§47109. United States Government's share of project costs

(a) GENERAL.—Except as otherwise provided in this section, the United States Government's share of allowable project costs is—

(1) 75 percent for a project at a medium or large hub airport;

(2) not more than 90 percent for a project funded by a grant issued to and administered by a State under section 47128, relating to the State block grant program;

(3) 90 percent for a project at any other airport;

(4) 70 percent for a project funded by the Administrator from the discretionary fund under section 47115 at an airport receiving an exemption under section 47134; and

(5) 95 percent for a project that—

(A) the Administrator determines is a successive phase of a multiphase construction project for which the sponsor received a grant in fiscal year 2011; and

(B) for which the United States Government's share of allowable project costs would otherwise be capped at 90 percent under paragraph (2) or (3).

(b) INCREASED GOVERNMENT SHARE.—If, under subsection (a) of this section, the Government's share of allowable costs of a project in a State containing unappropriated and unreserved public lands and nontaxable Indian lands (individual and tribal) of more than 5 percent of the total area of all lands in the State, is less than the share applied on June 30, 1975, under section 17(b) of the Airport and Airway Development Act of 1970, the Government's share under subsection (a) of this section shall be increased by the lesser of—

(1) 25 percent;

(2) one-half of the percentage that the area of unappropriated and unreserved public lands and nontaxable Indian lands in the State is of the total area of the State; or

(3) the percentage necessary to increase the Government's share to the percentage that applied on June 30, 1975, under section 17(b) of the Act.

(c) GRANDFATHER RULE.—

(1) IN GENERAL.—In the case of any project approved after September 30, 2003, at a small hub airport or nonhub airport that is located in a State containing unappropriated and unreserved public lands and nontaxable Indian lands (individual and tribal) of more than 5 percent of the total area of all lands in the State, the Government's share of allowable costs of the project shall be increased by the same ratio as the basic share of allowable costs of a project divided into the increased (Public Lands States) share of allowable costs of a project as shown on documents of the

Federal Aviation Administration dated August 3, 1979, at airports for which the general share was 80 percent on August 3, 1979. This subsection shall apply only if—

(A) the State contained unappropriated and unreserved public lands and nontaxable Indian lands of more than 5 percent of the total area of all lands in the State on August 3, 1979; and

(B) the application under subsection (b), does not increase the Government's share of allowable costs of the project.

(2) The Government's share of allowable project costs determined under this subsection shall not exceed the lesser of 93.75 percent or the highest percentage Government share applicable to any project in any State under subsection (b), except that at a primary non-hub and non-primary commercial service airport located in a State as set forth in paragraph (1) of this subsection that is within 15 miles of another State as set forth in paragraph (1) of this subsection, the Government's share shall be an average of the Government share applicable to any project in each of the States.

(d) SPECIAL RULE FOR PRIVATELY OWNED RELIEVER AIRPORTS.—If a privately owned reliever airport contributes any lands, easements, or rights-of-way to carry out a project under this subchapter, the current fair market value of such lands, easements, or rights-of-way shall be credited toward the non-Federal share of allowable project costs.

(e) SPECIAL RULE FOR TRANSITION FROM SMALL HUB TO MEDIUM HUB STATUS .—If the status of a small hub airport changes to a medium hub airport, the Government's share of allowable project costs for the airport may not exceed 90 percent for the first 2 fiscal years after such change in hub status.

(f) SPECIAL RULE FOR ECONOMICALLY DISTRESSED COMMUNITIES.—The Government's share of allowable project costs shall be 95 percent for a project at an airport that—

(1) is receiving essential air service for which compensation was provided to an air carrier under subchapter II of chapter 417; and

(2) is located in an area that meets one or more of the criteria established in section 301(a) of the Public Works and Economic Development Act of 1965 (42 U.S.C. 3161(a)), as determined by the Secretary of Commerce.

(g) SPECIAL RULE FOR COVERED EQUIPMENT.—

(1) IN GENERAL.—The Government's share of allowable project costs for covered equipment and its installation shall be 100 percent.

(2) DEFINITION OF COVERED EQUIPMENT.—For purposes of this subsection, the term "covered equipment" means aqueous film forming foam input-based testing equipment that is eligible for Airport Improvement Program funding based on Federal Aviation Administration PGL 21–01, titled "Extension of Eligibility for stand-alone acquisition of input-based testing equipment and truck modification", dated October 5, 2021 (or any other successor program guidance letter).

(3) SUNSET.—The higher cost share authority established in this subsection shall terminate on the earlier of—

(A) 180 days after the date on which the eligibility of covered equipment for Airport Improvement Program funding under the authority described in paragraph (2) terminates or is discontinued by the Administrator; or

(B) 5 years after the date of enactment of this subsection.

(h) SPECIAL RULE FOR FISCAL YEARS 2025 AND 2026.—Notwithstanding subsection (a), the Government's share of allowable project costs for a grant made to a nonhub or nonprimary airport in each of fiscal years 2025 and 2026 shall be 95 percent.

(i) SPECIAL RULE FOR SOUND INSULATION REPAIR AND REPLACEMENT.—With respect to a project to carry out sound insulation that is granted a waiver under section 47110(j), the allowable project cost for such project shall be calculated without consideration of any costs that were previously paid by the Government.

In subsection (a), before clause (1), the words "Except as provided in subsections (b) and (c) of this section" are substituted for "Except as otherwise provided in this chapter" because subsections (b) and (c) restate the only parts of the chapter that provide exceptions to the general rule stated in subsection (a). In clauses (1) and (2), the words "for a project" are substituted for "payable on account of any project contained in an approved project grant application submitted in accordance with this chapter" in 49 App.:2209(a) and "payable on account of any project contained in an approved project grant application" in 49 App.:2209(b) for consistency in this chapter and to eliminate unnecessary words. A project cost is allowable only if it is incurred under a grant agreement made under the chapter, and a grant agreement may be made only if the project grant application is approved. In clause (1), the words "number of passenger boardings" are substituted for "enplaning . . . of the . . . passengers enplaned" because of the definition of "passenger boardings" in section 47102 of the revised title.

In subsection (b), the words "If, under subsection (a) of this section, the Government's share of allowable costs . . . is less than the share applied on June 30, 1975, under section 17(b) of the Airport and Airway Development Act of 1970" and "(3) the percentage necessary to increase the Government's share to the percentage that applied on June 30, 1975, under section 17(b) of the Act" are substituted for 49 App.:2209(c) (last sentence) for clarity. The words "of the total of all lands therein" are omitted as surplus.

In subsection (c), the words "Notwithstanding subsections (a) and (b) of this section" are substituted for "Notwithstanding any other provision of this chapter" because subsections (a) and (b) are the only other parts of the chapter that specify the United States Government's share of allowable project costs.

§47110. Allowable project costs

(a) GENERAL AUTHORITY.—Except as provided in section 47111 of this title, the United States Government may pay or be obligated to pay, from amounts appropriated to carry out this subchapter, a cost incurred in carrying out a project under this subchapter only if the Secretary of Transportation decides the cost is allowable.

(b) ALLOWABLE COST STANDARDS.—A project cost is allowable—

(1)(A) if the cost necessarily is incurred in carrying out the project in compliance with the grant agreement made for the project under this subchapter, including any cost a sponsor incurs related to an audit the Secretary requires under section 47121(b) or (d) of this title and any cost of moving a Federal facility impeding the project if the rebuilt facility is of an equivalent size and type; or

(B) if the cost is an incentive payment incurred in carrying out the project described in subparagraph (A) that is to be provided to a contractor upon early completion of a project, if—

(i) such payment does not exceed the lesser of 5 percent of the initial construction contract amount or $1,000,000;

(ii) the level of contractor's control of, or access to, the worksite necessary to shorten the duration of the project does not negatively impact the operation of the airport;

(iii) the contract specifies application of the incentive structure in the event of unforeseeable, non-weather delays beyond the control of the contractor;

(iv) nothing in any agreement with the contractor prevents the airport operator from retaining responsibility for the safety, efficiency, and capacity of the airport during the execution of the grant agreement; and

(v) the Secretary determines that the use of an incentive payment is likely to increase airport capacity or efficiency or result in cost savings as a result of shortening the project's duration;

(2)(A) if the cost is incurred after the grant agreement is executed and is for airport development or airport planning carried out after the grant agreement is executed;

(B) if the cost is incurred after June 1, 1989, by the airport operator (regardless of when the grant agreement is executed) as part of a Government-approved noise compatibility program (including project formulation costs) and is consistent with all applicable statutory and administrative requirements;

(C) if the Government's share is paid only with amounts apportioned under paragraphs (1) and

(2) of section 47114(c) or section 47114(d)(3)(A) [1] and if the cost is incurred—

(i) after September 30, 1996;

(ii) before a grant agreement is executed for the project; and

(iii) in accordance with an airport layout plan approved by the Secretary and with all statutory and administrative requirements that would have been applicable to the project if the project had been carried out after the grant agreement had been executed; or

(D) if the cost is for airport development and is incurred before execution of the grant agreement, but in the same fiscal year as execution of the grant agreement, and if—

(i) the cost was incurred before execution of the grant agreement because the airport has a shortened construction season due to climatic conditions in the vicinity of the airport;

(ii) the cost is in accordance with an airport layout plan approved by the Secretary and with all statutory and administrative requirements that would have been applicable to the project if the project had been carried out after execution of the grant agreement, including submission of a complete grant application to the appropriate regional or district office of the Federal Aviation Administration;

(iii) the sponsor notifies the Secretary before authorizing work to commence on the project;

(iv) the sponsor has an alternative funding source available to fund the project; and

(v) the sponsor's decision to proceed with the project in advance of execution of the grant agreement does not affect the priority assigned to the project by the Secretary for the allocation of discretionary funds;

(3) to the extent the cost is reasonable in amount;

(4) if the cost is not incurred in a project for airport development or airport planning for which other Government assistance has been granted;

(5) if the total costs allowed for the project are not more than the amount stated in the grant agreement as the maximum the Government will pay (except as provided in section 47108(b) of this title);

(6) if the cost is for a project not described in section 47102(3) for acquiring for use at a commercial service airport vehicles and ground support equipment owned by an airport that include low-emission technology, but only to the extent of the incremental cost of equipping such vehicles or equipment with low-emission technology, as determined by the Secretary; and

(7) if the cost is incurred on a measure to improve the efficiency of an airport building (such as a measure designed to meet one or more of the criteria for being considered a high-performance green building as set forth under section 401(13) of the Energy Independence and Security Act of 2007 (42 U.S.C. 17061(13))) and—

(A) the measure is for a project for airport development;

(B) the measure is for an airport building that is otherwise eligible for construction assistance under this subchapter; and

(C) if the measure results in an increase in initial project costs, the increase is justified by expected savings over the life cycle of the project.

(c) CERTAIN PRIOR COSTS AS ALLOWABLE COSTS.—The Secretary may decide that a project cost under subsection (b)(2)(A) of this section incurred before the date the grant agreement is executed is allowable if it is—

(1) necessarily incurred in formulating or preparing for an airport development project, including costs incurred for field surveys, plans and specifications, property interests in land or airspace, utility relocation, work site preparation, and administration or other incidental items that would not have been incurred except for the project; or

(2) necessarily and directly incurred in developing the work scope of an airport planning project.

(d) RELOCATION OF AIRPORT-OWNED FACILITIES.—The Secretary may determine that

the costs of relocating or replacing an airport-owned facility are allowable for an airport development project at an airport only if—

(1) the Government's share of such costs will be paid with funds apportioned to the airport sponsor under section 47114 or distributed from the small airport fund under section 47116;

(2) the Secretary determines that the relocation or replacement is required due to a change in the Secretary's design standards; and

(3) the Secretary determines that the change is beyond the control of the airport sponsor.

(e) LETTERS OF INTENT.—(1) The Secretary may issue a letter of intent to the sponsor stating an intention to obligate from future budget authority an amount, not more than the Government's share of allowable project costs, for an airport development project (including costs of formulating the project) at a primary or reliever airport. The letter shall establish a schedule under which the Secretary will reimburse the sponsor for the Government's share of allowable project costs, as amounts become available, if the sponsor, after the Secretary issues the letter, carries out the project without receiving amounts under this subchapter.

(2) Paragraph (1) of this subsection applies to a project—

(A) about which the sponsor notifies the Secretary, before the project begins, of the sponsor's intent to carry out the project;

(B) that will comply with all statutory and administrative requirements that would apply to the project if it were carried out with amounts made available under this subchapter; and

(C) that meets the criteria of section 47115(d) and, if for a project at a medium hub airport or large hub airport, the Secretary decides will enhance system-wide airport capacity significantly.

(3) A letter of intent issued under paragraph (1) of this subsection is not an obligation of the Government under section 1501 of title 31, and the letter is not deemed to be an administrative commitment for financing. An obligation or administrative commitment may be made only as amounts are provided in authorization and appropriation laws.

(4) The total estimated amount of future Government obligations covered by all outstanding letters of intent under paragraph (1) of this subsection may not be more than the amount authorized to carry out section 48103 of this title, less an amount reasonably estimated by the Secretary to be needed for grants under section 48103 that are not covered by a letter.

(5) LETTERS OF INTENT.—The Secretary may not require an eligible agency to impose a passenger facility charge under section 40117 in order to obtain a letter of intent under this section.

(6) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this section shall be construed to prohibit the obligation of amounts pursuant to a letter of intent under this subsection in the same fiscal year as the letter of intent is issued.

(7) PARTNERSHIP PROGRAM AIRPORTS.—The Secretary may issue a letter of intent under this subsection to an airport sponsor with an approved application under section 47134(b) if—

(A) the application was approved in fiscal year 2019; and

(B) the project meets all other requirements set forth in this chapter.

(f) NONALLOWABLE COSTS.—Except as provided in subsection (d) of this section and section 47118(f) of this title, a cost is not an allowable airport development project cost if it is for—

(1) constructing a public parking facility for passenger automobiles;

(2) constructing, altering, or repairing part of an airport building, except to the extent the building will be used for facilities or activities directly related to the safety of individuals at the airport;

(3) decorative landscaping; or

(4) providing or installing sculpture or art works.

(g) USE OF DISCRETIONARY FUNDS.—A project for which cost reimbursement is provided under subsection (b)(2)(C) shall not receive priority consideration with respect to the use of discretionary funds made available under section 47115 of this title even if the amounts made

available under paragraphs (1) and (2) of section 47114(c) or section 47114(d)(3)(A) [1] are not sufficient to cover the Government's share of the cost of the project.

(h) NONPRIMARY AIRPORTS.—The Secretary may decide that the construction costs of revenue producing aeronautical support facilities are allowable for an airport development project at a nonprimary airport if the Government's share of such costs is paid only with funds apportioned to the airport sponsor under section 47114(c)(1)(D) or section 47114(d)(2)(A) and if the Secretary determines that the sponsor has made adequate provision for financing airside needs of the airport.

(i) SMALL AIRPORT LETTERS OF INTENT.—

(1) IN GENERAL.—The Secretary may issue a letter of intent to a sponsor stating an intention to obligate an amount from future budget authority for an airport development project (including costs of formulating the project) at a nonhub airport or an airport that is not a primary airport.

(2) CONTENTS.—In the letter issued under paragraph (1), the Secretary shall establish a schedule under which the Secretary will reimburse the sponsor for the Government's share of allowable project costs, as amounts become available, if the sponsor, after the Secretary issues the letter, carries out the project without receiving amounts under this subchapter.

(3) LIMITATIONS.—The amount the Secretary intends to obligate in a letter of intent issued under this subsection shall not exceed the larger of—

(A) the Government's share of allowable project costs; or

(B) $10,000,000.

(4) FINANCING.—Allowable project costs under paragraphs (1) and (2) may include costs associated with making payments for debt service on indebtedness incurred to carry out the project.

(5) REQUIREMENTS.—The Secretary shall issue a letter of intent under paragraph (1) only if—

(A) the sponsor notifies the Secretary, before the project begins, of the intent of the sponsor to carry out the project and requests a letter of intent; and

(B) the sponsor agrees to comply with all statutory and administrative requirements that would apply to the project if it were carried out with amounts made available under this subchapter.

(6) ASSESSMENT.—In reviewing a request for a letter of intent under this subsection, the Secretary shall consider the grant history of an airport, the enplanements or operations of an airport, and such other factors as the Secretary determines appropriate.

(7) PRIORITIZATION.—In issuing letters of intent under this subsection, the Secretary shall—

(A) prioritize projects that—

(i) cannot reasonably be funded by an airport sponsor using funds apportioned under section 47114(c), 47114(d)(2)(A), or 47114(d)(6), including funds apportioned under such sections in multiple fiscal years pursuant to section 47117(b)(1); and

(ii) are necessary to the continued safe operation or development of an airport; and

(B) structure the reimbursement schedules under such letters in a manner that minimizes unnecessary or undesirable project segmentation.

(8) NO OBLIGATION OR COMMITMENT.—

(A) IN GENERAL.—A letter of intent issued under this subsection is not an obligation of the Government under section 1501 of title 31, and the letter is not deemed to be an administrative commitment for financing.

(B) OBLIGATION OR COMMITMENT.—An obligation or administrative commitment may be made only as amounts are provided in authorization and appropriation Acts.

(9) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this section shall be construed to prohibit the obligation of amounts pursuant to a letter of intent under this subsection

in the same fiscal year as the letter of intent is issued.

(j) PILOT PROGRAM FOR SOUND INSULATION REPAIR AND REPLACEMENTS.—

(1) IN GENERAL.—Not later than 120 days after the date of enactment of this subsection, the Administrator of the Federal Aviation Administration shall establish a pilot program at up to two large hub public-use airports for local airport operators that have established a local program to fund secondary noise insulation using nonaeronautical revenue that provides a one-time waiver of the requirement of subsection (b)(4) for a qualifying airport as applied to projects to carry out repair and replacement of sound insulation for a residential building for which the airport previously received Federal assistance or Federally authorized airport assistance under this subchapter if—

(A) the Secretary determines that the additional assistance is justified due to the residence containing any sound insulation treatment or other type of sound proofing material previously installed under this subchapter that is determined to be eligible pursuant to paragraph (2);

(B) the residence—

(i) falls within the Day Night Level (DNL) of 65 to 75 decibel (dB) noise contours, according to the most recent noise exposure map (as such term is defined in section 150.7 of title 14, Code of Federal Regulations) available as of the date of enactment of this subsection;

(ii) fell within such noise contours at the time the initial sound insulation treatment was installed, but a qualified noise auditor has determined that—

(I) such sound insulation treatment caused physical damage to the residence; or

(II) the materials used for sound insulation treatment were of low quality and have deteriorated, broken, or otherwise no longer function as intended; and

(iii) is shown through testing that current interior noise levels exceed DNL 45 dB, and the new insulation would have the ability to achieve a 5 dB noise reduction; and

(C) the qualifying airport—

(i) is a large hub airport (as defined in section 40102 of title 49, United States Code);

(ii) is located in a dense residential area, with a minimum population of 200,000 residents within a 5-mile radius of the airport;

(iii) has an established residential sound insulation program that has been operational for at least 30 years and began in the year 1985;

(iv) is located in a metropolitan statistical area with a population of at least 4,000,000 people; and

(v) has at least 22,000,000 enplanements annually.

(2) ELIGIBILITY DETERMINATION.—To be eligible for waiver under this subsection for repair or replacement of sound insulation treatment projects, an applicant shall—

(A) ensure that the applicant and the property owner have made a good faith effort to exhaust any amounts available through warranties, insurance coverage, and legal remedies for the sound insulation treatment previously installed on the eligible residence;

(B) verify the sound insulation treatment for which Federal assistance was previously provided was installed prior to the year 2002; and

(C) demonstrate that a qualified noise auditor, based on an inspection of the residence, determined that—

(i) the sound insulation treatment for which Federal assistance was previously provided has resulted in structural deterioration that was not caused by failure of the property owner to repair or adequately maintain the residential building or through the negligence of the applicant or the property owner; and

(ii) the condition of the sound insulation treatment described in subparagraph (A) is not attributed to actions taken by an owner or occupant of the residence.

(3) ADDITIONAL AUTHORITY FOR SURVEYS.—Notwithstanding any other provision of law, the Secretary shall consider a cost allowable under this subchapter for an airport to conduct periodic surveys of properties in which repair and replacement of sound insulation treatment was carried out as described in paragraph (1) and for which the airport previously received Federal assistance or Federally authorized airport assistance under this subchapter. The surveys shall be conducted only for those properties for which the airport has identified a property owner who is interested in having a survey be undertaken to assess the current effectiveness of the sound insulation treatment. Such surveys shall be carried out to identify any properties described in the preceding sentence that are eligible for funds under this subsection.

In subsection (a), the words "for airport development or airport planning" are omitted because of the definition of "project" in section 47102 of the revised title. The text of 49 App.:2212(a) (last sentence) is omitted as surplus because of 49:322(a).

In subsection (b)(1), the word "approved" is omitted as surplus because a project that was not approved could not be carried out in compliance with a grant agreement. The words "in compliance with the grant agreement made for the project under this subchapter" are substituted for "in conformity with the terms and

conditions of the grant agreement entered into in connection with the project" to eliminate unnecessary words. The word "sponsor" is substituted for "recipient" for clarity.

In subsection (b)(2)(A), the words "with respect to the project" are omitted as unnecessary because "the grant agreement" means "the grant agreement made for the project" referred to in clause (1) of this subsection. The words "under the project" are omitted as surplus.

Subsection (b)(3) is substituted for "in the opinion of the Secretary it is reasonable in amount, and if the Secretary determines that a project cost is unreasonable in amount, the Secretary may allow as an allowable project cost only so much of such project cost as the Secretary determines to be reasonable" to eliminate unnecessary words.

Subsection (b)(5) is substituted for "except that in no event may the Secretary allow project costs in excess of the definite amount stated in the grant agreement except to the extent authorized by section 2211(b) of this Appendix" for consistency in this section.

In subsection (c), before clause (1), the words "The Secretary may decide that a project cost . . . is allowable" are substituted for "However, the allowable costs of a project . . . may include . . . and the allowable costs of a project . . . may include" for clarity and consistency in the revised title. The words "incurred after May 13, 1946, and before the date the grant agreement is executed" are substituted for "which were incurred prior to the execution of the grant agreement and subsequent to May 13, 1946" and "which were incurred subsequent to May 13, 1946" to eliminate unnecessary words. In clause (1), the words "preparation of", "acquisition of", "by the sponsor specifically in connection with the accomplishment of the project for airport development" are omitted as surplus. The words "property interests in land or airspace" are substituted for "land or interests therein or easements through or other interests in airspace" to eliminate unnecessary words.

In subsection (d)(1), before clause (A), the words "The Secretary may decide that the cost . . . is allowable" are substituted for "the Secretary may approve, as allowable project costs" and "The Secretary shall approve project costs allowable under paragraph (1) of this subsection" for clarity and consistency in this section. In clause (B), the words "the boundaries of" are omitted as surplus. In clause (C), the words "and conditions" are omitted as being included in "terms".

In subsection (d)(2), the words "In making a decision under paragraph (1) of this subsection, the Secretary may approve as allowable costs" are substituted for "In the case of a commercial service airport . . . the Secretary may approve, under the preceding sentence as allowable project costs" for consistency in this subsection.

In subsection (e)(1), the word "sponsor" is substituted for "applicant" for consistency. The words "stipulated as" and "Subject to the provisions of this paragraph" are omitted as surplus. The word "reimburse" is substituted for "make payments under paragraph (2) of this subsection" and "pay" for clarity. The words "payable on account of such project in accordance with such letter of intent" are omitted as surplus.

In subsection (e)(2), before clause (A), the text of 49 App.:2212(d)(1)(C) (last sentence) is omitted as obsolete.

In subsection (e)(3), the words "A letter of intent issued" are substituted for "action" for clarity. The word "deemed" before "an obligation" is omitted as surplus.

In subsection (f)(2), the words "of a hangar or" are omitted as being included in "airport building".

§47111. Payments under project grant agreements

(a) GENERAL AUTHORITY.—After making a project grant agreement under this subchapter and consulting with the sponsor, the Secretary of Transportation may decide when and in what amounts payments under the agreement will be made. Payments totaling not more than 90 percent of the United States Government's share of the project's estimated allowable costs may be made before the project is completed if the sponsor certifies to the Secretary that the total amount expended from the advance payments at any time will not be more than the cost of the airport development work completed on the project at that time.

(b) RECOVERING PAYMENTS.—If the Secretary determines that the total amount of payments made under a grant agreement under this subchapter is more than the Government's share of the total allowable project costs, the Government may recover the excess amount. If the Secretary finds that a project for which an advance payment was made has not been completed within a reasonable time, the Government may recover any part of the advance payment for which the Government received no benefit.

(c) PAYMENT DEPOSITS.—A payment under a project grant agreement under this subchapter may be made only to an official or depository designated by the sponsor and authorized by law to receive public money.

(d) WITHHOLDING PAYMENTS.—(1) The Secretary may withhold a payment under a grant agreement under this subchapter for more than 180 days after the payment is due only if the Secretary—

(A) notifies the sponsor and provides an opportunity for a hearing; and

(B) finds that the sponsor has violated the agreement.

(2) The 180-day period may be extended by—

(A) agreement of the Secretary and the sponsor; or

(B) the hearing officer if the officer decides an extension is necessary because the sponsor did not follow the schedule the officer established.

(3) A person adversely affected by an order of the Secretary withholding a payment may apply for review of the order by filing a petition in the United States Court of Appeals for the District of Columbia Circuit or in the court of appeals of the United States for the circuit in which the project is located. The petition must be filed not later than 60 days after the order is served on the petitioner.

(e) ACTION ON GRANT ASSURANCES CONCERNING AIRPORT REVENUES.—If, after notice and opportunity for a hearing, the Secretary finds a violation of section 47107(b) of this title, as further defined by the Secretary under section 47107(k) of this title, or a violation of an assurance made under section 47107(b) of this title, and the Secretary has provided an opportunity for the airport sponsor to take corrective action to cure such violation, and such corrective action has not been taken within the period of time set by the Secretary, the Secretary shall withhold approval of any new grant application for funds under this chapter, or any proposed modification to an existing grant that would increase the amount of funds made available under this chapter to the airport sponsor, and withhold approval of any new application to impose a charge under section 40117 of this title. Such applications may thereafter be approved only upon a finding by the Secretary that such corrective action as the Secretary requires has been taken to address the violation and that the violation no longer exists.

(f) JUDICIAL ENFORCEMENT.—For any violation of this chapter or any grant assurance made under this chapter, the Secretary may apply to the district court of the United States for any district in which the violation occurred for enforcement. Such court shall have jurisdiction to enforce obedience thereto by a writ of injunction or other process, mandatory or otherwise, restraining any person from further violation.

DISADVANTAGED BUSINESS ENTERPRISE PROGRAM

Pub. L. 115–254, div. B, title I, §157, Oct. 5, 2018, 132 Stat. 3218, as amended by Pub. L. 118–63, title VII, §751, May 16, 2024, 138 Stat. 1284, provided that:

"(a) FINDINGS.—Congress finds the following:

"(1) While significant progress has occurred due to the establishment of the airport disadvantaged business enterprise program (sections 47107(e) and 47113 of title 49, United States Code), discrimination and related barriers continue to pose significant obstacles for minority- and women-owned businesses seeking to do business in airport-related markets across the Nation. These continuing barriers merit the continuation of the airport disadvantaged business enterprise program.

"(2) Congress has received and reviewed testimony and documentation of race and gender discrimination from numerous sources, including congressional hearings and roundtables, scientific reports, reports issued by public and private agencies, news stories, reports of discrimination by organizations and individuals, and discrimination lawsuits. This testimony and documentation shows that race- and gender-neutral efforts alone are insufficient to address the problem.

"(3) This testimony and documentation demonstrates that discrimination across the Nation poses a barrier to full and fair participation in airport-related businesses of women business owners and minority business owners in the racial groups detailed in parts 23 and 26 of title 49, Code of Federal Regulations, and has impacted firm development and many aspects of airport-related business in the public and private markets.

"(4) This testimony and documentation provides a strong basis that there is a compelling need for the continuation of the airport disadvantaged business enterprise ["DBE"] program and the airport concessions disadvantaged business enterprise ["ACDBE"] program to address race and gender discrimination in airport-related business.

"(b) PROMPT PAYMENTS.—

"(1) REPORTING OF COMPLAINTS.—Not later than 120 days after the date of enactment of this

Act [Oct. 5, 2018], the Administrator of the Federal Aviation Administration shall ensure that each airport that participates in the Program tracks, and reports to the Administrator, the number of covered complaints made in relation to activities at that airport.

"(2) IMPROVING COMPLIANCE.—

"(A) IN GENERAL.—The Administrator shall take actions to assess and improve compliance with prompt payment requirements under part 26 of title 49, Code of Federal Regulations.

"(B) CONTENTS OF ASSESSMENT.—In carrying out subparagraph (A), the Administrator shall assess—

"(i) whether requirements relating to the inclusion of prompt payment language in contracts are being satisfied;

"(ii) whether and how airports are enforcing prompt payment requirements;

"(iii) the processes by which covered complaints are received and resolved by airports;

"(iv) whether improvements need to be made to—

"(I) better track covered complaints received by airports; and

"(II) assist the resolution of covered complaints in a timely manner;

"(v) whether changes to prime contractor specifications need to be made to ensure prompt payments to subcontractors; and,

"(vi) whether changes to prime contractor specifications need to be made to ensure prompt payment of retainage to subcontractors.

"(C) REPORTING.—The Administrator shall make available to the public on an appropriate website operated by the Administrator a report describing the results of the assessment completed under this paragraph, including a plan to respond to such results.

"(D) PUBLISHING DATA.—The Secretary of Transportation shall report on a publicly accessible website the uniform report of DBE awards/commitments and payments specified in part 26 of title 49, Code of Federal Regulations, and the uniform report of ACDBE Participation for non-car rental and car rental concessions, for each airport sponsor beginning with fiscal year 2025.

"(3) DEFINITIONS.—In this subsection, the following definitions apply:

"(A) COVERED COMPLAINT.—The term 'covered complaint' means a complaint relating to an alleged failure to satisfy a prompt payment requirement under part 26 of title 49, Code of Federal Regulations.

"(B) PROGRAM.—The term 'Program' means the airport disadvantaged business enterprise program referenced in subsection (a)(1) [probably means section 140(a)(1)] of the FAA Modernization and Reform Act of 2012 [Pub. L. 112–95] (49 U.S.C. 47113 note)."

Pub. L. 112–95, title I, §140(a), Feb. 14, 2012, 126 Stat. 27, provided that: "Congress finds the following:

"(1) While significant progress has occurred due to the establishment of the airport disadvantaged business enterprise program (49 U.S.C. 47107(e) and 47113), discrimination and related barriers continue to pose significant obstacles for minority- and women-owned businesses seeking to do business in airport-related markets across the Nation. These continuing barriers merit the continuation of the airport disadvantaged business enterprise program.

"(2) Congress has received and reviewed testimony and documentation of race and gender discrimination from numerous sources, including congressional hearings and roundtables, scientific reports, reports issued by public and private agencies, news stories, reports of discrimination by organizations and individuals, and discrimination lawsuits. This testimony and documentation shows that race- and gender-neutral efforts alone are insufficient to address the problem.

"(3) This testimony and documentation demonstrates that discrimination across the Nation poses a barrier to full and fair participation in airport-related businesses of women business owners and minority business owners in the racial groups detailed in parts 23 and 26 of title 49, Code of Federal Regulations, and has impacted firm development and many aspects of airport-related business in the public and private markets.

"(4) This testimony and documentation provides a strong basis that there is a compelling need for the continuation of the airport disadvantaged business enterprise program and the airport concessions disadvantaged business enterprise program to address race and gender discrimination in airport-related business."

(a) DEFINITION.—In this section, "amount subject to apportionment" means the amount newly

made available under section 48103 of this title for a fiscal year.

(b) APPORTIONMENT DATE.—On the first day of each fiscal year, the Secretary of Transportation shall apportion the amount subject to apportionment for that fiscal year as provided in this section.

(c) AMOUNTS APPORTIONED TO SPONSORS.—

(1) PRIMARY AND COMMERCIAL SERVICE AIRPORTS.—

(A) PRIMARY AIRPORT APPORTIONMENT.—The Secretary shall apportion to the sponsor of each primary airport for each fiscal year an amount equal to—

(i) $15.60 for each of the first 50,000 passenger boardings at the airport during the prior calendar year;

(ii) $10.40 for each of the next 50,000 passenger boardings at the airport during the prior calendar year;

(iii) $5.20 for each of the next 400,000 passenger boardings at the airport during the prior calendar year;

(iv) $1.30 for each of the next 500,000 passenger boardings at the airport during the prior calendar year; and

(v) $1.00 for each additional passenger boarding at the airport during the prior calendar year.

(B) MINIMUM AND MAXIMUM APPORTIONMENTS.—Not less than $1,300,000 nor more than $22,000,000 may be apportioned under subparagraph (A) to an airport sponsor for a primary airport for each fiscal year.

(C) NEW AIRPORT.—Notwithstanding subparagraph (A), the Secretary shall apportion in the first fiscal year following the official opening of a new airport with scheduled passenger air transportation an amount equal to $1,300,000 to the sponsor of such airport.

(D) NONPRIMARY COMMERCIAL SERVICE AIRPORT APPORTIONMENT.—

(i) IN GENERAL.—The Secretary shall apportion to each commercial service airport that is not a primary airport an amount equal to—

(I) $60 for each of the first 2,500 passenger boardings at the airport during the prior calendar year; and

(II) $153.33 for each of the next 7,499 passenger boardings at the airport during the prior calendar year.

(ii) APPLICABILITY.—Paragraphs (4) and (5) of subsection (d) shall apply to funds apportioned under this subparagraph.

(E) PUBLIC AIRPORTS WITH MILITARY USE.—Notwithstanding any other provision of law, a public airport shall be considered a primary airport in each of fiscal years 2025 through 2028 for purposes of this chapter if such airport was—

(i) designated as a primary airport in fiscal year 2017; and

(ii) in use by an air reserve station in the calendar year used to calculate apportionments to airport sponsors in a fiscal year.

(F) SPECIAL RULE FOR FISCAL YEAR 2024.—Notwithstanding any other provision of this paragraph or the absence of scheduled passenger service at an airport, the Secretary shall apportion in fiscal year 2024 to the sponsor of an airport an amount based on the number of passenger boardings at the airport during whichever of the following years that would result in the highest apportioned amount under this paragraph:

(i) Calendar year 2018.

(ii) Calendar year 2019.

(iii) The prior full calendar year prior to fiscal year 2024.

(2) CARGO AIRPORTS.—

(A) APPORTIONMENT.—Subject to subparagraph (D), the Secretary shall apportion an amount equal to 4 percent of the amount subject to apportionment each fiscal year to the sponsors of airports served by aircraft providing air transportation of only cargo with a total annual landed weight of more than 25,000,000 pounds.

(B) SUBALLOCATION FORMULA.—Any funds apportioned under subparagraph (A) to sponsors of airports described in subparagraph (A) shall be allocated among those airports in the proportion that the total annual landed weight of aircraft described in subparagraph (A) landing at each of those airports bears to the total annual landed weight of those aircraft landing at all those airports.

(C) DISTRIBUTION TO OTHER AIRPORTS.—Before apportioning amounts to the sponsors of airports under subparagraph (A) for a fiscal year, the Secretary may set-aside a portion of such amounts for distribution to the sponsors of other airports, selected by the Secretary, that the Secretary finds will be served primarily by aircraft providing air transportation of only cargo.

(D) DETERMINATION OF LANDED WEIGHT.—Landed weight under this paragraph is the landed weight of aircraft landing at each airport described in subparagraph (A) during the prior calendar year.

(d) AMOUNTS APPORTIONED FOR GENERAL AVIATION AIRPORTS.—

(1) DEFINITIONS.—In this subsection, the following definitions apply:

(A) AREA.—The term "area" includes land and water.

(B) POPULATION.—The term "population" means the population stated in the latest decennial census of the United States.

(2) APPORTIONMENT.—In any fiscal year in which the total amount made available under section 48103 is $3,200,000,000 or more, rather than making an apportionment under paragraph (2), the Secretary shall apportion 25 percent of the amount subject to apportionment for each fiscal year as follows:

(A) To each airport, excluding commercial service airports but including reliever airports, in States the lesser of—

(i) $150,000; or

(ii) 1/5 of the most recently published estimate of the 5-year costs for airport improvement for the airport, as listed in the national plan of integrated airport systems developed by the Federal Aviation Administration under section 47103.

(B) Any remaining amount to States as follows:

(i) 0.62 percent of the remaining amount to Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and the Virgin Islands.

(ii) Except as provided in paragraph (4), 49.69 percent of the remaining amount for airports, excluding commercial service airports but including reliever airports, in States not named in clause (i) in the proportion that the population of each of those States bears to the total population of all of those States.

(iii) Except as provided in paragraph (4), 49.69 percent of the remaining amount for airports, excluding commercial service airports but including reliever airports, in States not named in clause (i) in the proportion that the area of each of those States bears to the total area of all of those States.

(C) An airport that has previously been listed as unclassified under the national plan of integrated airport systems that has reestablished the classified status of such airport as of the date of apportionment shall be eligible to accrue apportionment funds pursuant to subparagraph (A) so long as such airport retains such classified status.

(3) AIRPORTS IN NONCONTIGUOUS STATES AND TERRITORIES.—

(A) ALASKA, PUERTO RICO, AND HAWAII.—An amount apportioned under this subsection to Alaska, Puerto Rico, or Hawaii for airports in such State may be made available by the Secretary for any public airport in those respective jurisdictions.

(B) OTHER TERRITORIES.—An amount apportioned under paragraph (2)(B)(i) may be made available by the Secretary for any public-use airport in Guam, American Samoa, the Northern Mariana Islands, or the Virgin Islands if the Secretary determines that there are insufficient qualified grant applications for projects at airports that are otherwise eligible for funding under that paragraph. The Secretary shall prioritize the use of such amounts in the territory the amount was originally apportioned in.

(4) USE OF STATE HIGHWAY SPECIFICATIONS.—The Secretary shall use the highway specifications of a State for airfield pavement construction and improvement using funds made available under this subsection or subsection (c)(1)(D) at nonprimary airports serving aircraft that do not exceed 60,000 pounds gross weight if—

(A) such State requests the use of such specifications; and

(B) the Secretary determines that—

(i) safety will not be negatively affected; and

(ii) the life of the pavement, with necessary maintenance and upkeep, will not be shorter than it would be if constructed using Administration standards.

(5) INTEGRATED AIRPORT SYSTEM PLANNING.—Notwithstanding any other provision of this section, funds made available under this subsection or subsection (c)(1)(D) may be used for integrated airport system planning that encompasses one or more primary airports.

(6) ELIGIBILITY TO RECEIVE PRIMARY AIRPORT MINIMUM APPORTIONMENT AMOUNT.—Notwithstanding any other provision of this subsection, the Secretary may apportion to an airport sponsor in a fiscal year an amount equal to the minimum apportionment available under subsection (c)(1)(B) if the Secretary finds that the airport—

(A) received scheduled or unscheduled air service from a large certificated air carrier (as defined in part 241 of title 14, Code of Federal Regulations, or such other regulations as may be issued by the Secretary under the authority of section 41709) in the calendar year used to calculate the apportionment; and

(B) had more than 10,000 passenger boardings in the calendar year used to calculate the apportionment.

(e) SUPPLEMENTAL APPORTIONMENT FOR ALASKA.—

(1) IN GENERAL.—Notwithstanding subsections (c) and (d) of this section, the Secretary may apportion amounts for airports in Alaska in the way in which amounts were apportioned in the fiscal year ending September 30, 1980, under section 15(a) of the Act. However, in apportioning amounts for a fiscal year under this subsection, the Secretary shall apportion—

(A) for each primary airport at least as much as would be apportioned for the airport under subsection (c)(1) of this section; and

(B) a total amount at least equal to the minimum amount required to be apportioned to airports in Alaska in the fiscal year ending September 30, 1980, under section 15(a)(3)(A) of the Act.

(2) AUTHORITY FOR DISCRETIONARY GRANTS.—This subsection does not prohibit the Secretary from making project grants for airports in Alaska from the discretionary fund under section 47115 of this title.

(3) AIRPORTS ELIGIBLE FOR FUNDS.—An amount apportioned under this subsection may be used for any public airport in Alaska.

(4) SPECIAL RULE.—In any fiscal year in which the total amount made available under section 48103 is $3,200,000,000 or more, the amount that may be apportioned for airports in Alaska under paragraph (1) shall be increased by doubling the amount that would otherwise be

apportioned.

(f) REDUCING APPORTIONMENTS.—

(1) IN GENERAL.—Subject to paragraph (3), an amount that would be apportioned under this section (except subsection (c)(2)) in a fiscal year to the sponsor of a medium or large hub airport for which a charge is imposed in the fiscal year under section 40117 of this title shall be reduced by an amount equal to—

(A) in the case of a charge of $3.00 or less—

(i) except as provided in clause (ii), 40 percent of the projected revenues from the charge in the fiscal year but not by more than 40 percent of the amount that otherwise would be apportioned under this section; or

(ii) with respect to an airport in Hawaii, 40 percent of the projected revenues from the charge in the fiscal year but not by more than 40 percent of the excess of—

(I) the amount that otherwise would be apportioned under this section; over

(II) the amount equal to the amount specified in subclause (I) multiplied by the percentage of the total passenger boardings at the applicable airport that are comprised of interisland passengers; and

(B) in the case of a charge of more than $3.00—

(i) except as provided in clause (ii), 60 percent of the projected revenues from the charge in the fiscal year but not by more than 60 percent of the amount that otherwise would be apportioned under this section; or

(ii) with respect to an airport in Hawaii, 60 percent of the projected revenues from the charge in the fiscal year but not by more than 60 percent of the excess of—

(I) the amount that otherwise would be apportioned under this section; over

(II) the amount equal to the amount specified in subclause (I) multiplied by the percentage of the total passenger boardings at the applicable airport that are comprised of interisland passengers.

(2) EFFECTIVE DATE OF REDUCTION.—

(A) NEW CHARGE COLLECTION.—A reduction in an apportionment under paragraph (1) shall not take effect until the first fiscal year following the year in which the collection of the charge imposed under section 40117 has begun.

(B) NEW CATEGORIZATION.—A reduction in an apportionment under paragraph (1) shall only be applied to an airport if such airport has been designated as a medium or large hub airport for 3 consecutive years.

(g) SUPPLEMENTAL APPORTIONMENT FOR PUERTO RICO AND UNITED STATES TERRITORIES.—The Secretary shall apportion amounts for airports in Puerto Rico and all other United States territories in accordance with this section. This subsection does not prohibit the Secretary from making project grants for airports in Puerto Rico or other United States territories from the discretionary fund under section 47115.

EXECUTIVE DOCUMENTS

TERMINATION OF TRUST TERRITORY OF THE PACIFIC ISLANDS

For termination of Trust Territory of the Pacific Islands, see note set out preceding section 1681 of Title 48, Territories and Insular Possessions.

§47115. Discretionary fund

(a) EXISTENCE AND AMOUNTS IN FUND.—The Secretary of Transportation has a discretionary fund. The fund consists of—

(1) amounts subject to apportionment for a fiscal year that are not apportioned under section 47114(c)–(e) of this title; and

(2) 12.5 percent of amounts not apportioned under section 47114 of this title because of section 47114(f).

(b) AVAILABILITY OF AMOUNTS.—Subject to subsection (c) of this section and section 47117(e) of this title, the fund is available for making grants for any purpose for which amounts are made available under section 48103 of this title that the Secretary considers most appropriate to carry out this subchapter.

(c) MINIMUM PERCENTAGE FOR PRIMARY AND RELIEVER AIRPORTS.—At least 75 percent of the amount in the fund and distributed by the Secretary in a fiscal year shall be used for making grants—

(1) to preserve and enhance capacity, safety, and security at primary and reliever airports; and

(2) to carry out airport noise compatibility planning and programs at primary and reliever airports.

(d) CONSIDERATIONS.—

(1) FOR CAPACITY ENHANCEMENT PROJECTS.—In selecting a project for a grant to preserve and improve capacity funded in whole or in part from the fund, the Secretary shall consider—

(A) the effect that the project will have on overall national transportation system capacity;

(B) the benefit and cost of the project, including, in the case of a project at a reliever airport, the number of operations projected to be diverted from a primary airport to the reliever airport as a result of the project, as well as the cost savings projected to be realized by users of the local airport system;

(C) the financial commitment from non-United States Government sources to preserve or improve airport capacity;

(D) the airport improvement priorities of the States to the extent such priorities are not in conflict with subparagraphs (A) and (B);

(E) the projected growth in the number of passengers or aircraft that will be using the airport at which the project will be carried out; and

(F) the ability of the project to foster United States competitiveness in securing global air cargo activity at a United States airport.

(2) FOR ALL PROJECTS.—In selecting a project for a grant under this section, the Secretary shall consider among other factors whether—

(A) funding has been provided for all other projects qualifying for funding during the fiscal year under this chapter that have attained a higher score under the numerical priority system employed by the Secretary in administering the fund; and

(B) the sponsor will be able to commence the work identified in the project application in the fiscal year in which the grant is made or within 6 months after the grant is made, whichever is later.

(e) WAIVING PERCENTAGE REQUIREMENT.—If the Secretary decides the Secretary cannot comply with the percentage requirement of subsection (c) of this section in a fiscal year because there are insufficient qualified grant applications to meet that percentage, the amount the Secretary determines will not be distributed as required by subsection (c) is available for obligation during the fiscal year without regard to the requirement.

(f) CONSIDERATION OF DIVERSION OF REVENUES IN AWARDING DISCRETIONARY GRANTS.—

(1) GENERAL RULE.—Subject to paragraph (2), in deciding whether or not to distribute funds to an airport from the discretionary funds established by subsection (a) of this section and section 47116 of this title, the Secretary shall consider as a factor militating against the distribution of such funds to the airport the fact that the airport is using revenues generated by the airport or by local taxes on aviation fuel for purposes other than capital or operating costs of the airport or the local airports system or other local facilities which are owned or operated by the owner or operator of the airport and directly and substantially related to the actual air transportation of passengers or property.

(2) REQUIRED FINDING.—Paragraph (1) shall apply only when the Secretary finds that the amount of revenues used by the airport for purposes other than capital or operating costs in the airport's fiscal year preceding the date of the application for discretionary funds exceeds the amount of such revenues in the airport's first fiscal year ending after August 23, 1994, adjusted by the Secretary for changes in the Consumer Price Index of All Urban Consumers published by the Bureau of Labor Statistics of the Department of Labor.

(g) MINIMUM AMOUNT TO BE CREDITED.—

(1) GENERAL RULE.—In a fiscal year, there shall be credited to the fund, out of amounts made available under section 48103 of this title, an amount that is at least equal to the sum of—

(A) $148,000,000; plus

(B) the total amount required from the fund to carry out in the fiscal year letters of intent issued before January 1, 1996, under section 47110(e) of this title or the Airport and Airway Improvement Act of 1982.

The amount credited is exclusive of amounts that have been apportioned in a prior fiscal year under section 47114 of this title and that remain available for obligation.

(2) REDUCTION OF APPORTIONMENTS.—In a fiscal year in which the amount credited under subsection (a) is less than the minimum amount to be credited under paragraph (1), the total amount calculated under paragraph (3) shall be reduced by an amount that, when credited to the fund, together with the amount credited under subsection (a), equals such minimum amount.

§47117. Use of apportioned amounts

(a) GRANT PURPOSE.—Except as provided in this section, an amount apportioned under section 47114(c)(1) or (d)(2) of this title is available for making grants for any purpose for which amounts are made available under section 48103 of this title.

(b) PERIOD OF AVAILABILITY.—

(1) IN GENERAL.—An amount apportioned under section 47114 of this title is available to be obligated for grants under the apportionment only during the fiscal year for which the amount was apportioned and the 2 fiscal years immediately after that year or the 3 fiscal years immediately following that year in the case of a nonhub airport or any airport that is not a commercial service airport. Except as provided in paragraph (2), if the amount is not obligated under the apportionment within that time, it shall be added to the discretionary fund.

(2) EXPIRED AMOUNTS APPORTIONED FOR GENERAL AVIATION AIRPORTS.—

(A) IN GENERAL.—Except as provided in subparagraph (B), if an amount apportioned under section 47114(d) is not obligated within the time specified in paragraph (1), that amount shall be added to the discretionary fund under section 47115 of this title, provided that—

(i) amounts made available under paragraph (2)(A) shall be used for grants for projects in accordance with section 47115(d)(2) at airports eligible to receive an apportionment under section 47114(d)(2); and

(ii) amounts made available under paragraph (2)(A) that are not obligated by July 1 of the fiscal year in which the funds will expire shall be made available for all projects in accordance with section 47115(d)(2).

(B) STATE BLOCK GRANT PROGRAM.—If an amount apportioned to an airport under section 47114(d)(2)(A) is not obligated within the time specified in paragraph (1), and the airport is located in a State participating in the State block grant program under section 47128, the amount shall be made available to that State under the same conditions as if the State had been apportioned the amount under section 47114(d)(2)(B).

(c) PRIMARY AIRPORTS.—(1) An amount apportioned to a sponsor of a primary airport under section 47114(c)(1) of this title is available for grants for any public-use airport of the sponsor included in the national plan of integrated airport systems.

(2) WAIVER.—A sponsor of an airport may make an agreement with the Secretary of Transportation waiving the sponsor's claim to any part of the amount apportioned for the airport under sections 47114(c) and 47114(d)(2)(A) if the Secretary agrees to make the waived amount available for a grant for another public-use airport in the same State or geographical area as the airport, as determined by the Secretary.

(d) STATE USE.—An amount apportioned to a State under—

(1) section 47114(d)(2)(B)(i) is available for grants for airports located in the State; and

(2) section 47114(d)(2)(B)(ii) or (iii) is available for grants for airports described in section 47114(d)(2)(B)(ii) or (iii) and located in the State.

(e) SPECIAL APPORTIONMENT CATEGORIES.—(1) The Secretary shall use amounts available to the discretionary fund under section 47115 of this title for each fiscal year as follows:

(A) At least 35 percent, but not more than $200,000,000, for grants for airport noise compatibility planning under section 47505(a)(2), for carrying out noise compatibility programs under section 47504(c), for noise mitigation projects approved in an environmental record of decision for an airport development project under this title, for airport development described in subparagraphs (O), (P), (Q), and (W) of section 47102(3), for airport development described in section 47102(3)(F), 47102(3)(K), or 47102(3)(L), and for water quality mitigation projects to comply with the Act of June 30, 1948 (33 U.S.C. 1251 et seq.), approved in an environmental record of decision for an airport development project under this title. The Secretary may count the amount of grants made for such planning and programs with funds apportioned under section 47114 in that fiscal year in determining whether or not the requirements of the preceding sentence are being met in that fiscal year. The Secretary shall provide not less than two-thirds of amounts

under this subparagraph and paragraph (3) for grants to sponsors of small hub, medium hub, and large hub airports.

(B) At least 4 percent to sponsors of current or former military airports designated by the Secretary under section 47118(a) of this title for grants for developing current and former military airports to improve the capacity of the national air transportation system and to sponsors of noncommercial service airports for grants for operational and maintenance expenses at any such airport if the amount of such grants to the sponsor of the airport does not exceed $30,000 in that fiscal year, if the Secretary determines that the airport is adversely affected by the closure or realignment of a military base, and if the sponsor of the airport certifies that the airport would otherwise close if the airport does not receive the grant.

(2) If the Secretary decides that an amount required to be used for grants under paragraph (1) of this subsection cannot be used for a fiscal year because there are insufficient qualified grant applications, the amount the Secretary determines cannot be used is available during the fiscal year for grants for other airports or for other purposes for which amounts are authorized for grants under section 48103 of this title.

(3) SPECIAL RULE.—Beginning in fiscal year 2026, if the amount made available under paragraph (1)(A) was not equal to or greater than $150,000,000 in the preceding fiscal year, the Secretary shall issue grants for projects eligible under paragraph (1)(A) from apportionment funds made available under section 47114 that are not required during the fiscal year pursuant to subsection (b)(1) in an amount that is not less than—

(A) $150,000,000; minus

(B) the amount made available under paragraph (1)(A) in the preceding fiscal year.

(f) DISCRETIONARY USE OF APPORTIONMENTS.—

(1) IN GENERAL.—Subject to paragraph (2), if the Secretary finds that all or part of an amount of an apportionment under section 47114 is not required during a fiscal year to fund a grant for which the apportionment may be used, the Secretary may use during such fiscal year the amount not so required to make grants for any purpose for which grants may be made under section 48103. The finding may be based on the notifications that the Secretary receives under section 47105(f) or on other information received from airport sponsors.

(2) RESTORATION OF APPORTIONMENTS.—

(A) IN GENERAL.—If the fiscal year for which a finding is made under paragraph (1) with respect to an apportionment is not the last fiscal year of availability of the apportionment under subsection (b), the Secretary shall restore to the apportionment an amount equal to the amount of the apportionment used under paragraph (1) for a discretionary grant whenever a sufficient amount is made available under section 48103.

(B) PERIOD OF AVAILABILITY.—If restoration under this paragraph is made in the fiscal year for which the finding is made or the succeeding fiscal year, the amount restored shall be subject to the original period of availability of the apportionment under subsection (b). If the restoration is made thereafter, the amount restored shall remain available in accordance with subsection (b) for the original period of availability of the apportionment plus the number of fiscal years during which a sufficient amount was not available for the restoration.

(3) NEWLY AVAILABLE AMOUNTS.—

(A) RESTORED AMOUNTS TO BE UNAVAILABLE FOR DISCRETIONARY GRANTS .—Of an amount newly available under section 48103 of this title, an amount equal to the amounts restored under paragraph (2) shall not be available for discretionary grant obligations under section 47115.

(B) USE OF REMAINING AMOUNTS.—Subparagraph (A) does not impair the Secretary's authority under paragraph (1), after a restoration under paragraph (2), to apply all or part of a restored amount that is not required to fund a grant under an apportionment to fund discretionary grants.

(4) LIMITATIONS ON OBLIGATIONS APPLY.—Nothing in this subsection shall be construed to authorize the Secretary to incur grant obligations under section 47104 for a fiscal year in an amount greater than the amount made available under section 48103 for such obligations for such fiscal year.

(g) LIMITING AUTHORITY OF SECRETARY.—The authority of the Secretary to make grants during a fiscal year from amounts that were apportioned for a prior fiscal year and remain available for approved airport development project grants under subsection (b) of this section may be impaired only by a law enacted after September 3, 1982, that expressly limits that authority.

"(2) The Secretary may make a grant under paragraph (1) of this subsection only if the Secretary decides that—

"(A) the total amount used for grants for the fiscal year under section 48103 of this title will not be more than the amount made available under section 48103 for that fiscal year; and

1997—Subsec. (e)(1)(A). Pub. L. 105–102, §3(c)(1)(B), added Pub. L. 104–264, §123(d). See 1996 Amendment note below.

§47118. Designating current and former military airports

(a) GENERAL REQUIREMENTS.—The Secretary of Transportation shall designate current or former military airports for which grants may be made under section 47117(e)(1)(B) of this title. The maximum number of airports bearing such designation at any time is 15. The Secretary may only so designate an airport (other than an airport so designated before August 24, 1994) if—

(1) the airport is a former military installation closed or realigned under—

(A) section 2687 of title 10;

(B) section 201 of the Defense Authorization Amendments and Base Closure and Realignment Act (10 U.S.C. 2687 note); or

(C) section 2905 of the Defense Base Closure and Realignment Act of 1990 (10 U.S.C. 2687 note);

(2) the airport is a military installation with both military and civil aircraft operations; or

(3) the airport is—

(A) a former military installation that, at any time after December 31, 1965, was owned and operated by the Department of Defense; and

(B) a nonhub primary airport.

(b) SURVEY.—Not later than September 30, 1991, the Secretary shall complete a survey of current and former military airports to identify which airports have the greatest potential to improve the capacity of the national air transportation system. The survey shall identify the capital development needs of those airports to make them part of the system and which of those qualify for grants under section 47104 of this title.

(c) CONSIDERATIONS.—In carrying out this section, the Secretary shall consider only current or former military airports for designation under this section if a grant under section 47117(e)(1)(B) would—

(1) reduce delays at an airport with more than 20,000 hours of annual delays in commercial passenger aircraft takeoffs and landings;

(2) enhance airport and air traffic control system capacity in a metropolitan area or reduce current and projected flight delays; or

(3) preserve or enhance minimum airfield infrastructure facilities at former military airports to support emergency diversionary operations for transoceanic flights in locations—

(A) within United States jurisdiction or control; and

(B) where there is a demonstrable lack of diversionary airports within the distance or flight-time required by regulations governing transoceanic flights.

(d) GRANTS.—Grants under section 47117(e)(1)(B) of this title may be made for an airport

designated under subsection (a) of this section for the 5 fiscal years following the designation, and for subsequent periods, each not to exceed 5 fiscal years, if the Secretary determines that the airport satisfies the designation criteria under subsection (a) at the beginning of each such subsequent period.

(e) TERMINAL BUILDING FACILITIES.—From amounts the Secretary distributes to an airport under section 47115, $10,000,000 for each of fiscal years 2004 and 2005, and $7,000,000 for each fiscal year thereafter, is available to the sponsor of a current or former military airport the Secretary designates under this section to construct, improve, or repair a terminal building facility, including terminal gates used for revenue passengers getting on or off aircraft. A gate constructed, improved, or repaired under this subsection—

(1) may not be leased for more than 10 years; and

(2) is not subject to majority in interest clauses.

(f) PARKING LOTS, FUEL FARMS, UTILITIES, HANGARS, AND AIR CARGO TERMINALS.—

(1) CONSTRUCTION.—From amounts the Secretary distributes to an airport under section 47115, $10,000,000 for each of fiscal years 2004 and 2005, and $7,000,000 for each fiscal year thereafter, is available to the sponsor of a current or former military airport the Secretary designates under this section to construct, improve, or repair airport surface parking lots, fuel farms, utilities, and hangars and air cargo terminals of an area that is 50,000 square feet or less.

(2) REIMBURSEMENT.—Upon approval of the Secretary, the sponsor of a current or former military airport the Secretary designates under this section may use an amount apportioned under section 47114, or made available under section 47115 or 47117(e)(1)(B), to the airport for reimbursement of costs incurred by the airport in fiscal years 2003 and 2004 for construction, improvement, or repair described in paragraph (1).

(g) DESIGNATION OF GENERAL AVIATION AIRPORTS.—Notwithstanding any other provision of this section, 3 of the airports bearing designations under subsection (a) may be general aviation airports that were former military installations closed or realigned under a section referred to in subsection (a)(1).

(h) SAFETY-CRITICAL AIRPORTS.—Notwithstanding any other provision of this chapter, a grant under section 47117(e)(1)(B) may be made for a federally owned airport designated under subsection (a) if the grant is for a project that is—

(1) to preserve or enhance minimum airfield infrastructure facilities described in subsection (c)(3); and

(2) necessary to meet the minimum safety and emergency operational requirements established under part 139 of title 14, Code of Federal Regulations.

§47119. Terminal development costs

(a) TERMINAL DEVELOPMENT PROJECTS.—

(1) IN GENERAL.—The Secretary of Transportation may approve a project for terminal development (including multimodal terminal development) in a nonrevenue-producing public-use area of a commercial service airport—

(A) if the sponsor certifies that the airport, on the date the grant application is submitted to the Secretary, has—

(i) all the safety equipment required for certification of the airport under section 44706;

(ii) all the security equipment required by regulation; and

(iii) provided for access by passengers to the area of the airport for boarding or exiting aircraft that are not air carrier aircraft;

(B) if the cost is directly related to—

(i) moving passengers and baggage in air commerce within the airport, including vehicles for moving passengers between terminal facilities and between terminal facilities and aircraft; or

(ii) installing security cameras in the public area of the interior and exterior of the terminal; and

(C) under terms necessary to protect the interests of the Government.

(2) PROJECT IN REVENUE-PRODUCING AREAS AND NONREVENUE-PRODUCING PARKING LOTS.—In making a decision under paragraph (1), the Secretary may approve as allowable costs the expenses of terminal development in a revenue-producing area and construction, reconstruction, repair, and improvement in a nonrevenue-producing parking lot if—

(A) except as provided in section 47108(e)(3),[1] the airport does not have more than .05 percent of the total annual passenger boardings in the United States; and

(B) the sponsor certifies that any needed airport development project affecting safety, security, or capacity will not be deferred because of the Secretary's approval.

(3) LACTATION AREAS.—In addition to the projects described in paragraph (1), the Secretary may approve a project for terminal development for the construction or installation of a lactation area (as defined in section 47107(w)) at a commercial service airport.

(4) UNIVERSAL CHANGING STATIONS.—In addition to the projects described in paragraph (1), the Secretary may approve a project for terminal development for the construction or installation of a universal changing station (as defined in section 47107(y)) at a commercial service airport.

(b) REPAYING BORROWED MONEY.—

(1) TERMINAL DEVELOPMENT COSTS INCURRED AFTER JUNE 30, 1970, AND BEFORE JULY 12, 1976.—An amount apportioned under section 47114 and made available to the sponsor of a commercial service airport at which terminal development was carried out after June 30, 1970, and before July 12, 1976, is available to repay immediately money borrowed and used to pay the costs for such terminal development if those costs would be allowable project costs under section 47110(d) if they had been incurred after September 3, 1982.

(2) TERMINAL DEVELOPMENT COSTS INCURRED BETWEEN JANUARY 1, 1992, AND OCTOBER 31, 1992.—An amount apportioned under section 47114 and made available to

the sponsor of a nonhub airport at which terminal development was carried out between January 1, 1992, and October 31, 1992, is available to repay immediately money borrowed and to pay the costs for such terminal development if those costs would be allowable project costs under section 47110(d).

(3) TERMINAL DEVELOPMENT COSTS AT PRIMARY AIRPORTS.—An amount apportioned under section 47114 or available under subsection (b)(3) to a primary airport—

(A) that was a nonhub airport in the most recent year used to calculate apportionments under section 47114;

(B) that is a designated airport under section 47118 in fiscal year 2003; and

(C) at which terminal development is carried out between January 2003 and August 2004,

is available to repay immediately money borrowed and used to pay the costs for such terminal development if those costs would be allowable project costs under subsection (a).

(4) CONDITIONS FOR GRANT.—An amount is available for a grant under this subsection only if—

(A) the sponsor submits the certification required under subsection (a);

(B) the Secretary decides that using the amount to repay the borrowed money will not defer an airport development project outside the terminal area at that airport; and

(C) amounts available for airport development under this subchapter will not be used for additional terminal development projects at the airport for at least 1 year beginning on the date the grant is used to repay the borrowed money.

(5) APPLICABILITY OF CERTAIN LIMITATIONS.—A grant under this subsection shall be subject to the limitations in subsections (c)(1) and (c)(2).

(c) AVAILABILITY OF AMOUNTS.—In a fiscal year, the Secretary may make available—

(2) on approval of the Secretary, not more than $200,000 of the amount that may be distributed for the fiscal year from the discretionary fund established under section 47115 of this title—

(A) to a sponsor of a nonprimary commercial service airport to pay project costs allowable under subsection (a); and

(B) to a sponsor of a reliever airport for the types of project costs allowable under subsection (a), including project costs allowable for a commercial service airport that each year does not have more than .05 percent of the total boardings in the United States;

(3) for use by a primary airport that each year does not have more than .05 percent of the total boardings in the United States, any part of amounts that may be distributed for the fiscal year from the discretionary fund and small airport fund to pay project costs allowable under subsection (a);

(4) not more than $25,000,000 to pay project costs allowable for the fiscal year under subsection (a) for projects at commercial service airports that were not eligible for assistance for terminal development during the fiscal year ending September 30, 1980, under section 20(b) of the Airport and Airway Development Act of 1970;

(5) to a sponsor of a nonprimary airport, any part of amounts apportioned to the sponsor for the fiscal year under sections 47114(c) and 47114(d)(2)(A) for project costs allowable under subsection (a); or

(6) not more than $20,000,000 of the amount that may be distributed for the fiscal year from the discretionary fund established under section 47115, to the sponsor of a nonprimary airport to pay costs allowable under subsection (a) for terminal development projects, if the Secretary determines (which may be based on actual and projected enplanement trends, as well as completion of an air service development study, demonstrated commitment by airlines to provide commercial service accommodating at least 10,000 annual enplanements, the documented commitment of a sponsor to

providing the remaining funding to complete the proposed project, and a favorable environmental finding (including all required permits) in support of the proposed project) that the status of the nonprimary airport is reasonably expected to change to primary status based on enplanements for the third calendar year after the issuance of the discretionary grant.

(d) NONHUB AIRPORTS.—With respect to a project at a commercial service airport which annually has less than 0.05 percent of the total enplanements in the United States, the Secretary may approve the use of the amounts described in subsection (a) notwithstanding the requirements of sections 47107(a)(17), 47112, and 47113.

(e) DETERMINATION OF PASSENGER BOARDING AT COMMERCIAL SERVICE AIRPORTS.—For the purpose of determining whether an amount may be distributed for a fiscal year from the discretionary fund in accordance with subsection (b)(2)(A) to a commercial service airport, the Secretary shall make the determination of whether or not a public airport is a commercial service airport on the basis of the number of passenger boardings and type of air service at the public airport in the calendar year that includes the first day of such fiscal year or the preceding calendar year, whichever is more beneficial to the airport.

(f) Limitation on Discretionary Funds.—The Secretary may distribute not more than $30,000,000 from the discretionary fund established under section 47115 for terminal development projects at a nonhub airport or a small hub airport that is eligible to receive discretionary funds under section 47108(e)(3).[1]

AMENDMENTS

2018—Pub. L. 115–254 designated existing provisions as subsec. (a), inserted heading, and added subsec. (b).

§47124. Agreements for State and local operation of airport facilities

(a) GOVERNMENT RELIEF FROM LIABILITY.—The Secretary of Transportation shall ensure that an agreement under this subchapter with a qualified entity (as determined by the Secretary), State, or a political subdivision of a State to allow the entity, State, or subdivision to operate an airport facility relieves the United States Government from any liability arising out of, or related to, acts or omissions of employees of the entity, State, or subdivision in operating the airport facility.

(b) AIR TRAFFIC CONTROL CONTRACT PROGRAM.—

(1) CONTRACT TOWER PROGRAM.—

(A) CONTINUATION.—The Secretary shall continue the low activity (Visual Flight Rules) level I air traffic control tower contract program established under subsection (a) of this section for towers existing on December 30, 1987, and extend the program to other towers as practicable.

(B) SPECIAL RULE.—If the Secretary determines that a tower already operating under the Contract Tower Program has a benefit-to-cost ratio of less than 1.0, the airport sponsor or State or local government having jurisdiction over the airport shall not be required to pay the portion of the costs that exceeds the benefit—

(i) for the 1-year period after such determination is made; or

(ii) if an appeal of such determination is requested, for the 1-year period described in subsection (d)(4)(D).

(C) USE OF EXCESS FUNDS.—If the Secretary finds that all or part of an amount made available to carry out the program continued under this paragraph is not required during a fiscal year, the Secretary may use, during such fiscal year, the amount not so required to carry out the Cost-share Program.

(2) GENERAL AUTHORITY.—

(A) IN GENERAL.—The Secretary may make a contract with a qualified entity (as determined by the Secretary) or, on a sole source basis, with a State or a political subdivision of a State to allow the entity, State, or subdivision to operate an airport traffic control tower classified as a level I (Visual Flight Rules) tower if the Secretary decides that the entity, State, or subdivision has the capability to comply with the requirements of this paragraph. The contract shall require that the entity, State, or subdivision comply with applicable safety regulations in operating the facility and with applicable competition requirements in making a subcontract to perform work to carry out the contract.

(B) SMALL OR MEDIUM HUB AIRPORTS.—In the case of a contract entered into on or after the date of enactment of this subparagraph to operate an airport traffic control tower at a small or medium hub airport, the contract shall require the Secretary, after coordination with the airport sponsor and the entity, State, or subdivision, and not later than 18 months after the date of enactment of the FAA Reauthorization Act of 2024, to provide funding sufficient for the cost of wages and benefits of at least 2 air traffic controllers for each tower operating shift.

(3) COST-SHARE PROGRAM.—

(A) IN GENERAL.—The Secretary shall establish a program to contract for air traffic control services at nonapproach control towers, as defined by the Secretary, that do not qualify for the Contract Tower Program.

(B) PROGRAM COMPONENTS.—In carrying out the Cost-share Program, the Secretary shall—

(i) utilize for purposes of cost-benefit analyses, current, actual, site-specific data, forecast estimates, or airport master plan data provided by a facility owner or operator and verified by the Secretary; and

(ii) approve for participation only facilities willing to fund a pro rata share of the operating costs of the air traffic control tower to achieve a 1-to-1 benefit-to-cost ratio using actual site-specific contract tower operating costs in any case in which there is an operating air

traffic control tower or a remote air traffic control tower equipment that has received System Design Approval from the Federal Aviation Administration, as required for eligibility under the Contract Tower Program.

(C) PRIORITY.—In selecting facilities to participate in the Cost-share Program, the Secretary shall give priority to the following facilities:

(i) Air traffic control towers that are participating in the Contract Tower Program but have been notified that they will be terminated from such program because the Secretary has determined that the benefit-to-cost ratio for their continuation in such program is less than 1.0.

(ii) Air traffic control towers that the Secretary determines have a benefit-to-cost ratio of at least .50.

(iii) Air traffic control towers of the Federal Aviation Administration that are closed as a result of the air traffic controllers strike in 1981.

(iv) Air traffic control towers located at airports or points at which an air carrier is receiving compensation under the essential air service program under this chapter.

(v) Air traffic control towers located at airports that are prepared to assume partial responsibility for maintenance costs.

(vi) Air traffic control towers located at airports with safety or operational problems related to topography, weather, runway configuration, or mix of aircraft.

(vii) Air traffic control towers located at an airport at which the community has been operating the tower at its own expense.

(viii) Air traffic control towers at airports with safety or operational problems related to the lack of an existing tower.

(ix) Air traffic control towers at airports with projected commercial and military increases in aircraft or flight operations.

(x) Air traffic control towers at airports with a variety of aircraft operations, including a variety of commercial and military flight operations.

(D) COSTS EXCEEDING BENEFITS.—If the costs of operating an air traffic tower under the Cost-share Program exceed the benefits, the airport sponsor or State or local government having jurisdiction over the airport shall pay the portion of the costs that exceed such benefit, with the maximum allowable local cost share capped at 20 percent. Airports with air service provided under part 121 of title 14, Code of Federal Regulations, and more than 25,000 passenger enplanements in calendar year 2014 shall be exempt from any cost-share requirement under this paragraph.

(E) FUNDING.—Of the amounts appropriated pursuant to section 106(k)(1), not more than $10,350,000 for each of fiscal years 2012 through 2018 may be used to carry out this paragraph.

(F) USE OF EXCESS FUNDS.—If the Secretary finds that all or part of an amount made available under this paragraph is not required during a fiscal year, the Secretary may use, during such fiscal year, the amount not so required to carry out the Contract Tower Program.

(G) BENEFIT-TO-COST CALCULATION.—Not later than 90 days after receiving an application to the Contract Tower Program, the Secretary shall calculate a benefit-to-cost ratio (as described in subsection (d)) for the applicable air traffic control tower for purposes of selecting towers for participation in the Contract Tower Program.

(H) PERIOD FOR COMPLETION OF AN OPERATIONAL READINESS INSPECTION .—The Secretary shall provide airport sponsors acting in good faith 7 years to complete an operational readiness inspection after receiving a benefit-to-cost ratio of air traffic control services for an airport.

(4) CONSTRUCTION OF AIR TRAFFIC CONTROL TOWERS.—

(A) GRANTS.—The Secretary may provide grants to a sponsor of—

(i) a primary airport—

(I) from amounts made available under sections 47114(c)(1) and 47114(c)(2) for the construction or improvement of a nonapproach control tower, as defined by the Secretary, and for the acquisition and installation of air traffic control, communications, and related equipment to be used in that tower;

(II) from amounts made available under sections 47114(c)(1) and 47114(c)(2) for reimbursement for the cost of construction or improvement of a nonapproach control tower, as defined by the Secretary, incurred after October 1, 1996, if the sponsor complied with the requirements of sections 47107(e), 47112(b), and 47112(c) in constructing or improving that tower; and

(III) from amounts made available under sections 47114(c)(1) and 47114(c)(2) for reimbursement for the cost of acquiring and installing in that tower air traffic control, communications, and related equipment that was acquired or installed after October 1, 1996, including remote air traffic control tower equipment certified by the Federal Aviation Administration or remote air traffic control tower equipment that has received System Design Approval from the Federal Aviation Administration; and

(II) from amounts made available under sections 47114(c) and 47114(d)(2)(A) for reimbursement for the cost of construction or improvement of a nonapproach control tower, as defined by the Secretary, incurred after October 1, 1996, if the sponsor complied with the requirements of sections 47107(e), 47112(b), and 47112(c) in constructing or improving that tower; and

(III) from amounts made available under sections 47114(c) and 47114(d)(2)(A) for reimbursement for the cost of acquiring and installing in that tower air traffic control, communications, and related equipment that was acquired or installed after October 1, 1996, including remote air traffic control tower equipment certified by the Federal Aviation Administration or remote air traffic control tower equipment that has received System Design Approval from the Federal Aviation Administration.

(B) ELIGIBILITY.—An airport sponsor shall be eligible for a grant under this paragraph only if—

(i)(I) the sponsor is a participant in the Federal Aviation Administration Contract Tower Program or the Cost-share Program; or

(II) construction of a nonapproach control tower would qualify the sponsor to be eligible to participate in such program;

(c) SAFETY AUDITS.—The Secretary shall establish uniform standards and requirements for regular safety assessments of air traffic control towers that receive funding under this section.

(d) CRITERIA TO EVALUATE PARTICIPANTS.—

(1) TIMING OF EVALUATIONS.—

(A) TOWERS PARTICIPATING IN COST-SHARE PROGRAM.—In the case of an air traffic control tower that is operated under the Cost-share Program, the Secretary shall annually calculate a benefit-to-cost ratio with respect to the tower.

(B) TOWERS PARTICIPATING IN CONTRACT TOWER PROGRAM.—In the case of an air traffic control tower that is operated under the Contract Tower Program, the Secretary shall not calculate a benefit-to-cost ratio after the date of enactment of this subsection with respect to the tower unless the Secretary determines that the annual aircraft traffic at the airport where the tower is located has decreased—

(i) by more than 25 percent from the previous year; or

(ii) by more than 55 percent cumulatively in the preceding 3-year period.

(2) COSTS TO BE CONSIDERED.—In establishing a benefit-to-cost ratio under this section with respect to an air traffic control tower, the Secretary shall consider only the following costs:

(A) The Federal Aviation Administration's actual cost of wages and benefits of personnel working at the tower.

(B) The Federal Aviation Administration's actual telecommunications costs directly associated with the tower.

(C) The Federal Aviation Administration's costs of purchasing and installing any air traffic control equipment that would not have been purchased or installed except as a result of the operation of the tower.

(D) The Federal Aviation Administration's actual travel costs associated with maintaining air traffic control equipment that is owned by the Administration and would not be maintained except as a result of the operation of the tower.

(E) Other actual costs of the Federal Aviation Administration directly associated with the tower that would not be incurred except as a result of the operation of the tower (excluding costs for noncontract tower-related personnel and equipment, even if the personnel or equipment is located in the contract tower building).

(3) OTHER CRITERIA TO BE CONSIDERED.—In establishing a benefit-to-cost ratio under this section with respect to an air traffic control tower, the Secretary shall add a 10 percentage point margin of error to the benefit-to-cost ratio determination to acknowledge and account for the direct and indirect economic and other benefits that are not included in the criteria the Secretary used in calculating that ratio.

(4) REVIEW OF COST-BENEFIT DETERMINATIONS.—In issuing a benefit-to-cost ratio determination under this section with respect to an air traffic control tower located at an airport, the Secretary shall implement the following procedures:

(A) The Secretary shall provide the airport (or the State or local government having jurisdiction over the airport) at least 90 days following the date of receipt of the determination to submit to the Secretary a request for an appeal of the determination, together with updated or additional data in support of the appeal.

(B) Upon receipt of a request for an appeal submitted pursuant to subparagraph (A), the Secretary shall—

(i) transmit to the Administrator of the Federal Aviation Administration any updated or additional data submitted in support of the appeal; and

(ii) provide the Administrator not more than 90 days to review the data and provide a response to the Secretary based on the review.

(C) After receiving a response from the Administrator pursuant to subparagraph (B), the

Secretary shall—

(i) provide the airport, State, or local government that requested the appeal at least 30 days to review the response; and

(ii) withhold from taking further action in connection with the appeal during that 30-day period.

(D) If, after completion of the appeal procedures with respect to the determination, the Secretary requires the tower to transition into the Cost-share Program, the Secretary shall not require a cost-share payment from the airport, State, or local government for 1 year following the last day of the 30-day period described in subparagraph (C).

(e) DEFINITIONS.—In this section:

(1) CONTRACT TOWER PROGRAM.—The term "Contract Tower Program" means the level I air traffic control tower contract program established under subsection (a) and continued under subsection (b)(1).

§47125. Conveyances of United States Government land

(a) CONVEYANCES TO PUBLIC AGENCIES.—Except as provided in subsection (b) of this section, the Secretary of Transportation shall request the head of the department, agency, or instrumentality of the United States Government owning or controlling land or airspace to convey a property interest in the land or airspace to the public agency sponsoring the project or owning or controlling the airport when necessary to carry out a project under this subchapter at a public airport, to operate a public airport, or for the future development of an airport under the national plan of integrated airport systems. The head of the department, agency, or instrumentality shall decide whether the requested conveyance is consistent with the needs of the department, agency, or instrumentality and shall notify the Secretary of that decision not later than 4 months after receiving the request. If the head of the department, agency, or instrumentality decides that the requested conveyance is consistent with its needs, the head of the department, agency, or instrumentality, with the approval of the Attorney General and without cost to the Government, shall make the conveyance. A conveyance may be made only on the condition that the property interest conveyed reverts to the Government, at the option of the Secretary, to the extent it is not developed for an airport purpose or used consistently with the conveyance. Before waiving a condition that property be used for an aeronautical purpose under the preceding sentence, the Secretary must provide notice to the public not less than 30 days before waiving such condition.

(b) NONAPPLICATION.—Except as specifically provided by law, subsection (a) of this section does not apply to land or airspace owned or controlled by the Government within—

(1) a national park, national monument, national recreation area, or similar area under the administration of the National Park Service;

(2) a unit of the National Wildlife Refuge System or similar area under the jurisdiction of the United States Fish and Wildlife Service; or

(3) a national forest or Indian reservation.

(c) WAIVING RESTRICTIONS.—

(1) IN GENERAL.—Subject to paragraph (2), the Secretary may grant to an airport, city, or county a waiver of any of the terms, conditions, reservations, or restrictions contained in a deed under which the United States conveyed to the airport, city, or county an interest in real property

for airport purposes pursuant to section 16 of the Federal Airport Act (60 Stat. 179), section 23 of the Airport and Airway Development Act of 1970 (84 Stat. 232), or this section.

(2) CONDITIONS.—Any waiver granted by the Secretary pursuant to paragraph (1) shall be subject to the following conditions:

(A) The applicable airport, city, county, or other political subdivision shall agree that in conveying any interest in the real property which the United States conveyed to the airport, city, or county, the airport, city, or county will receive consideration for such interest that is equal to its current fair market value.

(B) Any consideration received by the airport, city, or county under subparagraph (A) shall be used exclusively for the development, improvement, operation, or maintenance of a public airport by the airport, city, or county.

(C) Such waiver—

(i) will not significantly impair the aeronautical purpose of an airport;

(ii) will not result in the permanent closure of an airport (unless the Secretary determines that the waiver will directly facilitate the construction of a replacement airport); or

(iii) is necessary to protect or advance the civil aviation interests of the United States.

(D) Any other conditions required by the Secretary.

(3) ANNUAL REPORTING.—The Secretary shall include a list and description of each waiver granted pursuant to paragraph (1) in the plan required under section 47103.

In subsection (a), the text of 49 App.:2215(a) (last sentence) is omitted as surplus because a "property interest in land or airspace" necessarily includes "title to . . . land or any easement through . . . airspace". The words "when necessary" are substituted for "whenever the Secretary determines that use of any lands owned or controlled by the United States is reasonably necessary for", and the words "for the future development" are substituted for "including lands reasonably necessary to meet future development", to eliminate unnecessary words. The words "not later than 4 months after receiving the request" are substituted for "Upon receipt of a request from the Secretary under this section" and "within a period of four months after receipt of the Secretary's request" for clarity and to eliminate unnecessary words. The words "make the conveyance" are substituted for "perform any acts and to execute any instruments necessary to make the conveyance requested", and the words "that the property interest conveyed reverts to the Government . . . to the extent it is not" are substituted for "the property interest conveyed shall revert to the United States in the event that the lands in question are not" and "If only a part of the property interest conveyed is not developed for airport purposes, or used in a manner consistent with the terms of the conveyance, only that particular part shall, at the option of the Secretary, revert to the United States", to eliminate unnecessary words. In carrying out this subsection, the Secretary shall permit a State to use the priority system of the State if such system is not inconsistent with the national priority system.

(d) ENVIRONMENTAL ANALYSIS AND COORDINATION REQUIREMENTS.—A Federal agency, other than the Federal Aviation Administration, that is responsible for issuing an approval, license, or permit to ensure compliance with a Federal environmental requirement applicable to a project or activity to be carried out by a State using amounts from a block grant made under this section shall—

(1) coordinate and consult with the State;

§47129. Resolution of disputes concerning airport fees

(a) AUTHORITY TO REQUEST SECRETARY'S DETERMINATION.—

(1) IN GENERAL.—The Secretary of Transportation shall issue a determination as to whether a fee imposed upon one or more air carriers or foreign air carriers (as those terms are defined in section 40102) by the owner or operator of an airport is reasonable if—

(A) a written request for such determination is filed with the Secretary by such owner or operator; or

(B) a written complaint requesting such determination is filed with the Secretary by an affected air carrier or foreign air carrier within 60 days after such carrier receives written notice of the establishment or increase of such fee.

(2) CALCULATION OF FEE.—A fee subject to a determination of reasonableness under this section may be calculated pursuant to either a compensatory or residual fee methodology or any combination thereof.

(3) SECRETARY NOT TO SET FEE.—In determining whether a fee is reasonable under this section, the Secretary may only determine whether the fee is reasonable or unreasonable and shall not set the level of the fee.

(4) FEES IMPOSED BY PRIVATELY-OWNED AIRPORTS.—In evaluating the reasonableness of a fee imposed by an airport receiving an exemption under section 47134 of this title, the Secretary shall consider whether the airport has complied with section 47134(c)(4).

(b) PROCEDURAL REGULATIONS.—Not later than 90 days after August 23, 1994, the Secretary shall publish in the Federal Register final regulations, policy statements, or guidelines establishing—

(1) the procedures for acting upon any written request or complaint filed under subsection (a)(1); and

(2) the standards or guidelines that shall be used by the Secretary in determining under this section whether an airport fee is reasonable.

(c) DECISIONS BY SECRETARY.—The final regulations, policy statements, or guidelines required in subsection (b) shall provide the following:

(1) Not more than 120 days after an air carrier or foreign air carrier files with the Secretary a written complaint relating to an airport fee, the Secretary shall issue a final order determining whether such fee is reasonable.

(2) Within 30 days after such complaint is filed with the Secretary, the Secretary shall dismiss the complaint if no significant dispute exists or shall assign the matter to an administrative law judge; and thereafter the matter shall be handled in accordance with part 302 of title 14, Code of Federal Regulations, or as modified by the Secretary to ensure an orderly disposition of the matter within the 120-day period and any specifically applicable provisions of this section.

(3) The administrative law judge shall issue a recommended decision within 60 days after the complaint is assigned or within such shorter period as the Secretary may specify.

(4) If the Secretary, upon the expiration of 120 days after the filing of the complaint, has not issued a final order, the decision of the administrative law judge shall be deemed to be the final order of the Secretary.

(5) Any party to the dispute may seek review of a final order of the Secretary under this subsection in the Circuit Court of Appeals for the District of Columbia Circuit or the court of appeals in the circuit where the airport which gives rise to the written complaint is located.

(6) Any findings of fact in a final order of the Secretary under this subsection, if supported by substantial evidence, shall be conclusive if challenged in a court pursuant to this subsection. No objection to such a final order shall be considered by the court unless objection was urged before an administrative law judge or the Secretary at a proceeding under this subsection or, if not so urged, unless there were reasonable grounds for failure to do so.

(d) PAYMENT UNDER PROTEST; GUARANTEE OF AIR CARRIER AND FOREIGN AIR

CARRIER ACCESS.—

(1) PAYMENT UNDER PROTEST.—

(A) IN GENERAL.—Any fee increase or newly established fee which is the subject of a complaint that is not dismissed by the Secretary shall be paid by the complainant air carrier or foreign air carrier to the airport under protest.

(B) REFERRAL OR CREDIT.—Any amounts paid under this subsection by a complainant air carrier or foreign air carrier to the airport under protest shall be subject to refund or credit to the air carrier or foreign air carrier in accordance with directions in the final order of the Secretary within 30 days of such order.

(C) ASSURANCE OF TIMELY REPAYMENT.—In order to assure the timely repayment, with interest, of amounts in dispute determined not to be reasonable by the Secretary, the airport shall obtain a letter of credit, or surety bond, or other suitable credit facility, equal to the amount in dispute that is due during the 120-day period established by this section, plus interest, unless the airport and the complainant air carrier or foreign air carrier agree otherwise.

(D) DEADLINE.—The letter of credit, or surety bond, or other suitable credit facility shall be provided to the Secretary within 20 days of the filing of the complaint and shall remain in effect for 30 days after the earlier of 120 days or the issuance of a timely final order by the Secretary determining whether such fee is reasonable.

(2) GUARANTEE OF AIR CARRIER AND FOREIGN AIR CARRIER ACCESS .—Contingent upon an air carrier's or foreign air carrier's compliance with the requirements of paragraph (1) and pending the issuance of a final order by the Secretary determining the reasonableness of a fee that is the subject of a complaint filed under subsection (a)(1)(B), an owner or operator of an airport may not deny an air carrier or foreign air carrier currently providing air service at the airport reasonable access to airport facilities or service, or otherwise interfere with an air carrier's or foreign air carrier's prices, routes, or services, as a means of enforcing the fee.

(e) APPLICABILITY.—This section does not apply to—

(1) a fee imposed pursuant to a written agreement with air carriers or foreign air carriers using the facilities of an airport;

(2) a fee imposed pursuant to a financing agreement or covenant entered into prior to August 23, 1994; or

(3) any other existing fee not in dispute as of August 23, 1994.

(f) EFFECT ON EXISTING AGREEMENTS.—Nothing in this section shall adversely affect—

(1) the rights of any party under any existing written agreement between an air carrier or foreign air carrier and the owner or operator of an airport; or

(2) the ability of an airport to meet its obligations under a financing agreement, or covenant, that is in force as of August 23, 1994.

(g) DEFINITION.—In this section, the term "fee" means any rate, rental charge, landing fee, or other service charge for the use of airport facilities.

(b) APPROVAL OF APPLICATIONS.—The Secretary may approve applications submitted under subsection (a) granting exemptions from the following provisions:

(1) USE OF REVENUES.—

(A) IN GENERAL.—The Secretary may grant an exemption to a sponsor from the provisions of sections 47107(b) and 47133 of this title (and any other law, regulation, or grant assurance) to the extent necessary to permit the sponsor to recover from the sale or lease of the airport such amount as may be approved—

(i) in the case of a primary airport, by at least 65 percent of the scheduled air carriers serving the airport and by scheduled and nonscheduled air carriers whose aircraft landing at the airport during the preceding calendar year, had a total landed weight during the preceding calendar year of at least 65 percent of the total landed weight of all aircraft landing at the airport during such year; or

(ii) in the case of a nonprimary airport, by the Secretary after the airport has consulted with at least 65 percent of the owners of aircraft based at that airport, as determined by the Secretary.

(B) OBJECTION TO EXEMPTION.—An air carrier shall be deemed to have approved a sponsor's application for an exemption under subparagraph (A) unless the air carrier has submitted an objection, in writing, to the sponsor within 60 days of the filing of the sponsor's application with the Secretary, or within 60 days of the service of the application upon that air carrier, whichever is later.

(C) LANDED WEIGHT DEFINED.—In this paragraph, the term "landed weight" means the weight of aircraft transporting passengers or cargo, or both, in intrastate, interstate, and foreign air transportation, as the Secretary determines under regulations the Secretary prescribes.

(2) REPAYMENT REQUIREMENTS.—If the Secretary grants an exemption to a sponsor pursuant to paragraph (1), the Secretary shall grant an exemption to the sponsor from the provisions of sections 47107 and 47152 of this title (and any other law, regulation, or grant assurance) to the extent necessary to waive any obligation of the sponsor to repay to the Federal Government any grants, or to return to the Federal Government any property, received by the airport under this title, the Airport and Airway Improvement Act of 1982, or any other law.

(3) COMPENSATION FROM AIRPORT OPERATIONS.—If the Secretary grants an

exemption to a sponsor pursuant to paragraph (1), the Secretary shall grant an exemption to the corresponding purchaser or lessee from the provisions of sections 47107(b) and 47133 of this title (and any other law, regulation, or grant assurance) to the extent necessary to permit the purchaser or lessee to earn compensation from the operations of the airport.

(4) BENEFIT-COST ANALYSIS.—

(A) IN GENERAL.—Prior to approving an application submitted under subsection (a), the Secretary may require a benefit-cost analysis.

(B) FINDING.—If a benefit-cost analysis is required, the Secretary shall issue a preliminary and conditional finding, which shall—

(i) be issued not later than 60 days after the date on which the sponsor submits all information required by the Secretary;

(ii) be based upon a collaborative review process that includes the sponsor or a representative of the sponsor;

(iii) not constitute the issuance of a Federal grant or obligation to issue a grant under this chapter or other provision of law; and

(iv) not constitute any other obligation on the part of the Federal Government until the conditions specified in the final benefit-cost analysis are met.

(c) TERMS AND CONDITIONS.—The Secretary may approve an application under subsection (b) only if the Secretary finds that the sale or lease agreement includes provisions satisfactory to the Secretary to ensure the following:

(1) The airport will continue to be available for public use on reasonable terms and conditions and without unjust discrimination.

(2) The operation of the airport will not be interrupted in the event that the purchaser or lessee becomes insolvent or seeks or becomes subject to any State or Federal bankruptcy, reorganization, insolvency, liquidation, or dissolution proceeding or any petition or similar law seeking the dissolution or reorganization of the purchaser or lessee or the appointment of a receiver, trustee, custodian, or liquidator for the purchaser or lessee or a substantial part of the purchaser or lessee's property, assets, or business.

(3) The purchaser or lessee will maintain, improve, and modernize the facilities of the airport through capital investments and will submit to the Secretary a plan for carrying out such maintenance, improvements, and modernization.

(4) Every fee of the airport imposed on an air carrier on the day before the date of the lease of the airport will not increase faster than the rate of inflation unless a higher amount is approved—

(A) by at least 65 percent of the air carriers serving the airport; and

(B) by air carriers whose aircraft landing at the airport during the preceding calendar year had a total landed weight during the preceding calendar year of at least 65 percent of the total landed weight of all aircraft landing at the airport during such year.

(5) The percentage increase in fees imposed on general aviation aircraft at the airport will not exceed the percentage increase in fees imposed on air carriers at the airport.

(6) Safety and security at the airport will be maintained at the highest possible levels.

(7) The adverse effects of noise from operations at the airport will be mitigated to the same extent as at a public airport.

(8) Any adverse effects on the environment from airport operations will be mitigated to the same extent as at a public airport.

(9) Any collective bargaining agreement that covers employees of the airport and is in effect on the date of the sale or lease of the airport will not be abrogated by the sale or lease.

(d) PROGRAM PARTICIPATION.—

(1) MULTIPLE AIRPORTS.—The Secretary may consider applications under this section submitted by a public airport sponsor for multiple airports under the control of the sponsor if all airports under the control of the sponsor are located in the same State.

(2) PARTIAL PRIVATIZATION.—A purchaser or lessee may be an entity in which a sponsor has an interest.

(e) REQUIRED FINDING THAT APPROVAL WILL NOT RESULT IN UNFAIR METHODS OF COMPETITION.—The Secretary may approve an application under subsection (b) only if the Secretary finds that the approval will not result in unfair and deceptive practices or unfair methods of competition.

(f) INTERESTS OF GENERAL AVIATION USERS.—In approving an application of an airport under this section, the Secretary shall ensure that the interests of general aviation users of the airport are not adversely affected.

(g) PASSENGER FACILITY FEES; APPORTIONMENTS; SERVICE CHARGES .—Notwithstanding that the sponsor of an airport receiving an exemption under subsection (b) is not a public agency, the sponsor shall not be prohibited from—

(1) imposing a passenger facility charge under section 40117 of this title;

(2) receiving apportionments under section 47114 of this title; or

(3) collecting reasonable rental charges, landing fees, and other service charges from aircraft operators under section 40116(e)(2) of this title.

(h) EFFECTIVENESS OF EXEMPTIONS.—An exemption granted under subsection (b) shall continue in effect only so long as the facilities sold or leased continue to be used for airport purposes.

(i) REVOCATION OF EXEMPTIONS.—The Secretary may revoke an exemption issued to a purchaser or lessee of an airport under subsection (b)(3) if, after providing the purchaser or lessee with notice and an opportunity to be heard, the Secretary determines that the purchaser or lessee has knowingly violated any of the terms specified in subsection (c) for the sale or lease of the airport.

(j) NONAPPLICATION OF PROVISIONS TO AIRPORTS OWNED BY PUBLIC AGENCIES .—The provisions of this section requiring the approval of air carriers in determinations concerning the use of revenues, and imposition of fees, at an airport shall not be extended so as to apply to any airport owned by a public agency that is not participating in the program established by this section.

(k) AUDITS.—The Secretary may conduct periodic audits of the financial records and operations of an airport receiving an exemption under this section.

(a) IN GENERAL.—The Secretary of Transportation may make grants, from amounts set aside under section 47117(e)(1)(A), to States and units of local government for development and implementation of land use compatibility plans and implementation of land use compatibility projects resulting from those plans for the purposes of making the use of land areas around large hub airports and medium hub airports compatible with aircraft operations. The Secretary may make a grant under this section for a land use compatibility plan or a project resulting from such plan only if—

(1) the airport operator has not submitted a noise compatibility program to the Secretary under

section 47504 or has not updated such program within the preceding 10 years; and

(2) the land use plan or project meets the requirements of this section.

(b) ELIGIBILITY.—In order to receive a grant under this section, a State or unit of local government must—

(1) have the authority to plan and adopt land use control measures, including zoning, in the planning area in and around a large or medium hub airport;

(2) enter into an agreement with the airport owner or operator that the development of the land use compatibility plan will be done cooperatively; and

(3) provide written assurance to the Secretary that it will achieve, to the maximum extent possible, compatible land uses consistent with Federal land use compatibility criteria under section 47502(3) and that those compatible land uses will be maintained.

(c) ASSURANCES.—The Secretary shall require a State or unit of local government to which a grant may be made under this section for a land use plan or a project resulting from such plan to provide—

(1) assurances satisfactory to the Secretary that the plan—

(A) is reasonably consistent with the goal of reducing existing noncompatible land uses and preventing the introduction of additional noncompatible land uses;

(B) addresses ways to achieve and maintain compatible land uses, including zoning, building codes, and any other land use compatibility measures under section 47504(a)(2) that are within the authority of the State or unit of local government to implement;

(C) uses noise contours provided by the airport operator that are consistent with the airport operation and planning, including any noise abatement measures adopted by the airport operator as part of its own noise mitigation efforts;

(D) does not duplicate, and is not inconsistent with, the airport operator's noise compatibility measures for the same area; and

(E) has been approved jointly by the airport owner or operator and the State or unit of local government; and

(2) such other assurances as the Secretary determines to be necessary to carry out this section.

(d) GUIDELINES.—The Secretary shall establish guidelines to administer this section in accordance with the purposes and conditions described in this section. The Secretary may require a State or unit of local government to which a grant may be made under this section to provide progress reports and other information as the Secretary determines to be necessary to carry out this section.

(e) ELIGIBLE PROJECTS.—The Secretary may approve a grant under this section to a State or unit of local government for a project resulting from a land use compatibility plan only if the Secretary is satisfied that the project is consistent with the guidelines established by the Secretary under this section, the State or unit of local government has provided the assurances required by this section, the State or unit of local government has implemented (or has made provision to implement) those elements of the plan that are not eligible for Federal financial assistance, and that the project is not inconsistent with applicable Federal Aviation Administration standards.

(f) SUNSET.—This section shall not be in effect after May 10, 2024.

"(a) IN GENERAL.—Not later than 1 year after the date of enactment of this Act [Feb. 14, 2012], the Administrator of the Federal Aviation Administration shall establish a pilot program under which operators of up to 4 public-use airports may receive grants for activities related to the redevelopment of airport properties in accordance with the requirements of this section.

"(b) GRANTS.—Under the pilot program, the Administrator may make a grant in a fiscal year, from funds made available for grants under section 47117(e)(1)(A) of title 49, United States Code, to an airport operator for a project—

"(1) to support joint planning, engineering, design, and environmental permitting of projects, including the assembly and redevelopment of property purchased with noise mitigation funds made available under section 48103 of such title or passenger facility revenue collected under section 40117 of such title; and

"(2) to encourage airport-compatible land uses and generate economic benefits to the local airport authority and adjacent community.

"(c) ELIGIBILITY.—An airport operator shall be eligible to participate in the pilot program if—

"(1) the operator has received approval for a noise compatibility program under section 47504 of such title; and

"(2) the operator demonstrates, as determined by the Administrator—

"(B) the probability of a clear economic benefit to neighboring local jurisdictions and financial return to the airport through the implementation of those plans.

"(d) DISTRIBUTION.—The Administrator shall seek to award grants under the pilot program to airport operators representing different geographic areas of the United States.

"(e) PARTNERSHIP WITH NEIGHBORING LOCAL JURISDICTIONS.—An airport operator shall use grant funds made available under the pilot program only in partnership with neighboring local jurisdictions.

"(2) subject to a requirement that the local jurisdiction governing the property interests subject to the redevelopment efforts has adopted and will continue in effect zoning regulations that permit airport-compatible redevelopment; and

"(3) subject to a requirement that, in determining the part of the proceeds from disposing of land that is subject to repayment and reinvestment requirements under section 47107(c)(2)(A) of such title, the total amount of a grant issued under the pilot program that is attributable to the redevelopment of such land shall be added to other amounts that must be repaid or reinvested under that section upon disposal of such land by the airport operator.

"(i) MAXIMUM AMOUNT.—Not more than $5,000,000 of the funds made available for grants under section 47117(e)(1)(A) of such title may be expended under the pilot program for any single public-use airport.

(ii) the project is carried out in accordance with all administrative and statutory requirements under this chapter; and

(iii) the project is carried out under this chapter after a grant agreement has been executed.

(B) ACCOUNTING.—Reimbursement of costs shall be based on transparent cost accounting or open book cost accounting.

(d) COVERED PROJECT DELIVERY CONTRACT DEFINED.—In this section, the term "covered project delivery contract" means—

(1) an agreement that provides for both design and construction of a project by a contractor through alternative project delivery methods, including construction manager-at-risk and progressive design build; or

(2) a single contract for the delivery of a whole project that—

(A) includes, at a minimum, the sponsor, builder, and architect-engineer as parties that are subject to the terms of the contract;

§47146. General aviation program runway extension pilot program

(a) ESTABLISHMENT.—The Secretary of Transportation shall establish and carry out a pilot program to provide grants to general aviation airports to increase the usable runway length capability at such airports in order to—

(1) expand access to such airports for larger aircraft; and

(2) support the development and economic viability of such airports.

(b) GRANTS.—

(1) IN GENERAL.—For the purpose of carrying out the pilot program established in subsection (a), the Secretary shall make grants to not more than 2 sponsors of general aviation airports per fiscal year.

(2) USE OF FUNDS.—A sponsor of a general aviation airport shall use a grant awarded under this section to plan, design, or construct a project to extend an existing primary runway by not greater than 1,000 feet in order to accommodate large turboprop or turbojet aircraft that cannot be accommodated with the existing runway length.

(3) ELIGIBILITY.—To be eligible to receive a grant under this section, a sponsor of a general aviation airport shall submit an application to the Secretary at such time, in such form, and containing such information as the Secretary may require.

(4) SELECTION.—In selecting an applicant for a grant under this section, the Secretary shall

prioritize projects that demonstrate that the existing runway length at the airport is—

(A) inadequate to support the near-term operations of 1 or more business entities operating at the airport as of the date of submission of such application;

(B) a direct aircraft operational impediment to airport economic viability, job creation or retention, or local economic development; and

(C) not located within 20 miles of another National Plan of Integrated Airport Systems airport with comparable runway length.

(1) information regarding the level of applicant interest in grants for increasing runway length;

(2) the number of large aircraft that accessed each general aviation airport that received a grant under the pilot program in comparison to the number of such aircraft that accessed the airport prior to the date of enactment of the FAA Reauthorization Act of 2024, based on data provided to the Secretary by the airport sponsor not later than 6 months before the submission date described in this subsection; and

(3) a description, provided to the Secretary by the airport sponsor not later than 6 months before the submission date described in this subsection, of the economic development opportunities supported by increasing the runway length at general aviation airports.

(f) FUNDING.—For each of fiscal years 2025 through 2028, the Secretary may use funds under section 47116(b)(2) to carry out this section.

SUBCHAPTER II—SURPLUS PROPERTY FOR PUBLIC AIRPORTS

§47151. Authority to transfer an interest in surplus property

(a) GENERAL AUTHORITY.—Subject to sections 47152 and 47153 of this title, a department, agency, or instrumentality of the executive branch of the United States Government or a wholly owned Government corporation may convey to a State, political subdivision of a State, or tax-supported organization any interest in surplus property—

(1) that the Secretary of Transportation decides is—

(A) desirable for developing, improving, operating, or maintaining a public airport (as defined in section 47102 of this title);

(B) reasonably necessary to fulfill the immediate and foreseeable future requirements for developing, improving, operating, or maintaining a public airport; or

(C) needed for developing sources of revenue from nonaviation businesses at a public airport; and

(2) if the Administrator of General Services approves the conveyance and decides the interest is not best suited for industrial use.

(b) ENSURING COMPLIANCE.—Only the Secretary may ensure compliance with an instrument conveying an interest in surplus property under this subchapter. The Secretary may amend the instrument to correct the instrument or to make the conveyance comply with law.

(c) DISPOSING OF INTERESTS NOT CONVEYED UNDER THIS SUBCHAPTER.—An interest in surplus property that could be used at a public airport but that is not conveyed under this subchapter shall be disposed of under other applicable law.

(d) WAIVER OF CONDITION.—The Secretary may not waive any condition imposed on an interest in surplus property conveyed under subsection (a) that such interest be used for an aeronautical purpose unless the Secretary provides public notice not less than 30 days before the issuance of such waiver and determines that such waiver—

(1) will not significantly impair the aeronautical purpose of an airport;

(2) will not result in the permanent closure of an airport (unless the Secretary determines that the waiver will directly facilitate the construction of a replacement airport); or

(3) is necessary to protect or advance the civil aviation interests of the United States.

(e) REQUESTS BY PUBLIC AGENCIES.—Except with respect to a request made by another department, agency, or instrumentality of the executive branch of the United States Government, such a department, agency, or instrumentality shall give priority consideration to a request made by a public agency (as defined in section 47102) for surplus property described in subsection (a) for use at a public airport.

In subsection (a), before clause (1), the words "Notwithstanding any other provision of this Act" are omitted as surplus. The words "Subject to sections 47152 and 47153 of this title" are substituted for "but subject to the terms, conditions, reservations, and restrictions hereinafter provided for" to eliminate unnecessary words. The words "a department, agency, or instrumentality of the executive branch of the United States Government or a wholly owned Government corporation" are substituted for "any disposal agency designated pursuant to this Act" for clarity because disposal agencies were Government agencies designated under 50 App.:1619(a), that was repealed by section 602(a)(1) of the Federal Property and Administrative Services Act of 1949 (ch. 288, 63 Stat. 399), and Government agencies were all departments, agencies, and instrumentalities of the executive branch of the United States Government and wholly owned Government corporations. The word "give" is substituted for "convey or dispose of . . . without monetary consideration to the United States", to eliminate unnecessary words. The word "municipality" is omitted as being included in "political subdivision". The words "of a State" are added for clarity and consistency in the revised title and with other titles of the United States Code. In clause (1)(A), the words "essential, suitable, or" are omitted as surplus. In clause (1)(B), the words "of the grantee" are omitted as surplus. In clause (2), the words "Administrator of General Services" are substituted for "[War Assets] Administrator" in section 13(g)(1) of the Surplus Property Act of 1944 (ch. 479, 58 Stat. 765) because of section 105 of the Federal Property and Administrative Services Act of 1949 (ch. 288, 63 Stat. 381). The words "and decides the interest is not best suited for industrial use" are substituted for "(exclusive of property the highest and best use of which is determined by the Administrator of General Services to be industrial and which shall be so classified for disposal without regard to the provisions of this subsection)" to eliminate unnecessary words.

Subsection (b) is substituted for 50 App.:1622b to eliminate unnecessary words.

In subsection (c), the text of 50 App.:1622(g)(5) is omitted as obsolete because 50 App.:1621, 1622(f), and 1627(e) were repealed by section 602(a)(1) of the Federal Property and Administrative Services Act of 1949 (ch. 288, 63 Stat. 399). The words "An interest in surplus property that could be used at a public airport" are substituted for "All surplus property within the purview of this subsection" for clarity. The words "elsewhere in this Act or other applicable" are omitted as surplus. CONSTRUCTION OF 2000 AMENDMENT

Nothing in amendment by section 125(c) of Pub. L. 106–181 to be construed to authorize Secretary of Transportation to issue waiver or make a modification referred to in such amendment, see section 125(e) of Pub. L. 106–181, set out as a note under section 47107 of this title.

§47152. Terms of conveyances

Except as provided in section 47153 of this title, the following terms apply to a conveyance of an interest in surplus property under this subchapter:

(1) A State, political subdivision of a State, or tax-supported organization receiving the interest may use, lease, salvage, or dispose of the interest for other than airport purposes only after the Secretary of Transportation gives written consent that the interest can be used, leased, salvaged, or disposed of without materially and adversely affecting the development, improvement, operation, or maintenance of the airport at which the property is located.

(2) The interest shall be used and maintained for public use and benefit without unreasonable discrimination.

(3) A right may not be vested in a person, excluding others in the same class from using the airport at which the property is located—

(A) to conduct an aeronautical activity requiring the operation of aircraft; or

(B) to engage in selling or supplying aircraft, aircraft accessories, equipment, or supplies (except gasoline and oil), or aircraft services necessary to operate aircraft (including maintaining and repairing aircraft, aircraft engines, propellers, and appliances).

(4) The State, political subdivision, or tax-supported organization accepting the interest shall clear and protect the aerial approaches to the airport by mitigating existing, and preventing future, airport hazards.

(5) During a national emergency declared by the President or Congress, the United States Government is entitled to use, control, or possess, without charge, any part of the public airport at which the property is located. However, the Government shall—

(A) pay the entire cost of maintaining the part of the airport it exclusively uses, controls, or possesses during the emergency;

(B) contribute a reasonable share, consistent with the Government's use, of the cost of maintaining the property it uses nonexclusively, or over which the Government has nonexclusive control or possession, during the emergency; and

(C) pay a fair rental for use, control, or possession of improvements to the airport made without Government assistance.

(6) The Government is entitled to the nonexclusive use, without charge, of the landing area of an airport at which the property is located. The Secretary may limit the use of the landing area if necessary to prevent unreasonable interference with use by other authorized aircraft. However, the Government shall—

(A) contribute a reasonable share, consistent with the Government's use, of the cost of maintaining and operating the landing area; and

(B) pay for damages caused by its use of the landing area if its use of the landing area is substantial.

(7) The State, political subdivision, or tax-supported organization accepting the interest shall release the Government from all liability for damages arising under an agreement that provides for Government use of any part of an airport owned, controlled, or operated by the State, political

subdivision, or tax-supported organization on which, adjacent to which, or in connection with which, the property is located.

(8) When a term under this section is not satisfied, any part of the interest in the property reverts to the Government, at the option of the Government, as the property then exists.

The words "any and . . . it may be under for restoration or other . . lease or other" are omitted as surplus. The text of 50 App.:1622(g)(2)(G) (proviso) is omitted because 49 App.:1116 was repealed by section 52(a) of the Airport and Airway Development Act of 1970 (Public Law 91–258, 84 Stat. 235). Paragraph (8) is substituted for 50 App.:1622(g)(2)(H) to eliminate unnecessary words.

SUBCHAPTER III—AVIATION DEVELOPMENT STREAMLINING

§47171. Expedited, coordinated environmental review process

(a) AVIATION PROJECT REVIEW PROCESS.—The Secretary of Transportation shall implement an expedited and coordinated environmental review process for airport capacity enhancement projects, terminal development projects, general aviation airport construction or improvement projects, and aviation safety projects that—

(1) provides for streamlined coordination among the Federal, regional, State, and local agencies concerned with the preparation of environmental impact statements or environmental assessments under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.);

(2) provides that all environmental reviews, analyses, opinions, permits, licenses, and approvals that must be issued or made by a Federal agency or airport sponsor for such a project will be conducted concurrently, to the maximum extent practicable; and

(3) provides that any environmental review, analysis, opinion, permit, license, or approval that must be issued or made by a Federal agency or airport sponsor for such a project will be

completed within a time period established by the Secretary, in cooperation with the agencies identified under subsection (d) with respect to the project.

(b) AVIATION PROJECTS SUBJECT TO A STREAMLINED ENVIRONMENTAL REVIEW PROCESS.—

(1) IN GENERAL.—Any airport capacity enhancement project, terminal development project, or general aviation airport construction or improvement project shall be subject to the coordinated and expedited environmental review process requirements set forth in this section.

(2) PROJECT DESIGNATION CRITERIA.—

(A) IN GENERAL.—The Secretary may designate an aviation safety project for priority environmental review.

(B) REQUIREMENTS.—A designated project shall be subject to the coordinated and expedited environmental review process requirements set forth in this section.

(C) GUIDELINES.—

(i) IN GENERAL.—The Secretary shall establish guidelines for the designation of an aviation safety project or aviation security project for priority environmental review.

(ii) CONSIDERATION.—Guidelines established under clause (i) shall provide for consideration of—

(I) the importance or urgency of the project;

(II) the potential for undertaking the environmental review under existing emergency procedures under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.);

(III) the need for cooperation and concurrent reviews by other Federal or State agencies; and

(IV) the prospect for undue delay if the project is not designated for priority review.

(c) HIGH PRIORITY OF AND AGENCY PARTICIPATION IN COORDINATED REVIEWS.—

(1) HIGH PRIORITY FOR ENVIRONMENTAL REVIEWS.—Each Federal agency with jurisdiction over an environmental review, analysis, opinion, permit, license, or approval shall accord any such review, analysis, opinion, permit, license, or approval involving a project described or designated under subsection (b) the highest possible priority and conduct the review, analysis, opinion, permit, license, or approval expeditiously.

(2) AGENCY PARTICIPATION.—Each Federal agency described in subsection (d) shall formulate and implement administrative, policy, and procedural mechanisms to enable the agency to participate in the coordinated environmental review process under this section and to ensure completion of environmental reviews, analyses, opinions, permits, licenses, and approvals described in subsection (a) in a timely and environmentally responsible manner.

(d) IDENTIFICATION OF JURISDICTIONAL AGENCIES.—With respect to a project described or designated under subsection (b), the Secretary shall identify, as soon as practicable, all Federal and State agencies that may have jurisdiction over environmental-related matters that may be affected by the project or may be required by law to conduct an environmental-related review or analysis of the project or determine whether to issue an environmental-related permit, license, or approval for the project.

(e) STATE AUTHORITY.—Under a coordinated review process being implemented under this section by the Secretary with respect to a project at an airport within the boundaries of a State, the Governor of the State, consistent with State law, may choose to participate in such process and provide that all State agencies that have jurisdiction over environmental-related matters that may be affected by the project or may be required by law to conduct an environmental-related review or analysis of the project or determine whether to issue an environmental-related permit, license, or approval for the project, be subject to the process.

(f) MEMORANDUM OF UNDERSTANDING.—The coordinated review process developed under this section may be incorporated into a memorandum of understanding for a project between the Secretary and the heads of other Federal and State agencies identified under subsection (d) with

respect to the project and, if applicable, the airport sponsor.

(g) USE OF INTERAGENCY ENVIRONMENTAL IMPACT STATEMENT TEAMS.—

(1) IN GENERAL.—The Secretary may utilize an interagency environmental impact statement team to expedite and coordinate the coordinated environmental review process for a project under this section. When utilizing an interagency environmental impact statement team, the Secretary shall invite Federal, State and Tribal agencies with jurisdiction by law, and may invite such agencies with special expertise, to participate on an interagency environmental impact statement team.

(2) RESPONSIBILITY OF INTERAGENCY ENVIRONMENTAL IMPACT STATEMENT TEAM.—Under a coordinated environmental review process being implemented under this section, the interagency environmental impact statement team shall assist the Federal Aviation Administration in the preparation of the environmental impact statement. To facilitate timely and efficient environmental review, the team shall agree on agency or Tribal points of contact, protocols for communication among agencies, and deadlines for necessary actions by each individual agency (including the review of environmental analyses, the conduct of required consultation and coordination, and the issuance of environmental opinions, licenses, permits, and approvals). The members of the team may formalize their agreement in a written memorandum.

(h) LEAD AGENCY RESPONSIBILITY.—The Federal Aviation Administration shall be the lead agency for projects described in subsection (b)(1) and shall be responsible for defining the scope and content of the environmental impact statement, consistent with regulations issued by the Council on Environmental Quality. Any other Federal agency or State agency that is participating in a coordinated environmental review process under this section shall give substantial deference, to the extent consistent with applicable law and policy, to the aviation expertise of the Federal Aviation Administration.

(i) EFFECT OF FAILURE TO MEET DEADLINE.—

(1) NOTIFICATION OF CONGRESS AND CEQ.— If the Secretary determines that a Federal agency, State agency, or airport sponsor that is participating in a coordinated review process under this section with respect to a project has not met a deadline established under subsection (a)(3) for the project, the Secretary shall notify, within 30 days of the date of such determination, the Committee on Commerce, Science, and Transportation of the Senate, the Committee on Transportation and Infrastructure of the House of Representatives, the Council on Environmental Quality, and the agency or sponsor involved about the failure to meet the deadline.

(2) AGENCY REPORT.—Not later than 30 days after date of receipt of a notice under paragraph (1), the agency or sponsor involved shall submit a report to the Secretary, the Committee on Transportation and Infrastructure of the House of Representatives, the Committee on Commerce, Science, and Transportation of the Senate, and the Council on Environmental Quality explaining why the agency or sponsor did not meet the deadline and what actions it intends to take to complete or issue the required review, analysis, opinion, permit, license, or approval.

(j) PURPOSE AND NEED.—

(1) IN GENERAL.—For any environmental review, analysis, opinion, permit, license, or approval that must be issued or made by a Federal or State agency that is participating in a coordinated review process under this section and that requires an analysis of purpose and need for the project, the agency, notwithstanding any other provision of law, shall be bound by the project purpose and need as defined by the Secretary.

(2) DEADLINE.—The Secretary shall define the purpose and need of a project not later than 45 days after—

(A) the submission of the appropriately completed proposed purpose and need description of the airport sponsor; and

(B) any appropriately completed proposed revision to a development project that affects the purpose and need description previously prepared or accepted by the Federal Aviation

Administration.

(3) ASSISTANCE.—The Secretary shall provide all airport sponsors with technical assistance in drafting purpose and need statements and necessary supporting documentation for projects involving Federal approvals from more than 1 Federal agency.

(k) ALTERNATIVES ANALYSIS.—The Secretary shall determine the reasonable alternatives to a project described or designated under subsection (b). Any other Federal agency, or State agency that is participating in a coordinated review process under this section with respect to the project shall—

(1) consider only those alternatives to the project that the Secretary has determined are reasonable; and

(2) limit the comments of the agency to—

(A) subject matter areas within the special expertise of the agency; and

(B) changes necessary to ensure the agency is carrying out the obligations of that agency under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) and other applicable law.

(l) SOLICITATION AND CONSIDERATION OF COMMENTS.—In applying subsections (j) and (k), the Secretary shall solicit and consider comments from interested persons and governmental entities in accordance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) and section 1503 of title 40, Code of Federal Regulations.

(m) COORDINATION AND SCHEDULE.—

(1) COORDINATION PLAN.—

(A) IN GENERAL.—Not later than 90 days after the date of publication of a notice of intent to prepare an environmental impact statement or the initiation of an environmental assessment, the Secretary of Transportation shall establish a plan for coordinating public and agency participation in and comment on the environmental review process for a project described or designated under subsection (b). The coordination plan may be incorporated into a memorandum of understanding.

(B) CLOUD-BASED, INTERACTIVE DIGITAL PLATFORMS.—The Secretary is encouraged to utilize cloud-based, interactive digital platforms to meet community engagement and agency coordination requirements under subparagraph (A).

(C) SCHEDULE.—

(i) IN GENERAL.—The Secretary shall establish as part of such coordination plan, after consultation with and the concurrence of each participating agency for the project and with the State in which the project is located (and, if the State is not the project sponsor, with the project sponsor), a schedule for—

(I) interim milestones and deadlines for agency activities necessary to complete the environmental review; and

(II) completion of the environmental review process for the project.

(ii) FACTORS FOR CONSIDERATION.—In establishing the schedule under clause (i), the Secretary shall consider factors such as—

(I) the responsibilities of participating agencies under applicable laws;

(II) resources available to the cooperating agencies;

(III) overall size and complexity of the project;

(IV) the overall time required by an agency to conduct an environmental review and make decisions under applicable Federal law relating to a project (including the issuance or denial of a permit or license) and the cost of the project; and

(V) the sensitivity of the natural and historic resources that could be affected by the project.

(iii) MAXIMUM PROJECT SCHEDULE.—To the maximum extent practicable and consistent with applicable Federal law, the Secretary shall develop, in concurrence with the project sponsor, a maximum schedule for the project described or designated under subsection (b) that is not more than 2 years for the completion of the environmental review process for such projects, as measured from, as applicable, the date of publication of a notice of intent to prepare an environmental impact statement to the record of decision.

(iv) DISPUTE RESOLUTION.—

(I) IN GENERAL.—Any issue or dispute that arises between the Secretary and participating agencies (or amongst participating agencies) during the environmental review process shall be addressed expeditiously to avoid delay.

(II) RESPONSIBILITIES.—The Secretary and participating agencies shall—

(aa) implement the requirements of this section consistent with any dispute resolution process established in an applicable law, regulation, or legally binding agreement to the maximum extent permitted by law; and

(bb) seek to resolve issues or disputes at the earliest possible time at the project level through agency employees who have day-to-day involvement in the project.

(III) SECRETARY RESPONSIBILITIES.—

(aa) IN GENERAL.—The Secretary shall make information available to each cooperating and participating agency and project sponsor as early as practicable in the environmental review regarding the environmental, historic, and socioeconomic resources located within the project area and the general locations of the alternatives under consideration.

(bb) SOURCES OF INFORMATION.—The information described in item (aa) may be based on existing data sources, including geographic information systems mapping.

(IV) COOPERATING AND PARTICIPATING AGENCY RESPONSIBILITIES .—Each cooperating and participating agency shall—

(aa) identify, as early as practicable, any issues of concern regarding any potential environmental impacts of the project, including any issues that could substantially delay or prevent an agency from completing any environmental review or authorization required for the project; and

(bb) communicate any issues described in item (aa) to the project sponsor.

(V) ELEVATION FOR MISSED MILESTONE.—If a dispute between the Secretary and participating agencies (or amongst participating agencies) causes a milestone to be missed or extended, or the Secretary anticipates that a permitting timetable milestone will be missed or will need to be extended, the dispute shall be elevated to an official designated by the relevant agency for resolution. The elevation of a dispute shall take place as soon as practicable after the Secretary becomes aware of the dispute or potential missed milestone.

(VI) EXCEPTION.—Disputes that do not impact the ability of an agency to meet a milestone may be elevated as appropriate.

(VII) FURTHER EVALUATION.—If a resolution has not been reached at the end of the 30-day period after a relevant milestone date or extension date after a dispute has been elevated to the designated official, the relevant agencies shall elevate the dispute to senior agency leadership for resolution.

(D) CONSISTENCY WITH OTHER TIME PERIODS.—A schedule under subparagraph (C) shall be consistent with any other relevant time periods established under Federal law.

(E) MODIFICATION.—

(i) IN GENERAL.—Except as provided in clause (ii), the Secretary may lengthen or shorten a schedule established under subparagraph (C) for good cause. The Secretary may

consider a decision by the project sponsor to change, modify, expand, or reduce the scope of a project as good cause for purposes of this clause.

(ii) LIMITATIONS.—

(I) LENGTHENED SCHEDULE.—The Secretary may lengthen a schedule under clause (i) for a cooperating Federal agency by not more than 1 year after the latest deadline established for the project described or designated under subsection (b) by the Secretary.

(II) SHORTENED SCHEDULE.—The Secretary may not shorten a schedule under clause (i) if doing so would impair the ability of a cooperating Federal agency to conduct necessary analyses or otherwise carry out relevant obligations of the Federal agency for the project.

(F) FAILURE TO MEET DEADLINE.—If a cooperating Federal agency fails to meet a deadline established under subparagraph (D)(ii)(I)— [1]

(i) the cooperating Federal agency shall, not later than 10 days after failing to meet the deadline, submit to the Secretary a report that describes the reasons why the deadline was not met; and

(ii) the Secretary shall—

(I) submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a copy of the report under clause (i); and

(II) make the report under clause (i) publicly available on a website of the Department of Transportation.

(G) DISSEMINATION.—A copy of a schedule under subparagraph (C), and of any modifications to the schedule under subparagraph (E), shall be—

(i) provided to all participating agencies and to the State department of transportation of the State in which the project is located (and, if the State is not the project sponsor, to the project sponsor); and

(ii) made available to the public.

(2) COMMENT DEADLINES.—The Secretary shall establish the following deadlines for comment during the environmental review process for a project:

(A) For comments by agencies and the public on a draft environmental impact statement, a period of not more than 60 days after publication in the Federal Register of notice of the date of public availability of such statement, unless—

(i) a different deadline is established by agreement of the lead agency, the project sponsor, and all participating agencies; or

(ii) the deadline is extended by the lead agency for good cause.

(B) For all other comment periods established by the lead agency for agency or public comments in the environmental review process, a period of not more than 45 days from availability of the materials on which comment is requested, unless—

(i) a different deadline is established by agreement of the Secretary, the project sponsor, and all participating agencies; or

(ii) the deadline is extended by the lead agency for good cause.

(3) DEADLINES FOR DECISIONS UNDER OTHER LAWS.—In any case in which a decision under any Federal law relating to a project described or designated under subsection (b) (including the issuance or denial of a permit or license) is required to be made by the later of the date that is 180 days after the date on which the Secretary made all final decisions of the lead agency with respect to the project or 180 days after the date on which an application was

submitted for the permit or license, the Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate and publish on a website of the Department of Transportation—

(A) as soon as practicable after the 180-day period, an initial notice of the failure of the Federal agency to make the decision; and

(B) every 60 days thereafter until such date as all decisions of the Federal agency relating to the project have been made by the Federal agency, an additional notice that describes the number of decisions of the Federal agency that remain outstanding as of the date of the additional notice.

(4) INVOLVEMENT OF THE PUBLIC.—Nothing in this subsection shall reduce any time period provided for public comment in the environmental review process under existing Federal law, including a regulation.

(n) CONCURRENT REVIEWS AND SINGLE NEPA DOCUMENT.—

(1) CONCURRENT REVIEWS.—Each participating agency and cooperating agency under the expedited and coordinated environmental review process established under this section shall—

(A) carry out the obligations of such agency under other applicable law concurrently, and in conjunction, with the review required under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), unless doing so would impair the ability of such agency to conduct needed analysis or otherwise carry out such obligations; and

(B) formulate and implement administrative, policy, and procedural mechanisms to enable the agency to ensure completion of the environmental review process in a timely, coordinated, and environmentally responsible manner.

(2) SINGLE NEPA DOCUMENT.—

(A) IN GENERAL.—To the maximum extent practicable and consistent with Federal law, all Federal permits and reviews for a project shall rely on a single environmental document prepared under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) under the leadership of the Secretary.

(B) USE OF DOCUMENT.—

(i) IN GENERAL.—To the maximum extent practicable, the Secretary shall develop an environmental document sufficient to satisfy the requirements for any Federal approval or other Federal action required for the project, including permits issued by other Federal agencies.

(ii) COOPERATION OF PARTICIPATING AGENCIES.—In carrying out this subparagraph, other participating agencies shall cooperate with the lead agency and provide timely information.

(C) TREATMENT AS PARTICIPATING AND COOPERATING AGENCIES.—A Federal agency required to make an approval or take an action for a project, as described in this paragraph, shall work with the Secretary to ensure that the agency making the approval or taking the action is treated as being both a participating and cooperating agency for the project.

(D) EXCEPTIONS.—The Secretary may waive the application of subparagraph (A) with respect to a project if—

(i) the project sponsor requests that agencies issue separate environmental documents;

(ii) the obligations of a cooperating agency or participating agency under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) have already been satisfied with respect to the project; or

(iii) the Secretary determines that reliance on a single environmental document (as described in subparagraph (A)) would not facilitate timely completion of the environmental review process for the project.

(3) PARTICIPATING AGENCY RESPONSIBILITIES.—An agency participating in the expedited and coordinated environmental review process under this section shall—

(A) provide comments, responses, studies, or methodologies on areas within the special expertise or jurisdiction of the agency; and

(B) use the process to address any environmental issues of concern to the agency.

(o) ENVIRONMENTAL IMPACT STATEMENT.—

(1) IN GENERAL.—In preparing a final environmental impact statement under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) for a project described or designated under subsection (b), if the Secretary modifies the statement in response to comments that are minor and are confined to factual corrections or explanations of why the comments do not warrant additional agency response, the Secretary may write on errata sheets attached to the statement instead of rewriting the draft statement, subject to the condition that the errata sheets—

(A) cite the sources, authorities, and reasons that support the position of the agency; and

(B) if appropriate, indicate the circumstances that would trigger agency reappraisal or further response.

(2) SINGLE DOCUMENT.—To the maximum extent practicable, for a project subject to a coordinated review process under this section, the Secretary shall expeditiously develop a single document that consists of a final environmental impact statement and a record of decision, unless—

(A) the final environmental impact statement or record of decision makes substantial changes to the project that are relevant to environmental or safety concerns; or

(B) there is a significant new circumstance or information relevant to environmental concerns that bears on the proposed action or the environmental impacts of the proposed action.

(3) LENGTH OF ENVIRONMENTAL DOCUMENT.—

(A) IN GENERAL.—Except as provided in subparagraph (B), an environmental impact statement shall not exceed 150 pages, not including any citations or appendices.

(B) EXTRAORDINARY COMPLEXITY.—An environmental impact statement for a proposed agency action of extraordinary complexity shall not exceed 300 pages, not including any citations or appendices.

(p) INTEGRATION OF PLANNING AND ENVIRONMENTAL REVIEW.—

(1) IN GENERAL.—Subject to paragraph (5) and to the maximum extent practicable and appropriate, the following agencies may adopt or incorporate by reference, and use a planning product in proceedings relating to, any class of action in the environmental review process of a project described or designated under subsection (b):

(A) The lead agency for a project, with respect to an environmental impact statement, environmental assessment, categorical exclusion, or other document prepared under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

(B) A cooperating agency with responsibility under Federal law with respect to the process for and completion of any environmental permit, approval, review, or study required for a project under any Federal law other than the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), if consistent with such Act.

(2) IDENTIFICATION.—If a lead or cooperating agency makes a determination to adopt or incorporate by reference and use a planning product under paragraph (1), such agency shall identify the agencies that participated in the development of the planning products.

(3) ADOPTION OR INCORPORATION BY REFERENCE OF PLANNING PRODUCTS .—Such agency may—

(A) adopt or incorporate by reference an entire planning product under paragraph (1); or

(B) select portions of a planning project under paragraph (1) for adoption or incorporation by

reference.

(4) TIMING.—The adoption or incorporation by reference of a planning product under paragraph (1) may—

(A) be made at the time the lead and cooperating agencies decide the appropriate scope of environmental review for the project; or

(B) occur later in the environmental review process, as appropriate.

(5) CONDITIONS.—Such agency in the environmental review process may adopt or incorporate by reference a planning product under this section if such agency determines, with the concurrence of the lead agency, if appropriate, and, if the planning product is necessary for a cooperating agency to issue a permit, review, or approval for the project, with the concurrence of the cooperating agency, if appropriate, that the following conditions have been met:

(A) The planning product was developed through a planning process conducted pursuant to applicable Federal law.

(B) The planning product was developed in consultation with appropriate Federal and State resource agencies and Indian Tribes.

(C) The planning process included broad multidisciplinary consideration of systems-level or corridor-wide transportation needs and potential effects, including effects on the human and natural environment.

(D) The planning process included public notice that the planning products produced in the planning process may be adopted during any subsequent environmental review process in accordance with this section.

(E) During the environmental review process, the such agency has—

(i) made the planning documents available for public review and comment by members of the general public and Federal, State, local, and Tribal governments that may have an interest in the proposed project;

(ii) provided notice of the intention of the such agency to adopt or incorporate by reference the planning product; and

(iii) considered any resulting comments.

(F) There is no significant new information or new circumstance that has a reasonable likelihood of affecting the continued validity or appropriateness of the planning product or portions thereof.

(G) The planning product has a rational basis and is based on reliable and reasonably current data and reasonable and scientifically acceptable methodologies.

(H) The planning product is documented in sufficient detail to support the decision or the results of the analysis and to meet requirements for use of the information in the environmental review process.

(I) The planning product is appropriate for adoption or incorporation by reference and use in the environmental review process for the project and is incorporated in accordance with, and is sufficient to meet the requirements of, the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) and section 1502.21 of title 40, Code of Federal Regulations.

(6) EFFECT OF ADOPTION OR INCORPORATION BY REFERENCE.—Any planning product or portions thereof adopted or incorporated by reference by such agency in accordance with this subsection may be—

(A) incorporated directly into an environmental review process document or other environmental document; and

(B) relied on and used by other Federal agencies in carrying out reviews of the project.

(q) REPORT ON NEPA DATA.—

(1) IN GENERAL.—The Secretary shall carry out a process to track, and annually submit to the

"(c) NOISE EXPOSURE MAP.—In this section, the term 'noise exposure map' means a noise exposure map prepared under section 47503 of title 49, United States Code."

§47504. Noise compatibility programs

(a) SUBMISSIONS.—(1) An airport operator that submitted a noise exposure map and related information under section 47503(a) of this title may submit a noise compatibility program to the Secretary of Transportation after—

(A) consulting with public agencies and planning authorities in the area surrounding the airport, United States Government officials having local responsibility for the airport, and air carriers using the airport; and

(B) notice and an opportunity for a public hearing.

(2) A program submitted under paragraph (1) of this subsection shall state the measures the operator has taken or proposes to take to reduce existing noncompatible uses and prevent introducing additional noncompatible uses in the area covered by the map. The measures may include—

(A) establishing a preferential runway system;

(B) restricting the use of the airport by a type or class of aircraft because of the noise characteristics of the aircraft;

(C) constructing barriers and acoustical shielding and soundproofing public buildings;

(D) using flight procedures to control the operation of aircraft to reduce exposure of individuals to noise in the area surrounding the airport; and

(E) acquiring land, air rights, easements, development rights, and other interests to ensure that the property will be used in ways compatible with airport operations.

(b) APPROVALS.—(1) The Secretary shall approve or disapprove a program submitted under subsection (a) of this section (except as the program is related to flight procedures referred to in subsection (a)(2)(D) of this section) not later than 180 days after receiving it. The Secretary shall approve the program (except as the program is related to flight procedures referred to in subsection (a)(2)(D)) if the program—

(A) does not place an unreasonable burden on interstate or foreign commerce;

(B) is reasonably consistent with achieving the goal of reducing noncompatible uses and preventing the introduction of additional noncompatible uses; and

(C) provides for necessary revisions because of a revised map submitted under section 47503(b) of this title.

(2) A program (except as the program is related to flight procedures referred to in subsection (a)(2)(D) of this section) is deemed to be approved if the Secretary does not act within the 180-day period.

(3) The Secretary shall submit any part of a program related to flight procedures referred to in subsection (a)(2)(D) of this section to the Administrator of the Federal Aviation Administration. The Administrator shall approve or disapprove that part of the program.

(4) The Secretary shall not approve in fiscal years 2004 through 2007 a program submitted under subsection (a) if the program requires the expenditure of funds made available under section 48103 for mitigation of aircraft noise less than 65 DNL.

(c) GRANTS.—(1) The Secretary may incur obligations to make grants from amounts available under section 48103 of this title to carry out a project under a part of a noise compatibility program approved under subsection (b) of this section. A grant may be made to—

(A) an airport operator submitting the program; and

(B) a unit of local government in the area surrounding the airport, if the Secretary decides the unit is able to carry out the project.

(2) SOUNDPROOFING AND ACQUISITION OF CERTAIN RESIDENTIAL BUILDINGS AND PROPERTIES.—The Secretary may incur obligations to make grants from amounts made available under section 48103 of this title—

(A) for projects to soundproof residential buildings—

(i) if the airport operator received approval for a grant for a project to soundproof residential buildings pursuant to section 301(d)(4)(B) of the Airport and Airway Safety and Capacity Expansion Act of 1987;

(ii) if the airport operator submits updated noise exposure contours, as required by the Secretary; and

(iii) if the Secretary determines that the proposed projects are compatible with the purposes of this chapter;

(B) to an airport operator and unit of local government referred to in paragraph (1)(A) or (1)(B) of this subsection to soundproof residential buildings located on residential properties, and to acquire residential properties, at which noise levels are not compatible with normal operations of an airport—

(i) if the airport operator amended an existing local aircraft noise regulation during calendar year 1993 to increase the maximum permitted noise levels for scheduled air carrier aircraft as a direct result of implementation of revised aircraft noise departure procedures mandated for aircraft safety purposes by the Administrator of the Federal Aviation Administration for standardized application at airports served by scheduled air carriers;

(ii) if the airport operator submits updated noise exposure contours, as required by the Secretary; and

(iii) if the Secretary determines that the proposed projects are compatible with the purposes of this chapter;

(C) to an airport operator and unit of local government referred to in paragraph (1)(A) or (1)(B) of this subsection to carry out any part of a program developed before February 18, 1980, or before implementing regulations were prescribed, if the Secretary decides the program is substantially consistent with reducing existing noncompatible uses and preventing the introduction of additional noncompatible uses and the purposes of this chapter will be furthered by promptly carrying out the program;

(D) to an airport operator and unit of local government referred to in paragraph (1)(A) or (1)(B) of this subsection to soundproof a building in the noise impact area surrounding the airport that is

used primarily for educational or medical purposes and that the Secretary decides is adversely affected by airport noise;

(E) to an airport operator of a congested airport (as defined in section 47175) and a unit of local government referred to in paragraph (1)(B) of this subsection to carry out a project to mitigate noise in the area surrounding the airport if the project is included as a commitment in a record of decision of the Federal Aviation Administration for an airport capacity enhancement project (as defined in section 47175) even if that airport has not met the requirements of part 150 of title 14, Code of Federal Regulations; and

(F) to an airport operator of a congested airport (as defined in section 47175) and a unit of local government referred to in paragraph (1)(B) to carry out a project to mitigate noise, if the project—

(i) consists of—

(I) replacement windows, doors, and the installation of through-the-wall air conditioning units; or

(II) a contribution of the equivalent costs to be used for reconstruction if reconstruction is the preferred local solution;

(ii) is located at a school near the airport; and

(iii) is included in a memorandum of agreement entered into before September 30, 2002, even if the airport has not met the requirements of part 150 of title 14, Code of Federal Regulations, and only if the financial limitations of the memorandum are applied.

(3) An airport operator may agree to make a grant made under paragraph (1)(A) of this subsection available to a public agency in the area surrounding the airport if the Secretary decides the agency is able to carry out the project.

(4) The Government's share of a project for which a grant is made under this subsection is the greater of—

(A) 80 percent of the cost of the project; or

(B) the Government's share that would apply if the amounts available for the project were made available under subchapter I of chapter 471 of this title for a project at the airport.

(5) The provisions of subchapter I of chapter 471 of this title related to grants apply to a grant made under this chapter, except—

(A) section 47109(a) and (b) of this title; and

(B) any provision that the Secretary decides is inconsistent with, or unnecessary to carry out, this chapter.

(6) AIRCRAFT NOISE PRIMARILY CAUSED BY MILITARY AIRCRAFT.—The Secretary may make a grant under this subsection for a project even if the purpose of the project is to mitigate the effect of noise primarily caused by military aircraft at an airport.

(d) GOVERNMENT RELIEF FROM LIABILITY.—The Government is not liable for damages from aviation noise because of action taken under this section.

(e) GRANTS FOR ASSESSMENT OF FLIGHT PROCEDURES.—

(1) IN GENERAL.—In accordance with subsection (c)(1), the Secretary may make a grant to an airport operator to assist in completing environmental review and assessment activities for proposals to implement flight procedures at such airport that have been approved as part of an airport noise compatibility program under subsection (b).

(2) ADDITIONAL STAFF.—The Administrator may accept funds from an airport operator, including funds provided to the operator under paragraph (1), to hire additional staff or obtain the services of consultants in order to facilitate the timely processing, review, and completion of environmental activities associated with proposals to implement flight procedures at such airport that have been approved as part of an airport noise compatibility program under subsection (b).

(3) RECEIPTS CREDITED AS OFFSETTING COLLECTIONS.—Notwithstanding section 3302 of title 31, any funds accepted under this section—

(A) shall be credited as offsetting collections to the account that finances the activities and services for which the funds are accepted;

(B) shall be available for expenditure only to pay the costs of activities and services for which the funds are accepted; and

(C) shall remain available until expended.

(f) DETERMINATION OF FAIR MARKET VALUE OF RESIDENTIAL PROPERTIES.—In approving a project to acquire residential real property using financial assistance made available under this section or chapter 471, the Secretary shall ensure that the appraisal of the property to be acquired disregards any decrease or increase in the fair market value of the real property caused by the project for which the property is to be acquired, or by the likelihood that the property would be acquired for the project, other than that due to physical deterioration within the reasonable control of the owner.

§47508. Noise standards for air carriers and foreign air carriers providing foreign air transportation

(a) GENERAL REQUIREMENTS.—The Secretary of Transportation shall require each air carrier and foreign air carrier providing foreign air transportation to comply with noise standards—

(1) the Secretary prescribed for new subsonic aircraft in regulations of the Secretary in effect on January 1, 1977; or

(2) of the International Civil Aviation Organization that are substantially compatible with standards of the Secretary for new subsonic aircraft in regulations of the Secretary at parts 36 and 91 of title 14, Code of Federal Regulations, prescribed between January 2, 1977, and January 1, 1982.

(b) COMPLIANCE AT PHASED RATE.—The Secretary shall require each air carrier and foreign air carrier providing foreign air transportation to comply with the noise standards at a phased rate similar to the rate for aircraft registered in the United States.

(c) NONDISCRIMINATION.—The requirement for air carriers providing foreign air transportation may not be more stringent than the requirement for foreign air carriers.

In this section, the word "providing" is substituted for "engaging in" for consistency in the revised title.

In subsection (a), the words "acting through the Administrator" and "acting through the Administrator of the Federal Aviation Administration (14 CFR part 36)" are omitted for consistency. Section 6(c)(1) of the Department of Transportation Act (Public Law 89–670, 80 Stat. 938) transferred all duties and powers of the Federal Aviation Agency and the Administrator to the Secretary of Transportation. However, the Secretary was to carry out certain provisions through the Administrator. In addition, various laws enacted since then have vested duties and powers in the Administrator. All provisions of law the Secretary is required to carry out through the Administrator are included in 49:106(g). Before clause (1), the words "If, by January 1, 1980, the International Civil Aviation Organization (hereafter referred to as 'ICAO') does not reach an agreement" and "commence a rulemaking to" and 49 App.:2122(a) (last sentence) are omitted as executed. In clause (1), the words "as such regulations were" are omitted as surplus. In clause (2), the words "on noise standards and an international schedule" and "(annex 16)" are omitted as surplus. The words "of the Secretary for new subsonic aircraft in regulations of the Secretary at parts 36 and 91 of title 14, Code of Federal Regulations, prescribed between January 2, 1977, and January 1, 1982" are substituted for "set forth in such regulations issued by the Secretary (14 CFR parts 36 and 91) during the 5-year period thereafter" for clarity and consistency.

SUBCHAPTER II—NATIONAL AVIATION NOISE POLICY

§47521. Findings

Congress finds that—

(1) aviation noise management is crucial to the continued increase in airport capacity;

(2) community noise concerns have led to uncoordinated and inconsistent restrictions on aviation that could impede the national air transportation system;

(3) a noise policy must be carried out at the national level;

(4) local interest in aviation noise management shall be considered in determining the national interest;

(5) community concerns can be alleviated through the use of new technology aircraft and the use of revenues, including those available from passenger facility charges, for noise management;

(6) revenues controlled by the United States Government can help resolve noise problems and carry with them a responsibility to the national airport system;

(7) revenues derived from a passenger facility charge may be applied to noise management and increased airport capacity; and

(8) a precondition to the establishment and collection of a passenger facility charge is the prescribing by the Secretary of Transportation of a regulation establishing procedures for

reviewing airport noise and access restrictions on operations of stage 2 and stage 3 aircraft.

"(1) the airport—

"(A) is certified under part 139 of title 14, Code of Federal Regulations;

"(B) has a runway that—

"(i) is longer than 8,000 feet and not less than 200 feet wide; and

"(ii) is load bearing with a pavement classification number of not less than 38; and

(1) the ability of air carriers to achieve capacity growth consistent with the projected rate of growth for the airline industry;

(2) the impact of competition in the airline and air cargo industries;

(3) the impact on nonhub and small community air service; and

(4) the impact on new entry into the airline industry.

In this section, the text of 49 App.:2152(c) is omitted as executed.

In subsection (a), the words "(hereinafter in this chapter referred to as the 'Secretary')" are omitted because of the restatement. The words "this subchapter" (the first time they appear) are substituted for "the findings, determinations, and provisions of this chapter" to eliminate unnecessary words.

Subsection (b) is tabulated for clarity.

§47524. Airport noise and access restriction review program

(a) GENERAL REQUIREMENTS.—The national aviation noise policy established under section 47523 of this title shall provide for establishing by regulation a national program for reviewing airport noise and access restrictions on the operation of stage 2 and stage 3 aircraft. The program shall provide for adequate public notice and opportunity for comment on the restrictions.

(b) STAGE 2 AIRCRAFT.—Except as provided in subsection (d) of this section, an airport noise or access restriction may include a restriction on the operation of stage 2 aircraft proposed after October 1, 1990, only if the airport operator publishes the proposed restriction and prepares and makes available for public comment at least 180 days before the effective date of the proposed restriction—

(1) an analysis of the anticipated or actual costs and benefits of the existing or proposed restriction;

(2) a description of alternative restrictions;

(3) a description of the alternative measures considered that do not involve aircraft restrictions;

and

(4) a comparison of the costs and benefits of the alternative measures to the costs and benefits of the proposed restriction.

(c) STAGE 3 AIRCRAFT.—(1) Except as provided in subsection (d) of this section, an airport noise or access restriction on the operation of stage 3 aircraft not in effect on October 1, 1990, may become effective only if the restriction has been agreed to by the airport proprietor and all aircraft operators or has been submitted to and approved by the Secretary of Transportation after an airport or aircraft operator's request for approval as provided by the program established under this section. Restrictions to which this paragraph applies include—

(A) a restriction on noise levels generated on either a single event or cumulative basis;

(B) a restriction on the total number of stage 3 aircraft operations;

(C) a noise budget or noise allocation program that would include stage 3 aircraft;

(D) a restriction on hours of operations; and

(E) any other restriction on stage 3 aircraft.

(2) Not later than 180 days after the Secretary receives an airport or aircraft operator's request for approval of an airport noise or access restriction on the operation of a stage 3 aircraft, the Secretary shall approve or disapprove the restriction. The Secretary may approve the restriction only if the Secretary finds on the basis of substantial evidence that—

(A) the restriction is reasonable, nonarbitrary, and nondiscriminatory;

(B) the restriction does not create an unreasonable burden on interstate or foreign commerce;

(C) the restriction is not inconsistent with maintaining the safe and efficient use of the navigable airspace;

(D) the restriction does not conflict with a law or regulation of the United States;

(E) an adequate opportunity has been provided for public comment on the restriction; and

(F) the restriction does not create an unreasonable burden on the national aviation system.

(3) Paragraphs (1) and (2) of this subsection do not apply if the Administrator of the Federal Aviation Administration, before November 5, 1990, has formed a working group (outside the process established by part 150 of title 14, Code of Federal Regulations) with a local airport operator to examine the noise impact of air traffic control procedure changes at the airport. However, if an agreement on noise reductions at that airport is made between the airport proprietor and one or more air carriers or foreign air carriers that constitute a majority of the carrier use of the airport, this paragraph applies only to a local action to enforce the agreement.

(4) The Secretary may reevaluate an airport noise or access restriction previously agreed to or approved under this subsection on request of an aircraft operator able to demonstrate to the satisfaction of the Secretary that there has been a change in the noise environment of the affected airport that justifies a reevaluation. The Secretary shall establish by regulation procedures for conducting a reevaluation. A reevaluation—

(A) shall be based on the criteria in paragraph (2) of this subsection; and

(B) may be conducted only after 2 years after a decision under paragraph (2) of this subsection has been made.

(d) NONAPPLICATION.—Subsections (b) and (c) of this section do not apply to—

(1) a local action to enforce a negotiated or executed airport noise or access agreement between the airport operator and the aircraft operators in effect on November 5, 1990;

(2) a local action to enforce a negotiated or executed airport noise or access restriction agreed to by the airport operator and the aircraft operators before November 5, 1990;

(3) an intergovernmental agreement including an airport noise or access restriction in effect on November 5, 1990;

(4) a subsequent amendment to an airport noise or access agreement or restriction in effect on November 5, 1990, that does not reduce or limit aircraft operations or affect aircraft safety;

(5)(A) an airport noise or access restriction adopted by an airport operator not later than October 1, 1990, and stayed as of October 1, 1990, by a court order or as a result of litigation, if any part of the restriction is subsequently allowed by a court to take effect; or

(B) a new restriction imposed by an airport operator to replace any part of a restriction described in subclause (A) of this clause that is disallowed by a court, if the new restriction would not prohibit aircraft operations in effect on November 5, 1990; or

(6) a local action that represents the adoption of the final part of a program of a staged airport noise or access restriction if the initial part of the program was adopted during 1988 and was in effect on November 5, 1990.

(e) GRANT LIMITATIONS.—Beginning on the 91st day after the Secretary prescribes a regulation under subsection (a) of this section, a sponsor of a facility operating under an airport noise or access restriction on the operation of stage 3 aircraft that first became effective after October 1, 1990, is eligible for a grant under section 47104 of this title and is eligible to impose a passenger facility charge under section 40117 of this title only if the restriction has been—

(1) agreed to by the airport proprietor and aircraft operators;

(2) approved by the Secretary as required by subsection (c)(1) of this section; or

(3) rescinded.

§47528. Prohibition on operating certain aircraft not complying with stage 3 noise levels

(a) PROHIBITION.—Except as provided in subsection (b) or (f) of this section and section 47530 of this title, a person may operate after December 31, 1999, a civil subsonic turbojet (for which an airworthiness certificate other than an experimental certificate has been issued by the Administrator) with a maximum weight of more than 75,000 pounds to or from an airport in the United States only if the Secretary of Transportation finds that the aircraft complies with the stage 3 noise levels.

(b) WAIVERS.—(1) If, not later than July 1, 1999, at least 85 percent of the aircraft used by an air carrier or foreign air carrier to provide air transportation comply with the stage 3 noise levels, the carrier may apply for a waiver of subsection (a) of this section for the remaining aircraft used by the carrier to provide air transportation. The application must be filed with the Secretary not later than January 1, 1999, or, in the case of a foreign air carrier, the 15th day following the date of the enactment of the Wendell H. Ford Aviation Investment and Reform Act for the 21st Century and must include a plan with firm orders for making all aircraft used by the carrier to provide air transportation comply with the noise levels not later than December 31, 2003.

(2) The Secretary may grant a waiver under this subsection if the Secretary finds it would be in the public interest. In making the finding, the Secretary shall consider the effect of granting the waiver on competition in the air carrier industry and on small community air service.

(3) A waiver granted under this subsection may not permit the operation of stage 2 aircraft in the United States after December 31, 2003.

(c) SCHEDULE FOR PHASED-IN COMPLIANCE.—The Secretary shall establish by regulation a schedule for phased-in compliance with subsection (a) of this section. The phase-in period shall begin on November 5, 1990, and end before December 31, 1999. The regulations shall establish interim compliance dates. The schedule for phased-in compliance shall be based on—

(1) a detailed economic analysis of the impact of the phaseout date for stage 2 aircraft on competition in the airline industry, including—

(A) the ability of air carriers to achieve capacity growth consistent with the projected rate of growth for the airline industry;

(B) the impact of competition in the airline and air cargo industries;

(C) the impact on nonhub and small community air service; and
(D) the impact on new entry into the airline industry; and

(2) an analysis of the impact of aircraft noise on individuals residing near airports.

(d) ANNUAL REPORT.—Beginning with calendar year 1992—
(1) each air carrier shall submit to the Secretary an annual report on the progress the carrier is making toward complying with the requirements of this section and regulations prescribed under this section; and
(2) the Secretary shall submit to Congress an annual report on the progress being made toward that compliance.

(e) HAWAIIAN OPERATIONS.—(1) In this subsection, "turnaround service" means a flight between places only in Hawaii.
(2)(A) An air carrier or foreign air carrier may not operate in Hawaii, or between a place in Hawaii and a place outside the 48 contiguous States, a greater number of stage 2 aircraft with a maximum weight of more than 75,000 pounds than it operated in Hawaii, or between a place in Hawaii and a place outside the 48 contiguous States, on November 5, 1990.
(B) An air carrier that provided turnaround service in Hawaii on November 5, 1990, using stage 2 aircraft with a maximum weight of more than 75,000 pounds may include in the number of aircraft authorized under subparagraph (A) of this paragraph all stage 2 aircraft with a maximum weight of more than 75,000 pounds that were owned or leased by that carrier on that date, whether or not the aircraft were operated by the carrier on that date.
(3) An air carrier may provide turnaround service in Hawaii using stage 2 aircraft with a maximum weight of more than 75,000 pounds only if the carrier provided the service on November 5, 1990.
(4) An air carrier operating stage 2 aircraft under this subsection may transport stage 2 aircraft to or from the 48 contiguous States on a nonrevenue basis in order—
(A) to perform maintenance (including major alterations) or preventative maintenance on aircraft operated, or to be operated, within the limitations of paragraph (2)(B); or
(B) conduct operations within the limitations of paragraph (2)(B).

(f) AIRCRAFT MODIFICATION, DISPOSAL, SCHEDULED HEAVY MAINTENANCE, OR LEASING.—
(1) IN GENERAL.—The Secretary shall permit a person to operate after December 31, 1999, a stage 2 aircraft in nonrevenue service through the airspace of the United States or to or from an airport in the contiguous 48 States in order to—
(A) sell, lease, or use the aircraft outside the contiguous 48 States;
(B) scrap the aircraft;
(C) obtain modifications to the aircraft to meet stage 3 noise levels;
(D) perform scheduled heavy maintenance or significant modifications on the aircraft at a maintenance facility located in the contiguous 48 States;
(E) deliver the aircraft to an operator leasing the aircraft from the owner or return the aircraft to the lessor;
(F) prepare or park or store the aircraft in anticipation of any of the activities described in subparagraphs (A) through (E); or
(G) divert the aircraft to an alternative airport in the contiguous 48 States on account of weather, mechanical, fuel, air traffic control, or other safety reasons while conducting a flight in order to perform any of the activities described in subparagraphs (A) through (F).

(2) PROCEDURE TO BE PUBLISHED.—Not later than 30 days after the date of the enactment of this subsection, the Secretary shall establish and publish a procedure to implement paragraph (1) through the use of categorical waivers, ferry permits, or other means.

(g) STATUTORY CONSTRUCTION.—Nothing in this section may be construed as interfering with, nullifying, or otherwise affecting determinations made by the Federal Aviation Administration, or to be made by the Administration with respect to applications under part 161 of title 14, Code of Federal Regulations, that were pending on November 1, 1999.

AMENDMENTS

2012—Pub. L. 112–95, title I, §150, Feb. 14, 2012, 126 Stat. 32, struck out item 49108 "Limitations".

§49101. Findings

Congress finds that—

(1) the 2 federally owned airports in the metropolitan area of the District of Columbia constitute an important and growing part of the commerce, transportation, and economic patterns of Virginia, the District of Columbia, and the surrounding region;

(2) Baltimore/Washington International Airport, owned and operated by Maryland, is an air transportation facility that provides service to the greater Metropolitan Washington region together with the 2 federally owned airports, and timely Federal-aid grants to Baltimore/Washington International Airport will provide additional capacity to meet the growing air traffic needs and to compete with other airports on a fair basis;

(3) the United States Government has a continuing but limited interest in the operation of the 2

federally owned airports, which serve the travel and cargo needs of the entire Metropolitan Washington region as well as the District of Columbia as the national seat of government;

(4) operation of the Metropolitan Washington Airports by an independent local authority will facilitate timely improvements at both airports to meet the growing demand of interstate air transportation occasioned by the Airline Deregulation Act of 1978 (Public Law 95–504; 92 Stat. 1705);

(5) all other major air carrier airports in the United States are operated by public entities at the State, regional, or local level;

(6) any change in status of the 2 airports must take into account the interest of nearby communities, the traveling public, air carriers, general aviation, airport employees, and other interested groups, as well as the interests of the United States Government and State governments involved;

(7) in recognition of a perceived limited need for a Federal role in the management of these airports and the growing local interest, the Secretary of Transportation has recommended a transfer of authority from the Federal to the local/State level that is consistent with the management of major airports elsewhere in the United States;

(8) an operating authority with representation from local jurisdictions, similar to authorities at all major airports in the United States, will improve communications with local officials and concerned residents regarding noise at the Metropolitan Washington Airports;

(9) a commission of congressional, State, and local officials and aviation representatives has recommended to the Secretary that transfer of the federally owned airports be as a unit to an independent authority to be created by Virginia and the District of Columbia; and

(10) the Federal interest in these airports can be provided through a lease mechanism which provides for local control and operation.

(1) The Airports Authority shall operate, maintain, protect, promote, and develop the Metropolitan Washington Airports as a unit and as primary airports serving the Metropolitan Washington area.

(2)(A) In this paragraph, "airport purposes" means a use of property interests (except a sale) for—

(i) aviation business or activities;

(ii) activities necessary or appropriate to serve passengers or cargo in air commerce;

(iii) nonprofit, public use facilities that are not inconsistent with the needs of aviation; or

(iv) a business or activity not inconsistent with the needs of aviation that has been approved by the Secretary.

(B) During the period of the lease, the real property constituting the Metropolitan Washington Airports shall be used only for airport purposes.

(C) If the Secretary decides that any part of the real property leased to the Airports Authority under this chapter is used for other than airport purposes, the Secretary shall—

(i) direct that the Airports Authority take appropriate measures to have that part of the property be used for airport purposes; and

(ii) retake possession of the property if the Airports Authority fails to have that part of the property be used for airport purposes within a reasonable period of time, as the Secretary decides.

(3) The Airports Authority is subject to section 47107(a)–(c) and (e) of this title and to the assurances and conditions required of grant recipients under the Airport and Airway Improvement Act of 1982 (Public Law 97–248; 96 Stat. 671) as in effect on June 7, 1987. Notwithstanding section 47107(b) of this title, all revenues generated by the Metropolitan Washington Airports shall be expended for the capital and operating costs of the Metropolitan Washington Airports.

(4) In acquiring by contract supplies or services for an amount estimated to be more than $200,000, or awarding concession contracts, the Airports Authority to the maximum extent practicable shall obtain complete and open competition through the use of published competitive procedures. By a vote of 7 members, the Airports Authority may grant exceptions to the requirements of this paragraph.

(5)(A) Except as provided in subparagraph (B) of this paragraph, all regulations of the Metropolitan Washington Airports (14 CFR part 159) [1] become regulations of the Airports Authority as of June 7, 1987, and remain in effect until modified or revoked by the Airports Authority under procedures of the Airports Authority.

(B) Sections 159.59(a) and 159.191 of title 14, Code of Federal Regulations,[1] do not become regulations of the Airports Authority.

(C) The Airports Authority may not increase or decrease the number of instrument flight rule takeoffs and landings authorized by the High Density Rule (14 CFR 93.121 et seq.) at Ronald Reagan Washington National Airport on October 18, 1986, and may not impose a limitation on the number of passengers taking off or landing at Ronald Reagan Washington National Airport.

(D) Subparagraph (C) does not apply to any increase in the number of instrument flight rule takeoffs and landings necessary to implement exemptions granted by the Secretary under section 41718.

(6)(A) Except as specified in subparagraph (B) of this paragraph, the Airports Authority shall assume all rights, liabilities, and obligations of the Metropolitan Washington Airports on June 7, 1987, including leases, permits, licenses, contracts, agreements, claims, tariffs, accounts receivable, accounts payable, and litigation related to those rights and obligations, regardless whether judgment has been entered, damages awarded, or appeal taken. The Airports Authority must cooperate in allowing representatives of the Attorney General and the Secretary adequate access to employees and records when needed for the performance of duties and powers related to the period before June 7, 1987. The Airports Authority shall assume responsibility for the Federal Aviation Administration's Master Plans for the Metropolitan Washington Airports.

(B) The procedure for disputes resolution contained in any contract entered into on behalf of the United States Government before June 7, 1987, continues to govern the performance of the contract unless otherwise agreed to by the parties to the contract. Claims for monetary damages founded in tort, by or against the Government as the owner and operator of the Metropolitan Washington Airports, arising before June 7, 1987, shall be adjudicated as if the lease had not been entered into.

An audit shall be conducted where the Comptroller General considers it appropriate. All records and property of the Airports Authority shall remain in possession and custody of the Airports Authority.

(8) The Airports Authority shall develop a code of ethics and financial disclosure to ensure the integrity of all decisions made by its board of directors and employees. The code shall include standards by which members of the board will decide, for purposes of section 49106(d) of this title, what constitutes a substantial financial interest and the circumstances under which an exception to the conflict of interest prohibition may be granted.

(9) A landing fee imposed for operating an aircraft or revenues derived from parking automobiles—

(A) at Washington Dulles International Airport may not be used for maintenance or operating expenses (excluding debt service, depreciation, and amortization) at Ronald Reagan Washington National Airport; and

(B) at Ronald Reagan Washington National Airport may not be used for maintenance or operating expenses (excluding debt service, depreciation, and amortization) at Washington Dulles International Airport.

(10) The Airports Authority shall compute the fees and charges for landing general aviation aircraft at the Metropolitan Washington Airports on the same basis as the landing fees for air carrier aircraft, except that the Airports Authority may require a minimum landing fee that is not more than the landing fee for aircraft weighing 12,500 pounds.

(11) The Secretary shall include other terms applicable to the parties to the lease that are consistent with, and carry out, this chapter.

(b) PAYMENTS.—

(1) IN GENERAL.—Subject to paragraph (2), under the lease, the Airports Authority must pay to the general fund of the Treasury annually an amount, computed using the GNP Price Deflator—

(A) during the period from 1987 to 2026, equal to $3,000,000 in 1987 dollars; and

(B) for 2027 and subsequent years, equal to $15,000,000 in 2027 dollars.

(c) ENFORCEMENT OF LEASE PROVISIONS.—The district courts of the United States have jurisdiction to compel the Airports Authority and its officers and employees to comply with the terms of the lease. The Attorney General or an aggrieved party may bring an action on behalf of the Government.

(1) the Administrator decides, and the Secretary of Commerce and the United States Trade Representative concur, that the public interest requires making the contract with the domestic firm, considering United States international obligations and trade relations;

(2) the difference between the bids submitted by the foreign firm and the domestic firm is not more than 6 percent;

(3) the final product of the domestic firm will be assembled completely in the United States; and

(4) at least 51 percent of the final product of the domestic firm will be produced in the United States.

(c) NONAPPLICATION.—Subsection (b) of this section does not apply if—

(1) compelling national security considerations require that subsection (b) of this section not apply; or

(2) the Trade Representative decides that making the contract would violate the multilateral trade agreements (as defined in section 3501(4) of title 19) or an international agreement to which the United States is a party.

(d) APPLICATION TO CERTAIN GRANTS.—This section applies only to a contract related to a grant made under section 44511, 44512, or 44513 of this title for which—

EXECUTIVE DOCUMENTS

EXPEDITING REVIEW OF PIPELINE PROJECTS FROM CUSHING, OKLAHOMA, TO PORT ARTHUR, TEXAS, AND OTHER DOMESTIC PIPELINE INFRASTRUCTURE PROJECTS

Memorandum of President of the United States, Mar. 22, 2012, 77 F.R. 18891, provided:

Memorandum for the Heads of Executive Departments and Agencies

In an economy that relies on oil, rising prices at the pump affect all of us. With crude oil prices controlling about three-quarters of gasoline prices, the most important driver of the price here at home is the world oil price—making our economy vulnerable to events halfway around the globe. There are no quick fixes to this problem. In the long run we need to reduce America's dependence on oil—which is why my Administration is implementing historic fuel economy standards for cars and trucks, launching new programs to improve energy efficiency in our buildings, and facilitating the safe and responsible development of our natural gas resources.

But for the foreseeable future, we will continue to rely on oil to help fuel our transportation system. As a result, we must safely and responsibly develop our oil resources here at home, as part of an all-of-the-above energy strategy to grow our economy and make us more secure.

Because of rising oil production, more efficient cars and trucks, and a world-class refining sector that last

year was a net exporter of petroleum products for the first time in 60 years, we have cut net imports by a million barrels a day in the last year alone. By reducing our dependence on foreign oil, we will make our Nation more secure and improve our trade balance—creating jobs and supporting domestic industry.

In order to realize these potential benefits, we need an energy infrastructure system that can keep pace with advances in production. To promote American energy sources, we must not only extract oil—we must also be able to transport it to our world-class refineries, and ultimately to consumers.

The need for infrastructure is particularly acute right now. Because of advances in drilling technology that allow us to tap new oil deposits, we are producing more oil from unconventional sources—places like the Eagle Ford Shale in South Texas, where production grew by more than 200 percent last year, or the Bakken formation of North Dakota and Montana, where output has increased tenfold in the last 5 years alone. In States like North Dakota, Montana, and Colorado, rising production is outpacing the capacity of pipelines to deliver the oil to refineries.

Cushing, Oklahoma, is a prime example. There, in part due to rising domestic production, more oil is flowing in than can flow out, creating a bottleneck that is dampening incentives for new production while restricting oil from reaching state-of-the-art refineries on the Gulf Coast. Moving forward on a pipeline from Cushing to Port Arthur, Texas, could create jobs, promote American energy production, and ultimately benefit consumers.

Although expanding and modernizing our Nation's pipeline infrastructure will not lower prices right away, it is a vital part of a sustained strategy to continue to reduce our reliance on foreign oil and enhance our Nation's energy security. Therefore, as part of my Administration's broader efforts to improve the performance of Federal permitting and review processes, we must make pipeline infrastructure a priority, ensuring the health, safety, and security of communities and the environment while supporting projects that can contribute to economic growth and a secure energy future. In doing so, the Federal Government must work in partnership with State, local, and tribal governments, which play a central role in the siting and permitting of pipelines; and, we must protect our natural resources and address the concerns of local communities.

SECTION 1. *Expedited Review of Pipeline Projects from Cushing to Port Arthur and Other Domestic Pipeline Infrastructure Projects*. (a) To address the existing bottleneck in Cushing, as well as other current or anticipated bottlenecks, agencies shall, to the maximum extent practicable and consistent with available resources and applicable laws (including those relating to public safety, public health, and environmental protection), coordinate and expedite their reviews, consultations, and other processes as necessary to expedite decisions related to domestic pipeline infrastructure projects that would contribute to a more efficient domestic pipeline system for the transportation of crude oil, such as a pipeline from Cushing to Port Arthur. This subsection shall be implemented consistent with my Executive Order of March 22, 2012 (Improving Performance of Federal Permitting and Review of Infrastructure Projects), and applicable projects shall have their status tracked on the online Federal Infrastructure Projects Dashboard referenced therein.

(b) In expediting reviews pursuant to subsection (a) of this section, agencies shall, to the maximum extent practicable and consistent with applicable law, utilize and incorporate information from prior environmental reviews and studies conducted in connection with previous applications for similar or overlapping infrastructure projects so as to avoid duplicating effort.

SEC. 2. *General Provisions*. (a) Nothing in this memorandum shall be construed to impair or otherwise affect:

(i) the authority granted by law to a department or agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget related to budgetary, administrative, or legislative proposals.

(b) This memorandum shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This memorandum is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

(d) The Director of the Office of Management and Budget is hereby authorized and directed to publish this memorandum in the Federal Register.

BARACK OBAMA.

(iii) storage or in-plant piping systems associated with onshore production, refining, or manufacturing facilities;

(23) "risk management" means the systematic application, by the owner or operator of a pipeline facility, of management policies, procedures, finite resources, and practices to the tasks of identifying, analyzing, assessing, reducing, and controlling risk in order to protect employees, the general public, the environment, and pipeline facilities;
(24) "risk management plan" means a management plan utilized by a gas or hazardous liquid pipeline facility owner or operator that encompasses risk management;
(25) "Secretary" means the Secretary of Transportation; and

(b) GATHERING LINES.—(1)(A) Not later than October 24, 1994, the Secretary shall prescribe standards defining the term "gathering line".
(B) In defining "gathering line" for gas, the Secretary—
(i) shall consider functional and operational characteristics of the lines to be included in the definition; and
(ii) is not bound by a classification the Commission establishes under the Natural Gas Act (15 U.S.C. 717 et seq.).

(2)(A) Not later than October 24, 1995, the Secretary, if appropriate, shall prescribe standards defining the term "regulated gathering line". In defining the term, the Secretary shall consider factors such as location, length of line from the well site, operating pressure, throughput, and the composition of the transported gas or hazardous liquid, as appropriate, in deciding on the types of lines that functionally are gathering but should be regulated under this chapter because of specific physical characteristics.

(B)(i) The Secretary also shall consider diameter when defining "regulated gathering line" for hazardous liquid.

(ii) The definition of "regulated gathering line" for hazardous liquid may not include a crude oil gathering line that has a nominal diameter of not more than 6 inches, is operated at low pressure, and is located in a rural area that is not unusually sensitive to environmental damage.

In this chapter, the words "liquefied natural gas" are substituted for "LNG" for clarity. The word "authority" is substituted for "agency" for consistency in the revised title and with other titles of the United States Code. The words "gas" and "hazardous liquid" are added where applicable because of the restatement.

In subsection (a), before clause (1), the text of 49 App.:1671(10) and 2001(11) is omitted because the complete name of the Secretary of Transportation is used the first time the term appears in a section. The words "As used" are omitted as surplus. In clause (1)(A), the words "Federal Energy Regulatory Commission" and "Commission" are substituted for "Department of Energy" because under 42:7171(a) and 7172(a)(1) the Commission is statutorily independent of the Department and has the responsibility for siting, construction, and operating applications. In clauses (3) and (5), the words "without limitation, new and existing" are omitted as surplus. In clause (4)(B), the words "or material" are omitted as surplus. In clause (6), before subclause (A), the word "pipeline" is substituted for "transmission" for clarity and consistency. In clause (8)(A), before subclause (i), the words "trade, traffic, transportation, exchange, or other" are omitted as surplus. In subclause (ii), the words "trade, transportation, exchange, or other" are omitted as surplus. In clause (8)(B), the word "place" is substituted for "point" for clarity and consistency in the revised title. In clause (9), before subclause (A), the word "facility" is substituted for "transportation" for clarity and consistency. In clause (12), the words "resulting from" and the text of 49 App.:1671(16)(A)–(D) are omitted as surplus. In clause (13), the words "(liquefaction or solidification)" and "(vaporization)" are omitted as surplus. In clauses (14) and (16), the word "pipeline" is added for clarity. In clause (15), the words "city, county, or any other" are omitted as surplus. In clause (17), the words "in addition to its meaning under section 1 of title 1 (except as to societies)" are substituted for "any individual, firm, joint venture, partnership, corporation, association . . . cooperative association, or joint stock association" to eliminate unnecessary words, for clarity, and for consistency in the revised title and with other titles of the Code. Clauses (18) and (19) are added because of the restatement. In clause (20), the words "of the United States" are substituted for "of the several" for consistency in the revised title and with other titles of the Code. In clause (21)(B), the words "outside a populated area" are substituted for "which lie outside the limits of any incorporated or unincorporated city, town, village, or any other

designated residential or commercial area such as a subdivision, a business or shopping center, a community development, or any similar populated area" to eliminate unnecessary words. In clause (22)(B)(i), the word "area" is substituted for "locations" for consistency.

§60102. Purpose and general authority

(a) PURPOSE AND MINIMUM SAFETY STANDARDS.—

(1) PURPOSE.—The purpose of this chapter is to provide adequate protection against risks to life and property posed by pipeline transportation and pipeline facilities by improving the regulatory and enforcement authority of the Secretary of Transportation.

(2) MINIMUM SAFETY STANDARDS.—The Secretary shall prescribe minimum safety standards for pipeline transportation and for pipeline facilities. The standards—

(A) apply to any or all of the owners or operators of pipeline facilities;

(B) may apply to the design, installation, inspection, emergency plans and procedures, testing, construction, extension, operation, replacement, and maintenance of pipeline facilities; and

(C) shall include a requirement that all individuals who operate and maintain pipeline facilities shall be qualified to operate and maintain the pipeline facilities.

(3) QUALIFICATIONS OF PIPELINE OPERATORS.—The qualifications applicable to an individual who operates and maintains a pipeline facility shall address the ability to recognize and react appropriately to abnormal operating conditions that may indicate a dangerous situation or a condition exceeding design limits. The operator of a pipeline facility shall ensure that employees who operate and maintain the facility are qualified to operate and maintain the pipeline facilities.

(b) PRACTICABILITY AND SAFETY NEEDS STANDARDS.—

(1) IN GENERAL.—A standard prescribed under subsection (a) shall be—

(A) practicable; and

(B) designed to meet the need for—

(i) gas pipeline safety, or safely transporting hazardous liquids, as appropriate; and

(ii) protecting the environment.

(2) FACTORS FOR CONSIDERATION.—When prescribing any standard under this section or section 60101(b), 60103, 60108, 60109, 60110, or 60113, the Secretary shall consider—

(A) relevant available—

(i) gas pipeline safety information;

(ii) hazardous liquid pipeline safety information; and

(iii) environmental information;

(B) the appropriateness of the standard for the particular type of pipeline transportation or facility;

(C) the reasonableness of the standard;

(D) based on a risk assessment, the reasonably identifiable or estimated benefits expected to result from implementation or compliance with the standard;

(E) based on a risk assessment, the reasonably identifiable or estimated costs expected to result from implementation or compliance with the standard;

(F) comments and information received from the public; and

(G) the comments and recommendations of the Technical Pipeline Safety Standards Committee, the Technical Hazardous Liquid Pipeline Safety Standards Committee, or both, as appropriate.

(3) RISK ASSESSMENT.—In conducting a risk assessment referred to in subparagraphs (D) and (E) of paragraph (2), the Secretary shall—

(A) identify the regulatory and nonregulatory options that the Secretary considered in prescribing a proposed standard;

(B) identify the costs and benefits associated with the proposed standard;

(C) include—

(i) an explanation of the reasons for the selection of the proposed standard in lieu of the other options identified; and

(ii) with respect to each of those other options, a brief explanation of the reasons that the Secretary did not select the option; and

(D) identify technical data or other information upon which the risk assessment information and proposed standard is based.

(4) REVIEW.—

(A) IN GENERAL.—The Secretary shall—

(i) submit any risk assessment information prepared under paragraph (3) of this subsection to the Technical Pipeline Safety Standards Committee, the Technical Hazardous Liquid Pipeline Safety Standards Committee, or both, as appropriate; and

(ii) make that risk assessment information available to the general public.

(B) PEER REVIEW PANELS.—The committees referred to in subparagraph (A) shall serve as peer review panels to review risk assessment information prepared under this section. Not later than 90 days after receiving risk assessment information for review pursuant to subparagraph (A), each committee that receives that risk assessment information shall prepare and submit to the Secretary a report that includes—

(i) an evaluation of the merit of the data and methods used; and

(ii) any recommended options relating to that risk assessment information and the associated standard that the committee determines to be appropriate.

(C) REVIEW BY SECRETARY.—Not later than 90 days after receiving a report submitted by a committee under subparagraph (B), the Secretary—

(i) shall review the report;

(ii) shall provide a written response to the committee that is the author of the report concerning all significant peer review comments and recommended alternatives contained in the report; and

(iii) may revise the risk assessment and the proposed standard before promulgating the final standard.

(5) SECRETARIAL DECISIONMAKING.—Except where otherwise required by statute, the Secretary shall propose or issue a standard under this chapter only upon a reasoned determination that the benefits, including safety and environmental benefits, of the intended standard justify its costs.

(6) EXCEPTIONS FROM APPLICATION.—The requirements of subparagraphs (D) and (E) of paragraph (2) do not apply when—

(A) the standard is the product of a negotiated rulemaking, or other rulemaking including the adoption of industry standards that receives no significant adverse comment within 60 days of notice in the Federal Register;

(B) based on a recommendation (in which three-fourths of the members voting concur) by the Technical Pipeline Safety Standards Committee, the Technical Hazardous Liquid Pipeline Safety Standards Committee, or both, as applicable, the Secretary waives the requirements; or

(C) the Secretary finds, pursuant to section 553(b)(3)(B) of title 5, United States Code, that notice and public procedure are not required.

(7) REPORT.—Not later than March 31, 2000, the Secretary shall transmit to the Congress a report that—

(A) describes the implementation of the risk assessment requirements of this section, including the extent to which those requirements have affected regulatory decisionmaking and pipeline safety; and

(B) includes any recommendations that the Secretary determines would make the risk assessment process conducted pursuant to the requirements under this chapter a more effective means of assessing the benefits and costs associated with alternative regulatory and nonregulatory options in prescribing standards under the Federal pipeline safety regulatory program under this chapter.

(c) PUBLIC SAFETY PROGRAM REQUIREMENTS.—(1) The Secretary shall include in the standards prescribed under subsection (a) of this section a requirement that an operator of a gas pipeline facility participate in a public safety program that—

(A) notifies an operator of proposed demolition, excavation, tunneling, or construction near or affecting the facility;

(B) requires an operator to identify a pipeline facility that may be affected by the proposed demolition, excavation, tunneling, or construction, to prevent damaging the facility; and

(C) the Secretary decides will protect a facility adequately against a hazard caused by demolition, excavation, tunneling, or construction.

(2) To the extent a public safety program referred to in paragraph (1) of this subsection is not available, the Secretary shall prescribe standards requiring an operator to take action the Secretary prescribes to provide services comparable to services that would be available under a public safety program.

(3) The Secretary may include in the standards prescribed under subsection (a) of this section a requirement that an operator of a hazardous liquid pipeline facility participate in a public safety program meeting the requirements of paragraph (1) of this subsection or maintain and carry out a damage prevention program that provides services comparable to services that would be available under a public safety program.

(4) PROMOTING PUBLIC AWARENESS.—

(A) Not later than one year after the date of enactment of the Accountable Pipeline Safety and Accountability Act of 1996,[1] and annually thereafter, the owner or operator of each interstate gas pipeline facility shall provide to the governing body of each municipality in which the interstate gas pipeline facility is located, a map identifying the location of such facility.

(B)(i) Not later than June 1, 1998, the Secretary shall survey and assess the public education programs under section 60116 and the public safety programs under section 60102(c) and determine their effectiveness and applicability as components of a model program. In particular, the survey shall include the methods by which operators notify residents of the location of the facility and its right of way, public information regarding existing One-Call programs, and appropriate procedures to be followed by residents of affected municipalities in the event of accidents involving interstate gas pipeline facilities.

(ii) Not later than one year after the survey and assessment are completed, the Secretary shall institute a rulemaking to determine the most effective public safety and education program components and promulgate if appropriate, standards implementing those components on a nationwide basis. In the event that the Secretary finds that promulgation of such standards are not appropriate, the Secretary shall report to Congress the reasons for that finding.

(d) FACILITY OPERATION INFORMATION STANDARDS.—The Secretary shall prescribe minimum standards requiring an operator of a pipeline facility subject to this chapter to maintain, to the extent practicable, information related to operating the facility as required by the standards prescribed under this chapter and, when requested, to make the information available to the Secretary and an appropriate State official as determined by the Secretary. The information shall include—

(1) the business name, address, and telephone number, including an operations emergency telephone number, of the operator;

(2) accurate maps and a supplementary geographic description, including an identification of areas described in regulations prescribed under section 60109 of this title, that show the location in the State of—

(A) major gas pipeline facilities of the operator, including transmission lines and significant distribution lines; and

(6) other information the Secretary considers useful to inform a State of the presence of pipeline facilities and operations in the State.

(e) PIPE INVENTORY STANDARDS.—The Secretary shall prescribe minimum standards requiring an operator of a pipeline facility subject to this chapter to maintain for the Secretary, to the extent practicable, an inventory with appropriate information about the types of pipe used for the transportation of gas or hazardous liquid, as appropriate, in the operator's system and additional information, including the material's history and the leak history of the pipe. The inventory—

(1) for a gas pipeline facility, shall include an identification of each facility passing through an area described in regulations prescribed under section 60109 of this title but shall exclude equipment used with the compression of gas; and

(2) for a hazardous liquid pipeline facility, shall include an identification of each facility and gathering line passing through an area described in regulations prescribed under section 60109 of this title, whether the facility or gathering line otherwise is subject to this chapter, but shall exclude equipment associated only with the pipeline pumps or storage facilities.

(f) STANDARDS AS ACCOMMODATING "SMART PIGS".—

(1) MINIMUM SAFETY STANDARDS.—The Secretary shall prescribe minimum safety standards requiring that—

(A) the design and construction of new natural gas transmission pipeline or hazardous liquid pipeline facilities, and

(B) when the replacement of existing natural gas transmission pipeline or hazardous liquid pipeline facilities or equipment is required, the replacement of such existing facilities be carried out, to the extent practicable, in a manner so as to accommodate the passage through such natural gas transmission pipeline or hazardous liquid pipeline facilities of instrumented internal inspection devices (commonly referred to as "smart pigs"). The Secretary may extend such standards to require existing natural gas transmission pipeline or hazardous liquid pipeline facilities, whose basic construction would accommodate an instrumented internal inspection device to be modified to permit the inspection of such facilities with instrumented internal inspection devices.

(2) PERIODIC INSPECTIONS.—Not later than October 24, 1995, the Secretary shall prescribe, if necessary, additional standards requiring the periodic inspection of each pipeline the operator of the pipeline identifies under section 60109 of this title. The standards shall include any circumstances under which an inspection shall be conducted with an instrumented internal inspection device and, if the device is not required, use of an inspection method that is at least as effective as using the device in providing for the safety of the pipeline.

(g) EFFECTIVE DATES.—A standard prescribed under this section and section 60110 of this title is effective on the 30th day after the Secretary prescribes the standard. However, the Secretary for good cause may prescribe a different effective date when required because of the time reasonably necessary to comply with the standard. The different date must be specified in the regulation prescribing the standard.

(h) SAFETY CONDITION REPORTS.—(1) The Secretary shall prescribe regulations requiring each operator of a pipeline facility (except a master meter) to submit to the Secretary a written report on any—

(A) condition that is a hazard to life, property, or the environment; and

(B) safety-related condition that causes or has caused a significant change or restriction in the operation of a pipeline facility.

(2) SUBMISSION OF REPORT.—As soon as practicable, but not later than 5 business days, after a representative of a person to whom this section applies first establishes that a condition described in paragraph (1) exists, the operator shall submit the report required under that paragraph to—

(A) the Secretary;

(B) the appropriate State authority or, where no appropriate State authority exists, to the Governor of a State where the subject of the Safety Related Condition report occurred; and

(C) the appropriate Tribe where the subject of the Safety Related Condition report occurred.

(3) SUBMISSION OF REPORT TO OTHER ENTITIES.—Upon request, a State authority or a Governor that receives a report submitted under this subsection may submit the report to any relevant emergency response or planning entity, including any—

(A) State emergency response commission established pursuant to section 301 of the Emergency Planning and Community Right-To-Know Act of 1986 (42 U.S.C. 11001);

(B) Tribal emergency response commission or emergency planning committee (as defined in part 355 of title 40, Code of Federal Regulations (or a successor regulation));

(2) TRANSPORTATION IN GASEOUS STATE.—

(A) MINIMUM SAFETY STANDARDS.—The Secretary shall prescribe minimum safety standards for the transportation of carbon dioxide by pipeline in a gaseous state.

(B) CONSIDERATIONS.—In establishing the standards, the Secretary shall consider whether applying the minimum safety standards in part 195 of title 49, Code of Federal Regulations, as in effect on the date of enactment of this paragraph, for the transportation of carbon dioxide in a liquid state to the transportation of carbon dioxide in a gaseous state would ensure safety.

(3) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this subsection authorizes the Secretary to regulate piping or equipment used in the production, extraction, recovery, lifting, stabilization, separation, or treatment of carbon dioxide or the preparation of carbon dioxide for transportation by pipeline at production, refining, or manufacturing facilities.

(j) EMERGENCY FLOW RESTRICTING DEVICES.—(1) Not later than October 24, 1994, the Secretary shall survey and assess the effectiveness of emergency flow restricting devices (including remotely controlled valves and check valves) and other procedures, systems, and equipment used to detect and locate hazardous liquid pipeline ruptures and minimize product releases from hazardous liquid pipeline facilities.

(2) Not later than 2 years after the survey and assessment are completed, the Secretary shall prescribe standards on the circumstances under which an operator of a hazardous liquid pipeline facility must use an emergency flow restricting device or other procedure, system, or equipment described in paragraph (1) of this subsection on the facility.

(k) LOW-STRESS HAZARDOUS LIQUID PIPELINES.—

(1) MINIMUM STANDARDS.—Not later than December 31, 2007, the Secretary shall issue regulations subjecting low-stress hazardous liquid pipelines to the same standards and regulations as other hazardous liquid pipelines, except as provided in paragraph (3). The implementation of the applicable standards and regulatory requirements may be phased in. The regulations issued under this paragraph shall not apply to gathering lines.

(2) GENERAL PROHIBITION AGAINST LOW INTERNAL STRESS EXCEPTION .—Except as provided in paragraph (3), the Secretary may not provide an exception to the requirements of this chapter for a hazardous liquid pipeline because the pipeline operates at low internal stress.

(3) LIMITED EXCEPTIONS.—The Secretary shall provide or continue in force exceptions to this subsection for low-stress hazardous liquid pipelines that—

(A) are subject to safety regulations of the United States Coast Guard; or

(B) serve refining, manufacturing, or truck, rail, or vessel terminal facilities if the pipeline is less than 1 mile long (measured outside the facility grounds) and does not cross an offshore area or a waterway currently used for commercial navigation,

until regulations issued under paragraph (1) become effective. After such regulations become effective, the Secretary may retain or remove those exceptions as appropriate.

(4) RELATIONSHIP TO OTHER LAWS.—Nothing in this subsection shall be construed to prohibit or otherwise affect the applicability of any other statutory or regulatory exemption to any hazardous liquid pipeline.

(5) DEFINITION.—For purposes of this subsection, the term "low-stress hazardous liquid pipeline" means a hazardous liquid pipeline that is operated in its entirety at a stress level of 20 percent or less of the specified minimum yield strength of the line pipe.

(6) EFFECTIVE DATE.—The requirements of this subsection shall not take effect as to low-stress hazardous liquid pipeline operators before the effective date of the rules promulgated by the Secretary under this subsection.

(l) UPDATING STANDARDS.—The Secretary shall, to the extent appropriate and practicable, update incorporated industry standards that have been adopted as part of the Federal pipeline safety

regulatory program under this chapter.

(m) INSPECTIONS BY DIRECT ASSESSMENT.—Not later than 1 year after the date of the enactment of this subsection, the Secretary shall issue regulations prescribing standards for inspection of a pipeline facility by direct assessment.

(n) AUTOMATIC AND REMOTE-CONTROLLED SHUT-OFF VALVES FOR NEW TRANSMISSION PIPELINES.—

(1) IN GENERAL.—Not later than 2 years after the date of enactment of this subsection, and after considering the factors specified in subsection (b)(2), the Secretary, if appropriate, shall require by regulation the use of automatic or remote-controlled shut-off valves, or equivalent technology, where economically, technically, and operationally feasible on transmission pipeline facilities constructed or entirely replaced after the date on which the Secretary issues the final rule containing such requirement.

(2) HIGH-CONSEQUENCE AREA STUDY.—

(A) STUDY.—The Comptroller General of the United States shall conduct a study on the ability of transmission pipeline facility operators to respond to a hazardous liquid or gas release from a pipeline segment located in a high-consequence area.

(B) CONSIDERATIONS.—In conducting the study, the Comptroller General shall consider the swiftness of leak detection and pipeline shutdown capabilities, the location of the nearest response personnel, and the costs, risks, and benefits of installing automatic and remote-controlled shut-off valves.

(C) REPORT.—Not later than 1 year after the date of enactment of this subsection, the Comptroller General shall submit to the Committee on Transportation and Infrastructure and the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report on the results of the study.

(o) TRANSPORTATION-RELATED OIL FLOW LINES.—

(1) DATA COLLECTION.—The Secretary may collect geospatial or technical data on transportation-related oil flow lines, including unregulated transportation-related oil flow lines.

(2) TRANSPORTATION-RELATED OIL FLOW LINE DEFINED.—In this subsection, the term "transportation-related oil flow line" means a pipeline transporting oil off of the grounds of the well where it originated and across areas not owned by the producer, regardless of the extent to which the oil has been processed, if at all.

(3) LIMITATION.—Nothing in this subsection authorizes the Secretary to prescribe standards for the movement of oil through production, refining, or manufacturing facilities or through oil production flow lines located on the grounds of wells.

(p) LIMITATION ON INCORPORATION OF DOCUMENTS BY REFERENCE.—Beginning 3 years after the date of enactment of this subsection, the Secretary may not issue a regulation pursuant to this chapter that incorporates by reference any documents or portions thereof unless the documents or portions thereof are made available to the public, free of charge.

(q) GAS PIPELINE LEAK DETECTION AND REPAIR.—

(1) IN GENERAL.—Not later than 1 year after the date of enactment of this subsection, the Secretary shall promulgate final regulations that require operators of regulated gathering lines (as defined pursuant to subsection (b) of section 60101 for purposes of subsection (a)(21) of that section) in a Class 2 location, Class 3 location, or Class 4 location, as determined under section 192.5 of title 49, Code of Federal Regulations, operators of new and existing gas transmission pipeline facilities, and operators of new and existing gas distribution pipeline facilities to conduct leak detection and repair programs—

(ii) may not extend the duration of any timelines for the repair or remediation of leaks that are stipulated by regulation as of the date of enactment of this subsection.

(B) APPLICATION.—The limitations in this paragraph do not restrict the Secretary's ability

to modify any regulations through proceedings separate from or subsequent to the final regulations required under paragraph (1).

(C) EXISTING AUTHORITY.—Nothing in this subsection may be construed to alter the authority of the Secretary to regulate gathering lines as defined pursuant to section 60101.

(r) EMERGENCY RESPONSE PLANS.—Not later than 2 years after the date of enactment of this subsection, the Secretary shall update regulations to ensure that each emergency response plan developed by an operator of a distribution system under subsection (d)(5), includes written procedures for—

(1) establishing communication with first responders and other relevant public officials, as soon as practicable, beginning from the time of confirmed discovery, as determined by the Secretary, by the operator of a gas pipeline emergency involving a release of gas from a distribution system of that operator that results in—

(A) a fire related to an unintended release of gas;

(B) an explosion;

(C) 1 or more fatalities; or

(D) the unscheduled release of gas and shutdown of gas service to a significant number of customers, as determined by the Secretary;

(2) establishing general public communication through an appropriate channel—

(1) RECORDS.—Not later than 2 years after the date of enactment of this subsection, the Secretary shall promulgate regulations to require an operator of a distribution system—

(A) to identify and manage traceable, reliable, and complete records, including maps and other drawings, critical to ensuring proper pressure controls for a gas distribution system, and updating these records as needed, while collecting and identifying other records necessary for risk analysis on an opportunistic basis; and

(B) to ensure that the records required under subparagraph (A) are—

(i) accessible to all personnel responsible for performing or overseeing relevant construction or engineering work; and

(ii) submitted to, or made available for inspection by, the Secretary or the relevant State authority with a certification in effect under section 60105.

(2) PRESENCE OF QUALIFIED EMPLOYEES.—

(A) IN GENERAL.—Not later than 180 days after the date of enactment of this subsection, the Secretary shall promulgate regulations to require that not less than 1 agent of an operator of a distribution system who is qualified to perform relevant covered tasks, as determined by the Secretary, shall monitor gas pressure at the district regulator station or at an alternative site with equipment capable of ensuring proper pressure controls and have the capability to promptly shut down the flow of gas or control over pressurization at a district regulator station during any construction project that has the potential to cause a hazardous overpressurization at that station, including tie-ins and abandonment of distribution lines and mains, based on an evaluation, conducted by the operator, of threats that could result in unsafe operation.

(B) EXCLUSION.—In promulgating regulations under subparagraph (A), the Secretary shall ensure that those regulations do not apply to a district regulating station that has a monitoring system and the capability for remote or automatic shutoff.

(3) DISTRICT REGULATOR STATIONS.—

(A) IN GENERAL.—Not later than 1 year after the date of enactment of this subsection, the Secretary shall promulgate regulations to require that each operator of a distribution system assesses and upgrades, as appropriate, each district regulator station of the operator to ensure that—

(i) the risk of the gas pressure in the distribution system exceeding, by a common mode of failure, the maximum allowable operating pressure (as described in section 192.623 of title 49, Code of Federal Regulations (or a successor regulation)) allowed under Federal law (including regulations) is minimized;

(ii) the gas pressure of a low-pressure distribution system is monitored, particularly at or near the location of critical pressure-control equipment;

(iii) the regulator station has secondary or backup pressure-relieving or overpressure-protection safety technology, such as a relief valve or automatic shutoff valve, or other pressure-limiting devices appropriate for the configuration and siting of the station and, in the case of a regulator station that employs the primary and monitor regulator design, the operator shall eliminate the common mode of failure or provide backup protection capable of either shutting the flow of gas, relieving gas to the atmosphere to fully protect the distribution system from overpressurization events, or there must be technology in place to eliminate a common mode of failure; and

(iv) if the Secretary determines that it is not operationally possible for an operator to implement the requirements under clause (iii), the Secretary shall require such operator to identify actions in their plan that minimize the risk of an overpressurization event.

Prior to amendment, text read as follows: "A standard prescribed under subsection (a) of this section shall be practicable and designed to meet the need for gas pipeline safety, for safely transporting hazardous liquid, and for protecting the environment. Except as provided in section 60103 of this title, when prescribing the standard the Secretary shall consider—

"(1) relevant available—

"(A) gas pipeline safety information; or

"(B) hazardous liquid pipeline information;

"(2) the appropriateness of the standard for the particular type of pipeline transportation or facility;

(1) which read as follows: "The Secretary shall prescribe minimum safety standards requiring that the design and construction of a new gas pipeline transmission facility or hazardous liquid pipeline facility, and the required replacement of an existing gas pipeline transmission facility, hazardous liquid pipeline facility, or equipment, be carried out, to the extent practicable, in a way that accommodates the passage through the facility of an instrumented internal inspection device (commonly referred to as a 'smart pig'). The Secretary may apply the standard to an existing gas or hazardous liquid transmission facility and require the facility to be changed to allow the facility to be inspected with an instrumented internal inspection device if the basic construction of the facility will accommodate the device."

Subsec. (f)(2). Pub. L. 104–304, §§4(e)(2), 20(g), inserted heading, realigned margins, inserted ", if necessary, additional" after "the Secretary shall prescribe", and substituted "standards" for "regulations" in two places.

§60103. Standards for liquefied natural gas pipeline facilities

(a) LOCATION STANDARDS.—The Secretary of Transportation shall prescribe minimum safety standards for deciding on the location of a new liquefied natural gas pipeline facility. In prescribing a standard, the Secretary shall consider the—

(1) kind and use of the facility;

(2) existing and projected population and demographic characteristics of the location;
(3) existing and proposed land use near the location;
(4) natural physical aspects of the location;
(5) medical, law enforcement, and fire prevention capabilities near the location that can cope with a risk caused by the facility;
(6) need to encourage remote siting; and
(7) national security.

(b) DESIGN, INSTALLATION, CONSTRUCTION, INSPECTION, AND TESTING STANDARDS.—The Secretary of Transportation shall prescribe minimum safety standards for designing, installing, constructing, initially inspecting, and initially testing a new liquefied natural gas pipeline facility. When prescribing a standard, the Secretary shall consider—
(1) the characteristics of material to be used in constructing the facility and of alternative material;
(2) design factors;
(3) the characteristics of the liquefied natural gas to be stored or converted at, or transported by, the facility; and
(4) the public safety factors of the design and of alternative designs, particularly the ability to prevent and contain a liquefied natural gas spill.

(c) NONAPPLICATION.—(1) Except as provided in paragraph (2) of this subsection, a design, location, installation, construction, initial inspection, or initial testing standard prescribed under this chapter after March 1, 1978, does not apply to an existing liquefied natural gas pipeline facility if the standard is to be applied because of authority given—
(A) under this chapter; or
(B) under another law, and the standard is not prescribed at the time the authority is applied.

(2)(A) Any design, installation, construction, initial inspection, or initial testing standard prescribed under this chapter after March 1, 1978, may provide that the standard applies to any part of a replacement component of a liquefied natural gas pipeline facility if the component or part is placed in service after the standard is prescribed and application of the standard—
(i) does not make the component or part incompatible with other components or parts; or
(ii) is not impracticable otherwise.

(B) Any location standard prescribed under this chapter after March 1, 1978, does not apply to any part of a replacement component of an existing liquefied natural gas pipeline facility.
(3) A design, installation, construction, initial inspection, or initial testing standard does not apply to a liquefied natural gas pipeline facility existing when the standard is adopted.
(d) OPERATION AND MAINTENANCE STANDARDS.—The Secretary of Transportation shall prescribe minimum operating and maintenance standards for a liquefied natural gas pipeline facility. In prescribing a standard, the Secretary shall consider—
(1) the conditions, features, and type of equipment and structures that make up or are used in connection with the facility;
(2) the fire prevention and containment equipment at the facility;
(3) security measures to prevent an intentional act that could cause a liquefied natural gas accident;
(4) maintenance procedures and equipment;
(5) the training of personnel in matters specified by this subsection; and
(6) other factors and conditions related to the safe handling of liquefied natural gas.

(e) EFFECTIVE DATES.—A standard prescribed under this section is effective on the 30th day after the Secretary of Transportation prescribes the standard. However, the Secretary for good cause may prescribe a different effective date when required because of the time reasonably necessary to

comply with the standard. The different date must be specified in the regulation prescribing the standard.

(f) CONTINGENCY PLANS.—A new liquefied natural gas pipeline facility may be operated only after the operator submits an adequate contingency plan that states the action to be taken if a liquefied natural gas accident occurs. The Secretary of Energy or appropriate State or local authority shall decide if the plan is adequate.

(g) EFFECT ON OTHER STANDARDS.—This section does not preclude applying a standard prescribed under section 60102 of this title to a gas pipeline facility (except a liquefied natural gas pipeline facility) associated with a liquefied natural gas pipeline facility.

EDITORIAL NOTES

AMENDMENTS

2002—Subsec. (c). Pub. L. 107–355 inserted at end "Notwithstanding the preceding sentence, a State authority may enforce a requirement of a one-call notification program of the State if the program meets the requirements for one-call notification programs under this chapter or chapter 61."

§60105. State pipeline safety program certifications

(a) GENERAL REQUIREMENTS AND SUBMISSION.—Except as provided in this section and sections 60114 and 60121 of this title, the Secretary of Transportation may not prescribe or enforce safety standards and practices for an intrastate pipeline facility or intrastate pipeline transportation to the extent that the safety standards and practices are regulated by a State authority (including a municipality if the standards and practices apply to intrastate gas pipeline transportation) that submits to the Secretary annually a certification for the facilities and transportation that complies with subsections (b) and (c) of this section.

(b) CONTENTS.—Each certification submitted under subsection (a) of this section shall state that

the State authority—

(1) has regulatory jurisdiction over the standards and practices to which the certification applies;

(2) has adopted, by the date of certification, each applicable standard prescribed under this chapter or, if a standard under this chapter was prescribed not later than 120 days before certification, is taking steps to adopt that standard;

(3) is enforcing each adopted standard through ways that include inspections conducted by State employees meeting the qualifications the Secretary prescribes under section 60107(d)(1)(C) of this title;

(4) is encouraging and promoting the establishment of a program designed to prevent damage by demolition, excavation, tunneling, or construction activity to the pipeline facilities to which the certification applies that subjects persons who violate the applicable requirements of that program to civil penalties and other enforcement actions that are substantially the same as are provided under this chapter, and addresses the elements in section 60134(b);

(5) may require record maintenance, reporting, and inspection substantially the same as provided under section 60117 of this title;

(6) may require that plans for inspection and maintenance under section 60108 (a) and (b) of this title be filed for approval;

(7) may enforce safety standards of the authority under a law of the State by injunctive relief and civil penalties substantially the same as provided under sections 60120 and 60122(a)(1) and (b)–(f) of this title;

(8) has the capability to sufficiently review and evaluate the adequacy of the plans and manuals described in section 60109(e)(7)(C)(i); and

(9) has a sufficient number of employees described in paragraph (3) to ensure safe operations of pipeline facilities, updating the State Inspection Calculation Tool to take into account factors including—

(A) the number of miles of natural gas and hazardous liquid pipelines in the State, including the number of miles of cast iron and bare steel pipelines;

(B) the number of services in the State;

(C) the age of the gas distribution system in the State; and

(D) environmental factors that could impact the integrity of the pipeline, including relevant geological issues.

(c) REPORTS.—(1) Each certification submitted under subsection (a) of this section shall include a report that contains—

(A) the name and address of each person to whom the certification applies that is subject to the safety jurisdiction of the State authority;

(B) each accident or incident reported during the prior 12 months by that person involving a fatality, personal injury requiring hospitalization, or property damage or loss of more than an amount the Secretary establishes (even if the person sustaining the fatality, personal injury, or property damage or loss is not subject to the safety jurisdiction of the authority), any other accident the authority considers significant, and a summary of the investigation by the authority of the cause and circumstances surrounding the accident or incident;

(C) the record maintenance, reporting, and inspection practices conducted by the authority to enforce compliance with safety standards prescribed under this chapter to which the certification applies, including the number of inspections of pipeline facilities the authority made during the prior 12 months; and

(D) any other information the Secretary requires.

(2) The report included in the first certification submitted under subsection (a) of this section is only required to state information available at the time of certification.

(d) APPLICATION.—A certification in effect under this section does not apply to safety standards prescribed under this chapter after the date of certification. This chapter applies to each applicable safety standard prescribed after the date of certification until the State authority adopts the

standard and submits the appropriate certification to the Secretary under subsection (a) of this section.

(e) MONITORING.—The Secretary may monitor a safety program established under this section to ensure that the program complies with the certification. A State authority shall cooperate with the Secretary under this subsection.

(f) REJECTIONS OF CERTIFICATION.—If after receiving a certification the Secretary decides the State authority is not enforcing satisfactorily compliance with applicable safety standards prescribed under this chapter, the Secretary may reject the certification, assert United States Government jurisdiction, or take other appropriate action to achieve adequate enforcement. The Secretary shall give the authority notice and an opportunity for a hearing before taking final action under this subsection. When notice is given, the burden of proof is on the authority to demonstrate that it is enforcing satisfactorily compliance with the prescribed standards.

STATUTORY NOTES AND RELATED SUBSIDIARIES

REGULATIONS

Pub. L. 116–260, div. R, title II, §202(b)(2), Dec. 27, 2020, 134 Stat. 2239, provided that: "The Secretary [of Transportation] shall promulgate regulations to require that a State authority with a certification in effect under section 60105 of title 49, United States Code, has a sufficient number of qualified inspectors to ensure safe operations, as determined by the State Inspection Calculation Tool and other factors determined to be appropriate by the Secretary."

Pub. L. 116–260, div. R, title II, §202(b)(3), Dec. 27, 2020, 134 Stat. 2239, provided that: "Not later than 2 years after the date of enactment of this Act [Dec. 27, 2020], the Secretary [of Transportation] shall promulgate regulations to implement the amendments made by this subsection [amending this section]."

§60106. State pipeline safety agreements

(a) AGREEMENTS WITHOUT CERTIFICATION.—If the Secretary of Transportation does not receive a certification under section 60105 of this title, the Secretary may make an agreement with a State authority (including a municipality if the agreement applies to intrastate gas pipeline transportation) authorizing it to take necessary action. Each agreement shall—

(1) establish an adequate program for record maintenance, reporting, and inspection designed to assist compliance with applicable safety standards prescribed under this chapter; and

(2) prescribe procedures for approval of plans of inspection and maintenance substantially the same as required under section 60108 (a) and (b) of this title.

(b) AGREEMENTS WITH CERTIFICATION.—

(1) IN GENERAL.—If the Secretary accepts a certification under section 60105 and makes the determination required under this subsection, the Secretary may make an agreement with a State authority authorizing it to participate in the oversight of interstate pipeline transportation. Each such agreement shall include a plan for the State authority to participate in special investigations involving incidents or new construction and allow the State authority to participate in other activities overseeing interstate pipeline transportation or to assume additional inspection or investigatory duties. Nothing in this section modifies section 60104(c) or authorizes the Secretary to delegate the enforcement of safety standards for interstate pipeline facilities prescribed under this chapter to a State authority.

(2) DETERMINATIONS REQUIRED.—The Secretary may not enter into an agreement under this subsection, unless the Secretary determines in writing that—

(A) the agreement allowing participation of the State authority is consistent with the Secretary's program for inspection and consistent with the safety policies and provisions provided under this chapter;

(B) the interstate participation agreement would not adversely affect the oversight responsibilities of intrastate pipeline transportation by the State authority;

(C) the State is carrying out a program demonstrated to promote preparedness and risk prevention activities that enable communities to live safely with pipelines;

(D) the State meets the minimum standards for State one-call notification set forth in chapter 61; and

(E) the actions planned under the agreement would not impede interstate commerce or jeopardize public safety.

(3) EXISTING AGREEMENTS.—If requested by the State authority, the Secretary shall authorize a State authority which had an interstate agreement in effect after January 31, 1999, to oversee interstate pipeline transportation pursuant to the terms of that agreement until the Secretary determines that the State meets the requirements of paragraph (2) and executes a new agreement, or until December 31, 2003, whichever is sooner. Nothing in this paragraph shall prevent the Secretary, after affording the State notice, hearing, and an opportunity to correct any alleged deficiencies, from terminating an agreement that was in effect before enactment of the Pipeline Safety Improvement Act of 2002 if—

(A) the State authority fails to comply with the terms of the agreement;

(B) implementation of the agreement has resulted in a gap in the oversight responsibilities of intrastate pipeline transportation by the State authority; or

(C) continued participation by the State authority in the oversight of interstate pipeline transportation has had an adverse impact on pipeline safety.

(4) NOTICE UPON DENIAL.—If a State authority requests an interstate agreement under this section and the Secretary denies such request, the Secretary shall provide written notification to the State authority of the denial that includes an explanation of the reasons for such denial.

(c) NOTIFICATION.—

(1) IN GENERAL.—Each agreement shall require the State authority to notify the Secretary promptly of a violation or probable violation of an applicable safety standard discovered as a result of action taken in carrying out an agreement under this section.

(2) RESPONSE BY SECRETARY.—If a State authority notifies the Secretary under paragraph (1) of a violation or probable violation of an applicable safety standard, the Secretary, not later than 60 days after the date of receipt of the notification, shall—

(A) issue an order under section 60118(b) or take other appropriate enforcement actions to ensure compliance with this chapter; or

(B) provide the State authority with a written explanation as to why the Secretary has determined not to take such actions.

(d) MONITORING.—The Secretary may monitor a safety program established under this section to ensure that the program complies with the agreement. A State authority shall cooperate with the Secretary under this subsection.

(e) ENDING AGREEMENTS.—

(1) PERMISSIVE TERMINATION.—The Secretary may end an agreement under this section when the Secretary finds that the State authority has not complied with any provision of the agreement.

(2) MANDATORY TERMINATION OF AGREEMENT.—The Secretary shall end an agreement for the oversight of interstate pipeline transportation if the Secretary finds that—

(A) implementation of such agreement has resulted in a gap in the oversight responsibilities of intrastate pipeline transportation by the State authority;

(B) the State actions under the agreement have failed to meet the requirements under subsection (b); or

(C) continued participation by the State authority in the oversight of interstate pipeline transportation would not promote pipeline safety.

(3) PROCEDURAL REQUIREMENTS.—The Secretary shall give notice and an opportunity for a hearing to a State authority before ending an agreement under this section. The Secretary may provide a State an opportunity to correct any deficiencies before ending an agreement. The finding and decision to end the agreement shall be published in the Federal Register and may not become effective for at least 15 days after the date of publication unless the Secretary finds that continuation of an agreement poses an imminent hazard.

(f) JOINT INSPECTORS.—At the request of a State authority, the Secretary shall allow for a certified State authority under section 60105 to participate in the inspection of an interstate pipeline facility.

§60107. State pipeline safety grants

(a) GENERAL AUTHORITY.—If a State authority files an application not later than September 30 of a calendar year, the Secretary of Transportation shall pay not more than 80 percent of the cost of the personnel, equipment, and activities the authority reasonably requires during the next calendar year—

(1) to carry out a safety program under a certification under section 60105 of this title or an agreement under section 60106 of this title; or

(2) to act as an agent of the Secretary on interstate gas pipeline facilities or interstate hazardous liquid pipeline facilities.

(b) PAYMENTS.—After notifying and consulting with a State authority, the Secretary may withhold any part of a payment when the Secretary decides that the authority is not carrying out satisfactorily a safety program or not acting satisfactorily as an agent. The Secretary may pay an authority under this section only when the authority ensures the Secretary that it will provide the remaining costs of a safety program, except when the Secretary waives this requirement.

(c) APPORTIONMENT AND METHOD OF PAYMENT.—The Secretary shall apportion the amount appropriated to carry out this section among the States. A payment may be made under this section in installments, in advance, or on a reimbursable basis.

(d) ADDITIONAL AUTHORITY AND CONSIDERATIONS.—(1) The Secretary may prescribe—

(A) the form of, and way of filing, an application under this section;

(B) reporting and fiscal procedures the Secretary considers necessary to ensure the proper accounting of money of the Government; and

(C) qualifications for a State to meet to receive a payment under this section, including qualifications for State employees who perform inspection activities under section 60105 or 60106 of this title.

(2) The qualifications prescribed under paragraph (1)(C) of this subsection may—

(A) consider the experience and training of the employee;

(B) order training or other requirements; and

(C) provide for approval of qualifications on a conditional basis until specified requirements are met.

(e) REPURPOSING OF FUNDS.—If a State program's certification is rejected under section 60105(f) or such program is otherwise suspended or interrupted, the Secretary may use any undistributed, deobligated, or recovered funds authorized under this section to carry out pipeline safety activities for that State within the period of availability for such funds.

EDITORIAL NOTES

AMENDMENTS

2016—Subsec. (b). Pub. L. 114–183, §17(1), added subsec. (b) and struck out former subsec. (b). Prior to amendment, text read as follows: "After notifying and consulting with a State authority, the Secretary may withhold any part of a payment when the Secretary decides that the authority is not carrying out satisfactorily a safety program or not acting satisfactorily as an agent. The Secretary may pay an authority under this section only when the authority ensures the Secretary that it will provide the remaining costs of a safety program and that the total State amount spent for a safety program (excluding grants of the United States Government) will

at least equal the average amount spent for gas and hazardous liquid safety programs for the 3 fiscal years prior to the fiscal year in which the Secretary makes the payment, except when the Secretary waives this requirement. For each of fiscal years 2012 and 2013, the Secretary shall grant such a waiver to a State if the State can demonstrate an inability to maintain or increase the required funding share of its safety program at or above the level required by this subsection due to economic hardship in that State. For fiscal year 2014, and each fiscal year thereafter, the Secretary may grant such a waiver to a State if the State can make the demonstration described in the preceding sentence."

Subsec. (e). Pub. L. 114–183, §17(2), added subsec. (e).

2012—Subsec. (b). Pub. L. 112–90 inserted at end "For each of fiscal years 2012 and 2013, the Secretary shall grant such a waiver to a State if the State can demonstrate an inability to maintain or increase the required funding share of its safety program at or above the level required by this subsection due to economic hardship in that State. For fiscal year 2014, and each fiscal year thereafter, the Secretary may grant such a waiver to a State if the State can make the demonstration described in the preceding sentence."

2006—Subsec. (a). Pub. L. 109–468, §2(c), substituted "not more than 80 percent" for "not more than 50 percent" in introductory provisions.

Subsec. (b). Pub. L. 109–468, §2(d), substituted "spent for gas and hazardous liquid safety programs for the 3 fiscal years prior to the fiscal year in which the Secretary makes the payment, except when the Secretary waives this requirement." for "spent—

"(1) for a gas safety program, for the fiscal years that ended June 30, 1967, and June 30, 1968; and

"(2) for a hazardous liquid safety program, for the fiscal years that ended September 30, 1978, and September 30, 1979."

1996—Pub. L. 104–304 substituted "State pipeline safety grants" for "State grants" in section catchline.

§60108. Inspection and maintenance

(a) PLANS.—(1) Each person owning or operating a gas pipeline facility or hazardous liquid pipeline facility shall carry out a current written plan (including any changes) for inspection and maintenance of each facility used in the transportation and owned or operated by the person. A copy of the plan shall be kept at any office of the person the Secretary of Transportation considers appropriate. The Secretary also may require a person owning or operating a pipeline facility subject to this chapter to file a plan for inspection and maintenance for approval.

(2) If the Secretary or a State authority responsible for enforcing standards prescribed under this chapter decides that a plan required under paragraph (1) of this subsection is inadequate for safe operation, the Secretary or authority shall require the person to revise the plan. Revision may be required only after giving notice and an opportunity for a hearing. A plan required under paragraph (1) must be practicable and designed to meet the need for pipeline safety, must meet the requirements of any regulations promulgated under section 60102(q), and must include terms designed to enhance the ability to discover safety-related conditions described in section 60102(h)(1) of this title. In deciding on the adequacy of a plan, the Secretary or authority shall consider—

(A) relevant available pipeline safety information;

(B) the appropriateness of the plan for the particular kind of pipeline transportation or facility;

(C) the reasonableness of the plan;

(D) the extent to which the plan will contribute to—

(i) public safety;

(ii) eliminating hazardous leaks and minimizing releases of natural gas from pipeline facilities; and

(iii) the protection of the environment; and

(E) the extent to which the plan addresses the replacement or remediation of pipelines that are known to leak based on the material (including cast iron, unprotected steel, wrought iron, and historic plastics with known issues), design, or past operating and maintenance history of the pipeline.

(3) REVIEW OF PLANS.—

(A) IN GENERAL.—Not later than 2 years after the date of enactment of this subparagraph,

and not less frequently than once every 5 years thereafter, the Secretary or relevant State authority with a certification in effect under section 60105 shall review each plan described in this subsection.

(B) CONTEXT OF REVIEW.—The Secretary may conduct a review under this paragraph as an element of the inspection of the operator carried out by the Secretary under subsection (b).

(C) INADEQUATE PROGRAMS.—If the Secretary determines that a plan reviewed under this paragraph does not comply with the requirements of this chapter (including any regulations promulgated under this chapter), has not been adequately implemented, is inadequate for the safe operation of a pipeline facility, or is otherwise inadequate, the Secretary may conduct enforcement proceedings under this chapter.

(b) INSPECTION AND TESTING.—(1) The Secretary shall inspect and require appropriate testing of a pipeline facility subject to this chapter that is not covered by a certification under section 60105 of this title or an agreement under section 60106 of this title. The Secretary shall decide on the frequency and type of inspection and testing under this subsection on a case-by-case basis after considering the following:

(A) the location of the pipeline facility.

(B) the type, size, age, manufacturer, method of construction, construction material, and condition of the pipeline facility.

(C) the nature and volume of material transported through the pipeline facility.

(D) the pressure at which that material is transported.

(E) climatic, geologic, and seismic characteristics (including soil characteristics) and conditions of the area in which the pipeline facility is located.

(F) existing and projected population and demographic characteristics of the area in which the pipeline facility is located.

(G) for a hazardous liquid pipeline facility, the proximity of the area in which the facility is located to an area that is unusually sensitive to environmental damage.

(H) the frequency of leaks.

(I) other factors the Secretary decides are relevant to the safety of pipeline facilities.

(2) To the extent and in amounts provided in advance in an appropriation law, the Secretary shall decide on the frequency of inspection under paragraph (1) of this subsection. The Secretary may reduce the frequency of an inspection of a master meter system.

(3) Testing under this subsection shall use the most appropriate technology practicable.

(c) PIPELINE FACILITIES OFFSHORE AND IN OTHER WATERS.—(1) In this subsection—

(A) "abandoned" means permanently removed from service.

(B) "pipeline facility" includes an underwater abandoned pipeline facility.

(C) if a pipeline facility has no operator, the most recent operator of the facility is deemed to be the operator of the facility.

(2)(A) Not later than May 16, 1993, on the basis of experience with the inspections under section 3(h)(1)(A) of the Natural Gas Pipeline Safety Act of 1968 or section 203(l)(1)(A) of the Hazardous Liquid Pipeline Safety Act of 1979, as appropriate, and any other information available to the Secretary, the Secretary shall establish a mandatory, systematic, and, where appropriate, periodic inspection program of—

(i) all offshore pipeline facilities; and

(ii) any other pipeline facility crossing under, over, or through waters where a substantial likelihood of commercial navigation exists, if the Secretary decides that the location of the facility in those waters could pose a hazard to navigation or public safety.

(B) In prescribing standards to carry out subparagraph (A) of this paragraph—

(i) the Secretary shall identify what is a hazard to navigation with respect to an underwater abandoned pipeline facility; and

(ii) for an underwater pipeline facility abandoned after October 24, 1992, the Secretary shall include requirements that will lessen the potential that the facility will pose a hazard to navigation and shall consider the relationship between water depth and navigational safety and factors relevant to the local marine environment.

(3)(A) The Secretary shall establish by regulation a program requiring an operator of a pipeline facility described in paragraph (2) of this subsection to report a potential or existing navigational hazard involving that pipeline facility to the Secretary through the appropriate Coast Guard office.

(B) The operator of a pipeline facility described in paragraph (2) of this subsection that discovers any part of the pipeline facility that is a hazard to navigation shall mark the location of the hazardous part with a Coast-Guard-approved marine buoy or marker and immediately shall notify the Secretary as provided by the Secretary under subparagraph (A) of this paragraph. A marine buoy or marker used under this subparagraph is deemed a pipeline sign or right-of-way marker under section 60123(c) of this title.

(4)(A) The Secretary shall establish a standard that each pipeline facility described in paragraph (2) of this subsection that is a hazard to navigation is buried not later than 6 months after the date the condition of the facility is reported to the Secretary. The Secretary may extend that 6-month period for a reasonable period to ensure compliance with this paragraph.

(B) In prescribing standards for subparagraph (A) of this paragraph for an underwater pipeline facility abandoned after October 24, 1992, the Secretary shall include requirements that will lessen the potential that the facility will pose a hazard to navigation and shall consider the relationship between water depth and navigational safety and factors relevant to the local marine environment.

(5)(A) Not later than October 24, 1994, the Secretary shall establish standards on what is an exposed offshore pipeline facility and what is a hazard to navigation under this subsection.

(B) Not later than 6 months after the Secretary establishes standards under subparagraph (A) of this paragraph, or October 24, 1995, whichever occurs first, the operator of each offshore pipeline facility not described in section 3(h)(1)(A) of the Natural Gas Pipeline Safety Act of 1968 or section 203(l)(1)(A) of the Hazardous Liquid Pipeline Safety Act of 1979, as appropriate, shall inspect the facility and report to the Secretary on any part of the facility that is exposed or is a hazard to navigation. This subparagraph applies only to a facility that is between the high water mark and the point at which the subsurface is under 15 feet of water, as measured from mean low water. An inspection that occurred after October 3, 1989, may be used for compliance with this subparagraph if the inspection conforms to the requirements of this subparagraph.

(C) The Secretary may extend the time period specified in subparagraph (B) of this paragraph for not more than 6 months if the operator of a facility satisfies the Secretary that the operator has made a good faith effort, with reasonable diligence, but has been unable to comply by the end of that period.

(6)(A) The operator of a pipeline facility abandoned after October 24, 1992, shall report the abandonment to the Secretary in a way that specifies whether the facility has been abandoned properly according to applicable United States Government and State requirements.

(B) Not later than October 24, 1995, the operator of a pipeline facility abandoned before October 24, 1992, shall report to the Secretary reasonably available information related to the facility, including information that a third party possesses. The information shall include the location, size, date, and method of abandonment, whether the facility has been abandoned properly under applicable law, and other relevant information the Secretary may require. Not later than April 24, 1994, the Secretary shall specify how the information shall be reported. The Secretary shall ensure that the Government maintains the information in a way accessible to appropriate Government agencies and State authorities.

(C) The Secretary shall request that a State authority having information on a collision between a vessel and an underwater pipeline facility report the information to the Secretary in a timely way and make a reasonable effort to specify the location, date, and severity of the collision. Chapter 35 of title 44 does not apply to this subparagraph.

(7) The Secretary may not exempt from this chapter an offshore hazardous liquid pipeline facility

only because the pipeline facility transfers hazardous liquid in an underwater pipeline between a vessel and an onshore facility.

(8) If, after reviewing existing Federal and State regulations for hazardous liquid gathering lines located offshore in the United States, including within the inlets of the Gulf of Mexico, the Secretary determines it is appropriate, the Secretary shall issue regulations, after notice and an opportunity for a hearing, subjecting offshore hazardous liquid gathering lines and hazardous liquid gathering lines located within the inlets of the Gulf of Mexico to the same standards and regulations as other hazardous liquid gathering lines. The regulations issued under this paragraph shall not apply to production pipelines or flow lines.

(d) REPLACING CAST IRON GAS PIPELINES.—(1) The Secretary shall publish a notice on the availability of industry guidelines, developed by the Gas Piping Technology Committee, for replacing cast iron pipelines. Not later than 2 years after the guidelines become available, the Secretary shall conduct a survey of gas pipeline operators with cast iron pipe in their systems to establish—

(A) the extent to which each operator has adopted a plan for the safe management and replacement of cast iron;

(B) the elements of the plan, including the anticipated rate of replacement; and

(C) the progress that has been made.

(2) Chapter 35 of title 44 does not apply to the conduct of the survey.

(3) This subsection does not prevent the Secretary from developing Government guidelines or standards for cast iron gas pipelines as the Secretary considers appropriate.

(4) Not later than December 31, 2012, and every 2 years thereafter, the Secretary shall conduct a follow-up survey to measure the progress that owners and operators of pipeline facilities have made in adopting and implementing their plans for the safe management and replacement of cast iron gas pipelines.

(e) IN GENERAL.—After the completion of a Pipeline and Hazardous Materials Safety Administration pipeline safety inspection, the Administrator of such Administration, or the State authority certified under section 60105 of title 49, United States Code, to conduct such inspection, shall—

(1) within 30 days, conduct a post-inspection briefing with the owner or operator of the gas or hazardous liquid pipeline facility inspected outlining any concerns; and

(2) within 90 days, to the extent practicable, provide the owner or operator with written preliminary findings of the inspection.

§60109. High-density population areas and environmentally sensitive areas

(a) IDENTIFICATION REQUIREMENTS.—Not later than October 24, 1994, the Secretary of Transportation shall prescribe standards that—

(1) establish criteria for identifying—

(A) by operators of gas pipeline facilities, each gas pipeline facility (except a natural gas distribution line) located in a high-density population area; and

(B) by operators of hazardous liquid pipeline facilities and gathering lines—

(i) each hazardous liquid pipeline facility, whether otherwise subject to this chapter, that crosses waters where a substantial likelihood of commercial navigation exists or that is located in an area described in the criteria as a high-density population area; and

(ii) each hazardous liquid pipeline facility and gathering line, whether otherwise subject to this chapter, located in an area that the Secretary, in consultation with the Administrator of the Environmental Protection Agency, describes as unusually sensitive to environmental damage if there is a hazardous liquid pipeline accident; and

(2) provide that the identification be carried out through the inventory required under section 60102(e) of this title.

(b) AREAS TO BE INCLUDED AS UNUSUALLY SENSITIVE.—When describing areas that are unusually sensitive to environmental damage if there is a hazardous liquid pipeline accident, the Secretary shall consider areas where a pipeline rupture would likely cause permanent or long-term environmental damage, including—

(1) locations near pipeline rights-of-way that are critical to drinking water, including intake locations for community water systems and critical sole source aquifer protection areas; and

(2) locations near pipeline rights-of-way that are part of the Great Lakes or have been identified as coastal beaches, certain coastal waters, critical wetlands, riverine or estuarine systems, national parks, wilderness areas, wildlife preservation areas or refuges, wild and scenic rivers, or critical habitat areas for threatened and endangered species.

(c) RISK ANALYSIS AND INTEGRITY MANAGEMENT PROGRAMS.—

(1) REQUIREMENT.—Each operator of a gas pipeline facility shall conduct an analysis of the risks to each facility of the operator located in an area identified pursuant to subsection (a)(1) and defined in chapter 192 of title 49, Code of Federal Regulations, including any subsequent modifications, and shall adopt and implement a written integrity management program for such facility to reduce the risks.

(2) REGULATIONS.—

(A) IN GENERAL.—Not later than 12 months after the date of enactment of this subsection, the Secretary shall issue regulations prescribing standards to direct an operator's conduct of a risk analysis and adoption and implementation of an integrity management program under this subsection. The regulations shall require an operator to conduct a risk analysis and adopt an integrity management program within a time period prescribed by the Secretary, ending not later than 24 months after such date of enactment. Not later than 18 months after such date of

enactment, each operator of a gas pipeline facility shall begin a baseline integrity assessment described in paragraph (3).

(B) AUTHORITY TO ISSUE REGULATIONS.—The Secretary may satisfy the requirements of this paragraph through the issuance of regulations under this paragraph or under other authority of law.

(3) MINIMUM REQUIREMENTS OF INTEGRITY MANAGEMENT PROGRAMS.—An integrity management program required under paragraph (1) shall include, at a minimum, the following requirements:

(A) A baseline integrity assessment of each of the operator's facilities in areas identified pursuant to subsection (a)(1) and defined in chapter 192 of title 49, Code of Federal Regulations, including any subsequent modifications, by internal inspection device, pressure testing, direct assessment, or an alternative method that the Secretary determines would provide an equal or greater level of safety. The operator shall complete such assessment not later than 10 years after the date of enactment of this subsection. At least 50 percent of such facilities shall be assessed not later than 5 years after such date of enactment. The operator shall prioritize such facilities for assessment based on all risk factors, including any previously discovered defects or anomalies and any history of leaks, repairs, or failures. The operator shall ensure that assessments of facilities with the highest risks are given priority for completion and that such assessments will be completed not later than 5 years after such date of enactment.

(B) Subject to paragraph (5), periodic reassessments of the facility, at a minimum of once every 7 calendar years, using methods described in subparagraph (A). The Secretary may extend such deadline for an additional 6 months if the operator submits written notice to the Secretary with sufficient justification of the need for the extension.

(C) Clearly defined criteria for evaluating the results of assessments conducted under subparagraphs (A) and (B) and for taking actions based on such results.

(D) A method for conducting an analysis on a continuing basis that integrates all available information about the integrity of the facility and the consequences of releases from the facility.

(E) A description of actions to be taken by the operator to promptly address any integrity issue raised by an evaluation conducted under subparagraph (C) or the analysis conducted under subparagraph (D).

(F) A description of measures to prevent and mitigate the consequences of releases from the facility.

(G) A method for monitoring cathodic protection systems throughout the pipeline system of the operator to the extent not addressed by other regulations.

(H) If the Secretary raises a safety concern relating to the facility, a description of the actions to be taken by the operator to address the safety concern, including issues raised with the Secretary by States and local authorities under an agreement entered into under section 60106.

(4) TREATMENT OF BASELINE INTEGRITY ASSESSMENTS.—In the case of a baseline integrity assessment conducted by an operator in the period beginning on the date of enactment of this subsection and ending on the date of issuance of regulations under this subsection, the Secretary shall accept the assessment as complete, and shall not require the operator to repeat any portion of the assessment, if the Secretary determines that the assessment was conducted in accordance with the requirements of this subsection.

(5) WAIVERS AND MODIFICATIONS.—In accordance with section 60118(c), the Secretary may waive or modify any requirement for reassessment of a facility under paragraph (3)(B) for reasons that may include the need to maintain local product supply or the lack of internal inspection devices if the Secretary determines that such waiver is not inconsistent with pipeline safety.

(6) STANDARDS.—The standards prescribed by the Secretary under paragraph (2) shall address each of the following factors:

(A) The minimum requirements described in paragraph (3).

(B) The type or frequency of inspections or testing of pipeline facilities, in addition to the minimum requirements of paragraph (3)(B).

(C) The manner in which the inspections or testing are conducted.

(D) The criteria used in analyzing results of the inspections or testing.

(E) The types of information sources that must be integrated in assessing the integrity of a pipeline facility as well as the manner of integration.

(F) The nature and timing of actions selected to address the integrity of a pipeline facility.

(G) Such other factors as the Secretary determines appropriate to ensure that the integrity of a pipeline facility is addressed and that appropriate mitigative measures are adopted to protect areas identified under subsection (a)(1).

In prescribing those standards, the Secretary shall ensure that all inspections required are conducted in a manner that minimizes environmental and safety risks, and shall take into account the applicable level of protection established by national consensus standards organizations.

(7) ADDITIONAL OPTIONAL STANDARDS.—The Secretary may also prescribe standards requiring an operator of a pipeline facility to include in an integrity management program under this subsection—

(A) changes to valves or the establishment or modification of systems that monitor pressure and detect leaks based on the operator's risk analysis; and

(B) the use of emergency flow restricting devices.

(8) LACK OF REGULATIONS.—In the absence of regulations addressing the elements of an integrity management program described in this subsection, the operator of a pipeline facility shall conduct a risk analysis and adopt and implement an integrity management program described in this subsection not later than 24 months after the date of enactment of this subsection and shall complete the baseline integrity assessment described in this subsection not later than 10 years after such date of enactment. At least 50 percent of such facilities shall be assessed not later than 5 years after such date of enactment. The operator shall prioritize such facilities for assessment based on all risk factors, including any previously discovered defects or anomalies and any history of leaks, repairs, or failures. The operator shall ensure that assessments of facilities with the highest risks are given priority for completion and that such assessments will be completed not later than 5 years after such date of enactment.

(9) REVIEW OF INTEGRITY MANAGEMENT PROGRAMS.—

(iii) INADEQUATE PROGRAMS.—If the Secretary determines that a risk analysis or integrity management program does not comply with the requirements of this subsection or regulations issued as described in paragraph (2), has not been adequately implemented, or is inadequate for the safe operation of a pipeline facility, the Secretary may conduct proceedings under this chapter.

(B) AMENDMENTS TO PROGRAMS.—In order to facilitate reviews under this paragraph, an operator of a pipeline facility shall notify the Secretary of any amendment made to the operator's integrity management program not later than 30 days after the date of adoption of the amendment. The Secretary shall review any such amendment in accordance with this paragraph.

(C) TRANSMITTAL OF PROGRAMS TO STATE AUTHORITIES.—The Secretary shall provide a copy of each risk analysis and integrity management program reviewed by the Secretary under this paragraph to any appropriate State authority with which the Secretary has entered into an agreement under section 60106.

(10) STATE REVIEW OF INTEGRITY MANAGEMENT PLANS.—A State authority that enters into an agreement pursuant to section 60106, permitting the State authority to review the risk analysis and integrity management program pursuant to paragraph (9), may provide the Secretary with a written assessment of the risk analysis and integrity management program, make recommendations, as appropriate, to address safety concerns not adequately addressed by the operator's risk analysis or integrity management program, and submit documentation explaining the State-proposed revisions. The Secretary shall consider carefully the State's proposals and work in consultation with the States and operators to address safety concerns.

(11) APPLICATION OF STANDARDS.—Section 60104(b) shall not apply to this section.

(12) DISTRIBUTION PIPELINES.—

(A) STUDY.—The Secretary shall conduct a study of methods that may be used under paragraph (3), other than direct assessment, to assess distribution pipelines to determine whether any such method—

(i) would provide a greater level of safety than direct assessment of the pipelines; and

(ii) is feasible.

(B) REPORT.—Not later than 2 years after the date of enactment of this paragraph, the Secretary shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committees on Energy and Commerce and Transportation and Infrastructure of the House of Representatives a report describing—

(i) the results of the study under subparagraph (A); and

(1) MINIMUM STANDARDS.—Not later than December 31, 2007, the Secretary shall prescribe minimum standards for integrity management programs for distribution pipelines.

(2) ADDITIONAL AUTHORITY OF SECRETARY.—In carrying out this subsection, the Secretary may require operators of distribution pipelines to continually identify and assess risks on their distribution lines, to remediate conditions that present a potential threat to line integrity, and to monitor program effectiveness.

(3) EXCESS FLOW VALVES.—

(A) IN GENERAL.—The minimum standards shall include a requirement for an operator of a natural gas distribution system to install an excess flow valve on each single family residence service line connected to such system if—

(i) the service line is installed or entirely replaced after June 1, 2008;

(ii) the service line operates continuously throughout the year at a pressure not less than 10 pounds per square inch gauge;

(iii) the service line is not connected to a gas stream with respect to which the operator has had prior experience with contaminants the presence of which could interfere with the operation of an excess flow valve;

(iv) the installation of an excess flow valve on the service line is not likely to cause loss of service to the residence or interfere with necessary operation or maintenance activities, such as purging liquids from the service line; and

(v) an excess flow valve meeting performance standards developed under section 60110(e) of title 49, United States Code, is commercially available to the operator, as determined by the Secretary.

(B) DISTRIBUTION BRANCH SERVICES, MULTIFAMILY FACILITIES, AND SMALL COMMERCIAL FACILITIES.—Not later than 2 years after the date of enactment of the Pipeline Safety, Regulatory Certainty, and Job Creation Act of 2011, and after issuing a final report on the evaluation of the National Transportation Safety Board's recommendation on excess flow valves in applications other than service lines serving one single family residence, the Secretary, if appropriate, shall by regulation require the use of excess flow valves, or equivalent technology, where economically, technically, and operationally feasible on new or entirely replaced distribution branch services, multifamily facilities, and small commercial facilities.

(C) REPORTS.—Operators of natural gas distribution systems shall report annually to the Secretary on the number of excess flow valves installed on their systems under subparagraph (A).

(6) SAVINGS CLAUSE.—Subject to section 60104(c), a State authority having a current certification under section 60105 may adopt or continue in force additional integrity management requirements, including additional requirements for installation of excess flow valves, for gas distribution pipelines within the boundaries of that State.

(7) EVALUATION OF RISK.—

(A) IN GENERAL.—Not later than 2 years after the date of enactment of this paragraph, the Secretary shall promulgate regulations to ensure that each distribution integrity management plan developed by an operator of a distribution system includes an evaluation of—

(i) the risks resulting from the presence of cast iron pipes and mains in the distribution system; and

(ii) the risks that could lead to or result from the operation of a low-pressure distribution system at a pressure that makes the operation of any connected and properly adjusted low-pressure gas burning equipment unsafe, as determined by the Secretary.

(B) CONSIDERATION.—In carrying out subparagraph (A)(ii), the Secretary shall ensure that an operator of a distribution system—

(i) considers factors other than past observed abnormal operating conditions (as defined in section 192.803 of title 49, Code of Federal Regulations (or a successor regulation)) in ranking risks and identifying measures to mitigate those risks; and

(ii) may not determine that there are no potential consequences associated with low probability events unless that determination is otherwise supported by engineering analysis or operational knowledge.

(C) DEADLINES.—

(i) IN GENERAL.—Not later than 2 years after the date of enactment of this paragraph, each operator of a distribution system shall make available to the Secretary or the relevant State authority with a certification in effect under section 60105, as applicable, a copy of—

(D) REVIEW OF PLANS AND DOCUMENTS.—

(i) TIMING.—

(I) IN GENERAL.—Not later than 2 years after the date of promulgation of the regulations under subparagraph (A), and not less frequently than once every 5 years thereafter, the Secretary or relevant State authority with a certification in effect under section 60105 shall review the distribution integrity management plan, the emergency response plan, and the procedural manual for operations, maintenance, and emergencies of each operator of a distribution system and record the results of that review for use in the next review of the program of that operator.

(II) GRACE PERIOD.—For the third, fourth, and fifth years after the date of promulgation of the regulations under subparagraph (A), the Secretary—

(aa) shall not use subclause (I) as justification to reduce funding, decertify, or penalize in any way under section 60105, 60106, or 60107 a State authority that has in effect a certification under section 60105 or an agreement under section 60106; and

(bb) shall—

(AA) submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committees on Transportation and Infrastructure and Energy and Commerce of the House of Representatives a list of States found to be noncompliant with subclause (I) during the annual program evaluation; and

(BB) provide a written notice to each State authority described in item (aa) that is not in compliance with the requirements of subclause (I).

(ii) REVIEW.—Each plan or procedural manual made available under subparagraph (C)(i) shall be reexamined—

(I) on significant change to the plans or procedural manual, as applicable;

(II) on significant change to the gas distribution system of the operator, as applicable; and

(III) not less frequently than once every 5 years.

(iii) CONTEXT OF REVIEW.—The Secretary may conduct a review under clause (i) or (ii) as an element of the inspection of the operator carried out by the Secretary.

(iv) INADEQUATE PROGRAMS.—If the Secretary determines that the documents reviewed under clause (i) or (ii) do not comply with the requirements of this chapter (including regulations to implement this chapter), have not been adequately implemented, or are inadequate for the safe operation of a pipeline facility, the Secretary may conduct proceedings under this chapter.

(f) CERTIFICATION OF PIPELINE INTEGRITY MANAGEMENT PROGRAM PERFORMANCE.—The Secretary shall establish procedures requiring certification of annual and semiannual pipeline integrity management program performance reports by a senior executive officer of the company operating a pipeline subject to this chapter. The procedures shall require a signed statement, which may be effected electronically in accordance with the provisions of the Electronic Signatures in Global and National Commerce Act (15 U.S.C. 7001 et seq.), certifying that—

(1) the signing officer has reviewed the report; and

(2) to the best of such officer's knowledge and belief, the report is true and complete.

(g) HAZARDOUS LIQUID PIPELINE FACILITIES.—

(1) INTEGRITY ASSESSMENTS.—Notwithstanding any pipeline integrity management program or integrity assessment schedule otherwise required by the Secretary, each operator of a pipeline facility to which this subsection applies shall ensure that pipeline integrity assessments—

(A) using internal inspection technology appropriate for the integrity threat are completed not less often than once every 12 months; and

(B) using pipeline route surveys, depth of cover surveys, pressure tests, external corrosion direct assessment, or other technology that the operator demonstrates can further the understanding of the condition of the pipeline facility are completed on a schedule based on the risk that the pipeline facility poses to the high consequence area in which the pipeline facility is located, but not less often than once every 12 months.

(2) APPLICATION.—This subsection shall apply to any underwater hazardous liquid pipeline facility located in a high consequence area—

(A) that is not an offshore pipeline facility; and

(B) any portion of which is located at depths greater than 150 feet under the surface of the water.

(3) HIGH CONSEQUENCE AREA DEFINED.—For purposes of this subsection, the term "high consequence area" has the meaning given that term in section 195.450 of title 49, Code of Federal Regulations.

(4) INSPECTION AND ENFORCEMENT.—The Secretary shall conduct inspections under section 60117(d) to determine whether each operator of a pipeline facility to which this subsection applies is complying with this section.

(5) CONSIDERATIONS.—In carrying out this subsection, each operator shall implement procedures that assess potential impacts by maritime equipment or other vessels, including anchors, anchor chains, or any other attached equipment.

requirements.

"(b) FACTORS.—In conducting the evaluation under subsection (a), the Secretary shall consider, at a minimum, the following:

"(1) The continuing priority to enhance protections for public safety.

"(2) The continuing importance of reducing risk in high-consequence areas.

"(3) The incremental costs of applying integrity management standards to pipelines outside of high-consequence areas where operators are already conducting assessments beyond what is required under chapter 601 of title 49, United States Code.

"(4) The need to undertake integrity management assessments and repairs in a manner that is achievable and sustainable, and that does not disrupt pipeline service.

"(5) The options for phasing in the extension of integrity management requirements beyond high-consequence areas, including the most effective and efficient options for decreasing risks to an increasing number of people living or working in proximity to pipeline facilities.

"(6) The appropriateness of applying repair criteria, such as pressure reductions and special requirements for scheduling remediation, to areas that are not high-consequence areas.

"(c) REPORT.—Not later than 2 years after the date of enactment of this Act [Jan. 3, 2012], the Secretary shall submit to the Committee on Transportation and Infrastructure and the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report, based on the evaluation conducted under subsection (a), containing the Secretary's analysis and findings regarding—

"(1) expansion of integrity management requirements, or elements thereof, beyond high-consequence areas; and

"(2) with respect to gas transmission pipeline facilities, whether applying the integrity management program requirements, or elements thereof, to additional areas would mitigate the need for class location requirements.

"(d) DATA REPORTING.—The Secretary shall collect any relevant data necessary to complete the evaluation required by subsection (a).

"(e) TECHNICAL CORRECTION.—[Amended this section.]

"(f) RULEMAKING REQUIREMENTS.—

"(1) REVIEW PERIOD DEFINED.—In this subsection, the term 'review period' means the period beginning on the date of enactment of this Act [Jan. 3, 2012] and ending on the earlier of—

"(A) the date that is 1 year after the date of completion of the report under subsection (c); or

"(B) the date that is 3 years after the date of enactment of this Act.

"(2) CONGRESSIONAL AUTHORITY.—In order to provide Congress the necessary time to review the results of the report required by subsection (c) and implement appropriate recommendations, the Secretary shall not, during the review period, issue final regulations described in paragraph (3)(B).

"(3) STANDARDS.—

"(A) FINDINGS.—As soon as practicable following the review period, the Secretary shall issue final regulations described in subparagraph (B), if the Secretary finds, in the report required under subsection (c), that—

"(i) integrity management system requirements, or elements thereof, should be expanded beyond high-consequence areas; and

"(ii) with respect to gas transmission pipeline facilities, applying integrity management program requirements, or elements thereof, to additional areas would mitigate the need for class location requirements.

"(B) REGULATIONS.—Regulations issued by the Secretary under subparagraph (A), if any, shall—

"(i) expand integrity management system requirements, or elements thereof, beyond high-consequence areas; and

"(ii) remove redundant class location requirements for gas transmission pipeline facilities that are regulated under an integrity management program adopted and implemented under section 60109(c)(2) of title 49, United States Code.

"(4) SAVINGS CLAUSE.—

"(A) IN GENERAL.—Notwithstanding any other provision of this subsection, the Secretary, during the review period, may issue final regulations described in paragraph (3)(B), if the Secretary determines that a condition that poses a risk to public safety, property, or the environment is present or an imminent hazard exists and that the regulations will address the risk or hazard.

"(B) IMMINENT HAZARD DEFINED.—In subparagraph (A), the term 'imminent hazard'

means the existence of a condition related to pipelines or pipeline operations that presents a substantial likelihood that death, serious illness, severe personal injury, or substantial endangerment to health, property, or the environment may occur.

"(g) REPORT TO CONGRESS ON RISK-BASED PIPELINE REASSESSMENT INTERVALS.—Not later than 2 years after the date of enactment of this Act [Jan. 3, 2012], the Comptroller General of the United States shall evaluate—

"(1) whether risk-based reassessment intervals are a more effective alternative for managing risks to pipelines in high-consequence areas once baseline assessments are complete when compared to the reassessment interval specified in section 60109(c)(3)(B) of title 49, United States Code;

"(2) the number of anomalies found in baseline assessments required under section 60109(c)(3)(A) of title 49, United States Code, as compared to the number of anomalies found in reassessments required under section 60109(c)(3)(B) of such title; and

(b) INSTALLATION REQUIREMENTS AND CONSIDERATIONS.—Not later than April 24, 1994, the Secretary of Transportation shall prescribe standards on the circumstances, if any, under which an operator of a natural gas distribution system must install excess flow valves in the system. The Secretary shall consider—

(1) the system design pressure;

(2) the system operating pressure;

(7) other factors the Secretary considers relevant.

(c) NOTIFICATION OF AVAILABILITY.—(1) Not later than October 24, 1994, the Secretary shall prescribe standards requiring an operator of a natural gas distribution system to notify in writing its customers having lines in which excess flow valves are not required by law but can be installed according to the standards prescribed under subsection (e) of this section, of—

(A) the availability of excess flow valves for installation in the system;
(B) safety benefits to be derived from installation; and
(C) costs associated with installation, maintenance, and replacement.

(2) The standards shall provide that, except when installation is required under subsection (b) of this section, excess flow valves shall be installed at the request of the customer if the customer will pay all costs associated with installation.

(d) REPORT.—If the Secretary decides under subsection (b) of this section that there are no circumstances under which an operator must install excess flow valves, the Secretary shall submit to Congress a report on the reasons for the decision not later than 30 days after the decision is made.

(e) PERFORMANCE STANDARDS.—Not later than April 24, 1994, the Secretary shall develop standards for the performance of excess flow valves used to protect lines in a natural gas distribution system. The Secretary may adopt industry accepted performance standards in order to comply with the requirement under the preceding sentence. (a) GENERAL AUTHORITY.—After notice and an opportunity for a hearing, the Secretary of Transportation may decide that a pipeline facility is hazardous if the Secretary decides that—

(1) operation of the facility is or would be hazardous to life, property, or the environment; or

(2) the facility is or would be constructed or operated, or a component of the facility is or would be constructed or operated, with equipment, material, or a technique that the Secretary decides is hazardous to life, property, or the environment.

(b) CONSIDERATIONS.—In making a decision under subsection (a) of this section, the Secretary shall consider, if relevant—

(1) the characteristics of the pipe and other equipment used in the pipeline facility, including the age, manufacture, physical properties, and method of manufacturing, constructing, or assembling the equipment;

(2) the nature of the material the pipeline facility transports, the corrosive and deteriorative qualities of the material, the sequence in which the material are [1] transported, and the pressure required for transporting the material;

(3) the aspects of the area in which the pipeline facility is located, including climatic and geologic conditions and soil characteristics;

(4) the proximity of the area in which the hazardous liquid pipeline facility is located to environmentally sensitive areas;

(5) the population density and population and growth patterns of the area in which the pipeline facility is located;

(6) any recommendation of the National Transportation Safety Board made under another law; and

(7) other factors the Secretary considers appropriate.

(c) OPPORTUNITY FOR STATE COMMENT.—The Secretary shall provide, to any appropriate official of a State in which a pipeline facility is located and about which a proceeding has begun under this section, notice and an opportunity to comment on an agreement the Secretary proposes to make to resolve the proceeding. State comment shall incorporate comments of affected local officials.

(d) CORRECTIVE ACTION ORDERS.—

(1) IN GENERAL.—If the Secretary decides under subsection (a) of this section that a pipeline facility is or would be hazardous, the Secretary shall order the operator of the facility to take necessary corrective action, including suspended or restricted use of the facility, physical inspection, testing, repair, replacement, or other appropriate action.

(2) ACTIONS ATTRIBUTABLE TO AN EMPLOYEE.—If, in the case of a corrective action order issued following an accident, the Secretary determines that the actions of an employee carrying out an activity regulated under this chapter, including duties under section 60102(a), may have contributed substantially to the cause of the accident, the Secretary shall direct the operator to relieve the employee from performing those activities, reassign the employee, or place the employee on leave until the earlier of the date on which—

(A) the Secretary, after notice and an opportunity for a hearing, determines that the employee's actions did not contribute substantially to the cause of the accident; or

(B) the Secretary determines the employee has been re-qualified or re-trained as provided for in section 60131 and can safely perform those activities.

(3) EFFECT OF COLLECTIVE BARGAINING AGREEMENTS.—An action taken by an operator under paragraph (2) shall be in accordance with the terms and conditions of any applicable collective bargaining agreement.

(e) WAIVER OF NOTICE AND HEARING IN EMERGENCY.—The Secretary may waive the requirements for notice and an opportunity for a hearing under this section and issue expeditiously an order under this section if the Secretary decides failure to issue the order expeditiously will result in likely serious harm to life, property, or the environment. An order under this subsection shall provide an opportunity for a hearing as soon as practicable after the order is issued.

STATUTORY NOTES AND RELATED SUBSIDIARIES

MAINTENANCE OF CUSTOMER-OWNED SERVICE LINES

Pub. L. 102–508, title I, §115(b), Oct. 24, 1992, 106 Stat. 3296, provided that:

"(1) DOT SAFETY REVIEW.—Within 18 months after the date of the enactment of this Act [Oct. 24, 1992], the Secretary of Transportation shall conduct a review of Department of Transportation and State rules, policies, procedures, and other measures with respect to the safety of customer-owned natural gas service lines, including the effectiveness of such rules, policies, procedures, and other measures. The Secretary of Transportation shall include in the review an evaluation of the extent to which lack of maintenance of customer-owned natural gas service lines raises safety concerns and shall make recommendations regarding maintenance of such lines, including the need for any legislative changes or regulatory action. In conducting the review and developing the recommendations, the Secretary of Transportation shall consider the following

factors: State and local law, including law governing private property and rights, and including State pipeline safety regulation of distribution operators; the views of State and local regulatory authorities; the extent of operator compliance with the program for advising customers regarding maintenance of such lines required under section 18(b) of the Natural Gas Pipeline Safety Act of 1968 [see subsec. (a) of this section]; available accident information; the recommendations of the National Transportation Safety Board; costs; the civil liability implications of distribution operators taking responsibility for customer-owned service lines; and whether the service line maintenance information program required under such section 18(b) sufficiently addresses safety risks and concerns involving customer-owned service lines.

"(2) OPERATION AND MAINTENANCE RESPONSIBILITY.—Within 18 months after the date of the enactment of this Act [Oct. 24, 1992], the Secretary of Transportation shall conduct, with the participation of the operators of natural gas distribution facilities, a survey of owners of customer-owned service lines to determine the views of such owners regarding whether distribution companies should assume responsibility for the operation and maintenance of customer-owned service lines. In conducting the survey, the Secretary of Transportation shall ensure that such customers are aware of any potential safety benefits, any potential implementation issues (including any property rights or cost issues), the recommendations of the National Transportation Safety Board, and accidents that have occurred, related to customer-owned service lines.

"(3) APPLICABILITY.—Chapter 35 of title 44, United States Code (relating to coordination of Federal information policy) shall not apply to the conduct of the review or survey under this subsection.

"(4) REPORT.—Not later than 2 years after the date of the enactment of this Act [Oct. 24, 1992], the Secretary of Transportation shall transmit to Congress a report on the results of the review and survey conducted under this subsection, together with any recommendations (including legislative recommendations) regarding maintenance of customer-owned natural gas service lines."

§60114. One-call notification systems

(a) MINIMUM REQUIREMENTS.—The Secretary of Transportation shall prescribe regulations providing minimum requirements for establishing and operating a one-call notification system for a State to adopt that will notify an operator of a pipeline facility of activity in the vicinity of the facility that could threaten the safety of the facility. The regulations shall include the following:

(1) a requirement that the system apply to all areas of the State containing underground pipeline facilities.

(2) a requirement that a person, including a government employee or contractor, intending to engage in an activity the Secretary decides could cause physical damage to an underground facility must contact the appropriate system to establish if there are underground facilities present in the area of the intended activity.

(3) a requirement that all operators of underground pipeline facilities participate in an appropriate one-call notification system.

(4) qualifications for an operator of a facility, a private contractor, or a State or local authority to operate a system.

(5) procedures for advertisement and notice of the availability of a system.

(6) a requirement about the information to be provided by a person contacting the system under clause (2) of this subsection.

(7) a requirement for the response of the operator of the system and of the facility after they are contacted by an individual under this subsection.

(8) a requirement that each State decide whether the system will be toll free.

(9) a requirement for sanctions substantially the same as provided under sections 60120 and 60122 of this title.

(b) MARKING FACILITIES.—On notification by an operator of a damage prevention program or by a person planning to carry out demolition, excavation, tunneling, or construction in the vicinity of a pipeline facility, the operator of the facility shall mark accurately, in a reasonable and timely way, the location of the pipeline facilities in the vicinity of the demolition, excavation, tunneling, or construction.

(c) RELATIONSHIP TO OTHER LAWS.—This section and regulations prescribed under this section do not affect the liability established under a law of the United States or a State for damage

caused by an activity described in subsection (a)(2) of this section.

(d) PROHIBITION APPLICABLE TO EXCAVATORS.—A person who engages in demolition, excavation, tunneling, or construction—

(1) may not engage in a demolition, excavation, tunneling, or construction activity in a State that has adopted a one-call notification system without first using that system to establish the location of underground facilities in the demolition, excavation, tunneling, or construction area;

(2) may not engage in such demolition, excavation, tunneling, or construction activity in disregard of location information or markings established by a pipeline facility operator pursuant to subsection (b); and

(3) and who causes damage to a pipeline facility that may endanger life or cause serious bodily harm or damage to property—

(A) may not fail to promptly report the damage to the owner or operator of the facility; and

(B) if the damage results in the escape of any flammable, toxic, or corrosive gas or liquid, may not fail to promptly report to other appropriate authorities by calling the 911 emergency telephone number.

(e) PROHIBITION APPLICABLE TO UNDERGROUND PIPELINE FACILITY OWNERS AND OPERATORS.—Any owner or operator of a pipeline facility who fails to respond to a location request in order to prevent damage to the pipeline facility or who fails to take reasonable steps, in response to such a request, to ensure accurate marking of the location of the pipeline facility in order to prevent damage to the pipeline facility shall be subject to a civil action under section 60120 or assessment of a civil penalty under section 60122.

(f) LIMITATION.—The Secretary may not conduct an enforcement proceeding under subsection (d) for a violation within the boundaries of a State that has the authority to impose penalties described in section 60134(b)(7) against persons who violate that State's damage prevention laws, unless the Secretary has determined that the State's enforcement is inadequate to protect safety, consistent with this chapter, and until the Secretary issues, through a rulemaking proceeding, the procedures for determining inadequate State enforcement of penalties.

(g) TECHNOLOGY DEVELOPMENT GRANTS.—The Secretary may make grants to any organization or entity (not including for-profit entities) for the development of technologies that will facilitate the prevention of pipeline damage caused by demolition, excavation, tunneling, or construction activities, with emphasis on wireless and global positioning technologies having potential for use in connection with notification systems and underground facility locating and marking services. Funds provided under this subsection may not be used for lobbying or in direct support of litigation. The Secretary may also support such technology development through cooperative agreements with trade associations, academic institutions, and other organizations.

(a) ORGANIZATION.—The Technical Pipeline Safety Standards Committee and the Technical Hazardous Liquid Pipeline Safety Standards Committee are committees in the Department of Transportation. The committees referred to in the preceding sentence shall serve as peer review committees for carrying out this chapter. Peer reviews conducted by the committees shall be treated for purposes of all Federal laws relating to risk assessment and peer review (including laws that take effect after the date of the enactment of the Accountable Pipeline Safety and Partnership Act of 1996) as meeting any peer review requirements of such laws.

(b) COMPOSITION AND APPOINTMENT.—(1) The Technical Pipeline Safety Standards Committee is composed of 15 members appointed by the Secretary of Transportation after consulting with public and private agencies concerned with the technical aspect of transporting gas or operating a gas pipeline facility. Each member must be experienced in the safety regulation of transporting gas and of gas pipeline facilities or technically qualified, by training, experience, or knowledge in at least one field of engineering applicable to transporting gas or operating a gas pipeline facility, to evaluate gas pipeline safety standards or risk management principles.

(2) The Technical Hazardous Liquid Pipeline Safety Standards Committee is composed of 15 members appointed by the Secretary after consulting with public and private agencies concerned with the technical aspect of transporting hazardous liquid or operating a hazardous liquid pipeline facility. Each member must be experienced in the safety regulation of transporting hazardous liquid and of hazardous liquid pipeline facilities or technically qualified, by training, experience, or knowledge in at least one field of engineering applicable to transporting hazardous liquid or operating a hazardous liquid pipeline facility, to evaluate hazardous liquid pipeline safety standards or risk management principles.

Pipeline Safety Standards Committee, and any other committee established pursuant to this section. After that period, the Secretary shall fill a vacancy on any such committee not later than 60 days after the vacancy occurs.

(c) COMMITTEE REPORTS ON PROPOSED STANDARDS.—(1) The Secretary shall give to—

(A) the Technical Pipeline Safety Standards Committee each standard proposed under this chapter for transporting gas and for gas pipeline facilities including the risk assessment information and other analyses supporting each proposed standard; and

(B) the Technical Hazardous Liquid Pipeline Safety Standards Committee each standard proposed under this chapter for transporting hazardous liquid and for hazardous liquid pipeline facilities including the risk assessment information and other analyses supporting each proposed standard.

(2) Not later than 90 days after receiving the proposed standard and supporting analyses, the appropriate committee shall prepare and submit to the Secretary a report on the technical feasibility, reasonableness, cost-effectiveness, and practicability of the proposed standard and include in the report recommended actions. The Secretary shall publish each report, including any recommended actions and minority views. The report if timely made is part of the proceeding for prescribing the standard. The Secretary is not bound by the conclusions of the committee. However, if the Secretary rejects the conclusions of the committee, the Secretary shall publish the reasons.

(3) The Secretary may prescribe a standard after the end of the 90-day period.

(d) PROPOSED COMMITTEE STANDARDS AND POLICY DEVELOPMENT RECOMMENDATIONS.—(1) The Technical Pipeline Safety Standards Committee may propose to the Secretary a safety standard for transporting gas and for gas pipeline facilities. The Technical Hazardous Liquid Pipeline Safety Standards Committee may propose to the Secretary a safety standard for transporting hazardous liquid and for hazardous liquid pipeline facilities.

The objectives of this chapter include the development, improvement, and promotion of one-call damage prevention programs, research, risk assessment, and mapping.

(m) SAFETY ORDERS.—

(1) IN GENERAL.—Not later than December 31, 2007, the Secretary shall issue regulations providing that, after notice and opportunity for a hearing, if the Secretary determines that a pipeline facility has a condition that poses a pipeline integrity risk to public safety, property, or the

environment, the Secretary may order the operator of the facility to take necessary corrective action, including physical inspection, testing, repair, or other appropriate action, to remedy that condition.

(2) CONSIDERATIONS.—In making a determination under paragraph (1), the Secretary, if relevant and pursuant to the regulations issued under paragraph (1), shall consider—

(A) REVIEW COSTS.—For any project described in subparagraph (B), if the Secretary conducts facility design safety reviews in connection with a proposal to construct, expand, or operate a gas or hazardous liquid pipeline facility or liquefied natural gas pipeline facility, including construction inspections and oversight, the Secretary may require the person proposing the project to pay the costs incurred by the Secretary relating to such reviews. If the Secretary exercises the cost recovery authority described in this paragraph, the Secretary shall prescribe a fee structure and assessment methodology that is based on the costs of providing these reviews and shall prescribe procedures to collect fees under this paragraph. The Secretary may not collect design safety review fees under this paragraph and section 60301 for the same design safety review.

(B) PROJECTS TO WHICH APPLICABLE.—Subparagraph (A) applies to any project that—

(i) has design and construction costs totaling at least $2,500,000,000, as periodically adjusted by the Secretary to take into account increases in the Consumer Price Index for all-urban consumers published by the Department of Labor, based on—

(I) the cost estimate provided to the Federal Energy Regulatory Commission in an application for a certificate of public convenience and necessity for a gas pipeline facility or an application for authorization for a liquefied natural gas pipeline facility; or

(II) a good faith estimate developed by the person proposing a hazardous liquid pipeline facility and submitted to the Secretary; or

(ii) uses new or novel technologies or design, as determined by the Secretary.

(2) NOTIFICATION.—For any new pipeline facility construction project in which the Secretary will conduct design reviews, the person proposing the project shall notify the Secretary and provide the design specifications, construction plans and procedures, and related materials at least 120 days prior to the commencement of construction. To the maximum extent practicable, not later than 90 days after receiving such design specifications, construction plans and procedures, and related materials, the Secretary shall provide written comments, feedback, and guidance on the project.

(3) PIPELINE SAFETY DESIGN REVIEW FUND.—

(A) ESTABLISHMENT.—There is established a Pipeline Safety Design Review Fund in the

Treasury of the United States.

(B) DEPOSITS.—The Secretary shall deposit funds paid under this subsection into the Fund.

(C) USE.—Amounts in the Fund shall be available to the Secretary, in amounts specified in appropriations Acts, to offset the costs of conducting facility design safety reviews under this subsection.

(4) NO ADDITIONAL PERMITTING AUTHORITY.—Nothing in this subsection may be construed as authorizing the Secretary to require a person to obtain a permit before beginning design and construction in connection with a project described in paragraph (1)(B).

(p) EMERGENCY ORDER AUTHORITY.—

(1) IN GENERAL.—If the Secretary determines that an unsafe condition or practice, or a combination of unsafe conditions and practices, constitutes or is causing an imminent hazard, the Secretary may issue an emergency order described in paragraph (3) imposing emergency restrictions, prohibitions, and safety measures on owners and operators of gas or hazardous liquid pipeline facilities without prior notice or an opportunity for a hearing, but only to the extent necessary to abate the imminent hazard.

(2) CONSIDERATIONS.—

(A) IN GENERAL.—Before issuing an emergency order under paragraph (1), the Secretary shall consider, as appropriate, the following factors:

(i) The impact of the emergency order on public health and safety.

(ii) The impact, if any, of the emergency order on the national or regional economy or national security.

(iii) The impact of the emergency order on the ability of owners and operators of pipeline facilities to maintain reliability and continuity of service to customers.

(B) CONSULTATION.—In considering the factors under subparagraph (A), the Secretary shall consult, as the Secretary determines appropriate, with appropriate Federal agencies, State agencies, and other entities knowledgeable in pipeline safety or operations.

(A) the violation, condition, or practice that constitutes or is causing the imminent hazard;

(B) the entities subject to the order;

(C) the restrictions, prohibitions, or safety measures imposed;

(D) the standards and procedures for obtaining relief from the order;

(E) how the order is tailored to abate the imminent hazard and the reasons the authorities under section 60112 and subsection (m) are insufficient to do so; and

(F) how the considerations were taken into account pursuant to paragraph (2).

(4) OPPORTUNITY FOR REVIEW.—Upon receipt of a petition for review from an entity subject to, and aggrieved by, an emergency order issued under this subsection, the Secretary shall provide an opportunity for a review of the order under section 554 of title 5 to determine whether the order should remain in effect, be modified, or be terminated.

(5) EXPIRATION OF EFFECTIVENESS ORDER.—If a petition for review of an emergency order is filed under paragraph (4) and an agency decision with respect to the petition is not issued on or before the last day of the 30-day period beginning on the date on which the petition is filed, the order shall cease to be effective on such day, unless the Secretary determines in writing on or before the last day of such period that the imminent hazard still exists.

(6) JUDICIAL REVIEW OF ORDERS.—

(A) IN GENERAL.—After completion of the review process described in paragraph (4), or the issuance of a written determination by the Secretary pursuant to paragraph (5), an entity subject to, and aggrieved by, an emergency order issued under this subsection may seek judicial

review of the order in a district court of the United States and shall be given expedited consideration.

(B) LIMITATION.—The filing of a petition for review under subparagraph (A) shall not stay or modify the force and effect of the agency's final decision under paragraph (4), or the written determination under paragraph (5), unless stayed or modified by the Secretary.

(7) REGULATIONS.—

(A) TEMPORARY REGULATIONS.—Not later than 60 days after the date of enactment of the PIPES Act of 2016, the Secretary shall issue such temporary regulations as are necessary to carry out this subsection. The temporary regulations shall expire on the date of issuance of the final regulations required under subparagraph (B).

(B) FINAL REGULATIONS.—Not later than 270 days after such date of enactment, the Secretary shall issue such regulations as are necessary to carry out this subsection. Such regulations shall ensure that the review process described in paragraph (4) contains the same procedures as subsections (d) and (g) of section 109.19 of title 49, Code of Federal Regulations, and is otherwise consistent with the review process developed under such section, to the greatest extent practicable and not inconsistent with this section.

(8) IMMINENT HAZARD DEFINED.—In this subsection, the term "imminent hazard" means the existence of a condition relating to a gas or hazardous liquid pipeline facility that presents a substantial likelihood that death, serious illness, severe personal injury, or a substantial endangerment to health, property, or the environment may occur before the reasonably foreseeable completion date of a formal proceeding begun to lessen the risk of such death, illness, injury, or endangerment.

(9) LIMITATION AND SAVINGS CLAUSE.—An emergency order issued under this subsection may not be construed to—

AMENDMENTS

2012—Subsec. (a)(1). Pub. L. 112–90 added at end "The maximum amount of civil penalties for administrative enforcement actions under section 60122 shall not apply to enforcement actions under this section."

Subsec. (a). Pub. L. 107–355 reenacted subsec. heading without change, added par. (1) and struck out former par. (1), inserted par. (2) heading and realigned margins. Prior to amendment, par. (1) read as follows: "On the request of the Secretary of Transportation, the Attorney General may bring a civil action in an appropriate district court of the United States to enforce this chapter or a regulation prescribed or order issued under this chapter. The court may award appropriate relief, including punitive damages."

§60121. Actions by private persons

(a) GENERAL AUTHORITY.—(1) A person may bring a civil action in an appropriate district court of the United States for an injunction against another person (including the United States Government and other governmental authorities to the extent permitted under the 11th amendment to the Constitution) for a violation of this chapter or a regulation prescribed or order issued under this chapter. However, the person—

(A) may bring the action only after 60 days after the person has given notice of the violation to the Secretary of Transportation or to the appropriate State authority (when the violation is alleged to have occurred in a State certified under section 60105 of this title) and to the person alleged to have committed the violation;

(B) may not bring the action if the Secretary or authority has begun and diligently is pursuing an administrative proceeding for the violation; and

(C) may not bring the action if the Attorney General of the United States, or the chief law enforcement officer of a State, has begun and diligently is pursuing a judicial proceeding for the violation.

(2) The Secretary shall prescribe the way in which notice is given under this subsection.

(3) The Secretary, with the approval of the Attorney General, or the Attorney General may intervene in an action under paragraph (1) of this subsection.

(b) COSTS AND FEES.—The court may award costs, reasonable expert witness fees, and a reasonable attorney's fee to a prevailing plaintiff in a civil action under this section. The court may award costs to a prevailing defendant when the action is unreasonable, frivolous, or meritless. In this subsection, a reasonable attorney's fee is a fee—

(1) based on the actual time spent and the reasonable expenses of the attorney for legal services provided to a person under this section; and

(2) computed at the rate prevailing for providing similar services for actions brought in the court awarding the fee.

(c) STATE VIOLATIONS AS VIOLATIONS OF THIS CHAPTER.—In this section, a violation of a safety standard or practice of a State is deemed to be a violation of this chapter or a regulation prescribed or order issued under this chapter only to the extent the standard or practice is not more stringent than a comparable minimum safety standard prescribed under this chapter.

(d) ADDITIONAL REMEDIES.—A remedy under this section is in addition to any other remedies provided by law. This section does not restrict a right to relief that a person or a class of

persons may have under another law or at common law.

(B) to evaluate the safety and cost-effectiveness of the program.

(2) EXEMPTIONS.—In carrying out a demonstration project under this subsection, the Secretary, by order—

(A) may exempt an owner or operator of the pipeline facility covered under the project (referred to in this subsection as a "covered pipeline facility"), from the applicability of all or a portion of the requirements under this chapter that would otherwise apply to the covered pipeline facility; and

(B) shall exempt, for the period of the project, an owner or operator of the covered pipeline facility, from the applicability of any new standard that the Secretary promulgates under this chapter during the period of that participation, with respect to the covered facility.

(b) REQUIREMENTS.—In carrying out a demonstration project under this section, the Secretary shall—

(1) invite owners and operators of pipeline facilities to submit risk management plans for timely approval by the Secretary;

facility, taking into consideration the location, volume, pressure, and material transported or stored by that pipeline facility;

(F) the application of risk assessment and risk management methodologies that are suitable to the inherent risks that are determined to exist through the use of models developed under subparagraph (E);

(G) the development of project elements that are necessary to ensure that—

The Secretary may revoke any exemption granted under this section for substantial noncompliance with the terms and conditions of an approved risk management plan.

(d) PARTICIPATION BY STATE AUTHORITY.—In carrying out this section, the Secretary may provide for consultation by a State that has in effect a certification under section 60105. To the extent that a demonstration project comprises an intrastate natural gas pipeline or an intrastate hazardous liquid pipeline facility, the Secretary may make an agreement with the State agency to carry out the duties of the Secretary for approval and administration of the project.

(e) REPORT.—Not later than March 31, 2000, the Secretary shall transmit to the Congress a report on the results of the demonstration projects carried out under this section that includes—

(1) an evaluation of each such demonstration project, including an evaluation of the performance of each participant in that project with respect to safety and environmental protection; and

Not later than 60 days after the date of notification of findings under this subparagraph, any person alleged to have committed a violation or the complainant may file objections to the findings or preliminary order, or both, and request a hearing on the record. The filing of such objections shall not operate to stay any reinstatement remedy contained in the preliminary order. Such hearings shall be conducted expeditiously. If a hearing is not requested in such 60-day period, the preliminary order shall be deemed a final order that is not subject to judicial review.

(B) REQUIREMENTS.—

(i) REQUIRED SHOWING BY COMPLAINANT.—The Secretary of Labor shall dismiss a complaint filed under this subsection and shall not conduct an investigation otherwise required under subparagraph (A) unless the complainant makes a prima facie showing that any behavior described in subsection (a) was a contributing factor in the unfavorable personnel action alleged in the complaint.

(ii) SHOWING BY EMPLOYER.—Notwithstanding a finding by the Secretary of Labor that the complainant has made the showing required under clause (i), no investigation otherwise required under subparagraph (A) shall be conducted if the employer demonstrates, by clear and convincing evidence, that the employer would have taken the same unfavorable personnel action in the absence of that behavior.

(iii) CRITERIA FOR DETERMINATION BY SECRETARY.—The Secretary of Labor may determine that a violation of subsection (a) has occurred only if the complainant demonstrates that any behavior described in subsection (a) was a contributing factor in the unfavorable personnel action alleged in the complaint.

(iv) PROHIBITION.—Relief may not be ordered under subparagraph (A) if the employer demonstrates by clear and convincing evidence that the employer would have taken the same unfavorable personnel action in the absence of that behavior.

At any time before issuance of a final order, a proceeding under this subsection may be terminated

on the basis of a settlement agreement entered into by the Secretary of Labor, the complainant, and the person or persons alleged to have committed the violation.

(B) REMEDY.—If, in response to a complaint filed under paragraph (1), the Secretary of Labor determines that a violation of subsection (a) has occurred, the Secretary of Labor shall order the person or persons who committed such violation to—

(ii) reinstate the complainant to his or her former position together with the compensation (including back pay) and restore the terms, conditions, and privileges associated with his or her employment; and

(iii) provide compensatory damages to the complainant.

If such an order is issued under this paragraph, the Secretary of Labor, at the request of the complainant, shall assess against the person or persons against whom the order is issued a sum equal to the aggregate amount of all costs and expenses (including attorney's and expert witness fees) reasonably incurred, as determined by the Secretary of Labor, by the complainant for, or in connection with, the bringing the complaint upon which the order was issued.

(C) FRIVOLOUS COMPLAINTS.—If the Secretary of Labor finds that a complaint under paragraph (1) is frivolous or has been brought in bad faith, the Secretary of Labor may award to the prevailing employer a reasonable attorney's fee not exceeding $1,000.

(D) DE NOVO REVIEW.—

(i) IN GENERAL.—With respect to a complaint under paragraph (1), if the Secretary of Labor has not issued a final decision by the date that is 210 days after the date on which the complaint was filed, and if the delay is not due to the bad faith of the employee who filed the complaint, that employee may bring an original action at law or equity for de novo review in the appropriate district court of the United States, which shall have jurisdiction over such action without regard to the amount in controversy, and which action shall, at the request of either party to the action, be tried by the court with a jury.

(ii) BURDENS OF PROOF.—An original action described in clause (i) shall be governed by the same legal burdens of proof specified in paragraph (2)(B) for review by the Secretary of Labor.

(4) REVIEW.—

(A) APPEAL TO COURT OF APPEALS.—Any person adversely affected or aggrieved by an order issued under paragraph (3) may obtain review of the order in the United States Court of Appeals for the circuit in which the violation, with respect to which the order was issued, allegedly occurred or the circuit in which the complainant resided on the date of such violation. The petition for review must be filed not later than 60 days after the date of issuance of the final order of the Secretary of Labor. Review shall conform to chapter 7 of title 5, United States Code. The commencement of proceedings under this subparagraph shall not, unless ordered by the court, operate as a stay of the order.

(B) LIMITATION ON COLLATERAL ATTACK.—An order of the Secretary of Labor with respect to which review could have been obtained under subparagraph (A) shall not be subject to judicial review in any criminal or other civil proceeding.

(5) ENFORCEMENT OF ORDER BY SECRETARY OF LABOR.—Whenever any person has failed to comply with an order issued under paragraph (3), the Secretary of Labor may file a civil action in the United States district court for the district in which the violation was found to occur to enforce such order. In actions brought under this paragraph, the district courts shall have jurisdiction to grant all appropriate relief, including, but not to be limited to, injunctive relief and compensatory damages.

(6) ENFORCEMENT OF ORDER BY PARTIES.—

(A) COMMENCEMENT OF ACTION.—A person on whose behalf an order was issued under paragraph (3) may commence a civil action against the person or persons to whom such

order was issued to require compliance with such order. The appropriate United States district court shall have jurisdiction, without regard to the amount in controversy or the citizenship of the parties, to enforce such order.

(B) ATTORNEY FEES.—The court, in issuing any final order under this paragraph, may award costs of litigation (including reasonable attorney and expert witness fees) to any party whenever the court determines such award of costs is appropriate.

(c) MANDAMUS.—Any nondiscretionary duty imposed by this section shall be enforceable in a mandamus proceeding brought under section 1361 of title 28, United States Code.

(d) NONAPPLICABILITY TO DELIBERATE VIOLATIONS.—Subsection (a) shall not apply with respect to an action of an employee of an employer who, acting without direction from the employer (or such employer's agent), deliberately causes a violation of any requirement relating to pipeline safety under this chapter or any other law of the United States.

(e) NONENFORCEABILITY OF CERTAIN PROVISIONS WAIVING RIGHTS AND REMEDIES OR REQUIRING ARBITRATION OF DISPUTES.—

(1) WAIVER OF RIGHTS AND REMEDIES.—The rights and remedies provided under this section may not be waived by any agreement, policy, form, or condition of employment, including by a predispute arbitration agreement.

(2) PREDISPUTE ARBITRATION AGREEMENTS.—No provision of a predispute arbitration agreement shall be valid or enforceable if the provision requires arbitration of a dispute arising under subsection (a)(1).

(C) A requirement that the plans and procedures adopted by a pipeline operator under subparagraph (B) be reviewed and verified under subsection (e).

(c) DEVELOPMENT OF QUALIFICATION PROGRAMS BY PIPELINE OPERATORS.—The Secretary shall require each pipeline operator to develop and adopt, not later than 2 years after the date of enactment of this section, a qualification program that complies with the standards and criteria described in subsection (b).

(1) A method for examining or testing the qualifications of individuals described in subsection (a). The method may include written examination, oral examination, observation during on-the-job performance, on-the-job training, simulations, and other forms of assessment. The method may not be limited to observation of on-the-job performance, except with respect to tasks for which the Secretary has determined that such observation is the best method of examining or testing qualifications. The Secretary shall ensure that the results of any such observations are documented in writing.

(2) A requirement that the operator complete the qualification of all individuals described in subsection (a) not later than 18 months after the date of adoption of the qualification program.

(a) INTERAGENCY COMMITTEE.—

(1) ESTABLISHMENT AND PURPOSE.—Not later than 30 days after the date of enactment of this section, the President shall establish an Interagency Committee to develop and ensure implementation of a coordinated environmental review and permitting process in order to enable pipeline operators to commence and complete all activities necessary to carry out pipeline repairs within any time periods specified by rule by the Secretary.

(2) MEMBERSHIP.—The Chairman of the Council on Environmental Quality (or a designee of the Chairman) shall chair the Interagency Committee, which shall consist of representatives of Federal agencies with responsibilities relating to pipeline repair projects, including each of the following persons (or a designee thereof):

(A) The Secretary of Transportation.

(B) The Administrator of the Environmental Protection Agency.

(C) The Director of the United States Fish and Wildlife Service.

(D) The Assistant Administrator for Fisheries of the National Oceanic and Atmospheric Administration.

(E) The Director of the Bureau of Land Management.

(F) The Director of the Minerals Management Service.

(G) The Assistant Secretary of the Army for Civil Works.

(H) The Chairman of the Federal Energy Regulatory Commission.

(3) EVALUATION.—The Interagency Committee shall evaluate Federal permitting requirements to which access, excavation, and restoration activities in connection with pipeline repairs described in paragraph (1) may be subject. As part of its evaluation, the Interagency Committee shall examine the access, excavation, and restoration practices of the pipeline industry in connection with such pipeline repairs, and may develop a compendium of best practices used by the industry to access, excavate, and restore the site of a pipeline repair.

(4) MEMORANDUM OF UNDERSTANDING.—Based upon the evaluation required under paragraph (3) and not later than 1 year after the date of enactment of this section, the members of the Interagency Committee shall enter into a memorandum of understanding to provide for a coordinated and expedited pipeline repair permit review process to carry out the purpose set forth in paragraph (1). The Interagency Committee shall include provisions in the memorandum of understanding identifying those repairs or categories of repairs described in paragraph (1) for which the best practices identified under paragraph (3), when properly employed by a pipeline operator, would result in no more than minimal adverse effects on the environment and for which discretionary administrative reviews may therefore be minimized or eliminated. With respect to pipeline repairs described in paragraph (1) to which the preceding sentence would not be applicable, the Interagency Committee shall include provisions to enable pipeline operators to commence and complete all activities necessary to carry out pipeline repairs within any time periods specified by rule by the Secretary. The Interagency Committee shall include in the memorandum of understanding criteria under which permits required for such pipeline repair activities should be prioritized over other less urgent agency permit application reviews. The Interagency Committee shall not enter into a memorandum of understanding under this paragraph except by unanimous agreement of the members of the Interagency Committee.

(b) IMPLEMENTATION.—Not later than 180 days after the completion of the memorandum of understanding required under subsection (a)(4), each agency represented on the Interagency Committee shall revise its regulations as necessary to implement the provisions of the memorandum of understanding.

(c) SAVINGS PROVISIONS; NO PREEMPTION.—Nothing in this section shall be construed—

(2) to preempt applicable Federal, State, or local environmental law.

(d) INTERIM OPERATIONAL ALTERNATIVES.—

(1) IN GENERAL.—Not later than 30 days after the date of enactment of this section, and subject to the limitations in paragraph (2), the Secretary of Transportation shall revise the regulations of the Department, to the extent necessary, to permit a pipeline operator subject to time periods for repair specified by rule by the Secretary to implement alternative mitigation measures until all applicable permits have been granted.

(2) LIMITATIONS.—The regulations issued by the Secretary pursuant to this subsection shall not allow an operator to implement alternative mitigation measures pursuant to paragraph (1) unless—

(A) allowing the operator to implement such measures would be consistent with the protection of human health, public safety, and the environment;

(B) the operator, with respect to a particular repair project, has applied for and is pursuing diligently and in good faith all required Federal, State, and local permits to carry out the project; and

(C) the proposed alternative mitigation measures are not incompatible with pipeline safety.

(e) OMBUDSMAN.—The Secretary shall designate an ombudsman to assist in expediting pipeline repairs and resolving disagreements between Federal, State, and local permitting agencies and the pipeline operator during agency review of any pipeline repair activity, consistent with protection of human health, public safety, and the environment.

(f) STATE AND LOCAL PERMITTING PROCESSES.—The Secretary shall encourage States and local governments to consolidate their respective permitting processes for pipeline repair projects subject to any time periods for repair specified by rule by the Secretary. §60134. State damage prevention programs

(a) IN GENERAL.—The Secretary may make a grant to a State authority (including a municipality with respect to intrastate gas pipeline transportation) to assist in improving the overall quality and effectiveness of a damage prevention program of the State authority under subsection (e) if the State authority—

(1) has in effect an annual certification under section 60105 or an agreement under section 60106;

(2)(A) has in effect an effective damage prevention program that meets the requirements of subsection (b); or

(B) demonstrates that it has made substantial progress toward establishing such a program, and that such program will meet the requirements of subsection (b); and

(3) does not provide any exemptions to municipalities, State agencies, or their contractors from the one-call notification system requirements of the program.

(b) DAMAGE PREVENTION PROGRAM ELEMENTS.—An effective damage prevention program includes the following elements:

(1) Participation by operators, excavators, and other stakeholders in the development and implementation of methods for establishing and maintaining effective communications between stakeholders from receipt of an excavation notification until successful completion of the excavation, as appropriate.

(2) A process for fostering and ensuring the support and partnership of stakeholders, including excavators, operators, locators, designers, and local government in all phases of the program.

(3) A process for reviewing the adequacy of a pipeline operator's internal performance measures regarding persons performing locating services and quality assurance programs.

(4) Participation by operators, excavators, and other stakeholders in the development and implementation of effective employee training programs to ensure that operators, the one-call

center, the enforcing agency, and the excavators have partnered to design and implement training for the employees of operators, excavators, and locators.

(5) A process for fostering and ensuring active participation by all stakeholders in public education for damage prevention activities.

(6) A process for resolving disputes that defines the State authority's role as a partner and facilitator to resolve issues.

(7) Enforcement of State damage prevention laws and regulations for all aspects of the damage prevention process, including public education, and the use of civil penalties for violations assessable by the appropriate State authority.

(8) A process for fostering and promoting the use, by all appropriate stakeholders, of improving technologies that may enhance communications, underground pipeline locating capability, and gathering and analyzing information about the accuracy and effectiveness of locating programs.

(9) A process for review and analysis of the effectiveness of each program element, including a means for implementing improvements identified by such program reviews.

(c) FACTORS TO CONSIDER.—In making grants under this section, the Secretary shall take into consideration the commitment of each State to ensuring the effectiveness of its damage prevention program, including legislative and regulatory actions taken by the State.

(d) APPLICATION.—If a State authority files an application for a grant under this section not later than September 30 of a calendar year and demonstrates that the Governor (or chief executive) of the State has designated it as the appropriate State authority to receive the grant, the Secretary shall review the State's damage prevention program to determine its effectiveness.

(e) USE OF FUNDS.—A grant under this section to a State authority may only be used to pay the cost of the personnel, equipment, and activities that the State authority reasonably requires for the calendar year covered by the grant to develop or carry out its damage prevention program in accordance with subsection (b).

(f) NONAPPLICABILITY OF LIMITATION.—A grant made under this section is not subject to the section 60107(a) limitation on the maximum percentage of funds to be paid by the Secretary.

(g) LIMITATION ON USE OF FUNDS.—Funds provided to carry out this section may not be used for lobbying or in direct support of litigation.

(h) DAMAGE PREVENTION PROCESS DEFINED.—In this section, the term "damage prevention process" means a process that incorporates the principles described in sections 60114(b), 60114(d), and 60114(e).

§60136. Petroleum product transportation capacity study

(a) IN GENERAL.—The Secretaries of Transportation and Energy shall conduct periodic analyses of the domestic transport of petroleum products by pipeline. Such analyses should identify areas of the United States where unplanned loss of individual pipeline facilities may cause shortages of petroleum products or price disruptions and where shortages of pipeline capacity and reliability concerns may have or are anticipated to contribute to shortages of petroleum products or price disruptions. Upon identifying such areas, the Secretaries may determine if the current level of regulation is sufficient to minimize the potential for unplanned losses of pipeline capacity.

(b) CONSULTATION.—In preparing any analysis under this section, the Secretaries may consult with the heads of other government agencies and public- and private-sector experts in pipeline and other forms of petroleum product transportation, energy consumption, pipeline capacity, population, and economic development.

(c) REPORT TO CONGRESS.—Not later than June 1, 2008, the Secretaries shall submit to the Committee on Energy and Commerce and the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation and the Committee on Energy and Natural Resources of the Senate a report setting forth their recommendations to reduce the likelihood of the shortages and price disruptions referred to in subsection (a).

(d) ADDITIONAL REPORTS.—The Secretaries shall submit additional reports to the congressional committees referred to in subsection (c) containing the results of any subsequent analyses performed under subsection (a) and any additional recommendations, as appropriate.

(e) PETROLEUM PRODUCT DEFINED.—In this section, the term "petroleum product" means oil of any kind or in any form, gasoline, diesel fuel, aviation fuel, fuel oil, kerosene, any product obtained from refining or processing of crude oil, liquefied petroleum gases, natural gas liquids, petrochemical feedstocks, condensate, waste or refuse mixtures containing any of such oil products, and any other liquid hydrocarbon compounds.

§60137. Pipeline control room management

(a) IN GENERAL.—Not later than June 1, 2008, the Secretary shall issue regulations requiring each operator of a gas or hazardous liquid pipeline to develop, implement, and submit to the Secretary or, in the case of an operator of an intrastate pipeline located within the boundaries of a State that has in effect an annual certification under section 60105, to the head of the appropriate State authority, a human factors management plan designed to reduce risks associated with human factors, including fatigue, in each control center for the pipeline. Each plan must include, among the measures to reduce such risks, a maximum limit on the hours of service established by the operator for individuals employed as controllers in a control center for the pipeline.

(b) REVIEW AND APPROVAL OF THE PLAN.—The Secretary or, in the case of an operator of an intrastate pipeline located within the boundaries of a State that has in effect an annual certification under section 60105, the head of the appropriate State authority, shall review and approve each plan submitted to the Secretary or the head of such authority under subsection (a). The Secretary and the head of such authority may not approve a plan that does not include a maximum limit on the hours of service established by the operator of the pipeline for individuals employed as controllers in a control center for the pipeline.

(c) ENFORCEMENT OF THE PLAN.—If the Secretary or the head of the appropriate State authority determines that an operator's plan submitted to the Secretary or the head of such authority under subsection (a), or implementation of such a plan, does not comply with the regulations issued under this section or is inadequate for the safe operation of a pipeline, the Secretary or the head of such authority may take action consistent with this chapter and enforce the requirements of such regulations.

(d) COMPLIANCE WITH THE PLAN.—Each operator of a gas or hazardous liquid pipeline shall document compliance with the plan submitted by the operator under subsection (a) and the reasons for any deviation from compliance with such plan. The Secretary or the head of the appropriate State authority, as the case may be, shall review the reasonableness of any such deviation in considering whether to take enforcement action or discontinue approval of the operator's plan under subsection (b).

(e) DEVIATION REPORTING REQUIREMENTS.—In issuing regulations under subsection (a), the Secretary shall develop and include in such regulations requirements for an operator of a gas or hazardous liquid pipeline to report deviations from compliance with the plan submitted by the operator under subsection (a).

(Added Pub. L. 109–468, §12(a), Dec. 29, 2006, 120 Stat. 3494.)

§60138. Response plans

(a) IN GENERAL.—The Secretary of Transportation shall—

(1) maintain on file a copy of the most recent response plan (as defined in part 194 of title 49, Code of Federal Regulations) prepared by an owner or operator of a pipeline facility; and

(2) provide upon written request to a person a copy of the plan, which may exclude, as the Secretary determines appropriate—

(A) proprietary information;

(B) security-sensitive information, including information described in section 1520.5(a) of title 49, Code of Federal Regulations;

(C) specific response resources and tactical resource deployment plans; and

(D) the specific amount and location of worst case discharges (as defined in part 194 of title 49, Code of Federal Regulations), including the process by which an owner or operator determines the worst case discharge.

(b) RELATIONSHIP TO FOIA.—Nothing in this section may be construed to require disclosure of information or records that are exempt from disclosure under section 552 of title 5.

(Added Pub. L. 112–90, §6(c)(1), Jan. 3, 2012, 125 Stat. 1910.)

§60139. Maximum allowable operating pressure

(a) VERIFICATION OF RECORDS.—

(1) IN GENERAL.—The Secretary of Transportation shall require each owner or operator of a pipeline facility to conduct, not later than 6 months after the date of enactment of this section, a verification of the records of the owner or operator relating to the interstate and intrastate gas transmission pipelines of the owner or operator in class 3 and class 4 locations and class 1 and class 2 high-consequence areas.

(2) PURPOSE.—The purpose of the verification shall be to ensure that the records accurately reflect the physical and operational characteristics of the pipelines described in paragraph (1) and confirm the established maximum allowable operating pressure of the pipelines.

(3) ELEMENTS.—The verification process under this subsection shall include such elements as the Secretary considers appropriate.

(b) REPORTING.—

(1) DOCUMENTATION OF CERTAIN PIPELINES.—Not later than 18 months after the date of enactment of this section, each owner or operator of a pipeline facility shall identify and submit to the Secretary documentation relating to each pipeline segment of the owner or operator described in subsection (a)(1) for which the records of the owner or operator are insufficient to confirm the established maximum allowable operating pressure of the segment.

(2) EXCEEDANCES OF MAXIMUM ALLOWABLE OPERATING PRESSURE.—If there is an exceedance of the maximum allowable operating pressure with respect to a gas transmission pipeline of an owner or operator of a pipeline facility that exceeds the build-up allowed for operation of pressure-limiting or control devices, the owner or operator shall report the exceedance to the Secretary and appropriate State authorities on or before the 5th day following the date on which the exceedance occurs.

(c) DETERMINATION OF MAXIMUM ALLOWABLE OPERATING PRESSURE.—

(1) IN GENERAL.—In the case of a transmission line of an owner or operator of a pipeline facility identified under subsection (b)(1), the Secretary shall—

(A) require the owner or operator to reconfirm a maximum allowable operating pressure as expeditiously as economically feasible; and

(B) determine what actions are appropriate for the pipeline owner or operator to take to maintain safety until a maximum allowable operating pressure is confirmed.

(2) INTERIM ACTIONS.—In determining the actions for an owner or operator of a pipeline facility to take under paragraph (1)(B), the Secretary shall take into account potential consequences to public safety and the environment, potential impacts on pipeline system reliability and deliverability, and other factors, as appropriate.

(d) TESTING REGULATIONS.—

(1) IN GENERAL.—Not later than 18 months after the date of enactment of this section, the Secretary shall issue regulations for conducting tests to confirm the material strength of previously untested natural gas transmission pipelines located in high-consequence areas and operating at a pressure greater than 30 percent of specified minimum yield strength.

(2) CONSIDERATIONS.—In developing the regulations, the Secretary shall consider safety testing methodologies, including, at a minimum—

(A) pressure testing; and

(B) other alternative methods, including in-line inspections, determined by the Secretary to be of equal or greater effectiveness.

(3) COMPLETION OF TESTING.—The Secretary, in consultation with the Chairman of the

Federal Energy Regulatory Commission and State regulators, as appropriate, shall establish timeframes for the completion of such testing that take into account potential consequences to public safety and the environment and that minimize costs and service disruptions.

(e) HIGH-CONSEQUENCE AREA DEFINED.—In this section, the term "high-consequence area" means an area described in section 60109(a).

(1) STUDY.—The Secretary of Transportation shall conduct a study of hazardous liquid pipeline incidents at crossings of inland bodies of water with a width of at least 100 feet from high water mark to high water mark to determine if the depth of cover over the buried pipeline was a factor in any accidental release of hazardous liquids.

(2) REPORT.—Not later than 1 year after the date of enactment of this section, the Secretary shall transmit to the Committee on Transportation and Infrastructure and the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report on the results of the study.

(b) ASSESSMENT OF CURRENT REQUIREMENTS FOR DEPTH OF COVER OVER BURIED PIPELINES.—

(1) IN GENERAL.—If, following completion of the study under subsection (a), the Secretary finds that the depth of cover over buried pipelines is a contributing factor in the accidental release of hazardous liquids from the pipelines, the Secretary, not later than 1 year after the date of completion of the study, shall review and determine the sufficiency of current requirements for the depth of cover over buried pipelines.

(2) LEGISLATIVE RECOMMENDATIONS.—

(A) DEVELOPMENT.—If the Secretary determines under paragraph (1) that the current requirements for the depth of cover over buried pipelines are insufficient, the Secretary shall develop legislative recommendations for improving the safety of buried pipelines at crossings of inland bodies of water with a width of at least 100 feet from high water mark to high water mark.

(B) CONSIDERATION OF FACTORS.—In developing legislative recommendations under subparagraph (A), the Secretary shall consider the factors specified in section 60102(b)(2).

In this section, before clause (1), the words "unless the context of subject matter otherwise requires" are omitted as unnecessary because of the restatement. The words " 'Action' includes counterclaim, set-off, and suit in equity" are omitted as unnecessary. The words " 'Bill' means bill of lading, governed by this chapter" are omitted because of section 80102 of the revised title. In clauses (1), (2), and (4), the words " 'Person' includes a corporation or partnership, or two or more persons having a joint or common interest" are omitted because of 1:1. In clause (3), the words "personal property" are substituted for "chattels" for clarity and consistency. The words "is being" are substituted for "in course of" for clarity. In clause (7), the words " 'State' means a State of the United States" are substituted for " 'State' includes" for clarity and consistency in the revised title and with other titles of the Code. The word "possession" is substituted for "insular possession, or isthmian possession" for consistency in the revised title.

(1) between a place in the District of Columbia and another place in the District of Columbia;

(2) between a place in a territory or possession of the United States and another place in the same territory or possession;

(3) between a place in a State and a place in another State;

(4) between a place in a State and a place in the same State through another State or a foreign country; or

In this chapter, the words "common carrier" are substituted for "carrier" because the source provisions restated in this section provide that this chapter applies to bills of lading issued by common carriers.

In clause (2), the words "territory or possession" are substituted for "Territory" for consistency in the revised title and with other titles of the United States Code.

§80103. Negotiable and nonnegotiable bills

(a) NEGOTIABLE BILLS.—(1) A bill of lading is negotiable if the bill—

(A) states that the goods are to be delivered to the order of a consignee; and

(B) does not contain on its face an agreement with the shipper that the bill is not negotiable.

(2) Inserting in a negotiable bill of lading the name of a person to be notified of the arrival of the goods—

(A) does not limit its negotiability; and

(B) is not notice to the purchaser of the goods of a right the named person has to the goods.

(b) NONNEGOTIABLE BILLS.—(1) A bill of lading is nonnegotiable if the bill states that the goods are to be delivered to a consignee. The indorsement of a nonnegotiable bill does not—

(A) make the bill negotiable; or

(B) give the transferee any additional right.

(2) A common carrier issuing a nonnegotiable bill of lading must put "nonnegotiable" or "not negotiable" on the bill. This paragraph does not apply to an informal memorandum or acknowledgment.

§80104. Form and requirements for negotiation

(a) GENERAL RULES.—(1) A negotiable bill of lading may be negotiated by indorsement. An indorsement may be made in blank or to a specified person. If the goods are deliverable to the order of a specified person, then the bill must be indorsed by that person.

(2) A negotiable bill of lading may be negotiated by delivery when the common carrier, under the terms of the bill, undertakes to deliver the goods to the order of a specified person and that person or a subsequent indorsee has indorsed the bill in blank.

(3) A negotiable bill of lading may be negotiated by a person possessing the bill, regardless of the way in which the person got possession, if—

(A) a common carrier, under the terms of the bill, undertakes to deliver the goods to that person; or

(B) when the bill is negotiated, it is in a form that allows it to be negotiated by delivery.

(b) VALIDITY NOT AFFECTED.—The validity of a negotiation of a bill of lading is not affected by the negotiation having been a breach of duty by the person making the negotiation, or by the owner of the bill having been deprived of possession by fraud, accident, mistake, duress, loss, theft, or conversion, if the person to whom the bill is negotiated, or a person to whom the bill is subsequently negotiated, gives value for the bill in good faith and without notice of the breach of duty, fraud, accident, mistake, duress, loss, theft, or conversion.

(c) NEGOTIATION BY SELLER, MORTGAGOR, OR PLEDGOR TO PERSON WITHOUT NOTICE.—When goods for which a negotiable bill of lading has been issued are in a common carrier's possession, and the person to whom the bill has been issued retains possession of the bill after selling, mortgaging, or pledging the goods or bill, the subsequent negotiation of the bill by that person to another person receiving the bill for value, in good faith, and without notice of the prior sale, mortgage, or pledge has the same effect as if the first purchaser of the goods or bill had expressly authorized the subsequent negotiation.

The text of 49 App.:108 (last sentence) is omitted as unnecessary because of the restatement.

§80105. Title and rights affected by negotiation

(a) TITLE.—When a negotiable bill of lading is negotiated—

(1) the person to whom it is negotiated acquires the title to the goods that—

(A) the person negotiating the bill had the ability to convey to a purchaser in good faith for value; and

(B) the consignor and consignee had the ability to convey to such a purchaser; and

(2) the common carrier issuing the bill becomes obligated directly to the person to whom the bill is negotiated to hold possession of the goods under the terms of the bill the same as if the carrier had issued the bill to that person.

(b) SUPERIORITY OF RIGHTS.—When a negotiable bill of lading is negotiated to a person for value in good faith, that person's right to the goods for which the bill was issued is superior to a seller's lien or to a right to stop the transportation of the goods. This subsection applies whether the negotiation is made before or after the common carrier issuing the bill receives notice of the seller's claim. The carrier may deliver the goods to an unpaid seller only if the bill first is surrendered for cancellation.

(c) MORTGAGEE AND LIEN HOLDER RIGHTS NOT AFFECTED.—Except as provided in subsection (b) of this section, this chapter does not limit a right of a mortgagee or lien holder having a mortgage or lien on goods against a person that purchased for value in good faith from the owner, and got possession of the goods immediately before delivery to the common carrier.

The words "whose mortgage or lien on goods would be valid, apart from this chapter" are omitted as unnecessary because of the restatement. The words "which are subject to the mortgage or lien" are omitted as unnecessary.

§80106. Transfer without negotiation

(a) DELIVERY AND AGREEMENT.—The holder of a bill of lading may transfer the bill without negotiating it by delivery and agreement to transfer title to the bill or to the goods represented by it. Subject to the agreement, the person to whom the bill is transferred has title to the goods against the transferor.

(b) COMPELLING INDORSEMENT.—When a negotiable bill of lading is transferred for value by delivery without being negotiated and indorsement of the transferor is essential for negotiation, the transferee may compel the transferor to indorse the bill unless a contrary intention appears. The negotiation is effective when the indorsement is made.

(c) EFFECT OF NOTIFICATION.—(1) When a transferee notifies the common carrier that a nonnegotiable bill of lading has been transferred under subsection (a) of this section, the carrier is obligated directly to the transferee for any obligations the carrier owed to the transferor immediately before the notification. However, before the carrier is notified, the transferee's title to the goods and right to acquire the obligations of the carrier may be defeated by—

(A) garnishment, attachment, or execution on the goods by a creditor of the transferor; or

(B) notice to the carrier by the transferor or a purchaser from the transferor of a later purchase of the goods from the transferor.

(2) A common carrier has been notified under this subsection only if—

(A) an officer or agent of the carrier, whose actual or apparent authority includes acting on the notification, has been notified; and

(B) the officer or agent has had time, exercising reasonable diligence, to communicate with the agent having possession or control of the goods.

§80107. Warranties and liability

(a) GENERAL RULE.—Unless a contrary intention appears, a person negotiating or transferring a bill of lading for value warrants that—

(1) the bill is genuine;

(2) the person has the right to transfer the bill and the title to the goods described in the bill;

(3) the person does not know of a fact that would affect the validity or worth of the bill; and

(4) the goods are merchantable or fit for a particular purpose when merchantability or fitness would have been implied if the agreement of the parties had been to transfer the goods without a bill of lading.

(b) SECURITY FOR DEBT.—A person holding a bill of lading as security for a debt and in good faith demanding or receiving payment of the debt from another person does not warrant by the demand or receipt—

(1) the genuineness of the bill; or

(2) the quantity or quality of the goods described in the bill.

(c) DUPLICATES.—A common carrier issuing a bill of lading, on the face of which is the word "duplicate" or another word indicating that the bill is not an original bill, is liable the same as a person that represents and warrants that the bill is an accurate copy of an original bill properly issued. The carrier is not otherwise liable under the bill.

(d) INDORSER LIABILITY.—Indorsement of a bill of lading does not make the indorser liable for failure of the common carrier or a previous indorser to fulfill its obligations.

§80110. Duty to deliver goods

(a) GENERAL RULES.—Except to the extent a common carrier establishes an excuse provided by law, the carrier must deliver goods covered by a bill of lading on demand of the consignee named in a nonnegotiable bill or the holder of a negotiable bill for the goods when the consignee or holder—

(1) offers in good faith to satisfy the lien of the carrier on the goods;

(2) has possession of the bill and, if a negotiable bill, offers to indorse and give the bill to the carrier; and

(3) agrees to sign, on delivery of the goods, a receipt for delivery if requested by the carrier.

(b) PERSONS TO WHOM GOODS MAY BE DELIVERED.—Subject to section 80111 of this title, a common carrier may deliver the goods covered by a bill of lading to—

(1) a person entitled to their possession;

(2) the consignee named in a nonnegotiable bill; or

(3) a person in possession of a negotiable bill if—

(A) the goods are deliverable to the order of that person; or

(B) the bill has been indorsed to that person or in blank by the consignee or another indorsee.

(c) COMMON CARRIER CLAIMS OF TITLE AND POSSESSION.—A claim by a common carrier that the carrier has title to goods or right to their possession is an excuse for nondelivery of the goods only if the title or right is derived from—

(1) a transfer made by the consignor or consignee after the shipment; or

(2) the carrier's lien.

(d) ADVERSE CLAIMS.—If a person other than the consignee or the person in possession of a bill of lading claims title to or possession of goods and the common carrier knows of the claim, the carrier is not required to deliver the goods to any claimant until the carrier has had a reasonable time to decide the validity of the adverse claim or to bring a civil action to require all claimants to interplead.

(e) INTERPLEADER.—If at least 2 persons claim title to or possession of the goods, the common carrier may—

(1) bring a civil action to interplead all known claimants to the goods; or

(2) require those claimants to interplead as a defense in an action brought against the carrier for nondelivery.

(f) THIRD PERSON CLAIMS NOT A DEFENSE.—Except as provided in subsections (b), (d), and (e) of this section, title or a right of a third person is not a defense to an action brought by the consignee of a nonnegotiable bill of lading or by the holder of a negotiable bill against the common carrier for failure to deliver the goods on demand unless enforced by legal process.

§80111. Liability for delivery of goods

(a) GENERAL RULES.—A common carrier is liable for damages to a person having title to, or right to possession of, goods when—

(1) the carrier delivers the goods to a person not entitled to their possession unless the delivery is authorized under section 80110(b)(2) or (3) of this title;

(2) the carrier makes a delivery under section 80110(b)(2) or (3) of this title after being requested by or for a person having title to, or right to possession of, the goods not to make the delivery; or

(b) EFFECTIVENESS OF REQUEST OR INFORMATION.—A request or information is effective under subsection (a)(2) or (3) of this section only if—

(1) an officer or agent of the carrier, whose actual or apparent authority includes acting on the request or information, has been given the request or information; and

(2) the officer or agent has had time, exercising reasonable diligence, to stop delivery of the goods.

(c) FAILURE TO TAKE AND CANCEL BILLS.—Except as provided in subsection (d) of this section, if a common carrier delivers goods for which a negotiable bill of lading has been issued without taking and canceling the bill, the carrier is liable for damages for failure to deliver the goods to a person purchasing the bill for value in good faith whether the purchase was before or after delivery and even when delivery was made to the person entitled to the goods. The carrier also is liable under this paragraph if part of the goods are delivered without taking and canceling the bill or plainly noting on the bill that a partial delivery was made and generally describing the goods or the remaining goods kept by the carrier.

(d) EXCEPTIONS TO LIABILITY.—A common carrier is not liable for failure to deliver goods to the consignee or owner of the goods or a holder of the bill if—

§80113. Liability for nonreceipt, misdescription, and improper loading

(a) LIABILITY FOR NONRECEIPT AND MISDESCRIPTION.—Except as provided in this section, a common carrier issuing a bill of lading is liable for damages caused by nonreceipt by the carrier of any part of the goods by the date shown in the bill or by failure of the goods to correspond with the description contained in the bill. The carrier is liable to the owner of goods transported under a nonnegotiable bill (subject to the right of stoppage in transit) or to the holder of a negotiable bill if the owner or holder gave value in good faith relying on the description of the goods in the bill or on the shipment being made on the date shown in the bill.

(b) NONLIABILITY OF CARRIERS.—A common carrier issuing a bill of lading is not liable under subsection (a) of this section—

(1) when the goods are loaded by the shipper;

(2) when the bill—

(A) describes the goods in terms of marks or labels, or in a statement about kind, quantity, or condition; or

(B) is qualified by "contents or condition of contents of packages unknown", "said to contain", "shipper's weight, load, and count", or words of the same meaning; and

(3) to the extent the carrier does not know whether any part of the goods were received or conform to the description.

(c) LIABILITY FOR IMPROPER LOADING.—A common carrier issuing a bill of lading is not liable for damages caused by improper loading if—

(1) the shipper loads the goods; and

(2) the bill contains the words "shipper's weight, load, and count", or words of the same meaning indicating the shipper loaded the goods.

(d) CARRIER'S DUTY TO DETERMINE KIND, QUANTITY, AND NUMBER.—(1) When bulk freight is loaded by a shipper that makes available to the common carrier adequate facilities for weighing the freight, the carrier must determine the kind and quantity of the freight within a reasonable time after receiving the written request of the shipper to make the determination. In that situation, inserting the words "shipper's weight" or words of the same meaning in the bill of lading has no effect.

(2) When goods are loaded by a common carrier, the carrier must count the packages of goods, if package freight, and determine the kind and quantity, if bulk freight. In that situation, inserting in the bill of lading or in a notice, receipt, contract, rule, or tariff, the words "shipper's weight, load, and count" or words indicating that the shipper described and loaded the goods, has no effect except for freight concealed by packages.

In clause (1), the word "goods" is substituted for "package freight or bulk

freight" for consistency in this chapter. In clause (2)(B), the quoted words are placed in quotation marks for consistency and to conform to section 7–301 of the Uniform Commercial Code. The words " 'shipper's weight, load, and count' " are added for consistency in this section.

§80114. Lost, stolen, and destroyed negotiable bills

(a) DELIVERY ON COURT ORDER AND SURETY BOND.—If a negotiable bill of lading is lost, stolen, or destroyed, a court of competent jurisdiction may order the common carrier to deliver the goods if the person claiming the goods gives a surety bond, in an amount approved by the court, to indemnify the carrier or a person injured by delivery against liability under the outstanding original bill. The court also may order payment of reasonable costs and attorney's fees to the carrier. A voluntary surety bond, without court order, is binding on the parties to the bond.

(b) LIABILITY TO HOLDER.—Delivery of goods under a court order under subsection (a) of this section does not relieve a common carrier from liability to a person to whom the negotiable bill has been or is negotiated for value without notice of the court proceeding or of the delivery of the goods.

In subsection (a)(1), the words "may designate" are substituted for "is empowered to authorize, or designate" in 49 App.:783 (1st sentence) to eliminate unnecessary words. The word "employees" is added for clarity and consistency in the revised title and with other titles of the United States Code.

In subsections (a)(2) and (b)(3), the word "regulations" is substituted for "such rules and regulations as may be necessary" in 49 App.:788 and 789 for consistency in the revised title and with other titles of the Code and because "rules" and "regulations" are synonymous.

In subsection (b)(1), the words "shall carry out this chapter in Guam" are substituted for "In Guam the enforcement and administration of this chapter shall be performed" for consistency in the revised title.

Subsection (c) is added because, under section 502(a)(2) of the Covenant to Establish a Commonwealth of the Northern Mariana Islands in Political Union with the United States of America, as enacted by the Act of March 24, 1976 (Public Law 94–241, 90 Stat. 263), and proclaimed to be in effect by the President on January 9, 1978 (Proc. No. 4534, Oct. 24, 1977, 42 F.R. 56593, 48 U.S.C. 1681 (note)), the Commonwealth was given the same authority as Guam when a law applies to Guam and the States of the United States generally.

In subsection (d), the word "Secretary" is substituted for "by such officers, agents, or other persons as may be authorized or designated for that purpose by the Secretary of the Treasury" because of subsection (a)(1) of this section. The words "or the Governor of Guam or of the Northern Mariana Islands as provided in subsections (b) and (c) of this section" are added because under 49 App.:789 the Governor of Guam enforces 49 App.:ch. 11 in Guam and because of section 502(a)(2) of the Covenant referred to in the revision note for subsection (c) of this section. The words "the customs laws" are substituted for "That such duties as are imposed upon the collector of customs or any other person with respect to the seizure and forfeiture of vessels and vehicles under the customs laws" because of the restatement and to eliminate unnecessary words.
