of children who reside on Federal lands and because of the difficulty of raising local revenue through bond referendums for capital projects due to the inability to tax Federal property.

§7702. Payments relating to Federal acquisition of real property

(a) In general

Where the Secretary, after consultation with any local educational agency and with the appropriate State educational agency, determines—

(1) that the United States owns Federal property in the local educational agency, and that such property—

(A) has been acquired by the United States since 1938;

(B) was not acquired by exchange for other Federal property in the local educational agency which the United States owned before 1939; and

(C) had an assessed value according to original records (including facsimiles or other reproductions of those records) documenting the assessed value of such property (determined as of the time or times when so acquired) prepared by the local officials referred to in subsection (b)(3) or, when such original records are not available due to unintentional destruction (such as natural disaster, fire, flooding, pest infestation, or deterioration due to age), other records, including Federal agency records, local historical records, or other records that the Secretary determines to be appropriate and reliable, aggregating 10 percent or more of the assessed value of—

(i) all real property in the local educational agency (similarly determined as of the time or times when such Federal property was so acquired); or

(ii) all real property in the local educational agency as assessed in the first year preceding or succeeding acquisition, whichever is greater, only if—

(I) the assessment of all real property in the local educational agency is not made at the same time or times that such Federal property was so acquired and assessed; and

(II) State law requires an assessment be made of property so acquired; and

(2) that such agency is not being substantially compensated for the loss in revenue resulting from such ownership by increases in revenue accruing to the agency from the conduct of Federal activities with respect to such Federal property,

then such agency shall be eligible to receive the amount described in subsection (b) or (h) of this section.

(b) Amount

(1) In general

(A)(i)(I) Subject to subclauses (II) and (III), the amount that a local educational agency shall be paid under subsection (a) of this section for a fiscal year shall be calculated in accordance with paragraph (2).

(II) Except as provided in subclause (III), the Secretary may not reduce the amount of a payment under this section to a local educational agency for a fiscal year by (aa) the amount equal to the amount of revenue, if any, the agency received during the previous fiscal year from activities conducted on Federal property eligible under this section and located in a school district served by the agency, including amounts received from any Federal department or agency (other than the Department of Education) from such activities, by reason of receipt of such revenue, or (bb) any other amount by reason of receipt of such revenue.

(III) If the amount equal to the sum of (aa) the proposed payment under this section to a local educational agency for a fiscal year and (bb) the amount of revenue described in subclause (II)(aa) received by the agency during the previous fiscal year, exceeds the maximum amount the agency is eligible to receive under this section for the fiscal year involved, then the Secretary shall reduce the amount of the proposed payment under this section by an amount equal to such excess amount.

(ii) For purposes of clause (i), the amount of revenue that a local educational agency receives during the previous fiscal year from activities conducted on Federal property shall not include payments received by the agency from the Secretary of Defense to support—

(I) the operation of a domestic dependent elementary or secondary school; or

(II) the provision of a free public education to dependents of members of the Armed Forces residing on or near a military installation.

(B) If funds appropriated under section 7714(a) of this title are insufficient to pay the amount determined under subparagraph (A), the Secretary shall calculate the payment for each eligible local educational agency in accordance with subsection (h) of this section.

(C) Notwithstanding any other provision of this subsection, a local educational agency may not be paid an amount under this section that, when added to the amount such agency receives under section 7703(b) of this title, exceeds the maximum amount that such agency is eligible to receive for such fiscal year under section 7703(b)(1)(C) of this title, or the maximum amount that such agency is eligible to receive for such fiscal year under this section, whichever is greater.

(2) Application of current levied real property tax rate

In calculating the amount that a local educational agency is eligible to receive for a fiscal year, the Secretary shall apply the current levied real property tax rate for current expenditures levied by fiscally independent local educational agencies, or imputed for fiscally dependent local educational agencies, to the current annually determined estimated taxable value of such acquired Federal property.

(3) Determination of taxable value for eligible Federal property

(A) In general

In determining the estimated taxable value of such acquired Federal property for fiscal year 2010 and each succeeding fiscal year, the Secretary shall—

(i) first determine the total taxable value for the purpose of levying property tax for school purposes for current expenditures of real property located within the boundaries of such local educational agency;

(ii) then determine the per acre value of the eligible Federal property by dividing the total taxable value as determined in clause (i) by the difference between the total acres located within the boundaries of the local educational agency and the number of Federal acres eligible under this section; and

(iii) then determine the total taxable value of the eligible Federal property by multiplying the per acre value as calculated under clause (ii) by the number of Federal acres eligible under this section.

(B) Special rule

In the case of Federal property eligible under this section that is within the boundaries of 2 or more local educational agencies that are eligible under this section, any of such agencies may ask the Secretary to calculate (and the Secretary shall calculate) the taxable value of the eligible Federal property that is within its boundaries by—

(i) first calculating the per-acre value of the eligible Federal property separately for each eligible local educational agency that shared the Federal property, as provided in subparagraph (A)(ii);

(ii) then averaging the resulting per-acre values of the eligible Federal property from each eligible local educational agency that shares the Federal property; and

(iii) then applying the average per-acre value to determine the total taxable value of the eligible Federal property under subparagraph (A)(iii) for the requesting local educational agency.

(c) Applicability to Tennessee Valley Authority Act

For the purpose of this section, any real property with respect to which payments are being made under section 13 of the Tennessee Valley Authority Act of 1933 [16 U.S.C. 831l] shall not be regarded as Federal property.

(d) Ownership by United States

The United States shall be deemed to own Federal property for the purposes of this chapter, where—

(1) prior to the transfer of Federal property, the United States owned Federal property meeting the requirements of subparagraphs (A), (B), and (C) of subsection (a)(1) of this section; and

(2) the United States transfers a portion of the property referred to in paragraph (1) to another nontaxable entity, and the United States—

(A) restricts some or any construction on such property;

(B) requires that the property be used in perpetuity for the public purposes for which the property was conveyed;

(C) requires the grantee of the property to report to the Federal Government (or its agent) regarding information on the use of the property;

(D) except with the approval of the Federal Government (or its agent), prohibits the sale, lease, assignment, or other disposal of the property unless such sale, lease, assignment, or other disposal is to another eligible government agency; and

(E) reserves to the Federal Government a right of reversion at any time the Federal Government (or its agent) deems it necessary for the national defense.

(e) Local educational agency containing Forest Service land and serving certain counties

Beginning with fiscal year 1995, a local educational agency shall be deemed to meet the requirements of subsection (a)(1)(C) of this section if such local educational agency meets the following requirements:

(1) Acreage and acquisition by the Forest Service

The local educational agency serves a school district that contains between 20,000 and 60,000 acres of land that has been acquired by the Forest Service of the Department of Agriculture between 1915 and 1990, as demonstrated by written evidence from the Forest Service satisfactory to the Secretary.

(2) County charter

The local educational agency serves a county chartered under State law in 1875 or 1890. For each fiscal year beginning on or after December 10, 2015, the Secretary shall treat local educational agencies chartered in 1871 having more than 70 percent of the county in Federal ownership as meeting the eligibility requirements of subparagraphs (A) and (C) of subsection (a)(1).

(f) Special rule

For each fiscal year beginning on or after December 10, 2015, a local educational agency shall be deemed to meet the requirements of subsection (a)(1)(C) if the agency was eligible under paragraph (1) or (3) of section 7702(f) of this title as such section was in effect on the day before December 10, 2015.

(g) Former districts

(1) Consolidations

For fiscal year 2006 and each succeeding fiscal year, if a local educational agency described in paragraph (2) is formed at any time after 1938 by the consolidation of 2 or more former school districts, the local educational agency may elect to have the Secretary determine its eligibility for assistance under this section for any fiscal year on the basis of 1 or more of those former districts, as designated by the local educational agency.

(2) Eligible local educational agencies

A local educational agency referred to in paragraph (1) is—

(A) any local educational agency that, for fiscal year 1994 or any preceding fiscal year, applied, and was determined to be eligible under, section 2(c) of the Act of September 30, 1950 (Public Law 874, 81st Congress) as that section was in effect for that fiscal year; or

(B) a local educational agency—

(i) that was formed by the consolidation of 2 or more districts, at least 1 of which was eligible for assistance under this section for the fiscal year preceding the year of the consolidation; and

(ii) which includes the designation referred to in paragraph (1) in its application under section 7705 of this title for a fiscal year beginning on or after December 10, 2015, or any timely amendment to such application.

(3) Amount

A local educational agency eligible under paragraph (1) shall receive a foundation payment as provided for under subparagraphs (A) and (B) of subsection (h)(1), except that the foundation payment shall be calculated based on the most recent payment received by the local educational agency based on its status prior to consolidation.

(h) Payments with respect to fiscal years in which insufficient funds are appropriated

For any fiscal year for which the amount appropriated under section 7714(a) of this title is insufficient to pay to each eligible local educational agency the full amount determined under subsection (b) of this section, the Secretary shall make payments to each local educational agency under this section as follows:

(1) Foundation payments for pre-2010 recipients

(A) In general

The Secretary shall first make a foundation payment to each local educational agency that is determined by the Secretary to be eligible to receive a payment under this section for the fiscal year involved and that filed a timely application, and met, or has been determined by statute to meet, the eligibility requirements of subsection (a) for fiscal year 2009.

(B) Amount

(i) In general

The amount of a payment under subparagraph (A) for a local educational agency shall be equal to the greater of 90 percent of the payment the local educational agency received from dollars appropriated for fiscal year 2009 or 90 percent of the average payment that the local educational agency received from dollars appropriated for fiscal years 2006, 2007, 2008, and 2009, and shall be calculated without regard to the maximum payment provisions in subsection (b)(1)(C).

(ii) Exception

In calculating such average payment for a local educational agency that did not receive a payment under subsection (b) for 1 or more of the fiscal years between fiscal year 2006 and 2009, inclusive, the lowest such payment made to the agency for fiscal year 2006, 2007, 2008, or 2009, shall be treated as the payment that the agency received under subsection (b) for each fiscal year for which the agency did not receive such a payment.

(C) Insufficient appropriations

If the amount appropriated under section 7714(a) of this title is insufficient to pay the full amount determined under this paragraph for all eligible local educational agencies for the fiscal year, then the Secretary shall ratably reduce the payment to each local educational agency under this paragraph.

(2) Foundation payments for new applicants

(A) First year

From any amounts remaining after making payments under paragraph (1) and subsection (i)(1) for the fiscal year involved, the Secretary shall make a payment, in an amount determined in accordance with subparagraph (C), to each local educational agency that the Secretary

determines eligible for a payment under this section for a fiscal year after fiscal year 2009 and that did not receive a payment under paragraph (1) for the fiscal year for which such agency was determined eligible for such payment.

(B) Second and succeeding years

For any succeeding fiscal year after the first fiscal year that a local educational agency receives a foundation payment under subparagraph (A), the amount of the local educational agency's foundation payment under this paragraph for such succeeding fiscal year shall be equal to the local educational agency's foundation payment under this paragraph for the first fiscal year.

(C) Amounts

The amount of a payment under subparagraph (A) for a local educational agency shall be determined as follows:

(i) Calculate the local educational agency's maximum payment under subsection (b).

(ii) Calculate the percentage that the amount appropriated under section 7714(a) of this title for the most recent fiscal year for which the Secretary has completed making payments under this section is of the total maximum payments for such fiscal year for all local educational agencies eligible for a payment under subsection (b) and multiply the agency's maximum payment by such percentage.

(iii) Multiply the amount determined under clause (ii) by 90 percent.

(D) Insufficient funds

If the amount appropriated under section 7714(a) of this title is insufficient to pay the full amount determined under this paragraph for all eligible local educational agencies for the fiscal year, then the Secretary shall ratably reduce the payment to each local educational agency under this paragraph.

(3) Remaining funds

From any funds remaining after making payments under paragraphs (1) and (2) for the fiscal year involved, the Secretary shall make a payment to each local educational agency that received a foundation payment under paragraph (1) or (2) or subsection (i)(1), for the fiscal year involved in an amount that bears the same relation to the remainder as a percentage share determined for the local educational agency (by dividing the maximum amount that the agency is eligible to receive under subsection (b) by the total of the maximum amounts for all such agencies) bears to the percentage share determined (in the same manner) for all local educational agencies eligible to receive a payment under this section for the fiscal year involved, except that, for the purpose of calculating a local educational agency's maximum amount under subsection (b), data from the most current fiscal year shall be used.

(4) Data

For each local educational agency that received a payment under this section for fiscal year 2010 or any succeeding fiscal year, the Secretary shall not make a payment under paragraph (3) to a local educational agency that fails to submit, within 60 days of the date the Secretary notifies the agency that the information is needed, the data necessary to calculate the maximum amount of a payment under subsection (b) for that local educational agency.

(i) Special payments

(1) In general

For any fiscal year beginning with fiscal year 2000 for which the amount appropriated to carry out this section exceeds the amount so appropriated for fiscal year 1996 and for which subsection (b)(1)(B) of this section applies, the Secretary shall use the remainder described in subsection (h)(3) of this section for the fiscal year involved (not to exceed the amount equal to the difference between (A) the amount appropriated to carry out this section for fiscal year 1997 and (B) the amount appropriated to carry out this section for fiscal year 1996) to increase the payment that

would otherwise be made under this section to not more than 50 percent of the maximum amount determined under subsection (b) of this section for any local educational agency described in paragraph (2).

(2) Local educational agency described

A local educational agency described in this paragraph is a local educational agency that—

(A) received a payment under this section for fiscal year 1996;

(B) serves a school district that contains all or a portion of a United States military academy;

(C) serves a school district in which the local tax assessor has certified that at least 60 percent of the real property is federally owned; and

(D) demonstrates to the satisfaction of the Secretary that such agency's per-pupil revenue derived from local sources for current expenditures is not less than that revenue for the preceding fiscal year.

(j) Prior year data

Notwithstanding any other provision of this section, in determining the eligibility of a local educational agency for a payment under subsection (b) or (h)(2) of this section for a fiscal year, and in calculating the amount of such payment, the Secretary—

(1) shall use data from the prior fiscal year with respect to the Federal property involved, including data with respect to the assessed value of the property and the real property tax rate for current expenditures levied against or imputed to the property; and

(2) shall use data from the second prior fiscal year with respect to determining the amount of revenue referred to in subsection (b)(1)(A)(i) of this section.

(k) Loss of eligibility

(1) In general

Notwithstanding any other provision of this section, the Secretary shall make a minimum payment to a local educational agency described in paragraph (2), for the first fiscal year that the agency loses eligibility for assistance under this section as a result of property located within the school district served by the agency failing to meet the definition of Federal property under section 7713(5)(C)(iii) of this title, in an amount equal to 90 percent of the amount received by the agency under this section for the preceding year.

(2) Local educational agency described

A local educational agency described in this paragraph is an agency that—

(A) was eligible for, and received, a payment under this section for fiscal year 2002; and

(B) beginning in fiscal year 2003 or a subsequent fiscal year, is no longer eligible for payments under this section as provided for in subsection (a)(1)(C) of this section as a result of the transfer of the Federal property involved to a non-Federal entity.

§7703. Payments for eligible federally connected children

(a) Computation of payment

(1) In general

For the purpose of computing the amount that a local educational agency is eligible to receive under subsection (b) or (d) of this section for any fiscal year, the Secretary shall determine the number of children who were in average daily attendance in the schools of such agency, and for whom such agency provided free public education, during the preceding school year and who, while in attendance at such schools—

(A)(i) resided on Federal property with a parent employed on Federal property situated in whole or in part within the boundaries of the school district of such agency; or

(ii) resided on Federal property with a parent who is an official of, and accredited by, a foreign government and is a foreign military officer;

(B) resided on Federal property and had a parent on active duty in the uniformed services (as defined in section 101 of title 37);

(C) resided on Indian lands;

(D)(i) had a parent on active duty in the uniformed services (as defined by section 101 of title 37) but did not reside on Federal property; or

(ii) had a parent who is an official of, and has been accredited by, a foreign government and is a foreign military officer but did not reside on Federal property;

(F) resided on Federal property and is not described in subparagraph (A) or (B); or

(G) resided with a parent employed on Federal property situated—

(i) in whole or in part in the county in which such agency is located, or in whole or in part in such agency if such agency is located in more than one county; or

(ii) if not in such county, in whole or in part in the same State as such agency.

(2) Determination of weighted student units

For the purpose of computing the basic support payment under subsection (b) of this section, the Secretary shall calculate the total number of weighted student units for a local educational agency by adding together the results obtained by the following computations:

(A) Multiply the number of children described in subparagraphs (A) and (B) of paragraph (1) by a factor of 1.0.

(B) Multiply the number of children described in paragraph (1)(C) by a factor of 1.25.

(C) Multiply the number of children described in subparagraphs (A) and (B) of paragraph (1) by a factor of .35 if the local educational agency has—

(i) a number of such children described in such subparagraphs which exceeds 5,000; and

(ii) an average daily attendance for all children which exceeds 100,000.

(D) Multiply the number of children described in subparagraph (D) of paragraph (1) by a factor of .20.

(F) Multiply the number of children described in subparagraphs (F) and (G) of paragraph (1) by a factor of .05.

(3) Special rule

The Secretary shall only compute a payment for a local educational agency for children described in subparagraph (F) or (G) of paragraph (1) if the number of such children equals or exceeds 1,000 or such number equals or exceeds 10 percent of the total number of students in average daily attendance in the schools of such agency.

(4) Military installation and Indian housing undergoing renovation or rebuilding

(A) Military installation housing

Beginning in fiscal year 2014, in determining the amount of a payment for a local educational agency for children described in paragraph (1)(D)(i), the Secretary shall consider those children as if they were children described in paragraph (1)(B) if the Secretary determines, on the basis of a certification provided to the Secretary by a designated representative of the Secretary of Defense, that those children would have resided in housing on Federal property if the housing was not undergoing renovation or rebuilding. The total number of children treated as children described in paragraph (1)(B) shall not exceed the lessor of—

(i) the total number of children eligible under paragraph (1)(B) for the year prior to the initiation of the housing project on Federal property undergoing renovation or rebuilding; or

(ii) the total number of Federally connected children enrolled at the local educational agency as stated in the application filed for the payment for the year for which the determination is made.

(B) Indian lands

Beginning in fiscal year 2014, in determining the amount of a payment for a local educational agency that received a payment for children that resided on Indian lands in accordance with paragraph (1)(C) for the fiscal year prior to the fiscal year for which the local educational agency is making an application, the Secretary shall consider those children to be children described in paragraph (1)(C) if the Secretary determines on the basis of a certification provided to the Secretary by a designated representative of the Secretary of the Interior or the Secretary of Housing and Urban Development that those children would have resided in housing on Indian lands if the housing was not undergoing renovation or rebuilding. The total number of children treated as children described in paragraph (1)(C) shall not exceed the lessor of—

(i) the total number of children eligible under paragraph (1)(C) for the year prior to the initiation of the housing project on Indian lands undergoing renovation or rebuilding; or

(ii) the total number of Federally connected children enrolled at the local educational agency as stated in the application filed for the payment for the year for which the determination is made.

(C) Eligible housing

Renovation or rebuilding shall be defined as projects considered as capitalization, modernization, or restoration, as defined by the Secretary of Defense or the Secretary of the Interior (as the case may be) and are projects that last more than 30 days, but do not include "sustainment projects" such as painting, carpeting, or minor repairs.

(5) Military "Build to Lease" program housing

(A) In general

For purposes of computing the amount of payment for a local educational agency for children identified under paragraph (1), the Secretary shall consider children residing in housing initially acquired or constructed under the former section 2828(g) of title 10 (commonly known as the "Build to Lease" program), as added by section 801 of the Military Construction Authorization Act, 1984, or under lease of off-base property under subchapter IV of chapter 169 of title 10, to be children described under paragraph (1)(B), if the property described is—

(i) within the fenced security perimeter of the military facility; or

(ii) attached to, and under any type of force protection agreement with, the military installation upon which such housing is situated.

(B) Additional requirements

If the property described in subparagraph (A) is not owned by the Federal Government, is subject to taxation by a State or political subdivision of a State, and thereby generates revenues for a local educational agency that is applying to receive a payment under this section, then the Secretary—

(i) shall require the local educational agency to provide certification from an appropriate official of the Department of Defense that the property is being used to provide military housing; and

(ii) shall reduce the amount of the payment under this section by an amount equal to the amount of revenue from such taxation received in the second preceding fiscal year by such local educational agency, unless the amount of such revenue was taken into account by the State for such second preceding fiscal year and already resulted in a reduction in the amount of State aid paid to such local educational agency.

(b) Basic support payments; insufficient appropriations; State with only one local educational agency

(1) Basic support payments

(A) In general

From the amount appropriated under section 7714(b) of this title for a fiscal year, the Secretary is authorized to make basic support payments to eligible local educational agencies with children described in subsection (a) of this section.

(B) Eligibility

A local educational agency is eligible to receive a basic support payment under subparagraph (A) for a fiscal year with respect to a number of children determined under subsection (a)(1) of this section only if the number of children so determined with respect to such agency amounts to the lesser of—

(i) at least 400 such children; or

(ii) a number of such children which equals at least 3 percent of the total number of children who were in average daily attendance, during such year, at the schools of such agency and for whom such agency provided free public education.

(C) Maximum amount

The maximum amount that a local educational agency is eligible to receive under this paragraph for any fiscal year is the sum of the total weighted student units, as computed under subsection (a)(2) of this section, multiplied by the greater of—

(i) one-half of the average per-pupil expenditure of the State in which the local educational agency is located for the third fiscal year preceding the fiscal year for which the determination is made;

(ii) one-half of the average per-pupil expenditure of all of the States for the third fiscal year preceding the fiscal year for which the determination is made;

(iii) the comparable local contribution rate certified by the State, as determined under regulations prescribed to carry out the Act of September 30, 1950 (Public Law 874, 81st Congress), as such regulations were in effect on January 1, 1994; or

(iv) the average per-pupil expenditure of the State in which the local educational agency is located, multiplied by the local contribution percentage.

(D) Data

If satisfactory data from the third preceding fiscal year are not available for any of the expenditures described in clause (i) or (ii) of subparagraph (C), the Secretary shall use data from the most recent fiscal year for which data that are satisfactory to the Secretary are available.

(E) Increase in local contribution rate due to unusual geographic factors

If the current expenditures in those local educational agencies which the Secretary has

determined to be generally comparable to the local educational agency for which a computation is made under subparagraph (C) are not reasonably comparable because of unusual geographical factors which affect the current expenditures necessary to maintain, in such agency, a level of education equivalent to that maintained in such other agencies, then the Secretary shall increase the local contribution rate for such agency under subparagraph (C)(iii) by such an amount which the Secretary determines will compensate such agency for the increase in current expenditures necessitated by such unusual geographical factors. The amount of any such supplementary payment may not exceed the per-pupil share (computed with regard to all children in average daily attendance), as determined by the Secretary, of the increased current expenditures necessitated by such unusual geographic factors.

(F) Beginning with fiscal year 2002, for the purpose of calculating a payment under this paragraph for a local educational agency whose local contribution rate was computed under subparagraph (C)(iii) for the previous year, the Secretary shall use a local contribution rate that is not less than 95 percent of the rate that the LEA received for the preceding year.

(2) Basic support payments for heavily impacted local educational agencies

(A) In general

(i) From the amount appropriated under section 7714(b) of this title for a fiscal year, the Secretary is authorized to make basic support payments to eligible heavily impacted local educational agencies with children described in subsection (a) of this section.

(ii) A local educational agency that receives a basic support payment under this paragraph for a fiscal year shall not be eligible to receive a basic support payment under paragraph (1) for that fiscal year.

(B) Eligibility for heavily impacted local educational agencies

(i) In general

A heavily impacted local educational agency is eligible to receive a basic support payment under subparagraph (A) with respect to a number of children determined under subsection (a)(1) if the agency—

(I) is a local educational agency—

(aa) whose boundaries are the same as a Federal military installation or an island property designated by the Secretary of the Interior to be property that is held in trust by the Federal Government; and

(bb) that has no taxing authority;

(II) is a local educational agency that—

(aa) has an enrollment of children described in subsection (a)(1) that constitutes a percentage of the total student enrollment of the agency that is not less than 45 percent;

(bb) has a per-pupil expenditure that is less than—

(AA) for an agency that has a total student enrollment of 500 or more students, 125 percent of the average per-pupil expenditure of the State in which the agency is located; or

(BB) for any agency that has a total student enrollment of less than 500 students, 150 percent of the average per-pupil expenditure of the State in which the agency is located or the average per-pupil expenditure of 3 or more comparable local educational agencies in the State in which the agency is located; and

(cc) is an agency that has a tax rate for general fund purposes that is not less than 95 percent of the average tax rate for general fund purposes of comparable local educational agencies in the State;

(III) is a local educational agency that—

(aa) has a tax rate for general fund purposes which is not less than 125 percent of the

average tax rate for general fund purposes for comparable local educational agencies in the State; and

(bb)(AA) has an enrollment of children described in subsection (a)(1) that constitutes a percentage of the total student enrollment of the agency that is not less than 30 percent; or

(BB) has an enrollment of children described in subsection (a)(1) that constitutes a percentage of the total student enrollment of the agency that is not less than 20 percent, and for the 3 fiscal years preceding the fiscal year for which the determination is made, the average enrollment of children who are not described in subsection (a)(1) and who are eligible for a free or reduced price lunch under the Richard B. Russell National School Lunch Act [42 U.S.C. 1751 et seq.] constitutes a percentage of the total student enrollment of the agency that is not less than 65 percent;

(IV) is a local educational agency that has a total student enrollment of not less than 25,000 students, of which—

(aa) not less than 50 percent are children described in subsection (a)(1); and

(bb) not less than 5,000 of such children are children described in subparagraphs (A) and (B) of subsection (a)(1); or

(V) is a local educational agency that—

(aa) has an enrollment of children described in subsection (a)(1) including, for purposes of determining eligibility, those children described in subparagraphs (F) and (G) of such subsection, that is not less than 35 percent of the total student enrollment of the agency;

(bb) has a per-pupil expenditure described in subclause (II)(bb) (except that a local educational agency with a total student enrollment of less than 350 students shall be deemed to have satisfied such per-pupil expenditure requirement) and has a tax rate for general fund purposes which is not less than 95 percent of the average tax rate for general fund purposes for comparable local educational agencies in the State; and

(cc) was eligible to receive assistance under subparagraph (A) for fiscal year 2001.

(ii) Loss of eligibility

(I) In general

Subject to subclause (II), a heavily impacted local educational agency that met the requirements of clause (i) for a fiscal year shall be ineligible to receive a basic support payment under subparagraph (A) if the agency fails to meet the requirements of clause (i) for a subsequent fiscal year, except that such agency shall continue to receive a basic support payment under this paragraph for the fiscal year for which the ineligibility determination is made.

(II) Loss of eligibility due to falling below 95 percent of the average tax rate for general fund purposes

In the case of a heavily impacted local educational agency described in subclause (II) or (V) of clause (i) that is eligible to receive a basic support payment under subparagraph (A), but that has had, for 2 consecutive fiscal years, a tax rate for general fund purposes that falls below 95 percent of the average tax rate for general fund purposes of comparable local educational agencies in the State, such agency shall be determined to be ineligible under clause (i) and ineligible to receive a basic support payment under subparagraph (A) for each fiscal year succeeding such 2 consecutive fiscal years for which the agency has such a tax rate for general fund purposes, and until the fiscal year for which the agency resumes such eligibility in accordance with clause (iii).

(III) Taken over by State board of education

In the case of a heavily impacted local educational agency that is eligible to receive a

basic support payment under subparagraph (A), but that has been taken over by a State board of education in any 2 previous years, such agency shall be deemed to maintain heavily impacted status for 2 fiscal years following December 10, 2015.

(iii) Resumption of eligibility

A heavily impacted local educational agency described in clause (i) that becomes ineligible under such clause for 1 or more fiscal years may resume eligibility for a basic support payment under this paragraph for a subsequent fiscal year only if the agency meets the requirements of clause (i) for that subsequent fiscal year, except that such agency shall not receive a basic support payment under this paragraph until the fiscal year succeeding the fiscal year for which the eligibility determination is made.

(C) Maximum amount for heavily impacted local educational agencies

(i) In general

Except as provided in subparagraph (D), the maximum amount that a heavily impacted local educational agency is eligible to receive under this paragraph for any fiscal year is the sum of the total weighted student units, as computed under subsection (a)(2) and subject to clause (ii), multiplied by the greater of—

(I) four-fifths of the average per-pupil expenditure of the State in which the local educational agency is located for the third fiscal year preceding the fiscal year for which the determination is made; or

(II) four-fifths of the average per-pupil expenditure of all of the States for the third fiscal year preceding the fiscal year for which the determination is made.

(ii) Calculation of weighted student units

(I) In general

(aa) Percentage enrollment

For a local educational agency in which 35 percent or more of the total student enrollment of the schools of the agency are children described in subparagraph (D) or (E) (or a combination thereof) of subsection (a)(1), and that has an enrollment of children described in subparagraph (A), (B), or (C) of such subsection equal to at least 10 percent of the agency's total enrollment, the Secretary shall calculate the weighted student units of those children described in subparagraph (D) or (E) of such subsection by multiplying the number of such children by a factor of 0.55.

(bb) Exception

Notwithstanding item (aa), a local educational agency that received a payment under this paragraph for fiscal year 2013 shall not be required to have an enrollment of children described in subparagraph (A), (B), or (C) of subsection (a)(1) equal to at least 10 percent of the agency's total enrollment and shall be eligible for the student weight as provided for in item (aa).

(II) Enrollment of 100 or fewer children

For a local educational agency that has an enrollment of 100 or fewer children described in subsection (a)(1), the Secretary shall calculate the total number of weighted student units for purposes of subsection (a)(2) by multiplying the number of such children by a factor of 1.75.

(III) Enrollment of more than 100 children but less than 1000

For a local educational agency that is not described under subparagraph (B)(i)(I) and has an enrollment of more than 100 but not more than 1,000 children described in subsection (a)(1), the Secretary shall calculate the total number of weighted student units for purposes of subsection (a)(2) by multiplying the number of such children by a factor of 1.25.

(D) Maximum amount for large heavily impacted local educational agencies

(i) In general

(I) Formula

Subject to clause (ii), the maximum amount that a heavily impacted local educational agency described in subclause (II) is eligible to receive under this paragraph for any fiscal year shall be determined in accordance with the formula described in paragraph (1)(C).

(II) Heavily impacted local educational agency

A heavily impacted local educational agency described in this subclause is a local educational agency that has a total student enrollment of not less than 25,000 students, of which not less than 50 percent are children described in subsection (a)(1) and not less than 5,000 of such children are children described in subparagraphs (A) and (B) of subsection (a)(1).

(ii) Factor

For purposes of calculating the maximum amount described in clause (i), the factor used in determining the weighted student units under subsection (a)(2) with respect to children described in subparagraphs (A) and (B) of subsection (a)(1) shall be 1.35.

(E) Data

For purposes of providing assistance under this paragraph, the Secretary shall use student, revenue, expenditure, and tax data from the third fiscal year preceding the fiscal year for which the local educational agency is applying for assistance under this paragraph.

(F) Determination of average tax rates for general fund purposes

(i) In general

Except as provided in clause (ii), for the purpose of determining the average tax rates for general fund purposes for local educational agencies in a State under this paragraph, the Secretary shall use either—

(I) the average tax rate for general fund purposes for comparable local educational agencies, as determined by the Secretary in regulations; or

(II) the average tax rate of all the local educational agencies in the State.

(ii) Fiscal years 2010–2015

(I) In general

For fiscal years 2010 through 2015, any local educational agency that was found ineligible to receive a payment under subparagraph (A) because the Secretary determined that it failed to meet the average tax rate requirement for general fund purposes in subparagraph (B)(i)(II)(cc), shall be considered to have met that requirement, if its State determined, through an alternate calculation of average tax rates for general fund purposes, that such local educational agency met that requirement.

(II) Subsequent fiscal years after 2015

For any succeeding fiscal year after 2015, any local educational agency identified in subclause (I) may continue to have its State use that alternate methodology to calculate whether the average tax rate requirement for general fund purposes under subparagraph (B)(i)(II)(cc) is met.

(III) Availability of funds

Notwithstanding any other provision of law limiting the period during which the Secretary may obligate funds appropriated for any fiscal year after 2012, the Secretary shall reserve a total of $14,000,000 from funds that remain unobligated under this section from fiscal years 2015 or 2016 in order to make payments under this clause for fiscal years 2011 through 2014.

(G) Eligibility for heavily impacted local educational agencies affected by privatization of

military housing

(i) Eligibility

For any fiscal year, a heavily impacted local educational agency that received a basic support payment under this paragraph for the prior fiscal year, but is ineligible for such payment for the current fiscal year under subparagraph (B) due to the conversion of military housing units to private housing described in clause (iii), or as the direct result of base realignment and closure or modularization as determined by the Secretary of Defense and force structure change or force relocation, shall be deemed to meet the eligibility requirements under subparagraph (B) for the period during which the housing units are undergoing such conversion or during such time as activities associated with base closure and realignment, modularization, force structure change, or force relocation are ongoing.

(ii) Amount of payment

The amount of a payment to a heavily impacted local educational agency for a fiscal year by reason of the application of clause (i), and calculated in accordance with subparagraph (C) or (D), as the case may be, shall be based on the number of children in average daily attendance in the schools of such agency for the fiscal year and under the same provisions of subparagraph (C) or (D) under which the agency was paid during the prior fiscal year.

(iii) Conversion of military housing units to private housing described

For purposes of clause (i), "conversion of military housing units to private housing" means the conversion of military housing units to private housing units pursuant to subchapter IV of chapter 169 of title 10 or pursuant to any other related provision of law.

(3) Payments with respect to fiscal years in which insufficient funds are appropriated

(A) In general

For any fiscal year in which the sums appropriated under section 7714(b) of this title are insufficient to pay to each local educational agency the full amount computed under paragraphs (1) and (2), the Secretary shall make payments in accordance with this paragraph.

(B) Learning opportunity threshold payments in lieu of payments under paragraph (1)

(i) For fiscal years described in subparagraph (A), the Secretary shall compute a learning opportunity threshold payment (hereafter in this subchapter referred to as the "threshold payment") in lieu of basic support payments under paragraph (1) by multiplying the amount obtained under paragraph (1)(C) by the total percentage obtained by adding—

(I) the percentage of federally connected children for each local educational agency determined by calculating the fraction, the numerator of which is the total number of children described under subsection (a)(1) of this section and the denominator of which is the total number of children in average daily attendance at the schools served by such agency; and

(II) the percentage that funds under paragraph (1)(C) represent of the total budget of the local educational agency, determined by calculating the fraction, the numerator of which is the total amount of funds calculated for each local educational agency under this paragraph, and the denominator of which is the total current expenditures for such agency in the second preceding fiscal year for which the determination is made.

(ii) Such total percentage used to calculate threshold payments under paragraph (1) shall not exceed 100.

(iii) In the case of a local educational agency providing a free public education to students enrolled in kindergarten through grade 12, that enrolls students described in subparagraphs (A), (B), and (D) of subsection (a)(1) only in grades 9 through 12, and that received a final payment for fiscal year 2009 calculated under section 7703(b)(3) of this title (as such section was in effect on the day before December 10, 2015) for students in grades 9 through 12, the Secretary shall, in calculating the agency's payment, consider only that portion of such agency's total enrollment of students in grades 9 through 12 when calculating the percentage under clause

(i)(I) and only that portion of the total current expenditures attributed to the operation of grades 9 through 12 in such agency when calculating the percentage under clause (i)(II).

(iv) In the case of a local educational agency that has a total student enrollment of fewer than 1,000 students and that has a per-pupil expenditure that is less than the average per-pupil expenditure of the State in which the agency is located or less than the average per-pupil expenditure of all the States, the total percentage used to calculate threshold payments under clause (i) shall not be less than 40 percent.

(C) Learning opportunity threshold payments in lieu of payments under paragraph (2)

For fiscal years described in subparagraph (A), the learning opportunity threshold payment in lieu of basic support payments under paragraph (2) shall be equal to the amount obtained under subparagraph (C) or (D) of paragraph (2), as the case may be.

(D) Ratable distribution

For fiscal years described in subparagraph (A), for which the sums available exceed the amount required to pay each local educational agency 100 percent of its threshold payment, the Secretary shall distribute the excess sums to each eligible local educational agency that has not received its full amount computed under paragraphs (1) or (2) (as the case may be) by multiplying—

(i) a percentage, the denominator of which is the difference between the full amount computed under paragraph (1) or (2) (as the case may be) for all local educational agencies and the amount of the threshold payment (as calculated under subparagraphs (B) and (C)) of all local educational agencies, and the numerator of which is the aggregate of the excess sums, by

(ii) the difference between the full amount computed under paragraph (1) or (2) (as the case may be) for the agency and the amount of the threshold payment (as calculated under subparagraphs (B) or (C)) of the agency, except that no local educational agency shall receive more than 100 percent of the maximum payment calculated under subparagraph (C) or (D) of paragraph (2).

(E) Insufficient payments

For each fiscal year described in subparagraph (A) for which the sums appropriated are insufficient to pay each local educational agency all of the local educational agency's threshold payment described in subparagraph (B), the Secretary shall ratably reduce the payment to each local educational agency under this paragraph.

(F) Increases

(i) Increases based on insufficient funds

If additional funds become available under 7714(b) of this title for making payments under paragraphs (1) and (2) and those funds are not sufficient to increase each local educational agency's threshold payment above 100 percent of its threshold payment described in subparagraph (B), payments that were reduced under subparagraph (E) shall be increased by the Secretary on the same basis as such payments were reduced.

(ii) Increases based on sufficient funds

If additional funds become available under section 7714(b) of this title for making payments under paragraphs (1) and (2) and those funds are sufficient to increase each local educational agency's threshold payment above 100 percent of its threshold payment described in subparagraph (B), the payment for each local educational agency shall be 100 percent of its threshold payment. The Secretary shall then distribute the excess sums to each eligible local educational agency in accordance with subparagraph (D).

(G) Provision of tax rate and resulting percentage

As soon as practicable following the payment of funds under paragraph (2) to an eligible local educational agency, the Secretary shall provide the local educational agency with a

description of—

(i) the tax rate of the local educational agency; and

(ii) the percentage such tax rate represents of the average tax rate for general fund purposes of comparable local educational agencies in the State as determined under subclauses (II)(cc), III(aa), or (V)(bb) of paragraph (2)(B)(i) (as the case may be).

(4) States with only one local educational agency

(A) In general

In any of the 50 States of the United States in which there is only one local educational agency, the Secretary shall, for purposes of subparagraphs (B) and (C) of paragraph (1) or subparagraphs (B) and (C) of paragraph (2), as the case may be, paragraph (3) of this subsection, and subsection (e) of this section, consider each administrative school district in the State to be a separate local educational agency.

(B) Computation of maximum amount of basic support payment and threshold payment

In computing the maximum payment amount under paragraph (1)(C) or subparagraph (C) or (D) of paragraph (2), as the case may be, and the learning opportunity threshold payment under subparagraph (B) or (C) of paragraph (3), as the case may be, for an administrative school district described in subparagraph (A)—

(i) the Secretary shall first determine the maximum payment amount and the total current expenditures for the State as a whole; and

(ii) the Secretary shall then—

(I) proportionately allocate such maximum payment amount among the administrative school districts on the basis of the respective weighted student units of such districts; and

(II) proportionately allocate such total current expenditures among the administrative school districts on the basis of the respective number of students in average daily attendance at such districts.

(5) Local educational agencies affected by removal of Federal property

(A) In general

In computing the amount of a basic support payment under this subsection for a fiscal year for a local educational agency described in subparagraph (B), the Secretary shall meet the additional requirements described in subparagraph (C).

(B) Local educational agency described

A local educational agency described in this subparagraph is a local educational agency with respect to which Federal property (i) located within the boundaries of the agency, and (ii) on which one or more children reside who are receiving a free public education at a school of the agency, is transferred by the Federal Government to another entity in any fiscal year beginning on or after October 30, 2000, so that the property is subject to taxation by the State or a political subdivision of the State.

(C) Additional requirements

The additional requirements described in this subparagraph are the following:

(i) For each fiscal year beginning after the date on which the Federal property is transferred, a child described in subparagraph (B) who continues to reside on such property and who continues to receive a free public education at a school of the agency shall be deemed to be a child who resides on Federal property for purposes of computing under the applicable subparagraph of subsection (a)(1) of this section the amount that the agency is eligible to receive under this subsection.

(ii)(I) For the third fiscal year beginning after the date on which the Federal property is transferred, and for each fiscal year thereafter, the Secretary shall, after computing the amount that the agency is otherwise eligible to receive under this subsection for the fiscal year involved, deduct from such amount an amount equal to the revenue received by the

agency for the immediately preceding fiscal year as a result of the taxable status of the former Federal property.

(II) For purposes of determining the amount of revenue to be deducted in accordance with subclause (I), the local educational agency—

(aa) shall provide for a review and certification of such amount by an appropriate local tax authority; and

(bb) shall submit to the Secretary a report containing the amount certified under item (aa).

(c) Prior year data

(1) In general

Except as provided in subsections (b)(1)(D), (b)(2), and paragraph (2), all calculations under this section shall be based on data for each local educational agency from not later than the fiscal year preceding the fiscal year for which the agency is making application for payment.

(2) Exception

Calculation of payments for a local educational agency shall be based on data from the fiscal year for which the agency is making an application for payment if such agency—

(A) is newly established by a State, for the first year of operation of such agency only;

(B) was eligible to receive a payment under this section for the previous fiscal year and has had an overall increase in enrollment (as determined by the Secretary in consultation with the Secretary of Defense, the Secretary of the Interior, or the heads of other Federal agencies)—

(i)(I) of not less than 10 percent of children described in—

(aa) subparagraph (A), (B), (C), or (D) of subsection (a)(1); or

(bb) subparagraphs (F) and (G) of subsection (a)(1), but only to the extent that such children are civilian dependents of employees of the Department of Defense or the Department of the Interior; or

(II) of not less than 100 of such children; and

(ii) that is the direct result of closure or realignment of military installations under the base closure process or the relocation of members of the Armed Forces and civilian employees of the Department of Defense as part of the force structure changes or movements of units or personnel between military installations or because of actions initiated by the Secretary of the Interior or the head of another Federal agency; or

(C) was eligible to receive a payment under this section for the previous fiscal year and has had an increase in enrollment (as determined by the Secretary)—

(i) of not less than 10 percent of children described in subsection (a)(1) or not less than 100 of such children; and

(ii) that is the direct result of the closure of a local educational agency that received a payment under subsection (b)(1) or (b)(2) for the previous fiscal year.

(d) Children with disabilities

(1) In general

From the amount appropriated under section 7714(c) of this title for a fiscal year, the Secretary shall pay to each eligible local educational agency, on a pro rata basis, the amounts determined by—

(A) multiplying the number of children described in subparagraphs (A)(ii), (B) and (C) of subsection (a)(1) of this section who are eligible to receive services under the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.) by a factor of 1.0; and

(B) multiplying the number of children described in subparagraph (D) of subsection (a)(1) of this section who are eligible to receive services under such Act by a factor of 0.5.

(2) Use of funds

A local educational agency that receives funds under paragraph (1) shall use such funds to provide a free appropriate public education to children described in paragraph (1) in accordance with the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.).

(e) Hold harmless

(1) In general

In the case of any local educational agency eligible to receive a payment under subsection (b) whose calculated payment amount for a fiscal year is reduced by 20 percent, as compared to the amount received for the previous fiscal year, the Secretary shall pay the local educational agency, for the year of the reduction and the following 2 years, the amount determined under paragraph (2).

(2) Amount of reduction

Subject to paragraph (3), A local educational agency described in paragraph (1) shall receive—

(A) for the first year for which the reduced payment is determined, an amount that is not less than 90 percent of the total amount that the local educational agency received under subsection (b) for the previous fiscal year;

(B) for the second year following such reduction, an amount that is not less than 85 percent of the total amount that the local educational agency received under subparagraph (A); and

(C) for the third year following such reduction, an amount that is not less than 80 percent of the total amount that the local educational agency received under subparagraph (B).

(3) Special rule

For any fiscal year for which a local educational agency would receive a payment under subsection (b) in excess of the amount determined under paragraph (2), the payment received by the local educational agency for such fiscal year shall be calculated under paragraph (1) or (2) of subsection (b).

(4) Ratable reductions

(A) In general

If the sums made available under this subchapter for any fiscal year are insufficient to pay the full amounts that all local educational agencies in all States are eligible to receive under paragraph (1) for such year, then the Secretary shall ratably reduce the payments to all such agencies for such year.

(B) Additional funds

If additional funds become available for making payments under paragraph (1) for such fiscal year, payments that were reduced under subparagraph (A) shall be increased on the same basis as such payments were reduced.

(f) Other funds

Notwithstanding any other provision of law, a local educational agency receiving funds under this section may also receive funds under section 386 of the National Defense Authorization Act for Fiscal Year 1993 or such section's successor authority.

The Secretary shall—

(1) provide technical assistance to local educational agencies, parents, and Indian tribes to enable such agencies, parents, and tribes to carry out this section; and

(e) Complaints

(1) In general

(A) Any tribe, or its designee, which has students in attendance at a local educational agency may, in its discretion and without regard to the requirements of any other provision of law, file a written complaint with the Secretary regarding any action of a local educational agency taken pursuant to, or relevant to, the requirements of this section.

(B) Within ten working days from receipt of a complaint, the Secretary shall—

(i) designate a time and place for a hearing into the matters relating to the complaint at a location in close proximity to the local educational agency involved, or if the Secretary determines there is good cause, at some other location convenient to both the tribe, or its designee, and the local educational agency;

If the local educational agency rejects the determination of the Secretary, or if the remedy required is not undertaken within the time established and the Secretary determines that an extension of the time established will not effectively encourage the remedy required, the Secretary shall withhold payment of all moneys to which such local agency is eligible under section 7703 of this title until such time as the remedy required is undertaken, except where the complaining tribe or its designee formally requests that such funds be released to the local educational agency, except that the Secretary may not withhold such moneys during the course of the school year if the Secretary determines that such withholding would substantially disrupt the educational programs of the local educational agency.

(9) Rejection of determination

If the local educational agency rejects the determination of the Secretary and a tribe exercises the option under section 1101(d) of the Education Amendments of 1978, to have education services provided either directly by the Bureau of Indian Education or by contract with the Bureau of Indian Education, any Indian students affiliated with that tribe who wish to remain in attendance at the local educational agency against whom the complaint which led to the tribal action under such subsection (d) of this section was lodged may be counted with respect to that local educational agency for the purpose of receiving funds under section 7703 of this title. In such event, funds under such section shall not be withheld pursuant to paragraph (8) and no further complaints with respect to such students may be filed under paragraph (1).

§7709. State consideration of payments in providing State aid

(a) General prohibition

Except as provided in subsection (b) of this section, a State may not—

(1) consider payments under this subchapter in determining for any fiscal year—

(A) the eligibility of a local educational agency for State aid for free public education; or

(B) the amount of such aid; or

(2) make such aid available to local educational agencies in a manner that results in less State aid to any local educational agency that is eligible for such payment than such agency would receive if such agency were not so eligible.

(b) State equalization plans

(1) In general

A State may reduce State aid to a local educational agency that receives a payment under section 7702 or 7703(b) of this title (except the amount calculated in excess of 1.0 under section 7703(a)(2)(B) of this title and, with respect to a local educational agency that receives a payment under section 7703(b)(2) of this title, the amount in excess of the amount that the agency would receive if the agency were deemed to be an agency eligible to receive a payment under section 7703(b)(1) of this title and not section 7703(b)(2) of this title) for any fiscal year if the Secretary determines, and certifies under subsection (c)(3)(A) of this section, that the State has in effect a program of State aid that equalizes expenditures for free public education among local educational agencies in the State.

(2) Computation

(A) In general

For purposes of paragraph (1), a program of State aid equalizes expenditures among local educational agencies if, in the second fiscal year preceding the fiscal year for which the determination is made, the amount of per-pupil expenditures made by, or per-pupil revenues available to, the local educational agency in the State with the highest such per-pupil expenditures or revenues did not exceed the amount of such per-pupil expenditures made by, or per-pupil revenues available to, the local educational agency in the State with the lowest such expenditures or revenues by more than 25 percent.

(B) Other factors

In making a determination under this subsection, the Secretary shall—

(i) disregard local educational agencies with per-pupil expenditures or revenues above the 95th percentile or below the 5th percentile of such expenditures or revenues in the State; and

(ii) take into account the extent to which a program of State aid reflects the additional cost of providing free public education in particular types of local educational agencies, such as those that are geographically isolated, or to particular types of students, such as children with disabilities.

(3) Exception

Notwithstanding paragraph (2), if the Secretary determines that the State has substantially revised its program of State aid, the Secretary may certify such program for any fiscal year only if—

(A) the Secretary determines, on the basis of projected data, that the State's program will meet the disparity standard described in paragraph (2) for the fiscal year for which the determination is made; and

(B) the State provides an assurance to the Secretary that, if final data do not demonstrate that the State's program met such standard for the fiscal year for which the determination is made, the State will pay to each affected local educational agency the amount by which the State reduced State aid to the local educational agency.

(c) Procedures for review of State equalization plans

(1) Written notice

(A) In general

Any State that wishes to consider payments described in subsection (b)(1) of this section in providing State aid to local educational agencies shall submit to the Secretary, not later than 120 days before the beginning of the State's fiscal year, a written notice of such State's intention to do so.

(B) Contents

Such notice shall be in the form that the Secretary requires, including evidence that the State has notified each local educational agency in the State of such State's intention to consider such payments in providing State aid.

(2) Opportunity to present views

Before making a determination under subsection (b) of this section, the Secretary shall afford the State, and local educational agencies in the State, an opportunity to present their views.

(3) Qualification procedures

If the Secretary determines that a program of State aid qualifies under subsection (b) of this section, the Secretary shall—

(A) certify the program and so notify the State; and

(B) afford an opportunity for a hearing, in accordance with section 7711(a) of this title, to any local educational agency adversely affected by such certification.

(4) Nonqualification procedures

If the Secretary determines that a program of State aid does not qualify under subsection (b) of this section, the Secretary shall—

(A) so notify the State; and

(B) afford an opportunity for a hearing, in accordance with section 7711(a) of this title, to the State, and to any local educational agency adversely affected by such determination.

(d) Treatment of State aid

(1) In general

If a State has in effect a program of State aid for free public education for any fiscal year, which

is designed to equalize expenditures for free public education among the local educational agencies of that State, payments under this subchapter for any fiscal year may be taken into consideration by such State in determining the relative—

(A) financial resources available to local educational agencies in that State; and

(B) financial need of such agencies for the provision of free public education for children served by such agency, except that a State may consider as local resources funds received under this subchapter only in proportion to the share that local tax revenues covered under a State equalization program are of total local tax revenues.

(2) Prohibition

A State may not take into consideration payments under this subchapter before such State's program of State aid has been certified by the Secretary under subsection (c)(3) of this section.

(e) Remedies for State violations

(1) In general

The Secretary or any aggrieved local educational agency may, not earlier than 150 days after an adverse determination by the Secretary against a State for violation of subsections (a) or (d)(2) of this section or for failure to carry out an assurance under subsection (b)(3)(B) of this section, and if an administrative proceeding has not been concluded within such time, bring an action in a United States district court against such State for such violations or failure.

(2) Immunity

A State shall not be immune under the 11th amendment to the Constitution of the United States from an action described in paragraph (1).

(3) Relief

The court shall grant such relief as the court determines is appropriate.

A local educational agency and a State that is adversely affected by any action of the Secretary under this subchapter shall be entitled to a hearing on such action in the same manner as if such agency were a person under chapter 5 of title 5 if the local educational agency or State, as the case may be, submits to the Secretary a request for the hearing not later than 60 days after the date of the action of the Secretary under this subchapter.

(b) Judicial review of secretarial action

(1) In general

A local educational agency or a State aggrieved by the Secretary's final decision following an agency proceeding under subsection (a) of this section may, within 30 working days (as determined by the local educational agency or State) after receiving notice of such decision, file with the United States court of appeals for the circuit in which such agency or State is located a petition for review of that action. §7925. Sense of Congress on protecting student privacy

(a) Findings

The Congress finds as follows:

(1) Students' personally identifiable information is important to protect.

(2) Students' information should not be shared with individuals other than school officials in charge of educating those students without clear notice to parents.

(3) With the use of more technology, and more research about student learning, the responsibility to protect students' personally identifiable information is more important than ever.

(4) Regulations allowing more access to students' personal information could allow that information to be shared or sold by individuals who do not have the best interest of the students in mind.

(5) The Secretary has the responsibility to ensure every entity that receives funding under this chapter holds any personally identifiable information in strict confidence.

(b) Sense of Congress

It is the sense of the Congress that the Secretary should review all regulations addressing issues of student privacy, including those under this chapter, and ensure that students' personally identifiable information is protected.

A State, State educational agency, or local educational agency in the case of a local educational agency that receives Federal funds under this chapter shall have laws, regulations, or policies that prohibit any individual who is a school employee, contractor, or agent, or any State educational agency or local educational agency, from assisting a school employee, contractor, or agent in obtaining a new job, apart from the routine transmission of administrative and personnel files, if the individual or agency knows, or has probable cause to believe, that such school employee, contractor, or agent engaged in sexual misconduct regarding a minor or student in violation of the law.

(b) Exception

The requirements of subsection (a) shall not apply if the information giving rise to probable cause—

(1)(A) has been properly reported to a law enforcement agency with jurisdiction over the alleged misconduct; and

(B) has been properly reported to any other authorities as required by Federal, State, or local law, including title IX of the Education Amendments of 1972 (20 U.S.C. 1681 et seq.) and the regulations implementing such title under part 106 of title 34, Code of Federal Regulations, or any succeeding regulations; and

(2)(A) the matter has been officially closed or the prosecutor or police with jurisdiction over the alleged misconduct has investigated the allegations and notified school officials that there is insufficient information to establish probable cause that the school employee, contractor, or agent engaged in sexual misconduct regarding a minor or student in violation of the law;

(B) the school employee, contractor, or agent has been charged with, and acquitted or otherwise exonerated of the alleged misconduct; or

(C) the case or investigation remains open and there have been no charges filed against, or indictment of, the school employee, contractor, or agent within 4 years of the date on which the information was reported to a law enforcement agency.

(c) Prohibition

The Secretary shall not have the authority to mandate, direct, or control the specific measures adopted by a State, State educational agency, or local educational agency under this section.

§7930. Sense of Congress

(a) Findings

The Congress finds as follows:

(1) This chapter prohibits the Federal Government from mandating, directing, or controlling a State, local educational agency, or school's curriculum, program of instruction, or allocation of State and local resources, and from mandating a State or any subdivision thereof to spend any funds or incur any costs not paid for under this chapter.

Such systems should continue to include robust choice for parents through a mixed delivery system of services so parents can determine the right early learning and child care option for their children. (e) Civil penalties

(1) In general

Any failure to comply with a prohibition in this section shall be considered to be a violation of this section and any person subject to such prohibition who commits such violation may be liable to the United States for a civil penalty in an amount not to exceed $1,000 for each violation, or may be subject to an administrative compliance order, or both, as determined by the Secretary. Each day a violation continues shall constitute a separate violation. In the case of any civil penalty assessed under this section, the total amount shall not exceed 50 percent of the amount of Federal funds received under any subchapter of this chapter by such person for the fiscal year in which the continuing violation occurred. The Federal share shall be 66 percent.

(2) Non-Federal share

The non-Federal share of payments shall be provided from non-Federal, State, or local sources.

(c) Maintenance of effort

(1) State expenditures

(A) Requirement

(i) In general

The amount otherwise payable to a State for a fiscal year pursuant to an allotment under this part shall be reduced if the level of State expenditures, as described in paragraph (2), for the previous fiscal year is less than the average of the total of such expenditures for the 3 fiscal years preceding that previous fiscal year. The amount of the reduction in the allotment for any fiscal year shall be equal to the allotment multiplied by a fraction—

(II) the denominator of which is the average of the total level of such State expenditures for the 3 fiscal years preceding the fiscal year for which the determination is made.

(ii) Calculation

Any decrease in State expenditures resulting from the application of subparagraph (B) shall be excluded from the calculation of the average level of State expenditures for any 3-year period described in clause (i).

(B) Decrease in Federal support

(2) Level of State expenditures

The level of State expenditures for the purposes of paragraph (1) shall include all State dollars expended by the State library administrative agency for library programs that are consistent with the purposes of this subchapter. All funds included in the maintenance of effort calculation under this subsection shall be expended during the fiscal year for which the determination is made, and shall not include capital expenditures, special one-time project costs, or similar windfalls.

(3) Waiver

The Director may waive the requirements of paragraph (1) if the Director determines that such a waiver would be equitable due to exceptional or uncontrollable circumstances such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State.

(Pub. L. 94–462, title II, §223, as added Pub. L. 104–208, div. A, title I, §101(e) [title VII, §702], Sept. 30, 1996, 110 Stat. 3009–233, 3009–299; amended Pub. L. 105–128, §5, Dec. 1, 1997, 111 Stat. 2549.)

(Pub. L. 106–554, §1(a)(1) [title VIII, §802], Dec. 21, 2000, 114 Stat. 2763, 2763A–80.)

SHORT TITLE; FINDINGS

Pub. L. 106–554, §1(a)(1) [title VIII, §801], Dec. 21, 2000, 114 Stat. 2763, 2763A–79, provided that:

"(a) SHORT TITLE.—This title [enacting this chapter] may be cited as the 'Early Learning Opportunities Act'.

"(b) FINDINGS.—Congress finds that—

"(1) medical research demonstrates that adequate stimulation of a young child's brain between birth and age 5 is critical to the physical development of the young child's brain;

"(2) parents are the most significant and effective teachers of their children, and they alone are responsible for choosing the best early learning opportunities for their child;

"(3) parent education and parent involvement are critical to the success of any early learning program or activity;

"(4) the more intensively parents are involved in their child's early learning, the greater the cognitive and noncognitive benefits to their children;

"(5) many parents have difficulty finding the information and support the parents seek to help their children grow to their full potential;

"(6) each day approximately 13,000,000 young children, including 6,000,000 infants or toddlers, spend some or all of their day being cared for by someone other than their parents;

"(7) quality early learning programs, including those designed to promote effective parenting, can increase the literacy rate, the secondary school graduation rate, the employment rate, and the college enrollment rate for children who have participated in voluntary early learning programs and activities;

"(8) early childhood interventions can yield substantial advantages to participants in terms of emotional and cognitive development, education, economic well-being, and health, with the latter two advantages applying to the children's families as well;

"(9) participation in quality early learning programs, including those designed to promote effective parenting, can decrease the future incidence of teenage pregnancy, welfare dependency, at-risk behaviors, and juvenile delinquency for children;

"(10) several cost-benefit analysis studies indicate that for each $1 invested in quality early learning programs, the Federal Government can save over $5 by reducing the number of children and families who participate in Federal Government programs like special education and welfare;

"(11) for children placed in the care of others during the workday, the low salaries paid to the child care staff, the lack of career progression for the staff, and the lack of child development specialists involved in early learning and child care programs, make it difficult to attract and retain the quality of staff necessary for a positive early learning experience;

"(12) Federal Government support for early learning has primarily focused on out-of-home care programs like those established under the Head Start Act [42 U.S.C. 9831 et seq.], the Child Care and Development Block Grant [Act] of 1990 [42 U.S.C. 9857 et seq.], and part C of the Individuals with Disabilities Education Act [20 U.S.C. 1431 et seq.], and these programs—

"(A) serve far fewer than half of all eligible children;

"(B) are not primarily designed to provide support for parents who care for their young children in the home; and

"(C) lack a means of coordinating early learning opportunities in each community; and

"(13) by helping communities increase, expand, and better coordinate early learning opportunities for children and their families, the productivity and creativity of future generations will be improved, and the Nation will be prepared for continued leadership in the 21st century."

EX. ORD. NO. 13646. ESTABLISHING THE PRESIDENT'S ADVISORY COUNCIL ON FINANCIAL CAPABILITY FOR YOUNG AMERICANS

Ex. Ord. No. 13646, June 25, 2013, 78 F.R. 39159, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

SECTION 1. *Policy*. To contribute to the Nation's future financial stability and increase upward economic mobility, it is the policy of the Federal Government to promote financial capability among young Americans and encourage building the financial capability of young people at an early stage in schools, families, communities, and the workplace. By starting early, young people can begin to learn the difference between wants and needs, the importance and power of saving, and the positive and productive role money can play in their lives. Having a basic understanding of money management from an early age will make our young people better equipped to tackle more complex financial decisions in their transition to adulthood, when critical decisions about financing higher education and saving for retirement can have lasting consequences for financial security. Strengthening the financial capability of our young people is an investment in our Nation's economic prosperity.

Financial capability is the capacity, based on knowledge, skills, and access, to manage financial resources prudently and effectively. Efforts to improve financial capability, which should be based on evidence of effectiveness, empower individuals to make informed choices, plan and set goals, avoid pitfalls, know where to seek help, and take other actions to better their present and long-term financial well-being.

SEC. 2. *Establishment of the Council*. There is established within the Department of the Treasury the President's Advisory Council on Financial Capability for Young Americans (Council).

SEC. 3. *Membership and Operation of the Council*. (a) The Council shall consist of:

(i) the Secretary of the Treasury (Secretary), and the Secretary of Education, who may designate a senior official from each of their respective departments to perform their Council duties; and

(ii) not more than 22 members appointed by the President from among individuals not employed by the Federal Government.

(b) Members of the Council shall include individuals with demonstrated experience or clear commitment to improving the financial capability of young people, such as individuals working with youth-serving organizations; educators and education policy experts; business leaders and employers of young workers; State, tribal, and local government policy makers; financial services providers; and innovators in financial capability. The composition of the Council shall reflect the views of diverse stakeholders.

(c) The Secretary shall invite the Director of the Bureau of Consumer Financial Protection to participate as a member of the Council, to the extent consistent with the Bureau's statutory authorities and legal obligations.

(d) The President shall designate a Chair and a Vice Chair from among the members of the Council appointed pursuant to subsection (a)(ii) of this section.

(e) Subject to the direction of the Secretary, the Chair shall convene and preside at meetings of the Council, determine its agenda, direct its work, and, as appropriate to deal with particular subjects, establish and direct the work of subgroups of the Council that shall consist exclusively of members of the Council.

(f) The Vice Chair shall perform:

(i) the duties of the Chair when the position of Chair is vacant; and

(ii) such other functions as the Chair may from time to time assign.

SEC. 4. *Functions of the Council*. To assist in implementing the policy set forth in section 1 of this order, the Council shall:

(a) collect information and views concerning financial capability from:

(i) executive departments and agencies (agencies), including members of the Financial Literacy and Education Commission established under title V of the Fair and Accurate Credit Transactions Act of 2003 (20 U.S.C. 9702);

(ii) State, local, territorial, and tribal officials; and

(iii) financial capability innovators, educators and education policy experts, financial services providers, corporate leaders, and employers of young workers, as well as other experts;

(b) advise the President and the Secretary on means to effectively implement the policy set forth in section 1 of this order, including means to:

(i) build strong public-private partnerships between and among members of the Financial Literacy and Education Commission; other agencies; State, tribal, and local governments; and private entities to coordinate the use of high quality financial capability resources and practices in schools, families, communities, and elsewhere in order to build the financial capability of young Americans;

(ii) support ongoing research and evaluation of financial education and capability activities aimed at young people to determine and disseminate effective approaches;

(iii) effectively assess the financial capability, including both financial knowledge and financial behaviors, of young Americans;

(iv) identify and develop strategies to pilot financial capability approaches in schools and among young people that are likely to have significant effects on young Americans' financial capability, and determine ways to test and implement such innovations in a large-scale and sustainable manner;

(v) identify, develop, and measure the effectiveness of technology-driven approaches to promote financial capability among young people;

(vi) identify and test promising and tested approaches for increasing planning, saving, and investing for retirement by young people; and

(vii) promote the importance of starting to plan and act early for financial success broadly among Americans through public awareness campaigns or other means;

(c) periodically report to the President, through the Secretary, on:

(i) progress made in implementing the policy set forth in section 1 of this order; and

(ii) recommended means to further implement the policy set forth in section 1 of this order, including with respect to the matters set forth in subsection (b) of this section; and

(d) where appropriate in providing advice and recommendations, take into consideration the particular needs of traditionally underserved populations—including women and minorities.

SEC. 5. *Administration of the Council*. (a) To the extent permitted by law, the Department of the Treasury shall provide funding and administrative support for the Council, as determined by the Secretary, to implement this order.

(b) The heads of agencies shall provide, as appropriate and to the extent permitted by law, such assistance and information to the Council as the Secretary may request to implement this order.

(c) Members of the Council appointed under section 3(a)(ii) of this order shall serve without any compensation for their work on the Council.

(d) Members of the Council, while engaged in the work of the Council, may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by law for persons serving intermittently in Government service (5 U.S.C. 5701–5707), consistent with the availability of funds.

(e) The Secretary shall designate an official within the Department of the Treasury to serve as an Executive Director to supervise the administrative support for the Council.

SEC. 6. *Termination of the Council*. Unless extended by the President, the Council shall terminate 2 years after the date of this order.

SEC. 7. *General Provisions*. (a) Insofar as the Federal Advisory Committee Act, as amended (5 U.S.C. App.) (the "Act"), may apply to the Council, any functions of the President under the Act, except for that of reporting to the Congress, shall be performed by the Secretary in accordance with the guidelines issued by the Administrator of General Services.

(b) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department, agency, or the head thereof, or the status of that department or agency within the Federal Government; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(c) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(d) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.
