EFFECTIVE DATE OF 1994 AMENDMENT

Amendment by Pub. L. 103–429 effective July 5, 1994, see section 9 of Pub. L. 103–429, set out as a note under section 321 of this title.

§33107. Voluntary vehicle identification standards

(a) ELECTION TO INSCRIBE OR AFFIX IDENTIFYING MARKS.—The Secretary of Transportation by regulation may prescribe a vehicle theft prevention standard under which a person may elect to inscribe or affix an identifying number or symbol on major parts of a motor vehicle manufactured or owned by the person for purposes of section 511 of title 18 and related provisions. The standard may include provisions for registration of the identification with the Secretary or a person designated by the Secretary.

(b) STANDARD REQUIREMENTS.—The standard under this section shall be practicable and provide relevant objective criteria.

(c) VOLUNTARY COMPLIANCE.—Compliance with the standard under this section is voluntary. Failure to comply does not subject a person to a penalty or enforcement under this chapter.

(d) COMPLIANCE WITH OTHER STANDARDS.—Compliance with the standard under this section does not relieve a manufacturer from a requirement of a standard prescribed under section 33102 or 33103 of this title.

(1) manufacture for sale, sell, offer for sale, introduce or deliver for introduction in interstate commerce, or import into the United States, a motor vehicle or major replacement part subject to a standard prescribed under section 33102 or 33103 of this title, unless it conforms to the standard;

(2) fail to comply with a regulation prescribed by the Secretary of Transportation or Attorney General under this chapter;

(3) fail to keep specified records, refuse access to or copying of records, fail to make reports or provide items or information, or fail or refuse to allow entry or inspection, as required by this chapter;

(4) fail to provide the certification required by section 33108(c) of this title, or provide a certification that the person knows, or in the exercise of reasonable care has reason to know, is false or misleading in a material respect; or

(A) own, operate, maintain, or control a chop shop;

(B) conduct operations in a chop shop; or

(C) transport a passenger motor vehicle or passenger motor vehicle part to or from a chop shop.

(b) NONAPPLICATION.—Subsection (a)(1) of this section does not apply to a person establishing that in the exercise of reasonable care the person did not have reason to know that the motor vehicle or major replacement part was not in conformity with the standard.

		1992, Pub. L. 102–519, §§305(b), 306(a), 106 Stat. 3396, 3397.

In subsection (a)(1), the words "which is manufactured on or after the date the standard under section 2022 of this title takes effect under this subchapter for such vehicle or major replacement part" are omitted as obsolete because the standard applies to passenger motor vehicles and major replacement parts starting with the 1987 model year. See 50 Fed. Reg. 43166 (1985).

In subsection (a)(5)(A), the words "of any kind" are omitted as unnecessary because of the definition of "chop shop" in section 33101 of the revised title.

§33115. Civil penalties and enforcement

(a) GENERAL PENALTY AND CIVIL ACTIONS TO COLLECT.—(1) A person that violates section 33114(a)(1)–(4) of this title is liable to the United States Government for a civil penalty of not more than $1,000 for each violation. The failure of more than one part of a single motor vehicle to conform to an applicable standard under section 33102 or 33103 of this title is only a single violation. The maximum penalty under this subsection for a related series of violations is $250,000.

(2) The Secretary of Transportation imposes a civil penalty under this subsection. The Secretary may compromise the amount of a penalty.

(3) In determining the amount of a civil penalty or compromise under this subsection, the Secretary shall consider the size of the person's business and the gravity of the violation.

(4) The Attorney General shall bring a civil action in a United States district court to collect a civil penalty imposed under this subsection.

(5) The Government may deduct the amount of a civil penalty imposed or compromised under this subsection from amounts it owes the person liable for the penalty.

(b) CHOP SHOP PENALTY AND ENFORCEMENT.—(1) A person that violates section 33114(a)(5) of this title is liable to the Government for a civil penalty of not more than $100,000 a day for each violation.

(2) As appropriate and in consultation with the Attorney General, the Secretary shall—

(A) bring a civil action for a temporary or permanent injunction to restrain a person violating section 33114(a)(5) of this section;

(B) impose and recover the penalty described in paragraph (1) of this subsection; or

(C) take both the actions described in clauses (A) and (B) of this paragraph.

(c) CIVIL ACTIONS TO ENFORCE.—(1) The Attorney General may bring a civil action in a United States district court to enjoin a violation of this chapter or the sale, offer for sale, introduction or delivery for introduction in interstate commerce, or importation into the United States, of a passenger motor vehicle containing a major part, or of a major replacement part, that is subject to the standard and is determined before the sale of the vehicle or part to a first purchaser not to conform to the standard.

(2)(A) When practicable, the Secretary—

(i) shall notify a person against whom an action under this subsection is planned;

(ii) shall give the person an opportunity to present that person's views; and

(iii) except for a knowing and willful violation, shall give the person a reasonable opportunity to comply.

(B) The failure of the Secretary to comply with subparagraph (A) of this paragraph does not prevent a court from granting appropriate relief.

(d) JURY TRIAL DEMAND.—In a trial for criminal contempt for violating an injunction or restraining order issued under subsection (c) of this section, the violation of which is also a violation of this chapter, the defendant may demand a jury trial. The defendant shall be tried as provided in rule 42(b) of the Federal Rules of Criminal Procedure (18 App. U.S.C.).

(e) VENUE.—A civil action under subsection (a) or (c) of this section may be brought in the judicial district in which the violation occurred or the defendant resides, is found, or transacts

business. Process in the action may be served in any other judicial district in which the defendant resides or is found. A subpena for a witness in the action may be served in any judicial district.

In subsection (a)(1), the words "section 33114(a)(1)–(4)" are used to correct an erroneous cross-reference in section 611(a)(1) of the Motor Vehicle Information and Cost Savings Act (Public Law 92–513, 86 Stat. 947) to section 607 of that Act. Sections 607 and 611 were redesignated by section 306(a) of the Anti Car Theft Act of 1992 (Public Law 102–519, 106 Stat. 3397). The words "is liable to the United States Government for a civil penalty" are substituted for "may be assessed a civil penalty" for consistency in the revised title and with other titles of the United States Code.

In subsection (a)(2), the word "imposes" is substituted for "assessed" for consistency.

In subsection (a)(3), the words "the appropriateness of such penalty to" are omitted as surplus.

In subsection (a)(5), the words "United States district court" are added for clarity and consistency in the revised title.

In subsection (c)(1), the words "The Attorney General may bring a civil action" are substituted for "Upon petition by the Attorney General" for consistency with rule 2 of the Federal Rules of Civil Procedure (28 App. U.S.C.). The words "on behalf of the United States" are omitted as surplus. The words "shall have jurisdiction" are omitted because of 28:1331. The words "for cause shown and subject to the provisions of rule 65(a) and (b) of the Federal Rules of Civil Procedure" are omitted as surplus because the rules apply in the absence of an exception from them. The word "enjoin" is substituted for "restrain" for consistency in the revised title.

In subsection (d), the words "the defendant may demand a jury trial" are substituted for "trial shall be by the court, or, upon demand of the accused, by a jury" to eliminate unnecessary words and for consistency in the revised title.

§33116. Confidentiality of information

(a) GENERAL.—Information obtained by the Secretary of Transportation under this chapter related to a confidential matter referred to in section 1905 of title 18 may be disclosed only—

(1) to another officer or employee of the United States Government for use in carrying out this chapter; or

(2) in a proceeding under this chapter (except a proceeding under section 33104(a)(3)).

(b) WITHHOLDING INFORMATION FROM CONGRESS.—This section does not authorize information to be withheld from a committee of Congress authorized to have the information.

(Pub. L. 103–272, §1(e), July 5, 1994, 108 Stat. 1093.)

In subsection (a), before clause (1), the words "reported to, or otherwise" and "or the Secretary's representative" are omitted as surplus. The words "related to a confidential matter referred to" are substituted for "contains or relates to a trade secret or other matter referred to" to eliminate unnecessary words and for consistency in the revised title. The words "or in section 552(b)(4) of title 5" are omitted as surplus because the language in 18:1905 is broader than the language in 5:552(b)(4) and for consistency with similar provisions in other chapters in this part. The words "shall be considered confidential for the purpose of the applicable section of this subchapter" are omitted as surplus. In clause (1), the words "for use in carrying out" are substituted for "concerned with carrying out" for consistency with similar provisions in other chapters in this part. In clause (2), the words "when relevant" are omitted as surplus. The cross-reference to 15:2023(a)(3) is omitted. The text of 15:2023(a)(3), originally enacted as section 603(a)(3) of the Motor Vehicle Information and Cost Savings Act (Public Law 92–513, 86 Stat. 947), was repealed by section 303(2) of the Anti Car Theft Act of 1992 (Public Law 102–519, 106 Stat. 3396). Section 303(2) also redesignated subsection (a)(4) as subsection (a)(3). However, a corresponding amendment to correct the cross-reference in the source provisions restated in this section was not made.

In subsection (b), the words "authorized to have the information" are added for clarity and consistency with similar provisions in other chapters in this part.

§33117. Judicial review

A person that may be adversely affected by a regulation prescribed under this chapter may obtain judicial review of the regulation under section 32909 of this title. A remedy under this section is in addition to any other remedies provided by law.

The words "regulation prescribed" are substituted for "any provision of any standard or other rule" to eliminate unnecessary words and because "rule" and "regulation" are synonymous. The words "in the case of any standard, rule, or other action under this subchapter" are omitted as surplus.

§33118. Preemption of State and local law

When a motor vehicle theft prevention standard prescribed under section 33102 or 33103 of this title is in effect, a State or political subdivision of a State may not have a different motor vehicle theft prevention standard for a motor vehicle or major replacement part.

§40101. Policy

(a) ECONOMIC REGULATION.—In carrying out subpart II of this part and those provisions of subpart IV applicable in carrying out subpart II, the Secretary of Transportation shall consider the following matters, among others, as being in the public interest and consistent with public convenience and necessity:

(1) assigning and maintaining safety as the highest priority in air commerce.

(2) before authorizing new air transportation services, evaluating the safety implications of those services.

(3) preventing deterioration in established safety procedures, recognizing the clear intent, encouragement, and dedication of Congress to further the highest degree of safety in air transportation and air commerce, and to maintain the safety vigilance that has evolved in air transportation and air commerce and has come to be expected by the traveling and shipping public.

(4) the availability of a variety of adequate, economic, efficient, and low-priced services without unreasonable discrimination or unfair or deceptive practices.

(5) coordinating transportation by, and improving relations among, air carriers, and encouraging fair wages and working conditions.

(6) placing maximum reliance on competitive market forces and on actual and potential competition—

(A) to provide the needed air transportation system; and

(B) to encourage efficient and well-managed air carriers to earn adequate profits and attract capital, considering any material differences between interstate air transportation and foreign air transportation.

(7) developing and maintaining a sound regulatory system that is responsive to the needs of the

public and in which decisions are reached promptly to make it easier to adapt the air transportation system to the present and future needs of—

(A) the commerce of the United States;

(B) the United States Postal Service; and

(C) the national defense.

(8) encouraging air transportation at major urban areas through secondary or satellite airports if consistent with regional airport plans of regional and local authorities, and if endorsed by appropriate State authorities—

(A) encouraging the transportation by air carriers that provide, in a specific market, transportation exclusively at those airports; and

(B) fostering an environment that allows those carriers to establish themselves and develop secondary or satellite airport services.

(9) preventing unfair, deceptive, predatory, or anticompetitive practices in air transportation.

(10) avoiding unreasonable industry concentration, excessive market domination, monopoly powers, and other conditions that would tend to allow at least one air carrier or foreign air carrier unreasonably to increase prices, reduce services, or exclude competition in air transportation.

(11) maintaining a complete and convenient system of continuous scheduled interstate air transportation for small communities and isolated areas with direct financial assistance from the United States Government when appropriate.

(12) encouraging, developing, and maintaining an air transportation system relying on actual and potential competition—

(A) to provide efficiency, innovation, and low prices; and

(B) to decide on the variety and quality of, and determine prices for, air transportation services.

(13) encouraging entry into air transportation markets by new and existing air carriers and the continued strengthening of small air carriers to ensure a more effective and competitive airline industry.

(14) promoting, encouraging, and developing civil aeronautics and a viable, privately-owned United States air transport industry.

(15) strengthening the competitive position of air carriers to at least ensure equality with foreign air carriers, including the attainment of the opportunity for air carriers to maintain and increase their profitability in foreign air transportation.

(16) ensuring that consumers in all regions of the United States, including those in small communities and rural and remote areas, have access to affordable, regularly scheduled air service.

(b) ALL-CARGO AIR TRANSPORTATION CONSIDERATIONS.—In carrying out subpart II of this part and those provisions of subpart IV applicable in carrying out subpart II, the Secretary of Transportation shall consider the following matters, among others and in addition to the matters referred to in subsection (a) of this section, as being in the public interest for all-cargo air transportation:

(1) encouraging and developing an expedited all-cargo air transportation system provided by private enterprise and responsive to—

(A) the present and future needs of shippers;

(B) the commerce of the United States; and

(C) the national defense.

(2) encouraging and developing an integrated transportation system relying on competitive market forces to decide the extent, variety, quality, and price of services provided.

(3) providing services without unreasonable discrimination, unfair or deceptive practices, or predatory pricing.

(c) GENERAL SAFETY CONSIDERATIONS.—In carrying out subpart III of this part and those provisions of subpart IV applicable in carrying out subpart III, the Administrator of the Federal Aviation Administration shall consider the following matters:

(1) the requirements of national defense and commercial and general aviation.

(2) the public right of freedom of transit through the navigable airspace.

(d) SAFETY CONSIDERATIONS IN PUBLIC INTEREST.—In carrying out subpart III of this part and those provisions of subpart IV applicable in carrying out subpart III, the Administrator shall consider the following matters, among others, as being in the public interest:

(1) assigning, maintaining, and enhancing safety and security as the highest priorities in air commerce.

(2) regulating air commerce in a way that best promotes safety and fulfills national defense requirements.

(3) encouraging and developing civil aeronautics, including new aviation technology.

(4) controlling the use of the navigable airspace and regulating civil and military operations in that airspace in the interest of the safety and efficiency of both of those operations.

(5) consolidating research and development for air navigation facilities and the installation and operation of those facilities.

(6) developing and operating a common system of air traffic control and navigation for military and civil aircraft.

(7) providing assistance to law enforcement agencies in the enforcement of laws related to regulation of controlled substances, to the extent consistent with aviation safety.

(e) INTERNATIONAL AIR TRANSPORTATION.—In formulating United States international air transportation policy, the Secretaries of State and Transportation shall develop a negotiating policy emphasizing the greatest degree of competition compatible with a well-functioning international air transportation system, including the following:

(1) strengthening the competitive position of air carriers to ensure at least equality with foreign air carriers, including the attainment of the opportunity for air carriers to maintain and increase their profitability in foreign air transportation.

(2) freedom of air carriers and foreign air carriers to offer prices that correspond to consumer demand.

(3) the fewest possible restrictions on charter air transportation.

(4) the maximum degree of multiple and permissive international authority for air carriers so that they will be able to respond quickly to a shift in market demand.

(5) eliminating operational and marketing restrictions to the greatest extent possible.

(6) integrating domestic and international air transportation.

(7) increasing the number of nonstop United States gateway cities.

(8) opportunities for carriers of foreign countries to increase their access to places in the United States if exchanged for benefits of similar magnitude for air carriers or the traveling public with permanent linkage between rights granted and rights given away.

(9) eliminating discrimination and unfair competitive practices faced by United States airlines in foreign air transportation, including—

(A) excessive landing and user fees;

(B) unreasonable ground handling requirements;

(C) unreasonable restrictions on operations;

(D) prohibitions against change of gauge; and

(E) similar restrictive practices.

(10) promoting, encouraging, and developing civil aeronautics and a viable, privately-owned United States air transport industry.

(f) STRENGTHENING COMPETITION.—In selecting an air carrier to provide foreign air transportation from among competing applicants, the Secretary of Transportation shall consider, in addition to the matters specified in subsections (a) and (b) of this section, the strengthening of competition among air carriers operating in the United States to prevent unreasonable concentration in the air carrier industry.

In this part, the words "overseas air commerce" and "overseas air transportation" are omitted as obsolete because there no longer is a distinction in economic or safety regulation between "interstate" and "overseas" air commerce or air transportation.

In this section, the words "In carrying out . . . this part" are substituted for "In the exercise and performance of its powers and duties under this chapter" in 49 App.:1302(a), "In the exercise and performance of his

powers and duties under this chapter" in 49 App.:1303, and "In exercising the authority granted in, and discharging the duties imposed by, this chapter" in 49 App.:1347 for consistency in the revised title and to eliminate unnecessary words.

In subsections (a) and (b), the reference to subpart II is added because the policy applies only to economic issues, and under the Federal Aviation Act of 1958 (Public Law 85–726, 72 Stat. 731), the Civil Aeronautics Board was given responsibility for economic issues.

In subsection (a)(2), the word "full" is omitted as surplus. The words "the recommendations of the Secretary of Transportation on" are omitted as obsolete because the Secretary carries out 49 App.:1302(a). The words "and full evaluation of any report or recommendation submitted under section 1307 of this Appendix" are omitted as obsolete because the report and recommendations are no longer required.

In subsection (a)(4), the words "by air carriers and foreign air carriers" are omitted as surplus. The words "unreasonable discrimination" are substituted for "unjust discriminations, undue preferences or advantages" for consistency in the revised title and to eliminate unnecessary words.

In subsection (a)(6)(B), the words "nevertheless", "on the one hand", and "on the other" are omitted as surplus.

In subsection (a)(8), before subclause (A), the word "authorities" is substituted for "entities" for consistency in the revised title and with other titles of the Code. In subclause (A), the words "sole responsibility" are omitted as unnecessary because of the restatement.

In subsection (a)(15), the words "United States" are omitted as surplus because of the definition of "air carrier" in section 40102(a) of the revised title.

In subsection (b)(3), the words "unreasonable discrimination" are substituted for "unjust discriminations, undue preferences or advantages" for consistency in the revised title and to eliminate unnecessary words.

In subsections (c) and (d), the reference to subpart III is added because the policies apply only to safety issues, and under the Federal Aviation Act of 1958 (Public Law 85–726, 72 Stat. 731), the Federal Aviation Administration was given responsibility for safety issues.

In subsection (c), before clause (1), the word "Administrator" in section 306 of the Federal Aviation Act of 1958 (Public Law 85–726, 72 Stat. 749) is retained on authority of 49:106(g). The words "consider the following matters" are substituted for "give full consideration to" for consistency in this section.

In subsection (d)(3), the word "both" in 49 App.:1303(c) is omitted as surplus the first time it appears. The words "of the United States" are omitted for consistency in the revised title and because of the definition of "navigable airspace" in section 40102(a) of the revised title. The words "of those operations" are added for clarity.

In subsection (d)(5), the word "both" in 49 App.:1303(e) is omitted as surplus.

In subsection (e), before clause (1), the words "the Congress intends that" are omitted as surplus. In clauses (1) and (4), the words "United States" are omitted as surplus because of the definition of "air carrier" in section 40102(a) of the revised title. In clause (2), the word "prices" is substituted for "fares and rates" because of the definition of "price" in section 40102(a). In clause (8), the words "places in the United States" are substituted for "United States points" for consistency in this chapter. The word "air" is added for clarity and consistency in this subtitle. In clause (9)(C), the word "unreasonable" is substituted for "undue" for consistency in the revised title and with other titles of the United States Code.

REVITALIZATION OF AVIATION AND AERONAUTICS

Pub. L. 108–176, §4, Dec. 12, 2003, 117 Stat. 2493, provided that: "Congress finds the following:

"(1) The United States has revolutionized the way people travel, developing new technologies and aircraft to move people more efficiently and more safely.

"(2) Past Federal investment in aeronautics research and development has benefited the economy and national security of the United States and the quality of life of its citizens.

"(3) The total impact of civil aviation on the United States economy exceeds $900,000,000,000 annually and accounts for 9 percent of the gross national product and 11,000,000 jobs in the national workforce. Civil aviation products and services generate a significant surplus for United States trade accounts, and amount to significant numbers of the Nation's highly skilled, technologically qualified work force.

"(4) Aerospace technologies, products, and services underpin the advanced capabilities of our men and women in uniform and those charged with homeland security.

"(5) Future growth in civil aviation increasingly will be constrained by concerns related to aviation system safety and security, aviation system capabilities, aircraft noise, emissions, and fuel consumption.

"(6) Revitalization and coordination of the United States efforts to maintain its leadership in aviation and aeronautics are critical and must begin now.

"(7) A recent report by the Commission on the Future of the United States Aerospace Industry outlined the scope of the problems confronting the aerospace and aviation industries in the United States and found that—

"(A) aerospace will be at the core of the Nation's leadership and strength throughout the 21st century;

"(B) aerospace will play an integral role in the Nation's economy, security, and mobility; and

"(C) global leadership in aerospace is a national imperative.

"(8) Despite the downturn in the global economy, projections of the Federal Aviation Administration indicate that upwards of 1,000,000,000 people will fly annually by 2013. Efforts must begin now to prepare for future growth in the number of airline passengers.

"(9) The United States must increase its investment in research and development to revitalize the aviation and aerospace industries, to create jobs, and to provide educational assistance and training to prepare workers in those industries for the future."

"(b) REVIEW AND DETERMINATION.—

"(1) REVIEW.—The Special Master shall review a claim submitted under subsection (a) and determine—

"(A) whether the claimant is an eligible individual under subsection (c);

"(B) with respect to a claimant determined to be an eligible individual—

"(i) the extent of the harm to the claimant, including any economic and noneconomic losses;

and

"(ii) subject to paragraph (7), the amount of compensation to which the claimant is entitled based on the harm to the claimant, the facts of the claim, and the individual circumstances of the claimant.

"(2) NEGLIGENCE.—With respect to a claimant, the Special Master shall not consider negligence or any other theory of liability.

"(3) DETERMINATION.—Not later than 120 days after that date on which a claim is filed under subsection (a), the Special Master shall complete a review, make a determination, and provide written notice to the claimant, with respect to the matters that were the subject of the claim under review. Such a determination shall be final and not subject to judicial review.

"(4) RIGHTS OF CLAIMANT.—A claimant in a review under paragraph (1) shall have—

"(ii) the total amount of all legal fees charged for services rendered in connection with such settlement.

"(3) DISCRETION TO LOWER FEE.—In the event that the special master [probably should be capitalized] finds that the fee limit set by paragraph (1) or (2) provides excessive compensation for services rendered in connection with such claim, the Special Master may, in the discretion of the Special Master, award as reasonable compensation for services rendered an amount lesser than that permitted for in paragraph (1).

EX. ORD. NO. 14304. LEADING THE WORLD IN SUPERSONIC FLIGHT

Ex. Ord. No. 14304, June 6, 2025, 90 F.R. 24717, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered:

SECTION 1. *Purpose*. The United States stands at the threshold of a bold new chapter in aerospace innovation. For more than 50 years, outdated and overly restrictive regulations have grounded the promise of supersonic flight over land, stifling American ingenuity, weakening our global competitiveness, and ceding leadership to foreign adversaries. Advances in aerospace engineering, materials science, and noise reduction now make supersonic flight not just possible, but safe, sustainable, and commercially viable. This order begins a historic national effort to reestablish the United States as the undisputed leader in high-speed aviation. By updating obsolete standards and embracing the technologies of today and tomorrow, we will empower our engineers, entrepreneurs, and visionaries to deliver the next generation of air travel, which will be faster, quieter, safer, and more efficient than ever before.

SEC. 2. *Regulatory Reform for Supersonic Flight*. (a) The Administrator of the Federal Aviation Administration (FAA) shall take the necessary steps, including through rulemaking, to repeal the prohibition on overland supersonic flight in 14 CFR 91.817 within 180 days of the date of this order and establish an interim noise-based certification standard, making any modifications to 14 CFR 91.818 as necessary, as consistent with applicable law. The Administrator of the FAA shall also take immediate steps to repeal 14 CFR 91.819 and 91.821, which will remove additional regulatory barriers that hinder the advancement of supersonic aviation technology in the United States.

(b) Within 18 months of the date of this order [June 6, 2025], the Administrator of the FAA shall issue a Notice of Proposed Rulemaking (NPRM) to establish a standard for supersonic aircraft noise certification under 14 CFR Part 36 and amend 14 CFR 91.817. The proposed rule shall define acceptable noise thresholds for takeoff, landing, and en-route supersonic operation based on operational testing and research, development, testing, and evaluation (RDT&E) data as identified in subsection 3(a) of this order, and considering community acceptability, economic reasonableness, and technological feasibility. The proposed rule shall further specify a process for periodic review and update of the rule to reflect future advances in aircraft noise reduction technology. Any final rule in connection with the NPRM shall be issued within 24 months of the date of this order.

SEC. 3. *Advancing Supersonic Research and Development*. (a) The Director of the Office of Science and Technology Policy (OSTP) shall, in consultation with the heads of relevant executive departments and

agencies (agencies), including the Secretary of Defense, the Secretary of Commerce, the Secretary of Transportation, and the Administrator of the National Aeronautics and Space Administration, coordinate supersonic research and development through the National Science and Technology Council, with the goal of:

(i) identifying RDT&E needs for regulatory development, commercial viability, and operational integration of supersonic aircraft into the National Airspace System;

(ii) coordinating federally funded RDT&E and industry-led testing of supersonic technologies at Federal test sites; and

(iii) collecting and sharing the results of such RDT&E in a manner suitable for informing domestic regulatory development and international science and technology engagement on civil supersonic matters.

(b) The Director of OSTP shall provide the results of the coordinated efforts in subsection (a) of this section to the Administrator of the FAA to inform the development of future procedures, regulations, and policies, including those related to the certification of civil supersonic aircraft and noise and environmental standards called for in this section 3.

SEC. 4. *Promoting International Engagement on Civil Supersonic Flight Regulations*. (a) The Secretary of Transportation, acting through the Administrator of the FAA, and in consultation with the Director of OSTP and the heads of other agencies as considered appropriate by the Director of OSTP, shall engage the International Civil Aviation Organization and key foreign partners to seek global alignment regarding supersonic regulatory approaches.

(b) The Administrator of the FAA, under the supervision of the Secretary of Transportation and in coordination with the Secretary of State, shall seek to secure bilateral aviation safety agreements with foreign aviation authorities as necessary for the safe international operation of supersonic aircraft.

SEC. 5. *General Provisions*. (a) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department or agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

(d) The costs for publication of this order shall be borne by the Federal Aviation Administration.

EXECUTIVE DOCUMENTS

TERRITORIAL SEA OF UNITED STATES

For extension of territorial sea of United States, see Proc. No. 5928, set out as a note under section 1331 of Title 43, Public Lands.

§40103. Sovereignty and use of airspace

(a) SOVEREIGNTY AND PUBLIC RIGHT OF TRANSIT.—(1) The United States Government has exclusive sovereignty of airspace of the United States.

(2) A citizen of the United States has a public right of transit through the navigable airspace. To further that right, the Secretary of Transportation shall consult with the Architectural and Transportation Barriers Compliance Board established under section 502 of the Rehabilitation Act of 1973 (29 U.S.C. 792) before prescribing a regulation or issuing an order or procedure that will have a significant impact on the accessibility of commercial airports or commercial air transportation for individuals with disabilities.

(b) USE OF AIRSPACE.—(1) The Administrator of the Federal Aviation Administration shall develop plans and policy for the use of the navigable airspace and assign by regulation or order the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. The Administrator may modify or revoke an assignment when required in the public interest.

(2) The Administrator shall prescribe air traffic regulations on the flight of aircraft (including regulations on safe altitudes) for—

(A) navigating, protecting, and identifying aircraft;

(B) protecting individuals and property on the ground;

(C) using the navigable airspace efficiently; and

(D) preventing collision between aircraft, between aircraft and land or water vehicles, and between aircraft and airborne objects.

(3) To establish security provisions that will encourage and allow maximum use of the navigable airspace by civil aircraft consistent with national security, the Administrator, in consultation with the Secretary of Defense, shall—

(A) establish areas in the airspace the Administrator decides are necessary in the interest of national defense; and

(B) by regulation or order, restrict or prohibit flight of civil aircraft that the Administrator

cannot identify, locate, and control with available facilities in those areas.

(4) Notwithstanding the military exception in section 553(a)(1) of title 5, subchapter II of chapter 5 of title 5 applies to a regulation prescribed under this subsection.

(c) FOREIGN AIRCRAFT.—A foreign aircraft, not part of the armed forces of a foreign country, may be navigated in the United States as provided in section 41703 of this title.

(d) AIRCRAFT OF ARMED FORCES OF FOREIGN COUNTRIES.—Aircraft of the armed forces of a foreign country may be navigated in the United States only when authorized by the Secretary of State.

(e) NO EXCLUSIVE RIGHTS AT CERTAIN FACILITIES.—A person does not have an exclusive right to use an air navigation facility on which Government money has been expended. However, providing services at an airport by only one fixed-based operator is not an exclusive right if—

(1) it is unreasonably costly, burdensome, or impractical for more than one fixed-based operator to provide the services; and

(2) allowing more than one fixed-based operator to provide the services requires a reduction in space leased under an agreement existing on September 3, 1982, between the operator and the airport.

§40106. Emergency powers

(a) DEVIATIONS FROM REGULATIONS.—Appropriate military authority may authorize aircraft of the armed forces of the United States to deviate from air traffic regulations prescribed under section 40103(b)(1) and (2) of this title when the authority decides the deviation is essential to the national defense because of a military emergency or urgent military necessity. The authority shall—

used as a base of operations or training of, or as a sanctuary for, or arms, aids, or abets, a terrorist organization that knowingly uses the unlawful seizure, or the threat of an unlawful seizure, of an aircraft as an instrument of policy, the President may suspend the authority of—

WHEREAS these objectives require that the relationships that would obtain in the event of such a transfer as between the Federal Aviation Administration and the Department of Defense be understood in advance by the two agencies concerned and be developed in necessary detail by them in advance of transfer:

NOW, THEREFORE, by virtue of the authority vested in me by Section 302(e) (72 Stat. 746; 49 U.S.C. 1343(c)) [see 49 U.S.C. 40107(b)], and as President of the United States and Commander in Chief of the Armed Forces of the United States, it is hereby ordered as follows:

SECTION 1. The Secretary of Defense and the Secretary of Transportation are hereby directed to prepare and develop plans, procedures, policies, programs, and courses of action in anticipation of the probable transfer of the Federal Aviation Administration to the Department of Defense in the event of war. Those plans, policies, procedures, programs, and courses of action shall be prepared and developed in conformity with the following-described standards and conditions—

SEC. 2. In furtherance of the objectives of the foregoing provisions of this order, the Secretary of Defense and the Secretary of Transportation shall, to the extent permitted by law, make such arrangements and take such actions as they deem necessary to assure—

(A) That the functions of the Federal Aviation Administration are performed during any period of national emergency short of war in a manner that will assure that essential national defense requirements will be satisfied during any such period of national emergency.

(B) Consistent with the provisions of paragraphs (A), (B), and (C) of Section 1 of this order, that any transfer of the Federal Aviation Administration to the Department of Defense, in the event of war, will be accomplished smoothly and rapidly and effective operation of the agencies and functions affected by the transfer will be achieved after the transfer.

In this section, the word "Administrator" in section 313(d) of the Federal Aviation Act of 1958 (Public Law 85–726, 72 Stat. 753) is retained on authority of 49:106(g). The words "school or" are omitted because of 1:1.

In subsection (a), the words "officers and" are added for clarity and consistency in the revised title and with other titles of the United States Code. The words "to carry out duties, powers, and activities of the Administrator" are substituted for "in those subjects necessary for the proper performance of all authorized functions of the Administration" for clarity and consistency in the revised title.

In subsection (b), the words "officers and employees" are substituted for "personnel", the words "departments, agencies, or instrumentalities of the United States Government" are substituted for "governmental", and the words "governments of foreign countries" are substituted for "foreign governments",

for consistency in the revised title and with other titles of the Code. The words "courses given in", "sufficient", and "appropriate" are omitted as surplus. The text of 49 App.:1354(d) (3d sentence) is omitted as unnecessary because chapter 41 of title 5, United States Code, applies to all training of employees. The words "or both" are substituted for "(3) in part as provided under clause (1) and in part as provided under clause (2)" to eliminate unnecessary words.

§40109. Authority to exempt

(a) AIR CARRIERS AND FOREIGN AIR CARRIERS NOT ENGAGED DIRECTLY IN OPERATING AIRCRAFT.—(1) The Secretary of Transportation may exempt from subpart II of this part—

(A) an air carrier not engaged directly in operating aircraft in air transportation; or

(B) a foreign air carrier not engaged directly in operating aircraft in foreign air transportation.

(2) The exemption is effective to the extent and for periods that the Secretary decides are in the public interest.

(b) SAFETY REGULATION.—The Administrator of the Federal Aviation Administration may grant an exemption from a regulation prescribed in carrying out paragraphs (1) and (2) of section 40103(b) when the Administrator decides the exemption is in the public interest.

(c) OTHER ECONOMIC REGULATION.—Except as provided in this section, the Secretary may exempt to the extent the Secretary considers necessary a person or class of persons from a provision of chapter 411, chapter 413 (except sections 41307 and 41310(b)–(f)), chapter 415 (except sections 41502, 41505, and 41507–41509), chapter 417 (except sections 41703, 41704, 41710, 41713, and 41714), chapter 419, subchapter II of chapter 421, and sections 44909(a), 44909(b), and 46301(b) of this title, or a regulation or term prescribed under any of those provisions, when the Secretary decides that the exemption is consistent with the public interest.

(d) LABOR REQUIREMENTS.—The Secretary may not exempt an air carrier from section 42112 of this title. However, the Secretary may exempt from section 42112(b)(1) and (2) an air carrier not providing scheduled air transportation, and the operations conducted during daylight hours by an air carrier providing scheduled air transportation, when the Secretary decides that—

(1) because of the limited extent of, or unusual circumstances affecting, the operation of the air carrier, the enforcement of section 42112(b)(1) and (2) of this title is or would be an unreasonable burden on the air carrier that would obstruct its development and prevent it from beginning or continuing operations; and

(2) the exemption would not affect adversely the public interest.

(e) MAXIMUM FLYING HOURS.—The Secretary may not exempt an air carrier under this section from a provision referred to in subsection (c) of this section, or a regulation or term prescribed under any of those provisions, that sets maximum flying hours for pilots or copilots.

(f) SMALLER AIRCRAFT.—(1) An air carrier is exempt from section 41101(a)(1) of this title, and the Secretary may exempt an air carrier from another provision of subpart II of this part, if the air carrier—

(A)(i) provides passenger transportation only with aircraft having a maximum capacity of 55 passengers; or

(ii) provides the transportation of cargo only with aircraft having a maximum payload of less than 18,000 pounds; and

(B) complies with liability insurance requirements and other regulations the Secretary prescribes.

(2) The Secretary may increase the passenger or payload capacities when the public interest requires.

(3)(A) An exemption under this subsection applies to an air carrier providing air transportation between 2 places in Alaska, or between Alaska and Canada, only if the carrier is authorized by

Alaska to provide the transportation.

(B) The Secretary may limit the number or location of places that may be served by an air carrier providing transportation only in Alaska under an exemption from section 41101(a)(1) of this title, or the frequency with which the transportation may be provided, only when the Secretary decides that providing the transportation substantially impairs the ability of an air carrier holding a certificate issued by the Secretary to provide its authorized transportation, including the minimum transportation requirement for Alaska specified under section 41732(b)(1)(B) of this title.

(g) EMERGENCY AIR TRANSPORTATION BY FOREIGN AIR CARRIERS.—(1) To the extent that the Secretary decides an exemption is in the public interest, the Secretary may exempt by order a foreign air carrier from the requirements and limitations of this part for not more than 30 days to allow the foreign air carrier to carry passengers or cargo in interstate air transportation in certain markets if the Secretary finds that—

(A) because of an emergency created by unusual circumstances not arising in the normal course of business, air carriers holding certificates under section 41102 of this title cannot accommodate traffic in those markets;

(B) all possible efforts have been made to accommodate the traffic by using the resources of the air carriers, including the use of—

(i) foreign aircraft, or sections of foreign aircraft, under lease or charter to the air carriers; and

(ii) the air carriers' reservations systems to the extent practicable;

(C) the exemption is necessary to avoid unreasonable hardship for the traffic in the markets that cannot be accommodated by the air carriers; and

(D) granting the exemption will not result in an unreasonable advantage to any party in a labor dispute where the inability to accommodate traffic in a market is a result of the dispute.

(2) When the Secretary grants an exemption to a foreign air carrier under this subsection, the Secretary shall—

(A) ensure that air transportation that the foreign air carrier provides under the exemption is made available on reasonable terms;

(B) monitor continuously the passenger load factor of air carriers in the market that hold certificates under section 41102 of this title; and

(C) review the exemption at least every 30 days (or, in the case of an exemption that is necessary to provide and sustain air transportation in American Samoa between the islands of Tutuila and Manu'a, at least every 180 days) to ensure that the unusual circumstances that established the need for the exemption still exist.

(3) RENEWAL OF EXEMPTIONS.—

(A) IN GENERAL.—Except as provided in subparagraph (B), the Secretary may renew an exemption (including renewals) under this subsection for not more than 30 days.

(B) EXCEPTION.—The Secretary may renew an exemption (including renewals) under this subsection that is necessary to provide and sustain air transportation in American Samoa between the islands of Tutuila and Manu'a for not more than 180 days.

(4) CONTINUATION OF EXEMPTIONS.—An exemption granted by the Secretary under this subsection may continue for not more than 5 days after the unusual circumstances that established the need for the exemption cease.

(h) NOTICE AND OPPORTUNITY FOR HEARING.—The Secretary may act under subsections (d) and (f)(3)(B) of this section only after giving the air carrier notice and an opportunity for a hearing.

In this section, the words "requirements of", "term", and "or limitation" are omitted as surplus. The word "rule" is omitted as being synonymous with "regulation". The word "unreasonable" is substituted for "undue" for consistency in the revised title and with other titles of the United States Code.

In subsection (a)(1), before clause (A), the words "by order" are omitted as unnecessary because of 5:ch. 5, subch. II. The word "exempt" is substituted for "relieve" for consistency in this section.

In subsection (a)(2), the words "that the Secretary decides" are added for clarity.

In subsections (b), (c), and (f)(1)(B), the words "from time to time" are omitted as unnecessary.

In subsection (b), the word "Administrator" in section 307(e) of the Federal Aviation Act of 1958 (Public Law 85–726, 72 Stat. 750) is retained on authority of 49:106(g).

In subsection (d), before clause (1), the words "to the extent" are omitted as surplus.

In subsection (f)(1), before clause (A), the words "Subject to paragraph (5) of this subsection" and "in air transportation" are omitted as surplus. The words "the Secretary may exempt" are substituted for "as may be prescribed in regulations promulgated by the Board" for clarity and to eliminate unnecessary words. In clause (A)(ii), the word "capacity" is omitted as surplus. In clause (B), the word "reasonable" is omitted as surplus. The word "prescribes" is substituted for "adopt" for consistency in the revised title and with other titles of the Code. The words "in the public interest" are omitted as surplus.

In subsection (f)(2), the words "by regulation" are omitted as surplus. The word "payload" is substituted for "property" for consistency in this subsection. The words "specified in this paragraph" are omitted as surplus.

In subsection (f)(3), the words "the State of" are omitted as surplus.

In subsection (f)(3)(A), the words "under this subsection" are substituted for "from section 1371 of this title or any other requirement of this chapter", the words "2 places" are substituted for "points both of which are", and the word "between" is substituted for "one of which is in . . . and the other in", to eliminate unnecessary words.

In subsection (f)(3)(B), the word "only" is added for clarity. The words "promulgated by the Board", "by such air carrier to points within such State", and "but not limited to" are omitted as surplus. The word "Alaska" is substituted for "such State" for clarity. The cross-reference is to section 41732(b)(1)(B) to correct an error in the source provisions. The cross-reference in 49 App.:1386(b)(6) to 49 App.:1389(c)(2) should have been to 49 App.:1389(f)(2). This error was not corrected when 49 App.:1389 was restated by section 202(b) of the Airport and Airway Safety and Capacity Expansion Act of 1987 (Public Law 100–223, 101 Stat. 1508). The comparable provision is 49 App.:1389(k)(1)(A)(ii), restated as section 41732(b)(1)(B).

In subsection (g), the word "exemption" is substituted for "authorization" and "authority" for clarity and consistency.

In subsection (g)(1), before clause (A), the words "required", "a period", and "to the extent necessary" are omitted as surplus. The word "mail" is omitted as being included in "cargo". In clause (B), before subclause (i), the words "for example" are omitted as surplus.

In subsection (g)(3), the words "a period" are omitted as surplus.

In subsection (h), the words "The Secretary may act under subsections (d) and (f)(3)(B) of this section" are added because of the restatement. The word "notice" does not appear in 49 App.:1386(b)(6) (words between 5th and 6th commas) but is made applicable to both of the restated source provisions for consistency with subchapter II of chapter 5 of title 5, United States Code. The words "opportunity for a" are added for consistency in the revised title.

(2) may construct and improve laboratories and other test facilities; and

(3) may dispose of any interest in property for adequate compensation, and the amount so received shall—

(A) be credited to the appropriation current when the amount is received;

(B) be merged with and available for the purposes of such appropriation; and

(C) remain available until expended.

(b) PURCHASE OF HOUSING UNITS.—

(1) AUTHORITY.—In carrying out this part, the Administrator may purchase a housing unit (including a condominium or a housing unit in a building owned by a cooperative) that is located outside the contiguous United States if the cost of the unit is $300,000 or less.

(2) ADJUSTMENTS FOR INFLATION.—For fiscal years beginning after September 30, 1997, the Administrator may adjust the dollar amount specified in paragraph (1) to take into account increases in local housing costs.

(3) CONTINUING OBLIGATIONS.—Notwithstanding section 1341 of title 31, the Administrator may purchase a housing unit under paragraph (1) even if there is an obligation thereafter to pay necessary and reasonable fees duly assessed upon such unit, including fees related to operation, maintenance, taxes, and insurance.

(4) CERTIFICATION TO CONGRESS.—The Administrator may purchase a housing unit under paragraph (1) only if, at least 30 days before completing the purchase, the Administrator transmits to the Committee on Transportation and Infrastructure of the House of Representatives

and the Committee on Commerce, Science, and Transportation of the Senate a report containing—

(A) a description of the housing unit and its price;

(B) a certification that the price does not exceed the median price of housing units in the area; and

(C) a certification that purchasing the housing unit is the most cost-beneficial means of providing necessary accommodations in carrying out this part.

(5) PAYMENT OF FEES.—The Administrator may pay, when due, fees resulting from the purchase of a housing unit under this subsection from any amounts made available to the Administrator.

(c) DUTIES AND POWERS.—When carrying out subsection (a) of this section, the Administrator of the Federal Aviation Administration may—

(B) the resolution of bid protests and contract disputes related thereto, using consensual alternative dispute resolution techniques to the maximum extent practicable.

(2) APPLICABILITY OF FEDERAL ACQUISITION LAW.—The following provisions of Federal acquisition law shall not apply to the acquisition management system developed, implemented, and periodically updated pursuant to paragraph (1):

(i) acquire commercial services, commercial products, or nondevelopmental items other than commercial products to meet the needs of the Administration;

(ii) in a solicitation for the procurement of supplies or services, state the specifications for such supplies or services in terms that enable and encourage bidders and offerors to supply commercial services or commercial products, or to the extent that commercial products suitable to meet the needs of the Administration are not available, to supply nondevelopmental items other than commercial products;

(iii) require that prime contractors and subcontractors at all levels under contracts with the Administration incorporate commercial services, commercial products, or nondevelopmental items other than commercial products as components of items supplied to the Administration;

(v) require training of appropriate personnel in the acquisition of commercial products and commercial services.

(5) ADJUDICATION OF CERTAIN BID PROTESTS AND CONTRACT DISPUTES.—A bid protest or contract dispute that is not addressed or resolved through alternative dispute resolution shall be adjudicated by the Administrator through Dispute Resolution Officers or Special Masters of the Federal Aviation Administration Office of Dispute Resolution for Acquisition, acting pursuant to sections 46102, 46104, 46105, 46106 and 46107 and shall be subject to judicial review under section 46110 and to section 504 of title 5.

§40111. Multiyear procurement contracts for services and related items

(a) GENERAL AUTHORITY.—Notwithstanding section 1341(a)(1)(B) of title 31, the Administrator of the Federal Aviation Administration may make a contract of not more than 5 years for the following types of services and items of supply related to those services for which amounts otherwise would be available for obligation only in the fiscal year for which appropriated:

(1) operation, maintenance, and support of facilities and installations.

(2) operation, maintenance, and modification of aircraft, vehicles, and other highly complex equipment.

(3) specialized training requiring high quality instructor skills, including training of pilots and aircrew members and foreign language training.

(4) base services, including ground maintenance, aircraft refueling, bus transportation, and refuse collection and disposal.

(b) REQUIRED FINDINGS.—The Administrator may make a contract under this section only if the Administrator finds that—

(1) there will be a continuing requirement for the service consistent with current plans for the

proposed contract period;

(2) providing the service will require a substantial initial investment in plant or equipment, or will incur a substantial contingent liability for assembling, training, or transporting a specialized workforce; and

(3) the contract will promote the best interests of the United States by encouraging effective competition and promoting economies in operation.

(c) CONSIDERATIONS.—When making a contract under this section, the Administrator shall be guided by the following:

(1) The part of the cost of a plant or equipment amortized as a cost of contract performance may not be more than the ratio between the period of contract performance and the anticipated useful commercial life (instead of physical life) of the plant or equipment, considering the location and specialized nature of the plant or equipment, obsolescence, and other similar factors.

(2) The Administrator shall consider the desirability of—

(A) obtaining an option to renew the contract for a reasonable period of not more than 3 years, at a price that does not include charges for nonrecurring costs already amortized; and

(B) reserving in the Administrator the right, on payment of the unamortized part of the cost of the plant or equipment, to take title to the plant or equipment under appropriate circumstances.

(d) ENDING CONTRACTS.—A contract made under this section shall be ended if amounts are not made available to continue the contract into a subsequent fiscal year. The cost of ending the contract may be paid from—

(1) an appropriation originally available for carrying out the contract;

(2) an appropriation currently available for procuring the type of service concerned and not otherwise obligated; or

(3) amounts appropriated for payments to end the contract.

§40112. Multiyear procurement contracts for property

(a) GENERAL AUTHORITY.—Notwithstanding section 1341(a)(1)(B) of title 31 and to the extent that amounts otherwise are available for obligation, the Administrator of the Federal Aviation Administration may make a contract of more than one but not more than 5 fiscal years to purchase property, except a contract to construct, alter, or make a major repair or improvement to real property.

(b) REQUIRED FINDINGS.—The Administrator may make a contract under this section if the Administrator finds that—

(1) the contract will promote the safety or efficiency of the national airspace system and will result in reduced total contract costs;

(2) the minimum need for the property to be purchased is expected to remain substantially unchanged during the proposed contract period in terms of production rate, procurement rate, and total quantities;

(3) there is a reasonable expectation that throughout the proposed contract period the Administrator will request appropriations for the contract at the level required to avoid cancellation;

(4) there is a stable design for the property to be acquired and the technical risks associated with the property are not excessive; and

(5) the estimates of the contract costs and the anticipated savings from the contract are realistic.

(c) REGULATIONS.—The Administrator shall prescribe regulations for acquiring property under this section to promote the use of contracts under this section in a way that will allow the most efficient use of those contracts. The regulations may provide for a cancellation provision in the contract to the extent the provision is necessary and in the best interest of the United States. The provision may include consideration of recurring and nonrecurring costs of the contractor associated with producing the item to be delivered under the contract. The regulations shall provide that, to the extent practicable—

(1) to broaden the aviation industrial base—

(A) a contract under this section shall be used to seek, retain, and promote the use under that contract of subcontractors, vendors, or suppliers; and

(B) on accrual of a payment or other benefit accruing on a contract under this section to a subcontractor, vendor, or supplier participating in the contract, the payment or benefit shall be delivered in the most expeditious way practicable; and

(2) this section and regulations prescribed under this section may not be carried out in a way that precludes or curtails the existing ability of the Administrator to provide for—

(A) competition in producing items to be delivered under a contract under this section; or

(B) ending a prime contract when performance is deficient with respect to cost, quality, or schedule.

(d) CONTRACT PROVISIONS.—(1) A contract under this section may—

(A) be used for the advance procurement of components, parts, and material necessary to manufacture equipment to be used in the national airspace system;

(B) provide that performance under the contract after the first year is subject to amounts being appropriated; and

(C) contain a negotiated priced option for varying the number of end items to be procured over the period of the contract.

(2) If feasible and practicable, an advance procurement contract may be made to achieve economic-lot purchases and more efficient production rates.

(e) CANCELLATION PAYMENT AND NOTICE OF CANCELLATION CEILING.—(1) If a contract under this section provides that performance is subject to an appropriation being made, it

also may provide for a cancellation payment to be made to the contractor if the appropriation is not made.

(a) GENERAL AUTHORITY.—The Secretary of Transportation (or the Administrator of the Transportation Security Administration with respect to security duties and powers designated to be carried out by that Administrator or the Administrator of the Federal Aviation Administration with respect to aviation safety duties and powers designated to be carried out by that Administrator) may take action the Secretary, Administrator of the Transportation Security Administration, or Administrator of the Federal Aviation Administration, as appropriate, considers necessary to carry out this part, including conducting investigations, prescribing regulations, standards, and procedures, and issuing orders.

(b) HAZARDOUS MATERIAL.—In carrying out this part, the Secretary has the same authority to regulate the transportation of hazardous material by air that the Secretary has under section 5103 of this title. However, this subsection does not prohibit or regulate the transportation of a firearm (as defined in section 232 of title 18) or ammunition for a firearm, when transported by an individual for personal use.

(c) GOVERNMENTAL ASSISTANCE.—The Secretary (or the Administrator of the Federal Aviation Administration with respect to aviation safety duties and powers designated to be carried out by the Administrator) may use the assistance of the Administrator of the National Aeronautics and Space Administration and any research or technical department, agency, or instrumentality of the United States Government on matters related to aircraft fuel and oil, and to the design, material, workmanship, construction, performance, maintenance, and operation of aircraft, aircraft engines, propellers, appliances, and air navigation facilities. Each department, agency, and instrumentality may conduct scientific and technical research, investigations, and tests necessary to assist the Secretary or Administrator of the Federal Aviation Administration in carrying out this part. This part does not authorize duplicating laboratory research activities of a department, agency, or instrumentality.

(d) INDEMNIFICATION.—The Administrator of the Federal Aviation Administration may indemnify an officer or employee of the Federal Aviation Administration against a claim or judgment arising out of an act that the Administrator decides was committed within the scope of the official duties of the officer or employee.

(e) ASSISTANCE TO FOREIGN AVIATION AUTHORITIES.—

(1) SAFETY-RELATED TRAINING AND OPERATIONAL SERVICES.—The Administrator may provide safety-related training and operational services to foreign aviation authorities (whether public or private) with or without reimbursement, if the Administrator determines that providing such services promotes aviation safety or efficiency. The Administrator may also provide technical assistance related to all aviation safety-related training and operational services in connection with bilateral and multilateral agreements, including further bolstering the components of airmanship. The Administrator is authorized to participate in, and submit offers in response to, competitions to provide these services, and to contract with foreign aviation authorities to provide these services consistent with section 106(l)(6). To the extent practicable, air travel reimbursed under this subsection shall be conducted on United States air carriers.

(2) REIMBURSEMENT SOUGHT.—The Administrator shall actively seek reimbursement for services provided under this subsection from foreign aviation authorities capable of providing such reimbursement. The Administrator is authorized, notwithstanding any other provision of law or policy, to accept payments for services provided under this subsection in arrears.

(3) CREDITING APPROPRIATIONS.—Funds received by the Administrator pursuant to this section shall—

(A) be credited to the appropriation current when the amount is received;

(B) be merged with and available for the purposes of such appropriation; and

(C) remain available until expended.

(4) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Administrator, $5,000,000 for each of fiscal years 2021 through 2023, to carry out this subsection. Amounts appropriated under the preceding sentence for any fiscal year shall remain available until expended.

(6) [1] TECHNICAL ASSISTANCE OUTSIDE OF AGREEMENTS.—In the absence of a bilateral or multilateral agreement, the Administrator may provide technical assistance and training under this subsection if the Administrator determines that—

(A) a foreign government would benefit from technical assistance pursuant to this subsection to strengthen aviation safety, efficiency, and security; and

(B) the engagement is to provide inherently governmental technical assistance and training.

(7) INHERENTLY GOVERNMENTAL TECHNICAL ASSISTANCE AND TRAINING DEFINED.—In this subsection, the term "inherently governmental technical assistance and training" means technical assistance and training that—

(A) relies upon or incorporates Federal Aviation Administration-specific program, system, policy, or procedural matters;

(B) must be accomplished using agency expertise and authority; and

(C) relates to—

(i) international aviation safety assessment technical reviews and technical assistance;

(ii) aerodrome safety and certification;

(iii) aviation system certification activities based on Federal Aviation Administration regulations and requirements;

(iv) cybersecurity efforts to protect United States aviation ecosystem components and facilities;

(v) operation and maintenance of air navigation system equipment, procedures, and personnel; or

(vi) training and exercises in support of aviation safety, efficiency, and security.

(f) APPLICATION OF CERTAIN REGULATIONS TO ALASKA.—In amending title 14, Code of Federal Regulations, in a manner affecting intrastate aviation in Alaska, the Administrator of the

"(a) CONSOLIDATION OR ELIMINATION OF REPORTS.—Not later than 2 years after the date of enactment of this Act [Feb. 14, 2012], and every 2 years thereafter, the Administrator of the Federal Aviation Administration shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report containing—

"(1) a list of obsolete, redundant, or otherwise unnecessary reports the Administration is required by law to submit to Congress or publish that the Administrator recommends eliminating or consolidating with other reports; and

"(b) USE OF ELECTRONIC MEDIA FOR REPORTS.—

"(1) IN GENERAL.—Notwithstanding any other provision of law, the Administration—

"(A) may not publish any report required or authorized by law in a printed format; and

"(B) shall publish any such report by posting it on the Administration's Internet Web site in an easily accessible and downloadable electronic format.

"(2) EXCEPTION.—Paragraph (1) does not apply to any report with respect to which the Administrator determines that—

"(A) its publication in a printed format is essential to the mission of the Administration; or

"(B) its publication in accordance with the requirements of paragraph (1) would disclose matter—

"(i) described in section 552(b) of title 5, United States Code; or

"(ii) the disclosure of which would have an adverse impact on aviation safety or security, as determined by the Administrator."

§40115. Withholding information

(a) OBJECTIONS TO DISCLOSURE.—(1) A person may object to the public disclosure of information—

(A) in a record filed under this part; or

(B) obtained under this part by the Secretary of Transportation or State or the United States Postal Service.

(2) An objection must be in writing and must state the reasons for the objection. The Secretary of Transportation or State or the Postal Service shall order the information withheld from public disclosure when the appropriate Secretary or the Postal Service decides that disclosure of the information would—

(A) prejudice the United States Government in preparing and presenting its position in international negotiations; or

(B) have an adverse effect on the competitive position of an air carrier in foreign air transportation.

(b) WITHHOLDING INFORMATION FROM CONGRESS.—This section does not authorize information to be withheld from a committee of Congress authorized to have the information.

In subsection (a)(1)(B), the words "the Secretary of Transportation or State or the United States Postal Service" are substituted for "the Board, the Secretary of State, or the Secretary of Transportation" because under 49 App.:1551 the duties of the Civil Aeronautics Board were transferred to the Secretary of Transportation and the Postal Service.

In subsection (a)(2), the words "shall order the information withheld from public disclosure when the appropriate Secretary or the Postal Service decides that disclosure of the information" are substituted for "shall be withheld from public disclosure by the Board, the Secretary of State or the Secretary of Transportation" for clarity and because of the restatement.

In subsection (b), the words "The Board, the Secretary of State, or the Secretary of Transportation, as the case may be, shall be responsible for classified information in accordance with appropriate law" are omitted as surplus.

§40116. State taxation

(a) DEFINITION.—In this section, "State" includes the District of Columbia, a territory or possession of the United States, and a political authority of at least 2 States.

(b) PROHIBITIONS.—Except as provided in subsection (c) of this section and section 40117 of this title, a State, a political subdivision of a State, and any person that has purchased or leased an airport under section 47134 of this title may not levy or collect a tax, fee, head charge, or other charge on—

(1) an individual traveling in air commerce;

(2) the transportation of an individual traveling in air commerce;

(3) the sale of air transportation; or

(4) the gross receipts from that air commerce or transportation.

(c) AIRCRAFT TAKING OFF OR LANDING IN STATE.—A State or political subdivision of a State may levy or collect a tax on or related to a flight of a commercial aircraft or an activity or service on the aircraft only if the aircraft takes off or lands in the State or political subdivision as part of the flight.

(d) UNREASONABLE BURDENS AND DISCRIMINATION AGAINST INTERSTATE COMMERCE.—(1) In this subsection—

(A) "air carrier transportation property" means property (as defined by the Secretary of Transportation) that an air carrier providing air transportation owns or uses.

(B) "assessment" means valuation for a property tax levied by a taxing district.

(C) "assessment jurisdiction" means a geographical area in a State used in determining the

assessed value of property for ad valorem taxation.

(2)(A) A State, political subdivision of a State, or authority acting for a State or political subdivision may not do any of the following acts because those acts unreasonably burden and discriminate against interstate commerce:

(i) assess air carrier transportation property at a value that has a higher ratio to the true market value of the property than the ratio that the assessed value of other commercial and industrial property of the same type in the same assessment jurisdiction has to the true market value of the other commercial and industrial property.

(ii) levy or collect a tax on an assessment that may not be made under clause (i) of this subparagraph.

(iii) levy or collect an ad valorem property tax on air carrier transportation property at a tax rate greater than the tax rate applicable to commercial and industrial property in the same assessment jurisdiction.

(iv) levy or collect a tax, fee, or charge, first taking effect after August 23, 1994, exclusively upon any business located at a commercial service airport or operating as a permittee of such an airport other than a tax, fee, or charge wholly utilized for airport or aeronautical purposes.

(v) except as otherwise provided under section 47133, levy or collect a tax, fee, or charge, first taking effect after the date of enactment of this clause, upon any business located at a commercial service airport or operating as a permittee of such an airport that is not generally imposed on sales or services by that State, political subdivision, or authority unless wholly utilized for airport or aeronautical purposes.

(B) Subparagraph (A) of this paragraph does not apply to an in lieu tax completely used for airport and aeronautical purposes.

(e) OTHER ALLOWABLE TAXES AND CHARGES.—Except as provided in subsection (d) of this section, a State or political subdivision of a State may levy or collect—

(1) taxes (except those taxes enumerated in subsection (b) of this section), including property taxes, net income taxes, franchise taxes, and sales or use taxes on the sale of goods or services; and

(2) reasonable rental charges, landing fees, and other service charges from aircraft operators for using airport facilities of an airport owned or operated by that State or subdivision.

(f) PAY OF AIR CARRIER EMPLOYEES.—(1) In this subsection—

(A) "pay" means money received by an employee for services.

(B) "State" means a State of the United States, the District of Columbia, and a territory or possession of the United States.

(C) an employee is deemed to have earned 50 percent of the employee's pay in a State or political subdivision of a State in which the scheduled flight time of the employee in the State or subdivision is more than 50 percent of the total scheduled flight time of the employee when employed during the calendar year.

(2) The pay of an employee of an air carrier having regularly assigned duties on aircraft in at least 2 States is subject to the income tax laws of only the following:

(A) the State or political subdivision of the State that is the residence of the employee.

(B) the State or political subdivision of the State in which the employee earns more than 50 percent of the pay received by the employee from the carrier.

(3) Compensation paid by an air carrier to an employee described in subsection (a) in connection with such employee's authorized leave or other authorized absence from regular duties on the

carrier's aircraft in order to perform services on behalf of the employee's airline union shall be subject to the income tax laws of only the following:

(A) The State or political subdivision of the State that is the residence of the employee.

(B) The State or political subdivision of the State in which the employee's scheduled flight time would have been more than 50 percent of the employee's total scheduled flight time for the calendar year had the employee been engaged full time in the performance of regularly assigned duties on the carrier's aircraft.

§40117. Passenger facility charges

(a) DEFINITIONS.—In this section, the following definitions apply:

(1) AIRPORT, COMMERCIAL SERVICE AIRPORT, AND PUBLIC AGENCY.—The terms "airport", "commercial service airport", and "public agency" have the meaning those terms have under section 47102.

(2) ELIGIBLE AGENCY.—The term "eligible agency" means a public agency that controls a

commercial service airport.

(3) ELIGIBLE AIRPORT-RELATED PROJECT.—The term "eligible airport-related project" means any of the following projects:

(A) A project for airport development or airport planning under subchapter I of chapter 471.

(B) A project for terminal development described in section 47119(a).

(C) A project for costs of terminal development referred to in subparagraph (B) incurred after August 1, 1986, at an airport that did not have more than .25 percent of the total annual passenger boardings in the United States in the most recent calendar year for which data is available and at which total passenger boardings declined by at least 16 percent between calendar year 1989 and calendar year 1997.

(D) A project for airport noise capability planning under section 47505.

(I) A project for the replacement of existing workspace elements (including any associated in-kind facility or equipment within or immediately adjacent to a terminal development or renovation project at such airport) related to the relocation of a Federal agency on airport grounds due to such terminal development or renovation project for which development costs are eligible costs under this section.

(4) GROUND SUPPORT EQUIPMENT.—The term "ground support equipment" means service and maintenance equipment used at an airport to support aeronautical operations and related activities.

(5) PASSENGER FACILITY CHARGE.—The term "passenger facility charge" means a charge imposed under this section.

(6) PASSENGER FACILITY REVENUE.—The term "passenger facility revenue" means revenue derived from a passenger facility charge.

(b) GENERAL AUTHORITY.—(1) Except as provided under subsection (l), the Secretary of Transportation may authorize under this section an eligible agency to impose a passenger facility charge of $1, $2, $3, $4, or $4.50 on each paying passenger of an air carrier or foreign air carrier boarding an aircraft at an airport the agency controls to finance an eligible airport-related project, including making payments for debt service on indebtedness incurred to carry out the project, to be carried out in connection with the airport or any other airport the agency controls.

(2) A State, political subdivision of a State, or authority of a State or political subdivision that is not the eligible agency may not regulate or prohibit the imposition or collection of a passenger facility charge or the use of the passenger facility revenue.

(3) A passenger facility charge may be imposed on a passenger of an air carrier or foreign air carrier originating or connecting at the commercial service airport that the agency controls.

(4) MAXIMUM COST FOR CERTAIN LOW-EMISSION TECHNOLOGY PROJECTS.—The maximum cost that may be financed by imposition of a passenger facility charge under this section for a project described in subsection (a)(3)(G) with respect to a vehicle or ground support equipment may not exceed the incremental amount of the project cost that is greater than the cost of acquiring a vehicle or equipment that is not low-emission and would be used for the same purpose, or the cost of low-emission retrofitting, as determined by the Secretary.

(5) DEBT SERVICE FOR CERTAIN PROJECTS.—In addition to the uses specified in paragraph (1), the Secretary may authorize a passenger facility charge imposed under paragraph (1) to be used for making payments for debt service on indebtedness incurred to carry out at the airport a project that is not an eligible airport-related project if the Secretary determines that such use is necessary due to the financial need of the airport.

(6) NOISE MITIGATION FOR CERTAIN SCHOOLS.—

(A) IN GENERAL.—In addition to the uses specified in paragraphs (1) and (5), the Secretary may authorize a passenger facility charge imposed under paragraph (1) at a large hub airport that is the subject of an amended judgment and final order in condemnation filed on January 7, 1980, by the Superior Court of the State of California for the county of Los Angeles, to be used for a project to carry out noise mitigation for a building, or for the replacement of a relocatable building with a permanent building, in the noise impacted area surrounding the airport at which such building is used primarily for educational purposes, notwithstanding the air easement granted or any terms to the contrary in such judgment and final order, if—

(i) the Secretary determines that the building is adversely affected by airport noise;

(ii) the building is owned or chartered by the school district that was the plaintiff in case number 986,442 or 986,446, which was resolved by such judgment and final order;

(iii) the project is for a school identified in 1 of the settlement agreements effective February 16, 2005, between the airport and each of the school districts;

(iv) in the case of a project to replace a relocatable building with a permanent building, the eligible project costs are limited to the actual structural construction costs necessary to mitigate aircraft noise in instructional classrooms to an interior noise level meeting current standards of the Federal Aviation Administration; and

(v) the project otherwise meets the requirements of this section for authorization of a passenger facility charge.

(B) ELIGIBLE PROJECT COSTS.—In subparagraph (A)(iv), the term "eligible project costs" means the difference between the cost of standard school construction and the cost of construction necessary to mitigate classroom noise to the standards of the Federal Aviation Administration.

(c) APPLICATIONS.—(1) An eligible agency must submit to the Secretary an application for authority to impose a passenger facility charge. The application shall contain information and be in the form that the Secretary may require by regulation.

(2) Before submitting an application, the eligible agency must provide reasonable notice to, and an opportunity for consultation with, air carriers and foreign air carriers operating at the airport. The Secretary shall prescribe regulations that define reasonable notice and contain at least the following requirements:

(A) The agency must provide written notice of individual projects being considered for financing by a passenger facility charge and the date and location of a meeting to present the projects to air carriers and foreign air carriers operating at the airport.

(B) Not later than 30 days after written notice is provided under subparagraph (A) of this paragraph, each air carrier and foreign air carrier operating at the airport must provide to the

agency written notice of receipt of the notice. Failure of a carrier to provide the notice may be deemed certification of agreement with the project by the carrier under subparagraph (D) of this paragraph.

(C) Not later than 45 days after written notice is provided under subparagraph (A) of this paragraph, the agency must conduct a meeting to provide air carriers and foreign air carriers with descriptions of projects and justifications and a detailed financial plan for projects.

(D) Not later than 30 days after the meeting, each air carrier and foreign air carrier must provide to the agency certification of agreement or disagreement with projects (or total plan for the projects). Failure to provide the certification is deemed certification of agreement with the project by the carrier. A certification of disagreement is void if it does not contain the reasons for the disagreement.

(E) The agency must include in its application or notice submitted under subparagraph (A) copies of all certifications of agreement or disagreement received under subparagraph (D).

(F) For the purpose of this section, an eligible agency providing notice and an opportunity for consultation to an air carrier or foreign air carrier is deemed to have satisfied the requirements of this paragraph if the eligible agency limits such notices and consultations to air carriers and foreign air carriers that have a significant business interest at the airport. In the subparagraph, the term "significant business interest" means an air carrier or foreign air carrier that had no less than 1.0 percent of passenger boardings at the airport in the prior calendar year, had at least 25,000 passenger boardings at the airport in the prior calendar year, or provides scheduled service at the airport.

(3) Before submitting an application, the eligible agency must provide reasonable notice and an opportunity for public comment. The Secretary shall prescribe regulations that define reasonable notice and provide for at least the following under this paragraph:

(A) A requirement that the eligible agency provide public notice of intent to collect a passenger facility charge so as to inform those interested persons and agencies that may be affected. The public notice may include—

(i) publication in local newspapers of general circulation;

(ii) publication in other local media; and

(iii) posting the notice on the agency's Internet website.

(B) A requirement for submission of public comments no sooner than 30 days, and no later than 45 days, after the date of the publication of the notice.

(C) A requirement that the agency include in its application or notice submitted under subparagraph (A) copies of all comments received under subparagraph (B).

(4) After receiving an application, the Secretary may provide notice and an opportunity to air carriers, foreign air carriers, and other interested persons to comment on the application. The Secretary shall make a final decision on the application not later than 120 days after receiving it.

(d) LIMITATIONS ON APPROVING APPLICATIONS.—The Secretary may approve an application that an eligible agency has submitted under subsection (c) of this section to finance a specific project only if the Secretary finds, based on the application, that—

(1) the amount and duration of the proposed passenger facility charge will result in revenue (including interest and other returns on the revenue) that is not more than the amount necessary to finance the specific project;

(2) each project is an eligible airport-related project that will—

(A) preserve or enhance capacity, safety, or security of the national air transportation system;

(B) reduce noise resulting from an airport that is part of the system; or

(C) provide an opportunity for enhanced competition between or among air carriers and foreign air carriers;

(3) the application includes adequate justification for each of the specific projects; and

(4) in the case of an application to impose a charge of more than $3.00 for an eligible surface transportation or terminal project, the agency has made adequate provision for financing the airside needs of the airport, including runways, taxiways, aprons, and aircraft gates.

(e) LIMITATIONS ON IMPOSING CHARGES.—(1) An eligible agency may impose a passenger facility charge only—

(A) if the Secretary approves an application that the agency has submitted under subsection (c) of this section or a passenger facility charge imposition is authorized under subsection (l); and

(B) subject to reasonable terms the Secretary may prescribe to carry out the objectives of this section.

(2) A passenger facility charge may not be collected from a passenger—

(A) for more than 2 boardings on a one-way trip or a trip in each direction of a round trip;

(B) for the boarding to an eligible place under subchapter II of chapter 417 of this title for which essential air service compensation is paid under subchapter II;

(C) enplaning at an airport if the passenger did not pay for the air transportation which resulted in such enplanement, including any case in which the passenger obtained the ticket for the air transportation with a frequent flier award coupon without monetary payment;

(D) on flights, including flight segments, between 2 or more points in Hawaii;

(E) in Alaska aboard an aircraft having a seating capacity of less than 60 passengers; and

(F) enplaning at an airport if the passenger did not pay for the air transportation which resulted in such enplanement due to charter arrangements and payment by the Department of Defense.

(f) LIMITATIONS ON CONTRACTS, LEASES, AND USE AGREEMENTS.—(1) A contract between an air carrier or foreign air carrier and an eligible agency made at any time may not impair the authority of the agency to impose a passenger facility charge or to use the passenger facility revenue as provided in this section.

(2) A project financed with a passenger facility charge may not be subject to an exclusive long-term lease or use agreement of an air carrier or foreign air carrier, as defined by regulations of the Secretary.

(3) A lease or use agreement of an air carrier or foreign air carrier related to a project whose construction or expansion was financed with a passenger facility charge may not restrict the eligible agency from financing, developing, or assigning new capacity at the airport with passenger facility revenue.

(g) TREATMENT OF REVENUE.—(1) Passenger facility revenue is not airport revenue for purposes of establishing a price under a contract between an eligible agency and an air carrier or foreign air carrier.

(2) An eligible agency may not include in its price base the part of the capital costs of a project paid for by using passenger facility revenue to establish a price under a contract between the agency and an air carrier or foreign air carrier.

(3) For a project for terminal development, gates and related areas, or a facility occupied or used by at least one air carrier or foreign air carrier on an exclusive or preferential basis, a price payable by an air carrier or foreign air carrier using the facilities must at least equal the price paid by an air carrier or foreign air carrier using a similar facility at the airport that was not financed with passenger facility revenue.

(4) Passenger facility revenues that are held by an air carrier or an agent of the carrier after collection of a passenger facility charge constitute a trust fund that is held by the air carrier or agent for the beneficial interest of the eligible agency imposing the charge. Such carrier or agent holds neither legal nor equitable interest in the passenger facility revenues except for any handling fee or retention of interest collected on unremitted proceeds as may be allowed by the Secretary.

(h) COMPLIANCE.—(1) As necessary to ensure compliance with this section, the Secretary shall prescribe regulations requiring recordkeeping and auditing of accounts maintained by an air carrier or foreign air carrier and its agent collecting a passenger facility charge and by the eligible agency

imposing the charge.

(2) The Secretary periodically shall audit and review the use by an eligible agency of passenger facility revenue. After review and a public hearing, the Secretary may end any part of the authority of the agency to impose a passenger facility charge to the extent the Secretary decides that the revenue is not being used as provided in this section.

(3) The Secretary may set off amounts necessary to ensure compliance with this section against amounts otherwise payable to an eligible agency under subchapter I of chapter 471 of this title if the Secretary decides a passenger facility charge is excessive or that passenger facility revenue is not being used as provided in this section.

(i) REGULATIONS.—The Secretary shall prescribe regulations necessary to carry out this section. The regulations—

(1) may prescribe the time and form by which a passenger facility charge takes effect;

(2) shall—

(A) require an air carrier or foreign air carrier and its agent to collect a passenger facility charge that an eligible agency imposes under this section;

(B) establish procedures for handling and remitting money collected;

(C) ensure that the money, less a uniform amount the Secretary determines reflects the average necessary and reasonable expenses (net of interest accruing to the carrier and agent after collection and before remittance) incurred in collecting and handling the charge, is paid promptly to the eligible agency for which they are collected; and

(D) require that the amount collected for any air transportation be noted on the ticket for that air transportation; and

(3) may permit an eligible agency to request that collection of a passenger facility charge be waived for—

(A) passengers enplaned by any class of air carrier or foreign air carrier if the number of passengers enplaned by the carriers in the class constitutes not more than one percent of the total number of passengers enplaned annually at the airport at which the charge is imposed; or

(B) passengers enplaned on a flight to an airport—

(i) that has fewer than 2,500 passenger boardings each year and receives scheduled passenger service; or

(ii) in a community which has a population of less than 10,000 and is not connected by a land highway or vehicular way to the land-connected National Highway System within a State.

(j) LIMITATION ON CERTAIN ACTIONS.—A State, political subdivision of a State, or authority of a State or political subdivision that is not the eligible agency may not tax, regulate, or prohibit or otherwise attempt to control in any manner, the imposition or collection of a passenger facility charge or the use of the revenue from the passenger facility charge.

(k) COMPETITION PLANS.—

(1) IN GENERAL.—Beginning in fiscal year 2001, no eligible agency may impose a passenger facility charge under this section with respect to a covered airport (as such term is defined in section 47106(f)) unless the agency has submitted to the Secretary a written competition plan in accordance with such section. This subsection does not apply to passenger facility charges in effect before the date of the enactment of this subsection.

(2) SECRETARY SHALL ENSURE IMPLEMENTATION AND COMPLIANCE.—The Secretary shall review any plan submitted under paragraph (1) to ensure that it meets the requirements of this section, and shall review its implementation from time-to-time to ensure that each covered airport successfully implements its plan.

(l) PASSENGER FACILITY CHARGE STREAMLINING.—

(1) IN GENERAL.—

(A) REGULATIONS.—The Secretary shall prescribe regulations to streamline the process

for authorizing eligible agencies for airports to impose passenger facility charges.

(B) PASSENGER FACILITY CHARGE.—An eligible agency may impose a passenger facility charge of $1, $2, $3, $4, or $4.50 in accordance with the provisions of this subsection instead of using the procedures otherwise provided in this section.

(2) NOTICE AND OPPORTUNITY FOR CONSULTATION.—The eligible agency must provide reasonable notice and an opportunity for consultation to air carriers and foreign air carriers in accordance with subsection (c)(2) and must provide reasonable notice and opportunity for public comment in accordance with subsection (c)(3).

(3) NOTICE OF INTENTION.—The eligible agency must submit to the Secretary a notice of intention to impose a passenger facility charge under this subsection. The notice shall include—

(A) information that the Secretary may require by regulation on each project for which authority to impose a passenger facility charge is sought;

(B) the amount of revenue from passenger facility charges that is proposed to be collected for each project; and

(C) the level of the passenger facility charge that is proposed.

(4) ACKNOWLEDGMENT OF RECEIPT AND INDICATION OF OBJECTION.—

(A) IN GENERAL.—The Secretary shall acknowledge receipt of the notice and indicate any objection to the imposition of a passenger facility charge under this subsection for any project identified in the notice within 60 days after receipt of the eligible agency's notice.

(B) PROHIBITED OBJECTION.—The Secretary may not object to an eligible airport-related project that received Federal financial assistance for airport development, terminal development, airport planning, or for the purposes of noise compatibility, if the Federal financial assistance and passenger facility charge collection (including interest and other returns on the revenue) do not exceed the total cost of the project.

(C) ALLOWED OBJECTION.—The Secretary may only object to the imposition of a passenger facility charge under this subsection for a project that—

(i) establishes significant policy precedent;

(ii) raises significant legal issues;

(iii) garners significant controversy, as evidenced by significant opposition to the proposed action by the applicant or other airport authorities, airport users, governmental agencies, elected officials, or communities;

(iv) raises significant revenue diversion, airport noise, or access issues, including compliance with section 47111(e) or subchapter II of chapter 475;

(v) includes multimodal components; or

(vi) serves no aeronautical purpose.

(5) AUTHORITY TO IMPOSE CHARGE.—Unless the Secretary objects within 30 days after receipt of the eligible agency's notice, the eligible agency is authorized to impose a passenger facility charge in accordance with the terms of its notice under this subsection.

(6) ACKNOWLEDGEMENT NOT AN ORDER.—An acknowledgement issued under paragraph (4) shall not be considered an order issued by the Secretary for purposes of section 46110.

(m) FINANCIAL MANAGEMENT OF CHARGES.—

(1) HANDLING OF CHARGES.—A covered air carrier shall segregate in a separate account passenger facility revenue equal to the average monthly liability for charges collected under this section by such carrier or any of its agents for the benefit of the eligible agencies entitled to such revenue.

(2) TRUST FUND STATUS.—If a covered air carrier or its agent fails to segregate passenger facility revenue in violation of the subsection, the trust fund status of such revenue shall not be defeated by an inability of any party to identify and trace the precise funds in the accounts of the

air carrier.

(3) PROHIBITION.—A covered air carrier and its agents may not grant to any third party any security or other interest in passenger facility revenue.

(4) COMPENSATION TO ELIGIBLE ENTITIES.—A covered air carrier that fails to comply with any requirement of this subsection, or otherwise unnecessarily causes an eligible entity to expend funds, through litigation or otherwise, to recover or retain payment of passenger facility revenue to which the eligible entity is otherwise entitled shall be required to compensate the eligible agency for the costs so incurred.

(5) INTEREST ON AMOUNTS.—A covered air carrier that collects passenger facility charges is entitled to receive the interest on passenger facility charge accounts if the accounts are established and maintained in compliance with this subsection.

(6) EXISTING REGULATIONS.—The provisions of section 158.49 of title 14, Code of Federal Regulations, that permit the commingling of passenger facility charges with other air carrier revenue shall not apply to a covered air carrier.

(7) COVERED AIR CARRIER DEFINED.—In this section, the term "covered air carrier" means an air carrier that files for chapter 7 or chapter 11 of title 11 bankruptcy protection, or has an involuntary chapter 7 of title 11 bankruptcy proceeding commenced against it, after the date of enactment of this subsection.

(n) USE OF REVENUES AT PREVIOUSLY ASSOCIATED AIRPORT.—Notwithstanding the requirements relating to airport control under subsection (b)(1), the Secretary may authorize use of a passenger facility charge under subsection (b) to finance an eligible airport-related project if—

(1) the eligible agency seeking to impose the new charge controls an airport where a $2.00 passenger facility charge became effective on January 1, 2013; and

(2) the location of the project to be financed by the new charge is at an airport that was under the control of the same eligible agency that had controlled the airport described in paragraph (1).

(i) shall use the services of the Federal Mediation and Conciliation Service to attempt to reach such agreement in accordance with part 1425 of title 29, Code of Federal Regulations (as in effect on the date of enactment of the FAA Modernization and Reform Act of 2012); or

(ii) may by mutual agreement adopt alternative procedures for the resolution of disputes or impasses arising in the negotiation of the collective-bargaining agreement.

(B) MID-TERM BARGAINING.—If the services of the Federal Mediation and Conciliation Service under subparagraph (A)(i) do not lead to the resolution of issues in controversy arising from the negotiation of a mid-term collective-bargaining agreement, the Federal Service Impasses Panel shall assist the parties in resolving the impasse in accordance with section 7119 of title 5.

(C) BINDING ARBITRATION FOR TERM BARGAINING.—

(i) ASSISTANCE FROM FEDERAL SERVICE IMPASSES PANEL.—If the services of the Federal Mediation and Conciliation Service under subparagraph (A)(i) do not lead to the resolution of issues in controversy arising from the negotiation of a term collective-bargaining agreement, the Administrator and the exclusive bargaining representative of the employees (in this subparagraph referred to as the "parties") shall submit their issues in controversy to the Federal Service Impasses Panel. The Panel shall assist the parties in resolving the impasse by asserting jurisdiction and ordering binding arbitration by a private arbitration board consisting of 3 members.

(ii) APPOINTMENT OF ARBITRATION BOARD.—The Executive Director of the Panel shall provide for the appointment of the 3 members of a private arbitration board under clause (i) by requesting the Director of the Federal Mediation and Conciliation Service to prepare a list of not less than 15 names of arbitrators with Federal sector experience and by providing the list to the parties. Not later than 10 days after receiving the list, the parties shall each select one person from the list. The 2 arbitrators selected by the parties shall then select a third person from the list not later than 7 days after being selected. If either of the parties fails to select a person or if the 2 arbitrators are unable to agree on the third person in 7 days, the parties shall make the selection by alternately striking names on the list until one arbitrator remains.

(iii) FRAMING ISSUES IN CONTROVERSY.—If the parties do not agree on the framing of the issues to be submitted for arbitration, the arbitration board shall frame the issues.

(including natural resources) and that no service by a private operator is reasonably available to meet the threat.

(2) GOVERNMENTAL FUNCTION.—The term "governmental function" means an activity undertaken by a government, such as national defense, intelligence missions, firefighting, search and rescue, law enforcement (including transport of prisoners, detainees, and illegal aliens), aeronautical research, biological or geological resource management (including data collection on civil aviation systems undergoing research, development, test, or evaluation at a test range (as such term is defined in section 44801)), infrastructure inspections, or any other activity undertaken by a governmental entity that the Administrator determines is inherently governmental.

(3) QUALIFIED NON-CREWMEMBER.—The term "qualified non-crewmember" means an individual, other than a member of the crew, aboard an aircraft—

(A) operated by the armed forces or an intelligence agency of the United States Government; or

(B) whose presence is required to perform, or is associated with the performance of, a governmental function.

(4) ARMED FORCES.—The term "armed forces" has the meaning given such term by section 101 of title 10.

(b) AIRCRAFT OWNED BY GOVERNMENTS.—An aircraft described in subparagraph (A), (B), (C), (D), or (F) of section 40102(a)(41) does not qualify as a public aircraft under such section when the aircraft is used for commercial purposes or to carry an individual other than a crewmember or a qualified non-crewmember.

(A) the aircraft is operated in accordance with title 10;

(B) the aircraft is operated in the performance of a governmental function under title 14, 31, 32, or 50 and the aircraft is not used for commercial purposes; or

(C) the aircraft is chartered to provide transportation or other commercial air service to the armed forces and the Secretary of Defense (or the Secretary of the department in which the Coast Guard is operating) designates the operation of the aircraft as being required in the national interest.

(2) LIMITATION.—An aircraft that meets the criteria set forth in paragraph (1) and that is owned or operated by the National Guard of a State, the District of Columbia, or any territory or possession of the United States, qualifies as a public aircraft only to the extent that it is operated under the direct control of the Department of Defense.

(d) SEARCH AND RESCUE PURPOSES.—An aircraft described in section 40102(a)(41)(D) that is not exclusively leased for at least 90 continuous days by the government of a State, the District of Columbia, or a territory or possession of the United States or a political subdivision of 1 of those governments, qualifies as a public aircraft if the Administrator determines that—

(1) there are extraordinary circumstances;

(2) the aircraft will be used for the performance of search and rescue missions;

(3) a community would not otherwise have access to search and rescue services; and

(4) a government entity demonstrates that granting the waiver is necessary to prevent an undue economic burden on that government.

The Administrator shall make every effort to act on any such application for a new entrant and issue a decision on the application not later than 24 months after it is received or amended.

(5) EXEMPTION FOR NATIONAL PARKS WITH 50 OR FEWER FLIGHTS EACH YEAR.—

(A) IN GENERAL.—Notwithstanding paragraph (1), a national park that has 50 or fewer commercial air tour operations over the park each year shall be exempt from the requirements

of this section, except as provided in subparagraph (B).

(B) WITHDRAWAL OF EXEMPTION.—If the Director determines that an air tour management plan or voluntary agreement is necessary to protect park resources and values or park visitor use and enjoyment, the Director shall withdraw the exemption of a park under subparagraph (A).

(C) LIST OF PARKS.—

(i) IN GENERAL.—The Director and Administrator shall jointly publish a list each year of national parks that are covered by the exemption provided under this paragraph.

(ii) NOTIFICATION OF WITHDRAWAL OF EXEMPTION.—The Director shall inform the Administrator, in writing, of each determination to withdraw an exemption under subparagraph (B).

(D) ANNUAL REPORT.—A commercial air tour operator conducting commercial air tour operations over a national park that is exempt from the requirements of this section shall submit to the Administrator and the Director a report each year that includes the number of commercial air tour operations the operator conducted during the preceding 1-year period over such park.

(b) AIR TOUR MANAGEMENT PLANS.—

(1) ESTABLISHMENT.—

(A) IN GENERAL.—The Administrator, in cooperation with the Director, shall establish an air tour management plan for any national park or tribal land for which such a plan is not in effect whenever a person applies for authority to conduct a commercial air tour operation over the park. The air tour management plan shall be developed by means of a public process in accordance with paragraph (4).

(B) OBJECTIVE.—The objective of any air tour management plan shall be to develop acceptable and effective measures to mitigate or prevent the significant adverse impacts, if any, of commercial air tour operations upon the natural and cultural resources, visitor experiences, and tribal lands.

(C) EXCEPTION.—An application to begin or expand commercial air tour operations at Crater Lake National Park or Great Smoky Mountains National Park may be denied without the establishment of an air tour management plan by the Director of the National Park Service if the Director determines that such operations would adversely affect park resources or visitor experiences.

(2) ENVIRONMENTAL DETERMINATION.—In establishing an air tour management plan under this subsection, the Administrator and the Director shall each sign the environmental decision document required by section 102 of the National Environmental Policy Act of 1969 (42 U.S.C. 4332) which may include a finding of no significant impact, an environmental assessment, or an environmental impact statement and the record of decision for the air tour management plan.

(3) CONTENTS.—An air tour management plan for a national park—

(A) may prohibit commercial air tour operations over a national park in whole or in part;

(B) may establish conditions for the conduct of commercial air tour operations over a national park, including commercial air tour routes, maximum or minimum altitudes, time-of-day restrictions, restrictions for particular events, maximum number of flights per unit of time, intrusions on privacy on tribal lands, and mitigation of noise, visual, or other impacts;

(C) shall apply to all commercial air tour operations over a national park that are also within ½ mile outside the boundary of a national park;

(D) shall include incentives (such as preferred commercial air tour routes and altitudes, relief from caps and curfews) for the adoption of quiet aircraft technology by commercial air tour operators conducting commercial air tour operations over a national park;

(E) shall provide for the initial allocation of opportunities to conduct commercial air tour operations over a national park if the plan includes a limitation on the number of commercial air tour operations for any time period; and

(F) shall justify and document the need for measures taken pursuant to subparagraphs (A) through (E) and include such justifications in the record of decision.

(4) PROCEDURE.—In establishing an air tour management plan for a national park or tribal lands, the Administrator and the Director shall—

(A) hold at least one public meeting with interested parties to develop the air tour management plan;

(B) publish the proposed plan in the Federal Register for notice and comment and make copies of the proposed plan available to the public;

(C) comply with the regulations set forth in sections 1501.3 and 1501.5 through 1501.8 of title 40, Code of Federal Regulations (for purposes of complying with the regulations, the Federal Aviation Administration shall be the lead agency and the National Park Service is a cooperating agency);

(D) solicit the participation of any Indian tribe whose tribal lands are, or may be, overflown by aircraft involved in a commercial air tour operation over the park or tribal lands to which the plan applies, as a cooperating agency under the regulations referred to in subparagraph (C); and

(E) consult with the advisory group established under section 805 of the National Parks Air Tour Management Act of 2000 (49 U.S.C. 40128 note) and consider all advice, information, and recommendations provided by the advisory group to the Administrator and the Director.

(5) JUDICIAL REVIEW.—An air tour management plan developed under this subsection shall be subject to judicial review.

(6) AMENDMENTS.—The Administrator, in cooperation with the Director, may make amendments to an air tour management plan. Any such amendments shall be published in the Federal Register for notice and comment. A request for amendment of an air tour management plan shall be made in such form and manner as the Administrator may prescribe.

(7) VOLUNTARY AGREEMENTS.—

(A) IN GENERAL.—As an alternative to an air tour management plan, the Director and the Administrator may enter into a voluntary agreement with a commercial air tour operator (including a new entrant commercial air tour operator and an operator that has interim operating authority) that has applied to conduct commercial air tour operations over a national park to manage commercial air tour operations over such national park.

(B) PARK PROTECTION.—A voluntary agreement under this paragraph with respect to commercial air tour operations over a national park shall address the management issues necessary to protect the resources of such park and visitor use of such park without compromising aviation safety or the air traffic control system and may—

(i) include provisions such as those described in subparagraphs (B) through (E) of paragraph (3);

(ii) include provisions to ensure the stability of, and compliance with, the voluntary agreement; and

(iii) provide for fees for such operations.

(C) PUBLIC REVIEW.—The Director and the Administrator shall provide an opportunity for public review of a proposed voluntary agreement under this paragraph and shall consult with any Indian tribe whose tribal lands are, or may be, flown over by a commercial air tour operator under a voluntary agreement under this paragraph. After such opportunity for public review and consultation, the voluntary agreement may be implemented without further administrative or environmental process beyond that described in this subsection.

(D) TERMINATION.—

(i) IN GENERAL.—A voluntary agreement under this paragraph may be terminated at any time at the discretion of—

(I) the Director, if the Director determines that the agreement is not adequately protecting park resources or visitor experiences; or

(II) the Administrator, if the Administrator determines that the agreement is adversely affecting aviation safety or the national aviation system.

(ii) EFFECT OF TERMINATION.—If a voluntary agreement with respect to a national park is terminated under this subparagraph, the operators shall conform to the requirements for interim operating authority under subsection (c) until an air tour management plan for the park is in effect.

(c) INTERIM OPERATING AUTHORITY.—

(1) IN GENERAL.—Upon application for operating authority, the Administrator shall grant interim operating authority under this subsection to a commercial air tour operator for commercial air tour operations over a national park or tribal lands for which the operator is an existing commercial air tour operator.

(2) REQUIREMENTS AND LIMITATIONS.—Interim operating authority granted under this subsection—

(A) shall provide annual authorization only for the greater of—

(i) the number of flights used by the operator to provide the commercial air tour operations over a national park within the 12-month period prior to the date of the enactment of this section; or

(ii) the average number of flights per 12-month period used by the operator to provide such operations within the 36-month period prior to such date of enactment, and, for seasonal operations, the number of flights so used during the season or seasons covered by that 12-month period;

(B) may not provide for an increase in the number of commercial air tour operations over a national park conducted during any time period by the commercial air tour operator above the number that the air tour operator was originally granted unless such an increase is agreed to by the Administrator and the Director;

(C) shall be published in the Federal Register to provide notice and opportunity for comment;

(D) may be revoked by the Administrator for cause;

(E) shall terminate 180 days after the date on which an air tour management plan is established for the park or tribal lands;

(F) shall promote protection of national park resources, visitor experiences, and tribal lands;

(G) shall promote safe commercial air tour operations;

(H) shall promote the adoption of quiet technology, as appropriate; and

(I) may allow for modifications of the interim operating authority without further environmental review beyond that described in this subsection, if—

(i) adequate information regarding the existing and proposed operations of the operator under the interim operating authority is provided to the Administrator and the Director;

(ii) the Administrator determines that there would be no adverse impact on aviation safety or the air traffic control system; and

(iii) the Director agrees with the modification, based on the professional expertise of the Director regarding the protection of the resources, values, and visitor use and enjoyment of the park.

(3) NEW ENTRANT AIR TOUR OPERATORS.—

(A) IN GENERAL.—The Administrator, in cooperation with the Director, may grant interim operating authority under this paragraph to an air tour operator for a national park or tribal lands for which that operator is a new entrant air tour operator without further environmental process beyond that described in this paragraph, if—

(i) adequate information on the proposed operations of the operator is provided to the Administrator and the Director by the operator making the request;

(ii) the Administrator agrees that there would be no adverse impact on aviation safety or

the air traffic control system; and

(iii) the Director agrees, based on the Director's professional expertise regarding the protection of park resources and values and visitor use and enjoyment.

(B) SAFETY LIMITATION.—The Administrator may not grant interim operating authority under subparagraph (A) if the Administrator determines that it would create a safety problem at the park or on the tribal lands, or the Director determines that it would create a noise problem at the park or on the tribal lands.

(C) ATMP LIMITATION.—The Administrator may grant interim operating authority under subparagraph (A) of this paragraph only if the air tour management plan for the park or tribal lands to which the application relates has not been developed within 24 months after the date of the enactment of this section.

(d) COMMERCIAL AIR TOUR OPERATOR REPORTS.—

(1) REPORT.—Each commercial air tour operator conducting a commercial air tour operation over a national park under interim operating authority granted under subsection (c) or in accordance with an air tour management plan or voluntary agreement under subsection (b) shall submit to the Administrator and the Director a report regarding the number of commercial air tour operations over each national park that are conducted by the operator and such other information as the Administrator and Director may request in order to facilitate administering the provisions of this section.

(2) REPORT SUBMISSION.—Not later than 90 days after the date of enactment of the FAA Modernization and Reform Act of 2012, the Administrator and the Director shall jointly issue an initial request for reports under this subsection. The reports shall be submitted to the Administrator and the Director with a frequency and in a format prescribed by the Administrator and the Director.

(e) EXEMPTIONS.—This section shall not apply to—

(1) the Grand Canyon National Park; or

(2) tribal lands within or abutting the Grand Canyon National Park.

(f) LAKE MEAD.—This section shall not apply to any air tour operator while flying over or near the Lake Mead National Recreation Area, solely as a transportation route, to conduct an air tour over the Grand Canyon National Park. For purposes of this subsection, an air tour operator flying over the Hoover Dam in the Lake Mead National Recreation Area en route to the Grand Canyon National Park shall be deemed to be flying solely as a transportation route.

(i) below a minimum altitude, determined by the Administrator in cooperation with the Director, above ground level (except solely for purposes of takeoff or landing, or necessary for safe operation of an aircraft as determined under the rules and regulations of the Federal Aviation Administration requiring the pilot-in-command to take action to ensure the safe operation of the aircraft); or

(ii) less than 1 mile laterally from any geographic feature within the park (unless more than ½ mile outside the boundary).

(B) FACTORS TO CONSIDER.—In making a determination of whether a flight is a commercial air tour operation over a national park for purposes of this section, the Administrator may consider—

(i) whether there was a holding out to the public of willingness to conduct a sightseeing flight for compensation or hire;

(ii) whether a narrative that referred to areas or points of interest on the surface below the route of the flight was provided by the person offering the flight;

"(a) DETERMINATIONS WITH RESPECT TO SUBSTANTIAL RESTORATION OF NATURAL QUIET AND EXPERIENCE.—

"(1) IN GENERAL.—Notwithstanding any other provision of law, for purposes of section 3(b)(1) of Public Law 100–91 ([former] 16 U.S.C. 1a–1 note [now set out below]), the substantial restoration of the natural quiet and experience of the Grand Canyon National Park (in this section referred to as the 'Park') shall be considered to be achieved in the Park if, for at least 75 percent of each day, 50 percent of the Park is free of sound produced by commercial air tour operations that have an allocation to conduct commercial air tours in the Park as of the date of enactment of this Act [see section 3(a), (b) of Pub. L. 112–141, set out as Effective and Termination Dates of 2012 Amendment notes under section 101 of Title 23, Highways].

"(2) CONSIDERATIONS.—

"(A) IN GENERAL.—For purposes of determining whether substantial restoration of the natural quiet and experience of the Park has been achieved in accordance with paragraph (1), the Secretary of the Interior (in this section referred to as the 'Secretary') shall use—

"(i) the 2-zone system for the Park in effect on the date of enactment of this Act to assess impacts relating to substantial restoration of natural quiet at the Park, including—

"(I) the thresholds for noticeability and audibility; and

"(II) the distribution of land between the 2 zones; and

"(ii) noise modeling science that is—

"(I) developed for use at the Park, specifically Integrated Noise Model Version 6.2;

"(II) validated by reasonable standards for conducting field observations of model results; and

"(III) accepted and validated by the Federal Interagency Committee on Aviation Noise.

"(B) SOUND FROM OTHER SOURCES.—The Secretary shall not consider sound produced by sources other than commercial air tour operations, including sound emitted by other types of aircraft operations or other noise sources, for purposes of—

"(i) making recommendations, developing a final plan, or issuing regulations relating to commercial air tour operations in the Park; or

"(ii) determining under paragraph (1) whether substantial restoration of the natural quiet and experience of the Park has been achieved.

"(3) CONTINUED MONITORING.—The Secretary shall continue monitoring noise from aircraft operating over the Park below 17,999 feet MSL to ensure continued compliance with the substantial restoration of natural quiet and experience of the Park.

"(4) DAY DEFINED.—For purposes of this section, the term 'day' means the hours between 7:00 a.m. and 7:00 p.m.

"(b) CONVERSION TO QUIET TECHNOLOGY AIRCRAFT.—

"(1) IN GENERAL.—Not later than 15 years after the date of enactment of this Act, all commercial air tour aircraft operating in the Grand Canyon National Park Special Flight Rules Area shall be required to fully convert to quiet aircraft technology (as determined in accordance with regulations in effect on the day before the date of enactment of this Act).

"(2) CONVERSION INCENTIVES.—Not later than 60 days after the date of enactment of this Act, the Secretary and the Administrator of the Federal Aviation Administration shall provide incentives for commercial air tour operators that convert to quiet aircraft technology (as determined in accordance with the regulations in effect on the day before the date of enactment of this Act) before the date specified in paragraph (1), such as increasing the flight allocations for such operators on a net basis consistent with section 804(c) of the National Park[s] Air Tours [Tour] Management Act of 2000 (title VIII of Public Law 106–181) [set out below], provided that the cumulative impact of such operations does not increase noise at Grand Canyon National Park."

GRAND CANYON OVERFLIGHT RULES

Pub. L. 109–115, div. A, title I, §177, Nov. 30, 2005, 119 Stat. 2427, provided in part that: "Nothing in this provision [amending this section] shall allow exemption from overflight rules for the Grand Canyon."

QUIET TECHNOLOGY RULEMAKING FOR AIR TOURS OVER GRAND CANYON NATIONAL PARK

Pub. L. 108–176, title III, §323(b), Dec. 12, 2003, 117 Stat. 2541, provided that:

"(1) DEADLINE FOR RULE.—No later than January 2005, the Secretary of Transportation shall issue a final rule to establish standards for quiet technology that are reasonably achievable at Grand Canyon National Park, based on the Supplemental Notice of Proposed Rulemaking on Noise Limitations for Aircraft Operations in the Vicinity of Grand Canyon National Park, published in the Federal Register on March 24, 2003.

"(2) RESOLUTION OF DISPUTES.—Subject to applicable administrative law and procedures, if the Secretary determines that a dispute among interested parties (including outside groups) or government

agencies cannot be resolved within a reasonable time frame and could delay finalizing the rulemaking described in subsection (a), or implementation of final standards under such rule, due to controversy over adoption of quiet technology routes, establishment of incentives to encourage adoption of such routes, establishment of incentives to encourage adoption of quite technology, or other measures to achieve substantial restoration of natural quiet, the Secretary shall refer such dispute to a recognized center for environmental conflict resolution."

"(3) the National Park Service has the responsibility of conserving the scenery and natural and historic objects and wildlife in national parks and of providing for the enjoyment of the national parks in ways that leave the national parks unimpaired for future generations;

"(4) the protection of tribal lands from aircraft overflights is consistent with protecting the public health and welfare and is essential to the maintenance of the natural and cultural resources of Indian tribes;

"(5) the National Parks Overflights Working Group, composed of general aviation, commercial air tour, environmental, and Native American representatives, recommended that the Congress enact legislation based on the Group's consensus work product; and

"(6) this title reflects the recommendations made by that Group.

STUDY TO DETERMINE APPROPRIATE MINIMUM ALTITUDE FOR AIRCRAFT FLYING OVER NATIONAL PARK SYSTEM UNITS

Pub. L. 100–91, Aug. 18, 1987, 101 Stat. 674, as amended by Pub. L. 106–510, §3(a)(2), (b)(2), Nov. 13, 2000, 114 Stat. 2363, provided that:

"SECTION 1. STUDY OF PARK OVERFLIGHTS.

"(a) STUDY BY PARK SERVICE.—The Secretary of the Interior (hereinafter referred to as the 'Secretary'), acting through the Director of the National Park Service, shall conduct a study to determine the proper minimum altitude which should be maintained by aircraft when flying over units of the National Park System. The Secretary of Transportation, acting through the Administrator of the Federal Aviation Administration (hereinafter referred to as the 'Administrator'), shall provide technical assistance to the Secretary in carrying out the study.

"(b) GENERAL REQUIREMENTS OF STUDY.—The study shall identify any problems associated with overflight by aircraft of units of the National Park System and shall provide information regarding the types of overflight which may be impacting on park unit resources. The study shall distinguish between the impacts caused by sightseeing aircraft, military aircraft, commercial aviation, general aviation, and other forms of aircraft which affect such units. The study shall identify those park system units, and portions thereof, in which the most serious adverse impacts from aircraft overflights exist.

"(c) SPECIFIC REQUIREMENTS.—The study under this section shall include research at the following units of the National Park System: Cumberland Island National Seashore, Yosemite National Park, Hawai‘i Volcanoes National Park, Haleakal National Park, Glacier National Park, and Mount Rushmore National Memorial, and at no less than four additional units of the National Park System, excluding all National Park System units in the State of Alaska. The research at each such unit shall provide information and an evaluation regarding each of the following:

"(1) the impacts of aircraft noise on the safety of the park system users, including hikers, rock-climbers, and boaters;

"(2) the impairment of visitor enjoyment associated with flights over such units of the National Park System;

"(3) other injurious effects of overflights on the natural, historical, and cultural resources for which such units were established; and

"(4) the values associated with aircraft flights over such units of the National Park System in terms of visitor enjoyment, the protection of persons or property, search and rescue operations and firefighting.

Such research shall evaluate the impact of overflights by both fixed-wing aircraft and helicopters. The research shall include an evaluation of the differences in noise levels within such units of the National Park System which are associated with flight by commonly used aircraft at different altitudes. The research shall

apply only to overflights and shall not apply to landing fields within, or adjacent to, such units.

"(d) REPORT TO CONGRESS.—The Secretary shall submit a report to the Congress within 3 years after the enactment of this Act [Aug. 18, 1987] containing the results of the study carried out under this section. Such report shall also contain recommendations for legislative and regulatory action which could be taken regarding the information gathered pursuant to paragraphs (1) through (4) of subsection (c). Before submission to the Congress, the Secretary shall provide a draft of the report and recommendations to the Administrator for review. The Administrator shall review such report and recommendations and notify the Secretary of any adverse effects which the implementation of such recommendations would have on the safety of aircraft operations. The Administrator shall consult with the Secretary to resolve issues relating to such adverse effects. The final report shall include a finding by the Administrator that implementation of the recommendations of the Secretary will not have adverse effects on the safety of aircraft operations, or if the Administrator is unable to make such finding, a statement by the Administrator of the reasons he believes the Secretary's recommendations will have an adverse effect on the safety of aircraft operations.

"(e) FAA REVIEW OF RULES.—The Administrator shall review current rules and regulations pertaining to flights of aircraft over units of the National Park System at which research is conducted under subsection (c) and over any other such units at which such a review is determined necessary by the Administrator or is requested by the Secretary. In the review under this subsection, the Administrator shall determine whether changes are needed in such rules and regulations on the basis of aviation safety. Not later than 180 days after the identification of the units of the National Park System for which research is to be conducted under subsection (c), the Administrator shall submit a report to Congress containing the results of the review along with recommendations for legislative and regulatory action which are needed to implement any such changes.

"(f) AUTHORIZATION.—There are authorized to be appropriated such sums as may be necessary to carry out the studies and review under this section.

"SEC. 2. FLIGHTS OVER YOSEMITE AND HALEAKAL DURING STUDY AND REVIEW.

"(a) YOSEMITE NATIONAL PARK.—During the study and review periods provided in subsection (c), it shall be unlawful for any fixed wing aircraft or helicopter flying under visual flight rules to fly at an altitude of less than 2,000 feet over the surface of Yosemite National Park. For purposes of this subsection, the term 'surface' refers to the highest terrain within the park which is within 2,000 feet laterally of the route of flight and with respect to Yosemite Valley such term refers to the upper-most rim of the valley.

"(b) HALEAKAL NATIONAL PARK.—During the study and review periods provided in subsection (c), it shall be unlawful for any fixed wing aircraft or helicopter flying under visual flight rules to fly at an altitude below 9,500 feet above mean sea level over the surface of any of the following areas in Haleakal National Park: Haleakala Crater, Crater Cabins, the Scientific Research Reserve, Halemauu Trail, Kaupo Gap Trail, or any designated tourist viewpoint.

"(c) STUDY AND REVIEW PERIODS.—For purposes of subsections (a) and (b), the study period shall be the period of the time after the date of enactment of this Act [Aug. 18, 1987] and prior to the submission of the report under section 1. The review period shall comprise a 2-year period for Congressional review after the submission of the report to Congress.

"(d) EXCEPTIONS.—The prohibitions contained in subsections (a) and (b) shall not apply to any of the following:

"(1) emergency situations involving the protection of persons or property, including aircraft;

"(2) search and rescue operations;

"(3) flights for purposes of firefighting or for required administrative purposes; and

"(4) compliance with instructions of an air traffic controller.

"(e) ENFORCEMENT.—For purposes of enforcement, the prohibitions contained in subsections (a) and (b) shall be treated as requirements established pursuant to section 307 of the Federal Aviation Act of 1958 [see 49 U.S.C. 40103(b)]. To provide information to pilots regarding the restrictions established under this Act, the Administrator shall provide public notice of such restrictions in appropriate Federal Aviation Administration publications as soon as practicable after the enactment of this Act [Aug. 18, 1987].

"SEC. 3. GRAND CANYON NATIONAL PARK.

"(a) Noise associated with aircraft overflights at the Grand Canyon National Park is causing a significant adverse effect on the natural quiet and experience of the park and current aircraft operations at the Grand Canyon National Park have raised serious concerns regarding public safety, including concerns regarding the safety of park users.

"(b) RECOMMENDATIONS.—

"(1) SUBMISSION.—Within 30 days after the enactment of this Act [Aug. 18, 1987], the Secretary shall submit to the Administrator recommendations regarding actions necessary for the protection of

resources in the Grand Canyon from adverse impacts associated with aircraft overflights. The recommendations shall provide for substantial restoration of the natural quiet and experience of the park and protection of public health and safety from adverse effects associated with aircraft overflight. Except as provided in subsection (c), the recommendations shall contain provisions prohibiting the flight of aircraft below the rim of the Canyon, and shall designate flight free zones. Such zones shall be flight free except for purposes of administration and for emergency operations, including those required for the transportation of persons and supplies to and from Supai Village and the lands of the Havasupai Indian Tribe of Arizona. The Administrator, after consultation with the Secretary, shall define the rim of the Canyon in a manner consistent with the purposes of this paragraph.

"(2) IMPLEMENTATION.—Not later than 90 days after receipt of the recommendations under paragraph (1) and after notice and opportunity for hearing, the Administrator shall prepare and issue a final plan for the management of air traffic in the air space above the Grand Canyon. The plan shall, by appropriate regulation, implement the recommendations of the Secretary without change unless the Administrator determines that implementing the recommendations would adversely affect aviation safety. If the Administrator determines that implementing the recommendations would adversely affect aviation safety, he shall, not later than 60 days after making such determination, in consultation with the Secretary and after notice and opportunity for hearing, review the recommendations consistent with the requirements of paragraph (1) to eliminate the adverse effects on aviation safety and issue regulations implementing the revised recommendations in the plan. In addition to the Administrator's authority to implement such regulations under the Federal Aviation Act of 1958 [see 49 U.S.C. 40101 et seq.], the Secretary may enforce the appropriate requirements of the plan under such rules and regulations applicable to the units of the National Park System as he deems appropriate.

"(3) REPORT.—Within 2 years after the effective date of the plan required by subsection (b)(2), the Secretary shall submit to the Congress a report discussing—

"(A) whether the plan has succeeded in substantially restoring the natural quiet in the park; and

"(B) such other matters, including possible revisions in the plan, as may be of interest.

The report shall include comments by the Administrator regarding the effect of the plan's implementation on aircraft safety.

"(c) HELICOPTER FLIGHTS OF RIVER RUNNERS.—Subsection (b) shall not prohibit the flight of helicopters—

"(1) which fly a direct route between a point on the north rim outside of the Grand Canyon National Park and locations on the Hualapai Indian Reservation (as designated by the Tribe); and

"(2) whose sole purpose is transporting individuals to or from boat trips on the Colorado River and any guide of such a trip.

"SEC. 4. BOUNDARY WATERS CANOE AREA WILDERNESS.

"The Administrator shall conduct surveillance of aircraft flights over the Boundary Waters Canoe Area Wilderness as authorized by the Act of October 21, 1978 (92 Stat. 1649–1659) for a period of not less than 180 days beginning within 60 days of enactment of this Act [Aug. 18, 1987]. In addition to any actions the Administrator may take as a result of such surveillance, he shall provide a report to the Committee on Interior and Insular Affairs and the Committee on Public Works and Transportation of the United States House of Representatives and to the Committee on Energy and Natural Resources and the Committee on Commerce, Science, and Transportation of the United States Senate. Such report is to be submitted within 30 days of completion of the surveillance activities. Such report shall include but not necessarily be limited to information on the type and frequency of aircraft using the airspace over the Boundary Waters Canoe Area Wilderness.

"SEC. 5. ASSESSMENT OF NATIONAL FOREST SYSTEM WILDERNESS OVERFLIGHTS.

"(a) ASSESSMENT BY FOREST SERVICE.—The Chief of the Forest Service (hereinafter referred to as the 'Chief') shall conduct an assessment to determine what, if any, adverse impacts to wilderness resources are associated with overflights of National Forest System wilderness areas. The Administrator of the Federal Aviation Administration shall provide technical assistance to the Chief in carrying out the assessment. Such assessment shall apply only to overflight of wilderness areas and shall not apply to aircraft flights or landings adjacent to National Forest System wilderness units. The assessment shall not apply to any National Forest System wilderness units in the State of Alaska.

"(b) REPORT TO CONGRESS.—The Chief shall submit a report to Congress within 2 years after enactment of this Act [Aug. 18, 1987] containing the results of the assessments carried out under this section.

"(c) AUTHORIZATION.—Effective October 1, 1987, there are authorized to be appropriated such sums as may be necessary to carry out the assessment under this section.

"SEC. 6. CONSULTATION WITH FEDERAL AGENCIES.

"In conducting the study and the assessment required by this Act, the Secretary of the Interior and the Chief of the Forest Service shall consult with other Federal agencies that are engaged in an analysis of the impacts of aircraft overflights over federally-owned land."

§40129. Collaborative decisionmaking pilot program

(a) ESTABLISHMENT.—Not later than 90 days after the date of enactment of this section, the Administrator of the Federal Aviation Administration shall establish a collaborative decisionmaking pilot program in accordance with this section.

(b) DURATION.—Except as provided in subsection (k), the pilot program shall be in effect for a period of 2 years.

(c) GUIDELINES.—

(1) ISSUANCE.—The Administrator, with the concurrence of the Attorney General, shall issue guidelines concerning the pilot program. Such guidelines, at a minimum, shall—

(A) define a capacity reduction event;

(B) establish the criteria and process for determining when a capacity reduction event exists that warrants the use of collaborative decisionmaking among carriers at airports participating in the pilot program; and

(C) prescribe the methods of communication to be implemented among carriers during such an event.

(2) VIEWS.—The Administrator may obtain the views of interested parties in issuing the guidelines.

(d) EFFECT OF DETERMINATION OF EXISTENCE OF CAPACITY REDUCTION EVENT .—Upon a determination by the Administrator that a capacity reduction event exists, the Administrator may authorize air carriers and foreign air carriers operating at an airport participating in the pilot program to communicate for a period of time not to exceed 24 hours with each other concerning changes in their respective flight schedules in order to use air traffic capacity most effectively. The Administration shall facilitate and monitor such communication. The Attorney General, or the Attorney General's designee, may monitor such communication.

(e) SELECTION OF PARTICIPATING AIRPORTS.—Not later than 30 days after the date on which the Administrator establishes the pilot program, the Administrator shall select 2 airports to participate in the pilot program from among the most capacity-constrained airports in the Nation based on the Administration's Airport Capacity Benchmark Report 2001 or more recent data on airport capacity that is available to the Administrator. The Administrator shall select an airport for participation in the pilot program if the Administrator determines that collaborative decisionmaking among air carriers and foreign air carriers would reduce delays at the airport and have beneficial effects on reducing delays in the national airspace system as a whole.

(f) ELIGIBILITY OF AIR CARRIERS.—An air carrier or foreign air carrier operating at an airport selected to participate in the pilot program is eligible to participate in the pilot program if the Administrator determines that the carrier has the operational and communications capability to participate in the pilot program.

(g) MODIFICATION OR TERMINATION OF PILOT PROGRAM AT AN AIRPORT.—The Administrator, with the concurrence of the Attorney General, may modify or end the pilot program at an airport before the term of the pilot program has expired, or may ban an air carrier or foreign air carrier from participating in the program, if the Administrator determines that the purpose of the pilot program is not being furthered by participation of the airport or air carrier or if the Secretary of Transportation, with the concurrence of the Attorney General, finds that the pilot program or the participation of an air carrier or foreign air carrier in the pilot program has had, or is having, an adverse effect on competition among carriers.

(h) ANTITRUST IMMUNITY.—

(1) IN GENERAL.—Unless, within 5 days after receiving notice from the Secretary of the Secretary's intention to exercise authority under this subsection, the Attorney General submits to the Secretary a written objection to such action, including reasons for such objection, the Secretary may exempt an air carrier's or foreign air carrier's activities that are necessary to participate in the pilot program under this section from the antitrust laws for the sole purpose of participating in the pilot program. Such exemption shall not extend to any discussions, agreements, or activities outside the scope of the pilot program.

(2) ANTITRUST LAWS DEFINED.—In this section, the term "antitrust laws" has the meaning given that term in the first section of the Clayton Act (15 U.S.C. 12).

(i) CONSULTATION WITH ATTORNEY GENERAL.—The Secretary shall consult with the Attorney General regarding the design and implementation of the pilot program, including determining whether a limit should be set on the number of occasions collaborative decisionmaking could be employed during the initial 2-year period of the pilot program.

(j) EVALUATION.—

(1) IN GENERAL.—Before the expiration of the 2-year period for which the pilot program is authorized under subsection (b), the Administrator shall determine whether the pilot program has facilitated more effective use of air traffic capacity and the Secretary, with the concurrence of the Attorney General, shall determine whether the pilot program has had an adverse effect on airline competition or the availability of air services to communities. The Administrator shall also examine whether capacity benefits resulting from the participation in the pilot program of an airport resulted in capacity benefits to other parts of the national airspace system.

(2) OBTAINING NECESSARY DATA.—The Administrator may require participating air carriers and airports to provide data necessary to evaluate the pilot program's impact.

(k) EXTENSION OF PILOT PROGRAM.—At the end of the 2-year period for which the pilot program is authorized, the Administrator, with the concurrence of the Attorney General, may continue the pilot program for an additional 2 years and expand participation in the program to up to 7 additional airports if the Administrator determines pursuant to subsection (j) that the pilot program has facilitated more effective use of air traffic capacity and if the Secretary, with the concurrence of the Attorney General, determines that the pilot program has had no adverse effect on airline competition or the availability of air services to communities. The Administrator shall select the additional airports to participate in the extended pilot program in the same manner in which airports were initially selected to participate.

In this section, the words "citizen of the United States" and "citizen" are substituted for "applicant" for clarity and consistency because only a citizen of the United States may be an "air carrier" as defined in section 40102(a) of the revised title, and only an air carrier may be a "charter air carrier" as defined in section 40102(a). After January 1, 1985, other interstate and overseas air transportation and the domestic air transportation of mail do not require a certificate of public convenience and necessity. See H. In clause (2), the words "to assess the impact of the new services on the national air route structure, or otherwise" are omitted as surplus.

Subsection (d) is added for clarity.

§41103. All-cargo air transportation certificates of air carriers

(a) APPLICATIONS.—A citizen of the United States may apply to the Secretary of Transportation for a certificate authorizing the citizen to provide all-cargo air transportation. The application must contain information and be in the form the Secretary by regulation requires.

(b) ISSUANCE.—Not later than 180 days after an application for a certificate is filed under this section, the Secretary shall issue the certificate to a citizen of the United States authorizing the citizen, as an air carrier, to provide any part of the all-cargo air transportation applied for unless the Secretary finds that the citizen is not fit, willing, and able to provide the all-cargo air transportation to be authorized by the certificate and to comply with regulations of the Secretary.

(c) TERMS.—The Secretary may impose terms the Secretary considers necessary when issuing a certificate under this section. However, the Secretary may not impose terms that restrict the places served or prices charged by the holder of the certificate.

(d) EXEMPTIONS AND STATUS.—A citizen issued a certificate under this section—

(1) is exempt in providing the transportation under the certificate from the requirements of—

(A) section 41101(a)(1) of this title and regulations or procedures prescribed under section 41101(a)(1); and

(B) other provisions of this part and regulations or procedures prescribed under those provisions when the Secretary finds under regulations of the Secretary that the exemption is appropriate; and

(2) is an air carrier under this part except to the extent the carrier is exempt under this section from a requirement of this part.

AMENDMENTS

1994—Subsec. (a). Pub. L. 103–429 substituted "all-cargo" for "all-property".

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 1994 AMENDMENT

Amendment by Pub. L. 103–429 effective July 5, 1994, see section 9 of Pub. L. 103–429, set out as a note under section 321 of this title.

§41104. Additional limitations and requirements of charter air carriers

(a) RESTRICTIONS.—The Secretary of Transportation may prescribe a regulation or issue an order restricting the marketability, flexibility, accessibility, or variety of charter air transportation provided under a certificate issued under section 41102 of this title only to the extent required by the public interest. A regulation prescribed or order issued under this subsection may not be more restrictive than a regulation related to charter air transportation that was in effect on October 1, 1978.

(b) SCHEDULED OPERATIONS.—

(1) IN GENERAL.—Except as provided in paragraphs (3) and (4), an air carrier, including an indirect air carrier, may not provide, in aircraft designed for more than 9 passenger seats, regularly scheduled charter air transportation, for which the public is provided in advance a schedule containing the departure location, departure time, and arrival location of the flight, to or from an airport that—

(A) does not have an airport operating certificate issued under part 139 of title 14, Code of Federal Regulations (or any subsequent similar regulation); or

(B) has an airport operating certificate issued under part 139 of title 14, Code of Federal Regulations (or any subsequent similar regulation) if the airport—

(i) is a reliever airport (as defined in section 47102) and is designated as such in the national plan of integrated airports maintained under section 47103; and

(ii) is located within 20 nautical miles (22 statute miles) of 3 or more airports that each annually account for at least 1 percent of the total United States passenger enplanements and at least 2 of which are operated by the sponsor of the reliever airport.

(2) DEFINITION.—In this paragraph, the term "regularly scheduled charter air transportation" does not include operations for which the departure time, departure location, and arrival location are specifically negotiated with the customer or the customer's representative.

(3) EXCEPTION.—This subsection does not apply to any airport in the State of Alaska or to any airport outside the United States.

(4) WAIVERS.—The Secretary may waive the application of paragraph (1)(B) in cases in which the Secretary determines that the public interest so requires.

(c) ALASKA.—An air carrier holding a certificate issued under section 41102 of this title may provide charter air transportation between places in Alaska only to the extent the Secretary decides the transportation is required by public convenience and necessity. The Secretary may make that decision when issuing, amending, or modifying the certificate. This subsection does not apply to a certificate issued under section 41102 to a citizen of the United States who, before July 1, 1977—

(1) maintained a principal place of business in Alaska; and

(2) conducted air transport operations between places in Alaska with aircraft with a certificate for gross takeoff weight of more than 40,000 pounds.

(d) SUSPENSIONS.—(1) The Secretary shall suspend for not more than 30 days any part of the certificate of a charter air carrier if the Secretary decides that the failure of the carrier to comply with the requirements described in sections 41110(e) and 41112 of this title, or a regulation or order of the Secretary under section 41110(e) or 41112, requires immediate suspension in the interest of the rights, welfare, or safety of the public. The Secretary may act under this paragraph without notice or a hearing.

(2) The Secretary shall begin immediately a hearing to decide if the certificate referred to in paragraph (1) of this subsection should be amended, modified, suspended, or revoked. Until the hearing is completed, the Secretary may suspend the certificate for additional periods totaling not more than 60 days. If the Secretary decides that the carrier is complying with the requirements described in sections 41110(e) and 41112 of this title and regulations and orders under sections 41110(e) and 41112, the Secretary immediately may end the suspension period and proceeding begun under this subsection. However, the Secretary is not prevented from imposing a civil penalty on the carrier for violating the requirements described in section 41110(e) or 41112 or a regulation or order under section 41110(e) or 41112.

The words "in foreign air transportation or between places in Alaska" are substituted for "between any points within the United States or between the United States and foreign countries" for consistency in the revised title and because 49 App.:1551(a)(4)(A) provides that 49 App.:1371(m) no longer applies to interstate or overseas air transportation (except transportation of mail between 2 places in Alaska). In addition, Congress did not intend to maintain the regulation of domestic air transportation of mail. See section 40102(a) of the revised title defining "air transportation" to mean interstate or foreign air transportation or the transportation of mail by aircraft. The word "currently" is omitted as surplus. The words "opportunity for a" are added for consistency in the revised title and with other titles of the United States Code. (B) the end of the period the Secretary specifies for an air carrier having a certificate of temporary authority issued under section 41102(a)(2) of this title; or

(C) the Secretary certifies that transportation is no longer being provided under a certificate.

(2) On application or on the initiative of the Secretary and after notice and an opportunity for a hearing or, except as provided in paragraph (4) of this subsection, under section 41111 of this title, the Secretary may—

(A) amend, modify, or suspend any part of a certificate if the Secretary finds the public convenience and necessity require amendment, modification, or suspension; and

(B) revoke any part of a certificate if the Secretary finds that the holder of the certificate intentionally does not comply with this chapter, sections 41308–41310(a), 41501, 41503, 41504,

41506, 41510, 41511, 41701, 41702, 41705–41709, 41711, 41712, and 41731–41742, chapter 419, subchapter II of chapter 421, and section 46301(b) of this title, a regulation or order of the Secretary under any of those provisions, or a term of its certificate.

(3) The Secretary may revoke a certificate under paragraph (2)(B) of this subsection only if the holder of the certificate does not comply, within a reasonable time the Secretary specifies, with an order to the holder requiring compliance.

(4) A certificate to provide foreign air transportation may not be amended, modified, suspended, or revoked under section 41111 of this title if the holder of the certificate requests an oral evidentiary hearing or the Secretary finds, under all the facts and circumstances, that the hearing is required in the public interest.

(b) ALL-CARGO AIR TRANSPORTATION.—The Secretary may order that a certificate issued under section 41103 of this title authorizing all-cargo air transportation is ineffective if, after notice and an opportunity for a hearing, the Secretary finds that the transportation is not provided to the minimum extent specified by the Secretary.

(c) FOREIGN AIR TRANSPORTATION.—(1) Notwithstanding subsection (a)(2)–(4) of this section, after notice and a reasonable opportunity for the affected air carrier to present its views, but without a hearing, the Secretary may suspend or revoke the authority of an air carrier to provide foreign air transportation to a place under a certificate issued under section 41102 of this title if the carrier—

(A) notifies the Secretary, under section 41734(a) of this title or a regulation of the Secretary, that it intends to suspend all transportation to that place; or

(A) is not fit, willing, and able to provide the transportation authorized by the certificate and to comply with this part and regulations of the Secretary; or

(b) CONTENTS OF PLANS.—A plan to be submitted by an air carrier under subsection (a) shall include, at a minimum, the following:

(1) A plan for publicizing a reliable, toll-free telephone number, and for providing staff, to handle calls from the families of the passengers.

(2) A process for notifying the families of the passengers, before providing any public notice of the names of the passengers, either by utilizing the services of the organization designated for the accident under section 1136(a)(2) of this title or the services of other suitably trained individuals.

(3) An assurance that the notice described in paragraph (2) will be provided to the family of a passenger as soon as the air carrier has verified that the passenger was aboard the aircraft (whether or not the names of all of the passengers have been verified) and, to the extent practicable, in person.

(4) An assurance that the air carrier will provide to the director of family support services designated for the accident under section 1136(a)(1) of this title, and to the organization designated for the accident under section 1136(a)(2) of this title, immediately upon request, a list (which is based on the best available information at the time of the request) of the names of the passengers aboard the aircraft (whether or not such names have been verified), and will periodically update the list.

(5) An assurance that the family of each passenger will be consulted about the disposition of all remains and personal effects of the passenger within the control of the air carrier.

(6) An assurance that if requested by the family of a passenger, any possession of the passenger within the control of the air carrier (regardless of its condition) will be returned to the family unless the possession is needed for the accident investigation or any criminal investigation.

(7) An assurance that any unclaimed possession of a passenger within the control of the air carrier will be retained by the air carrier for at least 18 months.

(8) An assurance that the family of each passenger will be consulted about construction by the air carrier of any monument to the passengers, including any inscription on the monument.

(9) An assurance that the treatment of the families of nonrevenue passengers (and any other victim of the accident, including any victim on the ground) will be the same as the treatment of the families of revenue passengers.

(10) An assurance that the air carrier will work with any organization designated under section 1136(a)(2) of this title on an ongoing basis to ensure that families of passengers receive an appropriate level of services and assistance following each accident.

(11) An assurance that the air carrier will provide reasonable compensation to any organization designated under section 1136(a)(2) of this title for services provided by the organization.

(12) An assurance that the air carrier will assist the family of a passenger in traveling to the location of the accident and provide for the physical care of the family while the family is staying at such location.

(13) An assurance that the air carrier will commit sufficient resources to carry out the plan.

(14) An assurance that, upon request of the family of a passenger, the air carrier will inform the family of whether the passenger's name appeared on a preliminary passenger manifest for the flight involved in the accident.

(15) An assurance that the air carrier will provide adequate training to the employees and agents of the carrier to meet the needs of survivors and family members following an accident.

(B) At a minimum, the written notice shall advise an owner (i) to contact the insurer of the property as the authoritative source for information about coverage and compensation; (ii) to not rely on unofficial information offered by air carrier representatives about compensation by the air carrier for accident-site property damage; and (iii) to obtain photographic or other detailed evidence of property damage as soon as possible after the accident, consistent with restrictions on access to the accident site.

(18) An assurance that, in the case of an accident in which the National Transportation Safety Board conducts a public hearing or comparable proceeding at a location greater than 80 miles from the accident site, the air carrier will ensure that the proceeding is made available simultaneously by electronic means at a location open to the public at both the origin city and destination city of the air carrier's flight if that city is located in the United States.

(c) CERTIFICATE REQUIREMENT.—The Secretary may not approve an application for a certificate of public convenience and necessity under section 41102 of this title unless the applicant has included as part of such application a plan that meets the requirements of subsection (b).

(d) LIMITATION ON LIABILITY.—An air carrier shall not be liable for damages in any action brought in a Federal or State court arising out of the performance of the air carrier in preparing or providing a passenger list, or in providing information concerning a preliminary passenger manifest, pursuant to a plan submitted by the air carrier under subsection (b), unless such liability was caused by conduct of the air carrier which was grossly negligent or which constituted intentional misconduct.

(e) AIRCRAFT ACCIDENT AND PASSENGER DEFINED.—In this section, the terms "aircraft accident" and "passenger" have the meanings such terms have in section 1136 of this title.

(f) STATUTORY CONSTRUCTION.—Nothing in this section may be construed as limiting the actions that an air carrier may take, or the obligations that an air carrier may have, in providing assistance to the families of passengers involved in an aircraft accident.

EX. ORD. NO. 12597. ESTABLISHING PROCEDURES FOR FACILITATING PRESIDENTIAL REVIEW OF INTERNATIONAL AVIATION DECISIONS BY THE DEPARTMENT OF TRANSPORTATION

Ex. Ord. No. 12597, May 13, 1987, 52 F.R. 18335, provided:

By the authority vested in me as President by the Constitution and laws of the United States of America, including Section 801 of the Federal Aviation Act, as amended (49 U.S.C. app. §1461) [see 49 U.S.C. 41307, 41509(f)], and in order to provide presidential guidance to department and agency heads and facilitate presidential review of decisions by the Department of Transportation pursuant to the Federal Aviation Act [see 49 U.S.C. 40101 et seq.], it is hereby ordered as follows:

SECTION 1. Executive Order No. 12547 of February 6, 1986, is revoked.

SEC. 2. The Secretary of Transportation is designated and empowered to receive on behalf of the President any decision of the Department of Transportation (hereinafter referred to as the "DOT") subject to Section 801 of the Federal Aviation Act, as amended. The Secretary of Transportation is further designated and empowered to exercise, without the approval, ratification, or other action of the President, the authority of the President under Section 801 of the Federal Aviation Act, as amended, to review and determine not to disapprove any such decision that is not the subject of any written recommendation for disapproval or for a statement of reasons submitted to the Department of Transportation in accordance with section 5(b) of this Order.

SEC. 3. (a) Except as otherwise provided in this section, decisions of the DOT subject to Section 801 of the Federal Aviation Act, as amended, may be made available by the DOT for public inspection and copying following transmission to Executive departments and agencies pursuant to section 3(c) of this Order.

(b) In the interests of national security, and in order to allow for consideration of appropriate action under [former] Executive Order No. 12356, decisions of the DOT transmitted to Executive departments and agencies pursuant to section 3(c) of this Order shall be withheld from public disclosure for a period not to exceed 5 days after said transmission.

(c) At the same time that decisions of the DOT are received by the Secretary of Transportation pursuant to section 2 of this Order, the DOT shall transmit copies thereof to the Secretary of State, the Secretary of Defense, the Secretary of the Treasury, the Attorney General, the Assistant to the President for National Security Affairs, the Director of the Office of Management and Budget, and any other Executive department or agency that the DOT deems appropriate.

(d) The Secretary of State and the Secretary of Defense, or their designees, shall review the decisions of the DOT transmitted pursuant to section 3(c) of this Order and shall promptly advise the Assistant to the President for National Security Affairs or his designee whether action pursuant to Executive Order No. 12356 is deemed appropriate. If, after considering these recommendations, the Assistant to the President for National Security Affairs determines that classification under Executive Order No. 12356 is appropriate, he shall take such action and immediately so inform the DOT. Action pursuant to this subsection shall be completed by the persons designated herein within 5 days of the transmission of the decision.

(e) On and after the 6th day following transmission of a DOT decision pursuant to section 3(c) of this Order, or upon earlier notification by the Assistant to the President for National Security Affairs or his designee, the DOT is authorized to disclose all unclassified portions of the text of such decision. Nothing in this section is intended to affect the ability to withhold material under any Executive order or statute other than Section 801.

SEC. 4. (a) Departments and agencies outside of the Executive Office of the President shall raise only matters of national defense or foreign relations in the course of the presidential review established by this Order. All other matters, including those related to regulatory policy, shall be presented to the DOT in accordance with the procedures of the DOT.

(b) Departments and agencies outside of the Executive Office of the President that identify matters of national defense or foreign relations while a decision is pending before the DOT shall, except as confidentiality is required for reasons of defense or foreign policy, make those matters known to the DOT in the course of its proceedings.

SEC. 5. (a) The DOT shall receive the recommendations, addressed to the President, of the departments and agencies referred to in section 3(c) of this Order.

(b) Departments or agencies outside of the Executive Office of the President making recommendations on

matters of national defense or foreign relations with respect to any decision received by the Secretary of Transportation under section 2 of this Order shall submit their recommendations in writing to the DOT: (1) within 4 days of the DOT's issuance of a decision subject to a 10-day statutory review period under Section 801(b) [see 49 U.S.C. 41509(f)]; and (2) within 21 days of the DOT's issuance of a decision subject to a 60-day statutory review period under Section 801(a) [see 49 U.S.C. 41307]; or (3) in exceptional cases, within the period specified by the DOT in its letter of transmittal.

(c) The DOT shall, as soon as practical after the deadlines specified in section 5(b) of this Order: (1) if no recommendations for disapproval or for a statement of reasons are received from the departments and agencies specified in section 3(c) of this Order, issue its decision to become effective according to its terms; or (2) if recommendations for disapproval or for a statement of reasons are received, transmit them to the Assistant to the President for National Security Affairs, who, upon review, shall transmit a memorandum to the President with a recommendation as to whether or not the President should disapprove the proposed decision.

SEC. 6. (a) In advising the President with respect to his review of a decision pursuant to Section 801, departments and agencies outside of the Executive Office of the President shall identify with particularity the defense or foreign policy implications of the DOT decision that are deemed appropriate for consideration.

(b) If any department or agency that made recommendations to the President pursuant to Section 801 believes that, if the President decides not to disapprove a decision, the letter so advising the DOT should include a statement that the decision not to disapprove was based on national defense or foreign relations reasons, it should so indicate separately and explain why.

SEC. 7. Individuals within the Executive Office of the President shall follow a policy of: (a) refusing to discuss matters relating to the disposition of a case subject to the review of the President under Section 801 with any interested private party, or an attorney or agent for any such party, prior to the decision by the President or his designee; and (b) referring any written communication from an interested private party, or an attorney or agent for any such party, to the appropriate department or agency outside of the Executive Office of the President. Exceptions to this policy may be made only when the head of an appropriate department or agency outside of the Executive Office of the President personally finds, on a nondelegable basis, that direct written or oral communication between a private party and a person within the Executive Office of the President is needed for reasons of defense or foreign policy.

SEC. 8. Departments and agencies outside of the Executive Office of the President that regularly make recommendations in connection with the presidential review pursuant to Section 801 shall, consistent with applicable law, including the provisions of Chapter 5 of Title 5 of the United States Code:

(a) establish public dockets for all written communications (other than those requiring confidential treatment for defense or foreign policy reasons) between their officers and employees and private parties in connection with the preparation of such recommendations; and

(b) prescribe such other procedures governing oral and written communications as they deem appropriate.

SEC. 9. This Order is intended solely for the internal guidance of the departments and agencies in order to facilitate the presidential review process. This Order does not confer rights on any private parties.

SEC. 10. None of the time deadlines specified in this Order shall be construed as a limitation on expedited presidential review of any decision under Section 801.

SEC. 11. The provisions of this Order shall become effective upon publication in the Federal Register and shall govern the review of any proposed decisions of the DOT that have not become final prior to that date under Executive Order No. 12547.

SEC. 12. References in any Executive order to any provision in Executive Order No. 12547 shall be deemed to refer to the corresponding provision in this Order.

§41309. Cooperative agreements and requests

(a) FILING.—An air carrier or foreign air carrier may file with the Secretary of Transportation a true copy of or, if oral, a true and complete memorandum of, an agreement (except an agreement related to interstate air transportation), or a request for authority to discuss cooperative arrangements (except arrangements related to interstate air transportation), and any modification or cancellation of an agreement, between the air carrier or foreign air carrier and another air carrier, a foreign carrier, or another carrier.

(b) APPROVAL.—The Secretary of Transportation shall approve an agreement, request, modification, or cancellation referred to in subsection (a) of this section when the Secretary finds it is not adverse to the public interest and is not in violation of this part. However, the Secretary shall disapprove—

(1) or, after periodic review, end approval of, an agreement, request, modification, or cancellation, that substantially reduces or eliminates competition unless the Secretary finds that—

(A) the agreement, request, modification, or cancellation is necessary to meet a serious transportation need or to achieve important public benefits (including international comity and foreign policy considerations); and

(B) the transportation need cannot be met or those benefits cannot be achieved by reasonably available alternatives that are materially less anticompetitive; or

(2) an agreement that—

(A) is between an air carrier not directly operating aircraft in foreign air transportation and a carrier subject to subtitle IV of this title; and

(B) governs the compensation the carrier may receive for the transportation.

(c) NOTICE AND OPPORTUNITY TO RESPOND OR FOR HEARING.—(1) When an agreement, request, modification, or cancellation is filed, the Secretary of Transportation shall give the Attorney General and the Secretary of State written notice of, and an opportunity to submit written comments about, the filing. On the initiative of the Secretary of Transportation or on request of the Attorney General or Secretary of State, the Secretary of Transportation may conduct a hearing to decide whether an agreement, request, modification, or cancellation is consistent with this part whether or not it was approved previously.

(2) In a proceeding before the Secretary of Transportation applying standards under subsection (b)(1) of this section, a party opposing an agreement, request, modification, or cancellation has the burden of proving that it substantially reduces or eliminates competition and that less anticompetitive alternatives are available. The party defending the agreement, request, modification, or cancellation has the burden of proving the transportation need or public benefits.

(3) The Secretary of Transportation shall include the findings required by subsection (b)(1) of this section in an order of the Secretary approving or disapproving an agreement, request, modification, or cancellation.

In this section, the word "contract" is omitted as being included in "agreement".

In subsection (a), the words "(whether enforceable by provisions for liquidated damages, penalties, bonds, or otherwise)" are omitted as surplus. The words "(except an agreement related to interstate air transportation)" and "(except arrangements related to interstate air transportation)" are added because of 49 App.:1551(a)(6) (related to 49 App.:1382). The word "working" is omitted as surplus. The words "in force on October 24, 1978, or thereafter entered into" are omitted as executed. The words "and any modification or cancellation of an agreement" are substituted for "or any modification or cancellation thereof" for clarity and consistency.

In subsection (b), before clause (1), the words "The Board shall by order disapprove any contract, agreement, or request . . . that it finds to be adverse to the public interest or in violation of this chapter" are omitted as surplus because of the language restated in this subsection that sets out the requirements for approval by the Secretary of Transportation before the antitrust exemption is effective. The words "whether or not previously approved by it" are omitted as surplus because of the language in clause (1) requiring periodic review and continuing approval. The words "by order" are omitted as unnecessary because of 5:ch. 5, subch. II. The text of 49 App.:1382(a)(2)(A)(iii) is omitted as obsolete because of 49 App.:1551(a)(6) (related to 49 App.:1382).

In subsection (c)(1), the words "in accordance with regulations which it prescribes" are omitted as surplus. The words "in accordance with regulations prescribed by the Board" are omitted as surplus.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 1995 AMENDMENT

Amendment by Pub. L. 104–88 effective Jan. 1, 1996, see section 2 of Pub. L. 104–88, set out as an Effective Date note under section 1301 of this title.

AIR TRANSPORTATION ARRANGEMENTS IN CERTAIN STATES

Pub. L. 107–71, title I, §116, Nov. 19, 2001, 115 Stat. 624, which related to air transportation arrangements for flights that both originate and terminate at points within the same State, was repealed by Pub. L. 107–273, div. C, title IV, §14102(g), Nov. 2, 2002, 116 Stat. 1922.

§41310. Discriminatory practices

(a) PROHIBITION.—An air carrier or foreign air carrier may not subject a person, place, port, or type of traffic in foreign air transportation to unreasonable discrimination.

(b) REVIEW AND NEGOTIATION OF DISCRIMINATORY FOREIGN CHARGES.—(1) The Secretary of Transportation shall survey charges imposed on an air carrier by the government of a foreign country or another foreign entity for the use of airport property or airway property in foreign air transportation. If the Secretary of Transportation decides that a charge is discriminatory, the Secretary promptly shall report the decision to the Secretary of State. The Secretaries of State and Transportation promptly shall begin negotiations with the appropriate government to end the discrimination. If the discrimination is not ended in a reasonable time through negotiation, the Secretary of Transportation shall establish a compensating charge equal to the discriminatory charge.

With the approval of the Secretary of State, the Secretary of the Treasury shall impose the compensating charge on a foreign air carrier of that country as a condition to accepting the general declaration of the aircraft of the foreign air carrier when it lands or takes off.

(2) The Secretary of the Treasury shall maintain an account to credit money collected under paragraph (1) of this subsection. An air carrier shall be paid from the account an amount certified by the Secretary of Transportation to compensate the air carrier for the discriminatory charge paid to the government.

(c) ACTIONS AGAINST DISCRIMINATORY ACTIVITY.—(1) The Secretary of Transportation may take actions the Secretary considers are in the public interest to eliminate an activity of a government of a foreign country or another foreign entity, including a foreign air carrier, when the Secretary, on the initiative of the Secretary or on complaint, decides that the activity—

(A) is an unjustifiable or unreasonable discriminatory, predatory, or anticompetitive practice against an air carrier; or

(B) imposes an unjustifiable or unreasonable restriction on access of an air carrier to a foreign market.

(2) The Secretary of Transportation may deny, amend, modify, suspend, revoke, or transfer under paragraph (1) of this subsection a foreign air carrier permit or tariff under section 41302, 41303, 41304(a), 41504(c), 41507, or 41509 of this title.

(d) FILING OF, AND ACTING ON, COMPLAINTS.—(1) An air carrier, computer reservations system firm, or a department, agency, or instrumentality of the United States Government may file a complaint under subsection (c) or (g) of this section with the Secretary of Transportation. The Secretary shall approve, deny, or dismiss the complaint, set the complaint for a hearing or investigation, or begin another proceeding proposing remedial action not later than 60 days after receiving the complaint. The Secretary may extend the period for acting for additional periods totaling not more than 30 days if the Secretary decides that with additional time it is likely that a complaint can be resolved satisfactorily through negotiations with the government of the foreign country or foreign entity. The Secretary must act not later than 90 days after receiving the complaint. However, the Secretary may extend this 90-day period for not more than an additional 90 days if, on the last day of the initial 90-day period, the Secretary finds that—

(A) negotiations with the government have progressed to a point that a satisfactory resolution of the complaint appears imminent;

(B) an air carrier or computer reservations system firm has not been subjected to economic injury by the government or entity as a result of filing the complaint; and

(C) the public interest requires additional time before the Secretary acts on the complaint.

(2) In carrying out paragraph (1) of this subsection and subsection (c) of this section, the Secretary of Transportation shall—

(A) solicit the views of the Secretaries of Commerce and State and the United States Trade Representative;

(B) give an affected air carrier or foreign air carrier reasonable notice and an opportunity to submit written evidence and arguments within the time limits of this subsection; and

(C) submit to the President under section 41307 or 41509(f) of this title actions proposed by the Secretary of Transportation.

(e) REVIEW.—(1) The Secretaries of State, the Treasury, and Transportation and the heads of other departments, agencies, and instrumentalities of the Government shall keep under review, to the extent of each of their jurisdictions, each form of discrimination or unfair competitive practice to which an air carrier is subject when providing foreign air transportation or a computer reservations system firm is subject when providing services with respect to airline service. Each Secretary and head shall—

(A) take appropriate action to eliminate any discrimination or unfair competitive practice found to exist; and

(B) request Congress to enact legislation when the authority to eliminate the discrimination or unfair practice is inadequate.

(2) The Secretary of Transportation shall report to Congress annually on each action taken under paragraph (1) of this subsection and on the continuing program to eliminate discrimination and unfair competitive practices. The Secretaries of State and the Treasury each shall give the Secretary of Transportation information necessary to prepare the report.

(f) REPORTS.—Not later than 30 days after acting on a complaint under this section, the Secretary of Transportation shall report to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate on action taken under this section on the complaint.

(g) ACTIONS AGAINST DISCRIMINATORY ACTIVITY BY FOREIGN CRS SYSTEMS .—The Secretary of Transportation may take such actions as the Secretary considers are in the public interest to eliminate an activity of a foreign air carrier that owns or markets a computer reservations system, or of a computer reservations system firm whose principal offices are located outside the United States, when the Secretary, on the initiative of the Secretary or on complaint, decides that the activity, with respect to airline service—

(1) is an unjustifiable or unreasonable discriminatory, predatory, or anticompetitive practice against a computer reservations system firm whose principal offices are located inside the United States; or

(2) imposes an unjustifiable or unreasonable restriction on access of such a computer reservations system to a foreign market.

41310(f)	49 App.:1159b(e).	

In subsection (a), the words "may not subject . . . to unreasonable discrimination" are substituted for "No . . . shall make, give, or cause any undue or unreasonable preference or advantage . . . in any respect whatsoever or subject . . . to any unjust discrimination or any undue or unreasonable prejudice or disadvantage in any respect whatsoever" to eliminate unnecessary words. The words "foreign air transportation" are substituted for "air transportation" because 49 App.:1551(a)(4)(C) provides that 49 App.:1374 no longer applies to interstate or overseas air transportation except insofar as 49 App.:1374 requires air carriers to provide safe and adequate service.

In subsection (b)(1), the words "at any time", "unreasonably exceed comparable charges for furnishing such airport property or airway property in the United States or are otherwise" and "reduce such charges or" are omitted as surplus. The words "the Secretary of State shall promptly report such instances to" are omitted as surplus because the Secretary of Transportation is involved in the negotiations and aware of the failure to end the discrimination. The words "excessive or" are omitted as surplus. The words "or carriers" are omitted because of 1:1.

In subsection (b)(2), the words "in accordance with such regulations as he shall adopt" are omitted as surplus because of 49:322(a). The words "by them" are omitted as surplus.

In subsections (c)–(e), the words "United States" before "air carriers" and "air carrier" are omitted as surplus and for consistency because only a citizen of the United States may be an "air carrier" as defined in section 40102(a) of the revised title and because 49 App.:1301 applies to this section.

In subsections (c)(1) and (d)(1), before each clause (A), the words "foreign entity" and "entity" are substituted for "instrumentality" for consistency in the revised title and with other titles of the United States Code.

In subsection (c)(2), the words "alteration", "cancellation", "limitation", and "pursuant to the powers of the Secretary" are omitted as surplus.

In subsection (d)(1), before clause (A), the words "department, agency, or instrumentality of the United States Government" are substituted for "agency of the Government of the United States" for consistency in the revised title and with other titles of the Code. The words "additional periods totaling not more than 30 days" are substituted for "an additional period or periods of up to 30 days each" for clarity because the amendment made by section 10111 of the Omnibus Trade and Competitiveness Act of 1988 (Public Law 100–418, 102 Stat. 1573) changed the additional period within which the Secretary had to act to only 30 days. The word "initial" is added for clarity.

In subsection (d)(2)(A), the words "the Secretaries of Commerce and State and the United States Trade Representative" are substituted for "the Department of State, the Department of Commerce, and the Office of the United States Trade Representative" because of 15:1501, 22:2651, and 19:2171, respectively.

In subsection (d)(2)(B), the words "as is consistent with acting on the complaint" are omitted as surplus.

In subsection (e)(1), before clause (A), the text of 49 App.:1159b(a) (1st, 2d sentences) is omitted as executed. The words "The Secretaries of State, the Treasury, and Transportation" are substituted for "The Department of State, the Department of the Treasury, the Department of Transportation" because of 22:2651, 31:301(b), and 49:102(b), respectively. The words "the heads of" and "instrumentalities of the Government" are added for consistency in the revised title and with other titles of the Code. The word "jurisdictions" is substituted for "respective functions" for clarity and consistency. In clause (A), the words "within its jurisdiction . . . such forms of" are omitted as surplus. Clause (B) is substituted for 49 App.:1159b(c) to eliminate unnecessary words.

In subsection (e)(2), the words "faced by United States carriers in foreign air transportation", "as may be", and "required by this subsection" are omitted as surplus.

AMENDMENTS

1997—Pub. L. 105–102, §2(21), Nov. 20, 1997, 111 Stat. 2205, struck out "common" before "carriers" in item 41502.

		731, §404(a)(2); added Mar. 22, 1972, Pub. L. 92–259, §1, 86 Stat. 95.

In this chapter, the word "regulation" is omitted in restating the phrase "classifications, rules, regulations, and practices" because it is covered by the word "rules" and to distinguish the rules of an air carrier or foreign air carrier from the regulations of the United States Government. The word "reasonable" is substituted for "just and reasonable" and "just, reasonable, and equitable" for consistency in the revised title and to eliminate unnecessary words. See the revision notes following 49:10101. The word "prices" is substituted for "fares" and "rates, fares, and charges" because of the definition of "price" in section 40102(a) of the revised title.

In this section, before clause (1), the words "comply with" are substituted for "observe" for consistency in the revised title and with other titles of the United States Code. In clause (1), the words "individual and joint" are omitted as surplus. In clause (2), the words "unreasonably discriminating" are substituted for "unduly prefer or prejudice" for consistency in the revised title and to eliminate unnecessary words. See the revision notes following 49:10101.

§41502. Establishing joint prices for through routes with other carriers

(a) JOINT PRICES.—An air carrier may establish reasonable joint prices and through service with another carrier. However, an air carrier not directly operating aircraft in air transportation (except an air express company) may not establish under this section a joint price for the transportation of property with a carrier subject to subtitle IV of this title.

(b) PRICES, CLASSIFICATIONS, RULES, AND PRACTICES AND DIVISIONS OF JOINT PRICES.—For through service by an air carrier and a carrier subject to subtitle IV of this title, the participating carriers shall establish—

(1) reasonable prices and reasonable classifications, rules, and practices affecting those prices or the value of the transportation provided under those prices; and

(2) for joint prices established for the through service, reasonable divisions of those joint prices among the participating carriers.

(c) STATEMENTS INCLUDED IN TARIFFS.—An air carrier and a carrier subject to subtitle IV of this title that are participating in through service and joint prices shall include in their tariffs, filed with the Secretary of Transportation, a statement showing the through service and joint prices.

In subsection (a), the words "(except an air express company)" are substituted for "(other than companies engaged in the air express business)" to eliminate unnecessary words.

In subsection (b), before clause (1), the words "participating carriers" are substituted for "carriers parties thereto" and "carriers participating therein" for consistency in this chapter.

In subsection (c), the words "or the Interstate Commerce Commission, as the case may be" are omitted

because of 49:10526(a)(8)(B).

PUB. L. 105–102

This amends the catchline for 49:41502 to make a technical and conforming amendment necessary because section 308(l) of the ICC Termination Act (Public Law 104–88, 109 Stat. 948) struck "common" from the text of 49:41502.

1995—Pub. L. 104–88 substituted "another carrier" for "another common carrier" in subsec. (a) and "a carrier" for "a common carrier" in subsecs. (a), (b), and (c).

EFFECTIVE DATE OF 1995 AMENDMENT

Amendment by Pub. L. 104–88 effective Jan. 1, 1996, see section 2 of Pub. L. 104–88, set out as an Effective Date note under section 1301 of this title.

§41503. Establishing joint prices for through routes provided by State authorized carriers

Subject to sections 41309 and 42111 of this title, a citizen of the United States providing transportation under section 41101(b) of this title may make an agreement with an air carrier or foreign air carrier for joint prices for that transportation. The joint prices agreed to must be the lowest of—

(1) the sum of the applicable prices for—

(A) the part of the transportation provided in the State and approved by the appropriate State authority; and

(B) the part of the transportation provided by the air carrier or foreign air carrier;

(2) a joint price established and filed under section 41504 of this title; or

(3) a joint price prescribed by the Secretary of Transportation under section 41507 of this title.

In this section, before clause (1), the words "Notwithstanding any other provision of this chapter" are omitted as surplus. The words "a citizen of the United States providing transportation under section 41101(b) of this title" are substituted for "any citizen of the United States who undertakes, within any State, the carriage

of persons or property as a common carrier for compensation or hire with aircraft capable of carrying thirty or more persons pursuant to authority for such carriage within such State granted by the appropriate State agency" for clarity and because of the restatement of 49 App.:1371(d)(4)(A)(i) and (ii) (related to joint services) in section 41101(b) of the revised title. The words "the establishment of" are omitted as surplus.

§41504. Tariffs for foreign air transportation

(a) FILING AND CONTENTS.—In the way prescribed by regulation by the Secretary of Transportation, every air carrier and foreign air carrier shall file with the Secretary, publish, and keep open to public inspection, tariffs showing the prices for the foreign air transportation provided between places served by the carrier and provided between places served by the carrier and places served by another air carrier or foreign air carrier with which through service and joint prices have been established. A tariff—

(1) shall contain—

(A) to the extent the Secretary requires by regulation, a description of the classifications, rules, and practices related to the foreign air transportation;

(B) a statement of the prices in money of the United States; and

(C) other information the Secretary requires by regulation; and

(2) may contain—

(A) a statement of the prices in money that is not money of the United States; and

(B) information that is required under the laws of a foreign country in or to which the air carrier or foreign air carrier is authorized to operate.

(b) CHANGES.—(1) Except as provided in paragraph (2) of this subsection, an air carrier or foreign air carrier may change a price or a classification, rule, or practice affecting that price or the value of the transportation provided under that price, specified in a tariff of the carrier for foreign air transportation only after 30 days after the carrier has filed, published, and posted notice of the proposed change in the same way as required for a tariff under subsection (a) of this section. However, the Secretary may prescribe an alternative notice requirement, of at least 25 days, to allow an air carrier or foreign air carrier to match a proposed change in a passenger fare or a charge of another air carrier or foreign air carrier. A notice under this paragraph must state plainly the change proposed and when the change will take effect.

(2) If the effect of a proposed change would be to begin a passenger fare that is outside of, or not covered by, the range of passenger fares specified under section 41509(e)(2) and (3) of this title, the proposed change may be put into effect only on the expiration of 60 days after the notice is filed under regulations prescribed by the Secretary.

(c) REJECTION OF CHANGES.—The Secretary may reject a tariff or tariff change that is not consistent with this section and regulations prescribed by the Secretary. A tariff or change that is rejected is void.

	49 App.:1551(a)(4)(B) (related to 49 App.:1373(a)), (b)(1)(E).	

In this section, the words "foreign air transportation" are substituted for "air transportation" because 49 App.:1551(a)(4)(B) provides that 49 App.:1373 no longer applies to interstate or overseas air transportation and 49 App.:1376(a)–(e), restated in section 41901 of the revised title, governs rates for the transportation of mail by aircraft. See section 40102(a) of the revised title defining "air transportation" to mean interstate or foreign air transportation or the transportation of mail by aircraft. The words "passenger fare" are substituted for "fare" for consistency in the revised title.

In subsection (a), before clause (1), the word "print" is omitted as being included in "publish". The word "places" is substituted for "points" for consistency in the revised title and with other titles of the United States Code. In clause (1)(A), the word "services" is omitted as being included in "practices". In clauses (1)(B) and (2)(A), the word "lawful" is omitted as surplus.

In subsection (b)(1), the words "for foreign air transportation" are added because of 49 App.:1551(a)(4)(B). See the revision notes for subsection (a) of this section. The words "in the same way as required for a tariff under" are substituted for "in accordance with" for clarity. The words "proposed change in a passenger fare or a charge of another air carrier or foreign air carrier" are substituted for "fares or charges specified in another air carrier's or foreign air carrier's proposed tariff" for clarity and consistency in this section.

In subsection (b)(2), the words "not covered by" are substituted for "to which such range of fares does not apply" to eliminate unnecessary words. The words "subparagraphs (A) and (B) of section 1482(d)(4) of this Appendix . . . section 1482(d)(7) of this Appendix" are omitted because those sections related to interstate and overseas air transportation and the source provisions restated in this section relate to foreign air transportation. In addition, the text of 49 App.:1551(a)(5)(D) provides that 49 App.:1482(d) ceased to be in effect on January 1, 1985, except as related to foreign air transportation. The reference in the source provisions to "section 1482(j)(9) of this Appendix" has been restated as though it were a reference to 49 App.:1482(j)(10) to correct an apparent error in the International Air Transportation Competition Act of 1979 (Public Law 96–192, 94 Stat. 35). Section 24(b) of S. 1300 of the 96th Congress (the derivative source for the International Air Transportation Competition Act of 1979), as originally passed by both the Senate and the House of Representatives, restated section 403(c)(2) of the Federal Aviation Act of 1958 (Public Law 85–726, 72 Stat. 759) to read as it now does with a cross–reference to section 1002(j)(9) of the Federal Aviation Act of 1958. Also contained in those versions of S. 1300 in section 24(a) was an amendment to section 1002(j) of the Federal Aviation Act of 1958 to add a paragraph (9) that contained language identical to what is now section 1002(j)(10) of the Federal Aviation Act of 1958. When S. 1300 was reported by the conference committee and enacted into law as the International Air Transportation Competition Act of 1979, section 24(a) had been changed so that a different paragraph (9) was added and what had been paragraph (9) was now designated as a new paragraph (10) to be added. Apparently, when the conference committee redesignated section 1002(j)(9)

as 1002(j)(10) it did not make a corresponding change in the cross–reference in section 403(c)(2). See 125 Cong. Rec. 26936, 32147, 36939.

§41505. Uniform methods for establishing joint prices, and divisions of joint prices, applicable to commuter air carriers

(a) DEFINITION.—In this section, "commuter air carrier" means an air carrier providing transportation under section 40109(f) of this title that provides at least 5 scheduled roundtrips a week between the same 2 places.

(b) GENERAL.—Except as provided in subsection (c) of this section, when the Secretary of Transportation prescribes under section 41508 or 41509 of this title a uniform method generally applicable to establishing joint prices and divisions of joint prices for and between air carriers holding certificates issued under section 41102 of this title, the Secretary shall make that uniform method apply to establishing joint prices and divisions of joint prices for and between air carriers and commuter air carriers.

(c) NOTICE REQUIRED BEFORE MODIFYING, SUSPENDING, OR ENDING TRANSPORTATION.—A commuter air carrier that has an agreement with an air carrier to provide transportation for passengers and property that includes through service by the commuter air carrier over the commuter air carrier's routes and air transportation provided by the air carrier shall give the air carrier and the Secretary at least 90 days' notice before modifying, suspending, or ending the transportation. If the commuter air carrier does not give that notice, the uniform method of establishing joint prices and divisions of joint prices referred to in subsection (b) of this section does not apply to the commuter air carrier.

In subsection (a), the text of 49 App.:1482a(2)(A) is omitted as unnecessary because the definition of "air carrier" in 49 App.:1301(3) is restated in section 40102(a) of the revised title and applies to this section and because the functions of the Civil Aeronautics Board under 49 App.:1482a were transferred to the Secretary of Transportation by 49 App.:1551(b)(1)(E) and the complete name of the Secretary is used the first time the term appears in a section. The text of 49 App.:1482a(3) is omitted as executed. The reference in the source provisions to "section 416(b)(3) of the Federal Aviation Act of 1958 [49 App. U.S.C. 1386(b)(3)]" has been restated as though it were a reference to section 416(b)(4) to correct an apparent error in the Airline Deregulation Act of 1978 (Public Law 95–504, 92 Stat. 1705). Section 24 of H.R. 12611 of the 95th Congress (the derivative source for 416(b)(4)), added section 416(b)(3) to the Federal Aviation Act. Section 29(c) added provisions that eventually were classified as 49 App.:1482a. Those provisions contained a reference to section 416(b)(3). When S. 2493 (passed in lieu of the House bill after being amended to contain much of the text of the House bill) was reported by the conference committee and enacted into law, section 32 added what had been a new 416(b)(3) as a new 416(b)(4). However, the conference committee did not make a corresponding change in the cross-reference in section 37(c), that added 49 App.:1482a. See 124 Cong. Rec. 30714, 30716,

36521, 36524. The word "scheduled" is substituted for "pursuant to flight schedules" to eliminate unnecessary words. The words "the same 2 places" are substituted for "one pair of points" for consistency in the revised title and with other titles of the United States Code.

In subsection (b), the words "Except as provided in subsection (c) of this section" are added for clarity. The words "pursuant to its authority" are omitted as surplus.

In subsection (c), the word "passengers" is substituted for "persons" for consistency in the revised title and with other titles of the Code. The words "through service by the commuter air carrier over the commuter air carrier's routes" are substituted for "transportation over its routes" for clarity. The words "between air carriers and commuter air carriers" are omitted as surplus.

§41506. Price division filing requirements for foreign air transportation

The words "foreign air transportation" are substituted for "air transportation" because 49 App.:1551(a)(4)(B) provides that 49 App.:1373 no longer applies to interstate or overseas air transportation and 49 App.:1376(a)–(e), restated in section 41901 of the revised title, governs rates for the transportation of mail by aircraft. See section 40102(a) of the revised title defining "air transportation" to mean interstate or foreign air transportation or the transportation of mail by aircraft.

§41507. Authority of the Secretary of Transportation to change prices, classifications, rules, and practices for foreign air transportation

(a) GENERAL.—When the Secretary of Transportation decides that a price charged or received by an air carrier or foreign air carrier for foreign air transportation, or a classification, rule, or practice affecting that price or the value of the transportation provided under that price, is or will be unreasonably discriminatory, the Secretary may—

(1) change the price, classification, rule, or practice as necessary to correct the discrimination; and

(2) order the air carrier or foreign air carrier to stop charging or collecting the discriminatory price or carrying out the discriminatory classification, rule, or practice.

(b) WHEN SECRETARY MAY ACT.—The Secretary may act under this section on the Secretary's own initiative or on a complaint filed with the Secretary and only after notice and an opportunity for a hearing.

§41508. Authority of the Secretary of Transportation to adjust divisions of joint prices for foreign air transportation

(a) GENERAL.—When the Secretary of Transportation decides that a division between air carriers, foreign air carriers, or both, of a joint price for foreign air transportation is or will be unreasonable or unreasonably discriminatory against any of those carriers, the Secretary shall prescribe a reasonable division of the joint price among those carriers. The Secretary may order the adjustment in the division of the joint price to be made retroactively to the date the complaint was filed, the date the order for an investigation was made, or a later date the Secretary decides is reasonable.

(b) WHEN SECRETARY MAY ACT.—The Secretary may act under this section on the Secretary's own initiative or on a complaint filed with the Secretary and only after notice and an opportunity for a hearing.

The words "unreasonable or unreasonably discriminatory" are substituted for "unjust, unreasonable, inequitable, or unduly preferential or prejudicial" for consistency in the revised title and to eliminate unnecessary words. See the revision notes following 49:10101. The words "against any of those carriers" are substituted for "as between the air carriers or foreign air carriers parties thereto" to eliminate unnecessary words. The word "retroactively" is added for clarity.

In subsection (b), the words "an opportunity for a" are added for consistency in the revised title and with other titles of the United States Code.

§41509. Authority of the Secretary of Transportation to suspend, cancel, and reject tariffs for foreign air transportation

(a) CANCELLATION AND REJECTION.—(1) On the initiative of the Secretary of Transportation or on a complaint filed with the Secretary, the Secretary may conduct a hearing to decide whether a price for foreign air transportation contained in an existing or newly filed tariff of an air carrier or foreign air carrier, a classification, rule, or practice affecting that price, or the value of the transportation provided under that price, is lawful. The Secretary may begin the hearing at once and without an answer or another formal pleading by the air carrier or foreign air carrier, but only after reasonable notice. If, after the hearing, the Secretary decides that the price, classification, rule, or practice is or will be unreasonable or unreasonably discriminatory, the Secretary may cancel or reject the tariff and prevent the use of the price, classification, rule, or practice.

(2) With or without a hearing, the Secretary may cancel or reject an existing or newly filed tariff of a foreign air carrier and prevent the use of a price, classification, rule, or practice when the Secretary decides that the cancellation or rejection is in the public interest.

(3) In deciding whether to cancel or reject a tariff of an air carrier or foreign air carrier under this subsection, the Secretary shall consider—

(A) the effect of the price on the movement of traffic;

(B) the need in the public interest of adequate and efficient transportation by air carriers and foreign air carriers at the lowest cost consistent with providing the transportation;

(C) the standards prescribed under law related to the character and quality of transportation to be provided by air carriers and foreign air carriers;

(D) the inherent advantages of transportation by aircraft;

(E) the need of the air carrier and foreign air carrier for revenue sufficient to enable the air carrier and foreign air carrier, under honest, economical, and efficient management, to provide adequate and efficient air carrier and foreign air carrier transportation;

(F) whether the price will be predatory or tend to monopolize competition among air carriers and foreign air carriers in foreign air transportation;

(G) reasonably estimated or foreseeable future costs and revenues for the air carrier or foreign air carrier for a reasonably limited future period during which the price would be in effect; and

(H) other factors.

(b) SUSPENSION.—(1)(A) Pending a decision under subsection (a)(1) of this section, the Secretary may suspend a tariff and the use of a price contained in the tariff or a classification, rule, or practice affecting that price.

(B) The Secretary may suspend a tariff of a foreign air carrier and the use of a price, classification, rule, or practice when the suspension is in the public interest.

(2) A suspension becomes effective when the Secretary files with the tariff and delivers to the air carrier or foreign air carrier affected by the suspension a written statement of the reasons for the suspension. To suspend a tariff, reasonable notice of the suspension must be given to the affected carrier.

(3) The suspension of a newly filed tariff may be for periods totaling not more than 365 days after the date the tariff otherwise would go into effect. The suspension of an existing tariff may be for periods totaling not more than 365 days after the effective date of the suspension. The Secretary may rescind at any time the suspension of a newly filed tariff and allow the price, classification, rule, or practice to go into effect.

(c) EFFECTIVE TARIFFS AND PRICES WHEN TARIFF IS SUSPENDED, CANCELED, OR REJECTED.—(1) If a tariff is suspended pending the outcome of a proceeding under subsection (a) of this section and the Secretary does not take final action in the proceeding during the suspension period, the tariff goes into effect at the end of that period subject to cancellation when the proceeding is concluded.

(2)(A) During the period of suspension, or after the cancellation or rejection, of a newly filed tariff (including a tariff that has gone into effect provisionally), the affected air carrier or foreign air carrier shall maintain in effect and use—

(i) the corresponding seasonal prices, or the classifications, rules, and practices affecting those prices or the value of transportation provided under those prices, that were in effect for the carrier immediately before the new tariff was filed; or

(ii) another price provided for under an applicable intergovernmental agreement or understanding.

(B) If the suspended, canceled, or rejected tariff is the first tariff of the carrier for the covered transportation, the carrier, for the purpose of operations during the period of suspension or pending effectiveness of a new tariff, may file another tariff containing a price or another classification, rule, or practice affecting the price, or the value of the transportation provided under the price, that is in effect (and not subject to a suspension order) for any air carrier providing the same transportation.

(3) If an existing tariff is suspended or canceled, the affected air carrier or foreign air carrier, for the purpose of operations during the period of suspension or pending effectiveness of a new tariff, may file another tariff containing a price or another classification, rule, or practice affecting the price, or the value of the transportation provided under the price, that is in effect (and not subject to a suspension order) for any air carrier providing the same transportation.

(d) RESPONSE TO REFUSAL OF FOREIGN COUNTRY TO ALLOW AIR CARRIER TO CHARGE A PRICE.—When the Secretary finds that the government or an aeronautical authority of a foreign country has refused to allow an air carrier to charge a price contained in a tariff filed and published under section 41504 of this title for foreign air transportation to the foreign country—

(1) the Secretary, without a hearing—

(A) may suspend any existing tariff of a foreign air carrier providing transportation between the United States and the foreign country for periods totaling not more than 365 days after the date of the suspension; and

(B) may order the foreign air carrier to charge, during the suspension periods, prices that are the same as those contained in a tariff (designated by the Secretary) of an air carrier filed and published under section 41504 of this title for foreign air transportation to the foreign country; and

(2) a foreign air carrier may continue to provide foreign air transportation to the foreign country only if the government or aeronautical authority of the foreign country allows an air carrier to start or continue foreign air transportation to the foreign country at the prices designated by the Secretary.

(e) STANDARD FOREIGN FARE LEVEL.—(1)(A) In this subsection, "standard foreign fare level" means—

(i) for a class of fares existing on October 1, 1979, the fare between 2 places (as adjusted under subparagraph (B) of this paragraph) filed for and allowed by the Civil Aeronautics Board to go into effect after September 30, 1979, and before August 13, 1980 (with seasonal fares adjusted by the percentage difference that prevailed between seasons in 1978), or the fare established under

section 1002(j)(8) of the Federal Aviation Act of 1958 (Public Law 85–726, 72 Stat. 731), as added by section 24(a) of the International Air Transportation Competition Act of 1979 (Public Law 96–192, 94 Stat. 46); or

(ii) for a class of fares established after October 1, 1979, the fare between 2 places in effect on the effective date of the establishment of the new class.

(B) At least once every 60 days for fuel costs, and at least once every 180 days for other costs, the Secretary shall adjust the standard foreign fare level for the particular foreign air transportation to which the standard foreign fare level applies by increasing or decreasing that level by the percentage change from the last previous period in the actual operating cost for each available seat-mile. In adjusting a standard foreign fare level, the Secretary may not make an adjustment to costs actually incurred. In establishing a standard foreign fare level and making adjustments in the level under this paragraph, the Secretary may use all relevant or appropriate information reasonably available to the Secretary.

(2) The Secretary may not decide that a proposed fare for foreign air transportation is unreasonable on the basis that the fare is too low or too high if the proposed fare is neither more than 5 percent higher nor 50 percent lower than the standard foreign fare level for the same or essentially similar class of transportation. The Secretary by regulation may increase the 50 percent specified in this paragraph.

(3) Paragraph (2) of this subsection does not apply to a proposed fare that is not more than—

(A) 5 percent higher than the standard foreign fare level when the Secretary decides that the proposed fare may be unreasonably discriminatory or that suspension of the fare is in the public interest because of an unreasonable regulatory action by the government of a foreign country that is related to a fare proposal of an air carrier; or

(B) 50 percent lower than the standard foreign fare level when the Secretary decides that the proposed fare may be predatory or discriminatory or that suspension of the fare is required because of an unreasonable regulatory action by the government of a foreign country that is related to a fare proposal of an air carrier.

(f) SUBMISSION OF ORDERS TO PRESIDENT.—The Secretary shall submit to the President an order made under this section suspending, canceling, or rejecting a price for foreign air transportation, and an order rescinding the effectiveness of such an order, before publishing the order. Not later than 10 days after its submission, the President may disapprove the order on finding disapproval is necessary for United States foreign policy or national defense reasons.

(g) COMPLIANCE AS CONDITION OF CERTIFICATE OR PERMIT.—This section and compliance with an order of the Secretary under this section are conditions to any certificate or permit held by an air carrier or foreign air carrier. An air carrier or foreign air carrier may provide foreign air transportation only as long as the carrier maintains prices for that transportation that comply with this section and orders of the Secretary under this section.

In subsection (a)(1) and (2), the words "take action to" are omitted as surplus.

In subsection (a)(1), the words "individual or joint (between air carriers, between foreign air carriers, or between an air carrier or carriers and a foreign air carrier or carriers)" and "and, if it so orders" are omitted as surplus. The words "unreasonable or unreasonably discriminatory" are substituted for "unjust or unreasonable, or unjustly discriminatory, or unduly preferential, or unduly prejudicial" for consistency in the revised title and to eliminate unnecessary words. See the revision notes following 49:10101.

In subsection (a)(3), before clause (A), the words "In deciding whether to cancel or reject a tariff of an air carrier or foreign air carrier under this subsection" are substituted for "In exercising and performing its powers and duties under this subsection with respect to the rejection or cancellation of rates for the carriage of persons or property" for consistency in this section and to eliminate unnecessary words. In clause (B), the words "of persons and property" are omitted as surplus.

In subsection (b)(1), the words "contained in the tariff" are added for clarity.

In subsection (b)(1)(A), the words "such hearing and" are omitted as surplus.

In subsection (b)(1)(B), the words "or in the case of" are omitted as surplus.

In subsection (b)(2), the text of 49 App.:1373(c)(3) is omitted as obsolete. Reference to 49 App.:1482(g) is omitted because 49 App.:1482(g) does not relate to foreign air transportation and 49 App.:1551(a)(5)(D) provides that 49 App.:1482(g) ceased to be in effect on January 1, 1985, except insofar as it related to foreign air transportation. Reference to 49 App.:1482(j) is omitted because it consistently has been interpreted that the minimum notice requirement does not apply to foreign air transportation.

In subsection (b)(3), the words "for periods totaling not more than 365 days after" are substituted for "a period or periods not exceeding 365 days in the aggregate beyond the time when" and "a period or periods not exceeding 365 days in the aggregate from" to eliminate unnecessary words.

In subsection (c)(1), the words "a tariff is suspended pending the outcome of a proceeding under subsection (a) of this section" are added for clarity. The words "and the Secretary does not take final action in the proceeding during the suspension period" are substituted for "the proceeding has not been concluded and an order made within the period of suspension or suspensions" and "the proceeding has not been concluded within the period of suspension or suspensions" to eliminate unnecessary words. The words "or if the Board shall otherwise so direct" are omitted as surplus because under subsection (b)(3) of this section the Secretary may rescind a suspension at any time.

In subsection (c)(2)(A), before clause (i), the words "or suspensions" are omitted because of 1:1. In clause (i), the words "corresponding seasonal" are added for clarity.

In subsection (c)(2)(B) and (3), the words "providing the same transportation" are substituted for "engaged in the same foreign air transportation" for consistency in this chapter and to eliminate unnecessary words.

In subsection (c)(2)(B), the words "of the carrier for the covered transportation" and "during the period of suspension or" are added for clarity.

In subsection (c)(3), the words "If an existing tariff is suspended or canceled" are added for clarity. The words "following cancellation of an existing tariff" are omitted as surplus.

In subsection (d), the word "properly" is omitted as surplus. In clause (1)(A), the words "the operation of" are omitted as surplus. The words "periods totaling not more than 365 days after the date of the suspension" are substituted for "for a period or periods not exceeding three hundred and sixty-five days in the aggregate from the date of such suspension" for clarity and to eliminate unnecessary words. In subclause (B), the words "or suspensions" are omitted because of 1:1. In clause (2), the words "by the Secretary" are added for clarity.

In subsection (e)(1)(B), the words "within 30 days after February 15, 1980" are omitted as executed. The words "as the case may be" are omitted as surplus.

In subsection (e)(2), the text of 49 App.:1482(j)(6)(A) is omitted as expired. The words "with respect to any proposed increase filed with the Board after the 180th day after February 15, 1980" and "with respect to any proposed decrease filed after February 15, 1980" are omitted as obsolete. The words "of persons" are omitted as surplus because a "fare" is only for passengers. The words "The Secretary by regulation may increase the 50 percent specified in this paragraph" are substituted for 49 App.:1482(j)(10) for clarity.

In subsection (e)(3)(A), the words "unreasonably discriminatory" are substituted for "unduly preferential, unduly prejudicial, or unjustly discriminatory" to eliminate unnecessary words and for consistency in the

revised title. See the revision notes following 49:10101.

In subsection (g), the words "express" and "now . . . or hereafter issued" are omitted as surplus. The words "may provide foreign air transportation only as long as" are substituted for "shall be a condition to the continuation of the affected service" for clarity.

	49 App.:1551(a)(4)(B) (related to 49 App.:1373(b)(2)), (b)(1)(E).	

In this section, the words "greater or less" are omitted as being included in "different". The words "foreign air transportation" are substituted for "air transportation" because 49 App.:1551(a)(4)(B) provides that 49

App.:1373 no longer applies to interstate or overseas air transportation and 49 App.:1376(a)–(e), restated in section 41901 of the revised title, governs prices for the transportation of mail by aircraft. See section 40102(a) of the revised title defining "air transportation" to mean interstate or foreign air transportation or the transportation of mail by aircraft. The words "for any service in connection therewith" are omitted as surplus because the word "transportation" includes any services related to the transportation.

In subsection (a), before clause (1), the words "may not" are substituted for "no . . . shall" and "no . . . shall, in any manner or by any device, directly or indirectly, or through any agent or broker, or otherwise" for clarity and to eliminate unnecessary words. In clause (1), the words "demand or collect" are omitted as being included in "charge or receive". The words "then currently" are omitted as surplus. In clause (3), the words "tariff for foreign air transportation" are substituted for "such tariffs" for clarity.

In subsection (b), before clause (1), the words "shipper, consignor, consignee, forwarder, broker, or other . . . or any director, officer, agent, or employee thereof" are omitted as surplus. In clause (1), the words "directly or indirectly, by any device or means" and "currently" are omitted as surplus. In clause (2), before subclause (A), the words "in any manner or by any device, directly or indirectly, through any agent or broker, or otherwise" are omitted as surplus. In subclause (B), the word "favor" is omitted as surplus.

§41511. Special prices for foreign air transportation

(a) FREE AND REDUCED PRICING.—This chapter does not prohibit an air carrier or foreign air carrier, under terms the Secretary of Transportation prescribes, from issuing or interchanging tickets or passes for free or reduced-price foreign air transportation to or for the following:

(1) a director, officer, or employee of the carrier (including a retired director, officer, or employee who is receiving retirement benefits from an air carrier or foreign air carrier).

(2) a parent or the immediate family of such an officer or employee or the immediate family of such a director.

(3) a widow, widower, or minor child of an employee of the carrier who died as a direct result of a personal injury sustained when performing a duty in the service of the carrier.

(4) a witness or attorney attending a legal investigation in which the air carrier is interested.

(5) an individual injured in an aircraft accident and a physician or nurse attending the individual.

(6) a parent or the immediate family of an individual injured or killed in an aircraft accident when the transportation is related to the accident.

(7) an individual or property to provide relief in a general epidemic, pestilence, or other emergency.

(8) other individuals under other circumstances the Secretary prescribes by regulation.

(b) SPACE-AVAILABLE BASIS.—Under terms the Secretary prescribes, an air carrier or foreign air carrier may grant reduced-price foreign air transportation on a space-available basis to the following:

(1) a minister of religion.

(2) an individual who is at least 60 years of age and no longer gainfully employed.

(3) an individual who is at least 65 years of age.

(4) an individual who has severely impaired vision or hearing or another physical or mental disability and an accompanying attendant needed by that individual.

In this section, the words "foreign air transportation" are substituted for "transportation" and "in the case of overseas or foreign air transportation" because 49 App.:1551(a)(4)(B) provides that 49 App.:1373 no longer applies to interstate or overseas air transportation and 49 App.:1376(a)–(e), restated in section 41901 of the revised title, governs rates for the transportation of mail by aircraft. See section 40102(a) of the revised title defining "air transportation" to mean interstate or foreign air transportation or the transportation of mail by aircraft. The word "conditions" is omitted as being included in "terms".

In subsection (a)(7), the words "or other emergency" are substituted for "other calamitous visitation" for consistency.

In subsection (b)(2), the words "no longer gainfully employed" are substituted for "retired" and "For purposes of this subsection, the term 'retired' means no longer gainfully employed as defined by the Board" to eliminate unnecessary words.

In subsection (b)(4), the words "an individual who has severely impaired vision or hearing or another physical or mental handicap" are substituted for "handicapped person" and "For the purposes of this subsection, the term 'handicapped person' means any person who has severely impaired vision or hearing, and any other physically or mentally handicapped person, as defined by the Board" to eliminate unnecessary words.

"(B) removal or retrofitting of seats on the aircraft; or

"(C) modification or retrofitting of an aircraft.

(a) IN GENERAL.—On the initiative of the Secretary of Transportation or the complaint of an air carrier, foreign air carrier, air ambulance consumer (as defined by the Secretary of Transportation), or ticket agent, and if the Secretary considers it is in the public interest, the Secretary may investigate and decide whether an air carrier, foreign air carrier, or ticket agent has been or is engaged in an unfair or deceptive practice or an unfair method of competition in air transportation or the sale of air transportation. If the Secretary, after notice and an opportunity for a hearing, finds that an air carrier, foreign air carrier, or ticket agent is engaged in an unfair or deceptive practice or unfair method of competition, the Secretary shall order the air carrier, foreign air carrier, or ticket agent to stop the practice or method.

(b) E-TICKET EXPIRATION NOTICE.—It shall be an unfair or deceptive practice under subsection (a) for any air carrier, foreign air carrier, or ticket agent utilizing electronically transmitted tickets for air transportation to fail to notify the purchaser of such a ticket of its expiration date, if any.

(c) DISCLOSURE REQUIREMENT FOR SELLERS OF TICKETS FOR FLIGHTS.—

(1) IN GENERAL.—It shall be an unfair or deceptive practice under subsection (a) for any ticket agent, air carrier, foreign air carrier, or other person offering to sell tickets for air transportation on a flight of an air carrier to fail to disclose, whether verbally in oral communication or in writing in written or electronic communication, prior to the purchase of a ticket—

(A) the name of the air carrier providing the air transportation; and

(B) if the flight has more than one flight segment, the name of each air carrier providing the air transportation for each such flight segment.

(2) INTERNET OFFERS.—In the case of an offer to sell tickets described in paragraph (1) on an Internet Web site, disclosure of the information required by paragraph (1) shall be provided on the first display of the Web site following a search of a requested itinerary in a format that is easily visible to a viewer.

(4) TRANSPORTATION BY AIR CARRIER OR CARRIER AFFILIATED WITH A DIRECT AIR CARRIER.—

(A) GENERAL RULE.—Except as provided in subparagraph (B), a State, political subdivision of a State, or political authority of 2 or more States may not enact or enforce a law, regulation, or other provision having the force and effect of law related to a price, route, or service of an air

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 1994 AMENDMENT

Amendment by Pub. L. 103–305 effective Jan. 1, 1995, see section 601(d) of Pub. L. 103–305, set out as a note under section 10521 of this title.

§41714. Availability of slots

(a) MAKING SLOTS AVAILABLE FOR ESSENTIAL AIR SERVICE.—

(1) OPERATIONAL AUTHORITY.—If basic essential air service under subchapter II of this chapter is to be provided from an eligible point to a high density airport (other than Ronald Reagan Washington National Airport), the Secretary of Transportation shall ensure that the air carrier providing or selected to provide such service has sufficient operational authority at the high density airport to provide such service. The operational authority shall allow flights at reasonable times taking into account the needs of passengers with connecting flights.

(2) EXEMPTIONS.—If necessary to carry out the objectives of paragraph (1), the Secretary shall by order grant exemptions from the requirements of subparts K and S of part 93 of title 14, Code of Federal Regulations (pertaining to slots at high density airports), to air carriers using Stage 3 aircraft or to commuter air carriers, unless such an exemption would significantly increase operational delays.

(3) ASSURANCE OF ACCESS.—If the Secretary finds that an exemption under paragraph (2) would significantly increase operational delays, the Secretary shall take such action as may be necessary to ensure that an air carrier providing or selected to provide basic essential air service is able to obtain access to a high density airport.

(4) ACTION BY THE SECRETARY.—The Secretary shall issue a final order under this subsection on or before the 60th day after receiving a request from an air carrier for operational authority under this subsection.

(b) SLOTS FOR FOREIGN AIR TRANSPORTATION.—

(1) EXEMPTIONS.—If the Secretary finds it to be in the public interest at a high density airport (other than Ronald Reagan Washington National Airport), the Secretary may grant by order exemptions from the requirements of subparts K and S of part 93 of title 14, Code of Federal Regulations (pertaining to slots at high density airports), to enable air carriers and foreign air carriers to provide foreign air transportation using Stage 3 aircraft.

(2) SLOT WITHDRAWALS.—The Secretary may not withdraw a slot at Chicago O'Hare International Airport from an air carrier in order to allocate that slot to a carrier to provide foreign air transportation.

(3) EQUIVALENT RIGHTS OF ACCESS.—The Secretary shall not take a slot at a high density airport from an air carrier and award such slot to a foreign air carrier if the Secretary determines that air carriers are not provided equivalent rights of access to airports in the country of which such foreign air carrier is a citizen.

(4) CONVERSIONS OF SLOTS.—Effective May 1, 2000, slots at Chicago O'Hare

International Airport allocated to an air carrier as of November 1, 1999, to provide foreign air transportation shall be made available to such carrier to provide interstate or intrastate air transportation.

(c) SLOTS FOR NEW ENTRANTS.—If the Secretary finds it to be in the public interest, the Secretary may by order grant exemptions from the requirements under subparts K and S of part 93 of title 14, Code of Federal Regulations (pertaining to slots at high density airports), to enable new entrant air carriers to provide air transportation at high density airports (other than Ronald Reagan Washington National Airport).

(d) SPECIAL RULES FOR RONALD REAGAN WASHINGTON NATIONAL AIRPORT.—

(1) IN GENERAL.—Notwithstanding sections 49104(a)(5) and 49111(e) of this title, or any provision of this section, the Secretary may, only under circumstances determined by the Secretary to be exceptional, grant by order to an air carrier currently holding or operating a slot at Ronald Reagan Washington National Airport an exemption from requirements under subparts K and S of part 93 of title 14, Code of Federal Regulations (pertaining to slots at Ronald Reagan Washington National Airport), to enable that carrier to provide air transportation with Stage 3 aircraft at Ronald Reagan Washington National Airport; except that such exemption shall not—

(A) result in an increase in the total number of slots per day at Ronald Reagan Washington National Airport;

(B) result in an increase in the total number of slots at Ronald Reagan Washington National Airport from 7:00 ante meridiem to 9:59 post meridiem;

(C) increase the number of operations at Ronald Reagan Washington National Airport in any 1-hour period by more than 2 operations;

(D) result in the withdrawal or reduction of slots operated by an air carrier;

(E) result in a net increase in noise impact on surrounding communities resulting from changes in timing of operations permitted under this subsection; and

(F) continue in effect on or after the date on which the final rules issued under subsection (f) become effective.

(2) LIMITATION ON APPLICABILITY.—Nothing in this subsection shall adversely affect Exemption No. 5133, as from time-to-time amended and extended.

(e) STUDY.—

(1) MATTERS TO BE CONSIDERED.—The Secretary shall continue the Secretary's current examination of slot regulations and shall ensure that the examination includes consideration of—

(A) whether improvements in technology and procedures of the air traffic control system and the use of quieter aircraft make it possible to eliminate the limitations on hourly operations imposed by the high density rule contained in part 93 of title 14 of the Code of Federal Regulations or to increase the number of operations permitted under such rule;

(B) the effects of the elimination of limitations or an increase in the number of operations allowed on each of the following:

(i) congestion and delay in any part of the national aviation system;

(ii) the impact of noise on persons living near the airport;

(iii) competition in the air transportation system;

(iv) the profitability of operations of airlines serving the airport; and

(v) aviation safety;

(C) the impact of the current slot allocation process upon the ability of air carriers to provide essential air service under subchapter II of this chapter;

(D) the impact of such allocation process upon the ability of new entrant air carriers to obtain slots in time periods that enable them to provide service;

(E) the impact of such allocation process on the ability of foreign air carriers to obtain slots;

(F) the fairness of such process to air carriers and the extent to which air carriers are provided

equivalent rights of access to the air transportation market in the countries of which foreign air carriers holding slots are citizens;

(G) the impact, on the ability of air carriers to provide domestic and international air service, of the withdrawal of slots from air carriers in order to provide slots for foreign air carriers; and

(H) the impact of the prohibition on slot withdrawals in subsections (b)(2) and (b)(3) of this section on the aviation relationship between the United States Government and foreign governments, including whether the prohibition in such subsections will require the withdrawal of slots from general and military aviation in order to meet the needs of air carriers and foreign air carriers providing foreign air transportation (and the impact of such withdrawal on general aviation and military aviation) and whether slots will become available to meet the needs of air carriers and foreign air carriers to provide foreign air transportation as a result of the planned relocation of Air Force Reserve units and the Air National Guard at O'Hare International Airport.

(2) REPORT.—Not later than January 31, 1995, the Secretary shall complete the current examination of slot regulations and shall transmit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report containing the results of such examination.

(f) RULEMAKING.—The Secretary shall conduct a rulemaking proceeding based on the results of the study described in subsection (e). In the course of such proceeding, the Secretary shall issue a notice of proposed rulemaking not later than August 1, 1995, and shall issue a final rule not later than 90 days after public comments are due on the notice of proposed rulemaking.

(g) WEEKEND OPERATIONS.—The Secretary shall consider the advisability of revising section 93.227 of title 14, Code of Federal Regulations, so as to eliminate weekend schedules from the determination of whether the 80 percent standard of subsection (a)(1) of that section has been met.

(h) DEFINITIONS.—In this section and sections 41715–41718 and 41734(h), the following definitions apply:

(4) SLOT.—The term "slot" means a reservation for an instrument flight rule takeoff or landing by an air carrier of an aircraft in air transportation.

(5) LIMITED INCUMBENT AIR CARRIER.—The term "limited incumbent air carrier" has the meaning given that term in subpart S of part 93 of title 14, Code of Federal Regulations; except that—

(A) "40" shall be substituted for "12" in sections 93.213(a)(5), 93.223(c)(3), and 93.225(h);

(B) for purposes of such sections, the term "slot" shall not include—

(i) "slot exemptions";

(ii) slots operated by an air carrier under a fee-for-service arrangement for another air carrier, if the air carrier operating such slots does not sell flights in its own name, and is under common ownership with an air carrier that seeks to qualify as a limited incumbent and that sells flights in its own name; or

(iii) slots held under a sale and license-back financing arrangement with another air carrier, where the slots are under the marketing control of the other air carrier; and

(C) for Ronald Reagan Washington National Airport, the Administrator shall not count, for the purposes of section 93.213(a)(5), slots currently held by an air carrier but leased out on a long-term basis by that carrier for use in foreign air transportation and renounced by the carrier

for return to the Department of Transportation or the Federal Aviation Administration.

(6) REGIONAL JET.—The term "regional jet" means a passenger, turbofan-powered aircraft with a certificated maximum passenger seating capacity of less than 71.

(9) MEDIUM HUB AIRPORT.—The term "medium hub airport" means an airport that each year has at least .25 percent, but less than 1.0 percent, of the total annual boardings in the United States as determined under the summary referred to in paragraph (7).

(i) 60-DAY APPLICATION PROCESS.—

(1) REQUEST FOR SLOT EXEMPTIONS.—Any slot exemption request filed with the Secretary under this section or section 41716 or 41717 (other than subsection (c)) shall include—

(A) the names of the airports to be served;

(B) the times requested; and

(C) such additional information as the Secretary may require.

(A) approve the request if the Secretary determines that the requirements of the section under which the request is made are met;

(B) return the request to the applicant for additional information relating to the request to provide air transportation; or

(C) deny the request and state the reasons for its denial.

(3) 60-DAY PERIOD TOLLED FOR TIMELY REQUEST FOR MORE INFORMATION.—If the Secretary returns under paragraph (2)(B) the request for additional information during the first 20 days after the request is filed, then the 60-day period under paragraph (2) shall be tolled until the date on which the additional information is filed with the Secretary.

(4) FAILURE TO DETERMINE DEEMED APPROVAL.—If the Secretary neither approves the request under paragraph (2)(A) nor denies the request under paragraph (2)(C) within the 60-day period beginning on the date the request is received, excepting any days during which the 60-day period is tolled under paragraph (3), then the request is deemed to have been approved on the 61st day, after the request was filed with the Secretary.

(c) FACTORS TO CONSIDER.—

(1) IN GENERAL.—Before the award of slot exemptions under sections 41714 and 41716–41718, the Secretary of Transportation may consider, among other determining factors, whether the petitioning air carrier's proposal provides the maximum benefit to the United States economy, including the number of United States jobs created by the air carrier, its suppliers, and related activities. The Secretary should give equal consideration to the consumer benefits associated with the award of such exemptions.

(2) APPLICABILITY.—Paragraph (1) does not apply in any case in which the air carrier requesting the slot exemption is proposing to use under the exemption a type of aircraft for which there is not a competing United States manufacturer.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section applicable only to fiscal years beginning after Sept. 30, 1999, see section 3 of Pub. L. 106–181, set out as an Effective Date of 2000 Amendments note under section 106 of this title.

§41718. Special rules for Ronald Reagan Washington National Airport

(a) BEYOND-PERIMETER EXEMPTIONS.—The Secretary shall grant, by order, 24 exemptions from the application of sections 49104(a)(5), 49109, 49111(e), and 41714 of this title to air carriers to operate limited frequencies and aircraft on select routes between Ronald Reagan Washington National Airport and domestic hub airports and exemptions from the requirements of subparts K and S of part 93, Code of Federal Regulations, if the Secretary finds that the exemptions will—

(1) provide air transportation with domestic network benefits in areas beyond the perimeter

described in that section;

(2) increase competition by new entrant air carriers or in multiple markets;

(3) not reduce travel options for communities served by small hub airports and medium hub airports within the perimeter described in section 49109; and

(4) not result in meaningfully increased travel delays.

(b) WITHIN-PERIMETER EXEMPTIONS.—The Secretary shall grant, by order, 20 exemptions from the requirements of sections 49104(a)(5), 49111(e), and 41714 of this title and subparts K and S of part 93 of title 14, Code of Federal Regulations, to air carriers for providing air transportation to airports within the perimeter established for civil aircraft operations at Ronald Reagan Washington National Airport under section 49109. The Secretary shall develop criteria for distributing slot exemptions for flights within the perimeter to such airports under this paragraph in a manner that promotes air transportation—

(1) by new entrant air carriers and limited incumbent air carriers;

(2) to communities without existing nonstop air transportation to Ronald Reagan Washington National Airport;

(3) to small communities;

(4) that will provide competitive nonstop air transportation on a monopoly nonstop route to Ronald Reagan Washington National Airport; or

(5) that will produce the maximum competitive benefits, including low fares.

(c) LIMITATIONS.—

(1) STAGE 3 AIRCRAFT REQUIRED.—An exemption may not be granted under this section with respect to any aircraft that is not a Stage 3 aircraft (as defined by the Secretary).

(2) GENERAL EXEMPTIONS.—

(A) HOURLY LIMITATION.—The exemptions granted—

(i) under subsections (a), (b), and (i) and departures authorized under subsection (g)(2) may not be for operations between the hours of 10:00 p.m. and 7:00 a.m.; and

(ii) under subsections (a), (b), (g), and (i) may not increase the number of operations at Ronald Reagan Washington National Airport in any 1-hour period during the hours between 7:00 a.m. and 9:59 p.m. by more than 5 operations.

(B) USE OF EXISTING SLOTS.—A non-limited incumbent air carrier utilizing an exemption authorized under subsection (g)(3) for an arrival permitted between the hours of 10:01 p.m. and 11:00 p.m. under this section shall discontinue use of an existing slot during the same time period the arrival exemption is operated.

(3) ALLOCATION OF WITHIN-PERIMETER EXEMPTIONS.—Of the exemptions granted under subsection (b)—

(A) without regard to the criteria contained in subsection (b)(1), six shall be for air transportation to small hub airports and nonhub airports;

(B) ten shall be for air transportation to medium hub and smaller airports; and

(C) four shall be for air transportation to airports without regard to their size.

(4) APPLICABILITY TO EXEMPTION NO. 5133.—Nothing in this section affects Exemption No. 5133, as from time-to-time amended and extended.

(d) APPLICATION PROCEDURES.—The Secretary shall establish procedures to ensure that all requests for exemptions under this section are granted or denied within 90 days after the date on which the request is made.

(e) APPLICABILITY OF CERTAIN LAWS.—Neither the request for, nor the granting of an exemption, under this section shall be considered for purposes of any Federal law a major Federal action significantly affecting the quality of the human environment.

(f) COMMUTERS DEFINED.—For purposes of aircraft operations at Ronald Reagan Washington National Airport under subpart K of part 93 of title 14, Code of Federal Regulations, the term "commuters" means aircraft operations using aircraft having a certificated maximum seating capacity of 76 or less.

(g) ADDITIONAL SLOT EXEMPTIONS.—

(1) INCREASE IN SLOT EXEMPTIONS.—Not later than 90 days after the date of enactment of the FAA Modernization and Reform Act of 2012, the Secretary shall grant, by order 16 exemptions from—

(A) the application of sections 49104(a)(5), 49109, and 41714 to air carriers to operate limited frequencies and aircraft on routes between Ronald Reagan Washington National Airport and airports located beyond the perimeter described in section 49109; and

(B) the requirements of subparts K and S of part 93, Code of Federal Regulations.

(2) NEW ENTRANTS AND LIMITED INCUMBENTS.—Of the slot exemptions made available under paragraph (1), the Secretary shall make 8 available to limited incumbent air carriers or new entrant air carriers (as such terms are defined in section 41714(h)). Such exemptions shall be allocated pursuant to the application process established by the Secretary under subsection (d). The Secretary shall consider the extent to which the exemptions will—

(A) provide air transportation with domestic network benefits in areas beyond the perimeter described in section 49109;

(B) increase competition in multiple markets;

(C) not reduce travel options for communities served by small hub airports and medium hub airports within the perimeter described in section 49109;

(D) not result in meaningfully increased travel delays;

(E) enhance options for nonstop travel to and from the beyond-perimeter airports that will be served as a result of those exemptions;

(F) have a positive impact on the overall level of competition in the markets that will be served as a result of those exemptions; or

(G) produce public benefits, including the likelihood that the service to airports located beyond the perimeter described in section 49109 will result in lower fares, higher capacity, and a variety of service options.

(3) IMPROVED NETWORK SLOTS.—Of the slot exemptions made available under paragraph (1), the Secretary shall make 8 available to incumbent air carriers qualifying for status as a non-limited incumbent carrier at Ronald Reagan Washington National Airport as of the date of enactment of the FAA Modernization and Reform Act of 2012. Each such non-limited incumbent air carrier—

(A) may operate up to a maximum of 2 of the newly authorized slot exemptions;

(B) prior to exercising an exemption made available under paragraph (1), shall discontinue the use of a slot for service between Ronald Reagan Washington National Airport and a large hub airport within the perimeter as described in section 49109, and operate, in place of such service, service between Ronald Reagan Washington National Airport and an airport located beyond the perimeter described in section 49109;

(C) shall be entitled to return of the slot by the Secretary if use of the exemption made available to the carrier under paragraph (1) is discontinued;

(D) shall have sole discretion concerning the use of an exemption made available under paragraph (1), including the initial or any subsequent beyond perimeter destinations to be served; and

(E) shall file a notice of intent with the Secretary and subsequent notices of intent, when appropriate, to inform the Secretary of any change in circumstances concerning the use of any exemption made available under paragraph (1).

(4) NOTICES OF INTENT.—Notices of intent under paragraph (3)(E) shall specify the beyond

perimeter destination to be served and the slots the carrier shall discontinue using to serve a large hub airport located within the perimeter.

(5) CONDITIONS.—Beyond-perimeter flight operations carried out by an air carrier using an exemption granted under this subsection shall be subject to the following conditions:

(A) An air carrier may not operate a multi-aisle or widebody aircraft in conducting such operations.

(B) An air carrier granted an exemption under this subsection is prohibited from transferring the rights to its beyond-perimeter exemptions pursuant to section 41714(j).

(h) SCHEDULING PRIORITY.—In administering this section, the Secretary shall—

(1) afford a scheduling priority to operations conducted by new entrant air carriers and limited incumbent air carriers over operations conducted by other air carriers granted additional slot exemptions under subsection (g) for service to airports located beyond the perimeter described in section 49109;

(2) afford a scheduling priority to slot exemptions currently held by new entrant air carriers and limited incumbent air carriers for service to airports located beyond the perimeter described in section 49109, to the extent necessary to protect viability of such service; and

(3) consider applications from foreign air carriers that are certificated by the government of Canada if such consideration is required by the bilateral aviation agreement between the United States and Canada and so long as the conditions and limitations under this section apply to such foreign air carriers.

(i) ADDITIONAL SLOT EXEMPTIONS.—

(1) INCREASE IN SLOT EXEMPTIONS.—Not later than 60 days after the date of enactment of the FAA Reauthorization Act of 2024, the Secretary shall grant, by order, 10 exemptions from—

(A) the application of sections 49104(a)(5), 49109, and 41714 to air carriers to operate limited frequencies and aircraft on routes between Ronald Reagan Washington National Airport and domestic airports located within or beyond the perimeter described in section 49109; and

(B) the requirements of subparts K, S, and T of part 93 of title 14, Code of Federal Regulations.

(2) NON-LIMITED INCUMBENTS.—Of the slot exemptions made available under paragraph (1), the Secretary shall make 8 available to incumbent air carriers qualifying for status as a non-limited incumbent carrier at Ronald Reagan Washington National Airport as of the date of enactment of the FAA Reauthorization Act of 2024.

(3) LIMITED INCUMBENTS.—Of the slot exemptions made available under paragraph (1), the Secretary shall make 2 available to incumbent air carriers qualifying for status as a limited incumbent carrier at Ronald Reagan Washington National Airport as of the date of enactment of the FAA Reauthorization Act of 2024.

(4) ALLOCATION PROCEDURES.—The Secretary shall allocate the 10 slot exemptions provided under paragraph (1) pursuant to the application process established by the Secretary under subsection (d), subject to the following:

(A) LIMITATIONS.—Each air carrier that is eligible under paragraph (2) and paragraph (3) shall be eligible to operate no more and no less than 2 of the newly authorized slot exemptions.

(B) CRITERIA.—The Secretary shall consider the extent to which the exemptions will—

(i) enhance options for nonstop travel to beyond-perimeter airports that do not have nonstop service from Ronald Reagan Washington National Airport as of the date of enactment of the FAA Reauthorization Act of 2024; or

(ii) have a positive impact on the overall level of competition in the markets that will be served as a result of those exemptions.

(5) PROHIBITION.—

(A) IN GENERAL.—The Metropolitan Washington Airports Authority may not assess any penalty or similar levy against an individual air carrier solely for obtaining and operating a slot exemption authorized under this subsection.

(B) RULE OF CONSTRUCTION.—Subparagraph (A) shall not be construed as prohibiting the Metropolitan Washington Airports Authority from assessing and collecting any penalty, fine, or other levy, such as a handling fee or landing fee, that is—

(i) authorized by the Metropolitan Washington Airports Regulations;

(ii) agreed to in writing by the air carrier; or

(iii) charged in the ordinary course of business to an air carrier operating at Ronald Reagan Washington National Airport regardless of whether or not the air carrier obtained a slot exemption authorized under this subsection.

RESTRICTION ON LENGTH OF ROUTES

Pub. L. 118–63, title V, §561(b)(2), (3), May 16, 2024, 138 Stat. 1215, provided that:

"(2) EXCEPTION.—The amendment made by paragraph (1) [amending this section] shall not apply to an eligible place that is served by an air carrier selected to receive essential air service compensation under subchapter II of chapter 417 of title 49, United States Code, if—

"(A) such service is in effect upon the date of enactment of this Act [May 16, 2024]; and

"(B) such service is provided by the same air carrier that provided service on the date of enactment of this Act.

"(3) SUNSET.—Paragraph (2) shall cease to have effect on October 1, 2028."

§41733. Level of basic essential air service

(a) DECISIONS MADE BEFORE OCTOBER 1, 1988.—For each eligible place for which a decision was made before October 1, 1988, under section 419 of the Federal Aviation Act of 1958, establishing the level of essential air transportation, the level of basic essential air service for that place shall be the level established by the Secretary of Transportation for that place by not later than December 29, 1988.

(b) DECISIONS NOT MADE BEFORE OCTOBER 1, 1988.—(1) The Secretary shall decide on the level of basic essential air service for each eligible place for which a decision was not made before October 1, 1988, establishing the level of essential air transportation, when the Secretary receives notice that service to that place will be provided by only one air carrier. The Secretary shall make the decision by the last day of the 6-month period beginning on the date the Secretary receives the notice. The Secretary may impose notice requirements necessary to carry out this subsection. Before making a decision, the Secretary shall consider the views of any interested community and the appropriate State authority of the State in which the community is located.

(2) Until the Secretary has made a decision on a level of basic essential air service for an eligible place under this subsection, the Secretary, on petition by an appropriate representative of the place, as defined by the Secretary, shall prohibit an air carrier from ending, suspending, or reducing air transportation to that place that appears to deprive the place of basic essential air service.

(c) AVAILABILITY OF COMPENSATION.—(1) If the Secretary decides that basic essential air service will not be provided to an eligible place without compensation, the Secretary shall provide

notice that an air carrier may apply to provide basic essential air service to the place for compensation under this section. In selecting an applicant, the Secretary shall consider, among other factors—

(A) the demonstrated reliability of the applicant in providing scheduled air service;

(B) the contractual, marketing, code-share, or interline arrangements the applicant has made with a larger air carrier serving the hub airport;

(C) the preferences of the actual and potential users of air transportation at the eligible place, including the views of the elected officials representing the users;

(D) whether the air carrier has included a plan in its proposal to market its services to the community;

(E) for an eligible place in Alaska, the experience of the applicant in providing, in Alaska, scheduled air service, or significant patterns of non-scheduled air service under an exemption granted under section 40109(a) and (c)–(h) of this title; and

(F) the total compensation proposed by the air carrier for providing scheduled air service under this section.

(2) Under guidelines prescribed under section 41737(a) of this title, the Secretary shall pay the rate of compensation for providing basic essential air service under this section and section 41734 of this title.

(d) COMPENSATION PAYMENTS.—The Secretary shall pay compensation under this section at times and in the way the Secretary decides is appropriate. The Secretary shall end payment of compensation to an air carrier for providing basic essential air service to an eligible place when the Secretary decides the compensation is no longer necessary to maintain basic essential air service to the place.

(e) REVIEW.—The Secretary shall review periodically the level of basic essential air service for each eligible place. Based on the review and consultations with an interested community and the appropriate State authority of the State in which the community is located, the Secretary may make appropriate adjustments in the level of service, to the extent such adjustments are to a level not less than the basic essential air service level established under subsection (a) for the airport that serves the community.

(f) NOTICE TO COMMUNITIES PRIOR TO TERMINATION OF ELIGIBILITY.—

(1) IN GENERAL.—The Secretary shall notify each community receiving basic essential air service for which compensation is being paid under this subchapter on or before the 45th day before issuing any final decision to end the payment of such compensation due to a determination by the Secretary that providing such service requires a rate of subsidy per passenger in excess of the subsidy cap.

(2) PROCEDURES TO AVOID TERMINATION.—The Secretary shall establish, by order, procedures by which each community notified of an impending loss of subsidy under paragraph (1) may work directly with an air carrier to ensure that the air carrier is able to submit a proposal to the Secretary to provide essential air service to such community for an amount of compensation that would not exceed the subsidy cap.

(3) ASSISTANCE PROVIDED.—The Secretary shall provide, by order, information to each community notified under paragraph (1) regarding—

(A) the procedures established pursuant to paragraph (2); and

(B) the maximum amount of compensation that could be provided under this subchapter to an air carrier serving such community that would comply with basic essential air service and the subsidy cap.

(g) PROPOSALS OF STATE AND LOCAL GOVERNMENTS TO RESTORE ELIGIBILITY.—

(1) IN GENERAL.—If the Secretary, after the date of enactment of this subsection, ends payment of compensation to an air carrier for providing basic essential air service to an eligible place because the Secretary has determined that providing such service requires a rate of subsidy per passenger in excess of the subsidy cap or that the place is no longer an eligible place pursuant

to section 41731(a)(1)(B), a State or local government may submit to the Secretary a proposal for restoring compensation for such service. Such proposal shall be a joint proposal of the State or local government and an air carrier.

(2) DETERMINATION BY SECRETARY.—The Secretary shall issue an order restoring the eligibility of the otherwise eligible place to receive basic essential air service by an air carrier for compensation under subsection (c) if—

(A) a State or local government submits to the Secretary a proposal under paragraph (1); and

(B) the Secretary determines that—

(i) the rate of subsidy per passenger under the proposal does not exceed the subsidy cap;

(ii) the proposal is likely to result in an average number of enplanements per day that will satisfy the requirement in section 41731(a)(1)(B); and

(iii) the proposal is consistent with the legal and regulatory requirements of the essential air service program.

(h) SUBSIDY CAP DEFINED.—In this section, the term "subsidy cap" means the subsidy-per-passenger cap established under section 41731(a)(1)(C).

(i) COMMUNITY PETITION FOR REVIEW.—

(1) PETITION.—An appropriate representative of an eligible place, as defined by the Secretary, may submit to the Secretary a petition expressing no confidence in the air carrier providing basic essential air service under this section and requesting a review by the Secretary. A petition submitted under this subsection shall demonstrate that the air carrier—

(A) is unwilling or unable to meet the operational specifications outlined in the order issued by the Secretary specifying the terms of basic essential air service to such place;

(B) is experiencing reliability challenges with the potential to adversely affect air service to such place; or

(C) is no longer able to provide service to such place at the rate of compensation specified by the Secretary.

(2) REVIEW.—Not later than 2 months after the date on which the Secretary receives a petition under paragraph (1), the Secretary shall review the operational performance of the air carrier providing basic essential air service to such place that submitted such petition and determine whether such air carrier is fully complying with the obligations specified in the order issued by the Secretary specifying the terms of basic essential air service to such place.

(3) TERMINATION.—If based on a review under paragraph (2), the Secretary determines noncompliance by an air carrier with an order specifying the terms for basic essential air service to the community, the Secretary may—

(A) terminate the order issued to the air carrier; and

(B) issue a notice pursuant to subsection (c) that an air carrier may apply to provide basic essential air service to such place for compensation under this section and select an applicant pursuant to such subsection.

(4) CONTINUATION OF SERVICE.—If the Secretary makes a determination under paragraph (3) to terminate an order issued to an air carrier under this section, the Secretary shall ensure continuity in air service to the affected place.

During the 90-day period, the Secretary shall reconsider such orders and shall issue new orders consistent with the amendments made by this section [amending this section and section 41742 of this title]."

§41734. Ending, suspending, and reducing basic essential air service

(a) NOTICE REQUIRED.—Subject to subsection (d), an air carrier may end, suspend, or reduce air transportation to an eligible place below the level of basic essential air service established for that place under section 41733 of this title only after giving the Secretary of Transportation, the appropriate State authority, and the affected communities at least 140 days' notice before ending, suspending, or reducing that transportation.

(b) CONTINUATION OF SERVICE FOR 30 DAYS AFTER NOTICE PERIOD.—If at the end of the notice period under subsection (a) of this section the Secretary has not found another air carrier to provide basic essential air service to the eligible place, the Secretary shall require the carrier providing notice to continue to provide basic essential air service to the place for an additional 30-day period or until another carrier begins to provide basic essential air service to the place, whichever occurs first.

(c) CONTINUATION OF SERVICE FOR ADDITIONAL 30-DAY PERIODS.—If at the end of the 30-day period under subsection (b) of this section the Secretary decides another air carrier will not provide basic essential air service to the place on a continuing basis, the Secretary shall require the carrier providing service to continue to provide service for additional 30-day periods until another carrier begins providing service on a continuing basis. At the end of each 30-day period, the Secretary shall decide if another carrier will provide service on a continuing basis.

(d) CONTINUATION OF COMPENSATION AFTER NOTICE PERIOD.—

(1) IN GENERAL.—If an air carrier receiving compensation under section 41733 for providing basic essential air service to an eligible place is required to continue to provide service to such place under this section after the 140-day notice period under subsection (a), the Secretary—

(A) shall provide the carrier with compensation sufficient to pay to the carrier the amount

required by the then existing contract for performing the basic essential air service that was being provided when the 140-day notice was given under subsection (a);

(B) may pay an additional amount that represents a reasonable return on investment; and

(C) may pay an additional return that recognizes the demonstrated additional lost profits from opportunities foregone and the likelihood that those lost profits increase as the period during which the carrier or provider is required to provide the service continues.

(2) AUTHORITY.—The Secretary may incorporate contract termination penalties or conditions on compensation into a contract for an air carrier to provide service to an eligible place that take effect in the event an air carrier provides notice that it is ending, suspending, or reducing basic essential air service.

(e) COMPENSATION TO AIR CARRIERS ORIGINALLY PROVIDING SERVICE WITHOUT COMPENSATION.—If the Secretary requires an air carrier providing basic essential air service to an eligible place without compensation under section 41733 of this title to continue providing that service after the 140-day notice period required by subsection (a), the Secretary may provide the air carrier with compensation after the end of the 140-day notice period to pay for the fully allocated actual cost to the air carrier of performing the basic essential air service that was being provided when the 140-day notice was given under subsection (a) plus a reasonable return on investment that is at least 5 percent of operating costs.

(f) FINDING REPLACEMENT CARRIERS.—When the Secretary requires an air carrier to continue to provide basic essential air service to an eligible place, the Secretary shall continue to make every effort to find another air carrier to provide at least that basic essential air service to the place on a continuing basis.

(g) TRANSFER OF AUTHORITY.—If an air carrier, providing basic essential air service under section 41733 of this title between an eligible place and an airport at which the Administrator of the Federal Aviation Administration limits the number of instrument flight rule takeoffs and landings of aircraft, provides notice under subsection (a) of this section of an intention to end, suspend, or reduce that service and another carrier is found to provide the service, the Secretary shall require the carrier providing notice to transfer any operational authority the carrier has to land or take off at that airport related to the service to the eligible place to the carrier that will provide the service, if—

(1) the carrier that will provide the service needs the authority; and

(2) the authority to be transferred is being used to provide air service to another eligible place.

(h) NONCONSIDERATION OF SLOT AVAILABILITY.—In determining what is basic essential air service and in selecting an air carrier to provide such service, the Secretary shall not consider as a factor whether slots at a high density airport are available for providing such service.

(i) EXEMPTION FROM HOLD-IN REQUIREMENTS.—If, after the date of enactment of this subsection, an air carrier commences air transportation to an eligible place that is not receiving scheduled passenger air service as a result of the failure of the eligible place to meet requirements contained in an appropriations Act, the air carrier shall not be subject to the requirements of subsections (b) and (c) with respect to such air transportation.

Section, Pub. L. 103–272, §1(e), July 5, 1994, 108 Stat. 1148, related to enhanced essential air service.

§41736. Air transportation to noneligible places

(a) PROPOSALS AND DECISIONS.—(1) A State or local government may propose to the Secretary of Transportation that the Secretary provide compensation to an air carrier to provide air transportation to a place that is not an eligible place under this subchapter. Not later than 90 days after receiving a proposal under this section, the Secretary shall—

(A) decide whether to designate the place as eligible to receive compensation under this section;

and

(B)(i) approve the proposal if the State or local government or a person is willing and able to pay 50 percent of the compensation for providing the transportation, and notify the State or local government of the approval; or

(ii) disapprove the proposal if the Secretary decides the proposal is not reasonable under paragraph (2) of this subsection, and notify the State or local government of the disapproval and the reasons for the disapproval.

(2) In deciding whether a proposal is reasonable, the Secretary shall consider, among other factors—

(A) the traffic-generating potential of the place;

(B) the cost to the United States Government of providing the proposed transportation; and

(C) the distance of the place from the closest hub airport.

(b) APPROVAL FOR CERTAIN AIR TRANSPORTATION.—Notwithstanding subsection (a)(1)(B) of this section, the Secretary shall approve a proposal under this section to compensate an air carrier for providing air transportation to a place in the 48 contiguous States or the District of Columbia and designate the place as eligible for compensation under this section if—

(1) at any time before October 23, 1978, the place was served by a carrier holding a certificate under section 401 of the Federal Aviation Act of 1958;

(2) the place is more than 50 miles from the nearest small hub airport or an eligible place;

(3) the place is more than 150 miles from the nearest hub airport; and

(4) the State or local government submitting the proposal or a person is willing and able to pay 25 percent of the cost of providing the compensated transportation.

Paragraph (4) does not apply to any community approved for service under this section during the period beginning October 1, 1991, and ending December 31, 1997.

(c) LEVEL OF AIR TRANSPORTATION.—(1) If the Secretary designates a place under subsection (a)(1) of this section as eligible for compensation under this section, the Secretary shall decide, not later than 6 months after the date of the designation, on the level of air transportation to be provided under this section. Before making a decision, the Secretary shall consider the views of any interested community, the appropriate State authority of the State in which the place is located, and the State or local government or person agreeing to pay compensation for the transportation under subsection (b)(4) of this section.

(2) After making the decision under paragraph (1) of this subsection, the Secretary shall provide notice that any air carrier that is willing to provide the level of air transportation established under paragraph (1) for a place may submit an application to provide the transportation. In selecting an applicant, the Secretary shall consider, among other factors—

(A) the factors listed in section 41733(c)(1) of this title; and

(B) the views of the State or local government or person agreeing to pay compensation for the transportation.

(d) COMPENSATION PAYMENTS.—(1) The Secretary shall pay compensation under this section when and in the way the Secretary decides is appropriate. The Secretary shall continue to pay compensation under this section only as long as—

(A) the air carrier maintains the level of air transportation established by the Secretary under subsection (c)(1) of this section;

(B) the State or local government or person agreeing to pay compensation for transportation under this section continues to pay that compensation; and

(C) the Secretary decides the compensation is necessary to maintain the transportation to the place.

(2) The Secretary may require the State or local government or person agreeing to pay

compensation under this section to make advance payments or provide other security to ensure that timely payments are made.

(e) REVIEW.—The Secretary shall review periodically the level of air transportation provided under this section. Based on the review and consultation with any interested community, the appropriate State authority of the State in which the community is located, and the State or local government or person paying compensation under this section, the Secretary may make appropriate adjustments in the level of transportation.

(f) WITHDRAWAL OF ELIGIBILITY DESIGNATIONS.—After providing notice and an opportunity for interested persons to comment, the Secretary may withdraw the designation of a place under subsection (a)(1) of this section as eligible to receive compensation under this section if the place has received air transportation under this section for at least 2 years and the Secretary decides the withdrawal would be in the public interest. The Secretary by regulation shall prescribe standards for deciding whether the withdrawal of a designation under this subsection is in the public interest. The standards shall include the factors listed in subsection (a)(2) of this section.

(g) ENDING, SUSPENDING, AND REDUCING AIR TRANSPORTATION.—An air carrier providing air transportation for compensation under this section may end, suspend, or reduce that transportation below the level of transportation established by the Secretary under this section only after giving the Secretary, the affected community, and the State or local government or person paying compensation under this section at least 30 days' notice before ending, suspending, or reducing the transportation.

(h) SUNSET.—

(1) PROPOSALS.—No proposal under subsection (a) may be accepted by the Secretary after the date of enactment of this subsection.

(2) PROGRAM.—The Secretary may not provide any compensation under this section after the date that is 2 years after the date of enactment of this subsection.

EFFECTIVE DATE OF 2000 AMENDMENT

Amendment by Pub. L. 106–181 applicable only to fiscal years beginning after Sept. 30, 1999, see section 3 of Pub. L. 106–181, set out as a note under section 106 of this title.

§41737. Compensation guidelines, limitations, and claims

(a) COMPENSATION GUIDELINES.—(1) The Secretary of Transportation shall prescribe guidelines governing the rate of compensation payable under this subchapter. The guidelines shall be used to determine the reasonable amount of compensation required to ensure the continuation of air service or air transportation under this subchapter. The guidelines shall—

(A) provide for a reduction in compensation when an air carrier does not provide service or transportation agreed to be provided;

(B) consider amounts needed by an air carrier to promote public use of the service or transportation for which compensation is being paid;

(C) include expense elements based on representative costs of air carriers providing scheduled air transportation of passengers, property, and mail on aircraft of the type the Secretary decides is appropriate for providing the service or transportation for which compensation is being provided;

(D) include provisions under which the Secretary may encourage an air carrier to improve air service for which compensation is being paid under this subchapter by incorporating financial incentives in an essential air service contract based on specified performance goals, including goals related to improving on-time performance, reducing the number of flight cancellations, establishing reasonable fares (including joint fares beyond the hub airport), establishing convenient connections to flights providing service beyond hub airports, and increasing marketing efforts; and

(E) include provisions under which the Secretary may execute a long-term essential air service contract to encourage an air carrier to provide air service to an eligible place if it would be in the public interest to do so.

(2) Promotional amounts described in paragraph (1)(B) of this subsection shall be a special,

segregated element of the compensation provided to a carrier under this subchapter.

(b) REQUIRED FINDING.—The Secretary may pay compensation to an air carrier for providing air service or air transportation under this subchapter only if the Secretary finds the carrier is able to provide the service or transportation in a reliable way.

(c) CLAIMS.—Not later than 15 days after receiving a written claim from an air carrier for compensation under this subchapter, the Secretary shall—

(1) pay or deny the United States Government's share of a claim; and

(2) if denying the claim, notify the carrier of the denial and the reasons for the denial.

(d) AUTHORITY TO MAKE AGREEMENTS AND INCUR OBLIGATIONS.—The Secretary may make agreements and incur obligations from the Airport and Airway Trust Fund established under section 9502 of the Internal Revenue Code of 1986 (26 U.S.C. 9502) to pay compensation under this subchapter. An agreement by the Secretary under this subsection is a contractual obligation of the Government to pay the Government's share of the compensation.

(e) ADJUSTMENTS TO ACCOUNT FOR SIGNIFICANTLY INCREASED COSTS.—

(1) IN GENERAL.—If the Secretary determines that air carriers are experiencing significantly increased costs in providing air service or air transportation for which compensation is being paid under this subchapter, the Secretary may increase the rates of compensation payable under this subchapter without regard to any agreement or requirement relating to the renegotiation of contracts or any notice requirement under section 41734.

(2) READJUSTMENT IF COSTS SUBSEQUENTLY DECLINE.—If an adjustment is made under paragraph (1), and total unit costs subsequently decrease to at least the total unit cost reflected in the compensation rate, then the Secretary may reverse the adjustment previously made under paragraph (1) without regard to any agreement or requirement relating to the renegotiation of contracts or any notice requirement under section 41734.

(3) SIGNIFICANTLY INCREASED COSTS DEFINED.—In this subsection, the term "significantly increased costs" means a total unit cost increase (but not increases in individual unit costs) of 10 percent or more in relation to the total unit cost reflected in the compensation rate, based on the carrier's internal audit of its financial statements if such cost increase is incurred for a period of at least 2 consecutive months.

C, title I, Nov. 18, 2011, 125 Stat. 644, provided in part: "That no funds made available under section 41742 of title 49, United States Code, and no funds made available in this Act [div. C of Pub. FINDINGS

Pub. L. 104–264, title II, §278(b), Oct. 9, 1996, 110 Stat. 3249, provided that: "Congress finds that—

"(1) air service in rural areas is essential to a national and international transportation network;

"(2) the rural air service infrastructure supports the safe operation of all air travel;

"(3) rural air service creates economic benefits for all air carriers by making the national aviation system available to passengers from rural areas;

"(4) rural air service has suffered since deregulation;

"(5) the essential air service program under the Department of Transportation—

"(A) provides essential airline access to rural and isolated rural communities throughout the Nation;

"(B) is necessary for the economic growth and development of rural communities;

"(C) is a critical component of the national and international transportation system of the United States; and

"(D) has endured serious funding cuts in recent years; and

"(6) a reliable source of funding must be established to maintain air service in rural areas and the essential air service program."

§41743. Airports not receiving sufficient service

(a) SMALL COMMUNITY AIR SERVICE DEVELOPMENT PROGRAM.—The Secretary of Transportation shall establish a program that meets the requirements of this section for improving air carrier service to airports not receiving sufficient air carrier service.

(b) APPLICATION REQUIRED.—In order to participate in the program established under subsection (a), a community or consortium of communities shall submit an application to the Secretary in such form, at such time, and containing such information as the Secretary may require, including—

(1) an assessment of the need of the community or consortium for access, or improved access, to the national air transportation system; and

(2) an analysis of the application of the criteria in subsection (c) to that community or consortium.

(c) CRITERIA FOR PARTICIPATION.—In selecting communities, or consortia of communities, for participation in the program established under subsection (a), the Secretary shall apply the following criteria:

(1) SIZE.—On the date of submission of the relevant application under subsection (b), the airport serving the community or consortium—

(A) is not larger than a small hub airport, as determined using the Department of Transportation's most recently published classification; and

(B) has—

(i) insufficient air carrier service; or
(ii) unreasonably high air fares.

(2) CHARACTERISTICS.—The airport presents characteristics, such as geographic diversity or unique circumstances, that will demonstrate the need for, and feasibility of, the program established under subsection (a).

(3) STATE LIMIT.—Not more than 4 communities or consortia of communities, or a combination thereof, from the same State may be selected to participate in the program in any fiscal year.

(4) OVERALL LIMIT.—

(A) IN GENERAL.—No more than 40 communities or consortia of communities, or a combination thereof, may be selected to participate in the program in each year for which funds are appropriated for the program.

(B) SAME PROJECTS.—Except as provided in subparagraph (C), no community, consortia of communities, or combination thereof may participate in the program in support of the same project more than once in a 5-year period, but any community, consortia of communities, or combination thereof may apply, subsequent to such participation, to participate in the program in support of a different project at any time.

(C) EXCEPTION.—The Secretary may waive the limitation under subparagraph (B) related to projects that are the same if the Secretary determines that the community or consortium spent little or no money on its previous project or encountered industry or environmental challenges, due to circumstances that were reasonably beyond the control of the community or consortium.

(5) PRIORITIES.—The Secretary shall give priority to communities or consortia of communities where—

(A) air fares are higher than the average air fares for all communities;

(B) the community has demonstrated support from at least 1 air carrier to provide service;

(C) the community or consortium will provide a portion of the cost of the activity to be assisted under the program from local sources other than airport revenues;

(D) the community or consortium has established, or will establish, a public-private partnership to facilitate air carrier service to the public;

(E) the assistance will provide material benefits to a broad segment of the travelling public, including business, educational institutions, and other enterprises, whose access to the national air transportation system is limited;

(F) the assistance will be used to help restore scheduled passenger air service that has been terminated or substantially reduced (as measured by enplanements, capacity (seats), schedule, connections, or routes);

(G) the assistance will be used in a timely fashion; and

(H) multiple communities cooperate to submit a regional or multistate application to consolidate air service into one regional airport.

(d) TYPES OF ASSISTANCE.—The Secretary may use amounts made available under this section—

(1) to provide assistance to an air carrier to subsidize service to and from an underserved airport for a period not to exceed 3 years, which shall begin with each new grant, including same-project new grants, and which shall be calculated on a non-consecutive basis for air carriers that provide air service that is seasonal;

(2) to provide assistance to an underserved airport, or an airport where air service has been terminated or substantially reduced, to obtain service to and from the underserved airport; and

(3) to provide assistance to an underserved airport to implement such other measures as the Secretary, in consultation with such airport, considers appropriate to improve air service both in

terms of the cost of such service to consumers and the availability of such service, including improving air service through marketing and promotion of air service and enhanced utilization of airport facilities.

(e) AUTHORITY TO MAKE AGREEMENTS.—

(1) IN GENERAL.—The Secretary may make agreements to provide assistance under this section. The Secretary may amend the scope of a grant agreement at the request of the community or consortium and any participating air carrier, and may limit the scope of a grant agreement to only the elements using grant assistance or to only the elements achieved, if the Secretary determines that the amendment is reasonably consistent with the original purpose of the project or the community's current air service needs.

(2) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Secretary $15,000,000 for each of fiscal years 2024 through 2028, to carry out this section. Such sums shall remain available until expended.

(f) DESIGNATION OF RESPONSIBLE OFFICIAL.—The Secretary shall designate an employee of the Department of Transportation—

(1) to function as a facilitator between small communities and air carriers;

(2) to carry out this section;

(3) to ensure that the Bureau of Transportation Statistics collects data on passenger information to assess the service needs of small communities;

(4) to work with and coordinate efforts with other Federal, State, and local agencies to increase the viability of service to small communities; and

(5) to provide policy recommendations to the Secretary and Congress that will ensure that small communities have access to quality, affordable air transportation services.

§41901. General authority

(a) TITLE 39.—The United States Postal Service may provide for the transportation of mail by aircraft in interstate air transportation under section 5402(e) and (f) of title 39, and in foreign air transportation under section 5402(b) and (c) of title 39.

(b) AUTHORITY TO PRESCRIBE PRICES.—Except as provided in section 5402 of title 39, on the initiative of the Secretary of Transportation or on petition by the Postal Service or an air carrier, the Secretary shall prescribe and publish—

(1) after notice and an opportunity for a hearing on the record, reasonable prices to be paid by the Postal Service for the transportation of mail by aircraft between places in Alaska, the facilities used in and useful for the transportation of mail, and the services related to the transportation of mail for each carrier holding a certificate that authorizes that transportation;

(2) the methods used, whether by aircraft-mile, pound-mile, weight, space, or a combination of those or other methods, to determine the prices for each air carrier or class of air carriers; and

(3) the effective date of the prices.

(c) OTHER TRANSPORTATION.—In prescribing prices under subsection (b) of this section, the Secretary may include transportation other than by aircraft that is incidental to transportation of mail

by aircraft or necessary because of emergency conditions related to aircraft operations.

(d) AUTHORITY TO PRESCRIBE DIFFERENT PRICES.—Considering conditions peculiar to transportation by aircraft and to particular air carriers or classes of air carriers, the Secretary may prescribe different prices under this section for different air carriers or classes of air carriers and for different classes of service. In prescribing a price for a carrier under this section, the Secretary shall consider, among other factors, the following:

(1) the condition that the carrier may hold and operate under a certificate authorizing the transportation of mail only by providing necessary and adequate facilities and service for the transportation of mail.

(2) standards related to the character and quality of service to be provided that are prescribed by or under law.

(e) STATEMENTS ON PRICES.—A petition for prescribing a reasonable price under this section must include a statement of the price the petitioner believes is reasonable.

(f) STATEMENTS ON REQUIRED SERVICES.—The Postal Service shall introduce as part of the record in every proceeding under this section a comprehensive statement of the services to be required of the air carrier and other information the Postal Service has that the Secretary considers material to the proceeding.

In this section, the word "prescribe" is substituted for "fix and determine" and "fixing and determining" for consistency in the revised title and with other titles of the United States Code. The word "reasonable" is substituted for "fair and reasonable" for consistency in the revised title and to eliminate an unnecessary word. See the revision notes following 49:10101.

Subsection (a) is substituted for 49 App.:1551(b)(1)(D) to make clear that the United States Postal Service derives its authority to provide for the transportation of mail by aircraft in interstate transportation from 39:5402(d) and (f). The text of 49 App.:1376(a) (1st sentence related to non-Alaska interstate and overseas air transportation less words between parentheses) is omitted as superseded by 39:5402(d).

In subsection (b), before clause (1), the words "Except as provided in section 5402 of title 39" are added for clarity. The words "from time to time" in 49 App.:1376(a) are omitted as surplus. The text of 49 App.:1376(a) (2d, last sentences) is omitted as executed. In clauses (1) and (2), the word "prices" is substituted for "rates of compensation" for consistency in this part. In clause (1), the words "an opportunity for a hearing on the record" are substituted for "hearing" for clarity and consistency with subsection (f) of this section. The words "to be paid by the Postal Service" are substituted for "The United States Postal Service shall make payments . . . of so much of the total compensation as is fixed and determined by the Board under this section without regard to clause (3) of subsection (b) of this section" in 49 App.:1376(c) to eliminate unnecessary words because the text of 49 App.:1376(b) (2d sentence words after 2d semicolon) is being omitted. See the revision notes for subsection (d) of this section. The words "out of appropriations for the transportation of mail by aircraft" are omitted as being superseded by chapters 20 and 24 of title 39, United States Code. The text of 49 App.:1376(c) (2d sentence) is omitted as expired because of 49 App.:1376(c) (last sentence). The text of 49 App.:1376(c) (last sentence) is omitted as executed. The words "and to make such rates effective from such date as it shall determine to be proper" in 49 App.:1376(a) are omitted because the power to determine when rates go into effect is included in the power to prescribe rates. The words "transportation of mail by aircraft in foreign air transportation or between places in Alaska" are substituted for "transportation of mail by aircraft" because 49 App.:1551(b)(1)(D) and (E) provides that transportation of mail in interstate or overseas air transportation (except transportation of mail between 2 places in Alaska) is transferred to the jurisdiction of the United States Postal Service leaving the balance of authority under 49 App.:1376(a) with the Secretary of Transportation.

In subsections (c), (d), and (f), reference to service provided by the Postal Service is omitted as obsolete because of 39:5402(d).

In subsection (c), the words "In prescribing prices under subsection (b) of this section, the Secretary" are added for clarity.

In subsection (d), the text of 49 App.:1376(b) (2d sentence words after 2d semicolon, 5th–7th sentences) and (d) is omitted as obsolete because under 49 App.:1376(c) and 1376a, payments by the Board under 49 App.:1376 were terminated. The text of 49 App.:1376(b) (3d, 4th sentences) is omitted as obsolete because it applies only to rates paid for service performed between October 24, 1978, and January 1, 1983. The text of 49 App.:1376(b) (last sentence) is omitted as executed.

Subsection (g) is substituted for 49 App.:1551(b)(3) and 1553(c) because the date on which the authority of the Secretary of Transportation to provide for the transportation of mail by aircraft expires is set out in 39:5402(f). The source provisions of 49 App.:1551(b)(3) providing for the transfer of that authority from the Secretary to the Postal Service are restated in section 5(k) of this bill.

Section 1601(a)(8) provides that the authority under 49 App.:1371(l) and (m) and 1375(b)–(d) as those sections relate to transportation of mail by aircraft between places in Alaska (restated in sections 41107 and 41901–41903 of the revised title) ceases on January 1, 1999. Section 1601(b)(3) transfers the authority for prescribing rates for transportation of mail between places in Alaska from the Secretary of Transportation to the Postal Service effective January 1, 1999.

In this chapter, the word "places" is substituted for "points" for consistency in the revised title. The words "United States Postal Service" and "Postal Service" are substituted for "Postmaster General" in sections 401, 405, and 406 of the Federal Aviation Act of 1958 (Public Law 85–726, 72 Stat. 754, 760) because of sections 4(a) and 6(o) of the Postal Reorganization Act (Public Law 91–375, 84 Stat. 773, 783).

In subsection (a), the words "Except as provided in section 41906 of this title and section 5402 of title 39" are added because section 41906 of the revised title and 39:5402 contain exceptions to the provisions restated in this subsection. The words "transport mail by aircraft in foreign air transportation or between places in Alaska" are substituted for "transport mail" because 49 App.:1551(a)(4)(A) provides that 49 App.:1375(b) no longer applies to interstate or overseas air transportation (except transportation of mail between 2 places in Alaska).

In subsection (b), before clause (1), the words "from time to time" are omitted as surplus. Clauses (1) and (2) are substituted for "to engage in air transportation" because 49 App.:1551(a)(4)(A) provides that 49 App.:1375(b) no longer applies to interstate or overseas air transportation (except transportation of mail between 2 places in Alaska). In clause (4), the words "between places described in clauses (1) and (2) of this subsection and every change in each schedule" are substituted for "between such points" for clarity.

In subsection (c)(1), the words "any schedule of an air carrier filed under subsection (b)(3) of this section" are substituted for "any such schedule" for clarity.

In subsection (c)(2), the words "by order" are omitted as surplus.

In subsection (d), the word "alter" is omitted as being included in "amend, or modify".

In subsection (e), the words "adversely affected" are substituted for "aggrieved" for consistency in the revised title. The words "appeal the order" are substituted for "apply . . . for a review of such order" for consistency in the revised title and with other titles of the United States Code. The words "The Board may review, and" are omitted as surplus. The words "amend, modify" are substituted for "amend, revise" for consistency in the revised title.

Subsection (f) is substituted for 49 App.:1375(b) (8th sentence) to reflect the transfer of functions of the Civil Aeronautics Board to the Secretary of Transportation.

In subsection (a), before clause (1), the words "Subject to subsection (b) of this section" are added for clarity because subsection (b) limits the effect of this section. The words "transport mail by aircraft in foreign air transportation or between places in Alaska" are substituted for "the transportation of mail" in 49 App.:1371(l) and "the transportation of mail by aircraft" in 49 App.:1375(d) because 49 App.:1551(a)(4)(A) provides that 49 App.:1371(l) and 1375(d) no longer apply to interstate or overseas air transportation (except transportation of mail between 2 places in Alaska). Clause (2) is substituted for "shall transport mail whenever required by the United States Postal Service" in 49 App.:1371(l) and the text of 49 App.:1375(d) for clarity and to eliminate unnecessary words. The text of 49 App.:1371(l) (last sentence) is omitted as surplus because section 41901 of the revised title specifies how the rates of compensation are determined.

In subsection (b), before clause (1), the words "transportation of mail by aircraft in foreign air transportation or between places in Alaska" are added because 49 App.:1551(a)(4)(A) provides that 49 App.:1375(c) no longer applies to interstate or overseas air transportation of mail (except transportation of mail between 2 places in Alaska).

(a) PROHIBITED DISCRIMINATION.—A holder of a certificate under section 44704 or 44705 of this title, or a contractor, subcontractor, or supplier of such holder, may not discharge an employee or otherwise discriminate against an employee with respect to compensation, terms, conditions, or privileges of employment because the employee (or any person acting pursuant to a request of the employee)—

(1) provided, caused to be provided, or is about to provide (with any knowledge of the employer) or cause to be provided to the employer or Federal Government information relating to any violation or alleged violation of any order, regulation, or standard of the Federal Aviation Administration or any other provision of Federal law relating to aviation safety under this subtitle or any other law of the United States;

(3) testified or is about to testify in such a proceeding; or

(4) assisted or participated or is about to assist or participate in such a proceeding.

(b) DEPARTMENT OF LABOR AND FEDERAL AVIATION ADMINISTRATION COMPLAINT PROCEDURE.—

(1) FILING AND NOTIFICATION.—A person who believes that he or she has been discharged or otherwise discriminated against by any person in violation of subsection (a) may, not later than 90 days after the date on which such violation occurs, file (or have any person file on his or her behalf) a complaint with the Secretary of Labor alleging such discharge or discrimination. Upon receipt of such a complaint, the Secretary of Labor shall notify, in writing, the person named in the complaint and the Administrator of the Federal Aviation Administration of the filing of the complaint, of the allegations contained in the complaint, of the substance of evidence supporting the complaint, and of the opportunities that will be afforded to such person under paragraph (2).

(2) INVESTIGATION; PRELIMINARY ORDER.—

(A) IN GENERAL.—Not later than 60 days after the date of receipt of a complaint filed under paragraph (1) and after affording the person named in the complaint an opportunity to submit to the Secretary of Labor a written response to the complaint and an opportunity to meet with a representative of the Secretary to present statements from witnesses, the Secretary of Labor shall conduct an investigation and determine whether there is reasonable cause to believe that the complaint has merit and notify, in writing, the complainant and the person alleged to have committed a violation of subsection (a) of the Secretary's findings. If the Secretary of Labor concludes that there is a reasonable cause to believe that a violation of subsection (a) has occurred, the Secretary shall accompany the Secretary's findings with a preliminary order providing the relief prescribed by paragraph (3)(B). Not later than 30 days after the date of notification of findings under this paragraph, either the person alleged to have committed the violation or the complainant may file objections to the findings or preliminary order, or both, and request a hearing on the record. The filing of such objections shall not operate to stay any reinstatement remedy contained in the preliminary order. Such hearings shall be conducted expeditiously. (ii) SHOWING BY EMPLOYER.—Notwithstanding a finding by the Secretary that the complainant has made the showing required under clause (i), no investigation otherwise required under subparagraph (A) shall be conducted if the employer demonstrates, by clear and convincing evidence, that the employer would have taken the same unfavorable personnel action in the absence of that behavior.

(iii) CRITERIA FOR DETERMINATION BY SECRETARY.—The Secretary may determine that a violation of subsection (a) has occurred only if the complainant demonstrates that any behavior described in paragraphs (1) through (4) of subsection (a) was a contributing factor in the unfavorable personnel action alleged in the complaint.

(iv) PROHIBITION.—Relief may not be ordered under subparagraph (A) if the employer demonstrates by clear and convincing evidence that the employer would have taken the same unfavorable personnel action in the absence of that behavior.

(3) FINAL ORDER.—

(A) DEADLINE FOR ISSUANCE; SETTLEMENT AGREEMENTS.—Not later than 120 days after the date of conclusion of a hearing under paragraph (2), the Secretary of Labor shall issue a final order providing the relief prescribed by this paragraph or denying the complaint. (C) FRIVOLOUS COMPLAINTS.—If the Secretary of Labor finds that a complaint under paragraph (1) is frivolous or has been brought in bad faith, the Secretary of Labor may award to the prevailing employer a reasonable attorney's fee not exceeding $1,000.

(4) REVIEW.—

(A) APPEAL TO COURT OF APPEALS.—Any person adversely affected or aggrieved by an order issued under paragraph (3) may obtain review of the order in the United States Court of Appeals for the circuit in which the violation, with respect to which the order was issued, allegedly occurred or the circuit in which the complainant resided on the date of such violation. The petition for review must be filed not later than 60 days after the date of the issuance of the final order of the Secretary of Labor. Review shall conform to chapter 7 of title 5, United States Code. The commencement of proceedings under this subparagraph shall not, unless ordered by the court, operate as a stay of the order.

(B) LIMITATION ON COLLATERAL ATTACK.—An order of the Secretary of Labor with respect to which review could have been obtained under subparagraph (A) shall not be subject to judicial review in any criminal or other civil proceeding.

(5) ENFORCEMENT OF ORDER.—Whenever any person has failed to comply with an order issued under paragraph (3), the Secretary of Labor and the Administrator of the Federal Aviation Administration shall consult with each other to determine the most appropriate action to be taken, in which—

(A) the Secretary of Labor may file a civil action in the United States district court for the district in which the violation was found to occur to enforce such order, for which, in actions brought under this paragraph, the district courts shall have jurisdiction to grant all appropriate relief including, injunctive relief and compensatory damages; and

(B) the Administrator of the Federal Aviation Administration may assess a civil penalty pursuant to section 46301.

(B) ATTORNEY FEES.—The court, in issuing any final order under this paragraph, may award costs of litigation (including reasonable attorney and expert witness fees) to any party whenever the court determines such award is appropriate.

(c) MANDAMUS.—Any nondiscretionary duty imposed by this section shall be enforceable in a mandamus proceeding brought under section 1361 of title 28, United States Code.

"(2) The Cape Town Treaty provides for internationally established and recognized financing and leasing rights that will provide greater security and commercial predictability in connection with the financing and leasing of highly mobile assets, such as aircraft and aircraft engines.

"(3) The legal and financing framework of the Cape Town Treaty will provide substantial economic benefits to the aviation and aerospace sectors, including the promotion of exports, and will facilitate the acquisition of newer, safer aircraft around the world.

"(4) Only technical changes to United States law and regulations are required since the asset-based financing and leasing concepts embodied in the Cape Town Treaty are already reflected in the United States in the Uniform Commercial Code.

§44103. Registration of aircraft

(a) GENERAL.—(1) On application of the owner of an aircraft that meets the requirements of section 44102 of this title, the Administrator of the Federal Aviation Administration shall—

(A) register the aircraft; and

(B) issue a certificate of registration to its owner.

(2) The Administrator may prescribe the extent to which an aircraft owned by the holder of a dealer's certificate of registration issued under section 44104(2) of this title also is registered under this section.

(b) CONTROLLED SUBSTANCE VIOLATIONS.—(1) The Administrator may not issue an owner's certificate of registration under subsection (a)(1) of this section to a person whose certificate is revoked under section 44106 of this title during the 5-year period beginning on the date of the revocation, except—

(A) as provided in section 44106(e)(2) of this title; or

(B) that the Administrator may issue the certificate to the person after the one-year period beginning on the date of the revocation if the Administrator decides that the aircraft otherwise meets the requirements of section 44102 of this title and that denial of a certificate for the 5-year period—

(i) would be excessive considering the nature of the offense or the act committed and the burden the denial places on the person; or

(ii) would not be in the public interest.

(2) A decision of the Administrator under paragraph (1)(B)(i) or (ii) of this subsection is within the discretion of the Administrator. That decision or failure to make a decision is not subject to

administrative or judicial review.

(c) CERTIFICATES AS EVIDENCE.—A certificate of registration issued under this section is—

(1) conclusive evidence of the nationality of an aircraft for international purposes, but not conclusive evidence in a proceeding under the laws of the United States; and

(2) not evidence of ownership of an aircraft in a proceeding in which ownership is or may be in issue.

(d) CERTIFICATES AVAILABLE FOR INSPECTION.—An operator of an aircraft shall make available for inspection a certificate of registration for the aircraft when requested by a United States Government, State, or local law enforcement officer.

(e) VALIDITY OF AIRCRAFT REGISTRATION DURING RENEWAL.—

(1) IN GENERAL.—An aircraft may be operated on or after the expiration date found on the certificate of registration issued for such aircraft under this section as if it were not expired if the operator of such aircraft has aboard the aircraft—

(A) documentation validating that—

(i) an aircraft registration renewal application form (AC Form 8050–1B, or a succeeding form) has been submitted to the Administrator for such aircraft but not yet approved or denied; and

(ii) such aircraft is compliant with maintenance, inspections, and any other requirements for the aircraft's airworthiness certificate issued under section 44704(d); and

(B) the most recent aircraft registration.

(2) PROOF OF PENDING RENEWAL APPLICATION.—The Administrator shall provide an applicant for renewal of registration under this section with documentation described in paragraph (1)(A). Such documentation shall—

(A) be made electronically available to the applicant immediately upon submitting an aircraft registration renewal application to the Civil Aviation Registry for an aircraft;

(B) notify the applicant of the operational allowance described in paragraph (1);

(C) deem an aircraft's airworthiness certificate issued under section 44704(d) as valid provided that the applicant confirms acknowledgment of the requirements of paragraph (1)(A)(ii);

(D) confirm the applicant acknowledged the limitations described in paragraph (3)(A) and (3)(B); and

(E) include identifying information pertaining to such aircraft and to the registered owner.

(3) RULE OF CONSTRUCTION.—Nothing in this subsection shall be construed to permit any person to operate an aircraft—

(A) with an expired registration, except as specifically provided for under this subsection; or

(a) DEFINITION.—In this section, "controlled substance" has the same meaning given that term in section 102 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 802).

(b) REVOCATIONS.—(1) The Administrator of the Federal Aviation Administration shall issue an order revoking the certificate of registration for an aircraft issued to an owner under section 44103 of this title and any other certificate of registration that the owner of the aircraft holds under section 44103, if the Administrator finds that—

(B) the owner of the aircraft permitted the use of the aircraft knowing that the aircraft was to be used for the activity described in clause (A) of this paragraph.

(2) An aircraft owner that is not an individual is deemed to have permitted the use of the aircraft knowing that the aircraft was to be used for the activity described in paragraph (1)(A) of this subsection only if a majority of the individuals who control the owner of the aircraft or who are involved in forming the major policy of the owner permitted the use of the aircraft knowing that the aircraft was to be used for the activity described in paragraph (1)(A).

(c) ADVICE TO HOLDERS AND OPPORTUNITY TO ANSWER.—Before the Administrator revokes a certificate under subsection (b) of this section, the Administrator shall—

(1) advise the holder of the certificate of the charges or reasons on which the Administrator bases the proposed action; and

(2) provide the holder of the certificate an opportunity to answer the charges and state why the certificate should not be revoked.

(d) APPEALS.—(1) A person whose certificate is revoked by the Administrator under subsection (b) of this section may appeal the revocation order to the National Transportation Safety Board. The Board shall affirm or reverse the order after providing notice and a hearing on the record. In conducting the hearing, the Board is not bound by the findings of fact of the Administrator.

(2) When a person files an appeal with the Board under this subsection, the order of the Administrator revoking the certificate is stayed. However, if the Administrator advises the Board that safety in air transportation or air commerce requires the immediate effectiveness of the order—

(A) the order remains effective; and

(B) the Board shall dispose of the appeal not later than 60 days after notification by the Administrator under this paragraph.

(3) A person substantially affected by an order of the Board under this subsection may seek judicial review of the order under section 46110 of this title. The Administrator shall be made a party to that judicial proceeding.

(e) ACQUITTAL.—(1) The Administrator may not revoke, and the Board may not affirm a revocation of, a certificate of registration under this section on the basis of an activity described in subsection (b)(1)(A) of this section if the holder of the certificate is acquitted of all charges related to a controlled substance in an indictment or information arising from the activity.

L. 108–297, set out as a note under section 44101 of this title.

§44108. Validity of conveyances, leases, and security instruments

(a) VALIDITY BEFORE FILING.—Until a conveyance, lease, or instrument executed for security purposes that may be recorded under section 44107(a)(1) or (2) of this title is filed for recording, the conveyance, lease, or instrument is valid only against—

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2003 AMENDMENT

Amendment by Pub. L. 108–176 applicable only to fiscal years beginning after Sept. 30, 2003, except as otherwise specifically provided, see section 3 of Pub. L. 108–176, set out as a note under section 106 of this title.

§44302. General authority

(a) INSURANCE AND REINSURANCE.—(1) Subject to subsection (c) of this section and section 44305(a) of this title, the Secretary of Transportation may provide insurance and reinsurance against loss or damage arising out of any risk from the operation of an American aircraft or foreign-flag aircraft.

(2) An aircraft may be insured or reinsured for not more than its reasonable value as determined by the Secretary in accordance with reasonable business practices in the commercial aviation insurance industry. Insurance or reinsurance may be provided only when the Secretary decides that the insurance cannot be obtained on reasonable terms from an insurance carrier.

(b) REIMBURSEMENT OF INSURANCE COST INCREASES.—

(1) IN GENERAL.—The Secretary may reimburse an air carrier for the increase in the cost of insurance, with respect to a premium for coverage ending before October 1, 2002, against loss or damage arising out of any risk from the operation of an American aircraft over the insurance premium that was in effect for a comparable operation during the period beginning September 4, 2001, and ending September 10, 2001, as the Secretary may determine. Such reimbursement is subject to subsections (a)(2), (c), and (d) of this section and to section 44303.

(2) PAYMENT FROM REVOLVING FUND.—A reimbursement under this subsection shall be paid from the revolving fund established by section 44307.

(3) FURTHER CONDITIONS.—The Secretary may impose such further conditions on insurance for which the increase in premium is subject to reimbursement under this subsection as the Secretary may deem appropriate in the interest of air commerce.

(4) TERMINATION OF AUTHORITY.—The authority to reimburse air carriers under this subsection shall expire 180 days after the date of enactment of this paragraph.

(c) PRESIDENTIAL APPROVAL.—The Secretary may provide insurance or reinsurance under subsection (a) of this section, or reimburse an air carrier under subsection (b) of this section, only with the approval of the President. The President may approve the insurance or reinsurance or the reimbursement only after deciding that the continued operation of the American aircraft or foreign-flag aircraft to be insured or reinsured is necessary in the interest of air commerce or national security or to carry out the foreign policy of the United States Government.

(d) CONSULTATION.—The President may require the Secretary to consult with interested departments, agencies, and instrumentalities of the Government before providing insurance or reinsurance or reimbursing an air carrier under this chapter.

(e) ADDITIONAL INSURANCE.—With the approval of the Secretary, a person having an insurable interest in an aircraft may insure with other underwriters in an amount that is more than the amount insured with the Secretary. However, the Secretary may not benefit from the additional insurance. This subsection does not prevent the Secretary from making contracts of coinsurance.

(f) EXTENSION OF POLICIES.—

(1) IN GENERAL.—The Secretary shall extend through December 11, 2014, the termination date of any insurance policy that the Department of Transportation issued to an air carrier under subsection (a) and that is in effect on the date of enactment of this subsection on no less favorable terms to the air carrier than existed on June 19, 2002; except that the Secretary shall amend the insurance policy, subject to such terms and conditions as the Secretary may prescribe, to add coverage for losses or injuries to aircraft hulls, passengers, and crew at the limits carried by air carriers for such losses and injuries as of such date of enactment and at an additional premium comparable to the premium charged for third-party casualty coverage under such policy.

(2) SPECIAL RULES.—Notwithstanding paragraph (1)—

(A) in no event shall the total premium paid by the air carrier for the policy, as amended, be more than twice the premium that the air carrier was paying to the Department of Transportation for its third party policy as of June 19, 2002; and

(B) the coverage in such policy shall begin with the first dollar of any covered loss that is incurred.

(g) AIRCRAFT MANUFACTURERS.—

(1) IN GENERAL.—The Secretary may provide to an aircraft manufacturer insurance for loss or damage resulting from operation of an aircraft by an air carrier and involving war or terrorism.

(2) AMOUNT.—Insurance provided by the Secretary under this subsection shall be for loss or damage in excess of the greater of the amount of available primary insurance or $50,000,000.

(3) TERMS AND CONDITIONS.—Insurance provided by the Secretary under this subsection shall be subject to the terms and conditions set forth in this chapter and such other terms and conditions as the Secretary may prescribe.

HISTORICAL AND REVISION NOTES

Revised Section	*Source (U.S. Code)*	*Source (Statutes at Large)*
44303	49 App.:1533.	Aug. 23, 1958, Pub. L. 85–726, §1303, 72 Stat. 801; restated Nov. 9, 1977, Pub. L. 95–163, §3, 91 Stat. 1279.

In this section, before clause (1), the words "persons, property, or interest" are omitted as unnecessary. In clause (2), the word "property" is substituted for "Cargoes" and "air cargoes" for consistency in the revised title. In clause (2)(B) and (C), the words "its territories, or possessions" are omitted as unnecessary because of the definition of "United States" in section 40102(a) of the revised title. In clause (2)(C)(ii), the word "contract" is substituted for "contracts of sale or purchase", and the words "putting . . . on" are substituted for "is assumed by or falls upon", to eliminate unnecessary words. In clause (2)(D), the word "place" is substituted for "point" for consistency in the revised title. In subclause (i), the words "a State or the District of Columbia" are substituted for "the United States" for clarity and consistency because the definition of "United States" in section 40102(a) of the revised title is too broad for the context of the clause. The definition in section 40102(a) includes territories and possession and would therefore overlap with subclauses (ii) and (iii). In subclause (iii), the words "2 places in the same territory or possession of the United States" are substituted for "any point in any such territory or possession and any other point in the same territory or possession" for clarity. In clauses (3) and (4), the word "individuals" is substituted for "persons" as being more appropriate. The words "captains" and "pilots" are omitted as being included in "officers and members of the crew".

AMENDMENTS

2012—Pub. L. 112–95 substituted "any insurance carrier" for "the carrier".

2001—Pub. L. 107–42 struck out subsec. (a) designation and heading "General Authority" and struck out subsec. (b) which read as follows:

"(b) PREMIUM LEVELS.—The Secretary may provide reinsurance at premiums not less than, or obtain reinsurance at premiums not higher than, the premiums the Secretary establishes on similar risks or the premiums the insurance carrier charges for the insurance to be reinsured by the Secretary, whichever is most advantageous to the Secretary. However, the Secretary may make allowances to the insurance carrier for expenses incurred in providing services and facilities that the Secretary considers good business practice, except for payments by the carrier for the stimulation or solicitation of insurance business."

§44305. Insuring United States Government property

(a) GENERAL.—With the approval of the President, a department, agency, or instrumentality of the United States Government may obtain—

(1) insurance under this chapter, including insurance for risks from operating an aircraft in intrastate or interstate air commerce, but not including insurance on valuables subject to sections 17302 and 17303 of title 40; and

(2) insurance for risks arising from providing goods or services directly related to and necessary for operating an aircraft covered by insurance obtained under clause (1) of this subsection if the aircraft is operated—

(A) in carrying out a contract of the department, agency, or instrumentality; or

(B) to transport military forces or materiel on behalf of the United States under an agreement between the Government and the government of a foreign country.

(b) PREMIUM WAIVERS AND INDEMNIFICATION.—With the approval required under subsection (a) of this section, the Secretary of Transportation may provide the insurance without premium at the request of the Secretary of Defense or the head of a department, agency, or instrumentality designated by the President when the Secretary of Defense or the designated head agrees to indemnify the Secretary of Transportation against all losses covered by the insurance. The Secretary of Defense and any designated head may make indemnity agreements with the Secretary of Transportation under this section. If such an agreement is countersigned by the President or the President's designee, the agreement shall constitute, for purposes of section 44302(c), a

§44309. Civil actions

(a) LOSSES.—

(1) ACTIONS AGAINST UNITED STATES.—A person may bring a civil action in a district court of the United States or in the United States Court of Federal Claims against the United States Government when—

(A) a loss insured under this chapter is in dispute; or

(B)(i) the person is subrogated under a contract between the person and a party insured under this chapter (other than section 44305(b)) to the rights of the insured party against the United States Government; and

(ii) the person has paid to the insured party, with the approval of the Secretary of Transportation, an amount for a physical damage loss that the Secretary has determined is a loss covered by insurance issued under this chapter (other than section 44305(b)).

(2) LIMITATION.—A civil action involving the same matter (except the action authorized by this subsection) may not be brought against an agent, officer, or employee of the Government carrying out this chapter. A civil action shall not be instituted against the United States under this chapter unless the claimant first presents the claim to the Secretary of Transportation and such claim is finally denied by the Secretary in writing and notice of the denial of such claim is sent by certified or registered mail.

(3) PROCEDURE.—To the extent applicable, the procedure in an action brought under section 1346(a)(2) of title 28, United States Code, applies to an action under this subsection.

(b) VENUE AND JOINDER.—(1) A civil action under subsection (a) of this section may be brought in the judicial district for the District of Columbia or in the judicial district in which the plaintiff or the agent of the plaintiff resides if the plaintiff resides in the United States. If the plaintiff does not reside in the United States, the action may be brought in the judicial district for the District of Columbia or in the judicial district in which the Attorney General agrees to accept service.

(2) An interested person may be joined as a party to a civil action brought under subsection (a) of this section initially or on motion of either party to the action.

(c) TIME REQUIREMENTS.—(1) Except as provided under paragraph (2), an insurance claim made under this chapter against the United States shall be forever barred unless it is presented in writing to the Secretary of Transportation within two years after the date on which the loss event occurred. Any civil action arising out of the denial of such a claim shall be filed by not later than six

months after the date of the mailing, by certified or registered mail, of notice of final denial of the claim by the Secretary.

(2)(A) For claims based on liability to persons with whom the insured has no privity of contract, an insurance claim made under the authority of this chapter against the United States shall be forever barred unless it is presented in writing to the Secretary of Transportation by not later than the earlier of—

(i) the date that is 60 days after the date on which final judgment is entered by a tribunal of competent jurisdiction; or

(3) A claim made under this chapter shall be deemed to be administratively denied if the Secretary fails to make a final disposition of the claim before the date that is 6 months after the date on which the claim is presented to the Secretary, unless the Secretary makes a different agreement with the claimant when there is good cause for an agreement.

(d) INTERPLEADER.—(1) If the Secretary admits the Government owes money under an insurance claim under this chapter and there is a dispute about the person that is entitled to payment, the Government may bring a civil action of interpleader in a district court of the United States against the persons that may be entitled to payment. The action may be brought in the judicial district for the District of Columbia or in the judicial district in which any party resides.

(2) The district court may order a party not residing or found in the judicial district in which the action is brought to appear in a civil action under this subsection. The order shall be served in a reasonable manner decided by the district court. If the court decides an unknown person might assert a claim under the insurance that is the subject of the action, the court may order service on that person by publication in the Federal Register.

§44501. Plans and policy

(a) LONG RANGE PLANS AND POLICY REQUIREMENTS.—The Administrator of the Federal Aviation Administration shall make long range plans and policy for the orderly development and use of the navigable airspace, and the orderly development of air navigation facilities and services, that will best meet the needs of, and serve the interests of, civil aeronautics and the national defense, except for needs of the armed forces that are peculiar to air warfare and primarily of military concern.

(b) AIRWAY CAPITAL INVESTMENT PLAN.—The Administrator of the Federal Aviation Administration shall review, revise, and publish a national airways system plan, known as the Airway Capital Investment Plan, before the beginning of each fiscal year. The plan shall set forth—

(1) for a 10-year period, the research, engineering, procurement, and development programs and the facilities, services, and equipment that the Administrator considers necessary for a system of airways, air traffic services, and navigation aids that will—

(A) meet the forecasted needs of civil aeronautics;

(B) meet the requirements that the Secretary of Defense establishes for the support of the national defense; and

(C) provide the highest degree of safety in air commerce;

(2) for the first and second years of the plan, detailed annual estimates of—

(A) the number, type, location, and cost of acquiring, operating, and maintaining required facilities and services;

(B) the cost of research, engineering, procurement, and development required to improve safety, system capacity, and efficiency; and

(C) personnel levels required for the activities described in subparagraphs (A) and (B);

(3) for the third, fourth, and fifth years of the plan, estimates of the total cost of each major program for the 3-year period, and additional major research programs, acquisition of systems,

services, and facilities, and changes in personnel levels that may be required to meet long range objectives and that may have significant impact on future funding requirements;

(4) a 10-year investment plan that considers long range objectives that the Administrator considers necessary to—

(A) ensure that safety is given the highest priority in providing for a safe and efficient airway system; and

(B) meet the current and projected growth of the aerospace industry and the requirements of interstate commerce, the United States Postal Service, and the national defense; and

(5) a list of capital projects that are part of the Next Generation Air Transportation System and funded by amounts appropriated under section 48101(a).

(c) NATIONAL AVIATION RESEARCH PLAN.—(1) The Administrator of the Federal Aviation Administration shall prepare and publish annually a national aviation research plan and submit the plan to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science of the House of Representatives. The plan shall be submitted not later than the date that is 30 days after the date of submission of the President's budget to Congress. If such report cannot be prepared and submitted by the date that is 30 days after the date of submission of the President's budget to Congress, the Administrator shall submit, before such date, a letter to the Chairman and Ranking Member of the Committee on Commerce, Science, and Transportation of the Senate and the Committee of [1] Science, Space, and Technology of the House of Representatives stating the reason for delayed submission, impacts of the delay, and actions taken to address circumstances that led to the delay.

(2)(A) The plan shall describe, for a 5-year period, the research, engineering, and development that the Administrator of the Federal Aviation Administration considers necessary—

(i) to ensure the continued capacity, safety, and efficiency of aviation in the United States, considering emerging technologies and forecasted needs of civil aeronautics; and

(ii) to provide the highest degree of safety in air travel.

(B) The plan shall—

(i) provide estimates by year of the schedule, cost, and work force levels for each active and planned major research and development project under sections 44504, 44505, 44507, 44509, 44511–44513, and 44912 of this title, including activities carried out under cooperative agreements with other Federal departments and agencies;

(iii) identify the allocation of resources among long-term research, near-term research, and development activities;

(iv) identify the individual research and development projects in each funding category that are described in the annual budget request;

(v) highlight the research and development activities that address specific recommendations of the research advisory committee established under section 44508 of this title, and document the recommendations of the committee that are not accepted, specifying the reasons for nonacceptance; and

(vi) highlight the research and development technology transfer activities that promote technology sharing among government, industry, and academia through the Stevenson-Wydler Technology Innovation Act of 1980.

(3) Subject to section 44912(d)(2) and regulations prescribed under such section, the Administrator of the Federal Aviation Administration shall submit to the committees named in paragraph (1) of this subsection an annual report on the accomplishments of the research completed during the prior fiscal year, including a description of the dissemination to the private sector of research results and a description of any new technologies developed. §44502. General facilities and personnel authority

(a) GENERAL AUTHORITY.—(1) The Administrator of the Federal Aviation Administration may—

(A) acquire, establish, improve, operate, and maintain air navigation facilities; and

(B) provide facilities and personnel to regulate and protect air traffic.

(2) The cost of site preparation work associated with acquiring, establishing, or improving an air navigation facility under paragraph (1)(A) of this subsection shall be charged to amounts available for that purpose appropriated under section 48101(a) of this title. The Secretary of Transportation may make an agreement with an airport owner or sponsor (as defined in section 47102 of this title) so that the owner or sponsor will provide the work and be paid or reimbursed by the Secretary from the appropriated amounts.

(3) The Secretary of Transportation may authorize a department, agency, or instrumentality of the United States Government to carry out any duty or power under this subsection with the consent of the head of the department, agency, or instrumentality.

(4) PURCHASE OF INSTRUMENT LANDING SYSTEM.—

(A) ESTABLISHMENT OF PROGRAM.—The Secretary shall purchase precision approach instrument landing system equipment for installation at airports on an expedited basis.

(B) AUTHORIZATION.—No less than $30,000,000 of the amounts appropriated under section 48101(a) for each of fiscal years 2000 through 2002 shall be used for the purpose of carrying out this paragraph, including acquisition under new or existing contracts, site preparation work, installation, and related expenditures.

(5) IMPROVEMENTS ON LEASED PROPERTIES.—The Administrator may make improvements to real property leased for no or nominal consideration for an air navigation facility, regardless of whether the cost of making the improvements exceeds the cost of leasing the real property, if—

(A) the improvements primarily benefit the Government;

(B) the improvements are essential for accomplishment of the mission of the Federal Aviation Administration; and

(C) the interest of the United States Government in the improvements is protected.

(b) CERTIFICATION OF NECESSITY.—Except for Government money expended under this part or for a military purpose, Government money may be expended to acquire, establish, construct, operate, repair, alter, or maintain an air navigation facility only if the Administrator of the Federal Aviation Administration certifies in writing that the facility is reasonably necessary for use in air

commerce or for the national defense. An interested person may apply for a certificate for a facility to be acquired, established, constructed, operated, repaired, altered, or maintained by or for the person.

(c) ENSURING CONFORMITY WITH PLANS AND POLICIES.—(1) To ensure conformity with plans and policies for, and allocation of, airspace by the Administrator of the Federal Aviation Administration under section 40103(b)(1) of this title, a military airport, military landing area, or missile or rocket site may be acquired, established, or constructed, or a runway may be altered substantially, only if the Administrator of the Federal Aviation Administration is given reasonable prior notice so that the Administrator of the Federal Aviation Administration may advise the appropriate committees of Congress and interested departments, agencies, and instrumentalities of the Government on the effect of the acquisition, establishment, construction, or alteration on the use of airspace by aircraft. A disagreement between the Administrator of the Federal Aviation Administration and the Secretary of Defense or the Administrator of the National Aeronautics and Space Administration may be appealed to the President for a final decision.

(2) To ensure conformity, an airport or landing area not involving the expenditure of Government money may be established or constructed, or a runway may be altered substantially, only if the Administrator of the Federal Aviation Administration is given reasonable prior notice so that the Administrator may provide advice on the effects of the establishment, construction, or alteration on the use of airspace by aircraft.

(d) PUBLIC USE AND EMERGENCY ASSISTANCE.—(1) The head of a department, agency, or instrumentality of the Government having jurisdiction over an air navigation facility owned or operated by the Government may provide, under regulations the head of the department, agency, or instrumentality prescribes, for public use of the facility.

(2) The head of a department, agency, or instrumentality of the Government having jurisdiction over an airport or emergency landing field owned or operated by the Government may provide, under regulations the head of the department, agency, or instrumentality prescribes, for assistance, and the sale of fuel, oil, equipment, and supplies, to an aircraft, but only when necessary, because of an emergency, to allow the aircraft to continue to the nearest airport operated by private enterprise. The head of the department, agency, or instrumentality shall provide for the assistance and sale at the prevailing local fair market value as determined by the head of the department, agency, or instrumentality. An amount that the head decides is equal to the cost of the assistance provided and the fuel, oil, equipment, and supplies sold shall be credited to the appropriation from which the cost was paid. The balance shall be credited to miscellaneous receipts.

(e) [1] TRANSFERS OF AIR TRAFFIC SYSTEMS.—

(1) IN GENERAL.—Subject to paragraph (4), an airport in a non-contiguous State may transfer, without consideration, to the Administrator of the Federal Aviation Administration, an eligible air traffic system or equipment that conforms to performance specifications of the Administrator if a Government airport aid program, airport development aid program, or airport improvement project grant was used to assist in purchasing the system or equipment.

(2) ACCEPTANCE.—The Administrator shall accept the eligible air traffic system or equipment and operate and maintain it under criteria of the Administrator.

(3) DEFINITION.—In this subsection, the term "eligible air traffic system or equipment" means—

(A) an instrument landing system consisting of a glide slope and localizer (if the Administrator has determined that a satellite navigation system cannot provide a suitable approach to an airport);

(B) an Automated Weather Observing System weather observation system;

(C) a Remote Communication Air/Ground and Remote Communication Outlet communications facility; or

(D) a Medium Intensity Approach Lighting System with Runway Alignment Indicator Lights.

(4) EXCEPTION.—The requirement under paragraph (1) that an eligible air traffic system or equipment be purchased in part using a Government airport aid program, airport development aid

program, or airport improvement project grant shall not apply if the air traffic system or equipment is installed at an airport that is categorized as a basic or local general aviation airport under the most recently published national plan of integrated airport systems under section 47103.

(f) AIRPORT SPACE.—

(1) RESTRICTION.—The Administrator may not require an airport owner or sponsor (as defined in section 47102) to provide to the Federal Aviation Administration without cost any of the following:

(A) Building construction, maintenance, utilities, or expenses for services relating to air traffic control, air navigation, or weather reporting.

(B) Space in a facility owned by the airport owner or sponsor for services relating to air traffic control, air navigation, or weather reporting.

(2) RULE OF CONSTRUCTION.—Nothing in this subsection may be construed to affect—

(A) any agreement the Secretary may have or make with an airport owner or sponsor for the airport owner or sponsor to provide any of the items described in paragraph (1)(A) or (1)(B) at below-market rates; or

(B) any grant assurance that requires an airport owner or sponsor to provide land to the Administration without cost for an air traffic control facility.

"(2) SECTION RULE.—In the case of an employee on leave without pay or other similar status for any part of the quarter prior to June 17, 1994, based on which the amount of the allowance payments for such employee under subsection (a) are computed, the 'amount of the last quarterly retention allowance payment paid to such employee under the personnel demonstration project prior to June 17, 1994' shall, for purposes of paragraph (1), be deemed to be the amount of the allowance which would have been payable to such employee for such quarter under such project had such employee been in pay status throughout such quarter.

"(c) TERMINATION.—An employee's entitlement to quarterly retention allowance payments under this section shall cease when—

"(1) the amount of such allowance is reduced to zero under subsection (b), or

"(2) the employee separates or moves to a position in which the employee would not, prior to June 17, 1994, have been entitled to receive an allowance under the demonstration project,

whichever is earlier.

"(d) SPECIAL PAYMENT RULE.—The Administrator of the Federal Aviation Administration may make payment for the costs incurred under the program established by subsection (a) for the period between June 18, 1994, and September 30, 1994, following the end of the first full pay period that begins on or after October 1, 1994, subject to appropriations made available in fiscal year 1995.

Nothing in this section shall require the Administrator to prioritize an airfield pavement research program above safety, security, Flight 21, environment, or energy research programs."

§44506. Air traffic controllers

(a) RESEARCH ON EFFECT OF AUTOMATION ON PERFORMANCE.—To develop the means necessary to establish appropriate selection criteria and training methodologies for the next generation of air traffic controllers, the Administrator of the Federal Aviation Administration shall conduct research to study the effect of automation on the performance of the next generation of air traffic controllers and the air traffic control system. The research shall include investigating—

(1) methods for improving and accelerating future air traffic controller training through the application of advanced training techniques, including the use of simulation technology;

(2) the role of automation in the air traffic control system and its physical and psychological effects on air traffic controllers;

(3) the attributes and aptitudes needed to function well in a highly automated air traffic control system and the development of appropriate testing methods for identifying individuals with those attributes and aptitudes;

(4) innovative methods for training potential air traffic controllers to enhance the benefits of automation and maximize the effectiveness of the air traffic control system; and

(5) new technologies and procedures for exploiting automated communication systems, including Mode S Transponders, to improve information transfers between air traffic controllers and aircraft pilots.

(b) RESEARCH ON HUMAN FACTOR ASPECTS OF AUTOMATION.—The Administrators

of the Federal Aviation Administration and National Aeronautics and Space Administration may make an agreement for the use of the National Aeronautics and Space Administration's unique human factor facilities and expertise in conducting research activities to study the human factor aspects of the highly automated environment for the next generation of air traffic controllers. The research activities shall include investigating—

(1) human perceptual capabilities and the effect of computer-aided decision making on the workload and performance of air traffic controllers;

(2) information management techniques for advanced air traffic control display systems; and

(3) air traffic controller workload and performance measures, including the development of predictive models.

(c) COLLEGIATE TRAINING INITIATIVE.—(1) The Administrator of the Federal Aviation Administration may maintain the Collegiate Training Initiative program by making new agreements and continuing existing agreements with institutions of higher education (as defined by the Administrator) under which the institutions prepare students for the position of air traffic controller with the Department of Transportation (as defined in section 2109 of title 5). The Administrator may establish standards for the entry of institutions into the program and for their continued participation.

(2)(A) The Administrator of the Federal Aviation Administration may appoint an individual who has successfully completed a course of training in a program described in paragraph (1) of this subsection to the position of air traffic controller noncompetitively in the excepted service (as defined in section 2103 of title 5). An individual appointed under this paragraph serves at the pleasure of the Administrator, subject to section 7511 of title 5. However, an appointment under this paragraph may be converted from one in the excepted service to a career conditional or career appointment in the competitive civil service (as defined in section 2102 of title 5) when the individual achieves full performance level air traffic controller status, as decided by the Administrator.

(B) The authority under subparagraph (A) of this paragraph to make appointments in the excepted service expires on October 6, 1997, except that the Administrator of the Federal Aviation Administration may extend the authority for one or more successive one-year periods.

(d) AIR TRAFFIC CONTROL SPECIALIST QUALIFICATION TRAINING.—

(1) APPOINTMENT OF AIR TRAFFIC CONTROL SPECIALISTS.—The Administrator is authorized to appoint a qualified air traffic control specialist candidate for placement in an airport traffic control facility if the candidate has—

(A) received a control tower operator certification (referred to in this subsection as a "CTO" certificate); and

(B) satisfied all other applicable qualification requirements for an air traffic control specialist position, including successful completion of orientation training at the Federal Aviation Administration Academy.

(2) COMPENSATION AND BENEFITS.—An individual appointed under paragraph (1) shall receive the same compensation and benefits, and be treated in the same manner as, any other individual appointed as a developmental air traffic controller.

(3) REPORT.—Not later than 2 years after the date of enactment of the FAA Modernization and Reform Act of 2012, the Administrator shall submit to Congress a report that evaluates the effectiveness of the air traffic control specialist qualification training provided pursuant to this section, including the graduation rates of candidates who received a CTO certificate and are working in airport traffic control facilities.

(4) ADDITIONAL APPOINTMENTS.—If the Administrator determines that air traffic control specialists appointed pursuant to this subsection are more successful in carrying out the duties of an air traffic controller than air traffic control specialists hired from the general public without any such certification, the Administrator shall increase, to the maximum extent practicable, the number of appointments of candidates who possess such certification.

(5) REIMBURSEMENT FOR TRAVEL EXPENSES ASSOCIATED WITH

CERTIFICATIONS.—

(A) IN GENERAL.—Subject to subparagraph (B), the Administrator may accept reimbursement from an educational entity that provides training to an air traffic control specialist candidate to cover reasonable travel expenses of the Administrator associated with issuing certifications to such candidates.

(B) TREATMENT OF REIMBURSEMENTS.—Notwithstanding section 3302 of title 31, any reimbursement authorized to be collected under subparagraph (A) shall—

(i) be credited as offsetting collections to the account that finances the activities and services for which the reimbursement is accepted;

(ii) be available for expenditure only to pay the costs of activities and services for which the reimbursement is accepted, including all costs associated with collecting such reimbursement; and

(iii) remain available until expended.

(e) STAFFING REPORT.—The Administrator of the Federal Aviation Administration shall submit annually to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report containing—

(1) the staffing standards used to determine the number of fully certified air traffic controllers needed to operate the air traffic control system of the United States;

(2) for each air traffic control facility operated by the Federal Aviation Administration—

(A) the current certified professional controller staffing levels;

(B) the operational staffing targets for certified professional controllers;

(C) the anticipated certified professional controller attrition for each of the next 3 years; and

(D) the number of certified professional controller trainees;

(3) a 3-year projection of the number of controllers needed to be employed to operate the system to meet the standards; and

(4) a detailed plan for employing the controllers, including projected budget requests.

(f) HIRING OF CERTAIN AIR TRAFFIC CONTROL SPECIALISTS.—

(1) CONSIDERATION OF APPLICANTS.—

(A) ENSURING SELECTION OF MOST QUALIFIED APPLICANTS.—In appointing individuals to the position of air traffic controller, the Administrator shall give preferential consideration to qualified individuals maintaining 52 consecutive weeks of air traffic control experience involving the full-time active separation of air traffic after receipt of an air traffic certification or air traffic control facility rating within 5 years of application while serving at—

(ii) WAIVER OF AGE RESTRICTION.—The Administrator shall waive any maximum age restriction for the position of air traffic controller with the Administration that would otherwise disqualify an individual from the position if the individual—

(I) is reapplying for the position pursuant to clause (i) on or before December 31, 2017; and

(II) met the maximum age requirement on the date of the individual's previous application for the position during the interim hiring process.

(3) MAXIMUM ENTRY AGE FOR EXPERIENCED CONTROLLERS.—Notwithstanding

section 3307 of title 5, except for individuals covered by the program described in paragraph (4), the maximum limit of age for an original appointment to a position as an air traffic controller shall be 35 years of age for those maintaining 52 weeks of air traffic control experience involving the full-time active separation of air traffic after receipt of an air traffic certification or air traffic control facility rating in a civilian or military air traffic control facility.

EXECUTIVE DOCUMENTS

KEEPING AMERICANS SAFE IN AVIATION

Memorandum of President of the United States, Jan. 21, 2025, 90 F.R. 8651, provided:

Memorandum for the Secretary of Transportation [and] the Administrator of the Federal Aviation Administration

Every day, the Federal Aviation Administration (FAA), within the U.S. Department of Transportation, oversees safety for more than 45,000 flights and 2.9 million airline passengers. These Americans trust the FAA's public servants with their lives, and it is therefore imperative that they maintain a commitment to excellence and efficiency.

During the prior administration, however, the FAA betrayed its mission by elevating dangerous discrimination over excellence. For example, prior to my Inauguration, the FAA Diversity and Inclusion website revealed that the prior administration sought to specifically recruit and hire individuals with serious infirmities that could impact the execution of their essential life-saving duties.

Illegal and discriminatory diversity, equity, and inclusion (DEI) hiring, including on the basis of race, sex, disability, or any other criteria other than the safety of airline passengers and overall job excellence, competency, and qualification, harms all Americans, who deserve to fly with confidence. It also penalizes hard-working Americans who want to serve in the FAA but are unable to do so, as they lack a requisite disability or skin color. FAA Federal servants must hold the qualifications and ability to perform their jobs to the highest possible standard of excellence.

I hereby order the Secretary of Transportation and the Federal Aviation Administrator to immediately return to non-discriminatory, merit-based hiring, as required by law. All so-called DEI initiatives, including all dangerous preferencing policies or practices, shall immediately be rescinded in favor of hiring, promoting, and otherwise treating employees on the basis of individual capability, competence, achievement, and dedication.

The Secretary of Transportation and the Federal Aviation Administrator shall review the past performance and performance standards of all individuals in critical safety positions and take all appropriate action to ensure that any individual who fails or has failed to demonstrate requisite capability is replaced by a high-capability individual that will ensure top-notch air safety and efficiency.

DONALD J. TRUMP.

(4) REGISTERED AIRCRAFT DEFINED.—In this subsection, the term "registered aircraft" means—

(A) aircraft registered in the United States and operated pursuant to an agreement for the lease, charter, or interchange of the aircraft or any similar arrangement by an operator that has its principal place of business or, if it has no such place of business, its permanent residence in another country; and

(B) aircraft registered in a foreign country and operated under an agreement for the lease, charter, or interchange of the aircraft or any similar arrangement by an operator that has its principal place of business or, if it has no such place of business, its permanent residence in the United States.

(5) FOREIGN AIRWORTHINESS DIRECTIVES.—

(A) ACCEPTANCE.—Subject to subparagraph (D), the Administrator may accept an airworthiness directive, as defined in section 39.3 of title 14, Code of Federal Regulations, issued by an aeronautical safety authority of a foreign country, and leverage that authority's regulatory process, if—

(i) the country is the state of design for the product that is the subject of the airworthiness directive;

(ii) the United States has a bilateral safety agreement relating to aircraft certification with the country;

(iii) as part of the bilateral safety agreement with the country, the Administrator has determined that such aeronautical safety authority has an aircraft certification system relating to safety that produces a level of safety equivalent to the level produced by the system of the Federal Aviation Administration;

(iv) the aeronautical safety authority of the country utilizes an open and transparent notice and comment process in the issuance of airworthiness directives; and

(v) the airworthiness directive is necessary to provide for the safe operation of the aircraft subject to the directive.

(B) ALTERNATIVE APPROVAL PROCESS.—Notwithstanding subparagraph (A), the Administrator may issue a Federal Aviation Administration airworthiness directive instead of accepting an airworthiness directive otherwise eligible for acceptance under such subparagraph, if the Administrator determines that such issuance is necessary for safety or operational reasons due to the complexity or unique features of the Federal Aviation Administration airworthiness directive or the United States aviation system.

(C) ALTERNATIVE MEANS OF COMPLIANCE.—The Administrator may—

(i) accept an alternative means of compliance, with respect to an airworthiness directive accepted under subparagraph (A), that was approved by the aeronautical safety authority of the foreign country that issued the airworthiness directive; or

(ii) notwithstanding subparagraph (A), and at the request of any person affected by an airworthiness directive accepted under such subparagraph, approve an alternative means of compliance with respect to the airworthiness directive.

(D) LIMITATION.—The Administrator may not accept an airworthiness directive issued by an aeronautical safety authority of a foreign country if the airworthiness directive addresses matters other than those involving the safe operation of an aircraft.

(f) EXEMPTIONS.—The Administrator may grant an exemption from a requirement of a regulation prescribed under subsection (a) or (b) of this section or any of sections 44702–44716 of this title if the Administrator finds the exemption is in the public interest.

(g) EXCLUSIVE RULEMAKING AUTHORITY.—Notwithstanding any other provision of law and except as provided in section 40131, the Administrator, in consultation with the heads of such other agencies as the Administrator determines necessary, shall have exclusive authority to prescribe regulations for purposes of assuring the cybersecurity of civil aircraft, aircraft engines, propellers, and appliances.

(h) POLICIES, ORDERS, AND GUIDANCE.—

(1) CONSISTENCY OF APPLICATION.—The Administrator shall ensure consistency in the application of policies, orders, and guidance of the Administration by—

(A) audits of the application and interpretation of such material by Administration personnel from person to person and office to office;

(B) updating policies, orders, and guidance to resolve inconsistencies and clarify demonstrated ambiguities, such as through repeated inconsistent interpretation; and

(C) ensuring officials are properly documenting findings and decisions throughout a project to decrease the occurrence of duplicative work and inconsistent findings by subsequent officials assigned to the same project.

(2) ALTERATIONS.—The Administrator shall consult as appropriate with regulated entities who will be impacted by proposed changes to the content or application of policies, orders, and guidance before making such changes.

(3) AUTHORITIES AND REGULATIONS.—The Administrator shall issue policies, orders, and guidance documents that are related to a law or regulation or clarify the intent of or compliance with specific laws and regulations.
